The 2010–2011 University Catalog

Although this catalog was prepared on the basis of the best information available at the time of publication, all information, including statements of tuition and fees, course offerings, and admission and graduation requirements, is subject to change without notice or obligation. The catalog is produced by the Office of University Relations, in cooperation with university administration.

Equal Opportunity/Affirmative Action

George Mason University is an equal opportunity/affirmative action institution. See the General Policies chapter in this catalog for a full statement of the university’s equal opportunity/affirmative action policies.

Vision for the New Century

George Mason University will be the university needed by a region and a world driven by new social, economic, and technological realities.

We are in the right place: The nation’s capital region is the epicenter of the world’s political web, its information and communications network, and its new economy.

We are ready: In an age that demands originality and imagination, Mason is among the nation’s most innovative universities.

Mason will

- Be a magnet for outstanding faculty who will devise new ways to approach problems, invent new ways to teach, and develop new knowledge for the benefit of the region and nation.
- Attract inventive, industrious students of all ages and cultures, and produce citizens who are intellectually and technologically literate—people who will lead by the force of their ideas.
- Transform into knowledge and wisdom the vast amounts of information now accessible through new technologies.
- Build strong alliances that bring the know-how of business and the community into the university and take the knowledge of the university into the workplace and the larger society.
- Be a center of inquiry, knowledge, and professional expertise in fields with vital implications for human needs and opportunities in the future.
- Remain innovative, resourceful, and responsive while drawing on the intellectual and cultural heritage of the classical university.

Alan G. Merten
President, George Mason University

Faculty and Students

The university’s more than 1,000 full-time instructional and research faculty members are experts in a broad range of fields. They have published widely, contributed to major research findings, and consulted with government and business officials. Faculty members have received grants and awards from the Guggenheim Foundation, the Templeton Foundation, the National Science Foundation, the National Endowment for the Arts, and the National Endowment for the Humanities, and have won Fulbright Scholar grants and Mellon Fellowships.

Of particular interest to undergraduates are the Robinson Professors, outstanding scholars in the liberal arts and sciences who have come to Mason from prestigious positions elsewhere. They are concerned with broad and fundamental intellectual issues and are dedicated to undergraduate teaching. For course offerings by Robinson Professors, please see provost.gmu.edu/robinson/index.html.

The majority of the university’s more than 31,000 students are from Virginia; however, all 50 states and Washington, D.C., as well as 130 countries, are represented in the student body.
While full-time undergraduates, 18 to 24 years in age, make up the largest student group, part-time graduate and undergraduate students account for nearly half of the student population. Mason welcomes qualified students with a wide range of interests and backgrounds.

**Distributed University**
Mason is a distributed university, with campuses in Fairfax, Arlington, and Prince William counties, and satellite sites in Loudoun County, Herndon, Reston, and Front Royal. Each Mason campus has a distinctive academic focus that plays a critical role in the economy of its surrounding region. At each campus, students and faculty have access to all the university’s resources, while the duplication of programs and support services is minimized through the use of technology.

**Fairfax Campus**
Situated on 677 acres of wooded land, the Fairfax Campus offers a wealth of opportunities beyond the numerous academic programs and is the principal center for undergraduate residence and life. The resident student population is expected to grow to more than 5,800 during the next five years as new residential units are constructed.

The George W. Johnson Center, the first building of its kind in the country, fosters university-wide learning by integrating students’ curricular and extracurricular activities and strengthening relationships among university communities.

The Center for the Arts and the Patriot Center offer numerous opportunities to experience the arts, as well as sports and other entertainment. Professional artistic events presented on campus include music and dance from around the world; Theater of the First Amendment, Mason’s professional theater company; and regional, national, and international visual art exhibitions. Free tickets are available to these events for full-time Mason students.

The Aquatic and Fitness Center provides state-of-the-art exercise equipment and competitive and recreational swimming to the university community and outside teams. The 120,000 square foot Recreation and Athletic Complex (formerly the PE Building) boasts three gymnasiums, two racquetball courts, two squash courts, and a two story fitness gallery. Additional equipment and exercise space is also available in Skyline Fitness, adjacent to the residence halls.

**Arlington Campus**
The Arlington Campus is located near Washington, D.C., on 5.2 acres of land. Mason's most urban location, the Arlington Campus offers convenient access via Metro and key transportation routes. It currently comprises three buildings: the Original Building, formerly known as the Kann's Department Store; Hazel Hall, which is home to the School of Law; and 3330 Washington Boulevard, a leased facility. The George Mason University Foundation also supports the Arlington Campus with a building that includes parking: 192,000 square feet of leased office space; and 13,000 square feet of retail space.

Part of a three-phase plan to develop the overall campus, Arlington's newest structure is Founders Hall, scheduled for occupancy in fall 2010. Founders Hall will provide 256,000 square feet of space that will include the new home for the School of Public Policy and space for the School of Law, as well as academic and student support services. In addition, the building features a 300-seat auditorium, a public plaza, a large multipurpose room, and three levels of underground parking (443 additional parking spaces). These new spaces will enable the university to highlight and showcase much of the exciting work taking place at the Arlington campus - as well as throughout the university - through the hosting of conferences, meetings and other events. Once complete, the Arlington Campus will include 750,000 square feet of space and many new facilities to accommodate its projected 8,000 undergraduate, graduate, and professional students.

The Arlington Campus is also home to the Institute for Conflict Analysis and Resolution (ICAR), as well as programs in social work, nonprofit management, arts management, business administration, and Initiatives in Educational Transformation (IET). The Volgenau School of Information Technology and Engineering (VSITE) offers special certification courses in information technology through its TechAdvance Program through the Office of Continuing Professional Education (OCPE). Additional continuing and professional education classes are also available on site. While most of the programs offered on the Arlington Campus are on the graduate and professional levels, some undergraduate courses are available.
The Mercatus Center, the James M. Buchanan Center for Political Economy, and the Institute for Humane Studies—independent initiatives affiliated with the university—can also be found on the Arlington Campus. In addition, the campus houses the Center for Global Studies; Center for Justice, Law, and Society; Critical Infrastructure Protection Program; Interdisciplinary Center for Economic Science; and Interdisciplinary Center for Regional Economic Competitiveness.

Prince William Campus

The Prince William Campus resides on 134 acres in Manassas, near the intersection of I-66 and the Prince William Parkway. The campus serves all of Northern Virginia and offers convenient access to the university for citizens of Prince William, Fauquier, and western Fairfax counties; the cities of Manassas and Manassas Park; and adjoining areas to the west and south. The campus comprises six buildings: two research facilities, two academic buildings, a recreation and fitness center and a performing arts center.

Through mutually beneficial partnerships with local government and area businesses, the campus has positioned itself to tap into the unique assets of the surrounding community while providing access to university resources and programs for students and citizens.

A major focus of the campus is research and academic programs in the life sciences, including biodefense and infectious diseases, cancer proteomics, genomics, and bioinformatics. A graduate studies medical education program in the field of personalized medicine is offered beginning fall 2010. Programs in nursing, teacher education, administration of justice, business, information technology, health and fitness, recreation, exercise science, health promotion, parks and outdoor recreation, sport management, therapeutic recreation, tourism and events management, and athletic training also are offered on the campus. Professional certificate programs are available through the Office of Continuing Professional Education.

The university’s Biomedical Research Laboratory (BRL) opened in 2010. This regional biocontainment facility is funded in part by the National Institute of Allergy and Infectious Diseases and houses research on emerging infectious diseases and those caused by biological threat agents.

Campus resources available to all university students, faculty, and staff include a full-service library, a large drop-in computer lab, an information center, University Police, a university bookstore, dining services, student lounge space, a shuttle bus between the Fairfax and Prince William Campuses, and a full complement of student and academic services. In addition, there are numerous opportunities to get involved in campus life through a variety of co-curricular and extracurricular activities.

Many campus facilities and services are available to serve university and community needs. The 300-seat Verizon Auditorium boasts innovative audiovisual technologies suitable for presentations, meetings, and ceremonies, along with lobby space for receptions and displays.

The 110,000-square-foot Freedom Aquatic and Fitness Center offers state-of-the-art exercise equipment, group fitness programs, a full gymnasium with elevated track, and recreational and instructional swimming in a 50-meter competition pool, classrooms, and other meeting spaces. It is also home to EDGE, Mason Center for Team and Organizational Learning’s Challenge Course.

Prince William County, the City of Manassas, and Mason, along with the private sector, have joined to create the region’s first state-of-the-art performing arts center. The Hylton Performing Arts Center (HPAC), opened in 2010, provides outstanding professional performances by artists from around the world in world-class venues. With resources for community arts groups; regional business, civic, and service organizations; county and city school students and teachers; Mason students and faculty, HPAC educates, entertains, and enriches the community.

The Governor's School @ Innovation Park conducts classes at the Prince William campus, beginning fall 2010.

Mason in Loudoun

Mason’s new Loudoun County operation—Mason in Loudoun—aims to connect students and businesses in one of the nation’s fastest-growing areas to one of the commonwealth’s premier universities. The goal of 'Mason in Loudoun' is to provide courses
that will introduce the area's workforce and residents to study in a number of exciting areas, while offering current students a local option toward completion of degree program requirements.

Located in leased space at 21641 Ridgetop Circle in Sterling, Virginia, 'Mason in Loudoun' offers course work in nursing, health science, education, information technology, and management, along with undergraduate general education courses. The operation will rapidly expand its range of courses as student demand and opportunities suggest. Students enrolled in Loudoun enjoy the same rights, privileges, and access as those on Mason’s Fairfax, Arlington, and Prince William Campuses.

**Satellite Sites**

The Office of Continuing Professional Education’s Herndon Training Center, located off the Dulles Toll Road and Route 28 at the Center for Innovative Technology (CIT), provides a wide range of yearly open-enrollment seminars and workshops in its meeting facilities. CIT classrooms are fully electronic and include a groupware platform. The School of Management’s Executive MBA Program and the Volgenau School of Information Technology and Engineering’s TechAdvance Program are located here.

Each spring the university offers a Smithsonian-Mason Semester at the Smithsonian Conservation Biology Institute (SCBI) in Front Royal, Virginia. Students live on site at one of the most significant conservation facilities in the world and work with prominent research scientists, educators, and conservation practitioners in a unique learning community.

**George Mason, the Man**

When George Mason (1725–92) wrote the Virginia Declaration of Rights in 1776, he gave America the noble concept that the rights of the individual must be protected against the power of government. By placing in Virginia’s first constitution a list of rights that could never be taken away from citizens, George Mason sought to ensure a society in which government could not become all-powerful.

As a result of his influence, the first 10 amendments, which we know as the Bill of Rights, were added to the U.S. Constitution. The universal significance of this action made the American Revolution much more than a war for independence from Great Britain; it enshrined in our most important public document the principle that a government must always respect the rights of the people.

George Mason, a slave owner, did not recognize that those rights extended to slaves. Nevertheless, his words were later used to demonstrate that slavery could not exist in a country that proclaimed its belief in human rights. While we as a country have not always adhered to George Mason’s great ideas, they remain the measure of the best in our national life.

**University History**

The university’s growing reputation as an innovative educational leader is rooted in Virginia’s strong educational tradition. By emphasizing high technology, public policy, and the fine and performing arts, Mason has created a curriculum and mission to meet the needs of Northern Virginia’s extraordinary cosmopolitan constituency.

The idea for George Mason University was born in 1949 when the Northern Virginia University Center, essentially an adult-education extension of the University of Virginia at Charlottesville, opened under the direction of John Norville Gibson Finley. In 1955 and again in 1956, the Board of Visitors of the University of Virginia and Virginia legislature authorized the establishment of a two-year branch college to serve Northern Virginia.

The university’s formal history began in 1957 as University College, the Northern Virginia branch of the University of Virginia, offering courses in engineering and the liberal arts. It opened in a renovated elementary school in the Bailey’s Crossroads area with an enrollment of 17 students.

Eager to support the fledgling institution, the Town (now City) of Fairfax purchased 150 acres in 1958 and donated the land to the University of Virginia for a permanent branch campus. The following year, the University of Virginia Board of Visitors selected the name George Mason College. Construction of the campus’ first four buildings was completed in 1964. In September of that year, 356 students began their studies in the new classrooms.
In March 1966, the General Assembly authorized the expansion of George Mason College into a four-year, degree-granting institution and gave it the long-range mandate to expand into a major regional university. The first senior class received degrees in June 1968. Graduate programs began in September 1970, with the first master’s degrees conferred in June 1971. The George Mason College Board of Control, supported by citizens of the cities of Alexandria and Falls Church, and Arlington and Fairfax counties, acquired an additional 422 acres. By the end of 1970, the college’s Fairfax Campus reached 572 acres; it is now 677 acres.

In 1972, the Board of Visitors of the University of Virginia recommended that the college separate from its parent institution. On April 7 of that year, the governor signed the General Assembly legislation that established George Mason University as an independent member of Virginia’s system of colleges and universities.

Since 1972, the university’s development has been marked by rapid growth and innovative planning. In 29 years, enrollment has risen from 4,166 to more than 30,000 students. In 1979, Mason was given the authority to grant doctoral degrees and began offering programs at this level. In the same year, the university acquired what became George Mason University School of Law, located on the Arlington Campus.

In 1984, the first Robinson Professors, a group of outstanding scholars committed to undergraduate teaching and interdisciplinary scholarship, joined the faculty as the result of a generous bequest from the estate of Clarence J. Robinson.

Drawing prominent scholars from all fields, Mason’s outstanding faculty includes Pulitzer Prize winners, a Nobel laureate, Institute of Electrical and Electronics Engineers Centennial Medalists, and recipients of numerous Fulbright, National Science Foundation, and National Endowment for the Arts grants and awards, among others. More than 30 endowed chairs at the university have also brought many internationally renowned artists and scholars to campus.

In 1985, Mason partnered with area businesses to develop an engineering program geared toward the emerging information technology field and started what is now the Volgenau School of Information Technology and Engineering. With the Volgenau School, Mason was the first institution in the country to offer a doctoral degree in information technology.

The establishment in 1990 of the Institute of the Arts, which became the College of Visual and Performing Arts in 2001, solidified the university’s commitment to make the arts an integral part of students’ lives. The Center for the Arts and the arts complex, which includes art galleries, studio and rehearsal space, and performing venues such as Harris Theater and TheaterSpace, are all components of the college.

On the Fairfax Campus, the innovative George W. Johnson Center was dedicated in April 1996. By combining student life resources with educational support facilities such as an interactive library, Mason created the learning workspace of the future. Educational administrators from around the world have toured the center.

The university’s facilities continue to grow. In 2006, the university opened its first facility dedicated to research, - Research I, which contains an observatory and laboratories for a number of campus research centers. In 2009 the university opened the Nguyen Engineering Building, which is now the largest academic building on campus. In addition to being the university’s first LEED-certified building on the Fairfax Campus, the Nguyen Engineering Building is also the first in Virginia’s public university system to offer corporate lease space. Also opening in 2009 was the Art and Design Building, which is now home to the School of Art.

Masonvale, a townhome community on campus that provides transitional housing for faculty and staff, opened in late 2009. The Mason Inn conference center and hotel will open in summer 2010.

The university has achieved national distinction in many areas. Its reputation continues to grow as Mason provides educational, cultural, and economic resources for the people of Virginia, the nation, and the world.

University’s Mission

George Mason University is innovative and entrepreneurial in spirit and uses its multicampus organization and location near our nation's capital to attract outstanding faculty, staff, and students. George Mason will:
Educate the new generation of leaders for the 21st century—men and women capable of shaping a global community with vision, justice, and clarity.

Encourage freedom of thought, speech, and inquiry in a tolerant, respectful academic setting that values diversity.

Provide innovative and interdisciplinary undergraduate, graduate, and professional courses of study that enable students to exercise analytical and imaginative thinking and make well-founded ethical decisions.

Nurture and support a highly qualified and entrepreneurial faculty that is excellent at teaching, active in pure and applied research, capable of providing a broad range of intellectual and cultural insights, and is responsive to the needs of students and their communities.

Maintain an international reputation for superior education and public service that affirms its role as the intellectual and cultural nexus among Northern Virginia, the nation, and the world.

**Accreditation**

George Mason University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award bachelor’s, master’s, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of George Mason University.

Individual programs or units may also be accredited by discipline-specific agencies.

The university is a member of the Council of Graduate Schools in the United States.

**George Mason University Foundation**

Established in 1966, the George Mason University Foundation Inc. works to advance the aims and purposes of the university. It is a 501(c)(3) nonprofit foundation organized and operated exclusively for the benefit of the university.

The foundation assists Mason in generating private support and manages, invests, and administers private gifts, including endowment and real property. The foundation is governed by a volunteer Board of Trustees that is led by a chair. The foundation president and chief financial officer report to the Executive Committee of the Foundation Board and work with the vice president of development and alumni affairs to support the private resource needs of the university.
Admission

- Undergraduate Admission Policies
- Graduate Admission Policies
- Admission of International Students
- Nondegree Enrollment
- Academic Testing

Office of Admissions
4400 University Drive, MS 3A4
Fairfax, VA 22030
Phone: 703-993-2400
Fax: 703-993-4622
Web: admissions.gmu.edu

Undergraduate Admission Policies

Admission is competitive because the number of qualified candidates exceeds the number of new students who can be accommodated. Each candidate who presents sufficient admission qualifications is reviewed in the context of other qualified applicants. An offer of admission is valid only for the semester for which the student applied. Programs with limited space or special requirements may need a second review process for admission.

Applying for Admission

Application for undergraduate admission should be made to the Office of Admissions. Applications are available at admissions.gmu.edu/applynow. A nonrefundable and nontransferable fee must accompany the application.

Application Deadlines for Freshmen and Transfer Students

The application deadline for fall admission is January 15 for freshman applicants and April 1 for transfer applicants. The application deadline for the spring semester is October 15. Mason encourages early applications from prospective freshmen who wish to be considered for academic scholarships. Applications received after published deadlines will be considered on a space-available basis. The university reserves the right to close applications before published deadlines if conditions so warrant. Admission is contingent on satisfactory completion of in-progress course work and graduation from high school or community college, if relevant.

Early Admission

High school juniors who have completed high school graduation requirements except for senior English and government courses may, with the approval of their high school guidance counselor or principal, apply for admission and thereby enter the university as degree-seeking students one year early. Applicants should present exceptional grades, Scholastic Assessment Test (SAT) or American College Test (ACT) scores, and a high school course of study demonstrating rigorous academic preparation for university-level work. Candidates for this program must arrange an interview with the dean or director of admissions.

Freshman Requirements

The following factors are considered when reviewing freshman applications for admission:

- Cumulative high school grade point average (GPA) for course work completed in grades 9 through 12
• Level of difficulty of course work elected throughout the high school years, particularly in English, mathematics, laboratory science, social science, and foreign language
• Scores from SAT I or ACT (see exceptions under Score Optional Consideration below)
• For all non-native English speakers, scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) exam.
• Essay(s)
• List of extracurricular activities
• Teacher and guidance counselor recommendations

Fall semester applicants whose applications are complete by the application deadline are notified of decisions by April 1. All other applicants are notified on a space-available basis.

The following table specifies the minimum units of college preparatory work required for admission, as well as the minimum units recommended. The recommended units reflect the typical high school program of students who have succeeded in competing for admission in recent years.

In the following chart, column (1) refers to students applying for a bachelor of arts, excluding those in column (3), bachelor of fine arts, bachelor of music program, or with an undeclared major. Column (2) refers to students applying to a bachelor of science degree program, excluding those in column (3). Column (3) refers to applicants who intend to major in prebusiness, chemistry, computer science, engineering, geology, mathematics, or physics. Note that one unit equals one academic year of study.

Freshman Score Optional Consideration

Score optional review provides an opportunity for applicants to be considered for admission without submitting or in disregard of standardized test scores. Admission to Mason remains a highly competitive process, and score optional candidates are considered on their own merits. Qualifying for score optional review does not guarantee admission to Mason. Qualifications for score optional consideration can be found at admissions.gmu.edu/scoreoptional.

Acceptance of Freshman Admission Offer
Mason complies with the national freshman candidate reply date of May 1. Students confirm by completing the enrollment confirmation form in the admission packet and submitting it to the university with an enrollment deposit. The deposit is nonrefundable after May 1.

Transfer Requirements

Application for admission as a transfer student is competitive. Transfer applicants who have completed 30 or more credits are strongly encouraged to declare a specific major to benefit from academic advising within their intended department. Transfer applicants must submit official transcripts from each collegiate institution attended. Transfer applicants with fewer than 30 transferable credits must also submit a copy of their secondary school record and test scores. All non-native English speakers are required to submit official results of the TOEFL with a minimum score of 88 or the IELTS with a minimum academic score of 6.5. Completion of at least two English composition or literature classes with grades of C or better in each course may be submitted in lieu of the TOEFL or IELTS exams. The English courses must be completed at a regionally accredited U.S. college or university.

Students on active academic or social probation, suspension, or dismissal are not eligible for transfer admission.

Transfer applicants who have been out of school for a semester or longer, excluding summers and school-designated breaks, must provide the Admissions Office with a statement describing activities during this period. A résumé may be submitted in lieu of a statement.

Transfer Credit

A student transferring to Mason receives a formal evaluation of transfer credit after admission and receipt of enrollment confirmation by the Office of Admissions. The student is responsible for providing the Office of Admissions official final transcripts of all coursework attempted at other colleges/universities. Transfer credit evaluations are considered final after the first semester of enrollment.

In general, credits are accepted from regionally accredited institutions, provided that a grade of C or better has been earned in the course and the course content is equal to that offered at Mason. Note that only credits, not grades, are transferred; grades for transferred courses will not become part of a student’s GPA at Mason. Transfer credit is not granted for study in unaccredited institutions. Course work from institutions not included in the admission application will not be eligible for transfer credit. George Mason University reserves the right to revoke admission, withhold the award of credit or disenroll students who fail to indicate all previous institutions attended on the admission application.

A minimum of 30 credits must be completed in residence at Mason and 45 credits of upper-level course work must be completed to qualify for graduation. While lower-level courses taken at previously attended institutions may meet the content requirement of some upper-level courses, they do not reduce the 45-credit upper-level requirement, and courses from other institutions do not reduce the 30-credit residency requirement.

Students enrolled on a campus of the Virginia Community College System (VCCS) may access credit equivalency and articulation information at admissions.gmu.edu/TransferGuide.

Students accepted into a degree program at Mason are usually not expected to pursue simultaneous course work elsewhere. For more information, go to the Permission to Study Elsewhere section in the Registration, Attendance, and Grading chapter of this catalog.

Application for a Second Bachelor’s Degree

Those holding one or more bachelor's degrees may earn an additional bachelor's degree at Mason in another discipline. Application for a second bachelor’s degree after conferral of a first degree from any accredited institution must be conducted through the Office of Admissions. After admission, students work with the appropriate academic program to develop an
approved contract or course of study of at least 30 credits beyond the first degree, taken after admission to the second degree, to meet university residency requirements. Some units will have more stringent requirements. While this contract will detail college-level and major requirements to be met, these students do not have to meet Mason’s university General Education requirements.

Acceptance of Transfer Admission Offer

Admitted transfer students are required to confirm their enrollment by submitting an enrollment deposit by July 1 for fall entrance or December 1 for spring entrance. Enrollment deposits are non-refundable after these deadlines. Students unable to enroll may defer their transfer admission to the next semester after their original admission term.

Enrollment after Previous Attendance

Students in good academic standing who have missed two or more consecutive semesters of enrollment (excluding summer term) at Mason and do not meet any of the excluded categories listed below under Readmission after Previous Attendance may re-enter by completing a re-enrollment form available through the Registrar’s Office or at registrar.gmu.edu/forms/index.html. For graduate students and some undergraduate programs, academic department approval is also required.

Readmission after Previous Attendance

Students who have missed two or more consecutive semesters of enrollment (excluding summer term) at Mason must apply for readmission through the Office of Admissions if any of the following conditions are true:

- The student has not been enrolled at Mason for five years or more.
- The student is an undergraduate returning after any absence during which he or she studied at another institution without prior written permission of his or her school or college. Such students must reapply as transfer students.
- The student is international with F-1 or J-1 immigration status.
- The student was suspended or dismissed from any college or university for nonacademic reasons.
- The student was academically dismissed from Mason.
- The student was ever convicted of a felony.

Right to Withdraw Offer

Mason reserves the right to withdraw offers of admission if applicants fail to satisfy all requirements or it is determined that admission was obtained through the use of incomplete, falsified, altered, or embellished information. In the case of withdrawal of admission from a matriculated student, credit earned at Mason may be withheld.

Graduate Admission Policies

Admission to graduate programs is competitive. Selection criteria differ by program and are established by departmental faculty. Applicants are evaluated on the strength of their academic background, results of standardized exams (if required by the program), work experience, and any additional evidence of potential success in the program. Each year, departmental faculty members determine the number of admission offers they may extend by the university resources available for their program.

Admission Standards

To be considered for degree status, the general university graduate admission requirements are as follows:
• An earned baccalaureate degree from a regionally accredited institution of higher education or international equivalent must be verified from official transcripts. (For details, see Admission of International Students section.)

• A 3.00 GPA on a 4.00 scale or better in baccalaureate study. The GPA requirement may be higher for some graduate programs. For students with postbaccalaureate credits, a separate GPA is calculated for each institution. Note: The difficulty of the baccalaureate degree and work experience may be considered in assessing the requirements for admission.

Provisional Admission

A degree-seeking graduate applicant with a baccalaureate degree who has not met all admission requirements may, at the discretion of the college or department, be offered provisional admission if sufficient evidence is presented to suggest the applicant has the ability to pursue graduate work. As a first priority when starting the graduate program, a provisionally admitted student must satisfy the conditions of admission. Once the student has satisfied the conditions specified in the offer of admission and submitted all admission credentials, the provisional qualifier will be removed from the student’s record. Written confirmation indicating the removal will be sent to the student from the college, school, or institute dean or director.

If the student does not meet the conditions within the first 12 credits (or a more restricted time frame specified by the department in the offer of provisional admission), the student will be terminated from the program. All applicants admitted provisionally are in degree-seeking status, and course work taken appears as part of their graduate-level transcript. Students in provisional status may not take courses in the consortium or elsewhere or transfer graduate course work into their program until the provisions of admission have been met.

Students admitted into a graduate preparation bridge program in provisional status can complete up to 30 credits of coursework in preparation for a graduate degree. While the provision is in effect, graduate students whose registration includes undergraduate courses are considered full time if they meet the undergraduate standard by being registered in at least 12 credit hours per semester.

Graduate Application Requirements

For full consideration for graduate admission, applicants must submit the following:

• Completed online Application for Graduate Study
• Nonrefundable application fee
• Application for Virginia In-State Tuition Rates, if claiming entitlement to these rates
• Two official transcripts from all institutions attended for each program applied to unless the programs are in the same college or school
• Goals statement
• Letters of recommendation as required by the program
• Official exam scores, such as GRE or GMAT, reported directly from the appropriate testing service, as required by the program
• Other materials specified by the program, including departmental forms, portfolio, or interview

International applicants should read the Admission of International Students section for more information. Specific departmental admission requirements for degree-seeking students are listed in this catalog under the relevant discipline.

Graduate Applications

Applicants are strongly encouraged to apply online at admissions.gmu.edu. Applications for the School of Law can be found at www.law.gmu.edu. Applying online saves students time and money. In addition, students should collect all supplementary materials and submit them to the appropriate graduate processing center listed below.
Application Processing Centers

The graduate admissions process is decentralized at Mason. Applicants should send their applications and support documents directly to the Graduate Admissions Application Processing Center assigned to their program. Specific mailing instructions are listed at admissions.gmu.edu/grad, as well as below. Once a graduate application is complete and ready to be evaluated for admission, the graduate application file is sent to the academic department for review by the Faculty Admissions Committee. An applicant is notified by mail of the admission decision.

Below is a list of the Graduate Admissions Application Processing Centers with contact information. Graduate admission questions may be directed to the specific center assigned to an applicant’s program by school, college, or institute.

College of Humanities and Social Sciences (CHSS)

Graduate Admission Exams

Most graduate programs use test scores as an additional measurement of an applicant’s qualifications. For departmental admissions test requirements, consult the table at admissions.gmu.edu/grad.
Information and registration bulletins for all national graduate admissions exams are available at the University Admissions Office.

The GRE may be taken in two forms: the general exam and subject exam. Some departments require official scores for both types of exams. Students may schedule the computer-based GRE general exam by calling 800-473-2255. Students may register for the GRE subject exam online at www.gre.org. To have GRE scores sent to Mason, please use school code 5827.

The GMAT is required of all applicants seeking admission to any SOM degree program. Students may schedule the computer-based GMAT online at www.mba.com. The various programs at Mason all have separate GMAT codes. For the appropriate code for your program of interest, go to www.mba.com.

The GMAT is also accepted by some programs in the Volgenau School of Information Technology and Engineering and the College of Humanities and Social Sciences. Be sure to send your score to Mason by using the correct program code.

The Miller Analogies Test (MAT) is a test of 100 analogies and may substitute for the GRE in some graduate programs. To have official MAT scores sent to Mason, use Mason’s MAT code 1768. For information about scheduling the MAT, call 800-622-3231 or go to www.tpcweb.com.

The Praxis I is required by the College of Education and Human Development for graduate applicants to initial teacher licensure programs. Students may schedule the Praxis I by calling 800-853-6773. Passing scores on both Praxis I and Praxis II exams are required for program completion.

All Mason graduate programs strictly require applicants to meet the English proficiency standard. Applicants who have earned a bachelors, masters, or doctoral degree from a regionally accredited university in the United States, Canada (excluding province of Quebec), United Kingdom, Ireland, Australia, and New Zealand are considered to have met that standard. All other applicants are required to take an English proficiency examination and meet minimum scores set by Mason in order to be considered for admission. The TOEFL or IETLS – Academic exam can be used to meet this requirement. To have TOEFL scores sent to Mason, use school code 5827. Additional information on English language proficiency requirements can be found in the Graduate Policies section of this catalog.

Foreign information regarding English language proficiency exams can be found at www.toefl.org and www.ielts.org.

Foreign Language Requirements

Certain graduate programs require students to demonstrate foreign language proficiency at a specified level. Students entering programs that require intermediate-level proficiency can demonstrate that proficiency via previous course work that is equivalent to Mason's foreign language course numbered 210 or, in some programs, by passing an exam. Contact the academic program for information on how to demonstrate language proficiency.

Admission of Graduate Degree Holders

Those holding one or more graduate degrees may earn an additional graduate degree in another discipline. For admission to a second graduate degree program, students should submit an application, transcripts, and other documents as required by the second degree program. Course credits used to satisfy the degree requirements for the first graduate degree may not be used to satisfy the degree requirements for the second graduate degree. In programs with overlapping or similar requirements, students will be advised in the subsequent degree program regarding appropriate course substitutions for subjects already covered.

Offer of Admission

The written offer of admission specifies the effective date of admission, category of admission offered, and name of the faculty advisor assigned to the applicant. This offer is good only for the semester for which the applicant applies. The offer must be accepted by returning an Intent to Enroll form and a deposit, if required by the school or college. Those whose offer of admission has lapsed must submit a new application and fee to be reconsidered for admission at a later date. Students may simultaneously
apply to more than one graduate program, but if they are admitted to more than one program, they may accept only one offer and pursue only one degree program at a time.

**Right to Withdraw Offer**

Mason reserves the right to withdraw offers of admission if applicants fail to satisfy all requirements or it is determined that admission was obtained through the use of incomplete, falsified, altered, or embellished information. In the case of withdrawal of admission from a matriculated student, credit earned at Mason may be withheld.

**Reactivation of Deferred Applications**

Applicants are notified when action on an application has been deferred pending completion of courses that are prerequisite to graduate study in a chosen field. Applicants are encouraged to notify their program’s Graduate Admissions Processing Center in writing as soon as prerequisites have been met. Applicants are responsible for furnishing official transcripts confirming that prerequisite courses have been satisfactorily completed. An admission decision cannot be made until these grades are received.

**Change in Field of Graduate Study**

Admission for graduate study is admission to a specific program. Therefore, a student is not free to change graduate programs at will. Students seeking to change from one graduate program to another (at the same level and within the same college) need the approval of their dean and should contact their dean's office for the appropriate form and instructions. Note that residency requirements must be met after the change to the new program, and no new time limit is given. For students seeking a change between two colleges, a new application, application fee, official transcripts, and proof of degree from prior institutions are required. Previous acceptance into one graduate program does not guarantee acceptance into another.

**Graduate Study during Summer Term**

Applicants planning to begin graduate work in a summer term must complete a standard application for graduate admission and be formally admitted before registering for classes. Note: Not all graduate programs admit for summer term; however, students accepted for the fall semester are considered admitted students and some graduate programs may allow students to take courses during the preceding summer.

**Records Maintenance and Disposal**

All admissions documents, including academic records sent from other institutions, become part of the official university file. Admission credentials are retained for only 12 months. They are subsequently destroyed if applicants do not register for courses within the period for which the offer of admission is valid; have been denied admission; do not respond to requests for additional information; or fail to submit complete applications, including all official transcripts and test results.

**Admission of International Students**

**General Requirements**

Application for admission by international students holding or seeking F-1 or J-1 visas should be made directly to the Office of Admissions. Deadlines for the fall semester are before January 1 for undergraduates and February 15 for graduates. For the spring semester, the deadline for all applicants is October 1. These deadlines ensure adequate time to process applications and prepare immigration documents. All international applications must be accompanied by a nonrefundable application fee. Items that must be submitted with the application form are official transcripts and degree certificates (in original language and, if
applicable, certified English translation); evidence of English proficiency (via official score reports from the TOEFL or IELTS exam); the Certificate of Financial Responsibility (CFR); financial support documents; copy of passport identification page; and for those present in the United States, copies of immigration documents verifying current nonimmigrant status. Please visit admissions.gmu.edu for full details on items required and deadlines.

Applications from international students are reviewed with all other applications. Admission to the university is competitive; therefore, while minimum standards ensure that an application will be considered, they do not guarantee admission. The number of applicants, qualifications of the applicant pool, and the amount of available space determine the number of admission offers that Mason can make. In addition to overall admission requirements, some schools and colleges have individual requirements for acceptance into the major. For more information, see school or college admission requirements.

Applicants who are accepted to a program will receive a written offer of admission. Most students come to the United States on an F-1 visa, but students who are sponsored by the U.S. government, their home government, or another organization may be required to enter the United States on a J-1 Exchange Visitor’s Visa. To be issued an immigration document (Form I-20 for F-1 status or Form DS2019 for J-1 status), students must prove they have sufficient financial support to cover their expenses while at Mason. If the documentation submitted is satisfactory, the university will issue Form I-20 for F-1 status or Form DS2019 for J-1 status and mail it to the address indicated on the International Student Information Form.

International students outside the United States must take the immigration document to the U.S. embassy or consulate nearest their place of residence and apply for an F-1 or J-1 student visa. The basic requirements for obtaining a student visa are a letter of admission, evidence of financial support, an immigration document issued by the school they wish to attend, a valid passport, and proof of strong ties to the home country. For more information about the visa application process, check with the nearest U.S. embassy or consulate, or go to the Department of State’s web site: www.state.gov.

Students in a nonimmigrant visa category other than F-1 or J-1 may submit the CFR and copies of immigration documents indicating their immigration status. They do not need to submit financial support documents unless they plan to change to a student visa. For more information pertaining to immigration status, contact the Office of International Programs and Services (OIPS) at 703-993-2970. Additional information is available on the OIPS web site: oips.gmu.edu.

**Freshman and Transfer Requirements**

A transfer student is one who has completed course work at another college or university after graduating from high school. In addition to the requirements defined for all applicants, international students must meet the following standards:

- Freshman applicants must submit certified official copies of all secondary or high school transcripts in the original language along with an English translation, if applicable. Results of any exit certificates or university entrance exams also must be submitted.
- All freshman applicants are required to submit satisfactory scores on the SAT I or ACT.
- Applicants must demonstrate English proficiency. Applicants whose native language is not English are required to submit TOEFL or IELTS exam results. To be considered for admission, applicants must have scored at least 230 on the computer-based TOEFL, 88 on the Internet-based TOEFL, 570 on the paper-based TOEFL and 4.5 on the TOEFL essay, or must have received a score of 6.5 or higher on the IELTS exam. Official test scores must be sent directly from the Educational Testing Service or IELTS. For more information, contact the Educational Testing Service, CN 6151, Princeton, NJ 08541-6151, USA; phone: 609-921-9000; web site: www.toefl.org, or the IELTS web site at www.ielts.org.
- All transcripts from colleges or universities outside the United States must be translated into English and evaluated by a recognized U.S. evaluation service before an admission decision can be made. Applicants are responsible for the timely translation and evaluation of documents and all costs and fees associated with these services. A list of suggested evaluation agencies is available in the Admissions Office or at www.naces.org.
- International students already in the United States with F-1 status must complete immigration transfer procedures within 15 days of the program start date. For processing of immigration transfers, contact OIPS at 703-993-2970 or oips.gmu.edu.
Graduate Requirements

International students interested in pursuing graduate study must meet the following requirements:

- Applicants must complete the online Application for U.S. Graduate Study.

English Proficiency Standards

Mason students participate in rigorous graduate coursework as part of their university educational experience. Therefore, students at Mason must have a full command of academic English at the graduate level in order to be successful throughout their studies. All new graduate students are expected to accurately comprehend written graduate-level English, clearly understand rapidly spoken English in classroom lectures and in professional settings, write with proper grammar and syntax, and be able to respond quickly in English using a vocabulary appropriate for collegiate settings.

For this reason, Mason has a high standard of English proficiency for graduate admission. All Mason graduate programs strictly require applicants to meet that English proficiency standard. Applicants who have earned a bachelors, masters, or doctoral degree from a regionally accredited university in the United States, Canada (excluding province of Quebec), United Kingdom, Ireland, Australia, and New Zealand are considered to have met that standard. All other applicants are required to take an English proficiency examination and meet minimum scores set by Mason in order to be considered for admission. The TOEFL or IELTS exams can be used to meet this requirement.

Decisions regarding English proficiency are the sole discretion of Mason Admissions offices.

Listed below are the English proficiency examinations that Mason accepts and the corresponding minimum score requirements and submission procedures. Individual programs reserve the right to set higher minimum scores:

TOEFL

IBT 88 points total AND a minimum of 20 points in each section

CBT 230 points

PBT 570 points

IELTS - Academic

6.5 total band score

All English proficiency scores are valid for two years from the test date. Official test scores must be provided directly from the testing agency. In general, you may use the institution code 5827 to send your scores to Mason. For IELTS, please make sure you have scores sent to the Mason Office of Graduate Admissions. It is not necessary to use the exact department code as test scores arrive to our institution electronically.

- All transcripts from colleges or universities outside the United States must be translated into English, if applicable, and submitted for evaluation to the graduate school to which the applicant is applying. Mason will provide evaluation service free of charge for all international transcripts. Because of volume, more time may be needed to process applications requiring a Mason evaluation. For expedited service, students can submit their documents to a recognized U.S. evaluation service at their own expense. A list of recognized evaluation services is available in Mason’s Admissions Office or at www.naces.org.

- Graduate students’ documents should show the award of either a bachelor’s degree or equivalent, or a graduate degree.

Special Conditions for International Applicants
In addition to the academic requirements listed above, international students should note the following:

- Federal regulations prohibit students on visitor visas (B-1 and B-2) from enrolling in school. Students who entered the United States on a visitor visa should not plan to study. For more information, contact OIPS.
- Federal regulations prohibit F-2 spouses of F-1 students from engaging in full-time study, and F-2 children may engage in full-time study only from kindergarten through 12th grade. F-2 dependents may engage in study that is avocational or recreational in nature. F-2 dependents seeking to pursue full-time or degree study in the United States must change their status to F-1. For more information, contact OIPS.
- Students enrolled at the university in F-1 or J-1 nonimmigrant status must maintain full-time enrollment each fall and spring semester (12 credits for undergraduate, usually 9 credits for graduate). Because of this requirement, F-1 or J-1 international students do not qualify for part-time programs.
- Admission for international students is offered for fall (August) and spring (January). International students are not typically admitted to begin study during the summer (May or July).
- Prospective students who seek to enter the United States in F-1 or J-1 immigration status, or who seek to attend Mason following attendance at another US school, must complete the Certificate of Financial Responsibility (CFR), which can be downloaded from admissions.gmu.edu. The form and financial support documents must be submitted to the Admissions Office with the application.
- Students already in the United States should submit copies of immigration documents verifying current nonimmigrant status. This documentation should be submitted with the application for admission.
- Prior to issuing an I-20 or DS-2019 form, the University is required to verify that a student has sufficient financial support to pay for both educational and living expenses. Confirmed funding must be documented for the first year of study, typically with a sponsor letter and current bank statement or a scholarship award letter or an assistantship offer. The source of funds for subsequent years must be shown; although a bank statement is required only for the first year. The CFR gives an estimate of annual expenses, including tuition, living expenses, and health insurance; and it also explains what type of documentation is accepted.
- All new students at the university must submit an Immunization Record Form Card signed by a health professional. The form, available at shs.gmu.edu/immunizations verifies that immunizations are current. The immunizations required are measles/mumps/rubella and tetanus/diphtheria. Hepatitis B (series of three) and meningococcal vaccines are encouraged. A tuberculosis screening is required of students from high-risk countries as determined by the Centers for Disease Control and Prevention.
- Medical insurance is required for all students in F and J status. The University requires international students to purchase the Mason-sponsored insurance plan. Exceptions may be requested if the sponsor provides a group insurance plan that meets the University’s minimum coverage requirements or if the student is covered by an employer-sponsored group plan (such as insurance provided by a spouse’s or parent’s employer). For more details, see shs.gmu.edu.
- **Financial sponsors who wish to be billed directly must provide a U.S. billing address.** Mason does not bill third parties overseas. It is the student’s responsibility to make sure tuition and fees are paid on time.

**International Student Health Insurance**

University policy requires all F-1 and J-1 visa students to have health insurance. Federal law requires all students on a J-1 visa to have health insurance that includes coverage for medical evacuation and repatriation. Medical evacuation coverage pays for returning a seriously ill student to his or her home country. Repatriation coverage pays for returning a student’s remains to his or her home country.

Mason offers health insurance for students on J-1 and F-1 visas. When international students register for classes, the cost of this coverage is automatically billed to their account by the Office of Student Accounts. This fee is due by the tuition payment due date. Failure to pay this insurance fee or successfully obtain an exemption may result in the cancellation of class registration. Late fees may be assessed if charges are not paid by the deadline established by the Cash Office.

International students are required to purchase insurance for the entire year. If a student graduates or terminates enrollment after the fall semester, has not submitted any claims and will leave the United States, the student may apply for a spring refund. The student must submit a written refund request to the Student Health Insurance Office. The refund request will be sent to the
Exemption from the International Student Health Insurance

International students are automatically enrolled in the Mason Student Health Insurance Plan. International students with health insurance coverage from the following list may request an exemption from the Mason Student Health Insurance Plan. Submission of a request does not guarantee that a waiver will be granted. The Student Health Insurance Office reserves the right to review a student’s health insurance policy to verify coverage.

Students may apply for an exemption:

1. If they have a scholarship or government-sponsored program that provides insurance for them that meets or exceeds the Mason Student Health Insurance Plan.
2. If they or their spouse or parent have a United States employer who provides health insurance for them that meets or exceeds the Mason Student Health Insurance Plan.

Each fall, continuing F-1 and J-1 visa students are required to either pay for the Mason Student Health Insurance or successfully obtain an exemption. Exemptions must be obtained no later than one week after the last day to add/drop classes.

For more information and exemption form, please visit shs.gmu.edu/insurance.

Nondegree Enrollment

Nondegree Status

Nondegree status enables students who have no immediate degree objective or may need to satisfy prerequisites for admission to a degree program to enroll in courses for which they are qualified without seeking formal admission to a degree program. Enrollment in specific courses is based on eligibility criteria and availability of space in courses; in high-demand fields, enrollment may be restricted or prohibited.

All nondegree applicants must complete a nondegree online application for admission and supply official transcripts from all postsecondary institutions they have attended. High school guest matriculant applicants must submit an official high school transcript, as well as SAT or ACT scores.

International students are typically not admitted in non-degree status. The only exception is for those students who attend George Mason University pursuant to the terms of an exchange agreement or memorandum of understanding between Mason and their home university. Those students are required to process their applications and all documentation through the Center for Global Education, and to pay the associated fee.

Nondegree applications and their established deadlines are available online at admissions.gmu.edu.

Standards for Admission

Admission to Mason as a nondegree student is competitive and based on space availability. Nondegree admission is not automatically granted, and nondegree admission does not guarantee enrollment in any specific course or any future degree programs. Nondegree applicants must meet the standards for admission that would apply to the equivalent degree-seeking status.

Graduate Nondegree
Admission to non-degree graduate study at Mason is highly competitive. Among the factors which may be considered in the admissions process are previous academic performance, professional experience, academic fit, and other standards, at the discretion of each graduate unit. Some graduate units do not accept nondegree applications.

These students will be considered graduate level even if they are taking undergraduate courses. Individual units and majors may have additional requirements for nondegree graduate status (see below). A student cannot graduate or receive a degree while in nondegree status. Nondegree graduate students may not register for classes numbered 700 or higher. All master’s programs require at least 18 credits to be completed in degree status at Mason to be considered for graduation, and some graduate programs allow a maximum of 6 credits to be transferred from nondegree status. Students who plan to seek a degree from Mason are strongly encouraged to apply for degree status admission as soon as possible.

Nondegree students are expected to maintain the same academic standards as degree-seeking students. See Academic Termination in the Graduate Policies section of this catalog.

**Undergraduate Nondegree**

Applicants who do not have a bachelor’s degree but have graduated from high school may apply for nondegree admission. Transcripts from all colleges attended are required. High school transcripts may be required.

Applicants with a bachelor’s degree seeking to take undergraduate courses must meet the standards for admission for a bachelor’s degree. These students will be considered undergraduate students and are not eligible to take graduate courses or receive graduate academic advising. Students who later seek to enroll in graduate courses or wish to receive graduate academic advising must submit a new nondegree graduate application and be reconsidered for admission.

Nondegree studies students are allowed to register for a maximum of 10 credits per semester. A maximum of 18 undergraduate credits may be applied to an undergraduate degree program on approval of the undergraduate program’s dean.

All undergraduate nondegree students are subject to the academic standing regulations and sanctions described in the Requirements for Retention section in the Academic Policies chapter of this catalog.

**High School Guest Matriculants**

Students who are currently enrolled in good standing in high school but have not yet graduated from high school and do not have a GED may be considered for admission as high school guest matriculants. These applicants will be evaluated based on their academic performance in high school. Only students who have excelled in high school and demonstrate the preparation and maturity indicative of the potential to succeed in Mason’s competitive course work will be admitted. Mason cannot guarantee that courses will fulfill high school graduation requirements or that courses taken while a high school guest matriculant will transfer to other institutions.

**Academic Advising**

On initial enrollment, nondegree students are assigned to one of the colleges, schools, or institutes at Mason according to their original course selection and level (graduate or undergraduate). Once assigned, the academic unit is responsible for advising and handling requests that require a dean’s permission.

Grades earned through nondegree studies remain a part of the student’s permanent nondegree record and are recorded on the standard university nondegree transcript. They will not appear on the degree transcript unless the student is accepted to a degree program and permission is given by the dean to apply the nondegree credit to the degree program.

**Senior Citizens**
Under terms of the Senior Citizen Higher Education Act of 1974, eligible Virginia residents 60 years of age or older, with a taxable income not exceeding $15,000, are entitled to enroll in courses offered for academic credit on a space available basis without paying tuition and enrollment fees. Senior citizens who meet the income eligibility requirement and have completed a minimum of 75 percent of degree requirements may enroll in a degree program during normal registration periods without paying tuition and enrollment fees. The admissions application fee cannot be waived, but students who qualify to have all tuition and fees waived will have the application fee reimbursed.

Citizens who wish to take advantage of this act must complete the online nondegree or degree application found at admissions.gmu.edu and submit all required transcripts and documents. If the application for admission is approved, senior citizens can request a waiver of tuition and enrollment fees by completing the Senior Citizen Tuition Waiver Form, available from the Registrar’s Office or online at registrar.gmu.edu/forms/index.html. To facilitate processing, senior citizens should provide their Mason student identification number on the waiver form.

In addition, the act allows senior citizens to audit courses (no academic credit is received) and enroll in up to three noncredit courses per semester without paying tuition and enrollment fees, regardless of the taxable income level. Students seeking to audit a class must notify the Registrar’s Office when registering for classes. Students seeking to enroll in noncredit courses should call the Office of Continuing Professional Education at 703-993-2109. Fees for course materials may apply to senior citizen enrollees, and tuition may be charged for courses designed exclusively for senior citizen groups. Senior citizens must adhere to all admissions and registration policies and processes and follow normal procedures to add and drop courses within the deadline dates outlined in each semester’s academic calendar.

## Graduate Nondegree Status

### The Volgenau School of Information Technology and Engineering

Admission for nondegree graduate study is suitable for those individuals who do not want to pursue a degree but are interested in taking graduate courses from the Volgenau School of Information Technology and Engineering. The following application materials should be submitted for consideration:

- The Volgenau School online nondegree application
- Nonrefundable application fee
- Official transcripts indicating confirmation of bachelor’s degree
- Non-Degree Course Selection Form
- Resume

Approval for nondegree status does not guarantee admission to a degree program at a later date. Up to 12 credits taken in nondegree status may be transferred to a Volgenau School degree or certificate program, subject to the general rules for transfer of graduate credit. Students who do not register for the term for which they are accepted may have their enrollment postponed for one semester on written request to the Admissions Office. More information about the Volgenau School programs and course offerings may be obtained from the Volgenau School departmental offices or the Volgenau School Graduate Admissions Office, Nguyen Engineering Bldg, Room 2303, 703-993-1512.

### College of Science (COS)

Nondegree status is available for professionals who are interested in taking a limited number of courses without committing to a degree or certificate program. Up to 12 credits taken in nondegree status may be transferred to one of the COS academic programs at a later date. Approval for nondegree status does not guarantee admission into an academic program. For admission into nondegree status, the student should have a 3.00 GPA or higher and a BS degree in mathematics, computer science, engineering, natural science, or a related field. Exceptions are reviewed on an individual basis.

The following application materials should be submitted for consideration:
Summer Term

Phone: 703-993-2300
Fax: 703-993-8871
Web: summer.gmu.edu

Summer enrollment provides an opportunity for eligible undergraduate, graduate, and nondegree students to begin or continue the pursuit of their academic goals. Courses are offered in intensive five- to eight-week sessions, as daytime and evening classes and as distance education courses. Many academic departments take advantage of the unique summer term opportunities to schedule innovative programming focusing on raising community awareness and involvement.

Summer registration for current Mason students begins in mid-March while registration for nondegree students begins in late March to early April. Students who are new to Mason are required to apply and may do so at admissions.gmu.edu/applynow.

Academic Testing

Advanced Placement and Credit by Exam

The Office of Admissions awards transfer credit for several advanced standing examinations based upon minimum score requirements established by Mason academic departments. A complete list can be found at admissions.gmu.edu/exams. Students are responsible for providing official test score transcripts at time of application. Transfer credit evaluations are considered final after the first semester of enrollment.

Mason Departmental Exams

Proficiency exams are offered in a number of courses usually taken during the first two years. Students may not earn credit by exam for courses in which they are currently enrolled beyond the time allotted to add courses in that semester, or for courses already audited or failed at the university. Transfer students may not earn by exam any part of the 30 credits that must be completed at Mason to earn a degree.

English 101 and English 302 Proficiency Testing

The English Department offers proficiency testing for the required composition courses English 101 and English 302. Students seeking a waiver for English 101 may take the English 101 Proficiency Exam. Students seeking a waiver for English 302 may submit a writing portfolio to the English Department and complete a timed exam. Students who receive a waiver through these processes do not also receive course credit. Additional information can be found on the exemptions page of the Composition website composition.gmu.edu/students/exemptions/engl302.php.

Foreign Language Placement

The College Board SAT II test in a foreign language is used for placement in many of the languages offered at Mason. Freshman applicants who wish to receive the appropriate foreign language placement should take this exam during their senior year in high school. The SAT II exam is mandatory for anyone who has studied one of these languages for at least two years, has no previous
college credit in the language, and seeks to continue study of the same language at Mason. Transfer students receiving credit for college-level foreign language study completed at other colleges usually do not need a placement test, but should consult the Department of Modern and Classical Languages to determine correct placement.

For students who wish to continue the study of a language at Mason, it is the student’s responsibility to take a placement exam and obtain results before enrolling in a foreign language course. The placement exam is given in conjunction with orientation. The schedule can be found on the website of the Department of Modern and Classical Languages. Specific information on interpreting test scores can be obtained from the department.

Some students whose degree programs require intermediate proficiency in a foreign language may be eligible for a waiver of the requirement based on prior knowledge of foreign language. For information on waiver of the foreign language requirement see the website of the Undergraduate Academic Affairs Office of the College of Humanities and Social Sciences.

**Math Placement Exam**

The Math Placement Exam is a computer-based test to help assess a student’s proficiency. Entering students are required to complete the exam successfully during orientation unless they have received AP credit or transfer credit. The web address for the math placement test schedule is located at math.gmu.edu
Academic Policies

Registration for the next semester or summer term begins after mid-semester of fall or spring semesters, and is opened to various groups according to priority (graduate students, seniors, juniors, and so on). The Registrar’s Office assigns each student a time ticket, which is a specific date and time after which a student may register. The time ticket is based on the number of credits earned. Thus, the time ticket will not be the same for all students within a particular priority group. Students should consult registrar.gmu.edu and Patriot Web for information about their registration date and time.

Academic Calendar

The academic calendar may be accessed at registrar.gmu.edu/. Mason runs on a semester schedule, including an active summer term.

Academic Load

The minimum full-time load for undergraduate students is 12 credits per semester. For graduate full-time classification, see the Graduate Policies section. For planning purposes, applicants for admission are asked to indicate their preference for full- or part-time status, and day or evening classes; however, they may freely choose between evening and day sections of courses and may change their full- or part-time status.

Although many students must work to meet living expenses, employment must not take priority over academic responsibilities. Students employed more than 20 hours a week are strongly urged not to attempt a full-time academic load. Students employed more than 40 hours a week should attempt no more than 6 credits per semester. Students who fail to observe these guidelines may expect no special consideration for academic problems arising from the pressures of employment.

Although 12 credits per semester represent a minimum full-time undergraduate load, students planning to graduate in four years need to carry an average of at least 15 credits per semester. Written approval must be submitted to the Registrar’s Office before students can register for more than the maximum allowable credits. Undergraduate and Nondegree Undergraduate students should contact their Dean for permission. Graduate and Nondegree Graduate students should contact their department for permission.

Financial Good Standing; No Holds on Record

Financial good standing and a university record clear of holds are required for students to receive academic services. Services, including, but not limited to, transcript issuance, diploma release, and class registration (add, drop, withdrawal, and such) will not be provided to students with a financial balance due or a hold of any kind on their record. Holds are based on outstanding obligations and may be financial. Examples include fines owed for traffic or parking violations, incomplete immunization records, fines owed to the Mason or consortium libraries, and other administrative holds.

Registration Procedures

Patriot Web will list specific course information before priority registration each semester. Courses listed may be canceled for insufficient enrollment. Mason reserves the right to change the class schedule and adjust the individual section enrollment as necessary.

Registration is usually accomplished using Patriot Web; however, if a section is closed or registration into a selected section is controlled, permission to enroll must be obtained from the academic program offering the course. Various schools and departments have their own processes for granting this permission. For some courses, the student must submit a completed and signed course permit form in person to the Registrar’s Office.

Students must be present at the first meeting of every laboratory course (lecture and laboratory) to validate their registration. If students cannot attend the first meeting, they must notify the instructor beforehand if they intend to continue in that section. Otherwise, their name may be removed from the class roll in both lecture and lab.

Students are responsible for registering properly and paying by the deadline. Students should confirm the correctness of their enrollments (including drop and add) via Patriot Web. Incorrect enrollments may result in academic and financial penalties.

Students are responsible for tuition payments and grades received for all courses in which they are registered unless registration is canceled administratively because of suspension, dismissal, or termination; the section is canceled; or the student drops the course before the tuition liability begins. See registrar.gmu.edu for deadlines.

Course Prerequisites, Corequisites

Course prerequisites or corequisites state requirements for student entry into courses and reflect necessary preparation for attempting the course. It is the student’s responsibility to be aware of these as stated in the catalog and have taken prerequisites recently enough to be of value. The administrator of the academic unit in which the course is taught or the instructor of the course may summarily drop students who have enrolled in a course for which they have not met the prerequisites. Graduate course prerequisites are normally met with a grade of B- or better; undergraduate course prerequisites are normally met with a grade of C or better. Questions should be addressed to the academic department or course instructor.

Changing Registration

Registration changes must be completed within the schedule adjustment period defined below. Changes to registration are usually made via Patriot Web.
The last day for adding a 14-week course is two calendar weeks after and including the first day of classes. The last day for dropping a 14-week course is five calendar weeks after the first day of classes (including the first day). Courses meeting for fewer than 14 weeks have add, drop, and tuition-liability dates proportional to their length. These dates are published on the registrar’s web site each semester. Students who drop all courses during the drop period will have no entry on their transcript for that semester and will not be considered an enrolled student for that semester. If it is the student’s first semester, the student will not have a Mason transcript and must contact Admissions regarding enrollment in a future semester.

All students are expected to complete their initial enrollment before the first day of classes for the semester. Any additions to that enrollment must be processed by the end of the add period through official registration procedures. Students will not receive credit for courses unless their names are on the official class rosters and final grade sheets. **Retroactive credits will not be awarded to students who report that they attended classes but were not on the official rosters.** After the last day to add, students will not be added to courses except in unusual circumstances beyond the student’s control; such actions require approval by the chair of the academic department offering the course.

All students are expected to drop (by the end of the drop period) those courses they do not intend to continue. Registration is not canceled for failure to drop courses properly. Furthermore, registration is not canceled for failure to attend classes unless stated otherwise on Patriot Web. **All classes in which a student is enrolled past the drop deadline will remain part of the official academic record.** For more information, see Additional Grade Notations in the Grading System section of this chapter. After the drop deadline, withdrawal approval is granted only for nonacademic reasons by the student’s academic dean. This approval is typically given for all courses at once, constituting withdrawal from a semester. For more information, see the Withdrawal section of this chapter.

No change of registration transaction is complete until it is processed by the Office of Student Accounts and the Office of the Registrar.

**Students will not receive written confirmation of schedule changes and are responsible for checking their schedules via Patriot Web before the end of the add or drop period to verify that their schedules are correct and they are properly enrolled. Students will not be allowed to remain in classes unless they are properly enrolled. Students are responsible, both financially and academically, for all courses in which they remain officially enrolled.**

### Canceling Registration

Students who cannot attend classes during the semester for which they have registered should cancel registration using Patriot Web prior to the first day of classes for the semester.

Refunds of tuition on and after the first day of classes are made according to the tuition-liability dates published in this catalog and registrar.gmu.edu.

### Repeating a Course

Some courses are annotated in the catalog as “repeatable for credit.” These are courses in which students receive additional credit for more than one taking of the same course, up to a maximum number of credits specified in the catalog. Special topics and independent study courses are examples. For all other courses, the following conditions apply:

- Graduate students who have passed a course with a grade of B- or better are not permitted to repeat the course for credit. Also, they must obtain permission from the offering department to repeat a course in which a grade of C or below has been earned. Each department establishes procedures for granting such permission. Duplicate credit is not earned. When a course is repeated, all credits attempted are used to determine warning, termination, or dismissal; the transcript shows grades for all courses attempted; and only one grade per course may be presented on the degree application.
- Some courses, such as special topics courses, are repeatable for a limited number of additional credits. As long as students do not exceed the maximum allowable credits for repeatable courses, all takings of the course count for credit
and in the student’s GPA. In cases where the student has exceeded allowable credits in a repeatable class, the transcript will exclude the grade and credits of the earliest taking of the class.

- For undergraduate classes not repeatable for credit, undergraduate degree students may repeat courses for which they seek a higher grade. Academic programs may restrict repeats of certain departmental or college courses in the major. Excessive repeats may result in termination from the major by a student’s dean. A grade received in a repeated course will replace a grade in prior takings of the same course in the calculation of the cumulative GPA, even if the more recent grade is lower. Duplicate credit is not given. Repeat rules apply to taking the same course and courses designated in the catalog as equivalent. Repeat rules apply throughout a student’s academic history. All instances of courses and their grades remain part of the student’s transcript. No adjustment to the cumulative GPA will be made when the grade in the repeated course is W. A grade in a Mason course will not be excluded from the cumulative GPA based on a subsequent taking of an equivalent course at a transfer institution. The exclusion of earlier grades of repeated courses will not change the academic standing or dean’s list notations for the earlier semester. Note that individual programs may disallow students from retaking certain high-demand courses simply for the purpose of improving their grade. Programs may also require departmental permission for students to repeat certain department, school, or college courses.

**Auditing a Course**

Auditing a course requires the instructor’s permission. Audit forms are available at the Registrar’s Office. A previously audited course may be taken again for credit in a later term. Students may also audit a course previously taken and passed; however, students may not change from credit to audit status nor from audit to credit status after the end of the drop period, as defined above. The usual tuition and fees apply to audit status.

**Special Registration Procedures**

**Advisor’s Permission to Register**

All newly admitted students, undeclared undergraduates on academic warning or academic probation, and undergraduates returning from suspension, are required to obtain an advisor’s approval for registration. All students are strongly encouraged to consult with their advisors concerning course registration each semester.

**Permission to Study Elsewhere**

Students who apply for admission to Mason usually do not seek simultaneous enrollment at another collegiate institution. In those unique situations when a student does seek concurrent enrollment, the student must obtain advance written approval from their academic dean. This process permits a student to enroll elsewhere in a suitable course unavailable at Mason. Catalog numbers and descriptions of courses to be taken elsewhere must be submitted with the request for approval. Students must submit an official transcript for all such course work to the Registrar’s Office. Note that while credit may be approved for transfer and a minimum grade must be achieved, grades themselves do not compute into any Mason GPA. Students who enroll elsewhere without advance written permission while enrolled at Mason may not receive transfer credit for course work taken at other institutions. The Permission to Study Elsewhere form can be found at registrar.gmu.edu.

**Permission to Register as Graduate Student**

Registration for courses in a graduate program is permitted only after the student has been notified of admission. Students admitted to degree programs are given preference over nondegree students through the registration process. Dual registration (for example, as a graduate student and nondegree enrollee) is not permitted. The graduate student is responsible for being properly registered and aware of all regulations and procedures required by a program of study. Regulations and degree requirements are not waived nor are exceptions granted because of ignorance of any regulations. Registration in graduate-level courses is restricted to admitted graduate degree students and nondegree graduate students (unless excluded by program). Undergraduate degree students may register for graduate courses only with special approval (see section below). Nondegree undergraduate students
may not enroll in courses numbered 500 or above. Courses numbered 800 and above are available only to admitted graduate degree students.

**Graduate Course Enrollment by Undergraduates**

Courses numbered 700 and above are closed to undergraduates. Undergraduates in degree programs may enroll in graduate-level courses 500 to 699 only with written permission, which must be obtained before registration. Forms are available at the Office of the Registrar. Written permission is waived for undergraduate students admitted to combined bachelor’s and accelerated master’s programs.

To enroll in graduate courses for credit applicable to an undergraduate degree, undergraduates must have completed all course prerequisites, have exhausted all upper-level undergraduate courses relevant to their educational objectives, and be able to demonstrate the level of maturity required for graduate courses.

Approval to register for reserve graduate credit (earned credit held in reserve to apply later toward a graduate degree) is given only to Mason seniors within 15 credits of completing undergraduate study who have successfully completed all course prerequisites. In addition, this privilege is normally extended only to seniors who have completed at least 12 credits at the university, have a cumulative GPA of 3.00 or better, and have a major in the department offering the course. Approval for reserve graduate credit is limited to 6 credits and does not imply approval for admission into a Mason graduate program or that credit earned will be accepted at another graduate school.

Undergraduates enrolled in graduate courses are eligible to receive only those letter grades applicable to graduate grading. For more information, see the Grading System section. Credit for the same course may not be applied to both graduate and undergraduate degrees.

**Special Registration for Nonenrolled Students**

Degree-seeking students not enrolled in a credit-bearing course but whose academic department certifies that they are pursuing an activity related to their Mason enrolled program can retain active status by registering for Special Registration (ZREG 200) for a $45 fee. Written approval from the student’s advisor and the academic department chair is required. Special registration allows students to retain library and computer privileges, receive a student ID, and buy a parking decal. Students must have active status to apply for or receive a degree, take an exam, or participate in cooperative education.

**Enrolling for Credit Without Grade Points**

Courses normally graded as satisfactory/no credit (S/NC) are annotated in the catalog, but students may elect to take credit without grade points. Undergraduates may take up to 6 credits to be graded S/NC; this option applies only to electives outside the field of the major, concentration, minor, general education requirement, or certificate program. Graduate students may elect the S/NC grade option only for courses that do not apply to the degree or certificate requirements. S/NC grading will also be used for courses numbered 998 and 999. For more information, see Additional Grade Notations in the Grading System section.

**Academic Common Market**

The Academic Common Market (ACM) is a cooperative tuition-reduction program agreement among 16 states, including Virginia, which compose the Southern Regional Education Board. Students who are not legal residents of Virginia but wish to pursue a degree in a selected Mason program that is not available in their home state may be able to participate in the ACM and thereby attend Mason without incurring out-of-state tuition charges. Likewise, legal residents of Virginia may take advantage of programs in other states. More information about this program is available at the Office of the Registrar or at registrar.gmu.edu/students/domicile/nonresidents.html.

**University Consortium**
Mason is a member of the Consortium of Universities of the Washington Metropolitan Area, which includes American University, The Catholic University of America, Corcoran College of Art and Design, Gallaudet University, The George Washington University, Georgetown University, Howard University, Marymount University, National Defense Intelligence College, National Defense University, Trinity Washington University, the University of the District of Columbia, and the University of Maryland-College Park. Eligible Mason students may enroll in courses at any of the consortium institutions. The consortium’s cross-registration arrangement permits students enrolled in eligible degree programs at one member institution to take a course at another member institution.

Participation in consortium cross registration is available to degree-seeking juniors, seniors, and graduate students in good standing and currently enrolled at Mason. Participation is limited to courses that are approved by the student’s department chair and dean, apply to the student’s program of study, are not offered during that semester at Mason, and have space available at the visited institution. Additional restrictions apply. Students may take one consortium course per semester, with a career maximum of 6 credits for undergraduates (9–12 if foreign language study is approved) and 6 credits for graduate students. Credit earned through the consortium is considered resident credit, so grades count in the Mason GPA.

Information and regulations, including restricted and excluded courses, for both outgoing and incoming Mason consortium students are available in the Schedule of Classes and on the web at registrar.gmu.edu/students/consortium/index.html. Information pertaining to all member institutions is available at www.consortium.org/main.asp. For more information, call the consortium coordinator in the Office of the Registrar at 703-993-2436.

Withdrawal

Selective Withdrawal for Undergraduates

Undergraduates enrolled in degree programs are eligible to withdraw from a limited number of classes without the dean’s approval and at the student’s own discretion. Students may process a maximum of three such selective withdrawals during their entire undergraduate career at Mason. The three classes may have any number of credits. The academic calendar for each semester will include an open withdrawal period beginning the day following the last day to drop the class and extending through the ninth week. For classes shorter than a semester (14 weeks), the period will be set in proportion to the length of the class.

Course Withdrawal with Dean Approval

For graduate and nondegree students, withdrawal after the last day to drop a course requires approval by the student’s academic dean, and is permitted only for nonacademic reasons that prevent course completion. For undergraduate students, withdrawal after the open withdrawal period, for cause within the period, or after a student has used all three selective withdrawals, requires approval by the student’s academic dean and is typically permitted only for nonacademic reasons that prevent course completion.

Semester Withdrawal with Dean Approval

Undergraduates taking three or fewer classes may use the selective withdrawal for all courses for a semester; see the Selective Withdrawal for Undergraduates section of this chapter. Otherwise, students may withdraw from a semester after the end of the drop period without academic penalty only for nonacademic reasons with the approval of the academic dean. Withdrawal forms are available at the appropriate academic dean’s office. Students who stop attending all classes without the dean’s approval and without processing selective withdrawals, if eligible, will receive a grade of F in all courses.

Effects of Course or Semester Withdrawal

Approved or selective withdrawal results in a grade of W on the student’s transcript for the withdrawn course(s). While a grade of W does not affect the GPA, undergraduate students should note that withdrawn courses are part of “attempted credit hours,” which serve as the basis for the student’s credit level. In the university’s undergraduate retention system, GPA standards increase according to credit level. See the Student Retention Categories in the Undergraduate Policies section.
Attendance Policies

Students are expected to attend the class periods of the courses for which they register. In-class participation is important not only to the individual student, but also to the class as a whole. Because class participation may be a factor in grading, instructors may use absence, tardiness, or early departure as de facto evidence of nonparticipation. Students who miss an exam with an acceptable excuse may be penalized according to the individual instructor’s grading policy, as stated in the course syllabus.

Absence for Religious Observances or Participation in University Activities

Mason encourages its faculty to make a reasonable effort to allow students to observe their religious holidays or to participate in university-sponsored activities (e.g., intercollegiate athletics, forensics team, dance company, etc.) without academic penalty. Absence from classes or exams for these reasons does not relieve students from responsibility for any part of the course work required during the absence. Students who miss classes, exams, or other assignments as a consequence of their religious observance or for participation in a university activity will be provided a reasonable alternative opportunity, consistent with class attendance policies stated in the syllabus, to make up the missed work. It is the obligation of students to provide faculty, within the first two weeks of the semester, with the dates of major religious holidays on which they will be absent, and the dates for which they are requesting an excused absence for participation in any university-sponsored activity scheduled prior to the start of the semester, and as soon as possible otherwise. Students requesting an excused absence for participation in a university-sponsored activity must provide their instructor with a letter from a university official stating the dates and times that participation in the activity would result in the student missing class. Faculty members are encouraged to take religious observances into consideration when constructing class schedules and syllabi.

Final Exams

Final exams are usually given at the end of undergraduate courses. Except in predominantly laboratory courses, exams may not be given during the last week of classes. Exams may not exceed the scheduled length of two hours, 45 minutes. Changes in location or time of in-class final exams must be approved by the appropriate department chair and dean. A professor who is considering assigning a take-home exam or significant end-of-semester paper or project should inform the students at the beginning of the semester. Such assignments should be distributed by the beginning of the last week of classes so that students can coordinate them with preparation for other exams. Students must not be required to submit exams before the date of the regularly scheduled exam for a course. Retaking final exams is not permitted. If campus-wide disruptions to class meeting schedules occur during the semester (e.g., due to severe weather), a revised final exam schedule may be issued. In this event, students and faculty are expected to adhere to the revised schedule.

Absences

Absences from final exams will not be excused except for sickness on the day of the exam or other cause approved by the student’s academic dean or director. The effect of an unexcused absence from an undergraduate final exam shall be determined by the weighted value of the exam as stated in the course syllabus provided by the instructor. If absence from a graduate final exam is unexcused, the grade for the course is entered as F. See the Additional Grade Notations in the Grading System section for information on being absent with permission.

Grading System

University course work is measured in terms of quantity and quality. A credit normally represents one hour per week of lecture or recitation or not fewer than two hours per week of laboratory work throughout a semester. The number of credits is a measure of quantity. The grade is a measure of quality. Faculty of record must assign a grade to all enrolled students at the end of the semester, term or part of term. For grades applicable to graduate courses, see the Graduate Grading section.

The university-wide system for undergraduate grading is as follows:
### Undergraduate

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
<th>Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.00</td>
<td>Passing</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
<td>Passing</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
<td>Passing</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
<td>Passing</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
<td>Passing</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
<td>Passing</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
<td>Passing</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
<td>Passing</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
<td>Passing</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
<td>Passing</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
<td>Failing</td>
</tr>
</tbody>
</table>

No credit toward graduation accrues from a failing grade or a grade that is replaced by a retaken course.

### Additional Grade Notations

**Satisfactory/No Credit (S/NC):** An S grade reflects satisfactory work (C or better for undergraduate students, B- or better for graduate students); otherwise, the student receives no credit (NC). S and NC have no effect on the student’s GPA. Entire courses normally graded S/NC are annotated in the catalog, and include doctoral dissertation courses 998 and 999. Students may also elect to take credit without grade. For more information, see Auditing a Course in the Registration Procedure section of this chapter.

**A/B/C/NC:** Students who successfully complete English Composition and Introduction to Literature (ENGL 101) or Composition for Non-Native Speakers of English (ENGL 100) are graded A, A-, B+, B, B-, or C. Students who do not attain at least a C in these courses receive no credit (NC). NC has no effect on the GPA.

**Incomplete (IN):** This grade may be given to students who are passing a course but who may be unable to complete scheduled course work for a cause beyond reasonable control. Unless the faculty member has specified an earlier deadline, the student must then complete all the requirements by the end of the ninth week of the next semester, not including summer term, and the instructor must turn in the final grade by the end of the 10th week. Faculty members who choose to require an earlier incomplete deadline will be required to file an *Incomplete Grade Contract* with the local academic unit’s office, detailing the work that remains to be done, the general reason for the incomplete, and the student’s grade at the point of receiving the incomplete. Unless an explicit written extension is filed with the Registrar’s Office by the faculty deadline, the grade of IN is changed by the registrar to an F. The maximum IN extension is to the end of the same semester in which it was originally due. Students who have filed their intent to graduate have only six weeks from the date of degree conferral to resolve any incomplete grades and have the final grades recorded by the Registrar’s Office.
While a grade of IN remains on the transcript, it is treated as an unsatisfactory grade in determining probation, suspension, termination, or dismissal. Removal of INs from the transcript may result in retroactive elimination of probation, suspension, termination, or dismissal.

**Incomplete, extended (IX):** IX is given by the Registrar’s Office after receiving an Incomplete Extension form signed by the instructor and the appropriate dean. The extension gives students additional time to complete work; the amount of time is specified by the instructor. The final grade must be submitted to the Registrar’s Office before final exams for the semester in which the IN grade was originally due. A grade of IX affects the academic record in the same way as does a grade of IN.

**In Progress (IP):** This grade may be given in selected courses, including graduate theses, dissertations, practicums, and internships. IP may also be used when the work of BIS 490 or a course that is graded S/NC or A/B/C/NC is not completed within one semester. IP has no effect on the GPA. With the exception of BIS 490, IP remains on the record until the work is completed and a final grade is assigned. An IP in BIS 490 not changed to a final grade by the last day of classes of the next semester, not including summer term, is changed by the registrar to an F. IP grades will also be awarded in courses numbered 998 and 999 until successful completion, and then they will be changed to S/NC. Upon successful completion of 998 or 999 and submission of the final grade, grades for all prior sections will be changed to S/NC.

**Absent with permission (AB):** A student who has received permission from the academic dean or director to be absent from a final exam for cause beyond reasonable control may receive a temporary grade of AB. A rescheduled exam must be administered within 10 business days of the original exam date, or the AB will automatically become an F. Final determination of academic status is not complete while the AB remains on the transcript.

**Special Provision (SP):** The grade of SP may be given by a dean to students who are unable to complete the course requirements because of extraordinary long-term circumstances, such as major illness or military deployment. SP has no effect on the GPA and remains on the transcript until the work is completed and a final grade is assigned.

**Midterm Reports**

Midterm progress is reported for all full-semester 100- and 200-level classes, and for 300- and 400-level classes at the discretion of the professor. The reporting period extends from the fifth through the eighth week of the semester, allowing flexibility to individual faculty in providing reports for their classes. Students should check with their instructors as to when reports will be complete and available for viewing through Patriot Web. These progress reports, which appear in Patriot Web as “Midterm Grades,” do not become part of the student’s official record. They are not calculated in any GPA, and they do not appear on any official or unofficial transcript.

**Final Grades**

Semester grade reports are available through Patriot Web. Students may print a grade report for their own records or to issue to a third party. Official semester grade reports for tuition reimbursement may be obtained through the Office of the Registrar. Students may also order an official transcript through the Registrar’s Office.

**Transcripts**

Official transcripts include all credit course work attempted at the university. Official transcripts will not be issued when unsatisfied financial obligations to the university exist. Unofficial transcripts may be printed by the student from Patriot Web. See registrar.gmu.edu for information and instructions on requesting official transcripts.

**GPA**

Quality point values are assigned to letter grades as indicated in the grading system table. A quality point score is computed by multiplying the value of a letter grade by the number of credits for the course. For example, a student receiving an A (4.00) in a
3-credit course earns 12 quality points. The GPA is computed by dividing the quality points earned by the number of credits graded A+ through F (GPA hours).

For undergraduates, the GPA computed for the current term gives the current GPA, which is the measure of academic performance in one semester and affects eligibility for the dean’s list. The GPA computed for all institutional credit gives the cumulative GPA, which is the basis for the university’s retention policies, including good standing, warning, probation, suspension, and dismissal. Cumulative GPA also determines students’ eligibility to graduate and have university honors posted to their record at graduation.

Current GPA and cumulative GPA do not apply to graduate students. A notation of academic warning is entered on the transcript of a graduate student who receives a grade of C, or a grade of F in a graduate course or while a grade of IN or IX is in effect. A degree GPA is computed for graduate students based on graded courses completed at the university and applied toward the degree. For more information, see the Graduate Policies section.

Change of Grade

The conditions and time limits for changes from the temporary grades IN, IP, AB, and SP to final grades appear in the Additional Grade Notations section.

Once a final grade has been recorded by the Office of the Registrar, it can be changed only in cases of computational or recording error, or pursuant to a successful appeal of the grade as described below. Additional work of any type submitted to improve a grade after the final grade has been assigned and sent to the Office of the Registrar is never accepted.

All changes of final grades must be initiated, approved, and recorded by the last day of classes of the next regular semester (spring for fall grades, and fall for spring and summer term grades).

Grade Appeals

Although faculty members are generally the best judges of student performance, there may be times when a student believes a grade is unfair. In such cases, the student should ask the faculty member to reconsider the grade. If the student is not satisfied, an appeal may be made to the head of the unit offering the course (the department chair, institute director, or designee). The recipient of the appeal should ask the student to return to the faculty member who assigned the grade for further consultation.

If the instructor is no longer associated with the university, the local administrator of the unit offering the course will appoint a faculty surrogate, who will assume magisterial authority of the instructor of record at this level of appeal.

If a mutually satisfactory agreement is not reached, the student may request that the chair form a committee of three faculty peers of the faculty member who assigned the grade. If the chair believes the student’s complaint is not legitimate, this reservation is reported to the chair’s supervisor, usually the dean. No review is conducted unless the dean believes the complaint has merit.

The faculty member or the student may challenge and have replaced one of the three members of the committee without giving a reason for the challenge. The committee meets separately with the faculty member and the student to explore the full particulars of the case. A nonparticipating observer of the student’s choice may attend the meeting. Every effort is made to avoid an adversarial relationship.

After the committee has reviewed the case thoroughly, it issues to the chair (with a copy to the faculty member) a written recommendation that includes the reasons for its findings. At this time, the faculty member has an opportunity to take the recommended action, if any. If the matter is not resolved at this point, the chair considers the committee recommendation and makes a recommendation to the dean. The decision of the dean is not subject to further appeal. If the dean decides that a change of grade is appropriate and the faculty member refuses to make the change, then the dean may direct the registrar to do so.

Grade appeals are not accepted after the last day of classes of the following semester (spring for fall grades, fall for spring and summer grades).
Pending Grade Appeal for Students in Academic Difficulty

A student may request a delay from the dean in imposing academic suspension because of a pending grade appeal that could change the student’s status. An approved delay allows the student to register.

If the grade appeal is successful, the official transcript is corrected and the student continues in classes as a student in good academic standing, on probation or on warning. If the grade appeal is not successful, the student is required to stop attending all classes immediately. No record of registration for the academic period appears on a transcript and the student receives the appropriate refund as of the decision date.
Undergraduate Policies

Student Classification

Admitted undergraduates are classified as follows: freshman, 0–29 credits completed; sophomore, 30–59 credits completed; junior, 60–89 credits completed; and senior, 90 or more credits completed. Full-time undergraduates are classified as those students enrolled in 12 or more credits per semester. Please note that different criteria for full-time status may apply for tuition, verification, and financial aid purposes. For more information, contact the offices of Student Accounts, Registrar, and Student Financial Aid, respectively.

Academic Advising

The mission of academic advising at Mason parallels the university’s mission by providing resources and programs to mentor, teach, and guide students in their decision making as they develop their educational and career goals. Admitted undergraduate students should meet regularly with an academic advisor to discuss academic programs, educational goals, and career plans. With their advisors, students plan academic programs to meet the general university degree requirements and specific requirements within their major fields. It is the student’s responsibility to read the catalog and know and fulfill the requirements of a specific baccalaureate degree. To assist in the advising process, Mason provides a computerized degree evaluation. Students may access their individualized reports through Patriot Web.

Individual departments establish their own advising processes; students should check with their departments for the appropriate procedures. During their freshman and sophomore years, students in the Honors College plan their schedules with honors advisors. Every department coordinates advising of its honors students through the Honors College.

Some departments require that students be advised prior to registration each semester. For the categories of students (regardless of major) who may not register until they have seen an advisor, see the Registration, Attendance, and Grading section of this chapter.

Academic Advising Center
Student Union Building I, Room 304, MS 2E6
Phone: 703-993-2470
Fax: 703-993-2478
Web: advising.gmu.edu
E-mail: advisor@gmu.edu

Admitted students who have not yet declared a major or are considering a change of major are assisted in the Academic Advising Center. Students are encouraged to make an appointment for information about general education requirements, programs,
policies, procedures, and other academic concerns. The center also provides information and guidance for students who are interested in preprofessional programs in the health fields. Advising is available by appointment Monday through Friday, 9 a.m. until 5 p.m., and Tuesday until 8 p.m. when classes are in session.

**Student Academic Affairs**
Johnson Center, Room 245, MS 2C4
Phone: 703-993-9082
Fax: 703-993-9008
Web: saa.gmu.edu

Student Academic Affairs is the umbrella unit for the Freshman Center, Transfer Center, and the University Transitions Office and also rules on all academic actions submitted by students not in a declared major.

**Advising upon Entrance into Upper Division (Junior Standing)**

Upon entrance into the upper division, every student should meet with an advisor to adopt a program of study. This meeting should cover the following:

- Review of requirements for the degree and major the student has chosen
- Review of the student’s record including any deficiencies which must be corrected
- Discussion of career or graduate study options open to the student enrolled in such a program
- Opportunities for departmental faculty to evaluate the student’s suitability to major in the chosen discipline.

This advising session occurs in the semester in which the student will have completed 60 or more acceptable credits. The results are a matter of record, with any approved modifications being entered into the student’s computerized degree plan.

Although an upper-division student who has filed an approved program of study is usually not required to consult again with an academic advisor, it is good practice to seek periodic academic and career advising. It remains the student’s responsibility to seek approval for any program change so that the computerized degree plan may be kept current. In particular, once a student has completed 60 credits, a change of major requires an extended session with an advisor in the new major and approval of a new program of study before the change is complete.

A student in lower-division status may change majors by filing a Change/Declaration of Academic Program Form with the registrar. These are minimal advising procedures to be followed in all undergraduate segments of the university; individual units may require additional advising sessions.

**Health Professions Advising and the Medical Sciences Advisory Committee**
Phone: 703-993-9305
Web: prehealth.gmu.edu

Students are responsible for educating themselves about a career in the health professions (e.g., dentistry, medicine, pharmacy, optometry, podiatry, or veterinary medicine) and should become familiar with the relevant graduate/professional admissions process. The health professions advisor coordinates academic and career advising for Mason students and alumni as the chair of the Medical Sciences Advisory Committee. The committee reviews all qualified candidates for admission to health profession programs in dentistry, podiatry, veterinary, allopathic, and osteopathic medicine to create a composite letter of evaluation for the applicant. The committee comprises university faculty and professional advising staff. For more information, consult the advising web site or contact the health professions advisor, Robinson B, Room 477D, 4400 University Drive, MS 2C4, Fairfax, Virginia 22030.

**Academic Standing**

The following system of academic progress became effective in fall 2004 and applies to all undergraduate degree and nondegree students at Mason, including those formerly categorized as extended studies students.
Academic retention is based solely on the cumulative GPA. The cumulative GPA required for retention varies according to the credit level or attempted credit hours, which is a combination of all credits attempted at the university plus credits transferred from other institutions or obtained by testing.

**Academic Period**

Academic period refers to fall semester, spring semester, or summer term. For determining the duration of academic warning, probation, and suspension, an academic period is defined as follows:

Each academic period begins on the 15th day following the last scheduled day of final exams for the previous period. Each academic period ends on the 14th day after the last scheduled day of final exams. For example, assume that the last scheduled day of final exams for a semester is Monday, December 23. That period then ends on Monday, January 6. The next period begins on Tuesday, January 7.

**Good Academic Standing**

Students are in good academic standing unless they are academically dismissed, suspended, or on probation. Students on academic warning are still considered to be in good academic standing.

**Student Retention Categories**

The university’s minimum standard for satisfactory academic achievement is 2.00 on a 4.00 scale. Students with at least 7 attempted credits and a cumulative GPA of less than 2.00 fall into one of three categories: warning, probation, and suspension. All notations of academic standing are included in a student’s permanent record. The cumulative GPA range that defines each of the categories varies according to the credit level, as noted below:

<table>
<thead>
<tr>
<th>Credit Level Attempted Credit Hours</th>
<th>Warning Cumulative GPA Range</th>
<th>Probation Cumulative GPA Range</th>
<th>Suspension Cumulative GPA Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>7–16</td>

<tr>
<td>90+</td>
<td>–</td>
<td>1.85–1.99</td>
<td>0.00–1.84</td>
</tr>
</tbody>
</table>

**Exception for Freshmen and Transfer Students**

Freshmen and transfer students in their first semester of study at Mason will receive probation as the strongest academic sanction. GPA retention levels, as stated above, will apply in all subsequent semesters. Students in this category should be on notice that they must make up ground in order to avoid suspension in future semesters; in particular they should consult their advisors and consider repeating courses in order to achieve academic good standing.

**Termination from the Major**

Undergraduate students in any retention category may be reviewed for possible termination by their dean. Termination from a major—or from all majors in a college—may be imposed as a result of excessive repeating of required courses without achieving
the minimum standard, and for other evidence of continued failure to make adequate progress toward completion of the major. Students must be informed a semester in advance and given a chance to meet the standard or appeal. Once a termination decision has been made, a letter of termination is sent to the student by the dean or director of the school, college, or institute, and notification of termination from the major is affixed to the student’s academic record. Students who are terminated are no longer eligible to pursue that major, but may transfer to a different major within the university to complete their undergraduate degree.

Academic Suspension

Students in degree status who incur a first suspension following a spring semester or summer term serve a period of suspension through the next fall semester. Students who incur a first suspension following a fall semester serve a period of suspension through the next summer term. A second suspension is for one calendar year: two semesters and a summer term. Students returning from suspension are on probation for one academic period. Course credits earned at other colleges during the period of suspension from Mason (for academic or nonacademic reasons) are not accepted for the degree program.

Nondegree undergraduate students placed on suspension have no specified rights of return to the university. Nondegree students who have been suspended and wish to resume their studies after a period of absence must qualify for readmission through the Office of Admissions.

Academic Dismissal

A third suspension results in academic dismissal, a status that is usually permanent. In exceptional cases, students who have been dismissed may apply for readmission after a minimum absence of three calendar years from the university, but only if they meet one or more of the following conditions after having been dismissed:

- Demonstrate academic success (2.50 GPA or better) in at least 18 credits of classes taken during the period of dismissal at an accredited two- or four-year college or university. Such credits may be considered for transfer back to Mason, but there is no guarantee of acceptance of the credit.
- Provide other evidence of a renewed ability to achieve academic success.
- Provide evidence that all degree requirements will be met once an additional 12 or fewer credits are complete.

Meeting the above requirements does not guarantee a return. The Office of Admissions and the appropriate school or college dean will make individual decisions in the best academic interests of the student and the university. For students seeking readmission to a new school or college, the new dean will make the decision in consultation with the former dean and the Office of Admissions. For more information, see the Academic Clemency section of this chapter.

Academic Performance and Credit Limit

Undergraduate students on warning, probation, or returning from suspension are limited to a maximum of 13 credits for following semesters until they achieve good standing. Students registered for 14 or more credits are responsible for seeking academic advisement and adjusting their enrollment to a maximum of 13 credits.

Academic Standing and Student Activities

Only students in good academic standing are eligible to hold or run for elective or appointive office in any organization or activity associated with Mason, compete in any athletic or other activity representing Mason on either an intercollegiate or a club level, or serve as a working staff member of any student organization. Note that students on warning are considered to be in good standing. Some organizations and activities may impose stricter academic criteria for participation.

A student whose eligibility for an activity requires the completion of a semester will have fulfilled that requirement when the student’s publicly scheduled exams are over, unless continued eligibility depends on the grades received. In the latter case, the student will not become eligible until the end of the semester as defined in the Academic Period section of this chapter.
Academic Clemency

Undergraduate students returning to Mason after a separation of a minimum of three calendar years may petition their academic dean to have up to 16 previous credits earned at Mason removed from the calculation of their cumulative GPA. Courses and grades so removed will not count toward graduation requirements. Note that the courses, with their original grades and the notation “Academic Clemency,” will remain listed on the student’s transcript permanently. The petition for clemency must be filed within 12 months starting from the first day of the re-enrollment semester at Mason; approval may depend on successful completion of that semester. Approval of the request is neither automatic nor guaranteed.

Requirements for Undergraduate Programs

Declaration of Major

To plan a sound academic program, undergraduates should select a degree and major as soon as it is practical but no later than four weeks before the end of the sophomore year. To declare a major, students should confer with the appropriate advisor in the new major program. Students approaching the recommended point for declaring a major, but still uncertain of their choice, should consult the Academic Advising Center, Student Union Building I, Room 304, advisor@gmu.edu. Note that all degree components including general education, minors and concentrations must be contained in a single catalog year.

Requirements for Bachelor’s Degrees

- **Admission.** Candidates must have been officially admitted into degree-seeking status.
- **Residency.** At least one-fourth of the total credits applied to the degree must be completed at Mason and include at least 12 upper-level credits (courses numbered 300 or above) in the major program. A maximum of 18 credits earned in non-degree status at Mason can be applied toward a bachelor’s degree.
- **Credit Hours.** Students must complete at least 120 credits that count toward graduation and fulfill all degree requirements. A few programs require more than the minimum 120 credits.
- **Quality.** Candidates must achieve a cumulative GPA of 2.00 or higher, and must meet all higher standards for grades allowable in majors, minors, or certificates. The Mason cumulative GPA does not include transfer courses.
- **Upper Level.** Students seeking a bachelor’s degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.
- **University General Education.** Candidates must complete general education requirements as described for their catalog year. This includes satisfying the requirement of two semesters of English composition (ENGL 101 and ENGL 302) with a grade of C or better.
- **College/Department General Education.** Students must satisfy additional general education requirements for specific degree programs, as described in the college section of the catalog.
- **Major.** Students must satisfy all requirements for their major and degree program, as described in the college section of the catalog, and as detailed in the degree evaluation for their catalog year.

English Composition Requirement

Mason requires students to complete at least two semesters of English composition. Students who complete the Honors Curriculum in General Education or the Mason Cornerstones program in New Century College complete the English composition requirement through coursework in those programs. Equivalent credit may be granted through course transfer or external exam. Exemption (but not credit) may be granted through a proficiency exam administered by the English department. All other students must enroll in ENGL 101 (or 100) upon admission and, after meeting its prerequisites, ENGL 302. Students must attain a minimum grade of C in composition courses to fulfill degree requirements.

Writing-Intensive Course Requirement
As part of the university’s commitment to student writers in all undergraduate programs, at least one upper-division course in each major has been designated as fulfilling the “writing-intensive” (WI) requirement. While other courses in the major may require written projects, teachers of the designated WI courses will devote class time to instruction on how to complete assignments successfully, assign and grade a minimum of 3500 words, provide constructive feedback on drafts, and allow revision of at least one graded assignment. See the description of each major for the specific course or courses that fulfill the WI requirement.

**Second Bachelor’s Degree**

A second bachelor’s degree may be earned, either concurrently or sequentially. To graduate with two degrees, students must present at least 30 Mason credits beyond those required by either degree alone. For sequential awarding of degrees, students must be readmitted for the second degree through the Office of Admissions and complete a minimum of 30 credit hours after that point to have fulfilled the residency requirement for that degree.

Students who are concurrently pursuing two bachelor’s degrees at Mason must present a detailed program of study for both degrees and obtain authorizing signatures from the chair or director of each degree program and the dean or director, if required by the college, school, or institute. Students may declare the second concurrent degree by completing the Declaration of Second Bachelor’s Degree section of the Change/Declaration of Academic Program Form. Both degree must be declared the semester before the student intends to graduate. Students pursuing concurrent degrees should apply to graduate when both degrees are complete, or be prepared to meet the requirements noted above for sequential awarding of degrees.

**Minors**

Students may elect minor programs of study in addition to major fields by completing the Declaration or Change of Minor section of the Change/Declaration of Academic Program Form. Minors usually require between 15 and 21 credits of study, at least 8 of which must be applied only to that minor and may not be used to fulfill requirements of the student’s major, concentration, an undergraduate certificate, or another minor. Students must complete at least 6 credits in their minor at Mason and achieve a minimum 2.00 GPA in courses applied to the minor. Students interested in a minor should consult the appropriate departmental chapters in this catalog.

**Undergraduate Certificates**

Students may elect undergraduate certificate programs of study in addition to major fields by completing the Change/Declaration of Academic Program Form. Students pursuing undergraduate certificates must be admitted to Mason in degree-seeking status. Undergraduate certificate programs require at least 24 credits, 15 of which may not also be used to fulfill the requirements of a major, a concentration, a minor, or another undergraduate certificate. More than half of the credit hours for an undergraduate certificate must be taken at Mason, and more than half must be taken in degree-seeking status. Students must achieve at least a 2.00 GPA in courses applied to the certificate.

Students with a previous bachelor’s degree, who are admitted to an undergraduate certificate program alone, have four years to complete certificate requirements. Such students who are given permission to re-enroll following an absence from Mason may not count the four-year time limit as beginning on the date of re-enrollment. International students attending in F-1 or J-1 status have a more restrictive time limit; contact the Office of International Programs and Services for information. Students who will not meet the published time limit because of circumstances beyond their control may petition their dean for an extension. Failure to meet the time limit or to secure approval of an extension request may result in termination from the program.

A completed undergraduate certificate may be posted to the transcript only after completion of a bachelor’s degree. Note that these are university minimum requirements; individual programs may have higher standards and/or more restrictive requirements.

**Change of Academic Program**
Students considering a change in their academic program (major or degree) are encouraged to see an advisor in the Academic Advising Center or a faculty advisor in their prospective discipline. Departmental chapters of this catalog describe requirements for acceptance. Students not meeting the requirements may appeal to the department chair for an exception.

Once a student has completed 60 credits, a change of major requires a meeting with an advisor in the new major before the change is complete. To file a change of major, signatures of advisors or designates in both the new and former major programs must be obtained on the Change/Declaration of Academic Program Form.

**Credit for More than One Undergraduate Major**

Students seeking to graduate with a BA or BS degree in two or more subjects must meet departmental requirements for the major in each field. For each major, at least 18 credits used to fulfill its requirements cannot be used to fulfill the requirements of another major, a concentration, a minor, or an undergraduate certificate.

Students pursuing two or more concurrent majors must complete the Declaration of Second Major section of the Change/Declaration of Academic Program form, available in the Registrar’s Office or at registrar.gmu.edu/forms. The applicant must present a detailed program of study for both majors and obtain the authorizing signature from the chair or director of the second program and from the dean or director, if required by the college, school, or institute. When required by a specific academic unit, department chairs and deans or directors must also approve all changes to the programs of study. Students may begin a program at any time that permits completion before the anticipated graduation date.

**University Honors**

A student graduates with distinction from the university when at least 60 credits applied toward graduation are earned at Mason, and the student’s cumulative GPA is at least equal to one of three values: 3.90, summa cum laude; 3.70, magna cum laude; or 3.50, cum laude.

A student graduates with recognition from the university when between 45 and 59 (inclusive) credits applied toward graduation are earned at Mason, and the student’s cumulative GPA is at least 3.80.

**Dean’s List**

Students in degree status who take at least 6 credits in a semester and earn a semester GPA of 3.50 or higher merit placement on the Dean’s List. Courses subsequently repeated and excluded will not retroactively affect Dean’s List status. This notation will be placed on the individual’s permanent record.
Graduate Policies

Return to: Academic Policies

- Student Classification
- Full-time Classification
- Academic Advising
- Student Status
  (Change from nondegree status, removing provisional qualifier, permission to re-enroll, voluntary resignation from
  graduate academic program)
- Credit by Exam or From Other Institutions
  (Credit by external exam, transfer of credit, reduction of credit, permission to study elsewhere)
- Graduate Grading
- Graduate Academic Standing
  (Academic warning, academic termination, academic dismissal)
- Combined Bachelor’s and Accelerated Master’s Degrees
- Requirements for Graduate Certificates
- Requirements for Master’s Degrees
- Requirements for Doctoral Degrees

At the graduate level, Mason offers certificates and master’s and doctoral degrees. There are also a number of combined bachelor’s and accelerated master’s degree programs for academically strong undergraduates with a commitment to research.

Graduate Council

The Graduate Council is the governing body for all graduate academic policies and procedures. The council approves all new graduate programs; authorizes all graduate course work, policies, and degrees conferred by the university; and sets minimum standards for admission to and graduation from any graduate program. These are minimum standards that all programs must meet; individual programs may set and enforce higher standards. The Office of the Provost administers university graduate policies for the Graduate Council.

Graduate Faculty

The graduate faculty consists of all George Mason University tenured and tenure-track faculty. Other Mason faculty members, as well as individuals from outside the university, may be appointed to the graduate faculty by the Provost for a specified duration of time.

Student Classification

Students may access graduate classes and programs according to their status as nondegree or enrolled degree students. For more information, see the Admission chapter of this catalog.

Full-Time Classification

Graduate students are considered full time if they are enrolled in at least 9 graduate credits per semester or hold a full-time
assistantship (20 hours a week) and are enrolled in at least 6 graduate credits per semester.

Master’s students may enroll in 1 credit of 799 and be considered full time only if they have completed 3 credits of 799 and the
student along with their advisor and department chair certify each semester that the student is working full time on the thesis. See
the Master’s Thesis section for more information regarding 799.
Doctoral students who are enrolled in dissertation credits (either 998 or 999) are considered full time if they are enrolled in at least 6 credits per semester, regardless of whether they hold an assistantship. Doctoral students who have advanced to candidacy and have completed the minimum number of credits required by the university and their degree program, including the minimum number of credits of 998 and 999, are considered full time if they are registered for at least 1 credit of 999 and the student along with their advisor and department chair certify each semester that they are working full time on the dissertation. See the Dissertation Registration section for more information regarding 998 and 999.

To be considered as full time under the aforementioned clauses, a student must complete and submit the appropriate forms to the Office of the Registrar prior to the first day of classes for the semester.

Note that different criteria for full-time status may apply for tuition, verification, loan deferral, and financial aid. Contact Student Accounts, the Registrar’s Office, and Student Financial Aid, respectively, for more information.

**Academic Advising**

When a student is admitted to graduate study, the student is assigned a faculty advisor by the academic program responsible for the student’s program of study. Registration for newly admitted graduate students, as well as continuing students, begins with a visit to the student’s academic advisor. There, the student can obtain information about specific courses and degree requirements and develop an individual program of study. Progress in an approved program of study is the shared responsibility of the student and the advisor. The graduate student is responsible for compliance with the policies and procedures of the college, school, or institute, and all applicable departmental requirements that govern the individual program of study. Students should consult with their advisors before registration each semester.

**Student Status**

**Change from Nondegree Status**

A student admitted for graduate study in nondegree status may apply to obtain degree status within the same program. All admission requirements (as usually defined by the student’s program for degree status) must be met, including official transcripts and letters of recommendation. If the student intends to use credits earned in nondegree status toward a degree, the credits must be approved on the Graduate Transfer of Credit Request form. The credit must have been earned within six years prior to first enrollment as an admitted student in the specific certificate or degree program, and a minimum grade of B (3.00) must have been earned. There is a limit on the number of credits that can be transferred when changing from nondegree to degree status; please see the applicable degree program for specific information.

**Removing Provisional Qualifier**

For policies concerning students admitted provisionally, see the Graduate Admission Policies section in the Admission chapter of this catalog.

**Permission to Re-Enroll**

Permission to re-enroll in a program must be obtained by all master’s and doctoral degree students who have failed to enroll in at least 1 credit of course work for two or more consecutive semesters at Mason. A program may allow a student to petition to graduate under any catalog in effect while the student was enrolled. All program components, including concentrations, must appear in the catalog for the year selected. The final decision as to catalog year rests with the unit dean or director. Forms are available from the Office of the Registrar at registrar.gmu.edu/forms.

**Voluntary Resignation from Graduate Academic Program**
Degree-seeking students may officially resign from their academic program with the approval of their department or program chair and their dean. The Voluntary Resignation form must be approved by the student’s program and Student Accounts, then submitted to the Registrar’s Office for notation on the transcript. Resignations after the drop period will result in grades of W on the student’s transcript for that semester, and removal from any future registered courses. Program resignation is final. Students who have been granted a resignation will not be able to register for any courses unless admitted to another degree program or nondegree status in a different program.

Credit by Exam or From Other Institutions

Credit by External Exam

Degree credit for satisfactory completion of an external exam is limited to those exams and achievement levels specifically approved by the Graduate Council.

Transfer of Credit

Graduate credit earned prior to admission to a certificate, master’s, or doctoral program may be eligible to be transferred into the program and applied to the certificate or degree. Transfer of credit requires the approval of the program director and dean or director of the school, college, or institute. They will determine whether the credit is eligible for transfer and applicable to the specific certificate or degree program. Note that credits accepted for transfer do not compute into any Mason GPA. Limits on the number of credits that can be transferred derive from the degree requirements given below.

Credit is usually considered for transfer at the student’s request at the time of initial registration as a degree-seeking student. Students must supply official transcripts. For transcripts from outside the United States, students must supply an official transcript evaluation and an official translation for transcripts not in English if these documents were not supplied in the admission process. Credit transfer requests from students who are admitted provisionally are not considered until they have fulfilled the conditions of their admission and the provisional qualifier has been removed from their records.

To be eligible for transfer credit, the credit must be graduate credit earned at another accredited university, earned at another institution and recommended for graduate credit in the American Council on Education guidebook, or earned at Mason while in a nondegree status or enrolled through extended studies. The credit must have been earned within six years prior to first enrollment as an admitted student in the specific certificate or degree program, and a minimum grade of B (3.00) must have been earned. The course must be applicable toward a degree at the institution offering the course. Extension and in-service courses that are not intended by the institution offering the courses to be applied to a degree program are not eligible for transfer credit to Mason. The credits cannot have been previously applied toward a degree at another institution or Mason; however, up to 3 credits previously applied to a degree program at another institution may be transferred into a certificate program at Mason.

Reduction of Credit

The number of credits required by a doctoral, master of fine arts, or master’s program of more than 39 credits may be reduced on the basis of a previously earned master’s degree. Reduction of credit requires the approval of the program director and the dean or director of the school, college, or institute. They determine whether the credits are eligible for reduction of credit and applicable to the degree program and the number of credits to be reduced. Reduction of credit is limited to a maximum of 30 credits in a doctoral program, 20 in an MFA program, and 18 in the MA in psychology concentration in school psychology, and derive from the degree requirements given below.

Students requesting a reduction of credit must supply official transcripts. For transcripts from outside the United States, students must supply an official transcript evaluation and an official translation for transcripts not in English if these documents were not supplied in the admission process. Reduction-of-credit requests from students who are admitted provisionally are not considered until the students have fulfilled the conditions of their admission and had the provisional qualifier removed from their records.
Credits used in reduction of credit are not subject to time limits, and the credits must have been applied to a previous degree. All the other conditions given above for eligibility of transfer of credit apply also to reduction of credits.

**Permission to Study Elsewhere**

Students enrolled in a degree program may take graduate courses at another accredited institution and apply these credits to a master’s or doctoral degree with prior approval. Approval must be secured in writing from the director of the graduate program and the dean or director of the school, college, or institute, and submitted to Mason’s Office of the Registrar before registering at the other institution. Upon completion of the course, students must arrange for an official transcript to be submitted to Mason so that the credits may be transferred into their Mason degree program. These credits are subject to all the other conditions given above for transfer credit, including limits on numbers of credits that can be taken elsewhere. Note that credits accepted for transfer do not compute into any Mason GPA. Permission to take a course elsewhere does not exempt a graduate student from satisfying the degree requirements given below.

Enrolled, degree-seeking graduate students may be eligible to take a limited number of courses through the Consortium of Universities of the Washington Metropolitan Area. See the University Consortium section in the Registration, Attendance, and Grading chapter of this catalog. Credits earned through the consortium are considered resident, not transfer, credits, and are therefore not subject to transfer of credit conditions or limitations.

**Graduate Grading**

University course work is measured in terms of quantity and quality. A credit normally represents one hour per week of lecture or recitation, or not fewer than two hours per week of laboratory work, throughout a semester. The number of credits is a measure of quantity. The grade is a measure of quality. The university-wide system for grading graduate courses is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
<th>Grade Quality Points Graduate Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.00</td>
<td>Satisfactory/Passing</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
<td>Satisfactory/Passing</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
<td>Satisfactory/Passing</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
<td>Satisfactory/Passing</td>

* Although a B- is a satisfactory grade for a course, students must maintain a 3.00 average in their degree program and present a 3.00 GPA on the courses listed on the graduation application.

**Graduate Academic Standing**

**Academic Warning**
A notation of academic warning is entered on the transcript of a graduate student who receives a grade of C or F in a graduate course or while a grade of IN is in effect.

**Academic Termination**

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Although the university will make every effort to notify students when their performance reaches the threshold for termination, each student is responsible for knowing the termination criteria, for knowing when their grades have met the standard and for initiating any appeal to their dean. Once the appeal period has expired, or the student’s appeal has been denied, a letter of termination is sent by the dean or director of the school, college, or institute, and notification of academic termination is affixed to the graduate student’s official record. Students who are terminated are no longer eligible to take courses in the program, but may apply to another degree program or may apply to take courses in other programs through non-degree studies.

**Academic Dismissal**

A degree-seeking graduate student is dismissed after accumulating grades of F in two courses or 9 credits of unsatisfactory grades in graduate courses. These are minimum standards of academic performance; some programs have higher standards. Although the university will make every effort to notify students when their performance reaches the threshold for dismissal, each student is responsible for knowing the dismissal criteria for degree-seeking graduate students at Mason, for knowing when their grades have met the standard, and for initiating any appeal to their dean. A student may also be dismissed for failure to meet other program requirements such as doctoral competence exams. The notation of academic dismissal is affixed to the graduate student’s official record. A student who is dismissed may not take additional course work at Mason.

**Combined Bachelor's and Accelerated Master's Degrees**

The university offers a number of combined bachelor’s and accelerated master’s degree programs for academically strong Mason undergraduates with a commitment to research or graduate or professional studies. Students admitted into these programs may take a number of graduate courses in their field of study (with permission from their undergraduate and graduate advisors) after achieving 90 undergraduate credits and fulfilling all prerequisites. A maximum of 6 graduate credits completed with a 3.00 GPA or better in each course will apply to the undergraduate degree and give the student advanced placement in the related Mason master’s program. A maximum of 6 graduate credits may also be taken as reserve graduate credit and only applied to the
master’s. See Graduate Course Enrollment by Undergraduates section in the Registration, Attendance, and Grading chapter of this catalog.

Students in an accelerated degree program must fulfill all university requirements for the master’s degree, including a minimum of 18 applicable graduate credits taken after the bachelor’s degree has been completed and posted to the student’s academic record. More information is available in the various schools and institutes. Admission is competitive; undergraduates are advised to inquire early in their undergraduate careers. Applications must be approved by the undergraduate coordinator in the student’s major program, the graduate coordinator in the graduate school or department, and the relevant graduate associate dean. The university waives the graduate application fee for Mason undergraduates.

Requirements for Graduate Certificates

Candidates must satisfy all applicable university requirements and all requirements established by the graduate certificate program faculty. Individual departmental graduate certificate requirements are listed under their academic departments in this catalog. Note that the following are university minimum requirements; individual programs may have higher standards and/or more restrictive requirements.

- Graduate certificate programs require a minimum of 12 graduate credits.
- Only graduate courses may apply toward the graduate certificate.
- A maximum of 3 graduate credits taken at another institution can be transferred into a graduate certificate program. See Credit by Exam or From Other Institutions section.
- Candidates must have a minimum GPA of 3.00 in course work presented on the certificate application, which may include no more than 3 credits of C. (Grades of C+, C-, and D do not apply to graduate courses.) The GPA calculation excludes transfer credits.
- Certificate students are subject to graduate termination and dismissal policies.

Students in Master’s or Doctoral Programs also Pursuing Graduate Certificates

**Admission**
Students must be admitted to the master’s or doctoral program in degree status. They must also be admitted to the graduate certificate program at least one semester before completion of certificate requirements.

**Course Work in Degree Status**
More than half of the credits required for the certificate program must be taken in degree status for the master’s or doctoral degree.

**Time Limits**
The time limits coincide with the six-year time limit for master’s degrees or the six-year time limit for advancement to candidacy in a doctoral degree. Master’s and doctoral time limit rules apply.

**Multiple Programs**
Students may be enrolled in one or two graduate certificate programs while they pursue a master’s and/or doctoral degree. Students who have completed a graduate certificate may subsequently be approved to apply many of those credit hours to a master’s degree. Courses applying to the master’s or doctoral program may also apply to up to two graduate certificate programs. When such sharing of credits between graduate certificates and graduate degrees has occurred, a maximum of two graduate certificates may be conferred.

Students in Graduate Certificate Programs Only

**Admission**
Students pursuing graduate certificates must be admitted to Mason in degree-seeking status. Failure to make satisfactory progress (as determined by the academic unit) toward certificate requirements may result in termination from the certificate program.
Course Work After Admission

More than half of the credits required for the graduate certificate program must be taken after admission to that program.

Time Limits

The time limit for completion is six years from the date of admission to the graduate certificate program. International students attending in F-1 or J-1 status have more restrictive time limits; contact the Office of International Programs and Services for information. The time limit is not extended because of an absence and subsequent re-enrollment into the graduate certificate program. Failure to meet the time limit or to secure an extension request may result in termination from the program.

Multiple Programs

Students may be admitted to two graduate certificate programs at the same time. The graduation application for each graduate certificate must include a minimum of 12 credits that apply only to that certificate and not to another.

Requirements for Master’s Degrees

Candidates must satisfy all applicable university degree requirements and all requirements established by the master’s program faculty. Individual departmental degree requirements are listed under the respective master’s programs in this catalog. Programs may impose more stringent requirements.

- **Admission.** Candidates must have been officially admitted into degree status.
- **Credit Hours.** Candidates must earn a minimum of 30 graduate credits.
- **Credit Level.** Only graduate courses may apply toward the degree.
- **Institutional Credit.** The majority of the credits applied to the degree must be earned at Mason or, in the case of programs offered through joint, cooperative, or consortial arrangements, at the participating institutions.
- **Residency.** A minimum of 18 credits must be taken in degree status, after admission to the degree program.
- **Thesis/Project Limits.** A maximum of 6 credits of master’s thesis research (799) or master’s project may be applied to the degree.
- **Quality.** Candidates must have a minimum GPA of 3.00 in course work presented on the degree application, which may include no more than 6 credits of C. (Grades of C+, C-, or D do not apply to graduate courses. The GPA calculation excludes all transfer courses and Mason nondegree studies credits not formally approved for the degree.)

Thesis Options

Requirements regarding a thesis vary with the degree program. A number of master’s programs offer both thesis and nonthesis options. The same quality of work is expected of students regardless of their chosen option. For more information, consult the section on degree requirements under each degree program.

Time Limit

Master’s degree students have six years from the time of first enrollment as a degree-seeking student to complete their degrees. Individual master’s programs may have stricter time limits, which are published in this catalog. International students attending in F-1 or J-1 status also have more restrictive time limits; contact the Office of International Programs and Services for information. Students who are given permission to re-enroll following an absence from Mason may not count the six-year time limit as beginning on the date of re-enrollment. Students who will not meet published time limits because of circumstances beyond their control may petition for an extension. Failure to meet the time limits or to secure approval of an extension request may result in termination from the program.

Master’s Thesis

When a thesis proposal has been approved by the appropriate department, the department chair sends the collegiate dean or director a copy of the thesis proposal, including the approval signatures of the master’s thesis committee members. Students may
enroll in thesis research (799) at the beginning of the next semester. Students must register for a minimum of three credit hours in their first semester of 799. After that semester, students may enroll for one credit of 799 per semester and be considered full time, if the following requirement is met: the student, advisor and department chair must certify each semester that the student is working full time on the thesis. **Please note: Master’s students must maintain continuous enrollment in 799 while writing and submitting a thesis.** Graduation candidates who miss the library deadline for thesis submission, but do submit officially before the next semester begins, do not have to register for 799 in that next semester, but must stay active to graduate.

The master’s thesis committee is named by the candidate’s department chair, who designates a member of the graduate faculty from that department as the thesis committee chair. The committee is appointed after consulting with the candidate and advisor and consists of at least three people. Two must be members of the graduate faculty from the candidate’s department, while one may come from outside the department.

The thesis committee chair is primarily responsible for directing the candidate’s research and writing activities. The student is responsible for keeping all committee members informed of the scope, plan, and progress of the research as well as the writing of the thesis.

Students selecting the thesis option should obtain a copy of Mason’s *Thesis, Dissertation, or Project Guide*, which is available at thesis.gmu.edu. Students may register in 799 only after their thesis proposal has been submitted and approved as prescribed in the guide. **Any student not in attendance at Mason who is preparing a thesis under the active supervision of a member of the faculty or wishes to take an exam must maintain continuous registration in 799 for at least 1 credit per semester.**

**Thesis Submission**

The university has a policy on the dissemination of scholarly works created by graduate students. The Electronic Thesis and Dissertation (ETDs) program encourages masters-level graduate students to submit an electronic copy of their thesis for broad scholarly dissemination through the Mason Archival Repository Service (MARS). Student participation in the ETDs program is strongly encouraged, but not mandatory. All students choosing to participate in this program will be required to sign the MARS Author/Contributor Permission Agreement.

On or before the thesis deadline for any semester, the student will submit a complete (signed Signature Sheet through Curriculum Vitae) 100% cotton copy of his or her thesis to the University Libraries along with a transmittal sheet. The student may also opt to submit an electronic copy of his/her thesis. These submissions can be in Word, WordPerfect, or in portable document format (PDF). Media formats (tiff, jpeg, png, wav, avi, mpeg, mov, rm, wmv, wma, etc.) for supporting materials will also be accepted. Datasets may be accepted at the discretion of the libraries. The files may be submitted on CD, DVD, or USB memory device. **Please note that those students opting out of the ETDs program are required to submit two 100% cotton copies of their thesis.**

For degree conferral in a particular semester, the above materials must be submitted to the library by 5 p.m. on the last Friday of classes in that semester. For specific deadlines and other information, go to registrar.gmu.edu.

**Doctoral Students Also Pursuing a First Master’s Degree**

Requirements for master’s degrees apply with the following exceptions. Residency derives from the doctoral degree requirements. Time limit may derive from the doctoral requirements, although programs may reject course work that is not sufficiently current. Students must be officially admitted to degree status in the master’s program a full semester before the one in which they will complete master’s degree requirements, i.e. admitted in fall for graduation the following spring.

**Requirements for Doctoral Degrees**

Candidates must satisfy all applicable university degree requirements and all requirements established by the doctoral program faculty. Departmental degree requirements are listed under the respective doctoral programs in this catalog. Programs may impose more stringent requirements.
• **Admission.** Students must have been fully admitted into degree status.

• **Credit Hours.** Candidates must earn a minimum of 72 graduate credits, which may be reduced by a maximum of 30 credits from a completed master’s degree or other suitable, approved transfer work.

• **Degree Credit.** The remaining 42 credits for students with a master’s degree may apply only to the doctoral degree and not to a second master’s degree.

• **Credit Level.** Only graduate courses may apply toward the degree.

• **Institutional Credit.** More than half of all credits applied to the doctoral degree (minimum 72) must be earned at Mason or in the case of programs offered through joint, cooperative, or consortium arrangements, at the participating institutions.

• **Residency.** More than half of all credits (minimum 72) must be taken in doctoral degree status, after admission to the degree program.

• **Candidacy.** Candidates must pass a written or oral doctoral candidacy (qualifying) exam, or both.

• **Dissertation.** Candidates must complete a minimum of 12 credits of doctoral proposal (998) and doctoral dissertation research (999), including at least three credits of 999. A maximum of 24 credits of 998 and 999 may be applied to the degree.

• **Defense.** Candidates must pass a final public defense of the doctoral dissertation.

• **Quality.** Candidates must have a minimum GPA of 3.00 in course work presented on the degree application, which may include no more than 6 credits of C. (Grades of C+, C-, or D do not apply to graduate courses. The GPA calculation excludes all transfer courses and Mason extended studies or nondegree credits not formally approved for the degree.)

**Time Limit**

Doctoral students have six years from the time of first enrollment as a degree-seeking student to advance to candidacy. Students have five years from the time of advancement to candidacy to graduation. Individual doctoral programs may have stricter time limits, which are published in this catalog. International students attending in F-1 or J-1 status also have more restrictive limits; contact the Office of International Programs and Services for information. Students who are given permission to re-enroll following an absence from Mason may not count the time limits as beginning on the date of re-enrollment. Students who will not meet published time limits because of circumstances beyond their control may petition for an extension. Failure to meet the time limits or to secure approval of an extension request may result in termination from the program.

**Doctoral Research Skill Requirements**

Some doctoral degree programs require demonstration of proficiency in a research skill, including knowledge of the research literature in a foreign language, computer language, statistical methods, or a research tool specific to the discipline. Research skill requirements are included with the degree requirements for the specific doctoral degree. Where demonstration of research skills is required, certification that this requirement has been met must be completed for advancement to candidacy.

**Program of Study**

Usually before the end of the second year of graduate study but no later than consideration for advancement to candidacy, doctoral students must submit a program of study for approval by the dean or director of the college, school, or institute. The program of study must include major courses and supporting courses to be completed, research skills required, subject areas to be covered by the candidacy exam, and a proposed date for the candidacy exam. Program of Study Forms are available from each program’s doctoral coordinator. Any changes in the programs of study must be documented with an amended Program of Study Form.

**Advancement to Candidacy**
Advancement to candidacy implies that a doctoral student has demonstrated both a breadth and a depth of knowledge in the field of study and is capable of exploring problems on the boundaries of knowledge, and has identified a research area that is likely to lead to a successful dissertation. The candidacy exam includes a written part and may include an oral part, depending on the particular doctoral program. Doctoral students should consult the degree requirements for each doctoral program to determine whether an oral portion is required, whether it is judged separately or with the written portion, the number of times a failed candidacy exam may be repeated and any associated time limits, and any time limits for attempting the candidacy exam.

Before doctoral students may be advanced to candidacy by the unit dean or director, they should have completed all course work required by the program faculty, been certified in all doctoral research skills required, passed the candidacy exam, and been recommended by the doctoral supervisory committee or program coordinator. Students advanced to candidacy after the add period for a given semester must wait until the following semester to register for 999 Dissertation Research.

**Dissertation Committee**

Before a doctoral student is advanced to candidacy, the dean or director of the school, college, or institute or its designee (as specified by the school/college/institute) appoints a dissertation committee upon recommendation of the student’s dissertation chair. Students work collaboratively with the program director and faculty to form the dissertation committee, with the understanding that some areas of research may be impossible to support due to available faculty expertise. Program personnel will facilitate the formation of the dissertation committee to the extent possible, but there can be no guarantee of successful formation.

All dissertation committees must consist of at least three members of the graduate faculty, at least two of whom must be from the student’s academic unit or program faculty. The committee consists of a dissertation chair, typically a graduate faculty member from the department or program of the student’s field of study and at least two other members of the graduate faculty. Only a graduate faculty member with a full-time appointment at George Mason University may serve as dissertation chair. Other Mason faculty, as well as individuals from outside the university, may be appointed as additional members to the committee. Such appointments are made where the additional member’s expertise and contribution add value to the dissertation, but appointment does not require graduate faculty status.

Student-initiated changes in the composition of the dissertation committee may occur only with the approval of the dean or director of the school, college, or institute or its designee in consultation with the committee. Faculty may resign from a dissertation committee with appropriate notice by submitting a written resignation.

**Dissertation Registration (998, 999)**

Students working on dissertation research (999) must register for a minimum of 3 credits of 999 per semester (excluding summers) until they have completed the minimum number of credits of 998 and 999 required by the university and their degree program. Then, they must register for 1 credit of 999 until the dissertation is complete and has been officially submitted to the library. See the Full-time classification section for more information. Students registered in 998 or 999 are graded IP until work in 998 or 999, respectively, is complete; at that time they are graded S/NC, and previous IP grades are updated by the Registrar’s Office to reflect the final S or NC grade.

All registration for doctoral dissertation research (999) must be planned with the dissertation director and approved by the dean or director of the school, college, or institute. Dissertation research (999) is open only to doctoral students who have advanced to candidacy. Once enrolled in 999, students must maintain continuous registration in 999 each semester until graduation, excluding summers. Students who defend in the summer must be registered for at least 1 credit of 999 in the summer. Individual doctoral programs may require continuous registration beginning with 998. Graduation candidates who miss the library deadline for dissertation submission, but do submit officially before the next semester begins, do not have to register for 999 in that next semester, but must stay active to graduate.

It is the student’s responsibility to complete registration for dissertation proposal (998) or research (999) prior to the first day of classes for the semester. If this date is missed, students must still enroll in these courses via Add or Late Schedule Adjustment procedures and are subject to Late Registration fees. Failing to register on time in a particular semester does not alter the requirement for continuous registration in 999.
**Doctoral Dissertation**

A dissertation is required for the doctor of philosophy degree and most professional doctoral degrees. The dissertation is a written piece of original thinking that demonstrates doctoral candidates’ mastery of subject matter, methodologies, and conceptual foundations in their chosen field of study. This is generally achieved through consideration of a problem on the boundaries of knowledge in the discipline.

The director of the dissertation committee is primarily responsible for directing the doctoral candidate’s research and guiding the preparation of the written dissertation. After the dissertation committee is appointed, the student should begin discussions with the director to define a suitable problem for the dissertation. Before the student may enroll in doctoral dissertation research (999), the dissertation proposal must be approved by the dissertation committee and evidence of approval sent to the unit dean or director for approval. Before that time, the student may enroll in proposal research (998).

Guidelines for the content and general format of doctoral dissertations are in the *Thesis, Dissertation, or Project Guide*, which is available at *thesis.gmu.edu*. Consult a doctoral coordinator to determine which additional reference manuals are suitable.

**Doctoral Defense**

As soon as all degree requirements have been satisfied, including completion of the doctoral dissertation, the doctoral candidate may request a doctoral defense. Approval for the defense is given by the doctoral dissertation committee, department or program chair, and relevant dean or director of the school, college, or institute. Notice of a defense must be circulated to the university community two weeks before the defense date. The public defense should demonstrate the candidate’s maturity of judgment and intellectual command of the chosen branches of the field of study.

At the close of the final defense, the dissertation committee makes final judgments for approving the dissertation. The doctoral candidate is responsible for making all required changes promptly, submitting the original and required copies, and obtaining signatures. Final approval for the dissertation is given by the doctoral dissertation committee, department or program chair, and the relevant dean or director of the school, college, or institute, all of whom must sign the final copy.

For a dissertation to be approved, all members of the committee must sign. If a committee member refuses to do so, the student or any member of the committee may petition the unit dean or director for a review and ruling. The dean or director may seek the advice of outside reviewers to provide an assessment of the work. The final decision is that of the dean or director, and is not subject to appeal.

**Dissertation Submission and Fees**

The university has a policy on the dissemination of scholarly works created by graduate students. The Electronic Thesis and Dissertation (ETDs) program encourages doctoral-level graduate students to submit an electronic copy of their dissertation for broad scholarly dissemination through the Mason Archival Repository Service (MARS). Student participation in the ETDs program is strongly encouraged, but not mandatory. All students choosing to participate in this program will be required to sign the MARS Author/Contributor Permission Agreement.

On or before the dissertation deadline for any semester, the student will submit a complete (signed Signature Sheet through Curriculum Vitae) 100% cotton copy of his or her dissertation to the University Libraries along with a transmittal sheet. The student will also submit an electronic copy of his or her dissertation. These submissions can be in Word, WordPerfect, or in portable document format (PDF). Media formats (tiff, jpeg, png, wav, avi, mpeg, mov, rm, wmv, wma, etc.) will be accepted. Datasets may be accepted at the discretion of the libraries. The files may be turned in on CD, DVD, or USB memory device. **Please note that those students opting out of the ETDs program are required to submit two 100% cotton copies of their dissertation.**

Submission of an additional PDF on CD of the dissertation to University Microfilms International (ProQuest) is required; a fee of either $55 or $150 (depending on publishing option chosen) is paid by the student for this process. Submission of a completed
Survey of Earned Doctorates is also required. All copies of the dissertation must be submitted and all fees paid before the doctoral degree is awarded.

For degree conferral in a particular semester, the above materials must be submitted to the library by 5 p.m. on the last Friday of classes in that semester. (For specific deadlines and more information, go to registrar.gmu.edu.) To be included in Mason’s published commencement program, doctoral students must submit materials to the library by the commencement program deadline.

University Dissertation and Thesis Services

University Dissertation and Thesis Services (UDTS) facilitates completion and submission of dissertations, theses, and graduate-level projects. The program assists Mason students in all stages of production. The UDTS web site, thesis.gmu.edu, provides students with useful tools, including downloadable templates of necessary elements, forms required for the submission process, and links to related web sites. Students completing a thesis or dissertation are required to complete a format review. UDTS is located in Fenwick Library, Special Collections and Archives, Wing 2C. For more information, contact the university dissertation and thesis coordinator at 703-993-2222.
Degree Application, Conferral and Commencement

Return to: Academic Policies

- Application for Degree
- Degree Conferral
- Commencement

Application for Degree

In the semester prior to the expected completion of degree requirements, students must confirm their intent to graduate through Patriot Web. The deadline to file the intent to graduate is generally six to seven months prior to the conferral date. Specific deadlines are published on the registrar’s web site registrar.gmu.edu. Some graduate programs require a paper application. Applications are available on the registrar’s web site as well as complete instructions and deadlines regarding graduation. Separate applications for each graduate degree or certificate are required.

For a degree to be conferred, all course work must be completed, even if the course work is not being applied to the degree. Master’s degree students must complete non-course degree requirements including credit-by-exam, oral exams, theses, scholarly papers, and comprehensive exams prior to the conferral (graduation) date. Master’s theses and doctoral dissertations are due in the library well before the conferral date. For more information, go to thesis.gmu.edu.

Students must have active registration status in the semester or summer term of graduation. Students not registered for course work in the term of graduation must obtain a special registration. (For more information, see the Registration, Attendance, and Grading section of this chapter.) Degree applications will not be automatically extended if graduation is postponed; students must reapply for each conferral date.

Degree Conferral

Mason awards degrees and certificates in programs and at levels authorized by the State Council of Higher Education for Virginia (SCHEV). The university confers degrees at the bachelor’s, master’s, and doctoral levels. An academic program may include a degree program and additional majors, minors, or certificates. The university offers no certificate program below the bachelor level; some post baccalaureate certificates, however, may be awarded concurrently with the bachelor’s degree. For more information, see the Programs of Study listings.

Definitions of Degree Components

- **Degree program, major, or field:** A program of study that normally requires at least 30 credits of course work in the specified field. The primary program name (degree and major or field) appears on the diploma for bachelor’s and master’s degrees. Only the degree name appears for doctoral degrees. An undergraduate who desires to graduate with a BA or BS degree in two or more subjects must meet departmental requirements for the major in each field. For each major, at least 18 credits used to fulfill its requirements must be applied only to that major, i.e., cannot be used to fulfill the requirements of another major, a concentration, a minor, or an undergraduate certificate.

- **Concentration:** A second-order component of a degree program or a component of a track. A concentration consists of at least 12 hours that are not applied to any other concentration. Undergraduate concentrations are approved by the unit at the undergraduate level or by the Graduate Council at the graduate level.

- **Certificate:** A nondegree program complementary to a degree that requires at least 24 undergraduate or 12 graduate credits. Certificates are approved by the school or college at the undergraduate level and by the Graduate Council at the graduate level. The name of a completed certificate program appears on the transcript after the conferral of an
undergraduate degree. For each undergraduate certificate, at least 15 credits used to fulfill its requirements cannot be used to fulfill the requirements of a major, a concentration, a minor, or another undergraduate certificate.

- **Minor**: A complement to a bachelor’s degree program or major normally requiring at least 15 credits in a field other than the student’s major. Of the courses presented for a minor, at least 8 credits must be applied only to that minor and may not be used to fulfill requirements of the student’s major, concentration, an undergraduate certificate, or another minor.

- **Option**: The choice of a thesis or nonthesis path in graduate programs.

**Catalog Requirements for Degrees**

Catalog year refers to the setting of course and non-course requirements within academic programs as stated in the school and college section of a specific catalog. Catalog year does not set academic policies other than program requirements in place, however. For more information, see the Knowledge of University Policies section of the Student Rights and Responsibilities section. Not all programs and degree components are available in all catalogs. For any one degree, all requirements must be met as stated in a single catalog.

Bachelor’s degree candidates who have been continuously enrolled (allowing absences from summer terms or single semesters) may choose to graduate under the terms of any catalog in effect at or after their admission. Students who have been inactive for five or more years or who have attended another institution without prior approval from their academic dean or director must graduate under a catalog in effect at or after their re-admission.

Master’s and doctoral degree candidates who have been continuously enrolled may choose to graduate under the terms of any catalog in effect at or after their admission. Students who have been inactive more than one year, however, must graduate under a catalog in effect after they have been granted permission to re-enroll, or they must petition their unit dean or director to graduate under an earlier catalog. The final decision rests with the unit dean or director.

**Commencement**

Commencement provides an opportunity for students and their families to share in the conferral of academic degrees. Students who wish to participate should check the web site at events.gmu.edu for current information about all Commencement details including tickets, regalia, and schedules. Note that there is only one commencement ceremony each year, in May. Bachelor’s and master’s degree candidates who declare their intent to graduate in August but who have not yet completed all degree requirements may participate in the commencement ceremony in anticipation of degree completion. Their names are marked with an asterisk identifying them as candidates pending completion of all requirements. Doctoral students may participate only if they have successfully completed all degree requirements, including defending and submitting a signed, final copy of their dissertation by the deadline.
Research

Human Subjects Research

All research activities involving human subjects or data regarding human subjects that are conducted by faculty, staff, or students and/or that involve faculty, staff, or students as participants must be submitted to the Office of Research Subject Protections for review and approval. Further information and forms for submission can be found at www.gmu.edu/research/ORSP/HumanSubjects.html. All research activities must be approved by the Human Subjects Review Board prior to implementation of the activity. Separate approval by the vice provost for academic affairs is required if contact information for Mason students is needed to conduct the research. All student research must be supervised by a faculty member. The faculty member will serve as the principal investigator for the research and will assume responsibility for the legal and ethical conduct of the work.

Animal Use in Research

All work with live animals, whether for research, teaching, or testing, must be approved by the Institutional Animal Care and Use Committee (IACUC) prior to initiation of the work. All care and use of animals at Mason must be carried out under the supervision of a faculty member who is qualified and experienced in the work being conducted and assumes responsibility for legal and ethical conduct. Further information and submission forms can be found at the Office of Research Subject Protections web site at www.gmu.edu/research/ORSP/AnimalCareAndUse.html.
Student Rights and Responsibilities

- Policies and Procedures Affecting All Students
- Official Communication with Students

- Privacy of Student Records
- Academic Assessment
- Honor System and Code
- Human Subjects Research
- Animal Use in Research
- Student Work, Intellectual Property
- Conduct within the University Community
- Student Health Services
- Drug and Alcohol Policy
- General Policies to include Equal Opportunity, Non Discrimination, Sexual Harassment, Reasonable Accommodation, Responsible Use of Computing, Parking Policy, Sexual Assault, Stalking and Other Regulations

Policies and Procedures Affecting All Students

Knowledge of University Policies

Each student is responsible for knowing Mason’s rules, regulations, requirements, and Academic Policies. This catalog is the normal repository of policy statements, but corrections, changes, or interpretations can be promulgated by other means, including electronic publication.

When the university or one of its academic units changes course requirements, grading procedures, or criteria for acceptance into particular programs, academic standing, or graduation, the changes apply to all students enrolled at the time of implementation of the change and thereafter.

Students have certain choices regarding the set of degree requirements under which they graduate, as detailed in the Catalog Requirements for Degrees in the Degree Application, Conferral and Commencement section. The Special Collections and Archives section of the Fenwick Library has copies of all previous catalogs. They may not be checked out, but may be photocopied. Any student in doubt about an academic matter should consult a faculty advisor or dean.

Students are subject to the university’s stated policies regarding patents and copyrights. These policies are available at www.gmu.edu/research/OSP/Policies.html.

Official Communication with Students

Web: mail.gmu.edu

Mason uses electronic mail to provide official information to students. Examples include notices from the library, notices about academic standing, financial aid information, class materials, assignments, questions, and instructor feedback. Students are responsible for the content of university communication sent to their Mason e-mail account and are required to activate that account and check it regularly. Students are also expected to maintain an active and accurate mailing address in order to receive communications sent through the United States Postal Service.
Student Requests for Academic Actions

All requests for academic actions, such as special permissions or exceptions to published academic regulations, must be submitted to the head of the unit in which the student’s program is housed, for example, the department chair, institute director, or school or college dean. Forms and instructions on how to initiate an academic action are available in the academic unit and on the unit’s web site. For students who have not yet declared a major, the academic actions process is executed in the Office of Student Academic Affairs, Johnson Center, Room 245. Students will be informed of the average wait time for decisions on academic actions undertaken within their units. Those who need assistance with the academic actions process may consult their academic advisor, or they may be directed to the university ombudsman.

Appeals of Academic Procedures

Students have the right to appeal decisions regarding requests for academic actions. The appeals process begins in the academic unit. Each college, school, and institute at Mason has a written statement of that unit's appeal process on file in the dean or director's office. Students who feel the appeals process was conducted unfairly by a college or school may appeal to the Provost’s Office. All appeals must be in writing, and they must demonstrate that the student has exhausted all options within the academic unit. Undergraduate students initiate appeals of unit decisions with the Associate Provost for Undergraduate Education. Graduate students initiate appeals of unit decisions with the Associate Provost for Graduate Education. The Provost's Office does not consider grade appeals or appeals of Honor Committee decisions.

The Provost’s Office may refer cases to the University Academic Appeals Committee. The committee consists of five faculty members, including at least one member of the Faculty Senate and the provost (or designee), who serves ex officio, in a nonvoting capacity. The committee hears only those cases where procedural irregularities or a questionable application of university policies is demonstrable, or when the provost or the committee deems the case relevant to the application of university-wide policies. The burden of proof rests with the student, who must provide clear and convincing documentation to support the contention that the decision was unfair based on the criteria stated above. The committee’s decision is final. The University Academic Appeals Committee is not charged to hear grade appeals or appeals of Honor Committee decisions.

The Provost’s Office is responsible for maintaining appeals records, determining whether students have just cause, and ensuring that complete documentation is available for all committee members. The committee communicates its decision to the student, the relevant unit, and the provost.

Office of the Ombudsman

Johnson Center, Room 245
Phone: 703-993-3006
E-mail: ombuds@gmu.edu
Web: ombudsman.gmu.edu

Administration:
Dolores Gomez-Moran, University Ombudsman

The Office of the Ombudsman is a neutral, independent, informal, and confidential resource to facilitate fair, equitable, and expeditious resolution of university-related concerns and problems raised by students. The ombudsman is an advocate for fairness and the equitable treatment of students, operates independently of all formal grievance processes at the university, and considers all sides of an issue in an impartial and objective manner. The ombudsman has no authority to make exceptions or to grant requests, but can perform informal investigations and, as a result, may recommend actions that lead to changes in processes and policies at the university. Meetings with the ombudsman are confidential. The ombudsman serves graduate and undergraduate students at the university.

Privacy of Student Records
Each year, Mason informs students of the Family Educational Rights and Privacy Act (FERPA) of 1974. The university intends to comply fully with this act, which protects the privacy of education records, establishes the right of students to inspect and review their education records, and provides guidelines for amending inaccurate or misleading data through informal and formal hearings. Students also have the right to file complaints with the Family Policy Compliance Office (U.S. Department of Education) concerning alleged failures by Mason to comply with the act.

The Notification of Rights under FERPA and the Public Notice Designating Directory Information detail students’ rights and the procedures implemented by the university to comply with FERPA.

FERPA is a federal law that affords students certain rights with respect to their education records. Specifically, it affords students the right to: (1) inspect and review their education record; (2) request the amendment of inaccurate or misleading records; (3) consent to disclosure of personally identifiable information contained in their education record; and (4) file a complaint with the Family Policy Compliance Office of the U.S. Department of Education concerning alleged failures of the University to comply with the act. George Mason University strives to fully comply with this law by protecting the privacy of student records and judiciously evaluating requests for release of information from those records. FERPA authorizes the release of “Directory Information” without the student’s prior consent under certain conditions, which are set forth in the act. George Mason University has defined its “Directory Information” in accordance with the law. Please visit the Registrar’s Office web site at registrar.gmu.edu for additional information about student privacy and FERPA.

**Public Notice Designating Directory Information**

George Mason University designates the following as public or “directory information.” Such information may be disclosed by the university without the student’s prior consent under the conditions set forth in the Family Educational Rights and Privacy Act of 1974 (FERPA).

**Directory Information:** Student name, address, telephone numbers(s), e-mail address, date and place of birth, major, dates of attendance, enrollment status (full time, part time), class, previous institutions, major field of study, awards, honors (including Dean’s List), degrees conferred including dates, past and present participation in officially recognized sports and activities, and physical factors (height and weight of athletes).

*Note:* Directory information is information that Mason may disclose, but it is not required to do so. It is Mason’s policy to refrain from actively disclosing addresses, telephone numbers, and dates of birth; however, the university routinely verifies this information. Mason does not disclose social security numbers, personal identification numbers, photographs, grades, grade point averages, class schedules, academic actions nor the number of credits enrolled in or earned unless the student has signed a consent form.

Currently enrolled students may withhold disclosure of directory information under FERPA. To withhold disclosure, students must present a photo ID in person at the Registrar’s Office, Fairfax or Prince William campus, and complete the Request to Prevent Disclosure of Directory Information Form. The form may be submitted at any time throughout the year and will immediately affect prospective disclosures. George Mason University assumes that failure on the part of any student to specifically request the withholding of a category of directory information indicates individual approval for disclosure. Former students may not place a new request for nondisclosure of directory information on their education records; however, they may request its removal.

Telephone Directory: Prevents the listing of student name, address, telephone number(s), major, and e-mail address in the George Mason University Telephone Directory.

Requests to withhold your information from the campus directory must be submitted to the Registrar’s Office by 5 p.m. on Friday of the first week of classes of the semester to have information withheld in time for the publication of that academic year’s George Mason University Telephone Directory.
Confidential (Private): Prevents the disclosure of all directory information including name, address, telephone number(s), e-mail address, date and place of birth, photographs, major, dates of attendance, enrollment status (full time, part time), class, previous institutions, major field of study, awards, honors (including Dean’s List), degrees conferred (including dates), past and present participation in officially recognized sports and activities, and physical factors (height and weight of athletes).

Note: Confidential status does not convey a right to be anonymous in the classroom or to impede routine classroom communication and interactions. Students with confidential status should expect to be identified in class by name and to have their Mason email address used for class purposes.

Students who elect this category must conduct all university business either in person with a photo ID card or from a remote location with an original notarized request. Such students’ names will be published in the commencement program unless the students request exclusion in writing. Students in this category are eligible to use interactive web and other electronic systems, such as Patriot Web, for transactions (including registration) which are protected by a secured login.

Academic Assessment

All academic programs at Mason (including the University General Education program) have student learning outcomes that are assessed periodically. Student work in various courses may be used for such an assessment. Student anonymity is assured and grades will not be affected. At any time, students may contact the Office of Institutional Assessment at assessment@gmu.edu with questions, concerns, and comments about the use of academic work in assessment activities.

Students may be called on from time to time to participate in focus groups, complete questionnaires, or contribute in some other way to the ongoing assessment process. At any time, students may contact the Office of Institutional Assessment with concerns, comments, and recommendations about their educational experiences at Mason. Assessment is vital to the continuous improvement of the university, and student input forms an important part of the process.

To find out more about the learning outcomes and assessment activities of a specific program, whether curricular or extracurricular, go to assessment.gmu.edu and click on Academic Program Review.

Student Identification Card

After registering, each student should obtain a university photo identification card. It must be presented to use library services and is required for admission to university events and when using facilities after normal operating hours. It is not transferable and is validated each semester after payment is made for classes. For more information, call the Photo ID Office at 703-993-1004, or go to the Photo ID Office website.

Change of Status, Address

Each student is required to provide Mason with current contact and identifying information, including permanent and local addresses, telephone numbers, and legal name. Each student must also maintain the university e-mail account assigned at the time of admission. Students are responsible for official communications directed to Mason e-mail accounts. For more information, go to mail.gmu.edu.

Addresses should be updated over the Internet using Patriot Web. Name and Social Security number changes require official documentation and must be processed in person at the Office of the Registrar or with the original copy of a notarized request.

Honor System and Code

Web: academicintegrity.gmu.edu

Mason shares in the tradition of an honor system that has existed in Virginia since 1842. The code is an integral part of university life. On the application for admission, students sign a statement agreeing to conform to and uphold the Honor Code. Students are responsible, therefore, for understanding the code’s provisions. In the spirit of the code, a student’s word is a declaration of good
faith acceptable as truth in all academic matters. Cheating and attempted cheating, plagiarism, lying, and stealing of academic work and related materials constitute Honor Code violations. To maintain an academic community according to these standards, students and faculty members must report all alleged violations to the Honor Committee. Any student who has knowledge of, but does not report, a violation may be accused of lying under the Honor Code.

The Honor Committee is independent of the student government and the university administration. It is composed of students selected by the student body, and it has the primary duty of espousing the values of the Honor Code. Its secondary function is to sit as a hearing committee on all alleged violations of the code.

At the beginning of each semester, faculty members have the responsibility of explaining to their classes their policy regarding the Honor Code. They must also explain the extent to which aid, if any, is permitted on academic work.

The complete Honor Code is as follows:

To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work.

**Honor Committee**

The Honor Committee is a group of Mason students selected to promote academic integrity as a core value for our university community. Members of the committee also serve on hearing panels established to investigate and resolve alleged violations of the code. Mason's School of Law has an Honor Committee that is independent from the rest of the university's Honor Committee.

Membership will be limited to 100 members who apply for membership and are confirmed at an election held each spring. Members appointed by the chair of the Honor Committee may serve provisionally pending the next election. Undergraduate members must have no Honor Code violations, maintain a cumulative GPA of 2.66, be in good academic standing, and successfully complete the training and orientation program. Graduate members must meet all of the requirements above with the exception of maintaining a cumulative GPA of 3.00. If more than 100 students apply for membership, a candidate list will be maintained according to the date of the application, and appointments will be made as vacancies occur. The term of office extends from initial appointment until final graduation, provided the member is not found responsible for an Honor Code violation, serves on at least two hearing panels each semester, remains in good academic standing, and maintains the required GPA.

A chair and vice chair will be elected in April of each year by the members of the committee. The term of office will be one year. A faculty advisor, chosen jointly by the chair of the committee and the vice president for university life, will provide administrative assistance for committee business.

**Student Responsibilities**

Students should request an explanation of any aspect of the professor’s policies regarding the Honor Code that they do not fully understand. They also have an obligation not only to follow the code themselves, but also to encourage respect among their fellow students for the provisions of the code. This includes an obligation to report violations by other students to the Honor Committee.

**Faculty Responsibilities**

Faculty members are responsible for maintaining the integrity of the learning and testing process. They should explain at the beginning of each semester what would be considered a violation of academic integrity in their courses. Special attention should be given to the subject of plagiarism. Faculty members may actively proctor exams in situations they believe warrant such action.
Procedures for Reporting Violations

Suspected violations should be reported to the Honor Committee in a timely manner using forms provided by the Honor Committee. The Honor Committee will promptly notify the involved students in writing. Those students will meet with a representative of the Honor Committee to review the information and arrange for resolution of the matter.

Hearing Panels

When a student disputes an allegation, a five-member panel of Honor Committee members, appointed by the chair of the Honor Committee, will meet with both the student and the person(s) reporting the alleged offense. Each side will present information, and the panel will determine whether clear and convincing evidence of a violation has been presented. At least four of the five panel members must judge that the evidence proves responsibility for the offense. If the student is found responsible, a sanction or sanctions will be determined by majority vote of the panel.

Counsel

The hearing panel will have a faculty member present during the hearing to offer assistance when requested by the chair of the panel. All other parties may have an advisor present if that advisor is a member of the George Mason University student body, other than a student from the School of Law.

Sanctions

The hearing panel may impose oral and written reprimands and other such nonacademic sanctions as it deems proportionate to the offense. It can recommend sanctions to the course professor that involve reduced grades. Recommendations for nonacademic suspension and nonacademic dismissal are forwarded to the provost’s delegate. In determining sanctions, panel members should keep in mind the nonpunitive educational purpose of the Honor Code process.

Appeals

Appeals of honor committee decisions must be submitted in writing within seven business days of the hearing. Appeals can be granted only on the basis of new evidence, procedural irregularity, or other grounds of sufficient gravity to call into serious doubt the original hearing panel’s decision. The decision to accept or deny the appeal will be made by three Honor Committee members who have had no prior contact with the case. In the event that a faculty member does not elect to follow the Honor Committee’s recommended sanction, students may appeal the faculty member’s action to the Academic Appeals Committee, via the Provost’s Office. The decision of this committee is final.

Amendments

The Honor Committee, by majority vote, may approve proposed amendments to the Honor Code. The proposed amendments will be submitted to the student population at the next spring election, and they must be approved for implementation by a two-thirds majority of those voting.

Human Subjects Research

Please see the Research Section.

Animal Use in Research

Please see the Research Section.
**Student Work, Intellectual Property**

Generally, copyrightable and patentable works, including dissertations developed in connection with course work by students who are not Mason employees, are deemed to belong to the student. By policy, however, Mason does hold title to copyrightable software that implements a Mason patent. Mason may also claim copyright ownership of a work or ownership of a patentable invention when extraordinary use of university facilities, personnel, or resources is made in the development of the materials or invention, especially when unrelated to course work. Ownership and disposition of intellectual property developed by students while employed by the university, including undergraduates and graduate research and teaching assistants, is governed by university policies generally applicable to employees. Students with questions are encouraged to contact the Office of Technology Transfer, ott@gmu.edu or 703-993-8933.

**Conduct within the University Community**

Students enrolling in the university assume an obligation to conduct themselves in a manner compatible with the university’s function as an educational institution. The Code of Virginia (Section 23-9.2:3) confers on the university the responsibility for maintaining order within the university and the right to exclude those who are disruptive.

The Office of Judicial Affairs holds administrative responsibility for supervising student conduct of Mason students and their guests. Questions regarding student conduct should be directed to Judicial Affairs, SUB I, Room 302, 703-993-2884, judicialaffairs@gmu.edu.

**Student Health Services**

Student Health Services provides high-quality health care to all currently enrolled students. There is no evaluation fee, but there are minimal charges for most tests and procedures. The staff includes physicians, nurse practitioners, registered nurses, a medical technologist, and various levels of support personnel. Appointments are required for nonemergency services.

For more information, please visit shs.gmu.edu.

Student health offices are located on the Fairfax, Prince William, and Arlington Campuses. Contact information is as follows:

**Fairfax Campus:** SUB I, Room 214, 703-993-2831

**Prince William Campus:** Occoquan Building, Room 229, 703-993-8374

**Arlington Campus:** 3330 Washington Boulevard, Room 150 F and I, 703-993-4863

**Immunization Requirements**

Immunization policies are determined by legislation enacted by the Virginia General Assembly and recommendations from the Advisory Committee on Immunization Practice, the Centers for Disease Control and Prevention (CDC), and the American College Health Association. **All students** born after December 31, 1956, are required to provide documented evidence that they have been immunized against certain communicable diseases.

The **required immunizations** are as follows:

- Two doses each of measles, mumps, rubella, after 1967 or the combination MMR, (after 1971, with first dose given after first birthday) or a laboratory report of a titer documenting positive immunity is acceptable.
- Primary tetanus, diphtheria, and pertussis series, with last tetanus and diphtheria booster within the past 10 years. Students requiring a decennial booster should receive Tdap.
- All students living in the residence hall shall be immunized against meningococcal disease. Students not living in residence halls may choose to be vaccinated to reduce their risk of meningococcal disease. Students may sign a waiver stating that they have received and reviewed information on meningococcal disease and the availability and
effectiveness of the vaccine but have chosen not to be vaccinated. If the student is younger than 18 years old, the waiver must also be signed by a parent or other legal representative.

- Students shall be immunized against hepatitis B disease, or they must sign a waiver stating that they have received and reviewed information on hepatitis B disease and the availability and effectiveness of the vaccine but have chosen not to be vaccinated. If the student is younger than 18 years old, the waiver must also be signed by a parent or other legal representative.

- Tuberculosis (TB) screening is required for all students as defined by the CDC and the Virginia Department of Health. TB screening must have been completed in the United States, within the past 12 months. For more information, please visit shs.gmu.edu/immunizations.

Completed Immunization Records must be submitted to the Immunization Office by 5:00 p.m. the Monday immediately following the Registrar’s last day to drop classes. Late and incomplete immunization records will be assessed a LATE FEE and a hold will be placed on your Patriot Web Account. Records can be sent to George Mason University, SUB I, Room 214, 4400 University Drive, MS 2D3, Fairfax, Virginia 22030. Immunization records can also be faxed to 703-993-4053. The immunization record is included as a tear-out form in the orientation booklets that are mailed to all new undergraduate and transfer students when their application for admission to the university has been approved. For more information visit shs.gmu.edu/immunizations or call 703-993-2836 or 703-993-2135. E-mail questions to immunize@gmu.edu. Immunization records will not be accepted by email.

Drug and Alcohol Policy

The abuse of drugs and alcohol by members of the campus community is not compatible with the goals of the university. Mason attempts to prepare individuals to act responsibly by defining standards of behavior and providing educational programs to create an awareness of drug- and alcohol-related problems. Those in need of assistance in dealing with drug and alcohol-related problems are encouraged to seek the confidential help of the university’s Office of Alcohol, Drug, and Health Education, adhe.gmu.edu.

Drugs

- Use and/or possession of illegal drugs or drug paraphernalia is prohibited on all campuses of George Mason University. Alleged violation of this community standard will be considered a serious offense.

- The George Mason University Police Department will enforce all applicable local, state, and federal laws in accordance with established standing orders, procedures, and guidelines.

- All reports of alleged drug offenses involving a Mason student, received by the Office of Judicial Affairs, are likely to be addressed through the case resolution process. Action under this process will neither prejudice nor be prejudiced by, action taken in the criminal justice system.

- The standard sanction for a student’s first on-campus violation involving possession/use of marijuana or possession of drug paraphernalia will be suspension from the University for a minimum of one academic semester. Further, a residential student’s first on-campus violation of this policy will result in eviction and trespass from all residential living facilities for a minimum of one year.

- Students who are found responsible for use or possession of an illegal substance other than marijuana can expect a standard sanction to include suspension for a minimum of one year and completion of a drug treatment program prior to reinstatement.

- The standard sanction for a student found responsible for a violation involving the sale of illegal substances, or possession with intent to distribute, is permanent separation from the institution.

- Any student found responsible for a violation of this policy may, at the discretion of the hearing officer, be required to complete a treatment program either as a condition of continued enrollment or as a prerequisite to reinstatement following separation from the institution.

Alcohol

George Mason University 2010-2011 Official University Catalog 69
- The possession and consumption of alcoholic beverages is limited to those locations and circumstances authorized by university policy.
- Alcohol possession or consumption is prohibited in Presidents Park, designated first-year residential areas in University Commons, Dominion, Commonwealth, and Chesapeake Halls, and all designated Healthy Living floors.
- Students 21 years of age or older are permitted to possess alcohol in TAP (townhouses and apartments), Chesapeake, Liberty Square, Potomac Heights, and non-first-year areas in University Commons, Dominion, Commonwealth, and Chesapeake Halls. (Residents of legal drinking age may possess and store alcohol in quantities that reasonably can be considered for personal consumption (refer to the Guide to P.R.I.D.E. for further information).
- No alcoholic beverages may be consumed in public areas of residence halls, which includes, but is not limited to, hallways, study rooms, and lounges.
- Alleged violations to this policy will be resolved through the Office of Judicial Affairs. The majority of first time violations by residential students will likely be addressed with a hearing officer in the Office of Housing and Residential Life, as appointed by the Office of Judicial Affairs.
- Discipline sanctions are intended to be educational and are likely to involve an evaluation by the Office of Alcohol, Drug, and Health Education. All cases involving severely intoxicated students and/or emergency medical response will include a mandatory evaluation as the first step to offer assistance in overcoming an identified problem.
- Depending on the nature of the violation, sanctions may impact a student's housing status and/or ability to engage within the university community.
- Any student found responsible for a violation of this policy may, at the discretion of the hearing officer, be required to complete a treatment program either as a condition of continued enrollment.
- The university will encourage parental involvement whenever there is a repeat offense or when the first offense indicates a potential problem. This involvement will be in accordance with the Family Educational Rights and Privacy Act (FERPA).
General Policies

- Conduct within the University Community
- Equal Opportunity and Nondiscrimination Policy
- Drug and Alcohol Policy
- Responsible Use of Computing Policy
- Parking Policy
- Other Policies
- Other Regulations

Conduct within the University Community

For policies on conduct within the University community please see Student Rights and Responsibilities.

Equal Opportunity and Nondiscrimination Policy

George Mason University is committed to providing equal opportunity and an educational and work environment free from any discrimination on the basis of race, color, religion, national origin, sex, disability, veteran status, sexual orientation, or age. Mason shall adhere to all applicable state and federal equal opportunity/affirmative action statutes and regulations.

The university is dedicated to ensuring access, fairness, and equity for minorities, women, individuals with disabilities, and veterans (as covered by law) in its educational programs, related activities, and employment. Mason shall thus maintain a continuing affirmative action program to identify and eliminate discriminatory practices in every phase of university operations.

Retaliation against an individual who has raised claims of illegal discrimination or cooperated with an investigation of such claims is prohibited.

Students and employees should bring questions or concerns to the attention of the Office of Equity and Diversity Services, Mason Hall, Suite D105, 703-993-8730. The Equal Opportunity/Affirmative Action Grievance Procedure lists the various ways to file a complaint. Grievance procedures can be found at https://diversity.gmu.edu/grievance-procedure-equity.php

Sexual Harassment Policy

It is the policy of the university to provide an academic and work environment free from sexual harassment. Sexual harassment is contrary to the standards and mission of the university. Sexual harassment is illegal and will not be tolerated. Each member of the university community has a responsibility to maintain an academic and work environment free from sexual harassment. The university will take whatever action is necessary to prevent, stop, correct, or discipline harassing behavior. Same-sex sexual harassment violates this policy and is subject to discipline under the same procedures. Sexual harassment does not include verbal expression or written material that is relevant to course subject matter or curriculum, and this policy shall not abridge academic freedom or the university’s educational mission.

Sexual harassment is defined by law as unwelcome sexual advances, requests for sexual favors, and other verbal, physical, or other form of expressive communication of a sexual nature when submission to or rejection of such conduct is used as a basis for employment or academic decisions, or such conduct has the purpose or effect of unreasonably interfering with an individual’s work or academic performance, or creating an intimidating, hostile, or sexually offensive work or academic environment. Examples of behavior that may be considered sexual harassment include, but are not limited to, the following:

- Sexual assault
- Explicitly or implicitly requiring submission to sexual advances as a condition or term of education or employment, i.e., grades, employment, promotion, letters of recommendation, or other privileges
- Repetitive sexual comments, questions, jokes, gestures, or other forms of sexually explicit expression
Any student, faculty member, or staff employee who believes he or she is the victim of sexual harassment should report the incident promptly in the manner most comfortable to him or her. The Equal Opportunity/Affirmative Action Grievance Procedure lists the various ways to file a complaint. Grievance procedures can be found at diversity.gmu.edu/grievance-procedure-equity.php.

Retaliation against an individual who has raised claims of illegal discrimination or cooperated with an investigation of such claims is prohibited.

Any employee who becomes aware of sexual harassment or other potentially discriminatory behavior must contact the Office of Equity and Diversity Services.

The Office for Equity and Diversity Services is responsible for administering and monitoring Mason’s equal opportunity/affirmative action policies and procedures. Inquiries about or complaints alleging violation of the university’s equal opportunity/affirmative action policies should be directed to the Office of Equity and Diversity Services, Mason Hall, Suite D105, 4400 University Drive, MS 2C2, Fairfax, Virginia 22030. Phone: 703-993-8730; TTY: 703-993-8787.

Nondiscrimination and Reasonable Accommodations on the Basis of Disability

The university is committed to providing equal access to employment and educational opportunities for people with disabilities. Mason recognizes that individuals with disabilities may need reasonable accommodations to have equally effective opportunities to participate in or benefit from the university educational programs, services, and activities, and have equal employment opportunities. The university will adhere to all applicable federal and state laws, regulations, and guidelines with respect to providing reasonable accommodations as necessary to afford equal employment opportunity and equal access to programs for qualified people with disabilities. Applicants for admission and students requesting reasonable accommodations for a disability should call the Office of Disability Services at 703-993-2474. Employees and applicants for employment should call the Office of Equity and Diversity Services at 703-993-8730. Questions regarding reasonable accommodations and discrimination on the basis of disability should be directed to the Americans with Disabilities Act (ADA) coordinator in the Office of Equity and Diversity Services.

Drug and Alcohol Policy

The abuse of drugs and alcohol by members of the campus community is not compatible with the goals of the university. Mason attempts to prepare individuals to act responsibly by defining standards of behavior and providing educational programs to create an awareness of drug- and alcohol-related problems. Those in need of assistance addressing drug and alcohol related problems are encouraged to seek the confidential help of the university's Office of Alcohol, Drug, and Health Education, adhe.gmu.edu.

Notice to All State Employees

The federal Drug-Free Workplace Act requires the university to inform all employees of the state that the unlawful manufacture, distribution, possession, or use of a controlled substance is prohibited in the workplace. The workplace consists of any state-owned, controlled, or leased property, or the site where state work is performed. Any employee who violates this prohibition will be subject to disciplinary action up to and including discharge and, at the discretion of management, will be required to satisfactorily participate in a drug abuse assistance or rehabilitation program. Employees must abide by the terms of this prohibition as a condition of employment and must notify their supervisor no later than five days after conviction of any criminal drug statute conviction occurring in the workplace.

Commonwealth Policies on Alcohol, Drug Use

Those who purchase, possess, and consume alcoholic beverages on campus must do so responsibly and must have reached the legal age of 21. All members of the university community (students, faculty, staff, and alumni, and their guests) are expected to comply with university-related regulations, as well as federal and state laws regarding the use of alcohol. Compliance also
extends to university-sponsored activities held off campus. Students and employees are expected to take personal responsibility for their own conduct when making decisions regarding alcohol use.

Virginia law prohibits the purchase, possession, or consumption of beer, 3.2 beverages, wine, or distilled spirits by those under the age of 21. The law also prohibits purchasing for or serving such beverages to a person under age 21. Underage people who use or attempt to use a driver’s license that has been altered, forged, borrowed, or is in any way deceptive in an attempt to obtain prohibited beverages shall have their driver’s license revoked for a minimum of 30 days but for not more than one year. Consuming alcohol in unlicensed, public places or offering a drink to another in a unlicensed, public place is also a violation of Virginia law. The sale of alcoholic beverages to an intoxicated person is prohibited. In addition, it is unlawful for an intoxicated person to purchase or possess alcoholic beverages. While purchase or possession by an intoxicated person is a misdemeanor, violators are subject to having their driver’s license revoked for one year.

It is illegal to operate a motor vehicle, including mopeds, when a person has a blood alcohol concentration (BAC) of 0.08 percent or higher. Individuals under age 21 who drive with a BAC of more than 0.02 percent but less than 0.08 percent risk having their driver’s license suspended for six months and being fined up to $500. If a person is arrested for driving with a license revoked or suspended under a prior driving-under-the-influence (DUI) conviction, the offender’s car is immediately impounded for 30 days. Following conviction, the court can impound the vehicle for an additional 90 days. If the car does not belong to the offender, the owner of the car may petition the court for release of the vehicle.

Sobriety spot checks to detect drunken drivers are legal. Refusing a breath test or having a BAC of 0.08 percent or higher may result in an individual’s driver license being revoked for seven days. The option to request a blood test instead of a breath test for an alcohol-related offense is no longer available.

It is illegal to serve alcohol from an unregistered keg, which is defined as a common container holding four gallons or more. Only University Dining Services or other authorized entity may serve alcohol from kegs.

Possession, use, sale, or distribution of controlled substances, including marijuana, is a violation of federal and state laws, as well as university regulations. The 1988 federal Drug-Free Workplace Act also prohibits the unlawful manufacture, distribution, possession, or use of a controlled substance in the workplace.

Students, faculty, staff, and sponsoring organizations found in violation of state or university regulations may be subject to disciplinary action, civil action, or loss of the privilege to reserve or use university facilities. Disciplinary action for students or student organizations will be conducted in accordance with University Judicial System for Student Conduct, and civil proceedings may occur in certain situations. Resulting sanctions are intended not to punish individuals but to provide education and rehabilitation services.

Sanctions depend on the severity of the violation and can range from written warning to expulsion from the university. Most sanctions for violations of alcohol and drug policies will require the student to undergo an evaluation by a licensed clinician, who will assess the severity of substance use and/or abuse and offer referrals to appropriately assist the student. Employees found in violation of the university’s drug and alcohol policy may be subject to action by the appropriate administrative office.

**Health Risks**

Alcohol is a depressant that slows brain activity. Alcohol use can impair decision-making abilities and lead to negative consequences, including risky sexual behavior. Drinking alcohol should be avoided by pregnant women and anyone taking prescription medications or operating a motor vehicle. Long-term or heavy use of alcohol is linked to cancer, heart and liver damage, and other serious illnesses, and can lead to tolerance and physical and psychological dependence. Excessive alcohol intake can cause death from alcohol poisoning. All students and employees are expected to respect those who choose not to drink.

Illicit drugs have more than legal consequences; they have specific health and ethical risks that can cause dangerous consequences and unhealthy, dependent behavior. Use of alcohol (or any other drug) in a manner that leads to impairment or intoxication is unhealthy and risky, and should be avoided and discouraged. The potential for health problems can also develop from the use of nicotine or caffeine products.
Those who need assistance in dealing with alcohol and other drug problems are encouraged to seek the confidential services of the resources listed in the Campus and Community Resources section listed below.

**General Rules for Serving Alcoholic Beverages**

University regulations prohibit the possession or consumption of any alcoholic beverage on university grounds unless the university has sanctioned the location and conditions for possession or consumption. For more information, please review the comprehensive guidelines for alcohol service available in the The Office of Alcohol, Drug and Health Education (OADHE).

**Campus and Community Resources**

**Fairfax Campus—Office of Alcohol, Drug and Health Education:** SUB I, Room 223, 703-993-3687

**State Employee Assistance Service:** 804-786-6741

**Alcoholics Anonymous:** 703-993-3686 for campus meetings; for other locations, 703-876-6166

**Narcotics Anonymous:** 703-532-1255

The drug and alcohol policy outlines university regulations on substance use and abuse. This policy is distributed annually to all employees and students to inform the campus community of alcohol and drug laws, health risks, and campus and community resources. University regulations regarding the drug and alcohol policy have been developed by a committee of faculty, staff, and students. This policy statement is available in the Office of Alcohol, Drug and Health Education, SUB I, Room 223 and is accessible online through the Office of Judicial Affairs website (judicialaffairs.gmu.edu). This policy is also distributed through the student and faculty and staff handbooks and the university student newspaper, *Broadside*.

**Responsible Use of Computing Policy**

The Responsible Use of Computing (RUC) Policy applies to all academic and operational departments and offices at all university locations owned or leased. The policies and procedures provided herein apply to all Mason faculty, staff, students, visitors, and contractors.

The university provides and maintains general computing services, including web and Internet resources, and telecommunication technology to support the education, research, and work of its faculty, staff, and students. At the same time, Mason wishes to protect all users’ rights to an open exchange of ideas and information. This policy sets forth the responsibilities of each member of the Mason community in preserving the security, confidentiality, availability, and integrity of Mason computing resources. To accomplish these ends, this policy supports investigations of complaints involving Mason computing abuse, including sexual harassment, honor code, federal, state, applicable industry, and local law violations.

University faculty and staff members, as state employees, are subject to the Freedom of Information Act, §2.2-3700, et seq., of the Code of Virginia, and all applicable state and federal rules and regulations. While this policy endeavors to maintain user confidentiality, it cannot create, nor should faculty or staff members presume, any expectation of privacy.

Violations of this policy may result in revocation of access, suspension of accounts, disciplinary action, or prosecution. Evidence of illegal activity will be turned over to the appropriate authorities. It is the responsibility of all users of Mason computing resources to read and follow this policy and all applicable laws and procedures (user sign-on agreement).

To report violations of this policy, or any related university policy, e-mail the Security Review Panel (SRP) at StopIt@gmu.edu or abuse@gmu.edu.

**Definitions**
Mason computing resources. All computers, systems, workstations, networks, networking equipment, peripheral devices, servers, and any other university property attached to Mason’s web site or Internet network. These resources include all software, files, documents, and databases stored in Mason computing systems. The Mason web site includes all web pages that reside on servers owned by Mason. The Mason web site does not include servers or other resources owned by Internet service providers or personal resources owned by members of the Mason community who may use the resources to access Mason computing resources.

System administrator (SA). Anyone who has the responsibility to maintain, configure, operate, or repair Mason’s computing resources. System administrators have special privileges and special responsibilities under this policy.

Information Technology Unit (ITU). The organizational entity that is responsible for information technology (IT) equipment and services within the Mason campus system. The ITU is headed by the vice president for Information Technology (VPIT), who is administratively responsible for this policy.

Technology Council. A group of Mason faculty and staff members that provides advice and recommendations to the VPIT regarding the selection and architecture of technologies used to provide IT services.

Responsibilities of the Various Groups

System administrator. The SAs have extraordinary powers to override or alter access controls, configurations, and passwords. This power should be exercised with great care and integrity. SAs’ actions are constrained by this policy and by the policies of local administrative units.

Data stewards of Mason units who employ SAs are responsible for ensuring that the SAs comply with and enforce the requirements of this policy in the systems for which they are responsible. SAs who violate this policy or who misuse their powers are subject to disciplinary action.

If an SA observes someone engaging in activities that would seriously compromise the confidentiality, availability, or integrity of a Mason system, network, or electronic Mason data, the SA may take immediate action to stop the threat or minimize the damage or contact the ITU Support Center to activate the Computer Security Incident Response Team. SAs who observe suspected violations of law should immediately alert the University Police.

Security Review Panel (SRP). This policy establishes an SRP that is responsible for reviewing SAs’ decisions, responding to complaints, providing security advice, and periodically reviewing this policy. The SRP consists of the director of IT security, three faculty members, two members of Mason’s Technology Council, one representative from the Faculty Senate, one graduate student, one undergraduate student, one ITU staff member, and one non-ITU system administrator. The VPIT appoints the SRP members. The SRP chair will be one of the faculty members and will be appointed by the VPIT.

The SRP is responsible for periodically reviewing the RUC Policy and recommending improvements and clarifications as needed. All modifications to the policy will be made after full public disclosure and a reasonable period for public comment.

The SRP will establish a dispatching procedure for routing StopIt complaints to the appropriate official or staff member for action.

Rules of Use

Access to Mason’s computing resources is a privilege granted on a presumption that every member of the Mason community will exercise that privilege responsibly. Because it is impossible to anticipate all the ways in which individuals can damage, interrupt, or misuse Mason’s computing resources, this policy focuses on a few simple rules. These rules describe actions that users should avoid and the principles behind them. Each rule is followed by a nonexhaustive list of examples of actions that would violate the rule.

Rule 1. Use Mason computing resources consistently with the following intended purposes:
• Educational, research, and administrative purposes of Mason
• Uses indirectly related to Mason purposes that have an educational or research benefit, such as news reading, web
  browsing, chat sessions, and personal communications
• Employees and contractors of the Commonwealth of Virginia may not use Mason’s computing resources for recreation
  or entertainment.

**Rule 2. Do not use computer accounts for illegitimate purposes.**

Account usernames identify individuals to the entire international Internet user community. Users may be held responsible for
actions in the account. If that person violates any policies, his or her actions will be traced back to the username and the account
holder may be held responsible.

**Forbidden:**

• Selling access to Mason’s computing resources
• Engaging in commercial activity not sanctioned by Mason
• Intentionally denying or interfering with any network resources
• Using or accessing any Mason computing resource, or reading or modifying files without proper authorization
• Using the technology to in any way misrepresent or impersonate someone else
• Sending chain letters
• Violating copyright laws and licenses
• Violating federal or state law, or university policy

**Rule 3. Honor the privacy of other users.**

Mason respects the desire for privacy and voluntarily chooses to refrain from inspecting users’ files, except as described below in
Section V. SAs who carry out standard administrative practices, such as backing up files, cleaning up trash or temporary files, or
searching for rogue programs, do not violate privacy. Some examples of privacy violations are

• Accessing the contents of files of another user without explicit authorization from that user
• Intercepting or monitoring any network communications meant for another person
• Transmitting or distributing personal or private information about individuals without explicit authorization from the
  individuals affected
• Creating or using programs (e.g., key-loggers) that secretly collect information about users. Note that most systems
  keep audit trails and usage logs; these are not secret and are considered normal parts of system administration.

**Rule 4. Do not use any account except the one you have been authorized to use.**

If a user has a legitimate reason to give someone else access, it should be strictly temporary. The account holder should change
the password after another user finishes using the account.

**Rule 5. Do not use Mason’s computing resources to violate other policies or laws.**

The list below is not comprehensive. In case of doubt, ask the SRP or e-mail stopit@gmu.edu.

• Using Mason’s computing resources to violate harassment laws or policies. Various types of harassment, including
  sexual or racial, are proscribed by Mason policies.
• Using Mason’s computing resources to violate the Honor Code
• Extending the Mason network without explicit permission from ITU Network Engineering. The unauthorized use of
  routers, switches, modems, and other devices can affect the security and stability of the network.
• Running vulnerability scans on systems. This action is considered hostile. If required for academic reasons, written
  permission from the system owner is required.
• Using Mason’s computing resources to transmit, store, display, download, print, or intentionally receive obscene
  material or distribute pornographic material. All users of Mason computing resources are subject to all federal and state
  obscenity laws. State employees should also be aware of state laws prohibiting the use of state equipment to access,
  store, print, or download sexually explicit material.
Electronic Information Environment

Personal e-mail, electronic files maintained on Mason equipment, and personal web sites are part of a unique electronic information environment. This environment creates unique privacy issues that involve federal and state laws as well as Mason policies.

Mason reserves the right to inspect user files and communications for all lawful purposes, including investigating allegations of illegal activity, violations of Mason policies, or protection of the integrity and security of network systems.

Web pages. Mason will investigate all complaints involving personal web sites and will remove or block material or links to material that violate federal or state law or university policy.

Compliance

The StopIt Process. The process described here, called “StopIt,” uses a graduated approach to handle violations of this policy. This policy distinguishes between incidents that pose no immediate danger to persons or system integrity and incidents that do. The three-step StopIt process described below is for cases in which there are no immediate dangers.

Incidents posing immediate danger to persons or systems require immediate action. These include active system break-ins or intrusions, denials of service, and incidents or criminal activity conducted using Mason computing resources. In these cases, the responsible SA may take reasonable actions to deal with the threat, such as temporarily disconnecting the system from the network, temporarily suspending accounts, and calling law enforcement. The SA taking such actions will notify his or her supervisor, and the ITU Support Center as soon as practicable.

The StopIt process rests on two foundations:

- Wide distribution of policy information: Notices describing the essence of the RUC Policy will be displayed in academic computing labs on Mason premises; the same information will be provided to the community at least annually. By logging on to the Mason network, users are agreeing to the conditions of the RUC Policy (user sign-on agreement).
- Standard reporting mechanism: The StopIt e-mail address is monitored regularly by individual(s) appointed by the SRP. Harmful or disruptive behavior should be reported to the StopIt e-mail or the University Police. The individual who responds to a complaint will normally forward it to the SA of the system on which the infraction apparently occurred. That SA will investigate the complaint, determine its validity, and take appropriate actions (see below).

The steps of the process are as follows:

StopIt 1. First Warning

The SRP member handling a case (or SA, if the case is delegated) will send a warning letter or email to the alleged perpetrators of improper use of Mason computing resources, harassment, or other uncivil behavior. The letter will have this form:

“Someone using your account did [description of offense].” This is followed by an explanation of why this behavior violates which policy. “Account holders are responsible for the use of their accounts. If you were unaware that your account was being used in this way, it may have been compromised. Your system administrator can help you change your password and secure your account. If you are aware, then please make sure that this does not happen again.”

This warning ensures that the alleged perpetrators are aware that a policy violation may have occurred and that there was a complaint. It offers them an opportunity to desist without having to admit guilt and secure their account against unauthorized use.

StopIt 2. Second Warning

If there is a second offense from an account that received a first-warning letter, the SRP member will issue a second warning and may require that the account holder come to a mandatory interview. The SRP chair can authorize the temporary suspension of
access to the user’s account if the individual fails to arrange for a mandatory interview. The user can request a hearing before the full SRP.

**StopIt 3. Disciplinary Procedures**

If the previous StopIt stages do not convince the perpetrators to desist, the matter will be turned over to the appropriate Mason authority designated for that type of offense. The SRP will make available all information and evidence it has on the case to that authority.

If it appears from the evidence that any federal or state laws may have been violated, the SRP may recommend suspension of the account pending the outcome of the Mason or law enforcement authorities’ investigation.

**Amendments**

All amendments to the Responsible Use of Computing Policy Number 1301 are to be reviewed and approved by the Office of the Provost and the Office of the Senior Vice President.

**Effective Date**

The policies herein are effective October 20, 1997, and were revised December 17, 2007. This policy shall be reviewed and revised, if necessary, annually to become effective at the beginning of Mason’s fiscal year, unless otherwise noted.

**Parking Policy**

Fairfax Campus Sandy Creek Parking Office  
Phone: 703-993-2710

Arlington Campus 104 Original Building Office  
Phone: 703-993-8146

Prince William Campus 112 Occoquan Building Office  
Phone: 703-993-4808

Web: [parking.gmu.edu](http://parking.gmu.edu)

All faculty, staff, and students who park on property owned or operated by the university must display a valid permit or park in a parking deck and pay an hourly or daily rate. On the Fairfax Campus, the decks are located on Mason Pond Drive and Sandy Creek Way off Patriot Circle and on Rappahannock River Lane off Patriot Circle. Visitors and guests must park in the deck or at a meter unless special arrangements have been made through Parking Services.

Permit enforcement runs 24 hours a day, seven days a week. Metered parking is designated for short-term use and is monitored from 7 a.m. to 10 p.m., Monday through Friday, and 8 a.m. to 8 p.m., Saturday and Sunday. Broken meters are considered closed parking spaces; any vehicles parked in such spaces are subject to citation.

Restricted areas such as yellow curbs, crosswalks, sidewalks, landscaped or barricaded areas, loading zones, disabled spaces, and fire and emergency lanes are monitored 24 hours a day, seven days a week.

To avoid receiving a substantial fine, students, faculty, and staff should purchase a permit as soon as they arrive on campus. Parking permits are available on annual or semester basis. Permits, except for the Arlington Campus, may be purchased online at [parking.gmu.edu](http://parking.gmu.edu) or at the Parking Services sales office, located in the Fairfax Campus Sandy Creek Parking Office. Hours are 8:30 a.m. to 7 p.m., Monday through Thursday and 8:30 a.m. to 5 p.m. on Friday. Current parking permit fees and citation fine amounts, as well as information pertaining to the Arlington and Prince William Campuses, are listed on the Parking Services web site.
Disabled parking is available at a number of convenient locations at Mason facilities. A Department of Motor Vehicles (DMV) disabled placard or license plate must be displayed along with a university permit; a DMV placard or license plate alone is not sufficient for parking in disabled spaces in university lots. A visitor with a DMV placard or license plate may park in a parking deck at prevailing rates. Parking in or blocking access to a disabled space carries a fine at the prevailing rate.

Some parking lots have designated spaces reserved for faculty and staff, resident students, special permit holders, or service and repair vehicles. Please read all signs posted at entrances to the parking lots. All vehicles must be parked in a marked space. Complete parking regulations can be found at the Parking Services web site. For more information, call the Parking Services Office at 703-993-2710 or e-mail parking@gmu.edu. Please check the Parking Services web site for special announcements and changes to the policy.

**Motorist Assistance Program**

Phone: 703-993-2715

The Motorist Assistance Program (MAP) is designed to assist drivers who have minor car problems. Trained MAP personnel are available to help with dead batteries and can contact lockout or towing services at the driver’s request and expense. MAP is available at the Fairfax Campus from 8 a.m. to 11 p.m., Monday through Sunday. To access this service, call 703-993-2715.

**Mason Shuttles/CUE Bus/Transportation**

Mason Shuttles: 703-993-2828
Transportation: 703-993-2828
Web: shuttle.gmu.edu, transportation.gmu.edu

The following shuttles are operated by the Mason Shuttle program free of charge to the user:

- Prince William shuttle, providing service between the Prince William and Fairfax Campuses, Monday through Friday
- Mason to Metro shuttle, providing service Monday through Friday and Saturday and Sunday evenings between the Fairfax Campus and the Vienna Metro Station
- The Green and Gold Circulator Shuttle, providing service between Presidents Park and the West Campus Parking Lot on the Fairfax Campus
- Field House Shuttle, providing service Monday through Thursday between the Field House and the CUE Bus Stop on the Fairfax Campus
- Gunston Go-Bus shuttle, providing service from the Fairfax campus to area shopping centers

For more information and current shuttle schedules, go to shuttle.gmu.edu, call 703-993-2828, or e-mail shuttle@gmu.edu.

Mason faculty, staff, and students may also ride the City of Fairfax CUE Bus for free by showing their Mason ID card. For schedule information, go to www.fairfaxva.gov/CUEBus/CUEBus.asp. For other transportation information, go to transportation.gmu.edu or e-mail transportation@gmu.edu.

**Other Policies**

**Sexual Assault Policy**

The following policy applies equally to all members of the Mason community: students, faculty, administrators, staff, contract employees, and visitors.

The university is committed to providing an institutional environment where all people may pursue their studies, careers, duties, and activities in an atmosphere free of threat of unwelcome and unwanted sexual actions. It strongly condemns sexual offenses, will not tolerate sexual offenders, and supports those who have been victimized.
Sexual assault includes the attempt or act of rape (sexual intercourse without consent or with a child under the age of 13, by a stranger, an acquaintance, or an intimate), forced sodomy (forced oral or anal sex), or the forced penetration by a foreign object either animate, such as a finger, or inanimate. Nonpenetration sexual assault includes the act of touching an unwilling person’s intimate parts such as genitalia, anus, groin, breast, or buttocks, or the clothing covering these parts, or forcing an unwilling person to touch another’s intimate parts.

The above acts constitute sexual assault when they are committed against a person’s will as evidenced by refusal of consent; through the use of force, threat, manipulation, or intimidation, or against a person who by virtue of mental incapacity or physical helplessness is unable to give or withhold consent. This includes, but is not limited to, incapacity or helplessness caused by alcohol or other drugs. Intoxication of the assailant shall not diminish the assailant’s responsibility for the sexual assault.

The university will respond promptly, fairly, and decisively to all reports of sexual assault. Members of the university community accused of sexual assault will be subject to university disciplinary procedures when the alleged incident has occurred on campus or the incident has occurred off campus and materially affects the learning environment or operations of the university.

Sexual assaults are serious violations of the university’s student judicial code, faculty standards, and university employee policies. They are crimes under state law and punishable by fines or imprisonment. In addition, these actions are subject to civil suit for damages.

Mason is compliant with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (the Clery Act) as amended in 1998, which requires all postsecondary institutions to publish and distribute certain information regarding campus crimes, including reports of campus sexual assault, sexual assault policies, and security programming to all current students, employees, and any applicant who so requests.

Through the Office of Sexual Assault Services, 24-hour assistance is available to those who have been affected by sexual assault.

For more information, contact Sexual Assault Services at 703-993-4364.

**Stalking Policy**

Stalking is a crime under Virginia state law (18.2-60.3). Incidents of stalking outside Virginia may be admissible in court if they are relevant to the case and may be punishable as a misdemeanor or a felony. Stalking behavior is prohibited and will not be tolerated by Mason.

The university defines stalking as a series of behaviors that in context intend to place or have knowledge that the behaviors might place another person in reasonable fear of his or her safety or mental or physical well-being. Such behaviors include nonconsensual (unwanted) communication or contact, including face-to-face, telephone calls, voice messages, electronic mail, instant messaging, written letters, and unwanted gifts; harassment, either by the individual or through a third party; use of threatening gestures; pursuing or following; surveillance or other types of observation; use of electronic devices or software to track or obtain private information; trespassing; vandalism; and nonconsensual (unwanted) touching.

Some behaviors may result in separate criminal charges. While certain acts can be classified as crimes, others that do not rise to criminal behavior may still be subject to the campus judicial process. The university can take action and has the right to impose sanctions on an offender. Incidents occurring on or off campus are subject to university discipline when such actions materially affect the learning environment or operations of the university.

Legal options available to victims of stalking include reporting to the campus or local police, seeking a remedy through civil proceedings, and using the campus judicial process. Additional support is available from Sexual Assault Services.

This policy applies equally to all members of the Mason community: students, faculty, administrators, staff, contract employees, and visitors.

The university is committed to protecting the right of all individuals to pursue their intellectual, vocational, and personal interests without harassment or interference. The university is also committed to providing an environment in which visitors to and members of the campus community are treated with dignity, respect, and regard for their welfare and learning needs.
For more information on stalking issues or this policy, call Sexual Assault Services at 703-993-4364.

Statement of Information on Dating/Partner Violence

Effective March 2008

This statement of information applies to all George Mason University students, staff, and faculty.

George Mason University is committed to providing an institutional environment where all persons may pursue their studies, careers, duties, and activities in an atmosphere free of threat of interpersonal violence. The university will support those who have been victimized by dating/partner violence by providing information and counseling services and, depending on the individual case, will refer the matter to the appropriate office or department to be handled under applicable university policies, regulations or Virginia criminal statutes.

George Mason University Dating/Partner Violence Definition

Dating/partner violence, as defined by George Mason University, is often a pattern of controlling behaviors but can be a one-time incident used by an individual to gain and maintain power and control over another individual in the context of a dating/partner or familial relationship. The pattern of controlling behaviors is not caused by a lack of impulse control on the part of the abuser or as a matter of coincidence but rather is usually an ongoing effort to maintain domination over the victim to ensure submission to the abuser's will. This definition applies to people in heterosexual and same-sex relationships.

Other Definitions

Controlling behaviors: May include, but are not limited to, physical and sexual violence, direct and implied threats of violence, emotional and psychological intimidation, coercion, verbal abuse, isolation, stalking, spiritual abuse, economic/financial control, ridiculing religious beliefs, invasion of privacy, actual or threatened use of weapons, threats of deportation, blackmail, destruction of property, and/or harm to the victim's family, pets, and significant others.

Dating/Partner: A short- or long-term relationship (current or former, including marriage) between persons intended to provide some emotional, romantic, or physical intimacy.

Familial Relationship (as defined in Virginia law, Section 16.1-228):

- The person's spouse, whether or not he or she resides in the same home with the person
- The person's former spouse, whether or not he or she resides in the same home with the person
- The person's parents, stepparents, children, brothers, sisters, half-brothers, half-sisters, grandparents and grandchildren, regardless of whether such persons reside in the same home with the person
- The person's mother-in-law, father-in-law, sons-in-law, daughters-in-law, brothers-in-law, and sisters-in-law who reside in the same home with the person
- Any individual who has a child in common with the person, whether or not the person and that individual have been married or have resided together at any time
- Any individual who cohabits or who, within the previous 12 months, cohabited with the person, and any children of either of them then residing in the same home with the person.

Family abuse: Any act involving violence, force, or threat including, but not limited to, any forceful detention that results in bodily injury or places one in reasonable apprehension of bodily injury and is committed by a person against such person's family or household member (as defined in Virginia law, Section 16.1-228).

Support Available:

George Mason University will make reasonable efforts to provide support and referrals to students involved with dating/partner violence. Because dating/partner violence often occurs in conjunction with sexual violence and stalking, Mason students experiencing dating/partner violence may seek confidential assistance from the university's Sexual Assault Services and Counseling and Psychological Services.
Reporting Incidents and Legal Options

Criminal: Certain acts of dating/partner violence are crimes under Virginia law. These acts may be classified as assault and battery against a family or household member under Section 18.2-57.2 of the Virginia Criminal Code. Persons wishing to make an official police report and seek prosecution should contact the appropriate police agency.

Civil: Victims of dating/partner violence may seek to obtain a protective order at a local magistrate’s office and file a civil lawsuit to obtain compensation for personal damages. Victims can seek more information about protective orders and civil proceedings by contacting Mason's Sexual Assault Services.

University discipline: The university may take action and impose sanctions on those accused if the accused is an employee or a student, whether or not the incident rises to a criminal offense under Virginia law. Incidents occurring on or off campus between students and/or employees may be subject to university discipline when such actions materially affect the learning environment of the victim or the operations of the university. Sanctions on the accused may include education, counseling, restrictions, and penalties. See Behavioral Expectations 8 of the Student Judicial Code.

For more information about the Office of Judicial Affairs and the Student Judicial Code, please call 703-993-2884, go to judicialaffairs.gmu.edu, or visit the Office of Judicial Affairs in SUB I, Room 302. Employees may contact George Mason University Employee Relations at 703-993-2600. To reach University Police, please call 703-993-2810.

Employee policies related to this issue:

George Mason University Administrative Policy 2208—Preventing Workplace Violence
Virginia Department of Human Resource Management Policy 1.80—Workplace Violence
Virginia Department of Human Resource Management Policy 2.30—Workplace Harassment
Virginia Department of Human Resource Management Standards of Conduct Policy 1.60

This statement of information was created by the George Mason University Sexual Assault Services Coordinating Council.

Other Regulations

Annual Security Report

Mason’s 2009 Annual Security Report is available on the University Police web site. This report contains the previous three years' crime statistics and includes policies concerning campus security, such as sexual assault, stalking, and other matters that pertain to safety on campus. To view a copy of the report, go to www.gmu.edu/police/annualsecurity.htm. Paper copies of this report are available at any police facility.

Weapons

The unauthorized possession, storage, display, or use of any kind of ammunition, firearm, firework, explosive, air rifle, air pistol, or other lethal instrument is prohibited on university property. For more information, call University Police at 703-993-3840.

Smoking

Smoking is not permitted in any building on campus.
**Bicycles and Skateboards**

Bike racks are provided at various on-campus locations for the convenience of students who bike to and from campus. For resident students, bike racks are located in the residential complexes. Bikes and skateboards are not permitted on designated areas, stairs, ramps, footpaths, or grassy areas of the campus. They also are not allowed inside university buildings.

**Pets**

No pets, except those assisting people with disabilities, are permitted in university buildings at any time. Pets on campus grounds must be on a leash and under supervision at all times.

**Solicitors and Salespeople**

Except on official business with the university, solicitors and salespeople are not permitted on the campus without prior approval of the University Services Office.
Tuition, Expenses, and Financial Aid

- Tuition and Fees
  - Refund Policies
- Expenses
- Financial Aid

4400 University Drive, MS 2E2

Tuition and Fees

General Guidelines

- Students are responsible for maintaining a current mailing address in their student record on Patriot Web (patriotweb.gmu.edu), and for activating and checking their George Mason University e-mail accounts to receive official university communications.
- By registering for classes, students accept responsibility for the semester charges. Students are responsible for withdrawing from all classes that they do not intend to complete by the deadlines listed in the Academic Calendar. Full or partial tuition liability may apply. George Mason University does not cancel classes for nonpayment.
- Refer to the Payment Schedule and the Academic Calendar on the Student Accounts Office web site for payment due dates and tuition penalties for dropping classes after the start of the semester. Classes that do not meet for the full semester have non-standard liability deadlines, which can be found on the part-of-term chart of the Academic Calendar.
- Payments are due in the Cash Office, Student Union Building I, Room 104, on or before 4:30 p.m. on due dates, regardless of postmark if mailed. Check and credit payments made through the Bill and Payment System must be completed by 10:30 p.m. to be considered in that day’s business.
- Bills are mailed approximately thirty (30) days prior to the semester start. All subsequent bills are sent electronically. Bills are not mailed for individual class registration and schedule adjustments. Students must check Patriot Web for balance due, verify registration, and pay through the Bill and Payment System or at the Cash Office by the due date. Failure to receive a reminder bill confirming charges does not waive the requirement for payment when due.
- Students who have not completed the financial aid process must be prepared to pay for their courses by the tuition due date or a late payment fee will be charged. The amount of financial aid accepted and processed will be reflected in your account balance. If the amount of aid awarded is less than the charges, the difference must be paid by the tuition due date. Federal loan borrowers must submit a completed promissory note at least four weeks before the payment due date to the Financial Aid Office for these funds to be considered in your balance. Federal work-study awards cannot be deducted from your balance. Financial aid recipients must also notify their financial aid counselor if they drop courses below the minimum required credits for their financial aid award. Class registrations or schedule adjustments after financial aid has been disbursed may result in a balance due. Students are responsible for checking their balance after all schedule adjustments.
- The Family Educational Rights and Privacy Act of 1974 (FERPA) limits the release of student information to parents or other third parties without the student’s written consent. Students may set up authorized users in the Bill and Payment System to meet this requirement. Authorized users will receive electronic bill notifications and financial activity access only.
- Out-of-state students with pending domicile requests are responsible for payment at the out-of-state rate. Students who are later determined to be in-state can request reimbursement for the difference in tuition rates.
• Non-returning students are responsible for withdrawing from their courses for the semester and ensuring they do not have an outstanding balance on their account. Any documentation or intent made to the Admissions Office that you are not returning does not withdraw you from the registered courses.

• Students enrolling in Mason off-campus courses are assessed tuition and fees at the same rates as those for on-campus courses.

• Students who add their first class on the first day of the semester or after are assessed a $125 late registration fee. The fee does not apply to students already registered prior to the start of classes who make schedule adjustments. Wait-listed classes are not considered class registration.

• Some Mason degree programs include academic credits that students must earn at other academic institutions. Students enrolling for such credits assume all financial responsibility with the other institutions.

Semester Tuition Charges and Related Fees

Approved tuition rates and fees are available June 1. For more information, call the Student Accounts Office at 703-993-2484 or go to studentaccounts.gmu.edu. Students are charged tuition rates for registered courses according to their academic level; graduate rates vary by academic program.

Orientation/New Student Fees: All new degree seeking students pay an Orientation/New Student Fee. The fee is a mandatory, nonrefundable, one-time charge that is assessed when a new student registers for classes, regardless of orientation attendance or future enrollment status. The current fee amount is listed on the Student Accounts Office web site: studentaccounts.gmu.edu

Educational Resource Fee: All students are charged a mandatory per-semester fee, $100 for more than six credits, and $60 for six or fewer credits, which allows Mason to maintain essential support services for both full and part-time students.

Please Note: Many courses require additional course fees and/or lab fees. Refer to the Student Accounts Office web site for up to date course fee information: studentaccounts.gmu.edu/tuition.html

Payment Information

Payment Deadline

Payment is due the first day of the semester. Payments received at the Cash Office by 4:30 p.m. Monday to Friday will be considered in that day’s business. Check and credit payments made on Patriot Web must be completed by 10:30 p.m. to be considered in that day’s business. To confirm receipt of payment and balance due on account, go to patriotweb.gmu.edu.

Methods of Payment

Cash: At window only, Cash Office, SUB I, Room 104

Check: Web, window, mail or drop box. Make check payable to George Mason University, with student ID number written on front. Third-party checks are not accepted. Checks must be payable in U.S. dollars. A $50 return check fee will be charged for checks returned unpaid by the bank for any reason.

Credit Card: (subject to credit approval) Web only. MasterCard, American Express or Discover Card. There is a 2.75 percent convenience fee for credit card payments, which is nonrefundable.

Delivery Methods

Web: Bill and Payment system, on-line checks or credit cards

Window: Cash Office, SUB I, Room 104, Monday through Friday 9 a.m. to 4:30 p.m.
Drop Box (no cash payments): Outside Cash Office, SUB I, Room 104

U.S. Mail: George Mason University, Cash Office, 4400 University Drive, MS 2E1, Fairfax, VA 22030. Allow 10 business days for delivery by the due date, and postmarks are not considered a receipt of payment.

Semester Payment Plan

Mason payment plans are available on-line only, and the following plans are available for students who need to budget their accounts. All payment plans require a $25 contract fee, which is nonrefundable. Please note: The preferred payment method for payment plans is the on-line/electronic check option, which does not charge a convenience fee.

The Summer term offers a two payment plan only. The plan begins with a down payment of 50% and the $25 contract fee, and defers the second payment until June 15.

In Fall and Spring there are two options available. One plan splits the balance into two payments of 50% each and the other splits the balance into four payments of 25% each. Both plans require a down payment, which is the first payment plus the $25 contract fee. Important deadlines must be followed to take advantage of the four payment plan. For more information, call the Student Accounts Office at 703-993-2484 or go to studentaccounts.gmu.edu

Study Abroad/Global Education and International Student Health Insurance fee payments cannot be deferred. Failure to pay the deferred balance by the due date will result in a financial hold, a late fee of 10% (up to $125), collection activity, and may prevent future eligibility of the payment plan.

