The Mason Vision

Our Motto

Freedom and Learning

Mission*

A public, comprehensive, research university established by the Commonwealth of Virginia in the National Capital Region, we are an innovative and inclusive academic community committed to creating a more just, free, and prosperous world.

*pending approval by SCHEV and the Virginia Legislative Assembly

Our Values

Our students come first
Our top priority is to provide students with a transformational learning experience that helps them grow as individuals, scholars and professionals

Diversity is our strength
We include and embrace a multitude of people and ideas in everything we do and respect differences

Innovation is our tradition
We strive to find new and better ways to deliver on our mission while honoring time-tested academic values

We honor freedom of thought and expression
We protect the freedom of all members of our community to seek truth and express their views

We are careful stewards
We manage the economic and natural resources entrusted to us responsibly and sustainably

We act with integrity
We hold ourselves to the highest ethical standards as educators, scholars, students and professionals

We thrive together
We nurture a positive and collaborative community that contributes to the well-being and success of every member

The Mason Graduate is...

…an engaged citizen:
• ethically oriented and committed to democratic ideals
• respectful of individual differences, rights and liberties
• knowledgeable of important issues affecting the world
• focused on the well-being of others, today and tomorrow
• committed to building a just society

...a well-rounded scholar:
• thinks critically and creatively and demonstrates professional competence
• possesses an inquisitive nature
• appreciates science, humanities and the arts
• skilled as a communicator
• committed to lifelong learning

...prepared to act:
• innovative, resourceful and entrepreneurial; ready to do or create a job
• interested and practiced in working with individuals from other cultures, backgrounds and perspectives
• equipped to make positive and meaningful changes in society

George Mason, the Man

George Mason was the central genius of the American Revolution. He was the primary author of both the Virginia Declaration of Rights and Virginia’s first Constitution, written in May and June of 1776, which served as examples for other states. He was highly regarded by contemporaries for his intellect and abilities. Thomas Jefferson described him as “a man of first order wisdom,” and James Madison described him as “the soundest and clearest reasoned I have ever listened to.”

Always a reluctant public servant, he has been referred to as the “forgotten” or “unknown” founder. Most content at Gunston Hall, his home in Fairfax County, he participated in politics only out of a sense of duty. Unconcerned with fame or his reputation in history, he preferred the happiness of “a private station” to “the vexations of public business.”

In 1787, Mason attended the Constitutional Convention at Philadelphia. James Madison, although known as the “Father of the Constitution,” attributed much of the final document to Mason. Mason refused, however, to sign the Constitution, as it did not guarantee the rights of the people. By his principled opposition, Mason ultimately assured the adoption of the Federal Bill of Rights based on his Virginia Declaration of Rights.

As demonstrated in the language set forth in Mason’s own documents, no other founder was more acutely aware of the moral depravity of slavery and the contradiction it created. He proposed an elimination of the slave trade as a first step toward eventual emancipation. The institution of slavery was so ingrained in a pre-industrial agricultural society that it was only ended by the American Civil War.

If patriotism is defined as selfless devotion to a country conceived in liberty, then George Mason is our purest Patriot. On April 12, 1996, a seven-foot statue of him presenting his handwritten draft of the Virginia Declaration of Rights was dedicated. This statue serves as a constant reminder of the ideals most important to Mason the man and the university that bear his name: freedom and learning.

University History

The idea for George Mason University was born in 1949 when the Northern Virginia University Center, essentially an adult-education extension of the University of Virginia at Charlottesville, opened under the direction of John Norville Gibson Finley. In 1955 and again in 1956, the Board of Visitors of the University of Virginia and Virginia legislature authorized the establishment of a two-year branch college to serve Northern Virginia.
The university’s formal history began in 1957 as University College, the Northern Virginia branch of the University of Virginia, offering courses in engineering and the liberal arts. It opened in a renovated elementary school in the Bailey’s Crossroads area with an enrollment of 17 students.

Eager to support the fledgling institution, the Town (now City) of Fairfax purchased 150 acres in 1958 and donated the land to the University of Virginia for a permanent branch campus. The following year, the University of Virginia Board of Visitors selected the name George Mason College. Construction of the campus’ first four buildings was completed in 1964. In September of that year, 356 students began their studies in the new classrooms.

In March 1966, the General Assembly authorized the expansion of George Mason College into a four-year, degree-granting institution and gave it the long-range mandate to expand into a major regional university. The first senior class received degrees in June 1968. Graduate programs began in September 1970, with the first master’s degrees conferred in June 1971. The George Mason College Board of Control, supported by citizens of the cities of Alexandria and Falls Church, and Arlington and Fairfax counties, acquired an additional 422 acres. By the end of 1970, the college’s Fairfax Campus reached 572 acres; it is now 677 acres.

In 1972, the Board of Visitors of the University of Virginia recommended that the college separate from its parent institution. On April 7 of that year, the governor signed the General Assembly legislation that established George Mason University as an independent member of Virginia’s system of colleges and universities.

Since 1972, the university’s development has been marked by rapid growth and innovative planning. In 40 years, enrollment has risen from 4,166 to more than 32,000 students. In 1979, Mason was given the authority to grant doctoral degrees and began offering programs at this level. In the same year, the university acquired what became George Mason University School of Law, located on the Arlington Campus.

In 1985, Mason partnered with area businesses to develop an engineering program geared toward the emerging information technology field and started what is now the Volgenau School of Engineering. With the Volgenau School, Mason was the first institution in the country to offer a doctoral degree in information technology.

The establishment in 1990 of the Institute of the Arts, which became the College of Visual and Performing Arts in 2001, solidified the university’s commitment to make the arts an integral part of students’ lives. The Center for the Arts and the arts complex, which includes art galleries, studio and rehearsal space, and performing venues such as Harris Theatre and TheaterSpace, are all components of the college.

On the Fairfax Campus, the innovative George W. Johnson Center was dedicated in April 1996. By combining student life resources with educational support facilities such as an interactive library, Mason created the learning workspace of the future. Educational administrators from around the world have toured the center.

The university’s facilities continue to grow. In 2006, the university opened its first facility dedicated to research, Research Hall, which contains an observatory and laboratories for a number of campus research centers. In 2009, the university opened the Long and Kimmy Nguyen Engineering Building, which is now the largest academic building on campus. In addition to being the university’s first LEED-certified building on the Fairfax Campus, the Nguyen Engineering Building is also the first in Virginia's public university system to offer corporate lease space. Also opening in 2009 was the Art and Design Building, which is now home to the School of Art.

Masonvale, a townhome community on campus that provides short-term housing for faculty and staff, opened in late 2009. The Hylton Performing Arts Center on the Prince William Campus celebrated its grand opening in May 2010 and the Mason Inn Conference Center and Hotel opened in summer 2010 on the Fairfax Campus. On the Arlington Campus, Founder's Hall was ready for occupation by the School of Public Policy and other units in early 2011.

The university’s growing reputation as an innovative educational leader is rooted in Virginia’s strong educational tradition. By emphasizing research and study in fields relevant to government and area economic centers, Mason has created a curriculum and mission to meet the needs of Northern Virginia’s extraordinary cosmopolitan constituency. The university has also achieved national distinction in many areas. Its reputation continues to grow as Mason provides educational, cultural, and economic resources for the people of Virginia, the nation, and the world.
Faculty and Students

The university’s more than 1,300 full-time instructional and research faculty members are experts in a broad range of fields. They have published widely, contributed to major research findings, and consulted with government and business officials. Drawing prominent scholars from all fields, Mason’s outstanding faculty have received grants and awards from the Guggenheim Foundation, the Templeton Foundation, the National Science Foundation, the National Endowment for the Arts, and the National Endowment for the Humanities; they have won numerous awards such as Fulbright Scholar grants, Pulitzer Prizes, Mellon Fellowships, Institute of Electrical and Electronics Engineers Centennial Medals, and Nobel Prizes. More than 35 endowed chairs at the university have also brought many internationally renowned artists and scholars to campus.

Of particular interest to undergraduates are the Robinson Professors, outstanding scholars in the liberal arts and sciences who have come to Mason from prestigious positions elsewhere. They are concerned with broad and fundamental intellectual issues and are dedicated to undergraduate teaching and working with Honors College students. In 1984, the first Robinson Professors joined the faculty as the result of a generous bequest from the estate of Clarence J. Robinson.

The majority of the university’s more than 32,000 students are from Virginia; however, all 50 states and Washington, D.C., as well as 130 countries, are represented in the student body. While full-time undergraduates make up the largest student group, part-time graduate and undergraduate students account for nearly half of the student population. Mason welcomes qualified students with a wide range of interests and backgrounds.

Accreditation

George Mason University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award bachelor’s, master’s, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of George Mason University.

Individual programs or units may also be accredited by discipline-specific agencies.

George Mason University Foundation

Established in 1966, the George Mason University Foundation Inc. works to advance the aims and purposes of the university. It is a 501(c)(3) nonprofit foundation organized and operated exclusively for the benefit of the university.

The foundation assists Mason in generating private support and manages, invests, and administers private gifts, including endowment and real property. The foundation is governed by a volunteer Board of Trustees. The foundation president and chief financial officer report to the Executive Committee of the Foundation Board and work with the vice president of development and alumni affairs to support the private resource needs of the university.
Campuses and Instructional Sites

Mason is a distributed university, with regional campuses in Fairfax, Arlington, and Prince William counties, and instructional sites in Loudoun County, Herndon, and Front Royal. Each Mason campus has a distinctive academic focus that plays a critical role in the economy of its surrounding region. At each campus, students and faculty have access to all the university’s resources, while the duplication of programs and support services is minimized through the use of technology.

Fairfax Campus

Situated on 677 acres of wooded land, the Fairfax Campus offers a wealth of opportunities beyond the numerous academic programs and is the principal center for undergraduate residence and life. The resident student population is expected to grow to more than 5,800 during the next five years as new residential units are constructed.

The George W. Johnson Center, the first building of its kind in the country, fosters university-wide learning by integrating students’ curricular and extracurricular activities and strengthening relationships among university communities.

The Center for the Arts and the Patriot Center offer numerous opportunities to experience the arts, as well as sports and other entertainment. Professional artistic events presented on campus include music and dance from around the world and regional, national, and international visual art exhibitions. Free tickets are available to these events for full-time Mason students.

The Aquatic and Fitness Center provides state-of-the-art exercise equipment and competitive and recreational swimming to the university community and outside teams. The 120,000 square foot Recreation and Athletic Complex (formerly the PE Building) boasts three gymnasiums, two racquetball courts, two squash courts, and a two-story fitness gallery. Additional equipment and exercise space is also available in Skyline Fitness, adjacent to the residence halls.

Arlington Campus

The Arlington Campus, established in 1979, is located near Washington, D.C., on 5.2 acres of land. Mason's most urban location, the Arlington Campus is situated conveniently in the Virginia Square neighborhood and offers easy access via Metro and key transportation routes. The Campus has a strong focus on professional and graduate training in law, public policy and conflict analysis and resolution. The Arlington Campus is home to the School of Law, the School of Public Policy and the School for Conflict Analysis and Resolution, as well as programs in nonprofit management, arts management, business administration, and education. The Volgenau School of Engineering offers special certification courses in information technology through its TechAdvance Program through the Office of Continuing Professional Education. Additional continuing and professional education classes are also available on site. While most of the programs offered on the Arlington Campus are on the graduate and professional levels, some undergraduate courses are available.

The Mercatus Center, the James M. Buchanan Center for Political Economy, and the Institute for Humane Studies—Independent initiatives affiliated with the university—can also be found on the Arlington Campus. In addition, the campus houses the Center for Global Studies; Center for Justice, Law, and Society; Center for Critical Infrastructure and Homeland Security; Interdisciplinary Center for Economic Science; and Center for Regional Analysis.

Founders Hall, which opened on the campus in 2011, provides 256,000 square feet of space for academic and student support services. In addition, the building features a 300-seat auditorium, a public plaza, a large multipurpose room, and three levels of underground parking (443 additional parking spaces). These spaces enable the university to highlight and showcase much of the
exciting work taking place at the Arlington campus - as well as throughout the university - through the hosting of conferences, meetings and other events. Once complete, the Arlington Campus will include 750,000 square feet of space and many new facilities to accommodate its projected 8,000 undergraduate, graduate, and professional students.

**Prince William Campus**

The Prince William Campus, established in 1997, resides on 134 acres in Manassas, near the intersection of I-66 and the Prince William Parkway. The campus serves all of Northern Virginia and offers convenient access to the university for citizens of Prince William, Fauquier, and western Fairfax counties; the cities of Manassas and Manassas Park; and adjoining areas to the west and south. A major focus of the campus is research and academic programs in the life sciences, including biodefense and infectious diseases, cancer proteomics, genomics, medical education and bioinformatics. Graduate studies in Advanced Biomedical Sciences are offered for students preparing for medical school or careers in health professions. Programs in nursing, teacher education, information technology, health and fitness, recreation, exercise science, health promotion, parks and outdoor recreation, sport management, therapeutic recreation, tourism and events management, and athletic training also are offered on the campus. Professional certificate programs are available through the Office of Continuing Professional Education.

Campus resources available to all university students, faculty, and staff include a full-service library, large drop-in computer lab, information center, University Police, university bookstore, dining services, student lounge, shuttle bus service between the Fairfax and Prince William Campuses, and full complement of student and academic services. In addition, there are numerous opportunities to get involved in campus life through a variety of co-curricular and extracurricular activities.

Many campus facilities and services are available to serve university and community needs. The 300-seat Verizon Auditorium boasts innovative audiovisual technologies suitable for presentations, meetings, and ceremonies, along with lobby space for receptions and displays. The campus is also home to one of several Mason Enterprise Centers that support small business operations throughout the region.

The campus comprises seven buildings: two research facilities, two academic buildings, a student housing facility, a recreation and fitness center and a performing arts center. Graduate student housing with ground level retail space opened in fall 2012. A third research facility also under construction is scheduled to open summer in 2013. Through mutually beneficial partnerships with local government and area businesses, the campus has positioned itself to tap into the unique assets of the surrounding community while providing access to university resources and programs for students and citizens. The university’s Biomedical Research Laboratory (BRL) opened in 2010. This regional biocontainment facility, the largest of only 13 facilities of its kind in the nation, is funded in part by the National Institute of Allergy and Infectious Diseases and houses research on emerging infectious diseases and those caused by biological threat agents.

The 110,000-square-foot Freedom Aquatic & Fitness Center™ offers state-of-the-art exercise equipment, group fitness programs, a full gymnasium with elevated track, and recreational and instructional swimming in a 50-meter competition pool, classrooms, and other meeting spaces. It is also home to EDGE, Mason Center for Team and Organizational Learning's Challenge Course.

Prince William County, the City of Manassas, and Mason, along with the private sector, have joined to create the region’s first state-of-the-art performing arts center. The Hylton Performing Arts Center, opened in 2010, provides outstanding professional performances by artists from around the world in world-class venues. With resources for community arts groups; regional business, civic, and service organizations; county and city school students and teachers; Mason students and faculty, The Hylton Performing Arts Center educates, entertains, and enriches the community.

The Governor's School @ Innovation Park began conducting dual-enrollment classes for high school guest matriculates at the Prince William Campus in 2010.

**Instructional Sites**

Mason in Loudoun, currently located in leased space in Sterling, Virginia, connects students and businesses in one of the nation’s fastest-growing areas to one of the commonwealth’s premier universities. Mason in Loudoun offers graduate level coursework in nursing, health science, education, information technology, and management, along with undergraduate general education
courses. We also host a number of executive education events and Osher Lifelong Learning classes. Located near the Dulles Town Center, Mason in Loudoun offers students the same rights, privileges, and access as those on Mason’s Fairfax, Arlington, and Prince William Campuses.

Smithsonian Mason School of Conservation (SMSC) was established as a partnership between the Smithsonian Institution and George Mason University to provide innovative education for current and future generations of global conservation professionals, leaders, and practitioners. Located in Front Royal, the campus offers undergraduate, graduate and certificate programs for students and professionals.

The Office of Continuing Professional Education’s Herndon Training Center, located off the Dulles Toll Road and Route 28 at the Center for Innovative Technology (CIT), provides a wide range of yearly open-enrollment seminars and workshops in its meeting facilities. CIT classrooms are fully electronic and include a groupware platform. The School of Management’s Executive MBA Program and the Volgenau School of Engineering’s TechAdvance Program along with a wide range of professional development programs on subjects such as management development, project management, human resources and government contracting are located here.

Coursework

This Smithsonian-Mason School of Conservation offers all coursework designated CONS listed in the Courses section of this catalog. All coursework is based at the Smithsonian Conservation Biology Institute in Front Royal, Virginia.

About Smithsonian-Mason School of Conservation

The Smithsonian Institution and George Mason University partnered to establish the new Smithsonian-Mason School of Conservation (SMSC) to provide innovative education for current and future generations of global conservation professionals, leaders, and practitioners. Already the SMSC has established itself as a benchmark for innovative education, as instruction focuses on analytical and practical skill building to address the changing threats to and opportunities for conserving biodiversity. The SMSC engages undergraduates, graduate students and professionals from around the world in a range of compelling programs in conservation biology focused on developing the knowledge and implementing the practices required to address some of the greatest threats to biodiversity facing society today.

SMSC’s programs, co-developed and co-taught by SCBI researchers, are delivered at SCBI’s 3200-acre facility along the Blue Ridge in Front Royal, Virginia, one of the premier conservation research facilities in the world, housing innovative research on some of the rarest species on earth. Students live and learn with prominent research scientists, educators, and conservation practitioners. The undergraduate program provides an innovative semester immersion approach to conservation studies in a learning community framework taking advantage of proximity to SCBI’s scientists, laboratories, and charismatic fauna. Graduate programs are based on a one - two week intensive residential course format for geared to working professionals with the opportunity to gain a graduate certificate from multiple courses and a path to graduate degrees. Course topics range from adaptive management and conservation conflict resolution to advanced statistics and R language for ecology and conservation to non-
invasive genetic analysis techniques. The SMSC was officially dedicated on October 18th of 2012 opening major new academic, residential and dining LEED gold certified facilities. The residential and dining hall were recently named the G. T. Halpin Family Living and Learning Community.

**Undergraduate Programs**

The Smithsonian-Mason Semester is a 16-credit undergraduate program in which students can earn a Applied Conservation Studies Minor. There are currently two 16 credit tracks: “Applied Conservation Strategies” and “Ecology for Effective Conservation Practice”. See the Programs of Study section of this catalog for details on the minor and the Courses section for details on the courses (select the course prefix CONS). Grounded in natural science, this interdisciplinary semester brings public policy, sociology, conflict resolution, and global awareness to the learning environment. Students majoring in the BAIN program, Biology, Environmental Science, and Global Affairs may be able to fulfill major requirements and/or general education requirements with Smithsonian-Mason Semester (CONS) credits subject to advisor approval.

**Graduate Programs**

Graduate students can earn an Applied Conservation Science Graduate Certificate. This certificate is designed for early to mid-career conservation professionals working in government, non-governmental organizations, and research institutions worldwide. Courses are offered in an intensive 1-2 week format at the Smithsonian Conservation Biology Institute.
Mason Online

Distance Education

Mason Hall, D217
Phone: 703-993-8978
Fax: 703-993-3942
Email: distance@gmu.edu
Web: masononline.gmu.edu

Administration

James Goodlett McDaniel, Associate Provost for Distance Education

Distance education provides students with the opportunity to take the same classes offered on campus through different delivery methods. Many distance education courses may be completed at home, while stationed abroad, or when traveling. Assignments, testing, and group work are conducted online and are designed to help you meet educational outcomes. Communication with the instructor and classmates is usually electronic via email or online discussion forums.

A list of degree programs and certificates that can be completed by taking the required courses fully online can be viewed on the Program page masononline.gmu.edu/programs/. If a program is not listed, this means that not all of the courses required to complete the program are offered in an online format.

To see a full list of online courses, visit MasonOnline’s Courses page.

Inquiries about distance education may be addressed to distance@gmu.edu.

Massive Open Online Courses (MOOCs)

Mason does not presently award credit for any massive open online course (MOOC). However, the university is evaluating a pilot arrangement consisting of a free short Mason MOOC (equivalent to one-third of the work in a three-credit course) to serve as a gateway to a credit-bearing course. In this pilot, demonstrated mastery of the material covered in the MOOC may be used in substitution for the work in the first one-third of the credit-bearing course. Grades will be determined by performance in the credit-bearing course component of the pilot. No credit will be awarded solely for the MOOC.

Administration

Dr. Anne Schiller, Vice President for Global Strategies

The Office of Global and International Strategies provides leadership and support to a university committed to realizing its global goals. It assists faculty, students, and units to pursue international activities, including through coordination of efforts across units and beyond borders. The office represents Mason’s global interests to government and non-governmental agencies, business and community leaders, and educational partners around the world. It also serves as an incubator for innovative projects through which Mason faculty and students engage with counterparts across the globe.

Center for Global Education: Study-Abroad Office

Johnson Center, Room 235
Phone: 703-993-2154
Fax: 703-993-2153
Web: globaled.gmu.edu
E-mail: cge@gmu.edu

Administration

Dr. Yehuda Lukacs, Director

The Center for Global Education (CGE) offers students the opportunity to challenge their assumptions about themselves and other cultures in an educational environment by offering study-abroad programs of varying lengths, academic emphasis, and locations. Students can discover new cultures, sharpen language skills, and travel while earning credit. Study options include faculty-led, short-term study tours and intensive language programs; semester and year-long Mason-sponsored programs; direct exchange programs and international internship programs. Most programs are open to Mason undergraduate and graduate students and short-term programs are also open to faculty, staff, and the general public.

CGE offers a wealth of resources to help create a personalized international experience, including information sessions about study-abroad and internship options; one-on-one student advising; transfer of approved international program credits; a resource library of travel books; international and diplomatic community programming; advising to international students from partner schools; and International Student Identity Cards.
Center for Global Studies

307 Truland Building, Arlington
Phone: 703-993-9433
Fax: 703-993-9431
Web: cgs.gmu.edu

Administration

Terrence Lyons, Co-director and Associate Professor, School for Conflict Analysis and Resolution
Jo-Marie Burt, Co-director and Associate Professor, Public and International Affairs

Dedicated to the promotion of multidisciplinary research on globalization, the Center for Global Studies coordinates outreach efforts in global affairs, facilitating access for external communities to the university’s full range of global expertise. Ongoing activities include hosting guest speakers and visiting scholars, an annual conference, electronic publications, and an annual cycle of small grants to support faculty research. The center also manages multi-academic unit research projects and a number of regional and thematic working groups.

Mason Songdo

To enhance Mason's global presence and increase accessibility to its academic programs, the university anticipates opening a branch campus in Songdo, South Korea, on the Songdo Global University Campus.

Mason Songdo, scheduled to open in 2014, offers bachelor degree programs in management and economics with additional programs in the future. Academic program requirements and standards are identical with those on the US campuses. Students based at Mason Songdo will travel to the Fairfax campus for their third year of study. Opportunities for US-based students to study on the Mason Songdo campus are also planned.

Office of International Programs and Services

Student Union I, Suite 4300
Phone: 703-993-2970
Fax: 703-993-2966
Web: oips.gmu.edu

Administration

Judith Green, MEd, Director

The Office of International Programs and Services (OIPS) advises and consults on matters affecting non-immigrant students, scholars, faculty, staff, and families at Mason. Staff members provide regulatory information related to non-immigrant status and have been designated by the university to issue and sign immigration documents and paperwork on behalf of the institution. OIPS advisors are available by appointment to discuss any concern and to provide practical assistance to students and scholars as they adjust to U.S. culture. OIPS conducts a comprehensive orientation program for new international students and offers social and cultural programming throughout the fall and spring semesters. Most notably, the staff works with student groups and the Student Activities Office to coordinate Mason’s International Week held annually in April.

Center for International Student Access

Phone: 703-993-4711
Fax: 703-993-3942
Administration

Nicole J. Sealey, MA, Director

The Center for International Student Access (CISA) supports the university’s vision for global engagement by providing provisional pathway programs to increase access to Mason for international and multilingual students. To accomplish this, CISA works closely with academic departments and the English Language Institute to offer The ACCESS Program for undergraduate students and The BRIDGE Program for graduate students.

The primary purpose of the Center, in partnership with the English Language Institute, is to combine teaching excellence in prescriptive academic English language support, customized general education courses, and specialized student support services to create distinctive programs for students with international educational backgrounds.

Admission

Students do not apply directly to The ACCESS Program or The BRIDGE Program; to be considered, students should apply to the academic programs to which they wish to be admitted. Students are admitted to the Center’s academic programs based on the credentials presented at the time of application to the university. If the Office of Admissions decides to admit the student to the university through one of the Center’s pathway programs, the student will be notified of the provisional admission status in their acceptance letter.

International students who are granted regular admission may also request to participate in the programs or in specific classes offered by CISA, if they or their department believe that they would benefit from additional academic and acculturation support in their first year at Mason.

English Language Institute (ELI)

Northern Neck, Room 108
Phone: 703-993-3660
Fax: 703-993-3664
E-mail: ELI@gmu.edu
Web:eli.gmu.edu

Administration

John Pope, MA, Executive Director
Baotran Beatson, MA, Associate Director
Karyn Mallett, PhD, Assistant Director

The English Language Institute (ELI) provides instruction in English as a second language to develop students’ language and academic skills, as well as cultural awareness necessary for academic and professional success. ELI offers two programs: the Intensive English Program, which serves international students who have come to the United States to study English in preparation for academic study at an American college or university, and the Support Services Program, which provides programs for nonnative, English speaking students newly admitted to Mason and other international members of the campus community. ELI also provides contract services to private corporations, embassies, and government agencies.
The ACCESS Program

Phone: 703-993-4711
Fax: 703-993-3942
Email: cisa@gmu.edu
Web: cisa.gmu.edu

The ACCESS Program is an undergraduate pathway program offered through the Center for International Student Access (CISA), which allows first-year students to develop their academic English language skills while taking a full-time academic course load toward a bachelor’s degree. For most students, participation in the ACCESS Program will not add more time to the completion of their bachelor’s degree.

Students enrolled in the ACCESS Program should review the ACCESS Program student guidebook for specific details related to program requirements and expectations.

Course Work

The ACCESS Program offers general education classes (designed to meet degree requirements) as well as courses designated under PROV in the Courses section of this catalog.

Faculty

Students in the ACCESS Program study with highly qualified faculty members from both the university’s academic departments and the English Language Institute.

Admission

Admission to the ACCESS Program is usually offered to international and multilingual students based on the academic credentials submitted with the admissions application.

Students must be academically qualified for university enrollment and present English language proficiency scores between 68 and 88 on the TOEFL iBT or 5.5 to 6.5 on the IELTS. Students provisionally admitted to the university through the ACCESS Program are required to complete all program requirements it in order to maintain continuous enrollment.

New students are admitted to the ACCESS Program only in fall semesters.

International students on an F-1 or J-1 visa are permitted to enroll in the ACCESS Program by request to University Admissions.

Major

All students accepted to the ACCESS Program will have the ACCESS Program assigned by admissions as their primary program and major. The secondary major represents the intended major of study to which the student will transition upon successful completion of the program requirements. Any student who has not completed ACCESS Program requirements has not been fully admitted to the intended major.

Curriculum
The program curriculum is mostly general education or elective courses that are designed specifically to advance English language development and cultural adjustment for international students.

**Required Core Courses (22 credits)**

- ENGH 121 - Enhanced Composition For Multilingual Writers of English I Credits: 3
- ENGH 122 - Enhanced Composition For Multilingual Writers of English II Credits: 3
- COMM 100 - Public Speaking Credits: 3
- PROV 103 - Language Support for Public Speaking Credits: 1
- HIST 125 - Introduction to World History Credits: 3
- PROV 104 - Language Support for World History Credits: 1
- PROV 105 - American Cultures Credits: 3
- PROV 106 - Introduction to Research Methods for International Students Credits: 3
- UNIV 100 - Freshman Transition Credits: 0-2 (for 2 credits)

**Additional Requirements**

Each ACCESS student must take one approved quantitative reasoning course depending on the intended major. Approved quantitative reasoning courses include: MATH 105, MATH 106, MATH 108, MATH 113, and STAT 250.

Each ACCESS student must take at least one approved course in the intended major. Approved major courses include:

- BENG 101 - Introduction to Bioengineering Credits: 3
- BIOL 213 - Cell Structure and Function Credits: 4
- CHEM 211 - General Chemistry Credits: 4
- CEIE 117 - Information Technology for Engineering Credits: 3
- CONF 101 - Conflict and Our World Credits: 3
- CRIM 100 - Introduction to Criminal Justice Credits: 3
- CS 105 - Computer Ethics and Society Credits: 1
- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- GOVT 101 - Democratic Theory and Practice Credits: 3
- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 132 - Introduction to International Politics Credits: 3
- GOVT 133 - Introduction to Comparative Politics Credits: 3
- IT 101 - Introduction to Information Technology Credits: 3
- IT 103 - Introduction to Computing Credits: 3
- MATH 114 - Analytic Geometry and Calculus II Credits: 4
- PHYS 160 - University Physics I Credits: 3 and PHYS 161 - University Physics I Laboratory Credits: 1
- PSYC 100 - Basic Concepts in Psychology Credits: 3
- SOCI 101 - Introductory Sociology Credits: 3
- TOUR 110 - Professionalism and Civility Credits: 1

Other courses are permitted with written approval from the center’s Academic Affairs representative.

Each ACCESS student must maintain a grade point average of 2.00 or better and a grade of C or better in all coursework.

Each ACCESS student is required to achieve a satisfactory rating on the Student Development Portfolio/Capstone requirement, presented at the end of the spring semester.
Students in good standing are restricted to 16 credits per semester unless they obtain written approval from the center’s Academic Affairs representative.

Each ACCESS student must achieve a minimum level of English language proficiency as evidenced by the e-Language Portfolio, the ELI-administered English proficiency examination, and the feedback from Individualized Language Study faculty as appropriate. The program reserves the right to require additional coursework in grammar or individual language study for students who need to progress more quickly.

Beyond ACCESS Program requirements, all students must satisfy the initial requirements of their intended college and major.

**Living Learning Community**

ACCESS students are strongly encouraged to live on campus in the ACCESS International Living Learning Community (LLC). Students who opt to live off campus are required to meet with a Student Success Advisor to discuss how this decision may affect their academic experience. All ACCESS students are considered part of the LLC and are required to participate in events and activities to actively engage in the campus community as part of the first-year experience.

**Continuation at Mason**

Students who do not meet all requirements for completion of the ACCESS Program at the end of the second term will be reviewed for dismissal. Students who are placed on academic warning because of a GPA below 2.00 may be ineligible to continue at Mason beyond the second term. Students who are unable to achieve the minimum level of English proficiency or other similar requirements may be granted an extension to enroll in summer or fall courses as an “ACCESS Plus” student to demonstrate necessary progress at the discretion of the Associate Provost for Undergraduate Education. Students who fail to meet the program requirements after such an extension will be dismissed.

Students who do not enroll after the first term or withdraw for reasons other than poor academic performance may return within one calendar year and continue working to satisfy the program requirements. Credits taken at another institution will be subject to Mason’s transfer credit policy.

**Dismissal/Termination Appeals Process**

Students may appeal academic dismissals in writing to the Vice Provost for Academic Affairs.

**Transfer of ACCESS Program Courses**

**Within Mason:** The majority of credits offered in the ACCESS Program count for credit in any discipline; however, some courses may only count as electives.

**Outside Mason:** Coursework in the ACCESS Program may not meet the general education requirements of other universities. As in all transfer situations, the receiving institution retains the right to determine what credit it will accept, and the applicability of such credit to its degree programs.
The BRIDGE Program

Phone: 703-993-4711
Fax: 703-993-3942
Email: cisa@gmu.edu
Web: cisa.gmu.edu

The BRIDGE Program is a graduate pathway program offered through the Center for International Student Access (CISA) designed to provide a comprehensive first-year experience for international graduate students. The program includes academic credit-bearing coursework, educational acculturation, and student support services.

The BRIDGE Program offers provisional graduate admission for international students through two separate pathways:

- The **Degree Enhancement (DET)** pathway creates a custom “fourth year” program for international students with three-year degrees, enhancing their educational background with a customized academic program to prepare for graduate study at Mason.
- The **English Enrichment (EET)** pathway provides students who require a moderate amount of English language support the opportunity to strengthen their credentials and ensure academic success.

Students enrolled in the BRIDGE Program should review the BRIDGE Program student guidebook for specific details related to program requirements and expectations.

**Coursework**

The BRIDGE Program offers courses designated under “PROV” in the Courses section of this catalog. These classes will not count toward the graduate degree without specific permission from the graduate program’s dean or director, but are required as part of the provisional acceptance to Mason. Depending on a student’s BRIDGE pathway and individual skill, s/he will be able to take between 6-9 credits toward their intended graduate degree.

**Faculty**

Students in the BRIDGE Program study with highly qualified faculty members from both the university’s academic departments and the English Language Institute.

**Participating Programs**

Programs that elect to participate in the BRIDGE Program are determined by individual graduate units in consultation with CISA.

**Admission**

In order to be considered for graduate study in any program at Mason, prospective students must complete a full application with all materials required by the academic program to which they have applied. This includes submitting the online application, fee, mark sheets/transcripts, degree certificates, letters of recommendation, resume, test scores, and other required items. Applicants must also achieve a minimum Grade Point Average (GPA) of 3.00 and demonstrate an ability to be successful at completing graduate study. To determine this, individual students are reviewed by their respective academic departments for admission to the university according to the standard admissions process.

Students with international degrees who meet most but not all admissions requirements may be considered for BRIDGE admission if they meet one set of criteria as indicated below:
1. All admissions requirements (including English Proficiency for standard admission) are met, except that the student holds a three-year bachelor’s degree as determined by a transcript evaluator. Such students may be offered BRIDGE admission to the Degree Enhancement pathway (BRIDGE-DET); OR

2. All admissions requirements (including holding the equivalent of a four-year bachelor’s degree), are met except that the English Proficiency examination scores were below that required for general admission to the graduate program but met or exceeded the following minimum passing scores:
   - For the College of Science, College of Visual & Performing Arts, School for Conflict Analysis and Resolution, and the Volgenau School of Engineering, a minimum TOEFL iBT score of 80 or its equivalent
   - For the College of Education & Human Development, School of Management, and the School of Public Policy, a minimum TOEFL iBT score of 87 or its equivalent
   - These students are offered BRIDGE admission to the English Enrichment (BRIDGE-EET) pathway.

Newly admitted BRIDGE students are notified in their admissions letter of the requirement for participation through a BRIDGE admissions contract. By signing the admissions contract, the student acknowledges that s/he must successfully complete the program before being allowed to matriculate during a third semester and beyond as a “regular” status graduate student. Once a student returns the admissions contract to the appropriate graduate unit and has confirmed enrollment according to the instructions provided, the student will then be enrolled in classes by the BRIDGE Advisor.

**Degree Enhancement (DET)**

**Program Requirements**

Prescribed courses in the BRIDGE-DET include approximately 24 credits. The intent of these courses is to prepare students for the demands of the Mason graduate curriculum. Further, the prescribed courses include six credits of graduate coursework during the BRIDGE year.

The BRIDGE advisor will consult with the graduate program academic advisor to select graduate courses that best fit the elective requirements and his/her future career goals based on their previous course history.

**Curriculum**

- University General Education electives with Advisor approval (6 credits)
- PROV 501 - Graduate Studies Preparation for International Students I (2 credits)
- PROV 502 - Graduate Studies Preparation for International Students II (2 credits)
- PROV 506 - Graduate Communication in the Disciplines I (4 credits)
- PROV 507 - Graduate Communication in the Disciplines II (4 credits)
- Appropriate courses applicable toward graduate program of study (6 credits)

University General Education electives for the BRIDGE Program are selected based on gaps in the educational background of the student as shown in the international transcript evaluation submitted for admission. Whenever possible, BRIDGE students are enrolled in upper division level courses (300-400) and courses where prerequisites have already been met.

**Time to Degree for DET Students**

Because of the program’s intent and structure, BRIDGE-DET adds approximately one semester to the timeline of a typical graduate program. BRIDGE-DET students are expected to review carefully the full requirements of their graduate program of interest. Beginning in the third semester (after the BRIDGE year), students will be expected to complete the remaining required coursework for the graduate degree according to the program’s published guidelines.

**Program Completion Criteria**

Successful completion of the BRIDGE-DET requires the student to:
1. Take all prescribed courses in the Curriculum section of this guide in full-time status.
2. Complete the program within two consecutive semesters with an overall GPA of 3.00 and a grade of B or better in each graduate course.

English Enrichment (EET)

Program Requirements

Prescribed courses for BRIDGE-EET includes approximately 18-22 credits, most of which are academic English language development courses. The intent of these courses is to prepare students for the demands of the Mason graduate curriculum. Further, the prescribed courses may include up to 9 credits of coursework toward the student’s graduate degree during the BRIDGE year.

The BRIDGE advisor will consult with the graduate program academic advisor to select graduate courses that best fit the elective requirements and his/her future career goals.

Curriculum

- PROV 501 - Graduate Studies Preparation for International Students I (2 credits)
- PROV 502 - Graduate Studies Preparation for International Students II (2 credits)
- PROV 506 - Graduate Communication in the Disciplines I (4 credits)
- PROV 507 - Graduate Communication in the Disciplines II (4 credits)
- Appropriate coursework toward graduate program of study (6-9 credits)

BRIDGE-EET students are assessed regularly to ensure that adequate progress is being made toward academic English language acquisition, and required academic English proficiency examinations are given at the end of the first and second semesters to assess academic English language progress. The mid-year assessment determines whether the student must take the following addition coursework, including:

- PROV 503 - Interpersonal Communication for International Students: Practicum and Theory (2 credits)
- PROV 505 - Special Topics in Advanced English for Academic Purposes (2 credits)

Students for whom both PROV 503 and PROV 505 courses are waived may take a second graduate course during the second semester with BRIDGE advisor approval.

Time to Degree for EET Students

Because of the program’s intent and structure, BRIDGE-EET adds approximately one academic semester to the timeline of a typical graduate program of study. BRIDGE-EET students are expected to review carefully the full requirements of their graduate program of interest. Beginning in the third semester (after the BRIDGE year), students will be expected to complete the remaining required coursework for the graduate degree according to the program’s published guidelines.

Program Completion Criteria

Successful completion of the BRIDGE-EET requires the student to:

1. Take all prescribed courses in the Curriculum section of this guide in full-time status.
2. Complete the program within two consecutive semesters with an overall GPA of 3.00 and a grade of B or better in each graduate course.
3. Take the required academic English proficiency examination at the end of the first semester to assess academic English language progress. This mid-year assessment will determine which courses the student must take during the second semester of study.
4. Students must meet and achieve the following goal score required by their academic program by the end of the BRIDGE-EET:
   - For the College of Science, College of Visual & Performing Arts, School for Conflict Analysis and Resolution, and the Volgenau School of Engineering, a minimum English Proficiency score of B2 on the ELI Placement Examination in each subsection or its equivalent
   - For the College of Education & Human Development, School of Management, and the School of Public Policy, a minimum English Proficiency score of B2+ on the ELI Placement Examination in each subsection or its equivalent

Continuation at Mason

After successful completion of the program, all BRIDGE participants are reviewed by CISA and then, if appropriate, promoted to “regular” degree status to complete the remaining coursework in the graduate degree program. BRIDGE students are provisionally admitted to Mason. Students who do not meet the program requirements will be reviewed by the Associate Provost for Graduate Education together with the dean or director of the academic department for termination from the graduate program. It is possible that students who are terminated during the BRIDGE year may not be eligible for admission to another graduate program at Mason based on their academic credentials. University regulations for appeals and extensions for graduate students apply.

Dismissal/Termination Appeals Process

Students may appeal academic dismissals in writing to the Vice Provost for Academic Affairs.
Student Rights and Responsibilities

Policies and Procedures Affecting All Students

Knowledge of University Policies

Each student is responsible for knowing Mason's rules, regulations, requirements, administrative policies and Academic Policies. This catalog is the normal repository of academic policy statements, but corrections, changes, or interpretations can be promulgated by other means, including electronic publication.

When the university or one of its academic units changes course requirements, grading procedures, or criteria for acceptance into particular programs, academic standing, or graduation, the changes apply to all students enrolled at the time of implementation of the change and thereafter.

Students have certain choices regarding the set of degree requirements under which they graduate, as detailed in the Catalog Requirements for Degrees in AP.4 Degree Application, Conferral and Graduation section. The Special Collections and Archives section of the Fenwick Library has copies of all previous catalogs. They may not be checked out, but may be photocopied. Any student in doubt about an academic matter should consult a faculty advisor or dean.

Students are subject to the university's stated policies regarding patents and copyrights. These policies are available at osp.gmu.edu.

Catalog Requirements for Degrees

Catalog year refers to the setting of course and non-course requirements within academic programs as stated in the school and college section of a specific catalog. Catalog year does not set academic policies other than program requirements in place, however. Not all programs and degree components are available in all catalogs. For any one degree, all requirements must be met as stated in a single catalog. The only exception is that Bachelor's degree students may select a minor from another catalog year for which they are eligible, as noted below.

Bachelor's degree candidates may choose to graduate under the terms of any catalog in effect during their enrollment in degree status. Students who have been inactive for five or more years or who have attended another institution without prior approval from their academic dean or director must graduate under a catalog in effect at or after their re-admission and during their enrollment in degree status.

Master's and doctoral degree candidates who have been continuously enrolled may choose to graduate under the terms of any catalog in effect during their enrollment in degree status. Students who have been inactive more than one year, however, may be required by their program to graduate under a catalog in effect after they have been granted permission to re-enroll. In no case may a student choose the requirements of a future catalog year that take effect after the student's degree is anticipated.

Mason ID Card
Official Communication with Students

Web: masonlive.gmu.edu

Mason uses electronic mail to provide official information to students. Examples include notices from the library, notices about academic standing, financial aid information, class materials, assignments, questions, and instructor feedback. Students are responsible for the content of university communication sent to their Mason e-mail account and are required to activate that account and check it regularly. Students are also expected to maintain an active and accurate mailing address in order to receive communications sent through the United States Postal Service.

Change of Status, Address

Each student is required to provide Mason with current contact and identifying information, including permanent and local addresses, telephone numbers, and legal name. Each student must also maintain the university e-mail account assigned at the time of admission. Students are responsible for official communications directed to Mason e-mail accounts. For more information, go to masonlive.gmu.edu.

Addresses should be updated over the Internet using Patriot Web. Name and Social Security number changes require official documentation and must be processed in person at the Office of the University Registrar or with the original copy of a notarized request.

Student Requests for Academic Actions

All requests for academic actions, such as special permissions or exceptions to published academic regulations, must be submitted to the head of the unit in which the student's program is housed, for example, the department chair, institute director, or school or college dean. Forms and instructions on how to initiate an academic action are available in the academic unit and on the unit's web site. For students who have not yet declared a major, the academic actions process is executed in the Office of Student Academic Affairs, Advising & Retention, SUB I, Room 3500. Students will be informed of the average wait time for decisions on academic actions undertaken within their units. Those who need assistance with the academic actions process may consult their academic advisor, or they may be directed to the university ombudsman.
Appeals of Academic Procedures

Students have the right to appeal decisions regarding requests for academic actions. The appeals process begins in the academic unit. Each college, school, and institute at Mason has a written statement of that unit's appeal process on file in the dean or director's office. Students who feel the appeals process was conducted unfairly by a college or school may appeal to the Provost's Office. All appeals must be in writing, and they must demonstrate that the student has exhausted all options within the academic unit. Undergraduate students initiate appeals of unit decisions with the Associate Provost for Undergraduate Education. Graduate students initiate appeals of unit decisions with the Associate Provost for Graduate Education. The Provost's Office does not consider grade appeals or appeals of Honor Committee decisions.

The Provost's Office may refer cases to the University Academic Appeals Committee. The committee consists of five faculty members, including at least one member of the Faculty Senate and the provost (or designee), who serves ex officio, in a nonvoting capacity. The committee hears only those cases where procedural irregularities or a questionable application of university policies is demonstrable, or when the provost or the committee deems the case relevant to the application of university-wide policies. The burden of proof rests with the student, who must provide clear and convincing documentation to support the contention that the decision was unfair based on the criteria stated above. The committee's decision is final. The University Academic Appeals Committee is not charged to hear grade appeals or appeals of Honor Committee decisions.

The Provost's Office is responsible for maintaining appeals records, determining whether students have just cause, and ensuring that complete documentation is available for all committee members. The committee communicates its decision to the student, the relevant unit, and the provost.

Office of the Ombudsman

SUB I, Suite 3313
Phone: 703-993-3006
E-mail: ombuds@gmu.edu
Web: ombudsman.gmu.edu

Administration:
Dolores Gomez-Moran, University Ombudsman

The Office of the Ombudsman is a neutral, independent, informal, and confidential resource to facilitate fair, equitable, and expeditious resolution of university-related concerns and problems raised by students. The ombudsman is an advocate for fairness and the equitable treatment of students, operates independently of all formal grievance processes at the university, and considers all sides of an issue in an impartial and objective manner. The ombudsman has no authority to make exceptions or to grant requests, but can perform informal investigations and, as a result, may recommend actions that lead to changes in processes and policies at the university. Meetings with the ombudsman are confidential. The ombudsman serves graduate and undergraduate students at the university.

Privacy of Student Records

Office of the University Registrar
Student Union I, Room 2101
Phone: 703-993-2441
Email: registrar@gmu.edu
Web: registrar.gmu.edu/students/privacy/

Each year, Mason informs students of the Family Educational Rights and Privacy Act (FERPA) of 1974. The university intends to comply fully with this act, which protects the privacy of education records, establishes the right of students to inspect and review their education records, and provides guidelines for amending inaccurate or misleading data through informal and formal

George Mason University 2013-2014 Official University Catalog 28
hearing. Students also have the right to file complaints with the Family Policy Compliance Office (U.S. Department of Education) concerning alleged failures by Mason to comply with the act.

The Notification of Rights under FERPA and the Public Notice Designating Directory Information detail students' rights and the procedures implemented by the university to comply with FERPA.

FERPA is a federal law that affords students certain rights with respect to their education records. Specifically, it affords students the right to: (1) inspect and review their education record; (2) request the amendment of inaccurate or misleading records; (3) consent to disclosure of personally identifiable information contained in their education record; and (4) file a complaint with the Family Policy Compliance Office of the U.S. Department of Education concerning alleged failures of the university to comply with the act. George Mason University strives to fully comply with this law by protecting the privacy of student records and judiciously evaluating requests for release of information from those records. FERPA authorizes the release of "directory information" without the student's prior consent under certain conditions, which are set forth in the act. George Mason University has defined its "directory information" in accordance with the law. Please visit the Office of the University Registrar website at registrar.gmu.edu for additional information about student privacy and FERPA.

Public Notice Designating Directory Information

George Mason University designates the following as public or "directory information." Such information may be disclosed by the university without the student's prior consent under the conditions set forth in the Family Educational Rights and Privacy Act of 1974 (FERPA).

Directory Information: Student name, address, telephone numbers(s), e-mail address, date and place of birth, major, dates of attendance, enrollment status (full time, part time), class, previous institutions, major field of study, awards, honors (including Dean's List), degrees conferred including dates, past and present participation in officially recognized sports and activities, and physical factors (height and weight of athletes).

Note: Directory information is information that Mason may disclose, but it is not required to do so. It is Mason's policy to refrain from actively disclosing addresses, telephone numbers, and dates of birth; however, the university routinely verifies this information. Mason does not disclose social security numbers, personal identification numbers, photographs, grades, grade point averages, class schedules, academic actions nor the number of credits enrolled in or earned unless the student has signed a consent form.

Currently enrolled students may withhold disclosure of directory information under FERPA. To withhold disclosure, students must present a photo ID in person at the Office of the University Registrar, Fairfax or Prince William campuses, and complete the Request to Prevent Disclosure of Directory Information Form. The form may be submitted at any time throughout the year and will immediately affect prospective disclosures. George Mason University assumes that failure on the part of any student to specifically request the withholding of a category of directory information indicates individual approval for disclosure. Former students may not place a new request for nondisclosure of directory information on their education records; however, they may request its removal.

Confidential (Private) Hold: Prevents the disclosure of all directory information including name, address, telephone number(s), e-mail address, date and place of birth, photographs, major, dates of attendance, enrollment status (full time, part time), class, previous institutions, major field of study, awards, honors (including Dean's List), degrees conferred (including dates), past and present participation in officially recognized sports and activities, and physical factors (height and weight of athletes).

Note: Confidential status does not convey a right to be anonymous in the classroom or to impede routine classroom communication and interactions. Students with confidential status should expect to be identified in class by name and to have their Mason email address used for class purposes.

Students who elect this category must conduct all university business either in person with a photo ID card or from a remote location with an original notarized request. Such students' names will be published in the commencement program unless the students request exclusion in writing. Students in this category are eligible to use interactive web and other electronic systems, such as Patriot Web, for transactions (including registration) which are protected by a secured login.
Academic Assessment

All academic programs at Mason (including the University General Education program) have student learning outcomes that are assessed periodically. Student work in various courses may be used for such an assessment. Student anonymity is assured and grades will not be affected. At any time, students may contact the Office of Institutional Assessment at assessment@gmu.edu with questions, concerns, and comments about the use of academic work in assessment activities.

Students may be called on from time to time to participate in focus groups, complete questionnaires, or contribute in some other way to the ongoing assessment process. At any time, students may contact the Office of Institutional Assessment with concerns, comments, and recommendations about their educational experiences at Mason. Assessment is vital to the continuous improvement of the university, and student input forms an important part of the process.

To find out more about the learning outcomes and assessment activities of a specific program, whether curricular or extracurricular, go to assessment.gmu.edu.

Student Work, Intellectual Property

Generally, copyrightable and patentable works, including dissertations developed in connection with course work by students who are not Mason employees, are deemed to belong to the student. By policy, however, Mason does hold title to copyrightable software that implements a Mason patent. Mason may also claim copyright ownership of a work or ownership of a patentable invention when extraordinary use of university facilities, personnel, or resources is made in the development of the materials or invention, especially when unrelated to course work. Ownership and disposition of intellectual property developed by students while employed by the university, including undergraduates and graduate research and teaching assistants, is governed by university policies generally applicable to employees. Students with questions are encouraged to contact the Office of Technology Transfer, ott@gmu.edu or 703-993-8933.

Conduct within the University Community

Office of Student Conduct
Student Union I, Room 4100
Phone: 703-993-6209
Fax: 703-993-2893
Web: studentconduct.gmu.edu

Students enrolling in the university assume an obligation to conduct themselves in a manner compatible with the university's function as an educational institution. The Code of Virginia (Section 23-9.2:3) confers on the university the responsibility for maintaining order within the university and the right to exclude those who are disruptive.

Students are governed by the Student Code of Conduct.

The Office of Student Conduct holds administrative responsibility for supervising student conduct of Mason students and their guests. Questions regarding student conduct should be directed to the Office of Student Conduct, SUB I, Room 4100, 703-993-6209, studentconduct.gmu.edu.
Honor System and Code

Mason shares in the tradition of an honor system that has existed in Virginia since 1842. The code is an integral part of university life. On the application for admission, students sign a statement agreeing to conform to and uphold the Honor Code. Students are responsible, therefore, for understanding the code’s provisions. In the spirit of the code, a student’s word is a declaration of good faith acceptable as truth in all academic matters. Cheating and attempted cheating, plagiarism, lying, and stealing of academic work and related materials constitute Honor Code violations. To maintain an academic community according to these standards, students and faculty members must report all alleged violations to the Honor Committee. Any student who has knowledge of, but does not report, a violation may be accused of lying under the Honor Code.

The Honor Committee is independent of the student government and the university administration. It is composed of students, and it has the primary duty of espousing the values of the Honor Code. Its secondary function is to sit as a hearing committee on all alleged violations of the code.

At the beginning of each semester, faculty members have the responsibility of explaining to their classes their policy regarding the Honor Code. They must also explain the extent to which aid, if any, is permitted on academic work.

The complete Honor Code is as follows:

To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work.

Honor Committee

The Honor Committee is a group of Mason students selected to promote academic integrity as a core value for our university community. Members of the committee also serve on hearing panels established to investigate and resolve alleged violations of the code. Mason's School of Law has an Honor Committee that is independent from the rest of the university's Honor Committee.

Membership will be limited to 100 members who apply for membership. Undergraduate members must have no Honor Code violations, maintain a cumulative GPA of 2.66, be in good academic standing, and successfully complete the training and orientation program. Graduate members must meet all of the requirements above with the exception of maintaining a cumulative GPA of 3.00.

A chair and vice chair will be elected in April of each year by the members of the committee. The term of office will be one year. A faculty advisor, chosen by the vice president for university life, will provide administrative assistance for committee business.

Student Responsibilities
Students should request an explanation of any aspect of the professor’s policies regarding the Honor Code that they do not fully understand. They also have an obligation not only to follow the code themselves, but also to encourage respect among their fellow students for the provisions of the code. This includes an obligation to report violations by other students to the Honor Committee.

**Faculty Responsibilities**

Faculty members are responsible for maintaining the integrity of the learning and testing process. They should explain at the beginning of each semester what would be considered a violation of academic integrity in their courses. Special attention should be given to the subject of plagiarism.

**Procedures for Reporting Violations**

Suspected violations should be reported to the Honor Committee in a timely manner using the online form found at oia.gmu.edu. The Honor Committee will promptly notify the involved students in writing. Those students will meet with a representative of the Honor Committee to review the information and arrange for resolution of the matter.

**Hearing Panels**

When a student disputes an allegation, a five-member panel of Honor Committee members, will meet with both the student and the person(s) reporting the alleged offense. Each side will present information, and the panel will determine whether clear and convincing evidence of a violation has been presented. At least four of the five panel members must judge that the evidence proves responsibility for the offense. If the student is found responsible, a sanction or sanctions will be determined by majority vote of the panel.

**Counsel**

The hearing panel will have an administrative faculty member present during the hearing to offer assistance when requested by the chair of the panel. All other parties may have an advisor.

**Sanctions**

The hearing panel may impose oral and written reprimands and other such nonacademic sanctions as it deems proportionate to the offense. It can recommend sanctions to the course professor that involve reduced grades. Recommendations for nonacademic suspension and nonacademic dismissal are forwarded to the provost’s delegate. In determining sanctions, panel members should keep in mind the nonpunitive educational purpose of the Honor Code process.

**Appeals**

Appeals of honor committee decisions must be submitted in writing within seven business days of the hearing. Appeals can be granted only on the basis of new evidence, procedural irregularity, or other grounds of sufficient gravity to call into serious doubt the original hearing panel’s decision. The decision to accept or deny the appeal will be made by three Honor Committee members who have had no prior contact with the case. In the event that a faculty member does not elect to follow the Honor Committee’s recommended sanction, students may appeal the faculty member’s action to the Academic Appeals Committee, via the Provost’s Office. The decision of this committee is final.

**Amendments**
The Honor Committee, by majority vote, may approve proposed amendments to the Honor Code. The proposed amendments will be submitted to the student population at the next spring election, and they must be approved for implementation by a two-thirds majority of those voting.
Student Health Services

**Fairfax Campus:** SUB I, Suite 2300, 703-993-2831

**Prince William Campus:** Occoquan Building, Suite 229, 703-993-8374

**Arlington Campus:** Founders Hall, Suite B102, 703-993-4863

Web: shs.gmu.edu

Student Health Services provides high-quality health care to all currently enrolled students. There is no charge to be seen by one of our health care providers. There are minimal fees for lab work, medication and procedures. The staff includes physicians, nurse practitioners, registered nurses, medical assistants, and various levels of support personnel. Appointments are required for nonemergency services.

**Immunization Requirements**

Immunization policies are determined by legislation enacted by the Virginia General Assembly and recommendations from the Advisory Committee on Immunization Practice, the Centers for Disease Control and Prevention (CDC), and the American College Health Association (ACHA). **All students** born after December 31, 1956, are required to provide documented evidence that they have been immunized against certain communicable diseases.

The **required immunizations** are as follows:

- **MMR:** Two doses each of measles, mumps, rubella, after 1967 or the combination MMR (after 1971), or a laboratory report of a titer documenting positive immunity, to each of the diseases.
- **TD/Tdap:** Tetanus and diphtheria booster within the past 10 years. Students requiring a decennial booster should receive one dose of Tetanus/diphtheria/Acellular/Pertussis.
- **Meningococcal:** Students under the age of 21, are required to show proof of vaccination. Students between the ages of 16 and 21 should have documentation of one dose of Meningococcal Conjugate vaccine or sign the waiver. Student Health Services highly recommend students living on campus or participating in sports to receive this vaccine.
- **Hepatitis B:** Students are required to show proof of vaccination against hepatitis B disease, or they must sign a waiver stating that they have received and reviewed information on hepatitis B disease and the availability and effectiveness of the vaccine but have chosen not to be vaccinated.
- **Tuberculosis:** Tuberculosis (TB) screening is required for all students as defined by the CDC and ACHA. If TB screening is needed it must be completed in the United States, within the past 6 months.
- **Minor Consent:** If the student is under the age of 18 at the time classes begin a minor consent must be on file at Student Health Services. If a waiver for Hepatitis B or Meningococcal is signed by a minor a parental/legal representative signature is required as well.

**Completed Immunization Records must be submitted to the Immunization Office by October 1st for the Summer/Fall semester or March 1st for the Spring semester. Incomplete or late immunization records will be assessed a LATE FEE and a hold will be placed on your Patriot Web Account.** Records can be mailed to George Mason University, SUB I, Suite 2349, 4400 University Drive, MS 2D3, Fairfax, Virginia 22030. Immunization records can be brought to the Immunization office, SUB I, Room 2349 or be faxed to 703-993-4053. The immunization record is included as a tear-out form in the orientation booklets that are mailed to all new undergraduate and transfer students when their application for admission to the university has been approved. If you would like to receive vaccinations at Student Health Services, please call 703-993-2135 to schedule your immunization appointment. For vaccine prices and more information visit shs.gmu.edu/immunizations or call 703-993-2135. E-mail questions to immunize@gmu.edu. Immunization records will not be accepted by email.
General Policies

Return to: General Information

Below is a list of policies which the University community most commonly refers to.

All university policies are available at universitypolicy.gmu.edu.

George Mason University is committed to providing equal opportunity and an educational and work environment free from any discrimination on the basis of race, color, religion, national origin, sex, disability, veteran status, sexual orientation, age, pregnancy or marital status. It is the policy of the university to provide an academic and work environment free from sexual harassment. Please see the following policies for more information.

- 1201 - Non-Discrimination Policy
- 1202 - Sexual Harassment Policy
- 1203 - Non-Discrimination and Reasonable Accommodation on the Basis of Disability

The Responsible Use of Computing (RUC) Policy applies to all academic and operational departments and offices at all university locations owned or leased. The policies and procedures provided herein apply to all Mason faculty, staff, students, visitors and contractors.

- 1301 - Responsible Use of Computing

All faculty, staff, and students who park on property owned or operated by the university must display a valid permit or park in a parking deck and pay an hourly or daily rate.

- 1108 - Motor Vehicle Parking

Other Regulations

Other policies pertaining to safety and security:

- 1120 - Weapons on Campus
- 2208 - Workplace Violence

Annual Security Report

Mason’s 2012 Annual Security Report is available on the University Police web site. This report contains the previous three years' crime statistics and includes policies concerning campus security, such as sexual assault, stalking, and other matters that pertain to safety on campus. To view a copy of the report, go to www.gmu.edu/police/annualsecurity.htm. Paper copies of this report are available at any police facility.
Tuition and Fees

Return to: General Information

- General Guidelines
- Semester Tuition Charges and Related Fees

- Special Registration
- International Student Health Insurance
- Music Instruction
- In-State Tuition
- Domicile Change
- Tuition Surcharge: 125 Percent of Degree

Office of Student Accounts
4400 University Drive, MS 2E2
Fairfax, VA 22030
Phone: 703-993-2484
Fax: 703-993-2490
web: studentaccounts.gmu.edu

General Guidelines

- Students are responsible for maintaining a current mailing address in their student record on Patriot Web (patriotweb.gmu.edu), and for activating and checking their George Mason University e-mail accounts to receive official university communications.

- By registering for classes, students accept responsibility for the semester charges. Students are responsible for withdrawing from all classes that they do not intend to complete by the deadlines listed in the Academic Calendar. Students must confirm withdrawals and class drops, and full or partial liability may apply. George Mason University does not cancel classes for nonpayment.

- Refer to the Payment Schedule and the Academic Calendar on the Student Accounts Office web site for payment due dates and tuition penalties for dropping classes after the start of the semester. Classes that do not meet for the full semester have non-standard liability deadlines, which can be found on the part-of-term chart of the Academic Calendar.

- Payments are due in the Cashier's Office, Student Union Building I, Room 1501, on or before 4:30 p.m. on due dates, regardless of postmark if mailed. Check and credit card payments made through the Bill and Payment System must be completed by 10:30 p.m. to be considered in that day's business. Bills are mailed approximately thirty (30) days prior to the semester start. All subsequent bills are sent electronically. Bills are not mailed for individual class registration and schedule adjustments. Students must check Patriot Web for balance due, verify registration, and pay through the Bill and Payment System or at the Cashier's Office by the due date. Failure to receive a reminder bill confirming charges does not waive the requirement for payment when due.

- Students who have not completed the financial aid process must be prepared to pay for their courses by the tuition due date or a late payment fee will be charged. The amount of financial aid accepted and processed will be reflected in your account balance. If the amount of aid awarded is less than the charges, the difference must be paid by the tuition due date. Federal work-study awards cannot be deducted from your balance. Financial aid recipients must also notify their financial aid counselor if they drop courses below the minimum required credits for their financial aid award. Class registrations or schedule adjustments after financial aid has been disbursed may result in a balance due. Students are responsible for checking their balance after all schedule adjustments.
- The Family Educational Rights and Privacy Act of 1974 (FERPA) limits the release of student information to parents or other third parties without the student's written consent. Students may set up authorized users in the Bill and Payment System to meet this requirement. Authorized users will receive electronic bill notifications and financial activity access only.

- Out-of-state students with pending domicile requests are responsible for payment at the out-of-state rate. Students who are later determined to be in-state can request reimbursement for the difference in tuition rates.

- Non-returning students are responsible for withdrawing from their courses for the semester and ensuring they do not have an outstanding balance on their account. Any documentation or intent made to university departments that you are not returning does not withdraw you from the registered courses.

- Students enrolling in Mason off-campus courses are assessed tuition and fees at the same rates as those for on-campus courses.

- Some Mason degree programs include academic credits that students must earn at other academic institutions. Students enrolling for such credits assume all financial responsibility with the other institutions.

**Semester Tuition Charges and Related Fees**

Approved tuition rates and fees are available June 1. For more information, call the Student Accounts Office at 703-993-2484 or go to studentaccounts.gmu.edu. Students are charged tuition rates for registered courses according to their academic level and program; graduate rates vary by academic program.

**New Student Fees:** All new degree seeking students pay a New Student Fee. The fee is a mandatory, nonrefundable, one-time charge that is assessed when a new student registers for classes, regardless of orientation attendance or future enrollment status. The current fee amount is listed on the Student Accounts Office web site: studentaccounts.gmu.edu.

**Educational Resource Fee:** All students are charged a mandatory per-semester fee, $100 for more than seven credits or more, and $60 for less than seven credits, which allows Mason to maintain essential support services for both full and part-time students.

**Please Note:** Many courses require additional course fees and/or lab fees. Refer to the Student Accounts Office web site for up to date course fee information: studentaccounts.gmu.edu/tuition.

**Payment Information**

**Payment Deadline**

Payment is due the first day of the semester. Payments received at the Cashier's Office by 4:30 p.m. Monday to Friday will be considered in that day's business. Check and credit card payments made on Patriot Web must be completed by 10:30 p.m. to be considered in that day's business. To confirm receipt of payment and balance due on account, go to patriotweb.gmu.edu.

**Methods of Payment**

**Cash:** In person at Cashier's window only, Cashier's Office, SUB I, Room 1501

**Check:** Online, in person, mail or drop box. Make check payable to George Mason University, with student ID number written on front. Third-party checks are not accepted. Checks must be payable in U.S. dollars. A $50 return check fee will be charged for checks returned unpaid by the bank for any reason.
Credit Card: Online only. MasterCard, American Express or Discover Card. There is a 2.75 percent convenience fee for credit card payments, which is nonrefundable.

Delivery Methods

Online: Bill and Payment system, on-line checks or credit cards

Window: Cashier's Office, SUB I, Room 1501, Monday through Friday 9 a.m. to 4:30 p.m.

Drop Box (no cash payments): Adjacent to Cashier's Office, SUB I, hallway outside Room 1501

U.S. Mail: George Mason University, Cashier's Office, 4400 University Drive, MS 2E1, Fairfax, VA 22030. Allow 10 business days for delivery by the due date, and postmarks are not considered a receipt of payment.

Semester Payment Plan

Mason payment plans are available on-line only, and the following plans are available for students who need to budget their accounts. All payment plans require a $25 contract fee, which is nonrefundable. Please note: The preferred payment method for payment plans is the on-line/electronic check option, which does not charge a convenience fee.

The Summer term offers a two payment plan only. The plan begins with a down payment of 50% and the $25 contract fee, and defers the second payment until mid-June.

Deferred tuition options in Fall and Spring are available through two and four payment plans. Important deadlines must be followed to take advantage of the four payment plan, which allows charges to be paid in four installments - beginning in July for Fall and December for Spring. The two payment plan splits the balance into two payments of 50% each, and begins any time prior to the due date for the semester. Both plans require a down payment, which is the first payment plus the $25 contract fee. For more information, call the Student Accounts Office at 703-993-2484 or go to studentaccounts.gmu.edu.

Failure to pay the deferred balance by the due date will result in a financial hold, a late fee of 10% (up to $125), collection activity, and may prevent future eligibility of the payment plan.

Third-Party Billing Authorizations

Students using a third-party billing authorization will be charged a $25 processing fee. Students may receive an individual billing statement. Students must provide the third-party authorization or government training voucher to the Student Accounts Office, or fax it to 703-993-2460 before the student's individual due date, which is based on their registration date. Check "Important Dates" on the web site for the deadline to submit third party payment authorizations. Students are responsible for any payment default by the sponsoring agency. Call 703-993-2484 for a copy of third-party billing requirements, or check the web at studentaccounts.gmu.edu/thirdparty.

Penalties

A late registration fee of $125 is automatically assessed to students who add their first class on the first day of the semester or after. It does not apply to students already enrolled prior to the start of the semester who make schedule adjustments. Wait-listed classes are not considered class registration. Late registration fees are nonrefundable and will not be removed, regardless of enrollment status.

Any class registration after the deadline to add classes, if approved by the academic department, is subject to a late registration fee of up to $125.

Past due balances are subject to a late payment fee that is 10 percent of the balance due, up to $125.
Registrations will not be canceled for nonpayment. Students must withdraw from all classes that they do not plan to complete by the payment due date to avoid the late payment fee on those classes.

**Returned Checks**

Per Commonwealth of Virginia statute, the return check fee is $50. Repeat return checks may result in the restriction of this payment option for future semesters. Checks used to pay past due balances and/or to release holds for registration that are later returned unpaid by a financial institution may result in the immediate suspension of academic services. Returned checks that create a balance will be sent a written or electronic notice, and a financial hold will be placed on the account until the balance is paid in full. Certified fund payments such as cash or cashier's check are required for immediate hold release. Waiting periods will apply for other payment methods.

**Financial Good Standing; No Holds on Record**

Financial good standing and a university record clear of holds are required for students to receive academic services. Services, including but not limited to transcript issuance, diploma release, and class registration (add, drop, withdrawal, etc.) will not be provided to students with a financial balance due or a hold of any kind on their record. Holds are based on outstanding obligations and may be financial. Examples include unpaid telephone charges, fines owed to the Mason or Washington Research Library Consortium libraries, parking and other administrative holds.

Students in noncompliance with payment deadlines as of the end of the semester will be required to submit a financial guarantee or prepayment prior to future registration. The return of the prepayment by a financial institution will result in the immediate suspension of academic services.

**Collections**

Failure to meet financial obligations to the university will result in other collection procedures, which include account referral to credit reporting bureaus, private collection agencies, the Commonwealth of Virginia Department of Taxation, and the Office of the Attorney General. Past due accounts are subject to garnishments, liens, and judgments and the withholding of money from tax refunds. In addition to late fees and interest, delinquent accounts will be assessed additional collection costs equal to thirty percent of the past due balance, reasonable attorney fees, and other administrative costs.

**Course Withdrawals**

Students are required to pay full or partial tuition for courses they withdraw from after the last day to drop with full tuition refund, including withdrawals to change from one section of a course to another section. For more information, see the tuition liability dates in the Academic Calendar.

**Refund Policies**

**Refund for Credit Balances**

In cases where tuition charges are less than the payments on the student's account, a refund of the overpayment may be requested. To initiate the refund process, a Refund Request form is completed and submitted to the Student Accounts Office. Refunds will be processed according to the last method of payment received:

- Cash payments are sent in the form of a check, without a waiting period.
- Payments made by check require a seven day waiting period. The waiting period may be waived if proof of check clearance is presented, such as a canceled check copy or bank statement showing that the check cleared the account.
- Credit card payments are credited back to the credit card that was most recently used for payment.
Refund checks are made payable to the student and are mailed to the address listed in the student record. Check pick up in person is not available due to negotiable item security and the large number of checks processed.

**Direct Deposit Refunds**

The option to have check refunds sent electronically is available by submitting a Direct Deposit Authorization form, which can be found on the Student Accounts Office web site. A checking account is necessary for this refund option. Direct deposit refunds are not available for Parent PLUS loans.

**Financial Aid Refunds**

Credit balances from financial aid awards will automatically generate a refund check, which will be mailed to the address on file with the university or sent via direct deposit if authorized by the student. A refund request form is not needed for financial aid disbursement refunds.

**Special Registration**

Students not enrolled in a credit-bearing course, but whose academic department certifies that they are pursuing an activity related to Mason matriculation, can retain active status by having the Office of the University Registrar process a registration for the Special Registration course (ZREG 200). A $45 fee is charged for this course, and students must pay this fee before the University Registrar's office will process the registration. Written approval of the student's advisor or instructor and the academic department chair is required. This special registration allows students to retain their library and computer privileges, receive a student ID, and buy a parking decal. Students must have active status to apply for or receive a degree, take an exam, or participate in cooperative education. Students pursuing a master's or doctoral degree must maintain continuous enrollment. For more information, see the AP 6. Graduate Policies section.

**International Student Health Insurance**

Health insurance is required for all F-1 and J-1 visa holders, and nonpayment may result in class cancellation. The health insurance fee is deducted from all payments received by the university before funds are applied to tuition or other charges. For more information, see the Admission of International Students section.

**Music Instruction**

Private music instruction is arranged through the School of Music on a fee-paying basis. Refer to the Student Accounts Office web site for up to date fee information. This fee is non-refundable.

**In-State Tuition**

To be eligible for in-state tuition, a student must have been domiciled in Virginia for at least one full year before the semester for which in-state tuition is sought, or qualify through statutory exception. A person establishes domicile by demonstrating physical presence and the intention to remain indefinitely in accordance with the Code of Virginia and the domicile guidelines. Copies of the guidelines and other applicable state laws are available from the Office of the University Registrar or at registrar.gmu.edu/students/domicile/.

**Domicile Change**
Domicile classification is determined at the time of a student's admission. To be considered for in-state status when applying to the university, students must file an application for in-state rates.

New and currently enrolled students classified as out-of-state who believe they qualify for in-state tuition after being admitted must file a domicile appeal form with the Office of the University Registrar no later than the first day of classes for the semester in which in-state rates are sought. Appeal forms are available from the Office of the University Registrar and at registrar.gmu.edu/students/domicile/.

Students whose appeals are denied have the right to seek further review of their status by the Office of the University Registrar or the Third Level Domicile Appeals Committee. These requests must be filed in the manner articulated in denial letters. Forms are available from the Office of the University Registrar and the web site. In addition, students should be aware that university procedures for appealing domicile decisions have been established pursuant to state law and are subject to change. Out-of-state students with an appeal pending at the time of tuition billing are responsible for payment of tuition at that rate. Students subsequently determined to be in-state may request reimbursement of overpayment from the Office of Student Accounts. Also, any student who fraudulently or knowingly provides false information in an attempt to evade payment of out-of-state tuition will be charged out-of-state tuition for each term or semester attended and may be subject to dismissal from the institution.

For more information regarding in-state eligibility, contact the Domicile Appeals Administration in the Office of the University Registrar in Student Union Building I, Suite 2101; phone: 703-993-2464; e-mail:domicile@gmu.edu.

**Tuition Surcharge: 125 Percent of Degree**

Undergraduate students who have established Virginia domicile and eligibility for in-state tuition will be subject to a surcharge if they exceed 125 percent of the credits required to complete a degree. The surcharge will be determined by the State Council for Higher Education in Virginia.

The following courses and credit hours shall be excluded in calculating the 125 percent credit threshold: remedial courses; transfer credits from another college or university that do not meet degree requirements for general education courses or the student's chosen program of study; advanced placement or international baccalaureate credits that were obtained while in high school or another secondary school program; and dual enrollment, college-level credits obtained by the student prior to receiving a high school diploma.
Expenses

Housing

Office of Housing and Residence Life
Ground floor of Potomac Heights
Phone: 703-993-2720
Web: housing.gmu.edu

The university offers a variety of housing options to meet the diverse needs of students living on campus. Upper-class students may choose from suites, suites with kitchens, and townhouses. Most freshmen live in traditional-style residence hall rooms that accommodate two, three, and four students. Room rates are subject to approval on an annual basis by the Board of Visitors. Rates for the 2013–14 academic year should be available in May 2013. Please refer to the Housing and Residence Life web site for rate information. All students in housing must provide a prepayment, which gets applied to the fall semester rent. Housing assignments, including single rooms, are made on a priority and space-available basis. The web site provides extensive information about housing programs and services and includes floor plans for most student rooms.

Students living on campus are required to sign an academic year contract. Releases from the contract are generally granted only in cases of hardship and involve a financial penalty. For more information, contact the Office of Housing and Residence Life.

Living Learning Communities (LLCs) are collaborative partnerships between academic departments, individual Mason faculty, housing and residence life staff, and the division of University Life. For more information, please visit housing.gmu.edu/llc/

Mason Dining

Mason Dining
Southside Dining Hall, First Floor
Phone: 703-993-3300
Web:dining.gmu.edu

Mason Dining is proud to serve the Mason community with over 36 restaurants, kiosks and carts among the Arlington, Fairfax, and Prince William campuses. Southside, located on the Fairfax campus, offers extensive menus with the highest quality ingredients and seasonal produce. Mason Dining is committed to nutrition, wellness, and sustainability.

Meal Plans and Mason Money

Meal Plan & Mason Money Office
Student Union I, Room 1203
Phone: 703-993-2870
Web:mealplans.gmu.edu or masonmoney.gmu.edu

Both resident meal plans and patriot meal plans are available for students to purchase. These plans allow for tax-exempt dining and are billed to the student account. Most students living on campus are required to participate in the resident meal plan program. Meal plan policies and prices are available on the web site.

Mason Money can be accessed with the Mason ID. It's accepted at various venues on campus and also with participating merchants off campus. Funds can be deposited online (masonmoneyonline.gmu.edu), at any of the 10 Mason Money Stations located among three campuses, or the Mason Money office.
Parking Services

Fairfax Campus, Sandy Creek Parking Office
Phone: 703-993-2710

Arlington Campus, 219 Founders Hall
Phone: 703-993-8146

Prince William Campus, 112 Occoquan Building Office
Phone: 703-993-4808

Web: parking.gmu.edu

Students who park their vehicles on university property must register them with Parking Services and pay a fee for a parking permit. Permits are available on an annual, semester, or summer basis. For permit sales, fine payments, special requests, or problems, go to any Parking Services Office. Some services are available on-line at parking.gmu.edu. The Fairfax Campus Sandy Creek Parking Office hours are 8:30 a.m. to 7 p.m. Monday through Thursday and 8:30 a.m. to 5 p.m. on Friday. For more information, go to parking.gmu.edu for current information and rates.
Financial Aid

Return to: General Information

- Certificate Programs that Qualify for Financial Aid

Office of Student Financial Aid
Student Union Building (SUB) I, First Floor
Phone: 703-993-2353
Fax: 703-993-2350
E-mail: finaid@gmu.edu
Web: financialaid.gmu.edu

The Office of Student Financial Aid provides a variety of services to help students finance their education; including, financial aid advising, exploring funding resources, and financial assistance. Student financial aid awards may consist of grants, loans, and work-study. Awards are based primarily on financial need, although there are some alternative financial aid sources available for those who may not qualify for need-based financial assistance.

The Office has a comprehensive listing of various scholarship opportunities for students to research on the Office of Student Financial Aid's website. Students are encouraged to review the scholarship information often due to the listings being updated continuously and apply early in order to meet deadlines.

The Office is open 9:00 a.m. to 5:00 p.m., Monday through Friday. Financial Aid Counselors are assigned to students alphabetically based on students' last names and are available daily by appointment. Student can view the list of Counselors on the Office's website.

Each year, to apply for financial aid, both new and currently enrolled students must complete a Free Application for Federal Student Aid (FAFSA). George Mason University's Federal Title IV school code for the FAFSA is 003749. Priority consideration for all sources of financial aid is given to those students whose financial aid applications are on file with the Office of Student Financial Aid by March 1. To meet this priority filing date, students should file the FAFSA as soon as possible after January 1. The FAFSA is filed on-line at www.fafsa.gov.

Financial aid for summer is generally limited to students who have remaining Federal Pell Grant or Federal loan eligibility. Contact the Office of Student Financial Aid for specifics regarding eligibility.

Financial Aid Programs

The university administers the following federal, state, and other aid programs:

- Federal programs: These include the Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work-Study (FWS), Federal Perkins Loan Program, Federal Subsidized Stafford Loans, Federal Unsubsidized Stafford Loans, Federal PLUS Loans for parents of dependent students (DPLUS) and Federal Grad PLUS Loans for Graduate students (DGPLUS). For more information, refer to the Student Guide for Federal Financial Aid, which is available in the Office of Student Financial Aid, or go to the Student Financial Aid home page at financialaid.gmu.edu.

- State financial aid programs for undergraduate Virginia residents: Eligibility for all state programs is determined based on the student's FAFSA. State grant funds are limited, so adherence to the March 1 priority filing date is critical.
  - Virginia Commonwealth Award: This program is open to undergraduate students who have demonstrated financial need, are enrolled at least half time, and are domiciliary residents of Virginia.
- **Virginia Guaranteed Assistance Program (VGAP):** This program is a component of the Virginia Commonwealth Award Program that is open to students who demonstrated academic achievement in high school. VGAP awards are renewable for up to four years.

- **Graduate student assistance:** Assistantships, fellowships, and scholarships exclusive of the federal financial aid programs identified earlier are administered by the individual graduate programs. Students interested in pursuing graduate assistantships, fellowships, or scholarships should contact their graduate program.

All financial aid recipients are responsible for becoming familiar and complying with applicable federal and state regulations, and university policies.

All students receiving financial aid must be enrolled in an eligible degree or certificate program; maintain satisfactory academic progress as defined by the Office of Student Financial Aid, in accordance with federal guidelines (see below); and be a U.S. citizen or eligible non-citizen as defined by the U.S. Department of Education.

**Satisfactory Academic Progress (SAP) Standards**

Federal legislation governing the administration of federal programs requires colleges and universities to define and enforce standards of academic progress for students receiving or applying for financial aid. To comply with this legislation, the Office of Student Financial Aid has established a formal satisfactory academic progress policy. For detailed information, go to the Student Financial Aid home page at financialaid.gmu.edu or contact the Office of Student Financial Aid.

**Return of Title IV Funds**

The Office of Student Financial Aid is required by federal law to re-calculate federal financial aid eligibility for students who completely withdraw from all classes, drop out, are dismissed, or take a leave of absence prior to completing 60% of a payment period or term. According to the regulations, the amount of Federal Title IV awarded to a student must be recalculated in these situations and any portion of the financial aid received that is considered to be “unearned” must be returned to the Title IV Program(s) from which it was received. **If you are considering dropping or withdrawing from all your courses, please contact your Financial Aid Counselor immediately regarding possible adjustments to your financial aid.**

**Emergency Loan Programs**

George Mason University has established emergency loans in memory of the following individuals:

Doug Beaman, Mary E. Ferguson, Lisa Kenaga and the Gerson Trust.

These emergency loans are designed for enrolled students that encounter unexpected emergencies and are not meant to pay for tuition and fees. These are short-term, interest free loans and students may borrow up to $1000. Repayment is due in 90 days. Applications may be obtained from the Office of Student Financial Aid.

**Certificate Programs that Qualify for Financial Aid**

For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit the disclosure information page at: http://irr.gmu.edu/new/N_IRRHome/HEOA/Gainful.cfm

The qualifying certificate programs include:

- Accounting Undergraduate Certificate
- Advanced Biomedical Sciences Graduate Certificate
- College Teaching Graduate Certificate
- Early Childhood Education PK-3 (Licensure) Graduate Certificate
- Early Childhood Special Education (Licensure) Graduate Certificate
• Environmental Management Graduate Certificate
• Forensics Graduate Certificate
• Geospatial Intelligence Graduate Certificate
• Higher Education Administration Graduate Certificate
• Nutrition Graduate Certificate
• Secondary Education Licensure Graduate Certificate
• Students with Disabilities who Access the Adapted Curriculum Graduate Certificate
• Students with Disabilities who Access the General Curriculum Graduate Certificate
• TFA - Special Education (Teach for America) Graduate Certificate
• Teaching English as a Second Language Graduate Certificate

This list reflects appointments as of March 2013.

Board of Visitors

C. Daniel Clemente, Rector, BS, Fordham University; JD, Georgetown University Law Center; Vienna, Va.
Nancy Mitchell Pfotenhauer, Vice Rector, BA, University of Georgia; MA, George Mason University; Oakton, Va.
Edward J. Newberry, Secretary, BA, BS, George Mason University; JD, Georgetown University; McLean, Va.
Karen Alcalde, BS, George Mason University; JD, George Mason University School of Law; Arlington, Va.
B.G. Beck, BS, Arkansas State University; MS, University of Southern California; Fairfax Station, Va.
Reginald J. Brown, BA, Yale University; JD, Harvard School of Law; Alexandria, Va.
Kathleen delLaski, BA, Duke University; MA, Harvard University; Reston, Va.
Kimberly O. Dennis, BA, Bowdoin College; McLean, Va.
John Jacquemin, BA, Pennsylvania State University; MBA, Dartmouth College; McLean, Va.
Anthony R. Jimenez, BS, St. Mary's University; MA, Webster University; MS, Florida Institute of Technology; Great Falls, Va.
Carol Merchant Kirby, BA, University of West Florida; Washington, DC.
Mark F. McGettrick, BS, George Mason University; Richmond, Va.
Stuart Mendelsohn, BS, MS, Florida Institute of Technology; JD, George Mason University School of Law; Great Falls, Va.
Steven P. Mullins, BA, George Mason University; Great Falls, Va.
Robert Pence, BA, University of Maryland; MA, American University; MA, M Phil, Yale; JD, American University; Washington, DC.
June Tangney, (faculty representative), MS, PhD, UCLA; McLean, Va.
Steven Harris-Scott, (student representative), graduate student, History and Art History in the College of Humanities and Social Sciences; Fredericksburg, Va.
Alexander Williams, (student representative), undergraduate student, Government and History in the College of Humanities and Social Sciences; Great Falls, Va.

Administration

University President: Ángel Cabrera, PhD
Chief of Staff: Frank Neville, BA
Provost and Executive Vice President for Academic Affairs: Peter N. Stearns, PhD

Vice Presidents

Senior Vice President: Jennifer (J.J.) Wagner Davis, MS
Vice President for Communications and Marketing: Renell M. Wynn, MBA
Vice President for Compliance, Diversity and Ethics: Corey Jackson, JD
Vice President for Facilities: Thomas G. Calhoun, MS
Vice President for Government and Community Relations: Paul J. Liberty, BA
Vice President for Information Technology: Joy R. Hughes, PhD
Interim Co-manager, University Development and Alumni Affairs: Laura Gleason, BA
Deans and Directors

Dean, School for Conflict Analysis and Resolution: Andrea Bartoli, PhD
Dean, College of Education and Human Development: Mark Ginsberg, PhD
Dean, College of Health and Human Services: Thomas Prohaska, PhD
Dean, Honors College: Zofia Burr, PhD
Dean, College of Humanities and Social Sciences: Jack Censer, PhD
Incoming Dean, College of Humanities and Social Sciences: Deborah Boehm-Davis, PhD
Director, Krasnow Institute for Advanced Study: James Olds, PhD
Dean, School of Law: Daniel Polsby, JD
Dean, School of Management: Jorge Haddock, PhD
Dean, School of Public Policy: Edward Rhodes, PhD
Dean, College of Science: Vikas Chandhoke, PhD
Dean, College of Visual and Performing Arts: William F. Reeder, MM
Dean, The Volgenau School of Engineering: Kenneth S. Ball, PhD

Office of the Provost

Vice Provost for Academic Affairs: Michelle Marks, PhD
Vice President for Enrollment Management: Wayne Sigler, EdD
Vice President for Global and International Strategies: Anne Schiller, PhD
Vice President for Research and Economic Development (Interim): Matthew T. Zingraff, PhD
Vice President for University Life: Rose Pascarell, MA
Associate Provost for Distance Education: James Goodlett McDaniel, EdD
Associate Provost for Enrollment Planning and Administration: Renate Guilford, MA
Associate Provost for Faculty Development and Director, Center for Teaching and Faculty Excellence: Kimberly Eby, PhD
Associate Provost for Graduate Education: VACANT
Associate Provost for Institutional Effectiveness: Karen Gentemann, PhD
Associate Provost for Institutional Research and Reporting: Kris Smith, PhD
Associate Provost for International Programs and Director, Center for Global Education: Yehuda Lukacs, PhD
Associate Provost for Undergraduate Education: Janette Kenner Muir, PhD
Associate Vice President for Research Operations: Mike Laskofski, MBA
Assistant Provost for Academic Affairs: Claudia Rector, PhD
Assistant Vice President, Regional Campuses: Kathleen Johnson, MBA
Assistant Vice President and Dean of Students: Pam Patterson, MS
Assistant Vice President, University Life: Pat Carretta, MA
Assistant Vice President, University Life: Jana Hurley, MA

Instructional and Administrative Faculty 2013 - 14

The faculty list reflects appointments as of March 2013.

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

Abdalla, Wagida, Physician and Executive Director, Student Health Services. MD 1972, Alexandria University, Egypt; Diplomate of the American Board of Pediatrics, 1982.

Abramson, Alan J., Professor, Department of Public and International Affairs. BA 1976, Wesleyan University; MA 1977, MPhil 1979, PhD 1990, Yale University.

Acs, Zoltan J., University Professor of Public Policy. Director, Center for Entrepreneurship and Public Policy. BA 1972, Cleveland State University; MA 1974, PhD 1980, The New School.

Addleson, Mark S., Associate Professor, School of Public Policy. BA 1972, 1973, Rhodes University; MA 1980, University of Natal, Pietermaritzburg; PhD 1992, University of Witwatersrand.

Agnarsson, Geir, Associate Professor, Mathematical Sciences. BS 1990, University of Iceland; PhD 1996, University of California, Berkeley.

Agouris, Peggy, Chair and Professor of Geography and Geoinformation Systems. Associate Director, Center for Earth Observing and Space Research. Dipl Eng 1986, National Technical University of Athens, Greece; MS 1988, PhD 1992, Ohio State University.

Agrawal, Nitin, Assistant Professor, Bioengineering. BE 1999, Regional Engineering College, Durgapur, India; PhD 2006, Texas A&M University.

Aguirre, A. Alonso, Associate Professor, Environmental Science and Policy. Executive Director Smithsonian-Mason School of Conservation. PhD 1990, Colorado State University.

Ahn, Changwoo, Associate Professor, Environmental Science and Policy. BS 1992, MS 1996, Seoul National University; PhD 2001, Ohio State University.

Aidoo, Abena, Assistant Professor, Tourism and Events Management, School of Recreation, Health, and Tourism. BA 1997, University of Ghana; MHRD 2002, Clemson University; PhD 2010, University of Delaware.

Albanese, Denise, Professor, English and Cultural Studies. BA 1978, New York University; PhD 1987, Stanford University.
Albanese, Massimiliano, Assistant Professor, Applied Information Technology. BS, MS 2002, Laurea; PhD 2005, University of Naples “Federico II”.

Aldrich, Margaret (Peggy), Associate University Registrar for Distributed Campuses. BS 1970, University of Vermont; MEd 1996, George Mason University.

Allbeck, Jan M., Assistant Professor, Computer Science. BS 1995, Bloomsburg University; MS 1997, PhD 2009, University of Pennsylvania.

Allen, Melissa, Core Faculty Member, English Language Institute. BA 1975, MA 1979, San Francisco State University.

Allen, Pamela A., Director, Office of Academic Integrity. BS 1972, University of Illinois; MA 1988, Hunter College, City University of New York.

Allgood, Kathleen T., Associate Dean, Honors College. Professor, Mathematical Sciences. BA 1970, George Washington University; MS 1974, PhD 1979, University of Maryland.

Allnutt, Jeremy E., Professor, Electrical and Computer Engineering. BS 1966, PhD 1970, Salford University.

Almond, Sonya, Term Instructor, Nursing. BSN 2001, Norfolk State University; MSN 2006, George Mason University.

Alvis, Joe, Senior Assistant University Registrar for Certification. BS 1970, MS 1971, Marshall University; MA 1977, Webster College.

Ambegaonkar, Jatin, Associate Professor, Athletic Training, School of Recreation, Health and Tourism. BS 1998, T. N. Medical College, India; MS 2003, Springfield College; PhD 2006, University of North Carolina, Greensboro.

Amirch, Amal, Associate Professor, English. BA 1983, Birzeit University, Palestine; MA 1987, PhD 1997, Boston University.

Ammann, Paul E., Associate Professor, Computer Science. AB 1983, Dartmouth College; MS 1985, PhD 1988, University of Virginia.

Anacker, Katrin B., Assistant Professor, School of Public Policy. MA 1999, MCRP 1999, PhD 2006, Ohio State University.

Anderson, Daniel M., Professor, Mathematical Sciences. BA 1989, St. Olaf College; PhD 1993, Northwestern University.

Anderson, David S., Professor of Education, Graduate School of Education. BS 1971, Duke University; MA 1973, Ohio State University; PhD 1983, Virginia Polytechnic Institute and State University.

Anderson, Dawn, Associate University Registrar for Operations. BBA 1994, Marymount University.

Anderson, Heather, Academic Affairs Coordinator, Honors College. BA 2000, Portland State University; BFA 2004, University of Nevada - Reno; MFA 2007, University of Idaho.

Anderson, Mike, Instructor, Finance. BS 2001, California Polytechnic State University; MS 2003, City University of New York, Baruch College.

Angner, Erik, Associate Professor, Philosophy. BA 1995, MA 1997, Uppsala University; PhD 2004 University of Pittsburgh.

Annetta, Leonard, Associate Professor, Education, Graduate School of Education. BS 1994, MA 1997, Salisbury University; PhD 2003, University of Missouri-St. Louis.
Antil, Harbir, Assistant Professor, Mathematical Sciences. BS 2004, St. Stephen’s College; MS 2006, PhD 2009, University of Houston.

Appleton, Betsy, Electronic Resources Librarian. BA 2005, Gustavus Adolphus College; MLS 2007, University of North Carolina, Chapel Hill.

Araujo, Robyn P., Research Assistant Professor, Center for Applied Proteomics, Molecular Medicine. BEng 1997, University of Southern Queensland; PhD 2003, Queensland University of Technology, Australia.

Arciszewski, Tomasz, Professor, Civil, Environmental, and Infrastructure Engineering. BS 1970, MS 1970, PhD 1975, Warsaw University of Technology.

Arroyo, Nenette M., Administration and Communications Coordinator, History of Decorative Arts. BA 1983, University of the Philippines; MS 1988, City University of New York; MA 2008, Parsons School of Design.

Ascoli, Giorgio A., University Professor, Department of Molecular Neuroscience. Director, Center for Neural Informatics, Structures, and Plasticity. BS 1991, Scuola Normale Superiore, Italy; MS 1993, Pisa University, Italy; PhD 1996, Scuola Normale Superiore.

Asen, Sheryl, Assistant Professor, Education, Graduate School of Education. BS 1974, State University of New York; MS 1977, University of South Carolina; PhD 1997, George Mason University.

Ashcraft, Thomas D., Associate Professor, Art and Visual Technology. BA 1978, University of South Florida; MFA 1982, Indiana University.

Atkinson, Jennifer H., Associate Professor, English. BA 1978, Wesleyan University; MFA 1984, MA 1985, University of Iowa.

Atwater, Christopher, Assistant Professor, Sport Management, School of Recreation, Health, and Tourism. BA 1996, Skidmore College; MS 2006, PhD 2010, Virginia Commonwealth University.

Auerswald, Philip E., Associate Professor, School of Public Policy. BA 1988, Yale University; MA 1995, PhD 1999, University of Washington.

Auffret, Jean-Pierre, Director, MS Technology Management and MS Management of Secure Information Systems. BS 1979, Duke University; MBA 1982, University of Virginia; PhD 1999, American University.

Austin, Clayton, Associate Professor, Theater. BA 1973, Brandeis University; MFA 1986, Yale School of Drama.

Avruch, Kevin Andrew, Henry Hart Rice Professor of Conflict Resolution and Anthropology, School for Conflict Analysis and Resolution. BA 1972, University of Chicago; MA 1973, PhD 1978, University of California, San Diego.

Axtell, Robert, Associate Professor and Chair, Department of Computational Social Science, Krasnow Institute for Advanced Study. BS 1983, University of Detroit; PhD 1992, Carnegie Mellon University.

Aydin, Hakan, Associate Professor, Computer Science. BS 1991, MS 1994, Istanbul Technical University; PhD 2001, University of Pittsburgh.

Azam Salahuddin, Syed, Director of Fiscal Services and Human Resources, School of Public Policy; BS 1996, Indiana University; MBA 2003, Vanderbilt University.

B

Baghi, Heibatollah, Associate Professor, Global and Community Health. BA 1974, University of Isfahan; MS 1976, PhD 1980, Iowa State University; PhD 1988, Florida State University.

Bailey, Charles, Distinguished Professor, Biology. Executive Director, National Center for Biodefense and Infectious Diseases. BS 1965, MS 1966, PhD 1968, Oklahoma State University.
Bailey, Pamela, Instructor, Graduate School of Education. BS 1994, West Virginia State College; MA 2000, University of Phoenix.

Baily, Supriya, Assistant Professor, Education, Graduate School of Education. BA 1995, University of Nevada, Reno; MA 1997, George Washington University; PhD 2008, George Mason University.

Baker, Ann, Senior Associate Dean and Professor, School of Public Policy. BS 1966, College of Charleston; MPA 1975, University of Tennessee; PhD 1995, Case Western Reserve University.

Baker, Pamela, Associate Professor, Education, Graduate School of Education. BS 1984, MEd 1987, College of William and Mary; EdD 2002, Bowling Green State University.

Baker, Robert, Associate Professor, Sport Management, School of Recreation, Health, and Tourism. BS 1979, MS 1985, Pennsylvania State University; EdS 1986, EdD 1995, College of William and Mary.

Bakhash, Shaul, Robinson Professor of History. BA 1959, MA 1968, Harvard University; PhD 1972, Oxford University.

Balakerskaia, Anna, Term Professor of Music. MM 1969, DMA 1974, St. Petersburg State Conservatory, Russia.

Baldwin, Caryll L., Associate Professor, Psychology. BA 1987, University of Nebraska, Lincoln; MA 1994, PhD 1997 University of South Dakota.

Balint, Peter John, Associate Professor, Environmental Policy and Government and Politics. BA 1971, Haverford College; MA 1972, State University of New York, Albany; MS 1998, PhD 2000, University of Maryland.

Ball, Kenneth, Dean, Volgenau School of Engineering. BS 1982, Lehigh University; MSME 1984, PhD 1987, Drexel University; PE 1992 Texas.

Bannan-Ritland, Brenda, Associate Professor, Education, Graduate School of Education. BS 1986, Millersville University; MS 1991, Bloomsburg University; PhD 1995, Pennsylvania State University.

Banville, Dominique, Associate Professor, Physical Education, School of Recreation, Health and Tourism. BPE 1990, MS 1994, PhD 1998, Laval University, Canada.

Baranova, Anna, Associate Professor, Systems Biology. Director, Center of Chronic Metabolic Diseases. MS 1995, PhD 1998, Moscow State University; DSci 2004, Vavilov Institute of General Genetics, Russian Academy of Sciences.

Barcher, Peter, Associate Dean, College of Education and Human Development. BA 1968, MA 1972, PhD 1973, Syracuse University.

Barnes, Steven, Associate Professor, History and Art History. Director of the Eurasian Studies Program. BA 1993, Harvard University; MA 1997, PhD 2003, Stanford University.

Barnhart, Melinda, Executive Director, Finance and Administration, Volgenau School of Engineering. BA 1973, Miami University; MEd 1992, George Mason University.

Barreto, Ernest, Associate Professor, Physics and Astronomy. BS 1990, University of Chicago; MS 1995, PhD 1996, University of Maryland.
Bartoli, Andrea, Dean, School for Conflict Analysis and Resolution. Professor of Conflict Analysis and Resolution. Laurea 1980, University of Rome; Dottorato di Ricerca 1994, University of Milan.

Battaglia, Marjorie M., Assistant Term Professor, Psychology. BS, D'Youville College; MBA, Marymount University; PhD 2002, Virginia Polytechnic Institute and State University.

Bauer, Colleen, Associate University Registrar. BS 1982, Indiana State University.

Bauer, Scott, Associate Professor, Education, Graduate School of Education. BS 1981, MS 1983, PhD 1996, Cornell University.

Baum, Evan S., Director, Strategic Initiatives, University Life. BA 2003, University of Richmond; MA 2005, University of Maryland, College Park.

Baylor, David M., Operations Director, Hylton Performing Arts Center. BA 1989, George Mason University.

Beach, Sheryl L., Professor and Associate Chair, Geography and Geoinformation Science. BA 1982, California State University; MA 1984, PhD 1990, University of Minnesota.

Beard, Jon, Associate Professor, Information Systems and Operations Management. BA 1981, University of Arkansas; MS 1983, PhD 1991, Texas A&M University.

Beatson, Baotran, Associate Director, English Language Institute. BA 1997, MA 2000, George Mason University.

Becker, Peter A., Professor, Astrophysical, Planetary, and Space Sciences, College of Science. BA 1982, Rutgers University; MS 1985, PhD 1987, University of Colorado, Boulder.

Bedore, Joani, Term Assistant Professor, Communication. BA 1979, St. Leo College; MA 1984, University of Baltimore; PhD 1994, University of Oklahoma.

Behrmann, Michael, Helen A. Kellar Professor of Special Education. BS 1971, MEd 1972, University of Cincinnati; EdD 1978, Teachers College, Columbia University.

Bellos, Ioannis, Assistant Professor, ISOM. MS 2006, Aristotle University of Tessaloniki; PhD 2012, Georgia Institute of Technology.

Bemak, Frederick, Professor, Education, Graduate School of Education. BA 1970, Boston University; MEd 1971, EdD 1975, University of Massachusetts.

Benitez, Alexander V., Assistant Professor, Sociology and Anthropology. BA 1992, University of Arizona, Tucson; MA 1999, PhD 2006, University of Texas, Austin.

Benjamin, Lehn, Associate Professor, Public and International Affairs. BA 1990, University of Minnesota; MRP 1998, PhD 2004, Cornell University.

Bennett, James T., William P. Snavely Professor of Political Economy and Public Policy. BS 1964, MS 1966, PhD 1970, Case Western Reserve University.

Berg, Bjorn P., Assistant Professor, Systems Engineering and Operations Research. BA 2005, St. Olaf College; PhD 2012, North Carolina State University.
Berg, Scott, Term Assistant Professor, English. BA 1992, University of Minnesota; MA 1995, Miami University; MFA 1997, George Mason University.

Bergman, Rachel, Associate Professor, Music. BA 1992, Skidmore College; PhD 2001, Yale University.

Berkeley, Sheri, Assistant Professor, Education, Graduate School of Education. BSEd 1995, MSEd 1998, Northern Illinois University, PhD 2007, George Mason University.

Bernard, Elizabeth R., Director, Transition Resource Center. Assistant Dean, Student Academic Affairs, Advising and Retention. BA 1998; MA 1991, Ohio State University.

Berry, Alok K., Associate Professor, Electrical and Computer Engineering. BS 1967, MS 1969, University of Delhi; MS 1981, PhD 1985, University of Missouri.

Best, Amy L., Associate Professor, Sociology. BA 1992, Ithaca College; MA 1995, PhD 1998, Syracuse University.

Bever, David, Associate Professor, Health Education, School of Recreation, Health and Tourism. BS 1970, University of Dayton; MA 1973, Ball State University; PhD 1978, Purdue University.

Bickford, Andrew, Assistant Professor, Anthropology. BA 1993, George Mason University; MA 1995, Columbia University; PhD 2002, Rutgers University.

Biggs, Regina, Assistant Professor, Education, Graduate School of Education. BS, Eastern Michigan University; MA, Roosevelt University; PhD, Loyola University.

Billingham, Lisa A., Associate Professor, Music. BME 1986, Indiana University; MM 1994, University of Missouri, Kansas City Conservatory; DMA 2001, University of Arizona.

Birchard, Geoffrey French, Associate Professor, Environmental Science and Policy. Associate Professor, Biology. BA 1975, Colorado College; MA 1979, University of Montana; PhD 1985, Dartmouth Medical School.

Bishop, Barney, Associate Professor, Biochemistry. BS 1991, College of William and Mary; PhD 1997, University of North Carolina, Chapel Hill.

Bitley-Davis, Doris, Associate Professor, Psychology. BA 1982, Dickinson College; MA 1984, Hollins College; PhD 1991, American University.

Blackwell, Kim Avrama, Professor, Department of Molecular Neuroscience, Krasnow Institute for Advanced Study. BS 1981, Boston University; VMD 1986, MSE 1987, PhD 1988, University of Pennsylvania.

Blaisten-Barojas, Estela, Professor, Computational Sciences and Informatics, Physics and Chemistry. BS 1964, Universidad Tecnologica de Tucuman; MS 1970, PhD 1974, Universite de Paris VI.

Bland, Lori, Associate Professor, Education, Graduate School of Education. BA 1984, George Washington University; MEd 1990, PhD 2000, University of Virginia.

Blank-Godlove, Juliet M., Associate Dean of Students, University Life. BS 1993, MA 1998, West Virginia University.

Bockman, Johanna K., Associate Professor, Sociology. BA 1991, University of California, Los Angeles; MA 1995, PhD 2000, University of California, San Diego.
Boehm-Davis, Deborah A., Dean, College of Humanities and Social Sciences. University Professor, Psychology. AB 1975, Rutgers University; MA 1977, PhD 1980, University of California, Berkeley.

Boettke, Peter J., University Professor of Economics. BA 1983, Grove City College; PhD 1989, George Mason University.

Boicu, Mihai, Assistant Professor, Applied Information Technology. Associate Director of Learning Agents Center. PhD 2002, George Mason University.

Boileau, Don Michael, Professor, Communication. AB 1964, Stanford University; MA 1965, PhD 1972, University of Oregon.

Bon, Susan C., Associate Professor, Education, Graduate School of Education. BA 1989, University of Toledo; JD 1992, MA 1994, PhD 1996, Ohio State University.

Borne, Kirk, Professor, Computational and Data Sciences. BS 1975, Louisiana State University; MS 1980, PhD 1983, California Institute of Technology

Botan, Carl, Professor, Communication. BA 1972, Western Michigan University; MA 1982, PhD 1985, Wayne State University.

Boudinot, Patricia, Instructor, Geography and Geoinformation Science. BS 1976, MS 1978, University of Nice.

Boudreaux, Donald J., Professor, Economics. BA 1980, Nicholls State University; MA 1982, New York University; PhD 1986, Auburn University; JD 1992, University of Virginia.

Bousel, Paul, Associate Director, Academic Advising Center. BA 1975, Hofstra University; MA 1977, George Washington University.

Bowdoin, Jessica, Head, Interlibrary Loan and Document Delivery. BA 1996, College of William and Mary; MLIS 1999, University of Illinois, Urbana-Champaign.

Boybeyi, Zafer, Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1984, Istanbul Technical University; MS 1990, San Jose State University; PhD 1993, North Carolina State University.

Boyd, Jan, Assistant Dean, Academic Outreach, College of Health and Human Services. BSN 1975, Marquette University; MSN 1985, Northern Illinois University; PhD 2011, George Mason University.

Bradshaw, Duane D., Director for Career Development, School of Public Policy. BA 1996, MEd 1998, Clemson University.

Brayley, Russell, Professor, Tourism and Events Management, School of Recreation, Health and Tourism. BS 1977, MA 1986, Brigham Young University; PhD 1990, Texas A&M University.

Brazer, David S., Associate Professor, Education, Graduate School of Education. AB 1979, University of Michigan; ME 1986, PhD 1988, Stanford University.

Breglia, Lisa, Interim Director of Global Affairs Program and Term Assistant Professor of Global Affairs. BA 1994, MA 1996, University of Florida; PhD 2003, Rice University.

Brigham, Frederick, Associate Professor, Education, Graduate School of Education. BS 1977, MEd 1983, Bowling Green State University; PhD 1992, Purdue University.

Bristol, Joan C., Associate Professor, History and Art History. BA 1990, Bryn Mawr College; MA 1994, San Francisco State University; PhD 2001, University of Pennsylvania.

Britt, Thomas, Assistant Professor, Film and Video Studies. BA 2002, Emory & Henry College; MFA 2005, Ohio University.
Brkic, Courtney A., Associate Professor, English. BA 1994, College of William and Mary; MFA 2001, New York University.

Brock, Elizabeth A., Associate Vice President and Controller, Fiscal Services. MA 1992, Georgetown University.

Brouse, Peggy S., Associate Professor, Systems Engineering and Operations Research. BS 1978, American University; MBA 1986, Marymount University; PhD 1992, George Mason University.

Brown, Andrew R., Director of Communications and Marketing, School of Public Policy. BA 1999, Lycoming College; MFA 2002, George Mason University.

Brown, Elizabeth Levine, Assistant Professor, Education, Graduate School of Education. BA 2001, Colgate University; MAT 2004, American University; MA 2007, Washington College; PhD 2011, University of Pittsburgh.

Brown, Guilbert Lee, Assistant Vice President and Chief Budget Officer, Office of Budget and Planning. BA 1979, University of Denver; MAIS 2012, George Mason University.

Brown, Jacquelyn, D., Term Instructor of Marketing, BA 2005 Virginia Commonwealth University; MA 2012 George Mason University.

Brown III, William Thomas, Instructor; Baseball Coach; and Assistant Manager, Recreation Sports Complex. BA 1980, George Mason University.

Brozo, William, Professor of Education, Graduate School of Education. BA 1977, University of North Carolina; MEd 1979, PhD 1982, University of South Carolina.

Bruno, Irene, Term Associate Professor, Applied Information Technology. BS 1994, University of Pittsburgh; MEd 1991, Pennsylvania State University; PhD 2003, Capella University.

Buchy, Jackie, Assistant Dean, Graduate Enrollment, School of Management. BBA 2004, James Madison University; MPS 2010, Georgetown University.

Buehl, Michelle, Associate Professor, Education, Graduate School of Education. BA 1997, Hollins College; MA 2002, PhD 2003, University of Maryland.

Buffardi, Louis C., Associate Professor, Psychology. AB 1964, University of Rochester; MA 1966, Fordham University; PhD 1970, Kansas State University.

Burke, Amy, Term Instructor of Nursing and Clinical Coordinator. BSN 1985, The Pennsylvania State University.

Burke, Caitlin W., Assistant Professor, Bioengineering. BS 2006, PhD 2011 University of Virginia.

Burnham, Philip, Term Assistant Professor, English. BA, Beloit College; MFA, University of Massachusetts; PhD 1987, University of New Mexico.

Burns, M. Susan, Associate Professor, Education, Graduate School of Education. BS 1974, Pennsylvania State University; MA 1980, PhD 1983, Vanderbilt University.

Burroughs, James N., Term Assistant Professor, Department of Public and International Affairs. BS 1977, James Madison University; JD 1981, College of William and Mary; MPA 1994, George Mason University.

Bursten, Andrew, Director of Finance and Administration and Chief Financial Officer, College of Visual and Performing Arts. BA 1979, Grinnell College; MBA 1981, American University.

Butler, Lawrence E., Associate Professor, Art History. BA 1978, MA 1980, Oberlin College; PhD 1989, University of Pennsylvania.

Butt, Ahsan I., Assistant Professor, Government and Politics. BA 2006, MA 2008, PhD 2012, University of Chicago.

Button, Kenneth J., University Professor of Public Policy. Director, Center for Aerospace Policy and Management. BA 1970, University of East Anglia, United Kingdom; MA 1971, University of Leeds, United Kingdom; PhD 1981, Loughborough University, United Kingdom.

Cabrera, Ángel, University President. BS 1990, MS 1990, Universidad Politécnica de Madrid, Spain; MS 1993, PhD 1995, Georgia Institute of Technology.

Cai, Xiaomei, Associate Professor, Communication. BA 1993, Jilin University; MA, Peking University; MA 1998, PhD 2001, Indiana University.

Calcagno, Theresa, Information Technology and Engineering Liaison Librarian. BA 1979, Case Western Reserve University; MS 1982, Rutgers University; MLIS 1999, University of Maryland.

Calhoun, Thomas G., Vice President, Facilities. BE 1978, Vanderbilt University; MS 1987, Stanford University.

Camelli, Fernando, Assistant Professor, Computational and Data Sciences. PhD 2002, George Mason University.

Campbell, Charvis V., Assistant Dean, University Life, Prince William Campus. BA 1993, Howard University; MA 2003, New York University.

Camphouse, Mark D., Professor, Music. BM 1975, MM 1976 Northwestern University.

Campo, Lisa, Term Assistant Professor, Nursing. BSN 1985, Lynchburg College; MSN 1994, Seton Hall University; DNP 2010, George Washington University.

Camus, Adele C., Core Instructor, English Language Institute. BA 1969, University of South Wales, Cardiff, United Kingdom; MA 1982, University of Texas, Austin.

Canterbury, Shelly L., Instructor, Finance. BS 1985, George Mason University; MBA 1995, Virginia Polytechnic Institute and State University.

Cantiello, John. Term Assistant Professor, Health Administration and Policy. BS 2002, MS 2004, PhD 2008, University of Central Florida.

Cantor, Joshua, Director of Parking and Transportation. BA 1994, Cornell University; MA 1997, University of Kentucky.

Caraballo, Sharon, Associate Dean for Undergraduate Studies, Volgenau School of Engineering. Associate Professor, Applied Information Technology. BA 1994, Rutgers University; ScM 1996, PhD 2001, Brown University; MS 2010, Drexel University.
Carbonneau, Suzanne, Professor of Art and Visual Technology. BA 1976, Bates College; MA 1978, American University; CMA 1979, Laban Institute of Movement Studies; PhD 1990, New York University.

Carisi, Kimberly, Term Assistant Professor, Forensics. BS 2001, James Madison University; MFS 2003, George Washington University.

Carle, Andrew J., Assistant Professor, Health Administration and Policy. BS 1981, State University of New York, Buffalo; MHSA 1985, University of Wisconsin.

Carr, Daniel B., Professor, Statistics. BA 1968, Whitman College; MEd 1972, Idaho State University; MS 1972, Oregon State University; PhD 1976, University of Wisconsin.

Carretta, Patricia J., Assistant Vice President, University Life. BA 1968, MA 1974, Binghamton University; MA 1977, University of Iowa.

Carton, Benedict, Associate Professor, History and Art History. BA 1987, Wesleyan University; MA 1994, PhD 1996, Yale University.

Carver, Richard H., Associate Professor, Computer Science. BS 1982, Ohio State University; MS 1985, PhD 1989, North Carolina State University.

Casey, John, Director, Fairfax Small Business Development Center, Mason Enterprise Center. BA 1979, Colgate University; MS 1985, George Washington University.

Castillo, Marco, Associate Professor, Economics. BS 1991, Catholic University; 2001 PhD, University of Wisconsin-Madison.

Caswell, Amanda, Assistant Professor, Athletic Training, School of Recreation, Health, and Tourism. BS 1994, Ashland University; MS 1995, California University of Pennsylvania; PhD 2004, Ohio University.

Caswell, Shane, Associate Professor, Athletic Training, School of Recreation, Health, and Tourism. BS 1999, State University of New York, Brockport; MS 2000, PhD 2003, Ohio University.

Cattaneo, Lauren, Associate Professor, Psychology. BA 1992, University of Michigan, Ann Arbor; MA 1997, PhD 2001, University of Maryland, College Park.

Cebreal, Juan R., Professor, School of Physics, Astronomy and Computational Science. BS 1991, University of Buenos Aires; PhD 1996, George Mason University.

Censer, Jane Turner, Professor, History. BA 1973, Transylvania University; MA 1975, PhD 1980, Johns Hopkins University.

Cervone, Guido, Associate Professor, Geography and Geoinformation Science. BS 1998, Catholic University; MS 2000, PhD 2004, George Mason University.

Cha, Jiyoung, Assistant Professor, Film and Video Studies Program. BA 1998, MA 2004, PhD 2009, University of Florida.

Chandhoke, Vikas, Dean, College of Science. Professor of Biology. BPharm 1986, MDSc 1986, Birla Institute of Technology and Science; PhD 1991, University of Maine.

Chang, Michael G., Associate Professor, History and Art History. AB 1992, Princeton University; PhD 2001, University of California, San Diego.

Chang, Shih-Chun, Associate Professor, Electrical and Computer Engineering. BS 1970, National Cheng Kung University; PhD 1977, University of Hawaii.

Chang, Yoonmee, Associate Professor, English. BA 1992, Tufts University; PhD 2003, University of Pennsylvania.

Chazen-Cohen, Rachel, Associate Professor, Psychology. BA 1988, University of Pennsylvania; MA 1994, Tufts University; PhD 1997, Yale University.

Chen, Cher Weixia, Assistant Professor, New Century College. LLB 2000, Beijing University, China; LLM 2001, National University of Singapore; MA 2003, PhD 2008, University of Southern California.

Chen, Jim X., Professor, Computer Science. BS 1983, MS 1986, Southwest Jiaotong University; PhD 1995, University of Central Florida.

Chen, Long, Assistant Professor, Accounting. BS 2000, Beijing Technology and Business University; MS 2005, PhD 2008, Washington University, St. Louis.

Chen, Min, Assistant Professor, ISOM, BS 2003, MS 2005 International University in Germany; PhD 2011, The University of Texas at Dallas.

Chen, Songqing, Associate Professor, Computer Science. BS 1997, MS 1999, Huazhong University; PhD 2004, College of William and Mary.

Chen, Xi, Term Instructor, Chinese. BA 1999, East China Normal University, Shanghai; MEd 2002, George Mason University.

Cheng, Constant, Assistant Professor, Marketing. BS 1982, Brigham Young University, Hawaii; MBA 1983, Arizona State University; DES 1994, The Graduate Institute.

Cherubin, Rose M., Associate Professor, Philosophy. BFA 1984, School of Visual Arts, New York City; PhD 1996, Graduate School, City University of New York.

Cheuse, Alan, University Professor, English. BA 1961, PhD 1974, Rutgers University.

Chin, Kyung (Emilia Jin), Assistant Professor, Atmospheric, Oceanic and Earth Sciences. BA, 1999, PhD 2005, Seoul National University, South Korea.

Chin, Lisa, Research Assistant Professor, Rehabilitation Science. BS 2003, PhD 2009, University of Western Ontario.

Chiu, Long, Associate Professor, Atmospheric, Oceanic and Earth Science. BS 1974, University of Miami; ScD 1980, Massachusetts Institute of Technology.

Chollar, Richard, Associate Director, Diversity Programs and Services for Lesbian, Gay, Bisexual, Transgender, and Questioning Student Affairs. BA 1978, Wittenberg University; MSW 1982, University of Michigan; LCSW 1999, Commonwealth of Virginia.

Chong, Elizabeth, Associate Professor, Nursing. BSN 1975, MSN 1977, PhD 1981, University of Texas.
Christensen, Alan H., Associate Professor, Molecular and Microbiology. BS 1977, Buena Vista College; PhD 1983, Michigan State University.

Christensen, Julie A., Chair, Modern and Classical Languages. Associate Professor, Russian. BA 1970, University of Iowa; MA 1972, PhD 1978, University of California, Berkeley.

Christophe, Stephen, Professor, Finance. BA 1980, Colby College; MBA 1982, College of William and Mary; PhD 1992, University of North Carolina.

Chrosniak, Linda D., Term Associate Professor, Psychology. BA 1981, University of Texas, Dallas; PhD 1991, George Washington University.

Chung, Myung-Chul, Research Associate, Center for Biodefense. BS 1986, PhD 1996, Seoul National University; MS 1988, Gyeongsang National University.

Chung, Rita Chi-Ying, Professor, Education, Graduate School of Education. BA 1981, MA 1983, PhD 1989, Victoria University of Wellington, New Zealand.

Chung, Yoosun, Assistant Professor, Education, Graduate School of Education. BS 1995, George Mason University; MEng 1996, Cornell University; PhD 2004, George Mason University.

Cicchetti, John, Director, Student Outreach, College of Humanities and Social Sciences. BS 2004, Ursinus College; MEd 2009, University of South Carolina.

Cioffi-Revilla, Claudio, Director, Center for Social Complexity. Professor, Department of Computational Social Science, Krasnow Institute for Advanced Study. BS 1969, Instituto Patria, Mexico City; PhD 1975, University of Florence, Italy; PhD 1979, State University of New York.

Clare, Kathleen M., Assistant Dean of Undergraduate Academic Affairs, College of Humanities and Social Sciences. BA 2001, MFA 2005, George Mason University.

Clark, Keith S., Associate Professor, English. BA 1985, College of William and Mary; MA 1987, University of Kentucky; PhD 1993, University of North Carolina, Chapel Hill.

Clark, Kevin, Professor, Education, Graduate School of Education. BS 1989, MS 1991, North Carolina State University; PhD 1994, Pennsylvania State University.

Clark, Paul G., Assistant Professor, Social Work. BA 1981, Christopher Newport College; MSW 1985, Norfolk State University; PhD 2008, Virginia Commonwealth University.

Clark-Talley, Christine, Associate Vice President of Alumni Affairs. BS 1984, James Madison University; MEd 1986, University of South Carolina.

Cleaveland, Carol, Assistant Professor, Social Work. BA 1980, American University; MSS 1994, PhD 2002, Bryn Mawr.

Cobb, Sara, Professor, School for Conflict Analysis and Resolution. BA 1973, Albertus Magnus College; MEd 1980, University of Puget Sound; PhD 1988, University of Massachusetts, Amherst.

Coffinberger, Richard L., Associate Professor, Business Legal Studies. BA 1970, University of Florida; MS 1979, Virginia Polytechnic Institute and State University; JD 1974, Wake Forest University.

Cohen, Daniel J., Associate Professor, History and Art History. Director, Roy Rosenzweig Center for History and New Media. BA 1990, Princeton University; MTS 1992, Harvard University; PhD 1999, Yale University.

Collier, Daniel L., Director of Information Technology, College of Humanities and Social Sciences. BA 1990, University of Tennessee; MFA 1994, George Mason University.
Collins, Samuel W., Assistant Professor, History and Art History. BA 1991, Whitman College; MA 1996, University of Durham, United Kingdom; PhD 2005, University of California, Berkeley.

Collins, Susan Alice, Associate Professor; Senior Associate Athletic Director of Athletics. BS 1970, University of Dayton; MS 1973, Northern Illinois University.

Colonna, Flavia, Professor, Mathematical Sciences. Laurea 1976, Universita degli Studi di Bari; MA 1980, PhD 1985, University of Maryland.

Conant, James K., Professor, Government and Politics. BA 1971, MA 1974, PhD 1983, University of Wisconsin, Madison.

Coniglio, Jamie, Head of Reference, Fenwick Library, University Libraries. BA 1974, Saint Mary College; MLS 1976, Indiana University.

Conlan, Timothy J., University Professor of Public and International Affairs. AB 1974, University of Chicago; PhD 1982, Harvard University.

Constantine, Lynne M., Term Assistant Professor, Art and Visual Technology. BA 1973, Canisius College; MA 1975, MPhil 1977, Yale University.

Conwell, Nancy C., Director, Facilities Planning and Special Projects, College of Science. BA, Sweet Briar College.

Cook, Gerald, Earle C. Williams Professor of Information Technology and Electrical Engineering. BS 1961, Virginia Polytechnic Institute and State University; SM 1962, ScD 1965, Massachusetts Institute of Technology.

Cooley, Mark, Associate Professor, Art and Visual Technology. BFA 1995, University of Southern Maine; MFA 1998, East Carolina University.

Cooper, Bruce B., Instructor; Assistant Athletic Director, Facilities, Intercollegiate Athletics. BS 1967, North Carolina State University.

Cooper, Jamie S., Associate Dean of Undergraduate Academic Affairs, College of Humanities and Social Sciences. BS 1995, MA 1996, Tennessee Tech University; MS 1998, PhD 2001, Virginia Polytechnic Institute and State University.

Cooper, Paul D., Assistant Professor, Chemistry and Biochemistry. BS 1999, PhD 2005, University of Western Australia.

Copelman, Dina, Associate Professor, History. AB 1975, Barnard College; MA 1977, University of Warwick, England; MA 1980, PhD 1985, Princeton University.

Copley, Steve, Core Instructor, English Language Institute. BS 1982, Georgetown University; MEd 1995, George Mason University.

Cortes, Nelson, Associate Professor, Exercise Science, School of Recreation, Health, and Tourism. BS 2001, Universidade Lusofona de Humanidades e Tecnologias, Portugal; MS 2005, PhD 2010, Old Dominion University.

Cortina, Jose M., Professor, Psychology. BA 1989, Tulane University; MA 1991, PhD 1994, Michigan State University.

Costa, Paulo C. G., Associate Professor, Systems Engineering and Operations Research. BS 1986, Brazilian Air Force Academy; MS 1999, PhD 2005 George Mason University.

Couch, Robin, Associate Professor, Chemistry. BS 1994, PhD 1999, University of Calgary.

Cowen, Friedgard, Cataloging Librarian, Bibliographic Services Department. BA 1975, MA 1979, University of Calgary; MLS 1994, Catholic University of America.

Cowen, Tyler, Holbert L. Harris Chair in Economics and Professor of Economics. BS 1983, George Mason University; PhD 1987, Harvard University.
Cox, Cara, Term Instructor, Nursing. BSN 1979, Valparaiso University; MSN 1986, Indiana University.

Cox, Daniel N., Associate Professor and Graduate Program Director, School of Systems Biology. BS 1992, Wake Forest University; PhD 1999, Duke University.

Coyne, Christopher, Associate Professor, Economics. BS, Manhattan College; MA 2003, PhD 2005, George Mason University.

Cozzens, Robert Francis, Professor, Chemistry. BS 1963, PhD 1966, University of Virginia.

Cramton, Catherine D., Associate Professor, Management. AB 1979, Harvard University; PhD 1994, Yale University.

Crate, Susan, Associate Professor, Anthropology and Environmental Science and Policy. BA 1983, Warren Wilson College; MA 1994, PhD 2002, University of North Carolina, Chapel Hill.

Cresci, M. Kay, Associate Professor, Nursing. BSN 1968, Mercy College of Detroit; MS 1974, University of Maryland, Baltimore; PhD 1997, Wayne State University.

Cressman, John R., Assistant Professor, Physics and Astronomy. BS 1995, Union College; PhD 2003, University of Pittsburgh.

Crew, Spencer, Clarence J. Robinson Professor of History. BA 1971, Brown University; MA 1973, PhD 1979, Rutgers University.

Crockett, John H., Jr., Academic Director, Master of Science in Real Estate Development Program; Acting Director, Center for Real Estate Entrepreneurship and Professor of Finance. BA 1970, Washington and Lee University; PhD 1975, University of North Carolina.

Croitoru, Arie, Assistant Professor, Geography and Geoinformation Systems. BS 1997, MS 2002, PhD, Technion-Israel Institute of Technology.

Cronin, Audrey Kurth, Professor, School of Public Policy. AB 1981, Princeton University; M Phil 1983, D Phil 1985, Oxford University.

Cronin, Matthew, Associate Professor, Management. BA 1993, Rutgers University; MA 1997, Columbia University; MS 2000, PhD 2004, Carnegie Mellon University.

Crooks, Andrew, Assistant Professor, Computational Social Science, Krasnow Institute for Advanced Study. BS 2000, MS 2002, University of Edinburgh; PhD 2007, University of London.

Cui, Shanshan, Assistant Professor of Art and Visual Technology. BFA 1985, MFA 1988, Sichuan Institute of Fine Arts, China; MFA 1998, Iowa State University.

Culbertson, Jennifer L., Assistant Professor, English. BA 2004 Brown University; MA 2006, PhD 2010 Johns Hopkins University.

Curby, Timothy, Assistant Professor, Psychology. BS 1997, MA 2003, University of Michigan; PhD 2008, University of Virginia.

Curtin, Kevin M., Associate Professor, Geography and Geoinformation Science. BA 1994, MA 1995, University of Illinois; PhD 2002, University of California, Santa Barbara.
Curtis, Elizabeth, Manager, Potomac Academy. BA 1981, Blackburn College.

D

Dabbagh, Nada, Associate Professor of Education, Graduate School of Education. BA 1977, Iona College; MS 1978, Columbia University; PhD 1996, Pennsylvania State University.

Dakake, Maria, Associate Professor, Religious Studies. BA 1990, Cornell University; MA 1998, PhD 2000, Princeton University.

Dalal, Reeshad S., Chair, Department of Psychology, Associate Professor of Psychology and Associate Chair for Graduate Studies. BA 1998, Hanover College; MA 2001, PhD 2003, University of Illinois, Urbana-Champaign.

Dalfrey, Karen, Director, the Governor's School @ Innovation Park. BS 1992, MEd 2003, PhD 2009, George Mason University.

Dale, John G., Assistant Professor, Sociology and Anthropology. BA 1987, Wheaton College; MA 1991, New School for Social Research; PhD 2003, University of California, Davis.

D'Amboise, Christopher, Term Assistant Professor of Dance, Visiting Guest Artist.

D'Amico, Diana, Assistant Professor of Education, Graduate School of Education. BA 2001, Franklin and Marshall College; MA 2004, Teachers College, Columbia University; PhD 2010, New York University.

D'Andrea, Paul Philip, Robinson Professor of Theater and English. BA 1960, MA 1962, PhD 1966, Harvard University.

D'Angelo, Jessica, Production Manager, College of Visual and Performing Arts. BFA 2001, University of North Carolina; MA 2007, George Mason University.

Daniels, Margaret, Associate Professor of Tourism and Event Management, School of Recreation, Health, and Tourism. BA 1991, Miami University of Ohio; MA 1993, University of Georgia; PhD 2002, Clemson University.

Danner, Kara M., Director, Living Learning Community Initiatives, University Life. BS 1994, University of Wisconsin; MS 2003, George Mason University.

Dantzler, LaMan, Associate University Registrar for Certification. BS 2005, JD 2008, University of Oregon.

Das, Sidhartha R., Associate Professor of Information Systems and Operations Management. BS 1979, India; MS 1980, University of Mississippi; MBA 1985, PhD 1987, University of Houston.

Daugherty, Carol, Director, Corporate and Foundation Relations, University Development.

Davidson, Janine A., Assistant Professor of Public Policy, School of Public Policy. BS 1988, University of Colorado, Boulder; MA 2002, PhD 2005, University of South Carolina.

Davidson, Michele R. McPhee, Associate Professor of Nursing. BS 1993, George Mason University; MSN 1995, Case Western Reserve University; PhD 1998, George Mason University.

Davis, Claudette, Term Assistant Professor of Biology/STEM Accelerator Faculty. BS 1997, York College; PhD, Graduate Center City University.

Davis, David F., Research Assistant Professor, School of Public Policy. BS 1972, Colorado School of Mines; MS 1981, Naval Postgraduate School.
Davis, Jennifer (J.J.) Wagner, Senior Vice President for Administration and Finance. BA 1993, MS 1993, The Pennsylvania State University.

Davis, Linda, Term Associate Professor and Associate Chair, Statistics. BS 1979, George Mason University; MS 1981, PhD 1983, Rutgers University.

Davis, Molly E., Term Associate Professor; Director of Field Instruction, Bachelor Social Work Program. BA 1971, Louisiana State University; MSW 1973, Tulane University; EdD 1984, Florida State University.

Davis, Rick, Executive Director, Hylton Performing Arts Center. Associate Dean of College of Visual and Performing Arts. Professor of Theater. BA 1980, Lawrence University; MFA 1983, DFA 2003, Yale School of Drama.

Davis, Shannon N., Assistant Professor, Sociology and Anthropology. BA 1997, University of North Carolina, Asheville; MS 2000, PhD 2004, North Carolina State University.

Dawson, Rebecca, Assistant Professor of Global and Community Health. BS 2000, Allegheny College; MPH 2002, Emory University; PhD 2011, University of Maryland-Baltimore.

DeArmendi, Nicole, Term Assistant Professor, Art History. BA 1996, Florida International University; MA 2003, PhD 2009, Virginia Commonwealth University.

Debold, Vicky, Research Instructor of Health Administration and Policy. BSN 1978, Rush University; PhD 1999, University of Michigan.

DeCaroli, Robert D., Associate Professor, History and Art History. BA 1992, Loyola Marymount University; MA 1995, PhD 1999, University of California, Los Angeles.

Decker, Warren Dale, Professor of Communication. BA 1968, Kansas State Teachers College of Emporia; MA 1969, Southwest Missouri State College; PhD 1977, Temple University.

DeGregorio, Anthony, Instructor of Physical Education, School of Recreation, Health, and Tourism. BA 1975, Niagara University; BS 1984, MS 1989 George Mason University.

Deitz, Robert L., Professor of School of Public Policy. BA 1968, Middlebury College; MPA 1972, Princeton University; JD 1975, Harvard University.

DeJong, Kenneth A., University Professor, Computer Science. BA 1966, Calvin College; MA 1967, PhD 1975, University of Michigan.

Del Popolo, Mary, Term Assistant Professor, Art and Visual Technology. BA 1980, Marymount University; MFA 1988, Virginia Commonwealth University.

DeSole, Timothy, Professor, Atmospheric, Oceanic and Earth Sciences. BS 1988, MS 1989, PhD 1993, Harvard University.

Demory, M. Yvonne, Assistant Professor of Business Legal Studies. BA 1987, University of Virginia; JD 1990, Columbus School of Law, Catholic University of America; LLM 1994, Georgetown University Law Center.

DeMulder, Elizabeth, Associate Professor of Education, Graduate School of Education. BS 1984, Wright State University; PhD 1989, St. John’s College, Cambridge University.

Denham, Susanne Ayers, University Professor of Psychology; Director, Applied Developmental Psychology Program. BA 1972, Western Maryland College; MA 1974, Johns Hopkins University; PhD 1985, University of Maryland, Baltimore County.

Dennis, Rutledge M., Professor of Sociology. BA 1966, South Carolina State College; MA 1969, PhD 1975, Washington State University.

De Nys, Martin John, Professor of Philosophy. AB 1967, MA 1969, PhD 1974, Loyola University, Chicago.
Dere, Kenneth, Research Professor, CEOSR. BA 1969, MS 1971, Cornell University; PhD 1980, Catholic University of America.

Deshmukh, Marion F., Associate Professor, of History and Art History. BA 1966, University of California, Los Angeles; MA 1967, PhD 1975, Columbia University.

Di, Liping, Professor, Geography and Geoinformation Science. BS 1982, Zhejiang University; MS 1985, Chinese Academy of Sciences; PhD 1991, University of Nebraska, Lincoln.

Diao, Guoqing, Associate Professor, Statistics. BE 1998, MS 2001, University of Science and Technology of China; PhD 2005, University of North Carolina, Chapel Hill.

Dickerson, Michael A., Term Instructor and Internship Coordinator. Department of Communication. BFA 1960, Ohio University; MA 1974, Loyola University; MA 1979, U.S. Army War College.

Dickman, Kathleen, Term Assistant Professor of Nursing. BSN 1975, Georgetown University; MSN 1996, George Mason University; DNP 2010, George Washington University.

Diecchio, Richard Joseph, Professor of Atmospheric, Oceanic and Earth Sciences; Director, Geology and Earth Systems Science Programs; Associate Dean for Academic and Student Affairs, College of Science. BS 1970, Rensselaer Polytechnic Institute; MS 1974, Duke University; PhD 1980, University of North Carolina, Chapel Hill.

Dieke, Peter, Associate Professor of Tourism and Event Management, School of Recreation, Health, and Tourism. BA 1975, University of Nigeria; MSc 1981, University of Massachusetts; PhD 1988, University of Strathclyde (U.K.).

Dight, Kimberly, Director, Special Projects, Fiscal Services. BA 1990, The Ohio State University; MBA 1993, University of Connecticut.

Dillard, Geoff, Head Coach, Women's Rowing. BS 2000, University of Dayton.

Dillon, Francis H., III, Term Instructor of Geography and Geoinformation Science. BA 1972, College of William and Mary; MS 1996, George Mason University.

Dimitrov, Dimiter M., Professor of Education, Graduate School of Education. BS, PhD 1984, University of Sofia Kliment Ohridski; PhD 1995, Southern Illinois University, Carbondale.

Dinan, Desmond, Jean Monnet Professor and Director, International Commerce and Policy Program, School of Public Policy. BA 1978, National Institute for Higher Education; MA 1981, Georgetown University; PhD 1985, National University of Ireland.

Dixon, Christopher, Assessment, Planning and Organizational Development Coordinator. BA 2001, Pennsylvania State University; MLSIS 2008, Drexel University.

DiZinno, Joseph, Term Assistant Professor of Forensics Science. BS 1975, University of Notre Dame; DDS 1980, The Ohio State University.

Dobolyi, Kinga, Term Assistant Professor, Computer Science. BS 2004, University of Maryland College Park; MS 2008, PhD 2010, University of Virginia.

Dodman, Stephanie, Assistant Professor of Education, Graduate School of Education. BAE 2001, University of Florida; MEd 2002, University of Florida; PhD 2011, University of Florida.

Doller, Ben, Assistant Professor, English. BA 1998, MFA 2000, University of Iowa.

Domeniconi, Carlotta, Associate Professor, Computer Science. BASc 1992, University of Milano; MSSc 1997, International Institute for Advanced Scientific Studies, Salerno, Italy; PhD 2002, University of California, Riverside.
Donini, Patricia, Employee Relations Director/Deputy Director HR/Payroll. BA 1974, College of New Rochelle.

Doty, Brian. Term Research Instructor, Atmospheric, Oceanic and Earth Sciences. BS 1978, Northern Illinois University.

Douglas, Charlene, Associate Professor of Nursing. BA 1975, BSN 1978, Case Western Reserve University; MPH 1981, PhD 1992, Johns Hopkins Bloomberg School of Public Health.

Douglass, Adrienne, Assistant Professor of Education, Graduate School of Education. BA 2001, Case Western Reserve University; PsyD 2006, Wright State University.

Douthett, Edward B., Associate Professor, Accounting. BA 1979, Pennsylvania State University; MBA 1991, PhD 1995, University of Georgia.

Drake, Diane C., Head Coach, Women’s Soccer. BA 1993, University of Dayton; MS 1996, Louisiana State University.

Drake Patrick, Jennifer, Assistant Professor of Education, Graduate School of Education. BS 1992, MEd 1993, Miami University; EdD 2009, University of Florida.

Driscoll, Anne, Education Liaison Librarian, BA 1985 Portland State University; MS 1999 MS 2001, University of Tennessee, Knoxville.

Druckman, Daniel, Professor of Government and Politics. BA 1961, Michigan State University; MS 1965, PhD 1966, Northwestern University.

Druehl, Cheryl T., Assistant Professor of Operations Management. BS 1990, University of California, Los Angeles; MBA 1995, University of Pittsburgh; MAB 2000, PhD 2003, Stanford University.

Drummey, David G., Associate University Counsel. BS 1996, JD 1999, George Mason University.

Dudnik, Natalia, Term Assistant Professor of German. BA 2003, Moscow State Linguistic University; MA 2005, University of Northern Iowa; PhD 2010, University of Illinois at Chicago.

Dueck, Colin, Associate Professor of Political Science. BA 1990, MA 1993, University of Saskatchewan; MPhil 1995, Oxford University; PhD 2001, Princeton University.

Dumas, Theodore, Assistant Professor of Molecular Neuroscience. BS 1991, University of Connecticut; MS 1996, PhD 1997, University of Virginia.

Dunick, Jason, Term Assistant Professor of Economics, BA 2001 Kent State University; MS 2005, PhD 2010 University of Illinois at Urbana-Champaign.

Dunne, Kelly B., Term Assistant Professor of Integrative Studies. BA 1991, College of William and Mary; MA 1997, George Mason University.

Durant, Liza W., Term Assistant Professor, Civil, Environmental and Infrastructure Engineering. BS 1987, Cornell University; MS 1991, Stanford University; PhD 1996, The Johns Hopkins University.

Duric, Zoran, Associate Professor, Computer Science. BS 1982, MS 1986, University of Sarajevo, Bosnia and Herzegovina; PhD 1995, University of Maryland.
Dutta, Amitava, Chair, Information Systems and Operation Management and Eakin Chair in E-Commerce, Professor of Decision Sciences and Operations Management. BS 1976, Indian Institute of Technology; MS 1978, University of California, Santa Barbara; PhD 1981, Purdue University.

Duxbury, Thomas, Research Professor, Physics and Astronomy. BS 1965, MS 1966, Purdue University.

Dworzecka, Maria, Professor of Physics and Astronomy, College of Science. MSc 1954, PhD 1969, Warsaw University, Poland.

Dyre, Leslie S., Director, Finance and Human Resources, College of Humanities and Social Sciences. BS 1980, University of Virginia; CPA 1980.

E

Earle, John S., Professor of Public Policy, School of Public Policy. BA 1980, BMus 1980, Oberlin College and Conservatory; MA 1986, PhD 1988, Stanford University.

Earley, Penelope McGraw, Professor of Education, Graduate School of Education. BA 1967, University of Michigan; MEd 1984, University of Virginia; PhD 1994, Virginia Polytechnic Institute and State University.

Eby, Kimberly K., Associate Provost for Faculty Development. Director, Center for Teaching and Faculty Excellence. Associate Professor, New Century College. Affiliate, Department of Psychology. BA 1989, Indiana University; MA 1992, PhD 1996, Michigan State University.

Eck, Elizabeth C., Assistant Dean, Graduate Program Management, School of Public Policy. BS 1993, Georgetown University; MA 1998, University of London.

Eckenwiler, Lisa, Associate Professor of Philosophy, Associate Professor of Health Administration and Policy. BA 1989, University of Wisconsin, Madison; MA 1991, PhD 1997, University of Tennessee, Knoxville.

Edner, Sheldon M., Term Full Professor and Director of the Center for Federal Management Leadership. BA 1969, Humboldt State University; MA 1971, PhD 1973 University of California.

Edwards, Cody, Associate Professor, Environmental Science and Policy. BS 1995, MS 1997, Angelo State University; PhD 2000, Texas Tech University.

Ehrlich, Robert, Professor of Physics and Astronomy. BS 1959, Brooklyn College; PhD 1964, Columbia University.

Eil, David, Assistant Professor of Economics. BA 2003, Tufts University; PhD 2011, University of California, San Diego.

Ellsworth, Robert Waldo, Professor, Physics and Astronomy. BS 1960, Yale University; PhD 1966, University of Rochester.

Elston, Ken D., Director and Associate Professor of Theater. BA 1988, Temple University; MFA 1996, Ohio State University.

Emelianenko, Maria, Associate Professor of Mathematical Sciences. BS 1999, MS 2001, Moscow State University; MA 2002, PhD 2005, Pennsylvania State University.

Emerson, Jill V., Assistant Dean of Student Services, School of Public Policy. BA 1995, George Mason University; MSW 2000, Virginia Commonwealth University.

Endebrock, Robert N., Director, Facilities Construction. BS 1962, Tulane University; MS 1968, Pennsylvania State University.
Endress, Edgar, Assistant Professor, Art and Visual Technology. BS 1992, Universidad Tecnologica Metropolitana, Chile; BA 1997, Artes de las Comunicaciones, Chile; MFA 2001, Syracuse University.

Ephraim, Yariv, Professor, Electrical and Computer Engineering. BSc 1977, MSc 1979, DSc 1984, Technion, Haifa, Israel.

Epstein, Neil, Assistant Professor of Mathematical Sciences. BA 1998, Swarthmore; MS 2000, University of Chicago; PhD 2005, University of Kansas.

Ericson, David, Term Associate Professor, Public and International Affairs. BA 1972 Wayne State University; MA 1974, University of Michigan; PhD 1987, University of Chicago.

Ericson, Rebecca J., Term Instructor, Physics and Astronomy. BA 1970, Macalester College; MS 1975, Creighton University.

Esherick, Craig, Assistant Professor of Sport Management, Graduate School of Education. BSBA 1978, JD 1982, Georgetown University.

Esposito-Smythers, Christianne, Associate Professor, Psychology. BA 1993, Lafayette College, MS 1997, PhD 2000, Virginia Polytechnic Institute and State University.

Evans Cuellar, Alison E., Associate Professor of Health Administration and Policy. BA 1987, MBA 1989, University of Texas, Austin; PhD 2001, University of California, Berkeley.

Evans, Cathy, Director of Special Projects and Summer Term. BS 2001, George Mason University; MBA 2006, Walden University.

Evans, Laura, Term Assistant Professor of Nursing. BS 1986, College of William and Mary; MS 1993, 2000, DNP, 2009, University of Massachusetts.

Evans, Mary, Associate Professor of Nursing and Distinguished Visiting Scholar. Diploma in Nursing 1963, Lankenau Hospital School of Nursing; BS 1965, Temple University; MSN 1969, University of Pennsylvania; PhD 1976, State University of New York, Albany.

Evmenova, Anna, Assistant Professor, Graduate School of Education. BA 2001, MA 2001, Saratov State University, Russia; MAEd 2003, East Carolina University; PhD 2008, George Mason University.

Ewell, Mary S., Term Instructor, Physics and Astronomy. BS 1994, George Mason University.

F

Fairclough, Ian, Catalog/Metadata Librarian. BA 1972, University of Liverpool; MA 1977 University of Toronto; MPhil 1985, Columbia University; MLS 1989, Queen College, City University of New York.

Falconer, Allan, Professor, Geography. BS 1965, PhD 1970, University of Durham, Institute of Education, United Kingdom.

Falconer, Renee, Associate Professor of Education, Graduate School of Education. BEd, University of Durham, Institute of Education, UK; MEd 1987, University of South Carolina; PhD 1998, Utah State University.

Fall, Djiby, Term Assistant Professor of Mathematical Sciences. BS 1997, MS 1998, Gaston Berger University; PhD 2005, University of South Florida.

Fanshaw, Charles W., Director, Facilities Administration. BS 1982, Virginia Military Institute; ME 1990, University of Florida.
Farina, John, Associate Professor of Religious Studies. BA 1972, Vassar College; MD 1976, Yale University; PhD 1979 Columbia University; JD 1996, New York University School of Law.

Farrell, Peter J., Director of Alumni Relations, The Volgenau School of Engineering. BS 1979, MBA, 1985, George Mason University.

Fauntroy, Michael K., Associate Professor, School of Public Policy. BA 1988, Hampton University; MA 1993, PhD 2001, Howard University.

Feerick, Peggy, Associate Professor of Art and Visual Technology. BFA 1976, Rochester Institute of Technology; MA 1980, MFA 1989, University of New Mexico.

Fels, Dawn, Term Assistant Professor & Writing Center Director. BS 1987, Southern Illinois University; MA 1996, Webster University; PhD 2010, Indiana University of Pennsylvania.

Fenza, David W., Executive Director, Association of Writers and Writing Programs. MA 1978, MFA 1981, University of Iowa.

Ferreira, Celso, M., Assistant Professor, Civil, Environmental and Infrastructure Engineering. BS 2003, MS 2007 Federal University of Santa Catarina; PhD 2012 Texas A&M University.

Ferry, Matthew, Assistant Professor of Physical Education, School of Recreation, Health, and Tourism. BSEd 2003, University of Wisconsin Oshkosh; MS 2007, Arizona State University; PhD 2011, Wayne State University.

Feuer, Mia, Professor of Art and Visual Technology. BFA 2006, University of Manitoba; MFA 2009, Virginia Commonwealth University.

Finkelstein, James H., Professor of Public Policy. BS 1974, Miami University; MA 1977, PhD 1980, Ohio State University.

Finn, Andrew, Term Associate Professor, Communication. BS 1972, St. John Fisher College; MA 1977, State University of New York, Geneseo; MA 1981, PhD 1983, Washington University, St. Louis.

Fisher, Morgan D., Assistant Director of Career Services, School of Public Policy; BS 2004, Kansas State University; Med 2007, Bowling Green State University.

Flinn, Jane M., Associate Professor of Psychology. BA 1960, Oxford University; MS 1962, University of California; PhD 1969, Catholic University of America; PhD 1974, George Washington University.

Flores, Thomas E., Assistant Professor, School for Conflict Analysis and Resolution. BA 1994, Harvard University; PhD 2008, University of Michigan, Ann Arbor.

Floyd, Stephanie E., Director of Graduate Admissions, School of Public Policy. BA 2003, College of William and Mary.

Fondufe, Gwendolyn, Term Assistant Professor of Biology., Term Assistant Professor of Biology. B.Ed 1985, University of Ibadan; M.Sc 1986, University of Ibadan; Ph.D 1995, University of Illinois.

Forcier, Mary Frances, Director, Colonial Academic Alliance. BA 1983, Lehigh University; MS 1989, PhD 2005, Carnegie Mellon University.

Ford, Martin, Senior Associate Dean and Professor of Education, College of Education and Human Development. BS 1975, Pennsylvania State University; PhD 1980, University of Minnesota.

Forkner, Rebecca, Assistant Professor, Environmental Science and Policy. BS 1993, University of Cincinnati; PhD 1998, University of Georgia.
Foster, Gregory D., Professor of Chemistry. BS 1978, University of California, Davis; MS 1981, California State University, Hayward; PhD 1985, University of California, Davis.

Foster, John Burt, Jr., University Professor of English. BA 1967, Harvard University; MPhil 1971, PhD 1974, Yale University.

Fox, Donna M., Associate Dean, Office for Academic Integrity, University Life. BS 1985, Kansas State University; MS 1992, George Mason University.

Fox, Rebecca, Associate Professor of Education, Graduate School of Education. BA 1972, Randolph-Macon Women’s College; MA 1993, PhD 1999, George Mason University.

Frankenfeld, Cara, Assistant Professor of Global and Community Health. BS 1996, Northern Arizona University; MS 2000, University of Arizona; PhD 2003, University of Washington.

Fraser, Joy, Assistant Professor of English. MA 1999, University of Edinburgh, Scotland; MA 2005, PhD 2011, Memorial University of Newfoundland, Canada.

Frazier, Wendy, Associate Professor of Education, Graduate School of Education. BA 1992, Rice University; MEd 1997, University of Houston; EdD 2001, Teacher's College, Columbia University.

Frederick, Helen, Professor of Art and Visual Technology. BFA 1967, MFA 1969, Rhode Island School of Design.

Freeborne, Nancy, Coordinator of Community Health Internships and Term Assistant Professor of Global and Community Health. BA 1983, Lafayette College; BS 1985, MPH 1994, DrPH 2009, George Washington University.

Freeman, Elizabeth, Assistant Professor, New Century College. BS 1992, Vanderbilt; MS 2000, Virginia Commonwealth University; PhD 2005, George Mason University.

Frendak-Blume, Allison, Assistant Professor of Public Policy and Director, Peace Operations Policy Program. BA 1989, Seton Hall University; MA 1998, Montclair State University; PhD 2004, George Mason University.

Frenn, Chawky, Associate Professor of Art and Visual Technology. BFA 1985, Massachusetts College of Art; MFA 1988, Temple University.

Fritschler, A. Lee, Professor of Public Policy. BA 1959, Union College; MPA 1960, Syracuse University; PhD 1965, Maxwell School of Citizenship and Public Affairs, Syracuse University.

Froman, Wayne J., Associate Professor, Philosophy. BA 1966, Yale University; MA, PhD 1975, Fordham University.

Fryxell, Karl J., Associate Professor of Biology. BA 1975, BS 1975, University of Texas, Austin; PhD 1983, California Institute of Technology.

Fuchs, Cynthia J., Associate Professor of English. BA 1984, MA 1985, University of Pennsylvania; PhD 1989, University of Connecticut.

Fuertes, Al, Term Assistant Professor, New Century College. BTh 1990 Silliman University, Philippines; MA 1997 Associated Mennonite Biblical Seminary; PhD 2007 George Mason University.

Fujiwara, Manako, Term Assistant Professor of Japanese. MA 1993, Arkansas State University; PhD 2004, University of Minnesota.

Fulcher, Amie, Director of Academic Operations, College of Education and Human Development. BS 1985, East Carolina University; MEd 1997, PhD 2007, George Mason University.
Fulcher, Debra, Instructor of Education, Graduate School of Education. BS 1975, MEd 1978, George Mason University.

Fuller, Stephen F., University Professor of Public Policy; Dwight C. Schar Endowed Faculty Chair; Director, Center for Regional Analysis. BA 1962, Rutgers University; MCP 1964, University of Mississippi; PhD 1969, Cornell University.

Gabel, Michael Randy, Associate Professor, New Century College. BS 1965 MIT; PhD 1972 Brandeis University.

Gaffney, Kathleen F., Professor of Nursing. BS 1967, St. Joseph College; MS 1971, PhD 1984, University of Maryland.

Gaj, Krzysztof, Associate Professor, Electrical and Computer Engineering. MS 1988, PhD 1992, Warsaw University of Technology.

Gallagher, Catherine A., Director, Cochrane Collaboration College of Policy; Associate Professor, Criminology, Law and Society. BA 1991, College of Wooster; MA 1996, PhD 2000, University of Maryland.

Gallehr, Donald Raymond, Associate Professor of English. BA 1964, St. Bonaventure University; MA 1966, Fordham University; PhD 1974, Catholic University of America.

Galluzzo, Gary, Professor of Education, Graduate School of Education. BA 1973, Utica College; MS 1975, PhD 1983, Syracuse University.

Ganesan, Rajesh, Associate Professor, Systems Engineering and Operations Research. BS 1996, National Institute of Technology, India; MS 2002, MA, PhD 2005, University of South Florida.

Gantz, Donald Thomas, Professor and Chair, Applied Information Technology. AB 1966, Fordham University; MA 1971, PhD 1974, University of Rochester.

Gao, Qing, Assistant Professor of Arts Management. BS 2005, Fudan University; MA 2007, George Mason University.

Gao, Yuan, Assistant Professor, Finance. BS 1995, Wuhan University; MS 1998, MA 2004, PhD 2005 Cornell University.

Garner, Pamela W., Associate Professor, New Century College. BSW 1982, University of Tennessee; MA 1988, University of Houston; PhD 1992, Texas A&M University.

Gentle, James, University Professor, Computational and Data Sciences and Statistics. BS 1966, University of North Carolina; MA 1969, Louisiana State University; MCS 1973, PhD 1974, Texas A&M University.

Gentry, Anne G., Associate University Counsel. BA 1991, College of William and Mary; 1994 JD, George Mason University.

George, Angela S., Assistant Director, History of Decorative Arts. BA 1994 University of California, Los Angeles; MA 1999 Parsons School of Design; PhD 2011 University of Maryland.

George, Cindy, Instructor of Education, Graduate School of Education. BA 1979, Peabody College.

Gerard, Andrew L., Director, Men’s and Women's Track and Field. BS 1992, Colgate University.

Gerber, Naomi Lynn H., University Professor of Rehabilitation Science and Director, Center for the Study of Chronic Illness and Disability. BA 1965, Smith College; MD 1971, Tufts University School of Medicine.
Gerber, Steven, Reference and Liaison Librarian, University Libraries. BA 1973, University of Minnesota, Duluth; MA 1975, University of California, San Diego; MLS 2003, University of Buffalo.

Gero, Edward, Associate Professor of Theater. BA 1976, Montclair State College.

Gero, John, Research Professor, Krasnow Institute for Advanced Study. BS 1965, University of New South Wales; MS 1966, PhD 1974, University of Sidney.

Gewa, Constance, Assistant Professor of Nutrition and Food Studies. BS 1994, Egerton University, Kenya; MS 1998, University of Nairobi, Kenya; MPH 2003, PhD 2006, University of California, Los Angeles.

Giang, Phan, Associate Professor of Health Administration and Policy. BS 1985, Moscow University; MS 1998, Australian National University; PhD 2003, University of Kansas.

Gibbs, Frederick, Professor of History. BA 1998, Carleton College; MA 2002, PhD 2009, University of Wisconsin, Madison.

Gibson, Timothy A., Associate Professor, Communication. BA 1992, Evergreen State College; MA 1995, University of Massachusetts; PhD 2001, Simon Fraser University.

Gifford, Jonathan L., Professor of Government and Politics, Associate Dean for Research, and Director, Transportation Policy, Operations and Logistics Program. BS 1976, Carnegie Mellon University; MS 1979, PhD 1983, University of California, Berkeley.

Gilbert, James E., Assistant Dean, Academic and Career Services, BA 1997 Trinity College; MA 1999 University of Louisiana Lafayette; PHD (ABD) 2006 The Catholic University of America.

Gilbert, Paula Ruth, Professor of French, Canadian and Women and Gender Studies. BA 1967, New York University; MA 1969, PhD 1973, Columbia University.

Gill-Lang, Amandeep, Instructional Professor of Forensic Science. BS 2003, University of California-Berkeley, MS 2005, University of Strathclyde.

Gillevet, Patrick M., Professor of Environmental Science and Policy and Affiliate Professor, Bioinformatics and Computational Biology. BS 1976, University of Toronto; PhD 1982, University of Manitoba.

Gilmore, Michael, Assistant Professor, New Century College. BS 1995, Colorado State University; PhD 2005, Miami University.

Gimm, Gilbert, Associate Professor of Health Administration and Policy. BA 1992, Harvard University; MBA 1999, PhD 2005, University of Pennsylvania.

Gingold, Yotam I., Assistant Professor, Computer Science. BS 2002 Brown University; MS 2005, PhD 2009 New York University.

Ginsberg, Mark R., Dean, College of Education and Human Development. BS 1975, State University of New York; MS 1978, PhD 1981, Pennsylvania State University.

Gliozzi, Mario, Research Assistant Professor, Physics and Astronomy. Laurea 1994, PhD 1999, Torino University, Italy.

Goerger, Benjamin, Assistant Professor of Exercise, Fitness and Health Promotion, School of Recreation, Health and Tourism. BA 2005, University of North Carolina at Chapel Hill; MS 2007, University of Pittsburgh; PhD 2012, University of North Carolina at Chapel Hill.

Goldin, Rebecca F., Professor of Mathematical Sciences. BA 1993, Harvard University; PhD 1999, Massachusetts Institute of Technology.

Goldstone, Jack A., Hazel Professor of Public Policy and Director, Center for Global Policy, School of Public Policy. BA 1976, MA 1979, PhD 1981, Harvard University.

Gomaa, Hassan, Professor, Computer Science. BSc 1967, University College, London University; DIC 1968, PhD 1976, Imperial College, London University.

Gomez-Moran, Dolores, University Ombudsman. BA 1987, University of Oviedo, Spain; MA 1990, Boston College.

Goodale, Mark, Associate Professor, School for Conflict Analysis and Resolution. BA 1990, University of California, Los Angeles; MSc 1991, London School of Economics; JD 1994, University of the Pacific, McGeorge School of Law; LLM 1998, University of Wisconsin Law School; PhD 2001, University of Wisconsin.

Goodings, Deborah J., Dewberry Professor and Chair, Department of Civil, Environmental, and Infrastructure Engineering; Volgenau School of Engineering. BS 1975, University of Toronto; PhD 1979, Cambridge University.

Goodman, Rachel, Assistant Professor of Education, Graduate School of Education. BS 2002, University of North Carolina; MEd 2006, PhD 2009, University of Florida.

Goodwin, Stephen Hardy, Professor of English. AB 1965, Harvard University; MA 1969, University of Virginia.

Gopin, Marc, James H. Laue Professor of World Religions, Diplomacy, and Conflict Resolution, School for Conflict Analysis and Resolution. BA 1979, Columbia College; MA 1988, PhD 1992, Brandeis University.

Gorski, Paul, Associate Professor of Interdisciplinary and Integrative Studies, New Century College. BA 1994, MEd 1995, PhD 1998, University of Virginia.

Gouleta, Eirini, Associate Professor of Education, Graduate School of Education. BS, MS 1990, Democritus University, Greece; MEd 1999, George Mason University; EdD 2002, George Mason University.

Graff, Heidi, Director, Mason LIFE Program. BS 1986, State University of New York; MA 1987, Long Island University; PhD 2007, George Mason University.

Grandas, Ludy, Term Assistant Professor, Modern and Classical Languages. BA 1992, Universidad Pedagogica y Tecnologica de Colombia; MA 1996, Universidad Distrital de Bogota; PhD 2010, George Mason University.

Granfield, Patricia G., Term Instructor of Mathematical Sciences. BA 1972, Swarthmore College; JD 1978, University of Virginia School of Law; MS 2003, George Mason University.

Grant, Geraldine M., Associate Professor, Biology. BA 1987, Trinity College, Ireland; PhD 1993, Dublin City University, Ireland.

Grant, Rachel, Associate Professor of Education. BA 1973, Howard University; MA 1977, University of the District of Columbia; PhD 1990, University of Maryland.

Green, Judith A., Executive Director, Office of International Programs and Services. B.A. 1978, University of Massachusetts, Amherst; M.Ed. 1979, Framingham State College.

Greenwood, Pamela, Research Associate Professor, Psychology. BS 1969, University of Illinois; PhD 1977, State University of New York, Stony Brook

Greet, Michele, Associate Professor, History and Art History. BA 1993, Bowdoin College, MA 1998, City University of New York, Hunter College; PhD 2004, New York University.
Gregg, Christopher A., Term Assistant Professor, Art History. BA 1989, University of Georgia; MA 1991, PhD 2000, University of North Carolina, Chapel Hill.

Grimbly, Gregory, Assistant Professor of Computer Game Design. BFA 1994, James Madison University.

Gring-Pemble, Lisa, Associate Dean, New Century College. BA 1992, St. Olaf College; MA 1996, PhD 2000, University of Maryland, College Park.

Griva, Igor, Associate Professor of Mathematical Sciences. BS 1993, MS 1994, Moscow State University; PhD 2002, George Mason University.

Groening Stephen, Assistant Professor of English. BA 1994, Hamilton College; MA 2001, Claremont Graduate University; PhD 2008, University of Minnesota.

Grogan-Barone, Barbara, Lecturer of English. BA 1971, LaSalle University; MA 1976, Purdue University.

Grosse, Robert, Professor & Director for Center for Global Business Innovation and Transformation. AB 1973, Princeton University; PhD 1977, University of North Carolina.

Groth, Lois, Assistant Professor of Education, Graduate School of Education. BS 1985, Cornell University; MEd 1992, Plymouth State University; PhD 1999, University of Maryland.

Grotophorst, C. Wally, Associate University Librarian for Automated Systems, University Libraries. BA 1976, Western Carolina University; MSLS 1977, University of Tennessee, Knoxville; MA 1982, Central Michigan University.

Guagnano, Gregory, Associate Professor of Sociology. BS 1971, Pennsylvania State University; PhD 1986, University of California, Davis.

Guccione, Andrew, Professor and Chair, Rehabilitation Science. AB 1972, Boston College; MA 1975, Temple University; MSPT 1978, PhD 1988, Boston University; DPT 2003, MGH Institute of Health Professions.

Guenther, Stacey, Educational Program Director, Consciousness & Transformation Center, New Century College. BA 1991 Southern Methodist University; MS 2004 George Mason University.

Guessford, Jesse, Assistant Professor of Music, College of Visual and Performing Arts. BS 1995, West Chester University; MM 1997, Crane School of Music, State University of New York, Potsdam; DMA 2006, University of Illinois.

Guilford, Renate H., Associate Provost for Enrollment Planning and Administration. MA 1995, George Mason University.

Gupta, Sarika, Assistant Professor, Graduate School of Education. BSc 2000, MEd 2003, PhD 2010, University of Maryland at College Park.

Gusterson, Hugh, Professor of Cultural Studies. BA 1980, Cambridge University; MA 1982, University of Pennsylvania; PhD 1992, Stanford University.

H

Haack, Barry Norbert, Professor of Geography and Geoinformation Science. BS 1969, University of Wisconsin; MA 1972, San Diego University; PhD 1977, University of Michigan.

Habayeb, Salim J., Director of Health and Medical Policy Master’s of Science Program, School of Public Policy. SPCN Sciences 1966, University of Bordeaux; MPH 1978, University of Michigan; MD 1973, University of Bordeaux.

Habib, Anna, Term Assistant Professor of English. BA 2003, MFA 2006, George Mason University.
Haddad, Bassam, Assistant Professor, Department of Public and International Affairs; Director, Middle East Studies Program. BA 1992, George Mason University; MA 1994, PhD 2002, Georgetown University.

Haddock, Jorge, Dean School of Management. BS 1978, University of Puerto Rico; MS 1979, Rensselaer Polytechnic Institute; PhD 1981, Purdue University.

Hadley, Jack, Associate Dean for Finance and Planning, College of Health and Human Services and Professor of Health Administration and Policy. BA 1968, Brandeis University; PhD 1975, Yale University.

Haegele, Tennille J., Director of Graduate Admissions, School of Public Policy. BA 1999, Minnesota State University; MA 2003, San Diego State University.

Haines, David W., Professor of Anthropology. BA 1971, Denison University; MA 1973, PhD 1976, American University.

Haley, Marjorie, Professor of Education, Graduate School of Education. BS 1974, Hampton Institute; MEd 1976, Towson State University; PhD 1986, University of Maryland.

Hall, Lena (Libby), Director, Office of Education Services, College of Education and Human Development. BA 1970, University of Alabama; MEd 1979, University of Hawaii; EdD 1988, Virginia Polytechnic Institute and State University.

Hamblet, Natasha, Assistant Professor of Chemistry. BS 1987 Stony Brook; PhD 1995, Eastern Virginia Medical School and Old Dominion University.

Hamdani, Sumaiya A., Associate Professor of History. BA 1984, Georgetown University; MA 1989, PhD 1995, Princeton University.

Hammer, Christopher H., Assistant Professor, History and Art History. AB 1995, Dartmouth College; MA 1998, PhD 2004, University of North Carolina, Chapel Hill.

Hanley, Mary, Assistant Professor of Education, Graduate School of Education. BA 1975, MEd 1987, PhD 1998, University of Washington.

Hannan, Heather Groves, Prince William Campus Librarian, University Libraries. BA 1975, University of Virginia; MA 1990, MLS 1994, Catholic University of America.

Hanrahan, Nancy Weiss, Associate Professor of Sociology. BA 1976, Wesleyan University; MA 1989, PhD 1994, New School for Social Research.

Hanson, Robin D., Associate Professor of Economics. BS 1981, University of California, Irvine; MS, MA 1984, University of Chicago; PhD 1997, California Institute of Technology.

Hanweck, Gerald Alfred, Associate Dean of Graduate Programs, School of Management and Professor of Finance. BA 1964, Stanford University; MA 1967, PhD 1971, Washington University, St. Louis.

Harber, Linda, Associate Vice President for Human Resources and Chief Human Resources Officer. BA 1974, Indiana University; MS 1978, University of Kansas.

Harbour, Frances V., Associate Professor of Government and Politics. BA 1975, Barnard College; MA 1977, PhD 1986, Columbia University.

Hart, David, Professor, School of Public Policy. BA 1983, Wesleyan University; PhD 1995, Massachusetts Institute of Technology.
Harvey, James William, Chair and Associate Professor of Marketing. BS 1966, University of Illinois, Urbana-Champaign; MBA 1968, University of Miami; PhD 1977, Pennsylvania State University.

Harvey, Tamara, Associate Professor, English. BA 1988, Harvard University; MA 1991, University of Wisconsin, Madison; PhD 1998, University of California, Irvine.

Hathaway, Dawn, Assistant Professor of Education, Graduate School of Education. BS 1984, BS 1986, Purdue University; MEd 2003, PhD 2009, George Mason University.

Hatcher, Barbara, Associate Professor of Nursing. BS 1967, University of Connecticut; MPH 1970, University of North Carolina; PhD 1994, George Mason University.

Hattery, Angela J., Associate Director of Women and Gender Studies. BA 1988 Carleton College; MS 1991, PhD 1996 University of Wisconsin-Madison.

Hatton, Kimi S., Term Associate Professor of Chemistry. BS 1979, George Mason University; PhD 1983, Ohio State University.

Hayden, Michael V., Distinguished Visiting Professor, School of Public Policy. BA 1967, MA 1969, Duquesne University.

Haynes, Kingsley E., Ruth D. Hazel and John T. Hazel, M.D. Faculty Chair in Public Policy; University Professor, School of Public Policy. BA 1964, Western Michigan University; MA 1965, Rutgers University; PhD 1971, Johns Hopkins University.

Hazan, Robert M., Robinson Professor, Atmospheric, Oceanic and Earth Sciences. BS 1970, SM 1971, Massachusetts Institute of Technology; PhD 1975, Harvard University.

Heckl, Hugh, Robinson Professor of Public Affairs. AB 1965, George Washington University; MA 1967, Manchester University, England; PhD 1970, Yale University.

Heerschap, Marcelle, Dean, Student Academic Affairs and Advising. BA 1977, Brock University; MA 1980, University of South Florida.

Heineman-Pieper, Jessica, Assistant Professor, School of Public Policy. BA 1994, Oxford University; MA 1997, PhD 2005, University of Chicago.

Heiner, Ronald A., Professor of Economics. PhD 1975, University of California, Los Angeles.

Helmchen, Lorenz, Associate Professor of Health Administration and Policy. MA 1997, Humboldt University in Berlin; PhD 2004, The University of Chicago.

Henderson, Thomas (Tim), Term Instructor of Health Administration and Policy. BA 1974, North Carolina State University; MS 1979, University of North Carolina; MA 1986, University of Florida.

Hero, Gregory S., Executive Director/Professor, Center for Urban and Real Estate Studies. BA 1978, University of Virginia; MBA 1981, George Washington University.

Herrick, Jeffrey, Assistant Professor of Rehabilitation Science. BA 1994, Utica College of Syracuse University; MS 2005, James Madison University; PhD 2009, Virginia Commonwealth University.

High, Jack C., Professor of Economics, School of Public Policy. BA 1972, University of Utah; MA 1975, PhD 1980, University of California, Los Angeles.

Hinton, Roy W., Associate Dean for Executive Programs, School of Management. BA 1970, Southern Illinois University; MBA 1975, Pepperdine University; PhD 1981, Northwestern University.

Hintz, Kenneth J., Associate Professor, Electrical and Computer Engineering. BSEE 1967, Purdue University; MSEE 1979, PhD 1981, University of Virginia.

Hirsch, Susan F., Professor of Conflict Resolution and Anthropology, School for Conflict Analysis and Resolution. BA 1982, Yale College; PhD 1990, Duke University.

Hjalmarson, Margret, Associate Professor of Education, Graduate School of Education. BA 1998, Mount Holyoke College; MS 2000, PhD 2004, Purdue University.

Ho, Angela, Assistant Professor, History. BEd 1995, University of Sydney, Australia; MA 1998, Williams College; PhD 2007, University of Michigan, Ann Arbor.

Hobson, Daniel, Production Manager, College of Visual and Performing Arts. BA 1984, George Mason University.

Hoch, Theodore, Assistant Professor of Education, Graduate School of Education. BS 1983, University of Illinois at Urbana-Champaign; MS 1985, University of Wisconsin-Milwaukee; EdD 1989, West Virginia University.

Hodges, Devon Leigh, Professor of English; Associate Director of the Honors Program in General Education. BA 1972, University of California, Berkeley; MA 1977, PhD 1979, SUNY, Buffalo.

Hoefer, Anthony Dyer, Director of the University Scholars Program, Honors College. BA 2000, Wofford College; MA 2003, University of Alabama; PhD 2008, Louisiana State University.

Hoffmann, Beth, Assistant Professor, English. BA 2002, University of Notre Dame; C Phil 2006, PhD 2008, University of California, Berkeley.

Holland, Claudia C., Head, Copyright Resources Office and Sociology/Anthropology Liaison Librarian. BA 1979, Florida State University; MA 1986, MLIS 1989, Louisiana State University.

Holly, Marylou L., Associate University Registrar for Scheduling and Communication. BA 1994, University of California, Santa Cruz.

Holman, Emmett Lou, Associate Professor of Philosophy. BS 1963, Pennsylvania State University; MA 1967, PhD 1973, University of Maryland.

Holt, Mack P., Professor of History. BA 1971, MA 1973, Georgia State University; PhD 1982, Emory University.

Homayoun, Houman, Assistant Professor, Electrical and Computer Engineering. BS 2003, Sharif University of Technology; MS 2005, University of Victoria; PhD 2010, University of California, Irvine.

Honeychurch, Robert V., Associate Professor of Chemistry. BS 1977, Ohio State University; MS 1982, PhD 1984, Michigan State University.

Hoover, Catherine M., Director, Prince William Professional Center, Office of Continuing Professional Education. MA 1986, Virginia Polytechnic Institute and State University.

Hoppner, Jessica, Assistant Professor of Marketing. BS 2006, Villanova University; PhD 2010, Michigan State University.
Hopson, Mark C., Assistant Professor, Communication. BS 1993, Western Michigan University; MA 2002, PhD 2005, Ohio University.

Horstmeyer, Derek, Assistant Professor of Finance, BS 2004 University of Chicago; MS 2005 Stanford University; PhD 2012 University of Southern California.

Houck, Mark H., Professor, Civil, Environmental, and Infrastructure Engineering. BES 1972, PhD 1976, Johns Hopkins University.

Houser, Daniel E., Professor and Chair, Economic Science Laboratory. BA 1989, University of Wisconsin, Madison; PhD 1998 University of Minnesota.

Houser, Paul, Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1992, PhD 1996, University of Arizona.

Howell, Keith, Associate Dean for Research and Program Evaluation, College of Health and Human Services and Professor of Global and Community Health. BS 1967, Pikeville College; MA 1968, Eastern Kentucky University; PhD 1973, University of Toledo.

Hsieh, Jim, Associate Professor, Finance. BS 1991, National Chiao Tung University, Taiwan; MBA 1996, University of Rochester; MS 1997, Carnegie Mellon University; PhD 2002, Ohio State University.

Huang, Bohua, Professor, Atmospheric, Oceanic and Earth Sciences. BS 1982, MS 1985, Peking University; PhD 1992, University of Maryland.

Huang, Edward, Assistant Professor, Systems Engineering and Operations Research. BS 2001, MS 2003, National Tsing Hua University; MS 2008, PhD 2011 Georgia Institute of Technology.

Hudson, Seth Andrew, Assistant Director, Computer Game Design. BA 2005, MA 2009, University of Cincinnati.

Hughes Hallett, Andrew, University Professor of Public Policy and Economics. BA 1969, University of Warwick; MSc 1971, London School of Economics; DPhil 1976, University of Oxford (Nuffield College).

Hughes, Joy R., Vice President for Information Technology. PhD 1990, Union Institute.

Hughes-Oliver, Jacqueline M., Professor, Statistics. BA 1986 University of Cincinnati; PhD 1991, North Carolina State University.

Huheey, Cynthia A., Director, OCPE Herndon. BS 1969, MS 1971, Purdue University.

Humberton, Donald, Lecturer of English. BA 1970, MA 1975, University of Maryland; DAEd 1988, George Mason University.

Hurley, Michael E., Term Assistant Professor of Psychology, Undergraduate Advisor. BA 1984, Hofstra University; MA 1988, College of William and Mary; PhD 1993, University of Miami.

Huschle, Claire, Interim Director and Assistant Professor of Arts Management. BA 1995, University of Michigan; MA 1999, University of Texas at Austin.

Hussam, Abul, Professor of Chemistry. BSc 1975, MSc 1976, University of Dacca; PhD 1982, University of Pittsburgh.

Hussein Ali, Ghassan, Assistant Professor of Arabic. BA 1992, University of Mysore; MA 2000, University of Madras; PhD 2006, University of Texas.
Hylton, Constance Malone, Instructor of Accounting. BS 1972, Virginia Polytechnic Institute and State University; MBA 1981, Arizona State University.

I

Ihara, Emily, Associate Professor of Social Work. AB 1990, University of California, Berkeley; MSW 1993, University of California, Los Angeles; MA 2002, PhD 2005, Brandeis University.

Ikonomidou, Vasiliki, Assistant Professor, Electrical and Computer Engineering, The Volgenau School of Engineering. Dipl Eng 1997, PhD 2002, Aristotle University of Thessaloniki.

Iannitto, Joanne, Assistant Professor of Nursing. Diploma in Nursing 1975, Germantown Dispensary and Hospital School of Nursing; BSN 1989, Excelsior College; MSN 2001, DNP 2012, George Mason University.

Ioannou, D.E., Professor, Electrical and Computer Engineering. BS 1974, University of Thessaloniki; MS 1975, PhD 1978, University of Manchester.

Islam, Khondkar, Instructor of Applied Information Technology. BS 1988, George Mason University; MS 1992, American University.

Izen, Cornelia Lively, Assistant Professor of Education, Graduate School of Education. BS 1977, MS 1981, State University College at Buffalo; PhD 1988, University of Illinois at Urbana-Champaign.

Izmirli, Ilhan, Term Instructor, Statistics. BS 1974, Bosphorus University; MS 1979, University of Istanbul; PhD 2008, American University.

J

Jackson, Corey, Vice President for Compliance, Diversity and Ethics. BS Virginia Polytechnic Institute and State University; JD University of Miami School of Law.

Jacobs, Mark D., Associate Professor of Sociology. BA 1968, Columbia College, Columbia University; MA 1977, PhD 1987, University of Chicago.

Jafri, M. Saleet, Professor, Department of Bioinformatics and Computational Biology. BS 1986, Duke University; MS 1988, New York University; PhD 1993, City University of New York, Mount Sinai School of Medicine.

Jajodia, Sushil, University Professor, Applied Information Technology. BA 1969, MS 1971, Southern Illinois University; PhD 1977, University of Oregon.

Jaju, Anupam, Associate Professor, Marketing. BE 1994, Regional Engineering College, India; M Tech 1996, Indian Institute of Technology, India; PhD 2002, University of Georgia.

Jamison, D. Curtis, Affiliate Faculty, Bioinformatics and Computational Biology. BA 1985, University of Colorado, Boulder; PhD 1992, University of Denver.

Jann, Rosemary, Professor of English. BA 1971, Duke University; MA 1972, PhD 1975, Northwestern University.
Jazaeri, Amin, Assistant Professor, Physics and Astronomy. BS 1991, George Mason University; MS 1994, University of Southern California; MS 1996, PhD 2007, George Mason University.

Jeck, Michael, Term Assistant Professor of World Cinema. BA 1968, Yale University; MFA 1970, New York University.

Jenemann, Laura, Media Services/Film Studies Liaison Librarian. BA, Temple University; MLIS, Drexel University.

Jeong, Ho-Won, Professor of Conflict Resolution, School for Conflict Analysis and Resolution. BA 1981, Hankuk University; MA 1988, PhD 1993, Ohio State University.

Jerome, Marci Kinas, Assistant Professor of Education, Graduate School of Education. BS 1999, College of New Jersey; MEd 2001, PhD 2008, George Mason University.

Joiner, Wilsaan M., Assistant Professor, Bioengineering. BS 2001, Saint Louis University; PhD 2007, Johns Hopkins University School of Medicine.

Johnsen-Neshati, Kristin, Associate Professor of Theater. BA 1987, Swarthmore College; MFA 1992, DFA 2002, Yale School of Drama.

Johnson, Devon, Associate Professor, Criminology, Law and Society. BA 1994, University of California, Santa Cruz; MA 1996, PhD 2002, University of California, Los Angeles.

Johnson, Kathleen Q., Assistant Vice President for Regional Campuses. George Mason University. BS 1990, MS 1996, George Mason University.

Johnson, Noel, Assistant Professor of Economics, BA 1995, Kenyon College; PhD 2004 Washington University, St. Louis.

Johnson, Robert, Director of Development, College of Education and Human Development. BA 1972, Spring Hill College; EML 2007, Georgetown University.

Johnson, Twila, Term Assistant Professor, English. BA 2005, Oklahoma Baptist University; MFA 2008, George Mason University.

Johnston, Joyce, Lecturer of English. BA 1969, Dickinson College; MA 1971, Emory University.

Johnston, Robert Dail, Associate Professor of Finance. BS 1966, MS 1967, PhD 1974, University of Alabama.

Joiner, Christopher, Associate Professor, Marketing. BA 1988, Duke University; MBA 1992, Wake Forest University; PhD 1997, University of Minnesota.

Jolly, Elizabeth, Director of State Government Relations. Office of the Senior Vice President. BA, MA 1973, James Madison University.

Jonas, Robert B., Chair and Associate Professor of Environmental Science and Public Policy. BS 1971, University of Miami; PhD 1981, University of North Carolina.

Jones, Charles, Associate Professor of English. BA 1979, St. John’s College, Maryland; PhD 1985, University of Massachusetts.

Jones, Garett, Associate Professor of Economics. BA 1992, Brigham Young University; MPA 1993, Cornell; MA 1994, University of California, Berkeley; PhD 2000, University of California, San Diego.

Jones, Keith, Associate Professor, Accounting. BA 1995, MA 1995, Brigham University; PhD 2004, University of Arizona.

Jones, Margaret, Associate Professor of Kinesiology, School of Recreation, Health and Tourism. BA 1982, University of Tennessee; MEd 1985, University of Houston; PhD 1989, University of Georgia.
Jones, R. Christian, Professor of Environmental Science and Public Policy. BA 1973, Rice University; MA 1977, Vanderbilt University; PhD 1980, University of Wisconsin.

Jordan, Yevette Richards, Associate Professor, Women and Gender Studies. BA 1982, College of William and Mary; MA 1988, MA 1990; MPhil 1991, PhD 1994, Yale University.

Joshi, Mahesh P., Associate Professor, Management. BS 1981, Diploma in Business Management 1984, St. Xavier’s College, India; PhD 1996, Temple University.

Joyce, James D., Associate Professor of Dance. BFA 1983, North Carolina School of the Arts; MFA 2003, George Mason University.

K

Kabbani, Nadine, Assistant Professor, Molecular Neuroscience. BS 1997, George Mason University; PhD 2003, Pennsylvania State University.

Kalbfleisch, M. Layne, Associate Professor of Education, Graduate School of Education. BA 1991, Kent State University; MEd 1995, PhD 2001, University of Virginia.

Kalinowski, Elizabeth, Director of Advising, College of Humanities and Social Sciences. BA 2003, MS 2009, Minnesota State University Moorhead.

Kaplan, Deborah, Associate Professor, English. BA 1972, Sarah Lawrence College; MA 1974, PhD 1979, Brandeis University.

Kaplan, Seth, Associate Professor, Psychology. BS 1998, University of Florida; MS 2003, PhD 2006, Tulane University.

Karametou, Maria, Assistant Professor, Art and Visual Technology. BA 1974, University of Maryland; MFA 1979, Maryland Institute College of Art.

Karton, Alissa, Assistant to the Vice President and Director of Special Projects, University Life. BA 1992, MA 1993, University of Rochester.

Karush, Matthew B., Director, Global Interdisciplinary Programs and Associate Professor, History and Art History. BA 1990, Columbia University; MA 1992, PhD 1997, University of Chicago.

Kashanchi, Fatah, Professor, Molecular and Microbiology. BS 1983, NW Missouri State University; MS 1985, Emporia State University PhD 1991 University of Kansas.

Kashdan, Todd, Associate Professor, Psychology. BS 1996, Cornell University; MA 2000, PhD 2004, State University of New York, Buffalo.

Katona, Peter G., Professor, Electrical and Computer Engineering. BS 1960, University of Michigan; MS 1962, PhD 1965, Massachusetts Institute of Technology.

Katz, Mark N., Professor of Government and Politics. BA 1976, University of California, Riverside; MA 1978, Johns Hopkins University; PhD 1982, Massachusetts Institute of Technology.

Kauffman, Christopher, Term Assistant Professor, Computer Science. BS 2004, MS 2010 University of Minnesota.

Kaufmann, David, Professor of English. AB 1980, Princeton University; PhD 1989, Yale University.
Kauzlarich, Richard D., Deputy Director of the Terrorism, Transnational Crime and Corruption Center (TraCCC), School of Public Policy. BA 1966, Valparaiso University; MA 1967, Indiana University; MA 1976, University of Michigan.

Keach, Stacy, Heritage Professor of Theater, BA 1963, University of California; MFA 1996, Ohio State University.

Keaney, Winifred Gleson, Associate Professor of English. BA 1964, Good Counsel College; MA 1966, Duquesne University; PhD 1975, University of Maryland.

Keenan, Jody A., Director, Small Business Development Center, Center for Enterprise Research and Development, Mason Enterprise Center. BS 1986, College of William and Mary; MBA 1990, La Salle University.

Keene, Deborah M., Director, Law Library. BA 1969, University of Dayton; MEd 1997, DEd 2000, George Mason University.

Keene, Susan S., Director of Educational Media and Executive Producer, GMU-TV. BA, Illinois College; MS Northwestern University; DA 2000, George Mason University.

Kehoe, Kathleen M., Associate Director, Development Office. BS 1969, University of Dayton; MEd 1997, DEd 2000, George Mason University.

Kehoe, Susan S., Director of Educational Media and Executive Producer, GMU-TV. BA, Illinois College; MS Northwestern University; DA 2000, George Mason University.

Keith, Sarah, Associate Professor, English. BA 1996, Bucknell University; MFA 2000, University of Iowa.

Kelley, Anthony Eammon, Professor of Education, Graduate School of Education. BA 1979, St. Patrick’s College, Dublin; MA 1984, California State University; PhD 1988, Stanford University.

Kelley, Michael R., Executive Director, Capitol Connection; Distinguished Service Professor. BA 1962, MFA 1965, PhD 1970, Catholic University of America.

Kellogg, Jean, Director of Community Arts Partnerships, College of Visual and Performing Arts. BM 1979, Florida State University; MM 1983, Westminster Choir College.

Kelly, Anthony Eammon, Professor of Education, Graduate School of Education. BA 1979, St. Patrick’s College, Dublin; MA 1984, California State University; PhD 1988, Stanford University.

Kelley, Nancy, Assistant Professor of Nursing. ADN 1980, Fairmont State College; BSN 1995, University of Wisconsin, Milwaukee; MSN 2007, DNP 2011, University of Virginia.

Kelly, T. Mills, Associate Professor, History and Art History. BA 1981, University of Virginia; MA 1988, PhD 1996, George Washington University.

Kendrick, Patricia A., Head Coach, Women’s Volleyball. BS 1983, George Mason University.

Kennedy, Christopher, Assistant Professor of Environmental Science. BS 2005, Clarkson University; PhD 2011, University of Wyoming.

Kenny, Janet, Assistant Director of Graduate Admissions, School of Public Policy. BA 2007, Northeastern University.

Kerschberg, Larry, Professor, Computer Science. BS 1964, Case Institute of Technology; MS 1966, University of Wisconsin; PhD 1969, Case Western Reserve University.

Ketkar, Sonia, Assistant Professor of Public Policy, School of Public Policy. BC 1999, MC 2001, University of Pune; PhD 2006, Temple University.

Keyser, Randall, Associate Professor of Rehabilitation Science and Center for the Study of Chronic Illness and Disability. BS 1979, MA 1981, Kent State University; PhD 1985, University of Toledo.

Kidd, Julie, Associate Professor of Education, Graduate School of Education. BA 1980, University of Richmond; MEd 1984, James Madison University; PhD 1992, Virginia Polytechnic Institute and State University.
Kierner, Cynthia Anne, Professor, History and Art History. BA 1980, McGill University; MA 1982, PhD 1986, University of Virginia.

Kilkenny, John, Assistant Professor. BM 1999, Juilliard School; MM 2001, Temple University.

Kilmer, Claudia, Instructor, English Language Institute. BS 1975, Virginia Polytechnic Institute and State University; MEd 1996, George Mason University.

Kim, Dae Young, Assistant Professor of Sociology, BA 1991, State University of New York, Binghamton; MPhil 1998, PhD 2001, City University of New York Graduate Center.

Kim, Jaeun, Assistant Professor, Sociology and Anthropology. BA 2001, MA 2003, Seoul National University; MA 2006, PhD 2011 University of California.

Kim, Suk-Sun, Assistant Professor of Nursing. BSN 1997, MSN 2000, Ewha Womans University; PhD 2008, University of Arizona.

King, Eden, Associate Professor, Psychology. BA 2001, MA 2004, PhD 2006, Rice University.

King, Sara M., Term Assistant Professor, English. AB 1983, Cornell University; MFA 1989, University of Arkansas.

King-Sears, Margaret (Peggy), Professor of Education, Graduate School of Education. BS 1977, Valdosta State College; MA 1980, University of North Florida; PhD 1989, University of Florida.

Kinnaman, Theodore, Chair, Department of Philosophy, and Associate Professor of Philosophy. BA 1985, Carleton College; MA 1988, PhD 1995, University of Wisconsin, Madison.

Kinser, Jason M., Associate Professor, Bioinformatics and Computational Biology. BA 1985, William Jewell College; MS 1987, University of Alabama, Huntsville; DSc 1993, South Eastern Institute of Technology.

Kirsch, Vicki, Term Assistant Professor of Social Work. BA 1978, Georgetown University; MA 1980, The University of Chicago; PhD1990, Emory University; MSW 1997, Boston University.

Kitsanta, Panagiota, Associate Professor of Health Administration and Policy. BA 1996, Queens College (CUNY); MS 1999, James Madison University; MS 2000, PhD 2003, Florida State University.

Kitsantas, Anastasia, Professor of Education, Graduate School of Education. BA 1992, BS 1992, MS 1993, Queens College, City University of New York; MA 1995, PhD 1996, Graduate School and University Center, City University of New York.

Klein, Daniel B., Professor of Economics, BS 1983, George Mason University; PhD 1990, New York University.

Klimoski, Richard J., Professor of Management and Psychology. BA 1965, University of Massachusetts; MS 1968, PhD 1970, Purdue University.

Klimov, Dmitri, Associate Professor, Bioinformatics and Computational Biology. MS 1989, PhD 1992, Moscow State University.
Klinger, Barry, Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1985, PhD 1992, Massachusetts Institute of Technology and Woods Hole Oceanographic Institution.

Klm, Ji-Ho, Assistant Professor of Sport Management. College of Education and Human Development, School of Recreation, Health, and Tourism. BA 2003, MS 2005, PhD 2010, University of Tennessee.

Kluger, Matthew J., Professor of Health Administration and Policy. BS 1967, Cornell University; MS 1969, PhD 1970, University of Illinois; Postdoctoral 1972, Yale University; MBA 1997, Anderson Schools of Management, University of New Mexico.

Koblentz, Gregory D., Associate Professor of Government and Politics and Deputy Director of Biodefense. BA 1996, Brown University; MPP 1999, Harvard University; PhD 2004, Massachusetts Institute of Technology.

Koche, Malda, Term Associate Professor of Biology. BS 1984, American University of Beirut; 1989 PhD, Georgetown University.

Koch, Lisa, Term Associate Professor of English. BA 1987, Washington University; MA 1992, PhD 2000, University of Maryland.

Koizumi, Naoru, Associate Professor of Public Policy. BA 1992, Aoyama-Gakuin University; MA 1994, PhD 2002, University of Pennsylvania; PhD 2005, Hyogo Medical College.

Koper, Christopher S., Associate Professor, Criminology, Law, and Society. BA 1988, MA 1992, PhD 1995, University of Maryland.

Korostelina, Karyna, Associate Professor, School for Conflict Analysis and Resolution. BA 1990, MA 1991, National Kiev University; PhD 1994, Odessa State University; Dr. of Sc. 2003, Ukrainian Academy of Science.

Kort, David A., Term Assistant Professor of Chemistry. BS 1991, Hope College; PhD 1997, Purdue University

Kosecka, Jana, Associate Professor, Computer Science. MSE, EECS 1988, Slovak Technical University, Bratislava, Slovakia; PhD 1996, University of Pennsylvania.

Kosoglu, Laura, Term Assistant Professor, Civil, Environmental and Infrastructure Engineering. BS 2005, MS 2007, Lehigh University; PhD 2011, Virginia Tech.

Kovac, S. Linda, Director of Corporate Relations, Volgenau School of Engineering. BA 2007, Burlington College; MS 2012, George Mason University.

Koyama, Mark, Assistant Professor of Economics. BA 2003, Trinity College, University of Oxford; MA 2006, PhD 2006, Wadham College, University of Oxford.

Kozowski, James, Associate Professor of Parks, Recreation, and Leisure Studies, School of Recreation, Health, and Tourism. BA 1972, Johns Hopkins University; MA 1973, University of Chicago; MS 1976, University of Illinois; JD 1980, University of Maryland School of Law; PhD 1986 University of Maryland.

Kravitz, David A., Professor of Management. BA 1974, Carleton College; MA 1978, PhD 1980, University of Illinois, Urbana-Champaign.
Kravitz, Edward Walter, Professor of Art and Visual Technology. BFA 1964, School of the Art Institute of Chicago; MFA 1967, Syracuse University.

Kreps, Gary, Chair and University Professor, Communication and Eileen P. and Steve A. Mandell Term Professor of Health Communication. BA 1975, MA 1976, University of Colorado; PhD 1979, University of Southern California.

Krueger, Frank, Assistant Professor of Cognitive Neuroscience, Department of Molecular Neuroscience/Department of Psychology. MA 1997, PhD 2000, Humboldt University Berlin, Germany; MA 2002, Free University Berlin, Germany; Habilitation (Dr. habil.) Psychology 2010, Humboldt University Berlin, Germany.

Kryah, Joshua, Term Assistant Professor of English and BIS. BA 1999 University of Missouri; MFA 2002 University of Iowa; PhD 2006 University of Nevada.

Kuebrich, David Lawrence, Associate Professor of English. AB 1966, Washington University; MA 1969, PhD 1973, University of Chicago.

Kulesza, John S., Professor of Mathematical Sciences. BS 1978, Bucknell University; MA 1981, PhD 1987, State University of New York, Binghamton.

Kulick, Jeffrey, Instructor of Marketing. BA 1970, Oakland University; MBA 1977, Keller Graduate School of Management.

Kurtay, Pelin A, Associate Chair/Associate Professor, Electrical and Computer Engineering. BS 1994, MS 1997, Ankara University; PhD 2005 George Mason University.

Kurtz, Lester R., Professor of Sociology, BA 1972, Westmar College; MAR 1974, Yale University; PhD 1980, University of Chicago.

La Porte, Todd M., Term Associate Professor, School of Public Policy. BA 1980, Swarthmore College; MA, PhD 1989, Yale University.

Laemmerzahl, Arndt, Term Assistant Professor of Biology. BS 1983, MS 1990, George Mason University; MS 1993, Texas Tech University; PhD 2005, George Mason University.

Lair, Meredith H., Assistant Professor, History and Art History. BA 1994, Ohio University; PhD 2004, Pennsylvania State University.

Lamb, Jennifer, Associate Dean for Development, The Volgenau School of Engineering. BA 1989, University of Maryland, College Park; MS 1993, University of Pennsylvania.

Lamba, Harbir, Associate Professor of Mathematical Sciences. BA 1988, Cambridge University; PhD 1994, Bristol University.

Lancaster, Roger N., Director, Cultural Studies Program; Professor of Anthropology and Cultural Studies. BA 1982, University of North Carolina; MA 1983, PhD 1987, University of California, Berkeley.
Landry, Elena, Global Programs and Foreign Languages Liaison Librarian. BA, MS, Tbilisi State University; MLIS, Louisiana State University.

Landsberg, Alison, Associate Professor, History and Art History. BA 1989, Williams College; MA 1991, PhD 1996, University of Chicago.

Langfred, Claus W., Associate Professor, Management. BS 1993, Washington University, St. Louis; MS 1995, PhD 1998, Northwestern University.

Largen, Kim, Term Assistant Professor, Environmental Science and Policy. BA 1980, University of Virginia; MS 1988, PhD 2000, George Mason University.

Laskofski, Michael, Associate Vice President for Research Operations. BBA 1996, MBA 2003, Boston University.

Lathbury, Roger Delaire, Professor of English. BA 1967, Middlebury College; MA 1968, Indiana University.

Lattanzi Shutika, Debra L., Associate Professor, English. BSN 1987, West Virginia University School of Nursing; MA 1993, George Mason University; MA 1998, PhD 2001, University of Pennsylvania.

Lawrence, James Franklin, Professor of Mathematical Sciences. BS 1972, Oklahoma State University; PhD 1975, University of Washington.

Lawrence, Susan, Term Assistant Professor, English. BA 1982, College of William and Mary; MA 1993, University of Wisconsin, Madison; PhD 2005, Carnegie Mellon University.

Lawrey, James D., Professor of Environmental Science and Policy and Professor of Biology. BS 1971, Wake Forest University; AM 1973, University of South Dakota; PhD 1977, Ohio State University.

Lawson, Holly, Assistant Professor of Education, Graduate School of Education. BA 1994, University of Virginia; MA 2002, PhD 2010, University of Arizona.

Lawton, Brian A., Assistant Professor, Criminology, Law and Society. BA 1995, Rhode Island College; MA 1998, PhD 2006, Temple University.

Laydendecker, Dennis, Director, Heritage Chair and Professor of Music, College of Visual and Performing Arts. BM 1975, American Conservatory of Music; MM 1981, Northwestern University; DMA 1988, Catholic University of America.

Leron, Jennifer, Coordinator of Administrative Services, FAST TRAIN Programs. BA 2004, MA 2008, University of Maryland.

Lechter, Mary, Associate Director of Potomac Arts Academy. BA 1985, University of Maryland.

Lee, Chi-Hyon, Assistant Professor of Management. BA 1987, University of California; MBA 1991, University of Southern California; PhD 2001, Boston University.

