Prerequisite(s): Admission to music major program, or permission of instructor.
Notes: Three hours per week studying voice; one hour per week in laboratory ensemble.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 369 - Class Brass: Trombone, Euphonium, and Tuba

Credits: 1 (NR)
Study of techniques of playing and teaching trombone, euphonium, and tuba. Survey of instructional materials and mouthpiece and instrument selection.

Prerequisite(s): Admission to music major program, or permission of instructor.

Notes: Three hours per week studying trombone, euphonium, or tuba; one hour per week in laboratory ensemble.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 4

MUSI 371 - Techniques of Accompanying I

Credits: 1 (NR)
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations, and performances by professionals; and participate in master classes.

Prerequisite(s): Restricted to piano majors and minors, or to those with permission of instructor.

Notes: May be taken two times for credit.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring, Summer

MUSI 372 - Techniques of Accompanying II

Credits: 1 (NR)
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations, and performances by professionals; and participate in master classes.

Prerequisite(s): MUSI 371. Audition on a keyboard instrument for admission to a music degree program, 4 credits in undergraduate Private Music Instruction on a keyboard instrument, or permission of instructor.

Notes: May be taken two times for credit.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring, Summer
MUSI 373 - Advanced Accompanying and Musicianship Skills

Credits: 3 (NR)
Advanced study and techniques for accompanying choirs, vocal soloists, and instrumentalists. Additional instruction in keyboard reduction of orchestral scores for concertos, continuo/figured bass reading, lead-sheet reading, transposition, improvisation, transcription, and "playing by ear."

Prerequisite(s): MUSI 372 or permission of instructor.

Corequisite(s): MUSI 372 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 379 - Introduction to Jazz Improvisation

Credits: 1 (NR)
Study of improvisation techniques and styles, with emphasis on common practice period of jazz. Application on the student's major instrument or voice to develop creativity and personal expression.

Prerequisite(s): MUSI 116 or permission of instructor; corequisite for Jazz Studies minors: MUSI 485 (Jazz Chamber Ensembles).

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 2

MUSI 380 - Wind Symphony

Credits: 1 (RT)
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Highly selective group of instrumentalists perform works from wind symphony repertoire.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Audition.

Notes: Public concerts required.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

MUSI 381 - University Chorale
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from choral repertoire.

Fulfills Mason Core requirement in arts.

**Prerequisite(s):** Audition.

**Notes:** Public concerts required.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring

---

### MUSI 382 - Piano Ensemble

Credits: 1 (RT)  
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Study and performance of original four-hand works for one and two pianos.

Fulfills Mason Core requirement in arts.

**Prerequisite(s):** 4 hours of PMI (Piano) and audition. Written Permission of Instructor required.

**Notes:** Public performances required.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring

---

### MUSI 383 - Symphonic Band

Credits: 1 (RT)  
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from band repertoire.

Fulfills Mason Core requirement in arts.

**Prerequisite(s):** Audition.

**Notes:** Public concerts required.

**Hours of Lecture or Seminar per week:** 1-12  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring

---

### MUSI 384 - Symphonic Chorus

Credits: 1 (RT)  
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from choral repertoire.

Fulfills Mason Core requirement in arts.

**Prerequisite(s):** Audition.

**Notes:** Public concerts required.

**Hours of Lecture or Seminar per week:** 1-12  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of major works from the choral repertoire.

Fulfills Mason Core requirement in arts.

**Prerequisite(s):** Audition.

**Notes:** Public concerts are given.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring

---

**MUSI 385 - Chamber Singers**

Credits: 1 (RT)  
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Students explore their levels of artistic development through discovery, interpretation, and performance of choral music for vocal chamber music ensembles from multiple historical periods. Students bring to Mason and surrounding community musical compositions not readily accessible in regular concert repertoire.

Fulfills Mason Core requirement in arts.

**Prerequisite(s):** Audition.

**Hours of Lecture or Seminar per week:** 1-12  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring

---

**MUSI 387 - Symphony Orchestra**

Credits: 1 (RT)  
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from symphony orchestra repertoire.

Fulfills Mason Core requirement in arts.

**Prerequisite(s):** Audition.

**Notes:** Public concerts required.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring

---

**MUSI 388 - Fundamental Techniques of Stagecraft for Opera and Music Theater**
Study of basic to intermediate stage movement techniques necessary to the performance of opera and music theater roles. Emphasis on acting, improvisation, theater production, musical theater, and operatic role study.

Prerequisite(s): Admission to music program, or permission of instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

**MUSI 389 - Jazz Ensemble**

Credits: 1 (RT)
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Provides practical experience in various aspects of jazz performance: section work within a large aggregation, combo work, and improvisation.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Audition.

Notes: Public concerts required.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

**MUSI 391 - Conducting I**

Credits: 2 (NR)
Study of basic techniques of conducting a musical ensemble.

Prerequisite(s): MUSI 114, 216, and 273; or permission of instructor.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 3
When Offered: Fall

**MUSI 393 - Music Administration and Management**

Credits: 2 (NR)
Prepares students to address aspects of administration and management of music programs in public and private schools. Investigates principles and concepts of management styles and planning. Covers curriculum, budget, student recruitment and retention, external relations of the music unit, and legal issues for music educators.

Prerequisite(s): MUSI 116, or permission of instructor.

Hours of Lecture or Seminar per week: 2
MUSI 394 - Ethnomusicology Internship

Credits: 1-4 (RD)
Option A) Professional internship with an organization dedicated to activities related to the field of ethnomusicology; Option B) Teaching internship in an undergraduate ethnomusicology course at Mason, supervised by the minor coordinator.

Prerequisite(s): MUSI 103, or MUSI 431; Permission of the Ethnomusicology Minor Coordinator.

Notes: All internships must be approved and all arrangements made prior to the beginning of the semester in which the internship is to take place.

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 395 - Teaching Internship

Credits: 1-4 (RT)
Internship with a professional individual or organization in teaching. Introduction to teaching or augmentation of teaching skills. Students develop individual contracts defining the learning and competencies to be gained from the experience.

Prerequisite(s): MUSI 251.

Notes: Maximum of 9 internship credits (MUSI 395, 495, 496) can be applied toward a degree.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 396 - Conducting II

Credits: 2 (NR)
Advanced conducting course emphasizing techniques for instrumental and choral conducting. Refining gestures, full score analysis and interpretation, rehearsal techniques, and changing meters.

Prerequisite(s): MUSI 391, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 401 - Impact of the Arts on Civilization

George Mason University 2014-2015 Official University Catalog 2855
Credits: 3 (NR)
Analyzes how genres of art impact us intellectually, emotionally, and subliminally. Broadens aesthetic and historical perspective, exposes students to major strands of contemporary thought, and develops discursive abilities through role-playing in round table discussions.

Prerequisite(s): 30 credits, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 415 - Music in Computer Technology

Credits: 3 (NR)
Overview of ways computer is used in music. Topics include principles of musical instrument digital interface (MIDI); various kinds of synthesis; acoustics and sound processing; and musical composition using the computer. Explores music resources of Internet and surveys current multimedia applications in music history, theory, ear training, improvisation, and notation.

Fulfills Mason Core requirement in information technology (all).

Prerequisite(s): MUSI 319, or permission of instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1
When Offered: Spring

MUSI 419 - Orchestration

Credits: 3 (NR)
Principles of combining and balancing instruments in orchestral and chamber contexts. Attention to orchestral terminology and general notation as well as timbre, range, clefs, transposition, special effects, and scoring procedures.

Prerequisite(s): MUSI 114, 216, and 319; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

MUSI 421 - Applied Music III

Credits: 1 (RD)
Applied music studies 3.

Prerequisite(s): Audition or portfolio of recent compositions.

Notes: May be repeated for up to 8 credits.
MUSI 424 - Senior Recital

Credits: 1 (NR)
Public recital by student during senior year.

Corequisite(s): Concurrent enrollment in appropriate 3-credit private music instruction course.

Notes: Senior recital must be at least 50 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates.

MUSI 431 - Music History in Society III

Credits: 3 (NR)
Studies contributions to the world of music in selected cultures such as India, Indonesia, China, Japan, Africa, Middle East, and Americas. Emphasizes comparative musical characteristics as well as sociological function. Lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments.

Fulfills Mason Core requirement in global understanding.

Prerequisite(s): MUSI 216, 331, and 332; or permission of instructor.

MUSI 432 - Music History in Society IV

Credits: 3 (NR)
Historical survey of Western music from late 19th century to present, with emphasis on specific musical genres and composers who developed them. Relates musical developments to other aspects of society, and considers interaction between world music. Lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments.

Prerequisite(s): MUSI 216, 331, 332, and 431; or permission of instructor.

MUSI 438 - Music History in Society B
Historical survey of Western vernacular and classical music from 1877 to 1945, with emphasis on musical genres, composers, and performers. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Fulfills writing intensive requirement in the BA in music with a concentration in Music Technology.

**Prerequisite(s):** MUSI 338 or permission of instructor.

**MUSI 439 - Music History in Society C**

Credits: 3 (NR)
Historical survey of Western vernacular and classical music from 1945 to present, with emphasis on specific musical genres, composers, and performers. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments.

**Prerequisite(s):** MUSI 438, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Summer, Spring

**MUSI 441 - Private Music Instruction IV**

Credits: 2-3 (RD)
Applied music studies 4.

**Prerequisite(s):** Audition or portfolio of recent compositions.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 1

**MUSI 442 - Applied Music in Keyboard**

Credits: 2-3 (RD)
Applied music studies in Keyboard.

**Prerequisite(s):** Audition.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 1
**When Offered:** Fall, Spring
MUSI 443 - Applied Music in Voice

Credits: 2-3 (RD)
Applied music studies in Voice.

Prerequisite(s): Audition.

Corequisite(s): MUSI 381, 384, or 385.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

MUSI 444 - Applied Music in Woodwind

Credits: 2-3 (RD)
Applied music studies in Woodwind.

Prerequisite(s): Audition.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

MUSI 445 - Applied Music in Brass

Credits: 2-3 (RD)
Applied music studies in Brass.

Prerequisite(s): Audition.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

MUSI 446 - Applied Music in String

Credits: 2-3 (RD)
Applied music studies in String.

Prerequisite(s): Audition.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1  
When Offered: Fall, Spring

**MUSI 447 - Applied Music in Percussion**

Credits: 2-3 (RD)  
Applied music studies in Percussion.

**Prerequisite(s):** Audition.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1  
When Offered: Fall, Spring

**MUSI 448 - Applied Music in Composition**

Credits: 2-3 (RD)  
Applied music studies in Composition.

**Prerequisite(s):** Portfolio of recent compositions.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1  
When Offered: Fall, Spring

**MUSI 450 - Jazz Improvisation I**

Credits: 2 (NR)  
Emphasizes improvisational materials and language developed in common practice period of jazz.

**Prerequisite(s):** MUSI 379 or permission of instructor.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 1

**MUSI 451 - Keyboard Pedagogy II**

Credits: 3 (NR)  
Intensive study of methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations.

**Prerequisite(s):** MUSI 351 or permission of instructor.
MUSI 452 - Jazz Improvisation II

Credits: 2 (NR)
Emphasis on advanced improvisational techniques and contemporary tunes.

Prerequisite(s): MUSI 399 or permission of instructor.

MUSI 454 - Jazz Arranging

Credits: 3 (NR)
Transcription, analysis, and scoring for small and large jazz ensembles.

Prerequisite(s): MUSI 311 or permission of instructor.

MUSI 461 - The Teaching of General Music in the Elementary and Middle School

Credits: 3 (NR)
Studies theory, methods, practice, and materials to teach general music in elementary and middle school. Students spend three hours per week in class and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in the public schools.

Prerequisite(s): MUSI 114, 216, 273; and acceptance into music education concentration.

Corequisite(s): MUSI 391

Notes: For music majors only.

MUSI 463 - The Teaching of Vocal Music in the Secondary School

Credits: 3 (NR)
Survey of repertoire and methods for teaching high school choral groups, small ensembles, and voice classes. Students spend
three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

**Prerequisite(s):** MUSI 114, 216, 273, and 391; and acceptance into music education concentration.

**Corequisite(s):** MUSI 396.

**Notes:** For music majors only.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1  
**When Offered:** Spring

---

**MUSI 464 - Instrumental Music Methods I**

Credits: 3 (NR)  
Prepares students to successfully plan, organize, and administer marching band and jazz ensemble programs in secondary public school music curriculum. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

**Prerequisite(s):** MUSI 114, 216, and 273; and acceptance into music education concentration.

**Corequisite(s):** MUSI 391

**Notes:** For music majors only.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1  
**When Offered:** Fall

---

**MUSI 465 - Selected Topics in Music Education**

Credits: 1-3 (RD)  
Topics of practical interest to prospective and practicing music educators covering pedagogy, performance, and logistics of teaching music in schools, private studios, and communities.

**Notes:** May be repeated for credit.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0

---

**MUSI 466 - Instrumental Music Methods II**

Credits: 3 (NR)  
Prepares students to teach instrumental music in elementary, middle, and secondary schools. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.
Prerequisite(s): MUSI 114, 216, 273, and 391; and acceptance to music education concentration.

Corequisite(s): MUSI 396.

Notes: For music majors only.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Spring

**MUSI 467 - Instrumental Music Methods I: Orchestra**

Credits: 3 (NR)
Prepares students to successfully plan, organize, and administer string classes from the beginning levels through performing ensembles (grades 4-12), and explore teaching materials appropriate for individual and class instruction. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

Prerequisite(s): MUSI 114, 216, 273, and 361; and acceptance into music education concentration.

Corequisite(s): MUSI 391

Notes: For music majors only.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

**MUSI 485 - Chamber Ensembles**

Credits: 1 (RT)
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from chamber music repertoire.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Audition.

Notes: Public performances required.

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

**MUSI 490 - Musical Communication in Context**
Credits: 3 (NR)
Explains nature of musical communication in a variety of contexts, and combines knowledge gained in Mason Core courses with knowledge and skills specific to the major to serve as a capstone course synthesizing both areas. How does music itself communicate, and how do musicians communicate about it with each other and with the world around them? Students address these through essays in the style of a journal or portfolio, substantial paper, and oral presentation of paper before faculty and student panel.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): Must be in senior year of the B.A. program in Music and have completed all other Mason Core requirements.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 491 - Musical Communication in Performance

Credits: 1 (NR)
Helps student conceive of musical performance as communication in a variety of contexts, and combines knowledge in Mason Core courses with knowledge and skills specific to the major to serve as a capstone course synthesizing both areas. Students consider various aspects of musical communication to prepare senior recital. Students explore social, historical, analytical, and aesthetic aspects of the music they are to perform by composing essays in the style of a journal or portfolio. Students prepare a substantial paper on recital repertoire and present that paper before a faculty and student panel.

Prerequisite(s): Completion of all other required Mason Core courses for BM performance concentration.

Corequisite(s): Concurrent enrollment in appropriate 3-credit private music instruction course and Music 424.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

MUSI 492 - Selected Topics in Music

Credits: 1-3 (RT)
Topics of practical interest to students in composition, music history and literature, world music, jazz studies, and performance practices.

Prerequisite(s): 45 credits, or permission of instructor.

Notes: May be repeated for credit.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

MUSI 493 - Topics in Music Theory

Credits: 3 (NR)
Intensive exploration of selected topics in music theory and analysis.
Prerequisite(s): MUSI 216 or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 495 - Internship in Music Education: Student Teaching

Credits: 6-12 (NR)
Full semester of intensive student teaching experience in approved Virginia schools.

Prerequisite(s): Completion of all other courses required for BM with concentration in music education.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

MUSI 496 - Internship

Credits: 2-6 (NR)
Contact the department one semester before enrollment. Internships are approved work-study programs with specific employers or agencies.

Prerequisite(s): Open to music majors with 90 credits.

Notes: Credit is determined by the department. Maximum 9 internship credits (MUSI 395, 495, 496) can be applied toward degree.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 497 - Independent Study

Credits: 1-3 (NR)
Individual research and study of selected subject in close consultation with instructor. Student may choose from the musicological, ethnomusicological, theoretical, compositional, or educational areas, and produce at least one major written work based on research.

Prerequisite(s): Music majors with 90 credits, and permission of instructor and department chair.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 498 - Independent Study
Credits: 1-3 (NR)
Individual research and study of selected subject in close consultation with instructor. Student may choose from the musicological, ethnomusicological, theoretical, compositional, or educational areas, and produce at least one major written work based on research.

Prerequisite(s): Music majors with 90 credits, and permission of instructor and department chair.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 501 - Graduate Theory Review

Credits: 3 (NR)
Vocabulary and conceptual review of diatonic and chromatic harmony, part writing, form, harmonization, 20th-century techniques.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: Does not count toward required credits of a graduate music degree.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 502 - Graduate Aural Skills Review

Credits: 3 (NR)
Music reading and aural skills including intervals, dictation (melodic and harmonic), scales, chords, rhythms, and meter.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: Does not count toward required credits of a graduate music degree.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 515 - Music in Computer Technology

Credits: 3 (NR)
Overview computer use in music. Topics include principles of musical instrument digital interface (MIDI); synthesis; acoustics and sound processing; and musical composition using the computer. Explores music resources of Internet, and surveys multimedia applications in music history, theory, ear training, improvisation, and notation.

Prerequisite(s): Baccalaureate degree in music, or permission of instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1
When Offered: Spring
MUSI 516 - Keyboard Skills

Credits: 3 (NR)
Enhance keyboard skills for the non-keyboard major, including technique, harmonization, transposition, reading, and accompanying.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 517 - Score Reading Skills

Credits: 3 (NR)
Enhance score study and score reading skills for the conductor.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 525 - Performance Seminar and Vocal Literature for Singers and Accompanists I

Credits: 2 (NR)
Students assigned art songs or operatic arias in Italian, German, French, and English, from Baroque to 21st century, and perform in weekly master class format. Develops and improves musical and artistic preparation and performance, increases repertoire, and establishes dependable methods for creating consistently high standards of artistic performance.

Prerequisite(s): Audition.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 526 - Performance Seminar and Vocal Literature for Singers and Accompanists II

Credits: 2 (NR)
Students assigned art songs or operatic arias in Italian, German, French, and English, from Baroque to 21st century, and perform in weekly master class format. Develops and improves musical and artistic preparation and performance, increases repertoire, and establishes dependable methods for creating consistently high standards of artistic performance.

Prerequisite(s): Audition.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
MUSI 532 - Music History Review I

Credits: 3 (NR)
Enhance understanding of music history and the context of musical style, chronologically through the mid-18th century.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: Does not fulfill courses requirements for graduate degrees in music.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 533 - Music History Review II

Credits: 3 (NR)
Enhance understanding of music history and the context of musical style, from the mid-18th century to today.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: Does not fulfill course requirements for graduate music degrees.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 541 - Diction for Singers I: Italian Diction and English Diction

Credits: 2 (NR)
Increases proficiency in singing in Italian and English by teaching International Phonetic Alphabet (IPA), and strengthens performance of Italian and English art song and operatic repertoire. Intensified, systematic study of phonetics as it applies to Italian and English.

Prerequisite(s): Graduate status in applied voice or permission of instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

MUSI 542 - Diction for Singers II: German Diction and French Diction

Credits: 2 (NR)
Increases proficiency in singing in German and French by teaching International Phonetic Alphabet (IPA), and strengthens performance of German and French art songs and operatic repertoire. Intensified, systematic study of phonetics as it applies to singing in German and French.

Prerequisite(s): Graduate status in applied voice or permission of instructor.
MUSI 551 - Keyboard Pedagogy I

Credits: 3 (NR)
Intensive study of methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations.

Prerequisite(s): Graduate status in applied piano, or permission of instructor.

MUSI 552 - Vocal Pedagogy and Lab

Credits: 3 (NR)
Instruction in teaching voice through systematic study of vocal physiology and its implications for pedagogical methods. Includes theoretical and systematic study of processes, procedures, and practices to develop art of singing. Offers technical, physiological, theoretical, and practical principals of the singing art, with emphasis on vocal health.

Prerequisite(s): Graduate status in applied voice or permission of instructor.

MUSI 553 - Instrumental Pedagogy and Literature

Credits: 3 (NR)
Instruction in teaching of instrumental music techniques for all levels through the study of pedagogical methods, standard literature, and musical instruments produced by present-day manufacturers.

Prerequisite(s): Baccalaureate degree in music, or permission of instructor.

MUSI 555 - Music as a Healing Art

Credits: 3 (NR)
Study of the relationship between musical vibrations and the natural rhythms of the body. Topics include history of music and healing, theory of sound, cymatics, toning, and performance practice as well as a survey of vibrational healing modalities and
related therapies. Considers listening examples as they apply to healing with music. Students sing and play instruments in directed improvisatory performance.

Prerequisite(s): Basic proficiency with instrument or voice, and bachelor's degree in music.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 563 - Orff Schulwerk I

Credits: 3 (NR)
Intensive introduction to Orff teaching philosophy with practical and theoretical instruction and immersion in the method itself. Students learn concepts of rhythm, harmony, solfege, modes, improvisation, and pedagogy. Students learn basic performance technique on soprano recorder, and learn to apply movement and dance in their teaching.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 564 - Orff Schulwerk II

Credits: 3 (NR)
Continues intensive study of Orff teaching philosophy with practical and theoretical instruction and immersion. Teaches further concepts of rhythm and meter including asymmetrical patterns. Reviews pentatonic modes and their transpositions, studies pentachordal and hexachordal scales, and begins intensive work with diatonic modes. Students work with a variety of percussion instruments including body percussion, unpitched instruments, and barred instruments. They sing and play soprano, alto, tenor, and bass recorders. Movement studies continue with intensive study of vocabulary of dance and mime.

Prerequisite(s): MUSI 563, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 565 - Orff Schulwerk III

Credits: 3 (NR)
Continues intensive study of Orff teaching philosophy to complete certification process in Orff Schulwerk. Students continue intensive work in rhythm, melody, harmony, timbre, form, and pedagogy. Tenor, bass, and soprano recorders introduced. Movement and rhythmic studies concentrate on mixed meters and non-Western source materials and styles.

Prerequisite(s): MUSI 563 and 564, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 571 - Techniques of Accompanying I
Credits: 1 (NR)
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations and performances by professionals; and participate in master classes.

**Prerequisite(s):** Admission to graduate-level private music instruction in keyboard instrument, or permission of instructor.

**Notes:** Each course may be taken two times for credit.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring, Summer

---

**MUSI 572 - Techniques of Accompanying II**

Credits: 1 (NR)
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations and performances by professionals; and participate in master classes.

**Prerequisite(s):** Admission to graduate-level private music instruction in keyboard instrument, or permission of instructor.

**Notes:** Each course may be taken two times for credit.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring, Summer

---

**MUSI 573 - Accompanying and Musicianship III**

Credits: 3 (NR)
For piano majors or students with significant keyboard skills.

**Prerequisite(s):** MUSI 572. Study of complex accompanying skills including open score reading and orchestral reduction.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MUSI 592 - Topics in Music**

Credits: 1-6 (RT)
Intensive study of selected topics in performance, composition, or conducting. Individual research, group discussions, and participation in related activities.

**Prerequisite(s):** Baccalaureate degree in music.

**Notes:** May be repeated for up to 12 credits as topics change.
MUSI 610 - Topics in Music Theory

Credits: 3 (RD)
Uses music analytical theories to examine repertoire from a given time period or style.

Prerequisite(s): MUSI 501, 502, and 516, or appropriate score on the graduate placement examination.

Notes: May be repeated for up to 9 credits as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 611 - Analytical Techniques

Credits: 3 (NR)
Detailed formal and stylistic examination of music selected from the major style periods. Development of graduate-level analytical skills.

Prerequisite(s): MUSI 501, 502, and 516, or appropriate score on the graduate placement examination.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 613 - Graduate Orchestration

Credits: 3 (NR)
Intensive study of instrumentation through analysis and arrangement. Includes contemporary techniques and scoring for large forces.

Prerequisite(s): MUSI 501, 502, and 516, or appropriate score on the graduate placement examination.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 614 - Music Theory Pedagogy

Credits: 3 (NR)
Study of materials and procedures in the teaching of undergraduate-level music theory subjects.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.
MUSI 615 - Advanced Jazz Improvisation

Credits: 3 (NR)
Advanced techniques and applications of jazz improvisation.

Prerequisite(s): Graduate placement exam or permission of instructor.

MUSI 621 - Graduate Applied Music

Credits: 1 (RD)
Graduate Applied music studies

Prerequisite(s): Audition or portfolio.

Notes: May be repeated for up to 6 credits.

MUSI 622 - Applied Music in Keyboard

Credits: 1 (RD)
Applied music studies in Keyboard.

Prerequisite(s): Audition.

Notes: May be repeated for up to 6 credits.

MUSI 623 - Applied Music in Voice

Credits: 1 (RD)
Applied music studies in Voice.

Prerequisite(s): Audition.
Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

MUSI 624 - Applied Music in Woodwind

Credits: 1 (RD)
Applied music studies in Woodwind.

Prerequisite(s): Audition.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

MUSI 625 - Applied Music in Brass

Credits: 1 (RD)
Applied Music studies in Brass.

Prerequisite(s): Audition.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

MUSI 626 - Applied Music in String

Credits: 1 (RD)
Applied Music studies in String.

Prerequisite(s): Audition.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

MUSI 627 - Applied Music in Percussion
Credits: 1 (RD)
Applied Music studies in Percussion.

Prerequisite(s): Audition.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0.5

**MUSI 628 - Applied Music in Composition**

Credits: 1 (RD)
Applied Music studies in Composition.

Prerequisite(s): Portfolio of recent compositions.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

**MUSI 629 - Applied Music in Conducting**

Credits: 1 (RD)
Applied Music studies in Conducting.

Prerequisite(s): Audition.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

**MUSI 630 - Topics in Music History and Literature**

Credits: 3 (RD)
Examination of a musical style, genre, composer, compositional school, or historical development. Primary and secondary source materials studied in historical and analytical contexts.

Prerequisite(s): MUSI 532 and 533, or appropriate score on the graduate placement exam.

Notes: Repeatable for up to 9 credits as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MUSI 640 - Topics in World Musics

Credits: 3 (RD)
Study of musics from selected cultures. Students will study structural, social, and cognitive foundations of the music.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: Repeatable for up to 9 credits as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 650 - Topics in Jazz Studies

Credits: 3 (RD)
Study of selected topics in performance, composition, arranging and analysis. May be repeated for up to 9 credits as topics change.

Prerequisite(s): Graduate placement exam or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 651 - Keyboard Pedagogy II

Credits: 3 (NR)
Develop effective teaching strategies, business practices, and investigative/diagnostic approaches in repertoire exploration to prepare/improve teaching abilities in independent studio. Examine professional role of independent piano teacher, investigate scope and sequence of repertoire development, explore creative activities and computer use in the studio, develop understanding of technical skill development, examine intermediate/advanced keyboard repertoire, explore various teaching strategies/philosophies.

Prerequisite(s): Keyboard Pedagogy I.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

MUSI 652 - Vocal Pedagogy II

Credits: 3 (NR)
A continuation of vocal pedagogy I, which focused on teaching voice through the rudimentary and systematic study of vocal physiology and pedagogical methods, and included the process, procedures, development and practice of the art of singing. Pedagogy II provides students the opportunity to apply this information to real life situations through use of four specific
scenarios and practical teaching experience.

**Prerequisite(s):** Vocal Pedagogy I.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**MUSI 653 - Instrumental Pedagogy II**

Credits: 3 (NR)  
Prepares students for teaching string techniques of their major instrument for all levels through study of pedagogical methods and standard literature. Develop sound business practices/policies to ensure success in setting up a private studio; become familiar with local/national professional organizations serving the string teaching community; explore teaching abilities through a case study project involving one or more students.

**Prerequisite(s):** Instrumental Pedagogy I.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**MUSI 654 - Graduate Conducting**

Credits: 3 (RD)  
Classroom study of conducting, including refining gestures, rehearsal leadership, and the communication of musical style.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.

**Notes:** May be repeated for up to 9 credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MUSI 660 - Topics in Music Education**

Credits: 1-6 (RT)  
Examination of specific areas of concern to music educators. Individual research, group discussions, and participation in related activities.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.

**Notes:** Repeatable for up to 9 credits as topics change.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0
**MUSI 661 - Psychology of Music Teaching and Learning**

Credits: 3 (NR)
Study of the learner's musical behaviors (affective, cognitive, and psychomotor) in an effort to devise an empirically based teaching method founded on learning principles.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**MUSI 662 - Introduction to Research in Music**

Credits: 3 (NR)
Development of skills, attitudes, and understanding to conduct and report research in music, including philosophical bases, scope and organization, stylistic practices in writing research reports, study of materials and resources in music and music education, and proper use of library and other research services.

Prerequisite(s): Baccalaureate degree in music, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**MUSI 663 - Aesthetics of Music Education**

Credits: 3 (NR)
Study of philosophical foundations of contemporary music education, and critical examination of music programs and activities in aesthetic education and efforts by music education establishment to enhance them.

Prerequisite(s): Baccalaureate degree in music, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**MUSI 664 - Advanced Pedagogy**

Credits: 3 (NR)
Advanced instruction in pedagogy including study of methods, theories, techniques, and materials for teaching children and adult students.

Prerequisite(s): MUSI 551, or MUSI 552, or MUSI 553, or permission of instructor.

Hours of Lecture or Seminar per week: 3
MUSI 681 - Graduate Choral Ensembles

Credits: 1 (RD)
Performance of works from the choral repertoire.

Prerequisite(s): Audition.

Notes: Public concerts are given. May be repeated for up to 6 credits total.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 682 - Wind Symphony

Credits: 1 (RD)
Highly selective group of instrumentalists performing works from the wind repertoire.

Prerequisite(s): Audition.

Notes: Public concerts are given. May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 683 - Symphonic Band

Credits: 1 (RD)
Performance of works from band repertoire.

Prerequisite(s): Audition.

Notes: Public concerts are given. May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 685 - Graduate Chamber Ensemble

Credits: 1 (RD)
Performance of works from chamber music repertoire.
Prerequisite(s): Audition.

Notes: Public concerts are given. May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 687 - Symphony Orchestra

Credits: 1 (RD)
Performance of works from orchestral repertoire.

Prerequisite(s): Audition.

Notes: Public concerts are given. May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 688 - Opera and Musical Theater Ensemble

Credits: 3 (RD)
Solo-vocal, performance-oriented ensemble class that presents operatic works or excerpts from them, from Baroque to 21st century, as well as works or excerpts from American musical theater.

Prerequisite(s): Audition.

Notes: May be repeated for up to 12 credits.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 4

MUSI 689 - Jazz Ensemble

Credits: 1 (RD)
Provides practical experience in aspects of jazz performance. Participation in section rehearsals and small and large jazz groups. Jazz improvisation expected.

Prerequisite(s): Audition.

Notes: Public concerts given. May be repeated for up to 6 credits total.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
MUSI 690 - Graduate Lecture Recital

Credits: 1-3 (RD)
Combination of musical performance and scholarly presentation on a well-defined topic.

Prerequisite(s): Baccalaureate degree in music, audition.

Corequisite(s): MUSI 621 (3-credit level).

Notes: Public presentation required. May be repeated for a maximum of 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 695 - Teaching Internship

Credits: 2 (RD)
Teaching beginner, intermediate, and early advanced students in private or group lessons under faculty supervision.

Prerequisite(s): MUSI 660.

Notes: May be repeated for up to 4 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 699 - Independent Study

Credits: 1-3 (RT)
Individual research and study a concentration available in the master of music.

Prerequisite(s): Baccalaureate degree in music and permission of graduate coordinator.

Notes: May be taken for maximum 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 710 - Advanced Topics in Music Theory

Credits: 3 (RD)
Advanced study of specific styles and repertoire from the perspective of various analytical approaches.

Prerequisite(s): MUSI 501, 502, and 516, or appropriate score on the graduate placement exam.

Notes: May be repeated for up to 9 credits total as topics change.
MUSI 712 - Composition for Conductors and Performers

Credits: 3 (NR)
Advanced study of new music for various media.

Prerequisite(s): Undergraduate degree in music, graduate placement exam.

Notes: This course is not for students in the composition concentration.

MUSI 720 - Advanced Topics in Applied Music

Credits: 3 (RD)
Advanced study of concepts in applied music.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: May be repeated for up to 6 credits total as topics change.

MUSI 721 - Applied Music

Credits: 2-3 (RD)
Applied Music studies.

Prerequisite(s): Audition or portfolio.

Notes: May be repeated for up to 18 credits.

MUSI 722 - Applied Music in Keyboard

Credits: 2-3 (RD)
Applied music studies in Keyboard.
Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 723 - Applied Music in Voice

Credits: 2-3 (RD)
Applied music in Voice.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 724 - Applied Music in Woodwind

Credits: 2-3 (RD)
Applied music studies in Woodwind.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 725 - Applied Music in Brass

Credits: 2-3 (RD)
Applied music studies in Brass.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 726 - Applied Music in String
MUSI 727 - Applied Music in Percussion

Credits: 2-3 (RD)
Applied music studies in Percussion.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 728 - Applied Music in Composition

Credits: 2-3 (RD)
Applied music studies in Composition.

Prerequisite(s): Portfolio of recent compositions.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 729 - Applied Music in Conducting

Credits: 2-3 (RD)
Applied music studies in Conducting.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 1
MUSI 730 - Advanced Topics in Music History

Credits: 3 (RT)
Advanced study of specific genres, composers, or repertoire from a historically analytical perspective.

Prerequisite(s): MUSI 532 and 533, or appropriate score on the graduate placement exam.

Notes: May be repeated for up to 9 credits total as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 760 - Advanced Topics in Music Education

Credits: 3 (RD)
Advanced study of selected issues in music education.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: May be repeated for up to 9 credits total as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 770 - Advanced Topics in Pedagogy

Credits: 3 (RD)
Advanced study of a specific topic in the pedagogy of music.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: May be repeated for up to 6 credits total as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 790 - Graduate Recital

Credits: 1 (RD)
Public performance. Repertoire and performance standards as approved by faculty.

Prerequisite(s): At least three credits of graduate PMI in the appropriate instrument or voice.

Corequisite(s): MUSI 700-level PMI (3-credits).

Notes: May be repeated for up to 4 credits total.
MUSI 796 - Directed Reading/Research

Credits: 1-3 (RD)
Individualized study on a topic approved by faculty.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: May be repeated for up to 6 total credits.

MUSI 799 - Thesis

Credits: 1-6 (RD)
Supervised research on approved thesis topic.

Prerequisite(s): At least 12 graduate credits including MUSI 511, and approval of thesis topic.

Notes: Students in the music education concentration must also have taken MUSI 562, and have successfully passed comprehensive exit exam.

MUSI 800 - Studies for the Doctor of Philosophy in Education

Credits: 1-6 (RD)
Program of studies designed by the student's discipline director and approved by student's doctoral committee that brings student to participate in research, performance, or creative activity of discipline director and results in a paper reporting original contributions.

Prerequisite(s): Admission to PhD in education program to study music.

Notes: Enrollment may be repeated.
MUSI 810 - Doctoral Seminar in Analysis

Credits: 3 (RD)
Seminar study of a specific genre or repertoire from various analytical perspectives.

Prerequisite(s): Graduate placement examination.

Notes: May be repeated for up to 9 credits as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 821 - Doctoral Private Music Instruction

Credits: 2-3 (RD)
Private instruction in performance, conducting, or composition.

Prerequisite(s): Audition portfolio

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 1

MUSI 822 - Doctoral Applied Music in Keyboard

Credits: 2-3 (RD)
Doctoral applied music studies in Keyboard.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 1

MUSI 823 - Doctoral Applied Music in Voice

Credits: 2-3 (RD)
Doctoral applied music studies in Voice.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.
MUSI 824 - Doctoral Applied Music in Woodwind

Credits: 2-3 (RD)
Doctoral applied music studies in Woodwind.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

MUSI 825 - Doctoral Applied Music in Brass

Credits: 2-3 (RD)
Doctoral applied music studies in Brass.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

MUSI 826 - Doctoral Applied Music in String

Credits: 2-3 (RD)
Doctoral applied music studies in String.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

MUSI 827 - Doctoral Applied Music in Percussion

Credits: 2-3 (RD)
Doctoral applied music studies in Percussion.
Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 1

MUSI 828 - Doctoral Applied Music in Composition

Credits: 2-3 (RD)
Doctoral applied music studies in Composition.

Prerequisite(s): Portfolio of recent compositions.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1

MUSI 829 - Doctoral Applied Music in Conducting

Credits: 2-3 (RD)
Doctoral applied music studies in Conducting.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1

MUSI 830 - Doctoral Seminar in Music History

Credits: 3 (RD)
Seminar study of a specific genre, composer, or repertoire from a historically analytical perspective.

Prerequisite(s): Graduate placement exam.

Notes: May be repeated for up to 9 credits as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 860 - Doctoral Seminar in Music Education
Credits: 3 (RD)
Seminar study of a specific issue in music education.

Prerequisite(s): Graduate placement exam.

Notes: May be repeated for up to 12 credits as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**MUSI 880 - Doctoral Major Ensemble**

Credits: 1 (RD)
Selective ensemble experience for doctoral students in music.

Prerequisite(s): Audition.

Notes: Public concerts are given. May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3

**MUSI 890 - Doctoral Recital**

Credits: 1 (RD)
Public performance. Repertoire and performance standards as approved by faculty.

Prerequisite(s): At least 3 credits in MUSI 821 in the appropriate instrument or voice.

Corequisite(s): MUSI 821 (3-credit level).

Notes: May be repeated for up to 4 credits.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

**MUSI 998 - Dissertation Proposal**

Credits: 1-3 (RD)
Preparation of a proposal for a dissertation study in music under the supervision of music faculty members.

Prerequisite(s): Admission to doctoral program in music, permission of faculty.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 0
MUSI 999 - Dissertation

Credits: 1-12 (RD)
Preparation of a dissertation in music under the supervision of music faculty members.

Prerequisite(s): Candidacy in a doctoral program in music.

Notes: May be repeated for credit.

Native American and Indigenous Studies (NAIS)

Offered by the College of Humanities and Social Sciences

NAIS 201 - Introduction to Native American and Indigenous Studies

Credits: 3 (NR)
Introduction to the history, social organization, political experience, and artistic expression of indigenous peoples of the western hemisphere, focusing primarily on American Indians, using methods and materials from a number of disciplines.

NAIS 499 - Independent Study

Credits: 3 (NR)
Intensive study of a particular area, topic, or critical or theoretical problem related to Native American and Indigenous Studies to be conducted in close consultation with an instructor. At least one substantial, researched piece of written work required.

Nanotechnology (NANO)

Offered by the College of Science
NANO 500 - Introduction to Nanomaterials and Interactions

Credits: 3 (NR)
Introduction to nanotechnology. Discussion of the Feynman challenge and its relation to modern science. Applications to nanostructures of charges, currents, diamagnetics, paramagnetics, and ferromagnetics.

Prerequisite(s): BS in any physical science, mathematics, or engineering; or permission of certificate director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NANO 510 - Strategies for Nanocharacterization

Credits: 3 (NR)
Introduces various nanocharacterization techniques, with a discussion of which techniques are most useful in various applications. Includes gates and bridges, chemical thermodynamics, kinetics, and solid-state reactions.

Prerequisite(s): NANO 500 or permission of certificate director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NANO 520 - Survey of Nanostructures

Credits: 3 (NR)
Discusses nanomechanical oscillators and nanoresonators, nanofibers, and conducting polymer nanowires. Nanomechanical beams for reacting ion etching. Electron-beam lithography and photolithography.

Prerequisite(s): NANO 500 and 510 or permission of certificate director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NANO 530 - Nanofabrication

Credits: 3 (NR)
Covers pulsed laser deposition, molecular beam epitaxy, controlled vapor deposition, reactive sputtering, and doping and implant isolation.

Prerequisite(s): NANO 500 and 510, or permission of certificate director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
NANO 540 - Nanotechnology in Commerce and Government

Credits: 3 (NR)
Discusses competitive position of United States and other countries in nanoscience and nanotechnology. Covers business strategies, environmental, and public health aspects of nanotechnology applications. Also introduces students to issues involving legal, economic, social, and political controls over nanotechnology and nanoscience research.

Prerequisite(s): NANO 500, and admission into graduate certificate program in nanotechnology and nanoscience.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NANO 610 - Nanoelectronics

Credits: 3 (NR)
Introduces basic elements of nanoelectronic structures, including quantum layers, quantum wires, and quantum dots. Covers subband structure, transport in quantum layers, behavior in the presence of magnetic fields, Coulomb blockades, CMOS nanodevices and nanoelectronics, and SOI multigate device physics and modeling.

Prerequisite(s): NANO 500, 510, and 520, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NANO 620 - Computational Modeling in Nanoscience

Credits: 3 (NR)
Introduction to simulation methods used in nanoscience. Covers computational approaches to modeling molecular and condensed matter at the nanoscale level, including interatomic and molecular potentials, molecular mechanics, molecular dynamics, monte carlo averaging, ensemble distributions, numerical sampling, thermodynamic functions, dynamic structure, and introduction to cellular automata.

Prerequisite(s): NANO 500, 510, and 520, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Neurosciences (NEUR)

Offered by the University

NEUR 327 - Cellular, Neurophysiological, and Pharmacological Neuroscience
Basic concepts of cellular and molecular level neuroscience, including neuronal functions, cellular anatomy and membrane functions, electrical properties of neurons, and cellular basis of plasticity.

Prerequisite(s): PSYC 375 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**NEUR 335 - Molecular, Developmental, and Systems Neuroscience**

Credits: 3 (NR)
In-depth survey of genetic and embryological development of the brain and introduction to systems neuroscience, including sections on patterning gene expression, generation and migration of neurons, axonal and dendritic outgrowth, and basic neuroanatomy.

Prerequisite(s): PSYC 376.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 3
When Offered: Fall

**NEUR 380 - Biological Bases of Alzheimer's Disease**

Credits: 3 (NR)
A survey of the causes, symptoms, drug treatments, risk factors and preventative measures associated with Alzheimer's disease.

Prerequisite(s): PSYC 375, 376.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**NEUR 395 - Laboratory Methods in Behavioral Neuroscience**

Credits: 3 (NR)
Introduction to experimental methods used in behavioral neuroscience research. Laboratory work includes surgical, histological and behavioral techniques. Proper use and handling of animals, ethical issues, evaluation of neuroscience literature, experimental design and data analysis are addressed. This course requires working with laboratory rodents.

Prerequisite(s): PSYC 300, BIOL 312 or equivalent.
PSYC 372 or PSYC 376 or permission of instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring
NEUR 410 - Current Topics in Neuroscience

Credits: 3 (NR)
Overview of current topics in neuroscience, focusing on research at Mason.

Prerequisite(s): PSYC 375, 376, ENGH 302. NEUR 327 recommended.

Notes: NSCI 410 is a writing intensive course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NEUR 411 - Seminar in Neuroscience

Credits: 3 (RD)
Advanced seminar on a selected topic in neuroscience. Includes in depth reading and discussion of current research in human and nonhuman animals, with an emphasis on critical evaluation.

Fulfills writing intensive requirement in the major.

Prerequisite(s): PSYC 375, 376, ENGH 302. NEUR 327 and NEUR 335 recommended.

Notes: Course may be repeated if selected topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NEUR 440 - Independent Study in Neuroscience

Credits: 1-3 (RD)
Independent research based a laboratory or field investigation under the guidance of a faculty member, assisting with research on faculty projects, or reviewing the literature on a specific research topic.

Prerequisite(s): NEUR 327, 30 hours of course work with a grade point average of 3.0. or permission of instructor.

Notes: A maximum of 6 hours of independent study may be applied towards the major.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

NEUR 450 - Honors Thesis Proposal
Credits: 2-3 (NR)
Work on proposal for thesis based a laboratory or field investigation under the guidance of a faculty member.

Prerequisite(s): NEUR 327; 335;410 or 411, may be taken as co-requisites. PSYC 300 or equivalent statistics course. Permission of NAC undergraduate committee and thesis director.

Notes: A total of 6 hours must be taken in NEUR 450 and 451. A minimum of 2 hours and a maximum of 3 hours may be taken in NEUR 450.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

NEUR 451 - Honors Thesis

Credits: 3-4 (NR)
Thesis based a laboratory or field investigation under the guidance of a faculty member.