Third-Party Billing Authorizations

Students using a third-party billing authorization will be charged a $25 processing fee. Students may receive an individual billing statement. Students must provide the third-party authorization or government training voucher to the Student Accounts Office, or fax it to 703-993-2460 before the student’s individual due date, which is based on their registration date. Check “Important Dates” on the web site for the deadline to submit third party payment authorizations. Students are ultimately responsible for any defaults in payments by the sponsoring agency. Call 703-993-2484 for a copy of third-party billing requirements, or check the web at studentaccounts.gmu.edu/thirdparty/.

Penalties

A late registration fee of $125 is automatically assessed to students who add their first class on the first day of the semester or after. It does not apply to students already enrolled prior to the start of the semester who make schedule adjustments. Late registration fees are nonrefundable and will not be removed, regardless of enrollment status.

Any class registration after the deadline to add classes, if approved by the academic department, is subject to a late registration fee of up to $125.

Past due balances are subject to a late payment fee that is 10 percent of the balance due, up to $125.

Registrations will not be canceled for nonpayment. Students must withdraw from all classes that they do not plan to complete by the payment due date to avoid the late payment fee on those classes.

Returned Checks

A $50 returned check fee will be charged for each unpaid check returned by the bank. If the returned check results in an unpaid account, an additional late fee up to $125 may be charged and academic services suspended.

Financial Good Standing: No Holds on Record
Financial good standing and a university record clear of holds are required for students to receive academic services. Services, including but not limited to transcript issuance, diploma release, and class registration (add, drop, withdrawal, etc.) will not be provided to students with a financial balance due or a hold of any kind on their record. Holds are based on outstanding obligations and may be financial. Examples include unpaid telephone charges, fines owed to the Mason or Washington Research Library Consortium libraries, and other administrative holds.

**Collections**

Failure to meet financial obligations to the university will result in other collection procedures, which include account referral to credit reporting bureaus, private collection agencies, the Commonwealth of Virginia Department of Taxation, and the Office of the Attorney General. Past due accounts are subject to garnishments, liens, and judgments and the withholding of money from tax refunds. In addition to late fees and interest, delinquent accounts will be assessed additional collection costs equal to thirty percent of the past due balance, reasonable attorney fees, and other administrative costs.

**Course Withdrawals**

Students are required to pay full or partial tuition for courses they withdraw from after the last day to drop with full tuition refund, including withdrawals to change from one section of a course to another section. For more information, see the tuition liability dates in the Academic Calendar.

**Refund Policies**

**Refund for Credit Balances**

In cases where tuition charges are less than the payments on the student's account, a refund of the overpayment may be requested. To initiate the refund process, a Refund Request form is completed and submitted to the Student Accounts Office. Refund will be processed according to the method of payment received:

- Cash payments are sent in the form of a check, without a waiting period.
- Payments made by check require a five day waiting period. The waiting period may be waived if proof of check clearance is presented, such as a canceled check copy or bank statement showing that the check cleared the account.
- Credit card payments are credited back to the credit card that was most recently used for payment.

Refund checks are made payable to the student and are mailed to the address listed in the student record. Check pick up in person is not available due to negotiable item security and the large number of checks processed.

**Direct Deposit Refunds**

The option to have check refunds sent electronically is available by submitting a Direct Deposit Authorization form, which can be found on the Student Accounts Office web site. A checking account is necessary for this refund option. Direct deposit refunds are not available for Parent PLUS loans.

**Financial Aid Refunds**

Credit balances from financial aid awards will automatically generate a refund check, which will be mailed to the address on file with the university or sent via direct deposit if authorized by the student. A refund request form is not needed for financial aid disbursement refunds.

**Special Registration**

Students not enrolled in a credit-bearing course, but whose academic department certifies that they are pursuing an activity related to Mason matriculation, can retain active status by having the Registrar’s Office process a registration for the Special Registration course (ZREG 200). A $45 fee is charged for this course, and students must pay this fee before the Registrar’s Office will process the registration. Written approval of the student’s advisor or instructor and the academic department chair is
required. This special registration allows students to retain their library and computer privileges, receive a student ID, and buy a parking decal. Students must have active status to apply for or receive a degree, take an exam, or participate in cooperative education. Students pursuing a master’s or doctoral degree must maintain continuous enrollment. For more information, see the Graduate Policies section.

**International Student Health Insurance**

Health insurance is required for all F-1 and J-1 visa holders, and nonpayment may result in class cancellation. The health insurance fee is deducted from all payments received by the university before funds are applied to tuition or other charges. For more information, see the Admission of International Students section in the Admission chapter.

**Music Instruction**

Private music instruction is arranged through the School of Music on a fee-paying basis. The per semester charge for a half-hour lesson (1 credit) is $164.50; an hour lesson (2 or 3 credits) is $329. Note that this fee is subject to change.

**In-State Tuition**

To be eligible for in-state tuition, a student must have been domiciled in Virginia for at least one full year before the semester for which in-state tuition is sought, or qualify through statutory exception. A person establishes domicile by demonstrating physical presence and the intention to remain indefinitely in accordance with Virginia domicile guidelines. Copies of the guidelines and other applicable state laws are available from the Office of the Registrar or at registrar.gmu.edu/students/domicile.

**Domicile Change**

Domicile classification is determined at the time of a student’s admission. To be considered for in-state status when applying to the university, students must file an application for in-state rates.

New and currently enrolled students classified as out-of-state who believe they qualify for in-state tuition after being admitted must file a domicile appeal form with the Office of the Registrar no later than the first day of classes for the semester in which in-state rates are sought. Appeal forms are available from the Office of the Registrar and at registrar.gmu.edu/students/domicile.

Students whose appeals are denied have the right to seek further review of their status by the Office of the Registrar or the Third Level Domicile Appeals Committee. These requests must be filed in a timely manner as stated in denial letters. Forms are available from the Registrar’s Office and the web site. In addition, students should be aware that university procedures for appealing domicile decisions have been established pursuant to state law and are subject to change. Out-of-state students with an appeal pending at the time of tuition billing are responsible for payment at that rate. Students subsequently determined to be in-state may request reimbursement of overpayment from the Office of Student Accounts. Also, any student who fraudulently or knowingly provides false information in an attempt to evade payment of out-of-state tuition will be charged out-of-state tuition for each term or semester attended and may be subject to dismissal from the institution.

For more information regarding in-state eligibility, contact Domicile Administration in the Registrar’s Office in North Chesapeake Module, Room 8; phone: 703-993-2464; e-mail: domicile@gmu.edu.

**Tuition Surcharge: 125 Percent of Degree**

Undergraduate students who have established Virginia domicile and eligibility for in-state tuition will be subject to a surcharge if they exceed 125 percent of the credits required to complete a degree. The surcharge will be determined by the State Council for Higher Education in Virginia.
The following courses and credit hours shall be excluded in calculating the 125 percent credit threshold: remedial courses; transfer credits from another college or university that do not meet degree requirements for general education courses or the student’s chosen program of study; advanced placement or international baccalaureate credits that were obtained while in high school or another secondary school program; and dual enrollment, college-level credits obtained by the student prior to receiving a high school diploma.

Expenses

Housing

Office of Housing and Residence Life
ground floor of Potomac Heights
Phone: 703-993-2720
Web: housing.gmu.edu

The university offers a variety of housing options to meet the diverse needs of students living on campus. Upper-class students may choose from suites, apartments, and townhouses. Most freshmen live in traditional-style residence hall rooms that accommodate two, three, and four students. Room rates are subject to approval on an annual basis by the Board of Visitors. Rates for the 2010–11 academic year have been established. Please refer to the Housing and Residence Life web site for rate information. All students in housing must provide a prepayment, which is applied to the spring semester rent. Housing assignments, including single rooms, are made on a priority and space-available basis. The web site provides extensive information about housing programs and services and includes floor plans for student rooms.

Students living on campus are required to sign an academic year contract. Releases from the contract are granted only in cases of hardship and involve a financial penalty. For more information, contact the Office of Housing and Residence Life.

Mason Dining

Mason Dining
Southside Dining Hall, First Floor
Phone: 703-993-3300
Web: dining.gmu.edu

Mason Dining is proud to serve the Mason community with over 27 restaurants, kiosks and carts among the Arlington, Fairfax, and Prince William campuses. Southside, located on the Fairfax campus, offers extensive menus with the highest quality ingredients and seasonal produce. Mason Dining is committed to nutrition, wellness, and sustainability.

Meal Plans and Mason Money

Meal Plan & Mason Money Office
Center for Student Engagement (SUB II), Lower level
Phone: 703-993-2870
Web: mealplans.gmu.edu or masonmoney.gmu.edu

Both resident meal plans and patriot meal plans are available for students to purchase whether staying in campus housing or not. These plans are billed to the student account. Most students living on campus are required to participate in the resident meal plan program. Detailed information is available on the web site.

Mason Money, accepted with the Mason ID, is accepted at various venues on campus and also with participating merchants off campus. Funds can be deposited at the Mason Money office or online at masonmoneyonline.gmu.edu
Parking Services

Fairfax Campus, Sandy Creek Parking Office
Phone: 703-993-2710

Arlington Campus, 104 Original Office Building
Phone: 703-993-8146

Prince William Campus, 112 Occoquan Building Office
Phone: 703-993-4808

Web: parking.gmu.edu

Students who park their vehicles on university property must register them with Parking Services and pay a fee for a parking permit. Permits are available on an annual, semester, or summer basis. For permit sales, fine payments, special requests, or problems, go to any Parking Services Office. Some services are available on-line at parking.gmu.edu. The Fairfax Campus Sandy Creek Parking Office hours are 8:30 a.m. to 7 p.m. Monday through Thursday and 8:30 a.m. to 5 p.m. on Friday. For more information, read the Parking Policy section in the General Policies chapter of this catalog, or go to parking.gmu.edu for current information and rates.

Financial Aid

Office of Student Financial Aid
South Chesapeake Module
E-mail: finaid@gmu.edu
Phone: 703-993-2353
Fax: 703-993-2350
Web: financialaid.gmu.edu

The Office of Student Financial Aid provides a variety of services to help students finance their education. They include counseling, referral and information resources, and financial assistance. Student financial aid awards consist of grants, loans, and work-study. Awards are based primarily on financial need, although there are some alternative resources available for those who may not qualify for need-based aid.

The office has a comprehensive listing of various scholarship opportunities for students to research on the Student Financial Aid web page. Students are encouraged to review the scholarship information early and frequently to meet deadlines since the listings are updated often.

Located in South Chesapeake Module, the office is open 9 a.m. to 5 p.m., Monday through Friday. Financial aid counselors are assigned to students alphabetically based on students’ last names and are available daily by appointment.

To apply for financial aid, each year new and currently enrolled students must complete a Free Application for Federal Student Aid (FAFSA). George Mason’s federal school code for the FAFSA is 003749. Priority consideration for all sources of financial aid is given to those students whose financial aid applications are on file with the Office of Student Financial Aid by March 1. To meet this priority filing date, students should file the FAFSA as soon as possible after January 1. The FAFSA can be filed on-line at www.fafsa.ed.gov, or a paper copy can be obtained from the office.

Financial aid for summer is generally limited to students who have remaining Federal Pell Grant or federal loan eligibility. Contact the Office of Student Financial Aid for specifics regarding eligibility. The summer aid application is available on-line and in the office on April 1.

All students receiving financial aid must be enrolled in an eligible degree or certificate program for at least half time in any given semester; maintain satisfactory academic progress as defined by the Office of Student Financial Aid, in accordance with federal guidelines (see below); and be a U.S. citizen or eligible non-citizen as defined by the U.S. Department of Education.
All aid recipients are responsible for becoming familiar and complying with applicable federal and state laws, university regulations, Mason student aid information resources, and the student aid satisfactory academic progress policy. This policy is detailed in the glossary section of the home page of the Office of Student Financial Aid.

**Academic Progress Standards**

Federal legislation governing the administration of federal programs requires colleges and universities to define and enforce standards of progress for students receiving or applying for financial aid. To comply with this legislation, the Office of Student Financial Aid has established a formal satisfactory academic progress policy. For detailed information, go to the Student Financial Aid home page at [financialaid.gmu.edu](http://financialaid.gmu.edu) or contact the Office of Student Financial Aid.

**Aid Programs**

The university administers the following federal, state, and other aid programs:

- **Federal programs**: These include the Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work-Study (FWS), Federal Perkins Loan Program, Federal Subsidized Stafford Loans, Federal Unsubsidized Stafford Loans, and Federal Parent Loans for Undergraduate Students (FPLUS). For more information, refer to the Student Guide for Federal Financial Aid, which is available in the Office of Student Financial Aid, or go to the Student Financial Aid home page at [financialaid.gmu.edu](http://financialaid.gmu.edu).
- **State programs for undergraduate Virginia residents**: Eligibility for all state programs is based on results received from the FAFSA. State grant funds are limited, so adherence to the March 1 priority filing date is critical.
- **Virginia Commonwealth Award**: This program is open to undergraduate students who have demonstrated financial need, are enrolled at least half time, and are domiciliary residents of Virginia.
- **Virginia Guaranteed Assistance Program (VGAP)**: This program is a component of the Virginia Commonwealth Award Program that is open to students who demonstrated academic achievement in high school. VGAP awards are renewable for up to four years.
- **College Scholarship Assistance Program (CSAP) Grant**: This program uses a combination of federal and state funds to provide additional assistance to students who are enrolled at least half time, are Virginia residents, and who demonstrate significant financial need.
- **Graduate student assistance**: Assistantships, fellowships, and scholarships exclusive of the federal financial aid programs identified earlier are administered by the individual graduate programs. Students interested in pursuing graduate assistantships, fellowships, or scholarships should contact their graduate program.

**Emergency Loan Programs**

- **Mary E. Ferguson Emergency Loan Program**: Currently enrolled students may borrow funds for legitimate emergencies, excluding tuition, fees, books, and supplies. Emergency loans must be repaid within 30 days; overdue payments result in a late charge of $5 for each 30 days past due. Failure to repay the loan within 30 days without requesting an extension for a reasonable justification will result in financial suspension. Students financially suspended for nonpayment of an emergency loan are ineligible for any future emergency loans. Application is made through the Office of Student Financial Aid.
- **Doug Beaman Emergency Loan Program**: The George Mason University Alumni Association established an emergency loan fund through which students may borrow up to $100 with repayment due within 30 days. The program is available to all students, with priority given to children of alumni. Application is made through the Office of Student Financial Aid.
- **Lisa Kenaga Memorial Student Emergency Loan Fund**: The Office of Student Financial Aid has established an emergency loan fund through which currently enrolled students may borrow funds for legitimate emergencies,
excluding tuition and fees. Emergency loans must be repaid within 30 days with a $10 processing fee; overdue payment results in a late charge of $5 for each 30 days past due. Failure to repay the loan within 30 days without requesting an extension for a reasonable justification results in financial suspension. Students financially suspended for nonpayment of an emergency loan are ineligible for future emergency loans. Application is made through the Office of Student Financial Aid.

Resources and Services

Resources and services of the George Mason University Libraries are housed on the Fairfax Campus at the Charles Rogers Fenwick Library and the George W. Johnson Center Library; on the Arlington Campus at the Arlington Campus Library; and on
the Prince William Campus at the Mercer Library. The School of Law Library, on the Arlington Campus, is administered separately. Combined holdings, including the law library, total more than 1.2 million books and bound journal volumes; 11,000 current print serial subscriptions; 3.0 million microform units; 341,000 print government documents; 214,000 maps; 36,000 multimedia materials; 550 electronic databases; 31,000 electronic journals and proceedings; 100,000 electronic books; and significant holdings of manuscripts, special collections, and archives.

Mason’s integrated library information system provides an online public-access catalog, circulation, electronic reserves, and library-processing services. The information system can be used in any of the libraries from campus locations on the network or via the web. The web site library.gmu.edu offers access to a variety of networked digital resources and electronically mediated services, including a virtual reference service.

The library liaison program supports a variety of cooperative and collaborative activities. Liaison librarians work with academic departments and programs to develop print collections and electronic resources. They also offer introductory and advanced information literacy instruction sessions, as well as advanced reference and research consultation services to students and faculty. Each of the four libraries has its own dedicated instruction room for information literacy classes.

Through membership and active participation in local, regional, and national library consortia, the University Libraries are better able to meet the needs of the university’s growing and diverse academic and research programs. Current affiliations include the following:

- The Virtual Library of Virginia (VIVA) Program, a Virginia-funded electronic and resource-sharing program for public higher-education institutions
- Washington Research Library Consortium (WRLC), whose membership also includes American, Catholic, Georgetown, and George Washington universities
- Association of Southeastern Research Libraries, which includes the 36 largest university libraries in a 10-state region
- Center for Research Libraries, a Chicago-based research library for research libraries whose multimillion volume holdings comprise specialized and uniquely held materials in North America
- The international Online Computer Library Center, whose extensive computerized system and network facilitate national and international library resource-sharing activities.

An intercampus delivery service is available for students and faculty requesting materials held at any Mason campus library. Materials not held by Mason can be obtained by direct borrowing from WRLC institution libraries via the Consortium Loan Service, interlibrary loan, or commercial delivery services when required.

Educational Services Unit

The Educational Services Unit leads planning and program development for information literacy initiatives throughout all the libraries and, through collaboration with other university units, creates institution-wide projects and initiatives focused on students’ research abilities. The Educational Services Unit staff designs classes, tutorials, instructional materials, and program-level plans to teach students how to identify, assess, and manage information for their academic courses and other endeavors, and conduct research in an ethical way. This unit is also responsible for leading assessments related to information literacy and fluency projects.

iMasonLibraries Service

Web: library.gmu.edu/research

This service enables users to ask reference questions via an instant messenger.

Mason Archival Repository Service
The Mason Archival Repository Service (MARS) provides a stable digital archive for scholarly and research materials of lasting value held notably by Special Collections and Archives or produced by Mason faculty, students, and staff. MARS is managed by Digital Programs and Systems. The MARS librarian offers expert advice on archiving these materials, file formats, copyright issues, long-term management of archived materials, and issues pertaining to scholarly communication.

University Copyright Assistance Office

Johnson Center, Rooms 227 EB
Phone: 703-993-2544 or 2427
Fax: 703-993-4116
Web: library.gmu.edu/copyright

This office provides guidance and assistance on copyright and fair use issues, including copyright use in classroom teaching and technology, online courses, distance education, university publications, university web sites, networked library collections and related services, electronic course reserves, and course readers. Workshops are offered on a regular basis.

University Dissertation and Thesis Services

Phone: 703-993-2222
Web: thesis.gmu.edu

The University Dissertation and Thesis Service (UDTS) assists students and academic units in the dissertation, thesis, and graduate-level project process by helping students meet all university requirements and deadlines for submission of work. The UDTS web site provides useful tools such as the university’s Thesis, Dissertation, or Project Guide, which contains downloadable templates of necessary elements, forms required for the submission process, and links to related web sites. UDTS also assists graduate students through individual consultation and informational workshops.

Records Management

Phone: 703-993-2201

A part of the Special Collections and Archives, this service assists university academic and administrative departments with the retention and disposition of temporary records by providing a number of online resources to members of those departments. The records manager works with members of university departments to ensure that records are retained, retrieved, managed, and disposed of appropriately, in accordance with Virginia state laws, policies, and guidelines.

Statistical Research Services

Phone: 703-993-3417
Web: library.gmu.edu/srs

This office provides expert consultation services for students and faculty who need assistance with statistics-based research projects, including quantitative and qualitative research design analysis, and help with the myriad statistical-analysis software.

Fenwick Library

Phone: 703-993-2240
Fenwick is the main library in the university’s library system. It holds most of the book collections across disciplines, as well as current and bound journals, microforms, special collections and archives materials, federal and Virginia government documents, and maps. Instruction and reference classes are available in search strategies, information sources, and information technology. In addition, publicly accessible computer workstations and data ports for laptop use enable access to the entire system’s electronic resources and associated services.

**Johnson Center Library**

Phone: 703-993-9060

This library is part of the George W. Johnson Center integrated learning environment. Electronic access to scholarly information is complemented by a print-reference collection, multimedia collections, and a circulating book collection comprising core texts and readings supporting the university’s undergraduate curriculum. This library, in particular, supports interdisciplinary programs such as the Honors College and New Century College through its collections and outreach services. The library also holds designated discipline-based circulating book collections. It is the center for multimedia collections and services for the university library system. This library also provides course support through reserve materials (electronic, print, and media) for students and faculty on the Fairfax Campus and manages the entire electronic reserves service. Assistive technologies include screen-reading software, text-enlargement software, and special hardware for individuals with disabilities.

**Arlington Campus Library**

Phone: 703-993-8188

This library is a full-service research facility supporting the teaching and research needs of Mason faculty, students, and staff on the Arlington Campus. Consistent with this campus’ distinct areas of academic specialization at the graduate level, the library’s collection emphasizes public policy, international commerce, economics, education, management of nonprofit organizations, and conflict resolution. The library holds a core of reference materials and is a depository of European Union documents. Intercampus delivery of circulating materials from other library sites is also available. Library staff can provide reference assistance and instruction for students, faculty, and staff in identifying and using resources. Physical library holdings continue to grow, while the library emphasizes providing many of its resources and services online. This library supports a wireless network, and assistive technologies are available for people with disabilities.

**Mercer Library (Prince William Campus)**

Phone: 703-993-8340

This library supports faculty and students in the programs and courses offered at the Prince William Campus, including education; biotechnology, bioinformatics, and biodefense; computer science; health, fitness, and recreation resources; and administration of justice. The library provides access to university-wide electronic resources, with an emphasis on instruction and assistance with information resources and research. Notable holdings include scientific journals in bioscience and biomedicine. The library is fostering partnerships to provide information services to the rapidly expanding corporate and technology presence in Prince William County. This library has a wireless network, as well as assistive technologies for people with disabilities.

**School of Law Library (Arlington Campus)**

Phone: 703-993-8106

**Administration**

Deborah M. Keene, Associate Dean, Library and Technology
This library supports the School of Law and has holdings in law and economics, including specialized academic tracks in intellectual property, litigation, corporate and securities law, international business, regulatory law, and technology and law. The library also provides access to electronic law resources including Lexis, Westlaw, and LegalTrac. This library is open to all members of the university community, and its collections are available for checkout by all faculty, students, and staff.

**Office of the Ombudsman**

Johnson Center, Room 245  
Phone: 703-993-3006  
Email: ombuds@gmu.edu  
Web: [ombudsman.gmu.edu](mailto:ombudsman.gmu.edu)

**Administration**

Dolores Gomez-Moran, University Ombudsman

The Office of the Ombudsman is a neutral, independent, informal, and confidential resource to facilitate fair, equitable, and expeditious resolution of university-related concerns and problems raised by students. The ombudsman is an advocate for fairness and the equitable treatment of students, operates independently of all formal grievance processes at the university, and considers all sides of an issue in an impartial and objective manner. The ombudsman has no authority to make exceptions or to grant requests, but can perform informal investigations and, as a result, may recommend actions that lead to changes in processes and policies at the university. Meetings with the ombudsman are confidential. The ombudsman serves graduate and undergraduate students at the university.

**Honors College**

Enterprise Hall, Room 302  
Phone: 703-993-1110

**Administration**

Zofia Burr, Dean

The Honors College focuses attention on the excellence of Mason's student body and highlights the full spectrum of opportunities for academic achievement, professional development, and public service that Mason offers our most highly-motivated undergraduates. The Honors College provides talented students in all majors with an enriched academic and social environment that enhances their college experience. Through participation in unique, innovative, and challenging programs, students develop their full potential to lead and be active members of their local, national, and global communities.

By incorporating multiple resources into the Honors College, the university provides students the support to excel academically and in their life-long pursuits. Included in these resources is the Honors Program curriculum, which offers challenging courses that fulfill core academic requirements at Mason. Senior faculty, including Mason’s Robinson Professors, teach small classes of students taking the curriculum. From among the candidates invited to be a part of the Honors College, a small cadre of outstanding students are selected as University Scholars, Mason’s highest academic distinction. The Undergraduate Apprenticeship Program provides a research stipend to selected students who wish to work closely on a research or creative project with a faculty mentor of their choosing. Additionally, all Honors College students have direct access to the Postgraduate Scholarships and Fellowships Program, which provides advice and information to high-achieving Mason undergraduates and recent alumni about the application process for nationally competitive fellowships.

The benefits of being part of the Honors College include the option of living in a diverse living-learning community. Activities include special lectures, events, and field trips on and off campus, as well as distinctive opportunities to take advantage of internships and cultural programs in Washington, D.C.
All students in the Honors College receive individualized academic advising, priority registration, and opportunities for close interaction with faculty for one-on-one mentoring and graduate and professional advising. The Honors College also offers competitive study abroad scholarships for students in their junior or senior years.

**University Scholars Community**

Honors College  
Enterprise Hall, Room 302  
Phone: 703-993-1110

**University Scholars Program**

The University Scholars are selected from among the most outstanding students invited to the Honors College. This award is the highest academic distinction that Mason offers to undergraduate students and is given annually to top high school seniors admitted to the university. Each year the University Scholars Program enrolls approximately 25 new first-year students. Students receiving this award have demonstrated superior academic achievement, outstanding leadership, and an exemplary school and community service record. Applications must be submitted by December 1 to receive priority consideration for the scholarship.

The University Scholars reside in a common residence hall their first year and share the Dr. Noreen McGuire Prettyman University Scholars Lounge. Students enrolled in the University Scholars Program participate in a dynamic learning community that provides opportunities for intellectual, cultural, and social engagements.

The program draws to Mason a special caliber of student, one who is actively involved in all facets of academic and student life. In addition to excelling in their respective academic areas, the scholars have historically emerged in a variety of student leadership positions and service-related activities.

Intellectual dialogue is fostered among scholars, professors, and administrators through stimulating seminars, discussion groups, cultural activities, service projects, internships, campus events, and participation in organizations that complement the scholars’ academic experiences. The peer interaction, faculty guidance, student development programming, and the academic focus of the University Scholars community reflect the university’s commitment to providing an educationally stimulating and supportive environment that encourages academic excellence, professional development, and personal growth.

**University Courses**

University (UNIV) courses are special undergraduate academic seminars that appeal to a wide range of majors. These courses fall into three general categories: transitional, interdisciplinary honors, and special topics. To encourage interaction between students and faculty, many of these courses have smaller class sizes. Some UNIV courses satisfy general education requirements; see the University General Education section of this catalog.

**University Transitions Courses**

This series of courses focuses on transition through the various stages of college. UNIV 100, helps freshmen adjust academically, develop decision-making skills, and learn about the services and opportunities for involvement on campus. UNIV 101, Freshman Academic Transition focuses on academic transition and development issues for second semester freshmen. A special emphasis is placed on resources and techniques to assist students with assessing and improving their academic performance. Students will work closely with their instructor to track their academic progress over the course of the semester. UNIV 200 topics focus on choosing a major or career. UNIV 300 has three tracks: the first is for transfer students making the transition to a new university, the second focuses on career readiness for internships and research assistantships, and the third is designed for specific groups of student leaders. UNIV 400 emphasizes preparation for the workplace, graduate school, and life responsibilities.

**University Interdisciplinary Honors Seminars**
These seminars are offered to students who have demonstrated strong academic performance. They are developed to give high-ability freshmen and advanced-standing students the opportunity to study with a senior professor in a small classroom setting. The Freshman Seminars (UNIV 190) are open to eligible first-year students and are taught exclusively by the Robinson professors. Qualified students with 30 or more credits are invited to participate in the UNIV 390 seminars, which are taught by Robinson professors and other distinguished faculty scholars.

University Special Topics Courses

Upper-level University courses are open to all students unless specific prerequisites are indicated. They are usually repeated offerings. Two regularly offered University courses, each worth 3 credits, are UNIV 301 Great Ideas in Science and UNIV 441 AIDS: Its Impact in Our Society.

Bachelor of Applied Science

Administration

Academic Director: Rick Davis, Associate Provost for Undergraduate Education
Administrative Program Director: Andrew Flagel, Dean of Admissions
Program Administrator: Darren Troxler, Director of Admissions Operations

The Applied Science, BAS is an undergraduate liberal arts degree program. It is designed primarily to deepen student knowledge in an academic area and foster critical thinking, analytic reasoning and an ability to synthesize information.

The BAS articulates well with specialized associate degree programs, providing a streamlined path to completion of traditional academic requirements leading to the baccalaureate degree. It meets students’ professional and personal goals while developing a depth of knowledge and proficiency of skill that translates well to the workplace. However, it is not organized in the same way as a traditional baccalaureate degree, and the student’s area of specialization will not be formally identified on the transcript. Students planning graduate study should consult with an academic advisor prior to undertaking this degree program.

International Programs and Resources

Mason Worldwide (International Degrees)
Web: worldwide.gmu.edu

The following academic programs have a strong focus on global issues and subjects:

- Anthropology, BA and Anthropology, MA
- Conflict Analysis and Resolution, BA, Conflict Analysis and Resolution, BS, Conflict Analysis and Resolution, MS, and Conflict Analysis and Resolution, PhD
- Geography, BA and Geography, BS
- Global Affairs, BA and Global Affairs, MA
- Global and Environmental Change, BS
- Government and International Politics, BA, with a concentration in international and comparative politics
- Latin American Studies, BA
- Russian and Eurasian Studies, BA
- Foreign Languages, BA, with concentrations in French and Spanish
- Curriculum and Instruction, MEd, with multiple concentrations areas: advanced teaching and learning, foreign language French and Spanish; teaching of English as a second language; foreign language: Arabic, Chinese, French, German, Japanese, Latin, Russian, Spanish; international education FAST TRAIN English as a second language; multilingual and multicultural education
- Foreign Languages, MA, with concentrations in French or Spanish, or in Spanish and bilingual-multicultural education
• Global Health, MS
• Art History, MA, with specializations in comparative world history and modern European history
• International Commerce and Policy, MA
• Political Science, MA, with specialization in international relations and comparative politics
• Peace Operations, MS (pending SCHEV approval) and New Professional Studies, MS, concentration in peace operations
• Public Administration, MPA with a concentration in international management
• **Minors:** Chinese Minor, Conflict Analysis and Resolution Minor, French Minor, German Minor, Global Affairs Minor, International/Comparative Studies Minor, Latin Minor, Russian Minor, and Spanish Minor
• The Global Proficiency certificate (non academic)
• **Graduate certificates:** Global Health Graduate Certificate Global Medical Policy Graduate Certificate; Global Trade Management Graduate Certificate; International Business Planning Graduate Certificate; International Governance and Institutions Graduate Certificate; International Market Analysis Graduate Certificate; Managing International Commerce Graduate Certificate; Science, Technology, and the Global Economy Graduate Certificate; Teaching English as a Second Language Graduate Certificate; World Religions, Diplomacy, and Conflict Resolution Graduate Certificate

**Center for Global Education: Study-Abroad Office**

Johnson Center, Room 235  
Phone: 703-993-2154  
Fax: 703-993-2153  
Web: globaled.gmu.edu  
E-mail: cge@gmu.edu

**Administration**

Dr. Yehuda Lukacs, Director

The Center for Global Education (CGE) offers students the opportunity to challenge their assumptions about themselves and other cultures in an educational environment by offering study-abroad programs of varying lengths, academic emphasis, and locations. Students can discover new cultures, sharpen language skills, and travel while earning credit. Study options include faculty-led, short-term study tours and intensive language programs; semester and year-long Mason-sponsored programs; direct exchange programs and international internship programs. Most programs are open to Mason undergraduate and graduate students and short-term programs are also open to faculty, staff, and the general public.

CGE offers a wealth of resources to help create a personalized international experience, including information sessions about study-abroad and internship options; one-on-one student advising; transfer of approved international program credits; a resource library of travel books; international and diplomatic community programming; advising to international students from partner schools; and International Student Identity Cards.

**English Language Institute**

Krug Hall, Room 202  
Phone: 703-993-3660  
Fax: 703-993-3664
The English Language Institute (ELI) provides instruction in English as a second language to develop students’ language and academic skills, as well as cultural awareness necessary for academic, personal, and professional success. ELI offers two programs: the Intensive English Program, which serves international students who have come to the United States to study English in preparation for academic study at an American college or university, and the Support Services Program, which provides programs for nonnative, English speaking students newly admitted to Mason and other international members of the campus community. ELI also provides contract services to private corporations, embassies, and government agencies.

Office of International Programs and Services

Phone: 703-993-2970
Web: oips.gmu.edu

Administration

Judith Green, MEd, Director

The Office of International Programs and Services (OIPS) advises and consults on matters affecting non-immigrant students, scholars, faculty, staff, and families at Mason. Staff members provide regulatory information related to non-immigrant status and have been designated by the university to issue and sign immigration documents and paperwork on behalf of the institution. OIPS advisors are available by appointment to discuss any concern and to provide practical assistance to students and scholars as they adjust to U.S. culture. OIPS conducts a comprehensive orientation program for new international students and offers social and cultural programming throughout the fall and spring semesters. Most notably, the staff works with student groups and the Student Activities Office to coordinate Mason’s International Week held annually in April.

International/Multicultural Student Organizations

Phone: 703-993-2909
E-mail: isu@gmu.edu

The International/Multicultural Student Organizations consist of a variety of international/multicultural student organizations that coordinate educational and social activities to promote cross-cultural understanding and international awareness.

International Student Association

Phone: 703-993-2970
E-mail: oips@gmu.edu

The International Student Association is a group of students from around the world who work together to assist newly arriving students and meet for fellowship and fun. Their goal is to make all students feel welcome and comfortable at George Mason University and to participate in activities with classmates of various cultures and backgrounds.

Office of Continuing Professional Education
Fairfax Campus
Krug Hall, Room 211
Phone: 703-993-2109
Web: ocpe.gmu.edu

Prince William Campus Professional Development Office
Phone: 703-993-8335

Herndon Office and Training Center, located at the Center for Innovative Technology
2214 Rock Hill Road
Herndon, VA 22070
Phone: 703-993-4800

Administration

Janet Niblock, Executive Director

The Office of Continuing Professional Education (OCPE) serves as Mason’s initial point of contact and referral for the business and professional community, and responds to all professional development and continuing education inquiries, requests, and needs. Supported program activities include contracted academic credit programs, noncredit public programs and seminars, online courses, professional certificate programs, continuing education units (CEUs), on-site contract training programs, special professional development events and programs, special workforce development programs, and training center facilities.

The OCPE is strategically located at the Fairfax Campus in Krug Hall, the Prince William Campus, and the Center for Innovative Technology (CIT) in Herndon. Current continuing education program information, offerings, and capabilities can be reviewed at ocpe.gmu.edu.

The Krug Hall office serves as the primary point of inquiry and referral. It facilitates, promotes, and administers the delivery of contract credit courses, online courses, and other specialized non-credit professional development programs. This office also administers the award of CEUs, which are nationally recognized standard units of measurement earned for satisfactory completion of qualified programs of continuing education. OCPE provides this service to all Mason academic groups that deliver noncredit professional development programs.

The Prince William Campus office facilitates a variety of open enrollment and contract programs (both noncredit and credit) that support the strengths of the programs on that campus. Programs are designed to meet the professional development needs of the business community of the Prince William area, as well as Northern Virginia local and state government communities.

The OCPE Herndon Office located in CIT in Northern Virginia’s high-technology corridor facilitates a variety of professional development programs targeted to the area’s business and federal government organizations. This office reaches out to the business community by designing, marketing, and delivering noncredit training courses and in-depth certificate programs. Public seminars and customized, contract training programs respond to the needs and interests of managerial, technical, and professional employees in private, nonprofit, and public organizations located in Northern Virginia and the broader metropolitan area.

Army ROTC
Phone: 703-993-2706
Fax: 703-993-2708

Administration

Lieutenant Colonel Sean Barnes, U.S. Army
Professor of Military Science
The Army Reserve Officers’ Training Corps (ROTC) is an elective program offering qualified students the opportunity to earn a commission as an officer in the U.S. Army, Army National Guard, or U.S. Army Reserve while pursuing a baccalaureate or graduate degree as a full-time student. The program emphasizes student learning and participation in applied leadership, leadership theory and assessment, decision making, management skills, time management, ethics and military law, logistics, military roles and national objectives, strategic and tactical planning and principles, and basic military knowledge and skills. The George Mason Army ROTC Patriot Battalion began in 1981, achieved independent status in 2000, and frequently conducts training with colleges and universities throughout Maryland, Virginia, and the District of Columbia.

**Enrollment**

Enrollment in Military Science (MLSC) courses is open to all students at the Basic Course Level. Freshmen (MLSC 100 and 101), sophomore (MLSC 200 and 201), and junior (MLSC 300 and 301) classes are awarded 1 credit each. Senior classes (MLSC 400 and 401) earn 3 credits each. Credit earned in military science courses counts toward degree completion as elective credit. No military service obligation is incurred by enrolling in the freshman and sophomore level Army ROTC courses. Courses can be dropped or added, as with any elective course at Mason.

The four-year program is organized into two successive phases: the Basic Course and the Advanced Course. For students seeking the opportunity to earn a commission as an officer, several entry methods and participation strategies can be used. A minimum of four semesters must remain in the student’s academic curriculum to complete commissioning requirements; these semesters may be part of either an undergraduate or graduate degree. Course descriptions appear under Military Science (MLSC) in the Course Descriptions chapter of this catalog. Cadets must meet established academic standards. A student must maintain an overall GPA of at least 2.00 to earn commission credit for ROTC.

Contracted and scholarship cadets of any level are required to pass an Army Physical Fitness Test (APFT) once each semester. Physical fitness training is conducted three times each week (Monday/Wednesday/Friday from 6:30 to 8 a.m.). All students are encouraged to attend in order to develop a lifelong commitment to fitness and health.

**Basic Course Curriculum**

The Basic Course curriculum is a four-course series (MLSC 100, 101, 200, 201), usually taken in the freshman and sophomore years. Each class awards 1 academic credit. The Basic Course trains students in the topics listed above, as well as in applied topics, including map reading, land navigation, first aid, physical fitness, leadership, ethics and communication skills. Each lecture class meets once a week for 50 minutes for MLSC 100/101 and 75 minutes for MLSC 200/201. Textbooks are provided free of charge to all enrolled students. Uniforms and equipment are also issued to students at no cost, but students must return them at the end of each semester.

Mason’s Army ROTC program has numerous experiential aspects. The MLSC Leadership Laboratory LAB 201 section encompasses several different activities. Students enrolling in any ROTC lecture class must enroll in the required, nongraded lab section. Only the Professor of Military Science can waive LAB 201 enrollment in certain circumstances, such as scheduling conflicts.

All LAB 201 sections meet as a combined unit on Thursdays from 1:30 to 4:15 p.m. During this time, Cadets train in a variety of hands-on, practical leadership skills and military tasks, ranging from drills and ceremonies to squad and platoon tactics.

Army ROTC also organizes numerous optional events, including rappelling, orienteering, and helicopter orientations. A battlefield visit is offered every year, and a formal military ball is held during the spring semester. The unit has an organized color guard, drill team and an intercollegiate Ranger Challenge competition team. Students also have the opportunity to attend official Army training courses such as basic airborne training and the air assault course. Enrolled students typically become progressively more involved to enhance their training, develop esprit de corps, and take part in social aspects of the program.

**Advanced Course Curriculum**
The Advanced Course consists of a four-course series (MLSC 300, 301, 400, 401) taken during the junior and senior years. MLSC 300 and 301 earn 1 credit each, while MLSC 400 and 401 earn 3 credits each. Enrollment in the ROTC advanced course requires that students enter into a contract to serve as a commissioned officer in the active or reserve component of the U.S. Army upon graduation. Most graduates elect to apply for service on active duty although ROTC also offers the opportunity of service in either the Army Reserve or Army National Guard to students so inclined.

The 300-level courses emphasize squad and platoon leadership, tactics, and preparation for the Leadership Development Assessment Course (LDAC). LDAC is a four-week training and evaluation event conducted during the summer at Fort Lewis, Washington. Successful completion is a prerequisite for commissioning. Cadets typically attend LDAC in the summer between their junior and senior years; however, they may attend after their senior year if necessary. Salary, travel expenses, and room and board are all provided during the course.

Satisfactory completion of an approved military history course is also required. The department of History and Art history offers a number of 300-level survey courses on the American military experience that satisfy this requirement. Permission of the Professor of Military Science is required prior to substituting any other course.

Upper division ROTC students are also expected to participate in peer mentoring as part of their leadership development. The ROTC peer mentorship program helps lower division students assimilate into the program and helps students prioritize their time to ensure they remain in good academic standing.

Enrollment in the two lower-level ROTC courses is open to any Mason student. Prerequisites exist for upper-level courses. For more information, see the Course Descriptions chapter of this catalog.

The 400-level courses are considered to be the transition phase to becoming an officer in the U.S. Army. These courses focus on leadership, staff operations, logistics, military law, and ethics. Seniors are expected to organize and attend an additional one-hour staff and training meeting per week as part of their leadership experience and duties. Planning and implementation of training becomes the primary focus for seniors in LAB 201.

**Earning a Commission**

There are several methods by which students may enter Army ROTC to earn a commission as a second lieutenant on graduation:

- Traditional students may complete the four-year program.
- Sophomores may dual-enroll in both years of MLSC freshman and sophomore level instruction to satisfy the lower-level division requirement in a single academic year.
- Veterans with prior college credits may enter directly into the upper-division sequence (if academically aligned as a junior).
- Sophomores may apply to attend a five-week Leadership Training Camp (LTC) between the sophomore and junior years to gain experience equivalent to the basic course.
- A special four-semester program is available to nursing majors in which LTC is not required.

Education delays for graduate study also may be approved for Cadets seeking training as physicians, lawyers or ministers. Non-U.S. citizens may participate freely in the lower-division ROTC courses, but must earn U.S. citizenship prior to enrollment in courses requiring a contractual obligation to serve as a commissioned officer.

**Scholarship Programs**

Two-, three-, and four-year ROTC scholarships are available to freshmen, sophomores, and juniors in all majors on a competitive basis as well as to graduating seniors who wish to pursue a two-year master's degree. Students must have a minimum cumulative GPA of 2.50 to apply and be under age 35 when commissioned. Scholarships pay 100 percent of tuition, an annual book allowance of $1,200, and a stipend of at least $300 per month during the school year, all tax free. There is no service obligation incurred when applying.
A two-year Guaranteed Reserve Forces Duty scholarship is available that guarantees reserve duty upon graduation and commissioning (no active duty tour). Students should contact the Professor of Military Science to determine eligibility.

High school students interested in four-year scholarships should apply by December 15 of their senior year for a scholarship that would start in the fall semester of their freshman year at Mason. Contact the Professor of Military Science for details.

Many students participate in ROTC as non scholarship cadets. A non scholarship cadet cannot enter into a contract to receive a commission until the sophomore year. For the sophomore, junior, and senior years, non scholarship contracted students receive a monthly stipend and book allowance for the school year.

**Air Force ROTC**

Two programs are available for college men and women to earn a commission as a second lieutenant in the U.S. Air Force while completing their university degree requirements. To enter, students should call 301-314-3242 or go to [www.afrotc.umd.edu](http://www.afrotc.umd.edu).

Mason students can register for the appropriate courses through the Consortium Office, but mandatory courses are held at the University of Maryland. Car pools among Mason students are usually available.

**Oak Ridge Associated Universities (ORAU)**

Phone: 865-576-3306
Web: [www.orau.org](http://www.orau.org)

**Administration**

Roger R. Stough, Vice President for Research and Economic Development; ORAU Councilor for George Mason University
Monnie E. Champion, ORAU Corporate Secretary

Since 1993, the students and faculty of George Mason University have benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 98 colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with member institutions to help their students and faculty gain access to federal research facilities throughout the country; keep its members informed about opportunities for fellowship, scholarship, and research appointments; and organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility operated by ORAU, undergraduates, graduates, postgraduates, and faculty members enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines, including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the number of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the [ORISE Catalog of Education and Training Programs](http://www.orau.gov/orise/educ.htm), which is available at [http://www.orau.gov/orise/educ.htm](http://www.orau.gov/orise/educ.htm), or by calling either of the contacts below.

ORAU’s Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU’s members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research, and support programs, as well as services to chief research officers.

**Mason Center for Conservation Studies (MCCS)**

Web: mccs.gmu.edu
Email: mccs@gmu.edu, smithsem@gmu.edu
Administration

R. Christian Jones, Director  
Anne Marchant, Associate Director  
Sylvia Vitazkova, Deputy Director

The Mason Center for Conservation Studies is an interdepartmental unit that supports interdisciplinary programs in conservation research and education. In collaboration with the Smithsonian Institution National Zoo's Conservation Biology Institute and the Center for Conservation Education and Sustainability, the center offers a Smithsonian-Mason Semester for undergraduates and a number of graduate and professional training courses. The faculty of the center come from the College of Humanities and Social Sciences, the College of Science, the Smithsonian Institution, and other institutions that support the center's mission.

The Smithsonian-Mason Semester for undergraduates takes place at the National Zoological Park’s Conservation Biology Institute in Front Royal, Virginia. This 3200-acre facility is one of the premier conservation research facilities in the world, housing innovative research on some of the rarest species on earth. Students live and learn with prominent research scientists, educators, and conservation practitioners. Grounded in natural science, this interdisciplinary semester brings public policy, sociology, conflict resolution, and global awareness to the learning environment. The Smithsonian-Mason Semester is a 16-credit program in which students can earn a minor in applied conservation studies. See the Programs of Study chapter of this catalog for details on the minor and the Courses chapter for details on the courses (select the course prefix CONS).

Center for Global Studies

Phone: 703-993-9430  
Web: cgs.gmu.edu

Administration

Peter Mandaville, Codirector and Associate Professor, Government and Politics  
Terrence Lyons, Codirector and Associate Professor, Conflict Analysis and Resolution

Dedicated to the promotion of multidisciplinary research on globalization, the Center for Global Studies coordinates outreach efforts in global affairs, facilitating access for external communities to the university’s full range of global expertise. Ongoing activities include hosting guest speakers and visiting scholars, an annual conference, electronic and paper publications, and an annual cycle of small grants to support faculty research. The center also manages multi-academic unit research projects and a number of regional and thematic working groups.

The Center for Real Estate Entrepreneurship

Phone: 703-993-9843  
Web: realestate.gmu.edu

Administration

Anthony B. Sanders, Executive Director and Professor

Pooling resources and expertise from the Volgenau School of Information Technology and Engineering, the School of Public Policy, and the School of Management, the Center for Real Estate Entrepreneurship is developing graduate, and certificate programs in real estate development that encompass the entire real estate development continuum from land use and environmental considerations to acquisition dynamics and construction management. Areas of emphasis currently being designed include land use and zoning, sustainable development, real estate finance, management of the development process, development company management, marketing and asset management, and entrepreneurship and leadership.
The Office of Research and Economic Development

The Office of Research and Economic Development has overall responsibility for the university’s research enterprise. Working in an atmosphere characterized by its commitment to cultivating innovation and generation of new knowledge for the benefit of our global society, Mason’s scholars conduct research in an array of disciplines and subjects. The Office works to foster the continuation of these endeavors and to promote an environment that sustains the highest standards of scholarship, health, and safety.

The Office establishes, under the advisement of the Research Council, and administers the policies governing the conduct of research at the university. It also oversees the management of Mason's research programs, assists investigators seeking external funding, and promotes interdisciplinary research. Additional information about Research Administration, the units managed by the Office, and the resources and policies supporting students and scholars conducting research throughout the university, go to research.gmu.edu.
Course Numbering

Undergraduate Course Numbering

Courses numbered 499 and below are undergraduate courses. Course numbers in the 100 series are customarily taken by freshmen, the 200 series by sophomores, the 300 series by juniors, and the 400 series by seniors.

Graduate Course Numbering

Graduate courses are divided into the following categories:

- 500–699: Open only to graduate students admitted to master’s or doctoral programs; other bachelor’s degree holders; and approved, advanced undergraduate students. Advanced undergraduate students who have secured the permission of the department offering the course may select from these courses to accumulate the hours necessary to complete an undergraduate degree. With the written permission of the dean of their college, they may take these courses for reserve graduate credit.
- 700–799: Open only to students admitted to graduate degree or certificate programs.
- 800–999: Primarily doctoral courses open only to students admitted to graduate degree programs. Degree programs may extend permission to enroll bachelor’s degree holders.

Courses with the following numbers are reserved for the uses designated:

- 600–609: Limited applicability, graduate-credit courses, normally intended for in-service professional development and not directly leading to a graduate degree. A limited number of credits from these courses may be applied to a graduate degree.
- 798: Master’s research
- 799: Master’s thesis
- 800: Studies for the doctor of philosophy in education program
- 998: Doctoral dissertation proposal
- 999: Doctoral dissertation research
- 790, 890: Supervised practicum
- 794, 894: Internship
- 796, 896: Directed reading and research courses for master’s and doctoral students
University General Education

Life, Liberty, and the Pursuit of Happiness: A Rationale for General Education at George Mason University

“Life, liberty, and the pursuit of happiness”—this ringing phrase from the Declaration of Independence makes a fine statement about the ideals of general education (or, as it is more classically called, liberal education) as we strive to articulate it at Mason. Let’s take the three parts of Thomas Jefferson’s affirmation of humanity’s “unalienable rights” and see how they apply to the goals of a general, or liberal, education.

Life. A liberal education prepares us for life’s unpredictable, fascinating journey. One sobering truth about formal learning is that no matter how many courses we take or degrees we earn, we can’t master every skill and possess every piece of knowledge that we need to succeed in a dynamic world. A liberal education proposes that the highest value of the college experience is the development of our ability to continue learning, adapting, creating, and responding to an ever-changing society and career environment. A liberal education turns out to be the most practical of all because it never goes out of date; the habits of mind it fosters help us to stay current with our careers and the life of our times.

Liberty. A liberal education takes its name from this part of Jefferson’s phrase; the root word for both the concept we so cherish and the education we practice is the Latin liber, “free.” This kind of education offers to increase our freedom—of thought and action, from prejudice and ignorance. It is the foundation stone of citizenship as Jefferson and his contemporaries envisioned that notion, a liberty built on rights, responsibilities, and respect for differences. A liberally educated person feels free to seek knowledge and wisdom from across the whole spectrum of human experience—free to challenge the assumptions of the past and also, after critical consideration, to accept them.

The pursuit of happiness. The liberal arts tradition provides tools for the pursuit of a happier, more fulfilled life. The definition of happiness is personal; for some, an appreciation of “the best that has been thought and said”—or composed, constructed, painted, danced, or acted—is a necessary condition for happiness. For others, it might be an understanding of the wonder of the natural universe, the ability of humans to create marvelous new inventions, or the complexities of the social fabric in an increasingly borderless world. For still others, it is a call to serve one’s community and world in large and small ways, acting for the betterment of humanity. For most, it is some combination of the above. No matter the specifics, a liberal education offers the joy of discovery and the satisfaction of engagement with the largest questions of our time—and all time.

At George Mason University, we have created several distinctive ways to experience the excitement and gain the value of liberal education: the University General Education Program, detailed in the following pages; the Cornerstones program in New Century College; and, for a small group of outstanding students, the Honors College. Though their approaches differ, as befits the creative spirit and diverse nature of our university, they are united in their commitment to the ideals of life, liberty, and the pursuit of happiness.
Category Goals and Requirements

Foundation Requirements

Foundation requirements help ensure that students master the tools and techniques necessary to succeed in college and throughout their lives and careers. These courses emphasize skills—in writing, speaking, and working with numbers and technology—that can be applied to any major field of study and career goal.

Written communication goal: Students develop the ability to use written communication as a means of discovering and expressing ideas and meanings: in short, employing writing as a way of thinking. Students begin this process at the fundamental level in English 101 (100 for ESL students) and build higher-level skills in English 302. Writing will be emphasized in many courses throughout a student’s career, and at least one course in every student’s major is designated “writing intensive.”

Required: English 101 (or 100), 302, and an approved writing-intensive course in the major.

Oral communication goal: Students develop the ability to use oral communication as a way of thinking and learning, as well as sharing ideas. Courses provide opportunities for students to express themselves in public or group settings, apply critical-thinking skills to public messages, and gain understanding of the cultural, psychological, political, and practical significance of communication, with a special emphasis on the role of communication in a free society.

Required: One approved course. Students will be expected to continue developing oral communication skills in additional general education courses as appropriate.

Quantitative reasoning goal: Students develop the ability to use and critically evaluate numerical information and create and critique logical arguments using quantitative reasoning. Courses are intended to give students the capability to reason quantitatively through the examination of important problems and ideas. Students must take a placement exam to determine their proficiency before attempting the mathematics courses that satisfy this requirement. Those who demonstrate basic proficiency must satisfy this requirement with MATH 106. Those who demonstrate a higher proficiency may choose from among an approved set of courses that develop quantitative reasoning.

Required: MATH 106, or if the student has achieved an appropriate placement score on quantitative skills, one of the following: MATH 108, 110, 111, 113, 115, or 125; or STAT 250. (Students are assumed to have achieved satisfactory completion of the high school math required for admission.)

Information technology goal: Almost no area of academic, professional, or personal life is untouched by the information technology revolution. Success in college and beyond requires computer and information literacies that are flexible enough to change with a changing IT environment and adaptable to new problems and tasks.

The purpose of the information technology requirement is to ensure that students achieve an essential understanding of information technology infrastructure encompassing systems and devices; learn to make the most of the Web and other network resources; protect their digital data and devices; take advantage of latest technologies; and become more sophisticated technology users and consumers.

Courses meeting the “IT only” requirement must address learning outcomes 1 and 2, and one additional outcome. Courses meeting “IT with Ethics component” must address outcomes 1, 2, 3, and 5. Courses meeting the only IT Ethics component must address outcomes 3 and 5.

1. Students will be able to use technology to locate, access, evaluate, and use information, and appropriately cite resources from digital/electronic media.

2. Students will understand the core IT concepts in a range of current and emerging technologies and learn to apply appropriate technologies to a range of tasks.

3. Students will understand many of the key ethical, legal and social issues related to information technology and how to interpret and comply with ethical principles, laws, regulations, and institutional policies.
4. Students will demonstrate the ability to communicate, create, and collaborate effectively using state-of-the-art information technologies in multiple modalities.

5. Students will understand the essential issues related to information security, how to take precautions and use techniques and tools to defend against computer crimes.

Required: One approved 3-credit course that meets all IT requirements, or completion of an appropriate combination of courses, proficiency exams, and modules.

**Core Requirements**

Core requirements help ensure that students become acquainted with the broad range of intellectual domains that contribute to a liberal education. By experiencing subject matter and ways of knowing in a variety of fields, students will be better able to synthesize new knowledge, respond to fresh challenges, and meet the demands of a complex world.

**Literature goal:** Courses aim to achieve a majority of the following learning outcomes: students will be able to read for comprehension, detail, and nuance; identify the specific literary qualities of language as employed in the texts they read; analyze the ways specific literary devices contribute to the meaning of a text; identify and evaluate the contribution of the social, political, historical, and cultural contexts in which a literary text is produced; and evaluate a critical argument in others' writing as well as one's own.

Required: One approved course.

**Arts goal:** Courses aim to achieve a majority of the following learning outcomes: students will be able to identify and analyze the formal elements of a particular art form using vocabulary appropriate to that form; demonstrate an understanding of the relationship between artistic technique and the expression of a work's underlying concept; analyze cultural productions using standards appropriate to the form and cultural context; analyze and interpret material or performance culture in its social, historical, and personal contexts; and engage in the artistic process, including conception, creation, and ongoing critical analysis.

Required: One approved course.

**Natural science goal:** Courses provide an understanding of natural science by addressing the critical approach of the scientific method, relation of theory and experiment, use of quantitative and qualitative information, and development and elaboration of major ideas in science.

Required: Two approved science courses. At least one course will include laboratory experience.

**Western civilization/world history goal:** Courses aim to achieve a majority of the following learning outcomes: students will be able to demonstrate familiarity with the major chronology of Western civilization or world history; demonstrate the ability to narrate and explain long-term changes and continuities in Western civilization or world history; identify, evaluate, and appropriately cite online and print resources; develop multiple historical literacies by analyzing primary sources of various kinds (texts, images, music) and using these sources as evidence to support interpretation of historical events; communicate effectively—through speech, writing, and use of digital media—their understanding of patterns, process, and themes in the history of Western civilization or the world.

Required: One approved course.

**Global understanding goal:** Courses aim to achieve a majority of the following learning outcomes: develop understanding of global patterns and processes and their interaction with society; demonstrate understanding of the interconnectedness, difference, and diversity of a global society; identify, evaluate and properly cite resources appropriate to the field, such as audio/visual/online/print materials, or artifacts; apply awareness of global issues to a consideration of individual or collective responsibilities within a global society; and devise analytical, practical, or creative responses to global problems or issues.

Required: One approved course.
Social and behavioral sciences goal: Courses aim to achieve a majority of the following learning outcomes: Demonstrate understanding of key concepts, terminology, principles or theories within the field; demonstrate understanding of methodological approaches appropriate to the field; identify, evaluate and properly cite resources appropriate to the field, such as audio/visual/online/print materials, or artifacts; explain how individuals, groups or institutions are influenced by contextual factors as appropriate to the field; and use appropriate methods to apply social and behavioral science concepts, terminology, principles, or theories to significant issues.

Required: One approved course.

Synthesis Requirement

Synthesis goal: The purpose of the synthesis course is to provide students with the opportunity to synthesize the knowledge, skills and values gained from the general education curriculum. Synthesis courses strive to expand students' ability to master new content, think critically, and develop life-long learning skills across the disciplines. While it is not feasible to design courses that cover "all" areas of general education, synthesis courses should function as a careful alignment of disciplinary goals with a range of general education learning outcomes.

A general education synthesis course must address outcomes 1 and 2, and at least one outcome under 3. Upon completing a synthesis course, students will be able to:

1. Communicate effectively in both oral and written forms, applying appropriate rhetorical standards (e.g., audience adaptation, language, argument, organization, evidence, etc.)
2. Connect issues in a given field to wider intellectual, community or societal concerns using perspectives from two or more disciplines
3. Apply critical thinking skills to:
   a. Evaluate the quality, credibility and limitations of an argument or a solution using appropriate evidence or resources, OR,
   b. Judge the quality or value of an idea, work, or principle based on appropriate analytics and standards

Required: One approved course.

Writing-Intensive Course Requirement

As part of the university’s commitment to student writers in all undergraduate programs, at least one upper-division course in each major has been designated as fulfilling the “writing intensive” (WI) requirement. While other courses in the major may require written projects, teachers of the designated WI courses will devote class time to instruction on how to complete assignments successfully, assign and grade a minimum of 3500 words, provide constructive feedback on drafts, and allow revision of at least one graded assignment. See the description of each major for the specific course or courses that fulfill the WI requirement.

Approved General Education Courses

The course list reflects approved courses as of press time. For the most current list, go to provost.gmu.edu/gened/approvedcourselisting.html.

Foundation Requirements

Written communication (6 credits: 3 lower, 3 upper)
• ENGL 100 - Composition for Non-native Speakers of English Credits: 4  
or  
• ENGL 101 - Composition Credits: 3  
or  
• ENGL 302 - Advanced Composition Credits: 3

Oral communication (3 credits)

• COMM 100 - Public Speaking Credits: 3  
or  
• COMM 101 - Interpersonal and Group Interaction Credits: 3

Information technology (IT, all)

• ANTH 395 - Work, Technology, and Society: An IT Perspective Credits: 3  
• CDS 130 - Computing for Scientists Credits: 3  
• CHEM 350 - Computer Techniques for Chemistry Credits: 3  
• CRIM 300 - Research Methods and Analysis Credits: 4  
• ENGR 117 - Information Technology for Engineering Credits: 3  
• GOVT 300 - Research Methods and Analysis Credits: 4  
• IT 103 - Introduction to Computing Credits: 3  
• MUSI 415 - Music in Computer Technology Credits: 3

Information technology (IT, all except ethics)

• AVT 180 - Computers in the Creative Arts Credits: 3  
• CS 112 - Introduction to Computer Programming Credits: 4  
• PHYS 251 - Introduction to Computer Techniques in Physics Credits: 3  

(these must be taken in sequence)  
• PSYC 300 - Statistics in Psychology Credits: 4  
• PSYC 301 - Research Methods in Psychology Credits: 3  
• PSYC 372 - Physiological Psychology Credits: 3  
• SOCI 410 - Social Surveys and Attitude and Opinion Measurements Credits: 3

Information technology (IT, Ethics)

• CDS 151 - Data Ethics in an Information Society Credits: 1  
• CS 105 - Computer Ethics and Society Credits: 1  
• ENGR 107 - Introduction to Engineering Credits: 2  
• ENGR 401 - Professional Practice and Management in Engineering Credits: 1  
• IT 304 - IT in the Global Economy Credits: 3  
• PHIL 112 - Ethics and the Cybersociety Credits: 1
Quantitative reasoning (3 credits)

- MATH 106 - Quantitative Reasoning Credits: 3
- MATH 108 - Introductory Calculus with Business Applications Credits: 3
- MATH 110 - Introductory Probability Credits: 3
- MATH 111 - Linear Mathematical Modeling Credits: 3
- MATH 113 - Analytic Geometry and Calculus I Credits: 4
- MATH 115 - Analytic Geometry and Calculus I (Honors) Credits: 4
- MATH 125 - Discrete Mathematics I Credits: 3
- STAT 250 - Introductory Statistics I Credits: 3

Core Requirements

Literature (3 credits)

- ARAB 325 - Major Arab Writers/Stories Credits: 3
- CHIN 310 - Survey of Chinese Literature Credits: 3
- CHIN 311 - Modern Chinese Literature in Translation Credits: 3
- CHIN 325 - Major Chinese Writers Credits: 3
- CHIN 328 - Asian American Women Writers Credits: 3
- CLAS 250 - Classical Mythology Credits: 3
- CLAS 260 - The Legacy of Greece and Rome Credits: 3
- CLAS 340 - Greek and Roman Epic Credits: 3
- CLAS 350 - Greek and Roman Tragedy Credits: 3
- CLAS 360 - Greek and Roman Comedy Credits: 3
- CLAS 380 - Greek and Roman Novels Credits: 3
- ENGL 201 - Reading and Writing about Texts Credits: 3
- ENGL 202 - Texts and Contexts Credits: 3
- ENGL 203 - Western Literary Tradition Credits: 3
- ENGL 204 - Western Literary Traditions Credits: 3
- FREN 325 - Major French Writers Credits: 3
- FREN 329 - Problems of Western Civilization in French Literature Credits: 3
- FRLN 330 - Topics in World Literature Credits: 3
- GERM 325 - Major Writers Credits: 3
- ITAL 325 - Major Italian Writers Credits: 3
- PHIL 253 - Philosophy and Literature Credits: 3
- RELI 235 - Religion and Literature Credits: 3
- RUSS 325 - Major Russian Writers Credits: 3
- RUSS 326 - A Survey of Russian Literature Credits: 3
- RUSS 327 - A Survey of Russian Literature Credits: 3
- SPAN 325 - Major Hispanic Writers Credits: 3

Arts (3 credits)
- ARTH 101 - Introduction to the Visual Arts Credits: 3
- ARTH 102 - Symbols and Stories in Art Credits: 3
- ARTH 103 - Introduction to Architecture Credits: 3
- ARTH 200 - Survey of Western Art Credits: 3
- ARTH 201 - Survey of Western Art Credits: 3
- ARTH 203 - Survey of Asian Art Credits: 3
- ARTH 204 - Survey of Latin American Art Credits: 3
- ARTH 321 - Greek Art and Archaeology Credits: 3
- ARTH 322 - Roman Art and Archaeology Credits: 3
- ARTH 324 - From Alexander the Great to Cleopatra: The Hellenistic World Credits: 3
- ARTH 333 - Early Christian and Byzantine Art Credits: 3
- ARTH 334 - Western Medieval Art Credits: 3
- ARTH 340 - Early Renaissance Art in Italy, 1300-1500 Credits: 3
- ARTH 341 - Northern Renaissance Art Credits: 3
- ARTH 342 - High Renaissance Art in Italy, 1480–1570 Credits: 3
- ARTH 344 - Baroque Art in Italy, France, and Spain, 1600–1750 Credits: 3
- ARTH 345 - Northern Baroque Art, 1600-1750 Credits: 3
- ARTH 360 - Nineteenth-Century European Art Credits: 3
- ARTH 362 - Twentieth-Century European Art Credits: 3
- ARTH 372 - Studies in 18th- and 19th-Century Art of the United States Credits: 3
- ARTH 373 - Studies in 20th-Century Art of the United States Credits: 3
- ARTH 376 - Twentieth-Century Latin American Art Credits: 3
- AVT 103 - Introduction to the Artist's Studio Credits: 3
- AVT 104 - Studio Fundamentals I Credits: 4
- AVT 215 - Typography Credits: 4
- AVT 222 - Drawing I Credits: 4
- AVT 232 - Painting I Credits: 4
- AVT 243 - Printmaking I Credits: 4
- AVT 252 - Fundamentals of Photography Credits: 4
- AVT 253 - Introduction to Digital Photography Credits: 4
- AVT 262 - Sculpture I Credits: 4
- AVT 272 - Interdisciplinary Arts Credits: 4
- DANC 101 - Dance Appreciation Credits: 3
- DANC 119 - Dance in Popular Culture: Afro-Latino Dance Credits: 3
- DANC 125 - Beginning Modern Dance Credits: 3
- DANC 131 - Beginning Jazz Technique Credits: 3
- DANC 145 - Beginning Ballet Credits: 3
- DANC 161 - Beginning Tap Dance Credits: 3
- DANC 225 - Beginning Intermediate Modern Dance Credits: 3
- DANC 231 - Intermediate Jazz Technique Credits: 3
- DANC 245 - Beginning Intermediate Ballet Credits: 3
- DANC 301 - What is Dance? Credits: 3
- DANC 390 - Dance History: Pre-Twentieth Century Credits: 3
- DANC 391 - Dance History: Twentieth Century Credits: 3
- ENGL 332 - Introduction to Film Credits: 3
- ENGL 396 - Introduction to Creative Writing Credits: 3
- MUSI 100 - Fundamentals of Music Credits: 3
• MUSI 101 - Introduction to Classical Music Credits: 3
• MUSI 102 - Popular Music in America Credits: 3
• MUSI 107 - The Development of Jazz Credits: 3
• MUSI 301 - Music in Motion Pictures Credits: 3
• MUSI 302 - American Musical Theater Credits: 3
• MUSI 380 - Wind Symphony Credits: 1
• MUSI 381 - University Chorale Credits: 1
• MUSI 382 - Piano Ensemble Credits: 1
• MUSI 383 - Symphonic Band Credits: 1
• MUSI 384 - Symphonic Chorus Credits: 1
• MUSI 385 - Chamber Singers Credits: 1
• MUSI 387 - Symphony Orchestra Credits: 1
• MUSI 389 - Jazz Ensemble Credits: 1
• MUSI 485 - Chamber Ensembles Credits: 1
• PHIL 156 - What Is Art? Credits: 3
• THR 101 - Theatrical Medium Credits: 3
• THR 150 - Drama, Stage, and Society I Credits: 3
• THR 151 - Drama, Stage, and Society II Credits: 3
• THR 210 - Acting I Credits: 3
• THR 230 - Introduction to Technical Theater Credits: 3
• THR 395 - Theater as the Life of the Mind Credits: 3

Western civilization/world history (3 credits)

• HIST 100 - History of Western Civilization Credits: 3
  or
• HIST 125 - Introduction to World History Credits: 3

Social and behavioral science (3 credits)

• AFAM 200 - Introduction to African American Studies Credits: 3
• ANTH 114 - Introduction to Cultural Anthropology Credits: 3
• ANTH 120 - Unearthing the Past: Prehistory, Culture and Evolution Credits: 3
• ANTH 135 - Becoming Human: Evolution, Cognition, and Culture Credits: 3
• ANTH 396 - Issues in Anthropology: Social Sciences Credits: 3
• CONF 101 - Conflict and Our World Credits: 3
• CONS 410 - Human Dimensions in Conservation Credits: 3
• CRIM 100 - Introduction to Criminal Justice Credits: 3
• ECON 100 - Economics for the Citizen Credits: 3
• ECON 103 - Contemporary Microeconomic Principles Credits: 3
• ECON 104 - Contemporary Macroeconomic Principles Credits: 3
• ECON 105 - Environmental Economics for the Citizen Credits: 3
• ECON 110 - Introduction to Economic Science Credits: 2
• ECON 111 - Laboratory Methods in Economics Credits: 1 (110 and 111 must be taken in sequence)
• EDUC 372 - Human Development, Learning, and Teaching Credits: 3
• GGS 103 - Human Geography Credits: 3
• GOVT 101 - Democratic Theory and Practice Credits: 3
• GOVT 103 - Introduction to American Government Credits: 3
• HEAL 230 - Introduction to Health Behavior Credits: 3
• HIST 121 - Formation of the American Republic Credits: 3
• HIST 122 - Development of Modern America Credits: 3
• LING 326 - General Linguistics Credits: 3
• PSYC 100 - Basic Concepts in Psychology Credits: 3
• PSYC 211 - Developmental Psychology Credits: 3
• PSYC 231 - Social Psychology Credits: 3
• SOCI 101 - Introductory Sociology Credits: 3
• SOM 100 - Business in American Society Credits: 3
• TOUR 311 - Women and Tourism Credits: 3
• WMST 200 - Introduction to Women and Gender Studies Credits: 3

Global understanding (3 credits)

• ANTH 302 - Peoples and Cultures of Latin America Credits: 3
• ANTH 304 - Peoples and Cultures of the Pacific Credits: 3
• ANTH 306 - Peoples and Cultures of Island Asia Credits: 3
• ANTH 307 - Ancient Mesoamerica Credits: 3
• ANTH 308 - Peoples and Cultures of the Middle East Credits: 3
• ANTH 309 - Peoples and Cultures of India Credits: 3
• ANTH 311 - Peoples and Cultures of Mainland Southeast Asia Credits: 3
• ANTH 312 - Political Anthropology Credits: 3
• ANTH 313 - Myth, Magic, and Mind Credits: 3
• ANTH 331 - Refugees Credits: 3
• ANTH 332 - Cross-cultural perspectives on globalization Credits: 3
• ANTH 385 - Gender, Class, and Ethnicity in Latin America Credits: 3
• ARTH 319 - Art and Archaeology of the Ancient Near East Credits: 3
• ARTH 320 - Art of the Islamic World Credits: 3
• ARTH 380 - African Art Credits: 3
• ARTH 382 - Arts of India Credits: 3
• ARTH 383 - Arts of Southeast Asia Credits: 3
• ARTH 384 - Arts of China Credits: 3
• ARTH 385 - Arts of Japan Credits: 3
• ARTH 386 - The Silk Road Credits: 3
• CEIE 100 - Environmental Engineering around the World Credits: 3
• COMM 305 - Foundations of Intercultural Communication Credits: 3
• COMM 456 - Comparative Mass Media Credits: 3
• CRIM 405 - Law and Justice around the World Credits: 3
• DANC 118 - World Dance Credits: 3
• DANC 318 - Global Perspectives: World Dance Forms Credits: 3
• ECON 360 - Economics of Developing Areas Credits: 3
• ECON 361 - Economic Development of Latin America Credits: 3
• ECON 362 - African Economic Development Credits: 3
• ECON 380 - Economies in Transition Credits: 3
• ECON 390 - International Economics Credits: 3
• ENGL 349 - Global Voices Credits: 3
• ENGL 350 - The Idea of a World Literature Credits: 3
• GCH 205 - International Health Credits: 3
• GGS 101 - Major World Regions Credits: 3
• GLOA 101 - Introduction to Global Affairs Credits: 3
• GOVT 132 - Introduction to International Politics Credits: 3
• GOVT 133 - Introduction to Comparative Politics Credits: 3
• HIST 130 - History of the Modern Global System Credits: 3
• HIST 251 - Survey of East Asian History Credits: 3
• HIST 252 - Survey of East Asian History Credits: 3
• HIST 261 - Survey of African History Credits: 3
• HIST 262 - Survey of African History Credits: 3
• HIST 271 - Survey of African History Credits: 3
• HIST 272 - Survey of Latin American History Credits: 3
• HIST 273 - Survey of African History Credits: 3
• HIST 274 - Survey of Latin American History Credits: 3
• HIST 281 - Survey of Middle Eastern Civilization Credits: 3
• HIST 282 - Survey of Middle Eastern Civilization Credits: 3
• HIST 283 - Survey of Middle Eastern Civilization Credits: 3
• HIST 284 - Survey of Middle Eastern Civilization Credits: 3
• HIST 328 - Rise of Russia Credits: 3
• HIST 329 - Modern Russia and the Soviet Union Credits: 3
• HIST 356 - Modern Japan Credits: 3
• HIST 358 - Post-1949 China Credits: 3
• HIST 360 - History of South Africa Credits: 3
• HIST 364 - Revolution and Radical Politics in Latin America Credits: 3
• HIST 365 - Conquest and Colonization in Latin America Credits: 3
• HIST 387 - Topics in Global History Credits: 3
• HIST 460 - Modern Iran Credits: 3
• HIST 462 - Women in Islamic Society Credits: 3
• JAPA 310 - Japanese Culture in a Global World Credits: 3
• MSOM 305 - Managing in a Global Economy Credits: 3
• MUSI 103 - Musics of the World Credits: 3
• MUSI 431 - Music History in Society III Credits: 3
• PSYC 379 - Applied Cross-Cultural Psychology Credits: 3
• RELI 100 - The Human Religious Experience Credits: 3
• RELI 211 - Religions of the West Credits: 3
• RELI 212 - Religions of Asia Credits: 3
• RELI 313 - Hinduism Credits: 3
• RELI 315 - Buddhism Credits: 3
• RELI 341 - Global Perspectives on Spirituality and Healing Credits: 3
• RELI 374 - Islamic Thought Credits: 3
• RUSS 354 - Contemporary Post-Soviet Life Credits: 3
• SOCI 120 - Globalization and Society Credits: 3
• SOCI 320 - Social Structure and Globalization Credits: 3
• SOCI 332 - Sociology of Urban Communities Credits: 3
• SPAN 322 - Introduction to Latin American Culture Credits: 3
• THR 359 - World Stages Credits: 3
• TOUR 210 - Global Understanding through Travel and Tourism Credits: 3
• WMST 100 - Representations of Women Credits: 3
Natural science (7 credits total)

Nonlab (3 credits):

- ASTR 103 - Astronomy Credits: 3
- ASTR 302 - Foundations of Cosmological Thought Credits: 3
- CDS 101 - Introduction to Computational and Data Sciences Credits: 3
- CHEM 101 - Introduction to Modern Chemistry Credits: 3
- CHEM 102 - Introduction to Organic, Biochemical, Pharmacological, and Fuel Chemistry Credits: 3
- CHEM 201 - Introductory Chemistry I Credits: 3
- CHEM 202 - Introductory Chemistry II Credits: 3
- CLIM 101 - Global Warming: Weather, Climate, and Society Credits: 3
- EVPP 201 - Environment and You: Issues for the Twenty-First Century Credits: 3
- GGS 102 - Physical Geography Credits: 3
- UNIV 301 - Great Ideas in Science Credits: 3

Lab (4 credits):

- ASTR 111 - Introductory Astronomy: The Solar System Credits: 3
- ASTR 112 - Introductory Astronomy Lab: The Solar System Credits: 1
- ASTR 113 - Introductory Astronomy: Stars, Galaxies, and the Universe Credits: 3
- ASTR 114 - Introductory Astronomy Lab: Stars, Galaxies, and the Universe Credits: 1
- BIOL 103 - Introductory Biology I Credits: 4
- BIOL 104 - Introductory Biology II Credits: 4
- BIOL 213 - Cell Structure and Function Credits: 4
- BIOL 303 - Animal Biology Credits: 4
- BIOL 304 - Plant Biology Credits: 4
- CHEM 103 - Chemical Science in a Modern Society Credits: 4
- CHEM 104 - Introduction to Organic, Biochemical, Pharmacological, and Fuel Chemistry Credits: 4
- CHEM 155 - Introduction to Environmental Chemistry I Credits: 4
- CHEM 156 - Introduction to Environmental Chemistry II Credits: 4
- CHEM 211 - General Chemistry Credits: 4
- CHEM 212 - General Chemistry Credits: 4
- CHEM 251 - General Chemistry for Engineers Credits: 4
- CLIM 111 - Introduction to the Fundamentals of Atmospheric Science Credits: 3
- CLIM 112 - Introduction to the Fundamentals of Atmospheric Science Lab Credits: 1
- EVPP 110 - The Ecosphere: An Introduction to Environmental Science I Credits: 4
- EVPP 111 - The Ecosphere: An Introduction to Environmental Science II Credits: 4
• GEOL 101 - Introductory Geology I Credits: 4
• GEOL 102 - Introductory Geology II Credits: 4
• GGS 121 - Dynamic Atmosphere and Hydrosphere Credits: 4
• PHYS 103 - Physics and Everyday Phenomena I Credits: 4
• PHYS 104 - Physics and Everyday Phenomena II Credits: 4

• PHYS 111 - Introduction to the Fundamentals of Atmospheric Science Credits: 3
and
• PHYS 112 - Introduction to the Fundamentals of Atmospheric Science Lab Credits: 1

• PHYS 160 - University Physics I Credits: 3
And
• PHYS 161 - University Physics I Laboratory Credits: 1

• PHYS 243 - College Physics Credits: 3
and
• PHYS 244 - College Physics Lab Credits: 1

• PHYS 245 - College Physics Credits: 3
and
• PHYS 246 - College Physics Lab Credits: 1

• PHYS 260 - University Physics II Credits: 3
and
• PHYS 261 - University Physics II Laboratory Credits: 1

• PHYS 262 - University Physics III Credits: 3
and
• PHYS 263 - University Physics III Laboratory Credits: 1

Synthesis requirement

• ANTH 400 - Engaging the World: Anthropological Perspectives Credits: 3
• ARTH 394 - The Museum Credits: 3
• AVT 497 - Senior Project Credits: 4
• AVT 498 - Senior Design Project Credits: 4
• BINF 354 - Foundations in Mathematical Biology Credits: 3
• BIOL 301 - Biology and Society Credits: 3
• BIS 490 - Senior Project Credits: 3
• CEIE 490 - Senior Design Project Credits: 3
• COMM 326 - Rhetoric of Social Movements and Political Controversy Credits: 3
• COMM 362 - Argument and Public Policy Credits: 3
• COMM 454 - Free Speech and Ethics Credits: 3
• CONF 490 - Integration Credits: 3
• CONS 490 - Integrated Conservation Strategies Credits: 3
• CRIM 303 - Experiencing the Criminal Justice System Credits: 3
• CS 306 - Synthesis of Ethics and Law for the Computing Professional Credits: 3
• DANC 490 - Senior Dance Seminar Credits: 3
• ECE 447 - Single-Chip Microcomputers Credits: 4
• ECE 492 - Senior Advanced Design Project I Credits: 1
• ECE 493 - Senior Advanced Design Project II Credits: 2
• ECON 309 - Economic Problems and Public Policies Credits: 3
• EDCI 490 - Student Teaching in Education Credits: 6
• ENGL 325 - Dimensions of Writing and Literature Credits: 6
• EVPP 335 - People, Plants, and Culture Credits: 3
• FAVS 352 - Ethics of Film and Video Credits: 3
• FRLN 385 - Multilingualism, Identity, and Power Credits: 3
• GEOL 420 - Earth Science and Policy Credits: 3
• GGS 303 - Conservation of Resources and Environment Credits: 3
• GGS 304 - Populations Dimensions of Global Change Credits: 3
• GOVT 490 - Synthesis Seminar Credits: 3
• GOVT 491 - Honors Seminar Credits: 3
• HHS 465 - Examination and Integration of Professional and Health Care Issues Credits: 3
• HIST 300 - Introduction to Historical Method Credits: 3
• HIST 499 - Senior Seminar in History Credits: 3
• IT 492 - Senior Design Project I Credits: 3
• LAS 499 - Research Seminar in Latin American Studies Credits: 3
• MATH 400 - History of Math Credits: 3
• MUSI 490 - Musical Communication in Context Credits: 3
• NCLC 308 - American Landscapes in Fiction, Film, and History Credits: 6
• PHIL 309 - Bioethics Credits: 3
• PHIL 343 - Issues in Environmental Ethics Credits: 3
• PHIL 377 - Darwin: Biology and Beyond Credits: 3
• PHIL 378 - Reason, Science and Faith in the Modern Age Credits: 3
• PSYC 405 - Madness, Mystery, and Mayhem Credits: 3
• RELI 490 - Comparative Study of Religions Credits: 3
• RUSS 353 - Russian Civilization Credits: 3
• SOCI 377 - Art and Society Credits: 3
• SOCI 483 - The Sociology of Higher Education Credits: 3
• SOCW 323 - Human Behavior in the Social Environment I Credits: 3
• SOM 498 - Capstone Course: Advanced Business Models Credits: 3
• SPAN 388 - Introduction to Latina/o Studies Credits: 3
• SYST 495 - Senior Design Project II Credits: 3
• THR 440 - Advanced Studies in Directing/Dramaturgy Credits: 3
• THR 496 - Text in Production Credits: 3
• UNIV 342 - The George Mason Debates in Current Affairs Credits: 3
• UNIV 442 - Krasnow Seminar Credits: 3

Total: 40 credits
Administration and Faculty

- Board of Visitors
- Administration
- Vice Presidents
- Deans and Directors
- Academic Affairs
- Enrollment Services
- University Libraries
- University Life

- Faculty
  - Faculty Emeriti
  - Instructional and Administrative Faculty 2010-11

Board of Visitors

Ernst Volgenau, Rector, PhD, University of California at Los Angeles; McLean, Va.
J. Knox Singleton, Vice Rector, BS, University of North Carolina; MHA, Duke University; Oakton, Va.
William Soza, Secretary, BBA, University of Texas, Austin; Annandale, Va.
Anne K. Altman, BS, George Mason University; Oakton, Va.
Terri Cofer Beirne, BA, JD, George Mason University; Richmond, Va.
Vincent F. Callahan Jr., BS, Foreign Service, Georgetown University; McLean, Va.
Kathleen de Laski, BA, Duke University; MA, Harvard University; Reston, Va.
C. Gibson Dunn, BA, University of Virginia; MD, Harvard Medical School; Great Falls, Va.
Dennis Garcia, BA, MA, George Washington University; Alexandria, Va.
Lovey Hammel, BS, Business Administration, George Mason University; Oakton, Va.
Carol Merchant Kirby, BA, University of West Florida; Washington, DC.
Glenn C. Lewis, BA, University of Miami; JD, George Mason University; Vienna, Va.
David W. Lieu, (student representative), graduate student in the College of Science, Herndon, Va.
Mark C. Lowham, MBA, Stanford University, McLean, VA.
Charlie H. Mills, BS, U.S. Naval Academy; Sterling, Va.
Edward J. Newberry, BA, BS, George Mason University; JD, Georgetown University; McLean, Va.
Long Nguyen, BS, North Carolina State University; MS, University of Virginia; PhD, Iowa State University; McLean, Va.
Peter M. Pober, (faculty representative), BA, University of Pennsylvania; MA, PhD, University of Texas, Austin; Fairfax, Va.
Gleason S. Rowe, (student representative), undergraduate student in the College of Humanities and Social Sciences; Wirtz, Va.

Administration

University President: Alan G. Merten, PhD
Chief of Staff: J. Thomas Hennessey Jr., PhD
Provost and Executive Vice President for Academic Affairs: Peter N. Steams, PhD

Vice Presidents

Senior Vice President: Maurice W. Scherrens, JD, EdD
Vice President for Facilities: Thomas G. Calhoun, BE, MS
Vice President for Information Technology: Joy R. Hughes, PhD
Vice President for Research and Economic Development: Roger Stough, PhD
Vice President for University Development and Alumni Affairs: Marc Broderick, BA
Vice President for University Life: Sandra Scherrens, EdD
Vice President for University Relations: Christine M. LaPaille, MA
President, GMU Foundation Inc.: David Roe, MBA
Deans and Directors

Director, Institute for Conflict Analysis and Resolution: Andrea Bartoli, PhD
Dean, College of Education and Human Development: Mark Ginsberg, PhD
Dean, College of Health and Human Services: Shirley Travis, PhD
Dean, College of Humanities and Social Sciences: Jack Censer, PhD
Dean, The Volgenau School of Information Technology and Engineering: Lloyd J. Griffiths, PhD
Director, Krasnow Institute for Advanced Study: James Olds, PhD
Dean, School of Law: Daniel Polsby, JD
Dean, School of Management: Jorge Haddock, PhD
Dean, School of Public Policy: Kingsley Haynes, PhD
Dean, College of Science: Vikas Chandhoke, PhD
Dean, College of Visual and Performing Arts: William F. Reeder, MM
Assistant to the President and Director of Office of Equity and Diversity Services: Corey Jackson, JD

Academic Affairs

Vice Provost for Academic Affairs: Linda A. Schwartzstein, JD, PhD
Associate Provost for Distance Education: Goodlet McDaniel, EdD
Associate Provost for Education Improvement and Innovation: Kimberly Eby, PhD
Associate Provost for Global Education: Yehuda Lukacs, PhD
Associate Provost for Graduate Education: Michelle Marks, PhD
Associate Provost for Institutional Effectiveness: Karen Gentemann, PhD
Associate Provost for Institutional Research and Reporting: Kris Smith, PhD
Acting Vice President for Global Strategies and Associate Provost for International Projects: Anne Schiller, PhD
Associate Provost for Undergraduate Education: Rick Davis, DFA
Assistant Provost for Academic Affairs: Claudia Rector, PhD
Assistant Provost for Enrollment Planning and Administration: Renate Guilford, MA

Enrollment Services

Associate Vice President for Enrollment Development and Dean of Admissions: Andrew Flagel, PhD
Assistant Dean and Executive Director of Admissions: Eddie Kent Tallent, BFA
Assistant Dean of Admissions: Daniel J. Robb, MBA, MS
Assistant Dean of Admissions: Carolina Figueroa, PhD
Director of Admissions Operations: Darren Troxler, MEd
University Registrar: Susan H. Jones, MS, MEd
Director of Student Financial Aid: Jevita deFreitas, BA

University Libraries

University Librarian: John Zenelis, MLS, MA

University Life

Vice President for University Life: Sandra Scherrens, EdD
Associate Vice President, University Life: Rose Pascarell, MA
Dean of Students and Assistant Vice President: Pam Patterson, MS
Assistant Vice President, University Life: Patricia Carretta, MA
Associate Dean, Office for Academic Integrity: Donna Fox, PhD
Associate Dean, University Life, International Affairs: Kathy Trump, MA
Associate Dean, University Life, Academic Initiatives: Mark Kidd, PhD
Associate Dean, University Life: Dennis Webster, PhD
Associate Dean, University Life: Amy Snyder, MEd
Assistant Dean, University Life at Prince William: Charvis Campbell, MA
Executive Director, Student Health Center: Gigi Abdalla, MD
Administrative Director, Student Health Services: Carol Filak, RN, MSN
Coordinator, Student Media for Literary Journals: Michele Braithwaite, MS
Director, Arlington Campus: Lori Cohen, MA
Director, Development and Community Relations: Colandra Coleman, BA
Director, Special Projects: Kara Danner, MS
Director, Orientation and Family Programs and Services: Vacant
Director, Student Activities: Lauren Long, MA
Director, Office of Disability Services: Christopher Moy, MS
Interim Director of Judicial Affairs: Hortense Rascoe, MA
Director of Leadership Education and Development: Juliet Blank-Godlove, MA
Interim Director, Alcohol, Drug, and Health Education: Mary Ann Sprouse, MSW, LCSW
Director, University Career Services: Janice Sutera, PhD
Director, Early Identification Program: Tensie Cadenas, MA
Director, Counseling and Psychological Services: Jeff Pollard, PhD, ABPP
Director, Diversity Programs and Services: Joya Crear, MA
Director, Sexual Assault Services: Connie Kirkland, MA
Director, Women and Gender Studies Center: Nancy Hanrahan, PhD
Director, International Programs and Services: Judith Green, MA
Director, English Language Institute: John Pope, MA
Faculty Coordinator, Student Media Group: Kathryn Mangus, MA

Faculty

Faculty Emeriti

Victorio G. Aguera, BST, MA, PhD, Professor Emeritus of Spanish
Rita Ailinger, BS, MS, MA, PhD, Professor Emerita of Nursing
John Allen, AB, MS, PhD, Associate Professor Emeritus of Psychology
Robert A. Anthony, BA, BA, JD, George Mason University Foundation Professor Emeritus of Law
Marjory Brown Azarowicz, BA, MA, PhD, Professor Emerita of Education
Anna Baraniecki, BS, MS, PhD, Associate Professor Emerita of Electrical and Computer Engineering
Ralph Barocas, BA, MS, PhD, Professor Emeritus of Psychology
Mary Catherine Bateson, BA, PhD, Professor Emerita of Anthropology and English
Richard Baumann, PhD, Associate Professor Emeritus of Computer Science
Guy O. Beale, BS, MS, PhD, Associate Professor Emeritus of Electrical and Computer Engineering
Barry K. Beyer, BA, MA, PhD, Professor Emeritus of Education
Peter Black, BA, MS, PhD, Professor Emeritus of Anthropology
W. Murray Black, BEE, MSEE, PhD, Professor Emeritus of Electrical and Computer Engineering
John Blaha, BS, MA, PhD, Associate Professor Emeritus of Psychology
A. Richard Bolstein, BA, MS, PhD, Associate Professor Emeritus of Statistics
C. Alan Boneau, BA, MA, PhD, Professor Emeritus of Psychology
John Bonfadini, BS, MEd, EdD, Associate Professor Emeritus of Education
Thomasina Borkman, BA, MA, PhD, Professor Emerita of Sociology
Beverly Boyd, MS, MNEd, Assistant Professor Emerita of Nursing
Ted Bradley, BS, MA, PhD, Professor Emeritus of Environmental Science and Policy
Rosemarie Brenkus, BS, MAEd, Assistant Dean Emerita of Nursing
Michael S. Bronzini, BS, MS, PhD, Dewberry Chair Professor Emeritus of Civil, Environmental, and Infrastructure Engineering
Brack Brown, AB, MA, PhD, Professor Emeritus of Public and International Affairs
Stephen J. Brown, BA, MA, PhD, Professor Emeritus of English
James Buchanan, BS, MA, PhD, Distinguished Professor Emeritus of Economics
Frieda R. Butler, BSN, MPH, PhD, Professor Emerita of Nursing and Global and Community Health
Mary Kay Cabell, BA, MA, PhD, Associate Professor Emerita of Mathematical Sciences
Le Cao, BS, MBA, DBA, Associate Professor Emerita of Accounting
Rita Carty, BSN, MSN, DNSc, Dean Emerita, College of Nursing and Health Science
Ernest Cassara, AB, BD, PhD, Professor Emeritus of History
Peter Ceperly, BA, MS, PhD, Professor Emeritus of Physics
Arthur H. Chickering, AB, AMT, PhD, Professor Emeritus of Education
Jae W. Chung, BC, MC, MA, PhD, Professor Emeritus of Economics
Robert Purdue Clark, BA, MA, PhD, Professor Emeritus of Public and International Affairs
Martin B. Cohen, BA, MA, PhD, Assistant Professor Emeritus of History
Virginia Collier, BA, MA, PhD, Professor Emerita of Education
John Henry Cooper, BA, MA, DPE, Chair Emeritus of Health, Sport, and Leisure Studies
Anne Cordero, MA, PhD, Associate Professor Emerita of French
Edward Clark Dobson, BME, MS, PhD, Associate Professor Emeritus of Education
Jean-Paul Dumont, Licence es Lettres, PhD, Clarence J. Robinson Professor Emeritus
Dennis R. Dunklee, BME, MEd, PhD, Associate Professor Emeritus of Educational Leadership
Mary Ann Dzama, BA, MEd, DEd, Associate Professor Emerita of Education
Stephen Early, BA, MA, PhD, Professor Emeritus of Government and Politics
Albert W. Edgemon, BAE, MA, EdD, Professor Emeritus of Education
Esther Elstun, BA, MA, PhD, Professor Emerita of German
Michael G. Emsley, BS, ARCS, PhD, Professor Emeritus of Biology
Carol J. Erdwins, BA, PhD, Associate Professor Emerita of Psychology
Carl Ernst, BS, MEd, PhD, Professor Emeritus of Environmental Science and Policy
John Evans, BS, MS, PhD, Professor Emeritus of Astronomy
Sheila fiolliot, AB, PhD, Professor Emerita of History and Art History
Edwin A. Fleishman, BS, MA, PhD, DSc (Honorary), Professor Emeritus of Psychology
James Fletcher, BA, MA, PhD, Professor Emeritus of Philosophy
Joel Foreman, BA, MA, PhD, Associate Professor Emeritus of English
Martha P. Francescato, BA, MA, PhD, Professor Emerita of Spanish
Arnald D. Gabriel, BS, MS, DMus (Honorary), Professor Emeritus of Music
Helen S. Garson, BA, MA, PhD, Professor Emerita of English
Theodore Lee Gessner, BS, MA, PhD, Associate Professor Emeritus of Psychology
Martha M. Giles, BMEd, MMEd, DMEd, Associate Professor Emerita of Music
Robert L. Gilstrap, BS, MEd, EdD, Professor Emeritus of Education
Barbara Knight Given, BS, MEd, PhD, Associate Professor Emerita of Education
Louis Golomb, BS, MA, PhD, Associate Professor Emeritus of Anthropology
Thomas Goodale, AAS, BS, MS, PhD, Professor Emeritus of Health, Fitness, and Recreation Resources
Harold Gortner, AB, MPA, MA, PhD, Professor Emeritus of Public and International Affairs
Vernon Gras, PhD, Professor Emeritus of English
Thomas Gulledge, BS, MA, PhD, Professor Emeritus in Public Policy
Henry Hamburger, PhD, Professor Emeritus of Computer Science
Joseph Harsh, BA, MA, PhD, Associate Professor Emeritus of History
Jayne Hart, BA, MS, PhD, Professor Emerita of Biology
Nand Hart-Nibbrig, AB, MA, PhD, Associate Professor Emeritus of Government and Politics
Kenneth H. Heller, BSBA, MA, PhD, Professor Emeritus of Accounting
Peter Henriques, BA, BD, PhD, Associate Professor Emeritus of History
Thomas H. Hill, BM, MM, DMA, Professor Emeritus of Music
Robert Holt, BA, MA, PhD, Associate Professor Emeritus of Psychology
Lois Horton, BA, MA, PhD, Professor Emerita of History
Lorna Irvine, BA, MA, PhD, Professor Emerita of English
Jenefir Isbister, Professor Emerita of Molecular and Microbiology
Evelyn Jacob, BA, PhD, Professor Emerita of Education
Helen Jenkins, MSN, PhD, Professor Emerita of Nursing
Ronald Jensen, BA, MA, PhD, Associate Professor Emeritus of History
George W. Johnson, BA, MA, PhD, President Emeritus, Professor Emeritus of English
Hazel W. Johnson-Brown, BS, MS, PhD, Professor Emerita of Nursing
Joseph Kanyan, BS, MM, DMA, Associate Professor Emeritus of Music
Don E. Kash, BA, MA, PhD, Emeritus Professor of Public Policy
Irving Kayton, BA, JD, LLM, JSD, Professor Emeritus of Law
Donald Preston Kelso, BS, MS, PhD, Professor Emeritus of Environmental Science and Policy
Jerome Kernan, BA, MS, PhD, Professor Emeritus of Behavioral Analysis
Emelia-Louise Kilby, BS, MA, PhD, Professor Emerita of Health and Physical Education
Peter Klappert, AB, MA, MFA, Professor Emeritus of English
Barbara Knight, BA, MA, PhD, Associate Professor Emerita of Public and International Affairs
Christena Langley, BSN, MPH, PhD, Associate Professor Emerita of Nursing
Thelma Z. Lavine, AB, AM, PhD, Professor Emerita of Philosophy and American Culture
Elyse Lehman, BA, MA, PhD, Professor Emerita of Psychology
Raymond G. LePage, BA, MA, PhD, Associate Professor Emeritus of French
Jack Levy, BA, MA, PhD, Professor Emeritus of Education
Sara Looney, BA, MA, PhD, Associate Professor Emerita of Communication
Catherine Malloy, BSN, MPH, DrPH, Professor Emerita of Health, Fitness, and Recreation Resources
Bruce Manchester, BS, MA, PhD, Professor Emeritus of Communication
Henry G. Manne, BA, JD, JSP, LLD, LLD, Dean Emeritus of the School of Law
William R. Martin, BA, MA, PhD, Professor Emeritus of Education
Michael J. McDermott, AB, PhD, Associate Professor Emeritus of Philosophy and Religious Studies and Registrar Emeritus
Gustavo Mellander, AB, MA, PhD, DHL, Dean Emeritus of the Graduate School of Education
Barbara Melosh, BA, MA, PhD, Professor Emerita of English
Henry P. Meyer, BA, MA, PhD, Associate Professor Emeritus of French
Eugenie V. Mielczarek, BS, MS, PhD, Professor Emerita of Physics
Christopher Mitchell, BSc, PhD, Professor Emeritus of Conflict Analysis and Resolution
Mary S. Montebello, BS, MS, PhD, Professor Emeritus of Conflict Analysis and Resolution
Winston Moore, JD, Associate Dean Emeritus of the School of Law
Collin Owens, BA, MA, PhD, Professor Emeritus of English
James D. Palmer, BS, MSEE, PhD, Professor Emeritus of Information Technology and Engineering
Anthony F. Palmieri, BA, MA, PhD, Associate Professor Emeritus of English
Samuel H. Phillips Jr., BA, MA, PhD, Professor Emeritus of Economics
Conrad Philos, Professor Emeritus of Law
John Barnet Radner, AB, BA, PhD, Associate Professor Emeritus of English
Coleman Raphael, BCE, MCE, PhD, Dean Emeritus School of Business Administration
Georgine Redmond, BSN, MN, EdD, Associate Professor Emerita of Nursing
David Rine, BS, MS, PhD, Professor Emeritus of Computer Science
Paulette Royt, BS, MD, PhD, Professor Emerita of Biology
Robert Rugel, BA, PhD, Associate Professor Emeritus of Psychology
Robert O. Ruhling, BS, MA, PhD, FACSM, Professor Emeritus of Physical Education
Mian M. Saeed, BA, MA, PhD, Professor Emeritus of History
Andrew P. Sage, BSEE, SMEE, PhD, DENGR, Founding Dean Emeritus, The Volgenau School of Information Technology and Engineering
Ben F. Sands Jr., MBA, DBA, Associate Professor Emeritus of Management
David H. Schaefer, BS, Associate Professor Emeritus of Electrical and Computer Engineering
Betty J. Schuchman, BS, MS, EdD, Associate Professor Emerita of Education
Carol J. Sears, BS, MS, PhD, Associate Professor Emerita of Education
Jay Shaffer, BS, PhD, Professor Emeritus of Biology
Mary Silva, BS, MS, PhD, Professor Emerita of Nursing
Judith Skog, BS, MS, PhD, Professor Emerita of Environmental Science and Policy
Shannon Skousgaard, BA, MA, PhD, Associate Professor Emerita of Philosophy
James G. Smith, BM, MM, DMA, Professor Emeritus of Music
Kitty Parker Smith, BSN, MSN, Associate Professor Emerita of Nursing and Health Services
Vernon L. Smith, BSEE, MA, PhD, University Professor Emeritus
William P. Snively, BA, MA, PhD, Professor Emeritus of Economics
John P. Soder, BA, MA, PhD, Associate Professor Emeritus of History
Jeanne Sorrel, Professor Emerita of Nursing
Mark Spikell, BA, MEd, EdD, Professor Emeritus of Education
Frank Spindler, Professor Emeritus of History
Melissa Stanley, BS, MA, PhD, Professor Emerita of Biology
Eileen Sypher, AB, PhD, Professor Emeritus of English
Daniel Tabak, BSEE, MS, PhD, Professor Emeritus of Electrical and Computer Engineering
Stephen R. Taub, AB, PhD, Professor Emeritus of Biology
Nicholas Tavani, Associate Professor Emeritus of Sociology and Anthropology
Anita Taylor, BS, MS, PhD, Professor Emerita of Communication
Wayne Thomas, BA, MEd, PhD, Professor Emeritus of Education
Gordon Tullock, PhD, JD, Professor Emeritus of Law and Economics
Zita Tyer, PhD, Professor Emerita of Psychology
James D. Vail, BSN, MSN, PhD, University Professor Emeritus
Harry Van Trees, BSc, MS, ScD, University Professor Emeritus of Electrical Engineering
Karen Vaughn, BA, MA, PhD, Professor Emerita of Economics
Irmgard Wagner, MA, PhD, Professor Emerita of German
Dorothy J. Walker, BSNE, MSNE, PhD, JD, Professor Emerita of Nursing
Gerald Wallace, BS, MEd, EdD, Professor Emeritus of Education
C. Robert Walter Jr., BA, PhD, Professor Emeritus of Chemistry
Keith Q. Warner, D.de l'U Professor Emeritus of French
Lenore J. Weitzman, BS, PhD, Clarence J. Robinson Professor of Sociology and Law Emerita
Inge Wekerle, BA, AM, PhD, Assistant Professor Emerita of German
Louise White, PhD, Professor Emerita of Public and International Affairs
Roger W. Wilkins, AB, LLB, Clarence J. Robinson Professor Emeritus
William Scott Willis, BA, MA, PhD, Professor Emeritus of French
Chien-Yun Wu, Associate Professor Emerita of Nursing
Norman A. Yance, BS, BD, ThM, MAPHil, PhD, Associate Professor Emeritus of Religious Studies
George A. Zaphiriou, Professor Emeritus of Law

Instructional and Administrative Faculty 2010 - 11

The faculty list reflects appointments as of February 2010.

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

A

Abdalla, Wagida, Physician and Executive Director, Student Health Services. MD 1972, Alexandria University, Egypt; Diplomate of the American Board of Pediatrics, 1982.

Abramson, Alan J., Professor, Department of Public and International Affairs. BA 1976, Wesleyan University; MA 1977, MPhil 1979, PhD 1990, Yale University.

Acs, Zoltan J., University Professor of Public Policy and Director, Center for Entrepreneurship and Public Policy. BA 1972, Cleveland State University; MA 1974, PhD 1980, The New School.

Addleson, Mark S., Associate Professor, School of Public Policy. BA 1972, 1973, Rhodes University; MA 1980, University of Natal, Pietermaritzburg; PhD 1992, University of Witwatersrand.

Agnarsson, Geir, Associate Professor of Mathematical Sciences. BS 1990, University of Iceland; PhD 1996, University of California, Berkeley.

Agouris, Peggy, Chair and Professor of Geography and Geoinformation Systems. Diretor, Center for Earth Observing and Space Research. Dipl Eng 1986, National Technical University of Athens, Greece; MS 1988, PhD 1992, Ohio State University.

Ahn, Changwoo, Associate Professor, Environmental Science and Policy. BS 1992, MS 1996, Seoul National University; PhD 2001, Ohio State University.

Aksoy, Pelin A., Assistant Professor of Applied Information Technology. BS 1994, MS 1997, Ankara University, Turkey; PhD 2005, George Mason University.

Albanese, Denise, Associate Professor of English. BA 1978, New York University; PhD 1987, Stanford University.

Alberts, David S., Research Associate Professor, Electrical and Computer Engineering. BBA 1964, City College of New York; MS 1966, PhD 1969, University of Pennsylvania.

Aldrich, Margaret, Associate Registrar for Distributed Campuses. BS 1970, University of Vermont; MEd 1996, George Mason University.

Allbeck, Jan M., Assistant Professor of Computer Science. BS 1995, Bloomsburg University; MS 1997, PhD 2009, University of Pennsylvania.

Allen, Melissa, Core Faculty Member, English Language Institute. BA 1975, MA 1979, San Francisco State University.

Allen, Pamela A., Assistant Dean of Academic and Career Services, School of Management. BS 1972, University of Illinois; MA 1988, Hunter College, City University of New York.

Alligood, Kathleen T., Associate Dean, Honors College. BA 1970, George Washington University; MS 1974, PhD 1979, University of Maryland.

Allnutt, Jeremy E., Professor, Electrical and Computer Engineering. BSc 1966, PhD 1970, Salford University.

Almond, Sonya, Term Instructor of Nursing. BSN 2001, Norfolk State University; MSN 2006, George Mason University.

Al-Ubaydli, Omar, Assistant Professor of Economics. BA 2001, MA 2003, PhD 2007, University of Chicago.

Ambegaonkar, Jatin, Assistant Professor of Athletic Training. BS 1998, T. N. Medical College, India; MS 2003, Springfield College; PhD 2006, University of North Carolina, Greensboro.

Amireh, Amal, Associate Professor, English. BA 1983, Birzeit University, Palestine; MA 1987, PhD 1997, Boston University.

Ammann, Paul E., Associate Professor, Computer Science. AB 1983, Dartmouth College; MS 1985, PhD 1988, University of Virginia.

Anacker, Katrin B., Assistant Professor of Public Policy, School of Public Policy. MA 1999, MCRP 1999, PhD 2006, Ohio State University.
Anderson, Daniel M., Associate Professor of Mathematical Sciences. BA 1989, St. Olaf College; PhD 1993, Northwestern University.

Anderson, David S., Professor of Education. BS 1971, Duke University; MA 1973, Ohio State University; PhD 1983, Virginia Polytechnic Institute and State University.

Anderson, Dawn, Associate Registrar for Operations. BBA 1994, Marymount University.

Anderson, Heather, Academic Affairs Coordinator, Honors College. BA 2000, Portland State University; BFA 2004, University of Nevada - Reno; MFA 2007, University of Idaho.

Anderson, LeKesha N., Instructor, Department of Communication. BS, University of Virginia’s College, Wise; MA 2004, East Tennessee State University.

Andronikov, Sergei, Director of Russian Initiatives and Russian Coordinator, Office of the Provost. MSc 1980, Moscow State University; PhD 1988, Russian Academy of Sciences.

Antrim, James, Facilities Manager, College of Visual and Performing Arts. BFA 1976, University of Wisconsin; MA 1978, University of Minnesota.

Appleton, Betsy, Electronic Resources Librarian. BA 2005, Gustavus Adolphus College; MLS 2007, University of North Carolina, Chapel Hill.

Arabandi, Bhavani, Instructor, Sociology. MSW 1995, Tata Institute of Social Sciences; MA 2000, George Mason University.

Araujo, Robyn P., Research Associate, Center for Applied Proteomics, Molecular Medicine. BEng 1997, University of Southern Queensland; PhD 2003, Queensland University of Technology, Australia.

Arciszewski, Tomasz, Professor, Civil, Environmental, and Infrastructure Engineering. BSc 1970, MSc 1970, PhD 1975, Warsaw University of Technology.

Armor, David J., Professor, School of Public Policy. BA 1961, University of California, Berkeley; PhD 1966, Harvard University.

Ascoli, Giorgio A., University Professor, Department of Molecular Neuroscience; Director, Center for Neural Informatics, Structures, and Plasticity. BS 1991, Scuola Normale Superiore, Italy; MS 1993, Pisa University, Italy; PhD 1996, Scuola Normale Superiore.

Ashcraft, Thomas D., Associate Director and Associate Professor, Art and Visual Technology. BA 1978, University of South Florida; MFA 1982, Indiana University.

Atkins, David C., Director, Johnson Center and Student Union Operations. BS 1990, MA 1998, George Mason University.

Atkinson, Jennifer H., Associate Professor, English. BA 1978, Wesleyan University; MFA 1984, MA 1985, University of Iowa.

Auerswald, Philip E., Associate Professor, School of Public Policy. BA 1988, Yale University; MA 1995, PhD 1999, University of Washington.

Austin, Clayton, Chair, Department of Theater; Associate Professor of Theater. BA 1973, Brandeis University; MFA 1986, Yale School of Drama.
**Avruch, Kevin Andrew**, Henry Hart Rice Professor of Conflict Resolution and Anthropology. BA 1972, University of Chicago; MA 1973, PhD 1978, University of California, San Diego.

**Axtell, Robert**, Associate Professor, Department of Computational Social Science, Krasnow Institute for Advanced Study. BS 1983, University of Detroit; PhD 1992, Carnegie Mellon University.

**Aydin, Cemil**, Associate Professor, History and Art History. BA 1991, Boğaziçi University, Istanbul; MA 1997, The University of Tokyo; 2002 PhD, Harvard University.

**Baghi, Heibatollah**, Associate Professor of Global and Community Health. BA 1974, University of Isfahan; MS 1976, PhD 1980, Iowa State University; PhD 1988, Florida State University.

**Bai, Chunhong**, Assistant Research Associate, Life Science. BS 1987, Peking University; MS 2004, State University of New York, Albany.

**Bailey, Charles**, Distinguished Professor of Biology. BS 1965, MS 1966, PhD 1968, Oklahoma State University.

**Baily, Supriya**, Assistant Professor of Education, College of Education and Human Development. BA 1995, University of Nevada, Reno; MA 1997, George Washington University; PhD 2008, George Mason University.

**Baker, Ann C.**, Associate Professor and Director, Organization Development and Knowledge Management, School of Public Policy. BS 1966, College of Charleston; MPA 1975, University of Tennessee; PhD 1995, Case Western Reserve University.

**Baker, Max A.**, Executive Director of the Patriot Club. BS 1995, Virginia Polytechnical Institute and State University.

**Baker, Pamela H.**, Assistant Professor of Special Education. BS 1984, MEd 1987, College of William and Mary; EdD 2002, Bowling Green State University.

**Bakhash, Shaul**, Robinson Professor of History; BA 1959, MA 1968, Harvard University; PhD 1972, Oxford University.

**Balakerskaia, Anna**, Term Professor of Music. MM 1969, DMA 1974, St. Petersburg State Conservatory, Russia.

**Baldwin, Carryl L.**, Assistant Professor of Psychology. BA 1987, University of Nebraska, Lincoln; MA 1994, PhD 1997 University of South Dakota.

**Balestra, Alejandra**, Term Assistant Professor, Modern and Classical Languages. BA 1992, University of Buenos Aires, Argentina; MA 1999, PhD 2002, University of Houston.

**Balint, Peter John**, Associate Professor of Environmental Policy and Government and Politics. BA 1971, Haverford College; MA 1972, State University of New York, Albany; MS 1998, PhD 2000, University of Maryland.

**Bannan-Ritland, Brenda**, Associate Professor of Education. BS 1986, Millersville University; MS 1991, Bloomsburg University; PhD 1996, Pennsylvania State University.

**Banville, Dominique**, Associate Professor of Physical Education. BPE 1990, MSc 1994, PhD 1998, Laval University, Canada.

**Baranova, Anna**, Associate Professor of Biology. MS 1995, PhD 1998, Moscow State University; DSci 2004, Vavilov Institute of General Genetics, Russian Academy of Sciences.

Barcher, Peter, Associate Dean, College of Education and Human Development. BA 1968, MA 1972, PhD 1973, Syracuse University.

Barna, Adrienne M., Associate Director, Counseling and Psychological Services. AB 1970, Drew University; MEd 1972, Rutgers University; MA 1976, PhD 1980, University of Maryland.

Barnes, Steven, Assistant Professor, History and Art History. BA 1993, Harvard University; MA 1997, PhD 2003, Stanford University.

Barnhart, Melinda N., Executive Director, Finance and Administration, The Volgenau School of Information Technology and Engineering. BA 1973, Miami University; MEd 1992, George Mason University.

Barreto, Ernest, Associate Professor, Physics and Astronomy. BS 1990, University of Chicago; MS 1995, PhD 1996, University of Maryland.

Bartoli, Andrea, Director, Institute for Conflict Analysis and Resolution; Drucie French Cumbie Professor of Conflict Analysis and Resolution. Laurea 1980, University of Rome; Dottorato di Ricerca 1994, University of Milan.

Baruzzi, Andrea, Biology, Psychology, Environmental Sciences & Policy Liaison Librarian. BA, University of North Carolina, Greensboro; MLIS, Drexel University.

Battaglia, Marjorie M., Assistant Term Professor of Psychology, BS D'Youville College; MBA Marymount University; PhD 2002, Virginia Polytechnic Institute and State University.

Bauer, Colleen, Associate Registrar. BS 1982, Indiana State University.

Bauer, Scott, Associate Professor, Education Leadership. BS 1981, MS 1983, PhD 1996, Cornell University.

Baum, Evan S., Assistant Dean for Academic Programs, College of Humanities and Social Sciences. BA 2003, University of Richmond; MA 2005, University of Maryland, College Park.

Baylor, David M., Audience Services Manager, College of Visual and Performing Arts. BA 1989, George Mason University.

Beach, David R., Term Instructor, English. BA 1993, Marymount University; MA 1995, George Mason University.

Beach, Sheryll L., Associate Professor and Associate Chair, Geography and Geoinformation Science. BA 1982, California State University; MA 1984, PhD 1990, University of Minnesota.

Beard, Jon, Associate Professor of Information Systems and Operations Management. BA 1981, University of Arkansas; MS 1983, PhD 1991, Texas A&M University.

Beatson, Baotran, Associate Director, English Language Institute. BA 1997, MA 2000, George Mason University.

Becker, Peter A., Professor of Astrophysical, Planetary, and Space Sciences; Associate Dean for Institutional Relations, College of Science. BA 1982, Rutgers University; MS 1985, PhD 1987, University of Colorado, Boulder.

Bedore, Joani, Term Assistant Professor, Communication. BA 1979, St. Leo College; MA 1984, University of Baltimore; PhD 1994, University of Oklahoma.
Behrmann, Michael Mitts, Helen A. Kellar Professor of Special Education. BS 1971, MEd 1972, University of Cincinnati; EdD 1978, Teachers College, Columbia University.

Bemak, Frederick P., Professor of Education. BA 1970, Boston University; MEd 1971, EdD 1975, University of Massachusetts.

Benitez, Alexander V., Assistant Professor, Sociology and Anthropology. BA 1992, University of Arizona, Tucson; MA 1999, PhD 2006, University of Texas, Austin.

Benjamin, Lehn, Assistant Professor, Public and International Affairs. BA 1990, University of Minnesota; MRP 1998, PhD 2004, Cornell University.

Bennett, James T., William P. Snavely Professor of Political Economy and Public Policy. BS 1964, MS 1966, PhD 1970, Case Western Reserve University.

Benson, Brien, Research Associate Professor of Public Policy. BA 1964, Harvard University; MBA 1968, Stanford University; PhD 1998, George Mason University.

Berg, Scott, Term Assistant Professor, English. BA 1992, University of Minnesota; MA 1995, Miami University; MFA 1997, George Mason University.

Bergman, Rachel, Associate Professor of Music. BA 1992, Skidmore College; PhD 2001, Yale University.

Bergoffen, Debra Beth, Professor, Philosophy. AB 1962, Syracuse University; MA 1966, PhD 1974, Georgetown University.

Berkeley, Sheri, Assistant Professor, College of Education and Human Development. BSEd 1995, MSEd 1998, Northern Illinois University, PhD 2007, George Mason University.

Bernard, Elizabeth R., Director, Freshman Center. BA 1998; MA 1991, Ohio State University.

Berroa, Rei, Associate Professor of Spanish. BA 1970, Catholic University of Puerto Rico; MA 1977, Middlebury College; MA 1980, PhD 1983, University of Pittsburgh.

Berry, Alok K., Associate Professor, Electrical and Computer Engineering. BS 1967, MS 1969, University of Delhi; MS 1981, PhD 1985, University of Missouri.

Best, Amy L., Associate Professor, Sociology. BA 1992, Ithaca College; MA 1995, PhD 1998, Syracuse University.

Bever, David L., Associate Professor of Health Education. BS 1970, University of Dayton; MA 1973, Ball State University; PhD 1978, Purdue University.

Bickford, Andrew, Assistant Professor, Sociology and Anthropology. BA 1993, George Mason University; MA 1995, Columbia University; PhD 2002, Rutgers University.

Billingham, Lisa A., Associate Professor of Music. BMEd 1986, Indiana University; MM 1994, University of Missouri, Kansas City Conservatory; DMA 2001, University of Arizona.

Birchard, Geoffrey French, Associate Professor of Environmental Science and Policy and Associate Professor of Biology. BA 1975, Colorado College; MA 1979, University of Montana; PhD 1985, Dartmouth Medical School.

Bishop, Barney, Assistant Professor of Biochemistry. BS 1991, College of William and Mary; PhD 1997, University of North Carolina, Chapel Hill.

Bitler, Doris, Associate Professor, Psychology, College of Humanities and Social Sciences. BA 1982, Dickinson College; MA 1984, Hollins College; PhD 1991, American University.

Blackwell, Kim Avrama, Professor, Department of Molecular Neuroscience, Krasnow Institute for Advanced Study. BS 1981, Boston University; VMD 1986, MSE 1987, PhD 1988, University of Pennsylvania.
Blaisten-Barojas, Estela, Professor of Computational Sciences and Informatics, Physics and Chemistry. BS 1964, Universidad Tecnologica de Tucuman; MS 1970, PhD 1974, Universite de Paris VI.

Blasser, Christine, Term Instructor of Nursing. BSN 1993, MSN 1997, George Mason University.

Bockman, Johanna K., Assistant Professor of Global Affairs and Sociology. BA 1991, University of California, Los Angeles; MA 1995, PhD 2000, University of California, San Diego.

Boehm-Davis, Deborah A., Chair, Department of Psychology, and University Professor of Psychology. AB 1975, Rutgers University; MA 1977, PhD 1980, University of California, Berkeley.

Boettke, Peter, J., University Professor of Economics. BA 1983, Grove City College; PhD 1989, George Mason University.

Boicu, Mihai, Assistant Professor of Applied Information Technology. PhD 2002, George Mason University.

Boileau, Don Michael, Professor of Communication. AB 1964, Stanford University; MA 1965, PhD 1972, University of Oregon.

Bon, Susan C., Associate Professor. BA 1989, Toledo University; JD 1992, PhD 1996, Ohio State University.

Born, Timothy Lee, Associate Professor of Chemistry. BS 1990, Calvin College; PhD 1996, Mayo Graduate School.

Borne, Kirk, Associate Professor of Computational and Data Sciences. BS 1975, Louisiana State University; MS 1980, PhD 1983, California Institute of Technology

Botan, Carl, Professor, Communication. BA 1972, Western Michigan University; MA 1982, PhD 1985, Wayne State University.

Bottoms, D. Michael, Assistant Professor, History and Art History. BA 1993, University of California, Berkley; MA 1998, PhD 2005, University of California, Los Angeles.

Boudinot, Patricia, Instructor, Geography. BS 1976, MS 1978, University of Nice.

Boudreaux, Donald J., Professor and Chair, Economics. BA 1980, Nicholls State University; MA 1982, New York University; PhD 1986, Auburn University; JD 1992, University of Virginia.

Bousel, Paul, Assistant Director, Academic Advising Center. BA 1975, Hofstra University; MA 1977, George Washington University.

Bowden, Paul C., Associate Athletic Director of Compliance, Intercollegiate Athletics. BA 1991, Hampton University.

Bowdoin, Jessica, Head, Interlibrary Loan and Document Delivery. BA 1996, College of William and Mary; MLIS 1999, University of Illinois, Urbana-Champaign.

Bowie, Jennifer B., Assistant Professor of Government and Politics. BA 2000, University of Vermont; PhD 2008, University of South Carolina.

Boybeyi, Zafer, Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1984, Istanbul Technical University; MS 1990, San Jose State University; PhD 1993, North Carolina State University.

Bradshaw, Duane D., Associate Director for Career Development and Alumni Relations, School of Public Policy. BA 1996, MEd 1998, Clemson University.
Brayley, Russell E., Professor of Tourism and Events Management. BS 1977, MA 1986, Brigham Young University; PhD 1990, Texas A&M University.

Brazer, David S., Associate Professor of Education. AB 1979, MA 1986, PhD 1988, Stanford University.

Breglia, Lisa, Assistant Director of Global Affairs Program, Term Assistant Professor of Global Affairs. BA 1994, MA 1996, University of Florida; PhD 2003, Rice University.

Brigham, Frederick J., Associate Professor of Education. BS 1978, MEd 1983, Bowling Green State University; PhD 1992, Purdue University.

Bristol, Joan C., Associate Professor, History and Art History. BA 1990, Bryn Mawr College; MA 1994, San Francisco State University; PhD 2001, University of Pennsylvania.

Britt, Thomas, Term Assistant Professor, Film and Video Studies. BA 2002, Emory & Henry College; MFA 2005, Ohio University.

Brkic, Courtney A., Assistant Professor, English. BA 1994, College of William and Mary; MFA 2001, New York University.

Brock, Elizabeth A., Associate Vice President and Controller, Fiscal Services. MA 1992, Georgetown University.

Broderick, Marc, Vice President for University Development and Alumni Affairs. BA 1993, George Washington University.

Brodsky, Alexander, Associate Professor, Computer Science. BSc 1982, MSc 1983, PhD 1991, Hebrew University.

Brouse, Peggy S., Associate Professor, Systems Engineering and Operations Research. BS 1978, American University; MBA 1986, Marymount University; PhD 1992, George Mason University.

Brown, Mark M., Director, Small Business Development Center at the Community Business Partnership, Mason Enterprise Center. BA 1985, University of Akron; ME 2006, Western Carolina University.

Brown III, William Thomas, Instructor; Baseball Coach; and Assistant Manager, Recreation Sports Complex. BA 1980, George Mason University.

Brozo, William, Professor of Education. BA 1977, University of North Carolina; MEd 1979, PhD 1982, University of South Carolina.

Bruno, Irene, Assistant Professor, Applied Information Technology. BS 1994, University of Pittsburgh; MEd 1991, Pennsylvania State University; PhD 2003, Capella University.

Bryant, Rebecca, Associate Professor, Sociology and Anthropology. BA 1988, MA 1992, PhD 1998, University of Chicago.

Buchanan, Phillip G., Associate Professor of Accounting. BS 1970, Susquehanna University; MS 1973, Pennsylvania State University; PhD 1982, Temple University; CPA, New York and Pennsylvania.

Buehl, Michelle, Associate Professor of Education. BA 1997, Hollins University; MA 2002, PhD 2003, University of Maryland.

Buffardi, Louis C., Associate Professor of Psychology. AB 1964, University of Rochester; MA 1966, Fordham University; PhD 1970, Kansas State University.

Burnham, Philip, Term Assistant Professor of English. BA, Beloit College; MFA, University of Massachusetts; PhD 1987, University of New Mexico.
Burns, John Barclay, Associate Professor, Religious Studies. MA 1964, St. Andrew’s University, Scotland; BD 1967, Glasgow University, Scotland; PhD 1971, St. Andrew’s University, Scotland.

Burns, M. Susan, Associate Professor of Education. BS 1974, Pennsylvania State University; MA 1980, PhD 1983, Vanderbilt University.

Burr, Zofia A., Dean, Honors College; Associate Professor, English. BA 1982, Sonoma State University; MFA 1987, MA 1990, PhD 1992, Cornell University.

Burroughs, James N., Term Assistant Professor, Department of Public and International Affairs. BS 1977, James Madison University; JD 1981, College of William and Mary; MPA 1994, George Mason University.

Bursten, Andrew, Director of Finance and Administration and Chief Financial Officer, College of Visual and Performing Arts. BA 1979, Grinnell College; MBA 1981, American University.

Butler, Ann B., Professor of Molecular Neuroscience, Krasnow Institute for Advanced Study. BA 1967, Oberlin College; PhD 1971, Case Western Reserve University.

Butler, Douthard R., Associate Athletic Director for Academics, Intercollegiate Athletics. BS 1995, Prairie View A&M University; MA 1976, Central Michigan University; PhD 1992, George Mason University.

Butler, Lawrence E., Associate Professor of Art History. BA 1978, MA 1980, Oberlin College; PhD 1989, University of Pennsylvania.

Button, Kenneth J., University Professor of Public Policy and Director, Center for Aerospace Policy and Management. BA 1970, University of East Anglia, United Kingdom; MA 1971, University of Leeds, United Kingdom; PhD 1981, Loughborough University, United Kingdom.

Cadenas, Hortensia B., Executive Director Early Identification Program, University Life. BA 1980, MA 1993, George Mason University.

Cai, Xiaomei, Associate Professor, Communication. BA 1993, Jilin University; MA, Peking University; MA 1998, PhD 2001, Indiana University.

Calcagno, Theresa, Information Technology and Engineering Liaison Librarian. BA 1979, Case Western Reserve University; MS 1982, Rutgers University; MLIS 1999, University of Maryland.

Calhoun, Thomas G., Vice President, Facilities. BE 1978, Vanderbilt University; MS 1987, Stanford University.

Cambridge, Darren, Assistant Professor, New Century College. BA 1996, Wabash College; MA 1998, PhD 2003, University of Texas, Austin.

Camelli, Fernando, Assistant Professor of Computational and Data Sciences. PhD 2002, George Mason University.

Campbell, Charvis V., Assistant Dean, University Life, Prince William Campus. BA 1993, Howard University; MA 2003, New York University.
Camphouse, Mark D., Interim Director, School of Music and Professor of Music. BM 1975, MM 1976 Northwestern University.

Campos, Lisa, Term Instructor of Nursing. BSN 1985, Lynchburg College; MSN 1994, Seton Hall University.

Camus, Adele C., Instructor of English as a Second Language, English Language Institute. BA 1969, University of South Wales, Cardiff, United Kingdom; MA 1982, University of Texas, Austin.

Cangelosi, Pamela R., Associate Professor of Nursing, College of Health and Human Services. BSN 1989, Shenandoah University; MSN 1994, Marymount University; PhD 2002, George Mason University.

Canterbury, Shelly L., Instructor of Finance. BS 1985, George Mason University; MBA 1995, Virginia Polytechnic Institute and State University.

Cantiello, John, Term Assistant Professor of Health Administration and Policy. BS 2002, MS 2004, PhD 2008, University of Central Florida.

Cantor, Joshua, Director of Parking and Transportation. BA 1994, Cornell University; MA 1997, University of Kentucky.

Caplan, Bryan, Associate Professor of Economics. BA 1993, University of California, Berkeley; MA 1995, PhD 1997, Princeton University.

Caraballo, Sharon, Assistant Dean for Academic Affairs, The Volgenau School of Information Technology and Engineering, Associate Professor, Applied Information Technology. BA 1994, Rutgers University; ScM 1996, PhD 2001, Brown University.

Carbonneau, Suzanne, Professor of Art and Visual Technology, College of Visual and Performing Arts. BA 1976, Bates College; MA 1978, American University; CMA 1979, Laban Institute of Movement Studies; PhD 1990, New York University.

Carle, Andrew J., Assistant Professor of Health Administration and Policy. BS 1981, State University of New York, Buffalo; MHSA 1985, George Washington University.

Carr, Daniel B., Professor, Statistics. BA 1968, Whitman College; MEd 1972, Idaho State University; MS 1972, Oregon State University; PhD 1976, University of Wisconsin.

Carretta, Patricia J., Assistant Vice President, University Life. BA 1968, MA 1974, Binghamton University; MA 1977, University of Iowa.

Carton, Benedict, Associate Professor, History and Art History. BA 1987, Wesleyan University; MA 1994, PhD 1996, Yale University.

Cartwright, William, Assistant Professor of Health Administration and Policy. BA 1967, Rutgers University; MA 1972, PhD 1980, Indiana University.

Carver, Richard H., Associate Professor, Computer Science. BS 1982, Ohio State University; MS 1985, PhD 1989, North Carolina State University.

Casagrande, John, Term Associate Professor of Music. BS 1963, MS 1967, Ithaca College.

Casey, John, Director, Fairfax Small Business Development Center, Mason Enterprise Center. BA 1979, Colgate University; MS 1985, George Washington University.
Casey, Michael J., Assistant Professor, Civil, Environmental, and Infrastructure Engineering. BS 1997, Rutgers University; MS 1999, PhD 2005, University of Maryland.

Castillo, Marco, Associate Professor, Economics. BS 1991, Catholic University; 2001 PhD, University of Wisconsin-Madison.

Castle, Sharon D., Associate Professor of Education. BA 1975, William Penn College; MS 1978, Iowa State University; PhD 1989, University of Maryland.

Caswell, Amanda Marie, Assistant Professor of Athletic Training. BS 1994, Ashland University; MS 1995, California University of Pennsylvania; PhD 2004, Ohio University.

Caswell, Shane Vincent, Associate Professor of Athletic Training. BS 1999, State University of New York, Brockport; MS 2000, PhD 2003, Ohio University.

Cattaneo, Lauren, Assistant Professor of Psychology. BA 1992, University of Michigan, Ann Arbor; MA 1997, PhD 2001, University of Maryland, College Park.

Cebral, Juan R., Associate Professor, Computational and Data Sciences. BS 1991, University of Buenos Aires; PhD 1996, George Mason University.

Censer, Jack Richard, Professor of History and Dean, College of Humanities and Social Sciences. AB 1968, Duke University; MA 1971, PhD 1973, Johns Hopkins University.

Censer, Jane Turner, Professor of History. BA 1973, Transylvania University; MA 1975, PhD 1980, Johns Hopkins University.

Cervone, Guido, Assistant Professor, Geography and Geoinformation Science. BS 1998, Catholic University; MS 2000, PhD 2004, George Mason University.

Chandhoke, Vikas, Professor of Biology and Dean, College of Science. BPharm 1986, MDsc 1986, Birla Institute of Technology and Science; PhD 1991, University of Maine.

Chang, Michael G., Associate Professor, History and Art History. AB 1992, Princeton University; PhD 2001, University of California, San Diego.

Chang, Shih-Chun, Associate Professor, Electrical and Computer Engineering. BS 1970, National Cheng Kung University; PhD 1977, University of Hawaii.

Chang, Yoonmee, Assistant Professor, English. BA 1992, Tufts University; PhD 2003, University of Pennsylvania.

Chao, Frederick S., Head Coach Men’s Volleyball, Intercollegiate Athletics. BA 1994, George Mason University.

Chen, Chien-Yu, Assistant Professor, Information Systems and Operations Management. BA 1989, National Taiwan University; MS 1995, PhD 2003, University of Maryland.

Chen, Chun-Hung, Professor, Systems Engineering and Operations Research. BS 1987, National Chiao-Tung University; MS 1989, National Taiwan University; PhD 1994, Harvard University.

Chen, Jim X., Professor, Computer Science. BS 1983, MS 1986, Southwest Jiaotong University; PhD 1995, University of Central Florida.
Chen, Long, Assistant Professor of Accounting. BS 2000, Beijing Technology and Business University; MS 2005, PhD 2008, Washington University, St. Louis.

Chen, Songqing, Assistant Professor, Computer Science. BS 1997, MS 1999, Huazhong University; PhD 2004, College of William and Mary.

Chen, Xi, Term Instructor of Chinese. BA 1999, East China Normal University, Shanghai; MEd 2002, George Mason University.

Cheng, Constant, Assistant Professor, Marketing. BS 1982, Brigham Young University, Hawaii; MBA 1983, Arizona State University; DES 1994, The Graduate Institute.

Cherubin, Rose M., Associate Professor of Philosophy. BFA 1984, School of Visual Arts, New York City; PhD 1996, Graduate School, City University of New York.

Cheuse, Alan, University Professor of English. BA 1961, PhD 1974, Rutgers University.

Chew, Timothy, Term Associate Professor of Theater. BFA 1983, Southwest Missouri State University; MFA 1987, University of Georgia.

Chin, Kyung (Emilia Jin), Assistant Professor, Atmospheric, Oceanic and Earth Sciences. BA, 1999, PhD 2005, Seoul National University, South Korea.

Chiu, Long, Associate Professor, Geography and Geoinformation Science. BS 1974, University of Miami; ScD 1980, Massachusetts Institute of Technology.

Choldin, Maya, Operations Director, Hylton Peforming Arts Center. BA Mount Allison University.

Chollar, Richard, Associate Director, Diversity Programs and Services for Lesbian, Gay, Bisexual, Transgender, and Questioning Student Affairs. BA 1978, Wittenberg University; MSW 1982, University of Michigan; LCSW 1999, Commonwealth of Virginia.

Chong, Elizabeth, Associate Professor of Nursing. BSN 1975, MSN 1977, PhD 1981, University of Texas.

Christensen, Alan H., Associate Professor, Molecular and Microbiology. BS 1977, Buena Vista College; PhD 1983, Michigan State University.

Christensen, Julie A., Chair, Modern and Classical Languages; Associate Professor of Russian. BA 1970, University of Iowa; MA 1972, PhD 1978, University of California, Berkeley.

Christophe, Stephen, Professor of Finance. BA 1980, Colby College; MBA 1982, College of William and Mary; PhD 1992, University of North Carolina.

Chrosniak, Linda D., Term Associate Professor of Psychology. BA 1981, University of Texas, Dallas; PhD 1991, George Washington University.

Chuck, Emil T., Term Assistant Professor of Biology and Health Professions Advisor. BSE 1993 Duke University; PhD 1998, Case Western Reserve University.

Chung, Myung-Chul, Research Associate, Center for Biodefense. BS 1986, PhD 1996, Seoul National University; MS 1988, Gyeongsang National University.

Chung, Yoo Sun, Research Assistant Professor. BS 1995, George Mason University; MEng 1996, Cornell University; PhD 2004, George Mason University.
Cioffi-Revilla, Claudio, Director, Center for Social Complexity; Professor, Department of Computational Social Science, Krasnow Institute for Advanced Study. BS 1969, Instituto Patria, Mexico City; PhD 1975, University of Florence, Italy; PhD 1979, State University of New York.

Clare, Kathleen M., Assistant Dean of Undergraduate Academic Affairs, College of Humanities and Social Sciences. BA 2001, MFA 2005, George Mason University.

Clark, Keith S., Associate Professor of English. BA 1985, College of William and Mary; MA 1987, University of Kentucky; PhD 1993, University of North Carolina, Chapel Hill.

Clark, Kevin, Associate Professor of Education. BS 1989, MS 1991, North Carolina State University; PhD 1994, Pennsylvania State University.

Clark, Paul G., Assistant Professor of Social Work. BA 1981, Christopher Newport College; MSW 1985, Norfolk State University; PhD 2008, Virginia Commonwealth University.

Clark-Talley, Christine, Associate Vice President of Alumni Affairs. BS 1984, James Madison University; MEd 1986, University of South Carolina.

Cleaveland, Carol, Assistant Professor of Social Work. BA 1980, American University; MSS 1994, PhD 2002, Bryn Mawr.

Coarts, Jennifer, Coordinator of Administrative Services, FAST TRAIN Programs. BA 2004, MA 2008, University of Maryland.

Cobb, Sara, Associate Professor, Institute for Conflict Analysis and Resolution. BA 1973, Albertus Magnus College; MEd 1980, University of Puget Sound; PhD 1988, University of Massachusetts, Amherst.

Coester, William H., Assistant Dean for Human Resources and Planning, School of Public Policy. BBA 1975, Gonzaga University; MS 1988, University of LaVerne.

Coffinberger, Richard L., Associate Professor of Business Legal Studies. BA 1970, University of Florida; MS 1979, Virginia Polytechnic Institute and State University; JD 1974, Wake Forest University.

Cohen, Daniel J., Associate Professor, History and Art History; Director, Center for History and New Media. BA 1990, Princeton University; MTS 1992, Harvard University; PhD 1999, Yale University.

Cohen, Lori D., Director, University Life, Arlington Campus. BA 1998, Washington University; MA 2000, University of Minnesota.

Coleman, Colandra, Director of Development and Community Relations, University Life. BA 1990, George Washington University.

Collier, Daniel L., Director of Information Technology, College of Humanities and Social Sciences. BA 1990, University of Tennessee; MFA 1994, George Mason University.

Collins, Samuel W., Assistant Professor of History and Art History. BA 1991, Whitman College; MA 1996, University of Durham, United Kingdom; PhD 2005, University of California, Berkeley.

Collins, Susan Alice, Associate Professor; Senior Associate Athletic Director of Athletics. BS 1970, University of Dayton; MS 1973, Northern Illinois University.

Colonna, Flavia, Professor of Mathematical Sciences. Laurea 1976, Universita degli Studi di Bari; MA 1980, PhD 1985, University of Maryland.

Conant, James K., Professor of Government and Politics. BA 1971, MA 1974, PhD 1983, University of Wisconsin, Madison.
Congleton, Roger D., Professor of Economics. BA 1974, MA 1976, PhD 1978, Virginia Polytechnic Institute and State University.

Conigli, Jamie, Head of Reference, Fenwick Library, University Libraries. BA 1974, Saint Mary College; MLS 1976, Indiana University.

Conlan, Timothy J., University Professor of Public and International Affairs. AB 1974, University of Chicago; PhD 1982, Harvard University.

Constantine, Lynne M., Term Assistant Professor of Art and Visual Technology. BA 1973, Canisius College; MA 1975, MPhil 1977, Yale University.

Conwell, Nancy C., Director, Facilities Planning and Special Projects, College of Science. BA, Sweet Briar College.

Cook, Gerald, Earle C. Williams Professor of Information Technology and Electrical Engineering. BS 1961, Virginia Polytechnic Institute and State University; SM 1962, ScD 1965, Massachusetts Institute of Technology.

Cooley, Mark, Assistant Professor, Art and Visual Technology. BFA 1995, University of Southern Maine; MFA 1998, East Carolina University.

Cooper, Bruce B., Instructor; Assistant Athletic Director, Facilities, Intercollegiate Athletics. BS 1967, North Carolina State University.

Cooper, Jamie S., Associate Dean of Undergraduate Academic Affairs, College of Humanities and Social Sciences. BS 1995, MA 1996, Tennessee Tech University; MS 1998, PhD 2001, Virginia Polytechnic Institute and State University.

Cooper, Julia Nord, Term Assistant Professor, Environmental Science and Policy. BS 1981, University of Birmingham; MS 1984, University of Minnesota, Duluth; PhD 1989, City University of New York, Brooklyn College.

Cooper, Paul D., Assistant Professor of Chemistry and Biochemistry. BS 1999, PhD 2005, University of Western Australia.

Copelman, Dina, Associate Professor of History. AB 1975, Barnard College; MA 1977, University of Warwick, England; MA 1980, PhD 1985, Princeton University.

Copley, Steve, Instructor of English as a Second Language, English Language Institute. BS 1982, Georgetown University; MEd 1995, George Mason University.

Cortina, Jose M., Professor of Psychology. BA 1989, Tulane University; MA 1991, PhD 1994, Michigan State University.

Couch, Robin, Assistant Professor of Chemistry. BSc 1994, PhD 1999, University of Calgary.

Coughter, Jerald, Director, Life Sciences Management. BS 1982, Clemson University; MS 1986, Virginia Commonwealth University; MBA 1992, Shenandoah University.

Cowen, Friedgard, Cataloging Librarian, Bibliographic Services Department. BA 1975, MA 1979, University of Calgary; MLS 1994, Catholic University of America.

Coven, Tyler, Holbert L. Harris Chair in Economics and Professor of Economics. BS 1983, George Mason University; PhD 1987, Harvard University.

Cox, Cara, Term Instructor of Nursing. BSN 1979, Valparaiso University; MSN 1986, Indiana University.

Cox, Daniel N., Assistant Professor, Graduate Program Director, Molecular and Microbiology. BS 1992, Wake Forest University; PhD 1999, Duke University.

Cozart, Sheryl Conrad, Assistant Professor of Education. BA 1992, University of North Carolina, Charlotte; PhD 1999, University of North Carolina, Chapel Hill.
Cozzens, Robert Francis, Professor of Chemistry. BS 1963, PhD 1966, University of Virginia.

Cramton, Catherine D., Associate Professor of Management. AB 1979, Harvard University; PhD 1994, Yale University.

Crawford, Paula, Associate Professor of Art and Visual Technology. BFA 1983, MFA 1988, San Francisco Art Institute.

Crear, Joya A. Ph.D., Director, of the Office of Diversity Programs and Services, University Life. BS 1991, Howard University; MS 1995, University of Wisconsin, Madison; PhD 2002, The Pennsylvania State University.

Cressey, Hillary B., Assistant Dean of Undergraduate Academic Affairs, College of Humanities and Social Sciences. BA 1971, Dunbarton College of Holy Cross; MS 1976, Georgetown University; DA 2002, George Mason University.

Cressman, John R., Assistant Professor, Physics and Astronomy. BS 1995, Union College; PhD 2003, University of Pittsburgh.

Crew, Spencer, Clarence J. Robinson Professor of History. BA 1971, Brown University; MA 1973, PhD 1979, Rutgers University.

Crockett, John H., Jr., Professor of Finance. BA 1970, Washington and Lee University; PhD 1975, University of North Carolina.

Cronin, Matthew, Assistant Professor, Management. BA 1993, Rutgers University; MA 1997, Columbia University; MS 2000, PhD 2004, Carnegie Mellon University.

Crooks, Andrew, Assistant Professor of Computational Social Science, Krasnow Institute for Advanced Study. BS 2000, MS 2002, University of Edinburgh; PhD 2007, University of London.

Cui, Shanshan, Assistant Professor of Art and Visual Technology. BFA 1985, MFA 1988, Sichuan Institute of Fine Arts, China; MFA 1998, Iowa State University.

Curby, Timothy, Assistant Professor of Psychology. PhD 2008, University of Virginia.

Curtin, Kevin M., Associate Professor of Geography and Geoinformation Science. BA 1994, MA 1995, University of Illinois; PhD 2002, University of California, Santa Barbara.

Curtis, Elizabeth, Manager, Potomac Academy. BA 1981, Blackburn College.

D

Dabbagh, Nada, Associate Professor of Education. BA 1976, Iona College; MS 1978, Columbia University; PhD 1996, Pennsylvania State University.

Dafashy, Wagih G., Professor of Accounting. B. Com. 1959, Ein Shams University, Cairo, Egypt; Master of Accounting 1962, University of Texas, Austin; PhD 1966, University of Arkansas, Fayetteville.

Dakake, Maria, Associate Professor, Religious Studies. BA 1990, Cornell University; MA 1998, PhD 2000, Princeton University.

Dalal, Reeshad S., Assistant Professor of Psychology. BA 1998, Hanover College; MA 2001, PhD 2003, University of Illinois, Urbana-Champaign.

Dale, John G., Assistant Professor, Sociology and Anthropology. BA 1987, Wheaton College; MA 1991, New School for Social Research; PhD 2003, University of California, Davis.

D’Amboise, Christopher Term Assistant Professor of Dance, Visiting Guest Artist.

D’Andrea, Paul Philip, Robinson Professor of Theater and English. BA 1960, MA 1962, PhD 1966, Harvard University.

D’Angelo, Jessica, Production Manager, College of Visual and Performing Arts. BFA 2001, University of North Carolina; MA 2007, George Mason University.

Daniels, Margaret, Associate Professor of Tourism and Event Management. BA 1991, Miami University of Ohio; MA 1993, University of Georgia; PhD 2002, Clemson University.

Danner, Kara M., Director, Portal Project Management, University Life. BS 1994, University of Wisconsin; MS 2003, George Mason University.

Darnall, Nicole, Associate Professor, Environmental Science and Policy. BA 1991, New Mexico State University; MA 1995, University of Texas; MS 1998, Vanderbilt University; PhD 2002, University of North Carolina, Chapel Hill.

Das, Sidhartha R., Associate Professor of Information Systems and Operations Management. BS 1979, India; MS 1980, University of Mississippi; MBA 1985, PhD 1987, University of Houston.

Daugherty, Carol, Director, Corporate and Foundation Relations, University Development.

Davidson, Janine A., Assistant Professor of Public Policy, School of Public Policy. BS 1988, University of Colorado, Boulder; MA 2002, PhD 2005, University of South Carolina.

Davidson, Michele R. McPhee, Associate Professor of Nursing. BS 1993, George Mason University; MSN 1995, Case Western Reserve University; PhD 1998, George Mason University.

Davies, Keith Maurice, Professor of Chemistry. BS 1964, PhD 1967, University of Wales.

Davis, David F., Research Assistant Professor, School of Public Policy. BS 1972, Colorado School of Mines; MS 1981, Naval Postgraduate School.

Davis, Linda, Term Associate Professor and Associate Chair, Statistics. BS 1979, George Mason University; MS 1981, PhD 1983, Rutgers University.

Davis, Mary Lou, Term Instructor of Nursing. BSN 1997, State University of New York, Institute of Technology; MSN 1999, State University of New York.

Davis, Molly E., Term Associate Professor; Director of Field Instruction, Bachelor Social Work Program. BA 1971, Louisiana State University; MSW 1973, Tulane University; EdD 1984, Florida State University.

Davis, Rick, Associate Provost for Undergraduate Education; Artistic Director, Center for the Arts/Theater of the First Amendment; Professor of Theater. BA 1980, Lawrence University; MFA 1983, DFA 2003, Yale School of Drama.

Davis, Shannon N., Assistant Professor, Sociology and Anthropology. BA 1997, University of North Carolina, Asheville; MS 2000, PhD 2004, North Carolina State University.

DeCaroli, Robert D., Associate Professor, History and Art History. BA 1992, Loyola Marymount University; MA 1995, PhD 1999, University of California, Los Angeles.

Decker, Warren Dale, Professor of Communication. BA 1968, Kansas State Teachers College of Emporia; MA 1969, Southwest Missouri State College; PhD 1977, Temple University.
DeFazio, Albert, Term Assistant Professor of English. BA 1979, MA 1985, Virginia Polytechnic Institute and State University; PhD 1992, University of Virginia.

Deitz, Robert L., Officer in Residence, School of Public Policy. BA 1968, Middlebury College; MPA 1972, Princeton University; JD 1975, Harvard University.

De Jong, Kenneth A., University Professor, Computer Science. BA 1966, Calvin College; MA 1967, PhD 1975, University of Michigan.

Del Popolo, Mary, Term Assistant Professor, Art and Visual Technology. BA 1980, Marymount University; MFA 1988, Virginia Commonwealth University.

Del Sole, Timothy, Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1988, MS 1989, PhD 1993, Harvard University.

de Monsabert, Sharon, Associate Professor, Civil, Environmental, and Infrastructure Engineering. BS 1979, University of Maryland; PhD 1982, Purdue University.

Demory, M. Yvonne, Assistant Professor of Business Legal Studies. BA 1987, University of Virginia; JD 1990, Columbus School of Law, Catholic University of America; LLM 1994, Georgetown University Law Center.

De Mulder, Elizabeth K., Associate Professor of Education. BS 1984, Wright State University; PhD 1989, St. John’s College, Cambridge University.

Denham, Susanne Ayers, University Professor of Psychology; Director, Applied Developmental Psychology Program. BA 1972, Western Maryland College; MA 1974, Johns Hopkins University; PhD 1985, University of Maryland, Baltimore County.

Dennis, Rutledge M., Professor of Sociology. BA 1966, South Carolina State College; MA 1969, PhD 1975, Washington State University.

De Nys, Martin John, Associate Professor of Philosophy. AB 1967, MA 1969, PhD 1974, Loyola University, Chicago.

De Nys, Mary, Term Assistant Professor of English. BS 1967, MA 1971, Loyola University; PhD 1981, George Washington University.

Dere, Kenneth, Research Professor, CEOSR. BA 1969, MS 1971, Cornell University; PhD 1980, Catholic University of America.

Deshmukh, Marion F., Associate Professor, of History and Art History. BA 1966, University of California, Los Angeles; MA 1967, PhD 1975, Columbia University.

De Souza, Pascale M., Term Assistant Professor, Modern and Classical Languages. Agregation d'anglais 1985; DEA Commonwealth Studies 1989, Universite de Lille 3; PhD 1996, Francophone Studies, University of Maryland.

Di, Liping, Professor, Geography and Geoinformation Science. BS 1982, Zhejiang University; MS 1985, Chinese Academy of Sciences; PhD 1991, University of Nebraska, Lincoln.

Diao, Guoqing, Assistant Professor, Statistics. BE 1998, MS 2001, University of Science and Technology of China; PhD 2005, University of North Carolina, Chapel Hill.

Dickerson, Michael A., Term Instructor and Internship Coordinator. Department of Communication. BFA 1960, Ohio University; MA 1974, Loyola University; MA 1979, U.S. Army War College.

Dickerson, Nancy A., Director, Academic Advising Center. BFA, Ohio University; MS 1976, Shippensburg State University.
Dickman, Kathleen, Term Instructor of Nursing. BSN 1975, Georgetown University; MSN 1996, George Mason University.

Diecchio, Richard Joseph, Professor of Atmospheric, Oceanic and Earth Sciences; Director, Geology and Earth Systems Science Programs; Associate Dean for Academic and Student Affairs, College of Science. BS 1970, Rensselaer Polytechnic Institute; MS 1974, Duke University; PhD 1980, University of North Carolina, Chapel Hill.

Dieke, Peter U.C., Associate Professor of Tourism and Event Management. BA 1975, University of Nigeria; MSc 1981, University of Massachusetts; PhD 1988, University of Strathclyde (U.K.).

Dight, Kimberly, Director, Special Projects, Fiscal Services. BA 1990, The Ohio State University; MBA 1993, University of Connecticut.

Dillard, Geoff, Head Coach, Women's Rowing. BA 2000, University of Dayton.

Dillon, Francis H., Term Instructor of Geography and Geoinformation Science. BA 1972, College of William and Mary; MS 1996, George Mason University.

Dimitrov, Dimiter M., Professor of Education. BS, PhD 1984, University of Sofia Kliment Ohridski; PhD 1995, Southern Illinois University, Carbondale.

Dinan, Desmond, Jean Monnet Professor, School of Public Policy. BA 1978, National Institute for Higher Education; MA 1981, Georgetown University; PhD 1985, National University of Ireland.

Dinapoli, Constance, Term Assistant Professor of Dance, College of Visual and Performing Arts. BA 1983, Stanford University, MFA 2009, George Mason University.

Dixon, Christopher, Assessment, Planning and Organizational Development Coordinator. BA 2001, Pennsylvania State University; MSLIS 2008, Drexel University.

Domeniconi, Carlotta, Associate Professor, Computer Science. BASc 1992, University of Milano; MSSc 1997, International Institute for Advanced Scientific Studies, Salerno, Italy; PhD 2002, University of California, Riverside.

Donini, Patricia, Employee Relations Director/Deputy Director HR/Payroll. BA 1974, College of New Rochelle.

Doty, Brian, Term Research Instructor, Atmospheric, Oceanic and Earth Sciences. BS 1978, Northern Illinois University.

Doughlas, Charlene, Associate Professor of Nursing. BA 1975, BSN 1978, Case Western Reserve University; MPH 1981, PhD 1992, Johns Hopkins Bloomberg School of Public Health.

Douthett, Edward B., Associate Professor, Accounting. BA 1979, Pennsylvania State University; MBA 1991, PhD 1995, University of Georgia.

Drake, Diane C., Head Coach, Women's Soccer. BA 1993, University of Dayton; MS 1996, Louisiana State University.

Druckman, Daniel, Professor of Government and Politics. BA 1961, Michigan State University; MS 1965, PhD 1966, Northwestern University.

Druhl, Cheryl T., Assistant Professor of Operations Management. BS 1990, University of California, Los Angeles; MBA 1995, University of Pittsburgh; MAB 2000, PhD 2003, Stanford University.

Drumney, David G., Associate University Counsel. BS 1996, JD 1999, George Mason University.

Dudley, Robert L., Professor of Government and Politics; Chair of Public and International Affairs. BA 1970, Western Illinois University; MA 1974, PhD 1980, Northern Illinois University.

Dueck, Colin, Associate Professor of Political Science. BA 1990, MA 1993, University of Saskatchewan; MPhil 1995, Oxford University; PhD 2001, Princeton University.
Dugan, Kristina, Annual Giving and Membership Director, Hylton Performing Arts Center. BA 1999, University of Florida; MA 2007, George Mason University.

Dumas, Theodore, Assistant Professor of Molecular Neuroscience. BS 1991, University of Connecticut; MS 1996, PhD 1997, University of Virginia.

Dunham, Nancy, Assistant Director of Master’s Student Services, School of Public Policy. BA/BBA 2000, The College of William and Mary; MS 2005, Northwestern University.

Dunne, Kelly B., Term Assistant Professor of Integrative Studies. BA 1991, College of William and Mary; MA 1997, George Mason University.

Duric, Zoran, Associate Professor, Computer Science. BS 1982, MS 1986, University of Sarajevo, Bosnia and Herzegovina; PhD 1995, University of Maryland.

Dutta, Amitava, Chair, Information Systems and Operations Management and Eakin Chair in E-Commerce, Professor of Decision Sciences and Operations Management. BS 1976, Indian Institute of Technology; MS 1978, University of California, Santa Barbara; PhD 1981, Purdue University.

Duxbury, Thomas, Research Professor, Physics and Astronomy. BS 1965, MS 1966, Purdue University.

Dworzecka, Maria, Professor of Physics and Astronomy, Senior Associate Dean, Academic Planning and Facilities, College of Science. MSc 1954, PhD 1969, Warsaw University, Poland.

Dyre, Leslie S., Director, Finance and Human Resources, College of Humanities and Social Sciences. BS 1980, University of Virginia; CPA 1980.

E

Earle, John S., Professor of Public Policy, School of Public Policy. BA 1980, BMus 1980, Oberlin College and Conservatory; MA 1986, PhD 1988, Stanford University.

Earley, Penelope McGraw, Professor of Education Policy. BA 1967, University of Michigan; MEd 1984, University of Virginia; PhD 1994, Virginia Polytechnic Institute and State University.

Eby, Kimberly K., Associate Provost for Educational Improvement and Innovation; Director, Center for Teaching Excellence; Associate Professor, New Century College; Affiliate, Department of Psychology. BA 1989, Indiana University; MA 1992, PhD 1996, Michigan State University.

Eck, Elizabeth C., Assistant Dean, Graduate Program Management, School of Public Policy. BS 1993, Georgetown University; MA 1998, University of London.

Eckenwiler, Lisa, Associate Professor of Philosophy, Associate Professor of Health Administration and Policy, Director of Health Care Ethics. BA 1989, University of Wisconsin, Madison; MA 1991, PhD 1997, University of Tennessee, Knoxville.

Edwards, Cody, Assistant Professor, Environmental Science and Policy. BS 1995, MS 1997, Angelo State University; PhD 2000, Texas Tech University.

Ehrlich, Robert, Professor of Physics and Astronomy. BS 1959, Brooklyn College; PhD 1964, Columbia University.

Ellsworth, Robert Waldo, Professor, Physics and Astronomy. BS 1960, Yale University; PhD 1966, University of Rochester.

Elston, Ken D., Associate Professor of Theater. BA 1988, Temple University; MFA 1996, Ohio State University.

Emeljanenko, Maria, Assistant Professor of Mathematical Sciences. BS 1999, MS 2001, Moscow State University; MA 2002, PhD 2005, Pennsylvania State University.

Emerson, Jill V., Assistant Dean of Student Services, School of Public Policy. BA 1995, George Mason University; MSW 2000, Virginia Commonwealth University.

Endebrock, Robert N., Director, Facilities Construction. BS 1962, Tulane University; MS 1968, Pennsylvania State University.

Endress, Edgar, Assistant Professor, Art and Visual Technology. BS 1992, Universidad Tecnologica Metropolitana, Chile; BA 1997, Artes de las Comunicaciones, Chile; MFA 2001, Syracuse University.

Entrikin, Richard Lee, Associate Professor of Marketing. BA 1966, Western Illinois University; MS 1967, Northern Illinois University; PhD 1976, St. Louis University.

Ephraim, Yariv, Professor, Electrical and Computer Engineering. BSc 1977, MSc 1979, DSc 1984, Technion, Haifa, Israel.

Ericson, David, Term Associate Professor, Public and International Affairs. BA 1972 Wayne State University; MA 1974, University of Michigan; PhD 1987, University of Chicago.

Ericson, Rebecca J., Term Instructor, Physics and Astronomy. BA 1970, Macalester College; MS 1975, Creighton University.

Esherick, Craig R., Term, Assistant Professor of Sport Management. BSBA 1978, JD 1982, Georgetown University.

Esposito-Smythers, Christianne, Assistant Professor, Psychology. PhD 2000, Virginia Polytechnic Institute and State University.

Evans Cuellar, Alison E., Associate Professor of Health Administration and Policy. BA 1987, MBA 1989, University of Texas, Austin; PhD 2001, University of California, Berkeley.

Evans, Cathy, Director of Special Projects and Summer Term. BS 2001, George Mason University; MBA 2006, Walden University.

Ewell, Mary S., Term Instructor, Physics and Astronomy. BS 1994, George Mason University.

F

Fahey, Sheryl, Technical Assistance Specialist, Graduate School of Education. BS 1971, Syracuse University; MA 1972, George Washington University.

Fairclough, Ian, Catalog/Metadata Librarian. BA 1972, University of Liverpool; MA 1977 University of Toronto; MPhil 1985, Columbia University; MLS 1989, Queen College, City University of New York.

Falcon-Ruiz, Sandra, Term Assistant Professor of Spanish. MS 1999, PhD 2004, Georgetown University.

Falconer, Allan, Professor, Geography. BS 1965, PhD 1970, University of Durham, Institute of Education, United Kingdom.
Falconer, Renee, Associate Professor of Education. BEd, University of Durham, Institute of Education, United Kingdom; MEd 1987, University of South Carolina; PhD 1998, Utah State University.

Fanshaw, Charles W., Director, Facilities Administration. BS 1982, Virginia Military Institute; ME 1990, University of Florida.

Farina, John, Associate Professor of Religious Studies. BA 1972, Vassar College; MD 1976, Yale University; PhD 1979 Columbia University; JD 1996, New York University School of Law.

Farnsworth, Steve, Assistant Professor of Communication BA 1983, Dartmouth College; BA 1990, University of Missouri; MA 1993, PhD 1997, Georgetown University.

Farrell, Peter J., Director of Alumni Relations, The Volgenau School of Information Technology and Engineering. BS 1979, MBA, 1985, George Mason University.

Fauntroy, Michael K., Assistant Professor, School of Public Policy. BA 1988, Hampton University; MA 1993, PhD 2001, Howard University.

Feerick, Peggy, Associate Professor of Art and Visual Technology. BFA 1976, Rochester Institute of Technology; MA 1980, MFA 1989, University of New Mexico.

Fenza, David W., Executive Director, Association of Writers and Writing Programs. MA 1978, MFA 1981, University of Iowa.

Ferri, Michael G., Eminent Scholar, Professor of Finance. AB 1967, Xavier University; MA 1969, University of Notre Dame; PhD 1975, University of North Carolina, Chapel Hill.

Finkelstein, James H., Professor of Public Policy. BS 1974, Miami University; MA 1977, PhD 1980, Ohio State University.

Finn, Andrew, Term Associate Professor, Communication. BS 1972, St. John Fisher College; MA 1977, State University of New York, Geneseo; MA 1981, PhD 1983, Washington University, St. Louis.

Flagel, Andrew, Associate Vice President for Enrollment Development; and Dean, Admissions. BA 1990, MA 1994, George Washington University; PhD 2008, Michigan State University.

Flagel, Jennifer R., Associate Vice President of Development Services, University Development and Alumni Affairs. BBA/MBA 1997, University of Michigan, Flint.

Flannery, Aimee, Associate Professor, Civil, Environmental, and Infrastructure Engineering. BS 1993, MS 1994, Wayne State University; PhD 1998, Pennsylvania State University.

Fleck, Daniel, Instructor, Computer Science. BS 1997, University of Texas; MS 2001, George Mason University.

Flinn, Jane M., Associate Professor of Psychology. BA 1960, Oxford University; MS 1962, University of California; PhD 1969, Catholic University of America; PhD 1974, George Washington University.

Flores, Thomas E., Assistant Professor, Institute for Conflict Analysis and Resolution. BA 1994, Harvard University; PhD 2008, University of Michigan, Ann Arbor.

Floyd, Stephanie E., Assistant Director of Graduate Admissions, School of Public Policy. BA 2003, College of William and Mary.

Foehlinger, Jr., Grover, Associate Professor of Psychology and Director, School of Psychology Program.

Fondufe, Gwendolyn, Term Assistant Professor of Biology., Term Assistant Professor of Biology. B.Ed 1985, University of Ibadan; M.Sc 1986, University of Ibadan; Ph.D 1995, University of Illinois.
Fontana, Judith L., Technical Assistance Specialist, Kellar Institute for Human disAbilities. BA 1969, Niagara University; MEd 1973, University of Rochester; PhD 2003, George Mason University.

Forcier, Mary Frances, Director, Colonial Academic Alliance. BA 1983, Lehigh University; MS 1989, PhD 2005, Carnegie Mellon University.

Ford, Martin Eugene, Senior Associate Dean and Professor of Education. BS 1975, Pennsylvania State University; PhD 1980, University of Minnesota.

Forkner, Rebecca, Assistant Professor, Environmental Science and Policy. BS 1993, University of Cincinnati; PhD 1998, University of Georgia.

Foster, Gregory D., Professor of Chemistry. BS 1978, University of California, Davis; MS 1981, California State University, Hayward; PhD 1985, University of California, Davis.

Foster, John Burt, Jr., University Professor of English. BA 1967, Harvard University; MPhil 1971, PhD 1974, Yale University.

Fox, Donna M., Associate Dean, Office for Academic Integrity, University Life. BS 1985, Kansas State University; MS 1992, George Mason University.

Fox, Rebecca, Associate Professor of Education. AB 1972, Randolph-Macon Women’s College; MA 1993, PhD 1999, George Mason University.

Frankenfeld, Cara, Assistant Professor of Global and Community Health. BS 1996, Northern Arizona University; MS 2000, University of Arizona; PhD 2003, University of Washington.

Frazier, Wendy, Assistant Professor of Education. BA 1992, Rice University; MEd 1997, University of Houston; EdD 2001, Columbia University.

Frederick, Helen, Professor of Art and Visual Technology. BFA 1967, MFA 1969, Rhode Island School of Design.

Freeborne, Nancy, Coordinator of Community Health Internships and Term Assistant Professor of Global and Community Health. BA 1983, Lafayette College; BS 1985, MPH 1994, PhD 2009, George Washington University.

Freeman, Elizabeth, Assistant Professor, New Century College. BS 1992, Vanderbilt; MS 2000, Virginia Commonwealth University; PhD 2005, George Mason University.

Frendak-Blume, Allison, Assistant Professor of Public Policy and Director, Peace Operations. BA 1989, Seton Hall University; MA 1998, Montclair State University; PhD 2004, George Mason University.

Freenn, Chawky, Associate Professor of Art and Visual Technology. BFA 1985, Massachusetts College of Art; MFA 1988, Temple University.

Friedley, Sheryl Ann, Professor, Communication. BS 1971, MA 1972, Ball State University; PhD 1977, Purdue University.

Fritschler, A. Lee, Professor of Public Policy. BA 1959, Union College; MPA 1960, Syracuse University; PhD 1965, Maxwell School of Citizenship and Pubic Affairs, Syracuse University.

Froman, Wayne J., Associate Professor, Philosophy. BA 1966, Yale University; MA, PhD 1975, Fordham University.

Fryxell, Karl J., Associate Professor of Biology. BA 1975, BS 1975, University of Texas, Austin; PhD 1983, California Institute of Technology.
Fu, Shimin, Research Assistant Professor, Psychology. BS 1991, Beijing Normal University; MS 1994, Chinese Academy of Sciences; PhD 1998, University of Science and Technology of China.

Fuchs, Cynthia J., Associate Professor of English. BA 1984, MA 1985, University of Pennsylvania; PhD 1989, University of Connecticut.

Fujiwara, Manako, Term Assistant Professor of Japanese. MA 1993, Arkansas State University; PhD 2004, University of Minnesota.

Fulcher, Amie, Director of Academic Operations. BS 1985, East Carolina University; MEd 1997, PhD 2007, George Mason University.

Fuller, Stephen F., University Professor of Public Policy; Dwight C. Schar Endowed Faculty Chair; Director, Center for Regional Analysis. BA 1962, Rutgers University; MCP 1964, University of Mississippi; PhD 1969, Cornell University.

G

Gaffney, Kathleen F., Professor of Nursing. BS 1967, St. Joseph College; MS 1971, PhD 1984, University of Maryland.

Gaj, Krzysztof, Associate Professor, Electrical and Computer Engineering. MS 1988, PhD 1992, Warsaw University of Technology.

Gallagher, Catherine A., Associate Professor, Criminology, Law, and Society. BA 1991, College of Wooster; MA 1996, PhD 2000, University of Maryland.

Gallehr, Donald Raymond, Associate Professor of English. BA 1964, St. Bonaventure University; MA 1966, Fordham University; PhD 1974, Catholic University of America.

Galluzzo, Gary R., Full Professor of Education. BA 1973, Utica College; MS 1975, PhD 1983, Syracuse University.

Ganesan, Rajesh, Assistant Professor, Systems Engineering and Operations Research. BS 1996, National Institute of Technology, India; MS 2002, MA, PhD 2005, University of South Florida.

Ganley, Kristine F., TTAC Early Childhood Coordinator. BS 1967, University of Maryland, MEd 1989, George Mason University.

Gantz, Donald Thomas, Professor and Chair, Applied Information Technology. AB 1966, Fordham University; MA 1971, PhD 1974, University of Rochester.

Gao, Yuan, Assistant Professor, Finance. BS 1995, Wuhan University; MS 1998, MA 2004, PhD 2005 Cornell University.

Gardner, James E., Professor of Music. BM 1975, Oklahoma City University; MM 1978, DMA 1982, Southwestern Baptist Theological Seminary.

Garner, Pamela W., Associate Professor, New Century College. BSW 1982, University of Tennessee; MA 1988, University of Houston; PhD 1992, Texas A&M University.

Gentle, James, University Professor, Computational and Data Sciences and Statistics. BS 1966, University of North Carolina; MA 1969, Louisiana State University; MCS 1973, PhD 1974, Texas A&M University.

Gentry, Anne G., Associate University Counsel. BA 1991, College of William and Mary; 1994 JD, George Mason University.
George, Cindy L., Instructor of Education. BA 1979, Peabody College.

Gerard, Andrew L., Director, Men’s and Women's Track and Field. BS 1992, Colgate University.

Gerber, Naomi Lynn H., University Professor and Director, Center for the Study of Chronic Illness and Disability. BA 1965, Smith College; MD 1971, Tufts University School of Medicine.

Gerber, Steven, Reference and Liaison Librarian, University Libraries. BA 1973, University of Minnesota, Duluth; MA 1975, University of California, San Diego; MLS 2003, University of Buffalo.

Gero, Edward, Associate Professor of Theater. BA 1976, Montclair State College.

Gero, John, Research Professor, Krasnow Institute for Advanced Study. BS 1965, University of New South Wales; MS 1966, PhD 1974, University of Sidney.

Gewa, Constance, Assistant Professor of Global and Community Health. BS 1994, Egerton University, Kenya; MS 1998, University of Nairobi, Kenya; MPH 2003, PhD 2006, University of California, Los Angeles.

Giang, Phan, Associate Professor of Health Administration and Policy. BS 1985, Moscow University; MS 1998, Australian National University; PhD 2003, University of Kansas.

Gibson, J. Craig, Associate University Librarian for Public Services. BA 1976, West Texas State University; MA 1980, University of Mississippi; MA 1984, University of Denver.

Gibson, Timothy A., Associate Professor, Communication. BA 1992, Evergreen State College; MA 1995, University of Massachusetts; PhD 2001, Simon Fraser University.

Gifford, Jonathan L., Professor of Government and Politics, Associate Dean for Research and Development, and Director, Transportation Policy, Operations and Logistics. BS 1976, Carnegie Mellon University; MS 1979, PhD 1983, University of California, Berkeley.

Gilbert, Paula Ruth, Professor of French, Canadian and Women and Gender Studies. BA 1967, New York University; MA 1969, PhD 1973, Columbia University.

Gillette, Kathy, Director of Classroom Technologies. BS 1978, George Mason University.

Gilleveit, Patrick M., Associate Professor of Environmental Science and Policy and Affiliate Professor, Bioinformatics and Computational Biology. BS 1976, University of Toronto; PhD 1982, University of Manitoba.

Gilmore, Michael, Assistant Professor, New Century College. BS 1995, Colorado State University; PhD 2005, Miami University.

Giwa-Lawal, Kudirat, Mason LIFE Program Coordinator. BIS 2005, MEd 2008, George Mason University.

Gliozzi, Mario, Research Assistant Professor, Physics and Astronomy. Laurea 1994, PhD 1999, Torino University, Italy.

Goldin, Mark G., Associate Professor of Spanish. BS 1965, PhD 1968, Georgetown University.

Goldin, Rebecca F., Associate Professor of Mathematical Sciences. BA 1993, Harvard University; PhD 1999, Massachusetts Institute of Technology.

Goldman, Neil, Term Associate Professor, Physics and Astronomy; Associate Professor of Mathematical Sciences. BS 1962, College of the City of New York; MS 1964, University of Nebraska; PhD 1982, Rensselaer Polytechnic Institute.

Goldstone, Jack A., Hazel Professor of Public Policy and Director, Center for Global Policy, School of Public Policy. BA 1976, MA 1979, PhD 1981, Harvard University.

Gomaa, Hassan, Professor and Chair, Computer Science. BSc 1967, University College, London University; DIC 1968, PhD 1976, Imperial College, London University.

Gomez-Moran, Dolores, University Ombudsman. BA 1987, University of Oviedo, Spain; MA 1990, Boston College.

Goodale, Mark, Associate Professor of Conflict Analysis and Resolution. BA 1990, University of California, Los Angeles; MSc 1991, London School of Economics; JD 1994, University of the Pacific, McGeorge School of Law; LLM 1998, University of Wisconsin Law School; PhD 2001, University of Wisconsin.

Goodings, Deborah J., Dewberry Professor and Chair, Department of Civil, Environmental, and Infrastructure Engineering; The Volgenau School of Information Technology and Engineering. BS 1975, University of Toronto; PhD 1979, Cambridge University.

Goodman, Lisa Y., Director, Women’s Business Center. BS 1992, Clemson University; MA 1997, Webster University.

Goodwin, Stephen Hardy, Professor of English. AB 1965, Harvard University; MA 1969, University of Virginia.

Gopin, Marc, James H. Laue Professor of World Religions, Diplomacy, and Conflict Resolution. BA 1979, Columbia University; MA 1988, PhD 1992, Brandeis University.

Gorrell, Jeffrey, Professor of Education, College of Education and Human Development. BA 1968, Vanderbilt University; MA 1970, PhD 1975, University of Florida.

Gorski, Paul, Assistant Professor of Interdisciplinary and Integrative Studies, New Century College. BA 1994, MEd 1995, PhD 1998, University of Virginia.

Gould, Jon B., Associate Professor, Criminology, Law, and Society. AB 1985, University of Michigan; JD/MPP 1989, Harvard University; PhD 1999, University of Chicago.

Graff, Heidi, Director, Mason LIFE Program. BS 1986, State University of New York; MA 1987, Long Island University; PhD 2007, George Mason University.

Grandas, Ludy, Term Assistant Professor, Modern and Classical Languages. BA 1992, Universidad Pedagogica y Tecnologica de Colombia; MA 1996, Universidad Distrital de Bogota; PhD 2010, George Mason University.

Granfield, Patricia G., Term Instructor, Department of Mathematical Sciences. BA 1972, Swarthmore College; JD 1978, University of Virginia School of Law; MS 2003, George Mason University.

Grant, Geraldine M., Associate Professor, Biology. BA 1987, Trinity College, Ireland; PhD 1993, Dublin City University, Ireland.

Grant, Rachel, Associate Professor of Education. BA 1973, Howard University; MA 1977, University of the District of Columbia; PhD 1990, University of Maryland.

Green, Judith A., Director, Office of International Programs and Services. B.A. 1978, University of Massachusetts, Amherst; M.Ed. 1979, Framingham State College.
Greenwood, Pamela, Research Associate Professor, Psychology. BS 1969, University of Illinois; PhD 1977, State University of New York, Stony Brook.

Greet, Michele, Assistant Professor, History and Art History. BA 1993, Bowdoin College, MA 1998, City University of New York, Hunter College; PhD 2004, New York University.

Gregg, Christopher A., Term Assistant Professor, Art History. BA 1989, University of Georgia; MA 1991, PhD 2000, University of North Carolina, Chapel Hill.

Griffiths, Lloyd J., Dean, The Volgenau School of Information Technology and Engineering. BS 1963, University of Alberta; MS 1965, PhD 1968, Stanford University.

Gring-Pemble, Lisa, Associate Professor, New Century College. BA 1992, St. Olaf College; MA 1996, PhD 2000, University of Maryland, College Park.

Griva, Igor, Assistant Professor of Mathematical Sciences. BS 1993, MS 1994, Moscow State University; PhD 2002, George Mason University.

Grogan-Barone, Barbara, Lecturer of English. BA 1971, LaSalle University; MA 1976, Purdue University.

Grotophorst, C. Wally, Associate University Librarian for Automated Systems, University Libraries. BA 1976, Western Carolina University; MSLS 1977, University of Tennessee, Knoxville; MA 1982, Central Michigan University.

Guagnano, Gregory, Associate Professor of Sociology. BS 1971, Pennsylvania State University; PhD 1986, University of California, Davis.

Guessford, Jesse, Assistant Professor of Music, College of Visual and Performing Arts. BS 1995, West Chester University; MM 1997, Crane School of Music, State University of New York, Potsdam; DMA 2006, University of Illinois.

Guilford, Renate H., Assistant Provost for Enrollment, Planning, and Administration. MA 1995, George Mason University.

Gusterson, Hugh, Professor of Anthropology. BA 1980, Cambridge University; MA 1982, University of Pennsylvania; PhD 1992, Stanford University.

H

Haack, Barry Norbert, Professor of Geography and Geoinformation Science. BS 1969, University of Wisconsin; MA 1972, San Diego University; PhD 1977, University of Michigan.

Habib, Anna S., Interim Director, Writing Center and Term Assistant Professor, English. BA 2003, MFA 2006, George Mason University.

Hackler, Darrene L., Associate Professor of Government and Politics. BA 1992, Albertson College of Idaho; MA 1996, PhD 2000, Claremont Graduate University.

Haddad, Bassam, Assistant Professor, Department of Public and International Affairs. BA 1992, George Mason University; MA 1994, PhD 2002, Georgetown University.

Haddox, Jorge, Dean School of Management. BS 1978, University of Puerto Rico; MS 1979, Rensselaer Polytechnic Institute; PhD 1981, Purdue University.

Hadley, Jack, Associate Dean for Finance and Planning, College of Health and Human Services and Professor of Health Administration and Policy. BA 1968, Brandeis University; PhD 1975, Yale University.

Haegele, Tennille J., Director of Graduate Admissions, School of Public Policy. BA 1999, Minnesota State University; MA 2003, San Diego State University.
Haines, David W., Professor of Anthropology. BA 1971, Denison University; MA 1973, PhD 1976, American University.

Haley, Marjorie H., Professor of Education. BS 1974, Hampton Institute; MEd 1976, Towson State University; PhD 1986, University of Maryland.

Hall, Lena (Libby), Professional Development Initiatives Coordinator. BA 1970, University of Alabama; MEd 1979, University of Hawai; EdD 1988, Virginia Polytechnic Institute and State University.

Hallows, Karen, Academic Director, Executive Programs, Associate Professor of Finance, School of Management. BS 1973, Central Missouri State; MAT 1984, Purdue University; PhD 1988, University of Nebraska.

Hamdani, Sumaiya A., Associate Professor of History. BA 1984, Georgetown University; MA 1989, PhD 1995, Princeton University.

Hammer, Christopher H., Assistant Professor, History and Art History. AB 1995, Dartmouth College; MA 1998, PhD 2004, University of North Carolina, Chapel Hill.

Hanley, Mary, Assistant Professor of Education. BA 1975, MEd 1987, PhD 1998, University of Washington.

Hannan, Heather Groves, Prince William Campus Librarian, University Libraries. BA 1975, University of Virginia; MA 1990, MLS 1994, Catholic University of America.

Hanrahan, Nancy Weiss, Associate Professor of Sociology. BA 1976, Wesleyan University; MA 1989, PhD 1994, New School for Social Research.

Hanson, Robin D., Associate Professor of Economics. BS 1981, University of California, Irvine; MS, MA 1984, University of Chicago; PhD 1997, California Institute of Technology.

Hanweck, Gerald Alfred, Professor of Finance. BA 1964, Stanford University; MA 1967, PhD 1971, Washington University, St. Louis.

Harber, Linda, Associate Vice President for Human Resources and Chief Human Resources Officer. BA 1974, Indiana University; MS 1978, University of Kansas.

Harbour, Frances V., Associate Professor of Government and Politics. BA 1975, Barnard College; MA 1977, PhD 1986, Columbia University.

Hardiman, William R., Director, Purchasing and Accounts Payable. BS 1975, MPS 1990, Western Kentucky University.

Hardy, Shanon, Assistant Professor of Education. BEd 1972, University of South Florida; MEd 1974, University of Miami; PhD 2001, George Mason University.

Hare, Heather, Associate Director, Center for Leadership and Community Engagement. BA 1988, MA 1989, Columbia University; MS 2004, George Mason University.

Harlan, Stephen S., Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1980, Evergreen State College; MS 1986, Montana State University; PhD 1992, University of New Mexico.

Harr, David J., Chief of Staff, School of Management. BBA 1968, University of Wisconsin, Madison; MS 1969, Naval Postgraduate School; PhD 1978, University of Wisconsin, Madison; CPA, Virginia.

Hart, David, Associate Professor. BA 1983, Wesleyan University; PhD 1995, Massachusetts Institute of Technology.

Harvey, James William, Chair and Associate Professor of Marketing. BS 1966, University of Illinois, Urbana-Champaign; MBA 1968, University of Miami; PhD 1977, Pennsylvania State University.

Harvey, Tamara, Associate Professor, English. BA 1988, Harvard University; MA 1991, University of Wisconsin, Madison; PhD 1998, University of California, Irvine.

Hathaway, Dawn, Term Assistant Professor of Education. BS 1986, Purdue University; MEd 2003, George Mason University.

Hatton, Kimi S., Term Associate Professor of Chemistry. BS 1979, George Mason University; PhD 1983, Ohio State University.

Hawk, Byron K., Associate Professor, English. BA 1990, MA 1995, PhD 2000, University of Texas, Arlington.

Hayden, Michael V., Distinguished Visiting Professor, School of Public Policy. BA 1967, MA 1969, Duquesne University.

Haynes, Christine, Term Faculty, Communication. BA 2004, George Mason University; MA 2007, Texas State University, San Marcos.

Haynes, Kingsley E., Ruth D. Hazel and John T. Hazel, M.D. Faculty Chair in Public Policy; Eminent Scholar, Professor, School of Public Policy. BA 1964, Western Michigan University; MA 1965, Rutgers University; PhD 1971, Johns Hopkins University.

Hazen, Robert M., Robinson Professor, Atmospheric, Oceanic and Earth Sciences. BS 1970, SM 1971, Massachusetts Institute of Technology; PhD 1975, Harvard University.

Heckel, Hugh, Robinson Professor of Public Affairs. AB 1965, George Washington University; MA 1967, Manchester University, England; PhD 1970, Yale University.

Heerschap, Marcella, Dean, Student Academic Affairs and Advising. BA 1977, Brock University; MA 1980, University of South Florida.

Heineman-Pieper, Jessica, Assistant Professor, School of Public Policy. BA 1994, Oxford University; MA 1997, PhD 2005, University of Chicago.

Heiner, Ronald A., Professor of Economics. PhD 1975, University of California, Los Angeles.

Heishman, Ricci, Assistant Professor, Computer Science. BS 1982, University of Cincinnati; MS 1997, American University; PhD 2007, George Mason University.

Henderson, Thomas (Tim), Term Instructor of Health Administration and Policy. BA 1974, North Carolina State University; MS 1979, University of North Carolina; MA 1986, University of Florida.

Hennessey, James T., Jr., Chief of Staff. BA 1965, MPA 1973, Eastern Kentucky University; PhD 1997, George Mason University.

Hero, Gregory S., Executive Director/Professor, Center for Urban and Real Estate Studies. BA 1978, University of Virginia; MBA 1981, George Washington University.
High, Jack C., Professor of Economics, School of Public Policy. BA 1972, University of Utah; MA 1975, PhD 1980, University of California, Los Angeles.

Hill, Christopher T., Professor of Public Policy and Technology, School of Public Policy. BS 1964, Illinois Institute of Technology, Chicago; MS 1966, PhD 1969, University of Wisconsin, Madison.

Hinton, Roy W., Associate Dean for Executive Programs, School of Management. BA 1970, Southern Illinois University; MBA 1975, Pepperdine University; PhD 1981, Northwestern University.

Hintz, Kenneth J., Associate Professor, Electrical and Computer Engineering. BSEE 1967, Purdue University; MSEE 1979, PhD 1981, University of Virginia.

Hirsch, Susan F., Professor of Conflict Resolution. BA 1982, Yale College; PhD 1990, Duke University.

Hjalmarsone, Margret, Assistant Professor of Education. BA 1998, Mount Holyoke College; MS 2000, PhD 2004, Purdue University.

Hobson, Daniel, Production Manager, College of Visual and Performing Arts. BA 1984, George Mason University.

Hoch, Theodore, Assistant Professor of Education, College of Education and Human Development. BS 1983, University of Illinois at Urbana-Champaign; MS 1985, University of Wisconsin-Milwaukee; EdD 1989, West Virginia University.

Hodges, Devon Leigh, Professor of English; Associate Director of the Honors Program in General Education. BA 1972, University of California, Berkeley; MA 1977, PhD 1979, SUNY, Buffalo.

Hodzic, Saida, Assistant Professor, Women and Gender Studies. MA 2002, Cologne University, Germany; PhD 2006, University of California, Berkeley.

Hoffmann, Beth, Assistant Professor, English. BA 2002, University of Notre Dame; C Phil 2006, PhD 2008, University of California, Berkeley.

Holisky, Dee Ann, Senior Associate Dean, College of Humanities and Social Sciences; Associate Professor of English. BA 1969, MA 1974, PhD 1980, University of Chicago.

Holland, Claudia C., Head, Copyright Resources Office and Sociology/Anthropology Liaison Librarian. BA 1979, Florida State University; MA 1986, MLIS 1989, Louisiana State University.

Holman, Emmett Lou, Associate Professor of Philosophy. BS 1963, Pennsylvania State University; MA 1967, PhD 1973, University of Maryland.

Holt, Cynthia, Head, Collection Development and Preservation. BS 1991, St. Francis Xavier University; MLIS 1993, University of Western Ontario.

Holt, Mack P., Professor of History. BA 1971, MA 1973, Georgia State University; PhD 1982, Emory University.

Honeychuck, Robert V., Associate Professor of Chemistry. BS 1977, Ohio State University; MS 1982, PhD 1984, Michigan State University.

Hoover, Catherine M., Director, Prince William Professional Center, Office of Continuing Professional Education. MA 1986, Virginia Polytechnic Institute and State University.
Hopson, Mark C., Assistant Professor, Communication. BS 1993, Western Michigan University; MA 2002, PhD 2005, Ohio University.

Houck, Mark H., Professor, Civil, Environmental, and Infrastructure Engineering. BES 1972, PhD 1976, Johns Hopkins University.

Houser, Daniel E., Professor, Economic Science Laboratory. BA 1989, University of Wisconsin, Madison; PhD 1998 University of Minnesota.

Houser, Paul, Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1992, PhD 1996, University of Arizona.

Howell, Keith, Associate Dean for Research and Program Evaluation; Professor of Global and Community Health. BS 1967, Pikeville College; MA 1968, Eastern Kentucky University; PhD 1973, University of Toledo.

Hruby, Alison H., Assistant Professor of Education. BS 1991, State University of New York, Plattsburgh; MA 1997, Hofstra University; PhD 2002, University of Georgia.

Hsieh, Jim, Associate Professor, Finance. BS 1991, National Chiao Tung University, Taiwan; MBA 1996, University of Rochester; MS 1997, Carnegie Mellon University; PhD 2002, Ohio State University.

Huang, Bohua, Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1982, MS 1985, Peking University; PhD 1992, University of Maryland.

Hughes Hallett, Andrew, Professor of Public Policy and Economics. BA 1969, University of Warwick; MSc 1971, London School of Economics; DPhil 1976, University of Oxford (Nuffield College).

Hughes, Joy R., Vice President for Information Technology. PhD 1990, Union Institute.

Huheey, Cynthia A., Director, OCPE Herndon. BS 1969, MS 1971, Purdue University.

Humbertson, Donald, Lecturer of English. BA 1970, MA 1975, University of Maryland; DAEd 1988, George Mason University.

Hurley, Michael E., Term Assistant Professor of Psychology, Undergraduate Advisor. BA 1984, Hofstra University; MA 1988, College of William and Mary; PhD 1993, University of Miami.

Hussam, Abul, Professor of Chemistry. BSc 1975, MSc 1976, University of Dacca; PhD 1982, University of Pittsburgh.

Hutchison, James, Assistant Professor, DMIS. BS 1972, Louisiana State University; MBA 1982, PhD 1990, University of Houston.

Hylton, Constance Malone, Instructor of Accounting. BS 1972, Virginia Polytechnic Institute and State University; MBA 1981, Arizona State University.

I

Ihara, Emily, Assistant Professor of Social Work. AB 1990, University of California, Berkeley; MSW 1993, University of California, Los Angeles; MA 2002, PhD 2005, Brandeis University.

Ikonomidou, Vasiliki, Assistant Professor, Electrical and Computer Engineering, The Volgenau School of Information Technology and Engineering. Dipl Eng 1997, PhD 2002, Aristotle University of Thessaloniki.
Ingram, Karen, Coordinator LIFE Program. BIS 2001, George Mason University.

Ioannou, D.E., Professor, Electrical and Computer Engineering. BS 1974, University of Thessaloniki; MS 1975, PhD 1978, University of Manchester.

Isenberg, Joan P., Associate Dean and Professor of Education. BS 1963, MS 1968, Wheelock College; EdD 1978, Rutgers University.

Islam, Khondkar, Instructor of Applied Information Technology. BS 1988, George Mason University; MS 1992, American University.

Izmirli, Ilhan, Term Instructor, Statistics. BS 1974, Bosphorus University; MS 1979, University of Istanbul; PhD 2008, American University.

Jackson, Corey, Director, Equity and Diversity Services and Assistant to the President. BS Virginia Polytechnic Institute and State University; JD University of Miami School of Law.

Jacobs, Mark D., Associate Professor of Sociology. BA 1968, Columbia College, Columbia University; MA 1977, PhD 1987, University of Chicago.

Jafri, M. Saleet, Professor, Department of Bioinformatics and Computational Biology. BS 1986, Duke University; MS 1988, New York University; PhD 1993, City University of New York, Mount Sinai School of Medicine.

Jajodia, Sushil, Professor, Applied Information Technology. BA 1969, MS 1971, Southern Illinois University; PhD 1977, University of Oregon.

Jaju, Anupam, Associate Professor, Marketing. BE 1994, Regional Engineering College, India; MTech 1996, Indian Institute of Technology, India; PhD 2002, University of Georgia.

Jamison, D. Curtis, Affiliate Faculty, Bioinformatics and Computational Biology. BA 1985, University of Colorado, Boulder; PhD 1992, University of Denver.

Jang, Soojin, Instructor of Education. BA 1997, Seoul Women’s University; MEd 2006, Dankook University.

Jann, Rosemary, Professor of English. BA 1971, Duke University; MA 1972, PhD 1975, Northwestern University.

Jazaeri, Amin, Assistant Professor, Physics and Astronomy. BS 1991, George Mason University; MS 1994, University of Southern California; MS 1996, PhD 2007, George Mason University.

Jenemann, Laura, Media Services/Film Studies Liaison Librarian. BA, Temple University; MLIS, Drexel University.

Jeong, Ho-Won, Professor of Conflict Resolution. BA 1981, Hankuk University; MA 1988, PhD 1993, Ohio State University.
Jerome, Marci Kinas, Term Assistant Professor of Education. BS 1999, College of New Jersey; MEd 2001, PhD 2008, George Mason University.

Johnsen-Neshati, Kristin, Dramaturg/Artistic Associate, Theater of the First Amendment, College of Visual and Performing Arts; Associate Professor of Theater. BA 1987, Swarthmore College; MFA 1992, DFA 2002, Yale School of Drama.

Johnson, Devon, Assistant Professor, Criminology, Law, and Society. BA 1994, University of California, Santa Cruz; MA 1996, PhD 2002, University of California, Los Angeles.

Johnson, Kathleen Q., Assistant Vice President for Regional Campuses. George Mason University. BS 1990, MS 1996, George Mason University.

Johnson, Noel, Assistant Professor of Economics, BA 1995, PhD 2004 Washington University, St. Louis.

Johnson, Twila, Term Assistant Professor, English. BA 2005, Oklahoma Baptist University; MFA 2008, George Mason University.

Johnson, Wallace, Director, Mentor-Protege Program, the Mason Enterprise Center for Regional Analysis and Entrepreneurship, School of Public Policy. BSc 1961, University of Oklahoma; MBA 1973, Alabama A&M University.

Johnston, Christopher, Assistant Professor of Education, College of Education and Human Development. BA 1998, MA 1992, Concordia University; PhD 2009, George Mason University.

Johnston, Joyce, Lecturer of English. BA 1969, Dickinson College; MA 1971, Emory University.

Johnston, Robert Dail, Associate Professor of Finance and Associate Dean of Graduate Programs. BS 1966, MS 1967, PhD 1974, University of Alabama.

Joiner, Christopher, Associate Professor, Marketing. BA 1988, Duke University; MBA 1992, Wake Forest University; PhD 1997, University of Minnesota.

Jolly, Elizabeth, Director of State Government Relations. Office of the Senior Vice President. BA, MA 1973, James Madison University.

Jonas, Robert B., Chair and Associate Professor and Chair of Environmental Science and Public Policy. BS 1971, University of Miami; PhD 1981, University of North Carolina.

Jones, Charles, Associate Professor of English. BA 1979, St. John’s College, Maryland; PhD 1985, University of Massachusetts.

Jones, Garett, Assistant Professor of Economics. BA 1992, MPA 1993, MA 1994, PhD 2000, University of California, San Diego.

Jones, Keith, Assistant Professor, Accounting. BA 1995, MA 1995, Brigham University; PhD 2004, University of Arizona.

Jones, R. Christian, Professor of Environmental Science and Public Policy. BA 1973, Rice University; MA 1977, Vanderbilt University; PhD 1980, University of Wisconsin.

Jones, Susan H., University Registrar. BA 1968, MEd 1971, University of Delaware; MS 1977, State University of New York College, Brockport.

Jordan, Yevette Richards, Associate Professor, Women and Gender Studies. BA 1982, College of William and Mary; MA 1988, MA 1990; MPhil 1991, PhD 1994, Yale University.
Joshi, Mahesh P., Associate Professor, Management. BS 1981, Diploma in Business Management 1984, St. Xavier’s College, India; PhD 1996, Temple University.

Joyce, James D., Assistant Professor of Dance. BFA 1983, North Carolina School of the Arts; MFA 2003, George Mason University.

K

Kabbani, Nadine, Assistant Professor, Molecular Neuroscience. BS 1997, George Mason University; PhD 2003, Pennsylvania State University.

Kalbfleisch, M. Layne, Pomata Term Professor in Cognitive Neuroscience. BA 1991, Kent State University; MEd 1995, PhD 2001, University of Virginia.

Kamenitzer, Richard, Director and Term Associate Professor of Arts Management, College of Visual and Performing Arts. BS 1968, MBA 1992, Seton Hall University; LLB 1971, La Salle Extension University.

Kaplan, Deborah, Chair, English; Associate Professor, English. BA 1972, Sarah Lawrence College; MA 1974, PhD 1979, Brandeis University.

Kaplan, Seth, Assistant Professor, Psychology. BS 1998, University of Florida; MS 2003, PhD 2006, Tulane University.

Kaposy, Timothy, Assistant Professor of Cultural Studies. PhD 1998, University of Virginia. BA 2000, McMaster University; MA 2003, University of Western Ontario; PhD 2008, McMaster University.

Karametou, Maria, Assistant Professor, Art and Visual Technology. BA 1974, University of Maryland; MFA 1979, Maryland Institute College of Art.

Karton, Alissa, Assistant to the Vice President, University Life. BA 1992, MA 1993, University of Rochester.

Karush, Matthew B., Director, Global Interdisciplinary Programs and Associate Professor, History and Art History. BA 1990, Columbia University; MA 1992, PhD 1997, University of Chicago.

Kashanchi, Fatah, Professor, Molecular and Microbiology. BS 1983, NW Missouri State University; MS 1985, Emporia State University PhD 1991 University of Kansas.

Kashdan, Todd, Associate Professor, Psychology. BS 1996, Cornell University; MA 2000, PhD 2004, State University of New York, Buffalo.

Katona, Peter G., Professor, Electrical and Computer Engineering. BS 1960, University of Michigan; MS 1962, PhD 1965, Massachusetts Institute of Technology.

Katz, Mark N., Professor of Government and Politics. BA 1976, University of California, Riverside; MA 1978, Johns Hopkins University; PhD 1982, Massachusetts Institute of Technology.

Kaufmann, David, Associate Professor of English. AB 1980, Princeton University; PhD 1989, Yale University.

Keaney, Winifred Gleson, Associate Professor of English. BA 1964, Good Counsel College; MA 1966, Duquesne University; PhD 1975, University of Maryland.

Keenan, Jody A., Director, Small Business Development Center, Center for Enterprise Research and Development, School of Public Policy. BS 1986, College of William and Mary; MBA 1990, La Salle University.

Keene, Deborah M., Director, Law Library. BA 1974, MLS 1975, Vanderbilt University; JD 1980, University of Tennessee.
Kehn-Hall, Kylene, Assistant Professor, Molecular and Microbiology. BS Biology 2000, BS Chemistry 2001, Virginia Commonwealth University; MS 2002, The George Washington University; PhD 2006 The George Washington University.

Kehoe, Kathleen M., Associate Director, Development Office. BS 1969, University of Dayton; MEd 1997, DEd 2000, George Mason University.

Kehoe, Susan S., Director of Educational Media and Executive Producer, GMU-TV. BA, Illinois College; MS Northwestern University; DA 2000, George Mason University.

Keith, Sarah, Assistant Professor, English. BA 1996, Bucknell University; MFA 2000, University of Iowa.

Kelley, Michael R., Executive Director, Capitol Connection; Distinguished Service Professor. BA 1962, MFA 1965, PhD 1970, Catholic University of America.

Kellogg, Jean, Director of Community Arts Partnerships, College of Visual and Performing Arts. BM 1979, Florida State University; MM 1983, Westminster Choir College.