Lee, Hun, Associate Professor of Management. BS 1986, Georgia Institute of Technology; MBA 1988, Thunderbird School of Global Management; PhD 1995, University of Maryland.
Lee, Joanna, Digital Repository Services Librarian. BA 2003, University of Rochester; MLIS 2008, University of Iowa.

Lee, Jondoo, Term Assistant Professor of Finance, BA 1992 Yonsei University; MBA 1997 University of Rochester, PhD 2006 The George Washington University.

Lee, Seungwon (Shawn), Assistant Professor of Tourism and Events Management, School of Recreation, Health, and Tourism. BEng 1995, In-Ha University; MTA 2001, George Washington University; PhD 2009, Virginia Polytechnic Institute and State University.

Lee-Merrow, Susan W., Director, Special Programs, Virginia Small Business Development Center Network, Mason Enterprise Center. BA 1978, San Jose University.

Lee, Jennifer, Associate Professor, Modern and Classical Languages. BA 1986, University of Pennsylvania; MA 1988, New York University; MAT 1993, PhD 2000, Georgetown University.

Leeson, Peter, Professor of Economics. BA 2001; PhD 2005, George Mason University.

Leeman, Jennifer, Associate Professor, Modern and Classical Languages. BA 1986, University of Pennsylvania; MA 1988, New York University; MAT 1993, PhD 2000, Georgetown University.

Leeson, Peter, Professor of Economics. BA 2001; PhD 2005, George Mason University.

Leitch, Pauline, Director, Business Finance Center, Mason Enterprise Center. BA 1967, St. Mary’s College.

Leon, Sharon, Associate Professor, History and Art History. BA 1997, Georgetown University; PhD 2004, University of Minnesota.

Leonard, Charles, Term Faculty, Honors College. BA 1985 Clemson University; MA 1995 Miami University.

Leonard, Jeannie Brown, Dean of Student Academic Affairs, Advising and Retention. AB 1985, Mount Holyoke College; MEd 1990, University of Vermont; PhD 2007, University of Maryland.

Leppore, Jim, Professor of Dance. BA 1987, State University of New York; MFA 1989, Temple University.

Levin, Sharon, Assistant Professor, History and Art History. BA 1997, Georgetown University; PhD 2004, University of Minnesota.

Leventhal, Don, Associate Dean, School of Business Administration. BA 1972, State University of New York, Buffalo; MA 1974, PhD 1977, University of Illinois, Urbana-Champaign.

Levin, James Steven, Associate Professor of Russian. BA 1971, BA 1972, State University of New York, Buffalo; MA 1974, PhD 1977, University of Illinois, Urbana-Champaign.

Levy, David M., Professor of Economics. BA 1966, University of California, Berkeley; MA 1970, PhD 1979, University of Chicago.

Lewandowski, Cathleen, Professor and Chair of Social Work. BS 1975, Blackburn College; MSW 1981, St. Louis University; PhD 1997, University of Kansas.

Lewis, Virginia Ann, Director, Retention Initiatives. BS 1975, Towson State University; MA 1979, University of Maryland.

Li, Fei, Assistant Professor, Computer Science. BSc 1997, Jilin University; MS 2002, PhD 2007, Columbia University.

Li, Ning, Assistant Professor, Marketing. BS 1992, Nanjing Institute of Meteorology; MS 2002, PhD 2002, Duke University.

Li, Qiliang, Associate Professor, Electrical and Computer Engineering. BS 1996, Wuhan University; MS 1999, Nanjing University; PhD 2004, North Carolina State University.
Liberty, Paul J., Vice President for Government and Community Relations. BA 1988, George Mason University.

Lichter, Samuel, Professor, Communication. BA 1969, University of Minnesota; PhD 1977, Harvard University.

Lieb, Bernard Joseph, Jr., Professor of Physics and Astronomy. BS 1965, MS 1967, PhD 1971, College of William and Mary.

Lien, Jyh-Ming, Assistant Professor, Computer Science. BS 1999, National Cheng-Chi University; PhD 2006, Texas A&M University.

Light, Andrew, Associate Professor, Philosophy. BA 1989, Mercer University; MA 1992, PhD 1996, University of California, Riverside.

Lim, Teck Cheong, Associate Professor of Mathematical Sciences. BS 1970, Nanyang University; MA 1971, PhD 1974, Dalhousie University.

Lin, Jeng-Eng, Associate Professor of Mathematical Sciences. BS 1969, National Tsing Hua University; PhD 1976, Brown University.

Lin, Jessica H., Associate Professor, Computer Science. BS 1999, MS 2002, PhD 2005, University of California, Riverside.

Lindley, Lisa, Assistant Professor of Global and Community Health. BS 1991, George Mason University; MPH 1993, DrPH, 1997, University of South Carolina.

Ling, Yan, Associate Professor, Management. BA 1997, Central University of Finance and Economics; PhD 2004, University of Connecticut.

Linton, Harold, Director and Professor of Art and Visual Technology, College of Visual and Performing Arts. BFA 1969, Syracuse University; MFA 1972, Yale University.

Liotta, Lance, Codirector, Center for Applied Proteomics and Molecular Medicine, University Professor of Molecular and Microbiology. BA 1969, PhD 1974, MD 1976, Case Western Reserve University.

Lipovski, Leslie, Assistant Professor of Education, Graduate School of Education. BS 1991, University of Texas at Austin; MEd 1997, Texas Woman’s University; PhD 2004, University of Texas at Austin.

Lisin, Ling, Assistant Professor of Accounting. Bachelor 1998, Shanghai Jiao Tong University, China; MPhil 2000, Hong Kong University of Science and Technology; MS 2003, University of Rochester; PhD 2008, University of Connecticut.

Lister, Lisa M., Term Assistant Professor, English. BA 1997, Lewis and Clark College; MFA 2005, American University.

Listokin-Smith, Siona R., Assistant Professor of Public Policy. BS 2000, University of Pennsylvania; PhD 2007, University of California, Berkeley.

Liu, Zhong, Research Professor, Environmental Science and Policy. BS 1983, Shandong College of Oceanography; MS 1990, SD School of Mines and Technology; PhD 1995, Ohio State University.

Lockwood, J. Samaine, Assistant Professor, English. BA 1996, Vassar College; MA 1997, University of Michigan, Ann Arbor; PhD 2006, University of California, Davis.

Loerch, Andrew G., Associate Professor of Systems Engineering and Operations Research. BS 1974, Polytechnic Institute of Brooklyn; MS 1980, Naval Postgraduate School; MS 1989, PhD 1990, Cornell University.
Logerwell, Mollianne, Acting Director of VISTA Science Education. BS 1994, University of Rochester; MA 1997, College of William and Mary; PhD 2009, George Mason University.

Lohner, Rainald, Distinguished Professor of Fluid Dynamics, Department of Computational and Data Sciences. MS 1982, Technische Universitat, Braunschweig, West Germany; PhD 1984, University College of Swansea, Wales.

Long, Lauren, Director, Student Involvement. BS 1994, State University of New York; MA 1996, Indiana State University.

Lont, Cynthia, Professor of Communication. BA 1974, State University of New York; MA 1976, Southern Illinois University; PhD 1984, University of Iowa.

Lopez-Santana, Mariely, Assistant Professor, Department of Public and International Affairs. BA 1997, University of Puerto, Rio Piedras; PhD 2006 University of Michigan.

Lorie, Craig A, Term Assistant Professor, Electrical and Computer Engineering. BS 1990, Hofstra University; MS 1993, PhD 2005, University of Virginia.

Louh, Nyla, Assistant Director, Development, College of Visual and Performing Arts. BM 2003, James Madison University; MM 2006, George Mason University.

Lovejoy, Thomas E., University Professor of Public and International Affairs and Environmental Science and Policy. PhD 1971, Yale University.

Lu, Jian, Assistant Professor, Atmospheric, Oceanic and Earth Sciences. BS 1992, MS 1996, PhD 1999, University of Qingdao; PhD 2004, Dalhousie University.

Lucas, Nance, Associate Professor, New Century College. BA 1982, MA 1984, Pennsylvania State University; PhD 1999, University of Maryland.

Ludwick, Ann M., Assistant Professor and Undergraduate Programs Director, Public and International Affairs. BA 1988, Longwood University; MPA 1995, DA 2011, George Mason University.

Lukacs, Yehuda, Associate Provost for International Programs. Director, Center for Global Education. Professor, Public and International Affairs. BA 1980, MS 1982, PhD 1989, American University.

Luke, Sean, Associate Professor, Computer Science. BS 1993, Brigham Young University; PhD 2000, University of Maryland.

Lum, Cynthia, Associate Professor, Criminology, Law and Society. BA 1995, University of California; MS 1996, London School of Economics and Political Science; PhD 2003, University of Maryland.

Luther, David, Term Assistant Professor of Biology. BS 1995, University of Oregon; PhD 2008, University of North Carolina, Chapel Hill.

Lynch, Michael F., Director of University Police. BA 1978, University of Maryland; MA 1992, University of Baltimore; MS 1997, Johns Hopkins University.

Lyons, Michael, Instructor of Applied Information Technology. BAppSc, Chisholm Institute of Technology; MS, University of Maryland University College.

Lyons, Terrence P., Associate Professor of Conflict Analysis and Resolution, School for Conflict Analysis and Resolution. BA 1981, University of Virginia; MA 1985, Michigan State University; PhD 1994, Johns Hopkins University.

Lytton, Randolph Hoopes, Associate Professor of History. BA 1966, Pennsylvania State University; MA 1968, University of Washington; PhD 1973, Pennsylvania State University.

M
Macfarlane, Allison, Associate Professor, Environmental Science and Policy. BS 1986, University of Rochester; PhD 1992, Massachusetts Institute of Technology.

Madden, Charles, Term Associate Professor of Biology. BS 1989, Kansas State University; PhD 1996, Louisiana State University.

Maddox, Peggy Jo, Professor and Chair, Health Administration and Policy. BSN 1974, University of Nevada; MSN 1981, Catholic University of America; EdD 1995, Columbia University.

Maddox, Tamara A., Term Assistant Professor, Computer Science. BS 1987, George Mason University; JD 1991, College of William and Mary.

Magro, Anne M., Associate Professor, Accounting. BA 1987, The University of Michigan, Ann Arbor; MS 1991, PhD 1998, University of Illinois, Urbana-Champaign.

Maibach, Edward, University Professor and Director of Center of Excellence in Climate Change Communication Research; BA 1980, University of California; MPH 1983, San Diego State University; PhD 1990, Stanford University.

Maiello, Anthony Joseph, University Professor of Music. BS 1965, MS 1967, Ithaca College.

Mahatmya, Duhita, Assistant Professor, New Century College. BS 2007 Drake University; MS 2009, PhD 2011 Iowa State University.

Malawer, Stuart S., Distinguished Service Professor of Law and International Trade, School of Public Policy. BA, University of Buffalo; MA, PhD 1976, University of Pennsylvania.

Malek, Sam, Assistant Professor, Computer Science. MS 2004, PhD 2007, University of Southern California.

Mallett, Karyn Elizabeth, Assistant Director, English Language Institute. BA 1997, University of Iowa; MA 2002, California State University - Sacramento; PhD 2009, Purdue University.

Malloy, Jacquelyn A., Assistant Professor of Education. BA 1979, Duquesne University; MS 1980, West Virginia University; PhD 2008, Clemson University.

Manca, Germana, Assistant Professor of Geography and Geoinformation Sciences. PhD 1998, University of Sassari, Italy.

Mancini, Terri A., Director, Sponsored Research Administration, The Volgenau School of Engineering. BS 1993, Strayer University; MPA 2008, George Mason University.

Mandaville, Peter P., Associate Professor, Public and International Affairs. MA 1994, University of St. Andrews, Scotland; MA 1995, PhD 1999, University of Kent, Canterbury, United Kingdom.

Mandes, Evans John, Professor of Psychology and Interdisciplinary Arts; Senior Associate Dean for Budget and Personnel, College of Science. AB 1961, MS 1963, PhD 1966, George Washington University.

Mangus, Kathryn K., Term Instructor of Communication; Director for Student Media. BIS 1987, MAIS 1990, George Mason University.

Manitius, A.Z., Professor and Chair, Electrical and Computer Engineering Department. MSEE 1960, Academy of Mining and Metallurgy, Krakow, Poland; PhD 1968, Polytechnical School of Warsaw.

Mann, Wendy, Education and New Century College Liaison Librarian. BA, MLS, University of Pittsburgh.
Manon, Christopher A., Assistant Professor of Mathematical Sciences. BS 2003, Purdue University; MA 2006, PhD 2009, University of Maryland.

Mantz, Jeffrey W., Assistant Professor of Anthropology. BA 1993, University of Massachusetts; MA 1996, State University of New York, Binghamton; PhD 2003, University of Chicago.

Manuel Scott, Wendi N., Director, African and African American Studies Program and Term Associate Professor, History and Art History. BA 1994, College of Charleston; MA 1997, PhD 2003, Howard University.

Maradiegue, Ann, Assistant Professor of Nursing. BSN 1992, MSN 1995, PhD 2007, George Mason University.

Marcantonio, Carla, Assistant Professor, English. BA 1995, MA 1998, University of Colorado, Boulder; PhD 2007, New York University.

Marchant, Anne J., Associate Director, Mason Center for Conservation Studies; and Professor, Applied Information Technology. BA 1979, University of New Hampshire; MA 1982, PhD 1990, University of California, Berkeley.

Marcus, Brian, Associate Dean, Development, and Associate Professor, Arts Management. BA, Brandeis University; MAT 1970, Harvard University.

Marks, Michelle A., Vice Provost for Academic Affairs. BS 1991, James Madison University; MA 1993, PhD 1997, George Mason University.

Markx, Francien, Assistant Professor of German. MA (Doctoraal Examen) 1994, MA (Doctoraal Examen) 1994, Universiteit van Amsterdam (The Netherlands); PhD 2003, University of Illinois, Urbana-Champaign.

Martin, Joel, Assistant Professor of Exercise, Fitness and Health Promotion, School of Recreation, Health and Tourism. BS 2007, State University of New York at Binghamton; MS 2009, MS 2012, PhD 2012, Pennsylvania State University.

Martin, Scott, Assistant Dean, Research, Technology, and Institutional Development, College of Visual and Performing Arts; Director and Associate Professor of Computer Game Design. BM 1988, MM 1989, Johns Hopkins University; DMA 2000, University of Maryland.

Marvel, John D., Assistant Professor of Government and Politics. BA 2003 Amherst College; MPP 2011, PhD 2012 American University.

Masters, Patricia, Term Associate Professor, Sociology. BA 1990, George Mason University; MA 1993, PhD 1998, American University.

Mastrofski, Stephen D., University Professor Criminology, Law and Society. BA 1969, University of Iowa; PhD 1981, University of North Carolina, Chapel Hill.

Mastropieri, Margo, University Professor of Education, Graduate School of Education, BA 1973, MEd 1976, University of Massachusetts; PhD 1983, Arizona State University.

Matthews, Jessica, Term Assistant Professor, English. BS 1972, Drexel University; MA 1992, Austin Peay State University; PhD 2005, George Washington University.

Mattix, April, Assistant Professor, Graduate School of Education. BA, Saint Francis University; MA 1999 University of Pittsburgh; MAT 2003 Chatham College; PhD 2012 University of Pittsburgh.

Matto, Holly, Associate Professor of Social Work. BFA 1994, Ohio University; MSW 1996, University of Michigan; PhD 2000, University of Maryland.
Mattson, Janna, Social Sciences Liaison Librarian. BA 1997, Virginia Commonwealth University; MSL 2004, Queens College, City University of New York.

Mattusch, Carol C., Mathy Professor of Art History. BA 1969, Bryn Mawr College; PhD 1975, University of North Carolina.

Matz, Robert, Chair of English and Professor of English. AB 1986, Cornell University; MA 1988, PhD 1994, Johns Hopkins University.

Maulden, Patricia, Assistant Professor of Conflict Analysis and Resolution, School for Conflict Analysis and Resolution. BA 1999, University of California, Santa Cruz; MS 2002, PhD 2007, George Mason University.

Maxwell, Joseph A., Professor of Education. BA 1965, Reed College; MA 1971, PhD 1986, University of Chicago.

Mayer, Jeremy D., Associate Professor and Director of Public Policy Program, School of Public Policy. BA 1990, Brown University; PhD 1996, Georgetown University.

Mazumdar, Prosenjit, Assistant Professor of MIS and Decision Sciences. BSc (Honors) 1980, Presidency College, Calcutta; MS 1984, PhD 1986, University of Maryland, College Park.

McBride, Randolph A., Associate Professor, Atmospheric, Oceanic and Earth Sciences. BA 1982, Wittenberg University; MS 1986, PhD 1997, Louisiana State University.

McCabe, Kevin A., Professor of Economics and Law, Economic Science Laboratory. BS 1976, Villanova University; PhD 1985, University of Pennsylvania.

McCabe, Corrine, Assistant Professor, English. BS 1996, University of Illinois, Urbana-Champaign; MA 1999, University of Pittsburgh; PhD 2007, McGill University.

McCarthy, Kevin, Staff and Operations Director of School of Music. BM 1977, The Catholic University of America.

McCord, Theodore B., Term Assistant Professor of History. BA 1968; MA 1976; George Mason University; PhD 1991, American University.

McCoy, Damon, Assistant Professor, Computer Science. BS 1999, MS 2006, PhD 2009 University of Colorado.

McCrohan, Kevin F., Professor of Marketing. BS 1967, New York University; MBA 1971, MBA 1973, Baruch College; PhD 1978, City University of New York.

McDade, Charles F., Senior Associate Athletic Director of Aquatics and Recreational Sports. University of Arkansas. BS, Virginia Polytechnic Institute and State University; MS, University of Arkansas.

McDaniel, James Goodlett, Associate Provost for Distance Education, Office of the Provost. Associate Professor, College of Health and Human Services. BSN 1980, Bartlett College; MSN 1985, East Carolina University; EdD 1988, North Carolina State University; MBA 2002, Jacksonville University.

McDonald, Craig G., Associate Professor, Psychology. BSc 1989, MSc 1994, PhD 2001, University of Victoria.

McDonald, Heather, Professor of Theater. BA 1981, Florida State University; MFA 1984, New York University.

McDonald, Michael P., Associate Professor of Government and Politics. BS 1989, California Institute of Technology; PhD 1999 University of California, San Diego.
McDonald, Suzanne, Assistant Professor. PhD 2003, The State University of New York, Stony Brook.

McElwain, Michal J., Program Development and Outreach Director of Continuing Education and Public Relations, School of Public Policy. BA 1996; MA 1998, George Mason University.

McFerson, Hazel M., Associate Professor of Public and International Affairs. BA 1969, University of Massachusetts; MA 1970, Fletcher School of Law and Diplomacy, Tufts University; PhD 1976, Brandeis University.

McGeexan, Rebecca, Term Assistant Professor of English. BA Catholic University of America; MFA 2006, American University.

McKeough, Emily O’Brien, Assistive Technology Coordinator. BS 2005, Bridgewater College; MEd 2006, George Mason University.

McKnight, Patrick E., Associate Professor Quantitative/ Clinical Psychology. BS 1988, University of Notre Dame; MS 1992, PhD 1997, University of Arizona.

McMahon, Henry George, Assistant Professor of Education, Graduate School of Education. BA 1992, University of the South-Sewanee; MEd 1996, University of Virginia; PhD 1992, University of Georgia.

McNamee, Kevin W., Senior Associate Athletic Director for Intercollegiate Sports. MA 1977, Indiana University.

McNay, Curtis L., Director of Information Technology Security, ITU.

McNeely, Connie L., Professor, School of Public Policy. BA 1973, MA 1976, University of Pennsylvania; MA 1985, PhD 1990, Stanford University.

McVicker, Carrie, Events Coordinator, Prince William Campus. BA 1992, Bloomburg University of Pennsylvania.

Meamber, Laurie A., Associate Professor of Marketing. BA 1988, University of California, Davis; MBA 1991, University of California, Riverside; PhD 1997, University of California, Irvine.

Medford, Jeanne D., Assistant Athletic Director for Finance, Intercollegiate Athletics. BS 1982, George Mason University.

Mehlenbeck, Robyn, Clinical Associate Professor, Director of the Center for Psychological Services. BS 1991, The College of William and Mary; MS 1995, PhD 1998 the University of Memphis.

Mehta, Kumar, Associate Professor, Information Systems and Operations Management. BS 1993, Indian Institute of Technology; MS 1996, Southern Illinois University; PhD 2002, University of Illinois.

Meier, Lisa J., Term Assistant Professor, Psychology. BS 1984, Georgetown University; MA 1989, PhD 1993, George Mason University.

Meiners, Mark, Professor of Health Administration and Policy Director. BA 1969, University of Wisconsin; MA 1972, PhD 1978, Georgetown University.

Menascé, Daniel A., University Professor, Computer Science. BS 1974, MS 1975, Pontificia Universidade Catolica do Rio de Janeiro; PhD 1978, University of California, Los Angeles.

Merchant, Cora Diane, Transition Coordinator. BA 1974, Florida State University; MS 1977, University of Tennessee; PhD 2007, George Mason University.
Merola, Linda M., Assistant Professor, Criminology, Law and Society. BA 1995, Wesleyan University; JD 1998, George Washington University National Law Center; PhD 2007, Georgetown University.

Merten, Alan G., President. BS 1963, University of Wisconsin; MS 1964, Stanford University; PhD 1970, University of Wisconsin.

Meyer, Carrie A., Associate Professor of Economics. BA 1980, MS 1985, PhD 1988, University of Illinois.

Michals, Teresa, Assistant Professor, English. AB, Cornell University; MA 1988, PhD 1996, Johns Hopkins University.

Middle, Beverly, Term Instructor of Nursing. BS 1979, Radford University; MS 1988, Catholic University of America.

Miklancie, Margaret, Assistant Professor of Nursing. BSN 1986, MSN 1992, PhD 2001, George Mason University.

Miller, Angela, Assistant Professor of Education, Graduate School of Education. BA 1991, University of Kansas; MA 1995 University of Kansas; MA 2001, PhD 2006 University of Missouri-Kansas City.

Miller, Char R., Associate Professor of Government and Politics. BA 1990, BS 1990, Idaho State University; PhD 1999, Johns Hopkins University.

Miller, John James, Associate Professor, Statistics. AB 1968, University of Rochester; MS 1969, PhD 1974, Stanford University.

Miller, Katharine, Research Assistant, Life Sciences. BA 1999, University of Virginia.

Miller, Linda Garner, Senior Associate Dean, Academic Affairs, College of Visual and Performing Arts; Professor of Dance. BFA 1972, University of Hawaii.

Miller, William B., Term Associate Professor of English. BA 1973, University of North Carolina; MFA 1986, George Mason University.

Miller, William G., Jr., Assistant Director of the Office of Code Compliance. Virginia Apprenticeship Program, George Mason University, Lord Fairfax Community College, and Northern Virginia Community College.

Milligan, Renee, Professor of Nursing. BS 1974, MA 1977, Ball State University; PhD 1989, University of Maryland.

Min, Hua, Assistant Professor of Health Administration and Policy. MB 1993, Nanjing Tiedao Medical College; MS 1999, PhD 2006, New Jersey Institute of Technology.

Mircea-Pines, Walter, J., Instructional Technologist and Language Lab Director, Modern and Classical Languages. BA 1985, University Babes-Bolyai; MA 1996, State University of New York, Buffalo; PhD 2009, George Mason University.

Mishin, Yuri, Professor, Physics and Astronomy. MSc 1979, PhD 1985, Moscow Institute of Steel and Alloys.
Mishra, Anant, Assistant Professor of ISOM. BTech 2001, Indian Institute of Technology; MS 2009, PhD 2009, University of Minnesota.

Moncure, Thomas, University Counsel. BA, Virginia Military Institute; MA, George Mason University.

Monson, Linda Apple, Professor and Associate Director of Music, College of Visual and Performing Arts. BMEd 1979, MM 1981, DMA 1986, Peabody Conservatory of Music of the Johns Hopkins University; Diploma (piano performance), Santiago de Compostela, Spain.

Montgomery, Jennifer, Director of Major Gifts, Patriot Club. BA 1999, University of Virginia; MA 2003, Georgetown University.

Moon, James, Director of Operations, School for Conflict Analysis and Resolution. BA 1997, Florida State University; MS 2012, George Mason University.

Morelli, Julia G., Director of Operations, Capitol Connection. MA 1995, George Mason University.

Mori, Kyoko, Professor, English. BA 1979, Rockford College; MA 1981, PhD 1984, University of Wisconsin, Milwaukee.

Morowitz, Harold J., Robinson Professor of Biology and Natural Philosophy. BS 1947, MS 1950, PhD 1951, Yale University.

Morris, Walter D., Jr., Professor of Mathematical Sciences. BS 1980, Iowa State University; MS 1984, PhD 1986, Cornell University.

Morse, Douglas, Professor of Geochemistry. BS 1965, University of Illinois; MS 1968, PhD 1971, University of Kansas.

Motro, Amihai, Professor, Computer Science. BS 1972, Tel Aviv University; MS 1976, Hebrew University of Jerusalem; PhD 1981, University of Pennsylvania.

Mouri, Nacef, Assistant Professor of Marketing. BS 1993, Higher International Institute of Tourism Studies; MBA 1997, PhD 2005, University of Central Florida.

Muir, Janette Kenner, Associate Provost for Undergraduate Education. Associate Professor, New Century College and Communication. BS 1979, Palm Beach Atlantic College; MA 1983, Wake Forest University; PhD 1986, University of Massachusetts.

Muir, Star A., Associate Professor of Communication. BA 1980, Wake Forest University; MA 1982, University of Central Florida; PhD 1990, University of Pittsburgh.

Koyama, Mark, Assistant Professor of Economics. BA 2003, Trinity College, University of Oxford; MA 2006, PhD 2006, Wadham College, University of Oxford.

Mulpuri, V.R., Professor, Electrical and Computer Engineering. MS 1983, PhD 1985, Oregon State University.

Murphy, James Owen, Jr., Instructor; Director of Intramural Recreation. BS 1975, George Mason University.

Murphy, Una M., Associate Director and Director Leadership Gifts, Development Office. BA 1989, Brooklyn College.

Murray, Kevin P., Program Manager of Theater. BA 1975, University of Maryland.
Mushrush, George William, Professor of Chemistry; BS 1962, Indiana University of Pennsylvania; MS 1965, PhD 1968, George Washington University.

N

Nakles, Robert E., Director, Information Technology Project Office, Information Technology Unit. BS, Indiana University of Pennsylvania; MS, Shippensburg University of Pennsylvania.

Nambar, Kannan, Advisor, Student Services. BA 1974, Herbert H. Lehman College, City University of New York; MA 1979, PhD 1984, State University of New York, Stony Brook.

Nambsan, Priya, Assistant Professor of Health Administration and Policy. BS 1993, MS 1993, University of Kerala; MS 1997, Syracuse University; PhD 2005, Rensselaer Polytechnic Institute.

Nan, Susan H. Allen, Associate Professor of Conflict Analysis and Resolution, School for Conflict Analysis and Resolution. BA 1992, University of Virginia; MS 1995, PhD 2000, George Mason University.

Nanian, Richard A., Term Assistant Professor of English. BA 1984, Simon’s Rock College; MA 1995, Salem State College; PhD 2000, University of Wisconsin, Milwaukee.

Naor, Michael, Assistant Professor, Information Systems and Operations Management. BS 1994, Israel Institute of Technology; MBA 1998, Tel-Aviv University; PhD 2005, University of Minnesota.

Nash, Stephen G., Professor, Systems Engineering and Operations Research and Affiliate, Department of Mathematical Sciences. BS 1977, University of Alberta, Canada; PhD 1982, Stanford University.

Nasser, Ilham, Assistant Professor of Education, Graduate School of Education. BA 1985, MA 1987, Hebrew University, Jerusalem; PhD 1997, University of Maryland.

Nauright, John, Professor of Sport Management, School of Recreation, Health, and Tourism. BA 1985, MA 1988, University of South Carolina; Ph.D. 1992 Queen’s University, United Kingdom.

Ndura, Elavie, Professor of Education, Graduate School of Education. BA 1983, University of Burundi (Africa); MEd 1987, University of Exeter (UK); EdD 1994, Northern Arizona University.

Nelson, Jill Karen, Associate Professor, Electrical and Computer Engineering. BS 1998, Rice University; MS 2001, PhD 2005, University of Illinois, Urbana-Champaign.

Nelson, Mary, Term Assistant Professor of Mathematics/STEM Accelerator Faculty. BS 1970, Marquette; MS, George Mason University; PhD 2005, University of Colorado-Boulder.

Neville, Frank, Chief of Staff. BA 1988, Carleton College.

Newmark, Lisa C., Term Assistant Professor, Criminology, Law and Society. BA 1982, MA 1985, PhD 1989, University of Connecticut.

Ngalabak, Helen Habila, Associate Professor, English. BA 1995, University of Jos.

Nguyen, Cuong T., Associate Professor of Religious Studies. BA 1970, Van Hanh University, Vietnam; MA 1979, University of California, Santa Barbara; AM 1982, PhD 1990, Harvard University.

Nguyen, Hung M., Associate Professor of Government and Politics. LLB 1960, University of Saigon; MA 1963, PhD 1965, University of Virginia.

Niblock, Janet R., Executive Director, Office of Continuing Professional Education. MA 1992, Virginia Polytechnic Institute and State University.
Nichols, Len, Director, Center for Health Policy Research and Ethics; Professor of Health Administration and Policy. BA 1975, Hendrix College; MA 1976, University of Arkansas; MS 1978, PhD, 1980, University of Illinois.

Nichols, Melissa M., Term Assistant Professor, English. BA 1993, Northern Kentucky University; MFA 1999, George Mason University.

Nickens, Michael, Assistant Professor of Music. BM 1998, Manhattan School of Music; MM 2001, Yale University; DMA 2006, University of Michigan.

Nicogossian, Arnauld E.T., Distinguished Research Professor and Center for the Study of International Medical Policies and Practices, School of Public Policy. BA 1956, Lycée Franco-Iranian Razi, Iran; MD 1964, Tehran University; MS 1972, Ohio State University.

Nicotera, Anne Maydan, Associate Professor, Communication. BA 1985, Utica College of Syracuse University; MA 1987, State University of New York, Albany; PhD 1990, Ohio University.

Nikolić, Predrag, Assistant Professor, Physics and Astronomy, BS 1998, University of Belgrade, Serbia, PhD 2004, Massachusetts Institute of Technology

Nolan, Matthew S., Senior Technical Director, Computer Game Design. BM 2007, Berklee College of Music.

Nolder, S. Lisa, Director of Graduate Student Services, The Volgenau School of Engineering. BA 1995, Hawaii Pacific University; MA 2008, George Mason University.

Nord, Julia, Term Associate Professor, Atmospheric Oceanic and Earth Science. BS 1981, University of Birmingham; MS 1984, University of Minnesota, Duluth; PhD 1989, City University of New York, Brooklyn College.

Norden, Luanne, Instructor of Physical Education, School of Recreation, Health, and Tourism. BS 1981, MA 1984, University of Nebraska.

Nordstrom, David, Assistant Professor, Computer Science. BA 1971, University of Michigan; PhD 1976, University of California, Berkeley.

Norton, Priscilla, Professor of Education, Graduate School of Education. BS 1972, Lewis and Clark College; MS 1978, Oregon College of Education; EdD 1982, United States International University.

Nutter, Sarah E., Chair and Associate Professor of Accounting. BS 1980, Ferris State; MBA 1983, PhD 1993, Michigan State University.

Nye, John, Professor of Economics., BS 1981, California Institute of Technology; MA 1983, PhD 1985, Northwestern University.

O

O’Beirne, Richard C., Term Instructor of Mathematical Sciences. BA 1971, Fordham University; MA 1972, St. John’s University.

O’Brien, Alison S., Assistant Professor and Associate Dean of Undergraduate Programs, School of Management. BS 1982, University of Florida; MBA 1986, Brenau College; BS 1995, MA 1997, PhD 2001 George Mason University.

O’Brien, Ellen E., Director of the Math Learning Center and Administrative Faculty. BA 1976, MAT 1978, MA 1979, State University of New York, Binghamton.

O’Connor, John Sylvester, Professor, New Century College. AB 1968, University of Michigan; MA 1969, PhD 1974, University of Virginia.
Odstrcil, Dusan, Research Professor, Computational and Data Sciences. BS 1978, Comenius University; MS 1979, PhD 1984, Comenius University

Oerter, Robert N., Term Associate Professor, Physics and Astronomy. BA 1983, Swarthmore College; MS 1987, PhD 1989, University of Maryland.

Offutt, A. Jefferson, Professor, Computer Science. BS 1982, Morehead State University; MS 1985, PhD 1988, Georgia Institute of Technology.

Ogilvie, Erin, Graduate Admissions and Student Services Director, School for Conflict Analysis and Resolution. BA, 2004, MPH 2011 George Mason

Oh, Kyeung Mi, Assistant Professor of Nursing. BA 1998, University of Newcastle; MS 1999, University of Sydney; PhD 2005, University of Sheffield.

Olds, James, Director and Chief Academic Unit Officer, Krasnow Institute for Advanced Study, University Professor of Neuroscience. BA 1978, Amherst College; PhD 1987, University of Michigan.

Olmstead, Todd A., Associate Professor of Public Policy, School of Public Policy. BS 1987, MS 1989, State University of New York, Buffalo; MS 1994, University of North Carolina; PhD 2000, Harvard University.

Olson, Kristina M., Assistant Professor of Italian. BA 1998, Bard College; MA 2001, PhD 2006, Columbia University.

O'Malley, Michael, Associate Professor of History. BA 1981, Temple University; MA 1984, PhD 1988, University of California, Berkeley.

O'Neill, Amanda, Assistant Professor of Management. BS 2000, University of Maryland; PhD 2005, Stanford University.

Orens, John, Term Professor of History. BS 1965, University of Wisconsin; MA 1968, PhD 1976, Columbia University.

Osterling, Jorge, Associate Professor of Education, Graduate School of Education. BA 1971, Catholic University of Peru; MS 1973, PhD 1978, University of California, Berkeley.

Otto, Ray, Term Assistant Professor of Biology. BS 1981, PhD 1987, University of North Carolina, Chapel Hill.

Owen, Julie E., Assistant Professor of New Century College., BA 1993, College of William and Mary; MEd 1996, James Madison University.

Owens, Thomas C., Associate Professor of Music. BA 1991, University of North Carolina, Greensboro; MA 1994, PhD 1999, Yale University.

P

Pachowicz, Peter W., Associate Professor, Electrical and Computer Engineering. MS 1981, PhD 1984, Stanislaw Staszic University of Mining and Metallurgy.

Pacynska, Agnieszka, Associate Professor of Conflict Analysis and Resolution, School for Conflict Analysis and Resolution. BA 1989, MA 1991, New York University; PhD 2002, University of Virginia.

Paden, John, Robinson Professor of International Studies. BA 1959, Occidental College; MA 1961, Oxford University; PhD 1968, Harvard University.

Paden, Roger K., Associate Professor of Philosophy. BS 1974, MA 1977, PhD 1981, University of Illinois.
Paez, Deborah, Assistant Director, Development, College of Visual and Performing Arts. BA 2003, University of South Carolina; MA 2007, George Mason University.

Pancrazio, Joseph, Professor of Electrical and Computer Engineering and Director, Bioengineering Program, The Volgenau School of Engineering. BS 1985, University of Illinois; MS 1988, PhD 1990, University of Virginia.

Pang, Min-Seok, Assistant Professor of ISOM. BS 2000, MS 2006, Korea Advanced Institute of Science and Technology; PhD 2011, University of Michigan.

Pankey, Eric, Professor of English, Heritage Chair in Writing. BS 1981, University of Missouri; MFA 1983, University of Iowa.

Pant, Ramesh, Assistant Professor of Chemistry. BS 1988, Tribhuvan University; PhD 2006, George Mason University.

Papaconstantopoulos, Dimitrios A., Professor of Physics and Astronomy and Chair, Department of Computational and Data Sciences. BS 1961, University of Athens; DIC 1963, Imperial College of London; MS 1964, PhD 1967, University of London.

Parasuraman, Raja, University Professor, Psychology; Director, Human Factors/Applied Cognitive Psychology Program. BS 1972, University of London; MS 1973, PhD 1976, Aston University.

Parham, Candace, Instructor of Athletic Training, School of Recreation, Health, and Tourism. BS 2003, University of Virginia; MS 2005, George Mason University.

Paris, Bernd-Peter, Associate Professor, Electrical and Computer Engineering and Director, MS in Telecommunications. Dipl-Ing 1986, Ruhr University, Germany; PhD 1990, Rice University.

Park, Chong (Holly), Associate State Director, Virginia Small Business Development Center (SBDC), Mason Enterprise Center. BS 1997, MBA 2001, Old Dominion University.

Park, Julie Kim, Term Assistant Professor of English. BA 1993, MS 1994, PhD 2000, University of Pennsylvania.

Park, Kristy Lee, Assistant Professor of Education, Graduate School of Education. BS 2000, James Madison University; MA 2003, University of Virginia; EdS 2005, George Washington University; PhD 2008, University of Louisville.

Park, Minkyung, Associate Professor of Tourism and Event Management, School of Recreation, Health, and Tourism. BA 1990, MA 1993, Han Yang University, Korea; MS 1996, Pennsylvania State University; PhD 2000, Texas A&M University.

Parker, Cindy W., Assistant Professor, Management. BS 1992, MA 1994, PhD 1998, George Mason University.

Parsons, E.C.M., Term Associate Professor, Environmental Science and Policy. BA 1991, MA 1997, Oxford University; PhD 1996, University of Hong Kong.

Parsons, Seth, Assistant Professor of Education, Graduate School of Education. BA 2002, Centre College; MEd 2005, PhD 2008, University of North Carolina, Greensboro.

Pascarell, Rose B., Vice President, University Life. AAS, 1986, BA, 1988, State University of New York at Albany; MA, 1992, George Mason University.

Pasnak, Robert, Professor of Psychology. BS 1964, University of Maryland; MS 1965, PhD 1969, Pennsylvania State University.

Patterson, Pamela, Assistant Vice President and Dean of Students. BS 1989, MS 1991, Eastern Illinois University.

Patty, William Jordan, Processing Archivist and Librarian. BA 1998, University of the South; MA 2003, University of Arkansas; MLS 2005, University of Maryland.
Pawlewicz, Robert, Assistant Professor of Accounting. BA 2000, Franklin & Marshall College; MS 2009, PhD 2011, City University of New York.

Pawloski, Lisa R., Professor and Chair, Nutrition and Food Studies. BA 1991, Texas A&M University; MA 1995, PhD 1999, Indiana University.

Peacock, Patricia, Director, Prince William, Mason Enterprise Center. BA 1976, University of Southern Colorado; MEd 1978, Colorado State University; EdD 1986, Rutgers State University of New Jersey.

Pearlstein, Steven, Robinson Professor of Public and International Affairs. BA 1973, Trinity College.

Pearson, Jane, Director of Donor Relations and Communications, Development Office. BA 1970, DePauw University.

Pecini, Silva, Director of Student Services, School of Public Policy. BA 2004, University of South Florida; MPP 2007, George Mason University.

Pedrick, Merritt W., Assistant Director for Operations, Physical Plant. BS 1978, Pennsylvania State University; MS 1989, University of Florida.

Peixoto, Nathalia, Associate Professor, Electrical and Computer Engineering. BS 1996, MS 1997, Universidade Estadual de Campinas (UNICAMP), SP, Brazil; DSc 2001, Universidade de Sao Paulo (USP), SP Brazil.

Pellegrino, Anthony, Assistant Professor of Education, Graduate School of Education. BA 1994, Flagler College; MEd 2003, University of North Florida; PhD 2007, Florida State University.

Prendergast, Jocelyn, Instructional Professor of Forensic Science/STEM Accelerator Faculty. BS 2004, University of Glasgow, MS 2005, University of Strathclyde.

Peppard, Lora, Term Clinical Assistant Professor of Nursing. BA 1998, Wesleyan College; MS 2004, Boston College; DNP 2008, Columbia University.

Perdiou, Thomas, Counselor, Student Financial Aid. BA 1987, University of Iowa.

Perez, Jade T., Director, Graduate Admissions and Enrollment Services, Volgenau School of Engineering. BA 2006, Concord University; MS 2011, George Mason University.

Perlin, Martin, Senior Health Care Executive in Residence and Term Associate Professor of Health Administration and Policy. BS 1962, Emory University; MBA 1966, DBA 1971, George Washington University.

Perry, Katherine Ann, Director, VIVA Project, University Libraries. BA 1972, MLS 1974, University of California, Los Angeles.

Perry, Wayne D., Professor of Public Policy and Operations Research, School of Public Policy. BS 1967, Tuskegee University; MS 1969, University of New Mexico; PhD 1975, Carnegie Mellon University.

Peters, Erin, Assistant Professor of Education, Graduate School of Education. BS 1990, University of Illinois, Urbana-Champaign; MEd 2004, University of Virginia; PhD 2007, George Mason University.

Peters, Esther C., Term Assistant Professor of Environmental Science and Policy. BS 1974, Furman University; MS 1978, University of South Florida; PhD 1984, University of Rhode Island.

Peterson, Matthew S., Associate Professor of Psychology. BA 1992, University of Tennessee, Knoxville; MA 1994, PhD 1997, University of Kansas.
Petricoin, Emanuel F., Codirector, Center for Applied Proteomics and Molecular Medicine; Chair and University Professor, Molecular and Microbiology. BS 1985, PhD 1990, University of Maryland.

Petrie, Ragan, Associate Professor of Economics. BA 1987, University of Illinois; MPA 1993, University of Pittsburgh; 2002 PhD, University of Wisconsin-Madison.

Petrick, Gabriella, Associate Professor of Nutrition and Food Studies. BA 1989, College of the Holy Cross; AD 1991, Culinary Institute of America; MMH 1997 Cornell University School of Hotel Administration; MA 1999, Carnegie Mellon University; PhD 2007, University of Delaware.

Petrik, Paula E., Professor, History and Art History. AB 1969, Cornell University; MFA 1973, University of Montana; MA 1979, PhD 1982, State University of New York, Binghamton.

Pettigrew, Katherine, Term Assistant Professor, Chemistry. BS 1999, California State University, Sacramento; PhD 2004, University of California, Davis.

Pevzner, Mikhail B., Assistant Professor, Accounting. BSB 1999, University of Minnesota; MSBA 2004, PhD 2007, Washington University, St. Louis.

Pfiffner, James P., University Professor and Director, PhD in Public Policy, School of Public Policy. BA 1968, MA 1972, PhD 1975, University of Wisconsin, Madison.

Pfoser, Dieter, Associate Professor of Geography and Geoinformation Science. PhD 2000, Aalborg University.

Philipov, Alexander, Assistant Professor, Finance. MS 1996, University of Massachusetts, Amherst; PhD 2003, Boston College.

Philpot, Frank Allen, Assistant Professor of Marketing. BA 1967, Vanderbilt University; MA 1968, PhD 1972, Stanford University.

Photos, Lisa E., Term Assistant Professor of English. BA 1987, Florida State University; MA 1989, PhD 2008, University of Wisconsin-Madison.

Pichichero, Christy, Assistant Professor of French. AB 1998, Princeton; BM 2000, Eastman School of Music; PhD 2008, Stanford University.

Pierce, Lorraine, Associate Professor of Education, Graduate School of Education. BS 1974, University of Texas, Austin; MA 1976, University of Texas, San Antonio; PhD 1984, Georgetown University.

Pilloff, Steven, Assistant Professor of Finance. BA 1989, University of Virginia; MA 1993, PhD 1995, Wharton School, University of Pennsylvania.

Platt, Brian W., Chair, Department of History and Art History; Associate Professor of History. BA 1992, Guilford College; PhD 1998, University of Illinois.

Pober, Peter M., Director of Forensics and Term Professor of Communication. BA 1984, University of Pennsylvania; MA 1991, PhD 1996, University of Texas, Austin.

Polayes, Deborah, Term Associate Professor, Biology. BS 1978, University of Connecticut; PhD 1983, Michigan State University.

Pollard, Jeffrey, Director, Counseling Center. BS 1970, MS 1974, Old Dominion University; PhD 1978, University of Virginia.
Polsby, Daniel, Dean and Foundation Professor of Law. BA 1964, Oakland University; JD 1971, University of Minnesota.

Polyak, Roman A., Professor of Systems Engineering and Operations Research; and Professor of Mathematical Sciences. PhD 1966, Central Institute for Economics and Mathematics, USSR Academy of Sciences, Moscow.

Pommerening, Christine, Research Assistant Professor, School of Public Policy. BA 1993, MA 1996, Ruhr-Universitat; PhD 2004, George Mason University.

Pope, John R., Executive Director, English Language Institute. BA 1966, University of New Mexico; MA 1996, George Mason University.

Popov, Serguei, Professor, National Center for Biodefense and Infectious Diseases. MS 1972, PhD 1977, ScD 1992.

Porter, Jeri W., Head Coach, Women's Basketball. BS 1991, Liberty University.

Porter, Timothy, Assistant Professor of ISOM. BS 1969, University of New Orleans; MSA 1976, George Washington University.

Price, Elizabeth, Director and Associate Professor of Dance. BA 1972, Randolph-Macon Women’s College; MA 1978, New York University.

Price, James, Research Professor of Conflict Analysis and Resolution, School for Conflict Analysis and Resolution. BA 1972, Lawrence University; MA 1976, PhD 1980, University of Chicago.

Prohaska, Thomas, Dean and Professor, College of Health and Human Services. BA 1974, Roger Williams College; MA 1975, Middle Tennessee State University; PhD 1980, Virginia Commonwealth University.

Pullen, J. Mark, Professor, Computer Science. BS 1970, MS 1972, West Virginia University; PhD 1981, George Washington University.

Putnam, Nathan, Catalog/Metadata Librarian. BM 2000, University of Wisconsin; MM 2002, Michigan State University; MLIS 2006, Wayne State University.

Qu, John, Professor, Geography and Geoinformation Science. BS 1983, Nanjing Institute of Meteorology; MS 1993, PhD 1997, Colorado State University.

Quinn, Patrick J., Director of Student Accounts. BS 1997, University of Phoenix; MBA 2001, Arizona State University.

Quintana, Marian, Term Assistant Professor of Spanish. BA 1993, Universidad Complutense, Madrid; MA 1995, Marquette University; PhD 2001, University of Houston.

Rabin, Lisa Marie, Associate Professor of Spanish. BA 1986, Pomona College; MA 1990, PhD 1993, Yale University.

Rader, Victoria Fries, Associate Professor of Sociology. BA 1966, University of California, Berkeley; MA 1968, PhD 1973, University of Chicago.
Raffel, Dorothy, Term Instructor, English. MA 1974, MBA 1978, University of California, Los Angeles.

Rajan, Ramkishen S., Professor of Public Policy. BS 1993, National University of Singapore; MA 1998, University of Michigan; MA 1996, PhD 2000, Claremont Graduate University.

Ramirez, Carlos D., Associate Professor of Economics. BA 1987, Wittenberg University; AM 1991, PhD 1993, Harvard University.

Rancourt, Emily, Term Assistant Professor of Forensics, BA 2000 Purdue University, MFS 2002 George Washington University.

Rangwala, Huzefa, Assistant Professor, Computer Science. BE 2003, Mumbai University; MS 2005, PhD 2008, University of Minnesota, Twin Cities.

Rashkover, Randi, Assistant Professor, Religious Studies. BA 1987, Barnard College, Columbia University; MTS 1990, Harvard Divinity School, Harvard University; PhD 2000, University of Virginia.

Rafatirad, Setareh, Term Assistant Professor, Applied Information Technology, BS 2005 Tehran Azad University; MS 2010, PhD 2012 University of California, Irvine.

Ray, Sharon, Assistant Professor of Education, Graduate School of Education. BS 1998, MEd 1999, James Madison University; PhD 2008, University of South Florida.

Rector, Claudia, Assistant Provost for Academic Affairs, Office of the Provost. AB 1993, Wellesley College; PhD 2010, University of Maryland - College Park.

Reedy, Karen, Term Assistant Professor of Dance. BFA 1995, MFA 2009, George Mason University.

Regan, James D., Director, Procurement Technical Assistance Program, Mason Enterprise Center for Regional Analysis and Entrepreneurship. BS 1959, U.S. Naval Academy; MS 1965, U.S. Naval Postgraduate School.

Regan, Kelley, Assistant Professor of Education, Graduate School of Education. BS 1996; MS 1997, Longwood College; PhD 2005, George Mason University.

Regan, Priscilla M., Professor of Government and Politics; Chair, Public and International Affairs. BA 1972, Mount Holyoke College; MA 1975, New York University; MA 1977, PhD 1981, Cornell University.

Reid, Shelley, Associate Professor, English. BA 1988, Grinnell College; MA 1991, PhD 1994, State University of New York, Buffalo.

Reinert, Kenneth J., Professor of Public Policy, School of Public Policy. BA 1980, MA 1982 Boston University; MA 1985, PhD 1988 University of Maryland.

Rendler, Elaine, Term Professor of Music. BMEd 1968, Immaculata College; MM 1972, DMA 1978, Catholic University.

Renshaw, Keith, Assistant Professor, Psychology. BS 1995, Duke University; MA 1998, PhD 2003 University of North Carolina at Chapel Hill.

Resmini, Ronald G., Research Professor, Geography and Geoinformation Science. BS 1984, Northeastern University; MA 1989, Boston College; PhD 1993, Johns Hopkins University.

Reybold, L. Earle, Associate Professor of Education, Graduate School of Education. BA 1990, MA 1992, PhD 1996, University of Georgia.
Reynolds, Thomas, Director of Artistic Programming, Marketing and Audience Services, College of Visual and Performing Arts. BA 1979, Luther College.

Rhodes, Edward, Dean, School of Public Policy. AB 1980, Harvard University; MPA 1982, PhD 1985, Princeton University.

Rice, Matthew, Associate Professor of Geography and Geoinformation Science. BS 1995, Brigham Young University; PhD 2005, University of California, Santa Barbara.

Richards, Dana S., Associate Professor, Computer Science. MS 1976, University of Virginia; PhD 1984, University of Illinois.

Richards, Kathy, University Professor of Nursing and Assistant Dean, Doctoral Division, School of Nursing. BSN 1976, University of Arkansas for Medical Sciences; MSN 1985, University of Arizona; PhD 1993, University of Texas.

Richards, Phillip, Research Professor of Physics. BS 1972, PhD 1978, La Trobe University.

Ricouart, Janine M., Professor of French. Eng Lic 1973, Universite de Lille, France; PhD 1986, University of California, Davis.

Rioux-Bailey, Carmen, Assistant Professor of Education, Graduate School of Education. BA 1986, Marymount University; MEd 1997, George Mason University; EdS 2003, George Washington University.

Riskind, John Haskell, Professor of Psychology. BA 1970, University of Texas, Austin; PhD 1977, Yale University.

Ritterhouse, Jennifer, Associate Professor, History. BA 1992, Harvard University; MA 1994, PhD 1999, University of North Carolina, Chapel Hill.

Ro, Young-chan, Chair, Department of Religious Studies, Director, Korean Studies Center, and Professor of Religious Studies. BTh 1965, MTh 1969, Yonsei University; MTh 1973, Union Theological Seminary; PhD 1982, University of California, Santa Barbara.

Robb, Charles S., Distinguished Professor of Law and Public Policy. BBA 1961, University of Wisconsin; JD 1973, University of Virginia.

Robbins, Suzanne, Assistant Professor, Public and International Affairs. BA 1990, University of Tennessee; MA 1997, University of South Carolina; MA 1999, PhD 2003, State University of New York, Stony Brook.

Robinson, David M., Director, Client Relations, ITU. MS 1976, State University of New York, Albany.

Robinson, Gregory, Assistant Professor of Music. BA 2002, Colby College; PhD 2008 University of Pennsylvania.

Robinson, Iris M., Assistant Dean for Student and Academic Affairs, College of Education and Human Development. AB, Vassar College; MPA, State University of New York, Albany.

Robison, Charles, Assistant Professor of Kinesiology, School of Recreation, Health, and Tourism. BSEd 2004, Missouri Southern State University; MS 2006, University of Central Missouri; PhD 2011, University of North Carolina-Greensboro.

Rocklin, Craig A., Director of Development, School of Public Policy. BA 1986, Brandeis University.

Rockmann, Kevin, Associate Professor, Management. BS 1999, PhD 2004, University of Illinois, Urbana-Champaign.

Rockwood, Larry Lewis, Professor of Environmental Science and Policy and Director of the Undergraduate Biology program. BS 1965, PhD 1972, University of Chicago.

Rodan, Margaret, Associate Professor of Nursing and Assistant Dean, Master’s Division, School of Nursing. BSN 1980, BA 1980, University of Delaware; MS 1981, University of Arizona; MPH 1989, MS 1990, ScD 1997, Harvard University.
Rodgers, Ellen B. Drogin, Associate Dean and Associate Professor of Parks, Recreation, and Leisure Studies, College of Education and Human Development. BA 1982, Hood College; MA 1985, University of Maryland; PhD 1991, Pennsylvania State University.

Rodgers, R. Pierre, Associate Professor of Sports Management, School of Recreation, Health, and Tourism. BA 1984, University of Alabama; MA 1986, Memphis State University; PhD 1991, Pennsylvania State University.

Roe, David A., President, GMU Foundation Inc. MBA 1995, George Mason University.

Rogers, Charlotte, Assistant Professor of Spanish. BA 2001, Barnard College of Columbia University; MA 2004, MPhil 2005, PhD 2009, Yale University.

Rogers, Paul M., Assistant Professor, English. BA 2000, MA 2003, Humboldt State University; MA 2006, PhD 2008, University of California, Santa Barbara.

Rojahn, Johannes, Professor, Psychology. Bachelor, PhD 1976, University of Vienna, Austria.

Roman-Mendoza, Esperanza, Associate Professor of Spanish. BA 1989, Universidad Complutense de Madrid, Spain; PhD 1997, Universidad Nacional de Educación a Distancia, Spain.

Romano, Arthur, Assistant Professor of Conflict Analysis and Resolution, School for Conflict Analysis and Resolution. BA 1997 University of North Carolina, Chapel Hill; MA 2005, PhD 2011, University of Bradford, UK.

Rome, Sunny Harris, Associate Professor of Social Work. BA 1976, Occidental College; MSW 1978, University of Michigan; JD 1984, Georgetown University.

Root, Hilton L., Professor of Public Policy. BA 1974, State University of New York, Buffalo; MA 1977, PhD 1983, University of Michigan.

Rose, Steven R., Professor of Social Work. BA 1973, Brooklyn College, City University of New York; MSW 1975, Washington University; PhD 1981, University of Wisconsin, Madison.

Rose-Robinson, Sia, Assistant Professor of Business Communications. BS 1984, University of Maryland; MA 1990, PhD 1999, Howard University.

Rosenberg, Jessica, Assistant Professor, Physics and Astronomy. BA 1993, Wesleyan University; PhD 2000, University of Massachusetts.

Rosenberger, Joshua, Assistant Professor of Global and Community Health. BS 2001, The Evergreen State College; MPH 2008, Indiana University-Purdue University Indianapolis; PhD 2011, Indiana University.

Rosenberger, William F., Professor and Chair, Statistics. BA 1986, Towson State University; MPhil 1990, PhD 1992, George Washington University.

Rosenblum, Karen E., Professor of Sociology. BA 1970, PhD 1979, University of Colorado.

Rosenstein, Carole, Associate Professor of Arts Management. BA 1988, Smith College; MA 1990, University of Chicago; PhD 2000, Brandeis University.

Roszkowski, Beth, Public Policy and Management Studies Liaison Librarian. BA 2002, Pennsylvania State University; MLIS 2006, Rutgers University.

Roth, Lori A., Director of Training and Development, Human Resources. BA 1985, MA 1987, Michigan State University; PhD 2003, Virginia Polytechnic Institute and State University.
Rothbart, Daniel, Professor of Conflict Analysis and Resolution and Philosophy, School for Conflict Analysis and Resolution. BA 1972, Fairleigh Dickinson University; MA 1975, State University of New York, Binghamton; PhD 1978, Washington University.

Rothstein, Jandos, Associate Professor of Art and Visual Technology. BA 1986, Antioch College; MFA 1990, Northwestern University.

Rowan, Katherine, Professor of Communication. BA 1975, George Mason University; MA 1978, University of Illinois; PhD 1985, Purdue University.

Rowe, Ellen W., Assistant Professor, Psychology. BA 1983, Davidson College; MA 1995, College of William and Mary; PhD 2005, University of Georgia.

Rozell, Mark, Professor of Public Policy, School of Public Policy. BA 1982, Eisenhower College; MA 1983, PhD 1987, University of Virginia.

Rubenstein, Richard E., University Professor of Conflict Resolution and Public Affairs, School for Conflict Analysis and Resolution. BA 1959, Harvard University; MA 1961, Oxford University; JD 1963, Harvard University.

Rubin, Philip D., Associate Professor, Physics and Astronomy. AB 1976, University of Pennsylvania; MA 1980, MS 1986, PhD 1989, University of California, Los Angeles.

Rudder, Catherine E., Professor, School of Public Policy. BA 1969, Emory University; MA 1972, PhD 1973, Ohio State University.

Rudes, Danielle S., Assistant Professor, Criminology, Law and Society. BA 1993, State University of New York; MA 1998, University of New Orleans; MA 2002, PhD 2008, University of California, Irvine.

Rudnicki, Mark S., Term Assistant Professor, English. BA 1991, St. Bonaventure University; MA 1993, University of Memphis; PhD 2003, State University of New York, Buffalo.

Rustici, Thomas, Term Assistant Professor of Economics. BS 1985, MA 1987, PhD 2005, George Mason University.

Ruth, Stephen Ruddy, Professor and Director, International Center for Applied Studies in Information Technology, School of Public Policy. BS 1955, U.S. Naval Academy; MS U.S. Naval Postgraduate School; PhD 1971, University of Pennsylvania.

Rutledge, Amelia Ann, Associate Professor of English. BA 1968, Michigan State University; MPhil 1972, PhD 1974, Yale University.

Rytikova, Ioulia, Associate Professor, Applied Information Technology. BS 1993, MS 1993, PhD 1997, Technological University, Moscow, Russia.

Rywak, Lauren, Head Coach, Women's Lacrosse. BA 2002, George Mason University.

S

Sachs, Robert L., Professor of Mathematical Sciences. BA 1976, Harvard University; PhD 1980, Courant Institute, New York University.

Sage, Andrew P., Professor, Systems Engineering and Operations Research. University Professor and First American Bank Professor; Founding Dean Emeritus, The Volgenau School of Information Technology and Engineering. BSEE, Citadel; MSEE, Massachusetts Institute of Technology; PhD 1960, Purdue University; DEngr 1986, University of Waterloo; 1997, Dalhouse University.

Sagoff, Mark, Director of Institute for Philosophy and Public Policy. BA 1963, Harvard University, PhD 1970 University of Rochester.
Salisbury, Mona A., Assistant Director, Small Business Development Center, Mason Enterprise Center. BS 2004, Cornell University; MS 2008, University of Virginia.

Salmon, Victoria N., Associate Dean of Graduate Studies and Academic Advancement, College of Visual and Performing Arts. BA 1978, MA 1987, Georgetown University; DA 1997, George Mason University.

Salvador Morales, Carolina, Assistant Professor, Bioengineering Department. BS 2001, National Autonomous University of Mexico; MS 2003, Trinity College Dublin; PhD 2007, University of Oxford.

Samara, R. Tony, Assistant Professor, Sociology and Anthropology. BA 1992, St. Lawrence University; MA 1995, City University of New York; MA 1997, PhD 2005, University of California, Santa Barbara.

Samaras, Anastasia, Professor of Education, Graduate School of Education. BA 1972, MEd 1976, PhD 1990, University of Maryland.

Sample, Mark, Associate Professor, English. BS 1994, Miami University; MA 1998, Georgetown University; MA 2000, PhD 2004, University of Pennsylvania.

Samuelian, Kristin F., Term Associate Professor, English. BA 1983, Catholic University of America; MA 1984, PhD 1992, Boston University.

Samuels, Linda Bartman, Professor of Business Legal Studies. BA 1970, Queens College; MPA 1971, State University of New York, Albany; JD 1975, University of Virginia.

Sandell, Renee, Professor, Art and Visual Technology. BA 1972, City College of New York; MA 1974, PhD 1978, Ohio State University.

Sander, Evelyn, Professor of Mathematical Sciences. BA 1990, Northwestern University; PhD, 1996, University of Minnesota.

Sanders, Anthony, Chair of the Finance Area and Distinguished Professor of Finance. BA 1974, Chico State College; MA 1976, PhD 1979, University of Georgia.

Sandole, Dennis J.D., Professor of Conflict Resolution and International Relations, School for Conflict Analysis and Resolution. BA 1967, Temple University; PhD 1979, University of Strathclyde.

Sanford, James Francis, III, Associate Professor of Psychology; Associate Chair for Undergraduate Studies, Department of Psychology. BA 1966, Ohio Wesleyan University; MS 1968, PhD 1973, Kansas State University.

Sanghera, Kamaljeet, Associate Professor, Applied Information Technology. BA 1996, Delhi University; MS 2001, George Mason University; PhD 2009, Capella University.

Sanyal, Pallab, Assistant Professor, School of Information Systems and Operations Management. BE 1995, University of Calcutta; PhD 2009, University of Minnesota.

Saperstone, Stephen Harold, Acting Chair and Professor of Mathematical Sciences. BEP 1962, Cornell University; MA 1965, PhD 1970, University of Maryland.

Satyapal, Shobita, Professor, Physics and Astronomy. BA 1988, Bryn Mawr College; MA 1990, PhD 1995, University of Rochester.

Sauer, Karen L., Associate Professor, Physics and Astronomy. BS 1992 Cornell University; MA 1995, PhD 1998, Princeton University

Sauer, Timothy D., COS Distinguished Scholar; Professor of Mathematical Sciences. BS 1977, Michigan State University; PhD 1982, University of California, Berkeley.
Saunders, Catherine E., Term Assistant Professor of English. BA 1986, Harvard University; MA 1998, PhD Candidate, Princeton University.

Sausville, Catherine, Term Instructor of Mathematical Sciences. BS 2005, MS 2008, George Mason University.

Scabill, Andrew, Term Assistant Professor, English. BA 2000, MA 2005, PhD 2010, University of Texas at Austin.

Scarlata, Jessica, Associate Professor, English. BA 1993, Tufts University; MA 1998, PhD 2004, New York University.

Schack, Frederick, Associate Professor of Health and Physical Education, School of Recreation, Health, and Tourism. BA 1965, MA 1972, California State University; PhD 1976, Ohio State University.

Scheindfeldt, Joseph, Managing Director of the Center for History and New Media. AB 1996, Harvard University; MS 1999, PhD 2003, Oxford.

Schiller, Anne, Vice President for Global and International Strategies. Professor, Anthropology. BA 1979, University of Virginia; MA 1982, PhD 1987, Cornell University.

Schintler, Laurie Ann, Associate Professor, School of Public Policy. BA 1989, University of Iowa; MA 1992, PhD 1995, University of Illinois, Urbana-Champaign.

Schneider, Edwin K., Professor, Atmospheric, Oceanic and Earth Sciences. AB 1970, PhD 1976, Harvard University.

Schneider, William, Term Professor, Public and International Affairs. BA Brandeis University; PhD 1972 Harvard University.

Schoeny, Mara L., Assistant Professor of Conflict Resolution, School for Conflict Analysis and Resolution. BA 1986, University of Virginia; MS 1996, PhD 2006, George Mason University.

Schrag, Zachary, Associate Professor, History and Art History. BA 1992, Harvard University; MA 1997, MPhil 1999, PhD 2002, Columbia University.

Schreibels, John A., Chair and Associate Professor of Chemistry. BS 1975, PhD 1979, University of South Florida.

Scherer, Matthew, Assistant Professor of Government and Politics. BA 2000 Williams College; PhD 2007 Johns Hopkins University.

Schrum, Kelly, Term Assistant Professor, History and Art History. BA 1991, University of California, Berkeley; MA 1996, PhD 2000, Johns Hopkins University.

Schulze, Susan, Term Assistant Professor, History. BA 1986, The School of the Art Institute of Chicago; MA 1995, Southern Illinois University at Edwardsville; 2005 PhD, Saint Louis University.

Schum, David A., Professor, Systems Engineering and Operations Research. BA 1956, MA 1961, Southern Methodist University; PhD 1964, Ohio State University.

Schwartzstein, Linda A., Professor of Law; AB 1973, Brandeis University; JD 1976, University of Michigan; LLM 1977, New York University; PhD 1994, George Mason University.

Scimecca, Joseph Andrew, Professor of Sociology. BA 1962, Hunter College; MA 1965, PhD 1972, New York University.

Scolaro, Margaret J., Term Instructor, English. BA 1994, Mary Washington College; MA 1996, George Mason University.

Scott, Laura, Term Associate Professor of English. BA 1986, Kent State University; MFA 1993, George Mason University.

Scott, P. Kristin, Term Assistant Professor, New Century College. BA 1999 Smith College; MA 2004 University of Chicago; MFA 2004 Columbia College Chicago.

Scott, Suzanne, Director, Women and Gender Studies and Term Associate Professor, New Century College. BA, Eastern Mennonite College; MA 2000, James Madison University; MFA, Goddard College.

Scruggs, Thomas, University Professor of Education, Graduate School of Education. BA 1971, Pennsylvania State University; MEd 1978, Lesley University; PhD 1982, Arizona State University.

Scully, Randolph, Associate Professor, History and Art History. BA 1992, Williams College; PhD 2002, University of Pennsylvania.

Sealey, Nicole J., Director, Center for International Student Access. BIS 2001, Virginia State University; MA 2009, George Mason University.

Segerson, Keith B., Assistant Dean for Research Administration and Outreach, School of Public Policy. BBA 1980, MSc 1989, Houston Baptist University; MS 2001, George Mason University.

Seligmann, Linda J., Director, Graduate Studies in Anthropology and Professor of Anthropology. BA 1975, Pomona College; MA 1978, University of Texas, Austin; PhD 1987, University of Illinois, Urbana-Champaign.

Seshaiyer, Padmanabhan, Professor of Mathematical Sciences. BA, MS 1994, Birla Institute of Technology and Science; PhD 1998, University of Maryland.

Setia, Sanjeev, Department Chair and Professor, Computer Science. MSc 1987 Birl Institute of Technology and Science (Pilani); MS 1990, PhD 1993, University of Maryland.

Seto, Donald, Associate Professor, Bioinformatics and Computational Biology. BA 1980, University of California, San Diego; PhD 1987, Johns Hopkins University.

Sforza, Daniel, Research Assistant Professor, Computational and Data Sciences; MS 1993, University of Buenos Aires; PhD 2000, University of Buenos Aires.

Shabaev, Andrew, Research Assistant Professor, Computational and Data Sciences. MS 1985, Technical University St. Petersburg; PhD 1999, American University.

Shafroth, Frank, Research Professor and Director of the State and Local Government Leadership Center. BA 1970 Stanford University; JD 1984 Georgetown University.

Shaklee, Beverly, Professor of Education, Graduate School of Education. BS 1975, MS 1981, University of Kansas; EdD 1985, Mississippi State University.

Shapiro, Jay A., Professor of Mathematical Sciences and Associate Chair. BA 1971, Rider College; PhD 1975, Rutgers University.

Shaw, Lisa E., Director of Field Experience, School for Conflict Analysis and Resolution. BA 1994, Regis University; MS 2011, George Mason University.

Shaw, Tyler, Assistant Professor of Psychology. BA 2002, MA 2006, PhD 2008, University of Cincinnati.

Shedd, Juliette R. Rouge, Associate Dean for Administration, School for Conflict Analysis and Resolution. BA 1998, George Washington University; MS 2005, PhD 2013 George Mason University.

Sheehan, Sarah E., Social Sciences Reference/Liaison Librarian, University Libraries. BA 1988, MS 1990, Catholic University of America.

Shehu, Amarda, Assistant Professor of Computer Science. BS 2002, Clarkson University; MS 2005, PhD 2008, Rice University.

Shelley, Louise I., University Professor of Public Policy and Director, Terrorism, Transnational Crime, and Corruption Center. BA 1972, Cornell University; MA 1973, PhD 1977, University of Pennsylvania.

Shelton, Victoria, Sciences Reference and Instruction Librarian. BA 1984, Saint Petersburg State University, Russia; MLS 2000, School of Library and Information Studies, Texas Woman’s University.

Sheng, Hongwei, Associate Professor of Computational and Data Sciences. PhD 1997, Shenyang National Laboratory for Materials Science, Chinese Academy of Sciences.

Sheridan, Kimberly, Assistant Professor of Education, Graduate School of Education. BA 1992, Kalamazoo College; EdD 2006, Harvard University.

Sherwin, Martin J., University Professor of History and Public Policy. AB 1959, Dartmouth College; PhD 1971, University of California, Los Angeles.

Shields, Susan, Professor of Dance. BA 1996, State University of New York, Empire State College; MFA 2003, George Mason University.

Shiner, Whitney T., Associate Professor of Religious Studies. BA 1971, University of Chicago; MA 1980, University of Chicago Divinity School; PhD 1992, Yale University.

Shipley, Scott T., Affiliate Assistant Professor of Earth Systems Science. BA 1971, Beloit College; MS 1973, PhD 1978, University of Wisconsin.

Shiver, John M., Term Instructor of Health Administration and Policy. BS 1968, The Citadel; MS 1975, Virginia Commonwealth University, Medical College of Virginia.

Short, Jerome L., Associate Professor, Psychology. BA 1984, St. Norbert College; MA 1987, PhD 1990, Arizona State University.

Shortle, John F., Associate Professor, Systems Engineering and Operations Research. BS 1992, Harvey Mudd College; MS 1993, PhD 1996, University of California, Berkeley.

Shukla, Jagadish, University Professor, Atmospheric Oceanic and Earth Science. BSc 1962, MSc 1964, PhD 1971, Banaras Hindu University; ScD 1976, Massachusetts Institute of Technology.

Sikdar, Siddhartha, Assistant Professor, Electrical and Computer Engineering. BTEE 1997, Indian Institute of Technology; MS 2001, University of Washington; PhD 2005, University of Washington.

Simmons, Solon J., Associate Professor of Conflict Resolution, School for Conflict Analysis and Resolution. BA 1991, University of Chicago; MS 1999, PhD 2005, University of Wisconsin, Madison.
Simon, Robert, Associate Professor, Computer Science. BA 1981, University of Rochester; PhD 1996, University of Pittsburgh.

Singer, Harvey, Assistant Professor of Information Systems and Operations Management. BA 1978, Queens College of the City University of New York; MA 1984, PhD 1987, Johns Hopkins University.

Singleton, John S., Assistant Professor of Geology. BA 2001, Pomona College; MS 2004, University of California-Santa Barbara; PhD 2011, University of Texas.

Singman, David H., Professor of Mathematical Sciences. BS 1972, MS 1976, PhD 1980, McGill University.

Sistek, Mark A., Advising Director, BIS. BFA 1979, Cleveland Institute of Art.

Sklarz, Daniel M., Term Associate Professor, Environmental Science and Policy. BA 1991, University of Pennsylvania; MA 1993, Boston University; PhD 2000, George Mason University.

Slavin, Margaret, Assistant Professor of Nutrition and Food Studies. BS 2006, University of Pittsburgh; PhD 2011, University of Maryland, College Park.

Slayden, Suzanne Weems, Associate Professor of Chemistry. BS 1970, PhD 1976, University of Tennessee.

Slick, Teri, Director, Student Services, New Century College. BA 1997, MA 2000 Michigan State University.

Sluzki, Carlos E., Professor and Acting Chair, Global and Community Health, Professor, School for Conflict Analysis and Resolution, Krasnow Institute for Advanced Study. MD 1960, University of Buenos Aires School of Medicine.

Smith, Colin, Director of Corporate Relations, Intercollegiate Athletics. BA 2003, Lynchburg University.

Smith, Glenn Edward, Professor of Music. BA 1968, MA 1969, California State University; DMusic 1973, Indiana University.

Smith, Kris M., Associate Provost for Institutional Research and Reporting. BS 1973, Northwest Missouri State University; MEd 1981, South Dakota State University; PhD 1992, University of Michigan.

Smith, Lesley M., Associate Professor, New Century College. BA 1976, University of St. Andrews, Scotland; PhD 1980, Brasenose College, Oxford University, England; MFA 1998, George Mason University.

Smith, Paul, Professor of Cultural Studies. BA 1976, MA 1980, Cambridge University; PhD 1981, University of Kent at Canterbury.

Smith, Robert F., Professor of Psychology, and Director, Cognitive and Behavioral Neuroscience Program. BS 1971, University of Florida; MA 1973, PhD 1976, University of Wisconsin.

Smith, Robert G., Associate Professor of Education, Graduate School of Education. BA 1965, Davis and Elkins College; MA 1972, PhD 1973, University of Maryland.

Smith, Rodger, Term Instructor, Department of Communication; Faculty Advisor, WGMU. BS 1986, James Madison University; MBA 1992, Shenandoah University.

Smith, Suzanne E., Associate Professor of History. BA 1986, University of California, Los Angeles; MA 1988, Carnegie Mellon University; PhD 1996, Yale University.

Smoczynski, Florence I., Assistant Professor of Nursing. BSN 1962, Villanova University; MSN 1978, Catholic University of America; EdD 1998, Virginia Polytechnic Institute and State University.

Snodgrass, Paul, Technology and Knowledge Management Director, School for Conflict Analysis and Resolution. BA 2003, University of Arizona; MS 2007, George Mason University.
Snow, Charles, Associate Professor and Associate Chair, Applied Information Technology. BS 1980, MS 1987, PhD 1998, McGill University.

Snyder, Amy M., Director of Special Projects, University Life. BS 1995, Clarion University; MA 1997, Clemson University.

Snyder, Mark H., Term Assistant Professor, Computer Science. BS2004, The University of North Carolina at Chapel Hill; MS2007, PhD 2011, The University of Kansas.

So, Paul T., Associate Professor, Physics and Astronomy. BA 1988, Scripps College; BS 1988, Harvey Mudd College; PhD 1995, University of Maryland.

So, Sufumi, Assistant Professor of Japanese, Modern and Classical Languages. BA 1980, MA 1982, Seinan Gakuin University; MA 1989, University of Hawaii, Manoa; PhD 1997, University of Toronto.

Sobieralski, Joseph, Director of Finance, University Operations. BS 2001, MA 2003, University of South Carolina.

Socklett, Hugh T., Professor of Public and International Affairs. BA 1959, Christ Church, University of Oxford; MA 1963, University of Oxford; PhD 1974, University of London.

Sofer, Ariela, Professor, Systems Engineering and Operations Research; Chair, Department of Systems Engineering and Operations Research. BS 1972, MS 1979, Technion, Israel Institute of Technology; DSc 1984, George Washington University.

Sollka, Jeffrey L., Contract Assistant Professor, Bioinformatics and Computational Biology. BS 1978, MS 1981, James Madison University; MS 1989, Virginia Polytechnic Institute and State University; PhD 1995, George Mason University.

Soltan, Valeriu, Professor of Mathematical Sciences. Foreign degree 1973, State University, Moldovia; Doctorate 1975, Mathematical Institute of the Academy of Sciences of Moldovia.

Sommer, Rainer, Associate Professor of Public Policy and Enterprise Engineering, School of Public Policy. BIS 1987, Virginia State University; MS 1989, PhD 1998, George Mason University; PhD 1991, Columbia Pacific University.

Sommers, William T., Associate Professor, Co-Director, EastFIRE Laboratory, Geography and Geoinformation Science. BS 1965, City College of New York; MS 1967, Massachusetts Institute of Technology; PhD 1972, State University of New York, Albany.

Soyfer, Valery N., Distinguished University Professor of Molecular Genetics. BA 1957, Timiryazev Agricultural Academy; MA 1961, Lomonosov State University; PhD 1964, Kurchatov Institute of Atomic Energy, Russia.

Spaine, Lawrence F., Director of the Physical Plant. BS 1968, Virginia Polytechnic Institute and State University.

Spencer, Vicky, Associate Professor of Education, Graduate School of Education. BS 1982, University of Texas, Dallas; MS 1986, Texas A&M–Commerce; PhD 2002, George Mason University.

Spousta, Robert F., Head Coach of Crew/Rowing Coordinator. MS 1976, University of Massachusetts.

Sprague, Debra, Associate Professor of Education, Graduate School of Education. BS 1984, Buffalo State College; MA 1991, PhD 1995, University of New Mexico.

Springer, Nicole, Assistant Director of Arts Management for Professional Development. BA 2003, University of Mary Washington; MA 2007, George Mason University.
Srinivasan, Avinash, Term Assistant Professor, Computer Science. BS 1999, The National Institute of Engineering-University of Mysore, India; MS 2003, Pace University; PhD 2008, Florida Atlantic University.

Stampp, James A., Director of Capital Finance, Budget Office. MA 1971, State University of New York, Buffalo.

Stanica, Miruna, Assistant Professor, English. BA 2000, University of California, Berkeley; MA 2004, PhD 2008, Stanford University.

Stanley, Thomas T., Term Assistant Professor of Art and Visual Technology. BA 1981, Brown University; MA 2003, PhD 2009, University of Maryland.

Starr, Don, Academic Advisor and Term Assistant Professor of Art and Visual Technology. BS 1993, University of Maryland.

Stavrou, Angelos, Associate Professor, Computer Science. MSc 2001, National University of Athens, Greece; MS 2002, PhD 2007, Columbia University.

Stearns, Peter N., Provost and Executive Vice President for Academic Affairs and University Professor of History. AB 1957, AM 1959, PhD 1963, Harvard University.

Stedman, Diann, Director, of Laboratory Safety, Environmental Health, and Safety Office. BA 1993, University of Pittsburgh; MS 1997, Virginia Commonwealth University.

Stefanidis, Anthony, Associate Professor, Geography and Geoinformation Science. Dipl Eng 1986, National Technical University of Athens, Greece; MS 1988, PhD 1993, Ohio State University.

Steger, Benjamin, Assistant Professor of Film and Video Studies. BA 1995, Kansas University; MFA 2005, Columbia University.

Stevens, Andrew, Web Services Librarian, University Libraries. BA, Ohio University; MIS, MSIS, Indiana University.

Stevens, Jen, Reference and Liaison Librarian, University Libraries. BA 1993, MA 1996, University of Colorado; MLIS 2000, University of Texas, Austin.

Stockwell, Susan V., Director, Administrative Services Director, ITU. BA 1978, University of Maryland.

Stoehr, Ana Marie, Term Instructor of Nursing. BSN 1998, MSN 2000, George Mason University.

Storr, Virgil H., Research Associate Professor of Economics. BA 1996, Beloit College; MA 2000, PhD 2003, George Mason University.

Stough, Roger R., Vice President for Research - Songdo Campus and Economic Development, Office of the Provost and University Professor, School of Public Policy. BS 1964, Ohio State University; MA 1971, University of South Carolina; PhD 1978, Johns Hopkins University.

Stoy, Kevin, Living Learning Community Coordinator, Honors College. BA 2001 University of Michigan; MFA 2007 George Mason University.

Stratmann, Thomas, University Professor of Economics. BA 1985, Free University of Berlin, Germany; MA 1988, PhD 1990, University of Maryland.
Straus, David M., Professor and Chair, Atmospheric, Oceanic and Earth Sciences and Professor of Climate Dynamics. PhD 1977, Cornell University.

Stribling, Stacia, Assistant Professor of Education, Graduate School of Education. BA 1995, Mary Washington College; MA 1999, PhD 2010, George Mason University.

Stroup, Nicholas R., Assistant Director of Student Services, School of Public Policy; BA 2009, University of Virginia; MA 2011, Bowling Green State University.

Studd, Karen, Associate Professor of Dance. BS 1978, MS 1983, University of Oregon; CMA 1987, Laban Institute of Movement.

Stull, Peggy, Instructor. BSW 1976, MEd 2007, George Mason University.

Sturgis, Jennifer, Assistant Director, Academic Planning and Research Operations, Krasnow Institute. BA 1984, Knox College; MLS 1986, MS 1988, University of Illinois.

Sturrock, Alan, Assistant Professor of Education, Graduate School of Education. DipCE 1970, Dundee College of Education, Scotland; BEd 1971, Dundee University, Scotland; MAT 1974, Duke University; EdD 1985, Harvard University.

Sturtevant, Elizabeth, Professor of Education, Graduate School of Education. BA 1972, State University of New York, Oswego; MS 1975, State University of New York, Albany; PhD 1992, Kent State University.

Sturtevant, Lisa A., Research Associate Professor, School of Public Policy and Deputy Director, Center for Regional Analysis. BA 1994, Wake Forest University; MPP 2000, University of Maryland; PhD 2006, George Mason University.

Suh, Hyon-Sook (Joy), Government Documents Librarian, University Libraries. BA 1973, MA 1975, Ewha Women’s University; MA 1980, University of Wisconsin, Milwaukee; MLS 1995, University of Iowa.

Suh, Jennifer, Associate Professor of Education, Graduate School of Education. BA 1994, MEd 1994, University of Virginia; PhD 2005, George Mason University.

Summerall, Marjorie, Program Coordinator, Dance. BA 1967, College of Notre Dame of Maryland.

Summers, Michael, Professor and Chair, School of Physics, Astronomy and Computational Sciences. BA 1976, Murray State University; MS 1987, University of Texas, Dallas; PhD 1985, California Institute of Technology.

Sun, Dongliang, Assistant Professor, Geography and Geoinformation Science. BS 1986, Nanjing University of Information Science and Technology; MS 1989, Chinese Academy of Meteorological Sciences; PhD 2003, University of Maryland, College Park.

Surina, Susan C., Term Instructor, Statistics. BA 1987, BS, 1987, University of North Carolina, Wilmington; MS 1989, Georgia Institute of Technology.

Sussan, Fiona K., Assistant Professor, Marketing. BA, International Christian University, Japan; MPhil, City University of New York; MBA 2004, PhD 2005, Baruch College, City University of New York.

Sutter, Caroline, Assistant Professor of Nursing. AAS 1993, Marymount University; MSN 2001, DNP 2012, George Mason University.

Sutter, Rebecca, Assistant Professor of Nursing. AAS 1993, Marymount University; MSN 2001, DNP 2012, George Mason University.

Sutton, Clifton D., Associate Professor, Statistics. BS 1983, University of Virginia; MS 1985, PhD 1987, Stanford University.
Swalwell, Katy, Assistant Professor of Education, Graduate School of Education. BS 2002, University of Northern Iowa; MS 2007, PhD 2011, University of Wisconsin.

Swanson, Ryan, Term Assistant Professor of History. BA 1999, Point Loma Nazarene University; MA 2002, California State University; PhD 2008, Georgetown University.

Sweet, Colleen, Term Assistant Professor of Spanish. BA 2000, Roanoke College; MA 2004, Catholic University of America.

Swett, Susan J., Assistant Dean for Student Affairs, College of Health and Human Services. AB 1972, Lafayette College; MEd 1979, Lehigh University.

Tabarrok, Alexander, Associate Professor of Economics. BA 1989, University of Victoria, Canada; PhD 1994, George Mason University.

Taboada, Ana, Associate Professor of Education, Graduate School of Education. BA 1991, Centro de Altos Estudios en Ciencias Exactas, Buenos Aires, Argentina; MEd 1998, Temple University; PhD 2003, University of Maryland.

Taciuch, Dean F., Term Associate Professor of English. BA 1985, Kent State University; MA 1988, Ohio University; PhD 1991, University of Southwestern Louisiana.

Takahara, Patricia, Term Assistant Professor of Chemistry. BS 1990, University of California; PhD 1996, Massachusetts Institute of Technology.

Takahashi, Satsuki, Assistant Professor, Sociology and Anthropology. BS 2002 Tokyo University; MA 2007, PhD 2010 Rutgers, the State University of New Jersey.

Takats, Sean, Assistant Professor of History. BA 1996, Yale University; PhD 2005, University of Michigan.

Talbot, Lee M., Term Professor of Environmental Science and Public Policy. AB 1953, MA 1963, PhD 1963, University of California, Berkeley.

Talkington, Brigit, Term Instructor and Basic Course Coordinator, Communication. BA 1995, MA 1997, Kansas State University.

Talleyrand Abrams, Regine, Associate Professor of Education, Graduate School of Education. BA 1991, University of Pennsylvania; MA 1993, PhD 2001, University of Maryland.

Tang, Liansheng, Assistant Professor, Statistics. BS 2000, University of Science and Technology of China; MS 2003, PhD 2005, Southern Methodist University.

Tangney, June Price, University Professor of Psychology and Director of Clinical Training. BA 1979, State University of New York, Buffalo; MA 1981, PhD 1985, University of California, Los Angeles.

Tanyu, Burak F., Assistant Professor, Civil, Environmental and Infrastructure Engineering. BS 1996, Dokuz Eylul University, Izmir, Turkey; MS 1999, University of Texas at Arlington; PhD 2003, University of Wisconsin-Madison.

Taraska, Gwynne, Research Associate, Philosophy. BA 2000, Reed College; MA 2003, PhD 2009, University of Washington.

Taxman, Faye S., University Professor, Criminology, Law and Society. BA 1977, University of Tulsa; MA 1981, PhD 1982, Rutgers University.

Taylor, Anne K., Technical Operations Manager, Center for Biodefense and Infectious Diseases. BS 1993, American University.

Taylor, Eugene Arthur, Term Assistant Professor, English. BA 1990, Yale University; MA 2003, North Carolina State University; MFA 2006, George Mason University.
Taylor, George E., Jr., Professor, Geography and Geoinformation Science. BS 1971, Randolph-Macon College; PhD 1976, Emory University.

Tecuci, Gheorghe, Professor, Computer Science. MS 1979, PhD 1988, Polytechnic Institute of Bucharest, Romania; PhD 1988, University of Paris South, Orsay, France.

Terry, Kevin, Assistant Professor of Rehabilitation Science. BS 1984, MS 1994, University of Florida; ME 2001, University of Colorado-Boulder; PhD 2007, University of Texas, Austin.

Tetrick, Lois, University Professor of Psychology; Director of Industrial and Organizational Psychology Program. BA 1971, Drury College; MGA 1978, Georgia State University; MS 1981, PhD 1983, Georgia Institute of Technology.

Thatchenkery, Tojo Joseph, Professor and Director, Organizational Development and Knowledge Management Program, School of Public Policy. BA 1980, MA 1982, University of Delhi; PhD 1993, Case Western Reserve University.

Theeke, Matthew, Assistant Professor of Management, BBA 1995 University of Michigan; MBA 1999 Michigan State University; MS 2009, PhD 2012 University of Texas.

Thompson, Dawna, Director of the Cognitive Assessment Program. BA 1985, Hamilton College; PhD 1998, George Mason University.

Thompson, James, Associate Professor, Psychology. BA 1996, PhD 2002, Swinburne University of Technology in Melbourne, Australia.

Thompson, Julie E., Executive Director of Center for the Arts. BA 1981, Lawrence University.

Thompson, Kenneth, Director, Bachelor of Individualized Study; Term Professor of English. BA 1972, Williams College; PhD 1993, University of Virginia.

Thurston, Mark, Senior Fellow, Consciousness & Transformation Center, New Century College. BA 1972 University of Texas Austin; MA 1975 University of West Georgia; PhD 1978 Saybrook University.

Tian, Mingzhen, Assistant Professor, Physics and Astronomy. BS 1984, Nankai University; MS, Changchun Institute of Physics; PhD 1997, Paris-Sud University.

Tian, Qing, Assistant Professor, Department of Computational Social Science, Krasnow Institute for Advanced Study. BS 1990, Peking University; PhD 2011, University of Michigan.

Tichy, Susan, Professor of English. BA 1975, Goddard College; MA 1979, University of Colorado.

Titarchuk, Lev, Research Professor, Computational and Data Sciences. Dr. of Sc. 1972, Space Research Institute (Moscow).

Todd, Ellen Wiley, Associate Professor of Art History. BA 1969, Wells College; MA 1976, University of Colorado, Boulder; PhD 1987, Stanford University.

Toepler, Stefan, Associate Professor of Government and Politics. PhD 1995, Free University of Berlin.

Tolchin, Susan, University Professor, School of Public Policy. BA 1961, Bryn Mawr College; MA 1962, University of Chicago; PhD 1968, New York University.

Tomasovic, Susan K., Term Instructor, Department of Communication. BS 1969, University of Missouri; MAIS 1990, George Mason University.

Tompkins, Catherine, Associate Professor of Social Work and Assistant Dean for Undergraduate Studies. BA 1987, University of Maryland, College Park, MSW 1991; PhD 1995, University of Maryland, Baltimore.
Tondia, Brenda, Term Assistant Professor of Biology. Term Assistant Professor of Biology. BA 1983, University of Delaware; PhD 1993, Uniformed Services University of Health Sciences

Torres-Ortzi, Luis, Assistant Professor of Dance. BIS 2003, Arizona State University.

Torzilli, Albert Phillip, Associate Professor of Environmental Science and Policy and Associate Professor of Biology. BA 1967, University of Connecticut; PhD 1976, University of Georgia.

Totten, Christopher, Assistant Professor of Computer Game Design. BS 2007, MA 2009, The Catholic University of America.

Trafton, J. Gregory, Affiliate Professor of Psychology. BS 1989, Trinity University; MA 1991, PhD 1994, Princeton University.

Travis, Shirley, Professor and Senior Administrative Faculty, College of Health and Human Services. BS 1976, MS 1978, Georgia State University; PhD 1985, Virginia Tech.

Travis, Toni-Michelle C., Associate Professor of Government and Politics. AB 1969, Bard College; AM 1973, PhD 1983, University of Chicago.

Trechter, Sherry, Core Faculty Member, English Language Institute. BA 1973, University of California, Irvine; MA 1982, University of California, Los Angeles.

Trefil, James, Robinson Professor, Physics and Astronomy. BS 1960, University of Illinois; BA, MA 1962, Oxford University, England; MS 1964, PhD 1966, Stanford University.

Trencher, Susan, Chair of Sociology and Anthropology; Associate Professor of Anthropology. BA 1969, MA 1972, George Washington University; PhD 1993, Catholic University of America.

Troxler, Darren, Director of Admissions Operations. BS 1993 East Carolina University; MEd 1995 University of Southern Mississippi.

U

Uhen, Mark D., Assistant Professor of Geology. BS 1990, University of Wisconsin-Oshkosh; MS 1993, PhD 1996, University of Michigan.

Upperman, James, Associate Professor of Education, Graduate School of Education. BA 1968, Bridgewater College; MEd 1973, University of Virginia; EdD 1995, Virginia Polytechnic Institute and State University.

Urban, Carol Q., Assistant Dean for Undergraduate Programs, School of Nursing; Assistant Professor of Nursing. AA 1978, AS 1978, Glendale Community College; AA in Nursing 1980, Los Angeles Pierce College; BSN 1985, University of Phoenix; MSN 1991, PhD 2006, George Mason University.

Urgessa, Girum, Assistant Professor, Civil, Environmental, and Infrastructure Engineering. BSc 2000, Addis Ababa University, Ethiopia; MSc 2002, PhD 2006, University of New Mexico.

Urman, Anna, Director, Women’s Business Center of Northern Virginia, Mason Enterprise Center. BA 1999, Hofstra University; JD 2002, Georgetown University.

V

Vaisman, Iosif, Acting Chair and Professor, Bioinformatics and Computational Biology. MS 1984, Moscow Institute of Chemical Engineering; PhD 1990, USSR Academy of Sciences.

van Hoek, Monique L., Assistant Professor, Molecular and Microbiology. BSc 1990, University of Victoria; PhD 1997, University of Virginia.
Van Lare, Michelle, Assistant Professor of Education, Graduate School of Education. BA 1994, State University of New York - Geneseo; MA 1999, Middlebury College; PhD 2010, University of Washington.

Van Meter, Amy J., Research Assistant, Life Sciences. BS 2003, George Mason University.

van Schaik, Matthys K., Associate Dean for Academic Affairs, School of Public Policy. BA 1982, University of Pretoria; MS 1984, Georgetown University; PhD 1995, MLIS 1996, University of South Carolina.

Varak, Samit, Instructor of Education, Graduate School of Education. BE 2003, University of Mumbai, India; MS 2008, George Mason University.

Vasilyeva, Tatiana M., Term Assistant Professor of Russian. BS 1973, PhD 1984, St. Petersburg State University.

Venigalla, Mohan M., Associate Professor, Civil, Environmental, and Infrastructure Engineering. BTech 1985, Sri Venkateswara University; MS 1988, Indian Institute of Technology, Chennai; MS 1990, PhD 1994, University of Tennessee, Knoxville.

Verardo, Stacey, Term Associate Professor, Atmospheric, Oceanic, and Earth Sciences. BS 1986, C.W. Post, Long Island University; PhD 1995, City University of New York.

Verbanic, Joseph R. II., Head Coach, Softball. BS 1982, San Diego State University; MPe, Azusa Pacific University.

Verhoeven, Anne B., Term Assistant Professor of Biology. BS 2002, Virginia Polytechnic Institute and State University; MS 2005, Clemson University; PhD 2010, George Mason University.

Versel, David E., Senior Research Associate, Center for Regional Analysis, School of Public Policy. BA 1995, Washington University; Master of City Planning 1997, Georgia Institute of Technology.

Vesely, Colleen, Assistant Professor of Education, Graduate School of Education. BS 1999, Colorado State University; MA 2006, University of Connecticut; PhD 2011, University of Maryland.

Victor, Jennifer N., Assistant Professor of Government and Politics. BA 1997, MA 1999, PhD 2003 Washington University in St. Louis.

View, Jenice, Assistant Professor of Education, Graduate School of Education. BA 1980, Syracuse University; MPA-URP 1982, Princeton University; PhD 1997, Union Institute and University.

Vikis, Alexia, Term Assistant Professor of Spanish. BA 1993, MA 1996, DA 2002, George Mason University.

Visvanathan, Gnanakumar, Associate Professor, Accounting. BComm 1981, University of Madras, India; PhD 1996, New York University.

Vivancos Perez, Ricardo, Assistant Professor, Spanish. BA 1996, University of Málaga; MA 2002, Texas A&M University; PhD 2006, University of California, Santa Barbara.

Vock, Vita, Assistant Dean of Undergraduate Academic Affairs, College of Science. BS 1998, University of Nebraska; PhD 2007, University of Texas at Austin.

Volgelgesang Lester, Gretchen, Assistant Professor of Management. BS 1998, Miami University, MBA 2004, DePaul University, PhD 2008, University of Nebraska.
Voreas, Sylvia W., Term Assistant Professor, Criminology, Law and Society. BA 1984, George Mason University; JD 1987, American University.

W

Waddell, Cindy L., Assistant Professor of Sport Management, School of Recreation, Health, and Tourism. BA 1988, George Mason University; MA 1997, PhD 2003, University of Maryland.

Wade, Rex A., University Professor of History. BA 1958, Southwestern College; MA 1960, PhD 1963, University of Nebraska.

Wage, Kathleen E., Associate Professor, Electrical and Computer Engineering. BS 1990, University of Tennessee, Knoxville; SM 1994, EE 1996, PhD 2000, Massachusetts Institute of Technology/Wood Hole Oceanographic Institution.

Wagner, Wendy, Term Assistant Professor, New Century College; Director, Center for Leadership and Community Engagement. BA 1994 University of Nebraska-Lincoln; MA 1996 Bowling Green State University; PhD 2011 University of Maryland-College Park.

Wagner, Richard E., Harris Professor of Economics. BS 1963, University of Southern California; PhD 1966, University of Virginia.

Walker, Laura M. B., Term Assistant Professor, Public and International Affairs. BA 1974, University of Cincinnati; JD 1977, University of Toledo.

Walmsley, Janet M. C., Term Assistant Professor, History. BA 1978, University of Maine; MA 1989, State University of New York; PhD 2000, University of California, Riverside.

Walnut, David F., Professor of Mathematical Sciences. AB 1983, Haverford College; MA 1986, PhD 1989, University of Maryland.

Walsch, Daniel L., Press Secretary, Media Relations. BS 1972, University of Tennessee; MEd 1979, Bowie State University; MA 1982, Towson State University.

Walsh, John C., Associate University Librarian for Resources and Collection Management Services, University Libraries. BA 1979, Yale University; MA 1982, MLS 1987, University of Iowa.

Walther, Brian E., Senior Associate University Counsel. AB 1991, Harvard University; JD 1994, George Washington University National Law Center.

Wan, Ming, Director of Global Affairs Program; Professor, Public and International Affairs. BA 1985, Beijing Foreign Languages Institute; MA 1988, Acadia University; PhD 1993, Harvard University.

Wang, Diane, 1-2-1 Coordinator for China. BS, Shen Yang Industrial University; MS, Queens College.

Wang, George H. K., Research Professor of Finance. MA 1968, Northern Illinois University; PhD 1976, Iowa State University.

Wang, Pearl Yun, Associate Chair and Associate Professor, Computer Science. BA 1971, Wheaton College; MA 1973, PhD 1980, University of Wisconsin, Milwaukee.

Wang, Shuangbao, Associate Professor, Kellar Institute for Human disAbilities. BS 1984, MS 1992, Southwest Jiaotong University; PhD 1999, Tsinghua University; PhD 2004, George Mason University.

Wang, Xinyuan (Frank), Associate Professor, Computer Science. BS 1987, Peking University; MS 1990, Chinese Academy of Space Technology; PhD 2004, North Carolina State University.

Wang, Y. Diana, Associate Professor, Applied Information Technology. MS 2002, PhD 2006, University of Maryland, Baltimore County.
Wanner, Thomas, Associate Professor of Mathematical Sciences. BSc 1989, MSc 1991, PhD 1993, Universität Augsburg.

Wanschura, Patricia B., Term Associate Professor of Psychology. BA 1969, St. Mary’s College; MA 1973, PhD 1974, University of Notre Dame.

Ward, Allison, Assistant Professor of Education. College of Education and Human Development, Graduate School of Education. AB 1994, MEd 2006, PhD 2009, University of Virginia.

Ward, Peter F., Head Coach, Men’s and Women’s Swimming and Diving. BA 1989, University of Arkansas.

Warne, Rick, Assistant Professor of Accounting. BS 2002, MA 2002, Brigham Young University; PhD 2008, University of Utah.

Washington, Anne L., Assistant Professor of Public Policy, School of Public Policy. BA 1987, Brown University; MLIS 2001, Rutgers University; PhD 2011, The George Washington University.

Waters, Nigel, Director, Center for Excellence in Geographic Information Science, Professor of Geography and Geoinformation Science. BA 1972, Cambridge University; MA 1973, PhD 1977, University of Western Ontario.

Weader, Mark S., Head Coach, Wrestling. BA 1999, George Mason University.

Weatherspoon, Gerald L., Associate Professor of Chemistry. BS 1984, Jackson State University; PhD 1995, University of California, Davis.

Webster, Dennis Wayne, Adjunct Faculty, Higher Education Program. BA 1974, Seton Hall University; MA 1977, PhD 1982, University of Maryland.

Wechsler, Harry, Professor, Computer Science. BS 1971, Tel Aviv University, Israel; MS 1973, Weizmann Institute of Science, Israel; PhD 1975, University of California, Irvine.

Wedel, Janine R., University Professor, School of Public Policy. BA 1978, Bethel College; MA 1980, Indiana University; PhD 1985, University of California, Berkeley.

Weeks, Andrea, Associate Professor, Environmental Science and Policy. BS 1997, Cornell University; PhD 2003, University of Texas, Austin.

Wegman, Edward J., Bernard J. Dunn Professor of Information Technology and Applied Statistics. BS 1965, St. Louis University; MS, PhD 1968, University of Iowa.

Wei, Qi, Assistant Professor, Bioengineering. BE 2001, Beijing Institute of Technology; MS 2004 University of British Columbia; PhD 2010 Rutgers University.

Weigel, Robert S., Assistant Professor of Physics. BS 1995, University of Wisconsin, Platteville; MS 1997, University of Illinois, Urbana-Champaign; PhD 2000, University of Texas, Austin.

Weinberger, Steven H., Associate Professor of English. BA 1978, University of Pittsburgh; PhD 1988, University of Washington.

Weingartner, Joseph C., Associate Professor, Physics and Astronomy. BS 1994, State University of New York, Stony Brook; MA 1996, PhD 1999, Princeton University.

Weinstein, Ali A., Assistant Professor of Rehabilitation Science, Deputy Director, Center for the Study of Chronic Illness and Disability. BS 1999, Lafayette College; MA 2001, University of Maryland; MS 2004, PhD 2007, Uniformed Services University of the Health Sciences.
Weisburd, David L., Distinguished Professor, Criminology, Law and Society. BA 1976, Brandeis University; MA 1978, PhD 1985, Yale University.

Weisman, David Schor, Affiliate Associate Professor of Psychology. BA 1971, American University; MA 1973, Fairleigh Dickinson University; EdD 1979, Catholic University of America.

Weiss, Margaret, Assistant Professor of Education, Graduate School of Education. BA 1988, MEd 1992, PhD 1999, University of Virginia.

Westcoat-Andes, Martha, Associate Dean for Administration, College of Science. BA 1975, Smith College, MBA 1985, Columbia University.

Wheeler, Kathy D., Executive Director, Community Resource Center, Mason Enterprise Center. BA 1991, George Mason University; MBA 1994, Troy State University.

Wheelock, Stefan M., Assistant Professor of English. BA 1993, Tougaloo College; PhD 2001, Brown University.

Whildin, William, Term Associate Professor of Forensics, BS 1978, George Mason University; MS 1989, Indiana State University.

White, C. Stephen, Associate Dean and Professor of Education, College of Education and Human Development. BA 1974, Coe College; MA 1978, University of Minnesota; PhD 1985, Texas A&M University.

White, Elizabeth L., Associate Professor, Computer Science. BS 1985, MS 1986, College of William and Mary; PhD 1994, University of Maryland.

White, Gail Scott, Associate Professor of Art and Visual Technology. BA 1978, Virginia Polytechnic Institute and State University; MFA 1983, Tufts University.

Whittington, Frank J., Senior Associate Dean for Academic Affairs, College of Health and Human Services; Professor of Gerontology, Department of Global and Community Health. BA 1968, Mississippi State University; MA 1971, PhD 1975, Duke University.

Wiest, Philip Ray, Associate Professor of Economics. BA 1966, Franklin and Marshall College; MS 1967, Lehigh University; PhD 1976, University of Pittsburgh.

Wiggins, Brenda, Associate Professor of Parks, Recreation, and Leisure Studies, School of Recreation, Health, and Tourism. AB 1975, San Diego State University; MA 1981, University of Maryland; PhD 1994, University of Oregon.

Wiggins, David, Professor of Physical Education, School of Recreation, Health, and Tourism. AB 1974, MA 1975, San Diego State University; PhD 1979, University of Maryland.

Wijesekera, Duminda, Associate Professor, Computer Science. BSc 1981, University of Colombo; MS 1989, PhD 1990, Cornell University; MS 1995, PhD 1997, University of Minnesota.

Wiley, Harolyn, Early Childhood and Special Education Specialist. BS 1979, Appalachian State University; MA 1984, Gallaudet University; PhD 1991, University of Illinois.

Willett, James D., Professor and Chair, School of Systems Biology. AB 1959, University of California, Berkeley; PhD 1965, Massachusetts Institute of Technology.

Williams, Cynthia S., Director, History of Decorative Arts. BA 1973 Pace University; MA 1980 Fairfield University; MA 2008 Parsons School of Design.

Williams, Herbertia, Equal Opportunity Specialist. BA 1991, University of Virginia; JD 1994, George Mason University School of Law.

Williams, Joseph, Assistant Professor of Education, Graduate School of Education. BS 2005, MS 2007, Minnesota State University; PhD 2011, University of Iowa.

Williams, Shannon E., Director, PhD Student Services, School of Public Policy. BS 1997, University of Vermont; MS 2004, George Mason University.

Williams, Walter E., John M. Olin Distinguished Professor of Economics; BA 1965, California State University; MA 1966, PhD 1972, University of California, Los Angeles.

Williams van Rooij, Shahron, Assistant Professor of Education, Graduate School of Education. BA 1968, City College New York; MA 1970, American University of Beirut; PhD 1980, City University of New York Graduate Center; PhD 2007, George Mason University.

Willis, Boris, Associate Professor of Computer Game Design. BFA 2003, George Mason University; MFA 2007, Ohio State University.

Willis, James J., Associate Professor, Criminology, Law and Society. BA 1991, Pennsylvania State University; PhD 2000, Yale University.

Willis, Odette P., Assistant Professor of Nursing. BSN 1973, Texas Woman’s University; MN 1981, University of California, Los Angeles; MBA 1996, Golden Gate University.

Willse, Craig, Assistant Professor of Cultural Studies. BA 1997 New College of Florida; MA 2005 Queens College, CUNY; PhD 2010 City University of New York.

Wilsford, David, Professor of Government and Politics. BA 1977, University of South Carolina; MA 1984, PhD 1987, University of California, San Diego.

Wilson, David B., Chair and Professor, Criminology, Law, and Society. BA 1983, Whitworth College; MA 1987, University of Nevada, Las Vegas; PhD 1995, Claremont Graduate School.

Wilson, Deborah J., Associate Athletic Director, Academic Services and Sports Psychologist. BS 1971, James Madison University; MA 1973, Ohio State University; PhD 1986, University of Maryland.

Wilson, Rhett, Assistant Dean, Development, School of Management. BS 2004, Arizona State University.

Wiltse, Cathy A., Associate Director, Virginia Small Business Development Center Network. BA 1986, Ursuline College; MPA 2003, George Mason University.

Winant, Peter, Assistant Professor and Associate Director of Art and Visual Technology. BS 1974, Skidmore College; MFA 1980, Indiana University.

Wingfield, Andrew, Associate Professor, New Century College. BA 1988, Rutgers University; MA 1990, University of Chicago; MFA 1999, George Mason University.

Winkert, Catherine A., Budget Manager, Finance and Administration, College of Visual and Performing Arts. BA 1987, Marymount University.

Winkler, Martin M., University Professor of Classics. MA 1977, West Virginia University; PhD 1982, University of Southern California.
Winsler, Adam, Professor of Psychology. BA 1988, University of New Mexico; PhD 1994, Stanford University.

Winter, Patrice M., Term Assistant Professor of Rehabilitation Science and Center for the Study of Chronic Illness and Disability. BS 1976, Virginia Commonwealth University; MS 1982, Institute of Graduate Health Science; MS 2010, George Mason University.

Witte, James C., Professor of Sociology and Anthropology and Director, Center for Social Science Research. BA 1979, Beloit College; MPA 1991, University of Wisconsin-Madison; PhD 1991, Harvard University.

Woitek, Kira M., Director of Annual Giving, Development Office. BS 1992, Babson College; MA 1999, Georgetown University.

Wojtusiak, Janusz, Assistant Professor of Health Administration and Policy. MS 2001, Jagiellonian University; PhD 2008, George Mason University.

Wolf, Paige P., Associate Professor, Management. BA 1992, University of Delaware; MS 1994, PhD 1996, Virginia Polytechnic Institute and State University.

Wolf-Branigin, Michael, Associate Professor of Social Work. BA 1976, Western Michigan University; 1978, Stockholms Universitet; MSW 1979, University of Michigan; PhD 1999, Wayne State University.

Wolfe, Cathy M., Director, Campus Planning, Facilities. BS, MA 1985, State University of New York Buffalo; MS 2000, Drexel University.

Wolfe, James W., Entrepreneur in Residence and Assistant Professor of Management. BS 1977, MBA 1979, JD 1981, Indiana University.

Wong, David, Professor of Geography and Geoinformation Science. Honour Diploma 1984, Hong Kong Baptist College; MA 1985, PhD 1990, State University of New York, Buffalo.

Wong, Shelley, Associate Professor of Education, Graduate School of Education. BA 1971, University of California, Santa Cruz; MA 1986, University of California, Los Angeles; EdD 1990, Columbia University.

Wood, Barbara, Assistant Professor of Education, Graduate School of Education. BA 1985, BA 1986, MA 1991 Western Washington University; EdD 2009, University of Washington.

Wood, Thomas C., Associate Professor, New Century College; Affiliate Professor of Environmental Science and Policy. BS 1986, University of California, Davis; MS 1988, Louisiana State University; PhD 1996, George Mason University.

Woody, Beverly, Assistant Professor of Education, Graduate School of Education. BS 1969, Virginia State University; MEd 1977, University of Virginia; EdD 1993, Vanderbilt University.

Wrbican, Sue, Associate Professor of Art and Visual Technology. BA 1993, University of Pittsburgh; MFA 1996, Rhode Island School of Design.

Wren, William Christopher, Term Assistant Professor of Computer Game Design. BA 1996, University of San Francisco.

Wright, Catherine, Term Professor, Communication. BS 1992, Phillips University; MA 1994, Texas Tech University; PhD 2005, Regent University.

Wright, Heather, Assistant Director for Career Development, School of Public Policy. BA 2003, University of South Carolina; MA 2009, Marymount University.

Wrigley, Barbara, Executive Director, Women’s Business Center. BA 1976, Hope College; MS 1987, American University.

Wu, Yuntao, Associate Professor, Molecular and Microbiology and Life Science. BS 1985, Wuhan University; MS 1988, Chinese Academy of Sciences; PhD 1998, Queen’s University.
Wulf, Douglas John, Associate Professor of English. BA 1988, Northwestern University; MA 1993, Wright State University; PhD 2000, University of Washington.

Wulfkuhle, Julia D., Research Professor, Center for Applied Proteomics and Molecular Medicine. BA 1989, Grinnell College; PhD 1996, Purdue University.

Wuttke, Brian, Associate Professor of Music. MM 2007, University of Miami; PhD 2011, University of Miami.

Wyczalkowski, Anna J., Term Assistant Professor, Physics and Astronomy. BS 1988, MS 1990, PhD 1998, University of Maryland.

Wynn, Renell, Vice President for Communications and Marketing. BA 1985, MBA, William Woods University.

Our prime location just outside Washington, D.C. makes Mason the destination for students from all over the world. As the largest university in Virginia, Mason offers all the experiences of a large research institution, yet embodies a community approach as we work closely with our students both inside and outside the classroom.

Undergraduate Admission Policies

Office of Admissions
4400 University Drive, MS 3A4
Fairfax, VA 22030
Phone: 703-993-2400
Fax: 703-993-4622
Web: admissions.gmu.edu

Admission is competitive because the number of qualified candidates exceeds the number of new students who can be accommodated. Each candidate who presents sufficient admission qualifications is reviewed in the context of other qualified applicants. An offer of admission is valid only for the semester for which the student applied. Programs with limited space or special requirements may need a second review process for admission.

Applying for Admission

Application for undergraduate admission should be made to the Office of Admissions. Applications are available at admissions.gmu.edu/applynow. A nonrefundable and nontransferable fee must accompany the application.

Application Deadlines for Freshmen and Transfer Students

The application deadline for fall admission is January 15 for freshman applicants and March 1 for transfer applicants. The application deadline for the spring semester is October 1. Freshmen applicants who wish to be considered for merit scholarships should apply by November 1. Applications received after published deadlines will be considered on a space-available basis. The university reserves the right to close applications before published deadlines if conditions so warrant. Admission is contingent on satisfactory completion of in-progress course work and graduation from high school or community college, if relevant.

Early Admission

High school juniors who have completed high school graduation requirements except for senior English and government courses may, with the approval of their high school guidance counselor or principal, apply for admission and thereby enter the university as degree-seeking students one year early. Applicants should present exceptional grades, Scholastic Assessment Test (SAT) or American College Test (ACT) scores, and a high school course of study demonstrating rigorous academic preparation for university-level work. It is strongly recommended that candidates submit first semester junior year grades.

Freshman Requirements

The following factors are considered when reviewing freshman applications for admission:
• Cumulative high school grade point average (GPA) for course work completed in grades 9 through 12
• Level of difficulty of course work elected throughout the high school years, particularly in English, mathematics, laboratory science, social science, and foreign language
• Scores from SAT I or ACT (see exceptions under Score Optional Consideration below)
• For all non-native English speakers, scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) exam.
• Essay(s)
• List of extracurricular activities
• Teacher and guidance counselor recommendations

Fall semester applicants whose applications are complete by the application deadline are notified of decisions by April 1. All other applicants are notified on a space-available basis.

The following table specifies the minimum units of college preparatory work required for admission, as well as the minimum units recommended. The recommended units reflect the typical high school program of students who have succeeded in competing for admission in recent years.

In the following chart, column (1) refers to students applying for a bachelor of arts, excluding those in column (3), bachelor of fine arts, bachelor of music program, or with an undeclared major. Column (2) refers to students applying to a bachelor of science degree program, excluding those in column (3). Column (3) refers to applicants who intend to major in pre-business, chemistry, computer science, engineering, geology, mathematics, or physics. Note that one unit equals one academic year of study.

*Selected from algebra I, algebra II, geometry, trigonometry, analytic geometry, functions, math analysis, pre-calculus or calculus

**Selected from biology, chemistry, physics, or other advanced lab science

**Freshman Score Optional Consideration**

Score optional review provides an opportunity for applicants to be considered for admission without submitting or in disregard of standardized test scores. Admission to Mason remains a highly competitive process, and score optional candidates are considered on their own merits. **Qualifying for score optional review does not guarantee admission to Mason.** Some programs are not eligible for score optional consideration. Qualifications for score optional consideration can be found at admissions.gmu.edu/scoreoptional.
Acceptance of Freshman Admission Offer

Mason complies with the national freshman candidate reply date of May 1. Students confirm by completing the enrollment confirmation online or on the form in the admission packet and submitting it to the university with an enrollment deposit. The deposit is nonrefundable after May 1.

Transfer Requirements

Students who have graduated from high school and subsequently attempted course work at a college or university are considered transfer applicants. Transfer admission is competitive and the number of applications received annually exceeds the available spaces in our transfer class. The Admissions Committee considers each transfer application individually and reviews all grades received in courses attempted, as well as the rigor of the applicant's academic program. Transfer applicants who have completed 45 or more credits are required to declare a specific major on the application to benefit from academic advising within their intended major. Transfer applicants must submit official transcripts from each previous college or university attended. Transfer applicants with fewer than 30 transferable credits must also submit an official high school transcript or secondary school leaving certificate and ACT or SAT scores. The Admissions Committee may request secondary school records or ACT/SAT results for some applicants who have earned more than 30 credits. All non-native English speakers are required to submit official results of the TOEFL with a minimum IBT score of 88 or the IELTS with a minimum academic score of 6.5. Completion of at least two English composition courses with grades of C or better in each course may be submitted in lieu of the TOEFL or IELTS exams. The English courses must be completed at a regionally accredited U.S. college or university and approved by the Office of Admissions.

Students on active academic or social suspension or dismissal are not eligible for admission.

The University offers a guaranteed admission program to 13 Virginia Community College partners for students transferring with Associate of Arts, Associate of Arts and Sciences or Associate of Science transfer degrees. Additional transfer admission requirements are located at admissions.gmu.edu/transfer/TransferAdmissionRequirements.asp.

Transfer Credit

Transfer students receive a formal evaluation of transfer credit from the Office of Admissions after admission and receipt of the enrollment deposit. The student is responsible for providing the Office of Admissions official final transcripts of all course work attempted at other colleges/universities. Transfer credit evaluations are considered final after the first academic year of enrollment.

Transfer credit is accepted from regionally accredited colleges and universities, provided that a grade of C or better has been earned in the course and the course content is equal to that offered at Mason. Note that only credits, not grades, are transferred; grades for transferred courses will not become part of a student's GPA at Mason. Transfer credit is not granted for study in non-regionally accredited institutions. An exception may apply to Individualized Study, BIS or Applied Science, BAS majors, where college-level credit earned at institutions accredited by bodies other than recognized regional accrediting organizations (admissions.gmu.edu/transfer/TransferCreditAccreditation.asp) is subject to approval by the BIS/BAS program directors. Course work from institutions not included in the admission application will not be eligible for transfer credit. George Mason University reserves the right to revoke admission, withhold the award of credit or disenroll students who fail to indicate all previous institutions attended on the admission application.

A minimum of 30 credits must be completed in residence at Mason and 45 credits of upper-level course work must be completed to qualify for graduation. While lower-level courses taken at previously attended institutions may meet the content requirement of some upper-level courses, they do not reduce the 45-credit upper-level requirement, and courses from other institutions do not reduce the 30-credit residency requirement.

Application for a Second Bachelor's Degree
Those holding one or more bachelor's degrees may earn an additional bachelor's degree at Mason in another discipline. Application for a second bachelor's degree after conferral of a first degree from any regionally accredited institution must be conducted through the Office of Admissions. Second Bachelor's degree applicants should follow the transfer application process outlined on the Admissions Transfer homepage and are subject to the same competitive admissions review as first-degree applicants. After admission, students work with the appropriate academic program to develop an approved contract or course of study of at least 30 credits beyond the first degree, taken after admission to the second degree, to meet university residency requirements. Some units will have more stringent requirements. This contract will detail college-level and major requirements that must be met to satisfy graduation requirements.

**Acceptance of Transfer Admission Offer**

Admitted transfer students are required to confirm their enrollment by submitting an enrollment deposit by July 1 for fall entrance or December 1 for spring entrance. Enrollment deposits are non-refundable after these deadlines. Admitted students who do not accept the offer of admission by the published deadline may forfeit their space in the transfer class. Students unable to enroll may defer their transfer admission to the next semester. Contact the Office of Admissions for details and deadlines.

**Enrollment after Previous Attendance**

Students in good academic standing who have missed two or more consecutive semesters of enrollment (excluding summer term) at Mason and do not meet any of the excluded categories listed below under Readmission after Previous Attendance may re-enter by completing a re-enrollment form available through the Office of the University Registrar at registrar.gmu.edu/forms/. For graduate students and some undergraduate programs, academic department approval is also required.

**Readmission after Previous Attendance**

Students who have missed two or more consecutive semesters of enrollment (excluding summer term) at Mason must apply for readmission through the Office of Admissions if any of the following conditions are true:

- The student has not been enrolled at Mason for five years or more.
- The student is an undergraduate returning after any absence during which he or she studied at another institution without prior written permission of his or her school or college. Such students must reapply as transfer students.
- The student is in F-1 or J-1 visa status.
- The student was suspended or dismissed from any college or university for nonacademic reasons.
- The student was academically dismissed from Mason.
- The student was ever convicted of a felony.

**Right to Withdraw Offer**

Mason reserves the right to withdraw offers of admission if applicants fail to satisfy all requirements or it is determined that admission was obtained through the use of incomplete, falsified, altered, or embellished information. In the case of withdrawal of admission from a matriculated student, credit earned at Mason may be withheld. Additionally, the university reserves the right to withdraw the offer of admission to any student based on cancellation of any test score required for admission.

**Records Maintenance and Disposal**

All admissions documents, including academic records sent from other institutions, become part of the official university file. Admission credentials are retained for only 12 months. They are subsequently destroyed if applicants do not register for courses within the period for which the offer of admission is valid; have been denied admission; do not respond to requests for additional information; or fail to submit complete applications, including all official transcripts and test results.

- Records Maintenance and Disposal

Admission to graduate programs is competitive. Selection criteria differ by program and are established by departmental faculty. Applicants are evaluated on the strength of their academic background, results of standardized exams (if required by the program), work experience, and any additional evidence of potential success in the program. Each year, program faculty members determine the number of admission offers they may extend by the university resources available for their program.

Admission Standards

To be considered for degree status, the general university graduate admission requirements are as follows:

- An earned baccalaureate degree from a regionally accredited institution of higher education, or international equivalent, verified from official transcripts. (For details, see Admission of International Students section.) Note: Due to admissions deadlines, graduate students are sometimes admitted before conferral of a bachelor’s degree. Students who are awaiting conferral of the degree will be permitted to register for their first semester. However, continuance in any graduate program requires an official transcript which verifies conferral of a bachelor’s degree. Students enrolled in classes who have not submitted the required proof of degree will have a hold placed on their record. This hold, which will prevent future registration, will not be released until the proper documentation has been provided.

- A 3.00 GPA on a 4.00 scale or better in baccalaureate study. The GPA requirement is higher for many graduate programs. For students with post baccalaureate credits, a separate GPA is calculated for each institution. Note: The difficulty of the baccalaureate degree and work experience may be considered in assessing the requirements for admission.

Provisional Admission

A degree-seeking graduate applicant with a baccalaureate degree who has not met all admission requirements may, at the discretion of the college or department, be offered provisional admission if sufficient evidence is presented to suggest the applicant has the ability to pursue graduate work. As a first priority when starting the graduate program, a provisionally admitted student must satisfy the conditions of admission. Once the student has satisfied the conditions specified in the offer of admission and submitted all admission credentials, the provisional qualifier will be removed from the student’s record. Written confirmation indicating the removal will be sent to the student from the college, school, or institute dean or director.

If the student does not meet the conditions within the first 12 credits (or a more restricted time frame specified by the department in the offer of provisional admission), the student will be terminated from the program. All applicants admitted provisionally are in degree-seeking status, and course work taken appears as part of their graduate-level transcript. Students in provisional status may not take courses in the consortium or elsewhere or transfer graduate course work into their program until the provisions of admission have been met.

Students admitted into a graduate preparation bridge program in provisional status can complete up to 30 credits of coursework in preparation for a graduate degree. While the provision is in effect, graduate students whose registration includes undergraduate courses are considered full time if they meet the undergraduate standard by being registered in at least 12 credit hours per semester.
Graduate Application Requirements

For full consideration for graduate admission, applicants must submit the following:

- Completed online Application for Graduate Study
- Nonrefundable application fee
- Application for Virginia In-State Tuition Rates, if claiming entitlement to these rates
- Two official transcripts from all institutions attended for each program applied to unless the programs are in the same college or school
- Goals statement
- Letters of recommendation as required by the program
- Official exam scores, such as GRE or GMAT, reported directly from the appropriate testing service, as required by the program
- Other materials specified by the program, including departmental forms, portfolio, or interview

International applicants should read the Admission of International Students section for more information on required documentation. Specific departmental admission requirements for degree-seeking students are listed in this catalog under the relevant discipline.

Graduate Applications

Applicants are strongly encouraged to apply online at admissions.gmu.edu. Applications for the School of Law can be found at www.law.gmu.edu. Applying online saves students time and money. In addition, students should collect all supplementary materials and submit them to the appropriate graduate processing center listed below.

Application Processing Centers

The graduate admissions process is decentralized at Mason. Applicants should send their applications and support documents directly to the Graduate Admissions Application Processing Center assigned to their program. Specific mailing instructions are listed at admissions.gmu.edu/grad, as well as below. Once a graduate application is complete and ready to be evaluated for admission, the graduate application file is sent to the academic department for review by the Faculty Admissions Committee. An applicant is notified by mail of the admission decision.

Below is a list of the Graduate Admissions Application Processing Centers with contact information. Graduate admission questions may be directed to the specific center assigned to an applicant’s program by school, college, or institute.

Graduate Admission Exams

Most graduate programs use test scores as an additional measurement of an applicant’s qualifications. For departmental admissions test requirements, consult the table at admissions.gmu.edu/grad.

Information and registration bulletins for all national graduate admissions exams are available at the University Admissions Office.

The GRE may be taken in two forms: the general exam and subject exam. Some departments require official scores for both types of exams. Students may schedule the computer-based GRE general exam by calling 800-473-2255. Students may register for the GRE subject exam online at www.gre.org. **To have GRE scores sent to Mason, please use school code 5827.**

The GMAT is accepted by many graduate programs at Mason. The School of Management accepts the GMAT or GRE. Students may schedule the computer-based GMAT online at www.mba.com.

The Miller Analogies Test (MAT) is a test of 100 analogies and may substitute for the GRE in some graduate programs. **To have official MAT scores sent to Mason, use Mason’s MAT code 1768.** For information about scheduling the MAT, call 800-622-3231 or go to www.tpcweb.com - Miller Analogies Test.

The Praxis I is required by the College of Education and Human Development for graduate applicants to initial teacher licensure programs. Students may schedule the Praxis I by calling 800-853-6773. Passing scores on both Praxis I and Praxis II exams are required for program completion.

All Mason graduate programs strictly require applicants to meet the English proficiency standard. Applicants who have earned a bachelors, masters, or doctoral degree from a regionally accredited university in the United States, Canada (excluding province of Quebec), United Kingdom, Ireland, Australia, and New Zealand are considered to have met that standard. All other applicants are required to take an English proficiency examination and meet minimum scores set by Mason in order to be considered for admission. The TOEFL IELTS – Academic exam, or Pearson Test of English can be used to meet this requirement. Additional information on English language proficiency requirements can be found in the AP.6 Graduate Policies section of this catalog.

Foreign Language Requirements

Certain graduate programs require students to demonstrate foreign language proficiency at a specified level. Students entering programs that require intermediate-level proficiency can demonstrate that proficiency via previous course work that is equivalent...
to Mason’s foreign language course numbered 210 or, in some programs, by passing an exam. Contact the academic program for information on how to demonstrate language proficiency.

Admission of Graduate Degree Holders

Those holding one or more graduate degrees may earn an additional graduate degree in another discipline. For admission to a second graduate degree program, students should submit an application, transcripts, and other documents as required by the second degree program. Course credits used to satisfy the degree requirements for the first graduate degree may not be used to satisfy the degree requirements for the second graduate degree. In programs with overlapping or similar requirements, students will be advised in the subsequent degree program regarding appropriate course substitutions for subjects already covered.

Offer of Admission

The written offer of admission specifies the effective date of admission, category of admission offered, and name of the faculty advisor assigned to the applicant. This offer is good only for the semester for which the applicant applies. The offer must be accepted by returning an Intent to Enroll form and a deposit, if required by the school or college. Those whose offer of admission has lapsed must submit a new application and fee to be reconsidered for admission at a later date. Students may simultaneously apply to more than one graduate program, but if they are admitted to more than one program, they may accept only one offer and pursue only one degree program at a time.

Right to Withdraw Offer

Mason reserves the right to withdraw offers of admission if applicants fail to satisfy all requirements or it is determined that admission was obtained through the use of incomplete, falsified, altered, or embellished information. In the case of withdrawal of admission from a matriculated student, credit earned at Mason may be withheld. Additionally, the university reserves the right to withdraw the offer of admission to any student based on cancellation of any test score required for admission.

Reactivation of Deferred Applications

Applicants are notified when action on an application has been deferred pending completion of courses that are prerequisite to graduate study in a chosen field. Applicants are encouraged to notify their program’s Graduate Admissions Processing Center in writing as soon as prerequisites have been met. Applicants are responsible for furnishing official transcripts confirming that prerequisite courses have been satisfactorily completed. An admission decision cannot be made until these grades are received.

Change in Field of Graduate Study

Admission for graduate study is admission to a specific program. Therefore, a student is not free to change graduate programs at will. Students seeking to change from one graduate program to another (at the same level and within the same college) need the approval of their dean and should contact their dean’s office for the appropriate form and instructions. Note that residency requirements must be met after the change to the new program, no new time limit is given, and the student must resign from the previous program. For students seeking a change between two colleges, resignation from the previous program, a new application, application fee, official transcripts, and proof of degree from prior institutions are required. Previous acceptance into one graduate program does not guarantee acceptance into another.

Graduate Study during Summer Term

Graduate programs do not admit for summer term, however, students accepted for the fall semester are considered admitted students and some graduate programs may allow students to take courses during the preceding summer.
Records Maintenance and Disposal

All admissions documents, including academic records sent from other institutions, become part of the official university file. Admission credentials are retained for only 12 months. They are subsequently destroyed if applicants do not register for courses within the period for which the offer of admission is valid; have been denied admission; do not respond to requests for additional information; or fail to submit complete applications, including all official transcripts and test results.
Admission of International Students

Return to: Admissions

- General Requirements
- Freshman and Transfer Requirements
- Graduate Requirements
- International Student Health Insurance

Office of Admissions
4400 University Drive, MS 3A4
Fairfax, VA 22030
Phone: 703-993-2400
Fax: 703-993-4622
Web: admissions.gmu.edu

General Requirements

Application for admission by international students should be made directly to the Office of Admissions via the online application.

Application deadlines are as follows:

- **Freshman Fall:** January 15
- **Transfer Fall:** March 1
- **Freshmen Spring:** October 1
- **Transfer Spring:** October 1

Graduate: Varies by academic program. Please check admissions.gmu.edu/grad for specific program details.

These deadlines ensure adequate time to process applications and prepare immigration documents. All international applications must be accompanied by the nonrefundable application fee. Items that must be submitted with the application form and fee are official transcripts and degree certificates (in original language and, if applicable, certified English translation); evidence of English proficiency (via official score reports from the TOEFL IELTS or Pearson exam); the Certificate of Financial Responsibility (CFR); financial support documents; copy of passport identification page; and for those present in the United States, copies of immigration documents verifying current nonimmigrant status. Other documentation such as recommendation letters, essays, portfolios, etc., may be required by the academic program. Please visit admissions.gmu.edu for full details on items required and deadlines.

Applications from international students are reviewed with all other applications. Admission to the university is competitive; therefore, while minimum standards ensure that an application will be considered, they do not guarantee admission. The number of applicants, qualifications of the applicant pool, and the amount of available space determine the number of admission offers that Mason can make. In addition to overall admission requirements, some schools and colleges have individual requirements for acceptance into the major. For more information, see school or college admission requirements.

Applicants who are accepted to a program will receive a written offer of admission. Most students come to the United States on an F-1 visa, but students who are sponsored by the U.S. government, their home government, or another organization may be required to enter the United States on a J-1 Exchange Visitor’s Visa. To be issued an immigration document (Form I-20 for F-1 status or Form DS2019 for J-1 status), students must prove they have sufficient financial support to cover their expenses while at Mason. If the documentation submitted is satisfactory, the university will issue Form I-20 for F-1 status or Form DS2019 for J-1 status and mail it to the address indicated on the Certificate of Financial Responsibility.

International students outside the United States may use their immigration documentation to schedule a visa interview with the U.S. embassy or consulate nearest their place of residence and apply for an F-1 or J-1 student visa. For more information about
the visa application process, check with the nearest U.S. embassy or consulate, or go to the Department of State’s web site: www.state.gov.

Students in a nonimmigrant visa category other than F-1 or J-1 may submit the CFR and copies of immigration documents indicating their immigration status. They do not need to submit financial support documents unless they plan to change to a student visa. For more information pertaining to immigration status, contact the Office of International Programs and Services (OIPS) at 703-993-2970. Additional information is available on the OIPS web site: oips.gmu.edu.

**Freshman and Transfer Requirements**

A freshman student is a first time university student who has never enrolled in a college or university before while a transfer student is one who has completed course work at another college or university after graduating from high school. In addition to the requirements defined for all applicants, international students must meet the following standards:

- Freshman applicants must submit certified official copies of all secondary or high school transcripts in the original language along with an English translation, if applicable. Results of any exit certificates or university entrance exams also must be submitted.
- All freshman applicants are required to submit satisfactory scores on the SAT I or ACT exam score if required by their academic program or the Office of Admissions.
- Applicants must demonstrate English proficiency. Applicants whose native language is not English are required to submit TOEFL, Pearson Test of English, or IELTS exam results. To be considered for admission, applicants must have scored at least 230 on the computer-based TOEFL, 88 on the Internet-based TOEFL, 570 on the paper-based TOEFL and 4.5 on the TOEFL essay, or must have received a score of 6.5 or higher on the IELTS exam, or a 59 overall band score on the Pearson Test of English. Official test scores must be sent directly from the Educational Testing Service or IELTS. For more information, visit Test of English as a Foreign Language web site at www.toefl.org, the IELTS web site at www.ielts.org, or the Pearson Test of English web site at www.pearsonpte.com.
- All transcripts from colleges or universities outside the United States must be translated into English and evaluated by a recognized U.S. evaluation service before an admission decision can be made. Applicants are responsible for the timely translation and evaluation of documents and all costs and fees associated with these services. A list of accepted evaluation agencies is available at www.naces.org/members.htm.
- International students already in the United States with F-1 status must complete immigration transfer procedures within 15 days of the program start date. For processing of immigration transfers, contact OIPS at 703-993-2970 or oips.gmu.edu.

**Graduate Requirements**

International students interested in pursuing graduate study must meet the following requirements:

- In order to be considered for admission, applicants must complete the online Application for U.S. Graduate Study and submit all required materials, including any supplemental documentation required by their academic program.

**English Proficiency Standards**

Mason students participate in rigorous graduate coursework as part of their university educational experience. Therefore, students at Mason must have a full command of academic English at the graduate level in order to be successful throughout their studies. All new graduate students are expected to accurately comprehend written graduate-level English, clearly understand rapidly spoken English in classroom lectures and in professional settings, write with proper grammar and syntax, and be able to respond quickly in English using a vocabulary appropriate for collegiate settings.

For this reason, Mason has a high standard of English proficiency for graduate admission. All Mason graduate programs strictly require applicants to meet that English proficiency standard. Applicants who have earned a bachelors, masters, or doctoral degree
from a regionally accredited university in the United States, Canada (excluding province of Quebec), United Kingdom, Ireland, Australia, and New Zealand are considered to have met that standard. All other applicants are required to take an English proficiency examination and meet minimum scores set by Mason in order to be considered for admission. The TOEFL, Pearson Test of English, or IELTS exams can be used to meet this requirement.

Decisions regarding English proficiency are the sole discretion of Mason Admissions offices.

Listed below are the English proficiency examinations that Mason accepts and the corresponding minimum score requirements and submission procedures. Individual programs reserve the right to set higher minimum scores:

**TOEFL**
- IBT 88 points total AND a minimum of 20 points in each section
- CBT 230 points
- PBT 570 points

**IELTS - Academic**
- 6.5 total band score

**Pearson Test of English**
- 59 overall score

All English proficiency scores are valid for two years from the test date. Official test scores must be provided directly from the testing agency. For TOEFL, IELTS, and the Pearson Test of English, please make sure you have scores sent to the Mason Office of Graduate Admissions. It is not necessary to use the exact department code as test scores arrive to our institution electronically.

- All transcripts from colleges or universities outside the United States must be translated into English, if applicable, and submitted for evaluation to the graduate school to which the applicant is applying. Mason will provide evaluation service free of charge for all international transcripts. Because of volume, more time may be needed to process applications requiring a Mason evaluation. For expedited service, students can submit their documents to a recognized U.S. evaluation service at their own expense. A list of recognized evaluation services is available in Mason’s Admissions Office or at www.naces.org.
- Graduate students’ documents should show the award of either a bachelor’s degree or equivalent, or a graduate degree.

**For Students with International Degrees**

Mason requires the equivalent of a four-year U.S. bachelor's degree from an appropriately accredited international institution of higher education for admission to a graduate degree program. All applicants who were educated outside the United States are required to submit an official credential evaluation, written either by an approved evaluation company or by Mason evaluators. Complete information on this and all international admissions requirements can be found at admissions.gmu.edu/global/intlAdmissionRequirements.asp. Mason Admissions has final authority on equivalency of degrees.

**Special Conditions for International Applicants**

A complete list of application requirements at all levels can be found online at admissions.gmu.edu/global/intlAdmissionRequirements.asp. It is also important to note the following:

- Federal regulations prohibit students on visitor visas (B-1 and B-2) from enrolling in school. Students who entered the United States on a visitor visa should not plan to study. For more information, contact OIPS.
- Federal regulations prohibit F-2 spouses of F-1 students from engaging in full-time study, and F-2 children may engage in full-time study only from kindergarten through 12th grade. F-2 dependents may engage in study that is avocational
or recreational in nature. F-2 dependents seeking to pursue full-time or degree study in the United States must change their status to F-1. For more information, contact OIPS.

- Students enrolled at the university in F-1 or J-1 nonimmigrant status must maintain full-time enrollment each fall and spring semester. For undergraduate students, this means 12 credit hours each semester. Full-time status for graduate students is defined by the Office of the University Registrar, and information can be found in the AP.6 Graduate Policies section of this catalog. Because of this requirement, F-1 or J-1 international students do not qualify for part-time programs.
- Admission for international students is offered for fall (August) and spring (January).
- Prospective students who seek to enter the United States in F-1 or J-1 immigration status, or who seek to attend Mason following attendance at another US school, must complete the Certificate of Financial Responsibility (CFR), which can be downloaded from admissions.gmu.edu. The form and financial support documents must be submitted to the Admissions Office with the application.
- Students already in the United States should submit copies of immigration documents verifying current nonimmigrant status. This documentation should be submitted with the application for admission.
- Prior to issuing an I-20 or DS-2019 form, the University is required to verify that a student has sufficient financial support to pay for both educational and living expenses. If source is a sponsor, confirmed funding must be documented for the first year of study, typically with a sponsor letter and current bank statement or a scholarship award letter or an assistantship offer. The source of funds for subsequent years must be shown, although for sponsored students a bank statement is required only for the first year. Students who are self-funded must show funds on deposit for the full term of their program. The CFR gives an estimate of annual expenses, including tuition, living expenses, and health insurance; and it also explains what type of documentation is accepted.
- All new students admitted to the university must submit an Immunization Record Form signed by a health care provider. Requirements, information and forms are available at shs.gmu.edu/immunizations.
- Financial sponsors who wish to be billed directly must provide a U.S. billing address. Mason does not bill third parties overseas. It is the student’s responsibility to make sure tuition and fees are paid on time.

**International Student Health Insurance**

University policy requires all F-1 and J-1 visa students to have health insurance. Federal law requires all students on a J-1 visa to have health insurance that includes coverage for medical evacuation and repatriation. Medical evacuation coverage pays for returning a seriously ill student to his or her home country. Repatriation coverage pays for returning a student’s remains to his or her home country.

Mason offers health insurance for students on J-1 and F-1 visas. When international students register for classes, the cost of this coverage is automatically billed to their account by the Office of Student Accounts. This fee is due by the tuition payment due date. Failure to pay this insurance fee or successfully obtain an exemption may result in the cancellation of class registration. Late fees may be assessed if charges are not paid by the deadline established by the Student Accounts Office.

International students are required to purchase insurance for fall and spring/summer semesters.

**Exemption from the International Student Health Insurance**

International students are automatically enrolled in the Mason Student Health Insurance Plan. International students with health insurance coverage from the following list may request an exemption from the Mason Student Health Insurance Plan. Submission of a request does not guarantee that a waiver will be granted. The Student Health Insurance Office reserves the right to audit all waivers in order to ensure compliance with University Policy 6002.

Students may apply for an exemption:

1. If they have a scholarship or government-sponsored program that provides insurance for them that meets or exceeds the Mason Student Health Insurance Plan.
2. If they or their spouse or parent have a United States employer who provides health insurance for them that meets or exceeds the Mason Student Health Insurance Plan.

Each fall, continuing F-1 and J-1 visa students are required to either pay for the Mason Student Health Insurance or successfully obtain an exemption. Exemptions must be obtained no later than one week after the last day to add/drop classes.

For more information and exemption form, please visit shs.gmu.edu/insurance.
Non-degree Enrollment

Return to: Admissions

- Non-degree Status
- Standards for Admission
- Undergraduate Non-degree
- High School Guest Matriculants
- Graduate Non-degree
- Academic Advising

Office of Admissions
4400 University Drive, MS 3A4
Fairfax, VA 22030
Phone: 703-993-2400
Fax: 703-993-4622
Web: admissions.gmu.edu

Non-degree Status

Non-degree status enables students who have no immediate degree objective or those seeking personal enrichment to enroll in courses for which they are qualified without seeking formal admission to a degree program. Enrollment in specific courses is based on eligibility criteria and availability of space in courses; in high-demand fields, enrollment may be restricted or prohibited.

All non-degree applicants must complete a non-degree online application for admission and supply official transcripts from all postsecondary institutions they have attended. High school guest applicants must submit an official high school transcript.

International students are typically not admitted in non-degree status. The only exception is for those students who attend George Mason University pursuant to the terms of an exchange agreement or memorandum of understanding between Mason and their home university. Those students are required to process their applications and all documentation through the Center for Global Education, and to pay the associated fee.

Non-degree application information and deadlines are available online at admissions.gmu.edu.

Students are responsible for registering properly and paying by the deadline. Students should confirm the correctness of their enrollments (including drop and add) via Patriot Web. Incorrect enrollments may result in academic and financial penalties.

Standards for Admission

Admission to Mason as a non-degree student is competitive and based on space availability. Non-degree admission is not automatically granted, and non-degree admission does not guarantee enrollment in any specific course or any future degree programs. Non-degree applicants must meet the standards for admission that would apply to the equivalent degree-seeking status.

Undergraduate Non-degree

Qualified high school students, current college students and post-baccalaureate students may apply to enroll in non-degree undergraduate classes via the online undergraduate application. Transcripts from all colleges attended are required. High school transcripts may be required.

Applicants with a bachelor’s degree seeking to take undergraduate courses must meet the standards for admission for a bachelor’s degree. These students will be considered undergraduate students and are not eligible to take graduate courses or receive graduate academic advising. Students who later seek to enroll in graduate courses or wish to receive graduate academic advising must submit a new non-degree graduate application and be reconsidered for admission.
Non-degree studies students are allowed to register for a maximum of 10 credits per semester and may apply up to 18 undergraduate credits taken in non-degree status to an undergraduate degree program by the dean of the relevant undergraduate degree program.

All undergraduate non-degree students are subject to the academic standing regulations and sanctions described in the Requirements for Retention section in the Academic Policies section of this catalog.

**High School Guest Matriculants**

Exceptionally talented high school juniors and seniors may be considered for enrollment in lower-level undergraduate courses. These applicants will be evaluated based on their academic performance in high school. Only students who have excelled in high school and demonstrate the preparation and maturity indicative of the potential to succeed in Mason’s competitive course work will be admitted. Mason cannot guarantee that courses will fulfill high school graduation requirements or that courses taken while a high school guest will transfer to other institutions.

High school guest matriculates taking dual enrollment courses through Governor's School at Innovation Park may seek permission to exceed limits on the application of credits taken in non-degree status to a degree program by petitioning the dean of the relevant undergraduate degree program and the Dean of Admissions.

**Graduate Non-degree**

Admission to non-degree graduate study at Mason is highly competitive. Applicants must present an earned baccalaureate degree from a regionally accredited college or university, or international equivalent, verified from official transcripts with a minimum 3.00 GPA on a 4.00 grade scale. Among the factors that may be considered in the admissions process are previous academic performance, professional experience and academic fit. Some graduate units do not accept non-degree applications.

Individual units and majors may have additional requirements for non-degree graduate status (see below and also admissions.gmu.edu/nondegree). Once admitted to graduate non-degree status, students are considered graduate students and tuition charges are calculated as such, regardless of the level of course(s) in which they are enrolled. **A student cannot graduate or receive a degree while in non-degree status. Non-degree graduate students may not register for classes numbered 700 or higher.** All master’s programs require at least 18 credits to be completed in degree status at Mason to be considered for graduation, and some graduate programs allow a maximum of 6 credits to be transferred from non-degree status. Students who plan to seek a degree from Mason are strongly encouraged to apply for degree status admission and seek departmental advising as soon as possible. Non-degree students are expected to maintain the same academic standards as degree-seeking students. See Academic Termination in the AP.6 Graduate Policies section of this catalog.

**Academic Advising**

On initial enrollment, non-degree students are assigned to one of the colleges, schools, or institutes at Mason according to their original course selection and level (graduate or undergraduate). Once assigned, the academic unit is responsible for advising and handling requests that require a dean’s permission.

Grades earned through non-degree studies remain a part of the student’s permanent non-degree record and are recorded on the standard university non-degree transcript. They will not appear on the degree transcript unless the student is accepted to a degree program and permission is given by the dean to apply the non-degree credit to the degree program.
Advanced Placement and Credit by Exam

The Office of Admissions awards transfer credit for several advanced standing examinations based upon minimum score requirements established by Mason academic departments. A complete list can be found at admissions.gmu.edu/exams. Students are responsible for providing official test score transcripts at time of application. Transfer credit evaluations are considered final after the first academic year of enrollment.

Mason Departmental Exams

Proficiency exams are offered in a number of courses usually taken during the first two years. Students may not earn credit by exam for courses in which they are currently enrolled beyond the time allotted to add courses in that semester, or for courses already audited or failed at the university. Transfer students may not earn by exam any part of the 30 credits that must be completed at Mason to earn a degree.

English 101 and English 302 Proficiency Testing

The English Department offers proficiency testing for the required composition courses English 101 and English 302. Students seeking a waiver for English 101 may take the English 101 Proficiency Exam. Students seeking a waiver for English 302 may submit a writing portfolio to the English Department and complete a timed exam. Students who receive a waiver through these processes do not also receive course credit. Additional information can be found on the exemptions page of the Composition website composition.gmu.edu/waivers.

Foreign Language Placement

SAT Subject Tests in foreign languages are used for placement in many of the languages offered at Mason. Freshman applicants who wish to receive the appropriate foreign language placement should take this exam during their senior year in high school. The SAT Subject Test in foreign language is mandatory for anyone who has studied one of these languages for at least two years, has no previous college credit in the language, and seeks to continue study of the same language at Mason. Transfer students receiving credit for college-level foreign language study completed at other colleges usually do not need a placement test, but should consult the Department of Modern and Classical Languages to determine correct placement.

For students who wish to continue the study of a language at Mason, it is the student’s responsibility to take a placement exam and obtain results before enrolling in a foreign language course. The placement exam is given in conjunction with orientation. The schedule can be found on the website of the Department of Modern and Classical Languages. Specific information on interpreting test scores can be obtained from the department.

Some students whose degree programs require intermediate proficiency in a foreign language may be eligible for a waiver of the requirement based on prior knowledge of foreign language. For information on waiver of the foreign language requirement see the website of the Undergraduate Academic Affairs Office of the College of Humanities and Social Sciences.
**Math Placement Exam**

The Math Placement Exam is a computer-based test to help assess a student’s proficiency. Entering students are required to complete the exam successfully during orientation unless they have received transfer credit for a mathematics course used to satisfy the University's quantitative reasoning general education requirement. The web address for the math placement test schedule is located at math.gmu.edu.

AP.7.3 Research Misconduct
AP.1 Registration and Attendance

Registration for the next semester or summer term begins after mid-semester of fall or spring semesters and is opened to various groups according to priority (graduate students, seniors, juniors, and so on). The Office of the University Registrar assigns each student a time ticket, which is a specific date and time after which a student may register. The time ticket is based on the number of credits earned. Thus, the time ticket will not be the same for all students within a particular priority group. Students should consult registrar.gmu.edu and Patriot Web for information about their registration date and time.

AP.1.1 Academic Calendar

The academic calendar may be accessed at registrar.gmu.edu. Mason runs on a semester schedule, including an active summer term.

AP.1.2 Academic Load

The minimum full-time load for undergraduate students is 12 credits per semester. For graduate full-time classification, see the AP.6 Graduate Policies section. For planning purposes, applicants for admission are asked to indicate their preference for full- or part-time status, and day or evening classes; however, they may freely choose between evening and day sections of courses and may change their full- or part-time status.

Although many students must work to meet living expenses, employment must not take priority over academic responsibilities. Students employed more than 20 hours a week are strongly urged not to attempt a full-time academic load. Students employed more than 40 hours a week should attempt no more than 6 credits per semester. Students who fail to observe these guidelines may expect no special consideration for academic problems arising from the pressures of employment.

Although 12 credits per semester represent a minimum full-time undergraduate load, students planning to graduate in four years need to carry an average of at least 15 credits per semester. Written approval must be submitted to the Office of the University Registrar before students can register for more than the maximum allowable credits. Undergraduate and Nondegree Undergraduate students should contact their Dean for permission. Graduate and Nondegree Graduate students should contact their department for permission.

Financial Good Standing; No Holds on Record

Financial good standing and a university record clear of holds are required for students to receive academic services. Services, including, but not limited to, transcript issuance, diploma release, and class registration (add, drop, withdrawal, and such) will not be provided to students with a financial balance due or a hold of any kind on their record. Holds are based on outstanding obligations and may be financial. Examples include fines owed for traffic or parking violations, incomplete immunization records, fines owed to the Mason or consortium libraries, and other administrative holds.

AP.1.3 Registration Procedures

Patriot Web will list specific course information before priority registration each semester. Courses listed may be canceled for insufficient enrollment. Mason reserves the right to change the class schedule and adjust the individual section enrollment as necessary.

Registration is usually accomplished using Patriot Web; however, if a section is closed or registration into a selected section is controlled, permission to enroll must be obtained from the academic program offering the course. Various schools and departments have their own processes for granting this permission. For some courses, the student must submit a completed and signed course permit form in person to the Office of the University Registrar. Students may not attend classes for which they are not registered.

Students must be present at the first meeting of every laboratory course (lecture and laboratory) to validate their registration. If students cannot attend the first meeting, they must notify the instructor beforehand if they intend to continue in that section. Otherwise, their name may be removed from the class roll in both lecture and lab.

Students are responsible for registering properly and paying by the deadline. Students should confirm the correctness of their enrollments (including drop and add) via Patriot Web. Incorrect enrollments may result in academic and financial penalties.

Students are responsible for tuition payments and grades received for all courses in which they are registered unless registration is canceled administratively because of suspension, dismissal, or termination; the section is canceled; or the student drops the course before the tuition liability begins. See registrar.gmu.edu for deadlines.

AP.1.3.1 Course Prerequisites, Corequisites

Course prerequisites or corequisites state requirements for student entry into courses and reflect necessary preparation for attempting the course. It is the student's responsibility to be aware of these as stated in the catalog and to have taken prerequisites recently enough to be of value. The administrator of the academic unit in which the course is taught or the instructor of the course may summarily drop students who have enrolled in a course for which they have not met the prerequisites. Graduate course prerequisites are normally met with a grade of B- or better; undergraduate course prerequisites are normally met with a grade of C or better. Individual programs may have higher standards. Questions should be addressed to the academic department or course instructor.

AP.1.3.2 Changing Registration

Registration changes must be completed within the schedule adjustment period defined below. Changes to registration are usually made via Patriot Web.

The last day for adding a 14-week course is eight calendar days after and including the first day of classes. The last day for dropping a 14-week course is five calendar weeks after the first day of classes (including the first day). Courses meeting for
fewer than 14 weeks have add, drop, and tuition-liability dates proportional to their length. These dates are published on the
Office of the University Registrar's web site each semester. Students who drop all courses during the drop period will have no
entry on their transcript for that semester and will not be considered an enrolled student for that semester. If it is the student's first
semester, the student will not have a Mason transcript and must contact Admissions regarding enrollment in a future semester.

All students are expected to complete their initial enrollment before the first day of classes for the semester. Any additions to that
enrollment must be processed by the end of the add period through official registration procedures. Students will not receive
credit for courses unless their names are on the official class rosters and final grade sheets. Retroactive credits will not be
awarded to students who report that they attended classes but were not on the official rosters. After the last day to add,
students will not be added to courses except in unusual circumstances beyond the student's control; such actions require approval
by the chair of the academic department offering the course.

All students are expected to drop (by the end of the drop period) those courses they do not intend to continue. Registration is not
canceled for failure to drop courses properly. Furthermore, registration is not canceled for failure to attend classes unless stated
otherwise on Patriot Web. All classes in which a student is enrolled past the drop deadline will remain part of the official
academic record. For more information, see Additional Grade Notations in the AP.3 Grading section. After the drop deadline,
withdrawal approval is granted only for nonacademic reasons by the student's academic dean. This approval is typically given for
all courses at once, constituting withdrawal from a semester. For more information, see the Withdrawal section.

No change of registration transaction is complete until it is submitted through Patriot Web or processed by the Office of Student
Accounts and the Office of the University Registrar through in-person procedures.

Students will not receive written confirmation of schedule changes and are responsible for checking their schedules via
Patriot Web before the end of the add or drop period to verify that their schedules are correct and they are properly
enrolled. Students will not be allowed to remain in classes unless they are properly enrolled. Students are responsible,
both financially and academically, for all courses in which they remain officially enrolled.

AP.1.3.3 Canceling Registration

Students who cannot attend classes during the semester for which they have registered should cancel registration using Patriot
Web prior to the first day of classes for the semester.

Refunds of tuition on and after the first day of classes are made according to the tuition-liability dates published in this catalog
and registrar.gmu.edu.

AP.1.3.4 Repeating a Course

Effective July 1, 2011 Federal Regulations no longer allow federal student aid funds to apply to courses that a student has already
taken twice with a passing grade. This limitation does not include courses that are "repeatable for credit," as described below.
Students should contact the Office of Student Financial Aid to determine how repeated course work would affect their financial
aid eligibility.

Some courses are annotated in the catalog as "repeatable for credit." These are courses which students may repeat and receive
additional credit for each time the course is taken. The maximum number of credits is specified in the Course Description section
of the catalog. Special topics and independent study courses are examples. For all other courses, the following conditions apply:

- Graduate students who have passed a course with a satisfactory grade are not permitted to repeat the course for
  replacement credit. Grades of B- are considered satisfactory, unless the academic program specifies a higher minimum
  satisfactory grade. Students must obtain permission from their academic program to repeat a course in which they have
  earned an unsatisfactory grade. Each department establishes procedures for granting such permission. Duplicate credit
  is not earned. When a course is repeated, all credits attempted are used to determine warning, termination, or
  dismissal; the transcript shows grades for all courses attempted; and only one grade per course may be presented on the
degree application.
Some courses, such as special topics courses, are repeatable for a limited number of additional credits. As long as students do not exceed the maximum allowable credits for repeatable courses, all takings of the course count for credit and in the student's GPA. In cases where the student has exceeded allowable credits in a repeatable class, the transcript will exclude the grade and credits of the earliest taking of the class.

For undergraduate classes not repeatable for credit, undergraduate degree students may repeat courses for which they seek a higher grade. Academic programs may restrict repeats of certain departmental or college courses in the major. Excessive repeats may result in termination from the major by a student's dean. A grade received in a repeated course will replace a grade in prior takings of the same course in the calculation of the cumulative GPA, even if the more recent grade is lower. Duplicate credit is not given. Repeat rules apply to taking the same course and courses designated in the catalog as equivalent. Repeat rules apply throughout a student's academic history. All instances of courses and their grades remain part of the student's transcript. No adjustment to the cumulative GPA will be made when the grade in the repeated course is W. A grade in a Mason course will not be excluded from the cumulative GPA based on a subsequent taking of an equivalent course at a transfer institution. The exclusion of earlier grades of repeated courses will not change the academic standing or dean's list notations for the earlier semester. Note that individual programs may disallow students from retaking certain high-demand courses simply for the purpose of improving their grade. Programs may also require departmental permission for students to repeat certain department, school, or college courses.

AP.1.3.5 Auditing a Course

Auditing a course requires the instructor's permission. Audit forms are available at registrar.gmu.edu. A previously audited course may be taken again for credit in a later term. Students may also audit a course previously taken and passed; however, students may not change from credit to audit status nor from audit to credit status after the end of the drop period, as defined above. The usual tuition and fees apply to audit status.

AP.1.4 Special Registration Procedures

AP.1.4.1 Advisor's Permission to Register

All newly admitted students, undeclared undergraduates on academic warning or academic probation, and undergraduates returning from suspension, are required to obtain an advisor's approval for registration. All students are strongly encouraged to consult with their advisors concerning course registration each semester.

AP.1.4.2 Permission to Study Elsewhere

Currently enrolled George Mason University students who wish to take courses at another regionally accredited U.S. institution must obtain advance written approval. This process permits a student to enroll elsewhere in a suitable course unavailable at Mason or through the Consortium of Universities of the Washington Metropolitan Area. Students who wish to Study Abroad must contact the Center for Global Education. Students wanting to pursue study through the Consortium of Universities of the Washington Metropolitan Area should contact the Registrar's Office.

- The Permission to Study at Another Regionally Accredited U.S. Institution form can be found at registrar.gmu.edu. Submission of this form does not guarantee approval.
- Catalog numbers and descriptions of courses to be taken elsewhere must be submitted with the request for approval.
- A minimum course grade must be achieved; however, grades themselves do not compute into any Mason GPA. For undergraduate courses, a minimum grade of C (2.0 on a 4.0 scale) is required. For graduate courses, a minimum grade of B (3.0 on a 4.0 scale) is required.
- Graduate students must obtain advance written approval from the director of their graduate program and the graduate dean of their school/college. Undergraduate students must obtain advance written approval from their academic advisor and the academic dean of the school/college offering the course to be taken elsewhere.
• Upon course completion, students must submit to the George Mason University Office of the University Registrar an official transcript from the visited institution for all course work taken elsewhere.

• Advance approval to study elsewhere is required. Undergraduate students who enroll elsewhere without advance written permission will not receive transfer credit for course work taken at other institutions unless they re-apply for admission to Mason as a transfer applicant and meet all priority deadlines. Re-admission is not guaranteed and transfer credit is awarded based upon course equivalencies in effect at the time of re-admission.

Special instructions for undergraduates:

• Once enrolled in degree status at Mason, students may request permission to take a limited number of credits at another regionally accredited institution.

• Students must be in good standing with a minimum cumulative GPA of 2.00 in their Mason courses to request permission to study elsewhere.

• Individual colleges/schools/institutes determine restrictions on the number, type, mode of delivery, location and offering patterns of courses that can be taken at another institution.

• Freshmen and transfer students in their first semester at Mason are not permitted to study elsewhere.

• Courses previously attempted at Mason (including withdrawals) cannot be taken elsewhere.

• Students must meet the minimum 30-hour residency requirement at Mason.

AP.1.4.3 Permission to Register as Graduate Student

Registration for courses in a graduate program is permitted only after the student has been notified of admission. Students admitted to degree programs are given preference over nondegree students through the registration process. Dual registration (for example, as a graduate student and nondegree enrollee) is not permitted. The graduate student is responsible for being properly registered and aware of all regulations and procedures required by a program of study. Regulations and degree requirements are not waived nor are exceptions granted because of ignorance of any regulations. Registration in graduate-level courses is restricted to admitted graduate degree students and nondegree graduate students (unless excluded by program). Undergraduate degree students may register for graduate courses only with special approval (see section below). Nondegree undergraduate students may not enroll in courses numbered 500 or above. Courses numbered 800 and above are available only to admitted graduate degree students.

AP.1.4.4 Graduate Course Enrollment by Undergraduates

Courses numbered 700 and above are closed to undergraduates. Undergraduates in degree programs may enroll in graduate-level courses 500 to 699 only with written permission, which must be obtained before registration. Forms are available at registrar.gmu.edu. Written permission is waived for undergraduate students admitted to combined bachelor's and accelerated master's programs.

To enroll in graduate courses for credit applicable to an undergraduate degree, undergraduates must have completed all course prerequisites, have exhausted all upper-level undergraduate courses relevant to their educational objectives, and be able to demonstrate the level of maturity required for graduate courses.

Approval to register for reserve graduate credit (earned credit held in reserve to apply later toward a graduate degree) is given only to Mason seniors within 15 credits of completing undergraduate study who have successfully completed all course prerequisites. In addition, this privilege is normally extended only to seniors who have completed at least 12 credits at the university, have a cumulative GPA of 3.00 or better, and have a major in the department offering the course. Approval for reserve graduate credit is limited to 6 credits and does not imply approval for admission into a Mason graduate program or that credit earned will be accepted at another graduate school.

Undergraduates enrolled in graduate courses are eligible to receive only those letter grades applicable to graduate grading. For more information, see the AP.3 Grading section. Credit for the same course may not be applied to both graduate and undergraduate degrees.
**AP.1.4.5 Special Registration for Nonenrolled Students**

Degree-seeking students not enrolled in a credit-bearing course but whose academic department certifies that they are pursuing an activity related to their Mason enrolled program can retain active status by registering for Special Registration (ZREG 200) for a $45 fee. Written approval from the student's advisor and the academic department chair is required. Special registration allows students to retain library and computer privileges, receive a student ID, and buy a parking decal. Students must have active status to apply for or receive a degree, take an exam, or participate in cooperative education.

**AP.1.4.6 Enrolling for Credit Without Grade Points**

Courses normally graded as satisfactory/no credit (S/NC) are annotated in the catalog, but students may elect to take credit without grade points. Undergraduates may take up to 6 credits to be graded S/NC; this option applies only to electives outside the field of the major, concentration, minor, general education requirement, or certificate program. Graduate students may elect the S/NC grade option only for courses that do not apply to the degree or certificate requirements. S/NC grading will also be used for courses numbered 998 and 999. For more information, see Additional Grade Notations in the AP.3 Grading section.

**AP.1.4.7 Senior Citizen Waiver Program**

Under terms of the Senior Citizen Higher Education Act of 1974, eligible Virginia residents 60 years of age or older, with a taxable income not exceeding $15,000, are entitled to enroll in courses offered for academic credit on a space available basis without paying tuition and enrollment fees via the Senior Citizen Waiver Program. In order for this to occur, the applicant must meet all admission requirements. Senior citizens who meet all admission requirements, the income eligibility requirement, and have completed a minimum of 75 percent of degree requirements may enroll in a degree program during normal registration periods without paying tuition and enrollment fees. The admissions application fee cannot be waived, but students who qualify to have all tuition and fees waived will have the application fee reimbursed. For specific information about the program, please visit registrar.gmu.edu/topics/senior-citizen-waiver/.

Citizens who wish to take advantage of this act must complete the appropriate online non-degree or degree application found at admissions.gmu.edu and submit all required transcripts and documents. If the application for admission is approved, qualified senior citizens can request a waiver of tuition and enrollment fees by completing the Senior Citizen Tuition Waiver Form, available from the Office of the University Registrar or online at registrar.gmu.edu/forms/. To facilitate processing, senior citizens should provide their Mason student identification number on the waiver form.

In addition, the act allows admissible senior citizens to audit courses (no academic credit is received) and enroll in up to three noncredit courses per semester without paying tuition and enrollment fees, regardless of the taxable income level. Students seeking to audit a class must notify the Office of the University Registrar when registering for classes. Fees for course materials may apply to senior citizen enrollees, and tuition may be charged for courses designed exclusively for senior citizen groups. Senior citizens must adhere to all admissions and registration policies and processes and follow normal procedures to add and drop courses within the deadline dates outlined in each semester's academic calendar.

**AP.1.4.8 Summer Term**

Phone: 703-993-2300
Fax: 703-993-8871
Web: summer.gmu.edu

Summer enrollment provides an opportunity for eligible undergraduate, graduate, and non-degree students to begin or continue the pursuit of their academic goals. Courses are offered in intensive five- to eight-week sessions, as daytime and evening classes and as distance education courses. Many academic departments take advantage of the unique summer term opportunities to schedule innovative programming focusing on raising community awareness and involvement.
Summer registration for current Mason students begins in mid-March while registration for non-degree students begins in late March to early April. Students who are new to Mason are required to apply and be evaluated for admission. Prospective students should apply online at admissions.gmu.edu/applynow.

AP.1.4.9 Academic Common Market

The Academic Common Market (ACM) is a cooperative tuition-reduction program agreement among 16 states, including Virginia, which compose the Southern Regional Education Board. Students who are not legal residents of Virginia but wish to pursue a degree in a selected Mason program that is not available in their home state may be able to participate in the ACM and thereby attend Mason without incurring out-of-state tuition charges. Likewise, legal residents of Virginia may take advantage of programs in other states. More information about this program is available at the Office of the University Registrar or at registrar.gmu.edu/topics/academic-common-market/.

AP.1.4.10 University Consortium

Mason is a member of the Consortium of Universities of the Washington Metropolitan Area, which includes American University, The Catholic University of America, Corcoran College of Art and Design, Gallaudet University, The George Washington University, Georgetown University, Howard University, Marymount University, National Defense Intelligence College, National Defense University, Trinity Washington University, the University of the District of Columbia, and the University of Maryland-College Park. Eligible Mason students may enroll in courses at any of the consortium institutions. The consortium's cross-registration arrangement permits students enrolled in eligible degree programs at one member institution to take a course at another member institution.

Participation in consortium cross registration is available to degree-seeking juniors, seniors, and graduate students in good standing and currently enrolled at Mason. Participation is limited to courses that are approved by the student’s department chair and dean, apply to the student’s program of study, are not offered during that semester at Mason, and have space available at the visited institution. Additional restrictions apply. Students may take one consortium course per semester, with a career maximum of 6 credits for undergraduates (9–12 if foreign language study is approved) and 6 credits for graduate students. Credit earned through the consortium is considered resident credit, so grades count in the Mason GPA.

Information and regulations, including restricted and excluded courses, for both outgoing and incoming Mason consortium students are available on the web at registrar.gmu.edu/students/registration/consortium-registration/. Information pertaining to all member institutions is available at www.consortium.org. Questions may be directed to the consortium coordinator in the Office of the University Registrar at 703-993-2436.

AP.1.4.11 4-VA

4-VA began in 2010 as a consortium of four universities: George Mason University, James Madison University, the University of Virginia, and Virginia Polytechnic Institute and State University. The presidents of these universities organized 4-VA in order to meet the needs identified by the Governor's Higher Education Commission and his Commission on Economic Development & Job Creation.

4-VA's mission is to promote inter-university collaborations that leverage the strengths of each partner university in order to accomplish much more than any individual university could achieve alone. 4-VA strives to: decrease the cost of delivering instruction; significantly expand access for all Virginians to programs preparing them for rewarding careers; increase research competitiveness, and enhance the success rate of students in Science, Technology, Engineering, and Mathematics (STEM) courses and programs. For more information, visit 4-VA.org.

AP.1.5 Withdrawal

AP.1.5.1 Selective Withdrawal for Undergraduates
Undergraduates enrolled in degree programs are eligible to withdraw from a limited number of classes without the dean's approval and at the student's own discretion. Students may process a maximum of three such selective withdrawals during their entire undergraduate career at Mason. The three classes may have any number of credits. The academic calendar for each semester will include an open withdrawal period beginning the day after the last day to drop the class and extending through the ninth week. For classes shorter than a semester (14 weeks), the period will be set in proportion to the length of the class.

AP.1.5.2 Course Withdrawal with Dean Approval

For graduate and nondegree students, withdrawal after the last day to drop a course requires approval by the student's academic dean, and is permitted only for nonacademic reasons that prevent course completion. For undergraduate students, withdrawal after the open withdrawal period, for cause within the period, or after a student has used all three selective withdrawals, requires approval by the student's academic dean and is typically permitted only for nonacademic reasons that prevent course completion.

AP.1.5.3 Semester Withdrawal with Dean Approval

Undergraduates taking three or fewer classes may use the selective withdrawal for all courses for a semester; see the Selective Withdrawal for Undergraduates section. Otherwise, students may withdraw from a semester after the end of the drop period without academic penalty only for nonacademic reasons with the approval of the academic dean. Withdrawal forms are available at the appropriate academic dean's office. Students who stop attending all classes without the dean's approval and without processing selective withdrawals, if eligible, will receive a grade of F in all courses.

AP.1.5.4 Effects of Course or Semester Withdrawal

Approved or selective withdrawal results in a grade of W on the student's transcript for the withdrawn course(s). While a grade of W does not affect the GPA, undergraduate students should note that withdrawn courses are part of "attempted credit hours," which serve as the basis for the student's credit level. In the university's undergraduate retention system, GPA standards increase according to credit level. See the Student Retention Categories in the AP.5 Undergraduate Policies section.

AP.1.6 Attendance Policies

Students are expected to attend the class periods of the courses for which they are registered. In-class participation is important not only to the individual student, but also to the class as a whole. Because class participation may be a factor in grading, instructors may use absence, tardiness, or early departure as de facto evidence of nonparticipation. Students who miss an exam with an acceptable excuse may be penalized according to the individual instructor's grading policy, as stated in the course syllabus.

AP.1.6.1 Absence for Religious Observances or Participation in University Activities

Mason encourages its faculty to make a reasonable effort to allow students to observe their religious holidays or to participate in university-sponsored activities (e.g., intercollegiate athletics, forensics team, dance company, etc.) without academic penalty. Absence from classes or exams for these reasons does not relieve students from responsibility for any part of the course work required during the absence. Students who miss classes, exams, or other assignments as a consequence of their religious observance or for participation in a university activity will be provided a reasonable alternative opportunity, consistent with class attendance policies stated in the syllabus, to make up the missed work. It is the obligation of students to provide faculty, within the first two weeks of the semester, with the dates of major religious holidays on which they will be absent, and the dates for which they are requesting an excused absence for participation in any university-sponsored activity scheduled prior to the start of the semester, and as soon as possible otherwise. Students requesting an excused absence for participation in a university-sponsored activity must provide their instructor with a letter from a university official stating the dates and times that participation in the activity would result in the student missing class. Faculty members are encouraged to take religious observances into consideration when constructing class schedules and syllabi.
AP.1.7 Final Exams

Undergraduate courses usually culminate with a final exam. Except in predominantly laboratory courses, final exams may not be given during the last week of classes. Exams may not exceed the scheduled length of two hours, 45 minutes. Changes in location or time of in-class final exams must be approved by the appropriate department chair and dean. A professor who is considering assigning a take-home exam or significant end-of-semester paper or project should inform the students at the beginning of the semester. Such assignments should be distributed by the beginning of the last week of classes so that students can coordinate them with preparation for other exams. Students must not be required to submit exams before the date of the regularly scheduled exam for a course. Retaking final exams is not permitted. Students who have more than two examinations scheduled on the same day should consult their instructors to make other arrangements. If campus-wide disruptions to class meeting schedules occur during the semester (e.g., due to severe weather), a revised final exam schedule may be issued. In this event, students and faculty are expected to adhere to the revised schedule. The examination period may be prolonged and individual exams may be shifted to the last day of the revised exam period.

Students with permission to take deferred examinations may receive a temporary grade of AB (absent with permission). Rescheduled exams must be completed within the time deadline set by the university. See below for more information.

AP.1.7.1 Absences

Absences from final exams will not be excused by the instructor except for sickness on the day of the exam. Other causes must be approved by the student's academic dean or director. The effect of an unexcused absence from an undergraduate final exam shall be determined by the weighted value of the exam as stated in the course syllabus provided by the instructor. If absence from a graduate final exam is unexcused, the grade for the course is entered as F. See the Additional Grade Notations in the AP.3 Grading section for information on being absent with permission.
AP.2 Course Information

Return to: Academic Policies

AP.2.1 General Information

Each course indicates:

- the number of credits earned;
- the repeat status;
  - NR - Not Repeatable, RT - Repeatable in Term, RD - Repeatable in Degree
- prerequisites;
- corequisites;
- the hours of lecture or seminar per week;
- the hours of laboratory or studio per week (if applicable); and
- semester offered.

Individual instructors set hours for independent study, readings, topics, or similar courses. If a course is listed as having an equivalent course, students may not receive credit for both courses.

AP.2.2 Contact Hours

University course work is measured in terms of quantity and quality. A credit normally represents one hour per week of lecture or recitation, or not fewer than two hours per week of laboratory work, throughout a semester. The number of credits is a measure of quantity. The grade is a measure of quality.

AP.2.3 Undergraduate Course Numbering

Courses numbered 499 and below are undergraduate courses. Course numbers in the 100 series are customarily taken by freshmen, the 200 series by sophomores, the 300 series by juniors, and the 400 series by seniors.

AP.2.4 Graduate Course Numbering

Graduate courses are divided into the following categories:

- 500–699: Open only to graduate students admitted to master’s or doctoral programs; other bachelor’s degree holders; and approved, advanced undergraduate students. Advanced undergraduate students who have secured the permission of the department offering the course may select from these courses to accumulate the hours necessary to complete an undergraduate degree. With the written permission of the dean of their college, they may take these courses for reserve graduate credit.
- 700–799: Open only to students admitted to graduate degree or certificate programs.
• 800–999: Primarily doctoral courses open only to students admitted to graduate degree programs. Degree programs may extend permission to enroll bachelor’s degree holders.

Courses with the following numbers are reserved for the uses designated:

• 600–609: Limited applicability, graduate-credit courses, normally intended for in-service professional development and not directly leading to a graduate degree. A limited number of credits from these courses may be applied to a graduate degree.
• 798: Master’s research
• 799: Master’s thesis
• 790, 890: Supervised practicum
• 794, 894: Internship
• 796, 896: Directed reading and research courses for master’s and doctoral students
• 800: Studies for the doctor of philosophy in education program
• 998: Doctoral dissertation proposal
• 999: Doctoral dissertation research

**AP.2.5 University Courses**

University (UNIV) courses are special undergraduate academic seminars that appeal to a wide range of majors. These courses fall into three general categories: transitional, interdisciplinary honors, and special topics. To encourage interaction among students and faculty, many of these courses have smaller class sizes. Some UNIV courses satisfy general education requirements; see the University General Education section of this catalog.

**University Transitions Courses**

This series of courses focuses on transition through the various stages of college. UNIV 100 - Freshman Transition, helps freshmen adjust academically and socially, hone decision-making skills, and learn about the resources and explore opportunities for involvement on campus. UNIV 101 - Freshman Academic Transition, focuses on academic transition and development issues for second semester freshmen. A special emphasis is placed on resources and techniques to assist students with assessing and improving their academic performance. UNIV 200 - Sophomore Transition focuses on choosing a major or career. UNIV 300 - University: Junior Transition has three tracks. Transfer Transitions is for transfer students making the transition to a new university. Internship and Career Readiness focuses on career readiness for internships and research assistantships. Peer Leadership is designed for specific groups of student leaders. UNIV 400 - Senior Transition emphasizes preparation for the workplace, and College to Graduate School emphasizes preparation for graduate school.

**University Interdisciplinary Honors Seminars**

These seminars are offered to students who have demonstrated strong academic performance. They are developed to give high-ability freshmen and advanced-standing students the opportunity to study with a senior professor in a small classroom setting. The Freshman Seminars (UNIV 190 - Freshman Seminar) are open to eligible first-year students and are taught exclusively by the Robinson professors. Qualified students with 30 or more credits are invited to participate in the UNIV 390 seminars, which are taught by Robinson professors and other distinguished faculty scholars.

**University Special Topics Courses**

Upper-level University courses are open to all students unless specific prerequisites are indicated. They are usually repeated offerings. The one regularly offered University course, worth 3 credits, is UNIV 301 - Great Ideas in Science.
University course work is measured in terms of quantity and quality. A credit normally represents one hour per week of lecture or recitation or not fewer than two hours per week of laboratory work throughout a semester. The number of credit hours is a measure of quantity, while the grade is a measure of quality. Faculty of record must assign a grade to all enrolled students at the end of the semester, term or part of term.

**AP.3.1 Undergraduate Grading**

The university-wide system for undergraduate grading is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
<th>Undergraduate Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.00</td>
<td>Passing</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
<td>Passing</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
<td>Passing</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
<td>Passing</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
<td>Passing</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
<td>Passing</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
<td>Passing</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
<td>Passing</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
<td>Passing</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
<td>Passing</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
<td>Failing</td>
</tr>
</tbody>
</table>

No credit toward graduation accrues from a failing grade or a grade that is replaced by a retaken course.
AP.3.2 Graduate Grading

The university-wide system for grading graduate courses is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
<th>Graduate Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.00</td>
<td>Satisfactory/Passing</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
<td>Satisfactory/Passing</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
<td>Satisfactory/Passing</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
<td>Satisfactory/Passing</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
<td>Satisfactory/Passing</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
<td>Satisfactory*/Passing</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
<td>Unsatisfactory/Passing</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
<td>Unsatisfactory/Failing</td>
</tr>
</tbody>
</table>

* Although a B- is a satisfactory grade for a course, students must maintain a 3.00 average in their degree program and present a 3.00 GPA on the courses listed on the graduation application.

AP.3.3 Additional Grade Notations

**Satisfactory/No Credit (S/NC)**

An S grade reflects satisfactory work (C or better for undergraduate students, B- or better for graduate students); otherwise, the student receives no credit (NC). S and NC have no effect on the student's GPA. Entire courses normally graded S/NC are annotated in the catalog, and include doctoral dissertation courses 998 and 999. Students may also elect to take credit without grade. For more information, see Auditing a Course in the AP.1 Registration and Attendance section.

**A/B/C/NC**

Students who successfully complete English Composition and Introduction to Literature (ENGH 101) or Composition for Non-Native Speakers of English (ENGH 100) are graded A, A-, B+, B, B-, or C. Students who do not attain at least a C in these courses receive no credit (NC). NC has no effect on the GPA.

**Incomplete (IN)**

This grade may be given to students who are passing a course but who may be unable to complete scheduled course work for a cause beyond reasonable control. Unless the faculty member has specified an earlier deadline, the student must then complete all the requirements by the end of the ninth week of the next semester, not including summer term, and the instructor must turn in the final grade by the end of the 10th week. Faculty members who choose to require an earlier incomplete deadline will be required to file an Incomplete Grade Contract with the local academic unit's office, detailing the work that remains to be done, the general reason for the incomplete, and the student's grade at the point of receiving the incomplete. Unless an explicit written extension is filed with the Office of the University Registrar by the faculty deadline, the grade of IN is changed by the University Registrar's office to an F. The maximum IN extension is to the end of the same semester in which it was originally due. Students who have filed their intent to graduate have only six weeks from the date of degree conferral.
to resolve any incomplete grades and have the final grades recorded by the University Registrar's office.

While a grade of IN remains on the transcript, it is treated as an unsatisfactory grade in determining probation, suspension, termination, or dismissal. Removal of INs from the transcript may result in retroactive elimination of probation, suspension, termination, or dismissal.

Incomplete, extended (IX)

IX is given by the Office of the University Registrar after receiving an Incomplete Extension form signed by the instructor and the appropriate dean. The extension gives students additional time to complete work; the amount of time is specified by the instructor. The final grade must be submitted to the University Registrar's office before final exams for the semester in which the IN grade was originally due. A grade of IX affects the academic record in the same way as does a grade of IN.

In Progress (IP)

This grade may be given in selected courses, including graduate theses, dissertations, practicums, and internships. IP may also be used when the work of BIS 490 or a course that is graded S/NC or A/B/C/NC is not completed within one semester. IP has no effect on the GPA. With the exception of BIS 490, IP remains on the record until the work is completed and a final grade is assigned. An IP in BIS 490 not changed to a final grade by the last day of classes of the next semester, not including summer term, is changed by the Office of the University Registrar to an F. IP grades will also be awarded in courses numbered 799, 998 and 999 until successful completion, and then they will be changed to S/NC. Upon successful completion of 799, 998 or 999 and submission of the final grade, grades for all prior sections will be changed to S/NC.

Absent with permission (AB)

A student who has received permission from the academic dean or director to be absent from a final exam for cause beyond reasonable control may receive a temporary grade of AB. A rescheduled exam must be administered within 10 business days of the original exam date, or the AB will automatically become an F. Final determination of academic status is not complete while the AB remains on the transcript.

Special Provision (SP)

The grade of SP may be given by a dean to students who are unable to complete the course requirements because of extraordinary long-term circumstances, such as major illness or military deployment. SP has no effect on the GPA and remains on the transcript until the work is completed and a final grade is assigned.

AP.3.4 Midterm Reports

Midterm progress is reported for all full-semester 100- and 200-level classes, and for 300- and 400-level classes at the discretion of the professor. The reporting period extends from the fifth through the eighth week of the semester, allowing flexibility to individual faculty in providing reports for their classes. Students should check with their instructors as to when reports will be complete and available for viewing through Patriot Web. These progress reports, which appear in Patriot Web as "Midterm Grades," do not become part of the student's official record. They are not calculated in any GPA, and they do not appear on any official or unofficial transcript.

AP.3.5 Final Grades

Semester grade reports are available through Patriot Web. Students may print a grade report for their own records or to issue to a third party. Students may also order an official transcript through the Office of the University Registrar.
AP.3.6 Transcripts

Official transcripts include all credit course work attempted at the university, including all courses taken as a graduate, undergraduate or non-degree student. Official transcripts will not be issued when unsatisfied financial obligations to the university exist. Unofficial transcripts may be printed by the student from Patriot Web. See registrar.gmu.edu for information and instructions on ordering official transcripts.

The transcript key, which appears on the reverse side of official transcript paper, summarizes policy information pertinent to understanding individual students' transcripts.

The George Mason University School of Law issues transcripts for courses taken as a law student. See law.gmu.edu for information and instructions on ordering transcripts from the Law School.

AP.3.7 GPA

Quality point values are assigned to letter grades as indicated in the grading system table. A quality point score is computed by multiplying the value of a letter grade by the number of credits for the course. For example, a student receiving an A (4.00) in a 3-credit course earns 12 quality points. The GPA is computed by dividing the quality points earned by the number of credits graded A+ through F (GPA hours).

For undergraduates, the GPA computed for the current term gives the current GPA, which is the measure of academic performance in one semester and affects eligibility for the dean's list. The GPA computed for all institutional credit gives the cumulative GPA, which is the basis for the university's retention policies, including good standing, warning, probation, suspension, and dismissal. Cumulative GPA also determines students' eligibility to graduate and have university honors posted to their record at graduation.

Current GPA and cumulative GPA do not apply to graduate students. A notation of academic warning is entered on the transcript of a graduate student who receives a grade of C, or a grade of F in a graduate course or while a grade of IN or IX is in effect. A degree GPA is computed for graduate students based on graded courses completed at the university and applied toward the degree. For more information, see the AP.6 Graduate Policies section.

AP.3.8 Change of Grade

The conditions and time limits for changes from the temporary grades IN, IP, AB, and SP to final grades appear in the Additional Grade Notations section.

Once a final grade has been recorded by the Office of the University Registrar, it can be changed only in cases of computational or recording error, or pursuant to a successful appeal of the grade as described below. Additional work of any type submitted to improve a grade after the final grade has been assigned and sent to the Office of the University Registrar is never accepted.

All changes of final grades must be initiated, approved, and recorded by the last day of classes of the next regular semester (spring for fall grades, and fall for spring and summer term grades).

AP.3.9 Grade Appeals

Although faculty members are generally the best judges of student performance, there may be times when a student believes a grade is unfair. In such cases, the student should ask the faculty member to reconsider the grade. If the student is not satisfied, an appeal may be made to the head of the unit offering the course (the department chair, institute director, or designee). The recipient of the appeal should ask the student to return to the faculty member who assigned the grade for further consultation.

If the instructor is no longer associated with the university, the local administrator of the unit offering the course will appoint a faculty surrogate, who will assume magisterial authority of the instructor of record at this level of appeal.
If a mutually satisfactory agreement is not reached, the student may request that the chair form a committee of three faculty peers of the faculty member who assigned the grade. If the chair believes the student's complaint is not legitimate, this reservation is reported to the chair's supervisor, usually the dean. No review is conducted unless the dean believes the complaint has merit.

The faculty member or the student may challenge and have replaced one of the three members of the committee without giving a reason for the challenge. The committee meets separately with the faculty member and the student to explore the full particulars of the case. A nonparticipating observer of the student's choice may attend the meeting. Every effort is made to avoid an adversarial relationship.

After the committee has reviewed the case thoroughly, it issues to the chair (with a copy to the faculty member) a written recommendation that includes the reasons for its findings. At this time, the faculty member has an opportunity to take the recommended action, if any. If the matter is not resolved at this point, the chair considers the committee recommendation and makes a recommendation to the dean. The decision of the dean is not subject to further appeal. If the dean decides that a change of grade is appropriate and the faculty member refuses to make the change, then the dean may direct the Office of the University Registrar to do so.

Grade appeals are not accepted after the last day of classes of the following semester (spring for fall grades, fall for spring and summer grades).

The Provost's Office does not consider grade appeals, nor does the University Academic Appeals Committee.

**AP.3.9.1 Pending Grade Appeal for Students in Academic Difficulty**

A student may request a delay from the dean in imposing academic suspension because of a pending grade appeal that could change the student's status. An approved delay allows the student to register.

If the grade appeal is successful, the official transcript is corrected and the student continues in classes as a student in good academic standing, on probation or on warning. If the grade appeal is not successful, the student is required to stop attending all classes immediately. No record of registration for the academic period appears on a transcript and the student receives the appropriate refund as of the decision date.
Transcript Key

The transcript key, which appears on the reverse side of official transcript paper, summarizes policy information pertinent to understanding individual students’ transcripts, and may be updated from time to time.

The Academic Policies section of this catalog provides policy information in greater detail and is updated annually.
AP.4 Degree Application, Conferral and Graduation

Return to: Academic Policies

- AP.4.1 Application for Degree
- AP.4.2 Degree Conferral
- AP.4.3 Graduation

AP.4.1 Application for Degree

In the semester prior to the expected completion of degree requirements, students must confirm their intent to graduate through Patriot Web. The deadline to apply to graduate is generally three to four months prior to the conferral date. Specific deadlines and complete instructions regarding graduation are published on the Office of the University Registrar's web site registrar.gmu.edu. Separate applications for each graduate degree or certificate are required.

For a degree to be conferred, all course work must be completed, even if the course work is not being applied to the degree. All students must complete the following degree requirements prior to the conferral (graduation) date: internships, credit-by-exam, oral exams, theses, scholarly papers, and comprehensive exams. Master’s theses and doctoral dissertations are due in the library well before the conferral date. For more information, go to thesis.gmu.edu.

Students must have active registration status in the semester or summer term of graduation. Students not registered for course work in the term of graduation must obtain a special registration. (For more information, see AP.1 Registration and Attendance.) Degree applications will not be automatically extended if graduation is postponed; students must reapply for each conferral date.

AP.4.2 Degree Conferral

Mason awards degrees and certificates in programs and at levels authorized by the State Council of Higher Education for Virginia (SCHEV). The university confers degrees at the bachelor’s, master’s, and doctoral levels. An academic program may include a degree program and additional majors, minors, or certificates. The university offers no certificate program below the bachelor level; some post baccalaureate certificates, however, may be awarded concurrently with the bachelor’s degree. For more information, see the Programs of Study listings.

AP.4.2.1 Definitions of Degree Components

- **Degree program, major, or field**: A program of study that normally requires at least 30 credits of course work in the specified field. The primary program name (degree and major or field) appears on the diploma for bachelor’s and master’s degrees. Only the degree name appears for doctoral degrees. An undergraduate who desires to graduate with a BA or BS degree in two or more subjects must meet departmental requirements for the major in each field. For each major, at least 18 credits used to fulfill its requirements must be applied only to that major, i.e., cannot be used to fulfill the requirements of a concentration, minor, undergraduate certificate, or another major.

- **Concentration**: A second-order component of a degree program. A concentration consists of at least 12 hours that are not applied to any other concentration. Undergraduate concentrations are approved by the unit at the undergraduate level or by the Graduate Council at the graduate level.

- **Certificate**: A nondegree program complementary to a degree that requires at least 24 undergraduate or 12 graduate credits. For each undergraduate certificate, at least 15 credits used to fulfill its requirements cannot be used to fulfill the requirements of a major, concentration, minor, or another undergraduate certificate. The name of a completed certificate program appears on the transcript after the conferral of an undergraduate degree. Certificates are approved by the school or college at the undergraduate level and by the Graduate Council at the graduate level. Credits from a maximum of one graduate certificate may also apply to a master's or doctoral degree program.
• **Minor:** A complement to a bachelor’s degree program or major normally requiring at least 15 credits in a field other than the student’s major. Of the courses presented for a minor, at least 8 credits must be applied only to that minor and may not be used to fulfill requirements of the student’s major, concentration, an undergraduate certificate, or another minor.

• **Option:** The choice of a thesis or nonthesis path in graduate programs.

**AP.4.2.2 Catalog Requirements for Degrees**

Catalog year refers to the setting of course and non-course requirements within academic programs as stated in the school and college section of a specific catalog. Catalog year does not set academic policies other than program requirements in place, however. For more information, see the Knowledge of University Policies section of the Student Rights and Responsibilities section. Not all programs and degree components are available in all catalogs. For any one degree, all requirements must be met as stated in a single catalog. The only exception is that Bachelor's degree students may select a minor from another catalog year for which they are eligible, as noted below.

Bachelor’s degree candidates may choose to graduate under the terms of any catalog in effect during their enrollment in degree status. Students who have been inactive for five or more years or who have attended another institution without prior approval from their academic dean or director must graduate under a catalog in effect at or after their re-admission and during their enrollment in degree status.

Master’s and doctoral degree candidates who have been continuously enrolled may choose to graduate under the terms of any catalog in effect during their enrollment in degree status. Students who have been inactive more than one year, however, may be required by their program to graduate under a catalog in effect after they have been granted permission to re-enroll. In no case may a student choose the requirements of a future catalog year that take effect after the student's degree is anticipated.

**AP.4.3 Graduation**

Graduation ceremonies provide opportunities for students and their families to share in the conferral of academic degrees. Students who wish to participate should check the web site at events.gmu.edu for current information about all graduation details including tickets, regalia, and schedules. Note: there is one formal commencement ceremony per year, in May, that includes all schools and colleges; students are recognized in groups, by their degrees. Each college holds a separate convocation where individual student names are called. Bachelor’s and master’s degree candidates who declare their intent to graduate in August but who have not yet completed all degree requirements may participate in the graduation ceremonies in anticipation of degree completion. Their names are marked with an asterisk identifying them as candidates pending completion of all requirements. Doctoral students may participate only if they have successfully completed all degree requirements, including defending and submitting a signed, final copy of their dissertation by the deadline. A Winter Graduation ceremony is held for August and December graduates where each student is individually recognized.
AP.5 Undergraduate Policies

Return to: Academic Policies

AP.5.1 Student Classification

Admitted undergraduates are classified as follows: freshman, 0–29 credits completed; sophomore, 30–59 credits completed; junior, 60–89 credits completed; and senior, 90 or more credits completed. Full-time undergraduates are classified as those students enrolled in 12 or more credits per semester. Please note that different criteria for full-time status may apply for tuition, verification, and financial aid purposes. For more information, contact the offices of Student Accounts, University Registrar, and Student Financial Aid, respectively.

AP.5.2 Academic Standing

The following system of academic progress became effective in fall 2004 and applies to all undergraduate degree and nondegree students at Mason.

Academic retention is based solely on the cumulative GPA. The cumulative GPA required for retention varies according to the credit level or attempted credit hours, which is a combination of all credits attempted at the university plus credits transferred from other institutions or obtained by testing.

AP.5.2.1 Academic Period

Academic period refers to fall semester, spring semester, or summer term. For determining the duration of academic warning, probation, and suspension, an academic period is defined as follows:

Each academic period begins on the 15th day following the last scheduled day of final exams for the previous period. Each academic period ends on the 14th day after the last scheduled day of final exams. For example, assume that the last scheduled day of final exams for a semester is Monday, December 23. That period then ends on Monday, January 6. The next period begins on Tuesday, January 7.

AP.5.2.2 Good Academic Standing

Students are in good academic standing unless they are academically dismissed, suspended, or on probation. Students on academic warning are still considered to be in good academic standing.

AP.5.2.3 Student Retention Categories

The university’s minimum standard for satisfactory academic achievement is 2.00 on a 4.00 scale. Students with at least 7 attempted credits and a cumulative GPA of less than 2.00 fall into one of three categories: warning, probation, and suspension.
All notations of academic standing are included in a student’s permanent record. The cumulative GPA range that defines each of the categories varies according to the credit level, as noted below:

<table>
<thead>
<tr>
<th>Credit Level</th>
<th>Warning</th>
<th>Probation</th>
<th>Suspension</th>
</tr>
</thead>
<tbody>
<tr>
<td>Attempted</td>
<td>Cumulative</td>
<td>Cumulative</td>
<td>Cumulative</td>

</tr>
<tr>
<td>90+</td>
<td>–</td>
<td>1.85–1.99</td>
<td>0.00–1.84</td>
</tr>
</tbody>
</table>

**Exception for Freshmen and Transfer Students**

Freshmen and transfer students in their first semester of study at Mason will receive probation as the strongest academic sanction. GPA retention levels, as stated above, will apply in all subsequent semesters. Students in this category should be on notice that they must improve their academic record to avoid suspension in future semesters; in particular they should consult their advisors and consider repeating courses to achieve academic good standing.

**AP.5.2.4 Termination from the Major**

Undergraduate students in any retention category may be reviewed for possible termination by their dean. Termination from a major—or from all majors in a college—may be imposed as a result of excessive repeating of required courses without achieving the minimum standard, and for other evidence of continued failure to make adequate progress toward completion of the major. Students must be informed a semester in advance and given a chance to meet the standard or appeal. Once a termination decision has been made, a letter of termination is sent to the student by the dean or director of the school, college, or institute, and notification of termination from the major is affixed to the student’s academic record. Students who are terminated are no longer eligible to pursue that major, but may transfer to a different major within the university to complete their undergraduate degree.

**AP.5.2.5 Academic Suspension**

Students in degree status who incur a first suspension following a spring semester or summer term serve a period of suspension through the next fall semester. Students who incur a first suspension following a fall semester serve a period of suspension through the next summer term. A second suspension is for one calendar year: two semesters and a summer term. Students returning from suspension are on probation for one academic period. Course credits earned at other colleges during the period of suspension from Mason (for academic or nonacademic reasons) are not accepted for the degree program.

Nondegree undergraduate students placed on suspension have no specified rights of return to the university. Nondegree students who have been suspended and wish to resume their studies after a period of absence must qualify for readmission through the Office of Admissions.

**AP.5.2.6 Academic Dismissal**

A third suspension results in academic dismissal, a status that is usually permanent. In exceptional cases, students who have been dismissed may apply for readmission after a minimum absence of three calendar years from the university, but only if they meet one or more of the following conditions after having been dismissed:
• Demonstrate academic success (2.50 GPA or better) in at least 18 credits of classes taken during the period of dismissal at an accredited two- or four-year college or university. Such credits may be considered for transfer back to Mason, but there is no guarantee of acceptance of the credit.
• Provide other evidence of a renewed ability to achieve academic success.
• Provide evidence that all degree requirements will be met once an additional 12 or fewer credits are complete. Meeting the above requirements does not guarantee a return. The Office of Admissions and the appropriate school or college dean will make individual decisions in the best academic interests of the student and the university. For students seeking readmission to a new school or college, the new dean will make the decision in consultation with the former dean and the Office of Admissions. For more information, see the Academic Clemency section.

AP.5.2.7 Academic Performance and Credit Limit

Undergraduate students on warning, probation, or returning from suspension are limited to a maximum of 13 credits for following semesters until they achieve good standing. Students registered for 14 or more credits are responsible for seeking academic advisement and adjusting their enrollment to a maximum of 13 credits.

AP.5.2.8 Academic Standing and Student Activities

Only students in good academic standing are eligible to hold or run for elective or appointive office in any organization or activity associated with Mason, compete in any athletic or other activity representing Mason on either an intercollegiate or a club level, or serve as a working staff member of any student organization. Note that students on warning are considered to be in good standing. Some organizations and activities may impose stricter academic criteria for participation.

A student whose eligibility for an activity requires the completion of a semester will have fulfilled that requirement when the student’s publicly scheduled exams are over, unless continued eligibility depends on the grades received. In the latter case, the student will not become eligible until the end of the semester as defined in the Academic Period section.

AP.5.2.9 Academic Clemency

Undergraduate students returning to Mason after a separation of a minimum of three calendar years may petition their academic dean to have up to 16 previous credits earned at Mason removed from the calculation of their cumulative GPA. Courses and grades so removed will not count toward graduation requirements. Note that the courses, with their original grades and the notation “Academic Clemency,” will remain listed on the student’s transcript permanently. The petition for clemency must be filed within 12 months starting from the first day of the re-enrollment semester at Mason; approval may depend on successful completion of that semester. Approval of the request is neither automatic nor guaranteed.