Prerequisite(s): NEUR 450.

Notes: A total of 6 hours must be taken in NEUR 450 and 451. A minimum of 3 hours and a maximum of 4 hours may be taken in NEUR 451.

Hours of Lecture or Seminar per week: 3-4
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

NEUR 461 - Special Topics in Neuroscience

Credits: 1-3 (RT)
Selected topics reflecting in specialized areas of neuroscience.

Equivalent to NSCI 461 (2009-10 catalog)

Prerequisite(s): PSYC 372, 375, or equivalent or permission of instructor.

Notes: May be repeated three times for credit when topic is different.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

NEUR 600 - Chemistry and the Brain
Fundamentals of general chemistry, atoms, molecules, and reactions, with emphasis on water solutions. Organic compounds and functional groups, biosynthesis and properties, and examples from nervous system. Also includes biopolymers and their roles in cellular and neuronal organization, ionic channels, neurotransmitter receptors, and psychoactive substances.

Equivalent to PSYC 556

**Prerequisite(s):** Admission to neuroscience PhD program or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**NEUR 601 - Developmental Neuroscience**

Credits: 3 (NR)
Introduction to developmental neurobiology with overview of embryological development of the nervous system. Topics include neural induction, patterning/cell fate specification, and neural circuit assembly together with modern molecular methods for exploring neural development.

Equivalent to PSYC 527

**Prerequisite(s):** PSYC 372, or BIOL 213 and 303, or the equivalent.

**Hours of Lecture or Seminar per week:** 2
**Hours of Lab or Studio per week:** 0

**NEUR 602 - Cellular Neuroscience**

Credits: 3 (NR)
Detailed overview of the functioning and interactions of the cellular elements of the central nervous system. Topics include structure and function relationships, the chemical, physical, and electrical basis of neural signaling, local versus long-distance signaling, generation of action potentials, and essentials of synaptic communication.

**Prerequisite(s):** Admission to the PhD program in Neuroscience or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**NEUR 603 - Mammalian Neuroanatomy**

Credits: 3 (NR)
Functional anatomy of the brains of mammals, with emphasis on regional and systems neuroanatomy of humans. Anatomy is correlated with material from clinical neurology where possible. Laboratory component includes brain dissections and clinical correlations.

Equivalent to PSYC 531
Prerequisite(s): PSYC 372, or BIOL 213 and 303, or the equivalent.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 3

NEUR 604 - Ethics in Scientific Research

Credits: 1-3 (NR)
Reflects on purpose of scientific research and reviews foundational principles for evaluating ethical issues. Offers skills for survival in scientific research through training in moral reasoning and teaching of responsible conduct. Discusses ethical issues in research, and teaches how to apply critical thinking skills to design, execution, and analysis of experiments. Issues include using animals and humans in research, ethical standards in computer community, and research fraud. Currently accepted guidelines for behavior in data ownership, manuscript preparation, and conduct of persons in authority may be presented and discussed in terms of relevant ethical issues.

Equivalent to PHIL 691

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

NEUR 611 - Philosophical Foundation of Neuroscience

Credits: 3 (NR)
This course presents the joint histories of the nature of thought, the philosophy of science, the construct of self, and the nature of mind.

Prerequisite(s): Any course in neuroscience or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 621 - Synaptic Plasticity

Credits: 3 (NR)
Course on activity-dependent modification of functional connectivity in the central nervous system as it relates to development, cognition, and disease.

Prerequisite(s): NEUR 602

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
NEUR 634 - Neural Modeling

Credits: 3 (NR)
Introduces the objectives, philosophy, and methodology of neuronal modeling. Instructs students in the use of some of the more popular neural modeling software packages. Students learn the syntax of several software packages, how to create neurons from subcellular components, and how to create networks by connecting neuron models.

Prerequisite(s): NEUR 602 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 689 - Topics in Neuroscience

Credits: 3 (RT)
Selected topics in neuroscience reflecting specialized areas or new subfields not covered in fixed-content neuroscience courses.

Notes: Course may be repeated for credit as needed.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 701 - Neurophysiology Laboratory

Credits: 3 (NR)
Hands-on training in current techniques of modern neurophysiology. Acquaints students with the theoretical basis of each technique and trains the student in the laboratory skills necessary to perform each technique. Includes intracellular and extracellular recording techniques.

Prerequisite(s): NEUR 602 and admission to neuroscience PhD program or permission of instructor.

Notes: Meets once weekly for six hours.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 6

NEUR 702 - Research Methods

Credits: 3 (NR)
Trains students in research methodologies for life sciences. Covers the four aspects of biological research projects: experimental design, data collection, data analysis and research ethics.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
NEUR 703 - Laboratory Rotation and Readings

Credits: 3 (NR)
Intensive introduction to a research laboratory in neuroscience. The student will read background material pertinent to the problem under study, learn and practice research methods of the laboratory, and formulate a short final project, which may be a proposal or an actual project, demonstrating some mastery of the techniques and approaches employed.

Prerequisite(s): Admission to the PhD program in Neuroscience.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 709 - Neuroscience Seminars

Credits: 1 (NR)
Special seminar series for first year neuroscience PhD students. Detailed overview of neuroscience research at Mason. Each week, a different neuroscience laboratory and principal investigator lectures to students. The lecture includes the neuroscience basics necessary to appreciate the laboratory research theme and mission, and a more practical description of the active research program, possibly including a visit to the laboratory.

Prerequisite(s): Admission to neuroscience PhD program.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

NEUR 710 - Special Topics in Neuroscience

Credits: 1 (NR)
Examines topics in neurosciences, including neurogenetics, neural imaging, and the competing computational and biological approaches to understanding the mind.

Prerequisite(s): Admission to neuroscience PhD program.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

NEUR 734 - Computational Neurobiology

Credits: 3 (NR)
Intense review of neurobiology for graduate students interested in studying how nerve cells integrate and transmit signals, and how behavior emerges from integrated actions of populations or circuits of nerve cells. Covers electrical and biochemical...
properties of single neurons, and electrical and chemical communication between neurons. Emphasizes mathematical
descriptions and computational techniques to study and understand neurons and networks of neurons.

**Prerequisite(s):** NEUR 602 and MATH 214, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NEUR 735 - Computational Neuroscience Systems**

Credits: 3 (NR)  
Intensive introduction to systems neuroscience from quantitative perspective. Covers computational techniques used to study function of networks of neurons. Uses spike train statistics, neural encoding, and information theory to investigate behaviors that emerge from integrated actions of networks of neurons.

**Prerequisite(s):** NEUR 734, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NEUR 741 - Introduction to Neuroimaging**

Credits: 3 (NR)  
Introduction to physics and techniques of magnetic resonance imaging (MRI) and their applications to clinical and basic neuroscience. Students learn about the protocols used in the acquisition of images in both structural and functional contexts, and experimental paradigms applied to the exploration of cognition, learning, and development. Students gain experience with creating an experimental design for a study and understanding practical logistics involved in imaging, such as MRI safety and subject screening.

**Prerequisite(s):** NEUR 602 or 603, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NEUR 742 - Cognitive Neuroscience**

Credits: 3 (NR)  
Introduces cognitive neuroscience topics, including aspects of cognitive science covering an array of perceptual, sensory, cognitive, and affective processes. Incorporates studies of brain lesions, brain imaging, and animal and computational models.

**Prerequisite(s):** NEUR 602 or 603, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
NEUR 751 - Applied Dynamics in Neuroscience

Credits: 3 (NR)
Covers recent developments in the application of applied dynamics to neuroscience. Emphasizes dynamical system approach to the understanding of neural processes. Topics include neural synchrony and control; formation of waves; oscillations; patterns within neural ensembles; network topology and dynamics of neurons; and decoding and encoding of neural signals.

Prerequisite(s): NEUR 603 or NEUR 734, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 752 - Modern Instrumentation in Neuroscience

Credits: 3 (NR)
Builds on knowledge of how and what things are measured and controlled in modern bioinstrumentation. Topics include fundamental instrumentation; principles of sensing; basic electronics; computer interfaces and data acquisition; signals in biological systems; biopotential and ionic concentration measurements; and optical techniques.

Prerequisite(s): NEUR 602 or 734, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 851 - Advanced Computation and Brain Dynamics

Credits: 3 (NR)
In-depth study of open issues and the state-of-the-art in advanced brain dynamics. Using mathematical and physical models, the course covers the neurodynamical aspects of neural nets, receptive fields, ion-channels, intercortical interactions, phase-locking, synchronicity, and the possible nontrivial role of quantum effects.

Prerequisite(s): NEUR 603 or NEUR 734, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 996 - Doctoral Reading and Research

Credits: 1-6 (RD)
Reading and research on specific topic in neuroscience under direction of faculty member.

Prerequisite(s): Admission to NEUR PhD, and permission of instructor.

Notes: May be repeated as needed.
NEUR 998 - Dissertation Proposal

Credits: 1-6 (RD)
Covers development of a research proposal under guidance of dissertation director and doctoral committee. Proposal forms the basis for the doctoral dissertation.

Prerequisite(s): Admission to the Neuroscience Ph.D. program.

Notes: Course may be repeated as needed; however, no more than a total of 24 credits in NEUR 998 and 999 may be applied toward doctoral degree requirements. Out of the 24, no more than 12 credits of NEUR 998 may be applied.

NEUR 999 - Doctoral Dissertation

Credits: 1-12 (RD)
Doctoral research performed under the direction of the dissertation director.

Prerequisite(s): Admission to candidacy in neuroscience doctoral program.

Notes: May be repeated as needed; however, no more than a total of 24 credits in NEUR 998 and 999 may be applied toward satisfying doctoral degree requirements.

New Century College (NCLC)

Offered by the College of Humanities and Social Sciences

NCLC 101 - Narratives of Identity

Credits: 6 (NR)
Explores the concept of identity through the study of literature and oral communication. Introduces aesthetic, cultural, and historical aspects of these forms of communication as well as their psychological, political, and practical significance, with special emphasis on the role of communication in a free society.
NCLC 102 - Global Networks and Communities

Credits: 6 (NR)

Prepares students for participation in a global society by investigating global and local issues in a historical context. Considers critical topics of western civilization, globalization, (neo)colonialism, imperialism, and hegemony. Students gain an in-depth perspective of the intricate relationships between people and cultures at various moments in our history. Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

NCLC 103 - Human Creativity: Science and Art

Credits: 6 (NR)

Investigates the vital role played by human creativity in fine arts and natural sciences. Fosters an understanding of the aesthetic and intellectual components of the arts while exploring the scientific method, the relation of theory and experiment, and the development and elaboration of major ideas in science. Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

NCLC 111 - Composition, Communication and Community

Credits: 7 (NR)

Students study key skills for our information economy. They research original ideas and analyze critically the ideas of others. They also learn to communicate their conclusions through writing, speech, and the creative use of electronic media. Topics covered include writing to learn, information literacy, individual and small-group communication, and collaborative problem solving.

Notes: Credit distribution: written communication (3), oral communication (2), quantitative reasoning (1), and information technology (2).

Hours of Lecture or Seminar per week: 7
Hours of Lab or Studio per week: 0

NCLC 121 - Science, Mathematics, and Technology in Society

Credits: 7 (NR)

Building on skills developed in NCLC 110/111, designed for students pursuing a BA or BS in integrative studies within New Century College. Introduces natural sciences and their relation to mathematics. After building a knowledge base, students explore
the natural world through contemporary issues. Discusses man and nature from biological, historical, and contemporary viewpoints, while developing an understanding of how science develops and communicates ideas. Students learn to work in groups to solve problems and work through issues, then publicly present ideas through debates, posters and various written formats.

Notes: Credit distribution: math/analytical reasoning (3), and natural science (4).

Hours of Lecture or Seminar per week: 7
Hours of Lab or Studio per week: 0

NCLC 165 - Independent Study

Credits: 1-12 (RT)
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor). Students are encouraged to work as a team on a particular topic.

Prerequisite(s): Permission of instructor and dean.

Notes: Maximum 12 credits can be used to fulfill graduation requirements.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 1-12

NCLC 190 - Internship

Credits: 1-6 (RT)
Internship credit may be applied to 12 credits required in experiential learning. Primary purpose is to connect the student's academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options.

Prerequisite(s): Sophomore standing and permission of instructor.

Notes: Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or associate dean. Structured and supervised professional experience, within an approved agency, for which the student earns academic credit.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 1-6
Grading: Undergraduate Special

NCLC 194 - Service-Learning Experience

Credits: 1-15 (RT)
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and
knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams.

**Hours of Lecture or Seminar per week:** 1-15
**Hours of Lab or Studio per week:** 0

**NCLC 195 - Field-Based Work**

Credits: 1-6 (RT)
Directed field studies in topic not otherwise available to students.

**Notes:** Topics vary, but entire course or significant component is located off campus. In addition to fieldwork, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult Center for Field Studies for more information.

**Hours of Lecture or Seminar per week:** 1-6
**Hours of Lab or Studio per week:** 0

**NCLC 196 - Teaching Assistant Experience**

Credits: 1-6 (RD)
Teaching assistantship and peer-mentoring duties carried out through existing university programs, such as Technology Assistants, Writing Tutors, and Residence Advisors. Also includes teaching assistantship arrangements for specific courses detailed in individualized course contract signed by instructor and student. In addition to peer mentoring/advising, course work may include logistical support, reading assignments, papers, presentations, and portfolios.

**Hours of Lecture or Seminar per week:** 1-6
**Hours of Lab or Studio per week:** 0

**NCLC 197 - Add-On Experiential Learning**

Credits: 1-3 (RT)
For students who wish to add one or more experiential learning credit to existing experiential learning course or learning community.

**Prerequisite(s):** Must be enrolled in a learning community or experiential learning class to add this additional credit.

**Notes:** May also be used by students who wish to add an experiential learning component to course that provides no experiential learning credit (with permission of instructor). Unless experiential learning add-on requirements are spelled out in course syllabus, requirements for add-on experiential learning credit must be detailed in individualized course contract signed by instructor and student.

**Hours of Lecture or Seminar per week:** 1-3
**Hours of Lab or Studio per week:** 0

**NCLC 198 - Field-Based Work**
Credits: 1-15 (RT)
Experiential-based individualized studies, mentored by instructor.

**Notes:** Topics decided by student and instructor, and approved by associate dean. Requirements must be detailed in individualized course contract signed by student, instructor, and associate dean. May include reading assignments, papers, journals, and portfolios.

**Hours of Lecture or Seminar per week:** 1-15
**Hours of Lab or Studio per week:** 0

**NCLC 200 - Visual Thinking and the Creativity**

Credits: 3-15 (NR)
Investigates modes of visual and textual creativity through art, literature, and variety of visual and textual forms. Through interdisciplinary approach to picturing text, provides opportunity to experiment with creative composition that includes visual elements, and with art forms that include textual elements. Explores blocks to creativity, and provides understanding of how to evaluate and write about visual texts as well as how to produce documents that integrate words and images.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 1

**NCLC 201 - The World Since 1945**

Credits: 6 (NR)
Examines the history of the past 50 years to illuminate the contemporary world as well as build connections between the global and local. Using historical works, fiction, autobiographies, films, and daily newspapers, students explore such major events as the Cold War, the struggle against apartheid in South Africa, the Vietnam War, the Chinese Cultural Revolution, and the continuing conflict in the Middle East. As a learning community, requires active student participation in group projects and discussions.

**Hours of Lecture or Seminar per week:** 3-15
**Hours of Lab or Studio per week:** 0

**NCLC 202 - Public Speaking and Critical Thinking Skills**

Credits: 4 (NR)
Combines process of learning to speak in front of audiences with analysis of arguments and persuasive appeals. Students learn how to create and present effective speeches, adapt messages to specific audiences, and evaluate and critique messages produced for others. One credit of experiential learning enables students to examine public speeches, news stories, political campaigns, and advertising, among others, to make meaningful connections between public speaking theory and practice.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 1

**NCLC 203 - Inquiry for Action: Facilitating Change**
Credits: 6 (NR)
Examines the relationships between academic research, individual acts and society's social and political structures. Students design a community-based research project, explore a rich array of qualitative and quantitative approaches, apply information and communication technologies to all aspects of the research process, and learn from individuals and organizations outside the classroom.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

**NCLC 204 - Leadership Theory and Practice**

Credits: 3 (NR)
Examines historical and contemporary leadership theories and invites students to be reflective of their own leadership experiences through the lenses of those theories. Students develop critical lenses through which to evaluate their own self-awareness, effectiveness in groups, and ability to navigate structures and systems.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

**NCLC 210 - Sustainable World**

Credits: 4 (NR)

Covers basic issues in the natural and social sciences that underlie current environmental problems. Considers ethical matters such as equity as they pertain to global resource consumption, pollution, and climate change. Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

**NCLC 211 - Introduction to Conservation Studies**

Credits: 3-6 (NR)

Provides foundation for the integrative study of environmental conservation. Formal and informal writing assignments and oral presentations designed to strengthen critical thinking and communication skills important to students who pursue conservation-related professions. Instructors encourage students to use course assignments and off-campus work to identify suitable educational and career paths within the conservation world. Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 2
NCLC 215 - Introduction to Science and Society

Credits: 2 (NR)
Provides students in the interdisciplinary minor in science and society with general background information and common frame of reference for developing an individualized core of course work. Students design a plan for their course work in the minor, envision the specific topic they will address, and begin preliminary preparation for NCLC 415.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NCLC 220 - Energy and Environment

Credits: 3-6 (NR)

Investigates current sources of energy, various modes of their utilization, and environmental effects. Offers an overview of the mechanical, physical, and chemical methodologies of energy use and delves into the biological, environmental, and ecological aspects of pollution-generating mechanisms. Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0

NCLC 230 - Math and Culture

Credits: 6 (NR)
Focuses on mathematical problems and their emergence in different cultures and historical moments. Emphasizes interdisciplinary nature of the motivations for the development of mathematics and on the process of mathematical discovery. High degree of faculty/student interaction, which enables students to demonstrate, through the use of presentations and projects, their understanding and mastery of fundamental mathematical ideas and techniques and the role of mathematics in the development of human culture.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 231 - Introduction to Community Studies

Credits: 4 (NR)
Examines relationship between sustainable communities and democratic citizenship in a diverse society. The objectives are to improve one's understanding of and thinking critically about communities and democratic principles, theories and practice. Students identify and work through problems that communities address by working in a community service-learning setting.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
NCLC 244 - Beats, Rhyme, and Culture

Credits: 4 (NR)
Examines the history of hip-hop and the effect it has had on our society. The primary focus is to consider hip-hop as a medium of communication that impacts, represents, and misrepresents the life experiences of youth in the United States. Students are exposed to historical, socioeconomic, and musical/aesthetic contexts of this genre through in-class activities and by attending related cultural events.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 245 - Visual Culture and Society

Credits: 4 (NR)
Explores the role of visual culture in contemporary society including an examination of photography, the visual and performing arts, film and video, and electronic media. Readings focus on the historical foundations of visuality as well as theories of visual culture and aesthetics. Students investigate the ways that forms of visual culture function in society and how these are linked to race, class, and gender as well as politics and economics. Students will gain hands-on experience working with contemporary visual media tools such as computer graphics and digital video editing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 249 - Digital Literacy

Credits: 4 (NR)
Investigates information literacy, the mobile web, and interactive and immersive media, including gaming, social networking, blogging and micro-blogging, intellectual, political and civic collaborations, digital aesthetics and emerging digital cultures and art forms. Explores major theories of digital literacy and culture and introduce diverse social, artistic, theoretical and cultural practices that characterize today's digital domains and virtual environments.

Notes: One experiential credit is required in this class.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 1

NCLC 265 - Independent Study

Credits: 1-12 (RT)
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor). Students are encouraged to work as a team on a particular topic.

Prerequisite(s): Permission of instructor and dean.
Notes: Maximum 12 credits can be used to fulfill graduation requirements.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 1-12

NCLC 275 - Special Topics

Credits: 1-18 (RT)
Studies topics of special interest to undergraduates.

Notes: May be repeated for a maximum of 18 credits when topic is different.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 290 - Internship

Credits: 1-6 (RT)
Internship credit may be applied to 12 credits required in experiential learning.

Prerequisite(s): Sophomore standing and permission of instructor.

Notes: Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or associate dean. Structured and supervised professional experience, within an approved agency, for which the student earns academic credit. The primary purpose of an internship is to connect the student's academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 1-6
Grading: Undergraduate Special

NCLC 294 - Service-Learning Experience

Credits: 1-15 (RT)
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams.

Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

NCLC 295 - Field-Based Work
Credits: 1-18 (RT)
Directed field studies in topic not otherwise available to students.

**Notes:** Topics vary, but entire course or significant component is located off campus. In addition to fieldwork, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult Center for Field Studies for more information.

**Hours of Lecture or Seminar per week:** 1-15
**Hours of Lab or Studio per week:** 0

---

**NCLC 296 - Teaching Assistant Experience**

Credits: 1-6 (RD)
Teaching assistantship and peer-mentoring duties carried out through existing university programs, such as technology assistants, writing tutors, and residence advisors. Also includes teaching assistantship arrangements for specific courses detailed in individualized course contract signed by instructor and student. In addition to peer mentoring/advising, course work may include logistical support, reading assignments, papers, presentations, and portfolios.

**Hours of Lecture or Seminar per week:** 1-6
**Hours of Lab or Studio per week:** 0

---

**NCLC 297 - Add-On Experiential Learning**

Credits: 1-3 (RT)
For students who wish to add one or more experiential learning credit to existing experiential learning course or learning community.

**Prerequisite(s):** Must be enrolled in a learning community or experiential learning class to add this additional credit.

**Notes:** May also be used by students who wish to add an experiential learning component to course that provides no experiential learning credit (with permission of instructor). Unless experiential learning add-on requirements are spelled out in course syllabus, requirements for add-on experiential learning credit must be detailed in individualized course contract signed by instructor and student.

**Hours of Lecture or Seminar per week:** 1-3
**Hours of Lab or Studio per week:** 0

---

**NCLC 298 - Field-Based Work**

Credits: 1-15 (RT)
Experiential-based individualized studies, mentored by instructor.

**Notes:** Topics decided by student and instructor, and approved by associate dean. Requirements must be detailed in individualized course contract signed by student, instructor, and associate dean. May include reading assignments, papers, journals, and portfolios.
NCLC 300 - Law and Justice

Credits: 3 (NR)
Combines various teaching methods including lectures, the Socratic method, case studies, discussion of readings and films, debates, and active inquiry-based learning to investigate the major institutions in the American legal system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 301 - Science in the News

Credits: 3 (NR)
Examination and discussion of the current trends in science as reported in the popular media. Students learn how to evaluate the science that is reported so they may become informed consumers; discuss how scientific advancement might shape society by looking at how science and society have changed together over time; and use examples from the past to discuss future trends.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 302 - Argument and Advocacy

Credits: 6 (NR)
Develops theoretical background and skills necessary for effective civic engagement and deliberative discourse. Teaches fundamentals of argument construction, function, and analysis. Covers role of argument and advocacy in a democratic society.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

NCLC 303 - Introduction to International Studies

Credits: 3 (NR)
Explores a multi-disciplinary approach to addressing world issues. Combines lectures, field trips, discussion of readings, films, case studies, projects, and active inquiry-based learning to examine the natural environment, infectious disease and globalization, media and technologies, and war and violent conflict, with an attempt to deepen community members' understanding of an increasingly interdependent world.
**NCLC 304 - Social Movements and Community Activism**

Credits: 4 (NR)
Examines how citizens, individually and collectively, accomplish social change in society through case study analysis. Considers advantages and limits of social change strategies from communication and social movement theory perspectives. Surveys topics including how leaders maintain momentum in face of opposition; how movements and organizations use slogans, symbols and music to inspire followers; and how participants construct persuasive media campaigns and political arguments to facilitate policy change.

Fulfills writing intensive requirement in the major.

Notes: One credit of experiential learning enables students to explore their role as social advocates and effective citizens in context of community.

**NCLC 305 - Conflict Resolution and Transformation**

Credits: 6 (NR)
Examines the nature and dynamics of conflict and ways to resolve and transform conflict. Experiential learning is used as the vehicle through which students explore their assumptions about communication and develop their skills for resolving interpersonal conflicts.

Fulfills writing intensive requirement in the major.

**NCLC 308 - American Landscapes in Fiction, Film, and History**

Credits: 6 (NR)
Waterways and roadways have always had practical, spiritual significance for Americans. Course looks at American literary works and films in historical context to better understand the roles roads, rivers play in shaping physical, cultural landscape of United States. Students explore course themes outside classroom on weekend field trips, and conduct self-directed road trip as a main learning events.

Fulfills Mason Core requirement in synthesis.

Fulfills writing intensive requirement in the major.

Notes: Satisfies requirements for ENGH 302.
NCLC 310 - Violence and Gender

Credits: 3-6 (NR)
Using nonfiction, research documentaries, oral histories, case studies, literature, feature films, music, dance, and visual arts, examines the dynamics of violence through different cultural lenses. Students work in university and community settings to integrate their academic experiences with practice.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0

NCLC 311 - The Mysteries of Migration: Consequences for Conservation

Credits: 6 (NR)

Investigates the biology of migration and its implications for science policy. Students consider the phenomenon of migration in the context of natural history, conservation, and cultural issues. The course includes several weekend trips for field study. Designated a Green Leaf Course.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 312 - Images and Experiences of Childhood: Social Construct, Literature, and Film

Credits: 3-6 (NR)
Immerses students in the images of childhood through the media of literature, video, and poetry, with a strong emphasis on historical perspectives of childhood. The class is interactive, requires some work in groups, and requires classroom participation.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0

NCLC 313 - Strangers in a Strange Land: Immigration in 20th Century America

Credits: 3-6 (NR)
Examines immigration experience as historical reality, culture. Through explorations of historical and contemporary discourse of immigration in United States, illuminates connections between current-day events, and ideas and policies that inform them.
NCLC 314 - Conflict, Trauma and Healing

Credits: 6 (NR)
Develops in students an appreciation of human resilience and helps them acquire better coping mechanisms. Imparts knowledge of the nature and dynamics of trauma and healing. Investigates the difficulties people face in responding to settings of conflict such as war, school shootings, abuse, domestic violence, including natural disaster. Examines case studies from a variety of personal, national, and international settings.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

NCLC 315 - Spirituality and Conflict Transformation

Credits: 6 (NR)
Examines dimensions of spirituality, including peacemaking efforts in large-scale conflicts, conflicts within faith communities, and interpersonal disputes. Experiential learning explores spiritually informed resolution.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

NCLC 316 - Introduction to Childhood Studies

Credits: 4 (NR)
Focuses on the study of childhood from birth to adolescence from the perspective of several disciplines. Covers childhood theory, research, and policy and their applications to decisions regarding children and youth.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 317 - Issues in Family Relationships
Credits: 4 (NR)
Dynamics of family systems and issues that shape relationships among family members. How families evolve as members grow, leave, and create related family systems; family roles and forms; and communication patterns, decision-making, conflict, stress, and power. Content draws from family communication, family relations, psychology, and counseling. Lecture, discussion, observation, analysis, research, and role-playing.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** 55 credits.

**Notes:** One credit counts for experiential learning; students complete 45 credits of course-related work outside classroom.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1

---

### NCLC 318 - Exploring Virginia's Watersheds

Credits: 4 (NR)

Comprehensive overview of history, geography, economics, and management of water resources in Virginia; and how rapidly growing population has measurably degraded resource. Includes one weekend field trip.  
Designated a Green Leaf Course.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** HIST 120, 121, 122, or equivalent; and EVPP 110 or GGS 102 or GEOL 109 or NCLC 120.

**Hours of Lecture or Seminar per week:** 4  
**Hours of Lab or Studio per week:** 0

---

### NCLC 319 - Contemporary Youth Studies

Credits: 3 (NR)

Examines the history of positive youth development, how scholars study youth, and the theories they use to guide their research. Evaluates the policies and programs aimed at empowering youth.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

### NCLC 320 - Construction of Differences: Race, Class, and Gender

Credits: 6 (NR)

Investigates race, sex, sexual orientation, and social class in contemporary American society. Examines commonalities in the construction of these categories and experiences of those who occupy them.

Fulfills writing intensive requirement in the major.
NCLC 322 - Teacher: A Historical Perspective

Credits: 3 (NR)
Examines the rich heritage of the teaching profession in Western society. Traces the history of educational philosophy and teaching, beginning with the ancient Greeks and culminating in the 21st century United States. Using the exploration of the various philosophies of education as a foundation, examines contemporary images of teachers in literature and film.

NCLC 330 - Enterprise Development

Credits: 6 (NR)
Prepares students for enterprise development in diverse environments by examining the spectrum of sociocultural, organizational, behavioral, strategic, and management factors that impact enterprise creation. Instructional method is interactive, using case studies, scenarios, role playing, guest speakers, and student-driven semester projects to link theory to practice.

Fulfills writing intensive requirement in the major.

NCLC 331 - The Nonprofit Sector

Credits: 4 (NR)
Readings, classroom discussions and activities, and practical experience reveal historical, legal, and socioeconomic forces that define and influence the American nonprofit sector. Explores structures, issues that affect nonprofit management, governing, and financial systems.

Fulfills writing intensive requirement in the major.

NCLC 333 - The Nature of Mathematics

Credits: 3 (NR)
Include theoretical framework, historical context, connections with some other disciplines, and current issues. Selected mathematics topics such as advanced algebra and geometry and introductions to set theory, probability, calculus, and number theory.
NCLC 334 - Environmental Justice

Credits: 4 (NR)

Examines historical and contemporary sociopolitical and socioeconomic conditions that have given rise to the environmental justice movement. Analyzes how individuals contribute to environmental justice or injustice through everyday decisions. Considers how environmental justice movement responds to these issues.

Designated a Green Leaf Course.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 335 - Ethics, Communication, and Freedom

Credits: 3-6 (NR)

Students examine ethical principles, discuss some underlying bases for these principles, and work to understand how such principles are experienced and can be applied in a free society. Focus is on examining potential conflicts between ethics and the freedoms believed essential to a healthy democratic society. Cases drawn from sports, medicine, media, politics, and business.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Sophomore standing and 3 credits each of communication and philosophy; or permission of instructor.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0

NCLC 336 - Poverty, Wealth and Inequality in the US

Credits: 3 (NR)

Explores the social, cultural, political, and spiritual implications of poverty, wealth, and inequality in the United States. Examines the ways in which class identity informs one's views of the world and its politics; how socioeconomic status affects one's access to education and other social goods; and how dominant discourses and stereotypes related to poverty influence mass perception regarding a range of social issues, from educational policy to welfare.
NCLC 337 - Social Justice Consciousness and Personal Transformation

Credits: 3 (NR)
Explores the many spaces at which the quest to strengthen social justice consciousness interacts with processes and commitments for personal transformation. Analyzes through the lens of the activist and in the spirit of bringing mindfulness to activism, how we come to see and experience the world. Examines how socialization informs consciousness.

NCLC 338 - Animal Rights and Humane Education

Credits: 3 (NR)
Explores a combination of critical theories, experiential learning, and dialogical practices to examine the ways in which non-human animals are exploited for human profit. Examines the ramifications of this exploitation ecologically, as a question of sustainability, and spiritually, as a question of the impact of animal abuse on the human spirit. Discusses the use of animals in entertainment, factory farming, animal testing, and sport or trophy hunting; and how individuals and organizations are fighting these practices. Designated a Green Leaf Course.

NCLC 345 - Introduction to Multimedia

Credits: 5 (NR)
Technological, aesthetic, and educational issues of using interactive multimedia. Topics include theoretical underpinnings of some technological issues involved in multimedia computing as well as techniques for authoring interactive multimedia projects using a variety of digital media tools.

Fulfills writing intensive requirement in the major.

NCLC 346 - Art as Social Action

Credits: 4 (NR)
This learning community explores historical records to understand different ways art has been produced, distributed, and consumed. Examines ways artists have affected change in their worlds. Through interdisciplinary studies, teaches major social
movements and artists and theories used in socially engaged art. Students engage in experiential learning outside classroom as course requirement.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 347 - Gender Representation in Popular Culture

Credits: 3-6 (NR)
Explores the way in which masculinity and femininity have been represented across the decades in television, movies, music videos, pop art, and print media. Provides a review of the scholarship on the historical and contemporary roles of women and men in society, and examines the contradictions and expectations associated with gender roles. Incorporates active group learning through creative, insight-oriented exercises, critical thinking and discussions, and group presentations and media research activities.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0

NCLC 348 - Digital Futures

Credits: 3 or 6 (NR)
Investigates important contemporary issues such as surveillance-privacy, censorship, piracy, gender and ethnicity, digital labor and play, mobile media and globalization, and the commercialization and political potential of the digital public spheres. Introduces students to the latest technological, philosophical and creative thinking on the future of human society in a digital age.

Fulfills writing intensive requirement in the major.

Prerequisite(s): NCLC 249.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

NCLC 355 - Consciousness, Meaning and Life Purpose

Credits: 3 (NR)
Examines scientific evidence about states of consciousness, providing opportunities for experiences and reflections about the personal impact of states of consciousness on how we find meaningful direction for using our talents. Includes the theory and practice of mindfulness and mediation; finding meaning in dreams; the stress-reduction and creativity-enhancement effects of visualization; and traditions of vision-questing about personal meaning and life purpose.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
NCLC 360 - The Built Environment

Credits: 6 (NR)
Examines, records, and interprets objects, structures, and landscapes that compose our built environment. Draws on the fields of historical archaeology, architectural history, and urban geography, and employs photography, cartography, and evocative writing to represent the material world we inhabit. Builds on study of one neighborhood in Arlington, Virginia, and expands to entire metropolitan area.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 361 - Neighborhood, Community, and Identity

Credits: 3-6 (NR)
Examines processes of neighborhood formation and transformation in the context of urbanism, suburbanism, immigration, and transmigration.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 362 - Social Justice and Human Rights

Credits: 3 (NR)
Considers the philosophical foundations of social justice and human rights, explores the interpretive difficulties related to identifying what constitutes human rights abuses, and evaluates regional perspectives on human rights. Analyzes institutions that strive to promote and enforce social justice and human rights standards including the United Nations system, regional human rights bodies, and domestic courts.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 365 - Independent Study

Credits: 1-12 (RT)
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor). Students are encouraged to work as a team on a particular topic.
NCLC 375 - Special Topics

Credits: 1-18 (RT)
Studies topics of special interest to undergraduates.
Fulfills writing intensive requirement in the major.
Notes: May be repeated for a maximum of 18 credits when topic is different.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 378 - Medicine, Justice, and Public Policy

Credits: 3 (NR)
Explores formation of public policy relating to several key issues in medicine. Students examine basic theories of justice and public policy formation and apply these to contemporary issues in the field of medicine. The goal is to examine how current policy on these issues was established and to give examples of major stakeholders in the debate. This course involves some traditional lecture and discussion classes and also features participative learning through group work and web-based discussions.
Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 381 - When Cultural Worlds Collide

Credits: 6 (NR)
Explores what happens when "civilization" encounters "the jungle" by reading, writing, discussing, and viewing written and filmed works dealing with contacts between cultures with colliding world views. Literature (from Conrad's The Heart of Darkness to Shakespeare's The Tempest to Burrough's Tarzan), news articles, radio broadcasts, web home pages, art exhibits, and many film and video presentations provide the basis for in-class and out-of-class activities.
Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0
NCLC 390 - Internship

Credits: 1-6 (RT)
Internship credit may be applied to 12 credits required in experiential learning.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Sophomore standing and permission of instructor.

Notes: Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or associate dean. Structured and supervised professional experience, within an approved agency, for which the student earns academic credit. The primary purpose of an internship is to connect the student's academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 1-6
Grading: Undergraduate Special

NCLC 391 - Introduction to Integrative Studies

Credits: 3 (NR)
Describes key components of the Integrative Studies Program in New Century College. Students prepare for active participation as a community of learners to develop skills in reflective learning and self-assessment, and identify areas of intellectual and professional interests, values and skills so that students may take greater advantage of opportunities in NCC. As a learning community, this course fosters group collaboration, intensive writing, and reflective learning.

Fulfills writing intensive requirement in the major.

Notes: Students may not enroll in this course after completing 12 or more learning community credits or simultaneously with or after completing NCLC 491.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 394 - Service-Learning Experience

Credits: 1-15 (RT)
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0
NCLC 395 - Field-Based Work

Credits: 1-18 (RT)
Directed field studies in topic not otherwise available to students.

Fulfills writing intensive requirement in the major.

Notes: Topics vary, but entire course or significant component is located off campus. In addition to field work, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult Center for Field Studies for more information.

Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

NCLC 396 - Teaching Assistant Experience

Credits: 1-6 (RD)
Teaching assistantship and peer-mentoring duties carried out through existing university programs, such as Technology Assistants, Writing Tutors, and Residence Advisors. Also includes teaching assistantship arrangements for specific courses detailed in individualized course contract signed by instructor and student. In addition to peer mentoring/advising, course work may include logistical support, reading assignments, papers, presentations, and portfolios.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

NCLC 397 - Add-On Experiential Learning

Credits: 1-3 (RT)
For students who wish to add one or more experiential learning credit to existing experiential learning course or learning community.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Must be enrolled in a learning community or experiential learning class to add this additional credit.

Notes: May also be used by students who wish to add an experiential learning component to course that provides no experiential learning credit (with permission of instructor). Unless experiential learning add-on requirements are spelled out in course syllabus, requirements for add-on experiential learning credit must be detailed in individualized course contract signed by instructor and student.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
**NCLC 398 - Field-Based Work**

Credits: 1-15 (RT)
Experiential-based individualized studies, mentored by instructor.

Fulfills writing intensive requirement in the major.

**Notes:** Topics decided by student and instructor and approved by associate dean. Requirements must be detailed in individualized course contract signed by student, instructor, and associate dean. May include reading assignments, papers, journals, and portfolios.

**Hours of Lecture or Seminar per week:** 1-15  
**Hours of Lab or Studio per week:** 0

---

**NCLC 399 - Study Abroad**

Credits: 1-6 (RT)
Intended for participation in formally organized course offered by Center for Global Education.

Fulfills writing intensive requirement in the major.

**Notes:** May be repeated for a maximum of 16 credits.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

---

**NCLC 400 - Temptress: Constructs of Sex and Power**

Credits: 3 (NR)
Examines the portrayal of powerful and/or sexual women throughout history, identifying famous historical "temptresses" and investigating the facts known about them. Explores representations and perceptions of contemporary female sexuality, considering possible future concepts and images of female power and sexuality.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NCLC 401 - Conservation Biology**

Credits: 6 (NR)

Provides students with a working knowledge of conservation biology. Integrates the study of social, economic, and political factors with biodiversity, population modeling, habitat degradation, and management issues. Students confront the leading edge of this exciting field by developing real species conservation plans. The experiential learning component of the course will include trips to the Smithsonian Institution's Conservation and Research Center in Front Royal, Virginia, to study with nationally known experts.
Designated a Green Leaf Course.

**Prerequisite(s):** Junior standing, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3-15
**Hours of Lab or Studio per week:** 0

**NCLC 402 - Plants and People - Sustenance, Ceremony, and Sustainability**

Credits: 6 (NR)

Examines the direct relationships between people and plants by integrating perspectives from both ethnobotany and economic botany. Provides students with an appreciation of the fundamental role of plants and plant-derived products in all aspects of human life in both industrialized and non-industrialized societies. Explores how plants and their uses have shaped both past and present cultures around the world.

Designated a Green Leaf Course.

**Hours of Lecture or Seminar per week:** 6
**Hours of Lab or Studio per week:** 0

**NCLC 404 - Ethics and Leadership**

Credits: 4 (NR)

Uses an interdisciplinary approach to deepen and broaden student's learning about theories, models, and constructs related to the study and practice of ethics and leadership. Teaches students to develop ethical decision making strategies, communicate effectively in diverse group settings, value civic engagement and actively apply ethical leadership skills. Includes experiential learning activities and discussions that connect formal knowledge with real world experiences and includes one credit of experiential learning.

**Hours of Lecture or Seminar per week:** 4
**Hours of Lab or Studio per week:** 0

**NCLC 405 - Women and Leadership**

Credits: 4 (NR)

Examines leadership within the context of the theoretical principles of women's studies through discussion of course texts, interactive exercises, field trips, documentary films, guest speakers, and reflection. Investigates the role that gender plays in the various forms of leadership and leadership styles. Explores the historical record of women in leadership roles, identifying the barriers as well as the opportunities.

**Hours of Lecture or Seminar per week:** 4
**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring, Summer
NCLC 410 - Contemporary Health Issues

Credits: 3-18 (NR)
Looks at a variety of health and health care issues. Examines several of the major health concerns of women and, to a lesser degree, men. Also explores the biology and medical implications of these diseases and how our society deals with potential life-altering information. Examines who is making the decisions on the allocation of research funds and prevention of diseases.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 415 - Perspectives on Science and Society

Credits: 1 (NR)
Capstone course for the interdisciplinary minor in science and society. Helps students integrate material from their individualized core of courses and make explicit connections among the various disciplines. Provides opportunity for students to share their experiences, expanding their breadth of knowledge in this important and timely area of study.

Prerequisite(s): NCLC 215 and completion of 17 credits toward the minor in science and society.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

NCLC 416 - Refugee and Internal Displacement

Credits: 3 (NR)
Provides students with a deeper understanding of refugee and internal displacement. Explores causes of displacement and its impact on people and societies. Studies the role played by governments, non-governmental organizations (NGOs) and the international community in addressing problems faced by refugees in internally displaced persons in terms of relief assistance and humanitarian services.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 420 - Work Effectiveness Skills

Credits: 3 (NR)
Develops a variety of work-readiness skills needed to become successful in both local and global marketplaces. Topics and skills covered include communication, problem solving in the business setting, workplace ethics, listening skills, how to influence others, building team project rapport, and meeting effectiveness skills.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 422 - An Experiential Approach to American Foreign Policy
NCLC 423 - Management in the Global Marketplace

Credits: 6 (NR)
Experiential approach to the study of global management and organizational behavior. Through exercises, case studies, discussions, group projects, and individual research and essays, students learn the principles of effective management as they apply to modern global organizations, whether public, private, or nonprofit.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

NCLC 431 - Principles of Fund Raising

Credits: 4 (NR)
Examines history of philanthropy and public policy, and the economic and legal frameworks that shape it. Combining theory and practice, students study human behavior, communications, and management systems that are hallmarks of successful fund raising, and begin to develop skills to generate donations, foundation grants, and other unearned revenue for a nonprofit organization.

Prerequisite(s): NCLC 331.

Notes: Includes 1 experiential learning credit.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 435 - Leadership in a Changing Environment

Credits: 4 (NR)
Examines diverse definitions and processes of change across multiple complex contexts. Focuses on identifying innovative, collaborative solutions to seemingly intractable social problems. Explores topics such as social change and globalization, creative conflict resolution, the nature of power, oppression and influence, and systemic leadership.

Prerequisite(s): 60 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
NCLC 436 - Social Justice Education

Credits: 4 (NR)
Examines educational policy, practice, and materials using a variety of lenses informed by social justice theory and praxis. Investigates ways in which racism, sexism, economic injustice, heterosexism, ageism, and other forms of discrimination influence schools and educational access and opportunity for youth. Considers and practices what individuals and communities can do to ensure that all students have equitable educational opportunities.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 440 - Death, Dying, and Decision Making

Credits: 3 (NR)
Interdisciplinary examination of clinical care of dying persons along with psychosocial issues related to processes of death and dying. Special emphasis on application of ethical principles in resolving complex problems for individuals with life-threatening illnesses and their families as care givers or decision makers. Students consider the changing norms and mores surrounding end-of-life decisions and explore the care available to terminally ill patients.

Prerequisite(s): 60 credits, or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 445 - Multimedia Design

Credits: 5 (NR)
Technological, aesthetic, and educational issues of using interactive multimedia. Topics include theory and practice, integration of digital media, interface and navigation studies, and technical constraints on design.