Kelly, Anthony Eammon, Professor of Education. BA 1979, St. Patrick’s College, Dublin; MA 1984, California State University; PhD 1988, Stanford University.

Kelly, T. Mills, Associate Professor, History and Art History. BA 1981, University of Virginia; MA 1988, PhD 1996, George Washington University.

Kendrick, Patricia A., Head Coach, Women’s Volleyball. BS 1983, George Mason University.

Ker-Hackleman, Kelly, Term Associate Professor of Music. BM 1982, Cincinnati Conservatory; MM 1985, New England Conservatory; DMA 1993, University of Memphis.

Kerschberg, Larry, Professor, Computer Science. BS 1964, Case Institute of Technology; MS 1966, University of Wisconsin; PhD 1969, Case Western Reserve University.

Kettlewell, Gail, Principle, International Center for Arts Culture and Education, College of Visual and Performing Arts. BA 1961, Muskingum College; MA 1973, Old Dominion University; EdD 1985, Virginia Polytechnic Institute and State University.

Keyser, Randall, Associate Professor, Center for the Study of Chronic Illness and Disability. BA 1979, MA 1981, Kent State University; PhD 1985, University of Toledo.

Kidd, Donna L., Associate Vice President of Budget and Planning. BA 1972, College of William and Mary; MPA 1994, George Mason University.

Kidd, Julie, Associate Professor of Education. BA 1980, University of Richmond; MEd 1992, James Madison University; PhD 1992, Virginia Polytechnic Institute and State University.

Kidd, Mark A., Associate Dean, University Life; Affiliate Professor of Higher Education. BS 1988, MBA 1989, University of Southern Mississippi; PhD 1997, University of Mississippi.

Kiernan, Cynthia Anne, Professor, History and Art History. BA 1980, McGill University; MA 1982, PhD 1986, University of Virginia.

Kiley, William Thomas, Associate Professor of Mathematical Sciences. BS 1960, St. Mary’s College; PhD 1969, Brown University.

Kilmer, Claudia, Instructor, English Language Institute. BS 1975, Virginia Polytechnic Institute and State University; MEd 1996, George Mason University.

Kim, Dae Young, Assistant Professor of Sociology. BA 1991, State University of New York, Binghamton; MPhil 1998, PhD 2001, City University of New York Graduate Center.

Kim, Sangwook, Term Assistant Professor of Mathematical Sciences. BS 1995, MS 1999, Yonsei University; PhD 2007, University of Minnesota.

King, Eden, Assistant Professor, Psychology. BA 2001, MA 2004, PhD 2006, Rice University.

King, Sara M., Term Assistant Professor, English. AB 1983, Cornell University; MFA 1989, University of Arkansas.

King-Sears, Margaret (Peggy) F., Professor of Education. BS 1977, Valdosta State College; MA 1980, University of North Florida; PhD 1989, University of Florida.

Kinnaman, Theodore, Chair, Department of Philosophy, and Associate Professor of Philosophy. BA 1985, Carleton College; MA 1988, PhD 1995, University of Wisconsin, Madison.

Kinser, Jason M., Associate Professor, Bioinformatics and Computational Biology. BA 1985, William Jewell College; MS 1987, University of Alabama, Huntsville; DSc 1993, South Eastern Institute of Technology.

Kirkland, Connie J., Director, Sexual Assault Services, University Life. BS 1968, Bowling Green State University; MA 1972, Ohio State University.

Kirsch, Vicki, Associate Director, Women and Gender Studies. BA 1978, Georgetown University; MA 1980, The University of Chicago; PhD 1990, Emory University; MSW 1997, Boston University.

Kitsanta, Panagoita, Assistant Professor of Health Administration and Policy. BA 1996, Queens College (CUNY); MS 1999, James Madison University; MS 2000, PhD 2003, Florida State University.

Kitsantas, Anastasia, Associate Professor of Education. BA 1992, BS 1992, MS 1993, Queens College, City University of New York; MA 1995, PhD 1996, Graduate School and University Center, City University of New York.

Klein, Daniel B., Professor of Economics, BS 1983, George Mason University; PhD 1990, New York University.

Klein, Margaret L., Technical Assistance Specialist, Kellar Institute for Human disAbilities. MA 1982, Marymount University.

Klein, Steven M., Term Instructor of Communication. BA 1989, University of Wisconsin; MA 1997, Michigan State University.

Klimoski, Richard J., Professor of Management and Psychology. BA 1965, University of Massachusetts; MS 1968, PhD 1970, Purdue University.

Klimov, Dmitri, Associate Professor, Bioinformatics and Computational Biology. MS 1989, PhD 1992, Moscow State University.

Klinger, Barry, Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1985, PhD 1992, Massachusetts Institute of Technology and Woods Hole Oceanographic Institution.
Kluger, Matthew J., Professor of Health Administration and Policy. BS 1967, Cornell University; MS 1969, PhD 1970, University of Illinois; Postdoctoral 1972, Yale University; MBA 1997, Anderson Schools of Management, University of New Mexico.

Knight, G. Diane, Assistant Professor; Counselor, Counseling and Psychological Services. BA 1966, Bethany College; MDiv 1970, Yale University; MS 1978, Loyola College; PhD 1985, University of Maryland.

Koblentz, Gregory D., Assistant Professor of Government and Politics and Deputy Director of Biodefense. BA 1996, Brown University; MPP 1999, Harvard University; PhD 2004, Massachusetts Institute of Technology.

Kocache, Malda, Term Associate Professor of Biology. BS 1984, American University of Beirut; 1989 PhD, Georgetown University.

Koch, Lisa, Term Associate Professor of English. BA 1987, Washington University; MA 1992, PhD 2000, University of Maryland.

Kodadek, Marie, Assistant Professor of Nursing. BSN 1974, College of St. Teresa; MSN 1976, University of Colorado, Boulder; PhD 1988, University of Texas, Austin.

Kohn, Ellen, Core Faculty Member, English Language Institute. AB 1972, University of Michigan; MS 1979, Georgetown University.

Koizumi, Naoru, Assistant Professor of Public Policy. BA 1992, Aoyama-Gakuin University; MA 1994, PhD 2002, University of Pennsylvania; PhD 2005, Hyogo Medical College.

Korjus, Jennifer L. W., Director, Learning Support Services, DoIT. BA 1985, Baylor University; JD 1998, University of Texas; MEd 2001, George Mason University.

Korostelina, Karyna, Research Professor, Institute for Conflict Analysis and Resolution. BA 1990, MA 1991, National Kiev University; PhD 1994, Odessa State University; Dr.of Sc. 2003, Ukrainian Academy of Science.

Kort, David A., Term Assistant Professor of Chemistry. BS 1991, Hope College; PhD 1997, Purdue University

Kosecka, Jana, Associate Professor, Computer Science. MSE, EECS 1988, Slovak Technical University, Bratislava, Slovakia; PhD 1996, University of Pennsylvania.

Kovac, S. Linda, Director of Corporate Relations, The Volgenau School of Information Technology and Engineering. BA 2007, Burlington College.

Kozlowski, James, Associate Professor of Parks, Recreation, and Leisure Studies. BA 1972, Johns Hopkins University; MA 1973, University of Chicago; MS 1976, University of Illinois; JD 1980, University of Maryland School of Law; PhD 1986 University of Maryland.

Kraus, Richard T., Assistant Professor, Environmental Science and Policy. BS 1994, College of Charleston; MS 1998, College of William and Mary; PhD 2003, University of Maryland.

Kravitz, David A., Chair and Professor of Management. BA 1974, Carleton College; MA 1978, PhD 1980, University of Illinois, Urbana-Champaign.

Kravitz, Edward Walter, Professor of Art and Visual Technology. BFA 1964, School of the Art Institute of Chicago; MFA 1967, Syracuse University.

Kreps, Gary, Chair and University Professor, Communication and Eileen P. and Steve A. Mandell Term Professor of Health Communication. BA 1975, MA 1976, University of Colorado; PhD 1979, University of Southern California.
Krishnamurthy, V., Term Professor, Atmospheric, Oceanic and Earth Sciences. BS 1969, University of Mysore; BS 1970, MS 1972, Bangalore University; MS 1978, PhD 1985, Massachusetts Institute of Technology.

Kronenfeld, Barry, Assistant Professor, Geography and Geoinformation Science. BS 1993, Cornell University; PhD 2004, State University of New York, Buffalo.

Kuebrich, David Lawrence, Associate Professor of English. AB 1966, Washington University; MA 1969, PhD 1973, University of Chicago.

Kulesza, John S., Professor of Mathematical Sciences. BS 1978, Bucknell University; MA 1981, PhD 1987, State University of New York, Binghamton.

Kulick, Jeffrey, Instructor of Marketing. BA 1970, Oakland University; MBA 1977, Keller Graduate School of Management.

Kurtz, Lester R., Professor of Sociology, BA 1972, Westmar College; MAR 1974, Yale University; PhD 1980, University of Chicago.

La Porte, Todd M., Term Associate Professor, School of Public Policy. BA 1980, Swarthmore College; MA, PhD 1989, Yale University.

Labbe, Jennifer, Mason LIFE Job Coach. BS 2000, Texas Christian University.

Lair, Meredith H., Assistant Professor, History and Art History. BA 1994, Ohio University; PhD 2004, Pennsylvania State University.

Lamb, Jennifer, Assistant Dean for Development, The Volgenau School of Information Technology and Engineering. BA 1989, University of Maryland, College Park; MS 1993, University of Pennsylvania.

Lamba, Harbir, Associate Professor of Mathematical Sciences. BA 1988, Cambridge University; PhD 1993, Bristol University.

Lancaster, Roger N., Director, Cultural Studies Program; Professor of Anthropology and Cultural Studies. BA 1982, University of North Carolina; MA 1983, PhD 1987, University of California, Berkeley.

Landeros, Estella C., Technical Assistance Specialist. BA 1973, Direccion General de Mejoramiento Profesional, Mexico, D.F; BA 1978, School for Special Studies, Mexico, D.F.; MA 1985, Ohio State University.

Landry, Elena, Global Programs and Foreign Languages Liaison Librarian. BA, MS, Tbilisi State University, MLIS, Louisiana State University.

Landsberg, Alison, Associate Professor, History and Art History. BA 1989, Williams College; MA 1991, PhD 1996, University of Chicago.

Langfred, Claus W., Associate Professor, Management. BS 1993, Washington University, St. Louis; MS 1995, PhD 1998, Northwestern University.
LaPaille, Christine, Vice President for University Relations. BA 1981, Eastern Illinois University; MA 1989, University of Illinois.

Lapple, Judith, Term Professor of Music. BM 1975, Eastman School of Music; MM 1977, Northeast Louisiana University.

Largen, Kim, Term Assistant Professor, Environmental Science and Policy. BA 1980, University of Virginia; MS 1988, PhD 2000, George Mason University.

Larranaga, James J., Head Coach, Men’s Basketball. BA 1971, Providence College.

Laskey, Kathryn Blackmond, Associate Professor, Systems Engineering and Operations Research. BS 1976, University of Pittsburgh; MS 1978, University of Michigan; PhD 1985, Carnegie Mellon University.

Lathbury, Roger Delaire, Professor of English. BA 1967, Middlebury College; MA 1968, Indiana University.

Lattanzi Shutika, Debra L., Associate Professor, English. BSN 1987, West Virginia University School of Nursing; MA 1993, George Mason University; MA 1998, PhD 2001, University of Pennsylvania.

Lawrence, James Franklin, Professor of Mathematical Sciences. BS 1972, Oklahoma State University; PhD 1975, University of Washington.

Lawrence, L. Brian, Professor of Mathematical Sciences. BA 1976, PhD 1984, State University of New York, Binghamton.

Lawrence, Susan, Assistant Professor, English. BA 1982, College of William and Mary; MA 1993, University of Wisconsin, Madison; PhD 2005, Carnegie Mellon University.

Lawrey, James D., Professor of Environmental Science and Policy and Professor of Biology. BS 1971, Wake Forest University; AM 1973, University of South Dakota; PhD 1977, Ohio State University.

Laydendecker, Dennis, Director, Heritage Chair and Professor of Music, college of Visual and Performing Arts. BM 1975, American Conservatory of Music; MM 1981, Northwestern University; DMA 1988, Catholic University of America.

Lee, Chi-Hyon, Assistant Professor of Management. BA 1987, University of California; MBA 1991, University of Southern California; PhD 2001, Boston University.

Lee, Hun, Associate Professor of Management. BS 1986, Georgia Institute of Technology; MBA 1988, Thunderbird School of Global Management; PhD 1995, University of Maryland.

Lee, Jongdoo, Visiting Assistant Professor of Finance. BA 1991, Yonsei University, Korea; MBA 1997, University of Rochester; PhD 2006, George Washington University.

Lee, Seungwon (Shawn), Assistant Professor of Tourism and Events Management. BEng 1995, In-Ha University; MTA 2001, George Washington University.

Leeman, Jennifer, Associate Professor, Modern and Classical Languages. BA 1986, University of Pennsylvania; MA 1988, New York University; MAT 1993, PhD 2000, Georgetown University.

Leeson, Peter, Assistant Professor of Economics. BA 2001; PhD 2005, George Mason University.
Lei, Ling, Assistant Professor of Accounting. Bachelor 1998, Shanghai Jiao Tong University, China; MPhil 2000, Hong Kong University of Science and Technology; MS 2003, University of Rochester; PhD 2008, University of Connecticut.

Leitch, Pauline, Director, Business Finance Center, Mason Enterprise Center. BA 1967, St. Mary’s College.

Leon, Sharon, Research Instructor, History and Art History. BA 1997, Georgetown University.

Leonard, Jeannie Brown, Director, Bachelor of Individualized Study. AB 1985, Mount Holyoke College; MEd 1990, University of Vermont; PhD 2007, University of Maryland.

Lepore, Jim, Professor of Dance. BA 1987, State University of New York; MFA 1989, Temple University.

Leslie, Timothy, Assistant Professor of Geography and Geoinformation Science. BA 2002, University of Miami; MA 2004, PhD 2007, Arizona State University.

Lester, Jaime Renee, Assistant Professor, Higher Education Program. BA, University of Michigan; MEd 2003, PhD 2006, University of Southern California.

Levine, James Steven, Associate Professor of Russian. BA 1971, BA 1972, State University of New York, Buffalo; MA 1974, PhD 1977, University of Illinois, Urbana-Champaign.

Levy, David M., Professor of Economics. BA 1966, University of California, Berkeley; MA 1970, PhD 1979, University of Chicago.

Lewandowski, Cathleen, Professor and Chair of Social Work. BS 1975, Blackburn College; MSW 1981, St. Louis University; PhD 1997, University of Kansas.

Lewis, Edward Miller, Special Projects, Executive Programs, School of Management. BS 1973, University of Maryland; MS 2001, Virginia Polytechnic Institute and State University.

Lewis, Virginia Ann, Director, Retention Initiatives. BS 1975, Towson State University; MA 1979, University of Maryland.

Li, Fei, Assistant Professor, Computer Science. BSc 1997, Jilin University; MS 2002, PhD 2007, Columbia University.

Li, Ning, Assistant Professor, Marketing. BS 1992, Nanjing Institute of Meteorology; MS 2002, PhD 2002, Duke University.

Li, Qiliang, Assistant Professor, Electrical and Computer Engineering. BS 1996, Wuhan University; MS 1999, Nanjing University; PhD 2004, North Carolina State University.

Lichter, Samuel, Professor, Communication. BA 1969, University of Minnesota; PhD 1977, Harvard University.

Lieb, Bernard Joseph, Jr., Professor of Physics and Astronomy. BS 1965, MS 1967, PhD 1971, College of William and Mary.

Lien, Jyh-Ming, Assistant Professor, Computer Science. BS 1999, National Cheng-Chi University; PhD 2006, Texas A&M University.

Light, Andrew, Associate Professor, Philosophy. BA 1989, Mercer University; MA 1992, PhD 1996, University of California, Riverside.
Lim, Teck Cheong, Associate Professor of Mathematical Sciences. BS 1972, Nanyang University; MA 1971, PhD 1974, Dalhousie University.

Lin, Jeng-Eng, Associate Professor of Mathematical Sciences. BS 1969, National Tsing Hua University; PhD 1976, Brown University.

Lin, Jessica H., Assistant Professor, Computer Science. BS 1999, MS 2002, PhD 2005, University of California, Riverside.

Lindley, Lisa, Assistant Professor of Global and Community Health. BS 1991, George Mason University; MPH 1993, DrPH, 1997, University of South Carolina.

Linehan, Tere, Aignore Development, College of Science. BS 1970, Colorado State University.

Ling, Yan, Assistant Professor, Management. BA 1997, Central University of Finance and Economics; PhD 2004, University of Connecticut.

Linton, Harold, Director and Professor of Art and Visual Technology, College of Visual and Performing Arts. BFA 1969, Syracuse University; MFA 1972, Yale University.

Liotta, Lance, Codirector, Center for Applied Proteomics and Molecular Medicine, University Professor of Molecular and Microbiology. BA 1969, PhD 1974, MD 1976, Case Western Reserve University.

Liss, Cynthia A., Term Instructor of Nursing. BSN 1978, Lewis University; MHSA 1987, Georgetown University.

Lister, Lisa M., Term Assistant Professor, English. BA 1997, Lewis and Clark College; MFA 2005, American University.

Listokin, Siona R., Assistant Professor of Public Policy. BS 2000, University of Pennsylvania; PhD 2007, University of California, Berkeley.

Litchfield, Carol, Research Associate Professor, Environmental Science and Policy. BSMT 1958, MS 1960, University of Cincinnati; PhD 1969, Texas A&M University.

Liu, Zhong, Research Professor, Environmental Science and Policy. BS 1983, Shandong College of Oceanography; MS 1990, SD School of Mines and Technology; PhD 1995, Ohio State University.

Lockwood, J. Samaine, Assistant Professor, English. BA 1996, Vassar College; MA 1997, University of Michigan, Ann Arbor; PhD 2006, University of California, Davis.

Loech, Andrew G., Associate Professor of Systems Engineering and Operations Research. BS 1974, Polytechnic Institute of Brooklyn; MS 1980, Naval Postgraduate School; MS 1989, PhD 1990, Cornell University.

Lohner, Rainald, Distinguished Professor of Fluid Dynamics, Department of Computational and Data Sciences. MS 1982, Technische Universitat, Braunschweig, West Germany; PhD 1984, University College of Swansea, Wales.

Long, Lauren, Director of the Office of Student Activities. BS 1994, State University of New York; MA 1996, Indiana State University.

Lont, Cynthia, Professor of Communication, Director of Film and Video Studies. BA 1974, State University of New York; MA 1976, Southern Illinois University; PhD 1984, University of Iowa.

Lopez-Santana, Mariely, Assistant Professor, Department of Public and International Affairs. BA 1997, University of Puerto, Rio Piedras; PhD 2006 University of Michigan.
Louh, Nyla, Assistant Director, Development, College of Visual and Performing Arts. BM 2003, James Madison University; MM 2006, George Mason University.

Lovejoy, Thomas E., University Professor of Public and International Affairs and Environmental Science and Policy. PhD 1971, Yale University.

Lowry, Beverly F., Professor of English. BA 1960, Memphis State University.

Lu, Jian, Assistant Professor, Atmospheric, Oceanic and Earth Sciences. BS 1992, MS 1996, PhD 1999, University of Qingdao; PhD 2004, Dalhousie University.

Lucas, Nance, Associate Dean, New Century College. BA 1982, MA 1984, Pennsylvania State University; PhD 1999, University of Maryland.

Ludwick, Ann M., Graduate Student Coordinator, Public and International Affairs Graduate Programs. BA 1988, Longwood University; MPA 1995 George Mason University.

Lukacs, Yehuda, Associate Provost for Global Education; Director, Center for Global Education; Professor Public and International Affairs. BA 1980, MS 1982, PhD 1989, American University.

Luke, Sean, Associate Professor, Computer Science. BS 1993, Brigham Young University; PhD 2000, University of Maryland.

Lum, Cynthia, Assistant Professor, Criminology, Law, and Society. BA 1995, University of California; MS 1996, London School of Economics and Political Science; PhD 2003, University of Maryland.

Lynch, Michael F., Director of University Police. BA 1978, University of Maryland; MA 1992, University of Baltimore; MS 1997, Johns Hopkins University.

Lyons, Michael, Instructor of Applied Information Technology. BAppSc, Chisholm Institute of Technology; MS, University of Maryland University College.

Lyons, Terrence P., Associate Professor of Conflict Analysis and Resolution. BA 1981, University of Virginia; MA 1985, Michigan State University; PhD 1993, Johns Hopkins University.

Lytton, Randolph Hoopes, Associate Professor of History. BA 1966, Pennsylvania State University; MA 1968, University of Washington; PhD 1973, Pennsylvania State University.

M

Macfarlane, Allison, Associate Professor, Environmental Science and Policy. BS 1986, University of Rochester; PhD 1992, Massachusetts Institute of Technology.

Madden, Charles, Term Assistant Professor of Biology. BS 1989, Kansas State University; PhD 1996, Louisiana State University.

Maddox, Peggy Jo, Professor and Chair, Health Administration and Policy. BSN 1974, University of Nevada; MSN 1981, Catholic University of America; EdD 1995, Columbia University.

Maddox, Tamara A., Term Assistant Professor, Computer Science. BS 1987, George Mason University; JD 1991, College of William and Mary.

Maddux, James Eugene, University Professor of Psychology; Director, Clinical Psychology Program. BA 1976, University of Richmond; MA 1979, PhD 1982, University of Alabama.

Magro, Anne M., Associate Professor, Accounting. BA 1987, The University of Michigan, Ann Arbor; MS 1991, PhD 1998, University of Illinois, Urbana-Champaign.
Mahler, Julianne G., Professor of Government and Politics. BA 1968, Macalester College; MA 1970, PhD 1976, State University of New York, Buffalo.

Mahon, Margaret M., Associate Professor of Nursing. BSN 1980, Loyola University; MSN 1982, PhD 1992, University of Pennsylvania.

Maibach, Edward, University Professor and Director of Center of Excellence in Climate Change Communication Research; BA 1980, University of California; MPH 1983, San Diego State University; PhD 1990, Stanford University.

Maio, Anthony Joseph, University Professor of Music. BS 1965, MS 1967, Ithaca College.

Malawer, Stuart S., Distinguished Service Professor of Law and International Trade. BA, University of Buffalo; MA, PhD 1976, University of Pennsylvania.

Malek, Sam, Assistant Professor, Computer Science. MS 2004, PhD 2007, University of Southern California.

Mallett, Karyn Elizabeth, Assistant Director, English Language Institute. BA 1997, University of Iowa; MA 2002, California State University - Sacramento; PhD 2009, Purdue University.

Malloy, Jacquelynn A., Assistant Professor of Education. BA 1979, Duquesne University; MS 1980, West Virginia University; PhD 2008, Clemson University.

Manca, Germana, Assistant Professor of Geography and Geoinformation Sciences. PhD 1998, University of Sassari, Italy.

Mancini, Terri A., Director, Sponsored Research Administration, The Volgenau School of Information Technology and Engineering. BS 1993, Strayer University; MPA 2008, George Mason University.

Mandaville, Peter P., Associate Professor, Public and International Affairs. MA 1994, University of St. Andrews, Scotland; MA 1995, PhD 1999, University of Kent, Canterbury, United Kingdom.

Mandes, Evans John, Professor of Psychology and Interdisciplinary Arts; Senior Associate Dean for Budget and Personnel, College of Science. AB 1961, MS 1963, PhD 1966, George Washington University.

Mangus, Kathryn K., Term Instructor of Communication; Assistant Director for Student Media. BS 1987, MAIS 1990, George Mason University.

Manitius, A.Z., Professor and Chair, Electrical and Computer Engineering Department. MSEE 1960, Academy of Mining and Metallurgy, Krakow, Poland; PhD 1968, Polytechnical School of Warsaw.

Mann, Wendy, Education and New Century College Liaison Librarian. BA, MLS, University of Pittsburgh.

Mantz, Jeffrey W., Assistant Professor of Anthropology. BA 1993, University of Massachusetts; MA 1996, State University of New York, Binghamton; PhD 2003, University of Chicago.

Manuel Scott, Wendi N., Director, African and African American Studies Program and Term Associate Professor, History and Art History. BA 1994, College of Charleston; MA 1997, PhD 2003, Howard University.

Maradiegue, Ann, Assistant Professor of Nursing. BSN 1992, MSN 1995, PhD 2007, George Mason University.

Marcantonio, Carla, Assistant Professor, English. BA 1995, MA 1998, University of Colorado, Boulder; PhD 2007, New York University.

Marchant, Anne J., Associate Director, Mason Center for Conservation Studies; and Professor, Applied Information Technology. BA 1979, University of New Hampshire; MA 1982, PhD 1990, University of California, Berkeley.
Marcus, Brian, Associate Dean, Development, and Associate Professor, Arts Management. BA, Brandeis University; MAT 1970, Harvard University.

Mark, Brian L., Associate Professor, Electrical and Computer Engineering. BASc 1991, University of Waterloo; MA 1993, PhD 1995, Princeton University.

Marks, Michelle A., Associate Provost for Graduate Education. BS 1991, James Madison University; MA 1993, PhD 1997, George Mason University.

Markx, Francien, Assistant Professor of German. MA (Doctoraal Examen) 1994, MA (Doctoraal Examen) 1994, Universiteit van Amsterdam (The Netherlands); PhD 2003, University of Illinois, Urbana-Champaign.

Marshall, Monty G., Research Professor, School of Public Policy. BA 1988, University of Colorado; MA 1990, University of Maryland; PhD 1996, University of Iowa.

Masters, Patricia, Term Assistant Professor, Sociology, BA 1990, George Mason University; MA 1993, PhD 1998, American University.

Martin, Melissa A., Assistant Professor of Marketing. BA, 1977, Bucknell University; MBA 1980, University of Pittsburgh; PhD 2004, Kenan-Flagler Business School, University of North Carolina.

Martin, Scott, Assistant Dean, Research, Technology, and Institutional Development, College of Visual and Performing Arts; Associate Professor of Arts Management. BM 1988, MM 1989, Johns Hopkins University; DMA 2000, University of Maryland.

Masters, Patricia, Term Associate Professor, Sociology. BA 1990, George Mason University; MA 1993, PhD 1998, American University.

Mastrofski, Stephen D., University Professor Criminology, Law, and Society. BA 1969, University of Iowa; PhD 1981, University of North Carolina, Chapel Hill.

Mastropieri, Margo, University Professor of Education, BA 1978, MEd 1976, University of Massachusetts; PhD 1983, Arizona State University.

Matthews, Jessica, Term Assistant Professor, English. BS 1972, Drexel University; MA 1992, Austin Peay State University; PhD 2005, George Washington University.

Matthews, Tansy, Associate Director, VIVA. BFA 1999, Savannah College of Art and Design; MLIS 2004, Drexel University.

Mattson, Janna, Social Sciences Liaison Librarian. BA 1997, Virginia Commonwealth University; MSL 2004, Queens College, City University of New York.

Mattusch, Carol C., Mathy Professor of Art History. BA 1969, Bryn Mawr College; PhD 1975, University of North Carolina.

Matveev, Mikhail, Term Assistant Professor of Mathematical Sciences. MS 1981, PhD 1985, Moscow M. V. Lomonosov State University.

Matz, Robert, Chair of English and Associate Professor of English. AB 1986, Cornell University; MA 1988, PhD 1994, Johns Hopkins University.

Maulden, Patricia, Assistant Professor of Conflict Analysis and Resolution, BA 1999, University of California, Santa Cruz; MS 2002, PhD 2007, George Mason University.

Maxwell, Joseph A., Professor of Education. BA 1965, Reed College; MA 1971, PhD 1986, University of Chicago.

Mayer, Jeremy D., Associate Professor, School of Public Policy. BA 1990, Brown University; PhD 1996, Georgetown University.

Mazumdar, Prosenjit, Assistant Professor of MIS and Decision Sciences. BSc (Honors) 1980, Presidency College, Calcutta; MS 1984, PhD 1986, University of Maryland, College Park.

McAfee, Melissa, Head, Special Collections and Archives. BA, University of Wisconsin, Madison; MLS, Columbia University.

McAuley, William J., Professor, Communication. BA 1968, University of North Carolina, Charlotte; PhD 1974 Pennsylvania State University.

McBride, Randolph A., Associate Professor, Atmospheric, Oceanic and Earth Sciences. BA 1982, Wittenberg University; MS 1986, PhD 1997, Louisiana State University.

McCabe, Kevin A., Professor of Economics and Law, Economic Science Laboratory. BS 1976, Villanova University; PhD 1985, University of Pennsylvania.

McCarty, Corrine, Assistant Professor, English. BS 1996, University of Illinois, Urbana-Champaign; MA 1999, University of Pittsburgh; PhD 2007, McGill University.

McClain, John, Deputy Director and Coordinator, Center for Regional Analysis. BS 1965, Duke University; Master’s Degree of City and Regional Planning 1968, University of North Carolina, Chapel Hill.

McCord, Theodore B., Term Assistant Professor of History. BA 1968; MA 1976; George Mason University; PhD 1991, American University.

McCrohan, Kevin F., Professor of Marketing. BS 1967, New York University; MBA 1971, MBA 1973, Baruch College; PhD 1978, City University of New York.

McCotcheon, Megan E., Research Instructor, Sociology and Anthropology. BS 2000, Ohio State University; MA 2002, University of North Carolina, Charlotte.

McDade, Charles F., Senior Associate Athletic Director of Aquatics and Recreational Sports. University of Arkansas. BS, Virginia Polytechnic Institute and State University; MS, University of Arkansas.

McDaniel, James Goodlett, Associate Provost for Distance Education, Office of the Provost and Associate Dean and Associate Professor, College of Health and Human Services. BSN 1980, Bartlett College; MSN 1985, East Carolina University; EdD 1988, North Carolina State University; MBA 2002, Jacksonville University.

McDonald, Craig G., Assistant Professor, Psychology. BSc 1989, MSc 1994, PhD 2001, University of Victoria.

McDonald, Heather, Professor of Theater. BA 1981, Florida State University; MFA 1984, New York University.

McDonald, Michael P., Associate Professor of Government and Politics. BS 1989, California Institute of Technology; PhD 1999 University of California, San Diego.

McDonald, Suzanne, Assistant Professor. PhD 2003, The State University of New York, Stony Brook.

McDow, Thomas F., Assistant Professor of History. BA 1993, MA 2003, PhD 2008 Yale University.

McElwain, Michal J., Program Development and Outreach Director of Continuing Education and Public Relations, Mason Enterprise Center, School of Public Policy. BA 1996; MA 1998, George Mason University.
McFerson, Hazel M., Associate Professor of Public and International Affairs. BA 1969, University of Massachusetts; MA 1970, Fletcher School of Law and Diplomacy, Tufts University; PhD 1976, Brandeis University.

McGeehan, Rebecca, Term Assistant Professor of English. BA Catholic University of America; MFA 2006, American University.

McKeough, Emily O’Brien. Assistive Technology Coordinator. BS 2005, Bridgewater College; MEd 2006, George Mason University.

McKnight, Patrick E., Assistant Professor Quantitative/ Clinical Psychology. BS 1988, University of Notre Dame; MS 1992, PhD 1997, University of Arizona.

McLoone, Tracy, Term Assistant Professor. BA 1988, George Washington University; MA 1999, Georgetown University; PhD 2009, George Mason University.

McNamee, Kevin W., Senior Associate Athletic Director for Intercollegiate Sports. MA 1977, Indiana University.

McNay, Curtis L., Director of Information Technology Security, ITU.

McNeely, Connie L., Associate Professor, School of Public Policy. BA 1973, MA 1976, University of Pennsylvania; MA 1985, PhD 1990, Stanford University.

McVicker, Carrie, Events Coordinator, Prince William Campus. BA 1992, Bloomburg University of Pennsylvania.

Meamber, Laurie A., Associate Professor of Marketing. BA 1988, University of California, Davis; MBA 1991, University of California, Riverside; PhD 1997, University of California, Irvine.

Medford, Jeanne D., Assistant Athletic Director for Finance, Intercollegiate Athletics. BS 1982, George Mason University.

Mehta, Kumar, Assistant Professor, Information Systems and Operations Management. BS 1993, Indian Institute of Technology; MS 1996, Southern Illinois University; PhD 2002, University of Illinois.

Meier, Lisa J., Term Assistant Professor, Psychology. BS 1984, Georgetown University; MA 1989, PhD 1993, George Mason University.

Meiners, Mark, Professor of Health Administration and Policy Director. BA 1969, University of Wisconsin; MA 1972, PhD 1978, Georgetown University.

Menascé, Daniel A., Senior Associate Dean, The Volgenau School of Information Technology and Engineering, and Professor of Computer Science. BS 1974, MS 1975, Pontificia Universidade Catolica do Rio de Janeiro; PhD 1978, University of California, Los Angeles.

Merchant, Cora Diane, Transition Coordinator. BA 1974, Florida State University; MS 1977, University of Tennessee; PhD 2007, George Mason University.

Merola, Linda M., Assistant Professor, Criminology, Law, and Society. BA 1995, Wesleyan University; JD 1998, George Washington University National Law Center; PhD 2007, Georgetown University.
Merten, Alan G., President. BS 1963, University of Wisconsin; MS 1964, Stanford University; PhD 1970, University of Wisconsin.

Meyer, Carrie A., Associate Professor of Economics. PhD 1988, University of Illinois.

Michals, Teresa, Assistant Professor, English. AB, Cornell University; MA 1988, PhD 1996, Johns Hopkins University.

Middle, Beverly, Term Instructor of Nursing. BS 1979, Radford University; MS 1988, Catholic University of America.

Miklancie, Margaret, Assistant Professor of Nursing. BSN 1986, MSN 1992, PhD 2001, George Mason University.

Miller, Char R., Associate Professor of Government and Politics. BA 1990, BS 1990, Idaho State University; PhD 1999, Johns Hopkins University.

Miller, John James, Associate Professor, Statistics. AB 1968, University of Rochester; MS 1969, PhD 1974, Stanford University.

Miller, Katharine, Research Assistant, Life Sciences. BA 1999, University of Virginia.

Miller, Linda Garner, Senior Associate Dean, Academic Affairs, College of Visual and Performing Arts; Professor of Dance. BFA 1972, University of Cincinnati; MFA 1980, University of Hawaii.

Miller, Nikki, Technical Assistance Specialist. BA 1965, University of Denver; MA 1966, Ohio State University; EdD 1996, University of San Francisco.

Miller, William B., Term Associate Professor of English. BA 1973, University of North Carolina; MFA 1986, George Mason University.

Miller, William, G., Jr., Assistant Director of the Office of Code Compliance. Virginia Apprenticeship Program, George Mason University, Lord Fairfax Community College, and Northern Virginia Community College.

Milligan, Renee, Professor of Nursing. BS 1974, MA 1977, Ball State University; PhD 1989, University of Maryland.

Mircea-Pines, Walter, J., Instructional Technologist and Language Lab Director, Modern and Classical Languages. BA 1985, University Babes-Bolyai; MA 1996, State University of New York, Buffalo; PhD 2009, George Mason University.

Mishin, Yuri, Professor, Physics and Astronomy. MSc 1979, PhD 1985, Moscow Institute of Steel and Alloys.

Mitcho, Sara R., Term Instructor, English. BA 2000, James Madison University; MA 2002, Penn State University.

Mohr, Jonathan J., Associate Professor, Psychology. BA 1988, University of California, Santa Cruz; MS 1995, California State University; PhD 2001, University of Maryland.

Moidu, Khalid, Associate Professor of Health Administration and Policy. MD 1972, University of Poona, India; MPhil 1989, PhD 1992, Linkoping University, Sweden.

Moloney, Deirdre, Director, Fellowship and Undergraduate Apprenticeship Program, Office of Student Academic Affairs. BA 1984, St. Lawrence University; MA 1989, PhD 1995, University of Wisconsin, Madison.

Moncure, Thomas, University Counsel. BA, Virginia Military Institute; MA, George Mason University.

Monson, Linda Apple, Professor and Associate Director of Music, College of Visual and Performing Arts. BMEd 1979, MM 1981, DMA 1986, Peabody Conservatory of Music of the Johns Hopkins University; Diploma (piano performance), Santiago de Compostela, Spain.

Montgomery, Jennifer, Director of Major Gifts, Patriot Club. BA 1999, University of Virginia; MA 2003, Georgetown University.

Moore, Jean Burley, Professor of Nursing. BSN 1964, University of North Carolina, Chapel Hill; MSN 1977, PhD 1984, Catholic University of America.

Moore, Joseph D., Director, Hampton Roads Procurement Technical Assistance Center, Mason Enterprise Center. BS 1975, Loma Linda University; MBA 1990, Webster University; MS 2002, Florida Institute of Technology.

Morelli, Julia G., Director of Operations, Capitol Connection. MA 1995, George Mason University.

Mori, Kyoko, Associate Professor, English. BA 1979, Rockford College; MA 1981, PhD 1984, University of Wisconsin, Milwaukee.

Morowitz, Harold J., Robinson Professor of Biology and Natural Philosophy. BS 1947, MS 1950, PhD 1951, Yale University.

Morris, Walter D., Jr., Professor of Mathematical Sciences. BS 1980, Iowa State University; MS 1984, PhD 1986, Cornell University.

Mose, Douglas, Professor of Geochemistry. BS 1965, University of Illinois; MS 1968, PhD 1971, University of Kansas.

Moss, Margaret M., Assistant Professor of Nursing. Diploma in Nursing 1965, Whidden Memorial Hospital School of Nursing; BSN 1982, MSN 1991, PhD 2007, George Mason University.

Motro, Amihai, Professor, Computer Science. BS 1972, Tel Aviv University; MS 1976, Hebrew University of Jerusalem; PhD 1981, University of Pennsylvania.

Mouri, Nacef, Assistant Professor of Marketing. BS 1993, Higher International Institute of Tourism Studies; MBA 1997, PhD 2005, University of Central Florida.

Moy, Christopher T., Director, Office of Disability Services. BS 1996, MS 1998, Boston University.

Muir, Janette Kenner, Associate Professor, New Century College and Communication. BS 1979, Palm Beach Atlantic College; MA 1983, Wake Forest University; PhD 1986, University of Massachusetts.

Muir, Star A., Associate Professor of Communication. BA 1980, Wake Forest University; MA 1982, University of Central Florida; PhD 1990, University of Pittsburgh.

Mulpuri, V.R., Professor, Electrical and Computer Engineering. MS 1983, PhD 1985, Oregon State University.
Murphy, James Owen, Jr., Instructor; Director of Intramural Recreation. BS 1975, George Mason University.

Murphy, Jennifer O., Assistant Vice President of Research and Economic Development, Director of Technology Transfer. MBA 1982, American University.

Murphy, Una M., Associate Director and Director Leadership Gifts, Development Office. BA 1989, Brooklyn College.

Murray, Kevin P., Managing Director, Theater of the First Amendment. BA 1975, University of Maryland.

Mushrush, George William, Professor of Chemistry; BS 1962, Indiana University of Pennsylvania; MS 1965, PhD 1968, George Washington University.

N

Nadeau, Robert Lee, Professor of English. BA 1966, University of the South; MA 1967, PhD 1970, University of Florida.

Naglieri, Jack A., Professor of Psychology; Director, School Psychology Program. BA 1972, C.W. Post of Long Island University; MA 1975 St. John’s University; PhD 1979, University of Georgia.

Nakles, Robert E., Director, Information Technology Project Office, Information Technology Unit. BS, Indiana University of Pennsylvania; MS, Shippensburg University of Pennsylvania.

Nambiar, Kannan, Advisor, Student Services. BA 1974, Herbert H. Lehman College, City University of New York; MA 1979, PhD 1984, State University of New York, Stony Brook.

Nan, Susan H. Allen, Assistant Professor of Conflict Analysis and Resolution. BA 1992, University of Virginia; MS 1995, PhD 2000, George Mason University.

Nanian, Richard A., Term Assistant Professor of English. BA 1984, Simon’s Rock College; MA 1995, Salem State College; PhD 2000, University of Wisconsin, Milwaukee.

Naor, Michael, Assistant Professor, Information Systems and Operations Management. BS 1994, Israel Institute of Technology; MBA 1998, Tel-Aviv University; PhD 2005, University of Minnesota.

Napoleoni, Domenico, Assistant Professor of Mathematical Sciences. MS 1999, PhD 2005, George Mason University.

Nash, Stephen G., Professor, Systems Engineering and Operations Research and Affiliate, Department of Mathematical Sciences. BS 1977, University of Alberta, Canada; PhD 1982, Stanford University.

Nasser, Ilham, Assistant Professor of Education. BA 1985, MA 1987, Hebrew University, Jerusalem; PhD 1997, University of Maryland.

Nauright, John, Professor of Education. BA 1985, MA 1988, University of South Carolina; Ph.D. 1992 Queen’s University, United Kingdom.

Ndura, Elavie, Associate Professor of Education. BA 1983, University of Burundi; MEd 1987, University of Exeter; EdD 1994, Northern Arizona University.

Nelson, Jill Karen, Assistant Professor, Electrical and Computer Engineering. BS 1998, Rice University; MS 2001, PhD 2005, University of Illinois, Urbana-Champaign.

Newmark, Lisa C., Term Assistant Professor, Criminology, Law, and Society. BA 1982, MA 1985, PhD 1989, University of Connecticut.

Ngalabak, Helon Habil, Assistant Professor, English. BA 1995, University of Jos.
Nguyen, Cuong T., Associate Professor of Religious Studies. BA 1970, Van Hanh University, Vietnam; MA 1979, University of California, Santa Barbara; AM 1982, PhD 1990, Harvard University.

Nguyen, Hung M., Associate Professor of Government and Politics. LLB 1960, University of Saigon; MA 1963, PhD 1965, University of Virginia.

Niblock, Janet R., Executive Director, Office of Continuing Professional Education. MA 1992, Virginia Polytechnic Institute and State University.

Nichols, Len, Director, Center for Health Policy Research and Ethics; Professor of Health Administration and Policy. BA 1975, Hendrix College; MA 1976, University of Arkansas; MS 1978, PhD, 1980, University of Illinois.

Nichols, Melissa M., Assistant Professor, English. BA 1993, Northern Kentucky University; MFA 1999, George Mason University.

Nickens, Michael, Assistant Professor of Music. BM 1998, Manhattan School of Music; MM 2001, Yale University; DMA 2006, University of Michigan.

Nicogossian, Arnauld E.T., Distinguished Research Professor and Center for the Study of International Medical Policies and Practices, School of Public Policy. BA 1956, Lycée Franco-Iranian Razi, Iran; MD 1964, Tehran University; MS 1972, Ohio State University.

Nicotera, Anne Maydan, Associate Professor, Communication. BA 1985, Utica College of Syracuse University; MA 1987, State University of New York, Albany; PhD 1990, Ohio University.

Nikoi, Andrea H., Director of Finance and Human Resources. BS 1987, MBA 1991, Louisiana State University, New Orleans.

Nikolic, Predrag, Assistant Professor, Physics and Astronomy, BS 1998, University of Belgrade, Serbia, PhD 2004, Massachusetts Institute of Technology

Nikolova, Stanislava, Assistant Professor of Finance. BS 1998, State University of New York, Geneseo; PhD 2004, University of Florida.

Nolder, S. Lisa, Director of Graduate Student Services, The Volgenau School of Information Technology and Engineering. BA 1995, Hawaii Pacific University; MA 2008, George Mason University.

Nord, Julia, Term Assistant Professor, Atmospheric Oceanic and Earth Science. BS 1981, University of Birmingham; MS 1984, University of Minnesota, Duluth; PhD 1989, City University of New York, Brooklyn College.

Norden, Luanne, Instructor and Coordinator of Student Teaching. BS 1981, MA 1984, University of Nebraska.

Nordstrom, David, Assistant Professor, Computer Science. BA 1971, University of Michigan; PhD 1976, University of California, Berkeley.

Normile, Loretta A., Associate Professor of Nursing. BSN 1972, MN 1977, University of Pittsburgh; PhD 1989, American University.

Norton, Priscilla, Professor of Education. BS 1972, Lewis and Clark College; MS 1978, Oregon College of Education; EdD 1982, United States International University.

Nutter, Sarah E., Chair and Associate Professor of Accounting. BS 1980, Ferris State; MBA 1983, PhD 1993, Michigan State University.
Nye, John, Professor of Economics, BS 1981, MA 1983, PhD 1985, Northwestern University.

O

O’Beirne, Richard C., Term Instructor of Mathematics. BA 1971, Fordham University; MA 1972, St. John’s University.

Oberle, George, Head, Johnson Center Library. BA 1996, MA 1999, George Mason University; MLS 2003, University of Maryland.

O’Brien, Alison S., Assistant Professor and Associate Dean of Undergraduate Programs, School of Management. BS 1982, University of Florida; MBA 1986, Brenau College; BS 1995, MA 1997, PhD 2001 George Mason University.

O’Brien, Tami, Director of Communications, College of Health and Human Services. BA 1995, George Mason University.

O’Connor, John Sylvester, Professor, New Century College. AB 1968, University of Michigan; MA 1969, PhD 1974, University of Virginia.

Odstrcil, Dusan, Research Professor, Computational and Data Sciences. BS 1978, Comenius University; MS 1979, PhD 1984, Comenius University

Oerter, Robert N., Term Associate Professor, Physics and Astronomy. BA 1983, Swarthmore College; MS 1987, PhD 1989, University of Maryland.

Offutt, A. Jefferson, Professor, Computer Science. BS 1982, Morehead State University; MS 1985, PhD 1988, Georgia Institute of Technology.

Oh, Kyeung Mi, Assistant Professor of Nursing. BA 1998, University of Newcastle; MS 1999, University of Sydney; PhD 2005, University of Sheffield.

Olds, James, Director, University Professor of Neuroscience, Krasnow Institute for Advanced Study. BA 1978, Amherst College; PhD 1987, University of Michigan.

Olmstead, Todd A., Assistant Professor of Public Policy, School of Public Policy. BS 1987, MS 1989, State University of New York, Buffalo; MS 1994, University of North Carolina; PhD 2000, Harvard University.

Olson, Kristina M., Assistant Professor of Italian. BA 1998, Bard College; MA 2001, PhD 2006, Columbia University.

O’Malley, Michael, Associate Professor of History. BA 1981, Temple University; MA 1984, PhD 1988, University of California, Berkeley.

Opher, Merav, Associate Professor, Physics and Astronomy. BS 1992, PhD 1998, University of Sao Paulo.

Orens, John, Term Professor of History. BS 1965, University of Wisconsin; MA 1968, PhD 1976, Columbia University.

Osterling, Jorge P., Associate Professor of Education. BS 1971, Catholic University of Peru; MS 1973, PhD 1978, University of California, Berkeley.

Otto, Ray, Term Assistant Professor of Biology. BS 1981, PhD 1987, University of North Carolina, Chapel Hill.

Owen, Julie E., Assistant Professor of New Century College. BA 1993, College of William and Mary; MEd 1996, James Madison University.

Owens, Thomas C., Associate Professor of Music. BA 1991, University of North Carolina, Greensboro; MA 1994, PhD 1999, Yale University.

P

Pachowicz, Peter W., Associate Professor, Electrical and Computer Engineering. MS 1981, PhD 1984, Stanislaw Staszic University of Mining and Metallurgy.

Paczynska, Agnieszka, Associate Professor of Conflict Analysis and Resolution, BA 1989, MA 1991, New York University; PhD 2002, University of Virginia.

Padden, John, Robinson Professor of International Studies. BA 1959, Occidental College; MA 1961, Oxford University; PhD 1968, Harvard University.

Padden, Roger K., Associate Professor of Philosophy. BS 1974, MA 1977, PhD 1981, University of Illinois.

Paez, Deborah, Assistant Director, Development, College of Visual and Performing Arts. BA 2003, University of South Carolina; MA 2007, George Mason University.

Palkovich, Ann M., Associate Professor of Anthropology. AB 1974, University of Chicago; MA 1976, PhD 1978, Northwestern University.

Palubinskas, Ginta, Undergraduate Program Coordinator. BA 1986, Loyola Marymount University; MPA 1993, George Washington University; PhD 2003, George Mason University.

Pancrazio, Joseph, Professor of Electrical and Computer Engineering and Director, Bioengineering Program, The Volgenau School of Information Technology and Engineering. BS 1985, University of Illinois; MS 1988, PhD 1990, University of Virginia.

Pankey, Eric, Professor of English, Heritage Chair in Writing. BS 1981, University of Missouri; MFA 1983, University of Iowa.

Panners, Teresa L., Associate Professor of Nursing. AAS 1972, Monroe Community College; BS 1976, Empire State College; MS 1979, PhD 1991, University of Rochester.

Papaconstantopoulos, Dimitrios A., Professor of Physics and Astronomy and Chair, Department of Computational and Data Sciences. BS 1961, University of Athens; DIC 1963, Imperial College of London; MS 1964, PhD 1967, University of London.

Parasuraman, Raja, University Professor, Psychology; Director, Human Factors/Applied Cognitive Psychology Program. BS 1972, University of London; MS 1973, PhD 1976, Aston University.

Parham, Candace S., Instructor of Athletic Training. BS 2003, University of Virginia; MS 2005, George Mason University.

Paris, Bernd-Peter, Associate Professor, Electrical and Computer Engineering and Director, MS in Telecommunications. Dipl-Ing 1986, Ruhr University, Germany; PhD 1990, Rice University.

Park, Chong (Holly), Director of Fiscal Services, School of Public Policy. BS 1997, MBA 2001, Old Dominion University.

Park, Julie Kim, Term Assistant Professor of English. BA 1993, MS 1994, PhD 2000, University of Pennsylvania.

Park, Minkyung, Assistant Professor of Tourism and Event Management. BA 1990, MA 1993, Han Yang University, Korea; MS 1996, Pennsylvania State University; PhD 2000, Texas A&M University.

Parker, Cindy W., Assistant Professor, Management. BS 1992, MA 1994, PhD 1998, George Mason University.
Parker, Dawn, Associate Professor, Krasnow Institute.

Parker, Shernita Rochelle, Director of Development, College of Education and Human Development. BA 1992, Boston College; JD 1995, University of Maine Law School.

Parsons, E.C.M., Term Associate Professor, Environmental Science and Policy. BA 1991, MA 1997, Oxford University; PhD 1996, University of Hong Kong.

Parsons, Seth A., Assistant Professor of Education. BA 2002, Centre College; MEd 2005, PhD 2008, University of North Carolina, Greensboro.

Pasnak, Robert, Professor of Psychology. BS 1964, University of Maryland; MS 1965, PhD 1969, Pennsylvania State University.

Patrick, Sondra, Director of Enrollment Development, Regional Campuses. BA, University of Texas; MA, University of Oklahoma; PhD, George Mason University.

Patterson, Pamela, Assistant Vice President and Dean of Students. BS 1989, MS 1991, Eastern Illinois University.

Patton, Sarah, University Dissertation and Thesis Coordinator. BA 2000, University of Pittsburgh; MSLS 2006, Catholic University of America.

Patty, William Jordan, Processing Archivist and Librarian. BA 1998, University of the South; MA 2003, University of Arkansas; MLS 2005, University of Maryland.

Pawloski, Lisa R., Associate Professor and Chair, Global and Community Health. BA 1991, Texas A&M University; MA 1995, PhD 1999, Indiana University.

Peacock, Patricia, Director, Prince William, Mason Enterprise Center. BA 1976, University of Southern Colorado; MEd 1978, Colorado State University; EdD 1986, Rutgers State University of New Jersey.

Pearson, Jane, Director of Donor Relations and Communications, Development Office. BA 1970, DePauw University.

Pecini, Silva, Assistant Director of Master’s Student Services, School of Public Policy. BA 2004, University of South Florida; MPP 2007, George Mason University.

Pedrick, Merritt W., Assistant Director for Operations, Physical Plant. BS 1978, Pennsylvania State University; MS 1989, University of Florida.

Peixoto, Nathalia, Assistant Professor, Electrical and Computer Engineering. BS 1996, MS 1997, Universidade Estadual de Campinas (UNICAMP), SP, Brazil; DSc 2001, Universidade de Sao Paulo (USP), SP Brazil.

Peppard, Lora, Term Clinical Assistant Professor of Nursing. BA 1998, Wesleyan College; MS 2004, Boston College; DNP 2008, Columbia University.

Perdiou, Thomas, Counselor, Student Financial Aid. BA 1987, University of Iowa.

Perlin, Martin, Senior Health Care Executive in Residence and Term Associate Professor of Health Administration and Policy. BS 1962, Emory University; MBA 1966, DBA 1971, George Washington University.

Perry, Erek, Director, University Scholars Program. BA 1992, Shawnee State University; MEd 1995, Ohio State University.
Perry, Katherine Ann, Director, VIVA Project, University Libraries. BA 1972, MLS 1974, University of California, Los Angeles.

Perry, Mary Esther, Data Solutions Coordinator, Information Technology. BA 1974, Mount Holyoke College.

Perry, Wayne D., Professor of Public Policy and Operations Research, School of Public Policy. BS 1967, Tuskegee University; MS 1969, University of New Mexico; PhD 1975, Carnegie Mellon University.

Peters, Erin, Assistant Professor of Education. BS 1990, University of Illinois, Urbana-Champaign; MEd 2004, University of Virginia; PhD 2008, George Mason University.

Peters, Esther C., Term Assistant Professor of Environmental Science and Policy. BS 1974, Furman University; MS 1978, University of South Florida; PhD 1984, University of Rhode Island.

Petersen, Jackie, Instructor, Kellar Institute for Human Disabilities and AIM-VA. B 1981, Morehead State University; MLS 1987, Indiana University - Bloomington.

Petersen, John E., Professor, School of Public Policy. BA 1962, Northwestern University; MBA 1964, PhD 1967, University of Pennsylvania, Philadelphia.

Peterson, Matthew S., Associate Professor of Psychology. BA 1992, University of Tennessee, Knoxville; MA 1994, PhD 1997, University of Kansas.

Petricoin, Emanuel F., Codirector, Center for Applied Proteomics and Molecular Medicine; Chair and University Professor, Molecular and Microbiology. BS 1985, PhD 1990, University of Maryland.

Petrie, Ragan, Associate Professor of Economics. BA 1987, University of Illinois; MPA 1993, University of Pittsburgh; 2002 PhD, University of Wisconsin - Madison.

Petrik, Paula E., Professor, History and Art History. AB 1969, Cornell University; MFA 1973, University of Montana; MA 1979, PhD 1982, State University of New York, Binghamton.

Pettigrew, Katherine, Term Assistant Professor, Chemistry. BS 1999, California State University, Sacramento; PhD 2004, University of California, Davis.

Pevzner, Mikhail B., Assistant Professor, Accounting. BSB 1999, University of Minnesota; MSBA 2004, PhD 2007, Washington University, St. Louis.

Pfiffner, James P., University Professor and Director, PhD in Public Policy, School of Public Policy. BA 1968, MA 1972, PhD 1975, University of Wisconsin, Madison.

Philipov, Alexander, Assistant Professor, Finance. MS 1996, University of Massachusetts, Amherst; PhD 2003, Boston College.

Philpot, Frank Allen, Assistant Professor of Marketing. BA 1967, Vanderbilt University; MA 1968, PhD 1972, Stanford University

Photos, Lisa E., Term Assistant Professor of English. BA 1987, Florida State University; MA 1989, PhD 2008, University of Wisconsin-Madison.

Pierce, Lorraine V., Associate Professor of Education. BS 1974, University of Texas, Austin; MA 1976, University of Texas, San Antonio; PhD 1984, Georgetown University.

Piloff, Steven, Assistant Professor of Finance. BA 1989, University of Virginia; MA 1993, PhD 1995, Wharton School, University of Pennsylvania.

Pirhalla, Karen C., Arlington Campus executive officer. BS 1980, George Mason University.

Platt, Brian W., Chair, Department of History and Art History; Associate Professor of History. BA 1992, Guilford College; PhD 1998, University of Illinois.

Pober, Peter M., Director of Forensics and Term Professor of Communication. BA 1984, University of Pennsylvania; MA 1991, PhD 1996, University of Texas, Austin.

Polayes, Deborah, Term Associate Professor, Biology. BS 1978, University of Connecticut; PhD 1983, Michigan State University.

Pollard, Jeffrey, Director, Counseling Center. BS 1970, MS 1974, Old Dominion University; PhD 1978, University of Virginia.

Polsby, Daniel, Dean and Foundation Professor of Law. BA 1964, Oakland University; JD 1971, University of Minnesota.

Polyak, Roman A., Professor, Systems Engineering and Operations Research; and Professor, Department of Mathematical Sciences. PhD 1966, Central Institute for Economics and Mathematics, USSR Academy of Sciences, Moscow.

Pommerening, Christine, Research Assistant Professor, School of Public Policy. BA 1993, MA 1996, Ruhr-Universitat; PhD 2004, George Mason University.

Pope, John R., Director, English Language Institute. BA 1966, University of New Mexico; MA 1996, George Mason University.

Popov, Serguei, Professor, National Center for Biodefense and Infectious Diseases. MS 1972, PhD 1977, ScD 1992.

Popova, Taissia, Associate Professor, National Center for Biodefense and Infectious Diseases. BA 1972, Novosibirsk University; PhD 1986, All-Union Research Institute for Applied Molecular Biology.

Porter, Jeri W., Head Coach, Women's Basketball. BS 1991, Liberty University.

Portillo, Shannon K., Assistant Professor, Criminology, Law, and Society. BA 2004, PhD 2008, University of Kansas.

Price, Elizabeth, Director and Associate Professor of Dance, College of Visual and Performing Arts. BA 1972, Randolph-Macon Women's College; MA 1978, New York University.

Price, James, Research Faculty, Conflict Analysis and Resolution. BA 1972, Lawrence University; MA 1976, PhD 1980, University of Chicago.

Pullen, J. Mark, Professor, Computer Science. BS 1970, MS 1972, West Virginia University; PhD 1981, George Washington University.

Putnam, Nathan, Catalog/Metadata Librarian. BM 2000, University of Wisconsin; MM 2002, Michigan State University; MLIS 2006, Wayne State University.

Qu, John, Associate Professor, Geography and Geoinformation Science. BS 1983, Nanjing Institute of Meteorology; MS 1993, PhD 1997, Colorado State University.

Quinn, Patrick J., Director of Student Accounts. BS 1997, University of Phoenix; MBA 2001, Arizona State University.

Quintana, Marian, Term Assistant Professor of Spanish. BA 1993, Universidad Complutense, Madrid; MA 1995, Marquette University; PhD 2001, University of Houston.

Rabin, Lisa Marie, Associate Professor of Spanish. BA 1986, Pomona College; MA 1990, PhD 1993, Yale University.

Rader, Victoria Fries, Associate Professor of Sociology. BA 1966, University of California, Berkeley; MA 1968, PhD 1973, University of Chicago.

Raffel, Dorothy, Term Instructor, English. MA 1974, MBA 1978, University of California, Los Angeles.

Rainer, Ilia, Assistant Professor, Economics. BA 1997, MA 1999, Hebrew University, Israel; PhD 2005, Harvard University.

Rajan, Ramkishen S., Associate Professor of Public Policy. BS 1993, National University of Singapore; MA 1998, University of Michigan; MA 1996, PhD 2000, Claremont Graduate University.

Ramirez, Carlos D., Associate Professor of Economics. BA 1987, Wittenberg University; AM 1991, PhD 1993, Harvard University.

Ramos-Pellicia, Michelle F., Assistant Professor, Modern and Classical Languages. BA 1995, University of Puerto Rico; MA 1999, PhD 2004, Ohio State University.

Rangwala, Huzefa, Assistant Professor, Computer Science. BE 2003, Mumbai University; MS 2005, PhD 2008, University of Minnesota, Twin Cities.

Rappaport, Jocelyn S., Director of Communications, School of Public Policy. BA 1984, University of Virginia; MFA 1991, Sarah Lawrence College.

Rashkover, Randi, Assistant Professor, Religious Studies. BA 1987, Barnard College, Columbia University; MTS 1990, Harvard Divinity School, Harvard University; PhD 2000, University of Virginia.

Raskin, Miriam, Professor of Social Work. BA 1965, Brooklyn College; MSW 1969, University of Maryland; EdD 1981, Virginia Polytechnic Institute.

Ray, Sharon, Assistant Professor of Education, College of Education and Human Development. BS 1998, MEd 1999, James Madison University; PhD 2008, University of South Florida.

Razeghi, Jane Ann, Associate Professor of Education. BA 1965, Malone College; MA 1978, EdD 1987, George Washington University.

Rector, Claudia, Assistant Provost for Academic Affairs, Office of the Provost. AB 1993, Wellesley College; PhD 2010, University of Maryland - College Park.

Reedy, Karen, Term Assistant Professor of Dance. BFA 1995, MFA 2009, George Mason University.

Regan, James D., Director, Procurement Technical Assistance Program, Mason Enterprise Center for Regional Analysis and Entrepreneurship, School of Public Policy. BS 1959, U.S. Naval Academy; MS 1965, U.S. Naval Postgraduate School.

Regan, Kelley, Assistant Professor, College of Education and Human Development. BS 1996; MS 1997, Longwood College; PhD 2005, George Mason University.

Regan, Priscilla M., Professor of Government and Politics. BA 1972, Mount Holyoke College; MA 1975, New York University; MA 1977, PhD 1981, Cornell University.
Reid, Shelley, Associate Professor, English. BA 1988, Grinnell College; MA 1991, PhD 1994, State University of New York, Buffalo.

Reinert, Kenneth J., Professor of Public Policy and Director, International Commerce and Policy, School of Public Policy. BA 1980, MA 1982 Boston University; MA 1985, PhD 1988 University of Maryland.

Remsburg, Robin E., Associate Dean, College of Health and Human Services; Director and Professor, School of Nursing. BSN 1978, MSN 1982, University of North Carolina; PhD 1994, University of Maryland.

Rendler, Elaine, Term Professor of Music, College of Visual and Performing Arts. BMEd 1968, Immaculata College; MM 1972, DMA 1978, Catholic University.

Resmini, Ronald G., Research Professor, Geography and Geoinformation Science. BS 1984, Northeastern University; MA 1989, Boston College; PhD 1993, Johns Hopkins University.

Reybold, L. Earle, Associate Professor of Education. BA 1990, MA 1992, PhD 1996, University of Georgia.

Reynolds, Gretchen, Social Sciences Liaison Librarian. BSW, University of Texas; MSI, University of Michigan.

Reynolds, Thomas, Director of Artistic Programming, Marketing and Audience Services, College of Visual and Performing Arts. BA 1979, Luther College.

Rice, Matthew, Associate Professor of Geography and Geoinformation Science. BS 1995, Brigham Young University; PhD 2005, University of California, Santa Barbara.

Richards, Dana S., Associate Professor, Computer Science. MS 1976, University of Virginia; PhD 1984, University of Illinois.

Richards, Phillip, Research Professor of Physics. BS 1972, PhD 1978, La Trobe University.

Richardson, Margaret A., Term Assistant Professor, Art History. BA 1998, Mary Baldwin College; MA 2000, PhD 2005, Virginia Commonwealth University.

Ricouart, Janine M., Professor of French. Eng Lic 1973, Universite de Lille, France; PhD 1986, University of California, Davis.

Riddick, David, Director, Business Development, Executive Programs, School of Management. BA 1974, Monmouth College; MBA 1976, Thunderbird School of Global Management.

Riggle, James D., Associate Research Professor, School of Public Policy. BA 1978, MPA 1980, Northern Illinois University; PhD 2002, George Mason University.

Rikard, G. Linda, Associate Professor of Physical Education. BS 1970, Winthrop University; MEd 1972, University of Georgia; EdD 1979, University of North Carolina, Greensboro.

Rioux-Bailey, Carmen, Instructor of Special Education. BA 1986, Marymount University; MEd 1997, George Mason University; EdS 2003, George Washington University.

Riskind, John Haskell, Professor of Psychology. BA 1970, University of Texas, Austin; PhD 1977, Yale University.

Ro, Young-chan, Chair, Department of Religious Studies, Director, Korean Studies Center, and Professor of Religious Studies. BTh 1965, MTh 1969, Yonsei University; MTh 1973, Union Theological Seminary; PhD 1982, University of California, Santa Barbara.

Robb, Charles S., Distinguished Professor of Law and Public Policy. BBA 1961, University of Wisconsin; JD 1973, University of Virginia.
Robb, Daniel, Director of Graduate Admissions. BA 1984, State University of New York, Albany; MA 1985, Columbia University; MBA 1997, University of Massachusetts, Boston.

Robbins, Suzanne, Assistant Professor, Public and International Affairs. BA 1990, University of Tennessee; MA 1997, University of South Carolina; MA 1999, PhD 2003, State University of New York, Stony Brook.

Roberts, Francine E., Assistant Professor of Nursing. BS 1967, Brigham Young University; MS 1971, State University of New York, Buffalo; PhD 1997, George Mason University.

Roberts, Russell D., Professor of Economics. BA 1975, University of North Carolina; PhD 1981, University of Chicago.

Robinson, David M., Director, Client Relations, ITU. MS 1976, State University of New York, Albany.

Robinson, Gregory, Assistant Professor of Music, College of Visual and Performing Arts. BA 2002, Colby College; PhD 2008 University of Pennsylvania.

Robinson, Iris M., Associate Registrar for Graduation. AB, Vassar College; MPA, State University of New York, Albany.

Rockmann, Kevin, Assistant Professor, Management. BS 1999, PhD 2004, University of Illinois, Urbana-Champaign.

Rockwood, Larry Lewis, Professor of Environmental Science and Policy and Director of the Undergraduate Biology program. BS 1965, PhD 1972, University of Chicago.

Rodgers, Ellen B. Drogin, Associate Dean, Associate Professor of Parks, Recreation, and Leisure Studies. BA 1982, Hood College; MA 1985, University of Maryland; PhD 1991, Pennsylvania State University.

Rodgers, R. Pierre, Associate Professor of Sports Management. BA 1984, University of Alabama; MA 1986, Memphis State University; PhD 1991, Pennsylvania State University.

Roe, David A., President, GMU Foundation Inc. MBA 1995, George Mason University.

Rogers, Paul M., Assistant Professor, English. BA 2000, MA 2003, Humboldt State University; MA 2006, PhD 2008, University of California, Santa Barbara.

Rojahn, Johannes, Director, School Psychology Program; Professor, Psychology. Bachelor, PhD 1976, University of Vienna, Austria.

Roman-Mendoza, Esperanza, Associate Professor of Spanish. BA 1989, Universidad Complutense de Madrid, Spain; PhD 1997, Universidad Nacional de Educación a Distancia, Spain.

Rome, Sunny Harris, Associate Professor of Social Work. BA 1976, Occidental College; MSW 1978, University of Michigan; JD 1984, Georgetown University.

Root, Hilton L., Professor of Public Policy. BA 1974, State University of New York, Buffalo; MA 1977, PhD 1983, University of Michigan.

Rose, Steven R., Professor of Social Work. BA 1973, Brooklyn College, City University of New York; MSW 1975, Washington University; PhD 1981, University of Wisconsin, Madison.

Rose-Robinson, Sia, Assistant Professor of Business Communications. BS 1984, University of Maryland; MA 1990, PhD 1999, Howard University.

Rosenberg, Jessica, Assistant Professor, Physics and Astronomy. BA 1993, Wesleyan University; PhD 2000, University of Massachusetts.

Rosenberger, William F., Professor and Chair, Statistics. BA 1986, Towson State University; MPhil 1990, PhD 1992, George Washington University.
Rosenblum, Karen E., Professor of Sociology. BA 1970, PhD 1979, University of Colorado.

Rosenstein, Carole, Assistant Professor of Arts Management, College of Visual and Performing Arts. BA 1988, Smith College; MA 1990, University of Chicago; PhD 2000, Brandeis University.

Roser Renouf, Connie, Term Assistant Research Professor, Communication. BFA 1975, United States International University; MS 1981, San Diego State University; PhD 1986, Stanford University.

Roszkowski, Beth, Public Policy and Management Studies Liaison Librarian. BA 2002, Pennsylvania State University; MLIS 2006, Rutgers University.

Roth, Lori A., Director of Training and Development, Human Resources. BA 1985, MA 1987, Michigan State University; PhD 2003, Virginia Polytechnic Institute and State University.

Rothbart, Daniel, Professor of Philosophy and Conflict Analysis. BA 1972, Fairleigh Dickinson University; MA 1975, State University of New York, Binghamton; PhD 1978, Washington University.

Rothstein, Jandos, Associate Professor of Art and Visual Technology, College of Visual and Performing Arts. BA 1986, Antioch College; MFA 1990, Northwestern University.

Rowan, Katherine, Professor of Communication. BA 1975, George Mason University; MA 1978, University of Illinois; PhD 1985, Purdue University.

Rowe, Ellen W., Assistant Professor, Psychology. BA 1983, Davidson College; MA 1995, College of William and Mary; PhD 2005, University of Georgia.

Rowley, Charles, Professor of Economics. PhD 1964, University of Nottingham.

Rozell, Mark, Professor of Public Policy, School of Public Policy. BA 1982, Eisenhower College; MA 1983, PhD 1987, University of Virginia.

Rubenstein, Richard E., University Professor of Conflict Resolution and Public Affairs. BA 1959, Harvard University; MA 1961, Oxford University; JD 1963, Harvard University.

Rubin, Philip D., Associate Professor, Physics and Astronomy. AB 1976, University of Pennsylvania; MA 1980, MS 1986, PhD 1989, University of California, Los Angeles.

Rudder, Catherine E., Professor and Director, Master of Public Policy, School of Public Policy. BA 1969, Emory University; MA 1972, PhD 1973, Ohio State University.

Rudnicki, Mark S., Term Assistant Professor, English. BA 1991, St. Bonaventure University; MA 1993, University of Memphis; PhD 2003, State University of New York, Buffalo.

Ruiz-Ross, Julia, Term Assistant Professor of Spanish. MA 1990, PhD 1996, Florida State University.

Rustici, Thomas, Term Assistant Professor of Economics. BS 1985, MA 1987, George Mason University.

Ruth, Stephen Ruddy, Professor and Director, International Center for Applied Studies in Information Technology, School of Public Policy. BS 1955, U.S. Naval Academy; MS U.S. Naval Postgraduate School; PhD 1971, University of Pennsylvania.

Rutledge, Amelia Ann, Associate Professor of English. BA 1968, Michigan State University; MPhil 1972, PhD 1974, Yale University.
Rytikova, Ioulia, Assistant Professor, Applied Information Technology. BS 1993, MS 1993, PhD 1997, Technological University, Moscow, Russia.

Rywak, Lauren, Head Coach, Women's Lacrosse. BA 2002, George Mason University.

S

Sacco, John F., Associate Professor of Government and Politics. BA 1965, Pennsylvania State University; MPA 1968, New York University; PhD 1973, Pennsylvania State University.

Sachs, Robert L., Professor, Mathematical Sciences. BA 1976, Harvard University; PhD 1980, Courant Institute, New York University.

Sage, Andrew P., Professor, Systems Engineering and Operations Research. University Professor and First American Bank Professor; Founding Dean Emeritus, The Volgenau School of Information Technology and Engineering. BSEE, Citadel; MSEE, Massachusetts Institute of Technology; PhD 1960, Purdue University; DEngr 1986, University of Waterloo; 1997, Dalhouse University.

Salawdeh, Omar, Term Assistant Professor of Arabic. BA 1990, Kuwait University; MA 1997, Universidade Estadual de Campinas; PhD 2007, Universidad de Cadiz.

Salinas, Claire, Postdoctoral Fellow, History and Art History. BA 1995, University of Sydney; MPhil 1998, Cambridge University; MA 2000, PhD 2005, Stanford University.

Salisbury, Mona A., Assistant Director, Small Business Development Center, Mason Enterprise Center, School of Public Policy. BS 2004, Cornell University; MS 2008, University of Virginia.

Samara, R. Tony, Assistant Professor, Sociology and Anthropology. BA 1992, St. Lawrence University; MA 1995, City University of New York; MA 1997, University of California, Santa Barbara.

Samaras, Anastasia P., Associate Professor of Education. BA 1972, MEd 1976, PhD 1990, University of Maryland.

Sample, Mark, Assistant Professor, English. BS 1994, Miami University; MA 1998, Georgetown University; MA 2000, PhD 2004, University of Pennsylvania.

Samuelian, Kristin F., Term Associate Professor, English. BA 1983, Catholic University of America; MA 1984, PhD 1992, Boston University.

Samuels, Linda Bartman, Professor of Business Legal Studies. BA 1970, Queens College; MPA 1971, State University of New York, Albany; JD 1975, University of Virginia.

Sanchez, Sylvia Y., Associate Professor of Education. BS 1969, Long Island University; MS 1975, Brooklyn College; EdD 1985, University of Houston.

Sandell, Renee, Professor, Art and Visual Technology. BA 1972, City College of New York; MA 1974, PhD 1978, Ohio State University.

Sander, Evelyn, Associate Professor of Mathematical Sciences. BA 1990, Northwestern University; PhD, 1996, University of Minnesota.

Sandole, Dennis J.D., Professor of Conflict Resolution and International Relations. BA 1967, Temple University; PhD 1979, University of Strathclyde.
Sanford, James Francis, III, Associate Professor of Psychology; Associate Chair for Undergraduate Studies, Department of Psychology. BA 1966, Ohio Wesleyan University; MS 1968, PhD 1973, Kansas State University.

Sanghera, Kamaljeet, Assistant Professor, Applied Information Technology. BA 1996, Delhi University; MS 2001, George Mason University; PhD 2009, Capella University.

Sanyal, Pallab, Assistant Professor, School of Information Systems and Operations Management. BE 1995, University of Calcutta; PhD 2009, University of Minnesota.

Saperstone, Stephen Harold, Acting Chair and Professor of Mathematical Sciences. BEP 1962, Cornell University; MA 1965, PhD 1970, University of Maryland.

Satyapal, Shobita, Associate Professor, Physics and Astronomy. BA 1988, Bryn Mawr College; MA 1990, PhD 1995, University of Rochester.

Sauer, Karen L., Associate Professor, Physics and Astronomy. BS 1992 Cornell University; MA 1995, PhD 1998, Princeton University

Sauer, Timothy D., COS Distinguished Scholar; Professor of Mathematical Sciences. BS 1977, Michigan State University; PhD 1982, University of California, Berkeley.

Saunders, Catherine E., Term Assistant Professor of English. BA 1986, Harvard University; MA 1998, PhD Candidate, Princeton University.

Saunders, Karen L., Research Instructor, School of Public Policy. BA 1995, Tufts University; MA 2002, American University.

Scales, Rebecca P., Postdoctoral Teaching Fellow, History and Art History. BA 1998, Hollins College; MA 2000, University of Georgia; PhD 2006, Rutgers University.

Scarlata, Jessica, Assistant Professor, English. BA 1993, Tufts University; MA 1998, PhD 2004, New York University.

Schack, Frederick K., Associate Professor of Health and Physical Education. BA 1965, MA 1972, California State University; PhD 1976, Ohio State University.

Scheindfeldt, Joseph, Managing Director of the Center for History and New Media. AB 1996, Harvard University; MS 1999, PhD 2003, Oxford.

Scherrrens, Maurice William, Associate Professor; Senior Vice President. BS 1970, MBA 1971, Central Michigan University; JD 1976, George Washington University; EdD 1986, University of Southern California.

Scherrrens, Sandy, Vice President, University Life. BA 1980, College of Wooster; MA 1983, Ohio State University; EdD 1998, University of San Francisco.

Schiller, Anne, Associate Provost for International Projects and Professor, Anthropology. BA 1979, University of Virginia; MA 1982, PhD 1987, Cornell University.

Schintler, Laurie Ann, Associate Professor, School of Public Policy. BA 1989, University of Iowa; MA 1992, PhD 1995, University of Illinois, Urbana-Champaign.

Schneider, Edwin K., Professor, Atmospheric, Oceanic and Earth Sciences. AB 1970, PhD 1976, Harvard University.

Schneider, William, Omer L. & Nancy Hirst Professor of Public Policy, School of Public Policy. BA, Brandeis University; PhD 1972, Harvard University.
Schoeny, Mara L., Assistant Professor of Conflict Resolution. BA 1986, University of Virginia; MS 1996, PhD 2006, George Mason University.

Schrag, Zachary, Associate Professor, History and Art History. BA 1992, Harvard University; MA 1997, MPhil 1999, PhD 2002, Columbia University.

Schreifels, John A., Chair and Associate Professor of Chemistry. BS 1975, PhD 1979, University of South Florida.

Schrum, Kelly, Term Assistant Professor, History and Art History. BA 1991, University of California, Berkeley; MA 1996, PhD 2000, Johns Hopkins University.

Schrum, Lynne R., Professor of Education. BS 1968, Southern Illinois University; MA 1976, University of Evansville; PhD 1991, University of Oregon.

Schum, David A., Professor, Systems Engineering and Operations Research. BA 1956, MA 1961, Southern Methodist University; PhD 1964, Ohio State University.

Schwartzstein, Linda A., Professor of Law; Vice Provost for Academic Affairs. AB 1973, Brandeis University; JD 1976, University of Michigan; LLM 1977, New York University; PhD 1994, George Mason University.

Scimecca, Joseph Andrew, Professor of Sociology. BA 1962, Hunter College; MA 1965, PhD 1972, New York University.

Scolaro, Margaret J., Term Instructor, English. BA 1994, Mary Washington College; MA 1996, George Mason University.

Scott, Laura, Term Associate Professor of English. BA 1986, Kent State University; MFA 1993, George Mason University.

Scott, Suzanne, Director, Women and Gender Studies and Term Associate Professor, New Century College. BA, Eastern Mennonite College; MA 2000, James Madison University; MFA, Goddard College.

Scruggs, Thomas, University Professor of Education, BA 1971, Pennsylvania State University; MEd 1978, Lesley College; PhD 1982, Arizona State University.

Scully, Randolph, Associate Professor, History and Art History. BA 1992, Williams College; PhD 2002, University of Pennsylvania.

Sealey, Nicole J., Director of Graduate Admissions & Enrollment Services, The Volgenau School of Information Technology and Engineering. BIS 2001, Virginia State University; MA 2009, George Mason University.

Segerson, Keith B., Assistant Dean for Research Administration and Outreach, School of Public Policy. BBA 1980, MSc 1989, Houston Baptist University; MS 2001, George Mason University.

Seligmann, Linda J., Professor of Anthropology. BA 1975, Pomona College; MA 1978, University of Texas, Austin; PhD 1987, University of Illinois, Urbana-Champaign.

Selinsky, Brian, Director, Registrar IT Services. BA 1969, MA 1971, Michigan State University.

Sengupta, Partha, Associate Professor, Accounting. BSc 1983, University of Calcutta; MA 1986, State University of New York, Stony Brook; PhD 1991, Virginia Polytechnic Institute and State University; PhD 1995, University of Florida.

Seshaiyer, Padmanabhan, Associate Professor of Mathematical Sciences. BA, MS 1994, Birla Institute of Technology & and Science; PhD 1998, University of Maryland.
Setia, Sanjeev, Professor, Computer Science. MSc 1987 Birla Institute of Technology and Science (Pilani); MS 1990, PhD 1993, University of Maryland.

Seto, Donald, Associate Professor, Bioinformatics and Computational Biology. BA 1980, University of California, San Diego; PhD 1987, Johns Hopkins University.

Sforza, Daniel, Research Assistant Professor, Computational and Data Sciences; MS 1993, University of Buenos Aires; PhD 2000, University of Buenos Aires.

Shabaev, Andrew, Research Assistant Professor, Computational and Data Sciences. MS 1985, Technical University St. Petersburg; PhD 1999, American University.

Shaklee, Beverly, Professor of Education. BS 1975, MS 1981, University of Kansas; EdD 1985, Mississippi State University.

Shapiro, Jay A., Professor of Mathematical Sciences and Associate Chair. BA 1971, Rider College; PhD 1975, Rutgers University.

Sharp, Joyce L., VATS I&R Coordinator. BS 1989, Longwood College.

Shaw, Lisa E., Undergraduate Student Services Coordinator, Institute for Conflict Analysis and Resolution. BA 1994, Regis University; MS 2009, George Mason University.

Shedd, Juliette R. Rouge, Associate Director for Administration, Institute for Conflict Analysis and Resolution. BA 1998, George Washington University; MS 2005, George Mason University.

Sheehan, Sarah E., Social Sciences Reference/Liaison Librarian, University Libraries. BA 1988, MS 1990, Catholic University of America.

Shehu, Amarda, Assistant Professor of Computer Science. BS 2002, Clarkson University; MS 2005, PhD 2008, Rice University.

Sheehy, Lori B., Assistant Professor of Parks, Recreation and Leisure Studies. BA 1994, Wartburg College; MA 1995, University of Wisconsin; PhD 2006, Colorado State University.

Shelley, Louise L., Professor of Public Policy and Director, Terrorism, Transnational Crime, and Corruption Center. BA 1972, Cornell University; MA 1973, PhD 1977, University of Pennsylvania.

Shelton, Victoria, Sciences Reference and Instruction Librarian. BA 1984, Saint Petersburg State University, Russia; MLS 2000, School of Library and Information Studies, Texas Woman’s University.

Shen, Min, Assistant Professor, Accounting. BA 1998, Shanghai University of Finance and Economics; MS 2003, PhD 2005, Michigan State University.

Sheng, Hongwei, Assistant Professor of Computational and Data Sciences. PhD 1997, Shenyang National Laboratory for Materials Science, Chinese Academy of Sciences.

Sheridan, Kimberly, Assistant Professor of Education. BA 1992, Kalamazoo College; EdD 2006, Harvard University.

Sherwin, Martin J., University Professor of History and Public Policy. AB 1959, Dartmouth College; PhD 1971, University of California, Los Angeles.

Shields, Susan, Professor of Dance. BA 1996, State University of New York, Empire State College; MFA 2003, George Mason University.

Shiner, Whitney T., Associate Professor of Religious Studies. BA 1971, University of Chicago; MA 1980, University of Chicago Divinity School; PhD 1992, Yale University.

Shipley, Scott T., Affiliate Assistant Professor of Earth Systems Science. BA 1971, Beloit College; MS 1973, PhD 1978, University of Wisconsin.

Shiver, John M., Term Instructor of Health Administration and Policy. BS 1968, The Citadel; MS 1975, Virginia Commonwealth University, Medical College of Virginia.

Shockley, K. Gerald, Associate Professor of Education. BA 1996, BS 1997, MEd 1998, University of Cincinnati; PhD 2003, University of Maryland, College Park.

Short, Jerome L., Associate Chair for Graduate Studies, Associate Professor, Psychology. BA 1984, St. Norbert College; MA 1987, PhD 1990, Arizona State University.

Shortle, John F., Associate Professor, Systems Engineering and Operations Research. BS 1992, Harvey Mudd College; MS 1993, PhD 1996, University of California, Berkeley.

Shukla, Jagadish, University Professor, Atmospheric Oceanic and Earth Science. BSc 1962, MSc 1964, PhD 1971, Banaras Hindu University; ScD 1976, Massachusetts Institute of Technology.

Sibley, Edgar H., University Professor, Computer Science and School of Public Policy. BSc, University of London; SM, ME, ScD 1967, Massachusetts Institute of Technology.

Sikdar, Siddhartha, Assistant Professor, Electrical and Computer Engineering. BTEE 1997, Indian Institute of Technology; MS 2001, University of Washington; PhD 2005, University of Washington.

Simmons, Solon J., Assistant Professor of Conflict Resolution. BA 1991, University of Chicago; MS 1999, PhD 2005, University of Wisconsin, Madison.

Simon, Robert, Associate Professor, Computer Science. BA 1981, University of Rochester; PhD 1996, University of Pittsburgh.

Singer, Harvey, Assistant Professor of Information Systems and Operations Management. BA 1978, Queens College of the City University of New York; MA 1984, PhD 1987, Johns Hopkins University.

Singman, David H., Professor of Mathematical Sciences. BS 1972, MS 1976, PhD 1980, McGill University.

Sipes, Jacqueline, Instructional Design Librarian. BA 2003, MSLS 2008, University of North Carolina, Chapel Hill.

Sistek, Mark A., Advising Director, BIS. BFA 1979, Cleveland Institute of Art.

Sklarew, Daniel M., Term Associate Professor, Environmental Science and Policy. BA 1991, University of Pennsylvania; MA 1993, Boston University; PhD 2000, George Mason University.

Slayden, Suzanne Weems, Associate Professor of Chemistry. BS 1970, PhD 1976, University of Tennessee.

Sluzki, Carlos E., Professor of Global and Community Health, Institute for Conflict Analysis and Resolution, Krasnow Institute for Advanced Study. MD 1960, University of Buenos Aires School of Medicine.
Smith, Colin, Director of Corporate Relations, Intercollegiate Athletics. BA 2003, Lynchburg University.

Smith, Glenn Edward, Professor of Music. BA 1968, MA 1969, California State University; DMusic 1973, Indiana University.

Smith, Kris M., Associate Provost for Institutional Research and Reporting. BS 1973, Northwest Missouri State University; MEd 1981, South Dakota State University; PhD 1992, University of Michigan.

Smith, Lesley M., Associate Professor, New Century College. BA 1976, University of St. Andrews, Scotland; PhD 1980, Brasenose College, Oxford University, England; MFA 1998, George Mason University.

Smith, Paul, Professor of Cultural Studies. BA 1976, MA 1980, Cambridge University; PhD 1981, University of Kent at Canterbury.

Smith, Robert F., Professor of Psychology, Director, Biopsychology Program. BS 1971, University of Florida; MA 1973, PhD 1976, University of Wisconsin.

Smith, Rodger, Term Instructor, Department of Communication; Faculty Advisor, WGMU. BS 1986, James Madison University; MBA 1992, Shenandoah University.

Smith, Suzanne E., Associate Professor of History. BA 1986, University of California, Los Angeles; MA 1988, Carnegie Mellon University; PhD 1996, Yale University.

Smith, Toni, Assistant Professor of Education, College of Education and Human Development. BA 1997, McDaniel College; MS 2003, PhD 2008, University of Maryland.

Smoczynski, Florence I., Assistant Professor of Nursing. BSN 1962, Villanova University; MSN 1978, Catholic University of America; EdD 1998, Virginia Polytechnic Institute and State University.

Snead, James E., Associate Professor of Anthropology. BA 1984, Beloit College; MA 1987, PhD 1995, University of California, Los Angeles.

Snodgrass, Paul, Technology and Knowledge Management Director, Institute for Conflict Analysis and Resolution. BA 2003, University of Arizona; MS 2007, George Mason University.

Snow, Charles, Associate Professor and Associate Chair, Applied Information Technology. BS 1980, MS 1987, PhD 1998, McGill University.

Snyder, Amy M., Associate Dean, University Life. BS 1995, Clarion University; MA 1997, Clemson University.

Snyder-Hall, R. Claire, Associate Professor of Government and Politics and Director of MAIS Program. BA 1986, Smith College; PhD 1997, Rutgers University.

So, Paul T., Associate Professor, Physics and Astronomy. BA 1988, Scripps College; BS 1988, Harvey Mudd College; PhD 1995, University of Maryland.

So, Sufumi, Assistant Professor of Japanese, Modern and Classical Languages. BA 1980, MA 1982, Seinan Gakuin University; MA 1989, University of Hawaii, Manoa; PhD 1997, University of Toronto.

Sobieralski, Joseph, Director of Finance, University Operations. BS 2001, MA 2003, University of South Carolina.

Sockett, Hugh T., Professor of Public and International Affairs. BA 1959, Christ Church, University of Oxford; MA 1963, University of Oxford; PhD 1974, University of London.

Sodhi, Mininder, Term Assistant Professor of Social Work. Term Assistant Professor of Social Work. BGS 1980, University of Maryland; MSW 1991, PhD 2006, University of Georgia.
Sofer, Ariela, Professor, Systems Engineering and Operations Research; Chair, Department of Systems Engineering and Operations Research. BS 1972, MS 1979, Technion, Israel Institute of Technology; DSc 1984, George Washington University.

Solka, Jeffrey L., Contract Assistant Professor, Bioinformatics and Computational Biology. BS 1978, MS 1981, James Madison University; MS 1989, Virginia Polytechnic Institute and State University; PhD 1995, George Mason University.

Soltan, Valeriu, Professor of Mathematical Sciences. Foreign degree 1973, State University, Moldavia; Doctorate 1975, Mathematical Institute of the Academy of Sciences of Moldavia.

Sommer, Rainer, Associate Professor of Public Policy and Enterprise Engineering, School of Public Policy. BIS 1987, Virginia State University; MS 1989, PhD 1998, George Mason University; PhD 1991, Columbia Pacific University.

Sommers, William T., Associate Professor, Co-Director, EastFIRE Laboratory, Geography and Geoinformation Science. BS 1965, City College of New York; MS 1967, Massachusetts Institute of Technology; PhD 1972, State University of New York, Albany.

Soyfer, Valery N., Distinguished University Professor of Molecular Genetics. BA 1957, Timiryazev Agricultural Academy; MA 1961, Lomonosov State University; PhD 1964, Kurchatov Institute of Atomic Energy, Russia.

Spaine, Lawrence F., Director of the Physical Plant. BS 1968, Virginia Polytechnic Institute and State University.

Spencer, Vicky G., Assistant Director of Operations. BS 1982, University of Texas, Dallas; MS 1986, Texas A&M–Commerce; PhD 2002, George Mason University.

Spousta, Robert F., Head Coach of Crew/Rowing Coordinator. MS 1976, University of Massachusetts.

Sprague, Debra R., Associate Professor of Education. BA 1984, Buffalo State College; MA 1991, PhD 1995, University of New Mexico.

Stahel, Christof, Assistant Professor, Finance. MA 1997, PhD 2004, Ohio State University.

Stampp, James A., Director of Capital Finance, Budget Office. MA 1971, State University of New York, Buffalo.

Stanica, Miruna, Assistant Professor, English. BA 2000, University of California, Berkeley; MA 2004, PhD 2008, Stanford University.

Stanley, Thomas T., Term Assistant Professor of Art and Visual Technology. BA 1981, Brown University; MA 2003, University of Maryland.

Starr, Don, Academic Advisor and Term Assistant Professor of Art and Visual Technology. BS 1993, University of Maryland.

Stavrou, Angelos, Assistant Professor, Computer Science. MSc 2001, National University of Athens, Greece; MS 2002, PhD 2007, Columbia University.

Stearns, Peter N., Provost and Executive Vice President for Academic Affairs. AB 1957, AM 1959, PhD 1963, Harvard University.

Stedman, Diann, Director, of Laboratory Safety, Environmental Health, and Safety Office. BA 1993, University of Pittsburgh; MS 1997, Virginia Commonwealth University.

Steeley, Sherry L., FAST TRAIN Program Field Coordinator. BA 1988, Mount St. Mary’s University; MA 1990, Johns Hopkins School of Advanced International Studies; PhD 2005, George Mason University.

Stefanidis, Anthony, Associate Professor, Geography and Geoinformation Science. Dipl Eng 1986, National Technical University of Athens, Greece; MS 1988, PhD 1993, Ohio State University.

Stevens, Andrew, Web Services Librarian, University Libraries. BA, Ohio University; MIS, MSIS, Indiana University.

Stevens, Jen, Reference and Liaison Librarian, University Libraries. BA 1993, MA 1996, University of Colorado; MLIS 2000, University of Texas, Austin.

Stockwell, Susan V., Director, Administrative Services Director, ITU. BA 1978, University of Maryland.

Stoehr, Ana Marie, Term Instructor of Nursing. BSN 1998, MSN 2000, George Mason University.

Stough, Roger R., Vice President for Research and Economic Development, Office of the Provost and Northern Virginia Endowed Chair in Public Policy and Eminent Scholar, School of Public Policy. BS 1964, Ohio State University; MA 1971, University of South Carolina; PhD 1978, Johns Hopkins University.

Stratmann, Thomas, Professor of Economics. BA 1985, Free University of Berlin, Germany; MA 1988, PhD 1990, University of Maryland.

Straus, David M., Professor and Chair, Atmospheric, Oceanic and Earth Sciences and Professor of Climate Dynamics. PhD 1977, Cornell University.

Studd, Karen, Associate Professor of Dance. BS 1978, MS 1983, University of Oregon; CMA 1987, Laban Institute of Movement.

Stull, Peggy, Research and Evaluation Associate. BSW 1976, MEd 2007, George Mason University.

Sturgis, Jennifer, Assistant Director, Academic Planning and Research Operations, Krasnow Institute. BA 1984, Knox College; MLS 1986, MS 1988, University of Illinois.

Sturtevant, Elizabeth G., Professor of Education. BA 1972, State University of New York, Oswego; MS 1975, State University of New York, Albany; PhD 1992, Kent State University.

Sturtevant, Lisa A., Research Assistant Professor, School of Public Policy. BA 1994, Wake Forest University; MPP 2000, University of Maryland; PhD 2006, George Mason University.

Suh, Hyon-Sook (Joy), Government Documents Librarian, University Libraries. BA 1973, MA 1975, Ewha Women’s University; MA 1980, University of Wisconsin, Milwaukee; MLS 1995, University of Iowa.

Suh, Jennifer M., Assistant Professor of Education. BA 1994, MEd 1994, University of Virginia; PhD 2005, George Mason University.

Summerall, Marjorie, Program Coordinator, Dance. BA 1967, College of Notre Dame of Maryland.
Summers, Michael, Professor and Chair, Department of Physics and Astronomy. BA 1976, Murray State University; MS 1987, University of Texas, Dallas; PhD 1985, California Institute of Technology.

Sun, Donglian, Assistant Professor, Geography and Geoinformation Science. BS 1986, Nanjing University of Information Science and Technology; MS 1989, Chinese Academy of Meteorological Sciences; PhD 2003, University of Maryland, College Park.

Surina, Susan C., Term Instructor, Statistics. BA 1987, BS, 1987, University of North Carolina, Wilmington; MS 1989, Georgia Institute of Technology.

Sussan, Fiona K., Assistant Professor, Marketing. BA, International Christian University, Japan; MPhil, City University of New York; MBA 2004, PhD 2005, Baruch College, City University of New York.

Sutera, Janice L., Director, University Career Services. BA 1975, University of Delaware; MA 1977, Ohio State University; PhD 1991, University of Maryland.

Sutton, Clifton D., Associate Professor, Statistics. BS 1983, University of Virginia; MS 1985, PhD 1987, Stanford University.

Sutton, William G., Associate Professor of Electrical and Computer Engineering and Associate Chair. BSEE 1965, Syracuse University; MSEE 1968, Case Western Reserve University; PhD 1981, Air Force Institute of Technology.

Sweet, Colleen, Term Instructor, Spanish. BA 2000, Roanoke College; MA 2004, Catholic University of America.

Swett, Susan J., Assistant Dean for Student Affairs, College of Health and Human Services. AB 1972, Lafayette College; MEd 1979, Lehigh University.

T

Tabarrok, Alexander, Associate Professor of Economics. BA 1989, University of Victoria, Canada; PhD 1994, George Mason University.

Taboada, Ana, Assistant Professor of Education. BA 1991, Centro de Altos Estudios en Ciencias Exactas, Buenos Aires, Argentina; MEd 1998, Temple University; PhD 2003, University of Maryland.

Taciuch, Dean F., Term Associate Professor of English. BA 1985, Kent State University; MA 1988, Ohio University; PhD 1991, University of Southwestern Louisiana.

Takats, Sean, Assistant Professor of History. BA 1996, Yale University; PhD 2005, University of Michigan.

Talbot, Lee M., Term Professor of Environmental Science and Public Policy. AB 1953, MA 1963, PhD 1963, University of California, Berkeley.

Talkington, Brigit, Term Instructor and Basic Course Coordinator, Communication. BA 1995, MA 1997, Kansas State University.

Tallent, Eddie Kent, Director of Admissions. BFA 1985, Ringling School of Art and Design.

Talleyrand, Regine, Associate Professor of Education. BA 1991, University of Pennsylvania; MA 1993, PhD 2001, University of Maryland.

Tang, Liansheng, Assistant Professor, Statistics. BS 2000, University of Science and Technology of China; MS 2003, PhD 2005, Southern Methodist University.

Tangney, June Price, University Professor of Psychology. BA 1979, State University of New York, Buffalo; MA 1981, PhD 1985, University of California, Los Angeles.
Taxman, Faye S., University Professor, Criminology, Law, and Society. BA 1977, University of Tulsa; MA 1981, PhD 1982, Rutgers University.

Taylor, Anne K., Technical Operations Manager, Center for Biodefense and Infectious Diseases. BS 1993, American University.

Taylor, Eugene, Term Assistant Professor, English. BA 1990, Yale University; MA 2003, North Carolina State University; MFA 2006, George Mason University.

Taylor, George E., Jr., Professor, Geography and Geoinformation Science. BS 1971, Randolph-Macon College; PhD 1976, Emory University.

Tecuci, Gheorghe, Professor, Computer Science. MS 1979, PhD 1988, Polytechnie Institute of Bucharest, Romania; PhD 1988, University of Paris South, Orsay, France.

Ternus, Mona P., Assistant Dean of Academic Outreach and Associate Professor, College of Health and Human Services. BA 1982, New York University; MSN 1986, Pace University; PhD 2003, Auburn University.

Tetrick, Lois, University Professor of Psychology; Director of Center for Consciousness, Transformation and Human Potential. BA 1971, Drury College; MGA 1978, Georgia State University; MS 1981, PhD 1983, Georgia Institute of Technology.

Thatchenkery, Tojo Joseph, Professor, School of Public Policy. BA 1980, MA 1982, University of Delhi; PhD 1993, Case Western Reserve University.

Thomas, Charles Leo, Associate Professor of Education. AB 1963, Harris Teachers College; MA 1966, St. Louis University; PhD 1971, Johns Hopkins University.

Thompson, James, Assistant Professor, Psychology. BA 1996, PhD 2002, Swinburne University of Technology in Melbourne, Australia.

Thompson, Julie E., Operations Manager, Center for the Arts. BA 1981, Lawrence University.

Thompson, Kenneth, Term Associate Professor of English. BA 1972, Williams College; PhD 1993, University of Virginia.

Thor, Eva K., Associate Professor of Education. BA 1976, Northwestern University; MA 1977, EdD 1987, George Washington University.

Tian, Mingzhen, Assistant Professor, Physics and Astronomy. BS 1984, Nankai University; MS, Changchun Institute of Physics; PhD 1997, Paris-Sud University.

Tichy, Susan, Professor of English. BA 1975, Goddard College; MA 1979, University of Colorado.

Titarchuk, Lev, Research Professor, Computational and Data Sciences. Dr. of Sc. 1972, Space Research Institute (Moscow).

Todd, Ellen Wiley, Associate Professor of Art History. BA 1969, Wells College; MA 1976, University of Colorado, Boulder; PhD 1987, Stanford University.

Toepler, Stefan, Associate Professor of Government and Politics. PhD 1995, Free University of Berlin.

Tolchin, Susan, University Professor, School of Public Policy. BA 1961, Bryn Mawr College; MA 1962, University of Chicago; PhD 1968, New York University.

Tomasovic, Susan K., Term Instructor, Department of Communication. BS 1969, University of Missouri; MAIS 1990, George Mason University.
Tompkins, Catherine, Associate Professor of Social Work and BSW Program Director. BA 1987, University of Maryland, College Park, MSW 1991; PhD 1995, University of Maryland, Baltimore.

Tondia, Brenda, Term Assistant Professor of Biology. Term Assistant Professor of Biology. BA 1983, University of Delaware; PhD 1993, Uniformed Services University of Health Sciences

Torzilli, Albert Phillip, Associate Professor of Environmental Science and Policy and Associate Professor of Biology. BA 1967, University of Connecticut; PhD 1976, University of Georgia.

Toulouse, Cheryl, Term Instructor of Nursing. BSN 1982, University of Tennessee; MSN 1998, George Mason University.

Trafton, J. Gregory, Affiliate Professor of Psychology. BS 1989, Trinity University; MA 1991, PhD 1994, Princeton University.

Travis, Shirley, Dean and Professor, College of Health and Human Services. BS 1976, MS 1978, Georgia State University; PhD 1985, Virginia Tech.

Travis, Toni-Michelle C., Associate Professor of Government and Politics. AB 1969, Bard College; AM 1973, PhD 1983, University of Chicago.

Trencher, Sherry, Core Faculty Member, English Language Institute. BA 1973, University of California, Irvine; MA 1982, University of California, Los Angeles.

Trefil, James, Robinson Professor, Physics and Astronomy. BS 1960, University of Illinois; BA, MA 1962, Oxford University, England; MS 1964, PhD 1966, Stanford University.

Trencher, Susan, Chair of Sociology and Anthropology; Associate Professor of Anthropology. BA 1969, MA 1972, George Washington University; PhD 1993, Catholic University of America.

Troxler, Darren, Director of Admissions Operations. BS 1993 East Carolina University; MEd 1995 University of Southern Mississippi.

Trump, Kathryn A., Associate Dean, International, University Life. BA 1968, Carroll College; MA 1982, George Mason University.

Tsvetovat, Maksim, Assistant Professor, Department of Computational Social Science, Krasnow Institute for Advanced Study. BS 1996, MS 1999, University of Minnesota; PhD 2005, Carnegie Mellon University.

Turner, C. Allan, Research Professor of Criminology, Law, and Society. BS 1967, Frederick College; MA 1976, University of Missouri; MPA 1984, PhD 1995, University of Southern California.

U

Upperman, James, Associate Professor of Education. BA 1968, Bridgewater College; MEd 1973, University of Virginia; EdD 1995, Virginia Polytechnic Institute and State University.

Urban, Carol Q., Assistant Dean for Undergraduate Programs, School of Nursing; Assistant Professor of Nursing. AA 1978, AS 1978, Glendale Community College; AA in Nursing 1980, Los Angeles Pierce College; BSN 1985, University of Phoenix; MSN 1991, PhD 2006, George Mason University.

Urgessa, Girum, Assistant Professor, Civil, Environmental, and Infrastructure Engineering. BSc 2000, Addis Ababa University, Ethiopia; MSc 2002, PhD 2006, University of New Mexico.
V

**Vaisman, Iosif**, Acting Chair and Associate Professor, Bioinformatics and Computational Biology. MS 1984, Moscow Institute of Chemical Engineering; PhD 1990, USSR Academy of Sciences.

**Vakalahi, Halaevalu**, Associate Professor of Social Work and MSW Program Director. BS 1988, Brigham Young University, Hawaii; MSW 1993, University of Hawaii; MEd 1997, PhD 1998, University of Utah.

**Vandemark, Lisa M.**, Assistant Professor of Nursing. BSN 1982, Rutgers University; MS 1995, Free University of Brussels; PhD 2000, Rutgers University; MSN 2006, Catholic University.

**van Hock, Monique L.**, Assistant Professor, Molecular and Microbiology. BSc 1990, University of Victoria; PhD 1997, University of Virginia.

**Van Meter, Amy J.**, Research Assistant, Life Sciences. BS 2003, George Mason University.

**van Schaik, Matthys K.**, Associate Dean for Academic Affairs, School of Public Policy. BA 1982, University of Pretoria; MS 1984, Georgetown University; PhD 1995, MLIS 1996, University of South Carolina.

**Vasilyeva, Tatiana M.**, Term Assistant Professor of Russian. BS 1973, PhD 1984, St. Petersburg State University.

**Venigalla, Mohan M.**, Associate Professor, Civil, Environmental, and Infrastructure Engineering. BTech 1985, Sri Venkateswara University; MS 1988, Indian Institute of Technology, Chennai; MS 1990, PhD 1994, University of Tennessee, Knoxville.

**Venzke, Margaret**, Term Instructor of Nursing. BSN 1979, University of Virginia; MS 1983, Medical College of Virginia Commonwealth University.

**Verardo, Stacey**, Term Associate Professor, Atmospheric, Oceanic, and Earth Sciences. BS 1986, C.W. Post, Long Island University; PhD 1995, City University of New York.

**Verbanic, Joseph R. II.**, Head Coach, Softball. BS 1982, San Diego State University; MPe, Azusa Pacific University.

**View, Jenice**, Assistant Professor of Education. BA 1980, Syracuse University; MPA-URP 1982, Princeton University; PhD 1997, Union Institute and University.

**Villagran, Melinda**, Associate Professor, Communication. BA 1995, University of Texas, Dallas; MA 1997, PhD 2001, University of Oklahoma.

**Visvanathan, Gnanakumar**, Associate Professor, Accounting. BComm 1981, University of Madras, India; PhD 1996, New York University.

**Vivancos Perez, Ricardo**, Assistant Professor, Spanish. BA 1996, University of Málaga; MA 2002, Texas A&M University; PhD 2006, University of California, Santa Barbara.

**Vlaicu, Sorina O.**, Assistant Research Professor, School of Public Policy. MD 1996, Carol Davila University of Medicine and Pharmacy; MPH 2001, George Washington University; PhD 2003, George Mason University.

**Volgelgesang Lester, Gretchen**, Assistant Professor of Management. BS 1998, Miami University, MBA 2004, DePaul University, PhD 2008, University of Nebraska.

**Voreas, Sylvia W.**, Internship Director, Criminology, Law, and Society. BA 1984, George Mason University; JD 1987, American University.

Wade, Rex A., University Professor of History. BA 1958, Southwestern College; MA 1960, PhD 1963, University of Nebraska.

Wage, Kathleen E., Associate Professor, Electrical and Computer Engineering. BS 1990, University of Tennessee, Knoxville; SM 1994, EE 1996, PhD 2000, Massachusetts Institute of Technology.

Wagner, Richard E., Harris Professor of Economics. BS 1963, University of Southern California; PhD 1966, University of Virginia.

Walker, Laura M. B., Term Assistant Professor, Public and International Affairs. BA 1974, University of Cincinnati; JD 1977, University of Toledo.

Wallin, John F., Associate Professor of Computational Sciences and Space Sciences. BS 1984, Mankato State University; PhD 1989, Iowa State University.

Walmsley, Janet M. C., Term Assistant Professor, History. BA 1978, University of Maine; MA 1989, State University of New York; PhD 2000, University of California, Riverside.

Walnut, David F., Professor of Mathematical Sciences. AB 1983, Haverford College; MA 1986, PhD 1989, University of Maryland.

Walsch, Daniel L., Press Secretary, Media Relations. BS 1972, University of Tennessee; MEd 1979, Bowie State University; MA 1982, Towson State University.

Walsh, John C., Associate University Librarian for Resources and Collection Management Services, University Libraries. BA 1979, Yale University; MA 1982, MLS 1987, University of Iowa.

Walther, Brian E., Senior Associate University Counsel. AB 1991, Harvard University; JD 1994, George Washington University National Law Center.

Wan, Ming, Director of Global Affairs Program; Professor, Public and International Affairs. BA 1985, Beijing Foreign Languages Institute; MA 1988, Acadia University; PhD 1993, Harvard University.

Wang, Diane, 1-2-1 Coordinator for China. BS, Shen Yang Industrial University; MS, Queens College.

Wang, George H. K., Research Professor of Finance. MA 1968, Northern Illinois University; PhD 1976, Iowa State University.

Wang, Pearl Yun, Associate Professor, Computer Science. BA 1971, Wheaton College; MA 1973, PhD 1980, University of Wisconsin, Milwaukee.

Wang, Shuangbao, Associate Professor, Kellar Institute for Human disAbilities. BS 1984, MS 1992, Southwest Jiaotong University; PhD 1999, Tsinghua University; PhD 2004, George Mason University.

Wang, Xinyuan (Frank), Assistant Professor, Computer Science. BS 1987, Peking University; MS 1990, Chinese Academy of Space Technology; PhD 2004, North Carolina State University.

Wang, Y. Diana, Assistant Professor, Applied Information Technology. MS 2002, PhD 2006, University of Maryland, Baltimore County.

Wanner, Thomas, Associate Professor of Mathematical Sciences. BSc 1989, MSc 1991, PhD 1993, Universtitä Augsburg.

Wanschura, Patricia B., Term Associate Professor of Psychology. BA 1969, St. Mary’s College; MA 1973, PhD 1974, University of Notre Dame.
Ward, Peter F., Head Coach, Men’s and Women’s Swimming and Diving. BA 1989, University of Arkansas.

Warfield, Wallace, Associate Professor of Conflict Resolution. BA 1962, Howard University; MPA 1986, University of Southern California; PhD 2001, George Mason University.

Warne, Rick, Assistant Professor of Accounting. BS 2002, MA 2002, Brigham Young University; PhD 2008, University of Utah.

Warren, Jason, Term Instructor and Assistant Director of Forensics, Communication. BA 2004, Northwestern University; MA 2006, University of Texas, Austin.

Waters, Nigel, Director, Center for Excellence in Geographic Information Science, Professor of Geography and Geoinformation Science. BA 1972, Cambridge University; MA 1973, PhD 1977, University of Western Ontario.

Weader, Mark S., Head Coach, Wrestling. BA 1999, George Mason University.

Weatherspoon, Gerald L., Assistant Professor of Chemistry. BS 1984, Jackson State University; PhD 1995, University of California, Davis.

Webster, Dennis Wayne, Associate Dean, University Life; Adjunct Faculty, Higher Education Program. BA 1974, Seton Hall University; MA 1977, PhD 1982, University of Maryland.

Webster, J. DeWitt, Assistant Professor of Global and Community Health. BA 1983, MPH 1986, University of Minnesota; PhD 2003, Pennsylvania State University.

Wechsler, Harry, Professor, Computer Science. BS 1971, Tel Aviv University, Israel; MS 1973, Weizmann Institute of Science, Israel; PhD 1975, University of California, Irvine.

Wedel, Janine R., Professor, School of Public Policy. BA 1978, Bethel College; MA 1980, Indiana University; PhD 1985, University of California, Berkeley.

Weeks, Andrea, Assistant Professor, Environmental Science and Policy. BS 1997, Cornell University; PhD 2003, University of Texas, Austin.

Wegman, Edward J., Bernard J. Dunn Professor of Information Technology and Applied Statistics. BS 1965, St. Louis University; MS, PhD 1968, University of Iowa.

Weigel, Robert S., Assistant Professor of Physics. BS 1995, University of Wisconsin, Platteville; MS 1997, University of Illinois, Urbana-Champaign; PhD 2000, University of Texas, Austin.

Weinberger, Steven H., Associate Professor of English. BA 1978, University of Pittsburgh; PhD 1988, University of Washington.

Weingartner, Joseph C., Associate Professor, Physics and Astronomy. BS 1994, State University of New York, Stony Brook; MA 1996, PhD 1999, Princeton University.

Weinstein, Ali A., Assistant Professor Global and Community Health, Deputy Director, Center for the Study of Chronic Illness and Disability. BS 1999, Lafayette College; MA 2001, University of Maryland; MS 2004, PhD 2007, Uniformed Services University of the Health Sciences.
Weisburd, David L., Distinguished Professor, Criminology, Law, and Society. BA 1976, Brandeis University; MA 1978, PhD 1985, Yale University.

Weisman, David Schor, Affiliate Associate Professor of Psychology. BA 1971, American University; MA 1973, Fairleigh Dickinson University; EdD 1979, Catholic University of America.

Welsh, Caryl, Term Instructor of Nursing. BSN 1977, Wagner College; MSN 1990, University of Nebraska.

Werner, Theresa, Special Education Outreach Coordinator. BS 1980, Louisiana State University; MEd 1982, University of North Carolina, Chapel Hill; JD 1991, Catholic University of America.

Wheeler, Kathy D., Executive Director, Community Resource Center, Mason Enterprise Center. BA 1991, George Mason University; MBA 1994, Troy State University.

Wheelock, Stefan M., Assistant Professor of English. BA 1993, Tougaloo College; PhD 2001, Brown University.

White, C. Stephen, Professor of Education. BA 1974, Coe College; MA 1978, University of Minnesota; PhD 1985, Texas A&M University.

White, E. Bernard, Associate Professor of Systems Engineering; Associate Dean for Undergraduate Studies, The Volgenau School of Information Technology and Engineering. BS 1966, Mississippi Industrial College; MS 1970, University of Illinois; MS 1973, Howard University; PhD 1984, University of Virginia.

White, Elizabeth L., Associate Professor, Computer Science. BS 1985, MS 1986, College of William and Mary; PhD 1994, University of Maryland.

White, Gail Scott, Associate Professor of Art and Visual Technology. BA 1978, Virginia Polytechnic Institute and State University; MFA 1983, Tufts University.

Whittington, Frank J., Senior Associate Dean for Academic Affairs, College of Health and Human Services; Professor of Gerontology, Department of Global and Community Health. BA 1968, Mississippi State University; MA 1971, PhD 1975, Duke University.

Wiest, Philip Ray, Associate Professor of Economics. BA 1966, Franklin and Marshall College; MS 1967, Lehigh University; PhD 1976, University of Pittsburgh.

Wiggins, Brenda P., Associate Professor of Parks, Recreation, and Leisure Studies. AB 1975, San Diego State University; MA 1981, University of Maryland; PhD 1994, University of Oregon.

Wiggins, David K., Professor of Physical Education. BA 1974, MA 1975, San Diego State University; PhD 1979, University of Maryland.

Wijesekera, Duminda, Associate Professor, Computer Science. BSc 1981, University of Colombo; MS 1989, PhD 1990, Cornell University; MS 1995, PhD 1997, University of Minnesota.

Wiley, Harolyn, Early Childhood and Special Education Specialist. BS 1979, Appalachian State University; MA 1984, Gallaudet University; PhD 1991, University of Illinois.

Willett, James D., Professor and Chair, Department of Molecular and Microbiology. AB 1959, University of California, Berkeley; PhD 1965, Massachusetts Institute of Technology.

Williams, Herbertia, Equal Opportunity Specialist. BA 1991, University of Virginia; JD 1994, George Mason University School of Law.

Williams, Mary M., Professor of Education. BS 1977, Eisenhower College; MS 1983, State University of New York; EdD 1992, Boston University.

Williams, Thomas Rhys, Professor of Anthropology. BA 1951, Miami University; MA 1956, University of Arizona; PhD 1956, Syracuse University.

Williams, Walter E., John M. Olin Distinguished Professor of Economics; BA 1965, California State University; MA 1966, PhD 1972, University of California, Los Angeles.

Williams van Rooij, Shahron, Assistant Professor of Education. BA 1968, City College New York; MA 1970, American University of Beirut; PhD 1980, City University of New York Graduate Center; PhD 2007, George Mason University.

Willis, Boris, Assistant Professor of Dance and Computer Game Design. BFA 2003, George Mason University; MFA 2007, Ohio State University.

Willis, James J., Assistant Professor, Criminology, Law, and Society. BA 1991, Pennsylvania State University; PhD 2000, Yale University.

Willis, Odette P., Assistant Professor of Nursing. BSN 1973, Texas Woman’s University; MN 1981, University of California, Los Angeles; MBA 1996, Golden Gate University.

Wilsford, David, Professor of Government and Politics. BA 1977, University of South Carolina; MA 1984, PhD 1987, University of California, San Diego.

Wilson, David B., Chair and Associate Professor, Criminology, Law, and Society. BA 1983, Whitworth College; MA 1987, University of Nevada, Las Vegas; PhD 1995, Claremont Graduate School.

Wilson, Deborah J., Associate Athletic Director, Academic Services and Sports Psychologist. BS 1971, James Madison University; MA 1973, Ohio State University; PhD 1986, University of Maryland.

Wiltse, Cathy A., Associate Director, Virginia Small Business Development Center Network. BA 1986, Ursuline College; MPA 2003, George Mason University.

Winant, Peter, Assistant Professor and Associate Director of Art and Visual Technology, College of Visual and Performing Arts. BS 1974, Skidmore College; MFA 1980, Indiana University.

Winchester, Jason B., Assistant Professor Exercise Science. BS 1999, Northwest Missouri State University; MS 2004, University of Wisconsin, La Crosse; PhD 2008, Colorado State University.

Wingfield, Andrew, Associate Professor, New Century College. BA 1988, Rutgers University; MA 1990, University of Chicago; MFA 1999, George Mason University.

Winkert, Catherine A., Budget Manager, Finance and Administration, College of Visual and Performing Arts. BA 1987, Marymount University.

Winkler, Martin M., University Professor of Classics. MA 1977, West Virginia University; PhD 1982, University of Southern California.

Winsler, Adam, Professor of Psychology. BA 1988, University of New Mexico; PhD 1994, Stanford University.

Winter, Patrice M., Term Assistant Professor, Center for the Study of Chronic Illness and Disability. BS 1976, Virginia Commonwealth University; MS 1982, Institute of Graduate Health Science.

Witte, James C., Professor of Sociology and Anthropology and Director, Center for Social Science Research.
Woitek, Kira M., Director of Annual Giving, Development Office. BS 1992, Babson College; MA 1999, Georgetown University.

Wojtusiak, Janusz, Assistant Professor of Health Administration and Policy. MS 2001, Jagiellonian University; PhD 2008, George Mason University.

Wolf, Paige P., Associate Professor, Management. BA 1992, University of Delaware; MS 1994, PhD 1996, Virginia Polytechnic Institute and State University.

Wolf-Branigin, Michael, Associate Professor of Social Work. BA 1976, Western Michigan University; 1978, Stockholms Universitet; MSW 1979, University of Michigan; PhD 1999, Wayne State University.

Wolfe, Cathy M., Director, Campus Planning, Facilities. BS, MA 1985, State University of New York Buffalo; MS 2000, Drexel University.

Wolfe, James W., Entrepreneur in Residence and Assistant Professor of Management. BS 1977, MBA 1979, JD 1981, Indiana University.

Wong, David, Professor of Geography and Geoinformation Science. Honour Diploma 1984, Hong Kong Baptist College; MA 1985, PhD 1990, State University of New York, Buffalo.

Wong, Shelley, Associate Professor of Education. BA 1971, University of California, Santa Cruz; MA 1986, University of California, Los Angeles; EdD 1990, Columbia University.

Wood, Diane, Associate Professor, College of Education and Human Development. BA 1973, MA 1982; University of Nebraska - Omaha; EdD 1996, Teachers College, Columbia University.

Wood, Thomas C., Associate Professor, New Century College; Affiliate Professor of Environmental Science and Policy. BS 1986, University of California, Davis; MS 1988, Louisiana State University; PhD 1996, George Mason University.

Wrbican, Sue, Assistant Professor of Art and Visual Technology. BA 1993, University of Pittsburgh; MFA 1996, Rhode Island School of Design.

Wren, William Christopher, Term Assistant Professor of Computer Game Design, College of Visual and Performing Arts. BA 1996, University of San Francisco.

Wright, Catherine. Term Professor, Communication. BS 1992, Phillips University; MA 1994, Texas Tech University; PhD 2005, Regent University.

Wrigley, Barbara, Executive Director, Women’s Business Center. BA 1976, Hope College; MS 1987, American University.

Wu, Yuntao, Associate Professor, Molecular and Microbiology and Life Science. BS 1985, Wuhan University; MS 1988, Chinese Academy of Sciences; PhD 1998, Queen’s University.

Wulf, Douglas John, Assistant Professor of English. BA 1988, Northwestern University; MA 1993, Wright State University; PhD 2000, University of Washington.

Wulfkuhle, Julia D., Research Professor, Center for Applied Proteomics and Molecular Medicine. BA 1989, Grinnell College; PhD 1996, Purdue University.

Wyczalkowski, Anna J., Term Assistant Professor, Physics and Astronomy. BS 1988, MS 1990, PhD 1998, University of Maryland.

X

Xie, Fei, Assistant Professor, Finance. BS 1998, Tsinghua University; PhD 2005, Vanderbilt University.
Y

Yadav, Alok, Associate Professor of English. BA 1986, University of Toronto; PhD 1993, Cornell University.

Yahya-Zadeh, Massood, Associate Professor of Accounting. BS 1975, MS 1976, London School of Economics; PhD 1992, Syracuse University.

Yang, Chaowei, Associate Professor, Geography and Geoinformation Science. BS 1995, MS 1997, Northeastern University, China; PhD 2000, Peking University.

Yang, Chi, Associate Professor, Computational and Data Sciences. BS 1982, PhD 1988, Shanghai Jiao Tong University.

Yang, Ruixin, Associate Professor, Geography and Geoinformation Science. BSc 1982, Tsinghua (QingHua) University of Beijing, China; MS 1986, PhD 1990, University of Southern California, Los Angeles.

Yang, Wenli, Assistant Professor, Geography and Geoinformation Science. BS 1982, Zhejiang University, China; MS 1988, China University of Geosciences; PhD 1997, University of Nebraska, Lincoln.

Yang, Y. Tony, Assistant Professor of Health Administration and Policy. ScD 2006, Harvard University.

Yasai, Masoud, Professor of Management. BSc 1972, Imperial College of Science and Technology, London; MSc 1973, PhD 1979, City University Business School, London.

Yocom, Margaret Rose, Associate Professor of English. BA 1970, Pennsylvania State University; MA 1972, PhD 1980, University of Connecticut.

Z

Zaccaro, Stephen J., Associate Professor of Psychology. BA 1979, Fairfield University; MA 1980, PhD 1981, University of Connecticut.

Zagarri, Rosemarie, Professor of History. BA 1977, Northwestern University; MA 1978, M.Phil 1980, PhD 1984, Yale University.

Zamon, Mary E., Associate Director of Institutional Assessment. MAT 1983, Webster University; MSFS 1967, Georgetown University; PhD 2009, George Mason University.

Zawacki, Terry Myers, Associate Professor of English. BS 1967, Southern Illinois University; MA 1981, New York Institute of Technology; DA 1995, George Mason University.

Zenkov, Kristien, Associate Professor of Education. BA 1989, University of Notre Dame; MEd 1993, University of Illinois, Chicago; PhD 2000, University of Wisconsin, Madison.

Zhang, Jie, Associate Professor, Computational and Data Sciences. BS 1990, Nanjing University; MS 1993, Purple Mountain Observatory; PhD 1999, University of Maryland.

Zhang, Karl Kuan, Program Director and Associate Professor of Chinese. BA 1982, MA 1985, Fudan University; PhD 1999, Stanford University.

Zhang, Suning, Instructor of Accounting. BS 1992, East China Normal University; MBA 1998, Ohio State University; PhD 2007, University of Minnesota.
Zhao, Erhai, Assistant Professor, Physics and Astronomy. MS 1999, Fudan University; PhD 2005, Northwestern University.

Zhao, Xiaquan, Assistant Professor, Communication. BA 1993, Shaanxi Teacher’s University; MA 1996, Beijing University; MA 2001, Indiana University; PhD 2005, University of Pennsylvania.

Zhong, Yutao, Assistant Professor, Computer Science. BS 1997, ME 2000, Nanjing University, China; MS 2002, PhD 2005, University of Rochester.

Zhou, Quiping (Pearl), Assistant Professor of Nursing. Diploma in Nursing 1980, Zong Hou Nursing College; MSN 1994, University of Alberta; PhD 2001, University of Maryland.

Zhou, Ying, Director, Institutional Assessment. BA 1996, Beijing Foreign Studies University; MEd, PhD 2003, Pennsylvania State University.

Zimmerman, Emily, Lab Coordinator, Center for Social Science Research, Sociology and Anthropology. BA 1989, MS 1993, PhD 2001, City University of New York.

Zingraff, Matthew T., Associate Dean for Research and Graduate Programs, College of Humanities and Social Sciences; Professor of Criminology, Law, and Society. BS 1971, Virginia Commonwealth University; MS 1973, PhD 1976, Bowling Green State University.

Zolnik, Edmund J., Assistant Professor, Geography and Geoinformation Science. BS 1985, Fairfield University, MA 2000, PhD 2004, University of Connecticut.

Zoltek, Stanley M., Associate Professor of Mathematics, Department of Computational and Data Sciences. BS 1970, St. John’s University; MA 1973, PhD 1976, State University of New York.
Applied Music Faculty

Bassoon

Douglas Kehlenbrink, Adjunct Associate Professor. BS, Ball State University; MM, James Madison University. Former faculty member, James Madison University.

Cello

Robert Park, Adjunct Assistant Professor. BS, University of Maryland, College Park; MM, DMA, Catholic University of America; principal cellist, U.S. Army Band of Washington, D.C. (Army Orchestra and Strolling Strings).

Loran Stephenson, Adjunct Associate Professor. BM, Curtis Institute of Music; MM, Catholic University of America; National Symphony Orchestra; former member, U.S. Army Band of Washington, D.C.

David Teie, Adjunct Associate Professor, Cello. BM, Peabody Conservatory of Music of the Johns Hopkins University; cellist, National Symphony Orchestra, Washington, D.C.

Clarinet

Sharon Bonneau, Adjunct Assistant Professor. BM, BME, Eastman School of Music; MA, George Mason University; former clarinetist, U.S. Air Force Band of Washington, D.C.

Lora Ferguson, Adjunct Associate Professor. BM, Oberlin Conservatory; MM, Catholic University of America; clarinetist, Kennedy Center Opera House Orchestra; Capitol Woodwind Quintet.

Brian Jones, Adjunct Assistant Professor. BME, Florida State University; MM, Baylor University; DMA, Catholic University of America; former member, U.S. Air Force Band of Washington, D.C.; instructor of clarinet, Levine School of Music.

Composition

Steve Antosca, Adjunct Assistant Professor. BA, Tulane University; MM, Peabody Conservatory of Music of Johns Hopkins University; Artist-in-Residence, Duke Ellington School of the Arts; cochair, Composition Department at Levine School of Music.

Glenn Smith, Professor. BA, MA, California State University, Hayward; DMus, Indiana University.

Mark Camphouse, Professor. BM, MM, Northwestern University; former director of bands, Radford University.

 Conducting

Stanley Engebretson, Professor. BA, MA, University of North Dakota; DMA, Stanford University; artistic director, Masterworks Chorus and Orchestra; music director, New York Avenue Presbyterian Church; former associate conductor, Minnesota Chorale.

Anthony Maiello, Professor. BS, MS, Ithaca College; Director of Instrumental Music Studies, George Mason University; former chairman of performance, Potsdam College of State University of New York; former associate conductor, McLean (Virginia) Orchestra.

Mark Camphouse (see Composition)
Euphonium

Roger Behrend, Adjunct Professor. BME, Michigan State University; MA, George Mason University; solo/principal euphoniumist, U.S. Navy Band of Washington, D.C.

Flute

Judith Lapple, Adjunct Professor. BM, Eastman School of Music; MM, Northeast Louisiana University; former principal flutist, U.S. Air Force Band of Washington, D.C.

Thomas Perazzoli, Adjunct Associate Professor. Philadelphia Musical Academy; flutist, National Symphony Orchestra.

Guitar (Classical)

Larry Snitzler, Adjunct Professor. Former student of Andres Segovia (guitar) and Nadia Boulanger (theory).

Guitar (Jazz)

Richard Whitehead, Adjunct Assistant Professor. Former member U.S. Air Force Airmen of Note.

Harp

Jeanne Chalifoux, Adjunct Assistant Professor. Artist Diploma, Curtis Institute of Music; former harpist, National Gallery Orchestra and National Symphony Orchestra.

Horn

Eric Moore, Adjunct Assistant Professor. BME, BA, Boston University; MM, University of Texas at Austin; principal horn, U.S. Navy Band and Fairfax Symphony.

Edwin Thayer, Adjunct Associate Professor. BM, MM, University of Illinois; hornist, National Symphony Orchestra.

David Whaley, Adjunct Associate Professor. BME, Drake University; MM, DMA, University of Illinois; hornist, National Symphony Orchestra.

Koto

Kyoko Okamoto, Adjunct Assistant Professor. Bachelor in Languages, Kyoto University of Foreign Studies; Toho Kinshu Kai (Koto School).

Oboe

Lorrie Berkshire-Brown, Adjunct Assistant Professor. BM, Arizona State University; MM, Manhattan School of Music; oboist, U.S. Army Band of Washington, D.C.; substitute oboist, New York Philharmonic Orchestra.

Organ

William Neil, Adjunct Professor. BA, Pennsylvania State University; MM, Syracuse University; University of Michigan; Juilliard School; organist and keyboardist, National Symphony Orchestra, Chamber Soloists of Washington.
Percussion

Kenneth Harbison, Adjunct Associate Professor. BM, Eastman School; MM, Catholic University of America; assistant principal percussionist, National Symphony Orchestra.

John Kilkenny, Adjunct Assistant Professor. BM, The Juilliard School; MM, Temple University; music director, Metropolitan Wind Symphony; cochair, University of Maryland Summer Percussion Workshop.

Percussion (Jazz)

Harold Summey, Adjunct Assistant Professor. MM, Howard University; member, U.S. Army Band.

Piano

Anna Balakerskaia, Adjunct Artist Professor. MM, DMA, St. Petersburg State Conservatory, Russia; former faculty member, Moscow and St. Petersburg State Conservatories.

Joanne Haroutounian, Adjunct Associate Professor. BA, Trenton State College; MA, American University; PhD, University of Virginia; pedagogy author, lecturer, and clinician.

Linda Apple Monson, Associate Professor. BMEd, MM, DMA, Peabody Conservatory of Music of Johns Hopkins University; diploma (piano performance), Santiago de Compostela, Spain; former faculty member of Peabody Institute, College of Notre Dame of Maryland, and Northern Virginia Community College.

Piano (Jazz)

Wade Beach, Adjunct Assistant Professor. BM, MM, University of Maryland; former member, U.S. Air Force Band Airmen of Note.

Saxophone

Richard Parrell, Adjunct Assistant Professor. BA, BM, George Mason University; MME, North Texas State University; solo principal saxophonist, U.S. Army Band of Washington, D.C.

Timothy Roberts, Adjunct Associate Professor, Saxophone. BM Northwestern University; MM, DMA Catholic University of America; principal saxophonist and a National Tour soloist with the United States Navy Band in Washington, D.C.; coordinator of the Navy Band’s International Saxophone Symposium.

Dale Underwood, Adjunct Professor. Texas Tech University; former saxophone soloist, U.S. Navy Band of Washington, D.C.

String Bass

Glenn A. Dewey, Adjunct Associate Professor. BM, University of Illinois; MM, Northwestern University; bassist, U.S. Marine Band of Washington, D.C.; former double/electric bass instructor, Millikin University.

Trombone

Matthew Neff, Adjunct Assistant Professor. BS, MEd, Pennsylvania State University; MM, Catholic University; bass trombonist, U.S. Navy Band.
Harry Watters, Adjunct Associate Professor, Jazz Trombone. BM, University of North Texas; MM, University of New Orleans; United States Army Band-Army Blues; United States Army Band-Brass Quintet; Yamaha clinician.

**Trumpet**

Stanley Curtis, Adjunct Associate Professor. BM, University of Alabama; MM, Cleveland Institute of Music; trumpeter, U.S. Navy Band.

Dennis Edelbrock, Adjunct Professor. BME, University of Iowa; MA, DMA, Catholic University of America; trumpeter, U.S. Army Band of Washington, D.C., and National Gallery Orchestra.

Kenneth Rittenhouse, Adjunct Assistant Professor, Jazz Trumpet. BA, Performance, West Virginia Wesleyan College; MM, Jazz Studies, University of Maryland; additional graduate study, Eastman School of Music; member of the United States Army “Blues” Jazz Ensemble in Washington, D.C.; performs regularly with the Smithsonian Jazz Masterworks Orchestra.

**Tuba**

Roger Behrend (see Euphonium).

**Viola**

Edwin Johonnott, Adjunct Professor. Former violinist, National Symphony Orchestra. Studied at Indiana University and Illinois University.

Ramon Scavelli, Adjunct Associate Professor. Philadelphia Musical Academy; violist, National Symphony Orchestra.

**Violin**

James E. Gardner, Professor and Chair, Department of Music. BM, Oklahoma City University; MM, DMA, Southwestern Baptist Theological Seminary.

Peter Haase, Adjunct Professor. MM, State Conservatory of Music, Katowice, Poland; postgraduate studies, Moscow Conservatory and the Juilliard School; violinist, National Symphony Orchestra.

Edwin Johonnott (see Viola).

**Voice**

Samuel Bonds, Adjunct Associate Professor. Faculty member, Duke Ellington School for the Arts.

Carla Rae Cook, Adjunct Associate Professor. BM, University of Utah; MM, Boston University; Postgraduate Studies, Manhattan School of Music; performing dramatic mezzo-soprano.

Stanley Engebretson (see Conducting).

Kathryn Hearden-Botelho, Adjunct Professor. BM, St. Norbert College; MM, Performers Certificate, DMA, Eastman School of Music.

Laura Mann, Adjunct Professor. BM, MM, Eastman School of Music; DMA, University of Maryland.

Patricia Miller, Professor. BM, Boston University; MM, New England Conservatory; Artist Diploma, Accademia di Santa Cecilia (Rome); Advanced Vocal Studies, Mozarteum, Salzburg, Austria.
Seong Nam, Adjunct Assistant Professor. BM, Han-Yang University; MM, University of Maryland; chorus member, Washington National Opera; music director, Gyung Hyang Garden Presbyterian Church.

Richard Novak, Assistant Professor, Tenor. BM, MM, Stephen F. Austin University; DMA, University of North Texas; semifinalist-Metropolitan Opera National Council. Regional Auditions, Singer of the Year-National Association of Teachers of Singing; Wichita Grand Opera, Gilmore International Keyboard Festival, Monroe Symphony, the Living Opera, San Antonio Symphony, Des Moines Metro Opera, American Bel Canto Opera.

Debby Wenner, Adjunct Assistant Professor. BS, Frostburg State College; MM, George Washington University; graduate work, West Virginia University, Catholic University of America; former member, Metropolitan Opera Apprentice Program; performing mezzo-soprano.
Programs of Study

Key text for the codes and symbols, for the Programs of Study list:

Organized by Degree Type

Undergraduate Degrees

Accounting BS
Administration of Justice BS
Anthropology BA
Applied Computer Science BS
Art and Visual Technology BA, BFA
Art History BA
Astronomy BA, BS
Athletic Training BS
Biology BA, BS
Chemistry BA, BS
Civil and Infrastructure Engineering BS
Communication BA
Community Health BS (pending SCHEV approval)
Computational and Data Sciences BS
Computer Engineering BS
Computer Science BS
Conflict Analysis and Resolution BA, BS
Dance BA, BFA
Earth Science BS
Economics BA, BS
Electrical Engineering BS
Electronics and Communications Engineering BS
English BA
Film and Video Studies BA
Finance BS
Foreign Languages BA
Geography BA, BS
Geology BA
Global Affairs BA
Global and Environmental Change BS
Government and International Politics BA
Health, Fitness, and Recreation Resources BS
Health Science BS
History BA
Individualized Study BIS
Information Systems and Operations Management BS
Information Technology BS
Integrative Studies BA, BS
Latin American Studies BA
Management BS
Marketing BS
Mathematics BA, BS
Medical Technology BS
Music BA, BM
Neuroscience BS
Nursing BSN
Philosophy BA
Physical Education BSEd
Physics BS
Psychology BA, BS
Public Administration BS
Religious Studies BA
Russian Studies BA
Social Work BS
Sociology BA
Systems Engineering BS
Theater BA
Tourism and Events Management BS (pending SCHEV approval)

Undergraduate Certificate Programs

Accounting
Applied Statistics
Environmental Chemistry
Environmental Management
Gerontology
Information Technology
Islamic Studies
Nutrition
Operations Research and Engineering
Outdoor Adventure
Postbachelor Computer Science

Interdisciplinary Minors

African American Studies
Ancient Mediterranean Art and Archaeology
Asia-Pacific Studies
Film and Media Studies
Folklore and Mythology
Global Affairs
Global Systems
Immigration Studies
Islamic Studies
Latin American Studies
Linguistics
Middle East Studies
Multimedia
Native American and Indigenous Studies
New Europe
Political Philosophy
Science and Society
Urban and Suburban Studies
Women and Gender Studies
World Music
Minors

Administration of Justice
American Government
Anthropology
Art and Visual Technology
Art History
Arts Administration
Assistive Technology
Astronomy
Bioinformatics
Biology
Business
Chemistry
Chinese
Classical Studies
Communication
Computational and Data Sciences

ASTL: Instructional Technology
ASTL: Literacy PK–12 Classroom Teachers
ASTL: Literacy Reading Specialist (Licensure)
ASTL: Mathematics (Middle/Secondary)
ASTL: Physical Education
ASTL: Science
ASTL: Teacher Leadership
Applied Behavior Analysis
Architecture-Based Systems Engineering
Artist: Instrumental Performance
Artist: Piano Performance
Artist: Vocal Performance
Arts Entrepreneurship
Assisted Living/Senior Housing Administration
Assistive Technology
Association Management
Aviation Psychology
Bioinformatics and Computational Biology
Biometrics
Biostatistics
Civil Infrastructure and Security Engineering
Cognitive Neuroscience
Collaboration and Learning in Policy Organizations
College Teaching
Command, Control, Communications, Computing, and Intelligence
Communications and Networking
Computational Modeling
Computational Social Science
Computational Techniques and Applications
Computer Games Technology
Computer Networking
Conflict Analysis and Resolution Advanced Skills
Conflict Analysis and Resolution for Collaborative Leadership in Community Planning
Conflict Analysis and Resolution for Prevention, Reconstruction, and Stabilization Contexts
Culture and Values in Social Policy
Database Management
Data Mining
Discovery, Design, and Innovation
Early Childhood Education
Early Childhood Special Education Licensure
E-Commerce
Economic Systems Design
E-Learning
Emergency Management and Homeland Security
English as a Second Language Licensure
Environmental Management
Epidemiology
ESL/Special Education
FAST TRAIN Advanced International Baccalaureate (Studies)
FAST TRAIN Special Education
Federal Statistics
Folklore
Forensics
Forensic Nursing
Foundations of Information Systems
Geographic Information Sciences
Geospatial Intelligence
Global Health
Global Medical Policy
Global Trade Management
Governance Systems and Policy Management
Health Care Security and Privacy
Health Information Systems
Higher Education Administration
Information Engineering
Information Security and Assurance
Integration of Technology in Schools
Intelligent Agents
International Business Planning
International Governance and Institutions
International Market Analysis
Managing International Commerce
Military Operations Research
Nanotechnology and Nanoscience
National Security and Public Policy
Network Technologies and Applications
Nonprofit Management
Nursing Administration
Nursing Education
Nutrition
Online Academy for Teachers
Operations Research and Engineering
Post-master’s Counseling Licensure
Professional Ethics
Professional Writing and Editing
Public Management
Quality Improvement and Outcomes Management in Health Care Systems
Regional Economic Development and Technology Policy
Regional Trade Policy and Planning
Rehabilitation Science
Remote Sensing and Earth Image Processing
Risk Management and Patient Safety
Science and Technology Policy
Science, Technology, and the Global Economy
Secondary Education Licensure
Severe Disabilities Licensure
Signal Processing
Software Architecture
Software Engineering
Special Education Leadership
Students with Disabilities who Access the General Curriculum
Systems Engineering of Software-Intensive Systems
Teaching English as a Second Language
Teaching Students with Autism
Telecommunications Forensics and Security
Telecommunications Systems Modeling
Transportation and Logistics Policy
Usability (Psychology)
Visual Impairments PK–12 Licensure
VLSI Design/Manufacturing
Web-Based Software Engineering
Wireless Communications
Women and Gender Studies
World Religions, Diplomacy, and Conflict Resolution

Organized by Unit

Note: Several interdisciplinary programs, coming from more than one academic unit, are administered by the following divisions of the university: Institute for Conflict Analysis and Resolution, the Volgenau School of Information Technology and Engineering, College of Humanities and Social Sciences, Office of the Provost, College of Science, and School of Public Policy.

Refer to the listing under the following units to see degrees offered.

Institute for Conflict Analysis and Resolution

Conflict Analysis and Resolution Advanced Skills Certificate
Conflict Analysis and Resolution for Collaborative Leadership in Community Planning Certificate
Conflict Analysis and Resolution for Prevention, Reconstruction, and Stabilization Contexts Certificate
Conflict Analysis and Resolution Minor, BA, BS, MS, PhD
World Religions, Diplomacy, and Conflict Resolution Certificate

College of Education and Human Development

Key text for the codes and symbols, for the Programs of Study list:

Program Codes

Program codes and symbols have been added to the descriptive information found in college chapters.

■ Degree program or certificate program: Solid square symbol, degree-major code.

▲ Concentration component: Solid triangle symbol, concentration code in parentheses.

Pending program approval notations:

SCHEV: State Council of Higher Education for Virginia
Institute for Conflict Analysis and Resolution

Administration

Andrea Bartoli, Director
Julie Shedd, Associate Director for Administration
Sandra Cheldelin, PHD Program Coordinator
Mark Goodale, MS Program Coordinator
Mara Schoeny, Graduate Certificate Program Director
Agnieszka Paczynska, Undergraduate Program Director

Faculty

Professors: Avruch, Cheldelin, Gopin, Jeong, Rothbart, Rubenstein, Sandole

Associate professors: Bartoli, Cobb, Hirsch, Lyons, Paczynska, Warfield

Assistant professors: Dwyer, Flores, Goodale, Maulden, Nan, Schoeny, Simmons

Research professors: Korostelina, Price, Sluzki

Affiliate faculty: Dale, Dukes

Emeritus faculty: Mitchell

Course Work

The Institute for Conflict Analysis and Resolution (ICAR) offers all course work designated CONF in the Courses chapter of this catalog.

Undergraduate Programs

Phone: 703-993-4165
E-mail: ugradcar@gmu.edu
Location: Fairfax Campus

Agnieszka Paczynska, Undergraduate Program Director.

Conflict Analysis and Resolution (CAR) offers students a BA, a BS, or a minor in a growing interdisciplinary social science field with practical applications. Conflict analysis and resolution is committed to analyzing the sources and dynamics of conflict and
the means for resolution toward lasting peace. All CAR students take a series of core courses that provide a background in conflict theory, analysis, and conflict resolution skills. Required bridge courses cover conflict analysis and resolution at three levels: interpersonal conflict, community and organizational conflict, and international conflict. After selecting a level of conflict as a concentration, students choose courses from units throughout the university that relate to the concentration and their areas of interest, such as anthropology, communication, government, philosophy, psychology, management, sociology, and New Century College. The major also requires 3 credits of field experience in the form of an internship, a service-learning opportunity, or study abroad.

**Graduate Programs**

Phone: 703-993-1300  
E-mail: icarinfo@gmu.edu  
Location: Arlington Campus

Sandra Cheldelin, PHD Program Coordinator  
Mark Goodale, MS Program Coordinator

The Ph.D. program in Conflict Analysis and Resolution, the first of its kind in the United States, provides advanced study for students in the fields of conflict and conflict resolution. Students are prepared for careers as researchers, theoreticians, and teachers in higher education, and as policy administrators, analysts, and consultants in the public and the private sectors. The program stresses a close link between knowledge of theory and process in the resolution of conflict. For this, training in the methods of research and analysis is emphasized. In addition, students are expected to obtain a background in a substantive area of conflict, usually related to the topic of the dissertation.

The M.S. in Conflict Analysis and Resolution is a two-year professional program that prepares students for practice and further academic work by integrating conflict analysis and resolution theory, research, and practical techniques. Participants study the theory, methods, and ethical perspectives of the field, and apply this knowledge in laboratory simulations and workshops, internships, and field practice. Graduates work in a variety of settings where conflict resolution is useful and interest groups are in conflict with current and emergent public policy. Examples are businesses, unions, government agencies, religious groups, court systems, educational institutions, community centers, international relief and development organizations, and consulting firms.

**Graduate Certificates**

Phone: 703-993-1300  
E-mail: icarcert@gmu.edu  
Location: Arlington Campus

Mara Schoeny, Certificate Program Director

Five graduate certificate programs are administered by ICAR. Each of these one-year, 15-credit programs is specifically tailored to provide students with practical knowledge of conflict analysis and resolution relevant to their focused areas of work. Designed for midcareer professionals studying in a cohort environment, the certificate programs integrate conflict analysis and resolution theory, research, and practical technique. These programs use intensive course sessions, lecture, seminar, and applied mentored learning in real and simulated situations to prepare students to use conflict analysis and resolution approaches in their work in a variety of fields.

**Academic Policies**
Students should become familiar with the university's general academic policies in addition to those specific to each academic unit. Please see the Academic Policies section of this catalog.

**Appeal of Decisions**

The policies of the Institute of Conflict Analysis and Resolution are designed to be consistent, equitable, and transparent. Our office strives to be thorough, timely, and open to answer any questions students may have regarding our decisions and/or the process through which they were reached. Students seeking clarification and explanation of the decision should request an appointment with the ICAR Program Director to discuss their concerns.

Students have the right to appeal decisions regarding requests for academic actions. This step can only be taken after a request to meet with the Program Director. Students who wish to pursue an appeal after this meeting should do so only if they can provide sufficient and compelling reasons for their initial claim to be reconsidered. Such reasons include newly available documentation, proof of an irregularity in procedures, proof of inequity or inconsistency, or consequences so serious that further review is warranted. A student's dissatisfaction or disagreement with the decision does not constitute sufficient reason for a decision to be changed. Appeals are first reviewed by the Program Director. If denied, the appeal is forwarded to the ICAR Director. The decision of the ICAR Director is the final decision of the Institute.

If the appeal is a case involving an institute-level policy, the Director serves as the final point of appeal. If the appeal involves university level policies, students must first complete the Institute-level appeal process before appealing to the Provost's Office.

**Undergraduate Degree**

**Conflict Analysis and Resolution, BA**

*Banner Code: CA-BA-CONF*

Students must fulfill all requirements for bachelor's degrees including university general education requirements. Students majoring in CAR must also complete the College of Humanities and Social Sciences (CHSS) college-level requirements for philosophy or religious studies, foreign language proficiency, social sciences, and non-Western culture as well as 39 major requirement credits for the BA degree.

Students pursuing a double major/degree with a program outside of the ICAR undergraduate program will be expected to fulfill all of the university general education and college requirements necessary to complete the second major. Please check with the second major department concerning additional requirements.

**Writing-Intensive Requirement**

All Mason students are required to complete at least one course designated as “writing intensive” in their major at the 300-level or above. CONF 302 has been designated “writing intensive.”

**Advising**

CAR advisors help students create interdisciplinary programs that meet their interests and career goals. All majors and minors are strongly encouraged to meet regularly with a CAR academic advisor who will help students develop and follow a coherent plan of study and complete the degree in a timely manner.

**Physical Education Courses**
PHED courses offered by the School of Recreation, Health, and Tourism that are activity courses cannot be counted toward credits required for a degree in CAR. Students may use nonactivity PHED courses for elective credit for CAR degrees.

Degree Requirements

Required core courses (15 credits):

- CONF 101 - Conflict and Our World Credits: 3
- CONF 300 - Conflict Resolution Techniques and Practice Credits: 3
- CONF 301 - Research and Inquiry in Conflict Resolution Credits: 3
- CONF 302 - Identity Conflicts and their Resolution Credits: 3
- CONF 490 - Integration Credits: 3

Required bridge courses (9 credits):

- CONF 320 - Interpersonal Conflict Analysis and Resolution Credits: 3
- CONF 330 - Community, Group, and Organizational Conflict Analysis and Resolution Credits: 3
- CONF 340 - Global Conflict Analysis and Resolution Credits: 3

Field experience (3 credits):

Students can choose to fulfill this requirement through an internship, service learning, or study abroad. Students register for internship credits through New Century College. More information is available at ncc.gmu.edu. Students interested in study abroad should register through the Center for Global Education. More information can be found at globaled.gmu.edu/. Prior approval by the major advisor is required for all field experience options.

Internship/Service Learning:

- NCLC 390 - Internship Credits: 1-6
- NCLC 490 - Internship Credits: 1-6
- CONF 375 - Special Programs Field Experience Credits: 1-6
- NCLC 395 - Field-Based Work Credits: 1-18
- NCLC 495 - Field-Based Work Credits: 1-18

Study Abroad:

- CONF 385 - International Field Experience Credits: 3

Concentration courses (12 credits):

Students choose courses from one of three levels of conflict: interpersonal (micro level), community and organizational (mezzo level), and international (macro level). Students should choose classes that pertain to their concentration and are listed as
approved. Students are encouraged to check special topics courses each semester and think creatively about the applicability of courses that support learning in their chosen concentration. Independent study approved by the advisor is also an option. The CAR director will consider student requests for approval of courses not listed below.

▲ Concentration in Interpersonal Conflict (MICR)

Students choose four courses from the following areas:

- ANTH 315 - Socialization Processes: Family, Childhood, Personality in Cross-Cultural Perspective Credits: 3
- ANTH 365 - Race and Racism Credits: 3
- ANTH 371 - Psychological Anthropology Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3
- COMM 401 - Interpersonal Communication in the Workplace Credits: 3
- COMM 465 - Topics in Communication and Gender Credits: 3
- CONF 202 - Dialogue and Difference Credits: 3
- CONF 393 - Philosophy, Conflict Theory, and Violence Credits: 3
- CONF 399 - Special Topics in Conflict Analysis and Resolution Credits: 3
- CONF 495 - Organizations and Actors in the Conflict Field Credits: 3
- CRIM 302 - Delinquency Credits: 3
- CRIM 307 - Social Inequality, Crime, and Justice Credits: 3
- CRIM 404 - Crime Victims and Victimization Credits: 3
- CRIM 406 - Family Law and the Justice System Credits: 3
- FRLN 380 - Topics in the Sociopolitics of Language Credits: 3
- FRLN 385 - Multilingualism, Identity, and Power Credits: 3
- MGMT 464 - Teamwork and Interpersonal Skills Credits: 3
- NCLC 305 - Conflict Resolution and Transformation Credits: 6
- NCLC 310 - Violence and Gender Credits: 3-6
- NCLC 315 - Spirituality and Conflict Transformation Credits: 6
- NCLC 317 - Issues in Family Relationships Credits: 4
- NCLC 320 - Construction of Differences: Race, Class, and Gender Credits: 6
- NCLC 331 - The Nonprofit Sector Credits: 4
- NCLC 335 - Ethics, Communication, and Freedom Credits: 3-6
- PHIL 309 - Bioethics Credits: 3
- PHIL 355 - Theories of Ethics Credits: 3
- PSYC 231 - Social Psychology Credits: 3
- PSYC 321 - Counseling Psychology Credits: 3
- PSYC 324 - Personality Theory Credits: 3
- PSYC 466 - Psychology of Intimate Relationships Credits: 3
- PSYC 467 - The Psychology of Working in Groups and Teams Credits: 3
- SOCI 300 - Social Control and Human Freedom Credits: 3
- SOCI 302 - Sociology of Delinquency Credits: 3
- SOCI 305 - Sociology of Small Groups Credits: 3
- SOCI 309 - Marriage, Families, and Intimate Life Credits: 3
- SOCI 350 - Community, Diversity, and Democracy: A Practicum Credits: 3
- SOCW 323 - Human Behavior in the Social Environment I Credits: 3
- WMST 301 - Sex and Gender in Contemporary Society Credits: 3
Concentration in Community and Organizational Conflict (MEZZ)

Students choose four courses from the following areas:

- ANTH 310 - Social Organization and Kinship Credits: 3
- ANTH 340 - Comparative Perspectives on Immigration Credits: 3
- ANTH 365 - Race and Racism Credits: 3
- ANTH 488 - Gender, Sexuality, and Culture Credits: 3
- COMM 326 - Rhetoric of Social Movements and Political Controversy Credits: 3
- COMM 335 - Organizational Communication Credits: 3
- COMM 350 - Mass Communication and Public Policy Credits: 3
- COMM 432 - Gender, Sexuality, and Culture Credits: 3
- CONF 202 - Dialogue and Difference Credits: 3
- CONF 240 - Social Dynamics of Terrorism, Security, and Justice Credits: 3
- CONF 393 - Philosophy, Conflict Theory, and Violence Credits: 3
- CONF 399 - Special Topics in Conflict Analysis and Resolution Credits: 3
- CONF 495 - Organizations and Actors in the Conflict Field Credits: 3
- CRIM 302 - Delinquency Credits: 3
- CRIM 406 - Family Law and the Justice System Credits: 3
- CRIM 407 - Law and Society Credits: 3
- ECON 309 - Economic Problems and Public Policies Credits: 3
- ECON 320 - Labor Problems Credits: 3
- GGS 306 - Urban Geography Credits: 3
- GGS 406 - Suburban Geography Credits: 3
- GOVT 301 - Public Law and the Judicial Process Credits: 3
- GOVT 309 - Government and Politics of Metropolitan Areas Credits: 3
- GOVT 337 - Ethnic Politics in Western Europe and North America Credits: 3
- GOVT 365 - State and Regional Public Policy Credits: 3
- GOVT 414 - Politics of Race and Gender Credits: 3
- GOVT 460 - Surveillance and Privacy in Contemporary Society Credits: 3
- HIST 340 - History of American Racial Thought Credits: 3
- HIST 350 - U.S. Women's History Credits: 3
- HIST 418 - Ethnic Groups in America Credits: 3
- MGMT 301 - People and Organizations Credits: 3
  or
- MSOM 301 - Managing People and Organizations Credits: 3
- MGMT 412 - Diversity in Organizations Credits: 3
- MGMT 463 - Negotiations in Organizations Credits: 3
- NCLC 304 - Social Movements and Community Activism Credits: 4
- NCLC 310 - Violence and Gender Credits: 3-6
- NCLC 320 - Construction of Differences: Race, Class, and Gender Credits: 6
- NCLC 335 - Ethics, Communication, and Freedom Credits: 3-6
- NCLC 346 - Art as Social Action Credits: 4
- NCLC 361 - Neighborhood, Community, and Identity Credits: 3-6
- NCLC 378 - Medicine, Justice, and Public Policy Credits: 3
- NCLC 381 - When Cultural Worlds Collide Credits: 6
- NCLC 435 - Leadership in a Changing Environment Credits: 4
• PHIL 254 - Contemporary Ethical Problems Credits: 3
• PHIL 309 - Bioethics Credits: 3
• PHIL 343 - Issues in Environmental Ethics Credits: 3
• PHIL 355 - Theories of Ethics Credits: 3
• PSYC 231 - Social Psychology Credits: 3

- SOCI 385 - Sociology of Religion Credits: 3
- SOCI 450 - The Holocaust: The Construction of Social History through Survivor Testimonies Credits: 3
Additional Courses:

Students may choose to take additional courses from any of the concentration lists. Students should also consider

- CONF 331 - Simulation in Community and Organizational Conflict Resolution Credits: 1
- CONF 341 - Global Conflict Resolution Practice Credits: 1

Total: 120 credits

Conflict Analysis and Resolution, BS

Banner Code: CA-BS-CONF

Students must fulfill all requirements for bachelor's degrees including university general education requirements. CAR majors must also complete 54 major requirement credits for the BS degree.

Students pursuing a double major/degree with a program outside of the ICAR undergraduate program will be expected to fulfill all of the university general education and college requirements necessary to complete the second major. Please check with the second major department concerning additional requirements.

Writing-Intensive Requirement

All Mason students are required to complete at least one course designated as “writing intensive” in their major at the 300-level or above. CONF 302 has been designated “writing intensive.”

Advising

CAR advisors help students create interdisciplinary programs that meet their interests and career goals. All majors and minors are strongly encouraged to meet regularly with a CAR academic advisor who will help students develop and follow a coherent plan of study and complete the degree in a timely manner.

Physical Education Courses

PHED courses offered by the School of Recreation, Health, and Tourism that are activity courses cannot be counted toward credits required for a degree in CAR. Students may use nonactivity PHED courses for elective credit for CAR degrees.

Degree Requirements

- Non-Western culture (3 credits): from College of Humanities and Social Sciences BA requirement list. Cannot be double counted for global understanding requirement.

Required core courses (15 credits):
• CONF 101 - Conflict and Our World Credits: 3
• CONF 300 - Conflict Resolution Techniques and Practice Credits: 3
• CONF 301 - Research and Inquiry in Conflict Resolution Credits: 3
• CONF 302 - Identity Conflicts and their Resolution Credits: 3
• CONF 490 - Integration Credits: 3

Required bridge courses (9 credits):

• CONF 320 - Interpersonal Conflict Analysis and Resolution Credits: 3
• CONF 330 - Community, Group, and Organizational Conflict Analysis and Resolution Credits: 3
• CONF 340 - Global Conflict Analysis and Resolution Credits: 3

Research methods (6 credits):

• STAT 250 - Introductory Statistics I Credits: 3

3 credits chosen from:

• ANTH 380 - Language and Culture Credits: 3
• ANTH 450 - Qualitative Methods: Nonstatistical Approaches in Culture and Social Research Credits: 3
• CRIM 300 - Research Methods and Analysis Credits: 4
• ENGL 327 - Introduction to Cultural Studies Credits: 3
• GOVT 300 - Research Methods and Analysis Credits: 4
• GOVT 366 - Public Policy Analysis Credits: 3
• HIST 300 - Introduction to Historical Method Credits: 3
• PHIL 357 - Philosophy of the Social Sciences Credits: 3
  or
• SOCI 599 - Issues in Sociology Credits: 1-3
• PSYC 300 - Statistics in Psychology Credits: 4
• PSYC 301 - Research Methods in Psychology Credits: 3
• SOCI 303 - Sociological Research Methodology Credits: 4
• SOCI 313 - Statistics for the Behavioral Sciences Credits: 4
• SOCI 410 - Social Surveys and Attitude and Opinion Measurements Credits: 3
• STAT 362 - Introduction to Computer Statistical Packages Credits: 3
• STAT 474 - Introduction to Survey Sampling Credits: 3

Field experience (3 credits):

Students can choose to fulfill this requirement through an internship, service learning, or study abroad. Students register for internship credits through New Century College. More information is available at ncc.gmu.edu. Students interested in study abroad should register through the Center for Global Education. More information can be found at globaled.gmu.edu. Prior approval by the major advisor is required for all field experience options.

Internship/Service Learning:
• NCLC 390 - Internship Credits: 1-6
• NCLC 490 - Internship Credits: 1-6
• CONF 375 - Special Programs Field Experience Credits: 1-6
• NCLC 395 - Field-Based Work Credits: 1-18
• NCLC 495 - Field-Based Work Credits: 1-18

Study Abroad:

• CONF 385 - International Field Experience Credits: 3

Concentration courses (12 credits):

Students choose courses from one of three levels of conflict: interpersonal (micro level), community and organizational (mezzo level), and international (macro level). Students should choose classes that pertain to their concentration and are listed as approved. Students are encouraged to check special topics courses each semester and think creatively about the applicability of courses that support learning in their chosen concentration. Independent study approved by the advisor is also an option. The CAR director will consider student requests for approval of courses not listed below.

▲ Concentration in Interpersonal Conflict (MICR)

Students choose four courses from:

• ANTH 315 - Socialization Processes: Family, Childhood, Personality in Cross-Cultural Perspective Credits: 3
• ANTH 365 - Race and Racism Credits: 3
• ANTH 371 - Psychological Anthropology Credits: 3
• COMM 305 - Foundations of Intercultural Communication Credits: 3
• COMM 401 - Interpersonal Communication in the Workplace Credits: 3
• COMM 465 - Topics in Communication and Gender Credits: 3
• CONF 202 - Dialogue and Difference Credits: 3
• CONF 393 - Philosophy, Conflict Theory, and Violence Credits: 3
• CONF 399 - Special Topics in Conflict Analysis and Resolution Credits: 3
• CONF 495 - Organizations and Actors in the Conflict Field Credits: 3
• CRIM 302 - Delinquency Credits: 3
• CRIM 307 - Social Inequality, Crime, and Justice Credits: 3
• CRIM 404 - Crime Victims and Victimization Credits: 3
• CRIM 406 - Family Law and the Justice System Credits: 3
• FRLN 380 - Topics in the Sociopolitics of Language Credits: 3
• FRLN 385 - Multilingualism, Identity, and Power Credits: 3
• MGMT 464 - Teamwork and Interpersonal Skills Credits: 3
• NCLC 305 - Conflict Resolution and Transformation Credits: 6
• NCLC 310 - Violence and Gender Credits: 3-6
• NCLC 315 - Spirituality and Conflict Transformation Credits: 6
• NCLC 317 - Issues in Family Relationships Credits: 4
• NCLC 320 - Construction of Differences: Race, Class, and Gender Credits: 6
• NCLC 331 - The Nonprofit Sector Credits: 4
• NCLC 335 - Ethics, Communication, and Freedom Credits: 3-6
• PHIL 309 - Bioethics Credits: 3
• PHIL 355 - Theories of Ethics Credits: 3
• PSYC 231 - Social Psychology Credits: 3
• PSYC 321 - Counseling Psychology Credits: 3
• PSYC 324 - Personality Theory Credits: 3
• PSYC 466 - Psychology of Intimate Relationships Credits: 3
• PSYC 467 - The Psychology of Working in Groups and Teams Credits: 3
• SOCI 300 - Social Control and Human Freedom Credits: 3
• SOCI 302 - Sociology of Delinquency Credits: 3
• SOCI 305 - Sociology of Small Groups Credits: 3
• SOCI 309 - Marriage, Families, and Intimate Life Credits: 3
• SOCI 350 - Community, Diversity, and Democracy: A Practicum Credits: 3
• SOCW 323 - Human Behavior in the Social Environment I Credits: 3
• WMST 301 - Sex and Gender in Contemporary Society Credits: 3

▲ Concentration in Community and Organizational Conflict (MEZZ)

Students choose four courses from:

• ANTH 310 - Social Organization and Kinship Credits: 3
• ANTH 340 - Comparative Perspectives on Immigration Credits: 3
• ANTH 365 - Race and Racism Credits: 3
• ANTH 488 - Gender, Sexuality, and Culture Credits: 3
• COMM 326 - Rhetoric of Social Movements and Political Controversy Credits: 3
• COMM 335 - Organizational Communication Credits: 3
• COMM 350 - Mass Communication and Public Policy Credits: 3
• COMM 432 - Political Communication Credits: 3
• CONF 202 - Dialogue and Difference Credits: 3
• CONF 240 - Social Dynamics of Terrorism, Security, and Justice Credits: 3
• CONF 393 - Philosophy, Conflict Theory, and Violence Credits: 3
• CONF 399 - Special Topics in Conflict Analysis and Resolution Credits: 3
• CONF 495 - Organizations and Actors in the Conflict Field Credits: 3
• CRIM 302 - Delinquency Credits: 3
• CRIM 406 - Family Law and the Justice System Credits: 3
• CRIM 407 - Law and Society Credits: 3
• ECON 309 - Economic Problems and Public Policies Credits: 3
• ECON 320 - Labor Problems Credits: 3
• GGS 306 - Urban Geography Credits: 3
• GGS 406 - Suburban Geography Credits: 3
• GOVT 301 - Public Law and the Judicial Process Credits: 3
• GOVT 309 - Government and Politics of Metropolitan Areas Credits: 3
• GOVT 337 - Ethnic Politics in Western Europe and North America Credits: 3
• GOVT 365 - State and Regional Public Policy Credits: 3
• GOVT 414 - Politics of Race and Gender Credits: 3
• GOVT 460 - Surveillance and Privacy in Contemporary Society Credits: 3
• HIST 340 - History of American Racial Thought Credits: 3

- MSOM 305 - Managing in a Global Economy Credits: 3
Major electives (6 credits):

Elective courses can be chosen from the approved concentration course list at any level but may not count for both concentration and elective credit. Independent study approved by the advisor is also an option.

Additional Courses:

Students may choose to take additional courses from any of the concentration lists. Students should also consider:

- CONF 331 - Simulation in Community and Organizational Conflict Resolution Credits: 1
- CONF 341 - Global Conflict Resolution Practice Credits: 1

Total: 120 credits

Undergraduate Minor

Conflict Analysis and Resolution Minor

Banner Code: CONF

Students pursuing a minor complete 18 credits. At least 9 credits of the minor must be applied only to the CAR minor and may not be used to fulfill requirements of the student's major, major concentration, or another minor.

Advising

CAR advisors help students create interdisciplinary programs that meet their interests and career goals. All majors and minors are strongly encouraged to meet regularly with a CAR academic advisor who will help students develop and follow a coherent plan of study and complete the degree in a timely manner.
Physical Education Courses

PHED courses offered by the School of Recreation, Health, and Tourism that are activity courses cannot be counted toward credits required for a degree in CAR. Students may use nonactivity PHED courses for elective credit for CAR degrees.

Course Work

Students pursuing a minor complete 18 credits distributed as follows:

Required core courses (6 credits):

- CONF 101 - Conflict and Our World Credits: 3
- CONF 300 - Conflict Resolution Techniques and Practice Credits: 3

One of three bridge courses (3 credits):

- CONF 320 - Interpersonal Conflict Analysis and Resolution Credits: 3
- CONF 330 - Community, Group, and Organizational Conflict Analysis and Resolution Credits: 3
- CONF 340 - Global Conflict Analysis and Resolution Credits: 3

Emphasis courses (9 credits):

Students choose courses from one of three levels of conflict: interpersonal (micro level), community and organizational (mezzo level), and international (macro level). With permission of the advisor, students may use other CONF designated courses to fulfill emphasis requirements. The CAR director will consider student requests for approval of courses not listed below.

Emphasis in Interpersonal Conflict

Students choose three courses from:

- ANTH 315 - Socialization Processes: Family, Childhood, Personality in Cross-Cultural Perspective Credits: 3
- ANTH 365 - Race and Racism Credits: 3
- ANTH 371 - Psychological Anthropology Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3
- COMM 401 - Interpersonal Communication in the Workplace Credits: 3
- COMM 465 - Topics in Communication and Gender Credits: 3
- CONF 202 - Dialogue and Difference Credits: 3
- CONF 393 - Philosophy, Conflict Theory, and Violence Credits: 3
- CONF 399 - Special Topics in Conflict Analysis and Resolution Credits: 3
- CONF 495 - Organizations and Actors in the Conflict Field Credits: 3
- CRIM 302 - Delinquency Credits: 3
- CRIM 307 - Social Inequality, Crime, and Justice Credits: 3
- CRIM 404 - Crime Victims and Victimization Credits: 3
CRIM 406 - Family Law and the Justice System Credits: 3
FRLN 380 - Topics in the Sociopolitics of Language Credits: 3
FRLN 385 - Multilingualism, Identity, and Power Credits: 3
MGMT 464 - Teamwork and Interpersonal Skills Credits: 3
NCLC 305 - Conflict Resolution and Transformation Credits: 6
NCLC 310 - Violence and Gender Credits: 3-6
NCLC 315 - Spirituality and Conflict Transformation Credits: 6
NCLC 317 - Issues in Family Relationships Credits: 4
NCLC 320 - Construction of Differences: Race, Class, and Gender Credits: 6
NCLC 331 - The Nonprofit Sector Credits: 4
NCLC 335 - Ethics, Communication, and Freedom Credits: 3-6
PHIL 309 - Bioethics Credits: 3
PHIL 355 - Theories of Ethics Credits: 3
PSYC 231 - Social Psychology Credits: 3
PSYC 321 - Counseling Psychology Credits: 3

- SOCI 340 - Power, Politics, and Society Credits: 3
- SOCI 385 - Sociology of Religion Credits: 3
- SOCI 450 - The Holocaust: The Construction of Social History through Survivor Testimonies Credits: 3

**Additional Courses:**

Students may choose to take additional courses from any of the concentration lists. Students should also consider

- CONF 331 - Simulation in Community and Organizational Conflict Resolution Credits: 1
- CONF 341 - Global Conflict Resolution Practice Credits: 1

**Dual Degree**

**Social Work and Conflict Analysis and Resolution Dual Degree, MS (ICAR)**

**Banner Codes: HH-MSW-SOCW and CA-MS-CONF**

The Department of Social Work and the Institute for Conflict Analysis and Resolution have joined forces to offer a three year dual-degree program. Students can earn both an MSW and an MS in conflict analysis and resolution while taking advantage of the diversity of the Washington, D.C., metropolitan area and the university’s proximity to the nation’s capital. This is the only dual-degree program of its kind.

**Admissions Requirements**
Students interested in the 3-year Dual Degree program on MSW and Master’s in Conflict Analysis & Resolution must complete a University Graduate Application (one application; designate Social Work as the primary program). One Goal Statement, Three Letters of Recommendation, and Transcripts are required. In answering the Goal Statement and on Letters of Recommendation, please address your interest in both programs.

In addition, for the MSW, submit a Resume, Critical Thinking Essay, and Application Data Form. On the MSW checklist and applicant data form, check Dual Degree.

Application materials are to be submitted to the College of Health and Human Services.

If accepted to the Dual Degree program, one letter will be sent from the Social Work Department Chair and Director of the Institute on Conflict Analysis and Resolution. An orientation on the Dual Degree will be held during the summer prior to the beginning of the program. Advising will be done collaboratively between the two programs.

Please note that in order to complete the Dual Degree, students must be accepted to both programs at the same time (fall semester admission), complete the courses as outlined in the curriculum beginning in the fall, and graduate with both degrees at the same time. Students who are already enrolled in either program are not eligible to complete the Dual Degree.

**Degree Requirements**

Students must successfully complete the following:

**Social Work Courses (50 credits)**

- SOCW 623 - Human Behavior and Social Systems I Credits: 3
- SOCW 624 - Human Behavior and Social Systems II Credits: 3
- SOCW 651 - Social Policies, Programs, and Services Credits: 3
- SOCW 652 - Influencing Social Policy Credits: 3
- SOCW 657 - Direct Social Work Practice I Credits: 3
- SOCW 658 - Direct Social Work Practice II Credits: 3
- SOCW 670 - Communication and Technology for Social Work Practice Credits: 3
- SOCW 672 - Foundation Field Practicum and Seminar I Credits: 3
- SOCW 673 - Foundation Field Practicum and Seminar II Credits: 3
- SOCW 684 - Social Work and the Law Credits: 4
- SOCW 685 - Organizational Leadership for Social Workers Credits: 4
- SOCW 687 - Empowering Communities for Change Credits: 4
- SOCW 688 - Advanced Research in Social Work Credits: 3
- SOCW 694 - Social Change Practicum I Credits: 4
- SOCW 695 - Social Change Practicum II Credits: 4

**Conflict Analysis and Resolution Courses (35 credits)**

- CONF 501 - Introduction to Conflict Analysis and Resolution Credits: 3
- CONF 601 - Theories of Conflict and Conflict Resolution Credits: 3
- CONF 610 - Philosophy and Methods of Conflict Research Credits: 3
- CONF 642 - Integration of Theory and Practice Credits: 3
- CONF 694 - Internship Credits: 1-6
  3 credits of CONF 694 are required
• CONF 713 - Reflective Practice in Interpersonal-Multiparty Conflicts Credits: 3
• CONF 795 - Professional Development Seminars Credits: 1-2
  5 credits of CONF 795 are required

Electives

• 12 credits of CONF electives, selected with approval from ICAR

Total: 85 credits

Master's Degree

Conflict Analysis and Resolution, MS

Banner Code: CA-MS-CONF

This two-year professional program prepares students for practice and further academic work by integrating conflict analysis and resolution theory, research, and practical techniques. Participants study the theory, methods, and ethical perspectives of the field, and apply this knowledge in laboratory simulations and workshops, internships, and field practice. Graduates work in a variety of settings where conflict resolution is useful and interest groups are in conflict with current and emergent public policy. Examples are businesses, unions, government agencies, religious groups, court systems, educational institutions, community centers, international relief and development organizations, and consulting firms.

Admission Requirements

In addition to meeting all admission requirements for graduate study, applicants must submit all undergraduate and graduate transcripts; three letters of recommendation, one of which should be from a faculty member in the applicant’s undergraduate or graduate major field; a resume or curriculum vitae; and a 750- to 1,000-word essay on goals and reasons for seeking admission to the program. GRE or other standardized test scores are not required but may be submitted. The TOEFL is required of international students. For more information, see the Admission of International Students section in the Admissions chapter of this catalog. Students can be admitted to the MS program for both the Fall and Spring semesters.

Background courses in social sciences, as well as prior work experience, are desirable. Prior graduate academic work is evaluated on an individual basis for possible transfer credit and fulfillment of program requirements; however, Mason usually does not reduce the total credits required for the degree. Students may enroll on a full- or part-time basis.

Transfer of Non-Degree Credit

A maximum of 12 credits of ICAR graduate courses taken at George Mason as a non-degree graduate student, or as part of ICAR's graduate certificate program may be transferred into the M.S. program. How credit will be counted will be determined in consultation with the accepted student's advisor. A maximum of 6 credits of non-ICAR courses taken as non-degree credit can be counted toward the M.S. program. Courses counted toward another degree cannot be transferred.
Adding an ICAR Certificate Program

Students may elect to complete an ICAR Graduate Certificate in addition to the MS program. Graduate Certificates are opportunities for students to further tailor their academic program and specialize in a specific area of Conflict Resolution Practice. Certain graduate certificate courses can be used to fulfill MS program requirements. Students should consult with the Certificate Program Director and the Master's Program Director for policies on counting certificate courses toward the MS degree.

Peace Corps Master's International

The Master's International, a joint program of Mason and the Peace Corps enables participants to prepare for Peace Corps volunteer services while earning an MS in Conflict Analysis and Resolution. Students apply separately to the Peace Corps and to Mason. The 41 credit curriculum provides students with skills and tools to prepare them for work as community development leaders during their Peace Corps Service. An accelerated pathway is provided to allow Peace Corps volunteers to complete 29 credits prior to overseas service (including a summer term), students then receive 6 credits of CONF 694 internship for overseas Peace Corps service. Mason will provide tuition support for the 6 credits of CONF 694 earned overseas. Students then return to Mason for a semester to complete the final 6 credits. Students accepted into the academic program but waiting for notification of acceptance from the Peace Corps may begin their Master's program but will not be eligible for tuition support until they are accepted into the Peace Corps. More information on Master's International Program can be found at www.peacecorps.gov/index.cfm

Dual Degree Program with the University of Malta

Students have the opportunity to pursue a M.S. in Conflict Analysis and Resolution from George Mason University and a M.A. in Conflict Resolution and Mediterranean Security from the University of Malta through an innovative Dual Degree Program. This 14 month program is offered only on site at the University of Malta. Students interested in pursuing the dual degree should apply through University of Malta at www.um.edu.mt/imp/home.aspx. This program will be offered beginning Fall 2010 pending SACS approval.

Degree Requirements

Forty-one credits are required: 15 in required core courses, 20 in elective courses, and 6 in integrative courses (students can choose from a defined list). Mason requires all students to complete the master’s degree within six years of their official admission date.

Because the choice of electives can vary significantly according to individual goals or needs, each student should develop a plan of study that should be discussed once each semester with the advisor and updated as appropriate.

Please check the ICAR student handbook for information on registration procedures.

Required Courses

Students take the following 15 credits of required course work.

- CONF 501 - Introduction to Conflict Analysis and Resolution Credits: 3 CONF 501 should be taken in the first semester of a student's coursework.
- CONF 601 - Theories of Conflict and Conflict Resolution Credits: 3
• CONF 610 - Philosophy and Methods of Conflict Research Credits: 3
• CONF 713 - Reflective Practice in Interpersonal-Multiparty Conflicts Credits: 3
• CONF 642 - Integration of Theory and Practice Credits: 3
  CONF 642 should be taken in the last semester of a student's M.S. coursework.

Elective Courses

Students take 20 credits of elective coursework. Electives are any 500, 600, or 700 level CONF courses, except required courses. With the advisor's approval, each student is eligible to include a maximum of 6 credits of electives from outside the ICAR program, including courses in other Mason departments, consortium courses, and transfer courses from other universities.

Integrative Courses

Students must complete 6 credits of integrative work, choosing one of the following options:

Applied Practice and Theory

The Applied Practice and Theory (APT) Program is a 6-credit course that runs yearlong. It is designed to take the concepts presented in class and practiced in labs into real situations with conflict and consequences. Students work in teams integrating research and practice with theory development and applied ethics.

  • CONF 690 - Practicum in Conflict Analysis and Resolution Credits: 3

Internship

The internship program provides students with opportunities to use and develop conflict resolution skills, integrate theory and practice of conflict analysis and resolution, and network with professionals in the field to enhance employment opportunities. Experience does not necessarily have to be explicitly hands on. CONF 694 requires at least 160 hours of supervised work on a project toward the analysis or resolution of conflict. Such work must be spelled out in a memorandum of agreement to be signed by the student, the site supervisor, and the internship coordinator before the internship begins. Students may either take 6 credits of CONF 694 or 3 credits of CONF 694 & 3 of CONF 795.

  • CONF 694 - Internship Credits: 1-6
  • CONF 795 - Professional Development Seminars Credits: 1-2

Thesis

Students wishing to complete a Master's Thesis are strongly encouraged to take CONF 797 (Proposal Development) the semester before beginning the thesis project. Before registering, students must have identified a Master's thesis committee chair to supervise the project. Students should contact ICAR student services to receive the CRN to register for thesis.

  • CONF 797 - Proposal Development Credits: 1
  • CONF 799 - Master's Thesis Credits: 1-3

Directed Readings
Only two directed readings (CONF 697) may be applied toward requirements for the master’s degree (maximum 6 credits).

- CONF 697 - Directed Reading Credits: 1-3

Total: 41 credits

Master’s Level Certificate

Conflict Analysis and Resolution Advanced Skills Graduate Certificate

Banner Code: CA-CERG-CARA

This 15-credit program is specifically tailored to provide students with practical knowledge of conflict analysis and resolution relevant to their focused areas of work. Designed for midcareer professionals studying in a cohort environment, the certificate programs integrate conflict analysis and resolution theory, research, and practical technique. These programs use intensive course sessions, lecture, seminar, and applied mentored learning in real and simulated situations to prepare students to use conflict analysis and resolution approaches in their work in a variety of fields. The Conflict Analysis and Resolution Advanced Skills Certificate covers conflict resolution skills in challenging conflicts and considers innovative and emerging practices.

Admission Requirements

In addition to meeting all admission requirements for graduate study, applicants must submit an undergraduate transcript showing completion of an undergraduate degree or equivalent, a cover letter specifying interest in the program, two letters of recommendation and a curriculum vitae or résumé indicating relevant work experience.

In addition, prior work experience in areas related to the chosen graduate certificate is desirable. GRE or other standardized test scores are not required but may be submitted. The TOEFL is required of international students. For more information, see the Admission of International Students section in the Admissions chapter of this catalog. Although students may enter the program in either the fall or spring semester, they are strongly encouraged to participate fully in the cohort learning experience by enrolling for the fall semester, taking two courses in the fall and two in the spring, and completing their certificate with the final course in the summer. The capstone course is only offered in the summer, students admitted for the spring term should expect their certificate program to take at least 18 months.

Please note Graduate Certificate courses are offered only in Saturday and Sunday sessions. Please check the Schedule of Classes for each term to identify course meeting dates, and specific add/drop dates for these partial semester courses.

Certificate Requirements

Fifteen credits are required for each graduate certificate degree.

Required Courses

Students take 12 credits of required course work.
- CONF 502 - Intensive Introduction to Conflict Analysis and Resolution Credits: 3 (fall and spring)
- CONF 650 - Conflict Analysis and Resolution Advanced Skills Credits: 3 (fall)
- CONF 660 - Conflict Assessment and Program Evaluation Credits: 3 (spring)
- CONF 668 - Applied Integration for Graduate Certificates Credits: 3 (summer)

Elective Courses

Students take 3 credits of elective course work. They may choose from the following:

- CONF 656 - Integrating Complementary Approaches in Conflict Analysis and Resolution Credits: 3 (spring)
- CONF 657 - Facilitation Skills Credits: 3 (spring)
- CONF 658 - Diversity and Difference in Conflict Analysis and Resolution Credits: 3 (spring)
- CONF 659 - Leadership in Conflict Analysis and Resolution Credits: 3 (spring)
- CONF 665 - Special Topics in Conflict Analysis and Resolution Credits: 3

Note:

Application of any other course toward fulfillment of the elective requirement must be approved by the Certificate Program Director.

Conflict Analysis and Resolution for Collaborative Leadership in Community Planning Graduate Certificate

Banner Code: CA-CERG-CARC

This 15-credit program is specifically tailored to provide students with practical knowledge of conflict analysis and resolution relevant to their focused areas of work. Designed for midcareer professionals studying in a cohort environment, the certificate programs integrate conflict analysis and resolution theory, research, and practical technique. These programs use intensive course sessions, lecture, seminar, and applied mentored learning in real and simulated situations to prepare students to use conflict analysis and resolution approaches in their work in a variety of fields. The Conflict Analysis and Resolution for Collaborative Leadership in Community Planning Certificate covers designing collaborative processes to work with diverse stakeholders to build meaningful and lasting shared agreements in land use, development or other community planning contexts.

Admission Requirements

In addition to meeting all admission requirements for graduate study, applicants must submit an undergraduate transcript showing completion of an undergraduate degree or equivalent, a cover letter specifying interest in the program, two letters of recommendation, and a curriculum vitae or résumé indicating relevant work experience.

In addition, prior work experience in areas related to the chosen graduate certificate is desirable. GRE or other standardized test scores are not required but may be submitted. The TOEFL is required of international students. For more information, see the Admission of International Students section in the Admissions chapter of this catalog. Although students may enter the program in either the fall or spring semester, they are strongly encouraged to participate fully in the cohort learning experience by enrolling for the fall semester, taking two courses in the fall and two in the spring, and completing their certificate with the final course in the summer. The capstone course is only offered in the summer, students admitted for the spring term should expect their certificate program to take at least 18 months.
Please note Graduate Certificate courses are offered only in Saturday and Sunday sessions. Please check the Schedule of Classes for each term to identify course meeting dates, and specific add/drop dates for these partial semester courses.

Certificate Requirements

Fifteen credits are required for each graduate certificate degree.

Required Courses

Students take 12 credits of required coursework.

- CONF 502 - Intensive Introduction to Conflict Analysis and Resolution Credits: 3 (fall and spring)
- CONF 651 - Conflict Analysis and Resolution for Collaborative Leadership in Community Planning Credits: 3 (fall)
- CONF 660 - Conflict Assessment and Program Evaluation Credits: 3 (spring)
- CONF 668 - Applied Integration for Graduate Certificates Credits: 3 (summer)

Elective Courses

Students take 3 credits of elective course work. They may choose from the following:

- CONF 656 - Integrating Complementary Approaches in Conflict Analysis and Resolution Credits: 3 (spring)
- CONF 657 - Facilitation Skills Credits: 3 (spring)
- CONF 658 - Diversity and Difference in Conflict Analysis and Resolution Credits: 3 (spring)
- CONF 659 - Leadership in Conflict Analysis and Resolution Credits: 3 (spring)
- CONF 665 - Special Topics in Conflict Analysis and Resolution Credits: 3

Note:

Application of any other course toward fulfillment of the elective requirement must be approved by the Certificate Program Director.

Conflict Analysis and Resolution for Prevention, Reconstruction, and Stabilization Contexts Graduate Certificate

Banner Code: CA-CERG-CARP

This 15-credit program is specifically tailored to provide students with practical knowledge of conflict analysis and resolution relevant to their focused areas of work. Designed for midcareer professionals studying in a cohort environment, the certificate programs integrate conflict analysis and resolution theory, research, and practical technique. These programs use intensive course sessions, lecture, seminar, and applied mentored learning in real and simulated situations to prepare students to use conflict analysis and resolution approaches in their work in a variety of fields. The Conflict Analysis and Resolution for Prevention, Reconstruction, and Stabilization Contexts Graduate Certificate augments development, defense, security, or humanitarian aid work experience with the theories and skills of conflict analysis and resolution for designing, implementing, and evaluating conflict-sensitive initiatives internationally in areas of potential violence and post-conflict reconstruction and stabilization. Considers cross-sectoral approaches to long-term violence prevention and constructive conflict resolution.
Admission Requirements

In addition to meeting all admission requirements for graduate study, applicants must submit an undergraduate transcript showing completion of an undergraduate degree or equivalent, a cover letter specifying interest in the program, two letters of recommendation, and a curriculum vitae or résumé indicating relevant work experience.

In addition, prior work experience in areas related to the chosen graduate certificate is desirable. GRE or other standardized test scores are not required but may be submitted. The TOEFL is required of international students. For more information, see the Admission of International Students section in the Admissions chapter of this catalog. Although students may enter the program in either the fall or spring semester, they are strongly encouraged to participate fully in the cohort learning experience by enrolling for the fall semester, taking two courses in the fall and two in the spring, and completing their certificate with the final course in the summer. The capstone course is only offered in the summer, students admitted for the spring term should expect their certificate program to take at least 18 months.

Please note Graduate Certificate courses are offered only in Saturday and Sunday sessions. Please check the Schedule of Classes for each term to identify course meeting dates, and specific add/drop dates for these partial semester courses.

Certificate Requirements

Fifteen credits are required for each graduate certificate degree.

Required Courses

Students take 12 credits of required course work.

- CONF 502 - Intensive Introduction to Conflict Analysis and Resolution Credits: 3 (fall and spring)
- CONF 652 - Conflict Analysis and Resolution for Prevention, Reconstruction, and Stabilization Contexts Credits: 3 (fall)
- CONF 660 - Conflict Assessment and Program Evaluation Credits: 3 (spring)
- CONF 668 - Applied Integration for Graduate Certificates Credits: 3 (summer)

Elective Courses

Students take 3 credits of elective course work. They may choose from the following:

- CONF 656 - Integrating Complementary Approaches in Conflict Analysis and Resolution Credits: 3
- CONF 657 - Facilitation Skills Credits: 3
- CONF 658 - Diversity and Difference in Conflict Analysis and Resolution Credits: 3
- CONF 659 - Leadership in Conflict Analysis and Resolution Credits: 3
- CONF 665 - Special Topics in Conflict Analysis and Resolution Credits: 3

Note:

Application of any other course toward fulfillment of the elective requirement must be approved by the Certificate Program Director.
Environmental Conflict Resolution and Collaboration Graduate Certificate

Banner Code: CA-CERG-ECR

The Institute for Conflict Analysis and Resolution (ICAR) and the Department of Environmental Science and Policy (ESP) jointly offer a 15-credit Graduate Certificate in Environmental Conflict Resolution and Collaboration. This certificate is intended for mid-career professionals working in federal, state and local government as well as others whose positions involve negotiating environmental conflicts.

The Graduate Certificate in Conflict Resolution and Collaboration focuses on a systems approach to environmental conflict to understand how it is embedded within formal legal, regulatory, and ecological systems as well as informal networks of governance. Coursework focuses on the strategic thinking that is required for assessing and designing appropriate ECR processes; as well as understanding the public interest and questions of social justice and sustainability that make environmental conflict particularly important and challenging.

Admissions Procedures and Requirements For admission, students must show graduation from a Bachelor’s program (or equivalent) and related work experience. Applicants to this graduate certificate program should hold a B.A. or B.S. degree in a discipline related to the certificate’s theme from an accredited university, with a minimum GPA of 3.00. Applicants must submit a completed Mason graduate application, along with official transcripts, resume, VA domicile classification form, and TOEFL scores if they are foreign nationals. GRE scores and letters of recommendation are not required, but will considerably strengthen an application, if available. Questions and application materials should be directed to the ICAR Graduate Admissions office. Depending on the background of the individual student, the certificate director may recommend remedial or preparatory courses tailored to student’s needs. Students may transfer no more than 3 credit hours into the certificate program with the approval of the academic director.

Certificate Requirements

Fifteen credits are required for the graduate certificate.

Core Courses

Students take 9 credits of core courses. The core courses listed below are crosslisted with EVPP 682, EVPP 683, EVPP 684, and students may register for either using the CONF course number or equivalent EVPP course number.

- CONF 682 - Principles of Environmental Conflict Resolution Credits: 3 (fall)
- CONF 683 - Environmental Conflict Resolution and Collaboration: Situation Assessment, Process Design and Best Practices Credits: 3 (spring)
- CONF 684 - Environmental Conflict Resolution and Collaboration: Leadership Practicum/Capstone Credits: 3 (spring)

Skills and Competencies Courses

3 credits required in environmental conflict resolution skills and competencies. This requirement is fulfilled through the following courses, depending upon the student’s academic background. Students without prior background in either conflict resolution or environmental science should take both EVPP 607 and CONF 501 or 502, and none of the elective courses listed below. Students without an environmental background should take EVPP 607. Students without a conflict resolution background should take either CONF 501 or CONF 502. Students with both prior environmental and conflict background may choose among a set of for-credit “short courses” with approval of the Certificate Director to satisfy this requirement.
Elective Courses

Students take 3 credits of elective course work, they may choose from the following courses. Application of any other course toward fulfillment of the elective requirement must be approved by the Director of the Certificate Program.

- CONF 695 - Selected Topics Credits: 3 topic must be approved by Certificate Program Director
- EVPP 623 - Translating Environmental Policy into Action Credits: 3
- EVPP 505 - Selected Topics in Environmental Science Credits: 4
- EVPP 521 - Marine Conservation Credits: 3
- EVPP 620 - Development of U.S. Environmental Policies Credits: 3
- EVPP 626 - Environment and Development in Asia Credits: 3
- EVPP 635 - Environment and Society Credits: 3
- EVPP 638 - Corporate Environmental Management and Policy Credits: 3
- EVPP 641 - Environmental Science and Public Policy Credits: 3
- EVPP 642 - Environmental Policy Credits: 3
- EVPP 677 - Applied Ecology and Ecosystem Management. Credits: 3
- EVPP 741 - Advanced Topics in Environmental Science and Public Policy Credits: 0-4 topic must be approved by Certificate Program Director

World Religions, Diplomacy, and Conflict Resolution Graduate Certificate

Banner Code: CA-CERG-CARW

This 15-credit program is specifically tailored to provide students with practical knowledge of conflict analysis and resolution relevant to their focused areas of work. Designed for midcareer professionals studying in a cohort environment, the certificate programs integrate conflict analysis and resolution theory, research, and practical technique. These programs use intensive course sessions, lecture, seminar, and applied mentored learning in real and simulated situations to prepare students to use conflict analysis and resolution approaches in their work in a variety of fields. The World Religions, Diplomacy and Conflict Resolution Certificate considers strategies to reduce global violence and terrorism by incorporating the best moral practices of religious communities into policy planning, diplomacy, civil society building and democratization. Covers strategies to elicit moderate moral religious expression in conflict regions to strengthen civil society and democracy.

Admission Requirements

In addition to meeting all admission requirements for graduate study, applicants must submit an undergraduate transcript showing completion of an undergraduate degree or equivalent, a cover letter specifying interest in the program, two letters of recommendation, and a curriculum vitae or résumé indicating relevant work experience.
In addition, prior work experience in areas related to the chosen graduate certificate is desirable. GRE or other standardized test scores are not required but may be submitted. The TOEFL is required of international students. For more information, see the Admission of International Students section in the Admissions chapter of this catalog. Although students may enter the program in either the fall or spring semester, they are strongly encouraged to participate fully in the cohort learning experience by enrolling for the fall semester, taking two courses in the fall and two in the spring, and completing their certificate with the final course in the summer. The capstone course is only offered in the summer, students admitted for the spring term should expect their certificate program to take at least 18 months.

Please note Graduate Certificate courses are offered only in Saturday and Sunday sessions. Please check the Schedule of Classes for each term to identify course meeting dates, and specific add/drop dates for these partial semester courses.

Certificate Requirements

Fifteen credits are required for each graduate certificate.

Required Courses

Students take 12 credits of required course work.

- CONF 502 - Intensive Introduction to Conflict Analysis and Resolution Credits: 3 (fall and spring)
- CONF 653 - World Religions, Diplomacy, and Conflict Resolution Credits: 3 (fall)
- CONF 660 - Conflict Assessment and Program Evaluation Credits: 3 (spring)
- CONF 668 - Applied Integration for Graduate Certificates Credits: 3 (summer)

Elective Courses

Students take 3 credits of elective course work. They may choose from the following:

- CONF 656 - Integrating Complementary Approaches in Conflict Analysis and Resolution Credits: 3 (spring)
- CONF 657 - Facilitation Skills Credits: 3 (spring)
- CONF 658 - Diversity and Difference in Conflict Analysis and Resolution Credits: 3 (spring)
- CONF 659 - Leadership in Conflict Analysis and Resolution Credits: 3 (spring)
- CONF 665 - Special Topics in Conflict Analysis and Resolution Credits: 3

Note:

Application of any other course toward fulfillment of the elective requirement must be approved by the Certificate Program Director.

Doctoral Degree

Conflict Analysis and Resolution, PhD

Banner Code: CA-PHD-CONF
The doctoral program, the first of its kind in the United States, provides advanced study for students in the fields of conflict analysis and conflict resolution. Students are prepared for careers as researchers, theoreticians, and teachers in higher education, and as policy administrators, analysts, and consultants in the public and the private sectors.

The program stresses a close link between knowledge of theory and process in the resolution of conflict. For this, training in the methods of research and analysis is emphasized. In addition, students are expected to obtain a background in a substantive area of conflict, usually related to the topic of the dissertation.

**Admission Requirements**

A master’s or equivalent degree is required for admission to the Ph.D. program. In addition to meeting all admission requirements for graduate study, applicants must submit all undergraduate and graduate transcripts; three letters of recommendation, one of which should be from a faculty member in the applicant's undergraduate or graduate major field; a 750 to 1,000 word essay on goals and reasons for seeking admission to the program; a written sample of work that shows the applicant’s potential for completing dissertation research in a doctoral program, and a resume or curriculum vitae. The Graduate Record Exam (GRE) or other standardized test scores are not required but may be submitted. The Test of English as a Foreign Language (TOEFL) is required of international students. For more information, see the Admission of International Students section in the Admissions chapter of this catalog. Although students may enroll on a full- or part-time basis, entry into the program is in the fall semester only.

**Credit for Prior Study**

Students who have earned a Master of Science in Conflict Analysis and Resolution from Mason may have the course total credits required for a doctoral degree reduced by 15 credits. The actual number of credits reduced is determined in consultation with the student’s advisor and the Doctoral Program Director after a review of courses taken.

Students entering with other relevant degrees (MA, MS, or JD) may also have the required course load reduced by up to 15 credits. The actual number of applied credits is determined in consultation with the student’s advisor and the program coordinator after a review of courses taken, subsequent to a student's admission to the program.

**Transfer of Non-Degree Credit**

A maximum of 12 credits of ICAR graduate courses taken at George Mason as a non-degree graduate student, or as part of ICAR's graduate certificate program may be transferred into the Ph.D. program. How credit will be counted will be determined in consultation with the student's advisor. A maximum of 6 credits of non-ICAR courses taken as non-degree credit can be counted toward the Ph.D. program. Courses counted toward another degree cannot be transferred.

**Foreign Language Requirement**

Every doctoral student must show competence in a foreign language (that is, a language other than their native tongue) before advancing to candidacy. Students cannot register for CONF 998 without evidence of meeting this requirement. International students may use English as their foreign language and the TOEFL as a demonstration of competency. Neither American Sign Language nor computer languages can be used to fulfill this requirement. All students, regardless of how recently language courses have been taken, are required to fulfill the same standard before advancing to candidacy.