AP.5.3 Requirements for Undergraduate Programs

AP.5.3.1 Declaration of Major

To plan a sound academic program, undergraduates should select a degree and major as soon as it is practical but no later than four weeks before the end of the sophomore year. To declare a major, students should confer with the appropriate advisor in the new major program. Students approaching the recommended point for declaring a major, but still uncertain of their choice, should consult the Academic Advising and Transfer Center, Student Union Building I, Room 3500, advisor@gmu.edu. Note that all degree components including general education, majors and concentrations must be contained in a single catalog year. See note under Catalog Requirements for Degrees for exception regarding minors.

AP.5.3.2 Requirements for Bachelor’s Degrees

• Admission. Candidates must have been officially admitted into degree-seeking status.
- **Residency.** At least one-fourth of the total credits applied to the degree must be completed at Mason and include at least 12 upper-level credits (courses numbered 300 or above) in the major program. A maximum of 18 credits earned in non-degree status at Mason can be applied toward a bachelor’s degree.

- **Credit Hours.** Students must complete at least 120 credits that count toward graduation and fulfill all degree requirements. A few programs require more than the minimum 120 credits.

- **Quality.** Candidates must achieve a cumulative GPA of 2.00 or higher, and must meet all higher standards for grades allowable in majors, minors, or certificates. The Mason cumulative GPA does not include transfer courses.

- **Upper Level.** Students seeking a bachelor’s degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

- **University General Education.** Candidates must complete general education requirements as described for their catalog year. This includes satisfying the requirement of two semesters of English composition (ENGH 101 and ENGH 302) with a grade of C or better.

- **College/Department General Education.** Students must satisfy additional general education requirements for specific degree programs, as described in the college section of the catalog.

- **Writing-Intensive Course Requirement.** As part of the university’s commitment to student writers in all undergraduate programs, at least one upper-division course in each major has been designated as fulfilling the “writing-intensive” (WI) requirement.

- **Major.** Students must satisfy all requirements for their major and degree program, as described in the college section of the catalog, and as detailed in the degree evaluation for their catalog year.

### AP.5.3.2.1 English Composition Requirement

Mason requires students to complete at least two semesters of English composition. Students who complete the Honors curriculum or the Mason Cornerstones program in New Century College complete the English composition requirement through coursework in those programs. Equivalent credit may be granted through course transfer or external exam. Exemption (but not credit) may be granted through a proficiency exam administered by the English department. All other students must enroll in ENGH 101 (or 100) upon admission and, after meeting its prerequisites, ENGH 302. Students must attain a minimum grade of C in composition courses to fulfill degree requirements.

### AP.5.3.2.2 Writing-Intensive Course Requirement

As part of the university’s commitment to student writers in all undergraduate programs, at least one upper-division course in each major has been designated as fulfilling the “writing-intensive” (WI) requirement. While other courses in the major may require written projects, teachers of the designated WI courses will devote class time to instruction on how to complete assignments successfully, assign and grade a minimum of 3500 words, provide constructive feedback on drafts, and allow revision of at least one graded assignment. See the description of each major for the specific course or courses that fulfill the WI requirement. A full list of writing intensive courses can be found on the Writing Across the Curriculum web site.

### AP.5.3.3 Second Bachelor’s Degree

A second bachelor’s degree may be earned, either concurrently or sequentially. To graduate with two degrees, students must present at least 30 Mason credits beyond those required by either degree alone. For sequential awarding of degrees, students must be readmitted for the second degree through the Office of Admissions and complete a minimum of 30 credit hours after that point to have fulfilled the residency requirement for that degree.

Students who are concurrently pursuing two bachelor’s degrees at Mason must present a detailed program of study for both degrees and obtain authorizing signatures from the chair or director of each degree program and the dean or director, if required by the college, school, or institute. Students may declare the second concurrent degree by completing the Declaration of Second Bachelor’s Degree section of the Change/Declaration of Academic Program Form. Both degrees must be declared the semester before the student intends to graduate. Students pursuing concurrent degrees should apply to graduate when both degrees are complete, or be prepared to meet the requirements noted above for sequential awarding of degrees.
AP.5.3.4 Minors

Students may elect minor programs of study in addition to major fields by submitting a completed Minor Declaration (Undergraduate) form to the Office of the University Registrar. Minors usually require between 15 and 21 credits of study, at least 8 of which must be applied only to that minor and may not be used to fulfill requirements of the student’s major, concentration, an undergraduate certificate, or another minor. Students must complete at least 6 credits in their minor at Mason and achieve a minimum 2.00 GPA in courses applied to the minor. Students interested in a minor should consult the appropriate departmental sections in this catalog. Note that these are university minimum requirements; individual programs may have higher standards and/or more restrictive requirements.

AP.5.3.5 Undergraduate Certificates

Students may elect undergraduate certificate programs of study in addition to major fields by submitting a completed Change/Declaration of Academic Program form to the Office of the University Registrar. Students pursuing undergraduate certificates must be admitted to Mason in degree-seeking status. Undergraduate certificate programs require at least 24 credits, 15 of which may not also be used to fulfill the requirements of a major, a concentration, a minor, or another undergraduate certificate. More than half of the credit hours for an undergraduate certificate must be taken at Mason, and more than half must be taken in degree-seeking status. Students must achieve at least a 2.00 GPA in courses applied to the certificate.

Students with a previous bachelor’s degree, who are admitted to an undergraduate certificate program alone, have four years to complete certificate requirements. Such students who are given permission to re-enroll following an absence from Mason may not count the four-year time limit as beginning on the date of re-enrollment. International students attending in F-1 or J-1 status have a more restrictive time limit; contact the Office of International Programs and Services for information. Students who will not meet the published time limit because of circumstances beyond their control may petition their dean for an extension. Failure to meet the time limit or to secure approval of an extension request may result in termination from the program.

A completed undergraduate certificate may be posted to the transcript only after completion of a bachelor’s degree. Note that these are university minimum requirements; individual programs may have higher standards and/or more restrictive requirements.

AP.5.3.6 Change of Academic Program

Students considering a change in their academic program (major or degree) are encouraged to see an advisor in the Academic Advising and Transfer Center or a faculty advisor in their prospective discipline. Departmental sections of this catalog describe requirements for acceptance. Students not meeting the requirements may appeal to the department chair for an exception.

Once a student has completed 60 credits, a change of major requires a meeting with an advisor in the new major before the change is complete. To file a change of major, signatures of advisor or designate in the new major program must be obtained on the Undergraduate Change/Declaration of Academic Program form which can be found at registrar.gmu.edu.

AP.5.3.7 Credit for More than One Undergraduate Major

Students seeking to graduate with a BA or BS degree in two or more subjects must meet departmental requirements for the major in each field. For each major, at least 18 credits used to fulfill its requirements cannot be used to fulfill the requirements of another major, a concentration, a minor, or an undergraduate certificate.

Students pursuing two or more concurrent majors must complete the Second Major section of the Undergraduate Change/Declaration of Academic Program form, available at registrar.gmu.edu. The applicant must present a detailed program of study for both majors and obtain the authorizing signature from the chair or director of the second program and from the dean or director, if required by the college, school, or institute. When required by a specific academic unit, department chairs and deans or directors must also approve all changes to the programs of study. Students may begin a program at any time that permits completion before the anticipated graduation date.
AP.5.4 University Honors

A student graduates with distinction from the University when at least 60 credits applied toward graduation are earned at Mason, and the student’s cumulative GPA is at least equal to one of three values: 3.90, summa cum laude; 3.70, magna cum laude; or 3.50, cum laude.

A student graduates with recognition from the university when between 45 and 59 (inclusive) credits applied toward graduation are earned at Mason, and the student’s cumulative GPA is at least 3.80.

In addition, high achieving students may qualify for membership in one of the many recognized university honor societies. In 2011, George Mason University was awarded a chapter in Phi Kappa Phi, the nation's oldest all-disciplinary honor society. In 2012, Mason was awarded a chapter of Phi Beta Kappa, the nation's oldest and most prestigious honor society dedicated to the liberal arts. Membership is by invitation only to both of these honor societies.

AP.5.5 Dean’s List

Students in degree status who take at least 6 credits in a semester and earn a semester GPA of 3.50 or higher merit placement on the Dean’s List. Courses subsequently repeated and excluded will not retroactively affect Dean’s List status. This notation will be placed on the individual’s permanent record.
AP.6 Graduate Policies

At the graduate level, Mason offers certificates and master’s and doctoral degrees. There are also a number of combined bachelor’s and accelerated master’s degree programs for academically strong undergraduates with a commitment to research.

Graduate Council

The Graduate Council is the governing body for all graduate academic policies and procedures. The council approves all new graduate programs; authorizes all graduate course work, policies, and degrees conferred by the university; and sets minimum standards for admission to and graduation from any graduate program. These are minimum standards that all programs must meet; individual programs may set and enforce higher standards. The Office of the Provost administers university graduate policies for the Graduate Council.

Graduate Faculty

The graduate faculty consists of all George Mason University tenured and tenure-track faculty. Other Mason faculty members, as well as individuals from outside the university, may be appointed to the graduate faculty by the Provost for a specified duration of time.

AP.6.1 Student Classification

Students may access graduate classes and programs according to their status as nondegree or enrolled degree students. For more information, see the Admissions section of this catalog.

AP.6.2 Full-Time Classification

Graduate students are considered full time if they are enrolled in at least 9 graduate credits per semester or hold a full-time assistantship (total 20 hours a week) and are enrolled in at least 6 graduate credits per semester.

Master’s students may enroll in 1 credit of 799 and be considered full time only if they have completed 3 credits of 799 and the student along with their advisor and department chair certify each semester that the student is working full time on the thesis. See the Master’s Thesis section for more information regarding 799.

Doctoral students who are enrolled in dissertation credits (either 998 or 999) are considered full time if they are enrolled in at least 6 credits per semester, regardless of whether they hold an assistantship. Doctoral students who have advanced to candidacy and have completed the minimum number of credits required by the university and their degree program, including the minimum number of credits of 998 and 999, are considered full time if they are registered for at least 1 credit of 999 and the student along
with their advisor and department chair certify each semester that they are working full time on the dissertation. See the Dissertation Registration section for more information regarding 998 and 999.

To be considered as full time under the aforementioned clauses, a student must complete and submit the appropriate forms to the Office of the University Registrar prior to the first day of classes for the semester.

Different requirements for full-time status may apply for tuition, verification, loan deferral, and financial aid. Contact Student Accounts, the Office of the University Registrar, and Student Financial Aid, respectively, for more information. Note that the official designation of time status for all students is determined by the Office of the University Registrar.

**AP.6.3 Academic Advising**

When a student is admitted to graduate study, the student is assigned a faculty advisor by the academic program responsible for the student’s program of study. Registration for newly admitted graduate students, as well as continuing students, begins with a visit to the student’s academic advisor. There, the student can obtain information about specific courses and degree requirements and develop an individual program of study. Progress in an approved program of study is the shared responsibility of the student and the advisor. The graduate student is responsible for compliance with the policies and procedures of the college, school, or institute, and all applicable departmental requirements that govern the individual program of study. Students should consult with their advisors before registration each semester.

**AP.6.4 Student Status**

**AP.6.4.1 Change from Nondegree Status**

A student admitted for graduate study in nondegree status may apply to obtain degree status within the same program. All admission requirements (as defined by the student’s program for degree status) must be met, including official transcripts and letters of recommendation. If the student intends to use credits earned in nondegree status toward a degree, the credits must be approved on the Graduate Transfer of Credit Request form. The credit must have been earned within six years prior to first enrollment as an admitted student in the specific certificate or degree program, and a minimum grade of B (3.00) must have been earned. There is a limit on the number of credits that can be transferred when changing from nondegree to degree status; please see the applicable degree program for specific information.

**AP.6.4.2 Removing Provisional Qualifier**

For policies concerning students admitted provisionally, see the Graduate Admission Policies in the Admissions section of this catalog.

**AP.6.4.3 Permission to Re-Enroll**

Permission to re-enroll in a program must be obtained by all master’s and doctoral degree students who have failed to enroll in at least 1 credit of course work for two or more consecutive semesters at Mason. A program may allow a student to petition to graduate under any catalog in effect while the student was enrolled. All program components, including concentrations, must appear in the catalog for the year selected. The final decision as to catalog year rests with the unit dean or director. The Graduate Reenrollment form is available at registrar.gmu.edu.

**AP.6.4.4 Voluntary Resignation from Graduate Academic Program**

Degree-seeking students may officially resign from their academic program with the approval of their department or program chair and their dean. The Voluntary Resignation form must be approved by the student’s program and Student Accounts, then submitted to the Office of the University Registrar for notation on the transcript. Resignations after the drop period will result in
grades of W on the student’s transcript for that semester, and removal from any future registered courses. Program resignation is final. Students who have been granted a resignation will not be able to register for any courses unless admitted to another degree program or nondegree status in a different program.

**AP.6.5 Credit by Exam, Reduction or Transfer**

**AP.6.5.1 Credit by External Exam**

Degree credit for satisfactory completion of an external exam is limited to those exams and achievement levels specifically approved by the Graduate Council.

**AP.6.5.2 Reduction of Credit**

The number of credits required by a doctoral, master of fine arts, or master’s program of more than 39 credits may be reduced on the basis of a previously earned master’s degree. Reduction of credit requires the approval of the program director and the dean or director of the school, college, or institute. They determine whether the credits are eligible for reduction of credit and applicable to the degree program and the number of credits to be reduced. Reduction of credit is limited to a maximum of 30 credits in a doctoral program, 20 in an MFA program, and 18 in the MA in psychology concentration in school psychology, and derive from the degree requirements given below.

Students requesting a reduction of credit must supply official transcripts. For transcripts from outside the United States, students must supply an official transcript evaluation and an official translation for transcripts not in English if these documents were not supplied in the admission process. Reduction-of-credit requests from students who are admitted provisionally are not considered until the students have fulfilled the conditions of their admission and had the provisional qualifier removed from their records.

Credits used in reduction of credit are not subject to time limits, and the credits must have been applied to a previous degree. The credits used in the reduction may include transfer credit used for a previously earned degree but may not include credits that are applied to both an undergraduate and graduate degree in a joint bachelor's/master's program or in Mason's bachelor's/accelerated master's programs. All the other conditions given above for eligibility of transfer of credit apply also to reduction of credits.

**AP.6.5.3 Transfer of Credit**

Graduate credit earned prior to admission to a certificate, master’s, or doctoral program may be eligible to be transferred into the program and applied to the certificate or degree. Transfer of credit requires the approval of the program director and dean or director of the school, college, or institute. They will determine whether the credit is eligible for transfer and applicable to the specific certificate or degree program. Note that credits accepted for transfer do not compute into any Mason GPA. Limits on the number of credits that can be transferred derive from the degree requirements given below.

Credit is usually considered for transfer at the student’s request at the time of initial registration as a degree-seeking student. Students must supply official transcripts. For transcripts from outside the United States, students must supply an official transcript evaluation and an official translation for transcripts not in English if these documents were not supplied in the admission process. Credit transfer requests from students who are admitted provisionally are not considered until they have fulfilled the conditions of their admission and the provisional qualifier has been removed from their records.

To be eligible for transfer credit, the credit must be graduate credit earned at another accredited university, earned at another institution and recommended for graduate credit in the American Council on Education guidebook, or earned at Mason while in a nondegree status or enrolled through extended studies. The credit must have been earned within six years prior to first enrollment as an admitted student in the specific certificate or degree program, and a minimum grade of B (3.00) must have been earned. The course must be applicable toward a degree at the institution offering the course. Extension and in-service courses that are not intended by the institution offering the courses to be applied to a degree program are not eligible for transfer credit to Mason. The credits cannot have been previously applied toward a degree at another institution or Mason; however, up to 3 credits previously applied to a degree program at another institution may be transferred into a certificate program at Mason.
AP.6.5.4 Permission to Study Elsewhere

Students enrolled in a degree program may take graduate courses at another accredited institution and apply these credits to a master’s or doctoral degree with prior approval. Approval must be secured in writing from the director of the graduate program and the dean or director of the school, college, or institute, and submitted to Mason’s Office of the University Registrar before registering at the other institution. Upon completion of the course, students must arrange for an official transcript to be submitted to Mason so that the credits may be transferred into their Mason degree program. These credits are subject to all the other conditions given above for transfer credit, including limits on numbers of credits that can be taken elsewhere. Note that credits accepted for transfer do not compute into any Mason GPA. Permission to take a course elsewhere does not exempt a graduate student from satisfying the degree requirements given below.

Enrolled, degree-seeking graduate students may be eligible to take a limited number of courses through the Consortium of Universities of the Washington Metropolitan Area. See the University Consortium section in the AP.1 Registration and Attendance section of this catalog. Credits earned through the consortium are considered resident, not transfer, credits, and are therefore not subject to transfer of credit conditions or limitations.

AP.6.6 Graduate Academic Standing

AP.6.6.1 Academic Warning

A notation of academic warning is entered on the transcript of a graduate student who receives a grade of C or F in a graduate course or while a grade of IN is in effect.

AP.6.6.2 Academic Termination

<table>
<thead>
<tr>
<th>Student Status</th>
<th>Students may be terminated for any one of the following reasons:</th>
</tr>
</thead>
</table>
| Provisionally admitted degree seeking graduate students | 1. Fail to meet conditions of admission within time limits  
2. Fail to make satisfactory progress toward the degree, as determined by the academic unit  
3. Accumulate 12 credits of unsatisfactory grades in undergraduate courses  
4. Accumulate grades of F in two graduate courses or 9 credits of unsatisfactory grades in graduate courses  
NOTE: undergraduate and graduate course grades are not combined to reach the termination threshold; they are considered separately. |
| Non-degree graduate students                        | 1. Accumulate 12 credits of unsatisfactory grades in undergraduate courses  
2. Accumulate grades of F in two graduate courses or 9 credit of unsatisfactory grades in graduate courses |
| Fully admitted graduate students enrolled in degree and/or certificate program | 1. Fail to make satisfactory progress toward degree or certificate requirements, including expiration of time limit.  
NOTE: Fully admitted graduate students who accumulate grades of F in two graduate courses or 9 credits of unsatisfactory grades in graduate courses qualify for dismissal, not termination. |

Although the university will make every effort to notify students when their performance reaches the threshold for termination, each student is responsible for knowing the termination criteria, for knowing when their grades have met the standard and for initiating any appeal to their dean. Once the appeal period has expired, or the student’s appeal has been denied, a letter of termination is sent by the dean or director of the school, college, or institute, and notification of academic termination is affixed.
to the graduate student’s official record. Students who are terminated are no longer eligible to take courses in the program, but may apply to another degree program or may apply to take courses in other programs through non-degree studies.

**AP.6.6.3 Academic Dismissal**

A degree-seeking graduate student is dismissed after accumulating grades of F in two courses or a total of 9 credits of unsatisfactory grades (C or below) in graduate courses. These are minimum standards of academic performance; some programs have higher standards. Although the university will make every effort to notify students when their performance reaches the threshold for dismissal, each student is responsible for knowing the dismissal criteria for degree-seeking graduate students at Mason, for knowing when their grades have met the standard, and for initiating any appeal to their dean. A student may also be dismissed for failure to meet other program requirements such as doctoral competence exams. Note that the university reserves the right to dismiss any student based on cancellation (by the testing administrator) of any test score required for admission. The notation of academic dismissal is affixed to the graduate student’s official record. A student who is dismissed may not take additional course work at Mason.

**AP.6.7 Bachelor's/Accelerated Master's Degrees**

The university offers a number of Bachelor's/Accelerated Master's Programs for academically strong Mason undergraduates with a commitment to research or graduate or professional studies. Students admitted into these programs may take a number of graduate courses in their field of study (with permission from their undergraduate and graduate advisors) after achieving 90 undergraduate credits and fulfilling all prerequisites. A maximum of 6 graduate credits completed with a 3.00 GPA or better in each course will apply to the undergraduate degree and give the student advanced standing in the related Mason master’s program. A maximum of 6 graduate credits may also be taken as reserve graduate credit and only applied to the master’s. See Graduate Course Enrollment by Undergraduates in the AP.1 Registration and Attendance section of this catalog.

Students in an accelerated degree program must fulfill all university requirements for the master’s degree, including a minimum of 18 applicable graduate credits taken after the bachelor’s degree has been completed and posted to the student’s academic record. More information is available in the various schools and institutes. Admission is competitive; undergraduates are advised to inquire early in their undergraduate careers. Applications must be approved by the undergraduate coordinator in the student’s major program, the graduate coordinator in the graduate school or department, and the relevant graduate associate dean. The university waives the graduate application fee for Mason undergraduates.

**AP.6.8 Requirements for Graduate Certificates**

Candidates must satisfy all applicable university requirements and all requirements established by the graduate certificate program faculty. Individual departmental graduate certificate requirements are listed under their academic departments in this catalog. Note that the following are university minimum requirements; individual programs may have higher standards and/or more restrictive requirements.

- Graduate certificate programs require a minimum of 12 graduate credits.
- Only graduate courses may apply toward the graduate certificate.
- A maximum of 3 graduate credits taken at another institution can be transferred into a graduate certificate program. See Credit by Exam or From Other Institutions section.
- Candidates must have a minimum GPA of 3.00 in course work presented on the certificate application, which may include no more than 3 credits of C. (Grades of C+, C-, and D do not apply to graduate courses.) The GPA calculation excludes transfer credits.
- Certificate students are subject to graduate termination and dismissal policies.

**AP.6.8.1 Students in Master’s or Doctoral Programs also Pursuing Graduate Certificates**
Admission
Students must be admitted to the master's or doctoral program in degree status. They must also be admitted to the graduate certificate program at least one semester before completion of certificate requirements.

Course Work in Degree Status
More than half of the credits required for the certificate program must be taken in degree status for the master’s or doctoral degree.

Time Limits
The time limits coincide with the six-year time limit for master’s degrees or the six-year time limit for advancement to candidacy in a doctoral degree. Master’s and doctoral time limit rules apply.

Multiple Programs
Students may be enrolled in one graduate certificate program while they pursue a master's or doctoral degree. Students who have completed a graduate certificate may subsequently be approved to apply many of the credit hours for that one certificate to a graduate degree, as long as they were taken within six years of official enrollment into the degree program. There is no limitation on the sharing of credits between the graduate degree and one certificate.

AP.6.8.2 Students in Graduate Certificate Programs Only

Admission
Students pursuing graduate certificates must be admitted to Mason in degree-seeking status. Failure to make satisfactory progress (as determined by the academic unit) toward certificate requirements may result in termination from the certificate program.

Course Work After Admission
More than half of the credits required for the graduate certificate program must be taken after admission to that program.

Time Limits
The time limit for completion is six years from the date of admission to the graduate certificate program. International students attending in F-1 or J-1 status have more restrictive time limits; contact the Office of International Programs and Services for information. The time limit is not extended because of an absence and subsequent re-enrollment into the graduate certificate program. Failure to meet the time limit or to secure an extension request may result in termination from the program.

Multiple Programs
Students not admitted to any graduate degree program (master's or doctoral) may be admitted to two graduate certificate programs at the same time. The graduation application for each graduate certificate must include a minimum of 12 credits that apply only to that certificate and not to another. (Credits from only one certificate may be subsequently applied to a future degree program, subject to program approval and time limit.)

AP.6.8.3 Financial Aid for Students in Certificate Programs Only

Not all certificate programs are eligible for Federal financial aid. A list of the eligible graduate certificates can be found in the Financial Aid section.

AP.6.9 Requirements for Master’s Degrees

Candidates must satisfy all applicable university degree requirements and all requirements established by the master’s program faculty. Individual departmental degree requirements are listed under the respective master’s programs in this catalog. Programs may impose more stringent requirements.

- Admission. Candidates must have been officially admitted into degree status.
- Credit Hours. Candidates must earn a minimum of 30 graduate credits.
- Credit Level. Only graduate courses may apply toward the degree.
The majority of the credits applied to the degree must be earned at Mason or, in the case of programs offered through joint, cooperative, or consortium arrangements, at the participating institutions.

- **Residency.** A minimum of 18 credits must be taken in degree status, after admission to the degree program.

- **Thesis/Project Limits.** A maximum of 6 credits of master’s thesis research (799) or master’s project may be applied to the degree.

- **Quality.** Candidates must have a minimum GPA of 3.00 in course work presented on the degree application, which may include no more than 6 credits of C. (Grades of C+, C-, or D do not apply to graduate courses. The GPA calculation excludes all transfer courses and Mason nondegree studies credits not formally approved for the degree.)

### AP.6.9.1 Thesis Options

Requirements regarding a thesis vary with the degree program. A number of master’s programs offer both thesis and nonthesis options. The same quality of work is expected of students regardless of their chosen option. For more information, consult the section on degree requirements under each degree program.

### AP.6.9.2 Time Limit

Master’s degree students have six years from the time of first enrollment as a degree-seeking student to complete their degrees. Individual master’s programs may have stricter time limits, which are published in this catalog. International students attending in F-1 or J-1 status also have more restrictive time limits; contact the Office of International Programs and Services for information. Students who are given permission to re-enroll following an absence from Mason may not count the six-year time limit as beginning on the date of re-enrollment. Students who will not meet published time limits because of circumstances beyond their control may petition for an extension. Failure to meet the time limits or to secure approval of an extension request may result in termination from the program.

### AP.6.9.3 Master’s Thesis

When a thesis proposal has been approved by the appropriate department, the department chair sends the collegiate dean or director a copy of the thesis proposal, including the approval signatures of the master’s thesis committee members. Students may enroll in thesis research (799) at the beginning of the next semester. Students must register for a minimum of three credit hours in their first semester of 799. After that semester, students may enroll for one credit of 799 per semester and be considered full time, if the following requirement is met: the student, advisor and department chair must certify each semester that the student is working full time on the thesis. **Please note: Master’s students must maintain continuous enrollment in 799 while writing and submitting a thesis.** Students registered in 799 are graded IP until work is complete; at that time they are graded S/NC, and previous IP grades are updated by the Office of the University Registrar to reflect the final S or NC grade. Graduation candidates who miss the library deadline for thesis submission, but do submit officially before the next semester begins, do not have to register for 799 in that next semester, but must stay active to graduate.

The master’s thesis committee is composed of at least three members of the graduate faculty, at least two of whom must be from the student's department or program. Faculty who are not members of the graduate faculty or other appropriate persons not affiliated with the university may serve as additional members. Committee members are appointed by the chair or director of the academic unit or program, or designee, after consultation with the student's adviser and the student.

The thesis committee chair is primarily responsible for directing the candidate’s research and writing activities. The student is responsible for keeping all committee members informed of the scope, plan, and progress of the research as well as the writing of the thesis.

Students selecting the thesis option should obtain a copy of Mason’s *Thesis, Dissertation, or Project Guide*, which is available at thesis.gmu.edu. Students may register in 799 only after their thesis proposal has been submitted and approved as prescribed in the guide. **Any student not in attendance at Mason who is preparing a thesis under the active supervision of a member of the faculty or wishes to take an exam must maintain continuous registration in 799 for at least 1 credit per semester.**
AP.6.9.4 Thesis Submission

The university has a policy on the dissemination of scholarly works created by graduate students. The Electronic Thesis and Dissertation (ETDs) program encourages masters-level graduate students to submit an electronic copy of their thesis for broad scholarly dissemination through the Mason Archival Repository Service (MARS). Student participation in the ETDs program is strongly encouraged, but not mandatory. All students choosing to participate in this program will be required to sign the MARS Author/Contributor Permission Agreement.

On or before the thesis deadline for any semester, the student will submit a complete (signed Signature Sheet through Curriculum Vitae) 100% cotton copy of his or her thesis to the University Libraries along with a transmittal sheet. The student may also opt to submit an electronic copy of his/her thesis. These submissions can be in Word, WordPerfect, or in portable document format (PDF). Media formats (tiff, jpeg, png, wav, avi, mpeg, mov, rm, wmv, wma, etc.) for supporting materials will also be accepted. Datasets may be accepted at the discretion of the libraries. The files may be submitted on CD, DVD, or USB memory device.

Please note that those students opting out of the ETDs program are required to submit two 100% cotton copies of their thesis.

For degree conferral in a particular semester, the above materials must be submitted to the library by 5 p.m. on the last Friday of classes in that semester. For specific deadlines and other information, go to registrar.gmu.edu.

AP.6.9.5 Doctoral Students Also Pursuing a First Master’s Degree

Requirements for master’s degrees apply with the following exceptions. Residency derives from the doctoral degree requirements. Time limit may derive from the doctoral requirements, although programs may reject course work that is not sufficiently current. Students must be officially admitted to degree status in the master’s program a full semester before the one in which they will complete master’s degree requirements, i.e. admitted in fall for graduation the following spring.

AP.6.10 Requirements for Doctoral Degrees

Candidates must satisfy all applicable university degree requirements and all requirements established by the doctoral program faculty. Departmental degree requirements are listed under the respective doctoral programs in this catalog. Programs may impose more stringent requirements.

- **Admission.** Students must have been fully admitted into degree status.
- **Credit Hours.** Candidates must earn a minimum of 72 graduate credits, which may be reduced by a maximum of 30 credits from a completed master's degree or other suitable, approved transfer work. (see Credit by Exam, Reduction or Transfer)
- **Degree Credit.** The remaining 42 credits for students with a master’s degree may apply only to the doctoral degree and not to a second master’s degree.
- **Credit Level.** Only graduate courses may apply toward the degree.
- **Institutional Credit.** More than half of all credits applied to the doctoral degree (minimum 72) must be earned at Mason or in the case of programs offered through joint, cooperative, or consortium arrangements, at the participating institutions.
- **Residency.** More than half of all credits (minimum 72) must be taken in doctoral degree status, after admission to the degree program.
- **Candidacy.** Candidates must pass a written or oral doctoral candidacy (qualifying) exam, or both.
- **Dissertation.** Candidates must complete a minimum of 12 credits of doctoral proposal (998) and doctoral dissertation research (999), including at least three credits of 999. A maximum of 24 credits of 998 and 999 may be applied to the degree.
- **Defense.** Candidates must pass a final public defense of the doctoral dissertation.
- **Quality.** Candidates must have a minimum GPA of 3.00 in course work presented on the degree application, which may include no more than 6 credits of C. (Grades of C+, C-, or D do not apply to graduate courses. The GPA
calculation excludes all transfer courses and Mason extended studies or nondegree credits not formally approved for the degree.)

AP.6.10.1 Time Limit

Total time to degree will not exceed eleven (11) calendar years from the time of first enrollment as a doctoral degree-seeking student. Doctoral students are expected to advance to candidacy in no more than six years and to complete all other degree requirements for graduation in no more than five years from the time of advancement to candidacy. Students who will not meet published time limits because of circumstances beyond their control may petition for an extension. Extensions to the time limit for advancement to candidacy may be granted for a maximum period of one calendar year. The one year extension granted to advance to candidacy will run concurrently with the five years provided to complete the dissertation. The total time limit to degree will not exceed eleven (11) years even for those students granted a time extension for advancement to candidacy. Students who are given permission to re-enroll following an absence from Mason may not count the time limits as beginning on the date of re-enrollment. Failure to meet the time limits or to secure approval of an extension request may result in termination from the program. International students attending in F-1 or J-1 status also have more restrictive limits to advance to candidacy and to complete the degree, and cannot expect the maximum 11 year deadline to apply to them. Students should contact the Office of International Programs and Services for information.

AP.6.10.2 Doctoral Research Skill Requirements

Some doctoral degree programs require demonstration of proficiency in a research skill, including knowledge of the research literature in a foreign language, computer language, statistical methods, or a research tool specific to the discipline. Research skill requirements are included with the degree requirements for the specific doctoral degree. Where demonstration of research skills is required, certification that this requirement has been met must be completed for advancement to candidacy.

AP.6.10.3 Program of Study

Usually before the end of the second year of graduate study but no later than consideration for advancement to candidacy, doctoral students must submit a program of study for approval by the dean or director of the college, school, or institute. The program of study must include major courses and supporting courses to be completed, research skills required, subject areas to be covered by the candidacy exam, and a proposed date for the candidacy exam. Program of Study Forms are available from each program’s doctoral coordinator. Any changes in the programs of study must be documented with an amended Program of Study Form.

AP.6.10.4 Advancement to Candidacy

Advancement to candidacy implies that a doctoral student has demonstrated both a breadth and a depth of knowledge in the field of study and is capable of exploring problems on the boundaries of knowledge, and has identified a research area that is likely to lead to a successful dissertation. The candidacy exam includes a written part and may include an oral part, depending on the particular doctoral program. Doctoral students should consult the degree requirements for each doctoral program to determine whether an oral portion is required, whether it is judged separately or with the written portion, the number of times a failed candidacy exam may be repeated and any associated time limits, and any time limits for attempting the candidacy exam.

Before doctoral students may be advanced to candidacy by the unit dean or director, they must have completed all course work as indicated on the approved program of study, been certified in all doctoral research skills required, passed the candidacy exam, and been recommended by the doctoral supervisory committee or program coordinator. Students advanced to candidacy after the add period for a given semester must wait until the following semester to register for 999 Dissertation Research.

AP.6.10.5 Dissertation Committee
Before a doctoral student is advanced to candidacy, the dean or director of the school, college, or institute or its designee (as specified by the school/college/institute) appoints a dissertation committee upon recommendation of the student’s dissertation chair. Students work collaboratively with the program director and faculty to form the dissertation committee, with the understanding that some areas of research may be impossible to support due to available faculty expertise. Program personnel will facilitate the formation of the dissertation committee to the extent possible, but there can be no guarantee of successful formation.

All dissertation committees must consist of at least three members of the graduate faculty, at least two of whom must be from the student’s academic unit or program faculty. The committee consists of a dissertation chair, typically a graduate faculty member from the department or program of the student’s field of study and at least two other members of the graduate faculty. Only a graduate faculty member with a full-time appointment at George Mason University may serve as dissertation chair. Other Mason faculty, as well as individuals from outside the university, may be appointed as additional members to the committee. Such appointments are made where the additional member’s expertise and contribution add value to the dissertation, but appointment does not require graduate faculty status.

Student-initiated changes in the composition of the dissertation committee may occur only with the approval of the dean or director of the school, college, or institute or its designee in consultation with the committee. Faculty may resign from a dissertation committee with appropriate notice by submitting a written resignation.

**AP.6.10.6 Dissertation Registration (998, 999)**

Students working on dissertation research (999) must register for a minimum of 3 credits of 999 per semester (excluding summers) until they have completed the minimum number of credits of 998 and 999 required by the university and their degree program. Then, they must register for 1 credit of 999 until the dissertation is complete and has been officially submitted to the library. See the Full-time classification section for more information. Students registered in 998 or 999 are graded IP until work in 998 or 999, respectively, is complete; at that time they are graded S/NC, and previous IP grades are updated by the Office of the University Registrar to reflect the final S or NC grade.

All registration for doctoral dissertation research (999) must be planned with the dissertation director and approved by the dean or director of the school, college, or institute. Dissertation research (999) is open only to doctoral students who have advanced to candidacy. Once enrolled in 999, students must maintain continuous registration in 999 each semester until graduation, excluding summers. Students who defend in the summer must be registered for at least 1 credit of 999 in the summer. Individual doctoral programs may require continuous registration beginning with 998. Graduation candidates who miss the library deadline for dissertation submission, but do submit officially before the next semester begins, do not have to register for 999 in that next semester, but must stay active to graduate.

It is the student’s responsibility to complete registration for dissertation proposal (998) or research (999) prior to the first day of classes for the semester. If this date is missed, students must still enroll in these courses via Add or Late Schedule Adjustment procedures and are subject to Late Registration fees. Failing to register on time in a particular semester does not alter the requirement for continuous registration in 999.

**AP.6.10.7 Doctoral Dissertation**

A dissertation is required for the doctor of philosophy degree and most professional doctoral degrees. The dissertation is a written piece of original thinking that demonstrates doctoral candidates’ mastery of subject matter, methodologies, and conceptual foundations in their chosen field of study. This is generally achieved through consideration of a problem on the boundaries of knowledge in the discipline.

The director of the dissertation committee is primarily responsible for directing the doctoral candidate’s research and guiding the preparation of the written dissertation. After the dissertation committee is appointed, the student should begin discussions with the director to define a suitable problem for the dissertation. Before the student may enroll in doctoral dissertation research (999), the dissertation proposal must be approved by the dissertation committee and evidence of approval sent to the unit dean or director for approval. Before that time, the student may enroll in proposal research (998).
Guidelines for the content and general format of doctoral dissertations are in the Thesis, Dissertation, or Project Guide, which is available at thesis.gmu.edu. Consult a doctoral coordinator to determine which additional reference manuals are suitable.

**AP.6.10.8 Doctoral Defense**

As soon as all degree requirements have been satisfied, including completion of the doctoral dissertation, the doctoral candidate may request a doctoral defense. Approval for the defense is given by the doctoral dissertation committee, department or program chair, and relevant dean or director of the school, college, or institute. Notice of a defense must be circulated to the university community two weeks before the defense date. The public defense should demonstrate the candidate’s maturity of judgment and intellectual command of the chosen branches of the field of study.

At the close of the final defense, the dissertation committee makes final judgments for approving the dissertation. The doctoral candidate is responsible for making all required changes promptly, submitting the original and required copies, and obtaining signatures. Final approval for the dissertation is given by the doctoral dissertation committee, department or program chair, and the relevant dean or director of the school, college, or institute, all of whom must sign the final copy.

For a dissertation to be approved, all members of the committee must sign. If a committee member refuses to do so, the student or any member of the committee may petition the unit dean or director for a review and ruling. The dean or director may seek the advice of outside reviewers to provide an assessment of the work. The final decision is that of the dean or director, and is not subject to appeal.

**AP.6.10.9 Dissertation Submission and Fees**

The university has a policy on the dissemination of scholarly works created by graduate students. The Electronic Thesis and Dissertation (ETDs) program encourages doctoral-level graduate students to submit an electronic copy of their dissertation for broad scholarly dissemination through the Mason Archival Repository Service (MARS). Student participation in the ETDs program is strongly encouraged, but not mandatory. All students choosing to participate in this program will be required to sign the MARS Author/Contributor Permission Agreement.

On or before the dissertation deadline for any semester, the student will submit a complete (signed Signature Sheet through Curriculum Vitae) 100% cotton copy of his or her dissertation to the University Libraries along with a transmittal sheet. The student will also submit an electronic copy of his or her dissertation. These submissions can be in Word, WordPerfect, or in portable document format (PDF). Media formats (tiff, jpeg, png, wav, avi, mpeg, mov, rm, wmv, wma, etc.) will be accepted. Datasets may be accepted at the discretion of the libraries. The files may be turned in on CD, DVD, or USB memory device. Please note that those students opting out of the ETDs program are required to submit two 100% cotton copies of their dissertation.

Submission of an additional PDF on CD of the dissertation to University Microfilms International (ProQuest) is required; a fee of either $55 or $150 (depending on publishing option chosen) is paid by the student for this process. Submission of a completed Survey of Earned Doctorates is also required. All copies of the dissertation must be submitted and all fees paid before the doctoral degree is awarded.

For degree conferral in a particular semester, the above materials must be submitted to the library by 5 p.m. on the last Friday of classes in that semester. (For specific deadlines and more information, go to registrar.gmu.edu). To be included in Mason’s published commencement program, doctoral students must submit materials to the library by the commencement program deadline.

**AP.6.10.10 University Dissertation and Thesis Services**

University Dissertation and Thesis Services (UDTS) facilitates completion and submission of dissertations, theses, and graduate-level projects. The program assists Mason students in all stages of production. The UDTS web site, thesis.gmu.edu, provides students with useful tools, including downloadable templates of necessary elements, forms required for the submission process, and links to related web sites. Students completing a thesis or dissertation are required to complete a format review. UDTS is
located in Fenwick Library, Special Collections and Archives, Wing 2C. For more information, contact the university dissertation and thesis coordinator at 703-993-2222.
AP.7 Research Policies

All research activities involving human subjects or data regarding human subjects that are conducted by faculty, staff, or students and/or that involve faculty, staff, or students as participants must be submitted to the Office of Research Integrity & Assurance for review and approval. Further information and forms for submission can be found at oria.gmu.edu. All research activities must be approved by the Human Subjects Review Board prior to implementation of the activity. Separate approval by the vice provost for academic affairs is required if contact information for Mason students is needed to conduct the research. All student research must be supervised by a faculty member. The faculty member will serve as the principal investigator for the research and will assume responsibility for the legal and ethical conduct of the work.

AP.7.2 Animal Use in Research

All work with live animals, whether for research, teaching, or testing, must be approved by the Institutional Animal Care and Use Committee (IACUC) prior to initiation of the work. All care and use of animals at Mason must be carried out under the supervision of a faculty member who is qualified and experienced in the work being conducted and assumes responsibility for legal and ethical conduct. Further information and submission forms can be found at the Office of Research Integrity & Assurance web site at oria.gmu.edu.

AP.7.3 Research Misconduct

George Mason University is committed to the highest standards of ethical science. All faculty, staff, and students are responsible for conducting research in an ethical manner. The university has developed a comprehensive policy and procedures to address allegations of misconduct: University Policy 4007.
Academic Advising

Return to: General Information

Academic Advising & Transfer Center

Student Union Building I, Room 3500, MS 2E6
Phone: 703-993-2470
Fax: 703-993-2478
Web: advising.gmu.edu
E-mail: advisor@gmu.edu

The mission of academic advising at Mason parallels the university’s mission by providing resources and programs to mentor, teach, and guide students in their decision making as they develop their educational and career goals. Admitted undergraduate students should meet regularly with an academic advisor to discuss academic programs, educational goals, and career plans. With their advisors, students plan academic programs to meet the general university degree requirements and specific requirements within their major fields. It is the student’s responsibility to read the catalog and know and fulfill the requirements of a specific baccalaureate degree. To assist in the advising process, Mason provides a computerized degree evaluation. Students should access their individualized reports through Patriot Web.

Individual departments establish their own advising processes; students should check with their departments for the appropriate procedures. An advisor locator is available at advising.gmu.edu/current-students/advisor-locator. During their freshman and sophomore years, students in the Honors College plan their schedules with honors advisors. Every department coordinates advising of its honors students through the Honors College.

Some departments require that students be advised prior to registration each semester.

The Academic Advising and Transfer Center assists students making the transition to Mason, including those who have not yet declared a major or are considering a change of major. Students are encouraged to make an appointment for information about general education requirements, programs, policies, procedures, and other academic concerns. The Center also provides information and guidance for students who are interested in pre-professional programs in the health fields and to newly admitted transfer students who need assistance transitioning to Mason. Advising is available by appointment; consult the website, advising.gmu.edu for hours of operation.

Student Academic Affairs, Advising & Retention

Student Union Building I, Room 3500, MS 2E6
Phone: 703-993-2470
Fax: 703-993-2478
Web: saa.gmu.edu

Student Academic Affairs, Advising & Retention is the umbrella unit for the Transition Resource Center, the Academic Advising and Transfer Center and pre-health advising. This unit rules on all academic actions submitted by undergraduate undeclared and nondegree students.

The unit also manages campus wide retention activities.

Health Professions Advising and the Medical Sciences Advisory Committee

Student Union Building I, Room 3500, MS 2E6
Phone: 703-993-9305
Health Professions Advising is committed to providing students with the tools that will help them to achieve success. It provides the primary contact for undergraduate students and alumni interested in pursuing postgraduate work in a medical field (allopathic and osteopathic medicine, dentistry, optometry, physician assistant, pharmacy, physical therapy, occupational therapy, speech therapy and veterinary medicine) and comprehensive developmental advising.

In addition to advising, the Health Professions Advisor coordinates the activity of the Medical Sciences Advisory Committee that assists in developing a composite letter of evaluation for qualified students who are applying to relevant programs. The committee is composed of university faculty and administrative faculty.

**Advising upon Entrance into Upper Division (Junior Standing)**

Upon entrance into the upper division, every student should meet with an advisor to adopt a program of study. This meeting should cover the following:

- Review of requirements for the degree and major the student has chosen
- Review of the student’s record including any deficiencies which must be corrected
- Discussion of career or graduate study options open to the student enrolled in such a program
- Opportunities for departmental faculty to evaluate the student’s suitability to major in the chosen discipline.

This advising session occurs in the semester in which the student will have completed 60 or more acceptable credits. The results are a matter of record, with any approved modifications being entered into the student’s computerized degree plan.

Although an upper-division student who has filed an approved program of study is usually not required to consult again with an academic advisor, it is good practice to seek periodic academic and career advising. It remains the student’s responsibility to seek approval for any program change so that the computerized degree plan may be kept current. In particular, once a student has completed 60 credits, a change of major requires an extended session with an advisor in the new major and approval of a new program of study before the change is complete.

A student in lower-division status may change majors by filing a Change/Declaration of Academic Program Form with the Office of the University Registrar. These are minimal advising procedures to be followed in all undergraduate segments of the university; individual units may require additional advising sessions.
Green Leaf Programs and Courses

Web: sustainabilitystudies.gmu.edu

The image designates a "green leaf" course or academic program, one which focuses on learning about sustainability, i.e., meeting our present needs without compromising the ability of future generations to meet their own needs.

For more information, please go to http://sustainabilitystudies.gmu.edu/greenleaf/index.html.

Programs

Green leaf academic programs focus on sustainability, usually including a required set of green leaf courses in order to cover the social, economic and environmental dimensions of sustainability. Each is a vital contributor to Mason's sustainability across the curriculum.

Undergraduate Degrees

- Civil and Infrastructure Engineering, BS
- Health, Fitness, and Recreation Resources, BS: Concentration in Parks and Outdoor Recreation
- Environmental and Sustainability Studies, BA
- Environmental Science, BS
- Global Affairs, BA
- Tourism and Events Management, BS

Undergraduate Minors and Certificates

- Applied Conservation Studies Minor
- Environmental Management Undergraduate Certificate*
- Environmental Policy Minor*
- Global Affairs Minor*
- Sustainability Minor

Graduate Degrees

- Environmental Science and Policy, MS
- Environmental Science and Public Policy, PhD
- Global Affairs, MA*
- Interdisciplinary Studies, MAIS: Concentration in Energy and Sustainability

Graduate Certificates

- Environmental Conflict Resolution and Collaboration Graduate Certificate
- Environmental Management Graduate Certificate

* Meets green leaf criteria when options are selected to ensure coverage of “people, planet and prosperity” across the program’s curriculum.

Courses
The green leaf designation recognizes offerings that contribute significantly to students' understanding and practice of sustainability. These offerings extend beyond environmental management, natural resources protection and conservation studies alone to Mason's green leaf curricula comprise both sustainability-focused and sustainability-related courses.

**Sustainability-focused courses** provide valuable grounding in the concepts and principles of sustainability. These courses educate students about how different dimensions of sustainability relate to and support each other in theory and practice. In addition, these courses help equip students with the skills to weave together disparate components of sustainability in addressing complex issues.

### Undergraduate
- AVT 385 - EcoArt
- BIOL 379 - Ecological Sustainability
- CEIE 401 - Sustainable Land Development
- CONS 410 - Human Dimensions in Conservation
- ECON 105 - Environmental Economics for the Citizen
- ECON 335 - Environmental Economics
- EVPP 322 - Business and Sustainability
- EVPP 335 - People, Plants, and Culture
- EVPP 338 - Economics of Environmental Policy
- EVPP 355 - Ecological Engineering and Ecosystem Restoration
- EVPP 361 - Introduction to Environmental Policy
- EVPP 362 - Intermediate Environmental Policy
- EVPP 378 - Ecological Sustainability
- EVPP 421 - Marine Conservation
- EVPP 480 - Sustainability in Action
- GOVT 361 - Introduction to Environmental Policy
- GGS 307 - Sustainable Development
- NCLC 210 - Sustainable World
- NCLC 318 - Exploring Virginia's Watersheds
- NCLC 334 - Environmental Justice
- NCLC 402 - Plants and People - Sustenance, Ceremony, and Sustainability
- PRLS 250 - Wilderness Travel and Sustainability
- PRLS 300 - People with Nature
- PRLS 402 - Human Behavior in Natural Environments
- SOCI 320 - Social Structure and Globalization
- TOUR 312 - Ecotourism
- TOUR 340 - Sustainable Tourism
- TOUR 420 - Tourism Planning/Policy

### Graduate
- CEIE 501 - Sustainable Development
- CEIE 540 - Water Supply and Distribution
- CEIE 892 - Special Topics in Environmental and Water Resource Systems Engineering
- CONF 702 - Peace Studies
- CONS 665 - Conservation Conflict Resolution
- EVPP 521 - Marine Conservation
- EVPP 525 - Economics of Human/Environment Interactions
- EVPP 620 - Development of U.S. Environmental Policies
- EVPP 622 - Management of Wild Living Resources
- EVPP 626 - Environment and Development in Asia
- EVPP 627 - Environmental Policy in Latin America
- EVPP 628 - Environment and Development in Africa
- EVPP 635 - Environment and Society
- EVPP 642 - Environmental Policy
- GGS 525 - Economics of Human/Environment Interactions
- ITRN 760 - International Environmental Politics
- PRLS 531 - Natural Resources Recreation Planning
- PUAD 642 - Environmental Policy
- TOUR 540 - Sustainable Tourism Management

**Sustainability-related courses** help build knowledge about a component of sustainability or introduce students to sustainability concepts during part of the course. They may complement sustainability-focused courses by providing students with in-depth knowledge of a particular aspect or dimension of sustainability (such as the natural environment) or by providing a focus area (such as renewable energy) for a student's sustainability studies, or they may broaden students' understanding of sustainability from within different disciplines.

### Undergraduate
- ANTH 370 - Environment and Culture
- CEIE 355 - Environmental Engineering and Science

### Graduate
- CEIE 690 - Topics in Civil Engineering - Selected topic: Environmental Sustainability and Entrepreneurship
• CEIE 450 - Environmental Engineering Systems
• CHEM 155 - Introduction to Environmental Chemistry I
• CHEM 156 - Introduction to Environmental Chemistry II
• COMM 399 - Special Topics in Communication - Selected topic: Climate Change
• CONS 401 - Conservation Theory
• CONS 402 - Applied Conservation
• CONS 403 - Ecology and Conservation Theory
• CONS 404 - Monitoring and Assessment of Biodiversity
• CONS 411 - Science Communication for Conservation
• CONS 490 - Integrated Conservation Strategies
• CONS 491 - Comprehensive Conservation Planning
• CLIM 101 - Global Warming: Weather, Climate, and Society
• EVPP 110 - The Ecosphere: An Introduction to Environmental Science I
• EVPP 111 - The Ecosphere: An Introduction to Environmental Science II
• EVPP 201 - Environment and You: Issues for the Twenty-First Century
• EVPP 336 - Human Dimensions of the Environment
• EVPP 337 - Environmental Policy Making in Developing Countries
• GGS 102 - Physical Geography
• GGS 103 - Human Geography
• GGS 121 - Dynamic Atmosphere and Hydrosphere
• GGS 122 - Dynamic Geosphere and Ecosphere
• GGS 302 - Global Environmental Hazards
• GGS 303 - Conservation of Resources and Environment
• GGS 304 - Populations Dimensions of Global Change
• GGS 312 - Physical Climatology
• GGS 314 - Severe and Extreme Weather
• GGS 319 - Air Pollution
• GGS 322 - Issues in Global Change
• GGS 353 - Observations of the Earth and its Climate
• GGS 455 - Environmental Impact Assessment
• GEOL 305 - Environmental Geology
• HNRT 228 - Scientific Thought and Processes II - Selected topics: Watershed Science, Energy & Environment, etc.
• NCLC 102 - Global Networks and Communities
• NCLC 103 - Human Creativity: Science and Art
• NCLC 211 - Introduction to Conservation Studies
• NCLC 220 - Energy and Environment
• COMM 670 - Social Marketing
• COMM 690 - Special Topics in Communication - Selected topic: Climate Change
• CONF 651 - Conflict Analysis and Resolution for Collaborative Leadership in Community Planning
• CONF 682 - Principles of Environmental Conflict Resolution
• CONF 683 - Environmental Conflict Resolution and Collaboration: Situation Assessment, Process Design and Best Practices
• EDCI 573 - Teaching Science in the Secondary School
• EDLE 690 - Using Research to Lead School Improvement
• GCH 560 - Environmental Health
• HIST 615 - Problems in American History
• NUTR 652 - American Agriculture in the 20th Century
- NCLC 311 - The Mysteries of Migration: Consequences for Conservation
- NCLC 338 - Animal Rights and Humane Education
- NCLC 401 - Conservation Biology

Living Learning Communities

Housing and Residence Life
Phone: 703-993-2720
Fax: 703-993-2744
Email: housing@gmu.edu
Web: housing.gmu.edu/llc/

Living Learning Communities (LLCs) are collaborative partnerships between academic departments, individual Mason faculty, housing and residence life staff, and the division of University Life. Students who enroll in an LLC take one or more classes together and live on campus as a group in the same residence hall. In addition to their common coursework, groups of students in LLCs interact with each other and their faculty or staff coordinators through numerous out-of-class programs and activities. LLC options exist for both first-year and upper-division undergraduate students who choose to live on campus. For more information, please visit housing.gmu.edu.
Military Services

Return to: General Information

- Reserve Officer's Training Corps (ROTC)

Office of Military Services

245 Johnson Center
Phone: 703-993-1316
Fax: 703-993-2392
Web: military.gmu.edu

Administration

Director: Jennifer Connors

The mission of the Office of Military Services at Mason is to assist veterans, active duty service members, guardsmen, reservists, and dependents in making a successful transition into the Mason community. Our goal is to help these students in a number of capacities including counseling and advising on benefits, academic and admissions advising, and career transition. Few schools have a dedicated staff to help transition from a military environment to college life and we are proud to be able to assist our students in any way.

Located within the Office of Admissions, the Office of Military Services understands personally that the transition to student life can be challenging, yet rewarding. Along with the entire university community, we are grateful to you and your family members for your service to our country. We are dedicated to providing the services you need to successfully navigate this transition.

If you would like to schedule a time to meet with a Transition Coordinator, please email aemery4@gmu.edu or call 703.993.2428.
Office of Continuing Professional Education

Return to: General Information

Fairfax Campus
University Hall, Suite 2300
Phone: 703-993-2109
Web: ocpe.gmu.edu

Prince William Campus Professional Development Office
Phone: 703-993-8335

Herndon Office and Training Center, located at the Center for Innovative Technology
2214 Rock Hill Road
Herndon, VA 22070
Phone: 703-993-4800

Administration

Janet Niblock, Executive Director

The Office of Continuing Professional Education (OCPE) serves as Mason’s initial point of contact and referral for the business and professional community, and responds to all professional development and continuing education inquiries, requests, and needs. Supported program activities include contracted academic credit programs, noncredit public programs and seminars, online courses, professional certificate programs, continuing education units (CEUs), on-site contract training programs, special professional development events and programs, special workforce development programs, and training center facilities.

The OCPE is strategically located at the Fairfax Campus in University Hall, the Prince William Campus, and the Center for Innovative Technology (CIT) in Herndon. Current continuing education program information, offerings, and capabilities can be reviewed at ocpe.gmu.edu.

The University Hall office serves as the primary point of inquiry and referral. It facilitates, promotes, and administers the delivery of contract credit courses, online courses, and other specialized non-credit professional development programs. This office also administers the award of CEUs, which are nationally recognized standard units of measurement earned for satisfactory completion of qualified programs of continuing education. OCPE provides this service to all Mason academic groups that deliver noncredit professional development programs.

The Prince William Campus office facilitates a variety of open enrollment and contract programs (both noncredit and credit) that support the strengths of the programs on that campus. Programs are designed to meet the professional development needs of the business community of the Prince William area, as well as Northern Virginia local and state government communities.

The OCPE Herndon Office located in CIT in Northern Virginia’s high-technology corridor facilitates a variety of professional development programs targeted to the area’s business and federal government organizations. This office reaches out to the business community by designing, marketing, and delivering noncredit training courses and in-depth certificate programs. Public seminars and customized, contract training programs respond to the needs and interests of managerial, technical, and professional employees in private, nonprofit, and public organizations located in Northern Virginia and the broader metropolitan area.
Office of the Ombudsman

Return to: General Information

Student Union I, Suite 3313
Phone: 703-993-3006
Email: ombuds@gmu.edu
Web: ombudsman.gmu.edu

Administration

Dolores Gomez-Moran, University Ombudsman

The Office of the Ombudsman is a neutral, independent, informal, and confidential resource to facilitate fair, equitable, and expeditious resolution of university-related concerns and problems raised by students. The ombudsman is an advocate for fairness and the equitable treatment of students, operates independently of all formal grievance processes at the university, and considers all sides of an issue in an impartial and objective manner. The ombudsman has no authority to make exceptions or to grant requests, but can perform informal investigations and, as a result, may recommend actions that lead to changes in processes and policies at the university. Meetings with the ombudsman are confidential. The ombudsman serves graduate and undergraduate students at the university.
Reserve Officer's Training Corps (ROTC)

Return to: Military Services

Army ROTC

2121 Recreation & Athletic Complex
Phone: 703-993-2706
Fax: 703-993-2708
Web: arotc.gmu.edu

Administration

Lieutenant Colonel Travis Southwick, U.S. Army
Professor of Military Science

The Army Reserve Officers' Training Corps (ROTC) is an elective program offering qualified students the opportunity to earn a commission as an officer in the U.S. Army, Army National Guard, or U.S. Army Reserve while pursuing a baccalaureate or graduate degree as a full-time student. The program emphasizes student learning and participation in applied leadership, leadership theory, decision making, management skills, time management, ethics and military law, logistics, military roles and national objectives, strategic and tactical planning and principles, and basic military knowledge and skills. The George Mason Army ROTC Patriot Battalion began in 1982, achieved independent status in 2000, and frequently conducts training with colleges and universities throughout Maryland, Virginia, and the District of Columbia.

Enrollment

Enrollment in Military Science (MLSC) courses is open to all students at the Basic Course Level. Freshmen (MLSC 100 and 102), sophomore (MLSC 200 and 202), and junior (MLSC 300 and 302) classes are awarded 1 credit each. Senior classes (MLSC 400 and 404) earn 3 credits each. No military service obligation is incurred by enrolling in the freshman and sophomore level Army ROTC courses. Courses can be dropped or added, as with any elective course at Mason.

The four-year program is organized into two successive phases: the Basic Course and the Advanced Course. For students seeking the opportunity to earn a commission as an officer, several entry methods and participation strategies can be used. A minimum of four semesters must remain in the student’s academic curriculum to complete commissioning requirements; these semesters may be part of either an undergraduate or graduate degree. Course descriptions appear under Military Science (MLSC) in the Courses section of this catalog. Cadets must meet established academic standards. A student must maintain an overall GPA of at least 2.00 to earn commissioning credit for ROTC.

Contracted and scholarship cadets of any level are required to pass the Army Physical Fitness Test (APFT) once each semester. Physical fitness training is conducted three times each week (Monday/Wednesday/Friday from 6:30 to 8 a.m.). All students are encouraged to attend in order to develop a lifelong commitment to fitness and health.

Basic Course Curriculum

The Basic Course curriculum is a four-course series (MLSC 100, MLSC 102, MLSC 200, and MLSC 202), usually taken in the freshman and sophomore years. Each class awards 1 academic credit. The Basic Course trains students map reading, land navigation, first aid, physical fitness, leadership, ethics, and communication skills. Each lecture class meets once a week for 50 minutes for MLSC 100/102 and 75 minutes for MLSC 200/202. Textbooks are provided free of charge to all enrolled students. Uniforms and equipment are also issued to students at no cost, but students must return them when withdrawing from or
completing the program. In addition students not participating in summer training are required to store their uniforms and equipment with ROTC Supply over the summer break.

Mason’s Army ROTC program has numerous experiential aspects. The MLSC Leadership Laboratory section encompasses several different activities. Students enrolling in any ROTC lecture class must enroll in the required, nongraded lab section. Only the Professor of Military Science can waive Laboratory enrollment in certain circumstances, such as scheduling conflicts.

All Laboratory sections meet as a combined unit on Thursdays from 1:30 to 4:15 p.m. During this time, Cadets train in a variety of hands-on, practical leadership skills and military tasks, ranging from drills and ceremonies to squad and platoon tactics.

Army ROTC also organizes numerous optional events, including field training exercises (FTXs), rappelling, orienteering, formal social events and military related field trips. The unit has an organized color guard, drill team and an intercollegiate Ranger Challenge competition team. Students also have the opportunity to attend official Army training courses such as basic airborne training and the air assault course. Enrolled students typically become progressively more involved to enhance their training, develop esprit de corps, and take part in social aspects of the program.

**Advanced Course Curriculum**

The Advanced Course consists of a four-course series (MLSC 300, MLSC 302, MLSC 400, and MLSC 402) taken during the junior and senior years. MLSC 300 and 302 earn 1 credit each, while MLSC 400 and 402 earn 3 credits each. Enrollment in the ROTC advanced course requires that students enter into a contract to serve as a commissioned officer in the active or reserve component of the U.S. Army upon graduation. Many graduates elect to apply for service on active duty although ROTC also offers the opportunity of service in either the Army Reserve or Army National Guard.

The 300-level courses emphasize squad and platoon leadership, tactics, and preparation for the Leadership Development Assessment Course (LDAC). LDAC is a four-week training and evaluation event conducted during the summer at Fort Lewis, Washington. Successful completion is a prerequisite for commissioning. Cadets typically attend LDAC in the summer between their junior and senior years; however, they may attend after their senior year if necessary. Salary, travel expenses, and room and board are all provided during the course.

Satisfactory completion of an approved military history course is also required. The department of History and Art History offers a number of 300-level survey courses on the American military experience that satisfy this requirement. Permission of the Professor of Military Science is required prior to substituting any other course.

Upper division ROTC students are also expected to participate in peer mentoring as part of their leadership development. The ROTC peer mentorship program helps students assimilate into the program and helps students prioritize their time to ensure they remain in good academic standing.

The 400-level courses are considered to be the transition phase to becoming an officer in the U.S. Army. These courses focus on leadership, staff operations, logistics, military law, and ethics. Seniors are expected to organize and attend an additional one-hour staff and training meeting per week as part of their leadership experience and duties. Planning and implementation of training becomes the primary focus for seniors in required laboratories.

Enrollment in the advance course ROTC classes requires that certain prerequisites be met. For more information, see the Courses section of this catalog.

**Earning a Commission**

There are several methods by which students may enter Army ROTC to earn a commission as a second lieutenant on graduation:

- Traditional students may complete the four-year program.
- Sophomores may dual-enroll in both years of MLSC freshman and sophomore level instruction to satisfy the lower-level division requirement in a single academic year.
Veterans with prior college credits may enter directly into the upper-division sequence (if academically aligned as a junior).

Sophomores may apply to attend a four-week Leader's Train Course (LTC) between the sophomore and junior years to gain experience equivalent to the basic course.

Education delays for graduate study also may be approved for Cadets seeking training as physicians, lawyers or ministers based on needs of the Army. Non-U.S. citizens may participate freely in the lower-division ROTC courses, but must earn U.S. citizenship prior to enrollment in courses requiring a contractual obligation to serve as a commissioned officer.

Scholarship Programs

Two-, three-, and four-year ROTC scholarships are available to freshmen, sophomores, and juniors in all majors on a competitive basis as well as to graduating seniors who wish to pursue a two-year master's degree. Students must have a minimum cumulative GPA of 2.50 to apply and be under age 31 when commissioned. Scholarships pay 100 percent of tuition, an annual book allowance of $1,200, and a stipend of at least $300 per month during the school year, all tax free.

A two-year Guaranteed Reserve Forces Duty scholarship is available that guarantees reserve duty upon graduation and commissioning. Students should contact the Professor of Military Science to determine eligibility.

High school students interested in four-year scholarships should apply by December 15 of their senior year for a scholarship that would start in the fall semester of their freshman year at Mason. Contact the Professor of Military Science for details.

Many students participate in ROTC as nonscholarship cadets. A nonscholarship cadet cannot enter into a contract to receive a commission until the sophomore year (to include completing MSLC 100 & 102 or equivalent credit.) For the sophomore, junior, and senior years, nonscholarship contracted students receive a monthly stipend.

Air Force ROTC

AFROTC Detachment 330
2125 Cole Student Activities Building
University of Maryland
College Park, MD 20742-1021
Phone: 301-314-3242

Enrollment

The Air Force Reserve Officers' Training Corps (AFROTC) provides two programs for college men and women to earn a commission as a second lieutenant in the U.S. Air Force while completing their university degree requirements. To enter the AFROTC program, students should contact 301-314-3242 or go to www.afrotc.umd.edu. Mason students register for the appropriate courses through the Consortium Office located in SUB I, Room 2101. Attendance at courses, located at the University of Maryland, is mandatory. Car pools among Mason cadets are usually available.

Four-Year Program

This program is comprised of a General Military Course (GMC) and a Professional Officer Course (POC). The first two years (GMC), normally for freshmen and sophomores, give a general introduction to the Air Force and its various career fields. Students enrolled in the GMC program incur no obligation and may elect to discontinue the program at any time. The final two years, the POC concentrate on the development of leadership skills and the study of U.S. defense policy. Students must compete for acceptance into the POC. Students enrolled in the last two years of the program regardless of scholarship status will receive a monthly stipend. Juniors receive $450 a month and seniors receive $500 a month.
Three-Year Program

This program is normally offered to prospective sophomores but may be taken by seniors and graduate students. The academic requirements for this program are identical to the four-year program, and students receive the same benefits in their POC years. Student will take both the freshmen and sophomore class to make up the missed first year. Students must start the fall semester of their sophomore year to be eligible for the three-year program. Graduate students should contact the detachment 301-314-3242 for graduate student entrance requirements.

Scholarships

Scholarships are available in many fields and are based on merit. Those selected receive tuition, lab expenses, incidental fees, and a book allowance, plus a nontaxable monthly allowance. For the most up to date information about scholarships available contact the detachment or visit afrotc.com/scholarships/.

AFROTC Awards

AFROTC cadets are eligible for numerous local, regional, and national awards. Many of these awards include monetary assistance for school.

Resources and Services

Resources and services of the George Mason University Libraries are housed on the Fairfax Campus at the Charles Rogers Fenwick Library and the George W. Johnson Center Library; on the Arlington Campus at the Arlington Campus Library; and on the Prince William Campus at the Mercer Library. The School of Law Library, on the Arlington Campus, is administered separately. Combined holdings, including the law library, total more than 1.3 million print books and bound journal volumes; 11,000 current print serial subscriptions; 3.3 million microform units; 344,000 print government documents; 214,000 maps; 50,000 multimedia materials; 700 electronic databases; 88,000 electronic journals and proceedings; 1,029,901 electronic books; and significant holdings of manuscripts, special collections, and archives.

Mason’s integrated library information system provides an online public-access catalog, circulation, electronic reserves, and library-processing services. The information system can be used in any of the libraries from campus locations on the network or via the web. The web site library.gmu.edu offers access to a variety of networked digital resources and electronically mediated services, including a virtual reference service.

Liaison librarians work with faculty and students in specific academic programs and departments to promote new resources such as research portals; consult with faculty about acquiring specific scholarly resources; assist graduate students with thesis or dissertation research; and conduct informational and training sessions for all levels of library users—students, faculty and staff. These may include library orientations; course-related, subject-specific instruction; research consultations with individual students or faculty; and methodology instruction related to information discovery and use, research analysis, and data manipulation through specialized software. Current affiliations include the following:
The Virtual Library of Virginia (VIVA) Program, a Virginia funded electronic and resource-sharing program for public higher-education institutions
- Washington Research Library Consortium (WRLC), whose membership includes American, Catholic, Georgetown, George Washington and Howard universities, provide resource sharing services;
- Association of Southeastern Research Libraries, which includes the 36 largest university libraries in a 10-state region
- Center for Research Libraries, a Chicago-based research library for research libraries whose multimillion volume holdings comprise specialized and uniquely held materials in North America and
- The international Online Computer Library Center, whose extensive computerized system and network facilitate national and international library resource-sharing activities.

An intercampus delivery service is available for students and faculty requesting materials held at any Mason campus library. Materials not held by Mason can be obtained by direct borrowing from WRLC institution libraries via the Consortium Loan Service, interlibrary loan, or commercial delivery services when required.

Expanded academic support services also include the following:

**Data Services**

Web: dataservices.gmu.edu

An integrated service supporting faculty and students engaged in data-centric research (e.g., social science data sets, polling, census, geospatial data, data archives). This includes consultation services, training and assistance with finding and using data, conducting data collection and analysis, utilizing statistical and qualitative software packages, and Geographic Information Systems (GIS). Other help offered includes advice on creating funder-mandated data management plans, research data repository services and access to government information and maps.

**iMasonLibraries Service**

Web: library.gmu.edu/ask

This service provides a virtual, real-time, reference service using instant messaging software, which allows staff to provide reference service to students, faculty and staff remotely.

**Mason Archival Repository Service**

Phone: 703-993-3742
Web: mars.gmu.edu

The Mason Archival Repository Service (MARS) provides a stable digital archive for scholarly and research materials of lasting value held notably by Special Collections and Archives or produced by Mason faculty, students, and staff. MARS is managed by Digital Programs and Systems. The MARS librarian offers expert advice on archiving these materials, file formats, copyright issues, long-term management of archived materials, and issues pertaining to scholarly communication.

**University Records Management**

Phone: 703-993-2201

A part of the Special Collections and Archives, this service assists university academic and administrative departments with the retention and disposition of temporary records, regardless of format and in accordance with Virginia state laws, policies, and guidelines. University Records Management offers a variety of online guidance, as well as in-person workshops, instruction sessions, and records evaluations to assist faculty and staff. University Records Management maintains an on-site records center where inactive paper records may be stored and university records are properly disposed.
University Copyright Resources Office

Johnson Center, Rooms 227 EB
Phone: 703-993-2544 or 2427
Fax: 703-993-9063
Web: copyright.gmu.edu

This office provides guidance, assistance, and education on copyright, open access, and scholarly communications issues. More specifically, assistance with the application of fair use of proprietary content used in classroom teaching, electronic course reserves, distance education, and student assignments; open access and university publishing and support; and promoting faculty scholarship and collaborations. Workshops and class instruction on these topics and other are available year-round, upon request.

University Dissertation and Thesis Services

Phone: 703-993-2222
Web: thesis.gmu.edu

The University Dissertation and Thesis Service (UDTS) assists students and academic units in the dissertation, thesis, and graduate-level project process by helping students meet all university requirements and deadlines for submission of work. The UDTS web site provides useful tools such as the university’s Thesis, Dissertation, or Project Guide, containing downloadable templates of necessary elements, forms required for the submission process, and links to related web sites. UDTS also assists graduate students through individual consultation and informational workshops.

Fenwick Library

Phone: 703-993-2240

Fenwick is the main library in the university’s library system. It holds the majority of research book collections across all disciplines, as well as current and bound journals, microforms, special collections and archives, federal and Virginia government documents, and maps, as well as individual and group study spaces. Fenwick staff provide services and programs including data and GIS services; dissertation & thesis services; subject area librarians; research services; research workshops & class instruction; individual & group research appointments; research portals and web guides; document delivery services; Mason’s institutional repository and on- & off-campus access to research databases, e-journals, e-books and other scholarly materials. Assistive technologies are available onsite for individuals with disabilities.

Johnson Center Library

Phone: 703-993-9060

This library is part of the George W. Johnson Center integrated learning environment and provides large open study areas and schedulable group study rooms that offer an invigorating alternative study environment. Access to all electronic scholarly information held by the University Libraries is available, in addition to media collections and a circulating book collection that supports the university’s undergraduate curriculum. This library also provides professional reference services, along with instructional services that are designed to improve and enhance undergraduate information fluency. The Johnson Center Library is the center for media collections and services for the university library system, and provides course support through reserve materials (electronic, print, and media) for students and faculty on the Fairfax Campus, as well as management of the electronic reserves service for the entire library system. Assistive technologies available onsite include screen-reading software, text-enlargement software, and special hardware for individuals with disabilities.

Arlington Campus Library
This library is a full-service research facility supporting the teaching and research needs of Mason faculty, students, and staff on the Arlington Campus. Consistent with this campus’ distinct areas of academic specialization at the graduate level, the library’s collection emphasizes public policy, international commerce, economics, management of nonprofit organizations, conflict resolution, and arts management. The library holds a core collection of reference materials and is a depository of European Union documents. Intercampus delivery of circulating materials from other library sites is available. Library staff can provide reference assistance and instruction for students, faculty, and staff in identifying and using resources. Physical library holdings continue to grow, while the library emphasizes providing many of its resources and services online. This library supports a wireless network. Assistive technologies are available for people with disabilities.

**Mercer Library (Prince William Campus)**

Phone: 703-993-8340

This library supports faculty and students in the programs and courses offered on the Prince William Campus, including applied information technology; biotechnology, bioinformatics, and biodefense; criminology; education; environmental sciences and policy; Governor's School @ Innovation Park; health, fitness and recreation resources; molecular and microbiology; tourism; and visual and performing arts. This library also supports faculty and students in the Smithsonian Mason School of Conservation on the Front Royal Campus.

The library provides access to university-wide electronic resources, with an emphasis on instruction and assistance with information resources and research. Notable holdings include scientific journals in bioscience, biomedicine, criminology and tourism. The library fosters partnerships to provide information services to the rapidly expanding corporate and technology presence in Prince William County. This library has a wireless network, as well as assistive technologies for people with disabilities.

**School of Law Library (Hazel Hall, Arlington Campus)**

Phone: 703-993-8120 (circulation desk)

**Administration**

Deborah M. Keene, Associate Dean, Library and Technology

The law library supports the School of Law and has a collection of over 476,000 print and microfiche volumes with an emphasis on law and economics, intellectual property, corporate and securities law, regulatory law, and Virginia law. The library also provides access to electronic law resources including LexisNexis, Westlaw, HeinOnline, Index to Legal Periodicals, Bloomberg Law and BNA Premier and is a selective depository for U.S. Government documents. The law library is open to all members of the university community. Most of the collection does not circulate, but many of the books in the treatise collection are available for checkout by all faculty, students, and staff. The law library provides free access to many of its databases on computer workstations located on the first and second floors. The university operates a full-service copy center inside the library which is located on the entrance level.
University Scholars Program

The University Scholars are selected from among the most outstanding students invited to the Honors College. This award is the highest academic distinction that Mason offers to undergraduate students and is given annually to top high school seniors admitted to the university. Each year the University Scholars Program enrolls approximately 25 new first-year students. Students receiving this award have demonstrated superior academic achievement, outstanding leadership, and an exemplary school and community service record. Applications must be submitted by December 1 to receive priority consideration for the scholarship.

The University Scholars reside in a common residence hall their first year and share the Dr. Noreen McGuire Prettyman University Scholars Lounge. Students enrolled in the University Scholars Program participate in a dynamic learning community that provides opportunities for intellectual, cultural, and social engagements.

The program draws to Mason a special caliber of student, one who is actively involved in all facets of academic and student life. In addition to excelling in their respective academic areas, the Scholars have historically emerged in a variety of student leadership positions and service-related activities.

Intellectual dialogue is fostered among scholars, professors, and administrators through stimulating seminars, discussion groups, cultural activities, service projects, internships, campus events, and participation in organizations that complement the Scholars’ academic experiences. The peer interaction, faculty guidance, student development programming, and the academic focus of the University Scholars community reflect the university’s commitment to providing an educationally stimulating and supportive environment that encourages academic excellence, professional development, and personal growth.
Office of Research and Economic Development

Return to: General Policies

141 Research Hall
Phone: 703-993-2268
Fax: 703-993-5027
Email: research@gmu.edu
Web: research.gmu.edu

The Office of Research and Economic Development has overall responsibility for the university’s research enterprise. Working in an atmosphere characterized by its commitment to cultivating innovation and generation of new knowledge for the benefit of our global society, Mason’s scholars conduct research in an array of disciplines and subjects. The Office works to foster the continuation of these endeavors and to promote an environment that sustains the highest standards of scholarship, health, and safety.

The Office establishes, under the advisement of the Research Council, and administers the policies governing the conduct of research at the university. It also oversees the management of Mason's research programs, assists investigators seeking external funding, and promotes interdisciplinary research. Additional information about Research Administration, the units managed by the Office, and the resources and policies supporting students and scholars conducting research throughout the university, go to research.gmu.edu.

Oak Ridge Associated Universities

MC100-44
P.O. Box 117
Oak Ridge, TN 37831-0117

Fax: 865-241-2923
Email: communications@orau.org
Web: www.orau.org

Administration

Matt Zingraff, Interim Vice President for Research and Economic Development; ORAU Councilor for George Mason University
Monnie E. Champion, ORAU Corporate Secretary

Since 1993, the students and faculty of George Mason University have benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 98 colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with member institutions to help their students and faculty gain access to federal research facilities throughout the country; keep its members informed about opportunities for fellowship, scholarship, and research appointments; and organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility operated by ORAU, undergraduates, graduates, postgraduates, and faculty members enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines, including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the number of underrepresented minority students pursing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the ORISE Catalog of Education and Training Programs, which is available at http://www.orau.gov/orise/educ.htm, or by calling either of the contacts below.
ORAU’s Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU’s members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research, and support programs, as well as services to chief research officers.
Students as Scholars

Return to: General Information

Office of Student Scholarship, Creative Activities, & Research (OSCAR)
246 Johnson Center
Phone: 703-993-3794
Email: oscar@gmu.edu
Web: oscar.gmu.edu

Administration

Bethany Usher, Director

The Students as Scholars initiative, through the Office of Student Scholarship, Creative Activities, and Research, connects undergraduate students to faculty through the research and creative mission of Mason. We foster a culture of student scholarship by increasing participation in, and celebration of, undergraduate research and creative activities.

OSCAR offers several programs that make scholarship central to the undergraduate experience at Mason, by:

• Linking undergraduates with faculty mentors
• Funding undergraduate research and creative projects through the Undergraduate Research Scholars Program
• Providing funding for travel to conferences through the Undergraduate Student Travel Fund
• Supporting Research and Scholarship Intensive Courses
• Coordinating curriculum redesign through Scholarship Development Grants
• Hosting the annual Celebration of Student Scholarship
Research and Scholarship Intensive Courses

These courses are designed to give students an authentic research or creative experience. In RS courses, students and faculty have a unique opportunity to partner as they merge teaching with the creation of new knowledge. By participating in one of these classes, students are actively involved in a project that is the central focus of the class. Students help define the project, take responsibility for carrying it out, and present the results to a broader audience. These classes are identified on student transcripts with an RS designation. Currently offered RS courses can be found at http://oscar.gmu.edu/students/Students-as-Scholars-Classes.cfm.

The following courses have been designated Research and Scholarship intensive (RS)

- ARTH 472 - Advanced Studies in 20th-Century Latin American Art
- ARTH 460 - Advanced Studies in 20th-Century European Art
- ARTH 495 - Objects and Archives in Art History
- ASTR 402 - Methods of Observational Astronomy
- BIS 490 - Senior Project
- CRIM 491 - Honors Seminar I
- CRIM 495 - Capstone in Criminology, Law and Society
- EVPP 378 - Ecological Sustainability
- GAME 332 - Story Design for Computer Games
- HIST 499 - Senior Seminar in History
- RHBS 490 - Clinical Research Internship
- SOCW 417 - Integrative Methods in Social Action and Social Change
- UNIV 491 - Students as Scholars Individualized Scholarly Experience
- UNIV 495 - Undergraduate Research Scholars Program Seminar
- UNIV 496 - Undergraduate Research Scholars Program Continuation
Bachelor's/Accelerated Master's Programs

Highly-qualified undergraduates have the opportunity to apply to accelerated master’s degree programs in selected Mason programs of study, listed below by both the applicable bachelor's or master's degrees. Students accepted into an accelerated master’s degree program obtain both a bachelor’s and a master’s degree after satisfactory completion of 144 - 150 credits (number of required credits depends on the degree program).

Programs by Master's Degree

- Accounting, Accelerated MS/Accounting, BS
- Anthropology, Accelerated MA/Anthropology, BA
- Applied and Engineering Physics, Accelerated MS/Physics, BS
- Applied Information Technology, Accelerated MS/Individualized Study, BIS
- Applied Information Technology, Accelerated MS/Applied Information Technology, BS
- Arts Management, Accelerated MA/Theater, BA
- Biology, Accelerated MS/Biology, BS
- Chemistry, Accelerated MS/Chemistry, BS
- Civil and Infrastructure Engineering, Accelerated MS/Civil and Infrastructure Engineering, BS
- Computer Engineering, Accelerated MS/Computer Engineering, BS
- Computer Forensics, Accelerated MS/Applied Information Technology, BS
- Computer Science, Accelerated MS/Computer Science, BS
- Conflict Analysis and Resolution, Accelerated MS/Conflict Analysis and Resolution, BA or BS
- Curriculum and Instruction, Accelerated MEd (Secondary Education Biology Concentration)/Biology, BA or BS
- Curriculum and Instruction, Accelerated MEd (Secondary Education Chemistry Concentration)/Chemistry, BA or BS
- Curriculum and Instruction, Accelerated MEd (Secondary Education Earth Science Concentration)/Earth Science, BS
- Curriculum and Instruction, Accelerated MEd (Elementary Education Concentration)/Integrative Studies, BA (Elementary Education Concentration)
- Curriculum and Instruction, Accelerated MEd (Secondary Education English Concentration)/English, BA
- Curriculum and Instruction, Accelerated MEd (Sec Ed History and Soc Sci Concentration)/Integrative Studies, BA (Soci Sci for Education Concentration)
- Curriculum and Instruction, Accelerated MEd (Secondary Education Mathematics Concentration)/Mathematics, BA or BS
- Curriculum and Instruction, Accelerated MEd (Secondary Education Physics Concentration)/Physics, BS
- Economics, Accelerated MA/Economics, BA or BS
- Educational Psychology, Accelerated MS (Assessment, Evaluation, and Testing Concentration)/Psychology, BA or BS
- Educational Psychology, Accelerated MS (Learning, Cognition, and Motivation Concentration)/Psychology, BA or BS
- Electrical Engineering, Accelerated MS/Electrical Engineering, BS
- English, Accelerated MA (Linguistics Concentration)/any Bachelor's Degree
- Global Affairs, Accelerated MA/any Bachelor's Degree
- History, Accelerated MA/History, BA
- Information Security and Assurance, Accelerated MS/Applied Information Technology, BS
- Information Security and Assurance, Accelerated MS/Computer Science, BS
- Information Systems, Accelerated MS/Applied Information Technology, BS
- Information Systems, Accelerated MS/Computer Science, BS
- Interdisciplinary Studies, Accelerated MAIS (Energy and Sustainability Concentration)/any Bachelor's degree
- Interdisciplinary Studies, Accelerated MAIS (Folklore Studies)/any Bachelor's Degree
• Interdisciplinary Studies, Accelerated MAIS (Religion, Culture, and Values Concentration)/Bachelor's Degree (selected)
• Interdisciplinary Studies, Accelerated MAIS (Women and Gender Studies)/Bachelor's Degree (selected)
• Mathematics, Accelerated MS/Mathematics, BS
• Middle East and Islamic Studies, Accelerated MA/Bachelor's Degree (selected)
• Operations Research, Accelerated MS/selected BS degree
• Philosophy, Accelerated MA/Philosophy, BA
• Political Science, Accelerated MA/Government and International Politics, BA
• Political Science, Accelerated MA/Public Administration, BS
• Psychology, Accelerated MA (Cognitive and Behavioral Neuroscience Concentration)/Psychology, BA or BS
• Public Administration, Accelerated MPA/Government and International Politics, BA
• Public Administration, Accelerated MPA/Public Administration, BS
• Sociology, Accelerated MA/Sociology, BA
• Software Engineering, Accelerated MS/Computer Science, BS
• Software Engineering, Accelerated MS/Applied Information Technology, BS
• Special Education, Accelerated MEd/Bachelor's Degree (any)
• Statistical Science, Accelerated MS/selected BS degree
• Systems Engineering, Accelerated MS/selected BS degree
• Telecommunications, Accelerated MS/Electrical Engineering, BS
• Telecommunications, Accelerated MS/Individualized Study, BIS
• Telecommunications, Accelerated MS/Applied Information Technology, BS
• Telecommunications, Accelerated MS/Systems Engineering, BS

University General Education

Janette Kenner Muir, Associate Provost for Undergraduate Education
Office of the Provost
Phone: 703-993-8722
Web: provost.gmu.edu/gened/

All undergraduates seeking a baccalaureate degree must complete the University General Education Program requirements. Additional requirements for specific degree programs can be found in the college or school sections of this catalog. At Mason, we have created several distinctive ways to develop your liberal education: the University General Education Program, detailed in the following pages; New Century College's Mason Cornerstones program; and, for a small group of outstanding students, the Honors College.

General Education at Mason

General Education at George Mason University is designed to complement work in a student’s chosen area of study. These classes serve as a means of discovery for students, providing a foundation for learning, connecting to potential new areas of interest and building tools for success in whatever field a student pursues. Learning outcomes are guided by the qualities every student should develop as they move toward graduating with a George Mason degree. Through a combination of courses, the general education program helps students to become:

Critical and Creative Scholars

Students who have a love of and capacity for learning. Their understanding of fundamental principles in a variety of disciplines, and their mastery of quantitative and communication tools, enables them to think creatively and productively. They are inquisitive, open-minded, capable, informed, and able to integrate diverse bodies of knowledge and perspectives.

Self-Reflective Learners

Students who develop the capacity to think well. They can identify and articulate individual beliefs, strengths and weaknesses, critically reflect on these beliefs and integrate this understanding into their daily living.

Ethical, Inquiry-Based Citizens

Students who are tolerant and understanding. They can conceptualize and communicate about problems of local, national and global significance, using research and evaluative perspectives to contribute to the common good.

Thinkers and Problem-Solvers

Students who are able to discover and understand natural, physical, and social phenomena; who can articulate their application to real world challenges; and who approach problem-solving from various vantage points. They can demonstrate capability for inquiry, reason, and imagination and see connections in historical, literary and artistic fields.

University General Education Requirements

University General Education is divided into three sections: foundation, core and synthesis. Each section contains courses that have specific learning outcomes for students and are assessed on a regular basis.
Foundation Requirements (15-19 credits)

- Written Communication (6 credits)
- Oral Communication (3 credits)
- Quantitative Reasoning (3 credits)
- Information Technology (3-7 credits)

Core Requirements (22 credits)

- Literature (3 credits)
- Arts (3 credits)
- Natural Science (7 credits)
- Western Civilization/World History (3 credits)
- Global Understanding (3 credits)
- Social and Behavioral Sciences (3 credits)

Synthesis Requirement (varies; minimum 3 credits)

Total: 40 credits

Writing-Intensive Course Requirement

As part of the university’s commitment to student writers in all undergraduate programs, at least one upper-division course in each major has been designated as fulfilling the “writing intensive” (WI) requirement. While other courses in the major may require written projects, teachers of the designated WI courses will devote class time to instruction on how to complete assignments successfully, assign and grade a minimum of 3500 words, provide constructive feedback on drafts, and allow revision of at least one graded assignment. See the description of each major for the specific course or courses that fulfill the WI requirement.
University General Education: Foundation Requirements

Foundation Requirements (15-19 credits)

Foundation requirements help ensure that students master the tools and techniques necessary to succeed in college and throughout their lives and careers. These courses emphasize skills—in writing, speaking, and working with numbers and technology—that can be applied to any major field of study and career goal.

- Written Communication (6 credits)
- Oral Communication (3 credits)
- Quantitative Reasoning (3 credits)
- Information Technology (minimum 3 credits)

Note: The course list reflects approved courses as of press time. For the most current list, go to provost.gmu.edu/gened/approved-course-listing/

Written Communication (6 credits: 3 lower, 3 upper)

Learning Outcomes:

Students develop the ability to use written communication as a means of discovering and expressing ideas and meanings: in short, employing writing as a way of thinking. Students begin this process at the fundamental level in English 101 (100 for ESL students) and build higher-level skills in English 302. Writing will be emphasized in many courses throughout a student’s career, and at least one course in every student’s major is designated “writing intensive.”

Required: The following courses as well as an approved writing-intensive course in the major.

- ENGH 100 - Composition for Non-native Speakers of English Credits: 4 or ENGH 101 - Composition Credits: 3
- ENGH 302 - Advanced Composition Credits: 3

Oral Communication (3 credits)

Learning Outcomes:

1. Students will demonstrate understanding of and proficiency in constructing and delivering multiple message types.
2. Students will understand and practice effective elements of ethical verbal and nonverbal communication.
3. Students will develop analytical skills and critical listening skills.
4. Students will understand the influence of culture in communication and will know how to cope with cultural differences when presenting information to an audience. Students develop the ability to use oral communication as a way of thinking and learning, as well as sharing ideas.

Required: One approved course. Students will be expected to continue developing oral communication skills in additional general education courses as appropriate.

- COMM 100 - Public Speaking Credits: 3 or COMM 101 - Interpersonal and Group Interaction Credits: 3
Quantitative Reasoning (3 credits)

Learning Outcomes:

1. Students are able to interpret quantitative information (i.e., formulas, graphs, tables, models, and schematics) and draw inferences from them.
2. Given a quantitative problem, students are able to formulate the problem quantitatively and use appropriate arithmetical, algebraic, and/or statistical methods to solve the problem.
3. Students are able to evaluate logical arguments using quantitative reasoning.
4. Students are able to communicate and present quantitative results effectively.

Required: One approved course.

- MATH 106 - Quantitative Reasoning Credits: 3
- MATH 108 - Introductory Calculus with Business Applications Credits: 3
- MATH 110 - Introductory Probability Credits: 3
- MATH 111 - Linear Mathematical Modeling Credits: 3
- MATH 113 - Analytic Geometry and Calculus I Credits: 4
- MATH 115 - Analytic Geometry and Calculus I (Honors) Credits: 4
- MATH 125 - Discrete Mathematics I Credits: 3
- STAT 250 - Introductory Statistics I Credits: 3

Information Technology (minimum 3 credits)

Learning Outcomes:

Almost no area of academic, professional, or personal life is untouched by the information technology revolution. Success in college and beyond requires computer and information literacies that are flexible enough to change with a changing IT environment and adaptable to new problems and tasks.

The purpose of the information technology requirement is to ensure that students achieve an essential understanding of information technology infrastructure encompassing systems and devices; learn to make the most of the Web and other network resources; protect their digital data and devices; take advantage of latest technologies; and become more sophisticated technology users and consumers.

Courses meeting the “IT only” requirement must address learning outcomes 1 and 2, and one additional outcome. Courses meeting “IT with Ethics component” must address outcomes 1, 2, 3, and 5. Courses meeting the only IT Ethics component must address outcomes 3 and 5.

Required: One approved 3-credit course that meets all IT requirements, or completion of an appropriate combination of courses, proficiency exams, and modules.

Courses meeting all IT requirements:
• ANTH 395 - Work, Technology, and Society: An IT Perspective Credits: 3
• CDS 130 - Computing for Scientists Credits: 3
• CEIE 117 - Information Technology for Engineering Credits: 3
• CHEM 350 - Computer Techniques for Chemistry Credits: 3
• GOVT 300 - Research Methods and Analysis Credits: 4
• HIST 390 - The Digital Past Credits: 3
• IT 103 - Introduction to Computing Credits: 3
• MUSI 415 - Music in Computer Technology Credits: 3

Courses meeting all requirements except ethics:

• AVT 180 - New Media in the Creative Arts Credits: 3
• CS 112 - Introduction to Computer Programming Credits: 4
• PHYS 251 - Introduction to Computer Techniques in Physics Credits: 3
• SOCI 410 - Social Surveys and Attitude and Opinion Measurements Credits: 3
  The following must be taken in sequence:

• PSYC 300 - Statistics in Psychology Credits: 4
• PSYC 301 - Research Methods in Psychology Credits: 3
• PSYC 372 - Physiological Psychology Credits: 3

Courses meeting only ethics requirements:

• CDS 151 - Data Ethics in an Information Society Credits: 1
• CEIE 409 - Professional Practice and Management in Engineering Credits: 1
• CS 105 - Computer Ethics and Society Credits: 1
• ENGR 107 - Introduction to Engineering Credits: 2
• IT 304 - IT in the Global Economy Credits: 3
• PHIL 112 - Ethics and the Cybersociety Credits: 1

Total: 15-19 credits
University General Education: Core Requirements

Core Requirements (22 credits)

Core requirements help ensure that students become acquainted with the broad range of intellectual domains that contribute to a liberal education. By experiencing subject matter and ways of knowing in a variety of fields, students will be better able to synthesize new knowledge, respond to fresh challenges, and meet the demands of a complex world.

- Literature (3 credits)
- Arts (3 credits)
- Natural Science (7 credits)
- Western Civilization/World History (3 credits)
- Global Understanding (3 credits)
- Social and Behavioral Science (3 credits)

Note: The course list reflects approved courses as of press time. For the most current list, go to provost.gmu.edu/gened/approved-course-listing/

Literature (3 credits)

Learning Outcomes:

1. Students will be able to read for comprehension, detail, and nuance.
2. Identify the specific literary qualities of language as employed in the texts they read.
3. Analyze the ways specific literary devices contribute to the meaning of a text.
4. Identify and evaluate the contribution of the social, political, historical, and cultural contexts in which a literary text is produced.
5. Evaluate a critical argument in others’ writing as well as one’s own.

Required: One approved course.

- ARAB 325 - Major Arab Writers/Stories Credits: 3
- CHIN 310 - Survey of Chinese Literature Credits: 3
- CHIN 311 - Modern Chinese Literature in Translation Credits: 3
- CHIN 325 - Major Chinese Writers Credits: 3
- CHIN 328 - Asian American Women Writers Credits: 3
- CLAS 250 - Classical Mythology Credits: 3
- CLAS 260 - The Legacy of Greece and Rome Credits: 3
- CLAS 340 - Greek and Roman Epic Credits: 3
- CLAS 350 - Greek and Roman Tragedy Credits: 3
- CLAS 360 - Greek and Roman Comedy Credits: 3
- CLAS 380 - Greek and Roman Novels Credits: 3
- ENGH 201 - Reading and Writing about Texts Credits: 3
- ENGH 202 - Texts and Contexts Credits: 3
- ENGH 203 - Western Literary Tradition Credits: 3
- ENGH 204 - Western Literary Traditions Credits: 3
- FREN 325 - Major French Writers Credits: 3
- FREN 329 - Problems of Western Civilization in French Literature Credits: 3
- FRLN 330 - Topics in World Literature Credits: 3
- GERM 325 - Major Writers Credits: 3
- ITAL 320 - Topics in Italian Film and Literature Credits: 3
- ITAL 325 - Major Italian Writers Credits: 3
- JAPA 340 - Topics in Japanese Literature Credits: 3
- PHIL 253 - Philosophy and Literature Credits: 3
- RELI 235 - Religion and Literature Credits: 3
- RUSS 325 - Major Russian Writers Credits: 3
- RUSS 326 - A Survey of Russian Literature Credits: 3
- RUSS 327 - A Survey of Russian Literature Credits: 3
- SPAN 325 - Major Hispanic Writers Credits: 3

**Arts (3 credits)**

Mason courses in the film making, visual and performing arts stress generative, inquiry based learning through direct aesthetic and creative experience in the studio environment. Art history courses address the intrinsic relationship of personal and cultural creativity, and the manifestation of aesthetics, visual culture and visual narrative within historical contexts.

**Learning Outcomes:**

Students who successfully complete a course in the Arts category must meet the first learning outcome and a minimum of two of the remaining four learning outcomes:

1. Demonstrate an understanding of the relationship between artistic process, and a work’s underlying concept, and where appropriate, contexts associated with the work.
2. Identify and analyze the formal elements of a particular art form using vocabulary and critique appropriate to that form.
3. Analyze cultural productions using standards appropriate to the form, as well as the work’s cultural significance and context.
4. Analyze and interpret the content of material or performance culture through its social, historical, and personal contexts.
5. Engage in generative artistic processes, including conception, creation, and ongoing critical analysis.

**Required:** One approved course.

- ARTH 101 - Introduction to the Visual Arts Credits: 3
- ARTH 102 - Symbols and Stories in Art Credits: 3
- ARTH 103 - Introduction to Architecture Credits: 3
- ARTH 200 - Survey of Western Art Credits: 3
- ARTH 201 - Survey of Western Art Credits: 3
- ARTH 203 - Survey of Asian Art Credits: 3
- ARTH 204 - Survey of Latin American Art Credits: 3
- ARTH 321 - Greek Art and Archaeology Credits: 3
- ARTH 322 - Roman Art and Archaeology Credits: 3
- ARTH 324 - From Alexander the Great to Cleopatra: The Hellenistic World Credits: 3
- ARTH 333 - Early Christian and Byzantine Art Credits: 3
- ARTH 334 - Western Medieval Art Credits: 3
- ARTH 335 - Arts of Medieval England Credits: 3
- ARTH 340 - Early Renaissance Art in Italy, 1300-1500 Credits: 3
- ARTH 341 - Northern Renaissance Art Credits: 3
- ARTH 342 - High Renaissance Art in Italy, 1480–1570 Credits: 3
ARTH 344 - Baroque Art in Italy, France, and Spain, 1600–1750 Credits: 3
ARTH 345 - Northern Baroque Art, 1600-1750 Credits: 3
ARTH 360 - Nineteenth-Century European Art Credits: 3
ARTH 362 - Twentieth-Century European Art Credits: 3
ARTH 372 - Studies in 18th- and 19th-Century Art of the United States Credits: 3
ARTH 373 - Studies in 20th-Century Art of the United States Credits: 3
ARTH 376 - Twentieth-Century Latin American Art Credits: 3
AVT 103 - Introduction to the Artist's Studio Credits: 3
AVT 104 - Studio Fundamentals I Credits: 4
AVT 215 - Typography Credits: 4
AVT 222 - Drawing I Credits: 4
AVT 232 - Painting I Credits: 4
AVT 243 - Printmaking I Credits: 4
AVT 252 - Fundamentals of Photography Credits: 4
AVT 253 - Introduction to Digital Photography Credits: 4
AVT 262 - Sculpture I Credits: 4
AVT 272 - Interdisciplinary Arts Credits: 4
DANC 101 - Dance Appreciation Credits: 3
DANC 119 - Dance in Popular Culture: Afro-Latino Dance Credits: 3
DANC 125 - Beginning Modern Dance Credits: 3
DANC 131 - Beginning Jazz Technique Credits: 3
DANC 145 - Beginning Ballet Credits: 3
DANC 161 - Beginning Tap Dance Credits: 3
DANC 225 - Beginning Intermediate Modern Dance Credits: 3
DANC 231 - Intermediate Jazz Technique Credits: 3
DANC 245 - Beginning Intermediate Ballet Credits: 3
DANC 301 - What is Dance? Credits: 3
DANC 390 - Dance History I Credits: 3
DANC 391 - Dance History II Credits: 3
ENGH 370 - Introduction to Documentary Credits: 3
ENGH 372 - Introduction to Film Credits: 3
ENGH 396 - Introduction to Creative Writing Credits: 3
FAVS 225 - The History of World Cinema Credits: 3
GAME 101 - Introduction to Game Design Credits: 3
MUSI 100 - Fundamentals of Music Credits: 3
MUSI 101 - Introduction to Classical Music Credits: 3
MUSI 102 - Popular Music in America Credits: 3
MUSI 107 - The Development of Jazz Credits: 3
MUSI 301 - Music in Motion Pictures Credits: 3
MUSI 302 - American Musical Theater Credits: 3
MUSI 380 - Wind Symphony Credits: 1
MUSI 381 - University Chorale Credits: 1
MUSI 382 - Piano Ensemble Credits: 1
MUSI 383 - Symphonic Band Credits: 1
MUSI 384 - Symphonic Chorus Credits: 1
MUSI 385 - Chamber Singers Credits: 1
MUSI 387 - Symphony Orchestra Credits: 1
Natural Science (7 credits total)

The general education natural sciences courses engage students in scientific exploration; foster their curiosity; enhance their enthusiasm for science; and enable them to apply scientific knowledge and reasoning to personal, professional and public decision-making. Lab courses must meet all five learning outcomes. Non-lab courses must meet learning outcomes 1 through 4.

Learning Outcomes:

1. Understand how scientific inquiry is based on investigation of evidence from the natural world, and that scientific knowledge and understanding: a) evolves based on new evidence, and b) differs from personal and cultural beliefs.
2. Recognize the scope and limits of science.
3. Recognize and articulate the relationship between the natural sciences and society and the application of science to societal challenges (e.g., health, conservation, sustainability, energy, natural disasters, etc.).
4. Evaluate scientific information (e.g., distinguish primary and secondary sources, assess credibility and validity of information).
5. Participate in scientific inquiry and communicate the elements of the process, including: a) making careful and systematic observations, b) developing and testing a hypothesis, c) analyzing evidence, and d) Interpreting results.

Required: Two approved science courses. At least one course will include laboratory experience.

Non-lab (3 credits):

- ASTR 103 - Astronomy Credits: 3
- ASTR 302 - Foundations of Cosmological Thought Credits: 3
- CHEM 101 - Introduction to Modern Chemistry Credits: 3
- CHEM 102 - Introduction to Organic, Biochemical, Pharmacological, and Fuel Chemistry Credits: 3
- CHEM 201 - Introductory Chemistry I Credits: 3
- CHEM 202 - Introductory Chemistry II Credits: 3
- CLIM 101 - Global Warming: Weather, Climate, and Society Credits: 3
- EVPP 201 - Environment and You: Issues for the Twenty-First Century Credits: 3
- GEOL 134 - Evolution and Extinction Credits: 3
- GGS 102 - Physical Geography Credits: 3
- NUTR 295 - Introduction to Nutrition Credits: 3
- UNIV 301 - Great Ideas in Science Credits: 3

Lab (4 credits):
Western Civilization/World History (3 credits)

Learning Outcomes:

Courses must meet at least three of the five learning outcomes.

1. Demonstrate familiarity with the major chronology of Western civilization or world history.
2. Demonstrate the ability to narrate and explain long-term changes and continuities in Western civilization or world history.
3. Identify, evaluate, and appropriately cite online and print resources.
4. Develop multiple historical literacies by analyzing primary sources of various kinds (texts, images, music) and using these sources as evidence to support interpretation of historical events.
5. Communicate effectively—through speech, writing, and use of digital media—their understanding of patterns, process, and themes in the history of Western civilization or the world.
**Required:** One approved course.

- HIST 100 - History of Western Civilization Credits: 3 or HIST 125 - Introduction to World History Credits: 3

**Transfer students may substitute one of the following for HIST 100**

- HIST 101 - Foundations of Western Civilization Credits: 3
- HIST 102 - Development of Western Civilization Credits: 3
- HIST 301 - Classical Greece Credits: 3
- HIST 302 - Classical Rome Credits: 3
- HIST 304 - Western Europe in the Middle Ages Credits: 3
- HIST 305 - The Renaissance Credits: 3
- HIST 306 - The Reformation Credits: 3
- HIST 308 - Nineteenth-Century Europe Credits: 3
- HIST 309 - Europe in Crisis: 1914-1948 Credits: 3
- HIST 312 - Nationalism in Eastern Europe Credits: 3
- HIST 314 - History of Germany Credits: 3
- HIST 322 - Modern Britain Credits: 3
- HIST 388 - Topics in European History Credits: 3
- HIST 435 - Society and Culture in Early Modern Europe Credits: 3
- HIST 436 - European Society and Culture: 19th and 20th Centuries Credits: 3
- HIST 480 - Alexander the Great Credits: 3

**Transfer students may substitute one of the following for HIST 125**

- HIST 202 - Freshman/Sophomore Seminar in Global History Credits: 3
- HIST 387 - Topics in Global History Credits: 3-6

**Global Understanding (3 credits)**

**Learning Outcomes:**

The goals of Global Understanding are accomplished through disciplinary or inter-disciplinary study with the following three learning outcomes:

1. Demonstrate understanding of global patterns and processes;
2. Demonstrate understanding of the interconnectedness, difference, and diversity of a global society;
3. Explore individual and collective responsibilities within a global society through analytical, practical, or creative responses to problems or issues, using resources appropriate to the field.

**Required:** One approved course.

- ANTH 302 - Peoples and Cultures of Latin America Credits: 3
- ANTH 304 - Peoples and Cultures of the Pacific Credits: 3
- ANTH 306 - Peoples and Cultures of Island Asia Credits: 3
- ANTH 307 - Ancient Mesoamerica Credits: 3
- ANTH 308 - Peoples and Cultures of the Middle East Credits: 3
- ANTH 309 - Peoples and Cultures of India Credits: 3
- ANTH 311 - Peoples and Cultures of Mainland Southeast Asia Credits: 3
• ANTH 312 - Political Anthropology Credits: 3
• ANTH 313 - Myth, Magic, and Mind Credits: 3
• ANTH 316 - Peoples and Cultures of the Caribbean Credits: 3
• ANTH 331 - Refugees Credits: 3
• ANTH 332 - Cross-Cultural Perspectives on Globalization Credits: 3
• ANTH 385 - Gender, Class, and Ethnicity in Latin America Credits: 3
• ARTH 319 - Art and Archaeology of the Ancient Near East Credits: 3
• ARTH 320 - Art of the Islamic World Credits: 3
• ARTH 380 - African Art Credits: 3
• ARTH 382 - Arts of India Credits: 3
• ARTH 383 - Arts of Southeast Asia Credits: 3
• ARTH 384 - Arts of China Credits: 3
• ARTH 385 - Arts of Japan Credits: 3
• ARTH 386 - The Silk Road Credits: 3
• CEIE 100 - Environmental Engineering around the World Credits: 3
• COMM 305 - Foundations of Intercultural Communication Credits: 3
• COMM 456 - Comparative Mass Media Credits: 3
• CRIM 405 - Law and Justice around the World Credits: 3
• DANC 118 - World Dance Credits: 3
• DANC 318 - Global Perspectives: World Dance Forms Credits: 3
• DANC 418 - Global Dance Intensive Credits: 3
• ECON 360 - Economics of Developing Areas Credits: 3
• ECON 361 - Economic Development of Latin America Credits: 3
• ECON 362 - African Economic Development Credits: 3
• ECON 380 - Economies in Transition Credits: 3
• ECON 390 - International Economics Credits: 3
• ENGH 362 - Global Voices Credits: 3
• ENGH 366 - The Idea of a World Literature Credits: 3
• FAVS 300 - Global Horror Film Credits: 3
• GCH 205 - International Health Credits: 3
• GGS 101 - Major World Regions Credits: 3
• GLOA 101 - Introduction to Global Affairs Credits: 3
• GOVT 132 - Introduction to International Politics Credits: 3
• GOVT 133 - Introduction to Comparative Politics Credits: 3
• HIST 130 - History of the Modern Global System Credits: 3
• HIST 251 - Survey of East Asian History Credits: 3
• HIST 252 - Survey of East Asian History Credits: 3
• HIST 261 - Survey of African History Credits: 3
• HIST 262 - Survey of African History Credits: 3
• HIST 271 - Survey of Latin American History Credits: 3
• HIST 272 - Survey of Latin American History Credits: 3
• HIST 281 - Survey of Middle Eastern Civilization Credits: 3
• HIST 282 - Survey of Middle Eastern Civilization Credits: 3
• HIST 328 - Rise of Russia Credits: 3
• HIST 329 - Modern Russia and the Soviet Union Credits: 3
• HIST 356 - Modern Japan Credits: 3
• HIST 358 - Post-1949 China Credits: 3
Social and Behavioral Science (3 credits)

Learning Outcomes:

The following three learning outcomes are required goals of disciplinary or interdisciplinary courses:

1. Explain how individuals, groups or institutions are influenced by contextual factors;
2. Demonstrate awareness of changes in social and cultural constructs;
3. Use appropriate methods and resources to apply social and behavioral science concepts, terminology, principles and theories in the analysis of significant human issues, past or present.

Required: One approved course.

- AFAM 200 - Introduction to African American Studies Credits: 3
- ANTH 114 - Introduction to Cultural Anthropology Credits: 3
- ANTH 120 - Unearthing the Past: Prehistory, Culture and Evolution Credits: 3

- TOUR 311 - Women and Tourism Credits: 3
- WMST 200 - Introduction to Women and Gender Studies Credits: 3

Total: 22 credits
University General Education: Synthesis Requirement

Return to: University General Education

Synthesis Requirement (minimum 3 credits)

The purpose of the synthesis course is to provide students with the opportunity to synthesize the knowledge, skills and values gained from the general education curriculum. Synthesis courses strive to expand students' ability to master new content, think critically, and develop life-long learning skills across the disciplines. While it is not feasible to design courses that cover "all" areas of general education, synthesis courses should function as a careful alignment of disciplinary goals with a range of general education learning outcomes.

Learning Outcomes:

A general education synthesis course must address outcomes 1 and 2, and at least one outcome under 3. Upon completing a synthesis course, students will be able to:

1. Communicate effectively in both oral and written forms, applying appropriate rhetorical standards (e.g., audience adaptation, language, argument, organization, evidence, etc.)
2. Using perspectives from two or more disciplines, connect issues in a given field to wider intellectual, community or societal concerns
3. Apply critical thinking skills to:
   a. Evaluate the quality, credibility and limitations of an argument or a solution using appropriate evidence or resources, OR,
   b. Judge the quality or value of an idea, work, or principle based on appropriate analytics and standards

Required: One approved course.

Note: The course list reflects approved courses as of press time. For the most current list, go to provost.gmu.edu/gened/approved-course-listing/

- ANTH 400 - Engaging the World: Anthropological Perspectives Credits: 3

Total: minimum 3 credits
Non-Western Culture Requirement

For the College of Humanities and Social Sciences, the College of Science, and the School for Conflict Analysis and Resolution, 3 credits of an approved course in the study of a non-Western culture is required in addition to the course used to fulfill the university-wide general education requirement in global understanding.

A course used to fulfill the university-wide general education global understanding requirement may not be simultaneously used to satisfy this college-level requirement.

A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (university-wide general education requirements, college-level requirements, or requirements for the major).

Approved Non-Western Culture Courses

- ANTH 114 - Introduction to Cultural Anthropology
- ANTH 300 - Civilizations
- ANTH 301 - Native North Americans
- ANTH 302 - Peoples and Cultures of Latin America
- ANTH 304 - Peoples and Cultures of the Pacific
- ANTH 305 - Foraging Societies
- ANTH 306 - Peoples and Cultures of Island Asia
- ANTH 307 - Ancient Mesoamerica
- ANTH 308 - Peoples and Cultures of the Middle East
- ANTH 309 - Peoples and Cultures of India
- ANTH 311 - Peoples and Cultures of Mainland Southeast Asia
- ANTH 313 - Myth, Magic, and Mind
- ANTH 314 - Zombies
- ANTH 316 - Peoples and Cultures of the Caribbean
- ANTH 323 - Digging and Dealing in the Dead: Ethics in Archaeology
- ANTH 330 - Peoples and Cultures of Selected Regions: Non-Western
- ANTH 332 - Cross-Cultural Perspectives on Globalization
- ANTH 381 - Medical Anthropology
- ANTH 396 - Issues in Anthropology: Social Sciences
- ARAB 420 - Survey of Arabic Literature
- ARAB 440 - Topics in Arabic Religious Thought and Texts
- ARTH 203 - Survey of Asian Art
- ARTH 204 - Survey of Latin American Art

Honors College

Faculty

Honors students have the opportunity to study with some of Mason’s most accomplished teachers and scholars from disciplines across the university, including Mason’s Robinson Professors.

Administration

Zofia Burr, Dean
Kathleen Alligood, Associate Dean

Course Work

The program offers all course work designated HNRS and HNRT in the Courses section of this catalog and select honors courses or sections within the majors.

The Honors College

The Honors College focuses attention on the excellence of Mason's student body and highlights the full spectrum of opportunities for academic achievement, professional development, and public service that Mason offers our most highly-motivated undergraduates. The Honors College provides talented students in all majors an enriched academic and social environment that enhances their college experience. Participation in challenging and innovative programs encourages student leadership and active participation in local, national, and global communities.

Through the resources of the Honors College, the university provides students the support to excel academically and to pursue life-long goals. Included in these resources is the Honors College curriculum, which offers challenging courses that fulfill core academic requirements at Mason. Senior faculty, including Mason’s Robinson Professors, teach small classes of students taking the curriculum. The most outstanding entering students are invited to become part of the University Scholars, a community of learners and leaders who receive Mason’s most competitive merit-based scholarships. All Honors College students have direct access to the Postgraduate Scholarships and Fellowships Program, which provides advice and information to high-achieving Mason undergraduates and recent alumni about the application process for nationally competitive fellowships.

The benefits of being part of the Honors College include the option of living in a diverse living-learning community. Activities include special lectures, events, and field trips on and off campus, as well as distinctive opportunities to take advantage of internships and cultural programs in Washington, D.C.

All students in the Honors College receive individualized academic advising, priority registration, and opportunities for close interaction with faculty for one-on-one mentoring and graduate and professional advising.

Admission

Admission to the Honors College is based on a holistic review of each student’s academic performance as well as any other information included in the general application, such as rigor of coursework, standardized test scores, class rank, essay response,
teacher recommendations, outstanding leadership, and commitment to community service. Space is limited in each class, and admissions criteria may vary according to the applicant pool in any given year.

Admission to the Honors College requires an application and is open to both freshmen and transfer students.

**Honors Curriculum**

The core of the honors curriculum is designed to satisfy the university general education requirements through a small number of courses, allowing students increased opportunities to pursue minors or other individual interests. Students may also take honors sections of selected major courses as well as upper division courses offered by the Honors College.

Students who earn a minimum GPA of 3.00 in HNRS and HNRT courses as well as supporting courses required for their approved honors program will receive Honors in General Education on their transcripts. Students whose GPA falls below 3.00 may complete the program but will not receive honors recognition on their transcripts.

Honors College students are required to develop a formal Plan of Study with their Honors College advisor during their first year in the Honors College. If a student does not complete a Plan of Study in their first year they will be removed from the College and the benefits that it offers, until an official Plan of Study is completed and approved by the student’s Honors College advisor.

**Requirement One (7 credits)**

**Two required courses:**

HNRS 110 - Research Methods  Credits: 4
HNRS 353 - Technology in the Contemporary World Credits: 3

**Requirement Two (9 credits)**

**Three honors core courses chosen from:**

HNRS 122 - Reading the Arts  Credits: 3  (Art History/Arts)
HNRS 131 - Contemporary Society in Multiple Perspectives  Credits: 3  (Social Science with a Global Perspective)
HNRS 240 - Reading the Past  Credits: 3  (History)
HNRS 130 - Conceptions of Self  Credits: 3 (Philosophy/Religion)
HNRS 230 - Cross-Cultural Perspectives  Credits: 3 (Social Science with a Non-Western Perspective)

Students are required to take either HNRS 230 or HNRS 131. Substitutions for both courses will only be allowed if a student transfers in credit for all the following general education requirements:

- Non-Western Culture
- Global Understanding
- Social Science and Behavioral Science

Honors students must satisfy all university general education requirements. These requirements may be satisfied by HNRS 122, 240, and 131 or 230, or by taking university approved general education courses. HNRS 130 and HNRS 230 meet additional college requirements for the B.A. in the College of Humanities and Social Sciences and the College of Science.
Note: Students who complete Requirements One and Two also fulfill university general education requirements for information technology, oral communication and literature.

**Requirement Three (6-10 credits)**

Choose any two courses from the following list of approved departmental honors courses. Students may substitute only one course taken before attending Mason for Requirement Three.

ACCT 204 - Honors Survey of Accounting Credits: 3

BIOL 213 - Cell Structure and Function Credits: 4 (Honors section only)

BIOL 308 - Foundations of Ecology and Evolution Credits: 5 (Honors section only)

BIOL 310 - Biodiversity Credits: 5 (Honors section only)

BIOL 311 - General Genetics Credits: 4 (Honors section only)

CHEM 211 - General Chemistry Credits: 4 (Honors section only)

CHEM 212 - General Chemistry Credits: 4 (Honors Section only)

CS 211 - Object-Oriented Programming Credits: 3 (Honors Section only)

ECON 103 - Contemporary Microeconomic Principles Credits: 3 (Honors section only)

MATH 116 - Analytic Geometry and Calculus II (Honors) Credits: 4

MATH 215 - Analytic Geometry and Calculus III (Honors) Credits: 3

MATH 216 - Theory of Differential Equations Credits: 3

OM 211 - Honors Statistical Analysis for Management Credits: 4

PHYS 160 - University Physics I Credits: 3 (Honors section only)

PHYS 260 - University Physics II Credits: 3 (Honors section only)

RHBS 490 - Clinical Research Internship Credits: 3

HNRS 130 - Conceptions of Self Credits: 3 (Philosophy/Religion), if not taken to satisfy Requirement Two

HNRS 230 - Cross-Cultural Perspectives Credits: 3 (Social Science with a Non-Western Perspective), if not taken to satisfy Requirement Two

**Additional Requirements:**

- **Mathematics:** Each honors student must take one approved math course, depending on major. Approved math courses are MATH 113, MATH 123 and 124, HNRT 125 or HNRT 225. Additional math courses are required for some majors.
• **Science:** The Honors College science requirement mirrors the science requirement of a student’s college and major.

*Students in the following colleges or majors must take the specific courses required by their college and major to meet the Honors College science requirements:*
- College of Education and Human Development
- College of Health and Human Services
- College of Science
- Volgenau School of Engineering (excluding Applied Information Technology- see below)
- Psychology, BS, or Neuroscience, BS, in the College of Humanities and Social Sciences

*Students in the following colleges and majors must fulfill the requirements listed below to complete their Honors College science requirements:*
- College of Visual and Performing Arts: 7 credits of science, except for the Bachelor of Music which requires a 3-credit science course
- College of Humanities and Social Science (excluding majors listed above): Honors College course sequence of HNRT 227* and HNRT 228
- School of Conflict Analysis and Resolution: 7 credits of science
- School of Management: Honors College course sequence of HNRT 227* and HNRT 228
- Applied Information Technology, BS, in the Volgenau School of Engineering: 7 credits of science

*Students may substitute a 4-credit general education lab science course for HNRT 227

**Note:** Students who are required to fulfill 7 credits of science must take one lab science course and either one non-lab science course or another lab science course to meet the credit requirement.

• **Foreign Language:** Students pursuing B.A. degrees may have a foreign language requirement

• **Beyond the Honors College requirements students must satisfy all requirements of their college and major**

**Continuation in Honors**

A student whose GPA falls below 2.00 (1.80 in the first or second semester) will be placed on academic warning and may be ineligible to continue in the Honors College.

Honors students are expected to maintain high standards of academic integrity and personal conduct. Students may be asked to withdraw from the program for a violation of the University Honor Code or any other conduct that reflects adversely on the Honors College.

Students who leave the Honors College before completion of the curriculum must meet university general education requirements and college-level requirements for their particular degree programs. On leaving the college and before registering for general education courses, students should be advised in their major program on equivalencies between the honors courses they have completed and general education requirements.

**Transfer of Honors Credits**

*Within George Mason:* Because of the sequential and integrated nature of the program, honors courses may not correspond exactly to other courses used to fulfill general education requirements. A list of equivalencies is available in the Honors College office and on the web site.

*Outside George Mason:* Course work in the Honors College curriculum may meet the general education requirements of other universities. As in all transfer situations, general education requirements of one institution may not precisely match those of another.
Mason Cornerstones

Web: cornerstones.gmu.edu/

New Century College offers an interdisciplinary first-year program known as Mason Cornerstones. This competitive admissions program is designed for students in eligible majors to fulfill core academic requirements. Cornerstones students benefit from small class sizes, experiential learning opportunities, exceptional academic advising, and access to the Cornerstones Living-Learning Community, a residence hall with other Cornerstones students where academic and social events are offered.

Admissions

Freshmen may be invited to participate based on academic record and other criteria considered during the university admissions review process. Only select majors at Mason can complete the general education requirements through the Cornerstones program. Please check the eligible majors list for those participating. Also note that some majors have specific general education requirements which would not be satisfied through Cornerstones. Confer with an advisor regarding specific course requirements.

Curriculum

Cornerstones provides students with a foundation for education through a 24-credit program consisting of a sequence of four courses:

- NCLC 101 - Narratives of Identity
- NCLC 102 - Global Networks and Communities
- NCLC 103 - Human Creativity: Science and Art
- NCLC 203 - Inquiry for Action: Facilitating Change

NCLC 101, 102, and 203 are writing-intensive courses that emphasize written communication as a way of thinking, discovering, and expressing ideas. Students who complete these three courses with a minimum GPA of 2.0 have fulfilled 3 credits of the general education requirement in written communication (equivalent to ENGH 101). Students who successfully complete all of Mason Cornerstones with a minimum GPA of 2.00 will have also met the university general education requirements in oral communication, information technology, literature, arts, non-laboratory natural science, global understanding, Western civilization, and social and behavioral science.
College of Education and Human Development

Schools

- School of Recreation, Health, and Tourism
- Graduate School of Education

The College of Education and Human Development (CEHD) comprises the School of Recreation, Health, and Tourism (RHT), and the Graduate School of Education (GSE). The college is committed to excellence, innovation, and collaboration in research and the preparation of professionals for the highest levels of practice and service in diverse schools, organizations, and communities.

CEHD provides leadership in transforming schools, organizations, and communities through research, teaching, and collaboration. CEHD faculty members prepare scholars and practitioners through multidisciplinary programs of study that facilitate the understanding, integration, and application of knowledge. Through research activities, faculty and students expand and refine the knowledge base for teaching and learning. In response to the richness and complexity of a pluralistic society, CEHD infuses diversity into academic programs and research. The faculty develops and supports knowledgeable, caring, and reflective professionals who facilitate excellence and equity for all learners. CEHD students and faculty demonstrate their growth and development in ways meaningful to their communication and professional organizations. Innovative programs and the integration of technology provide opportunities for students to develop, examine, evaluate, and practice professional knowledge, skills, and dispositions.

Administration

Mark Ginsberg, Dean
Martin Ford, Senior Associate Dean
Peter Barcher, Associate Dean for Research
Ellen Rodgers, Associate Dean for Student and Academic Affairs
C. Stephen White, Associate Dean for Academic Program Development
Iris Robinson, Assistant Dean for Student and Academic Affairs

Undergraduate Degrees, Minors, and Certificates

CEHD offers four undergraduate degrees, 16 minors, and one undergraduate certificate. The School of Recreation, Health, and Tourism within the College of Education and Human Development collaborates with the College of Humanities and Social Sciences to offer three minors in interdisciplinary areas of study. Students may elect to take a minor in addition to their major field of study. For policies governing all minors, see the Academic Policies section of this catalog. Students interested in earning a minor should complete the appropriate section of the Change/Declaration of Academic Program form.

In addition, the college also collaborates with the College of Science (Departments of Atmospheric, Oceanic, and Earth Science; Chemistry and Biochemistry; Mathematical Sciences; and the School of Physics, Astronomy and Computational Sciences) and the College of Visual and Performing Arts (Schools of Dance and Music) to provide seven collaborative undergraduate degree concentrations or emphases in Biology Education, Chemistry Education, Earth Science Education, Mathematics Education, Music Education, Physics Education, and Theater Education, and one licensure program in Dance Licensure. CEHD also collaborates with New Century College to support three interdisciplinary degree concentrations which prepare students for graduate study in education. The requirements for each degree, minor, and certificate are described on their respective catalog pages.
Graduate Degrees and Certificates

CEHD offers one doctoral degree, eight master's degrees, and 24 graduate certificates. The requirements for each degree and certificate are described on their respective catalog pages.

Applicable to All Students

In addition to the policies stated in the Academic Policies section of this catalog, the following policies and procedures apply to all students in the college.

Communication Policy

All correspondence from the program, school, college, and university administration is sent to the student’s official Mason e-mail account. Students should use their Mason e-mail account to communicate with their programs and other administrative units.

Academic Policies

Students are ultimately responsible for their academic progress towards their degrees and/or certificates. They are strongly advised to consult the Academic Policies section of this catalog for information concerning university-wide requirements for degree and nondegree students in addition to those for this college. Students with questions regarding academic policies and college-level requirements should contact the CEHD Student and Academic Affairs (Thompson Hall, Suite 2300; 703-993-2080; cehdacad@gmu.edu). Additional policy information and forms are available online at http://cehd.gmu.edu/saa/.

Grading Policy

All CEHD undergraduate and graduate students are held to the university grading policies as described in the Academic Policies section of this catalog. Those students enrolled in a CEHD licensure program, however, must earn a B- or better in all licensure coursework. The following licensure programs have more stringent grading policies that are detailed in their respective catalog sections: MEd in Curriculum and Instruction with concentrations in Elementary Education, English as a Second Language, Foreign Language (Arabic, Chinese, French, German, Japanese, Latin, Russian, and Spanish), International Education FAST TRAIN ESOL (PK-12), International Education FAST TRAIN Elementary PK-6, Secondary Education; and the MEd in Counseling and Development.

Grade Appeals

Students may appeal grades that they believe were assigned unjustly or were based on unclear criteria in accord with the Academic Policies section of this catalog. Grade appeals should initially be directed to the Program Coordinator for courses taken within the College of Education and Human Development. The decision may be further appealed to the Associate Dean for Student and Academic Affairs, who reserves the right to convene the elected members of the CEHD Appeals Committee if there is sufficient evidence of procedural irregularity. The Associate Dean’s decision is not subject to review or further appeal.

Professional Teacher Licensure

CEHD is responsible for professional courses, special standards, and licensure recommendations for students completing state-approved (Virginia) licensure programs that prepare teachers, administrators, counselors, and related-instructional personnel.

Initial teacher licensure is available at the undergraduate level in Biology, Chemistry, Dance, Earth Science, Health and Physical Education, Mathematics, Music, Physics, Secondary Education English, and Theatre Arts. Initial teacher licensure is available at the graduate level in Art, Early Childhood, Elementary, English as a Second Language, Foreign Language, Secondary, and
Theatre Arts. The Special Education Program offers initial teacher licensure exclusively through graduate certificates that include Early Childhood Special Education, Visual Impairment, Students with Disabilities who Access the General Curriculum, and Students with Disabilities who Access the Adapted Curriculum.

For more information and the dates and times of Think You Want to Be a Teacher? information sessions, please contact the CEHD Office of Admissions (Thompson Hall, Suite 2700; 703-993-2892; cehdgrad@gmu.edu). Additional information is available online at http://cehd.gmu.edu/admissions/.

Note: George Mason University will verify completion of the requirements of a Virginia Department of Education (VDOE) state-approved preparation program at the graduate or undergraduate level. Such verification does not guarantee the issuance of Virginia Collegiate Professional, Postgraduate Professional, or Pupil Personnel license from the Commonwealth of Virginia. It is solely the student’s responsibility to comply with all requirements for licensure by the Commonwealth. Under Virginia law a social security number is required for licensure.

Course Work

CEHD offers all course work designated ATEP, ECED, EDAL, EDAT, EDCD, EDCI, EDEP, EDIT, EDLE, EDPD, EDRD, EDRS, EDSE, EDUC, EFHP, HEAL, IETT, KINE, MNPE, PHED, PRLS, SPMT, SRST, and TOUR in the Courses section of this catalog.

■ School of Recreation, Health, and Tourism

Phone: 703-993-2060
Web: rht.gmu.edu

The School of Recreation, Health, and Tourism (RHT) offers two master's degrees, four undergraduate degrees, seven minors, and one undergraduate certificate. In addition to school-based minors, RHT offers three interdisciplinary minors with other units. The MS in Exercise Science, Fitness, and Health Promotion (EFHP) prepares professionals to more adequately serve their communities or pursue advanced academic study in the exercise science field. The MS in Sport and Recreation Studies meets the growing need for professionals and academics in the areas of international sport management, recreation administration, sport and leisure studies, sport coaching, and sport management. This degree prepares students for administrative, coaching, or further academic study. The BS in Athletic Training, accredited by the Commission on the Accreditation of Athletic Training Education (CAATE), prepares students for careers in athletic training and graduate study in other allied health professions. The BS in Health, Fitness, and Recreation Resources prepares students for supervisory and management careers in private and public parks and recreation systems (clinical and community), health promotion agencies, non-profit and for-profit sport organizations. The Parks and Outdoor Recreation and Therapeutic Recreation concentrations are accredited by the National Recreation and Park Association (NRPA). The BSEd in Physical Education, accredited by the National Council for the Accreditation of Teacher Education (NCATE), prepares students for a teaching career (K–12) in public and private schools. The BS in Tourism and Events Management degree is one of the fastest growing majors at the university.

For more information and the dates and time of RHT Orientation Sessions, please contact the RHT Office (Bull Run Hall [Prince William Campus] Suite 213; 703-993-2098; srht@gmu.edu). Additional information is available online at rht.gmu.edu.

Faculty

Professors: Anderson, Brayley, Nauright, D. Wiggins

Associate professors: J. Ambegaonkar, R. Baker, Banville, Bever, S. Caswell, Daniels, Jones, Kozlowski, R. Miller, M. Park, P. Rodgers, Schack, B. Wiggins

Assistant professors: Aidoo, Atwater, A. Caswell, Cortes, Esherick, Ferry, Goerger, Lee, Martin, Robison
Instructors: S. Ambegaonkar, Casserly, DeGregorio, Krout, Jacobsen, Norden, Parham

Course Work

RHT offers course work designated ATEP, EFHP, HEAL, KINE, PHED, PRLS, SPMT, SRST and TOUR in the Courses section of this catalog. Additional courses in Physical Activity and Sports are offered for elective credit to George Mason University students. These courses are included under PHED and PRLS prefixes.

Writing-Intensive Requirement

The university requires all undergraduate students to successfully complete at least one 300-level or above course designated “writing-intensive” (WI) in their major(s). For RHT students, the WI requirement is satisfied by the successful completion of PRLS 450 and/or PHED 365, dependent on program requirements.

Interdisciplinary Minors

In addition to school-based minors, RHT offers three minors in interdisciplinary areas of study. These minors require course work from two or more disciplines and are administered by interunit faculty groups. In accordance with university policy, at least 8 credits must be applied only to the minor and may not fulfill requirements of the student's major concentration, or another minor. For policies governing all minors, see the Academic Policies section of this catalog.

Minor in Sport Communication

The Sport Communication Minor is offered jointly by the School of Recreation, Health, and Tourism and the Department of Communication. For details, see Department of Communication in the College of Humanities and Social Sciences section of this catalog.

Minor in Sustainability

The Sustainability Minor is offered jointly by the Department of Environmental Science and Policy and New Century College. Students may take select Parks, Recreation and Leisure Studies (PRLS) and Tourism and Events Management (TEM) courses to meet elective requirements. For details, see Department of Environmental Science and Policy in the College of Science section of this catalog.

Minor in Sport and American Culture

The Sport and American Culture Minor is offered jointly by the School of Recreation, Health and Tourism and Department of History and Art History. Students will learn a great deal about sport and its interconnection with other societal institutions. For details, see the School Recreation, Health, and Tourism website: http://rht.gmu.edu/programs/minor7/

Complementary Certificate Programs

Students may also complete a complementary certificate outside of RHT in the following area:

Environmental Management Undergraduate Certificate

For details on this 27-credit undergraduate certificate (SC-CERB-EVMG), see Department of Environmental Science and Policy in the College of Science section of this catalog.
Note: Students interested in the certificate in Environmental Management should take BIOL 213 and either BIOL 303 or BIOL 304 instead of BIOL 103 and BIOL 104.

Physical Activity and Sports Courses

RHT courses in physical activity and sports provide a broad range of opportunities that promote the health and wellness of students, faculty, and staff. Taught by experts with a wealth of experience and commitment to sharing their knowledge and skills, the courses include individual and team sports, self-defense and martial arts, and recreation activities concerned with wilderness and outdoor pursuits. Open to students in any major, these courses are designed to foster educational growth, encourage leisure interests, and promote lifetime fitness for the entire Mason community.

PHED 102 - Introduction to Soccer Credits: 1
PHED 103 - Fencing I Credits: 1
PHED 105 - Aerobics and Basic Conditioning Credits: 1
PHED 107 - Social Dance Credits: 1
PHED 108 - Weight Training and Body Conditioning Credits: 1
PHED 110 - Beginning Swimming Credits: 1
PHED 113 - Latin Dance Credits: 1
PHED 118 - Advanced Life Guarding Credits: 1
PHED 120 - Introduction to Basketball Credits: 1
PHED 127 - Social Dance II Credits: 1
PHED 128 - Fencing II Credits: 2
PHED 129 - Introduction to Yoga Credits: 1
PHED 130 - Intermediate Yoga Credits: 1
PHED 131 - Introduction to Pilates Credits: 1
PHED 134 - Self-Defense for Men and Women Credits: 1
PHED 135 - Self-Defense for Men and Women II Credits: 1
PHED 136 - Tae Kwon Do Credits: 1
PHED 137 - Intermediate Tae Kwon Do Credits: 1
PHED 138 - Brazilian Jiu-Jitsu Credits: 1
PHED 139 - Brazilian Jiu-Jitsu II for Men and Women Credits: 2
PHED 140 - Golf Credits: 1
PHED 144 - Intermediate Golf Credits: 2
PHED 145 - Beginning Judo for Men and Women Credits: 1
PHED 146 - Introduction to Badminton Credits: 1
PHED 147 - Advanced Tae Kwon Do Credits: 2
PHED 149 - Tai Chi Credits: 1
PHED 150 - Intermediate Swimming Credits: 1
PHED 151 - Introduction to Tennis Credits: 1
PHED 153 - Tennis II Credits: 1
PHED 155 - Introduction to Springboard Diving Credits: 2
PHED 156 - Intermediate Springboard Diving Credits: 2
PHED 157 - Aikido for Men and Women Credits: 1
PHED 158 - Underwater Hockey Credits: 1
PHED 159 - Advanced Swimming Credits: 1
PHED 160 - Intermediate Tai Chi Credits: 1
PHED 162 - Introduction to Bowling Credits: 1
PHED 163 - Karate Credits: 1
PHED 164 - Intermediate Karate Credits: 1
PHED 165 - Introduction to Racquetball Credits: 1
PHED 166 - Intermediate Racquetball Credits: 1
PHED 167 - Advanced Concepts and Strategies in Bowling Credits: 1
PHED 169 - Intermediate Judo for Men/Women Credits: 2
**Bachelor of Science**

**Athletic Training, BS**

**Banner Code: E1-BS-ATT**

This 123-credit degree provides educational and clinical experiences concerning the management of injuries and health problems associated with physical activity. The goal is to equip students with the knowledge and skills that must be mastered to successfully prepare for the Board of Certification (BOC®) Examination and practice as an entry-level athletic trainer.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog. Students should also review the section on University General Education requirements.

**Application Process**

**Freshmen Applications**
Admission to George Mason University is competitive, and successful candidates generally have a B+ average or higher in a challenging college preparatory curriculum. All students accepted to George Mason University and declaring athletic training as a major are admitted into the pre-professional phase of the program (typically freshmen). Freshmen are bound to university admissions criteria as stated in the university catalog.

To progress into the professional phase of the program, students must earn a minimum grade of C in all within-major courses (ATEP 150, ATEP 180, BIOL 124, BIOL 125, HEAL 110, HEAL 230, ATEP 300) and attain a cumulative minimum within-major GPA of 3.0 or greater.

Transfer Student Applications

Admission as a transfer student into the ATEP is competitive. Transfer applicants are evaluated based on satisfactory completion of standards identical to all other students enrolled in the ATEP. Students transferring from another institution must provide documentation of successful completion of all ATEP-related course work with a grade of C or higher, a cumulative within-major GPA of 3.0 or higher on a 4.0 scale, and related clinical education/experiences. Additional documentation includes transcripts, course syllabi, a letter from the ATEP director of the previous institution certifying satisfactory completion of all clinical experiences, completed proficiency assessments signed and dated by an approved clinical instructor attained at the previous institution, and current Emergency Cardiac Care (ECC) and First Aid certifications. Students unable to provide this documentation will not be admitted into the professional phase of the ATEP. All transfer students must meet with the ATEP Director for an evaluation of all previously completed course work.

Special Requirements

See Special Requirements for specific information regarding fees, technical standards, health screenings and certifications, background checks and transportation requirements.

Degree Requirements

Students complete the course work below to earn the BS in athletic training. If an ATEP major course has to be repeated it must be taken and successfully completed at George Mason University.

General Education Requirements (38 credits)

- Written communication (6)
- Oral communication (3)
- Information technology (3)
- Quantitative reasoning (3)
  Must take STAT 250
- Literature (3)
- Arts (3)
- Western civilization (3)
- Social and behavioral sciences (3)
  Must take HEAL 230
- Global understanding (3)
- Natural science (8)
  Must take BIOL 124 and BIOL 125

Pre-Professional Phase (13 credits)
Students begin the pre-professional phase upon admission to Mason by enrolling in the seven required prerequisite courses below. Upon successful completion of all pre-professional course work with a grade of C or higher and a minimum cumulative GPA of 3.0, students may advance into the professional phase (three levels) of the program.

- ATEP 150 - Introduction to Athletic Training and Preventative Care Techniques Credits: 3 Fall/Spring Semester
- ATEP 180 - Emergency Medical Care for Physically Active Populations Credits: 0-4 Spring Semester (Must register for 4 credits)
- ATEP 300 - Functional Anatomy Credits: 3 Fall/Spring/Summer Semester
- ATEP 110 - Personal Health Credits: 3 Fall/Spring Semester

The following required pre-professional courses satisfy (and are listed with) General Education requirements. They are therefore not included in the total pre-professional credit count.

- BIOL 124 - Human Anatomy and Physiology Credits: 4 Fall/Spring Semester
- BIOL 125 - Human Anatomy and Physiology Credits: 4 Spring/Summer Semester
- HEAL 230 - Introduction to Health Behavior Credits: 3 Fall/Spring Semester

Professional Phase (66 credits)

Professional phase levels I-III require concurrent enrollment in didactic, clinical techniques, and practicum clinical education courses. The professional phase requires satisfactory completion of prerequisites, attainment of a grade of C or higher in all ATEP required course work, a minimum cumulative within-major GPA of 3.0, and maintenance of current Emergency Cardiac Care (ECC) and First Aid certifications.

Professional Courses (Level I) (24 credits)

- ATEP 250 - Physical Assessment of the Lower Body Credits: 3 * Fall Semester
- ATEP 255 - Clinical Techniques I: Physical Assessment of the Lower Body Credits: 3 * Fall Semester
- ATEP 256 - Practicum I: Physical Assessment of the Lower Body Credits: 3 * Fall Semester
- ATEP 260 - Physical Assessment of the Upper Body Credits: 3 * Spring Semester
- ATEP 265 - Clinical Techniques II: Physical Assessment of the Upper Body Credits: 3 * Spring Semester
- ATEP 266 - Practicum II: Physical Assessment of the Upper Body Credits: 3 * Spring Semester
- ATEP 270 - General Medical Conditions and Pharmacology in Physically Active Populations Credits: 3 Spring Semester
- HEAL 330 - Nutrition Credits: 3 Fall Semester

Professional Courses (Level II) (21 credits)

- ATEP 350 - Therapeutic Interventions I Credits: 3 * Fall Semester
- ATEP 355 - Clinical Techniques III: Therapeutic Interventions I Credits: 3 * Fall Semester
- ATEP 356 - Practicum III: Therapeutic Modalities Credits: 3 * Fall Semester
- ATEP 360 - Therapeutic Interventions II Credits: 3 * Spring Semester
- ATEP 365 - Clinical Techniques IV: Therapeutic Interventions II Credits: 3 * Spring Semester
- ATEP 366 - Practicum IV: Therapeutic Rehabilitation Credits: 3 * Spring Semester
- KINE 310 - Exercise Physiology I Credits: 3 * Fall Semester

Professional Courses (Level III) (21 credits)

- ATEP 441 - Senior Seminar in Athletic Training Credits: 3 Fall/Spring Semester *
- ATEP 450 - Administration and Management in Athletic Training Credits: 3 * Fall Semester
• ATEP 456 - Practicum V: Professional Integration Credits: 6 * Fall Semester
• PHED 364 - Strength Training: Concepts and Applications Credits: 3 Fall Semester
• PRLS 450 - Research Methods Credits: 3 Fall Semester (Satisfies the university Writing Intensive requirement)
• PRLS 460 - Sport and Recreation Law Credits: 3 Fall/Spring Semester

Notes

All courses marked with an * must be taken concurrently in the semester they are offered. Practicum courses require a clinical education field experience component.

Electives (6 credits)

Choose an additional 6 credits from the University Catalog.

Total: 123 credits

Health, Fitness, and Recreation Resources, BS

Banner Code: E1-BS-HFRR

This 120-credit degree allows students to specialize in one of four varied concentrations;

• Concentration in Kinesiology
• Concentration in Parks and Outdoor Recreation
• Concentration in Sport Management
• Concentration in Therapeutic Recreation

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog. Students should also review the section on University General Education requirements.

This has been designated a Green Leaf program. For further information, please go to Green Leaf Programs and Courses.

Internship Application

The internship is a 12-credit capstone course taken at the end of a student’s academic program. Students must have earned 90 credit hours and met the specific prerequisites for their concentration to be eligible for the internship (see HEAL 490, KINE 490, PRLS 490, and SPMT 490). The internship is designed to be a synthesis experience for each student in his or her specific concentration area.

The internship process begins with a required in-service hosted by the internship coordinator. During the preliminary phase students will develop learning goals and consult with faculty on viable internship sites. Once the internship site has been selected, the student must complete 400 hours of an applied experience in their field of study. Therapeutic Recreation (TR) requires a 560-hour, fourteen consecutive week field placement experience in therapeutic recreation services that uses the therapeutic recreation process.

Throughout the internship for all programs, the student will be monitored by a site supervisor (a Certified Therapeutic Recreation Specialist for therapeutic recreation), as well as a university supervisor, to facilitate a meaningful experience. For specific internship requirements, see the School of Recreation, Health and Tourism (RHT) Internship Manual.
Degree Requirements

▲ Concentration in Kinesiology (KNES)

The mission of the Kinesiology concentration at George Mason University is to provide a comprehensive approach to the study of human movement. The concentration offers and disseminates evidence-based knowledge and its practical application through classroom, laboratory, research, and field experiences. Emphasis is placed upon the development of future professionals with the knowledge, skills, and abilities to enhance physical performance, fitness, and general well being across the lifespan.

The 75-credit concentration in Kinesiology is a demanding science based concentration designed to prepare students for a career in clinical exercise, coaching, corporate fitness, medical and exercise equipment sales, mind-body studies, pharmaceutical sales, personal training, sport and exercise nutrition, sport science, or wellness/fitness management. The KNES concentration provides students with a strong science foundation for post-graduate specialized study in kinesiology or professional schools (e.g., chiropractic, medical, physical therapy). The KNES concentration has a comprehensive approach to the study of human movement. Three separate internship experiences totaling 700 hours provide KNES students with the opportunity to apply evidence-based knowledge and its practical application in general fitness, clinical and sports performance settings.

The KNES concentration is designed to assist students in their preparation for nationally recognized certifications, specifically those offered by the American College of Sports Medicine (ACSM) and the National Strength and Conditioning Association (NSCA). Students are required to challenge either the ACSM-Health Fitness Specialist or the NSCA-Certified Strength and Conditioning Specialist exam by the 7th week of the semester in which they are enrolled in KINE 490 - Kinesiology Internship III. All exam registration fees are the responsibility of the student.

Students are required to maintain a minimum cumulative GPA of 2.5 and receive a grade of C or better in BIOL 124, BIOL 125, HEAL 230, and STAT 250 as well as all Professional Sequence courses. Failure to do so will result in probation or dismissal from the KNES concentration. The Kinesiology Academic Advisor is available to assist KNES students with course registration and academic program design. It is expected that KNES students will meet with their Academic Advisor each semester that they are enrolled at George Mason University.

Special Requirements

See Special Requirements for specific information regarding fees, technical standards, health screenings and certifications, and background checks.

• KINE 490 - Kinesiology Internship III Credits: 12
• PRLS 405 - Planning, Design, and Maintenance of Leisure Facilities Credits: 3
• PRLS 450 - Research Methods Credits: 3 (Satisfies the university Writing Intensive requirement)
• PRLS 460 - Sport and Recreation Law Credits: 3
• SPMT 320 - Psychology of Sport Credits: 3

Electives (7)

Choose an additional 7 credits from the university catalog. KINE 249 - An Analysis of Boxing, and KINE 250 - Endurance Sport Program Design, are recommended as elective courses.

Total: 120 credits

▲ Concentration in Parks and Outdoor Recreation (POR)

This concentration explores the contribution of recreation and parks to public well-being and quality of life. The curriculum includes courses in natural resources management, outdoor recreation programming, and environmental education. The program is accredited by the Council on Accreditation of Parks, Recreation, Tourism and Related Professions. Graduates are employed in national, state, and local recreation and park agencies, non-profit organizations, and private and commercial operations. Students complete both a supervised practicum and internship in professional settings.

• PRLS 460 - Sport and Recreation Law Credits: 3
• PRLS 490 - Internship Credits: 12-15 (Must register for 12 credits)
• PRLS 501 - Introduction to Natural Resources Law Credits: 3

Electives (12)

Choose an additional 12 credits from the university catalog

Total: 120 credits

▲ Concentration in Sport Management (SPMT)

This concentration enhances the professional development of liberal arts-educated students, thereby preparing them to assume entry-level managerial positions in the $300 billion sport industry, including private enterprises, government or public employment sectors, nonprofit or voluntary agencies, and commercial sport ventures. Preparation in sport marketing, finance, ethics, law, operations, planning, and program leadership fosters the skills that enhance students’ acquisition and advancement in
sport management careers. An integral part of the program is the opportunity to complete two field experiences in sport organizations.

Electives (17)

Choose an additional 17 credits from the university catalog

Total: 120 credits
Concentration in Therapeutic Recreation (TR)

This concentration teaches students how to use activities as therapeutic tools toward a renewed quality of life for people with disabilities across the lifespan. Completion of the therapeutic recreation (TR) foundation, issues, processes, and assessment courses to name a few, as well as an internship supervised by a Certified Therapeutic Recreation Specialist, prepares graduating seniors to sit for the national exam sponsored by the National Council for Therapeutic Recreation Certification. The concentration is accredited by the Council on Accreditation of Parks, Recreation, Tourism and Related Professions. Graduates find employment in local, state, and federal recreation settings; senior and adult health care; non-profit organizations; and educational and clinical institutions.

Tourism and Events Management, BS

Banner Code: E1-BS-TEM

This 120-credit degree program prepares students to enter a diverse profession in the world’s third-largest industry. Built on the curricula cornerstones of resort management, environmental tourism, events management, and cultural and heritage tourism, courses equip students with knowledge, skills, and experience in managing the tourism experience for the benefit of the traveler, host, and supporting industry. Graduates are employed in commercial, private, and public agencies, and in a wide variety of jobs and many geographic or business settings. A minor is available.

This has been designated a Green Leaf program. For further information, please go to Green Leaf Programs and Courses.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog. Students should also review the section on University General Education requirements.

Bachelor of Science in Education

Physical Education, BSEd

Banner Code: E1-BSED-PHED

This 120-credit degree program is accredited by the National Council for Accreditation of Teacher Education (NCATE). Completing this degree fulfills requirements for licensure in Health and Physical Education (PK-12) in Virginia. Students complete a student teaching experience in their final semester.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog. Students should also review the section on University General Education requirements.

Student Teaching Internship

To enroll in PHED 415 - Student Teaching in Physical Education PHED 415 - Student Teaching in Physical Education, physical education majors must have a minimum 2.50 GPA in the last 60 credits of course work; submit copies of official passing scores for the VCLA and PRAXIS II exams; and have satisfactorily completed all required general education and professional concentration courses. The application must be completed one full semester before taking PHED 415. Application deadlines are listed below and forms are located at rht.gmu.edu/programs/phed/student_teaching/.
Student Teaching Internship Application Deadlines:

Fall Semester—February 1
Spring Semester—September 1

Admission

Four-year students: Students entering as freshmen with an interest in majoring in physical education will initially be accepted with BPRE (pre-PHED) status. Students must successfully complete a minimum of 45 credits and attain a cumulative GPA of 2.50 to apply to the BSED in Physical Education Program. In addition, students must submit passing Praxis I scores or its approved substitutes, and have earned passing grades in BIOL 124, BIOL 125, PHED 201, and PHED 202.

Degree-seeking transfer students: Transfer students can apply for BSED status by having (1) a minimum of 45 credits from their previous institution with a cumulative GPA of 2.50 or by completing 12 credits at Mason with a minimum of a 2.50 GPA; (2) submitted passing scores for PRAXIS I or its approved substitutes; and (3) passed BIOL 124 / BIOL 125, and PHED 201 and PHED 202 (only a grade of C or higher is accepted for BIOL 141 and BIOL 142, if transferred from a Virginia Community College System (VCCS) institution).

• KINE 200 - Principles of Health Related Fitness Credits: 2
• KINE 310 - Exercise Physiology I Credits: 3
• PHED 110 - Beginning Swimming Credits: 1
  or
• PHED 150 - Intermediate Swimming Credits: 1
  or
• PHED 159 - Advanced Swimming Credits: 1
• PHED 200 - Professional Dimensions of Health, Recreation, and Physical Education Credits: 3
• PHED 201 - Developmental Motor Patterns Credits: 3
• PHED 202 - Teaching Skillful Movement Credits: 3
• PHED 273 - Net and Target Games Credits: 2
• PHED 274 - Dance and Educational Gymnastics Credits: 2
• PHED 275 - Field and Invasion Games Credits: 2
• PHED 306 - Psychomotor Learning Credits: 3
• PHED 308 - Adapted Physical Education Credits: 3
• PHED 340 - Social and Cultural Issues in Physical Education Credits: 3 (Satisfies the university Writing Intensive requirement)
• PHED 403 - Elementary School Instruction in Physical Education Credits: 3
• PHED 404 - Middle and High School Instruction in Physical Education Credits: 3
• PHED 415 - Student Teaching in Physical Education Credits: 9-12 (take 12 credits) *
• PRLS 316 - Outdoor Education and Leadership Credits: 3
• PRLS 460 - Sport and Recreation Law Credits: 3

Notes

Students are not permitted to enroll in HEAL 405, PHED 308, PHED 403, PHED 404, and PHED 415, until they have met all BSEd application requirements.

A grade of C or better is required in the following courses: PHED 201, PHED 202, PHED 308, PHED 403, PHED 404 and HEAL 405.

Students must complete student teaching (PHED 415) within 5 years of completing PHED 201 and PHED 202. If more than five years has lapsed between taking PHED 201 and PHED 202 and student teaching (PHED 415), students will have to retake these two foundational courses before they can student teach.

Additionally, students will be expected to achieve and maintain the healthy zone of health related fitness as measured by FitnessGram® throughout their program. Accommodations will be made for students with documented physical disabilities.

Total: 120 credits

Master of Science

Exercise, Fitness, and Health Promotion, MS

Banner Code: E1-MS-EFHP

This 36-credit master's of science degree in exercise, fitness, and health promotion takes a science-based approach toward the fields of athletic training, biomechanics, and strength and conditioning. This degree prepares students to become professionals...
capable of applying evidenced-based scientific principles. Completion of this degree prepares students for employment in human performance and allied health related professions or the pursuit of further academic study (doctoral programs). This program offers the traditional research masters' thesis or a research project option.

This program of study is offered by the School of Recreation, Health, and Tourism (RHT) within the College of Education and Human Development.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

**Application Requirements**

In addition to fulfilling admission requirements for graduate study as specified in the Admission section of this catalog, applicants must hold a baccalaureate degree in a discipline related to the field of kinesiology, exercise science, or athletic training. All applicants are required to submit results of the Graduate Record Examination (GRE), three letters of reference (two from professors), resume, official transcripts, and a 500 word statement outlining their background and experience and future career goals. Successful applicants usually have a minimum overall undergraduate GPA of 3.0. Admission to the program is competitive. Meeting the minimum admission criteria does not guarantee admission. Successful completion of an undergraduate course in statistics and physics is strongly recommended.

**Course Work**

All students are required to complete core courses. Students must also complete elective courses and a capstone thesis or research project.

**Required Courses (15 credits)**

- EFHP 610 - Advanced Exercise Physiology Credits: 3
- EFHP 612 - Scientific Foundation of Applied Kinesiology Credits: 3
- EFHP 613 - Advanced Applied Biomechanics Credits: 3
- EFHP 620 - Research Methods for Applied Kinesiology Credits: 3
- EFHP 621 - Statistical Methods for Applied Kinesiology Credits: 3

**Electives (15 credits)**

Students must choose 9 EFHP elective credits. Students must choose 6 additional graduate credits with Program Coordinator approval from the following:

- EFHP 522 - Anatomy for the Athletic Trainer: Structure and Function of the Neuromuscular and Musculoskeletal Systems Credits: 3
- EFHP 524 - Physiology for the Athletic Trainer Including the Pharmacology of Sports Injuries Credits: 3
- EFHP 526 - Athletic Training Perspectives: Evaluation and Prevention of Sports Injuries Credits: 3
- EFHP 528 - Advanced Athletic Training Credits: 3
- EFHP 599 - Independent Study EFHP Credits: 1-3
- EFHP 611 - Fitness Assessment: Theory and Practice Credits: 3
- EFHP 614 - Advanced Exercise Nutrition Credits: 3
- EFHP 616 - Motor Behavior and Development Credits: 3
- EFHP 618 - Exercise and Sport Psychology Credits: 3
- EFHP 630 - Exercise, Health, and Fitness Program Development Credits: 3
- EFHP 650 - Scientific Principles of Motor Learning Credits: 3
**EFHP 660** - Management of Exercise, Fitness, and Health Promotion Organizations Credits: 3

**EFHP 680** - Ethical Issues in Exercise, Fitness, and Health Promotion Credits: 3

**Thesis or Project (6 credits)**

- **EFHP 598** - Special Topics Credits: 1-6 (Must register for 3 credits)
- **EFHP 798** - Project Credits: 1-3 (Must register for 3 credits)
  or
- **EFHP 799** - Thesis Credits: 1-6 (Must register for 3 credits)

**Notes**

**In the Thesis Option**, students complete EFHP 598 (3 credits) and EFHP 799 (3 credits). In EFHP 598, students develop independent research proposals. Then, in consultation with the EFHP Graduate Coordinator, students select two additional faculty members to form a three-member thesis committee. One committee member may be selected from faculty outside of the program. Students may not register for thesis credit until the student’s thesis committee and the EFHP Graduate Coordinator have approved a proposal. Once the committee approves the proposal, students register for thesis credit and conduct their independent research projects.

**In the Research Project Option**, students complete EFHP 598 (3 credits) and EFHP 798 (3 credits). In the topics course, students conduct a directed research project with an EFHP faculty member that is aligned with the faculty member’s research agenda. Then, in the project course, students work with the EFHP faculty member to develop a paper and presentation in the format of submission to a peer-reviewed journal and presentation at professional conferences, respectively.

**Total: 36 credits**

**Sport and Recreation Studies, MS**

**Banner Code: E1-MS-SRST**

This 30-credit master of science in Sport and Recreation Studies (SRST), consisting of five concentrations, meets the growing need for professionals and academics in the areas of international sport management, recreation administration, sport and leisure studies, sport coaching, and sport management. This degree prepares students as professionals who will more adequately serve the industry and their communities, and students who wish to pursue advanced study through doctoral programs in these disciplinary areas, leading to employment (and contributions) in academe. This program offers the traditional research masters’ thesis option and the option of an applied research project linked to a professional setting or internship.

This program of study is offered by the School of Recreation, Health, and Tourism (RHT) within the College of Education and Human Development

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

**Application Requirements**

In addition to fulfilling admission requirements for graduate study as specified in the Admission section of this catalog, applicants must have successfully completed an undergraduate course in statistics. All applicants are required to submit results of the Graduate Record Examination (GRE) (unless a graduate of Mason) or Miller Analogy Test (MAT); three letters of reference (two from professors); official transcripts; and a 500-1,000 word statement outlining their background and experience and future goals in International Sport Management, Recreation Administration, Sport and Leisure Studies, Sport Coaching, and Sport
Management. Applicants without a sport, leisure, or recreation-related degree must indicate through the written statement and letters of recommendation how their academic and/or professional background prepares them for admission to the Sport and Recreation Studies graduate program.

Successful applicants have an overall GPA of 3.0 for the last 60 undergraduate credits; generally a minimum GPA 3.25 in undergraduate courses, and combined scores of 900 or above on the GRE. Admission to the graduate programs in RHT is competitive. Meeting the minimum admission criteria does not guarantee admission.

Degree Requirements

MS Core Course Work (15 credits)

Students are required to take a set of five core foundation courses that will provide grounding in historical and socio-cultural foundations, ethical and legal issues, social-psychological perspectives, management and administration, and research methods and statistics. In addition, all students will complete a capstone thesis or project specific to their concentration.

- **Historical and Socio-Cultural Foundations**
  - SRST 606 - Foundations of Sport and Recreation Studies Credits: 3

- **Ethical and Legal Issues**
  - Choose one course from the following:
    - EFHP 680 - Ethical Issues in Exercise, Fitness, and Health Promotion Credits: 3
    - PRLS 614 - Legal Issues in Recreation Administration Credits: 3
    - PRLS 670 - Environmental Law Credits: 3
    - SPMT 614 - Legal Issues in Sport Credits: 3

- **Social-Psychological Perspectives**
  - EFHP 618 - Exercise and Sport Psychology Credits: 3 or PRLS 611 - Social Psychology of Leisure Credits: 3

- **Management and Administration**
  - PRLS 610 - Recreation Administration and Planning Credits: 3 or SPMT 612 - Economics and Financial Management in the Sport Industry Credits: 3

- **Research Methods and Statistics**
  - SRST 623 - Research Design and Statistical Reasoning Credits: 3

Concentration (15 credits)

Students complete the requirements for one concentration.

- **Concentration in International Sport Management (ISPM)**

  **Course Work**

  Choose 9 credits from the following:
  - SPMT 551 - Sport in the Global Marketplace Credits: 3
  - SPMT 555 - The Australian Model of Sport Credits: 3
  - SPMT 556 - The Global Soccer Industry Credits: 3
  - SPMT 651 - Sport and International Development Credits: 3
  - SPMT 652 - Governance and Policy in International Sport Credits: 3
  - SRST 598 - Special Topics Credits: 1-6

  **Note:**
Additional courses may be selected as electives with advisor approval

Thesis or Project

- SRST 599 - Independent Study in Sport and Recreation Studies Credits: 1-3 (must register for 3 credits)
- SRST 798 - Master’s Project Credits: 1-3 (must register for 3 credits)
  or
- SRST 799 - Master’s Thesis Credits: 1-6 (must register for 3 credits)

Total: 15 credits

▲ Concentration in Recreation Administration (RA DM)

Course Work

Choose 9 credits from the following:

- PRLS 531 - Natural Resources Recreation Planning Credits: 3
- PRLS 533 - Visitor Services Credits: 3
- PRLS 535 - Evaluating Recreation Outcomes Credits: 3
- PRLS 598 - Special Topics Credits: 1-6
- PRLS 599 - Independent Study Credits: 1-3
- PRLS 601 - History of Leisure and Sport in American Society Credits: 3
- PRLS 612 - Philosophy of Leisure and Sport Credits: 3
  Note: Additional courses may be selected as electives with advisor approval

Thesis or Project

- SRST 599 - Independent Study in Sport and Recreation Studies Credits: 1-3 (must register for 3 credits)
- SRST 798 - Master’s Project Credits: 1-3 (must register for 3 credits)
  or
- SRST 799 - Master’s Thesis Credits: 1-6 (must register for 3 credits)

Total: 15 credits

▲ Concentration in Sport and Leisure Studies (SPLS)

Course Work

- PRLS 612 - Philosophy of Leisure and Sport Credits: 3
  Choose 6 credits from the following:
- PRLS 598 - Special Topics Credits: 1-6
- PRLS 599 - Independent Study Credits: 1-3
- PRLS 601 - History of Leisure and Sport in American Society Credits: 3
- SPMT 551 - Sport in the Global Marketplace Credits: 3
- SPMT 651 - Sport and International Development Credits: 3
Note:
Additional courses may be selected as electives with advisor approval

Thesis or Project

- SRST 599 - Independent Study in Sport and Recreation Studies Credits: 1-3 (must register for 3 credits)
- SRST 798 - Master’s Project Credits: 1-3 (must register for 3 credits)
  or
- SRST 799 - Master’s Thesis Credits: 1-6 (must register for 3 credits)

Total: 15 credits

▲ Concentration in Sport Coaching (SPTC)

Course Work

- EFHP 611 - Fitness Assessment: Theory and Practice Credits: 3
- SPMT 614 - Legal Issues in Sport Credits: 3
- SPMT 631 - Theoretical Models of Sport Coaching Credits: 3

Note:
Students in this concentration must complete both EFHP 680 (within the MS requirements) and SPMT 614 (within this concentration)

Thesis or Project

- SRST 599 - Independent Study in Sport and Recreation Studies Credits: 1-3 (must register for 3 credits)
- SRST 798 - Master’s Project Credits: 1-3 (must register for 3 credits)
  or
- SRST 799 - Master’s Thesis Credits: 1-6 (must register for 3 credits)

Total: 15 credits

▲ Concentration in Sport Management (SPMT)

Course Work

- SPMT 611 - Sport Marketing and Sales Credits: 3
- SPMT 613 - Strategic Leadership in Sport Organizations Credits: 3
  Choose one course from the following:
- EFHP 660 - Management of Exercise, Fitness, and Health Promotion Organizations Credits: 3
- EFHP 680 - Ethical Issues in Exercise, Fitness, and Health Promotion Credits: 3
- SPMT 616 - Sport Operations, Venues, and Event Management Credits: 3
- SRST 598 - Special Topics Credits: 1-6

Note:
Additional courses may be selected as electives with advisor approval

Thesis or Project
• SRST 599 - Independent Study in Sport and Recreation Studies Credits: 1-3 (must register for 3 credits)
• SRST 798 - Master’s Project Credits: 1-3 (must register for 3 credits)
  or
• SRST 799 - Master’s Thesis Credits: 1-6 (must register for 3 credits)

Total: 15 credits

Total: 30 credits

Non-Degree

Coaching Minor

Banner Code: COCH

This program of study is offered by the College of Education and Human Development, specifically the School of Recreation, Health, and Tourism.

This 18-credit minor is available to all Mason undergraduate students. Eight credits must be unique to the minor. For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

• ATEP 203 - Prevention, Recognition, and Management of Athletic and Fitness Related Injuries Credits: 3
• PHED 306 - Psychomotor Learning Credits: 3
• SPMT 201 - Introduction to Sport Management Credits: 3
• SPMT 210 - Foundations of Sport Coaching Credits: 3
• SPMT 320 - Psychology of Sport Credits: 3
• SPMT 341 - Field Experience in Sport Coaching Credits: 3

Total: 18 credits

Health Promotion Minor

Banner Code: HPR

This program of study is offered by the College of Education and Human Development, specifically the School of Recreation, Health, and Tourism.

This 18 to 19-credit minor is available to all Mason undergraduate students. Eight credits must be unique to the minor. For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

• HEAL 110 - Personal Health Credits: 3
• HEAL 230 - Introduction to Health Behavior Credits: 3
Electives

Choose three courses from the following:

- **HEAL 205** - Principles of Accident Causation and Prevention Credits: 4
- **HEAL 220** - Dimensions of Mental Health Credits: 3
- **HEAL 310** - Drugs and Health Credits: 3
- **HEAL 325** - Health Aspects of Human Sexuality Credits: 3
- **HEAL 327** - Women's Health Credits: 3
- **HEAL 331** - Men's Health Credits: 3
- **HEAL 351** - Relationship Health Credits: 3

Total: 18-19 credits

Kinesiology Minor

**Banner Code:** KNES

This program of study is offered by the College of Education and Human Development, specifically the School of Recreation, Health, and Tourism.

This 18-credit minor is available to all Mason undergraduate students, with the exception of those enrolled in the BS in Health, Fitness, and Recreation Resources degree program and pursuing a concentration in Kinesiology. Eight credits must be unique to the minor. For policies governing all minors, see the Academic Policies section of this catalog.

**Course Work**

Choose 18 credits from the following:

- **ATEP 300** - Functional Anatomy Credits: 3
- **HEAL 330** - Nutrition Credits: 3
- **KINE 310** - Exercise Physiology I Credits: 3
- **KINE 350** - Exercise Prescription and Programming Credits: 3
- **KINE 360** - Strength Training: Concepts and Applications Credits: 3
- **KINE 370** - Measurement and Evaluation of Physical Fitness Credits: 3
- **KINE 400** - Biomechanics Credits: 3
- **KINE 410** - Exercise Physiology II Credits: 3
- **SPMT 320** - Psychology of Sport Credits: 3

Total: 18 credits

Parks, Recreation, and Leisure Studies Minor

**Banner Code:** PRLS
This program of study is offered by the College of Education and Human Development, specifically the School of Recreation, Health, and Tourism.

This 18-credit minor (including a practicum) is available to all Mason undergraduate students, with the exception of those enrolled in the BS in Health, Fitness, and Recreation Resources degree program pursuing a concentration in Parks and Outdoor Recreation or Therapeutic Recreation. Eight credits must be unique to the minor. For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

- PRLS 210 - Introduction to Recreation and Leisure Credits: 3
- PRLS 241 - Practicum Credits: 3
- PRLS 310 - Program Planning and Design Credits: 3
- PRLS 316 - Outdoor Education and Leadership Credits: 3
- PRLS 327 - Foundations of Therapeutic Recreation Credits: 3
- PRLS 410 - Administration of RHT Organizations I Credits: 3

Note:

Students must complete PRLS 210, PRLS 310, PRLS 316, PRLS 327, and PRLS 410 before taking PRLS 241. PRLS 241 and PRLS 410 may be taken concurrently.

Total: 18 credits

Sport and American Culture Minor

Banner Code: SAMC

This program of study is offered by the College of Education and Human Development, specifically the School of Recreation, Health, and Tourism.

This 18-credit interdisciplinary minor is offered jointly by the School of Recreation, Health, and Tourism and the Department of History and Art History. Students must take two required and four elective courses (two from Sport Management and two from History). This minor is available to all Mason undergraduate students. Eight credits must be unique to the minor.

Course Work

- HIST 341 - History of Sport in the United States Credits: 3
- SPMT 304 - Sport, Culture, and Society Credits: 3

Electives (Sport Management)

Choose two courses (6 credits) from the following:

- SPMT 321 - America Through Baseball Credits: 3
- SPMT 322 - Football and American Culture Credits: 3
- SPMT 323 - America and the Modern Olympics Credits: 3
Electives (History)

Choose two courses (6 credits) from the following:

- HIST 337 - Race and Gender in American Sports Credits: 3
- HIST 338 - History of College Athletics Credits: 3
- HIST 339 - History of Baseball Credits: 3

Total: 18 credits

Sport Management Minor

Banner Code: SPMT

This program of study is offered by the College of Education and Human Development, specifically the School of Recreation, Health, and Tourism.

This 18-credit minor is available to all Mason undergraduate students, with the exception of those enrolled in the BS in Health, Fitness, and Recreation Resources degree program and pursuing a concentration in Sport Management. Eight credits must be unique to the minor. For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

- SPMT 201 - Introduction to Sport Management Credits: 3
- SPMT 420 - Economics and Finance in the Sport Industry Credits: 3
- SPMT 455 - Governance and Policy in Sport Organizations Credits: 3
  Choose three from the following:
  - PRLS 410 - Administration of RHT Organizations I Credits: 3
  - PRLS 460 - Sport and Recreation Law Credits: 3
  - SPMT 302 - Sport and Ethics Credits: 3
  - SPMT 304 - Sport, Culture, and Society Credits: 3
  - SPMT 405 - Sport Operation and Planning Credits: 3
  - SPMT 412 - Sport Marketing and Finance Credits: 3
  - SPMT 430 - Sport Communication Credits: 3
  - SPMT 440 - Global Perspectives in Sport Credits: 3
  - SPMT 480 - Special Topics in Sport Management Credits: 3

Total: 18 credits

Tourism and Events Management Minor

Banner Code: TEM

This program of study is offered by the College of Education and Human Development, specifically the School of Recreation, Health, and Tourism.
This 15-credit minor is available to all Mason undergraduate students, with the exception of those enrolled in the BS in Tourism and Events Management degree program. Eight credits must be unique to the minor. For requirements governing all minors, see the Academic Policies section of this catalog.

Course Work

Required courses (9 credits)

- TOUR 200 - Introduction to Travel and Tourism Credits: 3
- TOUR 220 - Introduction to Event Management Credits: 3
- TOUR 340 - Sustainable Tourism Credits: 3

Electives (6 credits)

Choose from the following:

- TOUR 190 - Wedding Planning Credits: 3
- TOUR 210 - Global Understanding through Travel and Tourism Credits: 3
- TOUR 221 - Event Implementation and Evaluation Credits: 3
- TOUR 230 - Introduction to Hospitality Management Credits: 3
- TOUR 311 - Women and Tourism Credits: 3
- TOUR 312 - Ecotourism Credits: 3
- TOUR 313 - Event Technology Credits: 3
- TOUR 330 - Resort Management Credits: 3
- TOUR 352 - Heritage and Cultural Tourism Credits: 3

Total: 15 credits

Undergraduate Certificate

Outdoor Recreation and Experiential Leadership Undergraduate Certificate

Banner Code: E1-CERB-OREL

This 25-credit certificate program provides any interested individual with specialized skills unique to a variety of outdoor adventure and experiential activities, such as backpacking, rock climbing, canoeing, kayaking, and challenge-course facilitation. Course work focuses on the acquisition of technical skills and application of theory-to-experiential learning in an outdoor recreation curriculum. The program provides options to attain certification as low and high element facilitators and Wilderness First Responders. Students completing the certificate requirements will be fully prepared to work as challenge course facilitators, work as instructors at Outdoor Education/Adventure Education organizations, and effectively integrate outdoor experiential programs with existing educational curricula.

Certificate Requirements

Required Core Courses (17 credits)
- NCLC 204 - Leadership Theory and Practice Credits: 3
- PRLS 110 - Exploring Outdoor Adventure Credits: 2
- PRLS 210 - Introduction to Recreation and Leisure Credits: 3
- PRLS 220 - Experiential Education Theory and Application Credits: 3
- PRLS 221 - Challenge Course Facilitation Credits: 3
- PRLS 316 - Outdoor Education and Leadership Credits: 3

Electives (8 credits)

Choose 8 credits from the following:

- NCLC 195 - Field-Based Work Credits: 1-6 (must register for 1 credit)
- PRLS 117 - Rock Climbing Credits: 2
- PRLS 120 - Introduction to Backpacking Credits: 2
- PRLS 170 - Introduction to White-water Kayaking Credits: 2
- PRLS 173 - Basic Coastal Kayaking Credits: 2
- PRLS 180 - White-water Canoeing Credits: 2
- PRLS 181 - White-water Canoeing II Credits: 2
- PRLS 200 - Wilderness First Responder Credits: 2
- PRLS 250 - Wilderness Travel and Sustainability Credits: 2
- PRLS 480 - Special Topics in Parks, Recreation, and Leisure Studies Credits: 1-3

Total: 25 credits

Graduate School of Education

Phone: 703-993-2892
Web: cehd.gmu.edu

The Graduate School of Education (GSE) offers one doctoral degree, six master's degrees, nine minors, eleven accelerated master's programs and 24 graduate certificates. Within each of these degree programs students have the option to choose a concentration that best meets their interests or needs. Additionally, students may pursue course work leading to initial teacher licensure.

Faculty

Professors: Behrmann, Bemak, Brozo, Chung, Clark, Dabbagh, Dimitrov, Earley, Galluzzo, Haley, Kelly, King-Sears, Kitsantas, Mastropieri, Maxwell, Ndura, Norton, Samaras, Scruggs, Shaklee, Sterling, Sturtevant

Instructors: Bailey, D. Fulcher, Rioux-Bailey
Course Work

GSE offers course work designated ECED, EDAT, EDCD, EDCI, EDEP, EDIT, EDLE, EDPD, EDRD, EDRS, EDSE, and EDUC in the Courses section of this catalog. Students can pursue a Master's degree and up to two graduate certificates concurrently.

Collaborative Undergraduate Degree Licensure Programs

GSE supports undergraduate students from a variety of disciplines interested in education and teacher licensure. Seven collaborative undergraduate degree licensure programs are available. For more information, contact the GSE Undergraduate Academic Advisor at 703-993-2078, usie@gmu.edu, or visit usie.gmu.edu.

Dance Arts Licensure (PK–12)

Upon successful completion of the requirements for a BA or BFA in Dance, students may pursue course work that will allow them to attain licensure to teach dance in Virginia public school systems. For details, see Department of Dance in the College of Visual and Performing Arts section of this catalog.

Theatre Arts Licensure (PK–12)

Upon successful completion of the requirements for a BA in Theater with a concentration in Theater Education for Theatre Arts Pk-12, students may pursue course work that will allow them to attain licensure to teach Theatre Arts in Virginia public school systems. For details, see Department of Theater in the College of Visual and Performing Arts section of this catalog.

Concentration in Biology Education

Upon successful completion of the BA in Biology or the BS in Biology with a concentration in Biology Education, students can obtain licensure to teach biology in Virginia public school systems. For details, see the Biology Undergraduate Program and the Department of Environmental Science and Policy’s (ESP) collaborative Biology program in the College of Science section of this catalog.

Concentration in Chemistry Education

The BS in Chemistry with a concentration in Chemistry Education allows students to obtain licensure to teach chemistry in Virginia public school systems. For details, see the Department of Chemistry and Biochemistry in the College of Science section of this catalog.

Concentration in Earth Science Education

The BS in Earth Science with a concentration in Earth Science Education allows students to obtain licensure to teach earth science in Virginia public school systems. For details, see Department of Atmospheric, Oceanic and Earth Sciences in the College of Science section of this catalog.

Concentration in Mathematics Education

Upon successful completion of the BA in Mathematics or the BS in Mathematics with a concentration in Mathematics Education, students can obtain licensure to teach mathematics in Virginia Public school systems. For details, see Department of Mathematical Science in the College of Science section of this catalog.
Concentration in Music Education (PK–12)

The BM in Music with a concentration in Music Education allows students to obtain certification to teach in Virginia public school systems. Students may follow an instrumental or choral/general music emphasis in the curriculum. For details, see Department of Music in the College of Visual and Performing Arts section of this catalog.

Emphasis in Physics Education

The BS in Physics with an emphasis in Physics Education allows students to obtain licensure to teach high school physics in Virginia public school systems. For details, see School of Physics, Astronomy, and Computational Sciences in the College of Science section of this catalog.

Collaborative Graduate Degree Licensure Programs

Concentration in School Psychology

Upon successful completion of the MA in Psychology with a concentration in School Psychology and the School Psychology Graduate Certificate students can obtain licensure to work as a School Psychologist in Virginia public school systems. For details, see Department of Psychology in the College of Humanities and Social Sciences section of this catalog.

Theatre Arts Licensure (PK–12)

Upon successful completion of the requirements for a Teaching Theatre Arts PK–12 Graduate Certificate, students can obtain licensure to teach Theatre in Virginia public school systems. For details, see Department of Theater in the College of Visual and Performing Arts section of this catalog.

Visual Arts Licensure (PK–12)

Upon successful completion of the requirements for an Art Education Graduate Certificate, students can obtain licensure to teach Art in Virginia public school systems. For details, see School of Art in the College of Visual and Performing Arts section of this catalog.

Accelerated Master's Programs

The College of Education and Human Development collaborates with undergraduate programs to offer eleven accelerated Master's programs. For more information, see cehd.gmu.edu/amp.

Bachelor's Degree (any)/Special Education, Accelerated MEd

Biology, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Biology Concentration)

Chemistry, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Chemistry Concentration)

Earth Science, BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Earth Science Concentration)

English, BA/Curriculum and Instruction, Accelerated MEd (Secondary Education English Concentration)

Integrative Studies, BA (Elementary Education Concentration)/Curriculum and Instruction, Accelerated MEd (Elementary Education Concentration)
Integrative Studies, BA (Social Science for Education Concentration)/Curriculum and Instruction, Accelerated MEd (Secondary Education History and Social Science Concentration)

Mathematics, BA or BS/Curriculum and Instruction, Accelerated MEd, (Secondary Education Mathematics Concentration)

Physics, BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Physics Concentration)

Psychology, BA or BS/Educational Psychology, Accelerated MS (Assessment, Evaluation, and Testing Concentration)

Psychology, BA or BS/Educational Psychology, Accelerated MS (Learning, Cognition, and Motivation Concentration)

**Paul D. Coverdell Fellows and Master's International Programs (MIP)**

The FAST TRAIN (The Foreign Affairs' Spouses Teacher Training) Program is an approved site for the Paul D. Coverdell Fellows and Master's International Programs. While FAST TRAIN has traditionally prepared teachers for international service, it has entered into an agreement with the Peace Corps to offer the Paul D. Coverdell Fellows Program which trains returning volunteers to teach Elementary education or English as a Second Language (ESL) in multicultural settings in the Washington, D.C. metro area. FAST TRAIN also participates in the Peace Corps Master's International Program that prepares outgoing volunteers for their ESL teaching assignments abroad as well as provides a program for completion of English as a Second Language (ESL) licensure and a MEd in Curriculum and Instruction.

**Bachelor/Accelerated Master's**

**Bachelor's Degree (any)/Special Education, Accelerated MEd**

Highly qualified undergraduates may be admitted to a Bachelor's/Accelerated Master's program and obtain a BA or BS in any degree area and an MEd in Special Education in an accelerated time frame after completion of 144 credits.

This program of study is offered by the Graduate School of Education in the College of Education and Human Development.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to this accelerated master's program, see Application Requirements and Deadlines on the College of Education and Human Development web site.

**Degree Requirements**

Students complete the following courses in their senior year:

- EDSE 501 - Introduction to Special Education Credits: 3 (to be taken in the Fall semester)
- EDSE 503 - Language Development and Reading Credits: 3 or EDSE 557 - Foundations of Language and Literacy for Diverse Learners Credits: 3 (to be taken in the Spring semester)
- Two EDSE elective courses, approved by your advisor. One course should be taken in the Fall and the other in the Spring.

While undergraduate students, accelerated master's students are able to apply two of the courses listed above to both the Bachelor's and Master's degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be
earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor’s/Accelerated Master’s Transition Form and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

**Doctor of Philosophy**

**Education, PhD**

**Banner Code:** E1-PHD-EDUC

This 75-credit PhD in Education program is designed to advance professional study to develop research-informed expertise in a selected field of professional education. As a program of doctoral study, it emphasizes theory and research as much as it does practice, breadth of study as much as depth, and process as well as knowledge. It seeks to develop both knowledge and the skills useful in educational roles as well as the abilities to analyze and respond to problems in their relationships to various educational concerns. Students must satisfy all requirements for doctoral degree expressed in the Academic Policies section of this catalog.

**Admission Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admission section of this catalog.

Candidates for the PhD in Education are admitted to study by the College of Education and Human Development (CEHD). Admission is highly selective and applicants must fulfill the following admission requirements: a minimum of three years of successful experience as a practitioner in an educational setting, baccalaureate and master’s (or equivalent) degrees from accredited institutions, demonstrated high intellectual capability and leadership potential, three letters of recommendation and GRE general test scores including the writing assessment.

For more information, call the PhD in Education Office at 703-993-2011. Completed applications must be submitted to the CEHD Graduate Admissions Office by February 1 for summer or fall admission, or by September 1 for spring admission.

**Program Advisory Committee**

Student’s choose a program advisory committee of three George Mason University faculty members prior to the end of their second semester. It is chaired by the student’s major advisor who represents the student’s primary specialization. One member must represent the student’s secondary emphasis. The major functions of this committee include assessing the student’s goals, interests and academic needs, approving the program of study, monitoring the student’s progress through the program and evaluating the student’s three portfolio reviews.

**Program of Study**

A written program of study which lists all courses required to complete the program is used to verify that students have met all requirements at graduation. If changes are made in the program of study after its approval, the changes must be made in writing and submitted to the University Registrar’s Office with the Advancement of Candidacy paperwork.

**Degree Requirements**
Education doctoral candidates complete a minimum of 75 credits. PhD students are required to complete three portfolios at different stages in their program. Each student must demonstrate competence in oral and written English, mastery of knowledge and skills in the area of professional expertise, and the ability to apply general and specific knowledge and skills to significant educational problems.

Reduction of Credit (9 credits)

Students must have a master's degree before being admitted to the PhD in education. As such, admitted students will receive a reduction of 9 credits bringing the minimum coursework requirement total (including dissertation proposal and research) to 66 credits.

Core Requirements (30 credits)

All students pursuing the PhD in education take the following core courses, and dissertation:

General Culture (3 credits)

- EDUC 800 - Ways of Knowing Credits: 3

Research Methods (15 credits)

- EDRS 810 - Problems and Methods in Education Research Credits: 3
- EDRS 811 - Quantitative Methods in Educational Research Credits: 3
- EDRS 812 - Qualitative Methods in Educational Research Credits: 3

Select two additional courses from the following:

- EDRS 820 - Evaluation Methods for Educational Programs and Curricula Credits: 3
- EDRS 821 - Advanced Applications of Quantitative Methods Credits: 3
- EDRS 822 - Advanced Applications of Qualitative Methods Credits: 3
- EDRS 823 - Advanced Research Methods in Single Subject/Case Design Credits: 3
- EDRS 825 - Advanced Research Methods in Self-Study Credits: 3

Portfolio Review

All students are required to create electronic portfolios to define academic and professional goals; formulate specific plans to achieve those goals through coursework, research experiences, and field-based activities; demonstrate growth in understanding the specializations and how knowledge in them is advanced through inquiry; synthesize and reflect upon the process and results of learning activities; modify goals and plans as needed based on academic and reflective self-evaluation as well as feedback from the student's Program Advisory Committee and demonstrate readiness to proceed to the dissertation phase of the program.

The first portfolio review must be completed when 18 credits have been completed or before the end of the third semester. The second portfolio review must be scheduled at the completion of 36 credit hours. When students complete the coursework phase of the program, a final meeting is held with the Program Advisory Committee. This meeting is the context for conducting the comprehensive portfolio assessment, a formal evaluation of a student's readiness to proceed to the dissertation phase of the program which is analogous to the traditional doctoral comprehensive exam.

Advancement to Candidacy

Upon successful completion of all coursework and the comprehensive portfolio assessment, students are advanced to candidacy and enroll in EDUC 998, the Dissertation Proposal Seminar.
Dissertation Proposal and Research (12 credits)

Once enrolled in EDUC 998, students must maintain continuous registration for at least 1 credit; once enrolled in EDUC 999, students must follow the university continuous registration policy as specified in the Academic Policies section of this catalog.

- EDUC 998 - Doctoral Dissertation Proposal Credits: 1-6  Students must register for 3 credits the first semester enrolled in EDUC 998. Students preparing their proposal must register for 1 credit each semester thereafter until the proposal has been successfully defended.
- EDUC 999 - Doctoral Dissertation Research Credits: 1-9  Students must register for 3 or 6 credits the first semester enrolled in EDUC 999. Must register for at least 1 credit thereafter until all work has been completed including the semester in which degree is received.

Completion of Degree

Candidates for the Education, PhD may complete requirements for the degree with a concentration in Education Leadership, a concentration in Learning Technologies Design Research, a concentration in Science Education Research or without concentration, as described below.

PhD without Concentration (36 credits)

The PhD in Education program offers three concentrations. Students who do not wish to pursue a concentration must complete the doctoral program core requirements shown above and the following requirements:

Professional Specialization (24 credits)

Students select course work including: EDUC 994 - Advanced Internship in Education Credits: 3 based on their area of specialization.

Professional specializations include: counseling and development, early childhood education, education leadership, educational psychology, higher education, international education, literacy and reading, mathematics or science education leadership, multilingual/multicultural education, research methodology, special education, and teaching and teacher education.

Note: Students can choose to enroll in an optional internship EDUC 890 - Doctoral Internship in Education Credits: 1-6 designed to broaden their professional expertise. This internship must be taken in a setting that differs from the student’s work setting, and includes 100 clock hours of work.

Complementary Emphasis (12 credits)

Students may develop an emphasis from course work offered within CEHD or course work offered within other Mason units, in consultation with their advisor.

Note: In some situations, students can receive a reduction of 9 additional credits from their master's toward fulfillment of the emphasis requirement if their master's degree area of study is not the same as their doctoral specialization area and it aligns with their program of study. Students make this decision in consultation with their program advisory committee members.

Total: 36 credits

PhD with Concentration (36 credits)
All PhD candidates seeking to complete the degree with one of the three approved concentrations below must complete all core requirements including dissertation, as well as the requirements for their chosen field of concentration. The total credits required for core plus concentration coursework is 66. These credits, combined with the reduction awarded for the prior master's degree, satisfy the 75 credits required for the degree.

▲ Concentration in Education Leadership (EDLE)

The PhD concentration in Education Leadership provides comprehensive course work to prepare candidates for research focused on important issues in education leadership. Candidates will become familiar with a wide variety of theory bases and they will study empirical research in areas as diverse as historical, political, and sociological trends in education; the economics of education; and instructional leadership. The concentration is designed to provide a scaffold from which candidates can develop the skills and perspectives required to conduct independent research in the area of education leadership. Candidates are required to develop their own research interests and questions as they move through the concentration so that they will be very well prepared to write their doctoral dissertation proposal, conduct dissertation research, and write their doctoral dissertations.

In addition to the doctoral program core requirements shown above, students must complete the following curriculum to earn the concentration:

Concentration Required Courses (36 credits)

- EDLE 770 - Introduction to Education Leadership Credits: 3
- EDLE 801 - Contemporary Organization Theory Credits: 3
- EDLE 802 - Leadership and Decision Making Credits: 3
- EDLE 803 - Foundations of Education Leadership: Economics and Leadership Credits: 3
- EDLE 813 - Social and Political Forces in Education Leadership Credits: 3
- EDLE 815 - Conceptual Frameworks in Education Leadership Credits: 3
- EDLE 816 - Instructional Leadership-Curriculum Policy and Practice Credits: 3
- EDLE 818 - Instructional Leadership-Supervision Policy and Practice Credits: 3
- EDLE 895 - Emerging Issues in Administration and Supervision Credits: 3
- EDUC 870 - Education Policy: Process, Context, and Politics Credits: 3
- EDUC 994 - Advanced Internship in Education Credits: 3
- Elective research course (approved by advisor) Credits: 3

Note: The elective research course can be in the form of an independent study course (preferred) or in addition to the 12 proposal and dissertation research credits required by the university.

Total: 36 credits

▲ Concentration in Learning Technologies Design Research (LTDR)

The PhD concentration in Learning Technologies Design Research supports the in depth study of design-based research methods to address cross disciplinary design, development, and research in such areas as innovation and creativity in the design of learning technologies, design and assessment of K-12 technology solutions and technology teacher education, technology solutions to support those with disabilities, and emerging technologies and practices. This doctoral concentration engages doctoral students in real world, integrated design and research. Doctoral candidates complete a sequence of core courses as well as choosing from one of three specialization areas: instructional systems design, integration of technology in schools, or assistive technology.

In addition to the doctoral program core requirements shown above, students must complete the following curriculum to earn the concentration:
Concentration Required Courses (24 credits)

- EDIT 801 - Nature and Process of Design Credits: 3
- EDIT 802 - Cognition and Technology: A Multidisciplinary Approach Credits: 3
- EDIT 803 - Design-Based Research Credits: 3
- EDIT 891 - Design Research Practicum Credits: 1-9 (must register for 9 credits)
- EDIT 895 - Emerging Issues in Instructional Technology Credits: 3
- Elective course (approved by advisor) Credits: 3

Concentration Emphasis (12 credits)

Students must complete 12 credits of coursework to satisfy this requirement, including courses stipulated in the three emphases areas below. Additional courses must be chosen in consultation with an advisor.

Note: In some situations, students can receive a reduction of up to 12 additional credits from their master's degree toward fulfillment of this requirement if their master's degree area of study is the same as their concentration emphasis. Students make this decision in consultation with their program advisory committee members.

Assistive Technology Emphasis

- EDAT 610 - Designing Adapted Environments Credits: 3
- EDAT 649 - Assistive Technology Assessment Credits: 3
- EDIT 705 - Instructional Design Credits: 3
- EDIT 526 - Web Accessibility and Design Credits: 3

Instructional Systems Design Emphasis

- EDIT 705 - Instructional Design Credits: 3
- EDIT 730 - Advanced Instructional Design Credits: 3
- EDIT 732 - Analysis and Design of Technology-Based Learning Environments Credits: 3
- EDIT 752 - Design and Implementation of Technology-based Learning Environments Credits: 3

Integration of Technology in Schools Emphasis

- EDCI 710 - Technology and the Culture of Schools Credits: 3
- EDCI 712 - Technology and Learning Credits: 3
- EDCI 714 - Methods of Integration Credits: 3
- EDCI 716 - Principles of Technology Leadership Credits: 3

Total: 36 credits

▲ Concentration in Science Education Research (SCER)

The PhD concentration in Science Education Research supports the in depth study of students interested in research in science education. Such a comprehensive and systematic concentration designed around doctoral level courses supports the science education program's ability to offer a more robust and rigorous courses of study at the doctoral level. The major thrust of the science education research concentration is to prepare students for 21st century classrooms, to be collaborative, to produce and enhance critical thinking skills, and to embrace and foster creativity.
In addition to the doctoral program core requirements shown above, students must complete the following curriculum to earn the concentration:

Concentration Required Courses (18 credits)

- EDCI 810 - Foundations of Science Education Research Credits: 3
- EDCI 811 - Current Trends in Science Education Research Credits: 3
- EDCI 813 - Focused Science Education Research Credits: 3
- EDRS 827 - Development and Validation of Assessment Scales Credits: 3
- EDUC 994 - Advanced Internship in Education Credits: 3
- Cognition/Psychology elective course (approved by advisor) Credits: 3

Note:

Students must complete 12 credits of graduate level science coursework. Students must also select one specialization area to complete the program. The Program Advisory Committee and the committee chairperson must agree on both the 12 credits of graduate level science and the specialization courses.

Concentration Specializations (18 credits)

Science Teacher Education Specialization

The Science Teacher Education specialization of the science education research concentration provides the knowledge and skills to craft effective research on science education in K-12 settings and teacher preparation programs. Graduates of this pillar are prepared to assume positions at research focused universities and/or government agencies.

- Specialization coursework selected with advisor approval Credits: 12
- Cognition/Psychology coursework selected with advisor approval Credits: 6

Non-Formal Science Education Specialization

Non-Formal Science Education Specialization of the science education research concentration provides the knowledge and skills to craft effective research on science education in non-formal settings such as museums, science centers, zoos and aquariums. Graduates of this pillar are prepared to assume positions at research focused at the aforementioned non-formal settings.

- Specialization coursework selected with advisor approval Credits: 12
- Cognition/Psychology course selected with advisor approval Credits: 3
- Advanced science teaching methods course selected with advisor approval Credits: 3

University Science Education Specialization

The University Science Education Specialization of science education research concentration provides the knowledge and skills to craft effective research on science education in science content departments at the university level. Graduates of this pillar are prepared to assume positions at research focused universities and/or government agencies where a thrust on pedagogical research in the science at the undergraduate and graduate levels.

- Specialization coursework selected with advisor approval Credits: 12
- Cognition/Psychology course selected with advisor approval Credits: 3
- Advanced science teaching methods course selected with advisor approval Credits: 3
Graduate Certificate

Applied Behavior Analysis Graduate Certificate

Banner Code: E1-CERG-ABAC

This 18-credit non-licensure certificate is designed to increase the professional training of individuals responsible for designing, implementing, and monitoring behavioral treatment programs in schools, agencies (such as psychiatric hospitals), and training centers for people with severe disabilities.

The graduate certificate in Applied Behavior Analysis may be pursued on a part-time basis only unless students complete the certificate in conjunction with the optional internship. With internship the program may be pursued on a full-time basis.

Certificate Requirements

- EDSE 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy Credits: 3
- EDSE 621 - Applied Behavior Analysis: Empirical Bases Credits: 3
- EDSE 623 - Applied Behavior Analysis: Assessments and Interventions Credits: 3
- EDSE 624 - Applied Behavior Analysis: Applications Credits: 3
- EDSE 625 - Applied Behavior Analysis: Verbal Behavior Credits: 3
- EDSE 664 - Ethical and Professional Conduct for Behavior Analysis Credits: 3

Note

EDSE 790 - Internship in Special Education may be taken to meet the Behavior Analysis Certification Board (BACB) supervised practicum requirements.

Total: 18 credits

Assistive Technology Graduate Certificate

Banner Code: E1-CERG-AT

This 15-credit certificate provides supplemental training for practitioners, families, and caregivers who use assistive technology while working with people with disabilities. The certificate is appropriate for general and special educators, related service personnel, adult service providers, and families and caregivers who need to apply assistive technology solutions within their specific discipline or school, work, home, or community setting.

The graduate certificate in Assistive Technology may be pursued on a part-time or full-time basis.

Certificate Requirements

- EDAT 510 - Introduction to Assistive Technology Credits: 3
• EDAT 610 - Designing Adapted Environments Credits: 3

Electives

Choose 9 credits from the following:

• EDAT 521 - Augmentative Communication Credits: 3
• EDAT 522 - Assistive Technology for Individuals with Sensory Impairments Credits: 3
• EDAT 523 - Accessibility and Input Modifications Credits: 3
• EDAT 524 - Universal Design for Learning Credits: 3
• EDAT 525 - Software and Mobile Applications for Individuals with Disabilities Credits: 3
• EDAT 530 - Assistive Technology for Independent Living Credits: 3
• EDAT 531 - Assistive Technology in the Workplace Credits: 3
• EDAT 597 - Special Topics in Assistive Technology Credits: 1-6
• EDAT 599 - Independent Study in Assistive Technology Credits: 1-6
• EDIT 526 - Web Accessibility and Design Credits: 3

Total: 15 credits

Counseling Licensure Post-Master's Graduate Certificate

Banner Code: E1-CERG-PCLC

This 15-credit certificate is designed for individuals who possess a master's degree in counseling or a highly-related field and seek 15 credits of post-graduate coursework to meet licensure requirements as a Virginia School Counselor or Virginia Licensed Professional Counselor. Applicants with master's degrees outside of counseling who would like to meet licensure requirements as a Virginia Licensed Professional Counselor, must verify course equivalency with the Virginia Board of Counseling (see Board of Counseling content area list at http://www.dhp.state.va.us/counseling/). Applicants with more than seven courses to take to meet the course content requirements for licensure must apply to one of our master's degree programs.

Once accepted into the post master's graduate certificate program, students individually tailor their coursework with an advisor to meet licensure requirements and may enroll for the courses listed below or other core program courses as needed.