Prerequisite(s): NCLC 345, or permission of instructor.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 1

NCLC 446 - Art, Beauty, and Culture

Credits: 3-6 (NR)
Designed to help students understand the culture- and time-bound nature of beauty as it relates to art. Exploration of how the codes of acceptability in art forms have changed over time, with discussion about the subversive nature of art and the role that beauty plays in art that is created to engage the viewer in some type of action. Exercises include research projects, site visits, and gallery attendance.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0
NCLC 455 - Consciousness and Transformation in Action

Credits: 3 (NR)
Covers how principles and practices of consciousness and transformation relate to the major and career pathway it represents. Includes the theory and practices for deepening the student's own experience with the mindfulness and contemplative approaches to inquire. Capstone course for the minor in consciousness and transformation.

Prerequisite(s): NCLC 355 and 356

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

NCLC 465 - Independent Study

Credits: 1-12 (RT)
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor) Students are encouraged to work as a team on a particular topic.

Prerequisite(s): Permission of instructor and dean.

Notes: Maximum 12 credits can be used to fulfill graduation requirements.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 1-12

NCLC 475 - Special Topics

Credits: 1-18 (RT)
Studies topics of special interest to undergraduates.

Notes: May be repeated for a maximum of 18 credits when topic is different.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 490 - Internship

Credits: 1-6 (RT)
Internship credit may be applied to 12 credits required in experiential learning.

Prerequisite(s): Sophomore standing and permission of instructor.

Notes: Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or associate dean. Structured and supervised professional experience, within an approved agency, for which the student earns
academic credit. The primary purpose of an internship is to connect the student's academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options.

**Hours of Lecture or Seminar per week:** 1-2  
**Hours of Lab or Studio per week:** 1-6  
**Grading:** Undergraduate Special

**NCLC 491 - The Senior Capstone Experience**

Credits: 3 (NR)  
Should be taken semester before graduation; 85 credits required. Graduation requirement for integrative studies students. Students complete final NCC portfolio and senior exposition. Provides information on issues of professional development (interviewing skills, resume development, career strategies, and alumni opportunities).

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NCLC 492 - Graduation Portfolio**

Credits: 0 (RD)  
**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit

**NCLC 493 - Graduation Portfolio**

Credits: 0 (RD)  
**Notes:** NCLC 493 is for students who will not be enrolled in any other course work for the semester.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit

**NCLC 494 - Service-Learning Experience**

Credits: 1-15 (RT)  
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams.

**Hours of Lecture or Seminar per week:** 1-15  
**Hours of Lab or Studio per week:** 0
NCLC 495 - Field-Based Work

Credits: 1-18 (RT)
Directed field studies in topic not otherwise available to students.

Notes: Topics vary, but entire course or significant component is located off campus. In addition to field work, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult Center for Field Studies for more information.

Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

NCLC 496 - Teaching Assistant Experience

Credits: 1-6 (RD)
Teaching assistantship and peer-mentoring duties carried out through existing university programs, such as technology assistants, writing tutors, and residence advisors. Also includes teaching assistantship arrangements for specific courses detailed in individualized course contract signed by instructor and student. In addition to peer mentoring/advising, course work may include logistical support, reading assignments, papers, presentations, and portfolios.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

NCLC 497 - Add-On Experiential Learning

Credits: 1-3 (RT)
For students who wish to add one or more experiential learning credit to existing experiential learning course or learning community.

Prerequisite(s): Must be enrolled in a learning community or experiential learning class to add this additional credit.

Notes: May also be used by students who wish to add an experiential learning component to course that provides no experiential learning credit (with permission of instructor). Unless experiential learning add-on requirements are spelled out in course syllabus, requirements for add-on experiential learning credit must be detailed in individualized course contract signed by instructor and student.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

NCLC 498 - Field-Based Work

Credits: 1-15 (RT)
Experiential-based individualized studies, mentored by instructor.
Notes: Topics decided by student and instructor and approved by associate dean. Requirements must be detailed in individualized course contract signed by student, instructor, and associate dean. May include reading assignments, papers, journals, and portfolios.

Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0
Grading: Undergraduate Special.

NCLC 504 - Leadership Theory, Praxis, and Development

Credits: 3 (NR)
Explores contemporary leadership theories, models, and concepts using a theory-to-practice-to theory framework. Covers leadership theory, supporting research, and practical application. Focuses on active learning through classroom presentations, course texts, a reflection on theory and practice, and team work.

Prerequisite(s): Permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

NCLC 510 - Institutional Records Keeping

Credits: 3 (NR)
Offers students the theory and mechanics of animal records-keeping and identifies the important role accurate records play in successful captive management. Instruction is in the new ISIS Zoological Information Management System (ZIMS) Application, with hands-on training to learn about the capacity of ZIMS for use as a complete information management system.

Prerequisite(s): Admission to MAIS ZAL concentration or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 511 - Career Development

Credits: 3 (NR)
Focuses on traditional and industry-specific nonprofit management topics ranging from marketing to education. It is one of a series of three management courses for MAIS ZAL students.

Prerequisite(s): PUAD 505 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
NCLC 512 - Organizational Development

Credits: 3 (NR)
Covers traditional zoo and aquarium organization topics, strategic planning, human resources, leadership styles, crisis management, and personal ethics. It is one of a series of three management courses for MAIS ZAL students.

Prerequisite(s): NCLC 511

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 513 - Population Management I: Data Acquisition and Processing

Credits: 3 (NR)
Teaches students to collect, process, and enter data into the studbook computer software program PopLink. Introduces basic principles of captive population management and how to use the studbook data to describe the history of the population as well as the natural history of the species in zoo and aquarium collections.

Prerequisite(s): Admission to MAIS ZAL program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 514 - Population Management II: Data Analysis and Breeding Recommendations

Credits: 3 (NR)
Educates students to be competent population managers with the ability to manage the genetic health of captive populations in zoos and aquariums.

Prerequisite(s): NCLC 513 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 515 - Information Technology for Zoos and Aquariums

Credits: 3 (NR)
Examines opportunities and best practices for leading and managing zoos and aquariums in the information age. Includes connecting zoo strategy and technology strategy; developing IT governance; and utilizing technology to further animal care, enhance operations, connect to patrons and increase revenues. Specific applications include zoological information systems, back office enterprise systems, GIS, eCommerce, and social media.

Prerequisite(s): Graduate or graduate non-degree standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
NCLC 520 - Conservation Education

Credits: 3 (NR)
Provides students with a comprehensive view of best practice and an understanding of pedagogical reform necessary to provide excellence in modern zoo and aquarium education. Focuses on public education and K-12 program development.

Prerequisite(s): Admission to MAIS ZAL program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 522 - Developing an Institutional In Situ Conservation Strategy

Credits: 3 (NR)
Educates students about the process and disciplines necessary to facilitate the professional development of an institutional in situ conservation strategy. Teaches students key components of a successful institutional conservation strategy. Presents model for strategy development that can be used as a guide to develop institutionally specific strategies.

Prerequisite(s): Admission to MAIS ZAL program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 523 - Managing Animal Enrichment and Training Programs

Credits: 3 (NR)
Provides students with skills to develop and/or enhance their zoo or aquarium’s enrichment and training programs. Specifically, the goal of the course is to provide the leadership skills and structural framework needed to create and maintain successful enrichment and training programs.

Prerequisite(s): Admission to MAIS ZAL program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
Grading: Graduate Special

NCLC 531 - Principles of Elephant Management

Credits: 3 (NR)
Train students to be competent elephant managers through understanding and application of behavioral science, reproductive physiology, population genetics, and conflict resolution.

Prerequisite(s): Admission to MAIS ZAL concentration or permission of instructor.
NCLC 565 - Independent Study in Zoo and Aquarium Leadership

Credits: 1-3 (RD)
Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study. Requires course contract sign by instructor and NCC dean.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

NCLC 595 - Experiential Learning

Credits: 1-3 (RT)

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

NCLC 625 - Online Library Research for the Zoo and Aquarium Professional

Credits: 3 (NR)
Examines methods and resources used to conduct effective research online. Topics include searching library research databases, locating full text articles and books, citation management, and the ethical use of information. Students develop their understanding of the expectations of the scientific method and ethical conduct among zoo and aquarium professionals through the discussion of relevant case studies.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Nursing (NURS)

Offered by the College of Health and Human Services

NURS 305 - Application of Basic Nursing Techniques

Credits: 1 (NR)
To be taken fall semester of accelerated second degree program. Introduces basic nursing technologies, and provides opportunities to apply these skills in simulated technology lab.

Prerequisite(s): Acceptance into accelerated second degree pathway.
NURS 309 - Introduction to Basic Nursing Care

Credits: 3 (NR)
Enrollment restricted to second-degree students only. Introduces basic fundamentals of nursing care across the life span. Emphasis on nursing process, critical thinking, and foundational technologies and skills required to practice in the health care setting.

Prerequisite(s): Acceptance into accelerated nursing pathway.

Corequisite(s): NURS 310

Notes: Enrollment restricted to second-degree students only.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 2

NURS 310 - Application of Basic Nursing Care

Credits: 3 (NR)
Application of basic nursing care in acute care settings utilizing the nursing process.

Prerequisite(s): Acceptance into accelerated second degree program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 9

NURS 312 - Basic Nursing Care of Adults

Credits: 4 (NR)
Provides the student the opportunity to practice health assessment and fundamental nursing skills with adult medical/surgical clients, including those who are culturally diverse, vulnerable, and experiencing physiological, psychological, and social health problems.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 12
When Offered: Fall

NURS 319 - Pathophysiologica Basis for Nursing Care of Individuals and Small Groups
Focuses on pathophysiological, psychological, sociocultural, and risk-reduction factors related to nursing care for clients with psychiatric conditions, as well as for child-bearing women, infants, children, and adolescents with acute health care needs.

**Prerequisite(s):** Acceptance into accelerated nursing pathway.

**Hours of Lecture or Seminar per week:** 4  
**Hours of Lab or Studio per week:** 0

---

**NURS 330 - Nursing Fundamentals**

Credits: 3 (NR)  
Introduces nursing process and communication skills as the foundation for beginning health assessment and fundamental nursing care for culturally diverse individuals throughout the life span.

**Prerequisite(s):** Acceptance into traditional nursing pathway.

**Corequisite(s):** NURS 331.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**NURS 334 - Nursing as a Health Profession and Discipline**

Credits: 3 (NR)  
Introduces nursing as a dynamic and caring health profession, the impact of epidemiology, health promotion, and disease prevention on health status of culturally diverse and vulnerable individuals, families, small groups, and communities throughout life span. Incorporates nursing and critical thinking processes as they apply to the art and science of nursing. Historical perspectives on ethical, legal, political, and social issues are included.

**Prerequisite(s):** Acceptance into RN or accelerated nursing pathway.

**Corequisite(s):** NURS 309 and 310 for second-degree students only.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**NURS 336 - Concepts in Professional Nursing as a Discipline**

Credits: 3 (NR)  
Provides an analysis of the profession and explores nursing philosophies and theories. Explores legal, ethical, political, and technological issues in health care at various nursing levels. Addresses critical thinking and its application to the collaborative nursing process. Utilizes the American Psychological Association formatting style for professional writing within the nursing profession.
Notes: Must be admitted to the RN-to-BSN program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NURS 337 - Application of Nursing Fundamental Technologies

Credits: 1 (NR)
Opportunity to practice health assessment and fundamental nursing technologies while using communication skills with culturally diverse and vulnerable populations in a variety of settings.

Prerequisite(s): Junior standing.

Corequisite(s): NURS 330 and 331

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 2

NURS 343 - Pharmacology

Credits: 3 (NR)
Covers principles of pharmacokinetics, pharmadynamics of selected drug classifications, and nursing responsibilities related to drug administration to individuals throughout life span.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 344 - Intermediate Nursing Technologies

Credits: 1 (NR)
Laboratory course to assist students in acquiring therapeutic nursing interventions. Technologies presented are asepsis and wound care, administration of medications including dosage calculations, and management of intravenous therapy.

Prerequisite(s): NURS 330, 331, 332, 337, 347, 357, 425.

Corequisite(s): NURS 341.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 2
When Offered: Spring

NURS 347 - Adult Pathophysiology and Nursing Care
Credits: 2 (NR)
Introduces changing health needs of culturally diverse and vulnerable populations. Focuses on nursing care; and
pathophysiological, psychological, sociocultural, and risk reduction implications of frequently experienced health problems in the
adult population.

Prerequisite(s): Acceptance into junior standing.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 348 - Maternal-Newborn Physiology, Pathophysiology, and Nursing Care

Credits: 2 (NR)
Introduces normal and abnormal processes with maternal-infant clients including cultural diversity and vulnerable populations.
Focuses on normal physiological, pathophysiological, psychological, sociocultural, risk reduction, and nursing care of these
clients.

Prerequisite(s): Acceptance into junior standing.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 349 - Pediatric Pathophysiology and Nursing Care

Credits: 2 (NR)
Focuses on changing health needs of culturally diverse and vulnerable populations. Includes nursing care, pathophysiological,
psychological, sociocultural, and risk-reduction implications of frequently experienced health problems in pediatric population.

Prerequisite(s): Acceptance into junior standing.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 350 - Application of Nursing Care for Individuals and Small Groups

Credits: 5 (NR)
Includes five weeks of clinical experience in each specialty area, with focus on obstetric and family nursing, pediatric, and
psychiatric mental health nursing. Students may also follow selected clients in clinics or home situations. Clinical consists of two
full days per week in acute-care agencies.

Prerequisite(s): NURS 334, 305, 309, 310, 319, and 425

Corequisite(s): NURS 351, 419, and 353.

Notes: Open to accelerated second degree students
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 15

**NURS 351 - Application of Intermediate Nursing Technologies**

Credits: 1 (NR)
Introduces intermediate nursing technologies and provides opportunities to apply these skills in simulated technology lab.

**Prerequisite(s):** NURS 309, 310, 319, 334, 425

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 2

**NURS 358 - Health Promotion and Disease Prevention in Maternal/Infant Nursing**

Credits: 2 (NR)
Provides the student an opportunity to perform nursing care to the maternal/infant client, including those who are culturally diverse and vulnerable, and experiencing physiological, psychological, and social health problems in a variety of settings.

**Prerequisite(s):** NURS 348

**Corequisite(s):** NURS 348

**Notes:** Enrollment is controlled.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 6

**NURS 359 - Health Promotion and Disease Prevention in Pediatric Nursing**

Credits: 2 (NR)
Provides the student an opportunity to perform nursing care to the pediatric client, including those who are culturally diverse and vulnerable, and experiencing physiological, psychological, and social health problems in a variety of settings.

**Prerequisite(s):** NURS 349

**Corequisite(s):** NURS 349

**Notes:** Enrollment is controlled.

Hours of Lecture or Seminar per week: 1-9
Hours of Lab or Studio per week: 6

**NURS 388 - Problem-Based Clinical Inquiry**
Focuses on analyzing clinical problems and attempts to resolve issues using critical thinking. Students examine the data in the cases, draw inferences, make deductions, identify assumptions, generate interpretations, evaluate weakness and strengths of arguments, and document their findings.

**Prerequisite(s):** Completion of NURS 425, 330, 331, 332, 337, and one junior-level clinical course (NURS 357, 358, or 359)

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0

---

**NURS 410 - Nursing Care of Clients with Pathological Conditions**

Credits: 3 (NR)  
Encompasses complex health problems of culturally diverse and vulnerable populations throughout the life span. Focuses on nursing care needs and pathophysiological, psychological, and sociocultural implications of complicated health problems.

**Prerequisite(s):** Completion of all junior year nursing courses  
**Corequisite(s):** Completion of computer NCLEX review required to fulfill course requirements

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**NURS 419 - Pathophysiological Basis for Nursing Care of Individuals and Small Groups II**

Credits: 3 (NR)  
Enrollment restricted to second degree students only. Focuses on pathophysiological, psychological, sociocultural, and risk reduction factors related to nursing care of child-bearing women, infants, children, and adolescents experiencing acute health care problems.

**Prerequisite(s):** NURS 305, 309, 310, 319, 334, 425.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NURS 425 - Comprehensive Health Assessment**

Credits: 3 (NR)  
Open only to RNs and LPNs. Introduces systematic health assessment across the life span, and expands that knowledge base to include knowledge and skills necessary to perform comprehensive health assessments with culturally diverse and vulnerable populations.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 2  
**When Offered:** Fall, Spring
NURS 427 - Advanced Technologies for the Accelerated Pathway

Credits: 1 (NR)
Advanced technology course developing knowledge base related to acquisition of advanced skills in nursing practice. Refinement of assessment skills associated with selected advanced technologies integrated into this laboratory course.

Prerequisite(s): NURS 305, 309, 319, 334, 350, 351, 419, 425, 436, 440, 453.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 2

NURS 428 - Community Health Clinical for the Accelerated Pathway

Credits: 2 (NR)
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis on health promotion and disease prevention for well populations, and community-based care for individuals and families with acute and chronic illness.

Prerequisite(s): NURS 436 and 440.

Hours of Lecture or Seminar per week: 1-9
Hours of Lab or Studio per week: 6

NURS 429 - Preceptorship for the Accelerated Pathway

Credits: 3 (NR)
Opportunity to deliver collaborative nursing care to culturally diverse and vulnerable populations.

Prerequisite(s): NURS 309, 310, 320, 343, 419, and 436.

Notes: Concentrated clinical experiences available in selected institutional settings.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 9

NURS 434 - Vulnerable Populations

Credits: 3 (NR)
Focuses on the care of vulnerable and aging populations. Students will examine health disparities, health literacy, and multicultural issues that impact the delivery of health care. Students will analyze health care policies and health care delivery models that offer potential interventions for the identified needs of these populations.

Prerequisite(s): Completion of the Mason Core requirements.
Corequisite(s): Completion of NURS 334 as pre or co-requisite.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

NURS 436 - Leadership and Management of Health Care

Credits: 3 (RD)
Introductory course in the leadership and management of health-related organizations. Reviews administrative issues in health-related services with particular emphasis on developing organizational strategies for effective interfacing of medical, nursing, allied health, and administrative staff.

Prerequisite(s): Completion of all junior year nursing courses

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

NURS 440 - Community Health and Epidemiology

Credits: 3 (RD)
Addresses population-focused health care. Emphasis is on primary, secondary, and tertiary prevention of health problems. Concepts of community, public health, and health policy affecting culturally diverse and vulnerable populations are examined.

Prerequisite(s): Senior standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

NURS 451 - Advanced Clinical Preceptorship

Credits: 5 (NR)
Opportunity to provide complex, collaborative nursing care to culturally diverse and vulnerable populations.

Notes: Concentrated clinicals available in selected institutional settings.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 15
When Offered: Fall, Spring

NURS 453 - Research in Nursing
Credits: 3 (RD)
Introductory research course designed to present basic concepts and methods of research. The research process is examined as a foundation for scholarship. Emphasis on critique and use of current nursing and research in clinical practice.

Prerequisite(s): STAT 250 or equivalent; acceptance into one of BSN nursing pathway.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 455 - Advanced Technologies in Nursing

Credits: 1 (NR)
Opportunity to acquire advanced skills in nursing practice. Refinement of assessment skills associated with selected advanced technologies integrated into this laboratory course.

Corequisite(s): NURS 451.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 4

NURS 457 - Introduction to Nursing Informatics

Credits: 3 (NR)
This introductory course focuses on the use of computer technology in nursing and healthcare. The student evaluates software applications and assesses the merit of health-related information on the Internet. Students will engage in projects aimed at solving patient care problems in a variety of technologically-enhanced health care settings.

Corequisite(s): Senior year

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

NURS 465 - Examination and Integration of Professional and Health Care Issues

Credits: 3 (NR)
Provides students with opportunities to examine issues in health care through reflection on the natural and behavioral sciences, humanities and other prerequisite coursework. Selected topics are examined through reading, writing and discussion. Formal and informal writing on issues is expected. Students receive written self-evaluation as well as formal review by peers and faculty members involved in teaching the course.

Fulfills Mason Core requirement in synthesis.

Equivalent to HAP 465 (2011-2012 Catalog); HHS 465 (2010-2011 Catalog).

Prerequisite(s): Required Mason Core courses (including ENGL 302/ENGH 302).
**NURS 466 - Community Health Nursing**

Credits: 2 (NR)
This course addresses population-focused health care. Concepts of public health, epidemiology, environmental health, extended roles in nursing and health policy affecting culturally diverse and vulnerable populations are examined.

**Prerequisite(s):** Completion of all junior year nursing courses

**Hours of Lecture or Seminar per week:** 2
**Hours of Lab or Studio per week:** 0

---

**NURS 467 - Clinical in Community Health Nursing**

Credits: 2 (NR)
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis is on health promotion and disease prevention for well populations and community-based care for individuals and families with acute chronic diseases.

**Prerequisite(s):** NURS 410, 436, 466

**Corequisite(s):** NURS 442, 466

**Hours of Lecture or Seminar per week:** 1-3
**Hours of Lab or Studio per week:** 6

---

**NURS 468 - Psychiatric and Mental Health Nursing**

Credits: 2 (NR)
Focuses on the nursing care, pathophysiological and psychological, social-cultural, and risk reduction implications of health problems in the area of mental health and psychiatric nursing.

**Prerequisite(s):** Completion of all junior year nursing courses

**Notes:** Open to traditional and LPN students only.

**Hours of Lecture or Seminar per week:** 2
**Hours of Lab or Studio per week:** 0

---

**NURS 469 - Clinical in Psychiatric and Mental Health Nursing**
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis is on health promotion and disease prevention for well populations and community-based care for individuals and families with acute chronic diseases.

**Prerequisite(s):** NURS 410, 436

**Corequisite(s):** NURS 442, 468

**Notes:** Open to traditional and LPN students only.

**Hours of Lecture or Seminar per week:** 1-12

**Hours of Lab or Studio per week:** 6

---

**NURS 488 - Inquiry-Based Clinical Seminar**

Credits: 2 (NR)

Students focus on a selected client they have provided care for during their NURS 451 clinical preceptorship. Students examine the data in the case, draw inferences, make deductions, identify assumptions, and generate interpretations regarding the client's problems. The class will participate as a group in the inquiry process to identify strengths and weaknesses of the arguments presented.

**Prerequisite(s):** Completion of junior-level nursing courses, NURS 410 and NURS 436

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 0

---

**NURS 491 - Critical Thinking and Analysis of Test Taking Strategies**

Credits: 3 (NR)

Increases test-taking abilities and improves critical-thinking skills related to nursing situations. Also guides the student to analyze and organize content to assist in decision making about nursing interventions. With faculty supervision, students work independently based on their learning needs.

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 0

---

**NURS 492 - Death, Dying, and Decision Making**

Credits: 3 (NR)

Interdisciplinary examination and analysis of clinical care of dying and psychosocial issues related to death and dying. Special emphasis on applying ethical principles in resolution of complex problems for individuals with life-threatening illnesses and their families as caregivers or decision makers. Decision-maker models provide basis for clinical case discussions. Questions of futility examined with associated care issues. Current professional and lay literature discussed in context of socially changing norms and mores. Explores hospice and alternative palliative care models, and reviews policies, laws, and regulations that affect caregivers and health service providers. Includes advance directives, do-not-resuscitate orders, and assisted suicide. Presents bereavement as part of death, dying, and grieving process.
Notes: Lecture-discussion.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 495 - Directed Reading in Nursing

Credits: 1-2 (RT)
Examines literature on specialized topic in nursing practice, education, or scholarship. Readings conducted in consultation with faculty.

Prerequisite(s): Senior status or permission of school.

Notes: May be repeated for a maximum of 4 credits.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

NURS 496 - Violence in Today's Society

Credits: 3 (NR)
Examines magnitude of problem of violence globally and more specifically within the United States. Discussion and reflective activities engage students in the learning process.

Equivalent to GCH 496

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 499 - Independent Study in Nursing

Credits: 1-3 (RT)
Provides individual study of a particular problem area in nursing research, theory development, or education under the direction of faculty. Clinical practice may be arranged.

Prerequisite(s): Permission of instructor and Assistant Dean for the Undergraduate Program.

Notes: May be repeated for maximum 6 credits.

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0

NURS 508 - Psychopharmacology
Surveys therapeutic effects and side effect profiles of psychopharmacological drugs including psychotropic and recreational drugs. Emphasizes understanding mechanisms of actions, drug interactions, and subject variables influencing drug effects.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**NURS 513 - Advanced Pharmacology in Nursing**

Credits: 3 (NR)
Does not meet requirements for nurse practitioner majors, but may be taken as an elective. Provides knowledge of physiologic responses and pharmacokinetic principles of pharmacologic agents that will undergird the student's learning of advanced pharmacologic concepts. Topics include advanced pharmacokinetic principles, pharmacotherapeutics of single and multiple drug regimens, client education needs, special population needs, and legal requirements for prescriptive authority.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**NURS 514 - Advanced Health Assessment Methods**

Credits: 1 (NR)
Expands on undergraduate skills in systematic health assessment across the life span. Teaches application of advanced health assessment skills in specialty advanced nursing practice setting. Integration of skills and techniques in collecting health assessment data towards appropriate decision making, clinical assessments, and therapeutic interventions in select population emphasized.

Prerequisite(s): Undergraduate-level health assessment course for degree credit or approved CEU course.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 1

**NURS 530 - Nurses as Writers**

Credits: 3 (NR)
Focuses on theories and practices related to writing in nursing. Researching, composing, revising, and editing practiced in a variety of writing styles.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**NURS 550 - Pathophysiologic Bases for Major Health Deviations of Individuals**

Credits: 3 (NR)
Examines health deviations occurring in people in the United States that require long-term or terminal health care interventions.
Deviations are presented within a developmental framework as they influence physiologic integrity at the cellular level. Focus is on man as a whole, open system. Complex health programs from the perspective of maintaining homeodynamics are examined.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 556 - Principles of Assessment and Evaluation in Nursing Education**

Credits: 3 (NR)  
Presents techniques of assessment, measurement, and evaluation of nursing knowledge and skills in classroom and clinical settings. Provides opportunities for the informal assessment of learning; formal construction, analysis, and evaluation of tests; and evaluation of standardized tests. Examines the current research and the legal and ethical principles related to assessment and evaluation in nursing education.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 570 - Cultural Dimension of Aging**

Credits: 3 (NR)  
Examines the impact of cultural definitions of aging, research methodologies, and findings of crosscultural studies. Implications for health care and nursing are explored.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 571 - HIV/AIDS: Concepts, Principles, and Interventions**

Credits: 3 (NR)  
Provides overview of all aspects of HIV disease to include retrospective and current concepts and analyses of the epidemic, global, and societal impact, and cutting-edge research. Examines development of therapeutic tools and skills to educate, reduce risks, control infection, and affect care and healing of client, family, and community; and issues of increasing dilemma for health care professionals.

Equivalent to GCH 571

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 580 - Operating Room - RN First Assistant**

Credits: 3 (NR)  
Prepares the experienced operating room nurse to become a registered nurse first assistant. Modeled after the official AORN RNFA core curriculum. Student receives hands-on practice in knot tying and suturing, as well as experience with microscope and
NURS 587 - Parish Nursing II

Credits: 3 (NR)
Students must be registered nurses. Focuses on skill development in spiritual assessment, ethical decision making, and effective use of prayer. Emphasizes health promotion, working with volunteers, and utilizing community resources. Self-care and professional identity for the parish nurse are addressed. Students continue the processes of case consultation and spiritual formation.

Prerequisite(s): NURS 586.

Notes: Students must be registered nurses.

NURS 594 - Special Topics in Nursing

Credits: 1-3 (NR)
Presents selected topics analyzing specialized areas in nursing.

Equivalent to GCH 594/HAP 594

Notes: Content varies. Lecture, seminar, laboratory, workshop.

NURS 605 - Clinical Nurse Educator Academy

Credits: 3 (NR)
Integrates knowledge and skills from clinical practice with new knowledge and skills needed as a clinical nurse educator. Narratives are used to teach essential skills for clinical nurse educators, such as assessment of learning needs, writing of objectives, teaching strategies, clinical simulation, and performance evaluation.

NURS 611 - Anthropology of Health
Credits: 3 (NR)
Explores cross-cultural issues of health and illness from medical anthropology theory. Discusses cultural dimensions of
developmental cycle and health care systems.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**NURS 613 - Advanced Health Assessment**

Credits: 2 (NR)
The course expands on undergraduate skills in systematic health assessment across the life span. The student will learn advanced
health assessment skills in specialty advanced nursing practice. Integration of skills and techniques in collecting health
assessment data towards appropriate decision-making, clinical assessments and therapeutic interventions in select populations is
emphasized in this lab and didactic course.

Prerequisite(s): Undergraduate-level Health Assessment course for degree credit.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

**NURS 618 - Pathophysiology: Health and Illness**

Credits: 3 (NR)
Focuses on the biological and pathophysiological foundations of health problems. Biological changes in selected health problems
and health risks, will be used as a framework for critically appraising assessment data and to advance nursing strategies.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**NURS 620 - Advanced Psychiatric/Mental Health Nursing**

Credits: 3 (NR)
Build on basic psychiatric and mental health nursing knowledge and skills in assessment, diagnosis, therapeutic intervention, and
management. Focuses on enhancing fundamental roles of psychiatric or mental health advanced practice nurse, including
practice, teaching, consultation, supervision, and research in relation to clients and their families.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**NURS 623 - Clinical Concepts in Community-Oriented Primary Care**

Credits: 3 (NR)
Theoretical and clinical application of community-oriented primary care concepts with focus on health promotion and disease
prevention. Examines scope of practice of advanced practice nurse practitioner. Students work with interdisciplinary groups to
improve health indicators for populations.

**Prerequisite(s):** NURS 665.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 3

---

**NURS 630 - Acute Care Nursing for Advanced Practice**

Credits: 3 (NR)  
Focuses on acute-care nursing for advanced practice with individuals and their families diagnosed with potentially life-threatening alterations in health. Emphasizes risk factors, physical symptoms, evidence-based interventions, functional capacity, and patient and family dynamics; and psychosocial, economic, and cultural factors and their impact on care.

**Prerequisite(s):** Admission to the graduate program or permission of the instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NURS 632 - Pathogenesis of Mental Disorders**

Credits: 3 (NR)  
Explores biological correlates of mental illness, including neuronal function, structure and connectivity, and peripheral alterations in biological functioning that contribute to mental disorders across the lifespan. Reviews genetic heritability and specific theories of etiology and diagnostic classifications. Develops interview and differential diagnostic skills.

**Prerequisite(s):** Admission to the Doctor of Nursing Practice program or with permission of instructor.

**Notes:** Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**NURS 633 - Individual Psychotherapy**

Credits: 3 (NR)  
Explores major approaches to individual psychotherapy such as psychodynamic, humanistic, interpersonal, behavioral, cognitive, dialectical behavioral, brief, crisis, and multicultural therapies as they relate to advanced nursing practice in mental health. Applications of individual psychotherapies across the lifespan and among diverse populations are critically examined.

**Prerequisite(s):** Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 632.

**Notes:** Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations.
NURS 634 - Group, Family and Couple Psychotherapy

Credits: 1 (NR)
Explore the major psychotherapeutic approaches for groups, families, and couples. Emphasis is placed on the application of theories and models of group, family, and couple psychotherapy across the lifespan and among diverse populations.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 632.

Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations.

NURS 643 - Community-Oriented Primary Care

Credits: 3 (NR)
Theoretical and clinical application of community-oriented primary care concepts with a focus on health promotion and disease prevention.

Prerequisite(s): Admission to MSN or DNP Program or permission of instructor.

NURS 648 - Aging and Health

Credits: 3 (NR)
Provides an overview of normal aging and explores factors that affect health and well being in older adults; demonstrates strategies for maintaining health and managing chronic illness in older adults; examines common misconceptions about aging and healthcare issues; and explores the process of normal aging and the presentation of common health conditions in older adults.

Equivalent to HHS 648

NURS 650 - Healthcare and Law
NURS 654 - Nursing Administration Financial Management

Credits: 3 (NR)
Investigates managerial technologies related to financial planning and control functions of mid-level nurse administrators. Content develops knowledge and skills necessary for effective participation in financial management as related to business plan development, program budget planning, and control.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NURS 660 - Seminar in the Ethics of Health Care

Credits: 3 (NR)
Examines moral dilemmas in the health care profession, with special emphasis on patients' rights, professionals' obligations to other professionals, and issues of social justice in health care. Methods of moral deliberation based on ethical knowledge and justification are applied to ethical dilemmas in health care.

Equivalent to PHIL 510

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 665 - Theoretical and Ethical Foundations Related to Nursing

Credits: 3 (NR)
Selected nursing and related discipline theories which impact nursing practice are analyzed and evaluated with special attention given to ethical aspects of practice and ethical decision-making frameworks. Moral dilemmas in the health care profession, with emphasis on patients’ rights, professionals’ obligations to other professionals, issues of social justice in health care, and methods of moral deliberation are examined.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 680 - Theoretical Foundations Related to Nursing

Credits: 2 (NR)
Examination and evaluation of assumptions, concepts, and propositions inherent in selected nursing and related discipline theories.
NURS 685 - Advanced Nursing Research Methods

Credits: 3 (NR)
Examines principles and methods of research in problem identification, theoretical framework, design, data collection, and analysis. Students develop a nursing research proposal.

Prerequisite(s): Admission to graduate nursing program and a bivariate statistics course and NURS 680.

Corequisite(s):

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 686 - Projects in Nursing Research

Credits: 2 (NR)
Applies knowledge gained in NURS 790 to implement research proposal designed in NURS 790.

Prerequisite(s): NURS 685.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 688 - Organization of Nursing and Health Care Delivery Systems

Credits: 3 (NR)
Provides foundational overview of U.S. nursing and health care delivery systems. Surveys key concepts, frameworks, processes, and structures related to health care delivery organizations.

Prerequisite(s):

Notes: Lecture, discussion.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 690 - Independent Study in Nursing

Credits: 1-3 (RD)
Studies in-depth a selected area of nursing theory, research, or practice under direction of faculty.
Prerequisite(s): Admission to graduate nursing program, and permission of associate dean for academic programs.

Notes: May be repeated; maximum 6 total credits.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

NURS 704 - Nursing Administrative Leadership Academy

Credits: 3 (NR)
Uses a leadership competency framework to integrate knowledge, skills, values, and best practices of innovative nursing leadership. Lectures, interactive collaborative discussion, written projects, and leadership self-assessment identify and teach the proficiencies specific to the administrative executive role.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 713 - Decision Making and Pharmacologic Management in Practice

Credits: 2 (NR)
Analyzes clinical cases using student participation in decision-making formulation. Correlates pathophysiology with symptom manifestations across the lifespan, from prenatal to old age, including death. Evaluates family, medical and social history, physical findings, laboratory data and radiographic studies as they contribute to the decision making process. Examine the theoretical basis for selecting pharmacological and non-pharmacological therapies is explored.

Prerequisite(s): Admission to MSN or DNP Program Nurse Practitioner Concentration.

Corequisite(s): NURS 769; NURS 761.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring.

NURS 714 - Health Assessment in Clinical Practice

Credits: 2 (NR)
Application of advanced health assessment skills that includes all body systems and clinical decision making with clients across the lifespan. Students will formulate differential diagnoses and explore advanced communication techniques related to motivating and changing health behaviors. Students will apply advanced skills and techniques in a supervised lab setting.

Prerequisite(s): Admission to MSN or DNP Program or permission of instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring.
NURS 715 - Nursing Informatics Inquiry

Credits: 3 (NR)
This course introduces theoretical and practice components of nursing and healthcare informatics for the graduate level nurse. Computer systems will be analyzed. The systems life cycle will be explored. Health care data standards, classification schemes, and the electronic health record (EHR) will be introduced. Students will evaluate informatics as it applies to patient safety, outcomes measurement, complex decision-making, consumer use, and legal and ethical issues.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 719 - Advanced Health Assessment

Credits: 2 (NR)
Application of advanced health assessment skills and clinical decision making with adults of all ages in primary care settings. Students formulate differential diagnosis related to body systems and presenting signs and symptoms. Students explore communication techniques related to motivating and changing health behaviors. The performance of skills and techniques needed to collect data for comprehensive health assessment is emphasized in this supervised practicum by nurse practitioner preceptors.

Notes: Course meets at George Washington University. Students receive a George Mason bill, but tuition is calculated at the George Washington University rate. Contact department for specific meeting dates and information.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 4

NURS 720 - Practicum in Family Primary Care Nursing I

Credits: 4 (NR)
Performance of beginning-level nurse practitioner clinical decision-making skills in assessment and management of families and individuals across the life span, with emphasis on health maintenance and health promotion. Seminar, lab, and clinical practicum.

Prerequisite(s): NURS 719, 723, 745, 747, 756.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 6
Grading: Graduate Special

NURS 721 - Practicum in Assessment and Management of the Developing Family

Credits: 8 (NR)
Theoretical and clinical application of health assessment, health maintenance and promotion, anticipatory guidance, diagnosis, and management of common primary health care concerns through clinical decision-making skills focused on childrearing and childbearing families. Seminar, lab, clinical practicum.
Prerequisite(s): NURS 720.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 15
Grading: Graduate Special

NURS 722 - Practicum in Family Primary Care Nursing II

Credits: 8 (NR)
Students perform advanced clinical decision making in the role of family nurse practitioner. Family primary care problems throughout the life span are assessed and managed, particularly families with elderly and medically underserved members. Seminar, lab, and clinical practicum.

Prerequisite(s): NURS 720 and 721.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 5
Grading: Graduate Special

NURS 723 - Clinical Decision Making

Credits: 2 (NR)
Course is offered through George Washington University and is charged at GWU tuition rates. Analyzes clinical cases using student participation in decision-making formulation. Correlates pathophysiology with symptom manifestations. Evaluates family, medical, and social history; physical findings; laboratory data; and radiographic studies as they contribute to the decision-making process. The theoretical basis for selecting pharmacological and nonpharmacological therapies is explored. Therapies are justified by examining the evidence to support them.

Corequisite(s): NURS 756 and 747.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 724 - Health Assessment Practicum

Credits: 1 (NR)
Demonstrates the ability to perform advanced health assessment skills that includes all systems across the lifespan. The student will perform advanced techniques and clinical decision making that is necessary for a comprehensive health assessment in this clinical practicum.

Prerequisite(s): Admission to MSN or DNP Program or permission of instructor.

Corequisite(s): NURS 714.

Notes: Five clinical hours are required per week for each credit. Required course in Nurse Practitioner concentration.

Hours of Lecture or Seminar per week: 0
NURS 725 - Hermeneutic Research Methodologies in Health Care

Credits: 3 (NR)
Uses seminar/discussion for in-depth exploration of interpretive phenomenology, philosophical background for hermeneutics, and hermeneutics as method in context of conducting research in health care. Uses readings from philosophers such as Heidegger, Merleau-Ponty, and Gadamer to situate hermeneutical methodologies in philosophy of science.

Prerequisite(s): Graduate-level qualitative research course

Corequisite(s): Graduate-level qualitative research course

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 726 - Perspectives in Nursing Education

Credits: 3 (NR)
Uses seminar approach to provide an overview of nursing education. Provides the foundation for teaching and learning in nursing with emphasis on relevant research.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 727 - Application of Nursing Education Principles to Curriculum and Program Development

Credits: 3 (NR)
Uses seminar and discussion forums to analyze and apply theoretical principles and teaching and learning strategies in planning, developing, and evaluating nursing programs. Examines the overall creative, planned, and collaborative process of program development and evaluation.

Prerequisite(s): NURS 726.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 728 - Practicum and Seminar in Nursing Education I

Credits: 3 (NR)
Uses seminar/discussion approach and practicum experience to analyze the role and functions of the nurse educator in the academic classroom. Emphasis is on the application of teaching/learning strategies, legal and ethical issues in nursing education,
NURS 729 - Practicum and Seminar in Nursing Education II

Credits: 3 (NR)
Uses seminar/discussion approach and practicum experience to analyze the role and functions of the nurse educator in the clinical setting. Application of research-based teaching and evaluation strategies in the clinical setting are emphasized.

Prerequisite(s): NURS 514, 550, 726, and 727; NURS 556 or EDRS 531.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 6

NURS 730 - Leadership Strategies for the Clinical Nurse Leader

Credits: 2 (NR)
Explores aspects of horizontal and vertical leadership central to clinical nurse leader (CNL) role. Emphasizes quality management and improvement, communication processes, evidenced-based practice initiatives in microsystem, and strategies for efficient use of resources while maintaining safe and effective patient care.

Prerequisite(s): NURS 597 and 685
Corequisite(s): NURS 597 and 685

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 733 - Introduction to Forensic Science

Credits: 3 (NR)
Examines the introductory concepts of forensic science including the various professional roles of forensic scientists and practitioners. This course provides a broad overview of the forensic science profession. Different types of violence, as well as prevention and reduction strategies, are discussed. The forensic professional's role in policy and legal processes are explored. Forensic research is introduced. Professional certification options are explored.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 734 - Role of the Sexual Assault Nurse Examiner and Interpersonal Violence
Credits: 3 (NR)
Focuses on the incidence and consequences of interpersonal violence across the lifespan. Identifies the role of sexual assault nurse examiner (SANE) as a member of the Sexual Assault Response Team (SART). Examines forensic techniques used to collect evidence. The role of the SANE in the judicial process is explored.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 735 - Crime Lab and Crime Scene Investigation

Credits: 3 (NR)
Examines the components of the crime lab and the crime scene analysis process. Explores the role of the forensic scientist in crime scene investigation. This course covers the initial crime scene response and initial assessment measures needed to properly collect and handle evidence. Documentation and preservation efforts are reviewed for various types of evidence collected.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 736 - Psychological and Legal Aspects of Forensic Science

Credits: 3 (NR)
Evaluates the psychological and legal aspects of forensic science. Reviews victimology and the role of the forensic professional when dealing with victimized individuals. This course reviews various types of violence and identifies the assessment criteria needed to pursue prosecution. Examines the legal process and the role of the forensic professional in providing testimony in a court of law.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 737 - Investigation of Injury and Death

Credits: 3 (NR)
Explores the role of the forensic scientist in death investigation. Examines death, manners of death, and causes of death, along with the death certification process. The role of the medical office professional and autopsy procedures will be reviewed. DNA evidence and the CODIS system will be analyzed.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 738 - Family Primary Care I

Credits: 2 (NR)
Theoretical application of health assessment, health management/promotion, anticipatory guidance, diagnosis and management of common primary care health care concerns through clinical decision making skills for families with a focus on adults. Lecture,
student presentations and seminar.

**Prerequisite(s):** Students must be admitted to the Family Nurse Practitioner Program.

**Corequisite(s):** NURS 742.

**Notes:** Required course in Family Nurse Practitioner concentration.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Summer

---

**NURS 739 - Family Primary Care II**

Credits: 4 (NR)  
Theoretical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns through clinical decision making skills focused on childbearing and childbearing families. Seminar, student presentations and lectures.

**Prerequisite(s):** Students must be admitted to the Family Nurse Practitioner Program; NURS 738.  
**Corequisite(s):** NURS 744  
**Notes:** Required course in Family Nurse Practitioner concentration.

**Hours of Lecture or Seminar per week:** 4  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**NURS 740 - Clinical Nurse Specialist Internship**

Credits: 3 (RT)  
A continuation of clinical application of theory from NURS 775 to a selected clinical specialty with attention to the health illness continuum of individuals, families, and community.

**Notes:** This course may be taken twice.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 9

---

**NURS 741 - Family Primary Care III**

Credits: 3 (NR)  
Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the nurse practitioner student to assume increased responsibility in the delivery of primary care to families and individuals across the life span. Special emphasis is given to the primary care needs of families with elderly and medically underserved members. Seminar, student presentations and lectures.
Prerequisite(s): Students must be admitted to the Family Nurse Practitioner Program; NURS 739.

Corequisite(s): NURS 749

Notes: Required course in Family Nurse Practitioner concentration.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer

NURS 742 - Family Primary Care Practicum I

Credits: 3 (NR)
Demonstrates the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for families with a focus on the adult. Clinical practicum, lab and seminar.

Prerequisite(s): Students must be admitted to the Family Nurse Practitioner Program.

Corequisite(s): NURS 738.

Notes: Five clinical hours are required per week for each credit. Required course in Family Nurse Practitioner concentration.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-12
When Offered: Summer

NURS 743 - Clinical Psychopharmacology

Credits: 3 (NR)
Introduce psychotropic medications, including neurochemical basis, mode of action and clinical application. Discuss principles of pharmacological medication selection and use based on clinical indicators.

Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Admission to the Doctor of Nursing Practice program or with permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NURS 744 - Family Primary Care Practicum II

Credits: 3 (NR)
Clinical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns through clinical decision making skills focused on childrearing and childbearing families. Clinical practicum, seminar, lab.
Prerequisite(s): Students must be admitted to the Family Nurse Practitioner Program; NURS 738.

Corequisite(s): NURS 739

Notes: Five clinical hours are required per week for each credit. Required course in Family Nurse Practitioner concentration.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-12
When Offered: Fall

NURS 745 - Pharmacology

Credits: 3 (NR)
Describes the pharmacologic principles and pharmacodynamic actions of major classes of drugs. Distinguishes between the major drug classes by the pharmacologic properties of the drugs on the cellular, organ, and whole organism level. Study of indications and contraindications of appropriate therapeutic entities for health deviations is based on a thorough knowledge of drugs including their mechanism of action, possible toxic effects, and their fate in the human body. Evaluation and recognition of drug interactions for the possible impact on each drug's therapeutic behavior, as well as on the body as a whole is emphasized. Chooses and interprets appropriate monitoring mechanisms for drug efficacy and toxicity.

Notes: Course is offered through George Washington University and charged at GWU tuition rates.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 746 - Practicum in Adult Primary Care Nursing I

Credits: 6 (NR)
Demonstration of the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for adults.

Prerequisite(s): NURS 719, 723, 745, 747, 756

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 12
Grading: Graduate Special

NURS 747 - Pharmacology in Disease and Pathophysiology

Credits: 1 (NR)
Analyze drugs and their interaction with physiologic processes on the cellular level. Discuss the therapeutic actions of drugs in relationship to pathophysiologic states. Recognize those physiologic and pathophysiologic states that have direct consequences on the actions of drugs.

Corequisite(s): NURS 723 and 756.
NURS 748 - Practicum in Adult Primary Care Nursing II

Credits: 8 (NR)
Enables nurse practitioner student to assume increased responsibility in the delivery of primary care to adults. Special emphasis on primary care needs of elderly and medically underserved groups.

Prerequisite(s): NURS 746.

NURS 749 - Family Primary Care Practicum III

Credits: 5 (NR)
This practicum enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to families. Family primary care problems across the life span are assessed and managed, particularly families with elderly and medically underserved members. Practicum, clinical lab and seminar.

Prerequisite(s): Students must be admitted to the Family Nurse Practitioner Program; NURS 739.
Corequisite(s): NURS 741

Notes: Five clinical hours are required per week for each credit.
Required course in Family Nurse Practitioner concentration.

NURS 754 - Advanced Adult Primary Care

Credits: 4 (NR)
Enables the post-master's nurse practitioner student to develop and assume increased responsibility in delivery of primary care to adults. Clinical preceptorship and instructional and informative didactic material in primary care enable students to demonstrate advanced skills in the assessment, clinical diagnostic, and clinical management of common acute and chronic primary care problems. Special emphasis to the development of community-based health promotion and disease prevention strategies with adults and medically underserved populations.

Prerequisite(s): NURS 719, 723, 745, 747, 756
NURS 756 - Advanced Pathology and Pathophysiology

Credits: 4 (NR)
Analyze health deviations in the physiologic and pathophysiologic aspects of systems functioning across the life span. Students assimilate the process of systematic assessment and management of health deviations foundational for making clinical decisions. Collaborate in interprofessional student groups to develop strategies for health promotion and disease prevention in vulnerable populations.

Corequisite(s): NURS 723 and 747.

Notes: Course is offered through George Washington University and charged at the George Washington University rate.

NURS 757 - Nursing Research and Biostatistics I

Credits: 3 (NR)
Provides a broad framework for understanding and applying commonly used research designs and data analysis techniques in nursing and health care research. Exposed to an overview of qualitative and quantitative research methods integrated with appropriate data analyses techniques. Univariate and bivariate statistical techniques will be used to address research questions or hypotese as appropriate.

Prerequisite(s): Admission to the graduate nursing program; Undergraduate Statistics Course

NURS 758 - Nursing Research and Biostatistics II

Credits: 3 (NR)
Empirically address practice related problems using complex bivariate and multivariate statistical analysis. Using an established data set as a basis for simulation of the research process, student will identify clinical problems in research traditions to provide evidence for nursing practice. Emphasis is on evaluating the quality of research for its strength as evidence for nursing practice.

Prerequisite(s): NURS 757

NURS 761 - Pharmacotherapeutics
Credits: 3 (NR)
Describes the pharmacologic principles and pharmacodynamic actions for all broad categories of agents. Distinguishes between the major drug classes by the pharmacologic properties of drugs on the cellular, organ and whole organism level. Study of indications and contraindications of appropriate therapeutic entities for health deviations based on a thorough knowledge of drugs and their fate in the human body.

Prerequisite(s): Admission to MSN or DNP Program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring.

NURS 762 - Managed Care Concepts for Primary Care Practice

Credits: 1-4 (RD)
Presents managed-care concepts specific to primary care practice through self-paced learning modules, seminars, and selected nondirect care internship experiences in managed care settings.

Prerequisite(s): Admission to the nurse practitioner program.

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 3-12

NURS 763 - Administrative Theory in Nursing

Credits: 3 (NR)
Uses administrative theory and management principles and processes as related to roles and functions of the nurse in management in health-related agencies.

Prerequisite(s): Admission to graduate nursing program or master’s degree. NURS 680 and Management/Organizational Theory

Corequisite(s): NURS 680 and Management/Organizational Theory

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NURS 765 - Practicum in Nursing Administration I

Credits: 3 (NR)
Applies administrative theory and management principles and processes in a selected health-related agency. Roles and functions of the nurse in management are explored.

Prerequisite(s): Admission to graduate nursing program; NURS 680, 763

Corequisite(s): NURS 763
Notes: Lab arranged.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 8
When Offered: Fall

**NURS 766 - Administrative Strategies in Nursing**

Credits: 3 (NR)
Explores roles and functions of the nurse in management as the nurse manager develops patterns of nursing care, articulating nursing education, and nursing service.

Prerequisite(s): NURS 763 and 765.

Corequisite(s): NURS 768.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**NURS 768 - Practicum in Nursing Administration II**

Credits: 3 (NR)
Implements and integrates roles and functions of the nurse in management. Emphasizes using appropriate management principles and processes in a selected health-related agency.

Prerequisite(s): NURS 763, 765, 766

Corequisite(s): NURS 766

Notes: Lab arranged.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 8
When Offered: Spring

**NURS 769 - Physiology and Pathophysiology in Advanced Practice**

Credits: 3 (NR)
Analyze health deviations in the physiologic and pathophysiologic aspects of systems functioning across the life span. Students assimilate the process of systematic assessment and management of health deviations foundational for making clinical decisions.

Prerequisite(s): Admission to MSN or DNP or permission of instructor.

Corequisite(s): NURS 713

Hours of Lecture or Seminar per week: 3
NURS 770 - Adult Primary Care I

Credits: 3 (NR)
Theoretical application of health assessment, health management/promotion, anticipatory guidance, diagnosis and management of common primary care health care concerns through clinical decision making skills focusing on adults. Lecture, student presentations and seminar.

Prerequisite(s): Students must be admitted to the Adult Nurse Practitioner Program.

Corequisite(s): NURS 772.

Notes: Required course in Adult Nurse Practitioner concentration.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NURS 771 - Adult Primary Care II

Credits: 4 (NR)
Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the nurse practitioner student to assume increased responsibility in the delivery of primary care to adults. Special emphasis is given to the primary care needs of elderly and medically underserved groups. Lectures, student presentations and seminars.

Prerequisite(s): Adult Primary Care I.

Corequisite(s): Adult Primary Care Practicum II.

Notes: Students must be admitted to the Adult Nurse Practitioner Program. Required course in Adult Nurse Practitioner concentration.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0
When Offered: Fall

NURS 772 - Adult Primary Care Practicum I

Credits: 3 (NR)
Demonstrates ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for adults. Clinical practicum, lab and seminar.

Prerequisite(s): Students must be accepted to the Adult Nurse Practitioner program.

Corequisite(s): NURS 770.
Notes: Five clinical hours are required per week for each credit.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-12
When Offered: Fall

NURS 773 - Clinical Applications of Theory in Advanced Clinical Nursing

Credits: 3 (NR)
Foundational theory relevant to the emerging roles in advanced clinical nursing, focusing on therapeutic nursing interventions in a variety of clinical specialties, with attention to health-illness continuum of individuals, families, and communities.

Prerequisite(s): Admission to graduate nursing program. NURS 550, 680.

Corequisite(s): NURS 550, 680.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 774 - Adult Primary Care Practicum II

Credits: 4 (NR)
Enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to adults. Special emphasis is given to the primary care needs of elderly and medically underserved groups. Practicum, clinical lab and seminar.

Prerequisite(s): Students must be admitted to the Adult Nurse Practitioner Program; NURS 770.

Corequisite(s): NURS 771.

Notes: Five clinical hours are required per week for each credit. Required course in Adult Nurse Practitioner concentration.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 4
When Offered: Spring

NURS 775 - Advanced Specialty Practice I

Credits: 3 (RT)
Focuses on clinical application of theory from NURS 773 to a selected clinical specialty with attention to the health illness continuum of individuals, families, and communities.

Prerequisite(s): NURS 665.

Corequisite(s): NURS 768.
NURS 776 - Development of Advanced Practice Nursing Role

Credits: 3 (NR)
Expansion of selected content included in NURS 773 for the delivery of advanced nursing care in a variety of settings. Emphasizes development and evaluation of the advanced practice nursing role in complex health care systems.

Prerequisite(s): NURS 773.

NURS 778 - Advanced Specialty Practice II

Credits: 3 (NR)
Applies concepts of the advanced practice nursing role from NURS 776 to a selected clinical specialty.

Prerequisite(s): NURS 665.

Corequisite(s): NURS 773.

NURS 780 - Practicum in Gerontological Nursing I

Credits: 3 (NR)
Demonstrates the ability to function at a beginning level in the role of the gerontological nurse practitioner. Performance of advanced skill in geriatric assessment with a special emphasis on the delivery of health promotion and disease prevention services (practicum of at least 100 clinical hours and case analysis conferences).

Prerequisite(s): NURS 719, 723, 745, 747, 756.

Corequisite(s): NURS 746.

NURS 781 - Practicum in Gerontological Nursing II
NURS 782 - Family Psychiatric Nurse Practitioner Practicum I

Credits: 4 (NR)

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 632, NURS 633, NURS 634, and NURS 743.

Corequisite(s): NURS 783.

Notes: Five clinical hours per week are required for each credit.

NURS 783 - Family Psychiatric Nurse Practitioner Seminar I

Credits: 1 (NR)
Analyzes the professional role of family psychiatric mental health nurse practitioners. Students share assessment, diagnostic, intervention, evaluation, teaching-coaching, cultural competence, and therapeutic relationship development techniques through case studies from their practica. Management of client cases are evaluated and discussed. Students analyze the impact of advocacy actions, including duty to report, on the therapeutic relationship.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 632, NURS 633, NURS 634, and NURS 743.

Corequisite(s): NURS 782.

Notes: Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Admission to the Doctor of Nursing Practice program or with permission of instructor.
NURS 784 - Family Psychiatric Nurse Practitioner Practicum II

Credits: 5 (NR)
Builds on Family Psychiatric Nurse Practitioner Practicum I, improving diagnostic and clinical reasoning ability and competence in assessment, diagnosis, and management of psychiatric disorders. Enables the student to assume increased responsibility in the delivery of comprehensive mental health care. Participates in professional and community organizations to promote the health of patients while enhancing the role of practitioner.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 782.

Corequisite(s): NURS 785.

Notes: Five clinical hours per week are required for each credit.

Required course in Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Admission to the Doctor of Nursing Practice program or with permission of instructor.

HOURS OF LECTURE OR SEMINAR PER WEEK: 0
HOURS OF LAB OR STUDIO PER WEEK: 5
WHEN OFFERED: Spring

NURS 785 - Family Psychiatric Nurse Practitioner Seminar II

Credits: 1 (NR)
Discuss role transition and development of advanced practice psychiatric mental health nurses. Regulatory and economic policies affecting advanced psychiatric mental health nursing practice in the evolving health care system are discussed. Students demonstrate competence in comprehensive management of acute and chronic psychiatric disorders through case presentations from their practica. Performs a comprehensive assessment of the mental health needs of a community.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 783.

Corequisite(s): NURS 784

Notes: Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Admission to the Doctor of Nursing Practice program or with permission of instructor.

HOURS OF LECTURE OR SEMINAR PER WEEK: 1
HOURS OF LAB OR STUDIO PER WEEK: 0
WHEN OFFERED: Spring

NURS 786 - Adult Gerontology Primary Care Practicum I
Credits: 3 (NR)
Application of health assessment, health maintenance/promotion, anticipatory guidance, genetics/genomics, diagnosis and management of common primary health care concerns, including women’s health issues. Focus is on care of adolescents and adults across the life. Clinical Practicum, lab and seminar.

Corequisite(s): NURS 787.

Notes: Five clinical hours are required per week for each credit.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 15
When Offered: Summer

NURS 787 - Adult Gerontology Primary Care I

Credits: 2 (NR)
Theoretical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns, including women’s health, through clinical decision making skills in adolescents, adults and older adults.

Corequisite(s): NURS 786.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Summer

NURS 788 - Adult Gerontology Primary Care Practicum II

Credits: 4 (NR)
Demonstration of the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for adolescents, adults and older adults. Clinical practicum, lab and seminar.

Corequisite(s): NURS 789.

Notes: Five clinical hours are required per week for each credit.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 15
When Offered: Fall

NURS 789 - Adult Gerontology Primary Care II

Credits: 3 (NR)
This course consists of the application of health assessment, health management/promotion, genetics and genomics, anticipatory guidance, diagnosis and management of common primary care health care concerns of the adolescent, adult and older adult through clinical decision making skills. Lecture, student presentations and seminar.
Corequisite(s): NURS 788.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NURS 790 - Adult Gerontology Primary Care Practicum III

Credits: 4 (NR)
This practicum enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to adults of all ages, adolescents through older adults. Special emphasis is given to the primary care needs of elderly and medically underserved groups. Practicum, clinical lab and seminar.

Prerequisite(s): NURS 787, NURS 789.

Corequisite(s): NURS 791.

Notes: Five clinical hours are required per week for each credit.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 20
When Offered: Spring

NURS 791 - Adult Gerontology Primary Care III

Credits: 4 (NR)
Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the adult gerontology nurse practitioner student to assume increased responsibility in the delivery of primary care. Focus will be on the primary care needs of older adult and medically underserved.
Lectures, student presentations and seminars

Prerequisite(s): NURS 789.

Corequisite(s): NURS 790.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0
When Offered: Spring

NURS 804 - Advanced Quantitative Data Analysis for Health Care Research I

Credits: 3 (NR)
Examines factorial ANOVA, factorial ANCOVA, repeated measures ANOVA, ANOVA and ANCOVA via regression approach, and multiway frequency analysis. Students apply mathematical calculations and interpret SPSS outputs using health care research data.
Equivalent to GCH 804

**Prerequisite(s):** A graduate-level statistics course.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 805 - Advanced Quantitative Data Analysis for Health Care Research II**

Credits: 3 (NR)  
Examines multivariate analysis of variance (MANOVA), multivariate analysis of covariance (MANCOVA), multiple regression (ordinary least squares), and logistic regression. Students apply mathematical calculations and use linear combinations of multivariate tests in health care research data.

Equivalent to GCH 805

**Prerequisite(s):** GCH/NURS 804 or an equivalent statistics course.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 806 - Advanced Multivariate Statistics and Data Analysis for Health Care Research**

Credits: 3 (NR)  
Examines canonical correlation, discriminant analysis, factor analysis, and causal analysis (path models and structural equation modeling). Students analyze and interpret data using these statistical techniques.

Equivalent to GCH 806

**Prerequisite(s):** GCH/NURS 805 or an equivalent multivariate statistics course.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 808 - Translating Nursing and Health Care Research into Evidence-Based Policy**

Credits: 3 (NR)  
This course prepares students to assess the policy dimensions of nursing issues in clinical practice, education, and research environments and translate nursing research into policy.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 810 - Evaluation Research in Nursing Education**
Credits: 3 (NR)
Uses seminar/discussion to analyze and apply theoretical models for implementing evaluation research in nursing education. Examines quantitative approaches for evaluating process and outcomes of domestic or international nursing education programs, including role of accreditation guidelines.

Prerequisite(s): NURS 920 and 930

Corequisite(s): NURS 920 and 930

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 811 - Nurse as Educator and Scholar

Credits: 2 (NR)
Uses seminar/discussion to explore role of nurse educator in meeting research and scholarship expectations of college, university, or service setting. Addresses approaches to scholarship in relation to types of evidence appropriate for various scholarly expectations in academic setting.

Prerequisite(s): NURS 920 and 930.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 814 - Theory in Health Science

Credits: 3 (NR)
Analyze existing substantive theories in nursing and other biological, social, and behavioral sciences. Enables the doctoral student to critique, use, test, integrate, translate, and develop theory to guide practice, scientific inquiry, and teaching in a focused area of research interest.

Equivalent to NURS 955.

Prerequisite(s): Master's degree in nursing, social work, or health-related discipline.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NURS 820 - Human Genetics Concepts for Health Care

Credits: 4 (NR)
The study of human genetics, principles of heredity, and disease risks.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0
NURS 860 - Measurement Theories in Healthcare Research

Credits: 3 (NR)
Synthesize measurement theories and principles as a foundation for the development and evaluation of instruments for use in healthcare research. The course includes review of statistical techniques required for understanding measurement theory, reliability, validity, responsiveness, item analysis, and instrument construction. Students design, construct, administer, analyze, and evaluate an original instrument and evaluate an existing instrument in healthcare research.

Equivalent to NURS 807.

Prerequisite(s): NURS 804 GCH/NURS 805 or Permission of Instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NURS 870 - Nursing and Health Care Administration I

Credits: 3 (NR)
Examines the theoretical basis of scholarship and practice in leadership and management of health systems and nursing organizations. Includes discovery of concepts and forces influencing the organization and performance of health care systems.

Prerequisite(s): Admission to the PhD or DNP program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 871 - Nursing and Health Care Administration II

Credits: 2 (NR)
Analyzes and applies selected concepts related to nursing and health system leaders and managers as well as factors influencing the performance of health systems and organizations.

Prerequisite(s): NURS 870.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 874 - Internship in Health Care Administration/Policy/Education

Credits: 4 (NR)
Internship experience of at least 126 hours with leader in field of nursing, health care administration, policy, or education. Participatory activities require integration and application of principles, frameworks, and science related to executive preceptor role.
Prerequisite(s): Completion of all other course work except NURS 998; written advanced application and permission of instructor by due dates (April/November 1) in advance of semester.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 9

NURS 883 - Evidence-Based Practice in Nursing and Healthcare

Credits: 4 (NR)
Building on knowledge of research methodologies and personal expertise, student will identify practice and system problems, analyze the variations of processes and outcomes, evaluate research studies and systematic reviews, and develop a proposal to address issues related to the design of new model of care, translation of evidence into practice, or evaluation of current programs in the context of evidence-based practice. Emphasis is placed on the development of strategies to ensure quality improvement.

Prerequisite(s): NURS 757 and NURS 758

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

NURS 920 - Qualitative Research in Nursing and Health Care

Credits: 3 (NR)
Examination and application of principles in qualitative research in nursing and health care. Qualitative research will be analyzed within the scholarship of discovery, integration, and application.

Prerequisite(s): NURS 955

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 921 - Clinical Practicum I

Credits: 1-10 (NR)
Students, in consultation with their academic advisor, complete supervised practicum hours to meet both the post-baccalaureate and post-masters DNP practicum requirement. A practicum course that prepares students to perform clinical decision making in their role as advance practice nurses in individualized specialty areas. They will work with advanced practice nurse preceptors to develop clinical expertise, and to develop an understanding of leadership roles in the clinical setting that can enhance the system of health care delivery. One credit hour of seminar with the remaining hours in clinical practice.

Hours of Lecture or Seminar per week: 1-10
Hours of Lab or Studio per week: 0

NURS 922 - Clinical Practicum II
Students, in consultation with their academic advisor, complete supervised practicum hours to meet both the post-baccalaureate and post-masters DNP practicum requirement. A practicum course that continues to prepare students to practice in an expanded, advanced clinical practice role. Students will learn to become change agents in the clinical setting with a focus on health care delivery systems. The student will apply advanced health assessment skills and clinical decision making in an area of specialty practice, correlating pathophysiology with symptom manifestations. One credit hour of seminar with the remaining hours in clinical practice.

**Hours of Lecture or Seminar per week:** 1-10  
**Hours of Lab or Studio per week:** 0

**NURS 925 - Methodological Issues in Nursing and Health Care Qualitative Research**

Credits: 3 (NR)  
Explores, analyzes, and synthesizes conceptual, methodological, and ethical issues in qualitative research within the scholarship of discovery, integration, application, and teaching. Seminar.

**Prerequisite(s):** NURS 920/HSCI 920 or equivalent course, and permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 930 - Quantitative Methods in Nursing and Health Care**

Credits: 3 (NR)  
Examination and application of principles in quantitative research in nursing and health care. Computer analysis of quantitative data will be required.

**Prerequisite(s):** NURS 955, 804, and 805.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 940 - Independent Study for the Doctoral Student**

Credits: 1-6 (NR)  
Studies in depth a selected area of nursing theory, research, or practice under direction of faculty.

**Prerequisite(s):** Admission to a doctoral nursing program.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0

**NURS 950 - Special Topics in Nursing**
Credits: 3 (NR)
Presents selected topics analyzing specialized areas in nursing. Content varies. Lecture, seminar, laboratory, workshop.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 980 - Practice Inquiry I**

Credits: 4 (RD)  
Synthesize the literature related to the problem. Analyze the environmental factors impacting the problem. Identify the standard of care related to the clinical problem. Assess the quality of evidence that supports the standard of care. Develop a proposal that will impact the delivery of care in the identified area of practice inquiry. Develop the appropriate outcome measures to address the specific practice inquiry area.

**Prerequisite(s):** Completion of DNP core courses.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1

**NURS 981 - Practice Inquiry II**

Credits: 4 (RD)  
Implement the proposal developed in Practice Inquiry I. Maintain an ongoing process analysis of the project. Collect data. Analyze the findings from the practice inquiry. Disseminate the findings from the practice inquiry in a scholarly manner.

**Prerequisite(s):** NURS 980.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 2

**NURS 998 - Doctoral Dissertation Proposal**

Credits: 1-9 (RD)  
A seminar for doctoral students to accompany the development of a doctoral dissertation proposal. Development of the research problem with analysis and critique of methodology discussed.

**Prerequisite(s):** Completion of all other course work except NURS 999; and completion of doctoral comprehensive examination.

**Notes:** Students must enroll in the course for 3-credits the first time they take the course.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit  
**When Offered:** Fall, Spring
NURS 999 - Doctoral Dissertation

Credits: 1-9 (RT)
Provides continued faculty assistance on an individual basis toward completion of approved dissertation.

Prerequisite(s): NURS 998.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

Nutrition (NUTR)

Offered by the College of Health and Human Services

NUTR 295 - Introduction to Nutrition

Credits: 3 (NR)
Introduces students to nutrition as a scientific discipline, providing a working knowledge of basic nutrition including the sources and functions of the nutrients, the components of a healthy diet, and the relationship between diet and overall health. Students will learn about the processes of digestion, absorption, and metabolism of nutrients, and several 'hot topics' in the field of nutrition.

Equivalent to GCH 295 (2010-2011 Catalog)

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

NUTR 314 - Food in Italy

Credits: 3 (NR)
Exposes student to Italian foodways, culture, and sustainability. Travel and field trips will supplement classroom learning and form the basis of a research project focusing on food's place in Italian society.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer

NUTR 383 - Taste and Place

Credits: 3 (NR)
Examines how dietary patterns have developed and evolved in specific geographic locations. Students will analyze the role of geography, history, politics, culture and taste as essential elements in distinctive local, regional, and national foodways.
NUTR 408 - Introduction to Food Security

Credits: 3 (NR)
Examines the human health aspects of food security at the local, regional, and global levels.

Prerequisite(s): NUTR 295.

NUTR 420 - Strategies for Nutrition Education

Credits: 3 (NR)
Examines methods and techniques for educating individuals about nutrition. Addresses nutrition education issues from variety of populations with respect to culture, age, religion, and specific disease states.

Equivalent to GCH 420 (2010-2011 Catalog)

Prerequisite(s): NUTR 295 or permission of instructor.

NUTR 421 - Community Nutrition

Credits: 3 (NR)
Focuses on nutrition and health problems of specific community settings, and examines practices of nutrition services in various communities.

Equivalent to GCH 421 (2010-2011 Catalog)

Prerequisite(s): NUTR 295 or permission of instructor.

NUTR 422 - Nutrition throughout the Life Cycle
Credits: 3 (NR)
Focuses on nutrient needs and food habits throughout life cycle. Emphasizes nutrient needs prior, during, and after pregnancy, and nutritional requirements of infants, children, adolescents, adults, and elderly.

Equivalent to GCH 422 (2010-2011 Catalog)

Prerequisite(s): NUTR 295 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer

NUTR 423 - Nutrition and Chronic Illnesses

Credits: 3 (NR)
Examines nutrient needs related to specific chronic illnesses, including cardiovascular disease, cancer, obesity, and diabetes. Focuses on principles of nutritional therapy and prevention.

Equivalent to GCH 423 (2010-2011 Catalog)

Prerequisite(s): NUTR 295 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NUTR 430 - Introduction to Wine and Beer

Credits: 3 (NR)
Takes a multidisciplinary approach to understanding alcohol across time and space. Students will learn about alcohol production as well as the social and cultural dimensions of alcohol in a variety of cultures. Topics that might be covered in class include prohibition and neoprohibition, the health effects of alcohol, craft versus industrial production, among others. Students must be 21 to enroll.

Notes: Fees apply.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

NUTR 466 - Nutrition and Weight Management: Obesity, Anorexia, and Bulimia

Credits: 3 (NR)
Focuses on the physiological, emotional, genetic, and societal and cultural factors that influence the relationship between eating and weight regulation.

Equivalent to GCH 466 (2010-2011 Catalog)
**Prerequisite(s):** NUTR 295, GCH 332, or approval of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer

---

**NUTR 494 - Special Topics in Nutrition and Food Studies**

Credits: 3 (RD)  
In-depth study of contemporary areas of nutrition and food studies. Topics vary each semester. Students may take to apply up to 6 credits of NUTR 494 to their degree program.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**NUTR 499 - Independent Study in Nutrition and Food Studies**

Credits: 1-6 (RD)  
Readings or research on a pertinent topic in nutrition and food studies. Must be arranged with instructor before registering.

**Prerequisite(s):** Permission of instructor.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**NUTR 502 - U.S. Role in Global Health, Nutrition, and Population**

Credits: 3 (NR)  
The course will cover U.S. history in responding to health, nutrition, and population challenges worldwide; examine current programs in each area, including those of the U.S. government and nongovernmental organizations, foundations, and the private sector; and examine future directions for responding to health, nutrition, and population trends.

Equivalent to GCH 502 (2010-2011 Catalog)

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**NUTR 515 - Fundamentals of Cooking**
Introduces students to the fundamental concepts of food and its preparation. The biological components, the chemical transformation, and sensorial properties of food are explored throughout the course.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**NUTR 522 - Nutrition Across the Lifespan**

Credits: 3 (NR)  
Explores the nutrient needs and food habits across the lifespan. Focuses on nutrition policies, programs, and interventions across the lifespan.

**Prerequisite(s):** NUTR 295.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**NUTR 530 - Introduction to Wine and Beer**

Credits: 3 (NR)  
Takes a multidisciplinary approach to understanding alcohol across time and space. Students will learn about alcohol production as well as the social and cultural dimensions of alcohol in a variety of cultures. Topics that might be covered in class include prohibition and neoprohibition, the health effects of alcohol, craft versus industrial production, among others. Students must be 21 to enroll.

Equivalent to NUTR 520 (2013-2014 Catalog).

**Notes:** Fees apply.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**NUTR 566 - Nutrition and Weight Management**

Credits: 3 (NR)  
Focuses on the physiological, emotional, genetic, and societal/cultural factors that influence the relationship between eating and weight regulation.

Equivalent to GCH 566 (2010-2011 Catalog)

**Prerequisite(s):** GCH 295 or other introductory nutrition course.

**Hours of Lecture or Seminar per week:** 3
NUTR 583 - Biocultural Perspectives on Food and Nutrition

Credits: 3 (NR)
Examines food and eating behaviors, diet, and nutrition from cross-cultural perspective. Focuses on how and why people choose what to eat, range and significance of cross-cultural variability in diet, how diets have changed, and health and social implications of those changes. Lecture, discussion, video presentations, audiovisual aids, student presentations, and case study analyzes.

Equivalent to GCH 583 (2011-2012 Catalog)

Prerequisite(s): GCH 295 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NUTR 594 - Special Topics in Nutrition and Food Studies

Credits: 3 (RD)
In-depth study of contemporary areas of nutrition and food studies. Topics vary each semester. Students may take up to 6 credits of NUTR 594 within their degree program.

Prerequisite(s): Graduate level course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring.

NUTR 608 - Perspectives on Food Security

Credits: 3 (NR)
Overview of the major concepts and perspectives of food security. Explores and applies the definitions, means of measurement, and policy implications of food security from a multidisciplinary approach.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall.

NUTR 610 - Food Safety and Defense

Credits: 3 (NR)
Focuses on the possible sources of unintentional and intentional contaminations in the food supply, and on the roles and guiding
policies of the various levels of government and the food industry, as well as individual responsibility, in managing risk to ensure a safe food supply.

Prerequisite(s): NUTR 608.

Notes: Fees may apply.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring.

**NUTR 611 - Food and Nutrition Security Policy**

Credits: 3 (NR)
In-depth analysis of food security and nutrition policies and programs aimed at reducing hunger and malnutrition among individuals and populations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring.

**NUTR 620 - Nutrition Education**

Credits: 3 (NR)
An overview of current nutrition education research, theories, programs, and policies. Explores how nutrition education can influence dietary behavior and food choice.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**NUTR 626 - Food Systems**

Credits: 3 (NR)
Survey of issues surrounding food production from a processing perspective. Students will gain an understanding various forms of food processing and the issues that surround industrial food systems.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**NUTR 630 - Global Nutrition**
Credits: 3 (NR)
Directed at students from a variety of disciplines, this course examines what malnutrition is and how it occurs by looking at several situations from around the world. It looks at the impact of nutrition on a society and community and examines the benefits of a well-nourished population.

Equivalent to GCH 530 (2010-2011 Catalog)

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

### NUTR 642 - Macronutrients

Credits: 3 (NR)
Expands understanding of the biological roles of the macronutrients through application of advanced nutritional concepts relating to digestion, absorption and metabolism of carbohydrates, proteins, and lipids. Practical implications in the diet are emphasized, and particular attention is placed on the etiology and prevention of macronutrient-related diseases, including atherosclerosis, diabetes, and metabolic syndrome.

**Prerequisite(s):** NUTR 295 and undergraduate biochemistry course.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

### NUTR 644 - Micronutrients

Credits: 3 (NR)
Expands understanding of the biological roles of the micronutrients through application of advanced nutritional concepts relating to digestion, absorption, transport, and metabolism of vitamins and minerals. Practical implications in the diet are emphasized, with particular attention on the etiology and prevention of micronutrient-related diseases, including nutritional anemia and osteoporosis.

**Prerequisite(s):** NUTR 295 and Undergraduate biochemistry equivalent.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

### NUTR 651 - Nutrition Assessment, Monitoring and Surveillance

Credits: 3 (NR)
Introduces students to methods and tools used in assessing nutritional status and, the practice and application of these to monitoring among individuals and population groups. Methods of interpretation of nutrition-related information will be examined.

Equivalent to NUTR 751 (2012-2013 Catalog)
Prerequisite(s): NUTR 630 or an introductory nutrition course.

Notes: Will include off campus practice

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NUTR 652 - American Agriculture in the 20th Century

Credits: 3 (NR)

Survey of issues surrounding food from an agricultural perspective. Students gain an understanding of how agricultural production shifted from a Jeffersonian ideal to an industrial and political practicality. Topics that may be covered: the agrarian ideal of the yeoman farmer, the ascendancy of markets and agricultural commodification, the politicization of agriculture and the farm bill, and sustainable agricultural systems. Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NUTR 670 - Nutrition Research Methods

Credits: 3 (NR)

Introduction to the fundamentals of research design and data collection methods. Students will learn about quantitative, qualitative, mixed method, participatory approaches, and ethical issues in nutrition-related research and evaluation.

Prerequisite(s): GCH 601 or GCH 712, NUTR 651 OR Equivalent courses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NUTR 675 - Nutrition Program Development, Interventions and Assessments

Credits: 3 (NR)

Provides students with the knowledge and skills for planning, developing and evaluation of community nutrition programs and interventions.

Prerequisite(s): NUTR 620, NUTR 670, GCH 601 and NUTR 651 OR Equivalent course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring
NUTR 690 - Independent Study in Nutrition and Food Studies

Credits: 1-6 (RD)
Readings or research on a pertinent topic in nutrition and food studies. Must be arranged with instructor before registering.

Prerequisite(s): Permission of instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

NUTR 788 - Pre-Practicum Seminar

Credits: 1 (NR)
Provides guidance and preparation for engaging in the capstone practicum.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall

NUTR 790 - Nutrition Practicum

Credits: 2 (NR)
An in-depth supervised experience in an approved nutrition-related organization. Includes a project related to a nutrition issue within the organization.

Prerequisite(s): NUTR 788.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

NUTR 799 - Thesis Research

Credits: 1-6 (RD)
Thesis research and writing.

Prerequisite(s): Core courses in MS program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Spring
Operations Management (OM)

Offered by the School of Management

If a student takes noncore, upper-level business courses before admission to SOM, those courses will not count on an undergraduate degree application for any major in the school, except as general elective credit. A grade of C or higher must be presented on the graduation application for each upper-level course in the major. Course prerequisites are strictly enforced. Degree status is defined as formal admission to BS degree status in SOM.

OM 210 - Statistical Analysis for Management

Credits: 4 (NR)

Introduces application of statistical methods to support quantitative decision analysis for resolving business problems. Topics include descriptive statistics, probability distributions, statistical inference and regression. May be taught in lecture/recitation format. Students may not receive credit for both OM 210 and OM 211.

Equivalent to OM 211

Prerequisite(s): C or higher in MATH 108 or MATH 113 or HNRT 225. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

OM 211 - Honors Statistical Analysis for Management

Credits: 4 (NR)

Introduces the application of statistical methods to support quantitative decision analysis for resolving business problems. Topical coverage includes descriptive statistics, probability, random variables, probability distributions, sampling and sampling distributions, estimation, hypothesis testing, and linear regression (both simple and multiple). Requires extensive use of case studies to integrate, synthesize and extend the concepts presented in order to foster a "learning by doing" approach that develops and promotes critical thinking abilities. Active class discussions via individual and/or group presentations of case assignments is an important learning activity. Extensive use of computer software for statistical modeling, problem solving, and analysis of case studies is a significant component of this course.

Equivalent to OM 210

Prerequisite(s): Cumulative GPA of 3.5 or higher; C or higher in MATH 108 or MATH 113 or HNRT 225. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
OM 301 - Operations Management

Credits: 3 (NR)

Examines an organization's operations, including design, management and improvement processes, projects and supply chains, in both product and service environments. Uses analytical models to support key planning and control activities. School of Management students will not be permitted to make more than three attempts to achieve a C or higher in OM 301. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Management. For more information about this, see the "Termination from the Major" section under Academic Policies.

Prerequisite(s): Grade of C or higher in MIS 102. Grade of C or higher in OM 210 or OM 211; sophomore standing. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

OM 320 - Supply Chain Management and E-Business

Credits: 3 (NR)

Design, development, and management of supply chain systems, including production and inventory management, distribution channels, and information systems that support them. Emphasizes impact of e-business on companies and industries, including Internet's impact on the way goods and services flow through value chain from providers to customers.

Prerequisite(s): C or higher in OM 301, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

OM 352 - Methods and Models of Management Science

Credits: 3 (NR)

Introduces operation research and management sciences (OR/MS) techniques for supporting business management decisions. Specific mathematical programming and probabilistic topics include linear programming, integer programming, goal programming, network flow models, decision analysis, game theory, queuing models, and Monte Carlo simulation.

Prerequisite(s): C or higher in OM 301, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
OM 435 - Business Process Analysis and Simulation

Credits: 3 (NR)
Introduces concepts and tools used in designing, modeling, analyzing, and improving business processes. Various business process analysis and simulation methods, such as process mapping/flowcharting, process flow and capacity analysis, service process design, theory of constraints, process modeling and simulation, and business process reengineering are discussed. Introduces methods and analytical tools such as queue theory and computer simulation used to design, model, analyze, and improve business processes. Discusses methods such as process mapping/diagramming, service process design, process modeling, and business process reengineering.

Prerequisite(s): C or higher in OM 301, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

OM 452 - Business Forecasting

Credits: 3 (NR)
Introduces techniques for producing predictions of future business operations as aids to making planning decisions. Specific topics include judgmental forecasting, forecast accuracy, correlation analysis, smoothing methods, regression models, decomposition, and autoregressive and ARIMA models. Methods demonstrated and used through computer software.

Prerequisite(s): C or higher in OM 301, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

OM 456 - Quality Management

Credits: 3 (NR)
Provides an understanding of the multifaceted nature of quality management by emphasizing topics such as quality philosophies, total quality management, design quality, process quality, and managing quality in information systems development. Discusses ISO 9000 and Capability Maturity Model. Uses software, case studies.

Prerequisite(s): C or higher in OM 301, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

OM 462 - Honors Seminar in Operations Management

Credits: 3 (NR)
Topic and format vary. In-depth study of a topic in the area of operations management. Enrollment limited and competitive.
Prerequisite(s): Degree status in ISOM major; senior standing; permission of department.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OM 491 - Seminar in Operations Management

Credits: 3 (NR)
Analyzes selected topics that highlight latest developments in the operations management field, including contemporary research findings and case studies of operations management in business and other organizations.

Prerequisite(s): C or higher in OM 301, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

OM 493 - Management of Technology Projects

Credits: 3 (NR)
Focuses on managerial problems associated with meeting technical, cost, and time constraints of technology projects. Discusses project management areas including organization, teams, scheduling, cost control, earned value analysis, risk management, and quality. Includes software cost estimation models and the management of IT projects. Software and case studies.

Prerequisite(s): C or higher in OM 301, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

OM 499 - Independent Study in Operations Management

Credits: 1-3 (RT)
By special arrangement with instructor, and approval from associate dean for undergraduate programs. Investigates business problem according to student interest, using state-of-the-art decision science methodology.

Prerequisite(s): C or higher in OM 301, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

Operations Research (OR)

Offered by the Volgenau School of Engineering.
Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

**OR 335 - Discrete Systems Modeling and Simulation**

Credits: 3 (NR)
Introduction to basic concepts of modeling complex discrete systems by computer simulation. Topics include Monte-Carlo methods, discrete event modeling, specialized simulation software, and statistics of input and output analysis.

Equivalent to SYST 335

**Prerequisite(s):** CS 112 or equivalent, and STAT 344, or STAT 346, or MATH 351.

**Corequisite(s):** CS 211.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring

**OR 441 - Deterministic Operations Research**

Credits: 3 (NR)
Survey of deterministic methods for solving real-world decision problems. Covers linear programming model and simplex method of solution, duality, and sensitivity analysis; transportation and assignment problems; shortest path and maximal flow problems; and introduction to integer and nonlinear programming. Emphasizes modeling and problem solving.

Equivalent to MATH 441

**Prerequisite(s):** MATH 203, or permission of instructor. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

**OR 442 - Stochastic Operations Research**

Credits: 3 (NR)
Survey of probabilistic methods for solving decision problems under uncertainty, probability review, decision theory, queuing theory, inventory models, reliability, Markov chain models, and simulation are covered. Emphasis on modeling and problem solving.

Equivalent to MATH 442

**Prerequisite(s):** STAT 344 or STAT 346 or MATH 351, or equivalent. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3
OR 481 - Numerical Methods in Engineering

Credits: 3 (NR)
Modern numerical methods and software. Emphasis on problem solving through software and assessing the quality of solutions obtained. Topics include computer arithmetic, linear equations and least squares data fitting, interpolation, nonlinear optimization, and differential equations. Involves extensive computer use.

Equivalent to MATH 446

Prerequisite(s): Grade of C or better in MATH 203 and CS 112.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

OR 498 - Independent Study in Operations Research

Credits: 1-3 (NR)
Directed self-study of special topics of current interest in operations research.

Prerequisite(s): 60 credits; must be arranged with instructor and approved by department chair before registering.

Notes: May be repeated for maximum 6 credits if topics substantially different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

OR 531 - Analytics and Decision Analysis

Credits: 3 (NR)
Course focus is predominantly on prescriptive analytics with some parts focused on predictive analytics. Topics include operations research techniques and their application to decision making such as mathematical optimization, networks modeling, stochastic modeling, and multi-objective modeling. Other topics such as PERT, CPM, computer simulation, decision analysis using decision trees and quantitative value functions, and heuristic methods are covered, as well as use of contemporary computer software for problem solving. In particular, the course will extensively use MS Excel for solving the decision making problems. Case-study approach to problem solving is used.

Prerequisite(s): Graduate Standing.

Notes: Cannot be used for credit for the PhD IT program.

Hours of Lecture or Seminar per week: 3
OR 538 - Analytics for Financial Engineering and Econometrics

Credits: 3 (NR)
Introduces the basic analytics for financial engineering and econometrics, topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, stochastic dynamic models and financial time series analysis. It will provide a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data.

Equivalent to SYST 538.

Prerequisite(s): STAT 515 or STAT 544.

Notes: Course cannot be applied for credit towards the MS in Operations Research degree.

OR 540 - Management Science

Credits: 3 (NR)
Operations research techniques and their application to managerial decision making. Mathematical programming, Markov processes, queuing theory, inventory models, PERT, CPM, and computer simulation are covered, as well as use of contemporary computer software for problem solving. Case-study approach to problem solving is used.

Equivalent to SYST 540

Prerequisite(s): MATH 108, and STAT 250 or OM 200; or equivalent.

Notes: Students who have taken OR 541 or OR 542 and OR MS majors do not receive credit.

OR 541 - Operations Research: Deterministic Models

Credits: 3 (NR)
Survey of deterministic methods of solving real world decision problems. Covers linear programming model and simplex method of solution, duality, and sensitivity analysis, transportation and assignment problems; shortest path, minimal spanning tree, and maximal flow problems; and an introduction to integer and nonlinear programming. Emphasis on modeling and problem solving.

Prerequisite(s): MATH 203 or equivalent.
Notes: Students who have taken OR 441/MATH 441 will not receive credit.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 542 - Operations Research: Stochastic Models

Credits: 3 (NR)

Prerequisite(s): STAT 344 or MATH 351, or equivalent.

Notes: Students who have taken OR 442/MATH 442 do not receive credit.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 574 - Quality Control and Process Management

Credits: 3 (NR)
An overview of quality control techniques widely used in a number of manufacturing industries. The course teaches students about combining engineering process quality management and traditional statistical quality control procedures that are applicable in industry and are based on contemporary technologies such as lean Six Sigma, total quality management and predictive maintenance for achieving superior quality, reliability and maintainability.

Equivalent to SYST 574

Prerequisite(s): Graduate standing or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 576 - Manufacturing Systems Analysis

Credits: 3 (NR)
An overview of modeling and analysis of general manufacturing systems techniques widely used in a number of manufacturing industries, such as semiconductor manufacturing. The course teaches students about best scheduling and inventory control practices, enterprise resource management principles, and details of engineering economy that are applicable in the industry.

Equivalent to SYST 576

Prerequisite(s): Graduate standing or permission of instructor.
OR 588 - Financial Systems Engineering I: Introduction to Options, Futures, and Derivatives

Credits: 3 (NR)
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito's formula, and Black-Scholes model.

Equivalent to SYST 588.

Prerequisite(s): Eng. or Math Graduate standing, or permission of instructor.