Competence in a foreign language must be shown by taking a placement test at Mason’s Language Laboratory. The test has oral and written components. Results of the proficiency test must indicate the student is proficient in the language at the intermediate level (competency at completion of 202, 209, or 210 level). For testing times and details, please visit mcl.gmu.edu/placementtesting
If the student desires testing in a language that Mason does not offer, the test can be taken at an outside organization, embassy, church, or other entity. The student must submit a letter to Mason certifying that the test was passed at a high, intermediate, or low advanced level. The student may submit for approval the names and qualifications of those capable of administering such a test. Please use the waiver form found on the Department of Modern and Classical Languages website: mcl.gmu.edu/placementtesting

Prior to sitting for their comprehensive exam (and before they register for CONF 998), they should provide documentation of successful completion of the foreign language requirement to the Ph.D. Program Director.

Adding an ICAR Certificate Program

Students may elect to complete an ICAR Graduate Certificate in addition to the Ph.D. program. Graduate Certificates are opportunities for students to further tailor their academic program and specialize in a specific area of Conflict Resolution practice. Certain graduate certificate courses can be used to fulfill PhD program requirements. Students should consult with the Certificate Program Director and Doctoral Program Director for policies on counting certificate courses toward the Ph.D. degree.

Advancement to PhD Candidacy

After completing course work (except the dissertation) listed in the Program of Studies, passing the written comprehensive examination, and completing the language requirement, the student is advanced to candidacy. A candidate is permitted five years from the advancement date to complete the dissertation.

Degree Requirements

Fifty-seven credits are required. Students must complete coursework, language requirements, comprehensive exams, and be advanced to candidacy within six years of their official admission date.

Required Courses

Students take 30 credits of required course work. CONF 801 and CONF 900 are required for all students. Students take 15 credits of foundation coursework in the areas of theory, research and practice. Students also take 9 credits of specialization courses approved by the Program Director.

- CONF 801 - Introduction to Conflict Analysis and Resolution Credits: 3 Should be taken in the first semester of coursework.
- CONF 900 - Integrating Theory, Practice, and Method in Conflict Analysis Credits: 3 Should be taken in the last semester of coursework.

Foundation Courses

Students complete 15 credits of foundation courses including Theoretical Foundations (6 credits), Research Foundations (6 credits), and Practice Foundations (3 credits).

Theoretical Foundations

Students choose 2 of the following 3 courses (6 credits).

- CONF 802 - Theories of the Person Credits: 3
• CONF 803 - Structural Theories Credits: 3
• CONF 804 - Alternate Theoretical Foundations Credits: 3

Research Foundations

Students choose 2 of the following 3 courses (6 credits).

• CONF 811 - Quantitative Foundations Credits: 3
• CONF 812 - Qualitative Foundations: Social Sciences Credits: 3
• CONF 813 - Qualitative Foundations: Humanities Credits: 3

Practice Foundations

Students choose 1 of the following courses (3 credits).

• CONF 713 - Reflective Practice in Interpersonal-Multiparty Conflicts Credits: 3
• CONF 890 - Practicum in Conflict Analysis and Resolution Credits: 3

Specialization Courses

Students take 9 credits of graduate level specialization courses, evenly distributed across the areas of theory, research, and practice. The Doctoral Program Director must approve courses.

Elective Courses

Fifteen (15) elective credits must be completed prior to comprehensive exams. Electives are any 500-, 600-, and 700-level CONF courses, except required courses. With the advisor’s approval, each student may include a maximum of 6 credits of electives from outside the ICAR Program, including courses in other Mason departments, consortium courses, and transfer courses from other universities. The intent is to allow students to have maximum flexibility in selecting courses to build skills and knowledge needed in dissertation work.

Directed Readings

Only two directed readings (CONF 897) can be applied toward doctoral elective requirements (maximum 6 credits).

• CONF 897 - Directed Reading Credits: 1-3

Dissertation Units

Students are required to complete 12 combined credits of CONF 998 (Doctoral Dissertation Proposal) and CONF 999 (Doctoral Dissertation Research), including at least 3 credits of CONF 999. Students must have a signed dissertation proposal in order to register for CONF 999.

• CONF 998 - Doctoral Dissertation Proposal Credits: 1-6 (All CONF 998 courses are graded In Progress until completion of the proposal. At that time, a grade of Satisfactory is issued.)
• CONF 999 - Doctoral Dissertation Research Credits: 1-12 (All CONF 999 courses are graded In Progress until the dissertation defense is successfully completed. At that time, grade of Satisfactory is issued.)

Schools

- School of Recreation, Health, and Tourism  
- Graduate School of Education

The College of Education and Human Development (CEHD) comprises the School of Recreation, Health, and Tourism (RHT), and the Graduate School of Education (GSE). The college is committed to excellence, innovation, and collaboration in research and the preparation of professionals for the highest levels of practice and service in diverse schools, organizations, and communities.

CEHD provides leadership in transforming schools, organizations, and communities through research, teaching, and collaboration. CEHD faculty members prepare scholars and practitioners through multidisciplinary programs of study that facilitate the understanding, integration, and application of knowledge. Through research activities, faculty and students expand and refine the knowledge base for teaching and learning. In response to the richness and complexity of a pluralistic society, CEHD infuses diversity into academic programs and research. The faculty develops and supports knowledgeable, caring, and reflective professionals who facilitate excellence and equity for all learners. CEHD students and faculty demonstrate their growth and development in ways meaningful to their communication and professional organizations. Innovative programs and the integration of technology provide opportunities for students to develop, examine, evaluate, and practice professional knowledge, skills, and dispositions.

Administration

Mark Ginsberg, Dean  
Martin Ford, Senior Associate Dean  
Peter Barcher, Associate Dean for Research  
Ellen Rodgers, Associate Dean for Teaching and Academic Affairs  
David Wiggins, Director of the School of Recreation, Health, and Tourism

Undergraduate Degrees, Minors, and Certificates

CEHD offers four undergraduate degrees, 13 minors, and one undergraduate certificate. The School of Recreation Health and Tourism within the College of Education and Human Development collaborates with the College of Humanities and Social Sciences to offer three minors in interdisciplinary areas of study. Students may elect to take a minor in addition to their major field of study. For policies governing all minors, see the Academic Policies chapter of this catalog. Students interested in earning a minor should complete the appropriate section of the Change/Declaration of Academic Program form.

In addition, the college also collaborates with the College of Science (Departments of Atmospheric, Oceanic, and Earth Science; Chemistry and Biochemistry; Mathematical Sciences; and Physics and Astronomy) and the College of Visual and Performing Arts (Departments of Dance and Music) to provide six collaborative undergraduate degree concentrations or emphases in Biology.
Education, Chemistry Education, Earth Science Education, Mathematics Education Music Education, and Physics Education, and one licensure program in Dance Licensure. CEHD also collaborates with New Century College to support three interdisciplinary degree concentrations which prepare students for graduate study in education. The requirements for each degree, minor, and certificate are described on their respective catalog pages.

In addition to the policies stated in the first chapters of this catalog, the following policies and procedures apply to all students in the college. All correspondence from the program, school, college, and university administration is sent to the student’s official Mason e-mail account. Students should use their Mason e-mail account to communicate with their program and other administrative units.

Graduate Degrees and Certificates

CEHD offers one doctoral degree, eight master's degrees, and 34 graduate certificates. The requirements for each degree and certificate are described on their respective catalog pages. In addition to the policies stated in the first chapters of this catalog, the following policies and procedures apply to all students in the college. All correspondence from the program, school, college, and university administration is sent to the student’s official Mason e-mail account. Students should use their Mason e-mail account to communicate with their programs and other administrative units.

Academic Policies

Students are ultimately responsible for their academic progress towards their degrees and/or certificates. They are strongly advised to consult the Academic Policies chapter of this catalog for information concerning university-wide requirements for degree and nondegree students in addition to those for this college. Students with questions regarding academic policies and college-level requirements should contact the CEHD Office of Academic and Student Affairs (Robinson Hall, Suite 307; 703-993-2080; cehdosa@gmu.edu). Additional policy information and forms are available online at http://cehd.gmu.edu/oasa/.

Grading Policy

All CEHD undergraduate and graduate students are held to the university grading policies as described in the Academic Policies section of this catalog. Those students enrolled in a CEHD licensure program, however, must earn a B- or better in all licensure coursework. The following licensure programs have more stringent grading policies that are detailed in their respective catalog sections: MEd in Curriculum and Instruction with concentrations in Elementary Education, English as a Second Language, Foreign Language (Arabic, Chinese, French, German, Japanese, Latin, Russian, and Spanish), International Education FAST TRAIN ESOL (PK-12), International Education FAST TRAIN Elementary PK-6, Secondary Education; and the MEd in Counseling and Development.

Grade Appeals

Students may appeal grades that they believe were assigned unjustly or were based on unclear criteria in accord with the Academic Policies chapter of this catalog. Grade appeals should initially be directed to the School Director for courses taken within the School of Recreation, Health, and Tourism (RHT), and to the Program Coordinator for courses taken within the Graduate School of Education (GSE). The decision may be further appealed to the Associate Dean for Teaching and Academic Affairs, who reserves the right to convene the elected members of the CEHD Appeals Committee if there is sufficient evidence of procedural irregularity. The Associate Dean’s decision is not subject to review or further appeal.

Professional Teacher Licensure

CEHD is responsible for professional courses, special standards, and licensure recommendations for students completing state-approved (Virginia) licensure programs that prepare teachers, administrators, counselors, and related-instructional personnel.

For more information and the dates and times of Think You Want to Be a Teacher? information sessions, please contact the CEHD Office of Admissions (Robinson Hall, Room 103; 703-993-2892; cehdgrad@gmu.edu). Additional information is available online at http://cehd.gmu.edu/admissions/.

Course Work

CEHD offers all course work designated ATEP, EDAE, EDAL, EDCD, EDCI, EDEP, EDIT, EDLE, EDRD, EDRS, EDSE, EDUC, EDUT, EFHP, HEAL, IETT, KINE, PHED, PRLS, SPMT, SRST (pending SHEV approval) and TOUR in the Courses chapter of this catalog.

School of Recreation, Health, and Tourism

Phone: 703-993-2060  
Web: rht.gmu.edu

The School of Recreation, Health, and Tourism (RHT) offers two masters’ degrees, four undergraduate degrees, six minors, and one undergraduate certificate. In addition to school-based minors, RHT offers three interdisciplinary minors with other units. The MS in Exercise Science, Fitness, and Health Promotion (EFHP) prepares professionals to more adequately serve their communities or pursue advanced academic study in the exercise science field. The MS in Sport and Recreation Studies (SRST, pending SCHEV approval) meets the growing need for professionals and academics in the areas of international sport management, recreation administration, sport and leisure studies, sport coaching, and sport management. This degree prepares students for administrative, coaching, or further academic study. The BS in Athletic Training, accredited by the Commission on the Accreditation of Athletic Training Education (CAATE), prepares students for careers in athletic training and graduate study in other allied health professions. The BS in Health, Fitness, and Recreation Resources prepares students for supervisory and management careers in private and public parks and recreation systems (clinical and community), health promotion agencies, non-profit and for-profit sport organizations. The Parks and Outdoor Recreation and Therapeutic Recreation concentrations are accredited by the National Recreation and Park Association (NRPA). The BSEd in Physical Education, accredited by the National Council for the Accreditation of Teacher Education (NCATE), prepares students for a teaching career (K–12) in public and private schools. The BS in Tourism and Events Management degree is one of the fastest growing majors at the university.

For more information and the dates and time of RHT Orientation Sessions, please contact the RHT Office (Bull Run Hall [Prince William Campus] Suite 213; 703-993-2098; srht@gmu.edu). Additional information is available online at rht.gmu.edu.

Faculty

Professors: Anderson, Brayley, Nauright, D. Wiggins

Associate professors: R. Baker, Banville, Bever, S. Caswell, Daniels, Dieke, Kozlowski, Miller, Rikard, P. Rodgers, Schack, B. Wiggins

Assistant professors: Ambegaonkar, A. Caswell, Esherick, Harmon, Lee, Park, Shelby, Winchester

Instructors: Norden, Parham
Course Work

RHT offers course work designated ATEP, EFHP, HEAL, KINE, PHED, PRLS, SPMT, SRST (pending SHEV approval), and TOUR in the Courses chapter of this catalog. Additional courses in Physical Activity and Sports are offered for elective credit to George Mason University students. These courses are included under PHED and PRLS prefixes.

Writing-Intensive Requirement

The university requires all undergraduate students to successfully complete at least one 300-level or above course designated “writing-intensive” (WI) in their major(s). For RHT students, the WI requirement is satisfied by the successful completion of PRLS 450 and/or PHED 365, dependent on program requirements.

Interdisciplinary Minors

In addition to school-based minors, RHT offers three minors in interdisciplinary areas of study. These minors require course work from two or more disciplines and are administered by interunit faculty groups. In accordance with university policy, at least 8 credits must be applied only to the minor and may not fulfill requirements of the student's major concentration, or another minor. For policies governing all minors, see the Academic Policies chapter of this catalog.

Minor in Sport Communication

The Sport Communication Minor is offered jointly by the School of Recreation, Health, and Tourism and the Department of Communication. For details, see the Department of Communication section in the College of Humanities and Social Sciences chapter of this catalog.

Minor in Sustainability

The Sustainability Minor is offered jointly by the Department of Environmental Science and Policy and New Century College. Students may take select Parks, Recreation and Leisure Studies (PRLS) and Tourism and Events Management (TEM) courses to meet elective requirements. For details, see the Department of Environmental Science and Policy section in the College of Science chapter of this catalog.

Minor in Sport and American Culture

The Sport and American Culture Minor is offered jointly by the School of Recreation, Health and Tourism and Department of History and Art History. Students will learn a great deal about sport and its interconnection with other societal institutions. For details, see the School Recreation, Health, and Tourism website: http://rht.gmu.edu/minor7/

Complementary Certificate Programs

Students may also complete a complementary certificate outside of RHT in the following areas:

Environmental Management Undergraduate Certificate (SC-CERB-EVMG)

For details on this 27-credit undergraduate certificate, see the Department of Environmental Science and Policy section of the College of Science chapter of this catalog.
Note: Students interested in the Certificate in Environmental Management should take BIOL 213 and either BIOL 303 or BIOL 304 instead of BIOL 103 and 104.

**Gerontology Undergraduate Certificate (HH-CERB-GERO)**

For details on this 24-credit undergraduate certificate, see the College of Health and Human Services chapter of this catalog.

Note: Students interested in the Certificate in Gerontology should take BIOL 124 and BIOL 125.

**Physical Activity and Sports Courses**

RHT courses in physical activity and sports provide a broad range of opportunities that promote the health and wellness of students, faculty, and staff. Taught by experts with a wealth of experience and commitment to sharing their knowledge and skills, the courses include individual and team sports, self-defense and martial arts, and recreation activities concerned with wilderness and outdoor pursuits. Open to students in any major, these courses are designed to foster educational growth, encourage leisure interests, and promote lifetime fitness for the entire Mason community.

PHED 102 - Introduction to Soccer Credits: 1  
PHED 103 - Fencing I Credits: 1  
PHED 105 - Aerobics and Basic Conditioning Credits: 1  
PHED 107 - Social Dance Credits: 1  
PHED 108 - Weight Training and Body Conditioning Credits: 1  
PHED 110 - Beginning Swimming Credits: 1  
PHED 113 - Latin Dance Credits: 1  
PHED 118 - Advanced Life Guarding Credits: 1  
PHED 120 - Introduction to Basketball Credits: 1  
PHED 127 - Social Dance II Credits: 1  
PHED 128 - Fencing II Credits: 2  
PHED 129 - Introduction to Yoga Credits: 1  
PHED 130 - Intermediate Yoga Credits: 1  
PHED 131 - Introduction to Pilates Credits: 1  
PHED 134 - Self-Defense for Men and Women Credits: 1  
PHED 135 - Self-Defense for Men and Women II Credits: 1  
PHED 136 - Tae Kwon Do Credits: 1  
PHED 137 - Intermediate Tae Kwon Do Credits: 1  
PHED 138 - Brazilian Jiu-Jitsu Credits: 1  
PHED 139 - Brazilian Jiu-Jitsu II for Men and Women Credits: 2  
PHED 140 - Golf Credits: 1  
PHED 144 - Intermediate Golf Credits: 2  
PHED 145 - Beginning Judo for Men and Women Credits: 1  
PHED 146 - Introduction to Badminton Credits: 1  
PHED 147 - Advanced Tae Kwon Do Credits: 2  
PHED 149 - Tai Chi Credits: 1  
PHED 150 - Intermediate Swimming Credits: 1  
PHED 151 - Introduction to Tennis Credits: 1  
PHED 153 - Intermediate Tennis Credits: 1  
PHED 155 - Introduction to Springboard Diving Credits: 2  
PHED 156 - Intermediate Springboard Diving Credits: 2  
PHED 157 - Aikido for Men and Women Credits: 1  
PHED 158 - Underwater Hockey Credits: 1  
PHED 159 - Advanced Swimming Credits: 1  
PHED 160 - Intermediate Tai Chi Credits: 1  
PHED 162 - Introduction to Bowling Credits: 1
Undergraduate Degree

Athletic Training, BS

Banner Code: E1-BS-ATT

This 123-credit degree provides educational and clinical experiences concerning the management of injuries and health problems associated with physical activity. The goal is to equip students with the knowledge and skills that must be mastered to successfully challenge the Board of Certification (BOC®) Examination and practice as an entry-level athletic trainer. The Athletic Training Education Program (ATEP) is divided into pre-professional and professional phases. Students begin the pre-professional phase upon admission to Mason by enrolling in required prerequisite courses (ATEP 150, ATEP 180, BIOL 124, BIOL 125, HEAL 110, HEAL 230, and PHED 300).

Upon successful completion of all pre-professional course work with a grade of C or higher and a minimum cumulative GPA of 2.5, students may advance into the professional phase (three levels) of the program. Levels I-III require concurrent enrollment in didactic, clinical techniques, and clinical education practicum courses. The professional phase requires satisfactory completion of prerequisites, attainment of a grade of C or higher in all ATEP required course work, upholding a minimum cumulative within-major GPA of 2.5, and maintenance of current Emergency Cardiac Care (ECC) and First Aid certifications.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog. Students should also review the section on University General Education requirements.
Application Process

Freshmen Applications

Admission to George Mason University is competitive, and successful candidates generally have a B+ average or higher in a challenging college preparatory curriculum. All students accepted to George Mason University and declaring athletic training as a major are admitted into the pre-professional phase of the program (typically freshmen). Freshmen are bound to university admissions criteria as stated in the university catalog. To progress into the professional phase of the program, students must earn a minimum grade of C in all within-major courses (ATEP 150, ATEP 180, BIOL 124, BIOL 125, HEAL 110, HEAL 230, PHED 300) and attain a cumulative minimum within-major GPA of 2.5 or greater.

Transfer Student Applications

Application for admission as a transfer student into the ATEP is competitive. Transfer applicants are evaluated based on satisfactory completion of standards identical to all other students enrolled in the ATEP. Students transferring from another institution must provide documentation of successful completion of all ATEP related course work with a grade of C or higher, and a cumulative within-major GPA of 2.5 or higher on a 4.0 scale, and related clinical education/experiences. Additional documentation includes transcripts, course syllabi, a letter from the ATEP director of the previous institution certifying satisfactory completion of all clinical experiences, completed proficiency assessments signed and dated by an approved clinical instructor attained at the previous institution, and current Emergency Cardiac Care (ECC) and First Aid certifications. Students unable to provide this documentation will not be admitted into the professional phase of the ATEP. All transfer students are advised to meet with the ATEP Director for an evaluation of all previously completed course work.

Special Requirements

Fees and expenses specific to the ATEP are as follows: laboratory supplies and equipment, clinical attire, clinical supplies, and clinical education manuals. Pre professional phase students enrolling in ATEP 150 and ATEP 180 will be assessed a laboratory fee $110. Professional phase students will be assessed a laboratory fee of $100 for each clinical techniques course (ATEP 255, ATEP 265, ATEP 355, ATEP 365 and ATEP 456). Payment is due at the first meeting of each course.

After admission to the pre-professional phase, students must submit a technical standards certification statement indicating that they have read, understand, and can meet the technical standards for athletic training students, either with or without accommodation. These standards outline the essential functional tasks that students must be able to perform to enroll in and complete the program. Students requiring special accommodations are encouraged to contact the Office of Disability Services.

Athletic training students are required to obtain a health examination and immunizations before entering the professional phase of the program. Students must have evidence of completion of the three hepatitis B immunizations and provide proof of tuberculosis screening in accordance with current U.S. Public Health Service recommendations. Students choosing not to complete hepatitis B immunizations will be required to sign a declination waiver. All professional phase students must complete annual blood-borne pathogens training and may be required to submit to a criminal background check. All students must have Emergency Cardiac Care (CPR, AED) and First Aid certifications before entering their first practicum experience and maintain these certifications through the remainder of the ATEP. For additional information about ATEP academic policies and procedures refer to the program handbook at http://rht.gmu.edu/atep/forms/

Course Work

General Education Requirements (38 credits)

- Written communication (6)
• Oral communication (3)
• Information technology (3)
• Quantitative reasoning (3)
  Must take STAT 250
• Literature (3)
• Arts (3)
• Western civilization (3)
• Social and behavioral sciences (3)
  Must take HEAL 230
• Global understanding (3)
• Natural science (8)
  Must take BIOL 124 and BIOL 125

Pre-Professional Courses (13 credits)

• ATEP 150 - Introduction to Athletic Training and Preventative Care Techniques Credits: 3 Fall Semester
• ATEP 180 - Emergency Medical Care for Physically Active Populations Credits: 0-4 Spring Semester
• BIOL 124 - Human Anatomy and Physiology Credits: 4 Fall Semester (See note below)
• BIOL 125 - Human Anatomy and Physiology Credits: 4 Spring Semester (See note below)
• HEAL 110 - Personal Health Credits: 3 Fall Semester
• HEAL 230 - Introduction to Health Behavior Credits: 3 Spring Semester (See note below)
• PHED 300 - Kinesiology Credits: 3 Spring Semester

Note:

Pre-professional requirements BIOL 124, BIOL 125, and HEAL 230 are satisfied as General Education credits. They are therefore, not included in the total pre-professional credit count.

Professional Courses (Level I) (24 credits)

• ATEP 250 - Physical Assessment of the Lower Body Credits: 3 * Fall Semester
• ATEP 255 - Clinical Techniques I: Physical Assessment of the Lower Body Credits: 3 * Fall Semester
• ATEP 256 - Practicum I: Physical Assessment of the Lower Body Credits: 3 * Fall Semester
• ATEP 260 - Physical Assessment of the Upper Body Credits: 3 * Spring Semester
• ATEP 265 - Clinical Techniques II: Physical Assessment of the Upper Body Credits: 3 * Spring Semester
• ATEP 266 - Practicum II: Physical Assessment of the Upper Body Credits: 3 * Spring Semester
• ATEP 270 - General Medical Conditions and Pharmacology in Physically Active Populations Credits: 3 Spring Semester
• HEAL 330 - Nutrition Credits: 3 Fall Semester

Professional Courses (Level II) (22 credits)

• ATEP 350 - Therapeutic Modalities Credits: 3 * Fall Semester
• ATEP 355 - Clinical Techniques III: Therapeutic Modalities Credits: 3 * Fall Semester
• ATEP 356 - Practicum III: Therapeutic Modalities Credits: 3 * Fall Semester
• ATEP 360 - Therapeutic Rehabilitation Credits: 3 * Spring Semester
• ATEP 365 - Clinical Techniques IV: Therapeutic Rehabilitation Credits: 3 * Spring Semester
• ATEP 366 - Practicum IV: Therapeutic Rehabilitation Credits: 3 * Spring Semester
• PHED 450 - Physiology of Exercise Credits: 4 Fall Semester

Professional Courses (Level III) (21 credits)

• ATEP 441 - Practicum in Athletic Training Credits: 3 Spring Semester *
• ATEP 450 - Administration and Management in Athletic Training Credits: 3 * Fall Semester
• ATEP 456 - Practicum V: Professional Integration Credits: 6 * Fall Semester
• PHED 364 - Strength Training: Concepts and Applications Credits: 3 Fall Semester
• PRLS 450 - Research Methods Credits: 3 Fall Semester
  Satisfies the university Writing Intensive requirement
• PRLS 460 - Sport and Recreation Law Credits: 3 Spring Semester

Electives (5 credits)

Choose an additional 5 credits

Notes

*Indicates concurrent enrollment required. Practicum courses require a clinical education field experience component.

Total: 123 credits

Health, Fitness, and Recreation Resources, BS

Banner Code: E1-BS-HFRR

This 120-credit degree allows students to specialize in one of five varied concentrations (Health Promotion, Kinesiology, Parks and Outdoor Recreation, Sport Management, and Therapeutic Recreation).

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog. Students should also review the section on University General Education requirements.

Internship Application

The HFRR internship is a 12-credit course taken toward the end of a student’s academic program. Students must have earned 90 credit hours and met the specific prerequisites for their concentration to be eligible for the internship (see HEAL 490, PRLS 490, and SPMT 490). The internship is designed to be a synthesis experience for each student in their specific concentration area. The internship process begins with an in-service hosted by the internship coordinator. During the preliminary phase students will develop learning goals and consult with faculty on viable internship sites. Once the internship site has been selected, the student
must complete 400 hours (480 hours for therapeutic recreation) of an applied experience in their field of study. Throughout the internship, the student will be monitored by a site supervisor (a Certified Therapeutic Recreation Specialist for therapeutic recreation), as well as a university supervisor, to facilitate a meaningful experience. For specific internship requirements, see the School of Recreation, Health and Tourism (RHT) Internship Manual.

▲ Concentration in Health Promotion (HPR)

This concentration prepares students for supervisory and managerial careers in voluntary health organizations, non-profit and managed care organizations, hospital wellness centers, health departments, and health clubs. Students complete course work in nutrition, contemporary health problems, and community health systems, as well as a supervised internship in a professional setting.

Course Work

Concentration in Parks and Outdoor Recreation (POR)

This concentration explores the contribution of recreation and parks to public well-being and quality of life. The curriculum includes courses in natural resources management, outdoor recreation programming, and environmental education. The program is accredited by the National Recreation and Park Association. Graduates are employed in national, state, and local recreation and park agencies, non-profit organizations, and private and commercial operations. Students complete supervised internships in professional settings.

Course Work

General Education Requirements (38 credits)

- Written communication (6)
- Oral communication (3)
- Information technology (3)
- Quantitative reasoning (3)
- Must take STAT 250
- Literature (3)
- Arts (3)
- Western civilization (3)
- Social and behavioral science (3)
- Global understanding (3)
- Natural science (8)

Students pursuing the Certificate in Environmental Management must take BIOL 213 and either BIOL 303 or BIOL 304

Professional Sequence (70 credits)

- HEAL 205 - Principles of Accident Causation and Prevention Credits: 4
- HEAL 323 - Program Leadership and Evaluation Credits: 3
- PHED 200 - Professional Dimensions of Health, Recreation, and Physical Education Credits: 3
- PRLS 210 - Introduction to Recreation and Leisure Credits: 3
- PRLS 241 - Practicum Credits: 3
- PRLS 300 - People with Nature Credits: 3
- PRLS 302 - Park Management and Operations Credits: 3
- PRLS 310 - Program Planning and Design Credits: 3
- PRLS 316 - Outdoor Education and Leadership Credits: 3
- PRLS 317 - Social Psychology of Play and Recreation Credits: 3
- PRLS 327 - Foundations of Therapeutic Recreation Credits: 3
- PRLS 402 - Human Behavior in Natural Environments Credits: 3
- PRLS 405 - Planning, Design, and Maintenance of Leisure Facilities Credits: 3
- PRLS 410 - Administration of RHT Organizations I Credits: 3
- PRLS 411 - Administration of RHT Organizations II Credits: 3
- PRLS 450 - Research Methods Credits: 3
  Satisfies the university Writing Intensive requirement
- PRLS 460 - Sport and Recreation Law Credits: 3
- PRLS 490 - Internship Credits: 12-15
- PRLS 501 - Introduction to Natural Resources Law Credits: 3
- TOUR 362 - Cultural and Environmental Interpretation Credits: 3

▲ Concentration in Sport Management (SPMT)

This concentration enhances the professional development of liberal arts-educated students, thereby preparing them to assume entry-level managerial positions in the $300 billion sport industry, including private enterprises, government or public employment sectors, nonprofit or voluntary agencies, and commercial sport ventures. Preparation in sport marketing, finance, ethics, law, operations, planning, and program leadership fosters the skills that enhance students’ acquisition and advancement in sport management careers. An integral part of the program is the opportunity to complete two field experiences in sport organizations.

▲ Concentration in Therapeutic Recreation (TR)

This concentration teaches students how to use activities as therapeutic tools toward a renewed quality of life for people with disabilities across the lifespan. Completion of the therapeutic recreation (TR) foundation, issues, processes, and assessment courses to name a few, as well as an internship supervised by a Certified Therapeutic Recreation Specialist, prepares graduating seniors to sit for the national exam sponsored by the National Council for Therapeutic Recreation Certification. The concentration is accredited by the National Recreation and Park Association. Graduates find employment in local, state, and federal recreation settings; senior and adult health care; non-profit organizations; and educational and clinical institutions.

Physical Education, BSEd

Banner Code: E1-BSED-PHED
This 120-credit degree program is accredited by the National Council for Accreditation of Teacher Education (NCATE). Completing this degree fulfills requirements for licensure in Health and Physical Education (PK-12) in Virginia. Students complete a student teaching experience in their final semester.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog. Students should also review the section on University General Education requirements.

**Student Teaching Internship**

To enroll in student teaching, physical education majors must have a minimum 2.50 GPA in the last 60 credits of coursework and submit copies of official passing scores for the VCLA and PRAXIS II exams. The application must be completed one full semester before taking PHED 415 - Student Teaching in Physical Education. Application deadlines are listed below and forms are located at [rht.gmu.edu/phed/student_teaching](http://rht.gmu.edu/phed/student_teaching).

**Student Teaching Internship Application Deadlines:**

Fall Semester—February 1  
Spring Semester—September 1

**Admission**

Four-year students: Students entering as freshmen with an interest in majoring in physical education will initially be accepted with BPRE (pre-PHED) status. Students must successfully complete a minimum of 45 credits and attain a cumulative GPA of 2.50 to apply to the BSED in Physical Education Program. In addition, students must submit passing Praxis I scores and have earned passing grades in BIOL 124, BIOL 125, PHED 201, and PHED 202.

Degree-seeking transfer students: Transfer students can apply for BSED status by having (1) a minimum of 45 credits from their previous institution with a cumulative GPA of 2.50 or by completing 12 credits at Mason with a minimum of a 2.50 GPA; (2) submitted passing scores for PRAXIS I or its approved substitutes; and (3) passed BIOL 124 and BIOL 125, and PHED 201 and PHED 202 (only a grade of C or higher is accepted for BIOL 141 and BIOL 142, if transferred from a Virginia Community College System (VCCS) institution).

Bachelor's Level Certificate

Outdoor Recreation and Experiential Leadership Undergraduate Certificate

Banner Code: E1-CERB-OREL

This 25-credit certificate program provides students with specialized skills unique to a variety of outdoor adventure and experiential activities, such as backpacking, rock climbing, canoeing, kayaking, and challenge-course facilitation. Course work
focuses on the acquisition of technical skills and application of theory-to-experiential learning in an outdoor recreation curriculum. The program provides options for students to attain certification as low and high element facilitators and Wilderness First Responders. Students completing the certificate requirements will be fully prepared to work as challenge course facilitators, work as instructors at Outdoor Education/Adventure Education organizations, and effectively integrate outdoor experiential programs with existing educational curricula.

Course Work

Required Core Courses (16 credits)

- NCLC 204 - Leadership Theory and Practice Credits: 3
- PRLS 110 - Exploring Outdoor Adventure Credits: 2
- PRLS 210 - Introduction to Recreation and Leisure Credits: 3
- PRLS 220 - Experiential Education Theory and Application Credits: 3
- PRLS 221 - Challenge Course Facilitation Credits: 3
- PRLS 316 - Outdoor Education and Leadership Credits: 3

Electives (9 credits)

Choose 9 credits from the following:

- NCLC 195 - Field-Based Work Credits: 1-6 (must register for 1 credit)
- PRLS 117 - Rock Climbing Credits: 2
- PRLS 120 - Introduction to Backpacking Credits: 2
- PRLS 170 - Introduction to White-water Kayaking Credits: 1
- PRLS 173 - Basic Coastal Kayaking Credits: 2
- PRLS 180 - White-water Canoeing Credits: 2
- PRLS 181 - White-water Canoeing II Credits: 2
- PRLS 200 - Wilderness First Responder Credits: 2
- PRLS 250 - Wilderness Travel and Sustainability Credits: 2
- PRLS 480 - Special Topics in Parks, Recreation, and Leisure Studies Credits: 1-3

Total: 25 credits

Undergraduate Minor

Health Promotion Minor

Banner Code: HPR
This program of study is offered by the College of Education and Human Development, specifically the School of Recreation, Health, and Tourism.

This 18-credit minor is available to all Mason undergraduate students, with the exception of those enrolled in the BS in Health, Fitness, and Recreation Resources degree program pursuing the Concentration in Health Promotion. Eight credits must be unique to the minor. For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

- HEAL 230 - Introduction to Health Behavior Credits: 3
- HEAL 372 - Health Communication Credits: 3
- HEAL 430 - Seminar in Exercise Science and Health Promotion Credits: 3
- HEAL 450 - Epidemiology and Environmental Health Credits: 3
- PHED 200 - Professional Dimensions of Health, Recreation, and Physical Education Credits: 3
- PRLS 310 - Program Planning and Design Credits: 3

Total: 18 credits

Kinesiology Minor

Banner Code: KNES

This program of study is offered by the College of Education and Human Development, specifically the School of Recreation, Health, and Tourism.

This 16-credit minor is available to all Mason undergraduate students, with the exception of those enrolled in the BS in Health, Fitness, and Recreation Resources degree program and pursuing a concentration in Kinesiology. Eight credits must be unique to the minor. For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Master's Degree

Exercise, Fitness, and Health Promotion, MS

Banner Code: E1-MS-EFHP

This 30-credit master's degree focuses on the role of physical activity in the promotion of health, fitness, and quality of life. Completion of this degree may lead to the pursuit of further academic study (doctoral programs) or preparation of professionals equipped to more adequately serve their communities. Students may select to pursue a thesis or non-thesis option for completion of this degree.

This program of study is offered by the School of Recreation, Health, and Tourism (RHT) within the College of Education and Human Development.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements
In addition to fulfilling admission requirements for graduate study, applicants must have successfully completed undergraduate courses Human Anatomy and Physiology, Kinesiology, Nutrition, and Physiology of Exercise. All applicants are required to submit results of the GRE (unless a graduate of Mason) or Miller Analogy Test (MAT); three letters of reference; official transcripts; and a 500-1,000 word written goals statement relating study in the program to the applicant's education and career objectives.

Admission to the graduate programs in RHT is competitive. Meeting the minimum admission criteria does not guarantee admission.

Course Work (18 credits)

- EFHP 606 - Foundations of Exercise, Fitness, and Health Promotion Credits: 3
- EFHP 610 - Advanced Exercise Physiology Credits: 3
- EFHP 611 - Fitness Assessment: Theory and Practice Credits: 3
- EFHP 614 - Advanced Exercise Nutrition Credits: 3
- EFHP 618 - Exercise and Sport Psychology Credits: 3
- EFHP 623 - Research Design and Statistical Reasoning Credits: 3

Options

Thesis Option (12 credits)

- Electives: Choose an additional 6 credits with advisor/coordinator approval
- EFHP 799 - Thesis Credits: 1-6 (Must register for 6 credits)

Note:

Students must select an advisor from among the EFHP graduate faculty to supervise thesis work and chair the three-member thesis committee. Committee members are appointed by the EFHP Graduate Coordinator(s). One committee member may be selected from faculty outside of the program. Students may not register for thesis credit until a proposal has been approved by the student’s thesis committee and the EFHP Graduate Coordinator(s).

Total: 30 credits

Nonthesis Option (12 credits)

- Electives: Choose an additional 12 credits with advisor/coordinator approval
- Written Comprehensive Examination

Total: 30 credits
The program described below has been approved by the Board of Visitors and sent to the State Council for Higher Education in Virginia for consideration as a new degree program. The university cannot accept applications or enroll students in this program until SCHEV approval has been granted.

This 30-credit master of science in Sport and Recreation Studies (SRST), consisting of five concentrations, meets the growing need for professionals and academics in the areas of international sport management, recreation administration, sport and leisure studies, sport coaching, and sport management. This degree prepares students as professionals who will more adequately serve the industry and their communities, and students who wish to pursue advanced study (doctoral programs) in these disciplinary areas leading to employment (and contributions) in academe. This program offers the traditional research masters' thesis option and the option of an applied research project linked to a professional setting or internship.

This program of study is offered by the School of Recreation, Health, and Tourism (RHT) within the College of Education and Human Development

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

In addition to fulfilling admission requirements for graduate study, applicants must have successfully completed an undergraduate course in statistics. All applicants are required to submit results of the Graduate Record Examination (GRE) (unless a graduate of Mason) or Miller Analogy Test (MAT); three letters of reference (two from professors); official transcripts; and a 500-1,000 word statement outlining their background and experience and future goals in International Sport Management, Recreation Administration, Sport and Leisure Studies, Sport Coaching, and Sport Management. Applicants without a sport, leisure, or recreation-related degree must indicate through the written statement and letters of recommendation how their academic and/or professional background prepares them for admission to the Sport and Recreation Studies graduate program.

Successful applicants have an overall GPA of 3.0 for the last 60 undergraduate credits, generally a minimum GPA 3.25 in undergraduate courses, and combined scores of 900 or above on the GRE. Admission to the graduate programs in RHT is competitive. Meeting the minimum admission criteria does not guarantee admission.

Course Work

MS Requirements (15 credits)

Students are required to take a set of core foundations courses that will provide grounding in historical and socio-cultural foundations, ethical and legal issues, social-psychological perspectives, management and administration, and research methods and statistics. As well, all students will complete a capstone thesis or project specific to their concentration.

**Historical and Socio-Cultural Foundations**

- EFHP 606 - Foundations of Exercise, Fitness, and Health Promotion Credits: 3
Ethical and Legal Issues
Choose one course from the following:
- EFHP 680 - Ethical Issues in Exercise, Fitness, and Health Promotion Credits: 3
- PRLS 614 - Legal Issues in Recreation Administration Credits: 3
- PRLS 670 - Environmental Law Credits: 3
- SPMT 614 - Legal Issues in Sport Credits: 3

Social-Psychological Perspectives
- EFHP 618 - Exercise and Sport Psychology Credits: 3
or
- PRLS 611 - Social Psychology of Leisure Credits: 3

Management and Administration

- PRLS 601 - History of Leisure and Sport in American Society Credits: 3
- PRLS 612 - Philosophy of Leisure and Sport Credits: 3

Note:
Additional courses may be selected as electives with advisor approval

Thesis or Project

- EFHP 599 - Independent Study EFHP Credits: 1-3 (must register for 3 credits)
- EFHP 798 - Project Credits: 1-3 (must register for 3 credits)
  or
- EFHP 799 - Thesis Credits: 1-6 (must register for 3 credits)

Total: 15 credits

▲ Concentration in Sport and Leisure Studies (SPLS)

Course Work
• PRLS 612 - Philosophy of Leisure and Sport Credits: 3

Choose 6 credits from the following:
• PRLS 598 - Special Topics Credits: 1-6
• PRLS 599 - Independent Study Credits: 1-3
• PRLS 601 - History of Leisure and Sport in American Society Credits: 3
• SPMT 551 - Sport in the Global Marketplace Credits: 3
• SPMT 651 - Sport and International Development Credits: 3

Note: Additional courses may be selected as electives with advisor approval

Thesis or Project

• EFHP 599 - Independent Study EFHP Credits: 1-3 (must register for 3 credits)
• EFHP 798 - Project Credits: 1-3 (must register for 3 credits)

or
• EFHP 799 - Thesis Credits: 1-6 (must register for 3 credits)

Total: 15 credits

▲ Concentration in Sport Coaching (SPTC)

Course Work

• EFHP 611 - Fitness Assessment: Theory and Practice Credits: 3
• SPMT 614 - Legal Issues in Sport Credits: 3
• SPMT 631 - Theoretical Models of Sport Coaching Credits: 3

Note: Students in this concentration must complete both EFHP 680 (within the MS requirements) and SPMT 614 (within this concentration)

Thesis or Project

• EFHP 599 - Independent Study EFHP Credits: 1-3 (must register for 3 credits)
• EFHP 798 - Project Credits: 1-3 (must register for 3 credits)

or
• EFHP 799 - Thesis Credits: 1-6 (must register for 3 credits)

Total: 15 credits

▲ Concentration in Sport Management (SPMT)

Course Work

• SPMT 611 - Sport Marketing and Sales Credits: 3
• SPMT 613 - Strategic Leadership in Sport Organizations Credits: 3

Choose one course from the following:
• EFHP 598 - Special Topics Credits: 1-6
• EFHP 660 - Management of Exercise, Fitness, and Health Promotion Organizations Credits: 3
• EFHP 680 - Ethical Issues in Exercise, Fitness, and Health Promotion Credits: 3
• SPMT 616 - Sport Operations, Venues, and Event Management Credits: 3

Note:
Additional courses may be selected as electives with advisor approval

Thesis or Project

• EFHP 599 - Independent Study EFHP Credits: 1-3 (must register for 3 credits)
• EFHP 798 - Project Credits: 1-3 (must register for 3 credits)
or
• EFHP 799 - Thesis Credits: 1-6 (must register for 3 credits)

Total: 30 credits

Other Programs
Physical Activity and Sports Courses

Our courses in physical activity and sports provide a broad range of opportunities that promote the health and wellness of students, faculty, and staff. Taught by experts with a wealth of experience and commitment to sharing their knowledge and skills, the courses include more traditional individual and dual sports, self-defense and martial arts, and recreation activities concerned with wilderness and outdoor pursuits. Open to students in any major, these courses are designed to foster educational growth, encourage leisure interests, and promote lifetime fitness for the entire Mason community.

Graduate School of Education

Phone: 703-993-2892
Web: cehd.gmu.edu

The Graduate School of Education (GSE) offers one doctoral degree, six master's degrees, seven minors, and 34 graduate certificates. Within each of these degree programs students have the option to choose a concentration or emphasis that best meets their interests or needs. Additionally, students may pursue course work leading to initial teacher licensure.

Faculty

Associate professors: Bannan, Bauer, Bon, Brazer, Brigham, Buethl, Burns, Castle, Clark, Dabbagh, DeMulder, Falconer, Fox, Grant, Kayler, Kidd, Kitsantas, Ndura, Osterling, Pierce, Razeghi, Reybold, Samaras, Sanchez, Shockley, R. Smith, Sprague, Talleyrand, Thomas, Thorp, Upperman, Werner, Wong, Wood, Zenkov

Instructors: Rioux-Bailey

Course Work

GSE offers course work designated EDCD, EDCI, EDEP, EDIT, EDLE, EDRD, EDRS, EDSE, EDUC, and EDUT in the Courses chapter of this catalog. Students can pursue a Master's degree and up to two graduate certificates concurrently.

Collaborative Undergraduate Degree Licensure Programs

GSE supports undergraduate students from a variety of disciplines interested in education and teacher licensure. Six collaborative undergraduate degree licensure programs are available. For more information, contact the GSE Undergraduate Academic Advisor at 703-993-2078, usie@gmu.edu, or visit usie.gmu.edu.

Dance Licensure (PK–12)

Upon successful completion of the requirements for a BA or BFA in Dance, students may pursue course work that will allow them to attain licensure to teach dance in Virginia public school systems. For details, see the Department of Dance section in the College of Visual and Performing Arts chapter of this catalog.
Concentration in Biology Education

Upon successful completion of the BA in Biology or the BS in Biology with a concentration in Biology Education, students can obtain licensure to teach biology in Virginia Public school systems. For details, see the Biology Undergraduate Program and the Department of Environmental Science and Policy's (ESP) collaborative Biology program section in the College of Science chapter of this catalog.

Concentration in Chemistry Education

The BS in Chemistry with a concentration in Chemistry Education allows students to obtain licensure to teach chemistry in Virginia public school systems. For details, see the Department of Chemistry and Biochemistry section in the College of Science chapter of this catalog.

Concentration in Earth Science Education

The BS in Earth Science with a concentration in Earth Science Education allows students to obtain licensure to teach earth science in Virginia public school systems. For details, see the Department of Atmospheric, Oceanic and Earth Sciences section in the College of Science chapter of this catalog.

Concentration in Mathematics Education

Upon successful completion of the BA in Mathematics or the BS in Mathematics with a concentration in Mathematics Education, students can obtain licensure to teach mathematics in Virginia Public school systems. For details, see the Department of Mathematical Science section in the College of Science chapter of this catalog.

Concentration in Music Education (PK–12)

The BM in Music with a concentration in Music Education allows students to obtain certification to teach in Virginia public school systems. Students may follow an instrumental or choral/general music emphasis in the curriculum. For details, see the Department of Music section in the College of Visual and Performing Arts chapter of this catalog.

Emphasis in Physics Education

The BS in Physics with an emphasis in Physics Education allows students to obtain licensure to teach high school physics in Virginia public school systems. For details, see the Department of Physics and Astronomy section in the College of Science chapter of this catalog.

Peace Corps Fellows and Master's International Programs (MIP)

The FAST TRAIN (The Foreign Affairs' Spouses Teacher Training) Program is an approved site for the Peace Corps Fellows and Master's International Programs. While FAST TRAIN has traditionally prepared teachers for international service, it has entered into an agreement with the Peace Corps to offer the Peace Corps Fellows Program which trains returning volunteers to teach Elementary education or English as a Second Language (ESL) in multicultural settings in the Washington, D.C. metro area. FAST TRAIN also participates in the Peace Corps Master's International Program that prepares outgoing volunteers for their ESL teaching assignments abroad as well as provides a program for completion of English as a Second Language (ESL) licensure and a MEd in Curriculum and Instruction.

Undergraduate Minor
Applied Behavior Analysis Minor

Banner Code: ABAC

This program of study is offered by the College of Education and Human Development, specifically the Graduate School of Education.

This 18-credit minor provides undergraduate students or those who hold bachelor's degrees with the coursework and experience required by the Behavior Analyst Certification Board to sit for the Board Certified Assistant Behavior Analyst examination. Nine credit hours are distributed across three required courses, and the remaining nine across the required practicum.

Course Work

- EDSE 460 - Introduction to Applied Behavior Analysis Credits: 3
- EDSE 461 - Analysis and Intervention in Applied Behavior Analysis Credits: 3
- EDSE 462 - Applying Behavior Analysis in School and Community Settings Credits: 3
- EDSE 490 - Internship in Applied Behavior Analysis Credits: 3-9 (must register for 9 credits)

Total: 18 credits

Assistive Technology Minor

Banner Code: AT

This program of study is offered by the College of Education and Human Development, specifically the Graduate School of Education.

This 15-credit minor provides undergraduate students with background knowledge in assistive technology. Eight credits of course work must be unique to the minor.

Course Work

- EDIT 410 - Introduction to Assistive Technology Credits: 3
- EDIT 423 - Accessibility/Input Modifications Credits: 2
- EDUC 203 - Human Disabilities in American Culture Credits: 3

Electives

Choose 7 credits from the following:

- EDIT 412 - Assistive Technology for Individuals with Sensory Impairments Credits: 2
• EDIT 425 - Software for Individuals with Special Needs Credits: 2
• EDIT 426 - Web Accessibility and Design Credits: 3
• EDIT 428 - Low-Technology Assistive Technology Solutions Credits: 1
• EDSE 422 - Augmentative Communication Credits: 2

Total: 15 credits

Early Childhood Education for Diverse Learners Minor

Banner Code: ECDL

This program of study is offered by the College of Education and Human Development, specifically the Graduate School of Education.

This 15-credit minor provides undergraduate students with background knowledge in Early Childhood Education for Diverse Learners. Completing this minor partially fulfills requirements for licensure in Early Childhood Education, PK-3 and Early Childhood Special Education in Virginia. Eight credits of course work must be unique to the minor.

Course Work

• EDSE 405 - Introduction to Early Childhood Special Education Credits: 3
• EDUT 411 - Developmental Pathways of Diverse Learners, Birth-Adolescence Credits: 3
• EDUT 413 - Foundations of Language and Literacy for Diverse Young Learners Credits: 3
• EDUT 414 - Curriculum and Instruction for Diverse Young Learners Credits: 3
  Chose 3 credits from undergraduate EDSE- or EDUT-prefix courses

Total: 15 credits

Education Studies Minor

Banner Code: ESTU

This program of study is offered by the College of Education and Human Development, specifically the Graduate School of Education.

This 18-credit minor is designed for students with a strong interest in exploring the field of education to develop a conceptual and situated understanding of schools and teaching. Eight credits of course work must be unique to the minor.

Course Work

• EDUC 300 - Introduction to Teaching Credits: 3
• SOCI 382 - Education in Contemporary Society Credits: 3
Electives

Choose four courses from the following:

- EDIT 413 - Technology, Society, and the Culture of Learning Credits: 3
- EDLE 412 - Schools and the Law Credits: 3
- EDLE 420 - Organization and Management of Schools Credits: 3
- EDUC 303 - Politics of American Education Credits: 3
- NCLC 312 - Images and Experiences of Childhood: Social Construct, Literature, and Film Credits: 3-6 (Must register for 3 credits)

Total: 18 credits

Mild Disabilities Minor

Banner Code: MDIS

This program of study is offered by the College of Education and Human Development, specifically the Graduate School of Education.

This 15-credit minor provides undergraduate students with background knowledge in mild disabilities. Completing this minor partially fulfills requirements for licensure in Special Education in Virginia. Eight credits of course work must be unique to the minor.

Course Work

- EDSE 401 - Introduction to Special Education Credits: 3
- EDSE 402 - Classroom Management and Applied Behavior Analysis Credits: 3
- EDSE 403 - Language Development and Reading Credits: 3
- EDSE 428 - Elementary Reading, Curriculum, and Strategies for Students Who Access the General Education Curriculum Credits: 3
- EDSE 440 - Characteristics of Students with Disabilities Who Access the General Curriculum Credits: 3

Total: 15 credits

Secondary Education English Minor

Banner Code: SECE

This program of study is offered by the College of Education and Human Development, specifically the Graduate School of Education.
This 21-credit minor provides undergraduates with background knowledge in Secondary Education English. Completing this minor fulfills requirements for licensure in Secondary Education English (6-12) in Virginia. Eight credits of course work must be unique to the minor.

**Course Work**

- EDCI 469 - Teaching English in Secondary School Credits: 3
- EDCI 479 - Advanced Methods of Teaching English in the Secondary School Credits: 3
- EDCI 490 - Student Teaching in Education Credits: 6
- EDRD 419 - Literacy in the Content Areas Credits: 3
- EDUC 372 - Human Development, Learning, and Teaching Credits: 3
- EDUC 422 - Foundations of Secondary Education Credits: 3

**Severe Disabilities Minor**

**Banner Code: SPSD**

This program of study is offered by the College of Education and Human Development, specifically the Graduate School of Education.

This 15-credit minor provides undergraduate students with background knowledge in severe disabilities. Completing this minor partially fulfills requirements for licensure in Special Education in Virginia. Eight credits of course work must be unique to the minor.

**Course Work**

- EDSE 401 - Introduction to Special Education Credits: 3
- EDSE 431 - Transition and Community-Based Instruction Credits: 3
- EDSE 434 - Communication and Severe Disabilities Credits: 3
- EDSE 447 - Medical and Developmental Risk Factors for Children with Disabilities Credits: 3
- EDSE 457 - Foundations of Language and Literacy for Diverse Learners Credits: 3

**Total: 15 credits**

**Master's Degree**

**Counseling and Development, MEd**

**Banner Code: E1-MED-CNDV**
This master’s program emphasizes the integration of theory and practice, and culminates with an internship in an appropriate setting. Students may choose one of two concentrations: Community Agency Counseling (52 credits) or School Counseling (45 credits).

**Grading Policy:** Students enrolled in this degree program must earn a B or higher in Counseling skills courses (EDCD 603, EDCD 606, EDCD 608, EDCD 609, EDCD 755) and in all licensure course work. Students are permitted to repeat a course only once.

▲ **Concentration in Community Agency Counseling (CA)**

**Course Work**

- EDCD 609 - Advanced Counseling Skills and Strategies Credits: 4
- EDCD 652 - Introduction to Substance Abuse Counseling Credits: 3
- EDCD 654 - Counseling, Ethics, and Consultation in Community Agencies Credits: 3
- EDCD 656 - Diagnosis and Treatment Planning for Mental Health Professionals Credits: 3
- EDCD 658 - Couples and Family Counseling Credits: 3
- EDCD 797 - Advanced Topics in Education Credits: 1-6 (Must register for 2 credits)

**MEd Requirements (28 credits)**

- EDCD 525 - Advanced Human Growth and Development Credits: 3
- EDCD 601 - Introduction to Research in Counseling Credits: 3
- EDCD 602 - Foundations in Counseling Credits: 3
- EDCD 603 - Counseling Theories and Practice Credits: 3
- EDCD 604 - Assessment and Appraisal in Counseling Credits: 3
- EDCD 608 - Group Processes and Analyses Credits: 4
- EDCD 610 - Career and Educational Counseling Credits: 3
- EDCD 628 - Counseling and Social Justice Credits: 3
- EDCD 660 - Multicultural Counseling Credits: 3

**Practicum and Internship (6 credits)**

- EDCD 755 - Practicum in Counseling Credits: 3
- EDCD 791 - Internship in Counseling Credits: 3

**Total: 52 credits**

▲ **Concentration in School Counseling PK–12 (SC)**
Course Work

- EDCD 606 - Counseling Children and Adolescents Credits: 4
- EDCD 611 - Introduction to Ethical and Legal Issues in School Counseling Credits: 2
- EDCD 626 - Principles and Practices of School Counseling Credits: 3
- EDCD 797 - Advanced Topics in Education Credits: 1-6 (Must register for 2 credits)

MEd Requirements (28 credits)

- EDCD 525 - Advanced Human Growth and Development Credits: 3
- EDCD 601 - Introduction to Research in Counseling Credits: 3
- EDCD 602 - Foundations in Counseling Credits: 3
- EDCD 603 - Counseling Theories and Practice Credits: 3
- EDCD 604 - Assessment and Appraisal in Counseling Credits: 3
- EDCD 608 - Group Processes and Analyses Credits: 4
- EDCD 610 - Career and Educational Counseling Credits: 3
- EDCD 628 - Counseling and Social Justice Credits: 3
- EDCD 660 - Multicultural Counseling Credits: 3

Practicum and Internship (6 credits)

- EDCD 755 - Practicum in Counseling Credits: 3
- EDCD 791 - Internship in Counseling Credits: 3

Total: 45 credits

Curriculum and Instruction, MEd

Banner Code: E1-MED-CRIN

This master’s degree is offered to students preparing for initial teacher licensure, advanced teacher education, and ancillary educational programs. Students may choose up to two of the following concentrations.

Advanced Studies in Teaching and Learning (ASTL)

The ASTL concentrations are for teachers and other educators with one or more years of teaching or education-related experience who want to continue to grow professionally. The program offers advanced study in a specific concentration area, including Virginia’s Standards of Learning content areas, cohort classes, an innovative schedule, and the use of technology. The courses, aligned with the National Board for Professional Teaching Standards, help teachers think and practice as board-certified teachers. The program develops teacher-leaders who practice reflection through action-research, problem-based learning, and self-inquiry, and teacher expertise in a concentration that will identify the teacher as a potential leader in that area.
The program provides two options to experienced teachers and other educators. Educators with or without a master’s degree may apply for the full master’s degree program, which includes core and emphases, or an 18- to 21-credit graduate certificate program or advanced study in a particular area.

**MEd Requirements Common to all ASTL Concentrations (12 credits)**

- EDUC 606 - Education and Culture Credits: 3
- EDUC 612 - Inquiry into Practice Credits: 2
- EDUC 613 - How Students Learn Credits: 3
- EDUC 614 - Designing and Assessing Teaching and Learning Credits: 2
- EDUC 615 - Educational Change Credits: 2

▲**Concentration in ASTL: Advanced International Baccalaureate (AIB)**

This 18-credit International Baccalaureate(IB) concentration provides advanced professional development for teachers on the philosophy, elements, and assessments of the Primary Years Programme (PYP), Middle Years Programme (MYP), and Diploma Programme (DP). The course work focuses on the theory, pedagogy, and research under girding the International Baccalaureate programs.

**Course Work**

- EDUC 621 - Teaching and Learning in the International Baccalaureate Primary Years Program Credits: 3
- EDUC 622 - Curriculum Development across IB Programs Credits: 3
- EDUC 623 - Models and Strategies for Teaching and Learning in IB Schools Credits: 3
- EDUC 624 - Assessment and Learning in IB Schools Credits: 3
- EDUC 626 - Inquiry into Action: IB Teachers, Learners, and Schools Credits: 3
- EDUC 627 - Contemporary Issues and Trends in IB Credits: 3

**Total: 18 credits**

▲**Concentration in ASTL: Art Education (AART)**

The 21-credit art education concentration is designed for art teachers with current licensure in art PK–12. It consists of seven required courses that address contemporary professional development content areas in art education.

**Course Work**

- AVT 605 - Issues and Research in Art Education Credits: 3
- AVT 606 - Creativity and Cognition in the Arts and Media Credits: 3
- AVT 615 - Technology for Art Teachers Credits: 3
- AVT 667 - Two-Dimensional Art Making: Form, Theme, and Context Credits: 3
• AVT 694 - Advanced Studies in Teaching Critical Response to Art, PK-12 Credits: 3
• AVT 697 - Advanced Strategies and Curricular Innovations in the Visual Arts Credits: 3

Electives

Choose one studio course from the following:

• AVT 668 - Three-Dimensional Art Making across Cultures Credits: 3
• AVT 669 - Four Dimensional Art Making: Technology and New Media Credits: 4

Note:

AVT 615 is a required 3-credit course. Qualified students who test out of this course are required to complete either AVT 668 or AVT 669.

Total: 21 credits

▲ Concentration in ASTL: Early Childhood Education (AECE)

The 18-credit early childhood concentration provides advanced professional development in preschool through third grade content and includes three required courses and three electives. The concentration focuses on practicing teachers who may or may not be licensed to teach young children.

Course Work

• EDCI 603 - Trends, Issues, and Research in Early Childhood Education Credits: 3
• EDCI 615 - Advanced Human Development Credits: 3
• EDCI 784 - Capstone Seminar in Early Childhood Education Credits: 3

Electives

Choose three courses from the following:

• EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
• EDCI 601 - Applied Study of Communicative Competence and Classroom Discourse Credits: 3
• EDCI 613 - Curriculum and Assessment in Early Childhood Education I Credits: 3
• EDCI 614 - Curriculum and Assessment in Early Childhood Education II Credits: 3
• EDCI 616 - The Creative Arts and Play in Early Childhood Education Credits: 3
• EDRD 630 - Advanced Literacy Foundations and Instruction, Birth to Middle Childhood Credits: 3
• EDSE 556 - Developing Language, Literacy, and Communication in Young Children Credits: 3
• EDSE 557 - Foundations of Language and Literacy for Diverse Learners Credits: 3
• EDSE 656 - Assessment of Diverse Young Learners Credits: 3
• EDSE 667 - Cognitive Development of Diverse Young Children Credits: 3
Total: 18 credits

▲ Concentration in ASTL: Elementary Mathematics (AEMA)

The 18-credit elementary math concentration combines the study of mathematics content appropriate for kindergarten through eighth grade with the study of mathematics education research, curriculum, leadership, and assessment.

Course Work

Must complete five separate 3-credit MATH 600 special topics courses as noted below:

- MATH 600 - Special Topics in Mathematics Credits: 1-6
  Number Systems and Number Theory for K-8 Teachers Credits: 3
  Geometry and Measurement for K-8 Teachers Credits: 3
  Probability and Statistics for K-8 Teachers Credits: 3
  Algebra and Functions for K-8 Teachers Credits: 3
  Rational Numbers and Proportional Reasoning for K-8 Teachers Credits: 3

Electives

Choose one 3-credit course from the following:

- EDCI 645 - Curriculum Development in Mathematics Education Credits: 3
- EDCI 646 - Mathematics Education Leadership for School Change Credits: 1-3 (Must register for 3 credits)
- EDCI 666 - Research in Mathematics Teaching Credits: 3

Total: 18 credits

▲ Concentration in ASTL: Foreign Language French (AFLF)

The 18-credit foreign language concentration provides advanced professional development and language study for practicing foreign language teachers. The 18 credits include a combination of modern language courses and targeted electives.

Course Work

Choose six credits in literature:

- FREN 515 - Medieval French Literature Credits: 3
- FREN 517 - Studies in Seventeenth-Century Literature Credits: 3
• FREN 518 - Studies in Eighteenth-Century Literature Credits: 3
• FREN 519 - Studies in Nineteenth-Century Literature Credits: 3
• FREN 525 - Studies in Modern French Literature Credits: 3
• FREN 550 - Special Topics Credits: 3

Note:

Courses may be substituted with advisor-approved literature-related electives in French.

Choose six credits in language and linguistics:

• FREN 560 - History of the French Language Credits: 3
• FREN 575 - Grammatical Analysis Credits: 3
• FREN 576 - Advanced Translation Credits: 3

Note:

Courses may be substituted with advisor-approved language and linguistics-related electives.

Electives

Choose six credits in literature or language (select from courses listed above or below)

• FREN 580 - Contemporary French Society and Culture Credits: 3
• FRLN 510 - Bibliography and Research in Foreign Languages and Literature Credits: 3
• FRLN 525 - Literary Translation Credits: 3
• FRLN 550 - Special Topics Credits: 3
• FRLN 565 - Theory of Translation Credits: 3
• FRLN 572 - Integrating Technology into Language Learning Credits: 3
• FRLN 573 - Basic Issues in Language Pedagogy Credits: 3
• FRLN 590 - Internship and Seminar in Translation Credits: 3
• FRLN 620 - Literary Theory and Criticism Credits: 3
• FRLN 660 - Approaches to the Study of Language Credits: 3
• FRLN 670 - Foreign Language Learning and Teaching Credits: 3

Note:

Courses may be substituted with advisor-approved language and literature-related electives.

Total: 18 credits

▲ Concentration in ASTL: Foreign Language Spanish (AFLS)
The 18-credit foreign language concentration provides advanced professional development and language study for practicing foreign language teachers. The 18 credits include a combination of modern language courses and targeted electives.

Course Work

- SPAN 502 - Hispanic Sociolinguistics Credits: 3
- SPAN 505 - Applied Spanish Stylistics Credits: 3
- SPAN 510 - Introduction to the Graduate Study of Literature in Spanish Credits: 3

Electives

Choose nine credits from the following:

- FRLN 510 - Bibliography and Research in Foreign Languages and Literature Credits: 3
- FRLN 525 - Literary Translation Credits: 3
- FRLN 550 - Special Topics Credits: 3
- FRLN 565 - Theory of Translation Credits: 3
- FRLN 572 - Integrating Technology into Language Learning Credits: 3
- FRLN 573 - Basic Issues in Language Pedagogy Credits: 3
- FRLN 590 - Internship and Seminar in Translation Credits: 3
- FRLN 620 - Literary Theory and Criticism Credits: 3
- FRLN 650 - The Teaching of Culture in Foreign Language Programs Credits: 3
- FRLN 660 - Approaches to the Study of Language Credits: 3
- FRLN 670 - Foreign Language Learning and Teaching Credits: 3
- SPAN 501 - Applied Spanish Grammar Credits: 3
- SPAN 520 - Studies in Medieval Spanish Literature Credits: 3
- SPAN 525 - Studies in Renaissance Literature Credits: 3
- SPAN 530 - Studies in the Literature of the Golden Age Credits: 3
- SPAN 540 - Studies in 20th-Century Literature Credits: 3
- SPAN 545 - Studies in Hispanic Literature Credits: 3
- SPAN 551 - Special Topics in Spanish Credits: 3
- SPAN 560 - Studies in Spanish American Poetry Credits: 3
- SPAN 565 - Studies in Spanish American Drama Credits: 3
- SPAN 576 - Advanced Translation Credits: 3
- SPAN 580 - Contemporary Hispanic Institutions Credits: 3
- SPAN 635 - Seminar in Don Quixote Credits: 3
- SPAN 650 - Seminar in Twentieth-Century Drama Credits: 3
- SPAN 655 - Seminar in Twentieth-Century Prose Credits: 3
- SPAN 670 - Seminar in Spanish American Prose Credits: 3
- SPAN 675 - Seminar in Literature and Art Credits: 3
- SPAN 680 - Seminar in Literature and Society Credits: 3
- SPAN 685 - Seminar in Literature and Ideas Credits: 3

Note:

Courses may be substituted with advisor-approved language and literature-related electives.
Total: 18 credits

▲ Concentration in ASTL: Geography (AGEO)

The 21-credit geography concentration includes five required geography courses and two approved elective courses. The concentration is designed for elementary, middle and high school teachers who seek a professional specialization in geography. Coursework provides an add-on endorsement in geography for Virginia teachers.

Course Work

- GGS 520 - Geography for Teachers Credits: 3
- GGS 533 - Issues in Regional Geography Credits: 1-6 (Must register for 3 credits)
- GGS 550 - Geospatial Science Fundamentals Credits: 3
- GGS 603 - Geographic Perspectives on Complex Natural Resource Management Credits: 3
- GGS 690 - Advanced Practicum in Geographical Applications Credits: 1-6 (Must register for 3 credits)

Electives

Choose two courses from the following:

- GGS 505 - Transportation Geography Credits: 3
- GGS 553 - Geographic Information System Credits: 3
- GGS 563 - Advanced Geographic Information Systems Credits: 3
- GGS 581 - World Food and Population Credits: 3
- GGS 590 - Selected Topics in Geography Credits: 1-3

Total: 21 credits

▲ Concentration in ASTL: Gifted Child Education (AGCE)

The 21-credit gifted child education concentration provides advanced professional development through endorsement or master’s degree for teachers of gifted students. The concentration meets NAGC/CEC graduate standards and focuses on culturally diverse, multilingual, twice exceptional, and traditionally defined gifted students and programs.

Course Work

- EDCI 621 - Introduction to Gifted and Talented Learners Credits: 3
- EDCI 622 - Curriculum Differentiation for Diverse Learners Credits: 3
- EDCI 623 - Models and Strategies for Teaching Gifted Learners Credits: 3
- EDCI 624 - Assessment, Identification, and Evaluation of Gifted Learners Credits: 3
- EDCI 625 - Contemporary Issues and Trends in Gifted Education Credits: 3
• EDCI 626 - Action Research in Gifted Education Credits: 3
• EDCI 627 - Advanced Practicum in Gifted Education Credits: 3
    Note: One year of successful full-time teaching in an accredited public or non-public school may be accepted in lieu of
    the EDCI 627 practicum (VA Licensure Regulations for School Personnel, 1998). A 3-credit elective course must be
    chosen with advisor approval to meet the 21-credit requirement.

Total: 21 credits

▲ Concentration in ASTL: History (AHIS)

The 18-credit history concentration includes one geography and five history courses that are required. The concentration is
designed for elementary, middle, and high school teachers who seek a foundation in the history courses that are taught within
Virginia public schools.

Course Work

• GGS 520 - Geography for Teachers Credits: 3
• HIST 510 - Approaches to Modern World History Credits: 3
• HIST 601 - Themes in U.S. History I Credits: 3
• HIST 602 - Themes in U.S. History II Credits: 3
• HIST 605 - Themes in European History I Credits: 3
• HIST 695 - History Symposium Credits: 1-3

Note:

Courses may be substituted with advisor-approved history electives.

Total: 18 credits

▲ Concentration in ASTL: Individualized (AATL)

The 18-credit individualized concentration is developed in concert with a student’s advisor to provide course work in a student’s
specialized area that is not provided in other ASTL concentrations. The student works with the program director to design a
program of study that provides individualized learning experiences in an area of expertise relevant to one’s professional
educational setting.

▲ Concentration in ASTL: Literacy: PK–12 Classroom Teachers (AP12)

This 18-credit concentration includes three required literacy courses and three approved electives in ESOL, special education,
psychology, secondary and elementary education, early childhood, writing, and other areas. Theory and strategies in literacy and
reading for teachers in any discipline, PK–12.
Course Work

- EDRD 630 - Advanced Literacy Foundations and Instruction, Birth to Middle Childhood Credits: 3
- EDRD 631 - Advanced Literacy Foundations and Instruction, Adolescence through Adulthood Credits: 3
- EDRD 632 - Literacy Assessments and Interventions for Groups Credits: 3

Electives

Choose 9 credits from the following:

- EDCI 520 - Assessment of Language Learners Credits: 3
- EDRD 615 - Reading/Writing for Multilingual Students Credits: 3
- EDRD 633 - Literacy Assessments and Interventions for Individuals Credits: 3
- EDRD 637 - Supervised Literacy Practicum Credits: 2-3 (Must register for 3 credits)
- EDSE 662 - Consultation and Collaboration Credits: 3
- EDSE 627 - Assessment Credits: 3

Note:

Student may choose an alternate elective with advisor approval.

Total: 18 credits

▲ Concentration in ASTL: Literacy: Reading Specialist (ALRS)

This 21-credit concentration is a state-approved sequence of courses leading to Virginia reading specialist licensure. Course work includes foundational knowledge, instructional and assessment strategies for individuals and groups, and preparation as a literacy coach and staff developer. Licensure also requires a master’s degree, passing of the Virginia Reading Assessment, and three years of teaching under contract.

Course Work

- EDRD 630 - Advanced Literacy Foundations and Instruction, Birth to Middle Childhood Credits: 3
- EDRD 631 - Advanced Literacy Foundations and Instruction, Adolescence through Adulthood Credits: 3
- EDRD 632 - Literacy Assessments and Interventions for Groups Credits: 3
- EDRD 633 - Literacy Assessments and Interventions for Individuals Credits: 3
- EDRD 634 - School-Based Leadership in Literacy Credits: 3
- EDRD 635 - School-Based Inquiry in Literacy Credits: 3
- EDRD 637 - Supervised Literacy Practicum Credits: 2-3 (Must register for 3 credits)

Total: 21 credits
▲ Concentration in ASTL: Mathematics (Middle and Secondary) (AMTH)

This 18-credit concentration provides advanced professional development in mathematics teaching and learning for practicing middle or high school mathematics teachers. Students pursue either Middle Education, Grades 6-8 or Secondary Education, Grades 9-12 course work dependent on their current teaching assignment.

Course Work

Middle Education, Grades 6-8

- EDCI 597 - Special Topics in Education Credits: 1-6 (Must register for 3 credits)
- MATH 601 - Analysis I for Teachers Credits: 3
- MATH 604 - Geometry for Teachers Credits: 3
- MATH 605 - Discrete/Finite Mathematics for Teachers Credits: 3
- MATH 607 - Algebraic Structure for Teachers Credits: 3
- MATH 608 - Problem Solving in Mathematics Credits: 3

Total: 18 credits

Secondary Education, Grades 9-12

- EDCI 597 - Special Topics in Education Credits: 1-6 (Must register for 3 credits)
- MATH 601 - Analysis I for Teachers Credits: 3
- MATH 602 - Analysis II for Teachers Credits: 3
- MATH 604 - Geometry for Teachers Credits: 3
- MATH 605 - Discrete/Finite Mathematics for Teachers Credits: 3
- MATH 607 - Algebraic Structure for Teachers Credits: 3

Total: 18 credits

▲ Concentration in ASTL: Physical Education (APED)

The 18-credit physical education concentration provides course work in research design, curriculum development, collaborative supervision, research in pedagogy, and advanced adapted content. It is designed for practicing teachers seeking to improve their professional knowledge and teaching performance for improving student learning.

Course Work
• EDRS 590 - Education Research Credits: 3
  or
• EFHP 623 - Research Design and Statistical Reasoning Credits: 3
and
• PHED 670 - Analysis of Teaching in Physical Education Credits: 3
• PHED 672 - Curriculum and Assessment in Physical Education Credits: 3
• PHED 673 - Motor Development for Special Populations Credits: 3
• PHED 680 - Mentoring and Supervising in Physical Education Credits: 3

Electives

Choose one course from the following:

• DANC 553 - Teaching Creative Movement Credits: 3
• DANC 580 - Laban Movement Analysis Credits: 3
• EDCI 705 - Instructional Design Credits: 3
  or
• EDIT 705 - Instructional Design Credits: 3
• EDLE 610 - Leading Schools and Communities Credits: 3
• EDUC 539 - Human Development and Learning PK-12 Credits: 3
• EDUC 672 - Human Development and Learning: Secondary Education Credits: 3
• EFHP 606 - Foundations of Exercise, Fitness, and Health Promotion Credits: 3
• EFHP 610 - Advanced Exercise Physiology Credits: 3
• EFHP 611 - Fitness Assessment: Theory and Practice Credits: 3
• EFHP 614 - Advanced Exercise Nutrition Credits: 3
• EFHP 618 - Exercise and Sport Psychology Credits: 3
• HEAL 516 - Program Development and Resources in Health Education Credits: 3

Note:

Student may choose an alternate elective with advisor approval.

Total: 18 credits

▲ Concentration in ASTL: Science (ASCI)

The 18-credit science concentration provides advanced professional development in science teaching and learning for practicing elementary, middle, or high school science teachers.

Course Work

• EDCI 663 - Research in Science Teaching Credits: 3
• EDCI 683 - Curriculum Development and Evaluation in Science Education Credits: 3
• EDCI 693 - Leadership and Organizational Issues in Science Education Credits: 3
• EDLE 791 - Internship in Educational Leadership Credits: 3

Electives

Choose six credits of science course work with advisor approval.

Total: 18 credits

▲ Concentration in ASTL: Special Education (ASPE)

The 18-credit special education concentration provides advanced expertise for educators, administrators, and other professionals providing services to individuals with special needs. Students select one of the following areas of emphasis: applied behavior analysis; assistive technology; emotional disturbance and learning disabilities; emotional disturbance, learning disabilities, and mental retardation; mental retardation; or severe disabilities.

Course Work

Applied Behavior Analysis

• EDSE 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy Credits: 3
• EDSE 621 - Applied Behavior Analysis: Empirical Bases Credits: 3
• EDSE 623 - Applied Behavior Analysis: Assessments and Interventions Credits: 3
• EDSE 624 - Applied Behavior Analysis: Applications Credits: 3
• EDSE 625 - Applied Behavior Analysis: Verbal Behavior Credits: 3
• EDSE 790 - Internship in Special Education Credits: 1-6 (Must register for 3 credits)

Total: 18 credits

Assistive Technology

Choose 18 credits from the following:

• EDSE 522 - Assistive Technology for Individuals with Sensory Impairments Credits: 2-3 or
• EDIT 522 - Assistive Technology for Individuals with Sensory Impairments Credits: 2-3
• EDSE 523 - Accessibility/Input Modification Credits: 1-3 or
• EDIT 523 - Accessibility/Input Modification Credits: 1-3
• EDSE 524 - Assistive Technology for Individuals with Learning Disabilities Credits: 2 or
• EDIT 524 - Assistive Technology for Individuals with Learning Disabilities Credits: 2
• EDSE 525 - Software for Individuals with Special Needs Credits: 1-2
  or
• EDIT 525 - Software for Individuals with Special Needs Credits: 1-2
• EDSE 526 - Web Accessibility and Design Credits: 3
  or
• EDIT 526 - Web Accessibility and Design Credits: 3
• EDSE 527 - Adapted Sports, Recreation, and Leisure Credits: 1
• EDSE 528 - Low-Tech Assistive Technology Solutions Credits: 1
• EDSE 622 - Augmentative Communication Credits: 2
• EDSE 797 - Advanced Topics in Education Credits: 1-6
• EDUC 600 - Workshop in Education Credits: 1-6

Note:

Assistive technology courses are offered for variable credit each semester. Select 18 credits to meet the concentration requirement.

Total: 18 credits

Emotional Disturbance and Learning Disabilities (ED/LD) K–12

Choose 18 credits from the following:

• EDSE 501 - Introduction to Special Education Credits: 3
• EDSE 502 - Classroom Management and Applied Behavior Analysis Credits: 3
• EDSE 503 - Language Development and Reading Credits: 3
• EDSE 540 - Characteristics of Students with Disabilities who Access the General Curriculum Credits: 3
• EDSE 626 - The Inclusive Classroom Credits: 3
  or
• EDSE 628 - Elementary Reading, Curriculum, and Strategies for Students who Access the General Education Curriculum Credits: 3
• EDSE 627 - Assessment Credits: 3
• EDSE 629 - Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum Credits: 3
• EDSE 662 - Consultation and Collaboration Credits: 3
• EDSE 790 - Internship in Special Education Credits: 1-6 (Must register for 2 credits)
• EDSE 791 - Midpoint Portfolio Credits: 1
• EDSE 792 - Final Portfolio Credits: 1

Total: 18 credits

Emotional Disturbance, Learning Disabilities, and Mental Retardation (ED/LD/MR) K–12
Choose 18 credits from the following:

- EDSE 501 - Introduction to Special Education Credits: 3
- EDSE 502 - Classroom Management and Applied Behavior Analysis Credits: 3
- EDSE 503 - Language Development and Reading Credits: 3
- EDSE 540 - Characteristics of Students with Disabilities who Access the General Curriculum Credits: 3
- EDSE 542 - Characteristics of Students with Mental Retardation Credits: 3
  or
- EDSE 547 - Medical and Developmental Risk Factors for Children with Disabilities Credits: 3
- EDSE 627 - Assessment Credits: 3
- EDSE 628 - Elementary Reading, Curriculum, and Strategies for Students who Access the General Education Curriculum Credits: 3
  or
- EDSE 626 - The Inclusive Classroom Credits: 3
- EDSE 629 - Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum Credits: 3
- EDSE 661 - Curriculum and Methods: Severe Disabilities Credits: 3
- EDSE 662 - Consultation and Collaboration Credits: 3
- EDSE 790 - Internship in Special Education Credits: 1-6 (Must register for 2 credits)
- EDSE 791 - Midpoint Portfolio Credits: 1
- EDSE 792 - Final Portfolio Credits: 1

Total: 18 credits

Mental Retardation (MR) K–12

Choose 18 credits from the following:

- EDSE 501 - Introduction to Special Education Credits: 3
- EDSE 502 - Classroom Management and Applied Behavior Analysis Credits: 3
- EDSE 503 - Language Development and Reading Credits: 3
- EDSE 542 - Characteristics of Students with Mental Retardation Credits: 3
- EDSE 547 - Medical and Developmental Risk Factors for Children with Disabilities Credits: 3
- EDSE 627 - Assessment Credits: 3
- EDSE 628 - Elementary Reading, Curriculum, and Strategies for Students who Access the General Education Curriculum Credits: 3
  or
- EDSE 626 - The Inclusive Classroom Credits: 3
- EDSE 629 - Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum Credits: 3
- EDSE 661 - Curriculum and Methods: Severe Disabilities Credits: 3
- EDSE 662 - Consultation and Collaboration Credits: 3
- EDSE 790 - Internship in Special Education Credits: 1-6 (Must register for 2 credits)
- EDSE 791 - Midpoint Portfolio Credits: 1
- EDSE 792 - Final Portfolio Credits: 1
Total: 18 credits

Severe Disabilities (SD) K–12

Choose 18 credits from the following:

- EDSE 531 - Transition and Community-Based Instruction Credits: 3
- EDSE 547 - Medical and Developmental Risk Factors for Children with Disabilities Credits: 3
- EDSE 557 - Foundations of Language and Literacy for Diverse Learners Credits: 3
- EDSE 532 - Positive Behavior Supports Credits: 3
  or
- EDSE 502 - Classroom Management and Applied Behavior Analysis Credits: 3
- EDSE 534 - Communication and Severe Disabilities Credits: 3
  or
- EDSE 533 - Curriculum and Assessment in Severe Disabilities Credits: 3
  or
- EDSE 627 - Assessment Credits: 3
- EDSE 661 - Curriculum and Methods: Severe Disabilities Credits: 3
- EDSE 662 - Consultation and Collaboration Credits: 3
- EDSE 669 - Interdisciplinary Approach for Children with Sensory and Motor Disabilities Credits: 3
- EDSE 790 - Internship in Special Education Credits: 1-6 (Must register for 2 credits)
- EDSE 791 - Midpoint Portfolio Credits: 1
- EDSE 792 - Final Portfolio Credits: 1
- EDSE 622 - Augmentative Communication Credits: 2

Total: 18 credits

▲ Concentration in ASTL: Teacher Leadership (ATL)

This 18-credit concentration provides advanced professional development in school leadership. The educational leadership course work focuses on teachers as leaders in their classrooms, teams, departments, programs, and schools.

Course Work

- EDLE 610 - Leading Schools and Communities Credits: 3
- EDLE 612 - Education Law Credits: 3
- EDLE 618 - Supervision and Evaluation of Instruction Credits: 3
- EDLE 620 - Organizational Theory and Leadership Credits: 3
- EDUC 597 - Special Topics in Education Credits: 1-6 (Must register for 3 credits)
- EDUC 598 - Directed Reading, Research, and Individual Projects Credits: 1-6 (Must register for 3 credits)
Total: 18 credits

▲Concentration in Early Childhood Education for Diverse Learners (ECDL)

This 30-credit program leads to a master's degree for professionals who already hold an early childhood education teacher license or are interested in working in an early childhood education context outside the classroom. Students who wish to seek Early Childhood Education, PK-3 licensure are advised to consider completing the Early Childhood Education, PK-3 Licensure certificate program in conjunction with the MEd. Students may use their certificate coursework to fulfill the elective credits for the MEd program.

Course Work

- EDUT 781 - Frameworks for Unified, Transformative Early Care and Education Credits: 3
  Choose 3 credits from the following:
  - EDRS 590 - Education Research Credits: 3
  - EDUT 782 - Policy Perspectives Affecting Diverse Young Learners and Their Families Credits: 3
  Choose 3 credits from the following:
  - EDUT 511 - Developmental Pathways of Diverse Learners, Birth-Adolescence Credits: 3
  - EDUT 521 - Infant/Toddler Development in Family and Cultural Contexts Credits: 3
  Choose 3 credits from the following:
  - EDUT 514 - Curriculum and Instruction for Diverse Young Learners Credits: 3
  - EDUT 614 - Curriculum Across the Content Areas for Diverse Young Learners Credits: 3
  - EDUT 615 - Mathematics and Science for Diverse Young Learners Credits: 3
  Choose 3 credits from the following:
  - EDSE 556 - Developing Language, Literacy, and Communication in Young Children Credits: 3
  - EDSE 557 - Foundations of Language and Literacy for Diverse Learners Credits: 3
  - EDUT 513 - Foundations of Language and Literacy for Diverse Young Learners Credits: 3
  - EDUT 613 - Language and Literacy Assessment and Instruction for Diverse Young Learners Credits: 3
  Choose 3 credits from the following:
  - EDSE 665 - Families of Children with Special Needs Credits: 3
  - EDUT 515 - Families, Communities, and Schools Credits: 3
  Choose 3 credits from the following:
  - EDSE 656 - Assessment of Diverse Young Learners Credits: 3
  - EDUT 612 - Assessment of Diverse Young Learners Credits: 3

Electives (9 credits)

Choose 9 credits from graduate EDSE- or EDUT-prefix courses

Portfolio Requirement

A professional portfolio is required. The portfolio reflects the student's professional development throughout the program and contains examples of performance assessments associated with standards.
Total: 30 credits

▲ Concentration in Early Childhood Education - Teach for America (TECE)

This 30-credit concentration is designed to prepare Teach for America Corp Members to teach culturally, linguistically, and ability diverse Early Childhood students. Note: this is only available to teach for America Corp Members in Washington DC.

Course Work

- EDUT 511 - Developmental Pathways of Diverse Learners, Birth-Adolescence Credits: 3
- EDUT 514 - Curriculum and Instruction for Diverse Young Learners Credits: 3
- EDUT 515 - Families, Communities, and Schools Credits: 3
- EDUT 612 - Assessment of Diverse Young Learners Credits: 3
- EDUT 613 - Language and Literacy Assessment and Instruction for Diverse Young Learners Credits: 3
- EDUT 614 - Curriculum Across the Content Areas for Diverse Young Learners Credits: 3
- EDUT 615 - Mathematics and Science for Diverse Young Learners Credits: 3
- EDUT 781 - Frameworks for Unified, Transformative Early Care and Education Credits: 3
- EDUT 790 - Internship in Early Childhood Education Credits: 1-6
  (One 3-credit internship experience is required)
  Choose 3 credits from the following:
  - EDRS 590 - Education Research Credits: 3
  - EDUT 782 - Policy Perspectives Affecting Diverse Young Learners and Their Families Credits: 3

Portfolio Requirement

A professional portfolio is required. The portfolio reflects the student's professional development throughout the program and contains examples of performance assessments associated with standards.

Total: 30 credits

▲ Concentration in Elementary Education (ELED)

The 39-credit Elementary Education concentration and initial licensure component provides professionals with the specialized knowledge, skills, and dispositions needed to meet the educational needs of students attending today's elementary schools. Specific content and endorsement courses are required; all courses are taught in cohorts only. Three cohort models (one- or two- semester internships, and an immersion model) provide flexibility for all students. The two-semester internship cohort begins each fall semester; the one-semester internship cohort begins each summer semester, and the immersion cohort begins each spring.

All students are required to submit and successfully complete a series of performance-based assessments. These assessments include content knowledge, pedagogical skills, and dispositions.
Grading Policy: Students enrolled in this degree program must earn a B or higher in all course work.

Course Work

- EDCI 544 - Curriculum and Methods of Teaching in Elementary Education Credits: 3
- EDCI 545 - Assessment and Differentiation Credits: 3
- EDCI 546 - Integrating Technology in Elementary Classrooms: Literacy Credits: 1
- EDCI 547 - Integrating Technology in Elementary Classrooms: Mathematics Credits: 1
- EDCI 548 - Integrating Technology in Elementary Classrooms: Social Studies and Fine Arts Credits: 1
- EDCI 552 - Mathematics Methods for the Elementary Classroom Credits: 1-3 (Must register for 3 credits)
- EDCI 553 - Science Methods for the Elementary Classroom Credits: 1-3 (Must register for 3 credits)
- EDCI 554 - Methods of Teaching Social Studies and Integrating Fine Arts in the Elementary Classroom Credits: 3
- EDCI 555 - Literacy Teaching and Learning in Diverse Elementary Classrooms I Credits: 3
- EDCI 556 - Literacy Teaching and Learning in Diverse Elementary Classrooms II Credits: 1-3 (Must register for 3 credits)
- EDCI 559 - Research and Assessment in Elementary Education Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (Year-long internship: students must register for 3 credits in the fall and 3 credits in the spring. Semester internship and immersion cohort: students must register for 6 credits)
- EDUC 542 - Foundations of Education Credits: 3
- EDUC 543 - Children, Family, Culture, and Schools, 4-12 Year Olds Credits: 3

Total: 39 credits

▲ Concentration in Elementary Education - Teach for America (TEED)

This 33-credit concentration is designed to prepare Teach for America Corp Members to teach culturally, linguistically, and ability diverse elementary students. Note: this is only available to teach for America Corp Members in Washington DC.

Course Work

- EDCI 544 - Curriculum and Methods of Teaching in Elementary Education Credits: 3
- EDCI 545 - Assessment and Differentiation Credits: 3
- EDCI 552 - Mathematics Methods for the Elementary Classroom Credits: 1-3 (must register for 3 credits)
- EDCI 553 - Science Methods for the Elementary Classroom Credits: 1-3 (must register for 3 credits)
- EDCI 554 - Methods of Teaching Social Studies and Integrating Fine Arts in the Elementary Classroom Credits: 3
- EDCI 555 - Literacy Teaching and Learning in Diverse Elementary Classrooms I Credits: 3
- EDCI 559 - Research and Assessment in Elementary Education Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6
  Students register for variable credit as follows: First year: Fall, 2 credits/ Spring, 1 credit; Second year: Fall, 1 credit/ Spring, 2 credits.
- EDUC 542 - Foundations of Education Credits: 3
- EDUC 543 - Children, Family, Culture, and Schools, 4-12 Year Olds Credits: 3
Total: 33 credits

▲Concentration in English as a Second Language (PK-12)(CISL)

This 39-credit ESL/ESOL PK-12 concentration provides initial state teacher licensure (endorsement) for candidates wanting to teach in Virginia public schools, grades PK to 12. This program provides teachers with the specialized knowledge, skills, and professional dispositions required to pass an oral and written proficiency assessment in English to meet state licensing requirements and national professional standards. This program has a licensure component of 30 credits and requires an additional 9 credits for completion of the MEd in Curriculum and Instruction.

Prerequisites for admission: Six credits of a modern foreign language (graduate or undergraduate, do not count toward the MEd).

Field experience: Field experiences involving observations and analyses in public schools are required throughout the program; a maximum of 15 clock hours per course or 30 clock hours per term. Arrangements can be made with each course instructor.

Grading Policy: Students enrolled in this degree program must earn a B or higher in all licensure course work.

Course Work

Licensure Requirements (30 credits)

- EDCI 510 - Linguistics for PreK-12 ESOL Teachers Credits: 3
- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 519 - Methods of Teaching Multilingual Students Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits)
- EDRD 525 - Emergent Literacy for English Language Learners, PK-12 Credits: 3
- EDRD 610 - Content Literacy for English Language Learners, PK-12 Credits: 3
- EDUC 537 - Foundations of Multicultural Education Credits: 3
- EDUC 539 - Human Development and Learning PK-12 Credits: 3

Note:

For licensed teachers only, the add-on endorsement in ESL PK-12 requires completion of all licensure course work with the exception of EDCI 790.

Prerequisites

All licensure course work listed above

MEd Requirements (9 credits)
- EDCI 521 - Curriculum Development for Language Learners Credits: 3
- EDCI 777 - Research to Practice Credits: 3
- EDRS 590 - Education Research Credits: 3
  or
  3-credit elective course (approved by advisor)

Total: 39 credits

Internship Options

A six-credit, 15-week daytime internship, EDCI 790, is required for completion of the state-approved licensure program. Both elementary and middle school or secondary school placements are required. Two options are available to meet the needs of most individuals:

- **Placement internship:** One semester, daytime internship in the classroom of a cooperating teacher. Intern assumes co-teaching and independent teaching responsibilities.
- **On-the-job internship:** Available only to students who are employed as full-time, provisionally licensed teachers and are teaching ESL/ESOL in an accredited school. In addition to a fall or spring experience, this option includes a summer or other appropriate experience.

In lieu of an internship, provisionally licensed teachers may use their full-time teaching to satisfy the internship requirements; however, the 39-credit master's degree requires that candidates substitute six credits in approved course work for the internship.

▲Concentration in Foreign Language: Arabic (EARB)

This 39-credit Foreign Language: Arabic concentration is designed to provide an interdisciplinary, theory-based course of study for initial licensure and provisionally licensed teachers. It is intended to assist in the development of a reflective stance toward practice and to enhance ability to address critical issues in language and learning. It also intends to advance their fundamental understanding about language, technology, pedagogy, and culture, as well as issues related to diversity in schools and in society at large. This program has a licensure component of 27 credits and requires an additional 12 credits for completion of the MEd.

**Grading Policy:** Students enrolled in this degree program must earn a B or higher in all licensure course work.

Course Work

Licensure Requirements (27 credits)

- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDCI 560 - Methods of Teaching in Foreign/World Languages Credits: 3
- EDCI 684 - Advanced Methods of Teaching Foreign/Second Languages in PK-12 Schools Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits in the Arabic-specific section)
- EDRD 620 - Reading/Writing in Foreign/World Languages Credits: 3
- EDUC 537 - Foundations of Multicultural Education Credits: 3
- EDUC 539 - Human Development and Learning PK-12 Credits: 3
Prerequisites

All licensure course work listed above

MEd Requirements (12 credits)

- EDCI 521 - Curriculum Development for Language Learners Credits: 3
- EDCI 777 - Research to Practice Credits: 3
- EDRS 590 - Education Research Credits: 3
- EDUC 598 - Directed Reading, Research, and Individual Projects Credits: 1-6 (Must register for 3 credits)

Total: 39 credits

Internship Options

A six-credit, 15-week daytime internship, EDCI 790, is required for completion of the state-approved licensure program. Both elementary and middle school or secondary school placements are required. Two options are available to meet the needs of most individuals:

- **Placement Internship**: One semester, daytime internship in the classroom of a cooperating teacher. Intern assumes co-teaching and independent teaching responsibilities.
- **On-the-job Internship**: Available only to students who are employed as full-time, provisionally licensed teachers and are teaching in their endorsement area in an accredited school. In addition to a fall or spring experience, this option includes a summer or other appropriate experience.

In lieu of an internship, provisionally licensured teachers may use their full-time teaching to satisfy the internship requirements; however, the 39-credit master's degree requires that candidates substitute six credits in approved course work for the internship.

▲Concentration in Foreign Language: Chinese (ECHN)

This 39-credit Foreign Language: Chinese concentration is designed to provide an interdisciplinary, theory-based course of study for initial licensure and provisionally licensed teachers. It is intended to assist in the development of a reflective stance toward practice and to enhance ability to address critical issues in language and learning. It also intends to advance their fundamental understanding about language, technology, pedagogy, and culture, as well as issues related to diversity in schools and in society at large. This program has a licensure component of 27 credits and requires an additional 12 credits for completion of the MEd.

**Grading Policy**: Students enrolled in this degree program must earn a B or higher in all licensure course work.

Course Work

Licensure Requirements (27 credits)

- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDCI 560 - Methods of Teaching in Foreign/World Languages Credits: 3
- EDCI 684 - Advanced Methods of Teaching Foreign/Second Languages in PK-12 Schools Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits in the Chinese-specific section)
- EDRD 620 - Reading/Writing in Foreign/World Languages Credits: 3
- EDUC 537 - Foundations of Multicultural Education Credits: 3
- EDUC 539 - Human Development and Learning PK-12 Credits: 3

Prerequisites

All licensure course work listed above

MEd Requirements (12 credits)

- EDCI 521 - Curriculum Development for Language Learners Credits: 3
- EDCI 777 - Research to Practice Credits: 3
- EDRS 590 - Education Research Credits: 3
- EDUC 598 - Directed Reading, Research, and Individual Projects Credits: 1-6 (Must register for 3 credits)

Total: 39 credits

Internship Options

- **Placement Internship**: One semester, daytime internship in the classroom of a cooperating teacher. Intern assumes co-teaching and independent teaching responsibilities.
- **On-the-job Internship**: Available only to students who are employed as full-time, provisionally licensed teachers and are teaching in their endorsement area in an accredited school. In addition to a fall or spring experience, this option includes a summer or other appropriate experience.

In lieu of an internship, provisionally licensed teachers may use their full-time teaching to satisfy the internship requirements; however, the 39-credit master's degree requires that candidates substitute six credits in approved course work for the internship.

▲ Concentration in Foreign Language: German (EGRM)

This 39-credit Foreign Language: German concentration is designed to provide an interdisciplinary, theory-based course of study for initial licensure and provisionally licensed teachers. It is intended to assist in the development of a reflective stance toward practice and to enhance ability to address critical issues in language and learning. It also intends to advance their fundamental
understanding about language, technology, pedagogy, and culture, as well as issues related to diversity in schools and in society at large. This program has a licensure component of 27 credits and requires an additional 12 credits for completion of the MEd.

**Grading Policy:** Students enrolled in this degree program must earn a B or higher in all licensure course work.

**Course Work**

**Licensure Requirements (27 credits)**

- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDCI 560 - Methods of Teaching in Foreign/World Languages Credits: 3
- EDCI 684 - Advanced Methods of Teaching Foreign/Second Languages in PK-12 Schools Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits in the German-specific section)
- EDRD 620 - Reading/Writing in Foreign/World Languages Credits: 3
- EDUC 537 - Foundations of Multicultural Education Credits: 3
- EDUC 539 - Human Development and Learning PK-12 Credits: 3

**Prerequisites**

All licensure course work listed above

**MEd Requirements (12 credits)**

- EDCI 521 - Curriculum Development for Language Learners Credits: 3
- EDCI 777 - Research to Practice Credits: 3
- EDRS 590 - Education Research Credits: 3
- EDUC 598 - Directed Reading, Research, and Individual Projects Credits: 1-6 (Must register for 3 credits)

**Total: 39 credits**

**Internship Options**

A six-credit, 15-week daytime internship, EDCI 790, is required for completion of the state-approved licensure program. Both elementary and middle school or secondary school placements are required. Two options are available to meet the needs of most individuals:

- **Placement Internship:** One semester, daytime internship in the classroom of a cooperating teacher. Intern assumes co-teaching and independent teaching responsibilities.
- **On-the-job Internship:** Available only to students who are employed as full-time, provisionally licensed teachers and are teaching in their endorsement area in an accredited school. In addition to a fall or spring experience, this option includes a summer or other appropriate experience.
In lieu of an internship, provisionally licensured teachers may use their full-time teaching to satisfy the internship requirements; however, the 39-credit master's degree requires that candidates substitute six credits in approved course work for the internship.

▲Concentration in Foreign Language: Japanese (EJPN)

This 39-credit Foreign Language: Japanese concentration is designed to provide an interdisciplinary, theory-based course of study for initial licensure and provisionally licensed teachers. It is intended to assist in the development of a reflective stance toward practice and to enhance ability to address critical issues in language and learning. It also intends to advance their fundamental understanding about language, technology, pedagogy, and culture, as well as issues related to diversity in schools and in society at large. This program has a licensure component of 27 credits and requires an additional 12 credits for completion of the MEd.

Grading Policy: Students enrolled in this degree program must earn a B or higher in all licensure course work.

In lieu of an internship, provisionally licensed teachers may use their full-time teaching to satisfy the internship requirements; however, the 39-credit master's degree requires that candidates substitute six credits in approved course work for the internship.

Instructional Technology

Four concentrations with an instructional technology focus provide professionals the specialized knowledge and skills needed to apply a wide range of computer and telecommunications technologies in achieving educational goals within school, community, and corporate or public settings. The concentrations combine current theoretical foundations or technology development and integration with practical, hands-on experiences in using state-of-practice and state-of-the-art technologies. These concentrations serve the various needs and interests of specific types of instructional technology clients: instructional design and development, integration of technology in schools, technology innovations in education, and assistive and special education technology.

▲ Concentration in Assistive and Special Education Technology (IASP)

Course Work

- EDSE or EDIT 510 - Introduction to Assistive Technology Credits: 3
• EDSE or EDIT 526 - Web Accessibility and Design Credits: 3
• EDSE or EDIT 590 - Educational Research in Technology Credits: 3
• EDSE 610 - Designing Adaptive Environments Credits: 2
• EDSE 649 - Advanced Clinical Psycho-Educational Assessment in Special Education Credits: 3
• EDSE 782 - Comprehensive Topics in Special Education: Trends and Issues Credits: 3

Electives

Assistive and Special Education Technology elective courses are offered for variable credit each semester. Students take a total of 13 credits of electives.

Choose at least 8 credits of direct AT tools courses from the following:

• EDSE or EDIT 522 - Assistive Technology for Individuals with Sensory Impairments Credits: 2-3
• EDSE or EDIT 523 - Accessibility/Input Modification Credits: 1-3
• EDSE or EDIT 524 - Assistive Technology for Individuals with Learning Disabilities Credits: 2
• EDSE or EDIT 525 - Software for Individuals with Special Needs Credits: 1-2
• EDSE 527 - Adapted Sports, Recreation, and Leisure Credits: 1
• EDSE 528 - Low-Tech Assistive Technology Solutions Credits: 1
• EDSE or EDIT 529 - Internet as an Assistive Technology Tool Credits: 2
• EDSE 622 - Augmentative Communication Credits: 2

Choose as many as 5 credits from the following non-AT tools courses:

• Any EDIT course
• EDSE 534 - Communication and Severe Disabilities Credits: 3
• EDSE 662 - Consultation and Collaboration Credits: 3
• EDSE 669 - Interdisciplinary Approach for Children with Sensory and Motor Disabilities Credits: 3
• EDIT 772 - Web-Based Instructional Tools Credits: 1-3

Total: 30 credits

▲Concentration in Instructional Design and Development (IIDD)

Course Work

• EDIT 526 - Web Accessibility and Design Credits: 3
• EDIT 590 - Educational Research in Technology Credits: 3
or
• EDRS 590 - Education Research Credits: 3
• EDIT 704 - Instructional Technology Foundations and Theories of Learning Credits: 3
• EDIT 705 - Instructional Design Credits: 3
• EDIT 730 - Advanced Instructional Design Credits: 3
• EDIT 732 - Analysis and Design of Technology-Based Learning Environments Credits: 3
• EDIT 752 - Design and Implementation of Technology-based Learning Environments Credits: 3
• EDIT 601 - Instructional Design and Development (IDD) Portfolio Credits: 1
• EDIT 701 - Advanced Instructional Design and Development (IDD) Portfolio Credits: 1

Electives

Choose seven credits from any EDIT courses.

Total: 30 credits

▲Concentration in Instructional Design and Development Immersion (IMDD)

Course Work

Prerequisites (6 credits)

• EDIT 526 - Web Accessibility and Design Credits: 3
• EDIT 705 - Instructional Design Credits: 3

Required Courses (24 credits)

• EDIT 590 - Educational Research in Technology Credits: 3
  or
• EDRS 590 - Education Research Credits: 3
• EDIT 730 - Advanced Instructional Design Credits: 3
• EDIT 732 - Analysis and Design of Technology-Based Learning Environments Credits: 3
• EDIT 752 - Design and Implementation of Technology-based Learning Environments Credits: 3
• EDIT 791 - Project Development Practicum Credits: 6
• EDIT 792 - Project Development Practicum Credits: 6

Total: 30 credits

▲Concentration in Integration of Technology in Schools (IITS)

Course Work
- EDCI 710 - Technology and the Culture of Schools Credits: 3
- EDCI 712 - Technology and Learning Credits: 3
- EDCI 714 - Methods of Integration Credits: 3
- EDCI 716 - Principles of Technology Leadership Credits: 3
- EDIT 711 - Teaching with Technology I: Telecommunications and Databases Credits: 3
- EDIT 713 - Teaching with Technology II: Graphics, TV and Video, and Simulations Credits: 3
- EDIT 715 - Teaching with Technology III: Publishing and Computational Tools Credits: 3
- EDIT 717 - Teaching with Technology IV: Hypermedia and Emerging Technologies Credits: 3
- EDIT 719 - Tools 5: Web 2.0 and Digital Video Editing Credits: 3
- EDIT 721 - Web-Based Learning Credits: 3
- EDIT 790 - Practicum in Instructional Technology Credits: 1-6 (Must register for 6 credits)

Total: 36 credits

▲Concentration in International Education FAST TRAIN ESOL (PK-12) (FTSL)

This 30-credit concentration is specifically designed for teachers and educators who are working abroad or plan on teaching overseas, or individuals living outside the Washington, DC area who want a license and master's degree in ESOL. This program has a licensure component of 24 credits and requires an additional 6 credits for completion of the MEd. Course work includes integrated fieldwork in schools and all requirements for a Virginia ESOL license PK-12. The convenient schedule enables participants to complete the program through on-campus study during two summers and online study during the academic year. On successful completion of course work and passing scores on the required exams, participants are eligible to receive a statement of eligibility from the state. After completing an internship requirement overseas (either one term of student teaching or one year of full-time teaching), candidates are eligible to apply for the ESOL PK-12 Virginia license.

Grading Policy: Students enrolled in this degree program must earn a B or higher in all course work.

Course Work

Licensure Requirements (24 credits)

- EDCI 510 - Linguistics for PreK-12 ESOL Teachers Credits: 3
- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 519 - Methods of Teaching Multilingual Students Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 Optional (Must register for 6 credits)
- EDRD 525 - Emergent Literacy for English Language Learners, PK-12 Credits: 3
- EDRD 610 - Content Literacy for English Language Learners, PK-12 Credits: 3
- EDUC 511 - Introduction to Education in International Schools Credits: 3
- EDUC 537 - Foundations of Multicultural Education Credits: 3
MEd Requirements (6 credits)

- EDCI 521 - Curriculum Development for Language Learners Credits: 3
- EDCI 777 - Research to Practice Credits: 3

Note:

All course work and tests must be finished prior to the internship. Some course work requires field experience.

Total: 30 credits

▲Concentration in International Education FAST TRAIN (Elementary) PK-6 (FTEL)

This 30-credit hour concentration is an alternative teacher licensure program that prepares educators for international teaching assignments. This program has an 18 credit licensure component and requires an additional 12 credits for completion of the MEd. The course work may be completed in the part-time evening program or during the summer five week intensive program. All course work requires 20 hours of integrated fieldwork observation and practice. On successful completion of course work and passing scores on the required exams, participants are eligible to receive a state of eligibility from the state. After completing an internship requirement overseas (either one term of student teaching or one year full-time teaching), candidates are eligible to apply for the elementary PK-6 Virginia license. In addition, this program prepares student who wish to teach in International Baccalaureate (IB) schools worldwide by integrating IB curriculum into the licensure coursework. Students completing the licensure requirements may take one additional course, EDUC 621 - Teaching and Learning in the International Baccalaureate Primary Years Program to become eligible for the IB Teacher Award Level I through the IB.

Grading Policy: Students enrolled in this degree program must earn a B or higher in all course work.

Course Work

Licensure Requirements (18 credits)

- EDUC 511 - Introduction to Education in International Schools Credits: 3
- EDUC 512 - Teaching Elementary Social Studies in International Schools Credits: 3
- EDUC 513 - Teaching Elementary Math in International Schools Credits: 3
- EDUC 514 - Teaching Elementary Science in International Schools Credits: 3
- EDUC 516 - Language Across the Elementary International School Curriculum Credits: 3
- EDUC 520 - Elementary Curriculum, Instruction, and Assessment in International Schools Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6  Optional (Must register for 6 credits)

MEd Requirements (12 credits)
Note:

All course work and tests must be finished prior to the internship. Some course work requires field experience.

ESOL Endorsement Requirements for Licensed (In-Service) Teachers

The FAST TRAIN English for Students of Other Languages (ESOL) Licensure Program (PK-12) is specifically designed for prospective teachers and educators who are working abroad or who plan on going overseas to teach and want a license in ESOL.

- EDCI 510 - Linguistics for PreK-12 ESOL Teachers Credits: 3
- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 519 - Methods of Teaching Multilingual Students Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDRD 615 - Reading/Writing for Multilingual Students Credits: 3
- EDUC 537 - Foundations of Multicultural Education Credits: 3

▲Concentration in Multilingual and Multicultural Education (CIMM)

This 30-credit concentration prepares professionals to work with diverse population of individuals. It provides courses for licensed teachers and the required courses for an add-on endorsement in English as a second language (ESL) PK-12, also known as English for speakers of other languages (ESOL). The program is appropriate for individuals who are not licensed and wish to complete a master's degree. Six credits of a foreign language (undergraduate or graduate level) are required but do not count toward the master's degree.

Course Work

- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 519 - Methods of Teaching Multilingual Students Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDCI 521 - Curriculum Development for Language Learners Credits: 3
- EDCI 777 - Research to Practice Credits: 3
- EDRD 525 - Emergent Literacy for English Language Learners, PK-12 Credits: 3
- EDRD 610 - Content Literacy for English Language Learners, PK-12 Credits: 3
- EDRS 590 - Education Research Credits: 3
- EDUC 537 - Foundations of Multicultural Education Credits: 3
- LING 520 - Introduction to Linguistics Credits: 3
  or
  Choose three credits with advisor approval

Total: 30 credits
Secondary Education (6–12)

The seven 33-credit secondary education concentrations with a licensure component are designed to meet the needs of individuals who wish to be licensed or need to satisfy the requirements of a provisional license to teach at the secondary level. Specific endorsement areas are Biology, Chemistry, Earth Science, English, History and Social Science, Mathematics, and Physics.

The Career Switcher Program is an alternative licensure route that prepares experienced professionals for licensure as secondary school teachers with endorsements in Biology, Chemistry, Earth Science, English, History and Social Science, Mathematics, and Physics. Successful applicants must have at least five years of work experience and passing scores on the Praxis I and II, and VCLA exams. In addition, they must have completed all required endorsement courses. The program consists of six months of course work and fieldwork, followed by a closely mentored year of full-time paid classroom teaching.

Grading Policy: Students enrolled in this degree program must earn a B or higher in all course work.

Field Experience

Field experiences in public schools will be required throughout the program (a maximum of 15 clock hours per course or 30 clock hours per term). Arrangements will be made at the beginning of each term.

▲ Concentration in Secondary Education Biology (SECB)

Course Work

Licensure Requirements (21 credits)

- EDCI 573 - Teaching Science in the Secondary School Credits: 3
- EDCI 673 - Advanced Methods of Teaching Science in the Secondary School Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits)
- EDRD 619 - Literacy in Content Areas Credits: 3
- EDUC 522 - Foundations of Secondary Education Credits: 3
- EDUC 672 - Human Development and Learning: Secondary Education Credits: 3

MEd Requirements (12 credits)

- EDUC 674 - Assessing Learning and Teaching in the Secondary School Classroom Credits: 3
- EDUC 675 - Research in Secondary Education Credits: 3

Electives
• Biology content elective (chosen with advisor’s approval) (3 credits)
• Education elective (chosen with advisor’s approval) (3 credits)

Total: 33 credits

▲ Concentration in Secondary Education Chemistry (SECC)

Course Work

Licensure Requirements (21 credits)

• EDCI 573 - Teaching Science in the Secondary School Credits: 3
• EDCI 673 - Advanced Methods of Teaching Science in the Secondary School Credits: 3
• EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits)
• EDRD 619 - Literacy in Content Areas Credits: 3
• EDUC 522 - Foundations of Secondary Education Credits: 3
• EDUC 672 - Human Development and Learning: Secondary Education Credits: 3

MEd Requirements (12 credits)

• EDUC 674 - Assessing Learning and Teaching in the Secondary School Classroom Credits: 3
• EDUC 675 - Research in Secondary Education Credits: 3

Electives

• Chemistry content elective (chosen with advisor’s approval) (3 credits)
• Education elective (chosen with advisor’s approval) (3 credits)

Total: 33 credits

▲ Concentration in Secondary Education Earth Science (SECS)

Course Work

Licensure Requirements (21 credits)
- EDCI 573 - Teaching Science in the Secondary School Credits: 3
- EDCI 673 - Advanced Methods of Teaching Science in the Secondary School Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits)
- EDRD 619 - Literacy in Content Areas Credits: 3
- EDUC 522 - Foundations of Secondary Education Credits: 3
- EDUC 672 - Human Development and Learning: Secondary Education Credits: 3

MEd Requirements (12 credits)

- EDUC 674 - Assessing Learning and Teaching in the Secondary School Classroom Credits: 3
- EDUC 675 - Research in Secondary Education Credits: 3

Electives

- Earth Science elective (chosen with advisor’s approval) (3 credits)
- Education elective (chosen with advisor’s approval) (3 credits)

Total: 33 credits

▲ Concentration in Secondary Education English (SECE)

Course Work

Licensure Requirements (21 credits)

- EDCI 569 - Teaching English in the Secondary School Credits: 3
- EDCI 669 - Advanced Methods of Teaching English in the Secondary School Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits)
- EDRD 619 - Literacy in Content Areas Credits: 3
- EDUC 522 - Foundations of Secondary Education Credits: 3
- EDUC 672 - Human Development and Learning: Secondary Education Credits: 3

MEd Requirements (12 credits)

- EDCI 570 - Teaching Young Adult Literacy in a Multicultural Setting Credits: 3
- EDUC 674 - Assessing Learning and Teaching in the Secondary School Classroom Credits: 3
- EDUC 675 - Research in Secondary Education Credits: 3

Electives
• Education elective, chosen with advisor’s approval (3 credits)

Total: 33 credits

▲ Concentration in Secondary Education History and Social Studies (SECH)

Course Work

Licensure Requirements (21 credits)

• EDCI 567 - Teaching Social Studies in the Secondary School Credits: 3
• EDCI 667 - Advanced Methods of Teaching Social Sciences in the Secondary School Credits: 3
• EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits)
• EDRD 619 - Literacy in Content Areas Credits: 3
• EDUC 522 - Foundations of Secondary Education Credits: 3
• EDUC 672 - Human Development and Learning: Secondary Education Credits: 3

MEd Requirements (12 credits)

• EDUC 671 - Schools and Culture in the Future Credits: 3
• EDUC 674 - Assessing Learning and Teaching in the Secondary School Classroom Credits: 3
• EDUC 675 - Research in Secondary Education Credits: 3

Electives

• History and Social Studies content elective, chosen with advisor's approval (3 credits)

Total: 33 credits

▲ Concentration in Secondary Education Mathematics (SECM)

Course Work

Licensure Requirements (21 credits)
• EDCI 572 - Teaching Mathematics in the Secondary School Credits: 3
• EDCI 672 - Advanced Methods of Teaching Mathematics in the Secondary School Credits: 3
• EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits)
• EDRD 619 - Literacy in Content Areas Credits: 3
• EDUC 522 - Foundations of Secondary Education Credits: 3
• EDUC 672 - Human Development and Learning: Secondary Education Credits: 3

MEd Requirements (12 credits)

• EDUC 674 - Assessing Learning and Teaching in the Secondary School Classroom Credits: 3
• EDUC 675 - Research in Secondary Education Credits: 3

Electives

• Mathematics content elective, chosen with advisor’s approval (3 credits)
• Education elective, chosen with advisor’s approval (3 credit)

Total: 33 credits

▲ Concentration in Secondary Education Physics (SECP)

Course Work

Licensure Requirements (21 credits)

• EDCI 573 - Teaching Science in the Secondary School Credits: 3
• EDCI 673 - Advanced Methods of Teaching Science in the Secondary School Credits: 3
• EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits)
• EDRD 619 - Literacy in Content Areas Credits: 3
• EDUC 522 - Foundations of Secondary Education Credits: 3
• EDUC 672 - Human Development and Learning: Secondary Education Credits: 3

MEd Requirements (12 credits)

• EDUC 674 - Assessing Learning and Teaching in the Secondary School Classroom Credits: 3
• EDUC 675 - Research in Secondary Education Credits: 3

Electives
• Physics content elective, chosen with advisor’s approval (3 credits)
• Education elective, chosen with advisor’s approval (3 credits)

Internship Options

A 6-credit 15-week daytime internship (EDCI 790) is required for completion of the state-approved licensure program. Three options are available to meet the needs of most individuals:

• **Professional Development School (PDS) internship:** A one-term daytime internship as a PDS intern in a school identified by secondary faculty members

• **Student teaching internship:** A one-term daytime internship in the classroom of a cooperating teacher. Intern assumes co teaching and independent teaching responsibilities.

• **On-the-job internship:** Available only to students who are employed as full-time provisionally licensed teachers and teaching in their endorsement area in an accredited middle or secondary school and want to complete a master’s degree. In lieu of an internship, provisionally licensed teachers may choose to use their full-time teaching to satisfy the experience requirement for a full license; however, the 33-credit master’s degree requires that 6 credits of approved course work be substituted for the internship.

Total: 33 credits

Education Leadership, MEd

**Banner Code:** E1-MED-EDLE

This 30-credit master’s degree (24-credit licensure component and 6 additional credits) prepares candidates for leadership and management positions in a variety of educational settings. The program emphasizes an understanding of the complexities of change in schools, communities, and organizations. Participants are expected to develop and demonstrate the knowledge, skills, and dispositions necessary to create and maintain learning environments that value diversity, continual knowledge acquisition, instructional leadership, innovative and ethical decision making, reflective practice, and successful achievement of all school-aged youth.

Participants who are admitted into the MEd in Education Leadership program who already have a master's degree and three years of teaching experience may complete only the licensure course work (24-credits) for the administration and supervision PK-12 license.

Students may also complete the MEd in Education Leadership with a concentration in one of the following: Mathematics Education Leadership (K-8), Mathematics Specialist Leader (K-8), Science Education Leadership (PK-12), or Special Education Leadership.

Course Work

Licensure Requirements (24 credits)

• EDLE 610 - Leading Schools and Communities Credits: 3
• EDLE 612 - Education Law Credits: 3
• EDLE 614 - Managing Financial and Human Resources Credits: 3
• EDLE 616 - Curriculum Development and Evaluation Credits: 3
• EDLE 618 - Supervision and Evaluation of Instruction Credits: 3
• EDLE 620 - Organizational Theory and Leadership Credits: 3
• EDLE 690 - Using Research to Lead School Improvement Credits: 3
• EDLE 791 - Internship in Educational Leadership Credits: 3

Internship

The internship is integral to the Education Leadership degree and provides an opportunity to synthesize and apply the knowledge and practice the skills identified in the Educational Leadership Constituency Consortium Standards through substantial, sustained work in educational settings.

Prerequisites

All licensure course work listed above

MEd Requirements (6 credits)

• EDLE 634 - Contemporary Issues in Education Leadership Credits: 3
• EDLE 636 - Adult Motivation and Conflict Management in Education Settings: A Case Study Approach Credits: 3

Total: 30 credits

▲Concentration in Mathematics Education Leadership (K-8) (EDML)

This 33-credit concentration in Mathematics Education Leadership (K-8) prepares individuals for master teacher, lead teacher, or school-wide leadership positions in elementary or middle school mathematics. Course work included study or experiences in educational leadership, mathematics teaching and learning, instructional technology, and curriculum development. Program participants study and use research that has significant positive effects on professional development and teaching and learning mathematics. Program experiences prepare students to select, develop, and implement school-based curricula and teaching and learning materials, as well as in-service and professional development programs for teachers. The internship in an individual experience designed and developed in consultation with a faculty advisor or mentor.

Course Work

• EDCI 644 - Mathematics Learning and Assessment (K-8) Credits: 3
• EDCI 645 - Curriculum Development in Mathematics Education Credits: 3
• EDCI 646 - Mathematics Education Leadership for School Change Credits: 1-3 (Must register for 3 credits)
• EDCI 663 - Research in Science Teaching Credits: 3
• EDCI 666 - Research in Mathematics Teaching Credits: 3
• EDCI 705 - Instructional Design Credits: 3
• EDIT 704 - Instructional Technology Foundations and Theories of Learning Credits: 3
• EDLE 618 - Supervision and Evaluation of Instruction Credits: 3
• EDLE 791 - Internship in Educational Leadership Credits: 3

Electives

• Mathematics Elective (3 credits)
• Technology Elective (3 credits)

Total: 33 credits

▲ Concentration in Mathematics Specialist Leader (K–8) (MSLR)

This 33-credit Mathematics Specialist Leader (K-8) concentration is designed for working professionals. Students study mathematics content and pedagogy, teaching, curriculum and professional development. They also explore school-based leadership issues in mathematics education. The internship is an individual experience designed and developed in consultation with a faculty advisor or mentor. This program includes all course work required for Virginia state licensure as a K-8 mathematics specialist. Students who apply for this licensure must have three years of successful teaching experience in addition to the MEd degree.

Course Work

• EDCI 644 - Mathematics Learning and Assessment (K-8) Credits: 3
• EDCI 645 - Curriculum Development in Mathematics Education Credits: 3
• EDCI 646 - Mathematics Education Leadership for School Change Credits: 1-3 (Must register for 3 credits)
• EDCI 666 - Research in Mathematics Teaching Credits: 3
• EDLE 618 - Supervision and Evaluation of Instruction Credits: 3
• EDLE 791 - Internship in Educational Leadership Credits: 3
• MATH 610 - Number Systems and Number Theory for K-8 Teachers Credits: 3
• MATH 611 - Geometry and Measurement for K-8 Teachers Credits: 3
• MATH 612 - Probability and Statistics for K-8 Teachers Credits: 3
• MATH 613 - Algebra and Functions for K-8 Teachers Credits: 3
• MATH 614 - Rational Numbers and Proportional Reasoning for K-8 Teachers Credits: 3

Total: 33 credits

▲ Concentration in Science Education Leadership (PK-12) (EDSL)

This 30-credit concentration in Science Education Leadership (PK-12) focuses on education leadership and science teaching and learning. Students study the changing nature of science, science teaching, assessment, curriculum, technology, safety, and meeting the diverse needs of learners. Students also develop skills in science teaching and learning, data-driven decision making, systematic and continual improvement, and leading dynamic organizations. Internship experiences include working with a practicing scientist in a research setting and interacting with school leaders at the state and local levels who directly and indirectly
influence science education. This program includes all course work required for Virginia licensure in administration and supervision (PK-12). This concentration is designed for those persons who have taught for three years and are seeking a master's degree. They will receive their Virginia administrative license and M.Ed in Education Leadership after they have completed the required coursework, and pass the administrative licensure exam that meets Virginia requirements. This is not an initial teacher licensure program.

Course Work

- EDCI 663 - Research in Science Teaching Credits: 3
- EDCI 666 - Research in Mathematics Teaching Credits: 3
- EDCI 683 - Curriculum Development and Evaluation in Science Education Credits: 3
- EDCI 693 - Leadership and Organizational Issues in Science Education Credits: 3
- EDLE 612 - Education Law Credits: 3
- EDLE 614 - Managing Financial and Human Resources Credits: 3
- EDLE 618 - Supervision and Evaluation of Instruction Credits: 3
- EDLE 620 - Organizational Theory and Leadership Credits: 3
- EDLE 791 - Internship in Educational Leadership Credits: 3

Electives

- Technology Elective (3 credits)

Total: 30 credits

▲Concentration in Special Education Leadership (SELE)

This 30-credit Special Education Leadership concentration (24-credit licensure component and 6 additional credits) is designed to provide training for educators who administer program implementation efforts for learners with exceptional needs. It is appropriate for those who have an interest in becoming special education directors, program coordinators, school building administrators, department chairs, or lead teachers; however, opportunities beyond special education also exist.

Participants who are admitted into the MEd in Education Leadership program who already have a master’s degree and three years of teaching experience may complete only the licensure course work (24-credits) for the administration and supervision PK-12 license.

Licensure Requirements (24 credits)

- EDLE 610 - Leading Schools and Communities Credits: 3
- EDLE 612 - Education Law Credits: 3
- EDLE 618 - Supervision and Evaluation of Instruction Credits: 3
- EDLE 791 - Internship in Educational Leadership Credits: 3
- EDSE 626 - The Inclusive Classroom Credits: 3
- EDLE 690 - Using Research to Lead School Improvement Credits: 3
- EDSE 702 - Managing Resources for Special Education Programs Credits: 3
- EDSE 743 - Leadership in Special Education Administration Credits: 3
MEd Requirements (6 credits)

- EDSE 701 - Legal Issues and Special Populations Credits: 3
  or
- EDSE 703 - Creating a Collaborative Culture Credits: 3
- EDSE 744 - Current Issues in Special Education Credits: 3

Total: 30 credits

Educational Psychology, MS

**Banner Code: E1-MS-EDP**

This 30-credit master's program is designed to offer professionals and students the opportunity to apply principles of learning, cognition, and motivation to vital problems in the area of education; develop a solid understanding of research, assessment, and evaluation methodologies; and develop an analytical and scholarly approach to critically assessing theoretical perspectives, research, and practice within and across content domains. By participating in a supportive and collegial environment with faculty from numerous educational disciplines and expertise, students are expected to develop the skills to meet the needs of diverse populations and design and implement effective educational programs appropriate for a broad range of cultural contexts.

▲ Concentration in Assessment, Evaluation, and Testing (EDPA)

Course Work

- EDRS 630 - Educational Assessment Credits: 3
- EDEP 798 - Directed Reading, Research, and Individual Projects in Educational Psychology Credits: 3
  or

New Professional Studies, MA

Banner Code: E1-MA-NPST

This 30-credit hour master's degree engages teachers to improve their approach to a wide range of issues connected to the craft of teaching and learning for Pre-K-12 children. Graduate course work is linked to school-based issues for teachers. Class days are designed to complement a teacher's schedule during the summer and school year. Specific information is available from the Initiatives in Educational Transformation (IET) web site, gse.gmu.edu/iet, or calling 703-993-8320.

▲ Concentration in Teaching (PSTT)

Course Work

- EDUC 597 - Special Topics in Education Credits: 1-6 (Must register for 3 credits)
- IETT 750 - Studies in Language and Culture I Credits: 3
- IETT 751 - Studies in Language and Culture II Credits: 3
- IETT 752 - Research in Practice: The Team Project Credits: 6
- IETT 753 - Teaching and Learning Credits: 3
- MNPE 700 - The New Professionalism: Theory and Practice Credits: 3
- MNPE 702 - The New Professional as a Reflective Practitioner Credits: 3
- MNPE 703 - Technology and Learning in the New Professions Credits: 3
- MNPE 704 - Research Methodologies in the New Professionalism Credits: 3

Special Education, MEd

Banner Code: E1-MED-EDSE

This 30-credit program leads to a master's degree for professionals who already hold a special education teacher license or are interested in working in a special education context outside the classroom. Students may also earn a master’s degree by completing initial licensure course work in conjunction with master's degree core courses.

Students who wish to focus their program on a specific area in the field are advised to consider completing a licensure or non-licensure certificate program in conjunction with the MEd. Students may use their certificate coursework to fulfill the elective credits for the MEd degree program.

Course Work
MEd Requirements (17 credits)

- EDSE 501 - Introduction to Special Education Credits: 3
- EDSE 503 - Language Development and Reading Credits: 3
  or
- EDSE 557 - Foundations of Language and Literacy for Diverse Learners Credits: 3
- EDSE 517 - Computer Applications for Special Populations Credits: 3
- EDSE 590 - Special Education Research Credits: 3
- EDSE 662 - Consultation and Collaboration Credits: 3
- EDSE 791 - Midpoint Portfolio Credits: 1
- EDSE 792 - Final Portfolio Credits: 1

Note:

EDSE 782 - Comprehensive Topics in Special Education: Trends and Issues may be substituted for EDSE 791 and EDSE 792 for students seeking the MEd in Special Education without licensure. Student's seeking licensure in conjunction with the MEd in Special Education must complete EDSE 791 and EDSE 792.

Electives (13 credits)

- Choose 13 credits from graduate EDSE-prefix courses

Total: 30 credits

▲Concentration in Early Childhood Special Education (Non-licensure) (SPEC)

This 30-credit concentration is for professionals who already hold an early childhood special education teacher license or are interested in working in an early childhood special education context outside the classroom. Students who wish to seek early childhood education licensure are advised to consider completing the Early Childhood Special Education Licensure certificate program in conjunction with the MEd. Students may use their certificate coursework to fulfill the elective credits for the MEd degree program.

Course Work (18 credits)

- EDSE 505 - Introduction to Early Childhood Special Education Credits: 3
- EDSE 557 - Foundations of Language and Literacy for Diverse Learners Credits: 3
- EDSE 517 - Computer Applications for Special Populations Credits: 3
- EDSE 590 - Special Education Research Credits: 3
• EDSE 665 - Families of Children with Special Needs Credits: 3
• EDUT 781 - Frameworks for Unified, Transformative Early Care and Education Credits: 3

Note:

A professional portfolio is required. The portfolio reflects the student's professional development throughout the program and contains examples of performance assessments associated with standards.

Electives (12 credits)

• Choose 12 credits from graduate EDSE- or EDUT-prefix courses

Total: 30 credits

Master's Level Certificate

Applied Behavior Analysis Graduate Certificate

Banner Code: E1-CERG-ABAC

This 15-credit non-licensure certificate is designed to increase the professional training of individuals responsible for designing, implementing, and monitoring behavioral treatment programs in schools, agencies (such as psychiatric hospitals), and training centers for people with severe disabilities.

Course Work

• EDSE 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy Credits: 3
• EDSE 621 - Applied Behavior Analysis: Empirical Bases Credits: 3
• EDSE 623 - Applied Behavior Analysis: Assessments and Interventions Credits: 3
• EDSE 624 - Applied Behavior Analysis: Applications Credits: 3
• EDSE 625 - Applied Behavior Analysis: Verbal Behavior Credits: 3

Note

EDSE 790 - Internship in Special Education may be taken to meet the Behavior Analysis Certification Board (BACB) supervised practicum requirements.

Total: 15 credits
Assistive Technology Graduate Certificate

Banner Code: E1-CERG-IAST

This 15-credit certificate provides supplemental training for practitioners, families, and caregivers who use assistive technology while working with people with disabilities. The certificate is appropriate for general and special educators, related service personnel, adult service providers, and families and caregivers who need to apply assistive technology solutions within their specific discipline or school, work, home, or community setting.

Course Work

- EDSE 510 - Introduction to Assistive Technology Credits: 3
  or
- EDIT 510 - Introduction to Assistive Technology Credits: 3
- EDSE 610 - Designing Adaptive Environments Credits: 2

Electives

Choose 10 credits from the following:

- EDIT 522 - Assistive Technology for Individuals with Sensory Impairments Credits: 2-3
- EDIT 523 - Accessibility/Input Modification Credits: 1-3
  or
- EDSE 523 - Accessibility/Input Modification Credits: 1-3
- EDIT 524 - Assistive Technology for Individuals with Learning Disabilities Credits: 2
  or
- EDSE 524 - Assistive Technology for Individuals with Learning Disabilities Credits: 2
- EDIT 525 - Software for Individuals with Special Needs Credits: 1-2
  or
- EDSE 525 - Software for Individuals with Special Needs Credits: 1-2
- EDIT 526 - Web Accessibility and Design Credits: 3
  or
- EDSE 526 - Web Accessibility and Design Credits: 3
- EDIT 529 - Internet as an Assistive Technology Tool Credits: 2
  or
- EDSE 529 - Internet as an Assistive Technology Tool Credits: 2
- EDIT 797 - Advanced Topics in Education Credits: 1-6
- EDSE 527 - Adapted Sports, Recreation, and Leisure Credits: 1
- EDSE 528 - Low-Tech Assistive Technology Solutions Credits: 1
- EDSE 534 - Communication and Severe Disabilities Credits: 3
- EDSE 622 - Augmentative Communication Credits: 2
- EDUC 600 - Workshop in Education Credits: 1-6

Assistive Technology elective courses are offered for variable credit each semester. Select 10 credits to meet the elective requirement.
Total: 15 credits

ASTL: Art Education Graduate Certificate

Banner Code:  E1-CERG-AART

The 21 or 22 credit art education certificate is designed for art teachers with current licensure in art PK–12. It consists of seven required courses that address contemporary professional development content areas in art education.

Course Work

- AVT 605 - Issues and Research in Art Education Credits: 3
- AVT 606 - Creativity and Cognition in the Arts and Media Credits: 3
- AVT 615 - Technology for Art Teachers Credits: 3
- AVT 667 - Two-Dimensional Art Making: Form, Theme, and Context Credits: 3
- AVT 694 - Advanced Studies in Teaching Critical Response to Art, PK-12 Credits: 3
- AVT 697 - Advanced Strategies and Curricular Innovations in the Visual Arts Credits: 3

Studio Course

Choose one studio course from the following:

- AVT 668 - Three-Dimensional Art Making across Cultures Credits: 3
- AVT 669 - Four Dimensional Art Making: Technology and New Media Credits: 4

Note:

AVT 615 is a required 3-credit studio course. Qualified students who test out of this course should choose one of the above three-credit studio courses.

Total: 21 or 22 credits

ASTL: Early Childhood Education Graduate Certificate

Banner Code:  E1-CERG-AECE

This 18-credit certificate is designed for early childhood professionals who work in various roles with young children and their families. It focuses on the practice and study of early childhood education and is based on the early childhood generalist standards of the National Board for Professional Teaching Standards.
Course Work

- EDCI 603 - Trends, Issues, and Research in Early Childhood Education Credits: 3
- EDCI 615 - Advanced Human Development Credits: 3
- EDCI 784 - Capstone Seminar in Early Childhood Education Credits: 3

Electives

Choose nine credits from the following:

- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 601 - Applied Study of Communicative Competence and Classroom Discourse Credits: 3
- EDCI 613 - Curriculum and Assessment in Early Childhood Education I Credits: 3
- EDCI 614 - Curriculum and Assessment in Early Childhood Education II Credits: 3
- EDCI 616 - The Creative Arts and Play in Early Childhood Education Credits: 3
- EDRD 630 - Advanced Literacy Foundations and Instruction, Birth to Middle Childhood Credits: 3
- EDSE 556 - Developing Language, Literacy, and Communication in Young Children Credits: 3
- EDSE 557 - Foundations of Language and Literacy for Diverse Learners Credits: 3
- EDSE 656 - Assessment of Diverse Young Learners Credits: 3
- EDSE 667 - Cognitive Development of Diverse Young Children Credits: 3

Total: 18 credits

ASTL: Foreign Language French Graduate Certificate

Banner Code: E1-CERG-AFLF

This 18-credit certificate is for practicing teachers who wish to deepen their expertise in French and augment their teacher development through course work in advanced pedagogy that is aligned with the propositions of the National Board for Professional Teaching Standards.

Course Work

Literature

Choose six credits from the following:

- FREN 515 - Medieval French Literature Credits: 3
- FREN 517 - Studies in Seventeenth-Century Literature Credits: 3
- FREN 518 - Studies in Eighteenth-Century Literature Credits: 3
- FREN 519 - Studies in Nineteenth-Century Literature Credits: 3
- FREN 525 - Studies in Modern French Literature Credits: 3
• FREN 550 - Special Topics Credits: 3

Note:

Courses may be substituted with advisor-approved literature-related electives in French.

Language and Linguistics

Choose six credits from the following:

• FREN 560 - History of the French Language Credits: 3
• FREN 575 - Grammatical Analysis Credits: 3
• FREN 576 - Advanced Translation Credits: 3

Note:

Courses may be substituted with advisor-approved language- and linguistics-related electives.

Electives

Choose six credits from the following:

• FREN 580 - Contemporary French Society and Culture Credits: 3
• FRLN 510 - Bibliography and Research in Foreign Languages and Literature Credits: 3
• FRLN 525 - Literary Translation Credits: 3
• FRLN 550 - Special Topics Credits: 3
• FRLN 565 - Theory of Translation Credits: 3
• FRLN 572 - Integrating Technology into Language Learning Credits: 3
• FRLN 573 - Basic Issues in Language Pedagogy Credits: 3
• FRLN 590 - Internship and Seminar in Translation Credits: 3
• FRLN 620 - Literary Theory and Criticism Credits: 3
• FRLN 660 - Approaches to the Study of Language Credits: 3
• FRLN 670 - Foreign Language Learning and Teaching Credits: 3

Note:

Courses may be substituted with advisor-approved language- and literature-related electives.

Total: 18 credits

ASTL: Foreign Language Spanish Graduate Certificate
This 18-credit certificate is for practicing teachers who wish to deepen their expertise in Spanish and augment their teacher development through course work in advanced pedagogy that is aligned with the propositions of the National Board for Professional Teaching Standards.

Course Work

- SPAN 502 - Hispanic Sociolinguistics Credits: 3
- SPAN 505 - Applied Spanish Stylistics Credits: 3
- SPAN 510 - Introduction to the Graduate Study of Literature in Spanish Credits: 3

Choose 9 credits from the following:

- FRLN 510 - Bibliography and Research in Foreign Languages and Literature Credits: 3
- FRLN 525 - Literary Translation Credits: 3
- FRLN 550 - Special Topics Credits: 3
- FRLN 565 - Theory of Translation Credits: 3
- FRLN 572 - Integrating Technology into Language Learning Credits: 3
- FRLN 573 - Basic Issues in Language Pedagogy Credits: 3
- FRLN 590 - Internship and Seminar in Translation Credits: 3

Course Work

- GGS 520 - Geography for Teachers Credits: 3
- HIST 510 - Approaches to Modern World History Credits: 3
- HIST 601 - Themes in U.S. History I Credits: 3
- HIST 602 - Themes in U.S. History II Credits: 3
- HIST 605 - Themes in European History I Credits: 3
- HIST 695 - History Symposium Credits: 1-3 (take for 3 credits)

Note

Courses may be substituted with advisor-approved history electives.

Total: 18 credits

ASTL: Literacy: PK-12 Classroom Teachers Graduate Certificate

Banner Code: E1-CERG-AP12
This 18-credit certificate includes three required literacy courses and three approved electives in ESOL, special education, psychology, secondary and elementary education, early childhood, writing, and other areas. Teachers (PK-12) in any discipline will learn about theory and strategies in literacy and reading.

**Course Work**

- EDRD 630 - Advanced Literacy Foundations and Instruction, Birth to Middle Childhood Credits: 3
- EDRD 631 - Advanced Literacy Foundations and Instruction, Adolescence through Adulthood Credits: 3
- EDRD 632 - Literacy Assessments and Interventions for Groups Credits: 3

**Electives**

Choose four courses from the following:

- EDCI 520 - Assessment of Language Learners Credits: 3
- EDRD 615 - Reading/Writing for Multilingual Students Credits: 3
- EDRD 633 - Literacy Assessments and Interventions for Individuals Credits: 3
- EDRD 637 - Supervised Literacy Practicum Credits: 2-3
- EDSE 662 - Consultation and Collaboration Credits: 3
- EDSE 627 - Assessment Credits: 3

Note: Other electives are available and may be taken with the approval of the student's advisor.

**Total: 20-21 credits**

**ASTL: Literacy: Reading Specialist Graduate Certificate**

**Banner Code: E1-CERG-ALRS**

This 21-credit certificate, a state-approved (Virginia) sequence of courses leading to reading specialist licensure, is designed for teachers who have a master’s degree. Course work includes foundational knowledge, instructional and assessment strategies for individuals and groups, and preparation as a literacy coach and staff developer. Licensure also requires a master’s degree, passing the Virginia Reading Assessment, and three years of teaching under contract.

**Course Work**

- EDRD 630 - Advanced Literacy Foundations and Instruction, Birth to Middle Childhood Credits: 3
- EDRD 631 - Advanced Literacy Foundations and Instruction, Adolescence through Adulthood Credits: 3
- EDRD 632 - Literacy Assessments and Interventions for Groups Credits: 3
- EDRD 633 - Literacy Assessments and Interventions for Individuals Credits: 3
- EDRD 634 - School-Based Leadership in Literacy Credits: 3
- EDRD 635 - School-Based Inquiry in Literacy Credits: 3
- EDRD 637 - Supervised Literacy Practicum Credits: 2-3 (must register for 3 credits)
Total: 21 credits

ASTL: Mathematics (Middle/Secondary) Graduate Certificate

Banner Code: E1-CERG-AMTH

This 18-credit certificate provides advanced professional development in mathematics teaching and learning for practicing middle or high school mathematics teachers. Students pursue either Middle Education, Grades 6–8, or Secondary Education, Grades 9–12, course work dependent on their current teaching assignment.

Course Work

Middle Education, Grades 6–8

- EDCI 597 - Special Topics in Education Credits: 1-6 (Must register for 3 credits)
- MATH 601 - Analysis I for Teachers Credits: 3
- MATH 604 - Geometry for Teachers Credits: 3
- MATH 605 - Discrete/Finite Mathematics for Teachers Credits: 3
- MATH 607 - Algebraic Structure for Teachers Credits: 3
- MATH 608 - Problem Solving in Mathematics Credits: 3

Total: 18 credits

Secondary Education, Grades 9–12

- EDCI 597 - Special Topics in Education Credits: 1-6 (Must register for 3 credits)
- MATH 601 - Analysis I for Teachers Credits: 3
- MATH 602 - Analysis II for Teachers Credits: 3
- MATH 604 - Geometry for Teachers Credits: 3
- MATH 605 - Discrete/Finite Mathematics for Teachers Credits: 3
- MATH 607 - Algebraic Structure for Teachers Credits: 3

Total: 18 credits

ASTL: Physical Education Graduate Certificate
This 18-credit certificate program is designed for professionals who are interested in enhancing and promoting teacher knowledge, abilities, and status as educators and professional leaders in physical education.

Course Work

- EFHP 623 - Research Design and Statistical Reasoning Credits: 3
- PHED 670 - Analysis of Teaching in Physical Education Credits: 3
- PHED 672 - Curriculum and Assessment in Physical Education Credits: 3
- PHED 673 - Motor Development for Special Populations Credits: 3
- PHED 680 - Mentoring and Supervising in Physical Education Credits: 3

Electives

Choose one course from the following:

- DANC 553 - Teaching Creative Movement Credits: 3
- DANC 580 - Laban Movement Analysis Credits: 3
- EDIT 705 - Instructional Design Credits: 3
  or
- EDCI 705 - Instructional Design Credits: 3
- EDLE 610 - Leading Schools and Communities Credits: 3
- EDUC 539 - Human Development and Learning PK-12 Credits: 3
- EDUC 672 - Human Development and Learning: Secondary Education Credits: 3
- EFHP 606 - Foundations of Exercise, Fitness, and Health Promotion Credits: 3
- EFHP 610 - Advanced Exercise Physiology Credits: 3
- EFHP 611 - Fitness Assessment: Theory and Practice Credits: 3
- EFHP 614 - Advanced Exercise Nutrition Credits: 3
- EFHP 618 - Exercise and Sport Psychology Credits: 3

Note:

An alternative elective may be chosen with advisor approval

Total: 18 credits

ASTL: Science Graduate Certificate

Banner Code: E1-CERG-ASCI
This 18-credit certificate provides course work in the area of science related to the Virginia Standards of Learning. Students are prepared to be lead teachers on either of two levels: K–6 or 6–12.

Course Work

- EDCI 663 - Research in Science Teaching Credits: 3
- EDCI 683 - Curriculum Development and Evaluation in Science Education Credits: 3
- EDCI 693 - Leadership and Organizational Issues in Science Education Credits: 3
- EDLE 791 - Internship in Educational Leadership Credits: 3

Electives

Choose six credits of science course work relevant to school-level, with advisor approval

Total: 18 credits

ASTL: Teacher Leadership Graduate Certificate

Banner Code: E1-CERG-ATL

This 18-credit certificate provides practicing teachers with course work in educational leadership that can be applied in their school settings.

Course Work

- EDLE 610 - Leading Schools and Communities Credits: 3
- EDLE 612 - Education Law Credits: 3
- EDLE 618 - Supervision and Evaluation of Instruction Credits: 3
- EDLE 620 - Organizational Theory and Leadership Credits: 3
- EDUC 597 - Special Topics in Education Credits: 1-6 (Must register for 3 credits)
- EDUC 598 - Directed Reading, Research, and Individual Projects Credits: 1-6 (Must register for 3 credits)

Total: 18 credits

Counseling Licensure Post-Master's Graduate Certificate

Banner Code: E1-CERG-PCLC
This 15-credit certificate is designed for individuals who possess a master's degree in counseling or a highly-related field (e.g. clinical psychology) and seek 15 credits of post-graduate coursework to meet licensure requirements as a Virginia School Counselor or Virginia Licensed Professional Counselor. Applicants with master's degrees outside of counseling, must verify course equivalency with the Virginia Board of Counseling (see Board of Counseling content area list at http://www.dhp.state.va.us/counseling/) or the Virginia Department of Education (http://www.doe.virginia.gov/teaching/licensure/index.shtml) prior to applying. Applicants with more than seven courses to take to meet the course content requirements for licensure, must apply to one of our master’s degree programs.

Once accepted to this certificate program, students work with the Virginia Board of Counseling or Virginia Department of Education to review their transcripts and determine what courses they will need to receive licensure. Once this is determined, students will work with an assigned advisor to finalize course selections.

Course Work

Virginia School Counselor

Choose 15 credits from the following:

- EDCD 606 - Counseling Children and Adolescents Credits: 4
- EDCD 611 - Introduction to Ethical and Legal Issues in School Counseling Credits: 2
- EDCD 626 - Principles and Practices of School Counseling Credits: 3
- EDCD 755 - Practicum in Counseling Credits: 3
- EDCD 791 - Internship in Counseling Credits: 3
- EDCD 797 - Advanced Topics in Education Credits: 1-6

Students individually tailor their coursework with an advisor to meet licensure requirements. EDCD 791 Internship in Counseling is offered for variable credit each semester. Register for the number of credits needed to meet the 15 credit hour requirement.

Total: 15 credits

Licensed Professional Counselor

Choose 15 credits from the following:

- EDCD 609 - Advanced Counseling Skills and Strategies Credits: 4
- EDCD 652 - Introduction to Substance Abuse Counseling Credits: 3
- EDCD 654 - Counseling, Ethics, and Consultation in Community Agencies Credits: 3
- EDCD 656 - Diagnosis and Treatment Planning for Mental Health Professionals Credits: 3
- EDCD 658 - Couples and Family Counseling Credits: 3
- EDCD 755 - Practicum in Counseling Credits: 3
• EDCD 791 - Internship in Counseling Credits: 3
• EDCD 797 - Advanced Topics in Education Credits: 1-6

Students individually tailor their coursework with an advisor to meet licensure requirements. EDCD 791 Internship in Counseling is offered for variable credit each semester. Register for the number of credits needed to meet the 15 credit hour requirement.

Total: 15 credits

E-Learning Graduate Certificate

Banner Code: E1-CERG-ELRN

This 15-credit certificate provides professionals with the specialized knowledge and skills needed to apply today’s Internet and web-based technologies to educational and training goals within school, community, and corporate settings. Required courses for the E-Learning Graduate Certificate are available online to meet the needs of students who find it difficult to attend our face-to-face courses.

Course Work

• EDIT 526 - Web Accessibility and Design Credits: 3
• EDIT 611 - Innovations in Distance Learning Credits: 3
• EDIT 705 - Instructional Design Credits: 3

Electives

E-Learning elective courses are offered for variable credit each semester and cover industry-standard commercial and open source software tools.

Select 6 credits from the following:

• EDIT 530 - Scripting and Programming Credits: 2
• EDIT 571 - Tools for Visual/Graphic Design Credits: 1-3
• EDIT 572 - Tools for Digital Video and Audio Credits: 1-3
• EDIT 573 - Project Management Tools Credits: 1-3
• EDIT 574 - Networking Tools Credits: 1-3
• EDIT 575 - Authoring Tools Credits: 1-3
• EDIT 771 - Introduction to Multimedia/Hypermedia Credits: 1-3
• EDIT 772 - Web-Based Instructional Tools Credits: 1-3

Total: 15 credits
Early Childhood Education (PK-3 Licensure) Graduate Certificate

Banner Code: E1-CERG-EPK3

This 30-credit hour certificate offers required coursework for teacher licensure in Early Childhood Education PK-3 to be completed with 15 to 30 credits based on the number of equivalent courses completed prior to enrollment.

Course Work

- EDUT 511 - Developmental Pathways of Diverse Learners, Birth-Adolescence Credits: 3
- EDUT 513 - Foundations of Language and Literacy for Diverse Young Learners Credits: 3
- EDUT 514 - Curriculum and Instruction for Diverse Young Learners Credits: 3
- EDUT 515 - Families, Communities, and Schools Credits: 3
- EDUT 516 - Assessment of Diverse Young Learners Credits: 3
- EDUT 613 - Language and Literacy Assessment and Instruction for Diverse Young Learners Credits: 3
- EDUT 614 - Curriculum Across the Content Areas for Diverse Young Learners Credits: 3
- EDUT 615 - Mathematics and Science for Diverse Young Learners Credits: 3
- EDUT 790 - Internship in Early Childhood Education Credits: 1-6
  (Two internship experiences required. Register for 3 credits of preschool internship; register for 3 credits of K-3 internship.)

Portfolio Requirement

A professional portfolio is required. The portfolio reflects the student's professional development throughout the program and contains examples of performance assessments associated with standards.

Total: 30 credits

Early Childhood Special Education Licensure Graduate Certificate

Banner Code: E1-CERG-SPEC

This 36-credit certificate offers required coursework for teacher licensure in Early Childhood Special Education to be completed with 15 to 36 credits based on the number of equivalent courses completed prior to enrollment.

Students waiving coursework must complete a minimum of 15 credits to be eligible for the certificate.

Course Work

- EDSE 511 - Characteristics of Students with Visual Impairments Credits: 1
- EDSE 512 - Braille Code Credits: 3
- EDSE 513 - Medical and Educational Implications of Visual Impairments Credits: 3
- EDSE 514 - Orientation and Mobility for Students with Visual Impairments Credits: 2
- EDSE 518 - Curriculum and Assessment of Students with Visual Impairments Credits: 3
- EDSE 522 - Assistive Technology for Individuals with Sensory Impairments Credits: 2-3 (Must register for 2 credits)
- EDSE 532 - Positive Behavior Supports Credits: 3
- EDSE 513 - Teaching Methods for Students with Visual Impairments Credits: 3
- EDSE 616 - Braille Reading and Writing Credits: 3
- EDSE 662 - Consultation and Collaboration Credits: 3
- EDSE 790 - Internship in Special Education Credits: 1-6 (Must complete two 2-credit internships: one elementary experience; one secondary experience)
- EDSE 791 - Midpoint Portfolio Credits: 1
- EDSE 792 - Final Portfolio Credits: 1

Total: 32 credits

Doctoral Degree

Education, PhD

Banner Code: E1-PHD-EDUC

The PhD in Education is a program of advanced professional study to develop leadership in a selected field of professional education. As a program of doctoral study, it emphasizes theory and research as much as it does practice, breadth of study as
much as depth, and process as well as knowledge. It seeks to develop both knowledge and skills useful in educational roles as well as the abilities to analyze and respond to problems in their relationships to various educational concerns. Students must satisfy all requirements for doctoral degree expressed in the Academic Policies section of this catalog.

Admissions Requirements

Candidates are admitted to study by the College of Education and Human Development (CEHD); admission is highly selective. Applicants must fulfill the following admission requirements:

- A minimum of three years of successful experience as a practitioner in an educational setting
- Baccalaureate and master's (or equivalent) degrees from accredited institutions
- Demonstrate high intellectual capability
- Demonstrate leadership potential
- Three letters of recommendations
- GRE general test scores including the writing assessment

For more information, call the PhD in Education Office at 703-993-2011. Completed applications must be submitted to the CEHD Graduate Admissions Office by February 1 for summer for fall admission, or by September 1 for spring admission.

Degree Requirements

To receive a PhD in Education, students must complete a minimum of 65 credits beyond a master's degree (53 credits of coursework and 12 credits of dissertation). In addition, PhD students are required to complete three portfolios at different stages in their program. Each student must demonstrate competence in oral and written English, computer literacy mastery of knowledge and skills in the area of professional expertise, and the ability to apply general and specific knowledge and skills to significant educational problems. Doctoral students may transfer up to 12 hours of graduate credit to their program of study, if (a) the coursework was taken no more than six years prior to admittance into the PhD program, (b) the coursework was not applied to any previous degree, and (c) the coursework is deemed applicable to the student's doctoral program by the student's committee. Students may also waive 9 credits if their master's degree area of study is not the same as their doctoral specialization area.

Course Work

General Culture (8 credits)

- EDUC 800 - Ways of Knowing Credits: 3
- EDUC 802 - Leadership Seminar Credits: 3
- EDUC 805 - Research and Scholarship in Education Credits: 2

Research Methods (12 credits)

- EDRS 810 - Problems and Methods in Education Research Credits: 3
- EDRS 811 - Quantitative Methods in Educational Research Credits: 3
- EDRS 812 - Qualitative Methods in Educational Research Credits: 3
Electives

Choose one course from the following:

- EDRS 820 - Evaluation Methods for Educational Programs and Curricula Credits: 3
- EDRS 821 - Advanced Applications of Quantitative Methods Credits: 3
- EDRS 822 - Advanced Applications of Qualitative Methods Credits: 3
- EDRS 823 - Advanced Research Methods in Single Subject/Case Design Credits: 3
- EDRS 825 - Advanced Research Methods in Self-Study Credits: 3

Professional Specialization (21 credits)

Not applicable to students pursuing the Concentration in Learning Technologies Design Research.

Students select course work (including three internship credits) based on their area of specialization. Professional specializations include: counseling and development, early childhood education, education leadership, educational psychology, higher education, international education, instructional technology, literacy and reading, mathematics or science education leadership, multilingual/multicultural education, research methodology, special education, and teaching and teacher education.

Note:

Students enroll in an internship designed to broaden their professional expertise. This internship must be taken in a setting that differs from the student’s work setting.

Secondary Emphasis (12 credits)

Not applicable to students pursuing the Concentration in Learning Technologies Design Research.

Students have a number of options for developing a secondary emphasis including course work offered within CEHD and/or other Mason units. In some situations, master's degree course work may also be used to reduce secondary emphasis requirements.

Dissertation Proposal and Research (12 credits)

Once enrolled in EDUC 998, students must maintain continuous registration for at least 1 credit; once enrolled in EDUC 999, students must follow the university continuous registration policy as specified in the Academic Policies section of this catalog.

- EDUC 998 - Doctoral Dissertation Proposal Credits: 1-6 (Must register for 3 credits the first semester enrolled in EDUC 998. Students preparing their proposal must register for 1 credit each semester thereafter until the proposal has been successfully defended)
- EDUC 999 - Doctoral Dissertation Research Credits: 1-9 (Must register for 3 or 6 credits the first semester enrolled in EDUC 999. Must register for at least 1 credit thereafter until all work has been completed including the semester in which degree is received)

Total: 65 credits
Concentration in Learning Technologies Design Research (LTDR)

The PhD concentration in Learning Technologies Design Research supports the in depth study of design-based research methods to address cross disciplinary design, development, and research in such areas as innovation and creativity in the design of learning technologies, design and assessment of K-12 technology solutions and technology teacher education, technology solutions to support those with disabilities, and emerging technologies and practices. This doctoral concentration engages doctoral students in real world, integrated design and research. Doctoral candidates complete a sequence of core courses as well as choosing from one of three specialization areas: instructional systems design, integration of technology in schools, or assistive technology.

Students must complete the following curriculum to complete a PhD in Education with a concentration in Learning Technologies Design Research.

PhD Core (20 credits)

Requirements for general culture (8 credits) and research methods (12 credits) must be satisfied as described for the degree without a concentration.

Concentration Specialization (21 credits)

- EDIT 801 - Nature and Process of Design Credits: 3
- EDIT 802 - Cognition and Technology: A Multidisciplinary Approach Credits: 3
- EDIT 803 - Design-Based Research Credits: 3
- EDIT 891 - Design Research Internship Credits: 1-9 (must register for 9 credits)
- EDIT 895 - Emerging Issues in Instructional Technology Credits: 3

Concentration Secondary Emphasis (12 credits)

Choose one of the following secondary emphasis:

Assistive Technology (12 credits)

- EDCI 705 - Instructional Design Credits: 3
- EDIT 526 - Web Accessibility and Design Credits: 3
- EDSE 610 - Designing Adaptive Environments Credits: 2
- EDSE 649 - Advanced Clinical Psycho-Educational Assessment in Special Education Credits: 3

Instructional Systems Design (12 credits)
• EDIT 705 - Instructional Design Credits: 3  
• EDIT 730 - Advanced Instructional Design Credits: 3  
• EDIT 732 - Analysis and Design of Technology-Based Learning Environments Credits: 3  
• EDIT 752 - Design and Implementation of Technology-based Learning Environments Credits: 3  

Integration of Technology in Schools (12 credits)  

• EDCI 710 - Technology and the Culture of Schools Credits: 3  
• EDCI 712 - Technology and Learning Credits: 3  
• EDCI 714 - Methods of Integration Credits: 3  
• EDCI 716 - Principles of Technology Leadership Credits: 3  

Note:  
Students who have completed a master's degree in their chosen specialization may use that Master's degree to meet the specialization requirements of the Learning Technologies Design Research concentration. The Master's degree must have been awarded within the last six years prior to admission to the doctoral program.  

Total: 65 credits
The College of Health and Human Services (CHHS) comprises the School of Nursing, the Department of Global and Community Health (GCH), the Department of Health Administration and Policy (HAP), and the Department of Social Work (SOCW). The college prepares students to provide professional leadership, care, and services related to health promotion, wellness, disease prevention, and quality of life through the advancement of physical, social, and environmental health practices.

Since 1974, with the approval of its first baccalaureate nursing program, CHHS has evolved and expanded in response to the ever-changing fields of health care and social work. The college is multidisciplinary and offers degree programs and research opportunities in health administration, health policy, health information systems, health services research, nursing, public health, nutrition, global health, rehabilitation science, gerontology, and social work.

CHHS offers regular information sessions to prospective students. For dates and times, or to register for a session, visit the information sessions website or call the CHHS Office of Student Affairs at 703-993-1901.

**Administration**

Shirley Travis, Dean  
Jack Hadley, Associate Dean, Finance and Planning  
Keith Howell, Associate Dean, Research and Program Evaluation  
J. Goodlett McDaniel, Associate Dean, Business Development  
Robin Remsburg, Associate Dean and Director, School of Nursing  
Frank J. Whittington, Associate Dean, Academic Affairs  
Susan J. Swett, Assistant Dean, Student Affairs  
Mona Ternus, Assistant Dean, Academic Outreach  
Cathleen Lewandowski, Chair, Social Work  
P. J. Maddox, Chair, Health Administration and Policy  
Lisa Pawloski, Chair, Global and Community Health

**Faculty**

Faculty emeriti: Ailinger, Boyd, Brenkus, Carty, Jenkins, Johnson-Brown, Langley, Parker-Smith, Redmond, Silva, Sorrell, Walker, Wu
Professors: Gaffney, Gerber, Hadley, Howell, Kluger, Lewandowski, Maddox, Meiners, Metcalf, Milligan, Moore, Nichols, Raskin, Remsburg, Ritchie, Rose, Sluzki, Travis, Whittington, Vail

Assistant professors: Carle, Cantiello, Cartwright, Clark, Cleaveland, Freeborne, Frankenfeld, Gewa, Hahn, Ibara, Jacobsen, Kitsantas, Kodadek, Maradiegue, Miklancie, Moss, Oh, Peppard, Roberts, Smoczynski, Urban, Vandemark, Webster, Weinstein, Willis, Winter, Wojtusiak, Yang, Young, Zhou

Instructors: Almond, Campo, Cox, Davis, Dickman, Durham, Henderson, Liss, Middle, Mulqueen, Shiver, Stoehr, Toulouse, Venske, Welsh

Course Work

CHHS offers all course work designated GCH, HAP, HHS, NURS, and SOCW in the Courses chapter of this catalog.

Academic Programs

CHHS is committed to educating the next generation of health professionals, researchers, and educators. Our School of Nursing produces more new RNs each year than any other program in Virginia, and these graduates have one of the state’s highest pass rates on the nursing licensure exam. Through the PhD program in nursing, the college is helping to fill the need for nursing faculty and researchers. The Department of Health Administration and Policy prepares students for careers as leaders of health care organizations and as health policymakers at the state and national levels, while the Department of Global and Community Health trains public health practitioners with a global reach, who can intervene and improve the health of local and international populations. The Department of Social Work educates undergraduate and graduate students to be professional social workers practicing in either community organizations or clinical settings. The CHHS academic units offer a variety of specializations within degree programs, including nutrition, gerontology, rehabilitation science, epidemiology and biostatistics, forensic nursing, health technology and informatics, data security, clinical social work, and conflict analysis and resolution.

Professional Conduct Policy

All CHHS students are expected to conduct themselves professionally at all times. This means that certain behavior is prohibited, including verbal abuse, insubordination, and behavior that threatens the safety of a client, another student, faculty member, or other health care provider when the behavior occurs within the context of an academic program. CHHS reserves the right to place on probation, suspend, or dismiss any student in its programs who engages in such conduct. Students disciplined for such reasons have the right to appeal to their department chair or director.

Student Affairs

The Office of Student Affairs supports students, faculty, and staff members on a variety of admissions, academic, and policy issues. Student Affairs is involved in recruiting new students; pre-admissions advising; processing applications for graduate programs and undergraduate nursing programs; and conducting orientations for newly admitted students.

Student Affairs maintains the college’s student records; reviews and recommends action on student requests for exceptions to academic policy; processes standard academic actions; and approves student records for degree completion prior to graduation. Student grade appeals fall under university policy as described in the Academic Policies section of the catalog.

Each CHHS student is assigned an academic advisor, with whom he or she should meet at least once per semester in order to ensure that program requirements are met. The assigned advisor may be a faculty member, a departmental advisor, or an advisor in the Office of Student Affairs.
**Student Responsibility**

All students are required to have an active Mason e-mail account and to update any change of address on-line through Patriotweb. The college will not communicate with students via a personal e-mail address, so it is important that students check their Mason e-mail regularly. Students are responsible for knowing the university academic policies and the policies governing their program as stated in the university catalog. They are also responsible to know the semester academic calendar including withdrawal deadlines; to review their Mason transcript on-line to ensure transfer of credit accuracy; and to monitor their degree progression through the degree evaluation tool on Patriotweb.

**Background Checks**

Many clinical agencies and practicum sites mandate that students working there have a criminal background check. All students enrolled in the School of Nursing are required to complete a criminal background check prior to beginning the program. Students enrolled in other CHHS programs may be required to complete background checks before entering a practicum environment. Information obtained from the background check is strictly confidential but may result in a student’s inability to perform clinical or practicum activities and, therefore, will disqualify the student from entering or continuing in the program. School of Nursing students are sent information regarding the criminal background check process, and associated fees, in their admission packets. Other students are informed individually as they are considered for practicum activities requiring background checks. Students are responsible for notifying the assistant dean of student affairs of any arrests, regardless of adjudication, that occur after acceptance and during enrollment in the program. Failure to promptly notify the assistant dean of student affairs may be grounds for dismissal from the program.

**Health Records**

To comply with the regulations established by the Commonwealth of Virginia and the agencies to which students are assigned and to minimize risks to student health, every student enrolled in a CHHS program requiring clinical or practicum course work must document and submit evidence of good health and provide current immunization records to both the CHHS Office of Student Affairs and to the university’s Student Health Services at the time of admission to the college. Immunizations may be obtained through Student Health Services on any of the Mason campuses.

Students should keep copies of their health records should agencies require them for clinical and practicum assignments. All costs associated with immunizations and certifications are the student’s responsibility.

**Insurance and Liability**

Students are strongly advised to maintain health insurance coverage at all times. A student health insurance plan is available to eligible students through Mason. Students are responsible for their own health care, including emergency care, and CHHS assumes no financial responsibility for the health care of students. Enrolled students who are performing internships and similar experiential learning as a required part of their academic programs are considered agents of the university. They are covered for professional liability by the Commonwealth of Virginia Risk Management Plan while engaged in their prescribed educational duties.

**Academic Outreach**

The mission of the Office of Academic Outreach is to provide off-campus graduate coursework that supports the continued professional development and competency of practicing health professionals. This purpose is accomplished through collaborative relationships with expert health and instructional resources—individual and organizational—both internal and external to the University.

**Academic Policies**
Students should become familiar with the university's general academic policies in addition to those specific to each academic unit. Please see the Academic Policies section of this catalog.

Faculty

Emeriti: Ailinger, Boyd, Brenkus, Carty, Jenkins, Johnson-Brown, Langley, Paker-Smith, Redmond, Silva, Sorrell, Walker, Wu

Professors: Gaftney, Milligan, Moore (assistant dean, nursing research), Remsburg (associate dean/director), Travis (dean), Vail (interim assistant dean, doctoral studies)

Associate Professors: Cangelosi, Chong, Davidson, Douglas, Mahon, McDaniel (associate dean, business development), Normile, Panniers, Ternus (assistant dean, academic outreach)

Assistant Professors: Hahn (assistant dean, masters/post masters division), Koddek, Maradiegue, Miklancie, Moss, Oh, Peppard, Roberts, Smoczynski, Urban (assistant dean, undergraduate division), Vandemark, Willis, Young, Zhou

Instructors: Almond, Campo, Cox, Davis, Dickman, Durham, Liss, Middle, Mulqueen, Stoehr, Toulouse, Venzke, Welsh

The School of Nursing is a teaching/learning organization with a national and international academic reputation, grounded in sound general education. It develops and supports a diverse faculty who are visionary and competent practitioners, scholars, and researchers, excellent in teaching in academic and practice settings, and responsive to the needs of students and the community. Specifically, the Nursing programs prepare graduates to function as providers, coordinators, and managers of care and for leadership, advanced practice, and nurse scholar roles, as well as members of the nursing profession. Graduates of the School of Nursing are prepared to function as interdisciplinary health professionals and citizens who provide leadership, care, and service to the community. The School promotes health and well being through its programs and centers, engaging in scholarly activities and research with the aim of maximum health for all people.

Undergraduate Degree

Nursing, BSN

Banner Code: HH-BSN-NURS

Unit: School of Nursing

The Bachelor of Science in Nursing (BSN) Program is accredited by the Virginia State Board of Nursing and the Commission on Collegiate Nursing Education. The undergraduate nursing program prepares students to deliver superior nursing care and provide leadership in nursing in the increasingly complex and challenging field of modern health care. Graduates are in demand as professional nurses in hospitals, long-term care facilities, and community health and other health care agencies. The program emphasizes health promotion and disease prevention, capitalizing on early detection of potential health problems, health maintenance in ambulatory services, and preparation for the managerial responsibilities of nursing.
The School of Nursing offers three pathways to complete the BSN, all of which lead to completion of the objectives of the undergraduate program. The traditional pathway is a two-year curriculum following the completion of general education and prerequisite requirements. An accelerated RN-to-BSN pathway for students holding current registered nurse (RN) licenses can be completed in one year (full-time) following completion of general education and prerequisite requirements. The accelerated, second degree pathway is a 12-month, full-time pathway for students holding a baccalaureate degree outside of nursing. The nursing programs must be completed on a full-time basis.

To be admitted to the BSN program, students must complete a prenursing curriculum during their first two years and be admitted to junior standing (these conditions do not apply to student who are already RNs). Admitted students will enter the program in the fall of their junior year and at that point are considered nursing majors.

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently enrolled Mason students need only apply using the BSN Departmental Application.) Acceptance to the nursing program is contingent upon admission to the university, but admission to the university does not guarantee admission to the nursing program. Application to the BSN major is a competitive admission process. Prospective applicants are responsible to meet all BSN admission requirements at the time of application. Meeting the minimum requirements does not guarantee admission into the nursing program—it only allows an application to be considered. Students who are interested in pursuing a major in nursing are encouraged to contact the nursing program for advising prior to applying to the nursing major.

Attendance at the first meeting of all nursing courses (lectures, on-campus laboratories, and agency laboratories) is mandatory.

Writing Intensive Requirement

Mason requires all students to complete at least one 300- or 400-level "writing intensive" course as designated as their department. Students majoring in nursing fulfill this requirement by successfully completing HHS 465.

Academic Grade Standards

After admission to junior-standing and the nursing program, students who earn a grade lower than a C in a required nursing (NURS or HHS) course must repeat the course and must earn a grade of C or higher to continue progression in nursing coursework. This will alter or halt further progression in the nursing program and affect the expected graduation date. Students may repeat only one time a nursing course in which they earned a grade lower than C. Those who fail to earn a C or higher on the second attempt are dismissed from the BSN program. Earning a grade lower than C in a second nursing course results in dismissal from the nursing program.

Dismissal from any one of the nursing pathways constitutes dismissal from the undergraduate (BSN) nursing program in the School of Nursing.

Professional Conduct Policy

All students in the School of Nursing are expected to adhere to the Professional Conduct Policy of the College of Health and Human Services.

Appeal Process

Although faculty members in the nursing program are generally the best judges of a student’s professional performance, there may be times when a student believes a grade is unfair. Students in the School of Nursing wishing to appeal a grade are expected to follow the GMU guidelines for grade appeals, found in the Academic Policies section of the GMU University Catalog.

NCLEX Readiness Preparation and Testing
Throughout the BSN program, all students, with the exception of RN-to-BSN students, participate in preparation for the NCLEX-RN licensing exam through opportunities provided during nursing courses. These opportunities are included as integrated components of select courses and include practice NCLEX-style exams and content-specific testing. A final cumulative assessment exam is given toward the end of the program to provide the student with guidance about their chance for success on the licensing exam. A final course in critical thinking and test-taking strategies is required in the senior year, and remediation in select content areas may be required as a component of this course.

**Special Requirements**

Fees and expenses related to the nursing program include: skills laboratory fee, standardized testing and course materials, uniforms, stethoscope, name pin, books, CPR certification, health forms, health insurance, immunizations, and criminal background check fees. The availability of personal transportation to and from clinical agencies is required of all students. For a summary of all current fees and estimated expenses, see the School of Nursing web site.

All BSN students are required to obtain a health clearance and complete the immunizations required by GMU as listed in the Student Health Services section of the GMU catalog. In addition, the BSN program has additional health and immunization requirements to meet the requirements of its clinical agency partners. See the Undergraduate Program, School of Nursing website for the most current information. **Students are not allowed into any clinical setting without the completed immunization series as prescribed by GMU or the School of Nursing and may have an offer of admission withdrawn for inability to meet these requirements.** The School of Nursing reviews health records and reserves the right to refuse admission or continued enrollment to any student who is unable to comply with these requirements.

All students must have CPR certification before entering the first clinical nursing course and maintain it through the remainder of the program. The American Heart Association Basic Life Support - Health Care Provider is required. On-line renewal of CPR certification is not accepted. Any cost incurred is the responsibility of the student.

All students must have current health insurance before entering the first clinical nursing course and maintain it through the remainder of the program.

No student or faculty member will be discriminated against or denied admission to the nursing program for the sole reason that the student or faculty member has been exposed to, infected with, or diagnosed with HIV or HBV. All students are expected to practice Universal Precautions with all clients, and failure to do so will result in dismissal from the program. In the event that a student has a clinical experience or practicum exposure to body fluids of a client, procedures and appropriate reports are completed according to institutional and nursing policies. Information related to exposure or infection is confidential, and dissemination of such information is based on the need-to-know criteria that apply in health care situations. HIPAA and FERPA regulations apply. A complete and detailed HIV/HBV policy is available in the CHHS Office of Student Affairs.

**RN Requirements**

RN-licensed students enrolled in the RN-to-BSN pathway are required to submit a copy of their current license prior to entering the first nursing course. RN-licensed students must maintain current licensure throughout the academic program.

**Degree Requirements**

**General Education (30 credits)**

**Written Communication:**
• ENGL 101 - Composition Credits: 3
• ENGL 302 - Advanced Composition Credits: 3  
  **Note:** Non-native speakers of English with limited proficiency in the language may substitute ENGL 100 for ENGL 101. Students must attain a minimum grade of C in ENGL 100 or 101, as well as in 302, to fulfill degree requirements.

**Oral Communication:**

Choose one of the following:

• COMM 100 - Public Speaking Credits: 3
• COMM 101 - Interpersonal and Group Interaction Credits: 3

**Information Technology:**

• IT 103 - Introduction to Computing Credits: 3

**Literature:**

• An approved University General Education literature course.

**Arts:**

• An approved University General Education arts course.

**Western Civilization:**

Choose one of the following:

• HIST 100 - History of Western Civilization Credits: 3
• HIST 125 - Introduction to World History Credits: 3

**Global Understanding:**

• An approved University General Education global understanding course.  
  The recommended course is:  
  • GCH 205 - International Health Credits: 3

**Social Science:**

• PSYC 100 - Basic Concepts in Psychology Credits: 3

  Choose one of the following:
  • SOCI 101 - Introductory Sociology Credits: 3
- ANTH 114 - Introduction to Cultural Anthropology Credits: 3

Designated Nursing Prerequisites (24 credits)

Anatomy and physiology:
- BIOL 124 - Human Anatomy and Physiology Credits: 4
- BIOL 125 - Human Anatomy and Physiology Credits: 4
  BIOL 124 and 125 meet the natural science general education requirement.

Microbiology:
- BIOL 246 - Introductory Microbiology Credits: 3
- BIOL 306 - Biology of Microorganisms Laboratory Credits: 1

Ethics:
- PHIL 309 - Bioethics Credits: 3

Statistics:
- STAT 250 - Introductory Statistics I Credits: 3
  Statistics 250 fulfills the quantitative reasoning general education requirement.

Human Lifespan Development:
- PSYC 211 - Developmental Psychology Credits: 3

Nutrition:
- GCH 295 - Nutrition for Health Professionals Credits: 3

Electives (4 credits)

Students will complete 4 credits of electives.

Traditional BSN Pathway (62 credits)

To be eligible to apply for the traditional BSN program, applicants must have achieved a minimum GPA of 3.00 in the designated nursing prerequisite course work and must have earned a C or better in each course: anatomy and physiology (BIOL 124 and 125, 8 credits); microbiology (BIOL 246 and 306, 4 credits); statistics (STAT 250, 3 credits); nutrition (GCH 295, 3 credits); developmental psychology (PSYC 211, 3 credits); and ethics (PHIL 309, 3 credits).

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently enrolled Mason students need only apply using the BSN Departmental Application.) Admission to the university does not guarantee admission to the nursing program. Acceptance to the nursing program is contingent upon admission to the university. See the Undergraduate Program, School of Nursing web site for the latest information on applications and deadlines.

Application to the BSN major is a competitive admission process. Meeting the minimum requirements does not guarantee admission into the nursing program - it only allows an application to be considered in the review process.

Traditional BSN Major, Required Courses
Total: 120 credits

Concentrations: Alternative Pathways

Students who are eligible for an alternative pathway to the BSN must meet the nursing course requirements for the pathway to which they have been admitted rather than those for the traditional BSN pathway described above.

Except where noted in the concentration description, requirements for general education (30 credits), designated nursing prerequisites (24 credits) and the elective for the major (4 credits) are still required.

▲ Accelerated, Second Degree BSN Pathway (SEC): 47 credits

The Accelerated, Second Degree BSN Pathway is designed for applicants already holding a bachelor's degree who are interested in pursuing an undergraduate degree in nursing. This full-time accelerated program begins in the fall semester and is completed in 12 months.
Applicants must have a baccalaureate degree from an accredited college or university and must have earned a minimum cumulative GPA of 2.75 in their first degree or a minimum GPA 3.00 in the last 30 credits of the undergraduate degree.

Applicants to the second degree pathway must achieved a minimum GPA of 3.00 in the designated nursing prerequisite course work and must have earned a C or better in each course: anatomy and physiology (BIOL 124 and 125, 8 credits); microbiology (BIOL 246 and 306, 4 credits); statistics (STAT 250, 3 credits); nutrition (GCH 295, 3 credits); developmental psychology (PSYC 211, 3 credits); and ethics (PHIL 309, 3 credits).

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently enrolled Mason students need only apply using the BSN Departmental Application.) Admission to the university does not guarantee admission to the nursing program. Acceptance to the nursing program is contingent upon admission to the university. See the Undergraduate Program, School of Nursing web site for the latest information on applications and deadlines.

Application to the BSN major is a competitive admission process. Meeting the minimum requirements does not guarantee admission into the nursing program - it only allows an application to be considered in the review process.

Second Degree Pathway Requirements

Candidates for the degree must present at least 120 credits:

- General Education requirements: 49 credits are transferred from the first degree. Mason general education requirements are satisfied by the initial degree and fulfilled through transfer credit.
- Designated nursing prerequisites: 24 credits
- Concentration requirements: 47 credits. Specific requirements are as follows:

Second Degree Concentration, Required Courses

- NURS 305 - Application of Basic Nursing Techniques Credits: 1
- NURS 309 - Introduction to Basic Nursing Care Credits: 3
- NURS 310 - Application of Basic Nursing Care Credits: 3
- NURS 319 - Pathophysiological Basis for Nursing Care of Individuals and Small Groups Credits: 4
- NURS 334 - Nursing as a Health Profession and Discipline Credits: 3
- NURS 343 - Pharmacology Credits: 3
- NURS 350 - Application of Nursing Care for Individuals and Small Groups Credits: 5
- NURS 351 - Application of Intermediate Nursing Technologies Credits: 1
- NURS 419 - Pathophysiological Basis for Nursing Care of Individuals and Small Groups II Credits: 3
- NURS 425 - Comprehensive Health Assessment Credits: 3
- NURS 427 - Advanced Technologies for the Accelerated Pathway Credits: 1
- NURS 428 - Community Health Clinical for the Accelerated Pathway Credits: 2
- NURS 429 - Preceptorship for the Accelerated Pathway Credits: 3
- NURS 436 - Leadership and Management of Health Care Credits: 3
- NURS 440 - Community Health and Epidemiology Credits: 3
- NURS 453 - Research in Nursing Credits: 3
- HHS 465 - Examination and Integration of Professional and Health Care Issues Credits: 3

Total: 120 credits
▲ Accelerated RN-to-BSN Pathway (RN): 27 credits

The Accelerated RN-to-BSN Pathway allows RNs to progress quickly through the program through online coursework while meeting the objectives of the undergraduate curriculum. On completion of the general education requirements and designated nursing prerequisites, RN students can complete the BSN in two semesters of full-time study. The program can also be completed on a part-time basis.

RN students must satisfy all general education requirements and designated nursing prerequisites.

Application to the BSN major is a competitive admission process. Meeting the minimum requirements does not guarantee admission into the nursing program - it only allows an application to be considered in the review process.

RN-to-BSN Pathway Requirements

Candidates for the degree must present at least 120 credits. A minimum of 30 credits must be earned at Mason to fulfill requirements for graduation. These include:

- 21 credits of nursing prerequisite courses, described below;
- 27 credits specific to the concentration, described below;
- 9 credits of electives, described below;
- 33 credits designated "Credit by Exam," described below.

30 credits of general education must be completed as previously described in the general degree requirements section. Transfer credits are accepted for many general education and prerequisite courses that may have been completed at other colleges or universities by students coming in with an RN.

RN-to-BSN Pathway Prerequisites (21 credits)

- Psychology (3 credits)

  Anatomy and physiology:
  - BIOL 124 - Human Anatomy and Physiology Credits: 4
  - BIOL 125 - Human Anatomy and Physiology Credits: 4

  Microbiology:
  - BIOL 246 - Introductory Microbiology Credits: 3
  - BIOL 306 - Biology of Microorganisms Laboratory Credits: 1

  Ethics:
  - PHIL 309 - Bioethics Credits: 3

  Statistics:
  - STAT 250 - Introductory Statistics I Credits: 3

RN-to-BSN Pathway, Required Courses

- NURS 334 - Nursing as a Health Profession and Discipline Credits: 3
• NURS 425 - Comprehensive Health Assessment Credits: 3
• NURS 436 - Leadership and Management of Health Care Credits: 3
• NURS 440 - Community Health and Epidemiology Credits: 3
• NURS 453 - Research in Nursing Credits: 3
• NURS 434 - Vulnerable Populations Credits: 3
• NURS 457 - Introduction to Nursing Informatics Credits: 3
• HHS 465 - Examination and Integration of Professional and Health Care Issues Credits: 3
• 400- or 500-level nursing elective: Credits: 3

Electives (9 credits)

• No more than 3 credits of health-related electives may be used to satisfy this requirement. Courses may be selected from GCH, HAP, HHS, or SOCW. Other health-related courses may be approved on a course-by-course basis after discussion with the RN-to-BSN program coordinator.

Credit by Exam (33 credits)

On successful completion of NURS 334, RN students will be awarded 30 credits in nursing and 3 credits of nutrition.

Total: 120 credits

Dual Degree

Nursing, MSN/MBA

Banner Code: HH-MSNBA-NBA

Unit: School of Nursing

The MSN/MBA Program, offered with the School of Management (SOM), prepares nurses for mid- and top-level administrative, leadership, and health policy roles in health and health-related organizations. A variety of health care and health-related settings are used for clinical practice experiences. The program requires 58 graduate credits, including graduate nursing, business, decision sciences, and elective courses.

Applicants must have GMAT scores sent directly to Mason and must meet admission requirements for graduate degree status in both CHHS and SOM.

Degree Requirements

MSN Courses

• HAP 703 - Financial Management in Health Systems Credits: 3
• NURS 660 - Seminar in the Ethics of Health Care Credits: 3
• NURS 680 - Theoretical Foundations Related to Nursing Credits: 2
- NURS 685 - Advanced Nursing Research Methods Credits: 3
- NURS 686 - Projects in Nursing Research Credits: 2
- NURS 688 - Organization of Nursing and Health Care Delivery Systems Credits: 3
- NURS 763 - Administrative Theory in Nursing Credits: 3
- NURS 765 - Practicum in Nursing Administration I Credits: 3
- NURS 766 - Administrative Strategies in Nursing Credits: 3
- NURS 768 - Practicum in Nursing Administration II Credits: 3

MBA Courses

- MBA 603 - Managerial Economics and Decisions of the Firm Credits: 3
- MBA 612 - Managing Costs and Evaluating Performance Credits: 1.5
- MBA 613 - Financial Reporting and Decision Making Credits: 3
- MBA 623 - Marketing Management Credits: 3
- MBA 633 - Statistics for Business Decision Making Credits: 3
- MBA 638 - Operations Management Credits: 3
- MBA 643 - Managerial Finance Credits: 3
- MBA 653 - Organizational Behavior Credits: 3
- MBA 673 - Legal Environment for Management Credits: 1.5
- MBA 678 - Strategy and Organizational Leadership Credits: 3

Total: 58

Master's Degree

Nursing, MSN

Banner Code: HH-MSN-NURS

Unit: School of Nursing

The Master of Science in Nursing (MSN) Program is accredited by the Virginia State Board of Nursing and the Commission on Collegiate Nursing Education. The program prepares nurses for a variety of leadership roles in the health care delivery system. The adult, adult/gerontological, and family nurse practitioner primary care concentrations are part of a collaborative program with George Washington University School of Medicine and Health Sciences. These concentrations have been approved by the state boards of nursing and medicine in Virginia. The concentration in advanced clinical nursing prepares nurses to provide and manage care of individuals, families, and groups, including the chronically ill, the elderly, and others with self-care limitations. The concentration in nursing administration prepares nurses to function in management positions in hospitals, nursing homes, community health agencies, and other health-related facilities. The nurse educator concentration prepares graduates for faculty positions in schools of nursing, as well as nurse educator positions in hospitals and community health care agencies. The clinical nurse leader concentration prepares nurses as generalists with solid foundations in health policy and finance to provide competent care and clinical leadership within the health care system.
Admission Requirements

In addition to meeting graduate admission requirements, applicants to MSN programs must have a cumulative GPA of 3.00 for the last 60 credits of undergraduate work, hold an active license as a registered nurse (RN) and a current CPR card, have one year current experience as an RN in direct patient care, and submit two letters of recommendation, one of which is from a nursing supervisor holding an MSN degree or higher, a résumé, and a goals statement. Although the GRE is not formally required, applicants may be asked to submit GRE scores at the discretion of the school when it believes those scores will lead to a clearer presentation of the applicant’s qualifications.

Students applying to the nurse practitioner concentrations must have a health assessment skills continuing education course within 18 months prior to taking NURS 719.

Special Requirements

Graduate students are required to have up-to-date annual health exams, current immunizations and CPR certification. Criminal background checks are required of all School of Nursing students. Student health exams, immunization records and criminal background checks are part of the final admission process. No student may attend a practicum course unless all the requirements for CPR, health exams, immunizations and criminal background checks are met. Students must be in the process of completing a hepatitis B immunization series when they enroll for their first practicum course. All students are required to have an active Mason e-mail account.

Professional Conduct

All students in the School of Nursing are expected to adhere to the Professional Conduct Policy of the College of Health and Human Services.

Appeal Process

Although faculty members in the nursing program are generally the best judges of a student's professional performance, some students may feel that the faculty member's judgment is unfair. Students in the School of Nursing wishing to appeal a grade are expected to follow the GMU guidelines for grade appeals, found in the Academic Policies section of the GMU University Catalog.

Honor System and Code

The School of Nursing supports academic integrity and follows the standards and procedures as described in the University catalog and available at academicintegrity.gmu.edu

Academic Termination

A degree-seeking nursing graduate student is dismissed after accumulating grades of F in two courses or 8 credits of unsatisfactory grades (C or below) in graduate courses.

Degree Requirements

The master’s program in nursing requires 30 to 50 graduate credits. Of these, a 15-credit core consists of course work in the theoretical and ethical foundations of nursing, nursing research and biostatistics, nursing informatics, and a course on the organization of nursing and health care delivery systems. The remaining credits are satisfied by completing one of seven
concentrations. The nursing administration concentration requires an additional 24 credits; the clinical nurse leader concentration, an additional 25 credits; the nurse educator concentration, an additional 26 credits; the advanced clinical nursing concentration, an additional 26 to 32 credits; the adult nurse practitioner concentration, an additional 29 credits; and the adult/gerontological and family nurse practitioner concentrations, an additional 35 credits.

A graduate course in which a grade of C or below is earned may be repeated only once. Graduate students (both master’s and doctoral) may repeat no more than two courses in their total program of study. A failing grade "F" in a practicum course will result in dismissal from the concentration. Up to 12 credits may be transferred into the MSN program from non-degree status.

Actual clinical hours may exceed those listed in the catalog. Actual clinical hours will meet those required for certification purposes. Requirements in the catalog reflect the minimum number of credits.

**MSN Core Courses (required of all students): 15 credits**

- NURS 665 - Theoretical and Ethical Foundations Related to Nursing Credits: 3
- NURS 715 - Nursing Informatics Inquiry Credits: 3
- NURS 757 - Nursing Research and Biostatistics I Credits: 3
- NURS 758 - Nursing Research and Biostatistics II Credits: 3
- NURS 688 - Organization of Nursing and Health Care Delivery Systems Credits: 3

**Concentrations: Complete One**

**Students in the MSN will complete one concentration from the following:**

▲ **Adult Nurse Practitioner in Primary Care Concentration (ANPR)**

**Required Courses (17 credits)**

- NURS 623 - Clinical Concepts in Community-Oriented Primary Care Credits: 3
- NURS 746 - Practicum in Adult Primary Care Nursing I Credits: 6
- NURS 748 - Practicum in Adult Primary Care Nursing II Credits: 8

**Nurse Practitioner Support Courses (12 credits)**

These required courses are colisted with George Washington University (GWU) School of Medicine and Health Sciences.

**Note:** All courses offered at GWU are charged at GWU’s tuition rates. Nurse practitioner students must have taken a continuing education health assessment course with a skills component within 18 months of taking NURS 719.

- NURS 719 - Advanced Health Assessment Credits: 2
- NURS 723 - Clinical Decision Making Credits: 2
- NURS 745 - Pharmacology Credits: 3
- NURS 747 - Pharmacology in Disease and Pathophysiology Credits: 1
- NURS 756 - Advanced Pathology and Pathophysiology Credits: 4
Total: 29 credits

▲ Adult/Gerontological Nurse Practitioner in Primary Care Concentration (AGNP)

Required Courses (23 credits)

- NURS 623 - Clinical Concepts in Community-Oriented Primary Care Credits: 3
- NURS 746 - Practicum in Adult Primary Care Nursing I Credits: 6
- NURS 748 - Practicum in Adult Primary Care Nursing II Credits: 8
- NURS 780 - Practicum in Gerontological Nursing I Credits: 3
- NURS 781 - Practicum in Gerontological Nursing II Credits: 3

Nurse Practitioner Support Courses (12 credits)

These required courses are colisted with George Washington University (GWU) School of Medicine and Health Sciences.

Note: All courses offered at GWU are charged at GWU’s tuition rates. Nurse practitioner students must have taken a continuing education health assessment course with a skills component within 18 months of taking NURS 719.

- NURS 719 - Advanced Health Assessment Credits: 2
- NURS 723 - Clinical Decision Making Credits: 2
- NURS 745 - Pharmacology Credits: 3
- NURS 747 - Pharmacology in Disease and Pathophysiology Credits: 1
- NURS 756 - Advanced Pathology and Pathophysiology Credits: 4

Total: 35 credits

▲ Family Nurse Practitioner in Primary Care Concentration (FNUP)

Required Courses (23 credits)

- NURS 623 - Clinical Concepts in Community-Oriented Primary Care Credits: 3
- NURS 720 - Practicum in Family Primary Care Nursing I Credits: 4
- NURS 721 - Practicum in Assessment and Management of the Developing Family Credits: 8
- NURS 722 - Practicum in Family Primary Care Nursing II Credits: 8

Nurse Practitioner Support Courses (12 credits)
These required courses are colisted with George Washington University (GWU) School of Medicine and Health Sciences.

Note: All courses offered at GWU are charged at GWU’s tuition rates. Nurse practitioner students must have taken a continuing education health assessment course with a skills component within 18 months of taking NURS 719.

- NURS 719 - Advanced Health Assessment Credits: 2
- NURS 723 - Clinical Decision Making Credits: 2
- NURS 745 - Pharmacology Credits: 3
- NURS 747 - Pharmacology in Disease and Pathophysiology Credits: 1
- NURS 756 - Advanced Pathology and Pathophysiology Credits: 4

Total: 35 credits

▲ Advanced Clinical Nursing Concentration (NUAC)

Required Courses (26 credits)

- NURS 513 - Advanced Pharmacology in Nursing Credits: 3
- NURS 613 - Advanced Health Assessment Credits: 2
- NURS 550 - Pathophysiologic Bases for Major Health Deviations of Individuals Credits: 3
- NURS 773 - Clinical Applications of Theory in Advanced Clinical Nursing Credits: 3
- NURS 775 - Advanced Specialty Practice I Credits: 3
- NURS 776 - Development of Advanced Practice Nursing Role Credits: 3
- NURS 778 - Advanced Specialty Practice II Credits: 3
- Nursing Electives (6 credits)

Clinical Nurse Specialist Emphasis

Students in the advanced clinical nursing concentration who opt for the clinical nurse specialist emphasis must accrue 500 clinical hours by completing:

- NURS 740 - Clinical Nurse Specialist Internship Credits: 3
  May be repeated once if necessary to accrue 500 hours (for total of 6 credits)

Total: 26-32 credits

▲ Nursing Administration Concentration (NUAD)
Required Courses (12 credits)

- NURS 763 - Administrative Theory in Nursing Credits: 3
- NURS 765 - Practicum in Nursing Administration I Credits: 3
- NURS 766 - Administrative Strategies in Nursing Credits: 3
- NURS 768 - Practicum in Nursing Administration II Credits: 3

Nursing Administration Support Courses (12 credits)

Choose one of the following financial management courses:
- NURS 654 - Nursing Administration Financial Management Credits: 3
- HAP 703 - Financial Management in Health Systems Credits: 3

Choose one of the following management/organizational theory courses:
- HAP 621 - Management of Health Service Organizations Credits: 3
- PUAD 620 - Organization Theory and Management Behavior Credits: 3

- Nursing or related discipline electives (6 credits)

Total: 24 credits

▲ Nurse Educator Concentration (NURE)

Required Courses (15 credits)

- NURS 556 - Principles of Assessment and Evaluation in Nursing Education Credits: 3
- NURS 726 - Perspectives in Nursing Education Credits: 3
- NURS 727 - Application of Nursing Education Principles to Curriculum and Program Development Credits: 3
- NURS 728 - Practicum and Seminar in Nursing Education I Credits: 3
- NURS 729 - Practicum and Seminar in Nursing Education II Credits: 3

Nurse Educator Support Courses (11 credits)

- NURS 550 - Pathophysiologic Bases for Major Health Deviations of Individuals Credits: 3
- NURS 613 - Advanced Health Assessment Credits: 2
- Nursing or related discipline electives (6 credits)
Total: 26 credits

▲ Clinical Nurse Leader Concentration (NUCL)

Course Work (17 credits)

- HAP 586 - Quality Improvement in Health Services Credits: 3
- NURS 654 - Nursing Administration Financial Management Credits: 3
- NURS 730 - Leadership Strategies for the Clinical Nurse Leader Credits: 2
- NURS 731 - Clinical Nurse Leader Role Integration Credits: 2
- NURS 732 - Clinical Nurse Leader Practicum Credits: 7

Clinical Nurse Leader Support Courses (8 credits)

- NURS 513 - Advanced Pharmacology in Nursing Credits: 3
- NURS 550 - Pathophysiologic Bases for Major Health Deviations of Individuals Credits: 3
- NURS 613 - Advanced Health Assessment Credits: 2

Total: 25 credits

RN-to-MSN Pathway

This pathway allows RNs who have completed the general education requirements (as listed in the undergraduate RN-to-MSN Pathway described in the Nursing, BSN program) and have demonstrated substantial involvement in professional nursing within the past two years to earn the MSN degree. Students entering a concentration through this pathway must meet all the requirements for admission to that concentration.

In addition to fulfilling admission requirements for degree status at Mason, applicants must hold a current license to practice nursing, be graduates of an accredited nursing program, have earned a 3.00 GPA in the general education courses at an accredited institution, and demonstrate substantial involvement in professional nursing within the past two years as an RN in clinical practice.

Students in the RN-to-MSN pathway are required to take the following bridge course:

- NURS 595 - RN to MSN Transition: Evidence Based Community Health Nursing Credits: 3

Note:
After completion of the bridge course, students choose one of the seven concentrations and meet all requirements of the graduate program.

Master’s International

The MSN prepares nurses for a variety of leadership roles in health care delivery systems. Courses are held on the Fairfax Campus and in distributed local health care facilities. Most classes are offered after 4 p.m., Monday through Friday. Mason is a public institution with excellent tuition rates for those who qualify for Virginia residency. Peace Corps volunteers accepted into the MSN program who are not Virginia residents may be eligible for the tuition support program to obtain the in-state rate. The program has been rated in the top 50 graduate nursing programs by *U.S. News & World Report*.

The Master’s International (MI), a joint program of Mason and the Peace Corps, enables participants to prepare for Peace Corps service while earning the MSN. Participants apply separately to the Peace Corps and to Mason. The MSN offers several concentrations, but two are more appropriate to the Peace Corps experience: advanced clinical nursing, a 38-credit program, and nursing administration, a 37-credit program. Students are able to complete initial requirements of 31 or 32 credits within one year (to include summer sessions). Six credits are earned as practicum credits for the overseas Peace Corps service. Students return to Mason for their final project presentation, during which they discuss and share their Peace Corps experiences with faculty and other MSN students.

Admission Requirements for MI

Applicants should hold a BSN. They must submit a completed application for graduate admission, along with the nonrefundable application fee; application for Virginia in-state rates for those claiming eligibility; original transcripts from all previously attended colleges or universities; GRE scores (cumulative undergraduate GPA may allow for waiver of the entrance exam requirement); two letters of recommendation from professional sources; résumé; and a goals statement.

Applications are reviewed throughout the year for admission to either the fall or the spring semester, although new students may take their initial course during Summer Term. Students accepted into the program but waiting for notification of acceptance from the Peace Corps may begin their master’s program but will not be eligible for tuition support until they have been accepted into the Peace Corps.

For more information about Master’s International, contact the Peace Corps regional office at 1-800-424-8580. For the Fellows/USA program, call the above number and then extension 1440.

Master's Level Certificate

Forensic Nursing Graduate Certificate

**Banner Code:** HHC-CERG-FRNN

Unit: School of Nursing

This program provides advanced education at the graduate level to students who are actively involved or wish to pursue a career in forensic nursing. The certificate will provide the educational requirements for certification as a sexual assault nurse examiner (SANE) through the International Association of Forensic Nurses (IFAN) and as a certified forensic nurse through the American College of Forensic Examiners (ACFE).