The graduate certificate in Counseling Licensure Post-Master's may only be pursued on a part-time basis.

Certificate Requirements

Virginia School Counselor

Choose 15 credits from the following Virginia School Counseling courses listed below. Students studying for the M.Ed in Counseling and Development may also meet Virginia School Counselor licensure requirements through coursework offered under the M.Ed in Counseling and Development School Counseling PK-12 concentration of study.

• EDCD 606 - Counseling Children and Adolescents Credits: 4
• EDCD 611 - Introduction to Ethical and Legal Issues in School Counseling Credits: 2
• EDCD 626 - Principles and Practices of School Counseling Credits: 3
• EDCD 755 - Practicum in Counseling Credits: 3
• EDCD 791 - Internship in Counseling Credits: 3
• EDCD 797 - Advanced Topics in Education Credits: 1-6

Total: 15 credits

Licensed Professional Counselor

Choose 15 credits from the following Licensed Professional Counselor courses listed below. Students studying for the M.Ed in Counseling and Development may also meet Virginia Licensed Professional Counselor licensure requirements through coursework offered under the M.Ed in Counseling and Development Community Agency Counseling concentration of study.

• EDCD 609 - Advanced Counseling Skills and Strategies Credits: 4
• EDCD 652 - Introduction to Substance Abuse Counseling Credits: 3
• EDCD 654 - Counseling, Ethics, and Consultation in Community Agencies Credits: 3
• EDCD 656 - Diagnosis and Treatment Planning for Mental Health Professionals Credits: 3
• EDCD 658 - Couples and Family Counseling Credits: 3
• EDCD 755 - Practicum in Counseling Credits: 3
• EDCD 791 - Internship in Counseling Credits: 3
• EDCD 797 - Advanced Topics in Education Credits: 1-6

Total: 15 credits

Data-Driven Decision-Making for Continuous Educational Improvement Graduate Certificate

Banner Code: E1-CERG-DDDM

This 12-credit certificate prepares teachers and building and district-level leaders to analyze and interpret a variety of student performance assessments in order to improve instruction and student learning. The four carefully sequenced courses for the certificate focus on developing meaningful teacher-created and classroom-based student assessments, interpreting both informal and formal assessment data, and using those data in making curricular decisions. Practicing teachers and other school leaders will have the opportunity to apply assessment and decision-making skills to their own classrooms or schools. Credits earned for the certificate may be applied toward the Master’s of Science degree in Educational Psychology.

The graduate certificate in Data-Driven Decision-Making for Continuous Educational Improvement may only be pursued on a part-time basis.

Certificate Requirements

• EDEP 591 - Data-Driven Decision Making for Continuous Educational Improvement Credits: 3
• EDEP 592 - Data-Driven Decision-Making: Development of Assessments Credits: 3
• EDEP 593 - Data-Driven Decision Making: Analysis and Interpretation of Assessment Data Credits: 3
• EDEP 594 - Data-Driven Decision-Making Application in Education Contexts Credits: 3

Total: 12 credits

E-Learning Graduate Certificate
Banner Code: E1-CERG-ELRN

This 15-credit certificate provides professionals with specialized knowledge in instructional design and e-learning practices that utilize current and emerging technologies to meet education and training goals in schools, communities, government agencies, and corporate settings. Courses are available online to meet the needs of students who find it difficult to attend our face-to-face courses.

The graduate certificate in E-Learning may only be pursued on a part-time basis.

Certificate Requirements

- EDIT 526 - Web Accessibility and Design Credits: 3
- EDIT 611 - Innovations in e-Learning Credits: 3
- EDIT 705 - Instructional Design Credits: 3

Electives

E-Learning elective courses are offered for variable credit each semester and cover industry-standard commercial and open source software tools.

Select 6 credits from the following:

- EDIT 530 - Scripting and Programming Credits: 2
- EDIT 571 - Visual Design and Applications Credits: 1-3
- EDIT 572 - Digital Audio/Video Design and Applications Credits: 1-3
- EDIT 573 - Project Management Credits: 1-3
- EDIT 574 - Social Media and Digital Collaboration Applications Credits: 1-3
- EDIT 575 - e-Learning Design Applications Credits: 1-3
- EDIT 771 - Overview of Digital Media Credits: 1-3
- EDIT 772 - Virtual Worlds, Augmented Reality, and Gaming Applications Credits: 1-3

Total: 15 credits

Early Childhood Education PK-3 (Licensure) Graduate Certificate

Banner Code: E1-CERG-EPK3

This 30-credit hour certificate offers required coursework for teacher licensure in Early Childhood Education PK-3. Students who have completed graduate or undergraduate coursework prior to admission to this graduate certificate program may request that courses in this program be waived based on prior coursework. Students who are eligible to waive coursework must complete a minimum of 15 credits to graduate with the Early Childhood Education PK-3 Graduate Certificate.

The graduate certificate in Early Childhood Education PK-12 (Licensure) may be pursued on a part-time or full-time basis.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit the disclosure information page at: http://irr.gmu.edu/new/N_IRRHome/HEOA/Gainful.cfm

Certificate Requirements
Portfolio Requirement

A professional portfolio is required. The portfolio reflects the student's professional development throughout the program and contains examples of performance assessments associated with standards.

Total: 30 credits

Early Childhood Special Education (Licensure) Graduate Certificate

Banner Code: E1-CERG-SPEC

This 33-credit certificate offers required coursework for teacher licensure in Early Childhood Special Education. Students who have completed graduate or undergraduate coursework prior to admission to this graduate certificate program may request that courses in this program be waived based on prior coursework. Students who are eligible to waive coursework must complete a minimum of 15 credits to graduate with the Early Childhood Special Education Graduate Certificate.

The Early Childhood Special Education (Licensure) Graduate Certificate may be pursued on a part-time or full-time basis.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit the disclosure information page at: http://irr.gmu.edu/new/N_IRRHome/HEOA/Gainful.cfm

Certificate Requirements

- ECED 501 - Developmental Pathways of Diverse Learners, Birth-Adolescence Credits: 3
- ECED 502 - Foundations of Language and Literacy for Diverse Young Learners Credits: 3
- ECED 503 - Inclusive Curriculum for Young Learners: Planning Instruction and Guidance Credits: 3
- ECED 504 - Families, Communities, and Schools Credits: 3
- ECED 511 - Assessment of Diverse Young Learners Credits: 3
- ECED 512 - Language and Literacy Assessment and Instruction for Diverse Young Learners Credits: 3
- ECED 513 - Curriculum Across the Content Areas for Diverse Young Learners Credits: 3
- ECED 514 - Mathematics and Science for Diverse Young Learners Credits: 3
- ECED 521 - Family-Centered Assessment of Diverse Young Learners Credits: 3
- ECED 522 - Developing Language, Literacy, and Communication of Diverse Young Learners Credits: 3
- ECED 523 - Early Intervention for Infants and Toddlers with Disabilities: Collaborative and Consultative Approaches Credits: 3
- ECED 524 - Families of Children with Special Needs Credits: 3
- ECED 791 - Internship in Early Childhood Special Education Credits: 1-6 (Must register for 3 credits)
- ECED 793 - Internship in Preschool Early Childhood Special Education Credits: 3

**Portfolio Requirement**

A professional portfolio is required. The portfolio reflects the student's professional development throughout the program and contains examples of performance assessments associated with standards.

**Total: 33 credits**

**English as a Second Language (ESL/ESOL)/Special Education Graduate Certificate**

**Banner Code:** E1-CERG-ELSE

This 18-credit certificate offers course work for students and professionals seeking crossover training in ESL/ESOL and special education.

The graduate certificate in English as a Second Language (ESL/ESOL)/Special Education may only be pursued on part-time basis.

**Certificate Requirements**

- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 519 - Methods of Teaching Multilingual Students Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDSE 501 - Introduction to Special Education Credits: 3
  or
- EDSE 540 - Characteristics of Students with Disabilities who Access the General Curriculum Credits: 3
- EDSE 503 - Language Development and Reading Credits: 3
- EDSE 626 - The Inclusive Classroom Credits: 3
  or
- EDSE 628 - Elementary Reading, Curriculum, and Strategies for Students who Access the General Education Curriculum Credits: 3
  or
- EDSE 629 - Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum Credits: 3

**Total: 18 credits**

**English as a Second Language (Licensure) Graduate Certificate**

**Banner Code:** E1-CERG-CISL

This 30-credit certificate offers course work leading to teacher licensure (Virginia) in English as a Second Language. Candidates whose first language is not English may be required to pass an oral and written proficiency assessment in English to meet state licensure requirements and national professional standards.
Prerequisite for admission: Six credits of a modern foreign language. Course work may be taken at either the graduate or undergraduate level and does not count towards meeting the total credit hour requirement for the certificate.

The graduate certificate in English as a Second Language (Licensure) may only be pursued on part-time basis.

Certificate Requirements

- EDCI 510 - Linguistics for PreK-12 ESOL Teachers Credits: 3
- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 519 - Methods of Teaching Multilingual Students Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits)
- EDRD 525 - Emergent Literacy for English Language Learners, PK-12 Credits: 3
- EDRD 610 - Content Literacy for English Language Learners, PK-12 Credits: 3
- EDUC 537 - Foundations of Multicultural Education Credits: 3
- EDUC 539 - Human Development and Learning PK-12 Credits: 3

Total: 30 credits

FAST TRAIN Advanced International Baccalaureate (Studies) Graduate Certificate

Banner Code: E1-CERG-ADIB

This 15-credit certificate provides advanced professional development for teachers on the philosophy, elements, and assessments of the Primary Years Programme (PYP), Middle Years Programme (MYP), and Diploma Programme (DP). The course work focuses on the theory, pedagogy, and research under-girding the International Baccalaureate programs.

The graduate certificate in FAST TRAIN Advanced International Baccalaureate (Studies) may be pursued on a part-time or full-time basis.

Certificate Requirements

- EDUC 621 - Teaching and Learning in the International Baccalaureate Primary Years Program Credits: 3
- EDUC 622 - Curriculum Development across IB Programs Credits: 3
- EDUC 623 - Models and Strategies for Teaching and Learning in IB Schools Credits: 3
- EDUC 624 - Assessment and Learning in IB Schools Credits: 3
- EDUC 626 - Inquiry into Action: IB Teachers, Learners, and Schools Credits: 3

Note:

Upon completion of all requirements, teachers holding certification or those with at least three years of full time teaching in their designated level are eligible for the International Baccalaureate Certificate in Teaching and Learning.

Total: 15 credits
FAST TRAIN Special Education Graduate Certificate

Banner Code: E1-CERG-SPFT

This 15-credit certificate is designed for pre-service and in-service international teachers and educators who desire additional training in special education. All course work may be applied to the MEd in Special Education and will count towards Virginia licensure in special education K-12.

The graduate certificate in FAST TRAIN Special Education may only be pursued on a part-time basis.

Certificate Requirements

- EDSE 501 - Introduction to Special Education Credits: 3
- EDSE 502 - Classroom Management and Applied Behavior Analysis Credits: 3
- EDSE 540 - Characteristics of Students with Disabilities who Access the General Curriculum Credits: 3
- EDSE 627 - Assessment Credits: 3
- EDSE 662 - Consultation and Collaboration Credits: 3

Note:

Most course work has some field experience component

Total: 15 credits

Foreign Language Licensure Graduate Certificate

Banner Code: E1-CERG-FLNC

This 27-credit certificate offers course work for teacher licensure to students enrolled in non-licensure graduate programs at Mason.

The graduate certificate in Foreign Language Licensure may only be pursued on a part-time basis.

Certificate Requirements

- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDCI 560 - Methods of Teaching in Foreign/World Languages Credits: 3
- EDCI 684 - Advanced Methods of Teaching Foreign/Second Languages in PK-12 Schools Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (must register for 6 credits)
- EDRD 620 - Reading/Writing in Foreign/World Languages Credits: 3
- EDUC 537 - Foundations of Multicultural Education Credits: 3
- EDUC 539 - Human Development and Learning PK-12 Credits: 3

Total: 27 credits
Gifted Child Education Graduate Certificate

Banner Code: E1-CERG-AGCE

This 21-credit certificate is designed for professionals who are interested in working with gifted children. Students completing this certificate fulfill the requirements for add-on endorsement in gifted education for currently licensed teachers.

The graduate certificate in Gifted Child Education may only be pursued on a part-time basis.

Certificate Requirements

- EDCI 621 - Introduction to Gifted and Talented Learners Credits: 3
- EDCI 622 - Curriculum Differentiation for Diverse Learners Credits: 3
- EDCI 623 - Models and Strategies for Teaching Gifted Learners Credits: 3
- EDCI 624 - Assessment, Identification, and Evaluation of Gifted Learners Credits: 3
- EDCI 625 - Contemporary Issues and Trends in Gifted Education Credits: 3
- EDCI 626 - Action Research in Gifted Education Credits: 3
- EDCI 627 - Advanced Practicum in Gifted Education Credits: 3

Note

One year of successful full-time teaching in an accredited public or non-public school may be accepted in lieu of the EDCI 627 - Practicum (VA Licensure Regulations for School Personnel, 1998).

Total: 21 credits

Integration of Online Learning in Schools Graduate Certificate

Banner Code: E1-CERG-IOLS

This 16-credit certificate meets the needs of K-12 educators interested in teaching in blended as well as fully online learning environments. The certificate is offered fully online.

The graduate certificate in integration of online learning in schools may only be pursued on a part-time basis.

Certificate Requirements

- EDIT 760 - Online Teachers and Learners Credits: 1
- EDIT 761 - Models of Online Learning Credits: 2
- EDIT 762 - Quality K-12 Online Learning Credits: 1
- EDIT 763 - Tools for K-12 Online Learning Credits: 2
- EDIT 764 - The ART of Online Communication Credits: 3
- EDIT 765 - Facilitating K-12 Online Learning Credits: 2
- EDIT 766 - Understanding Online Presence Credits: 2
- EDIT 767 - Designing K-12 Online Learning Credits: 3

Total: 16 credits
Integration of Technology in Schools Graduate Certificate

Banner Code: E1-CERG-ITIS

This 15-credit certificate is offered to teachers who wish to gain the necessary knowledge and skills for integrating technology into the K–12 curriculum. It is designed to fulfill state-mandated technology competencies for teachers.

The graduate certificate in Integration of Technology in Schools may only be pursued on a part-time basis.

Certificate Requirements

- EDCI 714 - Methods of Integration Credits: 3
- EDIT 561 - Teaching with Telecommunications Credits: 1
- EDIT 562 - Teaching with Databases Credits: 1
- EDIT 563 - Teaching with Graphics Credits: 1
- EDIT 564 - Teaching with Web 2.0 Credits: 2
- EDIT 565 - Teaching with Educational Software Credits: 1
- EDIT 566 - Teaching with Multimedia/Hypermedia Credits: 2
- EDIT 567 - Teaching with Desktop Publishing Credits: 2
- EDIT 568 - Teaching with the Web Credits: 2

Total: 15 credits

Literacy: K-12 Reading Specialist Graduate Certificate

Banner Code: E1-CERG-LTRS

This 21-credit certificate, a state-approved (Virginia) sequence of courses leading to reading specialist licensure, is designed for teachers who have a master’s degree. Course work includes foundational knowledge, instructional and assessment strategies for individuals and groups, and preparation as a literacy coach and staff developer. Licensure also requires a master’s degree, passing the Virginia Reading Assessment, and three years of teaching under contract.

The graduate certificate in Literacy: K-12 Reading Specialist may only be pursued on a part-time basis.

Certificate Requirements

- EDRD 630 - Advanced Literacy Foundations and Instruction, Birth to Middle Childhood Credits: 3
- EDRD 631 - Advanced Literacy Foundations and Instruction, Adolescence through Adulthood Credits: 3
- EDRD 632 - Literacy Assessments and Interventions for Groups Credits: 3
- EDRD 633 - Literacy Assessments and Interventions for Individuals Credits: 3
- EDRD 634 - School-Based Leadership in Literacy Credits: 3
- EDRD 635 - School-Based Inquiry in Literacy Credits: 3
- EDRD 637 - Supervised Literacy Practicum Credits: 2-3 (must register for 3 credits)

Total: 21 credits
NPST: Teaching Historic Places with Diverse Populations Graduate Certificate

Banner Code: E1-CERG-ITHP

This one-year 15-credit graduate certificate cohort program offered by Initiatives in Educational Transformation (IET) supports experienced history/social studies teachers and park rangers to develop skills as critically reflective history educators who continually rethink the routines and assumptions that shape their work with diverse populations. Class days are designed to complement a teacher's schedule during the summer and school year. Specific information is available from the Initiatives in Educational Transformation web site, or calling 703-993-8320.

The graduate certificate in NPST: Teaching Historic Places with Diverse Populations may only be pursued on a part-time basis.

Certificate Requirements

- IETT 750 - Studies in Language and Culture I Credits: 3
- IETT 754 - Introduction to Teaching Historic Places with Diverse Populations Credits: 1
- IETT 755 - Advanced Teaching Historic Places with Diverse Populations Credits: 2
- MNPE 700 - The New Professionalism: Theory and Practice Credits: 3
- MNPE 703 - Technology and Learning in the New Professions Credits: 3
- MNPE 704 - Research Methodologies in the New Professionalism Credits: 3

Total: 15 credits

Secondary Education Licensure Graduate Certificate

Banner Code: E1-CERG-SELC

This 21-credit certificate offers course work towards teacher licensure (Virginia) to students enrolled in non-licensure graduate programs at Mason or those who already have a master’s degree.

The graduate certificate in Secondary Education Licensure may be pursued on a part-time or full-time basis. This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit the disclosure information page at: http://irr.gmu.edu/new/N_IRRHome/HEOA/Gainful.cfm

Certificate Requirements

Core (15 credits)

- EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits)
- EDRD 619 - Literacy in Content Areas Credits: 3
- EDUC 522 - Foundations of Secondary Education Credits: 3
- EDUC 672 - Human Development and Learning: Secondary Education Credits: 3

Curriculum and Methods (3 credits)
Choose one content course specific to your program from the following:

- EDCI 567 - Teaching Social Studies in the Secondary School Credits: 3
- EDCI 569 - Teaching English in the Secondary School Credits: 3
- EDCI 572 - Teaching Mathematics in the Secondary School Credits: 3
- EDCI 573 - Teaching Science in the Secondary School Credits: 3

**Advanced Curriculum and Methods (3 credits)**

Choose one content course specific to your program from the following:

- EDCI 667 - Advanced Methods of Teaching Social Sciences in the Secondary School Credits: 3
- EDCI 669 - Advanced Methods of Teaching English in the Secondary School Credits: 3
- EDCI 672 - Advanced Methods of Teaching Mathematics in the Secondary School Credits: 3
- EDCI 673 - Advanced Methods of Teaching Science in the Secondary School Credits: 3

**Total: 21 credits**

**Special Education Leadership Graduate Certificate**

**Banner Code: E1-CERG-SELE**

This 15-credit non-licensure certificate provides training for educators who administer program implementation efforts for learners with exceptional needs. It is designed for those who have an interest in becoming special education directors, program coordinators, school building administrators, department chairs, or lead teachers; however, opportunities beyond special education also exist.

The graduate certificate in Special Education Leadership may only be pursued on a part-time basis.

**Certificate Requirements**

- EDSE 743 - Leadership in Special Education Administration Credits: 3
- EDSE 744 - Current Issues in Special Education Credits: 3

**Electives**

Choose 9 credits from the following:

- EDSE 626 - The Inclusive Classroom Credits: 3
- EDSE 701 - Legal Issues and Special Populations Credits: 3
- EDSE 702 - Managing Resources for Special Education Programs Credits: 3
- EDSE 703 - Creating a Collaborative Culture Credits: 3

**Total: 15 credits**
Students with Disabilities who Access the Adapted Curriculum Graduate Certificate

Banner Code: E1-CERG-SDAC

This 36-credit hour certificate offers required course work for Virginia teacher licensure in Special Education: Adapted Curriculum. Students who have completed graduate or undergraduate coursework prior to admission to this graduate certificate program may request that courses in this program be waived based on prior coursework. Students who are eligible to waive coursework must complete a minimum of 15 credits to graduate with the Students with Disabilities who Access the Adapted Curriculum Graduate Certificate.

The Students with Disabilities who Access the Adapted Curriculum Graduate Certificate program may be pursued on a part-time or full-time basis.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit the disclosure information page at: http://irr.gmu.edu/new/N_IRRHome/HEOA/Gainful.cfm

Certificate Requirements

- EDSE 501 - Introduction to Special Education Credits: 3
- EDSE 531 - Transition and Community-Based Instruction Credits: 3
- EDSE 532 - Positive Behavior Supports Credits: 3
- or
- EDSE 502 - Classroom Management and Applied Behavior Analysis Credits: 3
- EDSE 533 - Curriculum and Assessment in Severe Disabilities Credits: 3
- EDSE 534 - Communication and Severe Disabilities Credits: 3
- EDSE 547 - Medical and Developmental Risk Factors for Children with Disabilities Credits: 3
- EDSE 557 - Foundations of Language and Literacy for Diverse Learners Credits: 3
- EDSE 661 - Curriculum and Methods: Severe Disabilities Credits: 3
- EDSE 662 - Consultation and Collaboration Credits: 3
- EDSE 669 - Interdisciplinary Approach for Children with Sensory and Motor Disabilities Credits: 3
- EDSE 790 - Internship in Special Education Credits: 1-6 (Must complete six credits of internship)

Total: 36 credits

Exit Requirement

Students enrolled in the Students with Disabilities who Access the Adapted Curriculum Graduate Certificate must demonstrate evidence of either: a) passing the Praxis II Elementary Education Content Knowledge Exam, or b) successful completion of an approved Praxis II Elementary Preparation course.

Students with Disabilities who Access the General Curriculum Graduate Certificate

Banner Code: E1-CERG-SDGC
This 33-credit certificate offers required course work for Virginia teacher licensure to individuals who will be working with students with disabilities who access the general curriculum. The program prepares individuals to work with students with disabilities who take Standards of Learning tests (SOLs) or Virginia Grade Level Assessments (VGLA). Students who have completed graduate or undergraduate coursework in a university program prior to admission to the certificate may request that courses in the certificate program be waived based on the content in prior coursework. Students waiving coursework must complete a minimum of 15 credits to be eligible for the certificate.

The graduate certificate in Students with Disabilities who Access the General Curriculum may be pursued on a part-time or full-time basis.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit the disclosure information page at: http://irr.gmu.edu/new/N_IRRHome/HEOA/Gainful.cfm

Certificate Requirements

- EDSE 501 - Introduction to Special Education Credits: 3
- EDSE 502 - Classroom Management and Applied Behavior Analysis Credits: 3
- EDSE 503 - Language Development and Reading Credits: 3
- EDSE 540 - Characteristics of Students with Disabilities who Access the General Curriculum Credits: 3
- EDSE 544 - Adapted Instructional Methods and Transition for Secondary Learners Credits: 3
- EDSE 627 - Assessment Credits: 3
- EDSE 628 - Elementary Reading, Curriculum, and Strategies for Students who Access the General Education Curriculum Credits: 3
- EDSE 629 - Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum Credits: 3
- EDSE 662 - Consultation and Collaboration Credits: 3
- EDSE 790 - Internship in Special Education Credits: 1-6 (Must complete two 3-credit internships: one elementary placement and one secondary placement)

Total: 33 credits

TFA - Special Education (Teach for America) Graduate Certificate

Banner Code: E1-CERG-TSE

This 31-credit certificate is designed to prepare Teach for America Corp Members to teach culturally, linguistically, and ability diverse special education students. Entry into program is restricted to Teach for America corps members.

The graduate certificate in TFA - Special Education (Teach for America) may only be pursued on a full-time basis.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit the disclosure information page at: http://irr.gmu.edu/new/N_IRRHome/HEOA/Gainful.cfm

Certificate Requirements

- EDSE 501 - Introduction to Special Education Credits: 3
- EDSE 502 - Classroom Management and Applied Behavior Analysis Credits: 3
Visual Impairments Licensure, PK-12 Graduate Certificate

Banner Code: E1-CERG-VILI

This 33-credit certificate is designed for students seeking Virginia initial teacher licensure in visual impairments (PK–12). Students must complete EDSE 501 either prior to admission to the certificate or can take it in their first semester. Students who have completed graduate or undergraduate coursework in a university program prior to admission to the certificate may request that courses in the certificate program be waived based on the content in prior coursework. Students waiving coursework must complete a minimum of 15 credits to be eligible for the certificate.

The graduate certificate in visual impairments licensure, PK-12 may be pursued on a part-time or full-time basis.

Certificate Requirements

- EDAT 522 - Assistive Technology for Individuals with Sensory Impairments Credits: 3
- EDSE 511 - Characteristics of Students with Visual Impairments Credits: 1
- EDSE 512 - Braille Code Credits: 3
- EDSE 513 - Medical and Educational Implications of Visual Impairments Credits: 3
- EDSE 514 - Orientation and Mobility for Students with Visual Impairments Credits: 2
- EDSE 518 - Curriculum and Assessment of Students with Visual Impairments Credits: 3
- EDSE 532 - Positive Behavior Supports Credits: 3
- EDSE 613 - Teaching Methods for Students with Visual Impairments Credits: 3
- EDSE 616 - Braille Reading and Writing Credits: 3
- EDSE 662 - Consultation and Collaboration Credits: 3
- EDSE 790 - Internship in Special Education Credits: 1-6 (Must complete six credits of internship)

Total: 33 credits
This master’s program emphasizes the integration of theory and practice, and culminates with an internship in an appropriate setting. Students may choose one of two concentrations: Community Agency Counseling (52 credits) or School Counseling (45 credits).

**Grading Policy**

Students enrolled in this degree program must earn a B or higher in Counseling skills courses (EDCD 603, EDCD 606, EDCD 608, EDCD 609, EDCD 755) and in all licensure course work. Students are permitted to repeat a course only once.

▲ **Concentration in Community Agency Counseling (CA)**

**Course Work**

- EDCD 609 - Advanced Counseling Skills and Strategies Credits: 4
- EDCD 652 - Introduction to Substance Abuse Counseling Credits: 3
- EDCD 654 - Counseling, Ethics, and Consultation in Community Agencies Credits: 3
- EDCD 656 - Diagnosis and Treatment Planning for Mental Health Professionals Credits: 3
- EDCD 658 - Couples and Family Counseling Credits: 3
- EDCD 797 - Advanced Topics in Education Credits: 1-6 (Must register for 2 credits)

**MEd Requirements (28 credits)**

- EDCD 525 - Advanced Human Growth and Development Credits: 3
- EDCD 601 - Introduction to Research in Counseling Credits: 3
- EDCD 602 - Foundations in Counseling Credits: 3
- EDCD 603 - Counseling Theories and Practice Credits: 3
- EDCD 604 - Assessment and Appraisal in Counseling Credits: 3
- EDCD 608 - Group Processes and Analyses Credits: 4
- EDCD 610 - Career and Educational Counseling Credits: 3
- EDCD 628 - Counseling and Social Justice Credits: 3
- EDCD 660 - Multicultural Counseling Credits: 3

**Practicum and Internship (6 credits)**

- EDCD 755 - Practicum in Counseling Credits: 3
- EDCD 791 - Internship in Counseling Credits: 3

**Total: 52 credits**

▲ **Concentration in School Counseling PK–12 (SC)**

**Course Work**

- EDCD 606 - Counseling Children and Adolescents Credits: 4
• EDCD 611 - Introduction to Ethical and Legal Issues in School Counseling Credits: 2
• EDCD 626 - Principles and Practices of School Counseling Credits: 3
• EDCD 797 - Advanced Topics in Education Credits: 1-6 (Must register for 2 credits)

MEd Requirements (28 credits)

• EDCD 525 - Advanced Human Growth and Development Credits: 3
• EDCD 601 - Introduction to Research in Counseling Credits: 3
• EDCD 602 - Foundations in Counseling Credits: 3
• EDCD 603 - Counseling Theories and Practice Credits: 3
• EDCD 604 - Assessment and Appraisal in Counseling Credits: 3
• EDCD 608 - Group Processes and Analyses Credits: 4
• EDCD 610 - Career and Educational Counseling Credits: 3
• EDCD 628 - Counseling and Social Justice Credits: 3
• EDCD 660 - Multicultural Counseling Credits: 3

Practicum and Internship (6 credits)

• EDCD 755 - Practicum in Counseling Credits: 3
• EDCD 791 - Internship in Counseling Credits: 3

Total: 45 credits

Curriculum and Instruction, MEd

Banner Code: E1-MED-CRIN

This master’s degree is offered to students preparing for initial teacher licensure, advanced teacher education, and ancillary educational programs.

An accelerated master's option for specific concentrations is available to students in selected bachelor's programs. See Bachelor's/Accelerated Master's Programs for options and specific requirements.

MEd with Concentration

Each concentration description wholly describes the requirements for the degree and concentration.

Students may choose up to two of the following concentrations:

Advanced Studies in Teaching and Learning (ASTL)

• Concentration in ASTL: Advanced International Baccalaureate (AIB)
• Concentration in ASTL: Early Childhood Education (AECE)
• Concentration in ASTL: Elementary Mathematics (AEMA)
• Concentration in ASTL: Foreign Language French (AFLF)
• Concentration in ASTL: Foreign Language Spanish (AFLS)
• Concentration in Gifted Child Education (AGCE)
• Concentration in ASTL: History (AHIS)
• Concentration in ASTL: Individualized (AATL)
• Concentration in ASTL: PK–12 Classroom Teachers (AP12)
• Concentration in ASTL: Literacy: Reading Specialist (ALRS)
• Concentration in ASTL: Secondary Mathematics Education, Grades 6-12 (AMT6)
• Concentration in ASTL: Physical Education (APED)
• Concentration in ASTL: Science K-12 (AS12)
• Concentration in ASTL: Special Education (ASPE)
• Concentration in ASTL: Teacher Leadership (ATL)

**Early Childhood Education**

• Concentration in Early Childhood Education for Diverse Learners (ECDL)
• Concentration in TFA- Early Childhood Education (Teach for America) (TECE)

**Elementary Education**

• Concentration in Elementary Education (ELED)
• Concentration in TFA- Elementary Education (Teach for America) (TEED)

**Foreign Language**

• Concentration in English as a Second Language (PK-12)(CISL)
• Concentration in Foreign Language: Arabic (EARB)
• Concentration in Foreign Language: Chinese (ECHN)
• Concentration in Foreign Language: French (EFRN)
• Concentration in Foreign Language: German (EGRM)
• Concentration in Foreign Language: Japanese (EJPN)
• Concentration in Foreign Language: Latin (ELTN)
• Concentration in Foreign Language: Russian (ERUS)
• Concentration in Foreign Language: Spanish (ESPN)

**International Education**

• Concentration in International Education FAST TRAIN ESOL (PK-12) (FTSL)
• Concentration in International Education FAST TRAIN (Elementary) PK-6 (FTEL)
• Concentration in Multilingual and Multicultural Education (CIMM)

**Learning Technologies**

• Concentration in Assistive Technology (AT)
• Concentration in Instructional Design and Development Immersion (IDDI)
• Concentration in Instructional Design and Technology (INDT)
• Concentration in Integration of Online Learning in Schools (IOLS)
• Concentration in Integration of Technology in Schools (ITIS)
Literacy/Reading

- Concentration in Literacy Leadership for Diverse Schools: K-12 Reading Specialist (LLDR)

Secondary Education (6–12)

- Concentration in Secondary Education Biology (SECB)
- Concentration in Secondary Education Chemistry (SECC)
- Concentration in Secondary Education Earth Science (SECS)
- Concentration in Secondary Education English (SECE)
- Concentration in Secondary Education History and Social Science (SECH)
- Concentration in Secondary Education Mathematics (SECM)
- Concentration in Secondary Education Physics (SECP)

Advanced Studies in Teaching and Learning (ASTL)

The ASTL concentrations are for teachers and other educators with one or more years of teaching or education-related experience who want to continue to grow professionally. The program offers advanced study in a specific concentration area, including Virginia’s Standards of Learning content areas, cohort classes, an innovative schedule, and the use of technology. The courses, aligned with the National Board for Professional Teaching Standards, help teachers think and practice as board-certified teachers. The program develops teacher-leaders who practice reflection through action-research, problem-based learning, and self-inquiry, and teacher expertise in a concentration that will identify the teacher as a potential leader in that area.

Experienced teachers and other educators with or without a master’s degree may apply for the master’s degree program, which includes the 30- or 33-credit hour Core and areas of Concentration. The program also provides an option for teachers with master’s degrees who want to gain a Reading Specialist or Gifted Childhood Education 21-credit graduate certificate.

MEd Requirements Common to all ASTL Concentrations (12 credits)

- EDUC 606 - Education and Culture Credits: 3
- EDUC 612 - Inquiry into Practice Credits: 2
- EDUC 613 - How Students Learn Credits: 3
- EDUC 614 - Designing and Assessing Teaching and Learning Credits: 2
- EDUC 615 - Educational Change Credits: 2

▲ Concentration in ASTL: Advanced International Baccalaureate (AIB)

This 18-credit International Baccalaureate(IB) concentration provides advanced professional development for teachers on the philosophy, elements, and assessments of the Primary Years Programme (PYP), Middle Years Programme (MYP), and Diploma Programme (DP). The course work focuses on the theory, pedagogy, and research under girding the International Baccalaureate programs.

Course Work

- EDUC 621 - Teaching and Learning in the International Baccalaureate Primary Years Program Credits: 3
- EDUC 622 - Curriculum Development across IB Programs Credits: 3
- EDUC 623 - Models and Strategies for Teaching and Learning in IB Schools Credits: 3
• EDUC 624 - Assessment and Learning in IB Schools Credits: 3
• EDUC 626 - Inquiry into Action: IB Teachers, Learners, and Schools Credits: 3
• EDUC 627 - Contemporary Issues and Trends in IB Credits: 3

Total: 18 credits

▲ Concentration in ASTL: Early Childhood Education (AECE)

The 18-credit early childhood concentration provides advanced professional development in preschool through third grade content and includes three required courses and three electives. The concentration focuses on advancing the professional knowledge of practicing teachers who teach young children.

Course Work

• EDCI 603 - Trends, Issues, and Research in Early Childhood Education Credits: 3
• EDCI 615 - Advanced Human Development Credits: 3
• EDCI 784 - Capstone Seminar in Early Childhood Education Credits: 3

Electives

Choose three courses from the following:

• EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
• EDCI 601 - Applied Study of Communicative Competence and Classroom Discourse Credits: 3
• EDCI 613 - Curriculum and Assessment in Early Childhood Education I Credits: 3
• EDCI 614 - Curriculum and Assessment in Early Childhood Education II Credits: 3
• EDCI 616 - The Creative Arts and Play in Early Childhood Education Credits: 3
• EDRD 630 - Advanced Literacy Foundations and Instruction, Birth to Middle Childhood Credits: 3
• EDSE 556 - Developing Language, Literacy, and Communication in Young Children Credits: 3
• EDSE 557 - Foundations of Language and Literacy for Diverse Learners Credits: 3
• EDSE 656 - Assessment of Diverse Young Learners Credits: 3
• EDSE 667 - Cognitive Development of Diverse Young Children Credits: 3

Total: 18 credits

▲ Concentration in ASTL: Elementary Mathematics (AEMA)

The 18-credit elementary math concentration combines the study of mathematics content appropriate for kindergarten through eighth grade with the study of mathematics education research, curriculum, leadership, and assessment.

Course Work

• MATH 610 - Number Systems and Number Theory for K-8 Teachers Credits: 3
• MATH 611 - Geometry and Measurement for K-8 Teachers Credits: 3
• MATH 612 - Probability and Statistics for K-8 Teachers Credits: 3
• MATH 613 - Algebra and Functions for K-8 Teachers Credits: 3
• MATH 614 - Rational Numbers and Proportional Reasoning for K-8 Teachers Credits: 3
Electives

Choose one 3-credit course from the following:

- EDCI 645 - Curriculum Development in Mathematics Education Credits: 3
- EDCI 646 - Mathematics Education Leadership for School Change Credits: 1-3 (Must register for 3 credits)
- EDCI 666 - Research in Mathematics Teaching Credits: 3

Total: 18 credits

▲ Concentration in ASTL: Foreign Language French (AFLF)

The 18-credit foreign language concentration provides advanced professional development and language study for practicing foreign language teachers. The 18 credits include a combination of modern language courses and targeted electives.

Course Work

Literature

Choose 6 credits from the following:

- FREN 515 - Topics in Medieval French Literature and Culture Credits: 3
- FREN 517 - Topics in Seventeenth-Century French Literature and Culture Credits: 3
- FREN 518 - Topics in Eighteenth-Century French Literature and Culture Credits: 3
- FREN 519 - Topics in Nineteenth-Century French Literature and Culture Credits: 3
- FREN 550 - Special Topics Credits: 3

Note:

Courses may be substituted with advisor-approved literature-related electives in French.

Language and Linguistics

Take 6 credits:

- one advisor-approved 3 credit course in language and linguistics
- FREN 575 - Grammatical Analysis Credits: 3

Electives

Choose 6 credits in literature or language (select from courses listed above or below):

- FRLN 510 - Bibliography and Research in Foreign Languages and Literature Credits: 3
- FRLN 525 - Literary Translation Credits: 3
- FRLN 550 - Special Topics Credits: 3
- FRLN 565 - Theory of Translation Credits: 3
- FRLN 572 - Integrating Technology into Language Learning Credits: 3
- FRLN 573 - Basic Issues in Language Pedagogy Credits: 3
• FRLN 590 - Internship and Seminar in Translation Credits: 3
• FRLN 620 - Literary Theory and Criticism Credits: 3
• FRLN 660 - Approaches to the Study of Language Credits: 3
• FRLN 670 - Foreign Language Learning and Teaching Credits: 3

Note:

Courses may be substituted with advisor-approved language and literature-related electives.

Total: 18 credits

▲ Concentration in ASTL: Foreign Language Spanish (AFLS)

The 18-credit foreign language concentration provides advanced professional development and language study for practicing foreign language teachers. The 18 credits include a combination of modern language courses and targeted electives.

Course Work

• SPAN 502 - Hispanic Sociolinguistics Credits: 3
• SPAN 505 - Applied Spanish Stylistics Credits: 3
• SPAN 510 - Introduction to the Graduate Study of Literature in Spanish Credits: 3

Electives

Choose 9 credits from the following:

• FRLN 510 - Bibliography and Research in Foreign Languages and Literature Credits: 3
• FRLN 525 - Literary Translation Credits: 3
• FRLN 550 - Special Topics Credits: 3
• FRLN 565 - Theory of Translation Credits: 3
• FRLN 572 - Integrating Technology into Language Learning Credits: 3
• FRLN 573 - Basic Issues in Language Pedagogy Credits: 3
• FRLN 590 - Internship and Seminar in Translation Credits: 3
• FRLN 620 - Literary Theory and Criticism Credits: 3
• FRLN 650 - The Teaching of Culture in Foreign Language Programs Credits: 3
• FRLN 660 - Approaches to the Study of Language Credits: 3
• FRLN 670 - Foreign Language Learning and Teaching Credits: 3
• SPAN 501 - Applied Spanish Grammar Credits: 3
• SPAN 520 - Studies in Medieval Spanish Literature Credits: 3
• SPAN 525 - Studies in Renaissance Literature Credits: 3
• SPAN 530 - Studies in the Literature of the Golden Age Credits: 3
• SPAN 540 - Studies in 20th-Century Literature Credits: 3
• SPAN 545 - Studies in Hispanic Literature Credits: 3
• SPAN 551 - Special Topics in Spanish Credits: 3
• SPAN 560 - Studies in Spanish American Poetry Credits: 3
• SPAN 565 - Studies in Spanish American Drama Credits: 3
• SPAN 576 - Advanced Translation Credits: 3
• SPAN 580 - Contemporary Hispanic Institutions Credits: 3
• SPAN 635 - Seminar in Don Quixote Credits: 3
• SPAN 650 - Seminar in Twentieth-Century Drama Credits: 3
• SPAN 655 - Seminar in Twentieth-Century Prose Credits: 3
• SPAN 670 - Seminar in Spanish American Prose Credits: 3
• SPAN 675 - Seminar in Literature and Art Credits: 3
• SPAN 680 - Seminar in Literature and Society Credits: 3
• SPAN 685 - Seminar in Literature and Ideas Credits: 3

Note:

Courses may be substituted with advisor-approved language and literature-related electives.

Total: 18 credits

▲ Concentration in Gifted Child Education (AGCE)

The 21-credit gifted child education concentration provides advanced professional development through endorsement or master’s degree for teachers of gifted students. The concentration meets NAGC/CEC graduate standards and focuses on culturally diverse, multilingual, twice exceptional, and traditionally defined gifted students and programs.

Course Work

• EDCI 621 - Introduction to Gifted and Talented Learners Credits: 3
• EDCI 622 - Curriculum Differentiation for Diverse Learners Credits: 3
• EDCI 623 - Models and Strategies for Teaching Gifted Learners Credits: 3
• EDCI 624 - Assessment, Identification, and Evaluation of Gifted Learners Credits: 3
• EDCI 625 - Contemporary Issues and Trends in Gifted Education Credits: 3
• EDCI 626 - Action Research in Gifted Education Credits: 3
• EDCI 627 - Advanced Practicum in Gifted Education Credits: 3

Note: One year of successful full-time teaching in an accredited public or non-public school may be accepted in lieu of the EDCI 627 practicum (VA Licensure Regulations for School Personnel, 1998). A 3-credit elective course must be chosen with advisor approval to meet the 21-credit requirement.

Total: 21 credits

▲ Concentration in ASTL: History (AHIS)

The 18-credit history concentration includes one geography and five history courses that are required. The concentration is designed for elementary, middle, and high school teachers who seek a foundation in the history courses that are taught within Virginia public schools.

Course Work

• GGS 520 - Geography for Teachers Credits: 3
• HIST 510 - Approaches to Modern World History Credits: 3
• HIST 601 - Themes in U.S. History I Credits: 3
- HIST 602 - Themes in U.S. History II Credits: 3
- HIST 605 - Themes in European History I Credits: 3
- HIST 695 - History Symposium Credits: 1-3 (must register for 3 credits)

Note:
Courses may be substituted with advisor-approved history electives.

Total: 18 credits

▲ Concentration in ASTL: Individualized (AATL)

The 18-credit individualized concentration is developed in concert with a student’s advisor to provide course work in a student’s specialized area that is not provided in other ASTL concentrations. The student works with the program director to design a program of study that provides individualized learning experiences in an area of expertise relevant to one’s professional educational setting.

▲ Concentration in ASTL: Literacy PK–12 Classroom Teachers (AP12)

This 18-credit concentration includes three required literacy courses and three approved electives in ESOL, special education, psychology, secondary and elementary education, early childhood, writing, and other areas. The course work includes theory and strategies in literacy and reading for teachers in any discipline, PK–12.

Course Work

- EDRD 630 - Advanced Literacy Foundations and Instruction, Birth to Middle Childhood Credits: 3
- EDRD 631 - Advanced Literacy Foundations and Instruction, Adolescence through Adulthood Credits: 3
- EDRD 632 - Literacy Assessments and Interventions for Groups Credits: 3

Electives

Choose 9 credits from the following:

- EDCI 520 - Assessment of Language Learners Credits: 3
- EDRD 615 - Reading/Writing for Multilingual Students Credits: 3
- EDRD 633 - Literacy Assessments and Interventions for Individuals Credits: 3
- EDRD 637 - Supervised Literacy Practicum Credits: 2-3 (Must register for 3 credits)
- EDSE 662 - Consultation and Collaboration Credits: 3
- EDSE 627 - Assessment Credits: 3

Note:
Student may choose an alternate elective with advisor approval.

Total: 18 credits

▲ Concentration in ASTL: Literacy: Reading Specialist (ALRS)
This 21-credit concentration is a state-approved sequence of courses leading to Virginia reading specialist licensure. Course work includes foundational knowledge, instructional and assessment strategies for individuals and groups, and preparation as a literacy coach and staff developer. Licensure also requires a master’s degree, passing of the Virginia Reading Assessment, and three years of teaching under contract.

Course Work

- EDRD 630 - Advanced Literacy Foundations and Instruction, Birth to Middle Childhood Credits: 3
- EDRD 631 - Advanced Literacy Foundations and Instruction, Adolescence through Adulthood Credits: 3
- EDRD 632 - Literacy Assessments and Interventions for Groups Credits: 3
- EDRD 633 - Literacy Assessments and Interventions for Individuals Credits: 3
- EDRD 634 - School-Based Leadership in Literacy Credits: 3
- EDRD 635 - School-Based Inquiry in Literacy Credits: 3
- EDRD 637 - Supervised Literacy Practicum Credits: 2-3 (Must register for 3 credits)

Total: 21 credits

▲ Concentration in ASTL: Secondary Mathematics Education, Grades 6-12 (AMT6)

This 18-credit concentration provides advanced professional development in mathematics teaching and learning for practicing middle and high school mathematics teachers. The course work focuses on current research in mathematics education, inquiry, technology, and a community of mathematics practice.

Course Work

- EDCI 666 - Research in Mathematics Teaching Credits: 3
- EDCI 702 - Internship in Mathematics Education Credits: 3
- MATH 601 - Analysis I for Teachers Credits: 3
- MATH 604 - Geometry for Teachers Credits: 3 or MATH 614 - Rational Numbers and Proportional Reasoning for K-8 Teachers Credits: 3
- MATH 607 - Algebraic Structure for Teachers Credits: 3
- MATH 608 - Problem Solving in Mathematics Credits: 3

Total: 18 credits

▲ Concentration in ASTL: Physical Education (APED)

The 18-credit physical education concentration provides course work in research design, curriculum development, collaborative supervision, research in pedagogy, and advanced adapted content. It is designed for practicing PE teachers seeking to improve their professional knowledge and teaching performance for improving student learning.

Course Work

- EDRS 590 - Education Research Credits: 3 or EFHP 623 - Research Design and Statistical Reasoning Credits: 3
- PHED 670 - Analysis of Teaching in Physical Education Credits: 3
- PHED 672 - Curriculum and Assessment in Physical Education Credits: 3
• PHED 673 - Motor Development for Special Populations Credits: 3
• PHED 680 - Mentoring and Supervising in Physical Education Credits: 3

Electives

Choose one course from the following:

• DANC 580 - Laban Movement Analysis Credits: 3
• EDCI or EDIT 705 - Instructional Design Credits: 3
• EDLE 610 - Leading Schools and Communities Credits: 3
• EDUC 539 - Human Development and Learning PK-12 Credits: 3
• EDUC 672 - Human Development and Learning: Secondary Education Credits: 3
• EFHP 610 - Advanced Exercise Physiology Credits: 3
• EFHP 611 - Fitness Assessment: Theory and Practice Credits: 3
• EFHP 614 - Advanced Exercise Nutrition Credits: 3
• EFHP 618 - Exercise and Sport Psychology Credits: 3
• HEAL 516 - Program Development and Resources in Health Education Credits: 3

Note:

Student may choose an alternate elective with advisor approval.

Total: 18 credits

▲ Concentration in ASTL: Science K-12 (AS12)

The 18-credit science concentration provides advanced professional development in science teaching and learning for practicing elementary, middle, or high school science teachers.

Course Work

• EDCI 663 - Research in Science Teaching Credits: 3
• EDCI 670 - Advanced Methods in Science Teaching Credits: 3
• EDCI 671 - Innovations in Science Teaching Credits: 3
• EDUC 547 - Scientific Inquiry and the Nature of Science Credits: 3

Electives

Choose 6 credits of science course work with advisor approval.

Total: 18 credits

▲ Concentration in ASTL: Special Education (ASPE)

The 18-credit special education concentration provides advanced expertise for educators, administrators, and other professionals providing services to individuals with special needs. Students select one of the following areas of emphasis: applied behavior
analysis; assistive technology; students with disabilities who access the adapted curriculum; students with disabilities who access the general curriculum; teaching students with autism; visual impairments.

Course Work

Applied Behavior Analysis Emphasis

Choose 18 credits from the following:

- EDSE 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy Credits: 3
- EDSE 621 - Applied Behavior Analysis: Empirical Bases Credits: 3
- EDSE 623 - Applied Behavior Analysis: Assessments and Interventions Credits: 3
- EDSE 624 - Applied Behavior Analysis: Applications Credits: 3
- EDSE 625 - Applied Behavior Analysis: Verbal Behavior Credits: 3
- EDSE 664 - Ethical and Professional Conduct for Behavior Analysis Credits: 3
- EDSE 790 - Internship in Special Education Credits: 1-6 (Must register for 3 credits)

Total: 18 credits

Assistive Technology Emphasis

Choose 18 credits from the following:

- EDAT 521 - Augmentative Communication Credits: 3
- EDAT 522 - Assistive Technology for Individuals with Sensory Impairments Credits: 3
- EDAT 523 - Accessibility and Input Modifications Credits: 3
- EDAT 524 - Universal Design for Learning Credits: 3
- EDAT 525 - Software and Mobile Applications for Individuals with Disabilities Credits: 3
- EDAT 530 - Assistive Technology for Independent Living Credits: 3
- EDAT 531 - Assistive Technology in the Workplace Credits: 3
- EDAT 597 - Special Topics in Assistive Technology Credits: 1-6
- EDAT 599 - Independent Study in Assistive Technology Credits: 1-6
- EDIT 526 - Web Accessibility and Design Credits: 3

Total: 18 credits

Students with Disabilities who Access the Adapted Curriculum Emphasis

Choose 18 credits from the following:

- EDSE 501 - Introduction to Special Education Credits: 3
- EDSE 502 - Classroom Management and Applied Behavior Analysis Credits: 3
- EDSE 531 - Transition and Community-Based Instruction Credits: 3
- EDSE 532 - Positive Behavior Supports Credits: 3
- EDSE 533 - Curriculum and Assessment in Severe Disabilities Credits: 3
- EDSE 534 - Communication and Severe Disabilities Credits: 3
- EDSE 547 - Medical and Developmental Risk Factors for Children with Disabilities Credits: 3
- EDSE 557 - Foundations of Language and Literacy for Diverse Learners Credits: 3
- EDSE 661 - Curriculum and Methods: Severe Disabilities Credits: 3
- EDSE 662 - Consultation and Collaboration Credits: 3
- EDSE 669 - Interdisciplinary Approach for Children with Sensory and Motor Disabilities Credits: 3
- EDSE 790 - Internship in Special Education Credits: 1-6 (Must complete a minimum of four credits of internship)

Total: 18 credits

Students with Disabilities who Access the General Curriculum Emphasis

Choose 18 credits from the following:

- EDSE 501 - Introduction to Special Education Credits: 3
- EDSE 502 - Classroom Management and Applied Behavior Analysis Credits: 3
- EDSE 503 - Language Development and Reading Credits: 3
- EDSE 540 - Characteristics of Students with Disabilities who Access the General Curriculum Credits: 3
- EDSE 544 - Adapted Instructional Methods and Transition for Secondary Learners Credits: 3
- EDSE 627 - Assessment Credits: 3
- EDSE 628 - Elementary Reading, Curriculum, and Strategies for Students who Access the General Education Curriculum Credits: 3
- EDSE 629 - Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum Credits: 3
- EDSE 662 - Consultation and Collaboration Credits: 3
- EDSE 790 - Internship in Special Education Credits: 1-6 (Must complete two 2-credit internships: one elementary placement and one secondary placement)

Total: 18 credits

Teaching Students with Autism Emphasis

- EDSE 534 - Communication and Severe Disabilities Credits: 3
- EDSE 620 - Managing Severely Challenging Behaviors and Applied Behavior Analysis Credits: 3
- EDSE 634 - Characteristics of Students with Autism Credits: 3
- EDSE 635 - Interventions for Students with Autism Credits: 3
- EDSE 665 - Families of Children with Special Needs Credits: 3
- Elective course (3 credits) chosen from among the other ASTL Special Education emphases to complete the required 18 credits

Total: 18 credits

Visual Impairments Emphasis

Choose 18 credits from the following:

- EDAT 522 - Assistive Technology for Individuals with Sensory Impairments Credits: 3
- EDSE 511 - Characteristics of Students with Visual Impairments Credits: 1
- EDSE 512 - Braille Code Credits: 3
- EDSE 513 - Medical and Educational Implications of Visual Impairments Credits: 3
- EDSE 514 - Orientation and Mobility for Students with Visual Impairments Credits: 2
- EDSE 518 - Curriculum and Assessment of Students with Visual Impairments Credits: 3
- EDSE 532 - Positive Behavior Supports Credits: 3
- EDSE 613 - Teaching Methods for Students with Visual Impairments Credits: 3
- EDSE 616 - Braille Reading and Writing Credits: 3
- EDSE 662 - Consultation and Collaboration Credits: 3
- EDSE 790 - Internship in Special Education Credits: 1-6 (Must complete four credits of internship)

Total: 18 credits

▲ Concentration in ASTL: Teacher Leadership (ATL)

This 18-credit concentration provides advanced professional development in school leadership. The educational leadership course work focuses on teachers as leaders in their classrooms, teams, departments, programs, and schools.

Course Work

- EDLE 610 - Leading Schools and Communities Credits: 3
- EDLE 618 - Supervision and Evaluation of Instruction Credits: 3
- EDLE 620 - Organizational Theory and Leadership Credits: 3
- EDLE 636 - Adult Motivation and Conflict Management in Education Settings: A Case Study Approach Credits: 3
- EDLE 690 - Using Research to Lead School Improvement Credits: 3
- EDUC 597 - Special Topics in Education Credits: 1-6 (Must register for 3 credits)

Total: 18 credits

Early Childhood Education

▲ Concentration in Early Childhood Education for Diverse Learners (ECDL)

This 30-credit program leads to a master's degree for professionals who already hold an early childhood education teacher license or are interested in working in an early childhood education context outside the classroom. Students who wish to seek Early Childhood Education, PK-3 licensure are advised to consider completing the Early Childhood Education, PK-3 Licensure certificate program in conjunction with the MEd. Students may use their certificate coursework to fulfill the elective credits for the MEd program.

Course Work

- ECED 601 - Frameworks for Early Childhood Education Credits: 3
  Choose 3 credits from the following:
  - ECED 585 - Research in Early Childhood Education Credits: 3
  - ECED 591 - Policy Perspectives in Early Childhood Education Credits: 3
  Choose 3 credits from the following:
  - ECED 503 - Inclusive Curriculum for Young Learners: Planning Instruction and Guidance Credits: 3
  - ECED 513 - Curriculum Across the Content Areas for Diverse Young Learners Credits: 3
  - ECED 514 - Mathematics and Science for Diverse Young Learners Credits: 3
  Choose 3 credits from the following:
  - ECED 502 - Foundations of Language and Literacy for Diverse Young Learners Credits: 3
• ECED 512 - Language and Literacy Assessment and Instruction for Diverse Young Learners Credits: 3
• ECED 522 - Developing Language, Literacy, and Communication of Diverse Young Learners Credits: 3
Choose 3 credits from the following:
• ECED 504 - Families, Communities, and Schools Credits: 3
• ECED 524 - Families of Children with Special Needs Credits: 3
Choose 3 credits from the following:
• ECED 511 - Assessment of Diverse Young Learners Credits: 3
• ECED 521 - Family-Centered Assessment of Diverse Young Learners Credits: 3

Electives (12 credits)

Choose 12 credits from graduate ECED-prefix courses

Portfolio Requirement

A professional portfolio is required. The portfolio reflects the student's professional development throughout the program and contains examples of performance assessments associated with standards.

Total: 30 credits

▲ Concentration in TFA - Early Childhood Education (Teach for America) (TECE)

This 30-credit concentration is designed to prepare Teach for America Corp members to teach culturally, linguistically, and ability diverse Early Childhood students. Note: this is only available to Teach for America Corp members in Washington DC.

Course Work

• ECED 501 - Developmental Pathways of Diverse Learners, Birth-Adolescence Credits: 3
• ECED 503 - Inclusive Curriculum for Young Learners: Planning Instruction and Guidance Credits: 3
• ECED 504 - Families, Communities, and Schools Credits: 3
• ECED 511 - Assessment of Diverse Young Learners Credits: 3
• ECED 512 - Language and Literacy Assessment and Instruction for Diverse Young Learners Credits: 3
• ECED 513 - Curriculum Across the Content Areas for Diverse Young Learners Credits: 3
• ECED 514 - Mathematics and Science for Diverse Young Learners Credits: 3
• ECED 585 - Research in Early Childhood Education Credits: 3
or
• ECED 591 - Policy Perspectives in Early Childhood Education Credits: 3
• ECED 601 - Frameworks for Early Childhood Education Credits: 3
• ECED 792 - Internship in Early Childhood Education-TFA Credits: 1-6 (One 3-credit internship experience is required)

Portfolio Requirement

A professional portfolio is required. The portfolio reflects the student's professional development throughout the program and contains examples of performance assessments associated with standards.

Total: 30 credits
Elementary Education

▲ Concentration in Elementary Education (ELED)

The 39-credit Elementary Education concentration and initial licensure component provides professionals with the specialized knowledge, skills, and dispositions needed to meet the educational needs of students attending today's elementary schools. Specific content and endorsement courses are required; all courses are taught in cohorts only. Three cohort models (one- or two-semester internships, and an intensive model) provide flexibility for all students. The two-semester internship cohort begins each fall semester; the one-semester internship cohort begins each summer semester, and the intensive cohort begins each spring semester.

All students are required to submit and successfully complete a series of performance-based assessments. These assessments include content knowledge, pedagogical skills, and dispositions.

Grading Policy: Students enrolled in this degree program must earn a B or higher in all course work.

Course Work

- EDCI 544 - Curriculum and Methods of Teaching in Elementary Education Credits: 3
- EDCI 545 - Assessment and Differentiation Credits: 3
- EDCI 546 - Integrating Technology in Elementary Classrooms: Literacy Credits: 1
- EDCI 547 - Integrating Technology in Elementary Classrooms: Mathematics Credits: 1
- EDCI 548 - Integrating Technology in Elementary Classrooms: Social Studies and Fine Arts Credits: 1
- EDCI 552 - Mathematics Methods for the Elementary Classroom Credits: 1-3 (Must register for 3 credits)
- EDCI 553 - Science Methods for the Elementary Classroom Credits: 1-3 (Must register for 3 credits)
- EDCI 554 - Methods of Teaching Social Studies and Integrating Fine Arts in the Elementary Classroom Credits: 3
- EDCI 555 - Literacy Teaching and Learning in Diverse Elementary Classrooms I Credits: 3
- EDCI 556 - Literacy Teaching and Learning in Diverse Elementary Classrooms II Credits: 1-3 (Must register for 3 credits)
- EDCI 559 - Research and Assessment in Elementary Education Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (Year-long internship: students must register for 3 credits in the fall and 3 credits in the spring. Semester-long internship and intensive cohort: students must register for 6 credits during their internship)
- EDUC 542 - Foundations of Education Credits: 3
- EDUC 543 - Children, Family, Culture, and Schools, 4-12 Year Olds Credits: 3

Total: 39 credits

▲ Concentration in TFA - Elementary Education (Teach for America) (TEED)

This 33-credit concentration is designed to prepare Teach for America Corp members to teach culturally, linguistically, and ability diverse elementary students. Note: this is only available to Teach for America Corp members in Washington DC.

Course Work

- EDCI 544 - Curriculum and Methods of Teaching in Elementary Education Credits: 3
- EDCI 545 - Assessment and Differentiation Credits: 3
- EDCI 552 - Mathematics Methods for the Elementary Classroom Credits: 1-3 (must register for 3 credits)
- EDCI 553 - Science Methods for the Elementary Classroom Credits: 1-3 (must register for 3 credits)
- EDCI 554 - Methods of Teaching Social Studies and Integrating Fine Arts in the Elementary Classroom Credits: 3
- EDCI 555 - Literacy Teaching and Learning in Diverse Elementary Classrooms I Credits: 3
- EDCI 559 - Research and Assessment in Elementary Education Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (total 6 credits over four semesters)
  Students register for variable credit as follows: First year: Fall, 2 credits/ Spring, 1 credit; Second year: Fall, 3 credits/ Spring, 3 credits.
- EDUC 542 - Foundations of Education Credits: 3
- EDUC 543 - Children, Family, Culture, and Schools, 4-12 Year Olds Credits: 3

Total: 33 credits

Foreign Language

▲ Concentration in English as a Second Language (PK-12)(CISL)

This 39-credit ESL/ESOL PK-12 concentration provides initial state teacher licensure (endorsement) for candidates wanting to teach in Virginia public schools, grades PK to 12. This program provides teachers with the specialized knowledge, skills, and professional dispositions required to pass an oral and written proficiency assessment in English to meet state licensing requirements and national professional standards. This program has a licensure component of 30 credits and requires an additional 9 credits for completion of the MEd in Curriculum and Instruction.

Prerequisites for admission: Six credits of a modern foreign language (graduate or undergraduate, do not count toward the MEd).

Field experience: Field experiences involving observations and analyses in public schools are required throughout the program; a maximum of 15 clock hours per course or 30 clock hours per term. Arrangements can be made with each course instructor.

Grading Policy: Students enrolled in this degree program must earn a B or higher in all licensure course work.

Course Work

Licensure Requirements (30 credits)

- EDCI 510 - Linguistics for PreK-12 ESOL Teachers Credits: 3
- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 519 - Methods of Teaching Multilingual Students Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits)
- EDRD 525 - Emergent Literacy for English Language Learners, PK-12 Credits: 3
- EDRD 610 - Content Literacy for English Language Learners, PK-12 Credits: 3
- EDUC 537 - Foundations of Multicultural Education Credits: 3
- EDUC 539 - Human Development and Learning PK-12 Credits: 3

Note:

For licensed teachers only, the add-on endorsement in ESL PK-12 requires completion of all licensure course work with the exception of EDCI 790.
MEd Prerequisites

All licensure course work listed above

MEd Requirements (9 credits)

- EDCI 521 - Curriculum Development for Language Learners Credits: 3
- EDCI 777 - Research to Practice Credits: 3
- EDRS 590 - Education Research Credits: 3
  or
- 3-credit elective course (approved by advisor)

Total: 39 credits

Internship Options

A six-credit, 15-week daytime internship, EDCI 790, is required for completion of the state-approved licensure program. Both elementary and middle school or secondary school placements are required. Two options are available to meet the needs of most individuals:

- Placement internship: One semester, daytime internship in the classroom of a cooperating teacher. Intern assumes co-teaching and independent teaching responsibilities.
- On-the-job internship: Available only to students who are employed as full-time, provisionally licensed teachers and are teaching ESL/ESOL in an accredited school. In addition to a fall or spring experience, this option includes a summer or other appropriate experience.

In lieu of an internship, provisionally licensed teachers may use their full-time teaching to satisfy the internship requirements; however, the 39-credit master's degree requires that candidates substitute six credits in approved course work for the internship.

▲ Concentration in Foreign Language: Arabic (EARB)

This 39-credit Foreign Language: Arabic concentration is designed to provide an interdisciplinary, theory-based course of study for initial licensure and provisionally licensed teachers. It is intended to assist in the development of a reflective stance toward practice and to enhance ability to address critical issues in language and learning. It also intends to advance their fundamental understanding about language, technology, pedagogy, and culture, as well as issues related to diversity in schools and in society at large. This program has a licensure component of 27 credits and requires an additional 12 credits for completion of the MEd.

Grading Policy: Students enrolled in this degree program must earn a B or higher in all licensure course work.

Course Work

Licensure Requirements (27 credits)

- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDCI 560 - Methods of Teaching in Foreign/World Languages Credits: 3
- EDCI 684 - Advanced Methods of Teaching Foreign/Second Languages in PK-12 Schools Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits in the Arabic-specific section)
- EDRD 620 - Reading/Writing in Foreign/World Languages Credits: 3
- EDUC 537 - Foundations of Multicultural Education Credits: 3
EDUC 539 - Human Development and Learning PK-12 Credits: 3

MEd Prerequisites

All licensure course work listed above

MEd Requirements (12 credits)

- EDCI 521 - Curriculum Development for Language Learners Credits: 3
- EDCI 777 - Research to Practice Credits: 3
- EDRS 590 - Education Research Credits: 3
- EDSE 501 - Introduction to Special Education Credits: 3
  or
- EDSE 502 - Classroom Management and Applied Behavior Analysis Credits: 3

Total: 39 credits

Internship Options

A six-credit, 15-week daytime internship, EDCI 790, is required for completion of the state-approved licensure program. Both elementary and middle school or secondary school placements are required. Two options are available to meet the needs of most individuals:

- **Placement Internship:** One semester, daytime internship in the classroom of a cooperating teacher. Intern assumes co-teaching and independent teaching responsibilities.
- **On-the-job Internship:** Available only to students who are employed as full-time, provisionally licensed teachers and are teaching in their endorsement area in an accredited school. In addition to a fall or spring experience, this option includes a summer or other appropriate experience.

In lieu of an internship, provisionally licensed teachers may use their full-time teaching to satisfy the internship requirements; however, the 39-credit master's degree requires that candidates substitute six credits in approved course work for the internship.

▲ Concentration in Foreign Language: Chinese (ECHN)

This 39-credit Foreign Language: Chinese concentration is designed to provide an interdisciplinary, theory-based course of study for initial licensure and provisionally licensed teachers. It is intended to assist in the development of a reflective stance toward practice and to enhance ability to address critical issues in language and learning. It also intends to advance their fundamental understanding about language, technology, pedagogy, and culture, as well as issues related to diversity in schools and in society at large. This program has a licensure component of 27 credits and requires an additional 12 credits for completion of the MEd.

**Grading Policy:** Students enrolled in this degree program must earn a B or higher in all licensure course work.

Course Work

Licensure Requirements (27 credits)

- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDCI 560 - Methods of Teaching in Foreign/World Languages Credits: 3
- EDCI 684 - Advanced Methods of Teaching Foreign/Second Languages in PK-12 Schools Credits: 3
• EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits in the Chinese-specific section)
• EDRD 620 - Reading/Writing in Foreign/World Languages Credits: 3
• EDUC 537 - Foundations of Multicultural Education Credits: 3
• EDUC 539 - Human Development and Learning PK-12 Credits: 3

MEd Prerequisites

All licensure course work listed above

MEd Requirements (12 credits)

• EDCI 521 - Curriculum Development for Language Learners Credits: 3
• EDCI 777 - Research to Practice Credits: 3
• EDRS 590 - Education Research Credits: 3
• EDSE 501 - Introduction to Special Education Credits: 3
  or
• EDSE 502 - Classroom Management and Applied Behavior Analysis Credits: 3

Total: 39 credits

Internship Options

A six-credit, 15-week daytime internship, EDCI 790, is required for completion of the state-approved licensure program. Both elementary and middle school or secondary school placements are required. Two options are available to meet the needs of most individuals:

- EDCI 560 - Methods of Teaching in Foreign/World Languages Credits: 3
- EDCI 684 - Advanced Methods of Teaching Foreign/Second Languages in PK-12 Schools Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits in the German-specific section)
- EDRD 620 - Reading/Writing in Foreign/World Languages Credits: 3
- EDUC 537 - Foundations of Multicultural Education Credits: 3
- EDUC 539 - Human Development and Learning PK-12 Credits: 3

MEd Prerequisites

All licensure course work listed above

MEd Requirements (12 credits)

- EDCI 521 - Curriculum Development for Language Learners Credits: 3
- EDCI 777 - Research to Practice Credits: 3
- EDRS 590 - Education Research Credits: 3
- EDSE 501 - Introduction to Special Education Credits: 3
  or
- EDSE 502 - Classroom Management and Applied Behavior Analysis Credits: 3

Total: 39 credits

Internship Options

A six-credit, 15-week daytime internship, EDCI 790, is required for completion of the state-approved licensure program. Both elementary and middle school or secondary school placements are required. Two options are available to meet the needs of most individuals:

- **Placement Internship**: One semester, daytime internship in the classroom of a cooperating teacher. Intern assumes co-teaching and independent teaching responsibilities.
- **On-the-job Internship**: Available only to students who are employed as full-time, provisionally licensed teachers and are teaching in their endorsement area in an accredited school. In addition to a fall or spring experience, this option includes a summer or other appropriate experience.

In lieu of an internship, provisionally licensed teachers may use their full-time teaching to satisfy the internship requirements; however, the 39-credit master's degree requires that candidates substitute six credits in approved course work for the internship.

▲ Concentration in Foreign Language: Japanese (EJPN)

This 39-credit Foreign Language: Japanese concentration is designed to provide an interdisciplinary, theory-based course of study for initial licensure and provisionally licensed teachers. It is intended to assist in the development of a reflective stance toward practice and to enhance ability to address critical issues in language and learning. It also intends to advance their fundamental understanding about language, technology, pedagogy, and culture, as well as issues related to diversity in schools and in society at large. This program has a licensure component of 27 credits and requires an additional 12 credits for completion of the MEd.
Grading Policy: Students enrolled in this degree program must earn a B or higher in all licensure course work.

Course Work

**International Education**

**▲ Concentration in International Education FAST TRAIN ESOL (PK-12) (FTSL)**

This 30-credit concentration is specifically designed for teachers and educators who are working abroad or plan on teaching overseas. This program has a licensure component of 24 credits and requires an additional 6 credits for completion of the MEd. All course work requires 20 hours of integrated fieldwork observation and practice. The convenient schedule enables participants to complete the program through on-campus study during two summers and on-line study during the academic year.

**Grading Policy:** Students enrolled in this degree program must earn a B or higher in all licensure course work.

**Course Work**

**Licensure Requirements (24 credits)***

- EDCI 510 - Linguistics for PreK-12 ESOL Teachers Credits: 3
- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 519 - Methods of Teaching Multilingual Students Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDRD 525 - Emergent Literacy for English Language Learners, PK-12 Credits: 3
- EDRD 610 - Content Literacy for English Language Learners, PK-12 Credits: 3
- EDUC 511 - Introduction to Education in International Schools Credits: 3
- EDUC 537 - Foundations of Multicultural Education Credits: 3

*Note: Students pursuing ESOL PK-12 Virginia Licensure must complete an approved internship experience satisfied by either taking one year of full time teaching that is approved by the program or 6 credits of EDCI 790 - Internship in Education.

**MEd Requirements (6 credits)**

- EDCI 521 - Curriculum Development for Language Learners Credits: 3
- EDCI 777 - Research to Practice Credits: 3

**Note:**

All course work, endorsements, state requirements, and tests must be finished prior to the internship. Some course work requires field experience.
Total: 30 credits

▲ Concentration in International Education FAST TRAIN (Elementary) PK-6 (FTEL)

This 30-credit hour concentration prepares educators for international teaching assignments. This program has an 18 credit licensure component and requires an additional 12 credits for completion of the MEd. The course work may be completed in the part-time evening program or during the summer intensive program. All course work requires 20 hours of integrated fieldwork observation and practice.

In addition, this program prepares student who wish to teach in International Baccalaureate (IB) schools worldwide by integrating IB curriculum into the licensure coursework. Students completing the licensure requirements may take one additional course to become eligible for the International Baccalaureate Certificate in Teaching and Learning through the IB:

- EDUC 621 - Teaching and Learning in the International Baccalaureate Primary Years Program

Grading Policy: Students enrolled in this degree program must earn a B or higher in all licensure course work.

Course Work

Licensure Requirements (18 credits)*

- EDUC 511 - Introduction to Education in International Schools Credits: 3
- EDUC 512 - Teaching Elementary Social Studies in International Schools Credits: 3
- EDUC 513 - Teaching Elementary Math in International Schools Credits: 3
- EDUC 514 - Teaching Elementary Science in International Schools Credits: 3

Learning Technologies

Five concentrations with an instructional technology focus provide professionals the specialized knowledge and skills needed to apply a wide range of learning technologies to achieve educational and instructional goals in schools, communities, and corporate, government or public settings. The concentrations combine current theoretical models with practical, hands-on experiences to cultivate the design of innovative, engaging and inclusive learning opportunities and instructional applications using state-of-the-art technologies. These concentrations serve the various needs and interests of specific types of learning organizations and instructional technology clients including instructional design, integration of technology in schools, and assistive technology.

▲Concentration in Assistive Technology (AT)

Course Work

- EDAT 510 - Introduction to Assistive Technology Credits: 3
- EDAT 521 - Augmentative Communication Credits: 3

- EDIT 717 - Teaching with Technology IV: Hypermedia and Emerging Technologies Credits: 3
- EDIT 719 - Tools 5: Web 2.0 and Digital Video Editing Credits: 3
- EDIT 721 - Web-Based Learning Credits: 3
- EDIT 790 - Practicum in Instructional Technology Credits: 1-6 (Must register for 6 credits)

Total: 36 credits

Literacy/Reading

A master's degree with three emphasis options and one graduate certificate program are available to teachers in grades K-12 who are interested in gaining additional expertise in literacy/reading instruction and leadership. Courses combine current theory with
practical, hands-on experience. Literacy is also available as a specialization or secondary emphasis in the Ph.D. in Education program.

\section*{Concentration in Literacy Leadership for Diverse Schools: K-12 Reading Specialist (LLDR)}

This 33-credit concentration includes a 21-credit sequence of courses in literacy/reading instruction and leadership, 3 credits in research methodology, and 9 credits in courses related to diverse learners (English as a second language [ESL], special education, or an individualized program). Completion of all requirements earns students a master's degree in curriculum and instruction plus a K-12 Reading Specialist License. (Additional licensure requirements include 3 years of teaching under contract and a passing score on state licensure exam). The coursework in ESL and/or special education may be applied toward add-on licenses in those areas.

\section*{MEd Requirements (21 credits)}

- EDRD 630 - Advanced Literacy Foundations and Instruction, Birth to Middle Childhood Credits: 3
- EDRD 631 - Advanced Literacy Foundations and Instruction, Adolescence through Adulthood Credits: 3
- EDRD 632 - Literacy Assessments and Interventions for Groups Credits: 3
- EDRD 633 - Literacy Assessments and Interventions for Individuals Credits: 3 (Must be taken concurrently with EDRD 637)
- EDRD 634 - School-Based Leadership in Literacy Credits: 3
- EDRD 635 - School-Based Inquiry in Literacy Credits: 3
- EDRD 637 - Supervised Literacy Practicum Credits: 2-3 (Must be taken concurrently with EDRD 633 for 3 credits)

\section*{Emphasis Options}

Choose one of the following emphases:

\section*{ESL Emphasis (12 credits)}

- EDCI 510 - Linguistics for PreK-12 ESOL Teachers Credits: 3
- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
  or
- EDUC 537 - Foundations of Multicultural Education Credits: 3
- EDCI 519 - Methods of Teaching Multilingual Students Credits: 3
- EDRS 590 - Education Research Credits: 3

\section*{Special Education Emphasis (12 credits)}

- EDSE 501 - Introduction to Special Education Credits: 3
- EDSE 502 - Classroom Management and Applied Behavior Analysis Credits: 3
- EDSE 540 - Characteristics of Students with Disabilities who Access the General Curriculum Credits: 3
- EDRS 590 - Education Research Credits: 3

\section*{Individualized Emphasis (12 credits)}

- EDRS 590 - Education Research Credits: 3
9 credits related to diverse learners selected with advisor approval

Total: 33 credits

Secondary Education (6–12)

The seven 35-credit secondary education concentrations with a licensure component are designed to meet the needs of individuals who wish to be licensed or need to satisfy the requirements of a provisional license to teach at the secondary level. Specific endorsement areas are biology, chemistry, earth science, English, history and social science, mathematics, and physics. Note: only six credits (in total) may be taken as non-degree or transferred (with coordinator approval) from another accredited institution.

Grading Policy: Students enrolled in this degree program must earn a B or higher in all course work.

Field Experience

Field experiences in public schools will be required throughout the program (a maximum of 15 clock hours per course or 30 clock hours per term). Arrangements will be made at the beginning of each term.

▲ Concentration in Secondary Education Biology (SECB)

Course Work

Licensure Requirements (21 credits)

- EDCI 573 - Teaching Science in the Secondary School Credits: 3
- EDCI 673 - Advanced Methods of Teaching Science in the Secondary School Credits: 3

- EDUC 672 - Human Development and Learning: Secondary Education Credits: 3

MEd Requirements (14 credits)

- EDCI 791 - Internship Seminar in Secondary Teaching Credits: 2
- EDUC 675 - Research in Secondary Education Credits: 3

Electives

- Education electives, chosen with advisor’s approval (9 credits)

Total: 35 credits

▲ Concentration in Secondary Education Physics (SECP)

Course Work

Licensure Requirements (21 credits)

- EDCI 573 - Teaching Science in the Secondary School Credits: 3
- EDCI 673 - Advanced Methods of Teaching Science in the Secondary School Credits: 3
- EDCI 790 - Internship in Education Credits: 1-6 (Must register for 6 credits)
- EDRD 619 - Literacy in Content Areas Credits: 3
- EDUC 522 - Foundations of Secondary Education Credits: 3
- EDUC 672 - Human Development and Learning: Secondary Education Credits: 3

MEd Requirements (14 credits)

- EDCI 791 - Internship Seminar in Secondary Teaching Credits: 2
- EDUC 675 - Research in Secondary Education Credits: 3

Electives

- Education electives, chosen with advisor’s approval (9 credits)
Internship Options

A 6-credit 15-week daytime internship (EDCI 790) is required for completion of the state-approved licensure program. Three options are available to meet the needs of most individuals:

- **Professional Development School (PDS) internship**: A one-term daytime internship as a PDS intern in a school identified by secondary faculty members. Intern assumes co-teaching and independent teaching responsibilities.
- **Student teaching internship**: A one-term daytime internship in the classroom of a cooperating teacher. Intern assumes co-teaching and independent teaching responsibilities.
- **On-the-job internship**: Available only to students who are employed as full-time provisionally licensed teachers and teaching in their endorsement area in an accredited middle or secondary school and want to complete a master’s degree. In lieu of an internship, provisionally licensed teachers may choose to use their full-time teaching to satisfy the experience requirement for a full license; however, the 33-credit master’s degree requires that 6 credits of approved course work be substituted for the internship.

Total: 35 credits

**Education Leadership, MEd**

**Banner Code:** E1-MED-EDLE

This 30-credit master’s degree (24-credit licensure component and 6 additional credits) prepares candidates for leadership and management positions in a variety of educational settings. The program emphasizes an understanding of the complexities of change in schools, communities, and organizations. Participants are expected to develop and demonstrate the knowledge, skills, and dispositions necessary to create and maintain learning environments that value diversity, continual knowledge acquisition, instructional leadership, innovative and ethical decision making, reflective practice, and successful achievement of all school-aged youth.

Participants who are admitted into the MEd in education leadership program who already have a master’s degree and three years of teaching experience may complete only the licensure course work (24-credits) for the administration and supervision PK-12 license.

Students may also complete the Education Leadership, MEd with a concentration in one of the following: mathematics education leadership (K-8), mathematics specialist leader (K-8), science education leadership (PK-12), or special education leadership.

**Course Work**

**Licensure Requirements (24 credits)**

- EDLE 610 - Leading Schools and Communities Credits: 3
- EDLE 612 - Education Law Credits: 3
- EDLE 614 - Managing Financial and Human Resources Credits: 3
- EDLE 616 - Curriculum Development and Evaluation Credits: 3
- EDLE 618 - Supervision and Evaluation of Instruction Credits: 3
- EDLE 620 - Organizational Theory and Leadership Credits: 3
- EDLE 690 - Using Research to Lead School Improvement Credits: 3
- EDLE 791 - Internship in Educational Leadership Credits: 3

**Internship**
The internship is integral to the Education Leadership, MEd degree and provides an opportunity to synthesize and apply the knowledge and practice the skills identified in the Educational Leadership Constituency Consortium Standards through substantial, sustained work in educational settings.

Prerequisites

All licensure course work listed above

MEd Requirements (6 credits)

- EDLE 634 - Contemporary Issues in Education Leadership Credits: 3
- EDLE 636 - Adult Motivation and Conflict Management in Education Settings: A Case Study Approach Credits: 3

Total: 30 credits

▲ Concentration in Mathematics Specialist Leader (K–8) (MSLR)

This 30-credit Mathematics Specialist Leader (K-8) Concentration is designed for working professionals. Students study mathematics content and pedagogy, teaching, curriculum and professional development. They also explore school-based leadership issues in mathematics education. The internship is an individual experience designed and developed in consultation with a faculty advisor or mentor. This program includes all course work required for Virginia state licensure as a K-8 mathematics specialist. Students who apply for this licensure must have three years of successful teaching experience in addition to the MEd degree.

Course Work

- EDCI 644 - Mathematics Learning and Assessment (K-8) Credits: 3
- EDCI 645 - Curriculum Development in Mathematics Education Credits: 3
- EDCI 646 - Mathematics Education Leadership for School Change Credits: 1-3 (Must register for 3 credits)
- EDCI 666 - Research in Mathematics Teaching Credits: 3
- EDCI 702 - Internship in Mathematics Education Credits: 3
- MATH 610 - Number Systems and Number Theory for K-8 Teachers Credits: 3
- MATH 611 - Geometry and Measurement for K-8 Teachers Credits: 3
- MATH 612 - Probability and Statistics for K-8 Teachers Credits: 3
- MATH 613 - Algebra and Functions for K-8 Teachers Credits: 3
- MATH 614 - Rational Numbers and Proportional Reasoning for K-8 Teachers Credits: 3

Total: 30 credits

▲ Concentration in Science Education Leadership (PK-12) (EDSL)

This 30-credit Science Education Leadership (PK-12) Concentration focuses on education leadership and science teaching and learning. Students study the changing nature of science, science teaching, assessment, curriculum, technology, safety, and meeting the diverse needs of learners. Students also develop skills in science teaching and learning, data-driven decision making, systematic and continual improvement, and leading dynamic organizations. Internship experiences include working with a practicing scientist in a research setting and interacting with school leaders at the state and local levels who directly and indirectly influence science education. This program includes all course work required for Virginia licensure in administration and
supervision (PK-12). This concentration is designed for those persons who have taught for three years and are seeking a master's degree. They will receive their Virginia administrative license and MEd in education leadership after they have completed the required coursework, and pass the administrative licensure exam that meets Virginia requirements. This is not an initial teacher licensure program.

Course Work

- EDCI 663 - Research in Science Teaching Credits: 3
- EDCI 666 - Research in Mathematics Teaching Credits: 3
- EDCI 683 - Curriculum Development and Evaluation in Science Education Credits: 3
- EDCI 693 - Leadership and Organizational Issues in Science Education Credits: 3
- EDLE 612 - Education Law Credits: 3
- EDLE 614 - Managing Financial and Human Resources Credits: 3
- EDLE 618 - Supervision and Evaluation of Instruction Credits: 3
- EDLE 620 - Organizational Theory and Leadership Credits: 3
- EDLE 791 - Internship in Educational Leadership Credits: 3

Electives

- Technology Elective (3 credits)

Total: 30 credits

▲ Concentration in Special Education Leadership (SELE)

This 30-credit Special Education Leadership Concentration (24-credit licensure component and 6 additional credits) is designed to provide training for educators who administer program implementation efforts for learners with exceptional needs. It is appropriate for those who have an interest in becoming special education directors, program coordinators, school building administrators, department chairs, or lead teachers; however, opportunities beyond special education also exist.

Participants who are admitted into the MEd in education leadership program who already have a master’s degree and three years of teaching experience may complete only the licensure course work (24-credits) for the administration and supervision PK-12 license.

Licensure Requirements (24 credits)

- EDLE 610 - Leading Schools and Communities Credits: 3
- EDLE 612 - Education Law Credits: 3
- EDLE 618 - Supervision and Evaluation of Instruction Credits: 3
- EDLE 791 - Internship in Educational Leadership Credits: 3
- EDSE 626 - The Inclusive Classroom Credits: 3
- EDLE 690 - Using Research to Lead School Improvement Credits: 3
- EDSE 702 - Managing Resources for Special Education Programs Credits: 3
- EDSE 743 - Leadership in Special Education Administration Credits: 3

MEd Requirements (6 credits)
Total: 30 credits

Special Education, MEd

Banner Code: E1-MED-EDSE

The 30-credit master's degree in special education is designed to prepare both educators for the classroom and individuals working in a special education context outside of the classroom with the specialized skills and content knowledge needed to support the needs of individuals with disabilities. Students may focus their program on a specific area in the field by completing a licensure or non-licensure certificate program in conjunction with the MEd by using certificate coursework to fulfill the elective credits for the MEd degree program.

An accelerated master's option is available to students in any bachelor's degree. See Bachelor's Degree (any)/Special Education, Accelerated MEd for specific requirements.

Degree Requirements

MEd Course Work (15 credits)

- EDSE 501 - Introduction to Special Education Credits: 3
- EDSE 503 - Language Development and Reading Credits: 3 or EDSE 557 - Foundations of Language and Literacy for Diverse Learners Credits: 3 or EDSE 625 - Applied Behavior Analysis: Verbal Behavior Credits: 3
- EDSE 517 - Computer Applications for Special Populations Credits: 3
- EDSE 590 - Special Education Research Credits: 3
- EDSE 662 - Consultation and Collaboration Credits: 3 or EDSE 664 - Ethical and Professional Conduct for Behavior Analysis Credits: 3 or EDSE 665 - Families of Children with Special Needs Credits: 3

Electives (15 credits)

- Choose 15 credits from graduate EDAT or EDSE-prefix courses

Total: 30 credits

▲Concentration in Early Childhood Special Education (Non-licensure) (SPEC)

This 30-credit concentration is for professionals who already hold an early childhood special education teacher license or are interested in working in an early childhood special education context outside the classroom. Students who wish to seek early childhood education licensure are advised to consider completing the Early Childhood Special Education Licensure certificate program in conjunction with the MEd. Students may use their certificate coursework to fulfill the elective credits for the MEd degree program.
MEd Course Work (18 credits)

- ECED 502 - Foundations of Language and Literacy for Diverse Young Learners Credits: 3
- ECED 505 - Introduction to Early Childhood Special Education Credits: 3
- ECED 524 - Families of Children with Special Needs Credits: 3
- ECED 585 - Research in Early Childhood Education Credits: 3 or EDSE 590 - Special Education Research Credits: 3
- ECED 601 - Frameworks for Early Childhood Education Credits: 3
- EDSE 517 - Computer Applications for Special Populations Credits: 3

Note:

A professional portfolio is required. The portfolio reflects the student's professional development throughout the program and contains examples of performance assessments associated with standards.

Electives (12 credits)

- Choose 12 credits from graduate ECED- or EDSE-prefix courses

Total: 30 credits

Master of Science

Educational Psychology, MS

Banner Code: E1-MS-EDP

This 30-credit master’s program is designed to offer professionals and students the opportunity to apply principles of learning, cognition, and motivation to vital problems in the area of education; develop a solid understanding of research, assessment, and evaluation methodologies; and develop an analytical and scholarly approach to critically assessing theoretical perspectives, research, and practice within and across content domains. By participating in a supportive and collegial environment with faculty from numerous educational disciplines and expertise, students are expected to develop the skills to meet the needs of diverse populations and design and implement effective educational programs appropriate for a broad range of cultural contexts.

An accelerated master's option in either the EDPA or EDPL concentration is available to students in the psychology bachelor's program (BA or BS).

Degree Requirements

Students pursuing the master's degree in educational psychology must complete a minimum of 30 credits in one of three concentrations. Each concentration offers students the option of a thesis or a project to fulfill the research requirement.

▲ Concentration in Assessment, Evaluation, and Testing (EDPA)

Concentration Course Work (12 credits)

Four courses are required.
• EDRS 630 - Educational Assessment Credits: 3 or EDEP 591 - Data-Driven Decision Making for Continuous Educational Improvement Credits: 3 *
  plus one from:
• EDEP 798 - Directed Reading, Research, and Individual Projects in Educational Psychology Credits: 1-3 (for 3 credits)
• EDEP 799 - Thesis in Educational Psychology Credits: 1-3 (for 3 credits)
• EDEP 594 - Data-Driven Decision-Making Application in Education Contexts Credits: 3 * (for 3 credits)
  plus two from:
• EDEP 650 - High-Stakes Assessment and Accountability Systems Credits: 3 or EDEP 593 - Data-Driven Decision Making: Analysis and Interpretation of Assessment Data Credits: 3 *
• EDEP 651 - Modern Measurement with Applications in Education and the Behavioral Sciences Credits: 3 or EDEP 592 - Data-Driven Decision-Making: Development of Assessments Credits: 3 *
• EDRS 631 - Program Evaluation Credits: 6
• EDUC 597 - Special Topics in Education Credits: 1-6, when topic is focused on research methodology assessment, evaluation, and/or testing. (Must register for 3 credits)
• PSYC 541 - Survey Research Credits: 3
• PSYC 557 - Psychometric Methods Credits: 3

Note

* All courses marked with the asterisk are course options for those students in the Educational Psychology, MS Concentration in Assessment, Evaluation, and Testing who have also been admitted to the Data-Driven Decision-Making for Continuous Educational Improvement Graduate Certificate at least one full semester prior to concluding the degree.

Educational Psychology Core (9 credits)

• EDEP 550 - Theories of Learning and Cognition Credits: 3
• EDEP 551 - Principles of Learner Motivation Credits: 3
• EDEP 632 - Human Development Credits: 3

Research Methodology Core (9 credits)

• EDRS 531 - Educational and Psychological Measurement Credits: 3
• EDRS 620 - Quantitative Inquiry in Education Credits: 3
• EDRS 621 - Qualitative Inquiry in Education Credits: 3

Total: 30 credits

▲ Concentration in Learning, Cognition, and Motivation (EDPL)

Concentration Course Work (12 credits)

Four courses are required.

• EDEP 652 - Process of Learning and Development Credits: 3
• EDEP 798 - Directed Reading, Research, and Individual Projects in Educational Psychology Credits: 1-3 (for 3 credits) or EDEP 799 - Thesis in Educational Psychology Credits: 1-3 (for 3 credits)
  plus two from:
• EDEP 653 - Culture and Intelligence Credits: 3
• EDEP 654 - Learning, Motivation, and Self-Regulation Credits: 3

George Mason University 2013-2014 Official University Catalog 342
- EDEP 655 - The Neuroscience of Learning and Cognition Credits: 3
- EDUC 597 - Special Topics in Education Credits: 1-6 (Must register for 3 credits)

Educational Psychology Core (9 credits)

- EDEP 550 - Theories of Learning and Cognition Credits: 3
- EDEP 551 - Principles of Learner Motivation Credits: 3
- EDEP 632 - Human Development Credits: 3

Research Methodology Core (9 credits)

- EDRS 531 - Educational and Psychological Measurement Credits: 3
- EDRS 620 - Quantitative Inquiry in Education Credits: 3
- EDRS 621 - Qualitative Inquiry in Education Credits: 3

Total: 30 credits

▲ Concentration in Teacher Preparation (EDPT)  

Individuals pursuing the Educational Psychology, MS Concentration in Teacher Preparation must be admitted into one of the following teacher licensure certificate programs prior to completion of MS course work: English as a Second Language, Secondary Education, Students with Disabilities who Access the General Curriculum, Students with Disabilities who Access the Adapted Curriculum, or Visual Impairments. Students apply three courses (9 credits) from within one of the above mentioned teacher licensure certificate programs toward their MS degree in educational psychology with the expectation that they will complete the teacher certification program.

Concentration Course Work (12 credits)

- Three courses (9 credits) from teacher licensure certificate program (see above).
- Complete a directed reading/project or thesis (3 credits)
- EDEP 798 - Directed Reading, Research, and Individual Projects in Educational Psychology Credits: 1-3 (for 3 credits)
- EDEP 799 - Thesis in Educational Psychology Credits: 1-3 (for 3 credits)

Educational Psychology Core (9 credits)

- EDEP 550 - Theories of Learning and Cognition Credits: 3
- EDEP 551 - Principles of Learner Motivation Credits: 3
Choose three credits from the following:
- EDUC 539 - Human Development and Learning PK-12 Credits: 3
- EDUC 672 - Human Development and Learning: Secondary Education Credits: 3

Research Methodology Core (9 credits)

- EDRS 531 - Educational and Psychological Measurement Credits: 3
- EDRS 620 - Quantitative Inquiry in Education Credits: 3
- EDRS 621 - Qualitative Inquiry in Education Credits: 3
Total: 30 credits

Non-Degree

Applied Behavior Analysis Minor

Banner Code: ABAC

This program of study is offered by the College of Education and Human Development, specifically the Graduate School of Education.

This 21-credit minor provides undergraduate students with the coursework and experience required by the Behavior Analyst Certification Board to sit for the Board Certified Assistant Behavior Analyst examination. Nine credit hours are distributed across three required courses and the remaining nine across the required practicum.

Course Work

- EDSE 460 - Introduction to Applied Behavior Analysis Credits: 3
- EDSE 461 - Analysis and Intervention in Applied Behavior Analysis Credits: 3
- EDSE 462 - Applying Behavior Analysis in School and Community Settings Credits: 3
- EDSE 464 - Ethical and Professional Conduct in Applied Behavior Analysis Credits: 3
- EDSE 490 - Internship in Applied Behavior Analysis Credits: 3-9 (must register for 9 credits)

Total: 21 credits

Assistive Technology Minor

Banner Code: AT

This program of study is offered by the College of Education and Human Development, specifically the Graduate School of Education.

This 15-credit minor provides undergraduate students with background knowledge in assistive technology. Eight credits of course work must be unique to the minor.

Course Work

- EDAT 410 - Introduction to Assistive Technology Credits: 3
- EDAT 421 - Augmentative Communication Credits: 3
- EDAT 422 - Assistive Technology for Individuals with Sensory Impairments Credits: 3
- EDAT 423 - Accessibility and Input Modifications Credits: 3
- EDUC 203 - Human Disabilities in American Culture Credits: 3

Total: 15 credits

Early Childhood Education for Diverse Learners Minor
Banner Code: ECDL

This program of study is offered by the College of Education and Human Development, specifically the Graduate School of Education.

This 15-credit minor provides undergraduate students with background knowledge in Early Childhood Education for Diverse Learners. Completing this minor partially fulfills requirements for licensure in Early Childhood Education, PK-3 and Early Childhood Special Education in Virginia. Eight credits of course work must be unique to the minor.

Course Work

- ECED 401 - Developmental Pathways of Diverse Learners, Birth-Adolescence Credits: 3
- ECED 402 - Foundations of Language and Literacy for Diverse Young Learners Credits: 3
- ECED 403 - Inclusive Curriculum for Young Learners: Planning Instruction and Guidance Credits: 3
- ECED 405 - Introduction to Early Childhood Special Education Credits: 3
- Choose 3 credits from undergraduate ECED courses

Total: 15 credits

Education Studies Minor

Banner Code: ESTU

This program of study is offered by the College of Education and Human Development, specifically the Graduate School of Education.

This 18 or 19-credit minor is designed for students with a strong interest in exploring the field of education to develop a conceptual and situated understanding of schools and teaching. Eight credits of course work must be unique to the minor. This minor will not lead to teacher licensure; rather it is designed to introduce students to the structure of American Education. Students interested in teacher licensure are urged to contact the Undergraduate Academic Advisor for Education for guidance in identifying the requirements for teaching credentials.

Course Work

- EDUC 300 - Introduction to Teaching Credits: 3
- SOCI 382 - Education in Contemporary Society Credits: 3

Electives

Choose four courses from the following:

- EDIT 413 - Technology, Society, and the Culture of Learning Credits: 3
- EDLE 412 - Schools and the Law Credits: 3
- EDLE 420 - Organization and Management of Schools Credits: 3
- EDUC 303 - Politics of American Education Credits: 3
- NCLC 312 - Images and Experiences of Childhood: Social Construct, Literature, and Film Credits: 3-6 (Must register for 3 credits)
  or
- NCLC 316 - Introduction to Childhood Studies Credits: 4
Total: 18 or 19 credits

Human Development and Family Science Minor

Banner Code: HDFS

This 15-credit interdisciplinary minor is available to all Mason undergraduate students and provides background knowledge in human development and family science, specifically addressing how children and adults develop within the contexts of their families, communities and society. Eight credits must be unique to the minor.

The Human Development and Family Science Minor is a joint program with coursework selected from both the College of Education and Human Development (CEHD) and the College of Humanities and Social Sciences (CHSS). For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Core Course (3 credits)

- HDFS 200 - Individual and Family Development Credits: 3

Electives (12 credits)

Choose at least one course from each of the three component areas. The fourth elective may be selected from any component. Of these, two courses must have CEHD prefixes (ATEP, ECED, EDUC, HEAL, PHED) and two courses must have CHSS prefixes (ANTH, NCLC, PSYC, SOCI).

Students choose four courses from:

Development

Choose at least one from the following:

- ECED 401 - Developmental Pathways of Diverse Learners, Birth-Adolescence Credits: 3
- EDUC 302 - Human Growth and Development Credits: 3
- NCLC 302 - Argument and Advocacy Credits: 6
- PSYC 211 - Developmental Psychology Credits: 3
- PSYC 313 - Child Development Credits: 3
- PSYC 314 - Adolescent Development Credits: 3
- PSYC 415 - Psychological Factors in Aging Credits: 3
- SOCI 441 - The Sociology of Aging Credits: 3

Diversity

Choose at least one from the following:

- ANTH 315 - Socialization Processes: Family, Childhood, Personality in Cross-Cultural Perspective Credits: 3
- ATEP 205 - Cultural Competence Credits: 3
- ECED 405 - Introduction to Early Childhood Special Education Credits: 3
- EDUC 203 - Human Disabilities in American Culture Credits: 3
- HEAL 350 - Interventions for Populations and Communities at Risk Credits: 3
- NCLC 320 - Construction of Differences: Race, Class, and Gender Credits: 6
- NCLC 336 - Poverty, Wealth and Inequality in the US Credits: 3
- PSYC 379 - Applied Cross-Cultural Psychology Credits: 3
- SOCI 355 - Social Inequality Credits: 3

**Family Processes**

Choose at least one from the following:

- ECED 404 - Families, Communities and Schools Credits: 3
- HEAL 325 - Health Aspects of Human Sexuality Credits: 3
- HEAL 480 - Special Topics Credits: 1-3
- NCLC 317 - Issues in Family Relationships Credits: 4
- PSYC 466 - Psychology of Intimate Relationships Credits: 3
- SOCI 309 - Marriage, Families, and Intimate Life Credits: 3

**Total: 15 credits**

**Mild Disabilities Minor**

**Banner Code: MDIS**

This program of study is offered by the College of Education and Human Development, specifically the Graduate School of Education.

This 15-credit minor provides undergraduate students with background knowledge in mild disabilities. Completing this minor partially fulfills requirements for licensure in Special Education in Virginia. Eight credits of course work must be unique to the minor.

**Course Work**

- EDSE 401 - Introduction to Special Education Credits: 3
- EDSE 402 - Classroom Management and Applied Behavior Analysis Credits: 3
- EDSE 403 - Language Development and Reading Credits: 3
- EDSE 428 - Elementary Reading, Curriculum, and Strategies for Students Who Access the General Education Curriculum Credits: 3
- EDSE 440 - Characteristics of Students with Disabilities Who Access the General Curriculum Credits: 3

**Total: 15 credits**

**Secondary Education English Minor**

**Banner Code: SECE**
This program of study is offered by the College of Education and Human Development, specifically the Graduate School of Education.

This 21-credit minor provides undergraduates with background knowledge in Secondary Education English. Completing this minor fulfills requirements for licensure in Secondary Education English (6-12) in Virginia. Eight credits of course work must be unique to the minor. Individuals must be formally admitted to this program to begin the course sequence.

Course Work

- EDCI 469 - Teaching English in Secondary School Credits: 3
- EDCI 479 - Advanced Methods of Teaching English in the Secondary School Credits: 3
- EDCI 490 - Student Teaching in Education Credits: 6
- EDRD 419 - Literacy in the Content Areas Credits: 3
- EDUC 372 - Human Development, Learning, and Teaching Credits: 3
- EDUC 422 - Foundations of Secondary Education Credits: 3

Total: 21 credits

Severe Disabilities Minor

Banner Code: SPSD

This program of study is offered by the College of Education and Human Development, specifically the Graduate School of Education.

This 15-credit minor provides undergraduate students with background knowledge in severe disabilities. Completing this minor partially fulfills requirements for licensure in Special Education in Virginia. Eight credits of course work must be unique to the minor.

Course Work

- EDSE 401 - Introduction to Special Education Credits: 3
- EDSE 431 - Transition and Community-Based Instruction Credits: 3
- EDSE 434 - Communication and Severe Disabilities Credits: 3
- EDSE 447 - Medical and Developmental Risk Factors for Children with Disabilities Credits: 3
- EDSE 457 - Foundations of Language and Literacy for Diverse Learners Credits: 3

Total: 15 credits

Visual Impairment and Blindness Minor

Banner Code: VISB

This 18-credit minor provides undergraduate students with background knowledge in teaching students with visual impairments. Completing this minor partially fulfills requirements for licensure in Special Education in Virginia. Eight credits of course work must be unique to the minor.
Course Work

- EDAT 422 - Assistive Technology for Individuals with Sensory Impairments Credits: 3
- EDSE 401 - Introduction to Special Education Credits: 3
- EDSE 411 - Characteristics of Students with Visual Impairments Credits: 1
- EDSE 412 - Braille Code Credits: 3
- EDSE 414 - Orientation and Mobility Credits: 2
- EDSE 418 - Curriculum and Assessment of Students with Visual Impairments Credits: 3
- EDSE 432 - Positive Behavior Supports Credits: 3

Total: 18 credits
Athletic Training, BS Special Requirements

Fees and Expenses

Fees and expenses specific to the ATEP are as follows: laboratory supplies and equipment, clinical attire, clinical supplies, and clinical education manuals. Pre-professional phase students enrolling in ATEP 150 and ATEP 180 will be assessed a laboratory fee $120. Professional phase students will be assessed a laboratory fee of $100 for each clinical techniques course (ATEP 255, ATEP 265, ATEP 355, and ATEP 365). Payment is due at the first meeting of each course and is non-refundable.

Technical Standards

After admission to the pre-professional phase, students must submit a technical standards certification statement indicating that they have read, understand, and can meet the technical standards for athletic training students, either with or without accommodation. These standards outline the essential functional tasks that students must be able to perform to enroll in and complete the program. Students requiring special accommodations are encouraged to contact the Office of Disability Services.

Health Examinations and Certifications

Athletic training students are required to obtain a health examination and immunizations before entering the professional phase of the program. Students must have evidence of completion of the three hepatitis B immunizations and provide proof of tuberculosis screening in accordance with current U.S. Public Health Service recommendations. Students will be responsible for any costs associated with such screenings. Students choosing not to complete hepatitis B immunizations will be required to sign a declination waiver. All professional phase students must complete annual blood-borne pathogens training offered in the practicum courses. All students must have Emergency Cardiac Care (CPR, AED) and First Aid certifications before entering their first practicum experience and must maintain these certifications through the remainder of the ATEP. For additional information about ATEP academic policies and procedures refer to the program handbook at http://rht.gmu.edu/atep/forms/

Background Check

Students may be required to undergo a criminal background check. If a criminal background check fails to meet the requirements of a student's assigned practicum site, the student will be withdrawn from the practicum site and may be prohibited from completion of the curriculum. Students are encouraged to disclose any criminal background incidences to the ATEP Director prior to practicum placement.

Transportation Responsibilities

It is the responsibility of professional phase ATEP students to arrange transportation to and from their assigned practicum course sites. It is recommended that students have personal transportation. A limited number of sites are accessible via public transportation from the Fairfax campus. In the case that a practicum site is not accessible by public transportation and the student does not have a car, it is suggested the student take public transportation as far as possible and then take a taxi to the site. The student is responsible for all transportation fees including but not limited to gas, parking, bus, metro, taxi and zip car expenses. Students that have financial difficulty are encouraged to meet with a financial aid advisor to seek additional assistance.
College of Health and Human Services

The College of Health and Human Services (CHHS) comprises the School of Nursing, the Department of Global and Community Health (GCH), the Department of Health Administration and Policy (HAP), the Department of Nutrition and Food Studies (NUTR), the Department of Rehabilitation Science (RHBS), and the Department of Social Work (SOCW). The college prepares students to provide professional leadership, care, and services related to health promotion, wellness, disease prevention, and quality of life through the advancement of physical, social, and environmental health practices.

Since 1974, with the approval of its first baccalaureate nursing program, CHHS has evolved and expanded in response to the ever-changing fields of health care and social work. The college is multidisciplinary and offers degree programs and research opportunities in health administration, health policy, health information systems, health services research, nursing, public health, nutrition, global health, rehabilitation science, gerontology, and social work.

CHHS offers regular information sessions to prospective students. For dates and times, or to register for a session, visit the information sessions website or call the CHHS Office of Student Affairs at 703-993-1901.

Administration

Thomas Prohaska, Dean
Jack Hadley, Associate Dean, Finance and Planning
Keith Howell, Associate Dean, Research and Program Evaluation
Robin Remsburg, Associate Dean and Director, School of Nursing
Frank J. Whittington, Senior Associate Dean, Academic Affairs
Jan Boyd, Assistant Dean, Academic Outreach
Susan J. Swett, Assistant Dean, Student Affairs
Catherine Tompkins, Assistant Dean, Undergraduate Studies
Andrew Guccione, Chair, Rehabilitation Science
Cathleen Lewandowski, Chair, Social Work
P. J. Maddox, Chair, Health Administration and Policy
Lisa Pawloski, Chair, Nutrition and Food Studies
Carlos Sluzki, Acting Chair, Global and Community Health
Shirley Travis, Senior Administrative Faculty

Faculty

Faculty emeriti: Ailinger, Boland, Boyd, Brenkus, Carty, Jenkins, Langley, Moore, Moss, Normile, Parker-Smith, Redmond, Silva, Sorrell, Vail, Walker, Wu
Professors: Gaffney, Gerber, Guccione, Hadley, Howell, Kluger, Lewandowski, Maddox, Meiners, Metcalf, Milligan, Nichols, Pawloski, Prohaska, Raskin, Remsburg, Richards, Ritchie, Rose, Sluzki, Travis, Whittington, Zimmerman

Assistant professors: Campo, Carle, Cantiello, Clark, Cleaveland, Dawson, Dickman, Evans, Freeborne, Frankenfeld, Gewa, Herrick, Iannitto, Kelly, Kim, Kirsch, Kodadek, Maradiegue, Miklancie, Min, Nambisan, Oh, Peppard, Poms, Rosenberger, Slavin, Smoczynski, Sutter, Sutter, Terry, Urban, Weinstein, Willis, Winter, Wojtusiak, Yang, Zwicker

Assistant research professor: Chin

Instructors: Almond, Burke, Cox, Henderson, Middle, Shiver, Stoehr

Research Instructor: Debold

Course Work

CHHS offers all course work designated GCH, HAP, HHS, NURS, NUTR, RHBS, and SOCW in the Courses section of this catalog.

Academic Programs

CHHS is committed to educating the next generation of health professionals, researchers, and educators. Our School of Nursing produces more new RNs each year than any other program in Virginia, and these graduates have one of the state’s highest pass rates on the nursing licensure exam. Through the PhD program in nursing, the college is helping to fill the need for nursing faculty and researchers, and through the DNP program, provides an opportunity for nurses to become experts as nurse practitioners, nurse administrators, or nurse educators. The Department of Health Administration and Policy prepares students for careers as leaders of health care organizations and as health policymakers at the state and national levels, while the Department of Global and Community Health trains public health practitioners with a global reach, who can intervene and improve the health of local and international populations. The Department of Rehabilitation Science provides interdisciplinary programs to educate students to address the needs of the disabled. Graduates of the PhD program in rehabilitation science are prepared for careers in academic, governmental, and industrial research environments. The Department of Nutrition and Food Studies integrates education, research, and outreach in preparing students to improve the health and well-being of populations through food and nutrition. The Department of Social Work educates undergraduate and graduate students to be professional social workers practicing in either community organizations or clinical settings. The CHHS academic units offer a variety of specializations within degree programs, including gerontology, epidemiology and biostatistics, health informatics, clinical social work, and conflict analysis and resolution.

Professional Conduct Policy

All CHHS students are expected to conduct themselves professionally at all times. This means that certain behavior is prohibited, including verbal abuse, insubordination, and behavior that threatens the safety of a client, another student, a faculty member, or other health care provider when the behavior occurs within the context of an academic program. CHHS reserves the right to place on probation, suspend, or terminate any student in its programs who engages in such conduct. Students disciplined for such reasons have the right to appeal to their department chair or director.

Student Affairs
The Office of Student Affairs supports students, faculty, and staff members on a variety of admissions, academic, and policy issues. Student Affairs is involved in recruiting new students; pre-admissions advising; processing applications for graduate programs and undergraduate nursing programs; and conducting orientations for newly admitted students.

Student Affairs maintains the college’s student records; reviews and recommends action on student requests for exceptions to academic policy; processes standard academic actions; and approves student records for degree completion prior to graduation. Student grade appeals fall under university policy as described in the Academic Policies section of the catalog.

Each CHHS student is assigned an academic advisor, with whom he or she should meet at least once per semester in order to ensure that program requirements are met. The assigned advisor may be a faculty member, a departmental program coordinator, or an advisor in the Office of Student Affairs.

**Student Responsibility**

All students are required to have an active Mason e-mail account and to update any change of address online through Patriot Web. The college will not communicate with students via a personal e-mail address, so it is important that students check their Mason e-mail regularly. Students are responsible for knowing the university academic policies and the policies governing their program as stated in the university catalog. They are also responsible to know the semester academic calendar including withdrawal deadlines; to review their Mason transcript on-line to ensure transfer of credit accuracy; and to monitor their degree progression through the degree evaluation tool on Patriot Web.

**Background Checks**

Many clinical agencies and practicum sites mandate that students working there have a criminal background check. All students enrolled in the School of Nursing are required to complete a criminal background check prior to beginning the program. Students enrolled in other CHHS programs may be required to complete background checks before entering a practicum environment. Information obtained from the background check is strictly confidential but may result in a student’s inability to perform clinical or practicum activities and, therefore, will disqualify the student from entering or continuing in the program. School of Nursing students are sent information regarding the criminal background check process, and associated fees, in their admission packets. Other students are informed individually as they are considered for practicum activities requiring background checks. Students are responsible for notifying the assistant dean of student affairs of any arrests, regardless of adjudication, that occur after acceptance and during enrollment in the program. Failure to promptly notify the assistant dean of student affairs may be grounds for termination from the program.

**Health Records**

To comply with the policies established by the Commonwealth of Virginia, all students must provide current immunization records to the university’s Student Health Services at the time of admission to the college. Immunizations may be obtained through Student Health Services on any of the Mason campuses. All students in the School of Nursing also must submit immunization records to the School of Nursing at the time of admission. Additional documentation of good health may be required.

Students should keep copies of their health records should agencies require them for clinical and practicum assignments. All costs associated with immunizations and certifications are the student’s responsibility.

**Insurance and Liability**

Students are strongly advised to maintain health insurance coverage at all times. All students enrolled in the School of Nursing are required to maintain health insurance at all times. A student health insurance plan is available to eligible students through Mason. Students are responsible for their own health care, including emergency care, and CHHS assumes no financial responsibility for the health care of students. Enrolled students who are performing internships and similar experiential learning
as a required part of their academic programs are considered agents of the university. They are covered for professional liability by the Commonwealth of Virginia Risk Management Plan while engaged in their prescribed educational duties.

**Academic Outreach**

The mission of the Office of Academic Outreach is to provide off-campus graduate coursework that supports the continued professional development and competency of practicing health professionals. This purpose is accomplished through collaborative relationships with expert health and instructional resources—individual and organizational—both internal and external to the University.

**Academic Policies**

Students should become familiar with the university's general academic policies in addition to those specific to each academic unit. Please see the Academic Policies section of this catalog.

**Non-Degree Enrollment**

Non-degree status enables students who have no immediate degree objective or may need to satisfy prerequisites for admission to a degree program to enroll in courses for which they are qualified without seeking formal admission to a degree program. Applicants should be aware of the fact that non-degree admission does not guarantee enrollment in any specific course or future degree program. Enrollment in specific courses is based on eligibility criteria and availability of space in courses. In some areas of study, enrollment may be restricted or prohibited.

Non-degree applications and their established deadlines are available online through the Office of Admission. Detailed information regarding non-degree admission policies and procedures can be found in the Admissions section of this catalog.

The Department of Global and Community Health, the Department of Health Administration and Policy, and the Department of Nutrition and Food Studies welcome Non-Degree students in their classes on a space available basis. Programs in the College of Health and Human Services which have course restrictions are listed below.

**Graduate Non-Degree Restrictions**

**All Graduate Programs**

Students may take a maximum of 9 credit hours in non-degree studies. A student cannot graduate or receive a degree while in non-degree studies. Non-degree graduate students may not register for classes numbered 800 or higher.

**Social Work, MSW**

The MSW program has a once-a-year, fall admissions cycle and each year receives many more applications than spaces available in the class. Thus, graduate MSW Social Work courses are restricted to students who have been admitted to the program and are not open to non-degree students.

**Nursing, MSN**

A student may be eligible to enroll in approved non-degree MSN courses when space is available if the student:

- Has not applied for the MSN program and has not been previously denied admission to the MSN program
- Holds a BSN from an accredited college and achieved a cumulative degree GPA of 3.0
- Holds a current RN license
MSN non-degree students may not take classes numbered 800 or higher. In addition, they may take a maximum of 9 credit hours in non-degree studies.

Undergraduate Non-Degree Restrictions

Nursing, BSN

Students must be admitted into the BSN program in order to register for undergraduate nursing (NURS) courses.

School of Nursing

Phone: 703-993-1901 (Undergraduate programs)
Phone: 703-993-1947 (Master's programs)
Phone: 703-993-1961 (Doctoral program)

Faculty

Emeriti: Ailinger, Boland, Boyd, Brenkus, Carty, Jenkins, Langley, Moore, Moss, Normile, Parker-Smith, Redmond, Silva, Sorrell, Vail, Walker, Wu

Professors: Gaffney, Milligan, Remsburg (associate dean/director), Richards (assistant dean, doctoral division), Travis
Associate Professors: Chong, Cresci, Davidson, Douglas, Evans, Hatcher, McDaniel, Rodan (assistant dean, masters/post masters division) Assistant Professors: Campo, Dickman, Evans, Iannitto, Kelly, Kim, Kodadek, Maradiegue, Miklancie, Oh, Peppard, Smoczynski, Sutter, Sutter, Urban (assistant dean, undergraduate division), Willis, Zwicker

Instructors: Almond, Burke, Cox, Middle, Stoehr

The School of Nursing is a teaching/learning organization with a national and international academic reputation, grounded in sound general education. It develops and supports a diverse faculty who are visionary and competent practitioners, scholars, and researchers, excellent in teaching in academic and practice settings, and responsive to the needs of students and the community. Specifically, the nursing programs prepare graduates to function as providers, coordinators, and managers of care and for leadership, advanced practice, and nurse scholar roles, as well as members of the nursing profession. Graduates of the School of Nursing are prepared to function as interdisciplinary health professionals and citizens who provide leadership, care, and service to the community. The School promotes health and well-being through its programs and centers, engaging in scholarly activities and research with the aim of maximum health for all people. Part-time students are encouraged to take at least 6 credits per semester to promote timely completion of the program.

Course Work

The School of Nursing offers course work designated NURS in the Courses section of this catalog.

Bachelor of Science in Nursing

Nursing, BSN

Banner Code: HH-BSN-NURS
Unit: School of Nursing

The Bachelor of Science in Nursing (BSN) Program is accredited by the Virginia State Board of Nursing and the Commission on Collegiate Nursing Education. The undergraduate nursing program prepares students to deliver superior nursing care and provide leadership in nursing in the increasingly complex and challenging field of modern health care. Graduates are in demand as professional nurses in hospitals, long-term care facilities, and community health and other health care agencies. The program emphasizes health promotion and disease prevention, capitalizing on early detection of potential health problems, health maintenance in ambulatory and acute-care agencies, and preparation for the managerial responsibilities of nursing.

The School of Nursing offers three pathways to complete the BSN, all of which lead to completion of the objectives of the undergraduate program. The traditional pathway is a two-year curriculum following the completion of general education and prerequisite requirements. An accelerated RN-to-BSN pathway for students holding current registered nurse (RN) licenses may be completed in one year (full-time) following completion of general education and prerequisite requirements. The accelerated, second degree pathway is a 12-month curriculum for students holding a baccalaureate degree outside of nursing. The traditional and accelerated pathways in nursing must be completed on a full-time basis.

Admission Requirements

To be admitted to the BSN program, students must complete a prenursing curriculum during their first two years and be admitted to junior standing. Students admitted in the traditional and accelerated, second degree pathways will enter the program in the fall of their junior year and at that point are considered nursing majors. Students admitted to the RN-to-BSN pathway may enter in the fall or spring semester.

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently enrolled Mason students need only apply using the BSN Departmental Application.) Acceptance to the nursing program is contingent upon admission to the university, but admission to the university does not guarantee admission to the nursing program. Application to the BSN major is a competitive admission process. Prospective applicants are responsible to meet all BSN admission requirements at the time of application. Meeting the minimum requirements does not guarantee admission into the nursing program—it only allows an application to be considered. Students who are interested in pursuing a major in nursing are strongly encouraged to attend an information session provided by the CHHS Office of Student Affairs for advising prior to applying to the nursing major.

Attendance at the first meeting of all nursing courses (lectures, on-campus laboratories, and agency laboratories) is mandatory.

Writing Intensive Requirement

Mason requires all students to complete at least one 300- or 400-level "writing intensive" course as designated by their department. Students majoring in nursing fulfill this requirement by successfully completing NURS 465.

Academic Grade Standards

Acceptable grades in the School of Nursing are grades of C or better, or an S grade. After admission to junior-year standing and to the nursing program, a student who earns a grade lower than a C in one required nursing course (NURS or HHS prefix) must repeat the course and earn a grade of C or higher to continue progression in nursing course work. This will alter or halt further progression in the nursing program and affect the expected graduation date. A student may repeat only one nursing course, one time. A student who fails to earn a C or higher in the repeated course is terminated from the BSN program. In addition, earning a grade lower than a C in a second nursing course results in termination from the nursing program. Termination from any one of the nursing undergraduate pathways constitutes termination from the undergraduate (BSN) nursing major in the School of Nursing.
Because of the sequential nature of the nursing curriculum, students are not allowed to progress to the next semester of nursing course work while a grade of “IN” (incomplete) remains on their academic record. A passing grade of C or higher must be recorded before beginning the next semester’s courses.

Professional Conduct Policy

All students in the School of Nursing are expected to adhere to the Professional Conduct Policy of the College of Health and Human Services.

Appeal Process

Although faculty members in the nursing program are generally the best judges of a student’s professional performance, there may be times when a student believes a grade is unfair. Students in the School of Nursing wishing to appeal a grade are expected to follow the GMU guidelines for grade appeals, found in the Academic Policies section of the GMU University Catalog.

NCLEX Readiness Preparation and Testing

Throughout the BSN program, all students, with the exception of RN-to-BSN students, participate in preparation for the NCLEX-RN licensing exam through opportunities provided during nursing courses. These opportunities are included as integrated components of select courses and include practice NCLEX-style exams and content-specific testing. A final cumulative assessment exam is given toward the end of the program to provide the student with guidance about their chance for success on the licensing exam. A final course in critical thinking and test-taking strategies is required in the senior year, and remediation in select content areas may be required as a component of this course.

Special Requirements

Fees and expenses related to the nursing program include: skills laboratory fee, standardized testing and course materials, uniforms, stethoscope, name pin, books, CPR certification, health forms, health insurance, immunizations, and criminal background check fees. The availability of personal transportation to and from clinical agencies is required of all students. For a summary of all current fees and estimated expenses, see the School of Nursing web site.

All BSN students are required to obtain a health clearance and complete the immunizations required by GMU as listed in the Student Health Services section of the GMU catalog. In addition, the BSN program has additional health and immunization requirements to meet the requirements of its clinical agency partners. See the Undergraduate Program, School of Nursing website for the most current information. Students are not allowed into any clinical setting without the completed immunization series as prescribed by GMU or the School of Nursing and may have an offer of admission withdrawn for inability to meet these requirements. The School of Nursing reviews health records and reserves the right to refuse admission or continued enrollment to any student who is unable to comply with these requirements.

All students must have CPR certification before entering the first clinical nursing course and maintain it through the remainder of the program. The American Heart Association Basic Life Support - Health Care Provider is required. On-line renewal of CPR certification is not accepted. Any cost incurred is the responsibility of the student.

All students must have current health insurance before entering the first clinical nursing course and maintain it through the remainder of the program. All students are required to have an active Mason e-mail account.

No student or faculty member will be discriminated against or denied admission to the nursing program for the sole reason that the student or faculty member has been exposed to, infected with, or diagnosed with HIV or HBV. All students are expected to practice Universal Precautions with all clients, and failure to do so will result in termination from the nursing major. In the event that a student is exposed to body fluids of a client during a clinical experience or practicum, procedures and appropriate reports are completed according to institutional and nursing policies. Information related to exposure or infection is confidential, and
dissemination of such information is based on the need-to-know criteria that apply in health care situations. HIPAA and FERPA regulations apply. A complete and detailed HIV/HBV policy is available in the CHHS Office of Student Affairs.

RN-licensed students enrolled in the RN-to-BSN pathway are required to submit a copy of their current license prior to the first day of class. RN-licensed students must maintain current licensure throughout the academic program.

Degree Requirements

General Education (27 credits)

Written Communication:

- ENGH 101 - Composition Credits: 3
- ENGH 302 - Advanced Composition Credits: 3

Note: Non-native speakers of English with limited proficiency in the language may substitute ENGH 100 for ENGH 101. Students must attain a minimum grade of C in ENGH 100 or 101, as well as in 302, to fulfill degree requirements.

Oral Communication:

- An approved University General Education Oral Communication course.

Information Technology:

- An approved University General Education Information Technology course.

Literature:

- An approved University General Education Literature course.

Arts:

- An approved University General Education Arts course.

Western Civilization:

- An approved University General Education Western Civilization course.

Global Understanding:

- An approved University General Education Global Understanding course.
  The recommended course is:
- GCH 205 - International Health Credits: 3

Social Science:

- An approved University General Education Social Science course.
The recommended course is:

- PSYC 100 - Basic Concepts in Psychology Credits: 3

Designated Nursing Prerequisites (24 credits)

**Anatomy and physiology:**
- BIOL 124 - Human Anatomy and Physiology Credits: 4
- BIOL 125 - Human Anatomy and Physiology Credits: 4
  BIOL 124 and 125 meet the natural science general education requirement.

**Microbiology:**
- BIOL 246 - Introductory Microbiology Credits: 3 or BIOL 305 - Biology of Microorganisms Credits: 3
- BIOL 306 - Biology of Microorganisms Laboratory Credits: 1

**Bioethics:**
- PHIL 309 - Bioethics Credits: 3

**Statistics:**
- STAT 250 - Introductory Statistics I Credits: 3 or a statistics course in another discipline with the approval of the advisor.

  STAT 250 fulfills the quantitative reasoning general education requirement. If STAT 250 is not taken, an approved University General Education Quantitative Reasoning course is required.

**Human Lifespan Development:**
- Any 3-credit human lifespan development course or equivalent as approved by the advisor.
  The recommended course is:
  - PSYC 211 - Developmental Psychology Credits: 3

**Nutrition:**
- NUTR 295 - Introduction to Nutrition Credits: 3
  Other nutrition transfer courses may meet this requirement as approved by the advisor.

Electives (7 credits)

Students will complete 7 credits of electives. A course in sociology or anthropology is recommended.

**Traditional BSN Pathway (62 credits)**

To be eligible to apply for the traditional BSN program, applicants must have achieved a minimum GPA of 3.00 in the designated nursing prerequisite course work and must have earned a C or better in each of the following courses: anatomy and physiology (BIOL 124 and 125, 8 credits); microbiology (BIOL 246 and 306, 4 credits); statistics (3 credits); nutrition (NUTR 295, 3 credits); developmental psychology (3 credits); and bioethics (PHIL 309, 3 credits). Applicants must have completed two of the three science prerequisite courses (anatomy and physiology I, anatomy and physiology II, and microbiology) by the submission date of the BSN application. Course work in anatomy and physiology and microbiology cannot be more than five years old by the time of BSN enrollment. Additional eligibility requirements include a grade of C or better in all general education courses and electives.

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently-enrolled Mason students need only apply using the BSN Departmental Application.) Admission to the university does not guarantee admission to the nursing program. Acceptance to the nursing program is contingent upon admission to the university. See the CHHS undergraduate admissions website for the latest information on applications and deadlines.

Application to the BSN major is a competitive admission process. Meeting the minimum requirements does not guarantee admission into the nursing program - it only allows an application to be considered in the review process.
The traditional BSN pathway is a full-time program beginning in the fall semester and is completed in two years (four semesters).

**Traditional BSN Major, Required Courses (62 credits)**

- NURS 312 - Basic Nursing Care of Adults Credits: 4
- NURS 330 - Nursing Fundamentals Credits: 3
- NURS 334 - Nursing as a Health Profession and Discipline Credits: 3
- NURS 337 - Application of Nursing Fundamental Technologies Credits: 1
- NURS 343 - Pharmacology Credits: 3
- NURS 344 - Intermediate Nursing Technologies Credits: 1
- NURS 347 - Adult Pathophysiology and Nursing Care Credits: 2
- NURS 348 - Maternal-Newborn Physiology, Pathophysiology, and Nursing Care Credits: 2
- NURS 349 - Pediatric Pathophysiology and Nursing Care Credits: 2
- NURS 358 - Health Promotion and Disease Prevention in Maternal/Infant Nursing Credits: 2
- NURS 359 - Health Promotion and Disease Prevention in Pediatric Nursing Credits: 2
- NURS 388 - Problem-Based Clinical Inquiry Credits: 3
- NURS 410 - Nursing Care of Clients with Pathological Conditions Credits: 3
- NURS 425 - Comprehensive Health Assessment Credits: 3
- NURS 436 - Leadership and Management of Health Care Credits: 3
- NURS 451 - Advanced Clinical Preceptorship Credits: 5
- NURS 453 - Research in Nursing Credits: 3
- NURS 455 - Advanced Technologies in Nursing Credits: 1
- NURS 465 - Examination and Integration of Professional and Health Care Issues Credits: 3
- NURS 466 - Community Health Nursing Credits: 2
- NURS 467 - Clinical in Community Health Nursing Credits: 2
- NURS 468 - Psychiatric and Mental Health Nursing Credits: 2
- NURS 469 - Clinical in Psychiatric and Mental Health Nursing Credits: 2
- NURS 488 - Inquiry-Based Clinical Seminar Credits: 2
- NURS 491 - Critical Thinking and Analysis of Test Taking Strategies Credits: 3

Total: 120 credits

**Concentrations: Alternative Pathways**

Students who are eligible for an alternative pathway to the BSN must meet the nursing course requirements for the pathway to which they have been admitted rather than those for the traditional BSN pathway described above.

**▲ Accelerated, Second Degree BSN Pathway (SEC)**

The Accelerated, Second Degree BSN Pathway is designed for applicants already holding a bachelor's degree who are interested in pursuing an undergraduate degree in nursing. This full-time accelerated program begins in the fall semester and is completed in 12 months.

Applicants must have a baccalaureate degree from an accredited college or university and must have earned a minimum cumulative GPA of 2.85 in their first degree. The non-nursing baccalaureate degree must be completed by the end of the spring semester of the year a student desires to be considered for fall admission.
Applicants to the second degree pathway must have achieved a minimum GPA of 3.00 in the designated nursing prerequisite course work and must have earned a C or better in each of the following courses: anatomy and physiology (BIOL 124 and 125, 8 credits); microbiology (BIOL 246 and 306, 4 credits); statistics (3 credits); nutrition (NUTR 295, 3 credits); developmental psychology (3 credits); and bioethics (PHIL 309, 3 credits). Applicants must have completed two of the three science prerequisite courses (anatomy and physiology I, anatomy and physiology II, and microbiology) by the submission date of the BSN application. Course work in anatomy and physiology and microbiology cannot be more than five years old by the time of BSN enrollment.

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently enrolled Mason students need only apply using the BSN Departmental Application.) Admission to the university does not guarantee admission to the nursing program. Acceptance to the nursing program is contingent upon admission to the university. See the CHHS undergraduate admissions website for the latest information on applications and deadlines.

Application to the BSN major is a competitive admission process. Meeting the minimum requirements does not guarantee admission into the nursing program - it only allows an application to be considered in the review process.

Second Degree Pathway Requirements

Candidates for the degree must present at least 120 credits:

- Mason General Education requirements are satisfied by the initial degree and fulfilled through transfer credit.
- Designated nursing prerequisites: 24 credits
- Concentration requirements: 47 credits. Specific requirements are as follows:

Second Degree Concentration, Required Courses (47 credits)

- NURS 305 - Application of Basic Nursing Techniques Credits: 1
- NURS 309 - Introduction to Basic Nursing Care Credits: 3
- NURS 310 - Application of Basic Nursing Care Credits: 3
- NURS 319 - Pathophysiological Basis for Nursing Care of Individuals and Small Groups Credits: 4
- NURS 334 - Nursing as a Health Profession and Discipline Credits: 3
- NURS 343 - Pharmacology Credits: 3
- NURS 350 - Application of Nursing Care for Individuals and Small Groups Credits: 5
- NURS 351 - Application of Intermediate Nursing Technologies Credits: 1
- NURS 419 - Pathophysiological Basis for Nursing Care of Individuals and Small Groups II Credits: 3
- NURS 425 - Comprehensive Health Assessment Credits: 3
- NURS 427 - Advanced Technologies for the Accelerated Pathway Credits: 1
- NURS 428 - Community Health Clinical for the Accelerated Pathway Credits: 2
- NURS 429 - Preceptorship for the Accelerated Pathway Credits: 3
- NURS 436 - Leadership and Management of Health Care Credits: 3
- NURS 440 - Community Health and Epidemiology Credits: 3
- NURS 453 - Research in Nursing Credits: 3
- NURS 465 - Examination and Integration of Professional and Health Care Issues Credits: 3

Total: 120 credits

▲ Accelerated RN-to-BSN Pathway (RN)
The Accelerated RN-to-BSN Pathway allows RNs to progress quickly through the program through online course work while meeting the objectives of the undergraduate curriculum. On completion of the general education requirements and designated nursing prerequisites, RN students can complete the BSN in two semesters of full-time study. The program can also be completed on a part-time basis.

RN students must satisfy all general education requirements and designated nursing prerequisites. For most students, general education and nursing prerequisite requirements are met by completing the Associate's degree (i.e., AA or AS). RN-licensed students enrolled in the RN-to-BSN pathway are required to submit a copy of their current license prior to the first day of class. RN-licensed students must maintain current licensure throughout the academic program.

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently enrolled Mason students need only apply using the BSN Departmental Application.) Admission to the university does not guarantee admission to the nursing program. Acceptance to the nursing program is contingent upon admission to the university. See the CHHS undergraduate admissions website for the latest information on applications and deadlines.

Application to the BSN major is a competitive admission process. Meeting the minimum requirements does not guarantee admission into the nursing program - it only allows an application to be considered in the review process.

RN-to-BSN Pathway Requirements

Candidates for the degree must present at least 120 credits. A minimum of 30 credits must be earned at Mason to fulfill requirements for graduation. These include:

- 57 credits of General Education and general electives
- 24 credits specific to the concentration
- 3 credits of ENGH 302
- 3 credits of electives earned at Mason
- 33 credits designated “Credit by Exam”

To earn the BSN degree through the RN-to-BSN pathway, students must complete 120 credits, including the University General Education requirements and all of the following:

General Education and General Electives (57 credits)

For most students, general education and nursing prerequisite requirements are met by completing the Associate's degree (i.e., AA or AS).

RN-to-BSN Pathway, Required Courses (30 credits)

- ENGH 302 - Advanced Composition Credits: 3
  Students must complete ENGH 302, listed above under General Education requirements. Only students holding a previous baccalaureate degree are not required to take ENGH 302.
- NURS 336 - Concepts in Professional Nursing as a Discipline Credits: 3
- NURS 425 - Comprehensive Health Assessment Credits: 3
- NURS 436 - Leadership and Management of Health Care Credits: 3
- NURS 440 - Community Health and Epidemiology Credits: 3
- NURS 434 - Vulnerable Populations Credits: 3
- NURS 453 - Research in Nursing Credits: 3
- NURS 457 - Introduction to Nursing Informatics Credits: 3
- NURS 465 - Examination and Integration of Professional and Health Care Issues Credits: 3
- Elective (3 credits)
Credit by Exam (33 credits)

RN students will be awarded 33 nursing credits upon completion of NURS 336.

Total: 120 credits

Doctor of Nursing Practice

Nursing, DNP

Banner Code: HHI-DNP-NURS

Unit: School of Nursing

The Doctor of Nursing Practice (DNP) builds on the MSN degree. The objective of the program is to prepare graduates for the highest level of nursing practice. Emphasis will be placed on evaluating and applying the evidence that supports practice, understanding and creating practice delivery systems based on patient outcomes, and assuming leadership roles in practice settings. In the curriculum, five concentrations are available to the post-baccalaureate student. The concentrations are configured into two foci as recommended by the AACN DNP Essentials: 1) care of individuals with three concentrations, Family Nurse Practitioner, Adult-Gerontology Nurse Practitioner, and Family Psychiatric Mental Health Nurse Practitioner; and 2) care of aggregates (groups) with Advanced Clinical Nursing and Administration in Nursing concentrations. BSN to DNP students must complete Level I core and advanced-practice competency courses relevant to their chosen concentration prior to taking Level II core essentials. The DNP is the terminal practice degree in the profession. The degree will draw on expertise from throughout CHHS in such areas as health economics, health policy, and epidemiology. Graduates of the program will be able to assume many roles in the health care system, including direct patient care, clinical nursing faculty, practice management, and policy development.

Admission Requirements

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. Applicants for the BSN to DNP curriculum must be graduates of an accredited baccalaureate programs in nursing. Applicants for the MSN to DNP curriculum must hold an active state-based/US license as a registered nurse (RN), and show evidence of at least one year of experience as an RN prior to enrollment in clinical course work. The application process is competitive, and applications are considered for the fall semester only. For application deadlines and detailed application requirements please refer to the CHHS Admissions website.

Transfer of Credit

Students may transfer a maximum of 9 credits into the DNP program from graduate courses taken at other institutions or taken at Mason in non-degree status, including courses offered through the college’s Academic Outreach program. Transfer credit is governed by university transfer of graduate credit policy and the university requirements for doctoral degrees, and transfer credit must be approved by the program director and the dean. Students who enroll initially through non-degree studies or the Academic Outreach program should seek course advising through the department and should submit their application to the DNP program as soon as possible after beginning in their study in non-degree status.

Reduction of Credit
Students who come into the MSN to DNP program will complete 72 credits, including up to 30 hours of relevant graduate credit awarded for past master's-level courses.

**Time Requirements**

The projected length of the program for full-time BSN to DNP students is three calendar years, which could stretch to eight academic years for part-time students. Full-time MSN to DNP students can complete in two academic years, while part-time students may require three academic years. BSN to DNP students will have a maximum of eight years and MSN to DNP students will have a maximum of six years to complete the program.

**Degree Requirements**

The BSN to DNP curriculum is comprised of 72 credits divided among Level I core courses, advanced practice competency courses, Level II core essentials, clinical practicums and a practice inquiry project. Students who come into the MSN to DNP program will also complete 72 credits, including up to 30 hours of relevant graduate credit awarded for past master's-level courses.

Of the 72 required credits, all students will have 28 total credits of core content (Level I core and Level II core essentials). Core content focuses on informatics, financial management, health policy, theory, ethics, leadership, and application of research. Students also must take 36 credits of advanced practice competency courses and 8 credits of a practice-based translational inquiry (practice inquiry project). These credits count toward the AACN DNP Essential minimum of 1,000 hours of precepted/mentored clinical practice.

The 1,000 hours of precepted/mentored clinical practice are distributed among introductory (500- to 700-numbered courses) and upper-level (800- to 900-numbered courses) graduate courses. Students receive one hour of credit for 45 hours of precepted/mentored clinical practice that is part of the coursework. BSN to DNP students will include the 1,000 hours in their course work. MSN to DNP students can transfer in up to 800 hours (depending on how many hours they accrued during their master's program). The number of clinical hours a student is awarded on admission is based on transcripts and course descriptions. Faculty will review clinical credits earned as part of the master's degree to determine the number of clinical hours awarded. Variable hours in the clinical practicums (NURS 921 and NURS 922) will assure a total of 1,000 clinical hours prior to DNP graduation.

Students will pursue one of two emphases: (1) Advanced nursing care of individuals, or (2) Advanced nursing care of aggregates. Students will integrate knowledge from core and concentration courses into development and implementation of their practice inquiry project.

The curriculum will allow students with diverse nursing academic and clinical backgrounds the flexibility to enter a program of study tailored to their future professional goals. The final project will be an evidence-based translational research project (practice inquiry project). This project is designed for students to address a real-life professional issue with potential for actual implementation to improve practice and outcomes. The goal of the DNP program is to maximize the strength and credentials of each student through faculty advisement. Students will be assigned to a faculty advisor whose interest and expertise will support the development of an individual practice inquiry project at the culmination of course work. All students are required to have an active Mason e-mail account.

**BSN to DNP Curriculum (72 credits)**

Level I core courses and advanced practice competency courses must be completed in the first two years of full-time study or four years of part-time study. These foundational courses prepare the student to develop and implement the practice inquiry project in the final two semesters of study.

**Level I Core Courses (12 credits)**
• NURS 665 - Theoretical and Ethical Foundations Related to Nursing Credits: 3
• NURS 688 - Organization of Nursing and Health Care Delivery Systems Credits: 3
• NURS 757 - Nursing Research and Biostatistics I Credits: 3
• NURS 758 - Nursing Research and Biostatistics II Credits: 3

Level II Core Essentials Courses (16 credits)

• NURS 643 - Community-Oriented Primary Care Credits: 3
• NURS 715 - Nursing Informatics Inquiry Credits: 3
• NURS 808 - Translating Nursing and Health Care Research into Evidence-Based Policy Credits: 3
• NURS 870 - Nursing and Health Care Administration I Credits: 3
• NURS 883 - Evidence-Based Practice in Nursing and Healthcare Credits: 4

Advanced Practice Competency Courses (36 credits)

Concentrations in Advanced Nursing Care of Aggregates

▲ Advanced Clinical Nursing Concentration (NUAC)

• NURS 714 - Health Assessment in Clinical Practice Credits: 2
• NURS 724 - Health Assessment Practicum Credits: 1
• NURS 740 - Clinical Nurse Specialist Internship Credits: 3  Students are required to earn 6 credits of NURS 740 by taking it twice.
• NURS 761 - Pharmacotherapeutics Credits: 3
• NURS 769 - Physiology and Pathophysiology in Advanced Practice Credits: 3
• NURS 773 - Clinical Applications of Theory in Advanced Clinical Nursing Credits: 3
• NURS 775 - Advanced Specialty Practice I Credits: 3
• NURS 776 - Development of Advanced Practice Nursing Role Credits: 3
• NURS 778 - Advanced Specialty Practice II Credits: 3
• NURS 921 - Clinical Practicum I Credits: 1-10  Students are required to earn 4 credits of NURS 921
• NURS 922 - Clinical Practicum II Credits: 1-10  Students are required to earn 5 credits of NURS 922

Total: 36 credits

▲ Nursing Administration Concentration (NUAD)

• NURS 654 - Nursing Administration Financial Management Credits: 3
• NURS 763 - Administrative Theory in Nursing Credits: 3
• NURS 765 - Practicum in Nursing Administration I Credits: 3
• NURS 766 - Administrative Strategies in Nursing Credits: 3
• NURS 768 - Practicum in Nursing Administration II Credits: 3
• NURS 871 - Nursing and Health Care Administration II Credits: 2
• NURS 874 - Internship in Health Care Administration/Policy/Education Credits: 4
• NURS 921 - Clinical Practicum I Credits: 1-10  Students are required to earn 5 credits of NURS 921
• NURS 922 - Clinical Practicum II Credits: 1-10  Students are required to earn 5 credits of NURS 922

Electives toward career goal (5 credits). All electives must be approved by advisor prior to the start of the course.
Total: 36 credits

Concentrations in Advanced Nursing Care of Individuals

▲ Adult-Gerontology Nurse Practitioner (AGNP)

- NURS 714 - Health Assessment in Clinical Practice Credits: 2
- NURS 724 - Health Assessment Practicum Credits: 1
- NURS 761 - Pharmacotherapeutics Credits: 3
- NURS 769 - Physiology and Pathophysiology in Advanced Practice Credits: 3
- NURS 713 - Decision Making and Pharmacologic Management in Practice Credits: 2
- NURS 770 - Adult Primary Care I Credits: 3
- NURS 772 - Adult Primary Care Practicum I Credits: 3
- NURS 771 - Adult Primary Care II Credits: 4
- NURS 774 - Adult Primary Care Practicum II Credits: 4
- NURS 780 - Practicum in Gerontological Nursing I Credits: 3
- NURS 781 - Practicum in Gerontological Nursing II Credits: 3
- NURS 921 - Clinical Practicum I Credits: 1-10  Students are required to earn 3 credits of NURS 921
- NURS 922 - Clinical Practicum II Credits: 1-10  Students are required to earn 2 credits of NURS 922

Total: 36 credits

▲ Family Nurse Practitioner Concentration (FNUP)

- NURS 714 - Health Assessment in Clinical Practice Credits: 2
- NURS 724 - Health Assessment Practicum Credits: 1
- NURS 761 - Pharmacotherapeutics Credits: 3
- NURS 769 - Physiology and Pathophysiology in Advanced Practice Credits: 3
- NURS 713 - Decision Making and Pharmacologic Management in Practice Credits: 2
- NURS 738 - Family Primary Care I Credits: 2
- NURS 742 - Family Primary Care Practicum I Credits: 3
- NURS 739 - Family Primary Care II Credits: 4
- NURS 744 - Family Primary Care Practicum II Credits: 3
- NURS 741 - Family Primary Care III Credits: 3
- NURS 749 - Family Primary Care Practicum III Credits: 5
- NURS 921 - Clinical Practicum I Credits: 1-10  Students are required to earn 3 credits of NURS 921
- NURS 922 - Clinical Practicum II Credits: 1-10  Students are required to earn 2 credits of NURS 922

Total: 36 credits

▲ Family Psychiatric Mental Health Nurse Practitioner Concentration (FPMH)

- NURS 713 - Decision Making and Pharmacologic Management in Practice Credits: 2
- NURS 714 - Health Assessment in Clinical Practice Credits: 2
- NURS 724 - Health Assessment Practicum Credits: 1
- NURS 761 - Pharmacotherapeutics Credits: 3
- NURS 769 - Physiology and Pathophysiology in Advanced Practice Credits: 3
Practice Inquiry Project Courses (8 credits)

The final step in completion of the degree is the implementation of a practice inquiry project. The proposal for this project must be prepared with ample time for submission to the Human Subjects Review Board at George Mason University. The student's project will be evaluated by a committee consisting of three members who will be agreed upon by the student and advisor. The student will identify one School of Nursing faculty member to serve as an advisor and chair of the committee. Another committee member will be identified either from GMU faculty or from outside the university with permission from the committee chair and the coordinator of the DNP program. The third committee member will be identified from the site of the student's practice inquiry project. The committee is responsible for approving the final written report of the project and the oral defense by the student. Consistent with the AACN DNP Essentials, the practice inquiry project must demonstrate to the committee's satisfaction knowledge in the core competencies of finance, policy, technology, and health care delivery systems, as well as utilization of evidence to enhance practice outcomes. The practice inquiry project will be completed within two semesters. Students unable to complete the project within this time frame may take up to one extra year.

- NURS 980 - Practice Inquiry I Credits: 4
- NURS 981 - Practice Inquiry II Credits: 4

MSN to DNP Curriculum (72 credits)

Students who come into the MSN to DNP program will complete 72 credits. Up to 30 hours of relevant graduate credit may be awarded for past master's-level courses, and students will complete the minimum of 42 additional credits following the curriculum below.

In this program, Level II core essentials build on previous master's education and must be completed in the first year of full-time study or two years of part-time study. They prepare the student to develop and implement the practice inquiry project in the final two semesters of study. The core content for post-master's DNP students will be individualized based on the content from the student's master's degree academic program and will include a minimum of 19 credits.

Students must complete 1,000 precepted/mentored clinical hours including those obtained during previous master's education (individually awarded based on evaluation of master's clinical hours). Students also must take additional electives to meet the total requirement of 72 credits required to complete the program.

Students may add one of the following concentrations to their DNP application: Adult-Gerontology Nurse Practitioner, Family Nurse Practitioner, Family Psychiatric Mental Health Nurse Practitioner, Nursing Administration, or Advanced Clinical Nursing. If accepted to the concentration, an individual program of study will be developed with an advisor.

Level II Core Essentials Courses (19 credits)
• NURS 654 - Nursing Administration Financial Management Credits: 3
• NURS 715 - Nursing Informatics Inquiry Credits: 3
• NURS 758 - Nursing Research and Biostatistics II Credits: 3
• NURS 808 - Translating Nursing and Health Care Research into Evidence-Based Policy Credits: 3
• NURS 870 - Nursing and Health Care Administration I Credits: 3
• NURS 883 - Evidence-Based Practice in Nursing and Healthcare Credits: 4

Advanced Practice Competency Courses (2-20 credits)

• NURS 921 - Clinical Practicum I Credits: 1-10
• NURS 922 - Clinical Practicum II Credits: 1-10

Practice Inquiry Project Courses (8 credits)

The final step in completion of the degree is the implementation of a practice inquiry project. The proposal for this project must be prepared with ample time for submission to the Human Subjects Review Board at George Mason University. The student's project will be evaluated by a committee consisting of three members who will be agreed upon by the student and advisor. The student will identify one School of Nursing faculty member to serve as an advisor and chair of the committee. Another committee member will be identified either from GMU faculty or from outside the university with permission from the committee chair and the coordinator of the DNP program. The third committee member will be identified from the site of the student's practice inquiry project. The committee is responsible for approving the final written report of the project and the oral defense by the student. Consistent with the AACN DNP Essentials, the practice inquiry project must demonstrate to the committee's satisfaction knowledge in the core competencies of finance, policy, technology, and health care delivery systems, as well as utilization of evidence to enhance practice outcomes. The practice inquiry project will be completed within two semesters. Students unable to complete the project within this time frame may take up to one extra year.

• NURS 980 - Practice Inquiry I Credits: 4
• NURS 981 - Practice Inquiry II Credits: 4

Electives

Elective courses should be taken to complete the required number of program hours. All electives must be approved by advisor prior to the start of the course.

Total: 72 credits

Doctor of Philosophy

Nursing, PhD

Banner Code: HH-PHD-NURS

Unit: School of Nursing

The PhD in Nursing program builds on the MSN degree and requires a total of 78 credit hours of work (a minimum of 48 credit hours beyond the master's). The objective of the program is to prepare nursing scholars who will pursue intellectual inquiry and conduct research for the purpose of extending knowledge to contribute to the health of all populations. Graduates of the program conduct independent and collaborative research, advance nursing science, and provide leadership to the nursing profession.
Admission Requirements

Applicants must meet the admissions standards and application requirements specified in the Admissions section of the catalog and apply using the online Application for Graduate Admission. Nursing PhD applicants must hold a master’s degree in nursing from an accredited program equivalent to 30 credits or a master’s degree in a related health field with a baccalaureate degree in nursing. The application process is competitive, and applications are considered for the fall semester only. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

Reduction of Credit

Students must have a master’s degree before being admitted to the PhD in Nursing program. Up to 30 hours of relevant graduate credit may be awarded for past master's-level courses, and students will complete the minimum of 48 additional credits following the curriculum below.

Transfer of Credit

Students may transfer a maximum of 9 credits into the PhD in Nursing program from graduate courses taken at other institutions or taken at Mason in non-degree status, including courses offered through the college’s Academic Outreach program. Transfer credit is governed by university transfer of graduate credit policy and the university requirements for doctoral degrees, and transfer credit must be approved by the assistant dean of the doctoral division and by the dean. Students who enroll initially through non-degree studies or the Academic Outreach program should seek course advising through the department and should submit their application to the PhD program as soon as possible after beginning in their study in non-degree status.

Program Requirements

To complete the PhD in nursing, students must:

- Complete the program of study outlined in the PhD curriculum.
- Pass a written doctoral candidacy comprehensive exam after completing all PhD credit requirements, except NURS 998 and 999.
- Pass the final oral dissertation defense and submit a doctoral dissertation approved by the doctoral dissertation committee, the Assistant Dean of the doctoral program, and the Director of the School of Nursing. (The dissertation is submitted in the approved format to University Libraries and the director of the doctoral program.)
- Complete application material for graduation in accordance with prevailing Mason policies.

Time Requirements

Students must complete all planned course work, including electives, and the written exam in order to advance to candidacy within six years of admission to degree or provisional status in the PhD program. The student must successfully complete the doctoral dissertation, final oral doctoral exam, and all PhD degree requirements within five years following the semester of advancement to candidacy.

Degree Requirements

The PhD in Nursing program offers an individualized area of concentration (minimum 48 credits) based on the student's interests and career goals. A student develops his/her program of research through required course work, selection of supporting electives, independent studies, and dissertation research.
Concentration in Individualized Study (INDV)

Scientific Base/Research Core (27 credits)

- NURS 804 - Advanced Quantitative Data Analysis for Health Care Research I Credits: 3
- NURS 805 - Advanced Quantitative Data Analysis for Health Care Research II Credits: 3
- NURS 807 - Measurement Theories and Applications in Health Care Research Credits: 3
- NURS 875 - Research Internship Credits: 3
- NURS 809 - Research Design and Methods in Nursing and Health Care Credits: 3
- NURS 920 - Qualitative Research in Nursing and Health Care Credits: 3
- NURS 930 - Quantitative Methods in Nursing and Health Care Credits: 3
- NURS 955 - Philosophical Bases of Inquiry Credits: 3
- NURS 957 - Ethics of Health Care Research Credits: 3

Cognate Courses (9 credits)

Students must complete a cohesive set of existing doctoral-level university cognate courses designed with their advisor and program director to contribute to the student’s program of research. Examples may include course work in areas such as: women's health, sleep symptoms in aging populations, mental health issues post-traumatic brain injury, depression in diverse populations, maternal and child health, preventive care, quality indicators, nursing administration, research methodologies, and biostatistics. These are just suggested areas and not intended to be collectively exhaustive.

Dissertation (minimum 12 credits combined)

Before advancing to candidacy and enrolling for dissertation credit (12 credits), students must have their program of study approved by the Assistant Dean of the doctoral program.

Advancement to Candidacy

After students have completed all required course work and the qualifying exam, the director of the School of Nursing approves advancement to candidacy.

Dissertation Proposal

The proposal must focus on a research topic in nursing or health care and be approved by the doctoral dissertation committee, the Assistant Dean of the doctoral program, and the Director of the School of Nursing. The dissertation proposal and dissertation must be consistent with the guidelines outlined in Mason’s Guide for Preparing Graduate Theses, Dissertations, and Projects.

- NURS 998 - Doctoral Dissertation Proposal Credits: 1-9
  Students must enroll for 3 credits the first time NURS 998 is taken.

Doctoral Dissertation

Before enrolling for dissertation credit, the student must have advanced to candidacy. The completed dissertation must be approved by the doctoral dissertation committee, the Assistant Dean of the doctoral program, and the Director of the School of Nursing.

- NURS 999 - Doctoral Dissertation Credits: 1-9

Final Oral Doctoral Exam

The doctoral dissertation committee chair, on preliminary approval of the doctoral dissertation by the committee, petitions the Assistant Dean of the doctoral program in the School of Nursing to schedule the final oral doctoral exam, which includes a
defense of the doctoral dissertation. The final oral exam also demonstrates the candidate’s intellectual command and maturity of judgment in the area of emphasis chosen by the candidate and approved by the dissertation committee. At the close of the final oral exam, the committee makes a final judgment regarding approval of the doctoral dissertation and completion of PhD degree requirements.

Concentration Total: 48 credits
Total: 78 credits

Graduate Certificate

Forensic Nursing Graduate Certificate

Banner Code: HH-CERG-FRNN

Unit: School of Nursing

This program provides advanced education at the graduate level to students who are actively involved or wish to pursue a career in forensic nursing. The certificate will provide the educational requirements for certification as a sexual assault nurse examiner (SANE) through the International Association of Forensic Nurses (IFAN) and as a certified forensic nurse through the American College of Forensic Examiners (ACFE).

Admission Requirements

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements please refer to the CHHS Admissions website.

The graduate certificate in forensic nursing may be pursued only on a part-time basis.

Certificate Requirements

Applicants must have a current nursing license and a bachelor’s degree from an accredited institution of higher education. Courses are open to other graduate students, with the exception of NURS 734, which requires students to have a current nursing license.

Candidates must have 15 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

Required Courses

- NURS 733 - Introduction to Forensic Science Credits: 3
- NURS 734 - Role of the Sexual Assault Nurse Examiner and Interpersonal Violence Credits: 3
  Students who are currently certified as a SANE take GCH 602 - Global Health Issues Related to Violence in place of NURS 734.
- NURS 735 - Crime Lab and Crime Scene Investigation Credits: 3
- NURS 736 - Psychological and Legal Aspects of Forensic Science Credits: 3
• NURS 737 - Investigation of Injury and Death Credits: 3

Total: 15 credits

Nursing Administration Graduate Certificate

Banner Code: HH-CERG-NUAD

Unit: School of Nursing

This program offers formal study in theory and practice in nursing administration in the health care delivery system.

Admission Requirements

Applicants must hold a master's degree in nursing. Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

The graduate certificate in nursing administration may be pursued only on a part-time basis.

Certificate Requirements

Candidates must have 15 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

Required Courses

• NURS 763 - Administrative Theory in Nursing Credits: 3
• NURS 765 - Practicum in Nursing Administration I Credits: 3
• NURS 766 - Administrative Strategies in Nursing Credits: 3
• NURS 768 - Practicum in Nursing Administration II Credits: 3
  Choose one of the following:
• NURS 654 - Nursing Administration Financial Management Credits: 3
• HAP 703 - Financial Management in Health Systems Credits: 3

Total: 15 credits

Nursing Education Graduate Certificate

Banner Code: HH-CERG-NUED

Unit: School of Nursing

This program combines foundation courses in education with courses in the principles and practices of nursing education. It prepares students to function in nursing educational roles in academic and nonacademic settings.
Admission Requirements

Applicants must hold a master's degree in nursing. Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

The graduate certificate in nursing education may be pursued only on a part-time basis.

Certificate Requirements

Candidates must have 15 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

Required Courses

- NURS 556 - Principles of Assessment and Evaluation in Nursing Education Credits: 3
- NURS 726 - Perspectives in Nursing Education Credits: 3
- NURS 727 - Application of Nursing Education Principles to Curriculum and Program Development Credits: 3
- NURS 728 - Practicum and Seminar in Nursing Education I Credits: 3
- NURS 729 - Practicum and Seminar in Nursing Education II Credits: 3

Notes:

Students who qualify for a 3-credit practicum because of their educational experience may choose the remaining 3 credits from courses designated by the graduate nursing program.

Total: 15 credits

Master of Science in Nursing

Nursing, MSN

Banner Code: HH-MSN-NURS

Unit: School of Nursing

The Master of Science in Nursing (MSN) program is accredited by the Virginia State Board of Nursing and the Commission on Collegiate Nursing Education. The program prepares nurses for a variety of leadership roles in the health care delivery system. The adult gerontology and family nurse practitioner primary care concentrations have been approved by the state boards of nursing and medicine in Virginia. The concentration in nursing administration prepares nurses to function in management positions in hospitals, nursing homes, community health agencies, and other health-related facilities. The nurse educator concentration prepares graduates for faculty positions in schools of nursing, as well as nurse educator positions in hospitals and community health care agencies.

Admission Requirements
Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog, and apply using the online Application for Graduate Admission. MSN applicants must hold an active state-based/US license as a registered nurse (RN), a current CPR card, and work experience as an RN. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

**Transfer of Credit**

Students may transfer a maximum of 9 credits into the MSN in Nursing program from graduate courses taken at other institutions or taken at Mason in non-degree status, including courses offered through the college’s Academic Outreach program. Transfer credit is subject to university and college policies and must be approved by the program director and the dean. Students who enroll initially through non-degree studies or the Academic Outreach program should seek course advising through the department and should submit their application to the MSN program in their first semester of study.

**Special Requirements**

Graduate students are required to have up-to-date annual health exams, current immunizations and CPR certification. Criminal background checks are required of all School of Nursing students. Student health exams, immunization records, and criminal background checks are part of the final admission process. No student may attend practicum courses unless all the requirements for CPR, health exams, immunizations, and criminal background checks are met. All students enrolled in the School of Nursing are required to maintain health insurance at all times. Students must be in the process of completing a hepatitis B immunization series when they enroll for their first practicum course. All students are required to have an active Mason e-mail account.

**Professional Conduct**

All students in the School of Nursing are expected to adhere to the Professional Conduct Policy of the College of Health and Human Services.

**Appeal Process**

Although faculty members in the nursing program are generally the best judges of a student's professional performance, some students may feel that the faculty member's judgment is unfair. Students in the School of Nursing wishing to appeal a grade are expected to follow the GMU guidelines for grade appeals, found in the Academic Policies section of the GMU University Catalog.

**Honor System and Code**

The School of Nursing supports academic integrity and follows the standards and procedures as described in the University catalog and available at academicintegrity.gmu.edu

**Academic Termination and Dismissal**

A degree-seeking nursing graduate student is terminated from the program after accumulating grades of F in two courses or 8 credits of unsatisfactory grades (C or below) in graduate courses. Academic dismissal is governed by university policy.

**Degree Requirements**
The master’s program in nursing requires 39 to 49 graduate credits. Of these, a 15-credit core consists of course work in the theoretical and ethical foundations of nursing, nursing research and biostatistics, nursing informatics, and the organization of nursing and health care delivery systems. The remaining credits are satisfied by completing one of the concentrations. The nursing administration concentration requires an additional 24 credits; the advanced clinical nursing concentration, an additional 27-30 credits; the nurse educator concentration, an additional 26 credits; the adult gerontology nurse practitioner concentration, an additional 34 credits; and the family nurse practitioner concentration, an additional 34 credits.

A graduate course in which a grade of C or below is earned may be repeated only once. Graduate students (both master’s and doctoral) may repeat no more than two courses in their total program of study. A failing grade of "F" in a practicum course may result in termination from the program. Up to 9 credits may be transferred into the MSN program from non-degree status or another university.

Actual clinical hours may exceed those listed in the catalog. Actual clinical hours will meet those required for certification purposes. Requirements in the catalog reflect the minimum number of credits.

**MSN Level I Core Courses (required of all students): 15 credits**

- NURS 665 - Theoretical and Ethical Foundations Related to Nursing Credits: 3
- NURS 715 - Nursing Informatics Inquiry Credits: 3
- NURS 757 - Nursing Research and Biostatistics I Credits: 3
- NURS 758 - Nursing Research and Biostatistics II Credits: 3
- NURS 688 - Organization of Nursing and Health Care Delivery Systems Credits: 3

**Concentrations: Complete One**

**Students in the MSN will complete one concentration from the following:**

▲ **Adult Gerontology Nurse Practitioner in Primary Care Concentration (AGNP)**

**Level II Courses Core (14 credits)**

- NURS 643 - Community-Oriented Primary Care Credits: 3
- NURS 713 - Decision Making and Pharmacologic Management in Practice Credits: 2
- NURS 714 - Health Assessment in Clinical Practice Credits: 2
- NURS 724 - Health Assessment Practicum Credits: 1
- NURS 761 - Pharmacotherapeutics Credits: 3
- NURS 769 - Physiology and Pathophysiology in Advanced Practice Credits: 3

**Required Courses (20 credits)**

- NURS 787 - Adult Gerontology Primary Care I Credits: 2
- NURS 786 - Adult Gerontology Primary Care Practicum I Credits: 3
- NURS 789 - Adult Gerontology Primary Care II Credits: 3
- NURS 788 - Adult Gerontology Primary Care Practicum II Credits: 4
- NURS 791 - Adult Gerontology Primary Care III Credits: 4
- NURS 790 - Adult Gerontology Primary Care Practicum III Credits: 4

**Total: 34 credits**
Advanced Clinical Nursing Concentration (NUAC)

Level II Courses Core (9 credits)

- NURS 714 - Health Assessment in Clinical Practice Credits: 2
- NURS 724 - Health Assessment Practicum Credits: 1
- NURS 761 - Pharmacotherapeutics Credits: 3
- NURS 769 - Physiology and Pathophysiology in Advanced Practice Credits: 3

Required Courses (12 credits)

- NURS 773 - Clinical Applications of Theory in Advanced Clinical Nursing Credits: 3
- NURS 775 - Advanced Specialty Practice I Credits: 3
- NURS 776 - Development of Advanced Practice Nursing Role Credits: 3
- NURS 778 - Advanced Specialty Practice II Credits: 3

Elective Courses (6 credits)

Cognates in area of expertise. Students may take NURS 740 for 3 elective credits.

Clinical Nurse Specialist Emphasis

Students in the advanced clinical nursing concentration who opt for the clinical nurse specialist emphasis must accrue 500 clinical hours by completing:

- NURS 740 - Clinical Nurse Specialist Internship Credits: 3
  May be repeated once if necessary to accrue 500 hours (for total of 6 credits)

Total: 27-30 credits

Family Nurse Practitioner in Primary Care Concentration (FNUP)

Level II Courses Core (14 credits)

- NURS 643 - Community-Oriented Primary Care Credits: 3
- NURS 713 - Decision Making and Pharmacologic Management in Practice Credits: 2
- NURS 714 - Health Assessment in Clinical Practice Credits: 2
- NURS 724 - Health Assessment Practicum Credits: 1
- NURS 761 - Pharmacotherapeutics Credits: 3
- NURS 769 - Physiology and Pathophysiology in Advanced Practice Credits: 3

Required Courses (20 credits)

- NURS 738 - Family Primary Care I Credits: 2
- NURS 742 - Family Primary Care Practicum I Credits: 3
- NURS 739 - Family Primary Care II Credits: 4
- NURS 744 - Family Primary Care Practicum II Credits: 3
• NURS 741 - Family Primary Care III Credits: 3
• NURS 749 - Family Primary Care Practicum III Credits: 5

Total: 34 credits

▲ Nursing Administration Concentration (NUAD)

Required Courses (12 credits)

• NURS 763 - Administrative Theory in Nursing Credits: 3
• NURS 765 - Practicum in Nursing Administration I Credits: 3
• NURS 766 - Administrative Strategies in Nursing Credits: 3
• NURS 768 - Practicum in Nursing Administration II Credits: 3

Nursing Administration Support Courses (12 credits)

Choose one of the following financial management courses:

• NURS 654 - Nursing Administration Financial Management Credits: 3
• HAP 703 - Financial Management in Health Systems Credits: 3

One management/organizational theory course:

• HAP 621 - Organization Behavior and Healthcare Leadership Credits: 3
• Nursing or related discipline electives (6 credits)

Total: 24 credits

▲ Nurse Educator Concentration (NURE)

Level II Courses Core (11 credits)

• NURS 556 - Principles of Assessment and Evaluation in Nursing Education Credits: 3
• NURS 714 - Health Assessment in Clinical Practice Credits: 2
• NURS 761 - Pharmacotherapeutics Credits: 3
• NURS 769 - Physiology and Pathophysiology in Advanced Practice Credits: 3

Required Courses (12 credits)

• NURS 726 - Perspectives in Nursing Education Credits: 3
• NURS 727 - Application of Nursing Education Principles to Curriculum and Program Development Credits: 3
• NURS 728 - Practicum and Seminar in Nursing Education I Credits: 3
• NURS 729 - Practicum and Seminar in Nursing Education II Credits: 3

Elective Courses (3 credits)

Three credits in Nursing or related disciplines.

Total: 26 credits
Total: 39-49 credits

RN-to-MSN Pathway

This pathway allows RNs who have completed the general education requirements (as listed in the undergraduate RN-to-MSN Pathway described in the Nursing, BSN program) and have demonstrated substantial involvement in professional nursing within the past two years to earn the MSN degree. Students entering a concentration through this pathway must meet all the requirements for admission to that concentration.

In addition to fulfilling admission requirements for degree status at Mason, applicants must hold a current state-based/US license to practice nursing, be graduates of an accredited nursing program, have earned a 3.00 GPA in the nursing prerequisite and general education courses at an accredited institution, and demonstrate substantial involvement in professional nursing within the past two years as an RN in clinical practice.

Students in the RN-to-MSN pathway are required to take the following bridge course:

- NURS 440 - Community Health and Epidemiology Credits: 3
  After completion of the bridge course, students choose one of the concentrations and meet all requirements of the graduate program.

Global and Community Health

Phone: 703-993-3126
web: chhs.gmu.edu/gch

Faculty

Professors: Howell (associate dean for research and program evaluation), Metcalf, Prohaska (dean), Sluzki (acting chair), Whittington (senior associate dean for academic affairs), Zimmerman

Associate Professors: Baghi, Jacobsen, Lindley

Assistant Professors: Dawson, Freeborne, Frankenfeld, Poms, Rosenberger

The Department of Global and Community Health (GCH) is a department within the College of Health and Human Services (CHHS). The educational mission of GCH is to provide undergraduate and graduate degrees and certificates in health-related disciplines centered in global and community health issues. Its research mission is to promote and develop solid and meaningful research programs that help define and address health issues and the needs of affected populations at the regional and global level. Its service mission is to increase the awareness of these problems, enhance health-promoting information, and collaborate with other organizations toward enhancing local, national, and global health. Part-time students are encouraged to take at least 6 credits per semester to promote timely completion of the program.

Course Work

The Global and Community Health Department offers course work designated GCH in the Courses section of this catalog.

Bachelor of Science

Community Health, BS
Banner Code: HH-BS-COMH

Unit: Global and Community Health

This degree prepares students with a basic understanding of public health, the health care system, and public health issues and policies related to health promotion, disease prevention, and public health education specific to local and international populations of all sizes.

Public health and community health professionals work in partnership with private and public organizations and are expected to confront complex behavioral, cultural, and social health issues within communities. The skills and knowledge gained through this program will prepare graduates to address the local, national, and global health needs of diverse populations, providing understanding, education, monitoring, evaluation, and interventions within a community setting.

Students majoring in Community Health may elect one of four specializations: Global Health, Health Education, Nutrition, or Pre-Health Professions. The program may be completed on a full-time or part-time basis. Interested students are encouraged to contact the Department of Global and Community Health before admission.

A criminal background check may be required of students prior to beginning the internship if the organization requires one. A minimum grade of C must be earned in all major courses. Students may substitute two 3-credit GCH courses for the internship with their advisor’s approval.

Degree Requirements

General Education (38 credits)

Written Communication:

- ENGH 101 - Composition Credits: 3
- ENGH 302 - Advanced Composition Credits: 3
  Nonnative speakers of English with limited proficiency in the language may substitute ENGH 100 for ENGH 101. Students must attain a minimum grade of C in ENGH 100 or 101, as well as in 302, to fulfill degree requirements.

Oral Communication:

- An approved 3-credit University General Education Oral Communication course.

Quantitative Reasoning:

- STAT 250 - Introductory Statistics I Credits: 3

Information Technology:

- An approved University General Education Information Technology course.

Literature:

- An approved University General Education Literature course.

Arts:
• An approved University General Education Arts course.

Natural Science:

• BIOL 124 - Human Anatomy and Physiology Credits: 4
• BIOL 125 - Human Anatomy and Physiology Credits: 4

Western Civilization:

• An approved 3-credit University General Education Western Civilization course.

Global Understanding:

• GCH 205 - International Health Credits: 3

Social Science:

• PSYC 100 - Basic Concepts in Psychology Credits: 3

Community Health Major Core (30 credits)

• GCH 332 - Health and Disease Credits: 3
• GCH 350 - Health Education Credits: 3
• GCH 360 - Health and Environment Credits: 3
• GCH 411 - Health Program Planning Credits: 3
• GCH 412 - Fundamentals of Epidemiology Credits: 3
• GCH 430 - Community Health Systems and Agencies Credits: 3
• GCH 460 - Program Evaluation Credits: 3
• HAP 301 - Health Care Delivery in the United States Credits: 3
• NUTR 295 - Introduction to Nutrition Credits: 3
• GCH 465 - Community Health Capstone Credits: 3

Concentrations: Complete One

▲ Global Health Concentration (GLOH): 28 credits

The global health concentration is designed for students interested in global public health and is particularly focused on improving health conditions in developing countries.

• GCH 310 - Health Behavior Theories Credits: 3
• GCH 405 - International Health Policy and Practice Credits: 3
• BIOL 246 - Introductory Microbiology Credits: 3
• BIOL 306 - Biology of Microorganisms Laboratory Credits: 1

Foreign Language (0-9 credits)
Intermediate-level proficiency in one foreign language. This requirement may be fulfilled by completing a course in a foreign language numbered 202, 209, or 210 (or higher courses taught in the language) or achieving a satisfactory score on an approved proficiency test. Students who are already proficient in a second language may be eligible for a waiver of this requirement. If this requirement is waived, the student may need to take up to an additional 9 credits of electives. Additional information on this waiver may be found at: chhs.gmu.edu/gch/forms

Global Health Electives (9-18 credits)

Students should select from the following list or get advisor approval:

- ANTH 381 - Medical Anthropology Credits: 3
- BIOL 301 - Biology and Society Credits: 3
- CONF 340 - Global Conflict Analysis and Resolution Credits: 3
- CONF 341 - Global Conflict Resolution Practice Credits: 1
- ECON 360 - Economics of Developing Areas Credits: 3
- EVPP 336 - Human Dimensions of the Environment Credits: 3
- EVPP 337 - Environmental Policy Making in Developing Countries Credits: 3
- GGS 304 - Populations Dimensions of Global Change Credits: 3
- GGS 322 - Issues in Global Change Credits: 3
- GCH 450 - Culture, Sexuality and the Global AIDS Epidemic Credits: 3
- GCH 320 - Community Health and Literature Credits: 3
- GCH 498 - Global and Community Health Internship Credits: 6
- PSYC 379 - Applied Cross-Cultural Psychology Credits: 3
- RELI 341 - Global Perspectives on Spirituality and Healing Credits: 3
- SOCI 320 - Social Structure and Globalization Credits: 3
- STAT 350 - Introductory Statistics II Credits: 3 or STAT 362 - Introduction to Computer Statistical Packages Credits: 3

▲ Health Education Concentration (HEAL): 27 credits

The health education concentration prepares students to enter a career in health education and to sit for the professional health educators’ licensure exam.

- GCH 310 - Health Behavior Theories Credits: 3
- HEAL 372 - Health Communication Credits: 3 or equivalent course
- GCH 445 - Social Determinants of Health Credits: 3
- GCH 462 - Health Promotion across the Lifespan Credits: 3
- PSYC 231 - Social Psychology Credits: 3

Health Education Electives (12 credits)

Students should select from the following list or get advisor approval:

- ANTH 381 - Medical Anthropology Credits: 3
- BIOL 301 - Biology and Society Credits: 3
- GCH 320 - Community Health and Literature Credits: 3
- GCH 325 - Stress, Coping and Health Credits: 3
- GCH 370 - Sexuality and Human Behavior Credits: 3
- GCH 480 - Health Maintenance and Health Aspects of Aging Credits: 3
- GCH 498 - Global and Community Health Internship Credits: 6
• HEAL 310 - Drugs and Health Credits: 3
• HEAL 325 - Health Aspects of Human Sexuality Credits: 3
• HEAL 327 - Women's Health Credits: 3
• NUTR 420 - Strategies for Nutrition Education Credits: 3
• PSYC 321 - Counseling Psychology Credits: 3
• PSYC 325 - Abnormal Psychology Credits: 3
• PSYC 326 - Therapeutic Communication Skills Credits: 3
• PSYC 330 - Psychology of Adjustment Credits: 3
• SOCI 390 - Sociology of Health, Illness, and Disability Credits: 3
• SOCW 410 - Alcohol and Substance Abuse: Policies and Programs Credits: 3
• STAT 350 - Introductory Statistics II Credits: 3 or STAT 362 - Introduction to Computer Statistical Packages Credits: 3

▲ Nutrition Concentration (NUTR): 28 credits

The nutrition concentration is designed for students interested in community nutrition. Students will develop an understanding of nutrition issues and intervention.

• NUTR 420 - Strategies for Nutrition Education Credits: 3
• NUTR 421 - Community Nutrition Credits: 3
• NUTR 422 - Nutrition throughout the Life Cycle Credits: 3
• NUTR 423 - Nutrition and Chronic Illnesses Credits: 3
• NUTR 466 - Nutrition and Weight Management: Obesity, Anorexia, and Bulimia Credits: 3
• BIOL 246 - Introductory Microbiology Credits: 3
• BIOL 306 - Biology of Microorganisms Laboratory Credits: 1

Nutrition Electives (9 credits)

Students should select from the following list or get advisor approval:

• CHEM 102 - Introduction to Organic, Biochemical, Pharmacological, and Fuel Chemistry Credits: 3
• GCH 310 - Health Behavior Theories Credits: 3
• GCH 445 - Social Determinants of Health Credits: 3
• GCH 480 - Health Maintenance and Health Aspects of Aging Credits: 3
• GCH 498 - Global and Community Health Internship Credits: 6
• NUTR 583 - Biocultural Perspectives on Food and Nutrition Credits: 3
• STAT 350 - Introductory Statistics II Credits: 3 or STAT 362 - Introduction to Computer Statistical Packages Credits: 3

▲ Pre-Health Professions Concentration (PRHP): 29-30 credits

The pre-health professions concentration prepares students to apply for graduate programs in the health professions such as medical school, dentistry school, veterinary school, and physical therapy programs. This concentration does not guarantee entrance into a graduate health professional program. It is important to note that, depending on the type of graduate program that students are interested in, additional coursework may be required. It is the student's responsibility to determine the essential criteria for admission to their target schools in consultation with the health professions advising office.

• CHEM 211 - General Chemistry Credits: 4
• CHEM 212 - General Chemistry Credits: 4
• PSYC 325 - Abnormal Psychology Credits: 3

Choose one of the following:
Pre-Health Professions Electives (12 credits)

Four courses as approved by the department.

Electives (22-25 credits)

Total: 120 credits

Graduate Certificate

Biostatistics Graduate Certificate

Banner Code: HH-CERG-BSTN

Unit: Global and Community Health

This 15-credit certificate prepares participants to use statistical methods to analyze health care data. It is designed for health scientists and professionals in health-related government agencies, pharmaceutical companies, research hospitals, public health agencies, and other medical research organizations who design medical experiments and analyze and interpret complex health data. In addition, the program helps prepare students to begin careers in such organizations.

Application Requirements

Applicants must hold a bachelor’s degree in a discipline related to health science or statistics, such as medicine, biology, nursing, health science, biostatistics, statistics, mathematics, and psychology. A course in statistics and a course in college algebra with a grade of B or higher are required for admission to the program.

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

The graduate certificate in biostatistics may be pursued on a part- or full-time basis.

Certificate Requirements

Students must complete 15 credits of course work. Candidates must have a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

Core Courses (12 credits)
• GCH 601 - Introduction to Biostatistics Credits: 3
• GCH 712 - Introduction to Epidemiology Credits: 3
• GCH 804 - Advanced Quantitative Data Analysis for Health Care Research I Credits: 3
• GCH 805 - Advanced Quantitative Data Analysis for Health Care Research II Credits: 3

Statistics Course Work (3 credits)

• STAT 501 - SAS Language and Basic Procedures Credits: 1 and STAT 502 - Introduction to SAS/GRAPH Credits: 1
  or
• STAT 503 - SAS Macro Language Credits: 1
  or
• Approved graduate course in Statistics (3 credits)

Total: 15 credits

Epidemiology Graduate Certificate

Banner Code: HH-CERG-EPID

Unit: Global and Community Health

Epidemiology is the study of the factors that influence the occurrence, distribution, prevention, and control of disease. This certificate prepares students to apply the principles and methods of epidemiology to health research. The program emphasizes the development of skills such as study design, data collection and management, data analysis and interpretation, and communication of research findings. All students in the certificate program must complete introductory courses in epidemiology and biostatistics and then choose four elective courses in areas such as infectious disease epidemiology, chronic disease epidemiology, social epidemiology, and advanced epidemiological methods.

Admission Requirements

Course work in statistics, health science, biological science, and the social sciences are beneficial in preparation for this certificate. Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

The graduate certificate in epidemiology may be pursued on a full- or part-time basis.

Certificate Requirements

Candidates must have 18 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

Required Courses (6 credits)

• GCH 601 - Introduction to Biostatistics Credits: 3 (or an approved graduate-level statistics course)
• GCH 712 - Introduction to Epidemiology Credits: 3
Electives (select 12 credits from the following)

- GCH 605 - Social Epidemiology Credits: 3
- GCH 722 - Infectious Disease Epidemiology Credits: 3
- GCH 726 - Advanced Methods in Epidemiology Credits: 3
- GCH 732 - Chronic Disease Epidemiology Credits: 3
- GCH 742 - Behavioral Epidemiology Credits: 3
- GCH 752 - Nutritional Epidemiology Credits: 3
- GCH 762 - Environmental Epidemiology Credits: 3

Note:

Other epidemiology-related courses may count toward the certificate with prior approval of the program director.

Total: 18 credits

Global Health Graduate Certificate

Banner Code: HH-CERG-GLOH

Unit: Global and Community Health

This program develops an understanding of global health through a sequence of courses that includes global health, epidemiology, nutrition, anthropology, international relations, communications, and geography.

Admission Requirements

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to CHHS Admissions website.

The graduate certificate in global health may be pursued on a part- or full-time basis.

Certificate Requirements

Candidates must have 18 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

Required Courses (18 credits)

- GCH 543 - Global Health Credits: 3
- GCH 622 - Mental Health: A Global Perspective Credits: 3
- GCH 640 - Global Infectious Diseases Credits: 3
- GCH 645 - U.S. and Global Public Health Systems Credits: 3
- GCH 650 - Global Non-Communicable Diseases Credits: 3
Public Health Graduate Certificate

Banner code: HH-CERG-PUBH

Unit: Global and Community Health

The public health certificate will provide students with the fundamental skills and knowledge central to each of the five core areas of public health—social and behavioral health, epidemiology, biostatistics, environmental health, and health systems.

Admission Requirements

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. To be eligible for admission to this certificate, applicants must have two years of full-time work experience and currently be working in a health-related field. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

The graduate certificate in public health may be pursued on a full- or part-time basis.

Certificate Requirements

A minimum GPA of 3.0 in the certificate courses is required for the certificate to be granted. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

Required Courses (18 credits)

- GCH 560 - Environmental Health Credits: 3
- GCH 600 - Health Promotion Methods Credits: 3
- GCH 601 - Introduction to Biostatistics Credits: 3
- GCH 645 - U.S. and Global Public Health Systems Credits: 3
- GCH 691 - Project Management in Public Health Credits: 3
- GCH 712 - Introduction to Epidemiology Credits: 3

Total: 18 credits

Master of Public Health

Public Health, MPH

Banner Code: HH-MPH-PUBH

Unit: Global and Community Health
The Master of Public Health (MPH) emphasizes the core disciplines of public health—epidemiology, biostatistics, health administration and policy, social and behavioral sciences, and environmental health—and provides additional training in global applications. In addition to required course work in each of the core disciplines and a mandatory practical experience, students will pursue a concentration in epidemiology or global and community health. The program is organized to prepare graduates for work in organizations that seek to improve public health at local, national, or global levels. Based upon guidelines set by the Council on Education for Public Health, the curriculum comprises 42 credit hours, distributed among the following categories of courses: Public Health Core (21 credits), MPH practicum requirements (3 credits), and a concentration (18 credits). Students must select one of two concentration areas: epidemiology or global and community health.

Admission Requirements

Admission to the program is competitive, and a variety of criteria are evaluated in the admission process: undergraduate academic performance, recent post-baccalaureate course work, GRE scores, work experience, professional goals, and recommendations. Some background in statistics, biology, and the social sciences is preferred. Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and apply using the online Application for Graduate Admission. Applications are considered for the fall semester only. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

Transfer of Credit

Transfer credit is governed by university transfer of credit policy and the university requirements for master's degrees, and transfer credit must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department prior to taking a course and plan to submit their application to the MPH program in their first semester of study.

Degree Requirements

Students must complete 42 credits of graduate course work. Each course can be used to fulfill only one requirement toward the MPH degree. A graduate course in which a grade of C or below is earned may be repeated only once. Graduate students may repeat no more than two courses. Students must achieve a 3.00 GPA to graduate.

Public Health Core (21 credits)

- GCH 543 - Global Health Credits: 3
- GCH 560 - Environmental Health Credits: 3
- GCH 600 - Health Promotion Methods Credits: 3
- GCH 601 - Introduction to Biostatistics Credits: 3
- GCH 645 - U.S. and Global Public Health Systems Credits: 3
- GCH 691 - Project Management in Public Health Credits: 3
- GCH 712 - Introduction to Epidemiology Credits: 3
- GCH 792 - Culminating Experience Credits: 0

Practicum Requirements (3 Credits)

- GCH 780 - Practicum Seminar Credits: 0
- GCH 790 - Practicum in Public Health Credits: 3
Concentrations: Complete One

Students must complete one concentration from the following:

▲ Epidemiology Concentration (EPID): 18 Credits

Epidemiology is the study of the factors that influence the occurrence, distribution, prevention, and control of disease. The epidemiology concentration emphasizes the development of skills such as study design, data collection and management, data analysis and interpretation, and communication of research findings.

Epidemiology Concentration Requirements:

- GCH 722 - Infectious Disease Epidemiology Credits: 3
- GCH 732 - Chronic Disease Epidemiology Credits: 3
- GCH 804 - Advanced Quantitative Data Analysis for Health Care Research I Credits: 3

Choose one of the following courses:

- GCH 680 - International Research Ethics and Methods Credits: 3
- GCH 726 - Advanced Methods in Epidemiology Credits: 3
- GCH 805 - Advanced Quantitative Data Analysis for Health Care Research II Credits: 3

Choose one of the following courses:

- GCH 605 - Social Epidemiology Credits: 3
- GCH 752 - Nutritional Epidemiology Credits: 3
- GCH 762 - Environmental Epidemiology Credits: 3
- GGS 540 - Medical Geography Credits: 3

Elective: 3 credits as approved by advisor

All electives must be approved by advisor prior to the start of the course.

▲ Global and Community Health Concentration (GCH): 18 Credits

The global and community health concentration emphasizes health education and behavior approaches to addressing health problems in domestic and international settings. Students become familiar with a wide range of health topics that extend across borders, including infectious disease, nutrition, environmental health, social and cultural health ecology, and health policy and management. Through course work and opportunities for practical application, students will learn to develop, implement, manage, and evaluate health promotion and disease prevention strategies.

Global and Community Health Concentration Requirements:

- GCH 610 - Health Behavior Theory Credits: 3
- GCH 611 - Health Program Planning and Evaluation Credits: 3
- GCH 651 - Behavioral Research Methods Credits: 3

Choose one of the following courses:

- GCH 640 - Global Infectious Diseases Credits: 3
- NUTR 630 - Global Nutrition Credits: 3

Electives: 6 credits as approved by advisor
All electives must be approved by advisor prior to the start of the course.

Total: 42 credits

Master of Science

Global Health, MS

Banner Code: HH-MS-GLOH

Unit: Global and Community Health

This degree incorporates epidemiology and biostatistics, region-based nutrition, cross-cultural perspectives on health issues, community health assessment, program evaluation, international health systems and organizations, and international health research. Practicum or thesis options allow students to explore current dilemmas, demands, and health services with a global focus and perspective.

Graduates of this program will be given the knowledge base and skills to work and conduct research within the global health environment. Through course work and experiential learning, students will be prepared to work in the diverse cultural and multidisciplinary environments inherent in global health. Students will learn about the fundamentals of global public health, including epidemiology, environmental health, global health policies, and sociocultural influences on health and behavior. Students will also be trained in how to collaborate among nonprofit, governmental, and business sectors. Graduates will be prepared to work in international health organizations such as nongovernmental organizations (NGOs), governmental organizations, and multilateral organizations, or may choose to pursue a research pathway and continue toward a terminal degree.

Admission Requirements

Admission to the program is competitive, and a variety of criteria are evaluated in the admission process: GRE scores, undergraduate academic performance, recent post-baccalaureate course work, work experience, professional goals, and recommendations. Undergraduate courses in statistics, anthropology, sociology, and natural sciences are helpful. Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog, and apply using the online Application for Graduate Admission. Applications are considered for the fall semester only. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

Transfer of Credit

Transfer credit is governed by university transfer of graduate credit policy and the university requirements for master's degrees, and transfer credit must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department prior to taking a course and plan to submit their application to the MS program in their first semester of study.

Degree Requirements

Students complete a total of 42 credits of graduate course work. A graduate course in which a grade of C or below is earned may be repeated only once. Graduate students may repeat no more than two courses. Students must achieve a 3.00 GPA to graduate from the master’s program.

Global Health Core (18 credits)
• GCH 543 - Global Health Credits: 3
• NUTR 630 - Global Nutrition Credits: 3
• GCH 640 - Global Infectious Diseases Credits: 3
• GCH 645 - U.S. and Global Public Health Systems Credits: 3
  Two of the following:
  • GCH 622 - Mental Health: A Global Perspective Credits: 3
  • GCH 628 - Refugee Health Credits: 3
  • GCH 650 - Global Non-Communicable Diseases Credits: 3

Research Core (15 credits)

• GCH 601 - Introduction to Biostatistics Credits: 3
• GCH 712 - Introduction to Epidemiology Credits: 3
• GCH 680 - International Research Ethics and Methods Credits: 3
• GCH 804 - Advanced Quantitative Data Analysis for Health Care Research I Credits: 3
  One of the following:
  • GCH 651 - Behavioral Research Methods Credits: 3
  • GCH 726 - Advanced Methods in Epidemiology Credits: 3
  • GCH 805 - Advanced Quantitative Data Analysis for Health Care Research II Credits: 3

Capstone Experience (3 credits)

• GCH 794 - Global Health Research Capstone Credits: 3

Electives (6 credits)

6 credits selected in consultation with advisor.

• GCH 515 - Lesbian, Gay, Bisexual, Transgender, and Queer Health Credits: 3
• GCH 560 - Environmental Health Credits: 3
• GCH 571 - HIV/AIDS: Concepts, Principles, and Interventions Credits: 3
• GCH 602 - Global Health Issues Related to Violence Credits: 3
• GCH 605 - Social Epidemiology Credits: 3
• GCH 610 - Health Behavior Theory Credits: 3
• GCH 611 - Health Program Planning and Evaluation Credits: 3
• GCH 612 - Interventions in Public Health Credits: 3
• GCH 722 - Infectious Disease Epidemiology Credits: 3
• GCH 732 - Chronic Disease Epidemiology Credits: 3
• GCH 742 - Behavioral Epidemiology Credits: 3
• GCH 752 - Nutritional Epidemiology Credits: 3
• GCH 762 - Environmental Epidemiology Credits: 3
• GCH 795 - Advanced Special Topics in Global and Community Health Credits: 1-3
• ANTH 631 - Refugees in the Contemporary World Credits: 3
• ANTH 687 - Medical Anthropology Credits: 3
• COMM 705 - Intercultural Health and Risk Communication Credits: 3
• EVPP 637 - Human Dimensions of Global Change Credits: 3
• GGS 540 - Medical Geography Credits: 3
The public health minor will provide students with a basic understanding of each of the core areas of public health, will introduce students to career opportunities in the fields of global and community health, and will prepare students for admission to graduate programs in public health.

Course Work

Students should consult the Academic Policies section of this catalog for more information on the university-wide requirements for minors.

Minor Requirements

Required Courses (18 credits)

- GCH 205 - International Health Credits: 3
- GCH 412 - Fundamentals of Epidemiology Credits: 3
- STAT 250 - Introductory Statistics I Credits: 3
- GCH 360 - Health and Environment Credits: 3

Choose one from the following:

- GCH 310 - Health Behavior Theories Credits: 3
- GCH 350 - Health Education Credits: 3

Choose one from the following:

- GCH 405 - International Health Policy and Practice Credits: 3
- HAP 301 - Health Care Delivery in the United States Credits: 3

Total: 18 credits
Health Administration and Policy

Phone: 703-993-1929  
web: hap.gmu.edu/

Faculty

Professors: Hadley (associate dean for finance and planning), Kluger, Maddox (chair), Meiners, Nichols (Center for Health Policy Research and Ethics, director)

Associate Professors: Eckenwiler, Cuellar, Giang, Gimm, Helmchen, Kitsantas, Perlin

Assistant Professors: Carle, Cantiello, Min, Nambisan, Wojtusiak, Yang

Instructors: Henderson, Shiver

Research Instructor: Debold

The mission of the Department of Health Administration and Policy (HAP) is to provide innovative education, service and research that contribute to improving the quality of care and delivery of healthcare services. The department accomplishes this mission by preparing professionals for careers as executives and managers in acute and ambulatory care and senior housing/assisted living organizations, as well as specialists in health informatics, healthcare risk management, and health policy.

The research and scholarly activities of the department contribute to basic and applied knowledge about the organization, management, financing, and performance of U.S. health systems and public health services; the development and management of health information systems; and the development and analysis of evidence-based U.S. health policy to foster innovation and public accountability and contribute to ensuring access to cost-effective, high-quality health services. The Department works with consumers, stakeholders, students, faculty, alumni, research funders, and the community to ensure rigorous, relevant educational programs (including post-graduate professional development), service activities, and the development and timely dissemination of research. Part-time students are encouraged to take at least 6 credits per semester to promote timely completion of the program.

Course Work

The Health Administration and Policy Department offers course work designated HAP in the Courses section of this catalog.

Bachelor of Science

Health Administration, BS

Banner Code: HH-BS-HADM

Unit: Health Administration and Policy

The BS in health administration prepares students to become managers in a variety of settings, including hospitals; clinics; community health, home care, long-term care, and managed care organizations; physician practices; information technology, medical technology and supply organizations; advocacy organizations and professional associations; the insurance industry; and consultant services.
Concentrations are offered in health systems management, assisted living/senior housing administration, and health informatics. The concentration in health systems management prepares graduates to serve in entry-level management, administrative and support positions in a variety of health-related organizations and settings. The concentration in assisted living/senior housing administration prepares graduates to serve in entry-level administrator and support positions within independent living, assisted living, and continuing care retirement communities. The concentration in health informatics prepares graduates in theory and methods for using information processing methods in healthcare organizations.

The program may be completed on a full- or part-time basis leading to completion of the objectives of the undergraduate BS program. A criminal background check is required of all students prior to beginning their internship. A minimum grade of C must be obtained in all major requirements (52 - 55 credits).

Students must check with their advisor to ensure that all requirements have been met prior to graduation. HAP 498 is a competitive internship elective offered in the student’s final semester as described below.

Degree Requirements

General Education (38 credits)

Written Communication:

- ENGH 101 - Composition Credits: 3
- ENGH 302 - Advanced Composition Credits: 3 (Business section recommended)
  Nonnative speakers of English with limited proficiency in the language may substitute ENGH 100 for ENGH 101. Students must attain a minimum grade of C in ENGH 100 or 101, as well as in 302, to fulfill degree requirements.

Oral Communication:

Choose one of the following:

- COMM 100 - Public Speaking Credits: 3
- COMM 101 - Interpersonal and Group Interaction Credits: 3

Quantitative Reasoning:

- STAT 250 - Introductory Statistics I Credits: 3

Information Technology:

- IT 103 - Introduction to Computing Credits: 3

Literature:

- An approved University General Education Literature course.

Arts:

- An approved University General Education Arts course.
Natural Science:

- BIOL 103 - Introductory Biology I Credits: 4 and
- BIOL 104 - Introductory Biology II Credits: 4
  or
- BIOL 124 - Human Anatomy and Physiology Credits: 4 and
- BIOL 125 - Human Anatomy and Physiology Credits: 4

Western Civilization:

Choose one of the following:

- HIST 100 - History of Western Civilization Credits: 3
- HIST 125 - Introduction to World History Credits: 3

Global Understanding:

- An approved University General Education global understanding course.

Social Science:

- ECON 103 - Contemporary Microeconomic Principles Credits: 3

Required Courses (12 credits)

- ACCT 203 - Survey of Accounting Credits: 3
- HAP 201 - Health Professions Careers Credits: 3
- HAP 202 - Medical Terminology Credits: 3
  One of the following psychology courses:
- PSYC 100 - Basic Concepts in Psychology Credits: 3
- PSYC 211 - Developmental Psychology Credits: 3
- PSYC 231 - Social Psychology Credits: 3

▲ Concentration in Assisted Living/Senior Housing Administration (ASHA)

Major Requirements (55 credits)

- HAP 301 - Health Care Delivery in the United States Credits: 3
- GCH 300 - Introduction to Public Health Credits: 3
- HAP 307 - Assisted Living/Senior Housing Management and Philosophy Credits: 3
- HAP 310 - Healthcare Ethics Credits: 3
- HAP 312 - Healthcare Law Credits: 3
- HAP 360 - Introduction to Health Information Systems Credits: 3
- HAP 392 - Human Resources Management in Healthcare Credits: 3
- HAP 395 - Health Care Finance Credits: 3
- HAP 396 - Strategic Health Management and Planning Credits: 3
HAP 416 - Leadership and Management of Health Systems I Credits: 3
HAP 417 - Leadership and Management of Health Systems II Credits: 3
HAP 425 - Health Economics and Policy Credits: 3
HAP 465 - Integration of Professional Skills and Issues Credits: 3 (satisfies the university synthesis requirement)
HAP 489 - Pre-Internship Seminar Credits: 1
HAP 498 - Health Administration Internship Credits: 6
Internship in assisted living and senior housing or hospitality services as approved by the program coordinator. Under special circumstances, students may be excused by the Department Chair from taking this course upon recommendation by the course instructor and the student’s advisor.

Three of the following:

- GCH 480 - Health Maintenance and Health Aspects of Aging Credits: 3
- NURS 492 - Death, Dying, and Decision Making Credits: 3
- SOCW 435 - Introduction to Gerontology Credits: 3
- PSYC 415 - Psychological Factors in Aging Credits: 3

CHHS Electives (6 credits)

- 2 CHHS electives approved by the program coordinator.

General Electives (9 credits)

- Electives are at the student's discretion.