OR 604 - Practical Optimization

Credits: 3 (NR)
Survey of optimization methods for students whose main focus is on application of optimization. Covers modeling, search methods, convexity, linear programming, sensitivity, networks, multiobjective optimization, heuristic methods, integer programming, nonlinear programming and dynamic programming; use of modeling languages and optimization tools, including NEOS.

Prerequisite(s): 6 credits of calculus and graduate standing, or permission of instructor.

Notes: Course cannot be counted toward MSOR degree. Students who have taken OR 541 or 644 cannot receive credit.

OR 635 - Discrete System Simulation

Credits: 3 (NR)
Computer simulation as a scientific methodology in operations analysis, with emphasis on model development, implementation, and analysis of results. Discrete-event models, specialized software, input modeling, and output statistics are covered. Extensive computational work is required.

Prerequisite(s): OR 542, or STAT 354 or 344, or equivalent; and knowledge of scientific programming language.
OR 640 - Global Optimization and Computational Intelligence

Credits: 3 (NR)
Introduction to global optimization of nonconvex mathematical programs and numerical methods for the solution of such problems. Topics covered include high-level survey of traditional mathematical programming algorithms; critical comparison of metaheuristics and artificial intelligence (AI) algorithms to traditional mathematical programming algorithms; probabilistic search, multistart methods, statistical tests of performance and confidence, simulated annealing, genetic algorithms, neural networks, Tabu search, homotopies and tunneling; the traveling salesman problem, the Steiner problem, Stackelberg-Cournot-Nash mathematical games and other classical nonconvex optimization problems.

Prerequisite(s): MATH 203 or equivalent, and knowledge of a scientific programming language.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 641 - Linear Programming

Credits: 3 (NR)
In-depth look at the theory and methodology of linear programming: Computational enhancements of the revised simplex method; sparse-matrix techniques, bounded variables and the dual simplex method. Alternative interior point methods described and computational complexity of various algorithms analyzed.

Prerequisite(s): OR 541, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

OR 642 - Integer Programming

Credits: 3 (NR)
Cutting plane and enumeration algorithms for solution of integer linear programs; bounding strategies and reformulation techniques; heuristic approaches to the solution of complex problems; knapsack problems, matching problems, set covering and partitioning problems; applications to problems in OR/MS, such as capital budgeting, facility location, political redistricting, engineering design, and scheduling.

Prerequisite(s): OR 541, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 643 - Network Modeling
Introduction to network problems in operations research, computer science, electrical engineering, and systems engineering. Solution techniques for various classes of such problems are developed. Topics include minimal-cost network flow, maximal flow, shortest path, and generalized networks; plus stochastic networks, network reliability, and combinatorially based network problems. Complexity of each problem class analyzed.

Prerequisite(s): OR 541, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

OR 644 - Nonlinear Programming

Credits: 3 (NR)
Nonlinear optimization theory and techniques applicable to problems in engineering, economics, operations research, and management science. Covers convex sets and functions, optimality criteria and duality; algorithms for unconstrained minimization, including descent methods, conjugate directions, Newton-type and quasi-Newton methods; and algorithms for constrained optimization, including active set methods and penalty and barrier methods.

Prerequisite(s): MATH 213 or equivalent, and OR 541; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

OR 645 - Stochastic Processes

Credits: 3 (NR)
Selected applied probability models including Poisson processes, discrete- and continuous-time Markov chains, renewal and regenerative processes, semi-Markov processes, queuing and inventory systems, reliability theory, and stochastic networks. Emphasis on applications in practice as well as analytical models.

Equivalent to STAT 645

Prerequisite(s): OR 542 or STAT 544, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

OR 647 - Queuing Theory

Credits: 3 (NR)
Unified approach to queuing, organized by type of model. Single- and multiple-channel exponential queues; Erlangian models, bulk and priority queues, networks of queues; general arrival and/or service times; and statistical inference and simulation of queues are covered. Extensive use of computational software.
OR 649 - Topics in Operations Research

Credits: 3-6 (RT)
Advanced topic chosen according to interests of students and instructor from dynamic programming, inventory theory, queuing theory, Markov and semi-Markov decision processes, reliability theory, decision theory, network flows, large-scale linear programming, nonlinear programming, and combinatorics.

Prerequisite(s): Permission of instructor.

Notes: May be repeated for maximum 6 credits if topics are substantially different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 651 - Military Operations Research I: Cost Analysis

Credits: 3 (NR)
While drawing on other disciplines (managerial accounting, econometrics, systems analysis), cost analysis uses operations research to assist decision makers in choosing preferred future courses of action by evaluating selected alternatives on the basis of their costs, benefits, and risks. Cost analysis is distinctly different from cost estimating in that projecting future courses of action almost always requires mathematical modeling. Topics include analysis overview, economic analysis, estimating relationships (factors, simple and complex models), acquiring and verifying cost data, cost progress curves, life-cycle costing, scheduling estimating, effectiveness and risk estimation, relationship of effectiveness models and measures to cost analysis.

Corequisite(s): OR 541 or 542.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

OR 652 - Military Operations Research Modeling II: Effectiveness Analysis

Credits: 3 (NR)
Examines issues and modeling underlying military decisions at the Military Service, Joint Staff, and Department of Defense level. Analytical methods with applications to theater campaign analysis, equipment and weapon system modernization, force structure development, strategic mobility and deployment, small-scale contingency operations, logistics, and requirements determination are considered. Optimization, simulation, and statistical techniques are stressed. Realistic problems presented and solved as case studies. Display of results and presentation techniques for military decision makers emphasized.

Corequisite(s): OR 541 or 542.
OR 660 - Air Transportation Systems Modeling

Credits: 3 (NR)
Introduces range of current issues in air transportation, including public policy toward the industry, industry economics, system capacity, current system modeling capability, human factors considerations, safety analysis and surveillance systems, and new technological developments. Students expected to develop broad understanding of contemporary and future issues. Knowledge evaluated through class discussions, a take-home midterm exam and a term project to be completed by the end of the semester.

Equivalent to SYST 660

Prerequisite(s): SYST 460/560, or permission of instructor.

OR 670 - Metaheuristics for Optimization

Credits: 3 (NR)
Course on the theory and practice of metaheuristics, i.e. solution search techniques for solving combinatorial optimization problems. It will introduce the theory, applications (scheduling in manufacturing, transportation, and in other engineering and service industries), and computational aspects of directly searching for solutions to solve computationally complex optimization problems without a well-defined analytical model.

Equivalent to SYST 670.

Prerequisite(s): OR 441/541 or permission of instructor.

OR 671 - Judgment and Choice Processing and Decision Making

Credits: 3 (NR)
How do people make judgments and decisions? Course presents an initial review of scientific literature directed toward answering this question, and emphasizes its importance when performing decision analysis and designing systems to support judgment and decision processes.

Equivalent to SYST 671

Prerequisite(s): STAT 344/354.
OR 674 - Dynamic Programming

Credits: 3 (NR)
Course on the theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties. Stresses intuition, the mathematical foundations being for the most part elementary. Introduces the theory, applications (finance, engineering, and biology), and computational aspects of dynamic programming for deterministic and stochastic problems.

Equivalent to SYST 674

Prerequisite(s): OR 442 or OR 542 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 675 - Reliability Analysis

Credits: 3 (NR)
Introduction to component and system reliability, their relationship, and problems of inference. Topics include component lifetime distributions and hazard functions, parameter estimation and hypothesis testing, life testing, accelerated life testing, system structural functions, and system maintainability.

Equivalent to SYST 675

Prerequisite(s): STAT 544 or 554, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 677 - Statistical Process Control

Credits: 3 (NR)
Introduces concepts of quality control and reliability. Acceptance sampling, control charts, and economic design of quality control systems are discussed, as are system reliability, fault-tree analysis, life testing, repairable systems, and the role of reliability, quality control and maintainability in life-cycle costing. Role of MIL and ANSI standards in reliability and quality programs also considered.

Equivalent to STAT 677/SYST 677

Prerequisite(s): STAT 544 or 554, or permission of instructor.
OR 681 - Decision and Risk Analysis

Credits: 3 (NR)
Application of analytic reasoning and skills to practical problems in decision-making. Topics include problem structure, analysis and solution implementation, emphasizing contemporary approaches to decision analytic techniques.

Equivalent to SYST 573

Prerequisite(s): OR 542 or MBA 638.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

OR 682 - Computational Methods in Engineering and Statistics

Credits: 3 (NR)
Numerical methods have been developed to solve mathematical problems that lack explicit closed-form solutions or have solutions that are not amenable to computer calculations. Examples include solving differential equations or computation probabilities. Discusses numerical methods for such problems as regression, analysis of variance, nonlinear equations, differential and difference equations and nonlinear optimization. Applications in statistics and engineering are emphasized. Involves extensive computer use.

Equivalent to CSI 700

Prerequisite(s): MATH 203 and 213 or equivalent, and modern numerical methods and software.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 683 - Principles of Command, Control, Communications, Computing, and Intelligence (C4I)

Credits: 3 (NR)
Fundamental principles of C4I are developed from descriptive, theoretical, and quantitative perspectives. Principles and techniques applicable to wide range of civilian and military situations. Topics include C2 process; modeling and simulation for combat operations; detection, sensing, and tracking; data fusion and situation assessment; optimal decision making; methodologies and tools of C4I architectures; tools for modeling and evaluations of C4 systems such as queuing theory.

Equivalent to SYST 680/ECE 670

Prerequisite(s): ECE 528, OR 542, or SYST 611; or equivalent.

Hours of Lecture or Seminar per week: 3
OR 688 - Financial Systems Engineering II: Derivative Products and Risk Management

Credits: 3 (NR)
Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions, as well as facilitating the risk management of those decisions. This course will focus on risk management for both market risk and credit risk. It will cover a broad range of derivatives products and hedging strategies with emphasis on how risks are managed in financial institutions.

Equivalent to SYST 688.

Prerequisite(s): OR/SYST 588 or permission of instructor.

OR 690 - Optimization of Supply Chains

Credits: 3 (NR)
Focuses on both supply chain optimization from an enterprise-wide perspective, and supply chain optimization from a business-to-business e-commerce concern. Concerned with optimizing the value of goods and services and assuring a reasonable return on such sales. Describes both heuristic and exact algorithms for scheduling, production, inventory management, logistics, and distribution. New software that enables such optimization is presented, as are manufacturing and service examples from the public and private sectors. New techniques to handle risk, quality of data, and robustness of solutions are presented. Students perform case studies using state-of-the-art software.

Prerequisite(s): Graduate standing, mathematics through linear algebra, and STAT 344.

OR 699 - Masters Project

Credits: 3 (NR)
Capstone project course for MS/OR program. Key activity is completion of a major applied team project resulting in an acceptable technical report and oral briefing. Student should plan to take this course in the last semester of studies.

Equivalent to OR 680 (2011-2012 Catalog)

Prerequisite(s): 21 graduate credits in OR or SYST.

George Mason University
OR 719 - Graphical Models for Inference and Decision Making

Credits: 3 (NR)
Theory and methods for inference and decision making in environments characterized by uncertain information. Covers graphical probability and decision models. Studies approaches to representing knowledge about uncertain phenomena, and planning and acting under uncertainty. Topics include knowledge engineering, exact and approximate inference in graphical models, learning in graphical models, temporal reasoning, planning, and decision-making. Practical model-building experience provided. Students apply what they learn to a project of their own choosing.

Equivalent to STAT 719/CSI 775

Prerequisite(s): STAT 652 or SYST/STAT 664, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 735 - Advanced Stochastic Simulation

Credits: 3 (NR)
Special topics and recent developments in Monte Carlo simulation methodology for discrete-event stochastic systems. Contents vary; possible topics include statistical analysis of simulation output data, random number and random variate generation, variance reduction techniques, sensitivity analysis and optimization of simulation models, distributed and parallel simulation, object-oriented simulation, and specialized applications.

Equivalent to SYST 735

Prerequisite(s): OR 635 or permission of instructor.

Notes: May be repeated for credit when topics are distinctly different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 741 - Advanced Linear Programming

Credits: 3 (NR)
Recent developments in linear programming. Highlights advances in interior point methods and also addresses developments in the simplex method. Projective methods, affine methods, and path-following methods are examined, including Karmarkar's original work. Discusses relationships between these methods, and relationships to methods in nonlinear programming. Also discussed are advances in data structures and other implementation issues. Students test software and solve large-scale linear programs.

Prerequisite(s): OR 541 and 641.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
OR 750 - Advanced Topics in Operations Research

Credits: 3 (RT)
Special topics, applications, or recent developments in operations research. Contents vary and may include topics in optimization, stochastic methods, or decision support that are not covered in the standard OR curriculum.

Prerequisite(s): OR 541 or 542, and 600-level course that varies with content of course.

Notes: May be repeated for credit when topics are distinctly different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 751 - Advanced Topics in Operations Research for Planning and Scheduling

Credits: 3 (NR)
Introduces combinatorial optimization problems in scheduling and logistics. Solution techniques for various classes of such problems are developed. Topics include deterministic and stochastic scheduling algorithms with applications in manufacturing and service sectors.

Prerequisite(s): OR 541.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 763 - Research Methods in Systems Engineering and Information Technology

Credits: 3 (NR)
Examines alternative paradigms of scientific research and their applicability to research in information technology. Topics include fundamental elements of scientific investigation, basic principles of experimental design and statistical induction, philosophy of science and its relation to the information technology sciences, and case studies of information technology research.

Equivalent to IT 763/SYST 763

Prerequisite(s): STAT 554.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 774 - Advanced Dynamic Programming

Credits: 3 (NR)
Covers advanced topics on the theory and practice of dynamic programming, i.e., optimal
sequential decision making over time in the presence of uncertainties. Stresses the mathematical foundations and introduces the theory, computational aspect, and applications of dynamic programming for deterministic and stochastic problems.

Prerequisite(s): OR674/SYST674 or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

OR 780 - Queuing Modeling of Computer-Communication Networks

Credits: 3 (NR)
Studies analytical modeling of computer and communication networks and performance evaluations. Topics include Markovian systems, open networks, closed networks, approximations, decomposition, simulation, sensitivity analysis, and optimal operation of systems. Presents local area networks, manufacturing systems, and other applications.

Equivalent to IT 780

Prerequisite(s): OR 645 or 647, or ECE 542; or equivalent.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

OR 782 - Advanced Topics in Combinatorial Optimizations

Credits: 3 (RD)
Studies problems using most recent developments. Topics include cutting plane procedures based on polyhedral combinatorics; column-generation procedures for large, complex problems; heuristic approaches such as genetic algorithms, simulated annealing, and tabu search; study of special structures; reformulation techniques; and bounding approaches. Topics stress most recent developments in field.

Prerequisite(s): OR 641 and 642.

Notes: May be repeated for credit when topics are distinctly different.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

OR 783 - Advanced Topics in Network Optimization

Credits: 3 (RD)
Recent developments in solving optimization problems on networks. Prepares doctoral students to perform advanced research on network-related problems. Topics include linear, discrete, nonlinear, and stochastic problems. Several aspects of problems also studied, including computational complexity, exact algorithms, heuristics, solvable special cases, and computer implementation issues.
Prerequisite(s): OR 643.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 784 - Advanced Topics in Nonlinear Programming

Credits: 3 (NR)
Studies theory and algorithms for solving nonlinear optimization problems. Contents vary; possible topics include large-scale and parallel-unconstrained optimization, theoretical issues in constrained optimization, duality theory, Lagrangian and sequential quadratic programming methods.

Prerequisite(s): OR 644.

Notes: May be repeated for credit when topics are distinctly different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 842 - Models of Probabilistic Reasoning

Credits: 3 (NR)
Survey of alternative views about how incomplete, inconclusive, and possibly unreliable evidence might be evaluated and combined. Discusses Bayesian, Baconian, Shafer-Dempster, and Fuzzy systems for probabilistic reasoning.

Equivalent to IT 842, SYST 842

Prerequisite(s): STAT 544 or OR 681, or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 888 - Distributed Estimation and Multisensor Tracking and Fusion

Credits: 3 (NR)
Centralized and distributed estimation theory, hierarchical estimation, tracking and data association, multisensor multitarget tracking and fusion, distributed tracking in distributed sensor networks, track-to-track association and fusion, and Bayesian networks for fusion.

Equivalent to SYST 888/ECE 753

Prerequisite(s): ECE 734 or SYST 611.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
OR 944 - The Process of Discovery and Its Enhancement in Engineering Applications

Credits: 3 (NR)
Studies ingredients of imaginative reasoning as it concerns efficient discovery of new ideas and valid evidential test of them. Topics include different interpretations of Peirce's theory of abductive reasoning and other forms of reasoning, Hintikka's analysis of process of inquiry, and current attempts to design systems that provide assistance in discovery-related or investigative activities.

Equivalent to SYST 944

Prerequisite(s): OR 842 or SYST 842 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 981 - Optimization in Medicine

Credits: 3 (NR)
Course focuses on the application of optimization to medicine, as well as on modeling used and solution approaches to the optimization problems generated. Particular attention is paid to algorithms and methodology not discussed in other optimization courses. Topics covered include nonlinear integer programs, large-scale nonlinear and integer programs, problems governed by differential equations, and more.

Prerequisite(s): OR 641, OR 642, OR 643, or OR 644.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Organization Development and Knowledge Management (ODKM)

Offered by the School of Public Policy

ODKM 700 - Organizations, Management and Work: Theory and Practice

Credits: 3 (NR)
This introduction to organizations, management, and work examines ideas and practices from two perspectives: conventional ones that go back to the industrial age and scientific management; and contemporary ones that have to do with organizing knowledge-work. Covers contributions of a range of writers and deals with foundations of OD from the standpoint of both theory and practice.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ODKM 705 - Group Dynamics and Team Learning
Engaging in unstructured and semi-structured learning environment, students will learn how to facilitate team learning for organizational effectiveness. By exploring various aspects of group dynamics such as power, perception, motivation, leadership, and decision making, students will develop various competencies to manage teams and enhance their emotional and appreciative intelligence.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**ODKM 710 - Social and Organizational Inquiry**

Credits: 4 (NR)
Introduces participants to the ethics, conduct and evaluation of research into human, social and organizational realities. Explores relationships between what and how we measure and what we find. Students develop the capacity to reflect on themselves as research instruments, on their own impact on the systems under study, and on the impact of the research assumptions, framing and approach both on the results obtained and on the future development of those systems.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**ODKM 715 - Creating Learning Organizations**

Credits: 3 (NR)
Focuses on the epistemological and ontological implications of organizational life in the twenty-first century. Reevaluates traditional management approaches in light of global economies, instantaneous communication, changing technologies, and diverse workgroups in knowledge economies. Special attention to developing skills for "double- and triple-loop learning," and reflection in professional lives through learning conversations, journals, narrative, autobiography, and imaginative literature.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**ODKM 720 - Collaborative Technologies for Knowledge Sharing**

Credits: 3 (NR)
Examines the potential of collaborative technologies for creating effective knowledge sharing in organizations. Through the use of tools such as SharePoint, students will gain a comprehensive understanding of the state of the art of virtual work and collaboration technology and other subjects related to successful design of a collaborative knowledge work environment.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**ODKM 725 - Strategic Knowledge Management**
Credits: 3 (NR)
An in-depth look at knowledge management, both theory and practices, which distinguishes between technology-oriented KM practices and people-oriented ones, with an emphasis on leveraging and sharing knowledge to get work done well and develop more effective organizations. Examines effective ways of organizing knowledge-work, including social networks, communities of practice, and the use of collaborative technologies.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ODKM 730 - Special Topics

Credits: 1-3 (NR)
Selected special topics in organization development and knowledge management not covered by existing ODKM courses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ODKM 731 - Consulting Skills for Organizational Change

Credits: 3 (NR)
Explores various theories and practices of change management, collaborative consulting, action research, and organization development. Using class projects and case studies, students bring together their understanding of organization development, their values, and their personal style to perform more effectively in various consulting roles. Students also learn various aspects of process consulting and client relationship management.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ODKM 735 - Organizational Development Practices

Credits: 3 (NR)
Students develop applied knowledge of various organizational development practices such as action research and appreciative inquiry. Includes simulations to understand the complexities of real-world change management. Group projects with selected organizations will help students develop their diagnostic and analytical skills to become better facilitators of organizational learning.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ODKM 740 - Learning Community

Credits: 1-3 (RD)
Using workshops, seminars, simulations, and structured experiences, students will learn how to build a learning Community of Practice (CoP) as practitioners of organization development. They will also reflect upon the community building experience
using research findings and design practice sessions to apply the lessons learned to the work environment.

Equivalent to MNPS 720

Prerequisite(s): Candidates for the M.S. in ODKM degree only.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

Parks, Recreation, and Leisure Studies (PRLS)

Offered by the College of Education and Human Development

PRLS 110 - Exploring Outdoor Adventure

Credits: 2 (NR)
Provides students with an introduction to outdoor adventure activities and the leadership theory involved to plan the activities. Aims to bridge theory and practice as it pertains to outdoor adventure activities. Focuses on developing skills in a variety of outdoor recreation activities which include but are not limited to rock climbing, orienteering, canoeing, and challenge course team building.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 1
When Offered: Fall, Summer, Spring

PRLS 115 - Introduction to Fly Fishing

Credits: 1 (NR)
A practical course designed for students with little or no knowledge of fly fishing. The course will involve activities to teach students the basics of fly fishing to include terms and equipment, casting, knot tying, aquatic entomology, fly selection, reading water, wading techniques and safety, and fly fishing tactics. In addition to the one-hour classes required during the week, a full day on a stream will be included.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PRLS 116 - Introduction to Indoor Rock Climbing

Credits: 1 (NR)
Introduces equipment, techniques, safety, and planning related to basic rock climbing.

Notes: Fee required.
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PRLS 117 - Rock Climbing

Credits: 2 (NR)
For individuals who have never done any formal rock climbing. Involves activities to teach students basic climbing terms, techniques, equipment, and safety practices for top rope belay climbing and rappelling. Builds communication skills and trust.

Notes: Fee required.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 118 - Intermediate Rock Climbing

Credits: 2 (NR)
For individuals who have some prior skills in rock climbing looking to further increase their skill level. Involves teaching students climbing terms, advanced knots, equipment, safety practices for redirect belay and top rope belay, as well as setting up techniques using rope and webbing. Special emphasis on anchor building will also be included. Ability to climb and rappel at least at the beginner's level will be required. This is not a certification course.

Prerequisite(s): PRLS 117

Notes: Fee required.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 119 - Trap and Skeet Shooting

Credits: 2 (NR)
Designed to educate the student on gun and range safety. Includes hands-on learning of the games trap and skeet, where competitors fire at clay targets (approximately 4 ¼ inches in diameter and 1 ½ inches in height) launched from a trap at varying angles.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 120 - Introduction to Backpacking

Credits: 2 (NR)
This practical and experiential course is designed for students with little or no knowledge of backpacking. Involves discussions, demonstrations, and activities to teach students the basics of backpacking. Topics covered include equipment selection and use,
map and compass skills, backcountry cooking, staying healthy in the outdoors, safety and emergency procedures, backcountry ethics (Leave No Trace), and natural history. Application of these skills will be realized over a four-day backpacking trip. Not only will students have the opportunity to practice these skills, but they will also develop their leadership abilities by working in a collaborative team environment.

Notes: Fee required.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 121 - Intermediate Trap and Skeet Shooting

Credits: 2 (NR)
Designed to increase the skill competencies in trap shooting. Includes hands-on learning of the different trap games (16-yard, handicap, doubles, and Olympic trap shoot on a wobble trap) where competitors fire at clay targets (approximately 4 ¼ inches in diameter and 1 ½ inches in height) launched from a trap at varying angles. Gun and range safety will also be emphasized.

Prerequisite(s): PRLS 119 or permission of instructor

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 122 - Introduction to Horsemanship

Credits: 1 (NR)
Introduces the basics of horseback riding and horsemanship. Emphasis will be on learning how to care for a horse, tack a horse, and basic riding skills. Students will learn how to walk, trot, and jump small obstacles.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PRLS 123 - Intermediate Indoor Rock Climbing

Credits: 1 (NR)
Introduces the practices designed to move into the intermediate indoor climbing realm with a focus on efficient and creative body positions, including specific, more advanced techniques and strength training.

Prerequisite(s): PRLS 116 or permission of instructor

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PRLS 124 - Pistol Marksmanship
Introduces students to marksmanship skills in Olympic sport and target shooting. Increases students' knowledge of shooting safety, position shooting, equipment care and maintenance, and shooting sports competition methods and techniques.

Prerequisite(s): Must be 18 years of age or older by the first day of class.

Notes: Previous firearms experience is not required. Each student responsible for $120.00 range fee.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PRLS 125 - Tracking, Trailing and Orienteering

Credits: 2 (NR)
Develops outdoor navigational and tracking skills and assumes no prior experience in tracking, trailing, or orienteering. Use of modern topographical maps and navigational compasses in a variety of settings.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PRLS 170 - Introduction to White-water Kayaking

Credits: 2 (NR)
Designed to provide students an overview and entry-level skills and knowledge necessary to navigate rapids up to Class II difficulty and plan and execute trips on moving water. Includes instruction in, but not limited to, paddle strokes and maneuvers, boat handling, basic terminology, equipment, proper clothing, kayak design, trip planning, river safety, self and group rescue techniques, water reading, river etiquette, and environmental ethics. A high priority is placed on emphasizing safety aspects.

Notes: Fee required.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PRLS 173 - Basic Coastal Kayaking

Credits: 2 (NR)
This course is designed to provide students with the core skills and knowledge necessary to safely paddle sea/coastal kayaks and execute trips on rivers and coastal environments. Includes instruction in, but not limited to, boat handling, terminology, kayak design, trip planning, marine hazards and safety, rules of the nautical road, weather and tides, and environmental ethics. There will be several trips within 50 miles of Mason.

Notes: Fee required.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
PRLS 174 - Open Water Coastal Kayaking

Credits: 2 (NR)
This course is designed to provide experienced coastal kayaking students with an introduction to advanced strokes and maneuvers, open water rescues, on-water navigation, and safety concerns related to open water.

Prerequisite(s): PRLS 173 or permission of instructor

Notes: Fee required.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 175 - Introduction to Rowing

Credits: 1 (NR)
This course is designed to provide students with the skills and knowledge necessary to row successfully in an eight-oared rowing shell. Includes instruction in, but not limited to, proper handling of rowing equipment, basic terminology, the proper execution of the rowing stroke, water safety, and team building.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PRLS 180 - White-water Canoeing

Credits: 2 (NR)
A practical course designed for students with little or no knowledge or skills in moving water and white-water canoeing. Involve activities to teach basic terms, rules, techniques for river safety, paddle strokes, boat control and maneuvering, reading river currents and conditions, self rescue techniques, ethics and river etiquette, and running rivers up to Class II+ in difficulty. There will be one classroom and four all-day paddling sessions on regional rivers.

Prerequisite(s): Ability to swim fully clothed for five minutes and put on a PFD in water

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 181 - White-water Canoeing II

Credits: 2 (NR)
A practical methods course to advance and refine the student's white-water canoeing skills with regard to paddle strokes, turns, maneuvers, boat control, and safety rescue skills.

Prerequisite(s): PRLS 180 or permission of instructor
PRLS 187 - Rock Climbing II

Credits: 2 (NR)
Provides advanced instruction into techniques and knowledge including climbing movements, knots and basic rope systems, rappelling, bouldering, introduction to sport climbing, and climbing history. Involves outdoor rock climbing sessions at local site.

Prerequisite(s): PRLS 116 or 117 or Permission of Instructor and a Vertical Rock Top-Rope Belay Certification (obtained during first class session).

Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PRLS 190 - Downhill Skiing

Credits: 1 (NR)
Basic skills and techniques of downhill skiing are taught and refined. Includes becoming familiar with use of ski equipment, terminology, and safety rules. Includes lecture and field experience to improve downhill skiing skills.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PRLS 191 - Snowboarding

Credits: 1 (NR)
Basic skills and techniques of snowboarding are taught and refined. Includes becoming familiar with use of equipment, terminology, and safety rules. Includes lecture and field experience to improve snowboarding skills. This course also consists of demonstrations, discussions, and videos.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PRLS 192 - Intermediate Horsemanship

Credits: 1 (NR)
Introduces intermediate skills of horseback riding and horsemanship. Emphasizes technical riding and advancing basic horseback riding skills (e.g. figure S's, serpentes, and change of direction). Focuses on how equitation affects the horse and horse behavior affects riding and safety.
Prerequisite(s): PRLS 122 or permission of instructor.

Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

PRLS 195 - Introduction to Hot Air Ballooning

Credits: 2 (NR)
Includes history, FAA regulations, equipment, weather, instruments, flight planning, balloon operations, and medical factors. Laboratory includes skill development as a crewmember and pilot, using an AX-8 hot air balloon. FAA student pilot certificates will be offered to all students. Although this is an introductory course, those completing it with a grade of B or better will be eligible to sit for the FAA written examination for lighter-than-air, free balloon, a requirement for the private pilot certificate.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 200 - Wilderness First Responder

Credits: 2 (RD)
Examines the role of outdoor professionals in wilderness medicine and the response, care and rescue of outdoor participants in non-urban outdoor environments. Uses the Patient Assessment System (PAS) to assess backcountry patients in an intensive experiential course which addresses the issues of medico legal concerns, blood borne pathogens and infectious diseases.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 2
When Offered: Fall, Spring, Summer

PRLS 210 - Introduction to Recreation and Leisure

Credits: 3 (NR)
Traces the development of current concepts of recreation and leisure and their implications and consequences. Covers influences of philosophy, religion, science, economics, sociology, and politics on discretionary time and its uses.

Notes: Open to nonmajors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 214 - Field Study in Natural History
Credits: 3 (RD)
Provides an introduction to natural history and its application in natural area interpretation through field study investigation of the environment. Covers fundamentals of bird, plant, animal, and rock identification, as well as sky and landscape interpretation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 220 - Experiential Education Theory and Application

Credits: 3 (NR)
Provides a broad theoretical, as well as practical, background in teaching and learning experientially. Concepts presented, experienced, and discussed include the basic premises of experiential learning according to a wide variety of educators and philosophers. The content and experience applies to recreation, education, development, and therapeutic settings.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 221 - Challenge Course Facilitation

Credits: 3 (RD)
Provides the fundamental principles and techniques of challenge course facilitation. Classroom learning is combined with an experiential setting through leading youth groups in the field. Students are provided with an introduction to safety, skills, and facilitation techniques for low and high elements of outdoor challenge courses.

Prerequisite(s): CPR Certification and PRLS 220, or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PRLS 241 - Practicum

Credits: 3 (NR)
Paid or voluntary work experience in a park and recreation agency. Minimum period of 10 to 12 weeks of part-time employment or experience. Capstone course for minors, allowing for integration and application of course work, theories, and research to a work setting. Work sites chosen among four approved sites. Includes meetings and assignments prior to and during the practicum.

Prerequisite(s): 60 hours and PRLS 210.

Notes: Open to departmental majors and minors only. Serves as a capstone for minors who have completed PRLS 310, 316, and 327.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
Grading: Satisfactory/No Credit
PRLS 250 - Wilderness Travel and Sustainability

Credits: 2 (NR)

This experiential course is designed for students with prior backpacking experience. Involves discussions, demonstrations, and activities that teach students wilderness skills, safety and judgment, leadership and teamwork, and environmental ethics. Topics covered include basic wilderness first-aid, hazard evaluation, emergency procedures, expedition behavior, self awareness, judgment and decision making, campsite selection, shelter and stove use, fire building, sanitation and hygiene, cooking, nutrition and rationing, equipment care and selection, staying warm and dry, route finding and navigation, Leave No Trace backpacking, weather, natural history, and wilderness ethics. Application of these skills will occur during the 14-day offtrail backpacking trip in a remote wilderness area. Not only will students practice these wilderness skills, but they will also develop leadership abilities by working in a collaborative team environment.

Designated a Green Leaf Course.

Prerequisite(s): PRLS 120

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 253 - Florida Everglades Canoe Expedition

Credits: 3 (NR)

Focuses on developing the knowledge and skills necessary to plan, manage, and participate in extended wilderness excursions by canoe in remote locations, while exploring a region's natural history. Students will be engaged in classroom preparation; training in canoeing and wilderness travel/living skills; group leadership; and environmental education in the Everglades National Park ecosystem. The class will travel and camp for 6 days/nights in the Everglades back country by canoe as a self-contained group. Students will perform a service project in the park. For students planning careers in outdoor recreation, interpretation, and natural resources management and planning; and students with a general interest in the course topics.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

PRLS 290 - Aquatic Operation and Management

Credits: 3 (NR)

Covers industry standards for water quality and aquatic facility management. Includes recognizing, measuring, and preventing biological and physical hazards. Meets requirements for certification as a Certified Pool/Spa Operator through the National Swimming Pool Foundation as well as certification in CPR through the American Red Cross.

Hours of Lecture or Seminar per week: 3
When Offered: Spring

PRLS 300 - People with Nature
Credits: 3 (NR)

Traces philosophical evolution of perceptions of and attitudes toward nature. Examines role of philosophers, scientists, nature-writers, and artists in the shaping of environmental thought. Includes extensive reading of Emerson, Thoreau, Muir, Leopold, Carson, Wilson, and others.
Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 302 - Park Management and Operations

Credits: 3 (NR)
Focuses on management and operations of park resources, including the management of visitors and recreation development. Emphasizes understanding of contemporary threats to park integrity and preservation of resources. Also covers maintenance management systems.

Prerequisite(s): PRLS 300

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 310 - Program Planning and Design

Credits: 3 (NR)
Fundamental principles and techniques of the planning process for health, fitness, and recreation programs. Covers specifying an area of need; goals, objectives, and mission statement; generating solutions; and selecting a program design for implementation.

Prerequisite(s): HEAL 205, PHED 200, PRLS 210, SPMT 201 or TOUR 200. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 316 - Outdoor Education and Leadership

Credits: 3 (NR)
Focuses on promotion of lifelong health and fitness via noncompetitive and informal outdoor activities. Introduces safety, skills, and leadership techniques. Covers sustainable use, conservation, and stewardship of natural resources.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 317 - Social Psychology of Play and Recreation
Applies social psychological theories and research to the study of leisure, play, and recreation behavior, including correlates, antecedents, and consequences of and constraints to these concepts.

**Prerequisite(s):** Tour 200, PRLS 210, SPMT 201, or PHED 200.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PRLS 323 - Program Leadership and Evaluation

Credits: 3 (NR)  
Covers leadership and evaluation of health, fitness, and recreation programs. Uses computer technology to study evaluative aspects of program planning and administration.

**Prerequisite(s):** PRLS 310.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### PRLS 327 - Foundations of Therapeutic Recreation

Credits: 3 (NR)  
An introduction to the processes and techniques of therapeutic recreation to meet the unique needs of people with disabilities. This course examines the history, concepts, theories, and foundations of therapeutic recreation.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PRLS 360 - Bill of Rights Issues in Parks, Schools, and Public Places

Credits: 3 (NR)  
Examines issues, particularly those involving First Amendment free speech and freedom of religion issues such as political protests, religious displays, and use permits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PRLS 362 - Cultural and Environmental Interpretation

Credits: 3 (NR)  
Focuses on communication processes and practices used to explain and interpret special characteristics of cultural and environmental resource sites for visitors. Conceptual principles for planning interpretive programs and multi-media delivery
techniques are discussed. Methods for programming interpretive services, addressing multi-audience accessibility, and administration and evaluation of interpretive services used at recreation and tourism sites are also examined.

Equivalent to TOUR 362.

**Prerequisite(s):** PRLS 300, or PRLS 328, or TOUR 352 or permission of instructor.

**Hours of Lecture or Seminar per week:** 0
**Hours of Lab or Studio per week:** 1-12
**When Offered:** Spring

**PRLS 402 - Human Behavior in Natural Environments**

Credits: 3 (NR)

Applies social and behavioral theories to management for recreational users of land and water resources. Examines deterioration and pollution of land and water, noise, crowding, and conflicts among users. Discusses strategies for mitigation of deleterious impacts and depreciative behaviors, and attitudes toward resource conservation, preservation, and use. Designated a Green Leaf Course.

**Prerequisite(s):** PRLS 210 and 300, or permission of instructor, and 60 credits

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**PRLS 405 - Planning, Design, and Maintenance of Leisure Facilities**

Credits: 3 (NR)
Covers quantity, location, and design standards for facilities. Includes safety, functionality, durability, and maintenance demand criteria in planning and design; programmatic and operational objectives to be met, including user comfort and convenience, crowd management, and traffic flow, and space relationships. Includes field study of local facilities.

**Prerequisite(s):** PRLS 310 or permission of instructor, and 60 credits

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**PRLS 410 - Administration of RHT Organizations I**

Credits: 3 (NR)
Focuses on operation and management of health, fitness, and recreation services organizations. Covers management and leadership theories and techniques, problem-solving and decision making, organizational communications, design of organizational structures, and budgeting.

**Prerequisite(s):** 60 hours or permission of instructor.
PRLS 411 - Administration of RHT Organizations II

Credits: 3 (NR)
Focuses on planning techniques for health, fitness, and recreation organizations. Covers program and organizational marketing principles and strategies; service quality assessment and organizational evaluation techniques; and organizational financing.

Prerequisite(s): PRLS 410 and 60 hours.

PRLS 416 - Trends and Programming Assessment in Therapeutic Recreation

Credits: 3 (NR)
Explores the role of leisure in human development with a specific focus on needs, demands, and services for people with disabilities and illness. Presents concepts associated with leisure, aging, physical challenge, targeting leisure services, research, and public policy.

Prerequisite(s): PRLS 327

Notes: Field experience required.

PRLS 417 - Processes, Techniques and Supervision in Therapeutic Recreation

Credits: 3 (NR)
Exploration of processes and techniques used in Therapeutic Recreation, with a focus on the nature and diversity of recreation and leisure activities, modalities and interventions, facilitation techniques and approaches, leadership roles and tasks, communication skills, clinical supervision, health and safety considerations, and the impact of the impairment and/or treatment on the individual.

Prerequisite(s): PRLS 327 and PRLS 416

PRLS 418 - Assessment in Therapeutic Recreation
Credits: 3 (NR)
Prepares methods of assessment, development of treatment program plans, and evaluation of all components. Extends program
design by developing competencies in the planning approaches, individual and group assessment techniques, program evaluation,
and documentation strategies for people with disabilities and illness.

Prerequisite(s): PRLS 327 and 416

Notes: Field experience required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 435 - Recreation Special Uses and Appeals

Credits: 3 (NR)
Management of extensive and varied commercial and noncommercial demands on federal lands. Policies and procedures used by
federal land managers. Implementation, effects, and problems of permit systems; appeal provisions.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 442 - Foundations of Public Domain Management

Credits: 1 (NR)
Acquisition, disposal, reservation, and management of the public (federal) domain via the Bureau of Land Management, National
Park Service, and the U.S. Forest Service. Policies, trends, and management needs are examined. Intra- and inter-agency
integration of land management programs.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PRLS 443 - Special Uses Management on Federal Lands

Credits: 4 (NR)
Special use authority and authorizations. Policies, regulations, and directives in processing applications. Coordination and
administration of special uses and integration with land and resource management plans. Includes agriculture, industry,
community, aviation, water, treasure trove, and cultural uses.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

PRLS 444 - Linear Uses and FERC Licenses on Federal Lands
Credits: 3 (NR)
Legislation, regulation policies, and directives governing linear uses. FERC licensing of hydroelectric power generation and distribution. Right-of-way for oil, gas, and electric transmission, railroads, communication, trams, conveyors, roads, and trails. FERC consultation, exemption, and licensing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 445 - Valuation and Landownership Adjustment

Credits: 5 (NR)
Landownership authority, coordination, and adjustment processes; land valuation and rules, and processes of appraisal, title exchange, purchase, donation, transfer, sale, and condemnation of properties.

Hours of Lecture or Seminar per week: 5
Hours of Lab or Studio per week: 0

PRLS 446 - Right-of-Way Acquisition

Credits: 3 (NR)
Authorities and procedures right-of-way acquisition from public agencies and private landowners. Planning, coordination, and project scheduling requirements. Steps in the acquisition process. Cooperative development and use of roads.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 447 - Land Status, Boundaries, Claims, and Withdrawals

Credits: 3 (NR)
Land survey and status records system, programs for maintaining and managing boundaries, handling claims and encroachments, the land status record system, and Bureau of Land Management master title plot system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 448 - American Indian Rights and Claims

Credits: 3 (NR)
American Indian sovereignty, Alaska Native corporations, colonization; treaties, rights, and claims; cultural resources an Indian laws and consultation with tribal governments.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PRLS 450 - Research Methods

Credits: 3 (NR)
Covers the development of empirical research designs for both practical and theoretical problems in health, fitness, and recreation resources management. Includes literature review of hypothesized relationships, and formulation of research proposals.

Fulfills writing intensive requirement in the major.

Prerequisite(s): 60 credits and one of the following: STAT 250, DESC 210 OM 210, SOC 313, OM 250, or IT 250. Prerequisite enforced by registration system.

Notes: Only STAT 250 meets the Mason Core quantitative reasoning requirement.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 460 - Sport and Recreation Law

Credits: 3 (NR)
Emphasizes safety, liability, and risk. Covers current law and liability issues for administrators of RHT facilities and programs.

Prerequisite(s): 60 credits

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 480 - Special Topics in Parks, Recreation, and Leisure Studies

Credits: 1-3 (NR)
Selected topics reflecting interest in specialized areas of parks and outdoor recreation or therapeutic recreation.

Prerequisite(s): 60 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 490 - Internship

Credits: 12-15 (NR)
Paid or voluntary work experience in a park and recreation agency for a minimum period of 10-12 weeks of full-time employment, and 480 hours for therapeutic recreation students. Applies course work, theories, and research to work settings. Work sites are chosen by students after approval of faculty supervisors. Includes meetings and assignments before and during internship.

Prerequisite(s): 90 credits; HEAL 205 and 323; PHED 200; and PRLS 210, 310, 316, and 410
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 12
Grading: Satisfactory/No credit only

PRLS 499 - Independent Study

Credits: 1-3 (NR)
Individual study of topic area in leisure research, theory, or practice under direction of faculty.

Prerequisite(s): 90 credits

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

PRLS 501 - Introduction to Natural Resources Law

Credits: 3 (NR)
Selected legal issues involving conflicting use and preservation demands on our nation's limited natural resource base, particularly those involving public lands, open space, and recreation resources. Uses case studies of recent court decisions. Designated a Green Leaf Course.

Prerequisite(s): PRLS 460 and 90 credits, graduate status, or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 503 - Administration and Disability Rights in Therapeutic Recreation

Credits: 3 (NR)
Overview of major law and policy issues related to therapeutic recreation services for people with disabilities. Primary focus is on the Americans with Disabilities Act and related federal legislation.

Prerequisite(s): PRLS 460 and 90 credits, or graduate status; or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 526 - Environmental Education and Resource Interpretation

Credits: 3 (NR)
Provides methods for communicating and disseminating information pertaining to the use of natural recreation resources. Covers design and implementation of educational materials and programs to enhance understanding and appreciation of cultural, historical, and natural resources.
Prerequisite(s): PRLS 402 or permission of instructor, and 90 credits

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 531 - Natural Resources Recreation Planning

Credits: 3 (NR)

Origins and evolution of recreation use philosophy, policies, and service of public estate management. Examines planning for a spectrum of opportunities, from wilderness to developed sites, with attention to financial consideration and sustainable use of cultural and visual resources.
Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 533 - Visitor Services

Credits: 3 (NR)

Examines motivation of resource-based recreation participants. Covers visitors' expectations and perceptions, with emphasis on implication for service quality, staff training, and other management responsibilities. Discusses use and user conflicts and placement, information and interpretive service, and human and other interpretive service resources.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 535 - Evaluating Recreation Outcomes

Credits: 3 (NR)

Covers application of quantitative and qualitative research methods to the evaluation of programs provided to visitors and users of public lands for outdoor recreation. Focuses on needs assessment and application of meaningful measures for formative and summative evaluations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 542 - Foundations of Public Domain Management

Credits: 1 (NR)

PRLS 560 - Liability and Risk Management

Credits: 3 (NR)
Examines liability and risk; federal jurisdiction, legal apparatus, and decision-making; and analysis of resource-based recreation case law.

PRLS 598 - Special Topics

Credits: 1-6 (RD)
Projects related to parks, recreation, and leisure studies.