Certificate Requirements
Applicants must have a current nursing license and a bachelor’s degree from an accredited institution of higher education. Courses are open to other graduate students, with the exception of NURS 734, which requires students to have a current nursing license.

Candidates must have 15 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate.

**Required Courses**

- NURS 733 - Introduction to Forensic Science Credits: 3
- NURS 734 - Role of the Sexual Assault Nurse Examiner and Interpersonal Violence Credits: 3
  Students who are currently certified as a SANE take GCH 602 Global Health Issues Related to Violence in place of NURS 734.
- NURS 735 - Crime Lab and Crime Scene Investigation Credits: 3
- NURS 736 - Psychological and Legal Aspects of Forensic Science Credits: 3
- NURS 737 - Investigation of Injury and Death Credits: 3

Total: 15 credits

**Nursing Administration Graduate Certificate**

**Banner Code:** HII-CERG-NUAD

Unit: School of Nursing

This program offers formal study in theory and practice in nursing administration in the health care delivery system.

**Certificate Requirements**

Applicants must hold a master's degree in nursing. Application is made through CHHS.

Candidates must have 15 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate.

**Required Courses**

- NURS 763 - Administrative Theory in Nursing Credits: 3
- NURS 765 - Practicum in Nursing Administration I Credits: 3
- NURS 766 - Administrative Strategies in Nursing Credits: 3
- NURS 768 - Practicum in Nursing Administration II Credits: 3

Choose one of the following:

- NURS 654 - Nursing Administration Financial Management Credits: 3
- HAP 703 - Financial Management in Health Systems Credits: 3
Total: 15 credits

Nursing Education Graduate Certificate

Banner Code: HH-CERG-NUED

Unit: School of Nursing

This program combines foundation courses in education with courses in the principles and practices of nursing education. It prepares students to function in nursing educational roles in academic and nonacademic settings.

Certificate Requirements

Applicants must hold a master's degree in nursing. Application is made through CHHS.

Candidates must have 15 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate.

Required Courses

- NURS 556 - Principles of Assessment and Evaluation in Nursing Education Credits: 3
- NURS 726 - Perspectives in Nursing Education Credits: 3
- NURS 727 - Application of Nursing Education Principles to Curriculum and Program Development Credits: 3
- NURS 728 - Practicum and Seminar in Nursing Education I Credits: 3
- NURS 729 - Practicum and Seminar in Nursing Education II Credits: 3

Total: 15 credits

Notes:

Students who qualify for a 3-credit practicum because of their educational experience may choose the remaining 3 credits from courses designated by the graduate nursing program.

Doctoral Degree

Nursing, DNP (pending SCHEV approval)

Banner Code: HH-DNP-NURS
The program described below has been approved by the Board of Visitors and sent to the State Council for Higher Education in Virginia for consideration as a new degree program. The university cannot accept applications or enroll students in this program until SCHEV approval has been granted.

The Doctor of Nursing Practice (DNP) builds on the MSN degree. The objective of the program is to prepare graduates for the highest level of nursing practice. Emphasis will be placed on evaluating and applying the evidence that supports practice, understanding and creating practice delivery systems based on patient outcomes, and assuming leadership roles in practice settings. In the curriculum, there are four possible concentrations available to the post-baccalaureate student. The concentrations are configured as recommended by the AACN DNP Essentials into two foci: 1) care of individuals with two concentrations, Family Nurse Practitioner and Adult Nurse Practitioner and 2) care of aggregates (groups) with Advanced Clinical Nursing and Administration in Nursing concentrations. BSN to DNP students must complete Level I core and advanced-practice competency courses relevant to their chosen concentration prior to taking Level II core essentials. The DNP is the terminal practice degree in the profession. The degree will draw on expertise from throughout CHHS in such areas as health economics, health policy, and epidemiology. Graduates of the program will be able to assume many roles in the health care system, including direct patient care, clinical nursing faculty, practice management, and policy development.

Admission Requirements

Applicants for the BSN to DNP curriculum will be graduates of accredited baccalaureate programs in nursing with a minimum of a 3.0 GPA and a strong record (3.0 minimum) in science and nursing coursework.

Admission Requirements for MSN to DNP applicants:

Applicants must have a master's degree in Nursing. They must demonstrate a GPA of 3.5 or better in their past graduate work. MSN to DNP students must show evidence that they have met coursework requirements consistent with the Core I and relevant advanced practice competency courses before progression into Core II Essentials Courses.

Applicants will be accepted for the fall semester. The deadline for applications will be June 1. Applicants must submit the following materials for consideration:

- Completed and signed application form
- A non-refundable application fee
- The application for Virginia in-state tuition rates if applicants are Virginia residents
- Official transcript from all undergraduate and graduate programs attended
- Three letters of recommendation with a minimum of two from persons able to speak to the applicant’s clinical expertise
- A 500-word statement describing the applicant's goals related to pursuing a DNP and one idea area for a practice inquiry project
- An interview with program faculty
- Evidence of an active license as a Registered Nurse
- Evidence of active practice or plan for active practice as a Registered Nurse

**MSN to DNP students must also include:**

- Documentation from their graduate program validating the number of accumulated precepted clinical practice hours
- A current resume
- GRE or Miller Analogy Test scores upon request

Time Requirements
The final step in completion of the degree is the implementation of a practice inquiry project. The proposal for this project must be prepared with ample time for submission to the Human Subjects Review Board at George Mason University. The student's project will be evaluated by a committee consisting of three members who will be agreed upon by the student and advisor. The student will identify one School of Nursing faculty member to serve as an advisor and chair the committee. Another committee member will be identified either from GMU faculty or from outside the university with permission from the committee chair and the coordinator of the DNP program. The third committee member will be identified from the site of the student's practice inquiry project. The committee is responsible for approving the final written report of the project and the oral defense by the student.

Consistent with the *AACN DNP Essentials*, the practice inquiry project must demonstrate to the committee's satisfaction knowledge in the core competencies of finance, policy, technology, and health care delivery systems, as well as utilization of evidence to enhance practice outcomes. The practice inquiry project will be completed within two semesters. Students unable to complete the project within this time frame may take up to one extra year.

The projected length of the program for full-time BSN to DNP students is three calendar years, which could stretch to eight academic years for part-time students. Full-time MSN to DNP students can complete in two academic years, and for part-time students three academic years. BSN to DNP will have a maximum of eight years and MSN to DNP students will have a maximum of six years to complete the program.

**Degree Requirements**

The BSN to DNP curriculum is comprised of 72 credits divided among Level I core courses, advanced practice competency courses, Level II core essentials, clinical practicums and a practice inquiry project. Students who come into the MSN to DNP program will also complete 72 credits, including up to 30 hours of relevant graduate credit awarded for past master's-level courses.

Of the 72 required credits, all students will have 28 total credits of core content (Level I core and Level II core essentials). Core content focuses on informatics, financial management, health policy, theory, ethics, leadership and application of research. There are 36 credits of advanced practice competency courses and 8 credits of a practice-based translational inquiry (practice inquiry project). These credits include the *AACN DNP Essential* minimum of 1,000 hours of precepted/mentored clinical practice.

The 1,000 hours of precepted/mentored clinical practice are distributed among introductory (500 to 700 numbered courses) and upper level (800 to 900 numbered courses) graduate courses. Students receive one hour of credit for 45 hours of precepted/mentored clinical practice that is part of the coursework. BSN to DNP students will include the 1000 hours in their course work. MSN to DNP students can transfer in up to 800 hours (depending on how many hours they accrued during their master's program). The number of clinical hours a student is awarded on admission is based on transcripts and course descriptions. Faculty will review clinical credits earned as part of the master's degree to determine the number of clinical hours awarded. Variable hours in the clinical practicums (NURS 921 and NURS 922) will assure a total of 1,000 clinical hours prior to DNP graduation.

Students will pursue one of two emphases: (1) Advanced nursing care of individuals, or (2) Advanced nursing care of aggregates. Students will integrate knowledge from core and concentration courses into development and implementation of their practice inquiry project.

The curriculum will allow students with diverse nursing academic and clinical backgrounds the flexibility to enter a program of study tailored to their future professional goals. The final project will be an evidence-based translational research project (practice inquiry project). This project is designed for students to address a real life professional issue with potential for actual implementation to improve practice and outcomes. The goal of the DNP program is to maximize the strength and credentials of each student through faculty advisement. Students will be assigned to a faculty advisor whose interest and expertise will support the development of an individual practice inquiry project at the culmination of their course study.

**BSN to DNP Curriculum (72 credits)**
Level I core courses and advanced practice competency courses must be completed in the first two years of full-time study or four years of part-time study. They are the foundational courses preparing the student to develop and implement the practice inquiry project in the final two semesters of study.

**Level I Core Courses (12 credits)**

- NURS 665 - Theoretical and Ethical Foundations Related to Nursing Credits: 3
- NURS 688 - Organization of Nursing and Health Care Delivery Systems Credits: 3
- NURS 757 - Nursing Research and Biostatistics I Credits: 3
- NURS 758 - Nursing Research and Biostatistics II Credits: 3

**Level II Core Essentials Courses (24 credits)**

- NURS 654 - Nursing Administration Financial Management Credits: 3
- NURS 715 - Nursing Informatics Inquiry Credits: 3
- NURS 808 - Translating Nursing and Health Care Research into Evidence-Based Policy Credits: 3
- NURS 870 - Nursing and Health Care Administration I Credits: 3
- NURS 883 - Evidence-Based Practice in Nursing and Healthcare Credits: 4
- NURS 980 - Practice Inquiry I Credits: 4
- NURS 981 - Practice Inquiry II Credits: 4

**Advanced Practice Competency Courses (36 credits)**

**Concentrations in Advanced Nursing Care of Aggregates**

▲ **Administration in Nursing Concentration (NUAD): 36 credits**

- NURS 763 - Administrative Theory in Nursing Credits: 3
- NURS 765 - Practicum in Nursing Administration I Credits: 3
- NURS 766 - Administrative Strategies in Nursing Credits: 3
- NURS 768 - Practicum in Nursing Administration II Credits: 3
- NURS 871 - Nursing and Health Care Administration II Credits: 2
- NURS 874 - Internship in Health Care Administration/Policy/Education Credits: 4
- NURS 921 - Clinical Practicum I Credits: 1-10
- NURS 922 - Clinical Practicum II Credits: 1-10

Electives toward career goal (8 credits). All electives must be approved by advisor prior to the start of the course.
Advanced Clinical Nursing Concentration (NUAC): 36 credits

- NURS 513 - Advanced Pharmacology in Nursing Credits: 3
- NURS 613 - Advanced Health Assessment Credits: 2
- NURS 618 - Pathophysiology: Health and Illness Credits: 3
- NURS 740 - Clinical Nurse Specialist Internship Credits: 3
- NURS 773 - Clinical Applications of Theory in Advanced Clinical Nursing Credits: 3
- NURS 775 - Advanced Specialty Practice I Credits: 3
- NURS 776 - Development of Advanced Practice Nursing Role Credits: 3
- NURS 778 - Advanced Specialty Practice II Credits: 3
- NURS 921 - Clinical Practicum I Credits: 1-10
- NURS 922 - Clinical Practicum II Credits: 1-10

Concentrations in Advanced Nursing Care of Individuals

Adult Nurse Practitioner Concentration (ANPR): 36 credits

- NURS 719 - Advanced Health Assessment Credits: 2
- NURS 723 - Clinical Decision Making Credits: 2
- NURS 745 - Pharmacology Credits: 3
- NURS 747 - Pharmacology in Disease and Pathophysiology Credits: 1
- NURS 756 - Advanced Pathology and Pathophysiology Credits: 4
- NURS 746 - Practicum in Adult Primary Care Nursing I Credits: 6
- NURS 748 - Practicum in Adult Primary Care Nursing II Credits: 8
- NURS 921 - Clinical Practicum I Credits: 1-10
- NURS 922 - Clinical Practicum II Credits: 1-10

Family Nurse Practitioner Concentration (FNUP): 36 credits

- NURS 719 - Advanced Health Assessment Credits: 2
- NURS 723 - Clinical Decision Making Credits: 2
- NURS 745 - Pharmacology Credits: 3
- NURS 747 - Pharmacology in Disease and Pathophysiology Credits: 1
- NURS 756 - Advanced Pathology and Pathophysiology Credits: 4
- NURS 720 - Practicum in Family Primary Care Nursing I Credits: 4
- NURS 721 - Practicum in Assessment and Management of the Developing Family Credits: 8
- NURS 722 - Practicum in Family Primary Care Nursing II Credits: 8
- NURS 921 - Clinical Practicum I Credits: 1-10
MSN to DNP Curriculum (72 credits)

Students who come into the MSN to DNP program will complete 72 credits. Up to 30 hours of relevant graduate credit may be awarded for past master's-level courses, and students will complete the minimum of 42 additional credits following the curriculum below.

In this program, Level II core essentials build on previous master's education and must be completed in the first year of full-time study or two years of part-time study. They prepare the student to develop and implement the practice inquiry project in the final two semesters of study. The core content for post-master's DNP students will be individualized based on the content from the student's master's degree academic program and will include a minimum of 19 credits.

Students must complete 1,000 precepted/mentored clinical hours including those obtained during previous master's education (individually awarded based on evaluation of master's clinical hours). Students also must take additional electives to meet the total requirement of 72 credits required to complete the program.

Level II Core Essentials Courses (19-27 credits)

- NURS 654 - Nursing Administration Financial Management Credits: 3
- NURS 715 - Nursing Informatics Inquiry Credits: 3
- NURS 758 - Nursing Research and Biostatistics II Credits: 3
- NURS 808 - Translating Nursing and Health Care Research into Evidence-Based Policy Credits: 3
- NURS 870 - Nursing and Health Care Administration I Credits: 3
- NURS 883 - Evidence-Based Practice in Nursing and Healthcare Credits: 4
- NURS 980 - Practice Inquiry I Credits: 4
- NURS 981 - Practice Inquiry II Credits: 4

Advanced Practice Competency Courses (2-20 credits)

- NURS 921 - Clinical Practicum I Credits: 1-10
- NURS 922 - Clinical Practicum II Credits: 1-10

Electives

All electives must be approved by advisor prior to the start of the course.

Total: 72 credits

Nursing, PhD
The PhD in Nursing Program builds on the MSN degree and requires a minimum of 48 credit hours beyond the master’s. The objective of the program is to prepare nurses for leadership roles in a variety of organizations, health-related agencies and educational institutions. Graduates of the program conduct and support research in nursing and health care and influence the formation and implementation of public policy in health care through analysis of sociocultural, economic, fiscal, political, ethical, and governmental processes.

Admission Requirements

In addition to fulfilling admission requirements for degree status in CHHS, applicants must hold a master’s degree in nursing from an accredited program equivalent to 30 credits or a master’s degree in a related health field with a baccalaureate degree in nursing. They must have earned a minimum GPA of 3.50 on a 4.00 scale in a master’s program. They also must show evidence of one year of experience as an RN prior to enrollment.

Other requirements are as follows:

- For international students, a TOEFL score of at least 250 (computer-based exam) or 600 (paper-based exam)
- Evidence of current licensure to practice professional nursing. Students on foreign student visas must present evidence of their country’s nursing licensure or the equivalent.
- Three letters of recommendation from professional or academic sources, with at least two of the references from people who have had contact with the applicant within the past two years
- Interview with one or more members of the doctoral admissions committee
- Written statement of professional goals
- Evidence of prerequisite graduate-level course work in applied statistics (past two years)
- A résumé of professional experience

Students are admitted for fall semester only. All materials for admission must be submitted to the CHHS Admissions Office by March 1 of the year of application.

Program Requirements

To complete the PhD in nursing, students must:

- Complete the program of study outlined in the PhD curriculum.
- Pass written doctoral candidacy comprehensive exam after completing all PhD credit requirements, except NURS 998 and 999.
- Pass the final oral dissertation defense and submit a doctoral dissertation approved by the doctoral dissertation committee, the Assistant Dean of doctoral program, and the Director of the School of Nursing. (The dissertation is submitted in the approved format to University Libraries and the director of the doctoral program.)
- Complete application material for graduation and the PhD degree in accordance with prevailing Mason policies.

Advancement to Candidacy

After students have completed the qualifying exam and all required course work, the director of the School of Nursing approves advancement to candidacy.

Dissertation Proposal
The proposal must focus on a topic in nursing and be approved by the doctoral dissertation committee, the Assistant Dean of the doctoral program, and the Director of the School of Nursing. The dissertation proposal and dissertation must be consistent with the guidelines outlined in Mason’s Guide for Preparing Graduate Theses, Dissertations, and Projects.

**Doctoral Dissertation**

Before enrolling for dissertation credit, the student must have advanced to candidacy. The completed dissertation must be approved by the doctoral dissertation committee, the Assistant Dean of the doctoral program, and the Director of the School of Nursing.

**Final Oral Doctoral Exam**

The doctoral dissertation committee chair, on preliminary approval of the doctoral dissertation by the committee, petitions the Assistant Dean of the doctoral program in the School of Nursing to schedule the final oral doctoral exam, which includes a defense of the doctoral dissertation. The final oral exam also demonstrates the candidate’s intellectual command and maturity of judgment in the area of emphasis chosen by the candidate and approved by the dissertation committee. At the close of the final oral exam, the committee makes a final judgment regarding approval of the doctoral dissertation and completion of PhD degree requirements.

**Time Requirements**

Students must complete all planned course work, including electives, and advance to candidacy within six years of admission to degree or provisional status in the PhD program. The student must successfully complete the doctoral dissertation, final oral doctoral exam, and all PhD degree requirements within five years following the semester of advancement to candidacy.

**Degree Requirements**

The PhD in Nursing Program offers an individualized area of concentration (minimum 48 credits). Before advancing to candidacy and enrolling for dissertation credit (12 credits), students must have their program of study approved by the Assistant Dean of the doctoral program.

▲ **Concentration in Individualized Study (INDV)**

The prerequisite for this concentration is HHS 597 Approaches to Quantitative Data Analysis in Health Care Research or the equivalent. Other prerequisites are determined individually.

**Scientific Base/Research Core (21 credits)**

- NURS 804 - Advanced Quantitative Data Analysis for Health Care Research I Credits: 3
- NURS 805 - Advanced Quantitative Data Analysis for Health Care Research II Credits: 3
- NURS 855 - Ethics in Health Administration Credits: 3
- NURS 875 - Research Internship Credits: 1 OR 3
- NURS 920 - Qualitative Research in Nursing and Health Care Credits: 3
- NURS 930 - Quantitative Methods in Nursing and Health Care Credits: 3
- NURS 955 - Philosophical Bases of Inquiry Credits: 3
Individualized Core (15 credits)

- NURS 808 - Translating Nursing and Health Care Research into Evidence-Based Policy Credits: 3
- NURS 809 - Research Design and Methods in Nursing and Health Care Credits: 3
- **Electives (9 credits)** - Students must complete a cohesive set of existing doctoral-level courses designed with their advisor and program director to contribute to their program of research. Examples may include coursework in nursing administration, biostatistics, bio-terrorism, conflict analysis, nursing education, gerontology, and cultural studies.

Dissertation (minimum 12 credits combined)

- NURS 998 - Doctoral Dissertation Proposal Credits: 1-9
  Students must enroll for 3 credits the first time NURS 998 is taken.
- NURS 999 - Doctoral Dissertation Credits: 1-9
  Students must enroll for 3 credits the first time NURS 999 is taken.

Total: 48 credits

### Global and Community Health

Phone: 703-993-3126  
web: chhs.gmu.edu/gch/

**Faculty**

**Professors:** Howell (associate dean for research and program evaluation), Metcalf, Sluzki, Gerber (chronic illness & disability center director), Whittington (associate dean for academic affairs)

**Associate Professors:** Baghi, Lindley, Pawloski (chair), Keyser

**Assistant Professors:** Freeborne, Frankenfeld, Gewa, Jacobsen, Webster, Weinstein, Winter

The Department of Global and Community Health (GCH) is a department within the College of Health and Human Services (CHHS). The educational mission of GCH is to provide undergraduate and graduate degrees and certificates in health-related disciplines centered in global and community health issues. Its research mission is to promote and develop solid and meaningful research programs that help define and address health issues and the needs of affected populations at the regional and global level. Its service mission is to increase the awareness of these problems, enhance health-promoting information, and collaborate with other organizations toward enhancing local, national, and global health.

**Undergraduate Degree**
Community Health, BS

Banner Code: HH-BS-COMH

Unit: Global and Community Health

This degree prepares students with a basic understanding of public health, the health care system, public health issues and policies related to health promotion, disease prevention, and public health education specific to local and international populations of all sizes.

Public health and community health professionals work in partnership with private and public organizations and are expected to confront complex behavioral, cultural, and social health issues within communities. The skills and knowledge gained through this program will prepare graduates to address the local, national, and global health needs of diverse populations, providing understanding, education, monitoring, evaluation, and interventions within a community setting.

Students majoring in Community Health may elect one of four specializations: Global Health, Health Education, Nutrition, or Pre-Health Professions. The program may be completed on a full-time or part-time basis. Interested students are encouraged to contact the Department of Global and Community Health before admission.

A criminal background check may be required of students prior to beginning the internship if the organization requires one. A minimum grade of C must be maintained in all major courses. Students may substitute two 3-credit GCH courses for the internship with their advisor’s approval.

Degree Requirements

General Education (38 credits)

Written Communication:

- ENGL 101 - Composition Credits: 3
- ENGL 302 - Advanced Composition Credits: 3
  Nonnative speakers of English with limited proficiency in the language may substitute ENGL 100 for ENGL 101. Students must attain a minimum grade of C in ENGL 100 or 101, as well as in 302, to fulfill degree requirements.

Oral Communication:

Choose one:

- COMM 100 - Public Speaking Credits: 3
- COMM 101 - Interpersonal and Group Interaction Credits: 3
Quantitative Reasoning:

- STAT 250 - Introductory Statistics I Credits: 3

Information Technology:

- IT 103 - Introduction to Computing Credits: 3

Literature:

- An approved University General Education literature course.

Arts:

- An approved University General Education arts course.

Natural Science:

- BIOL 124 - Human Anatomy and Physiology Credits: 4
- BIOL 125 - Human Anatomy and Physiology Credits: 4
  Required for the Health Education, Global Health and Nutrition concentrations.
  or
- BIOL 213 - Cell Structure and Function Credits: 4
- BIOL 303 - Animal Biology Credits: 4
  Required for the Pre-Health Professions concentration.

Western Civilization:

Choose one of the following:

- HIST 100 - History of Western Civilization Credits: 3
- HIST 125 - Introduction to World History Credits: 3

Global Understanding:

- GCH 205 - International Health Credits: 3

Social Science:

- PSYC 100 - Basic Concepts in Psychology Credits: 3
Community Health Major Core (30 credits)

- GCH 295 - Nutrition for Health Professionals Credits: 3
- GCH 332 - Health and Disease Credits: 3
- GCH 350 - Health Education Credits: 3
- GCH 360 - Health and Environment Credits: 3
- GCH 411 - Health Program Planning Credits: 3
- GCH 412 - Fundamentals of Epidemiology Credits: 3
- GCH 460 - Program Evaluation Credits: 3
- HAP 301 - Health Care Delivery in the United States Credits: 3
- HHS 465 - Examination and Integration of Professional and Health Care Issues Credits: 3

Choose one of the following:
- STAT 350 - Introductory Statistics II Credits: 3
- STAT 362 - Introduction to Computer Statistical Packages Credits: 3

Concentrations: Complete One

▲ Global Health Concentration (GLOH): 28 credits

The global health concentration is designed for students interested in global public health and is particularly focused on improving health conditions in developing countries.

- GCH 310 - Health Behavior Theories Credits: 3
- GCH 405 - International Health Policy and Practice Credits: 3
- BIOL 246 - Introductory Microbiology Credits: 3
- BIOL 306 - Biology of Microorganisms Laboratory Credits: 1

Foreign Language (9 credits)

Global Health Electives (9 credits)

Three courses as approved by the department.

▲ Health Education Concentration (HEAL): 27 credits

The health education concentration prepares students to enter a career in health education and to sit for the professional health educators’ licensure exam.

- GCH 310 - Health Behavior Theories Credits: 3
- COMM 399 - Special Topics in Communication Credits: 1-3
  Health Communications section only.
- HEAL 470 - Community Health Systems Credits: 3
- HAP 416 - Leadership and Management of Health Systems I Credits: 3
• PSYC 231 - Social Psychology Credits: 3

Health Education Electives (12 credits)

Four courses as approved by the department.

▲ Nutrition Concentration (NUTR): 28 credits

The nutrition concentration is designed for students interested in community nutrition. Students will develop an understanding of nutrition issues and intervention.

- GCH 420 - Strategies for Nutrition Education Credits: 3
- GCH 421 - Community Nutrition Credits: 3
- GCH 422 - Nutrition throughout the Life Cycle Credits: 3
- GCH 423 - Nutrition and Chronic Illnesses Credits: 3
- GCH 466 - Nutrition and Weight Management: Obesity, Anorexia, and Bulimia Credits: 3
- BIOL 246 - Introductory Microbiology Credits: 3
- BIOL 306 - Biology of Microorganisms Laboratory Credits: 1

Nutrition Electives (9 credits)

Three courses as approved by the department.

▲ Pre-Health Professions Concentration (PRHP): 29 credits

The pre-health professions concentration prepares students to apply for graduate programs in the health professions such as medical school, dentistry school, veterinary school, and physical therapy programs. This concentration does not guarantee entrance into a graduate health professional program. It is important to note that, depending on the type of graduate program that students are interested in, additional coursework may be required. It is the student's responsibility to determine the essential criteria for admission to their target schools in consultation with the health professions advising office.

- CHEM 211 - General Chemistry Credits: 4
- CHEM 212 - General Chemistry Credits: 4
- PSYC 211 - Developmental Psychology Credits: 3
- PSYC 325 - Abnormal Psychology Credits: 3
  Choose one the following:
- MATH 106 - Quantitative Reasoning Credits: 3
- MATH 113 - Analytic Geometry and Calculus I Credits: 4

Pre-Health Professions Electives (12 credits)

Four courses as approved by the department.

Electives (23-25 credits)
Total: 120 credits

Bachelor's Level Certificate

Gerontology Undergraduate Certificate

Banner Code: HH-CERB-GERO

Unit: Global and Community Health

The undergraduate certificate program in gerontology prepares students for work with older adults and in aging services programs. The program provides a background of basic knowledge in gerontology.

The certificate program is administered by CHHS. Three other academic units participate in the program: the College of Education and Human Development, the Department of Psychology, and the Department of Sociology and Anthropology. A Gerontology Certificate Committee coordinates program policy and curriculum.

Academic advising and an application form are available through CHHS.

Certificate Requirements

The certificate program consists of 24 credits. Students receiving the certificate must already hold a baccalaureate degree or have earned one from Mason by the time they receive the certificate.

Core Courses (12 credits)

Select four from the following:

- GCH 480 - Health Maintenance and Health Aspects of Aging Credits: 3
- NURS 505 - Case Management Credits: 3
- NURS 570 - Cultural Dimension of Aging Credits: 3
- PSYC 415 - Psychological Factors in Aging Credits: 3
- SOCI 441 - The Sociology of Aging Credits: 3
- SOCW 483 - Selected Approaches to Social Work Intervention Credits: 3

Gerontology Practicum (6 credits)

Students must have completed at least 9 credits of core courses before enrolling in the practicum.

- GCH 498 - Global and Community Health Internship Credits: 6

Electives (6 credits)
Select from the following:

- Directed reading or research course in gerontology from any department
- GCH 332 - Health and Disease Credits: 3
- HEAL 110 - Personal Health Credits: 3
- HEAL 323 - Program Leadership and Evaluation Credits: 3
- HEAL 480 - Special Topics Credits: 1-3
- PHED 415 - Student Teaching in Physical Education Credits: 9-12
- PHED 450 - Physiology of Exercise Credits: 4
- PHED 499 - Independent Study in Physical Education and Fitness Credits: 1-3
- PRLS 210 - Introduction to Recreation and Leisure Credits: 3
- PRLS 310 - Program Planning and Design Credits: 3
- PSYC 211 - Developmental Psychology Credits: 3
- PSYC 325 - Abnormal Psychology Credits: 3
- PSYC 326 - Therapeutic Communication Skills Credits: 3
- PSYC 415 - Psychological Factors in Aging Credits: 3
- PSYC 423 - Group Psychotherapy Techniques Credits: 3
- PUAD 502 - Administration in Public and Nonprofit Organizations Credits: 3
- SOCI 350 - Community, Diversity, and Democracy: A Practicum Credits: 3
- SOCI 390 - Sociology of Health, Illness, and Disability Credits: 3
- SOCI 599 - Issues in Sociology Credits: 1-3
- SOCW 200 - Introduction to Social Work Credits: 3
- SOCW 351 - Social Policy and Social Justice I Credits: 3
- SOCW 352 - Social Policy and Social Justice II Credits: 3

Total: 24 credits

Nutrition Undergraduate Certificate

Banner Code: HHI-CERB-NUTR

Unit: Global and Community Health

This program offers a variety of courses in nutrition for future and present health care professionals, researchers, and others who are commonly faced with community-related nutrition issues. The program is intended to help health care professionals and others who would like to increase their knowledge in nutrition. This certificate is not equivalent to the registered dietitian license and does not provide a license to practice therapeutic nutrition.

Certificate Requirements

Applicants need not have a bachelor’s degree. Applications are encouraged from all areas of nursing and health sciences. Application is made through CHHS. A requirement for the certificate is 24 credits of undergraduate course work.

Required Courses (21 credits)

- One sociology or anthropology course (which may include GCH 583) (3)
• One human development course such as in psychology or education (3)
• GCH 295 - Nutrition for Health Professionals Credits: 3
• GCH 420 - Strategies for Nutrition Education Credits: 3
• GCH 421 - Community Nutrition Credits: 3
• GCH 422 - Nutrition throughout the Life Cycle Credits: 3
• GCH 423 - Nutrition and Chronic Illnesses Credits: 3

**General Nutrition Electives (3 credits)**

Select one of the following:

• CHEM 102 - Introduction to Organic, Biochemical, Pharmacological, and Fuel Chemistry Credits: 3
• CHEM 463 - General Biochemistry I Credits: 4
• GCH 466 - Nutrition and Weight Management: Obesity, Anorexia, and Bulimia Credits: 3 *
• GCH 530 - Nutrition: A Global Perspective Credits: 3
• GCH 583 - Food and Culture: Biocultural Perspectives on Food and Nutrition Credits: 3

Note:

*GCH 466 may be substituted for either GCH 420 or 421.

**Total: 24 credits**

**Undergraduate Minor**

**Nutrition Minor**

**Banner Code:** NUTR

**Unit:** Global and Community Health

The minor in nutrition is intended to increase knowledge of nutrition issues. Students who may be interested in completing the minor include those pursuing degrees related to nutrition, health, and education. This minor is *not* equivalent to the registered dietitian license and does not provide a license to practice therapeutic nutrition.

**Course Work**

Students are required to take an introductory nutrition course such as GCH 295. To complete the minor, students are required to pass 15 credits of undergraduate course work. At least 6 credits must be completed at Mason, and no more than 3 credits of C- or D in the minor are accepted.

Students should consult the Academic Policies section of this catalog for more information on the university-wide requirements for minors.
Minor Requirements

Required Courses (12 credits)

- GCH 420 - Strategies for Nutrition Education Credits: 3
- GCH 421 - Community Nutrition Credits: 3
- GCH 422 - Nutrition throughout the Life Cycle Credits: 3
- GCH 423 - Nutrition and Chronic Illnesses Credits: 3

Electives (3 credits)

Select one of the following:

- CHEM 102 - Introduction to Organic, Biochemical, Pharmacological, and Fuel Chemistry Credits: 3
- CHEM 463 - General Biochemistry I Credits: 4
- GCH 466 - Nutrition and Weight Management: Obesity, Anorexia, and Bulimia Credits: 3
  *Can be used to substitute for either GCH 420 or GCH 421.*
- GCH 530 - Nutrition: A Global Perspective Credits: 3
- GCH 583 - Food and Culture: Biocultural Perspectives on Food and Nutrition Credits: 3

Total: 15 credits

Public Health Minor

Banner Code: PUBH

Unit: Global and Community Health

The public health minor will provide students with a basic understanding of each of the core areas of public health, will introduce students to career opportunities in the fields of global and community health, and will prepare students for admission to graduate programs in public health.

Course Work

Students should consult the Academic Policies section of this catalog for more information on the university-wide requirements for minors.

Minor Requirements

Required Courses (18 credits)

- GCH 205 - International Health Credits: 3
- GCH 412 - Fundamentals of Epidemiology Credits: 3
- STAT 250 - Introductory Statistics I Credits: 3
- GCH 360 - Health and Environment Credits: 3

Choose one from the following courses:
- HAP 301 - Health Care Delivery in the United States Credits: 3
- GCH 405 - International Health Policy and Practice Credits: 3

Choose one from the following courses:
- GCH 310 - Health Behavior Theories Credits: 3
- GCH 350 - Health Education Credits: 3

Total: 18 credits

Master's Degree

Epidemiology and Biostatistics, MS (CHHS)

Banner Code: HHS-MS-EBST

Unit: Global and Community Health

This program prepares participants to apply epidemiological and statistical principles to quantitative analysis of health issues. It will prepare health scientists to work as professionals in health-related government agencies, pharmaceutical companies, research hospitals, public health agencies, and other health-related organizations that need to analyze data and design experiments for medical and public health research. Graduates are expected to analyze and interpret increasingly complex health data. The degree is taught jointly by faculty from the Department of Statistics in the Volgenau School of Information Technology and Engineering and the Department of Global and Community Health in the College of Health and Human Services.

Admission Requirements

Applicants must hold a baccalaureate degree in a discipline related to health science or statistics, with a minimum GPA of 3.00 in the last 60 credits. Courses in calculus at the undergraduate level through multivariate calculus equivalent to Math 113, 114, and 213 with a grade of B or better and STAT 344 or STAT 346 are required for admission to the program. Applications to the degree program are made through the College of Health and Human Services. Admission decisions are made by a joint faculty committee from the Department of Statistics and the Department of Global and Community Health.

Degree Requirements

Students must complete 36 credits of graduate course work. A graduate course in which a grade of C or below is earned may be repeated only once. Graduate students may repeat no more than two courses in their stated program of study. Students must achieve a minimum 3.00 GPA to graduate.

Core Requirements (18 credits)
- GCH 712 - Introduction to Epidemiology Credits: 3
- GCH 722 - Infectious Disease Epidemiology Credits: 3
- GCH 732 - Chronic Disease Epidemiology Credits: 3
- STAT 544 - Applied Probability Credits: 3
- STAT 554 - Applied Statistics Credits: 3
- STAT 660 - Biostatistical Methods Credits: 3

Epidemiology Electives (6 credits)

Select a minimum of two courses from the following:

- GCH 551 - Research Methods in Rehabilitation Science Credits: 3
- GCH 605 - Social Epidemiology Credits: 3
- GCH 680 - International Research Ethics and Methods Credits: 3
- GCH 726 - Advanced Seminar in Epidemiology Credits: 3
- GCH 752 - Nutritional Epidemiology Credits: 3

Statistics Electives (6 credits)

Select a minimum of two courses from the following:

- STAT 652 - Statistical Inference Credits: 3
- STAT 655 - Analysis of Variance Credits: 3
- STAT 656 - Regression Analysis Credits: 3
- STAT 657 - Nonparametric Statistics Credits: 3
- STAT 662 - Multivariate Statistical Methods Credits: 3
- STAT 663 - Statistical Graphics and Data Exploration I Credits: 3
- STAT 665 - Categorical Data Analysis Credits: 3
- STAT 668 - Survival Analysis Credits: 3
- STAT 673 - Statistical Methods for Longitudinal Data Analysis Credits: 3

Electives (6 credits)

Choose two electives (6 credits) in consultation with the academic advisor. Students may choose to work with their advisor to conduct an epidemiology/biostatistics research project.

Total: 36 credits

Global Health, MS

Banner Code: HH-MS-GLOH
Unit: Global and Community Health

This degree incorporates epidemiology and biostatistics, region-based nutrition, cross-cultural perspectives on health issues, community health assessment, program evaluation, international health systems and organizations, and international health research. Practicum or thesis options allow students to explore current dilemmas, demands, and health services with a global focus and perspective.

Graduates of this program will be given the knowledge base and skills to work and conduct research within the global health environment. Through course work and experiential learning, students will be prepared to work in the diverse cultural and multidisciplinary environments inherent in global health. Students will learn about the fundamentals of global public health, including epidemiology, environmental health, global health policies, and sociocultural influences on health and behavior. Students will also be trained in how to collaborate among nonprofit, governmental, and business sectors. Graduates will be prepared to work in international health organizations such as nongovernmental organizations (NGOs), governmental organizations, and multilateral organizations, or may choose to pursue a research pathway and continue toward a terminal degree.

Admission Requirements

Admission to the program requires a bachelor’s degree from an accredited institution of higher education with a minimum GPA of 3.00 in the last 60 credits. Undergraduate courses in statistics, anthropology, sociology, and natural sciences are helpful. In addition, at least 6 credits of a foreign language or equivalent are prerequisites for students who are not already fluent in a second language. Applications to this program are made through the CHHS.

Options

Global Health students must select either the Practicum or Thesis option.

Practicum Option

For the practicum option, which entails the application of an idea or theory through fieldwork, students will be required to complete two practica of 112 hours each. Both practica must be performed within a global health agency under the guidance of a preceptor and a faculty advisor. Students are encouraged to conduct one practicum abroad and one in the Washington DC region. As part of each practicum, students must attend a seminar course, complete a project, and produce a formal report and presentation.

Thesis Option

Thesis option students will select a thesis director who will guide the work and be the ultimate judge of its acceptability. The director must be within the Department of Global and Community Health. Thesis topics must complement one of the areas of GCH faculty expertise, which include epidemiology, biostatistics, rehabilitation science, chronic illness, mental health, social networks, gerontology, nutrition, and health behavior. Students must conduct an original research project that employs a standard research design to collect data and test a theory. Students must develop a research proposal and have it approved by their advisor before beginning the research project. Students must register for 6 hours of thesis research, but completion of these hours is not sufficient to satisfy the thesis requirement. The final thesis must conform to University Libraries guidelines.

Degree Requirements

Students complete a total of 42 credits of graduate course work, including either a practicum or a thesis option. A graduate course in which a grade of C or below is earned may be repeated only once. Graduate students may repeat no more than two courses. Students must maintain a 3.00 GPA to graduate from the master’s program.
Required Core Courses (27 credits)

- COMM 620 - Health Communication Credits: 3
- GCH 530 - Nutrition: A Global Perspective Credits: 3
- GCH 543 - Global Health: Trends and Policies Credits: 3
- GCH 560 - Environmental Health Credits: 3
- GCH 590 - International Health Organizations Credits: 3
- GCH 601 - Introduction to Biostatistics Credits: 3
- GCH 680 - International Research Ethics and Methods Credits: 3
- GCH 712 - Introduction to Epidemiology Credits: 3
- HAP 621 - Management of Health Service Organizations Credits: 3

Practicum or Thesis Option (6 credits)

Students may register for the practicum or thesis only with approval from their advisor and after they have completed at least 27 credits of the program.

Thesis option:
- GCH 788 - Public Health Research I Credits: 3
- GCH 789 - Public Health Research II Credits: 3

Practicum option:
- GCH 798 - Practicum in Public Health I Credits: 3
- GCH 799 - Practicum in Public Health II Credits: 3

Electives (9 credits from the following)

- ANTH 631 - Refugees in the Contemporary World Credits: 3
- COMM 506 - Communication in International Organizations Credits: 3
- GCH 502 - U.S. Role in Global Health, Nutrition, and Population Credits: 3
- GCH 583 - Food and Culture: Biocultural Perspectives on Food and Nutrition Credits: 3
- GCH 602 - Global Health Issues Related to Violence Credits: 3
- GCH 605 - Social Epidemiology Credits: 3
- GCH 722 - Infectious Disease Epidemiology Credits: 3
- GCH 726 - Advanced Seminar in Epidemiology Credits: 3
- GOVT 641 - Seminar in Global Systems Credits: 3
- HAP 609 - Comparative International Health Systems Credits: 3
- PUAD 636 - The NGO: Policy and Management Credits: 3
- PUBP 757 - Public Policy in Global Health and Medical Practice Credits: 3
- PUBP 758 - Global Threats and Medical Policies Credits: 3

Total: 42 credits
Public Health, MPH

Banner Code: HH-MPH-PUBH

Unit: Global and Community Health

The Master of Public Health (MPH) emphasizes the core disciplines of public health – epidemiology, biostatistics, health administration and policy, social and behavioral sciences, and environmental health – as well as additional focus on nutrition, global health and other cross-disciplinary topics. In addition to required coursework in each of the core disciplines and a mandatory practical experience, students will pursue a concentration in community health, epidemiology, global health, or health administration. The program is organized to prepare graduates for work in organizations that seek to improve public health at local, national, or global levels. Based upon guidelines set by the Council on Education for Public Health, the curriculum comprises 42 credit hours, distributed among the following categories of courses: Public Health Core (15 credits), additional MPH requirements (9 credits), and a concentration (18 credits). Concentrations will include community health, epidemiology, global health, and public health administration.

Admission Requirements

Admission to the program is competitive, and a variety of criteria are evaluated in the admission process: undergraduate academic performance, recent post-baccalaureate course work, GRE scores, work experience, professional goals, and letters of recommendation. Some background in statistics, biology, and the social sciences is preferred. The application deadlines are March 1 for fall semester and November 1 for spring semester admissions.

Degree Requirements

Students must complete 42 credits of graduate course work. Each course can be used to fulfill only one requirement. A graduate course in which a grade of C or below is earned may be repeated only once. Graduate students may repeat no more than two courses. Students must achieve a 3.00 GPA to graduate.

Public Health Core (15 Credits)

- GCH 601 - Introduction to Biostatistics Credits: 3 or approved statistics course.
- GCH 560 - Environmental Health Credits: 3
- GCH 610 - Foundations of Health Education and Behavior Credits: 3
- GCH 712 - Introduction to Epidemiology Credits: 3
  And one of the following:
- GCH 590 - International Health Organizations Credits: 3 Must be taken by those in the Global Health Concentration
- HAP 678 - Introduction to the U.S. Health System Credits: 3 Must be taken by those in the Public Health Administration Concentration
Additional MPH Requirements (9 Credits)

- GCH 555 - Human Biology Credits: 3
  Licensed health professionals may have the option of replacing GCH 555 with an elective if approved to do so by their advisors.
  And one of the following:
- GCH 691 - Project Management in Public Health Credits: 3
  Must be taken by those in the Global Health Concentration
- HAP 680 - Applied Public Health Leadership and Management Credits: 3
  Must be taken by those in the Public Health Administration Concentration

Practicum in Public Health:

- GCH 790 - Practicum in Public Health Credits: 3
  Must be taken by those in the Community Health, Epidemiology, and Global Health Concentrations
- HAP 791 - Practicum in Public Health Credits: 3
  Must be taken by those in the Public Health Administration Concentration

▲ Community Health Concentration (COMH): 18 Credits

The community health concentration emphasizes health education and behavior approaches to improving community health. The concentration is designed to help students learn how to address social and behavioral factors affecting the health of communities. Through coursework and opportunities for practical application, students will learn to develop, implement, manage, and evaluate health promotion and disease prevention strategies.

Community Health Concentration Requirements:

- GCH 611 - Health Program Planning Credits: 3
- GCH 701 - Program Evaluation Credits: 3
  and
- COMM 620 - Health Communication Credits: 3
  or
- COMM 705 - Intercultural Health and Risk Communication Credits: 3

Choose two additional courses of the following:

- GCH 502 - U.S. Role in Global Health, Nutrition, and Population Credits: 3
- GCH 520 - Global Health Perspectives on Alcohol Credits: 3
• GCH 530 - Nutrition: A Global Perspective Credits: 3
• GCH 543 - Global Health: Trends and Policies Credits: 3
• GCH 571 - HIV/AIDS: Concepts, Principles, and Interventions Credits: 3
• GCH 605 - Social Epidemiology Credits: 3
• GCH 702 - Biobehavioral Aspects of Health Credits: 3
• COMM 637 - Risk Communication Credits: 3
• COMM 721 - E-Health Communication Credits: 3
• COMM 820 - Health Communication Campaigns Credits: 3

Elective: 3 credits as approved by advisor

All electives must be approved by advisor prior to the start of the course.

▲ Epidemiology Concentration (EPID): 18 Credits

Epidemiology is the study of the factors that influence the occurrence, distribution, prevention, and control of disease. The epidemiology concentration emphasizes the development of skills such as study design, data collection and management, data analysis and interpretation, and communication of research findings.

Epidemiology Concentration Requirements:

• GCH 804 - Advanced Quantitative Data Analysis for Health Care Research I Credits: 3
  or approved statistics course
  and
• GCH 805 - Advanced Quantitative Data Analysis for Health Care Research II Credits: 3
  or
• GCH 680 - International Research Ethics and Methods Credits: 3
  or approved statistics course

Choose two of the following:

• GCH 722 - Infectious Disease Epidemiology Credits: 3
• GCH 732 - Chronic Disease Epidemiology Credits: 3
• GCH 752 - Nutritional Epidemiology Credits: 3

Choose one additional course of the following:

• GCH 551 - Research Methods in Rehabilitation Science Credits: 3
• GCH 605 - Social Epidemiology Credits: 3
Elective: 3 credits as approved by advisor

All electives must be approved by advisor prior to the start of the course.

▲ Global Health Concentration (GLOH): 18 Credits

The global health concentration is directed toward developing an understanding of health problems that extend across borders. Professionals working in global health need to be familiar with a wide range of health topics, including infectious disease, nutrition, environmental health, social and cultural factors impacting health, and health policy and management. The global health concentration provides opportunities to develop knowledge and skills in these areas through both coursework and practical experiences. Students completing this concentration will be prepared to design, implement, monitor, and manage health programs in international settings.

Global Health Concentration Requirements:

- GCH 543 - Global Health: Trends and Policies Credits: 3
- GCH 530 - Nutrition: A Global Perspective Credits: 3

Choose three of the following:

- GCH 502 - U.S. Role in Global Health, Nutrition, and Population Credits: 3
- GCH 520 - Global Health Perspectives on Alcohol Credits: 3
- GCH 583 - Food and Culture: Biocultural Perspectives on Food and Nutrition Credits: 3
- GCH 594 - Special Topics in Health Care Credits: 3
  Global Health focus sections only
- GCH 602 - Global Health Issues Related to Violence Credits: 3
- GCH 605 - Social Epidemiology Credits: 3
- GCH 680 - International Research Ethics and Methods Credits: 3
- GCH 722 - Infectious Disease Epidemiology Credits: 3
- GCH 751 - Nutritional Assessment, Monitoring, and Surveillance Credits: 3
- GCH 752 - Nutritional Epidemiology Credits: 3
- HAP 609 - Comparative International Health Systems Credits: 3
Elective: 3 credits as approved by advisor

All electives must be approved by advisor prior to the start of the course.

▲ Public Health Administration Concentration: 18 Credits

The Public Health Administration Concentration provides courses that explain the organization, financing, and delivery of health services and public health systems in the United States and prepare students to apply the principles of program planning, development, budgeting, management, and evaluation to organizational and community initiatives.

Public Health Administration Requirements:

- HAP 645 - Introduction to Health Sciences Research Credits: 3
- HAP 702 - Managerial Accounting in Health Care Credits: 3
- HAP 705 - Strategic Management and Marketing in Health Care Credits: 3
- HAP 715 - Health Economics Credits: 3
- HHS 750 - Legal Issues Relevant to Health Care Administration Credits: 3

Elective: 3 credits as approved by advisor

All electives must be approved by advisor prior to the start of the course.

Total: 42 credits

Master's Level Certificate

Biostatistics Graduate Certificate (CHHS)

Banner Code: HH-CERG-BSTN

Unit: Global and Community Health

This 15 credit certificate prepares participants to use statistical methods to analyze health care data. It is designed for health scientists and professionals in health-related government agencies, pharmaceutical companies, research hospitals, public health agencies, and other medical research organizations who design medical experiments and analyze and interpret increasingly complex health care data. In addition, the program helps prepare students to begin careers in such organizations.
The certificate is a joint graduate certificate program from the Department of Statistics in the Volgenau School of Information Technology and Engineering and the Department of Global and Community Health in CHHS. Courses are taught by faculty members from both programs.

**Admission Requirements**

Applicants must hold a bachelor’s degree from a regionally accredited institution of higher education in a discipline related to health science or statistics, with a GPA of 3.00 in the last 60 credits. Such fields include medicine, biology, nursing, health science, biostatistics, statistics, mathematics, and psychology. A course in statistics and a course in college algebra with a grade of B or higher are required for admission to the program.

**Certificate Requirements**

Students must complete one course from each of the five groups. A minimum of 6 credits must be taken through the Department of Global and Community Health.

Candidates must have 15 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate.

- GCH 712 - Introduction to Epidemiology Credits: 3
- STAT 660 - Biostatistical Methods Credits: 3

**Choose one of the following two courses:**
- STAT 535 - Analysis of Experimental Data Using SPSS Credits: 3
- STAT 554 - Applied Statistics Credits: 3

**Choose one of the following courses:**
- GCH 804 - Advanced Quantitative Data Analysis for Health Care Research I Credits: 3
- NURS 804 - Advanced Quantitative Data Analysis for Health Care Research I Credits: 3
- STAT 544 - Applied Probability Credits: 3

**Choose one of the following courses:**
- GCH 805 - Advanced Quantitative Data Analysis for Health Care Research II Credits: 3
- NURS 805 - Advanced Quantitative Data Analysis for Health Care Research II Credits: 3

or one 600 level course in statistics

**Total: 15 credits**

**Epidemiology Graduate Certificate**

Banner Code: HH-CERG-EPID

Unit: Global and Community Health
Epidemiology is the study of the factors that influence the occurrence, distribution, prevention, and control of disease. This certificate prepares students to apply the principles and methods of epidemiology to health research. The program emphasizes the development of skills such as study design, data collection and management, data analysis and interpretation, and communication of research findings. All students in the certificate program must complete introductory courses in epidemiology and biostatistics and then choose four elective courses in areas such as infectious disease epidemiology, chronic disease epidemiology, social epidemiology, and advanced epidemiological methods.

Certificate Requirements

Students applying to the certificate must hold a bachelor’s degree. Application is made through the CHHS. Course work in statistics, health science, biological science, and the social sciences are beneficial in preparation for this certificate. Candidates must have 18 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate.

Required Courses (6 credits)

- GCH 601 - Introduction to Biostatistics Credits: 3 (or an approved graduate-level statistics course)
- GCH 712 - Introduction to Epidemiology Credits: 3

Electives (select 12 credits from the following)

- GCH 605 - Social Epidemiology Credits: 3
- GCH 680 - International Research Ethics and Methods Credits: 3
- GCH 722 - Infectious Disease Epidemiology Credits: 3
- GCH 726 - Advanced Seminar in Epidemiology Credits: 3
- GCH 732 - Chronic Disease Epidemiology Credits: 3
- GCH 752 - Nutritional Epidemiology Credits: 3

Total: 18 credits

Note:

Other epidemiology-related courses may count toward the certificate with prior approval of the program director.

Gerontology Graduate Certificate

Banner Code: HHS-CERG-GERO

Unit: Global and Community Health

The graduate certificate program in gerontology combines theoretical and applied course work in aging with the student’s graduate curriculum in one of several departments. Because gerontology is by definition multidisciplinary, students are required to take course work outside their major field. Two other academic units participate in the program: the Department of Psychology and the Department of Sociology and Anthropology. The program is administered by CHHS and supervised by a committee with representatives from the participating academic units.
Certificate Requirements

Applicants must have a bachelor’s degree in nursing or a related discipline. Application is made through CHHS. Candidates must have 18 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate.

Required Core Courses (6 credits)

- GCH 637 - Normal Aging and Health Deviations Credits: 3
- SOCI 686 - Sociology of Aging Credits: 3

Gerontology Electives (3 credits)

Select at least one of the following:

- NURS 505 - Case Management Credits: 3
- PSYC 592 - Special Topics Credits: 1-6

Other Electives (3 credits)

Select at least one of the following:

- EDCD 525 - Advanced Human Growth and Development Credits: 3
- SOCI 651 - Health Care Systems Credits: 3
- EFHP 630 - Exercise, Health, and Fitness Program Development Credits: 3

Practicum Requirements (6 credits)

- GCH 770 - Gerontology Practicum I Credits: 3
- GCH 771 - Gerontology Practicum II Credits: 3

Total: 18 credits

Global Health Graduate Certificate

Banner Code: HHI-CERG-GLOH

Unit: Global and Community Health

This program develops an understanding of global health through a practicum, as well as a sequence of courses that includes global health, epidemiology, nutrition, anthropology, international relations, communications, and geography.
Certificate Requirements

Applicants must hold a bachelor’s degree. Candidates must have 18 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate. Application is made through CHHS.

Required Courses (12 credits)

- GCH 530 - Nutrition: A Global Perspective Credits: 3
- GCH 543 - Global Health: Trends and Policies Credits: 3
- GCH 590 - International Health Organizations Credits: 3
- GCH 798 - Practicum in Public Health I Credits: 3

Electives (select 6 credits from the following)

- GCH 550 - Introduction to Rehabilitation Science Credits: 3
- GCH 560 - Environmental Health Credits: 3
- GCH 602 - Global Health Issues Related to Violence Credits: 3
- GCH 605 - Social Epidemiology Credits: 3
- GCH 610 - Foundations of Health Education and Behavior Credits: 3
- GCH 620 - Psychosocial Aspects of Rehabilitation Credits: 3
- GCH 637 - Normal Aging and Health Deviations Credits: 3
- GCH 680 - International Research Ethics and Methods Credits: 3
- GCH 712 - Introduction to Epidemiology Credits: 3
- GCH 722 - Infectious Disease Epidemiology Credits: 3
- GCH 751 - Nutritional Assessment, Monitoring, and Surveillance Credits: 3
- GCH 752 - Nutritional Epidemiology Credits: 3
- ANTH 631 - Refugees in the Contemporary World Credits: 3
- COMM 637 - Risk Communication Credits: 3
- HAP 609 - Comparative International Health Systems Credits: 3
- HHS 597 - Approaches to Quantitative Data Analysis in Health Care Research Credits: 3
- PUAD 636 - The NGO: Policy and Management Credits: 3

Total: 18 credits

Nutrition Graduate Certificate

Banner Code: HH-CERG-NUTR

Unit: Global and Community Health

The graduate certificate in nutrition prepares students to apply nutrition principles and the latest scientific evidence and methods of nutrition to health practice and research among different populations. The program emphasizes understanding the role of nutrition in population health and well-being and the development of skills required in the practice, analysis, and interpretation of nutrition-related information and data among individuals and populations. Students will acquire competencies in the following
areas: public health nutrition framework, assessment and monitoring; research design and methodology; and planning and evaluation of nutrition programs.

**Admission**

Admission to this certificate requires a bachelor’s degree from an accredited institution of higher education with a minimum GPA of 3.00 in the last 60 credits. Application is made through the CHHS.

**Certificate Requirements**

Undergraduate courses in natural sciences, nursing, health science, and sociology are helpful. A maximum of 3 credits in equivalent course work taken at another college or university can be applied toward the certificate.

Candidates must have 18 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate.

**Required Courses (12 credits)**

- GCH 530 - Nutrition: A Global Perspective Credits: 3
- GCH 566 - Nutrition and Weight Management Credits: 3
- GCH 712 - Introduction to Epidemiology Credits: 3
- GCH 751 - Nutritional Assessment, Monitoring, and Surveillance Credits: 3

**Electives (select two of the following) (6 credits)**

- GCH 583 - Food and Culture: Biocultural Perspectives on Food and Nutrition Credits: 3
- GCH 611 - Health Program Planning Credits: 3
- GCH 752 - Nutritional Epidemiology Credits: 3

**Total: 18 credits**

**Public Health Graduate Certificate**

*Banner code: PUBH*

*Unit: Global and Community Health*

The public health certificate will provide students with the fundamental skills and knowledge central to each of the five core areas of public health – social and behavioral health, epidemiology, biostatistics, environmental health, and health systems.

**Admission Requirements:**

Students applying to the certificate program must hold a bachelor’s degree. Application is made through the College of Health and Human Services.
Certificate Requirements

A minimum GPA of 3.0 in the certificate courses is required for the certificate to be granted.

Required Courses (15 credits)

- GCH 601 - Introduction to Biostatistics Credits: 3
- GCH 560 - Environmental Health Credits: 3
- GCH 712 - Introduction to Epidemiology Credits: 3
- GCH 610 - Foundations of Health Education and Behavior Credits: 3
  and
- GCH 590 - International Health Organizations Credits: 3
  or
- HAP 678 - Introduction to the U.S. Health System Credits: 3

Electives (3 credits)

Select one elective course from GCH or HAP in consultation with your Public Health certificate advisor.

Total: 18 credits

Rehabilitation Science Graduate Certificate

Banner Code: HH-CERG-RHBS

Unit: Global and Community Health

The Institute of Medicine defines rehabilitation science as “a field of study that encompasses basic and applied aspects of the health sciences, social sciences, and engineering. It is the melding of knowledge from several disciplines to understand the fundamental nature of the enabling-disabling process.” The graduate certificate in rehabilitation science prepares participants to apply research and statistical techniques to the study of the enabling-disabling process. Students will acquire competencies in the following areas: rehabilitation and recovery framework, research design and methodology, statistics, and conduct of applied rehabilitation research.

Admission

Admission to this certificate requires a bachelor’s degree in a discipline related to health sciences from an accredited institution of higher education with a minimum GPA of 3.00 in the last 60 credits. Such fields include, but are not limited to, health science, biostatistics, biology, nursing, medicine, physical therapy, occupational therapy, psychiatry, engineering, and psychology. Application is made through the CHHS.

Certificate Requirements
A maximum of 3 credits in equivalent course work taken at another college or university can be applied toward the certificate.

Candidates must have 15 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate.

Required Courses (12 credits)

- GCH 510 - Scientific Basis for Pain, Fatigue, and Suffering in Chronic Illness and Disability Credits: 3
- GCH 550 - Introduction to Rehabilitation Science Credits: 3
- GCH 551 - Research Methods in Rehabilitation Science Credits: 3
- HHS 597 - Approaches to Quantitative Data Analysis in Health Care Research Credits: 3

Electives (3 credits)

Select one of the following:

- GCH 506 - Clinical Exercise Physiology Credits: 3
- GCH 620 - Psychosocial Aspects of Rehabilitation Credits: 3
- GCH 637 - Normal Aging and Health Deviations Credits: 3
- GCH 659 - Health Care of Aging Persons with Chronic Illnesses Credits: 3
- GCH 712 - Introduction to Epidemiology Credits: 3
- GCH 732 - Chronic Disease Epidemiology Credits: 3
- GCH 740 - Applied Physiology: Cardiorespiratory System Credits: 3

- GCH 804 - Advanced Quantitative Data Analysis for Health Care Research I Credits: 3
  or
- NURS 804 - Advanced Quantitative Data Analysis for Health Care Research I Credits: 3

Total: 15 credits

■ Health Administration and Policy

Phone: 703-993-1929
web: hap.gmu.edu/

Faculty

Professors: Hadley, Kluger, Maddox (chair), Meiners, Nichols

Associate Professors: Eckenwiler, Cuellar, Perlin

Assistant Professors: Carle, Cantiello, Cartwright, Kitsantas, Wojtusiak, Yang

Instructors: Henderson, Shiver
The mission of the Department of Health Administration and Policy (HAP) is to provide innovative education and research that contributes to improving health and human systems and the quality of life and health for those they serve across the life span. The Department prepares working professionals and those who aspire to careers in health systems and organizations to work as administrators, health technology officers, data security managers, and health policy analysts.

The research and scholarly activities of the department contribute to basic and applied knowledge about the organization, management, financing and performance of U.S. health systems and public health services, the development and management of health information systems and the development and analysis of US health policy to foster innovation, public accountability and contribute to ensuring access to cost effective, high quality health services and evidenced based health policy. The Department works with consumers, stakeholders, students, faculty, alumni, research funders, and the community to ensure rigorous, relevant educational programs (including post-graduate professional development), service activities, and the development and timely dissemination of research.

Undergraduate Degree

Health Administration, BS

Banner Code: HH-BS-HADM

Unit: Health Administration and Policy

The BS in health administration prepares students to become managers and clinicians in a variety of settings, including hospitals; clinics; schools; community health, home care, long-term care, employee health, and managed care organizations; group medical practices; manufacturing, medical technology, and supply organizations; advocacy organizations and professional associations; the insurance industry; and financial consultant services. Concentrations are offered in health systems management and in assisted living administration.

The concentration in health systems management prepares graduates to serve in entry-level administrative and support positions in a variety of health-related organizations and settings.

The program may be completed on a full- or part-time basis leading to completion of the objectives of the undergraduate BS program. A criminal background check is required of all students prior to beginning their internship. A minimum grade of C must be obtained in all major requirements (33 credits).

Students must check with their advisor to ensure that all requirements have been met prior to graduation. HAP 498 is a competitive internship elective offered in the student’s final semester as described below.

Degree Requirements

General Education (38 credits)

Written Communication:

- ENGL 101 - Composition Credits: 3
- ENGL 302 - Advanced Composition Credits: 3 (Business section recommended)
Nonnative speakers of English with limited proficiency in the language may substitute ENGL 100 for ENGL 101. Students must attain a minimum grade of C in ENGL 100 or 101, as well as in 302, to fulfill degree requirements.

**Oral Communication:**

Choose one of the following:

- COMM 100 - Public Speaking Credits: 3
- COMM 101 - Interpersonal and Group Interaction Credits: 3

**Quantitative Reasoning:**

- STAT 250 - Introductory Statistics I Credits: 3

**Information Technology:**

- IT 103 - Introduction to Computing Credits: 3

**Literature:**

- An approved University General Education literature course.

**Arts:**

- An approved University General Education arts course.

**Natural Science:**

- BIOL 103 - Introductory Biology I Credits: 4
- BIOL 104 - Introductory Biology II Credits: 4

**Western Civilization:**

Choose one of the following:

- HIST 100 - History of Western Civilization Credits: 3
- HIST 125 - Introduction to World History Credits: 3

**Global Understanding:**

- An approved University General Education global understanding course.
Social Science:

Choose one of the following:

- SOCI 101 - Introductory Sociology Credits: 3
- ANTH 114 - Introduction to Cultural Anthropology Credits: 3

▲ Concentration in Health Systems Management (HSMG)

Required Courses (22 credits)

- ACCT 203 - Survey of Accounting Credits: 3
- BULE 302 - Legal Environment of Business Credits: 3
- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- HHS 201 - Introduction to Careers in the Health Professions Credits: 3
- MIS 102 - Spreadsheet Applications for Business Credits: 1
- MSOM 303 - Marketing in a Global Economy Credits: 3
- PHIL 309 - Bioethics Credits: 3
- PSYC 100 - Basic Concepts in Psychology Credits: 3

Major Requirements (33 credits)

- GCH 300 - Introduction to Public Health Credits: 3
- HAP 301 - Health Care Delivery in the United States Credits: 3
- HAP 360 - Introduction to Health Information Systems Credits: 3
- HAP 395 - Health Care Finance Credits: 3
- HAP 396 - Strategic Management and Planning Credits: 3
- HAP 410 - Introduction to Health/Medical Practice Management Credits: 3
- HAP 416 - Leadership and Management of Health Systems I Credits: 3
- HAP 417 - Leadership and Management of Health Systems II Credits: 3
- HAP 442 - Introduction to Health Care Politics and Policy Credits: 3
- HAP 445 - Introduction to Health Services Research Credits: 3
- HHS 465 - Examination and Integration of Professional and Health Care Issues Credits: 3 (satisfies the university synthesis requirement)

CHHS Electives (9 credits)

- 3 credits of CHHS electives approved by the program coordinator
- HAP 498 - Health Administration Internship Credits: 6
The internship course (HAP 498) is a 6-credit pathway elective. Students must submit an application and be chosen by
a panel of HAP Department faculty. The internship is designed to provide selected students with experience in a real
world work environment.

Note: Students electing to not take an internship, or not approved by the Department, must take and pass, with a C or
better, 6 credits approved by the undergraduate coordinator in order to fulfill the requirement of 9 credits of CHHS
electives.

General Electives (18 credits)

- Electives are at the student’s discretion.

Total: 120 credits

▲ Concentration in Assisted Living Administration (ALA)

Required Courses (19 credits)

- PHIL 309 - Bioethics Credits: 3
- PSYC 100 - Basic Concepts in Psychology Credits: 3
- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- MIS 102 - Spreadsheet Applications for Business Credits: 1
- ACCT 203 - Survey of Accounting Credits: 3
- MSOM 303 - Marketing in a Global Economy Credits: 3
- BULE 302 - Legal Environment of Business Credits: 3

Assisted Living Concentration Courses (51 credits)

- GCH 300 - Introduction to Public Health Credits: 3
- GCH 332 - Health and Disease Credits: 3
- GCH 480 - Health Maintenance and Health Aspects of Aging Credits: 3
- HAP 395 - Health Care Finance Credits: 3
- HAP 396 - Strategic Health Management and Planning Credits: 3
- HAP 307 - Assisted-Living Management and Philosophy Credits: 3
- HAP 360 - Introduction to Health Information Systems Credits: 3
- HAP 301 - Health Care Delivery in the United States Credits: 3
- HAP 410 - Introduction to Health/Medical Practice Management Credits: 3
- HAP 416 - Leadership and Management of Health Systems I Credits: 3
- HAP 417 - Leadership and Management of Health Systems II Credits: 3
- HAP 460 - Information Technology Project Management Credits: 3
- HHS 465 - Examination and Integration of Professional and Health Care Issues Credits: 3
- NURS 492 - Death, Dying, and Decision Making Credits: 3
- GCH 585 - Care Management of Persons with Alzheimer's Disease and Related Disorders Credits: 3 (satisfies
  the university synthesis requirement)
- HAP 498 - Health Administration Internship Credits: 6
Internship in assisted living and senior housing or hospitality services as approved by the program coordinator.  
Note: This internship is designed to provide selected students with project-focused work experience in an assisted living or senior housing or hospitality enterprise under the direction of a preceptor.

Electives (12 credits)

- Electives must be taken from a list of electives approved by the department.

Total: 120 credits

**Undergraduate Minor**

**Health and Social Policy Minor**

**Banner code: HSP**

Unit: Health Administration and Policy and Social Work

The minor in Health and Social Policy introduces students to the context and process for public policymaking in health care and social services. Students will examine the current environment for health and social policy, learn the basic elements of the public policymaking process, and apply this knowledge in a practical research endeavor. This minor is a joint program offered by the Department of Health Administration and Policy and the Department of Social Work.

**Minor Requirements (15 credits)**

Students pursuing this minor must complete 15 credits as follows:

Students will take four (4) core and one (1) elective course (in an area of health and social policy interest). The final core course is the Research Internship, taken after completion of the other course requirements for the minor. In the internship course, the student will work as a member of a research team under the direction/mentorship of a faculty researcher.

**Required Courses (12 credits)**

- HAP 301 - Health Care Delivery in the United States Credits: 3
- HAP 442 - Introduction to Health Care Politics and Policy Credits: 3
- GCH 445 or SOCW 445 - Social Determinants of Health Credits: 3
- HHS 480 - Research Internship in Health and Human Services Credits: 3
  HHS 480 is taken as a capstone course after other courses in the minor are completed

**Electives (3 credits)**

Select one of the following:
Health Information Technology Minor

Banner code: HIT

Unit: Health Administration and Policy

The minor in Health Information Technology introduces students, in a non-technical context, to the utilization of health information management in the professional arena of healthcare management and policy. Students will examine the current and projected role of health information management in the delivery of healthcare and development of health policy and apply this information in a practical research endeavor.

Minor Requirements (15 credits)

A minor in Health Information and Technology requires a minimum of 15 credits, at least 9 of which must be applied only to the minor and cannot be used to fulfill the program of study requirements of the student’s major, concentration, undergraduate certificate, or another minor.

- HAP 301 - Health Care Delivery in the United States Credits: 3
- HAP 360 - Introduction to Health Information Systems Credits: 3
- HAP 410 - Introduction to Health/Medical Practice Management Credits: 3

**Elective (select one of two courses):**

- HAP 460 - Information Technology Project Management Credits: 3
  or
- HAP 445 - Introduction to Health Services Research Credits: 3

**Research Internship:**

- HHS 480 - Research Internship in Health and Human Services Credits: 3

A minor in Health Information Technology requires a dedicated internship (HHS 480) that may only be applied toward this minor or CHHS program of study. The research internship will be focused on research in an area of applied health.
informatics. The practicum experience will be supervised by a course faculty member, under the direction of a faculty mentor from the Department of Health Administration and Policy engaged in research. Special course pre-registration procedures must be completed prior to registering for this course. As part of this process, the student’s research practicum and faculty assignment must be approved in writing, prior to registration, by his/her CHHS faculty advisor.

Total: 15 credits

Master’s Degree

Health and Medical Policy, MS (CHHS)

Banner code: HH-MS-HMP

Unit: Health Administration and Policy

The master’s program in health and medical policy is offered jointly by the College of Health and Human Services and the School of Public Policy. It prepares students to become health and medical systems policy analysts, consultants, and public health advocates in the US and internationally. It provides students with the knowledge, skills and abilities needed to develop improved national/international health and systems planning, and decision-making and to support policy formulation for health and medical professionals, health systems development, resource allocation, and advocacy for national/international public health. Students applying to the program will be admitted to one of two concentrations: Health Policy or Global Medical Policy.

The Health Policy concentration prepares students to analyze and develop policy solutions to complex health and related social service problems facing the nation and local communities. The concentration is designed to provide students with humanistic and analytic skills necessary to propose, design, implement and analyze pragmatic policy-centric solutions to a myriad of complex domestic social and health system problems.

Admissions Requirements

The following requirements are for students applying to the Health Policy concentration.

Completed applications for fall and spring semesters are reviewed on a rolling basis, with late applications considered on a space-available basis. Applicants must hold a bachelor’s degree from a regionally accredited institution, with a preferred GPA of 3.00 or higher on a 4.00 scale.

The following items must be included when applying:

- Graduate application with fee (no fee waivers)
- 750 - 1,000 word written statement of student’s goals and interest in the program
- Current résumé
- Two official transcripts of all university work completed. International students must also submit a translation of all international transcripts into English, if applicable.
- Two letters of recommendation, with at least one from an individual who is qualified to attest to the candidate’s academic potential.
- For international applicants, TOEFL scores with a minimum score of 575 on the paper-based exam; 230 on the computer-based exam; or 88 with a minimum of 20 on each of the subsections on the Internet-based exam. IELTS will
be accepted in lieu of the TOEFL; minimum of 6.5 required. Students may also be required to be tested by the English Language Institute at George Mason University.

- Certificate of Financial Responsibility (for students requesting an F-1 or J-1 visa).

Submission of GRE or GMAT scores is not required except for School of Public Policy students seeking Merit-Based Scholarships.

Students may be admitted for non-degree study and apply a limited number of credits toward the master's degree should they choose to apply to the degree program later, in accordance with university policy.

**Academic Policies**

Per university regulation, students are dismissed from the university after accumulating grades of F in two courses or 9 credits of unsatisfactory grades.

**Degree Requirements**

Students complete 42 hours of course work through a combination of common core courses and concentration courses in either of the two concentrations.

**Core Courses (21 credits)**

**Health and Medical Systems (6 credits)**

- HAP 609 - Comparative International Health Systems Credits: 3 or equivalent
- HAP 715 - Health Economics Credits: 3 or equivalent

**Public Policy Process (6 credits)**

- PUBP 700 - Theory and Practice in Public Policy Credits: 3 or equivalent
- PUBP 730 - National Policy Systems and Theory Credits: 3 or equivalent

**Policy Analysis (9 credits)**

Choose one course from each of the following three groups:

- HAP 710 - Inferential Statistics in Health Services Research and Management Credits: 3
or
- PUBP 704 - Statistical Methods in Policy Analysis Credits: 3

- HAP 730 - Health Care Decision Analysis Credits: 3
  or
- PUBP 713 - Policy and Program Evaluation Credits: 3

- HAP 645 - Introduction to Health Sciences Research Credits: 3
  or
- PUBP 710 - Topics in Public Policy Credits: 1-3 (Global Medical Systems Policy Analysis)

▲ Concentration in Health Policy (HP)

Required Courses (15 credits)

- HAP 660 - Health Policy Formation and Implementation Credits: 3
- HHS 750 - Legal Issues Relevant to Health Care Administration Credits: 3
- HAP 762 - Cost-Effectiveness for Health Care Management and Policy Decisions Credits: 3
- HAP 764 - Health Policy and Government Payment Systems for Health Care Services Credits: 3
  and
- HAP 790 - Capstone Practicum in Health Systems Management Credits: 3
  or thesis option (HAP 799: Credits: 3)

Electives (6 credits)

Courses must be approved by concentration advisor.

Total: 42

Health Systems Management, MS

Banner Code: HHH-MS-HSMG

Unit: Health Administration and Policy

This program provides students with the skills and tools to work as leaders and executive-level managers in evolving health systems, health policy analysts, or consultants and managers of health information systems. The curriculum was developed in response to the demand for advanced health management and policy preparation for a variety of health care and allied health
professionals. Five concentrations are offered: executive management, health information systems, health care security and privacy, health policy analysis, and risk management and patient safety.

The program of study offers state-of-the-art technical and humanistic skills so that graduates may serve as leaders, managers, consultants, and health policy advisors and analysts in various settings. Graduates are prepared to work in public and private health care systems (including public health agencies); legislative arenas and policy-related professional and advocacy organizations; and health accreditation and regulatory organizations. The curriculum integrates concepts from a variety of disciplines such as business management, economics, philosophy, organizational behavior, information technology, social psychology, public policy, law, and ethics as they uniquely apply to health systems and technology management, assisted living and senior housing services administration, and health policy formulation.

The interdisciplinary curriculum is designed to prepare graduates with an understanding of the larger sociopolitical, global health, and economic contexts in which the U.S. health system operates. It provides working professionals with leadership knowledge and managerial skills and abilities that contribute to improving the efficiency and effectiveness of health systems and alignment of decisions and resources to optimize organizational and health-related public policy goals. Students examine social imperatives for access to health services and the feasibility, need, and mechanisms of market factors. They create links and alignment between public and private sectors and among voluntary, market, and regulatory forces in the context of a variety of public policy frameworks. Students explore the design and management of seamless systems of care, information technology, and services that support the providers of health-related care and services over the life span continuum. Using ethical principles, students explore approaches to improving access to care and services and the quality and safety of health systems and their integration to maximize quality of life and community health.

Admission Procedures and Requirements

Health care professionals with a baccalaureate degree and one to three years of recent experience in a health or related management, public policy, or technology field are eligible to apply. Applicants must submit the following: 1) transcripts from all previous college-level studies, 2) a letter of interest specifying study goals, 3) a curriculum vita, and 4) a completed Mason graduate admissions form. GRE or GMAT scores may be requested if the applicant does not have a graduate degree or has an undergraduate GPA lower than a 3.00. Applicants are competitively selected. Admitted students begin study in January and August each year. Provisional admission can be made for students whose undergraduate GPA is lower than 3.00, but whose work since school indicates a high likelihood of success in graduate work. Students admitted provisionally with lower than a 3.00 GPA must achieve a 3.00 GPA in the first 12 credits of graduate work.

Program Format

The program schedule is geared toward working professionals. The usual schedule for students involves part-time study, comprising two classes (6 credits) per semester. Classes are held primarily in evenings, with some Saturday daytime classes. Selected courses also are available via the Internet.

Degree Requirements

The program of study comprises 42 credits: 27 credits from the common core of the degree and another 15 from one of the six concentrations.

Core Courses (27 credits)

- HAP 501 - Business Statistics in Health Service Management Credits: 3
- HAP 586 - Quality Improvement in Health Services Credits: 3
- HAP 645 - Introduction to Health Sciences Research Credits: 3
• HAP 621 - Management of Health Service Organizations Credits: 3
• HAP 678 - Introduction to the U.S. Health System Credits: 3
• HAP 715 - Health Economics Credits: 3
• HAP 740 - Management of Health Information Systems Credits: 3
• HAP 790 - Capstone Practicum in Health Systems Management Credits: 3
• HHS 750 - Legal Issues Relevant to Health Care Administration Credits: 3

▲ Concentration in Executive Management (EMGT)

Required Courses (15 credits)

• HAP 702 - Managerial Accounting in Health Care Credits: 3
• HAP 703 - Financial Management in Health Systems Credits: 3
• HAP 704 - Contemporary Issues in Health Systems Management Credits: 3
• HAP 705 - Strategic Management and Marketing in Health Care Credits: 3
• HAP 706 - Integrated Health Systems Management Credits: 3

Total: 15 credits

▲ Concentration in Health Policy Analysis (HP)

Required Courses (9 credits)

• HAP 642 - Health Policy Development and Analysis Credits: 3
• HAP 730 - Health Care Decision Analysis Credits: 3
• HAP 866 - Politics of Influencing Health Care Policy Credits: 3

Electives (select 6 credits from the following)

• HAP 547 - Regulatory Requirements for Health Care Systems Credits: 3
• HAP 609 - Comparative International Health Systems Credits: 3
• HAP 703 - Financial Management in Health Systems Credits: 3
• HAP 714 - Ethical Issues in Health Administration and Policy Credits: 3
• HAP 727 - Program Evaluations in Health Care Credits: 3
• HAP 745 - Health Care Security Policy Credits: 3
• HAP 762 - Cost-Effectiveness for Health Care Management and Policy Decisions Credits: 3
• HAP 764 - Health Policy and Government Payment Systems for Health Care Services Credits: 3

Total: 15 credits
▲ Concentration in Health Care Security and Privacy (HCSP)

Required Courses (12 Credits)

- HAP 735 - Risk Analysis in Health and Bioscience Credits: 3
- HAP 612 - Maintaining Business Continuity in Health Care Credits: 3
- HAP 745 - Health Care Security Policy Credits: 3
- ISA 562 - Information Security Theory and Practice Credits: 3

Elective (3 Credits)

Advisor-approved elective related to health care data or information systems security or policy

Total: 15 credits

▲ Concentration in Health Information Systems (HISN)

Required Courses (12 credits)

- HAP 601 - E-Commerce and On-line Marketing for Health Services Credits: 3
- HAP 709 - Health Care Databases Credits: 3
- HAP 720 - Health Data Integration Credits: 3
- HAP 745 - Health Care Security Policy Credits: 3

Electives (3 credits)

- Approved elective: Credits: 3

Total: 15 credits

▲ Concentration in Assisted Living/Senior Housing Administration (ASHA)

Required Courses (6 credits)

- HAP 650 - Assisted Living Management and Operations Credits: 3
- HAP 705 - Strategic Management and Marketing in Health Care Credits: 3
Electives (select 9 credits from the following)

- GCH 585 - Care Management of Persons with Alzheimer's Disease and Related Disorders Credits: 3
- GCH 637 - Normal Aging and Health Deviations Credits: 3
- HAP 662 - Aging and Health Care Policy Credits: 3
- HAP 702 - Managerial Accounting in Health Care Credits: 3
- HAP 703 - Financial Management in Health Systems Credits: 3

Total: 15 credits

▲ Concentration in Risk Management and Patient Safety (RMPS)

Required Courses (12 credits)

- HAP 730 - Health Care Decision Analysis Credits: 3
- HAP 735 - Risk Analysis in Health and Bioscience Credits: 3
  (Students may also meet this requirement by taking courses in the Epidemiology and Biostatistics Program within the Department of Global and Community Health)
- HAP 762 - Cost-Effectiveness for Health Care Management and Policy Decisions Credits: 3
- STAT 668 - Survival Analysis Credits: 3

Elective (select 3 credits from the following)

- HAP 547 - Regulatory Requirements for Health Care Systems Credits: 3
- HAP 642 - Health Policy Development and Analysis Credits: 3
- HAP 690 - Independent Study Credits: 1-3
- HAP 720 - Health Data Integration Credits: 3
- HAP 710 - Inferential Statistics in Health Services Research and Management Credits: 3
- STAT 673 - Statistical Methods for Longitudinal Data Analysis Credits: 3
  others as approved by advisor

Total: 15 credits

Master’s International

The MS in health systems management offers high-quality academic preparation in health care management, policy analysis, health information systems, health care security and privacy, and assisted living and senior housing management. Courses are scheduled at the Fairfax Campus and are offered evenings, weekends, and online. Mason is a public institution with excellent tuition rates for those who qualify for Virginia residency. Out-of-state students accepted into both the Peace Corps and the MS program who enroll as a cohort through CHHS are eligible for a 45.5 percent reduction in tuition rates. Students benefit from the
university’s proximity to Washington, D.C., by taking classes from leading professors in health policy and adjunct instructors working in government management or nonprofit settings. The Northern Virginia technology corridor provides an excellent location for students who wish to focus on management information systems.

The Master’s International (MI), a joint program of Mason and the Peace Corps, enables participants to prepare for Peace Corps volunteer service while earning the MS in health systems management. Students apply separately to the Peace Corps and to Mason. The 39-credit curriculum provides students with the skills and tools to work as leaders and executive-level managers in evolving health systems; health policy analysts; consultants and managers of electronic commerce and technology products and enterprises in the health system; and executive management of assisted living programs. An accelerated pathway is provided for Peace Corps volunteers to complete 30 credits in one year (including Summer Term). Three semester hours will be earned as internship credits for overseas Peace Corps service. Students return to Mason for their final 6 credits or take the 6 credits online.

**Admission Requirements for MI Program**

Applicants must submit a completed application for graduate admission along with the nonrefundable application fee; the application for Virginia in-state tuition rates for those claiming eligibility; original transcripts from all previously attended colleges or universities; résumé; and a letter of interest specifying study goals. Scores from a standardized graduate admissions test are not required but may be requested of students who do not have a graduate degree or an undergraduate GPA less than 3.00. Applications are reviewed throughout the year for admission to the fall or the spring semester, although new students may take their initial course during Summer Term. Students accepted into the program but waiting for notification of acceptance from the Peace Corps may begin their master’s program but will not be eligible for tuition support until they are accepted in the Peace Corps.

For more information, call the Peace Corps regional office at 1-800-424-8580. For the Fellows/USA Program, call the above number and then extension 1440.

**Senior Housing Administration, MS**

**Banner code: HH-MS-SHA**

**Unit: Health Administration and Policy**

The Master of Science in Senior Housing Administration is the nation’s first stand-alone degree for assisted living/senior housing professionals and is intended to train executives for careers in this rapidly growing field. Multidisciplinary course work enables students to evaluate, analyze, and synthesize information relative to the aging population, the evolution of assisted living and senior housing services within the U.S. health system, current regulatory and policy issues, and the application of executive-level hospitality, healthcare, and housing management practices to these services. An additional focus is on social, biological, and psychological aspects of healthy aging, and factors that promote quality of life and independence for seniors with special needs (i.e., memory issues and dementia). Electives within the degree allow individuals with either limited healthcare/senior housing or business management experience to focus on the area that will most enhance their overall skills. A capstone practicum is required, during which students complete designated course work and work experience within a host assisted living/senior housing community, association, or related organization.

**Admission Procedures and Requirements**

Professionals with a baccalaureate degree are eligible to apply. Individuals with three years of recent experience in health care, business administration, hospitality management, aging services, or related long-term care services are preferred. Applicants must submit the following: transcripts from all previous college-level studies, a letter of interest specifying study goals, a curriculum vita, and a completed Mason graduate admissions form. GRE or GMAT scores may be requested if the applicant does not have an existing graduate degree, or has an undergraduate GPA lower than a 3.00. Applicants are competitively selected. Admitted students begin study in January and August each year. Provisional admission can be made for students whose undergraduate
GPA is lower than 3.00, but whose work since school indicates a high likelihood of success in graduate work. Students admitted provisionally with lower than a 3.00 GPA must achieve a 3.00 GPA in the first 12 credits of graduate work.

**Program Format**

The program schedule is geared toward working professionals. The usual schedule for students involves part-time study, comprising two classes (6 credits) per semester. Classes are held primarily in evenings, with some Saturday daytime classes. Selected courses also are available via the Internet.

**Degree Requirements**

The program of study comprises 36-39 credit hours: 27-30 credits from the common core of the degree and another 9 from three electives.

**Required Courses (27-30 credits)**

- HAP 678 - Introduction to the U.S. Health System Credits: 3  
  HAP 678 is a prerequisite course. It may be waived for individuals with a minimum of three years healthcare/senior housing experience.
- GSOM 540 - Analysis of Financial Decisions Credits: 3
- GCH 637 - Normal Aging and Health Deviations Credits: 3
- HAP 650 - Assisted Living Management and Operations Credits: 3
- HAP 662 - Aging and Health Care Policy Credits: 3
- HAP 705 - Strategic Management and Marketing in Health Care Credits: 3
- GCH 585 - Care Management of Persons with Alzheimer's Disease and Related Disorders Credits: 3
- HHS 750 - Legal Issues Relevant to Health Care Administration Credits: 3
- COMM 635 - Organizational Communication Credits: 3
- HAP 790 - Capstone Practicum in Health Systems Management Credits: 3

**Electives (9 credits)**

Choose any three courses

**Management Focus**

*Recommended for individuals with limited or no previous business management experience*

- INFS 524 - Database Management Essentials Credits: 3
- GSOM 550 - Change Management Credits: 3
- GSOM 551 - Leadership Credits: 3
- COMM 601 - Communication in Professional Relationships Credits: 3

**Healthcare Focus**
Recommended for individuals with limited or no previous healthcare/senior housing experience

- PHIL 510 - Seminar in Ethics of Health Care Credits: 3
- EDSE 510 - Introduction to Assistive Technology Credits: 3
- PRLS 503 - Disability Rights Law in Therapeutic Recreation Credits: 3
- PSYC 518 - Death, Dying, and Grieving Credits: 3
- PSYC 614 - The Psychology of Aging Credits: 3
- GCH 550 - Introduction to Rehabilitation Science Credits: 3

Total: 36-39 credits

Master's Level Certificate

Assisted Living/Senior Housing Administration Graduate Certificate

Banner Code: CERG-ASHA

Unit: Health Administration and Policy

This 15 to 18-credit certificate provides multidisciplinary education in assisted living and senior housing services management. Courses enable students to evaluate, analyze, and synthesize information relative to the aging population, the evolution of assisted living and senior housing services within the U.S. health system, the application of business practices to these services, and current regulatory and policy issues. An additional focus is on biological, psychological, and social aspects of healthy aging, and factors that promote quality of life and independence for seniors with special needs (i.e., memory issues and dementia).

Certificate Requirements

Applicants must hold a bachelor’s degree in business administration, management, or a health-related field, or they may have any bachelor's degree plus 2 years' professional experience in the health care industry. Candidates must have 15-18 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate.

Required Courses (15 credits)

- HAP 678 - Introduction to the U.S. Health System Credits: 3 *
- GCH 585 - Care Management of Persons with Alzheimer's Disease and Related Disorders Credits: 3
- GCH 637 - Normal Aging and Health Deviations Credits: 3
- HAP 650 - Assisted Living Management and Operations Credits: 3
- HAP 705 - Strategic Management and Marketing in Health Care Credits: 3

* HAP 678 is mandatory for students without recent working experience in the U.S. health system, bringing the number of required credits to 15 for these students. Students who already possess the requisite knowledge and skills may
substitute another relevant course as approved by the program advisor. Decisions about this requirement are made by the department at the time of admission.

Optional Course (3 credits)

- HAP 790 - Capstone Practicum in Health Systems Management Credits: 3

Total: 15-18 credits

Health Care Security and Privacy Graduate Certificate

Banner Code: HI-CERG-HCSP

Unit: Health Administration and Policy

The curriculum is expected to enhance the skills of directors responsible for information and physical security at area hospitals, nursing homes, public agencies, insurance companies, and other health care agencies. The curriculum improves the effectiveness of these directors in bringing about change within their own organization and coordinating activities with counterparts in public and private agencies.

Admission Requirements

Applicants must hold a bachelor’s degree. They must submit the Mason application and two letters of recommendation. Knowledge of the health care system and design of databases is not required, but students without this knowledge are required to take additional courses. Application is made through CHHS.

Certificate Requirements

Completion of the certificate requires 15-18 credits. Candidates must have a minimum 15 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate.

Courses can be taken in any sequence. The recommended sequence is in the order of course numbers.

Required Courses (12 credits)

- HAP 612 - Maintaining Business Continuity in Health Care Credits: 3
- HAP 735 - Risk Analysis in Health and Bioscience Credits: 3
- HAP 745 - Health Care Security Policy Credits: 3
- ISA 562 - Information Security Theory and Practice Credits: 3
Electives (3 credits)

- Select a minimum of 3 credits of advisor approved electives related to health care data or information systems security or policy

Additional Coursework Required

Students are expected to have broad health care experience (or complete HAP 678) and have a knowledge of health care databases (or complete HAP 709). The decision about whether HAP 678 or HAP 709 will be required as part of the individual’s program of study is based upon the applicant’s transcripts and resume and made at the time of admission.

If HAP 678 and/or HAP 709 are required, the total credit requirement increases accordingly.

- HAP 678 - Introduction to the U.S. Health System Credits: 3
- HAP 709 - Health Care Databases Credits: 3

Total: 15-18 credits

Health Information Systems Graduate Certificate

Banner Code: HH-CERG-HISN

Unit: Health Administration and Policy

This certificate prepares clinicians and health care managers to develop and manage health information systems and health-related electronic commerce. Students learn the development, management, adoption, and use of electronic patient records, enterprise data management in the health industry, and Telehealth. The certificate is ideal for individuals with technical and programming skills who are new to the health care industry. It is also ideal for clinicians and managers with little background in information technology and database management.

Admission Requirements

Applicants must have a bachelor’s degree. No prior computer programming training is needed, although knowledge of HTML language is assumed. Application is made through CHHS.

Certificate Requirements

Completion of the certificate requires 15-18 graduate credits. Students must complete all courses with a minimum GPA of 3.00.

Required Courses (15 credits)

- HAP 586 - Quality Improvement in Health Services Credits: 3
- HAP 601 - E-Commerce and On-line Marketing for Health Services Credits: 3
- HAP 709 - Health Care Databases Credits: 3
• HAP 720 - Health Data Integration Credits: 3
• HAP 740 - Management of Health Information Systems Credits: 3

Additional Coursework Required

HAP 678 is mandatory for students without recent working experience in the U.S. health system, bringing the number of required credits to 18 for these students. HAP 678 is optional for students who already possess the requisite knowledge and skills. Decisions about this requirement are made by the department at the time of admission.

• HAP 678 - Introduction to the U.S. Health System Credits: 3

Total: 15 - 18 credits

Quality Improvement and Outcomes Management in Health Care Systems Graduate Certificate

Banner Code: HH-CERG-QIOM

Unit: Health Administration and Policy

This certificate prepares working clinicians and administrative support staff in health care organizations to implement quality-improvement initiatives and manage populations of patients to optimize efficiency and effectiveness of care and services. Participants acquire the knowledge and ability to work in interdisciplinary health care teams using the tools and techniques of statistical process control, and selected methods and tools from operations research and quality improvement. In addition, they use information management technology and qualitative decision-making applications to identify opportunities for clinical and administrative improvement, support decision making optimization, and improve health-service outcomes for identified populations.

Certificate Requirements

Applicants must hold a bachelor’s degree. Application is made through CHHS.

Candidates must have 15-18 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate.

Required Courses (12 credits)

• HAP 501 - Business Statistics in Health Service Management Credits: 3 or HHS 597, or SOCW 671, or GCH 601
• HAP 586 - Quality Improvement in Health Services Credits: 3
• HAP 709 - Health Care Databases Credits: 3
• HAP 730 - Health Care Decision Analysis Credits: 3

Elective (3 credits)
Choose one course from the following:

- HAP 547 - Regulatory Requirements for Health Care Systems Credits: 3
- HAP 710 - Inferential Statistics in Health Services Research and Management Credits: 3
- HAP 715 - Health Economics Credits: 3
- HAP 740 - Management of Health Information Systems Credits: 3
- SOCW 688 - Advanced Research in Social Work Credits: 3

Additional Coursework Required

A course in basic computer skills (credit or noncredit) and HAP 678 (mandatory for students without recent working experience in the U.S. health system) are considered optional for students who already possess the requisite knowledge and skills. They are required of those who do not. Decisions about this requirement are made by the department at the time of admission.

- HAP 678 - Introduction to the U.S. Health System Credits: 3

Total: 15-18 credits

Risk Management and Patient Safety Graduate Certificate

Banner Code: HH-CERG-RMPS

Unit: Health Administration and Policy

This graduate certificate prepares individuals with advanced skills in health-related risk assessment, management, and safety improvement in health care organizations to gain indepth knowledge to function effectively as health care risk managers.

Admission

Applicants must have a bachelor’s of science degree from an accredited university, or its equivalent. Applicants must have a grade point average of 3.00 or better, submit two letters of reference, and complete an application to the certificate program. No GRE, GMAT, or other tests are necessary. Foreign students must provide a TOEFL score.

Certificate Requirements

Candidates must have 15 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate.

Required Courses (12 credits)

- HAP 730 - Health Care Decision Analysis Credits: 3
- HAP 735 - Risk Analysis in Health and Bioscience Credits: 3
- HAP 762 - Cost-Effectiveness for Health Care Management and Policy Decisions Credits: 3
- STAT 668 - Survival Analysis Credits: 3
Elective (3 Credits)

Choose one of the following:

- HAP 547 - Regulatory Requirements for Health Care Systems Credits: 3
- HAP 642 - Health Policy Development and Analysis Credits: 3
- HAP 690 - Independent Study Credits: 1-3
- HAP 720 - Health Data Integration Credits: 3
- HAP 710 - Inferential Statistics in Health Services Research and Management Credits: 3
- STAT 673 - Statistical Methods for Longitudinal Data Analysis Credits: 3
- other as approved by advisor

Total: 15 credits

Social Work

Phone: 703-993-2030 (Undergraduate programs)
Phone: 703-993-4247 (Graduate programs)
web: chhs.gmu.edu/sw/

Faculty

Professors: Lewandowski (Chair), Raskin, Ritchie, Rose

Associate Professors: Davis, Harris Rome, Sodhi, Tompkins, Vakalahi, Wolf-Branigin

Assistant Professors: Clark, Cleaveland, Ihara

The mission of the BSW Program is to prepare entry level generalist social work professionals who will demonstrate ethical leadership in innovative multidisciplinary practice, social reform, and research in diverse communities. Students will be provided with a range of opportunities to develop a broad knowledge and skills base consistent with the systems and strengths perspectives. They are expected to practice using core social work values and to examine and resolve ethical dilemmas. Classroom and field experiences prepare students to be competent in the use of relevant new technologies and in culturally sensitive generalist social work practice.

The MSW Program seeks to prepare social workers for advanced professional practice who are innovative leaders bringing superior management, interpersonal, technological, research, and communication skills to the human service delivery system. Through a concentration in either social change or clinical practice, graduates will be prepared to empower individuals, strengthen families and communities, stimulate positive change through advocacy, social and political action, and help meet the local, national, and global challenges of the new century. The MSW Program builds upon a foundation of generalist social work knowledge and skills that integrates micro and macro theory and practice, and emphasizes empowerment and systems transformation. This foundation equips students to enhance human well-being and to promote social and economic justice through ethical professional practice with culturally diverse individuals, families, groups, organizations, and communities.

Undergraduate Degree
Social Work, BSW

Banner Code: HH-BSW-SOCW

Unit: Social Work

The undergraduate social work program prepares students for beginning generalist professional practice in social work at the baccalaureate level and has been granted full accreditation by the Council on Social Work Education. All students are expected to abide by the Code of Ethics of the National Association of Social Workers.

No academic credit toward field experience or course work is given based on previous work or life experience. Since the social work program does not offer all of the required courses during the evening hours, students should meet with their academic advisor to develop a plan to complete course work for the degree.

SOCW 323 has been approved as a university synthesis course and is open to all majors.

Admission Requirements

To be admitted to the social work program, a student must have completed at least 45 credits with a GPA of 2.30; completed or be registered in BIOL 103, ENGL 101, SOCI 101, and PSYC 100; earned at least a C in SOCW 200, 301, 323, 351, and 357; satisfactorily completed at least 60 hours in one semester in a service learning agency in conjunction with SOCW 301; and submitted an application for the social work major to the director of social work admissions. Students should file this application during the junior year. The student’s application for admission to the social work major is reviewed for action by social work faculty members. A personal interview may be required.

There is no admission to the social work program in the summer. Students who have not met all criteria for admission to the major (including completion of service learning requirements) by May 30 will not be considered for admission until the fall semester.

Immunization and Fees

All students who are enrolled in a course that requires a field placement (SOCW 301, 359, 453, and 456) must have an annual tuberculosis screening (PPD). In addition, students must complete the entire hepatitis B immunization series in accordance with current U.S. Public Health Service recommendations. The cost of immunizations is the responsibility of the student. The majority of agencies used for field placements require fingerprinting, a criminal background check (may be more extensive than the university requirement), and a child protective services check. Any cost related to these requirements is the responsibility of the student.

Writing Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in the 300 level or above. Students majoring in social work fulfill this requirement by successfully completing SOCW 471.

Degree Requirements

Students must fulfill all requirements for the bachelor's degree including university general education requirements.

General Education and Required Courses (53–54 credits)
Composition:

- ENGL 101 - Composition Credits: 3
- ENGL 302 - Advanced Composition Credits: 3

Oral Communication:

- COMM 100 - Public Speaking Credits: 3

Quantitative Reasoning:

- MATH 106 - Quantitative Reasoning Credits: 3

Information Technology:

- IT 103 - Introduction to Computing Credits: 3

Literature:

- An approved University General Education literature course.

Arts:

- An approved University General Education arts course.

Natural Science:

- BIOL 103 - Introductory Biology I
- One 3 or 4 credit approved University General Education natural science course.

Western Civilization:

- HIST 100 - History of Western Civilization Credits: 3
  or
- HIST 125 - Introduction to World History Credits: 3

Global Understanding:

- An approved University General Education global understanding course.

American Government:
• GOVT 103 - Introduction to American Government Credits: 3

Psychology:

• PSYC 100 - Basic Concepts in Psychology Credits: 3

Economics:

• ECON 100 - Economics for the Citizen Credits: 3

Sociology:

• SOCI 101 - Introductory Sociology Credits: 3

Statistics:

Choose one of the following:

• SOCI 313 - Statistics for the Behavioral Sciences Credits: 4
• PSYC 300 - Statistics in Psychology Credits: 4

Philosophy or Religion:

• PHIL or RELI course: Credits: 3

Social Work Major (42 credits)

• SOCW 200 - Introduction to Social Work Credits: 3
• SOCW 301 - Laboratory in Interpersonal Communication Credits: 4
• SOCW 323 - Human Behavior in the Social Environment I Credits: 3
• SOCW 324 - Human Behavior in the Social Environment II Credits: 3
• SOCW 351 - Social Policy and Social Justice I Credits: 3
• SOCW 352 - Social Policy and Social Justice II Credits: 3
• SOCW 357 - Methods of Social Work Intervention I Credits: 3
• SOCW 358 - Methods of Social Work Intervention II Credits: 3
• SOCW 359 - Junior Seminar Credits: 1
• SOCW 417 - Integrative Methods in Social Action and Social Change Credits: 3
• SOCW 452 - Senior Seminar I Credits: 2
• SOCW 453 - Senior Practicum I Credits: 3
• SOCW 454 - Senior Seminar II Credits: 2
• SOCW 456 - Senior Practicum II Credits: 3
• SOCW 471 - Research in Social Work Credits: 3
Electives (24-25 credits)

- Six credits must be in social work at the 400- or 500-level, not including courses listed above; SOCW 499 may be used to satisfy an additional 1 to 3 credits toward general electives.

Total: 120 credits

Notes:

SOCW 110 Global Perspectives on Human Rights is open to all students, but it does not count toward social work degree requirements.

The Social Work faculty evaluates student performance periodically and may require students to withdraw from the program when, in their judgment, performance is not satisfactory. The decision is based on the quality of academic and field performance, as well as on personal fitness for the profession of social work. Students have the right to appeal.

Class attendance is required in all Social Work courses.

SOCW 301 can only be taken in the fall semester and is a prerequisite to SOCW 359. SOCW 323, 351, and 357 are sequenced courses offered only during the fall semester. The second parts, SOCW 324, 352, and 358/359, are offered only during the spring semester and can only be taken on successful completion of the first parts (a grade of C or better). The sequencing requirement pertains only to social work majors. Graduation will be delayed if courses are not taken in proper sequence.

Undergraduate Minor

Social Work Minor

Banner Code: SOCW

Unit: Social Work

Course Work

Minor courses must be completed with a minimum GPA of 2.00.

Students should be familiar with university-wide requirements for minors described in the Undergraduate Policies section of the Academic Policies chapter of this catalog.

Required Courses (13 credits)

- SOCW 200 - Introduction to Social Work Credits: 3
- SOCW 301 - Laboratory in Interpersonal Communication Credits: 4
- SOCW 323 - Human Behavior in the Social Environment I Credits: 3
- SOCW 351 - Social Policy and Social Justice I Credits: 3
Electives (6 credits)

- Social work electives (6)

Total: 19 credits

Note:

SOCW 357, 358, 359, 452, 453, 454, and 456 are not open to minors. See an advisor in the social work program for more information.

Dual Degree

Social Work and Conflict Analysis and Resolution Dual Degree, MSW (CHHS)

Banner Codes: HHI-MSW-SOCW and CA-MS-CONF

Unit: Social Work

The Department of Social Work is partnering with George Mason’s nationally recognized Institute for Conflict Analysis & Resolution (ICAR) to offer a 3-year dual degree program. Students can earn both an MSW and an MS in Conflict Analysis & Resolution while taking advantage of the diversity of the Washington, DC metropolitan area and the University’s proximity to the nation’s capital. This is the only existing dual degree program of its kind.

Admissions Requirements

Students interested in the 3-year Dual Degree program, MSW and Master’s in Conflict Analysis & Resolution, must complete a University Graduate Application (one application; designate Social Work as the primary program). One Goal Statement, Three Letters of Recommendations, and Transcripts are required. In answering the Goal Statement and on Letters of Recommendations, please address your interest in both programs. For the MSW, also submit a Resume, Critical Thinking Essay, and Application Data Form. On the MSW checklist and applicant data form, check Dual Degree. Please consult the MSW program website and the Director for additional information.

Degree Requirements

To graduate with the dual degree, students must successfully complete the following:

Social Work Courses (50 credits)

- SOCW 623 - Human Behavior and Social Systems I Credits: 3
- SOCW 624 - Human Behavior and Social Systems II Credits: 3
- SOCW 651 - Social Policies, Programs, and Services Credits: 3
• SOCW 652 - Influencing Social Policy Credits: 3
• SOCW 657 - Direct Social Work Practice I Credits: 3
• SOCW 658 - Direct Social Work Practice II Credits: 3
• SOCW 670 - Communication and Technology for Social Work Practice Credits: 3
• SOCW 672 - Foundation Field Practicum and Seminar I Credits: 3
• SOCW 673 - Foundation Field Practicum and Seminar II Credits: 3
• SOCW 684 - Social Work and the Law Credits: 4
• SOCW 685 - Organizational Leadership for Social Workers Credits: 4
• SOCW 687 - Empowering Communities for Change Credits: 4
• SOCW 688 - Advanced Research in Social Work Credits: 3
• SOCW 694 - Social Change Practicum I Credits: 4
• SOCW 695 - Social Change Practicum II Credits: 4

Conflict Analysis and Resolution Courses (35 credits)

• CONF 501 - Introduction to Conflict Analysis and Resolution Credits: 3
• CONF 601 - Theories of Conflict and Conflict Resolution Credits: 3
• CONF 610 - Philosophy and Methods of Conflict Research Credits: 3
• CONF 642 - Integration of Theory and Practice Credits: 3
• CONF 694 - Internship Credits: 1-6
• CONF 713 - Reflective Practice in Interpersonal-Multiparty Conflicts Credits: 3
• CONF 795 - Professional Development Seminars Credits: 1-2
  5 credits of Professional Development Seminars are required

Electives

• 12 credits of CONF Electives, selected with approval from ICAR

Total: 85 credits

Master's Degree

Social Work, MSW

Banner Code: HH-MSW-SOCW

Unit: Social Work

The MSW Program opened its doors in fall 2002 and was accredited by the Council on Social Work Education in spring 2006. The MSW Program prepares students for advanced practice in social work and has been granted full accreditation by the Council on Social Work Education. Following completion of a foundation year of study, students complete specialized concentrations in social change or clinical practice. All social work students are expected to abide by the Code of Ethics of the National Association of Social Workers. No academic credit toward field experience or course work is given based on previous work or life experience.
To accommodate students, MSW courses are offered during the day and evening hours. Field placements, however, generally require availability during regular daytime hours. Students are required to successfully complete 1,200 hours of supervised field practicum in agencies approved by the Department of Social Work. Students may complete the MSW Program under a two-year or three-year plan, but all courses are sequenced and must be taken in the order designated. Students should meet with their academic advisor to ensure timely completion of all degree requirements.

Admission Requirements

Students are admitted in fall semester only. In addition to meeting the university’s graduate admission requirements, including an undergraduate degree from a regionally accredited college or university, students must have a minimum of 30 undergraduate credits in the liberal arts, including at least 3 credits in each of the following: English composition, history or government, social sciences, and statistics.

Program Requirements

To remain in good standing, students must earn a B- or better in each required course and maintain a 3.00 GPA. A prerequisite must be satisfied with a B- or better before registering for the next course in a sequence. A course in which the student earns a C may be repeated once. No more than 8 total credits of C may be repeated overall. Two course grades of F or 9 credits of unsatisfactory grades (C or below) will result in termination from the program.

Social Work faculty members evaluate each student’s performance periodically and may require the student to withdraw from the program when, in their judgment, performance is not satisfactory. The decision is based on the quality of academic and field performance, as well as on personal fitness for the profession of social work. The student has the right to appeal.

Insurance Coverage

Students engaged in internships are covered for liability under the Commonwealth of Virginia’s Self-Insured Liability Insurance Plan and covered for medical malpractice under the Medical Malpractice Insurance Plan, as established by the Department of General Services, Division of Risk Management. Only practicum activities that have been determined by the field instructor to be part of the course are covered. Students are encouraged to obtain professional liability coverage through the National Association of Social Workers, although this additional coverage is optional.

Immunizations

All students who are enrolled in a course that requires a field placement (SOCW 672, 673, 692, 693, 694, 695) must have an annual tuberculosis screening (PPD). In addition, students must complete the entire Hepatitis B immunization series in accordance with current U.S. Public Health Service recommendations. Any cost related to these requirements is the responsibility of the student. Students can register for classes prior to the completion of the immunizations but documentation of completion must be submitted to the social work office no later than October 1 for fall entrance. Immunizations are program requirements and must be completed by the student even if they are not required by the agency. Documentation must be submitted to the MSW Program administrative assistant.

Degree Requirements

Nondegree students must seek department approval before registering for courses. Nondegree students may take up to 9 credits total which may be transferred into the program once they are admitted. Courses available to nondegree students include: SOCW 670, SOCW 623 and SOCW 624, or SOCW 651 and SOCW 652.
In order to graduate with the MSW degree, students must successfully complete the following foundation courses and one concentration.

Foundation Courses (30 credits)

- SOCW 623 - Human Behavior and Social Systems I Credits: 3
- SOCW 624 - Human Behavior and Social Systems II Credits: 3
- SOCW 651 - Social Policies, Programs, and Services Credits: 3
- SOCW 652 - Influencing Social Policy Credits: 3
- SOCW 657 - Direct Social Work Practice I Credits: 3
- SOCW 658 - Direct Social Work Practice II Credits: 3
- SOCW 670 - Communication and Technology for Social Work Practice Credits: 3
- SOCW 671 - Research Methods for Social Workers Credits: 3
- SOCW 672 - Foundation Field Practicum and Seminar I Credits: 3
- SOCW 673 - Foundation Field Practicum and Seminar II Credits: 3

Concentration (30 credits)

▲ Social Change Concentration (SOCC)

- SOCW 676 - Selected Topics in Social Work and Social Change Credits: 4
- SOCW 684 - Social Work and the Law Credits: 4
- SOCW 685 - Organizational Leadership for Social Workers Credits: 4
- SOCW 687 - Empowering Communities for Change Credits: 4
- SOCW 688 - Advanced Research in Social Work Credits: 3
- SOCW 694 - Social Change Practicum I Credits: 4
- SOCW 695 - Social Change Practicum II Credits: 4
- SOCW 697 - Thesis Project Seminar Credits: 3

▲ Clinical Practice Concentration (CLNP)

- SOCW 630 - Forensic Social Work Practice Credits: 4
- SOCW 640 - Advanced Clinical Practice Credits: 4
- SOCW 645 - Community-Centered Clinical Practice Credits: 4
- SOCW 674 - Psychopathology Credits: 4
- SOCW 688 - Advanced Research in Social Work Credits: 3
- SOCW 692 - Clinical Practicum I Credits: 4
- SOCW 693 - Clinical Practicum II Credits: 4
- SOCW 697 - Thesis Project Seminar Credits: 3

Thesis

- All students must successfully complete a culminating research thesis.
Total: 60 credits

Advanced Standing

Students with a BSW degree who demonstrate superior academic achievement and excellence in social work practice will be considered for advanced standing. Advanced standing students begin the MSW Program in the summer and upon successfully completing SOCW 670, move directly into the concentration year. Advanced standing students must successfully complete 600 hours of supervised field practicum in agencies approved by the Department of Social Work.

Admission Requirements

Minimum admission requirements include a BSW degree earned within the past five years from a program accredited by the Council on Social Work Education; a GPA of 3.20 for the last 60 credits of the undergraduate degree; and 30 credits of undergraduate liberal arts courses, including a minimum of 3 credits in each of the following: statistics, English composition, history or government, and social science.

To graduate with the MSW degree, advanced standing students must successfully complete the following foundation course in the summer prior to beginning the concentration year, and complete one concentration.

Foundation Course (3 credits)

- SOCW 670 - Communication and Technology for Social Work Practice Credits: 3

Concentration (30 credits)

▲ Social Change Concentration (SOCC)

- SOCW 676 - Selected Topics in Social Work and Social Change Credits: 4
- SOCW 684 - Social Work and the Law Credits: 4
- SOCW 685 - Organizational Leadership for Social Workers Credits: 4
- SOCW 687 - Empowering Communities for Change Credits: 4
- SOCW 688 - Advanced Research in Social Work Credits: 3
- SOCW 694 - Social Change Practicum I Credits: 4
- SOCW 695 - Social Change Practicum II Credits: 4
- SOCW 697 - Thesis Project Seminar Credits: 3
Clinical Practice Concentration (CLNP)

- SOCW 630 - Forensic Social Work Practice Credits: 4
- SOCW 640 - Advanced Clinical Practice Credits: 4
- SOCW 645 - Community-Centered Clinical Practice Credits: 4
- SOCW 674 - Psychopathology Credits: 4
- SOCW 688 - Advanced Research in Social Work Credits: 3
- SOCW 692 - Clinical Practicum I Credits: 4
- SOCW 693 - Clinical Practicum II Credits: 4
- SOCW 697 - Thesis Project Seminar Credits: 3

Thesis

- All students must successfully complete a culminating thesis project.

Total: 33 credits

Note:

All other academic policies for the advanced standing program are identical to those for the regular MSW Program.

About the College

The College of Humanities and Social Sciences (CHSS) is composed of 11 departments and 10 major interdisciplinary programs. The college is also home to New Century College, which offers an innovative interdisciplinary major as well as Mason Cornerstones, a first-year program for students in all majors, and Technology Across the Curriculum, which promotes the use of technology to enhance learning in all courses and disciplines. Together with the College of Science, the college administers the university-wide Honors Program in General Education, the academic program of the Honors College. This is open to qualified students from all majors in the university. The college has a distinguished faculty of more than 400, including a Nobel laureate and recipients of the Pulitzer Prize and Guggenheim Fellowship.

At the undergraduate level, all programs emphasize challenge, opportunity, and success. They challenge students to think critically and creatively and to go beyond what is required by pursuing research experiences, minors, double majors, honors in the major and accelerated master’s degree programs, which enable them to earn both an undergraduate and a graduate degree, often within five years. They provide many opportunities beyond the classroom including study abroad programs, service learning, internships, and career-enhancing courses and minors, all of which will help prepare them for success beyond college.

At the graduate level, programs of study provide opportunities for career development and advancement, professional education, participation in research, and personal fulfillment.

All programs encourage the exploration of contemporary issues through a dynamic curriculum that fosters an informed understanding of real world problems. The college provides students with an education that enables them to think critically, adapt to the changing conditions of society, and provide informed leadership to future generations.

Policies for All Students

The requirements for each academic program offered by the college are described in the sections for the sponsoring departments and programs. All students are subject to the policies stated in the Academic Policies chapter of this catalog. Additional policies and procedures for students in the college are presented in this chapter.

George Mason uses only Mason e-mail accounts to communicate with enrolled students. Students should activate their Mason e-mail account, use it to communicate with their department and other administrative units, and check it regularly for important information.
Registration and Degree Audit

Students are responsible for correctly registering for courses and paying all tuition and fees by the official university registration and payment deadlines. Instructors do not have the authority to add students to courses, and students may not sit in on classes for which they are not registered. All students should verify the accuracy of their enrollment before the end of the add period and should check Patriot Web to verify that they are registered for the classes that they think they are.

All students are responsible for reviewing their own transcripts and degree audits regularly to ensure that they are correct and that they are on track to meet all their requirements.

Withdrawal

Students are responsible for all courses in which they remain officially enrolled once the drop period has ended. Instructors do not have the authority to withdraw students from classes. Withdrawals require the approval of the relevant dean (undergraduate academic affairs or graduate academic affairs) and are typically allowed only for full semesters at a time (a withdrawal from all enrolled courses). Withdrawals are only permitted for non-academic reasons; no withdrawals can be approved for academic reasons. When submitting a withdrawal request, students must provide verifiable, third-party documentation for the reason for the withdrawal. Requests for withdrawals should be submitted as early in the semester as possible and never after the last day of classes.

Grade Appeals

Grade appeals should be made to the department or program following the process specified in the Academic Policies chapter of this catalog. If they are resolved within the department or program, that unit is the final level of appeal. The departmental decision may be appealed to the dean only on the basis of procedural irregularity. Undergraduate students should address such appeals through the Office of Undergraduate Academic Affairs and graduate students through the office of Graduate Academic Affairs. If the grade appeal is not resolved within the department or program, the chair makes a recommendation to the dean, who makes the final determination. The decision of the dean is not subject to review or further appeal.

Formal Complaints

Formal complaints should be made in writing to the senior associate dean.

Accommodations for Disabled Students

Students with documented disabilities should contact the Office of Disability Services to open a file and learn more about accommodations that may be available to them.

Policies for Undergraduate Students

The college offers 16 bachelor of arts (BA) degrees, 6 bachelor of science (BS) degrees, and a bachelor of individualized study (BIS) degree. The undergraduate degree consists of course work in four areas: university-wide general education requirements, college requirements for the bachelor's degree, requirements specified for the chosen major, and electives. All students must complete 120 credits, of which at least 45 must be in upper-level courses (numbered 300 and above). At least one course at the 300 or 400 level must be designated “writing intensive.”

Students should consult the college web page on general education for information concerning the ways they can fulfill university-wide general education requirements and college requirements for undergraduate degrees. Transfer students are encouraged to meet with their academic advisor prior to registering for classes to review their transcripts and course equivalencies. In some cases, students may need to earn more than 120 credits to complete all of their requirements.
The college cooperates with the Institute for Conflict Analysis and Resolution (ICAR) to provide courses from various disciplines in the college toward a BA, BS, and minor in conflict analysis and resolution (CAR). More information about CAR undergraduate degree programs can be found in the Institute for Conflict Analysis and Resolution chapter of this catalog.

Questions about Academic Policies

Students with questions about exceptions to academic policies and college requirements should contact the college Undergraduate Academic Affairs Office (College Hall, Room C211; 703-993-8725; chssdean@gmu.edu).

Additional policy information and forms are available online at http://chssundergrad.gmu.edu.

Excluded Courses and Credits

Physical Education (PHED) and Parks, Recreation, and Leisure Studies (PRLS) activity courses cannot be used for credit for a degree in the College of Humanities and Social Sciences.

MLSC 400 has been approved to be applied to the credit for a degree in the college, but other MLSC courses are not approved for credit toward degrees in the college.

Once matriculated at Mason, students may not take CLEP exams and apply credits from those exams to degrees in the college. Students may apply credits from CLEP exams to degrees in the college only if those credits were awarded and reported prior to matriculation.

Academic Load

The university limits undergraduate students with a cumulative GPA below 2.00 to 13 credit hours per semester. All undergraduate students returning from suspension are also limited to a maximum of 13 credit hours. Exceptions to this rule are very rare and only occur in extraordinary cases.

Undergraduate students in good standing may enroll in up to 18 credit hours each semester. In exceptional circumstances, students may request an overload of the maximum credit hours. Freshmen and transfer students in their first semesters are not given permission for overloads as they have yet to establish an academic record at George Mason.

In order to be considered for an overload, students must fulfill all of the following criteria:

- Be in good academic standing
- Have completed the prior semester with a GPA of 2.33 or higher
- Have a cumulative GPA of 2.33 or higher
- Have demonstrated in prior semesters at Mason the ability to handle an increased and demanding course load while maintaining high performance
- Have no remaining incompletes (INs) from a previous semester

If approved for an overload, the student is responsible for adding the additional class(es) and paying for the related tuition by the official university deadlines.

Withdrawals

Courses for which a withdrawal is approved receive a grade of "W".

Credits graded "W" do not affect a student's GPA, but do count as attempted hours. The total attempted hours and cumulative GPA determine a student’s academic standing. If the cumulative GPA is below 2.00, withdrawals may affect whether a student will be on warning, probation, suspension, or dismissal. Students should be familiar with the Student Retention Categories in the Academic Policies section of the catalog.
Consortium of Universities Registration

Participation in consortium registration is available to degree-seeking juniors and seniors in good standing currently enrolled at Mason. Participation is limited to courses that are approved by the student's department chair and academic dean, apply to the student's program of study, are not offered during that semester at Mason, and have space available at the consortium institution. Students should consult with the Consortium Coordinator in the Registrar's Office, as additional restrictions may apply. Students may take just one course per semester, with a career maximum of two courses (6 credits). Students who have failed a course at Mason are not permitted to take the equivalent course through the consortium under any circumstances. All consortium registration requests must be submitted to the dean's office at least 3 weeks prior to the first day of classes for the relevant semester at Mason.

Credit to Be Earned at Other Institutions

Students enrolled at George Mason University are expected to complete their coursework with George Mason courses. Exceptions to this policy are rare and are considered only under extraordinary circumstances, on a case-by-case basis. Students must obtain advance, written approval from their department/program and dean’s office before enrolling in classes elsewhere.

To be considered for an exception to this policy, students must have completed the immediately preceding semester with a minimum GPA of 2.00 and not be in danger of academic probation, suspension, or dismissal. Freshmen and new transfer students are not allowed to take courses elsewhere as they have yet to establish an academic record at George Mason. Since transfer students have already transferred a number of hours, they are expected to plan all remaining courses at George Mason. Local community colleges are not part of the University Consortium, and requests to take community college courses can seldom be approved. Courses offered at Consortium Universities must be reviewed by the Consortium Coordinator in advance and will not be considered for general study elsewhere review.

Courses elsewhere that have been pre-approved by the dean’s office must be taken for a grade and passed with a minimum grade of 2.00 in order to be transferred to George Mason. Although credit for the course can be transferred, the grade for the course does not. It will not be factored into the student's GPA.

Students must make arrangements with the visited institution to have an official transcript mailed directly to the George Mason University Registrar's Office immediately after the course work is completed. Credit cannot be transferred until an official transcript is received.

Additional information about study elsewhere can be found at http://chssundergrad.gmu.edu.

Study Abroad

In order to be considered for study through the Center for Global Education, students must plan well in advance and receive prior, written permission from the academic dean. Students must also meet all of the following criteria:

- Have a cumulative minimum GPA of 2.25 at Mason
- Have completed the immediately preceding semester at Mason with a minimum GPA of 2.00
- Have completed the necessary forms and have obtained all required signatures and course equivalencies

The Center for Global Education may have higher academic standards and students must meet all eligibility requirements and prerequisites.

Students in danger of probation, suspension, or dismissal should plan very carefully before requesting to study abroad. Students who are not in good academic standing will not be permitted to study abroad.

Academic Clemency
In extraordinary cases, students who have been absent from George Mason for a minimum of three consecutive calendar years may request that their academic dean consider allowing clemency from up to 16 hours of coursework from previous semesters. To be considered for this exception, students must meet all of the following criteria:

- Be absent from George Mason for a minimum of three consecutive calendar years
- Provide a detailed explanation for why they were unsuccessful in those courses and how they have made changes to ensure their academic progress upon their return
- Submit their request within 12 months of the first day of the re-enrollment term
- In order to make this request, students should (a) complete at least 6 hours during their first 12 months back at George Mason and (b) earn a minimum GPA of 2.50 each semester back prior to making the clemency request, with no grade below 2.00. If these minimum academic requirements are not met during the first semester of return, then clemency will not be allowed under any circumstances.

Additional information about clemency can be found at http://chssundergrad.gmu.edu.

**Appeals Process**

Students may appeal departmental decisions concerning academic actions to the Office of Undergraduate Academic Affairs. They may appeal decisions of the Office of Undergraduate Academic Affairs to the Dean’s Council, a committee composed of college deans and faculty members. Students may appeal decisions of the Dean’s Council to the Student Policies and Appeals Committee, a standing committee elected by the college faculty. These levels of appeal are subject to the limits below concerning the final level of appeal for each type of academic action. Students who feel that the college appeal process was conducted unfairly may appeal to the Provost’s Office as specified in the Academic Policies chapter of this catalog.

The grade appeal process is discussed above.

Departments set the requirements for the majors and minors that they administer. Substitutions and waivers of requirements require the approval of Undergraduate Academic Affairs. When a department denies a substitution or waivers of a requirement, this decision may be appealed to the Office of Undergraduate Academic Affairs on the basis of procedural irregularity only, and it is the final level of approval.

The Dean’s Council is the final level of appeal for course overloads, consortium registration, study elsewhere, and withdrawals after the drop deadline within the semester. Appeals of these decisions may be made to the Student Policies and Appeals Committee on the basis of procedural irregularity only, and it is the final level of approval.

Student Policies and Appeals Committee is the final level of appeal for college level requirements for the college, retroactive adds, withdrawals, and graduation; and return from suspension and dismissal. This committee is the final level of approval.

There is no waiver or appeal of satisfactory performance standards (minimum grades or grade point average, GPA) that have been set by the department or program faculty for the courses in their major or minor.

Students should file all appeals in a timely manner, usually within the semester in which the original decision is rendered, but no later than the final day of classes of the following semester.

**Teacher Licensure**

Students who plan to seek teacher licensure and become K–12 teachers should consult the College of Education and Human Development chapter of this catalog and attend an information session early in their undergraduate career. For more information, call 703-993-2892, e-mail gseadmit@gmu.edu, or go to gse.gmu.edu.

**Minors**

Students may elect to take a minor in addition to their major field of study. For policies governing all minors, see the Academic Policies chapter of this catalog. Students interested in earning a minor should complete the appropriate section of the
Change/Declaration of Academic Program form and submit it to the Office of the Registrar. See the college web page on minors for more information.

College-Level Requirements for Undergraduate Students

Bachelor of Arts

The BA degree provides students with a breadth of knowledge as well as the necessary skills to make in-depth study of a major truly meaningful. In addition to the university-wide general education program, students pursuing a BA degree must complete the course work below. Except where expressly prohibited, a course used to fulfill a college-level requirement may also be used simultaneously to satisfy other requirements (university-wide general education requirements or requirements for the major).

- Philosophy or religious studies: 3 credits fulfilled by any course in philosophy or religious studies (PHIL, RELI)
- Social and behavioral science: 3 credits in addition to the university-wide requirement in social and behavioral science for a total of 6 credits. The two courses used to fulfill the combined college and university requirements must be from different disciplines in the social and behavioral sciences. This requirement may be fulfilled by completing any course in ANTH, CRIM, ECON, GOVT, HIST (except 100 or 125), LING, PSYC, or SOCI and these courses in GGS: 101, 103, 110, 301, 303, 304, 305, 306, 315, 316, 320, 325, 330, 357, 380.
- Natural science: 1 credit in addition to the university-wide requirement for a total of 8 credits. This requirement can be fulfilled by completing two of any approved natural science courses that include a laboratory experience. This requirement may not be fulfilled by BIOL 124 or 125.
- Foreign language: intermediate-level proficiency in one foreign language. This requirement may be fulfilled by completing a course in a foreign language numbered 202, 209, or 210 (or higher level courses taught in the language) or achieving a satisfactory score on an approved proficiency test. Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at http://chssundergrad.gmu.edu.
- Non-Western culture: 3 credits of an approved course in the study of a non-Western culture in addition to the course used to fulfill the university-wide general education requirement in global understanding. A course used to fulfill the university-wide general education global understanding requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (university-wide general education requirements, college-level requirements, or requirements for the major). Students who have lived or studied in a non-English speaking country for three or more years may be eligible for a waiver of this requirement. Additional information on waivers can be found at http://chssundergrad.gmu.edu. This requirement may be fulfilled by the following courses:
  - ARTH 203, 204, 319, 320, 380, 382, 383, 384, 385, 482
  - CHIN 318, 320, 325
  - DANC 118
  - ECON 361, 362
  - FREN 451
  - GGS 101, 316, 325, 330, 399
  - GOVT 328, 332, 333, 340, 341, 345, 432, 433
  - JAPA 310
  - MUSI 103
  - RELI 211, 212, 272, 313, 314, 315, 337, 374, 375, 490
  - RUSS 353, 354

Requirements for each major are listed in the departmental sections that follow.

Bachelor of Science
The BS degree provides students with a more intensive approach to the core technical questions of their majors. This curriculum has a reduced number of courses in humanities and social sciences in comparison with the BA degree to allow students to achieve greater depth in their majors. Students in Humanities and Social Sciences pursuing a BS must complete the university-wide general education program plus 1 additional credit of natural science (for a total of 8 credits), which must be fulfilled by an approved two-semester laboratory science sequence in a single science. This may not be fulfilled by BIOL 124 and 125. Requirements for each major are listed in the departmental sections that follow.

**Transfer Students**

Admitted and enrolled transfer students who have completed an AA, AS, or AA&S degree from the Virginia Community College System (VCCS) with a curriculum grade point average (GPA) of at least 2.75 are considered to have met all of George Mason University’s lower level general education requirements. They are still required by the university to complete English 302 and a synthesis course. Transfer students who meet the conditions above and are pursuing a degree in this college are considered to have met all college requirements except for proficiency in a foreign language (required of BA students).

Students with a bachelor's degree from an accredited institution who are pursuing a degree in this college are also considered to have met all college requirements except for proficiency in a foreign language (required of BA students).

**Policies for Graduate Students**

The college offers 15 master’s degrees, a master of public administration, a master of fine arts in creative writing, and 11 doctoral degrees.

**Graduate Admission**

Admission decisions are made by the faculty committee of the respective graduate program. Denial of admission is not subject to appeal. Applicants denied admission to a program are not permitted to enroll in courses in that program.

If an applicant is offered graduate admission, the college reserves the right to withdraw that offer of admission if:

- During his or her academic studies, the admitted applicant has a significant drop in academic performance or fails to graduate with a degree prior to the first day of classes for the term admitted.
- There has been a misrepresentation in the application process.
- Prior to the first day of classes for the term admitted, the college learns that the admitted applicant has engaged in behavior that indicates a serious lack of judgment or integrity, irrespective of the outcome of any disciplinary process related to such behavior.
- For students admitted to an accelerated master's program, the student does not maintain satisfactory progress in his or her undergraduate program, does not receive a minimum grade of 3.00 in the graduate classes taken as an undergraduate, or otherwise does not meet the conditions specified on the application and admission letter.

The university further reserves the right to require the applicant to provide additional information (and/or authorization for the release of information) about any such matter.

**Provisional Admission**

Students provisionally admitted to their graduate degree program are not eligible to enroll in consortium course work or study at another institution until the conditions of the provisional contract have been met. Provisionally admitted students are also not eligible to participate in any study abroad programs until the conditions of the provisional contract have been met. Transfer of credit requests for course work taken in non-degree status at Mason or from another institution prior to admission will not be considered until the provisional contract has been fulfilled.

**Academic Load**
Graduate students can enroll in up to 12 credits of course work each semester. Non-degree students can enroll in up to 10 credits of course work each semester.

**Non-degree Enrollment**

Applicants who have been denied admission to a graduate certificate, master’s or doctoral program are not permitted to take graduate courses in that discipline as a non-degree student.

Graduate non-degree students may enroll in 500-, 600-, and 700-level courses. In exceptional cases graduate non-degree students in the College of Humanities and Social Sciences may request to enroll in an 800-level course if they have an appropriate academic or professional background and have the written permission of the course instructor, director of the graduate program offering the course, and the graduate dean.

**Consortium of Universities Registration**

Eligible students may enroll in courses at any of the institutions in the Consortium of Universities in the Washington Metropolitan area. Students are limited to one consortium course per semester, with a career maximum of 6 credits. To register for a consortium course, students must have an overall GPA of at least 3.00 and be in good academic standing. Students with grades of IN on their record or who earned grades of C or F in the most recent semester are not eligible to register for a consortium course. Students who have received a grade less than 3.00 in a consortium course are not permitted to enroll in additional consortium courses. Newly admitted graduate students are not permitted to enroll in consortium courses during their first semester of graduate study. Students who wish to enroll in consortium courses during their second semester of study must wait until the grades for the previous semester have been posted. More information about the Consortium of Universities can be found in the Academic Policies chapter.

**Transfer of Credit**

To be eligible for transfer, credits must have been earned at an accredited graduate degree-granting institution (and applicable to a graduate degree at that institution) or at Mason while in non-degree status. Courses accepted for transfer credit must have been completed within six years of the admission term and with a minimum grade of 3.00. Courses with grades of P or S are not accepted for transfer unless the official transcript indicates that the grade is equivalent to a 3.00 (B) or better. Some programs have more stringent standards on transfer of credit; students should contact their graduate program for specific information.

**Credit from Other Institutions**

Students must obtain all approvals, including course equivalencies, prior to enrolling in any course work at another institution. All appropriate paperwork must be submitted to the Registrar’s Office by the last day to add during the academic term the course meets. Students enrolling in courses at other institutions with different drop/add timetables must still abide by Mason’s drop/add deadlines in terms of acquiring necessary approvals.

**Dissertation Committee Criteria**

All dissertation committees must consist of at least three members of the graduate faculty, two of whom have a full-time appointment at Mason. At least one member must be a tenured or tenure-track faculty member in the College of Humanities and Social Sciences, and at least one member must be from outside the student’s academic unit. Additional members may be appointed who are not members of the graduate faculty or who are not full-time employees of the university. Individual departments and programs may set additional requirements for committee membership. The graduate program director recommends appointment of the dissertation committee to the dean. Though the dean appoints the committee it is the responsibility of the student to find qualified faculty who are willing and able to supervise the dissertation.
Dissertation (999) Registration

Doctoral students must be advanced to candidacy before they may enroll in 999. Students must register for 999 before the add deadline published each semester in the Schedule of Classes. Once doctoral students begin registering for 999, they must enroll in at least 3 credits of 999 each semester (excluding summers) until they have completed the total number of dissertation credits required on their individual program of study. Once enrolled in 999, all doctoral students must maintain continuous enrollment in 999 until they deposit their approved dissertation in the University Library. If they have completed the number of dissertation credits required on their program of study, they may maintain continuous enrollment by registering for only 1 credit of 999. See detailed information in the Academic Policies chapter of this catalog.

Graduate Appeals of Dismissal or Termination

All graduate students should be familiar with the university policies on dismissal and termination as stated in the Academic Policies chapter. Students who meet the criteria for dismissal or termination may submit a written appeal to the Office of Graduate Academic Affairs. Appeals should include all relevant information on the basis for appeal, as well as any appropriate documentation. Appeals of termination and dismissal are reviewed at the beginning of each semester by a faculty committee. The ruling of that committee represents the final decision of the college.

Accelerated Master’s Degree Programs

Many graduate programs in the College of Humanities and Social Sciences offer highly-qualified undergraduates the opportunity to apply to accelerated master’s degree programs. Students accepted into an accelerated master’s degree program obtain both a bachelor’s and a master’s degree after satisfactory completion of 144 - 150 credits (number of required credits depends on the degree program).

Students admitted to an accelerated master's degree program may use up to six graduate credits (courses at the 500 or 600 level) in partial fulfillment of requirements for the undergraduate degree. Upon completion and conferral of the undergraduate degree with satisfactory performance in graduate courses (minimum grade of 3.00 in each), students are given advanced standing in their master’s program.

Undergraduates may take a maximum of six additional graduate credits while undergraduates and mark them for reserve graduate credit. These credits are not used to fulfill undergraduate degree requirements but can be applied to the master’s degree. See the section on Graduate Course Enrollment by Undergraduates in the Academic Policies chapter of the catalog. Courses taken for reserve graduate credit must be approved in advance by the Office of Undergraduate Academic Affairs and the appropriate paperwork filed with the Office of the Registrar.

Students must fulfill all other master’s degree requirements. For application information, contact the individual graduate degree program.

The college offers accelerated master’s degrees in these disciplines:

- Anthropology
- Economics
- English with a concentration in linguistics
- Global Affairs
- Philosophy
- Political Science
- Psychology with a concentration in biopsychology
- Public Administration
- Sociology
Master's Level Certificate

Applied Conservation Science Graduate Certificate

Banner Code: LA-CERG-ACNS

The graduate certificate in applied conservation science provides students with hands-on education in conservation science. The courses in this program are all residential, full-day, two-week intensive courses held at the Smithsonian Conservation Biology Institute in Front Royal, Virginia. This certificate is designed for early to mid-career conservation professionals working in government, non-governmental organizations, and research institutions worldwide.

Students acquire essential skills in conservation research and practice while developing a crucial understanding of the principles and philosophies underlying effective conservation and biodiversity programs. They learn how to apply analysis techniques and tools to address those questions and evaluate conservation outcomes.

Upon completion of the certificate, students will have developed practical and analytical skills applicable to a wide range of programs in applied conservation science research, policy, and practice -- from single-species protection and landscape-level restoration and management to community conservation initiatives and human-wildlife conflict mitigation.

Application Requirements

Applicants to the certificate program must meet admission standards and application requirements for graduate study at George Mason as specified in the Admission chapter of this catalog. Applicants must submit a completed Mason graduate application and official transcripts, resume, VA domicile classification form, and TOEFL scores if they are foreign nationals. GRE scores and letters of recommendation are not required, but if available will strengthen an application.

As prerequisites to the program, applicants should have successfully completed a one-semester, college-level organismal biology, ecology, or conservation biology course and a basic statistics course. Students interested in the program who lack such college-level coursework should contact the director of the Mason Center for Conservation Studies (MCCS) for advice on how to meet the prerequisites before applying.

Certificate requirements

Two core courses (6 credits)

- CONS 620 - Spatial Ecology, Geospatial Analysis & Remote Sensing for Conservation Credits: 3
- CONS 625 - Experimental Design and Ecological Statistics Credits: 3

One course (3 credits) in human dimensions
- CONS 660 - Effective Conservation Leadership Credits: 3
- CONS 665 - Conservation Conflict Resolution Credits: 3

6 credits of electives

CONS 630 and 697 may be repeated for credit when topics are different.

- CONS 630 - Species Monitoring & Conservation Credits: 3
- CONS 697 - Special Topics in Conservation Credits: 1-3

Total: 15 credits

African and African American Studies

Phone: 703-993-1201
Web: aaas.gmu.edu/

Faculty

Carbonneau, Carton, Cherubin, Clark, Dennis, Fauntroy, Fuchs, Haley, Johnson, Lepore, Levine, Manuel-Scott (director), Miller, Paden, Richards Jordan, Smith, Stewart, Travis, Weatherspoon

Course Work

The African and African American Studies Program offers all course work designated AFAM in the Courses chapter of this catalog.

Undergraduate Programs

The African and African American Studies Program offers an interdisciplinary minor open to students in all majors.

Students who pursue this minor examine the cultural, historical, economic, and political dimensions of people of African descent in America, the Caribbean, Africa, and throughout the Diaspora. Students learn theories and methodologies that are used to examine the complex dynamics of race, class, gender, and ethnicity in America. Through the coursework for this program, students develop critical and analytical approaches to societal issues because they are addressed through a variety of academic disciplines.

Students are encouraged to do an internship as part of the minor to further enhance their education and provide them with valuable preparation for the workforce.

African American Studies Research and Resource Center
The goal of the African American Studies Research and Resource Center (Paul Robeson Room) is to facilitate new ways for George Mason University students to learn about the African diaspora. As part of their academic and community involvements, students often need to address issues related to African and African American Studies. The center offers them opportunities for hands-on experience with African and African American life. It has been instrumental in assisting students, faculty, staff, and the community in finding resources to accomplish this goal.

The center sponsors a lecture series and a scholar-in-residence program and offers research and resources support for the Mason community.

**Undergraduate Interdisciplinary Minor**

**African and African American Studies Minor**

**Banner Code:** AAMS

**Web:** aaas.gmu.edu

In the minor students will examine the cultural, historical, economic, and political dimensions and experiences of people of African descent in America, the Caribbean, Africa, and throughout the Diaspora. Students will learn theories and methodologies that are used to examine the complex dynamics of race, class, gender, and ethnicity in America. Through this program, students are able to develop critical and analytical approaches to societal issues because such issues are addressed and delineated through a variety of academic disciplines.

Students are encouraged to do an internship as part of the minor to further enhance their education and provide them with valuable preparation for the workforce.

For policies governing all minors, see the Academic Policies chapter of this catalog.

**Course Work**

Students pursuing the minor in African and African American Studies must complete a minimum of 15 credits with a minimum GPA of 2.00.

**One required course (3 credits):**

- **AFAM 200 - Introduction to African American Studies** Credits: 3

**Four elective courses (12 credits) chosen from the list below:**

Other courses, when relevant, may be able to meet this requirement with prior written approval of the director.

- **AFAM 390 - Special Topics in African and African American Studies** Credits: 3
- **AFAM 490 - Internship** Credits: 2-6
- **AFAM 499 - Independent Study** Credits: 1-3
- **DANC 118 - World Dance** Credits: 3 (May be applied to the minor when the topic is relevant to African and African American Studies.)
- **ENGL 368 - Beginnings of African American Literature Through 1865** Credits: 3
- **ENGL 370 - African American Literature: Reconstruction to 1903** Credits: 3
- ENGL 371 - African American Literature Through 1946 Credits: 3
- ENGL 372 - Contemporary African American Literature Credits: 3
- FREN 451 - Sub-Saharan African Literature Credits: 3
- FREN 454 - Caribbean Literature in French Credits: 3
- GGS 325 - Geography of North Africa and the Middle East Credits: 3
- GOVT 464 - Issues in Public Policy and Administration Credits: 1-3
- HIST 130 - History of the Modern Global System Credits: 3
- HIST 261 - Survey of African History Credits: 3
- HIST 262 - Survey of African History Credits: 3
- HIST 335 - The African American Experience in the United States: African Background to 1885 Credits: 3
- HIST 336 - The African American Experience in the United States: Reconstruction to the Present Credits: 3
- HIST 340 - History of American Racial Thought Credits: 3
- HIST 466 - Origins of Conflict in Southern Africa Credits: 3
- SOCI 308 - Racial and Ethnic Relations Credits: 3
- SOCI 332 - Sociology of Urban Communities Credits: 3

Total: 15 credits

Criminology, Law and Society

Phone: 703-993-8315
Web: cls.gmu.edu

Faculty

Professors: Mastrofski, Taxman, Weisburd, Zingraff

Research professor: Turner

Associate professors: Gallagher, Gould, Wilson (chair)

Assistant professors: Johnson, Lawton, Lum, Merola, Portillo, Rudes, Willis

Assistant research professors: Trotman, Andrew

Term instructors: Newmark, Voreas

Affiliate faculty: Uchida

Course Work

The Department of Criminology, Law and Society offers all course work designated CRIM in the Courses chapter of this catalog.

Undergraduate Programs
The BS in criminology, law and society provides students with a sound foundation in the liberal arts and a focused study of criminology, law and society. It also provides information concerning the social, human, and moral problems raised in the justice field. This major prepares students for careers in law enforcement, corrections, the courts, investigations, juvenile justice, private and homeland security, and related social and human services. It provides a strong background for law school and graduate study in criminal justice or law and society.

Honors in the Major

Highly qualified students may pursue advanced work leading to graduation with honors in the major. Students admitted to the honors program in the major take a two-course sequence CRIM 491 and 492. To graduate with honors in criminology, law and society, students must complete these courses with a minimum GPA of 3.50.

Internships

The department supports an active internship program, which places students in justice and police organizations throughout the Washington metropolitan area. Students can gain valuable work place experience while earning credit toward their degree.

Graduate Programs

The department offers a master's and a doctoral degree in criminology, law and society. These degrees draw on a strong multidisciplinary faculty who teach a wide range of courses in their specialties. These programs take advantage of Mason's proximity to the many justice organizations at the federal, state, and local levels. The curriculum is structured to give students the skills they need to do policy-relevant research. They will be able to work with local and national agencies concerned with justice and security to put those skills to use.

Funding

The department offers teaching and research assistantships awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and, like all graduate students, show satisfactory progress toward their degree.

Undergraduate Degree

Criminology, Law and Society, BS

Banner Code: LA-BS-CLS

Web: cls.gmu.edu

This bachelor of science in criminology, law and society provides a sound foundation in the liberal arts and a focused study of the justice system and social, human, and moral problems raised in the justice field. The course of study prepares students for careers in law enforcement, corrections, the courts, investigations, juvenile justice, private and homeland security, and related social and human services. The program also provides a strong background for law school and graduate study in criminal justice or law and society.

Students may use up to 18 credits of approved ADJ courses taken at Northern Virginia Community College (NVCC) or comparable courses at another community college to fulfill the requirements detailed below. Once a student matriculates at Mason, no courses may be taken at another institution without prior written approval from the program and the dean.
This program of study is offered by the Department of Criminology, Law and Society.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements

In addition to satisfying university general education requirements and the requirements for a bachelor of science degree in the College of Humanities and Social Sciences, students pursuing this degree must complete 67 credits with a minimum GPA of 2.00.

Five core courses (16 credits)

- CRIM 100 - Introduction to Criminal Justice Credits: 3
- CRIM 300 - Research Methods and Analysis Credits: 4
- CRIM 303 - Experiencing the Criminal Justice System Credits: 3
- CRIM 306 - Criminal Justice Ethics Credits: 3
- CRIM 424 - Constitutional Law: Criminal Process and Right Credits: 3

Twelve elective courses (36 credits) including at least 24 credits of CRIM courses chosen from:

- CRIM 301 - Public Law and the Judicial Process Credits: 3
  or
- GOVT 301 - Public Law and the Judicial Process Credits: 3
- CRIM 302 - Delinquency Credits: 3
- CRIM 304 - Computer Crime, Forensics, and Auditing Credits: 3
- CRIM 305 - Crime and Crime Policy Credits: 3
- CRIM 307 - Social Inequality, Crime, and Justice Credits: 3
- CRIM 308 - Human Rights and Justice Credits: 3
- CRIM 400 - Applied Criminal Psychology Credits: 3
- CRIM 401 - Policing in America Credits: 3
- CRIM 402 - Punishment and Corrections Credits: 3
- CRIM 403 - Community Corrections Credits: 3
- CRIM 404 - Crime Victims and Victimization Credits: 3
- CRIM 405 - Law and Justice around the World Credits: 3
- CRIM 406 - Family Law and the Justice System Credits: 3
- CRIM 407 - Law and Society Credits: 3
- CRIM 408 - Criminal Courts Credits: 3
- CRIM 409 - Community Policing Credits: 3
- CRIM 422 - Controversial Legal Issues Credits: 3
- CRIM 423 - Constitutional Law: Civil Rights and Liberties Credits: 3
or

- GOVT 423 - Constitutional Law: Civil Rights and Liberties Credits: 3

- CRIM 425 - Criminal Justice Management Credits: 3
- CRIM 460 - Surveillance and Privacy in Contemporary Society Credits: 3
- CRIM 461 - Introduction to Homeland Security Credits: 3
- CRIM 462 - Law Enforcement and Homeland Security Credits: 3
- CRIM 471 - Prevention and Deterrence of Crime Credits: 3
- CRIM 475 - Theory and Politics of Terrorism Credits: 3
- CRIM 490 - Special Topics Credits: 1-3
- CRIM 491 - Honors Seminar I Credits: 3
- CRIM 492 - Honors Seminar II Credits: 3
- CRIM 499 - Independent Study Credits: 1 - 3
- GOVT 101 - Democratic Theory and Practice Credits: 3
- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 420 - American Political Thought Credits: 3
- GOVT 421 - Contemporary Political Ideologies Credits: 3
- GOVT 452 - Administrative Law and Procedures Credits: 3
- PHIL 151 - Introduction to Ethics Credits: 3
- PHIL 311 - Philosophy of Law Credits: 3
- PSYC 100 - Basic Concepts in Psychology Credits: 3
- PSYC 211 - Developmental Psychology Credits: 3
- PSYC 231 - Social Psychology Credits: 3
- PSYC 314 - Adolescent Psychology Credits: 3
- PSYC 325 - Abnormal Psychology Credits: 3
- PSYC 326 - Therapeutic Communication Skills Credits: 3
- SOCI 101 - Introductory Sociology Credits: 3
- SOCI 301 - Criminology Credits: 3
- SOCI 308 - Racial and Ethnic Relations Credits: 3
- SOCI 310 - Sociology of Deviance Credits: 3
- SOCI 315 - Sex and Gender in Contemporary Society Credits: 3
- SOCI 352 - Social Problems Credits: 3
- SOCI 475 - Women and the Law Credits: 3
- SOCW 400 - Legal and Ethical Issues in Human Services Credits: 3
- SOCW 410 - Alcohol and Substance Abuse: Policies and Programs Credits: 3
- SOCW 423 - Social Work with Children and Adolescents Credits: 3
- SOCW 430 - Social Work and the Law Credits: 3
- CONF 300 - Conflict Resolution Techniques and Practice Credits: 3
- CONF 302 - Identity Conflicts and their Resolution Credits: 3
- CONF 320 - Interpersonal Conflict Analysis and Resolution Credits: 3
- CONF 330 - Community, Group, and Organizational Conflict Analysis and Resolution Credits: 3
- CONF 393 - Philosophy, Conflict Theory, and Violence Credits: 3

15 credits in skills for the justice professional chosen from:

- Any foreign language courses that develop or require foreign language skills and are taught in the language
- Any CS course; any IT course
- CRIM 479 - Preparation for Internship Credits: 3
- CRIM 480 - Internship Credits: 3 - 12
- GGS 311 - Introduction to Geographic Information Systems Credits: 3
- GOVT 305 - Contemporary American Federalism Credits: 3
- GOVT 309 - Government and Politics of Metropolitan Areas Credits: 3
- GOVT 351 - Administration in the Political System Credits: 3
- GOVT 355 - Public Personnel Administration Credits: 3
- GOVT 356 - Public Budgeting and Finance Credits: 3
- GOVT 357 - Urban Governance and Planning Credits: 3
- GOVT 359 - Computers in Public Management Credits: 3
- GOVT 364 - Public Policy Making Credits: 3
- GOVT 366 - Public Policy Analysis Credits: 3
- GOVT 464 - Issues in Public Policy and Administration Credits: 1-3
- PSYC 260 - Basic Research Methods in Psychology Credits: 1-3
- SOCI 405 - Analysis of Social Data Credits: 4
- SOCI 410 - Social Surveys and Attitude and Opinion Measurements Credits: 3
- STAT 362 - Introduction to Computer Statistical Packages Credits: 3
- STAT 455 - Experimental Design Credits: 3
- STAT 463 - Introduction to Exploratory Data Analysis Credits: 3
- STAT 474 - Introduction to Survey Sampling Credits: 3
- SOCW 200 - Introduction to Social Work Credits: 3
- SOCW 301 - Laboratory in Interpersonal Communication Credits: 4
- SOCW 323 - Human Behavior in the Social Environment I Credits: 3
- SOCW 324 - Human Behavior in the Social Environment II Credits: 3
- SOCW 351 - Social Policy and Social Justice I Credits: 3
- SOCW 352 - Social Policy and Social Justice II Credits: 3
- SOCW 425 - Planning and Organizing for Community Change Credits: 3
- SOCW 430 - Social Work and the Law Credits: 3

Total: 67 credits

Concentrations

Criminology, law and society majors have the option of obtaining a concentration by completing 15 of their 36 elective credits within one of the following areas.

**Note:** Credits earned in CRIM 490, 491, 492, and 499, when relevant, may be applied to a concentration with prior written approval of the director of the BS in criminology, law and society.

▲ Concentration in Law and Society (LAWS)

15 credits chosen from:

- CRIM 301 - Public Law and the Judicial Process Credits: 3
- CRIM 308 - Human Rights and Justice Credits: 3
• CRIM 405 - Law and Justice around the World Credits: 3
• CRIM 406 - Family Law and the Justice System Credits: 3
• CRIM 407 - Law and Society Credits: 3
• CRIM 408 - Criminal Courts Credits: 3
• CRIM 422 - Controversial Legal Issues Credits: 3
• CRIM 423 - Constitutional Law: Civil Rights and Liberties Credits: 3
• CRIM 460 - Surveillance and Privacy in Contemporary Society Credits: 3
• GOVT 452 - Administrative Law and Procedures Credits: 3

▲ Concentration in Criminal Justice (CJUS)

15 credits chosen from:

• CRIM 302 - Delinquency Credits: 3
• CRIM 304 - Computer Crime, Forensics, and Auditing Credits: 3
• CRIM 305 - Crime and Crime Policy Credits: 3
• CRIM 307 - Social Inequality, Crime, and Justice Credits: 3
• CRIM 400 - Applied Criminal Psychology Credits: 3
• CRIM 401 - Policing in America Credits: 3
• CRIM 402 - Punishment and Corrections Credits: 3
• CRIM 403 - Community Corrections Credits: 3
• CRIM 404 - Crime Victims and Victimization Credits: 3
• CRIM 408 - Criminal Courts Credits: 3
• CRIM 409 - Community Policing Credits: 3
• CRIM 425 - Criminal Justice Management Credits: 3
• CRIM 471 - Prevention and Deterrence of Crime Credits: 3

▲ Concentration in Homeland Security and Justice (HSJ)

• CRIM 405 - Law and Justice around the World Credits: 3
• CRIM 460 - Surveillance and Privacy in Contemporary Society Credits: 3
• CRIM 461 - Introduction to Homeland Security Credits: 3
• CRIM 462 - Law Enforcement and Homeland Security Credits: 3
• CRIM 475 - Theory and Politics of Terrorism Credits: 3

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in criminology, law and society fulfill this requirement by successfully completing CRIM 303. Students should complete ENGL 302 before taking the writing-intensive course in the major or take the two courses simultaneously.

Undergraduate Minor
Criminology, Law and Society Minor

Banner Code: CLS

Web: cls.gmu.edu

Through the minor in criminology, law and society, students develop knowledge of the principles, institutions, and practices of the systems for administering justice. It provides a solid foundation for students seeking to supplement their major area of study, to develop knowledge and skills needed for justice-related occupations, or to lay the foundation for possible graduate study in the justice field. Students first obtain an overview of the justice system, learn legal or ethical standards by which to judge the behavior of justice practitioners, and then develop advanced knowledge of selected features of the justice system.

Students should plan their course of study with a criminology, law and society faculty advisor assigned by the program. The minor must be approved by the director before graduation.

This program of study is offered by the Department of Criminology, Law and Society.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

One required course (3 credits)

- CRIM 100 - Introduction to Criminal Justice Credits: 3

Four courses (12 credits) in upper-level CRIM courses

CRIM 479 and CRIM 480 may not be used to fulfill this requirement.

Total: 15 credits

Master's Degree

Criminology, Law and Society, MA

Banner Code: LA-MA-CLS

Web: cls.gmu.edu
The MA in criminology, law and society brings cutting edge social science methods to the disciplines of criminology and law and society. The program is designed for students who seek to make a difference in the development and evaluation of policy in these fields. The MA program provides students with enhanced skills in analysis and policy evaluation for their further career development or to help them prepare for competitive, sought-after positions.

The program draws on a multidisciplinary departmental faculty for required core courses and electives. Students can also take a wide range of other electives from different university programs, including those in computational social science, conflict analysis and resolution, economics, government, law, philosophy, psychology, public administration, sociology, and statistics.

The program takes advantage of the university’s proximity to many justice organizations at the federal, state, and local levels in the capital region. The curriculum is structured to give students the skills to do policy-relevant research and work with justice and security agencies in the region to exercise those skills and serve the needs of those agencies.

This program of study is offered by the Department of Criminology, Law and Society.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

**Transfer Credits**

Students may request to transfer a maximum of 12 credits for prior graduate course work (not applied to a previous degree) subject to approval by the graduate director and dean and in accordance with university policies.

**Satisfactory Progress**

Each new student is assigned a faculty advisor who helps develop a program of study. The advisor and faculty assess the progress of all students annually. Students who fail to make satisfactory progress may be terminated from the program. Satisfactory progress in the MA in criminology, law and society is defined as maintaining a minimum GPA of 3.00 with the minimum grade of B- in all courses. As in all graduate programs, students who receive a grade below B- will receive an academic warning the first time and a letter of dismissal the second time.

**Application Requirements**

Applicants must meet the admission standards and application requirements as specified in the Admission chapter of the catalog. There is no required background or preferred experience for admission to the degree, but students should demonstrate interest in and aptitude for graduate study in criminology, law and society. In addition to the materials required, applicants should submit a resume; three letters of recommendation from faculty members or individuals with first-hand knowledge of academic or professional capabilities; a statement of purpose of study no longer than 500 words; official verbal, quantitative, and analytical GRE scores on tests taken within five years of application submission; and a writing sample of a recent sole-authored work of at least 2,500 words. An interview may be required.

See the Application for Graduate Study for admissions deadlines for the Spring and Fall semesters. Late applications will be considered on a space available basis.

**Degree Requirements**

Four core courses (12 credits) in three fields
Justice and law

- CRIM 700 - Theories of Justice Credits: 3
- CRIM 720 - Behavior of Law Credits: 3

Justice organizations, administration, and leadership

- CRIM 740 - Justice Organization and Administration Credits: 3

Crime and crime policy

- CRIM 760 - Crime and Crime Policy Credits: 3

Three courses (9 credits) of analytic methods

- CRIM 780 - Research Methods Credits: 3
- CRIM 782 - Statistics I Credits: 3
- CRIM 783 - Statistics II Credits: 3

One to two elective courses (3 to 6 credits)

Students choose electives from courses in one or more of the substantive fields of study listed below.

Thesis (3 to 6 credits)

Students can apply a maximum of 6 credits of thesis to the degree. They need to submit a thesis proposal to the graduate director prior to registering for thesis credits. The master’s thesis must be defended orally before a committee of three faculty appointed by the graduate director. Students who do a 3-credit thesis will have 6 credits of electives.

Students should be aware of the policies governing theses. They must follow the thesis enrollment policy of the university and once enrolled in CRIM 799, maintain continuous enrollment. These policies are specified in the Academic Policies chapter of the catalog.

- CRIM 799 - Master’s Thesis Credits: 1-6

Total: 30 credits
Substantive Fields of Study

Master’s students are required to take their one or two electives within the substantive fields of study below. They may take one non-CRIM elective course. Students may use other courses as elective credit for a substantive field with prior written approval of the student’s advisor, director of the graduate program, and the sponsoring program.

Justice and Law

Justice-related electives:

- CRIM 702 - Comparative Justice Credits: 3
- CRIM 703 - Restorative Justice Credits: 3
- GOVT 520 - Political Theory Credits: 3
- GOVT 725 - Democratic Theory and Democratization Credits: 3
- GOVT 631 - Seminar in Comparative Politics and Institutions Credits: 3
- SOCI 619 - Conflict and Conflict Management: Perspectives from Sociology Credits: 3
- SOCI 640 - Social Theory and Social Policy Credits: 3
- SOCI 711 - Classical Sociological Theory Credits: 3
- SOCI 712 - Contemporary Sociological Theory Credits: 3
- CONF 501 - Introduction to Conflict Analysis and Resolution Credits: 3
- CONF 701 - Theories of Social Harmony Credits: 3
- CONF 720 - Ethnic and Cultural Factors in Conflict Resolution Credits: 3
- CONF 721 - Conflict and Race Credits: 3
- CONF 723 - Conflict and Gender Credits: 3
- CONF 726 - Moral and Philosophical Foundations of Conflict Credits: 3
- CONF 747 - Reconciliation Credits: 3
- CONF 802 - Theories of the Person Credits: 3
- CONF 803 - Structural Theories Credits: 3
- ECON 611 - Microeconomic Theory Credits: 3
- ECON 852 - Public Choice I Credits: 3
- ECON 854 - Public Choice II Credits: 3

Law-related electives:

- Any selected LAW courses. Enrollment requires successful completion of CRIM 720 and 721 and approval from the department coordinator, law school instructor, and associate dean for student academic affairs of the Law School.
- CRIM 721 - The Constitution, Criminal Procedure, and Security Credits: 3
- CRIM 722 - Civil Justice Credits: 3
- CRIM 723 - Law and Social Control Credits: 3
- CRIM 730 - Courts and Constitutional Law Credits: 3
- SOCI 503 - Sociology of Law Credits: 3
- PHIL 611 - Philosophy of Law Credits: 3
- CONF 733 - Law and Justice from a Conflict Perspective Credits: 3
• ECON 895 - Special Topics in Economics Credits: 3

Justice Organizations, Administration, and Leadership

• CRIM 741 - Conduct of Justice Organizations at the Street Level Credits: 3
• CRIM 742 - Leadership in Justice and Security Organizations Credits: 3
• CRIM 743 - Changing Justice and Security Organizations Credits: 3
• CRIM 749 - Issues in Justice Administration Credits: 1-3
• CRIM 509 - Justice Organizations and Processes Credits: 3
• CRIM 510 - Policing in a Democratic Society Credits: 3
• CRIM 691 - Justice Program Planning and Implementation Credits: 3
• PUAD 502 - Administration in Public and Nonprofit Organizations Credits: 3
• PUAD 620 - Organization Theory and Management Behavior Credits: 3
• PUAD 621 - Principles and Practices in Government Organization and Management Credits: 3
• PUAD 622 - Program Planning and Implementation Credits: 3
• PUAD 640 - Public Policy Process Credits: 3
• PUAD 661 - Public Budgeting Systems Credits: 3
• PUAD 671 - Public Employee Labor Relations Credits: 3
• PUAD 680 - Managing Information Resources Credits: 3
• PUAD 700 - Ethics and Public Administration Credits: 3
• PUAD 727 - Seminar in Risk Assessment and Decision Making Credits: 3
• PUAD 781 - Information Management: Technology and Policy Credits: 3
• CONF 731 - Conflict in Organizations Credits: 3
• CONF 741 - Negotiations Credits: 3
• CONF 743 - Dynamics of Conflict Termination Credits: 3
• PSYC 631 - Industrial and Personnel Testing and Evaluation Credits: 3
• PSYC 639 - Survey of Organizational Processes Credits: 3
• SOCI 605 - Gender and Social Structure Credits: 3
• SOCI 623 - Racial and Ethnic Relations: American and Selected Global Perspectives Credits: 3
• SOCI 692 - McDonaldization of Organizations Credits: 3

Crime and Crime Policy

• CRIM 761 - Politics of Crime Policy Credits: 3
• SOCI 607 - Criminology Credits: 3
• GOVT 745 - International Security Credits: 3
• PUAD 640 - Public Policy Process Credits: 3
• PUAD 644 - Public Policy Models Credits: 3
• PUAD 741 - Policy Analysis Credits: 3
• PSYC 617 - Child Psychopathology Credits: 3

Doctoral Degree
Criminology, Law and Society, PhD

Banner Code: LA-PHD-CLS

Web: cls.gmu.edu

The PhD program in criminology, law and society is designed to produce top academic scholars and leaders in policy and applied settings. It brings cutting edge social science methods to the disciplines of criminology and law and society. Students coming to this program seek to make a difference in the development and evaluation of policy in these fields. The goal of this program is to provide a rigorous course of study that will prepare students to do research, teach, develop and test policies, and administer agencies and programs designed to administer law, deliver justice, reduce crime, and enhance domestic security.

The program draws on a multidisciplinary departmental faculty to teach the required core courses and electives. Students can also take a wide range of other electives from many other university faculty including those in computational social science, conflict analysis and resolution, economics, government, law, philosophy, psychology, public administration, sociology, and statistics. The program takes advantage of the university’s proximity to many justice organizations at the federal, state, and local levels in the capital region. The curriculum is structured to give students the skills to do policy-relevant research and work with justice and security agencies in the region to exercise those skills and serve the needs of those agencies.

This program of study is offered by the Department of Criminology, Law and Society.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Reduction of Credit

Students entering the doctoral program with a master’s degree in a related discipline, including a law degree, may request that the required credits for the doctoral degree be reduced by a maximum of 24 credits with approval of the graduate director and dean and in accordance with university policy. Students who have prior graduate course work that has not been applied to another degree may request to have a maximum of 12 of these graduate credits transferred to their degree program, with approval of the graduate director and dean and in accordance with university policy.

Satisfactory Progress

Each new student is assigned an advisor who helps develop a program of study. The program of study must be submitted by the end of the first year. On advancement to candidacy, the chair of the dissertation committee becomes the advisor. The advisor and faculty assess the progress of all students annually. Students who fail to make satisfactory progress may be terminated from the program or dismissed from the university. Satisfactory progress in the PhD in criminology, law and society is defined as maintaining a minimum GPA of 3.00 with the minimum grade of B- in all courses. As in all graduate programs, students who receive a grade below B- will receive an academic warning the first time and a letter of dismissal the second time.

Application Requirements

Applicants must meet the admission standards and application requirement for graduate study as specified in the Admission chapter of the catalog. Applicants to this program should also submit a resume; three letters of recommendation from faculty members or individuals who have first-hand knowledge of the applicant’s academic or professional capabilities; a statement of purpose of study no longer than 500 words; official verbal, quantitative, and analytical GRE scores on tests taken within five years of application; and a writing sample of a recent sole-authored work of at least 2,500 words. An interview may be required.
Students admitted to the doctoral program without a graduate degree in a relevant area will be required to complete the master’s degree as an integral part of the doctorate. There is no required background or preferred experience, but students should demonstrate interest in and aptitude for graduate study in justice, law and crime policy.

See the Application for Graduate Study for admissions deadlines for the spring and fall semesters. Late applications will be considered on a space-available basis.

Degree Requirements

In addition to satisfying the requirements for all doctoral degrees, students must successfully complete 72 credits of required course work, pass two qualifying exams, and form a dissertation committee, after which they are advanced to candidacy. The final requirements are the dissertation proposal defense and a dissertation of original research representing a significant contribution to the field, which should be publishable in a referred journal or a quality press.

Four core substantive courses (12 credits)

- CRIM 700 - Theories of Justice Credits: 3
- CRIM 720 - Behavior of Law Credits: 3
- CRIM 740 - Justice Organization and Administration Credits: 3
- CRIM 760 - Crime and Crime Policy Credits: 3

Four analytical methods courses (12 credits)

- CRIM 780 - Research Methods Credits: 3
- CRIM 782 - Statistics I Credits: 3
- CRIM 783 - Statistics II Credits: 3

and one course chosen from:

- CRIM 781 - Justice Program Evaluation Credits: 3
- SOCI 631 - Survey Research Credits: 3
- SOCI 632 - Evaluation Research for Social Programs Credits: 3
- SOCI 634 - Qualitative Research Methods Credits: 3
- STAT 574 - Survey Sampling I Credits: 3
- STAT 658 - Time Series Analysis and Forecasting Credits: 3
- STAT 662 - Multivariate Statistical Methods Credits: 3
- STAT 665 - Categorical Data Analysis Credits: 3
- STAT 673 - Statistical Methods for Longitudinal Data Analysis Credits: 3
- STAT 674 - Survey Sampling II Credits: 3
- PSYC 633 - Evaluative Research in Psychology Credits: 3
- PSYC 640 - Techniques in Industrial/Organizational Psychology Credits: 3
- CSS 600 - Introduction to Computational Social Science Credits: 3
- CSS 610 - Computational Analysis of Social Complexity Credits: 3
Six courses (18 credits) in two substantive fields of study:

Students select two substantive fields and complete three courses within each. Students may take one non-CRIM elective course in each area or other courses in criminology, law and society with prior written approval of the director of the graduate program.

Justice and Law

Justice-related electives:

- CRIM 702 - Comparative Justice Credits: 3
- CRIM 703 - Restorative Justice Credits: 3
- GOVT 520 - Political Theory Credits: 3
- GOVT 725 - Democratic Theory and Democratization Credits: 3
- GOVT 631 - Seminar in Comparative Politics and Institutions Credits: 3
- SOCI 619 - Conflict and Conflict Management: Perspectives from Sociology Credits: 3
- SOCI 640 - Social Theory and Social Policy Credits: 3
- SOCI 711 - Classical Sociological Theory Credits: 3
- SOCI 712 - Contemporary Sociological Theory Credits: 3
- CONF 501 - Introduction to Conflict Analysis and Resolution Credits: 3
- CONF 701 - Theories of Social Harmony Credits: 3
- CONF 720 - Ethnic and Cultural Factors in Conflict Resolution Credits: 3
- CONF 721 - Conflict and Race Credits: 3
- CONF 723 - Conflict and Gender Credits: 3
- CONF 726 - Moral and Philosophical Foundations of Conflict Credits: 3
- CONF 747 - Reconciliation Credits: 3
- CONF 802 - Theories of the Person Credits: 3
- CONF 803 - Structural Theories Credits: 3
- ECON 611 - Microeconomic Theory Credits: 3
- ECON 852 - Public Choice I Credits: 3
- ECON 854 - Public Choice II Credits: 3

Law-related electives:

- Any selected LAW courses. Prerequisite for enrollment in LAW courses: successful completion of CRIM 720 and 721. Enrollment requires preapproval from the graduate director, law school instructor, and associate dean for student academic affairs of the Law School.
- CRIM 721 - The Constitution, Criminal Procedure, and Security Credits: 3
- CRIM 722 - Civil Justice Credits: 3
- CRIM 723 - Law and Social Control Credits: 3
- CRIM 730 - Courts and Constitutional Law Credits: 3
- SOCI 503 - Sociology of Law Credits: 3
- PHIL 611 - Philosophy of Law Credits: 3
- CONF 733 - Law and Justice from a Conflict Perspective Credits: 3
- ECON 895 - Special Topics in Economics Credits: 3
Justice Organizations, Administration, and Leadership

- CRIM 741 - Conduct of Justice Organizations at the Street Level Credits: 3
- CRIM 742 - Leadership in Justice and Security Organizations Credits: 3
- CRIM 743 - Changing Justice and Security Organizations Credits: 3
- CRIM 749 - Issues in Justice Administration Credits: 1-3
- CRIM 509 - Justice Organizations and Processes Credits: 3
- CRIM 510 - Policing in a Democratic Society Credits: 3
- CRIM 691 - Justice Program Planning and Implementation Credits: 3
- PUAD 502 - Administration in Public and Nonprofit Organizations Credits: 3
- PUAD 620 - Organization Theory and Management Behavior Credits: 3
- PUAD 621 - Principles and Practices in Government Organization and Management Credits: 3
- PUAD 622 - Program Planning and Implementation Credits: 3
- PUAD 640 - Public Policy Process Credits: 3
- PUAD 661 - Public Budgeting Systems Credits: 3
- PUAD 671 - Public Employee Labor Relations Credits: 3
- PUAD 680 - Managing Information Resources Credits: 3
- PUAD 700 - Ethics and Public Administration Credits: 3
- PUAD 727 - Seminar in Risk Assessment and Decision Making Credits: 3
- PUAD 781 - Information Management: Technology and Policy Credits: 3
- CONF 731 - Conflict in Organizations Credits: 3
- CONF 741 - Negotiations Credits: 3
- CONF 743 - Dynamics of Conflict Termination Credits: 3
- PSYC 631 - Industrial and Personnel Testing and Evaluation Credits: 3
- PSYC 639 - Survey of Organizational Processes Credits: 3
- SOCI 605 - Gender and Social Structure Credits: 3
- SOCI 623 - Racial and Ethnic Relations: American and Selected Global Perspectives Credits: 3
- SOCI 692 - McDonaldization of Organizations Credits: 3

Crime and Crime Policy

- CRIM 761 - Politics of Crime Policy Credits: 3
- SOCI 607 - Criminology Credits: 3
- GOVT 745 - International Security Credits: 3
- PUAD 640 - Public Policy Process Credits: 3
- PUAD 644 - Public Policy Models Credits: 3
- PUAD 741 - Policy Analysis Credits: 3
- PSYC 617 - Child Psychopathology Credits: 3

Two elective courses (6 credits)

Students choose courses relevant to criminology, law and society in consultation with their advisor. Students may have more than 6 credits of electives, depending on the number of dissertation credits required by their program of study.
Qualifying Exams

Students must pass written qualifying exams in two core substantive fields of the student’s choosing, selected from the three fields below. Students may take a single qualifying exam at each sitting. All three qualifying exams will be offered at each sitting.

Students are not eligible to take the qualifying exams until they have successfully completed the required course work, as well as course work in the substantive area in which they intend to sit for the qualifying exam. Students have one opportunity across both exam areas to retake a failed exam.

Dissertation (15-24 credits)

Once enrolled in 998, a student must maintain continuous registration in 998 or 999 each semester until the dissertation is submitted to and accepted by the University Library. Once enrolled in 999, students must follow the university's continuous registration policy as specified in the Academic Policies chapter of the catalog.

A maximum of 24 credits of 998 and 999 may be applied to the degree, though students may have to take more credits because of continuous registration. Students who take fewer than 24 dissertation credits will have accordingly more elective credits.

Dissertation proposal (3 to 6 credits)

- CRIM 998 - Doctoral Dissertation Proposal Credits: 1-6

Dissertation research (12 to 21 credits)

- CRIM 999 - Doctoral Dissertation Research Credits: 1-21

Total: 72 credits

Advancement to Candidacy

To advance to candidacy, students must complete all course work required on their approved program of study. Students must also successfully complete and pass two qualifying exams. In addition, students must have a dissertation committee appointed by the Dean’s Office and have defended their dissertation proposal.

Dissertation Committee

The student’s committee is composed of at least three faculty members and a chair, at least two of whom must be full-time CLS faculty and one, a member of the graduate faculty outside CLS. The chair must be a full-time CLS faculty member.
Communication

Faculty

Professors: Boileau, Botan, Decker, Friedley, Kreps (chair), Lichter, Lont, Maibach, McAuley, Rowan
Emeritus professors: Looney, Manchester, Taylor
Associate professors: Cai, Gibson, Muir, Nicotera (associate chair), Villagran
Assistant professors: Farnsworth, Hopson, Zhao
Term professor: Pober
Term associate professor: Finn
Term assistant professors: Bedore, Wright
Term research assistant professor: Roser-Renouf
Term instructors: Craig, M. Dickerson, Haynes, Klein, R. Smith, Talkington, Tomasovic, Warren
Term research instructor: McCutcheon

Affiliate: J. R. Censer

Course Work

The Communication Department offers all course work designated COMM in the Courses chapter of this catalog.

Undergraduate Programs

The department offers a BA in communication, which prepares students for graduate study or entry-level positions in such fields as interpersonal and organizational communication, journalism, media production and criticism, persuasive and political communication, and public relations.

Students majoring in communication complete a concentration from one of these areas: interpersonal and organizational communication, journalism, media production and criticism, persuasive and political communication, or public relations.

Internships

The department has an active internship program. Many students include an internship during their senior year as a way of gaining practical experience with national and international businesses, associations, or government agencies.
Student Activities

All students are encouraged to participate in one of the communication activities: Broadside, debate, forensics, GMView, Mason Cable Network, PRSSA, or WGMU.

Honors in the Major

Highly qualified students may pursue advanced work leading to graduation with honors in the major. Communication majors are eligible to apply if they have completed 90 credit hours (including COMM 200 and two of COMM 300, 301, 302, 305), have a minimum GPA of 3.25 in all coursework completed at George Mason, and a minimum GPA of 3.50 in all communication coursework completed at George Mason and applied to the major.

If accepted, students take a two-course sequence, COMM 490 and 491. COMM 490 replaces COMM 400 in the degree requirements for the major in communication. To graduate with honors in the major, students must complete 490 and 491 with a minimum GPA of 3.50 and maintain a GPA of 3.50 in the major and 3.25 overall.

Minors

The department offers minors in communication, electronic journalism, and sport communication. The latter is offered jointly by the Department of Communication and the School of Recreation, Health, and Tourism in the College of Education and Human Development. The department faculty also participate in these minors: Film and Media Studies Minor, Multimedia Minor, Consciousness and Transformation Minor, and Women and Gender Studies Minor.

Students majoring in communication may choose to minor in any discipline that offers an undergraduate minor.

Graduate Programs

The department offers a MA and a PhD in communication with two major areas of emphasis: strategic communication and health communication. The programs provide students with a strong foundation in communication theory and research while at the same time encouraging students to apply their skills in the public, private, and nonprofit sectors.

The faculty in strategic communication, drawing on their expertise in organizational, public relations, and political communication theory and research, teach courses on planning, developing, executing, and evaluating public communication campaigns and interventions. Faculty in health communication teach courses which explore the relationship between communication practices and the health and well-being of individuals and communities. This includes how to improve cooperation and coordination between health care providers and consumers, how to effectively utilize health information technologies, and to how to develop influential health promotion campaigns.

Strategic communication and health communication are two of the most rapidly expanding specialties within the broad field of communication. Graduates of these programs find a very welcoming employment market for their expertise.

Funding

The department offers teaching and research assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

Undergraduate Degree
Communication, BA

Banner Code: LA-BA-COM

Web: communication.gmu.edu

The bachelor of arts in communication prepares students for graduate study or entry-level positions in such fields as interpersonal and organizational communication, journalism, media production and criticism, persuasive and political communication, and public relations.

This program of study is offered by the Department of Communication.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements

In addition to satisfying university general education requirements and requirements for the bachelor of arts degree in the College of Humanities and Social Sciences, students pursuing this degree must complete 36 credits with a minimum grade of 2.00 in each course. Of the 36 credits applied for the BA in communication, at least 3 must be in a course designated presentation-intensive; there is a list of such courses at the end of this section. Of the 18 credits of concentration (12 credits) and electives (6 credits), at least 12 credits must be at the 300-400 level and no more than 6 credits may be in COMM 450 - Internship.

Of the 120 credits applied to a degree, no more than 9 credits may be from an internship (COMM 450 or GOVT 450) and no more than 10 credits may be from courses listed at the end of this section.

Six required courses (18 credits) in communication:

Students must complete COMM 200 with a grade of C (2.00) or better before enrolling in COMM 300, 301, 302, 305, or 400.

- COMM 200 - Introduction to Communication Credits: 3
- COMM 300 - Foundations of Public Communication Credits: 3
- COMM 301 - Foundations of Interpersonal Communication Credits: 3
- COMM 302 - Foundations of Mass Communication Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3
- COMM 400 - Research Methods in Communication Credits: 3

Elective courses in communication (6 credits)

One approved concentration (12 credits):

Students complete one concentration. They must declare their concentration before they earn more than 75 credits. Transfer students with 60 or more credits are encouraged to declare a concentration by the end of their first semester. COMM 399 - Special Topics in Communication may be applied toward a concentration when topic is relevant to the concentration with prior written approval of the undergraduate director.
▲ Concentration in Interpersonal and Organizational Communication (IOC)

Four courses (12 credits) chosen from:

- COMM 201 - Small Group Communication Credits: 3
- COMM 230 - Case Studies in Persuasion Credits: 3
- COMM 320 - Business and Professional Communication Credits: 3
- COMM 332 - Nonverbal Communication Credits: 3
- COMM 335 - Organizational Communication Credits: 3
- COMM 344 - Parliamentary Procedure Credits: 1
- COMM 401 - Interpersonal Communication in the Workplace Credits: 3
- COMM 430 - Persuasion Credits: 3
- COMM 434 - Interviewing Credits: 3
- COMM 465 - Topics in Communication and Gender Credits: 3

▲ Concentration in Journalism (JNL)

One required course (3 credits):

- COMM 303 - Writing across the Media Credits: 3

Three courses (9 credits) chosen from:

- COMM 145 - Newspaper Workshop I Credits: 1
- COMM 203 - Introduction to Journalism Credits: 3
- COMM 210 - Voice and Articulation Credits: 3
- COMM 330 - Principles of Public Relations Credits: 3
- COMM 345 - Newspaper Workshop II Credits: 1
- COMM 351 - News Writing and Reporting Credits: 3
- COMM 352 - News Editing: Print and Beyond Credits: 3
- COMM 353 - Broadcast Journalism Credits: 3
- COMM 356 - Video: Performance and Writing Credits: 3
- COMM 361 - Online Journalism Credits: 3
- COMM 362 - Argument and Public Policy Credits: 3
- COMM 370 - Feature Writing Credits: 3
- COMM 371 - Sports Writing and Reporting Credits: 3
- COMM 374 - Political Journalism Credits: 3
- COMM 390 - Issues in Public Relations Credits: 3
- COMM 391 - Writing for Public Relations Credits: 3
- COMM 412 - Politics and the Mass Media Credits: 3
- COMM 431 - Information Technology and the Political Process Credits: 3
- COMM 434 - Interviewing Credits: 3
- COMM 435 - Computers and Communication Credits: 3
- COMM 454 - Free Speech and Ethics Credits: 3
- COMM 455 - History of Print Journalism Credits: 3
• COMM 475 - Journalism Law Credits: 3

▲ Concentration in Media Production and Criticism (MPC)

Four courses (12 credits) chosen from:

• COMM 148 - Radio Workshop I Credits: 1
• COMM 157 - Video Workshop Credits: 1
• COMM 202 - Mass Media and Communication Systems Credits: 3
• COMM 210 - Voice and Articulation Credits: 3
• COMM 303 - Writing across the Media Credits: 3
• COMM 348 - Radio Workshop II Credits: 1
• COMM 350 - Mass Communication and Public Policy Credits: 3
• COMM 354 - Radio Production Credits: 3
• COMM 355 - Video Principles and Practices Credits: 3
• COMM 356 - Video: Performance and Writing Credits: 3
• COMM 358 - Video Producing and Directing Credits: 3
• COMM 359 - Media Management Credits: 3
• COMM 360 - Video Editing Credits: 3
• COMM 363 - Media Career Seminar Credits: 1
• COMM 365 - Gender, Race, and Class in the Media Credits: 3
• COMM 366 - Visual Communication Credits: 3
• COMM 375 - Mass Communication Advertising and Promotions Credits: 3
• COMM 380 - Media Criticism Credits: 3
• COMM 456 - Comparative Mass Media Credits: 3

▲ Concentration in Persuasive and Political Communication (PPC)

Four courses (12 credits) chosen from:

• COMM 140 - Forensics Seminar in Creative Arts Credits: 1
• COMM 141 - Forensics Seminar in Recreative Arts Credits: 1
• COMM 142 - Forensics Seminar in Debate: Affirmative Strategies Credits: 1
• COMM 143 - Forensics Seminar in Debate: Negative Strategies Credits: 1
• COMM 230 - Case Studies in Persuasion Credits: 3
• COMM 260 - Basic Debate Theory and Practice Credits: 3
• COMM 261 - Theories of Argumentation Credits: 3
• COMM 320 - Business and Professional Communication Credits: 3
• COMM 326 - Rhetoric of Social Movements and Political Controversy Credits: 3
• COMM 340 - Forensics Seminar in Creative Arts Credits: 1
• COMM 341 - Forensics Seminar in Recreative Arts Credits: 1
• COMM 342 - Forensics Seminar in Debate: Affirmative Strategies Credits: 1
• COMM 343 - Forensics Seminar in Debate: Negative Strategies Credits: 1
• COMM 362 - Argument and Public Policy Credits: 3
• COMM 374 - Political Journalism Credits: 3
• COMM 380 - Media Criticism Credits: 3
• COMM 412 - Politics and the Mass Media Credits: 3
• COMM 430 - Persuasion Credits: 3
• COMM 431 - Information Technology and the Political Process Credits: 3
• COMM 432 - Political Communication Credits: 3
• COMM 454 - Free Speech and Ethics Credits: 3
• COMM 465 - Topics in Communication and Gender Credits: 3

▲ Concentration in Public Relations (PR)

One required course (3 credits):

• COMM 330 - Principles of Public Relations Credits: 3

Three courses (9 credits) chosen from:

• COMM 202 - Mass Media and Communication Systems Credits: 3
• COMM 230 - Case Studies in Persuasion Credits: 3
• COMM 260 - Basic Debate Theory and Practice Credits: 3
• COMM 261 - Theories of Argumentation Credits: 3
• COMM 303 - Writing across the Media Credits: 3
• COMM 320 - Business and Professional Communication Credits: 3
• COMM 335 - Organizational Communication Credits: 3
• COMM 351 - News Writing and Reporting Credits: 3
• COMM 359 - Media Management Credits: 3
• COMM 362 - Argument and Public Policy Credits: 3
• COMM 375 - Mass Communication Advertising and Promotions Credits: 3
• COMM 389 - Public Relations for Associations and Nonprofits Credits: 3
• COMM 390 - Issues in Public Relations Credits: 3
• COMM 391 - Writing for Public Relations Credits: 3
• COMM 430 - Persuasion Credits: 3
• COMM 454 - Free Speech and Ethics Credits: 3

Total: 36 credits

Presentation-Intensive Course
Students must complete a presentation-intensive course chosen from the following courses (or COMM 399 when the topic is special occasion speaking). The presentation-intensive course may simultaneously fulfill the requirements for a concentration or for elective courses in communication.

- COMM 100 - Public Speaking Credits: 3
- COMM 210 - Voice and Articulation Credits: 3
- COMM 260 - Basic Debate Theory and Practice Credits: 3
- COMM 310 - Oral Interpretation Credits: 3
- COMM 320 - Business and Professional Communication Credits: 3
- COMM 356 - Video: Performance and Writing Credits: 3

Courses Limited to 10 Credits

Of the 120 credits applied to the degree, no more than 10 credits may be in these courses:

- COMM 140 - Forensics Seminar in Creative Arts Credits: 1
- COMM 141 - Forensics Seminar in Recreative Arts Credits: 1
- COMM 142 - Forensics Seminar in Debate: Affirmative Strategies Credits: 1
- COMM 143 - Forensics Seminar in Debate: Negative Strategies Credits: 1
- COMM 145 - Newspaper Workshop I Credits: 1
- COMM 148 - Radio Workshop I Credits: 1
- COMM 157 - Video Workshop Credits: 1
- COMM 340 - Forensics Seminar in Creative Arts Credits: 1
- COMM 341 - Forensics Seminar in Recreative Arts Credits: 1
- COMM 342 - Forensics Seminar in Debate: Affirmative Strategies Credits: 1
- COMM 343 - Forensics Seminar in Debate: Negative Strategies Credits: 1
- COMM 345 - Newspaper Workshop II Credits: 1
- COMM 346 - Yearbook Workshop Credits: 1
- COMM 348 - Radio Workshop II Credits: 1
- COMM 450 - Internship in Communication Credits: 3
- COMM 451 - Facilitating Communication Education Credits: 3
- COMM 452 - Media Production Practicum Credits: 3
- COMM 499 - Independent Study in Communication Credits: 1-3

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as writing intensive in their majors at the 300 level or above. Students majoring in communication fulfill this requirement by successfully completing COMM 300.

Undergraduate Minor

Communication Minor

Banner Code: COM
The minor in communication is offered by the Department of Communication.

For policies governing all minors, see the Academic Policies chapter of this catalog.

**Course Work**

Students pursuing the minor must complete 18 credits in communication beyond the 3 credits used to satisfy the university general education requirement in oral communication. Students must earn a minimum grade of 2.00 in all courses applied to the minor.

**One required course (3 credits):**

- COMM 200 - Introduction to Communication Credits: 3

**Two courses (6 credits) chosen from:**

- COMM 300 - Foundations of Public Communication Credits: 3
- COMM 301 - Foundations of Interpersonal Communication Credits: 3
- COMM 302 - Foundations of Mass Communication Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3

**One course (3 credits) that is public presentation intensive (PPI) chosen from:**

Other courses that are PPI may be applied to this requirement with prior written approval of the director of the minor.

- COMM 100 - Public Speaking Credits: 3
- COMM 210 - Voice and Articulation Credits: 3
- COMM 310 - Oral Interpretation Credits: 3
- COMM 320 - Business and Professional Communication Credits: 3
- COMM 356 - Video: Performance and Writing Credits: 3

**Two elective courses (6 credits) in communication**

**Total: 18 credits**

**Electronic Journalism Minor**

**Banner Code: EJ**

Web: communication.gmu.edu
Electronic journalism provides a foundation in journalism with a focus on the writing style and research techniques unique to broadcast, online, and computer-assisted reporting.

This minor is not available to communication majors pursuing a concentration in journalism.

This program of study is offered by the Department of Communication.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits with a minimum GPA of 2.00.

Four required courses (12 credits)

- COMM 303 - Writing across the Media Credits: 3
- COMM 351 - News Writing and Reporting Credits: 3
- COMM 361 - Online Journalism Credits: 3
- COMM 475 - Journalism Law Credits: 3

Two elective courses (6 credits)

COMM 399 or 450, when relevant, may be applied to this requirement with prior written approval of the director of the minor.

- COMM 203 - Introduction to Journalism Credits: 3
- COMM 352 - News Editing: Print and Beyond Credits: 3
- COMM 353 - Broadcast Journalism Credits: 3
- COMM 370 - Feature Writing Credits: 3
- COMM 435 - Computers and Communication Credits: 3
- COMM 454 - Free Speech and Ethics Credits: 3

Total: 18 credits

Sport Communication Minor

Banner Code: SCOM

Web: communication.gmu.edu

The minor in sport communication offers students the opportunity to examine important and timely sports-related issues in an ethical context as well as analyze sports from cross-cultural perspectives. Students will gain an understanding of sport mass media, sport communication, sports reporting, interpersonal and organizational communication, and the impact each has in our global society. The courses cover theory and practice in cross-platform communication, sports ethics and theoretical
underpinnings, public relations, and marketing. The minor provides applied fundamentals for students seeking employment in the commercial world of sports (areas such as management or promotion of athletic organizations) and in sports media.

This minor is offered jointly by the Department of Communication and the School of Recreation, Health, and Tourism in the College of Education and Human Development.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits with a minimum GPA of 2.00.

Four required courses (12 credits):

- COMM 303 - Writing across the Media Credits: 3
- COMM 320 - Business and Professional Communication Credits: 3
- SPMT 201 - Introduction to Sport Management Credits: 3
  or
- SPMT 304 - Sport, Culture, and Society Credits: 3
- SPMT 430 - Sport Communication Credits: 3

Two elective courses (6 credits)

Special topics courses, when relevant, may be used to fulfill this requirement with the prior written approval of the coordinator.

- COMM 305 - Foundations of Intercultural Communication Credits: 3
- COMM 330 - Principles of Public Relations Credits: 3
- COMM 351 - News Writing and Reporting Credits: 3
- COMM 356 - Video: Performance and Writing Credits: 3
- COMM 359 - Media Management Credits: 3
- COMM 361 - Online Journalism Credits: 3
- COMM 371 - Sports Writing and Reporting Credits: 3
- SPMT 302 - Sport and Ethics Credits: 3
- SPMT 318 - Gender and Racial Issues in Sport Credits: 3
- SPMT 405 - Sport Operation and Planning Credits: 3
- SPMT 412 - Sport Marketing and Finance Credits: 3
- SPMT 420 - Economics and Finance in the Sport Industry Credits: 3
- SPMT 440 - Global Perspectives in Sport Credits: 3
- SPMT 455 - Governance and Policy in Sport Organizations Credits: 3

Total: 18 credits

Master's Degree
Communication, MA

Banner Code: LA-MA-COM

Web: communication.gmu.edu

The master of arts in communication examines the powerful role played by communication practices in contemporary society. The program has two major areas of emphasis: health and strategic communication.

This program of study is offered by the Department of Communication.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Students must meet the admission standards and application requirements as specified in the Admission chapter of the catalog. Applicants to the MA in communication should submit three letters of recommendation, scores from the GRE taken within the past five years, a 500-word essay addressing the communication area in which they are interested, and a résumé.

Admission to the graduate program in communication is competitive. Meeting the minimum admission standards does not guarantee admission.

Degree Requirements

Three core courses (9 credits)

- COMM 600 - Introduction to Graduate Studies Credits: 3
- COMM 650 - Research Methodologies in Communication Credits: 3
- COMM 798 - Communication Studies Project Credits: 3

Two theory courses (6 credits) chosen from:

- COMM 602 - Theories and Research of Mass Communication Credits: 3
- COMM 605 - Intercultural Communication Credits: 3
- COMM 620 - Health Communication Credits: 3
- COMM 630 - Theories of Public Relations Credits: 3
- COMM 634 - Theories of Interpersonal Communication Credits: 3
- COMM 635 - Organizational Communication Credits: 3

One practicum course (3 credits) chosen from:

- COMM 590 - Seminar in Communication Credits: 3
COMM 604 - Communication Research Practicum Credits: 3
COMM 653 - Graduate Communication: Research and Teaching Credits: 3
COMM 655 - Theories of Visual Communication in Telecommunications Credits: 3
COMM 694 - Communication Internship Credits: 3
COMM 697 - Independent Production Credits: 1-3
COMM 721 - E-Health Communication Credits: 3
COMM 820 - Health Communication Campaigns Credits: 3

Note:

Other courses including independent study can be used to fulfill this requirement with prior written approval of the director of graduate studies.

Elective courses (12 to 15 credits)

Students choose electives from graduate communication courses including those listed above under theory or practicum. Students may take up to 6 credits of course work outside the department with prior written approval of the director of the master's program. Students who choose to write a thesis have accordingly 3 fewer elective credits.

Thesis (3 credits) (option)

Students who choose to write a thesis should be aware of the policies governing theses as stated in the Academic Policies chapter of this catalog. They must follow the thesis enrollment policy of the university and once enrolled in COMM 799, maintain continuous enrollment.

Total: 33 credits

Doctoral Degree

Communication, PhD

Banner Code: LA-PHD-COM

Web: communication.gmu.edu

The doctor of philosophy degree in communication at Mason examines the powerful roles performed by communication in contemporary society. The program has two major areas of emphasis: health and strategic communication.

This program of study is offered by the Department of Communication.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements
Students must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog.

Degree Requirements

To receive the PhD in communication, students must complete a minimum of 60 credits beyond the master’s degree, including core courses in theory and research methods, course work in substantive fields of study, and a research practicum. Following completion of all required course work, students must pass a written qualifying examination and an oral defense of it, after which they are advanced to candidacy by the dean and complete a dissertation, an original and independent research project.

If specific requirements are waived, students must complete substitutions, which are recorded on their Program of Study. All substitutions to degree requirements must be approved by the graduate committee.

Four theory courses (12 credits)

One required theory course (3 credits)

- COMM 600 - Introduction to Graduate Studies Credits: 3

Three additional theory courses (9 credits) chosen from:

- COMM 602 - Theories and Research of Mass Communication Credits: 3
- COMM 605 - Intercultural Communication Credits: 3
- COMM 634 - Theories of Interpersonal Communication Credits: 3
- COMM 635 - Organizational Communication Credits: 3

Three research methods courses (9 credits)

One required methods course

- COMM 650 - Research Methodologies in Communication Credits: 3

One qualitative methods course

Students may take COMM 725 or another course at 700-level or above as approved by the graduate committee.
One additional research methods course at the 700-level or above

This course should be chosen to help prepare for the dissertation and must be approved by the graduate committee.

Six courses (18 credits) in one of the following substantive fields of study:

Health communication:

Three courses (9 credits) chosen from:

- COMM 620 - Health Communication Credits: 3
- COMM 705 - Intercultural Health and Risk Communication Credits: 3
- COMM 720 - Consumer-Provider Health Communication Credits: 3
- COMM 820 - Health Communication Campaigns Credits: 3

Three elective courses (9 credits) chosen with approval of the advisor and director

Strategic communication:

Three courses (9 credits) chosen from:

- COMM 630 - Theories of Public Relations Credits: 3
- COMM 705 - Intercultural Health and Risk Communication Credits: 3
- COMM 706 - Strategic Communication Credits: 3
- COMM 735 - Crisis Communication Credits: 3

Three elective courses (9 credits) chosen with approval of the advisor and director

One research practicum (3 credits) chosen from:

- COMM 604 - Communication Research Practicum Credits: 3
- COMM 890 - Special Topics in Communication Credits: 3
- COMM 896 - Independent Study Credits: 3

Dissertation proposal and research (18 credits)

Once enrolled in 998, students must maintain continuous registration for at least 1 credit; once enrolled in 999, students must follow the university continuous registration policy as specified in the Academic Policies chapter of the catalog. A maximum of 3
credits of COMM 998 and 15 credits of COMM 999 may be applied to the 60 credits required for the degree, although because of continuous registration policy, students may be required to register for additional credits of these courses.

Dissertation Proposal (3 credits)

- COMM 998 - Doctoral Dissertation Proposal Credits: 1-6

Dissertation Research (15 credits)

- COMM 999 - Doctoral Dissertation Research Credits: 1-15

Total: 60 credits

Advancement to Candidacy

To advance to candidacy, students must complete all course work required on their approved program of study. Students must also successfully pass a written qualifying exam and an oral qualifying exam. In addition, students must have a dissertation committee appointed by the Dean’s Office as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean’s Office before a student can advance to candidacy.