▲ Concentration in Health Informatics (HINF)

Major Requirements (52 credits)

- GCH 300 - Introduction to Public Health Credits: 3
- HAP 301 - Health Care Delivery in the United States Credits: 3
- HAP 310 - Healthcare Ethics Credits: 3
- HAP 312 - Healthcare Law Credits: 3
- HAP 360 - Introduction to Health Information Systems Credits: 3
- HAP 361 - Health Databases Credits: 3
- HAP 392 - Human Resources Management in Healthcare Credits: 3
- HAP 430 - Process Improvement in Healthcare Organizations Credits: 3
- HAP 445 - Introduction to Health Services Research Credits: 3
- HAP 459 - Health Data Standards Credits: 3
- HAP 460 - Information Technology Project Management Credits: 3
- HAP 461 - Internet and Web Technology Applications for Healthcare Credits: 3
- HAP 462 - Privacy and Security in Health Informatics Credits: 3
- HAP 465 - Integration of Professional Skills and Issues Credits: 3 (satisfies the university synthesis requirement)
- HAP 489 - Pre-Internship Seminar Credits: 1
- HAP 498 - Health Administration Internship Credits: 6
  Under special circumstances, students may be excused by the Department Chair from taking this course upon recommendation by the course instructor and the student’s advisor.
  One of the following:
- HAP 395 - Health Care Finance Credits: 3
• HAP 425 - Health Economics and Policy Credits: 3
• HAP 442 - Introduction to Health Care Politics and Policy Credits: 3

CHHS Electives (9 credits)

• 3 CHHS electives approved by the program coordinator.

General Electives (9 credits)

• Electives are at the student's discretion.

▲ Concentration in Health Systems Management (HSMG)

Major Requirements (55 credits)

• GCH 300 - Introduction to Public Health Credits: 3
• HAP 301 - Health Care Delivery in the United States Credits: 3
• HAP 310 - Healthcare Ethics Credits: 3
• HAP 312 - Healthcare Law Credits: 3
• HAP 360 - Introduction to Health Information Systems Credits: 3
• HAP 392 - Human Resources Management in Healthcare Credits: 3
• HAP 395 - Health Care Finance Credits: 3
• HAP 396 - Strategic Health Management and Planning Credits: 3
• HAP 410 - Introduction to Health/Medical Practice Management Credits: 3
• HAP 416 - Leadership and Management of Health Systems I Credits: 3
• HAP 417 - Leadership and Management of Health Systems II Credits: 3
• HAP 425 - Health Economics and Policy Credits: 3
• HAP 430 - Process Improvement in Healthcare Organizations Credits: 3
• HAP 442 - Introduction to Health Care Politics and Policy Credits: 3
• HAP 445 - Introduction to Health Services Research Credits: 3
• HAP 465 - Integration of Professional Skills and Issues Credits: 3 (satisfies the university synthesis requirement)
• HAP 489 - Pre-Internship Seminar Credits: 1
• HAP 498 - Health Administration Internship Credits: 6

Under special circumstances, students may be excused by the Department Chair from taking this course upon recommendation by the course instructor and the student’s advisor.

CHHS Electives (6 credits)

• 2 CHHS electives approved by the program coordinator.

General Electives (9 credits)

• Electives are at the student’s discretion.

Total: 120 credits
Graduate Certificate

Health Informatics and Data Analytics Graduate Certificate

Banner Code: HII-CERG-HIDA

Unit: Health Administration and Policy

This certificate prepares clinicians and health care managers, as well as information technology (IT) professionals, to develop and manage health information technology systems. Certificate course work stresses the impact of technology on outcomes and quality of health care services. Students in the program can focus on general health informatics or health data analytics. The certificate is ideal for two groups of individuals: (1) clinicians and health care managers who want to learn foundations of information systems, basic technical skills including database design and management, health care data integration and exchange, and management of health information systems; and (2) IT professionals who are new to the health care community and want to learn about the use of IT in clinical and administrative settings.

Admission Requirements

Applicants must have a bachelor’s degree. No prior computer programming training is needed, although proficiency in utilization of computer systems is expected. Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

The graduate certificate in health informatics and data analytics may be pursued on a full- or part-time basis.

Certificate Requirements

Completion of the certificate requires 15-22 graduate credits. Students will earn 6-9 credits in required courses and 9 credits in elective courses and may earn 4 additional credits by completing the optional practicum and pre-practicum seminar. Specific courses and the course sequence will be individually agreed upon with the advisor after admission. Students must complete all courses with a minimum GPA of 3.00. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

Required Courses (6-9 credits)

- HAP 678 - Introduction to the U.S. Health System Credits: 3 *(HAP 678 may be waived for students with health care background)*
- HAP 709 - Health Care Databases Credits: 3 *(HAP 709 may be waived for students with sufficient database knowledge and IT background)*
  
  Students allowed to waive both HAP 678 and HAP 709 are required to take one additional 3-credit course that must be approved by their advisor.
- HAP 700 - Introduction to Health Informatics Credits: 3 or HAP 740 - Management of Health Information Systems Credits: 3

Electives (9 credits)

Students will complete three courses selected from the following groups: 1) general health informatics, or 2) health data analytics. General health informatics courses focus on the theory, development, management, adoption, and use of information
systems in clinical, administrative, and financial health care settings. Health data analytics courses focus on the theory and methods of health data analytics, with a special focus on "Big Data." Students who want to specialize in either general health informatics or health data analytics should select all three courses from the appropriate group.

**General Health Informatics:**
- HAP 701 - Health Data: Vocabulary and Standards Credits: 3
- HAP 745 - Health Care Security Policy Credits: 3
- HAP 752 - Advanced Health Information Systems Credits: 3

**Health Data Analytics:**
- HAP 686 - Quality Improvement in Health Services Credits: 3
- HAP 720 - Health Data Integration Credits: 3
- HAP 780 - Data Mining in Health Care Credits: 3

**Optional Practicum (4 credits)**
- HAP 789 - Pre-Capstone Professional Development Seminar Credits: 1
- HAP 790 - Capstone Practicum in Health Systems Management Credits: 3

**Total: 15-22 credits**

**Health Policy Graduate Certificate**

**Banner Code: HII-CERG-HTHP**

Unit: Health Administration and Policy

In an era of limited resources, rising health costs, eroding insurance coverage, and growing disparities in health care quality and access, this certificate provides students with analytic skills and knowledge necessary for evidence-based health policy planning, formulation, analysis, evaluation, and practice. Students will gain a working understanding of public policy processes, analysis and statistical methods, economics, health policy process/entities, strategic thinking, the politics of health policy-making, as well as public advocacy and communications skills. The certificate is ideal for clinicians and health care professionals who seek value-added career enhancement in health policy formulation, analysis and advocacy.

**Admission Requirements**

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

The graduate certificate in health policy may be pursued on a full- or part-time basis.

**Certificate Requirements**

Completion of the certificate requires 15 graduate credits. Students must complete all courses with a minimum GPA of 3.00. Students deemed to have inadequate health care experience must successfully complete HAP 678 (Introduction to the U.S. Health System) prior to matriculation. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.
Required Courses (12 credits)

- HAP 642 - Health Policy Development and Analysis Credits: 3
- HAP 645 - Introduction to Health Services Research Credits: 3
- HAP 715 - Health Economics Credits: 3
- HAP 762 - Cost-Effectiveness for Health Care Management and Policy Decisions Credits: 3

Elective (3 credits)

Choose one of the following:

- HAP 652 - Essentials of Health Insurance and Managed Care Credits: 3
- HAP 662 - Health Policy for Elders and People with Disabilities Credits: 3
- HAP 710 - Inferential Statistics in Health Services Research and Management Credits: 3
- HAP 730 - Health Care Decision Analysis Credits: 3
- HAP 764 - Health Policy and Government Payment Systems for Health Care Services Credits: 3

Total: 15 credits

Physician Practice Management Graduate Certificate

Banner code: HH-CERG-PPM

Unit: Health Administration and Policy

The purpose of this graduate certificate is to provide professionals with the knowledge, skills and ability to successfully establish and manage a contemporary medical practice/clinic enterprise. The curriculum builds upon established standards promulgated by the Medical Group Management Association for Medical Practice Management Certification. These include proficiency in financial management, operations management, human resources management, risk management, and planning and marketing. Upon completion of this certificate, graduates will be prepared didactically to take the Certified Medical Practice Executive examination.

Admission Requirements

Health care professionals or administrative professionals with a baccalaureate degree and ideally three years of experience in a health or related management, public policy, or technology field are eligible to apply. Applicants must submit the following: 1) transcripts from all previous college-level studies, 2) letter of interest specifying study goals, 3) curriculum vita, and 4) graduate admission application.

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

The graduate certificate in physician practice management may be pursued only on a part-time basis.

Certificate Requirements
The Physician Practice Management Graduate Certificate requires a minimum of 15 credits. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

**Required Courses (15 credits)**

- HAP 610 - Health/Medical Practice Management Credits: 3
- HAP 652 - Essentials of Health Insurance and Managed Care Credits: 3
- HAP 703 - Financial Management in Health Systems Credits: 3
- HAP 704 - Contemporary Issues in Health Systems Management Credits: 3
- HAP 705 - Strategic Management and Marketing in Health Care Credits: 3

**Additional Course Work (3 credits)**

Required for students who do not have recent, relevant work experience in the U.S. health system.

- HAP 678 - Introduction to the U.S. Health System Credits: 3

**Total: 15-18 credits**

**Public Health Leadership and Management Graduate Certificate**

**Banner Code:** HH-CERG-PHLM

**Unit:** Health Administration and Policy

This certificate prepares students to apply the principles of public health leadership, stewardship and policy implementation to manage state and local health departments and various non-profit organizational and community health program initiatives. Courses explain leadership strategy, public health regulatory requirements, public program management tools and policy development skills necessary to function in public health systems in the United States. The certificate is ideal for clinicians and health care professionals who seek value-added career enhancement in public health programs and entities.

**Admission Requirements**

Applicants must have a bachelor’s degree with a minimum GPA of 3.00 and knowledge of the health care system. Applicants are preferred who are a current student in a graduate degree program, have an earned master's degree, or have at least one year of experience in a health-related role or entity. No prior experience in public health administration or policy is needed. Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

The graduate certificate in public health leadership and management may be pursued only on a part-time basis.

**Certificate Requirements**

Completion of the certificate requires 18 graduate credits. Students must complete all courses with a minimum GPA of 3.00. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.
Required Courses (15 credits)

- GCH 712 - Introduction to Epidemiology Credits: 3
- HAP 642 - Health Policy Development and Analysis Credits: 3
- HAP 680 - Applied Public Health Leadership and Management Credits: 3
- HAP 715 - Health Economics Credits: 3
- PUAD 661 - Public Budgeting Systems Credits: 3

Elective Course (3 credits)

Choose ONE (1) of the following courses or another course approved by advisor:

- HAP 511 - Ethics in Public Health Credits: 3
- HAP 540 - Introduction to Emergency Preparedness/Disaster Recovery for Health Care Professionals Credits: 3
- HAP 609 - Comparative International Health Systems Credits: 3
- HAP 632 - Grants Funding and Development Credits: 3
- HAP 661 - Policy Development and Analysis for Community Health Programs Credits: 3
- HAP 705 - Strategic Management and Marketing in Health Care Credits: 3
- HAP 740 - Management of Health Information Systems Credits: 3
- HAP 750 - Legal Issues in Health Administration Credits: 3
- HAP 762 - Cost-Effectiveness for Health Care Management and Policy Decisions Credits: 3
- HAP 764 - Health Policy and Government Payment Systems for Health Care Services Credits: 3
- PUBP 758 - Global Threats and Medical Policies Credits: 3

Total: 18 credits

Quality Improvement and Outcomes Management in Health Care Systems Graduate Certificate

Banner Code: HH-CERG-QIOM

Unit: Health Administration and Policy

This certificate prepares working clinicians and administrative support staff in health care organizations to implement quality-improvement initiatives and manage populations of patients to optimize efficiency and effectiveness of care and services. Participants acquire the knowledge and ability to work in interdisciplinary health care teams using the tools and techniques of statistical process control and selected methods and tools from operations research and quality improvement. In addition, they use information management technology and qualitative decision-making applications to identify opportunities for clinical and administrative improvement, support decision-making optimization, and improve health-service outcomes for identified populations.

Admission Requirements

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.
The graduate certificate in quality improvement and outcomes management in health care systems may be pursued only on a part-time basis.

Certificate Requirements

Candidates must have 15-18 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C, to earn the certificate. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

Required Courses (12 credits)

- HAP 647 - Regulatory Requirements for Health Care Systems Credits: 3
- HAP 686 - Quality Improvement in Health Services Credits: 3
- HAP 730 - Health Care Decision Analysis Credits: 3
  
  Choose one of the following:
  - GCH 601 - Introduction to Biostatistics Credits: 3
  - HAP 602 - Statistics in Health Services Management Credits: 3
  - HHS 597 - Approaches to Quantitative Data Analysis in Health Care Research Credits: 3
  - SOCW 671 - Research Methods for Social Workers Credits: 3

Elective (3 credits)

Choose one course of the following:

- HAP 709 - Health Care Databases Credits: 3
- HAP 710 - Inferential Statistics in Health Services Research and Management Credits: 3
- HAP 715 - Health Economics Credits: 3
- HAP 720 - Health Data Integration Credits: 3
- HAP 740 - Management of Health Information Systems Credits: 3
- SOCW 688 - Advanced Research in Social Work Credits: 3

Additional Course Work

Required for students who do not already possess the requisite knowledge and skills. Decisions about this requirement are made by the department at the time of admission.

- HAP 678 - Introduction to the U.S. Health System Credits: 3 (Required for students without recent working experience in the U.S. health system.)
- A course in basic computer skills (credit or noncredit)

Total: 15-18 credits

Senior Housing Administration Graduate Certificate

Banner Code: HH-CERG-SHA

Unit: Health Administration and Policy
The graduate certificate in senior housing administration provides education in the successful management of senior housing communities, including Active Adult/55+, Independent Living, Assisted Living, Alzheimer’s Assisted Living, and Continuing Care Retirement Communities. Courses enable students to evaluate, analyze, and synthesize information relative to aging populations; regulatory and policy issues; the evolution, role, and scope of the senior housing industry; and the application of executive-level practices to hospitality, health care, and ancillary services within senior housing environments. An additional focus is on biological, psychological, and social aspects of healthy aging and factors that promote quality of life and independence for seniors.

**Admission Requirements**

Professionals with a baccalaureate degree and three years of recent experience in health care, business administration, hospitality management, aging services, or related long-term care services are preferred. Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admission website.

The graduate certificate in senior housing administration may be pursued on a full- or part-time basis.

**Certificate Requirements**

Candidates must have 18 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C, to earn the certificate. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

**Required Courses (18 credits)**

- **HAP 678 - Introduction to the U.S. Health System** Credits: 3
  Students with a previous health care degree and/or a minimum of three years health care or senior housing experience may request to substitute another relevant course for HAP 678 as approved by the program advisor.

- **HAP 650 - Senior Housing Management and Operations** Credits: 3

- **HAP 651 - Senior Housing Sales and Marketing** Credits: 3

- **HAP 662 - Health Policy for Elders and People with Disabilities** Credits: 3

- **HAP 621 - Organization Behavior and Healthcare Leadership** Credits: 3

- **HHS 648 - Aging and Health** Credits: 3

Total: 18 credits

**Master of Science**

**Health and Medical Policy, MS (CHHS)**

**Banner code: HH-MS-HMP**

**Unit: Health Administration and Policy**

The master’s program in health and medical policy is offered jointly by the College of Health and Human Services and the School of Public Policy. It prepares students to become health and medical systems policy analysts, consultants, and public health advocates in the US and internationally. It provides students with the knowledge, skills and abilities needed for national and international health systems planning and decision-making and to support policy formulation, resource allocation, and advocacy.
for health and medical professionals and health systems. Students applying to the program will be admitted to one of two concentrations: Health Policy or Global Medical Policy.

The Health Policy concentration provides students with humanistic and analytic skills necessary to propose, design, implement and analyze pragmatic policy-centric solutions to a myriad of complex domestic social and health system problems.

**Admission Requirements**

*The following requirements are for students applying to the Health Policy concentration.*

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements please refer to the CHHS Admissions website. Submission of GRE or GMAT scores is not required except for the School of Public Policy students seeking merit-based scholarships.

**Transfer of Credit**

Students may transfer a maximum of 12 credits into the Health Policy concentration from graduate courses taken at other institutions or taken at Mason in non-degree status. Transfer credit is subject to university and college policies and must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department and should submit their application to the MS program in their first semester of study.

**MS-HMP Common Degree Requirements**

**Core Courses (21 Credits)**

**Health and Medical Systems (6 credits)**

- HAP 609 - Comparative International Health Systems: 3 or equivalent
- HAP 715 - Health Economics: 3 or equivalent

**Public Policy Process (6 credits)**

- PUBP 700 - Theory and Practice in Public Policy: 1-4 or equivalent
- PUBP 730 - US National Policy Systems and Theory: 3 or equivalent

**Policy Analysis (9 credits)**

- HAP 710 - Inferential Statistics in Health Services Research and Management: 3 or PUBP 704 - Statistical Methods in Policy Analysis
- HAP 730 - Health Care Decision Analysis: 3 or PUBP 713 - Policy and Program Evaluation
- HAP 645 - Introduction to Health Services Research: 3 or PUBP 756 - Global Medical Systems Policy Analysis

▲ **Concentration in Health Policy (HTHP)**

**Required Courses (15 credits)**
Electives (6 credits)

Courses must be approved by concentration advisor.

Total: 42 credits

Health Informatics, MS

Banner code: HH-MS-HINF

Unit: Health Administration and Policy

The Master of Science in Health Informatics is offered through the Department of Health Administration and Policy in the College of Health and Human Services, in collaboration with the Volgenau School of Engineering. Students obtaining this degree will have had the required experience and receive the highly specialized knowledge and skills needed to support the adoption and use of health information systems and analytic applications for a variety of clinical, administrative, and research purposes.

This 34-36 credit graduate degree program prepares students to become health information systems specialists, managers and consultants. Graduates of the program may be employed in health information technology firms, health care/service organizations and their business partners, as well as public health entities. Graduates are able to effectively manage evolving health information systems (ranging from evaluation of information needs to design, development, acquisition, implementation, operation and improvement) and support the increased adoption and use of electronic health records. Also, students are familiarized with the newest trends and emerging technologies likely to impact the field in the future.

Admission Requirements

Applicants must hold a BA or BS degree or equivalent from an accredited university or college. Although the field or major is not a criterion for admission, the applicants are expected to have taken basic-level computer science/technology, mathematics, and statistics. An undergraduate grade point average of 3.25 (on a 4.0 scale) or above is preferred.

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

Furthermore, applicants with at least 1 year of professional work experience in a medical or health-related organization OR 1 year of work experience in information technology in any sector are preferred. The decision for admission will be based upon several factors that may indicate an applicant’s potential for success in graduate studies. Important among them are the undergraduate GPA and work experience.

Transfer of Credit

Students may transfer a maximum of 12 credits into the MS in Health Informatics program from graduate courses taken at other institutions or taken at Mason in non-degree status. Transfer credit is subject to college and university policies and must be
approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department and should submit their application to the MS program in their first semester of study.

Degree Requirements

The 34-36 credit curriculum includes eight (6) required core courses and four (4) elective courses selected from four content areas: Software for Health Informatics (Group I), Statistics and Research Methods (Group II), Advanced Topics in Health Informatics (Group III), and Policy and Regulatory Conformance (Group IV). Students choose one elective course from each of these four content groups. Because students are admitted to the program from a variety of backgrounds, the curriculum is designed to be flexible to meet individual student learning needs. Some courses may require additional prerequisites depending on the background of the student. After completing course work, and with permission of advisor, students can choose between the Capstone Practicum (4 credits) and Master's Thesis (6 credits). Both options require two semesters to complete.

Core Courses (18 credits)

- HAP 678 - Introduction to the U.S. Health System Credits: 3
- HAP 700 - Introduction to Health Informatics Credits: 3
- HAP 701 - Health Data: Vocabulary and Standards Credits: 3
- HAP 709 - Health Care Databases Credits: 3
- INFS 622 - Information Systems Analysis and Design Credits: 3
- HAP 752 - Advanced Health Information Systems Credits: 3

Electives (12 credits)

Students will select one course from each of the following four groups:

**Software for Health Informatics Applications (Group I):**
- HAP 713 - Project Management in Health Information Technology Credits: 3
- HAP 601 - E-Commerce and On-line Marketing for Health Services Credits: 3
- HAP 720 - Health Data Integration Credits: 3
- SWE 625 - Software Project Management Credits: 3
- Approved 3-credit SWE course

**Statistics and Research Methods (Group II):**
- HAP 602 - Statistics in Health Services Management Credits: 3
- HAP 820 - Analytic Models in Health Services Management, Policy, and Research Credits: 3
- HAP 710 - Inferential Statistics in Health Services Research and Management Credits: 3
- STAT 554 - Applied Statistics Credits: 3
- HAP 730 - Health Care Decision Analysis Credits: 3
- HAP 645 - Introduction to Health Services Research Credits: 3

**Advanced Topics in Health Informatics (Group III):**
- HAP 745 - Health Care Security Policy Credits: 3
- HAP 770 - Medical Decision Making and Decision Support Systems Credits: 3
- ISA 522 - Information Security Essentials Credits: 3
- HAP 780 - Data Mining in Health Care Credits: 3
- Approved 3-credit ISA, HAP, or INFS course

**Policy and Regulatory Conformance (Group IV):**
- HAP 647 - Regulatory Requirements for Health Care Systems Credits: 3
- HAP 686 - Quality Improvement in Health Services Credits: 3
• HAP 715 - Health Economics Credits: 3  
• HAP 750 - Legal Issues in Health Administration Credits: 3  
• HAP 762 - Cost-Effectiveness for Health Care Management and Policy Decisions Credits: 3

Practicum or Thesis (4-6 credits)

After completing course work, and with permission of advisor, students can choose between the Capstone Practicum (4 credits) and Master's Thesis (6 credits). Both options require two semesters to complete.

  Practicum Option (4 credits)
  • HAP 789 - Pre-Capstone Professional Development Seminar Credits: 1  
  • HAP 790 - Capstone Practicum in Health Systems Management Credits: 3  

  Thesis Option (6 credits)
  • HAP 799 - Master’s Thesis Credits: 1-6

Total: 34-36 credits

Master of Health Administration

Health Systems Management, MHA

Banner Code: HH-MHA-HSMG

Unit: Health Administration and Policy

The Master of Health Administration (MHA) in Health Systems Management program prepares students with the knowledge and skills to work as leaders and executive-level managers in evolving health care organizations. The curriculum was developed in response to the demand for advanced health management preparation for a variety of health care and allied health professionals to be employed in hospitals, health systems, consulting and regulatory entities, medical practice groups, ambulatory clinics, managed care organizations, and government agencies in both the public and private sectors of health care. Concentrations are offered in: executive management, physician practice management, senior housing administration, and risk management and patient safety.

The program of study offers state-of-the-art technical and humanistic skills so that graduates may serve as leaders, managers, and consultants in various settings. The curriculum integrates concepts from a variety of disciplines such as business management, economics, finance, philosophy, organizational behavior, marketing, information technology, social psychology, public policy, law, and ethics as they apply to the administration of health care organizations.

The interdisciplinary curriculum is designed to prepare graduates with an understanding of the larger sociopolitical, global health, and economic contexts in which the U.S. health system operates. It provides working professionals with leadership knowledge and managerial skills and abilities that contribute to improving the efficiency and effectiveness of health systems and alignment of decisions and resources to optimize organizational and health-related public policy goals. Students examine social imperatives for access to health services and the feasibility, need, and mechanisms of market factors. They create links and alignment between public and private sectors and among voluntary, market, and regulatory forces in the context of a variety of public policy frameworks. Students explore the design and management of seamless systems of care, information technology, and services that support the providers of health-related care and services over the life span. Using ethical principles, students explore approaches to improving access to care and services and the quality and safety of health systems and their integration to maximize quality of life and community health.

Admission Requirements
Health care professionals with a baccalaureate degree and one to three years of recent experience in health or a related management or technology field are eligible to apply. Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

**Transfer of Credit**

Students may transfer a maximum of 12 credits into the Master in Health Administration program from graduate courses taken at other institutions or taken at Mason in non-degree status. Transfer credit is subject to university and college policies and must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department and should submit their application to the Master in Health Administration program in their first semester of study.

**Program Format**

The program schedule is geared toward working professionals. The usual schedule for students involves part-time study, comprising two classes (6 credits) per semester. Classes are held primarily in evenings, with some Saturday daytime classes. Selected courses also are available via the Internet.

**Degree Requirements**

The program of study comprises 46 credits: 28 credits from the common core of the degree and another 18 from one of the concentrations.

**Core Courses (28 credits)**

- HAP 602 - Statistics in Health Services Management Credits: 3
- HAP 686 - Quality Improvement in Health Services Credits: 3
- HAP 645 - Introduction to Health Services Research Credits: 3
- HAP 621 - Organization Behavior and Healthcare Leadership Credits: 3
- HAP 678 - Introduction to the U.S. Health System Credits: 3
- HAP 715 - Health Economics Credits: 3
- HAP 740 - Management of Health Information Systems Credits: 3
- HAP 750 - Legal Issues in Health Administration Credits: 3
- HAP 789 - Pre-Capstone Professional Development Seminar Credits: 1
- HAP 790 - Capstone Practicum in Health Systems Management Credits: 3

▲ **Concentration in Executive Management (EMGT)**

The mission of the Master in Health Administration program (MHA) in Health Systems Management, Concentration in Executive Management, is to provide experienced students with the knowledge and skills to work as leaders and executive-level managers in evolving health systems. The curriculum prepares graduates with competencies to work effectively in mid- and executive-level management in a variety of roles located in health-related organizations (hospitals, consulting, and regulatory entities, medical practice groups, ambulatory clinics, and managed care organizations) in public or private health sectors.

- HAP 702 - Managerial Accounting in Health Care Credits: 3
- HAP 703 - Financial Management in Health Systems Credits: 3
• HAP 704 - Contemporary Issues in Health Systems Management Credits: 3
• HAP 705 - Strategic Management and Marketing in Health Care Credits: 3
• HAP 706 - Integrated Health Systems Management Credits: 3
• HAP 783 - Quantitative Analysis for Healthcare Executive Decision Making Credits: 3

Total: 18 credits

▲ Concentration in Physician Practice Management (PPM)

• HAP 610 - Health/Medical Practice Management Credits: 3
• HAP 615 - Revenue Management for Clinical Practices Credits: 3
• HAP 652 - Essentials of Health Insurance and Managed Care Credits: 3
• HAP 703 - Financial Management in Health Systems Credits: 3
• HAP 704 - Contemporary Issues in Health Systems Management Credits: 3
• HAP 705 - Strategic Management and Marketing in Health Care Credits: 3

Total: 18 credits

▲ Concentration in Risk Management and Patient Safety (RMPS)

• HAP 647 - Regulatory Requirements for Health Care Systems Credits: 3
• HAP 652 - Essentials of Health Insurance and Managed Care Credits: 3
• HAP 730 - Health Care Decision Analysis Credits: 3
• HAP 735 - Fundamentals of Patient Safety and Risk Management Credits: 3
  (Students may also meet this requirement by taking a course in epidemiology or biostatistics in the Department of Global and Community Health)
• HAP 762 - Cost-Effectiveness for Health Care Management and Policy Decisions Credits: 3

Elective (select 3 credits from the following)

• HAP 642 - Health Policy Development and Analysis Credits: 3
• HAP 690 - Independent Study Credits: 1-3
• HAP 709 - Health Care Databases Credits: 3
• HAP 710 - Inferential Statistics in Health Services Research and Management Credits: 3
• HAP 714 - Ethical Issues in Health Administration and Policy Credits: 3
• HAP 720 - Health Data Integration Credits: 3
• NURS 665 - Theoretical and Ethical Foundations Related to Nursing Credits: 3
  Others as approved by advisor.

Total: 18 credits

▲ Concentration in Senior Housing Administration (SHA)

• HAP 650 - Senior Housing Management and Operations Credits: 3
• HAP 651 - Senior Housing Sales and Marketing Credits: 3
• HAP 662 - Health Policy for Elders and People with Disabilities Credits: 3
The Master of Health Administration in Health Systems Management program at George Mason University participates in the Peace Corps Master’s International (MI) program. For students enrolled in the Health Systems Management MHA degree program and in the Peace Corp/MI program, the Office of the Provost will provide funding for 6 credits upon the student’s return from their volunteer service. In order for the tuition support to be applied, a representative from the graduate degree program must provide proof of volunteer service completion for the student.

Students apply separately, but at the same time, to the Peace Corps and to Mason. Students are special registered at Mason for the four semesters they are serving in the Peace Corps and participate remotely in classroom activities, working on an agreed-upon project and sharing experiences with HAP students and faculty. Students return to Mason after their two years of service to complete the remaining course work required for the program.

Students must apply and be admitted to the Master of Health Administration in Health Systems Management program using the standard online Application for Graduate Admissions and are encouraged to apply simultaneously to the Peace Corps. Once admitted to the MHA program, and offered a Peace Corps assignment, students should contact the Chair of the Department of Health Administration and Policy to discuss a program plan. Students admitted to the master’s program but waiting for notification of acceptance from the Peace Corps may begin their master’s program but will not be eligible for a tuition grant until they have been accepted into the Peace Corps and have returned from their volunteer service. For more information about the Master’s International program, visit their website at www.peacecorps.gov/index.cfm?shell=learn.whyvol.eduben.mastersint.partschool.

Other Degrees

Health and Social Policy Minor

Banner code: HSP

Unit: Health Administration and Policy and Social Work

The minor in Health and Social Policy introduces students to the context and process for public policymaking in health care and social services. Students will examine the current environment for health and social policy, learn the basic elements of the public policymaking process, and apply this knowledge in a practical research endeavor. This minor is a joint program offered by the Department of Health Administration and Policy and the Department of Social Work.

Minor Requirements (18 credits)

Students should be familiar with university-wide requirements for minors described in the Undergraduate Policies section of the Academic Policies section of this catalog.

Students pursuing this minor must complete 18 credits as follows:

- HAP 703 - Financial Management in Health Systems Credits: 3
- HAP 705 - Strategic Management and Marketing in Health Care Credits: 3
- HHS 648 or NURS 648 - Aging and Health Credits: 3

Total: 18 credits

Total: 46 credits
Students will take five (5) core and one (1) elective course (in an area of health and social policy interest). The final core course is the Research Internship, taken after completion of the other course requirements for the minor. In the internship course, the student will work as a member of a research team under the direction/mentorship of a faculty researcher.

**Required Courses (15 credits)**

- HAP 301 - Health Care Delivery in the United States Credits: 3
- HAP 442 - Introduction to Health Care Politics and Policy Credits: 3
- GCH 445 or SOCW 445 - Social Determinants of Health Credits: 3
- HAP 445 - Introduction to Health Services Research Credits: 3 or SOCW 471 - Research in Social Work Credits: 3
- SOCW 480 or HAP 480 - Research Internship in Health and Human Services Credits: 3
  
  SOCW/HAP 480 is taken as a capstone course after all other courses in the minor have been completed.

  A minor in Health and Social Policy requires a dedicated internship (HAP/SOCW 480) that may only be applied toward this minor or another CHHS program of study. The research internship will be focused on research in an area of applied health or social policy. Students enrolled in the practicum experience will attend a weekly course. The course instructor will pair each student with a faculty member from the College of Health and Human Services who has a similar research interest. The student and faculty member who share a research interest, will engage in a semester-long research practicum.

  Special course pre-registration procedures must be completed prior to registering for this course. As part of this process, the student’s research practicum and faculty assignment must be approved in writing, prior to registration, by his/her CHHS faculty advisor.

**Electives (3 credits)**

Select one of the following:

- HAP 290 - Lifestyle Management through Systems Analysis Credits: 3
- HAP 310 - Healthcare Ethics Credits: 3
- HAP 395 - Health Care Finance Credits: 3
- SOCW 370 - Social Policy Analysis and Advocacy Credits: 3
- SOCW 400 - Legal and Ethical Issues in Human Services Credits: 3
- SOCW 410 - Alcohol and Substance Abuse: Policies and Programs Credits: 3
- SOCW 415 - Child and Family Welfare Credits: 3
- SOCW 435 - Introduction to Gerontology Credits: 3
- GCH 405 - International Health Policy and Practice Credits: 3
  
  GCH 405 requires a prerequisite course: GCH 205 - International Health

**Total: 18 credits**

**Health Information Technology Minor**

**Banner code: HIT**

**Unit: Health Administration and Policy**

The minor in Health Information Technology introduces students, in a non-technical context, to the utilization of health information management in the professional arena of health care management and policy. Students will examine the current and projected role of health information management in the delivery of health care and development of health policy and apply this information in a practical research endeavor.
Minor Requirements

A minor in Health Information Technology requires a minimum of 18 credits, at least 12 of which must be applied only to the minor and cannot be used to fulfill the program of study requirements of the student’s major, concentration, undergraduate certificate, or another minor. Students should be familiar with university-wide requirements for minors described in the Undergraduate Policies section of Academic Policies.

Required Courses (12 credits)

- HAP 301 - Health Care Delivery in the United States Credits: 3
- HAP 360 - Introduction to Health Information Systems Credits: 3
- HAP 361 - Health Databases Credits: 3
- HAP 459 - Health Data Standards Credits: 3

Elective Course (3 credits)

Select one of two courses:

- HAP 445 - Introduction to Health Services Research Credits: 3
- HAP 460 - Information Technology Project Management Credits: 3

Research Internship (3 credits)

- HAP 480 - Research Internship in Health and Human Services Credits: 3

A minor in Health Information Technology requires a dedicated internship (HAP 480) that may only be applied toward this minor or another CHHS program of study. The research internship will be focused on research in an area of applied health informatics. Students enrolled in the practicum experience will attend a weekly course. The course instructor will pair each student with a faculty member from the College of Health and Human Services who has a similar research interest. The student and faculty member who share a research interest, will engage in a semester-long research practicum.

Special course pre-registration procedures must be completed prior to registering for this course. As part of this process, the student’s research practicum and faculty assignment must be approved in writing, prior to registration, by his/her CHHS faculty advisor.

Total: 18 credits

Nutrition and Food Studies

Phone: 703-993-4628
web: nfs.gmu.edu

Faculty

Professor: Pawloski (chair)

Associate Professor: Petrick

Assistant Professors: Gewa, Slavin
The Department of Nutrition and Food Studies (NUTR) is a department within the College of Health and Human Services (CHHS). The overarching mission of Nutrition and Food Studies is to inform students and the public about the role of food and nutrition in improving health and well-being among local and global populations through the integration of education, research and outreach. The educational mission is to provide undergraduate and graduate degrees and certificates in food and nutrition-related studies. The research mission is to promote, develop and support research programs that help define and address food and nutritional issues. The outreach mission is to increase the awareness of food and nutrition-related issues among local and global communities, support local and global food and nutrition initiatives, and enhance collaboration among individuals and organizations to improve nutrition and health-related outcomes. Part-time students are encouraged to take at least 6 credits per semester to promote timely completion of the program.

Course Work

The Nutrition and Food Studies Department offers course work designated NUTR in the Courses section of this catalog.

Graduate Certificate

Food Security Graduate Certificate

Banner Code: HH-CERG-FSEC

Unit: Nutrition and Food Studies

The graduate certificate in food security provides knowledge and tools in the areas of nutrition, food studies, geography, and geoinformation science to prepare students for careers in food security and safety. The program includes courses in nutrition, food security, food safety, and GIS and remote sensing, and the program will give students insight into the determinants of food security in developing and industrialized countries, the roots of vulnerabilities of populations most at-risk, and programs involved in food security research and interventions worldwide.

Admission Requirements

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

The graduate certificate in food security may be pursued on a part-time or full-time basis.

Certificate Requirements

Candidates must have 21 graduate credits and a minimum GPA of 3.00 in course work applied to the certificate, with no more than 3 credits with a grade of C to earn the certificate. Students should be familiar with the requirements for graduate certificates, which can be found in the AP.6 Graduate Policies section of the University Catalog.

Required Courses (18 credits)

- NUTR 608 - Perspectives on Food Security Credits: 3
- NUTR 611 - Food and Nutrition Security Policy Credits: 3
- NUTR 610 - Food Safety and Defense Credits: 3
- NUTR 651 - Nutrition Assessment, Monitoring and Surveillance Credits: 3
• GGS 579 - Remote Sensing Credits: 3
• For students in nutrition programs: GGS 553 - Geographic Information System Credits: 3
• For students in geography programs: NUTR 630 - Global Nutrition Credits: 3

Students NOT in geography and nutrition programs may select one of GGS 553 - Geographic Information System or NUTR 630 - Global Nutrition

Elective (3 credits)

• GCH 560 - Environmental Health Credits: 3
• NUTR 630 - Global Nutrition Credits: 3
• BIOD 726 - Agroterrorism and Food Security Credits: 3
• GGS 581 - World Food and Population Credits: 3
or other approved elective course.

Total: 21 credits

Nutrition Graduate Certificate

Banner Code: HH-CERG-NUTR

Unit: Nutrition and Food Studies

The graduate certificate in nutrition prepares students to apply nutrition principles and the latest scientific evidence and methods of nutrition to health practice and research among different populations. The program emphasizes understanding the role of nutrition in population health and well-being and the development of skills required in the practice, analysis, and interpretation of nutrition-related information and data among individuals and populations. Students will acquire competencies in the following areas: public health nutrition framework; assessment and monitoring; research design and methodology; and planning and evaluation of nutrition programs.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit the disclosure information page at: http://irr.gmu.edu/new/N_IRRHome/HEOA/Gainful.cfm

Admission Requirements

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

The graduate certificate in nutrition may be pursued on a part-time or full-time basis.

Certificate Requirements

Undergraduate courses in natural sciences, nursing, health science, and sociology are helpful. A maximum of 3 credits in equivalent course work taken at another college or university can be applied toward the certificate.
Candidates must have 18 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

Required Courses (12 credits)

- NUTR 630 - Global Nutrition Credits: 3
- NUTR 566 - Nutrition and Weight Management Credits: 3
- GCH 712 - Introduction to Epidemiology Credits: 3
- NUTR 651 - Nutrition Assessment, Monitoring and Surveillance Credits: 3

Electives (6 credits)

Choose two from the following:

- GCH 610 - Health Behavior Theory Credits: 3
- GCH 611 - Health Program Planning and Evaluation Credits: 3
- GCH 752 - Nutritional Epidemiology Credits: 3
- NUTR 583 - Biocultural Perspectives on Food and Nutrition Credits: 3

Total: 18 credits

Master of Science

Nutrition, MS

Banner Code: HH-MS-NUTR

Unit: Nutrition and Food Studies

The master's program in nutrition emphasizes a skill-set tailored to expanding nutrition-related needs. Through course work, students learn to assess, evaluate, and intervene in the most current and relevant nutrition issues. The curriculum prepares graduates to work for agencies, businesses, and organizations that seek to improve nutrition at the local, national, and global level. This program also prepares students to engage in further study for research careers in nutrition.

Admission Requirements

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

Transfer of Credit

Transfer credit is governed by university transfer of credit policy and the university requirements for master's degrees, and transfer credit must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department prior to taking a course and plan to submit their application to the MS in Nutrition program in their first semester of study.
Degree Requirements

The program of study requires students to complete 39 credit hours distributed among the following categories of courses: Nutrition Core (30 credits for the thesis option and 33 credits for the practicum option), Electives (3 credits), and a Capstone Experience (6 credits for thesis option or 3 credits for practicum option).

Nutrition Core Courses (30-33 credits)

- NUTR 651 - Nutrition Assessment, Monitoring and Surveillance Credits: 3
- NUTR 620 - Nutrition Education Credits: 3
- NUTR 522 - Nutrition Across the Lifespan Credits: 3
- NUTR 515 - Fundamentals of Cooking Credits: 3
- NUTR 642 - Macronutrients Credits: 3
- NUTR 644 - Micronutrients Credits: 3
- NUTR 670 - Nutrition Research Methods Credits: 3
- NUTR 675 - Nutrition Program Development, Interventions and Assessments Credits: 3
- NUTR 626 - Food Systems Credits: 3
- GCH 601 - Introduction to Biostatistics Credits: 3
- NUTR 583 - Biocultural Perspectives on Food and Nutrition Credits: 3

NUTR 583 is required only for students who will complete the Practicum Option

Elective (3 credits)

Students select one of the following elective courses from any topic area. All electives must be approved by advisor.

- Cultural Competency
  - NUTR 520 - Introduction to Wine and Beer Credits: 3
  - NUTR 630 - Global Nutrition Credits: 3

- Nutrition Intervention, Programs, and Policy
  - NUTR 566 - Nutrition and Weight Management Credits: 3
  - NUTR 608 - Perspectives on Food Security Credits: 3
  - NUTR 610 - Food Safety and Defense Credits: 3
  - NUTR 611 - Food and Nutrition Security Policy Credits: 3

- Nutrition Research
  - GCH 752 - Nutritional Epidemiology Credits: 3

Capstone Experience (3-6 credits)

Students must select either the Practicum or Thesis option.

Practicum Option (3 credits)

The practicum option entails a supervised practical application of previously studied theory through fieldwork. Students will be required to engage for a minimum of 200 contact hours per practicum in a nutrition-related organization under the guidance of a preceptor and a faculty advisor. Students must attend one seminar course, complete a project while working in the agency, and produce a formal report and presentation during the practicum. Students will enroll in the Pre-Practicum course (1 credit) the semester prior to conducting the practicum. In their final semester, students will enroll in the Nutrition Practicum (2 credits).
• NUTR 788 - Pre-Practicum Seminar Credits: 1
• NUTR 790 - Nutrition Practicum Credits: 2

Thesis Option (6 credits)

The thesis option is a research project incorporating an original design to test a theory and resulting in a final written thesis. The topic must fall within one of the areas of faculty expertise within the department, including: food science, food studies, global nutrition, public health nutrition, nutrition policy, nutrition assessment, and chronic disease and nutrition. Students may register for the thesis only with approval from their advisor and after they have completed at least 18 credits of the program.

Students in the master’s thesis option are required to work with a committee of three faculty members. It is the responsibility of the student to form a committee at least 9 months before the desired graduation. The thesis director and at least one of the committee members must be members of the Department of Nutrition and Food Studies faculty, but the third member may or may not be from the Department. Students must take two thesis classes (6 credits total) while working on their thesis. Students must develop a proposal and have it approved by their committee and by the appropriate University committees, such as the Human Subjects Review Board, before undertaking the project. The thesis must conform to the format stated within Mason’s University Libraries guidelines.

• NUTR 799 - Thesis Research Credits: 1-6

Total: 39 credits

Non-Degree

Nutrition Minor

Banner Code: NUTR

Unit: Nutrition and Food Studies

The minor in nutrition is intended to increase knowledge of nutrition issues. Students who may be interested in completing the minor include those pursuing degrees related to nutrition, health, and education. This minor is not equivalent to the registered dietitian license and does not provide a license to practice therapeutic nutrition.

Course Work

Students are required to take an introductory nutrition course such as NUTR 295 - Introduction to Nutrition. To complete the minor, students are required to pass 15 credits of undergraduate course work. At least 6 credits must be completed at Mason, and no more than 3 credits of C- or D in the minor are accepted.

Students should consult the Academic Policies section of this catalog for more information on the university-wide requirements for minors.

Minor Requirements

Required Courses (12 credits)

• NUTR 420 - Strategies for Nutrition Education Credits: 3
• NUTR 421 - Community Nutrition Credits: 3
- NUTR 422 - Nutrition throughout the Life Cycle Credits: 3
- NUTR 423 - Nutrition and Chronic Illnesses Credits: 3

Note

NUTR 466 can be used to substitute for either NUTR 420 or NUTR 421.

Elective (3 credits)

Students should select from the following list or get advisor approval:

- CHEM 102 - Introduction to Organic, Biochemical, Pharmacological, and Fuel Chemistry Credits: 3
- CHEM 463 - General Biochemistry I Credits: 4
- NUTR 466 - Nutrition and Weight Management: Obesity, Anorexia, and Bulimia Credits: 3
- NUTR 583 - Biocultural Perspectives on Food and Nutrition Credits: 3
- GCH 412 - Fundamentals of Epidemiology Credits: 3
- GCH 360 - Health and Environment Credits: 3
- GCH 411 - Health Program Planning Credits: 3
- GCH 205 - International Health Credits: 3
- PSYC 231 - Social Psychology Credits: 3
- PSYC 211 - Developmental Psychology Credits: 3

Total: 15 credits

Undergraduate Certificate

Nutrition Undergraduate Certificate

Banner Code: HH-CERB-NUTR

Unit: Nutrition and Food Studies

This program offers a variety of courses in nutrition for future and present health care professionals, researchers, and others who are commonly faced with community-related nutrition issues. The program is intended to help health care professionals and others who would like to increase their knowledge in nutrition. This certificate is not equivalent to the registered dietitian license and does not provide a license to practice therapeutic nutrition.

The nutrition undergraduate certificate can be pursued on a full- or part-time basis.

Certificate Requirements

Applicants need not have a bachelor’s degree. Applications are encouraged from all areas of nursing and health sciences. Application is made through CHHS. The certificate requires 24 credits of undergraduate course work. Students should consult the Academic Policies section of this catalog for more information on the university-wide requirements for undergraduate certificates.

Required Courses (21 credits)
- GCH 360 - Health and Environment Credits: 3
- GCH 412 - Fundamentals of Epidemiology Credits: 3
- NUTR 295 - Introduction to Nutrition Credits: 3
- NUTR 420 - Strategies for Nutrition Education Credits: 3
- NUTR 421 - Community Nutrition Credits: 3
- NUTR 422 - Nutrition throughout the Life Cycle Credits: 3
- NUTR 423 - Nutrition and Chronic Illnesses Credits: 3

Note:

NUTR 466 may be substituted for either NUTR 420 or NUTR 421.

One Elective (3 credits) in General Nutrition

Students should select from the following list or get advisor approval:

- CHEM 102 - Introduction to Organic, Biochemical, Pharmacological, and Fuel Chemistry Credits: 3
- CHEM 463 - General Biochemistry I Credits: 4
- GCH 205 - International Health Credits: 3
- GCH 411 - Health Program Planning Credits: 3
- NUTR 466 - Nutrition and Weight Management: Obesity, Anorexia, and Bulimia Credits: 3
- PSYC 231 - Social Psychology Credits: 3

Total: 24 credits

Rehabilitation Science

Phone: 703-993-1950  
web: rehabscience.gmu.edu

Faculty

Professors: Gerber (Center for the Study of Chronic Illness and Disability, director), Guccione (chair)

Associate Professor: Keyser

Assistant Professors: Herrick, Terry, Weinstein, Winter

Research Assistant Professor: Chin

The Department of Rehabilitation Science (RHBS) is a department within the College of Health and Human Services (CHHS). Rehabilitation Science is an interdisciplinary field of study that seeks to understand the relationships among chronic illness, function, and disability and how to improve the quality of life for those individuals who live with a chronic condition. This field draws its body of knowledge from multiple disciplines spanning the physiological, health, and social sciences in order to approach the individual who lives with or is at risk of disability as a complete person with a full appreciation of the biopsychosocial environment in which that person functions. The internationally recognized faculty mentor students through active involvement in their own funded research programs. Upon graduation, students are prepared for professional careers in academic, government, and industrial research environments with the tools to develop their own lines of research in
Rehabilitation Science. Part-time students are encouraged to take at least 6 credits per semester to promote timely completion of the program.

**Course Work**

The Rehabilitation Science Department offers course work designated RHBS in the Courses section of this catalog.

**Doctor of Philosophy**

**Rehabilitation Science, PhD**

Banner code: HH-PHD-RHBS

Unit: Rehabilitation Science

The PhD in Rehabilitation Science is an interdisciplinary program reflecting the need for integrated research to address the needs of the disabled. This program educates students in basic and translational science that address mechanisms, prevention and amelioration of disability. The objective of the program is to develop researchers and academics who, through their scholarship and original research, create new knowledge in rehabilitation science. Graduates of this program are prepared for professional careers in academic, governmental, and industrial research environments.

**Admission Requirements**

Applicants must hold a bachelor’s degree from a regionally accredited institution and have a minimum of a 3.0 GPA to be considered. Admission to the program is competitive, and a variety of criteria are evaluated in the admissions process, including the strength of the undergraduate record and any post-baccalaureate coursework, the GRE, career goals statement, letters of recommendation, professional and/or volunteer experience, evidence of the ability to write and conduct research at the graduate level, and any additional evidence of potential success in the program. Applicants are encouraged to contact the department faculty prior to applying to discuss their interest. Preference will be given to full-time applicants, and interviews may be required by the faculty admissions committee. Information regarding CHHS application guidelines and requirements can be found at chhs.gmu.edu/admissions/graduate. Meeting the minimum application criteria does not guarantee admission.

Applications are considered for the **fall semester only**. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website. Late applications will be considered on a space-available basis. The online Application for Graduate Admissions can be found through the Office of Admissions.

**Transfer of Credit**

Transfer credit is governed by university transfer of graduate credit policy, the university requirements for doctoral degrees, and must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department prior to taking a course and must submit their application to the PhD program in their first semester of study.

**Reduction of Credit**

Students must complete a minimum of 72 graduate credits. A maximum of 30 credits may be waived in the PhD program based on a previously earned graduate degree. Credit for prior graduate course work will be reviewed and awarded on a course-by-course basis.
Program Requirements

To complete the PhD in Rehabilitation Science, students must:

- Complete the program of study outlined in the PhD curriculum.
- Pass written doctoral candidacy comprehensive exam and oral examination in the area of specialization.
- Pass the final oral dissertation defense and submit a doctoral dissertation approved by the doctoral dissertation committee and the Chair of the Department of Rehabilitation Science (the dissertation must be submitted in the approved format of the doctoral program).
- Complete application material for graduation in accordance with prevailing Mason policies.

Advancement to Candidacy

After successful completion of the written comprehensive examination and the oral examination in the area of specialization, the student will be advanced to candidacy and may seek approval of a dissertation proposal.

Degree Requirements

The PhD in Rehabilitation Science program consists of a minimum of 72 credit hours, distributed among the following categories of courses: Foundation Courses (30 credits), Specialization Courses (15 credits), Electives (9 credits), and Dissertation Preparation and Completion Courses (18 credits). Specializations include: human motion, function and performance; biobehavioral health; and cardiorespiratory function and physical performance.

Fundamental Courses (30 credits)

- RHBS 550 - Foundations of Rehabilitation Science Credits: 3
- GCH 601 - Introduction to Biostatistics Credits: 3
- RHBS 620 - Psychosocial Aspects of Rehabilitation Credits: 3
- RHBS 651 - Research Methods Credits: 3
- RHBS 710 - Applied Physiology I Credits: 3
- RHBS 711 - Applied Physiology II Credits: 3
- RHBS 720 - Principles of Clinical Trials Credits: 3
- GCH 804 - Advanced Quantitative Data Analysis for Health Care Research I Credits: 3
- GCH 805 - Advanced Quantitative Data Analysis for Health Care Research II Credits: 3
- RHBS 816 - Comparative Effectiveness Research Credits: 3

Specialization Courses (15 credits)

Students select courses with the approval of their advisors. At least 9 credits must be taken in RHBS courses.

Specializations include:

- Human Motion, Function and Performance
- Biobehavioral Health
- Cardiorespiratory Function and Physical Performance

Elective Courses (9 credits)
Students will complete 9 hours of elective course work, in consultation with their advisors.

Dissertation Preparation and Completion Courses (at least 18 credits)

- At least 6 credits: RHBS 960 - Directed Research Credits: 1-6
- At least 12 credits: RHBS 999 - Dissertation Research Credits: 1-9

Total: 72 credits

**Graduate Certificate**

**Clinical Trials Management Graduate Certificate**

**Banner code: HH-CERG-CTM**

Unit: Rehabilitation Science

This certificate prepares students to function in multiple leadership roles in the development, implementation, coordination, and evaluation of clinical research trials. Courses address research design, statistical methods, and protocol design as well as the ethical and regulatory requirements for conducting clinical trials, including human subject protection. The certificate is well-suited to the needs of health care professionals and individuals currently working in clinical research environments who seek career development and enhancement in clinical trials coordination and management.

**Admission Requirements**

Applicants must have a bachelor’s degree with a minimum GPA of 3.00. Preference will be given to those who are currently enrolled in a graduate degree program, have a master's degree, or have at least one year of experience in a health care or research-related role or entity. No prior experience in clinical trials is needed. Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

The graduate certificate in clinical trials management may be pursued only on a part-time basis.

**Certificate Requirements**

Completion of the certificate requires 15 graduate credits. Students must complete all courses with a minimum GPA of 3.00, with no more than 3 credits with a grade of C to earn the certificate. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

**Required Courses (12 credits)**

- RHBS 720 - Principles of Clinical Trials Credits: 3
- HAP 822 - Research Designs and Analysis in Pharmaceutical and Health-Related Clinical Trials Credits: 3
  Choose one of the following courses:
- GCH 601 - Introduction to Biostatistics Credits: 3
- NURS 757 - Nursing Research and Biostatistics I Credits: 3
- HAP 710 - Inferential Statistics in Health Services Research and Management Credits: 3
Choose one of the following courses:

- HAP 700 - Introduction to Health Informatics Credits: 3
- NURS 715 - Nursing Informatics Inquiry Credits: 3

Elective Course (3 credits)

Choose one of the following courses or another course approved by advisor:

- GCH 611 - Health Program Planning and Evaluation Credits: 3
- GCH 691 - Project Management in Public Health Credits: 3
- HAP 632 - Grants Funding and Development Credits: 3
- HAP 647 - Regulatory Requirements for Health Care Systems Credits: 3
- HAP 709 - Health Care Databases Credits: 3
- HAP 714 - Ethical Issues in Health Administration and Policy Credits: 3
- HAP 720 - Health Data Integration Credits: 3
- HAP 762 - Cost-Effectiveness for Health Care Management and Policy Decisions Credits: 3
- NURS 761 - Pharmacotherapeutics Credits: 3
- NURS 957 - Ethics of Health Care Research Credits: 3
- PHIL 645 - Research Ethics Credits: 3
- RHBS 816 - Comparative Effectiveness Research Credits: 3

Total: 15 credits

Rehabilitation Science Graduate Certificate

**Banner Code:** HH-CERG-RHBS

**Unit:** Rehabilitation Science

The graduate certificate in rehabilitation science prepares students to apply research and statistical techniques to the study of the enabling–disabling process. The Institute of Medicine defines rehabilitation science as “a field of study that encompasses basic and applied aspects of the health sciences, social sciences, and engineering. It is the melding of knowledge from several disciplines to understand the fundamental nature of the enabling–disabling process.” Students will acquire competencies in the following areas: rehabilitation and recovery framework, research design and methodology, statistics, and conduct of applied rehabilitation research. The department hosts information sessions on a regular basis for those interested in our academic programs. Visit the college website for details.

**Admission Requirements**

Admission to this certificate requires a bachelor’s degree in a discipline related to health sciences from an accredited institution of higher education with a minimum GPA of 3.00 in the last 60 credits. Such fields include, but are not limited to, health science, biostatistics, biology, nursing, medicine, physical therapy, occupational therapy, physiatry, engineering, and psychology.

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements please refer to the CHHS Admissions website.

The graduate certificate in rehabilitation science may be pursued only on a part-time basis.
Certificate Requirements

A maximum of 3 credits in equivalent course work taken at another college or university can be applied toward the certificate.

Candidates must have 15 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate. Detailed requirements for graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

Required Courses (12 credits)

- RHBS 550 - Foundations of Rehabilitation Science Credits: 3
- GCH 601 - Introduction to Biostatistics Credits: 3 or RHBS 620 - Psychosocial Aspects of Rehabilitation Credits: 3
- RHBS 710 - Applied Physiology I Credits: 3
- RHBS 711 - Applied Physiology II Credits: 3

Elective Course (3 credits)

- GCH 601 - Introduction to Biostatistics Credits: 3
- RHBS 506 - Clinical Exercise Physiology Credits: 3
- RHBS 510 - Scientific Basis for Pain and Fatigue Credits: 3
- RHBS 570 - Movement Analysis of Function Credits: 3
- RHBS 620 - Psychosocial Aspects of Rehabilitation Credits: 3
- RHBS 651 - Research Methods Credits: 3
- RHBS 702 - Biobehavioral Aspects of Health Credits: 3
- Another course may be count toward the certificate with prior approval of advisor.

Total: 15 credits

Non-Degree

Clinical Exercise and Movement Science Minor

Banner code: CEMS

Unit: Rehabilitation Science

The minor in clinical exercise and movement science is an innovative sequence of courses designed to enhance the undergraduate student's academic preparation for clinical and research graduate programs. Designed for students interested in graduate admissions in physical therapy, occupational therapy, physician assistant programs, exercise physiology, and biomechanics, the minor provides a foundation of knowledge on the science of human movement as it pertains to both health and human performance.

Students must have completed at least 30 credits of undergraduate course work in order to enroll in the minor.

Minor Requirements (17 credits)
Students should be familiar with university-wide requirements for minors described in the Undergraduate Policies section of the Academic Policies section of this catalog.

A minor in Clinical Exercise and Movement Science requires a minimum of 17 credits. Students must earn a C- or better in each course of the 17-credit curriculum to successfully complete the minor.

Required Courses (17 credits)

- RHBS 270 - Applied Human Anatomy and Physiology I Credits: 4
- RHBS 271 - Applied Human Anatomy and Physiology II Credits: 4
- RHBS 350 - Clinical Physiology and Human Performance Credits: 3
- RHBS 415 - Clinical Movement Science Credits: 3

One of the following:
- RHBS 340 - Health, Disease and Dysfunction Credits: 3
- RHBS 420 - Adult Health and Function Credits: 3
- RHBS 410 - Physical Activity and Public Health Credits: 3
- RHBS 491 - Directed Research Credits: 1-3
- RHBS 506 - Clinical Exercise Physiology Credits: 3

Total: 17 credits

Social Work

Phone: 703-993-2030 (Undergraduate programs)
Phone: 703-993-4247 (Graduate programs)
web: socialwork.gmu.edu

Faculty

Professors: Lewandowski (chair), Raskin, Ritchie, Rose

Associate Professors: Davis, Harris Rome, Ihara, Matto, Tompkins (assistant dean for undergraduate studies), Wolf-Branigin

Assistant Professors: Clark, Cleaveland, Kirsch

The mission of the BSW Program is to prepare entry-level generalist social work professionals who will demonstrate ethical leadership in innovative multidisciplinary practice, social reform, and research in diverse communities. Students are provided a range of opportunities to develop a broad knowledge and skills base consistent with the systems and strengths perspectives. They are expected to practice using core social work values and to examine and resolve ethical dilemmas. Classroom and field experiences prepare students to be competent in the use of relevant new technologies and in culturally sensitive, generalist social work practice.

The MSW Program seeks to prepare social workers for advanced professional practice who are innovative leaders bringing superior management, interpersonal, technological, research, and communication skills to the human service delivery system. Through a concentration in either social change or clinical practice, graduates will be prepared to empower individuals, strengthen families and communities, stimulate positive change through advocacy and social and political action, and help meet local, national, and global challenges. The MSW Program builds upon a foundation of generalist social work knowledge and skills that integrates micro and macro theory and practice and emphasizes empowerment and systems transformation. This foundation equips students to enhance human well-being and to promote social and economic justice through ethical professional
practice with culturally diverse individuals, families, groups, organizations, and communities. Graduate MSW Social Work courses are restricted to students who have been admitted to the program and are not open to non-degree students.

Part-time students are encouraged to take at least 6 credits per semester to promote timely completion of the program.

Course Work

The Social Work Department offers course work designated SOCW in the Courses section of this catalog.

Graduate Certificate

Gerontology Graduate Certificate

Banner Code: HH-CERG-GERO

Unit: Social Work

The graduate certificate program in gerontology combines theoretical and applied course work in aging with the student’s graduate curriculum in any department. Because gerontology is by definition multidisciplinary, students are required to take course work outside their major field. The program is administered by CHHS and housed in the Department of Social Work.

Admission Requirements

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and must apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements please refer to the CHHS Admissions website.

The graduate certificate in gerontology may be pursued on a part-time or full-time basis.

Certificate Requirements

Candidates must earn 15 graduate credits with a minimum GPA of 3.00 in course work, and no more than 3 credits with a grade of C to earn the certificate. Detailed graduate certificates are listed in the AP.6 Graduate Policies section of the catalog.

Required Core Courses (12 credits)

- SOCW 689 - Clinical Practice with Older Adults Credits: 3
- PSYC 614 - The Psychology of Aging Credits: 3
- RHBS 761 - Aging and Health Behavior Credits: 3
- SOCW 655 - Aging Programs and Policies Credits: 3 or HAP 662 - Health Policy for Elders and People with Disabilities Credits: 3

Elective (3 credits)

Choose one of the following:

- HAP 650 - Senior Housing Management and Operations Credits: 3
The MSW Program opened its doors in fall 2002 and was fully accredited by the Council on Social Work Education in spring 2006. The MSW Program prepares students for advanced practice in social work. Following completion of a foundation year of study, students complete specialized concentrations in social change or clinical practice. All social work students are expected to abide by the Code of Ethics of the National Association of Social Workers. No academic credit toward field experience or course work is given based on previous work or life experience.

To accommodate students, MSW courses are offered during the day and evening hours. Field placements, however, generally require availability during regular daytime hours. Students are required to successfully complete 1,050 hours of supervised field practicum in agencies approved by the Department of Social Work: 450 hours during the foundation year and 600 hours during the concentration year. The MSW Program may be completed on a full- or part-time basis. All courses are sequenced and must be taken in the order designated. Full-time students will follow a two-year plan, and part-time students will follow a three-year or four-year plan. Students should meet with their academic advisor to ensure timely completion of all degree requirements.

**Admission Requirements**

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall semester only. In addition to holding an undergraduate degree from a regionally accredited college or university, applicants must have a minimum of 30 undergraduate credits in the liberal arts to include at least 3 credits in each of the following: English composition, history or government, social sciences, and statistics. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website.

**Transfer of Credits**

Students who began MSW programs at another CSWE-accredited MSW program may transfer a maximum of 29 graduate credits into the MSW in Social Work program, with the exception of SOCW 670, and for the concentration year courses: SOCW 630, 640, 645, 674, 684, 685, 687, 692, 693, 695, 695, or 697. Transfer credit is subject to university and college policies and must be approved by the program director and the dean.

**Non-Degree Restrictions**

The MSW program has a once-a-year, fall admissions cycle and each year receives many more applications than spaces available in the class. Graduate MSW Social Work courses are restricted to students who have been admitted to the program and are not open to non-degree students.
Program Requirements

Students must earn a grade of B- or above in each course and must achieve a GPA of 3.0 over all courses applied to the degree. A prerequisite must be satisfied with a B- or better before registering for the next course in a sequence. A course in which the student earns a C may be repeated once. No more than 8 total credits of C may be repeated overall.

Social Work faculty members evaluate each student’s performance periodically and may terminate the student from the program when, in their judgment, performance is not satisfactory. The decision is based on the quality of academic and field performance, as well as on personal fitness for the profession of social work. The student has the right to appeal.

Insurance Coverage

Students engaged in internships are covered for liability under the Commonwealth of Virginia’s Self-Insured Liability Insurance Plan and covered for medical malpractice under the Medical Malpractice Insurance Plan, as established by the Department of General Services, Division of Risk Management. Only practicum activities that have been determined by the field instructor to be part of the course are covered. Students are encouraged to obtain professional liability coverage through the National Association of Social Workers, although this additional coverage is optional.

Immunizations

All students who are enrolled in a course that requires a field placement (SOCW 672, 673, 692, 693, 694, 695) must have an annual tuberculosis screening (PPD). In addition, students must complete the entire Hepatitis B immunization series in accordance with current U.S. Public Health Service recommendations. Any cost related to these requirements is the responsibility of the student. Students can register for classes prior to the completion of the immunizations but documentation of completion must be submitted to the social work office no later than October 1 for fall entrance. Immunizations are program requirements and must be completed by the student even if they are not required by the agency. Documentation must be submitted to the MSW Program administrative assistant.

Degree Requirements

In order to graduate with the MSW degree, students must successfully complete the foundation courses and the courses for one concentration.

Foundation Courses (30 credits)

- SOCW 623 - Human Behavior and Social Systems I Credits: 3
- SOCW 624 - Human Behavior and Social Systems II Credits: 3
- SOCW 651 - Social Policies, Programs, and Services Credits: 3
- SOCW 652 - Influencing Social Policy Credits: 3
- SOCW 657 - Direct Social Work Practice I Credits: 3
- SOCW 658 - Direct Social Work Practice II Credits: 3
- SOCW 670 - Communication and Technology for Social Work Practice Credits: 3
- SOCW 671 - Research Methods for Social Workers Credits: 3
- SOCW 672 - Foundation Field Practicum and Seminar I Credits: 3
- SOCW 673 - Foundation Field Practicum and Seminar II Credits: 3

Concentration (30 credits)
Students must complete all Foundation Courses before beginning Concentration Courses.

▲ Clinical Practice Concentration (CLNP)

Core Courses (18 credits)

- SOCW 640 - Advanced Clinical Practice Credits: 3
- SOCW 645 - Community-Centered Clinical Practice Credits: 3
- SOCW 674 - Psychopathology Credits: 3
- SOCW 688 - Advanced Research in Social Work Credits: 3
- SOCW 692 - Clinical Practicum I Credits: 3
- SOCW 693 - Clinical Practicum II Credits: 3

Advanced Clinical Practice Courses (6 credits)

Choose two:

- SOCW 630 - Forensic Social Work Practice Credits: 3
- SOCW 677 - Family Therapy Credits: 3
- SOCW 678 - Trauma and Recovery Credits: 3
- SOCW 679 - Military Social Work Credits: 3
- SOCW 682 - Substance Abuse Interventions Credits: 3
- SOCW 689 - Clinical Practice with Older Adults Credits: 3

Advanced Policy Course (3 credits)

Choose one:

- SOCW 653 - Immigration Policy Credits: 3
- SOCW 654 - Social Policy for Children and Youth Credits: 3
- SOCW 655 - Aging Programs and Policies Credits: 3

Elective (3 credits)

Choose one:

- SOCW 675 - Selected Topics in Clinical Practice Credits: 3
- SOCW 676 - Selected Topics in Social Work and Social Change Credits: 3
- SOCW 684 - Social Work and the Law Credits: 3
- SOCW 685 - Organizational Leadership for Social Workers Credits: 3
- SOCW 687 - Empowering Communities for Change Credits: 3
- SOCW 697 - Thesis Project Seminar Credits: 3

Students may select an elective from the list of Advanced Clinical Practice Courses or Advanced Policy Courses

▲ Social Change Concentration (SOCC)

Core Courses (18 credits)
• SOCW 684 - Social Work and the Law Credits: 3
• SOCW 685 - Organizational Leadership for Social Workers Credits: 3
• SOCW 687 - Empowering Communities for Change Credits: 3
• SOCW 688 - Advanced Research in Social Work Credits: 3
• SOCW 694 - Social Change Practicum I Credits: 3
• SOCW 695 - Social Change Practicum II Credits: 3

Advanced Policy Courses (6 credits)

Choose two:

• SOCW 653 - Immigration Policy Credits: 3
• SOCW 654 - Social Policy for Children and Youth Credits: 3
• SOCW 655 - Aging Programs and Policies Credits: 3

Electives (6 credits)

Choose two:

• SOCW 630 - Forensic Social Work Practice Credits: 3
• SOCW 674 - Psychopathology Credits: 3
• SOCW 675 - Selected Topics in Clinical Practice Credits: 3
• SOCW 676 - Selected Topics in Social Work and Social Change Credits: 3
• SOCW 677 - Family Therapy Credits: 3
• SOCW 678 - Trauma and Recovery Credits: 3
• SOCW 679 - Military Social Work Credits: 3
• SOCW 682 - Substance Abuse Interventions Credits: 3
• SOCW 689 - Clinical Practice with Older Adults Credits: 3
• SOCW 697 - Thesis Project Seminar Credits: 3

Students may select an elective from the list of Advanced Policy Courses or Advanced Clinical Practice Courses.

Total: 60 credits

Advanced Standing

Students with a BSW degree who demonstrate superior academic achievement and excellence in social work practice will be considered for advanced standing. Advanced standing students begin the MSW Program in the summer and upon successfully completing SOCW 670, move directly into the concentration year. Advanced standing students must successfully complete 600 hours of supervised field practicum in agencies approved by the Department of Social Work.

All other academic policies for the advanced standing program are identical to those for the regular MSW Program.

Admission Requirements

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog, and apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall admissions cycle only, with advanced standing students beginning courses in the summer. In addition to
holding a BSW in Social Work earned within the past five years from a program accredited by the Council on Social Work Education, applicants must have a minimum of 30 undergraduate credits in the liberal arts to include at least 3 credits in each of the following: English composition, history or government, social sciences, and statistics. For application deadlines and detailed application requirements please refer to the CHSS Admissions website.

To graduate with the MSW degree, advanced standing students must successfully complete the foundation course in the summer prior to beginning the concentration year, and complete the courses for one concentration.

Foundation Course (3 credits)

- SOCW 670 - Communication and Technology for Social Work Practice Credits: 3

Concentration (30 credits)

Students must complete all Foundation Courses before beginning Concentration Courses.

▲ Clinical Practice Concentration (CLNP)

Core Courses (18 credits)

- SOCW 640 - Advanced Clinical Practice Credits: 3
- SOCW 645 - Community-Centered Clinical Practice Credits: 3
- SOCW 674 - Psychopathology Credits: 3
- SOCW 688 - Advanced Research in Social Work Credits: 3

Master of Social Work/Master of Science

George Mason University

2013-2014 Official University Catalog
Social Work, MSW and Conflict Analysis and Resolution, MS Dual Degree (CHHS)

Banner Codes: HH-MSW-SOCW and CA-MS-CONF

Unit: Social Work

The Department of Social Work is partnering with George Mason’s nationally recognized School for Conflict Analysis & Resolution (S-CAR) to offer a 3-year dual degree program. Students can earn both an MSW and an MS in Conflict Analysis & Resolution while taking advantage of the diversity of the Washington, DC metropolitan area and the University’s proximity to the nation’s capital. This is the only dual degree program of its kind.

MSW-MS Common Requirements

Admission Requirements

Applicants must meet the admission standards and application requirements specified in the Admissions section of the catalog and apply using the online Application for Graduate Admission. The application process is competitive, and applications are considered for the fall semester only.

Students interested in the 3-year dual degree program submit one online Application for Graduate Admission, select the MSW in Social Work as a primary program, and submit all application support materials, including the MSW Application Materials to the Office of Graduate Admission in the College of Health and Human Services. Applicants should communicate their interest in completing the dual degree program in their essays, and recommendations should address the dual program interest. Students must be admitted to both programs in the same semester (fall only) to be admitted to the dual degree program.

For application deadlines and detailed application requirements please refer to the CHHS Admissions website. Interested students should consult the MSW program website and the MSW program director for additional information prior to applying.

Transfer of Credit

Transfer credit is governed by university transfer of graduate credit policy and the university requirements for master’s degrees, and transfer credits must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department prior to taking a course and plan to submit their application to the dual degree program as soon as possible.

Please refer to the Transfer of Credit policy for the MSW in Social Work or departmental transfer policy for graduate Social Work courses taken at another institution and for the maximum number of credits allowed to be transferred from Nondegree Studies.

MSW-MS Degree Requirements

To graduate with the dual degree, students must successfully complete the following:

Social Work Courses (51 credits)

- SOCW 623 - Human Behavior and Social Systems I Credits: 3
- SOCW 624 - Human Behavior and Social Systems II Credits: 3
- SOCW 651 - Social Policies, Programs, and Services Credits: 3
Choose two from the following courses (6 credits)

At least one of the two courses must be an Advanced Policy course.

**Advanced Policy (at least 3 credits)**
- SOCW 653 - Immigration Policy Credits: 3
- SOCW 654 - Social Policy for Children and Youth Credits: 3
- SOCW 655 - Aging Programs and Policies Credits: 3

**Additional Course Options**
- SOCW 630 - Forensic Social Work Practice Credits: 3
- SOCW 674 - Psychopathology Credits: 3
- SOCW 675 - Selected Topics in Clinical Practice Credits: 3
- SOCW 676 - Selected Topics in Social Work and Social Change Credits: 3
- SOCW 677 - Family Therapy Credits: 3
- SOCW 678 - Trauma and Recovery Credits: 3
- SOCW 679 - Military Social Work Credits: 3
- SOCW 682 - Substance Abuse Interventions Credits: 3
- SOCW 689 - Clinical Practice with Older Adults Credits: 3
- SOCW 697 - Thesis Project Seminar Credits: 3

**Conflict Analysis and Resolution Courses (35 credits)**

- CONF 501 - Introduction to Conflict Analysis and Resolution Credits: 3
- CONF 601 - Theories of Conflict and Conflict Resolution Credits: 3
- CONF 610 - Philosophy and Methods of Conflict Research Credits: 3
- CONF 620 - Reflective Practice in Interpersonal-Multiparty Conflicts Credits: 3
- CONF 642 - Integration of Theory and Practice Credits: 3
- CONF 694 - Internship Credits: 1-6

**Professional Development Seminars (5 credits)**

- CONF 795 - Professional Development Seminars Credits: 1-2

**Electives (12 credits)**
• 12 credits of CONF Electives, selected with approval from S-CAR

Total: 86 credits

Non-Degree

Aging Studies Minor

Banner code: AGES

Unit: Social Work

The minor in aging studies combines theoretical and applied course work in aging with the student’s undergraduate curriculum in any department of the university. Because aging studies is by definition multidisciplinary, students are required to take course work outside their major field. The undergraduate minor is administered by CHHS and housed in the Department of Social Work.

Course Work

Students should be familiar with university-wide requirements for minors described in the Undergraduate Policies section of Academic Policies.

Required Core Courses (12 credits)

• SOCW 435 - Introduction to Gerontology Credits: 3
• HHS 432 - Healthy Aging Credits: 3
• PSYC 415 - Psychological Factors in Aging Credits: 3
• HHS 480 - Research Internship in Health and Human Services Credits: 3

Elective (3 credits)

Choose one of the following:

• GCH 480 - Health Maintenance and Health Aspects of Aging Credits: 3
• PSYC 418 - Death, Dying, and Grieving Credits: 3
• Aging-related course as approved by the program coordinator

Total: 15 credits

Social Work Minor

Banner Code: SOCW

Unit: Social Work

Course Work
Minor courses must be completed with a minimum GPA of 2.00.

Students should be familiar with university-wide requirements for minors described in the Undergraduate Policies section of Academic Policies.

Required Courses (9 credits)

- SOCW 200 - Introduction to Social Work Credits: 3

One Course in Policy (3 credits)

- SOCW 351 - Social Policy and Social Justice Credits: 3
- SOCW 370 - Social Policy Analysis and Advocacy Credits: 3

One Course in Human Behavior (3 credits)

- SOCW 323 - Human Behavior and the Life Course Credits: 3
- SOCW 340 - Human Behavior within Macro Systems Credits: 3

Electives (9 credits)

Social work electives (9 credits) may include the Human Behavior course (SOCW 323 or SOCW 340) and the Policy course (SOCW 351 or SOCW 370) not taken to fulfill required courses.

- SOCW 400 - Legal and Ethical Issues in Human Services Credits: 3
- SOCW 410 - Alcohol and Substance Abuse: Policies and Programs Credits: 3
- SOCW 415 - Child and Family Welfare Credits: 3
- SOCW 435 - Introduction to Gerontology Credits: 3
- SOCW 445 - Social Determinants of Health Credits: 3
- SOCW 475 - Selected Topics in Social Work Policy Credits: 3
- SOCW 483 - Selected Approaches to Social Work Intervention Credits: 3

Note:

SOCW 301, 357, 358, 362, 417, 452, 453, 454, and 456 are not open to minors. See an advisor in the social work program for more information.

Total: 18 credits

Bachelor of Social Work

Social Work, BSW

Banner Code: HH-BSW-SOCW

Unit: Social Work
The undergraduate social work program prepares students for beginning generalist professional practice in social work at the baccalaureate level and has been granted full accreditation by the Council on Social Work Education. All students are expected to abide by the Code of Ethics of the National Association of Social Workers.

No academic credit toward field experience or course work is given based on previous work or life experience. Since the social work program does not offer all of the required courses during the evening hours, students should meet with their academic advisor to develop a plan to complete course work for the degree.

Admission Requirements

To be admitted to the social work program, a student must have 1) completed at least 45 credits with a GPA of 2.50; 2) completed or be registered in BIOL 103, ENGH 101, SOCI 101, PSYC 100, and GOVT 103 or GOVT 132; 3) earned at least a C in SOCW 200, SOCW 301, a human behavior course (SOCW 323 or SOCW 340), a policy course (SOCW 351 or SOCW 370), and SOCW 357; 4) satisfactorily completed at least 60 hours in one semester in a service learning agency in conjunction with SOCW 301; and 5) submitted an application for the social work major to the director of social work admissions. Students should file this application during the junior year. The student’s application for admission to the social work major is reviewed for action by social work faculty members. A personal interview may be required.

There is no admission to the social work program in the summer. Students who have not met all criteria for admission to the major (including completion of service learning requirements) will not be considered for admission until the next academic year.

Program Requirements

To earn a bachelor's degree in social work, students must earn a grade of C or above in all Social Work classes applied to the major and must achieve a GPA of 2.5 overall. Class attendance is required in all Social Work courses. Before beginning SOCW 452 - Senior Seminar I and SOCW 453 - Senior Practicum I, students must successfully complete all required 200- and 300-level courses with a grade of C or above.

The Social Work faculty evaluates student performance periodically and may require students to withdraw from the program when, in their judgment, performance is not satisfactory. The decision is based on the quality of academic and field performance, as well as on personal fitness for the profession of social work. Students have the right to appeal.

Immunization and Fees

All students who are enrolled in a course that requires a field placement (SOCW 301, SOCW 453, and SOCW 456) must have an annual tuberculosis screening (PPD). In addition, students must complete the entire hepatitis B immunization series in accordance with current U.S. Public Health Service recommendations. The cost of immunizations is the responsibility of the student. The majority of agencies used for field placements require fingerprinting, a criminal background check (may be more extensive than the university requirement), and a child protective services check. Any cost related to these requirements is the responsibility of the student.

Writing Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in the 300 level or above. Students majoring in social work fulfill this requirement by successfully completing SOCW 471.

Degree Requirements

Students must fulfill all requirements for the bachelor's degree including university general education requirements.
General Education and Required Courses (49–51 credits)

Composition:

- ENGH 101 - Composition Credits: 3
- ENGH 302 - Advanced Composition Credits: 3

Oral Communication:

- An approved University General Education Oral Communication course.

Quantitative Reasoning:

- An approved University General Education Quantitative Reasoning course.

Information Technology:

- An approved University General Education Information Technology course.

Literature:

- An approved University General Education Literature course.

Arts:

- An approved University General Education Arts course.

Natural Science:

- BIOL 103 - Introductory Biology I Credits: 4
- One 3 or 4 credit approved University General Education Natural Science course.

Western Civilization:

Choose one of the following:

- HIST 100 - History of Western Civilization Credits: 3
- HIST 125 - Introduction to World History Credits: 3

Global Understanding:

- An approved University General Education Global Understanding course.

Government:
Choose one of the following:

- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 132 - Introduction to International Politics Credits: 3

Psychology:

- PSYC 100 - Basic Concepts in Psychology Credits: 3

Sociology:

- SOCI 101 - Introductory Sociology Credits: 3

Statistics:

Choose one of the following:

- SOCI 313 - Statistics for the Behavioral Sciences Credits: 4
- PSYC 300 - Statistics in Psychology Credits: 4
- STAT 250 - Introductory Statistics I Credits: 3

Philosophy or Religion:

- PHIL or RELI course: Credits: 3

Social Work Major (44 credits)

- SOCW 200 - Introduction to Social Work Credits: 3
- SOCW 301 - Laboratory in Interpersonal Communication Credits: 4
- SOCW 323 - Human Behavior and the Life Course Credits: 3
- SOCW 340 - Human Behavior within Macro Systems Credits: 3
- SOCW 351 - Social Policy and Social Justice Credits: 3
- SOCW 357 - Methods of Social Work Intervention I Credits: 3
- SOCW 358 - Methods of Social Work Intervention II Credits: 3
- SOCW 362 - Group and Family Interventions Credits: 3
- SOCW 370 - Social Policy Analysis and Advocacy Credits: 3
- SOCW 417 - Integrative Methods in Social Action and Social Change Credits: 3
- SOCW 452 - Senior Seminar I Credits: 2
- SOCW 453 - Senior Practicum I Credits: 3
- SOCW 454 - Senior Seminar II Credits: 2
- SOCW 456 - Senior Practicum II Credits: 3
- SOCW 471 - Research in Social Work Credits: 3

Electives (25-27 credits)

- Six credits must be in social work at the 400- or 500-level, not including courses listed above; SOCW 499 may be used to satisfy an additional 1 to 3 credits toward general electives.
Total: 120 credits

Notes:

SOCW 110 - Global Perspectives on Human Rights is open to all students, but it does not count toward social work degree requirements.

SOCW 323 - Human Behavior and the Life Course fulfills the general education requirement in synthesis and is open to all majors.

SOCW 301 and SOCW 357 (only offered in the fall semester) are prerequisites to SOCW 358 and SOCW 362 (only offered in the spring semester). SOCW 323, SOCW 340, SOCW 351, and SOCW 370 are offered in both the fall and spring semesters. Graduation may be delayed if courses are not taken in proper sequence.

Selected Social Work electives are offered each semester on a rotating basis.
Kinesiology Special Requirements

Return to: Health, Fitness, and Recreation Resources, BS

Fees and Expenses

Fees and expenses specific to students enrolled in the KNES concentration are as follows: laboratory supplies and equipment, clinical supplies, and internship attire. Students enrolled in KINE 350, KINE 370, KINE 400, KINE 410 will be assessed a $25.00 laboratory fee for each course during the semester in which they are enrolled. Payment is to be rendered at the first meeting of each course. Checks are to be made payable to George Mason University.

Technical Standards

The Kinesiology concentration is academically rigorous with a significant experiential learning component, which places specific demands and requirements on its students. After admission into the KNES concentration, students must submit a technical standards certification statement indicating that they have read, understand, and can meet the technical standards for KNES students, either with or without accommodation. These standards outline the essential functional tasks that students must be able to perform to enroll in and complete the concentration. Students requiring special accommodations are encouraged to contact the Office of Disability Services.

Health Examinations and Certifications

KNES students are required to obtain a health examination and immunizations before beginning the internship phase of the concentration. Evidence of completion of the three hepatitis B immunizations and proof of tuberculosis screening in accordance with current U.S. Public Health Service recommendations must be provided. Costs associated with said screenings are to be assumed by the KNES student. Those who choose not to complete hepatitis B immunizations will be required to sign a declination waiver. All students must have Emergency Cardiac Care (CPR, AED) and First Aid certifications before entering their first internship experience and must maintain these certifications through the remainder of the KNES concentration.

Background Check

Students may be required to undergo a criminal background check prior to the first internship experience. If a criminal background check fails to meet the requirements of a student’s assigned internship site, the student will be withdrawn from the internship site and may be prohibited from completion of the KNES curriculum. Students are encouraged to disclose any criminal background incidences to the KNES Program Director prior to internship placement.

Administration
About the College

The College of Humanities and Social Sciences (CHSS) is composed of 11 departments and 10 major interdisciplinary programs. The college is also home to New Century College, which offers an innovative interdisciplinary major as well as Mason Cornerstones, a first-year program for students in all majors. Together with the College of Science, the college administers the university-wide Honors Program in General Education, the academic program of the Honors College. This is open to qualified students from all majors in the university. The college has a distinguished faculty of more than 400, including recipients of the Pulitzer Prize and Guggenheim Fellowship.

At the undergraduate level, all programs emphasize challenge, opportunity, and success. They challenge students to think critically and creatively and to go beyond what is required by pursuing research experiences, minors, double majors, honors in the major, and accelerated master’s degree programs, which enable them to earn both an undergraduate and a graduate degree, often within five years. They provide many opportunities beyond the classroom including study abroad programs, service learning, internships, and career-enhancing courses and minors, all of which will help prepare them for success beyond college.

At the graduate level, programs of study provide opportunities for career development and advancement, professional education, participation in research, and personal fulfillment.

All programs encourage the exploration of contemporary issues through a dynamic curriculum that fosters an informed understanding of real world problems. The college provides students with an education that enables them to think critically, adapt to the changing conditions of society, and provide informed leadership to future generations.

Policies for All Students

The requirements for each academic program offered by the college are described in the sections for the sponsoring departments and programs. All students are subject to the policies stated in the Academic Policies section of this catalog. Additional policies and procedures for students in the college are presented in this section.

Mason uses only Mason e-mail accounts to communicate with enrolled students. Students should activate their Mason e-mail account, use it to communicate with their department and other administrative units, and check it regularly for important information.

Registration and Degree Audit

Students are responsible for correctly registering for courses and paying all tuition and fees by the official university registration and payment deadlines. Instructors do not have the authority to add students to courses, and students may not sit in on classes for which they are not registered. All students should verify the accuracy of their enrollment before the end of the add period and should check Patriot Web to verify that they are registered for the classes that they think they are.

All students are responsible for reviewing their own transcripts and degree audits regularly to ensure that they are correct and that they are on track to meet all their requirements.
Withdrawal

Students are responsible for all courses in which they remain officially enrolled once the drop period has ended. Instructors do not have the authority to withdraw students from classes. Withdrawals after the published deadlines require the approval of the relevant dean (undergraduate academic affairs or graduate academic affairs) and are allowed only for full semesters at a time (a withdrawal from all enrolled courses). Withdrawals are only permitted for non-academic reasons; no withdrawals can be approved for academic reasons. When submitting a withdrawal request, students must provide verifiable, third-party documentation for the reason for the withdrawal. Requests for withdrawals should be submitted as early in the semester as possible; withdrawal requests submitted after the last day of classes are rarely approved.

Grade Appeals

Grade appeals should be made to the department or program following the process specified in the Academic Policies section of this catalog. If they are resolved within the department or program, that unit is the final level of appeal. The departmental decision may be appealed to the dean only on the basis of procedural irregularity. Undergraduate students should address such appeals through the Office of Undergraduate Academic Affairs and graduate students through the Office of Graduate Academic Affairs. If the grade appeal is not resolved within the department or program, the chair makes a recommendation to the dean, who makes the final determination. The decision of the dean is not subject to review or further appeal.

Formal Complaints

Formal complaints should be made in writing to the associate dean.

Accommodations for Students with Disabilities

Students with documented disabilities should contact the Office of Disability Services to open a file and learn more about accommodations that may be available to them.

Policies for Undergraduate Students

The college offers 17 bachelor of arts (BA) degrees, 6 bachelor of science (BS) degrees, a bachelor of fine arts in creative writing (BFA), and a bachelor of individualized study (BIS) degree. The undergraduate degree consists of course work in four areas: university-wide general education requirements, college requirements for the bachelor's degree, requirements specified for the chosen major, and electives. All students must complete 120 credits, of which at least 45 must be in upper-level courses (numbered 300 and above). At least one course at the 300 or 400 level must be designated “writing intensive.”

Students should consult the General Education and College Requirements for information concerning the ways they can fulfill university-wide general education requirements and college requirements for undergraduate degrees. Transfer students are encouraged to meet with their academic advisor prior to registering for classes to review their transcripts and course equivalencies. In some cases, students may need to earn more than 120 credits to complete all of their requirements.

The college cooperates with the School for Conflict Analysis and Resolution (SCAR) to provide courses from various disciplines in the college toward a BA, BS, and minor in conflict analysis and resolution (CAR). More information about CAR undergraduate degree programs can be found in the School for Conflict Analysis and Resolution section of this catalog.

Questions about Academic Policies for Undergraduates

Students with questions about exceptions to academic policies and about college requirements should contact the Office of Undergraduate Academic Affairs (Robinson Hall, Room A255; 703-993-8725; chssdean@gmu.edu).
Additional policy information and forms are available online from the Office of Undergraduate Academic Affairs.

**Academic Load**

Students should review university policies regarding academic load in the Academic Policies section of this catalog.

In order to be considered for an overload, students must fulfill all of the following criteria:

- Be in good academic standing
- Have completed the prior semester with a GPA of 2.33 or higher
- Have a cumulative GPA of 2.33 or higher
- Have demonstrated in prior semesters at Mason the ability to handle an increased and demanding course load while maintaining high performance
- Have no remaining incompletes (INs) from a previous semester

Freshmen and transfer students in their first semesters are not given permission for overloads as they have yet to establish an academic record at George Mason University.

If approved for an overload, the student is responsible for adding the additional class(es) and paying for the related tuition by the official university deadlines.

**Excluded Courses and Credits**

Physical Education (PHED) and Parks, Recreation, and Leisure Studies (PRLS) activity courses cannot be used for credit for a degree in the College of Humanities and Social Sciences.

Only MLSC courses at the 400-level can be used for credit for a degree in the College; credit for other MLSC courses may not be used toward a CHSS degree.

Qualifying CLEP credits may apply to a degree in the College of Humanities and Social Science if those credits were awarded and reported prior to matriculation at Mason. After matriculation, students are limited to taking and applying credits for the CLEP exam in "Information Systems & Computer Applications". Students with a qualifying score on this exam will be awarded credit for IT 103T. Students receiving credit for IT 103T must still meet the university Information Technology ethics requirement (see University General Education section of the catalog). Credit for other CLEP exams awarded after matriculation may not be applied to a degree in the College of Humanities and Social Sciences.

**University Consortium**

Students should review university policies regarding the University Consortium under Special Registration Procedures in the Academic Policies section of this catalog. Students who have attempted or failed a course at Mason are not permitted to take the equivalent course through the consortium under any circumstances. All consortium registration requests must be submitted to the dean's office at least 3 weeks prior to the first day of classes for the relevant semester at Mason.

**Permission to Study at Another Regionally Accredited U.S. Institution**

Once enrolled in degree status at Mason, students with fewer than 60 hours of transfer coursework (not including registration through the Consortium of Universities of the Washington Metropolitan Area or coursework completed through the Center for Global Education) may take up to 8 hours of coursework in CHSS disciplines at another institution. Students with 60 or more hours of transfer coursework are not permitted to take additional coursework in CHSS disciplines at another institution. A student may seek permission for additional hours beyond these limits for summer registration if his/her permanent residence is more than 50 miles from the George Mason University Fairfax campus. See the university Permission to Study Elsewhere policy for additional information.
Study Abroad

In order to be considered for study through the Center for Global Education, students must plan well in advance and receive prior, written permission from the dean. Students must also meet all of the following criteria:

- Meet all eligibility requirements for their program as specified by the Center for Global Education including course prerequisites and minimum GPA
- Have completed the immediately preceding semester at Mason with a minimum GPA of 2.00
- Have completed the necessary forms and have obtained all required signatures and course equivalencies

Students in danger of probation, suspension, or dismissal should plan very carefully before requesting to study abroad. Students who are not in good academic standing will not be permitted to study abroad.

Withdrawals

Students should review the Withdrawal section in the Academic Policies section of this catalog. Courses for which a withdrawal is approved receive a grade of "W".

Students should be aware of the potential consequences of withdrawing on their academic standing. Though credits graded "W" do not affect a student's GPA, they do count towards the total attempted hours. The total attempted hours and cumulative GPA together determine a student’s academic standing. These are explained in the Academic Standing section of Academic Policies.

Academic Clemency

Students should review the university policies regarding academic clemency in the Academic Standing section of Academic Policies.

To be considered for clemency, students must meet all of the following criteria:

- Be absent from George Mason for a minimum of three consecutive calendar years
- Provide a detailed explanation for why they were unsuccessful in those courses and how they have made changes to ensure their academic progress upon their return
- Submit their request within 12 months of the first day of the re-enrollment term
- Complete at least 6 credits during their first 12 months back at George Mason
- Earn a minimum GPA of 2.50 each semester back prior to making the clemency request with no individual grade below 2.00

If the last three minimum academic requirements are not met, clemency will not be allowed under any circumstances.

Appeals Process

Students may appeal departmental decisions concerning academic actions to the Office of Undergraduate Academic Affairs. They may appeal decisions of the Office of Undergraduate Academic Affairs to the Dean’s Council, a committee composed of college deans and faculty members. Students may appeal decisions of the Dean’s Council to the Student Policies and Appeals Committee, a standing committee elected by the college faculty. These levels of appeal are subject to the limits below concerning the final level of appeal for each type of academic action. Students who feel that the college appeal process was conducted unfairly may appeal to the Provost’s Office as specified in the Academic Policies section of this catalog.

The grade appeal process is discussed above.

Departments set the requirements for the majors and minors that they administer. Substitutions and waivers of these requirements require the approval of the Office of Undergraduate Academic Affairs. When a department denies a substitution or waiver of a
requirement, the denial may be appealed to the Office of Undergraduate Academic Affairs on the basis of procedural irregularity only. That office is the final level of appeal.

The Dean’s Council is the final level of appeal for course overloads, consortium registration, study elsewhere, and withdrawals after the drop deadline within the semester. Appeals of these decisions may be made to the Student Policies and Appeals Committee on the basis of procedural irregularity only, and the committee is the final level of appeal on procedural grounds.

Student Policies and Appeals Committee is the final level of appeal for college-level requirements, retroactive actions (adds, withdrawals, and graduation), and return from suspension and dismissal. This committee is the final level of approval.

There is no waiver or appeal of satisfactory performance standards (minimum grades or grade point average (GPA)) that have been set by the department or program faculty for the courses in their major or minor.

Students should file all appeals in a timely manner, usually within the semester in which the original decision is rendered, but no later than the final day of classes of the following semester.

Teacher Licensure

Students who plan to seek teacher licensure and become K–12 teachers should consult the College of Education and Human Development section of this catalog and attend an information session early in their undergraduate career. For more information, call 703-993-2892, e-mail gseadmit@gmu.edu, or see the College of Education and Human Development web page.

Second Bachelor's Degree

Students should review the university policies regarding second bachelor’s degrees in the Undergraduate Admissions Policies and in Academic Policies/Requirements for Undergraduate Programs sections of the catalog. Students pursuing a second bachelor’s degree concurrently with their first bachelor’s degree at Mason must meet all the college-level requirements if they differ from the requirements in the college of their first major. Students pursuing a second bachelor’s degree in the college after already having received one or more bachelor’s degrees are considered to have met all of Mason’s university general education requirements. Students pursuing a bachelor of science degree do not have additional college-level requirements. Students pursuing a bachelor of arts degree in the college must complete these additional college-level requirements: one additional 3-credits course each in philosophy or religious studies, in social and behavioral science, and in non-western culture (for a total of 9 credits). They must also demonstrate proficiency in a foreign language through the intermediate level. For more information about college-level requirements see General Education and College Requirements.

Minors

Students may elect to take a minor in addition to their major field of study. For policies governing all minors, see the Academic Policies section of this catalog. Students interested in earning a minor should complete the appropriate section of the Change/Declaration of Academic Program form and submit it to the Office of the University Registrar. See All about Minors for more information.

College-Level Requirements for Undergraduate Students

Bachelor of Arts

The BA degree provides students with a breadth of knowledge as well as the necessary skills to make in-depth study of a major truly meaningful. In addition to the university-wide general education program, students pursuing a BA degree must complete the course work below. Except where expressly prohibited, a course used to fulfill a college-level requirement may also be used simultaneously to satisfy other requirements (university-wide general education requirements or requirements for the major).
• Philosophy or religious studies: 3 credits fulfilled by any course in philosophy or religious studies (PHIL, RELI) except for PHIL 323, 324, 427, 428.

• Social and behavioral science: 3 credits in addition to the university-wide requirement in social and behavioral science for a total of 6 credits. The two courses used to fulfill the combined college and university requirements must be from different disciplines in the social and behavioral sciences. This requirement may be fulfilled by completing any course in ANTH, CRIM, ECON, GOVT, HIST (except 100 or 125), LING, PSYC, or SOCI and these courses in GGS: 101, 103, 110, 301, 303, 304, 305, 306, 315, 316, 320, 325, 330, 357, 380.

• Natural science: 1 credit in addition to the university-wide requirement for a total of 8 credits. This requirement must be fulfilled by completing two of any approved natural science courses that include a laboratory experience. This requirement may not be fulfilled by BIOL 124 or 125.

• Foreign language: intermediate-level proficiency in one foreign language. This requirement may be fulfilled by completing a course in a foreign language numbered 202, 209, or 210 (or higher level courses taught in the language) or achieving a satisfactory score on an approved proficiency test. Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at the Office of Undergraduate Academic Affairs.

• Non-Western culture: 3 credits of an approved course in the study of a non-Western culture in addition to the course used to fulfill the university-wide general education requirement in global understanding. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (university-wide general education requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs.

Requirements for each major are listed in the departmental sections that follow.

Bachelor of Science

The BS degree provides students with a more intensive approach to the core technical questions of their majors. This curriculum has a reduced number of courses in humanities and social sciences in comparison with the BA degree to allow students to achieve greater depth in their majors. Students in Humanities and Social Sciences pursuing a BS must complete the university-wide general education program plus 1 additional credit of natural science (for a total of 8 credits), which must be fulfilled by an approved two-semester laboratory science sequence in a single science. This may not be fulfilled by BIOL 124 and 125.

Requirements for each major are listed in the departmental sections that follow.

Transfer Students

Admitted and enrolled transfer students who have completed an AA, AS, or AA&S degree from the Virginia Community College System (VCCS) and have been offered admission to Mason by the Office of Admissions may be eligible for a waiver of all George Mason University’s lower level general education requirements in accordance with the Guaranteed Admission Agreement. Students eligible for this waiver are still required by the university to complete English 302 and a synthesis course. Transfer students who have been offered admission under the terms of the Guaranteed Admission Agreement and are pursuing a degree in this college are considered to have met all college requirements except for proficiency in a foreign language (required of BA students).

Policies for Graduate Students

The college offers 16 master’s degrees plus a master of arts in interdisciplinary studies (MAIS), master of public administration (MPA) and a master of fine arts in creative writing (MFA), and 11 doctoral degrees.

Graduate Admission
Admission decisions are made by the faculty committee of the respective graduate program. Denial of admission is not subject to appeal. Applicants denied admission to a program are not permitted to enroll in courses in that program.

If an applicant is offered graduate admission, the college reserves the right to withdraw that offer of admission if:

- During his or her academic studies, the admitted applicant has a significant drop in academic performance or fails to graduate with a degree prior to the first day of classes for the term admitted.
- There has been a misrepresentation in the application process.
- Prior to the first day of classes for the term admitted, the college learns that the admitted applicant has engaged in behavior that indicates a serious lack of judgment or integrity, irrespective of the outcome of any disciplinary process related to such behavior.
- For students admitted to an accelerated master's program, the student does not maintain satisfactory progress in his or her undergraduate program, does not receive a minimum grade of 3.00 in the graduate classes taken as an undergraduate, or otherwise does not meet the conditions specified on the application and admission letter.

The university further reserves the right to require the applicant to provide additional information (and/or authorization for the release of information) about any such matter.

**Provisional Admission**

Students provisionally admitted to their graduate degree program are not eligible to enroll in consortium course work or study at another institution until the conditions of the provisional contract have been met. Provisionally admitted students are also not eligible to participate in any study abroad programs until the conditions of the provisional contract have been met. Transfer of credit requests for course work taken in non-degree status at Mason or from another institution prior to admission will not be considered until the provisional contract has been fulfilled.

**Academic Load**

Graduate students can enroll in up to 12 credits of course work each semester. Non-degree students can enroll in up to 10 credits of course work each semester.

**Non-degree Enrollment**

Applicants who have been denied admission to a graduate certificate, master’s or doctoral program are not permitted to take graduate courses in that discipline as a non-degree student.

Graduate non-degree students may enroll in 500-, 600-, and 700-level courses. In exceptional cases graduate non-degree students in the College of Humanities and Social Sciences may request to enroll in an 800-level course if they have an appropriate academic or professional background and have the written permission of the course instructor, director of the graduate program offering the course, and the graduate dean.

**University Consortium**

Students should review university policies regarding the University Consortium under Special Registration Procedures in the Academic Policies section of this catalog.

Eligible students may enroll in courses at any of the institutions in the Consortium of Universities in the Washington Metropolitan area. Students are limited to one consortium course per semester, with a career maximum of 6 credits. To register for a consortium course, students must have an overall GPA of at least 3.00 and be in good academic standing. Students with grades of IN on their record or who earned grades of C or F in the most recent semester are not eligible to register for a consortium course. Students who have received a grade less than 3.00 in a consortium course are not permitted to enroll in additional consortium courses. Newly admitted graduate students are not permitted to enroll in consortium courses during their
first semester of graduate study. Students who wish to enroll in consortium courses during their second semester of study must wait until the grades for the previous semester have been posted.

**Transfer of Credit**

To be eligible for transfer, credits must have been earned at an accredited graduate degree-granting institution (and applicable to a graduate degree at that institution) or at Mason while in non-degree status. Courses accepted for transfer credit must have been completed within six years of the admission term and with a minimum grade of 3.00. Courses with grades of P or S are not accepted for transfer unless the official transcript indicates that the grade is equivalent to a 3.00 (B) or better. Some programs have more stringent standards on transfer of credit; students should contact their graduate program for specific information.

**Credit from Other Institutions**

Students must obtain all approvals, including course equivalencies, prior to enrolling in any course work at another institution. All appropriate paperwork must be submitted to the Office of the University Registrar by the last day to add during the academic term the course meets. Students enrolling in courses at other institutions with different drop/add timetables must still abide by Mason’s drop/add deadlines in terms of acquiring necessary approvals.

**Dissertation Committee**

The college follows university policies regarding dissertation committees. See Dissertation Committee in the Requirements for Doctoral Degrees section of the Academic Policies section of this catalog.

**Dissertation (999) Registration**

Doctoral students must be advanced to candidacy before they may enroll in 999. Students must register for 999 before the add deadline published in the Academic Calendar by the Office of the University Registrar. Once doctoral students begin registering for 999, they must enroll in at least 3 credits of 999 each semester (excluding summers) until they have completed the total number of dissertation credits required on their individual program of study. Once enrolled in 999, all doctoral students must maintain continuous enrollment in 999 until they deposit their approved dissertation in the University Library. If they have completed the number of dissertation credits required on their program of study, they may maintain continuous enrollment by registering for only 1 credit of 999. See Dissertation Registration in the Requirements for Doctoral Degrees section of the Academic Policies section of this catalog.

**Time Limit for Doctoral Students**

Total time to degree will not exceed eleven (11) calendar years from the time of first enrollment as a doctoral degree-seeking student in a program of the college. Doctoral students are expected to advance to candidacy in no more than six years and to complete all other degree requirements for graduation in no more than five years from the time of advancement to candidacy.

Students who will not meet published time limits because of circumstances beyond their control may petition for an extension. Extensions to the time limit for advancement to candidacy may be granted for a maximum period of one calendar year. The one-year extension granted to advance to candidacy will run concurrently with the five years provided to complete the dissertation so that the total time limit to degree will not exceed eleven (11) years even for those students granted a time extension for advancement to candidacy.

Students who are given permission to re-enroll following an absence from Mason may not count the time limits as beginning on the date of re-enrollment. Failure to meet the time limits or to secure approval of an extension request may result in termination from the program. International students attending in F-1 or J-1 status have more restrictive limits. Such students should contact the Office of International Programs and Services for further information.
Requests for extension of time limits must be submitted to the graduate dean in writing. They should explain the extenuating circumstances that prevented a timely completion of the degree and a timeline for completing the work within the limits of the extension. The request should include a letter from the student's graduate program director indicating program support for the extension and confirmation that the work can be completed within the limits of the extension.

**Graduate Appeals of Dismissal or Termination**

All graduate students should be familiar with the university policies on dismissal and termination as stated in Graduate Academic Standing section of the Academic Policies section of this catalog. Students who meet the criteria for dismissal or termination may submit a written appeal to the Office of Graduate Academic Affairs. Appeals should include all relevant information on the basis for appeal, as well as any appropriate documentation. Appeals of termination and dismissal are reviewed at the beginning of each semester by a faculty committee. The ruling of that committee represents the final decision of the college.

**Accelerated Master’s Degree Programs**

Many graduate programs in the College of Humanities and Social Sciences offer highly-qualified undergraduates the opportunity to apply to accelerated master’s degree programs. Students accepted into an accelerated master’s degree program obtain both a bachelor’s and a master’s degree after satisfactory completion of 144 - 150 credits (number of required credits depends on the degree program).

Students admitted to an accelerated master’s degree program may use up to six graduate credits (courses at the 500 or 600 level) in partial fulfillment of requirements for the undergraduate degree. Upon completion and conferral of the undergraduate degree with satisfactory performance in graduate courses (minimum grade of 3.00 in each), students are given advanced standing in their master’s program.

Undergraduates may take a maximum of six additional graduate credits while undergraduates and mark them for reserve graduate credit. These credits are not used to fulfill undergraduate degree requirements but can be applied to the master’s degree. See the section on Graduate Course Enrollment by Undergraduates in Academic Policies. Courses taken for reserve graduate credit must be approved in advance by the Office of Undergraduate Academic Affairs and the appropriate paperwork filed with the Office of the University Registrar.

Students must fulfill all other master’s degree requirements. For more information see Accelerated Master's Degree Programs.

The college offers accelerated master’s degrees in these disciplines:

- Anthropology
- Economics
- English with a concentration in linguistics
- Global Affairs
- History
- Interdisciplinary Studies with a concentration in energy and sustainability
- Interdisciplinary Studies with a concentration in folklore studies
- Interdisciplinary Studies with a concentration in religion, culture, and values
- Interdisciplinary Studies with a concentration in women and gender studies
- Middle East and Islamic Studies
- Philosophy
- Political Science
- Psychology with a concentration in cognitive and behavioral neuroscience
- Public Administration
- Sociology
**Bachelor/Accelerated Master's**

**BA (selected)/Middle East and Islamic Studies, Accelerated MA**

Web: islamicscstudiescenter.gmu.edu

Highly qualified undergraduates in pursuing a BA in select majors (listed below) may apply to the accelerated master’s degree in Middle East and Islamic studies. If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in Middle East and Islamic studies after satisfactory completion of 144 credits, sometimes within five years.

This program of study is offered by the Ali Vural Ak Center for Global Islamic Studies.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the accelerated MA in Middle East and Islamic studies, see Application Requirements and Deadlines on the departmental web site.

**Degree Requirements**

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

**Recommended Courses:**

Students pursuing this accelerated master's degree can select from five of the core courses offered as part of the MA in Middle East and Islamic Studies: MEIS 500;HIST 535; GOVT 731 (when content focus is the Middle East), GOVT 733; or RELI 644.

**Selected Majors:**

Government and international politics, global affairs, history, religious studies, sociology, and anthropology. It is preferred, though not required, that the student have a minor in Middle East studies or Islamic studies.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.
Graduate Certificate

Applied Conservation Science Graduate Certificate

Banner Code: LA-CERG-ACNS

Web: smconservation.gmu.edu

The graduate certificate in applied conservation science provides students with hands-on education in conservation science. The courses in this program are all residential, full-day, one- or two-week intensive courses held at the Smithsonian-Mason School of Conservation in Front Royal, Virginia. This certificate is designed for early to mid-career conservation professionals working in government, non-governmental organizations, and research institutions worldwide.

Students acquire essential skills in conservation research and practice while developing a crucial understanding of the principles and philosophies underlying effective conservation and biodiversity programs. They learn how to apply analysis techniques and tools to address those questions and evaluate conservation outcomes.

Upon completion of the certificate, students will have developed practical and analytical skills applicable to a wide range of programs in applied conservation science research, policy, and practice -- from single-species protection and landscape-level restoration and management to community conservation initiatives and human-wildlife conflict mitigation.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in applied conservation science, see Application Requirements and Deadlines on the departmental web site.

Certificate requirements

Two core courses (6 credits)

- CONS 620 - Spatial Ecology, Geospatial Analysis & Remote Sensing for Conservation Credits: 3
- CONS 625 - Statistics for Ecology and Conservation Biology Credits: 3

One course (3 credits) in human dimensions chosen from:

- CONS 640 - Adaptive Management for Conservation Success Credits: 3
- CONS 660 - Effective Conservation Leadership Credits: 3
- CONS 665 - Conservation Conflict Resolution Credits: 3
- CONS 697 - Special Topics in Conservation Credits: 1-3

Electives (6 credits)

CONS 630 and 697 may be repeated for credit when topics are different.

- CONS 630 - Species Monitoring & Conservation Credits: 3
- CONS 635 - Non-Invasive Genetic Techniques in Wildlife Conservation Credits: 2
- CONS 640 - Adaptive Management for Conservation Success Credits: 3 (if not used to fulfill human dimensions requirement)
- CONS 660 - Effective Conservation Leadership Credits: 3 (if not used to fulfill human dimensions requirement)
- CONS 665 - Conservation Conflict Resolution Credits: 3 (if not used to fulfill human dimensions requirement)
- CONS 697 - Special Topics in Conservation Credits: 1-3

Total: 15 credits

Master of Arts

Middle East and Islamic Studies, MA

Banner Code: LA-MA-MEIS

Web: islamicstudies.gmu.edu

The interdisciplinary MA in Middle East and Islamic studies introduces students to the major methodological and theoretical issues and debates in the study of the Islamic tradition and Middle Eastern societies. Students study classical and contemporary topics from both regional and global perspectives.

The expressed goal of this program is to situate the study of the Middle East and Islam within a globalized world. Accordingly, the curriculum covers topics of recent scholarly significance including the new media, political Islam, the political economy of business-government networks, the relationship between "resource wars" and the "war on terrorism," new diasporas and transnational Muslim communities in the 'West,' and the changed geopolitical environments of Muslim and Middle Eastern countries.

This interdisciplinary graduate degree prepares students for a variety of post-graduate opportunities in academia, government, and an expanding job market for people with this expertise.

An accelerated master's option is available to students in selected bachelor's programs. See BA (selected)/Middle East and Islamic Studies, Accelerated MA for specific requirements.

Degree Requirements

Six core courses (18 credits)

- MEIS 500 - Critical Issues and Debates in Middle East and Islamic Studies Credits: 3
- HIST 575 - Approaches to Middle East and Islamic History Credits: 3
- GOVT 733 - Islam and Politics Credits: 3
- GOVT 731 - Advanced Seminar in Comparative Politics Credits: 3 (when topic is Politics and Societies of the Middle East)
- RELI 644 - Islamic Texts and Contexts Credits: 3
- Methods course chosen from HIST 610, SOCI 620, GOVT 500, or RELI 630 Credits: 3

Language proficiency

Students must demonstrate evidence of advanced professional competency in one of five major languages of the Middle East and Muslim world: Arabic, Persian, Turkish, Hebrew, or Urdu.
Four elective courses (12 credits)

Students who choose to complete a research project or write a thesis take 3 or 6 fewer elective credits.

In addition to the list below, elective courses may include special topics courses when relevant, directed readings and research, study abroad courses, and internships.

- ANTH 635 - Regional Ethnography Credits: 3 (when topic is People and Cultures of the Middle East)
- ARTH 699 - Topics in Art History Credits: 3 (when topic is Middle East or Islamic art)
- CONF 749 - World Religions, Violence, and Conflict Resolution Credits: 1-3
- ENGH 665 - Texts in Global Contexts Credits: 3 (when topic is representing Islam or Arabic Women Writers)
- GOVT 530 - Comparative Politics Credits: 3
- GOVT 731 - Advanced Seminar in Comparative Politics Credits: 3
- HIST 510 - Approaches to Modern World History Credits: 3 (when topic is Comparative World Region Methodology)
- HIST 535 - Problems in Comparative World History Credits: 3 (when topic is Politics of Historical Memory)
- HIST 585 - Problems in Middle Eastern History Credits: 3 (when topic is Revolution and State in Islam or Tourism and Travel in East and West)
- RELI 591 - Special Topics in Religious Studies Credits: 3 (when topic is Muslims in the United States)
- RELI 632 - World Religions in Conflict and Dialogue Credits: 3
- RELI 635 - World Religions in Transition and Transformation Credits: 3

Optional Research Project (3 credits)

Students choosing to complete a research project take one of the following courses, and one less elective course.

- GOVT 798 - Political Science Research Project Credits: 3
- HIST 798 - Directed Research and Writing in History Credits: 3
- SOCI 696 - Independent Study Credits: 1-3
- ANTH 798 - Thesis or Project Proposal Credits: 3

Optional Thesis (6 credits)

Students who choose to write a thesis should be aware of the policies governing theses as stated in the Academic Policies section of this catalog. They must follow the thesis enrollment policy of the university and once enrolled in MEIS 799, maintain continuous enrollment.

Students choosing to complete a thesis take 6 fewer credits of elective.

- MEIS 799 - Thesis Research and Writing in Middle East and Islamic Studies Credits: 1-6

Total: 30 credits

Non-Degree

Entrepreneurship Studies Minor

Banner Code: ENTS
Entrepreneurship includes not only the familiar definition aligned with business management—growth-oriented, innovative practice associated with creative, sometimes aggressive management—but also definitions involving social change. Entrepreneurs guided by the latter definition are change agents who seize opportunities others miss in order to improve systems, invent and disseminate new approaches, and advance sustainable solutions. The ultimate goal of these social entrepreneurs is the creation of social value and long-term transformation.

Social entrepreneurs are not content just to give a fish or teach how to fish. They will not rest until they have revolutionized the fishing industry. They set out, in short, to change the world or, at least, a small corner of it. A minor in entrepreneurship studies provides a student with both a liberal arts background in entrepreneurship—its sources of creativity and ethical foundations—as well as the skills to implement change.

The program is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies section of this catalog.

Coursework

Students pursuing this minor must complete 16 credits of coursework with a minimum GPA of 2.00.

One required introductory course (1 credit)

- CHSS 310 - Introduction to Entrepreneurship Credits: 1
  Should be taken early on in the minor.

Two required core courses (6 credits)

- MSOM 304 - Entrepreneurship: Starting and Managing a New Enterprise Credits: 3
- PSYC 335 - Psychology of Creativity and Innovation Credits: 3

One elective course (3 credits) in social responsibility and ethics chosen from:

- PHIL 305 - Business Ethics Credits: 3
- NCLC 375 - Special Topics Credits: 1-18 This course may be applied to the requirements when the topic is ethics and leadership.

One elective course (3 credits) chosen from:

Other courses may be used to fulfill this requirement with the prior written approval of the director.

- COMM 320 - Business and Professional Communication Credits: 3
- BULE 302 - Legal Environment of Business Credits: 3
- EVPP 480 - Sustainability in Action Credits: 4
- GOVT 358 - Nonprofit Financial Planning Credits: 4
- NCLC 375 - Special Topics Credits: 1-18 This course may be applied to the requirements when the topic is principles of transformative action.
- PSYC 333 - Industrial and Organizational Psychology Credits: 3
- PSYC 435 - Personnel Training and Development: A Psychological Perspective Credits: 3
One internship (3 credits)

Students register for an existing internship course, usually in their major, with the plan of work for the internship approved by the director of the minor.

Students who are currently employed may request that the internship requirement be waived on the basis of their job experience. They will be required to complete instead a 3-credit independent study with the director or another faculty member in which they conduct independent research, apply entrepreneurship principles and practices in an analysis of their workplace, and produce a final project.

Total: 16 credits

African and African American Studies

Phone: 703-993-1201
Web: aaas.gmu.edu/

Faculty

Carbonneau, Carton, Cherubin, Clark, Dennis, Fauntroy, Fuchs, Haley, Johnson, Lepore, Levine, Manuel-Scott (director), Miller, Paden, Richards Jordan, Smith, Stewart, Travis, Weatherspoon

Course Work

The African and African American Studies Program offers all course work designated AFAM in the Courses section of this catalog.

Undergraduate Programs

The African and African American Studies Program offers an interdisciplinary minor open to students in all majors.

Students who pursue this minor examine the cultural, historical, economic, and political dimensions of people of African descent in America, the Caribbean, Africa, and throughout the Diaspora. Students learn theories and methodologies that are used to examine the complex dynamics of race, class, gender, and ethnicity in America. Through the coursework for this program, students develop critical and analytical approaches to societal issues because they are addressed through a variety of academic disciplines.

Students are encouraged to do an internship as part of the minor to further enhance their education and provide them with valuable preparation for the workforce.

African American Studies Research and Resource Center

The goal of the African American Studies Research and Resource Center (Paul Robeson Room) is to facilitate new ways for George Mason University students to learn about the African diaspora. As part of their academic and community involvements, students often need to address issues related to African and African American Studies. The center offers them opportunities for
hands-on experience with African and African American life. It has been instrumental in assisting students, faculty, staff, and the community in finding resources to accomplish this goal.

The center sponsors a lecture series and a scholar-in-residence program and offers research and resources support for the Mason community.

Non-Degree

African and African American Studies Minor

Banner Code: AAMS

Web: aaas.gmu.edu

In the minor students will examine the cultural, historical, economic, and political dimensions and experiences of people of African descent in America, the Caribbean, Africa, and throughout the Diaspora. Students will learn theories and methodologies that are used to examine the complex dynamics of race, class, gender, and ethnicity in America. Through this program students are able to develop critical and analytical approaches to societal issues because such issues are addressed and delineated through a variety of academic disciplines.

Students are encouraged to do an internship as part of the minor to further enhance their education and provide them with valuable preparation for the workforce.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing the minor in African and African American Studies must complete a minimum of 15 credits with a minimum GPA of 2.00.

One required course (3 credits):

- AFAM 200 - Introduction to African American Studies Credits: 3

Four elective courses (12 credits) chosen from the list below:

Other courses, when relevant, may be able to meet this requirement with prior written approval of the director.

- AFAM 390 - Special Topics in African and African American Studies Credits: 3
- AFAM 490 - Internship Credits: 2-6
- AFAM 499 - Independent Study Credits: 1-3
- DANC 118 - World Dance Credits: 3 (May be applied to the minor when the topic is relevant to African and African American Studies.)
- ENGH 348 - Beginnings of African American Literature Through 1865 Credits: 3
- ENGH 349 - African American Literature: Reconstruction to 1903 Credits: 3
- ENGH 350 - African American Literature Through 1946 Credits: 3
- ENGH 351 - Contemporary African American Literature Credits: 3
- FREN 451 - Topics in Sub-Saharan Francophone Literature and Culture Credits: 3
- FREN 454 - Topics in Caribbean Francophone Literature and Culture Credits: 3
- GGS 325 - Geography of North Africa and the Middle East Credits: 3
- GOVT 464 - Issues in Public Policy and Administration Credits: 1-3
- HIST 130 - History of the Modern Global System Credits: 3
- HIST 261 - Survey of African History Credits: 3
- HIST 262 - Survey of African History Credits: 3
- HIST 335 - The African American Experience in the United States: African Background to 1885 Credits: 3
- HIST 336 - The African American Experience in the United States: Reconstruction to the Present Credits: 3
- HIST 466 - Origins of Conflict in Southern Africa Credits: 3
- SOCI 308 - Race and Ethnicity in a Changing World Credits: 3
- SOCI 332 - The Urban World Credits: 3

Total: 15 credits

■ Criminology, Law and Society

Phone: 703-993-8315
Web: cls.gmu.edu

Faculty

Professors: Mastrofski, Robinson, Taxman, Weisburd, Wilson (chair), Zingraff

Associate professors: Gallagher, Johnson, Koper, Lum, Willis

Assistant professors: Lawton, Merola, Rudes

Term associate professor: Newmark

Term assistant professor: Voreas

Affiliate faculty: Uchida

Course Work

The Department of Criminology, Law and Society offers all course work designated CRIM in the Courses section of this catalog.

Undergraduate Programs

The BS in criminology, law and society provides students with a focused study of criminology, law and society and the social, human, and moral problems raised in the justice field. The BS degree prepares students for careers in law enforcement, corrections, the courts, investigations, juvenile justice, private and homeland security, and related social and human services. Students who earn the BS degree either gain work experience in a criminal justice agency, or complete a minor in a related field to enhance their study of justice.

The BA in criminology, law and society, (still pending State Council of VA approval as of publication of this catalog) provides students with the opportunity to acquire a broader liberal arts education while studying criminology, law and society. The BA
degree prepares students for careers in a range of justice, social service, and human services fields. It also provides a strong background for law school or graduate study in criminal justice or criminology.

Honors in the Major

Highly qualified students may pursue advanced work leading to graduation with honors in the major. Students admitted to the honors program in the major take a two-course sequence CRIM 491 and 492. To graduate with honors in criminology, law and society, students must complete both courses with a minimum GPA of 3.50 in the two courses.

Internships

The department supports an active internship program, which places students in justice and related organizations throughout the Washington metropolitan area. Students can gain valuable work place experience while earning credit toward their degree.

Graduate Programs

The department offers a master's and a doctoral degree in criminology, law and society. These degrees draw on a strong multidisciplinary faculty who teach a wide range of courses in their specialties. These programs take advantage of Mason's proximity to the many justice organizations at the federal, state, and local levels. The curriculum is structured to give students the skills they need to do policy-relevant research. They will be able to work with local and national agencies concerned with justice and security to put those skills to use.

Funding

The department offers graduate teaching and research assistantships awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and, like all graduate students, show satisfactory progress toward their degree.

Bachelor of Arts

Criminology, Law and Society, BA (pending SCHEV approval)

Note: As of catalog publication in April, the program described below has been approved by the Board of Visitors and sent to the State Council for Higher Education in Virginia for consideration as a new degree program. The university cannot accept applications or enroll students in this program until SCHEV approval has been granted. Check the college/school web site for current program status.

Banner Code: LA-BA-CLS

Web: cls.gmu.edu

The BA in criminology, law and society provides students with the opportunity to acquire a broader liberal arts education while studying criminology, law and society. The BA degree prepares students for careers in a range of justice, social service, and human services fields. It also provides a strong background for law school or graduate study in criminal justice or criminology.

Students may use up to 18 credits of approved ADJ courses taken at Northern Virginia Community College (NVCC) or comparable courses at another community college to fulfill the requirements detailed below. Once a student matriculates at Mason, no courses may be taken at another institution without prior written approval from the program and the dean.
This program of study is offered by the Department of Criminology, Law and Society.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog.

Degree Requirements

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in criminology, law and society must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences.

Students pursuing this degree must complete 42 credits within the major, with a minimum GPA of 2.00.

Five core courses (15 credits)

- CRIM 100 - Introduction to Criminal Justice Credits: 3
- CRIM 306 - Criminal Justice Ethics Credits: 3
- CRIM 315 - Research Methods and Analysis in Criminology Credits: 3
- CRIM 424 - Constitutional Law: Criminal Process and Right Credits: 3
- CRIM 495 - Capstone in Criminology, Law and Society Credits: 3

Nine elective courses (27 credits) chosen from:

- CRIM 210 - Introduction to Criminology Credits: 3
- CRIM 220 - Introduction to Law and Society Credits: 3
- CRIM 230 - Introduction to Homeland Security Credits: 3
- CRIM 301 - Public Law and the Judicial Process Credits: 3 or GOVT 301 - Public Law and the Judicial Process Credits: 3
- CRIM 302 - Delinquency Credits: 3
- CRIM 304 - Computer Crime, Forensics, and Auditing Credits: 3 or IT 357 - Computer Crime, Forensics, and Auditing Credits: 3
- CRIM 305 - Crime and Crime Policy Credits: 3
- CRIM 307 - Social Inequality, Crime, and Justice Credits: 3
- CRIM 308 - Human Rights and Justice Credits: 3
- CRIM 310 - Introduction to the Intelligence Community Credits: 3
- CRIM 312 - Intelligence Analysis Techniques Credits: 3
- CRIM 320 - Crime and Place Credits: 3
- CRIM 400 - Applied Criminal Psychology Credits: 3
- CRIM 401 - Policing in America Credits: 3
- CRIM 402 - Punishment and Corrections Credits: 3
- CRIM 403 - Community Corrections Credits: 3
- CRIM 404 - Crime Victims and Victimization Credits: 3
- CRIM 405 - Law and Justice around the World Credits: 3
- CRIM 406 - Family Law and the Justice System Credits: 3
- CRIM 407 - Advanced Topics in Law and Society Credits: 3
- CRIM 408 - Criminal Courts Credits: 3
- CRIM 409 - Community Policing Credits: 3
- CRIM 410 - Criminal Investigations Credits: 3
- CRIM 422 - Controversial Legal Issues Credits: 3
• CRIM 423 - Constitutional Law: Civil Rights and Liberties Credits: 3 or GOVT 423 - Constitutional Law: Civil Rights and Liberties Credits: 3
• CRIM 425 - Criminal Justice Management Credits: 3
• CRIM 460 - Surveillance and Privacy in Contemporary Society Credits: 3
• CRIM 462 - Law Enforcement and Homeland Security Credits: 3
• CRIM 471 - Prevention and Deterrence of Crime Credits: 3
• CRIM 475 - Theory and Politics of Terrorism Credits: 3
• CRIM 490 - Special Topics Credits: 1-3
• CRIM 491 - Honors Seminar I Credits: 3
• CRIM 492 - Honors Seminar II Credits: 3
• CRIM 498 - Research Practicum Credits: 1-3
• CRIM 499 - Independent Study Credits: 1-3

Concentrations

Criminology, law and society majors have the option of obtaining a concentration by completing 15 of their 27 elective credits within one of the following areas. Credits earned in CRIM 490 may be applied to a concentration as appropriate for the content of the course, to be determined by the undergraduate director.

▲ Concentration in Criminal Justice (CJUS)

15 credits chosen from:

• CRIM 210 - Introduction to Criminology Credits: 3
• CRIM 302 - Delinquency Credits: 3
• CRIM 304 - Computer Crime, Forensics, and Auditing Credits: 3 or IT 357 - Computer Crime, Forensics, and Auditing Credits: 3
• CRIM 305 - Crime and Crime Policy Credits: 3
• CRIM 307 - Social Inequality, Crime, and Justice Credits: 3
• CRIM 320 - Crime and Place Credits: 3
• CRIM 400 - Applied Criminal Psychology Credits: 3
• CRIM 401 - Policing in America Credits: 3
• CRIM 402 - Punishment and Corrections Credits: 3
• CRIM 403 - Community Corrections Credits: 3
• CRIM 404 - Crime Victims and Victimization Credits: 3
• CRIM 408 - Criminal Courts Credits: 3
• CRIM 409 - Community Policing Credits: 3
• CRIM 410 - Criminal Investigations Credits: 3
• CRIM 425 - Criminal Justice Management Credits: 3
• CRIM 471 - Prevention and Deterrence of Crime Credits: 3

Total: 15 credits

▲ Concentration in Law and Society (LAWS)

15 credits chosen from:

• CRIM 220 - Introduction to Law and Society Credits: 3
• CRIM 301 - Public Law and the Judicial Process Credits: 3 or GOVT 301 - Public Law and the Judicial Process Credits: 3
• CRIM 308 - Human Rights and Justice Credits: 3
• CRIM 405 - Law and Justice around the World Credits: 3
• CRIM 406 - Family Law and the Justice System Credits: 3
• CRIM 407 - Advanced Topics in Law and Society Credits: 3
• CRIM 408 - Criminal Courts Credits: 3
• CRIM 422 - Controversial Legal Issues Credits: 3
• CRIM 423 - Constitutional Law: Civil Rights and Liberties Credits: 3 or GOVT 423 - Constitutional Law: Civil Rights and Liberties Credits: 3
• CRIM 460 - Surveillance and Privacy in Contemporary Society Credits: 3

Total: 15 credits

▲ Concentration in Homeland Security and Justice (HSJ)

15 credits chosen from:
• CRIM 230 - Introduction to Homeland Security Credits: 3
• CRIM 310 - Introduction to the Intelligence Community Credits: 3
• CRIM 312 - Intelligence Analysis Techniques Credits: 3
• CRIM 405 - Law and Justice around the World Credits: 3
• CRIM 460 - Surveillance and Privacy in Contemporary Society Credits: 3
• CRIM 462 - Law Enforcement and Homeland Security Credits: 3
• CRIM 475 - Theory and Politics of Terrorism Credits: 3

Total: 15 credits

Total: 42 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. Students majoring in criminology, law and society fulfill this requirement by successfully completing CRIM 495. Students should complete ENGH 302 before taking the writing-intensive course in the major or take the two courses simultaneously.

Bachelor of Science

Criminology, Law and Society, BS

Banner Code: LA-BS-CLS

Web: cls.gmu.edu
The bachelor of science in criminology, law and society provides a focused study of the justice system and social, human, and moral problems raised in the justice field. This course of study prepares students for careers in law enforcement, corrections, the courts, investigations, juvenile justice, private and homeland security, and related social and human services.

Students may use up to 18 credits of approved ADJ courses taken at Northern Virginia Community College (NVCC) or comparable courses at another community college to fulfill the requirements detailed below. Once a student matriculates at Mason, no courses may be taken at another institution without prior written approval from the program and the dean.

This program of study is offered by the Department of Criminology, Law and Society.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog.

**Degree Requirements**

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BS in criminology, law and society must complete additional college requirements for the BS degree in the College of Humanities and Social Sciences.

Students pursuing this degree must complete 60-65 credits within the major, with a minimum GPA of 2.00.

**Five core courses (15 credits)**

- CRIM 100 - Introduction to Criminal Justice Credits: 3
- CRIM 306 - Criminal Justice Ethics Credits: 3
- CRIM 315 - Research Methods and Analysis in Criminology Credits: 3
- CRIM 424 - Constitutional Law: Criminal Process and Right Credits: 3
- CRIM 495 - Capstone in Criminology, Law and Society Credits: 3

**Internship or minor (15 - 20 credits)**

Students fulfill this requirement by completing a minimum of 15 credits of internship (CRIM 479/480) or meeting the requirements for a minor in a related field (as listed below).

**Internship (15 credits)**

- CRIM 479 - Preparation for Internship Credits: 3
- CRIM 480 - Internship Credits: 6-12 or

**Minor in a related field (15-20 credits)**

- Intelligence Analysis Minor (18 credits)
- Information Technology Minor (15 credits)
- Computer Science Minor (17 credits)
- Forensic Science Minor (20 credits)
- Geographic Information Systems Minor (18 credits)
- Data Analysis Minor (15 credits)
Ten elective courses (30 credits) chosen from:

- CRIM 210 - Introduction to Criminology Credits: 3
- CRIM 220 - Introduction to Law and Society Credits: 3
- CRIM 230 - Introduction to Homeland Security Credits: 3
- CRIM 301 - Public Law and the Judicial Process Credits: 3 or GOVT 301 - Public Law and the Judicial Process Credits: 3
- CRIM 302 - Delinquency Credits: 3
- CRIM 304 - Computer Crime, Forensics, and Auditing Credits: 3 or IT 357 - Computer Crime, Forensics, and Auditing Credits: 3
- CRIM 305 - Crime and Crime Policy Credits: 3
- CRIM 307 - Social Inequality, Crime, and Justice Credits: 3
- CRIM 308 - Human Rights and Justice Credits: 3
- CRIM 310 - Introduction to the Intelligence Community Credits: 3
- CRIM 312 - Intelligence Analysis Techniques Credits: 3
- CRIM 320 - Crime and Place Credits: 3
- CRIM 400 - Applied Criminal Psychology Credits: 3
- CRIM 401 - Policing in America Credits: 3
- CRIM 402 - Punishment and Corrections Credits: 3
- CRIM 403 - Community Corrections Credits: 3
- CRIM 404 - Crime Victims and Victimization Credits: 3
- CRIM 405 - Law and Justice around the World Credits: 3
- CRIM 406 - Family Law and the Justice System Credits: 3
- CRIM 407 - Advanced Topics in Law and Society Credits: 3
- CRIM 408 - Criminal Courts Credits: 3
- CRIM 409 - Community Policing Credits: 3
- CRIM 410 - Criminal Investigations Credits: 3
- CRIM 422 - Controversial Legal Issues Credits: 3
- CRIM 423 - Constitutional Law: Civil Rights and Liberties Credits: 3 or GOVT 423 - Constitutional Law: Civil Rights and Liberties Credits: 3
- CRIM 425 - Criminal Justice Management Credits: 3
- CRIM 460 - Surveillance and Privacy in Contemporary Society Credits: 3
- CRIM 462 - Law Enforcement and Homeland Security Credits: 3
- CRIM 471 - Prevention and Deterrence of Crime Credits: 3
- CRIM 475 - Theory and Politics of Terrorism Credits: 3
- CRIM 490 - Special Topics Credits: 1-3
- CRIM 491 - Honors Seminar I Credits: 3
- CRIM 492 - Honors Seminar II Credits: 3
- CRIM 498 - Research Practicum Credits: 1-3
- CRIM 499 - Independent Study Credits: 1-3

Concentrations (15 credits)

Criminology, law and society majors have the option of obtaining a concentration by completing 15 of their 30 elective credits within one of the following areas. Credits earned in CRIM 490 may be applied to a concentration as appropriate for the content of the course, to be determined by the undergraduate director.

▲ Concentration in Criminal Justice (CJUS)
15 credits chosen from:

- CRIM 210 - Introduction to Criminology Credits: 3
- CRIM 302 - Delinquency Credits: 3
- CRIM 304 - Computer Crime, Forensics, and Auditing Credits: 3 or IT 357 - Computer Crime, Forensics, and Auditing Credits: 3
- CRIM 305 - Crime and Crime Policy Credits: 3
- CRIM 307 - Social Inequality, Crime, and Justice Credits: 3
- CRIM 320 - Crime and Place Credits: 3
- CRIM 400 - Applied Criminal Psychology Credits: 3
- CRIM 401 - Policing in America Credits: 3
- CRIM 402 - Punishment and Corrections Credits: 3
- CRIM 403 - Community Corrections Credits: 3
- CRIM 404 - Crime Victims and Victimization Credits: 3
- CRIM 408 - Criminal Courts Credits: 3
- CRIM 409 - Community Policing Credits: 3
- CRIM 410 - Criminal Investigations Credits: 3
- CRIM 425 - Criminal Justice Management Credits: 3
- CRIM 404 - Computer Crime, Forensics, and Auditing Credits: 3 or IT 357 - Computer Crime, Forensics, and Auditing Credits: 3

Total: 15 credits

▲ Concentration in Law and Society (LAWS)

15 credits chosen from:

- CRIM 220 - Introduction to Law and Society Credits: 3
- CRIM 301 - Public Law and the Judicial Process Credits: 3 or GOVT 301 - Public Law and the Judicial Process Credits: 3
- CRIM 308 - Human Rights and Justice Credits: 3
- CRIM 405 - Law and Justice around the World Credits: 3
- CRIM 406 - Family Law and the Justice System Credits: 3
- CRIM 407 - Advanced Topics in Law and Society Credits: 3
- CRIM 408 - Criminal Courts Credits: 3
- CRIM 422 - Controversial Legal Issues Credits: 3
- CRIM 423 - Constitutional Law: Civil Rights and Liberties Credits: 3 or GOVT 423 - Constitutional Law: Civil Rights and Liberties Credits: 3
- CRIM 460 - Surveillance and Privacy in Contemporary Society Credits: 3

Total: 15 credits

▲ Concentration in Homeland Security and Justice (HSJ)

15 credits chosen from:

- CRIM 230 - Introduction to Homeland Security Credits: 3
- CRIM 310 - Introduction to the Intelligence Community Credits: 3
- CRIM 312 - Intelligence Analysis Techniques Credits: 3
• CRIM 405 - Law and Justice around the World Credits: 3  
• CRIM 460 - Surveillance and Privacy in Contemporary Society Credits: 3  
• CRIM 462 - Law Enforcement and Homeland Security Credits: 3  
• CRIM 475 - Theory and Politics of Terrorism Credits: 3  

Total: 15 credits

Total: 60-65 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in criminology, law and society fulfill this requirement by successfully completing CRIM 495. Students should complete ENGH 302 before taking the writing-intensive course in the major or take the two courses simultaneously.

Doctor of Philosophy

Criminology, Law and Society, PhD

Banner Code: LA-PHD-CLS

Web: cls.gmu.edu

The PhD program in criminology, law and society is designed to produce top academic scholars and leaders in policy and applied settings. It brings cutting edge social science methods to the disciplines of criminology and law and society. Students coming to this program seek to make a difference in the development and evaluation of policy in these fields. The goal of this program is to provide a rigorous course of study that will prepare students to do research, teach, develop and test policies, and administer agencies and programs designed to administer law, deliver justice, reduce crime, and enhance domestic security.

The program draws on a multidisciplinary departmental faculty to teach the required core courses and electives. Students can also take a wide range of other electives from many other university faculty including those in computational social science, conflict analysis and resolution, economics, government, law, philosophy, psychology, public administration, sociology, and statistics. The program takes advantage of the university’s proximity to many justice organizations at the federal, state, and local levels in the capital region. The curriculum is structured to give students the skills to do policy-relevant research and work with justice and security agencies in the region to exercise those skills and serve the needs of those agencies.

This program of study is offered by the Department of Criminology, Law and Society.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the PhD in criminology, law and society, see Application Requirements and Deadlines on the departmental web site.

Master's Degree
Students admitted to the doctoral program without a master's degree need to earn the MA in criminology, law and society with thesis. The requirements for the MA degree are included in the requirements for the PhD listed below. When beginning the doctoral program students should add the master's degree as a secondary program using the Secondary Program Application and then apply online to graduate the semester prior to meeting all requirements for the master's degree.

Reduction of Credit

Students entering the doctoral program with a master’s degree in a related discipline, including a law degree, may request that the required credits for the doctoral degree be reduced by a maximum of 30 credits with approval of the graduate director and dean and in accordance with university policy. Students who have prior graduate course work that has not been applied to another degree may request to have a maximum of 12 of these graduate credits transferred to their degree program, with approval of the graduate director and dean and in accordance with university policy.

Satisfactory Progress

Each new student is assigned an advisor who helps develop a program of study. On advancement to candidacy, the chair of the dissertation committee becomes the advisor. The advisor and faculty assess the progress of all students annually. Students who fail to make satisfactory progress may be terminated from the program. Satisfactory progress in the PhD in criminology, law and society is defined as maintaining a minimum GPA of 3.00 with the minimum grade of B- in all courses. Students who receive a grade below B- will receive an academic warning the first time and a letter of termination the second time.

Degree Requirements

In addition to satisfying the requirements for all doctoral degrees, students must successfully complete 72 credits of required course work, pass two qualifying exams, form a dissertation committee, and defend their dissertation proposal, after which they are advanced to candidacy. The final requirement is a dissertation of original research representing a significant contribution to the field, which should be publishable in a referred journal or a quality press.

Doctoral Course Work (48-57 credits)

Four core substantive courses (12 credits)

- CRIM 700 - Theories of Justice Credits: 3
- CRIM 720 - Behavior of Law Credits: 3
- CRIM 740 - Justice Organization and Administration Credits: 3
- CRIM 760 - Crime and Crime Policy Credits: 3

Four analytical methods courses (12 credits)

- CRIM 780 - Research Methods Credits: 3
- CRIM 782 - Statistics I Credits: 3
- CRIM 783 - Statistics II Credits: 3

and one course chosen from:

- CRIM 781 - Justice Program Evaluation Credits: 3
- CRIM 784 - Experimental Criminology Credits: 3
• CRIM 795 - Special Topics Credits: 3
• CRIM 796 - Directed Reading Credits: 1-3
• SOCI 631 - Survey Research Credits: 3
• SOCI 632 - Evaluation Research for Social Programs Credits: 3
• SOCI 634 - Qualitative Research Methods Credits: 3
• STAT 574 - Survey Sampling I Credits: 3
• STAT 658 - Time Series Analysis and Forecasting Credits: 3
• STAT 662 - Multivariate Statistical Methods Credits: 3
• STAT 665 - Categorical Data Analysis Credits: 3
• STAT 674 - Survey Sampling II Credits: 3
• STAT 773 - Statistical Methods for Longitudinal Data Analysis Credits: 3
• PSYC 633 - Evaluative Research in Psychology Credits: 3
• PSYC 640 - Techniques in Industrial/Organizational Psychology Credits: 3
• CSS 600 - Introduction to Computational Social Science Credits: 3
• CSS 610 - Computational Analysis of Social Complexity Credits: 3

Six courses (18 credits) in two substantive fields of study:

Students select two substantive fields and complete three courses within each. Students may take one non-CRIM elective course in each area or other courses in criminology, law and society with prior written approval of the director of the graduate program.

Justice and Law

Justice-related electives:

• CRIM 702 - Comparative Justice Credits: 3
• CRIM 703 - Restorative Justice Credits: 3
• CRIM 795 - Special Topics Credits: 3
• CRIM 796 - Directed Reading Credits: 1-3
• GOVT 520 - Political Theory Credits: 3
• GOVT 725 - Democratic Theory Credits: 3
• GOVT 631 - Seminar in Comparative Politics and Institutions Credits: 3
• SOCI 619 - Conflict and Conflict Management: Perspectives from Sociology Credits: 3
• SOCI 640 - Social Theory and Social Policy Credits: 3
• SOCI 711 - Classical Sociological Theory Credits: 3
• SOCI 712 - Contemporary Sociological Theory Credits: 3
• CONF 501 - Introduction to Conflict Analysis and Resolution Credits: 3
• CONF 720 - Ethnic and Cultural Factors in Conflict Resolution Credits: 1-3
• CONF 721 - Conflict and Race Credits: 3
• CONF 723 - Conflict and Gender Credits: 3
• CONF 726 - Moral and Philosophical Foundations of Conflict Credits: 3
• CONF 747 - Reconciliation Credits: 3
• CONF 802 - Theories of the Person Credits: 3
• CONF 803 - Structural Theories Credits: 3
• ECON 611 - Microeconomic Theory Credits: 3
• ECON 852 - Public Choice I Credits: 3
• ECON 854 - Public Choice II Credits: 3
Law-related electives:

- Any selected LAW courses. Prerequisite for enrollment in LAW courses: successful completion of CRIM 720 and CRIM 721. Enrollment requires preapproval from the graduate director, law school instructor, and associate dean for student academic affairs of the Law School.
- CRIM 721 - The Constitution, Criminal Procedure, and Security Credits: 3
- CRIM 722 - Civil Justice Credits: 3
- CRIM 723 - Law and Social Control Credits: 3
- CRIM 730 - Courts and Constitutional Law Credits: 3
- CRIM 795 - Special Topics Credits: 3
- CRIM 796 - Directed Reading Credits: 1-3
- SOCI 503 - Sociology of Law Credits: 3
- PHIL 611 - Philosophy of Law Credits: 3
- CONF 733 - Law and Justice from a Conflict Perspective Credits: 1-3
- ECON 895 - Special Topics in Economics Credits: 3

Justice Organizations, Administration, and Leadership

- CRIM 509 - Justice Organizations and Processes Credits: 3
- CRIM 510 - Policing in a Democratic Society Credits: 3
- CRIM 691 - Justice Program Planning and Implementation Credits: 3
- CRIM 741 - Conduct of Justice Organizations at the Street Level Credits: 3
- CRIM 742 - Leadership in Justice and Security Organizations Credits: 3
- CRIM 743 - Changing Justice and Security Organizations Credits: 3
- CRIM 744 - Corrections Credits: 3
- CRIM 749 - Issues in Justice Administration Credits: 1-3
- CRIM 795 - Special Topics Credits: 3
- CRIM 796 - Directed Reading Credits: 1-3
- PUAD 502 - Administration in Public and Nonprofit Organizations Credits: 3
- PUAD 520 - Organization Theory and Management Behavior Credits: 3
- PUAD 621 - Principles and Practices in Government Organization and Management Credits: 3
- PUAD 622 - Program Planning and Implementation Credits: 3
- PUAD 661 - Public Budgeting Systems Credits: 3
- PUAD 671 - Public Employee Labor Relations Credits: 3
- PUAD 680 - Managing Information Resources Credits: 3
- PUAD 700 - Ethics and Public Administration Credits: 3
- PUAD 727 - Seminar in Risk Assessment and Decision Making Credits: 3
- PUAD 781 - Information Management: Technology and Policy Credits: 3
- CONF 731 - Conflict in Organizations Credits: 3
- CONF 741 - Negotiations Credits: 3
- CONF 743 - Dynamics of Conflict Termination Credits: 3
- PSYC 631 - Industrial and Personnel Testing and Evaluation Credits: 3
- PSYC 639 - Survey of Organizational Processes Credits: 3
- SOCI 605 - Gender and Social Structure Credits: 3
- SOCI 623 - Racial and Ethnic Relations: American and Selected Global Perspectives Credits: 3

Crime and Crime Policy
- CRIM 761 - Politics of Crime Policy Credits: 3
- CRIM 762 - Crime and Place Credits: 3
- CRIM 764 - Sentencing Credits: 3
- CRIM 795 - Special Topics Credits: 3
- CRIM 796 - Directed Reading Credits: 1-3
- SOCI 607 - Criminology Credits: 3
- GOVT 745 - International Security Credits: 3
- PUAD 540 - Public Policy Process Credits: 3
- PUAD 644 - Public Policy Models Credits: 3
- PUAD 645 - Policy Analysis Credits: 3
- PSYC 617 - Child Psychopathology Credits: 3

**Electives (6-15 credits)**

Students complete the remaining 72 credits through additional elective courses relevant to criminology, law and society in consultation with their advisor. Students may have more than 6 credits of electives, depending on the number of dissertation credits required by their program of study.

**One professionalization course (0 credits)**

- CRIM 797 - Professionalization Seminar Credits: 0

**Qualifying Exams**

Students must pass written qualifying exams in two core substantive fields of the student’s choosing, selected from the three fields above. Students may take a single qualifying exam at each sitting.

Students are not eligible to take the qualifying exams until they have successfully completed the required course work, as well as course work in the substantive area in which they intend to sit for the qualifying exam. Students have one opportunity across both exam areas to retake a failed exam.

**Dissertation Committee**

The student’s committee is composed of at least four faculty members. Three of the four must be members of the graduate faculty in criminology, law and society. The fourth must be from another program at Mason or from outside the university. The faculty member serving as the chair of the committee must be a member of the graduate faculty in criminology, law and society.

**Advancement to Candidacy**

To advance to candidacy, students must complete all course work required on their approved program of study. Students must also successfully complete and pass two qualifying exams. In addition, students must have a dissertation committee appointed by the Dean’s Office and have defended their dissertation proposal.

**Dissertation Research (15-24 credits)**

Once enrolled in 998, students in this degree program must maintain continuous registration in 998 or 999 each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in 999,
students must follow the university’s continuous registration policy as specified in the Academic Policies section of the catalog. Students who defend in the summer must be registered for at least 1 credit of 999.

Students may apply to this degree a minimum of 3 and a maximum of 6 credits of 998 and a minimum of 12 and a maximum of 21 credits of 999. They may apply a maximum of 24 dissertation credits (998 and 999 combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses. Students who take fewer than 24 dissertation credits will have accordingly more elective credits.

- CRIM 998 - Doctoral Dissertation Proposal Credits: 1-6
- CRIM 999 - Doctoral Dissertation Research Credits: 1-21

Total: 72 credits

Master of Arts

Criminology, Law and Society, MA

Banner Code: LA-MA-CLS

Web: cls.gmu.edu

The MA in criminology, law and society brings cutting edge social science methods to the disciplines of criminology and law and society. The program is designed for students who seek to make a difference in the development and evaluation of policy in these fields. The MA program provides students with enhanced skills in analysis and policy evaluation for their further career development or to help them prepare for competitive, sought-after positions.

The program draws on a multidisciplinary departmental faculty for required core courses and electives. Students can also take a wide range of other electives from different university programs, including those in computational social science, conflict analysis and resolution, economics, government, law, philosophy, psychology, public administration, sociology, and statistics.

The program takes advantage of the university’s proximity to many justice organizations at the federal, state, and local levels in the capital region. The curriculum is structured to give students the skills to do policy-relevant research and work with justice and security agencies in the region to exercise those skills and serve the needs of those agencies.

This program of study is offered by the Department of Criminology, Law and Society. For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Transfer Credits

Students may request to transfer a maximum of 12 credits for prior graduate course work (not applied to a previous degree) subject to approval by the graduate director and dean and in accordance with the Academic Policies section of this catalog.

Satisfactory Progress

Each new student is assigned a faculty advisor who helps develop a program of study. The advisor and faculty assess the progress of all students annually. Students who fail to make satisfactory progress may be terminated from the program. Satisfactory progress in the MA in criminology, law and society is defined as maintaining a minimum GPA of 3.00 with the minimum grade of B- in all courses. Students who receive a grade below B- will receive an academic warning the first time and a letter of termination the second time.
Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admission section of this catalog. For information specific to the MA in criminology, law and society, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

In addition to satisfying the requirements for all master's degrees as stated in the Academic Policies section of the catalog, students pursuing a master's degree in criminology, law and society must successfully complete 30-credits of required coursework.

MA without Concentration

Students who wish to pursue a doctoral degree and academic or research career should complete the requirements for the MA in criminology, law and society with thesis shown below.

Four core courses (12 credits) in three fields

Justice and law

- CRIM 700 - Theories of Justice Credits: 3
- CRIM 720 - Behavior of Law Credits: 3

Justice organizations, administration, and leadership

- CRIM 740 - Justice Organization and Administration Credits: 3

Crime and crime policy

- CRIM 760 - Crime and Crime Policy Credits: 3

Three courses (9 credits) of analytic methods

- CRIM 780 - Research Methods Credits: 3
- CRIM 782 - Statistics I Credits: 3
- CRIM 783 - Statistics II Credits: 3

One to two elective courses (3 to 6 credits)

Students choose electives from courses in one or more of the substantive fields of study listed below.

Thesis (3 to 6 credits)
Students can apply a maximum of 6 credits of thesis to the degree. A thesis proposal must be submitted to the graduate director prior to registering for thesis credits. The master’s thesis must be defended orally before a committee of three faculty appointed by the graduate director. Students who do a 3-credit thesis will have 6 credits of electives.

Students must follow the thesis enrollment policy of the university and once enrolled in CRIM 799, maintain continuous enrollment as specified in the Academic Policies section of the catalog.

- CRIM 799 - Master’s Thesis Credits: 1-6

Total: 30 credits

▲ Concentration in Policy and Practice (PAP)

This concentration is intended for students planning careers in justice and security organizations following completion of the MA degree, and does not include a thesis requirement.

Four core courses (12 credits) in three fields

Justice and law

- CRIM 720 - Behavior of Law Credits: 3

Justice organizations, administration, and leadership

- CRIM 740 - Justice Organization and Administration Credits: 3
- CRIM 742 - Leadership in Justice and Security Organizations Credits: 3

Crime and crime policy

- CRIM 760 - Crime and Crime Policy Credits: 3

Two courses (6 credits) of analytic methods

- CRIM 780 - Research Methods Credits: 3
- CRIM 781 - Justice Program Evaluation Credits: 3

Capstone Practicum (3 credits)

- CRIM 790 - Capstone in Policy and Practice Credits: 3

Three elective courses (9 credits)

Students choose electives from courses in one or more of the substantive fields of study listed below.

Total: 30 credits

Substantive Fields of Study
Master’s students are required to take one to three electives chosen from among the substantive fields of study below. One non-CRIM elective course may be taken. Students may use other courses as elective credit with prior written approval of the director of the graduate program.

**Justice and Law**

*justice-related electives*

- CRIM 702 - Comparative Justice Credits: 3
- CRIM 703 - Restorative Justice Credits: 3
- CRIM 795 - Special Topics Credits: 3
- CRIM 796 - Directed Reading Credits: 1-3
- GOVT 520 - Political Theory Credits: 3
- GOVT 725 - Democratic Theory Credits: 3
- GOVT 631 - Seminar in Comparative Politics and Institutions Credits: 3
- SOCI 619 - Conflict and Conflict Management: Perspectives from Sociology Credits: 3
- SOCI 640 - Social Theory and Social Policy Credits: 3
- SOCI 711 - Classical Sociological Theory Credits: 3
- SOCI 712 - Contemporary Sociological Theory Credits: 3
- CONF 501 - Introduction to Conflict Analysis and Resolution Credits: 3
- CONF 720 - Ethic and Cultural Factors in Conflict Resolution Credits: 1-3
- CONF 721 - Conflict and Race Credits: 3
- CONF 723 - Conflict and Gender Credits: 3
- CONF 726 - Moral and Philosophical Foundations of Conflict Credits: 3
- CONF 747 - Reconciliation Credits: 3
- CONF 802 - Theories of the Person Credits: 3
- CONF 803 - Structural Theories Credits: 3
- ECON 611 - Microeconomic Theory Credits: 3
- ECON 852 - Public Choice I Credits: 3
- ECON 854 - Public Choice II Credits: 3

*law-related electives*

- Any selected LAW courses. Prerequisite for enrollment in LAW courses: successful completion of CRIM 720 and CRIM 721. Enrollment requires preapproval from the graduate director, law school instructor, and associate dean for student academic affairs of the Law School.
- CRIM 721 - The Constitution, Criminal Procedure, and Security Credits: 3
- CRIM 722 - Civil Justice Credits: 3
- CRIM 723 - Law and Social Control Credits: 3
- CRIM 730 - Courts and Constitutional Law Credits: 3
- CRIM 795 - Special Topics Credits: 3
- CRIM 796 - Directed Reading Credits: 1-3
- SOCI 503 - Sociology of Law Credits: 3
- PHIL 611 - Philosophy of Law Credits: 3
- CONF 733 - Law and Justice from a Conflict Perspective Credits: 1-3
- ECON 895 - Special Topics in Economics Credits: 3
Justice Organizations, Administration, and Leadership

- CRIM 509 - Justice Organizations and Processes Credits: 3
- CRIM 510 - Policing in a Democratic Society Credits: 3
- CRIM 691 - Justice Program Planning and Implementation Credits: 3
- CRIM 741 - Conduct of Justice Organizations at the Street Level Credits: 3
- CRIM 742 - Leadership in Justice and Security Organizations Credits: 3
- CRIM 743 - Changing Justice and Security Organizations Credits: 3
- CRIM 744 - Corrections Credits: 3
- CRIM 749 - Issues in Justice Administration Credits: 1-3
- CRIM 795 - Special Topics Credits: 3
- CRIM 796 - Directed Reading Credits: 1-3
- PUAD 502 - Administration in Public and Nonprofit Organizations Credits: 3
- PUAD 520 - Organization Theory and Management Behavior Credits: 3
- PUAD 540 - Public Policy Process Credits: 3
- PUAD 621 - Principles and Practices in Government Organization and Management Credits: 3
- PUAD 622 - Program Planning and Implementation Credits: 3
- PUAD 661 - Public Budgeting Systems Credits: 3
- PUAD 671 - Public Employee Labor Relations Credits: 3
- PUAD 680 - Managing Information Resources Credits: 3
- PUAD 700 - Ethics and Public Administration Credits: 3
- PUAD 727 - Seminar in Risk Assessment and Decision Making Credits: 3
- PUAD 781 - Information Management: Technology and Policy Credits: 3
- CONF 731 - Conflict in Organizations Credits: 3
- CONF 741 - Negotiations Credits: 3
- CONF 743 - Dynamics of Conflict Termination Credits: 3
- PSYC 631 - Industrial and Personnel Testing and Evaluation Credits: 3
- PSYC 639 - Survey of Organizational Processes Credits: 3
- SOCI 605 - Gender and Social Structure Credits: 3
- SOCI 623 - Racial and Ethnic Relations: American and Selected Global Perspectives Credits: 3

Crime and Crime Policy

- CRIM 761 - Politics of Crime Policy Credits: 3
- CRIM 762 - Crime and Place Credits: 3
- CRIM 764 - Sentencing Credits: 3
- CRIM 795 - Special Topics Credits: 3
- CRIM 796 - Directed Reading Credits: 1-3
- SOCI 607 - Criminology Credits: 3
- GOVT 745 - International Security Credits: 3
- PUAD 540 - Public Policy Process Credits: 3
- PUAD 644 - Public Policy Models Credits: 3
- PUAD 645 - Policy Analysis Credits: 3
- PSYC 617 - Child Psychopathology Credits: 3

Non-Degree
Criminology, Law and Society Minor

Banner Code: CLS

Web: cls.gmu.edu

Through the minor in criminology, law and society, students develop knowledge of the principles, institutions, and practices of the systems for administering justice. It provides a solid foundation for students seeking to supplement their major area of study, to develop knowledge and skills needed for justice-related occupations, or to lay the foundation for possible law school or graduate study in the justice field. Students obtain an overview of the justice system and develop advanced knowledge of selected features of the justice system.

Students should plan their course of study with a criminology, law and society advisor assigned by the program. The minor must be approved by the director before graduation.

This program of study is offered by the Department of Criminology, Law and Society.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 15 credits in criminology, law and society with a minimum GPA of 2.00. Eight credits of course work must be unique to the minor.

One required course (3 credits)

- CRIM 100 - Introduction to Criminal Justice Credits: 3

Four courses (12 credits) in CRIM

Three of the courses must be upper-level. CRIM 479, 480, and 498 may not be used to fulfill this requirement.

Total: 15 credits

Intelligence Analysis Minor

Banner Code: NTLA

Web: cls.gmu.edu

The minor in intelligence analysis is designed for students who are interested in careers in homeland security or other intelligence-related fields. This minor focuses on developing the skills of intelligence analysis, including research, writing, briefing, and analytical tradecraft. Students explore ethical issues in the field and new developments in the analysis of intelligence information.

The curriculum fosters a broad knowledge of content in several disciplines valued by employers in homeland security and intelligence-related fields. The minor offers students sufficient flexibility to pursue their primary interests while also preparing themselves for careers in intelligence analysis.
Students who are American citizens may apply for an internship in intelligence analysis at the Federal Bureau of Investigation. Credits earned for the internship are in addition to those required for the minor and are not required for completion of the minor. Students who intend to apply for the internship should begin the application process no later than September of their sophomore year, since the security clearance process can take a year or more. Students in this minor are strongly encouraged to pursue advanced training in Arabic, Chinese, or Russian.

This program of study is offered by the Department of Criminology, Law and Society but is multidisciplinary in nature and requires coursework from at least two different academic departments.

Students should plan their course of study with a criminology, law and society advisor assigned by the program. The minor must be approved by the director before graduation.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 18 credits with a minimum GPA of 2.0. Eight credits of course work must be unique to the minor.

Two required courses (6 credits)

- CRIM 310 - Introduction to the Intelligence Community Credits: 3
- CRIM 312 - Intelligence Analysis Techniques Credits: 3

Four elective courses (12 credits) chosen from:

The electives must consist of courses from at least two different departments (two different subject prefixes).

- CONF 345 - Social Dynamics of Terrorism, Security, and Justice Credits: 3
- CRIM 230 - Introduction to Homeland Security Credits: 3
- CRIM 304 - Computer Crime, Forensics, and Auditing Credits: 3 or IT 357 - Computer Crime, Forensics, and Auditing Credits: 3
- CRIM 400 - Applied Criminal Psychology Credits: 3
- CRIM 460 - Surveillance and Privacy in Contemporary Society Credits: 3
- CRIM 462 - Law Enforcement and Homeland Security Credits: 3
- CRIM 475 - Theory and Politics of Terrorism Credits: 3
- GGS 301 - Political Geography Credits: 3
- GGS 311 - Introduction to Geographic Information Systems Credits: 3
- GGS 325 - Geography of North Africa and the Middle East Credits: 3
- GGS 412 - Air Photography Interpretation Credits: 3
- GGS 416 - Satellite Image Analysis Credits: 3
- GOVT 332 - Government and Politics of the Middle East and North Africa Credits: 3
- GOVT 333 - Government and Politics of Asia Credits: 3
- GOVT 334 - Government and Politics of Europe Credits: 3
- GOVT 338 - Government and Politics of Russia Credits: 3
- GOVT 340 - Central Asian Politics Credits: 3
- GOVT 341 - Chinese Foreign Policy Credits: 3
- GOVT 345 - Political Islam Credits: 3
- GOVT 346 - American Security Policy Credits: 3
• GOVT 347 - International Security Credits: 3
• GOVT 460 - Surveillance and Privacy in Contemporary Society Credits: 3
• HIST 327 - The Soviet Union and Russia Since World War II Credits: 3
• HIST 329 - Modern Russia and the Soviet Union Credits: 3
• HIST 354 - Modern China Credits: 3
• HIST 358 - Post-1949 China Credits: 3
• HIST 460 - Modern Iran Credits: 3
• HIST 461 - Arab-Israeli Conflict Credits: 3
• HIST 465 - The Middle East in the 20th Century Credits: 3
• SOCI 320 - Social Structure and Globalization Credits: 3
• SOCI 326 - Armed Conflict and Conflict Resolution Credits: 3
• STAT 350 - Introductory Statistics II Credits: 3

Total: 18 credits

Affiliate: J. R. Censer

Course Work

The Communication Department offers all course work designated COMM in the Courses section of this catalog.
Undergraduate Programs

The department offers a BA in communication, which prepares students for graduate study or entry-level positions in such fields as interpersonal and organizational communication, journalism, media production and criticism, persuasive and political communication, and public relations.

Students majoring in communication complete a concentration from one of these areas: interpersonal and organizational communication, journalism, media production and criticism, persuasive and political communication, or public relations.

Internships

The department has an active internship program. Many students include an internship during their senior year as a way of gaining practical experience with national and international businesses, associations, or government agencies.

Student Activities

All students are encouraged to participate in one of the communication activities: Broadside, debate, forensics, GMView, Mason Cable Network, PRSSA, or WGMU.

Honors in the Major

Highly qualified students may pursue advanced work leading to graduation with honors in the major. Students are eligible to apply for honors coursework if they meet the following requirements:

- Completion of a minimum of 75 credit hours, including COMM 200 and two of COMM 300, 301, 302, 305.
- Minimum GPA of 3.25 in all coursework completed at George Mason.
- GPA of 3.50 in all communication coursework completed at George Mason and applied to the major.

The Honors program is a fall-spring sequence. Applications may be submitted by eligible students for fall semester enrollment. The deadline is March 15 each spring, for the sequence beginning the following fall. Student eligibility will be dependent on the GPA at the time of application. If accepted to pursue honors coursework, the student must then enroll in COMM 490. Under the guidance of the COMM 490 instructor, the student will complete a research prospectus for and honors project to be implemented in the following semester in COMM 491.

To remain eligible for honors coursework, the student must

- receive a grade of 3.00 (no lower than B) in COMM 490;
- have the research prospectus approved by the COMM 490 instructor, the sponsoring faculty member, and the honors director; and
- maintain and overall GPA of 3.50.

In the following semester, the student enrolls in COMM 491, Honors Research Project in Communication, which is ordinarily taught by the Honors Program Director. The student conducts his/her research and prepares a written project conforming to the standards set by the instructor. Upon completion of the project, the COMM 490 and 491 instructors and the honors director will determine if the project is of honors quality, which is then indicated by the grade earned in COMM 491. For honors designation, the student must achieve an average grade of 3.50 across COMM 490 and 491 and must also maintain minimum GPA eligibility requirements outlined above.

Minors
The department offers minors in communication, electronic journalism, and sport communication. The latter is offered jointly by the Department of Communication and the School of Recreation, Health, and Tourism in the College of Education and Human Development. The department faculty also participate in these minors: Film and Media Studies Minor, Multimedia Minor, Consciousness and Transformation Minor, and Women and Gender Studies Minor.

Students majoring in communication may choose to minor in any discipline that offers an undergraduate minor.

**Graduate Programs**

The department offers a MA and a PhD in communication with three major areas of emphasis: strategic communication, health communication, and science communication. The programs provide students with a strong foundation in communication theory and research while at the same time encouraging students to apply their skills in the public, private, and nonprofit sectors.

The faculty in strategic communication, drawing on their expertise in organizational, public relations, and political communication theory and research, teach courses on planning, developing, executing, and evaluating public communication campaigns and interventions. Faculty in health communication teach courses which explore the relationship between communication practices and the health and well-being of individuals and communities. This includes how to improve cooperation and coordination between health care providers and consumers, how to effectively utilize health information technologies, and how to develop influential health promotion campaigns. The faculty in science communication offer courses designed to improve students’ knowledge of the particular challenges involved in making science and technology understandable to a variety of audiences, as well as exploring solutions to those challenges. Science communicators work in media and in other organizations and agencies involved in promoting and disseminating science, as well as facilitating public engagement in considering science-related issues. Strategic, health, and science communication are three of the most rapidly expanding specialties within the broad field of communication. Graduates of these programs find a very welcoming employment market for their expertise.

**Funding**

The department offers teaching and research assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

**Bachelor of Arts**

**Communication, BA**

**Banner Code:** LA-BA-COM

Web: communication.gmu.edu

The bachelor of arts in communication prepares students for graduate study or entry-level positions in such fields as interpersonal and organizational communication, journalism, media production and criticism, persuasive and political communication, and public relations.

This program of study is offered by the Department of Communication.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog.

**Degree Requirements**
Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in communication must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences. Students pursuing this degree must complete 36 credits with a minimum grade of 2.00 in each course.

Of the 36 credits applied to the BA in communication, at least 3 must be in a course designated presentation-intensive; there is a list of such courses at the end of this section. Of the 18 credits of concentration (12 credits) and electives (6 credits), at least 12 credits must be at the 300-400 level and no more than 6 credits may be in COMM 450 - Internship.

Of the 120 credits applied to a degree, no more than 9 credits may be from an internship and no more than 10 credits may be from courses listed at the end of this degree description.

Six required courses (18 credits) in communication

Students must complete COMM 200 with a grade of C (2.00) or better before enrolling in COMM 300, 301, or 302. Students then have to complete two of COMM 300, 301, 302, and 305 with a grade of C (2.00), before enrolling in COMM 400.

- COMM 200 - Communication Theory Credits: 3
- COMM 300 - Foundations of Public Communication Credits: 3
- COMM 301 - Foundations of Interpersonal Communication Credits: 3
- COMM 302 - Foundations of Mass Communication Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3
- COMM 400 - Research Methods in Communication Credits: 3

Elective courses in communication (6 credits)

Students choose any COMM course in consultation with an advisor keeping in mind the limitations that apply to the whole degree:

- no more than 9 credits may be from an internship (COMM 450 - Internship in Communication Credits: 3 or GOVT 480 - Internship Credits: 3)
- no more than 10 credits may be from courses listed at the end of this program description.

One approved concentration (12 credits)

Students complete one concentration. They must declare their concentration before they earn more than 75 credits. Transfer students with 60 or more credits are encouraged to declare a concentration by the end of their first semester. COMM 399 - Special Topics in Communication may be applied toward a concentration when the topic is relevant to the concentration with prior written approval of the undergraduate director.

▲ Concentration in Interpersonal and Organizational Communication (IOC)

One required course (3 credits)

- COMM 335 - Organizational Communication Credits: 3

9 credits chosen from:

- COMM 201 - Small Group Communication Credits: 3
- COMM 230 - Case Studies in Persuasion Credits: 3
• COMM 304 - Foundations of Health Communication Credits: 3
• COMM 320 - Business and Professional Communication Credits: 3
• COMM 332 - Nonverbal Communication Credits: 3
• COMM 344 - Parliamentary Procedure Credits: 1
• COMM 401 - Interpersonal Communication in the Workplace Credits: 3
• COMM 430 - Persuasion Credits: 3
• COMM 433 - Environmental Communication Credits: 3
• COMM 434 - Interviewing Credits: 3
• COMM 465 - Topics in Communication and Gender Credits: 3

Total: 12 credits

▲ Concentration in Journalism (JNL)

Two required courses (6 credits)

• COMM 303 - Writing across the Media Credits: 3
  and
• COMM 351 - News Writing and Reporting Credits: 3 or COMM 352 - News Editing: Print and Beyond Credits: 3

6 credits chosen from:

• COMM 145 - Newspaper Workshop I Credits: 1
• COMM 157 - Video Workshop Credits: 1
• COMM 203 - Introduction to Journalism Credits: 3
• COMM 330 - Principles of Public Relations Credits: 3
• COMM 345 - Newspaper Workshop II Credits: 1
• COMM 351 - News Writing and Reporting Credits: 3 (if not taken as a required course)
• COMM 352 - News Editing: Print and Beyond Credits: 3 (if not taken as a required course)
• COMM 353 - Broadcast Journalism Credits: 3
• COMM 356 - Video: Performance and Writing Credits: 3
• COMM 361 - Online Journalism Credits: 3
• COMM 370 - Feature Writing Credits: 3
• COMM 371 - Sports Writing and Reporting Credits: 3
• COMM 373 - Business and Economic Journalism Credits: 3
• COMM 374 - Political Journalism Credits: 3
• COMM 391 - Writing for Public Relations Credits: 3
• COMM 453 - Electronic News Gathering and Editing Credits: 3
• COMM 454 - Free Speech and Ethics Credits: 3
• COMM 455 - History of Print Journalism Credits: 3
• COMM 475 - Journalism Law Credits: 3

Total: 12 credits

▲ Concentration in Media Production and Criticism (MPC)

One required course (3 credits)
• COMM 380 - Media Criticism Credits: 3

9 credits chosen from:

• COMM 148 - Radio Workshop I Credits: 1
• COMM 157 - Video Workshop Credits: 1
• COMM 202 - Media and Society Credits: 3
• COMM 210 - Voice and Articulation Credits: 3
• COMM 255 - Introduction to Media Literacy Credits: 3
• COMM 303 - Writing across the Media Credits: 3
• COMM 348 - Radio Workshop II Credits: 1
• COMM 350 - Mass Communication and Public Policy Credits: 3
• COMM 354 - Radio Production Credits: 3
• COMM 355 - Video Principles and Practices Credits: 3
• COMM 356 - Video: Performance and Writing Credits: 3
• COMM 358 - Video Producing and Directing Credits: 3
• COMM 359 - Media Management Credits: 3
• COMM 363 - Media Career Seminar Credits: 1
• COMM 375 - Mass Communication Advertising and Promotions Credits: 3
• COMM 356 - Comparative Mass Media Credits: 3

Total: 12 credits

▲ Concentration in Persuasive and Political Communication (PPC)

Two required courses (6 credits)

• COMM 430 - Persuasion Credits: 3
• COMM 434 - Interviewing Credits: 3

Two courses (6 credits) chosen from:

• COMM 140 - Forensics Seminar in Creative Arts Credits: 1
• COMM 141 - Forensics Seminar in Recreative Arts Credits: 1
• COMM 142 - Forensics Seminar in Debate: Affirmative Strategies Credits: 1
• COMM 143 - Forensics Seminar in Debate: Negative Strategies Credits: 1
• COMM 230 - Case Studies in Persuasion Credits: 3
• COMM 260 - Basic Debate Theory and Practice Credits: 3
• COMM 261 - Theories of Argumentation Credits: 3
• COMM 320 - Business and Professional Communication Credits: 3
• COMM 326 - Rhetoric of Social Movements and Political Controversy Credits: 3
• COMM 340 - Forensics Seminar in Creative Arts Credits: 1
• COMM 341 - Forensics Seminar in Recreative Arts Credits: 1
• COMM 342 - Forensics Seminar in Debate: Affirmative Strategies Credits: 1
• COMM 343 - Forensics Seminar in Debate: Negative Strategies Credits: 1
• COMM 362 - Argument and Public Policy Credits: 3
• COMM 374 - Political Journalism Credits: 3
• COMM 380 - Media Criticism Credits: 3
• COMM 412 - Politics and the Mass Media Credits: 3
• COMM 431 - Information Technology and the Political Process Credits: 3
• COMM 433 - Environmental Communication Credits: 3
• COMM 454 - Free Speech and Ethics Credits: 3
• COMM 465 - Topics in Communication and Gender Credits: 3

Total: 12 credits

▲ Concentration in Public Relations (PR)

One required course (3 credits)

• COMM 330 - Principles of Public Relations Credits: 3

Three courses (9 credits) chosen from:

• COMM 202 - Media and Society Credits: 3
• COMM 230 - Case Studies in Persuasion Credits: 3
• COMM 260 - Basic Debate Theory and Practice Credits: 3
• COMM 261 - Theories of Argumentation Credits: 3
• COMM 303 - Writing across the Media Credits: 3
• COMM 320 - Business and Professional Communication Credits: 3
• COMM 335 - Organizational Communication Credits: 3
• COMM 351 - News Writing and Reporting Credits: 3
• COMM 359 - Media Management Credits: 3
• COMM 362 - Argument and Public Policy Credits: 3
• COMM 375 - Mass Communication Advertising and Promotions Credits: 3
• COMM 389 - Public Relations for Associations and Nonprofits Credits: 3
• COMM 390 - Issues in Public Relations Credits: 3
• COMM 391 - Writing for Public Relations Credits: 3
• COMM 392 - Public Relations Study Abroad Credits: 3
• COMM 411 - Public Relations Practicum Credits: 3
• COMM 430 - Persuasion Credits: 3
• COMM 454 - Free Speech and Ethics Credits: 3

Total: 12 credits

Total: 36 credits

Presentation-Intensive Courses

Students must complete a presentation-intensive course chosen from the following courses. The presentation-intensive course may simultaneously fulfill the requirements for a concentration or for elective courses in communication.
- COMM 100 - Public Speaking Credits: 3
- COMM 210 - Voice and Articulation Credits: 3
- COMM 260 - Basic Debate Theory and Practice Credits: 3
- COMM 310 - Oral Interpretation Credits: 3
- COMM 320 - Business and Professional Communication Credits: 3
- COMM 356 - Video: Performance and Writing Credits: 3
- COMM 440 - Special Occasion Speaking Credits: 3

Courses Limited to 10 Credits

Of the 120 credits applied to the degree, no more than 10 credits may be in these courses:

- COMM 140 - Forensics Seminar in Creative Arts Credits: 1
- COMM 141 - Forensics Seminar in Recreative Arts Credits: 1
- COMM 142 - Forensics Seminar in Debate: Affirmative Strategies Credits: 1
- COMM 143 - Forensics Seminar in Debate: Negative Strategies Credits: 1
- COMM 145 - Newspaper Workshop I Credits: 1
- COMM 148 - Radio Workshop I Credits: 1
- COMM 157 - Video Workshop Credits: 1
- COMM 340 - Forensics Seminar in Creative Arts Credits: 1
- COMM 341 - Forensics Seminar in Recreative Arts Credits: 1
- COMM 342 - Forensics Seminar in Debate: Affirmative Strategies Credits: 1
- COMM 343 - Forensics Seminar in Debate: Negative Strategies Credits: 1
- COMM 345 - Newspaper Workshop II Credits: 1
- COMM 346 - Yearbook Workshop Credits: 1
- COMM 348 - Radio Workshop II Credits: 1
- COMM 450 - Internship in Communication Credits: 3
- COMM 451 - Facilitating Communication Education Credits: 3
- COMM 452 - Media Production Practicum Credits: 3
- COMM 499 - Independent Study in Communication Credits: 1-3

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as writing intensive in their majors at the 300 level or above. Students majoring in communication fulfill this requirement by successfully completing COMM 300.

Doctor of Philosophy

Communication, PhD

Banner Code: LA-PHD-COM

Web: communication.gmu.edu

The doctor of philosophy degree in communication at Mason examines the powerful roles performed by communication in contemporary society. The program has two major areas of emphasis: health and strategic communication. Students may also emphasize science communication in conjunction with either of these.
This program of study is offered by the Department of Communication.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. Applicants to the PhD in communication must already have earned a master's degree in a relevant field.

For information specific to the PhD in communication, see Application Requirements and Deadlines on the departmental web site.

**Reduction of Credit**

Students must have a master's degree before being admitted to the PhD in communication. Most students receive a reduction of study of 30 credits based on their previous master's degree.

**Degree Requirements**

To receive the PhD in communication, students must complete a minimum of 90 credits, 60 beyond the master’s degree, including core courses in theory and research methods, course work in substantive fields of study, and a research practicum. Following completion of all required course work, students must pass a written qualifying examination and an oral defense of it, after which they are advanced to candidacy by the dean and complete a dissertation, an original and independent research project.

If specific requirements are waived, students must complete substitutions, which are recorded on their Program of Study. All substitutions to degree requirements must be approved by the graduate committee.

**Doctoral Course Work (72 credits)**

**Four theory courses (12 credits)**

One required theory course

- COMM 600 - Introduction to Graduate Studies Credits: 3

Three additional theory courses chosen from:

- COMM 602 - Theories and Research of Mass Communication Credits: 3
- COMM 605 - Intercultural Communication Credits: 3
- COMM 634 - Theories of Interpersonal Communication Credits: 3
- COMM 635 - Organizational Communication Credits: 3

**Three research methods courses (9 credits)**

One required methods course

- COMM 650 - Research Methodologies in Communication Credits: 3
One qualitative methods course

Students may take COMM 725 or another course at 700-level or above as approved by the graduate committee.

One additional research methods course at the 700-level or above

This course should be chosen to help prepare for the dissertation and must be approved by the graduate committee.

Six courses (18 credits) in one of the following substantive fields of study:

Health communication

Three courses (9 credits) chosen from:

- COMM 620 - Health Communication Credits: 3
- COMM 705 - Intercultural Health and Risk Communication Credits: 3
- COMM 720 - Consumer-Provider Health Communication Credits: 3
- COMM 820 - Health Communication Campaigns Credits: 3

Three elective courses (9 credits) chosen with approval of the advisor and director

Strategic communication

Three courses (9 credits) chosen from:

- COMM 630 - Theories of Public Relations Credits: 3
- COMM 705 - Intercultural Health and Risk Communication Credits: 3
- COMM 706 - Strategic Communication Credits: 3
- COMM 735 - Crisis Communication Credits: 3

Three elective courses (9 credits) chosen with approval of the advisor and director

One research practicum (3 credits) chosen from:

- COMM 604 - Communication Research Practicum Credits: 3
- COMM 890 - Special Topics in Communication Credits: 3
- COMM 896 - Independent Study Credits: 3

Electives (0-30 credits)

Students complete the remaining credits through additional elective courses chosen in consultation with an advisor.

Advancement to Candidacy

To advance to candidacy, students must complete all course work required on their approved program of study. Students must also successfully pass a written qualifying exam and an oral qualifying exam. In addition, students must have a dissertation
committee appointed by the Dean’s Office as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean’s Office before a student can advance to candidacy.

Dissertation Research (18 credits)

Once enrolled in 998, students in this degree program must maintain continuous registration for at least 1 credit. Once enrolled in 999, student must maintain continuous registration each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in 999, students must follow the university’s continuous registration policy as specified in the Academic Policies section of the catalog. Students who defend in the summer must be registered for at least 1 credit of 999. Students may apply to this degree a minimum of 3 and a maximum of 6 credits of 998 and a minimum of 12 and a maximum of 15 credits of 999. They may apply a maximum of 18 dissertation credits (998 and 999 combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

- COMM 998 - Doctoral Dissertation Proposal Credits: 1-6
- COMM 999 - Doctoral Dissertation Research Credits: 1-15

Total: 90 credits

Graduate Certificate

Science Communication Graduate Certificate

Banner Code: LA-CERG-SCMN

Web: communication.gmu.edu

This certificate is designed for graduate students with or without an academic communication background to upgrade their knowledge of the field. It is geared to meet the needs of both communication professionals and science professionals who want to emphasize science communication work in their future careers.

This program of study is offered by the Department of Communication.

The graduate certificate in science communication may be pursued on a part-time or full-time basis.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in science communication, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements

All course choices included in this certificate must be approved by the department.

One required course (3 credits)

- COMM 639 - Science Communication Credits: 3
One course (3 credits) in communication research methods chosen from:

- COMM 650 - Research Methodologies in Communication Credits: 3
- COMM 725 - Qualitative Methods Credits: 3
- COMM 775 - Media Content Analysis Credits: 3

Two courses in COMM (6 credits) chosen from:

These courses include communication content directly relevant to science or to communication work in science-oriented organizations.

- COMM 637 - Risk Communication Credits: 3
- COMM 640 - Controversies in Science Communication Credits: 3
- COMM 641 - Communication Competencies for Scientists Credits: 3
- COMM 642 - Science and the Public Credits: 3
- COMM 644 - Analysis and Criticism of Science Journalism Credits: 3
- COMM 660 - Climate Change and Sustainability Communication Campaigns Credits: 3
- COMM 735 - Crisis Communication Credits: 3

One elective course in COMM (3 credits)

Total: 15 credits

Master of Arts

Communication, MA

Banner Code: LA-MA-COM

Web: communication.gmu.edu

The master of arts in communication examines the powerful role played by communication practices in contemporary society. Students may choose to specialize in strategic communication/public relations or health communication or pursue a concentration in science communication. They may also choose an individualized specialization in communication studies according to their interests.

This program of study is offered by the Department of Communication.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the MA in communication, see Application Requirements and Deadlines on the departmental web site.

Admission to the graduate program in communication is competitive.
Degree Requirements

All students pursuing the MA in communication follow the same general program structure whether completing the degree with a concentration or specialization. Students complete three program core courses, two theory courses, one practicum course, two specialization or concentration courses, and three elective courses (or 9 credits), of which 3 credits may be thesis.

Students must choose from one area of specialization (strategic communication/public relations, health communication, or individualized communication studies) or the Concentration in Science Communication. Specific requirements are described below. Because it is a narrow specialized area, science communication is subject to the stricter requirements of a concentration.

Students who choose to write a thesis should be aware of the policies governing theses as stated in the Academic Policies section of the catalog. If a thesis is chosen, students must follow the thesis enrollment policy of the university and, once enrolled in COMM 799, maintain continuous enrollment.

MA with Specialization (33 credits)

Three core courses (9 credits)

- COMM 600 - Introduction to Graduate Studies Credits: 3
- COMM 650 - Research Methodologies in Communication Credits: 3
- COMM 798 - Communication Studies Project Credits: 3

Two theory courses (6 credits) chosen from:

- COMM 602 - Theories and Research of Mass Communication Credits: 3
- COMM 605 - Intercultural Communication Credits: 3
- COMM 620 - Health Communication Credits: 3
- COMM 630 - Theories of Public Relations Credits: 3
- COMM 634 - Theories of Interpersonal Communication Credits: 3
- COMM 635 - Organizational Communication Credits: 3
- COMM 639 - Science Communication Credits: 3
- COMM 642 - Science and the Public Credits: 3
- COMM 706 - Strategic Communication Credits: 3

One practicum course (3 credits) chosen from:

Other courses including special topics (COMM 590 or COMM 690) and independent study, can be used to fulfill this requirement with prior written approval of the program director.

- COMM 604 - Communication Research Practicum Credits: 3
- COMM 636 - Communication Consulting Credits: 3
- COMM 641 - Communication Competencies for Scientists Credits: 3
- COMM 653 - Graduate Communication: Research and Teaching Credits: 3
- COMM 655 - Theories of Visual Communication in Telecommunications Credits: 3
- COMM 660 - Climate Change and Sustainability Communication Campaigns Credits: 3
- COMM 670 - Social Marketing Credits: 3
- COMM 694 - Communication Internship Credits: 3
- COMM 697 - Independent Production Credits: 1-3
COMM 721 - E-Health Communication Credits: 3
COMM 820 - Health Communication Campaigns Credits: 3

Area of Specialization (15 credits)

Students complete the degree by completing 6 credits of coursework in one of the three specializations and an additional 6-9 elective credits in any graduate coursework, to include a thesis. Courses outside the department require the prior written approval of the program director.

Strategic Communications/Public Relations Specialization

The specialization in strategic communication/public relations requires a minimum of two courses from the list below. A course taken as a part of the general program cannot be duplicated in credits, but it can count as a course required for the specialization. Additional credits may be met through electives.

Two specialization courses (6 credits) chosen from:

- COMM 590 - Seminar in Communication Credits: 3 (when topic is strategic communication, as approved by program director)
- COMM 602 - Theories and Research of Mass Communication Credits: 3
- COMM 615 - Political Communication Credits: 3
- COMM 630 - Theories of Public Relations Credits: 3
- COMM 636 - Communication Consulting Credits: 3
- COMM 637 - Risk Communication Credits: 3
- COMM 660 - Climate Change and Sustainability Communication Campaigns Credits: 3
- COMM 670 - Social Marketing Credits: 3
- COMM 690 - Special Topics in Communication Credits: 3 (when topic is strategic communication, as approved by program director)
- COMM 706 - Strategic Communication Credits: 3
- COMM 735 - Crisis Communication Credits: 3
- COMM 806 - International Public Relations Credits: 3
- COMM 820 - Health Communication Campaigns Credits: 3
- COMM 890 - Special Topics in Communication Credits: 3 (when topic is strategic communication, as approved by program director)

Optional thesis (3 credits)

- COMM 799 - Master's Thesis Credits: 1-6
  Students who do not choose to complete a thesis will take additional credits of elective courses.

Electives (6-9 credits)

The remaining courses in the specialization may be chosen from:

- Additional courses from the list above, or any other graduate courses in COMM.
- Up to 6 credits of coursework from other departments with prior written approval of the program director.

Students choosing to write a thesis take 6 credits of electives. Those who do not take 9 credits.

Health Communication Specialization
The specialization in health communication requires a minimum of two courses from the list below. A course taken as a part of the general program cannot be duplicated in credits, but it can count as a course required for the specialization. Additional credits may be met through electives.

Two specialization courses (6 credits) chosen from:

- COMM 590 - Seminar in Communication Credits: 3 (when topic is health communication as approved by program director)
- COMM 620 - Health Communication Credits: 3
- COMM 690 - Special Topics in Communication Credits: 3 (when topic is health communication as approved by program director)
- COMM 705 - Intercultural Health and Risk Communication Credits: 3
- COMM 720 - Consumer-Provider Health Communication Credits: 3
- COMM 721 - E-Health Communication Credits: 3
- COMM 820 - Health Communication Campaigns Credits: 3
- COMM 890 - Special Topics in Communication Credits: 3 (when topic is health communication as approved by program director)

Optional thesis (3 credits)

- COMM 799 - Master's Thesis Credits: 1-6
  Students who do not choose to complete a thesis will take additional credits of elective courses.

Electives (6-9 credits)

The remaining courses in the specialization may be chosen from:

- Additional courses from the list above, or any other graduate courses in COMM.
- Up to 6 credits of coursework from other departments with prior written approval of the program director.

Students choosing to write a thesis take 6 credits of electives. Those who do not take 9 credits.

Individualized Communication Studies specialization

Students pursuing a specialization in individualized communication studies design a program of courses to reflect their interests.

Two specialization courses (6 credits)

Two courses in a field of specialization are chosen in consultation with an advisor or the program director. These courses may include select special topics courses shown below as approved by the program director.

- COMM 590 - Seminar in Communication Credits: 3
- COMM 690 - Special Topics in Communication Credits: 3
- COMM 890 - Special Topics in Communication Credits: 3

Optional thesis (3 credits)

- COMM 799 - Master's Thesis Credits: 1-6
  Students who do not choose to complete a thesis will take additional credits of elective courses.
Electives (6-9 credits)

The remaining courses in the specialization may be chosen from:

- Additional courses from the list above, or any other graduate courses in COMM.
- Up to 6 credits of coursework from other departments with prior written approval of the program director.

Students choosing to write a thesis take 6 credits of electives. Those who do not take 9 credits.

Total: 33 credits

MA with Concentration (33 credits)

Students who wish to focus their graduate study in science communication complete the following requirements.

▲ Science Communication Concentration (SCMN)

Three core courses (9 credits)

- COMM 600 - Introduction to Graduate Studies Credits: 3
- COMM 650 - Research Methodologies in Communication Credits: 3
- COMM 798 - Communication Studies Project Credits: 3

Two theory courses (6 credits)

- COMM 639 - Science Communication Credits: 3
- COMM 642 - Science and the Public Credits: 3

One practicum course (3 credits)

- COMM 641 - Communication Competencies for Scientists Credits: 3

One required course (3 credits)

- COMM 640 - Controversies in Science Communication Credits: 3
  or
- COMM 644 - Analysis and Criticism of Science Journalism Credits: 3

Optional thesis (3 credits)

- COMM 799 - Master's Thesis Credits: 1-6
  Students who do not choose to complete a thesis will take additional credits of elective courses.

Electives (9-12 credits)

- At least one science-related course (3 credits) outside the department. Course(s) must be chosen from Graduate courses in science, social science or science policy for which students are qualified and which have been approved by the program director.
• The remaining courses in the concentration must be other graduate-level COMM courses, to include the optional thesis.

Total: 33 credits

**Non-Degree**

**Communication Minor**

**Banner Code: COM**

Web: communication.gmu.edu

The minor in communication is offered by the Department of Communication.

For policies governing all minors, see the Academic Policies section of this catalog.

**Course Work**

Students pursuing the minor must complete 18 credits in communication. Students must earn a minimum grade of 2.00 in all courses applied to the minor.

**One required course (3 credits)**

- COMM 200 - Communication Theory Credits: 3

**Two courses (6 credits) chosen from:**

- COMM 300 - Foundations of Public Communication Credits: 3
- COMM 301 - Foundations of Interpersonal Communication Credits: 3
- COMM 302 - Foundations of Mass Communication Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3

**One course (3 credits) that is public presentation intensive (PPI) chosen from:**

Other courses that are PPI may be applied to this requirement with prior written approval of the director of the minor.

- COMM 100 - Public Speaking Credits: 3
- COMM 210 - Voice and Articulation Credits: 3
- COMM 310 - Oral Interpretation Credits: 3
- COMM 320 - Business and Professional Communication Credits: 3
- COMM 356 - Video: Performance and Writing Credits: 3
- COMM 440 - Special Occasion Speaking Credits: 3

**Two elective courses (6 credits) in communication**

Students choose any COMM course in consultation with an advisor.
Total: 18 credits

Electronic Journalism Minor

Banner Code: EJ

Web: communication.gmu.edu

Electronic journalism provides a cross-platform foundation with a focus on reporting, research techniques and writing style unique to online, print, broadcast, social media and database journalism.

This minor is not available to communication majors pursuing a concentration in journalism.

This program of study is offered by the Department of Communication.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 18 credits with a minimum GPA of 2.00. Eight credits of course work must be unique to the minor.

Four required courses (12 credits)

- COMM 303 - Writing across the Media Credits: 3
- COMM 351 - News Writing and Reporting Credits: 3 or COMM 352 - News Editing: Print and Beyond Credits: 3
- COMM 361 - Online Journalism Credits: 3
- COMM 475 - Journalism Law Credits: 3

Two elective courses (6 credits) chosen from:

- COMM 203 - Introduction to Journalism Credits: 3
- COMM 330 - Principles of Public Relations Credits: 3
- COMM 351 - News Writing and Reporting Credits: 3 (if not taken as a required course)
- COMM 352 - News Editing: Print and Beyond Credits: 3 (if not taken as a required course)
- COMM 353 - Broadcast Journalism Credits: 3
- COMM 370 - Feature Writing Credits: 3
- COMM 371 - Sports Writing and Reporting Credits: 3
- COMM 373 - Business and Economic Journalism Credits: 3
- COMM 374 - Political Journalism Credits: 3
- COMM 399 - Special Topics in Communication Credits: 1-3 (take 3 credits) When relevant, may be taken as elective with prior written approval of the director of the minor.
- COMM 450 - Internship in Communication Credits: 3 (take 3 credits) When relevant, may be taken as elective with prior written approval of the director of the minor.
- COMM 453 - Electronic News Gathering and Editing Credits: 3
- COMM 454 - Free Speech and Ethics Credits: 3
- COMM 455 - History of Print Journalism Credits: 3
Total: 18 credits

Sport Communication Minor

Banner Code: SCOM

Web: communication.gmu.edu

The minor in sport communication offers students the opportunity to examine important and timely sports-related issues in an ethical context as well as analyze sports from cross-cultural perspectives. Students will gain an understanding of sport mass media, sport communication, sports reporting, interpersonal and organizational communication, and the impact each has in our global society. The courses cover theory and practice in cross-platform communication, sports ethics and theoretical underpinnings, public relations, and marketing. The minor provides applied fundamentals for students seeking employment in the commercial world of sports (areas such as management or promotion of athletic organizations) and in sports media.

This minor is offered jointly by the Department of Communication and the School of Recreation, Health, and Tourism in the College of Education and Human Development.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 18 credits with a minimum GPA of 2.00.

Four required courses (12 credits)

- COMM 303 - Writing across the Media Credits: 3
- COMM 320 - Business and Professional Communication Credits: 3
- SPMT 201 - Introduction to Sport Management or SPMT 304 - Sport, Culture, and Society Credits: 3
- SPMT 430 - Sport Communication Credits: 3

Two elective courses (6 credits), chosen from:

Special topics courses, when relevant, may be used to fulfill this requirement with the prior written approval of the director. Depending on which courses students took as a required course (above), they may use either SPMT 201 or 304 as an elective.

- COMM 305 - Foundations of Intercultural Communication Credits: 3
- COMM 330 - Principles of Public Relations Credits: 3
- COMM 351 - News Writing and Reporting Credits: 3
- COMM 356 - Video: Performance and Writing Credits: 3
- COMM 359 - Media Management Credits: 3
- COMM 361 - Online Journalism Credits: 3
- COMM 371 - Sports Writing and Reporting Credits: 3
- COMM 372 - Sports and the Media Credits: 3
- SPMT 201 - Introduction to Sport Management Credits: 3
- SPMT 302 - Sport and Ethics Credits: 3
- SPMT 304 - Sport, Culture, and Society Credits: 3
SPMT 318 - Gender and Racial Issues in Sport Credits: 3
SPMT 405 - Sport Operation and Planning Credits: 3
SPMT 412 - Sport Marketing and Finance Credits: 3
SPMT 420 - Economics and Finance in the Sport Industry Credits: 3
SPMT 440 - Global Perspectives in Sport Credits: 3
SPMT 455 - Governance and Policy in Sport Organizations Credits: 3

Total: 18 credits

■ Cultural Studies

Phone: 703-993-2851
Web: culturalstudies.gmu.edu

Faculty

Albanese, Amireh, Best, Bickford, Bockman, Burr, Censer, M. Chang, Y. Chang, Copelman, Crew, D'Amico, Dakake, Dale, Deshmukh, Foster, Froman, Fuchs, Gibson, Gilbert, Greet, Groening, Guagnano, Gusterson, Haines, Hanrahan, Harvey, Hodges, Holt, Jacobs, Jann, Johnsen-Neshati, Kaplan, Karush, Kaufmann, Kim, Lancaster (director), Landsberg, Leeman, Leon, Lont, Malouf, Mandaville, Matz, Mcfarlane, Mantz, Miller, O’Connor, O’Malley, Palkovich, Rabin, Ricouart, Samara, Sample, Scarlata, Schrum, Seligmann, Singh, Shutika, P. Smith, S. Smith, Sockett, Todd, Travis, Willse, Yadav, Yocom, Zagarri

Course Work

The Cultural Studies Program offers all course work designated CULT in the Courses section of this catalog.

Cultural Studies at Mason

The Cultural Studies Program is distinctive in several respects. While similar programs at other universities are based in a department, the program at Mason has a truly interdisciplinary foundation, drawing on faculty members from 14 different departments across the university. The program explicitly links the social sciences and the humanities by combining their methods of interpretation to explore the production, distribution, and consumption of cultural objects in their social contexts. With particular focus on theory and method in crafting this linkage, the program addresses contemporary issues of nationality, class, race, and gender and opens the scope of scholarly inquiry to all forms of culture, past and present.