Prerequisite(s): 90 credits

Notes: May be repeated for a total of 6 credits.

PRLS 599 - Independent Study

Credits: 1-3 (RD)
Study of a problem area in parks, recreation, and leisure studies research; theory or practice under the direction of faculty member.

Prerequisite(s): 90 credits

Notes: May be repeated. No more than 3 credits may be earned.

PRLS 601 - History of Leisure and Sport in American Society

Credits: 3 (NR)
Examines leisure and sport in American society from the early colonial period to the present day. Investigates the pattern of leisure and sport as America moved from a largely agrarian to a highly industrialized nation.
PRLS 610 - Recreation Administration and Planning

Credits: 3 (NR)
Examines recreational administration concepts regarding organizational structure and operations, personnel management, financing, policy development, and public relations procedures.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 611 - Social Psychology of Leisure

Credits: 3 (NR)
Addresses historical, theoretical, and empirical foundations of social psychological constructs relative to social behavior in park, recreation, sport, and tourism settings. Focuses on attitudinal, social, and motivational theories as applied to leisure-related contexts.

Prerequisite(s): Graduate student status

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 612 - Philosophy of Leisure and Sport

Credits: 3 (NR)
Investigates the phenomenon of leisure and sport from a philosophical perspective. Utilizes the philosophical approach to better explain the role that leisure and sport play in American society.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 614 - Legal Issues in Recreation Administration

Credits: 3 (NR)
Surveys current legal issues relevant to Recreation Administration, including, but not limited to, tort law, civil rights law, employment law, constitutional law, and copyright law. This course uses case studies of recent court decisions.

Prerequisite(s): Graduate status or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PRLS 635 - Recreation Special Uses and Appeals

Credits: 3 (NR)
Management of extensive and varied commercial and noncommercial demands on federal lands. Policies and procedures used by federal land managers. Implementation, effects, and problems of permit systems; appeal provisions.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 643 - Special Uses Management on Public Lands

Credits: 4 (NR)
Special use authority and authorizations. Policies, regulations, and directives in processing applications. Coordination and administration of special uses and integration with land and resource management plans. Includes agriculture, industry, community, aviation, water, treasure trove, and cultural uses.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

PRLS 644 - Linear Uses and FERC Licenses on Federal Lands

Credits: 3 (NR)
Legislation, regulation policies, and directives governing linear uses. FERC licensing of hydroelectric power generation and distribution. Right-of-way for oil, gas, and electric transmission, railroads, communication, trams, conveyors, roads, and trails. FERC consultation, exemption, and licensing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 645 - Valuation and Landownership Adjustment

Credits: 5 (NR)
Landownership authority, coordination, and adjustment processes; land valuation and rules, and processes of appraisal, title exchange, purchase, donation, transfer, sale, and condemnation of properties.

Hours of Lecture or Seminar per week: 5
Hours of Lab or Studio per week: 0

PRLS 646 - Right-of-Way Acquisition

Credits: 3 (NR)
Authorities and procedures right-of-way acquisition from public agencies and private landowners. Planning, coordination, and project scheduling requirements. Steps in the acquisition process. Cooperative development and use of roads.
PRLS 647 - Land Status, Boundaries, Claims, and Withdrawals

Credits: 3 (NR)
Land survey and status records system, programs for maintaining and managing boundaries, handling claims and encroachments, the land status record system, and Bureau of Land Management master title plot system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 648 - American Indian Rights and Claims

Credits: 3 (NR)
American Indian sovereignty, Alaska Native corporations, colonization; treaties, rights, and claims; cultural resources an Indian laws and consultation with tribal governments.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 670 - Environmental Law

Credits: 3 (NR)
Focuses on interpretation of environmental laws and regulatory issues. Emphasizes critical evaluation of alternatives to unresolved issues in environmental policies involving endangered species, hazardous waste, and toxic substances.

Prerequisite(s): Graduate status and courses in ecology and environmental biology, or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Persian (PERS)

PERS 110 - Elementary Persian

Credits: 6 (NR)
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0
PERS 210 - Intermediate Persian

Credits: 3 (NR)
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Persian-speaking regions.

Prerequisite(s): PERS 110, appropriate placement score, or permission of department.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Philosophy (PHIL)

Offered by the College of Humanities and Social Sciences

PHIL 100 - Introduction to Philosophy

Credits: 3 (NR)
Introduction to the nature of philosophical reasoning and some of the main problems of philosophy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 101 - Introduction to Philosophy for Prospective Majors

Credits: 3 (NR)
In this course, students can learn what distinguishes philosophy from other intellectual fields, major contributions in the history of philosophy, and basic philosophical issues, as well as how to develop the skills needed to address those issues oneself. The course is geared to the needs and the interests of students who may want to consider declaring philosophy as their major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 112 - Ethics and the Cybersociety

Credits: 1 (NR)
Examines ethical issues associated with new developments in information technology, including privacy rights, intellectual property rights, and the effect of information technology on society.

Fulfills Mason Core requirement in information technology (ethics only).

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
PHIL 151 - Introduction to Ethics

Credits: 3 (NR)
Considers some perennial issues in ethical theory.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 156 - What Is Art?

Credits: 3 (NR)
Introduction to philosophical reflection on the arts by looking at the critical issues in the history of aesthetics. Applies considerations to specific works and exploring these works in terms of their historical contexts and influences. Concentrates on one form of art or one period and always emphasizes questions of critical evaluation and art historical analysis.

Fulfills Mason Core requirement in arts.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 173 - Logic and Critical Thinking

Credits: 3 (NR)
Basic concepts and techniques of deduction, emphasizing the modern treatment of such topics as quantification and rules of inference, with study of the classical treatment. Basic principles of induction, informal fallacies, and uses of logic in everyday life.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 243 - Global Environmental Ethics

Credits: 3 (NR)
Examines the global dimensions of environmental problems. Although environmental problems are global in reach, because different societies make different philosophical and ethical assumptions, they are understood in different ways. Examines several environmental problems, including climate change, population growth, and resource depletion, from a variety of scientific, policy, and cross-cultural perspectives.

Fulfills Mason Core requirement in global understanding.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PHIL 251 - Happiness and the Good Life

Credits: 3 (NR)
Addresses the question "How do I live a happy life?" by drawing on 2,500 years of philosophy as well as the much more recent science of happiness. Encourages students to develop and live their own answer in light of some of the best available science and philosophy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 253 - Philosophy and Literature

Credits: 3 (NR)
Examines differences and relations between literary and philosophical texts. Examines texts from a given period in the history of literature and philosophy. Topics include the presence of common issues in literary and philosophical writings, the influence of philosophical ideas on the production of literary texts and literary theory, and the development in literary texts of issues that are possible objects of philosophical inquiry.

Fulfills Mason Core requirement in literature.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 301 - History of Western Philosophy: Ancient

Credits: 3 (NR)
Classical Greek philosophy, including pre-Socratics, Socrates, Plato, and Aristotle.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 302 - History of Western Philosophy: Medieval

Credits: 3 (NR)
Figures and problems of medieval philosophy. Study of leading thinkers from the 5th to the 15th centuries.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 303 - History of Western Philosophy: Modern

Credits: 3 (NR)
Figures and problems of modern philosophy. Study of philosophers such as Descartes, Locke, Berkeley, Hume, Kant, and Hegel.
PHIL 305 - Business Ethics

Credits: 3 (NR)
Examines some moral problems that arise with regard to the responsibilities of various segments of the business community, including employers, management, stockholders; to one another; to the consumer; and to society at large.

PHIL 306 - Philosophy Internship

Credits: 3 (NR)
Gives students the opportunity to apply philosophical skills in real-world settings. Internships arranged and supervised by faculty in the Department of Philosophy.

PHIL 309 - Bioethics

Credits: 3 (NR)
Examines some major moral issues involved in practice and research in medicine and health care. Topics to be chosen from medical experimentation, definition of death, physician-assisted dying, genetics and human reproduction, distribution of scarce resources, fertility, and organ transplants.
Fulfills Mason Core requirement in synthesis.

PHIL 311 - Philosophy of Law

Credits: 3 (NR)
Investigation of theories of natural law, legal positivism, and legal realism as they pertain to some of the central philosophical questions about law.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.
PHIL 312 - Philosophy of Technology

Credits: 3 (NR)
Philosophical examination of modern technology in its broadest human context. Several alternative philosophies of technology are considered. Examines the relationships between technology and religion, economics, and politics. Ethical issues raised by the use of technology are also examined. Typically, the course focuses on the ethical issues raised by the use of one kind of technology.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 313 - Philosophy of Religion

Credits: 3 (NR)
Study of classical appeals to philosophy in support of belief in god's existence (Philo, Augustine, Anselm, Aquinas, Descartes); the fideism of Hume and the metaphysical agnosticism of Kant; the concept of religious experience in the philosophies of Hegel, Schleiermacher, and Kierkegaard; and the problem of religious language in contemporary empirical philosophy.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 323 - Classical Western Political Theory

Credits: 3 (NR)
Exploration through lecture and discussion of developments in the Western tradition of political thought from the time of the Greek city-state to late medieval Christendom, focusing on such topics as the nature and purpose of politics, the relationship between the individual and the state, the political significance of religion and tradition, and the concept of natural law.

Prerequisite(s): GOVT 101, or 3 credits of philosophy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 324 - Modern Western Political Theory

Credits: 3 (NR)
Exploration through lecture and discussion of developments in the Western tradition of political thought from the Renaissance to the middle of the 19th century, focusing on such topics as the rise of individualism in political theory, early developments in social contract theory, theories of radical popular sovereignty, and early criticisms of liberal theory.

Equivalent to GOVT 324
Prerequisite(s): GOVT 101, or 3 credits of philosophy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 325 - Karl Marx's Social and Political Thought

Credits: 3 (NR)
Study and evaluation of Marx's social and political ideas based on writings selected from several phases of his career. Examination of relation of Marx's thought to post-Marxian socialist theory and practice.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 327 - Contemporary Western Political Theory

Credits: 3 (RT)
Exploration through lecture and discussion of recent developments in the Western tradition of political thought from the middle of the 19th century to today. Different sections focus on one or another of the various political theories that have been influential during this period such as liberal, libertarian, conservative, communitarian, Marxist, feminist, and postmodern thought.

Equivalent to GOVT 327

Prerequisite(s): GOVT 101, or 3 credits of philosophy.

Notes: May be repeated for a maximum of 12 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 332 - Twentieth-Century Analytic Philosophy

Credits: 3 (NR)
Examination of the attempts of 20th-century philosophers to solve philosophical problems by an analysis of language. Figures and movements covered include Russell, Moore, Wittgenstein, logical positivism, and ordinary language philosophy.

Prerequisite(s): 3 credits of logic and PHIL 303, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 333 - American Philosophy: Pragmatism
Examines the philosophical movement of American Pragmatism, with emphasis on its origin in the late nineteenth century. Figures covered include Peirce, James, Dewey, and Mead.

Prerequisite(s): 3 credits of philosophy, or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 335 - Nineteenth-Century Philosophy

Credits: 3 (NR)
Development of German Romanticism and Idealism during a brilliant period in the history of the West rivaled only by ancient Greece. Kant, Fichte, Hegel, Kierkegaard, Schopenhauer, and Nietzsche mount a revolt against the rationalism and scientism of the modern world.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 336 - Twentieth-Century Continental Thought: Existentialism

Credits: 3 (NR)
Examination of existential philosophy from its 19th-century origins to its 20th-century expressions. Philosophers studied include Kierkegaard, Nietzsche, Sartre, De Beauvoir, and Buber.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 337 - Twentieth-Century Continental Thought: Phenomenology

Credits: 3 (NR)
Examines phenomenological way of doing philosophy, its findings in regard to the "life-world," questions of "first philosophy," and the subject matter of the social sciences, as well as critical difficulties in its development. Texts by Husserl, Heidegger, Merleau-Ponty, Sartre, Schutz, and Derrida.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 338 - Philosophy, Sex, and Gender
An exploration of how concepts of sex and gender both structure key philosophical ideas and put such ideas into question. The course examines the ways patriarchal structures situate woman as the ‘other’ as well as alternative feminist approaches to sexuality, subjectivity, the body, and language. An overriding theme is the relationship between questions of sexual difference and other key issues in contemporary philosophy.

**Prerequisite(s):** 3 credits of philosophy, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### PHIL 340 - Hermeneutic Philosophy

Credits: 3 (NR)  
Study of the development of hermeneutic philosophy in works by Heidegger, Gadamer, and Ricoeur, as an effort toward coming to terms with the historicity of human experience. Implications for interpretive understanding of artworks, institutions, events, texts, and the human condition.

**Prerequisite(s):** 3 credits of philosophy, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PHIL 343 - Topics in Environmental Philosophy

Credits: 3 (NR)  
An in-depth examination of selected environmental issues from a philosophical perspective. Such issues might include the value of nature, the moral status of animals, duties to protect wilderness areas, economics and environmental protection, environmental justice, and environmental aesthetics.  
Designated a Green Leaf Course.

Fulfills Mason Core requirement in synthesis.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PHIL 344 - Ethical Issues in Global Health

Credits: 3 (NR)  
This course will consider ethical questions that arise in global health policy, practice and research.

**Prerequisite(s):** Sophomore standing or higher.
PHIL 349 - Christian Ethics

Credits: 3 (NR)
Examines the foundations of Christian and Jewish ethics from the Hebrew Bible and studies the meaning of Christian teachings. Examines Catholic, Orthodox, and Protestant texts as the framework to explore various Christian positions on major ethical issues such as war, embryonic stem cell research, abortion, and euthanasia in order to understand the meaning of the Christian life as it is faithfully practiced by members of the major Christian groups.

PHIL 354 - Topics in Modern Jewish Thought

Credits: 3 (NR)
Surveys modern Jewish thought, engaging some of the most important themes of this period including Jewish responses to rationalism, romanticism, idealism, existentialism, and legalism. Studies work from Baruch Spinoza to Emanuel Levinas.

Equivalent to RELI 354

Prerequisite(s): 3 credits in religious studies or philosophy or permission of instructor.

Notes: Students may not receive credit for both PHIL 354 and RELI 354

PHIL 355 - Theories of Ethics

Credits: 3 (RD)
A critical examination of a variety of different types of classical, modern, and contemporary ethical theories, including consequentialist theories, deontological theories, and virtue theories.

Prerequisite(s): Three credits in philosophy or permission of instructor.

PHIL 356 - Philosophy of Art

Credits: 3 (NR)
Basic problems that arise from an inquiry into meaning and value of art and our response to art.
Prerequisite(s): 3 credits of philosophy, or permission of instructor.

PHIL 357 - Philosophy of the Social Sciences

Credits: 3 (NR)
Philosophical issues relating to competing methodologies for the social sciences. Analysis and critique of mainstream positivism and behaviorism; paradigm theory and scientific revolutions; interpretive understanding and hermeneutical science; phenomenology and the social construction of reality; ethnomethodology and situational meaning; analytic philosophy and action theory; the "idea" of a social science; sociology of knowledge and theory of ideology; and Western Marxism and critical theory.

Equivalent to SOCI 599

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

PHIL 358 - Ethics and Economics

Credits: 3 (NR)
Examines issues at the intersection of ethics and economics. Looks at the different ways in which ethics and economics impact each other.

Prerequisite(s): 3 credits in philosophy or permission of the instructor.

PHIL 371 - Philosophy of Natural Sciences

Credits: 3 (NR)
One semester of logic recommended. Study of aims and methodology of science. Among the questions of concern are: What constitutes a good scientific explanation? What grounds are used for comparing rival theories? Is there a special method of scientific discovery?

Prerequisite(s): 3 credits of philosophy, or permission of instructor

PHIL 373 - Theory of Knowledge
Discussion of basic problems concerning the nature of knowledge, with study of the relation of knowledge to perception, belief, and language.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 374 - Philosophy of Mind

Credits: 3 (NR)
Investigation of such theories as dualism, behaviorism, and materialism as they pertain to some of the central philosophical questions about mind.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 375 - Metaphysics

Credits: 3 (NR)
Study of basic problems concerning being in general and foundations of individual being; traditional treatments of such problems and criticism of possibility of such knowledge. Selected readings from Plato, Aristotle, Aquinas, Spinoza, Leibniz, Kant, Bradley, Heidegger, and others.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 376 - Symbolic Logic

Credits: 3 (NR)
Study of predicate calculi by means of a step-by-step construction of artificial languages. Topics include procedures for constructing a calculus, proof techniques, significant properties of predicate calculi, and procedures for recognizing phrases.

Prerequisite(s): PHIL 173 or MATH 110, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 377 - Darwin: Biology and Beyond
Introduction to and philosophical examination of the theory of evolution in its historical perspective. Examines Darwin's theory of evolution as a scientific theory, connect it to its context in the history of science, and survey its wider cultural impact. In particular, examine implications of the theory of evolution for religion and morality.

Fulfills Mason Core requirement in synthesis.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHIL 378 - Reason, Science and Faith in the Modern Age**

Credits: 3 (NR)  
Historical examination of the rise of sciences in the modern age (1500-present) and the impact this has had on religion, drawing from such thinkers as Luther, Bacon, Galileo, Newton, Pascal, Hume, Darwin, Kierkegaard, and James.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** Permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHIL 379 - Perspectives on Time**

Credits: 3 (NR)  
Examines the variety of ways time is conceptualized in different disciplines. Influential conceptions of time from the history of philosophy are studied in order to provide a comparative framework within which to consider specialist conceptions of time drawn from the sciences and humanities, including relativistic time, geological deep time, life cycles, and time in historical narrative.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** 3 credits of philosophy, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring.

**PHIL 391 - Special Topics in Philosophy**

Credits: 1-3 (RT)  
Examines topics of current interest such as death and dying, rights of children, and philosophical controversies in modern physics.

**Notes:** May be repeated for a maximum of 12 credits when topic is different.
PHIL 393 - Humanities College to Career

Credits: 1 (NR)
Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in the humanities. Explores how skills typically learned in humanities majors can be leveraged for a successful transition to post-graduation employment.

Equivalent to ENGH 303, HIST 385, FRLN 309.

PHIL 398 - Study Abroad

Credits: 3 (RD)
Study abroad under supervision of Mason faculty. Course topics, content and locations vary.

Notes: A maximum of 6 credits may be applied to the BA in philosophy.

PHIL 411 - Theories of Decision

Credits: 3 (NR)
Examines from a philosophical perspective descriptive and normative theories of individual decision, with particular focus on the strengths and weaknesses of theories of rational choice, and attempts to incorporate insights from psychology into theories of decision. Explores theoretical developments and a variety of applications.

Prerequisite(s): Two previous courses in either Philosophy, Psychology, or Economics.

PHIL 421 - Seminar

Credits: 3 (RD)
Explores topics in current philosophical research in a seminar format. Topics vary.

Fulfills writing intensive requirement in the major.
Prerequisite(s): 9 credits in philosophy. Students with fewer credits in philosophy may be admitted, at the discretion of the professor, if the topic is sufficiently close to their field of study.

Notes: May be repeated for a maximum of 18 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 422 - Honors Seminar

Credits: 3 (RT)
Seminar for students enrolled in the honors program in philosophy.

Prerequisite(s): 9 credits in philosophy and acceptance to the honors program in philosophy.

Notes: May be repeated for a maximum of 18 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 425 - Independent Study

Credits: 1-3 (RT)
Independent study under supervision of faculty member. Students and faculty agree on program of study to include at least a reading list and final written project. Students must arrange for independent study in the semester before they wish to enroll. Requires approval of department.

Prerequisite(s): 60 credits, including 15 credits in philosophy and permission of department.

Notes: May be repeated for credit.

Hours of Lecture or Seminar per week: 1-2
Hours of Lab or Studio per week: 0

PHIL 427 - Feminist Political Thought

Credits: 3 (NR)
Explores feminist political thought in historical context. Topics include feminist political movements, feminist critiques of political philosophy, and feminist contributions to political theory.

Prerequisite(s): GOVT 101 or WMST 200, or 3 credits of philosophy; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PHIL 460 - Senior Seminar in Philosophy, Politics, and Economics

Credits: 3 (NR)
Covers issues in the philosophy, economics, and political science of institutions, information, and collective action. Through case studies of existing legal and political institutions, applies the insights to problems in politics, policy making, social-choice theory, and social, moral, and political philosophy. (Specific content varies).

Equivalent to ECON 460, GOVT 469

Prerequisite(s): PHIL 358 and ECON 412 or permission of instructor.

Notes: Serves as the capstone course for the PPE program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 470 - Seminar: Philosophical Examination of Social Issues and the Law

Credits: 3 (NR)
Philosophical study of social issues that are subject to legislation and judicial review. Analysis of the purpose and function of law in society lays the groundwork for reflection on specific issues such as abortion, euthanasia, capital punishment, divorce, child care, and health care.

Prerequisite(s): 3 credits in philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 471 - Honors Seminar

Credits: 3 (RT)
Honors version of PHIL 470.

Prerequisite(s): 9 credits in philosophy and acceptance to the honors program in philosophy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 510 - Seminar in Ethics of Health Care

Credits: 3 (NR)
Examination of moral dilemmas within the health care profession on ethical theories and principles. Special emphasis on patients' rights, social justice of health care, and evolving health care technologies.

Prerequisite(s): 90 credits, graduate standing, or permission of instructor.
PHIL 600 - Proseminar in Philosophy

Credits: 1 (NR)
Introduces MA students to the areas and methods of philosophical scholarship.

Prerequisite(s): Graduate standing and enrollment in the Philosophy MA program.

Notes: Graduate students outside of the philosophy program may take this course with permission of the department.

PHIL 602 - Plato: Selected Dialogues

Credits: 3 (RD)
Study of the central issues in the philosophy of Plato through a close reading of selected dialogues. Issues investigated include the questions of the possibility of knowledge, the nature of being, and of the good.

Prerequisite(s): Graduate standing.

Notes: May be repeated for a maximum of 6 credits when topic is different.

PHIL 603 - Aristotle: Selected Works

Credits: 3 (RD)
Close study of Aristotle's work and its place and future in history of philosophy. Topics vary by semester and include Aristotle's metaphysics, natural sciences, ethics, political thought, logic, epistemology, and psychology.

Prerequisite(s): Graduate standing.

Notes: May be repeated for a maximum of 6 credits when topic is significantly different with permission of department.

PHIL 604 - Augustine and Aquinas
Critical examination of philosophies of Augustine and Aquinas with special attention to the mode of argument of each.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 605 - Mind-Body Problem in Early Modern Philosophy

Credits: 3 (NR)
Examines views of major early modern philosophers on issues such as mind and body interaction, personal identity, and freedom of the will, as well as of interpretations of these philosophers by historians of philosophy.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 608 - Hegel's Phenomenology of the Spirit

Credits: 3 (NR)
A study of the philosophy of Hegel through a reading of the text that presents an introduction to his system. Special attention is paid to Hegel's background in the work of Kant and the German Idealists.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 611 - Philosophy of Law

Credits: 3 (NR)
Examines major jurisprudential theories that underpin law in Western society. After examining the theories, students apply them to contemporary social and political problems.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 615 - Postmodernist Thought
In recent decades, the term "postmodern," first used by art critics in the late 19th century, has been taken up by prominent contributors to the arts, social thinkers, and philosophers, to describe developments as well as the current period. Examines three thematic concerns found in work that is identified with postmodern issues: what modernity defines itself in contrast to or against, the status of "man," and status of "subjectivity."

**Prerequisite(s):** Graduate standing or permission of instructor.

**PHIL 616 - Phenomenology**

Credits: 3 (NR)
This major approach in philosophy is studied in regard to its basic features, the tasks to which it has been set by major contributors, certain findings of phenomenology in practice, as well as crucial problems that develop as phenomenology proceeds and how they are addressed by phenomenologists.

**Prerequisite(s):** Graduate standing.

**PHIL 617 - Movements and Issues in the History of Political Philosophy**

Credits: 3 (RD)
Explores themes, movements, and periods in the history of political theory.

**Prerequisite(s):** Graduate standing.

**Notes:** May be repeated for a maximum of 6 credits when topic is different.

**PHIL 618 - Contemporary French Feminism**

Credits: 3 (NR)
Examines philosophical contexts of existential-phenomenological and psychoanalytic French Feminist. It explores the ways in which French feminist thought has influenced continental philosophical thinking and international feminist theory.

**Prerequisite(s):** Graduate standing.
PHIL 621 - Philosophy of Science

Credits: 3 (NR)
Explores whether and how scientific advances can be achieved. Special attention is paid to relativism and rationalism debates and to the role of technology in science.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 631 - Freud and Philosophy

Credits: 3 (NR)
Explores philosophical aspects of Freud's thought, focusing on Freud's philosophy of human nature and culture, and influence on contemporary thought.

Prerequisite(s): 6 credits of philosophy, course in personality theory, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 632 - Twentieth-Century Logical Positivism

Credits: 3 (NR)
Examines 20th century logical positivism and its place in the history of philosophy. Topics include Russell's logical atomism and theory of descriptions, program of the Vienna Circle, attempts to formulate empiricist criteria of meaning, and legacy left by the movement.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 640 - History of Ethical Theory

Credits: 3 (NR)
Examines history of Western ethical theory from ancient Greece to the present day, including virtue theory, consequentialism, deontological theory and contemporary feminism.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PHIL 642 - Biomedical Ethics

Credits: 3 (NR)
Explores the application of ethical theories and principles to issues in contemporary health care. Cases central to the development of the field will be examined.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 643 - Environmental Ethics

Credits: 3 (NR)
An examination of human interactions with the natural environment from an ethical perspective. Emphasis will be placed on the strengths and weaknesses of various ethical theories and the different conceptions of the proper relationship between humans and their environment.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 644 - Business and Organizational Ethics

Credits: 3 (NR)
Examines organizational culture as necessary for ethical development and of the application of ethics in business and organizational settings.

Prerequisite(s): Graduate standing or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 645 - Research Ethics

Credits: 3 (NR)
Ethical theories, concepts, and principles, and how these shape research guidelines. Students learn to identify ethical issues in research, to reflect on them critically, and to respond effectively. Designed for students in the humanities, social sciences, life sciences, and health sciences.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PHIL 646 - International Ethics

Credits: 3 (NR)
Considers normative issues in international affairs, including global distributive justice, just war, foundations of human rights, harms to women, cultural and national identities, possibilities for transnational democracy, responsibilities of global corporations, and environmental ethics.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 658 - Feminist Theory

Credits: 3 (NR)
Analysis of the critique of patriarchy offered by contemporary continental feminist philosophers. Examines contemporary moral, political, and epistemological issues in feminist theory.

Prerequisite(s): Admission to graduate program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 673 - Current Issues in Theory of Knowledge

Credits: 3 (NR)
Advanced exploration of conditions and limits of knowledge, from the perspective of contemporary philosophy. Is there any infallible, or fallible but at least reasonable, foundation for achieving an understanding of the world and of our minds? This question is examined from the perspective of sense datum theory, coherentism, and various naturalized epistemologies. The nature of a priori knowledge (from mathematics and logic) is also examined.

Prerequisite(s): Admission to graduate program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 681 - Ancient Philosophical Figures

Credits: 3 (RT)
Examines major philosophical authors of crucial philosophical texts and their influence on philosophical thought.

Prerequisite(s): Graduate standing.

Notes: May be repeated for a maximum 6 credits when topic is different.
PHIL 682 - Early Modern Philosophical Figures

Credits: 3 (RT)
Examines major philosophical authors of the early modern period and their influence on philosophical thought.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 683 - Contemporary Philosophical Figures

Credits: 3 (RT)
Examines major recent philosophical authors and their influence on philosophical thought.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 691 - Special Topics in Ancient Philosophy

Credits: 3 (RT)
Examines topics of current interest in ancient philosophy.

Prerequisite(s): Graduate standing, or permission of instructor.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 692 - Special Topics in Early Modern Philosophy

Credits: 3 (RT)
Topics vary.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PHIL 693 - Directed Readings in Philosophy

Credits: 3 (RT)
Directed readings and research on specific topic in philosophy chosen by student and instructor.

Prerequisite(s): Graduate standing or permission of instructor.

Notes: May be repeated for a maximum of 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 694 - Special Topics in Contemporary Philosophy

Credits: 3 (RT)
Topics vary.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 719 - Phenomenology of World

Credits: 3 (NR)
Studies one of the most fully deployed and enduring themes in phenomenological philosophy, namely, sense of "world."
Philosophers covered include Husserl, Heidegger, and Merleau-Ponty.

Prerequisite(s): Previous course in phenomenology, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 720 - Nietzsche and his Readers

Credits: 3 (NR)
Reading of major texts of Nietzsche and some of his most influential interpreters and critics.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PHIL 721 - Advanced Seminar in Philosophy

Credits: 3 (RT)
Close study of selected topics in current philosophical discourse.

Prerequisite(s): Graduate standing.

Notes: May be repeated for credit when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 733 - Current Issues in Cognitive Science

Credits: 3 (RD)
Examines current areas of investigation in cognitive science and philosophy of mind such as nature of consciousness, and representational and connectionist theories of mind.

Prerequisite(s): Admission to master's program in philosophy or permission of instructor.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 799 - Thesis

Credits: 1-6 (RD)
Develop research and write an original thesis under the direction of their thesis director.

Prerequisite(s): Completion of 24 credits, approval of the thesis proposal, and permission of instructor (thesis director).

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

Physical Education (PHED)

Offered by the College of Education and Human Development

PHED 102 - Introduction to Soccer

Credits: 1 (NR)
This course is designed to introduce individuals to the basic elements of soccer. This includes dribbling, kicking, passing, trapping, tactics, and strategy.
PHED 103 - Fencing I

Credits: 1 (NR)
Gives the beginning student basic knowledge of the sport of fencing and teaches the fundamental movements required in the sport. Students should expect to learn some officiating and etiquette of the sport and acquire the ability to fence at the novice level. The instructor will use any combination of the following: instructional videos, written handouts, guest fencers for demonstrations, drills, and group and individual instruction.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 105 - Aerobics and Basic Conditioning

Credits: 1 (NR)
Introduction students to fitness and healthy lifestyles. The course is designed to provide students with four lectures and multiple cardiovascular workouts. The lectures include cardiovascular endurance, cardiovascular diseases, body composition, nutrition, and weight management. The class also teaches students how to use cardiovascular equipment and how to design an aerobic fitness program. The course is geared for beginners, yet all students will be helped on an individual basis (therefore advanced individuals can also participate).

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 107 - Social Dance

Credits: 1 (NR)
Provides a knowledge base of dance fundamentals and skill development in various ballroom dances and includes basic rhythms, dance positions, floor alignments, techniques of leading and following, and maintenance of dance frame in partner dancing.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 108 - Weight Training and Body Conditioning

Credits: 1 (NR)
Introduces students to fitness and healthy lifestyles. The course is designed to provide students with an overview of the various
types of weight training but primarily emphasizes circuit weight training method. There will usually be a brief lecture each week with a longer one or two or three times during the semester. The lectures include the five health-related components of physical fitness, nutrition, and weight management. The class also teaches students how to use resistance and cardiovascular equipment, and how to design fitness programs. The course is designed for beginners, yet all students will be helped on an individual basis (therefore advanced individuals can also participate).

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

### PHED 110 - Beginning Swimming

Credits: 1 (NR)  
Develops a knowledge base and basic swimming skills for the weak swimmer and nonswimmer, and make them water safe. These skills include, but are not limited to, locomotion and propulsive movements in a prone and supine position, breath control, rhythmic breathing, beginning diving techniques, personal safety, and rescue skills to maintain a water-safe environment.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

### PHED 113 - Latin Dance

Credits: 1 (NR)  
Provides knowledge base of dance fundamentals and skill development in various Latin dances and will include basic rhythms, dance positions, floor alignments, techniques of leading and following, and maintenance of dance frame in partner dancing. Introduces dances which may include but not restricted to Merengue, Mambo, Samba, Salsa, and Bachata.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

### PHED 118 - Advanced Life Guarding

Credits: 1 (NR)  
Introduces and develops skills and knowledge necessary to become an American Red Cross-certified lifeguard. Focus is on training participants in aquatic facility and patron safety, in-water rescue skills, and physical conditioning. It teaches the lifeguard candidates to prevent, recognize, and respond to aquatic-related emergencies.

**Prerequisite(s):** PHED 150 or permission of instructor

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

### PHED 120 - Introduction to Basketball
Introduces individuals to the basic elements of basketball. This includes dribbling, passing, shooting, tactics, and strategy.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-12

PHED 127 - Social Dance II

Credits: 1 (NR)
Provides an introduction to the tango and additional patterns for the fox trot, waltz, cha-cha, rumba, and Eastern swing.

Prerequisite(s): PHED 107 or permission of instructor

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 128 - Fencing II

Credits: 2 (NR)
Reviews the advanced footwork and handwork techniques learned in Fencing I and expands on the third component of the sport, strategic tactics. Students are introduced to the rules and protocol of competitive fencing and use electric scoring equipment and electric fencing gear.

Prerequisite(s): PHED 103 or permission of instructor

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PHED 129 - Introduction to Yoga

Credits: 1 (NR)
Introduces students to the practice of Hatha yoga. Class emphasis will be on learning yoga asanas (postures) and pranayama (breathing exercises) to enhance physical fitness and mental concentration.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 130 - Intermediate Yoga

Credits: 1 (NR)
Class emphasis will be on mastering yoga asanas (postures) and pranayama (breathing techniques) to enhance physical fitness and mental concentration. Students will learn 10 new yoga poses and practice the complete Sun Salutation.

Prerequisite(s): PHED 129 or permission of instructor
Notes: Expands on the yoga practices taught in PHED 129.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 131 - Introduction to Pilates

Credits: 1 (NR)
Provides the history and basic foundations of Pilates including an introduction to beginning Pilates exercises and their proper execution; exploration of modifications for certain exercises and the various props which may be used in the group class setting.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 2
When Offered: Fall, Spring

PHED 134 - Self-Defense for Men and Women

Credits: 1 (NR)
A practical self-defense course designed for students with little or no background in martial arts or self-defense. Defensive and offensive techniques are taught to prepare students for any potentially dangerous event they may encounter. The course will also improve student's physical and mental fitness.

Notes: Fee required.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 135 - Self-Defense for Men and Women II

Credits: 1 (NR)
A continuing practical self-defense course designed for students with a basic self-defense skill level or minimal martial arts experience. More advanced defensive and offensive techniques will be taught building on the student's previous training. Continued improvement in the student's physical and mental fitness will also be emphasized.

Prerequisite(s): PHED 134 or minimal martial arts experience.

Notes: Fee required.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 136 - Tae Kwon Do
Credits: 1 (NR)
A beginner-level course designed to develop basic skills of Tae Kwon Do, a Korean martial art that predominantly emphasizes kicking.

Notes: Fee required.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 137 - Intermediate Tae Kwon Do

Credits: 1 (NR)
An intermediate-level course that continues to develop basic skills of Tae Kwon Do. Course instruction continues to focus on the student's mental development, as well as physical training.

Prerequisite(s): PHED 136 or permission of instructor

Notes: Fee required.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 138 - Brazilian Jiu-Jitsu

Credits: 1 (NR)
A practical self-defense course instructing students in Brazilian Jiu-Jitsu techniques designed for students who have no prior experience in martial arts or Brazilian Jiu-Jitsu. Brazilian Jiu-Jitsu's primary goal is to give advantage to those who use correct form, posture, and technique over strength.

Notes: Fee required.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 139 - Brazilian Jiu-Jitsu II for Men and Women

Credits: 2 (NR)
A beginner-to-intermediate-level course teaching techniques in Brazilian Jiu-Jitsu. Students will learn specific defensive techniques to be used against an attacker along with escapes and submissions from a variety of different attacks. Students will participate in basic sparring with particular attention to safety. Students will also undergo an intensive training and conditioning routine.

Prerequisite(s): PHED 138 or permission of instructor

Notes: Fee required.
PHED 140 - Golf

Credits: 1 (NR)
A practical course designed for students with little or no golf knowledge. The course involves activities to teach students basic
golf terms, rules, and techniques for the full swing, putting, chipping, and pitching, as well as playing on a golf course.

Notes: Fee required.

PHED 144 - Intermediate Golf

Credits: 2 (NR)
A practical course designed for students with basic golf knowledge and skills. The course will include course strategies, course
management, the proper use of the rules, club selection, speed of play, skill building, and different golf formats.

Prerequisite(s): PHED 140 or permission of instructor

Notes: Fee required.

PHED 145 - Beginning Judo for Men and Women

Credits: 1 (NR)
This is an introduction to Judo in which students will learn basic body mechanics of throwing, sweeping, grappling, and
submission. Students will learn the fundamentals in these areas both for self-defense and sport. The history of judo, rules of the
sport, and proper safety and falling techniques will be presented.

Notes: Fee required.

PHED 146 - Introduction to Badminton

Credits: 1 (NR)
A practical course designed as an introduction to badminton. Students learn badminton terms; scoring rules; and techniques for
forehand, and backhand, and the serve. Students are also introduced to basic strategy for singles and doubles play.
PHED 147 - Advanced Tae Kwon Do

Credits: 1 (NR)
Advanced-level course that continues to enhance and refine skills of Tae Kwon Do. Students develop more extensive jump and spin kicks, as well as combinations of the same. Provides brown to black belt levels of promotion and continues to focus on each student's mental development and physical training.

Prerequisite(s): PHED 137 or permission of instructor

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PHED 149 - Tai Chi

Credits: 1 (NR)
A beginner-level course designed to increase awareness of the mind and body. Students will be introduced to basic principles of Chi (energy) and Yin Yang (polarity) and how these apply to their bodies through practicing the Tai Chi Chih movements.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 150 - Intermediate Swimming

Credits: 1 (NR)
A course designed to build on basic-level swimming skills by providing practice for confidence, refinement of coordination, and improvement of other aquatic skills. Presents more advanced swimming strokes and focuses on physical conditioning and aquatic safety.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 151 - Introduction to Tennis

Credits: 1 (NR)
A practical course designed as an introduction to tennis. Involves activities to teach students tennis terms, rules, scoring, techniques for the forehand and backhand ground strokes, volley, overhead, and serve, as well as basic strategy for singles and doubles.
PHED 153 - Tennis II

Credits: 1 (NR)
Prepares experienced tennis player in advanced skills: point play, control of pace, direction, and depth of forehand and backhand, ground strokes, and topspin and underspin. Instructs tactical use of volley, styles of play, and strategies for singles and doubles. Introduces principles to refereeing. Applies skills-training to competitive and recreational play.

Prerequisite(s): PHED 151 or demonstrated ability.

Notes: Students with injuries or pre-existing conditions that might affect performance must inform the instructor. Students must provide their own tennis racquet, balls and shoes.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

PHED 155 - Introduction to Springboard Diving

Credits: 2 (NR)
A beginner-level course designed to increase awareness of the sport of diving, safety issues pertaining to competitive and recreational diving, competition formats, and history and evolution of the sport and scoring systems. Students will be introduced to fundamental skill progressions leading to basic dives.

Prerequisite(s): PHED 150 or permission of instructor

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PHED 156 - Intermediate Springboard Diving

Credits: 2 (NR)
Students build on the fundamental skill progressions and perform more advanced skills and dives than in the introductory course (PRLS 155). Designed to increase awareness of the sport of diving, safety issues pertaining to competitive and recreational diving, competition formats, history and evolution of the sport, and scoring systems.

Prerequisite(s): PHED 155 or permission of instructor

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PHED 157 - Aikido for Men and Women
PHED 158 - Underwater Hockey

Credits: 1 (NR)
Designed to provide basic instruction in the fundamentals of underwater hockey. Students learn free diving and snorkeling activities in preparation for underwater hockey. They will learn about and experience physiological reactions to aquatic submersion. Significant attention throughout this course will be given to safety issues related to underwater training, emphasizing current and lifelong skills.

Prerequisite(s): PHED 150 or permission of instructor

Notes: Fee required.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 159 - Advanced Swimming

Credits: 1 (NR)
A course designed to build on intermediate-level swimming skills by providing practice to refine and perfect swimming strokes, so that students swim with more ease, efficiency, power, and smoothness over greater distances. Focuses on developing a higher level of fitness and maintaining better physical conditioning. Introduces other aquatic activities to enrich the class and broaden the horizons of the participant.

Prerequisite(s): PHED 150 or permission of instructor

Notes: Fee required.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 160 - Intermediate Tai Chi

Credits: 1 (NR)
A second-level course for students to learn Tai Chi Weapon (Tai Chi Straight Sword), as well as practice the basic principles of Tai Chi. Students will increase awareness of the mind and body.

Prerequisite(s): PHED 149 or permission of instructor
PHED 162 - Introduction to Bowling

Credits: 1 (NR)
Students will learn the sport of 10-pin bowling. Topics covered are bowling etiquette, history of bowling, playing rules for league members, scoring, different approaches to the game, and the appropriate equipment for these approaches. Inexperienced and experienced bowlers are welcome to participate.

Notes: Fee required.

PHED 163 - Karate

Credits: 1 (NR)
American Kenpo Karate is the combination of art and science. Emphasizes techniques, forms (kata), and sets (drills). All the techniques are related by motion and principles. Each technique builds on the previous one, creating a web of knowledge.

PHED 164 - Intermediate Karate

Credits: 1 (NR)
Second-level course in American Kenpo Karate. Students review information and refine skills developed in the introductory class, as well as learn new forms and techniques to increase skill performance at the next level.

Prerequisite(s): PHED 163 or permission of instructor

PHED 165 - Introduction to Racquetball

Credits: 1 (NR)
A practical course designed as an introduction to racquetball. Involves activities to teach students basic racquetball terms, rules, scoring, safety, and techniques for the forehand, backhand, overhead, and serve, as well as singles and doubles.
**PHED 166 - Intermediate Racquetball**

Credits: 1 (NR)
A practical course designed for the novice racquetball player. Course involves activities to teach students intermediate skills, including ceiling shots, kill shots, passing shots, back wall strokes, advanced serves, court positions, and tactics and strategies for singles and doubles.

Prerequisite(s): PHED 165 or permission of instructor

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

**PHED 167 - Advanced Concepts and Strategies in Bowling**

Credits: 1 (NR)
Students will learn advanced concepts and strategies in the sport of Ten Pin Bowling. Topics covered are equipment, mental preparation, spare conversions, practice regimens, and strategies for different lane conditions. This course is intended for experienced bowlers.

Prerequisite(s): PHED 162 or permission of instructor

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

**PHED 169 - Intermediate Judo for Men/Women**

Credits: 2 (NR)
This is a second level course with the emphasis placed on executing proper skills and movements and not the contact itself. The nature of this course incorporates both offensive and defensive movements, and these actions are accepted as part of the class. Excessive force, violence, or aggression will not be tolerated.

Prerequisite(s): PHED 145 or permission of instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

**PHED 174 - Introduction to Volleyball**

Credits: 1 (NR)
Introduces students to fundamental knowledge and basic skills of volleyball.

Hours of Lecture or Seminar per week: 1
When Offered: Fall.
PHED 175 - Fitness Walking

Credits: 1 (NR)
Introduces students to cardiovascular exercise as it relates to a healthy lifestyle and improved quality of life. Designing, implementing, and evaluating a walking plan based on current fitness levels will be covered.

Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor. Students are expected to use a heart rate monitor and applications that track students distance, speed, and route like "Mapmywalk" and directly email information to the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

PHED 176 - Introduction to Cricket

Credits: 1 (NR)
This course is designed to introduce individuals to the basic of Cricket. This includes bowling, batting, fielding, umpiring, and strategy.

Hours of Lecture or Seminar per week: 1
When Offered: Fall, Spring.

PHED 177 - Introduction to Badminton

Credits: 1 (NR)
Introduces the fundamental skills, rules, and strategies of badminton. Covers basic techniques and etiquette of both singles and double play. Allows students to enjoy badminton as a lifetime activity.

Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

PHED 178 - Intermediate Pilates

Credits: 1 (NR)
Provides students with advanced knowledge and skills in Pilates techniques and exercises.

Prerequisite(s): PHED 130 or permission of instructor.

Hours of Lecture or Seminar per week: 1
When Offered: Fall.
**PHED 179 - Introduction to Krav Maga**

Credits: 1 (NR)
Introduces students to the principles and practice of Krav Maga, an Israeli system of self-protection. Involves knowledge of threat response, skill training in self-protection, and mental preparation for defensive tactics. Prepares students in appropriate protective action in situations of threat or attack.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0  
When Offered: Fall.