■ Cultural Studies

Phone: 703-993-2851
Web: culturalstudies.gmu.edu

Faculty

Albanese, Amireh, Best, Bickford, Bockman, Burr, Censer, Chang, Copelman, Deshmukh, Foster, Froman, Fuchs, Gibson, Gilbert, Greet, Guagnano, Gusterson, Hanrahan, Hodges, Holt, Jacobs, Jann, Johnsen-Neshati, Kaplan, Kaposy, Karush, Kaufmann, Lancaster (director), Landsberg, Leeman, Lont, Mandaville, Matz, Miller, O’Connor, O’Malley, Palkovich, Rabin, Ricouart, Rosenblum, Sample, Scarlata, Seligman, Shutika, P. Smith, S. Smith, Sockett, Todd, Travis, Yadav, Yocom, Zagarri

Course Work

The Cultural Studies Program offers all course work designated CULT in the Courses chapter of this catalog.

Cultural Studies at Mason
The Cultural Studies Program is distinctive in several respects. While similar programs at other universities are based in a department, the program at Mason has a truly interdisciplinary foundation, drawing on faculty members from 14 different departments across the university. The program explicitly links the social sciences and the humanities by combining their methods of interpretation to explore the production, distribution, and consumption of cultural objects in their social contexts. With particular focus on theory and method in crafting this linkage, the program addresses contemporary issues of nationality, class, race, and gender and opens the scope of scholarly inquiry to all forms of culture, past and present.

Undergraduate Programs

Cultural studies does not have an undergraduate program, but supports the interdisciplinary undergraduate program in global affairs. CULT 320 - Globalization and Culture is a core requirement for students majoring in global affairs.

Graduate Programs

The doctoral program in cultural studies trains students for scholarship and teaching. The core curriculum includes an introduction to cultural studies and a methods course, as well as courses on political economy, gender and sexuality, critical race studies, science and technology, social institutions, and visual and performance culture.

All students develop field specializations in two areas of cultural studies. The particular strengths of the program are visual culture, media, and new media studies; political economy and globalization; gender and sexuality studies.

Funding

The program offers teaching assistantships and fellowships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

Related Master's Degrees

Applicants to the doctoral degree in cultural studies must already hold a master's degree. For students interested in cultural studies who do not meet this requirement, the university has a number of related master's degrees. Students are encouraged to apply to one of these programs. Consult the relevant sections of this chapter in the departments of English, History and Art History, Modern and Classical Languages, Philosophy, Religious Studies, and Sociology and Anthropology. Students in these master's programs who wish to pursue the doctoral program conclude their master's degrees with a cultural studies seminar CULT 802.

Students may apply simultaneously to one of these master's degrees and the doctoral program in cultural studies simultaneously. If they do so, the cultural studies faculty may review their academic promise and suitability for the program. Students who wish to apply to two degree programs at the same time need to submit two separate applications. Especially strong candidates with bachelor's degrees may be admitted into the doctoral program provisionally. Admission to the doctoral program will be contingent on their performance in the master's degree program, particularly on their performance in CULT 802.

Doctoral Degree

Cultural Studies, PhD

Banner Code: LA-PHD-CULT
The doctoral program in cultural studies is offered by the Cultural Studies Program.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants must meet the admission standards and application requirement for graduate study as specified in the Admission chapter of the catalog. Applicants to the doctoral program in cultural students must already have earned a master's degree in a relevant field. Students with only a bachelor’s degree should apply to a master’s program in a department that has an established related master's degree. See the Cultural Studies Program for more information.

In addition to the materials required by all applicants, the applicants to cultural studies should submit the following:

- Scores on the GRE (general test is required; subject tests are optional)
- Three letters of recommendation from individuals who can judge the applicant’s scholarly potential
- Statement of purpose
- Writing sample demonstrating scholarly potential

Degree Requirements

As with all doctoral programs, the emphasis in this program is on the development of intellectual mastery and professional competence. The most important requirements are comprehensive exams and completion of a doctoral thesis that reflects the student’s ability to do original interdisciplinary work that meets professional standards.

Four core courses (12 credits)

- CULT 802 - Histories of Cultural Studies Credits: 3
- CULT 804 - Histories of Cultural Studies II Credits: 3
- CULT 806 - Research Seminar in Cultural Studies Credits: 3
- CULT 808 - Student/Faculty Colloquium in Cultural Studies Credits: 1 (Students must take CULT 808 a minimum of 3 times.)

One course (3 credits) in theory chosen from:

- CULT 810 - Culture and Political Economy Credits: 3
- CULT 814 - Gender and Sexuality Credits: 3
- CULT 820 - After Colonialism Credits: 3

One course (3 credits) in a topic chosen from:

- CULT 812 - Visual Culture Credits: 3
- CULT 816 - Science/Technology Credits: 3
- CULT 818 - Social Institutions Credits: 3
One course in methodology

Students must take one course in a relevant methodology in which they are not already trained. The specific course should be chosen from program or departmental graduate offerings (600 level or above) under the guidance of their faculty advisory committee.

Depending on the course, the chosen methodology course may simultaneously fulfill credits toward the field requirements. If not, the student will need to take an additional 3 credits to complete the degree (for a total of 51 credits).

Field Requirements (18 credits)

Under the guidance of faculty advisory committees, students define two fields that point topically and theoretically toward teaching interests, dissertation research, and related forms of professional development. Students select relevant courses from theory or topic courses not used to fulfill the previous requirements or from special topics courses. If doctoral level coursework is not available in a given area, students may take one independent study (CULT 870) to support the development of the field.

Students must take a minimum of three courses (9 credits) in two different fields. The 9 credits in each field must include a relevant section of CULT 880 taught by that field’s primary advisor.

- CULT 880 - Field Concentration Credits: 3

Oral defense

Students demonstrate competence in each field by producing and orally defending a field statement that consists of a comprehensive, critical literature review.

Proficiency in a foreign language

Students are required to demonstrate proficiency in at least one foreign language before being permitted to defend the doctoral dissertation proposal.

Dissertation research (12 credits):

Students are required to register for a minimum of 3 credits of 998 or 999 each semester until they have completed the minimum number of credits of 998 and 999 required on their program of study. For cultural studies students, continuous registration begins with 998. Students must maintain continuous registration in 998 or 999 each semester until the dissertation is submitted to and accepted by the University Library. The university continuous registration policy is specified in the Academic Policies chapter of the catalog.

- CULT 998 - Doctoral Dissertation Proposal Credits: 1-6
- CULT 999 - Doctoral Dissertation Credits: 1-12

Total: 48 credits
Advancement to Candidacy

To advance to candidacy, students must successfully complete all course work required on their approved program of study, including a second language competency examination. Students must also successfully complete two written field statements and pass an oral comprehensive exam based on them.

■ Economics

Phone: 703-993-1151
Web: economics.gmu.edu

Faculty

Distinguished professors emeriti: Buchanan, Smith, Tullock

Professors emeriti: Chung, Phillips, Snavely, Vaughn

Professors: Bennett, Boettke, Boudreaux, Congleton, Cowen, Heiner, Houzer (chair), Klein, Levy, McCabe, Nye, Roberts, Rowley, Stratmann, Wagner, White, Williams

Associate professors: Caplan, Castillo, Hanson, Meyer, Petrie, Ramirez, Tabarrok, Wiest

Assistant professors: Al-Ubaydli, Coyne, Johnson, Jones, Leeson

Term assistant professor: Rustici

Course Work

The Economics Department offers all course work designated ECON in the Courses chapter of the catalog.

Undergraduate Programs

The department offers a bachelor of arts and a bachelor of science degree in economics. The bachelor of science degree program is designed for students who desire a more technical program with a stronger emphasis on economic and quantitative analysis. It is especially appropriate for students who anticipate a career as an economic analyst in government, consulting, trade associations, or private sector positions that emphasize economic research and analysis. The requirements are also suitable for students planning postgraduate education in economics or more quantitative business administration programs.

Students interested in careers in the business world can pursue a concentration in managerial economics within the BS in economics.

The bachelor of arts degree in economics is designed for students with an interest in the liberal arts. It is appropriate for those who prefer a less quantitative degree program and may be especially suitable for students planning to attend law school or graduate programs in business or public administration.

Minors

The department offers a minor in economics and a minor in economic systems design. Both are available to students in any major.
**Bachelor’s/Accelerated Master’s Program**

The department offers highly qualified undergraduates the opportunity to apply to an accelerated master’s degree program in economics. If accepted, students will be able to earn both an undergraduate and a graduate degree after satisfactory completion of 144 credits, sometimes within five years.

**Graduate Programs**

The department offers a master’s and a doctoral degree in economics. The department is noted for its emphasis on comparative institutional analysis and its focus on the relations among economic, political, and legal institutions. This is reflected in the specializations associated with the department: experimental economics, Austrian economics, public choice, constitutional political economy, law and economics, and new institutional economics.

The department offers a graduate certificate in economic systems design, which provides a well defined course of study for students who want to advance or update their knowledge in this fast-moving field.

**Funding**

The department offers graduate teaching and research assistantships and fellowships that are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students with assistantships must register for a minimum of six credits a semester and, like all students, demonstrate satisfactory progress toward their degree.

**Undergraduate Degree**

**Economics, BA**

**Banner Code:** LA-BA-ECON

Web: economics.gmu.edu

The BA in economics is designed for students with a strong interest in the liberal arts. It is appropriate for those who prefer a less quantitative degree program than the BS in economics and may be especially appropriate for students planning to attend law school or graduate programs in business or public administration.

Some economics courses may fulfill the university-wide general education requirement in global understanding or the college requirement in non-Western culture. Check with the departmental advising office for more information. Economics majors can fulfill the university-wide general education synthesis requirement with ECON 309.

This program of study is offered by the Department of Economics.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

**Degree Requirements**

In addition to satisfying university general education requirements and the requirements for a bachelor of arts degree in the College of Humanities and Social Sciences, students pursuing this degree must complete the course work below with a minimum GPA of 2.00 overall in their ECON coursework. Students must also complete ECON 103 and 104 with at least a 2.00 (C) in each.
Six required courses (18 credits)

- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- ECON 306 - Intermediate Microeconomics Credits: 3
- ECON 311 - Intermediate Macroeconomics Credits: 3
- MATH 108 - Introductory Calculus with Business Applications Credits: 3
- IT 103 - Introduction to Computing Credits: 3

One or two courses in statistics (4 or 6 credits)

- OM 210 - Statistical Analysis for Management Credits: 4
  or
- STAT 250 - Introductory Statistics I Credits: 3
- STAT 350 - Introductory Statistics II Credits: 3

Eight elective courses (24 credits)

Students choose their electives from courses in economics at the 300 and 400 level. ECON 385 may not be used to fulfill this requirement.

Total: 46 or 48 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as “writing intensive” in their majors at the 300 level or above. Students majoring in economics fulfill this requirement by successfully completing ECON 345, 355, 365, 435, or 470.

Economics, BS

Banner Code: LA-BS-ECON

Web: economics.gmu.edu

The BS in economics is designed for students who desire a more technical program than the BA, one with a stronger emphasis on economic and quantitative analysis. It is especially appropriate for students who anticipate a career as an economic analyst in government, consulting, trade associations, or other private sector positions that emphasize economic research and analysis. The requirements are also appropriate for students planning postgraduate education in economics or more quantitative business administration programs.
Some economics courses may fulfill the university-wide general education requirement in global understanding. Check with the departmental advising office for more information. Economics majors can fulfill the university-wide general education synthesis requirement with ECON 309.

This program of study is offered by the Department of Economics.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements

In addition to satisfying university general education requirements and the requirements for a bachelor of science degree in the College of Humanities and Social Sciences, students pursuing the BS in economics must complete the course work below, earning a minimum GPA of 2.00 overall in their ECON coursework. Students must complete ECON 103 and 104 with at least a 2.00 (C) in each.

BS without a Concentration

Eight required courses (26 credits):

- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- ECON 306 - Intermediate Microeconomics Credits: 3
- ECON 311 - Intermediate Macroeconomics Credits: 3
- ECON 345 - Introduction to Econometrics Credits: 3
- MATH 113 - Analytic Geometry and Calculus I Credits: 4
- MATH 114 - Analytic Geometry and Calculus II Credits: 4
- IT 103 - Introduction to Computing Credits: 3

Two courses in statistics (6 credits):

Students choose one of these sequences.

- STAT 250 - Introductory Statistics I Credits: 3
- STAT 350 - Introductory Statistics II Credits: 3
  or
- STAT 344 - Probability and Statistics for Engineers and Scientists I Credits: 3
- STAT 354 - Probability and Statistics for Engineers and Scientists II Credits: 3

One course (3 credits) chosen from:

- ACCT 203 - Survey of Accounting Credits: 3
- STAT 362 - Introduction to Computer Statistical Packages Credits: 3
Eight elective courses (24 credits)

Electives are chosen from courses in economics at the 300 and 400 level. ECON 385 may not be used to fulfill this requirement.

If ECON 340 - Mathematical Economics is chosen as an elective, students need not take MATH 114; however, MATH 114 is strongly recommended for students considering graduate school in economics since it is required for admission to most graduate programs. An additional calculus course beyond MATH 114 is also advisable for students considering graduate study in economics.

Total: 57-59 credits

▲ Concentration in Managerial Economics (MECN)

Student who wish to focus their BS in economics for application in the business world may choose to pursue a concentration in managerial economics. They complete 62 credits, 10 of which may be used also to fulfill general education requirements.

Seven required courses in economics (21 credits):

ECON 103 fulfills the general education requirement in social and behavioral science.

- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- ECON 306 - Intermediate Microeconomics Credits: 3
- ECON 308 - Managerial Economics and Strategy Credits: 3
- ECON 310 - Money and Banking Credits: 3
- ECON 311 - Intermediate Macroeconomics Credits: 3
- ECON 345 - Introduction to Econometrics Credits: 3

Two courses in statistics (6 credits):

Students choose one of these sequences.

- STAT 250 - Introductory Statistics I Credits: 3
- STAT 350 - Introductory Statistics II Credits: 3
- or
- STAT 344 - Probability and Statistics for Engineers and Scientists I Credits: 3
- STAT 354 - Probability and Statistics for Engineers and Scientists II Credits: 3

Four required courses in math, accounting, and information technology (14 credits):

IT 103 fulfills the general education requirement in information technology. MATH 113 fulfills the general education requirement in quantitative reasoning.

- ACCT 203 - Survey of Accounting Credits: 3
• IT 103 - Introduction to Computing Credits: 3
• MATH 113 - Analytic Geometry and Calculus I Credits: 4
• MATH 114 - Analytic Geometry and Calculus II Credits: 4
ECON 340 may NOT be substituted for MATH 114 for the concentration.

One required course in business writing (3 credits):

• SOM 301 - Business Models: A Communication Approach Credits: 3

Three elective courses in economics (9 credits) chosen from:

ECON 496 requires departmental permission.

• ECON 321 - Economics of Labor Credits: 3
• ECON 370 - Economics of Industrial Organization Credits: 3
• ECON 390 - International Economics Credits: 3
• ECON 412 - Game Theory and Economics of Institutions Credits: 3
• ECON 415 - Law and Economics Credits: 3
• ECON 420 - International Money and Finance Credits: 3
• ECON 496 - Special Topics in Economics Credits: 3

Two elective courses (6 credits) in economics chosen from courses at the 300 and 400 level.

ECON 385 may not be used to fulfill this requirement.

One elective course (3 credits) not in economics chosen from:

• BULE 302 - Legal Environment of Business Credits: 3
• FNAN 301 - Financial Management Credits: 3
• MGMT 301 - People and Organizations Credits: 3
• MKTG 301 - Principles of Marketing Credits: 3
• MIS 301 - Introduction to Business Information Systems Credits: 3
• OM 301 - Operations Management Credits: 3

Total: 62 credits

Writing-Intensive Requirement
The university requires all students to complete at least one course designated as “writing intensive” in their majors at the 300 level or above. Students majoring in economics fulfill this requirement by successfully completing ECON 345, 355, 365, 435, or 470.

Undergraduate Minor

Economic Systems Design Minor

Banner Code: ESD

Web: economics.gmu.edu

The design of processes that efficiently allocate resources and foster exchange are crucial in society, organizations, personal interactions, and individual decision making. Economic systems design is the scientific study of the design, development, testing, and understanding of economic institutions. Economic systems design explores problems in the design of allocation systems and provides a method to develop and test the properties of such systems. A minor in economic systems design prepares students to undertake the scientific process of understanding and developing systems of exchange and their incentives. The skills offered through this minor can be of use to e-commerce designers, policy analysts, systems designers, engineers, and computer scientists.

This program of study is offered by the Department of Economics.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Three required courses (9 credits)

- ECON 440 - Economic Systems Design: Principles and Experiments Credits: 3
- ECON 441 - Economic Systems Design: Case Studies and Analysis Credits: 3
- ECON 442 - Economic Systems Design: Implementation Credits: 3

Two elective courses (6 credits)

Students can choose from the courses below or others chosen in consultation with the director of the minor.

- MIS 491 - Seminar in Management Information Systems Credits: 3
- MATH 441 - Deterministic Operations Research Credits: 3
- SYST 420 - Network Analysis Credits: 3
- SYST 470 - Human Factors Engineering Credits: 3
- CS 480 - Introduction to Artificial Intelligence Credits: 3
- CS 483 - Analysis of Algorithms Credits: 3
- ECON 335 - Environmental Economics Credits: 3
- ECON 415 - Law and Economics Credits: 3
Total: 15 credits

Economics Minor

Banner Code: ECON

Web: economics.gmu.edu

Economics is an essential tool for understanding the complexities of modern society. Economics analyzes how people with limited resources make choices and how we might make better choices. A minor in economics is an extremely flexible and marketable choice. Whether students primary interest is in business, communications, policy, data management, international studies, or engineering, a minor in economics gives them an additional edge in the workplace.

This program of study is offered by the Department of Economics.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students must have a minimum GPA of 2.00 overall in coursework applied to the minor. Students must also complete ECON 103 and 104 with a minimum grade of 2.00 (C) in each. A minimum of 9 credits of upper-level economics courses must be taken at Mason.

Three required courses (9 credits)

- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- ECON 306 - Intermediate Microeconomics Credits: 3

Four elective courses (12 credits)

Students choose their electives from courses in economics at the 300 or 400 level. ECON 385 may not be used to fulfill this requirement.

With permission of the department chair or undergraduate director, a course in a closely related field may be substituted for 3 credits of economics electives. A course in statistics is highly recommended, and OM 210, or STAT 250 or 344 may be substituted for up to 3 credits of economics electives.

Total: 21 credits

Bachelor's/Accelerated Master's Program
Economics, BA or BS/Economics, Accelerated MA

Web: economics.gmu.edu

Highly qualified Mason economics majors may apply to the accelerated master’s degree program. If accepted, students will be able to earn both bachelor’s and master’s degrees in economics after satisfactory completion of 144 credits. Graduates are exceptionally well-prepared for professional school or a PhD program in economics or a related discipline.

This program of study is offered by the Department of Economics.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 90 credits.

Students submit the Accelerated Master’s Program Application, available from the graduate director, and any other supplementary application materials requested by the department. The application includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the department for more details about the application process.

Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Master's Degree

Economics, MA
The master's degree in economics strengthens students' knowledge of economic theory and improves their skills in applying the theory to economic problems. Graduates are qualified to read and judge other research and conduct their own research, either individually or as members of government or business teams. They are also prepared to write policy analysis articles. Students who plan to pursue a PhD in economics should apply directly to the doctoral program.

Although the department does not guarantee availability of courses every semester, a typical first-year sequence includes ECON 611 and 630, and an elective in the fall, and ECON 612 and 615, and an elective in the spring. If possible, part-time students should arrange their work schedules to take two courses per semester in the first year.

This program of study is offered by the Department of Economics.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants to the MA in economics must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of this catalog. In addition to holding an undergraduate degree, not necessarily in economics, they should have satisfactorily completed intermediate microeconomics and macroeconomics and at least one semester of calculus (MATH 108 or equivalent) before enrolling in any graduate courses. Students entering the master’s program should be familiar with basic statistics as well. Successful applicants have earned a GPA of 3.00 in the last two years of undergraduate work and in all economics courses, as well as satisfactory scores on the GRE (subject exam is optional). Applicants should submit two letters of recommendation and a brief personal statement explaining their interest in the program.

The department accepts MA students for the fall semester only.

Degree Requirements

Three required courses (9 credits)

Master’s degree students must enroll at the Arlington Campus for the core theory courses.

- ECON 611 - Microeconomic Theory Credits: 3
- ECON 612 - Microeconomic Theory II Credits: 3
- ECON 615 - Macroeconomic Theory Credits: 3

Five to seven elective courses (15-21 credits)

Students choose their electives from economics courses in any of the fields offered by the department. The courses below are recommended but not required. Students may substitute up to 6 credits of courses outside economics in closely related fields with prior written approval of the director of the graduate program.

Students who elect to write a thesis for 3 or 6 credits complete accordingly fewer electives.

- ECON 535 - Survey of Applied Econometrics Credits: 3
- ECON 630 - Mathematical Economics I Credits: 3
Comprehensive Exams

Students must pass comprehensive exams in micro- and macroeconomics. Exams are offered twice each year.

3 or 6 credits of thesis (optional)

Once enrolled in ECON 799, students are required to maintain continuous registration until the thesis is submitted to and accepted by the University Library. The continuous registration policy is specified in the Academic Policies chapter of the catalog.

- ECON 799 - Master's Thesis Credits: 1 - 6

Total: 30 credits

Master’s Level Certificate

Economic Systems Design Graduate Certificate

Banner Code: LA-CERG-ECSD

Web: economics.gmu.edu

The certificate in economic systems design provides graduate students with a program of courses and laboratory experience. Course work for the graduate certificate can be used for credit toward the MA and PhD in economics. The primary purpose is to provide a well defined target for students who want to advance or update their knowledge in this fast-moving field.

Graduate students in economics, computer science, mathematics, systems engineering, and informatics find this certificate a strong complement to their major area of study. The courses and project work provide skills that can be used in electronic commerce, public policy, and internal firm resource allocation processes.

This program of study is offered by the Department of Economics.

For policies governing all graduate certificates, see the Academic Policies chapter of the catalog.

Application Requirements

Students must meet the admission standards and application requirements as specified in the Admission chapter of the catalog. All students who hold a bachelor’s degree from an accredited university are eligible to apply. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.

The department accepts certificate students for the fall semester only.

Certificate Requirements
Students must have a minimum cumulative GPA of 3.00 in courses applied to the certificate with no more than one course with a grade of C (2.00).

Three graduate-level courses (9 credits) in economic systems design:

- ECON 632 - Economic Systems Design Principles and Experiments Credits: 3
- ECON 633 - Economic Systems Design Case Studies and Analysis Credits: 3
- ECON 634 - Economic Systems Design Implementation Credits: 3

Two elective courses (6 credits)

Students choose the elective courses in consultation with an advisor in economics.

Total: 15 credits

Doctoral Degree

Economics, PhD

Banner Code: LA-PHD-ECON

Web: economics.gmu.edu

The PhD in economics prepares students for careers in academia, business, and government. Core courses train students in modern theory and quantitative techniques, while field courses stress the application of theory to relevant economic problems. Dissertation work requires students to master and apply the skills of original research. The department emphasizes publishing; many students have had articles accepted for publication in professional journals while in the graduate program. Research in the Department of Economics covers a broad spectrum, from problems of immediate policy importance to fundamental questions of economic and social organization.

This program of study is offered by the Department of Economics.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants to the PhD in economics must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of this catalog. In addition to holding an undergraduate degree, not necessarily in economics, applicants should have satisfactorily completed intermediate microeconomics and macroeconomics, one year of calculus, one year of statistics, and one semester each of matrix algebra and econometrics. Applicants should have earned a minimum GPA of 3.00 in the last two years of undergraduate coursework and in all economics courses, as well as received satisfactory scores on the GRE (subject exam is optional).
Applicants should submit two letters of recommendation and a brief personal statement explaining their interest in the program. The department accepts doctoral students for the fall semester only.

**Reduction of Credit**

Students who enter with a master’s degree in economics may have their credit requirement reduced by up to 30 credits at the discretion of the department with approval of the dean. Credit is not given for comprehensive and field exams from other universities.

**Degree Requirements**

Students must earn a minimum GPA of 3.00 in coursework applied to the degree. No more than two courses with a grade of 2.00 may be applied toward the degree.

**Six required core courses (18 credits)**

- ECON 630 - Mathematical Economics I Credits: 3
- ECON 637 - Econometrics I Credits: 3
- ECON 715 - Macroeconomic Theory I Credits: 3
- ECON 811 - Microeconomic Theory I Credits: 3
- ECON 812 - Microeconomic Theory II Credits: 3
- ECON 816 - Macroeconomic Theory II Credits: 3

**Six to ten elective courses (18 to 30 credits)**

**Two courses in two different fields (12 credits)**

Subject to course availability, the department offers courses in the following fields of study on which the knowledge area field exams will be based. Consult the department for the required courses for each field.

- Austrian economics
- Constitutional economics
- Economic history
- Economics and religion
- Experimental economics
- Industrial organization
- Institutions and Development
- Law and economics
- Monetary theory
- Public choice
- Public finance

**Comprehensive exams and field exams**
Students must successfully pass comprehensive exams in microeconomics and macroeconomics and field exams in two knowledge areas. See the list of possible knowledge areas under the field requirement above.

Dissertation (12 to 24 credits)

Students must have at least 3 credits in 998 and 3 credits in 999. Once enrolled in 998, students in the economics doctoral program must maintain continuous registration in 998 or 999 each semester until the dissertation is submitted to and accepted by the University Library. The university continuous registration policy is specified in the Academic Policies chapter of the catalog.

- ECON 999 - Doctoral Dissertation Research Credits: 1-15

Total: 72 credits

Advancement to Candidacy

To advance to candidacy, students must complete all course work required on their approved program of study and all exams. In addition, students must have a dissertation committee appointed by the dean as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean’s Office before a student can advance to candidacy.

■ English

Phone: 703-993-1160
Web: english.gmu.edu

Faculty

Professors: Cheuse, D’Andrea (Robinson Professor), Foster, Goodwin, Hodges, Jann, Lathbury, Lowry, Nadeau, Pankey, Tichy

Associate professors: Albanese, Amireh, Anderson, Atkinson, Burr, Clark, Fuchs, Gallehr, Harvey, Hawk, Holisky, Jones, Kaplan, Kaufmann, Keaney, Kuebrich, Lattanzi Shutika, Matz (chair), Mori, Reid, Rutledge, Weinberger, Yadav, Yocom, Zawacki

Assistant professors: Brbic, Chang, Eisner, Eyman, Hhiba, Hoffmann, Keith, Lawrence, Lin, Lockwood, Malouf, Marcantonio, McCarthy, Michals, Rogers, Sample, Scarlata, Stanica, Wheelock, Wiederhold, Wulff

Term associate professors: Koch, Miller, Samuelian, Scott, Taciuch, Thompson

Term assistant professors: Beach, Berg, Burnham, DeNys, DeFazio, Habib, Jacobs, Johnson, King, Lister, Matthews, McGeehan, Mitcho, Nanian, Nichols, Photos, Rudnicki, Saunders, Taylor, Williams

Term instructors: Hoy, Raffel, Sculato

Adjunct assistant professors: Broyles, Cabral, Casal, Fletcher, Fowler, Humbertson, Johnston, Kuhta, Moody, Pabich, Redondo, Waldron

Adjunct instructors: Baker, Cooper, Dutta, Grogan-Barone, Johnston, Lawrence, McKinney, Morris, Rhein, Surrette
Course Work

The English Department offers all course work designated CL, ENGL, LING, and NAIS in the Courses chapter of this catalog.

Related Courses

Courses offered by other departments are occasionally crosslisted with English and given the ENGL subject code. Such courses may be applied to the English major.

Undergraduate Programs

The department offers a bachelor's degree in English. This is a versatile major with thirteen concentrations designed to meet students' individual interests and career objectives. English majors can also pursue a special option in comparative literature and do an internship in technical writing or linguistics. Students interested in becoming teachers can participate in a program offered in conjunction with the College of Education and Human Development that allows undergraduates to simultaneously complete their BA in English and their licensure requirements to teach English at the secondary school level in Virginia.

English majors learn to read critically and write carefully in classes that are uniquely small for a university the size of Mason. Students develop these abilities not only thorough reading traditional texts but also through the use of technologies such as blogs, wikis, and multimedia production. Because English majors have excellent skills in written and oral communication, research, critical thinking, and focused creativity they are well prepared for any career - teaching, journalism, creative writing, management, law, and more.

Honors in the Major

Highly qualified students may pursue advanced work leading to graduation with honors in the major. To graduate with honors in the major, students must complete a two-course honors sequence and receive a minimum GPA of 3.5 in all courses counted toward the major and, separately, a minimum GPA of 3.50 in their honors courses. Honors courses may simultaneously satisfy concentration and distribution requirements in the major.

Students satisfy the honors course sequence by taking one of the following:

- Two sections of ENGL 414 - Honors Seminar
- ENGL 414 - Honors Seminar and ENGL 415 - Honors Thesis Writing Seminar
- ENGL 414 - Honors Seminar and writitng a creative honors thesis in ENGL 416 - Honors Independent Study (for students in the creative writing concentration)
- ENGL 416 - Honors Independent Study in conjunction with an advanced course in nonfiction writing and completing a nonfiction thesis as part of ENGL 415 - Honors Thesis Writing Seminar (for students in the nonfiction concentration)

Students interested in pursing honors in the major should consult the English Department for more information and to learn about the application process.

English with a Second Major

Students can combine a major in English with a second major. Students interested in this option are encouraged to discuss their plans with their English advisor and the director of undergraduate programs in English. See the section on Credit for More than One Undergraduate Major in the Academic Policies chapter of the catalog.

Minors
The department offers a minor in English, which is available to students in any major at Mason.

Faculty from English coordinate or co-coordinate the Film and Media Studies Minor, the Folklore and Mythology Minor, the Native American and Indigenous Studies Minor, and the Linguistics Minor. See the Minors section of this chapter for more information.

**Bachelor’s/Accelerated Master’s Program**

The department offers highly qualified undergraduates in any major the opportunity to apply to an accelerated master’s degree program in English with a concentration in linguistics. If accepted, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in English with a concentration in linguistics after satisfactory completion of 144 credits, sometimes within five years.

**Undergraduates in Graduate Courses**

The English Department permits qualified undergraduates to enroll in its graduate courses numbered 500 through 699. They may apply these credits to their undergraduate degree or mark them for reserve graduate credit. See the department for details on how to register.

**Writing Center**

The Writing Center offers one-on-one conferencing during all stages of the writing process. Writing Center tutors, who are graduate teaching assistants in the English Department, have been trained in current methods of composition instruction. They help clients overcome writing anxiety, develop organizational and revision skills, and learn useful strategies for editing their own work. To learn more about the Writing Center services or to schedule an appointment, students should consult the Writing Center website.

**Northern Virginia Writing Project**

The Northern Virginia Writing Project (NVWP) is an inservice organization dedicated to improving the writing of Northern Virginia students, kindergarten through university level. Each summer, selected teachers attend an intensive five-week institute where they demonstrate successful teaching techniques, study research on the teaching of writing, and write. After the summer institute, participants return to their schools, colleges, and universities to lead workshops and in-service seminars for other teachers. NVWP is an affiliate of the National Writing Project and one of the seven sites of the Virginia Writing Project.

**Graduate Programs**

The department offers graduate programs in the study and practice of literature and writing, as well as course work in related fields such as folklore, film, linguistics, and cultural studies. The master's degree in English provides concentrations in literature, cultural studies, professional writing and rhetoric, the teaching of writing and literature, and linguistics. The department also has a terminal degree, the MFA in creative writing, with concentrations in fiction, poetry, and nonfiction.

The department offers graduate certificates in folklore, professional writing and rhetoric, and teaching English as a second language. Students may take these as stand-alone certificates or pursue them concurrently with a graduate degree program. Part of the course work for a certificate may be able to be applied to a degree. Students must apply and be admitted to a graduate certificate program.

Faculty from the department coordinate the concentration in folklore in the master’s degree in interdisciplinary studies (MAIS). See the Interdisciplinary Studies (MAIS) section of this chapter for details.
**Funding**

The department offers teaching assistantships and fellowships awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must show satisfactory progress toward their degree.

**Undergraduate Degree**

**English, BA**

**Banner Code: LA-BA-ENGL**

Web: english.gmu.edu

This program of study is offered by the Department of English.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

**Degree Requirements**

In addition to satisfying university general education requirements and the requirements for a bachelor of arts degree in the College of Humanities and Social Sciences, students pursuing this degree must complete 30 credits (nine courses) in English beyond ENGL 302 with a minimum GPA of 2.00.

Students choose either one of 13 concentrations or an emphasis in comparative literature.

Students should consult with an English Department advisor to learn ways in which the university-wide general education requirements can also satisfy college-level requirements or the English major.

**BA in English with a concentration**

**One required course (6 credits)**

- ENGL 325 - Dimensions of Writing and Literature Credits: 6

**Four core courses (12 credits)**

Courses taken to fulfill this requirement may simultaneously satisfy a concentration. Special topics courses, when relevant, may be used to fulfill this requirement with the prior written approval of the department.

**One course (3 credits) in literature before 1800 chosen from:**

- ENGL 335 - Shakespeare Credits: 3 (Histories and Comedies)
• ENGL 336 - Shakespeare Credits: 3 (Tragedies and Romances)
• ENGL 400 - Literature of the Middle Ages Credits: 3
• ENGL 401 - English Poetry and Prose of the 16th C Credits: 3
• ENGL 402 - English Poetry and Prose of the 17th C Credits: 3
• ENGL 404 - Augustan Age: 1660-1745 Credits: 3
• ENGL 405 - Age of Sensibility: 1745-1800 Credits: 3
• ENGL 431 - Medieval Literature in Context Credits: 3
• ENGL 440 - English Renaissance Drama Credits: 3
• ENGL 443 - Restoration and 18th Century Drama Credits: 3
• ENGL 450 - British Novel of the 18th Century Credits: 3
• ENGL 471 - Chaucer Credits: 3
• ENGL 472 - Spenser Credits: 3
• ENGL 474 - Milton Credits: 3

One course (3 credits) in literature before 1915 chosen from courses listed above and the following courses:

• ENGL 368 - Beginnings of African American Literature Through 1865 Credits: 3
• ENGL 370 - African American Literature: Reconstruction to 1903 Credits: 3
• ENGL 406 - British Poetry of the Romantic Period Credits: 3
• ENGL 407 - Prose and Poetry of the Victorian Period Credits: 3
• ENGL 423 - Early American Literature Credits: 3
• ENGL 425 - Literature of the American Renaissance Credits: 3
• ENGL 436 - Nineteenth-Century Continental Novels in Translation Credits: 3
• ENGL 452 - Development of the American Novel to 1914 Credits: 3
• ENGL 453 - British Novel of the 19th Century Credits: 3

One course (3 credits) in minority, folkloric, or popular literary and cultural traditions chosen from:

• ENGL 333 - Folklore and Folklife Credits: 3
• ENGL 334 - Popular Culture Credits: 3
• ENGL 349 - Global Voices Credits: 3
• ENGL 350 - The Idea of a World Literature Credits: 3
• ENGL 368 - Beginnings of African American Literature Through 1865 Credits: 3
• ENGL 369 - Topics: Women and Literature Credits: 3
• ENGL 370 - African American Literature: Reconstruction to 1903 Credits: 3
• ENGL 371 - African American Literature Through 1946 Credits: 3
• ENGL 372 - Contemporary African American Literature Credits: 3
• ENGL 375 - Topics in Ethnic American Literature Credits: 3
• ENGL 439 - World Literatures in English Credits: 3
• ENGL 460 - Critical Study of Children's Literature Credits: 3
• ENGL 479 - Ethnicity and Migration in Folklore Credits: 3
• ENGL 480 - Folklore of the Spirit World Credits: 3
• ENGL 481 - Folk Arts and Folk Artists Credits: 3
• ENGL 491 - Topics in Folklore Studies Credits: 3
- ENGL 492 - Science Fiction Credits: 3
- ENGL 493 - Topics in Popular Literature Credits: 3

One elective course (3 credits) above ENGL 302

Four courses (12 credits) in one concentration

Special topics courses may be used to fulfill the requirements for a concentration when so designated by department.

▲ Concentration in American Literature (ALIT)

Four courses (12 credits) chosen from:

- ENGL 333 - Folklore and Folklife Credits: 3
- ENGL 368 - Beginnings of African American Literature Through 1865 Credits: 3
- ENGL 370 - African American Literature: Reconstruction to 1903 Credits: 3
- ENGL 371 - African American Literature Through 1946 Credits: 3
- ENGL 372 - Contemporary African American Literature Credits: 3
- ENGL 375 - Topics in Ethnic American Literature Credits: 3
- ENGL 380 - Recent American Fiction Credits: 3
- ENGL 390 - Recent American Poetry Credits: 3
- ENGL 423 - Early American Literature Credits: 3
- ENGL 425 - Literature of the American Renaissance Credits: 3
- ENGL 447 - American Drama of the 20th Century Credits: 3
- ENGL 452 - Development of the American Novel to 1914 Credits: 3
- ENGL 454 - Development of the American Novel since 1914 Credits: 3
- ENGL 463 - American Poetry of the 20th Century Credits: 3
- ENGL 478 - Topics: American Authors Credits: 3
- ENGL 479 - Ethnicity and Migration in Folklore Credits: 3

▲ Concentration in Creative Writing (CW)

Four courses (12 credits) chosen from:

- ENGL 344 - Digital Creative Writing Credits: 3
- ENGL 397 - Poetry Writing Credits: 3
- ENGL 398 - Fiction Writing Credits: 3
- ENGL 399 - Creative Nonfiction Writing Credits: 3
- ENGL 458 - Advanced Fiction Writing Workshop Credits: 3
- ENGL 464 - Advanced Poetry Writing Workshop Credits: 3
- ENGL 497 - Special Topics in Creative Writing Credits: 3
▲ Concentration in Cultural Studies (CULT)

Four courses (12 credits) chosen from:

- ENGL 327 - Introduction to Cultural Studies Credits: 3
- ENGL 330 - Introduction to Literary Theory Credits: 3
- ENGL 332 - Introduction to Film Credits: 3
- ENGL 333 - Folklore and Folklife Credits: 3
- ENGL 334 - Popular Culture Credits: 3
- ENGL 338 - Cultural Constructions of Sexualities Credits: 3
- ENGL 349 - Global Voices Credits: 3
- ENGL 368 - Beginnings of African American Literature Through 1865 Credits: 3
- ENGL 369 - Topics: Women and Literature Credits: 3
- ENGL 370 - African American Literature: Reconstruction to 1903 Credits: 3
- ENGL 371 - African American Literature Through 1946 Credits: 3
- ENGL 372 - Contemporary African American Literature Credits: 3
- ENGL 375 - Topics in Ethnic American Literature Credits: 3
- ENGL 460 - Critical Study of Children's Literature Credits: 3
- ENGL 479 - Ethnicity and Migration in Folklore Credits: 3
- ENGL 480 - Folklore of the Spirit World Credits: 3
- ENGL 481 - Folk Arts and Folk Artists Credits: 3
- ENGL 490 - Topics in Film/Media Credits: 3
- ENGL 491 - Topics in Folklore Studies Credits: 3
- ENGL 493 - Topics in Popular Literature Credits: 3

May include one course (3 credits) from outside the English Department chosen from:

- COMM 465 - Topics in Communication and Gender Credits: 3
- CULT 320 - Globalization and Culture Credits: 3
- PSYC 362 - Psychology of Women Credits: 3
- SOCI 315 - Sex and Gender in Contemporary Society Credits: 3
- WMST 300 - Current Issues in Women and Gender Studies Credits: 1-6
- WMST 330 - Theoretical Perspectives in Women and Gender Studies Credits: 3

▲ Concentration in Drama (DRA)

A maximum of one course (3 credits) may be from courses on Shakespeare.

Four courses (12 credits) chosen from:

- ENGL 335 - Shakespeare Credits: 3 (Histories and Comedies)
- ENGL 336 - Shakespeare Credits: 3 (Tragedies and Romances)
• ENGL 440 - English Renaissance Drama Credits: 3
• ENGL 443 - Restoration and 18th Century Drama Credits: 3
• ENGL 445 - British and Irish Drama after 1900 Credits: 3
• ENGL 447 - American Drama of the 20th Century Credits: 3
• ENGL 448 - Modern Drama Credits: 3
• ENGL 449 - Topics in Drama Credits: 3

May include one course (3 credits) from outside the English Department chosen from:

• FREN 413 - French Literature of the Seventeenth Century: Classical Drama Credits: 3
• FREN 442 - Twentieth-Century Drama and Poetry Credits: 3
• RUSS 407 - Russian Drama and Theater Credits: 3
• SPAN 565 - Studies in Spanish American Drama Credits: 3
• THR 350 - Script Analysis Credits: 3
• THR 351 - Dramatic Theory and Criticism Credits: 3
• THR 352 - Dramatic Literature Seminar Credits: 3
• THR 380 - Playwriting I Credits: 3
• THR 381 - Playwriting II Credits: 3

▲ Concentration in Fiction (FIC)

Three courses (9 credits) chosen from:

• ENGL 380 - Recent American Fiction Credits: 3
• ENGL 398 - Fiction Writing Credits: 3
• ENGL 437 - Continental Fiction: 1880-1950 Credits: 3
• ENGL 450 - British Novel of the 18th Century Credits: 3
• ENGL 452 - Development of the American Novel to 1914 Credits: 3
• ENGL 453 - British Novel of the 19th Century Credits: 3
• ENGL 454 - Development of the American Novel since 1914 Credits: 3
• ENGL 456 - British Novel after 1900 Credits: 3
• ENGL 459 - Topics in Fiction Credits: 3
• ENGL 460 - Critical Study of Children's Literature Credits: 3
• ENGL 492 - Science Fiction Credits: 3

One course (3 credits) in fiction before 1915 chosen from:

• ENGL 436 - Nineteenth-Century Continental Novels in Translation Credits: 3
• ENGL 450 - British Novel of the 18th Century Credits: 3
• ENGL 452 - Development of the American Novel to 1914 Credits: 3
• ENGL 453 - British Novel of the 19th Century Credits: 3

▲ Concentration in Film and Media Studies (FILM)

Four courses (12 credits) chosen from:

• ENGL 327 - Introduction to Cultural Studies Credits: 3
• ENGL 331 - Introduction to Documentary Credits: 3
• ENGL 332 - Introduction to Film Credits: 3
• ENGL 343 - Rhetoric and New Media Credits: 3
• ENGL 421 - Topics in Film/Media History Credits: 3
• ENGL 422 - Topics in Film/Media Theory Credits: 3
• ENGL 490 - Topics in Film/Media Credits: 3

May include one course (3 credits) from outside the English Department chosen from:

• ARTH 362 - Twentieth-Century European Art Credits: 3
• ARTH 373 - Studies in 20th-Century Art of the United States Credits: 3
• ARTH 374 - Art Now Credits: 3
• COMM 380 - Media Criticism Credits: 3
• COMM 465 - Topics in Communication and Gender Credits: 3
• MUSI 301 - Music in Motion Pictures Credits: 3
• RUSS 470 - Topics in (Post) Soviet Film Credits: 3

▲ Concentration in Folklore and Mythology (FML)

At least two courses (6 credits) in folklore and mythology chosen from:

• ENGL 311 - Writing Ethnography Credits: 3
• ENGL 333 - Folklore and Folklife Credits: 3
• ENGL 337 - Topics in Myth and Literature Credits: 3
• ENGL 479 - Ethnicity and Migration in Folklife Credits: 3
• ENGL 480 - Folklore of the Spirit World Credits: 3
• ENGL 481 - Folk Arts and Folk Artists Credits: 3
• ENGL 491 - Topics in Folklore Studies Credits: 3
• ENGL 498 - Internship: Special Topics Credits: 1-3
• ENGL 591 - Topics in Folklore Studies Credits: 3

May include one course (3 credits) from outside the English Department chosen from:
• ANTH 450 - Qualitative Methods: Nonstatistical Approaches in Culture and Social Research Credits: 3
• CLAS 340 - Greek and Roman Epic Credits: 3

Up to two courses (6 credits) related to folklore and mythology chosen from:

• ENGL 327 - Introduction to Cultural Studies Credits: 3
• ENGL 335 - Shakespeare Credits: 3 (Histories and Comedies)
• ENGL 336 - Shakespeare Credits: 3 (Tragedies and Romances)
• ENGL 349 - Global Voices Credits: 3
• ENGL 368 - Beginnings of African American Literature Through 1865 Credits: 3
• ENGL 370 - African American Literature: Reconstruction to 1903 Credits: 3
• ENGL 371 - African American Literature Through 1946 Credits: 3
• ENGL 372 - Contemporary African American Literature Credits: 3
• ENGL 400 - Literature of the Middle Ages Credits: 3
• ENGL 445 - British and Irish Drama after 1900 Credits: 3
• ENGL 471 - Chaucer Credits: 3
• ENGL 472 - Spenser Credits: 3
• ENGL 474 - Milton Credits: 3

May include one course (3 credits) from outside the English Department chosen from:

• ANTH 301 - Native North Americans Credits: 3
• ANTH 302 - Peoples and Cultures of Latin America Credits: 3
• ANTH 304 - Peoples and Cultures of the Pacific Credits: 3
• ANTH 306 - Peoples and Cultures of Island Asia Credits: 3
• ANTH 307 - Ancient Mesoamerica Credits: 3
• ANTH 308 - Peoples and Cultures of the Middle East Credits: 3
• ANTH 311 - Peoples and Cultures of Mainland Southeast Asia Credits: 3
• ANTH 313 - Myth, Magic, and Mind Credits: 3
• ANTH 332 - Cross-cultural perspectives on globalization Credits: 3
• ARTH 319 - Art and Archaeology of the Ancient Near East Credits: 3
• ARTH 321 - Greek Art and Archaeology Credits: 3
• ARTH 322 - Roman Art and Archaeology Credits: 3
• ARTH 340 - Early Renaissance Art in Italy, 1300-1500 Credits: 3
• ARTH 342 - High Renaissance Art in Italy, 1480–1570 Credits: 3
• ARTH 345 - Northern Baroque Art, 1600-1750 Credits: 3
• ARTH 382 - Arts of India Credits: 3
• ARTH 383 - Arts of Southeast Asia Credits: 3
• ARTH 384 - Arts of China Credits: 3
• ARTH 385 - Arts of Japan Credits: 3

▲ Concentration in Linguistics (LING)
One required course (3 credits):

- LING 326 - General Linguistics Credits: 3

Three courses (9 credits) chosen from:

- LING 322 - English Grammar Credits: 3
- LING 450 - Introduction to Sociolinguistics Credits: 3
- LING 485 - Semantics and Pragmatics Credits: 3
- LING 486 - Syntax I Credits: 3
- LING 490 - Generative Phonology Credits: 3
- LING 499 - Independent Study Credits: 1-3
- LING 507 - Field Work in Applied Linguistics Credits: 3
- LING 521 - Applied Linguistics: Teaching English as a Second Language Credits: 3
- LING 523 - English Phonetics Credits: 3
- LING 581 - Psycholinguistics Credits: 3
- LING 582 - Second Language Acquisition Credits: 3

▲ Concentration in Medieval and Renaissance Literature (MRL)

Four courses (12 credits) chosen from:

- ENGL 335 - Shakespeare Credits: 3 (Histories and Comedies)
- ENGL 336 - Shakespeare Credits: 3 (Tragedies and Romances)
- ENGL 400 - Literature of the Middle Ages Credits: 3
- ENGL 401 - English Poetry and Prose of the 16th C Credits: 3
- ENGL 402 - English Poetry and Prose of the 17th C Credits: 3
- ENGL 431 - Medieval Literature in Context Credits: 3
- ENGL 440 - English Renaissance Drama Credits: 3
- ENGL 471 - Chaucer Credits: 3
- ENGL 472 - Spenser Credits: 3
- ENGL 473 - Studies in Shakespeare Credits: 3
- ENGL 474 - Milton Credits: 3

May include one course (3 credits) from outside the English Department chosen from:

- ARTH 333 - Early Christian and Byzantine Art Credits: 3
- ARTH 334 - Western Medieval Art Credits: 3
- ARTH 340 - Early Renaissance Art in Italy, 1300-1500 Credits: 3
- ARTH 341 - Northern Renaissance Art Credits: 3
- ARTH 342 - High Renaissance Art in Italy, 1480–1570 Credits: 3
• ARTH 344 - Baroque Art in Italy, France, and Spain, 1600–1750 Credits: 3
• ARTH 345 - Northern Baroque Art, 1600-1750 Credits: 3
• HIST 304 - Western Europe in the Middle Ages Credits: 3
• HIST 305 - The Renaissance Credits: 3
• HIST 306 - The Reformation Credits: 3
• HIST 321 - Early Modern England Credits: 3
• PHIL 302 - History of Western Philosophy: Medieval Credits: 3
• RELI 371 - Classic Jewish Texts Credits: 3

▲ Concentration in Modern British Literature (MBL)

Four courses (12 credits) chosen from:

• ENGL 404 - Augustan Age: 1660-1745 Credits: 3
• ENGL 405 - Age of Sensibility: 1745-1800 Credits: 3
• ENGL 406 - British Poetry of the Romantic Period Credits: 3
• ENGL 407 - Prose and Poetry of the Victorian Period Credits: 3
• ENGL 443 - Restoration and 18th Century Drama Credits: 3
• ENGL 445 - British and Irish Drama after 1900 Credits: 3
• ENGL 450 - British Novel of the 18th Century Credits: 3
• ENGL 453 - British Novel of the 19th Century Credits: 3
• ENGL 456 - British Novel after 1900 Credits: 3
• ENGL 462 - British Poetry after 1900 Credits: 3

▲ Concentration in Nonfiction Writing and Rhetoric (NWR)

Four courses (12 credits) chosen from:

• ENGL 309 - Writing Nonfiction Genres Credits: 3
• ENGL 311 - Writing Ethnography Credits: 3
• ENGL 342 - Web Authoring and Design Credits: 3
• ENGL 343 - Rhetoric and New Media Credits: 3
• ENGL 392 - Editing for Audience, Style, and Voice Credits: 3
• ENGL 399 - Creative Nonfiction Writing Credits: 3
• ENGL 410 - Professional and Technical Writing Credits: 3
• ENGL 489 - Writing Nonfiction for Publication Credits: 3
• ENGL 496 - Topics in Writing and Rhetoric Credits: 3
• ENGL 498 - Internship: Special Topics Credits: 1-3
• ENGL 503 - Theory and Practice of Editing Credits: 3
• ENGL 504 - Internship in Writing and Editing Credits: 3-6
• ENGL 505 - Computer-Assisted Publications Writing and Design Credits: 3

▲ Concentration in Poetry (POE)
Four courses (12 credits) chosen from:

- ENGL 335 - Shakespeare Credits: 3 (Histories and Comedies)
- ENGL 336 - Shakespeare Credits: 3 (Tragedies and Romances)
- ENGL 390 - Recent American Poetry Credits: 3
- ENGL 397 - Poetry Writing Credits: 3
- ENGL 400 - Literature of the Middle Ages Credits: 3
- ENGL 401 - English Poetry and Prose of the 16th C Credits: 3
- ENGL 402 - English Poetry and Prose of the 17th C Credits: 3
- ENGL 404 - Augustan Age: 1660-1745 Credits: 3
- ENGL 406 - British Poetry of the Romantic Period Credits: 3
- ENGL 407 - Prose and Poetry of the Victorian Period Credits: 3
- ENGL 462 - British Poetry after 1900 Credits: 3
- ENGL 463 - American Poetry of the 20th Century Credits: 3
- ENGL 468 - Topics in Poetry Credits: 3
- ENGL 471 - Chaucer Credits: 3

▲ Concentration in World Literature (WLIT)

At least two courses (6 credits) chosen from:

Special topics courses, when relevant, may be applied to this concentration when designated by the department.

- ENGL 349 - Global Voices Credits: 3
- ENGL 350 - The Idea of a World Literature Credits: 3
- ENGL 436 - Nineteenth-Century Continental Novels in Translation Credits: 3
- ENGL 437 - Continental Fiction: 1880-1950 Credits: 3
- ENGL 439 - World Literatures in English Credits: 3
- ENGL 448 - Modern Drama Credits: 3

2 additional courses (6 credits)

Courses may be chosen from list above or the lists below.

One course (3 credits) from a concentration

Students can choose up to one course (3 credits) from courses listed under the concentrations above in Medieval and Renaissance Literature, American Literature, or Modern British Literature.

Up to one course (3 credits) chosen from:

Students may apply up to one course from this list to the concentration when the topic is relevant, subject to the approval of the department.
The English Department and the Modern and Classical Languages Department offer a BA in English with an emphasis in comparative literature. This program combines the study of literature in English with the study of one or more foreign literatures and with cross-cultural literary study. It requires 10 courses above ENGL 302. Students should consult with their advisor to design a program of study that best suits their particular interests and goals.

**Two required courses (6 credits):**

- CL 300 - Introduction to Comparative Literature Credits: 3
- CL 514 - Theories of Comparative Literature Credits: 3

**One course (3 credits) in literary criticism, as appropriate for the student’s focus:**

- ENGL 325 - Dimensions of Writing and Literature Credits: 6
- FREN 381 - Introduction to Literary Analysis Credits: 3

**Two courses (6 credits) in English or American literature**

**Two courses (6 credits) in literature other than English or American**

Students meet this requirement with courses in a literature other than English or American, either in translation or, for those pursuing foreign language study, with selected readings in the original language.
Three courses (9 credits) in comparative or world literature

Comparative or world literature courses are designated by the comparative literature committee and generally selected in consultation with the advisor every semester. Examples are:

- various 300-level CLAS courses
- FRLN 330 courses
- Special topics courses, when relevant, in ENGL, FREN, GERM, RUSS, SPAN, or other language
- ENGL 350 - The Idea of a World Literature Credits: 3
- ENGL 431 - Medieval Literature in Context Credits: 3
- ENGL 436 - Nineteenth-Century Continental Novels in Translation Credits: 3
- ENGL 437 - Continental Fiction: 1880-1950 Credits: 3
- ENGL 439 - World Literatures in English Credits: 3

Total: 30 credits

Writing Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in English fulfill this requirement by successfully completing ENGL 325. Students doing the comparative literature emphasis who do not take ENGL 325 will have to meet the synthesis requirement with another non-English course.

Undergraduate Interdisciplinary Minor

Film and Media Studies Minor

Banner Code: FILM
Phone: 703-993-2768
Web: fams.gmu.edu

Faculty

Christensen, Fuchs (director), Gibson, Landsberg, Lont, Ricouart, Roan, Sample, Scarlata, Winkler

The interdisciplinary minor in film and media studies explores mass culture in its visual manifestations and helps students develop an informed awareness of culture and media, ideological tendencies, and effects on daily experience. Committed to interdisciplinarity, the program addresses the increasing complexity and multiplicity of visual cultures and offers students the tools with which to read a variety of texts, including film, television, video, and new media.

Most course work is offered through the Departments of Communication and English, with other courses available through the Department of Modern and Classical Languages and the Program in Film and Video Studies. The two required courses provide an introduction to the languages of film and popular media and modes of analysis appropriate to each. They are prerequisites for all advanced work in the minor. Students select four additional courses designed to introduce a more specialized level of study.
Students may decide to focus on film, television, or the study of mass culture, or they may choose some mix of courses that suits their interests.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Two required courses (6 credits):

- ENGL 332 - Introduction to Film Credits: 3
- COMM 380 - Media Criticism Credits: 3

Four elective courses (12 credits):

Students need prior written approval of the FAMS director to apply these courses to the minor: ENGL 327, 334, 338, 493, 499 and FREN 470. FREN 470 also requires permission of the instructor. ENGL 421, 422, and 490 may be repeated for credit and applied to the minor if the topic is different.

For communication majors, no more than 6 credits of elective credits can be in COMM courses.

- COMM 302 - Foundations of Mass Communication Credits: 3
- COMM 350 - Mass Communication and Public Policy Credits: 3
- COMM 355 - Video Principles and Practices Credits: 3
- COMM 358 - Video Producing and Directing Credits: 3
- COMM 360 - Video Editing Credits: 3
- COMM 365 - Gender, Race, and Class in the Media Credits: 3
- COMM 366 - Visual Communication Credits: 3
- COMM 452 - Media Production Practicum Credits: 3
- COMM 456 - Comparative Mass Media Credits: 3
- ENGL 327 - Introduction to Cultural Studies Credits: 3
- ENGL 331 - Introduction to Documentary Credits: 3
- ENGL 334 - Popular Culture Credits: 3
- ENGL 338 - Cultural Constructions of Sexualities Credits: 3
- ENGL 421 - Topics in Film/Media History Credits: 3
- ENGL 422 - Topics in Film/Media Theory Credits: 3
- ENGL 490 - Topics in Film/Media Credits: 3
- ENGL 493 - Topics in Popular Literature Credits: 3
- ENGL 499 - Independent Study Credits: 1-6
- FREN 470 - Topics in French Cinema Credits: 3
- JAPA 320 - Japanese Cinema Credits: 3
- RUSS 470 - Topics in (Post) Soviet Film Credits: 3

Total: 18 credits
Folklore and Mythology Minor

Banner Code: FOLK

Phone: 703-993-1172
Web: folkloreprograms.gmu.edu

Faculty

Burns, Decaroli, Fuchs, Johnsen-Neshati, Mattusch (co-coordinator), Rutledge, Shiner, Lattanzi Shutika, Todd, Winkler, Yocom (co-coordinator)

Stories told in both sacred and secular contexts, along with festivals, foods, music, material objects, and other traditional art forms, continue to influence our lives. This interdisciplinary minor offers students tools to explore the compelling meanings within these seemingly simple, everyday cultural texts, and helps them become more aware of the ways these texts are used by individuals and institutions for various goals. Students study folklore and mythology by juxtaposing the multiple viewpoints of anthropology, art history, classical studies, literary studies, and religious studies.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits with a minimum GPA of 2.00. A course used to fulfill the 3 credits of literature required for general education may not also be applied to the minor. To avoid duplication of courses, English majors who choose the folklore and mythology interdisciplinary minor may not select the English Department’s folklore, mythology, and literature concentration.

One course (3 credits) chosen from:

- ARTH 102 - Symbols and Stories in Art Credits: 3
- CLAS 250 - Classical Mythology Credits: 3
- DANC 118 - World Dance Credits: 3 (This course may only be applied to the minor when the topic is Afro-Cuban dance.)
- RELI 100 - The Human Religious Experience Credits: 3
- RELI 211 - Religions of the West Credits: 3
- RELI 212 - Religions of Asia Credits: 3

Four to five courses (12 to 15 credits) chosen from:

- ANTH 427 - Historic Cemetery Survey Credits: 4
- ANTH 450 - Qualitative Methods: Nonstatistical Approaches in Culture and Social Research Credits: 3
• ARTH 319 - Art and Archaeology of the Ancient Near East Credits: 3
• ARTH 321 - Greek Art and Archaeology Credits: 3
• ARTH 322 - Roman Art and Archaeology Credits: 3
• ARTH 382 - Arts of India Credits: 3
• ARTH 383 - Arts of Southeast Asia Credits: 3
• ARTH 384 - Arts of China Credits: 3
• ARTH 385 - Arts of Japan Credits: 3
• ARTH 399 - Special Topics in the History of Art Credits: 3 (This course may only be applied to the minor when the topic is Medieval Irish Art and Culture.)
• ARTH 482 - Advanced Studies in Asian Art Credits: 3 (This course may only be applied to the minor when the topic is Monuments and Memory.)
• CLAS 340 - Greek and Roman Epic Credits: 3
• CLAS 350 - Greek and Roman Tragedy Credits: 3
• CLAS 390 - Topics in Classical Literature and Culture Credits: 3 (This course may only be applied to the minor when the topic is The Odyssey in Film.)
• ENGL 311 - Writing Ethnography Credits: 3
• ENGL 333 - Folklore and Folklife Credits: 3
• ENGL 337 - Topics in Myth and Literature Credits: 3
• ENGL 459 - Topics in Fiction Credits: 3 (This course may only be applied to the minor when the topic is Literary Fairy Tales.)
• ENGL 479 - Ethnicity and Migration in Folklore Credits: 3
• ENGL 480 - Folklore of the Spirit World Credits: 3
• ENGL 481 - Folk Arts and Folk Artists Credits: 3
• ENGL 491 - Topics in Folklore Studies Credits: 3
• RELI 401 - Death and the Afterlife in World Religions Credits: 3

At most one course (3 credits) of independent study or internship chosen from:

• Summer field work schools offered by the American Folklife Center at the Library of Congress or other institution approved by faculty and taken for credit
• ANTH 299 - Independent Study Credits: 1-3
• ANTH 495 - Internship Credits: 1-6
• ARTH 393 - Art History Internships Credits: 3-6
• ARTH 490 - Independent Study in Art History Credits: 3
• ARTH 491 - Independent Study in Art History Credits: 3
• ENGL 498 - Internship: Special Topics Credits: 1-3 (This course may be applied to the minor when this is an approved internship in folklore.)
• ENGL 499 - Independent Study Credits: 1-6

Total: 18 credits

Linguistics Minor

Banner Code: LING
Faculty

Goldin, Holisky, Jones, Leeman, Levine, McCarthy, Ramos-Pellicia, Roman-Mendoza, Weinberger (director), Wulf

Linguistics is the scientific study of language. Language is studied descriptively, theoretically, computationally, and psychologically, and as a social phenomenon. The field of linguistics thus informs and is informed by many other areas of study, including philosophy, psychology, sociology, computer science, the study of individual languages and literatures, literary studies, and education.

The interdisciplinary minor in linguistics may be combined with a major in one of the areas listed above or in any other field. This minor introduces the fundamental concepts of modern linguistic theory and explores how these concepts relate to various other disciplines.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

One course (3 credits) in general linguistics

- LING 326 - General Linguistics Credits: 3

One course (3 credits) in syntactic theory, phonological theory, or linguistic semantics

- LING 486 - Syntax I Credits: 3
- LING 490 - Generative Phonology Credits: 3
- LING 485 - Semantics and Pragmatics Credits: 3

Three elective courses (9 credits)

Other suitable elective courses may be applied to the minor with the prior written approval of the director.

- ANTH 114 - Introduction to Cultural Anthropology Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3
- FRLN 380 - Topics in the Sociopolitics of Language Credits: 3
- FRLN 385 - Multilingualism, Identity, and Power Credits: 3
- LING 322 - English Grammar Credits: 3
- LING 450 - Introduction to Sociolinguistics Credits: 3
Native American and Indigenous Studies Minor

Banner Code: NAIS

Web: english.gmu.edu
Phone: 703-993-1161

Faculty

Anderson (coordinator), Benitez, Scully, Snead, Tichy, Yocom

Native American and indigenous studies is an interdisciplinary field of study committed to understanding both the unity and the diversity of present and past Native American tribes, cultures, and experiences. This interdisciplinary minor will help students think critically and respectfully about the complex dynamics of Native American cultures, considered both individually and comparatively. In addition to practicing and developing critical thinking and writing skills, students in this interdisciplinary minor will learn how value systems operate in different cultures, examine the roots of conflict and resolution across a broad historical and cultural spectrum, better understand the importance of language as a means of cultural expression, and heighten their appreciation of the unique status of present-day Native American tribes as nations with certain sovereign powers within the boundaries of the United States.

In addition to a required course that introduces key concepts, events, figures, and methodological approaches, students will take five 3-credit elective courses from no fewer than three departments. The course work for this minor will enable students to examine Native American cultures from a variety of disciplinary perspectives, including those that are anthropological, historical, artistic, philosophical, and political.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

No more than two courses from a single department can be applied to the minor. No more than 3 credits can be applied to both university general education requirements and the minor.

One required course (3 credits)

- NAIS 201 - Introduction to Native American and Indigenous Studies Credits: 3

Five elective courses (15 credits) chosen from:
Special topics courses and summer field work offerings, when relevant, may be used to fulfill elective credits for the minor with prior written approval of the director.

- ANTH 301 - Native North Americans Credits: 3
- ANTH 302 - Peoples and Cultures of Latin America Credits: 3
- ANTH 307 - Ancient Mesoamerica Credits: 3
- ANTH 399 - Issues in Anthropology Credits: 3
- ANTH 428 - Patterns in Prehistory Credits: 3
- ENGL 311 - Writing Ethnography Credits: 3
- ENGL 333 - Folklore and Folklife Credits: 3
- HIST 340 - History of American Racial Thought Credits: 3
- HIST 391 - History of Virginia to 1800 Credits: 3
- HIST 401 - Colonial America Credits: 3
- HIST 403 - Revolutionary Era in American History, 1763-1812 Credits: 3
- HIST 404 - Jacksonian America, 1812-1854 Credits: 3
- HIST 418 - Ethnic Groups in America Credits: 3
- MUSI 103 - Musics of the World Credits: 3
- SOCI 308 - Racial and Ethnic Relations Credits: 3

Total: 18 credits

Undergraduate Minor

English Minor

Banner Code: ENGL

Web: english.gmu.edu

A minor in English provides students with a strong background in writing and critical thinking, as well as introducing them to significant literary and cultural documents. Prerequisite for the minor in English is the 3-credit university-wide general education requirement in literature.

The minor must be approved by the English Department undergraduate advisor before graduation.

This program of study is offered by the Department of English.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits above ENGL 302 with a minimum GPA of 2.00.

One required course (6 credits)
ENGL 325 - Dimensions of Writing and Literature Credits: 6

Three courses (9 credits) in English

Students choose three courses in a single concentration listed under the English major in the English Department section of this chapter or three courses that satisfy the core requirements for the English major.

One elective course (3 credits)

Students choose an elective from 300 and 400 level English courses. Students choose an elective from 300 and 400 level English courses. (ENGL 302 cannot be applied to the minor.)

Total: 18 credits

Teaching English as a Second Language Minor

Banner Code: TESL
Web: linguistics.gmu.edu

The minor in teaching English as a second language (TESL) helps prepare undergraduate students to teach nonnative speakers of English in the United States or abroad. This course of study combines linguistic theory, second language acquisition theory, and ESL teaching methodology.

The minor in TESL may be pursued concurrently with any undergraduate major. English majors concentrating in linguistics can apply up to 9 credits in LING used for the major to the TESL minor. Students in the TESL minor must have approval from the director to register for the 500-level courses in the TESL program.

This program of study is offered by the Department of English.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor complete 18 credits, distributed as follows:

Five required courses (15 credits):

- LING 322 - English Grammar Credits: 3
- LING 326 - General Linguistics Credits: 3
- LING 521 - Applied Linguistics: Teaching English as a Second Language Credits: 3
- LING 523 - English Phonetics Credits: 3
- LING 582 - Second Language Acquisition Credits: 3
One elective course (3 credits):

The elective should be chosen from the list below. Other relevant courses may be applied to the minor with the prior written approval of the director.

- Any course in a foreign language beyond the college requirement for the BA degree
- ANTH 114 - Introduction to Cultural Anthropology Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3
- ENGL 327 - Introduction to Cultural Studies Credits: 3
- LING 450 - Introduction to Sociolinguistics Credits: 3
- LING 485 - Semantics and Pragmatics Credits: 3
- LING 486 - Syntax I Credits: 3
- LING 490 - Generative Phonology Credits: 3
- LING 499 - Independent Study Credits: 1-3
- LING 525 - Practicum in ESL Credits: 3

Total: 18 credits

Bachelor's/Accelerated Master's Program

Bachelor's Degree (any) /English, Accelerated MA (Linguistics Concentration)

Web: linguistics.gmu.edu

Highly qualified Mason undergraduates in any major may apply to the accelerated master’s degree in English with a concentration in linguistics. If accepted, students will be able to earn a BA in their chosen major and an MA in English with a concentration in linguistics after satisfactory completion of 144 credits.

This program of study is offered by the Department of English.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 90 credits. Applicants to the accelerated master's in linguistics must also have a satisfactory performance in LING 326 and one other LING course.

Applicants should submit an Accelerated Master’s Program Application, available from the graduate director. It includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.
Interested students should contact the director of linguistics for more details about the application process.

Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Master’s Degree

Creative Writing, MFA

Banner Code: LA-MFA-CW

Web: creativewriting.gmu.edu

The master of fine arts in creative writing has three concentrations: poetry, fiction, and nonfiction. Students should apply to only one concentration, although a student turned down by one concentration may subsequently apply to another or to that same concentration in a subsequent year.

Students interested in taking individual courses or in applying in the future to the MFA program are welcome to apply to take classes as non degree students; such enrollments are allowed only with the instructor’s permission. Students already admitted as non degree students who are interested in taking a specific creative writing course should submit a brief letter of introduction and a writing sample to the professor at least one week before the start of classes. Students who are not already admitted as non degree students first need to apply for non degree status. Students who have been denied admission to the MFA program may not take courses as non degree students.

This program of study is offered by the Department of English.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements
Applicants must meet the admissions standards and application requirements as specified in the Admission chapter of the catalog. Applicants to the MFA in creative writing must submit two letters of recommendation, one copy of a 1,000-word analytical writing sample, and a portfolio of original work. The analytical writing sample may be a paper written for an undergraduate class or any other work that gives evidence of advanced writing skills. For those applying to the MFA concentration in fiction, the portfolio should consist of up to 50 pages of fiction; at least two complete short stories are preferred. For those applying to the poetry concentration, the portfolio should consist of up to 20 pages of poetry. For those applying to the nonfiction concentration, the portfolio should consist of up to 50 pages of creative nonfiction.

Reduction of Credit

With the approval of the MFA faculty, the program director, and the dean, the number of credits required for an MFA may be reduced by a maximum of 20 credits on the basis of graduate course work before admission.

Degree Requirements

Two to four courses (6 to 12 credits) in literature

One Concentration (12 to 15 credits)

▲Concentration in Fiction (FIC)

Students in this concentration complete 12 credits.

One course (3 credits) in the form:

- ENGL 566 - Forms of Fiction Credits: 3

Writing workshops (9 credits):

- ENGL 618 - Fiction Writing Workshop Credits: 1-6
- ENGL 751 - Advanced Workshop in Fiction Writing Credits: 1-6

▲Concentration in Nonfiction (NFW)

Students in this concentration complete 15 credits.

One required course (3 credits):

Students should enroll the first semester it is offered after they enter the program.
• ENGL 506 - Research for Narrative Writing Credits: 3

One course (3 credits) in the form:

• ENGL 565 - Forms of Nonfiction Credits: 3

Writing workshops (9 credits):

• ENGL 616 - Nonfiction Writing Workshop Credits: 1-6
• ENGL 752 - Advanced Workshop in Nonfiction Writing Credits: 1-6

▲Concentration in Poetry (POE)

Students in this concentration complete 15 credits.

One course (3 credits) in the form:

• ENGL 564 - Form of Poetry Credits: 3

Writing workshops (9 credits)

• ENGL 617 - Poetry Writing Workshop Credits: 1-6
• ENGL 750 - Advanced Workshop in Poetry Writing Credits: 3

At least one course (3 credits) in another genre (fiction or nonfiction)

This requirement may be filled by a section of ENGL 608 in another genre.

Elective courses (up to 15 credits)

Electives should be chosen in consultation with the writing program faculty. The number of electives will vary according to the number of literature courses and workshops that students take.

Craft Seminars (6 to 12 credits):

This course can be repeated for credit.

• ENGL 608 - Craft Seminars Credits: 3

Workshop (1 credit):

• ENGL 699 - Workshop in English Credits: 1-3
Thesis (6 credits)

Students may register for thesis credits in the summer only with permission of the thesis committee.

Students should be aware of the university policies governing theses. They must follow the thesis enrollment policy and once enrolled in ENGL 799, maintain continuous enrollment. These policies are specified in the Academic Policies chapter of the catalog.

- ENGL 799 - Thesis Credits: 1-6

Exam or Project

Students in poetry must pass a written MFA exam based on the authors they have chosen. The authors are selected in collaboration with the writing faculty any time after completing 12 credits of course work and before completing 32 credits. The exam must be completed at least one semester before the student registers for the final 3 credits of thesis.

Students in fiction and nonfiction must pass an MFA exam or complete an MFA project. Students who elect to take the MFA exam select, after the completion of 18 credits and with the approval of their faculty advisors, a list of authors and an area of emphasis (for example, the European novel). Students who elect to complete an MFA project (such as editing an anthology) must carry out the project under the direction of a faculty member and may register for ENGL 798 to fulfill this requirement. ENGL 798 may not be used to fulfill the literature requirement or as thesis preparation. The exam or project must be completed at least one semester before the student registers for the final 3 credits of thesis.

Total: 48 credits

English, MA

Banner Code: LA-MA-ENGL

Web: english.gmu.edu

This program of study is offered by the Department of English.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants to the MA in English must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of this catalog. They must also submit one copy of a 1,500 to 2,000-word analytical writing sample and two letters of recommendation. For those applying to the concentrations in cultural studies, literature, professional writing and rhetoric, or the teaching of writing and literature, the writing sample should be an interpretive paper on a literary text. In addition to the writing sample, applicants must submit a goals statement of no more than 750 words. Applicants for the concentration in professional writing and rhetoric must also submit two copies of a 10 to 15 page portfolio of their nonfiction work such as a technical or business report, essay, term paper, editing project, or any other material reflecting interests and skills in nonfiction writing.
Applicants may submit scores from the GRE when they believe those scores will lead to a clearer representation of their qualifications. Those with undergraduate majors in disciplines other than English are encouraged to apply, but they may be required to make up gaps in their academic preparation before enrolling in the MA program.

Degree Requirements

Students pursuing this degree must successfully complete 30 to 33 credits in one concentration as specified below and demonstrate proficiency in a foreign language.

Foreign Language Proficiency

Students in all concentrations must demonstrate proficiency in a foreign language by course work equivalent to Mason’s foreign language course 210 or by passing a translation test administered by the department.

▲ Concentration in Cultural Studies (CULT)

Three required courses (9 credits):

- ENGL 676 - Introduction to Cultural Studies Credits: 3
- ENGL 701 - Research in English Studies Credits: 3
- CULT 802 - Histories of Cultural Studies Credits: 3

Two courses (6 credits) chosen from:

ENGL 685, 705, and 740 may be repeated once with permission of the director of graduate studies.

- ENGL 551 - Literary Criticism Credits: 3
- ENGL 555 - Introduction to Cinema Studies Credits: 3
- ENGL 665 - Texts in Global Contexts Credits: 3
- ENGL 670 - Visual Culture: Theories and Histories Credits: 3
- ENGL 675 - Feminist Theory and Criticism Credits: 3
- ENGL 685 - Selected Topics, Movements, or Genres of Literature in English Credits: 3
- ENGL 705 - Literary Theory and Criticism Credits: 3
- ENGL 740 - Seminar in English/Cultural Studies Credits: 3

Three to five courses (9-15 credits) of literature

Thesis (6 credits) (optional)

Students who choose to do a thesis take 6 fewer credits of literature.
• ENGL 799 - Thesis Credits: 1-6

Total: 30 credits

▲ Concentration in Linguistics (LING)

The linguistics concentration of the MA in English combines courses in linguistics with courses in some related area of language study, such as teaching English as a second language, bilingual education, or foreign language teaching. This course of study is designed to prepare students for teaching in one of these fields or for doctoral work. The certificate in teaching English as a second language can be earned concurrently.

Six core courses (18 credits):

• LING 690 - Generative Phonology Credits: 3
• LING 691 - Theories of Language Credits: 3
• LING 692 - Phonology II Credits: 3
• LING 785 - Semantics and Pragmatics Credits: 3
• LING 786 - Syntax I Credits: 3
• LING 787 - Syntax II Credits: 3

Four elective courses (12 credits)

In consultation with an advisor, chosen from courses that reflect one or more areas of language study. Electives can be in such areas as linguistics, the teaching of reading or writing, literary criticism, bilingual education, or a foreign language, and may include 6 credits of thesis.

Total: 30 credits

▲ Concentration in Literature (LIT)

Two required courses (6 credits)

Must be taken in the first twelve credits of the degree. Another course in literary theory and criticism may substitute for ENGL 551 with prior written approval of the graduate director.

• ENGL 551 - Literary Criticism Credits: 3
• ENGL 701 - Research in English Studies Credits: 3

Four to six courses (12-18 credits) of literature
Two elective courses (6 credits)

Elective courses taught within the English department may be taken without permission of the graduate director. A maximum of 6 credits of related study outside the department may substitute for the equivalent number of elective credits, with permission of the graduate director.

Thesis (6 credits) (optional)

Students who choose to do a thesis take 6 fewer credits of literature.

- ENGL 799 - Thesis Credits: 1-6

Total: 30 credits

▲ Concentration in Professional Writing and Rhetoric (PWR)

Two required courses (6 credits):

- ENGL 501 - Introduction to Professional Writing and Rhetoric Credits: 3
- ENGL 502 - Research Methods in Rhetoric and Professional Writing Credits: 3

Two courses (6 credits) in professional writing and rhetoric

One course (3 credits) in writing, nonfiction, or professional writing and rhetoric

Three courses (9 credits)

Students choose from designated courses in literature and literary theory, linguistics, cultural studies, film and media studies, and folklore. Contact department for list of designated courses.

Project or Thesis (6 credits)

One elective course and three credits of project

Students who choose a project take one additional elective course of 3 credits.
• ENGL 797 - Projects in Professional Writing and Rhetoric Credits: 3

Thesis (6 credits)

• ENGL 799 - Thesis Credits: 1-6

Total: 30 credits

▲ Concentration in the Teaching of Writing and Literature (TWL)

One required course (3 credits):

• ENGL 701 - Research in English Studies Credits: 3

Two courses (6 credits) in writing

Two courses (6 credits) in literature

One course (3 credits) in linguistics

Students usually fulfill this requirement by taking:

• LING 522 - Modern English Grammar Credits: 3

Two courses (6 credits) in the teaching of writing and in the teaching of literature

Students usually fulfill this requirement by taking:

• ENGL 615 - Proseminar in Composition Instruction Credits: 3
• ENGL 610 - Proseminar in Teaching the Reading of Literature Credits: 3

One course (3 credits) in composition theory:

• ENGL 697 - Composition Theory Credits: 3
  or an appropriate section of
• ENGL 611 - Studies in Rhetoric Credits: 3
Up to one elective course (3 credits) in literature or writing

Students who choose to do a thesis will take thesis credits in place of this requirement.

Thesis (6 credits) (optional)

Students may arrange to do a thesis through an advisor and the director of graduate studies in English. Students who pursue this option substitute 3 credits of thesis for the elective course (3 credits) in literature or writing. They must complete 33 (rather than 30) credits to receive their degree.

- ENGL 799 - Thesis Credits: 1-6

Total: 30-33 credits

Total: 30-33 credits

Most students complete 30 credits. Students in the concentration in the teaching of writing and literature who chose to do a thesis complete 33 credits.

Master’s Level Certificate

Folklore Studies Graduate Certificate

Banner Code: LA-CERG-FLKS

Web: folkloreprograms.gmu.edu

The certificate in folklore studies enables students to explore the processes of tradition that move through multiple expressive forms, such as folktales, folk beliefs, folk medicine, folk art, folksong, and literature. A discipline based on ethnographic fieldwork, folklore studies offers students a chance to work in communities and collect living traditional materials that are critical to human identity and values. Interdisciplinary by nature, folklore thrives on local particularities as well as compelling global connections.

This certificate prepares students for careers in cultural agencies, governmental organizations, and teaching institutions, and advanced study in folklore and in the humanities.

This program of study is offered by the Department of English.

Application Requirements

Students must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.
Certificate Requirements

The topics courses ENGL 590, 591, and 681 may be repeated for credit when the subtitles are different.

12 credits chosen from:

- ENGL 590 - Topics in Folk Narrative Credits: 3
- ENGL 591 - Topics in Folklore Studies Credits: 3
- ENGL 681 - Advanced Topics in Folklore Studies Credits: 3
- ENGL 798 - Directed Reading and Research Credits: 1-6
- ANTH 750 - Ethnographic Genres Credits: 3

One research course (3 credits) chosen from:

- ENGL 701 - Research in English Studies Credits: 3
- HIST 610 - The Study and Writing of History Credits: 3
- SOCI 634 - Qualitative Research Methods Credits: 3

One elective course (3 credits)

Students choose a relevant elective with the prior written approval of the director.

Total: 18 credits

Professional Writing and Rhetoric Graduate Certificate

Banner Code: LA-CERG-PWR

Web: english.gmu.edu

The graduate certificate in professional writing and rhetoric provides students with course work in nonfiction writing in specific genres, current writing practices and theories of writing in organizational settings, research methods in professional writing, and nonfiction literature.

The certificate may be pursued concurrently with any of several programs in English and elsewhere. Part of the course work toward the certificate may be applied to those degrees with the approval of the director of the degree program.

This program of study is offered by the Department of English.

For policies governing all certificates, see the Academic Policies chapter of the catalog.

Application Requirements
Applicants must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.

Students can initially enroll in the certificate program as nondegree students, but must apply for admission to the certificate program no later than the second semester of study. Because only 6 credits earned as a nondegree student may be applied to the certificate, students who initially take courses as nondegree should apply for admission before completing 6 credits of course work. Completion of course work is not in itself a guarantee of admission to the certificate program.

In addition to materials required of all applicants, students applying to the graduate certificate in professional writing and rhetoric must submit an analytical writing sample of at least 1,000 words, a goals statement, two letters of recommendation, and a portfolio of writing or editing.

Certificate Requirements

Students pursuing this certificate must complete 18 credits of English graduate courses with a minimum grade of 3.00 in each course.

One core course (3 credits)

- ENGL 501 - Introduction to Professional Writing and Rhetoric Credits: 3

One research methods course (3 credits)

- ENGL 502 - Research Methods in Rhetoric and Professional Writing Credits: 3

Two courses (6 credits) in professional writing and rhetoric chosen from:

- ENGL 503 - Theory and Practice of Editing Credits: 3
- ENGL 504 - Internship in Writing and Editing Credits: 3-6
- ENGL 505 - Computer-Assisted Publications Writing and Design Credits: 3
- ENGL 508 - Digital Rhetoric and Design Credits: 3
- ENGL 611 - Studies in Rhetoric Credits: 3
- ENGL 612 - Cultures of Professional Writing Credits: 3
- ENGL 613 - Technical and Scientific Writing Credits: 3
- ENGL 697 - Composition Theory Credits: 3

One course (3 credits) in writing, nonfiction, or professional writing and rhetoric

One elective course (3 credits)
Total: 18 credits

Teaching English as a Second Language Graduate Certificate

Banner Code: LA-CERG-TESL

Web: linguistics.gmu.edu

The graduate certificate in teaching English as a second language (TESL) prepares students to teach non-native speakers of English in the United States or abroad. Certificate courses fulfill, in part, requirements for an endorsement in English as a second language to the Virginia state teaching credential. Students who want to earn this endorsement should consult with an advisor.

The certificate may be pursued concurrently with any of several degree programs offered through the College of Education and Human Development, the English Department, and the Modern and Classical Languages Department. Part of the course work toward the certificate may be applied toward degrees in those departments.

This program of study is offered by the Department of English.

For policies governing all graduate certificates, see the Academic Policies chapter of this catalog.

Application Requirements

Applicants must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.

Students who initially enroll in the certificate program as nondegree must apply for admission to the graduate program no later than the second semester of study.

In addition to materials required of all applicants, applicants to this certificate program must submit one copy of an analytical writing sample of approximately 1,000 words, a goals statement, and two letters of recommendation.

Certificate Requirements

Students pursuing this certificate must complete 18 credits, earning a minimum grade of 3.00 in each course.

Six required courses (18 credits)

- LING 520 - Introduction to Linguistics Credits: 3
- LING 521 - Applied Linguistics: Teaching English as a Second Language Credits: 3
- LING 522 - Modern English Grammar Credits: 3
- LING 523 - English Phonetics Credits: 3
- LING 525 - Practicum in ESL Credits: 3
- LING 582 - Second Language Acquisition Credits: 3
Total: 18 credits

Doctoral Degree

Linguistics, PhD

Banner Code: LA-PHD-LING

Web: linguistics.gmu.edu

The PhD in linguistics trains students in the science of language. Students become specialists in the core areas of linguistics—phonology, syntax, and semantics—and learn to integrate this core with the study of second language acquisition. This 72-credit degree program prepares students for positions in academia, industry, and government working in a host of organizations that are concerned with language and second language acquisition. They might be research and teaching professors, administrators of language-learning programs, or consultants in computational linguistic research.

This program of study is offered by the Department of English.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

This program is open to students with any undergraduate major, though all applicants should have satisfactorily completed an introductory course in linguistics.

An applicant must submit three letters of recommendation, score on the GRE, a one or two page personal statement explaining the applicant’s interest in the program, and an academic writing sample that is preferably at least ten pages in length and of some theoretical rigor. The department accepts doctoral students only for the fall semester.

Degree Requirements

To receive the PhD, students must complete a minimum of 72 credits of course work, of which no more than 24 credits may be in LING 998/999. Students must submit two qualifying papers in linguistics. Students who enter with a master’s degree in linguistics may have their credit requirement reduced by up to 30 credits at the discretion of the department.

11 core courses (33 credits) in linguistics

Three courses (9 credits) in phonology:

- LING 690 - Generative Phonology Credits: 3
- LING 692 - Phonology II Credits: 3
- LING 890 - Advanced Phonology Seminar Credits: 3
Three courses (9 credits) in syntax:

- LING 786 - Syntax I Credits: 3
- LING 787 - Syntax II Credits: 3
- LING 886 - Advanced Syntax Seminar Credits: 3

Two courses (6 credits) in semantics/pragmatics:

- LING 785 - Semantics and Pragmatics Credits: 3
- LING 788 - Semantics and Pragmatics II Credits: 3

Two courses in (6 credits) in language acquisition chosen from:

- LING 582 - Second Language Acquisition Credits: 3
- LING 782 - Second Language Acquisition II Credits: 3
- LING 882 - Seminar in Language Acquisition Credits: 3

One course (3 credits) in research methodology:

- LING 770 - Research Methods Credits: 3

Seminars (6 credits):

- Two seminar courses in two chosen fields

Five elective courses (15 credits) chosen from:

- LING 507 - Field Work in Applied Linguistics Credits: 3
- LING 521 - Applied Linguistics: Teaching English as a Second Language Credits: 3
- LING 522 - Modern English Grammar Credits: 3
- LING 523 - English Phonetics Credits: 3
- LING 525 - Practicum in ESL Credits: 3
- LING 581 - Psycholinguistics Credits: 3
- LING 650 - Introduction to Sociolinguistics Credits: 3
- LING 691 - Theories of Language Credits: 3
- LING 798 - Directed Reading and Research Credits: 1-3
- ENGL 592 - Historical Studies of the English Language Credits: 3
- FREN 560 - History of the French Language Credits: 3
- FREN 575 - Grammatical Analysis Credits: 3
- FRLN 565 - Theory of Translation Credits: 3
- SOCI 636 - Statistical Reasoning Credits: 3
- SPAN 500 - History of the Spanish Language Credits: 3
- SPAN 501 - Applied Spanish Grammar Credits: 3
- SPAN 502 - Hispanic Sociolinguistics Credits: 3
- PSYC 615 - Language Development Credits: 3
- CS 580 - Introduction to Artificial Intelligence Credits: 3
- CSI 600 - Quantitative Foundations for Computational Sciences Credits: 3
- CSI 606 - Scientific Graphics and Visualization Tools Credits: 1
- CSI 607 - Database Tools for Scientists Credits: 1
- CSS 600 - Introduction to Computational Social Science Credits: 3
- NEUR 604 - Ethics in Scientific Research Credits: 1-3
- EDUC 611 - Cultural Issues in Second Language Acquisition Credits: 3
- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 569 - Teaching English in the Secondary School Credits: 3

Two qualifying papers (6 credits):
- LING 898 - Advanced Qualifying Seminar Credits: 3

Doctoral Dissertation (12 credits):
- LING 998 - Doctoral Dissertation Proposal Credits: 1-6
- LING 999 - Doctoral Dissertation Credits: 1-12

Total: 72 credits

Global Affairs

Web: globalaffairs.gmu.edu

Course Work

The Global Affairs programs offer all course work designated GLOA in the Courses chapter of this catalog.

Undergraduate Programs

Phone: 703-993-9185

Faculty
Bachelor's Degree

The bachelor's degree in global affairs is an interdisciplinary major that introduces students to the global processes affecting all societies. Drawing on the broad international expertise of Mason faculty, this program incorporates courses from across the university. Global affairs majors examine transnational and international processes in a wide range of areas including politics, economics, culture, peace and conflict, and the environment. Through the concentration of their choise, they have the opportunity to study specific regions and languages and investigate the ways particular parts of the world experience and influence global processes.

Global affairs majors take a common set of core courses and choose a concentration. They can focus on a theme (global economy, international development, the environment, and so on) or a world region (Africa, Asia, Latin America, etc.).

Students are strongly encouraged to take advantage of Mason's many study abroad courses and do an internship as part of their degree program.

Global Affairs with a Second Major or Minor

Students can complement their major in global affairs with a second major. Students interested in this option are encouraged to discuss their plans with advisors in both majors. See the section on Credit for More than One Undergraduate Major in the Academic Policies chapter of the catalog.

Students majoring in global affairs are encouraged to complement their major one of the many minors offered by the college. See the Minors and Interdisciplinary Minors section of this chapter.

Minor

The undergraduate program in global affairs offers a minor in global affairs, which is available to students in any major in the university.

Graduate Programs

Phone: 703-993-2152

Faculty

Bakhash, Kelly (director), Lyons, Mandaville, Shaklee, Wilsford

Master's Degree

The master's degree in global affairs is an interdisciplinary program that offers students the opportunity to engage in advanced study of a broad range of international global issues.

Bachelor’s/Accelerated Master’s Program
Highly qualified undergraduates in any major are invited to apply to the accelerated master’s degree program in global affairs. If accepted, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in global affairs after satisfactory completion of 144 credits, often within five years.

**Undergraduate Degree**

**Global Affairs, BA**

**Banner Code: LA-BA-GLOA**

Web: gloa.gmu.edu

Global affairs is an interdisciplinary major that introduces students to the global processes affecting all societies. Students in this program are encouraged to participate in study abroad opportunities and internships. They can complement their major with a second major or a minor.

This program of study is offered by the Global Affairs Program.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

**Degree Requirements**

In addition to satisfying university general education requirements and the requirements for a bachelor of arts degree in the College of Humanities and Social Sciences, students pursuing this degree must complete 36 credits with a minimum cumulative GPA of 2.00. Students must have a minimum grade of 2.00 in each of the core courses and a minimum grade of 1.67 in each of the courses used to fulfill the concentration and the language requirement for global affairs major. Students who major in global affairs may not also earn the minor in global systems or receive credit for ECON 390.

**Six core courses (18 credits):**

- GLOA 101 - Introduction to Global Affairs Credits: 3
  or
- SOCI 120 - Globalization and Society Credits: 3

- CONF 340 - Global Conflict Analysis and Resolution Credits: 3
- CULT 320 - Globalization and Culture Credits: 3
- ECON 385 - International Economic Policy Credits: 3
- EVPP 337 - Environmental Policy Making in Developing Countries Credits: 3
- GOVT 322 - International Relations Theory Credits: 3 (Note the prerequisite for this course: GOVT 132 or 133.)

**6-9 credits of language study beyond intermediate proficiency**

To fulfill this requirement, students can continue the study of one language beyond the intermediate proficiency level (required for all BA degrees in the college) or choose to study other languages. Students fulfill this requirement by completing one of the following:

- Three language courses (9 credits) beyond 210
• Two language courses (6 credits) beyond 202

Four courses (12 credits) in an approved concentration

Courses applied to a global affairs concentration should come from two different departments. They have to be unique to the concentration: They cannot be simultaneously used to fulfill any general education requirement or college requirement for the bachelor's degree. They cannot be applied to any other major, minor, concentration, or certificate. In addition to the courses listed below, other relevant courses, including special topics courses, study abroad, and internships, may be applied to a concentration with prior written approval from the director.

By Global Topic

▲ The Environment (EVT)

Students may complete this concentration through regular coursework or through the Smithsonian-Mason Semester Program.

Regular Coursework

Choose 12 credits from the following:

• ANTH 370 - Environment and Culture Credits: 3
• BIOL 301 - Biology and Society Credits: 3
• ECON 335 - Environmental Economics Credits: 3 (Note the prerequisites for this course: ECON 103, 104.)
• EVPP 110 - The Ecosphere: An Introduction to Environmental Science I Credits: 4
• EVPP 336 - Human Dimensions of the Environment Credits: 3
• EVPP 377 - Applied Ecology Credits: 3
• GEOL 309 - Introduction to Oceanography Credits: 3
• GGS 303 - Conservation of Resources and Environment Credits: 3
• GGS 311 - Introduction to Geographic Information Systems Credits: 3
• GOVT 361 - Introduction to Environmental Policy Credits: 3
• PHIL 343 - Issues in Environmental Ethics Credits: 3
• TOUR 312 - Ecotourism Credits: 3
• TOUR 340 - Sustainable Tourism Credits: 3

Smithsonian-Mason Semester Program

Students complete 16 credits offered through the Mason Center for Conservation Studies in cooperation with the Smithsonian National Zoo Smithsonian Conservation Biology Institute. In this integrated series of courses, taken together in one semester, students live on site at the institute in Front Royal, VA. Students who apply this coursework to the concentration cannot also apply it to the minor in Applied Conservation Studies.

• CONS 320 - Conservation in Practice Credits: 3
• CONS 401 - Conservation Theory Credits: 3
• CONS 402 - Applied Conservation Credits: 4
• CONS 410 - Human Dimensions in Conservation Credits: 3
• CONS 490 - Integrated Conservation Strategies Credits: 3
▲ Global Communications and Technology (GCT)

This concentration addresses the historic trends and recent explosion of technological innovation that now connects people across the world and provides them instantaneous information. Students particularly interested in communication, psychology, and information technology should consider this concentration.

Choose 12 credits from the following:

- ANTH 332 - Cross-cultural perspectives on globalization Credits: 3
- COMM 202 - Mass Media and Communication Systems Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3
- COMM 306 - Issues in Intercultural Communication Credits: 3
- COMM 307 - Field Study in Communication Credits: 3
- COMM 350 - Mass Communication and Public Policy Credits: 3
- COMM 375 - Mass Communication Advertising and Promotions Credits: 3
- COMM 412 - Politics and the Mass Media Credits: 3
- COMM 431 - Information Technology and the Political Process Credits: 3
- COMM 456 - Comparative Mass Media Credits: 3
- COMM 506 - Communication in International Organizations Credits: 3
- IT 223 - Information Security Fundamentals Credits: 3
- IT 300 - Modern Telecommunications Credits: 3
- IT 341 - Data Communications and Network Principles Credits: 3
- IT 353 - Information Defense Technologies Credits: 3
- IT 366 - Network Security I Credits: 3
- IT 462 - Information Security Principles Credits: 3
- IT 488 - Fundamentals of Satellite Communications Credits: 3
- PSYC 379 - Applied Cross-Cultural Psychology Credits: 3

▲ Global Economy and Management (GEM)

In this concentration, students explore marketing, managing, and developing world economies. Students interested in economics, business, and management should consider this concentration.

Choose 12 credits from the following:

- ECON 360 - Economics of Developing Areas Credits: 3
- ECON 361 - Economic Development of Latin America Credits: 3
- ECON 362 - African Economic Development Credits: 3
- ECON 380 - Economies in Transition Credits: 3
- FNAN 440 - International Financial Management Credits: 3
- GOVT 343 - International Political Economy Credits: 3
- IT 304 - IT in the Global Economy Credits: 3
- MGMT 461 - Cross Cultural and Global Management Credits: 3
- MKTG 407 - International Marketing Credits: 3
- MSOM 302 - Managing Information in a Global Environment Credits: 3
- MSOM 303 - Marketing in a Global Economy Credits: 3
- MSOM 305 - Managing in a Global Economy Credits: 3
- NCLC 423 - Management in the Global Marketplace Credits: 6
- BULE 302 - Legal Environment of Business Credits: 3
- BULE 402 - Commercial Law Credits: 3

Note:

BULE courses require the approval of the director.

▲ Global Governance (GLGV)

In this concentration students explore how national governments, international organizations, and non-governmental organizations work together to identify, understand, and address global issues. Coursework covers diplomacy, international law and organizations, international security, and conflict resolution.

Choose 12 credits from the following:

- ANTH 312 - Political Anthropology Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3
- CRIM 405 - Law and Justice around the World Credits: 3
- CRIM 475 - Theory and Politics of Terrorism Credits: 3
- GGS 301 - Political Geography Credits: 3
- GOVT 342 - Diplomacy Credits: 3
- GOVT 343 - International Political Economy Credits: 3
- GOVT 344 - American Foreign Policy Credits: 3
- GOVT 347 - International Security Credits: 3
- GOVT 445 - Human Rights Credits: 3
- GOVT 446 - International Law and Organization Credits: 3
- GOVT 447 - Revolution and International Politics Credits: 3
- GOVT 448 - Ethics and International Politics Credits: 3
- HIST 345 - History of American Foreign Relations Credits: 3
- NCLC 305 - Conflict Resolution and Transformation Credits: 6
- NCLC 422 - An Experiential Approach to American Foreign Policy Credits: 3-6
- PHIL 429 - International Ethics Credits: 3
- SOCI 340 - Power, Politics, and Society Credits: 3

▲ Global Inequalities and Responses (GIR)

This concentration provides students with a historical perspective regarding international issues such as stratification, gender roles, race relations, and social movements. Students interested in government, anthropology, sociology, and women and gender studies should consider this concentration.

Choose 12 credits from the following:

- ANTH 365 - Race and Racism Credits: 3
- ANTH 488 - Gender, Sexuality, and Culture Credits: 3
- CRIM 405 - Law and Justice around the World Credits: 3
- GGS 304 - Populations Dimensions of Global Change Credits: 3
- HIST 366 - Comparative Slavery Credits: 3
• NCLC 304 - Social Movements and Community Activism Credits: 4
• SOCI 307 - Social Movements and Political Protest Credits: 3
• SOCI 308 - Racial and Ethnic Relations Credits: 3
• SOCI 315 - Sex and Gender in Contemporary Society Credits: 3
• SOCI 475 - Women and the Law Credits: 3
• WMST 100 - Representations of Women Credits: 3

▲ International Development (IDEV)

In this concentration, students explore the many facets of development work as practiced by national governments, international organizations, and non-governmental organizations today. Students learn about economic development, environmental conservation, sustainable tourism, democratization, human rights, international ethics, and humanitarian relief.

Choose 12 credits from the following:

• ANTH 331 - Refugees Credits: 3
• ECON 360 - Economics of Developing Areas Credits: 3
• ECON 361 - Economic Development of Latin America Credits: 3
• ECON 362 - African Economic Development Credits: 3
• GCH 205 - International Health Credits: 3
• GGS 303 - Conservation of Resources and Environment Credits: 3
• GOVT 336 - Political Development and Change Credits: 3
• GOVT 434 - Democracy in Global Perspective Credits: 3
• GOVT 445 - Human Rights Credits: 3
• GOVT 446 - International Law and Organization Credits: 3
• HEAL 350 - Interventions for Populations and Communities at Risk Credits: 3
• NCLC 401 - Conservation Biology Credits: 6
• PHIL 429 - International Ethics Credits: 3
• SOCI 350 - Community, Diversity, and Democracy: A Practicum Credits: 3
• SOCW 351 - Social Policy and Social Justice I Credits: 3
• TOUR 340 - Sustainable Tourism Credits: 3

▲ World Arts (WA)

Choose 12 credits from the following:

• ARTH 203 - Survey of Asian Art Credits: 3
• ARTH 204 - Survey of Latin American Art Credits: 3
• ARTH 362 - Twentieth-Century European Art Credits: 3
• ARTH 380 - African Art Credits: 3
• ARTH 382 - Arts of India Credits: 3
• ARTH 383 - Arts of Southeast Asia Credits: 3
• ARTH 384 - Arts of China Credits: 3
• ARTH 385 - Arts of Japan Credits: 3
• ARTH 386 - The Silk Road Credits: 3
• ARTH 394 - The Museum Credits: 3
• AVT 372 - Hip Hop Culture Credits: 3
• CHIN 311 - Modern Chinese Literature in Translation Credits: 3
• CHIN 320 - Contemporary Chinese Film Credits: 3
• CL 300 - Introduction to Comparative Literature Credits: 3
• DANC 318 - Global Perspectives: World Dance Forms Credits: 3
• DANC 391 - Dance History: Twentieth Century Credits: 3
• DANC 418 - Global Dance Intensive Credits: 1-3
• ENGL 333 - Folklore and Folklife Credits: 3
• ENGL 349 - Global Voices Credits: 3
• ENGL 350 - The Idea of a World Literature Credits: 3
• ENGL 380 - Recent American Fiction Credits: 3
• ENGL 439 - World Literatures in English Credits: 3
• FREN 325 - Major French Writers Credits: 3
• FREN 451 - Sub-Saharan African Literature Credits: 3
• FREN 452 - French-Canadian Literature Credits: 3
• FREN 453 - Francophone Literature from North Africa Credits: 3
• FREN 454 - Caribbean Literature in French Credits: 3
• FREN 470 - Topics in French Cinema Credits: 3
• FRLN 330 - Topics in World Literature Credits: 3
• GERM 325 - Major Writers Credits: 3
• GERM 340 - Survey of German Literature Credits: 3
• GERM 451 - Modern Literature: 1925 to the Present Credits: 3
• JAPA 320 - Japanese Cinema Credits: 3
• RUSS 325 - Major Russian Writers Credits: 3
• RUSS 327 - A Survey of Russian Literature Credits: 3
• RUSS 470 - Topics in (Post) Soviet Film Credits: 3
• SPAN 321 - Introduction to Spanish Culture Credits: 3
• SPAN 325 - Major Hispanic Writers Credits: 3
• THR 359 - World Stages Credits: 3

By World Region

▲ Africa (AFR)

This concentration challenges students to understand the historic, economic, social, and political issues confronting all of Africa. Course options include African diaspora experiences. Students interested in art history, French, and government should consider this concentration.

Choose 12 credits from the following:

• ARTH 380 - African Art Credits: 3
• ECON 362 - African Economic Development Credits: 3
• FREN 451 - Sub-Saharan African Literature Credits: 3
• GOVT 432 - Political Change and Social Development in Sub-Saharan Africa Credits: 3
• HIST 261 - Survey of African History Credits: 3
• HIST 262 - Survey of African History Credits: 3
• HIST 335 - The African American Experience in the United States: African Background to 1885 Credits: 3
• HIST 336 - The African American Experience in the United States: Reconstruction to the Present Credits: 3
• HIST 466 - Origins of Conflict in Southern Africa Credits: 3

▲ Asia (ASA)

This concentration emphasizes Asia's history and increasingly significant role in contemporary world issues. The courses in this concentration cover the economic, social, and political issues that confront the Pacific, India, China, and mainland Asia. Students interested in anthropology, history, art history, government, and religious studies should consider this concentration.

Choose 12 credits from the following:

• ANTH 304 - Peoples and Cultures of the Pacific Credits: 3
• ANTH 306 - Peoples and Cultures of Island Asia Credits: 3
• ANTH 309 - Peoples and Cultures of India Credits: 3
• ANTH 311 - Peoples and Cultures of Mainland Southeast Asia Credits: 3
• ARTH 203 - Survey of Asian Art Credits: 3
• ARTH 382 - Arts of India Credits: 3
• ARTH 383 - Arts of Southeast Asia Credits: 3
• ARTH 384 - Arts of China Credits: 3
• ARTH 385 - Arts of Japan Credits: 3
• CHIN 311 - Modern Chinese Literature in Translation Credits: 3
• CHIN 320 - Contemporary Chinese Film Credits: 3
• GOVT 333 - Government and Politics of Asia Credits: 3
• GOVT 341 - Chinese Foreign Policy Credits: 3
• GOVT 433 - Political Economy of East Asia Credits: 3
• HIST 251 - Survey of East Asian History Credits: 3
• HIST 252 - Survey of East Asian History Credits: 3
• HIST 353 - History of Traditional China Credits: 3
• HIST 354 - Modern China Credits: 3
• HIST 356 - Modern Japan Credits: 3
• HIST 357 - Postwar Japan Credits: 3
• JAPA 320 - Japanese Cinema Credits: 3
• RELI 212 - Religions of Asia Credits: 3

▲ Europe (EU)

This concentration focuses on Europe's long history of art, innovation, and imperialism. Students who are interested in art history, foreign languages, government, history, and philosophy should consider this concentration.

Choose 12 credits from the following:

• ARTH 360 - Nineteenth-Century European Art Credits: 3
• ARTH 362 - Twentieth-Century European Art Credits: 3
• FREN 325 - Major French Writers Credits: 3
• FREN 470 - Topics in French Cinema Credits: 3
• GERM 325 - Major Writers Credits: 3
• GERM 340 - Survey of German Literature Credits: 3
• GERM 451 - Modern Literature: 1925 to the Present Credits: 3
• GGS 320 - Geography of Europe Credits: 3
• GOVT 334 - Government and Politics of Europe Credits: 3
• GOVT 337 - Ethnic Politics in Western Europe and North America Credits: 3
• HIST 304 - Western Europe in the Middle Ages Credits: 3
• HIST 305 - The Renaissance Credits: 3
• HIST 306 - The Reformation Credits: 3
• HIST 307 - Old Regime and Revolutionary Europe Credits: 3
• HIST 308 - Nineteenth-Century Europe Credits: 3
• HIST 309 - Europe in Crisis: 1914-1948 Credits: 3
• HIST 312 - Nationalism in Eastern Europe Credits: 3
• HIST 314 - History of Germany Credits: 3
• HIST 322 - Modern Britain Credits: 3
• HIST 331 - Government and Politics of Latin America Credits: 3
• HIST 271 - Survey of Latin American History Credits: 3
• HIST 272 - Survey of Latin American History Credits: 3
• HIST 364 - Revolution and Radical Politics in Latin America Credits: 3
• HIST 365 - Conquest and Colonization in Latin America Credits: 3
• HIST 367 - History, Fiction, and Film in Latin America Credits: 3

▲ Latin America (LA)

This concentration provides students with a historical understanding of the economic, social, and political issues of Latin America. Students interested in the anthropology, history, government, or economics of this region should consider this concentration.

Choose 12 credits from the following:

• ANTH 302 - Peoples and Cultures of Latin America Credits: 3
• ANTH 307 - Ancient Mesoamerica Credits: 3
• ANTH 385 - Gender, Class, and Ethnicity in Latin America Credits: 3
• ARTH 376 - Twentieth-Century Latin American Art Credits: 3
• ECON 361 - Economic Development of Latin America Credits: 3
• GGS 316 - Geography of Latin America Credits: 3
• GOVT 331 - Government and Politics of Latin America Credits: 3
• HIST 271 - Survey of Latin American History Credits: 3
• HIST 272 - Survey of Latin American History Credits: 3
• HIST 364 - Revolution and Radical Politics in Latin America Credits: 3
• HIST 365 - Conquest and Colonization in Latin America Credits: 3
• HIST 367 - History, Fiction, and Film in Latin America Credits: 3

▲ Middle East and North Africa (MNA)

This concentration provides students with an historical perspective on the political, social, and artistic issues in the Middle East and North Africa. Courses include the Arab-Israeli conflict, francophone literature from North Africa, and art and archeology of the ancient Near East. Students interested in the anthropology, history, or religion of this region should consider this concentration.

Choose 12 credits from the following:

• ARTH 319 - Art and Archaeology of the Ancient Near East Credits: 3
• ARTH 320 - Art of the Islamic World Credits: 3
• FREN 453 - Francophone Literature from North Africa Credits: 3
• GGS 325 - Geography of North Africa and the Middle East Credits: 3
• GOVT 332 - Government and Politics of the Middle East and North Africa Credits: 3
• HIST 281 - Survey of Middle Eastern Civilization Credits: 3
• HIST 282 - Survey of Middle Eastern Civilization Credits: 3
• HIST 461 - Arab-Israeli Conflict Credits: 3
• HIST 465 - The Middle East in the 20th Century Credits: 3
• RELI 211 - Religions of the West Credits: 3

▲ North America (NA)

This concentration provides students with insight into the political, economic, social, and artistic history of North America. Students interested in the language, government, or history of this region should consider this concentration.

Choose 12 credits from the following:

• ANTH 301 - Native North Americans Credits: 3
• ARTH 371 - American Architecture and Material Culture Credits: 3
• ARTH 372 - Studies in 18th- and 19th-Century Art of the United States Credits: 3
• ARTH 373 - Studies in 20th-Century Art of the United States Credits: 3
• ENGL 380 - Recent American Fiction Credits: 3
• ENGL 390 - Recent American Poetry Credits: 3
• FREN 452 - French-Canadian Literature Credits: 3
• GGS 315 - Geography of the United States Credits: 3
• GOVT 301 - Public Law and the Judicial Process Credits: 3
• GOVT 307 - Legislative Behavior Credits: 3
• GOVT 308 - The American Presidency Credits: 3
• GOVT 337 - Ethnic Politics in Western Europe and North America Credits: 3
• GOVT 420 - American Political Thought Credits: 3
• HIST 331 - Postwar United States, 1945-1973 Credits: 3
• HIST 332 - United States since 1973 Credits: 3
• HIST 336 - The African American Experience in the United States: Reconstruction to the Present Credits: 3
• HIST 340 - History of American Racial Thought Credits: 3
• HIST 345 - History of American Foreign Relations Credits: 3
• HIST 350 - U.S. Women's History Credits: 3
• HIST 351 - History of the Old South Credits: 3
• HIST 352 - The South since 1865 Credits: 3
• HIST 370 - War and American Society Credits: 3
• HIST 418 - Ethnic Groups in America Credits: 3
• USST 401 - Seminar: The Future of Metropolitan America Credits: 3

▲ Russia and Central Asia (RCA)

This concentration focuses on the social, political, and economic climates of those regions historically and today. Students interested in the culture, politics, economics, or history of this region should consider this concentration.

Choose 12 credits from the following:
- GGS 330 - Geography of the Soviet Succession States Credits: 3
- GOVT 338 - Government and Politics of Russia Credits: 3
- GOVT 340 - Central Asian Politics Credits: 3
- GOVT 447 - Revolution and International Politics Credits: 3
- HIST 329 - Modern Russia and the Soviet Union Credits: 3
- RUSS 325 - Major Russian Writers Credits: 3
- RUSS 326 - A Survey of Russian Literature Credits: 3
- RUSS 327 - A Survey of Russian Literature Credits: 3
- RUSS 353 - Russian Civilization Credits: 3
- RUSS 354 - Contemporary Post-Soviet Life Credits: 3
- RUSS 407 - Russian Drama and Theater Credits: 3
- RUSS 410 - Russian Poetry Credits: 3
- RUSS 470 - Topics in (Post) Soviet Film Credits: 3

▲ Individualized Concentration (IST)

Students interested in creating their own concentration can work with the director or advisor to decide upon a curriculum that will fulfill the BA in global affairs.

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as “writing intensive” in their major at the 300 level or above. Students majoring in global affairs should consult the program advisor for courses that can be used to fulfill this requirement.

Total: 36 credits

Undergraduate Minor

Global Affairs Minor

Banner Code: GLOA

Web: gloa.gmu.edu

The minor in global affairs provides students with a global perspective that can enhance many different majors. The minor is not available to students majoring in global affairs or minoring in global systems.

This program of study is offered by the Global Affairs Program.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work
- GLOA 101 - Introduction to Global Affairs Credits: 3
  or
- SOCI 120 - Globalization and Society Credits: 3
- CULT 320 - Globalization and Culture Credits: 3
- ECON 385 - International Economic Policy Credits: 3
- GOVT 322 - International Relations Theory Credits: 3
- CONF 340 - Global Conflict Analysis and Resolution Credits: 3
  or
- EVPP 337 - Environmental Policy Making in Developing Countries Credits: 3

Total: 15 credits

**Bachelor's/Accelerated Master's Program**

**Bachelor's Degree (any) /Global Affairs, Accelerated MA**

Web: globalaffairs.gmu.edu

Highly qualified undergraduates in any major may apply to the accelerated master's degree in global affairs. If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in global affairs after satisfactory completion of 144 credits, sometimes within five years.

This program of study is offered by the Global Affairs Program.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

**Application Requirements**

Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 90 credits. Applicants to the accelerated master’s in global affairs must have a cumulative GPA of 3.50 or higher and submit an application, two letters of recommendation, a writing sample, and evidence of advanced professional competency in a second language (other than English) that is widely used in contemporary international communication.

Applicants should submit an Accelerated Master’s Program Application, available from the graduate director, two letters of recommendation, a writing sample, and evidence of advanced professional competency in a second language (other than English) that is widely used in contemporary international communication. The application form should include the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the director of the graduate program in global affairs for more details about the application process.
Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Master's Degree

Global Affairs, MA

Banner Code: LA-MA-GLOA

Web: globalaffairs.gmu.edu

The master of arts in global affairs is an interdisciplinary program offering students the opportunity to engage in advanced study of a broad range of international global issues. Students complete a core curriculum that provides the knowledge and skills to think and act globally and then select a specialization. The possible specializations reflect the strengths of George Mason in the global arena including global economics and development, international management, international education, international health. They include courses offered by academic departments across the university. All students in the program take part in a residency abroad, typically two weeks in duration, and complete a capstone seminar or thesis. Graduates of the program are prepared for careers in a wide variety of international contexts.

This program of study is offered by the Global Affairs Program.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants to the master's degree in global affairs must meet the university admission standards and the application requirements for graduate study as specified in the Admission chapter of the catalog. In addition, applicants must submit two letters of recommendation from individuals familiar with the applicant’s qualifications for graduate study and a satisfactory score on the GRE.

Applicants will need to present evidence an advanced professional competency in a second language (other than English) that is widely used in contemporary international communication. Evidence of language competency may be demonstrated either
through testing by Language Testing International or through other means approved by the College of Humanities and Social Sciences.

Degree Requirements

Four core courses (12 credits):

- GLOA 600 - Global Competencies Credits: 3
- GLOA 610 - Economic Globalization and Development Credits: 3
- GLOA 620 - Human Systems Credits: 3
- GLOA 710 - Seminar Abroad Credits: 3

One course (3 credits) chosen from:

- ITRN 602 - International Financial Institutions and Globalization Credits: 3
- ITRN 603 - International Trade Relations Credits: 3
- GCH 560 - Environmental Health Credits: 3

Four courses (12 credits) in a specialization

The specialization is developed in consultation with an advisor and approved by the director of the program. Specializations reflect the strengths of George Mason in the global arena including global economics and development, international management, international education, international health.

One capstone seminar (3 credits):

- GLOA 720 - Capstone Research Seminar Credits: 3

Total: 30 credits

Faculty

Course Work

This program offers all course work designated CTCH in the Courses chapter of this catalog.

Graduate Programs

The Higher Education Program prepares students for positions of leadership in teaching, research, and administration at community colleges, four-year colleges, and universities. The interdisciplinary curriculum emphasizes ethical leadership, assessment, and practice-based scholarship in teaching and learning. Students in these degrees come from varied professional backgrounds in college teaching, university administration, business, the performing arts, and government. They bring a vast spectrum of experience to their studies and fellow students.

Doctor of Arts in Community College Education

The doctor of arts in community college education prepares students for college teaching. They take course work in higher education pedagogy and in a disciplinary knowledge area. Working with an advisor, students choose appropriate courses from more than 20 participating departments. In addition to developing disciplinary expertise, the courses in higher education offers proficiency in core areas related to undergraduate education: the community college, college teaching, technology in higher education, and the scholarship of teaching and learning.

MAIS Concentration in Community College Teaching

The program sponsors the concentration in community college teaching within the master’s degree in interdisciplinary studies (MAIS). This concentration prepares students to teach entry-level courses in these growing fields in community colleges: communication, English, information systems, mathematics, Spanish, and teaching English as a second language.

See the Interdisciplinary Studies, MAIS section of this chapter.

MAIS Concentration in Higher Education

The program sponsors the concentration in higher education within the master’s degree in interdisciplinary studies (MAIS). This concentration prepares individuals for administrative and leadership positions in two-year colleges or four-year colleges and universities. Students may focus on administration or student services.

See the Interdisciplinary Studies, MAIS section of this chapter.

Doctor of Philosophy in Education with Specialization in Higher Education

The doctor of philosophy in education with a specialization in higher education is offered jointly by the Higher Education Program and the College of Education and Human Development. This doctoral program prepares students for positions of leadership in administration and student services through coursework in higher education administration and leadership and through a secondary concentration that can further disciplinary expertise.

See the College of Education and Human Development chapter of the catalog.

Certificates
The program offers graduate certificates in college teaching and in higher education administration. Students may take these as stand-alone certificates or pursue them concurrently with a graduate degree program. Part of the certificate course work may be able to be applied to the degree subject to the approval of the director of the graduate degree program. Students must apply and be accepted to a graduate certificate program.

**Master's Level Certificate**

**College Teaching Graduate Certificate**

*Banner Code: LA-CERG-CTCH*

Web: highered.gmu.edu

The certificate in college teaching is designed for graduate students who are planning a career in undergraduate education. The program offers courses that enhance pedagogical skills, explore pedagogical assessment or scholarship and the use of technology in instruction.

This program of study is offered by the Higher Education Program.

For policies governing all graduate certificates, see the Academic Policies chapter of the catalog.

**Application Requirements**

Students must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.

**Certificate Requirements**

Three required courses (9 credits) chosen from:

Students may substitute courses with a disciplinary focus for any of the three required courses with prior written approval of the director.

- CTCH 602 - College Teaching Credits: 3
- CTCH 603 - Technology in Higher Education Credits: 3

and

- CTCH 604 - The Scholarship of Teaching and Learning Credits: 3

or

- CTCH 605 - Curriculum and Program Design and Assessment Credits: 3

**Practicum (3 credits)**
CTCH 685 - Practicum Credits: 3

Two elective courses (6 credits)

Students should choose their electives in consultation with an advisor. They need to be approved by the director.

Total: 18 credits

Higher Education Administration Graduate Certificate

Banner Code: LA-CERG-HEDA

Web: highered.gmu.edu

The certificate in higher education administration is designed for individuals who are planning or enhancing a career in a broad range of administrative positions in higher education institutions. The certificate will provide core knowledge for administrative processes in the context of higher education institutions.

This program of study is offered by the Higher Education Program.

For policies governing all graduate certificates, see the Academic Policies chapter of the catalog.

Application Requirements

Students must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.

Certificate Requirements

Three required courses (9 credits)

- CTCH 621 - Higher Education in the United States Credits: 3
- CTCH 622 - Organization and Administration in Higher Education Credits: 3
- CTCH 624 - Finance and Fiscal Management in Higher Education Credits: 3

One course (3 credits) chosen from:

Special topics courses, when relevant, may be used to fulfill this requirement with the prior written approval of the director.
- CTCH 603 - Technology in Higher Education Credits: 3
- CTCH 606 - Diversity in Higher Education Credits: 3
- CTCH 626 - Assessment in Higher Education Credits: 3
- CTCH 645 - The Contemporary College Student Credits: 3

Two elective courses (6 credits)

Electives should be chosen in consultation with an advisor.

Total: 18 credits

Doctoral Degree

Community College Education, DA

Banner Code: LA-DA-EDCC

Web: highered.gmu.edu

The doctor of arts in community college education (DACCE) prepares students to be leaders in undergraduate education. In addition to expertise in a selected disciplinary or interdisciplinary knowledge area, graduates are proficient in four core areas related to undergraduate education: scholarly activity related to teaching and learning; effective integration of technology in the teaching and learning process; pedagogy appropriate to the discipline; and program and curriculum design, development, and assessment. With this background and the guided practical experience provided by internships, students are prepared to lead their institutions to respond to the changing needs of 21st-century students.

This program of study is offered by the Higher Education Program.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Students are accepted for the fall and spring semesters. Applications submitted after the posted deadline will be considered on a space-available basis. In addition to meeting admission standards and application requirements for graduate study at Mason as specified in the Admission chapter of this catalog, applicants to the DA in community college education should have a master’s degree and submit a writing sample, a statement of purpose, three letters of recommendation, GRE scores, and a résumé.

Knowledge Area

Substantial work in a knowledge area is essential to the leadership in curriculum expected of students. Given the dynamic nature of the community college and growth of programs in nontraditional fields, the choice of a knowledge area and relevant course work should be guided by the student’s developing interests and a vision of the student’s role as a community college educator. While many DACCE students take their 24 knowledge area credits exclusively in one discipline or department, they are encouraged to think broadly and in terms of multiple disciplines and work with their advisor to choose appropriate courses from more than one discipline or department.
Education Core

The 18-credit core of education courses is designed to develop leaders in undergraduate education. The program emphasizes a broad knowledge base in teaching and course work in the history and philosophy of the community college and instructional technology. These courses concentrate on scholarship and practice in teaching and learning, instructional technology, and program and curriculum design and assessment. All courses emphasize leadership, ethics, and diversity in higher education.

Program of Study

Working with an advisor, students develop a program of study that outlines courses that will be used to fulfill degree requirements. The program of study is approved by the advisor and director; any modifications require the student to file a revised program of study.

Degree Requirements

21 credits in a knowledge area including 3 credits of methodology

The methodology course varies with the knowledge area. Students choose all courses in their knowledge area in consultation with an advisor. The courses appear on the program of study which requires the approval of the advisor and director of the program.

Four courses (12 credits) in the education core

- CTCH 601 - The Community College Credits: 3
- CTCH 602 - College Teaching Credits: 3
- CTCH 603 - Technology in Higher Education Credits: 3
- CTCH 604 - The Scholarship of Teaching and Learning Credits: 3

Two elective courses (6 credits)

These must be from an approved list of courses available from the Higher Education Program.

One course (3 credits) in research design or methods

Students should choose this course in consultation with an advisor.

Two internships (6 credits)

Students take two 3-credit internships to learn skills applicable to college-based teaching and higher education administration or policy. Internships provide an important educational experience that complements classroom-based course work. Students doing an internship should have completed 18 credits of education core requirements, 6 credits in the knowledge area, and an approved
program of study. Internships, which must be approved by the advisor and internship coordinator, require a minimum of 180 hours of work for 3 credits and participation in an internship seminar.

- CTCH 885 - Doctoral Internship in College Teaching and Administration Credits: 3

Dissertation (12 credits)

Students must complete a dissertation in which they demonstrate their ability to conduct original research that contributes new knowledge or a reinterpretation of existing knowledge to the area of investigation. Students who focus their dissertation in the knowledge area must connect their research to higher education. Dissertations may be practice-oriented, focusing on new and replicable ways of teaching within the knowledge area.

Students are required to take at least 3 credits of doctoral dissertation proposal (998) and at least 3 credits of doctoral dissertation (999).

To register for dissertation research (999), students must be advanced to candidacy. Students enrolled in 999 are required to submit evidence of progress to the dissertation advisor and the program by the last day of classes each semester (as published in the Schedule of Classes), such as a draft of a chapter or a brief, descriptive report of research activities. Students showing successful progress will receive a grade of IP. Those who do not will receive an IN.

Once enrolled in 998, students must maintain continuous registration each semester until graduation, excluding summers. Once enrolled in 999, students must follow the university continuous registration policy as specified in the Academic Policies chapter of the catalog. Students who defend in the summer must be registered for at least 1 credit of 999 in the summer.

- CTCH 998 - Doctoral Dissertation Proposal Credits: 1-3
- CTCH 999 - Doctoral Dissertation Credits: 1-12

Total: 60 credits

Candidacy Exams

Students must pass candidacy exams to demonstrate breadth and depth of knowledge in both the knowledge area and education core. To be eligible to take a candidacy exam, students need to have completed all course work in the specific area, be in good standing (minimum cumulative GPA of 3.00), and be registered for at least 1 credit. The competency exam for the education core is a written exam administered by the Higher Education Program. The knowledge area exams are administered by the liaison in the knowledge area; each area has its own exam guidelines.

Students who do not pass a candidacy exam in either area have until the last day of the next semester (published in the Schedule of Classes) to retake it. (For students who take exams in the summer months, this will be the published date for the fall semester.) Students who do not retake the exam by this deadline or do not successfully complete the candidacy exam the second time will be terminated from the program.

Advancement to Candidacy

To advance to candidacy, students must complete all course work required on their approved program of study. Students must also successfully complete and pass comprehensive exams on the education core and the major knowledge area. In addition,
students must have a dissertation committee appointed by the Dean’s Office as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean’s Office before a student can be advanced to candidacy.

History and Art History

Web: historyarthistory.gmu.edu

Faculty

Mathy professor: Mattusch (art history)

Robinson professor: Crew, Bakhash (history), Hinton (art history)

Professors: J. R. Censer (dean), J. T. Censer, Holt, Kierner, Petrik, Sherwin, Stearns (provost), Wade, Zagarri (history)

Associate professors: Aydin, Barnes, Bristol, Carton, Chang, Cohen, Copelman, Deshmukh, Hamdani, Karush, Kelly, Landsberg, Lytton, O’Malley, Platt (chair), Scully, Smith (history); Butler, DeCaroli (director), Greet, Todd (art history)

Assistant professors: Bottoms, Collins, Gibbs, Hamner, Lair, McDow, Takats (history)

Affiliate assistant professor: Schrum

Term faculty: Lansbury, Leon, Manuel-Scott, McCord, Orens, Scheinfeldt, Swanson, Walmsley (history); Bauman, Gregg, Richardson (art history)

Postdoctoral teaching fellows: Salinas, Scales

Course Work

This department offers all course work designated HIST and ARTH in the Courses chapter of this catalog.

Undergraduate Programs

History

The department offers a BA in history. History majors study a variety of historical time periods, from Greek and Roman antiquity to the late twentieth-century. They learn to interpret and evaluate the past by analyzing a variety of sources, from historical books and novels to images, films, oral interviews, newspapers, and other texts.

History majors have the opportunity to study with faculty who are internationally known for their work on the use of technology in the study of history. They can do an internship with one of them in the Center for History and New Media or at places like the Smithsonian Institution, the Library of Congress, or one of many other institutions in the Washington, D.C. area. There are also many opportunities to study abroad while earning credit towards the history major.

Advising

Students majoring or minoring in history are advised by the undergraduate director and a team of faculty advisors. History majors are urged to discuss their program of study periodically with the director.
**Honors in the Major**

History majors who have completed 75 credits (a minimum of 15 in history, 6 of which must have been taken at Mason) with an overall GPA of 3.5 and a GPA of 3.50 in history courses are eligible to apply to graduate with honors in history. Applicants must have completed or be enrolled in HIST 300. The statement of application should include references from two Mason history faculty members. If a major part of the student’s work includes transfer credit, transcripts may be required. Not all applicants who meet the minimum requirements are guaranteed acceptance into honors in the major.

Students pursuing honors in the major complete HIST 490 and 491, linked individualized courses usually with the same instructor. Students must have completed at least one course in the field (or with the professor) chosen for these honors courses. HIST 490 should be taken before 491, although they may be taken concurrently. Either course may be taken concurrently with HIST 499 - Senior Seminar in History. To graduate with honors in the major, students must earn a minimum GPA of 3.50 in the honors courses and a minimum GPA of 3.5 in history courses applied to the degree. The two honors courses (6 credits) may be applied to the requirement of 36 credits in history, but they cannot replace HIST 499.

**Minors**

The department offers a minor in history available to students in any major at Mason.

The department faculty participate in a number of interdisciplinary minors including African and African American Studies Minor, Ancient Mediterranean Art and Archaeology Minor, Asia-Pacific Studies Minor, Islamic Studies Minor, Latin American Studies Minor and Middle East Studies Minor. Students can earn credit toward these minors by taking selected history and art history courses. For details, see the Minors and Interdisciplinary Minors section and the Latin American Studies section of this chapter.

The minor in sport and American culture is offered jointly by the Department of History and Art History and the School of Recreation, Health and Tourism. For details, see the School of Recreation, Health, and Tourism Department section in the College of Education and Human Development chapter of the catalog.

**Art History**

The department offers a BA in art history. Art history majors investigate works of art to learn how they were made, why they were made, and by and for whom they were made. They develop the skills to interpret a work of art as a record of the culture in which it was made. Through art history courses, students will learn to ask questions that touch on cultural, technological, and economic concerns. The major has flexible requirements, and students in art history receive individualized attention which helps them tailor their studies to their own individual interests and career goals.

Art history majors have the opportunity to study with faculty whose expertise covers many world regions - the United States, Latin America, Europe, South and Southeast Asia, and China - and all historical periods - from classical antiquity, Byzantine, Medieval, Renaissance, and Baroque, to the modern era.

Students are encouraged to do an internship at one of the many arts organizations in the Washington, D.C. region, such as the National Gallery of Art or the Corcoran Gallery. There are also many opportunities to study abroad while earning credit towards the art history major.

**Honors in the Major**

Majors who have completed 75 credits (a minimum of 15 credits in art history, with 6 credits taken at Mason) with an overall GPA of 3.50 and a GPA of 3.80 in art history are eligible to apply to graduate with honors in art history. Eligible students should apply to the undergraduate director by November 15 or April 15 with a statement of application including the names of two references from Mason art history faculty members. Transfer students should also submit transcripts. Not all applicants who meet the minimum requirements are guaranteed acceptance into honors in the major.
Students pursuing honors in the major complete ARTH 492 and 493, linked individualized courses that culminate in a research paper. Students must have completed at least one course in the field (or with the professor) chosen for these honors courses. ARTH 492 should be taken before 493, but they may be taken concurrently. To graduate with honors in the major, students must earn a minimum GPA of 3.50 in honors courses and a minimum GPA of 3.5 in art history courses applied to the degree. The two honors courses (6 credits) may be applied toward the requirement of 33- to 34-credits in art history, but they cannot replace the 6 required credits in ARTH 400, 420, 430, 440, 460, 471, 472, or 482.

Minors

The department offers a minor in art history available to students in any major at Mason. The Art History Program coordinates the Ancient Mediterranean Art and Archaeology Minor. See the Minors and Interdisciplinary Minors section of this chapter.

Graduate Programs

History

The department offers a master's and a doctoral degree in history. In both programs, students select a specialization in American history, European history, or world history. Master's degree students chose from one of four concentrations: predoctoral history, applied history, enrichment, or teaching. Doctoral students focus their studies in one of four areas: college/university teaching, new media and information technology, public and applied history, or preprofessional development.

Graduate students in history have the opportunity to take courses in new media, studying with faculty who are internationally known for their use of technology in the study of history. Many students work along side the faculty in the Center for History and New Media, a leader in the use of digital media and computer technology to democratize history. The center uses digital media and technology to preserve and present history online, transform scholarship across the humanities, and advance historical education and understanding.

Students can do an internship in applied history at one of the many institutions in the Washington, D.C. area or study abroad while earning credit towards their degrees.

Funding

The department offers teaching and research assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

Art History

The department offers a richly interdisciplinary master's degree in art history. It draws on faculty strengths in traditional research and new media and the vast cultural resources of the Washington, D.C. area. Students learn methods of art historical analysis, a variety of art historical interpretations, and practical applications of the field. The program places a special emphasis on the development of skills in new media, museology, and pre-professional internships - program features that are unique to this region.

The master's degree in art history is designed to meet the needs of a student population with diverse interests and career goals. Because of the focus on skill building in traditional research as well as new media, graduates of this program have the tools necessary for independent research, professional work, and the dissemination of knowledge in art history.
Undergraduate Degree

Art History, BA

Banner Code: LA-BA-AH

Web: historyarthistory.gmu.edu

As a liberal arts discipline, art history emphasizes the analysis of visual data in a historical context. The bachelor's degree in art history prepares students for graduate study in art history as well as for professional work.

This program of study is offered by the Department of History and Art History.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements

In addition to satisfying university general education requirements and requirements for a bachelor of arts degree in the College of Humanities and Social Sciences, students pursuing this degree must complete 33 to 34 credits with a minimum GPA of 2.00.

All art history majors are encouraged to pursue internships in art history (ARTH 393) in their junior or senior year. Up to 6 credits in art history internships may be applied toward ARTH requirements for the major, with permission of the art history undergraduate director.

Students are strongly recommended to participate in a study abroad program. Students contemplating graduate study in art history should acquire a reading knowledge of French, German, or other appropriate research languages in consultation with an advisor.

One survey course (3 credits) chosen from:

- ARTH 200 - Survey of Western Art Credits: 3
- ARTH 201 - Survey of Western Art Credits: 3
- ARTH 203 - Survey of Asian Art Credits: 3
- ARTH 204 - Survey of Latin American Art Credits: 3

One museum course (3 credits)

- ARTH 394 - The Museum Credits: 3

Five courses (15 credits) in ARTH at the 300 level

One course (3 credits) in ARTH at the 400 level chosen from:

- ARTH 400 - Historiography and Methods of Research in Art History Credits: 3
• ARTH 420 - Advanced Studies in Ancient Art Credits: 3
• ARTH 430 - Advanced Studies in Medieval or Islamic Art Credits: 3
• ARTH 440 - Advanced Studies in Renaissance and Baroque Art Credits: 3
• ARTH 460 - Advanced Studies in 20th-Century European Art Credits: 3
• ARTH 471 - Advanced Studies in Art of the United States Credits: 3
• ARTH 472 - Advanced Studies in 20th-Century Latin American Art Credits: 3
• ARTH 482 - Advanced Studies in Asian Art Credits: 3

One elective course (3 credits) in ARTH at the 400 level

One course (3 or 4 credits) in art and visual technology chosen from:

• AVT 103 - Introduction to the Artist's Studio Credits: 3
• AVT 104 - Studio Fundamentals I Credits: 4

One elective course (3 credits)

Students choose an elective from any art history course.

Total: 33 to 34 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as “writing intensive” in their majors at the 300 level or above. Students majoring in art history fulfill the university’s writing-intensive requirement by successfully completing any 400-level ARTH course.

History, BA

Banner Code: LA-BA-HIST

Web: historyarthistory.gmu.edu

This program of study is offered by the Department of History and Art History.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements
In addition to satisfying university general education requirements and the requirements for a bachelor of arts degree in the College of Humanities and Social Sciences, students pursuing this degree must complete 36 credits of history with at least 18 credits at the 300 and 400 levels. Additional credits of history in excess of 36 may be presented as elective credits to be counted toward graduation. Students must have a minimum GPA of 2.00 in courses counting toward the major.

Before registering, students should see an advisor to help plan their history program to meet university general education and college-level requirements. The advisor also can help students choose electives or a minor.

HIST 300 and 499 may not be used to satisfy the first three requirements below.

**Two courses (6 credits) of U.S. history**

**Two courses (6 credits) of European history**

HIST 100 - History of Western Civilization used to fulfill the university-wide general education requirement in western civilization may also fulfill 3 credits of this requirement.

**Two courses (6 credits) of global, Latin American, African, Asian, or Middle Eastern history**

Approved courses in history used to fulfill the university general education requirement in global understanding and the college-level requirement in non-Western culture may be used to fulfill this requirement.

**One methods course (3 credits)**

- HIST 300 - Introduction to Historical Method Credits: 3 (with a minimum grade of 2.00)

**One seminar course (3 credits)**

- HIST 499 - Senior Seminar in History Credits: 3 (fulfills university synthesis requirement)

**Four elective courses (12 credits) in history**

Students should choose courses in history at the 300 or 400 levels to meet this requirement, if they need credits to complete the 18-credit, upper-level history requirement.

**Total: 36 credits**

**Writing-Intensive Requirement**
The university requires all students to complete at least one course designated as “writing intensive” in their majors at the 300 level or above. Students majoring in history may fulfill this requirement by successfully completing HIST 300 and 499.

**Undergraduate Interdisciplinary Minor**

**Ancient Mediterranean Art and Archaeology Minor**

**Banner Code:** ARTM  
**Phone:** 703-993-3770

**Faculty**

Butler (coordinator), Cherubin, Lytton, Mattusch, Winkler

This interdisciplinary minor is for students with diverse interests in the material culture of the ancient world. Course work combines the study of archeology, literature, art, history, philosophy, myth, and religion. The scope of the minor is not limited to Greece and Rome, but touches on all the ancient civilizations of the Mediterranean and the heirs of late antiquity such as Byzantium and early Islam.

The program represents foundation work crucial to graduate study in traditional departments of classical, near Eastern, or Mediterranean art and archeology. Through this minor, students are given credit for acquiring practical linguistic skills and archaeological field experience as well as scholarly background. Students should consult with the director for help in choosing a program of study that will complement their major.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies chapter of this catalog.

**Course Work**

Of the 18 credits required for the minor, least 3 credits must be taken in ARTH and at least 9 credits must be taken outside of ARTH.

**One course (3 credits) of preparatory work**

Students have three options for fulfilling this requirement.

**A course in Classical Greek**

- GREE 150 - Classical Greek I Credits: 3  
- GREE 160 - Classical Greek II Credits: 3

**A course in ancient literature**
• ARTH 102 - Symbols and Stories in Art Credits: 3
• CLAS 250 - Classical Mythology Credits: 3
• CLAS 260 - The Legacy of Greece and Rome Credits: 3
• RELI 211 - Religions of the West Credits: 3

A course in Latin or a modern research language

This can be fulfilled with a course in any relevant language beyond the language requirement for the BA in the College of Humanities and Social Sciences. For information on how to complete this requirement, students should consult with the director of the minor.

Two to three elective courses (6 to 9 credits):

Other courses pertaining to the region and period, including ARTH 399, may be used to fulfill this requirement with the prior written approval of the director.

• ANTH 324 - Warfare, Violence, and Sacrifice in Antiquity Credits: 3
• ARTH 319 - Art and Archaeology of the Ancient Near East Credits: 3
• ARTH 320 - Art of the Islamic World Credits: 3
• ARTH 321 - Greek Art and Archaeology Credits: 3
• ARTH 322 - Roman Art and Archaeology Credits: 3
• ARTH 324 - From Alexander the Great to Cleopatra: The Hellenistic World Credits: 3
• ARTH 333 - Early Christian and Byzantine Art Credits: 3
• CLAS 340 - Greek and Roman Epic Credits: 3
• CLAS 350 - Greek and Roman Tragedy Credits: 3
• CLAS 360 - Greek and Roman Comedy Credits: 3
• CLAS 370 - Greek and Roman Historians Credits: 3
• CLAS 380 - Greek and Roman Novels Credits: 3
• CLAS 390 - Topics in Classical Literature and Culture Credits: 3
• HIST 301 - Classical Greece Credits: 3
• HIST 302 - Classical Rome Credits: 3
• HIST 480 - Alexander the Great Credits: 3
• PHIL 301 - History of Western Philosophy: Ancient Credits: 3
• RELI 352 - Judaism from Exile to Talmud Credits: 3
• RELI 381 - Beginnings of Christianity Credits: 3

3 credits of seminar:

• ARTH 420 - Advanced Studies in Ancient Art Credits: 3 (if topic pertains to region and period)
• ARTH 430 - Advanced Studies in Medieval or Islamic Art Credits: 3 (if topic pertains to region and period)

3 to 6 credits of a practicum:
ARTH 393 requires the prior, written approval of the director. Students can also use archaeological field work done for credit to fulfill this requirement.

- ARTH 394 - The Museum Credits: 3
- ANTH 322 - Historical Archaeology Credits: 3
- ARTH 393 - Art History Internships Credits: 3-6 (if content of internship pertains to region and period)
- ANTH 325 - Field Techniques in Archaeology Credits: 3-6
- ANTH 420 - Interpretation in Archaeology Credits: 3
- ANTH 430 - Research Methods in Archaeology Credits: 3

Total: 18 credits

Asia-Pacific Studies Minor

Banner Code: APS

Web: chss.gmu.edu/programs/requirements/LA-MINOR-LA-APS

Phone: 703-993-2957

Faculty

Butler, Chang, Cuong, DeCaroli, Hinton, H. Nguyen (co-director), Lin, Paden, Platt (co-director), Ro, Wan, Zhang

The interdisciplinary minor in Asia-Pacific studies is for students whose interests focus on the humanities and social sciences and Asia’s role in global systems and the cultural mosaic of human experience.

Asia is the birthplace of many great religious and cultural traditions. It is a region in rapid and profound transformation. With half of the world's population and half of its land mass, Asia is destined to play an increasingly important role in the global economy and world politics. A minor in Asia-Pacific studies will give you a better understanding of an important region of the world, broaden your perspective, and give you an edge in seeking jobs in various government agencies, international organizations, private businesses, law firms, and non-profit organizations that deal with Asia. It prepares you for graduate studies in the humanities or social sciences. This minor complements many majors including history, anthropology, communication, economics, and government and politics.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

9 of the 18 credits required for this minor must be at the 300 and 400 level. It is recommended that students interested in this minor take language courses in Chinese, Korean, or Japanese. 3 credits of one of these languages at the intermediate level (200-level) or above may be applied to the minor.

Two core courses (6 credits):
• One course (3 credits) in a language relevant to the area such as Chinese, Korean, or Japanese at the 200-level (or higher)
• ARTH 203 - Survey of Asian Art Credits: 3
• GOVT 333 - Government and Politics of Asia Credits: 3
• HIST 251 - Survey of East Asian History Credits: 3
• HIST 252 - Survey of East Asian History Credits: 3
• RELI 212 - Religions of Asia Credits: 3

Four elective courses (12 credits):

Any course from the list of core course options not used to fulfill that requirement may be used as an elective course. Other electives are possible, including approved study abroad courses or internships, when relevant, with prior written approval of the director.

• ANTH 306 - Peoples and Cultures of Island Asia Credits: 3
• ANTH 311 - Peoples and Cultures of Mainland Southeast Asia Credits: 3
• ANTH 382 - Urban Anthropology Credits: 3
• ANTH 385 - Gender, Class, and Ethnicity in Latin America Credits: 3
• GOVT 433 - Political Economy of East Asia Credits: 3
• HIST 353 - History of Traditional China Credits: 3
• HIST 354 - Modern China Credits: 3
• HIST 356 - Modern Japan Credits: 3
• HIST 357 - Postwar Japan Credits: 3
• RELI 314 - Chinese Philosophies and Religious Traditions Credits: 3
• RELI 315 - Buddhism Credits: 3
• RELI 337 - Mysticism: East and West Credits: 3

Total: 18 credits

Islamic Studies Minor

Banner Code: ISLM

Phone: 703-993-1261

Web: islamicstudies.gmu.edu

Faculty

Amireh, Aydin (director), Bakhash, Butler, Dakake, DeCaroli, Haddad, Hamdani, Hammer, Katz, Lukacs, Mandaville, McGlinchey, Paden, Salawdeh

The minor in Islamic studies is designed for students interested in the societies, cultures, history, and politics of the Islamic world. It offers students the opportunity to study the many societies that have significant Muslim populations. These societies are not just in the Middle East. They stretch from North Africa to Southeast Asia and beyond. They include Europe as well as North
America. To fulfill the requirements for the minor, students take a wide variety of courses from a range of departments. These courses provide students with a broad and well-rounded understanding of Islam.

The minor will enhance students' opportunities for future study and employment, especially in the Washington, DC area.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Three core courses (9 credits):
- GOVT 345 - Political Islam Credits: 3
- HIST 281 - Survey of Middle Eastern Civilization Credits: 3
- RELI 272 - Islam Credits: 3

Three elective courses (9 credits):
Special topics courses, when relevant, may be used to fulfill this requirement with prior written approval of the director.
- ANTH 309 - Peoples and Cultures of India Credits: 3
- ANTH 311 - Peoples and Cultures of Mainland Southeast Asia Credits: 3
- ARTH 320 - Art of the Islamic World Credits: 3
- ARTH 382 - Arts of India Credits: 3
- FREN 453 - Francophone Literature from North Africa Credits: 3
- GGS 325 - Geography of North Africa and the Middle East Credits: 3
- GGS 330 - Geography of the Soviet Succession States Credits: 3
- GOVT 328 - Non-Western Political Theory Credits: 3
- GOVT 332 - Government and Politics of the Middle East and North Africa Credits: 3
- HIST 282 - Survey of Middle Eastern Civilization Credits: 3
- HIST 462 - Women in Islamic Society Credits: 3
- HIST 465 - The Middle East in the 20th Century Credits: 3
- RELI 374 - Islamic Thought Credits: 3
- RELI 375 - Qur'an and Hadith Credits: 3

One course (3 credits) in a foreign language of any country with a significant Muslim population

Arabic may be used to fulfill this requirement, but other languages of the Islamic world may be substituted with prior written approval of the director. This requirement may be waived for students who can demonstrate proficiency in a relevant foreign language. Contact the college Office of Undergraduate Affairs. Such students will have 3 additional elective credits.

Total: 21 credits
New Europe Minor

Banner Code: NEU

Phone: 703-993-4973

Web: neweurope.gmu.edu

Director

T. Mills Kelly, History and Art History

Europe is changing profoundly in a wide variety of ways. The New Europe interdisciplinary minor includes a range of courses and study abroad options that explore current developments in the Old Continent. It complements most undergraduate majors and will appeal to anyone with an interest in European history, politics, economics, society, and languages. Apart from its intellectual benefits, the New Europe minor should enhance students’ employment prospects in an increasingly interdependent global economy, especially one in which Europe is a major player.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

One core course (3 credits)

GOVT 444 may be used to meet this requirement with prior written approval of the director.

- GOVT 334 - Government and Politics of Europe Credits: 3

Five elective courses (15 credits)

Students must take at least one course from each of these lists. When relevant to the minor, special topics courses, seminars, independent study, internships, and study abroad may also be taken for elective credit with prior written approval of the director.

History, geography, and politics

- ECON 380 - Economies in Transition Credits: 3
- GOVT 334 - Government and Politics of Europe Credits: 3 (if not taken as the core course)
- GOVT 337 - Ethnic Politics in Western Europe and North America Credits: 3
- GOVT 338 - Government and Politics of Russia Credits: 3
- HIST 312 - Nationalism in Eastern Europe Credits: 3
- HIST 314 - History of Germany Credits: 3
- HIST 322 - Modern Britain Credits: 3
- HIST 329 - Modern Russia and the Soviet Union Credits: 3
- RUSS 354 - Contemporary Post-Soviet Life Credits: 3

Language, literature, and the arts

- ARTH 362 - Twentieth-Century European Art Credits: 3
- ENGL 437 - Continental Fiction: 1880-1950 Credits: 3
- ENGL 445 - British and Irish Drama after 1900 Credits: 3
- FREN 441 - Twentieth-Century Prose Fiction Credits: 3
- FREN 442 - Twentieth-Century Drama and Poetry Credits: 3
- FREN 470 - Topics in French Cinema Credits: 3
- GERM 451 - Modern Literature: 1925 to the Present Credits: 3
- PHIL 336 - Twentieth-Century Continental Thought: Existentialism Credits: 3
- PHIL 337 - Twentieth-Century Continental Thought: Phenomenology Credits: 3
- SPAN 484 - The Literature of Spain II Credits: 3

Total: 18 credits

Undergraduate Minor

Art History Minor

Banner Code: ARTH

Web: historyarthistory.gmu.edu

The minor in art history covers a broad spectrum of periods, cultures, and themes, with an emphasis on historical context.

This program of study is offered by the Department of History and Art History.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits with a minimum GPA of 2.00.

ARTH 394 is not required for the minor but is strongly encouraged.

One to two courses (3 to 6 credits) in 100- or 200-level art history courses
Four to five courses (12 to 15 credits) in 300- or 400-level art history courses

Total: 18 credits

**History Minor**

**Banner Code:** HIST

Web: historyarthistory.gmu.edu

This program of study is offered by the Department of History and Art History.

For policies governing all minors, see the Academic Policies chapter of this catalog.

**Course Work**

Students pursuing this minor must complete 18 credits in history with a minimum GPA of 2.00.

Of the courses applied to the minor, four courses (12 credits) must be at the 300 or 400-level.

**Three courses (9 credits) in a region or topic**

Students choose courses to meet this requirement that are concentrated in a region or topic. The region or topic should related, if possible, to their major. They should review their plan with the director of the minor.

**Three elective courses (9 credits) in history**

Total: 18 credits

**Master's Degree**

**Art History, MA**

**Banner Code:** LA-MA-AH

Web: historyarthistory.gmu.edu
The program in art history offers a unique master’s degree based on departmental strengths in traditional research, the application of new media, and the vast cultural resources of the Washington, D.C., area. Students study a broad range of art-historical periods, theory, and research methods. In addition, the program emphasizes new media skills, museum studies, and preprofessional internship training. Graduates are well-prepared for art museum and gallery professional work, where a master's degree is now routinely required, or further study in doctoral programs.

This program of study is offered by the Department of History and Art History.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Applicants to the MA in art history should also hold a BA in art history or a minor in art history that includes two courses at the 400 level or have an equivalent background. Candidates without the requisite background may be admitted provisionally. Applicants to this degree should also submit the following:

- Résumé that clearly describes student’s background in art history or related fields
- Goals statement that explains student’s interest in art history graduate study
- Satisfactory scores on GRE (This requirement is waived for students who received their undergraduate degree 10 or more years ago or hold another graduate degree.)
- Writing sample
- Two letters of recommendation from art history professors or others closely associated with the candidate’s preprofessional activities

Degree Requirements

Three required courses (9 credits)

- ARTH 600 - Methods and Research in Art History Credits: 3
- ARTH 696 - Independent Directed Readings Credits: 3
- ARTH 699 - Topics in Art History Credits: 3

Five elective courses (15 credits) in ARTH and HIST

Students may choose electives in AVT, ANTH, or CULT with prior written permission of the graduate director.

One course (3 credits) of applied preprofessional learning chosen from:

- ARTH 593 - Art History Internships Credits: 3-6
- ARTH 594 - The Museum Credits: 3
One course (3 credits) in technology and new media in preparation for the comprehensive exam chosen from:

- HIST 696 - Clio Wired: An Introduction to History and New Media Credits: 3
- HIST 697 - Creating History in New Media Credits: 3

Research language proficiency

Students must demonstrate reading ability in one relevant research language to be approved by the graduate director.

Written comprehensive exam

Students who do not pass may retake the exam once, following the original process. The second exam must be taken within 12 months of the first exam.

Total: 30 credits

History, MA

Banner Code: LA-MA-HIST

Web: historyarthistory.gmu.edu

The Department of History and Art History provides graduate training in historical methods and analysis for students with widely varying goals. The MA concentrations that follow are designed to meet those goals.

This program of study is offered by the Department of History and Art History.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Students must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog and must meet the requirements of the Department of History and Art History as well. Department requirements include satisfactory scores on the GRE and two letters of recommendation from history professors with whom the applicant has studied or others directly familiar with the applicant’s professional competence and interests. The GRE requirement is waived for students who received their undergraduate degrees 10 or more years ago or hold another graduate degree.

Degree Requirements
Students pursuing this degree must complete the requirements for one of the concentrations below. The first five concentrations require 30 credits of course work along with a specialization in U.S. history (AH), modern European history (EH), or world history (WH). The concentration in teaching requires 36 credits.

Students may be required to take up to 12 additional credits of foundation courses, which cover broad thematic areas (HIST 601, 602, 605, 606), to remedy gaps in their undergraduate preparation. If required as foundational, these credits cannot be applied toward the credits required for the degree.

If foundation courses are not required at admission, students in the concentrations in enrichment and teaching may apply up to one thematic course (3 credits) toward their degree. Students in the other concentrations may not apply these courses toward their degree.

Students may apply no more than 6 credits earned through study abroad courses toward their degree.

▲ Concentration in Predoctoral History (AH1, EH1, WH1)

This concentration is for students planning to pursue doctoral studies. Students choose one of three specializations and take most of their coursework, a seminar, and a readings course in that specialization.

One required course (3 credits) taken within the first 9 credits:

- HIST 610 - The Study and Writing of History Credits: 3

Three to four courses (9-12 credits) in a specialization:

Students who complete the 3-credit HIST 798 have 12 credits of electives in their specialization, while students who complete a 6-credit thesis (HIST 799) have 9.

- Specialization in U.S. history (at least 3 credits from each group):
  - Origins to 1861
  - 1861–1914
  - 1914 World War I to the present
- Specialization in European history (at least 3 credits from each group):
  - Ancient, medieval, early modern to 1789
  - 1789–1914
  - 1914 to the present
- Specialization in world history (at least 3 credits from two regions):
  - Africa
  - Asia
  - Middle East
  - Latin America

One research seminar (3 credits) in a specialization:

- HIST 711 - Research Seminar in U.S. History Credits: 3
- HIST 731 - Research Seminar in European History Credits: 3
- HIST 751 - Research Seminar in Comparative World History Credits: 3
One comprehensive reading course (3 credits) in a specialization:

The comprehensive reading course is designed by the student and a professor and taken during the last semester of course work. It generally requires reading beyond what is required in the other concentrations. This course is used to round out general historical knowledge and prepare students for the comprehensive exam.

- HIST 790 - Comprehensive Readings in U.S. History Credits: 3
- HIST 791 - Comprehensive Readings in Comparative World History Credits: 3
- HIST 792 - Comprehensive Readings in European History Since 1500 Credits: 3

Two elective courses (6 credits) in history

Written comprehensive exam

Students who do not pass the comprehensive exam are given the option of taking a second exam following the original procedures. The second exam must be taken within a calendar year.

Reading proficiency in a modern foreign language, as demonstrated by course work or an exam

3 credits of project or 6 credits of thesis

- HIST 798 - Directed Research and Writing in History Credits: 3
- HIST 799 - Thesis Credits: 1-6

Note:

HIST 798 requires the completion of a major paper that is a substantial and original contribution to historical knowledge on the model of an article in a scholarly journal. If students choose to take HIST 798, they complete an additional 3 credits in their specialization.

Total: 30 credits

▲ Concentration in Predoctoral History with an Emphasis in Cultural History (AH5, EH5, WH5)

This concentration is for students with a particular interest in cultural history and students considering future work in the cultural studies doctoral program. Completion of this program of study does not guarantee admission to the doctoral program in cultural studies. Students interested in that degree program should contact the Cultural Studies Program.
One required course (3 credits) taken within the first 9 credits:

- HIST 610 - The Study and Writing of History Credits: 3

Three courses (9 credits) in a specialization:

- Specialization in U.S. history (at least 3 credits from each group):
  - Origins to 1861
  - 1861–1914
  - 1914 World War I to the present
- Specialization in European history (at least 3 credits from each group):
  - Ancient, medieval, early modern to 1789
  - 1789–1914
  - 1914 to the present
- Specialization in world history (at least 3 credits from two regions):
  - Africa
  - Asia
  - Middle East
  - Latin America

One research seminar (3 credits) in a specialization:

- HIST 711 - Research Seminar in U.S. History Credits: 3
- HIST 731 - Research Seminar in European History Credits: 3
- HIST 751 - Research Seminar in Comparative World History Credits: 3

One comprehensive reading course (3 credits) in a specialization:

The comprehensive reading course is designed by the student and a professor and taken during the last semester of course work. It generally requires reading beyond what is required in the other concentrations. This course is used to round out general historical knowledge and prepare students for the comprehensive exam.

- HIST 790 - Comprehensive Readings in U.S. History Credits: 3
- HIST 791 - Comprehensive Readings in Comparative World History Credits: 3
- HIST 792 - Comprehensive Readings in European History Since 1500 Credits: 3

One required course (3 credits) in cultural studies:

- CULT 802 - Histories of Cultural Studies Credits: 3

One course (3 credits) in approaches to cultural history
Students should consult with the director on an appropriate course to fulfill this requirement.

One course (3 credits) from outside the area of specialization containing a significant cultural history component as defined by the instructor.

Written comprehensive exam

Students who do not pass the comprehensive exam are given the option of taking a second exam following the original procedures. The second exam must be taken within a calendar year.

Reading proficiency in a modern foreign language, as demonstrated by course work or an exam

3 credits of project

- HIST 798 - Directed Research and Writing in History Credits: 3

Note:

HIST 798 requires the completion of a major paper on a topic in cultural history that is a substantial and original contribution to historical knowledge on the model of an article in a scholarly journal.

Total: 30 credits

▲ Concentration in Applied History (AH2, EH2, WH2)

This concentration is for students seeking expertise in applied history fields, such as archival management, museum studies, historic preservation, and historical editing. It is also suitable for professionally employed historians who desire to further their careers.

One required course (3 credits) taken within the first 9 credits:

- HIST 610 - The Study and Writing of History Credits: 3

Four courses (12 credits) in a specialization:

- Specialization in U.S. history (at least 3 credits from each group):
  - Origins to 1861
  - 1861–1914
1914 World War I to the present

- Specialization in European history (at least 3 credits from each group):
  - Ancient, medieval, early modern to 1789
  - 1789–1914
  - 1914 to the present

- Specialization in world history (at least 3 credits from two regions):
  - Africa
  - Asia
  - Middle East
  - Latin America

One research seminar (3 credits) in a specialization:

- HIST 711 - Research Seminar in U.S. History Credits: 3
- HIST 731 - Research Seminar in European History Credits: 3
- HIST 751 - Research Seminar in Comparative World History Credits: 3

Two to three courses (6-9 credits) in applied history

Students choose from courses from HIST 689 - 697. These include courses in historic preservation, museum studies, archives, historical editing, or new media and information technology.

3 or 6 credits of internship

If students chose to do a 3-credit internship, they will take an additional 3 credits in applied history course work.

- HIST 794 - Internship in Applied History Credits: 3-6

Proficiency in a relevant research tool

- Demonstrated by course work or exam in computers, statistics, or a modern foreign language

Total: 30 credits

▲ Concentration in Applied History with New Media and Information Technology

Emphasis (AH4, EH4, WH4)

One required course (3 credits) taken within the first 9 credits:

- HIST 610 - The Study and Writing of History Credits: 3
Four courses (12 credits) in a specialization:

- Specialization in U.S. history (at least 3 credits from each group):
  - Origins to 1861
  - 1861–1914
  - 1914 World War I to the present
- Specialization in European history (at least 3 credits from each group):
  - Ancient, medieval, early modern to 1789
  - 1789–1914
  - 1914 to the present
- Specialization in world history (at least 3 credits from two regions):
  - Africa
  - Asia
  - Middle East
  - Latin America

One research seminar (3 credits) in a specialization:

- HIST 711 - Research Seminar in U.S. History Credits: 3
- HIST 731 - Research Seminar in European History Credits: 3
- HIST 751 - Research Seminar in Comparative World History Credits: 3

Two courses (6 credits) in new media and information technology

Students should consult the department for relevant courses.

3 or 6 credits of internship in information technology

If students chose to do a 3-credit internship, they will take an additional 3 credits in applied history course work.

- HIST 794 - Internship in Applied History Credits: 3-6

Proficiency in a relevant research tool

- Demonstrated by course work or exam in computer science, statistics, information technology, or a modern foreign language

Total: 30 credits

▲ Concentration in Enrichment (AH3, EH3, WH3)
This concentration is for students who want to study history for intellectual self-fulfillment or vocational reasons. It allows more flexibility in the selection of courses and does not have a foreign language requirement.

One required course (3 credits) taken within the first 9 credits:

- HIST 610 - The Study and Writing of History Credits: 3

Four courses (12 credits) in a specialization:

- Specialization in U.S. history (at least 3 credits from each group):
  - Origins to 1861
  - 1861–1914
  - 1914 World War I to the present
- Specialization in European history (at least 3 credits from each group):
  - Ancient, medieval, early modern to 1789
  - 1789–1914
  - 1914 to the present
- Specialization in world history (at least 3 credits from two regions):
  - Africa
  - Asia
  - Middle East
  - Latin America

One research seminar (3 credits) in a specialization:

- HIST 711 - Research Seminar in U.S. History Credits: 3
- HIST 731 - Research Seminar in European History Credits: 3
- HIST 751 - Research Seminar in Comparative World History Credits: 3

Four elective courses (12 credits)

Students may optionally do a thesis HIST 799 (6 credits). Students who choose this option complete only 6 credits of electives.

Total: 30 credits

▲ Concentration in Teaching (HS4)

This concentration is intended for students already licensed for teaching or seeking licensure. Although it includes course work in history and education, completion of this concentration alone is not sufficient to qualify for licensure. A licensure program is offered by the College of Education and Human Development (CEHD), and admission is limited. Students are advised to consult with CEHD for specific requirements regarding licensure.

One required course (3 credits) taken within the first 9 credits:
• HIST 610 - The Study and Writing of History Credits: 3

Six courses (18 credits) in history

• Choose at least one course (3 credits) each from U.S., European, and world history

One research seminar (3 credits) chosen from:

• HIST 711 - Research Seminar in U.S. History Credits: 3
• HIST 731 - Research Seminar in European History Credits: 3
• HIST 751 - Research Seminar in Comparative World History Credits: 3

Four courses (12 credits) in graduate education courses, including:

• EDCI 567 - Teaching Social Studies in the Secondary School Credits: 3

Total: 36 credits

Doctoral Degree

History, PhD

Banner Code: LA-PHD-HIST

Web: historyarthistory.gmu.edu

The PhD in history prepares students for careers in college teaching, digital media, publishing, educational administration, public history, and historical research. Students gain expertise in conventional historical methods and web-based technologies. Major fields include U.S. history, European history, and world history; minor fields are chosen by the student and may include such areas as public history, constitutional studies, and new media and information technology.

Depending on career goals and interests, students can also focus their degrees in one of four areas:

College and university teaching: This emphasis is for students who are seeking a career in teaching or research at the community college, college, or university level.

New media and information technology: Although all students in the program take some courses in new media, students in this emphasis seek careers specifically in new media (publishing, education, or a college or university history department where they would serve as the department’s lead person in new media and information technology). This emphasis requires more advanced work in new media than any other.

Public and applied history: This emphasis prepares students for work in applied areas of history, such as museums, archives, federal government work, preservation, and editing, or helps students already working in those areas to advance. In some cases,
students will do advanced course work in their field of work; in other cases, they will acquire knowledge or skills that will foster their professional work (such as nonprofit management).

**Professional development:** This emphasis responds to the needs of students who have already launched a career and want a doctoral degree to further career goals or fulfill personal intellectual goals. Candidates who need flexible scheduling will be advised on a case-by-case basis.

This program of study is offered by the Department of History and Art History.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

**Application Requirements**

All applicants for graduate study must satisfy admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. In addition applicants to the doctoral program in history should submit the following:

- Three letters of recommendation from professional colleagues or academic mentors
- GRE score
- Goals statement that explains the applicant’s academic credentials, professional background, intellectual interest in the doctoral program in history, and ultimate career goals
- Writing sample consisting of a history essay, research paper, or professional paper

**Reduction of Credit**

For students entering the doctoral program with a master’s degree, the number of required credits may be reduced by a maximum of 30 credits, subject to approval of the program faculty and the dean. Requests for reduction of credit are reviewed only after acceptance to the doctoral program.

**Degree Requirements**

Students pursuing this degree must complete a minimum of 72 graduate credits. Students will be terminated from the program if they receive more than one unsatisfactory grade (C or F). No more than 6 credits earned through study abroad courses may be applied towards the degree.

In addition to core courses, students must complete course work in a major field of study and two minor fields; pass a comprehensive exam; and complete a dissertation. The dissertation demonstrates mastery of the subject matter, methodologies, and conceptual foundations in the chosen field of study. This requirement is generally achieved through consideration of a problem on the boundaries of knowledge in the discipline.

**Six core courses (21 credits):**

- HIST 610 - The Study and Writing of History Credits: 3
- HIST 696 - Clio Wired: An Introduction to History and New Media Credits: 3
- HIST 697 - Creating History in New Media Credits: 3
- HIST 810 - History Doctoral Colloquium Credits: 1 (Students take 1 credit a semester for a total of 6 credits.)
- HIST 811 - Doctoral Research Seminar Credits: 3

and one seminar course chosen from:
Major field (15 credits)

Students take courses in one of three possible fields: U.S. history, European history, comparative world history.

Minor fields (18 credits)

Students choose two minor fields and take 9 credits in each. Minor fields may include areas such as public history, constitutional studies, and new media and information technology.

Doctoral research skills

Students must demonstrate basic competency in computers. Students whose research requires knowledge of a foreign language must also demonstrate a reading knowledge of one foreign language. The department sets specific research skills requirements for students, depending on their field of study.

Comprehensive exam

Students need to pass a comprehensive exam that consists of a written field exam for each minor field and an oral exam for the major field.

Dissertation

Once enrolled in 998, students must maintain continuous registration in 998 or 999 each semester until the dissertation is submitted to and accepted by University Libraries. Once enrolled in 999, students must follow the university continuous registration policy as specified in the Academic Policies chapter of the catalog.

- HIST 998 - Doctoral Dissertation Proposal Credits: 1-6 (3 credits minimum; 6 credits maximum)
- HIST 999 - Doctoral Dissertation Research Credits: 1-12 (15 credits)

Total: 72 credits

Advancement to Candidacy

To advance to candidacy, students must complete all course work required on their approved program of study. Students must also successfully complete and pass an oral comprehensive exam in a major field and written examinations in two minor fields. In addition, students must have a dissertation committee appointed by the Dean’s Office as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean’s Office before a student can be advanced to candidacy.

■ Honors Program in General Education
Faculty

Honors students have the opportunity to study with some of Mason’s most accomplished teachers and scholars from disciplines across the university, including Mason’s Robinson Professors.

Course Work

The program offers all course work designated HNRS in the Courses chapter of this catalog.

Honors Program

The Honors Program is the academic program of the Mason's Honors College (described in the University Academic Programs and Resources section of this catalog), which provides talented students in all majors with an enriched academic and social environment that enhances their college experience.

The Honors Program offers a unique selection of integrated courses designed for highly motivated students and taught by many of Mason’s most experienced teachers and accomplished scholars. Taken together, these courses satisfy the general education requirements in social sciences and humanities for all colleges and majors in the university. Because most honors classes have fewer than 25 students, honors students have the opportunity to be known and mentored by distinguished faculty during their first years on campus. The track in science, technology, engineering, economics, and mathematics offers honors sections of first-year courses in these disciplines, as well.

The Honors Program also offers students special access to the technical, intellectual, and artistic resources of the university and the national capital region. It seeks to develop among its students a sense of intellectual community and a commitment to lifelong learning.

Admission

Admission is limited and competitive. Students apply to the Honors Program when applying to Mason by selecting the box that indicates they are interested in the Honors Program and by completing an additional essay question. If the application meets the criteria for admission to the Honors Program, the applicant will receive an invitation to the program shortly after receiving the acceptance letter to the university.

Applicants are evaluated on the strength of their entire academic record, including the rigor of the high school curriculum, GPA, and standardized test scores. Students are allowed to use AP, IB, and dual-enrollment credit taken before admission to Mason to substitute for many HNRS courses, excluding HNRS 110 and HRNS 353.

Requirements

The core of the honors curriculum is designed to satisfy the university general education requirements through a small number of interdisciplinary courses, allowing students increased opportunities to pursue minors or other individual interests. Students then have a choice of two tracks, determined by their majors and degrees. The STEM track is designed for most students pursuing a bachelor of science degree in science, technology, engineering, economics, or mathematics. The Liberal Arts and Social Sciences (LASS) track is for students pursuing a bachelor of arts degree, who have additional college level requirements.
To receive honors in general education on their transcript, students must earn a minimum GPA of 3.00 in HNRS courses and supporting courses required for their approved honors program. Students whose cumulative GPA falls below 3.00 may complete the program but will not receive honors recognition on their transcripts.

**Continuation in Honors**

Students in the program who are placed on academic warning because their GPA falls below 2.00 (1.80 in the first or second semester) may be ineligible to continue in the program.

Honors students are expected to maintain high standards of academic integrity and personal conduct. Students may be asked to withdraw from the program for a violation of the University Honor Code or any other conduct that reflects adversely on the Honors Program.

Students who leave the program before completion must meet university general education requirements and college-level requirements for their particular degree programs. On leaving the program and before registering for general education courses, students should be advised in their major program on equivalencies between the honors courses they have completed and general education requirements.

**Transfer of Honors Credits**

*Within George Mason:* Because of the sequential and integrated nature of the program, honors courses may not correspond exactly to other courses used to fulfill general education requirements. A list of equivalencies is available in the Honors Program Office and on the web site.

*Outside George Mason:* Course work in the Honors Program may meet the general education requirements of other universities. As in all transfer situations, general education requirements of one institution may not precisely match those of another.

### Individualized Study

Phone: 703-993-4556  
Web: bis.gmu.edu

**Administration**

Jeannie Brown Leonard (Director)

**Course Work**

The program offers all course work designated BIS in the Courses chapter of this catalog.

**Undergraduate Program**

The bachelor of individualized study (BIS) provides an alternative to the traditional baccalaureate degree. It offers students a distinctive educational opportunity that allows them to integrate previous experiences into university course work. Recognizing that college-level learning may be acquired through varied professional, military, and personal experience, the Individualized Study Program provides mechanisms for translating experiential learning into academic credit. It accepts transfer credits from traditional institutions of higher education, as well as credits earned through other appropriate means.
In this degree program, most students design their own individualized interdisciplinary program of study. Other students who are interested in early childhood education and who meet specific eligibility requirements can pursue a more prescribed curriculum that leads to a concentration in early childhood education studies.

Eligibility

Applicants for an individualized study degree must have completed high school at least seven years prior to admission to the program and have accumulated at least 30 college-level credits, 15 of which must have been earned through conventional classroom instruction. They should have a minimum GPA of 2.50 in their previous course work. The concentration in early childhood education studies is an exception to the seven-year time limit.

Application and Admission

Students who are interested in the bachelor of individualized study degree must attend an information session. In addition to applying to Mason through the Office of Admissions, they need to apply separately to the BIS Program. The schedule of BIS information sessions and the BIS application are available on the BIS Program web site.

Honors in the Major

Highly qualified students may apply to graduate with honors in the major. Students should apply the semester before they intend to enroll in BIS 390 - The Research Process. If accepted, students must complete BIS 391 - The Research Process for Honors in place of BIS 390 and an individualized section of BIS 490. To graduate with honors in the major, students must complete these two courses with a minimum GPA of 3.5, maintain a minimum cumulative GPA of 3.75, and successfully present their research during the Senior Capstone Project presentations.

Credit for Nontraditional Modes of Learning

The BIS program allows students to receive college credit for learning acquired through a variety of nontraditional methods indicated below. The maximum allowable credits are indicated for each category.

1. Nationally recognized exam programs such as the College Level Examination Program (CLEP) when the particular exam has been approved for Mason credit. For an approved list, go to admissions.gmu.edu/exams/ExamCLEP.asp. A maximum of 45 maximum credits can be earned through exams.

2. Certain university approved industry, government, or military training credits if such credits are indexed and recommended as college-level credit by the American Council on Education (ACE). To be eligible for Mason credit, training and course specifics must exactly match what is in the ACE guide and be approved for Mason credit. The specific credits must also be approved by the program director and the dean. A maximum of 45 maximum credits can be earned through ACE-approved training. A maximum of 60 total combined credits can be accepted for exams and ACE-approved training. For example, if 45 credits are accepted by ACE-approved training, a maximum of 15 credits can be accepted for exams.

3. Experiential learning demonstrated by portfolios subject to approval by the program director and the dean (30 maximum credits).

4. College-level credit earned at institutions accredited by bodies other than recognized regional accrediting organizations subject to approval by the program director and the dean. These credits can only be considered if the institution is listed in Accredited Institutions of Postsecondary Education published by ACE (30 maximum credits).

Students may not pursue credit for options 1, 2, and 4 once they have matriculated at Mason. They must complete the third option within their first 30 credits after matriculation. Although the types of credit noted above may be applied to a bachelor of individualized study degree, if a BIS student changes majors, credit awarded in these ways cannot be used toward other majors. These nontraditional credits are not transferable to other degree programs at Mason.
Bachelor’s/Accelerated Master’s Program

The program offers highly qualified undergraduates the opportunity to apply to an accelerated master’s degree program in telecommunications. If accepted, students will be able to earn both an undergraduate and a graduate degree after satisfactory completion of 144 credits.

Undergraduate Degree

Individualized Study, BIS

Banner Code: LA-BIS-INDV

Web: bis.gmu.edu

Students pursuing a bachelor of individualized study must meet the baccalaureate degree requirements for all undergraduates: they need to complete 120 credits with 45 credits above the 300 level and at least 30 credits at Mason. Like all students, BIS students must complete university general education requirements.

Students in the BIS program meet a modified general education program of 33 credits: 6 credits in English composition (ENG 101 and ENG 302), 9 credits in humanities, 9 credits in social sciences, 3 credits in MATH or STAT (MATH 106 or STAT 250), 3 credits in course work in information technology, and 3 credits in a lab or non-lab natural science. They complete the university synthesis requirement by completing BIS 490. Students pursuing the concentration in early childhood education studies meet general education requirements as specified in the articulation agreement between NVCC and Mason: they complete 18 credits through NVCC coursework (lower level written communication (ENGL 101), oral communication (COMM 100), 6 credits of social sciences, MATH or STAT, and information technology) and 18-19 credits at Mason (upper level written communication (ENGL 302), 3 or 4 credits of natural science, 6 credits of humanities (including 3 credits of arts), 3 credits of social science, and 3 credits in synthesis (BIS 490).

This program of study is offered by the Individualized Study Program.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements

Students pursuing an bachelor of individualized study degree must complete four required courses and one concentration.

All BIS students are encouraged to pursue a minor. For students pursuing the individualized study concentration, 15 credits of the minor must be applied uniquely to the minor and not to the concentration. For students pursuing the concentration in early childhood studies, the minor is required and included in the credits applied to the concentration.

Four core courses (10 credits)

Students must complete each of the four core courses with a minimum grade of 2.00.

In BIS 390 (or 391 for students pursuing honors in the major), students develop a project proposal. An approved proposal from BIS 390 or 391 is a prerequisite to enroll in BIS 490.

In BIS 490, students complete a senior capstone project that varies according to the individual program of study. It may be an investigative or creative project, and it must be appropriate to the student’s interdisciplinary concentration. BIS 490 requires
significant writing and fulfills the university general education synthesis requirement. The project is evaluated by the BIS 490 instructor in consultation with the student’s faculty mentor and others as determined by the BIS director.

BIS 490 and BIS 491 are taken concurrently when no more than 6 credits remain in the concentration.

The core courses:

- BIS 300 - Understanding Interdisciplinary Studies Credits: 3
- BIS 390 - The Research Process Credits: 3
- BIS 391 - The Research Process for Honors Credits: 3
- BIS 490 - Senior Project Credits: 3
- BIS 491 - Senior Project Presentation Credits: 1

One concentration

Students must complete one concentration of 24-36 credits. Of the credits applied to the concentration, at least 15 credits must be at the 300 level or above and a maximum of 6 credits can have grades of C- or D (grades below 2.00). The total credits applied to the concentration must represent a minimum GPA of 2.00.

Courses applied to a concentration may not also be used to fulfill general education requirements.

▲ Individualized Concentration (IND)

Students may choose to do an individualized concentration to meet their own academic needs and interests. The concentration is developed in close consultation with BIS staff and a faculty mentor. Students may incorporate into their individualized concentrations up to 9 credits of previously earned college course work and nontraditional credit from other institutions. In addition to the 4 core courses, students doing this concentration complete between 24 and 36 credits, depending on the topic and the student's preparation.

24 to 36 credits from a minimum of two disciplines

Students are encouraged to include BIS 489 - Directed Readings and Research in the concentration and complete it before taking BIS 490.

▲ Concentration in Early Childhood Education Studies (ECES)

This concentration offers students holding a Northern Virginia Community College associate’s degree in applied science in early childhood development the opportunity to obtain a BIS in early childhood education studies and a minor in business. This concentration does not lead to teacher licensure in early childhood education. To receive this concentration, students complete 34 credits beyond the associates degree (in addition to the 4 core BIS courses and general education requirements).

Admission Requirements

Students are guaranteed admission to Mason and this BIS concentration if they have achieved the GPA stipulated in the Mason/NVCC general articulation agreement and completed all requirements for an associate’s degree in applied science in early childhood development as stipulated in the articulation agreement for early childhood education studies. Unlike the individualized
concentration, there is no restriction regarding number of years since high school graduation for admission into this BIS concentration.

19 credits of interdisciplinary courses

One course (3 credits) in human growth and development

- EDUC 302 - Human Growth and Development Credits: 3

One course (3 credits) focused on diverse young learners chosen from:

- EDUT 413 - Foundations of Language and Literacy for Diverse Young Learners Credits: 3
- EDUT 414 - Curriculum and Instruction for Diverse Young Learners Credits: 3

One course (3 credits) in linguistic development of infants and toddlers chosen from:

- EDUT 423 - Developing Language, Literacy, and Communication in Diverse Young Children Credits: 3
- EDUT 424 - Culturally, Linguistically, and Developmentally Appropriate Practices with Infants, Toddlers, and their Families Credits: 3

One course (4 credits) in research methods chosen from

- GOVT 300 - Research Methods and Analysis Credits: 4
- SOCI 303 - Sociological Research Methodology Credits: 4

6 credits of electives at the 300-400-level

- Students chose 6 credits of electives relevant to the concentration in consultation with their faculty mentor.

Five courses (15 credits) leading to a minor in business

- MSOM 300 - Managing Financial Resources Credits: 3
- MSOM 301 - Managing People and Organizations Credits: 3
- MSOM 303 - Marketing in a Global Economy Credits: 3
- MSOM 304 - Entrepreneurship: Starting and Managing a New Enterprise Credits: 3
- MSOM 305 - Managing in a Global Economy Credits: 3

Note:
Students may petition to substitute another minor relevant to early childhood studies. A substitution requires the approval of the program director.

Total: 34-46 credits

Bachelor's/Accelerated Master's Program

Individualized Study, BIS/Telecommunications, Accelerated MS

Students who are in the Bachelor of Individualized Study (BIS) Program may elect to enter an Accelerated MS in TCOM Program while they are undergraduate students. The accelerated program is designed for qualified undergraduate students in the BIS Program who would like to proceed directly into the MS in TCOM Program, completing the two degrees with 144 credits. Accelerated students must satisfy requirements for the BIS (including 120 credits) and the MS (30 credits), with 6 credits of overlap permitted. The MS in TCOM is on an accelerated track, with 6 credits taken as an undergraduate and 24 credits as a graduate student. The 6 undergraduate credits must be selected from those given in the table that follows and will be substituted for BIS concentration courses, subject to prior approval by a BIS advisor. Note: Accelerated students must take ECE 301 or 303 as one of their BIS concentration courses.

Applicants must be Mason undergraduate students in the BIS Program. Students may apply for the accelerated program during the semester after which they will have completed 90 or more credits and 15 Mason resident credits applicable toward the BIS as an undergraduate. Students must have an overall GPA of at least 3.25 to apply for the program. Students who have not yet finished 90 credits may be accepted provisionally subject to satisfactory completion of 90 credits. Criteria for admission are identical to criteria for admission into the MS in TCOM Program, except that students do not need to have completed an undergraduate degree prior to acceptance into the accelerated program.

Students who have been accepted into the accelerated program must maintain a minimum 3.25 GPA in the undergraduate segment of the accelerated program and a 3.00 GPA in the graduate segment. That is, after students have been accepted into the accelerated program, they must maintain a 3.25 GPA until they have satisfied all requirements for the BIS degree. They must then maintain a minimum 3.00 GPA in the graduate segment of the accelerated program.

Students must complete all requirements for the BIS degree. Students in the accelerated program must apply to have the BIS degree conferred the semester before they expect to complete BIS requirements, and must graduate. The MS in TCOM is granted on completion of all requirements for the accelerated degree.

TCOM courses that may be taken by a BIS undergraduate student as part of the accelerated program are given in the table below. Note: All of the prerequisite courses indicated below must be passed with a grade of B or higher.

Degree Requirements

Telecommunications courses:
• TCOM 500 - Modern Telecommunications Credits: 3
• TCOM 501 - Data Communications and Local Area Networks Credits: 1.5 (prerequisite: acceptance to accelerated program)
• TCOM 502 - Wide Area Networks and Internet Credits: 1.5 (prerequisites: TCOM 501, IT 341, or equivalent)
• TCOM 503 - Fiber Optic Communications Credits: 1.5 (prerequisite: TCOM 500 or equivalent)
• TCOM 504 - Asynchronous Transfer Mode Networks Credits: 1.5 (prerequisites: TCOM 501 and 502, IT 341, or equivalent)
• TCOM 505 - Networked Multicomputer Systems Credits: 1.5 (prerequisites: TCOM 501, IT 341, or equivalent)
• TCOM 509 - Internet Protocols Credits: 1.5 (prerequisites: TCOM 501 and 502, IT 341, or equivalent)
• TCOM 510 - Client-Server Architectures and Applications Credits: 1.5 (prerequisite: TCOM 505)
• TCOM 513 - Optical Communications Networks Credits: 1.5 (prerequisite: TCOM 503)
• TCOM 519 - Voice over IP Credits: 1.5 (prerequisites: TCOM 509, IT 341, or equivalent)
• TCOM 529 - Advanced Internet Protocols Credits: 1.5 (prerequisite: TCOM 509)
• TCOM 539 - Advanced Voice over IP Credits: 1.5 (prerequisite: TCOM 519)
• TCOM 551 - Digital Communication Systems Credits: 3 (prerequisite: TCOM 500 or equivalent)
• TCOM 607 - Satellite Communications Credits: 3 (prerequisites: ECE 463, TCOM 551, or equivalent)

Note:

Accelerated students who have passed IT 341 with a grade of B or higher will not be required to take TCOM 501 in the MS in TCOM core. They may take a 1.5-credit elective instead. Other TCOM courses may be approved on a case by-case basis.

BIS Concentration: 34-46 credits

• Additional 500-level TCOM course (3)
• Plus an additional 9 to 21 credits to reach required number.
• BIS 300 - Understanding Interdisciplinary Studies Credits: 3
• BIS 390 - The Research Process Credits: 3
• BIS 490 - Senior Project Credits: 3
• BIS 491 - Senior Project Presentation Credits: 1
• ECE 301 - Digital Electronics Credits: 3
  or
• ECE 303 - Digital Design/Intro Assembly Language Credits: 4
• IT 212 - Computer Hardware Fundamentals Credits: 3
• IT 341 - Data Communications and Network Principles Credits: 3
• TCOM 500 - Modern Telecommunications Credits: 3

■ Interdisciplinary Studies

Phone: 703-993-8762
Web: mais.gmu.edu

Executive Committee
Course Work

This program offers the courses designated MAIS in the Courses chapter of this catalog. Students in this degree take most of their courses in the disciplines that they integrate as part of their degree program.

Graduate Programs

The master's degree program in interdisciplinary studies (MAIS) is designed for students who seek a degree that integrates knowledge from several disciplines. It addresses a rapidly evolving demand for specialized and individualized graduate study. Students choose one of eight structured concentrations or devise an individualized program of study when traditional degree programs do not meet their evolving careers or life goals.

The degree requires course work from a home department and selected courses from other disciplines. Students complete their degrees with a project or thesis.

Concentrations

Students pursuing a master's degree program in interdisciplinary studies can choose a concentration in community college teaching or higher education, both sponsored by the Higher Education Program. They can do a concentration in folklore, sponsored by the faculty in English; a concentration in neuroethics, sponsored by the Philosophy Department; or a concentration in religion, culture, and values, sponsored by Religious Studies. The concentration in video-based production is sponsored by the Communication Department, the concentration in women and gender studies is sponsored by the Women and Gender Studies Program, and the concentration in zoo and aquarium leadership is sponsored by New Century College.

For a variety of reasons, traditional graduate programs are not able to meet the specific educational goals of some students. They can choose an individualized concentration. With the help of a faculty advisor, they design an individualized program of study that includes courses from several academic disciplines.

Master's Degree

Interdisciplinary Studies, MAIS

Banner Code: LA-MAIS-ISIN

Web: mais.gmu.edu

The MA in interdisciplinary studies is for students who seek a master's degree that integrates knowledge from several disciplines. It addresses the rapidly evolving demand for unique graduate study by promoting advanced scholarship that transcends traditional disciplinary boundaries.

Students can pursue one of the following structured interdisciplinary concentrations:

- Community college teaching (in communication, English, information systems, math, Spanish, or TESL)
- Folklore
- Higher education (administration or student affairs)
Students also have the opportunity to design an individualized concentration to meet the special needs of their careers.

Individualized studies
This program of study is offered by the Interdisciplinary Studies Program.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants must show a capacity for original thought in cross disciplinary research and must meet George Mason admission standards and application requirements for graduate study. See the Admission chapter of this catalog. Additional requirements may vary by concentration. Students will be admitted only if the program can assign to them a faculty advisor appropriate for the intended course of study.

Degree Requirements

Students pursuing this degree must successfully complete 36 credits of graduate course work in one of the concentrations below. Students must submit a curriculum contract that has been approved by their faculty adviser and the director.

Courses applied to the degree are subject to the following restrictions: a maximum of 6 credits may be earned through independent study or directed readings and research courses; a maximum of 6 credits may be taken through the Consortium of Universities of the Washington Metropolitan Area; a maximum of 15 credits may be transfer credits; a maximum of 6 of the transfer credits may be from other accredited institutions (12 for students in the zoo and aquarium leadership concentration).

Transfer credits include credits taken before first enrolling as an admitted degree-seeking student (at another institution, in another Mason graduate program, or in Mason nondegree status) or credits taken at another institution after admission to the degree program (which requires prior written approval of the director and the dean).

All students complete their work in the program with a project or thesis. Students admitted under this catalog are required to take MAIS 797 Proposal (1 credit) and either MAIS 798 Project (2–5 credits) or MAIS 799 Thesis (5 credits).

▲ Concentration in Community College Teaching (CCT)

This concentration qualifies students to teach entry-level courses in rapidly growing fields at in community colleges. In addition, it may be an appropriate graduate credential for some faculty currently teaching in community colleges.

Four required courses (12 credits) in college teaching:

- CTCH 601 - The Community College Credits: 3
- CTCH 602 - College Teaching Credits: 3
- CTCH 603 - Technology in Higher Education Credits: 3
- CTCH 685 - Practicum Credits: 3

Seven required courses (21 credits) in a knowledge area:
Communication

Four core courses (12 credits):

- COMM 602 - Theories and Research of Mass Communication Credits: 3
  or
- COMM 634 - Theories of Interpersonal Communication Credits: 3
- COMM 605 - Intercultural Communication Credits: 3
  or
- COMM 635 - Organizational Communication Credits: 3
- COMM 650 - Research Methodologies in Communication Credits: 3
- COMM 653 - Graduate Communication: Research and Teaching Credits: 3

Three elective courses (9 credits):

Electives are chosen from graduate-level communication courses in consultation with a faculty advisor. They may include core courses listed above not that are not use to meet the 12 credit requirement.

English

Two to three core courses (6-9 credits):

- ENGL 701 - Research in English Studies Credits: 3
- ENGL 610 - Proseminar in Teaching the Reading of Literature Credits: 3
  and/or
- ENGL 615 - Proseminar in Composition Instruction Credits: 3

Four to five elective courses (12-15 credits):

Electives are chosen from graduate-level English courses in consultation with a faculty advisor.

Information Systems
Three core courses (9 credits):

- INFS 515 - Computer Organization Credits: 3
- INFS 612 - Principles and Practices of Communication Networks Credits: 3
- INFS 614 - Database Management Credits: 3

Four elective courses (12 credits):

Electives must be graduate-level INFS or INFS-related courses chosen in consultation with a faculty advisor.

Mathematics

Two core courses (6 credits):

- MATH 621 - Algebra I Credits: 3
- MATH 675 - Linear Analysis I Credits: 3

Five elective courses (15 credits):

Electives are from graduate-level courses in mathematics and related disciplines (including statistics) chosen in consultation with a faculty advisor.

Spanish

Three core courses (9 credits):

- SPAN 502 - Hispanic Sociolinguistics Credits: 3
- SPAN 505 - Applied Spanish Stylistics Credits: 3
- SPAN 510 - Introduction to the Graduate Study of Literature in Spanish Credits: 3

Four elective courses (12 credits):

At least three elective courses (9 credits) must be graduate-level SPAN courses; one (3 credits) may be a graduate-level FRLN course. Electives should be chosen in consultation with a faculty advisor.

Teaching English as a Second Language
Six core courses (18 credits):

- LING 520 - Introduction to Linguistics Credits: 3
- LING 521 - Applied Linguistics: Teaching English as a Second Language Credits: 3
  or
- LING 507 - Field Work in Applied Linguistics Credits: 3
- LING 522 - Modern English Grammar Credits: 3
- LING 523 - English Phonetics Credits: 3
- LING 525 - Practicum in ESL Credits: 3
- LING 582 - Second Language Acquisition Credits: 3

One elective course (3 credits):

Elective should be from graduate-level courses in linguistics or a related area chosen in consultation with a faculty advisor.

Proposal (1 credit):

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (2 credits):

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5

Total: 36 credits

▲ Concentration in Folklore (FLK)

This concentration explores the processes of tradition that move through multiple expressive forms, such as folktales, folk beliefs, folk medicine, folk art, folksong, and literature. A discipline based on ethnographic fieldwork, folklore offers students a chance to work in communities and collect living traditional materials that are critical to human identity and values. Interdisciplinary by nature, folklore thrives on local particularities and compelling global connections. Internships in the many Washington, D.C., metropolitan area folklore organizations are central to students’ experiences. This course of study prepares students for careers in cultural agencies, governmental organizations, and teaching institutions, and advanced study in the humanities.

Students pursuing this concentration must complete at least 6 credits of courses from outside the English Department.

Six core courses (18 credits):
Special topics in folklore (9 credits) chosen from:

Courses may be repeated.

- ENGL 590 - Topics in Folk Narrative Credits: 3
- ENGL 591 - Topics in Folklore Studies Credits: 3
- ENGL 681 - Advanced Topics in Folklore Studies Credits: 3
- ENGL 798 - Directed Reading and Research Credits: 1-6

Pathways in folklore scholarship (3 credits)

- ENGL 681 - Advanced Topics in Folklore Studies Credits: 3 (when topic is Pathways to Folklore Scholarship)

Internship in folklore (3 credits)

- ENGL 604 - Internship in Folklore Credits: 1-6

Research methodology course (3 credits) chosen from:

- ENGL 701 - Research in English Studies Credits: 3
- HIST 610 - The Study and Writing of History Credits: 3
- SOCI 634 - Qualitative Research Methods Credits: 3

Specialization (9 credits):

Students choose an area of specialization which must be approved by a faculty advisor. Specialization topics include public folklore (museums, archives, arts and humanities councils, and nonprofit organizations); folklore (ethnicity and immigration); folklore and literature; folklore and the teaching of writing and literature; folklore and history; and folklore and conflict resolution. Students also can opt for open specialization, with courses chosen in consultation with advisor. Possibilities include folklore and editing, applied storytelling, folklore and mythology, folklore and art history, folklore and gender studies, and folklore and communication.

One to two elective courses (3 to 6 credits):

Electives require the prior written approval of a faculty advisor.

Proposal (1 credit):

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1
Project (2-5 credits) or thesis (5 credits):

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5
  or
- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5

Total: 36 credits

▲ Concentration in Higher Education (HEDU)

This concentration prepares individuals for administrative and leadership positions in colleges and universities, associations, and government agencies whose activities affect higher education. Within the concentration, students may choose to emphasize administration or student affairs.

Four core courses (12 credits)

One course (3 credits) chosen from:

- CTCH 621 - Higher Education in the United States Credits: 3
- CTCH 601 - The Community College Credits: 3

Three additional core courses (9 credits)

Students choose relevant courses in consultation with an advisor.

One course (3 credits) of research methodology

One course (3 credits) of specialization:

- CTCH 622 - Organization and Administration in Higher Education Credits: 3
  or
- CTCH 644 - Student Services in Higher Education Credits: 3

Three to four elective courses (9-12 credits)
Students chose electives in consultation with their advisor. The number of elective credits will vary depending on the number of project credits.

Practicum (3 credits):

- CTCH 685 - Practicum Credits: 3

Proposal (1 credit):

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (2-5 credits) or thesis (5 credits)

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5
  or
- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5

Total: 36 credits

▲ Individualized Concentration (IND)

This concentration is for students who wish to design a graduate program to meet the special needs of their careers and life plans. Students usually choose this option because traditional graduate programs do not meet their specific goals. Students, with help from their faculty advisor, design a unique program of study that includes courses from several academic departments.

Students have access to most graduate courses offered by Mason but must meet all course prerequisites. Each student must submit a curriculum contract approved by the student's advisor and director during the first semester enrolled. Any subsequent amendments must have the approval of the student's advisor and the director.

Disciplinary focus (12 to 18 credits):

Students must complete minimum of 12 and a maximum of 18 credits in one discipline.

Complementary disciplines (9 to 18 credits):

Students take 9-18 courses in complementary disciplines. These require the approval of faculty advisor and MAIS director.

Research methods (3 credits):

Students take a research methods course approved by faculty advisor and MAIS director.
Proposal (1 credit):

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (2-5 credits) or thesis (5 credits):

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5
  or
- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5

Total: 36 credits

▲ Concentration in Neuroethics (NETH)

The concentration in neuroethics offers students the opportunity to study ethical issues arising from recent scientific and medical advances in conjunction with advanced training in neuroscience. The curriculum helps students develop their skills in critical, analytical, and imaginative thinking and to make well-founded ethical decisions. Students will become familiar with the basic theories of current neuroscience, as well as the philosophical issues raised by these theories.

The degree is intended for students interested in doctoral work in neuroscience, cognitive science, or bioethics. It also can help students who will work on medical and scientific research projects in government or the private sector.

This concentration is offered jointly by the Department of Philosophy and the Neuroscience Program.

Admission to the neuroethics concentration is open to students with undergraduate degrees in any field. All students should have taken the following basic courses in life science and philosophy (or their equivalents) before admission to the program or should complete them shortly thereafter: PHIL 173, BIOL 213, BIOL 482, CHEM 314.

Students without the biology and chemistry pre-requisites can fill these requirements once admitted to the program by taking NEUR 600 and other courses recommended by the concentration director. These courses cannot be applied to degree requirements.

Six core courses (18 credits) in ethics and neuroscience:

- PHIL 640 - History of Ethical Theory Credits: 3
- PHIL 642 - Biomedical Ethics Credits: 3
- PHIL 645 - Research Ethics Credits: 3
- NEUR 741 - Introduction to Neuroimaging Credits: 3
- NEUR 742 - Cognitive Neuroscience Credits: 3
- NEUR 602 - Cellular Neuroscience Credits: 3
12 credits of electives

Students must take at least 3 credits of philosophy and 3 credits of science. Other philosophy or neuroscience courses may be used to meet this requirement with prior written approval of the director of the program.