Undergraduate Programs

Cultural studies does not have an undergraduate program, but supports the interdisciplinary undergraduate program in global affairs as well as a special topics course in cultural studies. CULT 320 - Globalization and Culture is a core requirement for students majoring in global affairs. CULT 390 - Topics in Cultural Studies is a course whose content will change from offering to offering and will be of special interest in global affairs.

Graduate Programs
The doctoral program in cultural studies trains students for scholarship and teaching. The core curriculum includes an introduction to cultural studies and a methods course, as well as courses on political economy, gender and sexuality, critical race studies, science and technology, social institutions, and visual and performance culture.

All students develop field specializations in two areas of cultural studies. The particular strengths of the program are visual culture, media, and new media studies; political economy and globalization; gender and sexuality studies.

**Funding**

The program offers teaching assistantships and fellowships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

**Related Master's Degrees**

Applicants to the doctoral degree in cultural studies must already hold a master's degree. Students interested in pursuing the PhD in cultural studies at Mason who do not meet this requirement might wish to consider one of the related master's degrees at Mason (anthropology, English, history, foreign languages, philosophy, and sociology.) Of course, the required master's degree may be taken from any institution of your choice.

**Doctor of Philosophy**

**Cultural Studies, PhD**

**Banner Code: LA-PHD-CULT**

Web: culturalstudies.gmu.edu

The doctoral program in cultural studies is offered by the Cultural Studies Program.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. Applicants to the PhD in cultural studies must already have earned a master’s degree in a relevant field.

For further information specific to the PhD in cultural studies, see Application Requirements and Deadlines on the college web site.

**Reduction of Credit**

Students must have a master's degree before being admitted to the PhD in cultural studies. Most students receive a reduction of study of 30 credits based on their previous master's degree.

**Degree Requirements**
As with all doctoral programs, the emphasis in this program is on the development of intellectual mastery and professional competence. Students must complete a minimum of 78 credits, 48 beyond the master's degree. The most important requirements are the field statements and defense and completion of a doctoral thesis that reflects the student’s ability to do original interdisciplinary work that meets professional standards.

**Doctoral Course Work (66-69 credits)**

**Four core courses (12 credits)**

- CULT 802 - Histories of Cultural Studies Credits: 3
- CULT 804 - Histories of Cultural Studies II Credits: 3
- CULT 806 - Research Seminar in Cultural Studies Credits: 3
- CULT 808 - Student/Faculty Colloquium in Cultural Studies Credits: 1 (Students must take CULT 808 a minimum of 3 times.)

**Minimum of one course (3 credits) in theory chosen from:**

- CULT 810 - Culture and Political Economy Credits: 3
- CULT 814 - Gender and Sexuality Credits: 3
- CULT 820 - After Colonialism Credits: 3

**Minimum of one course (3 credits) in a topic chosen from:**

- CULT 812 - Visual Culture Credits: 3
- CULT 816 - Science/Technology Credits: 3
- CULT 818 - Social Institutions Credits: 3

**Field Requirements (18 credits)**

Under the guidance of faculty advisory committees, students define two fields that point topically and theoretically toward teaching interests, dissertation research, and related forms of professional development. Students select relevant courses from theory or topic courses not used to fulfill the previous requirements or from special topics courses. If doctoral level coursework is not available in a given area, students may take one independent study (CULT 870) to support the development of the field.

Students must take a minimum of three courses (9 credits) in two different fields. The 9 credits in each field must include a relevant section of CULT 880 taught by that field’s primary advisor.

- CULT 880 - Field Concentration Credits: 3

**Field Statements**

Students demonstrate competence in each of their two chosen fields by producing and orally defending a field statement that consists of a comprehensive, critical literature review. The field statements and the defense constitute the candidacy exam for the PhD in cultural studies.

**Up to one course in methodology (0-3 credits)**
Students must take one course in a relevant methodology in which they are not already trained. Students choose the specific course from program or departmental graduate offerings (600 level or above) under the guidance of their faculty advisory committee. A course chosen to fulfill the credits for a field requirement, if relevant, may be used to meet the methodology requirement with permission of the faculty advisory committee. Students who do not take a relevant and approved methodology course in partial fulfillment of a field requirement need to take a methodology course (3 credits) to fulfill this requirement. They will have a degree total of 81 credits.

**Proficiency in a foreign language**

Students are required to demonstrate proficiency in at least one foreign language before being permitted to defend the doctoral dissertation proposal.

**Electives (0-30)**

Students can complete the 78 credit requirement through credits of additional coursework chosen in consultation with an advisor.

**Advancement to Candidacy**

To advance to candidacy, students must successfully complete all course work required on their approved program of study and demonstrate proficiency in a foreign language. Students must also successfully complete two written field statements and pass an oral comprehensive exam based on them.

**Dissertation Research (12 credits)**

Once enrolled in 998, students in this degree program must maintain continuous registration in 998 or 999 each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in 999, students must follow the university’s continuous registration policy as specified in the Academic Policies section of the catalog. Students who defend in the summer must be registered for at least 1 credit of 999.

Students must complete a minimum of 3 credits of 999. They may apply a maximum of 12 dissertation credits (998 and 999 combined) to the degree.

- CULT 998 - Doctoral Dissertation Proposal Credits: 1-6
- CULT 999 - Doctoral Dissertation Credits: 1-12 (minimum of 3 credits)

**Total: 78-81 credits**

■ **Economics**

Phone: 703-993-1151  
Web: economics.gmu.edu

**Faculty**

**Distinguished professors emeriti:** Smith, Tullock

**Professors emeriti:** Chung, Phillips, Rowley, Vaughn
Professors: Bennett, Boettke, Boudreaux, Caplan, Cowen, Heiner, Houser (chair), Klein, Leeson, Levy, McCabe, Nye, Stratmann, Wagner, White, Williams

Associate professors: Castillo, Coyne, Hanson, Jones, Meyer, Petrie, Ramirez, Tabarrok, Wiest

Assistant professors: Eil, Koyama, Johnson

Term assistant professor: Dunick, Rustici

Course Work

The Economics Department offers all course work designated ECON in the Courses section of the catalog.

Undergraduate Programs

The department offers a bachelor of arts and a bachelor of science degree in economics. The bachelor of science degree program is designed for students who desire a more technical program with a stronger emphasis on economic and quantitative analysis. It is especially appropriate for students who anticipate a career as an economic analyst in government, consulting, trade associations, or private sector positions that emphasize economic research and analysis. The requirements are also suitable for students planning postgraduate education in economics or more quantitative business administration programs.

Students interested in careers in the business world can pursue a concentration in managerial economics within the BS in economics.

The bachelor of arts degree in economics is designed for students with an interest in the liberal arts. It is appropriate for those who prefer a less quantitative degree program and may be especially suitable for students planning to attend law school or graduate programs in business or public administration.

Honors in the Major

Students pursuing departmental honors must complete 6 hours of ECON 495 culminating with an original work of research and an oral presentation. Requirements for departmental honors are in addition to the coursework required for the major. Students must complete ECON 495 with a grade of B or higher to receive departmental honors.

Economics majors who have completed 90 credits with an overall GPA of 3.50 and a GPA of 3.50 within the major are eligible to apply. Not all applicants who meet the minimum requirements are guaranteed acceptance.

Applications will be available starting May 1st of each year. Applications are due by August 1st.

To be accepted into the program and enroll in ECON 495 students must submit a research proposal. Research proposals can be developed independently or by completing ECON 494 with a grade of B or higher. Completion of ECON 494 is not required for departmental honors.

Minors

The department offers a minor in economics and a minor in economic systems design. Both are available to students in any major.

Bachelor’s/Accelerated Master’s Program
The department offers highly qualified undergraduates the opportunity to apply to an accelerated master’s degree program in economics. If accepted, students will be able to earn both an undergraduate and a graduate degree after satisfactory completion of 144 credits, sometimes within five years.

Graduate Programs

The department offers a master’s and a doctoral degree in economics. The department is noted for its emphasis on comparative institutional analysis and its focus on the relations among economic, political, and legal institutions. This is reflected in the specializations associated with the department: experimental economics, Austrian economics, public choice, constitutional political economy, law and economics, and new institutional economics.

The department offers a graduate certificate in economic systems design, which provides a well defined course of study for students who want to advance or update their knowledge in this fast-moving field.

Funding

The department offers graduate teaching and research assistantships and fellowships that are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students with assistantships must register for a minimum of six credits a semester and, like all students, demonstrate satisfactory progress toward their degree.

Bachelor of Arts

Economics, BA

Banner Code: LA-BA-ECON

Web: economics.gmu.edu

The BA in economics is designed for students with a strong interest in the liberal arts. It is appropriate for those who prefer a less quantitative degree program than the BS in economics and may be especially appropriate for students planning to attend law school or graduate programs in business or public administration.

Some economics courses may fulfill the university-wide general education requirement in global understanding or the college requirement in non-Western culture. Check with the departmental advising office for more information. Economics majors can fulfill the university-wide general education synthesis requirement with ECON 309.

This undergraduate program offers students the option of applying to the accelerated master's degree program. See Economics, BA or BS/Economics, Accelerated MA for specific requirements.

This program of study is offered by the Department of Economics.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog.

Degree Requirements

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in economics must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences. Students pursuing this degree must complete the course work below with a minimum GPA of 2.00 overall in their ECON coursework. Students must also complete ECON 103 and 104 with at least a 2.00 (C) in each.
BA without a Concentration

Six or seven required courses (18-19 credits)

- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- ECON 306 - Intermediate Microeconomics Credits: 3
- ECON 311 - Intermediate Macroeconomics Credits: 3
- MATH 108 - Introductory Calculus with Business Applications Credits: 3 or HNRT 125 - A Liberal Arts Approach to Calculus Credits: 3 or MATH 113 - Analytic Geometry and Calculus I Credits: 3
- IT 103 - Introduction to Computing Credits: 3 or CS 112 - Introduction to Computer Programming Credits: 4, or both
- MIS 102 - Spreadsheet Applications for Business Credits: 1 and HNRS 353 - Technology in the Contemporary World (3 credits)

One or two courses in statistics (4 or 6 credits)

- OM 210 - Statistical Analysis for Management Credits: 4, or both
- STAT 250 - Introductory Statistics I Credits: 3 and STAT 354 - Probability and Statistics for Engineers and Scientists I Credits: 3 and STAT 350 - Introductory Statistics II Credits: 3, or both
- STAT 344 - Probability and Statistics for Engineers and Scientists I Credits: 3 and STAT 354 - Probability and Statistics for Engineers and Scientists II Credits: 3

Eight elective courses (24 credits)

Students choose their electives from courses in economics at the 300 and 400 level. ECON 385 may not be used to fulfill this requirement.

Total: 46 or 49 credits

▲ Concentration in Philosophy, Politics, and Economics (PPE)

This 76-79 credit concentration offers students a program that explores the interdisciplinary connections between philosophy, political science, and economics.

Seven or eight courses (21-22 credits) in economics

ECON 103 fulfills the general education requirement in social and behavioral science.

- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- ECON 306 - Intermediate Microeconomics Credits: 3
- ECON 311 - Intermediate Macroeconomics Credits: 3
- ECON 412 - Game Theory and Economics of Institutions Credits: 3
- MATH 108 - Introductory Calculus with Business Applications Credits: 3 or HNRT 125 - A Liberal Arts Approach to Calculus Credits: 3 or MATH 113 - Analytic Geometry and Calculus I Credits: 3
- IT 103 - Introduction to Computing Credits: 3 or CS 112 - Introduction to Computer Programming Credits: 4, or both
- MIS 102 - Spreadsheet Applications for Business Credits: 1 and HNRS 353 - Technology in the Contemporary World Credits: 3
One or two courses in statistics (4-6 credits)

- OM 210 - Statistical Analysis for Management Credits: 4, or both STAT 250 - Introductory Statistics I Credits: 3 and STAT 350 - Introductory Statistics II Credits: 3, or both STAT 344 - Probability and Statistics for Engineers and Scientists I Credits: 3 and STAT 354 - Probability and Statistics for Engineers and Scientists II Credits: 3

Eight elective courses (24 credits)

Electives are chosen from courses in economics at the 300 and 400 level. ECON 385 may not be used to fulfill this requirement. If ECON 340 is chosen as an elective, students need not take the 4-credit course MATH 114; however, MATH 114 is strongly recommended for students considering graduate school in economics since it is required for admission to most graduate programs. An additional calculus course beyond MATH 114 is also advisable for students considering graduate study in economics.

Four courses in philosophy (12 credits)

- PHIL 324 / GOVT 324 - Modern Western Political Theory Credits: 3 or PHIL 327/ GOVT 327 - Contemporary Western Political Theory Credits: 3
- PHIL 357 - Philosophy of the Social Sciences Credits: 3 or PHIL 371 - Philosophy of Natural Sciences Credits: 3
- PHIL 358 - Ethics and Economics Credits: 3
- PHIL 411 - Theories of Decision Credits: 3

Four courses in public and international affairs (12 credits)

- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 323 / PHIL 323 - Classical Western Political Theory Credits: 3
- GOVT 422 - Constitutional Interpretation Credits: 3
- GOVT 467 - Current Issues in Economic Policy Credits: 3

One capstone experience course (3 credits)

- GOVT 469 or PHIL 460/ ECON 460 - Senior Seminar in Philosophy, Politics, and Economics Credits: 3

Total: 76 - 79 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as “writing intensive” in their majors at the 300 level or above. Students majoring in economics fulfill this requirement by successfully completing ECON 345, 355, 365, 435, or 470.

Bachelor of Science

Economics, BS

Banner Code: LA-BS-ECON
The BS in economics is designed for students who desire a more technical program than the BA, one with a stronger emphasis on economic and quantitative analysis. It is especially appropriate for students who anticipate a career as an economic analyst in government, consulting, trade associations, or other private sector positions that emphasize economic research and analysis. The requirements are also appropriate for students planning postgraduate education in economics or more quantitative business administration programs.

Some economics courses may fulfill the university-wide general education requirement in global understanding. Check with the departmental advising office for more information. Economics majors can fulfill the university-wide general education synthesis requirement with ECON 309.

This undergraduate program offers students the option of applying to the accelerated master's program. See Economics, BA or BS/Economics, Accelerated MA for specific requirements.

This program of study is offered by the Department of Economics. For policies governing all undergraduate degrees, see the Academic Policies section of the catalog.

Degree Requirements

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BS in economics must complete additional college requirements for the BS degree in the College of Humanities and Social Sciences.

Students pursuing the BS in economics must complete the course work below, earning a minimum GPA of 2.00 overall in their ECON coursework.

BS without a Concentration

Eight required courses (26 credits)

- ECON 103 - Contemporary Microeconomic Principles Credits: 3 (with grade of C or above)
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3 (with grade of C or above)
- ECON 306 - Intermediate Microeconomics Credits: 3
- ECON 311 - Intermediate Macroeconomics Credits: 3
- ECON 345 - Introduction to Econometrics Credits: 3
- MATH 113 - Analytic Geometry and Calculus I Credits: 4
- MATH 114 - Analytic Geometry and Calculus II Credits: 4
- IT 103 - Introduction to Computing Credits: 3

Two courses in statistics (6 credits)

Students choose one sequence:
- STAT 250 - Introductory Statistics I Credits: 3 and STAT 350 - Introductory Statistics II Credits: 3
- or
- STAT 344 - Probability and Statistics for Engineers and Scientists I Credits: 3 and STAT 354 - Probability and Statistics for Engineers and Scientists II Credits: 3

One course (3 credits) chosen from:
Eight elective courses (24 credits)

Electives are chosen from courses in economics at the 300 and 400 level. ECON 385 may not be used to fulfill this requirement.

If ECON 340 - Introduction to Mathematical Economics is chosen as an elective, students need not take the 4-credit course MATH 114; however, MATH 114 is strongly recommended for students considering graduate school in economics since it is required for admission to most graduate programs. An additional calculus course beyond MATH 114 is also advisable for students considering graduate study in economics.

Total: 59 credits

▲ Concentration in Managerial Economics (MECN)

Student who wish to focus their BS in economics for application in the business world may choose to pursue a concentration in managerial economics. They complete 62 credits, 10 of which may be used also to fulfill general education requirements.

Seven required courses in economics (21 credits)

- ECON 103 - Contemporary Microeconomic Principles Credits: 3 (fulfills the general education requirement in social and behavioral science)
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- ECON 306 - Intermediate Microeconomics Credits: 3
- ECON 308 - Managerial Economics and Strategy Credits: 3
- ECON 310 - Money and Banking Credits: 3
- ECON 311 - Intermediate Macroeconomics Credits: 3
- ECON 345 - Introduction to Econometrics Credits: 3

Two courses in statistics (6 credits)

Students choose one sequence:

- STAT 250 - Introductory Statistics I Credits: 3 and STAT 350 - Introductory Statistics II Credits: 3
- or
- STAT 344 - Probability and Statistics for Engineers and Scientists I Credits: 3 and STAT 354 - Probability and Statistics for Engineers and Scientists II Credits: 3

Four required courses in math, accounting, and information technology (14 credits)

- ACCT 203 - Survey of Accounting Credits: 3
- IT 103 - Introduction to Computing Credits: 3 (fulfills the general education requirement in information technology)
- MATH 113 - Analytic Geometry and Calculus I Credits: 4 (fulfills the general education requirement in quantitative reasoning)
- MATH 114 - Analytic Geometry and Calculus II Credits: 4 (ECON 340 may NOT be substituted for MATH 114 for the concentration)

One required course in business writing (3 credits)
• SOM 301 - Business Models: A Communication Approach Credits: 3

Three elective courses in economics (9 credits) chosen from:

• ECON 321 - Economics of Labor Credits: 3
• ECON 370 - Economics of Industrial Organization Credits: 3
• ECON 390 - International Economics Credits: 3
• ECON 412 - Game Theory and Economics of Institutions Credits: 3
• ECON 415 - Law and Economics Credits: 3
• ECON 420 - International Money and Finance Credits: 3
• ECON 496 - Special Topics in Economics Credits: 3 (requires departmental permission)

Two elective courses (6 credits) in economics chosen from courses at the 300 and 400 level.

ECON 385 may not be used to fulfill this requirement.

One elective course (3 credits) not in economics chosen from:

• BULE 302 - Legal Environment of Business Credits: 3
• FNAN 301 - Financial Management Credits: 3
• MGMT 301 - People and Organizations Credits: 3
• MKTG 301 - Principles of Marketing Credits: 3
• MIS 301 - Introduction to Business Information Systems Credits: 3
• OM 301 - Operations Management Credits: 3

Total: 62 credits

▲ Concentration in Philosophy, Politics, and Economics (PPE)

This is a high credit concentration for students interested in a program that explores the interdisciplinary connections between philosophy, political science, and economics.

Six required courses (18 credits) in economics

• ECON 103 - Contemporary Microeconomic Principles Credits: 3 (fulfills the general education requirement in social and behavioral science)
• ECON 104 - Contemporary Macroeconomic Principles Credits: 3
• ECON 306 - Intermediate Microeconomics Credits: 3
• ECON 311 - Intermediate Macroeconomics Credits: 3
• ECON 345 - Introduction to Econometrics Credits: 3
• ECON 412 - Game Theory and Economics of Institutions Credits: 3

Two courses in statistics (6 credits)

Students choose one sequence:
• STAT 250 - Introductory Statistics I Credits: 3 and STAT 350 - Introductory Statistics II
  or
• STAT 344 - Probability and Statistics for Engineers and Scientists I Credits: 3 and STAT 354 - Probability and Statistics for Engineers and Scientists II

Three required courses in math and information technology (11 credits)

• IT 103 - Introduction to Computing Credits: 3 (fulfills the general education requirement in information technology)
• MATH 113 - Analytic Geometry and Calculus I Credits: 4
• MATH 114 - Analytic Geometry and Calculus II Credits: 4

Eight elective courses (24 credits)

Electives are chosen from courses in economics at the 300 and 400 level. ECON 385 may not be used to fulfill this requirement. If ECON 340 - Introduction to Mathematical Economics is chosen as an elective, students need not take the 4-credit course MATH 114; however, MATH 114 is strongly recommended for students considering graduate school in economics since it is required for admission to most graduate programs. An additional calculus course beyond MATH 114 is also advisable for students considering graduate study in economics.

Four courses in philosophy (12 credits)

• PHIL 324/ GOVT 324 - Modern Western Political Theory Credits: 3 or PHIL 327/ GOVT 327 - Contemporary Western Political Theory
• PHIL 357 - Philosophy of the Social Sciences Credits: 3 or PHIL 371 - Philosophy of Natural Sciences
• PHIL 358 - Ethics and Economics Credits: 3
• PHIL 411 - Theories of Decision Credits: 3

Four courses in public and international affairs (12 credits)

• GOVT 103 - Introduction to American Government Credits: 3
• GOVT 323 / PHIL 323 - Classical Western Political Theory Credits: 3
• GOVT 422 - Constitutional Interpretation Credits: 3
• GOVT 467 - Current Issues in Economic Policy Credits: 3

One capstone experience course (3 credits)

• GOVT 469 or PHIL460/ ECON 460 - Senior Seminar in Philosophy, Politics, and Economics Credits: 3

Total: 86 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as “writing intensive” in their majors at the 300 level or above. Students majoring in economics fulfill this requirement by successfully completing ECON 345, 355, 365, 435, or 470.

Bachelor/Accelerated Master's
Economics, BA or BS/Economics, Accelerated MA

Web: economics.gmu.edu

Highly qualified Mason economics majors may apply to the accelerated master’s degree program. If accepted, students will be able to earn both bachelor’s and master’s degrees in economics after satisfactory completion of 144 credits. Graduates are exceptionally well-prepared for professional school or a PhD program in economics or a related discipline.

This program of study is offered by the Department of Economics.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the accelerated MA in economics, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Doctor of Philosophy

Economics, PhD

Banner Code: LA-PHD-ECON

Web: economics.gmu.edu

The PhD in economics prepares students for careers in academia, business, and government. Core courses train students in modern theory and quantitative techniques, while field courses stress the application of theory to relevant economic problems.
Dissertation work requires students to master and apply the skills of original research. The department emphasizes publishing; many students have had articles accepted for publication in professional journals while in the graduate program. Research in the Department of Economics covers a broad spectrum, from problems of immediate policy importance to fundamental questions of economic and social organization.

This program of study is offered by the Department of Economics.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the PhD in economics, see Application Requirements and Deadlines on the departmental web site.

Reduction of Credit

Students who enter with a master’s degree may have their credit requirement reduced by up to 30 credits, depending on the department's judgment about the degree of closeness of that work to work that would have been taken at George Mason University. Reduction also requires approval of the dean. Requests for reduction of credit are reviewed only after acceptance to the doctoral program.

Program of Study

All students must have an approved program of study as specified in the section Requirements for Doctoral Degrees in the Academic Policies section of the catalog.

Degree Requirements

The program requires 72 credits of coursework and dissertation. Students must earn a minimum GPA of 3.00 in coursework applied to the degree. No more than two courses with a grade of 2.00 may be applied toward the degree.

Doctoral Course Work (48-60 credits)

Six core courses (18 credits)

- ECON 637 - Econometrics I Credits: 3
- ECON 715 - Macroeconomic Theory I Credits: 3
- ECON 811 - Microeconomic Theory I Credits: 3
- ECON 812 - Microeconomic Theory II Credits: 3
- ECON 816 - Macroeconomic Theory II Credits: 3
- ECON 830 - Mathematical Economics I Credits: 3

Elective courses (30-42 credits)

Students choose their electives from economics courses in any of the fields offered by the department. Students may substitute up to 6 credits of courses outside economics in closely related fields with prior written approval of the director of the graduate program. ECON 695 Special Topics cannot be applied toward PhD requirements.
Qualifying exams

Students must successfully pass qualifying exams in microeconomics and macroeconomics.

Field exams

Students must successfully pass field exams in two knowledge areas. Subject to course availability, the department offers courses in the following fields of study on which the knowledge area field exams will be based. Because the specific courses offered each year vary, students should consult the department for the courses that can be used for each field.

- Austrian economics
- Constitutional political economy
- Economic history
- Experimental economics
- Industrial organization
- Individualized field exam
- Institutions and development
- Law and economics
- Monetary theory
- Public choice
- Smithian political economy

Advancement to Candidacy

To advance to candidacy, students must complete all course work required on their approved program of study and all exams. In addition, students must have a dissertation committee appointed by the dean as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean’s Office before a student can advance to candidacy.

Dissertation Research (12 to 24 credits)

Once enrolled in 998, students in the economics doctoral program must maintain continuous registration in 998 or 999 each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in 999, students must follow the university’s continuous registration policy as specified in the Academic Policies section of the catalog. Students who defend in the summer must be registered for at least 1 credit of 999.

Students must complete a minimum of 3 credits of 999. They may apply a minimum of 12 and a maximum of 24 dissertation credits (998 and 999 combined) to the degree.

- ECON 999 - Doctoral Dissertation Research Credits: 1-15 (minimum of 3 credits)

Total: 72 credits

Graduate Certificate

Economic Systems Design Graduate Certificate
The certificate in economic systems design provides graduate students with a program of courses and laboratory experience. Course work for the graduate certificate can be used for credit toward the MA and PhD in economics. The primary purpose is to provide a well defined target for students who want to advance or update their knowledge in this fast-moving field.

Graduate students in economics, computer science, mathematics, systems engineering, and informatics find this certificate a strong complement to their major area of study. The courses and project work provide skills that can be used in electronic commerce, public policy, and internal firm resource allocation processes.

This program of study is offered by the Department of Economics.

For policies governing all graduate certificates, see the Academic Policies section of the catalog.

The graduate certificate in economic systems design may be pursued on a part-time or full-time basis.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in economic systems design, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements

Students must have a minimum cumulative GPA of 3.00 in courses applied to the certificate with no more than one course with a grade of C (2.00).

Three courses (9 credits) in economic systems design

- ECON 632 - Economic Systems Design Principles and Experiments Credits: 3
- ECON 633 - Economic Systems Design Case Studies and Analysis Credits: 3
- ECON 634 - Economic Systems Design Implementation Credits: 3

Two elective courses (6 credits)

Students choose the elective courses in consultation with an advisor in economics.

Total: 15 credits

Master of Arts

Economics, MA

Banner Code: LA-MA-ECON

Web: economics.gmu.edu
The master's degree in economics strengthens students’ knowledge of economic theory and improves their skills in applying the theory to economic problems. Graduates are qualified to read and judge other research and conduct their own research, either individually or as members of government or business teams. They are also prepared to write policy analysis articles. Students who plan to pursue a PhD in economics should apply directly to the doctoral program.

An accelerated master's option is available to students in the bachelor's program. See Economics, BA or BS/Economics, Accelerated MA for specific requirements.

This program of study is offered by the Department of Economics.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the MA in economics, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

Five core courses (15 credits)

In place of core courses ECON 535, 611, 612, 615, and 630, students admitted to the PhD in economics can substitute ECON 637, 811, 812, 715, and 830.

- ECON 535 - Survey of Applied Econometrics Credits: 3
- ECON 611 - Microeconomic Theory Credits: 3
- ECON 612 - Microeconomic Theory II Credits: 3
- ECON 615 - Macroeconomic Theory Credits: 3
- ECON 630 - Mathematical Economics I Credits: 3

Five elective courses (15 credits)

Students choose their electives from economics courses in any of the fields offered by the department. Students may substitute up to six credits of courses outside economics in closely related fields with prior written approval of the MA director.

Students have the option of writing a thesis for six credits in lieu of six credits of elective courses.

Comprehensive Exam

Students must pass one MA comprehensive exam in applied economic theory. This exam is offered twice each year. Students admitted to the PhD in economics who are seeking the MA as secondary degree must pass both the PhD micro and the PhD macro qualifying exams, which will satisfy the requirement for the MA comprehensive exam.

6 credits of thesis (optional)

Once enrolled in ECON 799, students are required to maintain continuous registration until the thesis is submitted to and accepted by the University Library. The continuous registration policy is specified in the Academic Policies section of the catalog.
Students who choose to complete a thesis take six fewer elective credits.

- ECON 799 - Master's Thesis Credits: 1-6

Total: 30 credits

Non-Degree

Economic Systems Design Minor

Banner Code: ESD

Web: economics.gmu.edu

The design of processes that efficiently allocate resources and foster exchange are crucial in society, organizations, personal interactions, and individual decision making. Economic systems design is the scientific study of the design, development, testing, and understanding of economic institutions. Economic systems design explores problems in the design of allocation systems and provides a method to develop and test the properties of such systems. A minor in economic systems design prepares students to undertake the scientific process of understanding and developing systems of exchange and their incentives. The skills offered through this minor can be of use to e-commerce designers, policy analysts, systems designers, engineers, and computer scientists.

This program of study is offered by the Department of Economics.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 15 credits of coursework with a minimum GPA of 2.00.

Three required courses (9 credits)

- ECON 440 - Economic Systems Design: Principles and Experiments Credits: 3
- ECON 441 - Economic Systems Design: Case Studies and Analysis Credits: 3
- ECON 442 - Economic Systems Design: Implementation Credits: 3

Two elective courses (6 credits)

Students can choose from the courses below or others chosen in consultation with the director of the minor.

- MIS 491 - Seminar in Management Information Systems Credits: 3
- MATH 441 - Deterministic Operations Research Credits: 3
- SYST 420 - Network Analysis Credits: 3
- SYST 470 - Human Factors Engineering Credits: 3
- CS 480 - Introduction to Artificial Intelligence Credits: 3
- CS 483 - Analysis of Algorithms Credits: 3
- ECON 335 - Environmental Economics Credits: 3
- ECON 415 - Law and Economics Credits: 3
Economics is an essential tool for understanding the complexities of modern society. Economics analyzes how people with limited resources make choices and how we might make better choices. A minor in economics is an extremely flexible and marketable choice. Whether students primary interest is in business, communications, policy, data management, international studies, or engineering, a minor in economics gives them an additional edge in the workplace.

This program of study is offered by the Department of Economics.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students must have a minimum GPA of 2.00 overall in coursework applied to the minor. Students must also complete ECON 103 and 104 with a minimum grade of 2.00 (C) in each. A minimum of 9 credits of upper-level economics courses must be taken at Mason.

Three required courses (9 credits)

- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- ECON 306 - Intermediate Microeconomics Credits: 3

Four elective courses (12 credits)

Students choose their electives from courses in economics at the 300 or 400 level. ECON 385 may not be used to fulfill this requirement.

With permission of the department chair or undergraduate director, a course in a closely related field may be substituted for 3 credits of economics electives. A course in statistics is highly recommended, and OM 210, or STAT 250 or 344 may be substituted for up to 3 credits of economics electives.

Total: 21 credits
Professors: Albanese, Cheuse, D’Andrea (Robinson Professor), Foster, Goodwin, Hodges, Jann, Kaufmann, Lathbury, Lowry, Matz (chair), Mori, Nadeau, Pankey, Tichy

Associate professors: Amireh, Anderson, Atkinson, Brkic, Burr, Chang, Clark, Eisner, Fuchs, Gallehr, Habila, Harvey, Jones, Kaplan, Keith, Keeney, Kuebrich, Lattanzi Shatika, Malouf, Reid, Rutledge, Sample, Scarlata, Weinberger, Wulf, Yadav, Yocom, Zawacki

Assistant professors: Culbertson, Eyman, Fraser, Groening, Hoffmann, Lin, Lockwood, Marcantonio, McCarthy, Michals, Rogers, Stanica, Wheelock, Wiederhold

Term professors: Miller, Scott, Thompson, Koch, Taciuch

Term associate professors: King, Matthews, Samuelian, Saunders

Term assistant professors: Berg, Burnham, Johnson, Kryah, Lawrence, Lister, McGeehan, Nanian, Nichols, Photos, Rudnicki, Taylor, Williams

Term instructors: Hoy, Raffel, Scolaro

Adjunct assistant professors: Broyles, Cabral, Casal, Dutta, Fowler, Grogan-Barone, Humbertson, Jacobs, Johnston, Mallett, Pabich

Adjunct instructors: Cooper, Holcomb

Course Work

The English Department offers all course work designated CL, ENGH, LING, and NAIS in the Courses section of this catalog. The subject code ENGH replaces ENGL starting with the 2010-2011 Catalog.

Related Courses

Courses offered by other departments are occasionally cross listed with English and given the ENGH subject code. Such courses may be applied to the English major.

Undergraduate Programs

The department offers a bachelor's degree in English and a bachelor of fine arts degree in creative writing.

The BA in English is a versatile major with thirteen concentrations designed to meet students’ individual interests and career objectives. English majors can also pursue a special option in comparative literature and do an internship in technical writing or linguistics. Students interested in becoming teachers can participate in a program offered in conjunction with the College of Education and Human Development that allows undergraduates to simultaneously complete their BA in English and their licensure requirements to teach English at the secondary school level in Virginia.

English majors learn to read critically and write carefully in classes that are uniquely small for a university the size of Mason. Students develop these abilities not only thorough reading traditional texts but also through the use of technologies such as blogs, wikis, and multimedia production. Because English majors have excellent skills in written and oral communication, research, critical thinking, and focused creativity they are well prepared for any career - teaching, journalism, creative writing, management, law, and more.

The BFA in creative writing encourages freedom of thought, speech, and inquiry. Through its innovative courses, the program enables students to exercise analytical and imaginative thinking. Through its combined classroom and work-world curriculum, it
prepares students to make well-founded ethical decisions. The degree offers three concentrations allowing for the opportunity to learn the conventions of several genres.

300-level courses teach the foundational principles for a field of study, include courses of broad scope, and provide an introduction to a genre, literary period, or methodology.

400-level courses provide an in-depth approach to a field of study, a single genre, literary period, or methodology. They include special topics classes and English honors classes. Some 400-level courses require ENGH 305 as a prerequisite.

**Honors in the Major**

Highly qualified students in either the BA in English or the BFA in creative writing programs may pursue advanced work leading to graduation with honors in the major. To graduate with honors in the major, students must complete a two-course honors sequence and receive a minimum GPA of 3.50 in all courses counted toward the major and, separately, a minimum GPA of 3.50 in their honors courses. Honors courses may simultaneously satisfy concentration and distribution requirements in the major.

Students satisfy the honors course sequence by taking one of the following:

- Two sections of ENGH 400 - Honors Seminar
- ENGH 400 - Honors Seminar and ENGH 401 - Honors Thesis Writing Seminar
- ENGH 400 - Honors Seminar and writing a creative honors thesis in ENGH 402 - Honors Independent Study (for students in the creative writing concentration)
- ENGH 402 - Honors Independent Study in conjunction with an advanced course in nonfiction writing and completing a nonfiction thesis as part of ENGH 401 - Honors Thesis Writing Seminar (for students in the nonfiction concentration)

Students interested in pursuing honors in the major should consult the English Department for more information and to learn about the application process.

**English with a Second Major**

Students can combine a major in English with a second major. Students interested in this option are encouraged to discuss their plans with their English advisor and the director of undergraduate programs in English. See the section on Credit for More than One Undergraduate Major in Academic Policies.

**Minors**

The department offers a minor in English, which is available to students in any major at Mason.

Faculty from English coordinate or co-coordinate the Film and Media Studies Minor, the Folklore and Mythology Minor, the Native American and Indigenous Studies Minor, and the Linguistics Minor. See the Academic Policies within this section for more information.

**Bachelor’s/Accelerated Master’s Program**

The department offers highly qualified undergraduates in any major the opportunity to apply to an accelerated master’s degree program in English with a concentration in linguistics. If accepted, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in English with a concentration in linguistics after satisfactory completion of 144 credits, sometimes within five years.

**Undergraduates in Graduate Courses**
The English Department permits qualified undergraduates to enroll in its graduate courses numbered 500 through 699. They may apply these credits to their undergraduate degree or mark them for reserve graduate credit. See the department for details on how to register.

**Writing Center**

The Writing Center offers one-on-one conferencing during all stages of the writing process. Writing Center tutors, who are graduate teaching assistants in the English Department, have been trained in current methods of composition instruction. They help clients overcome writing anxiety, develop organizational and revision skills, and learn useful strategies for editing their own work. To learn more about the Writing Center services or to schedule an appointment, students should consult the Writing Center website.

**Northern Virginia Writing Project**

The Northern Virginia Writing Project (NVWP) is an inservice organization dedicated to improving the writing of Northern Virginia students, kindergarten through university level. Each summer, selected teachers attend an intensive five-week institute where they demonstrate successful teaching techniques, study research on the teaching of writing, and write. After the summer institute, participants return to their schools, colleges, and universities to lead workshops and in-service seminars for other teachers. NVWP is an affiliate of the National Writing Project and one of the seven sites of the Virginia Writing Project.

**Graduate Programs**

The department offers graduate programs in the study and practice of literature, writing, rhetoric, and linguistics, as well as course work in related fields such as folklore, film, and cultural studies. The master's degree in English provides concentrations in literature, cultural studies, professional writing and rhetoric, the teaching of writing and literature, and linguistics. The department also has a terminal degree, the MFA in creative writing, with concentrations in fiction, poetry, and nonfiction. Also offered are doctoral programs in linguistics and writing and rhetoric.

The department offers graduate certificates in folklore, professional writing and rhetoric, and teaching English as a second language. Students may take these as stand-alone certificates or pursue them concurrently with a graduate degree program. In many cases part of the course work for a certificate may also count toward a degree. Students must apply and be admitted to a graduate certificate program.

Faculty from the department coordinate the concentration in folklore studies in the master’s degree in interdisciplinary studies (MAIS). See Interdisciplinary Studies (MAIS) in this section for details.

**Funding**

The department offers teaching assistantships and fellowships awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must show satisfactory progress toward their degree.

**Bachelor of Arts**

**English, BA**

**Banner Code: LA-BA-ENGL**

Web: english.gmu.edu
This program of study is offered by the Department of English.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog.

This undergraduate program offers students the option of applying to the accelerated master's degree program in curriculum and instruction (SECE concentration). See listing for specific requirements.

Degree Requirements

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in English must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences. Students pursuing this degree must complete 30 credits (nine courses) in English beyond ENGH 302 with a minimum GPA of 2.00. Student majoring in English are required to complete at least 6 credits at the 400 level.

300-level courses teach the foundational principles for a field of study, include courses of broad scope, and provide an introduction to a genre, literary period, or methodology.

400-level courses provide an in-depth approach to a field of study, a single genre, literary period, or methodology. They include special topics classes and English honors classes. Some 400 level courses require ENGH 305 as a prerequisite.

Students choose one of 13 concentrations or an emphasis in comparative literature.

Students should consult with an English Department advisor to learn ways in which the university-wide general education requirements can also satisfy college-level requirements or the English major.

BA in English with a concentration

One required course (6 credits)

- ENGH 305 - Dimensions of Writing and Literature Credits: 6

Four core courses (12 credits)

Courses taken to fulfill this requirement may simultaneously satisfy a concentration. Special topics courses, when relevant, may be used to fulfill this requirement with the prior written approval of the department.

One course (3 credits) in literature before 1800 chosen from:

- ENGH 320 - Literature of the Middle Ages Credits: 3
- ENGH 321 - English Poetry and Prose of the 16th Century Credits: 3
- ENGH 322 - Shakespeare Credits: 3
- ENGH 323 - Shakespeare Credits: 3
- ENGH 324 - English Renaissance Drama Credits: 3
- ENGH 325 - English Poetry and Prose of the 17th Century Credits: 3
- ENGH 330 - Augustan Age: 1660-1745 Credits: 3
- ENGH 331 - Age of Sensibility: 1745-1800 Credits: 3
- ENGH 332 - Restoration and 18th Century Drama Credits: 3
- ENGH 333 - British Novel of the 18th Century Credits: 3
- ENGH 421 - Medieval Literature in Context Credits: 3
- ENGH 422 - Chaucer Credits: 3
• ENGH 424 - Spenser Credits: 3
• ENGH 428 - Milton Credits: 3

One course (3 credits) in literature before 1915 chosen from courses listed above and the following courses:

• ENGH 334 - British Poetry of the Romantic Period Credits: 3
• ENGH 335 - Prose and Poetry of the Victorian Period Credits: 3
• ENGH 336 - British Novel of the 19th Century Credits: 3
• ENGH 340 - Early American Literature Credits: 3
• ENGH 341 - Literature of the American Renaissance Credits: 3
• ENGH 343 - Development of the American Novel to 1914 Credits: 3
• ENGH 348 - Beginnings of African American Literature Through 1865 Credits: 3
• ENGH 349 - African American Literature: Reconstruction to 1903 Credits: 3
• ENGH 360 - Continental Fiction, 1770-1880 Credits: 3

One course (3 credits) in minority, folkloric, or popular literary and cultural traditions chosen from:

• ENGH 310 - Topics: Women and Literature Credits: 3
• ENGH 315 - Folklore and Folklife Credits: 3
• ENGH 319 - Popular Culture Credits: 3
• ENGH 348 - Beginnings of African American Literature Through 1865 Credits: 3
• ENGH 349 - African American Literature: Reconstruction to 1903 Credits: 3
• ENGH 350 - African American Literature Through 1946 Credits: 3
• ENGH 351 - Contemporary African American Literature Credits: 3
• ENGH 352 - Topics in Ethnic American Literature Credits: 3
• ENGH 362 - Global Voices Credits: 3
• ENGH 366 - The Idea of a World Literature Credits: 3
• ENGH 367 - World Literatures in English Credits: 3
• ENGH 412 - Topics in Folklore Studies Credits: 3
• ENGH 414 - Folklore of the Spirit World Credits: 3
• ENGH 415 - Folk Arts and Folk Artists Credits: 3
• ENGH 416 - Ethnicity and Migration in Folklore Credits: 3
• ENGH 419 - Topics in Popular Literature Credits: 3
• ENGH 451 - Science Fiction Credits: 3
• ENGH 452 - Critical Study of Children's Literature Credits: 3

One elective course (3 credits) above ENGH 302

Four courses (12 credits) in one concentration

Special topics courses may be used to fulfill the requirements for a concentration when so designated by department.

▲ Concentration in American Literature (ALIT)

Four courses (12 credits) chosen from:
- ENGH 315 - Folklore and Folklife Credits: 3
- ENGH 340 - Early American Literature Credits: 3
- ENGH 341 - Literature of the American Renaissance Credits: 3
- ENGH 343 - Development of the American Novel to 1914 Credits: 3
- ENGH 344 - Development of the American Novel since 1914 Credits: 3
- ENGH 345 - American Drama of the 20th Century Credits: 3
- ENGH 346 - American Poetry of the 20th Century Credits: 3
- ENGH 348 - Beginnings of African American Literature Through 1865 Credits: 3
- ENGH 349 - African American Literature: Reconstruction to 1903 Credits: 3
- ENGH 350 - African American Literature Through 1946 Credits: 3
- ENGH 351 - Contemporary African American Literature Credits: 3
- ENGH 352 - Topics in Ethnic American Literature Credits: 3
- ENGH 355 - Recent American Fiction Credits: 3
- ENGH 356 - Recent American Poetry Credits: 3
- ENGH 416 - Ethnicity and Migration in Folklore Credits: 3
- ENGH 441 - Topics: American Authors Credits: 3

▲ Concentration in Creative Writing (CW)

Four courses (12 credits) chosen from:

- ENGH 377 - Digital Creative Writing Credits: 3
- ENGH 397 - Poetry Writing Credits: 3
- ENGH 398 - Fiction Writing Credits: 3
- ENGH 399 - Creative Nonfiction Writing Credits: 3
- ENGH 492 - Advanced Fiction Writing Workshop Credits: 3
- ENGH 494 - Advanced Poetry Writing Workshop Credits: 3
- ENGH 497 - Topics in Creative Writing Credits: 3

▲ Concentration in Cultural Studies (CULT)

Four courses (12 credits) chosen from:

- ENGH 308 - Introduction to Literary Theory Credits: 3
- ENGH 310 - Topics: Women and Literature Credits: 3
- ENGH 315 - Folklore and Folklife Credits: 3
- ENGH 318 - Introduction to Cultural Studies Credits: 3
- ENGH 319 - Popular Culture Credits: 3
- ENGH 348 - Beginnings of African American Literature Through 1865 Credits: 3
- ENGH 349 - African American Literature: Reconstruction to 1903 Credits: 3
- ENGH 350 - African American Literature Through 1946 Credits: 3
- ENGH 351 - Contemporary African American Literature Credits: 3
- ENGH 352 - Topics in Ethnic American Literature Credits: 3
- ENGH 362 - Global Voices Credits: 3
- ENGH 372 - Introduction to Film Credits: 3
- ENGH 412 - Topics in Folklore Studies Credits: 3
- ENGH 414 - Folklore of the Spirit World Credits: 3
• ENGH 415 - Folk Arts and Folk Artists Credits: 3
• ENGH 416 - Ethnicity and Migration in Folklore Credits: 3
• ENGH 418 - Cultural Constructions of Sexualities Credits: 3
• ENGH 419 - Topics in Popular Literature Credits: 3
• ENGH 452 - Critical Study of Children's Literature Credits: 3
• ENGH 474 - Topics in Film/Media Studies Credits: 3

May include one course from outside the English Department chosen from:

• COMM 465 - Topics in Communication and Gender Credits: 3
• CULT 320 - Globalization and Culture Credits: 3
• PSYC 362 - Psychology of Women Credits: 3
• SOCI 315 - Women and Men in Society Credits: 3
• WMST 300 - Current Issues in Women and Gender Studies Credits: 1-6
• WMST 330 - Theoretical Perspectives in Women and Gender Studies Credits: 3

▲ Concentration in Drama (DRA)

A maximum of one course (3 credits) may be from courses on Shakespeare.

Four courses (12 credits) chosen from:

• ENGH 322 - Shakespeare Credits: 3
• ENGH 323 - Shakespeare Credits: 3
• ENGH 324 - English Renaissance Drama Credits: 3
• ENGH 332 - Restoration and 18th Century Drama Credits: 3
• ENGH 339 - British and Irish Drama after 1900 Credits: 3
• ENGH 345 - American Drama of the 20th Century Credits: 3
• ENGH 368 - Modern Drama Credits: 3
• ENGH 455 - Topics in Drama Credits: 3

May include one course from outside the English Department chosen from:

• RUSS 407 - Russian Drama and Theater Credits: 3
• SPAN 565 - Studies in Spanish American Drama Credits: 3
• THR 350 - Script Analysis Credits: 3
• THR 351 - Dramatic Theory and Criticism Credits: 3
• THR 352 - Dramatic Literature Seminar Credits: 3
• THR 380 - Playwriting I Credits: 3
• THR 381 - Playwriting II Credits: 3

▲ Concentration in Fiction (FIC)

Three courses (9 credits) chosen from:

• ENGH 333 - British Novel of the 18th Century Credits: 3
• ENGH 336 - British Novel of the 19th Century Credits: 3
• ENGH 338 - British Novel after 1900 Credits: 3
• ENGH 343 - Development of the American Novel to 1914 Credits: 3
• ENGH 344 - Development of the American Novel since 1914 Credits: 3
• ENGH 355 - Recent American Fiction Credits: 3
• ENGH 361 - Continental Fiction, 1880-1950 Credits: 3
• ENGH 398 - Fiction Writing Credits: 3
• ENGH 451 - Science Fiction Credits: 3
• ENGH 452 - Critical Study of Children's Literature Credits: 3
• ENGH 453 - Topics in Fiction Credits: 3

One course (3 credits) in fiction before 1915 chosen from:

• ENGH 333 - British Novel of the 18th Century Credits: 3
• ENGH 336 - British Novel of the 19th Century Credits: 3
• ENGH 343 - Development of the American Novel to 1914 Credits: 3
• ENGH 360 - Continental Fiction, 1770-1880 Credits: 3

▲ Concentration in Film and Media Studies (FILM)

Four courses (12 credits) chosen from:

• ENGH 318 - Introduction to Cultural Studies Credits: 3
• ENGH 370 - Introduction to Documentary Credits: 3
• ENGH 372 - Introduction to Film Credits: 3
• ENGH 376 - Rhetoric and New Media Credits: 3
• ENGH 470 - Topics in Film/Media History Credits: 3
• ENGH 472 - Topics in Film/Media Theory Credits: 3
• ENGH 474 - Topics in Film/Media Studies Credits: 3

May include one course from outside the English Department chosen from:

• ARTH 362 - Twentieth-Century European Art Credits: 3
• ARTH 373 - Studies in 20th-Century Art of the United States Credits: 3
• ARTH 374 - Art Now Credits: 3
• COMM 380 - Media Criticism Credits: 3
• COMM 465 - Topics in Communication and Gender Credits: 3
• MUSI 301 - Music in Motion Pictures Credits: 3
• RUSS 470 - Topics in (Post) Soviet Film Credits: 3

▲ Concentration in Folklore, Mythology, and Literature (FML)

At least two courses (6 credits) in folklore and mythology chosen from:

• ENGH 315 - Folklore and Folklife Credits: 3
• ENGH 316 - Topics in Myth and Literature Credits: 3
• ENGH 384 - Writing Ethnography Credits: 3
• ENGH 412 - Topics in Folklore Studies Credits: 3
• ENGH 414 - Folklore of the Spirit World Credits: 3
• ENGH 415 - Folk Arts and Folk Artists Credits: 3
• ENGH 416 - Ethnicity and Migration in Folklore Credits: 3
• ENGH 459 - Internship Credits: 1-3
• ENGH 591 - Topics in Folklore Studies Credits: 3

May include one course from outside the English Department chosen from:

• ANTH 450 - Qualitative Methods: Nonstatistical Approaches in Culture and Social Research Credits: 3
• CLAS 340 - Greek and Roman Epic Credits: 3

Up to two courses (6 credits) related to folklore and mythology chosen from:

• ENGH 318 - Introduction to Cultural Studies Credits: 3
• ENGH 320 - Literature of the Middle Ages Credits: 3
• ENGH 322 - Shakespeare Credits: 3
• ENGH 323 - Shakespeare Credits: 3
• ENGH 339 - British and Irish Drama after 1900 Credits: 3
• ENGH 348 - Beginnings of African American Literature Through 1865 Credits: 3
• ENGH 349 - African American Literature: Reconstruction to 1903 Credits: 3
• ENGH 350 - African American Literature Through 1946 Credits: 3
• ENGH 351 - Contemporary African American Literature Credits: 3
• ENGH 362 - Global Voices Credits: 3
• ENGH 422 - Chaucer Credits: 3
• ENGH 424 - Spenser Credits: 3
• ENGH 428 - Milton Credits: 3

May include one course from outside the English Department chosen from:

• ANTH 301 - Native North Americans Credits: 3
• ANTH 302 - Peoples and Cultures of Latin America Credits: 3
• ANTH 304 - Peoples and Cultures of the Pacific Credits: 3
• ANTH 306 - Peoples and Cultures of Island Asia Credits: 3
• ANTH 307 - Ancient Mesoamerica Credits: 3
• ANTH 308 - Peoples and Cultures of the Middle East Credits: 3
• ANTH 311 - Peoples and Cultures of Mainland Southeast Asia Credits: 3
• ANTH 313 - Myth, Magic, and Mind Credits: 3
• ANTH 332 - Cross-Cultural Perspectives on Globalization Credits: 3
• ARTH 319 - Art and Archaeology of the Ancient Near East Credits: 3
• ARTH 321 - Greek Art and Archaeology Credits: 3
• ARTH 322 - Roman Art and Archaeology Credits: 3
• ARTH 340 - Early Renaissance Art in Italy, 1300-1500 Credits: 3
• ARTH 342 - High Renaissance Art in Italy, 1480–1570 Credits: 3
• ARTH 345 - Northern Baroque Art, 1600-1750 Credits: 3
• ARTH 382 - Arts of India Credits: 3
• ARTH 383 - Arts of Southeast Asia Credits: 3
• ARTH 384 - Arts of China Credits: 3
• ARTH 385 - Arts of Japan Credits: 3

▲ Concentration in Linguistics (LING)

One required course (3 credits):

• LING 306 - General Linguistics Credits: 3

Three courses (9 credits) chosen from:

• LING 307 - English Grammar Credits: 3
• LING 450 - Introduction to Sociolinguistics Credits: 3
• LING 485 - Semantics and Pragmatics Credits: 3
• LING 486 - Syntax I Credits: 3
• LING 490 - Generative Phonology Credits: 3
• LING 499 - Independent Study Credits: 1-3
• LING 507 - Field Work in Applied Linguistics Credits: 3
• LING 521 - Applied Linguistics: Teaching English as a Second Language Credits: 3
• LING 523 - English Phonetics Credits: 3
• LING 581 - Psycholinguistics Credits: 3
• LING 582 - Second Language Acquisition Credits: 3

▲ Concentration in Medieval and Renaissance Literature (MRL)

Four courses (12 credits) chosen from:

• ENGH 320 - Literature of the Middle Ages Credits: 3
• ENGH 321 - English Poetry and Prose of the 16th Century Credits: 3
• ENGH 322 - Shakespeare Credits: 3
• ENGH 323 - Shakespeare Credits: 3
• ENGH 324 - English Renaissance Drama Credits: 3
• ENGH 325 - English Poetry and Prose of the 17th Century Credits: 3
• ENGH 421 - Medieval Literature in Context Credits: 3
• ENGH 422 - Chaucer Credits: 3
• ENGH 424 - Spenser Credits: 3
• ENGH 426 - Studies in Shakespeare Credits: 3
• ENGH 428 - Milton Credits: 3

May include one course from outside the English Department chosen from:

• ARTH 333 - Early Christian and Byzantine Art Credits: 3
• ARTH 334 - Western Medieval Art Credits: 3
• ARTH 340 - Early Renaissance Art in Italy, 1300-1500 Credits: 3
• ARTH 341 - Northern Renaissance Art Credits: 3
• ARTH 342 - High Renaissance Art in Italy, 1480–1570 Credits: 3
• ARTH 344 - Baroque Art in Italy, France, and Spain, 1600–1750 Credits: 3
• ARTH 345 - Northern Baroque Art, 1600-1750 Credits: 3
• HIST 304 - Western Europe in the Middle Ages Credits: 3
• HIST 305 - The Renaissance Credits: 3
• HIST 306 - The Reformation Credits: 3
• PHIL 302 - History of Western Philosophy: Medieval Credits: 3
• RELI 371 - Classic Jewish Texts Credits: 3

▲ Concentration in Modern British Literature (MBL)

Four courses (12 credits) chosen from:

• ENGH 330 - Augustan Age: 1660-1745 Credits: 3
• ENGH 331 - Age of Sensibility: 1745-1800 Credits: 3
• ENGH 332 - Restoration and 18th Century Drama Credits: 3
• ENGH 333 - British Novel of the 18th Century Credits: 3
• ENGH 334 - British Poetry of the Romantic Period Credits: 3
• ENGH 335 - Prose and Poetry of the Victorian Period Credits: 3
• ENGH 336 - British Novel of the 19th Century Credits: 3
• ENGH 337 - British Poetry after 1900 Credits: 3
• ENGH 338 - British Novel after 1900 Credits: 3
• ENGH 339 - British and Irish Drama after 1900 Credits: 3

▲ Concentration in Poetry (POE)

Four courses (12 credits) chosen from:

• ENGH 320 - Literature of the Middle Ages Credits: 3
• ENGH 321 - English Poetry and Prose of the 16th Century Credits: 3
• ENGH 322 - Shakespeare Credits: 3
• ENGH 323 - Shakespeare Credits: 3
• ENGH 325 - English Poetry and Prose of the 17th Century Credits: 3
• ENGH 330 - Augustan Age: 1660-1745 Credits: 3
• ENGH 334 - British Poetry of the Romantic Period Credits: 3
• ENGH 335 - Prose and Poetry of the Victorian Period Credits: 3
• ENGH 337 - British Poetry after 1900 Credits: 3
• ENGH 346 - American Poetry of the 20th Century Credits: 3
• ENGH 356 - Recent American Poetry Credits: 3
• ENGH 397 - Poetry Writing Credits: 3
• ENGH 422 - Chaucer Credits: 3
• ENGH 454 - Topics in Poetry Credits: 3

▲ Concentration in Writing and Rhetoric (WRTR)

Four courses (12 credits) chosen from:

• ENGH 375 - Web Authoring and Design Credits: 3
• ENGH 376 - Rhetoric and New Media Credits: 3
• ENGH 380 - Introduction to Writing and Rhetoric Credits: 3
- ENGH 382 - Writing Nonfiction Genres Credits: 3
- ENGH 384 - Writing Ethnography Credits: 3
- ENGH 386 - Editing for Audience, Style, and Voice Credits: 3
- ENGH 388 - Professional and Technical Writing Credits: 3
- ENGH 399 - Creative Nonfiction Writing Credits: 3
- ENGH 459 - Internship Credits: 1-3
- ENGH 486 - Writing Nonfiction for Publication Credits: 3
- ENGH 488 - Topics in Writing and Rhetoric Credits: 3
- ENGH 503 - Theory and Practice of Editing Credits: 3
- ENGH 504 - Internship Credits: 1-6
- ENGH 505 - Document Design Credits: 3

▲ Concentration in World Literature (WLIT)

At least two courses (6 credits) chosen from:

Special topics courses, when relevant, may be applied to this concentration when designated by the department.

- ENGH 360 - Continental Fiction, 1770-1880 Credits: 3
- ENGH 361 - Continental Fiction, 1880-1950 Credits: 3
- ENGH 362 - Global Voices Credits: 3
- ENGH 366 - The Idea of a World Literature Credits: 3
- ENGH 367 - World Literatures in English Credits: 3
- ENGH 368 - Modern Drama Credits: 3

2 additional courses (6 credits)

Courses may be chosen from the list above or the lists below, but no more than one course can be chosen from each of the lists below.

One course chosen from designated concentrations

Students can choose up to one course (3 credits) from courses listed under the concentrations above in Medieval and Renaissance literature, American literature, or Modern British literature.

Up to one course chosen from:

Students may apply up to one course from this list to the WLIT concentration when the topic is relevant, subject to the approval of the department.

- ANTH 300 - Civilizations Credits: 3
- CULT 320 - Globalization and Culture Credits: 3
- HIST 308 - Nineteenth-Century Europe Credits: 3
- HIST 309 - Europe in Crisis: 1914-1948 Credits: 3
- HIST 387 - Topics in Global History Credits: 3-6
- CHIN 310 - Survey of Chinese Literature Credits: 3
- CHIN 311 - Modern Chinese Literature in Translation Credits: 3
- CHIN 325 - Major Chinese Writers Credits: 3
- CHIN 328 - Asian American Women Writers Credits: 3
BA in English with a Comparative Literature Emphasis

The English Department and the Modern and Classical Languages Department offer a BA in English with an emphasis in comparative literature. This program combines the study of literature in English with the study of one or more foreign literatures and with cross-cultural literary study. It requires 10 courses above ENGH 302. Students should consult with their advisor to design a program of study that best suits their particular interests and goals.

Two required courses (6 credits)

- CL 300 - Introduction to Comparative Literature Credits: 3
- CL 514 - Theories of Comparative Literature Credits: 3

One course (3 credits) in literary criticism chosen from:

Students choose a course appropriate for their focus.

- ENGH 305 - Dimensions of Writing and Literature Credits: 6
- FREN 381 - Introduction to Literary Analysis Credits: 3

Two courses (6 credits) in English or American literature

Two courses (6 credits) in literature other than English or American

Students meet this requirement with courses in a literature other than English or American, either in translation or, for those pursuing foreign language study, with selected readings in the original language.

Three courses (9 credits) in comparative or world literature

Comparative or world literature courses are designated by the comparative literature committee and generally selected in consultation with the advisor every semester. Examples are:

- various 300-level CLAS courses
- FRLN 330 courses
- Special topics courses, when relevant, in ENGH, FREN, GERM, RUSS, SPAN, or other language
- ENGH 366 - The Idea of a World Literature Credits: 3
- ENGH 421 - Medieval Literature in Context Credits: 3
- ENGH 360 - Continental Fiction, 1770-1880 Credits: 3
• ENGH 361 - Continental Fiction, 1880-1950 Credits: 3
• ENGH 367 - World Literatures in English Credits: 3

Total: 30 credits

Writing Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in English fulfill this requirement by successfully completing ENGH 305. Students doing the comparative literature emphasis who do not take ENGH 305 will have to meet the synthesis requirement with another non-English course.

Bachelor of Fine Arts

Creative Writing, BFA

Banner Code: LA-BFA-CW
Web: english.gmu.edu

This program of study is offered by the Department of English.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog.

Degree Requirements

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BFA in Creative Writing must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences. Students pursuing this degree must complete 45 credits (14 courses) in English excluding ENGH 302, with a minimum GPA of 2.00.

Students will complete 21 credits of BFA core requirements, 12 credits from one of 3 concentrations, and 12 credits in English department requirements.

300-level courses in English and linguistics teach the foundational principles for a field of study, include courses of broad scope, and provide an introduction to a genre, literary period, or methodology.

400-level courses in English and linguistics provide an in-depth approach to a field of study, a single genre, literary period, or methodology. They include special topics classes and English honors classes. Some 400-level courses require ENGH 305 as a prerequisite.

Students should consult with an English department advisor to learn ways in which the university-wide general education requirements can also satisfy college-level requirements or the BFA.

At the discretion of the Department, transfer students may substitute transferred lower level creative writing classes for some BFA requirements.

BFA Core Requirements (21 credits)

Four required courses for major (15 credits)
Two required workshop courses (6 credits) chosen from:

The workshops are in the two areas outside of the chosen concentration. The remaining workshop is included as part of the concentration requirements.

- ENGH 397 - Poetry Writing Credits: 3
- ENGH 398 - Fiction Writing Credits: 3
- ENGH 399 - Creative Nonfiction Writing Credits: 3

Concentrations (12 credits)

Students must complete one of the following 12 credit concentrations.

▲ Concentration in Fiction (FIC)

- ENGH 398 - Fiction Writing Credits: 3
- ENGH 392 - Forms of Fiction Credits: 3
- ENGH 355 - Recent American Fiction Credits: 3
- ENGH 492 - Advanced Fiction Writing Workshop Credits: 3

▲ Concentration in Nonfiction (NFIC)

- ENGH 399 - Creative Nonfiction Writing Credits: 3
- ENGH 393 - Forms of Nonfiction Credits: 3
- ENGH 456 - Topics in Literary Nonfiction Credits: 3
- ENGH 497 - Topics in Creative Writing Credits: 3

▲ Concentration in Poetry (POE)

- ENGH 397 - Poetry Writing Credits: 3
- ENGH 391 - Forms of Poetry Credits: 3
- ENGH 356 - Recent American Poetry Credits: 3
- ENGH 494 - Advanced Poetry Writing Workshop Credits: 3

English Department Requirements (12 credits)

Students take one course from each group below.

One course (3 credits) in literature before 1800 chosen from:

- ENGH 320 - Literature of the Middle Ages Credits: 3
• ENGH 321 - English Poetry and Prose of the 16th Century Credits: 3
• ENGH 322 - Shakespeare Credits: 3
• ENGH 323 - Shakespeare Credits: 3
• ENGH 324 - English Renaissance Drama Credits: 3
• ENGH 325 - English Poetry and Prose of the 17th Century Credits: 3
• ENGH 330 - Augustan Age: 1660-1745 Credits: 3
• ENGH 331 - Age of Sensibility: 1745-1800 Credits: 3
• ENGH 332 - Restoration and 18th Century Drama Credits: 3
• ENGH 333 - British Novel of the 18th Century Credits: 3
• ENGH 421 - Medieval Literature in Context Credits: 3
• ENGH 422 - Chaucer Credits: 3
• ENGH 424 - Spenser Credits: 3
• ENGH 428 - Milton Credits: 3

One course (3 credits) in literature before 1915 chosen from:

• ENGH 334 - British Poetry of the Romantic Period Credits: 3
• ENGH 335 - Prose and Poetry of the Victorian Period Credits: 3
• ENGH 336 - British Novel of the 19th Century Credits: 3
• ENGH 340 - Early American Literature Credits: 3
• ENGH 341 - Literature of the American Renaissance Credits: 3
• ENGH 343 - Development of the American Novel to 1914 Credits: 3
• ENGH 348 - Beginnings of African American Literature Through 1865 Credits: 3
• ENGH 349 - African American Literature: Reconstruction to 1903 Credits: 3
• ENGH 360 - Continental Fiction, 1770-1880 Credits: 3

• a second course from literature before 1800 list above

One course (3 credits) in minority, folkloric, or popular literary and cultural traditions chosen from:

• ENGH 310 - Topics: Women and Literature Credits: 3
• ENGH 315 - Folklore and Folklife Credits: 3
• ENGH 319 - Popular Culture Credits: 3
• ENGH 348 - Beginnings of African American Literature Through 1865 Credits: 3
• ENGH 349 - African American Literature: Reconstruction to 1903 Credits: 3
• ENGH 350 - African American Literature Through 1946 Credits: 3
• ENGH 351 - Contemporary African American Literature Credits: 3
• ENGH 352 - Topics in Ethnic American Literature Credits: 3
• ENGH 362 - Global Voices Credits: 3
• ENGH 366 - The Idea of a World Literature Credits: 3
• ENGH 367 - World Literatures in English Credits: 3
• ENGH 412 - Topics in Folklore Studies Credits: 3
• ENGH 414 - Folklore of the Spirit World Credits: 3
• ENGH 415 - Folk Arts and Folk Artists Credits: 3
• ENGH 416 - Ethnicity and Migration in Folklore Credits: 3
• ENGH 419 - Topics in Popular Literature Credits: 3
• ENGH 451 - Science Fiction Credits: 3
• ENGH 452 - Critical Study of Children's Literature Credits: 3

One course (3 credits) in writing or literature electives

Students choose one course from any of the following groups.

Additional writing courses

• ENGH 384 - Writing Ethnography Credits: 3
• ENGH 388 - Professional and Technical Writing Credits: 3
• ENGH 402 - Honors Independent Study Credits: 1-3
• ENGH 459 - Internship Credits: 1-3
• ENGH 492 - Advanced Fiction Writing Workshop Credits: 3
• ENGH 494 - Advanced Poetry Writing Workshop Credits: 3
• ENGH 497 - Topics in Creative Writing Credits: 3
• ENGH 499 - Independent Study Credits: 1-6
• ENGH 505 - Document Design Credits: 3
• NCLC 349 - Writing for Multimedia Credits: 4

Or courses in contemporary literature

• ENGH 315 - Folklore and Folklife Credits: 3
• ENGH 319 - Popular Culture Credits: 3
• ENGH 337 - British Poetry after 1900 Credits: 3
• ENGH 338 - British Novel after 1900 Credits: 3
• ENGH 339 - British and Irish Drama after 1900 Credits: 3
• ENGH 344 - Development of the American Novel since 1914 Credits: 3
• ENGH 345 - American Drama of the 20th Century Credits: 3
• ENGH 346 - American Poetry of the 20th Century Credits: 3
• ENGH 351 - Contemporary African American Literature Credits: 3
• ENGH 368 - Modern Drama Credits: 3
• ENGH 412 - Topics in Folklore Studies Credits: 3
• ENGH 414 - Folklore of the Spirit World Credits: 3
• ENGH 415 - Folk Arts and Folk Artists Credits: 3
• ENGH 419 - Topics in Popular Literature Credits: 3
• ENGH 451 - Science Fiction Credits: 3
• ENGH 452 - Critical Study of Children's Literature Credits: 3
• ENGH 453 - Topics in Fiction Credits: 3
• ENGH 454 - Topics in Poetry Credits: 3
• ENGH 455 - Topics in Drama Credits: 3
• ENGH 456 - Topics in Literary Nonfiction Credits: 3 (for fiction and poetry concentrators only)

Or courses in writing for other arts

• AVT 395 - Writing for Artists Credits: 3
• CHSS 390 - Peer Tutoring in Writing across the Disciplines Credits: 1 (repeatable for up to 3 credits)
• THR 380 - Playwriting I Credits: 3
• THR 381 - Playwriting II Credits: 3
• THR 382 - Screenplay Workshop Credits: 3
• THR 480 - Advanced Playwriting Credits: 3

Total: 45 credits

Bachelor/Accelerated Master's

Bachelor's Degree (any)/English, Accelerated MA (Linguistics Concentration)

Web: linguistics.gmu.edu

Highly qualified Mason undergraduates in any major may apply to the accelerated master’s degree in English with a concentration in linguistics. If accepted, students will be able to earn a BA in their chosen major and an MA in English with a concentration in linguistics after satisfactory completion of 144 credits.

This program of study is offered by the Department of English.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the accelerated MA in English (linguistics concentration), see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.
**English, BA/Curriculum and Instruction, Accelerated MEd**  
*(Secondary Education English Concentration)*

Highly qualified Mason undergraduates may be admitted to a Bachelor's/Accelerated Master's program and obtain both a BA in English and an MEd in Curriculum and Instruction, Secondary Education English Concentration in an accelerated time frame after satisfactory completion of 149 credits.

This program of study is offered jointly by the English Department in the College of Humanities and Social Sciences and the Graduate School of Education in the College of Education and Human Development.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of the catalog. For information specific to this accelerated master's program, see Application Requirements and Deadlines on the College of Education and Human Development web site.

**Degree Requirements**

Students complete the following courses in their senior year:

- EDCI 569 - Teaching English in the Secondary School (to be taken in the Fall semester)
- EDUC 672 - Human Development and Learning: Secondary Education (to be taken in the Fall semester)
- EDCI 669 - Advanced Methods of Teaching English in the Secondary School (to be taken in the Spring semester)
- EDRD 619 - Literacy in Content Areas (to be taken in the Spring semester)

While undergraduate students, accelerated master's students are able to apply two of the courses listed above to both the Bachelor's and Master's degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor's/Accelerated Master's Transition Form and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

**Doctor of Philosophy**

**Linguistics, PhD**

**Banner Code: LA-PHD-LING**

Web: linguistics.gmu.edu

The PhD in linguistics trains students in the science of language. Students become specialists in the core areas of linguistics—phonology, syntax, and semantics—and learn to integrate this core with the study of second language acquisition. This 72-credit degree program prepares students for positions in academia, industry, and government working in a host of organizations that are concerned with language and second language acquisition. They might be research and teaching professors, administrators of language-learning programs, or consultants in computational linguistic research.

This program of study is offered by the Department of English.
For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the PhD in linguistics, see Application Requirements and Deadlines on the departmental web site.

Reduction of Credit

For students entering the doctoral program with a master’s degree, the number of required credits may be reduced by a maximum of 30 credits, subject to approval of the program faculty and the dean. Requests for reduction of credit are reviewed only after acceptance to the doctoral program.

Degree Requirements

To receive the PhD, students complete a minimum of 72 credits of course work including a dissertation. Students must submit two qualifying papers in linguistics.

Doctoral Course Work (60 credits)

Eleven core courses (33 credits) in linguistics

Three courses (9 credits) in phonology

- LING 690 - Generative Phonology Credits: 3
- LING 692 - Phonology II Credits: 3
- LING 890 - Advanced Phonology Seminar Credits: 3

Three courses (9 credits) in syntax

- LING 786 - Syntax I Credits: 3
- LING 787 - Syntax II Credits: 3
- LING 886 - Advanced Syntax Seminar Credits: 3

Two courses (6 credits) in semantics/pragmatics

- LING 785 - Semantics and Pragmatics Credits: 3
- LING 788 - Semantics and Pragmatics II Credits: 3

Two courses in (6 credits) in language acquisition chosen from:

- LING 582 - Second Language Acquisition Credits: 3
- LING 782 - Second Language Acquisition II Credits: 3
- LING 882 - Seminar in Language Acquisition Credits: 3
One course (3 credits) in research methodology

- **LING 770 - Research Methods** Credits: 3

Two seminars (6 credits)

Students take two seminar courses in two chosen fields. Seminar topics change every time they are offered. They may be repeated for credit.

- **LING 882 - Seminar in Language Acquisition** Credits: 3
- **LING 886 - Advanced Syntax Seminar** Credits: 3
- **LING 890 - Advanced Phonology Seminar** Credits: 3

Five elective courses (15 credits) chosen from:

- **LING 507 - Field Work in Applied Linguistics** Credits: 3
- **LING 521 - Applied Linguistics: Teaching English as a Second Language** Credits: 3
- **LING 522 - Modern English Grammar** Credits: 3
- **LING 523 - English Phonetics** Credits: 3
- **LING 525 - Practicum in ESL** Credits: 3
- **LING 581 - Psycholinguistics** Credits: 3
- **LING 650 - Introduction to Sociolinguistics** Credits: 3
- **LING 691 - Theories of Language** Credits: 3
- **LING 798 - Directed Reading and Research** Credits: 1-3
- **ENGH 592 - Historical Studies of the English Language** Credits: 3
- **FREN 575 - Grammatical Analysis** Credits: 3
- **FRLN 565 - Theory of Translation** Credits: 3
- **SOCI 636 - Statistical Reasoning** Credits: 3
- **SPAN 500 - History of the Spanish Language** Credits: 3
- **SPAN 501 - Applied Spanish Grammar** Credits: 3
- **SPAN 502 - Hispanic Sociolinguistics** Credits: 3
- **PSYC 615 - Language Development** Credits: 3
- **CS 580 - Introduction to Artificial Intelligence** Credits: 3
- **CSI 600 - Quantitative Foundations for Computational Sciences** Credits: 3
- **CSS 600 - Introduction to Computational Social Science** Credits: 3
- **NEUR 604 - Ethics in Scientific Research** Credits: 1-3
- **EDUC 611 - Cultural Issues in Second Language Acquisition** Credits: 3
- **EDCI 516 - Bilingualism and Language Acquisition Research** Credits: 3
- **EDCI 569 - Teaching English in the Secondary School** Credits: 3

Two qualifying papers (6 credits)

Students register for this course twice.

- **LING 898 - Advanced Qualifying Seminar** Credits: 3

Dissertation Research (minimum 12 credits)
Once enrolled in 999, students must follow the university's continuous registration policy as specified in the Academic Policies section of the catalog. Students who defend in the summer must be registered for at least 1 credit of 999.

Students apply to this degree a minimum of 12 dissertation credits (998 and 999 combined) with at least 3 credits of 999. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

- LING 998 - Doctoral Dissertation Proposal Credits: 1-6
- LING 999 - Doctoral Dissertation Credits: 1-12

Total: 72 credits

Writing and Rhetoric, PhD (pending SCHEV approval)

Banner Code: LA-PHD-WRTR

Web: english.gmu.edu

Note: As of catalog publication in April, the program described below has been approved by the Board of Visitors and sent to the State Council for Higher Education in Virginia for consideration as a new degree program. The university cannot accept applications or enroll students in this program until SCHEV approval has been granted. Check the college/school web site for current program status.

The doctoral program in writing and rhetoric offers a curriculum that emphasizes theoretical, practical, and productive approaches to composition, professional writing, and public rhetorics. The program is built on the premise that writing and teaching in twenty-first century organizations requires the rigorous, integrated study of rhetoric, technology, pedagogy, culture, and research methodologies.

This program of study is offered by the Department of English.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. Applicants to the PhD in writing and rhetoric must already have earned a master’s degree in a relevant field before being admitted to the program.

For further information specific to the PhD in writing and rhetoric, see Application Requirements and Deadlines on the college web site.

Reduction of Credit

Students must have a master’s degree before being admitted to the PhD in writing and rhetoric. Most students receive a reduction of study of 30 credits based on their previous master’s degree.

Degree Requirements

To receive the PhD in writing and rhetoric, students complete a minimum of 78 credits of course work, 48 beyond the master's degree. Beyond the basic course work, a dissertation is required.
Doctoral Course Work (66 credits)

Four core courses (12 credits)

- ENGH 720 - Histories of Institutional Rhetorics Credits: 3
- ENGH 722 - Composition Pedagogies and Programs in Context Credits: 3
- ENGH 724 - Professional Writing Theory and Research Credits: 3
- ENGH 726 - Rhetorical Theory and Public Spaces Credits: 3

One required research methods course (3 credits)

- ENGH 702 - Research Methods in Rhetoric and Writing Credits: 3

Four courses (12 credits) in primary focus area

With a faculty advisor, students complete any combination of the following courses totaling 12 credits. Each course offers multiple topics and can be taken up to 4 times. The selected courses should form a consistent area of research around a specific object, practice, method, set of theories, or sub-field.

- ENGH 822 - Studies in Composition Credits: 3 (can be repeated when topic differs)
- ENGH 824 - Studies in Professional Writing Credits: 3 (can be repeated when topic differs)
- ENGH 826 - Studies in Public Rhetorics Credits: 3 (can be repeated when topic differs)

Three courses (9 credits) in a secondary focus area

With a faculty advisor, students choose 3 courses from another program or discipline (see below) and/or the primary area courses. The selected courses form a consistent secondary area of research that supports the student's primary area and developing research interests. It is strongly suggested that the secondary focus courses be taken in other programs or disciplines.

Coursework for the secondary focus may be completed with courses from the following departments and programs: anthropology, art and visual technology, communication, cultural studies, education, English, history, linguistics, literature, modern and classical languages, public policy, sociology, and women and gender studies.

Electives (0-30 credits)

Students receiving a reduction of credit of less than 30 will complete the remaining credits through additional elective courses chosen in consultation with an advisor.

Advancement to candidacy

Prior to beginning dissertation research (normally after completion of 66 hours of coursework), students will take a written examination, successful completion of which will demonstrate a qualification for advancement to candidacy. The examination will cover foundation knowledge acquired in the writing and rhetoric core courses and in the student's area of primary focus.

Dissertation Research (12 credits)

The dissertation process, which begins after the student has completed 66 credit hours and passed the written qualifying exam, includes an oral exam on the dissertation proposal, the production of the dissertation, and an oral defense of the dissertation. They
student's progress at all stages will be evaluated by the dissertation committee. The dissertation should use theoretical, historical, qualitative, and/or quantitative methods to address a rhetorical problem within an institutional or public context that is framed within a disciplinary field. While these projects are often multidisciplinary in approach, they should address a gap in a discipline's research as well as solve a public rhetorical problem.

Once enrolled in 998, students in this degree program must maintain continuous registration in 998 or 999 each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in 999, students must follow the university’s continuous registration policy as specified in the Academic Policies section of the catalog. Students who defend in the summer must be registered for at least 1 credit of 999.

- ENGH 998 - Doctoral Dissertation Proposal Credits: 1-6 (3 credits required)
- ENGH 999 - Doctoral Dissertation Credits: 1-12 (minimum of 9 credits)

Total: 78 credits

Graduate Certificate

Folklore Studies Graduate Certificate

Banner Code: LA-CERG-FLKS

Web: folkloreprograms.gmu.edu

The certificate in folklore studies enables students to explore the processes of tradition that move through multiple expressive forms, such as folktales, folk beliefs, folk medicine, folk art, folksong, and literature. A discipline based on ethnographic fieldwork, folklore studies offers students a chance to work in communities and collect living traditional materials that are critical to human identity and values. Interdisciplinary by nature, folklore thrives on local particularities as well as compelling global connections.

This certificate prepares students for careers in cultural agencies, governmental organizations, and teaching institutions, and advanced study in folklore and in the humanities.

This program of study is offered by the Department of English.

The graduate certificate in folklore studies may be pursued on a part-time or full-time basis.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in folklore studies, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements

The topics courses ENGH 526, 590, 591, and 681 may be repeated for credit when the subtitles are different.

12 credits chosen from:

- ENGH 590 - Topics in Folk Narrative Credits: 3
- ENGH 591 - Topics in Folklore Studies Credits: 3
- ENGH 681 - Advanced Topics in Folklore Studies Credits: 3
- ENGH 526 - Special Topics in the History and Criticism of Children's Literature Credits: 3
- ENGH 798 - Directed Reading and Research Credits: 1-6
- ANTH 750 - Ethnographic Genres Credits: 3

One research course (3 credits) chosen from:

- ENGH 701 - Research in English Studies Credits: 3
- HIST 610 - The Study and Writing of History Credits: 3
- SOCI 634 - Qualitative Research Methods Credits: 3

One elective course (3 credits)

Students choose a relevant elective with the prior written approval of the director.

Total: 18 credits

Professional Writing and Rhetoric Graduate Certificate

Banner Code: LA-CERG-PWR

Web: english.gmu.edu

The graduate certificate in professional writing and rhetoric provides students with course work in nonfiction writing in specific genres, current writing practices and theories of writing in organizational settings, research methods in professional writing, and nonfiction literature.

The certificate may be pursued concurrently with any of several programs in English and elsewhere. Part of the course work toward the certificate may be applied to those degrees with the approval of the director of the degree program.

This program of study is offered by the Department of English. For policies governing all certificates, see the Academic Policies section of the catalog.

The graduate certificate in professional writing and rhetoric may only be pursued on a part-time basis.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admission section of this catalog. For information specific to the graduate certificate in professional writing and rhetoric, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements

Students pursuing this certificate must complete 18 credits of English graduate courses with a minimum grade of 3.00 in each course.

One core course (3 credits)
• ENGH 501 - Introduction to Professional Writing and Rhetoric Credits: 3

One research methods course (3 credits)

• ENGH 502 - Research Methods in Rhetoric and Professional Writing Credits: 3

Two courses (6 credits) in professional writing and rhetoric chosen from:

• ENGH 503 - Theory and Practice of Editing Credits: 3
• ENGH 504 - Internship Credits: 1-6
• ENGH 505 - Document Design Credits: 3
• ENGH 507 - Web Authoring and Design Credits: 3
• ENGH 508 - Digital Rhetoric Credits: 3
• ENGH 611 - Studies in Rhetoric Credits: 3
• ENGH 612 - Cultures of Professional Writing Credits: 3
• ENGH 613 - Technical Communication Credits: 3
• ENGH 697 - Composition Theory Credits: 3

One course (3 credits) in writing, nonfiction, or professional writing and rhetoric chosen from:

• ENGH 503 - Theory and Practice of Editing Credits: 3
• ENGH 504 - Internship Credits: 1-6
• ENGH 505 - Document Design Credits: 3
• ENGH 506 - Research for Narrative Writing Credits: 3
• ENGH 507 - Web Authoring and Design Credits: 3
• ENGH 508 - Digital Rhetoric Credits: 3
• ENGH 565 - Forms of Nonfiction Credits: 3
• ENGH 611 - Studies in Rhetoric Credits: 3
• ENGH 612 - Cultures of Professional Writing Credits: 3
• ENGH 613 - Technical Communication Credits: 3
• ENGH 615 - Proseminar in Composition Instruction Credits: 3
• ENGH 616 - Nonfiction Writing Workshop Credits: 1-6
• ENGH 619 - Special Topics in Writing Credits: 3
• ENGH 695 - Northern Virginia Writing Project Inservice Program Credits: 1-3
• ENGH 697 - Composition Theory Credits: 3
• ENGH 699 - Workshop in English Credits: 1-3

One elective course (3 credits)

Students choose an elective from ENGH courses in consultation with an advisor.

Total: 18 credits

Teaching English as a Second Language Graduate Certificate
The graduate certificate in teaching English as a second language (TESL) prepares students to teach non-native speakers of English in the United States or abroad. Certificate courses fulfill, in part, requirements for an endorsement in English as a second language to the Virginia state teaching credential. Students who want to earn this endorsement should consult with an advisor.

The certificate may be pursued concurrently with any of several degree programs offered through the College of Education and Human Development, the English Department, and the Modern and Classical Languages Department. Part of the course work toward the certificate may be applied toward degrees in those departments.

This program of study is offered by the Department of English.

For policies governing all graduate certificates, see the Academic Policies section of this catalog.

The graduate certificate in teaching English as a second language may be pursued on a part-time or full-time basis.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit the disclosure information page at: http://irr.gmu.edu/new/N_IRRHome/HEOA/Gainful.cfm

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admission section of this catalog. For information specific to the graduate certificate in teaching English as a second language, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements

Students pursuing this certificate must complete 18 credits, earning a minimum grade of 3.00 in each course.

Six required courses (18 credits)

- LING 520 - Introduction to Linguistics Credits: 3
- LING 521 - Applied Linguistics: Teaching English as a Second Language Credits: 3
- LING 522 - Modern English Grammar Credits: 3
- LING 523 - English Phonetics Credits: 3
- LING 525 - Practicum in ESL Credits: 3
- LING 582 - Second Language Acquisition Credits: 3

Total: 18 credits

Master of Arts

English, MA

Banner Code: LA-MA-ENGL
This program of study is offered by the Department of English.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

An accelerated master's option with a concentration in linguistics is available to students in any bachelor's program. See Bachelor's Degree (any)/English, Accelerated MA (Linguistics Concentration) for specific requirements.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the MA in English, see Application Requirements and Deadlines on the departmental web site.

Satisfactory Progress

Students have six years to complete the MA. Students writing a thesis must have an approved proposal by the end of their fifth year as an MA candidate in English and may not make significant changes to that proposal during their sixth year. By the end of the first semester of their sixth year, thesis students need to demonstrate that they have completed their research and are well advanced in developing their analysis and argument, generally by submitting to their advisors a completed rough draft of the thesis or evidence that they have completed their fieldwork and analysis. A student may be dropped from the program if, in the judgment of the thesis advisor and graduate director, evidence of satisfactory progress on the thesis has not been provided by the end of the first semester of a student’s sixth year.

Degree Requirements

Students pursuing this degree must successfully complete 30 to 33 credits in one concentration as specified below and demonstrate proficiency in a foreign language.

Foreign Language Proficiency

Students in all concentrations must demonstrate proficiency in a foreign language by course work equivalent to Mason’s foreign language course FRLN 210 or by passing a translation test administered by the department.

▲ Concentration in Cultural Studies (CULT)

Three required courses (9 credits):

- ENGH 676 - Introduction to Cultural Studies Credits: 3
- ENGH 701 - Research in English Studies Credits: 3
- CULT 802 - Histories of Cultural Studies Credits: 3

Two courses (6 credits) chosen from:

ENGH 685, 705, and 740 may be repeated once with permission of the director of graduate studies.

- ENGH 551 - Literary Criticism Credits: 3
- ENGH 555 - Introduction to Cinema Studies Credits: 3
Three to five courses (9-15 credits) of literature chosen from:

- ENGH 511 - Styles and Modes in Literary History Credits: 3
- ENGH 512 - Issues in Literature and Philosophy Credits: 3
- ENGH 513 - Advanced Special Topics in English Credits: 3
- ENGH 514 - Theories of Comparative Literature Credits: 3
- ENGH 526 - Special Topics in the History and Criticism of Children's Literature Credits: 3
- ENGH 555 - Introduction to Cinema Studies Credits: 3
- ENGH 590 - Topics in Folk Narrative Credits: 3
- ENGH 591 - Topics in Folklore Studies Credits: 3
- ENGH 625 - British Medieval Credits: 3
- ENGH 630 - Early Modern Credits: 3
- ENGH 635 - Eighteenth-Century British Credits: 3
- ENGH 640 - Nineteenth-Century British Credits: 3
- ENGH 645 - Twentieth-Century British Credits: 3
- ENGH 650 - Seventeenth-Century American Credits: 3
- ENGH 655 - Nineteenth-Century American Credits: 3
- ENGH 660 - Twentieth-Century American Credits: 3
- ENGH 661 - Advanced Survey in African American Literature Credits: 3
- ENGH 665 - Texts in Global Contexts Credits: 3
- ENGH 670 - Visual Culture: Theories and Histories Credits: 3
- ENGH 681 - Advanced Topics in Folklore Studies Credits: 3
- ENGH 685 - Selected Topics, Movements, or Genres of Literature in English Credits: 3

Project or Thesis (3 or 6 credits) (optional)

Project (3 credits)

Students who choose a project take 3 fewer credits of literature.

- ENGH 790 - Projects in Literary Studies Credits: 3

Thesis (6 credits)

Students who choose a thesis take 6 fewer credits of literature.

- ENGH 799 - Thesis Credits: 1-6

Total: 30 credits
Concentration in Linguistics (LING)

The linguistics concentration of the MA in English combines courses in linguistics with courses in some related area of language study, such as teaching English as a second language, bilingual education, or foreign language teaching. This course of study is designed to prepare students for teaching in one of these fields or for doctoral work. The certificate in teaching English as a second language (TESL) can be earned concurrently.

Six core courses (18 credits):

- LING 690 - Generative Phonology Credits: 3
- LING 691 - Theories of Language Credits: 3
- LING 692 - Phonology II Credits: 3
- LING 785 - Semantics and Pragmatics Credits: 3
- LING 786 - Syntax I Credits: 3
- LING 787 - Syntax II Credits: 3

Four elective courses (12 credits)

In consultation with an advisor, chosen from courses that reflect one or more areas of language study. Electives can be in such areas as linguistics, the teaching of reading or writing, literary criticism, bilingual education, or a foreign language, and may include 6 credits of thesis.

Total: 30 credits

Concentration in Literature (LIT)

Two required courses (6 credits)

Must be taken in the first twelve credits of the degree. Another course in literary theory and criticism may substitute for ENGH 551 with prior written approval of the graduate director.

- ENGH 551 - Literary Criticism Credits: 3
- ENGH 701 - Research in English Studies Credits: 3

Four to six courses (12-18 credits) of literature chosen from:

- ENGH 511 - Styles and Modes in Literary History Credits: 3
- ENGH 512 - Issues in Literature and Philosophy Credits: 3
- ENGH 513 - Advanced Special Topics in English Credits: 3
- ENGH 514 - Theories of Comparative Literature Credits: 3
- ENGH 526 - Special Topics in the History and Criticism of Children's Literature Credits: 3
- ENGH 555 - Introduction to Cinema Studies Credits: 3
- ENGH 590 - Topics in Folk Narrative Credits: 3
- ENGH 591 - Topics in Folklore Studies Credits: 3
- ENGH 625 - British Medieval Credits: 3
- ENGH 630 - Early Modern Credits: 3
- ENGH 635 - Eighteenth-Century British Credits: 3
• ENGH 640 - Nineteenth-Century British Credits: 3
• ENGH 645 - Twentieth-Century British Credits: 3
• ENGH 650 - Seventeenth-Century American Credits: 3
• ENGH 655 - Nineteenth-Century American Credits: 3
• ENGH 660 - Twentieth-Century American Credits: 3
• ENGH 661 - Advanced Survey in African American Literature Credits: 3
• ENGH 665 - Texts in Global Contexts Credits: 3
• ENGH 670 - Visual Culture: Theories and Histories Credits: 3
• ENGH 681 - Advanced Topics in Folklore Studies Credits: 3
• ENGH 685 - Selected Topics, Movements, or Genres of Literature in English Credits: 3

Two elective courses (6 credits)

Elective courses taught within the English department may be taken without permission of the graduate director. A maximum of 6 credits of related study outside the department may substitute for the equivalent number of elective credits, with permission of the graduate director.

Project or Thesis (3 or 6 credits) (optional)

Project (3 credits)

Students who choose a project take 3 fewer credits of literature.

• ENGH 790 - Projects in Literary Studies Credits: 3

Thesis (6 credits)

Students who choose a thesis take 6 fewer credits of literature.

• ENGH 799 - Thesis Credits: 1-6

Total: 30 credits

▲ Concentration in Professional Writing and Rhetoric (PWR)

Two required courses (6 credits):

• ENGH 501 - Introduction to Professional Writing and Rhetoric Credits: 3
• ENGH 502 - Research Methods in Rhetoric and Professional Writing Credits: 3

Two courses (6 credits) in professional writing and rhetoric chosen from:

• ENGH 503 - Theory and Practice of Editing Credits: 3
• ENGH 504 - Internship Credits: 1-6
• ENGH 505 - Document Design Credits: 3
• ENGH 507 - Web Authoring and Design Credits: 3
• ENGH 508 - Digital Rhetoric Credits: 3
• ENGH 611 - Studies in Rhetoric Credits: 3
• ENGH 612 - Cultures of Professional Writing Credits: 3
• ENGH 613 - Technical Communication Credits: 3
• ENGH 697 - Composition Theory Credits: 3

One course (3 credits) in writing, nonfiction, or professional writing and rhetoric chosen from:

• ENGH 503 - Theory and Practice of Editing Credits: 3
• ENGH 504 - Internship Credits: 1-6
• ENGH 505 - Document Design Credits: 3
• ENGH 506 - Research for Narrative Writing Credits: 3
• ENGH 507 - Web Authoring and Design Credits: 3
• ENGH 508 - Digital Rhetoric Credits: 3
• ENGH 565 - Forms of Nonfiction Credits: 3
• ENGH 611 - Studies in Rhetoric Credits: 3
• ENGH 612 - Cultures of Professional Writing Credits: 3
• ENGH 613 - Technical Communication Credits: 3
• ENGH 615 - Proseminar in Composition Instruction Credits: 3
• ENGH 616 - Nonfiction Writing Workshop Credits: 1-6
• ENGH 619 - Special Topics in Writing Credits: 3
• ENGH 695 - Northern Virginia Writing Project Inservice Program Credits: 1-3
• ENGH 697 - Composition Theory Credits: 3
• ENGH 699 - Workshop in English Credits: 1-3

One course (3 credits) in theory chosen from:

• ENGH 514 - Theories of Comparative Literature Credits: 3
• ENGH 551 - Literary Criticism Credits: 3
• ENGH 670 - Visual Culture: Theories and Histories Credits: 3
• ENGH 675 - Feminist Theory and Criticism Credits: 3
• ENGH 705 - Literary Theory and Criticism Credits: 3
• ENGH 676 - Introduction to Cultural Studies Credits: 3

Two or three elective courses in English (6-9 credits)

Project or Thesis (3 or 6 credits)

3 credits of project

Students who choose a project take one additional elective course of 3 credits.

• ENGH 797 - Projects in Professional Writing and Rhetoric Credits: 3

6 credits of thesis
- ENGH 799 - Thesis Credits: 1-6

Total: 30 credits

▲ Concentration in the Teaching of Writing and Literature (TWL)

One required course (3 credits):

- ENGH 701 - Research in English Studies Credits: 3

Two courses (6 credits) in writing chosen from:

- ENGH 505 - Document Design Credits: 3
- ENGH 564 - Form of Poetry Credits: 3
- ENGH 565 - Forms of Nonfiction Credits: 3
- ENGH 566 - Forms of Fiction Credits: 3
- ENGH 611 - Studies in Rhetoric Credits: 3
- ENGH 612 - Cultures of Professional Writing Credits: 3
- ENGH 613 - Technical Communication Credits: 3
- ENGH 616 - Nonfiction Writing Workshop Credits: 1-6
- ENGH 617 - Poetry Writing Workshop Credits: 1-6
- ENGH 618 - Fiction Writing Workshop Credits: 1-6
- ENGH 619 - Special Topics in Writing Credits: 3
- ENGH 699 - Workshop in English Credits: 1-3

Two courses (6 credits) in literature chosen from:

- ENGH 511 - Styles and Modes in Literary History Credits: 3
- ENGH 512 - Issues in Literature and Philosophy Credits: 3
- ENGH 513 - Advanced Special Topics in English Credits: 3
- ENGH 514 - Theories of Comparative Literature Credits: 3
- ENGH 526 - Special Topics in the History and Criticism of Children's Literature Credits: 3
- ENGH 555 - Introduction to Cinema Studies Credits: 3
- ENGH 590 - Topics in Folk Narrative Credits: 3
- ENGH 591 - Topics in Folklore Studies Credits: 3
- ENGH 625 - British Medieval Credits: 3
- ENGH 630 - Early Modern Credits: 3
- ENGH 635 - Eighteenth-Century British Credits: 3
- ENGH 640 - Nineteenth-Century British Credits: 3
- ENGH 645 - Twentieth-Century British Credits: 3
- ENGH 650 - Seventeenth-Century American Credits: 3
- ENGH 655 - Nineteenth-Century American Credits: 3
- ENGH 660 - Twentieth-Century American Credits: 3
- ENGH 661 - Advanced Survey in African American Literature Credits: 3
- ENGH 665 - Texts in Global Contexts Credits: 3
- ENGH 670 - Visual Culture: Theories and Histories Credits: 3
• ENGH 681 - Advanced Topics in Folklore Studies Credits: 3
• ENGH 685 - Selected Topics, Movements, or Genres of Literature in English Credits: 3

One course (3 credits) in linguistics chosen from:

Students usually fulfill this requirement with LING 520. The other courses listed have prerequisites.

• LING 520 - Introduction to Linguistics Credits: 3
• LING 507 - Field Work in Applied Linguistics Credits: 3
• LING 521 - Applied Linguistics: Teaching English as a Second Language Credits: 3
• LING 522 - Modern English Grammar Credits: 3
• LING 581 - Psycholinguistics Credits: 3
• EDCI 519 - Methods of Teaching Multilingual Students Credits: 3

One course (3 credits) in the teaching of writing chosen from:

• ENGH 615 - Proseminar in Composition Instruction Credits: 3
• ENGH 695 - Northern Virginia Writing Project Inservice Program Credits: 1-3 (offered only to full-time teachers through school district contracts)
• ENGH 699 - Workshop in English Credits: 1-3 (NVWP Summer Institute, open to full-time teachers on an invitation basis)

One course (3 credits) in teaching of literature chosen from:

• ENGH 610 - Proseminar in Teaching the Reading of Literature Credits: 3
• ENGH 695 - Northern Virginia Writing Project Inservice Program Credits: 1-3 (offered only to full-time teachers through school district contracts)

One course (3 credits) in composition theory:

• ENGH 697 - Composition Theory Credits: 3
  or an appropriate section of
• ENGH 611 - Studies in Rhetoric Credits: 3

Up to one elective course (3 credits) in literature or writing

Students who choose to do a project or thesis will take project or thesis credits in place of this requirement.

Project or Thesis (3-6 credits) (optional)

Project (3 credits)

Students who choose a project take 3 fewer elective credits in literature or writing.

• ENGH 790 - Projects in Literary Studies Credits: 3

Thesis (6 credits)
Students may arrange to do a thesis working with an advisor and the director of graduate studies in English. Students who pursue this option take 3 fewer elective credits in literature or writing. They must complete 33 (rather than 30) credits to receive their degree.

- ENGH 799 - Thesis Credits: 1-6

Total: 30-33 credits

Most students complete 30 credits. Students in the concentration in the teaching of writing and literature who chose to do a thesis complete 33 credits.

**Master of Fine Arts**

**Creative Writing, MFA**

**Banner Code:** LA-MFA-CW

Web: creativewriting.gmu.edu

The master of fine arts in creative writing has three concentrations: poetry, fiction, and nonfiction. Students should apply to only one concentration, although a student turned down by one concentration may subsequently apply to another or to that same concentration in a subsequent year.

Students interested in taking individual courses or in applying in the future to the MFA program are welcome to apply to take classes as non degree students; such enrollments are allowed only with the instructor’s permission. Students already admitted as non degree students who are interested in taking a specific creative writing course should submit a brief letter of introduction and a writing sample to the professor at least one week before the start of classes. Students who are not already admitted as non degree students first need to apply for non degree status. Students who have been denied admission to the MFA program may not take courses as non degree students.

This program of study is offered by the Department of English.

For policies governing all master's degrees, see the Academic Policies section of the catalog.

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the MFA in creative writing, see Application Requirements and Deadlines on the departmental web site.

**Reduction of Credit**

With the approval of the MFA faculty, the program director, and the dean, the number of credits required for an MFA may be reduced by a maximum of 20 credits on the basis of graduate course work before admission.

**Degree Requirements**
Two to four courses (6 to 12 credits) in literature

Students should choose courses in consultation with an advisor. ENGH 798 may not be used to fulfill this requirement.

One Concentration (12 to 15 credits)

▲ Concentration in Fiction (FIC)

Students in this concentration complete 12 credits.

One course (3 credits) in the form

- ENGH 566 - Forms of Fiction Credits: 3

Writing workshops (9 credits)

- ENGH 618 - Fiction Writing Workshop Credits: 1-6
- ENGH 751 - Advanced Workshop in Fiction Writing Credits: 1-6

▲ Concentration in Nonfiction Writing (NFW)

Students in this concentration complete 15 credits.

One required course (3 credits)

Students should enroll the first semester it is offered after they enter the program.

- ENGH 506 - Research for Narrative Writing Credits: 3

One course (3 credits) in the form

- ENGH 565 - Forms of Nonfiction Credits: 3

Writing workshops (9 credits)

- ENGH 616 - Nonfiction Writing Workshop Credits: 1-6
- ENGH 752 - Advanced Workshop in Nonfiction Writing Credits: 1-6

▲ Concentration in Poetry (POE)

Students in this concentration complete 15 credits.

One course (3 credits) in the form

- ENGH 564 - Form of Poetry Credits: 3
Writing workshops (9 credits)

- ENGH 617 - Poetry Writing Workshop Credits: 1-6
- ENGH 750 - Advanced Workshop in Poetry Writing Credits: 3

At least one course (3 credits) in another genre (fiction or nonfiction)

This requirement may be filled by a section of ENGH 608 in another genre.

Elective courses (up to 15 credits)

Electives should be chosen in consultation with the writing program faculty. The number of electives will vary according to the number of literature courses and workshops that students take.

Craft Seminars (6 to 12 credits)

This course can be repeated for credit.

- ENGH 608 - Craft Seminars Credits: 3

Workshop (1 credit)

- ENGH 699 - Workshop in English Credits: 1-3

Exam or Project

Exam

Students in poetry must pass a written MFA exam based on the authors they have chosen. The authors are selected in collaboration with the writing faculty any time after completing 12 credits of course work and before completing 32 credits. The exam must be completed at least one semester before the student registers for the final 3 credits of thesis.

Students in fiction and nonfiction writing must pass an MFA exam or complete an MFA project. Students who elect to take the MFA exam select, after the completion of 18 credits and with the approval of their faculty advisors, a list of authors and an area of emphasis (for example, the European novel).

Project

Students in fiction and nonfiction writing must pass an MFA exam or complete an MFA project. Students who elect to complete an MFA project (such as editing an anthology) must carry out the project under the direction of a faculty member and may register for ENGH 798 to fulfill this requirement. The project must be completed at least one semester before the student registers for the final 3 credits of thesis.

- ENGH 798 - Directed Reading and Research Credits: 1-6

Thesis (6 credits)
ENGH 798 may not be used as thesis preparation. Students who want to register for thesis credits in the summer need the permission of the thesis committee.

Students should be aware of the university policies governing theses. They must follow the thesis enrollment policy and once enrolled in ENGH 799, maintain continuous enrollment. These policies are specified in the Academic Policies section of the catalog.

- ENGH 799 - Thesis Credits: 1-6

Total: 48 credits

Non-Degree

English Minor

Banner Code: ENGL

Web: english.gmu.edu

A minor in English provides students with a strong background in writing and critical thinking, as well as introducing them to significant literary and cultural documents. Prerequisite for the minor in English is satisfaction of the 3-credit university-wide general education requirement in literature.

The minor must be approved by the English Department undergraduate advisor before graduation.

This program of study is offered by the Department of English.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing the minor in English must complete 18 credits with a minimum GPA of 2.00. ENGH 305 is not required for the minor but is strongly encouraged. ENGH 302 may not be applied to the minor.

One to two courses (3-6 credits) in 200-level literature courses chosen from:

- ENGH 201 - Reading and Writing about Texts Credits: 3
- ENGH 202 - Texts and Contexts Credits: 3
- ENGH 203 - Western Literary Tradition Credits: 3
- ENGH 204 - Western Literary Traditions Credits: 3

Four to five courses (12-15 credits) in 300 or 400 level ENGH courses

Students have the option of choosing courses to form a focus for the minor. Examples include: American literature, British literature, creative writing, cultural studies, drama, fiction, film and media studies, folklore, literary criticism, poetry, and world literature. Students should consult with the English undergraduate advisor to design a minor program to meet their educational goals and interests. (ENGH 302 may not be applied to the minor.)

Total: 18 credits
Film and Media Studies Minor

Banner Code: FILM
Phone: 703-993-2768
Web: fams.gmu.edu

Faculty

Cynthia Fuchs, Program Director

Thomas Britt, Film and Video Studies; Julie Christensen, Modern and Classical Languages; Mark Cooley, Art and Visual Technology;Jeremy Freer, School of Music; Timothy Gibson, Communication; Steven Groening, English; Carma Hinton, Robinson Professor; Gary Kreps, Communication; Alison Landsberg, History and Art History; Carla Marcantonio, English; David Miller, Communication; Janine Ricouart, Modern and Classical Languages; Mark Sample, English; Jessica Scarlata, English; Benjamin Steger, Film and Video Studies; Gail Scott White, Art and Visual Technology; Martin Winkler, Modern and Classical Languages.

The interdisciplinary minor in film and media studies explores mass culture in its visual manifestations and helps students develop an informed awareness of culture and media, ideological tendencies, and effects on daily experience. Committed to interdisciplinary studies, the program addresses the increasing complexity and multiplicity of visual cultures and offers students the tools with which to read a variety of texts, including film, television, video, and new media.

Most course work is offered through the Departments of Communication and English, with other courses available through the Department of Modern and Classical Languages and the Program in Film and Video Studies. The two required courses provide an introduction to the languages of film and popular media and modes of analysis appropriate to each. They are prerequisites for all advanced work in the minor. Students select four additional courses designed to introduce a more specialized level of study. Students may decide to focus on film, television, or the study of mass culture, or they may choose some mix of courses that suits their interests.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 18 credits of coursework with a minimum GPA of 2.0. Eight credits of course work must be unique to the minor.

Two required courses (6 credits)

- ENGH 372 - Introduction to Film Credits: 3
- COMM 380 - Media Criticism Credits: 3

Four elective courses (12 credits)

Students need prior written approval of the FAMS director to apply these courses to the minor: ENGH 318, 319, 418, 419, 499 and FREN 470. FREN 470 also requires permission of the instructor. ENGH 470, 472, and 474 may be repeated for credit and applied to the minor if the topic is different.
COMM and AVT majors can only use 6 elective credits from their home department toward the FAMS minor.

Choose 12 credits from:

- CHIN 320 - Contemporary Chinese Film Credits: 3
- COMM 302 - Foundations of Mass Communication Credits: 3
- COMM 350 - Mass Communication and Public Policy Credits: 3
- COMM 355 - Video Principles and Practices Credits: 3
- COMM 358 - Video Producing and Directing Credits: 3
- COMM 360 - Video Editing Credits: 3
- COMM 364 - Videography Credits: 3
- COMM 365 - Gender, Race, and Class in the Media Credits: 3
- COMM 366 - Visual Communication Credits: 3
- COMM 452 - Media Production Practicum Credits: 3
- COMM 456 - Comparative Mass Media Credits: 3
- ENGH 318 - Introduction to Cultural Studies Credits: 3 (with permission of director)
- ENGH 319 - Popular Culture Credits: 3 (with permission of director, can be repeated for credit when topic is different)
- ENGH 362 - Global Voices Credits: 3 (with permission of director, can be repeated for credit when topic is different)
- ENGH 370 - Introduction to Documentary Credits: 3
- ENGH 418 - Cultural Constructions of Sexualities Credits: 3 (with permission of director)
- ENGH 470 - Topics in Film/ Media History Credits: 3 (can be repeated for credit when topic is different)
- ENGH 472 - Topics in Film/ Media Theory Credits: 3 (can be repeated for credit when topic is different)
- ENGH 474 - Topics in Film/ Media Studies Credits: 3 (can be repeated for credit when topic is different)
- ENGH 419 - Topics in Popular Literature Credits: 3 (with permission of director)
- ENGH 499 - Independent Study Credits: 1-6 (with permission of director)
- FAVS 365 - Documentary Filmmaking I Credits: 3
- FAVS 399 - Special Topics in Film and Video Studies Credits: 1-3 (can be repeated for credit if topic is different)
- FREN 470 - French and Francophone Cinema Credits: 3
- FRLN 331 - Topics in World Cinema Credits: 3
- JAPA 320 - Japanese Cinema Credits: 3
- MUSI 301 - Music in Motion Pictures Credits: 3
- RUSS 470 - Topics in (Post) Soviet Film Credits: 3 (with permission of FAMS director and the instructor)

Total: 18 credits

Folklore and Mythology Minor

Banner Code: FOLK

Phone: 703-993-1172
Web: folkloreprograms.gmu.edu

Faculty

Decaroli, Fraser, Fuchs, Johnsen-Neshati, Mattusch (co-coordinator), Rutledge, Shiner, Lattanzi Shutika, Todd, Winkler, Yocom (co-coordinator)
Stories told in both sacred and secular contexts, along with festivals, foods, music, material objects, and other traditional art forms, continue to influence our lives. This interdisciplinary minor offers students tools to explore the compelling meanings within these seemingly simple, everyday cultural texts, and helps them become more aware of the ways these texts are used by individuals and institutions for various goals. Students study folklore and mythology by juxtaposing the multiple viewpoints of anthropology, art history, classical studies, literary studies, and religious studies.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies section of this catalog.

**Course Work**

Students pursuing this minor must complete 18 credits with a minimum GPA of 2.00. A course used to fulfill the 3 credits of literature required for general education may not also be applied to the minor. To avoid duplication of courses, English majors who choose the folklore and mythology interdisciplinary minor may not select the English Department’s folklore, mythology, and literature concentration.

**One course (3 credits) chosen from:**

- ARTH 102 - Symbols and Stories in Art Credits: 3
- CLAS 250 - Classical Mythology Credits: 3
- DANC 118 - World Dance Credits: 3 (when the topic is Afro-Cuban dance)
- RELI 100 - The Human Religious Experience Credits: 3
- RELI 211 - Religions of the West Credits: 3
- RELI 212 - Religions of Asia Credits: 3

**Four to five courses (12 to 15 credits) chosen from:**

- ANTH 427 - Historic Cemetery Survey Credits: 4
- ANTH 450 - Qualitative Methods: Nonstatistical Approaches in Culture and Social Research Credits: 3
- ARTH 319 - Art and Archaeology of the Ancient Near East Credits: 3
- ARTH 321 - Greek Art and Archaeology Credits: 3
- ARTH 322 - Roman Art and Archaeology Credits: 3
- ARTH 382 - Arts of India Credits: 3
- ARTH 383 - Arts of Southeast Asia Credits: 3
- ARTH 384 - Arts of China Credits: 3
- ARTH 385 - Arts of Japan Credits: 3
- ARTH 399 - Special Topics in the History of Art Credits: 3 (when the topic is Medieval Irish art and culture)
- ARTH 482 - Advanced Studies in Asian Art Credits: 3 (when the topic is monuments and memory)
- CLAS 340 - Greek and Roman Epic Credits: 3
- CLAS 350 - Greek and Roman Tragedy Credits: 3
- CLAS 390 - Topics in Classical Literature and Culture Credits: 3 (when the topic is the Odyssey in film)
- ENGH 384 - Writing Ethnography Credits: 3
- ENGH 315 - Folklore and Folklife Credits: 3
- ENGH 316 - Topics in Myth and Literature Credits: 3
- ENGH 453 - Topics in Fiction Credits: 3 (when the topic is literary fairy tales)
- ENGH 416 - Ethnicity and Migration in Folklore Credits: 3
- ENGH 414 - Folklore of the Spirit World Credits: 3
• ENGH 415 - Folk Arts and Folk Artists Credits: 3
• ENGH 412 - Topics in Folklore Studies Credits: 3
• RELI 401 - Death and the Afterlife in World Religions Credits: 3

At most one course (3 credits) of independent study or internship chosen from:

• Summer field work schools offered by the American Folklife Center at the Library of Congress or other institution approved by faculty and taken for credit
• ANTH 299 - Independent Study Credits: 1-3
• ANTH 495 - Internship Credits: 1-6
• ARTH 393 - Art History Internships Credits: 3-6
• ARTH 490 - Independent Study in Art History Credits: 3
• ARTH 491 - Independent Study in Art History Credits: 3
• ENGH 459 - Internship Credits: 1-3 (when this is an approved internship in folklore)
• ENGH 499 - Independent Study Credits: 1-6

Total: 18 credits

Linguistics Minor

Banner Code: LING

Phone: 703-993-1188
Web: linguistics.gmu.edu

Faculty

Goldin, Holisky, Jones, Leeman, Levine, McCarthy, Roman-Mendoza, Weinberger (director), Wulf

Linguistics is the scientific study of language. Language is studied descriptively, theoretically, computationally, and psychologically, and as a social phenomenon. The field of linguistics thus informs and is informed by many other areas of study, including philosophy, psychology, sociology, computer science, the study of individual languages and literatures, literary studies, and education.

The interdisciplinary minor in linguistics may be combined with a major in one of the areas listed above or in any other field. This minor introduces the fundamental concepts of modern linguistic theory and explores how these concepts relate to various other disciplines.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

One core course (3 credits) in general linguistics

• LING 306 - General Linguistics Credits: 3
One course (3 credits) in syntactic theory, phonological theory, or linguistic semantics

Choose one of the following:

- LING 486 - Syntax I Credits: 3
- LING 490 - Generative Phonology Credits: 3
- LING 485 - Semantics and Pragmatics Credits: 3

Three elective courses (9 credits)

Other elective courses, when topic is relevant, may be applied to the minor with the prior written approval of the director.

- Any LING course
- ANTH 114 - Introduction to Cultural Anthropology Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3
- FRLN 380 - Topics in the Sociopolitics of Language Credits: 3
- FRLN 385 - Multilingualism, Identity, and Power Credits: 3
- LING 307 - English Grammar Credits: 3
- LING 450 - Introduction to Sociolinguistics Credits: 3
- LING 499 - Independent Study Credits: 1-3
- Any foreign language course beyond 210

Total: 15 credits

Native American and Indigenous Studies Minor

Banner Code: NAIS

Web: english.gmu.edu

Phone: 703-993-1161

Faculty

Anderson (coordinator), Benitez, Bristol, Karush, Scully, Snead, Tichy, Yocom

Native American and indigenous studies is an interdisciplinary field of study committed to understanding both the unity and the diversity of present and past Native American tribes, cultures, and experiences. This interdisciplinary minor will help students think critically and respectfully about the complex dynamics of Native American cultures, considered both individually and comparatively. In addition to practicing and developing critical thinking and writing skills, students in this interdisciplinary minor will learn how value systems operate in different cultures, examine the roots of conflict and resolution across a broad historical and cultural spectrum, better understand the importance of language as a means of cultural expression, and heighten their appreciation of the unique status of present-day Native American tribes as nations with certain sovereign powers within the boundaries of the United States.

In addition to a required course that introduces key concepts, events, figures, and methodological approaches, students take five 3-credit elective courses from no fewer than three departments. The course work for this minor enables students to examine
Native American cultures from a variety of disciplinary perspectives, including those that are anthropological, historical, artistic, philosophical, and political.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies section of this catalog.

**Course Work**

No more than two courses from a single department can be applied to the minor. No more than 3 credits can be applied to both university general education requirements and the minor.

Students pursuing this minor must complete 18 credits in coursework with a minimum GPA of 2.0.

**One required course (3 credits)**

- NAIS 201 - Introduction to Native American and Indigenous Studies Credits: 3

**Five elective courses (15 credits) chosen from:**

Special topics courses and summer field work offerings, when relevant, may be used to fulfill elective credits for the minor with prior written approval of the director.

- ANTH 301 - Native North Americans Credits: 3
- ANTH 302 - Peoples and Cultures of Latin America Credits: 3
- ANTH 307 - Ancient Mesoamerica Credits: 3
- ANTH 399 - Issues in Anthropology Credits: 3
- ANTH 428 - Patterns in Prehistory Credits: 3
- ENGH 384 - Writing Ethnography Credits: 3
- ENGH 315 - Folklore and Folklife Credits: 3
- HIST 391 - History of Virginia to 1800 Credits: 3
- HIST 401 - Colonial America Credits: 3
- HIST 403 - Revolutionary Era in American History, 1763-1812 Credits: 3
- HIST 404 - Jacksonian America, 1812-1854 Credits: 3
- MUSI 103 - Musics of the World Credits: 3
- SOCI 308 - Race and Ethnicity in a Changing World Credits: 3

**Total: 18 credits**

**Teaching English as a Second Language Minor**

**Banner Code: TESL**

Web: linguistics.gmu.edu

The minor in teaching English as a second language (TESL) helps prepare undergraduate students to teach nonnative speakers of English in the United States or abroad. This course of study combines linguistic theory, second language acquisition theory, and ESL teaching methodology.
The minor in TESL may be pursued concurrently with any undergraduate major. English majors concentrating in linguistics can apply up to 9 credits in LING used for the major to the TESL minor.

This program of study is offered by the Department of English.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 18 credits of coursework with a minimum GPA of 2.0.

Five required courses (15 credits)

Students must have approval from the director to register for 500-level courses.

- LING 306 - General Linguistics Credits: 3
- LING 307 - English Grammar Credits: 3
- LING 521 - Applied Linguistics: Teaching English as a Second Language Credits: 3
- LING 523 - English Phonetics Credits: 3
- LING 582 - Second Language Acquisition Credits: 3

One elective course (3 credits) chosen from:

Other relevant courses may be applied to the minor with the prior written approval of the director. Students must have approval from the director to register for 500-level courses.

- Any course in a foreign language beyond the college requirement for the BA degree
- ANTH 114 - Introduction to Cultural Anthropology Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3
- ENGH 318 - Introduction to Cultural Studies Credits: 3
- LING 450 - Introduction to Sociolinguistics Credits: 3
- LING 485 - Semantics and Pragmatics Credits: 3
- LING 486 - Syntax I Credits: 3
- LING 490 - Generative Phonology Credits: 3
- LING 499 - Independent Study Credits: 1-3
- LING 525 - Practicum in ESL Credits: 3

Total: 18 credits

Writing and Rhetoric Minor

Banner Code: WRTR

Web: english.gmu.edu

The minor in writing and rhetoric provides students with opportunities to learn and apply advanced strategies for writing academic, professional, and civic documents. Students examine the theoretical, interdisciplinary, and professional aspects of writing and develop their expository, persuasive, organizational, and stylistic skills through close analysis of rhetorical situations.
and the features and approaches of successful writing. The strong communication and analytical skills developed while earning this minor contribute to student success in a wide variety of professional careers as well as graduate education.

The minor in writing and rhetoric is a valuable asset for students interested in working in media organizations, trade and professional associations, and non-profit organizations related to the arts, schools, and social change. It is also beneficial to students interested in careers in business, science, engineering, accounting, and many others that demand strong writing and communication skills for promotion and advancement.

Course Work

Students pursuing this minor must complete 15 credits of coursework with a minimum GPA of 2.00.

One required course (3 credits)

- ENGH 380 - Introduction to Writing and Rhetoric Credits: 3

One core course (3 credits) chosen from:

- ENGH 382 - Writing Nonfiction Genres Credits: 3
- ENGH 388 - Professional and Technical Writing Credits: 3

Three elective courses (9 credits)

Students may choose all three electives in ENGH or optionally take one elective course (3 credits) from outside the department.

Three elective ENGH courses (9 credits) chosen from:

- ENGH 375 - Web Authoring and Design Credits: 3
- ENGH 382 - Writing Nonfiction Genres Credits: 3
- ENGH 384 - Writing Ethnography Credits: 3
- ENGH 386 - Editing for Audience, Style, and Voice Credits: 3
- ENGH 388 - Professional and Technical Writing Credits: 3
- ENGH 459 - Internship Credits: 1-3
- ENGH 486 - Writing Nonfiction for Publication Credits: 3
- ENGH 488 - Topics in Writing and Rhetoric Credits: 3

Two elective ENGH courses (6 credits) and one (3 credits) from outside the department chosen from:

Students choose two courses from list above and one from list below.

- AVT 395 - Writing for Artists Credits: 3
- CHSS 390 - Peer Tutoring in Writing across the Disciplines Credits: 1 (take 3 times)
- COMM 303 - Writing across the Media Credits: 3
- COMM 320 - Business and Professional Communication Credits: 3
- NCLC 349 - Writing for Multimedia Credits: 4
Total: 15 credits

Global Affairs

Phone: 703-993-9185
Web: globalaffairs.gmu.edu

Course Work

The Global Affairs program offer all course work designated GLOA in the Courses section of this catalog.

Undergraduate Program

Faculty

Bachelor's Degree

The bachelor's degree in global affairs is a transdisciplinary major that introduces students to the global processes affecting all societies. Drawing on the broad international expertise of Mason faculty, this program incorporates courses from across the university. Global affairs majors examine transnational and international processes in a wide range of areas including politics, economics, culture, peace and conflict, and the environment. Through the concentration of their choice, they have the opportunity to study specific regions and languages and investigate the ways particular parts of the world experience and influence global processes.

Global affairs majors take a common set of core courses and choose a concentration. They can focus on a theme (e.g. global economy, international development, the environment) or a world region (e.g. Africa, Asia, Latin America).

Students are strongly encouraged to take advantage of Mason's many study abroad courses and do an internship as part of their degree program.

Honors in the Major

Highly qualified students may pursue advanced work leading to graduation with honors in the major. Global Affairs majors who have completed 75 credits with an overall GPA of 3.50 and a GPA of 3.50 in courses for the major are eligible to apply to graduate with honors. Students pursuing honors in the major must complete a two-course honors sequence GLOA 491 and GLOA 492 with a minimum GPA of 3.50 in the sequence. Not all applicants who meet the minimum requirements are guaranteed acceptance.

Global Affairs with a Second Major or Minor

Students can complement their major in global affairs with a second major. Students interested in this option are encouraged to discuss their plans with advisors in both majors. See the section on Credit for More than One Undergraduate Major in Academic Policies.
Students majoring in global affairs are encouraged to complement their major with one of the many minors offered by the college. See Minors and Interdisciplinary Minors in this section.

**Minor**

The undergraduate program in global affairs offers a minor in global affairs, which is available to students in any major in the university.

**Graduate Program**

**Faculty**

Bakhash, Kelly (director), Lyons, Mandaville, Shaklee, Wilsford

**Master's Degree**

The master's degree in global affairs is an interdisciplinary program that offers students the opportunity to engage in advanced study of a broad range of international global issues.

**Bachelor’s/Accelerated Master’s Program**

Highly qualified undergraduates in any major are invited to apply to the accelerated master’s degree program in global affairs. If accepted, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in global affairs after satisfactory completion of 144 credits, often within five years.

**Bachelor of Arts**

**Global Affairs, BA**

**Banner Code:** LA-BA-GLOA

Web: globalaffairs.gmu.edu

Global affairs is a transdisciplinary major that introduces students to the global processes affecting all societies. Students in this program are encouraged to participate in study abroad opportunities and internships. They can complement their major with a second major or a minor.

This program of study is offered by the Global Affairs program.

This has been designated a Green Leaf program. For further information, please go to Green Leaf Programs and Courses.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog.

**Degree Requirements**

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in global affairs must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences. Students pursuing this degree must complete 36 credits with a minimum cumulative GPA of 2.00. Students
must have a minimum grade of 2.00 in each of the core courses and a minimum grade of 1.67 in each of the courses used to fulfill the concentration and the language requirement for global Affairs majors. Students who major in global affairs may not also earn the minor in global systems or receive credit for ECON 390.

Six core courses (18 credits)

- GLOA 101 - Introduction to Global Affairs Credits: 3
- or
- SOCI 120 - Globalization and Society Credits: 3
- CONF 340 - Global Conflict Analysis and Resolution Credits: 3
- CULT 320 - Globalization and Culture Credits: 3
- ECON 385 - International Economic Policy Credits: 3
- EVPP 337 - Environmental Policy Making in Developing Countries Credits: 3
- GOVT 322 - International Relations Theory Credits: 3 (Note the prerequisite for this course: GOVT 132 or 133.)

6-9 credits of language study beyond intermediate proficiency

To fulfill this requirement, students can continue the study of one language beyond the intermediate proficiency level (required for all BA degrees in the college) or choose to study other languages. After a student has demonstrated intermediate proficiency in one language, the remainder of the requirement may be fulfilled by taking any courses taught in a foreign language, at any level. Students are required to complete:

- 9 credits beyond the completion of 210 or the receipt of heritage language waiver
- 6 credits beyond the completion of 202

Four courses (12 credits) in an approved concentration

Courses applied to a global affairs concentration must come from at least two different departments. Concentration courses must be unique to the concentration: they cannot be simultaneously used to fulfill any general education requirement or college requirement for the bachelor's degree. They cannot be applied to any other major, minor, concentration, or certificate.

In addition to the courses listed below, other relevant courses, including special topics courses, study abroad, and internships (maximum 3 credits), may be applied to a concentration with prior written approval from the director.

By Global Topic

▲ The Environment (EVT)

Students may complete this concentration through 12 credits of regular coursework or through the Smithsonian-Mason Semester Program (16 credits).

Regular Coursework

Choose 12 credits from the following:

- ANTH 370 - Environment and Culture Credits: 3
- BIOL 301 - Biology and Society Credits: 3
- ECON 335 - Environmental Economics Credits: 3 (Note the prerequisites for this course: ECON 103, 104.)
- EVPP 110 - The Ecosphere: An Introduction to Environmental Science I Credits: 4
- EVPP 336 - Human Dimensions of the Environment Credits: 3
- EVPP 377 - Applied Ecology Credits: 3
- GEOL 309 - Introduction to Oceanography Credits: 3
- GGS 302 - Global Environmental Hazards Credits: 3
- GGS 303 - Conservation of Resources and Environment Credits: 3
- GGS 311 - Introduction to Geographic Information Systems Credits: 3
- GOVT 361 - Introduction to Environmental Policy Credits: 3
- PHIL 243 - Global Environmental Ethics Credits: 3
- PHIL 343 - Topics in Environmental Philosophy Credits: 3
- TOUR 312 - Ecotourism Credits: 3
- TOUR 340 - Sustainable Tourism Credits: 3

Total: 12 credits

Smithsonian-Mason Semester Program

Students complete 16 credits offered through the Mason Center for Conservation Studies in cooperation with the Smithsonian National Zoo Smithsonian Conservation Biology Institute. Students may choose to focus their study on "Applied Conservation Strategies", or on "Ecology for Effective Conservation Practice". Students take the courses in the selected focus area together in one semester, living on site at the institute in Front Royal, VA. Students who apply this coursework to the concentration cannot also apply it to the minor in Applied Conservation Studies.

Applied Conservation Strategies Semester

- CONS 320 - Conservation in Practice Credits: 3
- CONS 401 - Conservation Theory Credits: 3
- CONS 402 - Applied Conservation Credits: 4
- CONS 410 - Human Dimensions in Conservation Credits: 3
- CONS 490 - Integrated Conservation Strategies Credits: 3

Ecology for Effective Conservation Practice Semester

- CONS 320 - Conservation in Practice Credits: 3
- CONS 403 - Ecology and Conservation Theory Credits: 3
- CONS 404 - Monitoring and Assessment of Biodiversity Credits: 4
- CONS 411 - Science Communication for Conservation Credits: 3
- CONS 491 - Comprehensive Conservation Planning Credits: 3

Total: 16 credits

▲ Global Economy and Management (GEM)

In this concentration, students explore marketing, managing, and developing world economies. Students interested in economics, business, and management should consider this concentration.

Choose 12 credits from the following:

- ECON 360 - Economics of Developing Areas Credits: 3
- ECON 361 - Economic Development of Latin America Credits: 3
• ECON 362 - African Economic Development Credits: 3
• ECON 380 - Economies in Transition Credits: 3
• FNAN 440 - International Financial Management Credits: 3
• GOVT 343 - International Political Economy Credits: 3
• IT 304 - IT in the Global Economy Credits: 3
• MGMT 461 - Cross Cultural and Global Management Credits: 3
• MKTG 407 - International Marketing Credits: 3
• MSOM 302 - Managing Information in a Global Environment Credits: 3
• MSOM 303 - Marketing in a Global Economy Credits: 3
• MSOM 305 - Managing in a Global Economy Credits: 3
• NCLC 423 - Management in the Global Marketplace Credits: 6
• BULE 302 - Legal Environment of Business Credits: 3
• BULE 402 - Commercial Law Credits: 3
• or other course approved by the program director

Note:

BULE courses require the approval of the director.

Total: 12 credits

▲ Global Governance (GLGV)

In this concentration students explore how national governments, international organizations, and non-governmental organizations work together to identify, understand, and address global issues. Coursework covers diplomacy, international law and organizations, international security, and conflict resolution.

Choose 12 credits from the following:

• ANTH 312 - Political Anthropology Credits: 3
• COMM 305 - Foundations of Intercultural Communication Credits: 3
• CRIM 405 - Law and Justice around the World Credits: 3
• CRIM 475 - Theory and Politics of Terrorism Credits: 3
• GGS 301 - Political Geography Credits: 3
• GOVT 342 - Diplomacy Credits: 3
• GOVT 343 - International Political Economy Credits: 3
• GOVT 344 - American Foreign Policy Credits: 3
• GOVT 347 - International Security Credits: 3
• GOVT 412 - Politics and the Mass Media Credits: 3
• GOVT 445 - Human Rights Credits: 3
• GOVT 446 - International Law and Organization Credits: 3
• GOVT 447 - Revolution and International Politics Credits: 3
• GOVT 448 - Ethics and International Politics Credits: 3
• NCLC 305 - Conflict Resolution and Transformation Credits: 6
• NCLC 422 - An Experiential Approach to American Foreign Policy Credits: 3-6
• SOCI 340 - Power, Politics, and Society Credits: 3
• or other course approved by the program director
Total: 12 credits

▲ Global Inequalities and Responses (GIR)

This concentration provides students with a historical perspective regarding international issues such as stratification, gender roles, race relations, and social movements. Students interested in government, anthropology, sociology, and women and gender studies should consider this concentration.

Choose 12 credits from the following:

- ANTH 365 - Race and Racism Credits: 3
- ANTH 488 - Gender, Sexuality, and Culture Credits: 3
- CRIM 405 - Law and Justice around the World Credits: 3
- GGS 304 - Populations Dimensions of Global Change Credits: 3
- GGS 307 - Sustainable Development Credits: 3
- GOVT 414 - Politics of Race and Gender Credits: 3
- HIST 366 - Comparative Slavery Credits: 3
- NCLC 304 - Social Movements and Community Activism Credits: 4
- SOCI 307 - Social Movements and Political Protest Credits: 3
- SOCI 308 - Race and Ethnicity in a Changing World Credits: 3
- SOCI 315 - Women and Men in Society Credits: 3
- SOCI 355 - Social Inequality Credits: 3
- WMST 100 - Representations of Women Credits: 3
- or other course approved by the program director

Total: 12 credits

▲ Human Security

This concentration is designed to conceptualize security beyond the boundaries of political security (violence and conflict) to promote a more comprehensive understanding of “human security” in its multiple facets: food and health (famine and infectious disease), environmental security (natural disasters and climate change), and economic security (development).

- ANTH 331 - Refugees Credits: 3
- ANTH 340 - Comparative Perspectives on Immigration Credits: 3
- CONF 345 - Social Dynamics of Terrorism, Security, and Justice Credits: 3
- CRIM 230 - Introduction to Homeland Security Credits: 3
- CRIM 475 - Theory and Politics of Terrorism Credits: 3
- ECON 360 - Economics of Developing Areas Credits: 3
- EVPP 436 - The Human Dimensions of Global Climate Change Credits: 3
- GCH 405 - International Health Policy and Practice Credits: 3
- GGS 311 - Introduction to Geographic Information Systems Credits: 3
- GOVT 346 - American Security Policy Credits: 3
- GOVT 347 - International Security Credits: 3
- GOVT 460 - Surveillance and Privacy in Contemporary Society Credits: 3
- NCLC 314 - Conflict, Trauma and Healing Credits: 6
- NCLC 378 - Medicine, Justice, and Public Policy Credits: 3
- NCLC 416 - Refugee and Internal Displacement Credits: 3
- SOCI 320 - Social Structure and Globalization Credits: 3
or other course approved by the program director

Total: 12 credits

▲ International Development (IDEV)

In this concentration, students explore the many facets of development work as practiced by national governments, international organizations, and non-governmental organizations today. Students learn about economic development, environmental conservation, sustainable tourism, democratization, human rights, international ethics, and humanitarian relief.

Choose 12 credits from the following:

- ANTH 331 - Refugees Credits: 3
- ECON 360 - Economics of Developing Areas Credits: 3
- ECON 361 - Economic Development of Latin America Credits: 3
- ECON 362 - African Economic Development Credits: 3
- GCH 205 - International Health Credits: 3
- GCH 405 - International Health Policy and Practice Credits: 3
- GGS 303 - Conservation of Resources and Environment Credits: 3
- GOVT 336 - Political Development and Change Credits: 3
- GOVT 434 - Democracy in Global Perspective Credits: 3
- GOVT 445 - Human Rights Credits: 3
- GOVT 446 - International Law and Organization Credits: 3
- HEAL 350 - Interventions for Populations and Communities at Risk Credits: 3
- NCLC 401 - Conservation Biology Credits: 6
- SOCW 351 - Social Policy and Social Justice Credits: 3
- TOUR 340 - Sustainable Tourism Credits: 3
- or other course approved by the program director

Total: 12 credits

▲ Media, Communication, and Culture

This concentration addresses the historic trends and recent explosion in media and communication technologies as well as their cultural contexts. Students interested in the fields of cultural studies, communications, sociology and anthropology, and information technology should consider this concentration.

- ANTH 332 - Cross-Cultural Perspectives on Globalization Credits: 3
- ANTH 380 - Language and Culture Credits: 3
- ANTH 395 - Work, Technology, and Society: An IT Perspective Credits: 3
- AVT 372 - Hip Hop Culture Credits: 3
- COMM 202 - Media and Society Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3
- COMM 306 - Issues in Intercultural Communication Credits: 3
- COMM 380 - Media Criticism Credits: 3
- COMM 412 - Politics and the Mass Media Credits: 3
- COMM 456 - Comparative Mass Media Credits: 3
- DANC 318 - Global Perspectives: World Dance Forms Credits: 3
- ENGH 362 - Global Voices Credits: 3
• ENGH 366 - The Idea of a World Literature Credits: 3
• ENGH 367 - World Literatures in English Credits: 3
• FRLN 330 - Topics in World Literature Credits: 3
• FRLN 331 - Topics in World Cinema Credits: 3
• IT 300 - Modern Telecommunications Credits: 3
• NCLC 343 - Interactive Digital Texts Credits: 3
• NCLC 345 - Introduction to Multimedia Credits: 5
• NCLC 348 - Digital Futures Credits: 3 or 6
• NCLC 381 - When Cultural Worlds Collide Credits: 6
• SOCI 314 - The Practice and Politics of Culture Credits: 3
• THR 359 - World Stages Credits: 3
• or other course approved by the program director

Total: 12 credits

By World Region

▲ Africa (AFR)

This concentration challenges students to understand the historic, economic, social, and political issues confronting all of Africa. Course options include African diaspora experiences. Students interested in art history, French, and government should consider this concentration.

Choose 12 credits from the following:

• ARTH 380 - African Art Credits: 3
• ECON 362 - African Economic Development Credits: 3
• FREN 451 - Topics in Sub-Saharan Francophone Literature and Culture Credits: 3
• GOVT 432 - Political Change and Social Development in Sub-Saharan Africa Credits: 3
• HIST 261 - Survey of African History Credits: 3
• HIST 262 - Survey of African History Credits: 3
• HIST 335 - The African American Experience in the United States: African Background to 1885 Credits: 3
• HIST 336 - The African American Experience in the United States: Reconstruction to the Present Credits: 3
• HIST 360 - History of South Africa Credits: 3
• HIST 466 - Origins of Conflict in Southern Africa Credits: 3
• or other course approved by the program director

Total: 12 credits

▲ Asia (ASA)

This concentration emphasizes Asia's history and increasingly significant role in contemporary world issues. The courses in this concentration cover the economic, social, and political issues that confront the Pacific, India, China, and mainland Asia. Students interested in anthropology, history, art history, government, and religious studies should consider this concentration.

Choose 12 credits from the following:

• ANTH 304 - Peoples and Cultures of the Pacific Credits: 3
• ANTH 306 - Peoples and Cultures of Island Asia Credits: 3
This concentration focuses on Europe's long history of art, innovation, and imperialism. Students who are interested in art history, foreign languages, government, history, and philosophy should consider this concentration.

Choose 12 credits from the following:

- ARTH 340 - Early Renaissance Art in Italy, 1300-1500 Credits: 3
- ARTH 360 - Nineteenth-Century European Art Credits: 3
- ARTH 362 - Twentieth-Century European Art Credits: 3
- ENGH 339 - British and Irish Drama after 1900 Credits: 3
- ENGH 361 - Continental Fiction, 1880-1950 Credits: 3
- FREN 325 - Major French Writers Credits: 3
- FREN 470 - French and Francophone Cinema Credits: 3
- GERM 325 - Major Writers Credits: 3
- GERM 340 - Survey of German Literature Credits: 3
- GERM 451 - Modern Literature: 1925 to the Present Credits: 3
- GGS 320 - Geography of Europe Credits: 3
- GOVT 334 - Government and Politics of Europe Credits: 3
- GOVT 337 - Ethnic Politics in Western Europe and North America Credits: 3
- HIST 304 - Western Europe in the Middle Ages Credits: 3
- HIST 305 - The Renaissance Credits: 3
- HIST 306 - The Reformation Credits: 3
- HIST 307 - Old Regime and Revolutionary Europe Credits: 3
- HIST 308 - Nineteenth-Century Europe Credits: 3
- HIST 309 - Europe in Crisis: 1914-1948 Credits: 3
- HIST 312 - Nationalism in Eastern Europe Credits: 3
- HIST 314 - History of Germany Credits: 3
- HIST 322 - Modern Britain Credits: 3
- HIST 436 - European Society and Culture: 19th and 20th Centuries Credits: 3
- SPAN 321 - Introduction to Spanish Culture Credits: 3
- SPAN 325 - Major Hispanic Writers Credits: 3
- or other course approved by the program director

Total: 12 credits

▲ Latin America (LA)

This concentration provides students with a historical understanding of the economic, social, and political issues of Latin America. Students interested in the anthropology, history, government, or economics of this region should consider this concentration.

Choose 12 credits from the following:

- ANTH 302 - Peoples and Cultures of Latin America Credits: 3
- ANTH 307 - Ancient Mesoamerica Credits: 3
- ANTH 385 - Gender, Class, and Ethnicity in Latin America Credits: 3
- ARTH 204 - Survey of Latin American Art Credits: 3
- ARTH 376 - Twentieth-Century Latin American Art Credits: 3
- ECON 361 - Economic Development of Latin America Credits: 3
- GGS 316 - Geography of Latin America Credits: 3
- GOVT 331 - Government and Politics of Latin America Credits: 3
- HIST 271 - Survey of Latin American History Credits: 3
- HIST 272 - Survey of Latin American History Credits: 3
- HIST 364 - Revolution and Radical Politics in Latin America Credits: 3
- HIST 365 - Conquest and Colonization in Latin America Credits: 3
- HIST 367 - History, Fiction, and Film in Latin America Credits: 3
- SPAN 325 - Major Hispanic Writers Credits: 3
- or other course approved by the program director

Total: 12 credits

▲ Middle East and North Africa (MNA)
This concentration provides students with an historical perspective on the political, social, and artistic issues in the Middle East and North Africa. Courses include the Arab-Israeli conflict, francophone literature from North Africa, and art and archeology of the ancient Near East. Students interested in the anthropology, history, or religion of this region should consider this concentration.

Choose 12 credits from the following:

- ARTH 319 - Art and Archaeology of the Ancient Near East Credits: 3
- ARTH 320 - Art of the Islamic World Credits: 3
- ARTH 386 - The Silk Road Credits: 3
- FREN 453 - Topics in North African Francophone Literature and Culture Credits: 3
- GGS 325 - Geography of North Africa and the Middle East Credits: 3
- GOVT 332 - Government and Politics of the Middle East and North Africa Credits: 3
- GOVT 345 - Political Islam Credits: 3
- HIST 281 - Survey of Middle Eastern Civilization Credits: 3
- HIST 282 - Survey of Middle Eastern Civilization Credits: 3
- HIST 460 - Modern Iran Credits: 3
- HIST 461 - Arab-Israeli Conflict Credits: 3
- HIST 462 - Women in Islamic Society Credits: 3
- HIST 465 - The Middle East in the 20th Century Credits: 3
- RELI 211 - Religions of the West Credits: 3
- RELI 355 - Sufism Credits: 3
- or other course approved by the program director

Total: 12 credits

▲ North America (NA)

This concentration provides students with insight into the political, economic, social, and artistic history of North America. Students interested in the language, government, or history of this region should consider this concentration.

Choose 12 credits from the following:

- ANTH 301 - Native North Americans Credits: 3
- ARTH 371 - American Architecture and Material Culture Credits: 3
- ARTH 372 - Studies in 18th- and 19th-Century Art of the United States Credits: 3
- ARTH 373 - Studies in 20th-Century Art of the United States Credits: 3
- ENGH 355 - Recent American Fiction Credits: 3
- ENGH 356 - Recent American Poetry Credits: 3
- GGS 315 - Geography of the United States Credits: 3
- GOVT 301 - Public Law and the Judicial Process Credits: 3
- GOVT 307 - Legislative Behavior Credits: 3
- GOVT 308 - The American Presidency Credits: 3
- GOVT 337 - Ethnic Politics in Western Europe and North America Credits: 3
- GOVT 420 - American Political Thought Credits: 3
- HIST 331 - Postwar United States, 1945-1973 Credits: 3
- HIST 332 - United States since 1973 Credits: 3
- HIST 336 - The African American Experience in the United States: Reconstruction to the Present Credits: 3
- HIST 350 - U.S. Women's History Credits: 3
- HIST 351 - History of the Old South Credits: 3
- HIST 352 - The South since 1865 Credits: 3
- HIST 370 - War and American Society Credits: 3
- USST 401 - Seminar: The Future of Metropolitan America Credits: 3
- or other course approved by the program director

Total: 12 credits

▲ Russia and Central Asia (RCA)

This concentration focuses on the social, political, and economic climates of Russia and Central Asia historically and today. Students interested in the culture, politics, economics, or history of this region should consider this concentration.

Choose 12 credits from the following:

- ARTH 386 - The Silk Road Credits: 3
- ECON 380 - Economies in Transition Credits: 3
- GGS 330 - Geography of the Soviet Succession States Credits: 3
- GOVT 338 - Government and Politics of Russia Credits: 3
- GOVT 340 - Central Asian Politics Credits: 3
- GOVT 447 - Revolution and International Politics Credits: 3
- HIST 328 - Rise of Russia Credits: 3
- HIST 329 - Modern Russia and the Soviet Union Credits: 3
- HIST 426 - The Russian Revolution Credits: 3
- RUSS 325 - Major Russian Writers Credits: 3
- RUSS 326 - A Survey of Russian Literature Credits: 3
- RUSS 327 - A Survey of Russian Literature Credits: 3
- RUSS 353 - Russian Civilization Credits: 3
- RUSS 354 - Contemporary Post-Soviet Life Credits: 3
- RUSS 407 - Russian Drama and Theater Credits: 3
- RUSS 410 - Russian Poetry Credits: 3
- RUSS 470 - Topics in (Post) Soviet Film Credits: 3
- or other course approved by the program director

Total: 12 credits

▲ Individualized Concentration (IST)

Students interested in creating their own concentration can work with the director or advisor to decide upon a 12 credit curriculum that will fulfill the BA in global affairs.

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in global affairs may fulfill this requirement by successfully completing EVPP 337.

Total: 36 credits
Bachelor/Accelerated Master's

Bachelor's Degree (any)/Global Affairs, Accelerated MA

Web: globalaffairs.gmu.edu

Highly qualified undergraduates in any major may apply to the accelerated master's degree in global affairs. If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in global affairs after satisfactory completion of 144 credits, sometimes within five years.

This program of study is offered by the Global Affairs Program.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the accelerated MA in global affairs, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Master of Arts

Global Affairs, MA

Banner Code: LA-MA-GLOA

Web: globalaffairs.gmu.edu
The master of arts in global affairs is an interdisciplinary program offering students the opportunity to engage in advanced study of a broad range of international global issues. Students complete a core curriculum that provides the knowledge and skills to think and act globally and then select a specialization. The possible specializations include courses offered by academic departments across the university. All students in the program take part in a residency abroad, typically two weeks in duration, and complete a capstone seminar. Graduates of the program are prepared for careers in a wide variety of international contexts.

This has been designated a Green Leaf program. For further information, please go to Green Leaf Programs and Courses.

An accelerated master's option is available to students in any bachelor's program. See Bachelor's Degree (any)/Global Affairs, Accelerated MA for specific requirements.

This program of study is offered by the Global Affairs program.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the MA in global affairs, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

Students who wish to study abroad must receive prior approval and may not use more than 3 credits earned while abroad towards their specialization. Students must maintain a 3.0 cumulative grade point average with no more than two grades below B. Students pursuing this degree must complete 30 credits distributed as follows:

Four core courses (12 credits)

- GLOA 600 - Global Competencies Credits: 3
- GLOA 610 - Economic Globalization and Development Credits: 3
- GLOA 620 - Human Systems Credits: 3
- GLOA 710 - Seminar Abroad Credits: 3

One course (3 credits) chosen from:

- GCH 543 - Global Health Credits: 3
- ITRN 602 - International Financial Institutions and Globalization Credits: 3
- ITRN 603 - International Trade Relations Credits: 3

Specialization (12 credits)

Students choose to specialize in one of eight fields by completing 12 credits in that field selected from the courses listed. The specialization is developed in consultation with an advisor. Students who wish to design their own concentration must submit a one-page proposal and receive written approval from the director. Specialization courses must come from at least two academic disciplines.

Global Conflict and Security
Choose 12 credits from:

- **BIOD 610** - Advanced Topics in Biodefense Credits: 1-4 (minimum of 3 credits)
- **BIOD 621** - Ethics and International Security Credits: 3
- **CONF 501** - Introduction to Conflict Analysis and Resolution Credits: 3
- **CONF 652** - Conflict Analysis and Resolution for Prevention, Reconstruction, and Stabilization Contexts Credits: 3
- **CONF 653** - World Religions, Diplomacy, and Conflict Resolution Credits: 3
- **CONF 658** - Diversity and Difference in Conflict Analysis and Resolution Credits: 3
- **CONF 659** - Leadership in Conflict Analysis and Resolution Credits: 3
- **CONF 736** - Globalization and International Conflict Credits: 3
- **CONF 746** - Peace Building Credits: 3
- **GOVT 541** - Introduction to Critical Analysis and Strategic Response to Terrorism Credits: 3
- **GOVT 640** - Strategic Responses to Terrorism: Coordinated Decision Making Credits: 3
- **GOVT 725** - Democratic Theory Credits: 3
- **GOVT 745** - International Security Credits: 3
- **ISA 562** - Information Security Theory and Practice Credits: 3
- **PUAD 634** - Management of International Security Credits: 3
- **PUBP 650** - Peace Operations I Credits: 3
- **PUBP 651** - Peace Operations II Credits: 3

**Global Culture and Society**

Choose 12 credits from:

- **ANTH 635** - Regional Ethnography Credits: 3
- **ANTH 655** - Nationalism, Transnationalism, and States: Local and Global Perspectives Credits: 3
- **ANTH 721** - Culture, Power, and Conflict Credits: 3
- **GOVT 530** - Comparative Politics Credits: 3
- **GOVT 641** - Global Governance Credits: 3
- **GOVT 725** - Democratic Theory Credits: 3
- **GOVT 739** - Issues in Comparative and International Politics Credits: 3
- **HIST 510** - Approaches to Modern World History Credits: 3
- **HIST 535** - Problems in Comparative World History Credits: 3
- **HIST 615** - Problems in American History Credits: 1-6
- **HIST 791** - Comprehensive Readings in Comparative World History Credits: 3
- **MUSI 640** - Topics in World Musics Credits: 3
- **RELI 632** - World Religions in Conflict and Dialogue Credits: 3
- **RELI 633** - Ethical Perspectives of World Religions Credits: 3
- **RELI 642** - Sacred Language, Scripture, and Culture Credits: 3
- **SOAN 500** - Communicating across the Disciplines Credits: 3
- **SOAN 510** - Culture and Globalization Credits: 3
- **SOCL 623** - Racial and Ethnic Relations: American and Selected Global Perspectives Credits: 3
- **WMST 640** - Women and Global Issues Credits: 3

**Global Economics and Development**

This specialization is best suited for students with an academic background in economics or for students who have taken microeconomics, macroeconomics, and calculus with a minimum grade of 3.00 in all three.
Choose 12 credits from:

- ECON 611 - Microeconomic Theory Credits: 3
- ECON 612 - Microeconomic Theory II Credits: 3
- ECON 615 - Macroeconomic Theory Credits: 3
- GOVT 743 - International Political Economy Credits: 3
- ITRN 500 - Global Political Economy Credits: 1-4
- ITRN 503 - Investment and Macroeconomics Credits: 1-4
- ITRN 504 - Trade and Microeconomics for International Commerce Credits: 1-4
- ITRN 701 - Special Topics in International Commerce and Policy Credits: 1-3
- ITRN 710 - International Business Transactions: Finance and Investment Credits: 3
- ITRN 718 - Global Economic and Human Development Credits: 3
- ITRN 757 - Business and Politics in Emerging Markets Credits: 3
- ITRN 759 - Country Risk Analysis Credits: 3
- ITRN 767 - Political Economy and Integration in Latin America Credits: 3

Global Education

Choose 12 credits from:

- EDUC 606 - Education and Culture Credits: 3
- EDUC 670 - The Culture of Teaching Credits: 3
- EDUC 671 - Schools and Culture in the Future Credits: 3
- EDEP 550 - Theories of Learning and Cognition Credits: 3
- EDEP 650 - High-Stakes Assessment and Accountability Systems Credits: 3
- EDEP 653 - Culture and Intelligence Credits: 3
- EDSE 612 - Special Needs Students in International Schools Credits: 3

Global Governance and Public Management

Choose 12 credits from:

- GOVT 540 - International Relations Credits: 3
- GOVT 631 - Seminar in Comparative Politics and Institutions Credits: 3
- GOVT 641 - Global Governance Credits: 3
- GOVT 741 - Advanced Seminar in International Politics Credits: 3
- ITRN 701 - Special Topics in International Commerce and Policy Credits: 1-3
- ITRN 761 - European Political and Economic Union Credits: 3
- PUAD 701 - Cross-Cultural and Ethical Dimensions of International Management Credits: 3
- PUBP 502 - Governance and Policy Processes Credits: 1-4
- PUBP 700 - Theory and Practice in Public Policy Credits: 1-4
- PUBP 783 - Global Governance Credits: 3

Global Health

Choose 12 credits from:

- GCH 543 - Global Health Credits: 3
- GCH 560 - Environmental Health Credits: 3
- GCH 602 - Global Health Issues Related to Violence Credits: 3
- GCH 611 - Health Program Planning and Evaluation Credits: 3
- GCH 622 - Mental Health: A Global Perspective Credits: 3
- GCH 640 - Global Infectious Diseases Credits: 3
- HAP 609 - Comparative International Health Systems Credits: 3
- PUBP 757 - Public Policy in Global Health and Medical Practice Credits: 3
- PUBP 758 - Global Threats and Medical Policies Credits: 3

**Global Media and Information Technology**

Choose 12 credits from:

- COMM 506 - Communication in International Organizations Credits: 3
- COMM 630 - Theories of Public Relations Credits: 3
- CS 688 - Pattern Recognition Credits: 3
- INFS 501 - Discrete and Logical Structures for Information Systems Credits: 3
- ITRN 604 - International Trade and Technology Credits: 3
- ITRN 701 - Special Topics in International Commerce and Policy Credits: 1-3
- ITRN 742 - Technology Policy and International Strategies Credits: 3
- PUBP 503 - Culture, Organization, and Technology Credits: 1-4
- PUBP 726 - Telecommunications Policy Credits: 3
- PUBP 736 - International Migration and Public Policy Credits: 3
- TECM 750 - Global IT Management Credits: 1-4

**Global Population and Geography**

Choose 12 credits from:

- GGS 505 - Transportation Geography Credits: 3
- GGS 550 - Geospatial Science Fundamentals Credits: 3
- GGS 533 - Issues in Regional Geography Credits: 1-6
- GGS 581 - World Food and Population Credits: 3
- GGS 590 - Selected Topics in Geography Credits: 1-3
- GGS 631 - Spatial Agent-Based Models of Human-Environment Interactions Credits: 3
- PUBP 754 - Geographic Information Systems and Spatial Analysis for Public Policy Credits: 3

**One capstone seminar (3 credits):**

- GLOA 720 - Capstone Research Seminar Credits: 3

**Total: 30 credits**

**Non-Degree**
Global Affairs Minor

Banner Code: GLOA

Web: gloa.gmu.edu

The minor in global affairs provides students with a global perspective that can enhance many different majors. The minor is not available to students majoring in global affairs or minoring in global systems.

This has been designated a Green Leaf program. For further information, please go to Green Leaf Programs and Courses.

This program of study is offered by the Global Affairs Program.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 15 credits of coursework with a minimum GPA of 2.0.

- GLOA 101 - Introduction to Global Affairs Credits: 3
  or
- SOCI 120 - Globalization and Society Credits: 3
- CULT 320 - Globalization and Culture Credits: 3
- ECON 385 - International Economic Policy Credits: 3
- GOVT 322 - International Relations Theory Credits: 3
- CONF 340 - Global Conflict Analysis and Resolution Credits: 3
  or
- EVPP 337 - Environmental Policy Making in Developing Countries Credits: 3

Total: 15 credits

Course Work

This program offers all course work designated CTCH in the Courses section of this catalog.

Graduate Programs
The Higher Education Program prepares students for positions of leadership in teaching, research, and administration at community colleges, four-year colleges, and universities. The interdisciplinary curriculum emphasizes ethical leadership, assessment, and practice-based scholarship in teaching and learning. Students in these degrees come from varied professional backgrounds in college teaching, university administration, business, the performing arts, and government. They bring a vast spectrum of experience to their studies and fellow students.

**Doctor of Arts in Community College Education**

The doctor of arts in community college education prepares students for college teaching and leadership roles in community colleges. They take course work in higher education pedagogy and if they choose in a disciplinary knowledge area. Working with an advisor, students choose appropriate courses from participating departments. In addition to developing disciplinary expertise, the courses in higher education offers proficiency in core areas related to undergraduate education: the community college, college teaching, technology in higher education, and the scholarship of teaching and learning.

**MAIS Concentration in Community College Teaching**

The program sponsors the concentration in community college teaching within the master’s degree in interdisciplinary studies (MAIS). This concentration prepares students to teach entry-level courses in growing fields in community colleges including: communication, English, information systems, mathematics, Spanish, and teaching English as a second language.

See Interdisciplinary Studies, MAIS in this section.

**MAIS Concentration in Higher Education**

The program sponsors the concentration in higher education within the master’s degree in interdisciplinary studies (MAIS). This concentration prepares individuals for administrative and leadership positions in two-year colleges or four-year colleges and universities. Students may focus on administration or student services.

See Interdisciplinary Studies, MAIS in this section.

**Doctor of Philosophy in Education with Specialization in Higher Education**

The doctor of philosophy in education with a specialization in higher education is offered jointly by the Higher Education Program and the College of Education and Human Development. This doctoral program prepares students for positions of leadership in administration and student services through core required coursework in higher education and through a secondary concentration that can further disciplinary expertise.

See the College of Education and Human Development section of the catalog.

**Certificates**

The program offers graduate certificates in college teaching and in higher education administration. Students may take these as stand-alone certificates or pursue them concurrently with a graduate degree program. Part of the certificate course work may be applied to the degree subject to the approval of the director of the graduate degree program. Students must apply and be accepted to a graduate certificate program.

**Doctor of Arts**

**Community College Education, DA**
The doctor of arts in community college education (DACCE) prepares students to be leaders in undergraduate education. In addition to expertise in a selected disciplinary or interdisciplinary knowledge area, graduates are proficient in three core areas related to undergraduate education: college teaching and classroom assessment, organizational studies and administration, and higher education leadership. With this background and the guided practical experience provided by internships, students become prepared to lead their institutions to respond to the changing needs of current students.

This program of study is offered by the Higher Education Program.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. Applicants to the DA in community college education must already have earned a master's degree in a relevant field.

For information specific to the DA in community college education, see Application Requirements and Deadlines on the college web site.

**Reduction of Credit**

Students must have a master's degree before being admitted to the DA in community college education. Most students receive a reduction of credit of 30 credits based on their previous master's degree.

**Program of Study**

Working with an advisor, students develop a program of study that outlines courses that will be used to fulfill degree requirements. The program of study is approved by the advisor and director; any modifications require the student to file a Modification Form and a revised program of study.

**Degree Requirements**

Students pursuing this degree are required to complete 90 credits of coursework. A master's degree is required for admission and students receive a credit reduction of up to 30 credits, bringing the required credits to a minimum of 60.

**Doctoral Course Work (78 credits)**

**Knowledge area (24 credits)**

Substantial work in a knowledge area is essential to the leadership in curriculum expected of students. Given the dynamic nature of the community college and growth of programs in nontraditional fields, the choice of a knowledge area and relevant course work should be guided by the student’s developing interests and a vision of the student’s role as a community college educator. While many DACCE students take their 24 knowledge area credits exclusively in one discipline or department, they are encouraged to think broadly and in terms of multiple disciplines and work with their advisor to choose appropriate courses from more than one discipline or department.
Requirements include

- Two courses (6 credits) in research design or methods. Three credits are fulfilled by CTCH 801 - Basics of Research Design. Students should choose the second course in consultation with their advisor.
- Six courses (18 credits) in the knowledge area. These are chosen by the student in consultation with an advisor. The courses appear on the Program of Study, which requires the approval of the advisor and director of the program.

Six courses (18 credits) in the education core

The 18-credit core of education courses is designed to develop leaders in higher education. The program emphasizes a broad knowledge base in teaching and course work in the history and philosophy of higher education in general and the community college in particular. Courses concentrate on scholarship and practice in teaching and learning, instructional technology, and program and curriculum design and assessment. All courses emphasize leadership, ethics, and diversity in higher education.

- CTCH 601 - The Community College Credits: 3
- CTCH 602 - College Teaching Credits: 3
- CTCH 603 - Technology in Higher Education Credits: 3
- CTCH 604 - The Scholarship of Teaching and Learning Credits: 3
- Two elective courses (6 credits). Electives are chosen in consultation with an advisor. The courses appear on the Program of Study, which requires the approval of the advisor and director of the program.

Two internships (6 credits)

Students complete two 3-credit internships to learn skills applicable to college-based teaching and higher education administration. Internships provide an important educational experience that complements classroom-based course work. Prior to registering for CTCH 885, students should have completed 18 credits of education core requirements, 6 credits in the knowledge area, an approved "Request for Approval of Internship" form and proposal, and an approved program of study. Internships, which must be approved by the advisor and internship coordinator, require a minimum of 180 hours of work for 3 credits and participation in required, internship supervision meetings with the faculty supervisor and internship site mentor.

- CTCH 885 - Doctoral Internship in College Teaching and Administration Credits: 3

Electives (0-30 credits)

Students complete the remaining credits through additional elective courses chosen in consultation with an advisor.

Comprehensive Exam and Portfolio

Students must pass a comprehensive exam and portfolio to demonstrate breadth and depth of knowledge in both the knowledge area and education core. To be eligible to take a comprehensive exam, students must have completed knowledge area, core curriculum, and internship course work, be in good standing (minimum cumulative GPA of 3.00), and be registered for at least 1 credit. Students take the comprehensive exam in their knowledge area. Students whose knowledge area is not higher education must arrange to take their comprehensive exam with the knowledge area liaison. All students must create a higher education knowledge core curriculum portfolio reviewed by the Higher Education Program. Students who do not pass a comprehensive exam or the portfolio have until the last day of the next semester (published in the Schedule of Classes) to retake it. (For students who take exams in the summer months, this will be the published date for the fall semester.) Students who do not retake the exam by this deadline or do not successfully complete the comprehensive exam the second time will be terminated from the program.

Advancement to Candidacy
To advance to candidacy, students must complete all required course work. Students must also successfully complete and pass the comprehensive exam and their portfolio. In addition, students must have a dissertation committee appointed by the dean’s office. Evidence of the completed course work, comprehensive exam and portfolio, and an approved dissertation committee must be on file in the dean’s office before a student can be advanced to candidacy.

**Dissertation Research (12 credits)**

Students must complete a dissertation in which they demonstrate their ability to conduct original research that contributes new knowledge or a reinterpretation of existing knowledge to the area of investigation. Students who focus their dissertation in a knowledge area outside of higher education must connect their research to higher education. Dissertations may be practice-oriented, focusing on new and replicable ways of teaching within the knowledge area.

Once enrolled in 998, students in this degree program must maintain continuous registration in 998 or 999 each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Students complete a minimum of 3 credits of 998 and 3 credits of 999. Once enrolled in 999, students must follow the university’s continuous registration policy as specified in the Academic Policies section of the catalog. Students who defend in the summer must be registered for at least 1 credit of 999.

Students enrolled in 999 are required to submit evidence of progress to the dissertation advisor and the program by the last day of classes each semester (as designated by the Office of the University Registrar), such as a draft of a chapter or a brief, descriptive report of research activities. Students showing successful progress will receive a grade of IP. Those who do not will receive an IN.

- CTCH 998 - Doctoral Dissertation Proposal Credits: 1-3 (minimum of 3 credits)
- CTCH 999 - Doctoral Dissertation Credits: 1-12 (minimum of 3 credits)

**Total: 90 credits**

**Graduate Certificate**

**College Teaching Graduate Certificate**

**Banner Code: LA-CERG-CTCH**

Web: highered.gmu.edu

The certificate in college teaching is designed for graduate students who are planning a career in undergraduate education. The program offers courses that enhance pedagogical skills and explore pedagogical assessment or scholarship with the use of technology in instruction.

This program of study is offered by the Higher Education Program.

For policies governing all graduate certificates, see the Academic Policies section of the catalog.

The graduate certificate in college teaching may be pursued on a part-time or full-time basis.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit the disclosure information page at: http://irr.gmu.edu/new/N_IRRHome/HEOA/Gainful.cfm

**Application Requirements**
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in college teaching, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements

Three required courses (9 credits) chosen from:

Students may substitute courses with a disciplinary focus for any of the three required courses with prior written approval of the director.

- CTCH 602 - College Teaching Credits: 3
- CTCH 603 - Technology in Higher Education Credits: 3
- CTCH 604 - The Scholarship of Teaching and Learning Credits: 3 or CTCH 605 - Curriculum and Program Design and Assessment Credits: 3

Practicum (3 credits)

- CTCH 685 - Practicum Credits: 3

Two elective courses (6 credits)

Electives must be chosen in consultation with the HEP Director and are selected from any CTCH course.

Total: 18 credits

Higher Education Administration Graduate Certificate

Banner Code: LA-CERG-HEDA

Web: highered.gmu.edu

The certificate in higher education administration is designed for individuals who are planning or enhancing a career in a broad range of administrative positions in higher education institutions. The certificate will provide core knowledge for administrative processes in the context of higher education institutions.

This program of study is offered by the Higher Education Program.

For policies governing all graduate certificates, see the Academic Policies section of the catalog.

The graduate certificate in higher education administration may be pursued on a part-time or full-time basis.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit the disclosure information page at: http://irr.gmu.edu/new/N_IRRHome/HEOA/Gainful.cfm

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in higher education administration, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements

Three required courses (9 credits)

- CTCH 621 - Higher Education in the United States Credits: 3
- CTCH 622 - Organization and Administration in Higher Education Credits: 3
- CTCH 624 - Finance and Fiscal Management in Higher Education Credits: 3

One course (3 credits) chosen from:

Special topics courses, when relevant, may be used to fulfill this requirement with the prior written approval of the director.

- CTCH 603 - Technology in Higher Education Credits: 3
- CTCH 606 - Diversity in Higher Education Credits: 3
- CTCH 626 - Assessment in Higher Education Credits: 3
- CTCH 645 - The Contemporary College Student Credits: 3

Two elective courses (6 credits)

Electives must be chosen in consultation with the HEP Director and are selected from any CTCH course.

Total: 18 credits

History and Art History

Affiliate associate professors: Jordan, Petrick, Schrum (history)
Affiliate professor: Nauright, Wiggins (history)

Term faculty: Manuel-Scott, McCord, Orens, Scheinfeldt, Schulze, Swanson, Walmsley (history); Bauman, DeArmendi, Gregg (art history)

Coursework

This department offers all course work designated HIST and ARTH in the Courses section of this catalog.

Undergraduate Programs

History

The department offers a BA in history. History majors study a variety of historical time periods, from Greek and Roman antiquity to the late twentieth-century. They learn to interpret and evaluate the past by analyzing a variety of sources, from historical books and novels to images, films, oral interviews, newspapers, and other texts.

History majors have the opportunity to study with faculty who are internationally known for their work on the use of technology in the study of history. They can do an internship with one of them in the Center for History and New Media or at places like the Smithsonian Institution, the Library of Congress, or one of many other institutions in the Washington, D.C. area. There are also many opportunities to study abroad while earning credit towards the history major.

Advising

Students majoring or minoring in history are advised by the undergraduate director and a team of faculty advisors. History majors are urged to discuss their program of study periodically with the director.

Honors in the Major

History majors who have completed 75 credits (a minimum of 15 in history, 6 of which must have been taken at Mason) with an overall GPA of 3.50 and a GPA of 3.50 in history courses are eligible to apply to graduate with honors in history. Applicants must have completed or be enrolled in HIST 300 - Introduction to Historical Method. The statement of application should include references from two Mason history faculty members. If a major part of the student’s work includes transfer credit, transcripts may be required. Not all applicants who meet the minimum requirements are guaranteed acceptance into honors in the major.

Students pursuing honors in the major complete HIST 490 and 491, linked individualized courses usually with the same instructor. Students must have completed at least one course in the field (or with the professor) chosen for these honors courses. HIST 490 should be taken before 491, although they may be taken concurrently. Either course may be taken concurrently with HIST 499 - Senior Seminar in History. To graduate with honors in the major, students must earn a minimum GPA of 3.50 in the honors courses and a minimum GPA of 3.50 in history courses applied to the degree. The two honors courses (6 credits) may be applied to the requirement of 36 credits in history, but they cannot replace HIST 499.

Minors

The department offers a minor in history available to students in any major at Mason.

The department faculty participate in a number of interdisciplinary minors including African and African American Studies Minor, Ancient Mediterranean Art and Archaeology Minor, Asia-Pacific and Northeast Asian Studies Minor, Islamic Studies Minor, Latin American Studies Minor and Middle East Studies Minor. Students can earn credit toward these minors by taking...
selected history and art history courses. For details, see Minors and Interdisciplinary Minors and Latin American Studies in this section.

The minor in sport and American culture is offered jointly by the Department of History and Art History and the School of Recreation, Health and Tourism. For details, see the School of Recreation, Health, and Tourism Department in the College of Education and Human Development section of the catalog.

**Bachelor’s/Accelerated Master’s Program**

The department offers highly qualified undergraduate majors in history the opportunity to apply to an accelerated master’s degree program in history. If accepted, students will be able to earn both the undergraduate and graduate degrees after satisfactory completion of 144 credits, generally within five years.

**Art History**

The department offers a BA in art history. Art history majors investigate works of art to learn how they were made, why they were made, and by and for whom they were made. They develop the skills to interpret a work of art as a record of the culture in which it was made. Through art history courses, students will learn to ask questions that touch on cultural, technological, and economic concerns. The major has flexible requirements, and students in art history receive individualized attention which helps them tailor their studies to their own individual interests and career goals.

Art history majors have the opportunity to study with faculty whose expertise covers many world regions - the United States, Latin America, Europe, South and Southeast Asia, and China - and all historical periods - from classical antiquity, Byzantine, Medieval, Renaissance, and Baroque, to the modern era.

Students are encouraged to do an internship at one of the many arts organizations in the Washington, D.C. region, such as the National Gallery of Art or the Corcoran Gallery. There are also many opportunities to study abroad while earning credit towards the art history major.

**Honors in the Major**

Majors who have completed 75 credits (a minimum of 15 credits in art history, with 6 credits taken at Mason) with an overall GPA of 3.50 and a GPA of 3.80 in art history are eligible to apply to graduate with honors in art history. Eligible students should apply to the undergraduate director by November 15 or April 15 with a statement of application including the names of two references from Mason art history faculty members. Transfer students should also submit transcripts. Not all applicants who meet the minimum requirements are guaranteed acceptance into honors in the major.

Students pursuing honors in the major complete ARTH 492 and 493, linked individualized courses that culminate in a research paper. Students must have completed at least one course in the field (or with the professor) chosen for these honors courses. ARTH 492 should be taken before 493, but they may be taken concurrently. To graduate with honors in the major, students must earn a minimum GPA of 3.50 in honors courses and a minimum GPA of 3.50 in art history courses applied to the degree. The two honors courses (6 credits) may be applied toward the requirement of 33- to 34-credits in art history, but they cannot replace the 6 required credits in ARTH 400, 420, 430, 440, 460, 471, 472, or 482.

**Minors**

The department offers a minor in art history available to students in any major at Mason.

The Art History Program coordinates the Ancient Mediterranean Art and Archaeology Minor. See Minors and Interdisciplinary Minors in this section.
Graduate Programs

History

The department offers a master's and a doctoral degree in history. In both programs, students select a specialization in American history, European history, or world history. Master's degree students choose from one of four concentrations: predoctoral history, applied history, enrichment, or teaching. Doctoral students focus their studies in one of four areas: college/university teaching, new media and information technology, public and applied history, or preprofessional development.

Graduate students in history have the opportunity to take courses in new media, studying with faculty who are internationally known for their use of technology in the study of history. Many students work alongside the faculty in the Center for History and New Media, a leader in the use of digital media and computer technology to democratize history. The center uses digital media and technology to preserve and present history online, transform scholarship across the humanities, and advance historical education and understanding.

Students can do an internship in applied history at one of the many institutions in the Washington, D.C. area or study abroad while earning credit towards their degrees.

Funding

The department offers teaching and research assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

Art History

The department offers a richly interdisciplinary master's degree in art history. It draws on faculty strengths in traditional research and new media and the vast cultural resources of the Washington, D.C. area. Students learn methods of art historical analysis, a variety of art historical interpretations, and practical applications of the field. The program places a special emphasis on the development of skills in new media, museology, and pre-professional internships - program features that are unique to this region.

The master's degree in art history is designed to meet the needs of a student population with diverse interests and career goals. Because of the focus on skill building in traditional research as well as new media, graduates of this program have the tools necessary for independent research, professional work, and the dissemination of knowledge in art history.

Bachelor of Arts

Art History, BA

Banner Code: LA-BA-AH

Web: historyarthistory.gmu.edu

As a liberal arts discipline, art history emphasizes the analysis of visual data in a historical context. The bachelor's degree in art history prepares students for graduate study in art history as well as for professional work.

This program of study is offered by the Department of History and Art History.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog.
Degree Requirements

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in art history must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences. Students pursuing this degree must complete 33 to 34 credits with a minimum GPA of 2.00.

All art history majors are encouraged to pursue internships in art history (ARTH 393) in their junior or senior year. Up to 6 credits in art history internships may be applied toward ARTH requirements for the major, with permission of the art history undergraduate director.

Students are strongly encouraged to participate in a study abroad program. A maximum of 6 credits of ARTH 398 Study Abroad in the History of Art may be applied to the major with permission of department. Students contemplating graduate study in art history should acquire a reading knowledge of French, German, or other appropriate research languages in consultation with an advisor.

One survey course (3 credits) chosen from:

- ARTH 200 - Survey of Western Art Credits: 3
- ARTH 201 - Survey of Western Art Credits: 3
- ARTH 203 - Survey of Asian Art Credits: 3
- ARTH 204 - Survey of Latin American Art Credits: 3

One museum course (3 credits)

- ARTH 394 - The Museum Credits: 3

Five courses (15 credits) in ARTH at the 300 level

In addition to ARTH courses, art history majors may use one 300-level HIST course to fulfill this requirement.

One elective course (3 credits) in ARTH at the 400 level chosen from:

- ARTH 400 - Historiography and Methods of Research in Art History Credits: 3
- ARTH 420 - Advanced Studies in Ancient Art Credits: 3
- ARTH 430 - Advanced Studies in Medieval or Islamic Art Credits: 3
- ARTH 440 - Advanced Studies in Renaissance and Baroque Art Credits: 3
- ARTH 460 - Advanced Studies in 20th-Century European Art Credits: 3
- ARTH 471 - Advanced Studies in Art of the United States Credits: 3
- ARTH 472 - Advanced Studies in 20th-Century Latin American Art Credits: 3
- ARTH 482 - Advanced Studies in Asian Art Credits: 3

One elective course (3 credits) in ARTH at the 400 level

One course (3 or 4 credits) in art and visual technology chosen from:

- AVT 103 - Introduction to the Artist's Studio Credits: 3
- AVT 104 - Studio Fundamentals I Credits: 4
• AVT 222 - Drawing I Credits: 4  
• AVT 232 - Painting I Credits: 4  
• AVT 243 - Printmaking I Credits: 4  
• AVT 252 - Fundamentals of Photography Credits: 4  
• AVT 253 - Introduction to Digital Photography Credits: 4  
• AVT 262 - Sculpture I Credits: 4  
• AVT 392 - Gallery Practices Credits: 4  

One elective course (3 credits)  
Students choose an elective from any art history course.  

Total: 33 to 34 credits  

Writing-Intensive Requirement  
The university requires all students to complete at least one course designated as “writing intensive” in their majors at the 300 level or above. Students majoring in art history fulfill the university’s writing-intensive requirement by successfully completing any 400-level ARTH course.  

History, BA  
Banner Code: LA-BA-HIST  
Web: historyarthistory.gmu.edu  

This program of study is offered by the Department of History and Art History. For policies governing all undergraduate degrees, see the Academic Policies section of the catalog.  

This undergraduate program offers students the option of applying to the accelerated master's degree program. See History, BA/History, Accelerated MA for specific requirements.  

Degree Requirements  

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in history must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences. Students pursuing this degree must complete 36 credits of history with at least 18 credits at the 300 and 400 levels. Additional credits of history in excess of 36 may be presented as elective credits to be counted toward graduation. Students must have a minimum GPA of 2.00 in courses applied to the major.  

Before registering, students should see an advisor to help plan their history program to meet university general education and college-level requirements. The advisor also can help students choose electives or a minor.  

HIST 300 and 499 may not be used to satisfy the first three requirements below.  

Two courses (6 credits) of U.S. history chosen from:  

• HIST 121 - Formation of the American Republic Credits: 3
- HIST 122 - Development of Modern America Credits: 3
- HIST 200 - Freshman/Sophomore Seminar in U.S. History Credits: 3
- HIST 331 - Postwar United States, 1945-1973 Credits: 3
- HIST 332 - United States since 1973 Credits: 3
- HIST 333 - The Automobile in the United States Credits: 3
- HIST 335 - The African American Experience in the United States: African Background to 1885 Credits: 3
- HIST 336 - The African American Experience in the United States: Reconstruction to the Present Credits: 3
- HIST 337 - Race and Gender in American Sports Credits: 3
- HIST 338 - History of College Athletics Credits: 3
- HIST 339 - History of Baseball Credits: 3
- HIST 341 - History of Sport in the United States Credits: 3
- HIST 350 - U.S. Women's History Credits: 3
- HIST 351 - History of the Old South Credits: 3
- HIST 352 - The South since 1865 Credits: 3
- HIST 370 - War and American Society Credits: 3
- HIST 373 - The Civil War and Reconstruction Credits: 3
- HIST 377 - The Vietnam War Credits: 3
- HIST 389 - Topics in U.S. History Credits: 3
- HIST 391 - History of Virginia to 1800 Credits: 3
- HIST 392 - History of Virginia Since 1800 Credits: 3
- HIST 401 - Colonial America Credits: 3
- HIST 403 - Revolutionary Era in American History, 1763-1812 Credits: 3
- HIST 404 - Jacksonian America, 1812-1854 Credits: 3

Two courses (6 credits) of European history chosen from:

- HIST 100 - History of Western Civilization used to fulfill the university-wide general education requirement in Western civilization may also fulfill 3 credits of this requirement.
- HIST 101 - Foundations of Western Civilization Credits: 3
- HIST 102 - Development of Western Civilization Credits: 3
- HIST 201 - Freshman/Sophomore Seminar in European History Credits: 3
- HIST 301 - Classical Greece Credits: 3
- HIST 302 - Classical Rome Credits: 3
- HIST 304 - Western Europe in the Middle Ages Credits: 3
- HIST 305 - The Renaissance Credits: 3
- HIST 306 - The Reformation Credits: 3
- HIST 307 - Old Regime and Revolutionary Europe Credits: 3
- HIST 308 - Nineteenth-Century Europe Credits: 3
- HIST 309 - Europe in Crisis: 1914-1948 Credits: 3
- HIST 312 - Nationalism in Eastern Europe Credits: 3
- HIST 314 - History of Germany Credits: 3
- HIST 322 - Modern Britain Credits: 3
- HIST 328 - Rise of Russia Credits: 3
- HIST 329 - Modern Russia and the Soviet Union Credits: 3
- HIST 388 - Topics in European History Credits: 3
- HIST 426 - The Russian Revolution Credits: 3
- HIST 431 - Medieval Intellectual Topics Credits: 3
• HIST 435 - Society and Culture in Early Modern Europe Credits: 3
• HIST 436 - European Society and Culture: 19th and 20th Centuries Credits: 3
• HIST 480 - Alexander the Great Credits: 3

Two courses (6 credits) of global, Latin American, African, Asian, or Middle Eastern history chosen from:

Approved courses in history used to fulfill the university general education requirement in global understanding and the college-level requirement in non-Western culture may be used to fulfill this requirement.

• HIST 125 - Introduction to World History Credits: 3
• HIST 130 - History of the Modern Global System Credits: 3
• HIST 202 - Freshman/Sophomore Seminar in Global History Credits: 3
• HIST 251 - Survey of East Asian History Credits: 3
• HIST 252 - Survey of East Asian History Credits: 3
• HIST 261 - Survey of African History Credits: 3
• HIST 262 - Survey of African History Credits: 3
• HIST 271 - Survey of Latin American History Credits: 3
• HIST 272 - Survey of Latin American History Credits: 3
• HIST 281 - Survey of Middle Eastern Civilization Credits: 3
• HIST 282 - Survey of Middle Eastern Civilization Credits: 3
• HIST 353 - History of Traditional China Credits: 3
• HIST 354 - Modern China Credits: 3
• HIST 356 - Modern Japan Credits: 3
• HIST 357 - Postwar Japan Credits: 3
• HIST 358 - Post-1949 China Credits: 3
• HIST 360 - History of South Africa Credits: 3
• HIST 364 - Revolution and Radical Politics in Latin America Credits: 3
• HIST 365 - Conquest and Colonization in Latin America Credits: 3
• HIST 366 - Comparative Slavery Credits: 3
• HIST 367 - History, Fiction, and Film in Latin America Credits: 3
• HIST 387 - Topics in Global History Credits: 3-6
• HIST 460 - Modern Iran Credits: 3
• HIST 461 - Arab-Israeli Conflict Credits: 3
• HIST 462 - Women in Islamic Society Credits: 3
• HIST 465 - The Middle East in the 20th Century Credits: 3
• HIST 466 - Origins of Conflict in Southern Africa Credits: 3

One methods course (3 credits)

• HIST 300 - Introduction to Historical Method Credits: 3 (with a minimum grade of 2.00)

One seminar course (3 credits)

• HIST 499 - Senior Seminar in History Credits: 3 (fulfills university synthesis requirement)
Four elective courses (12 credits) in history

Students should choose courses in history at the 300 or 400 levels to meet this requirement if they need credits to complete the 18-credit, upper-level history requirement.

In addition to HIST courses, history majors may use one 300-level ARTH course and HNRS 240 to fulfill this requirement.

Total: 36 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as “writing intensive” in their majors at the 300 level or above. Students majoring in history may fulfill this requirement by successfully completing HIST 300 and 499.

Bachelor/Accelerated Master's

History, BA/History, Accelerated MA

Web: history.gmu.edu

Highly-qualified Mason undergraduates may apply to the accelerated master's degree program and obtain both bachelor's and master's degrees in history after satisfactory completion of 144 credits. The BA and MA earned separately require 120 and 30 credits respectively. Well-prepared undergraduates are encouraged to apply when they have completed between 75 and 90 credits. If accepted into the program, they must have completed 90 credits including HIST 300 with a minimum grade of B+ before they can enter the program.

Interested students should contact the Director of Undergraduate Programs for details about the application process.

This program of study is offered by the Department of History and Art History.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the accelerated MA in history, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

Applicants accepted to the accelerated MA program must have completed 90 credits including HIST 300 with a minimum grade of B+ as a condition to entry into the program.

While undergraduate students, accelerated master's students complete the two graduate courses (6 credits) indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. These credits cannot replace HIST 499. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.
As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Doctor of Philosophy

History, PhD

Banner Code: LA-PHD-HIST
Web: historyarthistory.gmu.edu

The PhD in history prepares students for careers in college teaching, digital media, publishing, educational administration, public history, and historical research. Students gain expertise in conventional historical methods and web-based technologies. Major fields include U.S. history, European history, and world history; minor fields are chosen by the student and may include such areas as public history, constitutional studies, and new media and information technology.

Depending on career goals and interests, students can also focus their degrees in one of four areas of emphases:

- **College and university teaching:** This emphasis is for students who are seeking a career in teaching or research at the community college, college, or university level.

- **New media and information technology:** Although all students in the program take some courses in new media, students in this emphasis seek careers specifically in new media (publishing, education, or a college or university history department where they would serve as the department’s lead person in new media and information technology). This emphasis requires more advanced work in new media than any other.

- **Public and applied history:** This emphasis prepares students for work in applied areas of history, such as museums, archives, federal government work, preservation, and editing, or helps students already working in those areas to advance. In some cases, students will do advanced course work in their field of work; in other cases, they will acquire knowledge or skills that will foster their professional work (such as nonprofit management).

- **Professional development:** This emphasis responds to the needs of students who have already launched a career and want a doctoral degree to further career goals or fulfill personal intellectual goals. Candidates who need flexible scheduling will be advised on a case-by-case basis.

This program of study is offered by the Department of History and Art History. For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the PhD in history, see Application Requirements and Deadlines on the departmental web site.

Reduction of Credit

For students entering the doctoral program with a master’s degree, the number of required credits may be reduced by a maximum of 30 credits, subject to approval of the program faculty and the dean. Requests for reduction of credit are reviewed only after acceptance to the doctoral program.

Degree Requirements

Students pursuing this degree must complete a minimum of 72 graduate credits. Students will be terminated from the program if they receive more than one unsatisfactory grade (C or F). No more than 6 credits earned through study abroad courses may be applied towards the degree.

In addition to core courses, students must complete course work in a major field of study and two minor fields; pass a comprehensive exam; and complete a dissertation. The dissertation demonstrates mastery of the subject matter, methodologies, and conceptual foundations in the chosen field of study. This requirement is generally achieved through consideration of a problem on the boundaries of knowledge in the discipline.

Doctoral Course Work (49-54 credits)

Six core courses (16-21 credits):

- HIST 610 - The Study and Writing of History Credits: 3
- HIST 696 - Clio Wired: An Introduction to History and New Media Credits: 3
- HIST 697 - Creating History in New Media Credits: 3
- HIST 810 - History Doctoral Colloquium Credits: 1 (Students take 1 credit a semester until they advance to candidacy or reach a maximum of 6 credits.)
- HIST 811 - Doctoral Research Seminar Credits: 3

and one seminar course chosen from:

- HIST 711 - Research Seminar in U.S. History Credits: 3
- HIST 731 - Research Seminar in European History Credits: 3
- HIST 751 - Research Seminar in Comparative World History Credits: 3

Major field (15 credits)

Students take courses in one of three possible fields: U.S. history, European history, comparative world history.

Minor fields (18 credits)

Students choose two minor fields and take 9 credits in each. Minor fields may include areas such as public history, constitutional studies, and new media and information technology.

Doctoral research skills
Students must demonstrate basic competency in computers. Students whose research requires knowledge of a foreign language must also demonstrate a reading knowledge of one foreign language. The department sets specific research skills requirements for students, depending on their field of study.

Comprehensive exam

Students need to pass a comprehensive exam that consists of a written field exam for each minor field and an oral exam for the major field.

Advancement to Candidacy

To advance to candidacy, students must complete all course work required on their approved program of study. Students must also successfully complete and pass an oral comprehensive exam in a major field and written examinations in two minor fields. In addition, students must have a dissertation committee appointed by the Dean’s Office as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean’s Office before a student can be advanced to candidacy.

Dissertation Research (minimum of 18 credits)

Once enrolled in 998, students in this degree program must maintain continuous registration in 998 or 999 each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in 999, students must follow the university’s continuous registration policy as specified in the Academic Policies section of the catalog. Students who defend in the summer must be registered for at least 1 credit of 999.

Students who complete less than 6 credits of HIST 810 must take additional credits of HIST 998 or 999 to reach the 72 credits required for the program. Students may apply to this degree a minimum of 3 and a maximum of 6 credits of 998 and a minimum of 15 credits of 999.

- HIST 998 - Doctoral Dissertation Proposal Credits: 1-6
- HIST 999 - Doctoral Dissertation Research Credits: 1-12 (minimum of 15 credits)

Total: 72 credits

Master of Arts

Art History, MA

Banner Code: LA-MA-AH

Web: historyarthistory.gmu.edu

The program in art history offers a unique master’s degree based on departmental strengths in traditional research, the application of new media, and the vast cultural resources of the Washington, D.C., area. Students study a broad range of art-historical periods, theory, and research methods. In addition, the program emphasizes new media skills, museum studies, and preprofessional internship training. Graduates are well-prepared for art museum and gallery professional work, where a master's degree is now routinely required, or further study in doctoral programs.

This program of study is offered by the Department of History and Art History. For policies governing all graduate degrees, see the Academic Policies section of the catalog.
Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the MA in art history, see Application Requirements and Deadlines on the departmental website.

Degree Requirements

Three required courses (9 credits)

- ARTH 600 - Methods and Research in Art History Credits: 3
- ARTH 601 - Colloquium in Art History Credits: 3
- ARTH 699 - Topics in Art History Credits: 3

Four to five elective courses (12-15 credits) in ARTH and HIST

Students may choose electives in AVT, ANTH, or CULT with prior written permission of the graduate director. Students who choose to write a thesis complete 12 elective credits; others complete 15.

One course (3 credits) of applied preprofessional learning chosen from:

- ARTH 593 - Internship in Art History and the Decorative Arts Credits: 3-6
- ARTH 594 - The Museum Credits: 3

One course (3 credits) in technology and new media chosen from:

- HIST 696 - Clio Wired: An Introduction to History and New Media Credits: 3
- HIST 697 - Creating History in New Media Credits: 3

Research language proficiency

Students must demonstrate reading ability in one relevant research language to be approved by the graduate director.

Written comprehensive exam

Students who do not pass may retake the exam once, following the original process. The second exam must be taken within 12 months of the first exam.

Thesis (3 credits) (optional)

Students who choose to write a thesis should be aware of the policies governing theses as stated in the Academic Policies section of this catalog. They must follow the thesis enrollment policy of the university and once enrolled in ARTH 799, maintain continuous enrollment.

- ARTH 799 - Master’s Thesis Credits: 1-3
Total: 30 credits

History of Decorative Arts, MA

Banner Code: LA-MA-HDA

Web: hda.gmu.edu

The MA in the history of decorative arts is offered in partnership with The Smithsonian Associates. It presents students with the challenge of integrating the history of the decorative arts into the study of art history and cultural studies as a whole. Students take courses in decorative arts, design history and theory, material culture, and museology.

The program prepares students for employment at museums, historic organizations, and in the commercial art and design marketplace. It is also excellent preparation for a number of doctoral programs.

This program of study is offered by the Department of History and Art History. For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of the catalog. For information specific to the MA in the history of decorative arts, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

To receive the MA in the history of decorative arts students must complete 48 graduate credits with a minimum GPA of 3.0. A maximum of 9 credits from other institutions may be transferred into this program subject to the approval of the director and the dean.

Eight core courses (24 credits)

- ARTH 570 - Proseminar in History of Decorative Arts Credits: 3
- ARTH 571 - Survey of Decorative Arts I Credits: 3
- ARTH 572 - Survey of Decorative Arts II Credits: 3
- ARTH 630 - Material Culture Studies Credits: 3
- ARTH 640 - European Decorative Arts Credits: 3
- ARTH 655 - Global Decorative Arts Credits: 3
- ARTH 660 - Museum Studies Credits: 3
- ARTH 670 - Design and Design History Credits: 3

Six to eight elective courses (18-24 credits)

Students choose electives in consultation with an advisor. Courses with variable topics may be repeated for credit when the topic varies. A total of 6 credits of independent study and 6 credits of internship each may be applied to the degree.

Students may apply 3 or 6 credits of thesis in place of 1 or 2 elective courses. Students who do not complete a thesis complete 24 elective credits and a comprehensive examination.
Choose from:

- ARTH 593 - Internship in Art History and the Decorative Arts Credits: 3-6
- ARTH 594 - The Museum Credits: 3
- ARTH 596 - Independent Study Credits: 1-3
- ARTH 599 - Special Topics in Art History and the Decorative Arts Credits: 1-6
- ARTH 610 - Theory of Decorative Arts Credits: 3
- ARTH 620 - Topics in Individual Decorative Arts Credits: 3
- ARTH 630 - Material Culture Studies Credits: 3
- ARTH 640 - European Decorative Arts Credits: 3
- ARTH 650 - Global Decorative Arts Credits: 3
- ARTH 660 - Museum Studies Credits: 3

Examination or thesis

Students must successfully pass a comprehensive examination or complete a 3-6 credit thesis.

Examination

The purpose of the comprehensive examination is to test the student’s familiarity with the important objects and literature relating to one major and one minor field. Fields are defined by country, medium, and century. The student is expected to be conversant with bibliographic references, be able to evaluate information critically, and be able to recognize objects, makers, and styles. The exam consists of a one-hour oral component on the major and minor fields followed by an essay on the major field.

Thesis (3 - 6 credits)

A thesis requires a minimum of 1 semester. Students who undertake a 3-credit thesis take 3 fewer elective credits. Students who undertake a 6-credit thesis register for 3 credits the first semester and 3 credits the second semester; they take 6 fewer elective credits.

Once enrolled in ARTH 799, students are required to maintain continuous registration until the thesis is submitted to and accepted by the University Library. The continuous registration policy is specified in the Academic Policies section of the catalog.

- ARTH 799 - Master’s Thesis Credits: 1-3

Total: 48 credits

History, MA

Banner Code: LA-MA-HIST

Web: historyarthistory.gmu.edu

The Department of History and Art History provides graduate training in historical methods and analysis for students with widely varying goals. The MA concentrations that follow are designed to meet those goals.

An accelerated master’s option is available to students in the bachelor's program. See History, BA/History, Accelerated MA for specific requirements.
This program of study is offered by the Department of History and Art History. For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the MA in history, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

Students pursuing this degree must complete the requirements for one of the concentrations below. Approved concentrations are offered in the following areas:

- predoctoral history
- predoctoral history with an emphasis in cultural history
- applied history
- applied history with new media and information technology emphasis
- enrichment
- teaching

The first five concentrations require 30 credits of course work along with a specialization in U.S. history (AH), modern European history (EH), or world history (WH). The concentration in teaching requires 36 credits.

Students may be required to take up to 12 additional credits of foundation courses, which cover broad thematic areas (HIST 601, 602, 605, 606), to remedy gaps in their undergraduate preparation. If required as foundational, these credits cannot be applied toward the credits required for the degree.

If foundation courses are not required at admission, students in the concentrations in enrichment and teaching may apply up to one thematic course (3 credits) toward their degree. Students in the other concentrations may not apply these courses toward their degree.

Students may apply no more than 6 credits earned through study abroad courses toward their degree.

▲ Concentration in Predoctoral History (AH1, EH1, WH1)

This concentration is for students planning to pursue doctoral studies. Students choose one of three specializations and take most of their coursework, a seminar, and a readings course in that specialization.

One required course (3 credits) taken within the first 9 credits

- HIST 610 - The Study and Writing of History Credits: 3

Three to four courses (9-12 credits) in a specialization

Students who complete the 3-credit HIST 798 have 12 credits of electives in their specialization, while students who complete a 6-credit thesis (HIST 799) have 9.

- Specialization in U.S. history (at least 3 credits from each group):
  - Origins to 1861
  - 1861–1914
• 1914 World War I to the present

• **Specialization in European history** (at least 3 credits from each group):
  - Ancient, medieval, early modern to 1789
  - 1789–1914
  - 1914 to the present

• **Specialization in world history** (at least 3 credits from two regions):
  - Africa
  - Asia
  - Middle East
  - Latin America

One research seminar (3 credits) in a specialization

- HIST 711 - Research Seminar in U.S. History Credits: 3
- HIST 731 - Research Seminar in European History Credits: 3
- HIST 751 - Research Seminar in Comparative World History Credits: 3

One comprehensive reading course (3 credits) in a specialization

The comprehensive reading course is designed by the student and a professor and taken during the last semester of course work. It generally requires reading beyond what is required in the other concentrations. This course is used to round out general historical knowledge and prepare students for the comprehensive exam.

- HIST 790 - Comprehensive Readings in U.S. History Credits: 3
- HIST 791 - Comprehensive Readings in Comparative World History Credits: 3
- HIST 792 - Comprehensive Readings in European History Since 1500 Credits: 3

Two elective courses (6 credits) in history

Written comprehensive exam

Students who do not pass the comprehensive exam are given the option of taking a second exam following the original procedures. The second exam must be taken within a calendar year.

Reading proficiency in a modern foreign language, as demonstrated by course work or an exam

3 credits of project or 6 credits of thesis

- HIST 798 - Directed Research and Writing in History Credits: 3
- HIST 799 - Thesis Credits: 1-6

Note:

HIST 798 requires the completion of a major paper that is a substantial and original contribution to historical knowledge on the model of an article in a scholarly journal. If students choose to take HIST 798, they complete an additional 3 credits in their specialization.
Total: 30 credits

▲ Concentration in Predoctoral History with an Emphasis in Cultural History (AH5, EH5, WH5)

This concentration is for students with a particular interest in cultural history and students considering future work in the cultural studies doctoral program. Completion of this program of study does not guarantee admission to the doctoral program in cultural studies. Students interested in that degree program should contact the Cultural Studies Program.

One required course (3 credits) taken within the first 9 credits

- HIST 610 - The Study and Writing of History Credits: 3

Three courses (9 credits) in a specialization

- **Specialization in U.S. history** (at least 3 credits from each group):
  - Origins to 1861
  - 1861–1914
  - 1914 World War I to the present
- **Specialization in European history** (at least 3 credits from each group):
  - Ancient, medieval, early modern to 1789
  - 1789–1914
  - 1914 to the present
- **Specialization in world history** (at least 3 credits from two regions):
  - Africa
  - Asia
  - Middle East
  - Latin America

One research seminar (3 credits) in a specialization

- HIST 711 - Research Seminar in U.S. History Credits: 3
- HIST 731 - Research Seminar in European History Credits: 3
- HIST 751 - Research Seminar in Comparative World History Credits: 3

One comprehensive reading course (3 credits) in a specialization

The comprehensive reading course is designed by the student and a professor and taken during the last semester of course work. It generally requires reading beyond what is required in the other concentrations. This course is used to round out general historical knowledge and prepare students for the comprehensive exam.