**PHED 181 - Introduction to Meditation**

Credits: 1 (NR)
Introduces students to philosophical foundations of meditation. Guides in the practice of meditation and its application to daily mental focus and concentration.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0  
When Offered: Fall.

**PHED 182 - Soccer II**

Credits: 1 (NR)
Prepares the experienced soccer player in the aspects of the competitive game. Applies skills-training to competitive and recreational play. Covers strategies of offense and defense and variation of different systems of play.

Prerequisite(s): PHED 102 or Permission of Instructor.

Hours of Lecture or Seminar per week: 0.5  
Hours of Lab or Studio per week: 0.5  
When Offered: Fall, Summer, Spring

**PHED 183 - Intermediate Krav Maga**

Credits: 1 (NR)
Continued training in Krav Maga skills for the experienced student. Explores multiple opponents, defending third parties, decision making skills, using & defending against weapons, and fight strategy.

Prerequisite(s): PHED 179 Permission of Instructor.

Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor.

Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 1  
When Offered: Fall, Spring
PHED 193 - Competitive Latin and Ballroom Dance

Credits: 1 (NR)
Increase knowledge base of dance fundamentals and skill development in the competitive style of Latin and Ballroom dances. Students are exposed to alignments, techniques of leading and following, and maintenance of dance frame in partner dancing in competitive dances.

Prerequisite(s): PHED 113, PHED 107 or permission of instructor.

Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

PHED 200 - Professional Dimensions of Health, Recreation, and Physical Education

Credits: 3 (NR)
Traces historical foundations of health, recreation, physical education, and sport.

Notes: Open to nonmajors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 201 - Developmental Motor Patterns

Credits: 3 (NR)
Analyzes motor-skill development and prescription of activities from immature to mature stages.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 202 - Teaching Skillful Movement

Credits: 3 (NR)
Covers planning and presenting lessons on numerous motor skills using varied teaching strategies in a peer teaching setting.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 230 - Asian Martial Arts: Origin and Development
Credits: 3 (NR)
Introduction to martial arts of East, South, and Southeast Asia. Lectures address martial arts from a historical, philosophical, biographical, warfare, and sport perspective.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHED 250 - Water Safety Instruction**

Credits: 2 (NR)
Introduces planning, organizing, and executing American Red Cross swimming and water safety courses. Focus is on educational methods, approaches, and skill development applicable to swimming and water safety instruction.

Prerequisite(s): PHED 150 and instructor evaluation

Notes: Fee required.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

**PHED 255 - Basic Scuba Diving**

Credits: 2 (NR)
Provides training toward certification as an open water SCUBA diver. The course emphasizes the learning of snorkeling (free diving introduction) and SCUBA skills. Safe diving skills, the physics of diving, equipment care and maintenance, diving fitness, underwater navigation, record keeping, and other basic SCUBA knowledge will be covered in the course. On successful completion of the course, students will be qualified for open water certification by Scuba Schools International (SSI).

Notes: Fee required.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

**PHED 273 - Net and Target Games**

Credits: 2 (NR)
Skill and content knowledge in net and target games. Includes skill progression, strategies, officiating, and authentic assessment in games such as volleyball, golf, tennis, and badminton.

Notes: Open only to PHED majors.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 2

**PHED 274 - Dance and Educational Gymnastics**
Skills and content knowledge in dance, rhythms, and educational gymnastics.

Notes: Open to BPRE and BSED PHED majors only.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 2

PHED 275 - Field and Invasion Games

Credits: 2 (NR)
Skill and content knowledge in field and invasion games. Includes skill progression, strategies, officiating, and authentic assessment in activities such as softball, basketball, soccer, field events, and Ultimate Disc.

Notes: Open to BPRE and BSED PHED majors only.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 2

PHED 306 - Psychomotor Learning

Credits: 3 (NR)
Analyzes psychological aspects, learning theory, and practice conditions for learning motor skills.

Notes: Open only to PHED and HFRR majors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 308 - Adapted Physical Education

Credits: 3 (NR)
Introduces disabilities in public schools. Covers national standards, federal legislation, IEPs, and developmental inclusion models.

Prerequisite(s): BSED status or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 340 - Social and Cultural Issues in Physical Education

Credits: 3 (NR)
Studies contemporary and historical perspectives on socio-cultural and philosophical issues influencing American public
schooling and physical education teacher preparation, including race, culture, ethnicity, nationality, globalization, socioeconomic status, gender, sexuality, ability, obesity, and urbanization.

Fulfills writing intensive requirement in the major.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### PHED 364 - Strength Training: Concepts and Applications

Credits: 3 (NR)  
Provides students with an opportunity to develop an in-depth understanding of the principles of strength training and conditioning, including anatomical and physiological considerations, lifting techniques, equipment selection, program development and evaluation, and weightlifting safety.

Equivalent to KINE 360

**Prerequisite(s):** BIOL 124 and BIOL 125

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PHED 365 - Measurement and Evaluation of Physical Fitness

Credits: 3 (NR)  
Covers selection, administration, evaluation, and construction of measurements and evaluation instruments and techniques in physical education. Also covers statistical analysis of data and survey of selected instruments.

Fulfills writing intensive requirement in the major.

Equivalent to KINE 370

**Prerequisite(s):** BIOL 124 and 125

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PHED 403 - Elementary School Instruction in Physical Education

Credits: 3 (NR)  
Covers content, knowledge, and teaching methods for K-6 physical education. Requires field experience.

**Prerequisite(s):** PHED 201, 202, 273, 274, 275. Must be taken within one year of student teaching. Open to students with BSED status only.

**Corequisite(s):** PHED 306.
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHED 404 - Middle and High School Instruction in Physical Education**

Credits: 3 (NR)
Examines school curriculum, assessment, content, and teaching practices for middle and high school physical education programs. Requires field experience.

Prerequisite(s): PHED 201, PHED 202, PHED 273, PHED 274, PHED 275, PHED 306, PHED 403, KINE 200 and 75 credit hours. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHED 410 - Social/Psychological Aspects of Health and Fitness**

Credits: 3 (RD)
Covers research, trends, and techniques of health and fitness from a behavioral perspective.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHED 415 - Student Teaching in Physical Education**

Credits: 9-12 (NR)
Provides supervised clinical experience for a full semester in approved schools. Requires experiences in elementary and secondary school settings. Includes participation in pre-service workshop and related activities, and weekly seminars.

Fulfills Mason Core requirement in synthesis. (only for Physical Education BS majors).

Prerequisite(s): Completion of all courses in approved program, and acceptance into student teaching

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 12
When Offered: Fall, Spring

**PHED 442 - Practicum in Physical Education**

Credits: 1-3 (NR)
Provides supervised professional practice in a selected area of interest.
Prerequisite(s): 84 hours or 54 hours and Permission of Instructor.

Notes: May be repeated for up to 3 credits. Each credit requires a minimum of 60 hours of participation in the specialty over a period of six weeks. Areas selected with faculty advisor approval.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 1-3

PHED 480 - Special Topics

Credits: 1-3 (NR)
See course description in the Schedule of Classes. Selected topics reflect interest in specialized areas of exercise science or health promotion.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 499 - Independent Study in Physical Education and Fitness

Credits: 1-3 (NR)
Study of a problem area in physical education research, theory, or practice under direction of faculty member.

Prerequisite(s): Completion of 90 hours and Permission of Chair.

Notes: May be repeated, but no more than 3 total credits may be earned.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

PHED 670 - Analysis of Teaching in Physical Education

Credits: 3 (NR)
Presents variety of research techniques for studying teacher and learner behaviors in physical education, engaging the teacher as researcher and grant writer. Goal is to prepare teachers to be leaders in their field.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 672 - Curriculum and Assessment in Physical Education

Credits: 3 (NR)
Provides knowledge of curriculum models and assessment strategies in standards-based physical education program. Studies curriculum models such as sport education and adventure education. Examines traditional and alternative assessment.
PHED 673 - Motor Development for Special Populations

Credits: 3 (NR)
Provides knowledge that focuses on individuals with orthopedic, sensory, and learning disabilities in physical education setting. Areas of focus include development of motor patterns and skills assessment, and planning and instruction for students with disabilities.

PHED 680 - Mentoring and Supervising in Physical Education

Credits: 3 (NR)
Prepares mentors and supervisors of preservice and in-service teachers in physical education. Topics include professional dispositions, assessment and evaluation, adult learners, counseling and communication, providing feedback, and reflection and inquiry into the profession.

Prerequisite(s): PHED 670

Physical Sciences (PSCI)

Offered by the College of Science

PSCI 701 - Frontiers of Physical Sciences

Credits: 3 (NR)
Each semester, the course will cover between four and six topics considered to be at the frontiers of the physical sciences - the key questions that are of interest to researchers today. The topics will be chosen from interdisciplinary areas, such as nanoscience, astroparticle physics, nonlinear dynamics, and neuroscience. Approximately two to three weeks will be spent on each topic, and the specific topics may vary each semester. The course includes guest lectures given by faculty who are doing research in each area. Assignments include readings from the current literature as well as projects and class presentations.

Prerequisite(s): Admission to physical sciences doctoral program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
**PSCI 702 - Research Methods**

Credits: 3 (NR)
This course trains students in research methodologies, techniques, and data analysis methods in the physical sciences. Covers approaches for outlining and synthesizing a problem, techniques for measurement and analysis, and methods used for data analysis and interpretation.

**Prerequisite(s):** Admission to physical sciences doctoral program.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSCI 703 - Frontiers of Physical Sciences**

Credits: 1 (RD)  
Combines invited seminars from faculty (internal and external) with graduate student seminars. Presentation at a seminar is a requirement for advancement to candidacy in the physical sciences doctoral program.

**Prerequisite(s):** Admission to physical sciences doctoral program.

**Notes:** May be repeated three times.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

---

**PSCI 998 - Dissertation Proposal**

Credits: 1-6 (RD)  
Covers development of a research proposal under the guidance of a dissertation director and the doctoral committee. The proposal forms the basis for the doctoral dissertation.

**Prerequisite(s):** Admission to the PhD in Physical Sciences.

**Notes:** May be repeated as needed; however, no more than a total of 24 credits in PSCI 998 and 999 may be applied toward satisfying doctoral degree requirements. Out of 24, no more than 12 credits of PSCI 998 may be applied.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No credit only

---

**PSCI 999 - Doctoral Dissertation**

Credits: 1-12 (RD)  
Doctoral research performed under direction of dissertation director.

**Prerequisite(s):** Admission to the PhD in Physical Sciences.
Notes: May be repeated as needed, but no more than a total of 24 credits in PSCI 998 and 999 may be applied toward satisfying doctoral degree requirements.

**Physics (PHYS)**

Offered by the College of Science

**PHYS 101 - Light and Sound in Our World**

Credits: 3 (NR)
Nature of light, color, sound, electromagnetic spectrum, optical instruments, mechanisms of vision and hearing, color addition and subtraction, synthesis of musical sounds, interference of waves, polarization, Doppler effect, lasers, holography.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 102 - Sports Physics**

Credits: 3 (NR)
Introduction to laws of physics in context of sports. Physics topics to be studied include two-dimensional motion, forces, conservation of energy, and momentum in the application to sports. Sports include football, basketball, baseball, swimming, and tennis.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 103 - Physics and Everyday Phenomena I**

Credits: 4 (NR)
The course uses basic physics concepts from the areas of mechanics and thermodynamics to explain a wide range of everyday phenomena, such as how we walk and drive, how a ship floats, how clothing keeps us warm, and why it rains when we have a low pressure system.

Fulfills Mason Core requirement in natural science (lab).

Notes: For nonscience majors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
PHYS 104 - Physics and Everyday Phenomena II

Credits: 4 (NR)
The course uses basic physics concepts from the areas of light, sound, electricity, magnetism, and modern physics to explain a wide range of everyday phenomena. Topics include how we speak, hear, and see, what to do if the circuit breaker keeps tripping, how your computer stores and displays data, how rainbows and northern lights form, and the basic nature of matter.

Fulfills Mason Core requirement in natural science (lab).

Prerequisite(s): PHYS 103 or permission of instructor. Prerequisite enforced by registration system.

Notes: For nonscience majors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

PHYS 106 - The Quantum World: A Continuous Revolution in What We Know and How We Live

Credits: 3 (NR)
This course presents quantum physics that revolutionized the 20th Century and continues to evolve. In addition to presenting basic concepts, the course will discuss various applications involving quantum phenomena including quantum computers and quantum teleportation. The course will be a historical journey through the quantum science that many of its founders, such as Einstein, could not accept, and a peek into a possible future.

Fulfills Mason Core requirement in natural science (nonlab).

Notes: For non-science majors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PHYS 111 - Introduction to the Fundamentals of Atmospheric Science

Credits: 3 (NR)
An overview of the Earth's atmosphere, its history, and the physical and chemical processes that determine its characteristics. The focus is on key concepts from thermodynamics, radiation, chemistry, and dynamics that are essential for understanding the state, variability, and long term evolution of the atmosphere, especially in the context of comparisons with other planetary atmospheres.

Fulfills Mason Core requirement in natural science (lab).

Equivalent to CLIM 111

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
**PHYS 112 - Introduction to the Fundamentals of Atmospheric Science Lab**

Credits: 1 (NR)

Laboratory course associated with PHYS 111. Study of the Earth's atmosphere based on concepts taken from thermodynamics, radiation transport, chemistry, and dynamics.

Designated a Green Leaf Course.

Fulfills Mason Core requirement in natural science (lab).

Equivalent to CLIM 112

Corequisite(s): PHYS 111

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 1

---

**PHYS 121 - Uses of Physics**

Credits: 1 (NR)

Describes the uses of physics to a number of disciplines and professions, including medicine, information technology, energy, and environmental technology.

**Notes:** Introductory course intended for both majors and nonmajors.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

---

**PHYS 122 - Inside Relativity**

Credits: 1 (NR)

Introductory course describing Einstein's theories of special and general relativity.

**Notes:** Intended for majors and nonmajors.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

---

**PHYS 123 - Inside the Quantum World**

Credits: 1 (NR)

Introductory course describing quantum theory.
Notes: Intended for majors and nonmajors.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**PHYS 124 - Experimental Explorations in Physics**

Credits: 2 (NR)  
Introductory nonmathematical course intended primarily for physics majors. Experimental studies of phenomena in mechanics, electricity and magnetism, and optics. Stresses development of familiarity with methods and techniques of measurement and with data evaluation.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0

**PHYS 160 - University Physics I**

Credits: 3 (NR)  
First semester of three-semester, calculus-based introductory physics sequence, designed primarily for science and engineering majors. Mechanics.

Fulfills Mason Core requirement in natural science (lab).

**Corequisite(s):** MATH 114.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHYS 161 - University Physics I Laboratory**

Credits: 1 (NR)  
Experiments in mechanics, including techniques for recording, graphically and statistically analyzing, and reporting data.

Fulfills Mason Core requirement in natural science (lab).

**Corequisite(s):** PHYS 160 and MATH 114

**Hours of Lecture or Seminar per week:** 1-12  
**Hours of Lab or Studio per week:** 3

**PHYS 225 - Problems in Physics I**

Credits: 1-3 (RD)  
Individual study of physics problems of current interest.
Prerequisite(s): 24 credits and 2.50 GPA in physics and mathematics.

Notes: May be taken three times for credit.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 0

**PHYS 243 - College Physics**

Credits: 3 (NR)
PHY 243 is prerequisite to PHY 245. Two-semester basic physics course with emphasis on topics of classical and modern physics of particular importance to science majors. Principles of mechanics, heat, electricity, magnetism, optics, and atomic and nuclear physics are discussed.

Fulfills Mason Core requirement in natural science (lab).

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 244 - College Physics Lab**

Credits: 1 (NR)
Laboratory portion of two-semester basic physics course.

Fulfills Mason Core requirement in natural science (lab).

Corequisite(s): PHYS 243 for 244, and 245 for 246.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 3

**PHYS 245 - College Physics**

Credits: 3 (NR)
Two-semester basic physics course with emphasis on topics of classical and modern physics of particular importance to science majors. Principles of mechanics, heat, electricity, magnetism, optics, and atomic and nuclear physics are discussed.

Fulfills Mason Core requirement in natural science (lab).

Prerequisite(s): PHYS 243 Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PHYS 246 - College Physics Lab

Credits: 1 (NR)
Laboratory portion of two-semester basic physics course.

Fulfills Mason Core requirement in natural science (lab).

Corequisite(s): PHYS 243 for 244, and 245 for 246.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 3

PHYS 251 - Introduction to Computer Techniques in Physics

Credits: 3 (NR)
Introduction to using computers in physics based on examples from mechanics and astronomy.

Fulfills Mason Core requirement in information technology (all except ethics).

Prerequisite(s): PHYS 160. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 260 - University Physics II

Credits: 3 (NR)
Waves, electricity, and magnetism.

Fulfills Mason Core requirement in natural science (lab).

Prerequisite(s): PHYS 160 with grade of C or better (2.00) Prerequisite enforced by registration system.

Corequisite(s): MATH 213

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 261 - University Physics II Laboratory

Credits: 1 (NR)
Experiments in mechanics, electricity, and magnetism, including techniques for recording, graphically and statistically analyzing, and reporting data.

Fulfills Mason Core requirement in natural science (lab).
**Prerequisite(s):** PHYS 161 Prerequisite enforced by registration system.

**Corequisite(s):** MATH 213 and PHYS 260

**Hours of Lecture or Seminar per week:** 1-12  
**Hours of Lab or Studio per week:** 3

---

**PHYS 262 - University Physics III**

Credits: 3 (NR)  
Thermodynamics, optics, and modern physics.

Fulfills Mason Core requirement in natural science (lab).

**Prerequisite(s):** PHYS 260 with grade of C or better (2.00) Prerequisite enforced by registration system.

**Corequisite(s):** MATH 214

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PHYS 263 - University Physics III Laboratory**

Credits: 1 (NR)  
Experiments in optics and modern physics, including techniques for recording, graphically and statistically analyzing, and reporting data.

Fulfills Mason Core requirement in natural science (lab).

**Prerequisite(s):** PHYS 261 Prerequisite enforced by registration system.

**Corequisite(s):** PHYS 262

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 3

---

**PHYS 265 - Advanced University Physics II Laboratory**

Credits: 2 (NR)  
Credit may be received for PHYS 261 or 265. Experiments in mechanics, electricity, and magnetism with emphasis on data analysis using spreadsheets and Matlab.

**Corequisite(s):** MATH 213 and PHYS 260.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 3
PHYS 266 - Introduction to Thermodynamics

Credits: 1 (NR)
Students may not receive credit for both PHYS 262 and 266. Laws of thermodynamics, kinetic theory of gases, heat engines, and entropy.

Prerequisite(s): PHYS 260. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHYS 301 - Analytical Methods of Physics

Credits: 3 (NR)
Analytical methods in the Physical Sciences. Provides a comprehensive introduction to the areas of mathematical physics.

Prerequisite(s): MATH 214.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PHYS 303 - Classical Mechanics

Credits: 3 (NR)
Motion of a particle in one, two, and three dimensions; systems of particles; noninertial coordinate systems; and equations of Lagrange and Hamilton.

Prerequisite(s): PHYS 262 and MATH 214 or permission of instructor. Prerequisite enforced by registration system.

Corequisite(s): PHYS 301 or MATH 313 or MATH 413.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PHYS 305 - Electromagnetic Theory

Credits: 3 (NR)
Interaction of static charges, interaction of stationary currents, electromagnetic induction, and Maxwell's equations.

Prerequisite(s): PHYS 262 and MATH 214 or permission of instructor.

Corequisite(s): PHYS 301 or MATH 313 or MATH 413.
**PHYS 306 - Wave Motion and Electromagnetic Radiation**

Credits: 3 (NR)
Vibrating string, plane waves, interference, diffraction, polarization, electromagnetic waves, dispersion, and relativity.

**Prerequisite(s):** PHYS 262 Prerequisite enforced by registration system.

**Corequisite(s):** MATH 214.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHYS 307 - Thermal Physics**

Credits: 3 (NR)
Classical concepts of energy and temperature, basic definitions, first and second laws of thermodynamics, properties of pure substances, and equations of state. Introduction to classical and quantum statistics and their application to physical systems.

**Prerequisite(s):** PHYS 262. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHYS 308 - Modern Physics with Applications**

Credits: 3 (NR)
Study of modern physics with emphasis on applications. Topics include introductory quantum physics; modern optics; lasers; binding and energy bands in solids; electrical, thermal, and magnetic properties of solids; semiconductors; radioactivity; nuclear reactions; radiation detectors; and applications of nuclear physics to other sciences.

**Prerequisite(s):** PHYS 262 Prerequisite enforced by registration system.

**Corequisite(s):** MATH 214

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHYS 310 - Physics of Semiconductor Materials and Processing**
Survey of the electronic and structural properties of semiconductors and the physics of semiconductor processing. Topics to be discussed include crystal growth, crystal defects, thin films, thermal properties, lithography, and characterization.

**Prerequisite(s):** PHYS 160, 260, and 262; or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PHYS 326 - Problems in Physics II

Credits: 1-3 (RD)  
Individual study of physics problems of current interest.

**Notes:** May be taken three times for credit.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0

### PHYS 328 - Introduction to Astrophysics

Credits: 3 (NR)  
Topics include physical concepts; magnitudes of stars; Hertzsprung-Russell diagram; stellar radiation; stellar structure and stellar evolution; white dwarfs, red giants, supernovas, neutron stars, black holes; interstellar matter, dust, and molecules; cosmic rays and magnetic fields; galactic structure, galaxies, quasars, and intergalactic matter; high energy astrophysics, cosmology, and general relativity; and models of the universe.

Equivalent to ASTR 328

**Prerequisite(s):** PHYS 262 and MATH 214. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PHYS 331 - Fundamentals of Renewable Energy

Credits: 3 (NR)

Introduces the physical principles for a range of renewable energies, including solar, wind, hydropower and geothermal. Demonstrates how the application of methods and principles of physics allow us to understand the basic operation, advantages, limitations and relative merits of various renewable energy sources. Designed for students majoring in the sciences or engineering but useful for students interested in science policy, business, global change and sustainable development. Designated a Green Leaf Course.

**Prerequisite(s):** PHYS 262 or 266 or permission of instructor. Prerequisite enforced by registration system.
**PHYS 332 - Solar Cells**

Credits: 3 (NR)
Covers the physics of solar cells, basics of semiconductors, \(pn\) junctions, basic structure of solar cells, the latest advances in solar cell materials, and concepts for improving the efficiency of solar cells. Solar cell design based on silicon, copper indium gallium selenide, gallium arsenide, organic solar cells, dye-sensitized solar cells, quantum dots, and nanowires will also be reviewed.

**Prerequisite(s):** PHYS 262 and PHYS 263 or PHYS 245 and PHYS 246.

**When Offered:** Fall, Spring

**PHYS 346 - Quarks to Strings**

Credits: 3 (NR)
An non-technical introduction to the Standard Model of Elementary Particles and String Theory, in the context of the philosophy of science. Conceptual mastery will be demonstrated through writing assignments rather than calculations.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** PHYS 262 Prerequisite enforced by registration system.

**Notes:** This course does not satisfy the PHYS elective requirement.

**PHYS 370 - Molecular Biophysics**

Credits: 3 (NR)
Offers a broad introduction into molecular biophysics. Demonstrates that the application of methods of physics provides a unique opportunity to tackle complex biological programs. Mainly designed for students majoring in physics or chemistry but also useful for biology majors interested in bioinformatics and computational biology.

Equivalent to BINF 470

**Prerequisite(s):** PHYS 307, or CHEM 331 and CHEM 332, or permission of instructor
**PHYS 385 - Materials Science with Applications to Renewable Energy**

Credits: 3 (NR)

Introduction to basic concepts and methods of materials science. Review of metallic alloys and compounds, ceramic materials, ionic solids, semiconductors, polymers, and nano-structured materials. Mechanical, thermal, electric, magnetic and optical properties of materials. Theoretical background and experimental methods of materials characterization. Various materials applications with emphasis on renewable energy.

Designated a Green Leaf Course.

Equivalent to CDS 385 (2012-2013 Catalog).

**Prerequisite(s):** PHYS 262 or 266 or 245 and a C or better in MATH 113 Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PHYS 390 - Topics in Physics**

Credits: 1-4 (RT)

Selected topics in physics not covered in fixed-content courses.

**Hours of Lecture or Seminar per week:** 1-4  
**Hours of Lab or Studio per week:** 0

---

**PHYS 402 - Introduction to Quantum Mechanics and Atomic Physics**

Credits: 3 (NR)

Experimental basis of quantum mechanics; the wave function; systems in one, two, and three dimensions.

Equivalent to PHYS 502

**Prerequisite(s):** PHYS 308, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PHYS 405 - Honors Thesis in Physics**

Credits: 3 (NR)

Project chosen and completed under the guidance of a faculty member, which results in a thesis.

**Prerequisite(s):** 21 credits of physics courses including PHYS 262, 305, and 308; and admission to Physics Department Honors
Notes: PHYS 405 is a prerequisite for PHYS 406. An oral progress report is required for PHYS 405. Oral and written presentations are required for PHYS 406. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 406 - Honors Thesis in Physics

Credits: 3 (NR)
Project chosen and completed under the guidance of a faculty member, which results in a thesis.

Prerequisite(s): PHYS 405.

Notes: PHYS 405 is a prerequisite for PHYS 406. An oral progress report is required for PHYS 405. Oral and written presentations are required for PHYS 406. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 407 - Senior Laboratory in Modern Physics

Credits: 3 (NR)
Advanced experiments in modern physics: electronics, optics, condensed matter, and nuclear physics. Techniques for recording, graphically and statistically analyzing, and reporting data. Typical experiments include the Frank-Hertz experiment, Hall Effect, electron spin resonance, nuclear magnetic resonance and optical pumping.

Fulfills writing intensive requirement in the major.

Prerequisite(s): PHYS 263, 305, 308.

Corequisite(s): PHYS 402.

Notes: This course meets the writing-intensive requirement.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 9

PHYS 408 - Senior Research

Credits: 2-3 (RD)
Work under guidance of faculty member on research project in experimental or theoretical physics.

Prerequisite(s): 21 credits of physics courses.

Notes: May be taken twice with permission of the Physics Department. Students may receive no more than 6 credits of PHYS
PHYS 409 - Physics Internship

Credits: 3 (RD)
On-the-job experience for physics majors in industry or government laboratories including summer programs.

Prerequisite(s): PHYS 262 or 266, and at least 12 credits at the 300-level or above of physics, astronomy, chemistry, engineering, or mathematics courses, and permission of the school.

Notes: May be taken twice with permission of the School of Physics, Astronomy, & Computational Sciences. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409.

PHYS 410 - Computational Physics I

Credits: 3 (NR)
Study and development leading to computer simulations of various physical systems. Requires the study and development of computational techniques and numerical algorithms to obtain both numerical results and visualization of these results. Application to individual physical processes taking place in a variety of physical streams.

Equivalent to PHYS 510

Prerequisite(s): PHYS 303 and 305 Prerequisite enforced by registration system.

PHYS 412 - Solid State Physics and Applications

Credits: 3 (NR)
Crystal structures, binding, lattice vibrations, the free electron model, metals, semiconductors and semiconductor devices, superconductivity, and magnetism.

Equivalent to PHYS 512/CSI 687

Prerequisite(s): PHYS 402 or 502. Prerequisite enforced by registration system.
**PHYS 416 - Special Topics in Modern Physics**

Credits: 1 (NR)
Topics of current interest in modern physics with emphasis on the breadth of physical understanding needed to approach many of today's problems. The course will also review all of undergraduate physics through assigned problems from the GRE test.

Prerequisite(s): 21 credits of physics courses.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0

**PHYS 417 - Geophysics**

Credits: 3 (NR)
Seismological and gravitational theory and application to an understanding of the Earth's interior. Geology requirement may be waived for physics and engineering students with sufficient background.

Equivalent to GEOL 417

Prerequisite(s): GEOL 101, 102, 201, 301; MATH 113, 114; and PHYS 160.

Corequisite(s): MATH 213 and PHYS 260, 261.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PHYS 428 - Relativity**

Credits: 3 (NR)
Special relativity; four-dimensional space-time; general relativity; non-Euclidean geometries, geodesics, and field equations; tests of general theory of relativity; black holes; cosmology; models of the universe; remnant blackbody radiation; big bang cosmology; thermodynamics; and the universe.

Equivalent to ASTR 428 (2012-2013 Catalog)

Prerequisite(s): PHYS 303, 305. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PHYS 440 - Nuclear and Particle Physics**

Credits: 3 (NR)
Accelerators, detectors and related electronics; nuclear and elementary particle structure; symmetries and conservation laws; the electromagnetic, weak, and hadronic interactions; nuclear models; the quark model; and nuclear science and technology.

Equivalent to PHYS 540

Prerequisite(s): PHYS 402 or 502. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 475 - Atmospheric Physics

Credits: 3 (NR)
Introduction to basic physical and chemical processes that operate in the Earth's atmosphere. Emphasis on those concepts that provide a global description of the current atmospheric state and those processes that relate to global change and atmospheric evolution. Topics include equilibrium structure, radiative transfer models, thermodynamics of various atmospheric layers, and the various processes defining these layers.

Equivalent to PHYS 575/CSI 655

Prerequisite(s): PHYS 260 and 262.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 502 - Introduction to Quantum Mechanics and Atomic Physics

Credits: 3 (NR)
Experimental basis of quantum mechanics, the wave function, and systems in one, two, and three dimensions.

Equivalent to PHYS 402

Prerequisite(s): PHYS 308, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 510 - Computational Physics I

Credits: 3 (NR)
Study and development leading to computer simulations of various physical systems. Requires the study and development of computational techniques and numerical algorithms to obtain both numerical results and visualization of these results. Application to individual physical processes taking place in a variety of physical systems.

Equivalent to PHYS 410
Prerequisite(s): PHYS 303 and 305. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 512 - Solid State Physics and Applications

Credits: 3 (NR)
Crystal structures, binding, lattice vibrations, the free electron model, metals, semiconductors and semiconductor devices, superconductivity, and magnetism.

Equivalent to PHYS 412/CSI 687

Prerequisite(s): PHYS 402 or 502. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 513 - Applied Electromagnetic Theory

Credits: 3 (NR)
Classical electromagnetic theory with applications. Topics include electrostatics, magnetic fields and materials, electromagnetic wave propagation, waveguides, transmission lines, radiation, and antennas.

Prerequisite(s): PHYS 305, 306, and MATH 313, 314 or equivalent. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 533 - Modern Instrumentation

Credits: 3 (NR)
Topics include sensors for radiation, particles, electric and magnetic fields, pressure, and motion; electronic instruments, computer data collection, instrumentation noise and noise reduction methods; and specialized instrumentation systems for various areas of applied physics.

Equivalent to CHEM 620

Prerequisite(s): PHYS 513 and an electronics course. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 540 - Nuclear and Particle Physics
Credits: 3 (NR)
Accelerators, detectors and related electronics; nuclear and elementary particle structure; symmetries and conservation laws; the electromagnetic, weak, and hadronic interactions; nuclear models; the quark model; and nuclear science and technology.

Equivalent to PHYS 440

Prerequisite(s): PHYS 402 or 502. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 575 - Atmospheric Physics I**

Credits: 3 (NR)
Introduction to basic physical and chemical processes that operate in the Earth's atmosphere. Emphasis on those concepts that provide a global description of the current atmospheric state and those processes that relate to global change and atmospheric evolution. Topics include equilibrium structure, radiative transfer models, thermodynamics of various atmospheric layers, and the various processes defining these layers.

Equivalent to PHYS 475/CSI 655

Prerequisite(s): PHYS 305, 262, and 260 or equivalent. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 580 - Selected Interdisciplinary Topics**

Credits: 3 (NR)
Selected interdisciplinary topics with a strong physics content not covered in fixed-content courses.

Notes: PHYS 580 cannot be used to satisfy degree requirements for PHYS (PhD), PHAE (MA) in the standard, applied physics, and engineering physics emphases.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 581 - Topics in Renewable Energy**

Credits: 3 (NR)
The course covers the physical principles for a range of renewable energies, including solar, wind, hydropower and geothermal using mathematical and other types of analysis. The course demonstrates how the application of methods and principles of physics allow us to understand the basic operation, advantages, limitations and relative merits of various renewable energy sources.

Prerequisite(s): PHYS 262, PHYS 266, or permission of the instructor. Prerequisite enforced by registration system.
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**PHYS 590 - Selected Topics in Physics**

Credits: 1-6 (RT)
Selected topics from recent theoretical or experimental developments and applications. Satisfies needs of professional community to keep abreast of current developments.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 0-6
Hours of Lab or Studio per week: 0

**PHYS 600 - Special Topics in Physics**

Credits: 1-6 (RT)
In-service course to strengthen and update teachers' knowledge of physics and astronomy.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

**PHYS 611 - Electro-optics**

Credits: 3 (NR)
Optical modulators, display devices, types and operation of lasers, mode locking, Q-switching, photodetectors, optical fibers.

Prerequisite(s): PHYS 502 or 684, and 513 or 685. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 612 - Physics of Modern Imaging**

Credits: 3 (NR)
Study of imaging methods using acoustic and electromagnetic waves to probe extended objects, and mathematical transformations to produce images from scattered waves. Topics include classical imaging, physical optics, Fourier transform, holography, tomography, seismic mapping, underwater acoustic imaging and mapping, side-looking radar, antenna arrays, applicable computer methods.

Prerequisite(s): PHYS 513 or 685. Prerequisite enforced by registration system.
PHYS 613 - Computational Physics II

Credits: 3 (NR)
Study of diverse physical systems with emphasis on modeling and simulation. Study and development of numerical algorithms and techniques to obtain both numerical results and visualization of these results. Projects undertaken will draw from such areas as many-body orbital dynamics, molecular interactions, quantum systems, radiative transfer in high-temperature plasmas, stellar interiors, hydrodynamics, and cosmology.

Equivalent to CSI 780

Prerequisite(s): PHYS 303, 305, and 510; PHYS 502 or equivalent recommended. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 614 - Thermodynamics and Kinetics of Materials

Credits: 3 (NR)
Advanced thermodynamics and physical kinetics with applications to materials science. The course covers an axiomatic formulation of thermodynamics, theory of phase transformations, kinetic theory of reactions and diffusion processes in solids, and interface phenomena. Possible applications considered in the course include processing and fabrication of semiconductor materials, metal oxidation and corrosion, diffusion-controlled phase growth in solid solutions, shape memory alloys, and small-size effects in physical properties of materials.

Prerequisite(s): MATH 113, 114, 213, 307; PHYS 262 or 266, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 615 - Fundamentals of Materials Science

Credits: 3 (NR)
Covers fundamentals of materials science with emphasis on physical topics including crystal structure and symmetry, dislocation theory, theory of interfaces, multicomponent phase diagrams, theory of phase transformations, nano-materials, metallic glasses. Includes a term project, assignments from current literature and application of computation in materials science.

Equivalent to CSI 685

Prerequisite(s): CDS 385/PHYS 385 or undergraduate degree in physics, chemistry, materials, electrical or mechanical engineering or related disciplines; or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PHYS 620 - Continuum Mechanics

Credits: 3 (NR)
Study of continuum mechanics; topics include physical concepts, mathematical formulation and solution, elastic materials, ideal fluids, viscous fluids, waves in continuous media, turbulence, thermal convection, stability considerations, high-temperature gas flows, radiative processes for momentum and energy transport, shocks, and computational fluid dynamics.

Prerequisite(s): PHYS 510 and 303 or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 630 - Introduction to Biophysics

Credits: 3 (NR)
Introduces biophysics, focusing on physical and chemical concepts and their relation to rapidly expanding interdisciplinary interfaces among biology, chemistry, and physics. Reveals multiscale nature of biophysics, and includes exploration of macroscopic and microscopic applications.

Equivalent to BINF 740

Prerequisite(s): Undergraduate degree in physics or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 660 - Space Weather

Credits: 3 (NR)
Overview of space weather including sun, heliosphere, magnetosphere, and ionosphere.

Equivalent to ASTR 660

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 676 - Atmospheric Physics

Credits: 3 (NR)
Covers the basic conservation laws of mass, momentum, and energy, and a scaling analysis of the equations of motion and thermodynamics. Balanced flows in the atmosphere are discussed. Concepts of circulation and vorticity; the role of the atmospheric boundary layer in mass, momentum, and energy transfer; synoptic scale motions; and the role of gravity and Rossby
waves in controlling the general circulation of the atmosphere are covered.

Prerequisite(s): PHYS 303, 305, and 308; and MATH 314. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 684 - Quantum Mechanics I

Credits: 3 (NR)
Fundamental concepts of quantum mechanics, including Dirac notation, quantum dynamics, theory of angular momentum, and symmetries.

Prerequisite(s): PHYS 402 or 502, MATH 313 or 314, or equivalent. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PHYS 685 - Classical Electrodynamics I

Credits: 3 (NR)
Deals with static and dynamic properties of electromagnetic fields as described by Maxwell's equations. Covers electrostatics, magnetostatics, boundary value problems, multipoles, time dependent fields, propagating wave solutions, and resonant structures.

Prerequisite(s): PHYS 305, 308; MATH 313 and 314, or equivalent. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 701 - Theoretical Physics

Credits: 3 (NR)
Study of the physical basis for selection of particular mathematical tools in physics; topics include curvilinear coordinates, tensors, matrices, differential equations, special functions, complex variables, and group theory.

Prerequisite(s): Undergraduate degree in physics or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 703 - Seminar in Physics
A general seminar course that combines invited seminars from faculty (both internal and external) with graduate student seminars.

**Prerequisite(s):** Permission of instructor.

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0

**PHYS 705 - Classical Mechanics**

Credits: 3 (NR)
Study of classical mechanics; topics include variational principles, constrained motion, Lagrangian and Hamiltonian mechanics, canonical transformations, and applications (central forces, rigid-body motion, oscillations).

**Prerequisite(s):** Undergraduate degree in physics or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**PHYS 711 - Statistical Mechanics**

Credits: 3 (NR)
Topics include thermodynamics, kinetic theory, ensemble theory, quantum statistics, and applications.

**Prerequisite(s):** Undergraduate degree in physics or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**PHYS 728 - Simulation of Large-Scale Physical Systems**

Credits: 3 (NR)
Study of diverse large-scale physical systems with emphasis on the modeling and simulation of these multifaceted systems. Study and development of numerical algorithms and techniques to obtain both numerical results and visualization of these results. Projects will be drawn from such areas as many-body dynamics, molecular dynamics and interactions, atmospheric structure and dynamics, high-temperature plasmas, stellar structure, hydrodynamics systems, galactic structure and interactions, and cosmology.

**Prerequisite(s):** PHYS 613 and CSI 717 or permission of instructor. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**PHYS 736 - Computational Quantum Mechanics**
Credits: 3 (NR)
Study of the fundamental concepts of quantum mechanics from a computational point of view, review of systems with spherically symmetric potentials, many-electron-atom solutions to Schrodinger's equation, electron spin in many-electron systems, atomic structure calculations, algebra of many-electron calculations, Hartree-Fock self-consistent field method, molecular structure calculations, scattering theory computations, and solid-state computations.

Prerequisite(s): PHYS 502, 510, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 760 - Space Plasma Physics

Credits: 3 (NR)
Covers plasma processes involved in today's space physics research, including different regimes of plasma; basic concepts in kinetic, fluid, and MHD plasmas; and existent waves in these media. Also covers basics of shocks, discontinuities, transport and acceleration of particles such as cosmic rays, reconnection, and MHD instabilities.

Equivalent to ASTR 760

Prerequisite(s): PHYS 513 or 685, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 780 - Advanced Selected Topics in Physics

Credits: 3 (RT)
Selected topics in physics not covered in fixed-content physics courses.

Equivalent to CSI 789

Prerequisite(s): Permission of instructor.

Notes: May be repeated for credit as needed.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 784 - Quantum Mechanics II

Credits: 3 (NR)
Advanced topics in quantum mechanics. Covers density and tensor operators, approximation methods, scattering theory, and identical particles.

Prerequisite(s): PHYS 684, or permission of instructor. Prerequisite enforced by registration system.
PHYS 785 - Classical Electrodynamics II

Credits: 3 (NR)
Advanced topics in electrodynamics. Covers radiation, scattering and diffraction, special relativity, relativistic particle dynamics, Lorentz transformation, 4-vectors, transformation of fields, charges and currents, Thomas precession, retarded potentials, and radiation from moving charges.

Prerequisite(s): PHYS 685, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 796 - Directed Reading and Research

Credits: 1-12 (RT)
Reading and research on a specific topic in physics or related field under the direction of a faculty member.

Prerequisite(s): Admission to master's program, and permission of instructor.

Notes: May be repeated as needed.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 0
Grading: Graduate Special

PHYS 798 - Research Project

Credits: 3 (RD)
Project chosen and completed under the guidance of a graduate faculty member, which results in an acceptable technical report.

Prerequisite(s): 9 graduate credits, and permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

PHYS 799 - Master's Thesis

Credits: 1-6 (RD)
Project chosen and completed under the guidance of a graduate faculty member, which results in an acceptable technical report.
and oral defense.

Prerequisite(s): 9 graduate credits, and permission of instructor.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

**PHYS 998 - Doctoral Dissertation Proposal**

Credits: 1-12 (RD)
Covers development of a research proposal under the guidance of a dissertation director and the doctoral committee. The proposal forms the basis for the doctoral dissertation.

Prerequisite(s): Admission to physics doctoral program and permission of advisor.

Notes: May be repeated as needed; however, no more than 24 credits in ASTR/PHYS 998 and ASTR/PHYS 999 may be applied toward satisfying doctoral degree requirements in the physics PhD program. Out of the 24, no more than 12 credits of ASTR/PHYS 998 may be applied.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

**PHYS 999 - Doctoral Dissertation**

Credits: 1-12 (RD)
Doctoral research performed under direction of dissertation director.

Prerequisite(s): Admission to doctoral candidacy in physics doctoral program and permission of advisor.

Notes: May be repeated as needed; however, no more than 24 credits in ASTR/PHYS 998 and ASTR/PHYS 999 may be applied toward satisfying doctoral degree requirements in the physics PhD program.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: S/IP

**Portuguese (PORT)**

**PORT 110 - Elementary Portuguese**
PORT 210 - Intermediate Portuguese

Credits: 3 (NR)
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Portuguese-speaking regions.

Prerequisite(s): PORT 110, appropriate placement score, or permission of department.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Professional Development in Education (EDPD)

EDPD 402 - Professional Development in Elementary Literacy, and Secondary Education

Credits: 1-6 (RT)
Provides opportunity for focused study on selected topics or emerging issues in elementary, literacy and secondary education. Course may not be applied to a degree program.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Undergraduate Special
When Offered: Fall, Summer, Spring

EDPD 406 - Professional Development in Social Education and Disability Research

Credits: 1-6 (RT)
Provides opportunity for focused study on selected topics or emerging issues in special education and disability research. Course may not be applied to a degree program.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Undergraduate Special
When Offered: Fall, Summer, Spring
EDPD 501 - Professional Development in Advanced Teacher Research and Practice

Credits: 1-6 (RT)
Provides opportunity for focused study on selected topics or emerging issues in advanced teacher research and practices.

**Notes:** Course may not be applied to a degree program.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special  
**When Offered:** Fall, Summer, Spring

EDPD 502 - Professional Development in Elementary, Literacy, and Secondary Education

Credits: 1-6 (RT)
Provides opportunity for focused study on selected topics or emerging issues in elementary, literacy and secondary education.

**Notes:** Course may not be applied to a degree program.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special  
**When Offered:** Fall, Summer, Spring

EDPD 503 - Professional Development in Individual and Organizational Transformation

Credits: 1-6 (RT)
Provides opportunity for focused study on selected topics or emerging issues in individual and organizational transformation.

**Notes:** Course may not be applied to a degree program.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special  
**When Offered:** Fall, Summer, Spring

EDPD 504 - Professional Development in Learning Technologies

Credits: 1-6 (RT)
Provides opportunity for focused study on selected topics or emerging issues in learning technologies.