- PHIL 621 - Philosophy of Science Credits: 3
- PHIL 643 - Environmental Ethics Credits: 3
- PHIL 733 - Current Issues in Cognitive Science Credits: 3
- PSYC 527 - Introduction to Neurobiology Credits: 2
- PSYC 531 - Mammalian Neurobiology Credits: 3
- PSYC 557 - Psychometric Methods Credits: 3
- PSYC 685 - Cognitive Neuroscience Credits: 3
- PSYC 701 - Cognitive Bases of Behavior Credits: 3
- PSYC 702 - Biological Bases of Human Behavior Credits: 3
- BIOL 572 - Human Genetics Credits: 3
- NEUR 702 - Research Methods Credits: 3

Proposal (1 credit)

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project or thesis (5 credits)

Students cap their study of neuroethics by writing a master’s thesis or completing a two-semester project in neuroethics. The project involves student observation and involvement in scientific research, clinical work, or policy setting.

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5
  or
- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5

Total: 36 credits

▲ Concentration in Religion, Culture, and Values (RCV)

This concentration is particularly relevant for students who are interested in careers in law, national and international government, print and media journalism, library sciences, archives and museums, public and social service, teaching, advanced graduate studies, and religious communities and institutions.

Two core courses (6 credits) chosen from:

- RELI 630 - Approaches to the Study of Religion Credits: 3
- RELI 631 - Sacred as Secular in Modern Spirituality Credits: 3
- RELI 632 - World Religions in Conflict and Dialogue Credits: 3
- RELI 635 - World Religions in Transition and Transformation Credits: 3

Two or three courses (6 to 9 credits) in religious studies chosen from:

- RELI 591 - Special Topics in Religious Studies Credits: 3 (may be repeated for credit)
- RELI 633 - Ethical Perspectives of World Religions Credits: 3
- RELI 636 - Religion and the Natural Environment Credits: 3
- RELI 642 - Sacred Language, Scripture, and Culture Credits: 3

One course in research methodology (3 credits) chosen from:

- HIST 610 - The Study and Writing of History Credits: 3
- SOCI 634 - Qualitative Research Methods Credits: 3

Two or three courses in a specialization (6 to 9 credits):

Specialization in religion, culture, and communication:

Students take the course below and one or two other relevant courses chosen in consultation with an advisor.

- COMM 605 - Intercultural Communication Credits: 3

Specialization in religious traditions and conflict analysis and resolution:

- CONF 695 - Selected Topics Credits: 3 (if appropriate)
- CONF 702 - Peace Studies Credits: 3
- CONF 722 - Conflict and Religion Credits: 3

Specialization in religion, culture, and ethics:

- RELI 633 - Ethical Perspectives of World Religions Credits: 3
- PHIL 640 - History of Ethical Theory Credits: 3
- PHIL 643 - Environmental Ethics Credits: 3

Specialization in religion, values, and international politics:

- GOVT 540 - International Relations Credits: 3
- GOVT 741 - Advanced Seminar in International Politics Credits: 3 (if appropriate)
One to four elective courses (3 to 12 credits):

Electives are chosen in consultation with the student’s advisor, bearing in mind the student’s specialization, project, or thesis topic. Any of the courses under the specializations listed above or courses from other disciplines listed below may be used as electives.

- ANTH 535 - Anthropology and the Human Condition: Seminar I Credits: 3
- ANTH 615 - Ritual and Power in Social Life Credits: 3
- ANTH 684 - Independent Study in Sociocultural Anthropology Credits: 1-6
- COMM 605 - Intercultural Communication Credits: 3
- CONF 695 - Selected Topics Credits: 3
- CONF 702 - Peace Studies Credits: 3
- CONF 722 - Conflict and Religion Credits: 3
- EDUC 537 - Foundations of Multicultural Education Credits: 3
- ENGL 591 - Topics in Folklore Studies Credits: 3
- GOVT 540 - International Relations Credits: 3
- GOVT 741 - Advanced Seminar in International Politics Credits: 3
- HIST 510 - Approaches to Modern World History Credits: 3
- PHIL 604 - Augustine and Aquinas Credits: 3
- PHIL 617 - Movements and Issues in the History of Political Philosophy Credits: 3
- PHIL 640 - History of Ethical Theory Credits: 3
- PHIL 643 - Environmental Ethics Credits: 3
- SOCI 614 - Sociology of Culture Credits: 3
- WMST 640 - Women and Global Issues Credits: 3

Proposal (1 credit):

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (2-5 credits) or thesis (5 credits):

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5
  or
- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5

Total: 36 credits

▲ Concentration in Video-Based Production (VBP)
The concentration emphasizes video production and its components including videoconferencing, multimedia, and editing. As low-end, high-quality video equipment becomes more affordable, more organizations (for profit and nonprofit) are investing in in-house production studios and staff. Their needs include traditional videography, videoconferencing, web design, multimedia, and digital editing.

Five academic units offer courses relevant to the concentration: Within the College of Humanities and Social Sciences, the Communication Department offers courses in the theory and practice of video production, and the English Department offers a course in film theory. College of Education and Human Development offers courses in interactive and distance learning, which provide a background for pedagogy and a wide spectrum of interactive skills. Within the College of Visual and Performing Arts, the Art and Visual Technologies Department offers courses on computer-mediated visual applications, including the study of multimedia tools and design, digital and electronic art, animation, and virtual reality, and the Theater Department offers scriptwriting.

Students must have a basic knowledge of video production. Students with little or no video experience must take COMM 590 Seminar in Video Production within the first 9 credits of the program. Students with video experience who wish to waive this requirement must provide a demo reel of their past work.

One required introductory course (3 credits):

This requirement may be waived by the director for students with a video production background. They take an additional 3 credits of electives.

- COMM 590 - Seminar in Communication Credits: 3
  When the topic is video production.

Five required core courses (15 credits):

- COMM 694 - Communication Internship Credits: 3
  Students should take a minimum of 3 credits of COMM 694.
- COMM 697 - Independent Production Credits: 1-3
  Students should take a minimum of 3 credits of COMM 697.
- COMM 655 - Theories of Visual Communication in Telecommunications Credits: 3
  or
- ENGL 670 - Visual Culture: Theories and Histories Credits: 3
- THR 599 - Independent Study Credits: 1-6
  When the topic is scriptwriting.
  or
- EDIT 704 - Instructional Technology Foundations and Theories of Learning Credits: 3
- EDIT 611 - Innovations in Distance Learning Credits: 3
  or
- EDIT 750 - Emerging Educational Technologies Credits: 3

Three to five elective courses (9 to 15 credits):
The number of elective credits will vary depending on whether required introductory course is waived and whether the student chooses to do a 2-credit project or a 5-credit thesis.

- AVT 676 - Sound and Music for Video and Animation Credits: 5
- COMM 590 - Seminar in Communication Credits: 3
- COMM 602 - Theories and Research of Mass Communication Credits: 3
- COMM 636 - Communication Consulting Credits: 3
- COMM 696 - Directed Readings and Research Credits: 1-3
- EDIT 571 - Tools for Visual/Graphic Design Credits: 1-3
- EDIT 572 - Tools for Digital Video and Audio Credits: 1-3
- EDIT 575 - Authoring Tools Credits: 1-3
- EDIT 771 - Introduction to Multimedia/Hypermedia Credits: 1-3
- EDIT 772 - Web-Based Instructional Tools Credits: 1-3
- HIST 697 - Creating History in New Media Credits: 3

Proposal (1 credit):

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (2-5 credits) or thesis (5 credits):

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5
  or
- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5

Total: 36 credits

▲ Concentration in Women and Gender Studies (WGST)

Of the coursework required for this concentration as described below, at least 15 credits must be in courses in women and gender studies and 12-18 credits in courses in a disciplinary focus.

Two core courses (6 credits):

- WMST 630 - Feminist Theories across the Disciplines Credits: 3
- WMST 640 - Women and Global Issues Credits: 3

Disciplinary focus (12 credits)

Students complete 12 credits in one discipline chosen in consultation with a faculty advisor, including 3 credits in a women and gender studies course in the discipline.
Elective courses (9 to 12 credits)

Students must take at least 6 credits in women and gender studies courses that are not part of the disciplinary focus.

Research methods (3 credits)

The research methods course is selected in consultation with an advisor.

Proposal (1 credit):

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (2-5 credits) or thesis (5 credits):

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5
  or
- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5

Total: 36 credits

▲ Concentration in Zoo and Aquarium Leadership (ZAL)

This program prepares students for advanced careers in modern professional zoos and aquariums. The curriculum is designed to enhance relevant social and analytical skills involving critical thinking, problem solving, information technology, and group interaction, as well as to advance necessary skills in leadership and fiscal and personnel management. Students in this program must be members of the Association of Zoos and Aquariums (aza.org).

Students who wish to take a course at another accredited institution and apply the credit to this concentration must receive prior approval from the ZAL program director, the MAIS program director, and the dean.

Four core courses (12 credits):

- PUAD 505 - Introduction to Management of Nonprofits Credits: 3
- NCLC 510 - Institutional Records Keeping Credits: 3
- NCLC 511 - Career Development Credits: 3
- NCLC 520 - Conservation Education Credits: 3

2-3 courses in an area of emphasis (6-9 credits)

Students choose an area of emphasis and appropriate coursework for that emphasis in consultation with an advisor and with the prior written approval of the ZAL director.
Elective courses (12 - 15 credits)

Elective courses should be chosen to enhance the area of emphasis. They are selected in consultation with a faculty advisor and require the written approval of the ZAL director.

Proposal preparation (1 credit)

Students must complete a minimum of 30 credits before enrolling in the proposal preparation course.

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (2 credits)

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5

Total: 36 credits

Latin American Studies

Phone: 703-993-1010
Web: las.gmu.edu

Faculty

Berroa (Modern and Classical Languages), Bristol (History and Art History), Burt (Public and International Affairs), Greet (History and Art History), Karush (History and Art History, director), Leeman (Modern and Classical Languages), Lepore (Dance), Meyer (Economics), Rabin (Modern and Classical Languages), Ramos-Pellicia (Modern and Classical Languages), Seligmann (Sociology and Anthropology), Shutika (English), Vivancos-Pérez (Modern and Classical Languages), Yocom (English)

Course Work

The Latin American Studies Program offers courses designated LAS in the Courses chapter of this catalog. As an interdisciplinary program, Latin American Studies offers many other courses across a range of departments that do not bear the LAS code. For the major and minor, students should consult with the director to determine whether a particular course may be used to fulfill a Latin American studies requirement or elective.

Undergraduate Programs

The bachelor’s degree in Latin American studies presents students with the opportunity to study one of the world’s most diverse and fascinating regions. Contemporary Latin America is the product of a long and turbulent history of conquest, resistance, and
cultural mixing. The result is a rich and unique amalgam of African, indigenous, and European cultures. Understanding these complex societies has never been more crucial than it is today since people of Latin American descent represent more than 13% of the population of the United States. Knowledge of Latin American history, culture, society, and politics is indispensable for anyone who seeks to understand the contemporary United States and its place in the world.

Majors in Latin American studies develop a broad expertise in the region while pursuing an individualized program of study that suits their own particular interests. Student improve their language skills and take courses in many disciplines including anthropology, dance, economics, folklore, geography, government, history, and literature. The course work cumulates in a seminar where students develop a research project under the mentorship of a faculty expert.

**Honors in the Major**

Latin American Studies majors who have completed 75 credits (a minimum of 15 in Latin American Studies, 6 of which must have been taken at Mason) with an overall minimum GPA of 3.50 and a minimum GPA of 3.50 in the major may apply to pursue advanced work leading to graduation with honors in the major. The application consists of a transcript, a recommendation from one member of the LAS faculty, and a brief description of a proposed research project.

Once accepted into the program, students pursuing honors in the major complete a two-course sequence LAS 491 and 499 (an honors section), which must be taken in successive semesters. In this sequence, students complete an advanced research project under the guidance of an faculty member. To graduate with honors in the major, students must earn a minimum GPA of 3.5 in the honors courses.

**Undergraduate Degree**

**Latin American Studies, BA**

**Banner Code: LA-BA-LAS**

Web: las.gmu.edu

This program of study is offered by the Latin American Studies Program.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

**Degree Requirements**

In addition to satisfying university general education requirements and the requirements for a bachelor of arts degree in the College of Humanities and Social Sciences, students pursuing this degree must complete 31 credits in Latin American studies with a minimum GPA of 2.00.

**One required course (1 credit):**

- LAS 100 - Introduction to Latin American Studies Credits: 1

**Two courses (6 credits) in history:**

- HIST 271 - Survey of Latin American History Credits: 3
- HIST 272 - Survey of Latin American History Credits: 3

Two social science courses (6 credits) related to Latin America chosen from:

- ANTH 302 - Peoples and Cultures of Latin America Credits: 3
- ECON 361 - Economic Development of Latin America Credits: 3
- GGS 316 - Geography of Latin America Credits: 3
- GOVT 331 - Government and Politics of Latin America Credits: 3

One humanities course (3 credits) related to Latin America chosen from:

- ENGL 333 - Folklore and Folklife Credits: 3
- SPAN 322 - Introduction to Latin American Culture Credits: 3
- SPAN 325 - Major Hispanic Writers Credits: 3

One seminar course (3 credits):

- LAS 499 - Research Seminar in Latin American Studies Credits: 3

Four elective courses (12 credits) in Latin American studies

Students may satisfy the electives requirement with any course that contains a significant emphasis on Latin America or the culture, politics, sociology, or history of Latinos living in the United States. In addition, students are strongly encouraged to use an internship (LAS 490) or a study-abroad program to fulfill some of these credits. The electives must be approved by the director of the program.

Language requirement

All Latin American studies majors must demonstrate reading, speaking, or writing knowledge of Spanish or Portuguese by exam or achieving a minimum grade of 2.00 in a 300-level course in the language selected. Upper-level Latin American literature or culture courses taught in Spanish or Portuguese may be used to satisfy the electives requirement.

Total: 31 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated "writing intensive" in their major at the 300 level or above. Students majoring in Latin American studies should consult with the director for a course to fulfill this requirement.

Undergraduate Interdisciplinary Minor
Latin American Studies Minor

Banner Code: LAS
Web: las.gmu.edu

Students minoring in Latin American studies must demonstrate reading, speaking, or writing knowledge of Spanish or Portuguese by exam or by achieving a minimum grade of 2.00 in a 300-level course in the language selected.

This program of study is offered by the Latin American Studies Program.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

One course (3 credits) chosen from:

- HIST 271 - Survey of Latin American History Credits: 3
- HIST 272 - Survey of Latin American History Credits: 3
- GOVT 331 - Government and Politics of Latin America Credits: 3

Five elective courses (15 credits) in at least three departments

Students may satisfy the electives with any course that contains a significant emphasis on Latin America or the culture, politics, sociology, or history of Latinos living in the United States. Students should select courses in consultation with the program director.

Total: 18 credits

Minors and Interdisciplinary Minors in Humanities and Social Sciences

The College of Humanities and Social Sciences has 56 minors, some of which are offered jointly with other units in the university. Minors require between 15 and 21 credits, and all but 8 of those credits can be used simultaneously to fill other requirements. The college encourages all students to declare a minor, if they can. A minor can complement the major, enhance career preparation, allow students to develop a secondary area of expertise, or give them a chance to explore a passion.

The college offers two types of minors: disciplinary and interdisciplinary. The coursework for disciplinary minors comes mainly from a single discipline, and they are offered by one of the 10 departments in the college.

Interdisciplinary minors require course work from two or more disciplines and are administered by interdepartmental faculty groups, often including faculty from across the university.
All minors in the college are available to students in any major in the university. For more information, see the College of Humanities and Social Sciences web page on minors.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Disciplinary minors:

- Anthropology
- American Government
- Art History
- Childhood Studies
- Chinese
- Communication
- Consciousness and Transformation
- Criminology, Law and Society
- Economic Systems Design
- Economics
- Electronic Journalism
- English
- French
- German
- History
- International/Comparative Studies
- Latin
- Philosophy
- Psychology
- Public Policy and Management
- Religious Studies
- Russian
- Sociology
- Spanish

Interdisciplinary minors:

- African and African American Studies
- Ancient Mediterranean Art and Archaeology
- Applied Conservation Studies (offered jointly with the College of Science)
- Asia-Pacific Studies
- Classical Studies
- Entrepreneurship Studies
- Film and Media Studies
- Folklore and Mythology
- Global Affairs
- Global Systems
- Immigration Studies
- Islamic Studies
- Japanese Studies
- Judaic Studies
- Latin American Studies
- Leadership
Undergraduate Interdisciplinary Minor

Applied Conservation Studies Minor

Banner Code: CONS

The minor in applied conservation studies is designed for students who wish to augment their academic programs with conservation studies taught in an experiential manner. Grounded in natural science, these interdisciplinary courses combine public policy, sociology, conflict resolution, and global awareness. Students work with Mason faculty and researchers from the Smithsonian National Zoo Smithsonian Conservation Biology Institute.

Students may pursue this minor only as a part of the Smithsonian Mason Semester, a residential program at the Smithsonian Conservation Biology Institute in Front Royal, VA. It is offered jointly by the College of Humanities and Social Sciences and the Department of Environmental Science and Policy in the College of Science.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Five required courses (16 credits)

- CONS 320 - Conservation in Practice Credits: 3
- CONS 401 - Conservation Theory Credits: 3
- CONS 402 - Applied Conservation Credits: 4
- CONS 410 - Human Dimensions in Conservation Credits: 3
- CONS 490 - Integrated Conservation Strategies Credits: 3
Entrepreneurship Studies Minor

Banner Code: ENTS

Faculty: Buffardi, Kelly, Petrik, Rogers, Wagner

Entrepreneurship includes not only the familiar definition aligned with business management—growth-oriented, innovative practice associated with creative, sometimes aggressive management—but also definitions involving social change. Entrepreneurs guided by the latter definition are change agents who seize opportunities others miss in order to improve systems, invent and disseminate new approaches, and advance sustainable solutions. The ultimate goal of these social entrepreneurs is the creation of social value and long-term transformation.

Social entrepreneurs are not content just to give a fish or teach how to fish. They will not rest until they have revolutionized the fishing industry. They set out, in short, to change the world or, at least, a small corner of it. A minor in entrepreneurship studies provides a student with both a liberal arts background in entrepreneurship—its sources of creativity and ethical foundations—as well as the skills to implement change.

The minor is offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Coursework

One required introductory course (1 credit)

- CHSS 310 - Introduction to Entrepreneurship Credits: 1
  Should be taken early on in the minor.

Two required core courses (6 credits)

- MSOM 304 - Entrepreneurship: Starting and Managing a New Enterprise Credits: 3
- PSYC 335 - Psychology of Creativity and Innovation Credits: 3

One elective course (3 credits) in social responsibility and ethics
• PHIL 305 - Business Ethics Credits: 3
• NCLC 375 - Special Topics Credits: 1-18 This course may be applied to the requirements when the topic is ethics and leadership.

One elective course (3 credits)

Other courses may be used to fulfill this requirement with the prior written approval of the director.

• COMM 320 - Business and Professional Communication Credits: 3
• EVPP 480 - Sustainability in Action Credits: 4
• GOVT 358 - Nonprofit Financial Planning Credits: 4
• NCLC 375 - Special Topics Credits: 1-18 This course may be applied to the requirements when the topic is principles of transformative action.
• PSYC 333 - Industrial and Organizational Psychology Credits: 3
• PSYC 435 - Personnel Training and Development: A Psychological Perspective Credits: 3
• PSYC 467 - The Psychology of Working in Groups and Teams Credits: 3

One internship (3 credits)

Students register for an existing internship course, usually in their major, with the plan of work for the internship approved by the director of the minor.

Students who are currently employed may request that the internship requirement be waived on the basis of their job experience. They will be required to complete instead a 3-credit independent study with the director or another faculty member in which they conduct independent research, apply entrepreneurship principles and practices in an analysis of their work place, and produce a final project.

Total: 16 credits

Modern and Classical Languages

Phone: 703-993-1220
Web: mcl.gmu.edu

Faculty

Professors: Gilbert, Ricouart, Winkler

Associate professors: Berroa, Christensen (chair), Goldin, Leeman, Levine, Rabin, Roman-Mendoza, Zhang

Assistant professors: Beck, Carreño-Rodríguez, Markx, Olson, Ramos-Pellicia, So, Vivancos-Perez

Term assistant professors: Balestra, deSouza, Falcon, Fujiwara, Grandes, Quintana, Ruiz-Ross, Salawdeh, Vasilyeva

Term instructors: Chen, Mircea-Pines, Sweet
Course Work

This department offers all course work designated ARAB, CHIN, CLAS, FREN, FRLN, GERM, GREE, ITAL, JAPA, KORE, LATN, RUSS, and SPAN in the Courses chapter of this catalog.

The following courses are offered in English. Knowledge of a foreign language is not required: ARAB 325; CHIN 310, 311, 320, 325, 328; FREN 325, 329; GERM 301, 325; ITAL 325; JAPA 320; RUSS 325, 326, 327, 353, 354; SPAN 321, 322, 325, 329; and all courses with the prefixes CLAS and FRLN.

General Education Requirements

The department offers a number of courses approved to fulfill university general education requirements. See the University General Education chapter of the catalog.

College-Level Requirements

Language courses through the intermediate (200) level can be used to fulfill the college-level requirement in foreign languages for the bachelor of arts degree in the College of Humanities and Social Sciences and the College of Science. Other courses fulfill the college-level requirement in non-Western culture. See the College of Humanities and Social Sciences section of this chapter.

Undergraduate Programs

The department offers a BA in foreign languages with concentrations in French and Spanish.

The concentration in French is designed for students who want to increase their proficiency in French language and culture while learning about the history, politics, and economics of the many French-speaking countries around the world. Students can take a study abroad course or spend a summer in Paris or Quebec, earning credit towards their degree. They can participate in the many French-speaking activities sponsored by Mason's French Club.

The concentration in Spanish enables students to become proficient in speaking, reading, and writing Spanish while learning about Latin American, Latino and Spanish languages practices, literatures, histories, and cultures. Students are encouraged to do an internship or service learning project, where they can draw on their knowledge of Spanish and gain valuable work experience while working for social change in their communities. Students have many opportunities to study Spanish abroad for as little as a week and as long as a semester and at the same time, earn credit toward their degree.

Both concentrations prepare students for teaching careers at the secondary school level, graduate study in languages, and research and professional work in government and private enterprise.

Faculty in the department participate in the interdisciplinary BA in Russian and Eurasian studies.

Foreign Languages with a Second Major

Majors in foreign language are encouraged to complete a second major in another field. Students who want to pursue a second undergraduate major should plan a program of study in consultation with advisors from both degrees and be familiar with the relevant policies on more than one major. See the Academic Policies chapter of the catalog.

Comparative Literature Emphasis
The Department of Modern and Classical Languages participates in the BA in English with an emphasis in comparative literature. This program combines the study of literature in English with the study of one or more foreign literatures and with cross-cultural literary study. See the BA in English section of the catalog.

Minors

Language majors are encouraged to complete a minor in another field.

The department offers minors in Classical studies, Japanese studies, Chinese, French, German, Latin, Russian, and Spanish. They are available to students in any major at Mason. Except for Classical studies, all the minors have as a prerequisite the completion of 250 (or equivalent) in the relevant language.

Graduate Programs

The department offers a distinctive interdisciplinary master's degree in foreign languages designed to meet the needs and interests of prospective and practicing teachers and other professionals. It also prepares students for doctoral study at other institutions. Within the master's degree, students choose one of four concentrations: French, Spanish, French and Spanish, and Spanish/bilingual-multicultural education.

Graduate students are encouraged to participate in the many study abroad programs offered by Mason. These include short courses during winter and spring breaks as well as semester-long programs in the French and Spanish speaking regions of the world.

Funding

The department has a limited number of teaching assistantships for highly qualified graduate students with excellent language preparation. Students develop valuable language teaching experience by working with faculty experts in language teaching pedagogy.

Undergraduate Degree

Foreign Languages, BA

Banner Code: LA-BA-FRLN

Web: mcl.gmu.edu

The BA in foreign languages prepares students for teaching careers at the secondary school level, graduate study in languages, and research and professional work in government and private enterprise.

Students who major in foreign languages are encouraged to complete a minor or, if possible, a second major in another field. Students who want a double major in foreign language and another subject should plan a program of study in consultation with advisors from both disciplines and follow the steps outlined in the Academic Policies chapter of the catalog.

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements
Students pursuing the BA in foreign language must satisfy university general education requirements, the requirements for a bachelor of arts degree in the College of Humanities and Social Sciences, and requirements for all bachelor's degrees as stated in the Academic Policies chapter of the catalog.

In addition, students must complete one concentration.

▲ Concentration in French (FRN)

Students pursuing the concentration in French must complete a minimum of 33 credits in French at the 300 level and above, each with a minimum grade of 2.00. No more than one course (3 credits) conducted in English may be used to fulfill requirements for the concentration. Students are expected to complete a balanced program that includes courses in language, culture and civilization, and literature.

One advanced language course (6 credits):

- FREN 309 - Reading and Writing Skills Development Credits: 6

Two courses (6 credits) in literature and civilization chosen from:

- FREN 340 - Francophone Identities Credits: 3
- FREN 370 - French Civilization, Culture, and Literature: Ancient Gaul to 1789 Credits: 3
- FREN 371 - French Civilization, Culture, and Literature: 1789 to the Present Credits: 3

Three courses (9 credits) in FREN at the 300-level or above

Four courses (12 credits) of FREN courses at the 400-level or above

Total: 33 credits

▲ Concentration in Spanish (SPN)

Students pursuing the concentration in Spanish must complete a minimum of 33 credits in Spanish courses at the 300-level and above, each with a minimum grade of 2.00. With approval of the department, one course taught in English (3 credits) may be applied toward the concentration.

One or two core courses (6 credits):

- SPAN 305 - Spanish in Context I Credits: 3
- SPAN 306 - Spanish in Context II Credits: 3
or

- SPAN 309 - Intensive Spanish in Context Credits: 6
or
- SPAN 315 - Spanish for Heritage Speakers Credits: 3
- One additional course in Spanish (3 credits)

Three additional required courses (9 credits):

- SPAN 370 - Spanish Writing and Stylistics Credits: 3
- SPAN 385 - Introduction to Spanish Linguistics Credits: 3
- SPAN 390 - Introduction to Hispanic Literary Analysis Credits: 3

Four courses in Spanish at the 400 level (12 credits)

Two elective courses in Spanish (6 credits)

Choose from Spanish courses not specifically required or not used to fulfill another requirement.

Total: 33 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in foreign language may fulfill this requirement by successfully completing FREN 309 or SPAN 370.

Undergraduate Interdisciplinary Minor

Classical Studies Minor

Banner Code: CLA

Web: classicalstudies.gmu.edu

The minor in Classical studies is designed for students who wish to become familiar with Classical cultures and broaden their knowledge of the foundations of Western civilization. It is especially relevant to students who are studying other areas of the humanities such as English, languages, comparative literature, history, art history, philosophy, or religious studies. The requirements of the minor provide flexibility so students can choose courses that are relevant to their primary interests.

This program of study is an interdisciplinary minor offered by the Department of Modern and Classical Languages.
Course Work

Students pursuing this minor must complete 18 credits with a minimum grade of 2.00.

Two courses (6 credits) in Classics

One required course (3 credits)

- CLAS 250 - Classical Mythology Credits: 3

One elective course (3 credits)

- CLAS 260 - The Legacy of Greece and Rome Credits: 3
- CLAS 340 - Greek and Roman Epic Credits: 3
- CLAS 350 - Greek and Roman Tragedy Credits: 3
- CLAS 360 - Greek and Roman Comedy Credits: 3
- CLAS 370 - Greek and Roman Historians Credits: 3
- CLAS 380 - Greek and Roman Novels Credits: 3
- CLAS 390 - Topics in Classical Literature and Culture Credits: 3

One course (3 credits) in Classical history

HIST 388 may be applied to the minor if the topic deals with antiquity.

- HIST 301 - Classical Greece Credits: 3
- HIST 302 - Classical Rome Credits: 3
- HIST 388 - Topics in European History Credits: 3
- HIST 480 - Alexander the Great Credits: 3

One course (3 credits) in Classical art history or Classical philosophy

ARTH 399 may be applied to the minor when the topic is relevant to Classical art history.

- ARTH 321 - Greek Art and Archaeology Credits: 3
- ARTH 322 - Roman Art and Archaeology Credits: 3
- ARTH 333 - Early Christian and Byzantine Art Credits: 3
- ARTH 399 - Special Topics in the History of Art Credits: 3
• ARTH 420 - Advanced Studies in Ancient Art Credits: 3
• PHIL 301 - History of Western Philosophy: Ancient Credits: 3

Two elective courses (6 credits)

Electives may be chosen from any of the courses above not used to fulfill another requirement for the minor.

Total: 18 credits

Japanese Studies Minor

Banner Code: JPNS

Web: japanesestudies.gmu.edu

The minor in Japanese Studies enables students to advance their Japanese language skills and develop a sound understanding of Japanese culture and history from a global perspective. Students may focus their course work on language or on history and culture.

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 6 courses (18 credits) with a minimum grade of 2.00. Special topics courses, when relevant, may be applied to the minor with prior written approval of the coordinator.

Focus on language

Four courses (12 credits) in Japanese language:

• JAPA 330 - Advanced Reading and Speaking I Credits: 3
• JAPA 331 - Advanced Reading and Speaking II Credits: 3
• JAPA 440 - Integrated Study of Japanese Language and Society I Credits: 3
• JAPA 441 - Integrated Study of Japanese Language and Society II Credits: 3

One course (3 credits) of Japanese and Japan-related history chosen from:

• HIST 251 - Survey of East Asian History Credits: 3
• HIST 252 - Survey of East Asian History Credits: 3
• HIST 356 - Modern Japan Credits: 3
HIST 357 - Postwar Japan Credits: 3
ARTH 385 - Arts of Japan Credits: 3

One elective course (3 credits) chosen from:

- JAPA 310 - Japanese Culture in a Global World Credits: 3
- JAPA 320 - Japanese Cinema Credits: 3
- ARTH 482 - Advanced Studies in Asian Art Credits: 3
- CHIN 328 - Asian American Women Writers Credits: 3
- GOVT 333 - Government and Politics of Asia Credits: 3
- GOVT 433 - Political Economy of East Asia Credits: 3
- RELI 212 - Religions of Asia Credits: 3
- RELI 315 - Buddhism Credits: 3

Total: 18 credits

Focus on history and culture

Two courses (6 credits) in Japanese language chosen from:

- JAPA 330 - Advanced Reading and Speaking I Credits: 3
- JAPA 331 - Advanced Reading and Speaking II Credits: 3
- JAPA 440 - Integrated Study of Japanese Language and Society I Credits: 3
- JAPA 441 - Integrated Study of Japanese Language and Society II Credits: 3

Two courses (6 credits) in Japanese and Japan-related history chosen from

- HIST 251 - Survey of East Asian History Credits: 3
- HIST 252 - Survey of East Asian History Credits: 3
- HIST 356 - Modern Japan Credits: 3
- HIST 357 - Postwar Japan Credits: 3
- ARTH 385 - Arts of Japan Credits: 3

Two elective courses (6 credits) chosen from

- JAPA 320 - Japanese Cinema Credits: 3
- ARTH 482 - Advanced Studies in Asian Art Credits: 3
- CHIN 328 - Asian American Women Writers Credits: 3
- GOVT 333 - Government and Politics of Asia Credits: 3
- GOVT 433 - Political Economy of East Asia Credits: 3
- RELI 212 - Religions of Asia Credits: 3
- RELI 315 - Buddhism Credits: 3

Total: 18 credits

Undergraduate Minor

Chinese Minor

Banner Code: CHIN

Web: chinese.gmu.edu

The minor in Chinese is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits beyond CHIN 250 (or equivalent) with a minimum grade of 2.00 in each course.

Three courses (9 credits) in language chosen from:

- CHIN 300 - Reading Skills Development Credits: 3
- CHIN 301 - Advanced Grammar and Syntax Credits: 3
- CHIN 305 - Chinese for the Business World Credits: 3
- CHIN 480 - Fourth-Year Chinese I Credits: 3
- CHIN 481 - Fourth-Year Chinese II Credits: 3

One course (3 credits) in literature in Chinese chosen from:

- CHIN 318 - Introduction to Classical Chinese Credits: 3
- CHIN 355 - Readings in Chinese Poetry and Poetics Credits: 3
- CHIN 365 - Readings in Chinese Fiction after Mao Credits: 3
Two courses (6 credits) chosen from either of the two groups above or from the courses below:

No more than one course taught in English may be applied to the minor.

- CHIN 310 - Survey of Chinese Literature Credits: 3
- CHIN 311 - Modern Chinese Literature in Translation Credits: 3
- CHIN 320 - Contemporary Chinese Film Credits: 3
- CHIN 470 - Special Topics in Chinese Studies Credits: 3
- ARTH 384 - Arts of China Credits: 3
- HIST 353 - History of Traditional China Credits: 3
- HIST 354 - Modern China Credits: 3
- HIST 358 - Post-1949 China Credits: 3
- RELI 314 - Chinese Philosophies and Religious Traditions Credits: 3

Total: 18 credits

French Minor

Banner Code: FRN

Web: french.gmu.edu

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits beyond FREN 250 (or equivalent) with a minimum grade of 2.00 in each course.

One advanced language course (6 credits):

- FREN 309 - Reading and Writing Skills Development Credits: 6

Two courses (6 credits) in literature and civilization chosen from:

- FREN 340 - Francophone Identities Credits: 3
- FREN 370 - French Civilization, Culture, and Literature: Ancient Gaul to 1789 Credits: 3
- FREN 371 - French Civilization, Culture, and Literature: 1789 to the Present Credits: 3
Two elective courses (6 credits) in FREN at the 300 level or above

No more than one course taught in English may be applied to the minor.

Total: 18 credits

German Minor

Banner Code: GRM
Web: german.gmu.edu

The emphasis of the minor in German is on developing strong language skills: oral communication and the reading of texts. Students are introduced to important works of German literature and to the culture of German-speaking countries.

A German minor can easily and effectively be combined with majors in other disciplines. It is especially valuable in combination with business, computer science, international studies, history, music, philosophy, or another language.

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits beyond GERM 250 (or equivalent) with a minimum grade of 2.00 in each course. A maximum of one course (3 credits) conducted in English can be applied to the minor.

Three courses (9 credits) in language chosen from:

- GERM 310 - Conversation and Composition Credits: 3
- GERM 316 - German for the Business World Credits: 3
- GERM 318 - Translation of Texts Credits: 3
- GERM 415 - Advanced Grammar and Style Credits: 3
- GERM 418 - Advanced Composition Credits: 3

One course (3 credits) in German culture or literature chosen from:

- GERM 301 - Culture and Civilization Credits: 3
- GERM 340 - Survey of German Literature Credits: 3
One course (3 credits) in a genre course (300 level) or period course (400 level) chosen from:

- GERM 355 - Readings in Poetry Credits: 3
- GERM 365 - Readings in Narrative Prose Credits: 3
- GERM 375 - Readings in Drama Credits: 3
- GERM 442 - The Age of Goethe Credits: 3
- GERM 444 - The Literature of Romanticism Credits: 3
- GERM 450 - Modern Literature: 1880-1925 Credits: 3
- GERM 451 - Modern Literature: 1925 to the Present Credits: 3

One German elective course (3 credits) at the 300 level or above

Total: 18 credits

Latin Minor

Banner Code: LATN

Web: latin.gmu.edu

The minor in Latin offers students the opportunity to develop and refine their knowledge of the Latin language by reading Ancient Roman literature. Students gain an understanding and appreciation of the literature, culture, and intellectual achievements of Roman antiquity that have contributed to the development of Western civilization.

A Latin minor complements majors in literature, language, history, philosophy, and the arts, all of which find their roots in classical antiquity. Majors in the natural and the social sciences are also strengthened by the historical perspective and the advanced training in language and terminology afforded by the minor in Latin.

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits in Latin beyond the intermediate proficiency level with a minimum grade of 2.00 in each course.

Six courses (18 credits)
These courses vary in content and may be repeated for credit when content is different.

- LATN 351 - Roman Prose Literature Credits: 3
- LATN 352 - Roman Poetry Credits: 3
- LATN 451 - Studies in Roman Literature Credits: 3
- LATN 452 - Studies in Roman Literature Credits: 3

Total: 18 credits

Russian Minor

Banner Code: RUS

Web: russian.gmu.edu

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies chapter of the catalog.

Course Work

Students pursuing this minor must complete 18 credits beyond RUSS 250 (or equivalent) with a minimum grade of 2.00 in each course.

Three courses (9 credits) in language chosen from:

- RUSS 302 - Russian Conversation and Composition Credits: 3
- RUSS 303 - Russian Advanced Conversation Credits: 3
- RUSS 380 - Advanced Russian I Credits: 3
- RUSS 381 - Advanced Russian II Credits: 3

One course (3 credits) in literature chosen from:

- RUSS 310 - Readings in Russian Literature Credits: 3
- RUSS 311 - Contemporary Russian Short Fiction Credits: 3

One course (3 credits) chosen from:
• RUSS 353 - Russian Civilization Credits: 3
• RUSS 354 - Contemporary Post-Soviet Life Credits: 3

One elective course (3 credits) at the 300 level or above

This course must be conducted in Russian.

Total: 18 credits

Spanish Minor

Banner Code: SPN
Web: spanish.gmu.edu

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits beyond SPAN 250 (or equivalent) with a minimum grade of 2.00 in each course.

One or two courses (6 credits) in language:

• SPAN 305 - Spanish in Context I Credits: 3
• SPAN 306 - Spanish in Context II Credits: 3
or
• SPAN 309 - Intensive Spanish in Context Credits: 6
or
• SPAN 315 - Spanish for Heritage Speakers Credits: 3
• One elective course in Spanish (3 credits)

Two courses (6 credits)

One course (3 credits) in stylistics
One course chosen from:

- SPAN 370 - Spanish Writing and Stylistics Credits: 3
- SPAN 385 - Introduction to Spanish Linguistics Credits: 3
- SPAN 388 - Introduction to Latina/o Studies Credits: 3
- SPAN 390 - Introduction to Hispanic Literary Analysis Credits: 3

Two Spanish elective courses (6 credits) at the 300 or 400 level

These courses must be conducted in Spanish.

Total: 18 credits

Master's Degree

Foreign Languages, MA

Banner Code: LA-MA-FRLN

Web: mcl.gmu.edu

This program meets the needs and interests of prospective and practicing teachers and other professionals, and prepares students for doctoral study at other institutions. The program offers four concentrations: French, Spanish, French and Spanish, and Spanish/bilingual-multicultural education.

This program of study is offered by the Department of Modern and Classical Languages.

Application Requirements

All applicants for graduate study must satisfy admission standards and application requirements as specified in the Admission chapter of the catalog. Applicants for the MA in foreign language must hold a baccalaureate degree in French or Spanish, have at least a 3.00 GPA (on a 4.00 scale) in the field, and submit three letters of recommendation from people familiar with their academic qualifications.

Applicants whose baccalaureate degrees were earned in other fields or who otherwise do not meet the above requirements but who provide evidence of a capacity to pursue graduate study are encouraged to apply but may be asked to appear for a personal interview and take the appropriate parts of the GRE. They may be admitted to the program with provisional status and may be required to make up gaps in their undergraduate record before the provisional qualified is removed.

Degree Requirements
Students who elect a concentration in one language must complete a program of 30 credits. Those who concentrate in two languages must complete a program of 42 credits. The concentration in Spanish/bilingual-multicultural education requires 36 credits. In all three concentrations, 6 of the total credits may be earned with a thesis. Regardless of the concentration selected, all students must meet the core and distribution requirements given below and pass a comprehensive exam or write a thesis.

▲ Concentration in French (FRN)

Students pursuing this concentration must complete 30 credits, with at least 18 credits earned in courses with the subject code FREN.

Two required courses in literature (6 credits)

Courses should be chosen in consultation with an advisor and cover two different literary periods.

Two required courses in French language and linguistics (6 credits)

Courses should be chosen in consultation with an advisor.

Two elective courses in French (6 credits)

Students choose electives in consultation with an advisor from French courses in literature or language.

Four elective courses (12 credits)

Students should choose electives in consultation with an advisor. A maximum of 6 credits may be used for directed reading and research or thesis.

- FREN 798 - Directed Reading and Research Credits: 3
- FREN 799 - Thesis Credits: 1-6

Total: 30 credits

▲ Concentration in Spanish (SPN)

Three required core courses (9 credits)

- SPAN 502 - Hispanic Sociolinguistics Credits: 3
- SPAN 505 - Applied Spanish Stylistics Credits: 3
- SPAN 510 - Introduction to the Graduate Study of Literature in Spanish Credits: 3
Three required courses (9 credits) in Spanish language and literature

- One course (3 credits) in the literature of Spain
- One course (3 credits) in the literature of Spanish America
- One course (3 credits) in Spanish language or Spanish linguistics

Four elective courses (12 credits)

Students choose electives in consultation with an advisor. The can include additional courses in Spanish language and literature, courses with the subject code FRLN, up to 6 credits of courses in related fields, and up to 6 credits in directed reading and research and thesis.

- SPAN 798 - Directed Reading and Research Credits: 3
- SPAN 799 - Thesis Credits: 1-6

Notes:

Full-time students must take the core courses in their first year. Part-time students must include these courses within their first 12 credits.

Students intending to go on for the PhD in linguistics or literature are strongly encouraged to pursue the thesis option. Independent studies courses are not available for graduate students of Spanish.

Total: 30 credits

▲ Concentration in Spanish and French (SF)

Nine courses in French (18 credits)

Students take the required courses (not electives) specified under the concentration in French.

Nine courses in Spanish (18 credits)

Students take the required courses (not electives) specified under the concentration in Spanish.

Two elective courses (6 credits)

Electives may include directed reading and research or thesis. Students who elect to complete a thesis may apply 6 credits of 798 and 799 to fulfill this requirement.

- FREN 798 - Directed Reading and Research Credits: 3
- SPAN 798 - Directed Reading and Research Credits: 3
FREN 799 - Thesis Credits: 1-6
SPAN 799 - Thesis Credits: 1-6

Total: 42 credits

▲ Concentration in Spanish/Bilingual-Multicultural Education (SBM)

Nine courses in Spanish (18 credits)
Students take the required courses (not electives) specified under the concentration in Spanish.

Two bilingual education seminars (6 credits) chosen from:

- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 519 - Methods of Teaching Multilingual Students Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDCI 521 - Curriculum Development for Language Learners Credits: 3

Four elective courses (12 credits)
Students choose electives in consultation with an advisor. Electives may include directed reading and research or thesis. Students who elect to complete a thesis may apply 6 credits of 798 and 799 to fulfill this requirement.

- SPAN 798 - Directed Reading and Research Credits: 3
- SPAN 799 - Thesis Credits: 1-6

Total: 36 credits

■ New Century College

Phone: 703-993-1436
Web: ncc.gmu.edu

Faculty

Professor: O’Connor
**Associate professors:** Gabel, Garner, Gring-Pemble, Lucas (associate dean), Muir, Smith, Wood, Wingfield

**Assistant professors:** Cambridge, Freeman, Gilmore, Gorski, Owen

**Term assistant professors:** Fuertes, Scott, Vitazkova

**Adjunct faculty:** Draheim, Grymes, Holder, Johnson, Kohr, Malaiwong, Saddler, Smith, Sweetman, Tillman, Uy-Tioco, Yang

**Administration**

_Nance Lucas_, Associate Dean  
_Kelly Dunne_, Director of Academic Affairs  
_Karen Misencik_, Director of Experiential Learning  
_Sarah Sweetman_, Director of Student Services  
_Misty Hensley_, Student Services Coordinator

**Course Work**

NCC offers all course work designated NCLC in the Courses chapter of this catalog.

**About New Century College**

An integral part of the College of Humanities and Social Sciences, New Century College (NCC) offers students a personalized, interdisciplinary education typical of a small college within the context of a large public university. Drawing on its own faculty, which is enriched regularly with others from across the university, New Century provides a learning environment that integrates interdisciplinary knowledge with workplace and lifelong learning. The programs enhance students' technology skills, improve their writing, and provide them with challenging opportunities.

New Century College students interact closely with faculty; engage in critical thinking, problem solving, creative activity, and leadership development; and participate in experiential education in the form of internships, field studies, service learning, or study abroad. They learn to develop original ideas, engage in active and reflective learning, master competency areas, and conduct independent inquiry with high ethical standards. Both the structure and curriculum of New Century College respond to the needs of civic and corporate communities and provide instruction for a rapidly changing society.

**Undergraduate Programs**

New Century College offers a bachelor of arts and a bachelor of science degree in integrative studies. The curriculum is based on intensive, interdisciplinary learning communities, coordinated with traditional academic programs. The result is an integrated program of study that emphasizes collaboration, experiential learning, and self reflection.

All students complete their degree programs with an interdisciplinary concentration. See the programs of study below. Students develop mastery of nine essential competencies (communication, valuing, global understanding, problem solving, group interaction, effective citizenship, aesthetic awareness, critical thinking, and information technology) assessed through freshman and graduation portfolios.

**Mason Cornerstones**

New Century College offers an interdisciplinary first-year program known as Mason Cornerstones. Freshmen from all university majors may be invited to participate. Invitations are based on academic performance. Cornerstones is a competitive 24-credit program that consists of a sequence of four courses:
NCLC 101 - Narratives of Identity
NCLC 102 - Global Networks and Communities
NCLC 103 - Human Creativity: Science and Art
NCLC 203 - Inquiry for Action: Facilitating Change

NCLC 101, 102, and 203 are writing-intensive courses that emphasize written communication as a way of thinking, discovering, and expressing ideas. Students who complete these three courses with a minimum GPA of 2.0 have fulfilled 3 credits of the general education requirement in written communication (equivalent to ENGL 101). Students who successfully complete all of Mason Cornerstones with a minimum GPA of 2.00 will have also met the university general education requirements in oral communication, information technology, literature, arts, non-laboratory natural science, global understanding, and social and behavioral science.

Transfer Students

New Century College welcomes transfer students from other four-year institutions or community colleges, as well as from other academic units within Mason. Academic advisors work with students to best use transfer credits and provide a plan for timely completion of the bachelor’s degree. All transfer students are required to take NCLC 391 within their first two semesters and meet with an academic advisor as soon as possible.

Minors

New Century College offers minors in childhood studies, consciousness and transformation, leadership studies, multimedia, nonprofit studies, and science and society. All are available to students in any major in the university.

The Sustainability Studies Minor is offered jointly by the Department of Environmental Science and Policy and New Century College. For details, see the Department of Environmental Science and Policy section of the College of Science chapter of this catalog.

Graduate Programs

The college sponsors the concentration in zoo and aquarium leadership in the master’s degree in interdisciplinary studies (MAIS). This concentration prepares students for advanced careers in modern, professional zoos and aquariums. Admission to the concentration and enrollment in the courses is restricted to members of the Association of Zoos and Aquariums.

See the Interdisciplinary Studies section of this chapter for details.

Centers

New Century College houses the Center for Consciousness Transformation, the Center for Field Studies, and the Center for Leadership and Community Engagement. The services of these centers are available to all students and faculty in the university.

Undergraduate Degree

Environmental and Sustainability Studies, BA (pending SCHEV approval)

Banner Code: LA-BA-EVSS
Colleges: College of Humanities and Social Sciences and College of Science

Departments: ■ New Century College and ■ Environmental Science and Policy

The BA in environmental and sustainability studies is a joint program between two colleges and their departments (listed above).

The program described below has been approved by the Board of Visitors and sent to the State Council for Higher Education in Virginia for consideration as a new degree program. The university cannot accept applications or enroll students in this program until SCHEV approval has been granted.

This degree provides students with theoretical and practical knowledge of three aspects of environmental and sustainability studies: people, prosperity, and planet. In addition to required core courses, students develop more in-depth knowledge in one of four concentrations. This degree prepares students for employment and graduate study in fields related to social justice, business and public policy, and environmental protection as they relate to the environment and sustainability.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements

In addition to satisfying university general education requirements and the requirements for a bachelor of arts degree in the College of Humanities and Social Sciences and the College of Science, students pursuing this degree must complete 59 credits with a minimum grade of 2.00 in each course.

Of the credits required for this degree, two credits may simultaneously fulfill the experiential learning requirement and requirements of the concentration, 14 credits simultaneously fulfill core requirements for the major and general education requirements, and, depending on the concentration and electives chosen, up to 9 credits may simultaneously fulfill university general education requirements and college BA requirements. Thus, depending on the concentration, electives, and experiential learning, this degree requires between 43 and 34 unique credits.

Eleven required core courses (39 credits)

Core requirements fulfill university general education requirements in natural science (EVPP 110, 111) and the BA requirement for social and behavioral science (GOVT 361).

Three courses (11 credits) in environmental science and society

Fulfills the general education natural science requirement.

- EVPP 110 - The Ecosphere: An Introduction to Environmental Science I Credits: 4
- EVPP 111 - The Ecosphere: An Introduction to Environmental Science II Credits: 4
- EVPP 377 - Applied Ecology Credits: 3

Two courses (7 credits) in individual and group behavior

- EVPP 336 - Human Dimensions of the Environment Credits: 3
- NCLC 334 - Environmental Justice Credits: 4
Two courses (6 credits) in business and public policy chosen from:

- EVPP 322 - Business and Sustainability Credits: 3
- and one of the following:
- EVPP 361 - Introduction to Environmental Policy Credits: 3
- or
- GOVT 361 - Introduction to Environmental Policy Credits: 3

One course (4 credits) in statistics

- SOCI 313 - Statistics for the Behavioral Sciences Credits: 4

Three courses (11 credits) in integration, analysis, innovation

- NCLC 210 - Sustainable World Credits: 4
- EVPP 480 - Sustainability in Action Credits: 4
- NCLC 490 - Internship Credits: 1-6 (3 credits may be applied to this requirement.) Credits / Units: 3

Experiential learning (2 credits)

Students must complete 2 credits of experiential learning through NCC or EVPP courses offering experiential learning credit, an additional internship, field studies, or study abroad. These credits may simultaneously be applied to the credits required for a concentration.

One Concentration (18 credits)

Students must complete one concentration.

▲ Concentration in Climate Change and Society (CCSO)

The requirements for this concentration, depending on the electives chosen, may fulfill the BA requirement in philosophy and religious studies (PHIL 343).

Three required courses (9 credits)

- CLIM 101 - Global Warming: Weather, Climate, and Society Credits: 3
- EVPP 432 - Energy Policy Credits: 3
• EVPP 436 - The Human Dimensions of Global Climate Change Credits: 3

9 credits chosen from:

• EVPP 362 - Intermediate Environmental Policy Credits: 3
• GGS 302 - Global Environmental Hazards Credits: 3
• GGS 304 - Populations Dimensions of Global Change Credits: 3
• GGS 309 - Meteorology and Climate Credits: 3
• GGS 312 - Physical Climatology Credits: 3
• GGS 314 - Severe and Extreme Weather Credits: 3
• GGS 322 - Issues in Global Change Credits: 3
• GGS 353 - Observations of the Earth and its Climate Credits: 3
• NCLC 220 - Energy and Environment Credits: 3-6
• NCLC 306 - Our Common Futures Credits: 3-6
• PHIL 343 - Issues in Environmental Ethics Credits: 3

▲ Concentration in Environmental Economics (EVEC)

The requirements for this concentrate fulfill the university general education requirement in social and behavioral science (ECON 103 or 104) and, depending on the electives chosen, may fulfill the BA requirement in non-Western culture (ECON 361 or 362).

Four required courses (12 credits)

Fulfills general education requirement in social and behavioral science.

• ECON 103 - Contemporary Microeconomic Principles Credits: 3
• ECON 104 - Contemporary Macroeconomic Principles Credits: 3
• ECON 335 - Environmental Economics Credits: 3 ECON 306 is strongly recommended as a prerequisite to ECON 335.
• EVPP 362 - Intermediate Environmental Policy Credits: 3

6 credits chosen from:

• ECON 306 - Intermediate Microeconomics Credits: 3
• ECON 360 - Economics of Developing Areas Credits: 3
• ECON 361 - Economic Development of Latin America Credits: 3
• ECON 362 - African Economic Development Credits: 3
• EVPP 337 - Environmental Policy Making in Developing Countries Credits: 3
• EVPP 338 - Ecological Economics Credits: 3
• GGS 305 - Economic Geography Credits: 3
• NCLC 306 - Our Common Futures Credits: 3-6
▲ Concentration in Environmental Policy and Politics (EVPO)

The requirements for this concentration fulfill BA requirements in social and behavioral science (ECON 105) and, depending on the electives chosen, philosophy and religious studies (PHIL 343).

Four required courses (12 credits)

- ECON 105 - Environmental Economics for the Citizen Credits: 3
- EVPP 362 - Intermediate Environmental Policy Credits: 3
- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 132 - Introduction to International Politics Credits: 3

6 credits chosen from:

- ECON 335 - Environmental Economics Credits: 3 ECON 306 is strongly recommended as a prerequisite to ECON 335.
- EVPP 337 - Environmental Policy Making in Developing Countries Credits: 3
- EVPP 338 - Ecological Economics Credits: 3
- EVPP 432 - Energy Policy Credits: 3
- GEOL 420 - Earth Science and Policy Credits: 3
- GGS 307 - Sustainable Development Credits: 3
- NCLC 220 - Energy and Environment Credits: 3-6
- NCLC 306 - Our Common Futures Credits: 3-6
- NCLC 331 - The Nonprofit Sector Credits: 4
- PHIL 343 - Issues in Environmental Ethics Credits: 3

▲ Concentration in Equity and Environmental Justice (EQEJ)

The requirements for this concentration fulfill the BA requirements in non Western culture (ANTH 114), social and behavioral science (ANTH 114), and philosophy and religious studies (PHIL 343).

Four required courses (13 credits)

- ANTH 114 - Introduction to Cultural Anthropology Credits: 3
- EVPP 362 - Intermediate Environmental Policy Credits: 3
- PHIL 343 - Issues in Environmental Ethics Credits: 3
- NCLC 304 - Social Movements and Community Activism Credits: 4

6 credits chosen from:
• ANTH 370 - Environment and Culture Credits: 3
• ECON 105 - Environmental Economics for the Citizen Credits: 3
• EVPP 335 - People, Plants, and Culture Credits: 3
• EVPP 436 - The Human Dimensions of Global Climate Change Credits: 3
• GGS 304 - Populations Dimensions of Global Change Credits: 3
  or
• GGS 307 - Sustainable Development Credits: 3
• GOVT 445 - Human Rights Credits: 3
• NCLC 305 - Conflict Resolution and Transformation Credits: 6
• NCLC 306 - Our Common Futures Credits: 3-6
• NCLC 331 - The Nonprofit Sector Credits: 4
• SOCI 320 - Social Structure and Globalization Credits: 3
• SOCI 355 - Social Inequalities Credits: 3

Total: 59 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as "writing intensive" in their major at the 300 level or above. Students majoring in environmental and sustainability studies should consult an advisor to learn how to fulfill this requirement.

Integrative Studies, BA

Banner Code: LA-BA-INTS

Web: ncc.gmu.edu

The bachelor of arts degree program in integrative studies is based on intensive, interdisciplinary learning communities coordinated with traditional academic programs. The result is an integrated program of study that emphasizes collaboration, experiential learning, and self-reflection. The degree program requires mastery of nine essential competencies: communication, valuing, global understanding, problem solving, group interaction, effective citizenship, aesthetic awareness, critical thinking, and information technology. The competencies are assessed through freshman and graduation portfolios.

Students in this degree program who are admitted to Mason Cornerstones complete university general education as specified below. They must complete Cornerstones and the 24 credits of learning communities with a minimum GPA of 2.00 in order to be able to use them to fulfill general education requirements.

• Completion of Mason Cornerstones: lower-level written communication (ENGL 101), oral communication, information technology, arts, natural science (non laboratory), global understanding, social and behavioral sciences
• Completion of 24 credits of learning communities: upper-level written communication (ENGL 302), writing intensive course
• Completion of coursework specifically approved for these requirements (in NCC or in other units): Western civilization or world history, quantitative reasoning, natural science (with laboratory)
• NCLC 491 - The Senior Capstone Experience
Students who are not admitted to Mason Cornerstones need to complete the general education requirements as specified in the College of Humanities and Social Sciences chapter of the catalog. Students who transfer into New Century College should consult with an advisor on what they need to take to complete university general education requirements.

This program of study is offered by New Century College.

Students must fulfill all requirements for bachelor's degrees. For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements

Learning communities (24 credits)

Learning communities are interdisciplinary courses that combine different subjects into a single course that is usually 3 or 6 credits. In learning communities, faculty and students explore various ways to understand a topic. Learning communities are structured to help promote a greater sense of identity with an academic community. Hallmarks of New Century College learning communities are team teaching, collaborative projects, emphasis on writing and critical thinking, and opportunity for independent study. They often include experiential learning, either as an integral part of the class or as an optional add on.

Experiential learning (12-24 credits)

The requirement in experiential learning reflects New Century College’s commitment to provide educational experiences that prepare graduates for the workplace and the demands of active and responsible citizenship. The workplace is as viewed as a site of instruction, one where students are exposed to the variety of skills needed to succeed. Through experiential learning, students combine work experience with academic study so that each will enrich the other.

Experiential learning includes include internships, study abroad, community service learning, course field trips, and other field study opportunities. The learning sites may change each semester and are usually off campus. George Mason provides student liability insurance for the experiential learning internship, but students are responsible for their own transportation and health care. Accident and health insurance is available from George Mason.

No more than 24 credits of experiential learning can count toward a student’s total credits for graduation.

Concentration (minimum 30 credits)

A concentration is the equivalent of a major in a traditional degree program. Students chose from an established interdisciplinary concentration below or create with faculty an individualized program of study to fit their interests and needs. The coursework for the concentration consists of traditional courses, learning communities, independent study, and experiential learning. Students must present a minimum GPA of 2.00 in courses applied to the concentration.

- Advertising (ADV)
- Arts and Culture (ACLT)
- Child and Family Studies (CFS)
- Conservation Studies (CNST)
- Early Childhood Education (ECED)
- Elementary Education (ELED)
- Information and Society (INSO)
- International Studies (INST)
- Language Arts for Education (LAED)
- Leadership Studies (LEAD)
- Legal Studies (LGLS)
- Organizational Administration (OADM)
- Public and Community Engagement (PCE)
- Social Science for Education (SSED)
- Individualized Concentration (IND)

**Electives (0-15 credits)**

If courses are taken that fulfill more than one degree requirement (e.g. Learning Community, Experiential Learning, General Education, Concentration), additional electives will be needed to reach the 120 credit minimum.

**Cumulative portfolio**

The cumulative portfolio is reviewed by New Century College faculty.

**College senior exposition (3 credits)**

Students complete their senior exposition through NCLC 491, which they must take the semester prior to graduation.

- NCLC 491 - The Senior Capstone Experience Credits: 3

**Concentrations**

▲ Advertising (ADV)

- ACCT 203 - Survey of Accounting Credits: 3
- COMM 230 - Case Studies in Persuasion Credits: 3
- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- MKTG 301 - Principles of Marketing Credits: 3
- MKTG 312 - Consumer Behavior Credits: 3
- MKTG 313 - Integrated Marketing Communications Credits: 3
- MSOM 301 or MGMT 301 - People and Organizations Credits: 3
- MSOM 302 - Managing Information in a Global Environment Credits: 3
- NCLC 202 - Public Speaking and Critical Thinking Skills Credits: 4
- NCLC 249 - The Internet: Literacy, HTML Tools, and Virtual Community Credits: 4
- NCLC 345 - Introduction to Multimedia Credits: 5

One course chosen from:
- NCLC 331 - The Nonprofit Sector Credits: 4
- NCLC 350 - Cyberculture Credits: 6
- NCLC 420 - Work Effectiveness Skills Credits: 3
- NCLC 423 - Management in the Global Marketplace Credits: 6
- NCLC 431 - Principles of Fund Raising Credits: 4
- NCLC 445 - Multimedia Design Credits: 5
- NCLC 449 - Multimedia Research and Project Development Credits: 4

Two courses chosen from:

- ACCT 301 - Financial Accounting and Managerial Decision Making Credits: 3
- AVT 104 - Studio Fundamentals I Credits: 4
- AVT 180 - Computers in the Creative Arts Credits: 3
- AVT 280 - Introduction to Digital Arts Credits: 4
- BULE 302 - Legal Environment of Business Credits: 3
- COMM 157 - Video Workshop Credits: 1
- COMM 375 - Mass Communication Advertising and Promotions Credits: 3
- COMM 430 - Persuasion Credits: 3
- FNAN 301 - Financial Management Credits: 3
- GOVT 358 - Nonprofit Financial Planning Credits: 4
- MIS 301 - Introduction to Business Information Systems Credits: 3
- MSOM 304 - Entrepreneurship: Starting and Managing a New Enterprise Credits: 3
- MSOM 305 - Managing in a Global Economy Credits: 3
- NCLC 195 - Field-Based Work Credits: 1-6
- WMST 100 - Representations of Women Credits: 3
- WMST 304 - Women and Media Credits: 3
- SPMT 412 - Sport Marketing and Finance Credits: 3

Total: 44-49 credits

▲ Arts and Culture (ACLT)

- AVT 371 - Visual Perception and the Arts Credits: 3 or NCLC 200 - Visual Thinking and the Creativity Credits: 4
- NCLC 245 - Visual Culture and Society Credits: 4
- AVT 307 - Aesthetics Credits: 3 or NCLC 446 - Art, Beauty, and Culture Credits: 4
- NCLC 346 - Art as Social Action Credits: 4 or NCLC 347 - Gender Representation in Popular Culture Credits 4

Five courses chosen from:

- AVT 104 - Studio Fundamentals I Credits: 4
- AVT 105 - Studio Fundamentals II Credits: 4
• AVT 222 - Drawing I Credits: 4
• AVT 232 - Painting I Credits: 4
• AVT 262 - Sculpture I Credits: 4
• AVT 280 - Introduction to Digital Arts Credits: 4
• AVT 305 - Creative Processes Credits: 3
• AVT 323 - Drawing II Credits: 4
• AVT 333 - Painting II Credits: 4
• AVT 392 - Gallery Practices Credits: 4

- NCLC 349 - Writing for Multimedia Credits: 4
- NCLC 350 - Cyberculture Credits: 6
- NCLC 361 - Neighborhood, Community, and Identity Credits: 3-6
- NCLC 381 - When Cultural Worlds Collide Credits: 6
- NCLC 445 - Multimedia Design Credits: 5
- NCLC 449 - Multimedia Research and Project Development Credits: 4

Total: 32-45 credits

▲ Child and Family Studies (CFS)

Eight Studies:

- NCLC 312 - Images and Experiences of Childhood: Social Construct, Literature, and Film Credits: 3-6
- NCLC 317 - Issues in Family Relationships Credits: 4
- PSYC 100 - Basic Concepts in Psychology Credits: 3
- PSYC 211 - Developmental Psychology Credits: 3
- PSYC 313 - Child Psychology Credits: 3
- STAT 250 - Introductory Statistics I Credits: 3 or SOCI 313 - Statistics for the Behavioral Sciences Credits: 4
- EDUT 411 - Developmental Pathways of Diverse Learners, Birth-Adolescence Credits: 3 or SOCI 310 - Sociology of Deviance Credits: 3 or SOCI 315 - Sex and Gender in Contemporary Society Credits: 3
- PSYC 415 - Psychological Factors in Aging Credits: 3 or SOCW 435 - An Intergenerational Approach to Aging Credits: 3 or SOCI 441 - The Sociology of Aging

Two courses chosen from:

- ANTH 302 - Peoples and Cultures of Latin America Credits: 3
- ANTH 301 - Native North Americans Credits: 3
- ANTH 304 - Peoples and Cultures of the Pacific Credits: 3
• ANTH 306 - Peoples and Cultures of Island Asia Credits: 3
• ANTH 311 - Peoples and Cultures of Mainland Southeast Asia Credits: 3
• ANTH 330 - Peoples and Cultures of Selected Regions: Non-Western Credits: 3
• CONF 101 - Conflict and Our World Credits: 3
• HEAL 325 - Health Aspects of Human Sexuality Credits: 3
• HEAL 327 - Women’s Health Credits: 3
• HEAL 330 - Nutrition Credits: 3
• HEAL 350 - Interventions for Populations and Communities at Risk Credits: 3
• NCLC 231 - Introduction to Community Studies Credits: 4
• NCLC 305 - Conflict Resolution and Transformation Credits: 6
• NCLC 310 - Violence and Gender Credits: 3-6
• NCLC 312 - Images and Experiences of Childhood: Social Construct, Literature, and Film Credits: 3-6
• NCLC 320 - Construction of Differences: Race, Class, and Gender Credits: 6
• NCLC 331 - The Nonprofit Sector Credits: 4
• NCLC 379 - Cancer and Its Social Impact Credits: 4
• PSYC 314 - Adolescent Psychology Credits: 3
• PSYC 324 - Personality Theory Credits: 3
• PSYC 325 - Abnormal Psychology Credits: 3
• PSYC 330 - Psychology of Adjustment Credits: 3
• PSYC 362 - Psychology of Women Credits: 3
• SOCW 415 - Child and Family Welfare Credits: 3
• SOCW 423 - Social Work with Children and Adolescents Credits: 3
• SOCI 302 - Sociology of Delinquency Credits: 3
• SOCI 315 - Sex and Gender in Contemporary Society Credits: 3
• SOCI 383 - Human Services in Society Credits: 3
• Any WMST course

Total: 30-35 credits

▲ Conservation Studies (CNST)

Three-five core courses (15-16 credits) in conservation studies

Students may complete this requirement through regular coursework or through the Smithsonian-Mason Semester Program.

Regular Coursework

• NCLC 211 - Introduction to Conservation Studies Credits: 3-6
• NCLC 401 - Conservation Biology Credits: 6
• EVPP 336 - Human Dimensions of the Environment Credits: 3
Smithsonian-Mason Semester Program

Students complete 16 credits offered through the Mason Center for Conservation Studies in cooperation with the Smithsonian Conservation Biology Institute. In this integrated series of courses, taken together in one semester, students live on site at the institute in Front Royal, VA. Students who apply this coursework to the concentration cannot also apply it to the minor in Applied Conservation Studies.

- CONS 320 - Conservation in Practice Credits: 3
- CONS 401 - Conservation Theory Credits: 3
- CONS 402 - Applied Conservation Credits: 4
- CONS 410 - Human Dimensions in Conservation Credits: 3
- CONS 490 - Integrated Conservation Strategies Credits: 3

Three courses (11 credits) on the environment

- EVPP 110 - The Ecosphere: An Introduction to Environmental Science I Credits: 4
- EVPP 111 - The Ecosphere: An Introduction to Environmental Science II Credits: 4
- EVPP 361 - Introduction to Environmental Policy Credits: 3

Two courses (6-12 credits) chosen from:

In addition to the courses below, NCLC 375, 395, and 398 may be applied to the concentration when the topic is pertinent to conservation studies.

- NCLC 220 - Energy and Environment Credits: 3-6
- NCLC 305 - Conflict Resolution and Transformation Credits: 6
- NCLC 307 - Narratives of Nature Credits: 6
- NCLC 308 - American Landscapes in Fiction, Film, and History Credits: 6
- NCLC 311 - The Mysteries of Migration: Consequences for Conservation Credits: 6
- NCLC 331 - The Nonprofit Sector Credits: 4
- NCLC 334 - Environmental Justice Credits: 4

Total: 32-39 credits

▲ Early Childhood Education (ECED)

- 9 credits of ENGL or COMM
- 9 credits of natural science (must include a lab science)
- 9 credits of MATH or STAT
- 3 credits of world history
- 3 credits of U.S. history
- 3 credits of ECON
- 3 credits of GGS
- 3 credits of arts or music
- 3 credits of humanities

Total: 45 credits

▲ Elementary Education (ELED)

- 12 credits of ENGL or COMM course work
- 12 credits of natural science
- 12 credits of mathematics or statistics
- 3 credits of ECON course work
- 3 credits of U.S. history
- 3 credits of GGS course work
- 3 credits of GOVT course work
- 3 credits of humanities course work
- 3 credits of HIST course work
- 3 credits of Fine Arts

Total: 57 credits

▲ Information and Society (INSO)

- NCLC 245 - Visual Culture and Society Credits: 4 or NCLC 249 - The Internet: Literacy, HTML Tools, and Virtual Community Credits: 4
- COMM 202 - Mass Media and Communication Systems Credits: 3 or AVT 180 - Computers in the Creative Arts Credits: 3 or IT 108 - Programming Fundamentals Credits: 3
- IT 304 - IT in the Global Economy Credits: 3 or MSOM 302 - Managing Information in a Global Environment Credits: 3
- NCLC 345 - Introduction to Multimedia Credits: 5 or NCLC 349 - Writing for Multimedia Credits: 4
- NCLC 348 - Information in the Digital Age Credits: 6
- NCLC 350 - Cyberculture Credits: 6

One course chosen from:

- NCLC 343 - Interactive Digital Texts Credits: 3
- NCLC 435 - Leadership in a Changing Environment Credits: 4
- NCLC 445 - Multimedia Design Credits: 5
- NCLC 449 - Multimedia Research and Project Development Credits: 4
Three courses chosen from:

- ANTH 380 - Language and Culture Credits: 3
- ANTH 395 - Work, Technology, and Society: An IT Perspective Credits: 3
- AVT 280 - Introduction to Digital Arts Credits: 4
- AVT 382 - Digital Art and Animation Credits: 4
- AVT 383 - Three-Dimensional Digital Art Credits: 4
- AVT 390 - Digital Media and Video Art Credits: 4
- COMM 303 - Writing across the Media Credits: 3
- COMM 351 - News Writing and Reporting Credits: 3
- COMM 353 - Broadcast Journalism Credits: 3
- COMM 380 - Media Criticism Credits: 3
- COMM 435 - Computers and Communication Credits: 3
- COMM 454 - Free Speech and Ethics Credits: 3
- COMM 455 - History of Print Journalism Credits: 3
- CS 105 - Computer Ethics and Society Credits: 1
- CS 112 - Introduction to Computer Programming Credits: 4
- ENGL 309 - Writing Nonfiction Genres Credits: 3
- ENGL 311 - Writing Ethnography Credits: 3
- ENGL 399 - Creative Nonfiction Writing Credits: 3
- ENGL 410 - Professional and Technical Writing Credits: 3
- ENGL 489 - Writing Nonfiction for Publication Credits: 3
- IT 207 - Applied IT Programming Credits: 3
- IT 212 - Computer Hardware Fundamentals Credits: 3
- IT 214 - Database Fundamentals Credits: 3
- IT 223 - Information Security Fundamentals Credits: 3
- IT 314 - Database Management Credits: 3
- IT 353 - Information Defense Technologies Credits: 3
- PHIL 112 - Ethics and the Cybersociety Credits: 1
- PHIL 312 - Philosophy of Technology Credits: 3
- PHIL 373 - Theory of Knowledge Credits: 3
- PSYC 231 - Social Psychology Credits: 3
- PSYC 317 - Cognitive Psychology Credits: 3
- SOCI 304 - Sociology of Work and Occupations Credits: 3
- SOCI 414 - Sociology of Language Credits: 3
- STAT 250 - Introductory Statistics I Credits: 3

Total: 33-44 credits

▲ International Studies (INST)
• Language competency at the intermediate level required (by course work or examination)
• GOVT 132 - Introduction to International Politics Credits: 3
• GOVT 133 - Introduction to Comparative Politics Credits: 3
• ANTH 114 - Introduction to Cultural Anthropology Credits: 3 or CULT 320 - Globalization and Culture Credits: 3
• GOVT 322 - International Relations Theory Credits: 3
• NCLC 305 - Conflict Resolution and Transformation Credits: 6 or CONF 101 - Conflict and Our World Credits: 3
• NCLC 422 - An Experiential Approach to American Foreign Policy Credits: 3-6 or GOVT 344 - American Foreign Policy Credits: 3 or HIST 345 - History of American Foreign Relations Credits: 3

Five courses chosen from:

• ANTH 135 - Becoming Human: Evolution, Cognition, and Culture Credits: 3
• ANTH 302 - Peoples and Cultures of Latin America Credits: 3
• ANTH 306 - Peoples and Cultures of Island Asia Credits: 3
• ANTH 312 - Political Anthropology Credits: 3
• ANTH 330 - Peoples and Cultures of Selected Regions: Non-Western Credits: 3
• ANTH 331 - Refugees Credits: 3
• ANTH 365 - Race and Racism Credits: 3
• ANTH 385 - Gender, Class, and Ethnicity in Latin America Credits: 3
• ARTH 200 - Survey of Western Art Credits: 3
• ARTH 201 - Survey of Western Art Credits: 3
• ARTH 203 - Survey of Asian Art Credits: 3
• ARTH 204 - Survey of Latin American Art Credits: 3
• ARTH 319 - Art and Archaeology of the Ancient Near East Credits: 3
• ARTH 320 - Art of the Islamic World Credits: 3
• ARTH 321 - Greek Art and Archaeology Credits: 3
• ARTH 322 - Roman Art and Archaeology Credits: 3

- TOUR 352 - Heritage and Cultural Tourism Credits: 3
- TOUR 440 - Meetings and Conventions Credits: 3
- TOUR 412 - Tourism and Events Marketing Credits: 3

Total: 30-39 credits

▲ Legal Studies (LGLS)

- NCLC 202 - Public Speaking and Critical Thinking Skills Credits: 4
- GOVT 103 - Introduction to American Government Credits: 3
- PHIL 173 - Logic and Critical Thinking Credits: 3
- COMM 260 - Basic Debate Theory and Practice Credits: 3
- GOVT 301 - Public Law and the Judicial Process Credits: 3
- PHIL 311 - Philosophy of Law Credits: 3
- BULE 302 - Legal Environment of Business Credits: 3
One course chosen from:

- GOVT 422 - Constitutional Interpretation Credits: 3
- GOVT 423 - Constitutional Law: Civil Rights and Liberties Credits: 3
- GOVT 424 - Constitutional Law: Criminal Process and Rights Credits: 3

Four courses chosen from:

- Any undergraduate CRIM course
- Any CONF course
- COMM 100 - Public Speaking Credits: 3
- COMM 230 - Case Studies in Persuasion Credits: 3
- COMM 430 - Persuasion Credits: 3
- COMM 475 - Journalism Law Credits: 3
- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- ECON 310 - Money and Banking Credits: 3
- ECON 335 - Environmental Economics Credits: 3
- ECON 390 - International Economics Credits: 3
- ECON 415 - Law and Economics Credits: 3
- GOVT 307 - Legislative Behavior Credits: 3
- GOVT 420 - American Political Thought Credits: 3
- GOVT 423 - Constitutional Law: Civil Rights and Liberties Credits: 3
- GOVT 446 - International Law and Organization Credits: 3
- GOVT 452 - Administrative Law and Procedures Credits: 3
- NCLC 204 - Leadership Theory and Practice Credits: 3
- NCLC 304 - Social Movements and Community Activism Credits: 4
- NCLC 305 - Conflict Resolution and Transformation Credits: 6
- NCLC 335 - Ethics, Communication, and Freedom Credits: 3-6
- NCLC 420 - Work Effectiveness Skills Credits: 3
- PHIL 254 - Contemporary Ethical Problems Credits: 3
- PHIL 309 - Bioethics Credits: 3
- SOCI 301 - Criminology Credits: 3
- SOCI 302 - Sociology of Delinquency Credits: 3
- SOCI 402 - Sociology of Punishment and Corrections Credits: 3
- SOCI 471 - Prevention and Deterrence of Crime Credits: 3

Total: 37-44 credits
Organizational Administration (OADM)

- NCLC 202 - Public Speaking and Critical Thinking Skills Credits: 4 or COMM 320 - Business and Professional Communication Credits: 3 or COMM 335 - Organizational Communication Credits: 3
- PSYC 231 - Social Psychology Credits: 3 or SOCI 304 - Sociology of Work and Occupations Credits: 3
- NCLC 305 - Conflict Resolution and Transformation Credits: 6 or NCLC 420 - Work Effectiveness Skills Credits: 3
- MSOM 302 - Managing Information in a Global Environment Credits: 3 or MIS 301 - Introduction to Business Information Systems Credits: 3 or NCLC 348 - Information in the Digital Age Credits: 6
- MSOM 303 - Marketing in a Global Economy Credits: 3 or MKTG 301 - Principles of Marketing Credits: 3 or NCLC 423 - Management in the Global Marketplace Credits: 6
- MSOM 300 - Managing Financial Resources Credits: 3 or FNAN 301 - Financial Management Credits: 3 or NCLC 431 - Principles of Fund Raising Credits: 4
- MSOM 301 - Managing People and Organizations Credits: 3 or MGMT 301 - People and Organizations Credits: 3 or NCLC 331 - The Nonprofit Sector Credits: 3

Three courses chosen from:

- ACCT 301 - Financial Accounting and Managerial Decision Making Credits: 3
- BULE 302 - Legal Environment of Business Credits: 3
- COMM 300 - Foundations of Public Communication Credits: 3
- FNAN 301 - Financial Management Credits: 3
- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 300 - Research Methods and Analysis Credits: 4
- GOVT 308 - The American Presidency Credits: 3
- GOVT 318 - Interest Groups, Lobbying, and the Political Process Credits: 3
- GOVT 351 - Administration in the Political System Credits: 3
- GOVT 358 - Nonprofit Financial Planning Credits: 4
- HEAL 314 - Community Health Issues and Strategies Credits: 3
- HEAL 350 - Interventions for Populations and Communities at Risk Credits: 3
- HEAL 372 - Health Communication Credits: 3
- HEAL 430 - Seminar in Exercise Science and Health Promotion Credits: 3
- HEAL 450 - Epidemiology and Environmental Health Credits: 3
- HEAL 470 - Community Health Systems Credits: 3
- MIS 301 - Introduction to Business Information Systems Credits: 3
- NCLC 249 - The Internet: Literacy, HTML Tools, and Virtual Community Credits: 4
- NCLC 305 - Conflict Resolution and Transformation Credits: 6
- NCLC 310 - Violence and Gender Credits: 3-6
- NCLC 330 - Enterprise Development Credits: 6
- NCLC 331 - The Nonprofit Sector Credits: 4
- NCLC 379 - Cancer and Its Social Impact Credits: 4
- NCLC 410 - Contemporary Health Issues Credits: 3-18
- NCLC 420 - Work Effectiveness Skills Credits: 3
- NCLC 431 - Principles of Fund Raising Credits: 4
- NCLC 440 - Death, Dying, and Decision Making Credits: 3
- PHED 200 - Professional Dimensions of Health, Recreation, and Physical Education Credits: 3
• PHIL 309 - Bioethics Credits: 3
• PRLS 310 - Program Planning and Design Credits: 3
• PSYC 231 - Social Psychology Credits: 3
• PSYC 324 - Personality Theory Credits: 3
• PSYC 418 - Death, Dying, and Grieving Credits: 3
• RELI 341 - Global Perspectives on Spirituality and Healing Credits: 3
• RELI 401 - Death and the Afterlife in World Religions Credits: 3
• SOCI 383 - Human Services in Society Credits: 3
• SOCI 390 - Sociology of Health, Illness, and Disability Credits: 3
• SOCI 441 - The Sociology of Aging Credits: 3
• SOCW 351 - Social Policy and Social Justice I Credits: 3
• SOCW 352 - Social Policy and Social Justice II Credits: 3
• TOUR 200 - Introduction to Travel and Tourism Credits: 3
• TOUR 312 - Ecotourism Credits: 3
• TOUR 330 - Resort Management Credits: 3
• TOUR 340 - Sustainable Tourism Credits: 3
• TOUR 352 - Heritage and Cultural Tourism Credits: 3
• TOUR 412 - Tourism and Events Marketing Credits: 3
• TOUR 440 - Meetings and Conventions Credits: 3

Total: 30-51 credits

▲ Public and Community Engagement (PCE)

• NCLC 231 - Introduction to Community Studies Credits: 4
• NCLC 304 - Social Movements and Community Activism Credits: 4 or NCLC 346 - Art as Social Action Credits: 4
• NCLC 305 - Conflict Resolution and Transformation Credits: 6 or CONF 101 - Conflict and Our World Credits: 3
• NCLC 320 - Construction of Differences: Race, Class, and Gender Credits: 6 or NCLC 361 - Neighborhood, Community, and Identity Credits: 6

Five courses chosen from:

• ANTH 385 - Gender, Class, and Ethnicity in Latin America Credits: 3
• ANTH 488 - Gender, Sexuality, and Culture Credits: 3
• ARTH 311 - Design of Cities Credits: 3
• ARTH 315 - Modern Architecture Credits: 3
• ARTH 371 - American Architecture and Material Culture Credits: 3
• CONF 101 - Conflict and Our World Credits: 3
• CRIM 302 - Delinquency Credits: 3
• CRIM 306 - Criminal Justice Ethics Credits: 3
• CRIM 402 - Punishment and Corrections Credits: 3  
• CRIM 404 - Crime Victims and Victimization Credits: 3  
• CRIM 405 - Law and Justice around the World Credits: 3  
• CRIM 406 - Family Law and the Justice System Credits: 3  
• CRIM 409 - Community Policing Credits: 3  
• CRIM 460 - Surveillance and Privacy in Contemporary Society Credits: 3  
• CRIM 471 - Prevention and Deterrence of Crime Credits: 3  
• CRIM 475 - Theory and Politics of Terrorism Credits: 3  
• GGS 304 - Populations Dimensions of Global Change Credits: 3  
• GGS 305 - Economic Geography Credits: 3  
• GGS 306 - Urban Geography Credits: 3  
• GGS 315 - Geography of the United States Credits: 3  
• GGS 316 - Geography of Latin America Credits: 3  
• GGS 320 - Geography of Europe Credits: 3  
• GGS 357 - Structures in Urban Governance and Planning Credits: 3  
• GGS 380 - Geography of Virginia Credits: 3  
• GGS 406 - Suburban Geography Credits: 3  
• GOVT 351 - Administration in the Political System Credits: 3  
• GOVT 358 - Nonprofit Financial Planning Credits: 4  
• GOVT 359 - Computers in Public Management Credits: 3  
• HEAL 205 - Principles of Accident Causation and Prevention Credits: 4  
• HEAL 314 - Community Health Issues and Strategies Credits: 3  
• HEAL 323 - Program Leadership and Evaluation Credits: 3  
• HEAL 327 - Women's Health Credits: 3  
• HEAL 330 - Nutrition Credits: 3  
• HEAL 350 - Interventions for Populations and Communities at Risk Credits: 3  
• HEAL 370 - Health Determinants and Status Credits: 3  
• HEAL 372 - Health Communication Credits: 3  
• HEAL 430 - Seminar in Exercise Science and Health Promotion Credits: 3  
• HEAL 450 - Epidemiology and Environmental Health Credits: 3  
• MGMT 301 - People and Organizations Credits: 3  
• MSOM 301 - Managing People and Organizations Credits: 3  
• MSOM 303 - Marketing in a Global Economy Credits: 3  
• NCLC 249 - The Internet: Literacy, HTML Tools, and Virtual Community Credits: 4  
• NCLC 306 - Our Common Futures Credits: 3-6  
• NCLC 310 - Violence and Gender Credits: 3-6  
• NCLC 315 - Spirituality and Conflict Transformation Credits: 6  
• NCLC 331 - The Nonprofit Sector Credits: 4  
• NCLC 340 - Progress: Can America Figure Out What It Means? Credits: 3-6  
• NCLC 360 - The Built Environment Credits: 6  
• NCLC 379 - Cancer and Its Social Impact Credits: 4  
• NCLC 410 - Contemporary Health Issues Credits: 3-18  
• NCLC 431 - Principles of Fund Raising Credits: 4  
• PHED 200 - Professional Dimensions of Health, Recreation, and Physical Education Credits: 3  
• PHIL 309 - Bioethics Credits: 3  
• PHIL 338 - Woman: The Philosophical Questions Credits: 3  
• PRLS 310 - Program Planning and Design Credits: 3
- PSYC 418 - Death, Dying, and Grieving Credits: 3
- RELI 341 - Global Perspectives on Spirituality and Healing Credits: 3
- RELI 401 - Death and the Afterlife in World Religions Credits: 3
- RELI 407 - Women in the World's Religions Credits: 3
- SOCI 301 - Criminology Credits: 3
- SOCI 302 - Sociology of Delinquency Credits: 3
- SOCI 307 - Social Movements and Political Protest Credits: 3
- SOCI 309 - Marriage, Families, and Intimate Life Credits: 3
- SOCI 315 - Sex and Gender in Contemporary Society Credits: 3
- SOCI 332 - Sociology of Urban Communities Credits: 3
- SOCI 350 - Community, Diversity, and Democracy: A Practicum Credits: 3
- SOCI 383 - Human Services in Society Credits: 3
- SOCI 390 - Sociology of Health, Illness, and Disability Credits: 3
- SOCI 402 - Sociology of Punishment and Corrections Credits: 3
- SOCI 421 - Field Work in Social Change Credits: 3
- SOCI 441 - The Sociology of Aging Credits: 3
- SOCI 471 - Prevention and Deterrence of Crime Credits: 3
- SOCI 475 - Women and the Law Credits: 3
- SOCW 351 - Social Policy and Social Justice I Credits: 3
- SOCW 352 - Social Policy and Social Justice II Credits: 3
- USST 301 - Urban Growth in a Shrinking World Credits: 3
- USST 390 - Special Topics in Urban and Suburban Studies Credits: 3
- USST 401 - Seminar: The Future of Metropolitan America Credits: 3
- Any WMST course

Total: 32-50 credits

▲ Social Science for Education (SSED)

- 6 credits of ECON courses
- HIST 121 - Formation of the American Republic Credits: 3
- HIST 321 - Early Modern England Credits: 3 or HIST 322 - Modern Britain Credits: 3
- HIST 125 - Introduction to World History Credits: 3 or HIST 130 - History of the Modern Global System Credits: 3 or
  NCLC 201 - The World Since 1945 Credits: 6
- HIST 391 - History of Virginia to 1800 Credits: 3 or HIST 392 - History of Virginia Since 1800 Credits: 3 or
  HIST 122 - Development of Modern America Credits: 3

6 credits chosen from:

- any upper-level HIST course
- NCLC 301 - Science in the News Credits: 3
- NCLC 312 - Images and Experiences of Childhood: Social Construct, Literature, and Film Credits: 3-6

9 credits chosen from:

- any GGS course
- NCLC 340 - Progress: Can America Figure Out What It Means? Credits: 3-6
- NCLC 341 - Progress: Washington, the New Edge City? Credits: 6
- NCLC 360 - The Built Environment Credits: 6

18 credits chosen from:

- any GOVT course
- NCLC 422 - An Experiential Approach to American Foreign Policy Credits: 3-6

Total: 51-54 credits

▲ Individualized Concentration (IND)

With approval of the undergraduate director, students may construct an individualized concentration.

Total: minimum 30 credits

Integrative Studies, BS

Banner Codes: LA-BS-INTS

Web: ncc.gmu.edu

The bachelor of science degree in integrative studies is based on intensive, interdisciplinary learning communities coordinated with traditional academic programs. The result is an integrated program of study that emphasizes collaboration, experiential learning, and self-reflection. The degree program requires mastery of nine essential competencies: communication, valuing, global understanding, problem solving, group interaction, effective citizenship, aesthetic awareness, critical thinking, and information technology. The competencies are assessed through freshman and graduation portfolios.

Students in this degree program who are admitted to Mason Cornerstones complete university general education as specified below. They must complete Cornerstones and the 24 credits of learning communities with a minimum GPA of 2.00 in order to be able to use them to fulfill general education requirements.
• Completion of Mason Cornerstones: lower-level written communication (ENGL 101), oral communication, information technology, arts, natural science (non laboratory), global understanding, social and behavioral sciences
• Completion of 24 credits of learning communities: upper-level written communication (ENGL 302), writing-intensive course
• Completion of coursework specifically approved for these requirements: Western civilization or world history, quantitative reasoning, natural science (with laboratory)
• NCLC 491: synthesis

Students who are not admitted to Mason Cornerstones need to complete the general education requirements as specified in the College of Humanities and Social Sciences chapter of the catalog. Students who transfer into New Century College should consult with an advisor on what they need to take to complete university general education requirements.

This program of study is offered by New Century College.

Students must fulfill all requirements for bachelor's degrees. For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements

Learning communities (24 credits)

Learning communities are interdisciplinary courses that combine subjects often taught in separate courses into a single course of 3-9 credits. In learning communities, faculty and students explore various ways to understand a topic. Learning communities are structured to help promote a greater sense of identity with an academic community. Hallmarks of New Century College learning communities are team teaching, collaborative projects, emphasis on writing and critical thinking, and opportunity for independent study. They often include experiential learning, either as an integral part of the class or as an optional add on.

Experiential learning (12 credits)

The requirement in experiential learning reflects New Century College’s commitment to provide educational experiences that prepare graduates for the workplace and the demands of active and responsible citizenship. The workplace is as viewed as a site of instruction, one where students are exposed to the variety of skills needed to succeed. Through experiential learning, students combine work experience with academic study so that each will enrich the other.

Experiential learning includes include internships, study abroad, community service learning, course field trips, and other field study opportunities. The learning sites may change each semester and are usually off campus. George Mason provides student liability insurance for the experiential learning internship, but students are responsible for their own transportation and health care. Accident and health insurance is available from George Mason.

No more than 24 credits of experiential learning can count toward a student’s total credits for graduation.

Concentration (minimum 30 credits)

A concentration is the equivalent of a major in a traditional degree program. Students chose from an established interdisciplinary concentration below or create with faculty an individualized program of study to fit their interests and needs. The coursework for the concentration consists of traditional courses, learning communities, independent study, and experiential learning. Students must present a minimum GPA of 2.00 in courses applied to the concentration.

Electives (0-15 credits)
If courses are taken that fulfill more than one degree requirement (e.g. Learning Community, Experiential Learning, General Education, Concentration), additional electives will be needed to reach the 120 credit minimum.

College senior exposition

Students complete their senior exposition through NCLC 491, which they must take the semester prior to graduation.

- NCLC 491 - The Senior Capstone Experience Credits: 3

Cumulative portfolio

The cumulative portfolio is reviewed by New Century College faculty.

Concentrations

▲ Conservation Studies (CNST)

Core courses in conservation studies

Students may complete this requirement through regular coursework or through the Smithsonion-Mason Semester Program.

Regular Coursework

- NCLC 211 - Introduction to Conservation Studies Credits: 3-6
- NCLC 401 - Conservation Biology Credits: 6
- EVPP 336 - Human Dimensions of the Environment Credits: 3

Smithsonian-Mason Semester Program

Students complete 16 credits offered through the Mason Center for Conservation Studies in cooperation with the Smithsonian Conservation Biology Institute. In this integrated series of courses, taken together in one semester, students live on site at the institute in Front Royal, VA. Students who apply this coursework to the concentration cannot also apply it to the minor in Applied Conservation Studies.

- CONS 320 - Conservation in Practice Credits: 3
- CONS 401 - Conservation Theory Credits: 3
- CONS 402 - Applied Conservation Credits: 4
- CONS 410 - Human Dimensions in Conservation Credits: 3
- CONS 490 - Integrated Conservation Strategies Credits: 3
Five courses (20 credits) in biology and ecology

- BIOL 213 - Cell Structure and Function Credits: 4
- BIOL 303 - Animal Biology Credits: 4
- BIOL 304 - Plant Biology Credits: 4
- BIOL 307 - Ecology Credits: 4
- BIOL 311 - General Genetics Credits: 4 or BIOL 377 - Applied Ecology Credits: 3

One course in statistics chosen from:

- BIOL 312 - Biostatistics Credits: 4
- STAT 250 - Introductory Statistics I Credits: 3

Two courses chosen from:

In addition to the courses below, NCLC 375, 395, and 398 may be applied to the concentration when the topic is relevant to conservation studies.

- NCLC 220 - Energy and Environment Credits: 3-6
- NCLC 305 - Conflict Resolution and Transformation Credits: 6
- NCLC 307 - Narratives of Nature Credits: 6
- NCLC 308 - American Landscapes in Fiction, Film, and History Credits: 6
- NCLC 311 - The Mysteries of Migration: Consequences for Conservation Credits: 6
- NCLC 331 - The Nonprofit Sector Credits: 4
- NCLC 334 - Environmental Justice Credits: 4

Total: 45-52 credits

▲ Life Sciences (LIFS)

Preoccupational therapy emphasis:

- One SOCI course (3 credits)
- BIOL 124 - Human Anatomy and Physiology Credits: 4
- BIOL 125 - Human Anatomy and Physiology Credits: 4
• PHIL 151 - Introduction to Ethics Credits: 3 or PHIL 309 - Bioethics Credits: 3
• PSYC 100 - Basic Concepts in Psychology Credits: 3
• PSYC 211 - Developmental Psychology Credits: 3
• PSYC 325 - Abnormal Psychology Credits: 3
• STAT 250 - Introductory Statistics I Credits: 3

One course chosen from:

• NCLC 378 - Medicine, Justice, and Public Policy Credits: 3
• NCLC 379 - Cancer and Its Social Impact Credits: 4
• NCLC 410 - Contemporary Health Issues Credits: 3-18
• NCLC 440 - Death, Dying, and Decision Making Credits: 3

Premedical emphasis:

• BIOL 213 - Cell Structure and Function Credits: 4
• BIOL 303 - Animal Biology Credits: 4
• an additional 6 credits of BIOL
• CHEM 211 - General Chemistry Credits: 4
• CHEM 212 - General Chemistry Credits: 4
• CHEM 313 - Organic Chemistry Credits: 3 and CHEM 315 - Organic Chemistry Lab I Credits: 2
• CHEM 314 - Organic Chemistry Credits: 3 and CHEM 318 - Organic Chemistry Lab II Credits: 2
• MATH 110 - Introductory Probability Credits: 3 or MATH 113 - Analytic Geometry and Calculus I Credits: 4
• MATH 111 - Linear Mathematical Modeling Credits: 3 or MATH 114 - Analytic Geometry and Calculus II Credits: 4
• PHYS 243 - College Physics Credits: 3 and PHYS 244 - College Physics Lab Credits: 1
• PHYS 245 - College Physics Credits: 3 and PHYS 246 - College Physics Lab Credits: 1
• PHIL 151 - Introduction to Ethics Credits: 3 or PHIL 309 - Bioethics Credits: 3

Predental emphasis:

• BIOL 103 - Introductory Biology I Credits: 4
• BIOL 213 - Cell Structure and Function Credits: 4
• CHEM 211 - General Chemistry Credits: 4
• CHEM 212 - General Chemistry Credits: 4
• CHEM 313 - Organic Chemistry Credits: 3
• CHEM 315 - Organic Chemistry Lab I Credits: 2
• CHEM 314 - Organic Chemistry Credits: 3
• CHEM 318 - Organic Chemistry Lab II Credits: 2
• CHEM 463 - General Biochemistry I Credits: 4
• CHEM 465 - Biochemistry Lab Credits: 2
• PHYS 103 - Physics and Everyday Phenomena I Credits: 4 or PHYS 243 - College Physics Credit: 3 and PHYS 244 - College Physics Lab Credits: 1
• PHYS 104 - Physics and Everyday Phenomena II Credits: 4
or PHYS 245 - College Physics Credits: 3 and PHYS 246 - College Physics Lab Credits: 1

• PHIL 151 - Introduction to Ethics Credits: 3 or PHIL 309 - Bioethics Credits: 3

Prepharmacy emphasis:

• BIOL 103 - Introductory Biology I Credits: 4
• BIOL 213 - Cell Structure and Function Credits: 4
• CHEM 211 - General Chemistry Credits: 4
• CHEM 212 - General Chemistry Credits: 4
• CHEM 313 - Organic Chemistry Credits: 3
• CHEM 315 - Organic Chemistry Lab I Credits: 2
• CHEM 314 - Organic Chemistry Credits: 3
• CHEM 318 - Organic Chemistry Lab II Credits: 2
• MATH 113 - Analytic Geometry and Calculus I Credits: 4
• MATH 114 - Analytic Geometry and Calculus II Credits: 4
• PHIL 151 - Introduction to Ethics Credits: 3 or PHIL 309 - Bioethics Credits: 3
• PHYS 103 - Physics and Everyday Phenomena I Credits: 4 
  or PHYS 243 - College Physics Credits: 3 and PHYS 244 - College Physics Lab Credits: 1
• PHYS 104 - Physics and Everyday Phenomena II Credits: 4
  or PHYS 245 - College Physics Credits: 3 and PHYS 246 - College Physics Lab Credits: 1
• STAT 250 - Introductory Statistics I Credits: 3

Prephysical therapy emphasis:

• BIOL 103 - Introductory Biology I Credits: 4
• BIOL 124 - Human Anatomy and Physiology Credits: 4
• BIOL 125 - Human Anatomy and Physiology Credits: 4
• PSYC 100 - Basic Concepts in Psychology Credits: 3
• STAT 250 - Introductory Statistics I Credits: 3
• CHEM 103 - Chemical Science in a Modern Society Credits: 4 or CHEM 211 - General Chemistry Credits: 4
• CHEM 104 - Introduction to Organic, Biochemical, Pharmacological, and Fuel Chemistry Credits: 4 or CHEM 212 - General Chemistry Credits: 4
• PHIL 151 - Introduction to Ethics Credits: 3 or PHIL 309 - Bioethics Credits: 3
• PHYS 103 - Physics and Everyday Phenomena I Credits: 4
  or PHYS 243 - College Physics Credits: 3 and PHYS 244 - College Physics Lab Credits: 1
• PHYS 104 - Physics and Everyday Phenomena II Credits: 4
  or PHYS 245 - College Physics Credits: 3 and PHYS 246 - College Physics Lab Credits: 1
• PSYC 211 - Developmental Psychology Credits: 3 or PSYC 325 - Abnormal Psychology Credits: 3

Prephysician's assistant emphasis:

• BIOL 124 - Human Anatomy and Physiology Credits: 4
• BIOL 125 - Human Anatomy and Physiology Credits: 4
• BIOL 213 - Cell Structure and Function Credits: 4
• BIOL 246 - Introductory Microbiology Credits: 3
- BIOL 313 - Human Genetics for the Social Sciences Credits: 3
- CHEM 211 - General Chemistry Credits: 4
- CHEM 212 - General Chemistry Credits: 4
- CHEM 313 - Organic Chemistry Credits: 3
- CHEM 315 - Organic Chemistry Lab I Credits: 2
- CHEM 463 - General Biochemistry I Credits: 4
- CHEM 465 - Biochemistry Lab Credits: 2
- PSYC 100 - Basic Concepts in Psychology Credits: 3
- PSYC 211 - Developmental Psychology Credits: 3
- STAT 250 - Introductory Statistics I Credits: 3
- PHIL 151 - Introduction to Ethics Credits: 3 or PHIL 309 - Bioethics Credits: 3

Total: 30-51 credits

▲ Natural Science for Education (NSED)

- Any PHYS course
- BIOL 103 - Introductory Biology I Credits: 4 or BIOL 104 - Introductory Biology II Credits: 4
- CHEM 211 - General Chemistry Credits: 4
- CHEM 212 - General Chemistry Credits: 4
- GEOL 101 - Introductory Geology I Credits: 4

One course chosen from:

- MATH 106 - Quantitative Reasoning Credits: 3
- MATH 113 - Analytic Geometry and Calculus I Credits: 4
- MATH 114 - Analytic Geometry and Calculus II Credits: 4
- MATH 213 - Analytic Geometry and Calculus III Credits: 3
- MATH 214 - Elementary Differential Equations Credits: 3
- STAT 250 - Introductory Statistics I Credits: 3

Six courses chosen from:

- ASTR 111 - Introductory Astronomy: The Solar System Credits: 3
- ASTR 112 - Introductory Astronomy Lab: The Solar System Credits: 1
- ASTR 113 - Introductory Astronomy: Stars, Galaxies, and the Universe Credits: 3
- ASTR 114 - Introductory Astronomy Lab: Stars, Galaxies, and the Universe Credits: 1
- BIOL 124 - Human Anatomy and Physiology Credits: 4
- BIOL 125 - Human Anatomy and Physiology Credits: 4
- BIOL 213 - Cell Structure and Function Credits: 4
- BIOL 303 - Animal Biology Credits: 4
- BIOL 304 - Plant Biology Credits: 4
- BIOL 307 - Ecology Credits: 4
- CHEM 313 - Organic Chemistry Credits: 3
- CHEM 315 - Organic Chemistry Lab I Credits: 2
- CHEM 314 - Organic Chemistry Credits: 3
- CHEM 318 - Organic Chemistry Lab II Credits: 2
- CHEM 321 - Elementary Quantitative Analysis Credits: 4
- CHEM 331 - Physical Chemistry I Credits: 3
- CHEM 336 - Physical Chemistry Lab I Credits: 2
- CHEM 332 - Physical Chemistry II Credits: 3
- CHEM 337 - Physical Chemistry Lab II Credits: 2
- CHEM 341 - Fundamental Inorganic Chemistry Credits: 3
- GEOL 102 - Introductory Geology II Credits: 4
- GEOL 309 - Introduction to Oceanography Credits: 3
- GGS 102 - Physical Geography Credits: 3
- GGS 309 - Meteorology and Climate Credits: 3

Total: 40-48 credits

▲ Individualized Concentration (IND)

With approval of the undergraduate director, students may construct an individualized concentration.

Total: minimum 30 credits

Undergraduate Interdisciplinary Minor

Multimedia Minor

Banner Code: MM

Phone: 703-993-4318

Faculty

Cambridge (co-coordinator), Chung, Higgins, Lont, Martin, O’Connor, L. Smith (co-coordinator), Weinberger, White

In the multimedia minor, students learn how to create original work and communicate with others through the fusion of images, text, sound, and video. Students analyze and incorporate into their productions contemporary design principles and current software applications. As part of this process, students are encouraged to focus on how multimedia technologies, which offer new tools for investigating and disseminating ideas, can enhance undergraduate research and writing. These skills, now important in
most academic disciplines, are also increasingly valuable not only in the specialized information technology industries, but also in business, education, and politics.

This minor is not available to students majoring in AVT with a concentration in digital arts.

This program of study is an interdisciplinary minor offered by New Century College.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 to 20 credits.

Core courses (8-9 credits):

- AVT 104 - Studio Fundamentals I Credits: 4
- COMM 157 - Video Workshop Credits: 1 (Students may not enroll in COMM 157 if they have already completed COMM 355.)
  or
- NCLC 195 - Field-Based Work Credits: 1-6
  (Students complete 1 credit of this course.)

and one course chosen from:

- AVT 180 - Computers in the Creative Arts Credits: 3
- NCLC 249 - The Internet: Literacy, HTML Tools, and Virtual Community Credits: 4 (Students complete 4 credits of this course.)

Elective courses (8-10 credits)

No more than six credits can be taken in any one college or department.

- AVT 280 - Introduction to Digital Arts Credits: 4
- AVT 382 - Digital Art and Animation Credits: 4
- COMM 355 - Video Principles and Practices Credits: 3
- COMM 360 - Video Editing Credits: 3
- COMM 435 - Computers and Communication Credits: 3
- NCLC 345 - Introduction to Multimedia Credits: 5
- ENGL 343 - Rhetoric and New Media Credits: 3
  or
- NCLC 343 - Interactive Digital Texts Credits: 3
- ENGL 344 - Digital Creative Writing Credits: 3
- ENGL 497 - Special Topics in Creative Writing Credits: 3
- NCLC 348 - Information in the Digital Age Credits: 6
- NCLC 349 - Writing for Multimedia Credits: 4
- NCLC 445 - Multimedia Design Credits: 5

Total: 18-20 credits

Science and Society Minor

Banner Code: SCSO

Web: scienceandsociety.gmu.edu

Phone: 703-993-9621

Faculty

Bitler, Dunne (director), Fox, Jacobsen, Kinnaman, McAuley, Rutledge, Rowan, Smith, Thompson

Through the course work in this minor students explore the effect of science in their daily lives and develop an understanding of the multiple ways that science is integrated into different, nonscience disciplines. As a prerequisite to the minor, students should have completed their general education science requirement of 7 to 8 credits.

Students start with NCLC 215 - Introduction to Science and Society, which provides them with a broad overview of related topics and helps them to develop their individualized core of courses, and end with a capstone NCLC 415 - Perspectives on Science and Society, in which they demonstrate what they have learned through their course of study.

This program of study is an interdisciplinary minor offered by New Century College.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Two core courses in science and society (3 credits)

- NCLC 215 - Introduction to Science and Society Credits: 2
- NCLC 415 - Perspectives on Science and Society Credits: 1

One learning community (6-9 credits) chosen from:
Electives (6-9 credits)

Students choose electives during the core course NCLC 215 and in consultation with the director of the minor.

Total: 18 credits

Undergraduate Minor

Childhood Studies Minor

Banner Code: CHDS

The minor in childhood studies is designed for students who have a child-related focus in their major and for those who want to explore the topic of childhood. This minor focuses on the study of issues concerning children and their representations, including their experiences in society within historical and contemporary cultures and global contexts. The curriculum fosters thinking about childhood theory, research, policy -- and the practical applications of this knowledge to decisions regarding children and youth. The minor provides enough flexibility for students to choose relevant courses in keeping with their primary interests.

This program of study is offered by New Century College.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Minor Requirements

Students must have a minimum grade of 2.00 in each of the courses applied to the minor.

Two core courses (at least 6 credits)

- NCLC 309 - Introduction to Childhood Studies Credits: 3
- NCLC 312 - Images and Experiences of Childhood: Social Construct, Literature, and Film Credits: 3-6
  Only 4 credits of NCLC 312 may be applied to the minor.
Three elective courses (9 credits) chosen from:

- ANTH 315 - Socialization Processes: Family, Childhood, Personality in Cross-Cultural Perspective Credits: 3
- EDUC 302 - Human Growth and Development Credits: 3
- EDUC 372 - Human Development, Learning, and Teaching Credits: 3
- NCLC 317 - Issues in Family Relationships Credits: 4
- PSYC 211 - Developmental Psychology Credits: 3
- PSYC 313 - Child Psychology Credits: 3
- PSYC 314 - Adolescent Psychology Credits: 3
- PSYC 414 - Behavior Disorders of Childhood Credits: 3
- SOCI 302 - Sociology of Delinquency Credits: 3
- SOCI 309 - Marriage, Families, and Intimate Life Credits: 3
- SOCI 360 - Youth Culture and Society Credits: 3
- SOCW 415 - Child and Family Welfare Credits: 3
- SOCW 423 - Social Work with Children and Adolescents Credits: 3

Total: 15 credits

Consciousness and Transformation Minor

Banner Code: CNTR

The minor in consciousness and transformation provides students with a well-grounded understanding of the nature of human consciousness, including both the historical foundations and modern research findings. Through the required coursework, students develop an ability to implement personal practices that foster deeper self-awareness, the regulation of stress factors in his or her life, and an emerging sense of meaning for his or her life. Students will be learn to creatively and effectively apply principles from the exploration of consciousness and transformation to his or her own field of study.

This program of study is offered by New Century College.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Requirements

Students must have a minimum grade of 2.00 in each course applied to the minor.

Two core courses (6 credits)

- NCLC 355 - Consciousness, Meaning and Life Purpose Credits: 3
NCLC 455 - Consciousness and Transformation in Action Credits: 3

Two to three electives courses (minimum 9 credits) chosen from:

- ANTH 400 - Engaging the World: Anthropological Perspectives Credits: 3
- AVT 204 - Visual Thinking Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3
- GCH 350 - Health Education Credits: 3
- MUSI 401 - Impact of the Arts on Civilization Credits: 3
- NCLC 305 - Conflict Resolution and Transformation Credits: 6
- NCLC 315 - Spirituality and Conflict Transformation Credits: 6
- NCLC 346 - Art as Social Action Credits: 4
- NCLC 404 - Ethics and Leadership Credits: 4
- NCLC 435 - Leadership in a Changing Environment Credits: 4
- NCLC 446 - Art, Beauty, and Culture Credits: 3-6
- PHIL 378 - Reason, Science and Faith in the Modern Age Credits: 3
- PRLS 300 - People with Nature Credits: 3
- RELI 337 - Mysticism: East and West Credits: 3
- RELI 341 - Global Perspectives on Spirituality and Healing Credits: 3
- THR 395 - Theater as the Life of the Mind Credits: 3
- UNIV 442 - Krasnow Seminar Credits: 3

Total: 15 credits

Leadership Minor

Banner Code: LSHP

Web: ncc.gmu.edu

Faculty

Holder, Lucas, Owen

The minor in leadership helps prepare students to lead effectively in the 21st century. It provides a broad understanding of leadership in contemporary society and emphasizes civic engagement. Through the required course work, students examine theories of leadership, analyze methods and styles of leadership, and participate in experiences to develop their own leadership skills. Students demonstrate what they have learned through community service-learning to Mason and the greater Washington, D.C., metropolitan area.

The minor in leadership may be pursued concurrently with any undergraduate major.

This program of study is offered by New Century College.
Course Work

Three required core courses (11 credits):

Students complete 4 credits of NCLC 375, when topic is appropriate and approved for the minor.

- NCLC 204 - Leadership Theory and Practice Credits: 3
- NCLC 375 - Special Topics Credits: 1-18
- NCLC 435 - Leadership in a Changing Environment Credits: 4

One course (at least 1 credit) of experiential learning:

May be fulfilled through an approved internship, community service course, or other course work that includes experiential learning. This may include offerings under NCLC 195, 395, or UNIV 300. Students need prior written approval of the director of the minor to apply an experiential learning course to this requirement.

At least one elective course (3 to 4 credits) chosen from:

Other courses may be applied to the this requirement with prior written approval of the director.

- AVT 309 - Art as Social Action Credits: 3
- NCLC 346 - Art as Social Action Credits: 4
- AVT 370 - Entrepreneurship in the Arts Credits: 4
- CONF 300 - Conflict Resolution Techniques and Practice Credits: 3
- EDUC 303 - Politics of American Education Credits: 3
- EVPP 361 - Introduction to Environmental Policy Credits: 3
- FNAN 401 - Advanced Financial Management Credits: 3
- GOVT 430 - Comparative Political Leadership Credits: 3
- HEAL 323 - Program Leadership and Evaluation Credits: 3
- NURS 436 - Leadership and Management of Health Care Credits: 3
- IT 304 - IT in the Global Economy Credits: 3
- MGMT 413 - Organizational Development and Management Consulting Credits: 3
- MIS 435 - Knowledge Management Credits: 3
- MKTG 471 - Marketing Management Credits: 3
- MLSC 300 - Applied Leadership I Credits: 0 or 1
- MLSC 400 - Leadership and Management Credits: 3
- MLSC 401 - Leadership and Ethics Credits: 3
- MSOM 301 - Managing People and Organizations Credits: 3
- MSOM 302 - Managing Information in a Global Environment Credits: 3
- MSOM 305 - Managing in a Global Economy Credits: 3
- MSOM 306 - Managing Projects and Operations Credits: 3
- PRLS 316 - Outdoor Education and Leadership Credits: 3
- PSYC 231 - Social Psychology Credits: 3
Nonprofit Studies Minor

Banner Code: NPS

Web: ncc.gmu.edu

Faculty

Benjamin, Sacco, Sweetman (coordinator), Toepler

The minor in nonprofit studies introduces students to the theories and practical realities of working in the American nonprofit or charitable sector. The required course work highlights the historical, legal, and social foundations of nonprofit organizations and their operating characteristics. It focuses on distinctive issues such as mission-drive management, earned and unearned revenue, and volunteerism. Elective courses and experiential learning encourage students to explore their professional and personal interests.

Each of the core courses is writing intensive with a requirement of at least 3,500 words in logs, essays, and analyses. At the end of the program, writing assignments are aggregated with a cover document into a portfolio that documents the student’s experience in studying the nonprofit world.

This program of study is offered by New Century College.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Three core courses (11-12 credits)

Two required core courses (8 credits)

These courses are approved by New Century College to earn experiential learning credits.

- NCLC 331 - The Nonprofit Sector Credits: 4
- NCLC 431 - Principles of Fund Raising Credits: 4
Additional course (3 to 4 credits) chosen from:

- GOVT 358 - Nonprofit Financial Planning Credits: 4
- NCLC 435 - Leadership in a Changing Environment Credits: 4
- CONF 101 - Conflict and Our World Credits: 3
- CONF 300 - Conflict Resolution Techniques and Practice Credits: 3
- NCLC 305 - Conflict Resolution and Transformation Credits: 6
- NCLC 375 - Special Topics Credits: 1-18 (This course can be applied to the requirement when the topic is relevant with prior written approval of the coordinator.)
- NCLC 395 - Field-Based Work Credits: 1-18 (This course can be applied to the requirement when the topic is relevant with prior written approval of the coordinator.)

Elective courses (3 to 4 credits) chosen from:

NCLC 304, 390, and 490 are approved by New Century College to earn experiential learning credits.

- AVT 370 - Entrepreneurship in the Arts Credits: 4
- COMM 300 - Foundations of Public Communication Credits: 3
- COMM 301 - Foundations of Interpersonal Communication Credits: 3
- COMM 335 - Organizational Communication Credits: 3
- ECON 309 - Economic Problems and Public Policies Credits: 3
- ENGL 410 - Professional and Technical Writing Credits: 3
- MSOM 301 - Managing People and Organizations Credits: 3
- NCLC 211 - Introduction to Conservation Studies Credits: 3-6
- NCLC 304 - Social Movements and Community Activism Credits: 4
- NCLC 340 - Progress: Can America Figure Out What It Means? Credits: 3-6
- NCLC 349 - Writing for Multimedia Credits: 4
- NCLC 410 - Contemporary Health Issues Credits: 3-18
- NCLC 422 - An Experiential Approach to American Foreign Policy Credits: 3-6
- SOCI 492 - Sociology of Organizations Credits: 3
- SOCW 352 - Social Policy and Social Justice II Credits: 3
- SOCW 483 - Selected Approaches to Social Work Intervention Credits: 3
- NCLC 375 - Special Topics Credits: 1-18 (This course can be applied to the requirement when the topic is relevant with prior written approval of the coordinator.)
- NCLC 390 - Internship Credits: 1-6 (This course can be applied to the requirement when the topic is relevant with prior written approval of the coordinator.)
- NCLC 490 - Internship Credits: 1-6 (This course can be applied to the requirement when the topic is relevant with prior written approval of the coordinator.)

Total: 15 credits
Philosophy

Phone: 703-993-1290
Web: philosophy.gmu.edu

Faculty

Professors: Bergoffen, Rothbart

Associate professors: Cherubin, De Nys, Eckenwiler, Froman, Holman, Kinnaman (chair), Light, Paden

Term professor: Boyd

Adjunct professors: D. Gregory, J. Miller, Oberoi, Register, Sigrist, Sojka, Van Camp

Course Work

This department offers all course work designated PHIL in the Courses chapter of this catalog.

Undergraduate Programs

The department offers a bachelor's degree in philosophy, which covers the major issues and areas in philosophy. It is intended to serve the needs of students who wish to pursue graduate studies in philosophy or emphasize philosophy while acquiring a broad liberal arts education. Majors in philosophy take courses in a variety of philosophical traditions and study logic, ethics, and social and political philosophy. With the skills of critical thinking, skillful writing, and analytical reasoning that are the hallmark of philosophy majors, students are well-prepared for a wide range of careers including law, government service, or graduate study.

The philosophy program can complement other interests of students when they complete a second major in another field. Students who plan to pursue more than one undergraduate major should work out a program of study in consultation with advisors from both majors and be familiar with the relevant policies for completing more than one major. See the Academic Policies chapter of the catalog.

In addition to the general degree in philosophy, students can choose a concentration in philosophy and law. This concentration offers philosophy majors the opportunity to focus their study of philosophy in a way that prepares them for the study of the law.

Honors in the Major

Highly qualified students may apply to the honors program in the major. Students can apply in their second semester as a junior, before they have completed 90 credits and should have a minimum GPA of 3.50 in the major. Eligible students should submit a transcript, one letter of recommendation from a member of the philosophy faculty, and one writing sample, a paper from one of the student’s courses in philosophy.

Students pursuing honors in the major complete 6 credits of honors course work in either PHIL 422, 425, or 471. To graduate with honors in philosophy, students must complete these courses with a minimum GPA of 3.50.

Minors
The department offers a minor in philosophy and a minor in philosophy and law. These minors are available to students in any major. The department, in cooperation with the Department of Public and International Affairs, coordinates the interdisciplinary minor in political philosophy. See the Minors and Interdisciplinary Minors section of this chapter.

**Bachelor’s/Accelerated Master’s Program**

The department offers highly qualified undergraduate majors in philosophy the opportunity to apply to an accelerated master’s degree program in philosophy. If accepted, students will be able to earn both the undergraduate and graduate degrees after satisfactory completion of 144 credits, generally within five years.

**Graduate Programs**

The department offers a master’s degree in traditional and contemporary philosophy with specialized concentrations in philosophy and cultural theory and in professional ethics. The degree is designed for students who want to further their professional goals or foster their intellectual development. It provides a solid preparation for advanced work in philosophy or other fields such as women and gender studies, cultural studies, or law. The degree provides grounding in the history of philosophy, ethics, metaphysics, epistemology, contemporary continental thought, contemporary analytic philosophy, and philosophy of science.

The focus on traditional and contemporary philosophy of the master's degree program provides students with a historical and pluralistic approach to philosophical questions. The concentration in professional ethics gives students the opportunity to explore the ethical and philosophical issues that arise in such professional fields of study and work as business, health care, scientific research, biomedical technology, and public policy. The concentration in philosophy and cultural theory provides students with a distinctive and important theoretical foundation for doctoral work in cultural studies.

Students are encouraged to pursue opportunities beyond the classroom such as study abroad, professional internships, and research with faculty members.

The department offers a graduate certificate in professional ethics for those students interested in combining the study of ethics in a variety of career settings. Students may earn the certificate as a stand alone program or pursue it concurrently with a graduate degree program. Part of the coursework for the certificate may be able to be applied also to a degree program with the approval of the graduate director of the degree program. Students must apply and be admitted to the graduate certificate program.

**Undergraduate Degree**

**Philosophy, BA**

**Banner Code:** LA-BA-PHIL

Web: philosophy.gmu.edu

The degree program in philosophy covers the major issues and areas in philosophy and serves the needs of students who wish to pursue graduate studies in philosophy or emphasize philosophy while acquiring a broad liberal arts education. Students can use this major as preparation for such professions as law or government service, or complement other interests by taking a double major in philosophy and a related field of study.

This program of study is offered by the Department of Philosophy.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.
Degree Requirements

In addition to satisfying university general education requirements and the requirements for a bachelor of arts degree in the College of Humanities and Social Sciences, students pursuing this degree must complete at least 33 credits in philosophy earning a minimum grade of 2.00 in each course. At least 21 credits must be at the 300 level or above, including at least 6 credits at the 400 level or above. No course may be used to fulfill more than one requirement.

When the subject matter is appropriate and with the prior written approval of the undergraduate director, PHIL 391, 392, 421, 425, or 426 may be used to fulfill the requirements in the analytic tradition, the continental tradition, or ethics and social and political philosophy.

BA in Philosophy with no Concentration

One course (3 credits) in logic chosen from:

- PHIL 173 - Logic and Critical Thinking Credits: 3
- PHIL 376 - Symbolic Logic Credits: 3

Two courses (6 credits) in history of philosophy

- PHIL 301 - History of Western Philosophy: Ancient Credits: 3
- PHIL 303 - History of Western Philosophy: Modern Credits: 3

One course (3 credits) in the analytic tradition chosen from:

- PHIL 332 - Twentieth-Century Analytic Philosophy Credits: 3
- PHIL 371 - Philosophy of Natural Sciences Credits: 3
- PHIL 373 - Theory of Knowledge Credits: 3
- PHIL 374 - Philosophy of Mind Credits: 3

One course (3 credits) in the continental tradition chosen from:

- PHIL 335 - Nineteenth-Century Philosophy Credits: 3
- PHIL 336 - Twentieth-Century Continental Thought: Existentialism Credits: 3
- PHIL 337 - Twentieth-Century Continental Thought: Phenomenology Credits: 3
- PHIL 340 - Hermeneutic Philosophy Credits: 3

One course (3 credits) in ethics and social and political philosophy chosen from:
• PHIL 309 - Bioethics Credits: 3
• PHIL 311 - Philosophy of Law Credits: 3
• PHIL 323 - Classical Western Political Theory Credits: 3
• PHIL 324 - Modern Western Political Theory Credits: 3
• PHIL 325 - Karl Marx's Social and Political Thought Credits: 3
• PHIL 327 - Contemporary Western Political Theory Credits: 3
• PHIL 343 - Issues in Environmental Ethics Credits: 3
• PHIL 355 - Theories of Ethics Credits: 3
• PHIL 429 - International Ethics Credits: 3
• PHIL 470 - Seminar: Philosophical Examination of Social Issues and the Law Credits: 3

Five elective courses (15 credits) in philosophy

Students choose electives from any philosophy courses including those listed above that are not used to meet another requirement.

Total: 33 credits

▲ Concentration in Philosophy and Law (PHLW)

The concentration in philosophy and law offers philosophy majors the opportunity to focus their study of philosophy in a way that prepares them for the study of the law.

In addition to the specific courses listed below, other relevant courses may be applied to the requirements for this concentration with prior written approval of the undergraduate director.

One course (3 credits) in logic chosen from:

• PHIL 173 - Logic and Critical Thinking Credits: 3
• PHIL 376 - Symbolic Logic Credits: 3

Two core courses (6 credits) in history of philosophy

• PHIL 301 - History of Western Philosophy: Ancient Credits: 3
• PHIL 303 - History of Western Philosophy: Modern Credits: 3

One course (3 credits) in the analytic tradition chosen from:
- PHIL 332 - Twentieth-Century Analytic Philosophy Credits: 3
- PHIL 371 - Philosophy of Natural Sciences Credits: 3
- PHIL 373 - Theory of Knowledge Credits: 3
- PHIL 374 - Philosophy of Mind Credits: 3

One course (3 credits) in the continental tradition chosen from:

- PHIL 335 - Nineteenth-Century Philosophy Credits: 3
- PHIL 336 - Twentieth-Century Continental Thought: Existentialism Credits: 3
- PHIL 337 - Twentieth-Century Continental Thought: Phenomenology Credits: 3
- PHIL 340 - Hermeneutic Philosophy Credits: 3

One course (3 credits) in philosophy and law

- PHIL 311 - Philosophy of Law Credits: 3

Two courses (6 credits) chosen from:

- PHIL 323 - Classical Western Political Theory Credits: 3
  or
  GOVT 323 - Classical Western Political Theory Credits: 3
- PHIL 324 - Modern Western Political Theory Credits: 3
  or
  GOVT 324 - Modern Western Political Theory Credits: 3
- PHIL 327 - Contemporary Western Political Theory Credits: 3
  or
  GOVT 327 - Contemporary Western Political Theory Credits: 3
- PHIL 428 - Advanced Democratic Theory Credits: 3
  or
  GOVT 428 - Advanced Democratic Theory Credits: 3
- GOVT 448 - Ethics and International Politics Credits: 3
- PHIL 429 - International Ethics Credits: 3
- PHIL 470 - Seminar: Philosophical Examination of Social Issues and the Law Credits: 3
Three elective courses in philosophy (9 credits)

Students choose electives from any philosophy courses including those listed above that are not used to meet another requirement.

Total: 33 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. All senior seminars in philosophy are writing intensive. Philosophy majors should consult the undergraduate director for other courses that can be taken to fulfill this requirement.

Undergraduate Interdisciplinary Minor

Political Philosophy Minor

Banner Code: PPHL

Phone: 703-993-1265

Faculty

Bergoffen, Cherubin, De Nys, Harbour, Mandaville, Miller, Paden (director), Snyder-Hall

The minor provides students with an intensive study of political philosophy and political theory. Students take courses on the history of political philosophy; the moral evaluation of political institutions; the ethical, social, and political issues raised by globalization; and the conceptual foundations of democracy and human rights. Through this coursework, students are able to study this field from a variety of interdisciplinary perspectives. They develop a deeper philosophical perspective on political institutions and have a solid foundation for further graduate study in philosophy, government, or policy studies.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Two core courses (6 credits) chosen from:

- PHIL 323 - Classical Western Political Theory Credits: 3
Three elective courses (9 credits)

Students choose electives from the courses below or above (if not used to meet the core requirement). Special topics courses and independent studies courses, when relevant, may also be used to fulfill elective credits with prior written approval of the director.

- PHIL 427 - Feminist Political Thought Credits: 3
- GOVT 427 - Feminist Political Thought Credits: 3
- PHIL 325 - Karl Marx's Social and Political Thought Credits: 3
- PHIL 429 - International Ethics Credits: 3
- GOVT 328 - Non-Western Political Theory Credits: 3
- GOVT 329 - Issues in Political Theories and Values Credits: 1-3
- GOVT 420 - American Political Thought Credits: 3
- GOVT 421 - Contemporary Political Ideologies Credits: 3
- GOVT 428 - Advanced Democratic Theory Credits: 3
- GOVT 448 - Ethics and International Politics Credits: 3

Total: 15 credits

Undergraduate Minor

Philosophy and Law Minor

Banner Code: PHLW

Web: philosophy.gmu.edu

The minor in philosophy and law offers students a course of study that emphasizes the philosophical analysis of legal issues. It acquaints students with the rich tradition of philosophical argument dealing with the justification of law, its relation to moral theory, the justifications for punishment, and the concepts of justice, rights, liberty, and legal responsibility. In addition, an education in philosophy in general, and these courses in particular, stress intellectual skills that are important in the study of law.
This program of study is offered by the Department of Philosophy.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Four required courses (12 credits)

- PHIL 173 - Logic and Critical Thinking Credits: 3
- PHIL 301 - History of Western Philosophy: Ancient Credits: 3
- PHIL 303 - History of Western Philosophy: Modern Credits: 3
- PHIL 311 - Philosophy of Law Credits: 3

Two elective courses (6 credits) chosen from:

One elective course may be chosen from other course work in philosophy with prior written approval of the undergraduate director.

- PHIL 323 - Classical Western Political Theory Credits: 3
  or
- GOVT 323 - Classical Western Political Theory Credits: 3

- PHIL 324 - Modern Western Political Theory Credits: 3
  or
- GOVT 324 - Modern Western Political Theory Credits: 3

- PHIL 327 - Contemporary Western Political Theory Credits: 3
  or
- GOVT 327 - Contemporary Western Political Theory Credits: 3

- PHIL 428 - Advanced Democratic Theory Credits: 3
  or
- GOVT 428 - Advanced Democratic Theory Credits: 3

- GOVT 448 - Ethics and International Politics Credits: 3
- PHIL 429 - International Ethics Credits: 3
- PHIL 470 - Seminar: Philosophical Examination of Social Issues and the Law Credits: 3

Total: 18 credits

Philosophy Minor
Students can take a general minor or one organized around specific emphases, each of which stresses a different aspect of philosophy. The emphasis in the history of philosophy is particularly useful to students in the humanities, especially those who wish to pursue graduate study. The emphasis in reality, knowledge, and science is especially beneficial for students majoring in the human and natural sciences. The emphasis in social and political philosophy is recommended for students who plan to pursue a career in law or politics.

This program of study is offered by the Department of Philosophy.

For policies governing all minors, see the Academic Policies chapter of this catalog.

**Course Work**

Students pursuing this minor must complete 18 credits in philosophy with a minimum grade of 2.00 in each course. No course may be used to fulfill more than one requirement.

**One course (3 credits) in logic chosen from:**

- PHIL 173 - Logic and Critical Thinking Credits: 3
- PHIL 376 - Symbolic Logic Credits: 3

**Two courses (6 credits) in history of philosophy:**

- PHIL 301 - History of Western Philosophy: Ancient Credits: 3
- PHIL 303 - History of Western Philosophy: Modern Credits: 3

**Three elective courses (9 credits) in philosophy**

At least 6 of the elective credits must be at the 300 level or above. Students may choose to focus their three electives in one of the emphases below.

**Emphasis in history of philosophy**

**One course (3 credits) in the history of philosophy chosen from:**

- PHIL 302 - History of Western Philosophy: Medieval Credits: 3
- PHIL 325 - Karl Marx's Social and Political Thought Credits: 3
- PHIL 332 - Twentieth-Century Analytic Philosophy Credits: 3
- PHIL 335 - Nineteenth-Century Philosophy Credits: 3
- PHIL 336 - Twentieth-Century Continental Thought: Existentialism Credits: 3
- PHIL 337 - Twentieth-Century Continental Thought: Phenomenology Credits: 3
Two elective courses (6 credits) in philosophy

Emphasis in reality, knowledge, and science

Two courses (6 credits) chosen from:

- PHIL 312 - Philosophy of Technology Credits: 3
- PHIL 337 - Twentieth-Century Continental Thought: Phenomenology Credits: 3
- PHIL 340 - Hermeneutic Philosophy Credits: 3
- PHIL 357 - Philosophy of the Social Sciences Credits: 3
- PHIL 371 - Philosophy of Natural Sciences Credits: 3
- PHIL 373 - Theory of Knowledge Credits: 3
- PHIL 374 - Philosophy of Mind Credits: 3
- PHIL 375 - Metaphysics Credits: 3
- PHIL 377 - Darwin: Biology and Beyond Credits: 3
- PHIL 378 - Reason, Science and Faith in the Modern Age Credits: 3

One elective course (3 credits) in philosophy

Emphasis in social and political philosophy

Three courses (9 credits) chosen from:

- PHIL 311 - Philosophy of Law Credits: 3
- PHIL 312 - Philosophy of Technology Credits: 3
- PHIL 323 - Classical Western Political Theory Credits: 3
- PHIL 324 - Modern Western Political Theory Credits: 3
- PHIL 325 - Karl Marx's Social and Political Thought Credits: 3
- PHIL 327 - Contemporary Western Political Theory Credits: 3
- PHIL 338 - Woman: The Philosophical Questions Credits: 3
- PHIL 470 - Seminar: Philosophical Examination of Social Issues and the Law Credits: 3

Total: 18 credits

Bachelor's/Accelerated Master's Program
Philosophy, BA/Philosophy, Accelerated MA

Web: philosophy.gmu.edu

Highly qualified Mason philosophy majors may apply to the accelerated master’s degree. If accepted, students will be able to earn bachelor’s and master’s degrees in philosophy after satisfactory completion of 144 credits, sometimes within five years.

This program of study is offered by the Department of Philosophy.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 90 credits.

Students must submit the Accelerated Master’s Program Application, available from the graduate director, along with any materials required by the department. The application includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the department for more details about the application process.

Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

 Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Master's Degree

Philosophy, MA
The master's degree in philosophy is designed for students who intend to pursue a doctorate in philosophy as well as for those who seek the master’s as a terminal degree, either in pursuit of their intellectual interests or to further their professional expertise. Students choose a master's degree with a focus on traditional and contemporary philosophy or one of two concentrations. All provide grounding in the history of philosophy, ethics, metaphysics, epistemology, contemporary continental thought, contemporary analytic philosophy, and philosophy of science.

This program of study is offered by the Department of Philosophy.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

**Application Requirements**

Applicants must meet admission standards and application requirements for graduate study at George Mason as specified in the Admission chapter of this catalog. Applicants to the MA in philosophy must submit three letters of recommendation, a statement of student goals in pursuing the degree, and a writing sample. Though GRE exams are not required, they are recommended, especially for those students planning to pursue a PhD in philosophy.

Applicants whose records are otherwise strong but who have not completed at least one undergraduate course in each of three core areas (logic, ancient philosophy, and modern philosophy) are expected to complete these courses before a final admission decision can be made. Upon completion of this course work, the program will re-open the application for admission at the applicant’s request. If the course work is completed within the next academic year, the application for admission will be re-opened without requiring an additional application fee.

**Degree Requirements**

Students pursuing this degree must successfully complete 30 credits, which may include a thesis. They may choose a course of study that focuses on traditional and contemporary philosophy or choose to complete one of two concentrations. Students need to identify an advisor on entering the program and meet regularly with that advisor during their course of study.

**MA with a Focus on Traditional and Contemporary Philosophy**

Students may apply up to 9 credits from other departments toward the degree with focus on traditional and contemporary philosophy with prior written approval of their advisor.

**Four core courses (12 credits) in philosophy**

Students may be able to apply PHIL 721 to the requirements in ancient, modern or contemporary philosophy when the topic is relevant and with approval of their advisor.

**One course (3 credits) in ancient or medieval philosophy chosen from:**

- PHIL 602 - Plato: Selected Dialogues Credits: 3
- PHIL 604 - Augustine and Aquinas Credits: 3
- PHIL 681 - Ancient Philosophical Figures Credits: 3
• PHIL 691 - Special Topics in Ancient Philosophy Credits: 3 (Students take 3 credits of this course.)

One course (3 credits) in modern philosophy chosen from:

• PHIL 605 - Mind-Body Problem in Early Modern Philosophy Credits: 3
• PHIL 608 - Hegel's Phenomenology of the Spirit Credits: 3
• PHIL 682 - Early Modern Philosophical Figures Credits: 3
• PHIL 692 - Special Topics in Early Modern Philosophy Credits: 3

One course (3 credits) in contemporary philosophy chosen from:

• PHIL 615 - Postmodernist Thought Credits: 3
• PHIL 616 - Phenomenology Credits: 3
• PHIL 618 - Contemporary French Feminism Credits: 3
• PHIL 683 - Contemporary Philosophical Figures Credits: 3
• PHIL 694 - Special Topics in Contemporary Philosophy Credits: 3

One advanced seminar (3 credits) chosen from:

• PHIL 720 - Nietzsche and his Readers Credits: 3
• PHIL 721 - Advanced Seminar in Philosophy Credits: 3
• PHIL 733 - Current Issues in Cognitive Science Credits: 3

Four to six elective courses (12-18 credits) in philosophy

Students who choose to write a thesis (3 or 6 credits) will take correspondingly fewer electives.

Thesis (3 or 6 credits) (optional)

Students must follow the thesis enrollment policy of the university and once enrolled in PHIL 799, maintain continuous enrollment as specified in the Academic Policies chapter of the catalog.

• PHIL 799 - Thesis Credits: 1-6

Total: 30 credits
▲ Concentration in Ethics and Public Affairs (ETPA)

Two courses (6 credits) in the history of philosophy

One required course (3 credits)

- PHIL 640 - History of Ethical Theory Credits: 3

One elective course (3 credits) in the history of philosophy

Depending on the topic, PHIL 681, 682, 691, or 692 may be applied to this concentration with prior written permission of the graduate director.

One course (3 credits) in public policy

- PUAD 640 - Public Policy Process Credits: 3

Three courses (9 credits) in ethics chosen from:

Other courses may be used to fulfill this requirement where appropriate and with prior written approval of the student's academic advisor.

- PHIL 642 - Biomedical Ethics Credits: 3
- PHIL 643 - Environmental Ethics Credits: 3
- PHIL 644 - Business and Organizational Ethics Credits: 3
- PHIL 645 - Research Ethics Credits: 3

Two to four elective courses (6 - 12 credits)

Students who choose to write a thesis (3 or 6 credits) will take correspondingly fewer electives. Students are encouraged to use courses from around the university in disciplines relevant to their areas of interest, subject to the prior written approval of their academic advisor. A small sample of possible electives outside the Department of Philosophy:

- PUAD 700 - Ethics and Public Administration Credits: 3
- HAP 714 - Ethical Issues in Health Administration and Policy Credits: 3
- EVPP 635 - Environment and Society Credits: 3
Thesis (3 or 6 credits) (optional)

Students must follow the thesis enrollment policy of the university and once enrolled in PHIL 799, maintain continuous enrollment as specified in the Academic Policies chapter of the catalog.

- PHIL 799 - Thesis Credits: 1-6

Total: 30 credits

▲ Concentration in Philosophy and Cultural Theory (PHCT)

Students may apply up to 9 credits from other departments toward this concentration with prior written approval of their advisor.

Four core courses (12 credits) in philosophy

Students may be able to apply PHIL 721 to the requirements in ancient, modern or contemporary philosophy when the topic is relevant and with approval of their advisor.

One course (3 credits) in ancient or medieval philosophy chosen from:

- PHIL 602 - Plato: Selected Dialogues Credits: 3
- PHIL 604 - Augustine and Aquinas Credits: 3
- PHIL 681 - Ancient Philosophical Figures Credits: 3
- PHIL 691 - Special Topics in Ancient Philosophy Credits: 3 (Students take 3 credits of this course.)

One course (3 credits) in modern philosophy chosen from:

- PHIL 605 - Mind-Body Problem in Early Modern Philosophy Credits: 3
- PHIL 608 - Hegel's Phenomenology of the Spirit Credits: 3
- PHIL 682 - Early Modern Philosophical Figures Credits: 3
- PHIL 692 - Special Topics in Early Modern Philosophy Credits: 3

One course (3 credits) in contemporary philosophy chosen from:

- PHIL 615 - Postmodernist Thought Credits: 3
- PHIL 616 - Phenomenology Credits: 3
- PHIL 618 - Contemporary French Feminism Credits: 3
• PHIL 683 - Contemporary Philosophical Figures Credits: 3
• PHIL 694 - Special Topics in Contemporary Philosophy Credits: 3

One advanced seminar (3 credits) chosen from:

• PHIL 720 - Nietzsche and his Readers Credits: 3
• PHIL 721 - Advanced Seminar in Philosophy Credits: 3
• PHIL 733 - Current Issues in Cognitive Science Credits: 3

Two courses (6 credits) in cultural studies

One required course (3 credits)

Students are encouraged to take this course as early in their program as possible.

• CULT 820 - After Colonialism Credits: 3

One elective course (3 credits) in cultural studies

Students choose an elective in consultation with an advisor.

Two to four elective courses (6 - 12 credits) in philosophy

Students who choose to write a thesis (3 or 6 credits) will take correspondingly fewer electives.

Thesis (3 or 6 credits) (optional)

Students must follow the thesis enrollment policy of the university and once enrolled in PHIL 799, maintain continuous enrollment as specified in the Academic Policies chapter of the catalog.

• PHIL 799 - Thesis Credits: 1-6

Total: 30 credits

Master's Level Certificate

Professional Ethics Graduate Certificate
The certificate may be pursued concurrently with any other graduate program in the university.

This program of study is offered by the Department of Philosophy.

For policies governing all certificates, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants must meet the admission standards and application requirements as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application. Students can initially enroll in the certificate program as nondegree students, but must apply for admission to the certificate program no later than the second semester of study.

Certificate Requirements

In consultation with an advisor, students should select their courses to create a coherent program of study.

One course (3 credits) in the history of ethical theory

- PHIL 640 - History of Ethical Theory Credits: 3

Two courses (6 credits) in applied ethics chosen from:

- PHIL 642 - Biomedical Ethics Credits: 3
- PHIL 643 - Environmental Ethics Credits: 3
- PHIL 644 - Business and Organizational Ethics Credits: 3

Two elective courses (6 credits)

Students can fulfill this requirement with courses in philosophy but are encouraged to take courses in other disciplines as well.

Total: 15 credits

- Psychology

Phone: 703-993-1342
Web: psychology.gmu.edu
Faculty

Professors: Ascoli, Boehm-Davis (chair), Cortina (associate chair for graduate studies), Denham (director, Applied Developmental Program), Klimoski, Maddux, Mandes, Parasuraman (director, Human Factors/Applied Cognition Program), Pasnak, Riskind, Rojahn, R. Smith (director, Biopsychology Program), Tangney, Tetrick (director, Industrial/Organizational Program), Winsler, Zaccaro

Research professors: Butler, Olds

Associate professors: Bitler, Blackwell, Buffardi, Flinn, Greenwood, Kashdan, Peterson, Sanford (associate chair for undergraduate studies), Short (director, Clinical Program)

Research associate professors: Bachus, Curby

Assistant professors: Baldwin, Cattaneo, Dalal, Kaplan, King, McDonald, McKnight, Perez-Edgar, Rowe, Shaw, Thompson

Term associate professors: Chrosniak, Foehlinger (director, School Psychology Program), Mehlenbeck, Wanschura

Research assistant professors: Bassett, Hardee, Lim, Strenziok, Stuewig, Wal

Term assistant professors: Battaglia, Hurley, Thompson (director, Centr for Cognitive Development)

Affiliates: Eby, Hunt

Adjuncts: Anderson, Benedi, Curtin, Dechman, Hawley, Hirsch, Levitas, Mayfield, Perez, Pomeroy, Schumann, Shiraev, Stanhope, Steve, Werber

Course Work

The Psychology Department offers all course work designated PSYC in the Courses chapter of this catalog.

Undergraduate Programs

The department offers a bachelor of arts degree and a bachelor of science degree in psychology. All psychology majors complete a broad range of courses from social and abnormal psychology to cognitive and biopsychology. Students can also choose from special topics courses such as forensic psychology and romantic relationships.

Students in psychology may have the opportunity to do research with a faculty member or do a service learning course, which allows them to put into practice what they've learned in the classroom.

Students interested in graduate study should be aware that undergraduate research experience and letters of recommendation are major factors for admission to graduate study. Such students should distribute courses across a number of areas in psychology and work closely with one or more professors on individual projects during their junior and senior years.

Honors in the Major

Highly qualified students may apply to graduate with honors in the major. To be eligible for admission, psychology majors must have completed at least 50 credits and have a minimum cumulative GPA of 3.25 and a minimum GPA of 3.40 in psychology courses.

If accepted, students must take a sequence of three courses (PSYC 490, 491, and 492), which cumulates in the successful completion and presentation of an independent honors thesis. To graduate with honors, students must earn a minimum grade 3.50
in each of the three honors courses and maintain a minimum cumulative GPA of 3.25 and a minimum GPA of 3.40 in psychology courses.

**Minor**

The department offers a minor in psychology available to students in any major in the university.

**Bachelor’s/Accelerated Master’s Program**

The department offers highly qualified undergraduate majors the opportunity to apply to an accelerated master’s degree program in psychology with a concentration in biopsychology. If accepted, students will be able to earn both an undergraduate degree and the master's degree with a concentration in biopsychology after satisfactory completion of 146 credits, sometimes within five years.

**Graduate Programs**

The graduate programs in psychology are distinguished by an emphasis on basic research and the application of research to solving practical problems in families, schools, industry, government, and health care settings.

The department offers master's and doctoral degrees with concentrations in applied developmental psychology, biopsychology, human factors/applied cognition, and industrial/organizational psychology. They offer a doctoral degree with a concentration in clinical psychology. Finally, they offer a master's degree with a concentration and certificate in school psychology.

**Funding**

The department offers teaching and research assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

**Certificates**

The department offers graduate certificates in aviation psychology, usability, and cognitive neuroscience. These have been designed to meet the needs of students who desire to upgrade their skills and earn a certificate as evidence of their skill attainment. Students may take these as stand-alone certificates or pursue them concurrently with a graduate degree program. Part of the certificate course work may be able to be applied to the degree. Students must apply and be accepted to a graduate certificate program.

The certificate programs are open to all students who hold a bachelor’s degree from an accredited university and meet the admissions requirements for the master's degree in psychology with a concentration in human factors and applied cognition.

**Nondegree Status**

Applicants who have not been admitted to a graduate degree program or a certificate program may apply for nondegree status. Nondegree students must meet the same admission requirements as degree-seeking students. Nondegree status is not intended as a way to qualify for admission as a degree-seeking student.

While it may be possible to transfer the credits earned in nondegree status to a degree program, such transfers are not automatic. They require the approval of the graduate director and the dean. If approved, a maximum of 12 credits earned in nondegree status
may be applied to a degree program. Nondegree students who intend to transfer their credits to a degree program should discuss this with the appropriate program director.

**Undergraduate Degree**

**Neuroscience, BS**

**Banner Code:** LA-BS-NEUR

Web: psychology.gmu.edu

The bachelor of science in neuroscience is an interdisciplinary program emphasizing the relationship between the biology and chemistry of the nervous system and behavior of an organism. The BS in neuroscience prepares students for graduate-level study in both medical school and doctoral and master’s-level programs in neuroscience and other health-related fields, and work in the neuroscience field.

This program of study is offered by the Department of Psychology.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

**Degree Requirements**

In addition to satisfying university general education requirements and the requirements for a bachelor of science degree in the College of Humanities and Social Sciences, students pursuing this degree must complete the following course work.

**Foundation courses**

Two courses in biology (8 credits)

- BIOL 213 - Cell Structure and Function Credits: 4
- BIOL 303 - Animal Biology Credits: 4

Two courses in chemistry (8 credits)

- CHEM 211 - General Chemistry Credits: 4
- CHEM 212 - General Chemistry Credits: 4

One course in mathematics (3 or 4 credits) chosen from:

Students intending to pursue a PhD program in neuroscience or an MD are advised to take MATH 114.
• MATH 113 - Analytic Geometry and Calculus I Credits: 4
• MATH 114 - Analytic Geometry and Calculus II Credits: 4
• MATH 213 - Analytic Geometry and Calculus III Credits: 3

One course in statistics (3 or 4 credits) chosen from:

• STAT 250 - Introductory Statistics I Credits: 3
• PSYC 300 - Statistics in Psychology Credits: 4
• MATH 352 - Statistics Credits: 3
• BIOL 312 - Biostatistics Credits: 4

Four courses in physics (8 credits)

Students should take one of the following sequences.

• PHYS 243 - College Physics Credits: 3
• PHYS 244 - College Physics Lab Credits: 1
• PHYS 245 - College Physics Credits: 3
• PHYS 246 - College Physics Lab Credits: 1
  or
• PHYS 160 - University Physics I Credits: 3
• PHYS 161 - University Physics I Laboratory Credits: 1
• PHYS 260 - University Physics II Credits: 3
• PHYS 261 - University Physics II Laboratory Credits: 1

Three courses in psychology (9 credits)

• PSYC 100 - Basic Concepts in Psychology Credits: 3
• PSYC 375 - Brain and Behavior I Credits: 3
• PSYC 376 - Brain and Behavior II Credits: 3

One course in computer science (4 credits)

• CS 112 - Introduction to Computer Programming Credits: 4

Two core courses in neuroscience (6 credits)
• NEUR 327 - Cellular, Neurophysiological, and Pharmacological Neuroscience Credits: 3
• NEUR 335 - Molecular, Developmental, and Systems Neuroscience Credits: 3

One required psychology lab course (1 credit)

• PSYC 373 - Physiological Psychology Laboratory Credits: 1

Electives (24 credits)

Students should consult with an advisor to choose appropriate elective courses, which must be approved by the director of the program. A list of possible electives can be found at chss.gmu.edu/programs/requirements/LA-BS-NEUR.

Total: 78-80 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. See an advisor for a list of approved writing intensive courses for neuroscience.

Psychology, BA

Banner Code: LA-BA-PSYC

Web: psychology.gmu.edu

This program of study is offered by the Department of Psychology.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements

In addition to satisfying university general education requirements and the requirements for a bachelor of arts degree in the College of Humanities and Social Sciences, students pursuing this degree must complete 36 credits in psychology with 24 credits at the 300 and 400 level. Students must have a minimum GPA of 2.00 in these 36 credits and a minimum grade of 1.67 (C-) in each of the courses.

See the note at the end of this section for recommendations and restrictions.

Basic courses in psychology (22-28 credits)
One introductory course (3 credits)

- PSYC 100 - Basic Concepts in Psychology Credits: 3

Three or four foundational courses (9 or 12 credits):

One or two courses (3 or 6 credits) chosen from:

- PSYC 211 - Developmental Psychology Credits: 3
- PSYC 313 - Child Psychology Credits: 3
- PSYC 314 - Adolescent Psychology Credits: 3
- PSYC 415 - Psychological Factors in Aging Credits: 3

One course (3 credits) in cognitive psychology

- PSYC 317 - Cognitive Psychology Credits: 3

One course (3 credits) in social psychology

- PSYC 231 - Social Psychology Credits: 3

One or two courses in biopsychology (3 or 6 credits) chosen from:

- PSYC 372 - Physiological Psychology Credits: 3
- PSYC 375 - Brain and Behavior I Credits: 3
- PSYC 376 - Brain and Behavior II Credits: 3

Two research methods courses (7 credits):
• PSYC 300 - Statistics in Psychology Credits: 4
• PSYC 301 - Research Methods in Psychology Credits: 3

Two courses in applied psychology (6-7 credits) chosen from:

• PSYC 320 - Psychological Tests and Measurements Credits: 4
• PSYC 325 - Abnormal Psychology Credits: 3
• PSYC 333 - Industrial and Organizational Psychology Credits: 3
• PSYC 379 - Applied Cross-Cultural Psychology Credits: 3

Electives courses in psychology (1-8 credits)

Students complete the 36 required credits with electives in psychology (PSYC). PSYC 465 is strongly recommended for all students who plan to attend graduate school in psychology.

Total: 36 credits

Notes

It is strongly recommended that students fulfill the general education natural science requirement by completing BIOL 103 and 104 because these courses are prerequisites to the requirement of PSYC 372 or PSYC 375, 376. Students who have limited technology skills are encouraged to take IT 103.

Students who receive transfer credit for a research methods course must take PSYC 304, PSYC 309, or PSYC 323 unless the transfer courses has been approved as writing intensive.

Any psychology course may be used to satisfy the 36-credit psychology requirement for the BA degree with the following restrictions:

• A maximum of 6 credits of 327, 328, 421, 422, 548, and 549 may be applied to required psychology credits
• A maximum of 6 credits of 260, 350, and 460 may be applied to required psychology credits
• No more than 9 credits can be taken from the courses listed in the two bullets above without written permission of the department chair
• PSYC 330 may not be taken for credit by psychology majors

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in psychology may fulfill this requirement by successfully completing PSYC 301, 304, 309, or 323.

Psychology, BS
Banner Code: LA-BS-PSYC

Web: psychology.gmu.edu

This program of study is offered by the Department of Psychology. The department also offers a BA in psychology and coordinates the BS in neuroscience.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements

In addition to satisfying university general education requirements and the requirements for a bachelor of science degree in the College of Humanities and Social Sciences, students pursuing this degree must complete at least 38 credits in psychology and 35 credits in supporting courses.

Psychology courses (38 credits)

Students must have a minimum GPA of 2.00 in these courses with a minimum grade of 1.67 (C-) in each one. 24 credits must be at the 300 and 400 level.

One introductory course (3 credits)

- PSYC 100 - Basic Concepts in Psychology Credits: 3

One or two courses in developmental psychology (3-6 credits) chosen from:

- PSYC 211 - Developmental Psychology Credits: 3
  or both
- PSYC 313 - Child Psychology Credits: 3
- PSYC 314 - Adolescent Psychology Credits: 3

One core course (3 credits) in social psychology

- PSYC 231 - Social Psychology Credits: 3

Two courses (7 credits) in research methods

- PSYC 300 - Statistics in Psychology Credits: 4
- PSYC 301 - Research Methods in Psychology Credits: 3
One psychology lab course (1 or 4 credits) chosen from:

The course chosen to fulfill this requirement cannot be the same course used to fulfill the technical writing requirement below.

- PSYC 304 - Principles of Learning Credits: 4
- PSYC 309 - Sensation, Perception, and Information Processing Credits: 4
- PSYC 320 - Psychological Tests and Measurements Credits: 4
- PSYC 323 - Clinical and Social Psychology Research Techniques Credits: 4
- PSYC 373 - Physiological Psychology Laboratory Credits: 1

One core course (3 credits) in cognitive psychology

- PSYC 317 - Cognitive Psychology Credits: 3

One or two courses in biopsychology (3 or 6 credits) chosen from:

- PSYC 372 - Physiological Psychology Credits: 3
- or both
- PSYC 375 - Brain and Behavior I Credits: 3
- PSYC 376 - Brain and Behavior II Credits: 3

Two courses in applied psychology (6 or 7 credits) chosen from:

- PSYC 320 - Psychological Tests and Measurements Credits: 4
- PSYC 325 - Abnormal Psychology Credits: 3
- PSYC 333 - Industrial and Organizational Psychology Credits: 3
- PSYC 379 - Applied Cross-Cultural Psychology Credits: 3

Psychology electives

Students complete the 38 required credits with electives in psychology (PSYC). PSYC 465 is strongly recommended for all students who plan to attend graduate school in psychology. No more than 6 credits of D may be applied toward this requirement.

Supporting courses (35-40 credits)

One course (3-4 credits) in technical writing chosen from:
• ENGL 410 - Professional and Technical Writing Credits: 3
• PSYC 304 - Principles of Learning Credits: 4
• PSYC 309 - Sensation, Perception, and Information Processing Credits: 4
• PSYC 323 - Clinical and Social Psychology Research Techniques Credits: 4

Four courses (14-16 credits) of natural science

Two required science courses (8 credits)

• BIOL 103 - Introductory Biology I Credits: 4
• BIOL 104 - Introductory Biology II Credits: 4

Two elective science courses (6-8 credits)

Students fill this requirement with any two courses in the natural sciences.

Two courses (6-8 credits) of quantitative reasoning chosen from:

• MATH 108 - Introductory Calculus with Business Applications Credits: 3
• MATH 110 - Introductory Probability Credits: 3
• MATH 111 - Linear Mathematical Modeling Credits: 3
• MATH 113 - Analytic Geometry and Calculus I Credits: 4
• MATH 114 - Analytic Geometry and Calculus II Credits: 4
• STAT 250 - Introductory Statistics I Credits: 3

One course (3 credits) in humanities

Students can choose from PHIL (but not 173 or 376), RELI, ARTH, AVT, MUSI, DANC, THR.

Two courses (6 credits) in social and behavioral science

Students can choose courses from ANTH, ECON, GOVT, HIST (but not HIST 100 or 125), SOCI. Courses in psychology may not be used to fulfill this requirement.

One additional course (3 credits) in humanities or social and behavioral science

Students choose an additional course from the lists under the requirements in humanities and social sciences above (and with the same restrictions).
Total: 73-78 credits

Notes

Students who have limited technology skills are encouraged to take IT 103.

Students who receive transfer credit for a research methods course must take PSYC 304, PSYC 309, or PSYC 323 unless the transfer courses has been approved as writing intensive.

Any psychology course may be used to satisfy the 38-credit psychology requirement for the BS degree with the following restrictions:

- A maximum of 6 credits of 327, 328, 421, 422, 548, and 549 may be applied to required psychology credits
- A maximum of 6 credits of 260, 350, and 460 may be applied to required psychology credits
- No more than 9 credits can be taken from the courses listed in the two bullets above without written permission of the department chair
- PSYC 330 may not be taken for credit by psychology majors

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in psychology may fulfill this requirement by successfully completing PSYC 301, 304, 309, or 323.

Undergraduate Minor

Psychology Minor

Banner Code: PSYC

Web: psychology.gmu.edu

Coursework in psychology can enhance many different majors, and the minor in psychology is available to students in any major at Mason. For a list of suggested courses for students who are majoring in specific disciplines that interact especially well with psychology, contact the Undergraduate Psychology Office.

This program of study is offered by the Department of Psychology.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

One required course (3 credits)
• PSYC 100 - Basic Concepts in Psychology Credits: 3

Three courses (9 credits) in three of the following areas of psychology

For at least one area of the three areas, students must choose cognition or physiological, though they may choose both.

Developmental:

• PSYC 211 - Developmental Psychology Credits: 3
• PSYC 313 - Child Psychology Credits: 3

Social/personality:

• PSYC 231 - Social Psychology Credits: 3
• PSYC 324 - Personality Theory Credits: 3

Cognition:

• PSYC 317 - Cognitive Psychology Credits: 3

Abnormal:

• PSYC 325 - Abnormal Psychology Credits: 3

Physiological:

• PSYC 372 - Physiological Psychology Credits: 3
  or
• PSYC 375 - Brain and Behavior I Credits: 3
  and
• PSYC 376 - Brain and Behavior II Credits: 3

6 credits of psychology electives

No more than three credits of PSYC 269, 350, and 460 (in total) can be use as elective credit toward the minor.

Total: 18 credits
Bachelor's/Accelerated Master's Program

Psychology, BA or BS/Psychology, Accelerated MA (Biopsychology Concentration)

Web: psychology.gmu.edu

Highly qualified Mason psychology majors may apply to the accelerated master's degree. If accepted, students will be able to earn a BA or BS in psychology and a MA in psychology with a concentration in biopsychology after satisfactory completion of 146 credits.

The accelerated MA in psychology is available only to students pursuing the MA in psychology with a concentration in biopsychology.

This program of study is offered by the Department of Psychology.

For policies governing all masters degree, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 90 credits.

Students should submit the Accelerated Master’s Program Application, available from the graduate director, and any other application material required by the department. The application includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the department for more details about the application process.

Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.
Master's Degree

Psychology, MA

Banner Code: LA-MA-PSYC

Web: psychology.gmu.edu

The master's degree in psychology has concentrations in applied developmental psychology, biopsychology, human factors/applied cognition, industrial/organizational psychology, and school psychology. The department does not offer a master's degree in clinical or counseling psychology, but a master's degree in psychology with a concentration in clinical psychology is available for students who have been admitted to the doctoral program concentration in clinical psychology.

This program of study is offered by the Department of Psychology.

For policies governing all masters degree, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants must fulfill the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. In addition, applicants to the MA in psychology must have 15 credits in psychology including a course in statistics and a laboratory course in psychology. The concentration in school psychology also requires courses in personality or abnormal psychology, developmental psychology, and tests and measurements. All applicants are required to submit results of the GRE taken within the past five years (applicants should plan to take the GRE at least two months before the deadline); three letters of reference from professors or supervisors; and a departmental application. Applicants should also submit a biographical statement outlining their background and experience and describing their future goals in psychology.

Successful applicants have an overall GPA of 3.00 for the last 60 undergraduate credits, generally a minimum GPA of 3.25 in undergraduate psychology courses, and combined GRE scores of 1,000 or above. Work experience, publications, or special recommendations may compensate for deficiencies in other qualifications. Because the number of students admitted to each program is limited, meeting these minimum requirements does not guarantee admission.

Provisional Admission

Students who are admitted provisionally are required to take 12 credits in psychology and earn a minimum GPA of 3.25 in those courses to qualify for removal of the provisional qualifier. Programs may add other conditions to provisional admission. Individualized study courses can not be used toward the 12 credits.

Degree Requirements

In addition to satisfying the requirements for all master’s degrees, students pursuing a master's degree in psychology must successfully complete 32 - 46 credits of required course work. They must complete this coursework in one of six concentrations.

A maximum of 6 credits of thesis proposal and thesis research (PSYC 798, 799) may be applied to the master's degree. A maximum of 9 credits of thesis courses (798, 799), Directed Reading and Research - PSYC 597, and Practicum - PSYC 792 may be applied to the degree.

▲ Concentration in Applied Developmental Psychology (APD)
The concentration in applied developmental psychology focuses on child development. It provides basic knowledge about normal development, skills for assessing developmental level, and techniques for planning and evaluating programs that foster optimal development. Graduates are prepared for employment at agencies concerned with educational and health programs for children, enrichment programs for infants and preschoolers, and education programs for parents.

**Two core courses (6 credits) chosen from:**

**Social**

- PSYC 667 - Behavior in Small Groups and Teams Credits: 3
- PSYC 668 - Personality: Theoretical and Empirical Approaches Credits: 3
- PSYC 703 - Social Bases of Behavior Credits: 3

**Biological**

- PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3
- PSYC 559 - Behavioral Chemistry Credits: 3
- PSYC 702 - Biological Bases of Human Behavior Credits: 3

**Cognitive**

- PSYC 701 - Cognitive Bases of Behavior Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3

**Quantitative methods (8 credits):**

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4

**Three courses (9 credits) of specialized content chosen from:**

- PSYC 592 - Special Topics Credits: 1-6 (when the content is developmental)
- PSYC 614 - The Psychology of Aging Credits: 3
- PSYC 615 - Language Development Credits: 3
- PSYC 617 - Child Psychopathology Credits: 3
- PSYC 630 - Developmental Disabilities Credits: 3
- PSYC 648 - Developmental Psychopathology Credits: 3
Thesis research or practicum experience (4 credits) chosen from one of these options:

Thesis (4 credits)

- PSYC 798 - Thesis Proposal Credits: 1-6
- PSYC 799 - Master's Thesis Credits: 1-6

Practicum (4 credits)

Practicum is 3 credits of 792 and 1 credit of 597.

- PSYC 792 - Practicum in Developmental Psychology, Biopsychology, and School Psychology Credits: 1-6
- PSYC 597 - Directed Reading and Research Credits: 1-3

Professional seminar (2 credits):

Students should take 1 credit in fall and 1 credit in spring of their first year.

- PSYC 591 - Professional Seminar Credits: 1-3

Electives (3 credits)

Students complete the 32 credits required for this concentration through a content course, practicum, or directed reading and research.

Total: 32 credits

▲ Concentration in Biopsychology (BP)

Biopsychology is the study of the neurobiological bases of behavior: how the brain affects behavior. The growth in our understanding of this relationship has been one of the major scientific developments of the last 50 years. Biopsychology includes human and animal studies of the role of specific brain regions and neurochemical factors in behavior. As examples, biopsychologists examine the effect of drugs and how they act; the biological bases of learning; behavioral problems associated with specific brain damage; and anatomical and chemical correlates of mental illnesses.
The concentration in biopsychology emphasizes training in the neurobiological bases of behavior. Students are prepared for doctoral work or employment in government or industry research laboratories.

Two courses (5 credits) of specialized content:

- PSYC 527 - Introduction to Neurobiology Credits: 2
- PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3

One chemistry course (3 credits) chosen from:

- PSYC 556 - Chemistry and the Brain Credits: 3
- PSYC 559 - Behavioral Chemistry Credits: 3
- PSYC 592 - Special Topics Credits: 1-6 (when topic is Biological Bases of Mental Illness and Drug Abuse)

Two quantitative methods courses (8 credits):

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4

Professional seminar (1 credit):

- PSYC 591 - Professional Seminar Credits: 1-3

Elective courses (at least 6 credits)

Students complete the 32 credits required for the degree through additional credits of coursework or research. They can choose from courses below or other courses with the approval of their advisor. Students intending to pursue a doctorate are strongly advised to take PSYC 531.

- PSYC 531 - Mammalian Neurobiology Credits: 3
- PSYC 552 - Histology/Histochemistry of the Brain Credits: 5
- BIOL 583 - General Biochemistry Credits: 4
- PSYC 561 - Behavioral Biology of Substance Abuse Credits: 3
- PSYC 702 - Biological Bases of Human Behavior Credits: 3
- PSYC 704 - Life-Span Development Credits: 3

Elective coursework
Students complete the 32 credits required for this degree through additional credits of course work or research.

Thesis (6 credits):

A thesis is normally required, but 6 credits of PSYC 792 - Practicum may serve as a substitute if approved by the advisor and program coordinator.

- PSYC 798 - Thesis Proposal Credits: 1-6
- PSYC 799 - Master's Thesis Credits: 1-6

Total: 32 credits

▲ Concentration in Clinical Psychology (CLN)

The clinical psychology concentration trains students to have flexibility to fill the evolving functions of clinical psychologists, including research, direct provision of clinical services, supervision, program development and evaluation, and consultation.

The clinical psychology MA concentration is not a terminal degree. Students who have been admitted to the doctoral program with a concentration in clinical psychology may apply to receive the MA in psychology on completion of 32 credits of course work. Students must also be in good standing in the program, as determined by the director of clinical training.

Four required courses (14 credits):

- PSYC 810 - Psychological Assessment I Credits: 4
- PSYC 811 - Psychological Assessment II Credits: 4
- PSYC 822 - Scientific Foundations of Clinical Psychology I Credits: 3
- PSYC 823 - Scientific Foundations of Clinical Psychology II Credits: 3

Two courses (8 credits) in advanced statistics:

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4

One course (3 credits) in practicum:

- PSYC 881 - Practicum in Clinical Psychology Credits: 1-3

One course (1 credit) in seminar:

- PSYC 890 - Seminar in Professional Psychology Credits: 1-3
Two courses (6 credits) chosen from:

### Biological Bases of Behavior:
- PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3
- PSYC 559 - Behavioral Chemistry Credits: 3
- PSYC 702 - Biological Bases of Human Behavior Credits: 3

### Developmental Bases of Behavior:
- PSYC 666 - Cognitive and Perceptual Development Credits: 3
- PSYC 669 - Social and Emotional Development Credits: 3
- PSYC 704 - Life-Span Development Credits: 3

### Social and Cognitive Foundations of Clinical Psychology:
- PSYC 833 - Social And Cognitive Foundations Of Clinical Psychology Credits: 3

### History, Systems, and Theories of Personality and Psychotherapy:
- PSYC 830 - History, Systems, and Theories of Personality and Psychotherapy Credits: 3

### Social-Cognitive Interventions in Clinical Psychology:
- PSYC 831 - Social-Cognitive Interventions in Clinical Psychology Credits: 3

### Community Psychology I:
- PSYC 840 - Community Psychology I Credits: 3

### Community Psychology II:
- PSYC 841 - Community Psychology II Credits: 3

Total: 32 credits

▲ Concentration in Human Factors/Applied Cognition (HF)
The human factors/applied cognition concentration trains students in the application of cognitive science to real-world problems. Students gain expertise in such areas as human/computer interaction, cognitive system engineering, cognitive ergonomics, and transportation. Faculty members help place students who do not have real-world experience in a part- or full-time practicum before completing the degree.

One core course (3 credits) chosen from:

- PSYC 701 - Cognitive Bases of Behavior Credits: 3
- PSYC 759 - Applied Decision Making Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3

Two courses (8 credits) of quantitative and research methods:

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4

Two courses (6 credits) of specialized content:

- PSYC 530 - Cognitive Engineering: Cognitive Science Applied to Human Factors Credits: 3
- PSYC 645 - Research Methods in Human Factors and Applied Cognition Credits: 3

Two courses (6 credits) which may be repeated, chosen from:

- PSYC 734 - Seminar in Human Factors and Applied Cognition Credits: 3
- PSYC 737 - Psychology of Human-Technology Interaction Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3

Electives

Students complete the 32 credits required for this degree through additional course work, including courses not listed above within or outside the department, with prior written approval of the graduate director.

Practicum (optional) (6 credits)

Students need an advisor's approval to register for practicum.

- PSYC 792 - Practicum in Developmental Psychology, Biopsychology, and School Psychology Credits: 1-6

Thesis (optional) (6 credits)

Students need the chair's approval to register for thesis.

- PSYC 798 - Thesis Proposal Credits: 1-6
- PSYC 799 - Master's Thesis Credits: 1-6
Total: 32 credits

▲ Concentration in Industrial/Organizational Psychology (IO)

The industrial/organizational psychology concentration trains students in the conduct and application of psychological research in work settings. Expertise can be developed in a variety of areas, including personnel selection, training, leadership, motivation, and human performance assessment.

One core course (3 credits) chosen from:

- PSYC 701 - Cognitive Bases of Behavior Credits: 3
- PSYC 759 - Applied Decision Making Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3
- PSYC 703 - Social Bases of Behavior Credits: 3

Two courses (8 credits) of quantitative and research methods

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4

Four courses (12 credits) of specialized content

Two required courses (6 credits)

- PSYC 636 - Survey of Industrial Psychology Credits: 3
- PSYC 639 - Survey of Organizational Processes Credits: 3

One course (3 credits) in organizational psychology chosen from:

- PSYC 592 - Special Topics Credits: 1-6 (when topic is relevant to organizational psychology)
- PSYC 735 - Psychological Perspectives on Organizational Development Credits: 3
- PSYC 739 - Seminar in Industrial/Organizational Psychology Credits: 3
- PSYC 741 - Psychology of Work Motivation Credits: 3
- PSYC 667 - Behavior in Small Groups and Teams Credits: 3
One course (3 credits) in industrial psychology chosen from:

- PSYC 557 - Psychometric Methods Credits: 3
- PSYC 592 - Special Topics Credits: 1-6 (when topic is relevant to industrial psychology)
- PSYC 631 - Industrial and Personnel Testing and Evaluation Credits: 3
- PSYC 638 - Training: Psychological Contributions to Theory, Design, and Evaluation Credits: 3
- PSYC 640 - Techniques in Industrial/Organizational Psychology Credits: 3
- PSYC 733 - Issues in Personnel Psychology Credits: 3

Practicum (optional) (1-6 credits)

Students need an advisor’s approval to register for practicum.

Thesis (optional) (3-6 credits)

Students need the chair’s approval to register for thesis.

- PSYC 798 - Thesis Proposal Credits: 1-6
- PSYC 799 - Master's Thesis Credits: 1-6

Electives

Students complete the 32 credits required for this degree through additional course work. A maximum of 6 credits may come from courses outside the department with prior written approval of the graduate director.

Total: 32 credits

▲ Concentration in School Psychology (SCH)

The School Psychology program is committed to an instructional model that combines a sound understanding of psychological theory and research with outstanding practicum and internship experiences. The curriculum imparts foundational knowledge in psychology, education, intervention and problem solving, statistics and research methodology, and professional school psychology, along with supervised experiences in educational and clinical settings.

Students admitted to the MA in psychology concentration in school psychology are expected to complete also the School Psychology Graduate Certificate. Students must apply for admission to both the master’s program concentration and the certificate. Students in the combined master's concentration-certificate program must complete a one-year full-time internship along with a 6-credit course PSYC 790 - School Psychology Internship during their third year of study.

Students who are admitted to the MA in psychology concentration in applied developmental psychology who wish also to pursue additional training in school psychology must apply for admission to the school psychology program. These students should consult with the director of the school psychology program to develop an individual program of study that fulfills the requirements for licensure or certification.
The MA concentration and graduate certificate make up a program designed to prepare graduates for professional practice in school psychology. The program is approved by School Psychology Training Programs of the National Association of School Psychologists (NASP). Students completing this concentration in the master’s degree and the certificate will be eligible for licensure in Virginia and certification or licensure in other states as a school psychologist. Certification or licensure as a school psychologist typically requires all course work for both the master’s degree and the certificate. (Students seeking licensure for independent practice as a school psychologist must meet the educational, residency, and exam requirements of the Commonwealth of Virginia Board of Psychology.)

All students admitted to the MA in psychology concentration in school psychology are expected to complete also the graduate certificate in school psychology. Students must apply for admission to both the master’s program concentration and the certificate. Students in the combined master's concentration-certificate program must complete a one-year full-time internship along with a 6-credit course PSYC 790 - School Psychology Internship during their third year of study.

Students who are admitted to the MA in psychology concentration in applied developmental psychology who wish also to pursue additional training in school psychology must apply for admission to the school psychology program. These students should consult with the director of the school psychology program to develop an individual program of study that fulfills the requirements for licensure or certification.

Students in the school psychology concentration are required to enroll full time unless an alternative arrangement is made with the permission of the director of the concentration.

Non Mason students enrolled in a school psychology training program at another institution who are completing an internship in the local area and wish to enroll in PSYC 790 - School Psychology Internship may do so by enrolling in nondegree status.

The number of credits required for the concentration may be reduced by a maximum of 18 credits on the basis of graduate course work completed before admission with approval of the school psychology faculty, director of the graduate program, and dean.

Satisfactory Performance

Students pursuing combined master's concentration-certificate program must receive a minimum grade of 3.00 in each course. An unsatisfactory evaluation at any time by the School Psychology Committee may result in termination from the program.

One required counseling course (3 credits):

- EDCD 603 - Counseling Theories and Practice Credits: 3

One required EDSE course (3 credits) chosen from:

- EDSE 628 - Elementary Reading, Curriculum, and Strategies for Students who Access the General Education Curriculum Credits: 3
- EDSE 629 - Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum Credits: 3

One course (3 credits) chosen from:

- PSYC 506 - Theories of Personality Credits: 3
- PSYC 669 - Social and Emotional Development Credits: 3
- PSYC 704 - Life-Span Development Credits: 3
Additional required psychology courses (37 credits):

- PSYC 592 - Special Topics Credits: 1-6 (when topic is Diversity)
- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4
- PSYC 617 - Child Psychopathology Credits: 3
- PSYC 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy Credits: 3
- PSYC 671 - Role and Function of the School Psychologist Credits: 3
- PSYC 673 - Prevention, Intervention, and Consultation in Schools Credits: 4
- PSYC 709 - The Measurement of Intelligence Credits: 4
- PSYC 710 - Psychological Assessment Credits: 4
- PSYC 750 - School Psychology Practicum I Credits: 1
- PSYC 722 - Advanced Child Assessment Credits: 4

Total: 46 credits

Graduate Certificate in School Psychology (15 credits)

All students completing the MA concentration in school psychology are expected to complete the graduate certificate.

Total for Concentration and Certificate in School Psychology: 61 credits

Master's Level Certificate

Aviation Psychology Graduate Certificate

Banner Code: LA-CERG-AVIP

Web: psychology.gmu.edu

This program of study is offered by the Department of Psychology.

For policies governing all graduate certificates, see the Academic Policies chapter of the catalog.

Application Requirements
Students must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.

Certificate Requirements

Three required courses (9 credits):

- PSYC 530 - Cognitive Engineering: Cognitive Science Applied to Human Factors Credits: 3
- PSYC 645 - Research Methods in Human Factors and Applied Cognition Credits: 3
- PSYC 734 - Seminar in Human Factors and Applied Cognition Credits: 3 (when aviation-related topic is approved for this certificate by the program director)

Two elective courses (6 credits) chosen from:

- PSYC 597 - Directed Reading and Research Credits: 1-3 (when topic is approved for this certificate)
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3
- SYST 560 - Introduction to Air Traffic Control Credits: 3
- SYST 671 - Judgment and Choice Processing and Decision Making Credits: 3

Total: 15 credits

Cognitive Neuroscience Graduate Certificate

Banner Code: LA-CERG-CNEU

Web: psychology.gmu.edu

This program of study is offered by the Department of Psychology.

For policies governing all graduate certificates, see the Academic Policies chapter of the catalog.

Application Requirements

Students must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.

Certificate Requirements
Core courses (9 credits):

- PSYC 530 - Cognitive Engineering: Cognitive Science Applied to Human Factors Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3 (This course may be applied to this certificate when topic is relevant to cognitive neuroscience. It may be repeated for credit when the specific topic is different.)

One course (3 credits) chosen from:

- PSYC 527 - Introduction to Neurobiology Credits: 2
- PSYC 531 - Mammalian Neurobiology Credits: 3
- PSYC 556 - Chemistry and the Brain Credits: 3
- PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3
- PSYC 559 - Behavioral Chemistry Credits: 3

Two elective courses (6 credits) chosen from:

PSYC 597, 766, and 768 may be used to fulfill this requirement when the topic is relevant to the certificate with prior written approval of the program director.

- PSYC 702 - Biological Bases of Human Behavior Credits: 3
- PSYC 597 - Directed Reading and Research Credits: 1-3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3

Total: 18 credits

School Psychology Graduate Certificate

Banner Code: LA-CERM-ASP

Web: psychology.gmu.edu

This program of study is offered by the Department of Psychology.

For policies governing all graduate certificates, see the Academic Policies chapter of the catalog.

Certificate Requirements

Students pursuing this certificate must also complete the master’s degree in psychology concentration in school psychology.
Students must complete 15 credits with a minimum grade of 3.00 in each course. All coursework for the master’s degree must be completed before registering for the internship (PSYC 790).

One required course (3 credits) chosen from:
• PSYC 592 - Special Topics Credits: 1-6 (when topic is Developmental Assessment)
• PSYC 630 - Developmental Disabilities Credits: 3
• EDCD 608 - Group Processes and Analyses Credits: 4

4 credits of assessment practicum

• PSYC 751 - School Psychology Assessment Practicum II Credits: 2

6 credits of internship

• PSYC 790 - School Psychology Internship Credits: 3-6

2 credits of practicum

• PSYC 792 - Practicum in Developmental Psychology, Biopsychology, and School Psychology Credits: 1-6

Total: 15 credits

Usability Graduate Certificate

Banner Code: LA-CERG-UBTY

Web: psychology.gmu.edu

This program of study is offered by the Department of Psychology.

For policies governing all graduate degrees, see the Academic Policies chapter of this catalog.

Certificate Requirements

Three core courses (9 credits):

• PSYC 530 - Cognitive Engineering: Cognitive Science Applied to Human Factors Credits: 3
Two elective courses (6 credits) chosen from:

- PSYC 597 - Directed Reading and Research Credits: 1-3 (when topic is approved for this certificate)
- PSYC 654 - Naturalistic Methods in Psychology Credits: 3
- PSYC 734 - Seminar in Human Factors and Applied Cognition Credits: 3 (when topic is approved for this certificate)
- PSYC 737 - Psychology of Human-Technology Interaction Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3
- EDIT 526 - Web Accessibility and Design Credits: 3
- EDIT 571 - Tools for Visual/Graphic Design Credits: 1-3
- EDIT 705 - Instructional Design Credits: 3
- EDIT 773 - Human Computer Interface Design for Teaching and Learning Credits: 3

Total: 15 credits

Doctoral Degree

Psychology, PhD

Banner Code: LA-PHD-PSYC

Web: psychology.gmu.edu

The goal of the doctoral program is to train students in the principles and applications of psychology. The program provides knowledge of the basic content areas in psychology and practical experience in applying this knowledge to solving human problems in life, work, and school. The program offers the following concentrations: applied developmental psychology, biopsychology, clinical psychology, human factors/applied cognition, and industrial/organizational psychology.

This program of study is offered by the Department of Psychology.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants must fulfill the admission standards and application requirements as specified in the Admission chapter of the catalog. In addition, applicants to the doctoral program in psychology must submit the following:

- Completed Department of Psychology form
- Three letters of recommendation from individuals who have firsthand knowledge of the applicant’s academic capabilities or work experience
• A two- to three-page typewritten personal statement describing professional goals, training history, and reasons for seeking the PhD
• GRE results taken within the past five years and before the application deadline. Applicants should take the GRE by October because applications cannot be processed until these scores are received. Scores must be sent directly from Educational Testing Service, P.O. Box 955, Princeton, NJ 08541. Only the aptitude scores are required, but scores for the Advanced Test in Psychology may also be submitted.

Applicants are responsible for ensuring that all materials arrive before the application deadline. Applicants in the final candidate pool may be required to participate in an interview.

Applicants are expected to have the following background:

• For the PhD with a concentration in industrial/organizational psychology or in human factors/applied cognition, at least 15 credits in psychology, including a statistics course and a laboratory course in psychology. A tests and measurements course is recommended.
• For the PhD with a concentration in clinical psychology, at least 15 credits in psychology, including a statistics course, laboratory science course, and abnormal psychology. Courses in developmental psychology, personality, physiological psychology, and tests and measurements are desirable.
• For the PhD with a concentration in applied developmental psychology, at least 15 credits in psychology, including statistics and a laboratory course in experimental psychology. Courses in personality, abnormal psychology, developmental psychology, and tests and measurements are also required for applicants to the school psychology concentration within the MA program.
• For the PhD with a concentration in biopsychology, at least 15 hours of psychology, including physiological psychology, statistics, and a lab course in experimental psychology.

The department does not usually consider applications that fail to meet the minimum criteria of 3.00 undergraduate GPA, 3.25 GPA in psychology course work, and combined GRE scores of 1,100. Applicants who meet this minimum receive continued consideration for the final candidate pool on the basis of experience, letters of recommendation, objective test scores, and (in some programs) an interview. No specific set of qualifications guarantees admission.

New students are admitted for fall semester only.

Reduction of Credit

For students entering the doctoral program with a master’s degree, the number of credits required may be reduced by a maximum of 30 credits subject to the approval of the program faculty and the dean. Requests for reduction of credit are reviewed by a committee only after acceptance to the PhD program.

Core Courses

Core course requirements cover the basic subject matter identified by the profession as essential to doctoral training: biological bases of behavior, social bases of behavior, cognitive bases of behavior, individual behavior, and history of psychology.

Specialty Courses

The 700-, 800-, and 900-level courses provide doctoral candidates with greater depth of study in specific content areas.

Practica

The purpose of the practica is to provide a broad range of experiences in settings related to the students’ concentrations.
Advancement to Candidacy

To advance to candidacy, students must complete all required, nonelective course work on their approved program of study. Students must also successfully complete and pass written and oral comprehensive exams.

Dissertation

The dissertation requirement is designed to demonstrate the student’s ability to apply psychological principles to research problems. Students must take at least 3 credits of proposal (998), 3 credits of research (999), and complete 12 credits of 998 and 999 combined. No more than 24 credits of 998 and 999 may be applied toward the degree. Once enrolled in 999, a student must maintain continuous registration each semester until the dissertation is submitted to and accepted by University Libraries.

Student Evaluation

Students in the doctoral program are evaluated on the basis of grades, comprehensive exams, research, and communication skills. In doctoral courses, A and B are the only acceptable grades. Students in the doctoral program must successfully complete comprehensive exams administered each year.

Degree Requirements

In addition to satisfying the requirements for all doctoral degrees, students must successfully complete 72–74 credits of required course work chosen in one of five concentrations. Each concentration consists of four educational components: core courses, upper-level specialty courses, supervised practica, and dissertation.

▲ Concentration in Applied Developmental Psychology (APD)

The applied developmental psychology concentration is concerned with enhancing developmental processes and preventing developmental disorders in individuals and families across the life span. It uses the knowledge base and methodologies of developmental science to assist the development of individuals who vary in cultural and ethnic backgrounds; economic and social opportunities; physical, social, emotional, and cognitive abilities; and conditions of living (e.g., families, neighborhoods, communities, and physical settings). The program's emphasis is on child development (infancy, early childhood, middle childhood, and adolescence), and students may focus their studies on the cognitive, social, emotional, language, personality, or physiological aspects of development.

The applied developmental concentration has two goals: to train students to teach and do research on basic and applied issues in child development for employment in such settings as universities, research institutes, and organizations, and to train students to do applied work in developmental psychology (consultation, program evaluation, assessment and evaluation, developmental interventions, and parent training) in such settings as schools, hospitals, courts, child care facilities, and other organizations. Applied developmental psychology doctoral students have the option of also completing course requirements for the MA concentration in school psychology.

Students pursuing this concentration must complete 72 credits.

One course of developmental core (3 credits)

- PSYC 704 - Life-Span Development Credits: 3
Two courses of cognitive, biological, social, or historical core (6 credits) chosen from:

Cognitive

- PSYC 701 - Cognitive Bases of Behavior Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3 (except when this course is exclusively methodological)

Biological

- PSYC 702 - Biological Bases of Human Behavior Credits: 3
- PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3
- PSYC 559 - Behavioral Chemistry Credits: 3

Social

- PSYC 703 - Social Bases of Behavior Credits: 3
- PSYC 667 - Behavior in Small Groups and Teams Credits: 3
- PSYC 668 - Personality: Theoretical and Empirical Approaches Credits: 3

Historical

- PSYC 705 - Historical and Philosophical Issues in Psychology Credits: 3

Two courses of quantitative methods (8 credits)

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4

Advanced specialized methods (9 credits) chosen from:
At least 3 credits of quantitative methods:

- PSYC 652 - Quantitative Methods II: Analysis of Variance Credits: 3
- PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques Credits: 3
- PSYC 756 - Quantitative Methods IV: Multivariate Techniques in Psychology Credits: 3
- PSYC 892 - Special Topics in Psychology Credits: 1-6 (when topic is Meta-Analysis Structural Equations Modeling)

At least 3 credits of research methods:

- PSYC 646 - Issues and Methods in Longitudinal Developmental Research Credits: 3
- PSYC 654 - Naturalistic Methods in Psychology Credits: 3

Other advanced specialized methods:

- PSYC 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy Credits: 3
- PSYC 673 - Prevention, Intervention, and Consultation in Schools Credits: 4
- PSYC 684 - Psychological Counseling Techniques Credits: 3
- PSYC 709 - The Measurement of Intelligence Credits: 4
- PSYC 710 - Psychological Assessment Credits: 4
- PSYC 722 - Advanced Child Assessment Credits: 4
- PSYC 786 - Assessment and Treatment in Gerontology Credits: 3
- PSYC 592 - Special Topics Credits: 1-6 (when topic is Developmental Assessment)

Specialized content (15 credits):

One required course (3 credits)

- PSYC 669 - Social and Emotional Development Credits: 3

Four elective courses (12 credits) chosen from:

- PSYC 614 - The Psychology of Aging Credits: 3
- PSYC 615 - Language Development Credits: 3
- PSYC 617 - Child Psychopathology Credits: 3
• PSYC 666 - Cognitive and Perceptual Development Credits: 3
• PSYC 630 - Developmental Disabilities Credits: 3
• PSYC 648 - Developmental Psychopathology Credits: 3
• PSYC 780 - Applied Developmental Psychology Credits: 3
• PSYC 592 - Special Topics Credits: 1-6 (when topic is Early Childhood Education, Childcare, and the Transition to School)
• PSYC 892 - Special Topics in Psychology Credits: 1-6 (when topic is developmental)
• EDRS 631 - Program Evaluation Credits: 3

Professional seminar/professional ethics (3 credits)

Students take 1 credit in fall and 1 credit in spring of their first year and 1 additional credit at any other time (preferably in their second year).

• PSYC 890 - Seminar in Professional Psychology Credits: 1-3

8 credits of directed reading and research or practicum

• PSYC 897 - Directed Reading and Research Credits: 1-3
• PSYC 792 - Practicum in Developmental Psychology, Biopsychology, and School Psychology Credits: 1-6 (A maximum of 6 credits may be applied to this requirement.)

Elective courses

If additional credits are required, students complete the 72 credits required for the degree with elective courses, which may include credits of PSYC 897 over and above those used to fulfill the requirements above. Credits for MA thesis and proposal (PSYC 798, 799) may not be used as electives in the PhD program.

Dissertation (12 credits):

Students take at least 3 credits of 998 and 3 credits of 999.

• PSYC 998 - Doctoral Dissertation Proposal Credits: 1-6
• PSYC 999 - Doctoral Dissertation Credits: 1-3

Total: 72 credits

▲ Concentration in Biopsychology (BP)

The biopsychology concentration focuses on studying the biological substrates of behavior. Core and affiliated faculty in the neuroscience and cognitive programs study areas as diverse as neural control of behavioral development; brain systems in
substance abuse; animal models of learning and memory and their disorders (such as Alzheimer’s); human brain systems involved in cognition, perception, and movement; and computational models of neural functioning.

The program’s core facilities have well-equipped behavioral testing and histological/histochemical facilities. The program’s strong links to the Krasnow Institute for Advanced Study and the Center for Biomedical Genomics and Informatics allows opportunities for collaborative work as diverse as tissue slice preparations and molecular genetics. The doctoral program prepares students for research-based careers in academics, government, or industry.

Students pursuing this concentration must complete 72 graduate credits.

Four courses of biopsychology core (14 credits)

Three required courses (11 credits)

- PSYC 527 - Introduction to Neurobiology Credits: 2
- PSYC 531 - Mammalian Neurobiology Credits: 3
- PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3

One course (3 credits) chosen from:

- PSYC 559 - Behavioral Chemistry Credits: 3
- PSYC 556 - Chemistry and the Brain Credits: 3
- PSYC 592 - Special Topics Credits: 1-6 (when topic is Biological Basis of Mental Illness and Drug Abuse)

Two courses of cognitive, developmental, social, or historical core (6 credits) chosen from:

Cognitive

- PSYC 701 - Cognitive Bases of Behavior Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3

Developmental

- PSYC 666 - Cognitive and Perceptual Development Credits: 3
- PSYC 669 - Social and Emotional Development Credits: 3
- PSYC 704 - Life-Span Development Credits: 3

Social

- PSYC 667 - Behavior in Small Groups and Teams Credits: 3
- PSYC 668 - Personality: Theoretical and Empirical Approaches Credits: 3
- PSYC 703 - Social Bases of Behavior Credits: 3

Historical

- PSYC 705 - Historical and Philosophical Issues in Psychology Credits: 3

Specialized content (15 credits)

Students should contact the department for a list of courses approved to meet this requirement.

Three semesters of 1-credit research course (3 credits)

- PSYC 897 - Directed Reading and Research Credits: 1-3

Third year research project (3 credits) chosen from:

- PSYC 897 - Directed Reading and Research Credits: 1-3
- PSYC 798 - Thesis Proposal Credits: 1-6
- PSYC 799 - Master's Thesis Credits: 1-6

Four courses of quantitative and research methods (14 credits)

Two required courses (8 credits)

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4
One course (3 credits) chosen from:

- PSYC 652 - Quantitative Methods II: Analysis of Variance Credits: 3
- PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques Credits: 3
- PSYC 756 - Quantitative Methods IV: Multivariate Techniques in Psychology Credits: 3

One elective course (3 credits)

Students choose a fourth course in quantitative or research methods in consultation with an advisor and with the approval of the program faculty. This can include the course not chosen to fulfill the requirement above.

Professional seminars (2 credits):

- PSYC 890 - Seminar in Professional Psychology Credits: 1-3

Elective credits

Students can complete the 72 credit requirement through credits of additional coursework, research, or seminar.

Dissertation (12 credits):

Students take at least 3 credits of 998 and 3 credits of 999.

- PSYC 998 - Doctoral Dissertation Proposal Credits: 1-6
- PSYC 999 - Doctoral Dissertation Credits: 1-3

Total: 72 credits

▲ Concentration in Clinical Psychology (CLN)

The clinical psychology concentration is committed to the scientist–practitioner model. The goal of the program is to train clinical psychologists who are capable of integrating research and applied clinical activities. The program is unique in approaching clinical psychology from social psychological and community perspectives. A social psychological approach uses theory and research from social psychology to understand emotional, cognitive, behavioral, and interpersonal functioning. A community approach stresses the impact of social and cultural factors on the individual and the impact of the individual on the community. Most of the faculty members employ cognitive–behavioral and interpersonal approaches to research and clinical practice.

Students pursuing this concentration must complete 72 graduate credits.
One course (3 credits) of biological bases of behavior chosen from:

- PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3
- PSYC 559 - Behavioral Chemistry Credits: 3
- PSYC 702 - Biological Bases of Human Behavior Credits: 3

One course (3 credits) of developmental bases of behavior chosen from:

- PSYC 666 - Cognitive and Perceptual Development Credits: 3
- PSYC 669 - Social and Emotional Development Credits: 3
- PSYC 704 - Life-Span Development Credits: 3

Two courses (8 credits) in research methods and analysis

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4

Eleven required courses (37 credits):

- PSYC 810 - Psychological Assessment I Credits: 4
- PSYC 811 - Psychological Assessment II Credits: 4
- PSYC 822 - Scientific Foundations of Clinical Psychology I Credits: 3
- PSYC 823 - Scientific Foundations of Clinical Psychology II Credits: 3
- PSYC 830 - History, Systems, and Theories of Personality and Psychotherapy Credits: 3
- PSYC 831 - Social-Cognitive Interventions in Clinical Psychology Credits: 3
- PSYC 833 - Social And Cognitive Foundations Of Clinical Psychology Credits: 3
- PSYC 840 - Community Psychology I Credits: 3
- PSYC 841 - Community Psychology II Credits: 3
- PSYC 881 - Practicum in Clinical Psychology Credits: 1-3
  Students take 7 credits of this course: 1 credit in the spring of the first year and 3 credits each in fall and spring of the second year.
- PSYC 890 - Seminar in Professional Psychology Credits: 1-3
  Students take 1 credit of this course.

Three elective courses (9 credits)

Students choose electives in consultation with and the approval of an advisor.

Dissertation (12 credits):
At least 3 credits of each.

- PSYC 998 - Doctoral Dissertation Proposal Credits: 1-6
- PSYC 999 - Doctoral Dissertation Credits: 1-3

**Internship**

Students complete a full-time, 12-month clinical psychology internship at a site accredited by the American Psychological Association.

**Externship (optional, but recommended)**

Students complete a part-time clinical psychology externship in the third or fourth year of the program.

**Total: 72 credits**

▲ **Concentration in Human Factors/Applied Cognition (HF)**

The human factors and applied cognition concentration covers basic theoretical and empirical issues and emphasizes research that applies cognitive science to real-world problems. The program builds bridges between human factors engineering and cognitive psychology. Many applications of cognitive science are in the domain of human factors, and many doctoral students who complete our program go on to be human factors professionals.

Students pursuing this concentration must complete 72 graduate credits.

**One course (3 credits) of cognitive core chosen from:**

- PSYC 701 - Cognitive Bases of Behavior Credits: 3
- PSYC 759 - Applied Decision Making Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3

**Two courses of biological, social, developmental, or historical core (6 credits) chosen from:**

**Biological**

- PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3
- PSYC 559 - Behavioral Chemistry Credits: 3
- PSYC 685 - Cognitive Neuroscience Credits: 3
- PSYC 702 - Biological Bases of Human Behavior Credits: 3
Social

- PSYC 667 - Behavior in Small Groups and Teams Credits: 3
- PSYC 668 - Personality: Theoretical and Empirical Approaches Credits: 3
- PSYC 703 - Social Bases of Behavior Credits: 3

Developmental

- PSYC 666 - Cognitive and Perceptual Development Credits: 3
- PSYC 669 - Social and Emotional Development Credits: 3
- PSYC 704 - Life-Span Development Credits: 3

Historical

- PSYC 705 - Historical and Philosophical Issues in Psychology Credits: 3

Two courses (8 credits) of quantitative and research methods:

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4

Three courses (9 credits) of advanced statistics or qualitative methods

Two courses of specialized content (6 credits)

- PSYC 530 - Cognitive Engineering: Cognitive Science Applied to Human Factors Credits: 3
- PSYC 645 - Research Methods in Human Factors and Applied Cognition Credits: 3

Three courses (9 credits) of additional specialized content

These are seminars with variable topics that may be repeated for credit when the topic is different.

- PSYC 734 - Seminar in Human Factors and Applied Cognition Credits: 3
- PSYC 737 - Psychology of Human-Technology Interaction Credits: 3
• PSYC 768 - Advanced Topics in Cognitive Science Credits: 3

One course (3 credits) of special topics in professional issues:
• PSYC 890 - Seminar in Professional Psychology Credits: 1-3

Directed reading and research

Students are encouraged to take a minimum of 1 credit of this course each semester.
• PSYC 897 - Directed Reading and Research Credits: 1-3

Elective courses

Students have several options for completing the remaining 72 credits required for the degree. They may take additional content courses, including the variable topics seminars 734, 737, or 768, or they may take 3 to 6 credits of Practicum - PSYC 730 with permission of their advisor. Students who do not have work experience in applied cognition or human factors are encouraged to take up to 6 credits of practicum.

Students are strongly encouraged to develop competence in programming and computer science through course work or independent study. Students are also encouraged to identify and take relevant courses within or outside the department with permission of their advisor.

Some options for fulfilling this requirement:
• PSYC 734 - Seminar in Human Factors and Applied Cognition Credits: 3
• PSYC 737 - Psychology of Human-Technology Interaction Credits: 3
• PSYC 768 - Advanced Topics in Cognitive Science Credits: 3
• PSYC 730 - Practicum in Applied Psychology Credits: 1-6

Dissertation (12 credits):

Students take at least 3 credits of 998 and 3 credits of 999.
• PSYC 998 - Doctoral Dissertation Proposal Credits: 1-6
• PSYC 999 - Doctoral Dissertation Credits: 1-3

Total: 72 credits

▲ Concentration in Industrial/Organizational Psychology (IO)

The industrial/organizational psychology concentration focuses on multiple aspects of behavior in organizational settings, including personnel selection, quantitative analysis, teams, leadership, work and family issues, and organizational health issues.
Mason’s graduate work in this area emphasizes research as the key to knowledge in both academic and applied settings. The program fosters a peer-oriented environment whereby students collaborate on numerous projects in addition to working with faculty members, in many different areas of industrial/organizational psychology.