- HIST 790 - Comprehensive Readings in U.S. History Credits: 3
- HIST 791 - Comprehensive Readings in Comparative World History Credits: 3
- HIST 792 - Comprehensive Readings in European History Since 1500 Credits: 3

One required course (3 credits) in cultural studies
• CULT 802 - Histories of Cultural Studies Credits: 3

One course (3 credits) in approaches to cultural history

Students should consult with the director on an appropriate course to fulfill this requirement.

One course (3 credits) from outside the area of specialization containing a significant cultural history component as defined by the instructor

Written comprehensive exam

Students who do not pass the comprehensive exam are given the option of taking a second exam following the original procedures. The second exam must be taken within a calendar year.

Reading proficiency in a modern foreign language, as demonstrated by course work or an exam

3 credits of project

• HIST 798 - Directed Research and Writing in History Credits: 3

Note:

HIST 798 requires the completion of a major paper on a topic in cultural history that is a substantial and original contribution to historical knowledge on the model of an article in a scholarly journal.

Total: 30 credits

▲ Concentration in Applied History (AH2, EH2, WH2)

This concentration is for students seeking expertise in applied history fields, such as archival management, museum studies, historic preservation, and historical editing. It is also suitable for professionally employed historians who desire to further their careers.

One required course (3 credits) taken within the first 9 credits

• HIST 610 - The Study and Writing of History Credits: 3

Four courses (12 credits) in a specialization

• Specialization in U.S. history (at least 3 credits from each group):
  ▪ Origins to 1861
  ▪ 1861–1914
  ▪ 1914 World War I to the present
• Specialization in European history (at least 3 credits from each group):
  ▪ Ancient, medieval, early modern to 1789
- 1789–1914
- 1914 to the present

- **Specialization in world history** (at least 3 credits from two regions):
  - Africa
  - Asia
  - Middle East
  - Latin America

One research seminar (3 credits) in a specialization

- HIST 711 - Research Seminar in U.S. History Credits: 3
- HIST 731 - Research Seminar in European History Credits: 3
- HIST 751 - Research Seminar in Comparative World History Credits: 3

Two to three courses (6-9 credits) in applied history

Students choose from courses from HIST 689 - 697. These include courses in historic preservation, museum studies, archives, historical editing, or new media and information technology.

3 or 6 credits of internship

If students chose to do a 3-credit internship, they will take an additional 3 credits in applied history course work.

- HIST 794 - Internship in Applied History Credits: 3-6

Proficiency in a relevant research tool

- Demonstrated by course work or exam in computers, statistics, or a modern foreign language

Total: 30 credits

▲ **Concentration in Applied History with New Media and Information Technology Emphasis (AH4, EH4, WH4)**

Students pursuing this concentration take:

One required course (3 credits) taken within the first 9 credits

- HIST 610 - The Study and Writing of History Credits: 3

Four courses (12 credits) in a specialization

- **Specialization in U.S. history** (at least 3 credits from each group):
  - Origins to 1861
  - 1861–1914
  - 1914 World War I to the present

- **Specialization in European history** (at least 3 credits from each group):
- Ancient, medieval, early modern to 1789
- 1789–1914
- 1914 to the present
- **Specialization in world history** (at least 3 credits from two regions):
  - Africa
  - Asia
  - Middle East
  - Latin America

One research seminar (3 credits) in a specialization

- **HIST 711** - Research Seminar in U.S. History Credits: 3
- **HIST 731** - Research Seminar in European History Credits: 3
- **HIST 751** - Research Seminar in Comparative World History Credits: 3

Two courses (6 credits) in new media and information technology

Students should consult the department for relevant courses.

3 or 6 credits of internship in information technology

If students chose to do a 3-credit internship, they will take an additional 3 credits in applied history course work.

- **HIST 794** - Internship in Applied History Credits: 3-6

Proficiency in a relevant research tool

- Demonstrated by course work or exam in computer science, statistics, information technology, or a modern foreign language

Total: 30 credits

▲ **Concentration in Enrichment (AH3, EH3, WH3)**

This concentration is for students who want to study history for intellectual self-fulfillment or vocational reasons. It allows more flexibility in the selection of courses and does not have a foreign language requirement.

One required course (3 credits) taken within the first 9 credits

- **HIST 610** - The Study and Writing of History Credits: 3

Four courses (12 credits) in a specialization

- **Specialization in U.S. history** (at least 3 credits from each group):
  - Origins to 1861
  - 1861–1914
  - 1914 World War I to the present
- **Specialization in European history** (at least 3 credits from each group):
  - Ancient, medieval, early modern to 1789
  - 1789–1914
  - 1914 to the present
- **Specialization in world history** (at least 3 credits from two regions):
  - Africa
  - Asia
  - Middle East
  - Latin America

One research seminar (3 credits) in a specialization

- HIST 711 - Research Seminar in U.S. History Credits: 3
- HIST 731 - Research Seminar in European History Credits: 3
- HIST 751 - Research Seminar in Comparative World History Credits: 3

Four elective courses (12 credits)

Thesis Option

Students may optionally write a thesis. Students who choose this option complete only 6 credits of electives.

- HIST 799 - Thesis Credits: 1-6

Total: 30 credits

▲ **Concentration in Teaching (HS4)**

This concentration is intended for students already licensed for teaching or seeking licensure. Although it includes course work in history and education, completion of this concentration alone is not sufficient to qualify for licensure. A licensure program is offered by the College of Education and Human Development (CEHD), and admission is limited. Students are advised to consult with CEHD for specific requirements regarding licensure.

One required course (3 credits) taken within the first 9 credits

- HIST 610 - The Study and Writing of History Credits: 3

Six courses (18 credits) in history

- Choose at least one course (3 credits) each from U.S., European, and world history

One research seminar (3 credits) chosen from:

- HIST 711 - Research Seminar in U.S. History Credits: 3
- HIST 731 - Research Seminar in European History Credits: 3
- HIST 751 - Research Seminar in Comparative World History Credits: 3
Four courses (12 credits) in graduate education courses, including:

- EDCI 567 - Teaching Social Studies in the Secondary School Credits: 3
- EDUC 522 - Foundations of Secondary Education Credits: 3
  and two of the following
- EDCI 667 - Advanced Methods of Teaching Social Sciences in the Secondary School Credits: 3
- EDRD 619 - Literacy in Content Areas Credits: 3
- EDUC 672 - Human Development and Learning: Secondary Education Credits: 3

Total: 36 credits

Non-Degree

Ancient Mediterranean Art and Archaeology Minor

Banner Code: ARTM

Phone: 703-993-3770

Faculty

Butler (coordinator), Cherubin, Lytton, Mattusch, Winkler

This interdisciplinary minor is for students with diverse interests in the material culture of the ancient world. Course work combines the study of archaeology, literature, art, history, philosophy, myth, and religion. The scope of the minor is not limited to Greece and Rome but touches on all the ancient civilizations of the Mediterranean and the heirs of late antiquity such as Byzantium and early Islam.

The program represents foundation work crucial to graduate study in traditional departments of classical, near Eastern, or Mediterranean art and archaeology. Through this minor, students are given credit for acquiring practical linguistic skills and archaeological field experience as well as scholarly background. Students should consult with the director for help in choosing a program of study that will complement their major.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Of the 18 credits required for the minor, least 3 credits must be taken in ARTH and at least 9 credits must be taken outside of ARTH.

One course (3 credits) of preparatory work

Students have three options for fulfilling this requirement.

A course in Classical Greek
- GREE 150 - Classical Greek I Credits: 3
- GREE 160 - Classical Greek II Credits: 3

A course in ancient literature

- ARTH 102 - Symbols and Stories in Art Credits: 3
- CLAS 250 - Classical Mythology Credits: 3
- CLAS 260 - The Legacy of Greece and Rome Credits: 3
- RELI 211 - Religions of the West Credits: 3

A course in Latin or a modern research language

This can be fulfilled with a course in any relevant language beyond the language requirement for the BA in the College of Humanities and Social Sciences. For information on how to complete this requirement, students should consult with the director of the minor.

Two to three elective courses (6 to 9 credits):

Other courses pertaining to the region and period, including ARTH 399, may be used to fulfill this requirement with the prior written approval of the director.

- ANTH 324 - Warfare, Violence, and Sacrifice in Antiquity Credits: 3
- ARTH 319 - Art and Archaeology of the Ancient Near East Credits: 3
- ARTH 320 - Art of the Islamic World Credits: 3
- ARTH 321 - Greek Art and Archaeology Credits: 3
- ARTH 322 - Roman Art and Archaeology Credits: 3
- ARTH 324 - From Alexander the Great to Cleopatra: The Hellenistic World Credits: 3
- ARTH 333 - Early Christian and Byzantine Art Credits: 3
- CLAS 340 - Greek and Roman Epic Credits: 3
- CLAS 350 - Greek and Roman Tragedy Credits: 3
- CLAS 360 - Greek and Roman Comedy Credits: 3
- CLAS 370 - Greek and Roman Historians Credits: 3
- CLAS 380 - Greek and Roman Novels Credits: 3
- CLAS 390 - Topics in Classical Literature and Culture Credits: 3
- HIST 301 - Classical Greece Credits: 3
- HIST 302 - Classical Rome Credits: 3
- HIST 480 - Alexander the Great Credits: 3
- PHIL 301 - History of Western Philosophy: Ancient Credits: 3
- RELI 352 - Judaism from Exile to Talmud Credits: 3
- RELI 381 - Beginnings of Christianity Credits: 3

3 credits of seminar:

- ARTH 420 - Advanced Studies in Ancient Art Credits: 3 (if topic pertains to region and period)
- ARTH 430 - Advanced Studies in Medieval or Islamic Art Credits: 3 (if topic pertains to region and period)

3 to 6 credits of a practicum:
ARTH 393 requires the prior written approval of the director. Students can also use archaeological field work done for credit to fulfill this requirement.

- ARTH 394 - The Museum Credits: 3
- ANTH 322 - Pirates, Conquest, and Death: Archaeology and Globalism since 1500 Credits: 3
- ARTH 393 - Art History Internships Credits: 3-6 (if content of internship pertains to region and period)
- ANTH 325 - Field Techniques in Archaeology Credits: 3-6
- ANTH 420 - Interpretation in Archaeology Credits: 3
- ANTH 430 - Research Methods in Archaeology Credits: 3

Total: 18 credits

Art History Minor

Banner Code: ARTH

Web: historyarthistory.gmu.edu

The minor in art history covers a broad spectrum of periods, cultures, and themes, with an emphasis on historical context.

This program of study is offered by the Department of History and Art History.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 18 credits with a minimum GPA of 2.00.

ARTH 394 is not required for the minor but is strongly encouraged.

Students are strongly encouraged to participate in a study abroad program. A maximum of 6 credits of ARTH 398 - Study Abroad in the History of Art may be applied to the minor with permission of department.

One to two courses (3 to 6 credits) in 100- or 200-level art history courses

Four to five courses (12 to 15 credits) in 300- or 400-level art history courses

Total: 18 credits

Asia-Pacific and Northeast Asian Studies Minor

Banner Code: APNS

Web: Asia-Pacific Studies Minor

Phone: 703-993-2957

Faculty
The interdisciplinary minor in Asia-Pacific and Northeast Asian studies is for students whose interests focus on the humanities and social sciences and Asia's role in global systems and the cultural mosaic of human experience.

Asia is the birthplace of many great religious and cultural traditions. It is a region in rapid and profound transformation. With half of the world's population and half of its land mass, Asia is destined to play an increasingly important role in the global economy and world politics. A minor in Asia-Pacific and Northeast Asian studies will give students a better understanding of an important region of the world, broaden their perspective, and provide an edge in seeking jobs in various government agencies, international organizations, private businesses, law firms, and non-profit organizations that deal with Asia. It prepares students for graduate studies in the humanities or social sciences. This minor complements many majors including history, anthropology, communication, economics, and government and politics.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Nine of the 18 credits required for this minor must be at the 300 and 400 level. Eight credits must be unique to the minor. It is recommended that students interested in this minor take language courses in Chinese, Korean, or Japanese. Three credits of one of these languages at the intermediate level (200-level) or above may be applied to the minor.

Two core courses (6 credits) chosen from:

- One course (3 credits) in a language relevant to the area such as Chinese, Korean, or Japanese at the 200-level (or higher)
- ARTH 203 - Survey of Asian Art Credits: 3
- GOVT 333 - Government and Politics of Asia Credits: 3
- HIST 251 - Survey of East Asian History Credits: 3
- HIST 252 - Survey of East Asian History Credits: 3
- RELI 212 - Religions of Asia Credits: 3

Four elective courses (12 credits)

Any course from the list of core course options not used to fulfill that requirement may be used as an elective course. Other electives are possible, including special topics courses when focused on this region (e.g. GOVT 490, HIST 387, HNRS 122, HNRS 230) and approved study abroad courses or internships, when relevant, with prior written approval of the director.

- ANTH 306 - Peoples and Cultures of Island Asia Credits: 3
- ANTH 311 - Peoples and Cultures of Mainland Southeast Asia Credits: 3
- ARTH 384 - Arts of China Credits: 3
- ARTH 385 - Arts of Japan Credits: 3
- ARTH 386 - The Silk Road Credits: 3
- CHIN 310 - Survey of Chinese Literature Credits: 3
- CHIN 311 - Modern Chinese Literature in Translation Credits: 3
- CHIN 320 - Contemporary Chinese Film Credits: 3
- CHIN 325 - Major Chinese Writers Credits: 3
- CHIN 470 - Special Topics in Chinese Studies Credits: 3
- GOVT 341 - Chinese Foreign Policy Credits: 3
- GOVT 433 - Political Economy of East Asia Credits: 3
- HIST 353 - History of Traditional China Credits: 3
- HIST 354 - Modern China Credits: 3
- HIST 356 - Modern Japan Credits: 3
- HIST 357 - Postwar Japan Credits: 3
- RELI 314 - Chinese Philosophies and Religious Traditions Credits: 3
- RELI 315 - Buddhism Credits: 3
- RELI 317 - Daoism Credits: 3
- RELI 337 - Mysticism: East and West Credits: 3

Total: 18 credits

**History Minor**

**Banner Code:** HIST

Web: historyarthistory.gmu.edu

This program of study is offered by the Department of History and Art History.

For policies governing all minors, see the Academic Policies section of this catalog.

**Course Work**

Students pursuing this minor must complete 18 credits in history with a minimum GPA of 2.00.

Of the courses applied to the minor, four courses (12 credits) must be at the 300 or 400-level.

**Three courses (9 credits) in a region or topic**

Students choose courses to meet this requirement that are concentrated in a region or topic. The region or topic should relate, if possible, to their major. Lists of courses, by region, can be found in the BA in history degree requirements. Students should review their plan with the director of the minor.

**Three elective courses (9 credits) in history**

In addition to HIST courses, students may use HNRS 240 to fulfill this requirement.

Total: 18 credits

**Islamic Studies Minor**

**Banner Code:** ISLM

Phone: 703-993-5404

Web: islamicstudies.gmu.edu
Faculty

Amireh, Bakhash, Butler, Dakake (director), DeCaroli, Haddad, Hamdani, Katz, Lukacs, Mandaville, McGlinchey, Paden, Salawdeh

The minor in Islamic studies is designed for students interested in the societies, cultures, history, and politics of the Islamic world. It offers students the opportunity to study the many societies that have significant Muslim populations. These societies are not just in the Middle East. They stretch from North Africa to Southeast Asia and beyond. They include Europe as well as North America. To fulfill the requirements for the minor, students take a wide variety of courses from a range of departments. These courses provide students with a broad and well-rounded understanding of Islam.

The minor will enhance students' opportunities for future study and employment, especially in the Washington, D.C. area.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 21 credits with a minimum GPA of 2.0. Eight credits of course work must be unique to the minor.

Three core courses (9 credits)

- GOVT 345 - Political Islam Credits: 3
- HIST 281 - Survey of Middle Eastern Civilization Credits: 3
- RELI 272 - Islam Credits: 3

Three elective courses (9 credits) chosen from:

Special topics courses, when relevant, may be used to fulfill this requirement with prior written approval of the director.

- ARAB 420 - Survey of Arabic Literature Credits: 3
- ARAB 440 - Topics in Arabic Religious Thought and Texts Credits: 3
- ANTH 308 - Peoples and Cultures of the Middle East Credits: 3
- ANTH 309 - Peoples and Cultures of India Credits: 3
- ANTH 311 - Peoples and Cultures of Mainland Southeast Asia Credits: 3
- ARTH 320 - Art of the Islamic World Credits: 3
- ARTH 382 - Arts of India Credits: 3
- ARTH 386 - The Silk Road Credits: 3
- ENGH 309 - Topics in Literature Credits: 3 (when topic is Arab and Arab-American writers)
- FREN 453 - Topics in North African Francophone Literature and Culture Credits: 3
- GGS 325 - Geography of North Africa and the Middle East Credits: 3
- GGS 330 - Geography of the Soviet Succession States Credits: 3
- GOVT 328 - Non-Western Political Theory Credits: 3
- GOVT 332 - Government and Politics of the Middle East and North Africa Credits: 3
- GOVT 340 - Central Asian Politics Credits: 3
- HIST 282 - Survey of Middle Eastern Civilization Credits: 3
One course (3 credits) in a foreign language of any country with a significant Muslim population

Arabic may be used to fulfill this requirement, but other languages of the Islamic world may be substituted with prior written approval of the director. This requirement may be waived for students who can demonstrate proficiency in a relevant foreign language. Contact the college Office of Undergraduate Affairs. Such students will be required to take 3 additional elective credits.

Total: 21 credits

**Individualized Study**

Phone: 703-993-4556  
Web: bis.gmu.edu

**Administration**

Kenneth C. Thompson (Director)

**Course Work**

The program offers all course work designated BIS in the Courses section of this catalog.

**Undergraduate Program**

The bachelor of individualized study (BIS) provides an alternative to the traditional baccalaureate degree. It offers students a distinctive educational opportunity that allows them to integrate previous experiences into university course work. Recognizing that college-level learning may be acquired through varied professional, military, and personal experience, the Individualized Study Program provides mechanisms for translating experiential learning into academic credit. It accepts transfer credits from traditional institutions of higher education, as well as credits earned through other appropriate means.

In this degree program, most students design their own individualized interdisciplinary program of study. Other students who are interested in early childhood education and who meet specific eligibility requirements can pursue a more prescribed curriculum that leads to a concentration in early childhood education studies.

**Eligibility**
Applicants for an individualized study degree must have completed high school at least seven years prior to admission to the program and have accumulated at least 30 college-level credits, 15 of which must have been earned through conventional classroom instruction. They should have a minimum GPA of 2.50 in their previous course work. The concentration in early childhood education studies is an exception to the seven-year time limit.

**Application and Admission**

Students who are interested in the bachelor of individualized study degree must attend an information session. In addition to applying to Mason through the Office of Admissions, they need to apply separately to the BIS Program. The schedule of BIS information sessions and the BIS application are available on the BIS Program web site.

**Honors in the Major**

Highly qualified students may apply to graduate with honors in the major. Students should apply the semester before they intend to enroll in BIS 390 - The Research Process. If accepted, students must complete BIS 391 - The Research Process for Honors in place of BIS 390, in addition to an individualized section of BIS 490. To graduate with honors in the major, students must complete these two courses with a minimum GPA of 3.50, maintain a minimum cumulative GPA of 3.75, and successfully present their research during the Senior Capstone Project presentations (by earning a grade of 2.0 or better in BIS 491).

**Credit for Nontraditional Modes of Learning**

The BIS program allows students to receive college credit for learning acquired through a variety of nontraditional methods. For details, see the Individualized Study (BIS) section of the catalog below.

**Bachelor’s/Accelerated Master’s Program**

The program offers highly qualified undergraduates the opportunity to apply to accelerated master’s degree programs in telecommunications or in applied information technology. If accepted, students will be able to earn both an undergraduate and a graduate degree after satisfactory completion of 144 credits.

**Bachelor of Individualized Study**

**Individualized Study, BIS**

*Banner Code: LA-BIS-INDV*

Web: bis.gmu.edu

Students pursuing a bachelor of individualized study must meet the baccalaureate degree requirements for all undergraduates: they need to complete 120 credits with 45 credits at or above the 300 level and at least 30 credits at Mason.

This undergraduate program offers students the option of applying to an accelerated master's program in applied information technology or telecommunications. See each listing for specific requirements.

This program of study is offered by the Individualized Study Program.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog.

**Credit for Nontraditional Modes of Learning**
The BIS program allows students to receive college credit for learning acquired through a variety of nontraditional methods indicated below. The maximum allowable credits are indicated for each category.

1. Nationally recognized exam programs such as the College Level Examination Program (CLEP) when the particular exam has been approved for Mason credit: See CLEP Examination for an approved list. A maximum of 45 maximum credits can be earned through exams. Students may not take CLEP exams for credit once they have matriculated at Mason.

2. Certain university approved industry, government, or military training credits if such credits are indexed and recommended as college-level credit by the American Council on Education (ACE). To be eligible for Mason credit, training and course specifics must exactly match what is in the ACE guide and be approved for Mason credit. The specific credits must also be approved by the program director and the dean. A maximum of 45 credits can be earned through ACE-approved training. A maximum of 60 total combined credits can be accepted for exams and ACE-approved training. For example, if 45 credits are accepted by ACE-approved training, a maximum of 15 credits can be accepted for exams. Students may not take these courses for credit once they have matriculated at Mason.

3. Experiential learning demonstrated by portfolios subject to approval by the program director and the dean (30 maximum credits).

4. College-level credit earned at institutions accredited by bodies other than recognized regional accrediting organizations subject to approval by the program director and the dean. These credits can only be considered if the institution is listed in Accredited Institutions of Postsecondary Education published by ACE (30 maximum credits) and only if they are taken before the student matriculates at Mason.

Students may not pursue credit for options 1, 2, and 4 once they have matriculated at Mason. They must complete the third option within their first 30 credits after matriculation. Although the types of credit noted above may be applied to a bachelor of individualized study degree, if a BIS student changes majors, credit awarded in these ways cannot be used toward other majors. These nontraditional credits are not transferable to other degree programs at Mason.

**Degree Requirements**

Students pursuing an bachelor of individualized study degree must complete four required courses and one concentration.

All BIS students are encouraged to pursue a minor. For students pursuing the individualized study concentration, 15 credits of the minor must be applied uniquely to the minor and not to the concentration. For students pursuing the concentration in early childhood studies, the minor is required for the degree.

**General Education (36 credits)**

Like all students, BIS students complete university general education requirements. Students in the BIS program meet a modified general education program of 36 credits. Most students complete the general education requirements below.

Students pursuing the concentration in early childhood education studies meet general education requirements as specified in the advising agreement between NVCC and Mason: they complete 18 credits through NVCC coursework (lower level written communication [ENGH 101], oral communication [COMM 100], 6 credits of social sciences, MATH or STAT, and information technology) and 18-19 credits at Mason (upper level written communication [ENGH 302], 3 or 4 credits of natural science, 6 credits of humanities [including 3 credits of arts], 3 credits of social science, and 3 credits in synthesis [BIS 490]). The general education requirements may include courses not listed here, Consult the BIS program for more information.

Courses used to meet the general education requirements cannot be used to meet a requirement for a concentration.

**Two courses (6 credits) of English composition**

- ENGH 101 - Composition Credits: 3
- ENGH 302 - Advanced Composition Credits: 3
Three courses (9 credits) in humanities

- Any ARTH course
- Any AVT course
- Any COMM course
- Any DANC course
- Any ENGH course (except for ENGH 100, 101, 302)
- Any MUSI course
- Any PHIL course (except for PHIL 173, 376)
- Any RELI course
- Any THR course
- Any course from a foreign language department

Three courses (9 credits) in social and behavioral science

- Any ANTH course
- Any CRIM course
- Any ECON course
- Any GGS course except for GGS 102, 309
- Any GOVT course
- Any HIST course
- Any LING course
- Any PSYC course
- Any SOCI course
- WMST 200 - Introduction to Women and Gender Studies Credits: 3

One course (3 credits) in mathematics or statistics chosen from:

- MATH 106 - Quantitative Reasoning Credits: 3 or any MATH course above 106
- STAT 250 - Introductory Statistics I Credits: 3
- OM 210 - Statistical Analysis for Management Credits: 4

3 credits in information technology

- IT 103 - Introduction to Computing Credits: 3 or any course that fulfills the general education IT proficiency requirement (all components including ethics)

3-4 credits in a natural science

This can be fulfilled by any 3-4 credit lab or non lab course.

- Any ASTR course
- Any BIOL course
- Any CHEM course
- Any CLIM course
- Any EVPP course
- Any EOS course
• Any GEOL course
• Any PHYS course
• CONS 401 - Conservation Theory Credits: 3
• GGS 102 - Physical Geography Credits: 3
• GGS 309 - Meteorology and Climate Credits: 3
• NCLC 301 - Science in the News Credits: 3
• NCLC 318 - Exploring Virginia's Watersheds Credits: 4
• NCLC 395 - Field-Based Work Credits: 1-18
• NCLC 401 - Conservation Biology Credits: 6
• UNIV 301 - Great Ideas in Science Credits: 3

One synthesis course (3 credits)

• BIS 490 - Senior Project Credits: 3

Four core courses (10 credits)

Students must complete each of the four core courses with a minimum grade of 2.00.

In BIS 390 (or 391 for students pursuing honors in the major), students develop a project proposal. An approved proposal from BIS 390 or 391 is a prerequisite to enroll in BIS 490.

In BIS 490, students complete a senior capstone project that varies according to the individual program of study. It may be an investigative or creative project, and must be appropriate to the student’s interdisciplinary concentration. BIS 490 requires significant writing and fulfills the university general education synthesis requirement. It is a research intensive course designated RS by OSCAR. The project is evaluated by the BIS 490 instructor in consultation with the student’s faculty mentor and others as determined by the BIS director.

BIS 490 and BIS 491 are taken concurrently when no more than 6 credits remain in the concentration.

The core courses:

• BIS 300 - Understanding Interdisciplinary Studies Credits: 3
• BIS 390 - The Research Process or BIS 391 - The Research Process for Honors Credits: 3
• BIS 490 - Senior Project Credits: 3
• BIS 491 - Senior Project Presentation Credits: 1

One concentration

Students must complete one concentration of 24-36 credits. Of the credits applied to the concentration, at least 15 credits must be at the 300 level or above and a maximum of 6 credits can have grades of C- or D (grades below 2.00). The total credits applied to the concentration must represent a minimum GPA of 2.00.

Courses applied to a concentration may not also be used to fulfill general education requirements.

▲ Individualized Concentration (IND)

Students may do an individualized concentration to meet their own academic needs and interests. The concentration is developed in close consultation with BIS staff and a faculty mentor. Students may incorporate into their individualized concentrations up to
9 credits of previously earned college course work or previously earned nontraditional credit from other institutions. In addition to the 4 core courses, students complete between 24 and 36 credits, depending on the topic and the student's preparation.

24 to 36 credits from a minimum of two disciplines

Students are encouraged to include BIS 489 - Directed Readings and Research in the concentration and complete it before taking BIS 490.

Total: 24-36 credits

▲ Concentration in Early Childhood Education Studies (ECES)

This concentration offers students holding a Northern Virginia Community College associate’s degree in applied science in early childhood development the opportunity to obtain a BIS in early childhood education studies and a minor in business. This concentration does not lead to teacher licensure in early childhood education. To receive this concentration, students complete 34 credits beyond the associates degree in addition to the 4 core BIS courses, electives, and general education requirements needed to reach at least 120 credits.

Admission Requirements

Students are eligible for this concentration if they have an associate’s degree in applied science in early childhood development. Unlike the individualized concentration, there is no restriction regarding number of years since high school graduation for admission into this BIS concentration.

Interdisciplinary courses (19 credits)

One course (3 credits) in human growth and development

- EDUC 302 - Human Growth and Development Credits: 3

One course (3 credits) focused on diverse young learners chosen from:

- ECED 402 - Foundations of Language and Literacy for Diverse Young Learners Credits: 3
- ECED 403 - Inclusive Curriculum for Young Learners: Planning Instruction and Guidance Credits: 3

One course (3 credits) in linguistic development of infants and toddlers chosen from:

- ECED 422 - Developing Language, Literacy, and Communication of Diverse Young Learners Credits: 3
- ECED 423 - Early Intervention for Infants and Toddlers with Disabilities: Collaborative and Consultative Approaches Credits: 3

One course (4 credits) in research methods chosen from

- GOVT 300 - Research Methods and Analysis Credits: 4
- SOCI 303 - Sociological Research Methodology Credits: 4

6 credits of electives at the 300-400-level
Students choose 6 credits of electives relevant to the concentration in consultation with their faculty mentor.

Five courses (15 credits) leading to a minor in business

- MSOM 300 - Managing Financial Resources Credits: 3
- MSOM 301 - Managing People and Organizations Credits: 3
- MSOM 302 - Managing Information in a Global Environment Credits: 3
- MSOM 303 - Marketing in a Global Economy Credits: 3
- One elective course (3 credits) chosen from MSOM 304, MSOM 305, MSOM 306, or MSOM 491

Note:

Students may petition to substitute another minor relevant to early childhood studies. A substitution requires the approval of the program director.

Total: 34 credits

Total: 34-46 credits

Bachelor/Accelerated Master’s

Individualized Study, BIS/Applied Information Technology, Accelerated MS

Highly qualified students in the Bachelor of Individualized Study (BIS) Program may apply to the Accelerated MS in AIT Program while they are undergraduate students. If accepted, accelerated students will be able to earn both a BIS (including 120 credits) and a MS (30 credits), with six credits of overlap permitted (total of 144 credits).

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. Mason undergraduate students in the BIS Program can apply in the semester in which they will have completed 90 or more credits (including 15 Mason resident credits) applicable toward the BIS. Students must have an overall GPA of at least 3.30 to apply to the program. Criteria for admission are identical to criteria for admission into the MS in AIT Program, except that students do not need to have completed an undergraduate degree prior to acceptance into the accelerated program.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.
To apply these credits to the master's degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor's/Accelerated Master's Transition Form.

Degree Requirements

Students in the accelerated master's program must maintain a minimum 3.30 GPA in the undergraduate segment until they have satisfied all requirements for the BIS degree. On completion and conferral of the undergraduate degree they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. Students must complete all credits that satisfy requirements of the BIS program and those of the MSAIT program, with two courses (6 credits) overlapping from the courses necessary to earn the BIS with a concentration IND (individualized), applied information technology emphasis as listed below.

Note: All of the prerequisite courses indicated below must be passed with a grade of C or higher.

Emerging Technologies

- AIT 597 - Developing IT Leaders of Integrity Credits: 3
- GSOM 540 - Analysis of Financial Decisions Credits: 3

Cyber Security

- AIT 673 - Cyber Incident Handling and Response Credits: 3
- ISA 650 - Security Policy Credits: 3

Intelligence Technologies

Any two from:

- AIT 675 - Overview of the National Intelligence Community Credits: 3
- AIT 676 - The Intelligence Cycle Credits: 3
- AIT 677 - Intelligence Analysis Methods Credits: 3
- AIT 678 - National Security Challenges Credits: 3

Individualized Study, BIS/Telecommunications, Accelerated MS

Students who are in the Bachelor of Individualized Study (BIS) Program may apply to the Accelerated MS in TCOM program while they are undergraduate students. The accelerated program is designed for qualified undergraduate students in the BIS Program who would like to proceed directly into the MS in TCOM program, completing the two degrees with 144 credits. Accelerated students must satisfy requirements for the BIS (including 120 credits) and the MS (30 credits), with 6 credits of overlap permitted. The MS in TCOM is on an accelerated track, with 6 credits taken as an undergraduate and 24 credits as a graduate student.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admission section of this catalog. Mason undergraduate students in the BIS Program may apply for the accelerated program in the semester in which they will have completed 90 or more credits (including 15 Mason resident credits) applicable toward the BIS. Students must have an overall GPA of at least 3.25 to apply for the program. Students who have not yet finished 90 credits may be accepted provisionally subject to satisfactory completion of 90 credits. Criteria for admission are identical to criteria for admission into the MS in TCOM Program, except that students do not need to have completed an undergraduate degree prior to acceptance into the accelerated program.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master's degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor's/Accelerated Master's Transition Form.

**Degree Requirements**

Students who have been accepted into the accelerated program must maintain a minimum 3.25 GPA in the undergraduate segment of the accelerated program and a 3.00 GPA in the graduate segment. That is, after students have been accepted into the accelerated program, they must maintain a 3.25 GPA until they have satisfied all requirements for the BIS degree. They must then maintain a minimum 3.00 GPA in the graduate segment of the accelerated program.

Students must complete all requirements for the BIS degree. Students in the accelerated program must apply to have the BIS degree conferred the semester before they expect to complete BIS requirements, and must graduate. On completion and conferral of the undergraduate degree they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. Students must complete all credits that satisfy requirements of the BIS program and those of the MS-TCOM program, with two courses (6 credits) overlapping. The 6 undergraduate credits that may be taken by a BIS undergraduate student as part of the accelerated program must be selected from the list below, and will be substituted for BIS concentration courses, subject to prior approval by a BIS advisor.

**Note:** Accelerated students must take ECE 301 or 303 as one of their BIS courses taken to satisfy the Individualized Concentration (IND) with emphasis on telecommunication. All of the prerequisite courses indicated below must be passed with a grade of B or higher.

The MS in TCOM is granted on completion of all requirements for the accelerated degree.

**Telecommunications courses:**

- TCOM 500 - Modern Telecommunications Credits: 3
- TCOM 501 - Data Communications and Local Area Networks Credits: 1.5 (prerequisite: acceptance to accelerated program)
- TCOM 502 - Wide Area Networks and Internet Credits: 1.5 (prerequisites: TCOM 501, IT 341, or equivalent)
- TCOM 503 - Fiber Optic Communications Credits: 1.5 (prerequisite: TCOM 500 or equivalent)
- TCOM 504 - Asynchronous Transfer Mode Networks Credits: 1.5 (prerequisites: TCOM 501 and 502, IT 341, or equivalent)
- TCOM 505 - Networked Multicomputer Systems Credits: 1.5 (prerequisites: TCOM 501, IT 341, or equivalent)
- TCOM 509 - Internet Protocols Credits: 1.5 (prerequisites: TCOM 501 and 502, IT 341, or equivalent)
- TCOM 510 - Client-Server Architectures and Applications Credits: 1.5 (prerequisite: TCOM 505)
- TCOM 513 - Optical Communications Networks Credits: 1.5 (prerequisite: TCOM 503)
- TCOM 519 - Voice over IP Credits: 1.5 (prerequisites: TCOM 509, IT 341, or equivalent)
- TCOM 529 - Advanced Internet Protocols Credits: 1.5 (prerequisite: TCOM 509)
- TCOM 539 - Advanced Voice over IP Credits: 1.5 (prerequisite: TCOM 519)
- TCOM 551 - Digital Communication Systems Credits: 3 (prerequisite: TCOM 500 or equivalent)
- TCOM 607 - Satellite Communications Credits: 3 (prerequisites: ECE 463, TCOM 551, or equivalent)

Note:

Accelerated students who have passed IT 341 with a grade of B or higher will not be required to take TCOM 501 in the MS in TCOM core. They may take a 1.5-credit elective instead. Other TCOM courses may be approved on a case by-case basis.

BIS Concentration: 34-46 credits

Students who are pursuing the Individualized Study, BIS, individualized concentration (IND) and emphasis on telecommunications must take:

- Additional 500-level TCOM course (3)
- Plus an additional 9 to 21 credits to reach required number.
- BIS 300 - Understanding Interdisciplinary Studies Credits: 3
- BIS 390 - The Research Process Credits: 3
- BIS 490 - Senior Project Credits: 3
- BIS 491 - Senior Project Presentation Credits: 1
- ECE 301 - Digital Electronics Credits: 3
  or
- ECE 303 - Digital Design/Intro Assembly Language Credits: 4
- IT 212 - Computer Hardware Fundamentals Credits: 3
- IT 341 - Data Communications and Network Principles Credits: 3
- TCOM 500 - Modern Telecommunications Credits: 3

Course Work

This program offers the courses designated MAIS in the Courses section of this catalog. Students in this degree take most of their courses in the disciplines that they integrate as part of their degree program.

Graduate Programs
The master's degree program in interdisciplinary studies (MAIS) is designed for students who seek a degree that integrates knowledge from several disciplines. It addresses a rapidly evolving demand for specialized and individualized graduate study. Students choose one of eleven structured concentrations or devise an individualized program of study when traditional degree programs do not meet their evolving careers or life goals.

The degree requires course work from a home department and selected courses from other disciplines. Students complete their degrees with a project or thesis.

**Concentrations**

Students pursuing a master's degree program in interdisciplinary studies can choose established concentrations in these areas:

- community college teaching
- computational social science
- energy and sustainability
- film and video studies
- folklore studies
- higher education
- neuroethics
- religion, culture, and values
- social entrepreneurship
- war and the military in society
- women and gender studies

For a variety of reasons, traditional graduate programs are not able to meet the specific educational goals of some students. They can choose an individualized concentration. With the help of a faculty advisor, they design an individualized program of study that includes courses from several academic disciplines.

**Bachelor/Accelerated Master's**

**Bachelor's Degree (any)/Interdisciplinary Studies, Accelerated MAIS (Energy and Sustainability Concentration)**

Web: mais.gmu.edu

Highly qualified undergraduates in any major may apply to the accelerated master's degree in interdisciplinary studies. If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in interdisciplinary studies with a concentration in energy and sustainability after satisfactory completion of 150 credits, sometimes within five years.

This program of study is offered by the Interdisciplinary Studies program.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the accelerated MA in interdisciplinary studies, see Application Requirements and Deadlines on the departmental web site.
Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Recommended Courses:
Students pursuing this accelerated master's degree should consider taking PHYS 581, CSI 685, and ECON 695.

Recommended Majors:
Chemistry, economics, mathematics, physics, and relevant concentrations in the Bachelor of Individualized Study (BIS) degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Bachelor's Degree (any)/Interdisciplinary Studies, Accelerated MAIS (Folklore Studies Concentration)

Web: mais.gmu.edu

Highly qualified undergraduates in any major may apply to the accelerated master's degree in interdisciplinary studies. If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in interdisciplinary studies with a concentration in folklore studies after satisfactory completion of 150 credits, sometimes within five years.

This program of study is offered by the Interdisciplinary Studies program.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the accelerated MA in interdisciplinary studies, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements
While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Recommended Courses:
Students pursuing this accelerated master's degree can select from any folklore topics course at the 500 level. These courses include: Appalachian Folklore, Traditional Narrative and Storytelling, Folklore Cultural Heritage and Tourism, Living Words: Folklore and Creative Writing, Folklore of the Spirit World, Traditional Arts/Traditional Artists, Latin American Folklore.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Religion, Culture, and Values Concentration)

Web: mais.gmu.edu

Highly qualified undergraduates in select majors may apply to the accelerated master’s degree in interdisciplinary studies with a concentration in religion, culture, and values. If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in interdisciplinary studies with a concentration in religion, culture, and values after satisfactory completion of 150 credits, sometimes within five years.

This program of study is offered by the Interdisciplinary Studies program.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the accelerated MAIS, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. Upon completion and conferral of the undergraduate degree in the semester
indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Recommended Courses:
Students pursuing this accelerated master’s degree can select from any religious studies (RELI) course offered at the 600 level.

Selected Majors:
Religious studies, global affairs, anthropology, sociology, history, art history, philosophy, and conflict analysis and resolution. If the student has not majored in religious studies it is preferred, though not required, that the student have a minor in Religious Studies.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Women and Gender Studies Concentration)

Web: mais.gmu.edu

Highly qualified undergraduates in select majors may apply to the accelerated master's degree in interdisciplinary studies with a concentration in women and gender studies. If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in interdisciplinary studies with a concentration in women and gender studies after satisfactory completion of 150 credits, sometime within five years.

This program of study is offered by Interdisciplinary Studies program.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the accelerated MAIS, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. Upon completion and conferral of the undergraduate degree in the semester
indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Recommended Courses:
Students pursuing this accelerated master's degree can select from any women and gender studies topics courses at the 600 level.

Selected Majors:
Anthropology, sociology, English, history, philosophy, conflict analysis and resolution, psychology, government, and communication

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Master of Interdisciplinary Studies

Interdisciplinary Studies, MAIS

Banner Code: LA-MAIS-ISBN
Web: mais.gmu.edu

The MAIS is for students who seek a master’s degree that integrates knowledge from several disciplines. It addresses the rapidly evolving demand for unique graduate study by promoting advanced scholarship that transcends traditional disciplinary boundaries.

Applicants must show a capacity for original thought in cross disciplinary research. There may be additional skills required of students applying to specific concentrations. Students will be admitted only if the program can assign to them a faculty advisor appropriate for the intended course of study.

Students can pursue one of the following structured interdisciplinary concentrations:

- Community college teaching (in communication, English, information systems, math, Spanish, or TESL)
- Computational social science
- Energy and sustainability
- Film and video studies
- Folklore studies
- Higher education (administration or student affairs)
- Neuroethics
- Religion, culture, and values
- Social entrepreneurship
- War and the military in society
• Women and gender studies
Students also have the opportunity to design an individualized concentration to meet the special needs of their careers.

• Individualized studies
An accelerated master's option in selected concentrations is available to students in any/selected bachelor's program. See Bachelor's/Accelerated Master's Programs for listings and specific requirements.

This program of study is offered by the Interdisciplinary Studies Program.

This has been designated a Green Leaf program. For further information, please go to Green Leaf Programs and Courses.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section in this catalog. For information specific to the MA in Interdisciplinary Studies, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

Students pursuing this degree must successfully complete 36 credits of graduate course work in one of the concentrations below. Students must submit a curriculum contract that has been approved by their faculty adviser and the director.

Courses applied to the degree are subject to the following restrictions: a maximum of 6 credits may be earned through independent study or directed readings and research courses; a maximum of 6 credits may be taken through the Consortium of Universities of the Washington Metropolitan Area; a maximum of 15 credits may be transfer credits; a maximum of 6 of the transfer credits may be from other accredited institutions.

Transfer credits include credits taken before first enrolling as an admitted degree-seeking student (at another institution, in another Mason graduate program, or in Mason nondegree status) or credits taken at another institution after admission to the degree program through study abroad or study elsewhere (which requires prior written approval of the director and the dean). Additional information may be found in the Academic Policies section of this catalog.

All students complete their work in the program with a project or thesis. Students electing to complete the concentration in community college teaching with a thesis will complete 38 credits.

▲ Concentration in Community College Teaching (CCT)

This concentration qualifies students to teach entry-level courses in rapidly growing fields at community colleges. In addition, it may be an appropriate graduate credential for some faculty currently teaching in community colleges.

In addition to required courses and a knowledge area, students pursuing this concentration are required to take a one-credit proposal course and complete a project or thesis. The concentration in community college teaching is administered by the Higher Education Program.

One required course of proseminar (1 credit)

• MAIS 796 - MAIS ProSeminar Credits: 1

Four required courses (12 credits) in college teaching
Seven required courses (21 credits) in a knowledge area chosen from the following:

- communication
- English
- information systems
- mathematics
- Spanish
- teaching English as a second language

Communication

Four core courses (12 credits)

- COMM 602 - Theories and Research of Mass Communication Credits: 3 or COMM 634 - Theories of Interpersonal Communication Credits: 3
- COMM 605 - Intercultural Communication Credits: 3 or COMM 635 - Organizational Communication Credits: 3
- COMM 650 - Research Methodologies in Communication Credits: 3
- COMM 653 - Graduate Communication: Research and Teaching Credits: 3

Three elective courses (9 credits)

Electives are chosen from graduate-level communication courses in consultation with a faculty advisor. They may include core courses listed above not already used to meet the 12 credit requirement.

Knowledge area total: 21 credits

English

Two to three core courses (6-9 credits)

- ENGH 701 - Research in English Studies Credits: 3
- ENGH 610 - Proseminar in Teaching the Reading of Literature Credits: 3 and/or ENGH 615 - Proseminar in Composition Instruction Credits: 3

Four to five elective courses (12-15 credits)

Electives are chosen from graduate-level English courses in consultation with a faculty advisor.

Knowledge area total: 21 credits

Information Systems
Three core courses (9 credits)

- INFS 515 - Computer Organization Credits: 3
- INFS 612 - Principles and Practices of Communication Networks Credits: 3
- INFS 614 - Database Management Credits: 3

Four elective courses (12 credits)

Electives must be graduate-level INFS or INFS-related courses chosen in consultation with a faculty advisor.

Knowledge area total: 21 credits

Mathematics

Two core courses (6 credits)

- MATH 621 - Algebra I Credits: 3
- MATH 675 - Linear Analysis Credits: 3

Five elective courses (15 credits)

Electives are from graduate-level courses in mathematics and related disciplines (including statistics) chosen in consultation with a faculty advisor.

Knowledge area total: 21 credits

Spanish

Three core courses (9 credits)

- SPAN 502 - Hispanic Sociolinguistics Credits: 3
- SPAN 505 - Applied Spanish Stylistics Credits: 3
- SPAN 510 - Introduction to the Graduate Study of Literature in Spanish Credits: 3

Four elective courses (12 credits)

At least three elective courses (9 credits) must be graduate-level SPAN courses; one (3 credits) may be a graduate-level FRLN course. Electives should be chosen in consultation with a faculty advisor.

Knowledge area total: 21 credits

Teaching English as a Second Language

Six core courses (18 credits)

- LING 520 - Introduction to Linguistics Credits: 3
- LING 521 - Applied Linguistics: Teaching English as a Second Language Credits: 3 or LING 507 - Field Work in Applied Linguistics Credits: 3
- LING 522 - Modern English Grammar Credits: 3
- LING 523 - English Phonetics Credits: 3
- LING 525 - Practicum in ESL Credits: 3
- LING 582 - Second Language Acquisition Credits: 3

One elective course (3 credits)

Elective should be from graduate-level courses in linguistics or a related area chosen in consultation with a faculty advisor.

Knowledge area total: 21 credits

Proposal (1 credit)

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (1 credit) or thesis (3 credit)

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5
  or
- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5 (take 3 credits)

Total: 36-38 credits

▲ Concentration in Computational Social Science (CSS)

Computational social science (CSS) is a relatively new interdisciplinary science in which social science questions are investigated with modern computational tools. Computational social scientists investigate complex social phenomena such as economic markets, traffic control, and political systems by simulating the interactions of the many actors in such systems on computers. They hope to gain insights which will lead to better management of the behavior of the larger social systems, i.e., prevention of market crashes, smoothed traffic flow, or maintenance of political stability. The intractability of many social problems calls for the new approaches provided by computational social science.

CSS is a highly interdisciplinary field that requires teams to plan and complete projects, be they undertaken by government, industry, or non-profit entities. Project managers of such teams, overseeing all elements of project design and execution, tend to hold PhDs. The MAIS concentration will train students to be members of these project teams, able to meaningfully contribute to background research and to project design, execution, and communication.

Prior background should include a bachelor’s degree in one of the social sciences, in computer science, in engineering, or in a relevant discipline, as well as undergraduate courses in these and related areas. Bachelor’s degrees in other areas are also eligible, but the student may be required to take additional courses in social science, mathematics, or computer science as prerequisites to admission.

One required course of proseminar (1 credit)

- MAIS 796 - MAIS ProSeminar Credits: 1

Six core courses (18 credits)
Three required courses (9 credits)

The required CSS courses provide an understanding of the conceptual, technical, and practical foundations of computational social science.

- CSS 600 - Introduction to Computational Social Science Credits: 3
- CSS 605 - Object-Oriented Modeling in Social Science Credits: 3
- CSS 610 - Computational Analysis of Social Complexity Credits: 3

Three elective courses (9 credits) chosen from:

The electives provide an understanding of the technical foundations and current work in at least two subfields of computational social science.

- CSS 620 - Origins of Social Complexity Credits: 3
- CSS 625 - Complexity Theory in the Social Sciences Credits: 3
- CSS 645 - Spatial Agent-Based Models of Human-Environment Interactions Credits: 3
- CSS 692 - Social Network Analysis Credits: 3
- CSS 739 - Topics in Computational Social Science Credits: 3

One research course (3 credits) chosen from:

The research course provides students with exposure to the most current ongoing research in the field and allows them to further develop their computational research expertise.

- CSS 796 - Directed Reading and Research Credits: 3
- CSS 898 - Research Colloquium in Computational Social Science Credits: 1
- CSS 899 - Colloquium in Computational Social Science Credits: 1

Three to four elective courses (9-12 credits)

The electives allow students to acquire a substantive specialization as well as additional training in social and computational science. Because of the broad spectrum of social science phenomena, methodologies, and student backgrounds, there is a large pool of potential courses. Electives may include any Mason master’s-level course in computational social science, social science, computer science, statistics, or other quantitative methods such as data visualization, information technology, and geographic information science. Electives should be selected in conjunction with and approval of the student’s advisor and the Director of CSS Graduate Studies. If the student does not have prior coursework in multivariate statistical analysis, the electives should include at least one such course relevant for the student’s chosen specialization.

Students who elect to do a 4-credit project or thesis take 9 elective credits. Students who do a 1-credit project take 12 elective credits.

Proposal (1 credit)

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (1-4 credits) or thesis (4 credits)

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5 (minimum of 1 credit)
or

- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5 (take 4 credits)

Total: 36 credits

▲ Concentration in Energy and Sustainability (EAS)

This concentration is particularly relevant for students who are pursuing or interested in pursuing careers in energy and environmentally related applications in the law, national and international policy, government, print and media journalism, public and social service, teaching, advanced graduate studies, ethics, business, and basic and applied research.

Sustainability by definition aims to meet our present needs without compromising the ability of future generations to meet their needs. A sustainability education lies within the intersection of environmental science and engineering, economics and business, public policy, and many other areas. Energy is a crucial component of sustainability.

One required course of proseminar (1 credit)

- MAIS 796 - MAIS ProSeminar Credits: 1

Two to three policy courses (6-9 credits) chosen from:

- ECON 695 - Special Topics in Economics Credits: 3
- EVPP 505 - Selected Topics in Environmental Science Credits: 0-4 (take 3 credits)
- EVPP 638 - Corporate Environmental Management and Policy Credits: 3
- PHIL 643 - Environmental Ethics Credits: 3
- PUBP 710 - Topics in Public Policy Credits: 1-3 (take 3 credits)

Two to four courses (6-12 credits) in planning, modeling, and management chosen from:

- CEIE 501 - Sustainable Development Credits: 3
- CEIE 601 - Infrastructure Modeling Credits: 3
- EVPP 692 - Master's Seminar in Environmental Science and Public Policy Credits: 1 (can be repeated for credit)
- EVPP 693 - Directed Studies in Environmental Science and Public Policy Credits: 1-4

Two to five courses in basic science (6-15 credits)

One required course (3 credits)

- PHYS 580 - Selected Interdisciplinary Topics Credits: 3
  or
- PHYS 581 - Topics in Renewable Energy Credits: 3

One to four courses (3-12 credits) chosen from:

- CSI 685 or PHYS 615 - Fundamentals of Materials Science Credits: 3
- CSI 720 - Fluid Mechanics Credits: 3
• CHEM 633 - Chemical Thermodynamics and Kinetics Credits: 3
• PHYS 614 - Thermodynamics and Kinetics of Materials Credits: 3

One research methods course (3 credits)
• CSI 700 - Numerical Methods Credits: 3
• OR 682 - Computational Methods in Engineering and Statistics Credits: 3
• OR 763 - Research Methods in Systems Engineering and Information Technology Credits: 3 or SYST 763 - Research Methods in Systems Engineering and Information Technology Credits: 3
• SOCI 620 - Methods and Logic of Social Inquiry Credits: 3

Proposal (1 credit)
• MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (1-4 credits) or thesis (4 credits)
• MAIS 798 - Interdisciplinary Studies Project Credits: 1-5 (minimum of 1 credit)
  or
• MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5 (take 4 credits)

Total: 36 credits

▲ Concentration in Film and Video Studies (FAVS)

The concentration emphasizes film and video studies and its components including videoconferencing, multimedia, and editing. As low-end, high-quality video equipment becomes more affordable, more organizations (for profit and nonprofit) are investing in in-house production studios and staff. Their needs include traditional videography, videoconferencing, web design, multimedia, and digital editing.

Five academic units offer courses relevant to the concentration: Within the College of Humanities and Social Sciences, the English Department offers a course in film theory. College of Education and Human Development offers courses in interactive and distance learning, which provide a background for pedagogy and a wide spectrum of interactive skills. Within the College of Visual and Performing Arts, the Film and Video Studies Program offers courses in the theory and practice of video production and screenwriting and the Art and Visual Technologies Department offers courses on computer-mediated visual applications, including the study of multimedia tools and design, digital and electronic art, animation, and virtual reality.

Students must have a basic knowledge of video production. Students with little or no video experience must take FAVS 599 (when the topic is Video Production) within the first 9 credits of the program. Students with video experience who wish to waive this requirement must provide a demo reel of their past work.

One required course of proseminar (1 credit)
• MAIS 796 - MAIS ProSeminar Credits: 1

Five to six required courses (16-19 credits)
• FAVS 599 - Special Topics Credits: 1-6 (take 3 credits when topic is Video Production)
This requirement may be waived by the director for students with a video production background. They take an additional 3 credits of electives.

- FAVS 570 - Screenwriting Credits: 3
- ENGH 670 - Visual Culture: Theories and Histories Credits: 3
  or
- COMM 655 - Theories of Visual Communication in Telecommunications Credits: 3

- AVT 676 - Graduate Sound Art Credits: 4
  or
- AVT 599 - Special Topics in Art and Visual Technology Credits: 1-6 (take 4 credits)
- FAVS 550 - Internship Credits: 3
- FAVS 590 - Independent Study Credits: 1-6 (take 3 credits)
  or
- FAVS 597 - Independent Production Credits: 1-3 (take 3 credits)

Elective courses (12 to 15 credits)

The number of elective credits will vary depending on whether required introductory course is waived.

- AVT 620 - Theory, Criticism, and the Visual Arts Credits: 3
- AVT 685 - Video Art Credits: 4
- FAVS 599 - Special Topics Credits: 1-6 (take 3 credits)
- COMM 590 - Seminar in Communication Credits: 3
- COMM 602 - Theories and Research of Mass Communication Credits: 3
- COMM 696 - Directed Readings and Research Credits: 1-3
- EDIT 571 - Visual Design and Applications Credits: 1-3
- EDIT 572 - Digital Audio/Video Design and Applications Credits: 1-3
- ENGH 555 - Introduction to Cinema Studies Credits: 3
- HIST 697 - Creating History in New Media Credits: 3

Proposal (1 credit)

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project or thesis (3 credits)

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5 (take 3 credits)
  or
- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5 (take 3 credits)

Total: 36 credits

▲ Concentration in Folklore Studies (FLKS)

This concentration explores the processes of tradition that move through multiple expressive forms, such as folktales, folk beliefs, folk medicine, folk art, folksong, and literature. A discipline based on ethnographic fieldwork, folklore offers students a chance to work in communities and collect living traditional materials that are critical to human identity and values. Interdisciplinary by nature, folklore thrives on local particularities and compelling global connections. Internships in the many Washington, D.C.,
metropolitan area folklore organizations are central to students’ experiences. This course of study prepares students for careers in cultural agencies, governmental organizations, teaching institutions, and advanced study in the humanities.

Students pursuing this concentration must complete at least 6 credits of courses from outside the English Department.

One required course of proseminar (1 credit)

- MAIS 796 - MAIS ProSeminar Credits: 1

Six core courses (18 credits)

Special topics in folklore (9 credits) chosen from:

Courses may be repeated.

- ENGH 590 - Topics in Folk Narrative Credits: 3
- ENGH 591 - Topics in Folklore Studies Credits: 3
- ENGH 681 - Advanced Topics in Folklore Studies Credits: 3
- ENGH 798 - Directed Reading and Research Credits: 1-6 (take 3 credits)

Pathways in folklore scholarship (3 credits)

- ENGH 681 - Advanced Topics in Folklore Studies Credits: 3 (when topic is Pathways to Folklore Scholarship)

Internship in folklore (3 credits)

- ENGH 604 - Internship in Folklore Credits: 1-6 (take 3 courses)

Research methodology course (3 credits) chosen from:

- ENGH 701 - Research in English Studies Credits: 3
- HIST 610 - The Study and Writing of History Credits: 3
- SOCI 634 - Qualitative Research Methods Credits: 3

Specialization (9 credits)

Students choose an area of specialization which must be approved by a faculty advisor. Specialization topics include public folklore (museums, archives, arts and humanities councils, and nonprofit organizations); folklore (ethnicity and immigration); folklore and literature; folklore and the teaching of writing and literature; folklore and history; and folklore and conflict resolution. Students can also opt for open specialization, with courses chosen in consultation with advisor. Possibilities include folklore and editing, applied storytelling, folklore and mythology, folklore and art history, folklore and gender studies, and folklore and communication.

One to two elective courses (3 to 6 credits)

Electives require the prior written approval of a faculty advisor. Student who elect to do a 1 credit project take 6 elective credits. Students who do a 4 credit thesis take 3 elective credits.
Proposal (1 credit)

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (1 credit) or thesis (4 credits)

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5 (take 1 credit)
  or
- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5 (take 4 credits)

Total: 36 credits

▲ Concentration in Higher Education (HEDU)

This concentration prepares individuals for administrative and leadership positions in colleges and universities, associations, and government agencies whose activities affect higher education. Within the concentration, students may choose to emphasize administration or student affairs.

One required course of proseminar (1 credit)

- MAIS 796 - MAIS ProSeminar Credits: 1

Four core courses (12 credits)

One course (3 credits) chosen from:

- CTCH 621 - Higher Education in the United States Credits: 3
- CTCH 601 - The Community College Credits: 3

Three additional core courses (9 credits)

Students choose relevant courses in consultation with an advisor.

One course (3 credits) of research methodology

One course (3 credits) of specialization

- CTCH 622 - Organization and Administration in Higher Education Credits: 3
  or
- CTCH 644 - Student Services in Higher Education Credits: 3

Three to four elective courses (9-12 credits)

Students choose electives in consultation with their advisor. The number of elective credits will vary depending on the number of project credits.
Practicum (3 credits)

- CTCH 685 - Practicum Credits: 3

Proposal (1 credit)

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (1-4 credits) or thesis (4 credits)

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5 (minimum of 1 credit)
  or
- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5 (take 4 credits)

Total: 36 credits

▲ Individualized Concentration (IND)

This concentration is for students who wish to design a graduate program to meet the special needs of their careers and life plans. Students usually choose this option because traditional graduate programs do not meet their specific goals. Students, with help from their faculty advisor, design a unique program of study that includes courses from several academic departments.

Students have access to most graduate courses offered by Mason but must meet all course prerequisites. Each student must submit a curriculum contract approved by the student's advisor and director during the first semester enrolled. Any subsequent amendments must have the approval of the student's advisor and the director.

One required course of proseminar (1 credits)

- MAIS 796 - MAIS ProSeminar Credits: 1

Disciplinary focus (12 to 18 credits)

Students must complete a minimum of 12 and a maximum of 18 credits in one discipline.

Complementary disciplines (9 to 18 credits)

Students take 9-18 courses in complementary disciplines. These require the approval of faculty advisor and MAIS director.

Research methods (3 credits)

Students take a research methods course approved by faculty advisor and MAIS director.

Proposal (1 credit)

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1
Project (1-4 credits) or thesis (4 credits)

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5 (minimum of 1 credit)
  or
- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5 (take 4 credits)

Total: 36 credits

▲ Concentration in Neuroethics (NETH)

The concentration in neuroethics offers students the opportunity to study ethical issues arising from recent scientific and medical advances in conjunction with advanced training in neuroscience. The curriculum helps students develop their skills in critical, analytical, and imaginative thinking and to make well-founded ethical decisions. Students will become familiar with the basic theories of current neuroscience, as well as the philosophical issues raised by these theories.

The degree is intended for students interested in doctoral work in neuroscience, cognitive science, or bioethics. It also can help students who will work on medical and scientific research projects in government or the private sector.

This concentration is offered jointly by the Department of Philosophy and the Neuroscience Program.

Admission to the neuroethics concentration is open to students with undergraduate degrees in any field. All students should have taken the following basic courses in life science and philosophy (or their equivalents) before admission to the program or should complete them shortly thereafter: PHIL 173 - Logic and Critical Thinking, BIOL 213 - Cell Structure and Function, BIOL 482 - Introduction to Molecular Genetics, CHEM 314 - Organic Chemistry.

Students without the biology and chemistry pre-requisites can fill these requirements once admitted to the program by taking NEUR 600 and other courses recommended by the concentration director. These courses cannot be applied to degree requirements.

One required course of proseminar (1 credit)

- MAIS 796 - MAIS ProSeminar Credits: 1

Six core courses (18 credits) in ethics and neuroscience

- PHIL 640 - History of Ethical Theory Credits: 3
- PHIL 642 - Biomedical Ethics Credits: 3
- PHIL 645 - Research Ethics Credits: 3
- NEUR 741 - Introduction to Neuroimaging Credits: 3
- NEUR 742 - Cognitive Neuroscience Credits: 3
- NEUR 602 - Cellular Neuroscience Credits: 3

12 credits of electives

Students must take at least 3 credits of philosophy and 3 credits of science. Other philosophy or neuroscience courses may be used to meet this requirement with prior written approval of the director of the program.

- PHIL 621 - Philosophy of Science Credits: 3
- PHIL 643 - Environmental Ethics Credits: 3
- PHIL 733 - Current Issues in Cognitive Science Credits: 3
- PSYC 527 - Introduction to Neurobiology Credits: 2
- PSYC 531 - Mammalian Neurobiology Credits: 3
- PSYC 557 - Psychometric Methods Credits: 3
- PSYC 685 - Cognitive Neuroscience Credits: 3
- PSYC 701 - Cognitive Bases of Behavior Credits: 3
- PSYC 702 - Biological Bases of Human Behavior Credits: 3
- BIOL 572 - Human Genetics Credits: 3
- NEUR 702 - Research Methods Credits: 3

Proposal (1 credit)

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project or thesis (4 credits)

Students cap their study of neuroethics by writing a master’s thesis or completing a two-semester project in neuroethics. The project involves student observation and involvement in scientific research, clinical work, or policy setting.

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5
  or
- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5

Total: 36 credits

▲ Concentration in Religion, Culture, and Values (RCV)

This concentration is particularly relevant for students who are interested in careers in law, national and international government, print and media journalism, library sciences, archives and museums, public and social service, teaching, advanced graduate studies, and religious communities and institutions.

One required course of proseminar (1 credit)

- MAIS 796 - MAIS ProSeminar Credits: 1

Two core courses (6 credits) chosen from:

- RELI 630 - Approaches to the Study of Religion Credits: 3
- RELI 631 - Sacred as Secular in Modern Spirituality Credits: 3
- RELI 632 - World Religions in Conflict and Dialogue Credits: 3
- RELI 635 - World Religions in Transition and Transformation Credits: 3

Two or three courses (6 to 9 credits) in religious studies chosen from:

- RELI 591 - Special Topics in Religious Studies Credits: 3 (may be repeated for credit)
- RELI 633 - Ethical Perspectives of World Religions Credits: 3
- RELI 636 - Religion and the Natural Environment Credits: 3
• RELI 642 - Sacred Language, Scripture, and Culture Credits: 3

One course in research methodology (3 credits) chosen from:

• HIST 610 - The Study and Writing of History Credits: 3
• SOCI 634 - Qualitative Research Methods Credits: 3

Two or three courses in a specialization (6 to 9 credits)

Specialization in religion, culture, and communication

Students take the course below and one or two other relevant courses chosen in consultation with an advisor.

• COMM 605 - Intercultural Communication Credits: 3

Specialization in religious traditions and conflict analysis and resolution

• CONF 695 - Selected Topics Credits: 3 (if appropriate)
• CONF 702 - Peace Studies Credits: 3
• CONF 722 - Conflict and Religion Credits: 3

Specialization in religion, culture, and ethics

• RELI 633 - Ethical Perspectives of World Religions Credits: 3
• PHIL 640 - History of Ethical Theory Credits: 3
• PHIL 643 - Environmental Ethics Credits: 3

Specialization in religion, values, and international politics

• GOVT 540 - International Relations Credits: 3
• GOVT 741 - Advanced Seminar in International Politics Credits: 3 (if appropriate)

One to four elective courses (3 to 12 credits)

Students chose electives in consultation with their advisor, bearing in mind the their specialization, project, or thesis topic. Any of the courses under the specializations listed above or courses from other disciplines listed below may be used as electives.

• ANTH 535 - Anthropology and the Human Condition: Seminar I Credits: 3
• ANTH 615 - Ritual and Power in Social Life Credits: 3
• ANTH 684 - Independent Study in Sociocultural Anthropology Credits: 1-6
• COMM 605 - Intercultural Communication Credits: 3
• CONF 695 - Selected Topics Credits: 3
• CONF 702 - Peace Studies Credits: 3
• CONF 722 - Conflict and Religion Credits: 3
• EDUC 537 - Foundations of Multicultural Education Credits: 3
• ENGH 591 - Topics in Folklore Studies Credits: 3
• GOVT 540 - International Relations Credits: 3
• GOVT 741 - Advanced Seminar in International Politics Credits: 3
• HIST 510 - Approaches to Modern World History Credits: 3
• PHIL 604 - Augustine and Aquinas Credits: 3
• PHIL 617 - Movements and Issues in the History of Political Philosophy Credits: 3
• PHIL 640 - History of Ethical Theory Credits: 3
• PHIL 643 - Environmental Ethics Credits: 3
• SOCI 614 - Sociology of Culture Credits: 3
• WMST 640 - Women and Global Issues Credits: 3

Proposal (1 credit)

• MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (1-4 credits) or thesis (4 credits)

• MAIS 798 - Interdisciplinary Studies Project Credits: 1-5
or
• MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5 (take 4 credits)

Total: 36 credits

▲Concentration in Social Entrepreneurship (SOCE)

This concentration promotes advanced scholarship that transcends traditional disciplinary boundaries. Students combine required coursework in social entrepreneurship, management, public policy, public and international affairs, and leadership with courses aimed at individual student's areas of specialization and hands on learning activities. Through this powerful blend of academic courses and experiential learning opportunities (i.e., the practical and the theoretical), students will graduate with the knowledge of leading edge concepts and research-based approaches, as well as the field experience necessary to succeed as social innovators.

Students earning an MAIS with a concentration in social entrepreneurship will learn about the roles that technology, public policy, market based approaches, research, leadership, strategy, and communication play in implementing solutions to urgent challenges around the globe. Whether they work in government, industry, or the citizen (non-profit) sector, these future leaders will be exposed to cutting edge knowledge related to sustainability, ethical leadership, strategic management, and working effectively within complex networks made up of divergent groups of stakeholders. Further, students will be equipped with the experience, strategic knowledge, technical support, and the social networks needed to create, operate, develop and accelerate startups, bring ideas to scale, and improve program effectiveness.

One required course of proseminar (1 credit)

• MAIS 796 - MAIS ProSeminar Credits: 1

Three core courses (9 credits)

Students take three core courses in social entrepreneurship and leadership.

• NCLC 595 - Experiential Learning Credits: 1-3 (take 3 credits when topic is Foundations of Social Innovation)
• NCLC 595 - Experiential Learning Credits: 1-3 (take 3 credits when topic is Leading Social Change)
Three courses (9 credits) in interdisciplinary perspectives on social entrepreneurship

Students take one course from each of areas below.

**Public Policy**

- PUBP 761 - Social Entrepreneurship and Public Policy Credits: 3 (if not taken as a core course)
- ITRN 769 - International Entrepreneurship Credits: 3
- PUBP 781 - Entrepreneurship and Economic Development Credits: 3
- PUBP 784 - Entrepreneurship, Economics, and Public Policy Credits: 3

**Management**

- MBA 674 - Ethical and Social Environment of Business in the 21st Century Credits: 1.5
- MBA 711 - Entrepreneurship Credits: 0-3
- MBA 714 - Managing Growth of Small Businesses Credits: 0-3
- MBA 719 - Entrepreneurship Laboratory Credits: 1.5
- MBA 752 - Turning Ideas into Successful Companies Credits: 0-3

**Public Administration**

- PUAD 505 - Introduction to Management of Nonprofits Credits: 3
- PUAD 654 - The Community, Marketing, and Public Relations Credits: 3
- PUAD 655 - Philanthropy and Fund Raising Credits: 3
- PUAD 658 - Social Entrepreneurship and Nonprofit Enterprise Credits: 3
- PUAD 659 - Nonprofit Law, Governance, and Ethics Credits: 3

**Disciplinary Focus (9 credits)**

Students complete 9 credits in one discipline chosen in consultation with a faculty advisor. Possible areas include existing courses in health and human services, education and human development, public and international affairs, engineering, management, conflict and resolution, or public policy.

**Internship (3 credits)**

Students must complete an internship before registering for MAIS 798/799.

**Proposal (1 credit)**

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

**Project (4 credits) or thesis (4 credits)**
• MAIS 798 - Interdisciplinary Studies Project Credits: 1-5 (take 4 credits)
or
• MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5 (take 4 credits)

Total: 36 credits

▲ Concentration in War and the Military in Society (WMS)

Recent events have demonstrated the degree to which military issues affect social groups, global politics, and the world economy. Understanding the ways in which armies are raised and funded, the reasons troops serve, the conditions military personnel and civilians endure during wartime, and the multifaceted and evolving ways in which nations conceive of the military apparatus has direct bearing on future policy decisions.

The concentration in war and the military in society emphasizes scholarship that examines issues of international security and conflict in the past, present, and future. It equips students with the skills to understand the interconnected nature of those elements and to examine critically the ways in which they have changed and continue to change over time.

One required course of proseminar (1 credit)

• MAIS 796 - MAIS ProSeminar Credits: 1

Four core courses (12 credits)

Two courses (6 credits) chosen from:

• ANTH 721 - Culture, Power, and Conflict Credits: 3
• BIOD 610 - Advanced Topics in Biodefense Credits: 1-4 (take 3 credits; when topic is U.S. military intervention since Vietnam)
• GOVT 745 - International Security Credits: 3
• PUAD 632 - Terrorism: Theory and Practice Credits: 3

Two courses (6 credits) chosen from:

• HIST 615 - Problems in American History Credits: 1-6 (when topic is The American Civil War)
• HIST 675 - Problems in Military History Credits: 3
• HIST 677 - The Vietnam War Credits: 3

Six to seven elective courses (18-21 credits)

Students choose electives in consultation with an advisor, bearing in mind their specialization and proposed topic for their project or thesis. Students interested in the intellectual consideration of the military, war, and society should choose courses in anthropology, history, religious studies, and sociology. Students interested in practical applications of the study of the military, war, and society to contemporary security issues should choose courses in biodefense, geography, and government. Students may take additional courses from the core requirements as electives with permission from their advisor, but their coursework overall must include at least six credits in two or more disciplines.

Students who choose to do a project complete seven elective courses (21 credits); those who choose a thesis complete six elective courses (18 credits).
• ANTH 699 - Contemporary Issues in Sociocultural Anthropology Credits: 3 (when topic is Warfare, Violence, and Sacrifice in Antiquity)
• BIOD 609 - Biodefense Strategy and Policy Credits: 3
• BIOD 706 - Nuclear, Biological, and Chemical Weapons Policy and Security Credits: 3
• GGS 590 - Selected Topics in Geography Credits: 1-3 (when topic is Military Geography or insurgency)
• HIST 635 - Problems in European History Credits: 3 (when topic is the Fall of the Roman Empire)
• RELI 632 - World Religions in Conflict and Dialogue Credits: 3
• HIST 679 - War and Remembrance Credits: 3

Proposal (1 credit)

• MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (1-4 credits) or thesis (4 credits)

• MAIS 798 - Interdisciplinary Studies Project Credits: 1-5 (minimum of 1 credit)
  or
• MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5 (take 4 credits)

Total: 36 credits

▲ Concentration in Women and Gender Studies (WGST)

Of the coursework required for this concentration as described below, at least 15 credits must be in courses related to the study of women and gender and 12-18 credits in courses in a disciplinary focus. All courses related to the study of women and gender must be approved by the head of the concentration in women and gender studies.

One required course of proseminar (1 credit)

• MAIS 796 - MAIS ProSeminar Credits: 1

Two core courses (6 credits)

• WMST 630 - Feminist Theories across the Disciplines Credits: 3
• WMST 640 - Women and Global Issues Credits: 3

Disciplinary focus (12 credits)

Students complete 12 credits in one discipline chosen in consultation with a faculty advisor, including 3 credits in a course that addresses the study of women and gender.

Elective courses (9 to 12 credits)

Students must take at least 6 credits in courses that address the study of women and gender and that are not part of the disciplinary focus.
Research methods (3 credits)

The research methods course is selected in consultation with a faculty advisor.

Proposal (1 credit)

- MAIS 797 - Interdisciplinary Studies Proposal Credits: 1

Project (1-4 credits) or thesis (4 credits)

- MAIS 798 - Interdisciplinary Studies Project Credits: 1-5 (minimum 1 credit)
  or
- MAIS 799 - Interdisciplinary Studies Thesis Credits: 1-5 (take 4 credits)

Total: 36 credits

■ Latin American Studies

Phone: 703-993-1010
Web: las.gmu.edu

Faculty

Berroa (Modern and Classical Languages), Bristol (History and Art History), Burt (Public and International Affairs), Greet (History and Art History), Karush (History and Art History, director), Leeman (Modern and Classical Languages), Lepore (Dance), Meyer (Economics), Rabin (Modern and Classical Languages), Rogers (Modern and Classical Languages), Seligmann (Sociology and Anthropology), Shutika (English), Vivancos-Pérez (Modern and Classical Languages), Yocom (English)

Course Work

The Latin American Studies Program offers courses designated LAS in the Courses section of this catalog. As an interdisciplinary program, Latin American Studies offers many other courses across a range of departments that do not bear the LAS code. For the major and minor, students should consult with the director to determine whether a particular course may be used to fulfill a Latin American studies requirement or elective.

Undergraduate Programs

The bachelor’s degree in Latin American studies presents students with the opportunity to study one of the world’s most diverse and fascinating regions. Contemporary Latin America is the product of a long and turbulent history of conquest, resistance, and cultural mixing. The result is a rich and unique amalgam of African, indigenous, and European cultures. Understanding these complex societies has never been more crucial than it is today since people of Latin American descent represent more than 13% of the population of the United States. Knowledge of Latin American history, culture, society, and politics is indispensable for anyone who seeks to understand the contemporary United States and its place in the world.

Majors in Latin American studies develop a broad expertise in the region while pursuing an individualized program of study that suits their own particular interests. Student improve their language skills and take courses in many disciplines including
anthropology, dance, economics, folklore, geography, government, history, and literature. The course work culminates in a seminar where students develop a research project under the mentorship of a faculty expert.

**Honors in the Major**

Latin American Studies majors who have completed 75 credits (a minimum of 15 in Latin American Studies, 6 of which must have been taken at Mason) with an overall minimum GPA of 3.50 and a minimum GPA of 3.50 in the major may apply to pursue advanced work leading to graduation with honors in the major. The application consists of a transcript, a recommendation from one member of the LAS faculty, and a brief description of a proposed research project.

Once accepted into the program, students pursuing honors in the major complete a two-course sequence LAS 491 and LAS 499 (an honors section), which must be taken in successive semesters. In this sequence, students complete an advanced research project under the guidance of a faculty member. To graduate with honors in the major, students must earn a minimum GPA of 3.50 in the honors courses.

**Bachelor of Arts**

**Latin American Studies, BA**

**Banner Code:** LA-BA-LAS

**Web:** las.gmu.edu

This program of study is offered by the Latin American Studies Program.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog.

**Degree Requirements**

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in Latin American studies must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences. Students pursuing this degree must complete 31 credits in Latin American studies with a minimum GPA of 2.00.

**One required introductory course (1 credit)**

- LAS 100 - Introduction to Latin American Studies Credits: 1

**Two required courses in (6 credits) in history**

- HIST 271 - Survey of Latin American History Credits: 3
- HIST 272 - Survey of Latin American History Credits: 3

**Two social science courses (6 credits) related to Latin America chosen from:**

- ANTH 302 - Peoples and Cultures of Latin America Credits: 3
- ECON 361 - Economic Development of Latin America Credits: 3
- GGS 316 - Geography of Latin America Credits: 3
• GOVT 331 - Government and Politics of Latin America Credits: 3

One humanities course (3 credits) related to Latin America chosen from:

• ENGH 315 - Folklore and Folklife Credits: 3
• SPAN 322 - Introduction to Latin American Culture Credits: 3
• SPAN 325 - Major Hispanic Writers Credits: 3

One seminar course (3 credits):

• LAS 499 - Research Seminar in Latin American Studies Credits: 3

Four elective courses (12 credits) in Latin American studies

Students may satisfy the electives requirement with any course that contains a significant emphasis on Latin America or the culture, politics, sociology, or history of Latinos living in the United States. In addition, students are strongly encouraged to use an internship (LAS 490) or a study-abroad program to fulfill some of these credits. The electives must be approved by the director of the program.

Language requirement

All Latin American studies majors must demonstrate reading, speaking, or writing knowledge of Spanish or Portuguese by exam or achieving a minimum grade of 2.00 in a 300-level course in the language selected. Upper-level Latin American literature or culture courses taught in Spanish or Portuguese may be used to satisfy the electives requirement.

Total: 31 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated "writing intensive" in their major at the 300 level or above. Students majoring in Latin American studies should consult with the director for a course to fulfill this requirement.

Non-Degree

Latin American Studies Minor

Banner Code: LAS

Web: las.gmu.edu

Latin American Studies focuses on the diverse and connected regions, societies, and cultures of Latin America. Students find that combining this minor with a major in another discipline is particularly attractive to employers. Latin American studies enhances a major in Spanish or anthropology for a career in teaching or human rights work; a major in communication for a career in journalism; and a major in business for a career in the U.S. Foreign Service, other government agencies, or international commerce.

This program of study is offered by the Latin American Studies Program.
For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 18 credits of coursework with a minimum GPA of 2.0. Eight credits of course work must be unique to the minor.

One course (3 credits) chosen from:

- HIST 271 - Survey of Latin American History Credits: 3
- HIST 272 - Survey of Latin American History Credits: 3
- GOVT 331 - Government and Politics of Latin America Credits: 3

Five elective courses (15 credits)

Students may satisfy the electives with any course that contains a significant emphasis on Latin America or the culture, politics, sociology, or history of Latinos living in the United States. Students choose electives from courses offered by at least three different departments in consultation with the program director. Upper-level Latin American literature or culture courses taught in Spanish or Portuguese may be used to satisfy the requirement.

Language proficiency

Students minoring in Latin American studies must demonstrate reading, speaking, or writing knowledge of Spanish or Portuguese by exam or by achieving a minimum grade of 2.00 in a 300-level course in the language selected. Upper-level Latin American literature or culture courses taught in Spanish or Portuguese may be used to satisfy the electives requirement.

Total: 18 credits

Minors and Interdisciplinary Minors in Humanities and Social Sciences

The College of Humanities and Social Sciences has 59 minors, some of which are offered jointly with other units in the university. Minors require between 15 and 21 credits, and all but 8 of those credits can be used simultaneously to fill other requirements. The college encourages all students to declare a minor, if they can. A minor can complement the major, enhance career preparation, allow students to develop a secondary area of expertise, or give them a chance to explore a passion.

The college offers two types of minors: disciplinary and interdisciplinary. The coursework for disciplinary minors comes mainly from a single discipline. Disciplinary minors are offered by one of the 10 departments in the college.

Interdisciplinary minors require course work from two or more disciplines and are administered by interdepartmental faculty groups, often including faculty from across the university.

All minors in the college are available to students in any major in the university. For more information, see All about Minors.

For policies governing all minors, see the Academic Policies section of this catalog.

Disciplinary minors:
• Arabic Minor
• Anthropology
• American Government
• Art History
• Chinese
• Communication
• Criminology, Law and Society
• Economic Systems Design
• Economics
• Electronic Journalism
• English
• French
• German
• History
• International/Comparative Studies
• International Security
• Italian Studies
• Latin
• Neuroscience Minor
• Philosophy
• Psychology
• Public Policy and Management
• Religious Studies
• Russian
• Sociology
• Spanish
• Writing and Rhetoric Minor

Interdisciplinary minors:

• African and African American Studies
• Ancient Mediterranean Art and Archaeology
• Applied Conservation Studies (offered jointly with the College of Science)
• Asia-Pacific and Northeast Asian Studies
• Childhood Studies
• Classical Studies
• Consciousness and Transformation Minor
• Entrepreneurship Studies
• Film and Media Studies
• Folklore and Mythology
• Global Affairs
• Global Systems
• Immigration Studies
• Intelligence Analysis
• Islamic Studies
• Japanese Studies
• Judaic Studies
• Latin American Studies
• Leadership
Legal Studies
Linguistics
Middle East Studies
Multimedia
Native American and Indigenous Studies
Nonprofit Studies
Philosophy and Law
Political Philosophy
Sport and American Culture (offered jointly with the School of Recreation, Health, and Tourism)
Social Justice
Sport Communication (offered jointly with the School of Recreation, Health, and Tourism)
Sustainability (offered jointly with the College of Science)
Teaching English as a Second Language
Urban and Suburban Studies
Women and Gender Studies

Modern and Classical Languages

Phone: 703-993-1220
Web: mcl.gmu.edu

Faculty

Professors: Berroa, Gilbert, Ricouart, Winkler

Associate professors: Carreño-Rodríguez, Christensen (chair), Leeman, Levine, Rabin, Roman-Mendoza, Zhang

Assistant professors: Back, Beck, Husseiniali, Markx, Olson, Pichichero, Rogers, Serafini, So, Sun, Vivancos-Perez

Term assistant professors: Dudnik, Fujiwara, Gevorgyan, Mircea-Pines, Quintana, Sweet, Vasilyeva, Valdez, Vikis

Term instructors: Chen, Mulholland

Course Work

This department offers all course work designated ARAB, CHIN, CLAS, FREN, FRLN, GERM, GREE, HEBR, ITAL, JAPA, KORE, LATN, PERS, PORT, RUSS, SPAN, and TURK in the Courses section of this catalog.

Some courses are offered in English. Knowledge of a foreign language is not required.

General Education College-Level Requirements

The department offers a number of courses approved to fulfill university general education requirements. See General Education and College Requirements.

Language courses through the intermediate (200) level can be used to fulfill the college-level requirement in foreign languages for the bachelor of arts degree in the College of Humanities and Social Sciences and the College of Science. Other courses fulfill the college-level requirement in non-Western culture. See General Education and College Requirements.
Undergraduate Programs

The department offers a BA in foreign languages with concentrations in Chinese, French, and Spanish.

The concentration in Chinese enables students to become proficient in listening, speaking, reading, and writing Chinese while learning about Chinese literature, history, traditions, and culture. Students in this program are encouraged to study abroad or to do an internship. Students in Chinese are also encouraged to complete a double major.

The concentration in French is designed for students who want to increase their proficiency in French language and culture while learning about the history, politics, and economics of the many French-speaking countries around the world. Students can take a study abroad course or spend a summer in Paris or Quebec, earning credit towards their degree. They can participate in the many French-speaking activities sponsored by Mason's French Club.

The concentration in Spanish enables students to become proficient in speaking, reading, and writing Spanish while learning about Latin American, Latino and Spanish languages practices, literatures, histories, and cultures. Students are encouraged to do an internship or service learning project, where they can draw on their knowledge of Spanish and gain valuable work experience while working for social change in their communities. Students have many opportunities to study Spanish abroad for as little as a week and as long as a semester and at the same time, earn credit toward their degree.

All concentrations prepare students for teaching careers at the secondary school level, graduate study in languages, and research and professional work in government and private enterprise.

Faculty in the department participate in the interdisciplinary BA in Russian and Eurasian studies and the BA in Latin American studies.

Foreign Languages with a Second Major

Majors in foreign language are encouraged to complete a second major in another field. Students who want to pursue a second undergraduate major should plan a program of study in consultation with advisors from both degrees and be familiar with the relevant policies on more than one major. See the Academic Policies section of the catalog.

Comparative Literature Emphasis

The Department of Modern and Classical Languages participates in the BA in English with an emphasis in comparative literature. This program combines the study of literature in English with the study of one or more foreign literatures and with cross-cultural literary study. See the BA in English section of the catalog.

Minors

Language majors are encouraged to complete a minor in another field.

The department offers minors in Arabic, Chinese, French, German, Latin, Russian, Spanish, Classical Studies, Italian Studies, and Japanese Studies. They are available to students in any major at Mason. Except for Classical Studies, all the minors have as a prerequisite the completion of 250 (or equivalent) in the relevant language. See Minors and Interdisciplinary Minors in this section.

Graduate Programs

The department offers a distinctive interdisciplinary master's degree in foreign languages designed to meet the needs and interests of prospective and practicing teachers and other professionals. It also prepares students for doctoral study at other institutions.
Within the master’s degree, students choose one of four concentrations: French, Spanish, French and Spanish, and Spanish/bilingual-multicultural education.

Funding

The department has a limited number of teaching assistantships for highly qualified graduate students with excellent language preparation. Students develop valuable language teaching experience by working with faculty experts in language teaching pedagogy.

Bachelor of Arts

Foreign Languages, BA

Banner Code: LA-BA-FRLN

Web: mcl.gmu.edu

The BA in foreign languages prepares students for teaching careers at the secondary school level, graduate study in languages, and research and professional work in government and private enterprise.

Students who major in foreign languages are encouraged to complete a minor or, if possible, a second major in another field.

Students who want a double major in foreign language and another subject should plan a program of study in consultation with advisors from both disciplines and follow the steps outlined in the Academic Policies section of the catalog.

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog.

Degree Requirements

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in foreign languages must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences.

In addition, students must complete one concentration.

▲ Concentration in Chinese (CHIN)

As China continues to emerge from centuries of isolation, it is assuming a key role on the international scene—not only in business, politics and finance, but also in art, culture and science. This transformation directly involves one fifth of the world’s population and will have a profound impact, however indirectly, on the rest of humanity. China also will play a pivotal role in shaping the Earth’s environment. Chinese has been identified by the national security committee as one of the critical languages.

The concentration in Chinese prepares students for teaching careers at the secondary school level, graduate study in Chinese, and research and professional work in government and private enterprise. Language majors with Chinese concentration are encouraged to complete a minor or, if possible, a second major in another field.

Students pursuing the concentration in Chinese must complete a minimum of 30 credits in Chinese at the 300 level and above, each with a minimum grade of 2.00. Students are expected to complete a balanced program that includes courses in language, culture and civilization, and literature. Only two courses (6 credits) taught in English may be applied to the major. Students are highly encouraged to participate in study abroad.
Eight core courses (24 credits)

- CHIN 300 - Reading Skills Development Credits: 3
- CHIN 301 - Advanced Grammar and Syntax Credits: 3
- CHIN 305 - Chinese for the Business World Credits: 3
- CHIN 318 - Introduction to Classical Chinese Credits: 3
- CHIN 355 - Readings in Chinese Poetry and Poetics Credits: 3
- CHIN 365 - Readings in Chinese Fiction after Mao Credits: 3
- CHIN 480 - Fourth-Year Chinese I Credits: 3
- CHIN 481 - Fourth-Year Chinese II Credits: 3

Two elective courses (6 credits) chosen from:

With the approval of their advisor and the director, students may apply to this requirement relevant courses in anthropology (ANTH), art history (ARTH), government (GOVT), history (HIST), philosophy (PHIL), religious studies (RELI), and sociology (SOCI).

- CHIN 310 - Survey of Chinese Literature Credits: 3
- CHIN 311 - Modern Chinese Literature in Translation Credits: 3
- CHIN 320 - Contemporary Chinese Film Credits: 3
- CHIN 325 - Major Chinese Writers Credits: 3
- CHIN 328 - Asian American Women Writers Credits: 3
- CHIN 470 - Special Topics in Chinese Studies Credits: 3
- CHIN 490 - Internship in Chinese Studies Credits: 1-9

Total: 30 credits

▲ Concentration in French (FRN)

Students pursuing the concentration in French must complete a minimum of 33 credits in French at the 300 level and above, each with a minimum grade of 2.00. No more than one course (3 credits) conducted in English may be used to fulfill requirements for the concentration. Students are expected to complete a balanced program that includes courses in language, culture and civilization, and literature.

One advanced language course (6 credits)

- FREN 309 - Reading and Writing Skills Development Credits: 6

Two courses (6 credits) in literature and civilization

- FREN 370 - French Civilization, Culture, and Literature: Ancient Gaul to 1789 Credits: 3
- FREN 371 - French Civilization, Culture, and Literature: 1789 to the Present Credits: 3

Three courses (9 credits) in FREN at the 300-level or above

Four courses (12 credits) in FREN at the 400-level or above
Total: 33 credits

▲ Concentration in Spanish (SPN)

Students pursuing the concentration in Spanish must complete a minimum of 33 credits in Spanish courses at the 300-level and above, each with a minimum grade of 2.00. With approval of the department, one course taught in English (3 credits) may be applied toward the concentration.

One or two core courses (6 credits):

Choose from:
- SPAN 305 - Spanish in Context I Credits: 3
- SPAN 306 - Spanish in Context II Credits: 3
- SPAN 309 - Intensive Spanish in Context Credits: 6
- SPAN 315 - Spanish for Heritage Speakers Credits: 3 and one additional 3-credit course in Spanish (SPAN)

Three additional required courses (9 credits)

- SPAN 370 - Spanish Writing and Stylistics Credits: 3
- SPAN 385 - Introduction to Spanish Linguistics Credits: 3
- SPAN 390 - Introduction to Hispanic Literary Analysis Credits: 3

Four courses in Spanish at the 400 level (12 credits)

Two elective courses in Spanish (6 credits)

Choose from Spanish courses not specifically required or not used to fulfill another requirement.

Total: 33 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in foreign language may fulfill this requirement by successfully completing CHIN 480, FREN 309, or SPAN 370.

Master of Arts

Foreign Languages, MA

Banner Code: LA-MA-FRLN

Web: mcl.gmu.edu

This program meets the needs and interests of prospective and practicing teachers and other professionals, and prepares students for doctoral study at other institutions. The program offers four concentrations: French, Spanish, French and Spanish, and Spanish/bilingual-multicultural education.
This program of study is offered by the Department of Modern and Classical Languages.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the MA in foreign languages, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

Students who elect a concentration in one language must complete a program of 30 credits. Those who concentrate in two languages must complete a program of 42 credits. The concentration in Spanish/bilingual-multicultural education requires 36 credits. In all four concentrations, 6 of the total credits may be earned with a thesis. Regardless of the concentration selected, all students must meet the core and distribution requirements given below and pass a comprehensive exam or write a thesis.

▲ Concentration in French (FRN)

Students pursuing this concentration must complete 30 credits, with at least 18 credits earned in courses with the subject code FREN.

Two required courses in literature (6 credits)

Courses should be chosen in consultation with an advisor and cover two different literary periods or Francophone regions.

Two required courses in French language and linguistics (6 credits)

Courses should be chosen in consultation with an advisor.

Two required courses in French (6 credits)

Students choose two additional courses in French literature or language in consultation with an advisor.

Four elective courses (12 credits)

Students should choose electives in consultation with an advisor. A maximum of 6 credits may be used for directed reading and research or thesis.

- FREN 798 - Directed Reading and Thesis Research Credits: 3
- FREN 799 - Thesis Credits: 1-6

Total: 30 credits

▲ Concentration in Spanish (SPN)

Two required core courses (6 credits)

Students must take the core courses within their first 15 credits.
• SPAN 502 - Hispanic Sociolinguistics Credits: 3
• SPAN 510 - Introduction to the Graduate Study of Literature in Spanish Credits: 3

Three required courses (9 credits) in Spanish language and literature

• One course (3 credits) in the literature of Spain
• One course (3 credits) in the literature of Spanish America
• One course (3 credits) in Spanish language or Spanish linguistics

Five elective courses (15 credits)

Students choose electives in consultation with an advisor. They can include additional courses in Spanish language and literature, courses with the subject code FRLN, up to 6 credits of courses in related fields, and up to 6 credits of thesis. Students intending to go on for the PhD in linguistics or literature are strongly encouraged to pursue the thesis option. Independent studies courses are not available for graduate students of Spanish.

• SPAN 798 - Directed Reading and Research Credits: 3
• SPAN 799 - Thesis Credits: 1-6

Total: 30 credits

▲ Concentration in Spanish and French (SF)

Six courses in French (18 credits)

Students take the required courses (not electives) specified under the concentration in French.

Six courses in Spanish (18 credits)

Students take the required courses (not electives) specified under the concentration in Spanish, plus one elective in SPAN.

Two elective courses (6 credits)

Electives may include directed reading and research or thesis. Students who elect to complete a thesis may apply 6 credits of 798 and 799 to fulfill this requirement.

• FREN 798 - Directed Reading and Thesis Research Credits: 3
• SPAN 798 - Directed Reading and Research Credits: 3
• FREN 799 - Thesis Credits: 1-6
• SPAN 799 - Thesis Credits: 1-6

Total: 42 credits

▲ Concentration in Spanish/Bilingual-Multicultural Education (SBM)

Two required courses in Spanish (6 credits)
Students must take the core courses within their first 15 credits.

- SPAN 502 - Hispanic Sociolinguistics Credits: 3
- SPAN 510 - Introduction to the Graduate Study of Literature in Spanish Credits: 3

Four graduate courses in Spanish (12 credits)

- One course (3 credits) in the literature of Spain
- One course (3 credits) in the literature of Spanish America
- One course (3 credits) in Spanish language or Spanish linguistics
- One graduate course (3 credits) in a research field chosen by the student

Two bilingual education seminars (6 credits) chosen from:

- EDCI 516 - Bilingualism and Language Acquisition Research Credits: 3
- EDCI 519 - Methods of Teaching Multilingual Students Credits: 3
- EDCI 520 - Assessment of Language Learners Credits: 3
- EDCI 521 - Curriculum Development for Language Learners Credits: 3

Four elective courses (12 credits)

Students choose electives in consultation with an advisor. Electives may include directed reading and research or thesis. Students who elect to complete a thesis may apply 6 credits of 798 and 799 to fulfill this requirement.

- SPAN 798 - Directed Reading and Research Credits: 3
- SPAN 799 - Thesis Credits: 1-6

Total: 36 credits

Non-Degree

Arabic Minor

Banner Code: ARBC

The minor in Arabic has an emphasis on developing strong language skills: oral communication and the reading of texts. Students are also introduced to important works of Arabic literature and culture. A minor in Arabic can easily and effectively be combined with majors in other disciplines. It is especially valuable in combination with global affairs, international relations, security, journalism, philosophy, and religion.

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 18 credits beyond the intermediate proficiency level with a minimum grade of 2.00 in each course.
Three required courses (9 credits) chosen from:

- ARAB 330 - Reading and Conversation I Credits: 3
- ARAB 331 - Reading and Conversation II Credits: 3
- ARAB 350 - Media Arabic I (Written Media) Credits: 3
- ARAB 351 - Media Arabic II (Spoken Media) Credits: 3
- ARAB 390 - Translation Methods: Arabic to English Credits: 3

One 400-level language course (3 credits) chosen from:

- ARAB 420 - Survey of Arabic Literature Credits: 3
- ARAB 430 - Advanced Arabic Grammar Credits: 3
- ARAB 440 - Topics in Arabic Religious Thought and Texts Credits: 3

One additional ARAB course (3 credits)

Students chose any 300 or 400-level course taught in Arabic.

One course (3 credits) offered in English chosen from:

- ARAB 325 - Major Arab Writers/Stories Credits: 3
- ARTH 320 - Art of the Islamic World Credits: 3
- GOVT 332 - Government and Politics of the Middle East and North Africa Credits: 3
- GOVT 345 - Political Islam Credits: 3
- HIST 461 - Arab-Israeli Conflict Credits: 3
- HIST 462 - Women in Islamic Society Credits: 3
- HIST 465 - The Middle East in the 20th Century Credits: 3
- RELI 374 - Islamic Thought Credits: 3
- RELI 375 - Qur'an and Hadith Credits: 3

Total: 18 credits

Chinese Minor

Banner Code: CHIN

Web: chinese.gmu.edu

The minor in Chinese is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 18 credits beyond CHIN 250 (or equivalent) with a minimum grade of 2.00 in each course. Eight credits of coursework must be unique to the minor.
Three courses (9 credits) in language chosen from:

- CHIN 300 - Reading Skills Development Credits: 3
- CHIN 301 - Advanced Grammar and Syntax Credits: 3
- CHIN 305 - Chinese for the Business World Credits: 3
- CHIN 480 - Fourth-Year Chinese I Credits: 3
- CHIN 481 - Fourth-Year Chinese II Credits: 3

One course (3 credits) in literature taught in Chinese chosen from:

- CHIN 318 - Introduction to Classical Chinese Credits: 3
- CHIN 355 - Readings in Chinese Poetry and Poetics Credits: 3
- CHIN 365 - Readings in Chinese Fiction after Mao Credits: 3

Two courses (6 credits) chosen from either of the two groups above or from the courses below:

No more than one course taught in English may be applied to the minor.

- CHIN 310 - Survey of Chinese Literature Credits: 3
- CHIN 311 - Modern Chinese Literature in Translation Credits: 3
- CHIN 320 - Contemporary Chinese Film Credits: 3
- CHIN 470 - Special Topics in Chinese Studies Credits: 3
- ARTH 384 - Arts of China Credits: 3
- HIST 353 - History of Traditional China Credits: 3
- HIST 354 - Modern China Credits: 3
- HIST 358 - Post-1949 China Credits: 3
- RELI 314 - Chinese Philosophies and Religious Traditions Credits: 3

Total: 18 credits

Classical Studies Minor

Banner Code: CLA

Web: classicalstudies.gmu.edu

The minor in Classical studies is designed for students who wish to become familiar with Classical cultures and broaden their knowledge of the foundations of Western civilization. It is especially relevant to students who are studying other areas of the humanities such as English, languages, comparative literature, history, art history, philosophy, or religious studies. The requirements of the minor provide flexibility so students can choose courses that are relevant to their primary interests.

This program of study is an interdisciplinary minor offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work
Students pursuing this minor must complete 18 credits with a minimum grade of 2.00.

Two courses (6 credits) in Classics

One required course

- CLAS 250 - Classical Mythology Credits: 3

One elective course chosen from:

- CLAS 260 - The Legacy of Greece and Rome Credits: 3
- CLAS 340 - Greek and Roman Epic Credits: 3
- CLAS 350 - Greek and Roman Tragedy Credits: 3
- CLAS 360 - Greek and Roman Comedy Credits: 3
- CLAS 370 - Greek and Roman Historians Credits: 3
- CLAS 380 - Greek and Roman Novels Credits: 3
- CLAS 390 - Topics in Classical Literature and Culture Credits: 3

One course (3 credits) in Classical history chosen from:

- HIST 301 - Classical Greece Credits: 3
- HIST 302 - Classical Rome Credits: 3
- HIST 388 - Topics in European History Credits: 3 (when the topic deals with antiquity)
- HIST 480 - Alexander the Great Credits: 3

One course (3 credits) in Classical art history or Classical philosophy

Choose from the following:

- ARTH 321 - Greek Art and Archaeology Credits: 3
- ARTH 322 - Roman Art and Archaeology Credits: 3
- ARTH 333 - Early Christian and Byzantine Art Credits: 3
- ARTH 399 - Special Topics in the History of Art Credits: 3 (when the topic is relevant to Classical art history)
- ARTH 420 - Advanced Studies in Ancient Art Credits: 3
- PHIL 301 - History of Western Philosophy: Ancient Credits: 3

Two elective courses (6 credits)

Electives may be chosen from any of the courses above not used to fulfill another requirement for the minor.

Total: 18 credits

French Minor

Banner Code: FRN
This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 18 credits beyond FREN 250 (or equivalent) with a minimum grade of 2.00 in each course.

One advanced language course (6 credits)

- FREN 309 - Reading and Writing Skills Development Credits: 6

Two courses (6 credits) in literature and civilization chosen from:

- FREN 340 - Francophone Identities Credits: 3
- FREN 370 - French Civilization, Culture, and Literature: Ancient Gaul to 1789 Credits: 3
- FREN 371 - French Civilization, Culture, and Literature: 1789 to the Present Credits: 3

Two elective courses (6 credits) in FREN at the 300 level or above

FREN 325 and 329 cannot be used to fulfill this requirement. Students choose electives in consultation with an advisor. These courses must be conducted in French.

Total: 18 credits

German Minor

Banner Code: GRM

Web: german.gmu.edu

The emphasis of the minor in German is on developing strong language skills: oral communication and the reading of texts. Students are introduced to important works of German literature and to the culture of German-speaking countries.

A German minor can easily and effectively be combined with majors in other disciplines. It is especially valuable in combination with business, computer science, international studies, history, music, philosophy, or another language.

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 18 credits beyond GERM 250 (or equivalent) with a minimum grade of 2.00 in each course. A maximum of one course (3 credits) conducted in English can be applied to the minor.
Three language courses (9 credits) chosen from:

- GERM 310 - Conversation and Composition Credits: 3
- GERM 316 - German for the Business World Credits: 3
- GERM 318 - Translation of Texts Credits: 3
- GERM 415 - Advanced Grammar and Style Credits: 3
- GERM 418 - Advanced Composition Credits: 3

One genre or survey course (3 credits) chosen from:

- GERM 301 - Culture and Civilization Credits: 3
- GERM 325 - Major Writers Credits: 3
- GERM 340 - Survey of German Literature Credits: 3
- GERM 355 - Readings in Poetry Credits: 3
- GERM 365 - Readings in Narrative Prose Credits: 3
- GERM 375 - Readings in Drama Credits: 3

One period course (3 credits) chosen from:

- GERM 442 - The Age of Goethe Credits: 3
- GERM 444 - The Literature of Romanticism Credits: 3
- GERM 450 - Modern Literature: 1880-1925 Credits: 3
- GERM 451 - Modern Literature: 1925 to the Present Credits: 3
- GERM 480 - Special Topics Credits: 3

One German elective course (3 credits) at the 300 level or above

Total: 18 credits

Italian Studies Minor

Banner Code: ITLN

Web: mcl.gmu.edu

The minor in Italian studies enables students to advance their Italian language skills and to study Italian culture, history, and literature from an interdisciplinary perspective.

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 6 courses (18 credits) each with a minimum grade of 2.00 in each course. Eight credits of course work must be unique to the minor.
Special topics courses, such as HIST 388, GOVT 520, and RELI 235, when relevant, may be applied to the minor with prior written approval of the coordinator.

Three courses (9 credits) in Italian

- ITAL 330 - Advanced Italian: Language and Culture Credits: 3
- ITAL 331 - Advanced Italian Language and Culture Credits: 3
- ITAL 340 - Italian through Film Credits: 3 or ITAL 420 - Global and Local Italy Credits: 3

One course (3 credits) in Italian literature and film in translation chosen from:

- ITAL 320 - Topics in Italian Film and Literature Credits: 3
- ITAL 325 - Major Italian Writers Credits: 3

Two courses (6 credits) of electives chosen from:

- ARTH 340 - Early Renaissance Art in Italy, 1300-1500 Credits: 3
- ARTH 342 - High Renaissance Art in Italy, 1480–1570 Credits: 3
- HIST 304 - Western Europe in the Middle Ages Credits: 3
- HIST 305 - The Renaissance Credits: 3
- HIST 308 - Nineteenth-Century Europe Credits: 3
- HIST 309 - Europe in Crisis: 1914-1948 Credits: 3
- GOVT 324 - Modern Western Political Theory Credits: 3
- RELI 363 - Catholicism Credits: 3

Total: 18 credits

Japanese Studies Minor

Banner Code: JPNS

Web: japonesestudies.gmu.edu

The 18-credit minor in Japanese Studies enables students to advance their Japanese language skills and develop a sound understanding of Japanese culture and history from a global perspective.

Students who wish to declare a minor in Japanese studies need to obtain the signature of the director.

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete six courses (18 credits) with a minimum grade of 2.00. Eight credits of course work must be unique to the minor. Special topics courses, when relevant, may be applied to the minor with prior written approval of the director.
Students may choose to emphasize study of Japanese language or the history and culture of Japan when choosing their course work to complete the minor.

**Language emphasis (18 credits)**

Four courses (12 credits) in Japanese language chosen from:

- JAPA 330 - Advanced Reading and Speaking I Credits: 3
- JAPA 331 - Advanced Reading and Speaking II Credits: 3
- JAPA 350 - Readings in Japanese Culture Credits: 3
- JAPA 440 - Integrated Study of Japanese Language and Society I Credits: 3
- JAPA 441 - Integrated Study of Japanese Language and Society II Credits: 3

One course (3 credits) of Japanese and Japan-related history chosen from:

- HIST 251 - Survey of East Asian History Credits: 3
- HIST 252 - Survey of East Asian History Credits: 3
- HIST 356 - Modern Japan Credits: 3
- HIST 357 - Postwar Japan Credits: 3
- ARTH 385 - Arts of Japan Credits: 3

One elective course (3 credits) chosen from:

- ARTH 482 - Advanced Studies in Asian Art Credits: 3
- CHIN 328 - Asian American Women Writers Credits: 3
- GOVT 333 - Government and Politics of Asia Credits: 3
- GOVT 433 - Political Economy of East Asia Credits: 3
- JAPA 310 - Japanese Culture in a Global World Credits: 3
- JAPA 320 - Japanese Cinema Credits: 3
- JAPA 340 - Topics in Japanese Literature Credits: 3
- JAPA 350 - Readings in Japanese Culture Credits: 3 (if not used to fulfill the Japanese language requirement)
- RELI 212 - Religions of Asia Credits: 3
- RELI 315 - Buddhism Credits: 3

**Total: 18 credits**

**History and culture emphasis (18 credits)**

Two courses (6 credits) in Japanese language chosen from:

- JAPA 330 - Advanced Reading and Speaking I Credits: 3
- JAPA 331 - Advanced Reading and Speaking II Credits: 3
- JAPA 350 - Readings in Japanese Culture Credits: 3
- JAPA 440 - Integrated Study of Japanese Language and Society I Credits: 3
- JAPA 441 - Integrated Study of Japanese Language and Society II Credits: 3
Two courses (6 credits) in Japanese and Japan-related history chosen from:

- HIST 251 - Survey of East Asian History Credits: 3
- HIST 252 - Survey of East Asian History Credits: 3
- HIST 356 - Modern Japan Credits: 3
- HIST 357 - Postwar Japan Credits: 3
- ARTH 385 - Arts of Japan Credits: 3

Two elective courses (6 credits) chosen from:

- ARTH 482 - Advanced Studies in Asian Art Credits: 3
- CHIN 328 - Asian American Women Writers Credits: 3
- GOVT 333 - Government and Politics of Asia Credits: 3
- GOVT 433 - Political Economy of East Asia Credits: 3
- JAPA 310 - Japanese Culture in a Global World Credits: 3
- JAPA 320 - Japanese Cinema Credits: 3
- JAPA 340 - Topics in Japanese Literature Credits: 3
- JAPA 350 - Readings in Japanese Culture Credits: 3 (if not used to fulfill the Japanese language requirement)
- RELI 212 - Religions of Asia Credits: 3
- RELI 315 - Buddhism Credits: 3

Total: 18 credits

Latin Minor

**Banner Code: LATN**

Web: latin.gmu.edu

The minor in Latin offers students the opportunity to develop and refine their knowledge of the Latin language by reading classical Latin literature. Students gain an understanding and appreciation of the literature, culture, and intellectual achievements of Roman antiquity that have contributed to the development of Western civilization.

A Latin minor complements majors in literature, language, history, philosophy, and the arts, all of which find their roots in classical antiquity. Majors in the natural and the social sciences are also strengthened by the historical perspective and the advanced training in language and terminology afforded by the minor in Latin.

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies section of this catalog.

**Course Work**

Students pursuing this minor must complete 18 credits in Latin beyond the intermediate proficiency level with a minimum grade of 2.00 in each course.

**Six courses (18 credits)**
These courses vary in content and may be repeated for credit when content is different.

- LATN 351 - Roman Prose Literature Credits: 3
- LATN 352 - Roman Poetry Credits: 3
- LATN 451 - Studies in Roman Literature Credits: 3
- LATN 452 - Studies in Roman Literature Credits: 3

Total: 18 credits

**Russian Minor**

**Banner Code: RUS**

Web: russian.gmu.edu

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies section of the catalog.

**Course Work**

Students pursuing this minor must complete 18 credits beyond RUSS 250 (or equivalent) with a minimum grade of 2.00 in each course.

Three courses (9 credits) in language chosen from:

- RUSS 302 - Russian Conversation and Composition or RUSS 303 - Russian Advanced Conversation Credits: 3
- RUSS 380 - Advanced Russian I Credits: 3
- RUSS 381 - Advanced Russian II Credits: 3

One course (3 credits) in literature chosen from:

- RUSS 310 - Readings in Russian Literature Credits: 3
- RUSS 311 - Contemporary Russian Short Fiction Credits: 3

One course (3 credits) chosen from:

- RUSS 353 - Russian Civilization Credits: 3
- RUSS 354 - Contemporary Post-Soviet Life Credits: 3

One elective course (3 credits) at the 300 level or above

This course must be conducted in Russian.

Total: 18 credits
Spanish Minor

Banner Code: SPN

Web: spanish.gmu.edu

This program of study is offered by the Department of Modern and Classical Languages.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 18 credits beyond SPAN 250 (or equivalent) with a minimum grade of 2.00 in each course.

One or two courses (6 credits) in language:

- SPAN 305 - Spanish in Context I Credits: 3 and SPAN 306 - Spanish in Context II Credits: 3
- or
- SPAN 309 - Intensive Spanish in Context Credits: 6
- or
- SPAN 315 - Spanish for Heritage Speakers Credits: 3 and one elective course in Spanish Credits: 3

Two courses (6 credits)

One course (3 credits) in stylistics

- SPAN 370 - Spanish Writing and Stylistics Credits: 3

One course chosen from:

- SPAN 385 - Introduction to Spanish Linguistics Credits: 3
- SPAN 388 - Introduction to Latina/o Studies Credits: 3
- SPAN 390 - Introduction to Hispanic Literary Analysis Credits: 3

Two Spanish elective courses (6 credits) at the 300 or 400 level

These courses must be conducted in Spanish.

Total: 18 credits

New Century College

Phone: 703-993-1436
Web: ncc.gmu.edu
Faculty

Professor: O’Connor

Associate professors: Gabel, Garner, Gorski, Gring-Pemble (associate dean), Lucas, Muir, Smith, Wood, Wingfield

Assistant professors: Chen, Freeman, Gilmore, Mahatmya, Owen, Vitakova

Term assistant professors: Dunne, Fuertes, K. Scott, S. Scott, Smith, Wagner

Adjunct faculty: Carter, Giampa, Holder, Johnson, Kohr, Lennon, Lynch, Niedzwiecki, Saddler, Sweetman, Uy-Tioco

Administration

Lisa Gring-Pemble, Associate Dean
Kelly Dunne, Assistant Dean, Academic Affairs
Wendy Wagner, Director of the Center for Leadership and Community Engagement
Karen Misencik, Director of Experiential Learning
Teri Slick, Director of Student Services
Misty Hensley, Student Services Coordinator

Course Work

NCC offers all course work designated NCLC in the Courses section of this catalog.

About New Century College

An integral part of the College of Humanities and Social Sciences, New Century College (NCC) offers students a personalized, interdisciplinary education typical of a small liberal arts college within the context of a large public university. Drawing on its own faculty, which is enriched regularly with others from across the university, New Century provides a learning environment that integrates interdisciplinary knowledge with workplace and lifelong learning. The programs enhance students' technology skills, improve their writing, and provide them with challenging opportunities.

New Century College students interact closely with faculty; engage in critical thinking, problem solving, creative activity, and leadership development; and participate in experiential education in the form of internships, field studies, service learning, or study abroad. They learn to develop original ideas, engage in active and reflective learning, master competency areas, and conduct independent inquiry with high ethical standards. Both the structure and curriculum of New Century College respond to the needs of civic and corporate communities and provide instruction for a rapidly changing society.

Undergraduate Programs

New Century College offers a bachelor of arts and a bachelor of science degree in integrative studies. The curriculum is based on intensive, interdisciplinary learning communities, coordinated with traditional academic programs. The result is an integrated program of study that emphasizes collaboration, experiential learning, and self reflection.

All students complete their degree programs with an interdisciplinary concentration. See the programs of study below. Students develop mastery of eight essential competencies; communication, global understanding, group interaction, aesthetic awareness, critical thinking, civic engagement, digital literacy, and well-being.

Mason Cornerstones
New Century College offers an interdisciplinary first-year program known as Mason Cornerstones. Freshmen from many university majors may be invited to participate. Invitations are based on academic performance and other criteria.

Transfer Students

New Century College welcomes transfer students from other four-year institutions or community colleges, as well as from other academic units within Mason. Academic advisors work with students to best use transfer credits and provide a plan for timely completion of the bachelor’s degree. All transfer students are required to take NCLC 391 - Introduction to Integrative Studies within their first two semesters and meet with an academic advisor as soon as possible.

Minors

New Century College offers minors in childhood studies, consciousness and transformation, leadership studies, multimedia, nonprofit studies, and social justice. All are available to students in any major in the university. See Minors and Interdisciplinary Minors in this section.

The Sustainability Studies Minor is offered jointly by the Department of Environmental Science and Policy and New Century College. For details, see the Department of Environmental Science and Policy in the College of Science section of this catalog.

Centers

New Century College houses the Center for Consciousness Transformation, the Center for Field Studies, and the Center for Leadership and Community Engagement. The services of these centers are available to all students and faculty in the university.

Bachelor of Arts

Environmental and Sustainability Studies, BA

Banner Code: LA-BA-EVSS

Colleges: College of Humanities and Social Sciences and College of Science

Departments: New Century College and Environmental Science and Policy

The BA in environmental and sustainability studies is a joint program between two colleges and their departments (listed above).

This degree provides students with theoretical and practical knowledge of three aspects of environmental and sustainability studies: people, prosperity, and planet. In addition to required core courses, students develop more in-depth knowledge in one of four concentrations. This degree prepares students for employment and graduate study in fields related to social justice, business and public policy, and environmental protection as they relate to the environment and sustainability.

This has been designated a Green Leaf program. For further information, please go to Green Leaf Programs and Courses.

For policies governing all undergraduate degrees, see the Academic Policies section of the catalog.

Degree Requirements

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in environmental and sustainability studies must complete additional college requirements for the BA degree in
the College of Humanities and Social Sciences. Students pursuing this degree must complete 59 credits with a minimum grade of 2.00 in each course.

Of the credits required for this degree, 2 credits may simultaneously fulfill the experiential learning requirement and requirements of the concentration, 14 credits simultaneously fulfill core requirements for the major and general education requirements, and, depending on the concentration and electives chosen, up to 9 credits may simultaneously fulfill university general education requirements and college BA requirements.

**Twelve required core courses (42 credits)**

Core requirements satisfy university general education requirements in natural science (EVPP 110, 111) and the college BA requirement for social and behavioral science (GOVT 361).

**Three courses (11 credits) in environmental science and society**

Completion of these courses will satisfy the general education natural science requirement.

- EVPP 110 - The Ecosphere: An Introduction to Environmental Science I Credits: 4
- EVPP 111 - The Ecosphere: An Introduction to Environmental Science II Credits: 4
- EVPP 377 - Applied Ecology Credits: 3

**Two courses (7 credits) in individual and group behavior**

- EVPP 336 - Human Dimensions of the Environment Credits: 3
- NCLC 334 - Environmental Justice Credits: 4

**Three courses (9 credits) in business and public policy**

- ECON 105 - Environmental Economics for the Citizen Credits: 3
- EVPP 322 - Business and Sustainability Credits: 3
- EVPP 361 - Introduction to Environmental Policy Credits: 3 or GOVT 361 - Introduction to Environmental Policy Credits: 3 (satisfies the college BA requirement for social and behavioral science)

**One course (4 credits) in statistics**

- SOCI 313 - Statistics for the Behavioral Sciences Credits: 4

**Three courses (11 credits) in integration, analysis, innovation**

- NCLC 210 - Sustainable World Credits: 4
- EVPP 480 - Sustainability in Action Credits: 4
- NCLC 490 - Internship Credits: 1-6 (3 credits may be applied to this requirement.)

**Experiential learning (2 credits)**

Students must complete 2 credits of experiential learning through NCC or EVPP courses offering experiential learning credit, an additional internship, field studies, or study abroad. These credits may simultaneously be applied to the credits required for a concentration.
One Concentration (18-19 credits)

Students must complete one concentration.

▲ Concentration in Climate Change and Society (CCSO)

The requirements for this concentration, depending on the electives chosen, may satisfy the college BA requirement in philosophy and religious studies (PHIL 243, 343).

Three required courses (9-10 credits)

- CLIM 101 - Global Warming: Weather, Climate, and Society Credits: 3 or GGS 121 - Dynamic Atmosphere and Hydrosphere Credits: 4
- EVPP 432 - Energy Policy Credits: 3
- EVPP 436 - The Human Dimensions of Global Climate Change Credits: 3

9 credits chosen from:

- EVPP 362 - Intermediate Environmental Policy Credits: 3
- GGS 302 - Global Environmental Hazards Credits: 3
- GGS 304 - Populations Dimensions of Global Change Credits: 3
- GGS 309 - Meteorology and Climate Credits: 3
- GGS 312 - Physical Climatology Credits: 3
- GGS 314 - Severe and Extreme Weather Credits: 3
- GGS 322 - Issues in Global Change Credits: 3
- GGS 353 - Observations of the Earth and its Climate Credits: 3
- NCLC 220 - Energy and Environment Credits: 3-6
- NCLC 306 - Our Common Futures Credits: 3-6
- PHIL 243 - Global Environmental Ethics Credits: 3 (satisfies the college BA requirement in philosophy and religious studies)
- PHIL 343 - Topics in Environmental Philosophy Credits: 3 (satisfies the college BA requirement in philosophy and religious studies)

Total: 18-19 credits

▲ Concentration in Environmental Economics (EVEC)

The requirements for this concentration satisfy the university general education requirement in social and behavioral science (ECON 104) and, depending on the elective chosen, may fulfill the college BA requirement in non-Western culture (ECON 361 or 362).

Four required courses (12 credits)

Completion of these courses will satisfy the general education social and behavioral science requirement.

- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- ECON 306 - Intermediate Microeconomics Credits: 3
- EVPP 362 - Intermediate Environmental Policy Credits: 3
- EVPP 338 - Economics of Environmental Policy Credits: 3

6 credits chosen from:

- ECON 360 - Economics of Developing Areas Credits: 3
- ECON 361 - Economic Development of Latin America Credits: 3 (satisfies the college BA requirement in non-Western culture)
- ECON 362 - African Economic Development Credits: 3 (satisfies the college BA requirement in non-Western culture)
- EVPP 337 - Environmental Policy Making in Developing Countries Credits: 3
- GGS 305 - Economic Geography Credits: 3
- NCLC 306 - Our Common Futures Credits: 3-6

Total: 18 credits

▲ Concentration in Environmental Policy and Politics (EVPO)

The requirements for this concentration, depending on the electives chosen, may satisfy the college BA requirement in philosophy and religious studies (PHIL 243, 343).

Four required courses (12 credits)

- EVPP 338 - Economics of Environmental Policy Credits: 3
- EVPP 362 - Intermediate Environmental Policy Credits: 3
- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 132 - Introduction to International Politics Credits: 3

6 credits chosen from:

- EVPP 337 - Environmental Policy Making in Developing Countries Credits: 3
- EVPP 432 - Energy Policy Credits: 3
- GEOL 420 - Earth Science and Policy Credits: 3
- GGS 307 - Sustainable Development Credits: 3
- NCLC 220 - Energy and Environment Credits: 3-6
- NCLC 306 - Our Common Futures Credits: 3-6
- NCLC 331 - The Nonprofit Sector Credits: 4
- NCLC 402 - Plants and People - Sustenance, Ceremony, and Sustainability Credits: 6
- PHIL 243 - Global Environmental Ethics Credits: 3 (satisfies the college requirement for philosophy and religious studies)
- PHIL 343 - Topics in Environmental Philosophy Credits: 3 (satisfies the college requirement for philosophy and religious studies)

Total: 18 credits

▲ Concentration in Equity and Environmental Justice (EQEJ)

Four required courses (12 credits)
• EVPP 362 - Intermediate Environmental Policy Credits: 3
• EVPP 436 - The Human Dimensions of Global Climate Change Credits: 3
• NCLC 336 - Poverty, Wealth and Inequality in the US Credits: 3
• NCLC 337 - Social Justice Consciousness and Personal Transformation Credits: 3

6 credits chosen from:

• CONF 394 - Human Rights and Inequality Credits: 3
• EVPP 335 - People, Plants, and Culture Credits: 3
• GGS 304 - Populations Dimensions of Global Change Credits: 3
• GGS 307 - Sustainable Development Credits: 3
• GOVT 445 - Human Rights Credits: 3
• NCLC 304 - Social Movements and Community Activism Credits: 4
• NCLC 331 - The Nonprofit Sector Credits: 4
• NCLC 338 - Animal Rights and Humane Education Credits: 3
• NCLC 402 - Plants and People - Sustenance, Ceremony, and Sustainability Credits: 6
• SOCI 320 - Social Structure and Globalization Credits: 3
• SOCI 355 - Social Inequality Credits: 3

Total: 18 credits

Total: 62 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as "writing intensive" in their major at the 300 level or above. Students majoring in environmental and sustainability studies should consult an advisor to learn how to fulfill this requirement.

Integrative Studies, BA

Banner Code: LA-BA-INTS

Web: ncc.gmu.edu

The bachelor of arts degree program in integrative studies is based on intensive, interdisciplinary learning communities coordinated with traditional academic programs. The result is an integrated program of study that emphasizes collaboration, experiential learning, and self-reflection. The degree program requires mastery of eight essential competencies: communication, global understanding, group interaction, aesthetic awareness, critical thinking, civic engagement, digital literacy, and well-being.

This program of study is offered by New Century College.

Students in this degree program who are admitted to Mason Cornerstones complete university general education as specified below. They must complete Cornerstones and the 24 credits of learning communities with a minimum GPA of 2.00 in order to be able to use them to fulfill general education requirements.

• Completion of Mason Cornerstones: lower-level written communication (ENGH 101), oral communication, information technology, arts, natural science (non laboratory), global understanding, social and behavioral sciences, literature, and Western civilization
• Completion of 24 credits of learning communities: upper-level written communication (ENGH 302), writing intensive course, and synthesis
• Completion of coursework specifically approved for these requirements (in NCC or in other units): quantitative reasoning, natural science (with laboratory)

Students must fulfill all requirements for bachelor's degrees. Students who are not admitted to Mason Cornerstones need to complete the university general education requirements. Students who transfer into New Century College should consult with an advisor on what they need to take to complete university general education requirements.

This undergraduate program offers students in select concentrations the option of applying to the accelerated master's in curriculum and instruction (select concentrations). See Bachelor's/Accelerated Master's Programs for listings and specific requirements.

Degree Requirements

Learning communities (24 credits)

Learning communities are interdisciplinary courses that combine different subjects into a single course that is usually 3 or 6 credits. In learning communities, faculty and students explore various ways to understand a topic. Learning communities are structured to help promote a greater sense of identity with an academic community. Hallmarks of New Century College learning communities are team teaching, collaborative projects, emphasis on writing and critical thinking, and opportunity for independent study. They often include experiential learning, either as an integral part of the class or as an optional add on.

Experiential learning (12-24 credits)

The requirement in experiential learning reflects New Century College’s commitment to provide educational experiences that prepare graduates for the workplace and the demands of active and responsible citizenship. The workplace is as viewed as a site of instruction, one where students are exposed to the variety of skills needed to succeed. Through experiential learning, students combine work experience with academic study so that each will enrich the other.

Experiential learning includes internships, study abroad, community service learning, course field trips, and other field study opportunities. The learning sites may change each semester and are usually off campus. George Mason provides student liability insurance for the experiential learning internship, but students are responsible for their own transportation and health care. Accident and health insurance is available from George Mason.

No more than 24 credits of experiential learning can count toward a student’s total credits for graduation.

Electives (0-15 credits)

If students take courses that fulfill more than one degree requirement (e.g. learning communities, experiential learning, concentration, or general education), they may need to take additional electives to reach the total of 120 credits required for a BA degree.

Concentration (30-57 credits)

A concentration is the equivalent of a major in a traditional degree program. Students choose from an established interdisciplinary concentration below or create with faculty an individualized program of study to fit their interests and needs. The coursework for the concentration consists of traditional courses, learning communities, independent study and experiential learning. Where applicable, courses applied to a concentration can also be used to fulfill the credits required in learning communities or experiential learning. Students must present a minimum GPA of 2.00 in courses applied to the concentration.

The bachelor's degree in integrative studies offers the concentrations in the following:
• advertising
• childhood studies
• conservation studies
• early childhood education
• elementary education
• international studies
• language arts for education
• legal studies
• organizational administration
• social justice
• social science for education
• individualized concentration

▲ Advertising (ADV)

Students complete the following course work:

Ten required courses (minimum 30 credits)

• ACCT 203 - Survey of Accounting Credits: 3
• ECON 103 - Contemporary Microeconomic Principles Credits: 3
• MKTG 301 - Principles of Marketing Credits: 3
• MSOM 301 - Managing People and Organizations Credits: 3 or MGMT 301 - People and Organizations Credits: 3
• NCLC 202 - Public Speaking and Critical Thinking Skills Credits: 4 or COMM 230 - Case Studies in Persuasion Credits: 3
• MSOM 302 - Managing Information in a Global Environment Credits: 3 or MIS 301 - Introduction to Business Information Systems Credits: 3
• NCLC 249 - Digital Literacy Credits: 4 or AVT 180 - New Media in the Creative Arts Credits: 3
• COMM 202 - Media and Society Credits: 3
• MSOM 306 - Managing Projects and Operations Credits: 3 or SOM 301 - Business Models: A Communication Approach Credits: 3
• NCLC 245 - Visual Culture and Society Credits: 4 or AVT 204 - Visual Thinking Credits: 3

Two courses (6-10 credits) chosen from:

• ACCT 301 - Financial Accounting and Managerial Decision Making Credits: 3
• AVT 104 - Studio Fundamentals I Credits: 4
• AVT 280 - Introduction to New Media Arts Credits: 4
• BULE 302 - Legal Environment of Business Credits: 3
• COMM 157 - Video Workshop Credits: 1
• COMM 375 - Mass Communication Advertising and Promotions Credits: 3
• COMM 430 - Persuasion Credits: 3
• FNAN 301 - Financial Management Credits: 3
• GOVT 358 - Nonprofit Financial Planning Credits: 4
• MIS 301 - Introduction to Business Information Systems Credits: 3
• MSOM 300 - Managing Financial Resources Credits: 3
• MSOM 303 - Marketing in a Global Economy Credits: 3
• MSOM 304 - Entrepreneurship: Starting and Managing a New Enterprise Credits: 3
• MSOM 305 - Managing in a Global Economy Credits: 3
• NCLC 331 - The Nonprofit Sector Credits: 4
• NCLC 348 - Digital Futures Credits: 3 or 6
• NCLC 420 - Work Effectiveness Skills Credits: 3
• NCLC 423 - Management in the Global Marketplace Credits: 6
• NCLC 431 - Principles of Fund Raising Credits: 4
• NCLC 445 - Multimedia Design Credits: 5
• NCLC 449 - Multimedia Research and Project Development Credits: 4
• SPMT 412 - Sport Marketing and Finance Credits: 3
• WMST 100 - Representations of Women Credits: 3
• WMST 304 - Women and Media Credits: 3

Total: minimum 36 credits

▲ Childhood Studies (CHDS)

Students complete the following course work:

Seven required courses (minimum of 23 credits)

• NCLC 312 - Images and Experiences of Childhood: Social Construct, Literature, and Film Credits: 3-6
• NCLC 316 - Introduction to Childhood Studies Credits: 4
• NCLC 317 - Issues in Family Relationships Credits: 4
• PSYC 100 - Basic Concepts in Psychology Credits: 3
• PSYC 211 - Developmental Psychology Credits: 3
• PSYC 313 - Child Development Credits: 3
• STAT 250 - Introductory Statistics I Credits: 3 or SOCI 313 - Statistics for the Behavioral Sciences Credits: 4

Three courses (9-18 credits) chosen from:

• ANTH 315 - Socialization Processes: Family, Childhood, Personality in Cross-Cultural Perspective Credits: 3
• ENGH 452 - Critical Study of Children's Literature Credits: 3
• HEAL 330 - Nutrition Credits: 3
• HEAL 350 - Interventions for Populations and Communities at Risk Credits: 3
• NCLC 231 - Introduction to Community Studies Credits: 4
• NCLC 305 - Conflict Resolution and Transformation Credits: 6
• NCLC 310 - Violence and Gender Credits: 3-6
• NCLC 320 - Construction of Differences: Race, Class, and Gender Credits: 6
• NCLC 331 - The Nonprofit Sector Credits: 4
• NUTR 295 - Introduction to Nutrition Credits: 3
• NUTR 420 - Strategies for Nutrition Education Credits: 3
• NUTR 421 - Community Nutrition Credits: 3
• NUTR 422 - Nutrition throughout the Life Cycle Credits: 3
• NUTR 423 - Nutrition and Chronic Illnesses Credits: 3
• NUTR 466 - Nutrition and Weight Management: Obesity, Anorexia, and Bulimia Credits: 3
• PSYC 314 - Adolescent Development Credits: 3
- PSYC 324 - Personality Theory Credits: 3
- PSYC 325 - Abnormal Psychology Credits: 3
- PSYC 330 - Psychology of Adjustment Credits: 3
- SOCW 415 - Child and Family Welfare Credits: 3
- SOCW 423 - Social Work with Children and Adolescents Credits: 3
- SOCI 302 - Sociology of Delinquency Credits: 3
- SOCI 360 - Youth Culture and Society Credits: 3

Total: minimum 32 credits

▲ Conservation Studies (CNST)

Three to five core courses (15-16 credits) in conservation studies

Students may complete this requirement through regular coursework or through the Smithsonian-Mason Semester Program.

Regular Coursework

- NCLC 211 - Introduction to Conservation Studies Credits: 3-6 (take 6 credits)
- NCLC 401 - Conservation Biology Credits: 6
- EVPP 336 - Human Dimensions of the Environment Credits: 3

Smithsonian-Mason Semester Program

Students complete 16 credits offered through the Mason Center for Conservation Studies in cooperation with the Smithsonian Conservation Biology Institute. In this integrated series of courses, taken together in one semester, students live on site at the institute in Front Royal, VA. Students who apply this coursework to the concentration cannot also apply it to the minor in Applied Conservation Studies.

- CONS 320 - Conservation in Practice Credits: 3
- CONS 401 - Conservation Theory Credits: 3
- CONS 402 - Applied Conservation Credits: 4
- CONS 410 - Human Dimensions in Conservation Credits: 3
- CONS 490 - Integrated Conservation Strategies Credits: 3

Three courses (11 credits) on the environment

- EVPP 110 - The Ecosphere: An Introduction to Environmental Science I Credits: 4
- EVPP 111 - The Ecosphere: An Introduction to Environmental Science II Credits: 4
- EVPP 361 - Introduction to Environmental Policy Credits: 3

Two courses (8-12 credits) chosen from:

In addition to the courses below, NCLC 375, NCLC 395 and NCLC 398 may be applied to the concentration when the topic is relevant to conservation studies.

- NCLC 220 - Energy and Environment Credits: 3-6 (take 6 credits)
- NCLC 305 - Conflict Resolution and Transformation Credits: 6
- NCLC 307 - Narratives of Nature Credits: 6
- NCLC 308 - American Landscapes in Fiction, Film, and History Credits: 6
- NCLC 311 - The Mysteries of Migration: Consequences for Conservation Credits: 6
- NCLC 331 - The Nonprofit Sector Credits: 4
- NCLC 334 - Environmental Justice Credits: 4

Total: 34-39 credits

▲ Early Childhood Education (ECED)

- 6 credits of ENGH, including ENGH 101 or ENGH 302
- 3 credits of oral communication
- 9 credits of natural science (must include a lab science)
- 9 credits of MATH or STAT
- 3 credits of world history
- 3 credits of U.S. history
- 3 credits of ECON
- 3 credits of GGS
- 3 credits of ARTH, AVT, MUSI, or THR coursework
- 3 credits of PHIL, RELI, or FRLN coursework
- 3 credits of GOVT 103

Total: 45 credits

▲ Elementary Education (ELED)

- 9 credits of ENGH, including ENGH 101 or ENGH 302
- 3 credits of oral communication
- 12 credits of natural science
- 12 credits of mathematics or statistics
- 3 credits of ECON coursework
- 3 credits of U.S. history
- 3 credits of GGS coursework
- 3 credits of GOVT 103
- 3 credits of HIST 100 or HIST 125
- 3 credits of ARTH, AVT, MUSI, or THR coursework
- 3 credits of PHIL, RELI, or FRLN coursework
- 3 credits of Fine Arts

Total: 57 credits

▲ International Studies (INST)

Students complete the following course work:

Language proficiency
All students must demonstrate language proficiency at the intermediate level through coursework (a Mason course numbered 210) or proficiency testing.

One course in religious studies (3 credits) chosen from:

- RELI 100 - The Human Religious Experience Credits: 3
- RELI 211 - Religions of the West Credits: 3
- RELI 212 - Religions of Asia Credits: 3

One course in geography (3 credits) chosen from:

- GGS 101 - Major World Regions Credits: 3
- GGS 103 - Human Geography Credits: 3
- GGS 301 - Political Geography Credits: 3

One course in world history (3 or 6 credits) chosen from:

- NCLC 201 - The World Since 1945 Credits: 6
- HIST 125 - Introduction to World History Credits: 3
- HIST 130 - History of the Modern Global System Credits: 3
- ANTH 300 - Civilizations Credits: 3

One course in sustainability (4 or 6 credits) chosen from:

- NCLC 210 - Sustainable World Credits: 4
- NCLC 306 - Our Common Futures Credits: 3-6 (Students take 6 credits.)
- NCLC 334 - Environmental Justice Credits: 4

One course in politics (3 or 4 credits) chosen from:

- NCLC 422 - An Experiential Approach to American Foreign Policy Credits: 3-6 (Students take 4 credits.)
- ANTH 312 - Political Anthropology Credits: 3
- GOVT 322 - International Relations Theory Credits: 3

One course in conflict transformation (3 or 6 credits) chosen from:

- NCLC 314 - Conflict, Trauma and Healing Credits: 6
- NCLC 315 - Spirituality and Conflict Transformation Credits: 6
- NCLC 381 - When Cultural Worlds Collide Credits: 6
- NCLC 416 - Refugee and Internal Displacement Credits: 3

One course (3 credits) in creative arts chosen from:

- ARAB 325 - Major Arab Writers/Stories Credits: 3
- ARTH 320 - Art of the Islamic World Credits: 3
- ARTH 380 - African Art Credits: 3
- ARTH 382 - Arts of India Credits: 3
• ARTH 383 - Arts of Southeast Asia Credits: 3
• ARTH 384 - Arts of China Credits: 3
• ARTH 385 - Arts of Japan Credits: 3
• ARTH 386 - The Silk Road Credits: 3
• CHIN 325 - Major Chinese Writers Credits: 3
• DANC 118 - World Dance Credits: 3
• DANC 318 - Global Perspectives: World Dance Forms Credits: 3
• ENGH 362 - Global Voices Credits: 3
• ENGH 366 - The Idea of a World Literature Credits: 3
• ENGH 367 - World Literatures in English Credits: 3
• FREN 325 - Major French Writers Credits: 3
• FRLN 330 - Topics in World Literature Credits: 3
• GERM 325 - Major Writers Credits: 3
• MUSI 103 - Musics of the World Credits: 3
• NCLC 446 - Art, Beauty, and Culture Credits: 3-6 (Students take 3 credits.)
• RUSS 325 - Major Russian Writers Credits: 3
• THR 359 - World Stages Credits: 3
• SPAN 325 - Major Hispanic Writers Credits: 3

Three elective courses (9-12 credits)

Students take three additional courses focused on an international area of their interest with the advice and approval of an adviser.

Total: 31-43 credits

▲ Language Arts for Education (LAED)

Students complete the following course work:

Six required courses

• NCLC 202 - Public Speaking and Critical Thinking Skills Credits: 4 or COMM 100 - Public Speaking Credits: 3 or COMM 101 - Interpersonal and Group Interaction Credits: 3
• LING 306 - General Linguistics Credits: 3
• ENGH 307 - English Grammar Credits: 3 or LING 307 - English Grammar Credits: 3
• ENGH 308 - Introduction to Literary Theory Credits: 3 or ENGH 408 - Topics in Criticism Credits: 3 or ENGH 409 - Literary Modes Credits: 3
• ENGH 362 - Global Voices Credits: 3 or ENGH 366 - The Idea of a World Literature Credits: 3 or ENGH 367 - World Literatures in English Credits: 3
• One of the following courses: ENGH 101 - Composition Credits: 3, ENGH 302 - Advanced Composition Credits: 3, ENGH 382 - Writing Nonfiction Genres Credits: 3, ENGH 396 - Introduction to Creative Writing Credits: 3, ENGH 388 - Professional and Technical Writing Credits: 3, ENGH 486 - Writing Nonfiction for Publication Credits: 3

One course chosen from:

• ENGH 322 - Shakespeare Credits: 3
• ENGH 323 - Shakespeare Credits: 3
• ENGH 320 - Literature of the Middle Ages Credits: 3
• ENGH 321 - English Poetry and Prose of the 16th Century Credits: 3
• ENGH 325 - English Poetry and Prose of the 17th Century Credits: 3
• ENGH 330 - Augustan Age: 1660-1745 Credits: 3
• ENGH 334 - British Poetry of the Romantic Period Credits: 3
• ENGH 335 - Prose and Poetry of the Victorian Period Credits: 3
• ENGH 431 - Topics: British Literary Periods Credits: 3
• ENGH 421 - Medieval Literature in Context Credits: 3
• ENGH 324 - English Renaissance Drama Credits: 3
• ENGH 332 - Restoration and 18th Century Drama Credits: 3
• ENGH 339 - British and Irish Drama after 1900 Credits: 3
• ENGH 333 - British Novel of the 18th Century Credits: 3
• ENGH 336 - British Novel of the 19th Century Credits: 3
• ENGH 338 - British Novel after 1900 Credits: 3

One course chosen from:

• ENGH 315 - Folklore and Folklife Credits: 3
• ENGH 348 - Beginnings of African American Literature Through 1865 Credits: 3
• ENGH 350 - African American Literature Through 1946 Credits: 3
• ENGH 351 - Contemporary African American Literature Credits: 3
• ENGH 355 - Recent American Fiction Credits: 3
• ENGH 340 - Early American Literature Credits: 3
• ENGH 341 - Literature of the American Renaissance Credits: 3
• ENGH 442 - Topics: American Literary Periods Credits: 3
• ENGH 345 - American Drama of the 20th Century Credits: 3
• ENGH 343 - Development of the American Novel to 1914 Credits: 3
• ENGH 344 - Development of the American Novel since 1914 Credits: 3

Three elective courses (9 credits) in English

Courses used to fulfill this requirement cannot be applied to any of the other requirements for this concentration.

Total: 33-34 credits

▲ Legal Studies (LGLS)

Complete the following:

• NCLC 202 - Public Speaking and Critical Thinking Skills Credits: 4
• GOVT 103 - Introduction to American Government Credits: 3
• PHIL 173 - Logic and Critical Thinking Credits: 3
• GOVT 301 - Public Law and the Judicial Process Credits: 3
• PHIL 311 - Philosophy of Law Credits: 3
• BULE 302 - Legal Environment of Business Credits: 3

One course chosen from:
Four courses chosen from:

- Any undergraduate CRIM course
- Any CONF course
- COMM 100 - Public Speaking Credits: 3
- COMM 230 - Case Studies in Persuasion Credits: 3
- COMM 430 - Persuasion Credits: 3
- COMM 475 - Journalism Law Credits: 3
- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- ECON 310 - Money and Banking Credits: 3
- ECON 335 - Environmental Economics Credits: 3
- ECON 390 - International Economics Credits: 3
- ECON 415 - Law and Economics Credits: 3
- GOVT 307 - Legislative Behavior Credits: 3
- GOVT 420 - American Political Thought Credits: 3
- GOVT 423 - Constitutional Law: Civil Rights and Liberties Credits: 3
- GOVT 446 - International Law and Organization Credits: 3
- GOVT 452 - Administrative Law and Procedures Credits: 3
- NCLC 204 - Leadership Theory and Practice Credits: 3
- NCLC 304 - Social Movements and Community Activism Credits: 4
- NCLC 305 - Conflict Resolution and Transformation Credits: 6
- NCLC 335 - Ethics, Communication, and Freedom Credits: 3-6
- NCLC 420 - Work Effectiveness Skills Credits: 3
- PHIL 309 - Bioethics Credits: 3
- SOCI 301 - Criminology Credits: 3
- SOCI 302 - Sociology of Delinquency Credits: 3
- SOCI 471 - Prevention and Deterrence of Crime Credits: 3

Total: 34-42 credits

▲ Organizational Administration (OADM)

Complete the following:

- NCLC 202 - Public Speaking and Critical Thinking Skills Credits: 4 or COMM 320 - Business and Professional Communication Credits: 3 or COMM 335 - Organizational Communication Credits: 3
- PSYC 231 - Social Psychology Credits: 3 or SOCI 304 - The Future of Work Credits: 3
- NCLC 305 - Conflict Resolution and Transformation Credits: 6 or NCLC 420 - Work Effectiveness Skills Credits: 3
- MSOM 302 - Managing Information in a Global Environment Credits: 3 or MIS 301 - Introduction to Business Information Systems Credits: 3 or NCLC 348 - Digital Futures Credits: 6
- MSOM 303 - Marketing in a Global Economy Credits: 3 or MKTG 301 - Principles of Marketing Credits: 3 or NCLC 423 - Management in the Global Marketplace Credits: 6
Three courses chosen from:

- ACCT 301 - Financial Accounting and Managerial Decision Making Credits: 3
- BULE 302 - Legal Environment of Business Credits: 3
- COMM 300 - Foundations of Public Communication Credits: 3
- FNAN 301 - Financial Management Credits: 3
- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 300 - Research Methods and Analysis Credits: 4
- GOVT 308 - The American Presidency Credits: 3
- GOVT 318 - Interest Groups, Lobbying, and the Political Process Credits: 3
- GOVT 351 - Administration in the Political System Credits: 3
- GOVT 358 - Nonprofit Financial Planning Credits: 4
- HEAL 314 - Community Health Issues and Strategies Credits: 3
- HEAL 350 - Interventions for Populations and Communities at Risk Credits: 3
- HEAL 372 - Health Communication Credits: 3
- HEAL 430 - Seminar in Exercise Science and Health Promotion Credits: 3
- HEAL 450 - Epidemiology and Environmental Health Credits: 3
- HEAL 470 - Community Health Systems Credits: 3
- MIS 301 - Introduction to Business Information Systems Credits: 3
- NCLC 249 - Digital Literacy Credits: 4
- NCLC 305 - Conflict Resolution and Transformation Credits: 6
- NCLC 310 - Violence and Gender Credits: 3-6
- NCLC 330 - Enterprise Development Credits: 6 (take 3 credits)
- NCLC 331 - The Nonprofit Sector Credits: 4
- NCLC 379 - Cancer and Its Social Impact Credits: 4
- NCLC 410 - Contemporary Health Issues Credits: 3-18 (take 6 credits)
- NCLC 420 - Work Effectiveness Skills Credits: 3
- NCLC 431 - Principles of Fund Raising Credits: 4
- NCLC 440 - Death, Dying, and Decision Making Credits: 3
- PHED 200 - Professional Dimensions of Health, Recreation, and Physical Education Credits: 3
- PHIL 309 - Bioethics Credits: 3
- PRLS 310 - Program Planning and Design Credits: 3
- PSYC 231 - Social Psychology Credits: 3
- PSYC 324 - Personality Theory Credits: 3
- PSYC 418 - Death, Dying, and Grieving Credits: 3
- RELI 341 - Global Perspectives on Spirituality and Healing Credits: 3
- RELI 401 - Death and the Afterlife in World Religions Credits: 3
- SOCI 390 - Sociology of Health, Illness, and Disability Credits: 3
- SOCI 441 - The Sociology of Aging Credits: 3
- SOCW 351 - Social Policy and Social Justice Credits: 3
- TOUR 200 - Introduction to Travel and Tourism Credits: 3
- TOUR 312 - Ecotourism Credits: 3
- TOUR 330 - Resort Management Credits: 3
• TOUR 340 - Sustainable Tourism Credits: 3
• TOUR 352 - Heritage and Cultural Tourism Credits: 3
• TOUR 412 - Tourism and Events Marketing Credits: 3
• TOUR 440 - Meetings and Conventions Credits: 3

Total: 30-51 credits

▲Social Justice (SOCJ)

Students complete the following course work:

Core course (3 credits)

• NCLC 336 - Poverty, Wealth and Inequality in the US Credits: 3

Social construction of identity and oppression (minimum of 6 credits) chosen from:

• NCLC 320 - Construction of Differences: Race, Class, and Gender Credits: 6
• NCLC 347 - Gender Representation in Popular Culture Credits: 3-6
• NCLC 416 - Refugee and Internal Displacement Credits: 3
• SOCI 308 - Race and Ethnicity in a Changing World Credits: 3
• WMST 308 - Introduction to Lesbian, Gay, Bisexual, Transgender, Transsexual, and Queer Studies Credits: 3

Environmental and ecological justice (3-4 credits) chosen from:

• NCLC 334 - Environmental Justice Credits: 4
• NCLC 338 - Animal Rights and Humane Education Credits: 3

Peace building and conflict transformation (6 credits) chosen from:

• NCLC 305 - Conflict Resolution and Transformation Credits: 6
• NCLC 315 - Spirituality and Conflict Transformation Credits: 6
• NCLC 316 - Introduction to Childhood Studies Credits: 4

Activism and social change (7-8 credits) chosen from:

• NCLC 304 - Social Movements and Community Activism Credits: 4
• NCLC 337 - Social Justice Consciousness and Personal Transformation Credits: 3
• NCLC 346 - Art as Social Action Credits: 4
• NCLC 436 - Social Justice Education Credits: 4

Elective courses (12 credits) chosen from:

• ANTH 370 - Environment and Culture Credits: 3
• ANTH 488 - Gender, Sexuality, and Culture Credits: 3
• CONF 302 - Culture, Identity, and Conflict Credits: 3
- CONF 394 - Human Rights and Inequality Credits: 3
- CRIM 308 - Human Rights and Justice Credits: 3
- EVPP 436 - The Human Dimensions of Global Climate Change Credits: 3
- FRLN 385 - Multilingualism, Identity, and Power Credits: 3
- GOVT 445 - Human Rights Credits: 3
- NCLC 210 - Sustainable World Credits: 4
- NCLC 302 - Argument and Advocacy Credits: 6
- NCLC 310 - Violence and Gender Credits: 3-6
- NCLC 361 - Neighborhood, Community, and Identity Credits: 3-6
- NCLC 401 - Conservation Biology Credits: 6
- NCLC 435 - Leadership in a Changing Environment Credits: 4
- SOCI 307 - Social Movements and Political Protest Credits: 3
- SOCI 308 - Race and Ethnicity in a Changing World Credits: 3
- SOCI 320 - Social Structure and Globalization Credits: 3
- SOCI 355 - Social Inequality Credits: 3
- WMST 200 - Introduction to Women and Gender Studies Credits: 3
- WMST 308 - Introduction to Lesbian, Gay, Bisexual, Transgender, Transsexual, and Queer Studies Credits: 3

Total: minimum 37 credits

▲ Social Science for Education (SSED)

Complete the following:

- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- GGS 102 - Physical Geography Credits: 3
- GOVT 103 - Introduction to American Government Credits: 3
- HIST 121 - Formation of the American Republic Credits: 3
- HIST 125 - Introduction to World History Credits: 3 or HIST 130 - History of the Modern Global System Credits: 3
- HIST 391 - History of Virginia to 1800 Credits: 3 or HIST 392 - History of Virginia Since 1800 Credits: 3 or
  HIST 122 - Development of Modern America Credits: 3

9 credits of upper-division HIST coursework

6 credits of GGS coursework

15 credits chosen from:

- any GOVT course
- NCLC 302 - Argument and Advocacy Credits: 6
- NCLC 422 - An Experiential Approach to American Foreign Policy Credits: 3-6

Total: 51-52 credits

▲ Individualized Concentration (IND)
With approval of the assistant dean of academic affairs, students may construct an individualized concentration.

Total: minimum 30 credits

**Bachelor of Science**

**Integrative Studies, BS**

**Banner Codes:** LA-BS-INTS

Web: ncc.gmu.edu

The bachelor of science degree in integrative studies is based on intensive, interdisciplinary learning communities coordinated with traditional academic programs. The result is an integrated program of study that emphasizes collaboration, experiential learning, and self-reflection. The degree program requires mastery of eight essential competencies: communication, global understanding, group interaction, aesthetic awareness, critical thinking, civic engagement, digital literacy, and well-being.

This program of study is offered by New Century College.

Students in this degree program who are admitted to Mason Cornerstones complete university general education as specified below. They must complete Cornerstones and the 24 credits of learning communities with a minimum GPA of 2.00 in order to be able to use them to fulfill general education requirements.

- Completion of Mason Cornerstones: lower-level written communication (ENGH 101), oral communication, information technology, arts, natural science (non laboratory), global understanding, social and behavioral sciences, literature, and Western civilization
- Completion of 24 credits of learning communities: upper-level written communication (ENGH 302), writing-intensive course, and synthesis
- Completion of coursework specifically approved for these requirements: quantitative reasoning, natural science (with laboratory)

Students must fulfill all requirements for bachelor's degrees. Students who are not admitted to Mason Cornerstones need to complete the university general education requirements. Students who transfer into New Century College should consult with an advisor on what they need to take to complete university general education requirements.

**Degree Requirements**

**Learning communities (24 credits)**

Learning communities are interdisciplinary courses that combine subjects often taught in separate courses into a single course of 3-9 credits. In learning communities, faculty and students explore various ways to understand a topic. Learning communities are structured to help promote a greater sense of identity with an academic community. Hallmarks of New Century College learning communities are team teaching, collaborative projects, emphasis on writing and critical thinking, and opportunity for independent study. They often include experiential learning, either as an integral part of the class or as an optional add on.

**Experiential learning (12 credits)**

The requirement in experiential learning reflects New Century College’s commitment to provide educational experiences that prepare graduates for the workplace and the demands of active and responsible citizenship. The workplace is as viewed as a site of instruction, one where students are exposed to the variety of skills needed to succeed. Through experiential learning, students combine work experience with academic study so that each will enrich the other.
Experiential learning includes include internships, study abroad, community service learning, course field trips, and other field study opportunities. The learning sites may change each semester and are usually off campus. George Mason provides student liability insurance for the experiential learning internship, but students are responsible for their own transportation and health care. Accident and health insurance is available from George Mason.

No more than 24 credits of experiential learning can count toward a student’s total credits for graduation.

Electives (0-15 credits)

If students take courses that fulfill more than one degree requirement (e.g. Learning Communities, Experiential Learning, Concentration, or General Education), they may need to take additional electives to reach the total of 120 credits required for a BS degree.

Concentration (30-53 credits)

A concentration is the equivalent of a major in a traditional degree program. Students choose from an established interdisciplinary concentration below or create with faculty an individualized program of study to fit their interests and needs. The coursework for the concentration consists of traditional courses, learning communities, independent study, and experiential learning. Where applicable, courses applied to a concentration can also be used to fulfill the credits required in learning communities or experiential learning. Students must present a minimum GPA of 2.00 in courses applied to the concentration.

▲ Conservation Studies (CNST)

Three to five core courses (15-16 credits) in conservation studies

Students may complete this requirement through regular coursework or through the Smithsonian-Mason Semester Program.

Regular Coursework

- NCLC 211 - Introduction to Conservation Studies Credits: 3-6 (take 6 credits)
- NCLC 401 - Conservation Biology Credits: 6
- EVPP 336 - Human Dimensions of the Environment Credits: 3

Smithsonian-Mason Semester Program

Students complete 16 credits offered through the Mason Center for Conservation Studies in cooperation with the Smithsonian Conservation Biology Institute. In this integrated series of courses, taken together in one semester, students live on site at the institute in Front Royal, VA. Students who apply this coursework to the concentration cannot also apply it to the minor in Applied Conservation Studies.

- CONS 320 - Conservation in Practice Credits: 3
- CONS 401 - Conservation Theory Credits: 3
- CONS 402 - Applied Conservation Credits: 4
- CONS 410 - Human Dimensions in Conservation Credits: 3
- CONS 490 - Integrated Conservation Strategies Credits: 3

Four courses (17-18 credits) in biology and ecology

- BIOL 213 - Cell Structure and Function Credits: 4
• BIOL 308 - Foundations of Ecology and Evolution Credits: 5
• BIOL 310 - Biodiversity Credits: 5
• BIOL 311 - General Genetics Credits: 4 or BIOL 377 - Applied Ecology Credits: 3

One course in statistics (3-4 credits) chosen from:

• BIOL 312 - Biostatistics Credits: 4
• STAT 250 - Introductory Statistics I Credits: 3

Two additional courses (8-12 credits) chosen from:

In addition to the courses below, NCLC 375, 395, and 398 may be applied to the concentration when the topic is relevant to conservation studies.

• NCLC 220 - Energy and Environment Credits: 3-6 (take 6 credits)
• NCLC 305 - Conflict Resolution and Transformation Credits: 6
• NCLC 307 - Narratives of Nature Credits: 6
• NCLC 308 - American Landscapes in Fiction, Film, and History Credits: 6
• NCLC 311 - The Mysteries of Migration: Consequences for Conservation Credits: 6
• NCLC 331 - The Nonprofit Sector Credits: 4
• NCLC 334 - Environmental Justice Credits: 4

Total: 43-50 credits

▲ Life Sciences (LIFS)

Students must complete one of the following emphases.

Preoccupational therapy emphasis

• One SOCI course (3 credits)
• BIOL 124 - Human Anatomy and Physiology Credits: 4
• BIOL 125 - Human Anatomy and Physiology Credits: 4
• PHIL 151 - Introduction to Ethics Credits: 3 or PHIL 309 - Bioethics Credits: 3
• PSYC 100 - Basic Concepts in Psychology Credits: 3
• PSYC 211 - Developmental Psychology Credits: 3
• PSYC 325 - Abnormal Psychology Credits: 3
• STAT 250 - Introductory Statistics I Credits: 3

At least one course chosen from:

• NCLC 378 - Medicine, Justice, and Public Policy Credits: 3
• NCLC 379 - Cancer and Its Social Impact Credits: 4
• NCLC 410 - Contemporary Health Issues Credits: 3-18 (must take at least 4 credits)
• NCLC 440 - Death, Dying, and Decision Making Credits: 3

Emphasis Total: minimum 30 credits
Premedical emphasis

- BIOL 213 - Cell Structure and Function Credits: 4
- an additional 6 credits of BIOL
- CHEM 211 - General Chemistry Credits: 4
- CHEM 212 - General Chemistry Credits: 4
- CHEM 313 - Organic Chemistry Credits: 3 and CHEM 315 - Organic Chemistry Lab I Credits: 2
- CHEM 314 - Organic Chemistry Credits: 3 and CHEM 318 - Organic Chemistry Lab II Credits: 2
- MATH 110 - Introductory Probability Credits: 3 or MATH 113 - Analytic Geometry and Calculus I Credits: 4
- MATH 111 - Linear Mathematical Modeling Credits: 3 or MATH 114 - Analytic Geometry and Calculus II Credits: 4
- PHYS 243 - College Physics Credits: 3 and PHYS 244 - College Physics Lab Credits: 1
- PHYS 245 - College Physics Credits: 3 and PHYS 246 - College Physics Lab Credits: 1
- PHIL 151 - Introduction to Ethics Credits: 3 or PHIL 309 - Bioethics Credits: 3

Emphasis Total: 45-47 credits

Predental emphasis

- BIOL 103 - Introductory Biology I Credits: 4
- BIOL 213 - Cell Structure and Function Credits: 4
- CHEM 211 - General Chemistry Credits: 4
- CHEM 212 - General Chemistry Credits: 4
- CHEM 313 - Organic Chemistry Credits: 3
- CHEM 315 - Organic Chemistry Lab I Credits: 2
- CHEM 314 - Organic Chemistry Credits: 3
- CHEM 318 - Organic Chemistry Lab II Credits: 2
- CHEM 463 - General Biochemistry I Credits: 4
- CHEM 465 - Biochemistry Lab Credits: 2
- PHYS 103 - Physics and Everyday Phenomena I Credits: 4
  or PHYS 243 - College Physics Credit: 3 and PHYS 244 - College Physics Lab Credits: 1
- PHYS 104 - Physics and Everyday Phenomena II Credits: 4
  or PHYS 245 - College Physics Credits: 3 and PHYS 246 - College Physics Lab Credits: 1
- PHIL 151 - Introduction to Ethics Credits: 3 or PHIL 309 - Bioethics Credits: 3

Emphasis Total: 43 credits

Prepharmacy emphasis

- BIOL 103 - Introductory Biology I Credits: 4
- BIOL 213 - Cell Structure and Function Credits: 4
- CHEM 211 - General Chemistry Credits: 4
- CHEM 212 - General Chemistry Credits: 4
- CHEM 313 - Organic Chemistry Credits: 3
- CHEM 315 - Organic Chemistry Lab I Credits: 2
- CHEM 314 - Organic Chemistry Credits: 3
- CHEM 318 - Organic Chemistry Lab II Credits: 2
- MATH 113 - Analytic Geometry and Calculus I Credits: 4
- MATH 114 - Analytic Geometry and Calculus II Credits: 4
- PHIL 151 - Introduction to Ethics Credits: 3 or PHIL 309 - Bioethics Credits: 3
- PHYS 103 - Physics and Everyday Phenomena I Credits: 4
  or PHYS 243 - College Physics Credits: 3 and PHYS 244 - College Physics Lab Credits: 1
- PHYS 104 - Physics and Everyday Phenomena II Credits: 4
  or PHYS 245 - College Physics Credits: 3 and PHYS 246 - College Physics Lab Credits: 1
- STAT 250 - Introductory Statistics I Credits: 3

Emphasis Total: 48 credits

Prephysical therapy emphasis

- BIOL 103 - Introductory Biology I Credits: 4
- BIOL 124 - Human Anatomy and Physiology Credits: 4
- BIOL 125 - Human Anatomy and Physiology Credits: 4
- PSYC 100 - Basic Concepts in Psychology Credits: 3
- STAT 250 - Introductory Statistics I Credits: 3
- CHEM 103 - Chemical Science in a Modern Society Credits: 4 or CHEM 211 - General Chemistry Credits: 4
- CHEM 104 - Introduction to Organic, Biochemical, Pharmacological, and Fuel Chemistry Credits: 4 or CHEM 212 - General Chemistry Credits: 4
- PHIL 151 - Introduction to Ethics Credits: 3 or PHIL 309 - Bioethics Credits: 3
- PHYS 103 - Physics and Everyday Phenomena I Credits: 4
  or PHYS 243 - College Physics Credits: 3 and PHYS 244 - College Physics Lab Credits: 1
- PHYS 104 - Physics and Everyday Phenomena II Credits: 4
  or PHYS 245 - College Physics Credits: 3 and PHYS 246 - College Physics Lab Credits: 1
- PSYC 211 - Developmental Psychology Credits: 3 or PSYC 325 - Abnormal Psychology Credits: 3

Emphasis Total: 40 credits

Prephysician's assistant emphasis

- BIOL 124 - Human Anatomy and Physiology Credits: 4
- BIOL 125 - Human Anatomy and Physiology Credits: 4
- BIOL 213 - Cell Structure and Function Credits: 4
- BIOL 246 - Introductory Microbiology Credits: 3
- BIOL 313 - Human Genetics for the Social Sciences Credits: 3
- CHEM 211 - General Chemistry Credits: 4
- CHEM 212 - General Chemistry Credits: 4
- CHEM 313 - Organic Chemistry Credits: 3
- CHEM 315 - Organic Chemistry Lab I Credits: 2
- CHEM 463 - General Biochemistry I Credits: 4
- CHEM 465 - Biochemistry Lab Credits: 2
- PSYC 100 - Basic Concepts in Psychology Credits: 3
- PSYC 211 - Developmental Psychology Credits: 3
- STAT 250 - Introductory Statistics I Credits: 3
- PHIL 151 - Introduction to Ethics Credits: 3 or PHIL 309 - Bioethics Credits: 3

Emphasis Total: 49 credits
Total: 30-49 credits

▲ Natural Science for Education (NSED)

Required science courses (19 credits)

- any PHYS course (at least 3 credits)
- BIOL 103 - Introductory Biology I Credits: 4 or BIOL 104 - Introductory Biology II Credits: 4
- CHEM 211 - General Chemistry Credits: 4
- CHEM 212 - General Chemistry Credits: 4
- GEOL 101 - Introductory Geology I Credits: 4

One analytical reasoning course (3-4 credits) chosen from:

- MATH 106 - Quantitative Reasoning Credits: 3
- MATH 113 - Analytic Geometry and Calculus I Credits: 4
- MATH 114 - Analytic Geometry and Calculus II Credits: 4
- MATH 213 - Analytic Geometry and Calculus III Credits: 3
- MATH 214 - Elementary Differential Equations Credits: 3
- STAT 250 - Introductory Statistics I Credits: 3

Six additional science courses (20-30 credits) chosen from:

- ASTR 111 - Introductory Astronomy: The Solar System Credits: 3 and ASTR 112 - Introductory Astronomy Lab: The Solar System Credits: 1
- ASTR 113 - Introductory Astronomy: Stars, Galaxies, and the Universe Credits: 3 and ASTR 114 - Introductory Astronomy Lab: Stars, Galaxies, and the Universe Credits: 1
- BIOL 124 - Human Anatomy and Physiology Credits: 4
- BIOL 125 - Human Anatomy and Physiology Credits: 4
- BIOL 213 - Cell Structure and Function Credits: 4
- BIOL 308 - Foundations of Ecology and Evolution Credits: 5
- BIOL 310 - Biodiversity Credits: 5
- CHEM 313 - Organic Chemistry Credits: 3 and CHEM 315 - Organic Chemistry Lab I Credits: 2
- CHEM 314 - Organic Chemistry Credits: 3 and CHEM 318 - Organic Chemistry Lab II Credits: 2
- CHEM 321 - Elementary Quantitative Analysis Credits: 4
- CHEM 331 - Physical Chemistry I Credits: 3 and CHEM 336 - Physical Chemistry Lab I Credits: 2
- CHEM 332 - Physical Chemistry II Credits: 3 and CHEM 337 - Physical Chemistry Lab II Credits: 2
- CHEM 341 - Fundamental Inorganic Chemistry Credits: 3
- GEOL 102 - Introductory Geology II Credits: 4
- GEOL 309 - Introduction to Oceanography Credits: 3
- GGS 102 - Physical Geography Credits: 3
- GGS 309 - Meteorology and Climate Credits: 3

Total: 42-53 credits

▲ Individualized Concentration (IND)
With approval of the assistant dean of academic affairs, students may construct an individualized concentration.

Total: 30 credits (minimum)

**Bachelor/Accelerated Master's**

**Integrative Studies, BA (Elementary Education Concentration)/Curriculum and Instruction, Accelerated MEd (Elementary Education Concentration)**

Highly-qualified undergraduates may be admitted to a Bachelor's/Accelerated Master's program and obtain both a BA in Integrative Studies, Elementary Education Concentration and an MEd in Curriculum and Instruction, Elementary Education Concentration in an accelerated time frame after satisfactory completion of 153 credits.

This program of study is offered jointly by New Century College and the Graduate School of Education in the College of Education and Human Development.

For policies governing all master's degrees, see Academic Policies.

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Admissions. For information specific to this accelerated master's program, see Application Requirements and Deadlines on the College of Education and Human Development website.

**Degree Requirements**

Students complete the following courses in their senior year:

EDUC 542 - Foundations of Education (to be taken in the Fall semester)

EDUC 543 - Children, Family, Culture, and Schools, 4-12 Year Olds (to be taken in the Fall semester)

EDCI 555 - Literacy Teaching and Learning in Diverse Elementary Classrooms I (to be taken in the Spring semester)

EDCI 544 - Curriculum and Methods of Teaching in Elementary Education (to be taken in the Spring semester)

While undergraduate students, accelerated master's students are able to apply two of the courses listed above to both the Bachelor's and Master's degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor's/Accelerated Master's Transition Form and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.
Integrative Studies, BA (Social Science for Education Concentration)/Curriculum and Instruction, Accelerated MEd (Secondary Education History and Social Science Concentration)

Highly qualified Mason undergraduates may be admitted to a Bachelor's/Accelerated Master's program and obtain both a BA in Integrative Studies, Social Science for Education Concentration and an MEd in Curriculum and Instruction, Secondary Education History and Social Science Concentration in an accelerated time frame after satisfactory completion of 149 credits.

This program of study is offered jointly by New Century College and the Graduate School of Education in the College of Education and Human Development.

For policies governing all graduate degrees, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Admissions. For information specific to this accelerated master's program, see Application Requirements and Deadlines on the College of Education and Human Development web site.

Degree Requirements

Students complete the following courses in their senior year:

- EDCI 567 - Teaching Social Studies in the Secondary School (to be taken in the Fall semester)
- EDUC 672 - Human Development and Learning: Secondary Education (to be taken in the Fall semester)
- EDCI 667 - Advanced Methods of Teaching Social Sciences in the Secondary School (to be taken in the Spring semester)
- EDRD 619 - Literacy in Content Areas (to be taken in the Spring semester)

While undergraduate students, accelerated master's students are able to apply two of the courses listed above to both the Bachelor's and Master's degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor's/Accelerated Master's Transition Form and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

Non-Degree

Applied Conservation Studies Minor

Banner Code: CONS

Web: smconservation.gmu.edu

The minor in applied conservation studies is designed for undergraduate students who wish to augment their main academic program with conservation studies taught in an experiential manner. There are two options by which students can complete the minor: the Semester whose focus is on "Applied Conservation Strategies" or the Semester that focuses on "Ecology on Effective Conservation Practice". Both Semesters are grounded in natural science, and offer a collection of five interdisciplinary courses
that combine public policy, sociology, conflict resolution, and global awareness with hands-on experience. Students are in residence at the Smithsonian Conservation Biology Institute in Front Royal, Virginia, and are taught by Mason faculty, Smithsonian scientists and practitioners.

The minor is available only to students who enroll in either of the Smithsonian Mason Semesters, semester-long residential programs held at the Smithsonian Conservation Biology Institute in Front Royal, VA. The Semesters are offered jointly by the College of Humanities and Social Sciences and the College of Science under the auspices of the Smithsonian-Mason School of Conservation. For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete either of the options described below with a minimum grade of 2.00 in each course.

Applied Conservation Strategies option (16 credits)

Students complete five required courses.

- CONS 320 - Conservation in Practice Credits: 3
- CONS 401 - Conservation Theory Credits: 3
- CONS 402 - Applied Conservation Credits: 4
- CONS 410 - Human Dimensions in Conservation Credits: 3
- CONS 490 - Integrated Conservation Strategies Credits: 3

Ecology for Effective Conservation Practice option (16 credits)

Students complete five required courses.

- CONS 320 - Conservation in Practice Credits: 3
- CONS 403 - Ecology and Conservation Theory Credits: 3
- CONS 404 - Monitoring and Assessment of Biodiversity Credits: 4
- CONS 411 - Science Communication for Conservation Credits: 3
- CONS 491 - Comprehensive Conservation Planning Credits: 3

Total: 16 credits

Consciousness and Transformation Minor

Banner Code: CNTR

Web: ncc.gmu.edu

Faculty

Fuertes, Guenther, Lynch, Studd, Thurston (director)

The interdisciplinary minor in consciousness and transformation provides students with a well-grounded understanding of the nature of human consciousness, including both the historical foundations and modern research findings. Through the required coursework, students develop an ability to implement personal practices that foster deeper self-awareness, the regulation of stress
factors in his or her life, and an emerging sense of meaning for his or her life. Students will be learn to creatively and effectively apply principles from the exploration of consciousness and transformation to his or her own field of study.

This program of study is offered by New Century College.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students must have a minimum grade of 2.00 in each course applied to the minor.

Two core courses (6 credits)

- NCLC 355 - Consciousness, Meaning and Life Purpose Credits: 3
- NCLC 455 - Consciousness and Transformation in Action Credits: 3

Two to three electives courses (minimum 9 credits) chosen from:

- ANTH 400 - Engaging the World: Anthropological Perspectives Credits: 3
- AVT 204 - Visual Thinking Credits: 3
- COMM 305 - Foundations of Intercultural Communication Credits: 3
- GCH 350 - Health Education Credits: 3
- MUSI 401 - Impact of the Arts on Civilization Credits: 3
- NCLC 305 - Conflict Resolution and Transformation Credits: 6
- NCLC 315 - Spirituality and Conflict Transformation Credits: 6
- NCLC 346 - Art as Social Action Credits: 4
- NCLC 404 - Ethics and Leadership Credits: 4
- NCLC 435 - Leadership in a Changing Environment Credits: 4
- NCLC 446 - Art, Beauty, and Culture Credits: 3-6
- PHIL 378 - Reason, Science and Faith in the Modern Age Credits: 3
- PRLS 300 - People with Nature Credits: 3
- RELI 337 - Mysticism: East and West Credits: 3
- RELI 341 - Global Perspectives on Spirituality and Healing Credits: 3
- THR 395 - Theater as the Life of the Mind Credits: 3
- UNIV 442 - Krasnow Seminar Credits: 3

Total: 15 credits

Leadership Minor

Banner Code: LSHP

Web: ncc.gmu.edu

Faculty

Holder, Lucas, Owen (director), Wagner
The interdisciplinary minor in leadership prepares students for transformative leadership in campus, local, national, and global contexts. Interdisciplinary and integrative classes examine leadership from multiple perspectives and disciplines, offering an understanding of socially-responsible leadership with an emphasis on community action. Through the required coursework and experiential learning, students critically examine diverse theories, research, and perspectives on leadership and are encouraged to explore topics such as social change and globalization, creative conflict resolution, the nature of power, oppression and influence, innovation, and systemic leadership. Civic engagement and multicultural competence are viewed as necessary requirements for leadership. The NCC Leadership Minor is open to students in all academic programs, schools, and majors.

The minor in leadership may be pursued concurrently with any undergraduate major.

This program of study is offered by New Century College.

For policies governing all minors, see Academic Policies.

Course Work

Students pursuing this minor must complete a minimum of 15 credits of coursework with a minimum GPA of 2.0. Eight credits of course work must be unique to the minor.

Three required core courses (11 credits)

- NCLC 204 - Leadership Theory and Practice Credits: 3
- NCLC 404 - Ethics and Leadership Credits: 4
- NCLC 435 - Leadership in a Changing Environment Credits: 4

One course (at least 1 credit) of experiential learning

This requirement may be fulfilled through an approved internship, community service course, or other course work that includes experiential learning. This may include offerings under NCLC 195, 395, or UNIV 300. Students need prior written approval of the director of the minor to apply an experiential learning course to this requirement.

At least one elective course (3 to 4 credits) chosen from:

Other courses may be applied to the this requirement with prior written approval of the director.

- AVT 309 - Art as Social Action Credits: 3
- NCLC 346 - Art as Social Action Credits: 4
- AVT 370 - Entrepreneurship in the Arts Credits: 4
- CONF 300 - Conflict Resolution Techniques and Practice Credits: 3
- EDUC 303 - Politics of American Education Credits: 3
- EVPP 361 - Introduction to Environmental Policy Credits: 3
- FNAN 401 - Advanced Financial Management Credits: 3
- GOVT 430 - Comparative Political Leadership Credits: 3
- HEAL 323 - Program Leadership and Evaluation Credits: 3
- NURS 436 - Leadership and Management of Health Care Credits: 3
- IT 304 - IT in the Global Economy Credits: 3
- MGMT 413 - Organizational Development and Management Consulting Credits: 3
- MIS 435 - Knowledge Management Credits: 3
- MKTG 471 - Marketing Management Credits: 3
• MLSC 300 - Applied Leadership I Credits: 0 or 1
• MLSC 400 - Leadership and Management Credits: 3
• MLSC 402 - Leadership and Ethics Credits: 3
• MSOM 301 - Managing People and Organizations Credits: 3
• MSOM 302 - Managing Information in a Global Environment Credits: 3
• MSOM 305 - Managing in a Global Economy Credits: 3
• MSOM 306 - Managing Projects and Operations Credits: 3
• PRLS 316 - Outdoor Education and Leadership Credits: 3
• PSYC 231 - Social Psychology Credits: 3
• PSYC 333 - Industrial and Organizational Psychology Credits: 3
• SOCI 307 - Social Movements and Political Protest Credits: 3
• TOUR 330 - Resort Management Credits: 3

Total: 15-16 credits

Multimedia Minor

Banner Code: MM

Phone: 703-993-4318

Faculty

Chung, Higgins, Lont, Martin, O’Connor, L. Smith (director), Weinberger, White

In the multimedia minor, students learn how to create original work and communicate with others through the fusion of images, text, sound, and video. Students analyze and incorporate into their productions contemporary design principles and current software applications. As part of this process, students are encouraged to focus on how multimedia technologies, which offer new tools for investigating and disseminating ideas, can enhance undergraduate research and writing. These skills, now important in most academic disciplines, are also increasingly valuable not only in the specialized information technology industries, but also in business, education, and politics.

This minor is not available to students majoring in AVT with a concentration in digital arts.

This program of study is an interdisciplinary minor offered by New Century College.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete at least 18 credits of coursework with a minimum GPA of 2.00.

Core courses (8-9 credits):

Two courses (5 credits)

• AVT 104 - Studio Fundamentals I Credits: 4
• COMM 157 - Video Workshop Credits: 1 or NCLC 195 - Field-Based Work Credits: 1
One course (3-4 credits) chosen from:

- AVT 180 - New Media in the Creative Arts Credits: 3
- NCLC 249 - Digital Literacy Credits: 4

Elective courses (9-11 credits)

No more than six credits can be taken in any one college or department.

- AVT 280 - Introduction to New Media Arts Credits: 4
- AVT 382 - 2D Experimental Animation Credits: 4
- COMM 355 - Video Principles and Practices Credits: 3
- COMM 360 - Video Editing Credits: 3
- COMM 435 - Computers and Communication Credits: 3
- NCLC 345 - Introduction to Multimedia Credits: 5
- ENGH 376 - Rhetoric and New Media or NCLC 343 - Interactive Digital Texts Credits: 3
- ENGH 377 - Digital Creative Writing Credits: 3
- ENGH 497 - Topics in Creative Writing Credits: 3
- NCLC 348 - Digital Futures Credits: 3 or 6
- NCLC 349 - Writing for Multimedia Credits: 4
- NCLC 445 - Multimedia Design Credits: 5

Total: 18-20 credits

Nonprofit Studies Minor

Banner Code: NPS

Web: ncc.gmu.edu

Faculty

Benjamin, Sacco, Toepler, Wagner (director)

Nonprofit organizations significantly contribute to the provision of human services, access to the arts, education, recreation and health care, and protection of the environment. Effective nonprofit organizations provide direct services, influence public policy and build a civil society. The interdisciplinary minor in nonprofit studies is designed to introduce students to the theoretical foundations and practical skills needed to be successful in this sector. Through heavy emphasis on experiential learning with the many excellent nonprofit organizations in our region, students learn to apply theory within the context of today's complex and rapidly changing environment.

This program of study is offered by New Century College.

For policies governing all minors, see Academic Policies.

Course Work

Students pursuing this minor must complete 15 credits of coursework with a minimum GPA of 2.0
Three core courses (11-12 credits)

Two required core courses (8 credits)

These courses are approved by New Century College to earn experiential learning credits.

- NCLC 331 - The Nonprofit Sector Credits: 4
- NCLC 431 - Principles of Fund Raising Credits: 4

One additional course (3-4 credits) chosen from:

- COMM 389 - Public Relations for Associations and Nonprofits Credits: 3
- GOVT 358 - Nonprofit Financial Planning Credits: 4
- NCLC 435 - Leadership in a Changing Environment Credits: 4

Elective courses (3-4 credits) chosen from:

NCLC 304, 390, and 490 are approved by New Century College to earn experiential learning credits.

- AVT 370 - Entrepreneurship in the Arts Credits: 4
- COMM 335 - Organizational Communication Credits: 3
- COMM 389 - Public Relations for Associations and Nonprofits Credits: 3 (if not taken as required course)
- CONF 101 - Conflict and Our World Credits: 3
- CONF 300 - Conflict Resolution Techniques and Practice Credits: 3
- ECON 309 - Economic Problems and Public Policies Credits: 3
- GOVT 358 - Nonprofit Financial Planning Credits: 4
- MSOM 301 - Managing People and Organizations Credits: 3
- NCLC 210 - Sustainable World Credits: 4
- NCLC 211 - Introduction to Conservation Studies Credits: 3-6
- NCLC 304 - Social Movements and Community Activism Credits: 4
- NCLC 305 - Conflict Resolution and Transformation Credits: 6
- NCLC 340 - Progress: Can America Figure Out What It Means? Credits: 3-6
- NCLC 375 - Special Topics Credits: 1-18 (when the topic is relevant with prior written approval of the director)
- NCLC 390 - Internship Credits: 1-6 (when the topic is relevant with prior written approval of the director)
- NCLC 410 - Contemporary Health Issues Credits: 3-18
- NCLC 422 - An Experiential Approach to American Foreign Policy Credits: 3-6
- NCLC 435 - Leadership in a Changing Environment Credits: 4 (if not taken as required course)
- NCLC 490 - Internship Credits: 1-6 (when the topic is relevant with prior written approval of the director)
- PSYC 427 - Community Engagement for Social Change Credits: 3
- SOCI 492 - Sociology of Organizations Credits: 3
- SOCW 483 - Selected Approaches to Social Work Intervention Credits: 3
- TOUR 220 - Introduction to Event Management Credits: 3

Total: 15 credits

Social Justice Minor
The minor in social justice engages students in both a critical examination of various forms of injustice (such as poverty, racism, and speciesism, and environmental degradation) and an exploration of strategies for creating and sustaining an equitable and just world. The minor is interdisciplinary in nature, drawing on disciplines as distinct as critical race studies, critical animal studies, and environmental science. It is designed particularly to help students consider the intersectional nature of all types of exploitation and their related movements for liberation.

This program of study is offered by New Century College.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students pursuing this minor must complete 15-24 credits of course work with a minimum GPA of 2.00. Eight credits of course work must be unique to the minor.

Three core courses (9-12 credits)

Social justice seminar course

- NCLC 337 - Social Justice Consciousness and Personal Transformation Credits: 3 or NCLC 436 - Social Justice Education Credits: 4

Environmental or ecological justice course

- NCLC 334 - Environmental Justice Credits: 4 or NCLC 338 - Animal Rights and Humane Education Credits: 3

Activism and advocacy course

- NCLC 304 - Social Movements and Community Activism Credits: 4 or NCLC 336 - Poverty, Wealth and Inequality in the US Credits: 3

Two elective courses (6-12 credits)

- CONF 394 - Human Rights and Inequality Credits: 3
- GOVT 445 - Human Rights Credits: 3
- NCLC 304 - Social Movements and Community Activism Credits: 4
- NCLC 310 - Violence and Gender Credits: 3-6
- NCLC 336 - Poverty, Wealth and Inequality in the US Credits: 3
- NCLC 436 - Art as Social Action Credits: 4
- NCLC 402 - Plants and People - Sustenance, Ceremony, and Sustainability Credits: 6
- NCLC 436 - Social Justice Education Credits: 4
- SOCI 307 - Social Movements and Political Protest Credits: 3
- SOCI 308 - Race and Ethnicity in a Changing World Credits: 3
- SOCI 320 - Social Structure and Globalization Credits: 3
- SOCI 355 - Social Inequality Credits: 3
- WMST 200 - Introduction to Women and Gender Studies Credits: 3
- WMST 308 - Introduction to Lesbian, Gay, Bisexual, Transgender, Transsexual, and Queer Studies Credits: 3
- WMST 402 - Queer Theory Credits: 3

Total: 15-24 credits

Other Degrees

Childhood Studies Minor

Banner Code: CHDS
Web: ncc.gmu.edu

Faculty

Dunne, Garner (director), Gorski, Mahatmya

The interdisciplinary minor in childhood studies is designed for students who have a child-related focus in their major and for those who want to explore the topic of childhood. This minor focuses on the study of issues concerning children and their representations, including their experiences in society within historical and contemporary cultures and global contexts. The curriculum fosters thinking about childhood theory, research, policy -- and the practical applications of this knowledge to decisions regarding children and youth. The minor provides enough flexibility for students to choose relevant courses in keeping with their primary interests.

This program of study is offered by New Century College.

For policies governing all minors, see the Academic Policies section of this catalog.

Course Work

Students must have a minimum grade of 2.00 in each of the courses applied to the minor.

Two core courses (at least 7 credits)

- NCLC 312 - Images and Experiences of Childhood: Social Construct, Literature, and Film Credits: 3-6
  Only 4 credits of NCLC 312 may be applied to the minor.
- NCLC 316 - Introduction to Childhood Studies Credits: 4

Three elective courses (9 credits) chosen from:

- ANTH 315 - Socialization Processes: Family, Childhood, Personality in Cross-Cultural Perspective Credits: 3
- CRIM 302 - Delinquency Credits: 3
- CRIM 406 - Family Law and the Justice System Credits: 3
- EDUC 302 - Human Growth and Development Credits: 3
- EDUC 372 - Human Development, Learning, and Teaching Credits: 3
• PSYC 211 - Developmental Psychology Credits: 3
• PSYC 313 - Child Development Credits: 3
• PSYC 314 - Adolescent Development Credits: 3
• PSYC 414 - Behavior Disorders of Childhood Credits: 3
• SOCI 302 - Sociology of Delinquency Credits: 3
• SOCI 309 - Marriage, Families, and Intimate Life Credits: 3
• SOCI 360 - Youth Culture and Society Credits: 3
• SOCW 415 - Child and Family Welfare Credits: 3
• SOCW 423 - Social Work with Children and Adolescents Credits: 3

Total: 16 credits

■ Philosophy

Phone: 703-993-1290
Web: philosophy.gmu.edu

Faculty

Professors: De Nys, Light, Sagoff

Professors emeriti: Bergoffen, Fletcher, McDermott, Skousgaard

Associate professors: Angner, Cherubin, Eckenwiler, Froman, Holman, Kinnaman (chair), Paden

Assistant professors: DiTeresi, Jones

Term professor: Boyd

Adjunct professors: D. Gregory, Rogers, Sander, Sojka, Van Camp

Affiliate: Rothbart

Course Work

This department offers all course work designated PHIL in the Courses section of this catalog.

Undergraduate Programs

The department offers a bachelor's degree in philosophy, which covers the major issues and areas in philosophy. It is intended to serve the needs of students who wish to pursue graduate studies in philosophy or emphasize philosophy while acquiring a broad liberal arts education. Majors in philosophy take courses in a variety of philosophical traditions and study logic, ethics, and social and political philosophy. With the skills of critical thinking, clear writing, and analytical reasoning that are the hallmark of philosophy majors, students are well-prepared for a wide range of careers including law, government service, or graduate study.

The philosophy program can complement other interests of students when they complete a second major in another field. Students who plan to pursue more than one undergraduate major should work out a program of study in consultation with advisors from both majors and be familiar with the relevant policies for completing more than one major. See Academic Policies.
In addition to the general degree in philosophy, students can choose a concentration in philosophy and law. This concentration offers philosophy majors the opportunity to focus their study of philosophy in a way that prepares them for the study of the law.

**Honors in the Major**

Highly qualified students may apply to the honors program in the major. Students can apply in their second semester as a junior, before they have completed 90 credits and should have a minimum GPA of 3.50 in the major. Eligible students should submit a transcript, one letter of recommendation from a member of the philosophy faculty, and one writing sample, a paper from one of the student’s courses in philosophy.

Students pursuing honors in the major complete 6 credits of honors course work chosen from PHIL 422, 425, or 471. To graduate with honors in philosophy, students must complete these courses with a minimum GPA of 3.50.

**Minors**

The department offers a minor in philosophy and a minor in philosophy and law. These minors are available to students in any major. The department, in cooperation with the Department of Public and International Affairs, coordinates the interdisciplinary minor in political philosophy. See Minors and Interdisciplinary Minors in this section.

**Bachelor’s/Accelerated Master’s Program**

The department offers highly qualified undergraduate majors in philosophy the opportunity to apply to an accelerated master’s degree program in philosophy. If accepted, students will be able to earn both the undergraduate and graduate degrees after satisfactory completion of 144 credits, generally within five years.

**Graduate Programs**

The department offers a master’s degree in traditional and contemporary philosophy as well as specialized concentrations in philosophy and cultural theory, ethics and public affairs, and philosophy and public affairs. The degree is designed for students who want to further their professional goals or foster their intellectual development. It provides a solid preparation for advanced work in philosophy or other fields such as women and gender studies, cultural studies, or law. The degree provides grounding in the history of philosophy, ethics, metaphysics, epistemology, contemporary continental thought, contemporary analytic philosophy, and philosophy of science.

The focus on traditional and contemporary philosophy of the master's degree program provides students with a historical and pluralistic approach to philosophical questions. The concentration in ethics and public affairs gives students the opportunity to explore the ethical and philosophical issues that arise in such fields of study and work as business, health care, scientific research, biomedical technology, and public policy. The concentration in philosophy and cultural theory provides students with a distinctive and important theoretical foundation for doctoral work in cultural studies. The concentration in philosophy and public affairs allows students in the graduate program in philosophy at Moscow's Higher School of Economics to also earn a degree from George Mason.

Students are encouraged to pursue opportunities beyond the classroom such as study abroad, professional internships, and research with faculty members.

**Bachelor of Arts**

**Philosophy, BA**
Banner Code: LA-BA-PHIL

Web: philosophy.gmu.edu

The degree program in philosophy covers the major issues and areas in philosophy and serves the needs of students who wish to pursue graduate studies in philosophy or emphasize philosophy while acquiring a broad liberal arts education. Students can use this major as preparation for such professions as law or government service, or complement other interests by taking a double major in philosophy and a related field of study.

This undergraduate program offers students the option of applying to the accelerated master's degree program. See Philosophy, BA/Philosophy, Accelerated MA for specific requirements.

This program of study is offered by the Department of Philosophy. For policies governing all undergraduate degrees, see Academic Policies.

Degree Requirements

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in philosophy must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences.

Students pursuing this degree must complete at least 33 credits in philosophy earning a minimum grade of 2.00 in each course. At least 21 credits must be at the 300 level or above, including at least 6 credits at the 400 level or above. No course may be used to fulfill more than one requirement.

BA in Philosophy with no Concentration

One course (3 credits) in logic chosen from:

- PHIL 173 - Logic and Critical Thinking Credits: 3
- PHIL 376 - Symbolic Logic Credits: 3

Two courses (6 credits) in history of philosophy

- PHIL 301 - History of Western Philosophy: Ancient Credits: 3
- PHIL 303 - History of Western Philosophy: Modern Credits: 3

One course (3 credits) in the analytic tradition chosen from:

When the subject matter is appropriate and with the prior written approval of the undergraduate director, PHIL 391, PHIL 421 or PHIL 425 may be used to fulfill this requirement.

- PHIL 332 - Twentieth-Century Analytic Philosophy Credits: 3
- PHIL 371 - Philosophy of Natural Sciences Credits: 3
- PHIL 373 - Theory of Knowledge Credits: 3
- PHIL 374 - Philosophy of Mind Credits: 3

One course (3 credits) in the continental tradition chosen from:
When the subject matter is appropriate and with the prior written approval of the undergraduate director, PHIL 391, PHIL 421 or PHIL 425 may be used to fulfill this requirement.

- PHIL 335 - Nineteenth-Century Philosophy Credits: 3
- PHIL 336 - Twentieth-Century Continental Thought: Existentialism Credits: 3
- PHIL 337 - Twentieth-Century Continental Thought: Phenomenology Credits: 3
- PHIL 340 - Hermeneutic Philosophy Credits: 3

One course (3 credits) in ethics and social and political philosophy chosen from:

When the subject matter is appropriate and with the prior written approval of the undergraduate director, PHIL 391, PHIL 421 or PHIL 425 may be used to fulfill this requirement.

- PHIL 309 - Bioethics Credits: 3
- PHIL 311 - Philosophy of Law Credits: 3
- PHIL 323 - Classical Western Political Theory Credits: 3
- PHIL 324 - Modern Western Political Theory Credits: 3
- PHIL 325 - Karl Marx's Social and Political Thought Credits: 3
- PHIL 327 - Contemporary Western Political Theory Credits: 3
- PHIL 343 - Topics in Environmental Philosophy Credits: 3
- PHIL 355 - Theories of Ethics Credits: 3
- PHIL 470 - Seminar: Philosophical Examination of Social Issues and the Law Credits: 3

Five elective courses (15 credits) in philosophy

Students choose electives from any philosophy courses including those listed above that are not used to meet another requirement.

Total: 33 credits

▲ Concentration in Philosophy and Law (PHLW)

The concentration in philosophy and law offers philosophy majors the opportunity to focus their study of philosophy in a way that prepares them for the study of the law.

In addition to the specific courses listed below, other relevant courses may be applied to the requirements for this concentration with prior written approval of the undergraduate director.

One course (3 credits) in logic chosen from:

- PHIL 173 - Logic and Critical Thinking Credits: 3
- PHIL 376 - Symbolic Logic Credits: 3

Two core courses (6 credits) in history of philosophy

- PHIL 301 - History of Western Philosophy: Ancient Credits: 3
- PHIL 303 - History of Western Philosophy: Modern Credits: 3
One course (3 credits) in the analytic tradition chosen from:

When the subject matter is appropriate and with the prior written approval of the undergraduate director, PHIL 391, PHIL 421 or PHIL 425 may be used to fulfill this requirement.

- PHIL 332 - Twentieth-Century Analytic Philosophy Credits: 3
- PHIL 371 - Philosophy of Natural Sciences Credits: 3
- PHIL 373 - Theory of Knowledge Credits: 3
- PHIL 374 - Philosophy of Mind Credits: 3

One course (3 credits) in the continental tradition chosen from:

When the subject matter is appropriate and with the prior written approval of the undergraduate director, PHIL 391, PHIL 421 or PHIL 425 may be used to fulfill this requirement.

- PHIL 335 - Nineteenth-Century Philosophy Credits: 3
- PHIL 336 - Twentieth-Century Continental Thought: Existentialism Credits: 3
- PHIL 337 - Twentieth-Century Continental Thought: Phenomenology Credits: 3
- PHIL 340 - Hermeneutic Philosophy Credits: 3

One course (3 credits) in philosophy and law

- PHIL 311 - Philosophy of Law Credits: 3

Two courses (6 credits) chosen from:

- PHIL 323 - Classical Western Political Theory or GOVT 323 - Classical Western Political Theory Credits: 3
- PHIL 324 - Modern Western Political Theory or GOVT 324 - Modern Western Political Theory Credits: 3
- PHIL 327 - Contemporary Western Political Theory or GOVT 327 - Contemporary Western Political Theory Credits: 3
- GOVT 428 - Advanced Democratic Theory Credits: 3
- GOVT 448 - Ethics and International Politics Credits: 3
- PHIL 470 - Seminar: Philosophical Examination of Social Issues and the Law Credits: 3

Three elective courses in philosophy (9 credits)

Students choose electives from any philosophy courses including those listed above that are not used to meet another requirement.

Total: 33 credits

▲ Concentration in Philosophy, Politics, and Economics (PPE)

This is a high credit concentration for students interested in a program that explores the interdisciplinary connections between philosophy, political science, and economics.

Students pursuing this concentration like all students pursuing a BA in philosophy, must complete at least 33 credits in philosophy earning a minimum grade of 2.00 in each course. No course may be used to fulfill more than one requirement. In
addition to the specific courses listed below, other relevant courses may be applied to the requirements for this concentration with prior written approval of the undergraduate director.

One course (3 credits) in logic chosen from:

- PHIL 173 - Logic and Critical Thinking Credits: 3
- PHIL 376 - Symbolic Logic Credits: 3

Two courses (6 credits) in history of philosophy

- PHIL 301 - History of Western Philosophy: Ancient Credits: 3
- PHIL 303 - History of Western Philosophy: Modern Credits: 3

One course (3 credits) in the analytic tradition chosen from:

When the subject matter is appropriate and with the prior written approval of the undergraduate director, PHIL 391, PHIL 421, or PHIL 425 may be used to fulfill this requirement.

- PHIL 332 - Twentieth-Century Analytic Philosophy Credits: 3
- PHIL 371 - Philosophy of Natural Sciences Credits: 3
- PHIL 373 - Theory of Knowledge Credits: 3
- PHIL 374 - Philosophy of Mind Credits: 3

One course (3 credits) in the continental tradition chosen from:

When the subject matter is appropriate and with the prior written approval of the undergraduate director, PHIL 391, PHIL 421 or PHIL 425 may be used to fulfill this requirement.

- PHIL 335 - Nineteenth-Century Philosophy Credits: 3
- PHIL 336 - Twentieth-Century Continental Thought: Existentialism Credits: 3
- PHIL 337 - Twentieth-Century Continental Thought: Phenomenology Credits: 3
- PHIL 340 - Hermeneutic Philosophy Credits: 3

Required courses for concentration (39 credits)

- GOVT 103 - Introduction to American Government Credits: 3
- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- ECON 306 - Intermediate Microeconomics Credits: 3
- GOVT 324/ PHIL 324 - Modern Western Political Theory Credits: 3
- GOVT 327/ PHIL 327 - Contemporary Western Political Theory Credits: 3
- GOVT 422 - Constitutional Interpretation Credits: 3
- PHIL 357 - Philosophy of the Social Sciences Credits: 3 or PHIL 371 - Philosophy of Natural Sciences Credits: 3
- PHIL 358 - Ethics and Economics Credits: 3
- ECON 412 - Game Theory and Economics of Institutions Credits: 3
- PHIL 411 - Theories of Decision Credits: 3
- GOVT 467 - Current Issues in Economic Policy Credits: 3
PHIL 460 - Senior Seminar in Philosophy, Politics, and Economics Credits: 3

Total: 54 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. All senior seminars in philosophy are writing intensive. Philosophy majors should consult the undergraduate director for other courses that can be taken to fulfill this requirement.