Students pursuing this concentration must complete 74 graduate credits.

Two courses (6 credits) of core

One course (3 credits) of cognitive core chosen from:

- PSYC 701 - Cognitive Bases of Behavior Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3

One course (3 credits) of social core chosen from:

- PSYC 667 - Behavior in Small Groups and Teams Credits: 3
- PSYC 668 - Personality: Theoretical and Empirical Approaches Credits: 3
- PSYC 703 - Social Bases of Behavior Credits: 3

Two courses (8 credits) of quantitative and research methods:

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4

Three courses (9 credits) of advanced quantitative and research methods:

One required course (3 credits)

- PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques Credits: 3

Two courses (6 credits) chosen from:

- PSYC 557 - Psychometric Methods Credits: 3
- PSYC 633 - Evaluative Research in Psychology Credits: 3
- PSYC 654 - Naturalistic Methods in Psychology Credits: 3
• PSYC 892 - Special Topics in Psychology Credits: 1-6 (when topic is Meta-Analysis/SEM)
• PSYC 756 - Quantitative Methods IV: Multivariate Techniques in Psychology Credits: 3

Six courses (18 credits) of specialized content

Two required courses (6 credits)

• PSYC 636 - Survey of Industrial Psychology Credits: 3
• PSYC 639 - Survey of Organizational Processes Credits: 3

One elective course (3 credits) chosen from:

• PSYC 631 - Industrial and Personnel Testing and Evaluation Credits: 3
• PSYC 638 - Training: Psychological Contributions to Theory, Design, and Evaluation Credits: 3
• PSYC 640 - Techniques in Industrial/Organizational Psychology Credits: 3
• PSYC 733 - Issues in Personnel Psychology Credits: 3
• PSYC 736 - Research in Human Performance Assessment Credits: 3
• PSYC 592 - Special Topics Credits: 1-6 (when relevant)
• PSYC 892 - Special Topics in Psychology Credits: 1-6 (when relevant)

One elective course (3 credits) chosen from:

• PSYC 667 - Behavior in Small Groups and Teams Credits: 3
• PSYC 735 - Psychological Perspectives on Organizational Development Credits: 3
• PSYC 739 - Seminar in Industrial/Organizational Psychology Credits: 3
• PSYC 741 - Psychology of Work Motivation Credits: 3
• PSYC 592 - Special Topics Credits: 1-6 (when relevant)
• PSYC 892 - Special Topics in Psychology Credits: 1-6 (when relevant)

One course (3 credits) of special topics in professional issues:

• PSYC 890 - Seminar in Professional Psychology Credits: 1-3

Four elective courses (12 credits)

Students can apply courses from outside the department to this requirement with approval of their advisor.
Practicum or Directed Reading and Research (6 credits):

- PSYC 730 - Practicum in Applied Psychology Credits: 1-6
- PSYC 897 - Directed Reading and Research Credits: 1-3

Dissertation (12 credits):

Students take at least 3 credits of 998 and 3 credits of 999.

- PSYC 998 - Doctoral Dissertation Proposal Credits: 1-6
- PSYC 999 - Doctoral Dissertation Credits: 1-3

Total: 74 credits

■ Public and International Affairs

Phone: 703-993-1400
Web: pia.gmu.edu

Faculty

Robinson Professors: HeClo, Paden

Emeritus faculty: Brown, Clark, Early, Gortner, Hart-Nibbrig, Knight, White

Professors: Abramson, Cioffi-Revilla, Conant, Conlan, Druckman, Dudley, Katz, Posner, Regan (chair), Sockett, Wan, Wilsford

Associate professors: Balint, Burt, Dueck, Hackler, Harbour, Lukacs, Mahler, Mandaville, McDonald, McFerson, Miller, Nguyen, Sacco, Snyder-Hall, Toepfer, Travis

Assistant professors: Benjamin, Bowie, Brigety, Haddad, Kobeltz, Lopez-Santana, Ouagham-Gormley, Robbins

Term assistant professors: Burroughs, Palubinskas, Walker

Affiliate faculty: Bushee, Casamayou, Connolly, Edner, Shogan

Course Work

The Public and International Affairs Department offers all course work designated BIOD, GOVT, and PUAD in the Courses chapter of this catalog.
Undergraduate Programs

The department offers two degrees for students interested in political science, government, and international relations: a BA in government and international politics and a BS in public administration. Majors in government and international politics take core courses in American political institutions, the political systems of other countries, and international relations. Students can focus their electives to earn a concentration in American politics, international politics, political theory and law, or public policy. Majors in public administration take courses in government and nonprofit management, computer applications, and business administration.

Students have an opportunity to do internships as part of their degree programs, gaining valuable work experience while earning college credit.

Honors in the Major

Highly qualified students majoring in government and international politics and public administration may pursue advanced work leading to graduation with honors in the major. Those students selected for participation in this program take a two-course sequence GOVT 491 and 496. To graduate with honors in the major, students must complete these courses with a minimum GPA of 3.50.

Minors

The department offers minors in American government, international/comparative studies, legal studies, and public policy and management. In addition, faculty from the department coordinate or participate in the Asia-Pacific Studies Minor, Global Systems Minor, Middle East Studies Minor, Islamic Studies Minor, and Urban and Suburban Studies Minor. It participates with the Philosophy Department in the Political Philosophy Minor. See the Minors and Interdisciplinary Minors section of this chapter.

Bachelor's/Accelerated Master's Programs

The department offers highly qualified undergraduates the opportunity to apply to an accelerated master’s degree program in political science or public administration. If accepted, students will be able to earn both an undergraduate and a graduate degree after satisfactory completion of 150 credits, sometimes within five years.

Graduate Programs

The department offers masters and doctoral programs in biodefense and political science. They offer a master's of public administration (MPA), in which students can focus their electives to earn a concentration in administration of justice, emergency management and homeland security, environmental science and public policy, human resources management, international management, nonprofit management, policy studies, public management, publica and nonprofit finance, state and local government, or third-party governance.

Funding

The department offers teaching assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

Certificate Programs
The department offers six graduate certificates. Students may pursue a certificate as a stand alone program or as part of another graduate degree. They must apply for admission to the certificate program and meet the admission standards set for degree-seeking graduate students in the department.

**Master’s International (MI)**

Graduate students can take advantage of Master’s International (MI), a joint program between Mason and the Peace Corps, which enables participants to combine Peace Corps volunteer service with the master's degrees in political science or public administration. See the degree programs below for more details.

**Undergraduate Degree**

**Government and International Politics, BA**

**Banner Code:** LA-BA-GVIP

Web: pia.gmu.edu

This program of study is offered by the Department of Public and International Affairs.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

**Degree Requirements**

In addition to satisfying university general education requirements and the requirements for a bachelor of arts degree in the College of Humanities and Social Sciences, students pursuing this degree must complete 43 credits in GOVT. Students must earn a minimum grade of 2.00 in each course applied to the major. Up to 3 credits of GOVT 480 and 6 credits of GOVT 496 may be substituted for the requirements for the major. Registration in GOVT 480 requires approval of the internship coordinator, and registration in GOVT 496 requires approval of the instructor and chair.

**Five core courses (16 credits):**

- GOVT 101 - Democratic Theory and Practice Credits: 3
- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 132 - Introduction to International Politics Credits: 3
- GOVT 133 - Introduction to Comparative Politics Credits: 3
- GOVT 300 - Research Methods and Analysis Credits: 4

**Eight advanced government field courses (24 credits)**

Students must take at least one course (3 credits) in each of the four government fields listed below. Up to 3 credits of GOVT 480 and 6 credits of GOVT 496 may be used in fulfillment of the 24-credit requirement in government field courses with prior written approval of the undergraduate director. GOVT 490 may not be used to fulfill a government field requirement.

**American politics:**
- GOVT 301 - Public Law and the Judicial Process Credits: 3
- GOVT 304 - American State and Local Government Credits: 3
- GOVT 305 - Contemporary American Federalism Credits: 3
- GOVT 307 - Legislative Behavior Credits: 3
- GOVT 308 - The American Presidency Credits: 3
- GOVT 309 - Government and Politics of Metropolitan Areas Credits: 3
- GOVT 311 - Public Opinion and Electoral Behavior Credits: 3
- GOVT 312 - Political Parties and Campaigns Credits: 3
- GOVT 318 - Interest Groups, Lobbying, and the Political Process Credits: 3
- GOVT 319 - Issues in Government and Politics Credits: 1-3
- GOVT 407 - Law and Society Credits: 3
- GOVT 409 - Virginia Government and Politics Credits: 3
- GOVT 412 - Politics and the Mass Media Credits: 3
- GOVT 414 - Politics of Race and Gender Credits: 3

Political theory and law:

- GOVT 322 - International Relations Theory Credits: 3
- GOVT 323 - Classical Western Political Theory Credits: 3
- GOVT 324 - Modern Western Political Theory Credits: 3
- GOVT 327 - Contemporary Western Political Theory Credits: 3
- GOVT 328 - Non-Western Political Theory Credits: 3
- GOVT 329 - Issues in Political Theories and Values Credits: 1-3
- GOVT 420 - American Political Thought Credits: 3
- GOVT 421 - Contemporary Political Ideologies Credits: 3
- GOVT 422 - Constitutional Interpretation Credits: 3
- GOVT 423 - Constitutional Law: Civil Rights and Liberties Credits: 3
- GOVT 424 - Constitutional Law: Criminal Process and Rights Credits: 3
- GOVT 427 - Feminist Political Thought Credits: 3
- GOVT 428 - Advanced Democratic Theory Credits: 3
- GOVT 470 - Faith and Reason in the Making of the Modern Mind Credits: 3
- GOVT 471 - Millennialism and Philosophies of History in Western Culture Credits: 3
- GOVT 472 - Christianity, Secularism, and Democracy Credits: 3

International and comparative politics:

- GOVT 331 - Government and Politics of Latin America Credits: 3
- GOVT 332 - Government and Politics of the Middle East and North Africa Credits: 3
- GOVT 333 - Government and Politics of Asia Credits: 3
- GOVT 334 - Government and Politics of Europe Credits: 3
- GOVT 336 - Political Development and Change Credits: 3
- GOVT 337 - Ethnic Politics in Western Europe and North America Credits: 3
- GOVT 338 - Government and Politics of Russia Credits: 3
- GOVT 339 - Issues in the Politics of Advanced Industrial Societies Credits: 1-3
- GOVT 340 - Central Asian Politics Credits: 3
- GOVT 341 - Chinese Foreign Policy Credits: 3
- GOVT 342 - Diplomacy Credits: 3
- GOVT 343 - International Political Economy Credits: 3
- GOVT 344 - American Foreign Policy Credits: 3
- GOVT 345 - Political Islam Credits: 3
- GOVT 346 - American Security Policy Credits: 3
- GOVT 347 - International Security Credits: 3
- GOVT 340 - Comparative Political Leadership Credits: 3
- GOVT 432 - Political Change and Social Development in Sub-Saharan Africa Credits: 3
- GOVT 433 - Political Economy of East Asia Credits: 3
- GOVT 434 - Democracy in Global Perspective Credits: 3
- GOVT 443 - Law and Ethics of War Credits: 3
- GOVT 444 - Issues in International Studies Credits: 1-3
- GOVT 445 - Human Rights Credits: 3
- GOVT 446 - International Law and Organization Credits: 3
- GOVT 447 - Revolution and International Politics Credits: 3
- GOVT 448 - Ethics and International Politics Credits: 3

Public policy and administration:

- GOVT 351 - Administration in the Political System Credits: 3
- GOVT 355 - Public Personnel Administration Credits: 3
- GOVT 356 - Public Budgeting and Finance Credits: 3
- GOVT 357 - Urban Governance and Planning Credits: 3
- GOVT 358 - Nonprofit Financial Planning Credits: 4
- GOVT 359 - Computers in Public Management Credits: 3
- GOVT 361 - Introduction to Environmental Policy Credits: 3
- GOVT 364 - Public Policy Making Credits: 3
- GOVT 365 - State and Regional Public Policy Credits: 3
- GOVT 366 - Public Policy Analysis Credits: 3
- GOVT 452 - Administrative Law and Procedures Credits: 3
- GOVT 460 - Surveillance and Privacy in Contemporary Society Credits: 3
- GOVT 464 - Issues in Public Policy and Administration Credits: 1-3

One senior seminar (3 credits) chosen from:

- GOVT 490 - Synthesis Seminar Credits: 3
- GOVT 491 - Honors Seminar Credits: 3

This option is for students who have been accepted to pursue honors in the major.

Total: 43 credits
Concentrations

Students may choose to concentrate in one of the four advanced government fields listed above by completing five courses (15 credits) in that field. They must still take one course (3 credits) in each of the other three fields and complete a total of 24 credits of field courses. GOVT 490 may not be used to fulfill a requirement for a concentration.

▲ Concentration in American Politics (AMP)

Five courses (15 credits) chosen from:

- GOVT 301–319
- GOVT 401–419

▲ Concentration in Political Theory and Law (PTL)

Five courses (15 credits) chosen from:

- GOVT 320–329
- GOVT 420–429
- GOVT 446
- GOVT 470–472

▲ Concentration in International and Comparative Politics (ICOM)

Five courses (15 credits) chosen from:

- GOVT 330–349
- GOVT 430–449

▲ Concentration in Public Policy and Administration (PPA)

Five courses (15 credits) chosen from:

- GOVT 350–369
- GOVT 450–469

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors. Students majoring in government and international politics may fulfill this requirement by successfully completing GOVT 490 or GOVT 491 in their major programs.

Public Administration, BS

Banner Code: LA-BS-PUAD

Web: pia.gmu.edu
This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements

In addition to satisfying university general education requirements and the requirements for a bachelor of science degree in the College of Humanities and Social Sciences, students majoring in public administration must complete the coursework below.

Students must earn a minimum grade of 2.00 in each course applied to the major, including GOVT courses as well as the supporting courses in other disciplines used to fulfill the requirements below. Only 3 credits of GOVT 480 may substituted for a major requirement. STAT 250, GOVT 343, GOVT 358, and GOVT 464 may be applied to only one major requirement. With careful planning, some courses required for the major may also fulfill university general education requirements. See an advisor before registering.

Six core courses (19 credits):

- GOVT 101 - Democratic Theory and Practice Credits: 3
- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 132 - Introduction to International Politics Credits: 3
  or
- GOVT 133 - Introduction to Comparative Politics Credits: 3
- GOVT 300 - Research Methods and Analysis Credits: 4
- GOVT 304 - American State and Local Government Credits: 3
- GOVT 351 - Administration in the Political System Credits: 3

Two required advanced government courses (6 credits)

- GOVT 355 - Public Personnel Administration Credits: 3
- GOVT 356 - Public Budgeting and Finance Credits: 3

One advanced government course (3-4 credits) chosen from:

- GOVT 357 - Urban Governance and Planning Credits: 3
- GOVT 358 - Nonprofit Financial Planning Credits: 4
- GOVT 452 - Administrative Law and Procedures Credits: 3
- GOVT 464 - Issues in Public Policy and Administration Credits: 1-3
- NCLC 331 - The Nonprofit Sector Credits: 4

Four elective advanced government courses (12 credits) chosen from:
• 3 credits from GOVT 320s or 420s
• 3 credits from GOVT 360s or 460s
• 3 credits of upper-level GOVT taken outside of GOVT 350s and 450s (may include GOVT 480 or 496)

One senior seminar (3 credits) chosen from:

• GOVT 490 - Synthesis Seminar Credits: 3
• GOVT 491 - Honors Seminar Credits: 3

Two courses in analytical skills (6-8 credits) chosen from:

• OM 210 - Statistical Analysis for Management Credits: 4
• OM 301 - Operations Management Credits: 3
• STAT 250 - Introductory Statistics I Credits: 3
• STAT 350 - Introductory Statistics II Credits: 3
• SOCI 313 - Statistics for the Behavioral Sciences Credits: 4
• MATH 106 - Quantitative Reasoning Credits: 3
• MATH 108 - Introductory Calculus with Business Applications Credits: 3
• MATH 110 - Introductory Probability Credits: 3
• MATH 111 - Linear Mathematical Modeling Credits: 3
• MATH 113 - Analytic Geometry and Calculus I Credits: 4
• MATH 115 - Analytic Geometry and Calculus I (Honors) Credits: 4

Three courses (9 credits) in economics and finance

Two courses (6 credits) in introductory economics

• ECON 103 - Contemporary Microeconomic Principles Credits: 3
• ECON 104 - Contemporary Macroeconomic Principles Credits: 3

One upper-level course (3 credits) chosen from:

• courses in economics (ECON)
• courses in finance (FNAN)
• GOVT 343 - International Political Economy Credits: 3
One course (3-4 credits) in accounting or finance chosen from:

- courses in accounting (ACCT)
- GOVT 358 - Nonprofit Financial Planning Credits: 4

9 credits of coursework in either information technology or foreign language:

Information technology:

- courses in computer science (CS)
- courses in information systems (INFS)
- courses in information technology (IT)
- courses in management information systems (MIS)
- GOVT 359 - Computers in Public Management Credits: 3
- STAT 362 - Introduction to Computer Statistical Packages Credits: 3
- SOCI 405 - Analysis of Social Data Credits: 4

Foreign language:

- One modern foreign language through the intermediate level. At Mason this is equivalent to successful completion of a foreign language course numbered 210.

Total: 70-73 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors. Students majoring in public administration may fulfill this requirement by successfully completing GOVT 490 or GOVT 491 in their major programs.

Undergraduate Interdisciplinary Minor

Global Systems Minor

Banner Code: GLOS
Phone: 703-993-1400
**Faculty**

Harbour (coordinator)

Global systems have become increasingly important to the way we live and work, and a global perspective makes us more aware of how we are connected to others around the world and to the whole of nature.

The interdisciplinary minor in global systems is designed to complement virtually any undergraduate major. It works well for majors in business disciplines, economics, languages, geography, government and international politics, history, and other disciplines that take a global view. Students in professional programs learn to connect their professional concerns to global issues of health care, trade and finance, or technology. Students in the liberal arts gain insights into their disciplines as they learn how the arts, humanities, sciences, and social sciences are affected by global issues such as demographic change, telecommunications, and environmental protection.

Other globally oriented courses may also fulfill or substitute for the requirements of this program with written permission of the coordinator prior to registration.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies chapter of the catalog.

**Course Work**

Students pursuing this minor must complete 18 credits with at least 9 credits at the 300 level or above.

**One required course (3 credits) chosen from:**

- GLOA 101 - Introduction to Global Affairs Credits: 3
- GOVT 132 - Introduction to International Politics Credits: 3
- HIST 130 - History of the Modern Global System Credits: 3

**Five elective courses (15 credits) chosen from at least two of the following fields:**

Other globally-oriented courses may also be applied to this requirement with written approval of the director.

**Field A: Government, geography, and administration of justice:**

- GOVT 132 - Introduction to International Politics Credits: 3
- GOVT 444 - Issues in International Studies Credits: 1-3
- CRIM 405 - Law and Justice around the World Credits: 3
- GGS 101 - Major World Regions Credits: 3
- GGS 301 - Political Geography Credits: 3
- GGS 303 - Conservation of Resources and Environment Credits: 3
- GGS 304 - Populations Dimensions of Global Change Credits: 3
- GGS 305 - Economic Geography Credits: 3

**Field B: Economics, anthropology, marketing, history, and sociology**
- ANTH 300 - Civilizations Credits: 3
- ANTH 312 - Political Anthropology Credits: 3
- ANTH 331 - Refugees Credits: 3
- ANTH 375 - Culture, Power, History Credits: 3
- ECON 360 - Economics of Developing Areas Credits: 3
- ECON 361 - Economic Development of Latin America Credits: 3
- ECON 380 - Economies in Transition Credits: 3
- ECON 390 - International Economics Credits: 3
- HIST 125 - Introduction to World History Credits: 3
- HIST 130 - History of the Modern Global System Credits: 3
- HIST 387 - Topics in Global History Credits: 3
- MKTG 407 - International Marketing Credits: 3
- SOCI 332 - Sociology of Urban Communities Credits: 3

Field C: Environmental science, global health, systems engineering, urban and suburban studies, civil and infrastructure engineering

- BIOL 307 - Ecology Credits: 4
- BIOL 377 - Applied Ecology Credits: 3
- CEIE 100 - Environmental Engineering around the World Credits: 3
- CEIE 450 - Environmental Engineering Systems Credits: 3
- CEIE 456 - Environmental Law Credits: 3
- GCH 543 - Global Health: Trends and Policies Credits: 3
- USST 301 - Urban Growth in a Shrinking World Credits: 3

Field D: Modes of communication

- COMM 305 - Foundations of Intercultural Communication Credits: 3
- COMM 456 - Comparative Mass Media Credits: 3
- DANC 118 - World Dance Credits: 3
- MUSI 103 - Musics of the World Credits: 3
- MUSI 431 - Music History in Society III Credits: 3
- THR 359 - World Stages Credits: 3

Total: 18 credits

Middle East Studies Minor

Banner Code: MES

Phone: 703-993-2926
Web: mes.gmu.edu
Faculty

Amireh, Aydin, Bakhash, Bryant, Butler, Dakake, Gopin, Haddad (director), Hamdani, Hammer, Katz, Lukacs, Mandaville, Paczynska, Rouhana, Salawdeh

Today, more than ever before, Middle East politics has become intertwined with American politics and the lives of many Americans. The minor in Middle East studies is designed to equip undergraduates with a firm multidisciplinary grounding in the region, its history, and its international relations. It is available for enrolled Mason students.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

In partial fulfillment of coursework for the minor, students are strongly encouraged to participate in study abroad courses on the Middle East.

Three core courses (9 credits):

- HIST 282 - Survey of Middle Eastern Civilization Credits: 3
- GOVT 332 - Government and Politics of the Middle East and North Africa Credits: 3
- ENGL 349 - Global Voices Credits: 3
- or ANTH 330 - Peoples and Cultures of Selected Regions: Non-Western Credits: 3 (if region studied is relevant to Middle East studies)

Three elective courses (9 credits):

In addition to the courses below, one of the following may be used as an elective: GOVT 328, GOVT 445, CONF 399, CONF 340. One course in a relevant language may be used as an elective. Other courses including ANTH 399, when topic pertains to the Middle East, may be used as electives with the prior written approval of the director.

- GOVT 345 - Political Islam Credits: 3
- HIST 281 - Survey of Middle Eastern Civilization Credits: 3
- HIST 462 - Women in Islamic Society Credits: 3
- HIST 460 - Modern Iran Credits: 3
- HIST 461 - Arab-Israeli Conflict Credits: 3
- HIST 465 - The Middle East in the 20th Century Credits: 3
- HIST 387 - Topics in Global History Credits: 3
- RELI 211 - Religions of the West Credits: 3
- RELI 272 - Islam Credits: 3
- RELI 374 - Islamic Thought Credits: 3
- RELI 375 - Qur'an and Hadith Credits: 3
- ARTH 319 - Art and Archaeology of the Ancient Near East Credits: 3
- ARTH 320 - Art of the Islamic World Credits: 3
- GGS 325 - Geography of North Africa and the Middle East Credits: 3
• ARAB 325 - Major Arab Writers/Stories Credits: 3
• ARAB 330 - Reading and Conversation I Credits: 3
• ARAB 331 - Reading and Conversation II Credits: 3

Total: 18 credits

Urban and Suburban Studies Minor

Banner Code: USSD

Phone: 703-993-1418

Faculty

Clapsaddle, Gifford, Hackler (director), Haynes, Hysom, Mattusch, Samara, Schintler, Schrag, Sockett, Stough, Todd, Travis, Wong

The program offers all course work designated USST in the Courses chapter of this catalog.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Three core courses (9 credits):

• USST 301 - Urban Growth in a Shrinking World Credits: 3
• USST 390 - Special Topics in Urban and Suburban Studies Credits: 3
• USST 401 - Seminar: The Future of Metropolitan America Credits: 3

Three elective courses (9 credits)

• Chosen from a list of approved electives, which must be selected from more than one of the following categories: environment and culture, government and policy, and economy. Consult the director for a list of approved courses in each category.

Total: 18 credits
Undergraduate Minor

American Government Minor

Banner Code: AMGV

Web: pia.gmu.edu

The minor in American government develops knowledge of the principles, institutions, and behaviors of the American political system.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits in government with a minimum grade of 2.0 in each course.

One core course (3 credits):

- GOVT 103 - Introduction to American Government Credits: 3

Five elective courses (15 credits) chosen from:

- Any GOVT 301–309 political institutions
- Any GOVT 310–319 political behavior
- Any GOVT 409–420
- GOVT 480 - Internship, when relevant, with prior written approval of the undergraduate director
- GOVT 344 - American Foreign Policy Credits: 3

Total: 18 credits

International/Comparative Studies Minor

Banner Code: ICS

Web: pia.gmu.edu

This minor increases students’ awareness of the regions and current issues of the world on theoretical and practical levels.

This program of study is offered by the Department of Public and International Affairs.
For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits in government with a minimum grade of 2.0 in each course.

One core course (3 credits) chosen from:

- GOVT 132 - Introduction to International Politics Credits: 3
- GOVT 133 - Introduction to Comparative Politics Credits: 3

Five elective courses (15 credits) chosen from:

- Any GOVT 330–339 comparative politics
- Any GOVT 340–349 international studies
- Any GOVT 430–439 comparative politics
- Any GOVT 440–449 international studies
- GOVT 480 - Internship, when relevant, with the prior written approval of the undergraduate director
- GOVT 103 - Introduction to American Government Credits: 3

Total: 18 credits

Legal Studies Minor

Banner Code: LGLS

Web: pia.gmu.edu

The minor in legal studies focuses on the constitutional foundations, interpretation, processes, and functions of domestic and international law.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits in government with a minimum grade of 2.0 in each course.

Two core courses (6 credits):

- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 301 - Public Law and the Judicial Process Credits: 3
Four elective courses (12 credits) chosen from the list below

GOVT 480 - Internship, when relevant, may be used to partially meet this requirement with prior written approval of the undergraduate director.

- GOVT 307 - Legislative Behavior Credits: 3
- GOVT 414 - Politics of Race and Gender Credits: 3
- GOVT 420 - American Political Thought Credits: 3
- GOVT 422 - Constitutional Interpretation Credits: 3
- GOVT 423 - Constitutional Law: Civil Rights and Liberties Credits: 3
- GOVT 424 - Constitutional Law: Criminal Process and Rights Credits: 3
- GOVT 446 - International Law and Organization Credits: 3
- GOVT 452 - Administrative Law and Procedures Credits: 3

Total: 18 credits

Public Policy and Management Minor

Banner Code: PPMG

Web: pia.gmu.edu

This minor introduces students to the theory and process of policy formulation and implementation in the political and governmental arena.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits in government with a minimum grade of 2.0 in each course.

Two core courses (6 credits)

- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 351 - Administration in the Political System Credits: 3

Four elective courses (12 credits) chosen from:

- GOVT 350–359 public administration
Any GOVT 360–369 public policy
Any GOVT 450–459 public administration
Any GOVT 460–469 public policy
GOVT 480 - Internship, when relevant, with the prior written approval of the undergraduate director

Total: 18 credits

Bachelor's/Accelerated Master's Program

Government and International Politics, BA/Political Science, Accelerated MA

Web: pia.gmu.edu

Highly qualified Mason students doing a BA in government and international politics or a BS in public administration may apply to the accelerated master's degree program. If accepted, students will be able to earn both the BA or BS and the MA in political science after satisfactory completion of 150 credits.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 90 credits. Applicants to the accelerated master's in political science must have a minimum cumulative GPA of 3.40.

Along with the Accelerated Master’s Program Application, available from the graduate programs office in the Department of Public and International Affairs, students submit two letters of recommendation (preferably from professors), and a résumé. The application includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the department for more details about the application process.

Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.
Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Government and International Politics, BA/Public Administration, Accelerated MPA

Web: pia.gmu.edu

Highly qualified Mason students doing a BA in government and international politics may apply to the accelerated master's degree program. If accepted, students will be able to earn the BA and the MPA after satisfactory completion of 150 credits.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 90 credits. Applicants to the accelerated MPA program must have a minimum cumulative GPA of 3.40.

Along with the Accelerated Master’s Program Application, available from the graduate programs office in the Department of Public and International Affairs, students submit two letters of recommendation (preferably from professors), and a résumé. The application includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the department for more details about the application process.

Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the
permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

**Public Administration, BS/Political Science, Accelerated MA**

Web: pia.gmu.edu

Highly qualified Mason students doing a BA in government and international politics or a BS in public administration may apply to the accelerated master's degree program. If accepted, students will be able to earn both the BA or BS and the MA in political science after satisfactory completion of 150 credits.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

**Application Requirements**

Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 90 credits. Applicants to the accelerated master's in political science must have a minimum cumulative GPA of 3.40.

Along with the Accelerated Master’s Program Application, available from the graduate programs office in the Department of Public and International Affairs, students submit two letters of recommendation (preferably from professors), and a résumé. The application includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the department for more details about the application process.

**Degree Requirements**

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.
Public Administration, BS/Public Administration, Accelerated MPA

Web: pia.gmu.edu

Highly qualified Mason students doing a BS in public administration may apply to the accelerated master's degree program. If accepted, students will be able to earn the BS and the MPA after satisfactory completion of 150 credits.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 90 credits. Applicants to the accelerated MPA program must have a minimum cumulative GPA of 3.40.

Along with the Accelerated Master’s Program Application, available from the graduate programs office in the Department of Public and International Affairs, students submit two letters of recommendation (preferably from professors), and a résumé. The application includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the department for more details about the application process.

Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Master's Degree

Biodefense, MS
The master's degree in biodefense prepares students to become the next generation of biodefense and biosecurity professionals and scholars. This program provides students with a foundation in microbiology and biotechnology combined with a broader security and organizational context.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Students must meet the admission standards and application requirements of the university as specified in the Admission chapter of the catalog. Because of the breadth of the program, students with backgrounds in science or other areas, such as international affairs, political science, law, public policy, and conflict resolution, are encouraged to apply. In addition to fulfilling the admission requirements for graduate study, applicants must submit:

- Three letters of recommendation from faculty members or individuals who have firsthand knowledge of the applicant’s academic or professional capabilities
- A statement of purpose consistent with research interests or professional goals
- A current resume
- Scores from GRE taken within five years prior to date of application

Degree Requirements

Students are strongly encouraged to take the core courses as early as possible because they provide the foundation for the rest of the program. The schedule of courses that students plan on taking should be approved in an education plan designed by the students and their advisor during the student’s first semester. Students must receive the permission of their advisor to take courses outside of the Biodefense Program.

Seven core courses (19 credits):

- BIOD 604 - Introduction to Biodefense I: Bacterial and Toxin Agents Credits: 3
- BIOD 605 - Introduction to Biodefense II: Viral Agents Credits: 3
- BIOD 609 - Biodefense Strategy and Policy Credits: 3 (Students take 3 credits of this course.)
- BIOD 702 - Biodefense Colloquium Credits: 1
- PUAD 630 - Emergency Planning and Preparedness Credits: 3
- GOVT 500 - Research Methods in Political Science Credits: 3
- GOVT 540 - International Relations Credits: 3

Four to five elective courses (12-15 credits)

Students who do a thesis have 12 credits of electives. Students who do a project have 15 credits of electives. All students may choose electives from the full range of courses offered or focus 12 credits of electives in one of the concentrations below. At least 9 credits of electives must be in biodefense; the remaining credits (3-6) may be from outside biodefense with prior written approval of the director.
3 credits of project or 6 credits of thesis

Students must demonstrate the ability to conduct original, independent research by completing a research project or a thesis. The objectives of both the research project and thesis are to serve as a capstone for the student’s graduate education and to demonstrate the student’s research, analytical, and writing skills. Both options require the student to produce a substantial and original contribution to the fields of biodefense or biosecurity on the model of a paper suitable for presentation at a scholarly conference or an article in a peer-reviewed scholarly journal.

Students should be aware of the university policies governing theses. They must follow the thesis enrollment policy and once enrolled in BIOD 799, maintain continuous enrollment. These policies are specified in the Academic Policies chapter of the catalog.

- BIOD 798 - Master's Research Project in Biodefense Credits: 3
- BIOD 799 - Master's Thesis in Biodefense Credits: 1-6

Total: 37 credits

Concentrations

Students have the option of applying 12 credits of electives to complete one of the concentrations below.

▲ Concentration in Homeland Security (HMLS)

Four courses (12 credits) chosen from:

- BIOD 710 - Approaches to Bioweapon Medical Treatment and Response Credits: 3
- BIOD 722 - Examining Terrorist Groups Credits: 3
- BIOD 723 - Legal Dimensions of Homeland Security Credits: 3
- BIOD 725 - Terrorism and Weapons of Mass Destruction Credits: 3
- BIOD 726 - Agroterrorism and Food Security Credits: 3
- BIOD 751 - Biosurveillance Credits: 3
- BIOD 752 - The Role of the Military in Homeland Security Credits: 3
- BIOD 760 - National Security Technology and Policy Credits: 3
- BIOD 761 - Dispersal Patterns of Biological Agents Credits: 3
- BIOD 766 - Development of Vaccines and Therapeutics Credits: 3
- GOVT 510 - American Government and Politics Credits: 3
- GOVT 706 - Federalism and Intergovernmental Relations Credits: 3
- GOVT 755 - Seminar in Politics and Bureaucracy Credits: 3
- PUAD 631 - Disaster Response Operations and Recovery Credits: 3
- PUAD 635 - Emergency Preparedness: Interagency Communication and Coordination Credits: 3
- PUAD 727 - Seminar in Risk Assessment and Decision Making Credits: 3
- PUAD 731 - Homeland/Transportation Security Administration Credits: 3
- PUAD 750 - Federalism and Intergovernmental Relations Credits: 3
- PUBP 757 - Public Policy in Global Health and Medical Practice Credits: 3
- PUBP 758 - Global Threats and Medical Policies Credits: 3
• PHIL 642 - Biomedical Ethics Credits: 3

▲ Concentration in International Security (INLS)

Four courses (12 credits) chosen from:

• BIOD 620 - Health and Security Credits: 3
• BIOD 621 - Ethics and International Security Credits: 3
• BIOD 622 - Negotiating in the International Arena Credits: 3
• BIOD 705 - Intelligence: Theory and Practice Credits: 3
• BIOD 706 - Nuclear, Biological, and Chemical Weapons Policy and Security Credits: 3
• BIOD 709 - Nonproliferation and Arms Control Credits: 3
• BIOD 722 - Examining Terrorist Groups Credits: 3
• BIOD 725 - Terrorism and Weapons of Mass Destruction Credits: 3
• BIOD 760 - National Security Technology and Policy Credits: 3
• BIOD 761 - Dispersal Patterns of Biological Agents Credits: 3
• GOVT 641 - Seminar in Global Systems Credits: 3
• GOVT 741 - Advanced Seminar in International Politics Credits: 3
• GOVT 745 - International Security Credits: 3
• GOVT 843 - Diplomacy Credits: 3
• PUAD 504 - Managing in the International Arena: Theory and Practice Credits: 3
• PUAD 701 - Cross-Cultural and Ethical Dimensions of International Management Credits: 3
• PUAD 727 - Seminar in Risk Assessment and Decision Making Credits: 3

Political Science, MA

Banner Code: LA-MA-POS

Web: pia.gmu.edu

The MA in political science program prepares students for advanced work in political science, teaching, and research about government; a career in government and politics; and work in domestic and international nongovernmental organizations. Students may specialize in American government and politics, international relations, or comparative politics. In addition, interdisciplinary opportunities allow students to take up to 9 credits in related fields such as history or public policy.

The program is made up of four core courses in political science, two required seminars in a field of specialization, advanced seminars in the Department of Public and International Affairs, and elective courses in other departments.

The master's degree is the first step in an engaging and stimulating career. Students develop a deeper understanding of political ideas and institutions, more sophisticated research skills, a better grasp of the intricacies of governments abroad, and a deeper knowledge of the complexities of international politics. This degree can lead to a career teaching about government; working with legislative bodies, government agencies, and international organizations; or doing research and writing about politics and government.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.
Application Requirements

Applicants must meet admission standards and application requirements as specified in the Admission chapter of the catalog. Applicants to the master’s degree in political science should submit three letters of recommendation, preferably from recent professors; GRE scores; a résumé listing employment and volunteer work; and a statement of interests and career goals. A writing sample is strongly recommended.

Students are admitted for fall and spring. Applications received after the deadlines are considered on a space-available basis.

Degree Requirements

Students should develop an education plan with their advisors that lists the courses they plan to take. The plan is approved by the director of the graduate program. Students may include courses from other departments to complement their field of specialization; they should reflect the ideas, institutions, or processes of contemporary governance.

Students who wish to begin a career in government and politics or to alter their current career path in government and politics are encouraged to take a 3-credit internship in their area of interest. Internships can be arranged through the Department of Public and International Affairs.

Four core courses (12 credits)

- GOVT 510 - American Government and Politics Credits: 3
- GOVT 520 - Political Theory Credits: 3
- GOVT 530 - Comparative Politics Credits: 3
- GOVT 540 - International Relations Credits: 3

Two methods (6 credits) courses

- GOVT 500 - Research Methods in Political Science Credits: 3
- GOVT 711 - Problem Solving and Data Analysis I Credits: 3

Three to five courses (9 to 15 credits) in one field of specialization:

American government and politics

Two required field seminars (6 credits) chosen from:

- GOVT 603 - Seminar in the Courts and Constitutional Law Credits: 3
- GOVT 604 - Seminar on Congress and Legislative Behavior Credits: 3
- GOVT 605 - Seminar on the Presidency Credits: 3
• GOVT 706 - Federalism and Intergovernmental Relations Credits: 3

One to three elective courses (3 to 9 credits)

Comparative politics

Two required field seminars (6 credits) chosen from:

• GOVT 631 - Seminar in Comparative Politics and Institutions Credits: 3
• GOVT 731 - Advanced Seminar in Comparative Politics Credits: 3

One to three elective courses (3 to 9 credits)

International relations

Two required field seminars (6 credits) chosen from:

• GOVT 641 - Seminar in Global Systems Credits: 3
• GOVT 741 - Advanced Seminar in International Politics Credits: 3
• GOVT 743 - International Political Economy Credits: 3
• GOVT 745 - International Security Credits: 3

One to three elective courses (3 to 9 credits)

Up to three elective courses (9 credits)

The number of electives students have will depend on how many credits they took in the field of specialization and whether they choose a 3-credit project or a 6-credit thesis. Students choose the remaining credits required for the degree, if any, from other courses in the department, including an internship, additional courses in the field of specialization, or from course work offered by other departments.

3 credits of project or 6 credits of thesis

Students who choose to do a project take 3 credits of GOVT 798 linked to an advanced specialty course and produce a final research project. Students who choose to do a thesis should be aware of the policies governing theses. They must follow the enrollment policy of the university and, once enrolled in GOVT 799, must maintain continuous enrollment as specified in the Academic Policies chapter of the catalog. A thesis director and a committee of two additional faculty members appointed by the department read and approve the thesis. Students should make arrangements for doing a project or thesis with their advisor.

• GOVT 798 - Political Science Research Project Credits: 3
The Master’s International (MI), a joint program between Mason and the Peace Corps, enables participants to prepare for Peace Corps volunteer service while earning the MA. Students apply separately, but at the same time, to the Peace Corps and to Mason. Students must complete a minimum of 18 credits prior to their Peace Corps service; this will give the student a foundation to enhance their value as a Peace Corps volunteer. Six credits are earned as internship credits for the Peace Corps service. The internship requires a project, agreed upon by the student and his/her advisor, and includes a presentation delivered to faculty and students after the student returns to the US. Upon completion of the two years of service, the student will receive a tuition grant for the six internship credits. Students return to Mason after their two years of service to complete the remaining coursework required for the 36-credit MA.

Public Administration, MPA

Banner Code: LA-MPA-PUAD

Web: pia.gmu.edu

This master of public administration (MPA) is designed to build the knowledge base and skills of people who are playing or intend to play a leadership role in organizations that develop or implement public policy. In addition, the program is among the first to address implications of the growing reliance of government on a wide range of third parties, including other governments, private contractors, and nonprofits, for public goals and accountability.

MPA students at Mason have the research and cultural resources of the Washington, D.C. area at their disposal. Government agencies representing all levels in the U.S. federal system are located close to the campus, as are the National Archives, the Library of Congress, and the Smithsonian Institution. Another benefit is the wide range of internship opportunities available in governmental and nonprofit organizations. The MPA Program regularly has internship invitations from national, state, and local government organizations, as well as from nonprofit organizations whose principal work is at the local, state, national, or international levels. Many of these internships are paid positions.

MPA courses are held at the Fairfax and the Arlington Campuses during the week and on the weekend in an accelerated format.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Students must meet admission standards and application requirements as specified in the Admission chapter of the catalog. Applicants to the MPA program should submit three letters of recommendation; test scores from the GRE, GMAT, or LSAT; a résumé listing work experience and volunteer activity, and a statement of professional goals. Applicants may petition the Admissions Committee by letter to waive the exam if they have a master’s degree or an undergraduate cumulative GPA of 3.30 or above from a U.S. institution of higher education. Students who want to be considered for an assistantship must submit a GRE score.
Students are admitted for fall or spring semesters. Late applications are considered on a space-available basis.

Transfer of Credit

Students may transfer credit into the MPA Program from graduate courses taken at other institutions or taken at Mason in nondegree status. Transfer credit is subject to university and college policies and must be approved by the MPA Program director and the dean. Students who enroll initially through nondegree studies should submit their application to the MPA Program in the first semester of study. Only 9 credits taken in nondegree status may be transferred to the degree program.

Degree Requirements

The required courses emphasize the development of knowledge about public policy and management, as well as analytical problem-solving and communication skills, and third-party governance. Through these courses, students develop a shared knowledge base and skill set. The elective courses can be used by students to focus their knowledge and skill development within one concentration. Alternatively, the electives can be used to extend the breadth of study with courses drawn from a variety of concentrations or from other departments and schools across the university.

Six core courses (18 credits)

- PUAD 502 - Administration in Public and Nonprofit Organizations Credits: 3
- PUAD 611 - Problem Solving and Data Analysis I Credits: 3
- PUAD 620 - Organization Theory and Management Behavior Credits: 3
- PUAD 640 - Public Policy Process Credits: 3
- PUAD 700 - Ethics and Public Administration Credits: 3
- PUAD 703 - Third-Party Governance Credits: 3

One additional methods course (3 credits) chosen from:

- PUAD 612 - Problem Solving and Data Analysis II Credits: 3
- PUAD 613 - Economic Analysis in Public Administration Credits: 3
- PUAD 741 - Policy Analysis Credits: 3
- PUAD 742 - Program Evaluation Credits: 3

One course (3 credits) in accounting, budgeting, and financial management chosen from:

- PUAD 660 - Public and Nonprofit Accounting and Finance Credits: 3
- PUAD 662 - National Budgeting Credits: 3
- PUAD 663 - State and Local Budgeting Credits: 3
- PUAD 664 - Nonprofit Financial Management Credits: 3

Four elective courses (12 credits)
Students may take their elective courses within one of the concentrations listed below. As an alternative, with the approval of their advisor, students may select their elective courses from several concentrations or fields.

**Colloquium in public administration**

Students are required to enroll at least twice in PUAD 798 in two different semesters.

- PUAD 798 - Colloquium in Public Administration Credits: 0

**Total: 36 credits**

**Concentrations**

Students may declare only one concentration. PUAD 794 Internship and PUAD 796 Directed Reading and Research may be applied to a concentration where content is appropriate and with prior written approval of the MPA director. Other courses may also be applied to a concentration with prior written approval of the director.

▲ **Concentration in Administration of Justice (ADJ)**

Four courses (12 credits) chosen from:

- PUAD 730 - Professional Development Workshop Credits: 1-3
- PUAD 781 - Information Management: Technology and Policy Credits: 3
- CONF 501 - Introduction to Conflict Analysis and Resolution Credits: 3
- CRIM 509 - Justice Organizations and Processes Credits: 3
- CRIM 510 - Policing in a Democratic Society Credits: 3
- CRIM 691 - Justice Program Planning and Implementation Credits: 3
- CRIM 740 - Justice Organization and Administration Credits: 3
- CRIM 741 - Conduct of Justice Organizations at the Street Level Credits: 3
- CRIM 742 - Leadership in Justice and Security Organizations Credits: 3
- CRIM 743 - Changing Justice and Security Organizations Credits: 3
- CRIM 749 - Issues in Justice Administration Credits: 1-3
- CRIM 781 - Justice Program Evaluation Credits: 3
- SOCI 607 - Criminology Credits: 3
- SOCI 608 - Juvenile Delinquency Credits: 3
- SOCI 609 - Sociology of Punishment and Corrections Credits: 3

▲ **Concentration in Emergency Management and Homeland Security (EMHS)**

Four courses (12 credits) chosen from:

- PUAD 630 - Emergency Planning and Preparedness Credits: 3
- PUAD 631 - Disaster Response Operations and Recovery Credits: 3
- PUAD 632 - Terrorism: Theory and Practice Credits: 3
- PUAD 633 - Hazard Mitigation Policy Credits: 3
- PUAD 634 - Management of International Security Credits: 3
- PUAD 635 - Emergency Preparedness: Interagency Communication and Coordination Credits: 3
- PUAD 727 - Seminar in Risk Assessment and Decision Making Credits: 3
- PUAD 731 - Homeland/Transportation Security Administration Credits: 3
- PUAD 738 - Issues in International Security Credits: 3
- BIOD 723 - Legal Dimensions of Homeland Security Credits: 3
- BIOD 752 - The Role of the Military in Homeland Security Credits: 3
- COMM 637 - Risk Communication Credits: 3
- PUBP 742 - Transportation Safety and Security Credits: 3
- PUBP 754 - Geographic Information Systems and Spatial Analysis for Public Policy Credits: 3
- PUBP 758 - Global Threats and Medical Policies Credits: 3

▲ Concentration in Environmental Science and Public Policy (EVPP)

CONF 695 - Selected Topics and COMM 590 - Seminar in Communication, when topic is the environment, may be used to fulfill this requirement with the prior written approval of the MPA director.

One required course (3 credits):

- PUAD 642 - Environmental Policy Credits: 3

Three elective courses (9 credits) chosen from:

- PUAD 741 - Policy Analysis Credits: 3 (if not already taken to meet core requirements)
- PUAD 742 - Program Evaluation Credits: 3 (if not already taken to meet core requirements)
- EVPP 524 - Introduction to Environmental and Resource Economics Credits: 3
- EVPP 607 - Fundamentals of Ecology Credits: 3
- EVPP 638 - Corporate Environmental Management and Policy Credits: 3
- EVPP 641 - Environmental Science and Public Policy Credits: 3
- EVPP 670 - Environmental Law Credits: 3
- CONF 695 - Selected Topics Credits: 3
- COMM 590 - Seminar in Communication Credits: 3

▲ Concentration in Human Resources Management (HRM)

One required course (3 credits):

- PUAD 670 - Human Resources Management in the Public Sector Credits: 3

Three elective courses (9 credits) chosen from:
• PUAD 623 - Managing Government Contracting Credits: 3
• PUAD 652 - Nonprofit Leadership and Change Credits: 3
• PUAD 671 - Public Employee Labor Relations Credits: 3
• PUAD 672 - Human Resources Reform for Public Administration Credits: 3
• PUAD 729 - Issues in Public Management Credits: 3
• PUAD 730 - Professional Development Workshop Credits: 1-3
• PSYC 631 - Industrial and Personnel Testing and Evaluation Credits: 3
• PSYC 638 - Training: Psychological Contributions to Theory, Design, and Evaluation Credits: 3
• PSYC 639 - Survey of Organizational Processes Credits: 3
• PSYC 640 - Techniques in Industrial/Organizational Psychology Credits: 3
• PSYC 667 - Behavior in Small Groups and Teams Credits: 3

▲ Concentration in International Management (IM)

One required course (3 credits):

• PUAD 504 - Managing in the International Arena: Theory and Practice Credits: 3

Three elective courses (9 credits) chosen from:

• CONF and ITRN courses with written prior approval of the director
• PUAD 634 - Management of International Security Credits: 3
• PUAD 636 - The NGO: Policy and Management Credits: 3
• PUAD 730 - Professional Development Workshop Credits: 1-3
• PUAD 738 - Issues in International Security Credits: 3
• PUAD 739 - Issues in International Management Credits: 3
• GOVT 540 - International Relations Credits: 3
• GOVT 631 - Seminar in Comparative Politics and Institutions Credits: 3

▲ Concentration in Nonprofit Management (NPMG)

Two required courses (6 credits):

• PUAD 505 - Introduction to Management of Nonprofits Credits: 3
• PUAD 659 - Nonprofit Law, Governance, and Ethics Credits: 3

Two elective courses (6 credits) chosen from:

• PUAD 636 - The NGO: Policy and Management Credits: 3
• PUAD 652 - Nonprofit Leadership and Change Credits: 3
• PUAD 654 - The Community, Marketing, and Public Relations Credits: 3
- PUAD 655 - Philanthropy and Fund Raising Credits: 3
- PUAD 657 - Association Management Credits: 3
- PUAD 658 - Social Entrepreneurship and Nonprofit Enterprise Credits: 3
- PUAD 660 - Public and Nonprofit Accounting and Finance Credits: 3
- PUAD 664 - Nonprofit Financial Management Credits: 3
- PUAD 680 - Managing Information Resources Credits: 3
- PUAD 720 - Performance Measurement Credits: 3
- PUAD 730 - Professional Development Workshop Credits: 1-3

▲ Concentration in Policy Studies (PS)

Four courses (12 credits) chosen from:

- PUAD 615 - Administrative Law Credits: 3
- PUAD 622 - Program Planning and Implementation Credits: 3
- PUAD 658 - Social Entrepreneurship and Nonprofit Enterprise Credits: 3
- PUAD 661 - Public Budgeting Systems Credits: 3
- PUAD 662 - National Budgeting Credits: 3
- PUAD 663 - State and Local Budgeting Credits: 3
- PUAD 680 - Managing Information Resources Credits: 3
- PUAD 727 - Seminar in Risk Assessment and Decision Making Credits: 3
- PUAD 730 - Professional Development Workshop Credits: 1-3
- PUAD 741 - Policy Analysis Credits: 3
- PUAD 742 - Program Evaluation Credits: 3
- PUAD 749 - Issues in Public Policy Credits: 3
- PUAD 750 - Federalism and Intergovernmental Relations Credits: 3
- PUAD 781 - Information Management: Technology and Policy Credits: 3
- GOVT 520 - Political Theory Credits: 3
- GOVT 605 - Seminar on the Presidency Credits: 3

▲ Concentration in Public Management (PMG)

Four courses (12 credits) chosen from:

- PUAD 615 - Administrative Law Credits: 3
- PUAD 622 - Program Planning and Implementation Credits: 3
- PUAD 623 - Managing Government Contracting Credits: 3
- PUAD 658 - Social Entrepreneurship and Nonprofit Enterprise Credits: 3
- PUAD 660 - Public and Nonprofit Accounting and Finance Credits: 3
- PUAD 661 - Public Budgeting Systems Credits: 3
- PUAD 662 - National Budgeting Credits: 3
- PUAD 663 - State and Local Budgeting Credits: 3
- PUAD 664 - Nonprofit Financial Management Credits: 3
- PUAD 670 - Human Resources Management in the Public Sector Credits: 3
- PUAD 672 - Human Resources Reforms for Public Administration Credits: 3
- PUAD 680 - Managing Information Resources Credits: 3
- PUAD 720 - Performance Measurement Credits: 3
- PUAD 729 - Issues in Public Management Credits: 3
- PUAD 730 - Professional Development Workshop Credits: 1-3
- PUAD 731 - Homeland/Transportation Security Administration Credits: 3
- PUAD 742 - Program Evaluation Credits: 3
- PUAD 750 - Federalism and Intergovernmental Relations Credits: 3
- PUAD 781 - Information Management: Technology and Policy Credits: 3

▲ Concentration in Public and Nonprofit Finance (PNF)

Four courses (12 credits) chosen from:
- PUAD 658 - Social Entrepreneurship and Nonprofit Enterprise Credits: 3
- PUAD 660 - Public and Nonprofit Accounting and Finance Credits: 3
- PUAD 661 - Public Budgeting Systems Credits: 3
- PUAD 662 - National Budgeting Credits: 3
- PUAD 663 - State and Local Budgeting Credits: 3
- PUAD 664 - Nonprofit Financial Management Credits: 3
- PUAD 729 - Issues in Public Management Credits: 3
- PUAD 730 - Professional Development Workshop Credits: 1-3
- PUAD 769 - Issues in Public Financial Management Credits: 3

▲ Concentration in State and Local Government (SLG)

Four courses (12 credits) chosen from:
- PUAD 505 - Introduction to Management of Nonprofits Credits: 3
- PUAD 615 - Administrative Law Credits: 3
- PUAD 623 - Managing Government Contracting Credits: 3
- PUAD 630 - Emergency Planning and Preparedness Credits: 3
- PUAD 651 - Virginia Politics, Policy, and Administration Credits: 3
- PUAD 660 - Public and Nonprofit Accounting and Finance Credits: 3
- PUAD 661 - Public Budgeting Systems Credits: 3
- PUAD 662 - National Budgeting Credits: 3
- PUAD 663 - State and Local Budgeting Credits: 3
- PUAD 680 - Managing Information Resources Credits: 3
- PUAD 729 - Issues in Public Management Credits: 3
- PUAD 730 - Professional Development Workshop Credits: 1-3
- PUAD 750 - Federalism and Intergovernmental Relations Credits: 3
- PUAD 759 - Issues in Local Government Administration Credits: 3
- PUAD 781 - Information Management: Technology and Policy Credits: 3

▲ Concentration in Third-Party Governance (TPG)

Four courses (12 credits) chosen from:
Master’s International

The Master’s International (MI), a joint program between Mason and the Peace Corps, enables participants to prepare for Peace Corps volunteer service while earning the MPA. Students apply separately, but at the same time, to the Peace Corps and to Mason. Students must complete a minimum of 18 credits prior to their Peace Corps service; this will give the student a foundation to enhance their value as a Peace Corps volunteer. Six credits are earned as internship credits for the Peace Corps service. The internship requires a project, agreed upon by the student and his/her advisor, and includes a presentation delivered to faculty and students after the student returns to the US. Upon completion of the two years of service, the student will receive a tuition grant for the six internship credits. Students return to Mason after their two years of service to complete the remaining coursework required for the 36-credit MPA.

Master’s Level Certificate

Administration of Justice Graduate Certificate

Banner Code: LA-CERG-ADJ

Web: pia.gmu.edu

This program of study is offered by the Department of Public and International Affairs.

Application Requirements

Students must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.

Certificate Requirements

Three required courses (9 credits):

- PUAD 502 - Administration in Public and Nonprofit Organizations Credits: 3
- CRIM 509 - Justice Organizations and Processes Credits: 3
- CRIM 691 - Justice Program Planning and Implementation Credits: 3
Two elective courses (6 credits) in CRIM

A list of relevant electives is available under the concentration in administration of justice in the MPA (master of public administration).

Total: 15 credits

Association Management Graduate Certificate

Banner Code: LA-CERG-AM

Web: pia.gmu.edu

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate certificates, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants must meet admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.

Certificate Requirements

Three required courses (9 credits)

- PUAD 657 - Association Management Credits: 3
- PUAD 659 - Nonprofit Law, Governance, and Ethics Credits: 3
- PUAD 664 - Nonprofit Financial Management Credits: 3

Two elective courses (6 credits) in the nonprofit area

A list of relevant electives is available under the concentration in nonprofit management in the MPA (master of public administration).

Total: 15 credits
Critical Analysis and Strategic Responses to Terrorism Graduate Certificate

Banner Code: LA-CERG-CASR

Web: pia.gmu.edu

The certificate in critical analysis and strategic responses to terrorism (CASR) is an interdisciplinary introduction to the phenomenon of modern terrorism and its implications for US domestic and foreign policy. It focuses on multidisciplinary analysis and holistic cross-sectoral approaches to long-term prevention of and response to terrorism.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate certificates, see the Academic Policies chapter of the catalog.

Application Requirements

Students must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.

Certificate Requirements

Two required courses (6 credits)

- GOVT 541 - Introduction to Critical Analysis and Strategic Response to Terrorism Credits: 3
- GOVT 640 - Strategic Responses to Terrorism: Coordinated Decision Making Credits: 3

Three elective courses (9 credits) related to terrorism analysis or response

Courses should be chosen in consultation with an advisor and approved in advance by the program director

Total: 15 credits

Emergency Management and Homeland Security Graduate Certificate

Banner Code: LA-CERG-EMHS

Web: pia.gmu.edu
This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate certificates, see the Academic Policies chapter of the catalog.

**Application Requirements**

Students must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.

**Certificate Requirements**

**Three required courses (9 credits)**

- PUAD 502 - Administration in Public and Nonprofit Organizations Credits: 3
- PUAD 630 - Emergency Planning and Preparedness Credits: 3
- PUAD 637 - Managing Homeland Security Credits: 3

**Two elective courses (6 credits) in the emergency management and homeland security area**

A list of relevant electives is available under the concentration in emergency management and homeland security in the MPA (master of public administration).

**Total: 15 credits**

**Nonprofit Management Graduate Certificate**

**Banner Code: LA-CERG-NPMG**

Web: pia.gmu.edu

Students must apply for admission to the certificate program and meet the admission standards and application requirements for all graduate students as stated in the Admission chapter of the catalog.

This program of study is offered by the Department of Public and International Affairs. This certificate is offered in class or online.

For policies governing all certificates, see the Academic Policies chapter of the catalog.
Application Requirements

Applicants must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.

Certificate Requirements

Three required courses (9 credits)

- PUAD 505 - Introduction to Management of Nonprofits Credits: 3
- PUAD 659 - Nonprofit Law, Governance, and Ethics Credits: 3
- PUAD 664 - Nonprofit Financial Management Credits: 3

Two elective courses (6 credits) in the nonprofit area

A list of relevant electives is available under the concentration in nonprofit management in the MPA (master of public administration).

Total: 15 credits

Public Management Graduate Certificate

Banner Code: LA-CERG-PMG

Web: pia.gmu.edu

This program of study is offered by the Department of Public and International Affairs.

For policies governing all certificates, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.

Certificate Requirements
Three required courses (9 credits)

- PUAD 502 - Administration in Public and Nonprofit Organizations Credits: 3
- PUAD 620 - Organization Theory and Management Behavior Credits: 3
- PUAD 640 - Public Policy Process Credits: 3

Two elective courses (6 credits) in the public management area

A list of relevant electives is available under the concentration in public management in the MPA (master of public administration).

Total: 15 credits

Doctoral Degree

Biodefense, PhD

Banner Code: LA-PHD-BIOD

Web: pia.gmu.edu

The doctoral program in biodefense is designed to prepare students to serve as scholars and professionals in the fields of biodefense and biosecurity. The program integrates knowledge of natural and man-made biological threats with the skills to develop and analyze policies and strategies for enhancing biosecurity. Other areas of biodefense including nonproliferation, intelligence and threat assessment, and medical and public health preparedness are integral parts of the program.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Students must meet the admission standards and application requirements of the university as specified in the Admission chapter of the catalog. Because of the breadth of the program, students with backgrounds in science and other areas, such as international affairs, political science, law, public policy, and conflict resolution, are encouraged to apply. In addition to fulfilling the admission requirements for graduate study, applicants must submit:

- Three letters of recommendation from faculty members or individuals who have firsthand knowledge of the applicant’s academic or professional capabilities
- A statement of purpose consistent with research interests or professional goals
- A current resume or curriculum vitae
Scores from GRE taken within five years prior to date of application
Writing sample such as a full-length research paper

Reduction of Credit

Students who enter the doctoral program with a master’s degree or other graduate credit may have their credit reduced by up to 30 credits at the discretion of the department with the approval of the dean.

Advancement to Candidacy

To advance to candidacy, students must complete all coursework required on their approved program of study. They must also successfully pass a qualifying exam.

Degree Requirements

Students are strongly encouraged to take the core courses as early as possible because they provide the foundation for the rest of the program. The courses that students plan on taking should be approved in an program of study designed by the student and their advisor during the student’s first semester. Students may take up to 12 credits of courses outside of the Biodefense Program with prior written approval of their advisor. Consult with the graduate program director or coordinator for a list of BIOD electives and approved non-BIOD electives that can be used to fulfill some of the requirements below.

Seven required courses (19 credits):

- BIOD 604 - Introduction to Biodefense I: Bacterial and Toxin Agents Credits: 3
- BIOD 605 - Introduction to Biodefense II: Viral Agents Credits: 3
- BIOD 609 - Biodefense Strategy and Policy Credits: 3
- BIOD 702 - Biodefense Colloquium Credits: 1
- GOVT 540 - International Relations Credits: 3
- GOVT 500 - Research Methods in Political Science Credits: 3
- PUAD 630 - Emergency Planning and Preparedness Credits: 3

One additional advanced research course (3 credits)

Must be approved by the program director. May be focused on qualitative or quantitative research.

Four courses (12 credits) in one concentration chosen from:

▲ Concentration in International Security (INLS)

Four courses (12 credits) chosen from:

- BIOD 620 - Health and Security Credits: 3
- BIOD 621 - Ethics and International Security Credits: 3
- BIOD 622 - Negotiating in the International Arena Credits: 3
• BIOD 705 - Intelligence: Theory and Practice Credits: 3  
• BIOD 706 - Nuclear, Biological, and Chemical Weapons Policy and Security Credits: 3  
• BIOD 709 - Nonproliferation and Arms Control Credits: 3  
• BIOD 722 - Examining Terrorist Groups Credits: 3  
• BIOD 725 - Terrorism and Weapons of Mass Destruction Credits: 3  
• BIOD 760 - National Security Technology and Policy Credits: 3  
• BIOD 761 - Dispersal Patterns of Biological Agents Credits: 3  
• GOVT 641 - Seminar in Global Systems Credits: 3  
• GOVT 741 - Advanced Seminar in International Politics Credits: 3  
• GOVT 843 - Diplomacy Credits: 3  
• PUAD 504 - Managing in the International Arena: Theory and Practice Credits: 3  
• PUAD 701 - Cross-Cultural and Ethical Dimensions of International Management Credits: 3  
• PUAD 727 - Seminar in Risk Assessment and Decision Making Credits: 3

▲ Concentration in Homeland Security (HMLS)

Four courses (12 credits) chosen from:

• BIOD 710 - Approaches to Bioweapon Medical Treatment and Response Credits: 3  
• BIOD 722 - Examining Terrorist Groups Credits: 3  
• BIOD 723 - Legal Dimensions of Homeland Security Credits: 3  
• BIOD 725 - Terrorism and Weapons of Mass Destruction Credits: 3  
• BIOD 726 - Agroterrorism and Food Security Credits: 3  
• BIOD 751 - Biosurveillance Credits: 3  
• BIOD 752 - The Role of the Military in Homeland Security Credits: 3  
• BIOD 760 - National Security Technology and Policy Credits: 3  
• BIOD 761 - Dispersal Patterns of Biological Agents Credits: 3  
• BIOD 762 - Into the Hot Zone: Working in a High Threat Environment Credits: 2  
• BIOD 766 - Development of Vaccines and Therapeutics Credits: 3  
• GOVT 510 - American Government and Politics Credits: 3  
• GOVT 706 - Federalism and Intergovernmental Relations Credits: 3  
• GOVT 755 - Seminar in Politics and Bureaucracy Credits: 3  
• PUAD 631 - Disaster Response Operations and Recovery Credits: 3  
• PUAD 635 - Emergency Preparedness: Interagency Communication and Coordination Credits: 3  
• PUAD 727 - Seminar in Risk Assessment and Decision Making Credits: 3  
• PUAD 731 - Homeland/Transportation Security Administration Credits: 3  
• PUAD 750 - Federalism and Intergovernmental Relations Credits: 3  
• PUAD 758 - Environmental Politics Credits: 3  
• PHIL 642 - Biomedical Ethics Credits: 3

Two courses (6 credits)

Of the courses listed for the two concentrations above, students should select courses from the concentration that is not their chosen concentration.

Electives
Students complete the remaining 72 credits through additional elective courses chosen in consultation with an advisor.

**Dissertation proposal (6 to 9 credits) and research (15-18 credits):**

Once enrolled in 998, a student must maintain continuous registration in 998 or 999 each semester, except for the summer term, until the dissertation is submitted to and accepted by the University Library.

Before registering in BIOD 999, students must offer a successful public defense of the dissertation proposal. Students must present the results of the dissertation research to their dissertation committee in a seminar and defend their dissertation to the university community. Successful completion of a dissertation is contingent on approval of the dissertation committee and the dean.

A maximum of 24 credits of 998 and 999 may be applied to the degree.

- BIOD 998 - Doctoral Dissertation Proposal Credits: 1-12
- BIOD 999 - Doctoral Dissertation Credits: 1-12

**Total: 72 credits**

**Political Science, PhD**

**Banner Code:** LA-PHD-POS

Web: pia.gmu.edu

The doctoral program in political science is designed to prepare students for teaching and conducting research about government, careers in government and politics, and work in domestic and international nongovernmental organizations. The program allows students to combine their academic education with experience in the kinds of complex domestic and international political organizations they are studying. This model for political science education, patterned after the American Political Science Association’s Congressional Fellows Program, is designed to foster scholarship and a firsthand understanding of domestic and international institutions such as think tanks, international bodies, nongovernmental organizations, journals of political opinion, and congressional and executive branch offices.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

**Application Requirements**

Applicants must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Applicants to the PhD in political science should submit three letters of recommendation from faculty members or those who can evaluate the applicant’s academic potential, a statement of purpose of study, GRE scores (from tests taken in the past five years), and a writing sample such as a full-length research paper.

Applications are accepted for fall semester only.

**Reduction of Credit**
For students entering the program with a master’s or MPA degree, the number of credits required for the doctorate may be reduced by a maximum of 30 credits subject to approval of the graduate coordinator and the dean.

Progress Review

For students who have been admitted with a bachelor’s degree, the Faculty Review Committee will review each student’s progress after 30 credits of course work to determine whether the student will be allowed to continue their work toward the PhD. For students entering the program with a master’s degree, this review will occur after 12 credits in this program. Students that are not allowed to continue to work toward the PhD, will be allowed to complete the MA degree.

Degree Requirements

The course work for the degree is divided among core courses, advanced courses in two major fields and one minor field, research methods courses, experiential learning, and dissertation. A total of 12 credits of supporting courses may be taken in other departments to fulfill a minority of the credits for any of the requirements below, including the methodology requirement, with prior written approval of the director. All the courses should be planned with an advisor and appear on a program of study, which requires the approval of the director.

Three core courses (9 credits) chosen from:

- GOVT 510 - American Government and Politics Credits: 3
- GOVT 520 - Political Theory Credits: 3
- GOVT 530 - Comparative Politics Credits: 3
- GOVT 540 - International Relations Credits: 3
- GOVT 550 - Seminar in Theories of Public Administration Credits: 3

Seven advanced courses (21 credits) in two major fields

Students choose two major fields from the four fields below.

American government and politics

Two required field seminars (6 credits) chosen from:

- GOVT 603 - Seminar in the Courts and Constitutional Law Credits: 3
- GOVT 604 - Seminar on Congress and Legislative Behavior Credits: 3
- GOVT 605 - Seminar on the Presidency Credits: 3
- GOVT 706 - Federalism and Intergovernmental Relations Credits: 3

One to three elective courses (3 to 9 credits)

Comparative politics
Two required field seminars (6 credits) chosen from:

- GOVT 631 - Seminar in Comparative Politics and Institutions Credits: 3
- GOVT 731 - Advanced Seminar in Comparative Politics Credits: 3

One to three elective courses (3 to 9 credits)

International relations

Two required field seminars (6 credits) chosen from:

- GOVT 641 - Seminar in Global Systems Credits: 3
- GOVT 741 - Advanced Seminar in International Politics Credits: 3
- GOVT 743 - International Political Economy Credits: 3
- GOVT 745 - International Security Credits: 3

One to three elective courses (3 to 9 credits)

Public administration

Two required field seminars (6 credits) chosen from:

- GOVT 753 - Third-Party Governance Credits: 3
- GOVT 755 - Seminar in Politics and Bureaucracy Credits: 3

One to three elective courses (3 to 9 credits)

3 advanced courses (9 credits) in a minor field

Students choose one minor field in consultation with an advisor. The courses in the minor field should complement the two major fields and need the prior written approval of the advisor.

Three advanced methodology courses (9 credits)

Two required methodology courses (6 credits)
• GOVT 500 - Research Methods in Political Science Credits: 3
• GOVT 711 - Problem Solving and Data Analysis I Credits: 3

One elective methodology course (3 credits)

Students choose an elective methodology course to meet their dissertation research needs. Course work in language or to help achieve proficiency in quantitative or qualitative research techniques may be used to meet this requirement with prior written approval of the program director.

Up to 6 credits of experience in government and politics

Students do 20 hours per week in the field for one semester or 10 hours per week for two semesters. They produce an academic paper at the conclusion of the experience discussing the implications of their observations for research in the field and how scholarship in the field might be applied to an issue faced by the organization.

Doctoral research skills

Students must demonstrate proficiency in the statistical, mathematical, and computational techniques used for political science research or in one foreign language at an advanced level of reading and comprehension. Proficiency will be determined by satisfactory course work in methods or exam given at the time of the qualifying exam for language proficiency. Certification that this requirement has been met must be completed before advancement to candidacy.

3-6 credits of dissertation proposal

Continuous enrollment for the PhD in political science begins with GOVT 998. Once enrolled in 998, students must maintain continuous registration in 998 or 999 each semester (not including summers) until the dissertation is submitted to and accepted by the University Library.

• GOVT 998 - Doctoral Dissertation Proposal Credits: 1-6

15 credits of dissertation

Students must follow the dissertation enrollment policies of the university as specified in the Academic Policies chapter of the catalog. Continuous enrollment for the PhD in political science begins with GOVT 998. Once enrolled in 998, students must maintain continuous registration in 998 or 999 each semester (not including summers) until the dissertation is submitted to and accepted by the University Library.

• GOVT 999 - Doctoral Dissertation Research Credits: 1-12

Total: 72 credits

Advancement to Candidacy
To advance to candidacy, students must complete all course work required on their approved program of study. Students must also successfully complete and pass two qualifying exams in major fields. In addition, students must have an approved dissertation committee as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean’s Office before a student can advance to candidacy.

■ Religious Studies

Phone: 703-993-1290
Web: religious.gmu.edu

Faculty

Professor: Ro (chair)

Associate professors: Burns, M. Dakake, Farina, Nguyen, Shiner

Assistant professors: Hammer, Rashkover, Seales

Adjuncts: Bond, D. Dakake, Dreyer, Hebbar, Hostetter, Padgett

Course Work

This department offers all course work designated RELI in the Courses chapter of this catalog.

Undergraduate Programs

The department offers a bachelor's degree in religious studies for students who are interested in learning more about the world's religious traditions. Majors explore the many dimensions of religion and study religion's spiritual, historical, cultural, and social aspects.

Areas of study offered by the department include Asian religious traditions, Near (Middle) East religious traditions (Judaism, Islam, and Christianity), and comparative aspects of religion. Though the required coursework, majors in religious studies develop skills in reading and interpreting sacred texts. They explore the cultural and social dimensions of religion along with a consideration of religious values and ethics, from comparative and cross-cultural perspectives with relation to global issues.

The courses in the undergraduate program are writing intensive. They enable students to study and analyze religious ideas and symbols and give them the skills they need to present well-argued papers.

Minors

Students majoring in religious studies are encouraged to do one of the many minors offered by the college. See the Minors and Interdisciplinary Minors section of this chapter.

The department also offers minors in religious studies and Judaic studies, both of which are available to students in all majors in the university.

Graduate Program
The department sponsors the concentration in religion, culture, and values in the master's degree in individualized studies (MAIS). This concentration is designed for students who interested in exploring the world's major religions at the graduate level. Students study the development and interaction of the global religious traditions that influence human identity, behavior, culture, and values. They investigate the effects that historical crises and the forces of change have on religion, placing contemporary religious pluralism and inter-religious dialog in a global context.

See the Interdisciplinary Studies section of this chapter for details.

**Undergraduate Degree**

**Religious Studies, BA**

**Banner Code:** LA-BA-RELI

**Web:** religious.gmu.edu

The goal of the major in religious studies is to bring students to an understanding of the major traditions of world religions. Areas of study offered by the department include Asian religious traditions, Near (Middle) East religious traditions (Judaism, Islam, and Christianity), and comparative aspects of religion. Students develop skills in reading and interpreting sacred texts. They explore the cultural and social dimensions of religion along with a consideration of religious values and ethics, from comparative and cross-cultural perspectives with relation to global issues.

The courses in religious studies are writing intensive. They help students to study and analyze religious ideas and symbols and give them the skills to present well-argued papers.

This program of study is offered by the Department of Religious Studies.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

**Degree Requirements**

In addition to satisfying university general education requirements and the requirements for a bachelor of arts degree in the College of Humanities and Social Sciences, religious studies majors must complete at least 33 credits in religious studies, earning a minimum grade of 2.00 in each course. No course applied to the major in religious studies may be used to fulfill more than one requirement.

**Two introductory courses (6 credits) in the main world religions**

- RELI 211 - Religions of the West Credits: 3
- RELI 212 - Religions of Asia Credits: 3

**One seminar (3 credits)**

Students should take this course during their senior year.

- RELI 420 - Seminar Credits: 3
Two courses (6 credits) in comparative or methodological aspects of the study of religion chosen from:

- ANTH 313 - Myth, Magic, and Mind Credits: 3
- PHIL 313 - Philosophy of Religion Credits: 3
- RELI 337 - Mysticism: East and West Credits: 3
- RELI 341 - Global Perspectives on Spirituality and Healing Credits: 3
- RELI 490 - Comparative Study of Religions Credits: 3
- SOCI 385 - Sociology of Religion Credits: 3
- RELI 376 - Special Topics in Religious Thought Credits: 3 (This course may be applied to the requirement when topic is relevant and with the prior written approval of the undergraduate director.)

Four courses (12 credits) in religious studies

Students should choose from any religious studies courses at the 300 and 400 level other than those used to fulfill the requirements above. They can also choose courses in a scriptural language (such as Arabic, Biblical Hebrew, Chinese, Classical Greek, Latin, or Sanskrit). Up to 6 credits of a scriptural language may be used to fulfill this requirement and the 6 credits of electives.

Two elective courses (6 credits)

Students should choose elective courses in consultation with an advisor. They can choose from courses in religious studies, related disciplines (including anthropology, art history, and history), or a scriptural language (such as Arabic, Biblical Hebrew, Chinese, Classical Greek, Latin, or Sanskrit). Up to 6 credits of a scriptural language may be used to fulfill this requirement and the requirement of 12 credits in religious studies at 300 and 400 level.

Total: 33 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated "writing intensive" in their majors. Students majoring in religious studies fulfill this requirement by successfully completing RELI 420.

Undergraduate Minor

Judaic Studies Minor

Banner Code: JS

Web: religious.gmu.edu
The minor in Judaic studies is designed for students interested in the culture, history, and politics of Jewish communities across the world.

This program of study is offered by the Department of Religious Studies.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Three core courses (9 credits):

- RELI 352 - Judaism from Exile to Talmud Credits: 3
- RELI 370 - Judaism Credits: 3
- RELI 371 - Classic Jewish Texts Credits: 3

Two elective courses (6 credits) chosen from the list below:

Special topics courses and independent studies courses, when relevant, may be used to fulfill this requirement with prior written approval of the undergraduate director.

- HEBR 150 - Introduction to Biblical Hebrew Credits: 3
- HEBR 160 - Readings in Biblical Hebrew Credits: 3
- HIST 465 - The Middle East in the 20th Century Credits: 3
- RELI 211 - Religions of the West Credits: 3
- RELI 350 - Religion and History of Ancient Israel Credits: 3
- RELI 372 - American Judaism Credits: 3
- SOCI 450 - The Holocaust: The Construction of Social History through Survivor Testimonies Credits: 3

Total: 15 credits

Religious Studies Minor

Banner Code: RELI

Web: religious.gmu.edu

The minor in religious studies introduces students to the world’s religious traditions. Within the minor, students may pursue religious traditions of Asia or the Near (Middle) East or comparative aspects of religion.

This program of study is offered by the Department of Religious Studies.

For policies governing all minors, see the Academic Policies chapter of this catalog.
Course Work

Students pursuing this minor must complete 18 credits with a minimum grade of 2.00 in each course.

One course (3 credits) chosen from:

- RELI 100 - The Human Religious Experience Credits: 3
- RELI 211 - Religions of the West Credits: 3
- RELI 212 - Religions of Asia Credits: 3

Five elective courses (15 credits) in religious studies

At least three courses (9 credits) must be at the 300 level or above.

Total: 18 credits

■ Russian and Eurasian Studies

Phone: 703-993-1233
Web: russianstudies.gmu.edu

Faculty

Barnes (History and Art History), Bockman (Sociology and Anthropology), Boettke (Economics), Christensen (Modern and Classical Languages), Johnsen-Neshati (Theater), Katz (Public and International Affairs), Kelly (History and Art History), Korostelina (Institute for Conflict Analysis and Resolution), Levine (Modern and Classical Languages, director), McGlinchey (Public and International Affairs), Pacynska (Institute for Conflict Analysis and Resolution), Vasilyevna-Roberts (Modern and Classical Languages), Wade (History and Art History)

Coursework

As an interdisciplinary program, Russian and Eurasian Studies draws on many courses from across the university. Students should consult with the director to determine whether a particular course may be used to fulfill a requirement or elective in the degree program.

Undergraduate Program

The bachelor's degree in Russian and Eurasian studies allows students to choose a concentration in one of three areas: Russian language and culture, Russia studies, or Eurasia studies.

Undergraduate Degree
Russian and Eurasian Studies, BA

Banner Code:  LA-BA-REST

Web: russianstudies.gmu.edu

This program of study is offered by the Russian and Eurasian Studies Program.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements

In addition to satisfying university general education requirements and the requirements for a bachelor of arts degree in the College of Humanities and Social Sciences, students pursuing this degree must complete 33 credits in one of the concentrations below with a minimum GPA of 2.00.

▲ Concentration in Eurasia Studies (EURS)

The Eurasia studies concentration is designed to provide students with interdisciplinary training in the study of Eurasia, with special focus on Central Asia and secondarily on Russia/the Soviet Union and Eastern Europe. Students will develop a high degree of competence in the history, politics, and culture of Eurasia and a basic competence in a relevant language.

Two courses (6 credits) of Russian or other Eurasian-related language:

Courses used to meet this requirement may be in the same language that is used to meet the college language requirement, in which case the student needs to complete 6 credits beyond intermediate proficiency (beyond courses numbered 210 at Mason). With the approval of the director, courses used to meet this requirement may be in a Eurasian-related language that was not used to meet the college language requirement at a level approved by the director.

Two social science courses at the 300- and 400-level (6 credits):

Courses used to fulfill this requirement must focus primarily on Central Asia and Eurasia and may be in any social science discipline (ANTH, ECON, GGS, GOVT, SOCI).

Two history courses at the 300- and 400-level (6 credits):

Courses used to fulfill this requirement must focus primarily on Central Asia and Eurasia.

Two literature or film courses at the 300- and 400-level (6 credits):

Courses used to fulfill this requirement must be Eurasian related.

Three courses at the 300- and 400-level (9 credits) that focus predominantly on Eurasia:

Courses used to meet this requirement may be in any field of study including special topics courses and other courses that deal primarily with the geographic areas covered in the Russian and Eurasian studies major. To use a special topics course or other course with variable content to meet this requirement, students should seek the advanced written approval of the
(Special topics courses may be repeated for credit when the topic is different.) Examples of courses that may meet this requirement:

- ARTH 386 - The Silk Road Credits: 3
- HIST 328 - Rise of Russia Credits: 3
- HIST 329 - Modern Russia and the Soviet Union Credits: 3
- HIST 387 - Topics in Global History Credits: 3
- HIST 388 - Topics in European History Credits: 3
- HIST 460 - Modern Iran Credits: 3
- HIST 462 - Women in Islamic Society Credits: 3
- HIST 499 - Senior Seminar in History Credits: 3
- GOVT 338 - Government and Politics of Russia Credits: 3
- GOVT 340 - Central Asian Politics Credits: 3
- GOVT 345 - Political Islam Credits: 3
- GOVT 444 - Issues in International Studies Credits: 1-3
- GOVT 447 - Revolution and International Politics Credits: 3
- RUSS 470 - Topics in (Post) Soviet Film Credits: 3
- GGS 330 - Geography of the Soviet Succession States Credits: 3
- ECON 380 - Economies in Transition Credits: 3
- Any CONF course

Total: 33 credits

▲ Concentration in Russia Studies (RUSS)

The Russia studies concentration is designed to provide students with in-depth interdisciplinary training in Russia and the Soviet Union. Students will develop a high degree of competence in Russian history, politics, society, and culture as well as a basic competence in the Russian language and the broader Eurasian context.

Two required language courses (6 credits):

- RUSS 250 - Gateway to Advanced Russian Credits: 3
- RUSS 380 - Advanced Russian I Credits: 3

Note:

Other relevant advanced language courses may be used to fulfill this requirement with the prior written approval of the director. Majors are encouraged to take additional advanced Russian language courses.

Two courses (6 credits) of Russian or Soviet history chosen from:

- HIST 328 - Rise of Russia Credits: 3
• HIST 329 - Modern Russia and the Soviet Union Credits: 3
• HIST 426 - The Russian Revolution Credits: 3

Note:

HIST 300 - Introduction to Historical Method, HIST 388 - Topics in European History, or HIST 499 - Senior Seminar in History, when relevant, may be used to fulfill this requirement with the prior written approval of the director.

Two courses (6 credits) of social sciences dealing primarily with Russia chosen from:

• GOVT 338 - Government and Politics of Russia Credits: 3
• GGS 330 - Geography of the Soviet Succession States Credits: 3
• ECON 380 - Economies in Transition Credits: 3

Note:

Any topically appropriate courses in any social science discipline (ANTH, ECON, GGS, GOVT, SOCI) may be used to fulfill this requirement with the prior written approval of the director.

Two courses (6 credits) of Russian literature or culture chosen from:

• RUSS 310 - Readings in Russian Literature Credits: 3
• RUSS 311 - Contemporary Russian Short Fiction Credits: 3
• RUSS 325 - Major Russian Writers Credits: 3
• RUSS 326 - A Survey of Russian Literature Credits: 3
• RUSS 327 - A Survey of Russian Literature Credits: 3
• RUSS 353 - Russian Civilization Credits: 3
• RUSS 354 - Contemporary Post-Soviet Life Credits: 3

Note:

Other relevant courses may be used to fulfill this requirement with the prior written approval of the director.

Three courses at the 300 and 400 level (9 credits) that focus predominantly on Eastern Europe, Russia, or Central Asia

Courses used to meet this requirement may be in any field of study including special topics courses and other courses that deal primarily with the geographic areas covered in the Russian and Eurasian studies major. To use a special topics course or other course with variable content to meet this requirement, students should seek the advanced written approval of the director. (Special topics courses may be repeated for credit when the topic is different.) Examples of courses that may meet this requirement:

• RUSS 302 - Russian Conversation and Composition Credits: 3
• RUSS 303 - Russian Advanced Conversation Credits: 3
• RUSS 310 - Readings in Russian Literature Credits: 3
- RUSS 311 - Contemporary Russian Short Fiction Credits: 3
- RUSS 325 - Major Russian Writers Credits: 3
- RUSS 326 - A Survey of Russian Literature Credits: 3
- RUSS 327 - A Survey of Russian Literature Credits: 3
- RUSS 353 - Russian Civilization Credits: 3
- RUSS 354 - Contemporary Post-Soviet Life Credits: 3
- RUSS 381 - Advanced Russian II Credits: 3
- RUSS 401 - Readings in the Social Sciences Credits: 3
- RUSS 407 - Russian Drama and Theater Credits: 3
- RUSS 410 - Russian Poetry Credits: 3
- RUSS 470 - Topics in (Post) Soviet Film Credits: 3
- RUSS 480 - Fourth-Year Russian Credits: 3
- RUSS 481 - Fourth-Year Russian Credits: 3
- HIST 300 - Introduction to Historical Method Credits: 3
- HIST 312 - Nationalism in Eastern Europe Credits: 3
- HIST 328 - Rise of Russia Credits: 3
- HIST 329 - Modern Russia and the Soviet Union Credits: 3
- HIST 387 - Topics in Global History Credits: 3
- HIST 388 - Topics in European History Credits: 3
- HIST 426 - The Russian Revolution Credits: 3
- HIST 499 - Senior Seminar in History Credits: 3
- THR 352 - Dramatic Literature Seminar Credits: 3
- ECON 380 - Economies in Transition Credits: 3
- GGS 330 - Geography of the Soviet Succession States Credits: 3
- GOVT 338 - Government and Politics of Russia Credits: 3
- GOVT 340 - Central Asian Politics Credits: 3
- GOVT 444 - Issues in International Studies Credits: 1-3
- GOVT 447 - Revolution and International Politics Credits: 3

Total: 33 credits

▲ Concentration in Russian Language and Culture (RULC)

Students in the Russian language and culture concentration develop a high degree of competence in Russian language and culture and a basic familiarity with Russian and Eurasian history and politics.

Three required courses (9 credits) in advanced Russian:

- RUSS 380 - Advanced Russian I Credits: 3
- RUSS 381 - Advanced Russian II Credits: 3
- RUSS 480 - Fourth-Year Russian Credits: 3

Two courses (6 credits) in Russian culture or history:
- RUSS 353 - Russian Civilization Credits: 3  
  or 
- HIST 328 - Rise of Russia Credits: 3  

- RUSS 354 - Contemporary Post-Soviet Life Credits: 3  
  or 
- HIST 329 - Modern Russia and the Soviet Union Credits: 3

Two courses (6 credits) in Russian literature or cinema in translation, chosen from:

- RUSS 325 - Major Russian Writers Credits: 3  
- RUSS 326 - A Survey of Russian Literature Credits: 3  
- RUSS 327 - A Survey of Russian Literature Credits: 3  
- RUSS 470 - Topics in (Post) Soviet Film Credits: 3

Three courses (9 credits) taught in Russian, chosen from:

- RUSS 302 - Russian Conversation and Composition Credits: 3  
- RUSS 303 - Russian Advanced Conversation Credits: 3  
- RUSS 310 - Readings in Russian Literature Credits: 3  
- RUSS 311 - Contemporary Russian Short Fiction Credits: 3  
- RUSS 401 - Readings in the Social Sciences Credits: 3  
- RUSS 410 - Russian Poetry Credits: 3  
- RUSS 481 - Fourth-Year Russian Credits: 3

One course (3 credits) in the social sciences dealing with Russia

- GOVT 338 - Government and Politics of Russia Credits: 3  
- ECON 380 - Economies in Transition Credits: 3  
- GGS 330 - Geography of the Soviet Succession States Credits: 3

Note:

Any topically appropriate course in a social science discipline (ANTH, ECON, GGS, GOVT, SOCI) may be used to fulfill this requirement with the prior written approval of the director.

Total: 33 credits

Writing-Intensive Requirement
The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in Russian and Eurasian studies may fulfill this requirement by successfully completing RUSS 302, 325, or 407.

Sociology and Anthropology

Phone: 703-993-1440
Web: soan.gmu.edu

Faculty

Emeritus faculty: Black, Dumont, Golomb (anthropology); Borkman (sociology)

Professors: Gusterson, Haines, Lancaster, Schiller, Seligmann, Williams (anthropology); Dennis, Kurtz, Rosenblum, Scimecca, Witte (sociology)

Associate professors: Bryant, Palkovich, Snead, Trencher (chair) (anthropology); Best, Guagnano, Hanrahan, Jacobs, Rader (sociology)

Assistant professors: Benitez, Bickford, Mantz (anthropology); Bockman, Dale, Davis, Kim, Samara (sociology)

Term associate professor: Masters (sociology)

Term assistant professor: Arabandi (sociology)

Adjuncts: Minnich, Nambiar, Pearlman, Sandole-Staroste

Affiliate faculty: Ailinger, Avruch, Breglia, Goodale, Hazeur, Hirsch, Jacob, Maxwell, Pawlowski, Wedel (anthropology); Bainbridge, Goldstone, Johnson, Levine, Zingraff (sociology)

Course Work

This department offers all course work designated ANTH, SOAN, and SOCI in the Courses chapter of this catalog.

Undergraduate Programs

Anthropology

The department offers a bachelor of arts degree in anthropology. The program draws broadly from the social sciences, humanities, and natural sciences, making it a strong undergraduate major that provides a sound interdisciplinary preparation for a variety of careers.

Honors in the Major

Highly qualified students majoring in anthropology may apply to graduate with honors in the major. To be eligible, students must have completed at least 60 credits, taken ENGL 302 for the social sciences, completed 15 credits of anthropology (including ANTH 114), and have a minimum cumulative GPA of 3.3 and a minimum GPA of 3.5 in anthropology courses.
If accepted, students complete two honors courses. The first course is an honors section of one of these courses: ANTH 496, 410, 420, 430, 450, 495, or other course chosen in consultation with the honors director. The second course is ANTH 499, in which students complete an honors paper written under the guidance of an anthropology faculty member. All candidates for honors in the major participate in an honors colloquium. To graduate with honors in the major, students must complete the honors coursework with a minimum GPA of 3.5.

Bachelor’s/Accelerated Master’s Program

The department offers highly qualified majors in anthropology the opportunity to apply to an accelerated master’s degree program in anthropology. If accepted, students will be able to earn both the undergraduate and graduate degrees after satisfactory completion of 144 credits, sometimes within five years.

Sociology

The department offers a bachelor's degree in sociology. Sociology majors study how social movements emerge from the collective efforts of individuals and the role that social forces play in defining racial identities and gender roles. They take courses in the theories that explain social phenomena and develop strong research skills, learning how to conduct surveys, interviews, systematic observation as well as how to evaluate sources.

With the strong research skills, critical thinking, and effective writing that are the hallmark of sociology graduates, they are prepared for a variety of career paths from teaching, human service, and human resource occupations to work in the criminal justice system, marketing, and social research. The sociology major is also excellent preparation for students considering law school or graduate training in the social and behavioral sciences.

Honors in the Major

Highly qualified students majoring in sociology may apply to graduate with honors in the major. To be eligible, students must have completed at least 75 credits, taken ENGL 302 for the social sciences, completed 21 credits of sociology, and have a minimum cumulative GPA of 3.3 and a minimum GPA of 3.5 in sociology courses. Applicants must have completed SOCI 303 and 311 with a minimum grade of 3.00 in each.

If accepted, to graduate with honors in sociology, students must complete SOCI 480 and 481 with a minimum grade of 3.5 in each of these courses and have an overall GPA of 3.50 in sociology courses presented for graduation. SOCI 481 includes completion of a honors thesis, which will be presented at a sociology colloquium.

Bachelor’s/Accelerated Master’s Program

The department offers highly qualified majors in sociology the opportunity to apply to an accelerated master’s degree program in sociology. If accepted, students will be able to earn both the undergraduate and graduate degrees after satisfactory completion of 144 credits, sometimes within five years.

Minors

The department offers minors in anthropology and sociology available to students in any major.

The department coordinates the interdisciplinary minor in Immigration Studies and the faculty participate in many other minors in the college. See the Minors and Interdisciplinary Minors section of this chapter for more information.

Graduate Programs
Anthropology

The department offers a master’s degree in anthropology. Students can choose one of three emphases: advanced training in sociocultural anthropology; culture, health and bioethics; or transnational and global issues. They can choose from many courses that are richly interdisciplinary covering such diverse topics as nationalism and transnationalism; bioethics; social movements, ethnicity and identity; conflict and violence; migration, displacement, and refugees; regional ethnography; and political economy and globalization. Departmental specializations include the following regions: Central and South America, Europe, Africa, the Middle East, Asia, and the United States. Course work progresses from core courses to more advanced courses and culminates in a thesis.

Sociology

The department offers master's and doctoral degrees in sociology. Students pursuing a master’s degree in sociology take required courses in theory and methods and a host of electives. Students may choose to focus their electives in one of a number of emphases: sex and gender; crime, delinquency, and corrections; race and ethnicity; cultural studies; or conflict analysis and management.

The doctoral degree in sociology provides rigorous training in public and applied social research, including skills in research design, data analysis, and substantive areas that are pertinent to various sectors in the Washington, D.C., area. Graduates have the theoretical, analytical, and professional skills that prepare them for academic positions in teaching or research. They are also well-qualified for nonacademic positions in the many settings that rely on the expertise of sociologists including human service agencies, marketing research firms, educational systems, nonprofit foundations, and law enforcement agencies.

Funding

The department has a limited number of teaching assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

Cultural Studies

The master's degrees in anthropology and sociology provide excellent preparation for students interested in pursuing a doctorate in cultural studies who do not already hold a master's degree. Within the master's in sociology, the emphasis in sociology of culture is designed explicitly to prepare students for the doctoral program in cultural studies.

Nondegree Status

Applicants who do not wish to pursue a degree may apply for nondegree status. Nondegree students must meet the same admission requirements as degree-seeking students (minimum undergraduate GPA of 3.00, among other criteria). Nondegree students may later apply for admission to a degree program. Up to nine credits earned in nondegree status may transferred to the master’s degrees in anthropology or sociology, subject to the approval of the program director and dean.

Undergraduate Degree

Anthropology, BA

Banner Code: LA-BA-ANTH
Anthropology is the study of human beings and their cultures. The bachelor of arts degree in anthropology draws broadly from the social sciences, humanities, and natural sciences. It is a strong undergraduate major that provides a sound interdisciplinary preparation for a variety of careers.

This program of study is offered by the Department of Sociology and Anthropology.

For policies governing all undergraduate degrees, see the Academic Policies chapter of the catalog.

Degree Requirements

In addition to satisfying university general education requirements and requirements for the bachelor of arts degree as required in the College of Humanities and Social Sciences, students pursuing this degree must complete 36 credits with a minimum GPA of 2.00.

Students are advised to consult with an advisor to learn how they can fulfill general education requirements in global understanding, information technology, and synthesis, as well as the college-level requirement in non-Western culture.

Four core courses (12 credits)

- ANTH 114 - Introduction to Cultural Anthropology Credits: 3
- ANTH 120 - Unearthing the Past: Prehistory, Culture and Evolution Credits: 3
- ANTH 390 - Theories, Methods, and Issues I Credits: 3
- ANTH 490 - Theories, Methods, and Issues II Credits: 3

Eight elective courses (24 credits):

Students should choose electives from ANTH courses at the 300- and 400-level. SOCI 311 and 313 may be applied toward this requirement. SOCI 311 may substitute for ANTH 390.

Students wishing to pursue careers in anthropology should consider taking ANTH 492 (or subfield specialty equivalents, such as ANTH 420, 450, 495, or 496) as one of their electives.

Total: 36 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in anthropology may fulfill this requirement by successfully completing ANTH 490.

Sociology, BA

Banner Code: LA-BA-SOCI
Sociology involves the systematic study of social structures, cultural patterns, and human relationships. The sociological imagination combines rigorous methods with theory and observation, yielding insights that challenge commonly held assumptions about the social world. Sociology also informs the practice of social and public service, aiding efforts to address important social problems. Majoring in sociology positions students so they can pursue a varied set of career paths, ranging from teaching, human service, and human resource occupations to positions in the criminal justice system, marketing, and social research. The sociology major is excellent preparation for students considering law school or graduate training in the social and behavioral sciences.

This program of study is offered by the Department of Sociology and Anthropology.

For policies governing all undergraduate degrees, see the Academic Policies chapter of this catalog.

Degree Requirements

In addition to satisfying university general education requirements and the requirements for a bachelor of arts degree in the College of Humanities and Social Sciences, students pursuing this degree must complete 35 credits of sociology courses with a minimum GPA of 2.00. No more than 6 credits of courses with unsatisfactory grades (C- or D) may be applied toward the degree.

One introductory core course (3 credits) chosen from:

The introductory course must be completed with a minimum grade of 2.00.

- SOCI 101 - Introductory Sociology Credits: 3
- SOCI 102 - Introduction to Sociological Inquiry Credits: 3

Four additional core courses (14 credits)

Each of these courses must be completed with a minimum grade of 2.00.

- SOCI 303 - Sociological Research Methodology Credits: 4
- SOCI 311 - Classical Sociological Theory Credits: 3
- SOCI 313 - Statistics for the Behavioral Sciences Credits: 4
- SOCI 412 - Contemporary Sociological Theory Credits: 3

Six elective courses (18 credits) in sociology at the 300 or 400 level

Students are strongly encouraged to focus four of their elective courses (12 credits) in one of the concentrations below chosen to suit their interests and career objectives. Students who choose a concentration will have two remaining electives.

Total: 35 credits

Concentrations
Students can focus 12 of their 18 elective credits to complete one of the following 12-credit concentrations.

Students who graduate with honors in sociology may apply 3 credits of honors course work to their selected concentration where appropriate and with prior written approval of the undergraduate director.

▲ Concentration in Childhood and Youth (CYC)

This concentration focuses on the changing social realities, experiences, and identities of children and youth as they are formed in different social and historical contexts. It emphasizes children in peer groups, youth subcultural activities, youth and children and the media, schools, families, social movements, social policy, and the welfare state. This concentration is appropriate for students interested in working directly with children and youth or in organizations serving them in a broad range of fields, such as educational counseling, teaching, policy, advocacy or clinical work, family and community services, social work, early child development, and juvenile justice.

Students pursuing this concentration must complete 12 credits.

One required course (3 credits):

- SOCI 360 - Youth Culture and Society Credits: 3

Three courses (9 credits) chosen from:

- SOCI 302 - Sociology of Delinquency Credits: 3
- SOCI 307 - Social Movements and Political Protest Credits: 3
- SOCI 309 - Marriage, Families, and Intimate Life Credits: 3
- SOCI 315 - Sex and Gender in Contemporary Society Credits: 3
- SOCI 382 - Education in Contemporary Society Credits: 3
- SOCI 395 - Issues in Sociology Credits: 3
- SOCI 483 - The Sociology of Higher Education Credits: 3
- ANTH 315 - Socialization Processes: Family, Childhood, Personality in Cross-Cultural Perspective Credits: 3

▲ Concentration in Culture (CLTR)

This concentration focuses on the social and institutional forces that shape religion, the arts, language, gender, and cultural norms and tastes. It is appropriate for students interested in the media, the arts and popular culture, identity, multiculturalism, and the problems of cultural difference, religion, education, and the construction of knowledge in contemporary societies. Cross-cultural work in this field is encouraged.

Students pursuing this concentration must complete 12 credits.

One required course (3 credits):

- SOCI 314 - Sociology of Culture Credits: 3

Three courses (9 credits) chosen from:
SOCI 395 may be applied to the degree depending on the topic.

- SOCI 309 - Marriage, Families, and Intimate Life Credits: 3
- SOCI 315 - Sex and Gender in Contemporary Society Credits: 3
- SOCI 332 - Sociology of Urban Communities Credits: 3
- SOCI 355 - Social Inequalities Credits: 3
- SOCI 377 - Art and Society Credits: 3
- SOCI 382 - Education in Contemporary Society Credits: 3
- SOCI 385 - Sociology of Religion Credits: 3
- SOCI 395 - Issues in Sociology Credits: 3
- SOCI 414 - Sociology of Language Credits: 3
- ANTH 332 - Cross-cultural perspectives on globalization Credits: 3
- ANTH 488 - Gender, Sexuality, and Culture Credits: 3

▲ Concentration in Deviance, Crime, and Social Control (DCSC)

This concentration focuses on the social, legal, and political systems that underpin social control in Western societies and beyond. The emphasis is on how norms, values, and common sense regulate human action and the social forces that produce deviant behavior and societal responses to it. This concentration is appropriate for students interested in the criminal justice system and the law.

Students pursuing this concentration must complete 12 credits.

One required course (3 credits):

- SOCI 300 - Social Control and Human Freedom Credits: 3

Three courses (9 credits) chosen from:

SOCI 395 may be applied to the degree depending on the topic.

- SOCI 301 - Criminology Credits: 3
- SOCI 302 - Sociology of Delinquency Credits: 3
- SOCI 307 - Social Movements and Political Protest Credits: 3
- SOCI 308 - Racial and Ethnic Relations Credits: 3
- SOCI 310 - Sociology of Deviance Credits: 3
- SOCI 332 - Sociology of Urban Communities Credits: 3
- SOCI 340 - Power, Politics, and Society Credits: 3
- SOCI 352 - Social Problems Credits: 3
- SOCI 355 - Social Inequalities Credits: 3
- SOCI 395 - Issues in Sociology Credits: 3
- SOCI 402 - Sociology of Punishment and Corrections Credits: 3

▲ Concentration in Global Sociology (GSOC)
This concentration focuses on global interconnectedness and its effect on the nature of societies around the world. It emphasizes new technologies and social processes, migration, transnational communities, global cities, and social movements working across state borders. This concentration is appropriate for students interested in pursuing internationally oriented careers in social change, political reform, and international development.

Students pursuing this concentration must complete 12 credits.

**One required course (3 credits):**

- SOCI 320 - Social Structure and Globalization Credits: 3

**Three courses (9 credits) chosen from:**

- SOCI 307 - Social Movements and Political Protest Credits: 3
- SOCI 308 - Racial and Ethnic Relations Credits: 3
- SOCI 326 - Armed Conflict and Conflict Resolution Credits: 3
- SOCI 332 - Sociology of Urban Communities Credits: 3
- SOCI 340 - Power, Politics, and Society Credits: 3
- ANTH 332 - Cross-cultural perspectives on globalization Credits: 3

**▲ Concentration in Inequality and Social Change (INSC)**

The focus is on inequalities, such as those of race, class, and sex, and on the manner in which such inequalities become structurally rooted in a society. The emphasis is on understanding the rise of the struggle for human rights, democracy, and various social movements that have sought to reverse these inequalities through protests, demonstrations, counterorganizations, and the ballot. This concentration is appropriate for students who seek careers in social justice organizations, social services, or teaching, and those who wish to participate in social and political movements.

Students pursuing this concentration must complete 12 credits.

**One required course (3 credits):**

- SOCI 355 - Social Inequalities Credits: 3

**Three courses (9 credits) chosen from:**

- SOCI 300 - Social Control and Human Freedom Credits: 3
- SOCI 308 - Racial and Ethnic Relations Credits: 3
- SOCI 310 - Sociology of Deviance Credits: 3
- SOCI 315 - Sex and Gender in Contemporary Society Credits: 3
- SOCI 332 - Sociology of Urban Communities Credits: 3
- SOCI 340 - Power, Politics, and Society Credits: 3
- SOCI 360 - Youth Culture and Society Credits: 3
- SOCI 390 - Sociology of Health, Illness, and Disability Credits: 3
- SOCI 395 - Issues in Sociology Credits: 3 (depending on topic)
- SOCI 450 - The Holocaust: The Construction of Social History through Survivor Testimonies Credits: 3
Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in sociology may fulfill this requirement by successfully completing SOCI 412.

Undergraduate Interdisciplinary Minor

Immigration Studies Minor

Banner Code: IMMS
Phone: 703-993-1178
Web: immigrationstudies.gmu.edu

Faculty

Cleaveland, Haines, Ihara, Leeman, Maloney, Rabin, Ritchie, Seligmann, Shutika (director)

The minor in immigration studies combines perspectives from the humanities and social sciences to provide an interdisciplinary and comparative understanding of the immigrant experience, ethnic identity, assimilation, ethnic exclusion and conflict, and refugee situations.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

One required course (3 credits)

- ANTH 340 - Comparative Perspectives on Immigration Credits: 3

One course (3 credits) focused on ethnicity in the United States chosen from:

- SOCI 308 - Racial and Ethnic Relations Credits: 3
- HIST 418 - Ethnic Groups in America Credits: 3
- ENGL 375 - Topics in Ethnic American Literature Credits: 3
- ENGL 479 - Ethnicity and Migration in Folklore Credits: 3
One course (3 credits) focused on global perspectives on migration and ethnicity chosen from:

- ANTH 331 - Refugees Credits: 3
- GOVT 445 - Human Rights Credits: 3
- CONF 302 - Identity Conflicts and their Resolution Credits: 3

Two elective courses (6 credits) chosen from:

- FRLN 385 - Multilingualism, Identity, and Power Credits: 3
- NCLC 361 - Neighborhood, Community, and Identity Credits: 3-6
- SOCI 332 - Sociology of Urban Communities Credits: 3
- SPAN 430 - Spanish in the United States Credits: 3

Total: 15 credits

Undergraduate Minor

Anthropology Minor

Banner Code: ANTH

Web: soan.gmu.edu

This program of study is offered by the Department of Sociology and Anthropology.

For policies governing all minors, see the Academic Policies chapter of this catalog.

Course Work

Students pursuing this minor must complete 18 credits in anthropology with a minimum GPA of 2.00.

Two required courses (6 credits):

- ANTH 114 - Introduction to Cultural Anthropology Credits: 3
- ANTH 120 - Unearthing the Past: Prehistory, Culture and Evolution Credits: 3
- ANTH 135 - Becoming Human: Evolution, Cognition, and Culture Credits: 3
One regional ethnography course (3 credits) chosen from:

- ANTH 301 - Native North Americans Credits: 3
- ANTH 302 - Peoples and Cultures of Latin America Credits: 3
- ANTH 304 - Peoples and Cultures of the Pacific Credits: 3
- ANTH 306 - Peoples and Cultures of Island Asia Credits: 3
- ANTH 307 - Ancient Mesoamerica Credits: 3
- ANTH 308 - Peoples and Cultures of the Middle East Credits: 3
- ANTH 309 - Peoples and Cultures of India Credits: 3
- ANTH 311 - Peoples and Cultures of Mainland Southeast Asia Credits: 3
- ANTH 330 - Peoples and Cultures of Selected Regions: Non-Western Credits: 3

Three elective courses in anthropology at the 300- or 400- level (9 credits)

Total: 18 credits

**Sociology Minor**

Banner Code: SOCI

Web: soan.gmu.edu

This program of study is offered by the Department of Sociology and Anthropology.

For policies governing all minors, see the Academic Policies chapter of this catalog.

**Course Work**

**Two required courses (6 credits)**

Students must complete each of these courses with a minimum grade of 2.00.

- SOCI 101 - Introductory Sociology Credits: 3
- SOCI 311 - Classical Sociological Theory Credits: 3

**Four elective courses (12 credits)**
Students may focus the coursework for their minor by choosing electives from one of the five concentrations offered as part of the BA in sociology.

Total: 18 credits

**Bachelor's/Accelerated Master's Program**

**Anthropology, BA/Anthropology, Accelerated MA**

Web: soan.gmu.edu

Highly qualified Mason anthropology majors may apply to the accelerated master's degree program. If accepted, students will be able to earn both a BA and a MA in anthropology after satisfactory completion of 144 credits, sometimes within 5 years. Students with both a BA and MA have a competitive advantage when applying to PhD programs in anthropology.

This program of study is offered by the Department of Sociology and Anthropology.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

**Application Requirements**

Applicants to accelerated master's programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 90 credits. Applicants to the accelerated MA in anthropology must also have a minimum cumulative GPA of 3.25 with a minimum GPA of 3.50 in anthropology courses.

Along with the Accelerated Master's Program Application, available from the graduate director, students submit two letters of reference from faculty in the department. The application includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the department for more details about the application process.

**Degree Requirements**

While undergraduate students, accelerated master's students complete the two graduate courses indicated on their Accelerated Master's Program with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the
permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master's degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor's/Accelerated Master's Transition Form.

**Sociology, BA/Sociology, Accelerated MA**

Web: soan.gmu.edu

Highly qualified Mason sociology majors may apply to the accelerated master's degree program. If accepted, students will be able to earn both a BA and an MA in sociology following satisfactory completion of 144 credits, sometimes within five years.

This program of study is offered by the Department of Sociology and Anthropology.

For policies governing all graduate degrees, see the Academic Policies chapter of this catalog.

**Application Requirements**

Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 90 credits. Applicants to the accelerated MA in sociology must also have a minimum cumulative GPA of 3.25 with a minimum GPA of 3.50 in sociology courses.

Along with the Accelerated Master’s Program Application, available from the graduate director, students submit two letters of reference from faculty in the department. The application includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the department for more details about the application process.

**Degree Requirements**

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

**Master's Degree**
Anthropology, MA

Banner Code: LA-MA-ANTH

Web: soan.gmu.edu

The master’s degree program in anthropology prepares students for advanced work in anthropology through courses focusing on the study of culture. Students learn how to use participant-observation field work methods, as well as comparative and holistic knowledge and research methods. Areas of emphasis are advanced training in sociocultural anthropology; culture, health and bioethics; museums and anthropology; and transnational and global issues. Course work progresses from core courses to more advanced courses and culminates in a thesis.

This program of study is offered by the Department of Sociology and Anthropology.

For policies governing all graduate degrees, see the Academic Policies chapter of the catalog.

Application Requirements

Applicants must meet the admission standards and application requirements for graduate study as specified in the Admission chapter of the catalog. Applicants for the MA in anthropology must also submit:

- Three letters of recommendation from faculty members or others who can evaluate the applicant’s academic potential (If possible, at least one letter should be from an academic setting.)
- 1,000-word writing sample, such as an essay or full-length research paper
- A current résumé

Satisfactory Progress

According to university policy, students may be terminated if they fail to achieve satisfactory progress toward their degree. Students in the MA in anthropology degree program are judged as having failed to achieve satisfactory progress toward their degree for the following reasons.

- two consecutive semesters in which academic warnings appear on their transcript
- failure to successfully complete ANTH 535, 536, 650 within 4 semesters of first enrolling as degree-seeking students in the MA in anthropology program
- failure to enroll in graduate coursework in anthropology for 2 consecutive semesters, unless there are compelling reasons for not having done so

Like all academic policies, these provisions take effect with the publication of this catalog and apply to all graduate students in the MA in anthropology regardless of their calendar year.

Degree Requirements

Courses in archaeology and biological anthropology may not be used to meet any requirements for the master's degree in anthropology.

Three required core courses (9 credits)
• ANTH 535 - Anthropology and the Human Condition: Seminar I Credits: 3
• ANTH 536 - Anthropology and the Human Condition: Seminar II Credits: 3
• ANTH 650 - Ethnographic Methods and Research Design Credits: 3

Elective courses (18 credits)

Electives should be advanced courses in anthropology chosen in consultation with an advisor. Students can choose to focus their electives around an emphasis in these three areas: advanced training in sociocultural anthropology; culture, health and bioethics; museums and anthropology; or transnational and global issues. Up to six credits may be from other disciplines with the prior written approval of the graduate director.

Students may take ANTH 690 - Internship as elective credit. An internship can serve as a primary field research site for the thesis.

Students may count up to 6 credits of ANTH 798 - Thesis Proposal as elective credit.

Thesis (3 credits)

Students should be aware of the policies governing theses. They must follow the thesis enrollment policy of the university and once enrolled in ANTH 799, maintain continuous enrollment. These policies are specified in the Academic Policies chapter of the catalog.

• ANTH 799 - Master's Thesis Credits: 1-6

Total: 30 credits

Sociology, MA

Banner Code: LA-MA-SOCI

Web: soan.gmu.edu

The MA in sociology provides opportunities for students to develop expertise in a variety of areas including applied methods, community, conflict analysis and management, development and social change, deviance, environmental sociology, gerontology, medical sociology, occupations and professions, policy analysis, race and ethnicity, sociology of science and technology, cultural studies, and survey research. The program is strongly connected to various nonprofit and community groups, providing ample opportunity for research, internships, and employment in various occupations.

Students pursuing a MA in sociology may choose an emphasis in general sociology; sex and gender; crime, delinquency, and corrections; race and ethnicity; cultural studies; or conflict analysis and management. The general sociology emphasis allows maximum flexibility in the application of sociological knowledge to the analysis of social processes and systems. All emphases are appropriate for those anticipating further graduate study leading to the doctorate in sociology.

Designed as a small and selective graduate program, the MA enables students to enjoy the benefits of a personal mentoring experience as they gain skills in both basic and applied research. In addition to required and elective coursework, students are required to complete a master’s thesis to demonstrate their ability to carry out independent research. The thesis consists of a substantial sociological research or theoretical project that will contribute to sociological knowledge.
This program of study is offered by the Department of Sociology and Anthropology.

For policies governing all graduate degrees, see the Academic Policies chapter of this catalog.

Application Requirements

Applicants must meet the admission standards and application requirements as specified in the Admission chapter of the catalog. Applicants to the MA in sociology must also present the following:

- Minimum of 3 credits each in undergraduate sociological theory, statistics, and research methods. Equivalent courses in other disciplines may be substituted for some of these requirements, with permission.
- Three letters of recommendation from people who have supervised the student's work. Two should be from an academic setting.
- A written statement (approximately 600 words) explaining the student’s interest in sociology
- Writing sample, such as an essay or full-length research paper
- A current résumé

Degree Requirements

Two courses (6 credits) of social theory:

- SOCI 711 - Classical Sociological Theory Credits: 3
- SOCI 712 - Contemporary Sociological Theory Credits: 3

Three courses (9 credits) of research methods including:

- SOCI 620 - Methods and Logic of Social Inquiry Credits: 3

Four to five elective courses (12 to 15 credits)

Students may choose their electives from the full range of offerings in sociology or focus nine credits of electives in one of five emphases.

Emphasis in Sex and Gender

- 6 credits in sex and gender
- SOCI 605 - Gender and Social Structure Credits: 3

Emphasis in Conflict Analysis and Management

- 9 credits in the sociology of conflict and conflict management
Emphasis in Race and Ethnicity

- 9 credits in race and ethnicity

Emphasis in Crime, Delinquency, and Corrections

- SOCI 607 - Criminology Credits: 3
- SOCI 608 - Juvenile Delinquency Credits: 3
- SOCI 609 - Sociology of Punishment and Corrections Credits: 3

Emphasis in Sociology of Culture

This emphasis prepares students for the doctoral program in cultural studies.

- one master’s-level course (3 credits) in a department other than Sociology and Anthropology that serves as an introduction to cultural studies
- SOCI 614 - Sociology of Culture Credits: 3
- CULT 802 - Histories of Cultural Studies Credits: 3

Thesis (3 or 6 credits)

A master’s thesis demonstrates the student's capacity to carry out independent research. The thesis consists of a substantial sociological research or theoretical project that will contribute to the advancement of knowledge in sociology.

Students must follow the thesis enrollment policy of the university and once enrolled in SOCI 799, maintain continuous enrollment as specified in the Academic Policies chapter of the catalog.

- SOCI 799 - Thesis Credits: 1-6

Total: 33 credits

Doctoral Degree

Sociology, PhD

Banner Code: LA-PHD-SOCI

Web: soan.gmu.edu

The doctoral degree in sociology provides rigorous training in public and applied social research, including skills in research design, data analysis, and substantive areas that are pertinent to various sectors in the Washington, D.C., area. Graduates have the theoretical, analytical, and professional skills that prepare them for academic positions in teaching or research. They are also
well-qualified for nonacademic positions in the many settings that rely on the expertise of sociologists including human service agencies, marketing research firms, educational systems, nonprofit foundations, and law enforcement agencies.

This program of study is offered by the Department of Sociology and Anthropology.

For policies governing all graduate degrees, see the Academic Policies chapter of this catalog.

Application Requirements

Applicants must meet the admission standards and application requirements for all graduate students as specified in the Admission of the catalog. Applicants to the PhD in sociology should submit the following:

- A statement of purpose of academic study
- A writing sample such as a full-length research paper
- Three letters of recommendation from faculty members or those who can evaluate the applicant’s academic potential
- GRE scores (the general test is required; subject tests are optional)

Applicants are advised to consult Application for Graduate Study for admission deadlines.

Reduction of Credit

Students who enter the program with a master’s degree may be allowed a reduction of credit up to 30 credits subject to the approval of the graduate director and the dean.

Degree Requirements

Eight foundation courses (24 credits)

One required foundation course (3 credits)

- SOCI 801 - Proseminar in Public and Applied Sociology Credits: 3

Two courses of theory (6 credits)

- SOCI 711 - Classical Sociological Theory Credits: 3
- SOCI 712 - Contemporary Sociological Theory Credits: 3

Two required courses of methodology and analysis (6 credits)
• SOCI 620 - Methods and Logic of Social Inquiry Credits: 3
• SOCI 636 - Statistical Reasoning Credits: 3

One elective course of methodology and analysis (3 credits) chosen from:

• SOCI 730 - Analytic Techniques of Social Research Credits: 3
• SOCI 634 - Qualitative Research Methods Credits: 3

Two courses of statistics/methods (6 credits) chosen from:

• SOCI 631 - Survey Research Credits: 3
• SOCI 632 - Evaluation Research for Social Programs Credits: 3
• SOCI 634 - Qualitative Research Methods Credits: 3
• PBUP 704 - Statistical Methods in Policy Analysis Credits: 3
• PBUP 705 - Advanced Statistical Methods in Policy Analysis Credits: 3
• ANTH 650 - Ethnographic Methods and Research Design Credits: 3
• WMST 610 - Feminist Approaches to Social Research Credits: 3

Two proseminars (6 credits)

• SOCI 803 - Institutions and Inequality Credits: 3
• SOCI 804 - Sociology of Globalization Credits: 3

Three courses (9 credits) in one of the following specializations:

Depending on the topic, special topics courses SOCI 633 and SOCI 833 (or others) may be applied to the specialization with prior written approval of the director. Up to two courses (6 credits) may be from outside sociology, chosen in consultation with (and approval of) the student’s advisor or the graduate director.

Three courses in institutions and inequalities (9 credits) chosen from:

• SOCI 605 - Gender and Social Structure Credits: 3
• SOCI 840 - Work Organizations and Social Inequality Credits: 3
• SOCI 844 - Youth, Schooling, and Popular Culture Credits: 3
• SOCI 845 - Society and Education Credits: 3
• PUAD 620 - Organization Theory and Management Behavior Credits: 3
• PUAD 640 - Public Policy Process Credits: 3
• PUAD 651 - Virginia Politics, Policy, and Administration Credits: 3
• PUAD 750 - Federalism and Intergovernmental Relations Credits: 3
• GOVT 852 - Seminar in Political Leadership Credits: 3
• WMST 610 - Feminist Approaches to Social Research Credits: 3
• WMST 611 - Gender Research Project Credits: 3

Three courses in sociology of globalization (9 credits) chosen from:

• SOCI 850 - Sociology of Development Credits: 3
• SOCI 851 - Globalization and Social Movements Credits: 3
• SOCI 853 - Cities in a Global Society Credits: 3
• SOCI 857 - Sociology of Human Rights Credits: 3
• ANTH 631 - Refugees in the Contemporary World Credits: 3
• ANTH 632 - International Migration in Comparative Perspective Credits: 3
• ANTH 655 - Nationalism, Transnationalism, and States: Local and Global Perspectives Credits: 3
• CONF 736 - Globalization and International Conflict Credits: 3
• PUBP 602 - Regional Economic Development: Strategies and Applications Credits: 3
• PUBP 758 - Global Threats and Medical Policies Credits: 3

Six elective courses (18 credits)

Students may take up to two courses (6 credits) from outside sociology, chosen in consultation with and approval of the graduate director.

Research Proficiency

Students must demonstrate proficiency in a range of quantitative and qualitative research methods prior to taking the qualifying exams for candidacy. Proficiency is determined by satisfactory course work or an exam. Students in the specialization in sociology of globalization must also demonstrate proficiency in one foreign language at an advanced level of reading and comprehension.

Dissertation proposal and research (15 credits)

Students must complete a minimum of 3 credits of 998 and a minimum of 3 credits of 999. Once enrolled in SOCI 998, students must maintain continuous registration for at least 1 credit; once enrolled in 999 students must follow the university continuous registration policy as specified in the Academic Policies chapter of the catalog.

• SOCI 998 - Doctoral Dissertation Proposal Credits: 1-9
• SOCI 999 - Doctoral Dissertation Credits: 1-12

Total: 72 credits
Advancement to Candidacy

To advance to candidacy, doctoral students must complete all course work required on their approved program of study. Students must also successfully pass two written qualifying examinations. One examination is in the foundations of sociological inquiry, linking research methods and sociological theory to public concerns. The second examination is in the student’s area of specialization, administered by a faculty committee appointed by the graduate program director.

In addition, students must have a dissertation committee appointed by the dean and an approved dissertation proposal. Evidence of the approved proposal must be on file in the Dean’s Office before advancement.

Women and Gender Studies

Phone: 703-993-2896
Web: wmst.gmu.edu

Faculty

Amireh, Baker, Beach, Bergoffen, Bernard, Best, Bullard, Burr, Carbonneau, Cattaneo, Censer, Cheldelin, Cherubin, Christensen, Cohen, Constantine, Copelman, Davidson, Davis, Dushman, Dunne, Eby, Fischer, Friedley, Fuchs, Fyfe, Gilbert, Gring-Pemble, Hamdani, Hanrahan, Harvey, Hodges, Hodzic, Jadallah, Johnsen-Neshati, Jordan, Kaplan, Karametou, King, Kirkland, Kirsch, Koch, Lont, Mann, Masters, Michals, Misencik, Muir, Palkovich, Pascarell, Pawloski, Regan, Ricouart, Rosenblum, Samuelian, Sandole-Staroste, Scott (director), Seligmann, Snyder-Hall, Stearns, Tichy, Todd, Tolchin, Travis, Vivancos Perez, Yocom, Zawacki

Course Work

The Women and Gender Studies Department offers all course work designated WMST in the Courses chapter of this catalog.

About Women and Gender Studies at Mason

By choosing to pursue work in women and gender studies, students at all levels engage in an interdisciplinary exploration of gender roles in social, political, cultural, and economic life; gender roles in history; women and the media; feminist theory; the relationship between sex and gender; the impact of sex, race, class, disability, and sexual orientation on people’s lives; and the ways in which gender stereotypes influence the self in relationship to others. Students in many courses have the opportunity to investigate these issues in a cross-cultural and global perspective.

Undergraduate Programs

The Women and Gender Studies Program offers an interdisciplinary minor open to students from any major. Students have the opportunity to earn credit toward the minor while doing an internship that helps prepare them for the work place, a service learning course that combines work in a specific course with a service project, or research on gender issues on Mason's campus. Students pursuing this minor can take advantage of the many activites and resources provided by the Women and Gender Studies Center.

Graduate Programs
The program sponsors the concentration in women and gender studies in the master’s degree in interdisciplinary studies (MAIS). This concentration promotes advanced scholarship that transcends traditional disciplinary boundaries. Students combine required coursework in women and gender studies with courses in a discipline of interest such as history, literature, sociology, anthropology, health, education, public policy, philosophy, social work, conflict analysis and resolution, environmental science, and the arts. See Interdisciplinary Studies, MAIS section of this chapter.

The program also offers a graduate certificate in women and gender studies. Students may take this as a stand-alone certificate or pursue it concurrently with any graduate degree program. A portion of the certificate course work may be applied to the degree with the approval of the director of the graduate degree and dean. Students must apply and be accepted to a graduate certificate program.

**Women and Gender Studies Center**

The academic program in women and gender studies is closely affiliated with the Women and Gender Studies Center. The center organizes a wide variety of lectures, conferences, workshops, and other public events throughout the year. The center houses a library and functions as a community space for students and faculty. It supports the Gender Justice Research Community, a monthly forum for research on gender and global human rights, as well as the Gender Research Project, a methodology class and project focused on gender issues on the Mason campus.

**Undergraduate Interdisciplinary Minor**

**Women and Gender Studies Minor**

**Banner Code:** WGST

**Web:** wmst.gmu.edu

The interdisciplinary minor in women and gender studies consists of two required courses and four electives. Students interested in feminist and gender issues choose their elective courses from a broad range of offerings. Those who wish to focus on LGBTQ issues (lesbian, gay, bisexual, transgender, and queer issues), take an introductory course focused on these issues and two electives that incorporate more specifically such perspectives.

The minor is for students who are interested in gender, sexuality, and feminist perspectives. While it is an especially good complement to a major in the humanities, social sciences, health and human services, or natural sciences, it is open to students in any major in the university.

This program of study is offered by the Women and Gender Studies Program.

For policies governing all minors, see the Academic Policies chapter of this catalog.

**Course Work**

Students in pursuing this minor must complete 18 credits with a minimum GPA of 2.00.

One introductory course (3 credits) chosen from:

- WMST 200 - Introduction to Women and Gender Studies Credits: 3
One theory course (3 credits):

- WMST 308 - Introduction to Lesbian, Gay, Bisexual, Transgender, Transsexual, and Queer Studies Credits: 3

Four elective courses (12 credits)

Electives are chosen from courses in women and gender studies or course offerings in other departments approved by the undergraduate advisor. No more than 6 credits may be taken in any one department.

For students who choose a focus on LGBTQ, two of the four electives must be approved for that focus by the undergraduate advisor.

Total: 18 credits

Master's Level Certificate

Women and Gender Studies Graduate Certificate

Banner Code: LA-CERG-WGST

Web: wmst.gmu.edu

The graduate certificate in women and gender studies may be taken alone or in conjunction with another graduate program. Courses applied to the certificate may also be applied to a degree program, subject to approval of the director of the respective program.

This program of study is offered by Women and Gender Studies Program.

For policies governing all graduate certificates, see the Academic Policies chapter of this catalog.

Application Requirements

Applicants must meet the admission standards and application requirements as specified in the Admission chapter of the catalog. Students not currently in a degree program at George Mason should submit an application for graduate study. Students already enrolled in a Mason degree program should submit a secondary program application.

Transfer Credit

In accordance with university policy, students may transfer up to 3 graduate credits earned at another accredited institution to the certificate program with the approval of the director of the program and the dean. They may transfer up to 9 graduate credits
earned at Mason in nondegree status toward the certificate, subject to approval of the director and the dean and in accordance with university policy.

Course Work

Two required courses (6 credits):

- WMST 630 - Feminist Theories across the Disciplines Credits: 3
- WMST 640 - Women and Global Issues Credits: 3

Three electives (9 credits) chosen from relevant courses with approval of the director:

These credits may be from departments across the university that address the study of women and gender, courses in the Women and Gender Studies Program, and appropriate directed readings or independent study courses.

Capstone portfolio

Students synthesize their work in the certificate program by reflecting on how issues, ideas, and theories raised in the core courses inform their understanding of gender issues within their area of interest. The portfolio includes three to five items produced in previous course work and a 7- to 10-page essay discussing them. Items selected may include course papers, performance videos, photos of exhibits, tapes of music, or other items as agreed on by the student and advisor. The portfolio must be approved by the graduate advisor and submitted to Women and Gender Studies where it will be presented, displayed, and archived.

The Volgenau School of Information Technology and Engineering

Graduate Admissions: 703-993-1512
Graduate Student Services: 703-993-1505
Undergraduate Student Services: 703-993-1511
Web: volgenau.gmu.edu
College Code: VS

Administrative Units

- Applied Information Technology (AIT)
- Civil, Environmental, and Infrastructure Engineering (CEIE)
- Computer Science (CS)
- Electrical and Computer Engineering (ECE)
- Statistics (STAT)
- Systems Engineering and Operations Research (SEOR)

Interdisciplinary Programs

The mission of the Volgenau School of IT & Engineering is to provide our students with a high-quality education that emphasizes the importance of ethical behavior, integrity, and entrepreneurship. In addition, the School seeks to develop and disseminate leading-edge research that significantly advances the field of knowledge.

The Volgenau School of Information Technology and Engineering is concerned primarily with study areas that involve integrating the information basis for modern engineering with the more conventional physical and materials science approach. The careful integration of these areas results in a unique academic experience for highly motivated students.

The Volgenau School offers several degree programs that concentrate on important contemporary technological issues and needs. Bachelor’s degree programs are offered in the areas of applied computer science, bioengineering (pending SCHEV approval), civil and infrastructure engineering, computer engineering, computer science, electrical engineering, information technology, and systems engineering. Minors in information technology, computer science, software engineering, data analysis, and systems engineering and operations research are also available.

Master’s degree programs are available in the following areas: applied information technology, civil and infrastructure engineering, computer engineering, computer forensics, computer science, electrical engineering, information security and assurance, information systems, operations research, software engineering, statistical science, systems engineering, and telecommunications. Several
doctoral programs are offered, including a cross-disciplinary program in information technology and more focused programs in civil and infrastructure engineering, computer science, electrical and computer engineering, systems engineering and operations research, and statistical science. In addition, the engineer degree in information technology provides post-master's training in an application area.

Undergraduate certificates are offered in applied statistics, information technology, postbachelor computer science, and operations research and engineering. For graduate students, certificate programs are offered in advanced network protocols for telecommunications; architecture-based systems engineering; biometrics; e-commerce; command, control, communications, computing, and intelligence; intelligent agents; communications and networking; computational modeling; systems engineering of software intensive systems; federal statistics; biostatistics; information engineering; information security and assurance; military operations research; signal processing; software engineering; telecommunications forensics and security; networks, systems integration and testing; very-large-scale-integration (VLSI) design and manufacturing; civil infrastructure and security engineering; discovery, design, and innovation; computer networking; network technologies and applications; wireless communications; telecommunications systems modeling; data mining; database management; and web-based software engineering.

The undergraduate degree programs prepare students to enter directly into professional employment or continue studies at the graduate level. The requirements for the bachelor’s degrees include required and elective courses in mathematics, humanities, and general education, and specialty courses in applied computer science, bioengineering, civil and infrastructure engineering, computer engineering, computer science, electrical engineering, information technology, and systems engineering. Each program strongly emphasizes English composition and communication.

Students also have opportunities to develop interest areas in other fields within the Volgenau School that offer undergraduate courses but do not have undergraduate majors. The bachelor of individualized study (BIS) degree program may appeal to adult students who have completed a substantial portion of their studies at other institutions.

The Bioengineering program at the Volgenau School continues to expand and develop. New faculty have been added during the past year and this trend will continue. Program faculty are actively engaged with other departments, schools, and institutes at Mason as well as with Washington-area organizations dedicated to health oriented research or clinical service. Our goal is to provide a quality education to students interested in this rapidly growing field.

Administration

Lloyd Griffiths, Dean
Daniel A. Menascé, Senior Associate Dean
E. Bernard White, Associate Dean for Undergraduate Studies
Sharon Caraballo, Assistant Dean for Academic Affairs
Jennifer Lamb, Assistant Dean for Development
Melinda Barnhart, Executive Director, Finance and Administration
Pete Farrell, Director, Alumni Relations
Jonathan Goldman, Director, Computing Resources
Terri Mancini, Director, Sponsored Research Administration
Lisa Nolder, Director, Graduate Student Services
Nicole Sealey, Director, Graduate Admissions and Enrollment Management
Bachelor of Science Programs

The Volgenau School offers seven programs in its academic units. Policies regarding admission and degree requirements are provided in the department sections that follow.

Undergraduate Mission, Goals

The undergraduate mission is to provide a quality education to support the needs of Virginia and the nation. The goal is to graduate students who are technically competent; prepared for ethical professional practice and a lifetime of learning; communicate effectively and work as members or leaders of technical teams; and understand the global nature and effect of information technology and engineering.

Degree Requirements

The following general requirements must be completed by all undergraduate students:

- At least 120 credits of academic work including at least 45 credits of upper-level courses (numbered 300 or above)
- At least 6 credits of English composition, 3 credits of literature, and 3 credits of oral communication (university general education electives)
- At least 3 credits of arts, 3 credits of Western civilization, 3 credits of social and behavioral science, and 3 credits of global understanding issues (university general education electives)
- At least 24 credits of social science and humanities course work, which is normally satisfied by the 24 credits of university general education courses described above
- All requirements listed in the following sections for specific Volgenau School majors, including university requirements for mathematics, natural science, information technology competency and ethics, and synthesis

Freshmen who are undecided about their specific majors may select Volgenau School undeclared as their major. Sample schedules that fulfill degree requirements for individual programs within the Volgenau School are available from the departments. With approval of department advisors, some courses may be taken out of the indicated sequences, particularly English, literature and social science courses.

The requirements for the BIS degree can be found in the College of Humanities and Social Sciences chapter. Requirements for the applied computer science, bioengineering, civil and infrastructure engineering, computer engineering, computer science, electrical engineering, IT, and systems engineering undergraduate degree programs are provided in the academic departments’ sections of this chapter.
Academic Policies

Students should become familiar with the University's general academic policies in addition to those specific to each academic unit. Please see the Academic Policies section of the catalog. That chapter also lists additional university requirements for minor programs and additional (double) majors.

Academic Appeal of Policies, Grades and Actions

In most instances, the student's instructor, academic advisor, and/or department can resolve any academic related issues that arise from time to time in a manner that student, instructor, academic advisor, and/or department find acceptable. If, however, the student disagrees with a decision at the department level and feels that there may be reasonable grounds for appealing the decision, the student should contact the Volgenau School Student Services Offices at 703-993-1505 for graduate students and 703-993-1511 for undergraduate students. This office is staffed with student services professionals who can provide details related to pursuing the request with the appropriate dean and the the next levels if necessary.

Academic Progression, Course Repeat

Students majoring in the Volgenau School programs are expected to have an acceptable plan of study formulated with assistance from the department advisor on file. They are expected to make reasonable progress toward their degree during each semester they are enrolled. Undergraduate students may be required to obtain permission from the Volgenau School Student Services Office to repeat some courses required for the major in which they have previously received a grade of D or F. Individual Volgenau School programs may disallow students from retaking certain high-demand courses in which they have already earned a grade of C or better if they want to retake the course to improve their GPA.

Restricted Courses

Students are encouraged to take advantage of the many excellent courses available to broaden their educational experience or strengthen their background; however, some credits earned may not satisfy any degree requirements. Degree requirements for the Volgenau School undergraduate programs may not include credits earned in activity courses in any department. Examples are many of the courses listed under the catalog designations of art, dance, music, or theater; individual sports, physical education, or team sports; and recreational activities. Exceptions in these categories are courses that meet the university general education requirements for the major, including global understanding or Arts. Whenever there is uncertainty, students must consult with an academic advisor in their departments. Generally, degree requirements for computer science and engineering majors may not be met by 100- to 400-level courses designated “IT” (and any associated cross-listed courses) in the Course Descriptions chapter of this catalog. The respective computer science or engineering student’s department might approve requests for some IT courses, such as IT 350, 362, 462, and 466, to satisfy degree requirements. For more information, contact the department or the Volgenau School Student Services Office at 703-993-1511.

Writing-Intensive Requirement

The university requires all undergraduate students to successfully complete a course, or combination of courses, designated “writing-intensive” in their majors at the 300 level or above. To determine the writing-intensive course requirements for specific degrees, refer to the major program descriptions in the following department sections.

BS/Accelerated MS Programs

Many of the BS degree programs offered within the Volgenau School may be packaged with some of the MS degree programs in ways that reduce the total number of credits required. Details may be found in the individual department sections.
Master of Science Programs

Degree Requirements

The Volgenau School offers 14 Master of Science programs in its academic units. Policies regarding admission and degree requirements are provided in the department sections that follow.

Doctor of Philosophy Programs

The Volgenau School offers six PhD programs in its academic units. Policies regarding admission and degree requirements are provided in the department sections that follow with the exception of the Information Technology PhD program. The PhD in information technology is a program that builds on a fundamental core and emphasizes cross-disciplinary efforts among the 14 master’s programs in the Volgenau School, as well as with related units at Mason. Specific entrance and degree requirements for this doctoral program are found in the Interdisciplinary Programs section of this chapter.

Engineer Degree in Information Technology

The engineer degree is a post-master’s degree, but it does not confer a doctorate. Students pursuing the engineer degree can take advanced PhD courses and complete a project of an applied nature to fulfill program requirements. Details about the engineer degree can be found in the Interdisciplinary Programs section of this chapter.

Commonwealth Graduate Engineering Program

The Commonwealth Graduate Engineering Program (CGEP) is a cooperative program of Mason, the University of Virginia (UVA), Virginia Tech, Old Dominion University (ODU), and Virginia Commonwealth University (VCU) designed to make graduate engineering education available in locations throughout Virginia through distance learning. CGEP offers graduate degree programs in engineering and information technology. Instruction takes place through a mix of videoconferencing and web-based courses available at educational and corporate receive sites around the state.

Each degree program is taught by one of the five participating universities, and prospective students should apply directly to the university offering the degree of interest. Mason’s Master of Science in computer science degree is available through CGEP. This program follows all policies stated in this catalog for the MS in computer science, with the exception that, with faculty advisor approval, up to 50% of the required credits may be completed at other CGEP institutions. Courses from the other institutions may be offered at Mason’s Fairfax or Prince William campuses.

Policies for other universities’ programs are determined by those institutions; please consult with the university offering the program of interest for details.

For more information about CGEP, go to volgenau.gmu.edu/graduates/commonwealth_graduate_engineering.php.

■ Applied Information Technology

Phone: 703-993-3565
Web: ait.gmu.edu

School: The Volgenau School of Information Technology and Engineering

Faculty

Professors: Gantz (chair), Jajodia, Marchant

Associate professor: Bruno, Caraballo, Snow (associate chair)

Assistant professors: Aksoy, Boicu, Rytikova, Sanghera, Wang D.

Instructors: D’Alessandro, Garrison, Islam, Lyons, Quinn

Applied Information Technology offers undergraduate and graduate programs to develop expertise in applying information technology to support business applications. The programs emphasize problem-solving, communication, as well as technical and leadership skills.

The BS in Information Technology program aims to meet the existing and emerging needs of industry by educating new IT workers in current principles and practices, and in its applications. The program focuses on equipping graduates with effective skills for interacting at the management level as well as the technical level. Graduates fill jobs that focus on the application of IT in an increasing number of emerging sub-disciplines, including network administration, information security, information systems, telecommunications, web development, and computer graphics.

The MS in AIT emphasizes elements of productive, effective and ethical leadership of major IT projects, in both the federal and private sectors.

The department also offers a certificate program for students seeking to add an AIT certification to their existing credentials. Students currently pursuing undergraduate degrees in other disciplines may choose to add a minor in AIT.

**Course Work**

The AIT Department offers all 100 - 400 IT courses and many 500/600 level AIT courses in the Courses chapter of this catalog.

**Undergraduate Degree**

**Information Technology, BS**

**Banner Code: VS-BS-INFT**

*School: The Volgenau School of Information Technology and Engineering*

*Department: Applied Information Technology*

The BS in information technology prepares students to apply IT to support business processes. The degree produces graduates with strong problem-solving, writing, and communication skills who successfully compete for technical employment and are prepared for advanced study. The objective of the degree is to provide students with the following:

- Fundamental knowledge regarding concepts, tools, and methods of IT, including the opportunity to learn appropriate conceptual and computational tools essential for a successful career
- A broad background across fundamental areas of IT along with a depth of understanding in a particular area of interest
- Skills for effective written and oral communication with technical and nontechnical people in the IT field and the chosen area of interest, as well as skills and strategies for facilitating group projects and activities
- Working knowledge of leading-edge technologies and advanced systems through computer laboratory courses
- Industry-validated curriculum that maintains currency with business needs
- Preparation for graduate studies in information security, information systems, telecommunications, and related IT areas
- Appreciation for the global influence of IT on society and an understanding of the ethical and social responsibilities of IT professionals

The BS in information technology aims to meet the existing and emerging needs of the IT industry by educating new IT workers in current principles and practices in IT and its applications. Graduates fill jobs that focus on the application of IT in an...
increasing number of emerging sub disciplines, including network administration, information security, information systems, telecommunications, web development, and computer graphics.

Admission Requirements

Students who meet Mason’s general eligibility requirements may apply for admission to the IT major. Admission is based on the appropriateness of the student’s academic objectives and the likelihood of the student benefiting from the program. Preference in admission is given to students who have four years of high school mathematics, including precalculus.

The program can be successfully completed in eight full-time semesters with an average of 15 credits each semester, as shown in the sample schedule below. It is also possible for students to complete the degree on a part-time basis. The 120-credit degree requirement consists of Mason general education requirements, IT foundation and core courses, and courses required for the chosen IT concentration. At least 30 credits toward the BS degree must be earned at Mason, and at least 45 credits must be at or above the 300 level. The Applied Information Technology Department is based at the Prince William Campus.

Degree Requirements

Students must fulfill all requirements for bachelors degrees. General education requirements, including humanities, social sciences, mathematics and basic sciences must be met and the BS in information technology also requires IT foundation, core, and concentration courses as described below. The IT major requires a 7-credit capstone design project to be completed over two consecutive semesters.

Foundation Courses

- IT 101 - Introduction to Information Technology Credits: 3
- IT 103 - Introduction to Computing Credits: 3
- IT 106 - Introduction to IT Problem Solving Using Computer Programming Credits: 3
- IT 206 - Object Oriented Techniques for IT Problem Solving Credits: 3
- IT 212 - Computer Hardware Fundamentals Credits: 3
- STAT 250 - Introductory Statistics I Credits: 3

Core Courses

- IT 207 - Applied IT Programming Credits: 3
- IT 213 - Multimedia and Web Design Credits: 3
- IT 214 - Database Fundamentals Credits: 3
- IT 223 - Information Security Fundamentals Credits: 3
- IT 300 - Modern Telecommunications Credits: 3
- IT 304 - IT in the Global Economy Credits: 3
  OR both of the following:
- CS 105 - Computer Ethics and Society Credits: 1
- CS 306 - Synthesis of Ethics and Law for the Computing Professional Credits: 3
- IT 341 - Data Communications and Network Principles Credits: 3
- IT 343 - IT Resources Planning Credits: 3
- MSOM 300 - Managing Financial Resources Credits: 3
- MSOM 301 - Managing People and Organizations Credits: 3
• SYST 469 - Human Computer Interaction Credits: 3

Two-semester sequence of approved capstone design courses

• IT 492 - Senior Design Project I Credits: 3
• IT 493 - Senior Design Project II Credits: 4

Information Technology Concentrations

Students choose one of four concentrations from the list below. To fulfill the requirements for a concentration, students need 15 credits made up of four courses from their chosen concentration and a fifth course chosen from any of the four concentrations.

▲ Database Technology and Programming (DTP)

• IT 306 - Program Design and Data Structures Credits: 3
• IT 308 - Event-Driven Programming Credits: 3
• IT 314 - Database Management Credits: 3
• IT 344 - Information Storage and Management Technologies Credits: 3
• IT 414 - Advanced Database Credits: 3

▲ Information Security (INFS)

• IT 353 - Information Defense Technologies Credits: 3
• IT 357 - Computer Crime, Forensics, and Auditing Credits: 3
• IT 366 - Network Security I Credits: 3
• IT 462 - Information Security Principles Credits: 3
• IT 466 - Network Security II Credits: 3

▲ Network and Telecommunications (NTEL)

• ECE 301 - Digital Electronics Credits: 3
• IT 342 - Operating Systems Fundamentals Credits: 3
• IT 348 - Cloud Computing Credits: 3
• IT 366 - Network Security I Credits: 3
• IT 441 - Network Servers and Infrastructures Credits: 3
• IT 445 - Advanced Networking Principles Credits: 3
• IT 455 - Wireless Communications and Networking Credits: 3
• IT 471 - Applications of Digital Technologies Credits: 3
• IT 481 - Concepts of Multimedia Processing and Transmission Credits: 3
• IT 484 - Voice Communications Technologies Credits: 3
• IT 488 - Fundamentals of Satellite Communications Credits: 3
▲ Web Development and Multimedia (WDM)

- IT 331 - Web I: Web Development Credits: 3
- IT 332 - Web Site Administration Credits: 3
- IT 335 - Web Development using Content Management Systems Credits: 3
- IT 413 - Digital Media Editing Credits: 3
- IT 415 - Information Visualization Credits: 3
- IT 431 - Web II: Advanced Web Development Credits: 3
- IT 435 - Applied Knowledge Technologies for the Semantic Web Credits: 3

Other Requirements

- Natural Science: 7 credits of natural science, including at least one 4-credit course with lab. Students should choose these from the list of courses approved for general education (these credits can also apply toward general education requirements).
- COMM 100 - Public Speaking Credits: 3
- IT 293 - Applied IT: Junior Transition Credits: 1
- MATH 108 - Introductory Calculus with Business Applications Credits: 3
- MATH 112 - Discrete Mathematics for IT Credits: 3
  (BSIT majors may use one of MATH 108, MATH 112, or STAT 250 to meet the quantitative reasoning general education requirement.)

Sample Schedule

First Semester

- ENGL 101 - Composition Credits: 3
- HIST 100 - History of Western Civilization Credits: 3
- IT 101 - Introduction to Information Technology Credits: 3
- IT 103 - Introduction to Computing Credits: 3
- MATH 108 - Introductory Calculus with Business Applications Credits: 3

Total: 15 credits

Second Semester

- Nonlab natural science (3)
- Literature (3)
- COMM 100 - Public Speaking Credits: 3
- IT 106 - Introduction to IT Problem Solving Using Computer Programming Credits: 3
- STAT 250 - Introductory Statistics I Credits: 3
Total: 15 credits

Third Semester

- Natural science with lab (4)
- Social/behavioral science (3)
- IT 206 - Object Oriented Techniques for IT Problem Solving Credits: 3
- IT 212 - Computer Hardware Fundamentals Credits: 3
- IT 214 - Database Fundamentals Credits: 3

Total: 16 credits

Fourth Semester

- Arts (3)
- IT 207 - Applied IT Programming Credits: 3
- IT 213 - Multimedia and Web Design Credits: 3
- IT 223 - Information Security Fundamentals Credits: 3
- IT 293 - Applied IT: Junior Transition Credits: 1
- MATH 112 - Discrete Mathematics for IT Credits: 3

Total: 16 credits

Fifth Semester

- Elective (3)
- ENGL 302 - Advanced Composition Credits: 3 (Bus/Nat Sci/Tech)
- IT 341 - Data Communications and Network Principles Credits: 3
- MSOM 300 - Managing Financial Resources Credits: 3
- SYST 469 - Human Computer Interaction Credits: 3

Total: 15 credits

Sixth Semester

- IT concentration course (3)
- IT 300 - Modern Telecommunications Credits: 3
- IT 304 - IT in the Global Economy Credits: 3
• IT 343 - IT Resources Planning Credits: 3
• MSOM 301 - Managing People and Organizations Credits: 3

Total: 15 credits

Seventh Semester

• IT concentration course (3)
• IT concentration course (3)
• Global understanding (3)
• Elective (3)
• IT 492 - Senior Design Project I Credits: 3

Total: 15 credits

Eighth Semester

• IT concentration course (3)
• IT concentration course (3)
• Elective (3)
• IT 493 - Senior Design Project II Credits: 4

Total: 13 credits

Writing-Intensive Requirement

The university writing-intensive requirement is satisfied by IT 343.

Grades

Students must have a C or better in any course that satisfies a prerequisite for an IT course. To graduate with the BS in information technology, students must have a GPA of 2.50 or better across the IT foundation, core, capstone, and concentration courses.

Bachelor's Level Certificate

Information Technology Undergraduate Certificate

Banner Code: VS-CERB-INFT
This certificate is designed primarily for those students who have earned a nontechnical bachelor’s degree. It allows students with nontechnical backgrounds to augment the knowledge gained through their major-related courses with additional computer and IT knowledge, and skills to improve their attractiveness to employers in the high-technology community. This certificate requires a minimum of 24 credits, including 15 credits of core courses. Beyond these requirements, the student is free to define a technical focus area. The focus area must be composed of at least three courses (9 credits). Elective courses selected for the technical focus area must be approved by an IT advisor.

Certificate Requirements

Core Courses (15 credits)

- IT 101 - Introduction to Information Technology Credits: 3
- IT 103 - Introduction to Computing Credits: 3
- IT 108 - Programming Fundamentals Credits: 3

AND select two of the following:

- IT 212 - Computer Hardware Fundamentals Credits: 3
- IT 213 - Multimedia and Web Design Credits: 3
- IT 214 - Database Fundamentals Credits: 3
- STAT 250 - Introductory Statistics I Credits: 3

Course Work

- Technical Focus Area Credits: 9

Undergraduate Minor

Information Technology Minor

Banner Code: AIT

School: The Volgenau School of Information Technology and Engineering

Department: Applied Information Technology

The minor is designed primarily for those non-Volgenau School majors who desire to augment the knowledge gained through their major-related courses with additional computer and IT knowledge. It also gives students the necessary skills to improve their attractiveness to employers in the high-technology community. The minor requires a minimum of 15 credits, including 9
Minor Requirements

Core Courses (9 credits)

- IT 101 - Introduction to Information Technology Credits: 3
- IT 103 - Introduction to Computing Credits: 3
- IT 108 - Programming Fundamentals Credits: 3

Course Work

- Technical Focus Area  Credits: 6

Bachelor's/Accelerated Master's Program

Information Technology, BS/Applied Information Technology, Accelerated MS

Banner Code: AIT

School: The Volgenau School of Information Technology and Engineering

Department: Applied Information Technology

Admission Requirements

Students in the BS in Information Technology Program may apply for this program if they have earned 90 undergraduate credits with an overall GPA of at least 3.30. Criteria for admission are identical to criteria for admission to the MS program.

Degree Requirements

Students must complete all credits that satisfy requirements for the BS program and those for the MS program, with 6 credits overlapping from two of the following courses:

- INFS 622 - Information Systems Analysis and Design Credits: 3
- GSOM 540 - Analysis of Financial Decisions Credits: 3
- AIT 597 - Developing IT Leaders of Integrity Credits: 3
- AIT 665 - Managing Information Technology Programs in the Federal Sector Credits: 3
Degree Conferral

Students must apply to have the BS degree conferred the semester before they expect to complete the BS requirements. At the completion of MS requirements, a master's degree is conferred.

Master's Degree

Applied Information Technology, MS

Banner Code: VS-MS-AIT

School: The Volgenau School of Information Technology and Engineering

Department: Applied Information Technology

We propose to provide the very best graduate education in IT for high-potential leaders, especially those working with IT solutions that affect the federal government. Our objective is to graduate men and women of competence and character who can lead multidisciplinary teams in the design, justification, development, and the management of mega-systems from data to decision in the private and federal sectors. Faculty includes professors from the Volgenau School, the School of Management, and the College of Humanities and Social Sciences, plus industry leaders with unique reputations in the subject as adjunct professors and guest lecturers. The faculty exposes students to the pragmatic issues of IT, not just the theory.

Admission Requirements

Applicants must have completed a baccalaureate degree from an accredited program with a reputation for high academic standards and have earned a GPA of 3.00 or better over their 60 highest-level credits. They must be experienced in the fundamentals of IT, quantitative methods, and finance. In addition, applicants must

- Provide three letters of recommendation, preferably from academic references or references in industry or government who are familiar with the applicant’s professional accomplishments.
- Provide a detailed statement of career goals and professional aspirations.
- Show satisfactory performance on the GRE if they have not earned a bachelor’s degree from a U.S. university.
- Earn a minimum TOEFL score of 575 for the paper-based exam or 230 for the computer-based exam (a minimum score of 600 for the paper-based exam or 250 for the computer-based exam is required for applicants who wish to be considered for a graduate teaching assistantship) if their native language is not English.

Degree Requirements

Core Courses (12 credits)

- ECE 590 - Selected Topics in Engineering Credits: 3
- SYST 659 - Topics in Systems Engineering Credits: 3
- AIT 665 - Managing Information Technology Programs in the Federal Sector Credits: 3
Course Electives (15 credits)

Information Technology (choose 3):
- SYST 619 - Introduction to Architecture Based Systems Engineering Credits: 3
- INFS 622 - Information Systems Analysis and Design Credits: 3
- SWE 621 - Software Modeling and Architectural Design Credits: 3
- Elective approved by program director Credits: 3

Analysis & Management (choose 1):
- GSOM 540 - Analysis of Financial Decisions Credits: 3
- SWE 625 - Software Project Management Credits: 3

Leadership and Ethics (choose 1):
- PHIL 644 - Business and Organizational Ethics Credits: 3
- PHIL 640 - History of Ethical Theory Credits: 3

Capstone Course (mandatory 3 credits)
- AIT 685 - Capstone Seminar Credits: 3

Total: 30 credits

Civil, Environmental, and Infrastructure Engineering

Phone: 703-993-1675
Web: civil.gmu.edu

School: The Volgenau School of Information Technology and Engineering

Faculty

Professors: Arciszewski, Bronzini (emeritus), Goodings (chair), Houck

Associate professors: deMonsabert, Flannery, Venigalla
Assistant professors: Casey, Urgessa

Research professor: Thirumalai

Term Professor: Liner

Adjunct Faculty: Adler, Bhargava, Binning, Chipley, Choudhury, Donahue, Doyle, Gagne, Goode, Hardy, Hartmann, Harrop-Williams, Matusik, Miller, Reger, Rodriguez, Ward, Zobel

The Civil, Environmental, and Infrastructure Engineering (CEIE) Department offers the BS, MS, and PhD degree in civil and infrastructure engineering. These degree programs complement the study of civil and environmental engineering with advances in information technology (IT), and they focus on the physical and organizational infrastructure essential to the functioning of an urban society. The bachelor’s program in civil and infrastructure engineering is accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, Maryland 21202-4012; 410-347-7700.

Civil and infrastructure engineering is the study of land, transportation, water, environmental, structural, energy, and telecommunications systems from a civil engineering perspective and within a complex technological, social, political, economic, and environmental context. The focus is on how these systems are successfully conceived, developed, designed, built, operated, maintained, and renewed in the built environment such as the Washington, D.C., metropolitan area.

An urban society thrives and prospers when adequate, appropriate, reliable, robust, secure, and cost-effective infrastructure systems are provided. The investment in existing infrastructure and other urban systems in the United States is enormous. The investment required to maintain, operate, renew, and manage the evolution of these infrastructure systems in the future is even greater. The need for highly educated professionals to confront and solve these continuing vital problems is pressing. Examples of infrastructure systems include water supply and distribution; streets, roads, and highways; wastewater management; transit; storm water management; public utilities; energy supply and distribution; telecommunications; buildings, facilities, and structures; and solid waste management.

Course Work

The department offers all courses designated CEIE in the Courses chapter of this catalog.

Undergraduate Degree

Civil and Infrastructure Engineering, BS

Banner Code: VS-BS-CEIE

School: The Volgenau School of Information Technology and Engineering

Department: Civil, Environmental and Infrastructure Engineering

The bachelor’s degree program provides a solid foundation in the theory of civil and infrastructure engineering. Students benefit from exposure to practical civil, environmental, and infrastructure engineering problems and their solutions in the classroom, lab, and field. Students also have the opportunity to work as engineering interns each summer. The goal of the department is to graduate students who are prepared to

- Solve problems in the civil engineering domain, such as integrating the traditional civil engineering disciplines of transportation, environment, structures, construction, and water; incorporating social, political, and economic considerations; and including a conscious life-cycle costing philosophy.
Develop and apply information technology to civil engineering problems.
Communicate effectively in written, oral, and visual ways.
Pursue a lifelong process of learning.
Enter the civil engineering profession as productive engineers.

Civil engineering students can look forward to a career in local, state, and federal government organizations and architectural and engineering firms that specialize in land development, transportation, water resources, environment, structures, construction, and other related fields. The program also prepares students for continuing graduate studies.

Degree Requirements

Degree requirements include 120 credits distributed in courses in three main areas: mathematics and basic science, humanities and social sciences, and civil engineering analysis and design. Students must complete each CEIE and ENGR course presented as part of the required 120 credits for the degree with a grade of C or better.

The prerequisite structure for these courses is extensive. The sample schedule below provides a listing of major and general education course requirements, as well as a guide to the progression of the courses to satisfy all prerequisites.

Students are required to see their faculty advisor at least once each semester to plan for the next semester’s registration. Each student is expected to complete an approved plan of study, which constitutes a learning plan for the degree program.

A variety of classes will count for credit as CEIE technical electives. All electives must be selected with the advice and approval of the academic advisor. Paid internships during the summer (CEIE 197, 198, and 199; 297, 298, and 299; and 397, 398, and 399) may also be used as technical electives.

Writing-Intensive Requirement

The university's writing-intensive requirement for civil and infrastructure engineering majors is satisfied by the successful completion of CEIE 360.

Sample Schedule

First Semester

- ENGR 107 - Introduction to Engineering Credits: 2
- CHEM 251 - General Chemistry for Engineers Credits: 4
- ENGL 101 - Composition Credits: 3
- ENGR 183 - Engineering Computer Graphics Credits: 3
- MATH 113 - Analytic Geometry and Calculus I Credits: 4

Note:

CHEM 211 will substitute for CHEM 251

Total: 16 credits
Second Semester

- ENGR 117 - Information Technology for Engineering Credits: 3
- MATH 114 - Analytic Geometry and Calculus II Credits: 4
- PHYS 160 - University Physics I Credits: 3
- PHYS 161 - University Physics I Laboratory Credits: 1
- General Education Course Credits: 3

Total: 14 credits

Third Semester

- CEIE 290 - Engineering Computation and Design Credits: 3
- MATH 213 - Analytic Geometry and Calculus III Credits: 3
- PHYS 260 - University Physics II Credits: 3
- PHYS 261 - University Physics II Laboratory Credits: 1
- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- Literature - general education course Credits: 3

Total: 16 credits

Fourth Semester

- CEIE 230 - Hydraulics Credits: 3
- COMM 100 - Public Speaking Credits: 3
- ENGR 210 - Statics and Dynamics Credits: 3
- MATH 214 - Elementary Differential Equations Credits: 3
- STAT 344 - Probability and Statistics for Engineers and Scientists I Credits: 3

Total: 15 credits

Fifth Semester

- CEIE 301 - Engineering and Economic Models in Civil Engineering Credits: 3
- CEIE 340 - Water Resource Engineering Credits: 3
- ENGL 302 - Advanced Composition Credits: 3
- ENGR 310 - Mechanics of Materials Credits: 3
- CEIE 305 - Soil Mechanics Credits: 3
- PHYS 266 - Introduction to Thermodynamics Credits: 1
Total: 16 credits

Sixth Semester

- CEIE 355 - Environmental Engineering and Science Credits: 3
- CEIE 311 - Structural Analysis Credits: 3
- CEIE 360 - Introduction to Transportation Engineering Credits: 3
- BIOL 377 - Applied Ecology Credits: 3
- CEIE 370 - Construction Systems Credits: 3

Total: 15 credits

Seventh Semester

- CEIE 400 - Civil Engineering Planning and Management Credits: 3
- ENGR 401 - Professional Practice and Management in Engineering Credits: 1
- CEIE 4xx - CEIE Technical elective\(^2\) Credits: 3
- CEIE 4xx - CEIE Technical elective\(^2\) Credits: 3
- General Education Course\(^1\) Credits: 3

Total: 13 credits

Eighth Semester

- CEIE 490 - Senior Design Project Credits: 3
- CEIE 4xx - CEIE Technical elective\(^2\) Credits: 3
- CEIE 4xx - CEIE Technical elective\(^2\) Credits: 3
- CEIE 4xx - CEIE Technical elective\(^2\) Credits: 3
- CEIE 4xx - CEIE Technical elective\(^2\) Credits: 3

Total: 15 credits

Note:

\(^1\) Each student must satisfy General Education requirements in two of these three areas: Arts, Global Understanding, and Western Civilization/World History. The two General Education areas to be satisfied must be approved by the CEIE faculty advisor with the goal of best meeting the general education needs of the student.
A total of six CEIE Technical Elective courses must be selected. The first four CEIE technical elective courses must be selected to satisfy a requirement of at least one additional course in four technical areas: structural engineering (CEIE 412 or 413), water resources engineering (CEIE 440 or 442), environmental engineering (CEIE 450, 452, or 456), and transportation engineering (CEIE 461 or 462). The fifth CEIE Technical Elective course may be selected from any CEIE 4xx course. The sixth CEIE Technical Elective course may be selected from any CEIE 4xx course or related advanced science or engineering course approved by the student's faculty advisor.

Total: 120 credits

Bachelor's/Accelerated Master's Program

Civil and Infrastructure Engineering, BS/Civil and Infrastructure Engineering, Accelerated MS

School: The Volgenau School of Information Technology and Engineering
Department: Civil, Environmental, and Infrastructure Engineering

This option provides a way for Mason students to earn an MS in civil and infrastructure engineering in less time than if they graduated from the BS program and then applied to the MS program. This program can be completed in 144 credits.

Admission Requirements

Mason students in the BS in Civil and Infrastructure Engineering Program may apply for the BS/accelerated MS if they have earned 90 undergraduate credits with an overall GPA of at least 3.30 or their GPA in ENGR and CEIE courses is at least 3.30. Students who have not yet finished 90 credits may be accepted provisionally subject to satisfactory completion of 90 credits. All other criteria for admission are identical to criteria for admission into the MS program.

Conferral of Degrees

Students must apply to have the BS degree conferred the semester before they expect to complete the BS requirements. The master’s degree is granted on completion of MS requirements.

Degree Requirements

Students must complete 144 credits that satisfy requirements for both the BS and MS programs. Students register for 6 credits of CEIE 500-level courses in place of undergraduate technical elective courses. The CEIE 500-level courses selected for this purpose must be approved by the academic advisor. Students complete all MS requirements and may apply the two CEIE 500-level courses included in the BS program toward satisfaction of these requirements.

Master's Degree
Civil and Infrastructure Engineering, MS

Banner Code: VS-MS-CEIE

School: The Volgenau School of Information Technology and Engineering

Department: Civil, Environmental, and Infrastructure Engineering

The MS program educates students in the theory and practice of civil, environmental, and infrastructure engineering. IT and automated tools for analyzing and solving urban systems problems are important components of the program. The civil and infrastructure engineer can look forward to pursuing a career in the private or public sector or continuing graduate study toward the PhD.

Admission Requirements

To be considered for admission to the program, a candidate must:

- Satisfy general university requirements for admission to a graduate program.
- Have earned a baccalaureate degree in engineering, physical sciences, economics, or other civil and infrastructure engineering-related field.
- Provide three letters of reference, submitted by former professors or supervisors.

Acceptance to the degree program is based on an assessment of the applicant’s capacity to pursue these graduate studies successfully. Consideration is given to the undergraduate record (especially upper division coursework), any previous graduate work, professional work experience, and reference letters. Well-qualified students with minor admission deficiencies may be provisionally admitted subject to completing an articulation program. Prescribed courses taken in the articulation program extend the minimum requirements for the MS degree and constitute a contract for which the student is obliged to complete.

Degree Requirements

The program includes three core courses, electives selected by the student with the aid of a faculty advisor, a thesis or civil and infrastructure engineering project, and a seminar requirement. Students must complete a faculty-approved plan of study with a minimum of 30 credits of graduate work, including the thesis (6 credits) or the research project (3 credits).

Core Courses

Students must complete the following three core courses. These courses provide a common background for understanding the breadth and complexity of civil and infrastructure engineering, and introducing the application of IT and the systems approach to analyzing and solving problems in civil and infrastructure engineering.

- CEIE 601 - Infrastructure Modeling Credits: 3 typically offered in spring
- CEIE 605 - Infrastructure Systems Analysis Credits: 3 typically offered in fall
- CEIE 685 - Civil Engineering Information Management Credits: 3 typically offered in spring

Emphases

Students must select an additional five or six electives that together constitute an emphasis area. With prior approval of a faculty advisor, students may design their own emphasis or select from one of several standard emphases, including the following:
Project or Thesis

Students must complete a project (3 credits) or thesis (6 credits) under the direction of a CEIE faculty member. Under the project option, students complete 3 credits of CEIE 798, during which they prepare and present a scholarly paper. The scholarly paper is a technical report on an independent study, laboratory or computer experimentation, or literature search on a current civil and infrastructure engineering topic selected under the guidance of a faculty advisor. Students must demonstrate knowledge of the topic and make a satisfactory technical presentation of the paper in the CEIE graduate seminar (CEIE 795).

Under the thesis option, students complete 6 credits of CEIE 799. The master’s thesis should reflect a significant independent research effort. The work is conducted under the guidance of a faculty thesis advisor, and the final written thesis and oral defense are approved by a three-member faculty committee. In addition, students must make a satisfactory presentation of the thesis in the CEIE graduate seminar. The thesis is particularly recommended for those students who wish to develop and document their research skills, or contemplate subsequent enrollment in a PhD program.

Students are advised of the GMU continuous registration requirement for thesis and dissertation research credits. Upon first enrolling in CEIE 799, the student must continue registration for each fall and spring semester until the thesis is successfully completed.

- CEIE 798 - Research Project in Civil Engineering Credits: 3
  or
- CEIE 799 - Master's Thesis Credits: 1-6

Seminar Requirement

All degree candidates must attend a minimum of 10 graduate seminars approved by the CEIE Department for the degree program. Further, they are required to present the results of their project or thesis research as part of the Department seminar series. Students should enroll in CEIE 795 in their terminal semester. This course is used to verify the seminar attendance requirement.

- CEIE 795 - Civil and Infrastructure Engineering Seminar Credits: 0

Total: 30 credits

Master's Level Certificate

Civil Infrastructure and Security Engineering Graduate Certificate
This program is appropriate for civil infrastructure (such as transportation, water and waste water, and utilities) owners and operators, designers, planners, maintenance staff, and other technical workers in the public and private sectors who are responsible for improving facility and equipment performance, reliability, security, efficiency, and management practices.

New approaches to civil infrastructure problems are emerging that use traditional civil engineering domain knowledge in the context of IT with a systems approach to analyze the complexity of and interaction among various infrastructure components and their performance. Currently, the most important challenge to infrastructure engineering is to improve the quality of stewardship, which falls far short of public expectations, and improve immediately the security of critical civil infrastructure. The certificate is intended to respond uniquely to the need for broad training in the holistic and systems approach to the long term management of infrastructure, with specific attention to risk and vulnerability assessments, and creative solutions to providing improved system security. The certificate program is flexible and can be tailored to the needs of students within the infrastructure engineering community, but it is also intended to be responsive to the needs of infrastructure owners, operators, and other technical staff.

Admission Requirements

Candidates should have a bachelor’s degree in engineering, architecture, mathematics, science, or other related technical field, and must be computer literate. Candidates should inquire with the certificate coordinator for details of program planning. Courses are offered in late afternoon and evening and are particularly suitable for part-time students.

Certificate Requirements

The certificate program consists of 15 credits (five courses) selected from certificate program courses and elective courses. The certificate courses are aimed at building the foundations of asset management methods based on a holistic and systems approach. The certificate program courses consist of the following:

One core course

- CEIE 680 - Introduction to Infrastructure and Security Engineering Credits: 3

Minimum of two of the following specific sector courses:

- CEIE 681 - Security of Structural Systems Credits: 3
- CEIE 683 - Water and Wastewater Systems Security Credits: 3
- CEIE 686 - Transportation System Security and Safety Credits: 3

Remaining elective credits selected from the following:

- CEIE 510 - Geographic Information Systems in Engineering Credits: 3
- CEIE 511 - Introduction to Design and Inventive Engineering Credits: 3
- CEIE 670 - Civil Engineering Decision Methods and Tools Credits: 3
- CEIE 671 - Best Engineering Management Practices Credits: 3
- CEIE 685 - Civil Engineering Information Management Credits: 3
• CEIE 690 - Topics in Civil Engineering Credits: 3
• PUAD 640 - Public Policy Process Credits: 3
• PUAD 661 - Public Budgeting Systems Credits: 3
• PUBP 729 - Transportation Asset Management Credits: 3
• PUBP 752 - Infrastructure Finance Credits: 3

Note:
Selection of courses is subject to approval of the certificate coordinator to ensure cohesiveness and compatibility. Some courses may have prerequisites for which the student must qualify or seek a waiver from the appropriate instructor. A cumulative GPA of 3.00 is required, and no more than one course with a grade of C may be applied toward the certificate.

Total: 15 credits

Leading Technical Enterprises Graduate Certificate

Banner Code: VS-CERG-LTE

School: The Volgenau School of Information Technology and Engineering

Department: Civil, Environmental and Infrastructure Engineering

This graduate certificate is a professional program tailored to meet the needs of engineering companies and technical organizations. It targets engineering and other technical employees who wish to align themselves with the learning organization doctrine of developing leaders and other employees interested in increasing their understanding of new business opportunities may be identified, successfully marketed, planned and managed. Since 2003, a comparable program has been offered under contract through the Office of Continuing Professional Education (OCPE) to the Headquarters, US Army Corps of Engineers and The Dewberry Companies.

Technological change and the increase in privatization and enterprise development trends within the private sector require a wide variety of multidisciplinary skills for the successful management of technical programs and projects. This certificate is intended to respond to the need for broad training in technical leadership, entrepreneurial development, performance measurement, engineering information management, and infrastructure financial planning. The certificate program is flexible and can be adapted to the needs of engineering professionals who provide technical services to both the public and private sectors.

Admission Requirements

Potential candidates should have a bachelor's degree in Engineering, Architecture, Mathematics, Science, Business, or other related field. Courses are offered weekly on campus or at previously arranged facilities and are intended for part-time students. Some of the courses may be offered in a distance learning format.

Certificate Requirements

The certificate program consists of a core course, CEIE 675 Developing the Technical Enterprise (3 credits), and 12 elective credits (four courses) selected from the certificate program course listing or other approved MS Degree course offerings. These
courses are aimed at building the foundations of engineering enterprise development and engineering leadership. The elective certificate program courses consist of the following:

One core course:

- CEIE 675 - Developing the Technical Enterprise Credits: 3

and 12 elective credits (four courses) selected from the certificate program course listing:

- CEIE 671 - Best Engineering Management Practices Credits: 3
- CEIE 673 - Leading Engineering Innovation Credits: 3
- CEIE 674 - Infrastructure Finance Credits: 3
- CEIE 685 - Civil Engineering Information Management Credits: 3

Note:

These courses are accepted for credit towards the George Mason University M.S. in Civil and Infrastructure Engineering. Some courses may have prerequisites for which the student must qualify or seek a waiver from the appropriate instructor. A cumulative GPA of 3.00 is required, and no more than one course with a grade of C may be applied toward the certificate.

Sustainability and the Environment Graduate Certificate

Banner Code: VS-CERG-SENV

School: The Volgenau School of Information Technology and Engineering

Department: Civil, Environmental and Infrastructure Engineering

The principal focus of this advanced certificate is to provide a detailed understanding of evolving real estate concepts, particularly as relating to land development, sustainability, and the impact of evolving development on the environment. The five course series will give the student a detailed understanding of land analysis and valuation, engineering concepts related to land development, the impact of the environment on development, and the key concepts of sustainable development.

Admissions Requirements

Applicants must hold a baccalaureate degree from an accredited institution and have earned a GPA of 3.00 or higher. In addition, this civil engineering/real estate graduate certificate requires students to have a basic understanding of real estate development, significant experience in the real estate industry, and/or completion of REAL 500 Real Estate Development Fundamentals.

Certificate Requirements
Students must complete the following five courses, with an average grade of B or better, for a total of 15 credits of graduate study.

- REAL 502 - Real Estate Client Leadership and Project Management Credits: 3
- CEIE 500 - Land Development Engineering Credits: 3
- CEIE 501 - Sustainable Development Credits: 3
- CEIE 555 - Introduction to Environmental Engineering Credits: 3
- CEIE 673 - Leading Engineering Innovation Credits: 3

Water Resources Engineering Graduate Certificate

**Banner Code: VS-CERG-WRE**

**School: The Volgenau School of Information Technology and Engineering**

**Department: Civil, Environmental and Infrastructure Engineering**

Water resources engineering is the application of the sciences of hydrology and hydraulics to serve society. This includes planning, designing and managing systems to provide reliably dry places for society’s activities; dependable, high quality water supplies for industrial, municipal, residential, and other uses; sustainable water-related ecologies; and other uses of our water resources. This program is designed for engineers and others interested in pursuing advanced study of water resources.

**Admission Requirements**

Candidates should have a bachelor’s degree in engineering, architecture, mathematics, science, or other related technical field, and must be computer literate. Candidates should inquire with the certificate coordinator for details of program planning. Courses are offered in late afternoon and evening and are particularly suitable for part-time students.

**Certificate Requirements**

The certificate program consists of 15 credits (five courses) including two required courses (6 credits), and three elective courses (9 credits). Specific requirements are:

**Required Certificate Courses (take both courses for a total of 6 credits):**

- CEIE 631 - Water Resources Engineering I: Principles and Practice Credits: 3
- CEIE 732 - Water Resources Engineering II: Water Resource Systems Credits: 3

**Elective Certificate Courses:**

(These courses are divided into three categories; a student must take a minimum of one course from the methods group, and a minimum of two courses from either the policy group or the practice group. A minimum of three elective courses (9 credits) are required for the certificate).
Methods

- CEIE 510 - Geographic Information Systems in Engineering Credits: 3
- CEIE 605 - Infrastructure Systems Analysis Credits: 3
- CEIE 690 - Topics in Civil Engineering Credits: 3

Policy

- CEIE 501 - Sustainable Development Credits: 3
- CEIE 550 - Environmental Engineering Systems Credits: 3
- CEIE 556 - Environmental Law Credits: 3
- CEIE 683 - Water and Wastewater Systems Security Credits: 3

Practice

- CEIE 500 - Land Development Engineering Credits: 3
- CEIE 540 - Water Supply and Distribution Credits: 3
- CEIE 542 - Open Channel Flow Credits: 3
- CEIE 632 - Groundwater Systems Modeling Credits: 3

Doctoral Degree

Civil and Infrastructure Engineering, PhD

Banner Code: VS-PHD-CEIE

School: The Volgenau School of Information Technology and Engineering

Department: Civil, Environmental and Infrastructure Engineering

The doctoral program offered by the CEIE Department is unique in Virginia, incorporating the varied areas of civil engineering with a focus on infrastructure operation and management. The program is structured to prepare students for advanced leadership positions in research and development in the public or private sector, academics, and government. Students may elect to study in the areas of IT and computing in civil engineering, environmental engineering, water and waste water engineering, construction engineering and management, infrastructure security and engineering, structural engineering, or transportation engineering. Requirements include course work, qualifying exams, a teaching requirement, dissertation proposal defense, and dissertation research and defense.

Admission Requirements

All general George Mason University and specific Volgenau School admission requirements apply. In addition, all applicants, including Mason undergraduates, must submit the following:

- Official transcript of undergraduate and graduate course work
• For applicants whose native language is not English, official TOEFL results showing a minimum score of 575 for the paper-based exam or 230 for the computer-based exam. A minimum score of 600 for the paper-based exam or 250 for the computer-based exam is required for students who wish to be considered for a graduate teaching assistantship.
• Three letters of recommendation, with at least two from individuals with doctorates
• Recent résumé
• Substantial statement of interest that includes a description of specific area of proposed dissertation research, contacts they have made with potential faculty advisors, and an explanation of career and research goals
• Official results of the GRE general test are recommended for students with BS or MS degrees obtained outside the United States

Applicants will be encouraged to schedule an interview with the graduate coordinator or faculty member in their proposed area of research. Admission decisions will be based on the student’s qualifications and the availability of a faculty advisor. The application material will be reviewed by the department doctoral committee and decisions made with input from appropriate faculty members.

The application material will be reviewed by the graduate admissions officer for the department and decisions made with input from appropriate faculty members and/or the department chair.

**Degree Requirements**

With the completion of a BS degree, 72 additional credits are required to complete a PhD in civil and infrastructure engineering. Of these 72 credits, 24 are required for dissertation research. Students may apply up to 24 credits from their MS degree toward their required 72 credits beyond the BS subject to the approval of the dissertation committee and the CEIE Department chair. Students with degrees earned outside the United States may use some course credit toward the required 72 credits but not more than 24 credits. Courses that constitute a student's plan of study will be chosen in consultation with the student's advisor and/or dissertation committee.

Of the 72 credits beyond the BS, 48 credits of course work are required. Of these 48 hours, a maximum of 18 credits (normally part of the MS or equivalent program) may be at the 500 level, and a minimum of 9 credits at the 700 level or higher must be completed. For courses taken elsewhere, the PhD director must determine equivalent levels and obtain approval from the CEIE Department chair to apply these courses to the required 48 credits of course work. Individualized reading courses at any level cannot exceed 6 credits. A minimum GPA of 3.50 is required and no C grades are allowed for the 24 credits earned beyond the MS.

Students are also required to take a minimum of 3 credits of statistics at the 500 level or above outside the CEIE Department. Substitution of quantitative or scientific course work in some other discipline that is more relevant to the intended doctoral research may be approved by the dissertation committee and the department chair.

Research work in the PhD program is to be completed in courses CEIE 998 and CEIE 999. A minimum of 12 credits of CEIE 998 (Doctoral Dissertation Proposal Preparation) and 12 credits of CEIE 999 (Doctoral Dissertation) are to be completed. Students cannot enroll in CEIE 999 before the research proposal is presented and approved by the dissertation committee.

**Qualifying Exam**

Qualifying exams will be offered twice a year prior to the start of the fall and spring semesters. The qualifying exam is intended to test the student’s familiarity with concepts presented at the MS level or post-BS level and serve as guidance for the dissertation director to help shape the student’s course work needs at the PhD level.

Students entering with an MS degree must take the qualifying exam upon completion of 18 credits of study. Students entering without an MS degree must take the qualifying exam upon completion of 24 credits. The qualifying exam consists of a written exam taken in an eight-hour period and an oral interview attended by an examining committee of at least five members of the
CEIE faculty. The qualifying exam may be repeated once. A student failing the qualifying exam twice will be dismissed from the program.

The qualifying exam includes information from the following focus areas:

- Area A: Water and Environmental Engineering
- Area B: Information Technology and Computing in Civil Engineering
- Area C: Construction Engineering and Management
- Area D: Land Development Engineering
- Area E: Transportation Engineering
- Area F: Infrastructure and Security Engineering
- Area G: Structural Engineering

Prior to the exam, students are required to select two focus areas for examination. A written exam for each area will be administered to the candidate. Passing or Failing grades for each exam are determined by the principal faculty member serving on the examination committee.

Dissertation Committee

A dissertation committee (separate from the examination committee) is recommended to be formed within the first semester following successful completion of the qualifying exams. The dissertation committee is to consist of the CEIE Department dissertation director, two or more CEIE Department faculty members, and at least one committee member from outside the department. At least three members of the committee are to be members of the Mason graduate faculty. The composition of the dissertation committee must be approved by the CEIE Department chair.

Research Competency Exam, Dissertation Proposal Defense

Students may not schedule their dissertation proposal defense (research competency exam) before successful completion of the qualifying exam. On completing all course work and successfully passing the qualifying exam, students are to present their written dissertation proposal to their dissertation committee. The dissertation proposal defense includes a written proposal and presentation of the intended direction of the dissertation research. The dissertation proposal defense is not to include completed research because the dissertation committee is to use the dissertation proposal defense to provide input and guidance to the student prior to beginning dissertation research. The dissertation proposal defense is also an opportunity for dissertation committee members to examine the student’s knowledge in higher-level course work and familiarity with existing and emerging research related to the student’s research area. The exam is administered by the student’s dissertation committee and must be attended by all dissertation committee members and the department chair.

In preparation for the dissertation proposal defense, the student shall prepare a written dissertation proposal outlining the intended direction of the research and the review of existing research previously published on the topic. The dissertation proposal shall be submitted to the dissertation committee for review at least two weeks prior to the dissertation proposal defense date. The dissertation proposal is then presented by the student as part of the research competency exam. If a student fails the competency exam, the student may request to take the exam again through a formal written request to the doctoral dissertation director within 60 days of receiving notice of the exam result. If the student fails the competency exam and does not request to take the exam again within 60 days of the original date, the student will be dismissed from the PhD program. After successful completion of this requirement, the student is formally admitted as a PhD candidate.

Teaching Requirement

Because one of the characteristics of a good researcher and scholar is the ability to express ideas and concepts to a broader audience in a clear manner, each doctoral candidate will be required to organize and deliver a series of lectures and recitations in the CEIE Department to undergraduate students. Working with his or her doctoral dissertation advisor, the candidate will gain
experience in the classroom that will benefit the student should he or she decide to pursue an academic or an advanced research career.

**Dissertation Research and Defense**

On successful completion of the dissertation proposal, students are to conduct research under the guidance of their dissertation director and dissertation committee members. Students are not to schedule their dissertation defense sooner than two semesters after a successful proposal defense. During the dissertation research period, students must present their research at least once in the form of a department seminar. The dissertation must represent achievement in research, must be a significant contribution to the field of civil engineering, and should be deemed publishable in refereed journals. When the majority of the research has been completed, the candidate is to submit a written draft of the dissertation to the doctoral dissertation committee and schedule an oral predefense with the doctoral dissertation committee. The predefense is to be attended by the doctoral dissertation committee and the department chair.

A final public oral defense may be scheduled no sooner than one month after the conclusion of the predefense, which will allow for a minimum of two weeks to advertise the defense. The final defense is to be attended by the doctoral dissertation committee and the department chair. On successful completion of the oral defense, students must submit a final publishable dissertation that meets the guidelines specified by the Guide for Preparing Graduate Theses, Dissertations, and Projects. If the student fails to defend the dissertation successfully, the student may request a second defense following the same procedures as the initial defense. This request has no time limit, other than the general time limits for the doctoral degree as per Mason policy. An additional predefense is not required; however, the student is strongly advised to consult with the committee before scheduling the second defense. If the student fails on the second attempt to defend the dissertation, the student will be dismissed from the PhD program. Following a successful public defense and completion of the final form of the dissertation, the dissertation committee recommends the candidate for the degree of doctor of philosophy.

**Concentration**

▲ **Concentration in Civil and Infrastructure Engineering (CEIE)**

Students who pursue a concentration in this doctoral program will have the concentration noted on their transcript. The degree conferred on a graduating student is a PhD in information technology with a concentration in civil and infrastructure engineering. Students may also pursue such doctoral studies without designating a concentration.

**Requirements**

Students seeking this concentration must satisfy all the requirements for the PhD in information technology degree. In addition, the following requirements must be met:

**Plan of Study**

All decisions concerning the student’s course requirements and plan of study must be approved by the advisor or director, with the consent of the CEIE Department chair.

**Doctoral Supervisory Committee**

The dissertation director must be a CEIE Department faculty member. The composition of the doctoral supervisory committee is to be approved by the CEIE Department chair and the Volgenau School associate dean for research and graduate studies.
Permission for the comprehensive exam and the dissertation defense is requested from the Volgenau School associate dean on the basis of a written request and plan approved by the supervisory committee and the CEIE Department chair.

*School: The Volgenau School of Information Technology and Engineering*

#### Faculty

**Professors:** Barbara, J. Chen, DeJong, Gomaa (chair), Kerschberg, Menascé, Motro, Offutt, Pullen, Setia, Sibley, Sood, Tecuci, Wechsler

**Associate professors:** Ammann, Aydin, Brodsky, Carver, Domeniconi, Duric, Kosecka, Luke, Richards, Simon, P. Wang, White, Wijesekera

**Assistant professors:** Allbeck, S. Chen, Heishman, Li, Lien, Lin, T. Maddox, Malek, Nordstrom, Rangwala, Shehu, Sousa, Stavrou, X. Wang, Zhong

**Instructors:** Fleck

**Adjunct professors:** Abdurazik, Abdulla, Ahmed, Alazzawe, Armour, Baldo, Duan, Ellis, Foxwell, Geldon, Howard, Hwang, Kodali, M. Maddox, Martin, Nidiffer, Olimpiew, Pettit, Ritchey, Sharif, Smeltzer, Smith

**Emeritus faculty:** Baum, Hamburger, Rine

#### Introduction

Computer science is at the center of the information revolution in the 21st century. Advanced computation tools and techniques are revolutionizing and transforming the way we work, play, communicate, collaborate, and conduct business. In addition, computation is creating new scientific and engineering fields; such as robotics, computational sciences, bioinformatics, and health informatics, to name a few. Computer science is a discipline concerned with the analysis, design, implementation, maintenance, and evolution of computer-based systems used in almost all walks of life.

Computer scientists must be well-grounded not only in the theory of computing, but also in its application to diverse application areas, for example, web-based applications, wireless networking, online computer game design, social networks, agent-based systems and e-commerce. Computer scientists must be capable of working closely with members of other professions associated with computing. Students who pursue this discipline will learn (1) theories of computation, analysis of algorithms, operating systems, and artificial intelligence; (2) communication and coordination via advanced computer networks; (3) storage, retrieval, and management of large databases; and (4) analysis, design, and implementation of reliable software systems.

#### Course Work

The Department of Computer Science (CS) offers courses designated CS, INFS, ISA and SWE in the Courses chapter of this catalog. The department offers undergraduate programs in computer science and applied computer science. A double major is offered in computer science and computer engineering. Students may also select a minor in computer science or software engineering. Several accelerated BS Computer Science/MS Programs are offered. Graduate programs offered are an MS in computer science, an MS in information security and assurance, an MS in information systems, an MS in software engineering, a PhD in computer science, and several graduate certificate programs. The department also participates in the PhD in Information
Technology Program with the following concentrations: PhD study in information security and assurance, PhD study in information systems, and PhD study in software engineering.

Undergraduate Degree

Applied Computer Science, BS

Banner Code: VS-BS-ACS

School: The Volgenau School of Information Technology and Engineering

Department: Computer Science

This program presents an innovative approach to the integration of computer science with other disciplines that require expertise in computing techniques. These disciplines do not merely use computing, but create new and interesting problems for computer scientists.

Degree Requirements

For the BS-ACS degree, students must complete 120 credits, including the university general education requirements, consisting of humanities, social sciences, synthesis, and basic science requirements (if needed), the program requires foundation, core, and concentration courses as described below. These course requirements provide expertise in programming, computer systems, software requirements and modeling, formal methods, and analysis of algorithms.

ACS foundation courses (24 credits):

- CS 101 - Preview of Computer Science Credits: 2
- CS 105 - Computer Ethics and Society Credits: 1
- CS 112 - Introduction to Computer Programming Credits: 4
- CS 211 - Object-Oriented Programming Credits: 3
- MATH 113 - Analytic Geometry and Calculus I Credits: 4
- MATH 114 - Analytic Geometry and Calculus II Credits: 4
- MATH 125 - Discrete Mathematics I Credits: 3
- MATH 203 - Linear Algebra Credits: 3

ACS core (22 credits):

- ECE 301 - Digital Electronics Credits: 3
- CS 262 - Introduction to Low-Level Programming Credits: 1
- CS 310 - Data Structures Credits: 3
- CS 330 - Formal Methods and Models Credits: 3
- CS 367 - Computer Systems and Programming Credits: 3
- CS 421 - Software Requirements and Design Modeling Credits: 3
- CS 465 - Computer Systems Architecture Credits: 3
- CS 483 - Analysis of Algorithms Credits: 3
ACS elective (3 credits):

- One CS course numbered above 400

Concentration (At least 36 credits):

At least 36 additional credits to meet course requirements of one of the concentrations. These credits include either STAT 344 or a course in statistics relevant to the concentration. Current concentrations are bioinformatics, computer game design, geography, and software engineering.

▲ Concentration in Bioinformatics (BNF)

Foundation (14 credits):

- PHYS 160 - University Physics I Credits: 3
- PHYS 161 - University Physics I Laboratory Credits: 1
- CHEM 201 - Introductory Chemistry I Credits: 3
- BIOL 213 - Cell Structure and Function Credits: 4
- STAT 344 - Probability and Statistics for Engineers and Scientists I Credits: 3

Core (19 credits):

- BINF 450 - Bioinformatics for Life Sciences Credits: 4
- BIOL 482 - Introduction to Molecular Genetics Credits: 3
- BIOL 580 - Computer Applications for the Life Sciences Credits: 3
- CS 450 - Database Concepts Credits: 3

And one of the following:

- BINF 401 - Bioinformatics and Computational Biology I Credits: 3
- CS 444 - Introduction to Computational Biology Credits: 3

And one of the following:
• BINF 402 - Bioinformatics and Computational Biology II Credits: 3
• CS 445 - Computational Methods for Genomics Credits: 3

Two approved electives related to bioinformatics (6 credits)

▲ Concentration in Computer Game Design (CGDS)

Foundation (13 credits):

• CS 225 - Culture and Theory of Games Credits: 3
• CS 325 - Introduction to Game Design Credits: 3
• AVT 104 - Studio Fundamentals I Credits: 4
• STAT 344 - Probability and Statistics for Engineers and Scientists I Credits: 3

Core (17 credits):

• CS 425 - Game Programming I Credits: 3
• CS 426 - Game Programming II Credits: 3
• CS 451 - Computer Graphics Credits: 3
• AVT 382 - Digital Art and Animation Credits: 4
• AVT 383 - Three-Dimensional Digital Art Credits: 4

Two approved electives related to game design (6 credits)

A list of relevant courses can be obtained from the department office.

(Natural science requirement will include PHYS 160/161 and one additional lab science.)

▲ Concentration in Geography (GEOG)

Foundation (18 credits):

• GGS 101 - Major World Regions Credits: 3
• GGS 102 - Physical Geography Credits: 3
• GGS 103 - Human Geography Credits: 3
• GGS 110 - Maps and Mapping Credits: 3
• GGS 300 - Quantitative Methods for Geographical Analysis Credits: 3
• STAT 344 - Probability and Statistics for Engineers and Scientists I Credits: 3

Core (19 credits):

• GGS 310 - Introduction to Digital Cartography Credits: 4
• GGS 311 - Introduction to Geographic Information Systems Credits: 3
• GGS 411 - Advanced Digital Cartography Credits: 3
• GGS 412 - Air Photography Interpretation Credits: 3
• GGS 416 - Satellite Image Analysis Credits: 3
• GGS 463 - Applied Geographic Information Systems Credits: 3

One GGS course numbered above 300 (3 credits)

▲ Concentration in Software Engineering (SWE)

Foundation (6 credits):

• STAT 250 - Introductory Statistics I Credits: 3
• CS 306 - Synthesis of Ethics and Law for the Computing Professional Credits: 3

Core (10 credits):

• SWE 205 - Software Usability Analysis and Design Credits: 3
• SWE 301 - Internship Preparation Credits: 0
• SWE 401 - Internship Reflection Credits: 1
• CS 332 - Object-Oriented Software Design and Implementation Credits: 3
• SWE 437 - Software Testing and Maintenance Credits: 3

SWE related (15 credits) chosen from:

• CS 363 - Comparative Programming Languages Credits: 3
• CS 455 - Computer Communications and Networking Credits: 3
• CS 450 - Database Concepts Credits: 3
• CS 468 - Secure Programming and Systems Credits: 3
• CS 471 - Operating Systems Credits: 3
• CS 475 - Concurrent and Distributed Systems Credits: 3
• SWE 432 - Design and Implementation of Software for the Web Credits: 3
• SWE 443 - Software Architectures Credits: 3

Cross-disciplinary (6 credits):

• ENGL 410 - Professional and Technical Writing Credits: 3

AND one of the following:

• PSYC 333 - Industrial and Organizational Psychology Credits: 3
• COMM 320 - Business and Professional Communication Credits: 3
• COMM 335 - Organizational Communication Credits: 3

Total: 120 credits

Note:

Students should consult the sample schedules below and ensure that course prerequisites are satisfied. Students should obtain computer-generated audits periodically to ensure that degree requirements are being met.

Sample Schedules

Bioinformatics Concentration Sample Schedule

First Semester

• Western civilization course Credits: 3
• CS 101 - Preview of Computer Science Credits: 2
• CS 112 - Introduction to Computer Programming Credits: 4
• ENGL 101 - Composition Credits: 3
• MATH 113 - Analytic Geometry and Calculus I Credits: 4

Total: 16 credits

Second Semester
- Literature course  Credits: 3
- CS 105 - Computer Ethics and Society Credits: 1
- CS 211 - Object-Oriented Programming Credits: 3
- MATH 114 - Analytic Geometry and Calculus II Credits: 4
- COMM 100 - Public Speaking Credits: 3

Total: 14 credits

Third Semester

- Elective  Credits: 3
- CS 262 - Introduction to Low-Level Programming Credits: 1
- CS 310 - Data Structures Credits: 3
- MATH 125 - Discrete Mathematics I Credits: 3
- PHYS 160 - University Physics I Credits: 3
- PHYS 161 - University Physics I Laboratory Credits: 1

Total: 14 credits

Fourth Semester

- CS 330 - Formal Methods and Models Credits: 3
- CS 367 - Computer Systems and Programming Credits: 3
- ECE 301 - Digital Electronics Credits: 3
- MATH 203 - Linear Algebra Credits: 3
- CHEM 201 - Introductory Chemistry I Credits: 3

Total: 15 credits

Fifth Semester

- Social and behavioral science course  Credits: 3
- Elective  Credits: 2
- CS 421 - Software Requirements and Design Modeling Credits: 3
- CS 465 - Computer Systems Architecture Credits: 3
- BIOL 213 - Cell Structure and Function Credits: 4
Total: 15 credits

Sixth Semester

- Arts course Credits: 3
- BIOL 482 - Introduction to Molecular Genetics Credits: 3
- STAT 344 - Probability and Statistics for Engineers and Scientists I Credits: 3
- ENGL 302 - Advanced Composition Credits: 3
- CS 483 - Analysis of Algorithms Credits: 3

Total: 15 credits

Seventh Semester

- Bioinformatics related elective Credits: 3
- Global understanding course Credits: 3
- Synthesis course Credits: 3
- CS 444 - Introduction to Computational Biology Credits: 3
- BINF 450 - Bioinformatics for Life Sciences Credits: 4

Total: 16 credits

Eighth Semester

- Bioinformatics related elective Credits: 3
- CS Senior course Credits: 3
- BIOL 580 - Computer Applications for the Life Sciences Credits: 3
- CS 450 - Database Concepts Credits: 3
- CS 445 - Computational Methods for Genomics Credits: 3

Total: 15 credits

Computer Game Design Concentration Sample Schedule
First Semester

- CS 101 - Preview of Computer Science Credits: 2
- CS 112 - Introduction to Computer Programming Credits: 4
- ENGL 101 - Composition Credits: 3
- MATH 113 - Analytic Geometry and Calculus I Credits: 4
- COMM 100 - Public Speaking Credits: 3

Total: 16 credits

Second Semester

- Western civilization course Credits: 3
- AVT 104 - Studio Fundamentals I Credits: 4
- CS 105 - Computer Ethics and Society Credits: 1
- CS 211 - Object-Oriented Programming Credits: 3
- MATH 114 - Analytic Geometry and Calculus II Credits: 4

Total: 15 credits

Third Semester

- Social and behavioral science course Credits: 3
- CS 225 - Culture and Theory of Games Credits: 3