Bachelor/Accelerated Master’s

Philosophy, BA/Philosophy, Accelerated MA

Web: philosophy.gmu.edu

Highly qualified Mason philosophy majors may apply to the accelerated master’s degree. If accepted, students will be able to earn bachelor’s and master’s degrees in philosophy after satisfactory completion of 144 credits, sometimes within five years.

This program of study is offered by the Department of Philosophy. For policies governing all graduate degrees, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the accelerated MA in philosophy, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.
To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Master of Arts

Philosophy, MA

Banner Code: LA-MA-PHIL

Web: philosophy.gmu.edu

The master's degree in philosophy is designed for students who intend to pursue a doctorate in philosophy as well as for those who seek the master’s as a terminal degree, either in pursuit of their intellectual interests or to further their professional expertise. Students choose a master's degree with a focus on traditional and contemporary philosophy or one of three concentrations; ethics and public affairs, philosophy and cultural theory, or philosophy and public affairs. The concentration in philosophy and public affairs allows students in the graduate program in philosophy at Moscow's Higher School of Economics to also earn a degree from George Mason. All offerings provide grounding in the history of philosophy, ethics, metaphysics, epistemology, contemporary continental thought, contemporary analytic philosophy, and philosophy of science.

An accelerated master's option is available to students in the bachelor's program. See Philosophy, BA/Philosophy, Accelerated MA for specific requirements.

This program of study is offered by the Department of Philosophy. For policies governing all graduate degrees, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the MA in philosophy, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

Students pursuing this degree must successfully complete 31 credits, which may include a thesis. They may choose a course of study that focuses on traditional and contemporary philosophy or choose to complete one of three concentrations. Students need to identify an advisor on entering the program and meet regularly with that advisor during their course of study.

MA with a Focus on Traditional and Contemporary Philosophy

The focus in traditional and contemporary philosophy is for students who want to deepen their understanding of philosophical issues and for students who are preparing to pursue doctoral studies in philosophy or related fields, e.g. political theory, gender studies. The concentration in philosophy and cultural theory is especially for students interested in pursuing a doctorate in cultural studies. The concentration in ethics and public affairs is designed for professionals who want to combine the study of ethics and the analysis of social and public policies in a variety of settings, including business, health care, biomedical technology, law, or government.

Students may apply up to 9 credits from other departments toward the degree with focus on traditional and contemporary philosophy with prior written approval of their advisor.

One course (1 credit) of Proseminar
This course should be completed in the first fall semester in which the student is enrolled in the MA program.

- PHIL 600 - Proseminar in Philosophy Credits: 1

Four core courses (12 credits) in philosophy

One course (3 credits) in ancient or medieval philosophy chosen from:

- PHIL 602 - Plato: Selected Dialogues Credits: 3
- PHIL 603 - Aristotle: Selected Works Credits: 3
- PHIL 604 - Augustine and Aquinas Credits: 3
- PHIL 681 - Ancient Philosophical Figures Credits: 3
- PHIL 691 - Special Topics in Ancient Philosophy Credits: 3
- PHIL 721 - Advanced Seminar in Philosophy Credits: 3 (May be taken when the topic is relevant and with approval of their advisor.)

One course (3 credits) in modern philosophy chosen from:

- PHIL 605 - Mind-Body Problem in Early Modern Philosophy Credits: 3
- PHIL 608 - Hegel's Phenomenology of the Spirit Credits: 3
- PHIL 682 - Early Modern Philosophical Figures Credits: 3
- PHIL 692 - Special Topics in Early Modern Philosophy Credits: 3
- PHIL 721 - Advanced Seminar in Philosophy Credits: 3 (May be taken when the topic is relevant and with approval of their advisor.)

One course (3 credits) in contemporary philosophy chosen from:

- PHIL 615 - Postmodernist Thought Credits: 3
- PHIL 616 - Phenomenology Credits: 3
- PHIL 618 - Contemporary French Feminism Credits: 3
- PHIL 683 - Contemporary Philosophical Figures Credits: 3
- PHIL 694 - Special Topics in Contemporary Philosophy Credits: 3
- PHIL 721 - Advanced Seminar in Philosophy Credits: 3 (May be taken when the topic is relevant and with approval of their advisor.)

One advanced seminar (3 credits) chosen from:

- PHIL 720 - Nietzsche and his Readers Credits: 3
- PHIL 721 - Advanced Seminar in Philosophy Credits: 3
- PHIL 733 - Current Issues in Cognitive Science Credits: 3

Four to six elective courses (12-18 credits) in philosophy

Students who choose to write a thesis (3 or 6 credits) will take correspondingly fewer electives.

Thesis (3 or 6 credits) (optional)
Students must follow the thesis enrollment policy of the university and once enrolled in PHIL 799, maintain continuous enrollment as specified in Academic Policies.

- PHIL 799 - Thesis Credits: 1-6

Total: 31 credits

▲ Concentration in Ethics and Public Affairs (ETPA)

The concentration in ethics and public affairs is designed for professionals who want to combine the study of ethics and the analysis of social and public policies in a variety of settings, including business, health care, biomedical technology, law, or government.

One course (1 credit) of Proseminar

This course should be completed in the first fall semester in which the student is enrolled in the MA program.

- PHIL 600 - Proseminar in Philosophy Credits: 1

Two courses (6 credits) in the history of philosophy

One required course (3 credits)

- PHIL 640 - History of Ethical Theory Credits: 3

One elective course (3 credits) in the history of philosophy chosen from:

Depending on the topic, PHIL 681, 682, 691 or 692 may be applied to this concentration with prior written permission of the graduate director.

- PHIL 602 - Plato: Selected Dialogues Credits: 3
- PHIL 603 - Aristotle: Selected Works Credits: 3
- PHIL 604 - Augustine and Aquinas Credits: 3
- PHIL 605 - Mind-Body Problem in Early Modern Philosophy Credits: 3
- PHIL 608 - Hegel's Phenomenology of the Spirit Credits: 3

One course (3 credits) in public administration

- PUAD 540 - Public Policy Process Credits: 3

Three courses (9 credits) in ethics chosen from:

Other courses may be used to fulfill this requirement where appropriate and with prior written approval of the student’s academic advisor.

- PHIL 642 - Biomedical Ethics Credits: 3
- PHIL 643 - Environmental Ethics Credits: 3
- PHIL 644 - Business and Organizational Ethics Credits: 3
• PHIL 645 - Research Ethics Credits: 3

Two to four elective courses (6 - 12 credits)

Students who choose to write a thesis (3 or 6 credits) will take correspondingly fewer electives. Students are encouraged to use courses from around the university in disciplines relevant to their areas of interest, subject to the prior written approval of their academic advisor. A small sample of possible electives outside the Department of Philosophy:

• PUAD 700 - Ethics and Public Administration Credits: 3
• HAP 714 - Ethical Issues in Health Administration and Policy Credits: 3
• EVPP 635 - Environment and Society Credits: 3

Thesis (3 or 6 credits) (optional)

Students must follow the thesis enrollment policy of the university and once enrolled in PHIL 799, maintain continuous enrollment as specified in Academic Policies.

• PHIL 799 - Thesis Credits: 1-6

Total: 31 credits

▲ Concentration in Philosophy and Cultural Theory (PHCT)

The concentration in philosophy and cultural theory is especially for students interested in pursuing a doctorate in cultural studies.

Students may apply up to 9 credits from other departments toward this concentration with prior written approval of their advisor.

One course (1 credit) of Proseminar

This course should be completed in the first fall semester in which the student is enrolled in the MA program.

• PHIL 600 - Proseminar in Philosophy Credits: 1

Four core courses (12 credits) in philosophy

One course (3 credits) in ancient or medieval philosophy chosen from:

• PHIL 602 - Plato: Selected Dialogues Credits: 3
• PHIL 603 - Aristotle: Selected Works Credits: 3
• PHIL 604 - Augustine and Aquinas Credits: 3
• PHIL 681 - Ancient Philosophical Figures Credits: 3
• PHIL 691 - Special Topics in Ancient Philosophy Credits: 3
• PHIL 721 - Advanced Seminar in Philosophy Credits: 3 (May be taken when the topic is relevant and with approval of their advisor.)

One course (3 credits) in modern philosophy chosen from:
- PHIL 605 - Mind-Body Problem in Early Modern Philosophy Credits: 3
- PHIL 608 - Hegel's Phenomenology of the Spirit Credits: 3
- PHIL 682 - Early Modern Philosophical Figures Credits: 3
- PHIL 692 - Special Topics in Early Modern Philosophy Credits: 3
- PHIL 721 - Advanced Seminar in Philosophy Credits: 3 (May be taken when the topic is relevant and with approval of their advisor.)

One course (3 credits) in contemporary philosophy chosen from:
- PHIL 615 - Postmodernist Thought Credits: 3
- PHIL 616 - Phenomenology Credits: 3
- PHIL 618 - Contemporary French Feminism Credits: 3
- PHIL 683 - Contemporary Philosophical Figures Credits: 3
- PHIL 694 - Special Topics in Contemporary Philosophy Credits: 3
- PHIL 721 - Advanced Seminar in Philosophy Credits: 3 (May be taken when the topic is relevant and with approval of their advisor.)

One advanced seminar (3 credits) chosen from:
- PHIL 720 - Nietzsche and his Readers Credits: 3
- PHIL 721 - Advanced Seminar in Philosophy Credits: 3
- PHIL 733 - Current Issues in Cognitive Science Credits: 3

Two courses (6 credits) in cultural studies

One required course (3 credits)

Students are encouraged to take this course as early in their program as possible.
- CULT 802 - Histories of Cultural Studies Credits: 3

One elective course (3 credits) in cultural studies

Students choose an elective in consultation with an advisor.

Two to four elective courses (6 - 12 credits) in philosophy

Students who choose to write a thesis (3 or 6 credits) will take correspondingly fewer electives.

Thesis (3 or 6 credits) (optional)

Students must follow the thesis enrollment policy of the university and once enrolled in PHIL 799, maintain continuous enrollment as specified in Academic Policies.
- PHIL 799 - Thesis Credits: 1-6

Total: 31 credits
Concentration in Philosophy and Public Affairs (PPAF)

The concentration in philosophy and public affairs allows students in the graduate program in philosophy at Moscow's Higher School of Economics to also earn a degree from George Mason.

One course (1 credit) of Proseminar

- PHIL 600 - Proseminar in Philosophy Credits: 1

Four core courses (equivalent of 12 credits) taken at Moscow's Higher School of Economics

- History of Philosophy: Philosophical Anthropology
- Practical Philosophy: Philosophical Anthropology
- Practical Philosophy: Contemporary Problems of Philosophy
- One elective course in philosophy or ethics

Two courses (6 credits) in ethics chosen from:

- PHIL 642 - Biomedical Ethics Credits: 3
- PHIL 643 - Environmental Ethics Credits: 3
- PHIL 644 - Business and Organizational Ethics Credits: 3
- PHIL 645 - Research Ethics Credits: 3

Three to four elective courses (9-12 credits) in philosophy

Students who choose to write a thesis will take 3 fewer electives.

Thesis (3 credits) (optional)

Students who choose to write a thesis should be aware of the policies governing theses as stated in Academic Policies.

- PHIL 799 - Thesis Credits: 1-6

Total: 31 credits

Non-Degree

Philosophy and Law Minor

Banner Code: PHLW

Web: philosophy.gmu.edu

The minor in philosophy and law offers students a course of study that emphasizes the philosophical analysis of legal issues. It acquaints students with the rich tradition of philosophical argument dealing with the justification of law, its relation to moral
theory, the justifications for punishment, and the concepts of justice, rights, liberty, and legal responsibility. In addition, an education in philosophy in general, and these courses in particular, stress intellectual skills that are important in the study of law.

This program of study is offered by the Department of Philosophy.

For policies governing all minors, see Academic Policies.

Course Work

Students pursuing this minor must complete 18 credits of coursework with a minimum GPA of 2.0.

Four required courses (12 credits)

- PHIL 173 - Logic and Critical Thinking Credits: 3
- PHIL 301 - History of Western Philosophy: Ancient Credits: 3
- PHIL 303 - History of Western Philosophy: Modern Credits: 3
- PHIL 311 - Philosophy of Law Credits: 3

Two elective courses (6 credits)

One elective course may be chosen from other course work in philosophy with prior written approval of the undergraduate director.

Choose two from the following:

- PHIL 323 or GOVT 323 - Classical Western Political Theory Credits: 3
- PHIL 324 or GOVT 324 - Modern Western Political Theory Credits: 3
- PHIL 327 or GOVT 327 - Contemporary Western Political Theory Credits: 3
- GOVT 428 - Advanced Democratic Theory Credits: 3
- GOVT 448 - Ethics and International Politics Credits: 3
- PHIL 470 - Seminar: Philosophical Examination of Social Issues and the Law Credits: 3

Total: 18 credits

Philosophy Minor

Banner Code: PHIL

Web: philosophy.gmu.edu

Students can take a general minor or one organized around specific emphases, each of which stresses a different aspect of philosophy. The emphasis in the history of philosophy is particularly useful to students in the humanities, especially those who wish to pursue graduate study. The emphasis in reality, knowledge, and science is especially beneficial for students majoring in the human and natural sciences. The emphasis in social and political philosophy is recommended for students who plan to pursue a career in law or politics.

This program of study is offered by the Department of Philosophy.

For policies governing all minors, see Academic Policies.
Course Work

Students pursuing this minor must complete 18 credits in philosophy with a minimum grade of 2.00 in each course. No course may be used to fulfill more than one requirement.

One course (3 credits) in logic chosen from:

- PHIL 173 - Logic and Critical Thinking Credits: 3
- PHIL 376 - Symbolic Logic Credits: 3

Two courses (6 credits) in history of philosophy:

- PHIL 301 - History of Western Philosophy: Ancient Credits: 3
- PHIL 303 - History of Western Philosophy: Modern Credits: 3

Three elective courses (9 credits) in philosophy

At least 6 of the elective credits must be at the 300 level or above. Students may choose to focus their three electives in one of the emphases below.

Emphasis in history of philosophy

One course (3 credits) in the history of philosophy chosen from:

- PHIL 302 - History of Western Philosophy: Medieval Credits: 3
- PHIL 325 - Karl Marx's Social and Political Thought Credits: 3
- PHIL 332 - Twentieth-Century Analytic Philosophy Credits: 3
- PHIL 335 - Nineteenth-Century Philosophy Credits: 3
- PHIL 336 - Twentieth-Century Continental Thought: Existentialism Credits: 3
- PHIL 337 - Twentieth-Century Continental Thought: Phenomenology Credits: 3

Two elective courses (6 credits) in philosophy

Emphasis in reality, knowledge, and science

Two courses (6 credits) chosen from:

- PHIL 312 - Philosophy of Technology Credits: 3
- PHIL 337 - Twentieth-Century Continental Thought: Phenomenology Credits: 3
- PHIL 340 - Hermeneutic Philosophy Credits: 3
- PHIL 357 - Philosophy of the Social Sciences Credits: 3
- PHIL 371 - Philosophy of Natural Sciences Credits: 3
- PHIL 373 - Theory of Knowledge Credits: 3
- PHIL 374 - Philosophy of Mind Credits: 3
- PHIL 375 - Metaphysics Credits: 3
- PHIL 377 - Darwin: Biology and Beyond Credits: 3
PHIL 378 - Reason, Science and Faith in the Modern Age Credits: 3

One elective course (3 credits) in philosophy

Emphasis in social and political philosophy

Three courses (9 credits) chosen from:

- PHIL 311 - Philosophy of Law Credits: 3
- PHIL 312 - Philosophy of Technology Credits: 3
- PHIL 323 - Classical Western Political Theory Credits: 3
- PHIL 324 - Modern Western Political Theory Credits: 3
- PHIL 325 - Karl Marx's Social and Political Thought Credits: 3
- PHIL 327 - Contemporary Western Political Theory Credits: 3
- PHIL 338 - Philosophy, Sex, and Gender Credits: 3
- PHIL 470 - Seminar: Philosophical Examination of Social Issues and the Law Credits: 3

Total: 18 credits

Political Philosophy Minor

Banner Code: PPHL

Phone: 703-993-1265

Faculty

Cherubin, De Nys, Harbour, Mandaville, Miller, Paden (director), Snyder-Hall

The minor provides students with an intensive study of political philosophy and political theory. Students take courses in the history of political philosophy; the moral evaluation of political institutions; the ethical, social, and political issues raised by globalization; and the conceptual foundations of democracy and human rights. Through this coursework, students are able to study this field from a variety of interdisciplinary perspectives. They develop a deeper philosophical perspective on political institutions and have a solid foundation for further graduate study in philosophy, government, or policy studies.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see Academic Policies.

Course Work

Students pursuing this minor must complete 15 credits of coursework with a minimum GPA of 2.00.

Two core courses (6 credits) chosen from:

- PHIL 323 or GOVT 323 - Classical Western Political Theory Credits: 3
- PHIL 324 or GOVT 324 - Modern Western Political Theory Credits: 3
• PHIL 327 or GOVT 327 - Contemporary Western Political Theory Credits: 3

Three elective courses (9 credits)

Students choose electives from the courses below or above (if not used to meet the core requirement). Special topics courses and independent studies courses, when relevant, may also be used to fulfill elective credits with prior written approval of the director.

• PHIL 427 or GOVT 427 - Feminist Political Thought Credits: 3
• PHIL 325 - Karl Marx's Social and Political Thought Credits: 3
• GOVT 328 - Non-Western Political Theory Credits: 3
• GOVT 329 - Issues in Political Theories and Values Credits: 1-3
• GOVT 420 - American Political Thought Credits: 3
• GOVT 421 - Contemporary Political Ideologies Credits: 3
• GOVT 428 - Advanced Democratic Theory Credits: 3
• GOVT 448 - Ethics and International Politics Credits: 3

Total: 15 credits

■ Psychology

Phone: 703-993-1342
Web: psychology.gmu.edu

Faculty

Professors: Ascoli, Boehm-Davis, Cortina, Denham (director, Applied Developmental Program), Klimoski, Mandes, Parasuraman (director, Human Factors/Applied Cognition Program), Pasnak, Riskind, Rojahn, Smith (director, Cognitive and Behavioral Neuroscience Program), Tangney (director, Clinical Program), Tetrick (director, Industrial/Organizational Program), Winsler, Zaccaro

Research professors: Butler, Olds

Associate professors: Baldwin, Bitler, Blackwell, Buffardi, Cattaneo, Dalal (chair), Esposito-Smythers, Flinn (director, Neuroscience undergraduate studies), Kaplan, Kashdan, King (associate chair for undergraduate studies), McDonald, McKnight, Peterson, Sanford, Short, Thompson (associate chair for graduate studies)

Research associate professors: Greenwood, Stuewig

Assistant professors: Chaplin, Chazen-Cohen, Curby, Fisher, Renshaw, Rowe, Shaw, Visconti, Wiese, Youmans

Term associate professors: Chrosniak, Beadles (director, School Psychology Program), Mehlenbeck, Wanschura

Research assistant professors: Basset, Fedota, Lim, Martinez, Nelson, Strenziok, Wiener

Term assistant professors: Battaglia, Hurley, Sontag, Thompson (director, Center for Cognitive Development)

Affiliates: Eby, Hunt, Bachus

Course Work
The Psychology Department offers all course work designated PSYC in the Courses section of this catalog.

Undergraduate Programs

The department offers a bachelor of arts degree and a bachelor of science degree in psychology. All psychology majors complete a broad range of courses from social and abnormal psychology to cognitive and biopsychology. Students can also choose from special topics courses such as forensic psychology and romantic relationships.

In addition to the general degree in psychology, students can choose a concentration in work and organizational psychology. This concentration may be of interest to students who are planning to attend graduate school in industrial and organization (I/O) psychology or a related field such as organizational behavior or human resources management.

Students in psychology may have the opportunity to do research with a faculty member or do a service learning course, which allows them to put into practice what they've learned in the classroom.

Students interested in graduate study should be aware that undergraduate research experience and letters of recommendation are major factors for admission to graduate study. Such students should distribute courses across a number of areas in psychology and work closely with one or more professors on individual projects during their junior and senior years.

Honors in the Major - Psychology

Highly qualified students may apply to graduate with honors in the major. To be eligible for admission, psychology majors must have completed at least 50 credits and have a minimum cumulative GPA of 3.25 and a minimum GPA of 3.40 in psychology courses.

If accepted, students must take a sequence of three courses (PSYC 490, 491, and 492), which culminates in the successful completion and presentation of an independent honors thesis. To graduate with honors, students must earn a minimum GPA of 3.50 in their honors courses and maintain a minimum cumulative GPA of 3.25 and a minimum GPA of 3.40 in psychology courses.

Honors in the Major - Neuroscience

Highly qualified students may apply to graduate with honors in the major. To be eligible for admission, neuroscience majors must have completed at least 60 credits and have a minimum cumulative GPA of 3.25 and a minimum GPA of 3.25 in neuroscience courses.

If accepted, students must take a sequence of three courses (NEUR 410 or 411, 450, and 451), which culminates in the successful completion and presentation of an independent honors thesis. To graduate with honors, students must earn a minimum GPA of 3.50 in their honors courses, maintain a minimum cumulative GPA of 3.25, and complete an honors thesis.

Minor

The department offers a minor in psychology available to students in any major in the university.

Bachelor’s/Accelerated Master’s Program

The department offers highly qualified undergraduate majors the opportunity to apply to an accelerated master’s degree program in psychology with a concentration in biopsychology. If accepted, students will be able to earn both an undergraduate degree and the master's degree with a concentration in biopsychology after satisfactory completion of 146 credits, sometimes within five years.
Graduate Programs

The graduate programs in psychology are distinguished by an emphasis on basic research and the application of research to solving practical problems in families, schools, industry, government, and health care settings.

The department offers master's and doctoral degrees with concentrations in applied developmental psychology, cognitive and behavioral neuroscience, human factors/applied cognition, and industrial/organizational psychology. They offer a doctoral degree with a concentration in clinical psychology. Finally, they offer a master's degree with a concentration and certificate in school psychology.

Funding

The department offers teaching and research assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

Certificates

The department offers graduate certificates in aviation psychology, usability, and cognitive neuroscience. These have been designed to meet the needs of students who desire to upgrade their skills and earn a certificate as evidence of their skill attainment. Students may take these as stand-alone certificates or pursue them concurrently with a graduate degree program. Part of the certificate course work may be able to be applied to the degree. Students must apply and be accepted to a graduate certificate program.

The certificate programs are open to all students who hold a bachelor’s degree from an accredited university and meet the admissions requirements for the master's degree in psychology with a concentration in human factors and applied cognition.

Nondegree Status

Applicants who have not been admitted to a graduate degree program or a certificate program may apply for nondegree status. Nondegree students must meet the same admission requirements as degree-seeking students. Nondegree status is not intended as a way to qualify for admission as a degree-seeking student.

While it may be possible to transfer the credits earned in nondegree status to a degree program, such transfers are not automatic. They require the approval of the graduate director and the dean. If approved, a maximum of 12 credits earned in nondegree status may be applied to a degree program. Nondegree students who intend to transfer their credits to a degree program should discuss this with the appropriate program director.

Bachelor of Arts

Psychology, BA

Banner Code: LA-BA-PSYC

Web: psychology.gmu.edu

This program of study is offered by the Department of Psychology. For policies governing all undergraduate degrees, see Academic Policies.
This undergraduate program offers students the option of applying to the accelerated master's degree program in education psychology (EDPA and EDPL concentrations) or psychology (CBNR concentration). See each listing for specific requirements.

Degree Requirements

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in psychology must complete additional college requirements for BA degrees in the College of Humanities and Social Sciences. Students pursuing this degree must complete 36 credits in psychology with 24 credits at the 300 and 400 level. Students must have a minimum GPA of 2.00 in these 36 credits and a minimum grade of 1.67 (C-) in each of the courses.

Students may meet the applied psychology requirement by completing a concentration in work and organizational psychology. This concentration may be of interest to students who are planning to attend graduate school in industrial and organizational (I/O) psychology or a related field such as organizational behavior or human resources management. Students who are considering a career in business may find this concentration advantageous for careers in training and development, human resources, and management.

Basic courses in psychology (22-28 credits)

One introductory course (3 credits)

- PSYC 100 - Basic Concepts in Psychology Credits: 3

Three or four foundational courses (9 or 12 credits)

- PSYC 231 - Social Psychology Credits: 3
- PSYC 317 - Cognitive Psychology Credits: 3
  plus
- PSYC 211 - Developmental Psychology Credits: 3
  or two of the following
  PSYC 313 - Child Development Credits: 3, PSYC 314 - Adolescent Development Credits: 3, PSYC 415 - Psychological Factors in Aging Credits: 3

Two research methods courses (7 credits)

- PSYC 300 - Statistics in Psychology Credits: 4
- PSYC 301 - Research Methods in Psychology Credits: 3

One or two courses in biopsychology (3 or 6 credits)

Only students who receive transfer credit for PSYC 372 may use it in place of PSYC 375 as the prerequisite for PSYC 376. Students taking PSYC 372 at Mason may not use it in place of PSYC 375.

- PSYC 372 - Physiological Psychology Credits: 3
  or both
- PSYC 375 - Brain and Sensory Processes Credits: 3 AND PSYC 376 - Brain and Behavior Credits: 3

Notes
Students are strongly encouraged to complete PSYC 300 and PSYC 301 by their junior year. PSYC 300 is a prerequisite to several courses, and a background in research methods facilitates understanding empirical research discussed in all psychology courses.

It is strongly recommended that students fulfill the general education natural science requirement by completing BIOL 103 and BIOL 104 because these courses are prerequisites to the requirement of PSYC 372 or PSYC 375 and PSYC 376.

**Applied psychology courses or optional concentration (6-13 credits)**

Students pursuing a BA in psychology complete two applied psychology courses chosen from the list below.

Alternatively, students may earn a concentration in work and organizational psychology by completing additional credits of applied psychology as outlined.

**Two courses in applied psychology**

Students pursuing the BA without concentration take 6-7 credits chosen from:

- PSYC 320 - Psychological Tests and Measurements Credits: 4
- PSYC 325 - Abnormal Psychology Credits: 3
- PSYC 333 - Industrial and Organizational Psychology Credits: 3
- PSYC 340 - Human Factors Psychology Credits: 3
- PSYC 379 - Applied Cross-Cultural Psychology Credits: 3
- PSYC 427 - Community Engagement for Social Change Credits: 3

**OR complete the concentration**

▲ Concentration in Work and Organizational Psychology (WKOP)

Students pursuing the BA with concentration take 12-13 credits. Students must earn a minimum GPA of 2.00 in all coursework applied to the concentration.

Students who successfully complete the Psychology Department Honors Program (PSYC 490, PSYC 491, and PSYC 492) with an honors thesis/project focused on I/O psychology may, with approval of their thesis committees and the associate chair for undergraduate studies, substitute their honors work for one course in the concentration.

Specific requirements for the concentration are listed below.

**One required applied psychology course (3 credits)**

- PSYC 333 - Industrial and Organizational Psychology Credits: 3

**Three courses (9-10 credits) chosen from:**

- PSYC 320 - Psychological Tests and Measurements Credits: 4
- PSYC 335 - Psychology of Creativity and Innovation Credits: 3
- PSYC 435 - Personnel Training and Development: A Psychological Perspective Credits: 3
- PSYC 467 - The Psychology of Working in Groups and Teams Credits: 3
- PSYC 461 - Special Topics Credits: 1-3 (when topic is Occupational Health Psychology or Work and Family with prior written approval)
Elective courses in psychology (1-8)

Students complete the 36 required credits with electives in psychology (PSYC) with the following restrictions.

- A maximum of 6 credits of PSYC 327 and PSYC 328 may be applied to required psychology credits.
- A maximum of 6 credits of PSYC 260, PSYC 350, and PSYC 460 may be applied to required psychology credits.
- No more than 9 credits of PSYC 327, 328, 260, 350, and 460 can be taken without written permission of the department chair.
- PSYC 330 may not be taken for credit by psychology majors.

PSYC 465 is strongly recommended for all students who plan to attend graduate school in psychology.

Total: 36 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in psychology may fulfill this requirement by successfully completing PSYC 301, PSYC 304, PSYC 309, or PSYC 323. Students who receive transfer credit for a research methods course must take PSYC 304, PSYC 309, or PSYC 323 unless the transfer courses has been approved as writing intensive.

Note

Students who have limited technology skills are encouraged to take IT 103.

Bachelor of Science

Neuroscience, BS

Banner Code: LA-BS-NEUR

Web: psychology.gmu.edu

The bachelor of science in neuroscience is an interdisciplinary program emphasizing the relationship between the biology and chemistry of the nervous system and behavior of an organism. The BS in neuroscience prepares students for graduate-level study in both medical school and doctoral and master’s-level programs in neuroscience and other health-related fields, and work in the neuroscience field.

This program of study is offered by the Department of Psychology. For policies governing all undergraduate degrees, see Academic Policies.

Degree Requirements

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BS in neuroscience must complete additional college requirements for the BS degree in the College of Humanities and Social Sciences.
The program requirements meet the university general education requirements in quantitative reasoning, social and behavioral science, and natural science.

**Foundation courses (41-44 credits)**

**Two courses in biology (7-8 credits)**

Students must earn a minimum grade of 1.67 (C-) in each of these courses.

One required course

- BIOL 213 - Cell Structure and Function Credits: 4

One course chosen from:

The course chosen to fulfill this requirement cannot be applied to the 24 credits of approved neuroscience electives.

- BIOL 311 - General Genetics Credits: 4
- BIOL 326 - Animal Physiology Credits: 3
- BIOL 425 - Human Physiology Credits: 3
- BIOL 430 - Advanced Human Anatomy and Physiology I Credits: 4
- BIOL 431 - Advanced Human Anatomy and Physiology II Credits: 4

**Two courses in chemistry (8 credits)**

- CHEM 211 - General Chemistry Credits: 4
- CHEM 212 - General Chemistry Credits: 4

**One course in mathematics (3 or 4 credits) chosen from:**

Students intending to pursue a doctorate in neuroscience or a medical degree are advised to take MATH 114.

- MATH 113 - Analytic Geometry and Calculus I Credits: 4
- MATH 114 - Analytic Geometry and Calculus II Credits: 4
- MATH 213 - Analytic Geometry and Calculus III Credits: 3

**One course in statistics (3 or 4 credits) chosen from:**

- BIOL 214 - Biostatistics for Biology Majors Credits: 4
- STAT 250 - Introductory Statistics I Credits: 3
- PSYC 300 - Statistics in Psychology Credits: 4
- MATH 352 - Statistics Credits: 3

**Four courses in physics (8 credits)**
Students should take one of the following sequences:

- PHYS 243 - College Physics Credits: 3 and PHYS 244 Credits: 1 lab
- PHYS 245 - College Physics Credits: 3 and PHYS 246 Credits: 1 lab
- PHYS 160 - University Physics I Credits: 3 or PHYS 161 Credits: 1 lab
- PHYS 260 - University Physics II Credits: 3 or PHYS 261 Credits: 1 lab

Three courses in psychology (9 credits)

Students must earn a minimum grade of 1.67 (C-) in each of these courses. Transfer students who have earned transfer credit for PSYC 372 may substitute this course for PSYC 375.

- PSYC 100 - Basic Concepts in Psychology Credits: 3
- PSYC 375 - Brain and Sensory Processes Credits: 3
- PSYC 376 - Brain and Behavior Credits: 3

One course in computer science (3 credits)

- CDS 130 - Computing for Scientists Credits: 3

Two core courses in neuroscience (6 credits)

Students must earn a minimum grade of 1.67 (C-) in each of these courses.

- NEUR 327 - Cellular, Neurophysiological, and Pharmacological Neuroscience Credits: 3
- NEUR 335 - Molecular, Developmental, and Systems Neuroscience Credits: 3

One course in technical writing (3 credits) chosen from:

Students must earn a minimum grade of 1.67 (C-) in this course.

- NEUR 410 - Current Topics in Neuroscience Credits: 3
- NEUR 411 - Seminar in Neuroscience Credits: 3

One required psychology lab course (1 credit)

Students must earn a minimum grade of 1.67 (C-) in this course.

- PSYC 373 - Physiological Psychology Laboratory Credits: 1

Electives (24 credits)

Students should consult with an advisor to choose appropriate elective courses, which must be approved by the director of the program. A sample of possible electives is given below. Students may apply no more than 6 credits of courses with D to this requirement.

Students intending to pursue a doctorate in neuroscience or a medical degree are advised to take CHEM 313 and CHEM 315.

Total: 75-78 credits

Writing-Intensive Requirement
The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in neuroscience may fulfill this requirement by successfully completing NEUR 410 or NEUR 411.

**Psychology, BS**

**Banner Code: LA-BS-PSYC**

Web: psychology.gmu.edu

This program of study is offered by the Department of Psychology. The department also offers a BA in psychology and coordinates the BS in neuroscience. For policies governing all undergraduate degrees, see Academic Policies.

This undergraduate program offers students the option of applying to the accelerated master's degree program in education psychology (EDPA and EDPL concentrations) or psychology (CBNR concentration). See each listing for specific requirements.

**Degree Requirements**

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BS in psychology must complete additional college requirements for the BS degree in the College of Humanities and Social Sciences.

Students pursuing this degree must complete at least 38 credits in psychology and 35 credits in supporting courses. Of the 38 credits earned through basic psychology courses, applied psychology courses and electives, 24 credits must be at the 300 and 400 level.

The department offers a concentration in work and organizational psychology that can be completed and noted on the student's transcript. This concentration may be of interest to students who are planning to attend graduate school in industrial and organizational (I/O) psychology or a related field such as organizational behavior or human resources management. Students who are considering a career in business may find this concentration advantageous for careers in training and development, human resources, and management.

**Basic courses in psychology (23-32 credits)**

Students must have a minimum GPA of 2.00 in these courses with a minimum grade of 1.67 (C-) in each one.

**One introductory course (3 credits)**

- PSYC 100 - Basic Concepts in Psychology Credits: 3

**Three or four foundational courses (9 or 12 credits)**

- PSYC 231 - Social Psychology Credits: 3
- PSYC 317 - Cognitive Psychology Credits: 3 plus
- PSYC 211 - Developmental Psychology Credits: 3 or two of the following
  - PSYC 313 - Child Development Credits: 3
  - PSYC 314 - Adolescent Development Credits: 3
  - PSYC 415 - Psychological Factors in Aging Credits: 3

**Two research methods courses (7 credits)**
• PSYC 300 - Statistics in Psychology Credits: 4
• PSYC 301 - Research Methods in Psychology Credits: 3

One psychology lab course (1 or 4 credits) chosen from:

The course chosen to fulfill this requirement cannot be the same course used to fulfill the technical writing requirement below.

• PSYC 304 - Principles of Learning Credits: 4
• PSYC 309 - Sensation, Perception, and Information Processing Credits: 4
• PSYC 320 - Psychological Tests and Measurements Credits: 4
• PSYC 323 - Clinical and Social Psychology Research Techniques Credits: 4
• PSYC 373 - Physiological Psychology Laboratory Credits: 1

One or two courses in biopsychology (3 or 6 credits) chosen from:

Students who have a strong interest in biopsychology or cognitive neuroscience are encouraged to take PSYC 375-376 rather than PSYC 372. Only students who receive transfer credit for PSYC 375 may use it in place of PSYC 372 as the prerequisite for PSYC 376. Students taking PSYC 372 at Mason may not use it in place of PSYC 375.

• PSYC 372 - Physiological Psychology Credits: 3
  or both
• PSYC 375 - Brain and Sensory Processes Credits: 3 and PSYC 376 - Brain and Behavior Credits: 3

Note

Students are strongly encouraged to complete PSYC 300 and 301 by their junior year. PSYC 300 is a prerequisite to several courses, and a background in research methods facilitates understanding empirical research discussed in all psychology courses.

Applied psychology courses or optional concentration (6-13 credits)

Students pursuing a BS in psychology complete 2 applied psychology courses chosen from the list below.

Alternatively, students may earn a concentration in work and organizational psychology by completing additional credits of applied psychology as outlined.

Two courses in applied psychology

Students pursuing the BS without concentration take 6-7 credits chosen from:

• PSYC 320 - Psychological Tests and Measurements Credits: 4
• PSYC 325 - Abnormal Psychology Credits: 3
• PSYC 333 - Industrial and Organizational Psychology Credits: 3
• PSYC 340 - Human Factors Psychology Credits: 3
• PSYC 379 - Applied Cross-Cultural Psychology Credits: 3
• PSYC 427 - Community Engagement for Social Change Credits: 3

OR complete the concentration

▲Concentration in Work and Organizational Psychology (WKOP)
Students pursuing the BS with concentration take 12-13 credits. Students must earn a minimum GPA of 2.00 in all coursework applied to the concentration.

Students who successfully complete the Psychology Department Honors Program (PSYC 490, PSYC 491, and PSYC 492) with an honors thesis/project focused on I/O psychology may, with approval of their thesis committees and the associate chair for undergraduate studies, substitute the honors work for one course in the concentration.

Specific requirements for the concentration are listed below.

**One required applied psychology course (3 credits)**

- PSYC 333 - Industrial and Organizational Psychology Credits: 3

**Three courses (9-10 credits) chosen from:**

- PSYC 320 - Psychological Tests and Measurements Credits: 4
- PSYC 335 - Psychology of Creativity and Innovation Credits: 3
- PSYC 435 - Personnel Training and Development: A Psychological Perspective Credits: 3
- PSYC 467 - The Psychology of Working in Groups and Teams Credits: 3
- PSYC 461 - Special Topics Credits: 1-3 (when topic is Occupational Health Psychology or Work and Family with prior written approval)

**Psychology electives (0-9 credits)**

Students complete the 38 required credits with electives in psychology (PSYC) with the following restrictions.

- A maximum of 6 credits of PSYC 327 and PSYC 328 may be applied to required psychology credits.
- A maximum of 6 credits of PSYC 260, PSYC 350, and PSYC 460 may be applied to required psychology credits.
- No more than 9 credits of PSYC 327, 328, 260, 350, and 460 can be taken without written permission of the department chair.
- PSYC 330 may not be taken for credit by psychology majors.
- No more than 6 credits of D may be applied toward this requirement.

PSYC 465 is strongly recommended for all students who plan to attend graduate school in psychology.

If an approved psychology course is used to meet the technical writing requirement, it may also be applied as a psychology elective.

**Supporting courses (35-40 credits)**

These courses broaden the requirements to include humanities and strengthen the science, quantitative and writing components of the degree.

**One course (3-4 credits) in technical writing chosen from:**

The psychology classes in this list may also be applied as a psychology elective.

- ENGH 388 - Professional and Technical Writing Credits: 3
- PSYC 304 - Principles of Learning Credits: 4
- PSYC 309 - Sensation, Perception, and Information Processing Credits: 4
• PSYC 320 - Psychological Tests and Measurements Credits: 4
• PSYC 323 - Clinical and Social Psychology Research Techniques Credits: 4

Four courses (14-16 credits) of natural science

Two required science courses (8 credits)

• BIOL 103 - Introductory Biology I Credits: 4
• BIOL 104 - Introductory Biology II Credits: 4

Two elective science courses (6-8 credits)

Students fill this requirement with any two courses in the natural sciences.

Two courses (6-8 credits) of quantitative reasoning chosen from:

• MATH 108 - Introductory Calculus with Business Applications Credits: 3
• MATH 110 - Introductory Probability Credits: 3
• MATH 111 - Linear Mathematical Modeling Credits: 3
• MATH 113 - Analytic Geometry and Calculus I Credits: 4
• MATH 114 - Analytic Geometry and Calculus II Credits: 4
• STAT 250 - Introductory Statistics I Credits: 3

One course (3 credits) in humanities

Students can choose courses from PHIL (but not 173 or 376), RELI, ARTH, AVT, MUSI, DANC, THR.

Two courses (6 credits) in social and behavioral science

Students can choose courses from ANTH, ECON, GOVT, HIST, SOCI or any non-psychology course that has been approved to meet the university general education requirement in social and behavioral science. Courses in psychology may not be used to fulfill this requirement.

One additional course (3 credits) in humanities or social and behavioral science

Students choose an additional course from the lists under the requirements in humanities and social sciences above (and with the same restrictions).

Note

Students who have limited technology skills are encouraged to take IT 103 - Introduction to Computing.

Total: 70-78 credits

Writing-Intensive Requirement
The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in psychology may fulfill this requirement by successfully completing PSYC 301, PSYC 304, PSYC 309, or PSYC 323. Students who receive transfer credit for a research methods course must take PSYC 304, PSYC 309, or PSYC 323 unless the transfer courses has been approved as writing intensive.

**Bachelor/Accelerated Master’s**

**Psychology, BA or BS/Educational Psychology, Accelerated MS (Assessment, Evaluation, and Testing Concentration)**

Highly qualified Mason undergraduates may be admitted to a Bachelor’s/Accelerated Master’s program and obtain a BA or BS in psychology and an MS in educational psychology with a concentration in assessment, evaluation, and testing in an accelerated time frame after satisfactory completion of 144 credits.

This program of study is offered jointly by the Psychology Department in the College of Humanities and Social Sciences and the Graduate School of Education in the College of Education and Human Development.

For policies governing all graduate degrees, see Academic Policies.

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of the catalog. For information specific to this accelerated master’s program, see Application Requirements and Deadlines on the College of Education and Human Development web site.

**Degree Requirements**

Students complete the following courses in their senior year:

- EDEP 550 - Theories of Learning and Cognition (to be taken in the Fall semester)
- EDRS 531 - Educational and Psychological Measurement (to be taken in the Fall semester)
- EDEP 632 - Human Development (to be taken in the Spring semester)
- EDEP 551 - Principles of Learner Motivation (to be taken in the Spring semester)

While undergraduate students, accelerated master's students are able to apply two of the courses listed above to both the Bachelor's and Master's degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor’s/Accelerated Master’s Transition Form and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

**Psychology, BA or BS/Educational Psychology, Accelerated MS (Learning, Cognition, and Motivation Concentration)**

Highly-qualified Mason undergraduates may be admitted to a Bachelor’s/Accelerated Master’s program and obtain a BA or BS in psychology and an MS in educational psychology with a concentration in learning, cognition, and motivation in an accelerated time frame after satisfactory completion of 144 credits.
This program of study is offered jointly by the Psychology Department in the College of Humanities and Social Sciences and the Graduate School of Education in the College of Education and Human Development.

For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of the catalog. For information specific to this accelerated master's program, see Application Requirements and Deadlines on the College of Education and Human Development web site.

Degree Requirements

Students complete the following courses in their senior year:

- EDEP 550 - Theories of Learning and Cognition (to be taken in the Fall semester)
- EDRS 531 - Educational and Psychological Measurement (to be taken in the Fall semester)
- EDEP 632 - Human Development (to be taken in the Spring semester)
- EDEP 551 - Principles of Learner Motivation (to be taken in the Spring semester)

While undergraduate students, accelerated master's students are able to apply two of the courses listed above to both the Bachelor's and Master's degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor’s/Accelerated Master’s Transition Form and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

Psychology, BA or BS/Psychology, Accelerated MA (Cognitive and Behavioral Neuroscience Concentration)

Web: psychology.gmu.edu

Highly qualified Mason psychology majors may apply to the accelerated master's degree. If accepted, students will be able to earn a BA or BS in psychology and a MA in psychology with a concentration in cognitive and behavioral neuroscience after satisfactory completion of 146 credits.

The accelerated MA in psychology is available only to students pursuing the MA in psychology with a concentration in cognitive and behavioral neuroscience.

This program of study is offered by the Department of Psychology.

For policies governing all master's degree, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to this program, see Application Requirements and Deadlines on the departmental web site.
Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Doctor of Philosophy

Psychology, PhD

Banner Code: LA-PHD-PSYC

Web: psychology.gmu.edu

The goal of the doctoral program is to train students in the principles and applications of psychology. The program provides knowledge of the basic content areas in psychology and practical experience in applying this knowledge to solving human problems in life, work, and school. Core course requirements cover subject matter identified by the profession as essential to doctoral training. This includes biological, social, cognitive, and individual bases of behavior, as well as the history of psychology. The program offers the following concentrations: applied developmental psychology, clinical psychology, cognitive and behavioral neuroscience, human factors/applied cognition, and industrial/organizational psychology.

This program of study is offered by the Department of Psychology. For policies governing all graduate degrees, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions of this catalog. For information specific to the PhD in psychology, see Application Requirements and Deadlines on the departmental web site.

Reduction of Credit
For students entering the doctoral program with a master’s degree, the number of credits required may be reduced by a maximum of 30 credits subject to the approval of the program faculty and the dean. Requests for reduction of credit are reviewed by a committee only after acceptance to the PhD program.

Degree Requirements

In addition to satisfying the requirements for all doctoral degrees, students must successfully complete 72–76 credits of required course work chosen in one of five concentrations:

- Concentration in Applied Developmental Psychology
- Concentration in Clinical Psychology
- Concentration in Cognitive and Behavioral Neuroscience
- Concentration in Human Factors/Applied Cognition
- Concentration in Industrial/Organizational Psychology

Each concentration consists of four educational components: core courses, upper-level specialty courses, supervised practica, and dissertation.

Students in the doctoral program are evaluated on the basis of grades, comprehensive exams, research, and communication skills. In doctoral courses, A and B are the only acceptable grades. Students in the doctoral program must successfully complete comprehensive exams administered each year.

▲ Concentration in Applied Developmental Psychology (APD)

The applied developmental psychology concentration is concerned with enhancing developmental processes and preventing developmental disorders in individuals and families across the life span. It uses the knowledge base and methodologies of developmental science to assist the development of individuals who vary in cultural and ethnic backgrounds; economic and social opportunities; physical, social, emotional, and cognitive abilities; and conditions of living (e.g., families, neighborhoods, communities, and physical settings). The program's emphasis is on child development (infancy, early childhood, middle childhood, and adolescence), and students may focus their studies on the cognitive, social, emotional, language, personality, or physiological aspects of development.

The applied developmental concentration has two goals: to train students to teach and do research on basic and applied issues in child development for employment in such settings as universities, research institutes, and organizations, and to train students to do applied work in developmental psychology (consultation, program evaluation, assessment and evaluation, developmental interventions, and parent training) in such settings as schools, hospitals, courts, child care facilities, and other organizations. Applied developmental psychology doctoral students have the option of also completing course requirements for the MA concentration in school psychology.

Students pursuing this concentration must complete 72 credits comprised of doctoral course work and at least 12 credits of dissertation research. The number of credits required may be reduced for a prior master's degree as described above.

Doctoral Course Work (60 credits)

One course of developmental core (3 credits)

- PSYC 704 - Life-Span Development Credits: 3

Two courses of cognitive, biological, social, or historical core (6 credits) chosen from:

Cognitive
• PSYC 701 - Cognitive Bases of Behavior Credits: 3
• PSYC 768 - Advanced Topics in Cognitive Science Credits: 3 (except when this course is exclusively methodological)

Biological

• PSYC 702 - Biological Bases of Human Behavior Credits: 3
• PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3
• PSYC 559 - Behavioral Chemistry Credits: 3

Social

• PSYC 703 - Social Bases of Behavior Credits: 3
• PSYC 667 - Behavior in Small Groups and Teams Credits: 3
• PSYC 668 - Personality: Theoretical and Empirical Approaches Credits: 3

Historical

• PSYC 705 - Historical and Philosophical Issues in Psychology Credits: 3

Quantitative Methods (11-13 credits)

Students must complete an approved Quantitative Methods Emphasis from below:

Quantitative Emphasis

Students choosing the quantitative emphasis take 13 credits of course work as follows:

Two required courses

• PSYC 611 - Advanced Statistics Credits: 4
• PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques Credits: 3

Two courses chosen from:

• PSYC 557 - Psychometric Methods Credits: 3
• PSYC 646 - Issues and Methods in Longitudinal Developmental Research Credits: 3
• PSYC 652 - Quantitative Methods II: Analysis of Variance Credits: 3
• PSYC 756 - Quantitative Methods IV: Multivariate Techniques in Psychology Credits: 3
• PSYC 757 - Advanced Topics in Statistical Analysis Credits: 3 (with approval)
• PSYC 892 - Special Topics in Psychology Credits: 1-6 (with approval)

Traditional Emphasis (11 credits)

Students choosing the traditional emphasis take the following 11 credits of course work:

Two required courses

• PSYC 611 - Advanced Statistics Credits: 4
• PSYC 612 - Advanced Statistics Credits: 4

One course chosen from:

• PSYC 652 - Quantitative Methods II: Analysis of Variance Credits: 3
• PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques Credits: 3
• PSYC 756 - Quantitative Methods IV: Multivariate Techniques in Psychology Credits: 3
• PSYC 892 - Special Topics in Psychology Credits: 1-6 (with approval)

Two courses of Advanced Specialized Methods (6 credits)

One or two Research Methods courses (3-6 credits)

• PSYC 646 - Issues and Methods in Longitudinal Developmental Research Credits: 3
• PSYC 654 - Naturalistic Methods in Psychology Credits: 3

Up to one Specialized Methods course (0-3 credits)

• PSYC 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy Credits: 3
• PSYC 673 - Prevention, Intervention, and Consultation in Schools Credits: 4
• PSYC 684 - Psychological Counseling Techniques Credits: 3
• PSYC 709 - The Measurement of Intelligence Credits: 4
• PSYC 710 - Psychological Assessment Credits: 4
• PSYC 722 - Advanced Child Assessment Credits: 4
• PSYC 786 - Assessment and Treatment in Gerontology Credits: 3
• PSYC 794 - Developmental Assessment Credits: 1-6

Specialized content (15 credits)

Students take one required course

• PSYC 669 - Social and Emotional Development Credits: 3

and four elective courses (12 credits) chosen from:

• PSYC 592 - Special Topics Credits: 1-6 (when topic is Early Childhood Education, Childcare, and the Transition to School)
• PSYC 614 - The Psychology of Aging Credits: 3
• PSYC 615 - Language Development Credits: 3
• PSYC 617 - Child Psychopathology Credits: 3
• PSYC 630 - Developmental Disabilities Credits: 3
• PSYC 648 - Developmental Psychopathology Credits: 3
• PSYC 666 - Cognitive and Perceptual Development Credits: 3
• PSYC 780 - Applied Developmental Psychology Credits: 3
• PSYC 892 - Special Topics in Psychology Credits: 1-6 (when topic is developmental)
• EDRS 631 - Program Evaluation Credits: 6

Professional seminar/professional ethics (3 credits)

Students take 1 credit in fall and 1 credit in spring of their first year and 1 additional credit at any other time (preferably in their second year).
 Directed reading and research or practicum (8 credits)

Students may fulfill this requirement with 8 credits of PSYC 897 or a combination of 897 and 792.

- PSYC 897 - Directed Reading and Research Credits: 1-3 (can be repeated for credit)
- PSYC 792 - Practicum in Developmental Psychology, Biopsychology, and School Psychology Credits: 1-6 (A maximum of 6 credits may be applied to this requirement.)

Elective courses

Students complete the 72 credits required for the degree with elective courses, which may include credits of PSYC 897 over and above those used to fulfill the requirements above. Credits for MA thesis and proposal (PSYC 798, 799) may not be used as electives in the PhD program.

Advancement to Candidacy

To advance to candidacy, students must complete all courses required by the program. Students must also successfully complete and pass written and oral comprehensive exams.

Dissertation Research (12 credits)

The dissertation requirement is designed to demonstrate the student’s ability to apply psychological principles to research problems. Once enrolled in PSYC 999, students must follow the university’s continuous registration policy as specified in Academic Policies. Students who defend in the summer must be registered for at least 1 credit of 999.

Students complete a minimum of 3 credits of 998 and 3 credits of 999. They must apply a minimum of 12 dissertation credits (998 and 999 combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

- PSYC 998 - Doctoral Dissertation Proposal Credits: 1-6
- PSYC 999 - Doctoral Dissertation Credits: 1-9

Total: 72 credits

▲ Concentration in Clinical Psychology (CLN)

The clinical psychology concentration is committed to the clinical science model. Our goal is to train clinical psychologists who are capable of integrating research and applied clinical activities. The program is unique in approaching clinical psychology from social psychological and contextual perspectives. A social psychological approach uses theory and research from social psychology to understand emotional, cognitive, behavioral, and interpersonal functioning. A contextual perspective stresses the impact of social and cultural factors on the individual and vice versa. Most of the faculty members employ cognitive-behavioral and interpersonal approaches to research and clinical practice, but students also receive exposure to humanistic, existential, and psychodynamic perspectives.

Students pursuing this concentration must complete 76 graduate credits comprised of doctoral course work and at least 12 credits of dissertation research. The number of credits required may be reduced for a prior master's degree as described above.

Doctoral Course Work (64 credits)
One course (3 credits) of biological bases of behavior chosen from:

- PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3
- PSYC 559 - Behavioral Chemistry Credits: 3
- PSYC 685 - Cognitive Neuroscience Credits: 3
- PSYC 702 - Biological Bases of Human Behavior Credits: 3

One course (3 credits) of developmental bases of behavior chosen from:

- PSYC 666 - Cognitive and Perceptual Development Credits: 3
- PSYC 669 - Social and Emotional Development Credits: 3
- PSYC 704 - Life-Span Development Credits: 3

One quantitative emphasis (11-16 credits) chosen from the following three options:

**Emphasis A (Basic: 11 credits)**

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4
- PSYC 644 - Methods for Social Research Credits: 3

**Emphasis B (Enhanced: 13 credits)**

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 644 - Methods for Social Research Credits: 3
- PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques Credits: 3
- PSYC 756 - Quantitative Methods IV: Multivariate Techniques in Psychology Credits: 3

**Emphasis C (Quantitative: 16 credits)**

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 644 - Methods for Social Research Credits: 3
- PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques Credits: 3
- PSYC 756 - Quantitative Methods IV: Multivariate Techniques in Psychology Credits: 3
- One additional approved quantitative course, such as: PSYC 557 - Psychometric Methods Credits: 3, PSYC 646 - Issues and Methods in Longitudinal Developmental Research Credits: 3, PSYC 652 - Quantitative Methods II: Analysis of Variance Credits: 3, PSYC 757 - Advanced Topics in Statistical Analysis Credits: 3 (varies by semester but includes Bayesian methods), PSYC 892 - Special Topics in Psychology (take 3 credits that include Meta-analysis/SEM)

**Ten required courses (41 credits)**

- PSYC 810 - Psychological Assessment I Credits: 4
- PSYC 811 - Psychological Assessment II Credits: 4
- PSYC 822 - Scientific Foundations of Clinical Psychology I Credits: 3
- PSYC 830 - History, Systems, and Theories of Personality and Psychotherapy Credits: 3
- PSYC 833 - Social And Cognitive Foundations Of Clinical Psychology Credits: 3
- PSYC 860 - Introductory Helping Skills and Motivational Interviewing Credits: 3
• PSYC 861 - Cognitive Behavioral Therapy for Youth Credits: 3 (6 credits total)
  Students take 3 credits in fall and 3 credits in spring of the second year.
• PSYC 862 - Cognitive Behavioral Therapy for Adults Credits: 3 (6 credits total)
  Students take 3 credits in fall and 3 credits in spring of the second year.
• PSYC 881 - Practicum in Clinical Psychology Credits: 1-3 (6 credits total)
  Students take 3 credits in fall and 3 credits in spring of the third year.
• PSYC 883 - Ethical and Professional Issues in Clinical Practice Credits: 3

Electives (1-6 credits)

Students choose electives in consultation with and with the approval of an advisor. The choice of quantitative emphasis affects the number of credits available for electives. Those who choose Emphasis A take 6 credit hours of electives; students choosing Emphasis B take 4 hours of electives; students choosing Emphasis C take 1 hour of elective.

Advancement to Candidacy

To advance to candidacy, students must complete all core courses required by their program. Students must also successfully complete and pass written and oral comprehensive exams.

Dissertation Research (12 credits)

The dissertation requirement is designed to demonstrate the student’s ability to apply psychological principles to research problems. Once enrolled in PSYC 999, students must follow the university’s continuous registration policy as specified in Academic Policies. Students who defend in the summer must be registered for at least 1 credit of 999.

Students complete a minimum of 3 credits of 998 and 3 credits of 999. They must apply a minimum of 12 dissertation credits (998 and 999 combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

• PSYC 998 - Doctoral Dissertation Proposal Credits: 1-6
• PSYC 999 - Doctoral Dissertation Credits: 1-9

Internship

Students complete a full-time, 12-month clinical psychology internship at a site accredited by the American Psychological Association.

Externship (optional, but recommended)

Students complete a part-time clinical psychology externship in the third or fourth year of the program.

Total: 76 credits

▲ Concentration in Cognitive and Behavioral Neuroscience (CBNR)

This concentration focuses on studying biological substrates of behavior. Core and affiliated faculty study areas as diverse as neural control of behavioral development; brain systems in substance abuse; animal models of learning and memory and their disorders (such as Alzheimer's); human brain systems involved in cognition, perception, human error, decision making, and movement; the relation of neural activity to human performance; and cognitive aging. A focus of the program is on translational
neuroscience-complementary study of neural systems in humans and animals, including application of animal research to human behavior.

The program’s core facilities have well-equipped behavioral testing and histological/histochemical facilities. The program’s strong links to the Krasnow Institute for Advanced Study and the Center for Biomedical Genomics and Informatics allows opportunities for collaborative work as diverse as tissue slice preparations and molecular genetics. The doctoral program prepares students for research-based careers in academics, government, or industry.

Students pursuing this concentration must complete 72 graduate credits comprised of course work and at least 12 credits of dissertation research. The number of credits required may be reduced for a prior master's degree as described above.

**Doctoral Course Work (48-60 credits)**

**Four courses of cognitive and behavioral neuroscience core (11 credits)**

- PSYC 527 - Introduction to Neurobiology Credits: 2
- PSYC 531 - Mammalian Neurobiology Credits: 3
- PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3
  or
- PSYC 685 - Cognitive Neuroscience Credits: 3
- PSYC 555 - Neuroimaging Credits: 3
  or
- PSYC 559 - Behavioral Chemistry Credits: 3

**Four courses of quantitative and research methods (14 credits)**

**Two required courses (8 credits)**

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4

**One course in advanced statistics (3 credits) chosen from:**

- PSYC 652 - Quantitative Methods II: Analysis of Variance Credits: 3
- PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques Credits: 3
- PSYC 756 - Quantitative Methods IV: Multivariate Techniques in Psychology Credits: 3

**One elective methods course (3 credits)**

Students choose a fourth course in quantitative or research methods in consultation with an advisor and with the approval of the program faculty. This can include the course not chosen to fulfill the requirement above.

**Professional seminar (2 credits)**

- PSYC 890 - Seminar in Professional Psychology Credits: 1-3

**Research Credits (6 credits)**
The research credit requirement can be met through completion of a master's thesis (recommended) or other research course as approved by the program.

Elective credits

Students can complete the 72 credit requirement through credits of additional coursework as approved by the program/advisor. 6 of these courses must be outside of the cognitive and behavioral neuroscience program.

Advancement to Candidacy

To advance to candidacy, students must complete all core courses required by their program. Students must also successfully complete and pass written and oral comprehensive exams.

Dissertation Research (12-24 credits)

The dissertation requirement is designed to demonstrate the student’s ability to apply psychological principles to research problems. Once enrolled in PSYC 999, students must follow the university’s continuous registration policy as specified in Academic Policies. Students who defend in the summer must be registered for at least 1 credit of 999.

Students apply to this degree a minimum of 3 credits of PSYC 998 and 3 credits of 999; they may apply a minimum 12 and a maximum of 24 dissertation credits (998 and 999 combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

- PSYC 998 - Doctoral Dissertation Proposal Credits: 1-6
- PSYC 999 - Doctoral Dissertation Credits: 1-9

Total: 72 credits

▲ Concentration in Human Factors/Applied Cognition (HF)

The human factors and applied cognition concentration covers basic theoretical and empirical issues and emphasizes research that applies cognitive science to real-world problems. The program builds bridges between human factors engineering and cognitive psychology. Many applications of cognitive science are in the domain of human factors, and many doctoral students who complete our program go on to be human factors professionals.

Students pursuing this concentration must complete 72 graduate credits comprised of course work and at least 12 credits of dissertation research. The number of credits required may be reduced for a prior master's degree as described above.

Doctoral Course Work (60 credits)

One course (3 credits) of cognitive core chosen from:

- PSYC 701 - Cognitive Bases of Behavior Credits: 3
- PSYC 759 - Applied Decision Making Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3

Two courses of biological, social, developmental, or historical core (6 credits) chosen from:

Biological
• PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3  
• PSYC 559 - Behavioral Chemistry Credits: 3  
• PSYC 685 - Cognitive Neuroscience Credits: 3  
• PSYC 702 - Biological Bases of Human Behavior Credits: 3

Social

• PSYC 667 - Behavior in Small Groups and Teams Credits: 3  
• PSYC 668 - Personality: Theoretical and Empirical Approaches Credits: 3  
• PSYC 703 - Social Bases of Behavior Credits: 3

Developmental

• PSYC 666 - Cognitive and Perceptual Development Credits: 3  
• PSYC 669 - Social and Emotional Development Credits: 3  
• PSYC 704 - Life-Span Development Credits: 3

Historical

• PSYC 705 - Historical and Philosophical Issues in Psychology Credits: 3

Two courses (8 credits) of quantitative and research methods:

• PSYC 611 - Advanced Statistics Credits: 4  
• PSYC 612 - Advanced Statistics Credits: 4

Three courses (9 credits) of advanced statistics or qualitative methods

• PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques Credits: 3  
• PSYC 756 - Quantitative Methods IV: Multivariate Techniques in Psychology Credits: 3  
• PSYC 757 - Advanced Topics in Statistical Analysis Credits: 3

Two courses of specialized content (6 credits)

• PSYC 530 - Cognitive Engineering: Cognitive Science Applied to Human Factors Credits: 3  
• PSYC 645 - Research Methods in Human Factors and Applied Cognition Credits: 3

Three courses (9 credits) of additional specialized content

These are seminars with variable topics that may be repeated for credit when the topic is different.

• PSYC 734 - Seminar in Human Factors and Applied Cognition Credits: 3  
• PSYC 737 - Psychology of Human-Technology Interaction Credits: 3  
• PSYC 768 - Advanced Topics in Cognitive Science Credits: 3

One course (3 credits) of special topics in professional issues
• PSYC 890 - Seminar in Professional Psychology Credits: 1-3

Directed reading and research

Students are encouraged to take a minimum of 1 credit of this course each semester until they advance to candidacy.

• PSYC 897 - Directed Reading and Research Credits: 1-3

Elective courses

Students have several options for completing the remaining 72 credits required for the degree. They may take additional content courses, including the variable topics seminars 734, 737, or 768, or they may take 3 to 6 credits of Practicum - PSYC 730 with permission of their advisor. Students who do not have work experience in applied cognition or human factors are encouraged to take up to 6 credits of practicum.

Students are strongly encouraged to develop competence in programming and computer science through course work or independent study. Students are also encouraged to identify and take relevant courses within or outside the department with permission of their advisor.

Some options for fulfilling this requirement:

• PSYC 734 - Seminar in Human Factors and Applied Cognition Credits: 3
• PSYC 737 - Psychology of Human-Technology Interaction Credits: 3
• PSYC 768 - Advanced Topics in Cognitive Science Credits: 3
• PSYC 730 - Practicum in Applied Psychology Credits: 1-6

Advancement to Candidacy

To advance to candidacy, students must complete all core courses required by their the program. Students must also successfully complete and pass written and oral comprehensive exams.

Dissertation Research (12 credits)

The dissertation requirement is designed to demonstrate the student’s ability to apply psychological principles to research problems. Once enrolled in PSYC 999, students must follow the university’s continuous registration policy as specified in Academic Policies. Students who defend in the summer must be registered for at least 1 credit of 999.

Students complete a minimum of 3 credits of 998 and 3 credits of 999. They must apply a minimum of 12 dissertation credits (998 and 999 combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

• PSYC 998 - Doctoral Dissertation Proposal Credits: 1-6
• PSYC 999 - Doctoral Dissertation Credits: 1-9

Total: 72 credits

▲ Concentration in Industrial/Organizational Psychology (IO)

The industrial/organizational psychology concentration focuses on multiple aspects of behavior in organizational settings, including personnel selection, quantitative analysis, teams, leadership, work and family issues, and organizational health issues.
Mason’s graduate work in this area emphasizes research as the key to knowledge in both academic and applied settings. The program fosters a peer-oriented environment whereby students collaborate on numerous projects in addition to working with faculty members, in many different areas of industrial/organizational psychology.

Students pursuing this concentration must complete 72 graduate credits comprised of course work and at least 12 credits of dissertation research. The number of credits required may be reduced for a prior master’s degree as described above.

**Doctoral Course Work (60 credits)**

**One core course (3 credits) chosen from:**

- PSYC 703 - Social Bases of Behavior Credits: 3

**Six required courses (19 credits) in statistics**

- PSYC 557 - Psychometric Methods Credits: 3
- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 633 - Evaluative Research in Psychology Credits: 3
- PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques Credits: 3
- PSYC 892 - Special Topics in Psychology Credits: 1-6
- One additional specialized statistics course [such as PSYC 756 or PSYC 646 or 892 (not SEM/META)] Credits: 3

**Four courses (12 credits) in survey of content**

- PSYC 631 - Industrial and Personnel Testing and Evaluation Credits: 3
- PSYC 636 - Survey of Industrial Psychology Credits: 3
- PSYC 639 - Survey of Organizational Processes Credits: 3
- PSYC 739 - Seminar in Industrial/Organizational Psychology Credits: 3

**Five courses (15 credits) of specialized content**

- PSYC 638 - Training: Psychological Contributions to Theory, Design, and Evaluation Credits: 3
- PSYC 667 - Behavior in Small Groups and Teams Credits: 3
- PSYC 733 - Issues in Personnel Psychology Credits: 3
- PSYC 741 - Psychology of Work Motivation Credits: 3
- PSYC 892 - Special Topics in Psychology Credits: 1-6

**At least 9 credits of professional development**

**Required**

- PSYC 890 - Seminar in Professional Psychology Credits: 1-3 (3 credits required)
- PSYC 892 - Special Topics in Psychology Credits: 1-6 (6 credits required)

**Recommended**

- PSYC 730 - Practicum in Applied Psychology Credits: 1-6
And/or

- PSYC 897 - Directed Reading and Research Credits: 1-3

Electives

Students complete the remaining credits required for this degree through additional course work in professional development or dissertation.

Advancement to Candidacy

To advance to candidacy, students must complete all core courses required by their the program. Students must also successfully complete and pass written and oral comprehensive exams.

Dissertation Research (12 credits)

The dissertation requirement is designed to demonstrate the student’s ability to apply psychological principles to research problems. Once enrolled in PSYC 999, students must follow the university’s continuous registration policy as specified in Academic Policies. Students who defend in the summer must be registered for at least 1 credit of 999.

Students complete a minimum of 3 credits of 998 and 3 credits of 999. They must apply a minimum of 12 dissertation credits (998 and 999 combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

- PSYC 998 - Doctoral Dissertation Proposal Credits: 1-6
- PSYC 999 - Doctoral Dissertation Credits: 1-9

Total: 72 credits

Graduate Certificate

Aviation Psychology Graduate Certificate

Banner Code: LA-CERG-AVIP

Web: psychology.gmu.edu

This program of study is offered by the Department of Psychology.

For policies governing all graduate certificates, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in aviation psychology, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements
Three required courses (9 credits)

- PSYC 530 - Cognitive Engineering: Cognitive Science Applied to Human Factors Credits: 3
- PSYC 645 - Research Methods in Human Factors and Applied Cognition Credits: 3
- PSYC 734 - Seminar in Human Factors and Applied Cognition Credits: 3 (when aviation-related topic is approved for this certificate by the program director)

Two elective courses (6 credits) chosen from:

- PSYC 597 - Directed Reading and Research Credits: 1-6 (when topic is approved for this certificate)
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3
- SYST 560 - Introduction to Air Traffic Control Credits: 3
- SYST 671 - Judgment and Choice Processing and Decision Making Credits: 3

Total: 15 credits

Cognitive Neuroscience Graduate Certificate

Banner Code: LA-CERG-CNEU

Web: psychology.gmu.edu

This program of study is offered by the Department of Psychology.

For policies governing all graduate certificates, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in cognitive neuroscience, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements

Core courses (9 credits):

- PSYC 530 - Cognitive Engineering: Cognitive Science Applied to Human Factors Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3 (6 credits required when topic is relevant to cognitive neuroscience. This course is repeatable when the specific topic is different.)

One course (3 credits) chosen from:

- PSYC 527 - Introduction to Neurobiology Credits: 2
- PSYC 531 - Mammalian Neurobiology Credits: 3
- PSYC 556 - Chemistry and the Brain Credits: 3
- PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3
- PSYC 559 - Behavioral Chemistry Credits: 3

Two elective courses (6 credits) chosen from:

PSYC 597 and 768 may be used to fulfill this requirement when the topic is relevant to the certificate with prior written approval of the program director.

- PSYC 702 - Biological Bases of Human Behavior Credits: 3
- PSYC 597 - Directed Reading and Research Credits: 1-6
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3

Total: 18 credits

School Psychology Graduate Certificate

Banner Code: LA-CERG-SCH

Web: psychology.gmu.edu

This program of study is offered by the Department of Psychology. For policies governing all graduate certificates, see the Academic Policies section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in school psychology see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements

Students pursuing this certificate must also complete the master’s degree in psychology with concentration in school psychology. Students must complete 15 credits with a minimum grade of 3.00 in each course. All coursework for the master’s degree must be completed before registering for the internship (PSYC 790).

One required course (3 credits) chosen from:

- PSYC 592 - Special Topics Credits: 1-6 (when topic is Developmental Assessment)
- PSYC 630 - Developmental Disabilities Credits: 3
- EDCD 608 - Group Processes and Analyses Credits: 4

Assessment practicum (4 credits)

- PSYC 751 - School Psychology Assessment Practicum II Credits: 2

Internship (6 credits)
• PSYC 790 - School Psychology Internship Credits: 3-6

Practicum (2 credits)

• PSYC 792 - Practicum in Developmental Psychology, Biopsychology, and School Psychology Credits: 1-6

Total: 15 credits

Usability Graduate Certificate

Banner Code: LA-CERG-UBTY

Web: psychology.gmu.edu

This program of study is offered by the Department of Psychology.

For policies governing all graduate degrees, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in usability, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements

Three core courses (9 credits)

• PSYC 530 - Cognitive Engineering: Cognitive Science Applied to Human Factors Credits: 3
• PSYC 645 - Research Methods in Human Factors and Applied Cognition Credits: 3
• PSYC 737 - Psychology of Human-Technology Interaction Credits: 3

Two elective courses (6 credits) chosen from:

• PSYC 597 - Directed Reading and Research Credits: 1-6 (when topic is approved for this certificate)
• PSYC 654 - Naturalistic Methods in Psychology Credits: 3
• PSYC 734 - Seminar in Human Factors and Applied Cognition Credits: 3 (when topic is approved for this certificate)
• PSYC 737 - Psychology of Human-Technology Interaction Credits: 3
• PSYC 768 - Advanced Topics in Cognitive Science Credits: 3
• EDIT 526 - Web Accessibility and Design Credits: 3
• EDIT 571 - Visual Design and Applications Credits: 1-3
• EDIT 705 - Instructional Design Credits: 3
• EDIT 773 - Human Computer Interface Design for Teaching and Learning Credits: 3

Total: 15 credits
Master of Arts

Psychology, MA

Banner Code: LA-MA-PSYC

Web: psychology.gmu.edu

The master's degree in psychology has concentrations in applied developmental psychology, cognitive and behavioral neuroscience, human factors/applied cognition, industrial/organizational psychology, and school psychology. The department does not offer a master's degree in clinical or counseling psychology, but a master's degree in psychology with a concentration in clinical psychology is available for students who have been admitted to the doctoral program concentration in clinical psychology.

An accelerated master's option with a CBNR concentration is available to students in the psychology bachelor's program (BS or BA). See listing for specific requirements.

This program of study is offered by the Department of Psychology.

For policies governing all master's degree, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the MA in psychology, see Application Requirements and Deadlines on the departmental web site.

Provisional Admission

Students who are admitted provisionally are required to take 12 credits in psychology and earn a minimum GPA of 3.25 in those courses to qualify for removal of the provisional qualifier. Programs may add other conditions to provisional admission. Individualized study courses cannot be used toward the 12 credits.

Degree Requirements

In addition to satisfying the requirements for all master’s degrees, students pursuing a master's degree in psychology must successfully complete 32-46 credits of required coursework. They complete this coursework in one of six concentrations.

A maximum of 6 credits of thesis proposal and thesis research (PSYC 798, 799) may be applied to the master's degree. A maximum of 9 credits of thesis courses (798, 799), Directed Reading and Research (597), and Practicum (792) may be applied to the degree.

▲ Concentration in Applied Developmental Psychology (APD)

The concentration in applied developmental psychology focuses on child development. It provides basic knowledge about normal development, skills for assessing developmental level, and techniques for planning and evaluating programs that foster optimal development. Graduates are prepared for employment at agencies concerned with educational and health programs for children, enrichment programs for infants and preschoolers, and education programs for parents.
Two core courses (6 credits) chosen from:

Social psychology

- PSYC 667 - Behavior in Small Groups and Teams Credits: 3
- PSYC 668 - Personality: Theoretical and Empirical Approaches Credits: 3
- PSYC 703 - Social Bases of Behavior Credits: 3

Biological psychology

- PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3
- PSYC 559 - Behavioral Chemistry Credits: 3
- PSYC 702 - Biological Bases of Human Behavior Credits: 3

Cognitive psychology

- PSYC 701 - Cognitive Bases of Behavior Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3 (except when this course is exclusively methodological)

Two courses (7-8 credits) of quantitative methods

- PSYC 611 - Advanced Statistics Credits: 4
  and either
- PSYC 612 - Advanced Statistics Credits: 4 or PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques Credits: 3

Three courses (9 credits) of specialized content

Two courses (6 credits) chosen from the following:

- PSYC 615 - Language Development Credits: 3
- PSYC 630 - Developmental Disabilities Credits: 3
- PSYC 648 - Developmental Psychopathology Credits: 3
- PSYC 666 - Cognitive and Perceptual Development Credits: 3
- PSYC 669 - Social and Emotional Development Credits: 3
- PSYC 704 - Life-Span Development Credits: 3
- PSYC 780 - Applied Developmental Psychology Credits: 3
- PSYC 592 - Special Topics Credits: 1-6 (when the content is developmental, with approval of advisor)
- Other developmental courses chosen with approval of advisor

One course (3 credits) chosen from the list above or the following:

- PSYC 614 - The Psychology of Aging Credits: 3
- PSYC 617 - Child Psychopathology Credits: 3
- PSYC 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy Credits: 3
Thesis research or practicum experience (4 credits) chosen from one of these options:

Thesis (4 credits)

Students should be aware of the policies governing theses. They must follow the thesis enrollment policy of the university and once enrolled in PSYC 799, maintain continuous enrollment. See Academic Policies.

- PSYC 798 - Thesis Proposal Credits: 1-6
- PSYC 799 - Master's Thesis Credits: 1-6 (minimum of 3 credits)

Practicum (4 credits)

- PSYC 792 - Practicum in Developmental Psychology, Biopsychology, and School Psychology Credits: 1-6 (take 3 credits)
- PSYC 597 - Directed Reading and Research Credits: 1-6 (take 1 credit)

Professional seminar (2 credits)

Students should take 1 credit in fall and 1 credit in spring of their first year.

- PSYC 890 - Seminar in Professional Psychology Credits: 1-3

Electives (3-4 credits)

Students complete the 32 credits required for this concentration through a content course, directed reading and research, or additional credits of practicum or thesis.

Total: 32 credits

▲ Concentration in Clinical Psychology (CLN)

The clinical psychology concentration trains students to have flexibility to fill the evolving functions of clinical psychologists, including research, direct provision of clinical services, supervision, program development and evaluation, and consultation.

The clinical psychology MA concentration is not a terminal degree. Students who have been admitted to the doctoral program with a concentration in clinical psychology may apply to receive the MA in psychology on completion of 31 credits of course work. Students must also be in good standing in the program, as determined by the director of clinical training.

Four foundation courses (14 credits)

- PSYC 810 - Psychological Assessment I Credits: 4
- PSYC 811 - Psychological Assessment II Credits: 4
- PSYC 822 - Scientific Foundations of Clinical Psychology I Credits: 3
- PSYC 860 - Introductory Helping Skills and Motivational Interviewing Credits: 3

Two practicum courses (6 credits)

- PSYC 861 - Cognitive Behavioral Therapy for Youth Credits: 3
• PSYC 862 - Cognitive Behavioral Therapy for Adults Credits: 3

Three or more courses in advanced statistics and research methods (10-11 credits)

Note: For doctoral quantitative emphases B and C, both PSYC 754 and PSYC 756 must be taken, but only one of these courses is required for the MA.

• PSYC 644 - Methods for Social Research Credits: 3
• PSYC 611 - Advanced Statistics Credits: 4
  A choice of:
• PSYC 612 - Advanced Statistics Credits: 4
• PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques Credits: 3
• PSYC 756 - Quantitative Methods IV: Multivariate Techniques in Psychology Credits: 3

Electives (0-1 credits)

Students choosing Quantitative Emphasis A do not need to take any credits of electives in order to earn the MA, as their required courses total 31 credits. Students choosing Emphasis B or C need an additional credit in order to earn their MA, as their required coursework totals 30 credits. They should fulfill this final credit through registering for 1 credit of PSYC 897 - Directed Reading and Research, supervised by their advisor, or PSYC 892 - Special Topics in Psychology.

Total: 31 credits

▲ Concentration in Cognitive and Behavioral Neuroscience (CBNR)

The concentration in cognitive and behavioral neuroscience focuses on studying biological substrates of behavior. Core and affiliated faculty study areas as diverse as neural control of behavioral development; brain systems in substance abuse; animal models of learning and memory and their disorders (such as Alzheimer's); human brain systems involved in cognition, perception, human error, decision making, and movement; the relation of neural activity to human performance; and cognitive aging. A focus of the program is on translational neuroscience-complementary study of neural systems in humans and animals, including application of animal research to human behavior.

Two courses (5 credits) of specialized content

• PSYC 527 - Introduction to Neurobiology Credits: 2
• PSYC 558 - Neuronal Bases of Learning and Memory Credits: 3

One chemistry course (3 credits) chosen from:

• PSYC 556 - Chemistry and the Brain Credits: 3
• PSYC 559 - Behavioral Chemistry Credits: 3
• PSYC 592 - Special Topics Credits: 1-6 (when topic is Biological Bases of Mental Illness and Drug Abuse)

Two courses (8 credits) of quantitative methods

• PSYC 611 - Advanced Statistics Credits: 4
• PSYC 612 - Advanced Statistics Credits: 4
Professional seminar (1 credit)

- PSYC 890 - Seminar in Professional Psychology Credits: 1-3

Elective courses (at least 9 credits)

Students complete the 32 credits required for the degree through additional credits of course work or research. They can choose from courses below or other courses with the approval of their advisor. Students intending to pursue a doctorate are strongly advised to take PSYC 531.

- PSYC 531 - Mammalian Neurobiology Credits: 3
- PSYC 552 - Histology/Histochemistry of the Brain Credits: 5
- BIOL 583 - General Biochemistry Credits: 4
- PSYC 561 - Behavioral Biology of Substance Abuse Credits: 3
- PSYC 702 - Biological Bases of Human Behavior Credits: 3
- PSYC 704 - Life-Span Development Credits: 3

Thesis (6 credits)

A thesis is normally required, but 6 credits of PSYC 792 - Practicum may serve as a substitute if approved by the advisor and program coordinator.

Students should be aware of the policies governing theses. They must follow the thesis enrollment policy of the university and once enrolled in PSYC 799, maintain continuous enrollment. See Academic Policies.

- PSYC 798 - Thesis Proposal Credits: 1-6
- PSYC 799 - Master's Thesis Credits: 1-6 (minimum of 3 credits)

Total: 32 credits

▲ Concentration in Human Factors/Applied Cognition (HF)

The human factors/applied cognition concentration trains students in the application of cognitive science to real-world problems. Students gain expertise in such areas as human/computer interaction, cognitive system engineering, cognitive ergonomics, and transportation. Faculty members help place students who do not have real-world experience in a part- or full-time practicum before completing the degree.

One core course (3 credits) chosen from:

- PSYC 701 - Cognitive Bases of Behavior Credits: 3
- PSYC 759 - Applied Decision Making Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3

Two courses (8 credits) of quantitative methods

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4
Two courses (6 credits) of specialized content

- PSYC 530 - Cognitive Engineering: Cognitive Science Applied to Human Factors Credits: 3
- PSYC 645 - Research Methods in Human Factors and Applied Cognition Credits: 3

Two courses (6 credits) which may be repeated, chosen from:

- PSYC 734 - Seminar in Human Factors and Applied Cognition Credits: 3
- PSYC 737 - Psychology of Human-Technology Interaction Credits: 3
- PSYC 768 - Advanced Topics in Cognitive Science Credits: 3

Electives (0-9 credits)

Students complete the 32 credits required for this degree through additional course work, including courses not listed above, within or outside the department, with prior written approval of the graduate director.

Practicum (optional) (6 credits)

Students need an advisor's approval to register for practicum.

- PSYC 792 - Practicum in Developmental Psychology, Biopsychology, and School Psychology Credits: 1-6

Thesis (optional) (6 credits)

Students need the chair's approval to register for thesis. Students should be aware of the policies governing theses. They must follow the thesis enrollment policy of the university and once enrolled in PSYC 799, maintain continuous enrollment. See Academic Policies.

- PSYC 798 - Thesis Proposal Credits: 1-6
- PSYC 799 - Master's Thesis Credits: 1-6 (minimum of 3 credits)

Total: 32 credits

▲ Concentration in Industrial/Organizational Psychology (IO)

The industrial/organizational psychology concentration trains students in the conduct and application of psychological research in work settings. Expertise can be developed in a variety of areas, including personnel selection, training, leadership, motivation, and human performance assessment.

One core course (3 credits)

- PSYC 703 - Social Bases of Behavior Credits: 3

Three courses (at least 10 credits) of statistics

- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4 or PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques Credits: 3
- PSYC 557 - Psychometric Methods or PSYC 633 - Evaluative Research in Psychology Credits: 3

Two courses (6 credits) of survey of content

- PSYC 636 - Survey of Industrial Psychology Credits: 3
- PSYC 639 - Survey of Organizational Processes Credits: 3

Three courses (9 credits) of specialized content chosen from:

When their topic is relevant, other courses, including sections of PSYC 592, may be applied to this requirement.

- PSYC 638 - Training: Psychological Contributions to Theory, Design, and Evaluation Credits: 3
- PSYC 640 - Techniques in Industrial/Organizational Psychology Credits: 3
- PSYC 733 - Issues in Personnel Psychology Credits: 3
- PSYC 741 - Psychology of Work Motivation Credits: 3
- PSYC 667 - Behavior in Small Groups and Teams Credits: 3
- PSYC 631 - Industrial and Personnel Testing and Evaluation Credits: 3
- PSYC 739 - Seminar in Industrial/Organizational Psychology Credits: 3

1 credit of professional development chosen from:

- Practicum (Students need an advisor’s approval to register for practicum.)
- PSYC 890 - Seminar in Professional Psychology Credits: 1-3

Electives (0-3 credits)

Students complete the 32 credits required for this degree through additional course work in statistics or specialized content.

Total: 32 credits

▲ Concentration in School Psychology (SCH)

The School Psychology program is committed to preparing graduate students to practice psychology in educational and clinical settings that serve children, adolescents, and their families. The program employs an instructional model that combines a sound understanding of psychological theory and research with outstanding practicum and internship experiences. The curriculum imparts foundational knowledge in psychology, education, intervention and problem solving, statistics and research methodology, and professional school psychology, along with supervised experiences in educational and clinical settings.

Students admitted to the MA in psychology concentration in school psychology are expected to complete also the School Psychology Graduate Certificate. Students must apply for admission to both the master’s program concentration and the certificate. Students in the combined master's concentration-certificate program must complete a one-year full-time internship along with a 6-credit internship course during their third year of study: PSYC 790 - School Psychology Internship

Students who are admitted to the MA in psychology concentration in applied developmental psychology who wish also to pursue additional training in school psychology must apply for admission to the school psychology program. These students should consult with the director of the school psychology program to develop an individual program of study that fulfills the requirements for licensure or certification.
The MA concentration and graduate certificate make up a program designed to prepare graduates for professional practice in school psychology. The program is approved by School Psychology Training Programs of the National Association of School Psychologists (NASP). Students completing this concentration in the master’s degree and the certificate will be eligible for licensure in Virginia by the state Board of Education and certification or licensure in other states as a school psychologist. Certification or licensure as a school psychologist typically requires all course work for both the master’s degree and the certificate. (Students seeking licensure for independent practice as a school psychologist must meet the educational, residency, and exam requirements of the Commonwealth of Virginia Board of Psychology.)

Students in the school psychology concentration are required to enroll full time unless an alternative arrangement is made with the permission of the director of the concentration.

Non-Mason students enrolled in a school psychology training program at another institution who are completing an internship in the local area and wish to enroll in PSYC 790 - School Psychology Internship may do so by enrolling in nondegree status with approval by the director of the program.

The number of credits required for the concentration may be reduced by a maximum of 18 credits on the basis of graduate course work completed before admission with approval of the school psychology faculty, director of the graduate program, and dean.

**Satisfactory Performance**

Students pursuing combined master's concentration-certificate program must receive a minimum grade of 3.00 in each course. An unsatisfactory evaluation at any time by the School Psychology Committee may result in termination from the program.

**One required counseling course (3 credits)**

- EDCD 603 - Counseling Theories and Practice Credits: 3

**One required EDSE course (3 credits) chosen from:**

- EDSE 628 - Elementary Reading, Curriculum, and Strategies for Students who Access the General Education Curriculum Credits: 3
- EDSE 629 - Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum Credits: 3

**One course (3 credits) chosen from:**

- PSYC 506 - Theories of Personality Credits: 3
- PSYC 669 - Social and Emotional Development Credits: 3
- PSYC 704 - Life-Span Development Credits: 3

**Additional required psychology courses (37 credits):**

- PSYC 592 - Special Topics Credits: 1-6 (when topic is Diversity)
- PSYC 611 - Advanced Statistics Credits: 4
- PSYC 612 - Advanced Statistics Credits: 4
- PSYC 617 - Child Psychopathology Credits: 3
- PSYC 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy Credits: 3
- PSYC 671 - Role and Function of the School Psychologist Credits: 3
- PSYC 673 - Prevention, Intervention, and Consultation in Schools Credits: 4
• PSYC 709 - The Measurement of Intelligence Credits: 4
• PSYC 710 - Psychological Assessment Credits: 4
• PSYC 750 - School Psychology Practicum I Credits: 1
• PSYC 722 - Advanced Child Assessment Credits: 4

Total: 46 credits

Graduate Certificate in School Psychology (15 credits)

All students completing the MA concentration in school psychology are expected to complete the Graduate Certificate in School Psychology.

Total for Concentration and Certificate in School Psychology: 61 credits

Non-Degree

Neuroscience Minor

Banner Code: NEUR

Web: psychology.gmu.edu

Neuroscience is one of the most rapidly growing disciplines in science today. Due to its interdisciplinary nature, it draws on skills from anatomy, chemistry, electrical engineering, genetics, math, and psychology, among others. Students in these fields can benefit from an awareness of applications of these fields to neuroscience and through this minor, more directly prepare for later work in neuroscience.

Course Work

Students pursuing this minor must complete at least 20 credits of coursework with a minimum GPA of 2.00.

Two biology courses (7-8 credits)

One required course (4 credits)

• BIOL 213 - Cell Structure and Function Credits: 4

One elective course (3-4 credits) chosen from:

• BIOL 311 - General Genetics Credits: 4
• BIOL 320 - Comparative Chordate Anatomy Credits: 4
• BIOL 322 - Developmental Biology Credits: 4
• BIOL 326 - Animal Physiology Credits: 3
• BIOL 425 - Human Physiology Credits: 3

Three psychology courses (7 credits)
- PSYC 373 - Physiological Psychology Laboratory Credits: 1
- PSYC 375 - Brain and Sensory Processes Credits: 3
- PSYC 376 - Brain and Behavior Credits: 3

Two neuroscience courses (6 credits)

- NEUR 327 - Cellular, Neurophysiological, and Pharmacological Neuroscience Credits: 3
- NEUR 335 - Molecular, Developmental, and Systems Neuroscience Credits: 3

Total: 20-21 credits

Psychology Minor

Banner Code: PSYC

Web: psychology.gmu.edu

Coursework in psychology can enhance many different majors, and the minor in psychology is available to students in any major at Mason. For a list of suggested courses for students who are majoring in specific disciplines that interact especially well with psychology, contact the Undergraduate Psychology Office.

This program of study is offered by the Department of Psychology.

For policies governing all minors, see Academic Policies.

Course Work

Students pursuing this minor must complete 18 credits of psychology with a minimum GPA of 2.0.

One required course (3 credits)

- PSYC 100 - Basic Concepts in Psychology Credits: 3

Three courses (9 credits) in three of the following areas of psychology

Students must choose cognition or physiological as one of the three areas, though they may choose both.

Abnormal

- PSYC 325 - Abnormal Psychology Credits: 3

Cognition

- PSYC 317 - Cognitive Psychology Credits: 3

Developmental
- PSYC 211 - Developmental Psychology Credits: 3
- PSYC 313 - Child Development Credits: 3

Physiological
- PSYC 372 - Physiological Psychology Credits: 3
  or
- PSYC 375 - Brain and Sensory Processes Credits: 3 and PSYC 376 - Brain and Behavior Credits: 3

Social/personality
- PSYC 231 - Social Psychology Credits: 3
- PSYC 324 - Personality Theory Credits: 3

Psychology electives (6 credits)

No more than three credits of PSYC 260, 350, and 460 (in total) may be used as elective credit toward the minor.

Total: 18 credits

Public and International Affairs

Phone: 703-993-1400
Web: pia.gmu.edu

Faculty

Robinson Professors: Heclo, Paden, Pearlstein

Emeritus faculty: Brown, Clark, Gortner, Hart-Nibbrig, Knight, White

Professors: Abramson, Conant, Conlan, Druckman, Dudley, Katz, McFerson, Posner, Regan (chair), Sockett, Wan, Wilsford

Associate professors: Balint, Benjamin, Burt, Dueck, Harbour, Koblentz, Lukacs, Mandaville, McDonald, McGlinchey, Miller, Nguyen, Sacco, Thrall, Toepler, Travis

Assistant professors: Butt, Daigle, Haddad, Lopez-Santana, Marvel, McGrath, Ouagrham-Gormley, Robbins, Scherer, Victor

Term faculty: Burroughs, Edner, Ericson, Griffin, Ludwick, Schneider, Shafroth, Walker

Affiliate faculty: Annpurna, Bernardi, Bushee, Connolly, Farnsworth, Gandhi, Goerl, Healy, Hoagland, Loonsk, Marshall, Mendis, O'Neil, Peake, Shogan, Teachenko

Course Work
The Public and International Affairs Department offers all course work designated BIOD, GOVT, and PUAD in the Courses section of this catalog.

**Undergraduate Programs**

The department offers two degrees for students interested in political science, government, and international relations: a BA in government and international politics and a BS in public administration. Majors in government and international politics take core courses in American political institutions, the political systems of other countries, and international relations. Students can focus their electives to earn a concentration in American politics, international politics, political theory and law, or public policy. Majors in public administration take courses in government, management, policy, and administration. Concentrations are offered in administration and management, public policy, nonprofit management, US government institutions, and administration and economics.

Students have an opportunity to do internships as part of their degree programs, gaining valuable work experience while earning college credit.

**Honors in the Major**

Highly qualified students majoring in government and international politics and public administration may pursue advanced work leading to graduation with honors in the major. Those students selected for participation in this program take a two-course sequence GOVT 491 and 496. To graduate with honors in the major, students must complete these courses with a minimum GPA of 3.50.

**Minors**

The department offers minors in American government, international/comparative studies, international security, legal studies, and public policy and management. In addition, faculty from the department coordinate or participate in the Asia-Pacific and Northeast Asian Studies Minor, Global Systems Minor, Middle East Studies Minor, Islamic Studies Minor, and Urban and Suburban Studies Minor. It participates with the Philosophy Department in the Political Philosophy Minor. See Minors and Interdisciplinary Minors in this section.

**Bachelor's/Accelerated Master's Programs**

The department offers highly qualified undergraduates the opportunity to apply to an accelerated master’s degree program in political science or public administration. If accepted, students will be able to earn both an undergraduate and a graduate degree after satisfactory completion of 150 credits, sometimes within five years.

**Graduate Programs**

The department offers masters and doctoral programs in biodefense and political science. The department also offers a master of public administration (MPA), in which students can focus their electives to earn a concentration in administration of justice, emergency management and homeland security, environmental science and public policy, human resources management, international management, nonprofit management, policy studies, public management, public and nonprofit finance, state and local government, or third-party governance.

**Funding**
The department offers teaching and research assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

Certificate Programs

The department offers six graduate certificates. Students may pursue a certificate as a stand alone program or as part of another graduate degree. They must apply for admission to the certificate program and meet the admission standards set for degree-seeking graduate students in the department.

Master’s International (MI)

Graduate students can take advantage of Master’s International (MI), a joint program between Mason and the Peace Corps, which enables participants to combine Peace Corps volunteer service with the master's degrees in political science or public administration. See the degree programs below for more details.

Bachelor of Arts

Government and International Politics, BA

Banner Code: LA-BA-GVIP

Web: pia.gmu.edu

This program of study is offered by the Department of Public and International Affairs. For policies governing all undergraduate degrees, see Academic Policies.

This undergraduate program offers students the option of applying to the accelerated master's degree program in political science or public administration. See each listing for specific requirements.

Degree Requirements

Students pursuing a BA in government and international politics and wishing to narrow their focus may choose to concentrate in one of four government fields or complete a higher credit concentration in philosophy, politics, and economics.

BA with or without government concentration

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in government and international politics must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences.

Students pursuing this degree must complete 43 credits in GOVT and earn a minimum grade of 2.00 in each course applied to the major.

Five core courses (16 credits)

- GOVT 101 - Democratic Theory and Practice Credits: 3
- GOVT 103 - Introduction to American Government Credits: 3
• GOVT 132 - Introduction to International Politics Credits: 3
• GOVT 133 - Introduction to Comparative Politics Credits: 3
• GOVT 300 - Research Methods and Analysis Credits: 4

One senior seminar (3 credits) chosen from:

• GOVT 490 - Synthesis Seminar Credits: 3
• GOVT 491 - Honors Seminar Credits: 3
  This option is for students who have been accepted to pursue honors in the major.

Government Field Study (24 credits)

Students complete the degree by taking eight advanced government field courses (24 credits), with or without a government concentration. Students may complete a government concentration (five courses) in one field, then complete one course in each of the remaining fields to satisfy this requirement. Students who do not pursue a government concentration may choose 24 credits from the advanced government field courses listed below (with restriction) for a broader learning experience.

All students must take at least one course (3 credits) from each of the lists of advanced field courses.

Concentrations (0-15 credits)

Students may partially satisfy the government field focus requirement by completing five courses (15 credits) in any one (1) approved concentration as described below.

Students pursuing a government concentration will complete the degree by taking one courses (3 credits) in each of the remaining three fields, chosen from the lists of advanced field courses shown below, to complete a total of 24 credits of field courses.

GOVT 490 or GOVT 491 may not be used to fulfill a requirement for a concentration.

▲Concentration in American Politics (AMP)

Five courses (15 credits) chosen from:

• GOVT 301-319
• GOVT 401-419

▲Concentration in Political Theory and Law (PTL)

Five courses (15 credits) chosen from:

• GOVT 320 - 329
• GOVT 420 - 429
• GOVT 446
• GOVT 470-472

▲Concentration in International and Comparative Politics (ICOM)

Five courses (15 credits) chosen from:

• GOVT 330 - 349
• GOVT 430 - 449

▲Concentration in Public Policy and Administration (PPA)

Five courses (15 credits) chosen from:

• GOVT 350 - 369
• GOVT 450 - 469

Advanced government field courses (9-24 credits)

Students may complete the degree without concentration by taking eight courses (24 credits) of advanced field courses, to include at least one course (3 credits) from each of the four government fields listed below.

Up to 3 credits of GOVT 480 may be used to fulfill this requirement with prior approval of the internship coordinator. Up to 6 credits of GOVT 496 may be used to fulfill this requirement with prior approval of the instructor and chair. GOVT 490 or GOVT 491 may not be used to fulfill this requirement.

Students who are pursuing a concentration in one field must take at least one course from each of the other three fields to complete the degree.

Public policy and administration

• GOVT 351 - Administration in the Political System Credits: 3
• GOVT 353 - Social Entrepreneurship Credits: 3
• GOVT 354 - Third-Party Government and the Nonprofit Sector Credits: 3
• GOVT 355 - Public Personnel Administration Credits: 3
• GOVT 356 - Public Budgeting and Finance Credits: 3
• GOVT 357 - Urban Governance and Planning Credits: 3
• GOVT 358 - Nonprofit Financial Planning Credits: 4
• GOVT 359 - Computers in Public Management Credits: 3
• GOVT 361 - Introduction to Environmental Policy Credits: 3
• GOVT 364 - Public Policy Making Credits: 3
• GOVT 365 - State and Regional Public Policy Credits: 3
• GOVT 366 - Public Policy Analysis Credits: 3
• GOVT 367 - Money, Markets and Economic Policy Credits: 3
• GOVT 452 - Administrative Law and Procedures Credits: 3
• GOVT 460 - Surveillance and Privacy in Contemporary Society Credits: 3
• GOVT 464 - Issues in Public Policy and Administration Credits: 1-3

American politics

• GOVT 301 - Public Law and the Judicial Process Credits: 3
• GOVT 302 - American Political Development Credits: 3
• GOVT 304 - American State and Local Government Credits: 3
• GOVT 305 - Contemporary American Federalism Credits: 3
• GOVT 307 - Legislative Behavior Credits: 3
• GOVT 308 - The American Presidency Credits: 3
• GOVT 309 - Government and Politics of Metropolitan Areas Credits: 3
• GOVT 311 - Public Opinion and Electoral Behavior Credits: 3
• GOVT 312 - Political Parties and Campaigns Credits: 3
• GOVT 318 - Interest Groups, Lobbying, and the Political Process Credits: 3
• GOVT 319 - Issues in Government and Politics Credits: 1-3
• GOVT 407 - Law and Society Credits: 3
• GOVT 409 - Virginia Government and Politics Credits: 3
• GOVT 412 - Politics and the Mass Media Credits: 3
• GOVT 414 - Politics of Race and Gender Credits: 3

Political theory and law

• GOVT 322 - International Relations Theory Credits: 3
• GOVT 323 - Classical Western Political Theory Credits: 3
• GOVT 324 - Modern Western Political Theory Credits: 3
• GOVT 327 - Contemporary Western Political Theory Credits: 3
• GOVT 328 - Non-Western Political Theory Credits: 3
• GOVT 329 - Issues in Political Theories and Values Credits: 1-3
• GOVT 420 - American Political Thought Credits: 3
• GOVT 421 - Contemporary Political Ideologies Credits: 3
• GOVT 422 - Constitutional Interpretation Credits: 3
• GOVT 423 - Constitutional Law: Civil Rights and Liberties Credits: 3
• GOVT 424 - Constitutional Law: Criminal Process and Rights Credits: 3
• GOVT 427 - Feminist Political Thought Credits: 3
• GOVT 428 - Advanced Democratic Theory Credits: 3
• GOVT 470 - Faith and Reason in the Making of the Modern Mind Credits: 3
• GOVT 471 - Millennialism and Philosophies of History in Western Culture Credits: 3
• GOVT 472 - Christianity, Secularism, and Democracy Credits: 3

International and comparative politics

• GOVT 331 - Government and Politics of Latin America Credits: 3
• GOVT 332 - Government and Politics of the Middle East and North Africa Credits: 3
• GOVT 333 - Government and Politics of Asia Credits: 3
• GOVT 334 - Government and Politics of Europe Credits: 3
• GOVT 336 - Political Development and Change Credits: 3
• GOVT 337 - Ethnic Politics in Western Europe and North America Credits: 3
• GOVT 338 - Government and Politics of Russia Credits: 3
• GOVT 339 - Issues in the Politics of Advanced Industrial Societies Credits: 1-3
• GOVT 340 - Central Asian Politics Credits: 3
• GOVT 341 - Chinese Foreign Policy Credits: 3
• GOVT 342 - Diplomacy Credits: 3
• GOVT 343 - International Political Economy Credits: 3
• GOVT 344 - American Foreign Policy Credits: 3
• GOVT 345 - Political Islam Credits: 3

- GOVT 445 - Human Rights Credits: 3
- GOVT 446 - International Law and Organization Credits: 3
- GOVT 447 - Revolution and International Politics Credits: 3
- GOVT 448 - Ethics and International Politics Credits: 3

Total: 43 credits

BA with non-government concentration

▲ Concentration in Philosophy, Politics, and Economics (PPE)

Five core courses (16 credits)

- GOVT 101 - Democratic Theory and Practice Credits: 3
- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 132 - Introduction to International Politics Credits: 3
- GOVT 133 - Introduction to Comparative Politics Credits: 3
- GOVT 300 - Research Methods and Analysis Credits: 4

One senior seminar (3 credits) chosen from:

- GOVT 490 - Synthesis Seminar Credits: 3
- GOVT 491 - Honors Seminar Credits: 3
  This option is for students who have been accepted to pursue honors in the major.

Government Field Study (24 credits)

Students complete the following coursework:

One course (3 credits) in American Politics chosen from:

- GOVT 301 - 319
- GOVT 401 - 419

One course (3 credits) in Political Theory and Law

- GOVT 323 - Classical Western Political Theory Credits: 3

One course (3 credits) in International and Comparative Politics

- GOVT 330 - 349
Two courses (6 credits) in Public Policy and Administration

- GOVT 467 - Current Issues in Economic Policy Credits: 3
- GOVT 469 - Philosophy, Politics, and Economics Credits: 3

Three courses (9 credits) of additional upper level GOVT courses

- GOVT 422 - Constitutional Interpretation Credits: 3
- Two additional upper division GOVT courses

Additional concentration courses (24 credits)

- PHIL 324 - Modern Western Political Theory Credits: 3 or PHIL 327 - Contemporary Western Political Theory Credits: 3
- PHIL 357 - Philosophy of the Social Sciences Credits: 3 or PHIL 371 - Philosophy of Natural Sciences Credits: 3
- PHIL 358 - Ethics and Economics Credits: 3
- PHIL 411 - Theories of Decision Credits: 3
- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- ECON 306 - Intermediate Microeconomics Credits: 3
- ECON 412 - Game Theory and Economics of Institutions Credits: 3

Total: 67 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors. Students majoring in government and international politics may fulfill this requirement by successfully completing GOVT 490 or GOVT 491 in their major programs.

Bachelor of Science

Public Administration, BS

Banner Code: LA-BS-PUAD

Web: pia.gmu.edu

This program of study is offered by the Department of Public and International Affairs. For policies governing all graduate degrees, see Academic Policies.

This undergraduate program offers students the option of applying to the accelerated master's degree program in public administration or political science. See each listing for specific requirements.

Degree Requirements
Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BS in public administration must complete additional college requirements for the BS degree in the College of Humanities and Social Sciences.

Students must earn a minimum grade of 2.00 in each course applied to the major, including GOVT courses as well as the supporting courses in other disciplines used to fulfill the requirements below. With careful planning, some courses required for the major may also fulfill university general education requirements. See an advisor before registering.

Eight core courses (25 credits)

- GOVT 101 - Democratic Theory and Practice Credits: 3
- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 132 - Introduction to International Politics or GOVT 133 - Introduction to Comparative Politics Credits: 3
- GOVT 300 - Research Methods and Analysis Credits: 4
- GOVT 351 - Administration in the Political System Credits: 3
- ECON 103 - Contemporary Microeconomic Principles Credits: 3
- ECON 104 - Contemporary Macroeconomic Principles Credits: 3
- One course (3 credits) in math or statistics

One senior seminar (3 credits) chosen from:

- GOVT 490 - Synthesis Seminar Credits: 3
- GOVT 491 - Honors Seminar Credits: 3

Public Administration Field Study (minimum of 24 credits)

Students complete the degree by taking a minimum of 24 credits of advanced public administration field courses, with or without concentration. Students may complete a concentration of at least 15 credits in one field, then earn a minimum of 9 additional credits by taking courses in three of the four remaining fields to satisfy this requirement. Students who do not wish to pursue a concentration may choose at least 24 credits from the advanced public administration courses listed below (with restrictions noted below) for a broader learning experience.

Concentrations (0-15 credits)

Students may partially satisfy the field focus requirement by completing at least 15 credits in any one (1) approved concentration as described below.

Students pursuing a concentration will complete the degree by taking one course (3-4 credits) in three of the remaining four fields, chosen from the lists of advanced field courses shown below, to complete a minimum of 24 credits of field courses.

▲ Concentration in Administration and Management (ADMM)

Five courses (at least 15 credits) chosen from the list of administration and management field courses below.

▲ Concentration in Public Policy (PUBP)

Five courses (15 credits) chosen from the list of public policy field courses below.
Concentration in Nonprofit Management (NPMG)

Five courses (at least 15 credits) chosen from the list of nonprofit management field courses below.

Concentration in US Government Institutions (USGI)

Five courses (15 credits) chosen from the list of US government institutions field courses below.

Concentration in Administration and Economics (ADME)

Five courses (15 credits) chosen from the list of administration and economics field courses below.

Advanced public administration field courses (9-24 credits)

Students complete the degree by taking at least 24 credits of advanced government field courses. One course (3 credits) from four of the five advanced fields below must be included (total 12 credits). Students who do not pursue a formal concentration may choose from all five lists of field courses to complete the remaining 12 credits.

Up to 3 credits of GOVT 480 may be used to fulfill the field course requirement with prior approval of the internship coordinator. Up to 6 credits of GOVT 496 may be used to fulfill this requirement with prior approval of the advisor. GOVT 490 may NOT be used to fulfill this requirement.

Administration and Management

- GOVT 305 - Contemporary American Federalism Credits: 3
- GOVT 355 - Public Personnel Administration Credits: 3
- GOVT 356 - Public Budgeting and Finance Credits: 3
- GOVT 358 - Nonprofit Financial Planning Credits: 4
- GOVT 359 - Computers in Public Management Credits: 3
- GOVT 367 - Money, Markets and Economic Policy Credits: 3
- GOVT 452 - Administrative Law and Procedures Credits: 3
- GOVT 464 - Issues in Public Policy and Administration Credits: 1-3

Public Policy

- GOVT 312 - Political Parties and Campaigns Credits: 3
- GOVT 318 - Interest Groups, Lobbying, and the Political Process Credits: 3
- GOVT 346 - American Security Policy Credits: 3
- GOVT 347 - International Security Credits: 3
- GOVT 361 - Introduction to Environmental Policy Credits: 3
- GOVT 364 - Public Policy Making Credits: 3
- GOVT 366 - Public Policy Analysis Credits: 3
- GOVT 412 - Politics and the Mass Media Credits: 3
- GOVT 464 - Issues in Public Policy and Administration Credits: 1-3
- ECON 309 - Economic Problems and Public Policies Credits: 3
- ECON 335 - Environmental Economics Credits: 3

Nonprofit Management
- GOVT 353 - Social Entrepreneurship Credits: 3
- GOVT 354 - Third-Party Government and the Nonprofit Sector Credits: 3
- GOVT 358 - Nonprofit Financial Planning Credits: 4
- NCLC 331 - The Nonprofit Sector Credits: 4
- NCLC 431 - Principles of Fund Raising Credits: 4
- ECON 355 - The Political Economy of Nonprofit Institutions Credits: 3

US Government Institutions

- GOVT 301 - Public Law and the Judicial Process Credits: 3
- GOVT 302 - American Political Development Credits: 3
- GOVT 304 - American State and Local Government Credits: 3
- GOVT 305 - Contemporary American Federalism Credits: 3
- GOVT 307 - Legislative Behavior Credits: 3
- GOVT 308 - The American Presidency Credits: 3
- GOVT 309 - Government and Politics of Metropolitan Areas Credits: 3
- GOVT 311 - Public Opinion and Electoral Behavior Credits: 3
- GOVT 409 - Virginia Government and Politics Credits: 3

Administration and Economics

- GOVT 367 - Money, Markets and Economic Policy Credits: 3
- ECON 309 - Economic Problems and Public Policies Credits: 3
- ECON 310 - Money and Banking Credits: 3
- ECON 320 - Labor Problems Credits: 3
- ECON 335 - Environmental Economics Credits: 3
- ECON 355 - The Political Economy of Nonprofit Institutions Credits: 3

Total: 52 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors. Students majoring in public administration may fulfill this requirement by successfully completing GOVT 490 or GOVT 491 in their major programs.

Bachelor/Accelerated Master's

Government and International Politics, BA/Political Science, Accelerated MA

Web: pia.gmu.edu

Highly qualified Mason students doing a BA in government and international politics may apply to the accelerated master's degree program. If accepted, students will be able to earn both the BA and an MA in political science after satisfactory completion of 150 credits.
This program of study is offered by the Department of Public and International Affairs. For policies governing all graduate degrees, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the accelerated master's in political science, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

While undergraduate students, accelerated master’s students complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Government and International Politics, BA/Public Administration, Accelerated MPA

Web: pia.gmu.edu

Highly qualified Mason students doing a BA in government and international politics may apply to the accelerated master’s degree program. If accepted, students will be able to earn the BA and the MPA after satisfactory completion of 150 credits.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate degrees, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the accelerated MPA, see Application Requirements and Deadlines on the departmental web site.
Degree Requirements

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Doctor of Philosophy
Biodefense, PhD

Banner Code: LA-PHD-BIOD

Web: pia.gmu.edu

The doctoral program in biodefense is designed to prepare students to serve as scholars and professionals in the fields of biodefense and biosecurity. The program integrates knowledge of natural and man-made biological threats with the skills to develop and analyze policies and strategies for enhancing biosecurity. Other areas of biodefense, including nonproliferation, intelligence and threat assessment, and medical and public health preparedness are integral parts of the program.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate degrees, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the PhD in biodefense, see Application Requirements and Deadlines on the departmental web site.

Reduction of Credit

Students who enter the doctoral program with a master’s degree or other graduate credit may have their credit reduced by up to 30 credits at the discretion of the department with the approval of the dean.

Degree Requirements

To receive a PhD in biodefense, students must complete a minimum of 72 credits. Students are strongly encouraged to take the core courses as early as possible because they provide the foundation for the rest of the program. The courses that students plan on taking should be approved in a program of study designed by the student and their advisor during the student’s first semester. Students may take up to 12 credits of courses outside of the Biodefense Program with prior written approval of their advisor. Consult with the graduate program director or coordinator for a list of BIOD electives and approved non-BIOD electives that can be used to fulfill some of the requirements below.

Doctoral Course Work (48-60 credits)

Seven core courses (21 credits)

- BIOD 604 - Introduction to Biodefense I: Bacterial and Toxin Agents Credits: 3
- BIOD 605 - Introduction to Biodefense II: Viral Agents Credits: 3
- BIOD 609 - Biodefense Strategy and Policy Credits: 3
- GOVT 500 - The Scientific Method and Research Design Credits: 3
- GOVT 540 - International Relations Credits: 3
- PUAD 637 - Managing Homeland Security Credits: 3
- One additional advanced research course (3 credits) chosen from GOVT 712, GOVT 717, PUAD 646, or an alternative research course approved by the program director.
Four courses (12 credits) in one field of specialization

International Security

Two required field seminars (6 credits)

- GOVT 744 - Foundations of Security Studies Credits: 3
- GOVT 745 - International Security Credits: 3

Two elective courses (6 credits)

Terrorism and Homeland Security

Two required field seminars (6 credits)

- BIOD 722 - Examining Terrorist Groups Credits: 3
- BIOD 725 - Terrorism and Weapons of Mass Destruction Credits: 3

Two elective courses (6 credits)

Technology and Weapons of Mass Destruction

Two required seminars (6 credits)

- BIOD 706 - Nuclear, Biological, and Chemical Weapons Policy and Security Credits: 3
- BIOD 760 - National Security Technology and Policy Credits: 3

Two elective courses (6 credits)

Two courses (6 credits)

Of the courses listed for the fields of specialization above, students must select two courses from those that are not in their chosen field.

Electives (9 to 21 credits)

Students complete the remaining credits through additional elective courses chosen in consultation with an advisor. These courses may be in the department or may be offered by other departments.

Qualifying Exam

The purpose of the qualifying exam is to determine if the student is ready to engage in dissertation research. Doctoral students are eligible to take the exam at the conclusion of coursework, provided an approved Degree Plan is on file in the department. The exam must be completed before the student takes dissertation proposal (BIOD 998).

Advancement to Candidacy
To advance to candidacy, students must complete all coursework required on their approved program of study and pass a qualifying exam.

Dissertation Research (12-24 credits)

Once enrolled in 998, students in this degree program must maintain continuous registration in 998 or 999 each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in 999, students must follow the university’s continuous registration policy as specified in the Academic Policies section of the catalog. Students who defend in the summer must be registered for at least 1 credit of 999.

Students may apply to this degree a minimum of 3 and a maximum of 6 credits of 998 and a minimum of 9 and a maximum of 18 credits of 999. They may apply a maximum of 24 dissertation credits (998 and 999 combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

Before registering in BIOD 999, students must offer a successful public defense of the dissertation proposal. Students must present the results of the dissertation research to their dissertation committee in a seminar and defend their dissertation to the university community. Successful completion of a dissertation is contingent on approval of the dissertation committee and the dean.

- BIOD 998 - Doctoral Dissertation Proposal Credits: 1-12
- BIOD 999 - Doctoral Dissertation Credits: 1-12 (minimum of 9 credits)

Total: 72 credits

Political Science, PhD

Banner Code: LA-PHD-POS

Web: pia.gmu.edu

The doctoral program in political science is designed to prepare students for teaching and conducting research about government, careers in government and politics, and work in domestic and international nongovernmental organizations. The program allows students to combine their academic education with experience in the kinds of complex domestic and international political organizations they are studying. This model for political science education, patterned after the American Political Science Association’s Congressional Fellows Program, is designed to foster scholarship and a firsthand understanding of domestic and international institutions such as think tanks, international bodies, nongovernmental organizations, journals of political opinion, and congressional and executive branch offices.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate degrees, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the PhD in political science, see Application Requirements and Deadlines on the departmental web site.

Reduction of Credit
For students entering the program with a master’s or MPA degree, the number of credits required for the doctorate may be reduced by a maximum of 30 credits subject to approval of the graduate coordinator and the dean.

Progress Review

For students who have been admitted with a bachelor’s degree, the Faculty Review Committee will review each student’s progress after 30 credits of course work to determine whether the student will be allowed to continue their work toward the PhD. For students entering the program with a master’s degree, this review will occur after 12 credits in this program. Students that are not allowed to continue to work toward the PhD, will be allowed to complete the MA degree.

Degree Requirements

Students pursuing this degree must complete a minimum of 72 graduate credits. The course work for the degree is divided among core courses, advanced courses in two major fields and one minor field, research methods courses, experiential learning, and dissertation. A total of 12 credits of supporting courses may be taken in other departments to fulfill a minority of the credits for any of the requirements below, including the methodology requirement, with prior written approval of the director. All the courses should be planned with an advisor and appear on a program of study, which requires the approval of the director.

Doctoral Course Work (48-60 credits)

Three core courses (9 credits) chosen from:

- GOVT 510 - American Government and Politics Credits: 3
- GOVT 520 - Political Theory Credits: 3
- GOVT 530 - Comparative Politics Credits: 3
- GOVT 540 - International Relations Credits: 3
- GOVT 550 - Seminar in Theories of Public Administration Credits: 3

Seven advanced courses (21 credits) in two major fields

Students choose two major fields from the four fields below and complete all course requirements for both fields of study.

American government and politics

Two required field seminars (6 credits) chosen from:

- GOVT 603 - Seminar in the Courts and Constitutional Law Credits: 3
- GOVT 604 - Seminar on Congress and Legislative Behavior Credits: 3
- GOVT 605 - Seminar on the Presidency Credits: 3
- GOVT 706 - Federalism and Intergovernmental Relations Credits: 3

One to three elective courses (3 to 9 credits)

Comparative politics

Two required field seminars (6 credits)
• GOVT 631 - Seminar in Comparative Politics and Institutions Credits: 3
• GOVT 731 - Advanced Seminar in Comparative Politics Credits: 3

One to three elective courses (3 to 9 credits)

International relations

Two required field seminars (6 credits) chosen from:

• GOVT 641 - Global Governance Credits: 3
• GOVT 741 - Advanced Seminar in International Politics Credits: 3
• GOVT 743 - International Political Economy Credits: 3
• GOVT 745 - International Security Credits: 3

One to three elective courses (3 to 9 credits)

Public administration

Two required field seminars (6 credits)

• GOVT 753 - Third-Party Governance Credits: 3
• GOVT 755 - Seminar in Politics and Bureaucracy Credits: 3

One to three elective courses (3 to 9 credits)

Three advanced courses (9 credits) in a minor field

Students choose one minor field in consultation with an advisor. The courses in the minor field should complement the two major fields and need the prior written approval of the advisor.

Three advanced courses (9 credits) in methodology

Two required methodology courses (6 credits)

• GOVT 500 - The Scientific Method and Research Design Credits: 3
• GOVT 511 - Problem Solving and Data Analysis I Credits: 3

One elective methodology course (3 credits)

Students choose an elective methodology course to meet their dissertation research needs. Course work in language or to help achieve proficiency in quantitative or qualitative research techniques may be used to meet this requirement with prior written approval of the program director.

Electives (0-12 credits)

A maximum of 6 credits of electives may come from experience in government and politics. Students do 20 hours per week in the field for one semester or 10 hours per week for two semesters. They produce an academic paper at the conclusion of the
experience discussing the implications of their observations for research in the field and how scholarship in the field might be applied to an issue faced by the organization.

Advancement to Candidacy

To advance to candidacy, students must complete all course work required on their approved program of study. Students must also successfully complete and pass two qualifying exams in major fields. In addition, students must have an approved dissertation committee as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean’s Office before a student can advance to candidacy.

Dissertation Research (12-24 credits)

Once enrolled in 998, students in this degree program must maintain continuous registration in 998 or 999 each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in 999, students must follow the university’s continuous registration policy as specified in the Academic Policies section of the catalog. Students who defend in the summer must be registered for at least 1 credit of 999.

Students may apply to this degree a minimum of 3 and a maximum of 6 credits of 998 and a minimum of 9 credits of 999. They apply a minimum of 12 and a maximum of 24 dissertation credits (998 and 999 combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

Students who do fewer than 24 credits of dissertation will complete their degree with additional elective courses.

• GOVT 998 - Doctoral Dissertation Proposal Credits: 3-6
• GOVT 999 - Doctoral Dissertation Research Credits: 1-12 (minimum of 9 credits)

Total: 72 credits

Graduate Certificate

Administration of Justice Graduate Certificate

Banner Code: LA-CERG-ADJ

Web: pia.gmu.edu

This program of study is offered by the Department of Public and International Affairs.

The graduate certificate in administration of justice may only be pursued on a part-time basis.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in administration of justice, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements
Three required courses (9 credits)

- PUAD 502 - Administration in Public and Nonprofit Organizations Credits: 3
- CRIM 509 - Justice Organizations and Processes Credits: 3
- CRIM 691 - Justice Program Planning and Implementation Credits: 3

Two elective courses (6 credits)

Students choose electives from courses in criminology (CRIM). A list of relevant electives is available under the concentration in administration of justice in the MPA (master of public administration) entry of the catalog.

Total: 15 credits

Association Management Graduate Certificate

Banner Code: LA-CERG-AM

Web: pia.gmu.edu

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate certificates, see Academic Policies.

The graduate certificate in association management may only be pursued on a part-time basis.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in association management, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements

Three required courses (9 credits)

- PUAD 657 - Association Management Credits: 3
- PUAD 659 - Nonprofit Law, Governance, and Ethics Credits: 3
- PUAD 664 - Nonprofit Financial Management Credits: 3

Two elective courses (6 credits)

Students choose electives in the nonprofit area. A list of relevant electives is available under the concentration in nonprofit management in the MPA (master of public administration) entry of the catalog.

Total: 15 credits
Critical Analysis and Strategic Responses to Terrorism Graduate Certificate

Banner Code: LA-CERG-CASR

Web: pia.gmu.edu

The certificate in critical analysis and strategic responses to terrorism (CASR) is an interdisciplinary introduction to the phenomenon of modern terrorism and its implications for US domestic and foreign policy. It focuses on multidisciplinary analysis and holistic cross-sectorial approaches to long-term prevention of and response to terrorism.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate certificates, see Academic Policies.

The graduate certificate in critical analysis and strategic responses to terrorism may only be pursued on a part-time basis.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in critical analysis and strategic responses to terrorism, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements

Two required courses (6 credits)

- BIOD 722 - Examining Terrorist Groups Credits: 3
- BIOD 725 - Terrorism and Weapons of Mass Destruction Credits: 3

Three elective courses (9 credits) related to terrorism analysis or response

Courses should be chosen in consultation with an advisor and approved in advance by the program director.

Total: 15 credits

Emergency Management and Homeland Security Graduate Certificate

Banner Code: LA-CERG-EMHS

Web: pia.gmu.edu

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate certificates, see Academic Policies.

The graduate certificate in emergency management and homeland security may only be pursued on a part-time basis.
Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in emergency management and homeland security, see Application Requirements and Deadlines on departmental web site.

Certificate Requirements

Three required courses (9 credits)

- PUAD 502 - Administration in Public and Nonprofit Organizations Credits: 3
- PUAD 630 - Emergency Planning and Preparedness Credits: 3
- PUAD 637 - Managing Homeland Security Credits: 3

Two elective courses (6 credits)

Students choose electives in the emergency management and homeland security area. A list of relevant electives is available under the concentration in emergency management and homeland security in the MPA (master of public administration) entry of the catalog.

Total: 15 credits

Nonprofit Management Graduate Certificate

Banner Code: LA-CERG-NPMG

Web: pia.gmu.edu

This certificate is offered face-to-face or online.

This program of study is offered by the Department of Public and International Affairs. For policies governing all certificates, see Academic Policies.

The graduate certificate in nonprofit management may only be pursued on a part-time basis.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in nonprofit management, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements

Three required courses (9 credits)

- PUAD 505 - Introduction to Management of Nonprofits Credits: 3
- PUAD 659 - Nonprofit Law, Governance, and Ethics Credits: 3
- PUAD 664 - Nonprofit Financial Management Credits: 3

Two elective courses (6 credits)

Students choose electives in the nonprofit area. A list of relevant electives is available under the concentration in nonprofit management in the MPA (master of public administration) entry of the catalog.

Total: 15 credits

Public Management Graduate Certificate

Banner Code: LA-CERG-PMG

Web: pia.gmu.edu

This program of study is offered by the Department of Public and International Affairs. For policies governing all certificates, see Academic Policies.

The graduate certificate in public management may only be pursued on a part-time basis.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the graduate certificate in public management, see Application Requirements and Deadlines on the departmental web site.

Certificate Requirements

Three required courses (9 credits)

- PUAD 502 - Administration in Public and Nonprofit Organizations Credits: 3
- PUAD 520 - Organization Theory and Management Behavior Credits: 3
- PUAD 540 - Public Policy Process Credits: 3

Two elective courses (6 credits)

Students choose electives in the public management area. A list of relevant electives is listed on the program description for the Public Administration, MPA, Public Management Concentration (PMA) of this catalog.

Total: 15 credits

Master of Arts

Political Science, MA

Banner Code: LA-MA-POS
The MA in political science program prepares students for advanced work in political science, teaching, and research about government; a career in government and politics; and work in domestic and international nongovernmental organizations.

The program is made up of four core courses in political science and completion of either a concentration in international security or a broader field of specialization in American government and politics, international relations, or comparative politics. Students choosing a specialization have interdisciplinary opportunities to take up to 9 credits in related fields such as history or public policy.

The master's degree is the first step in an engaging and stimulating career. Students develop a deeper understanding of political ideas and institutions, more sophisticated research skills, a better grasp of the intricacies of governments abroad, and a deeper knowledge of the complexities of international politics. This degree can lead to a career teaching about government; working with legislative bodies, government agencies, and international organizations; or doing research and writing about politics and government.

An accelerated master's option is available to students in the government and international politics or public administration bachelor's program. See each listing for specific requirements.

This program of study is offered by the Department of Public and International Affairs. For policies governing all graduate degrees, see Academic Policies.

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the MA in political science, see Application Requirements and Deadlines on the departmental web site.

**Degree Requirements**

Students should develop an education plan with their advisors that lists the courses they plan to take. The plan is approved by the student's advisor. Students may include courses from other departments to complement their field of specialization; they should reflect the ideas, institutions, or processes of contemporary governance.

Students who wish to begin a career in government and politics or to alter their current career path in government and politics are encouraged to take a 3-credit internship in their area of interest. Internships can be arranged through the Department of Public and International Affairs.

**Four core courses (12 credits)**

- GOVT 510 - American Government and Politics Credits: 3
- GOVT 520 - Political Theory Credits: 3
- GOVT 530 - Comparative Politics Credits: 3
- GOVT 540 - International Relations Credits: 3

**Two methods courses (6 credits)**

- GOVT 500 - The Scientific Method and Research Design Credits: 3
- GOVT 511 - Problem Solving and Data Analysis I Credits: 3
Three to five courses (9 to 15 credits) in the concentration or a specialization

Students complete the degree by completing additional coursework in the concentration or one of the specializations.

▲ Concentration in International Security (INLS)

Two required courses (6 credits)

- GOVT 744 - Foundations of Security Studies Credits: 3
- GOVT 745 - International Security Credits: 3

One to three elective courses (3-9 credits) chosen from:

- GOVT 640 - Strategic Responses to Terrorism: Coordinated Decision Making Credits: 3
- GOVT 641 - Global Governance Credits: 3
- GOVT 741 - Advanced Seminar in International Politics Credits: 3
- GOVT 843 - Diplomacy Credits: 3
- BIOD 621 - Ethics and International Security Credits: 3
- BIOD 622 - Negotiating in the International Arena Credits: 3
- BIOD 705 - Intelligence: Theory and Practice Credits: 3
- BIOD 706 - Nuclear, Biological, and Chemical Weapons Policy and Security Credits: 3
- BIOD 709 - Nonproliferation and Arms Control Credits: 3
- BIOD 722 - Examining Terrorist Groups Credits: 3
- BIOD 725 - Terrorism and Weapons of Mass Destruction Credits: 3
- BIOD 760 - National Security Technology and Policy Credits: 3

American government and politics specialization

Two required field seminars (6 credits) chosen from:

- GOVT 603 - Seminar in the Courts and Constitutional Law Credits: 3
- GOVT 604 - Seminar on Congress and Legislative Behavior Credits: 3
- GOVT 605 - Seminar on the Presidency Credits: 3
- GOVT 706 - Federalism and Intergovernmental Relations Credits: 3

One to three elective courses (3 to 9 credits)

Comparative politics specialization

Two required field seminars (6 credits)

- GOVT 631 - Seminar in Comparative Politics and Institutions Credits: 3
- GOVT 731 - Advanced Seminar in Comparative Politics Credits: 3

One to three elective courses (3 to 9 credits)
International relations specialization

Two required field seminars (6 credits) chosen from:

- GOVT 641 - Global Governance Credits: 3
- GOVT 741 - Advanced Seminar in International Politics Credits: 3
- GOVT 743 - International Political Economy Credits: 3
- GOVT 745 - International Security Credits: 3

One to three elective courses (3 to 9 credits)

Up to two elective courses (0-6 credits)

The number of electives students have will depend on how many credits they took in the concentration or field of specialization and whether they choose a 3-credit project or a 6-credit thesis. Students choose the remaining credits required for the degree, if any, from other courses in the department, including an internship, additional courses in the field of specialization, or from coursework offered by other departments.

3 credits of project or 6 credits of thesis

A project or thesis is required for the MA in political science. Students who choose to do a project take 3 credits of GOVT 798 linked to an advanced specialty course and produce a final research project. Students who choose to do a thesis should be aware of the policies governing theses. They must follow the enrollment policy of the university and, once enrolled in GOVT 799, must maintain continuous enrollment as specified in the Academic Policies section of the catalog. A thesis director and a committee of two additional faculty members appointed by the department read and approve the thesis. Students should make arrangements for doing a project or thesis with their advisor.

- GOVT 798 - Political Science Research Project Credits: 3
- GOVT 799 - Political Science Thesis Credits: 1-6

Total: 36 credits

Master’s International

The Master’s International (MI), a joint program between Mason and the Peace Corps, enables participants to prepare for Peace Corps volunteer service while earning the MA. Students apply separately, but at the same time, to the Peace Corps and to Mason. Students must complete a minimum of 18 credits prior to their Peace Corps service; this will give the student a foundation to enhance their value as a Peace Corps volunteer. Six credits are earned as internship credits for the Peace Corps service. The internship requires a project, agreed upon by the student and his/her advisor, and includes a presentation delivered to faculty and students after the student returns to the US. Upon completion of the two years of service, the student will receive a tuition grant for the six internship credits. Students return to Mason after their two years of service to complete the remaining coursework required for the 36-credit MA.

Master of Public Administration

Public Administration, MPA
Web: pia.gmu.edu

The master of public administration (MPA) is designed for people who hold or aspire to hold leadership positions in organizations that participate in the development and implementation of public policy. The mission of the MPA program is to give graduate students the opportunity to build their knowledge of politics, public policy and management and to enhance their analytic, problem solving, and communication skills.

MPA students at Mason have the research and cultural resources of the Washington, D.C. area at their disposal. Government agencies representing all levels in the U.S. federal system are located close to the campus, as are the National Archives, the Library of Congress, and the Smithsonian Institution. Another benefit is the wide range of internship opportunities available in governmental and nonprofit organizations. The MPA Program regularly has internship invitations from national, state, and local government organizations, as well as from nonprofit organizations whose principal work is at the local, state, national, or international levels. Many of these internships are paid positions.

MPA courses are held at the Fairfax and the Arlington campuses during the week and on the weekend in an accelerated format.

An accelerated master's option is available to students in the government and international politics or public administration bachelor's program. See each listing for specific requirements.

This program of study is offered by the Department of Public and International Affairs. For policies governing all graduate degrees, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admission section of this catalog. For information specific to the MPA, see Application Requirements and Deadlines on the departmental web site.

Transfer of Credit

Students may transfer credit into the MPA program from graduate courses taken at other institutions or taken at Mason in nondegree status. Transfer credit is subject to university and college policies and must be approved by the MPA director and the dean. Students who enroll initially through nondegree studies should submit their application to the MPA in the first semester of study. Only 9 credits taken in nondegree status may be transferred to the degree program. See additional information in the Academic Policies section of this catalog.

Degree Requirements

The required courses emphasize the development of knowledge about public policy and management, as well as analytical problem-solving and communication skills, and third-party governance. Through these courses, students develop a shared knowledge base and skill set. The elective courses can be used by students to focus their knowledge and skill development within one concentration. Alternatively, the electives can be used to extend the breadth of study with courses drawn from a variety of concentrations or from other departments and schools across the university.

The MPA curriculum is arranged in a sequential manner. PUAD 500-level courses are foundation courses, 600-level courses are intermediate courses, and the 700-level courses are advanced courses. Students must take PUAD 500-level, or foundation courses, during the first two semesters, followed by 600-level classes. The PUAD 700-level courses should be taken during the last semester or two of enrollment in the MPA program.
For example, a full-time student should enroll in PUAD 502 and two other 500-level courses, such as PUAD 511 and PUAD 520, during the first semester. In the second semester the student should enroll in PUAD 540 and two intermediate courses such as PUAD 662 and a 600-level elective course.

Part-time students taking two courses a semester should take PUAD 502 and either PUAD 511 or 520 during the first semester, followed by either PUAD 511 or 520 and PUAD 540 in the second semester.

Requests for taking a course out of sequence must be made in writing to the student's advisor and must be approved by the advisor before enrollment.

Six core courses (18 credits)

- PUAD 502 - Administration in Public and Nonprofit Organizations Credits: 3
- PUAD 511 - Problem Solving and Data Analysis I Credits: 3
- PUAD 520 - Organization Theory and Management Behavior Credits: 3
- PUAD 540 - Public Policy Process Credits: 3
- PUAD 700 - Ethics and Public Administration Credits: 3
- PUAD 703 - Third-Party Governance Credits: 3

One additional methods course (3 credits) chosen from:

- PUAD 612 - Problem Solving and Data Analysis II Credits: 3
- PUAD 613 - Economic Analysis in Public Administration Credits: 3
- PUAD 645 - Policy Analysis Credits: 3
- PUAD 646 - Program Evaluation Credits: 3

One course (3 credits) in accounting, budgeting, and financial management chosen from:

- PUAD 660 - Public and Nonprofit Accounting and Finance Credits: 3
- PUAD 662 - National Budgeting Credits: 3
- PUAD 663 - State and Local Budgeting Credits: 3
- PUAD 664 - Nonprofit Financial Management Credits: 3

Four elective courses (12 credits)

Students may take their elective courses within one of the concentrations listed below. As an alternative, with the approval of their advisor, students may select their elective courses from several concentrations or fields.

Concentrations

Students may declare only one concentration. PUAD 794 Internship and PUAD 796 Directed Reading and Research may be applied to a concentration where content is appropriate and with prior written approval of the student's advisor. Other courses may also be applied to a concentration with prior written approval of the advisor.

▲ Concentration in Administration of Justice (ADJ)

Four courses (12 credits) chosen from:
• PUAD 730 - Professional Development Workshop Credits: 1-3
• PUAD 781 - Information Management: Technology and Policy Credits: 3
• CONF 501 - Introduction to Conflict Analysis and Resolution Credits: 3
• CRIM 509 - Justice Organizations and Processes Credits: 3
• CRIM 510 - Policing in a Democratic Society Credits: 3
• CRIM 691 - Justice Program Planning and Implementation Credits: 3
• CRIM 740 - Justice Organization and Administration Credits: 3
• CRIM 741 - Conduct of Justice Organizations at the Street Level Credits: 3
• CRIM 742 - Leadership in Justice and Security Organizations Credits: 3
• CRIM 743 - Changing Justice and Security Organizations Credits: 3
• CRIM 749 - Issues in Justice Administration Credits: 1-3
• CRIM 781 - Justice Program Evaluation Credits: 3
• SOCI 607 - Criminology Credits: 3
• SOCI 608 - Juvenile Delinquency Credits: 3
• SOCI 609 - Sociology of Punishment and Corrections Credits: 3

Total: 12 credits

▲ Concentration in Emergency Management and Homeland Security (EMHS)

Four courses (12 credits) chosen from:

• PUAD 630 - Emergency Planning and Preparedness Credits: 3
• PUAD 631 - Disaster Response Operations and Recovery Credits: 3
• PUAD 632 - Terrorism: Theory and Practice Credits: 3
• PUAD 633 - Hazard Mitigation Policy Credits: 3
• PUAD 634 - Management of International Security Credits: 3
• PUAD 635 - Emergency Preparedness: Interagency Communication and Coordination Credits: 3
• PUAD 637 - Managing Homeland Security Credits: 3
• PUAD 727 - Seminar in Risk Assessment and Decision Making Credits: 3
• PUAD 731 - Homeland/Transportation Security Administration Credits: 3
• PUAD 738 - Issues in International Security Credits: 3
• BIOD 723 - Legal Dimensions of Homeland Security Credits: 3
• BIOD 752 - The Role of the Military in Homeland Security Credits: 3
• COMM 637 - Risk Communication Credits: 3
• PUBP 742 - Transportation Safety and Security Credits: 3
• PUBP 754 - Geographic Information Systems and Spatial Analysis for Public Policy Credits: 3
• PUBP 758 - Global Threats and Medical Policies Credits: 3

Total: 12 credits

▲ Concentration in Environmental Science and Public Policy (EVPP)

CONF 695 - Selected Topics and COMM 590 - Seminar in Communication when topic is the environment, may be used to fulfill this requirement with the prior written approval of the student's advisor.

One required course (3 credits):
Three elective courses (9 credits) chosen from:

- PUAD 645 - Policy Analysis Credits: 3
- PUAD 646 - Program Evaluation Credits: 3 (if not already taken to meet core requirements)
- PUAD 649 - Advocacy and Lobbying Credits: 3
- EVPP 524 - Introduction to Environmental and Resource Economics Credits: 3
- EVPP 607 - Fundamentals of Ecology Credits: 3
- EVPP 638 - Corporate Environmental Management and Policy Credits: 3
- EVPP 641 - Environmental Science and Public Policy Credits: 3
- EVPP 670 - Environmental Law Credits: 3
- CONF 695 - Selected Topics Credits: 3
- COMM 590 - Seminar in Communication Credits: 3

Total: 12 credits

▲ Concentration in Human Resources Management (HRM)

One required course (3 credits):

- PUAD 670 - Human Resources Management in the Public Sector Credits: 3

Three elective courses (9 credits) chosen from:

- PUAD 623 - Managing Government Contracting Credits: 3
- PUAD 652 - Nonprofit Leadership and Change Credits: 3
- PUAD 671 - Public Employee Labor Relations Credits: 3
- PUAD 672 - Human Resources Reforms for Public Administration Credits: 3
- PUAD 729 - Issues in Public Management Credits: 3
- PUAD 730 - Professional Development Workshop Credits: 1-3
- PSYC 631 - Industrial and Personnel Testing and Evaluation Credits: 3
- PSYC 636 - Survey of Industrial Psychology Credits: 3
- PSYC 638 - Training: Psychological Contributions to Theory, Design, and Evaluation Credits: 3
- PSYC 639 - Survey of Organizational Processes Credits: 3
- PSYC 667 - Behavior in Small Groups and Teams Credits: 3
- PSYC 739 - Seminar in Industrial/Organizational Psychology Credits: 3
- ODKM 705 - Group Dynamics and Team Learning Credits: 3
- ODKM 715 - Creating Learning Organizations Credits: 3
- ODKM 731 - Consulting Skills for Organizational Change Credits: 3
- ODKM 735 - Organizational Development Practices Credits: 3

Total: 12 credits

▲ Concentration in International Management (IM)

One required course (3 credits):
• PUAD 504 - Managing in the International Arena: Theory and Practice Credits: 3

Three elective courses (9 credits) chosen from:

• CONF and ITRN courses with written prior approval of the director
• PUAD 634 - Management of International Security Credits: 3
• PUAD 636 - The NGO: Policy and Management Credits: 3
• PUAD 730 - Professional Development Workshop Credits: 1-3
• PUAD 738 - Issues in International Security Credits: 3
• PUAD 739 - Issues in International Management Credits: 3
• GOVT 540 - International Relations Credits: 3
• GOVT 631 - Seminar in Comparative Politics and Institutions Credits: 3

Total: 12 credits

▲ Concentration in Nonprofit Management (NPMG)

Students in the nonprofit concentration may take PUAD 505 as one of their first four courses and may take 505 simultaneously with PUAD 502. Likewise, students in the international concentration may take PUAD 504 as one of their first four courses.

Two required courses (6 credits):

• PUAD 505 - Introduction to Management of Nonprofits Credits: 3
• PUAD 659 - Nonprofit Law, Governance, and Ethics Credits: 3

Two elective courses (6 credits) chosen from:

• PUAD 636 - The NGO: Policy and Management Credits: 3
• PUAD 649 - Advocacy and Lobbying Credits: 3
• PUAD 652 - Nonprofit Leadership and Change Credits: 3
• PUAD 654 - The Community, Marketing, and Public Relations Credits: 3
• PUAD 655 - Philanthropy and Fund Raising Credits: 3
• PUAD 657 - Association Management Credits: 3
• PUAD 658 - Social Entrepreneurship and Nonprofit Enterprise Credits: 3
• PUAD 660 - Public and Nonprofit Accounting and Finance Credits: 3
• PUAD 664 - Nonprofit Financial Management Credits: 3
• PUAD 680 - Managing Information Resources Credits: 3
• PUAD 720 - Performance Measurement Credits: 3
• PUAD 730 - Professional Development Workshop Credits: 1-3

Total: 12 credits

▲ Concentration in Policy Studies (PS)

Four courses (12 credits) chosen from:

• PUAD 615 - Administrative Law Credits: 3
• PUAD 622 - Program Planning and Implementation Credits: 3
- PUAD 645 - Policy Analysis Credits: 3
- PUAD 646 - Program Evaluation Credits: 3
- PUAD 658 - Social Entrepreneurship and Nonprofit Enterprise Credits: 3
- PUAD 661 - Public Budgeting Systems Credits: 3
- PUAD 662 - National Budgeting Credits: 3
- PUAD 663 - State and Local Budgeting Credits: 3
- PUAD 680 - Managing Information Resources Credits: 3
- PUAD 727 - Seminar in Risk Assessment and Decision Making Credits: 3
- PUAD 730 - Professional Development Workshop Credits: 1-3
- PUAD 749 - Issues in Public Policy Credits: 3
- PUAD 750 - Federalism and Intergovernmental Relations Credits: 3
- PUAD 781 - Information Management: Technology and Policy Credits: 3
- GOVT 520 - Political Theory Credits: 3
- GOVT 605 - Seminar on the Presidency Credits: 3

Total: 12 credits

▲ Concentration in Public Management (PMG)

Four courses (12 credits) chosen from:

- PUAD 615 - Administrative Law Credits: 3
- PUAD 622 - Program Planning and Implementation Credits: 3
- PUAD 623 - Managing Government Contracting Credits: 3
- PUAD 658 - Social Entrepreneurship and Nonprofit Enterprise Credits: 3
- PUAD 660 - Public and Nonprofit Accounting and Finance Credits: 3
- PUAD 661 - Public Budgeting Systems Credits: 3
- PUAD 662 - National Budgeting Credits: 3
- PUAD 663 - State and Local Budgeting Credits: 3
- PUAD 664 - Nonprofit Financial Management Credits: 3
- PUAD 670 - Human Resources Management in the Public Sector Credits: 3
- PUAD 672 - Human Resources Reforms for Public Administration Credits: 3
- PUAD 680 - Managing Information Resources Credits: 3
- PUAD 720 - Performance Measurement Credits: 3
- PUAD 729 - Issues in Public Management Credits: 3
- PUAD 730 - Professional Development Workshop Credits: 1-3
- PUAD 731 - Homeland/Transportation Security Administration Credits: 3
- PUAD 750 - Federalism and Intergovernmental Relations Credits: 3
- PUAD 781 - Information Management: Technology and Policy Credits: 3

Total: 12 credits

▲ Concentration in Public and Nonprofit Finance (PNF)

Four courses (12 credits) chosen from:

- PUAD 658 - Social Entrepreneurship and Nonprofit Enterprise Credits: 3
- PUAD 660 - Public and Nonprofit Accounting and Finance Credits: 3
- PUAD 661 - Public Budgeting Systems Credits: 3
- PUAD 662 - National Budgeting Credits: 3
- PUAD 663 - State and Local Budgeting Credits: 3
- PUAD 664 - Nonprofit Financial Management Credits: 3
- PUAD 729 - Issues in Public Management Credits: 3
- PUAD 730 - Professional Development Workshop Credits: 1-3
- PUAD 769 - Issues in Public Financial Management Credits: 3

Total: 12 credits

▲ Concentration in State and Local Government (SLG)

Four courses (12 credits) chosen from:

- PUAD 505 - Introduction to Management of Nonprofits Credits: 3
- PUAD 615 - Administrative Law Credits: 3
- PUAD 623 - Managing Government Contracting Credits: 3
- PUAD 630 - Emergency Planning and Preparedness Credits: 3
- PUAD 651 - Virginia Politics, Policy, and Administration Credits: 3
- PUAD 660 - Public and Nonprofit Accounting and Finance Credits: 3
- PUAD 661 - Public Budgeting Systems Credits: 3
- PUAD 662 - National Budgeting Credits: 3
- PUAD 663 - State and Local Budgeting Credits: 3
- PUAD 680 - Managing Information Resources Credits: 3
- PUAD 729 - Issues in Public Management Credits: 3
- PUAD 730 - Professional Development Workshop Credits: 1-3
- PUAD 750 - Federalism and Intergovernmental Relations Credits: 3

Total: 12 credits

▲ Concentration in Third-Party Governance (TPG)

Four courses (12 credits) chosen from:

- PUAD 613 - Economic Analysis in Public Administration Credits: 3
- PUAD 622 - Program Planning and Implementation Credits: 3
- PUAD 623 - Managing Government Contracting Credits: 3
- PUAD 635 - Emergency Preparedness: Interagency Communication and Coordination Credits: 3
- PUAD 636 - The NGO: Policy and Management Credits: 3
- PUAD 658 - Social Entrepreneurship and Nonprofit Enterprise Credits: 3
- PUAD 659 - Nonprofit Law, Governance, and Ethics Credits: 3
- PUAD 750 - Federalism and Intergovernmental Relations Credits: 3

Total: 12 credits

Total: 36 credits
Master’s International

The Master’s International (MI), a joint program between Mason and the Peace Corps, enables participants to prepare for Peace Corps volunteer service while earning the MPA. Students apply separately, but at the same time, to the Peace Corps and to Mason. Students must complete a minimum of 18 credits prior to their Peace Corps service; this will give the student a foundation to enhance their value as a Peace Corps volunteer. Six credits are earned as internship credits for the Peace Corps service. The internship requires a project, agreed upon by the student and his/her advisor, and includes a presentation delivered to faculty and students after the student returns to the U.S. Upon completion of the two years of service, the student will receive a tuition grant for the six internship credits. Students return to Mason after their two years of service to complete the remaining coursework required for the 36-credit MPA.

Master of Science

Biodefense, MS

Banner Code: LA-MS-BIOD

Web: pia.gmu.edu

The master’s degree in biodefense prepares students to become the next generation of biodefense and biosecurity professionals and scholars. This program provides students with a foundation in microbiology and biotechnology combined with a broader security and organizational context.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all graduate degrees, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the MS in biodefense, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

Students are strongly encouraged to take the core courses as early as possible because they provide the foundation for the rest of the program. The schedule of courses that students plan on taking should be approved in an education plan designed by the students and their advisor during the student’s first semester. Students must receive the permission of their advisor to take courses outside of the Biodefense Program.

Six core courses (18 credits)

- **BIOD 604** - Introduction to Biodefense I: Bacterial and Toxin Agents Credits: 3
- **BIOD 605** - Introduction to Biodefense II: Viral Agents Credits: 3
- **BIOD 609** - Biodefense Strategy and Policy Credits: 3
- **GOVT 500** - The Scientific Method and Research Design Credits: 3
- **GOVT 540** - International Relations Credits: 3
- **PUAD 637** - Managing Homeland Security Credits: 3
Three to five courses in one field of specialization (9 to 15 credits)

International Security

Two required field seminars (6 credits)

- GOVT 744 - Foundations of Security Studies Credits: 3
- GOVT 745 - International Security Credits: 3

One to three elective courses (3 to 9 credits)

- BIOD 621 - Ethics and International Security Credits: 3
- BIOD 622 - Negotiating in the International Arena Credits: 3
- BIOD 705 - Intelligence: Theory and Practice Credits: 3
- BIOD 706 - Nuclear, Biological, and Chemical Weapons Policy and Security Credits: 3
- BIOD 709 - Nonproliferation and Arms Control Credits: 3
- BIOD 722 - Examining Terrorist Groups Credits: 3
- BIOD 725 - Terrorism and Weapons of Mass Destruction Credits: 3
- BIOD 760 - National Security Technology and Policy Credits: 3
- GOVT 640 - Strategic Responses to Terrorism: Coordinated Decision Making Credits: 3
- GOVT 641 - Global Governance Credits: 3
- GOVT 741 - Advanced Seminar in International Politics Credits: 3
- GOVT 843 - Diplomacy Credits: 3
- Other courses as approved by graduate director

Terrorism and Homeland Security

Two required field seminars (6 credits)

- BIOD 722 - Examining Terrorist Groups Credits: 3
- BIOD 725 - Terrorism and Weapons of Mass Destruction Credits: 3

One to three elective courses (3 to 9 credits) chosen from:

- BIOD 621 - Ethics and International Security Credits: 3
- BIOD 622 - Negotiating in the International Arena Credits: 3
- BIOD 705 - Intelligence: Theory and Practice Credits: 3
- BIOD 706 - Nuclear, Biological, and Chemical Weapons Policy and Security Credits: 3
- BIOD 709 - Nonproliferation and Arms Control Credits: 3
- BIOD 760 - National Security Technology and Policy Credits: 3
- GOVT 744 - Foundations of Security Studies Credits: 3
- GOVT 640 - Strategic Responses to Terrorism: Coordinated Decision Making Credits: 3
- GOVT 641 - Global Governance Credits: 3
- GOVT 741 - Advanced Seminar in International Politics Credits: 3
- GOVT 745 - International Security Credits: 3
- GOVT 843 - Diplomacy Credits: 3
Technology and Weapons of Mass Destruction

Two required field seminars (credits)

- BIOD 706 - Nuclear, Biological, and Chemical Weapons Policy and Security Credits: 3
- BIOD 760 - National Security Technology and Policy Credits: 3

One to three elective courses (3 to 9 credits) chosen from:

- BIOD 621 - Ethics and International Security Credits: 3
- BIOD 622 - Negotiating in the International Arena Credits: 3
- BIOD 705 - Intelligence: Theory and Practice Credits: 3
- BIOD 709 - Nonproliferation and Arms Control Credits: 3
- BIOD 722 - Examining Terrorist Groups Credits: 3
- BIOD 725 - Terrorism and Weapons of Mass Destruction Credits: 3
- GOVT 640 - Strategic Responses to Terrorism: Coordinated Decision Making Credits: 3
- GOVT 641 - Global Governance Credits: 3
- GOVT 741 - Advanced Seminar in International Politics Credits: 3
- GOVT 744 - Foundations of Security Studies Credits: 3
- GOVT 745 - International Security Credits: 3
- GOVT 843 - Diplomacy Credits: 3
- Other courses as approved by graduate director

Up to two elective courses (0 to 6 credits)

The number of electives students have will depend on how many credits they took in the field of specialization. Students choose the remaining credits required for the degree from other courses in the department including an internship or additional courses in the field of specialization. Up to six credits may be from other disciplines with prior written approval of the graduate director.

3 credits of Capstone Course

Students must demonstrate the ability to conduct original, independent research by completing a research project in BIOD 790, Biodefense Capstone. The course requires the student to produce a substantial and original contribution to the fields of biodefense or biosecurity on the model of a paper suitable for presentation at a scholarly conference or an article in a peer-reviewed scholarly journal. The objective of the research project is to serve as a capstone for the student's graduate education and to demonstrate the student's research, analytical and writing skills.

- BIOD 790 - Biodefense Capstone Credits: 3

Total: 36 credits

Non-Degree

American Government Minor
The minor in American government develops knowledge of the principles, institutions, and behaviors of the American political system.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all minors, see Academic Policies.

Course Work

Students pursuing this minor must complete 18 credits in government with a minimum grade of 2.0 in each course.

One core course (3 credits):

- GOVT 103 - Introduction to American Government Credits: 3

Five elective courses (15 credits) chosen from:

- Any course on political institutions: GOVT 301–309
- Any course on political behavior GOVT 310–319
- Any course from GOVT 409–420
- GOVT 344 - American Foreign Policy Credits: 3
- GOVT 480 - Internship Credits: 3
  
  (When topic is relevant, 3 credits of GOVT 480 may be applied to the minor with approval of the minor advisor.)

Total: 18 credits

Global Systems Minor

Banner Code: GLOS

Faculty

Harbour (coordinator)

Global systems have become increasingly important to the way we live and work, and a global perspective makes us more aware of how we are connected to others around the world and to the whole of nature.

The interdisciplinary minor in global systems is designed to complement virtually any undergraduate major. It works well for majors in business disciplines, economics, languages, geography, government and international politics, history, and other disciplines that take a global view. Students in professional programs learn to connect their professional concerns to global issues of health care, trade and finance, or technology. Students in the liberal arts gain insights into their disciplines as they learn how the arts, humanities, sciences, and social sciences are affected by global issues such as demographic change, telecommunications, and environmental protection.
Other globally oriented courses may also fulfill or substitute for the requirements of this program with written permission of the coordinator prior to registration.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see Academic Policies.

Course Work

Students pursuing this minor must complete 18 credits with a minimum GPA of 2.00. At least 9 credits must be at the 300 level or above.

One required course (3 credits) chosen from:

- GLOA 101 - Introduction to Global Affairs Credits: 3
- GOVT 132 - Introduction to International Politics Credits: 3
- HIST 130 - History of the Modern Global System Credits: 3

Five elective courses (15 credits) chosen from at least two of the following fields:

Other globally-oriented courses may also be applied to this requirement with written approval of the director.

Field A: Government, geography, and administration of justice

- GOVT 132 - Introduction to International Politics Credits: 3
- GOVT 444 - Issues in International Studies Credits: 1-3
- CRIM 405 - Law and Justice around the World Credits: 3
- GGS 101 - Major World Regions Credits: 3
- GGS 301 - Political Geography Credits: 3
- GGS 303 - Conservation of Resources and Environment Credits: 3
- GGS 304 - Populations Dimensions of Global Change Credits: 3
- GGS 305 - Economic Geography Credits: 3

Field B: Economics, anthropology, marketing, history, and sociology

- ANTH 300 - Civilizations Credits: 3
- ANTH 312 - Political Anthropology Credits: 3
- ANTH 331 - Refugees Credits: 3
- ANTH 375 - Culture, Power, History Credits: 3
- ECON 360 - Economics of Developing Areas Credits: 3
- ECON 361 - Economic Development of Latin America Credits: 3
- ECON 380 - Economies in Transition Credits: 3
- ECON 390 - International Economics Credits: 3
- HIST 125 - Introduction to World History Credits: 3
- HIST 130 - History of the Modern Global System Credits: 3
- HIST 387 - Topics in Global History Credits: 3-6
- MKTG 407 - International Marketing Credits: 3
Field C: Environmental science, global health, systems engineering, urban and suburban studies, civil and infrastructure engineering

- BIOL 377 - Applied Ecology Credits: 3
- CEIE 100 - Environmental Engineering around the World Credits: 3
- CEIE 450 - Environmental Engineering Systems Credits: 3
- GCH 543 - Global Health Credits: 3
- USST 301 - Urban Growth in a Shrinking World Credits: 3

Field D: Modes of communication

- COMM 305 - Foundations of Intercultural Communication Credits: 3
- COMM 456 - Comparative Mass Media Credits: 3
- DANC 118 - World Dance Credits: 3
- MUSI 103 - Musics of the World Credits: 3
- MUSI 431 - Music History in Society III Credits: 3
- THR 359 - World Stages Credits: 3

Total: 18 credits

International Security Minor

Banner Code: INLS
Web: pia.gmu.edu

The minor in international security provides students with the theories and background to understand the institutions and processes of international security, as well as critical international security issues such as terrorism, weapons of mass destruction, and war.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all minors, see Academic Policies.

Course Work

Students pursuing this minor must complete 18 credits in government with a minimum grade of 2.0 in each course. Eight credits of course work must be unique to the minor.

Three core courses (9 credits)

- GOVT 132 - Introduction to International Politics Credits: 3
- GOVT 346 - American Security Policy Credits: 3
- GOVT 347 - International Security Credits: 3
Three elective courses (9 credits) chosen from:

- GOVT 322 - International Relations Theory Credits: 3
- GOVT 342 - Diplomacy Credits: 3
- GOVT 344 - American Foreign Policy Credits: 3
- GOVT 444 - Issues in International Studies Credits: 1-3 (when topic is relevant with approval of the minor advisor)
- GOVT 446 - International Law and Organization Credits: 3
- GOVT 447 - Revolution and International Politics Credits: 3
- GOVT 448 - Ethics and International Politics Credits: 3
- GOVT 480 - Internship Credits: 3 (when topic is relevant with approval of the minor advisor)

Total: 18 credits

International/Comparative Studies Minor

Banner Code: ICS

Web: pia.gmu.edu

This minor increases students’ awareness of the regions and current issues of the world on theoretical and practical levels.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all minors, see Academic Policies.

Course Work

Students pursuing this minor must complete 18 credits in government with a minimum grade of 2.0 in each course.

Two core courses (6 credits):

- GOVT 132 - Introduction to International Politics Credits: 3
- GOVT 133 - Introduction to Comparative Politics Credits: 3

Four elective courses (12 credits) chosen from the following categories with only one from each category:

- GOVT 103 - Introduction to American Government Credits: 3
- Any GOVT 330–339 comparative politics
- Any GOVT 340–349 international studies
- Any GOVT 430–439 comparative politics
- Any GOVT 440–449 international studies
- GOVT 480 - Internship Credits: 3 (when relevant, with the prior written approval of the minor advisor)

Total: 18 credits
Legal Studies Minor

Banner Code: LGLS

Web: pia.gmu.edu

The minor in legal studies focuses on the constitutional foundations, interpretation, processes, and functions of domestic and international law.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all minors, see Academic Policies.

Course Work

Students pursuing this minor must complete 18 credits in government with a minimum grade of 2.0 in each course.

Two core courses (6 credits)

- GOVT 103 - Introduction to American Government Credits: 3
- GOVT 301 - Public Law and the Judicial Process Credits: 3

Four elective courses (12 credits) chosen from:

- GOVT 480 - Internship Credits: 3, when relevant, may be used to partially meet this requirement with prior written approval of the minor advisor.
- GOVT 307 - Legislative Behavior Credits: 3
- GOVT 414 - Politics of Race and Gender Credits: 3
- GOVT 420 - American Political Thought Credits: 3
- GOVT 422 - Constitutional Interpretation Credits: 3
- GOVT 423 - Constitutional Law: Civil Rights and Liberties Credits: 3
- GOVT 424 - Constitutional Law: Criminal Process and Rights Credits: 3
- GOVT 446 - International Law and Organization Credits: 3
- GOVT 452 - Administrative Law and Procedures Credits: 3

Total: 18 credits

Middle East Studies Minor

Banner Code: MES

Phone: 703-993-2926
Web: mes.gmu.edu

Faculty
Today, more than ever before, Middle East politics has become intertwined with American politics and the lives of many Americans. The minor in Middle East studies is designed to equip undergraduates with a firm multidisciplinary grounding in the region, its history, and its international relations.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see Academic Policies.

Course Work

In partial fulfillment of coursework for the minor, students are strongly encouraged to participate in a study abroad program in the Middle East.

Students pursuing this minor must complete 18 credit hours of coursework with a minimum GPA of 2.0.

Two core courses (6 credits)

- HIST 282 - Survey of Middle Eastern Civilization Credits: 3
- GOVT 332 - Government and Politics of the Middle East and North Africa Credits: 3

Four elective courses (12 credits) chosen from:

One course in a relevant language may be used as an elective. Other courses including ANTH 399 or CONF 399, when topic is relevant to the Middle East, may be used as electives with the prior written approval of the director.

- ARAB 325 - Major Arab Writers/Stories Credits: 3
- ARAB 330 - Reading and Conversation I Credits: 3
- ARAB 331 - Reading and Conversation II Credits: 3
- ANTH 330 - Peoples and Cultures of Selected Regions: Non-Western Credits: 3 (if region studied is relevant to Middle East studies)
- ARTH 319 - Art and Archaeology of the Ancient Near East Credits: 3
- ARTH 320 - Art of the Islamic World Credits: 3
- CONF 340 - Global Conflict Analysis and Resolution Credits: 3
- ENGH 362 - Global Voices Credits: 3 (if literatures studied are relevant to Middle East studies)
- GGS 325 - Geography of North Africa and the Middle East Credits: 3
- GOVT 328 - Non-Western Political Theory Credits: 3
- GOVT 345 - Political Islam Credits: 3
- GOVT 445 - Human Rights Credits: 3
- HIST 281 - Survey of Middle Eastern Civilization Credits: 3
- HIST 387 - Topics in Global History Credits: 3-6 (if region studied is relevant to Middle East studies)
- HIST 460 - Modern Iran Credits: 3
- HIST 461 - Arab-Israeli Conflict Credits: 3
- HIST 462 - Women in Islamic Society Credits: 3
- HIST 465 - The Middle East in the 20th Century Credits: 3
- RELI 211 - Religions of the West Credits: 3
- RELI 272 - Islam Credits: 3
• RELI 374 - Islamic Thought Credits: 3
• RELI 375 - Qur’an and Hadith Credits: 3

Total: 18 credits

Public Policy and Management Minor

Banner Code: PPMG

Web: pia.gmu.edu

This minor introduces students to the theory and process of policy formulation and implementation in the political and governmental arena.

This program of study is offered by the Department of Public and International Affairs.

For policies governing all minors, see Academic Policies.

Course Work

Students pursuing this minor must complete 18 credits in government with a minimum grade of 2.0 in each course.

Two core courses (6 credits)

• GOVT 103 - Introduction to American Government Credits: 3
• GOVT 351 - Administration in the Political System Credits: 3

Four elective courses (12 credits) chosen from:

• GOVT 350–359 public administration
• Any GOVT 360–369 public policy
• Any GOVT 450–459 public administration
• Any GOVT 460–469 public policy
• GOVT 480 - Internship, when relevant, with the prior written approval of the minor advisor

Total: 18 credits

Urban and Suburban Studies Minor

Banner Code: USSD

Phone: 703-993-1418

Faculty

Clapsaddle, Gifford, Hackler, Haynes, Hysom, Mattusch, Samara, Schintler, Schrag, Sockett, Stough, Todd, Travis, Wong
The program offers all course work designated USST in the Courses section of this catalog.

This program of study is an interdisciplinary minor offered by the College of Humanities and Social Sciences.

For policies governing all minors, see Academic Policies.

Course Work

Students pursuing this minor must complete 18 credits of coursework with a minimum GPA of 2.00.

Three core courses (9 credits)

- USST 301 - Urban Growth in a Shrinking World Credits: 3
- USST 390 - Special Topics in Urban and Suburban Studies Credits: 3
- USST 401 - Seminar: The Future of Metropolitan America Credits: 3

Three elective courses (9 credits)

Students choose courses from a list of approved electives, which must be selected from more than one of the following categories: environment and culture, government and policy, and economy. Consult the director for a list of approved courses in each category.

Total: 18 credits

- Religious Studies

Phone: 703-993-1290
Web: religious.gmu.edu

Faculty

Professor: Ro (chair)

Professors emeriti: Burns

Associate professors: M. Dakake, Farina, Nguyen, Shiner

Assistant professors: Hammer, Rashkover, Seales

Adjuncts: Bond, D. Dakake, Dreyer, Hebbar, Hostetter, Padgett

Course Work

This department offers all course work designated RELI in the Courses section of this catalog.

Undergraduate Programs
The department offers a bachelor's degree in religious studies for students who are interested in learning more about the world's religious traditions. Majors explore the many dimensions of religion and study religion's spiritual, historical, cultural, and social aspects.

Areas of study offered by the department include Asian religious traditions, Near (Middle) East religious traditions (Judaism, Islam, and Christianity), and comparative aspects of religion. Though the required coursework, majors in religious studies develop skills in reading and interpreting sacred texts. They explore the cultural and social dimensions of religion along with a consideration of religious values and ethics, from comparative and cross-cultural perspectives with relation to global issues.

The courses in the undergraduate program are writing intensive. They enable students to study and analyze religious ideas and symbols and give them the skills they need to present well-argued papers.

Minors

Students majoring in religious studies are encouraged to do one of the many minors offered by the college. See Minors and Interdisciplinary Minors in this section.

The department also offers minors in religious studies and Judaic studies, both of which are available to students in all majors in the university.

Graduate Program

The department sponsors the concentration in religion, culture, and values in the master's degree in individualized studies (MAIS). This concentration is designed for students who interested in exploring the world's major religions at the graduate level. Students study the development and interaction of the global religious traditions that influence human identity, behavior, culture, and values. They investigate the effects that historical crises and the forces of change have on religion, placing contemporary religious pluralism and inter-religious dialog in a global context.

See Interdisciplinary Studies in this section.

Bachelor of Arts

Religious Studies, BA

Banner Code: LA-BA-RELI

Web: religious.gmu.edu

The goal of the major in religious studies is to bring students to an understanding of the major traditions of world religions. Areas of study offered by the department include Asian religious traditions, Near (Middle) East religious traditions (Judaism, Islam, and Christianity), and comparative aspects of religion. Students develop skills in reading and interpreting sacred texts. They explore the cultural and social dimensions of religion along with a consideration of religious values and ethics, from comparative and cross-cultural perspectives with relation to global issues.

The courses in religious studies are writing intensive. They help students to study and analyze religious ideas and symbols and give them the skills to present well-argued papers.

This program of study is offered by the Department of Religious Studies. For policies governing all undergraduate degrees, see Academic Policies.

Degree Requirements
Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in religious studies must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences. Students in this major complete at least 33 credits in religious studies, earning a minimum grade of 2.00 in each course. No course applied to the major in religious studies may be used to fulfill more than one requirement.

Two introductory courses (6 credits) in the main world religions

- RELI 211 - Religions of the West Credits: 3
- RELI 212 - Religions of Asia Credits: 3

Two courses (6 credits) in comparative or methodological aspects of the study of religion chosen from:

- ANTH 313 - Myth, Magic, and Mind Credits: 3
- PHIL 313 - Philosophy of Religion Credits: 3
- RELI 337 - Mysticism: East and West Credits: 3
- RELI 341 - Global Perspectives on Spirituality and Healing Credits: 3
- RELI 490 - Comparative Study of Religions Credits: 3
- SOCI 385 - Sociology of Religion Credits: 3
- RELI 376 - Special Topics in Religious Thought Credits: 3 (when topic is relevant and with the prior written approval of the undergraduate director)

Four courses (12 credits) in religious studies

Students should choose from any religious studies courses (RELI) at the 300 and 400 level other than those used to fulfill the requirements above. They can also choose courses in a scriptural language (such as Arabic, Biblical Hebrew, Chinese, Classical Greek, Latin, or Sanskrit). Up to 6 credits of a scriptural language may be used to fulfill this requirement and the 6 credits of electives.

One seminar (3 credits)

Students should take this course during their senior year.

- RELI 420 - Seminar Credits: 3

Two elective courses (6 credits)

Students should choose elective courses in consultation with an advisor. They can choose from courses in religious studies, related disciplines (including anthropology, art history, and history), or a scriptural language (such as Arabic, Biblical Hebrew, Chinese, Classical Greek, Latin, or Sanskrit). Up to 6 credits of a scriptural language may be used to fulfill this requirement and the requirement of 12 credits in religious studies at 300 and 400 level.

Total: 33 credits

Writing-Intensive Requirement
The university requires all students to complete at least one course designated "writing intensive" in their majors. Students majoring in religious studies fulfill this requirement by successfully completing RELI 420.

Non-Degree

Judaic Studies Minor

Banner Code: JS
Web: religious.gmu.edu

The minor in Judaic studies is designed for students interested in the culture, history, and politics of Jewish communities across the world.

This program of study is offered by the Department of Religious Studies.

For policies governing all minors, see Academic Policies.

Course Work

Students pursuing this minor must complete 15 credits of religious studies coursework with a minimum GPA of 2.00.

Three core courses (9 credits)

- RELI 352 - Judaism from Exile to Talmud Credits: 3
- RELI 370 - Judaism Credits: 3
- RELI 371 - Classic Jewish Texts Credits: 3

Two elective courses (6 credits) chosen from the list below:

Special topics courses and independent studies courses, when relevant, may be used to fulfill this requirement with prior written approval of the undergraduate director.

- HEBR 150 - Introduction to Biblical Hebrew Credits: 3
- HEBR 160 - Readings in Biblical Hebrew Credits: 3
- HIST 465 - The Middle East in the 20th Century Credits: 3
- RELI 211 - Religions of the West Credits: 3
- RELI 350 - Religion and History of Ancient Israel Credits: 3
- RELI 372 - American Judaism Credits: 3

Total: 15 credits

Religious Studies Minor

Banner Code: RELI
Web: religious.gmu.edu
The minor in religious studies introduces students to the world’s religious traditions. Within the minor, students may pursue religious traditions of Asia or the Near (Middle) East or comparative aspects of religion.

This program of study is offered by the Department of Religious Studies.

For policies governing all minors, see Academic Policies.

Course Work

Students pursuing this minor must complete 18 credits with a minimum grade of 2.00 in each course.

One course (3 credits) chosen from:

- RELI 100 - The Human Religious Experience Credits: 3
- RELI 211 - Religions of the West Credits: 3
- RELI 212 - Religions of Asia Credits: 3

Five elective courses (15 credits) in religious studies

At least three courses (9 credits) must be at the 300 level or above.

Total: 18 credits

■ Russian and Eurasian Studies

Phone: 703-993-1233
Web: russianstudies.gmu.edu

Faculty

Barnes (History and Art History), Bockman (Sociology and Anthropology), Boettke (Economics), Christensen (Modern and Classical Languages), Johnsen-Neshati (Theater), Katz (Public and International Affairs), Kelly (History and Art History), Korostelina (Institute for Conflict Analysis and Resolution), Levine (Modern and Classical Languages, director), McGlinchey (Public and International Affairs), Pacynska (Institute for Conflict Analysis and Resolution), Vasilyeva-Roberts (Modern and Classical Languages), Wade (History and Art History)

Coursework

As an interdisciplinary program, Russian and Eurasian Studies draws on many courses from across the university. Students should consult with the director to determine whether a particular course may be used to fulfill a requirement or elective in the degree program.

Undergraduate Program

The bachelor's degree in Russian and Eurasian studies allows students to choose a concentration in one of three areas: Russian language and culture, Russia studies, or Eurasia studies.
Bachelor of Arts

Russian and Eurasian Studies, BA

Banner Code: LA-BA-REST

Web: russianstudies.gmu.edu

This program of study is offered by the Russian and Eurasian Studies Program.

For policies governing all undergraduate degrees, see Academic Policies.

Degree Requirements

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in Russian and Eurasian studies must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences.

Students pursuing this degree must complete 33 credits in one of the concentrations below with a minimum GPA of 2.00.

▲ Concentration in Eurasia Studies (EURS)

The Eurasia studies concentration is designed to provide students with interdisciplinary training in the study of Eurasia, with special focus on Central Asia and secondarily on Russia/the Soviet Union and Eastern Europe. Students will develop a high degree of competence in the history, politics, and culture of Eurasia and a basic competence in a relevant language.

Two courses (6 credits) of Russian or other Eurasian-related language

Courses used to meet this requirement may be in the same language that is used to meet the college language requirement, in which case the student needs to complete 6 credits beyond intermediate proficiency (beyond courses numbered 210 at Mason). With the approval of the director, courses used to meet this requirement may be in a Eurasian-related language that was not used to meet the college language requirement at a level approved by the director.

Two social science courses at the 300- and 400-level (6 credits)

Courses used to fulfill this requirement must focus primarily on Central Asia and Eurasia and may be in any social science discipline (ANTH, ECON, GGS, GOVT, SOCI).

Two history courses at the 300- and 400-level (6 credits)

Courses used to fulfill this requirement must focus primarily on Central Asia and Eurasia.

Two literature or film courses at the 300- and 400-level (6 credits)

Courses used to fulfill this requirement must be related to Eurasia.

Three courses at the 300- and 400-level (9 credits) chosen from:
Students choose from courses that focus predominantly on Eurasia. The courses used to meet this requirement may be in any field of study including special topics courses and other courses that deal primarily with the geographic areas covered in the Russian and Eurasian studies major. To use a special topics course or other course with variable content to meet this requirement, students should seek the advanced written approval of the director. (Special topics courses may be repeated for credit when the topic is different.) The following courses when the topic is relevant, among others, may be used to meet this requirement.

- ARTH 386 - The Silk Road Credits: 3
- HIST 328 - Rise of Russia Credits: 3
- HIST 329 - Modern Russia and the Soviet Union Credits: 3
- HIST 387 - Topics in Global History Credits: 3-6
- HIST 388 - Topics in European History Credits: 3
- HIST 460 - Modern Iran Credits: 3
- HIST 462 - Women in Islamic Society Credits: 3
- HIST 499 - Senior Seminar in History Credits: 3
- GOVT 338 - Government and Politics of Russia Credits: 3
- GOVT 340 - Central Asian Politics Credits: 3
- GOVT 345 - Political Islam Credits: 3
- GOVT 444 - Issues in International Studies Credits: 1-3
- GOVT 447 - Revolution and International Politics Credits: 3
- RUSS 470 - Topics in (Post) Soviet Film Credits: 3
- GGS 330 - Geography of the Soviet Succession States Credits: 3
- ECON 380 - Economies in Transition Credits: 3
- Any 300- or 400-level CONF course

Total: 33 credits

▲ Concentration in Russia Studies (RUSS)

The Russia studies concentration is designed to provide students with in-depth interdisciplinary training in Russia and the Soviet Union. Students will develop a high degree of competence in Russian history, politics, society, and culture as well as a basic competence in the Russian language and the broader Eurasian context.

Two required language courses (6 credits)

Other relevant advanced language courses may be used to fulfill this requirement with the prior written approval of the director. Majors are encouraged to take additional advanced Russian language courses.

- RUSS 250 - Gateway to Advanced Russian Credits: 3
- RUSS 380 - Advanced Russian I Credits: 3

Two courses (6 credits) of Russian or Soviet history chosen from:

When the topic is relevant, HIST 300, HIST 388, or HIST 499 may be used to fulfill this requirement with the prior written approval of the director.

- HIST 328 - Rise of Russia Credits: 3
- HIST 329 - Modern Russia and the Soviet Union Credits: 3
- HIST 426 - The Russian Revolution Credits: 3
Two courses (6 credits) of social sciences dealing primarily with Russia chosen from:

Any topically appropriate courses in any social science discipline (ANTH, ECON, GGS, GOVT, SOCI) may be used to fulfill this requirement with the prior written approval of the director.

- GOVT 338 - Government and Politics of Russia Credits: 3
- GGS 330 - Geography of the Soviet Succession States Credits: 3
- ECON 380 - Economies in Transition Credits: 3

Two courses (6 credits) of Russian literature or culture chosen from:

Other relevant courses may be used to fulfill this requirement with the prior written approval of the director.

- RUSS 310 - Readings in Russian Literature Credits: 3
- RUSS 311 - Contemporary Russian Short Fiction Credits: 3
- RUSS 325 - Major Russian Writers Credits: 3
- RUSS 326 - A Survey of Russian Literature Credits: 3
- RUSS 327 - A Survey of Russian Literature Credits: 3
- RUSS 353 - Russian Civilization Credits: 3
- RUSS 354 - Contemporary Post-Soviet Life Credits: 3

Three courses at the 300 and 400 level (9 credits)

Students choose from courses that focus predominantly on Eastern Europe, Russia, or Central Asia. Courses used to meet this requirement may be in any field of study including special topics courses and other courses that deal primarily with the geographic areas covered in the Russian and Eurasian studies major. To use a special topics course or other course with variable content to meet this requirement, students should seek the advanced written approval of the director. (Special topics courses may be repeated for credit when the topic is different.) Examples of courses that may meet this requirement:

- RUSS 302 - Russian Conversation and Composition Credits: 3
- RUSS 303 - Russian Advanced Conversation Credits: 3
- RUSS 310 - Readings in Russian Literature Credits: 3
- RUSS 311 - Contemporary Russian Short Fiction Credits: 3
- RUSS 325 - Major Russian Writers Credits: 3
- RUSS 326 - A Survey of Russian Literature Credits: 3
- RUSS 327 - A Survey of Russian Literature Credits: 3
- RUSS 353 - Russian Civilization Credits: 3
- RUSS 354 - Contemporary Post-Soviet Life Credits: 3
- RUSS 381 - Advanced Russian II Credits: 3
- RUSS 401 - Readings in the Social Sciences Credits: 3
- RUSS 407 - Russian Drama and Theater Credits: 3
- RUSS 410 - Russian Poetry Credits: 3
- RUSS 470 - Topics in (Post) Soviet Film Credits: 3
- RUSS 480 - Fourth-Year Russian Credits: 3
- RUSS 481 - Fourth-Year Russian Credits: 3
- HIST 300 - Introduction to Historical Method Credits: 3
- HIST 312 - Nationalism in Eastern Europe Credits: 3
- HIST 328 - Rise of Russia Credits: 3
- HIST 329 - Modern Russia and the Soviet Union Credits: 3
• HIST 387 - Topics in Global History Credits: 3-6
• HIST 388 - Topics in European History Credits: 3
• HIST 426 - The Russian Revolution Credits: 3
• HIST 499 - Senior Seminar in History Credits: 3
• THR 352 - Dramatic Literature Seminar Credits: 3
• ECON 380 - Economies in Transition Credits: 3
• GGS 330 - Geography of the Soviet Succession States Credits: 3
• GOVT 338 - Government and Politics of Russia Credits: 3
• GOVT 340 - Central Asian Politics Credits: 3
• GOVT 444 - Issues in International Studies Credits: 1-3
• GOVT 447 - Revolution and International Politics Credits: 3

Total: 33 credits

▲ Concentration in Russian Language and Culture (RULC)

Students in the Russian language and culture concentration develop a high degree of competence in Russian language and culture and a basic familiarity with Russian and Eurasian history and politics.

Three required courses (9 credits) in advanced Russian

- RUSS 380 - Advanced Russian I Credits: 3
- RUSS 381 - Advanced Russian II Credits: 3
- RUSS 480 - Fourth-Year Russian Credits: 3

Two courses (6 credits) in Russian culture or history

- RUSS 353 - Russian Civilization or HIST 328 - Rise of Russia Credits: 3
- RUSS 354 - Contemporary Post-Soviet Life or HIST 329 - Modern Russia and the Soviet Union Credits: 3

Two courses (6 credits) in Russian literature or cinema in translation, chosen from:

- RUSS 325 - Major Russian Writers Credits: 3
- RUSS 326 - A Survey of Russian Literature Credits: 3
- RUSS 327 - A Survey of Russian Literature Credits: 3
- RUSS 470 - Topics in (Post) Soviet Film Credits: 3

Three courses (9 credits) taught in Russian, chosen from:

- RUSS 302 - Russian Conversation and Composition Credits: 3
- RUSS 303 - Russian Advanced Conversation Credits: 3
- RUSS 310 - Readings in Russian Literature Credits: 3
- RUSS 311 - Contemporary Russian Short Fiction Credits: 3
- RUSS 401 - Readings in the Social Sciences Credits: 3
- RUSS 410 - Russian Poetry Credits: 3
- RUSS 481 - Fourth-Year Russian Credits: 3
One course (3 credits) in the social sciences chosen from:

Students choose from courses dealing with Russia. Any other topically appropriate course in a social science discipline (ANTH, ECON, GGS, GOVT, SOCI) may be used to fulfill this requirement with the prior written approval of the director.

- GOVT 338 - Government and Politics of Russia Credits: 3
- ECON 380 - Economies in Transition Credits: 3
- GGS 330 - Geography of the Soviet Succession States Credits: 3

Total: 33 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in Russian and Eurasian studies may fulfill this requirement by successfully completing RUSS 302, RUSS 325, or RUSS 407.

■ Sociology and Anthropology

Phone: 703-993-1440
Web: soan.gmu.edu

Faculty

Emeritus faculty: Black, Dumont, Golomb, Williams (anthropology); Borkman (sociology)

Professors: Haines, Schiller, Seligmann (anthropology); Dennis, Jacobs, Kurtz, Witte, Scimecca (sociology)

Associate professors: Bickford, Trencher (chair) (anthropology); Best, Bockman, Dale, Davis, Guagnano, Hanrahan, Jacobs, Rader, Rosenblum, Samara (sociology)

Assistant professors: Benitez, Hughes Rinker, Mantz, Sadana, Takahashi (anthropology); Kim (sociology)

Term associate professor: Masters (sociology)

Adjuncts: Gerber (anthropology); Minnich, Nambiar, Pearlman, Sandole-Staroste (sociology)

Affiliate faculty: Avruch, Blum, Usher (anthropology); Goldstone, Johnson, Nambiar, Spalter-Roth (sociology)

Course Work

This department offers all course work designated ANTH, SOAN, and SOCI in the Courses section of this catalog.

Undergraduate Programs

Anthropology
The department offers a bachelor of arts degree in anthropology. The program draws broadly from the social sciences, humanities, and natural sciences, making it a strong undergraduate major that provides a sound interdisciplinary preparation for a variety of careers.

Honors in the Major

Highly qualified students majoring in anthropology may apply to graduate with honors in the major. To be eligible, students must have completed at least 60 credits, taken ENGH 302 for the social sciences, completed 15 credits of anthropology (including ANTH 114), and have a minimum cumulative GPA of 3.30 and a minimum grade of B+ in anthropology courses.

If accepted, students complete two honors courses. The first course is an honors section of one of these courses: ANTH 496, 410, 420, 430, 450, 495, or another course chosen in consultation with the honors director. The second course is ANTH 499, in which students complete an honors paper written under the guidance of an anthropology faculty member. All candidates for honors in the major participate in an honors colloquium. To graduate with honors in the major, students must complete the honors coursework with a minimum GPA of 3.50.

Bachelor’s/Accelerated Master’s Program

The department offers highly qualified majors in anthropology the opportunity to apply to an accelerated master’s degree program in anthropology. If accepted, students will be able to earn both the undergraduate and graduate degrees after satisfactory completion of 144 credits, sometimes within five years.

Sociology

The department offers a bachelor's degree in sociology. Sociology majors study how social movements emerge from the collective efforts of individuals and the role that social forces play in defining racial identities and gender roles. They take courses in the theories that explain social phenomena and develop strong research skills, learning how to conduct surveys, interviews, systematic observation as well as how to evaluate sources.

With the strong research skills, critical thinking, and effective writing that are the hallmark of sociology graduates, they are prepared for a variety of career paths from teaching, human service, and human resource occupations to work in the criminal justice system, marketing, and social research. The sociology major is also excellent preparation for students considering law school or graduate training in the social and behavioral sciences.

Honors in the Major

Highly qualified students majoring in sociology may apply to graduate with honors in the major. To be eligible, students must have completed at least 75 credits, taken ENGH 302 for the social sciences, completed 21 credits of sociology, and have a minimum cumulative GPA of 3.30 and a minimum grade of B+ in sociology courses. Applicants must have completed SOCI 303 and SOCI 311 with a minimum grade of B in each.

If accepted, to graduate with honors in sociology, students must complete SOCI 480 and SOCI 481 with a minimum grade of B+ in each of these courses and have an overall GPA of 3.50 in sociology courses presented for graduation. SOCI 481 includes completion of a honors thesis, which will be presented at a sociology colloquium.

Bachelor’s/Accelerated Master’s Program

The department offers highly qualified majors in sociology the opportunity to apply to an accelerated master’s degree program in sociology. If accepted, students will be able to earn both the undergraduate and graduate degrees after satisfactory completion of 144 credits, sometimes within five years.
Minors

The department offers minors in anthropology and sociology available to students in any major.

The department coordinates the interdisciplinary minor in Immigration Studies and the faculty participate in many other minors in the college. See Minors and Interdisciplinary Minors in this section for more information.

Graduate Programs

Anthropology

The department offers a master's degree in anthropology. Students can choose one of three emphases: advanced training in sociocultural anthropology; culture, health and bioethics; or transnational and global issues. They can choose from many courses that are richly interdisciplinary covering such diverse topics as nationalism and transnationalism; bioethics; social movements, ethnicity and identity; conflict and violence; migration, displacement, and refugees; regional ethnography; and political economy and globalization. Departmental specializations include the following regions: Central and South America, Europe, Africa, the Middle East, Asia, and the United States. Course work progresses from core courses to more advanced courses and culminates in a thesis.

Sociology

The department offers master's and doctoral degrees in sociology. Students pursuing a master's degree in sociology take required courses in theory and methods and a host of electives. Students may choose to focus their electives in one of a number of emphases: sex and gender; crime, delinquency, and corrections; race and ethnicity; cultural studies; or conflict analysis and management.

The doctoral degree in sociology provides rigorous training in public and applied social research, including skills in research design, data analysis, and substantive areas that are pertinent to various sectors in the Washington, D.C., area. Graduates have the theoretical, analytical, and professional skills that prepare them for academic positions in teaching or research. They are also well-qualified for nonacademic positions in the many settings that rely on the expertise of sociologists including human service agencies, marketing research firms, educational systems, nonprofit foundations, and law enforcement agencies.

Funding

The department has a limited number of teaching assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

Cultural Studies

The master's degrees in anthropology and sociology provide excellent preparation for students interested in pursuing a doctorate in cultural studies who do not already hold a master's degree. Within the master's in sociology, the emphasis in sociology of culture is designed explicitly to prepare students for the doctoral program in cultural studies.

Nondegree Status

Applicants who do not wish to pursue a degree may apply for nondegree status. Nondegree students must meet the same admission requirements as degree-seeking students (minimum undergraduate GPA of 3.00, among other criteria). Nondegree
students may later apply for admission to a degree program. Up to nine credits earned in nondegree status may transferred to the master’s degrees in anthropology or sociology, subject to the approval of the program director and dean.

**Bachelor of Arts**

**Anthropology, BA**

**Banner Code:** LA-BA-ANTH

Web: soan.gmu.edu

Anthropology is the study of human beings and their cultures. The bachelor of arts degree in anthropology draws broadly from the social sciences, humanities, and natural sciences. It is a strong undergraduate major that provides a sound interdisciplinary preparation for a variety of careers.

This undergraduate program offers students the option of applying to the accelerated master's degree program. See Anthropology, BA/Anthropology, Accelerated MA for specific requirements.

This program of study is offered by the Department of Sociology and Anthropology. For policies governing all undergraduate degrees, see Academic Policies.

**Degree Requirements**

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in anthropology must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences. Students pursuing this degree must complete 36 credits with a minimum GPA of 2.00.

Students are advised to consult with an advisor to learn how they can fulfill general education requirements in global understanding, information technology, and synthesis, as well as the college-level requirement in non-Western culture.

**Four core courses (12 credits)**

SOCI 311 may substitute for ANTH 390.

- ANTH 114 - Introduction to Cultural Anthropology Credits: 3
- ANTH 120 - Unearthing the Past: Prehistory, Culture and Evolution Credits: 3
- ANTH 390 - Theories, Methods, and Issues I Credits: 3
- ANTH 490 - Theories, Methods, and Issues II Credits: 3

**Eight elective courses (24 credits)**

- Students choose electives from ANTH courses at the 300- and 400-level
  Students may use two SOCI courses as electives:
- SOCI 311 - Classical Sociological Theory Credits: 3 (if not used as a substitute for core course ANTH 390)
- SOCI 313 - Statistics for the Behavioral Sciences Credits: 4

  **Note:** Students wishing to pursue careers in anthropology should consider taking ANTH 492 (or subfield specialty equivalents, such as ANTH 420, 450, 495, or 496) as one of their electives.

**Total: 36 credits**
Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in anthropology may fulfill this requirement by successfully completing ANTH 490.

Sociology, BA

Banner Code: LA-BA-SOCI

Web: soan.gmu.edu

Sociology involves the systematic study of social structures, cultural patterns, and human relationships. The sociological imagination combines rigorous methods with theory and observation, yielding insights that challenge commonly held assumptions about the social world. Sociology also informs the practice of social and public service, aiding efforts to address important social problems. Majoring in sociology positions students so they can pursue a varied set of career paths, ranging from teaching, human service, and human resource occupations to positions in the criminal justice system, marketing, and social research. The sociology major is excellent preparation for students considering law school or graduate training in the social and behavioral sciences.

This undergraduate program offers students the option of applying to the accelerated master's degree program. See Sociology, BA/Sociology, Accelerated MA for specific requirements.

This program of study is offered by the Department of Sociology and Anthropology.

For policies governing all undergraduate degrees, see Academic Policies.

Degree Requirements

Students must fulfill all requirements for bachelor's degrees, including university general education requirements. Students pursuing a BA in sociology must complete additional college requirements for the BA degree in the College of Humanities and Social Sciences.

Students pursuing this degree must complete 35 credits of sociology courses with a minimum GPA of 2.00. No more than 6 credits of courses with unsatisfactory grades (C- or D) may be applied toward the degree.

One introductory core course (3 credits)

The introductory course must be completed with a minimum grade of 2.00.

- SOCI 101 - Introductory Sociology Credits: 3

Four additional core courses (14 credits)

Each of these courses must be completed with a minimum grade of 2.00.

- SOCI 303 - Sociological Research Methodology Credits: 4
- SOCI 311 - Classical Sociological Theory Credits: 3
- SOCI 313 - Statistics for the Behavioral Sciences Credits: 4
- SOCI 412 - Contemporary Sociological Theory Credits: 3
Electives (18 credits)

Students complete 18 credits in sociology (SOCI) at the 300 or 400 level.

Students are strongly encouraged to focus four of their elective courses (12 credits) in one of the concentrations below chosen to suit their interests and career objectives. Students who choose a concentration will complete two remaining electives.

Concentrations

Students can focus 12 of their 18 elective credits to complete one of the following 12-credit concentrations.

Students who graduate with honors in sociology may apply 3 credits of honors course work to their selected concentration where appropriate and with prior written approval of the undergraduate director.

▲ Concentration in Childhood and Youth (CYC)

This concentration focuses on the changing social realities, experiences, and identities of children and youth as they are formed in different social and historical contexts. It emphasizes children in peer groups, youth subcultural activities, youth and children and the media, schools, families, social movements, social policy, and the welfare state. This concentration is appropriate for students interested in working directly with children and youth or in organizations serving them in a broad range of fields, such as educational counseling, teaching, policy, advocacy or clinical work, family and community services, social work, early child development, and juvenile justice.

One required course (3 credits)

- SOCI 360 - Youth Culture and Society Credits: 3

Three courses (9 credits) chosen from:

- SOCI 302 - Sociology of Delinquency Credits: 3
- SOCI 307 - Social Movements and Political Protest Credits: 3
- SOCI 309 - Marriage, Families, and Intimate Life Credits: 3
- SOCI 315 - Women and Men in Society Credits: 3
- SOCI 382 - Education in Contemporary Society Credits: 3
- SOCI 395 - Special Topics in Sociology Credits: 3
- SOCI 483 - The Sociology of Higher Education Credits: 3
- ANTH 315 - Socialization Processes: Family, Childhood, Personality in Cross-Cultural Perspective Credits: 3

Total: 12 credits

▲ Concentration in Deviance, Crime, and Social Control (DCSC)

This concentration focuses on the social, legal, and political systems that underpin social control in Western societies and beyond. The emphasis is on how norms, values, and common sense regulate human action and the social forces that produce deviant behavior and societal responses to it. This concentration is appropriate for students interested in the criminal justice system and the law.

One required course (3 credits)
- SOCI 300 - Social Control and Freedom Credits: 3

Three courses (9 credits) chosen from:

- SOCI 301 - Criminology Credits: 3
- SOCI 302 - Sociology of Delinquency Credits: 3
- SOCI 307 - Social Movements and Political Protest Credits: 3
- SOCI 308 - Race and Ethnicity in a Changing World Credits: 3
- SOCI 310 - Sociology of Deviance Credits: 3
- SOCI 332 - The Urban World Credits: 3
- SOCI 340 - Power, Politics, and Society Credits: 3
- SOCI 352 - Social Problems Credits: 3
- SOCI 355 - Social Inequality Credits: 3
- SOCI 395 - Special Topics in Sociology Credits: 3 (depending on topic)

Total: 12 credits

▲ Concentration in Global Sociology (GSOC)

This concentration focuses on global interconnectedness and its effect on the nature of societies around the world. It emphasizes new technologies and social processes, migration, transnational communities, global cities, and social movements working across state borders. This concentration is appropriate for students interested in pursuing internationally oriented careers in social change, political reform, and international development.

One required course (3 credits)

- SOCI 320 - Social Structure and Globalization Credits: 3

Three courses (9 credits) chosen from:

- SOCI 307 - Social Movements and Political Protest Credits: 3
- SOCI 308 - Race and Ethnicity in a Changing World Credits: 3
- SOCI 326 - Armed Conflict and Conflict Resolution Credits: 3
- SOCI 332 - The Urban World Credits: 3
- SOCI 340 - Power, Politics, and Society Credits: 3
- ANTH 332 - Cross-Cultural Perspectives on Globalization Credits: 3

Total: 12 credits

▲ Concentration in Inequality and Social Change (INSC)

The focus is on inequalities, such as those of race, class, and sex, and on the manner in which such inequalities become structurally rooted in a society. The emphasis is on understanding the rise of the struggle for human rights, democracy, and various social movements that have sought to reverse these inequalities through protests, demonstrations, counterorganizations, and the ballot. This concentration is appropriate for students who seek careers in social justice organizations, social services, or teaching, and those who wish to participate in social and political movements.

One required course (3 credits)
• SOCI 355 - Social Inequality Credits: 3

Three courses (9 credits) chosen from:

• SOCI 300 - Social Control and Freedom Credits: 3
• SOCI 308 - Race and Ethnicity in a Changing World Credits: 3
• SOCI 310 - Sociology of Deviance Credits: 3
• SOCI 315 - Women and Men in Society Credits: 3
• SOCI 332 - The Urban World Credits: 3
• SOCI 340 - Power, Politics, and Society Credits: 3
• SOCI 360 - Youth Culture and Society Credits: 3
• SOCI 390 - Sociology of Health, Illness, and Disability Credits: 3
• SOCI 395 - Special Topics in Sociology Credits: 3 (depending on topic)

Total: 12 credits

Total: 35 credits

Writing-Intensive Requirement

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in sociology may fulfill this requirement by successfully completing SOCI 412.

Bachelor/Accelerated Master’s

Anthropology, BA/Anthropology, Accelerated MA

Web: soan.gmu.edu

Highly-qualified Mason anthropology majors may apply to the accelerated master's degree program. If accepted, students will be able to earn both a BA and a MA in anthropology after satisfactory completion of 144 credits, sometimes within 5 years. Students with both a BA and MA have a competitive advantage when applying to PhD programs in anthropology.

This program of study is offered by the Department of Sociology and Anthropology.

For policies governing all graduate degrees, see Academic Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog. For information specific to the accelerated MA in anthropology, see Application Requirements and Deadlines on the departmental web site.

Degree Requirements

While undergraduate students, accelerated master's students complete the two graduate courses indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all
coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master's degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor's/Accelerated Master's Transition Form.

**Sociology, BA/Sociology, Accelerated MA**

Web: soan.gmu.edu

Highly qualified Mason sociology majors may apply to the accelerated master's degree program. If accepted, students will be able to earn both a BA and an MA in sociology following satisfactory completion of 144 credits, sometimes within five years.

This program of study is offered by the Department of Sociology and Anthropology.

For policies governing all graduate degrees, see Academic Policies.

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions section of this catalog.