**Notes:** Course may not be applied to a degree program.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0
EDPD 505 - Professional Development in Educational Psychology, Research Methods and Education Policy

Credits: 1-6 (RT)
Provides opportunity for focused study on selected topics or emerging issues in educational psychology, research methods and education policy.

Notes: Course may not be applied to a degree program.

EDPD 506 - Professional Development in Special Education and Disability Research

Credits: 1-6 (RT)
Provides opportunity for focused study on selected topics or emerging issues in special education and disability research.

Notes: Course may not be applied to a degree program.

EDPD 507 - Professional Development in Health and Human Performance

Credits: 1-6 (RT)
Provides opportunity for focused study on selected topics or emerging issues in health and human performance.

Notes: Course may not be applied to a degree program.

EDPD 508 - Professional Development in Sport, Recreation and Tourism
Credits: 1-6 (RT)
Provides opportunity for focused study on selected topics or emerging issues in sport, recreation and tourism.

Notes: Course may not be applied to a degree program.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Summer, Spring

Provost (PROV)

PROV 103 - Language Support for Public Speaking

Credits: 1 (NR)
Academic language support course for Public Speaking. Focus on increasing students' comprehension and use of key grammatical structures, vocabulary, words forms, and reading/annotating strategies.

Equivalent to UNIV 103 (2011-2012 Catalog)

Notes: Restricted to Access students (ACCS)

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0
When Offered: Fall

PROV 104 - Language Support for World History

Credits: 1 (NR)
Academic language support course for World History. Focus on increasing students' comprehension and use of key grammatical structures, vocabulary, words forms, and reading/annotating strategies.

Equivalent to UNIV 104 (2011-2012 Catalog)

Notes: Restricted to Access students (ACCS).

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0
When Offered: Fall

PROV 105 - American Cultures
This course provides an introduction to US cultures with a focus on diversity within American society. The course uses the concept of culture as a basis for discussing differences in Americans' experience of family life, work, education, the arts, national and ethnic identities, gender, religion and more. Through ethnographic readings, literature, film and field projects, students develop a better understanding of similarities and differences across the American experience.

Fulfills Mason Core requirement in global understanding (ACCESS students only).

Equivalent to UNIV 105 (2011-2012 Catalog)

Prerequisite(s): Admission to the ACCESS program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Undergraduate Special.
When Offered: Spring

PROV 106 - Introduction to Research Methods for International Students

Credits: 3 (NR)
Academic research is the fundamental element of university-level education. Despite the variations in research disciplines, they all share basic concepts of academic inquiry. This course is designed to teach the methods, norms and procedures of undergraduate research in the humanities and social sciences. It should equip international students with the essential skills needed to successfully produce a quality academic paper.

Equivalent to UNIV 106 (2011-2012 Catalog)

Prerequisite(s): Admission to the ACCESS program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Undergraduate Special.
When Offered: Spring

PROV 107 - The Grammar of Academic Writing

Credits: 3 (NR)
This course is designed to improve students' understanding of written language and to provide mechanisms that allow students to take advantage of this flexible but structured form of communication. Providing this knowledge and these tools will improve students' abilities to identify and correct grammatical mistakes, write cohesive and coherent paragraphs, and condense essential information-necessary skills for effective academic writing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring
PROV 110 - Special Topics

Credits: 1-3 (RT)
Exploration of leadership in a specific career field(s); changing nature of that industry; understanding of organizational structures in the field(s); and introduction to career and internship opportunities for students who aspire to a career in that field.

Equivalent to UNIV 110 (2011-2012 Catalog)

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Special Undergraduate.
When Offered: Summer

PROV 206 - Research Methods (CISA/Honors Peer Learning Partnership)

Credits: 0-1 (RD)
This course is an experiential credit course for Honors students partnering with ACCESS international students to develop academic research skills.

Equivalent to UNIV 206 (2011-2012 Catalog)

Prerequisite(s): Completion of HNRS 110 with a grade of B+ or better and official offer from Center for International Student Access.

Corequisite(s): Enrollment as an Honor student in good standing

Hours of Lecture or Seminar per week: 2-5
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Spring

PROV 207 - Peer Educational Mentor Leadership

Credits: 0-3 (RD)
This course is an experiential leadership course for students partnering with ACCESS international students as peer educational mentors.

Prerequisite(s): Sophomore status or higher.

Corequisite(s): Student in good standing.

Hours of Lecture or Seminar per week: 3-5
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Spring

PROV 342 - The George Mason Debates in Current Affairs
Credits: 3 (RD)
In-depth investigation of one or more contemporary public policy issues. Examines the selected topics as discussed by scholars, public interest groups and think tanks, government officials, and the news media. Texts and guest lecturers presenting a wide range of perspectives are an important feature.

Fulfills Mason Core requirement in synthesis.

Equivalent to UNIV 342 (2011-2012 Catalog)

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PROV 501 - Introduction to Graduate Study for International Students I**

Credits: 2 or 3 (NR)
Designed especially for the Graduate BRIDGE program, this course is the first of a two-part transitional course series designed for international students who are studying abroad, emphasizing development, readiness, and success for Graduate/Professional school enrollment. This first course covers western educational systems, university policies and procedures, writing skills and research resources, and graduate school study skills and methods.

Equivalent to UNIV 501 (2011-2012 Catalog)

**Notes:** This course is for graduate degree seeking students whose highest degree is from a non-US institution. This course may not count towards academic degree requirements at the graduate level. Enrolled students are required to take UNIV 502 the following consecutive semester.

**Hours of Lecture or Seminar per week:** 2 or 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special.  
**When Offered:** Fall, Summer, Spring

---

**PROV 502 - Introduction to Graduate Study for International Students II**

Credits: 2 or 3 (NR)
Designed especially for the Graduate BRIDGE program, this second of a two-part transitional course series is designed for international students who are studying abroad, emphasizing development, readiness, and success for Graduate school enrollment. This course covers postmodernism, cultural identity and assimilation/acculturation theory, advanced program development, university resources, research reading and methods, career planning as well as professional and personal presentation.

Equivalent to UNIV 502 (2011-2012 Catalog)

**Prerequisite(s):** Completion of UNIV 501 with a grade of B or better, in the immediate past semester.

**Notes:** This course is for graduate degree seeking students whose highest degree is from a non-US institution. This course may not count towards academic degree requirements at the graduate level.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0
**PROV 504 - Accelerated Introduction to Graduate Study for International Students**

Credits: 3 (NR)
Emphasizes enculturation to Western academic norms, preparation for graduate study in the United States and – especially – George Mason University, and skills necessary to complete graduate study successfully. Many of these expectations are not made explicit in academic culture, and the course focuses on making the policies, procedures, research skills, and systems clear.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**PROV 601 - Thriving in Your Graduate Program**

Credits: 1 (NR)
Gaining greater insight into student learning theories, the nature of research and scholarship, higher education trends, and the various career paths available to individuals with graduate degrees is important for students in the early stages of their academic programs. This seminar is designed for early career MFA and doctoral students to facilitate their success as graduate students at Mason.

**Hours of Lecture or Seminar per week:** 3 hours biweekly  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No credit only  
**When Offered:** Spring

**PROV 701 - Preparing for Academic Careers**

Credits: 1 (NR)
This seminar will be devoted to helping doctoral students explore and prepare for future academic careers and to strengthening their instructional effectiveness. The seminar will provide a clearer understanding of the roles and responsibilities of being a faculty member. Participants will learn how to construct a meaningful statement of teaching philosophy and plan for a course through syllabus design.

Equivalent to UNIV 701 (2011-2012 Catalog)

**Notes:** This course does not apply to required credits for doctoral degrees.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit  
**When Offered:** Fall

**Psychology (PSYC)**
Offered by the College of Humanities and Social Sciences

**PSYC 100 - Basic Concepts in Psychology**

Credits: 3 (NR)
Introduces psychology as scientific discipline. Examines concepts and methods in learning, motivation, development, personality, and measurement.

Fulfills Mason Core requirement in social and behavioral science.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PSYC 110 - Seminar in General Psychology**

Credits: 1 (NR)
Explores applications, implications, methods, and findings of psychology.

Corequisite(s): PSYC 100.

Notes: Students must be enrolled concurrently in PSYC 100. In-class work includes discussion that enriches the PSYC 100 lecture material, exploration of controversial issues in psychology, use of technology to broaden knowledge of psychology, and in-depth discussions of topics on which instructor has special expertise. Short papers are required.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**PSYC 211 - Developmental Psychology**

Credits: 3 (NR)
Review of major developmental theories including perspectives of childhood, adolescence, adulthood, and old age.

Fulfills Mason Core requirement in social and behavioral science.

Prerequisite(s): PSYC 100 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PSYC 231 - Social Psychology**

Credits: 3 (NR)
Study of human behavior development in a social matrix, including such topics as socialization, cultural behavior, group norms, and attitude formation.
Fulfills Mason Core requirement in social and behavioral science.

**Prerequisite(s):** PSYC 100 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 260 - Basic Research Methods in Psychology**

Credits: 1-3 (RT)  
Introduction to research methods in psychology in the context of assisting faculty with research; individualized sections by arrangement with faculty. Methods taught vary but generally include basic data collection and recordkeeping methods in research.

**Prerequisite(s):** 6 credits of psychology or permission of instructor and department.

**Notes:** Course culminates in a paper describing techniques learned. No more than 6 credits in PSYC 260, 350, and 460 can be used toward a psychology major.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 300 - Statistics in Psychology**

Credits: 4 (NR)  
Descriptive and inferential statistics in design, analysis, and interpretation of psychological research with practical application using computers in laboratory.

Fulfills Mason Core requirement in information technology (all except ethics). PSYC 300, 301 and 372 must be taken in sequence.

**Prerequisite(s):** 6 credits of psychology and 3 credits of mathematics course work; or permission of instructor.

**Notes:** Students are strongly encouraged to take PSYC 301 concurrently.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 2

---

**PSYC 301 - Research Methods in Psychology**

Credits: 3 (NR)  
General research design in psychology, with an emphasis on experimental design and control. Topics include use of human participants in research, reliability and validity, observational methods, and survey and longitudinal designs.

Fulfills Mason Core requirement in information technology (all except ethics). PSYC 300, 301 and 372 must be taken in sequence.
Fulfills writing intensive requirement in the major.

Prerequisite(s): 6 credits of psychology, including PSYC 300 as prerequisite or corequisite, or permission of instructor.

Notes: Students are strongly encouraged to take PSYC 300 concurrently. Laboratory work will include designing and running research studies and writing manuscripts using appropriate style and format. PSYC 301 is a writing-intensive course.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 2

PSYC 304 - Principles of Learning

Credits: 4 (NR)
Principles of animal learning, including such topics as classical and operant conditioning, discrimination learning, and animal cognition.

Fulfills writing intensive requirement in the major.

Prerequisite(s): PSYC 300, or permission of instructor.

Notes: Laboratory projects require working with computer simulations. PSYC 304 is a writing-intensive course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 309 - Sensation, Perception, and Information Processing

Credits: 4 (NR)
Principles of perception, including topics such as psychophysics, perceptual organization, perceptual learning, and perceptual constancies.

Fulfills writing intensive requirement in the major.

Prerequisite(s): PSYC 300 and PSYC 301.

Notes: Laboratory projects demonstrate and investigate perceptual phenomena. PSYC 309 is a writing-intensive course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 313 - Child Development

Credits: 3 (NR)
Study of human psychological development from conception to adolescence including such topics as genetic factors, emotional and intellectual growth, and environmental influences.
Prerequisite(s): 6 credits of psychology or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 314 - Adolescent Development

Credits: 3 (NR)
Study of the biological and cultural changes accompanying adolescence, including the effect of these changes on emotional, intellectual, and social development.

Prerequisite(s): 6 credits of psychology or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 317 - Cognitive Psychology

Credits: 3 (NR)
An in-depth overview of important topics in cognitive psychology, including memory, attention, pattern recognition, problem solving, reasoning, and psycholinguistics.

Prerequisite(s): 6 credits of psychology or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 320 - Psychological Tests and Measurements

Credits: 4 (NR)
Examination and application of principles underlying the theory, interpretation, and administration of psychological tests, including a study of tests of intelligence, achievement, and ability.

Prerequisite(s): PSYC 300, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 321 - Counseling Psychology

Credits: 3 (NR)
Review of the theories and methods in psychological counseling.

Prerequisite(s): PSYC 325 or permission of instructor.
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 322 - Behavior Modification

Credits: 3-5 (NR)
Examination of experimental principles of human and animal learning within theoretical framework of applied behavior analysis, including design, implementation, and evaluation of operant intervention programs across a wide variety of human situations.

Prerequisite(s): PSYC 324 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 323 - Clinical and Social Psychology Research Techniques

Credits: 4 (NR)
Review and application of research techniques including interviewing, survey analysis, and process analysis. PSYC 323 is a writing-intensive course.

Prerequisite(s): PSYC 300, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 324 - Personality Theory

Credits: 3 (NR)
Introduction to classical and contemporary theories of personality, and comparative evaluation of major theories in terms of relevant studies.

Prerequisite(s): PSYC 100 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 325 - Abnormal Psychology

Credits: 3 (NR)
Study of development of abnormal behavior patterns, including such topics as methods of diagnosis and prevention of serious mental disorders such as psychosomatic disorders, psychoses, character disorders, and mental retardation.

Prerequisite(s): PSYC 100, and one of PSYC 211, 231, or 324; or permission of instructor.
PSYC 326 - Therapeutic Communication Skills

Credits: 3 (NR)
Introduction to understanding and use of basic therapeutic communication skills used in clinical and counseling psychology.

Prerequisite(s): PSYC 325 or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 327 - Psychology in the Community

Credits: 3 (RD)
Individual placements in applied psychology settings.

Prerequisite(s): Psychology major with minimum 6 psychology credits, and permission of associate chair for undergraduate studies.

Notes: May be repeated for a maximum of 6 credits. A maximum of 6 credits of PSYC 327, 328, 421, and 422 can be applied to the psychology major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 328 - Psychology in the Community Laboratory

Credits: 1 (RD)
Consists of a one-hour service learning component linked to selected psychology courses.

Prerequisite(s): Psychology major with minimum 6 psychology credits and permission of course instructor and associate chair for undergraduate studies.

Corequisite(s): Enrollment in psychology course for which this is service learning component.

Notes: May be repeated for a maximum of 6 credits. A maximum of 6 credits of PSYC 327, 328, 421, and 422 can be applied to the psychology major.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

PSYC 330 - Psychology of Adjustment
Credits: 3 (NR)
Nature of effective and faulty patterns of adjustment. Factors in healthy and unhealthy personality development, unique motivation patterns of individuals, and influence of personally significant groups on adjustment. Resources for personal growth and application of contemporary psychological principles to achievement of increased intellectual, emotional, and social competence.

Prerequisite(s): PSYC 100 or permission of instructor.

Notes: PSYC 330 cannot be taken for credit by psychology majors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 333 - Industrial and Organizational Psychology

Credits: 3 (NR)
Examination of application of psychological principles and methods to problems commonly encountered in business and industry.

Prerequisite(s): PSYC 100 and 300; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 335 - Psychology of Creativity and Innovation

Credits: 3 (NR)
Creativity and innovation take place in many domains such business, science and the arts. Learn the distinction between creativity and innovation. Apply findings from the scientific literature about the antecedents of creativity and innovation including emotions, cognition, individual differences, and social contexts. Experiment with ways to enhance your creativity and skills for innovation.

Prerequisite(s): PSYC 100 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PSYC 340 - Human Factors Psychology

Credits: 3 (NR)
Reviews history and current practice of optimal product and system design as a function of psychology. Includes a brief history of human factors psychology, a review of human memory and attentional systems as they relate to product and system design, and an introduction to current methods used to analyze and redesign products and systems for optimal human interaction.

Prerequisite(s): PSYC 100 or permission of instructor.
PSYC 350 - Directed Reading and Research in Psychology

Credits: 1-3 (RT)
Library research in psychology, culminating in a substantial formal paper; individualized sections by arrangement with faculty.

Prerequisite(s): PSYC 100 and 300, and permission of instructor and department.

Notes: No more than 6 credits in PSYC 260, 350, and 460 can be used toward psychology major.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

PSYC 362 - Psychology of Gender

Credits: 3 (NR)
Behavior and attitudes of women; influence of chromosomes and hormones on behavior, influence of culture on sex role differentiation, and theories of sex role development.

Prerequisite(s): PSYC 100 and BIOL 103, 104; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 372 - Physiological Psychology

Credits: 3 (NR)
Survey of neuroscience, including basic neuroanatomy, neural and synaptic transmission, neural mechanisms underlying normal and abnormal behavior, and biological mechanisms of drug action.

Fulfills Mason Core requirement in information technology (all except ethics). PSYC 300, 301 and 372 must be taken in sequence.

Prerequisite(s): PSYC 100, and BIOL 103 and 104; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 373 - Physiological Psychology Laboratory

Credits: 1 (NR)
Functional anatomy and physiology of the brain, including dissection of brain and eye, and a demonstration and practice in
research methods for studying physiological mechanisms underlying behavior.

**Prerequisite(s):** PSYC 372 or 375 or permission of instructor

**Corequisite(s):** PSYC 372 or 375 or permission of instructor

**Hours of Lecture or Seminar per week:** 1-4
**Hours of Lab or Studio per week:** 2

**PSYC 375 - Brain and Sensory Processes**

Credits: 3 (NR)
First half of comprehensive survey of neuroscience, including basic neuroanatomy, neural and synaptic transmission, neural mechanisms underlying normal and abnormal behavior, and biological mechanisms of drug action.

**Prerequisite(s):** PSYC 100 with a grade of C- or better, and BIOL 103, 104 or BIOL 213; or permission of instructor.

**Notes:** Students may earn credit for 372 and either 375 or 376, but they may not earn credit for all three.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**PSYC 376 - Brain and Behavior**

Credits: 3 (NR)
Second half of a comprehensive survey of neuroscience, including neural mechanisms underlying normal and abnormal behavior.

**Prerequisite(s):** PSYC 375 or permission of instructor.

**Notes:** Students may earn credit for 372 and either 375 or 376, but they may not earn credit for all three.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**PSYC 379 - Applied Cross-Cultural Psychology**

Credits: 3 (NR)
A review of important landmarks in cross-cultural research, showing how this research impacts psychology as a discipline. Emphasizes an empirical approach to cross-cultural study and includes topics such as theoretical and empirical developments in cross-cultural psychology, development of coherent schema's to guide cross-cultural research and interventions, comparison of psychology's goals and assumptions in Western and other cultures, and integration of course materials into educational and career goals of students.

Fulfills Mason Core requirement in global understanding.

**Prerequisite(s):** PSYC 100, or permission of instructor.
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 399 - Professional Issues in the Social Sciences: From College to Career**

Credits: 2 (NR)
Emphasizes development and readiness for a profession in the social sciences through self-assessment and professional skill acquisition.

**Prerequisite(s):** At least 30 hours of completed college coursework and a declared major in the social sciences or permission of the instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

**PSYC 405 - Mystery, Madness, and Murder**

Credits: 3 (NR)
Multidisciplinary approach to taboo topics that fascinate and frighten us. Instructors from disciplines across the arts and sciences bring expertise and diverse perspectives to provocative issues such as cannibalism and serial murder. Students learn to think critically and objectively while examining use in myth, literature, and popular culture.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** PSYC 100 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**PSYC 406 - Psychology of Communication**

Credits: 3 (NR)
An examination of the behavior of communicating across species and sensory modalities, with an emphasis on the evolutionary basis for the various communication strategies used by animals and humans.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** PSYC 100 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 414 - Behavior Disorders of Childhood**
Review of the theories, methods, and research dealing with emotional and behavioral disorders of children.

Prerequisite(s): PSYC 313 and 325, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 415 - Psychological Factors in Aging

Credits: 3 (NR)
Examination of the sensory, perceptual, intellectual, and personality changes that occur in older people. Common adjustment problems as well as more serious adjustment difficulties are discussed. Applications of various personality theories of aging.

Prerequisite(s): PSYC 100 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 417 - Science of Well Being

Credits: 3 (NR)
This course will examine and interpret the latest research in social, personality, and clinical psychology on well-being, character strengths, and personal growth. Emphasis will be placed on the ways in which scientists generate hypotheses regarding the nature of positive psychological traits and processes and the methods by which these ideas are tested.

Prerequisite(s): PSYC 100 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PSYC 418 - Death, Dying, and Grieving

Credits: 3 (NR)
Advanced survey of processes of grieving and their relationship to death and dying. Topics include ways of dying, effects of death on loved ones, and care for the terminally ill.

Prerequisite(s): PSYC 100 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 419 - Synthesis in Psychology
Understand and relate broad psychological issues to society as a whole. Possible topics include mental health in society, the psychology of food and eating behavior, and animals and society. See schedule of classes for current topic(s).

Prerequisite(s): PSYC 100 or permission of instructor.

Notes: May be repeated for a maximum of 15 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 423 - Group Psychotherapy Techniques

Credits: 3 (NR)
Review of theory and methods of group therapy with emphasis on humanistic and interpersonal approaches, including applications to family therapy, alcoholism, and drug abuse.

Prerequisite(s): PSYC 324 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 427 - Community Engagement for Social Change

Credits: 3 (NR)
Explores social problems and interpersonal, intrapersonal, and social aspects of addressing them. Addresses both theoretical aspects of social problems through readings and class discussion and application through community service.

Fulfills Mason Core requirement in Synthesis.

Prerequisite(s): PSYC 100 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 435 - Personnel Training and Development: A Psychological Perspective

Credits: 3 (NR)
Overview and critique of training methods used in industry from viewpoint of psychological theory, including simulations, on-the-job training, supervisory/leadership skills training, computer-assisted instruction, and programmed texts. Principles of needs analysis, program development, and program evaluation are discussed within framework of industrial psychology.

Prerequisite(s): PSYC 333, PSYC 320, or permission of instructor.

Corequisite(s): PSYC 320 or permission of instructor.
PSYC 460 - Independent Study in Psychology

Credits: 1-4 (RT)
Advanced research methods in psychology in context of individual student projects or assisting with research on faculty projects; individual sections by arrangement with faculty.

Prerequisite(s): 18 credits of psychology including PSYC 301, with grade of C or better; 2.50 GPA in psychology; and written proposal approved before registration by instructor and department.

Notes: No more than 6 credits in PSYC 260, 350, and 460 can be used toward psychology major.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

PSYC 461 - Special Topics

Credits: 1-3 (RT)
Selected topics reflecting interest in specialized areas.

Prerequisite(s): See course description in Schedule of Classes.

Notes: Topic announced in advance. May be repeated for credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 465 - History and Systems in Psychology

Credits: 3 (NR)
Historical background and major theoretical systems in modern psychology. Approaches include behaviorism, cognitive/information processing approaches, and psychodynamic theories.

Prerequisite(s): 18 credits in psychology including PSYC 317, or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 466 - Psychology of Intimate Relationships

Credits: 3 (NR)
Advanced survey of theories and research related to intimate relationships, including romantic relationships and those among
family members and friends.

**Prerequisite(s):** PSYC 100 and 231; PSYC 324 recommended; or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PSYC 467 - The Psychology of Working in Groups and Teams

Credits: 3 (NR)  
Teaches knowledge and the skills to meet communication, interpersonal, and task-related challenges that arise when functioning in work teams. Through readings, classroom activities, and applied problem-solving exercises, students acquire or refine team-related competencies. Students study theory of group and team processes while gaining insight from feedback on their behavior in exercises to become more effective team members.

**Prerequisite(s):** 60 credits including PSYC 100, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PSYC 472 - Current Topics in Brain and Behavior

Credits: 3 (RT)  
Rotating topics. Physiological mechanisms underlying behavior. Selected topics include neuronal bases of learning and memory, Alzheimer's disease, and biological bases of addiction.

**Prerequisite(s):** PSYC 372 or 375 and 376; or permission of instructor.

**Notes:** May be repeated for a maximum of 6 credits with approval of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PSYC 490 - Psychology Honors I

Credits: 3 (NR)  
Review of topics and issues in psychology, including historical overview, theory and supporting data, and influences on behavior.

**Prerequisite(s):** Admission to Psychology Department honors status.

**Notes:** Topics vary. May not be repeated.

**Hours of Lecture or Seminar per week:** 3-6  
**Hours of Lab or Studio per week:** 0
PSYC 491 - Psychology Honors II

Credits: 3 (NR)
Introduces advanced statistics, research methodologies, statistics packages, computing and information technology, and library technology appropriate for psychological research and pedagogy.

Prerequisite(s): PSYC 300, 301, and 490.

Notes: Students required to complete proposal in preparation for admission to Psychology Honors III. May not be repeated.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 492 - Psychology Honors III

Credits: 3 (NR)
Completion of final honors project or thesis. Students must complete project or thesis, and present oral defense to committee and poster to class. Students also expected to prepare proposal to present project or thesis at regional or national conference, or prepare manuscript for publication in appropriate journal.

Prerequisite(s): PSYC 491, and approval of proposal for final honors project or thesis.

Notes: May not be repeated.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 499 - Senior Thesis

Credits: 3 (NR)
Directed research on topic agreed on by student and advisor.

Prerequisite(s): Psychology major with 90 credits, experimental psychology lab course, 3.00 GPA in psychology, PSYC 460, permission of instructor, and prior approval of thesis proposal.

Notes: Students should take PSYC 460 with same advisor to develop thesis proposal before registering for PSYC 499. Students must complete thesis and defend it orally before advisor and two faculty members. With permission of department, students may take a second semester for maximum 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 506 - Theories of Personality

Credits: 3 (NR)
Comparative review of prevalent theories of personality with special emphasis on fundamental models, and similarities and
differences.

Prerequisite(s): PSYC 324 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 518 - Death, Dying, and Grieving

Credits: 3 (NR)
Advanced survey of processes of grieving and their relationship to death and dying. Topics include ways of dying, effects of death on loved ones, and care for the terminally ill.

Prerequisite(s): PSYC 100

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 527 - Introduction to Neurobiology

Credits: 2 (NR)
Introduction to neurobiology with overview of embryological development of nervous system in evolutionary context. Introduces regional and systems neuroanatomy by studying mammalian visual system with comparative perspective.

Prerequisite(s): PSYC 372 or PSYC 375 and 376, or BIOL 213 and 303.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PSYC 530 - Cognitive Engineering: Cognitive Science Applied to Human Factors

Credits: 3 (NR)
Application of cognitive theory to understand and predict interactions among human cognition, artifact, and task. Discusses recent research and case studies that emphasize empirical research, analytical modeling techniques, systems design, and development of tools and methods.

Prerequisite(s): Experimental lab course, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 531 - Mammalian Neurobiology
Functional anatomy of brains of mammals, with emphasis on regional and systems neuroanatomy of humans. Anatomy correlated with material from clinical neurology where possible. Laboratory component includes brain dissections and clinical correlations.

**Prerequisite(s):** PSYC 527.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 3

---

**PSYC 541 - Survey Research**

Credits: 3 (NR)  
Introduces theory, method, and practice of survey research; students complete survey research project.

**Prerequisite(s):** PSYC 300, SOCI 221, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 552 - Histology/Histochemistry of the Brain**

Credits: 5 (NR)  
Explores conceptual basics and provides hands-on experience in techniques for studying brain tissue, including stereotaxic surgery, perfusion, sectioning, Nissl and myelin stains, enzyme histochemistry, immunohistochemistry, in situ hybridization, and quantitative receptor autoradiography.

**Prerequisite(s):** PSYC 372 or equivalent.

**Hours of Lecture or Seminar per week:** 5

---

**PSYC 555 - Neuroimaging**

Credits: 3 (NR)  
Covers functional magnetic resonance imaging (fMRI) methods, experimental design and analysis issues in fMRI, structural MRI techniques and how they can contribute to cognitive neuroscience, and event-related potential methods.

**Prerequisite(s):** Graduate enrollment in either Cognitive & Behavioral Neuroscience or Human Factors & Applied Cognition programs, or instructor approval.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall.

---

**PSYC 556 - Chemistry and the Brain**
Credits: 3 (NR)
Fundamentals of general chemistry, atoms, molecules, and reactions, with emphasis on water solutions. Organic compounds and functional groups, biosynthesis and properties, and examples from nervous system. Also includes biopolymers and their roles in cellular and neuronal organization, ionic channels, neurotransmitter receptors, and psychoactive substances.

Prerequisite(s): PSYC 372 or 375 and 376; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 557 - Psychometric Methods**

Credits: 3 (NR)
Examines concepts of psychological measurement with emphasis on predictor test and criterion development. Discusses reliability, validity, and specialized techniques to develop tests of ability, interest, and personality.

Prerequisite(s): PSYC 611 and 612, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 558 - Neuronal Bases of Learning and Memory**

Credits: 3 (NR)
Examines neuronal mechanisms involved in learning and memory, in animals ranging from invertebrates to humans.

Prerequisite(s): PSYC 372 or 375 and 376; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 559 - Behavioral Chemistry**

Credits: 3 (NR)
Neurochemistry and neuroendocrinology, including neurotransmitter synthesis, genetic aspects of neural functioning, mechanisms of action of neurotransmitters and second messenger systems, regulation of neuroendocrine systems, neuroendocrine effects on behavior, and neuroimmunology.

Prerequisite(s): PSYC 372 or 375 and 376; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 560 - Advanced Applied Social Psychology**
Study of major trends in social psychological research with emphasis on ethical and practical problems posed by human experimentation. Topics include attitude measurement and change, conformity, social perception, and small group interaction.

**Prerequisite(s):** PSYC 231.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PSYC 561 - Behavioral Biology of Substance Abuse

Credits: 3 (NR)  
Overview of biological effects of substance abuse, and biological mechanisms underlying addiction. Topics include alcohol, cocaine, marijuana, and other drugs; genetics of addiction; and neural systems underlying addiction and withdrawal.

**Prerequisite(s):** PSYC 372 or equivalent.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PSYC 562 - Research Methods in Human Experimental Psychology

Credits: 3 (NR)  
Hands-on approach to selected current and/or classical human experimental psychology research methods. Course topics include experimental design, including psychophysical and physiological experimentation. In addition, mathematical, cognitive modeling and simulation, as well as advanced statistical techniques will be covered.

**Prerequisite(s):** Graduate enrollment in either Cognitive and Behavioral Neuroscience or Human Factors and Applied Cognition programs.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PSYC 563 - Laboratory Methods in Behavioral Neuroscience

Credits: 3 (NR)  
Laboratory work, to be completed in groups, will include surgical, histological and behavioral techniques. Proper use and handling of animals, ethical issues, evaluation of neuroscience literature, experimental design and data analysis are addressed in lecture. This course requires working with laboratory rodents.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 3

### PSYC 592 - Special Topics
Credits: 1-6 (RT)
Special topics reflecting interests in specialized areas.

Notes: Topic announced in advance. May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 597 - Directed Reading and Research

Credits: 1-6 (RT)
Independent reading or research on topic agreed on by student and faculty member.

Prerequisite(s): Permission of instructor.

Notes: Directed reading or research for MA students in psychology. May be repeated within the same term or a different term for a maximum of 6 credits.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

PSYC 611 - Advanced Statistics

Credits: 4 (NR)
Test must be passed to take course. Open only to degree students. Integrates basic psychological statistics with overview of research methodology including experimental, quasi-experimental, field approaches, and measurement issues from advanced perspective. Lab work includes using computer packages for data handling and analyses.

Prerequisite(s): Screening test given on first evening of class

Notes: Students must enroll in 611 and 612 in sequential semesters.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2
Grading: Graduate Special

PSYC 612 - Advanced Statistics

Credits: 4 (NR)
Open only to degree students. Integrates basic psychological statistics with overview of research methodology including experimental, quasi-experimental, field approaches, and measurement issues from advanced perspective. Lab work includes use of computer packages for data handling and analyses.

Prerequisite(s): Grade of A or B in PSYC 611.

Notes: Students must enroll in 611 and 612 in sequential semesters.
PSYC 614 - The Psychology of Aging
Credits: 3 (NR)
Review of the experimental literature in psychology of aging, including intellectual functioning, personality and adjustment, minor and major adjustment problems, and role changes in later life.
Prerequisite(s): PSYC 100 and undergraduate or graduate course in aging.

PSYC 615 - Language Development
Credits: 3 (NR)
Seminar covering theory and research on acquisition of language, including biological and environmental influences and constraints; research methods; role of parents; individual and cultural differences; links between language and other domains of development including cognitive, behavioral, social, and emotional; language and the brain; animal language; bilingualism; and atypical language development.
Prerequisite(s): 3 credits of graduate development psychology, or permission of instructor.

PSYC 617 - Child Psychopathology
Credits: 3 (NR)
Intensive survey of major types of psychopathological disturbances of infancy and childhood.
Prerequisite(s): PSYC 313 or 211, and 325.

PSYC 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy
Credits: 3 (NR)
Focuses on basic principles and procedures of applied behavior analysis; identification of factors that contribute to behavioral problems and improved performance; and procedures that can be used to minimize behavioral problems, improve performance, teach new behaviors, and increase probability of behaviors occurring under appropriate circumstances.
PSYC 621 - Applied Behavior Analysis: Empirical Bases

Credits: 3 (NR)
Focuses on basic content of applied behavior analysis, and teaches how to implement behavioral procedures and develop behavioral programs for clients with fundamental behavioral needs.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 623 - Applied Behavior Analysis: Assessments and Interventions

Credits: 3 (NR)
Further expands on basic content of applied behavior analysis, and teaches how to implement behavioral procedures and develop behavioral programs for clients with fundamental behavioral needs.

Prerequisite(s): PSYC 619 and 621, or EDSE 619 and 621.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 624 - Applied Behavior Analysis: Applications

Credits: 3 (NR)
Expands capability to deal with more complex behavioral situations, enabling ability to relate to more sophisticated professional issues and environments.

Prerequisite(s): PSYC 619 and 621, or EDSE 619 and 621.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 625 - Applied Behavior Analysis: Verbal Behavior

Credits: 3 (NR)
Further expands capability to deal with more complex behavioral situations, enabling ability to relate to more sophisticated professional issues and environments.

Prerequisite(s): PSYC 619 and 621, or EDSE 619 and 621.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PSYC 630 - Developmental Disabilities

Credits: 3 (NR)
Lectures, seminars discuss state-of-the-art and evidence-based information about developmental disabilities across life span with emphasis on mental retardation. Includes epidemiology, etiology, diagnoses, risk factors, treatment, supports, and prevention of developmental disabilities. Pertinent philosophical, ethical, and legal issues concerning this special-needs population will be discussed.

Prerequisite(s): 3 credits of graduate developmental psychology courses, or permission of instructor

Notes: In addition to course work and assigned reading, students sign up for a 20-hour per semester practicum.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

PSYC 631 - Industrial and Personnel Testing and Evaluation

Credits: 3 (NR)
Study of administration, scoring, and interpretation of standard tests used by industry for selection and assessment of personnel.

Prerequisite(s): PSYC 300 and 320.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 633 - Evaluative Research in Psychology

Credits: 3 (NR)
Examines research techniques specifically designed to evaluate human effectiveness of organizations and mental health programs.

Prerequisite(s): PSYC 300 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 636 - Survey of Industrial Psychology

Credits: 3 (NR)
Intensive survey of historical and current issues in major areas of applied (nonclinical) psychology.

Prerequisite(s): PSYC 300 or permission of instructor.
PSYC 638 - Training: Psychological Contributions to Theory, Design, and Evaluation

Credits: 3 (NR)
Focuses on applying learning principles derived from psychological research in development of training models and techniques of skill acquisition. Discusses research designs and empirical results appropriate to training evaluation.

Prerequisite(s): PSYC 636, or permission of instructor.

PSYC 639 - Survey of Organizational Processes

Credits: 3 (NR)
Trains at conceptual/theoretical and empirical levels in organizational processes. Includes individual, interpersonal, intra-group, and intergroup phenomena as they exist in context of organizational settings.

Prerequisite(s): PSYC 333 or 632.

PSYC 640 - Techniques in Industrial/Organizational Psychology

Credits: 3 (NR)
Skills-oriented course enabling students to construct instruments and perform functions critical to both researchers and practitioners in industrial/organizational psychology. Focuses on conducting job analysis interviews, developing and scoring task inventories, using critical incident and KSAO methods, and constructing performance appraisal and selection instruments.

Prerequisite(s): PSYC 300, or permission of instructor.

PSYC 644 - Methods for Social Research

Credits: 3 (NR)
Examines issues in basic and applied social science methodology including internal validity, causal generalization, and construct validity.

Prerequisite(s): Permission of instructor.
PSYC 645 - Research Methods in Human Factors and Applied Cognition

Credits: 3 (NR)
Hands-on approach to selected current or classical human factors/applied cognition research methods; exact methods announced in advance. Potential methods include cognitive task analysis, usability evaluation methods, critical incident analysis, reliability analysis, workload measures, verbal protocol analysis, and engineering models of human performance.

Prerequisite(s): PSYC 530 and 611.

Notes: May be repeated for credit.

PSYC 646 - Issues and Methods in Longitudinal Developmental Research

Credits: 3 (NR)
Examines techniques for measuring developmental change across lifespan.

Prerequisite(s): PSYC 611 and 612, and 6 credits of graduate developmental psychology.

PSYC 648 - Developmental Psychopathology

Credits: 3 (NR)
In-depth look at emerging discipline of developmental psychopathology. Discusses specific disorders and contexts to illustrate how knowledge of normal development, deviant development, and maladaptive behavior illuminates principles underlying adaptive functioning.

Prerequisite(s): 6 credits of graduate developmental psychology.

PSYC 652 - Quantitative Methods II: Analysis of Variance

Credits: 3 (NR)
Basic concepts in experimental design, fundamental assumptions in analysis of variance, and analysis of variance and covariance
designs. Reviews multiple comparison tests.

**Prerequisite(s):** PSYC 300 and either 304, 305, or 309.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PSYC 654 - Naturalistic Methods in Psychology**

Credits: 3 (NR)  
Theory and techniques involved in studying people in their natural environment. Primary emphasis on quasieperimental designs and methods of systematic observation.

**Prerequisite(s):** PSYC 300 and either 304, 305, or 309.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PSYC 666 - Cognitive and Perceptual Development**

Credits: 3 (NR)  
Survey of theory and research on development of perception, memory, concepts, problem solving, intelligence, and academic skills in children.

**Prerequisite(s):** 6 credits of child psychology and course in experimental psychology or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PSYC 667 - Behavior in Small Groups and Teams**

Credits: 3 (NR)  
Theories, methods, and topics relevant to individual behavior in small group setting. Includes effects of individual on group, effects of group on individual, and interaction effects among individuals.

**Prerequisite(s):** PSYC 231.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PSYC 668 - Personality: Theoretical and Empirical Approaches**

Credits: 3 (NR)  
Presents comprehensive overview of current theoretical and empirical approaches to personality. Emphasizes areas of special
relevance to clinical, developmental, and industrial/organizational psychology.

**Prerequisite(s):** PSYC 324, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 669 - Social and Emotional Development**

Credits: 3 (NR)  
Surveys theory and research relevant to development of social relationships, emotional expressiveness and regulation, aggressive and altruistic behaviors, sex roles, and morality. Emphasizes influences on such development, including parents, other adults, peers, siblings, and broader culture.

**Prerequisite(s):** 6 credits of developmental psychology, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 671 - Role and Function of the School Psychologist**

Credits: 3 (NR)  
Considers roles, functions of school psychologist in educational environment, including certification and ethical standards, issues, and trends.

**Notes:** Open only to school psychology MA students, or by permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 673 - Prevention, Intervention, and Consultation in Schools**

Credits: 4 (NR)  
Examines theory and practice of behavior modification and consultation in school environment.

**Notes:** Open to practicing school psychologists and students in school psychology, or by permission of instructor.

**Hours of Lecture or Seminar per week:** 4  
**Hours of Lab or Studio per week:** 0

---

**PSYC 678 - Topics in School Psychology**

Credits: 1-6 (RT)  
Selected topics reflecting specialized area of school psychology.
Notes: Open to practicing school psychologists and advanced students in school psychology, or by permission of instructor. 
Content varies. May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 684 - Psychological Counseling Techniques

Credits: 3 (NR)
Students gain experience in counseling techniques used in schools and contemporary practice.

Notes: Open to practicing school psychologists or psychology graduate students with prior course in counseling. Application of various counseling approaches and techniques to school-age child and adolescent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 685 - Cognitive Neuroscience

Credits: 3 (NR)
Provides an overview of the neural basis of human mental functions. Uses neuroimaging (PET, fMRI, ERPs, TMS, etc.), computational, and information-processing methods to examine functions such as attention, memory, language, emotion, and decision making.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 701 - Cognitive Bases of Behavior

Credits: 3 (NR)
Surveys concepts in learning, cognitive, and affective processes, including theories and supporting data and their influences on behavior.

Prerequisite(s): Admission to graduate program in psychology.

Notes: Open only to degree students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 702 - Biological Bases of Human Behavior
Credits: 3 (NR)
Surveys biological bases of behavior, including such topics as neural conduction, role of specific neurotransmitters, cortical functioning, and brain disorders.

Notes: Open only to degree students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 703 - Social Bases of Behavior

Credits: 3 (NR)
Surveys social influences on behavior, including group processes, person perception, and attitude formation.

Prerequisite(s): Admission to graduate program in psychology.

Notes: Open only to degree students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 704 - Life-Span Development

Credits: 3 (NR)
Surveys theories and research regarding lifespan development and personality formation.

Prerequisite(s): Admission to graduate program in psychology.

Notes: Open only to degree students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 705 - Historical and Philosophical Issues in Psychology

Credits: 3 (NR)
Important historical and systematic approaches to psychology and their relationship to the philosophy of science, structure of theory, and philosophical issues in psychology.

Prerequisite(s): Admission to graduate program in psychology.

Notes: Open only to degree students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PSYC 709 - The Measurement of Intelligence

Credits: 4 (NR)
Administration, scoring, and interpretation of major infant, child, and adult intelligence tests, with emphasis on individual tests. Development of IQ tests, theories of intelligence, and current trends and developments in intellectual assessment.

Prerequisite(s): PSYC 617 or 822 and PSYC 320 or equivalent; permission of department. Coreq: PSYC 611.

Corequisite(s): PSYC 611.

Notes: Open only to school psychology MA student.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 710 - Psychological Assessment

Credits: 4 (NR)
Study of major instruments used in clinical assessment and nature, problems, and predictive value; administration and scoring of major techniques for evaluation of personality; and principles of interpretation of these procedures.

Prerequisite(s): PSYC 617, 709, 822, or 810: and permission of director of School Psychology Program.

Notes: Open only to school psychology MA students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 722 - Advanced Child Assessment

Credits: 4 (NR)
Problems involved in diagnostic assessment of children with various handicapping conditions such as learning disabilities, retardation, and emotional disturbances.

Prerequisite(s): PSYC 709 and 710 or PSYC 810 and 811, five intellectual assessments at psychological clinic, and permission of department

Notes: Open only to school psychology MA or PhD students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 730 - Practicum in Applied Psychology

Credits: 1-6 (RD)
Practical experience in organizational setting as assigned.
Prerequisite(s): Admission to graduate program in psychology and permission of department.

Notes: PhD students may repeat course for a maximum of 15 credits; MA students for a maximum 6 credits.

**PSYC 733 - Issues in Personnel Psychology**

Credits: 3 (NR)
Examines psychological literature on job analysis, job evaluation and compensation, performance appraisal, training, and EEOL selection issues. Methodological and psychometric issues in interpretation and evaluation of personnel psychology research receive particular attention.

Prerequisite(s): PSYC 636 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 734 - Seminar in Human Factors and Applied Cognition**

Credits: 3 (RT)
Emphasizes current research and application of human factors, ergonomics, applied cognition, and applied perception.

Prerequisite(s): 6 graduate credits in human factors and applied cognition, or permission of instructor.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 735 - Psychological Perspectives on Organizational Development**

Credits: 3 (NR)
Theories and methods in industrial/organizational psychology as they relate to organizational change and development. Actual training in organizational diagnosis, change through supervised field work.

Prerequisite(s): 3 graduate credits in industrial/organizational psychology, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 736 - Research in Human Performance Assessment**

**Prerequisite(s):** 3 graduate credits in industrial/organizational psychology, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 737 - Psychology of Human-Technology Interaction**

Credits: 3 (RT)  
Emphasizes current research and development in human-computer interaction, cognitive systems engineering, cognitive ergonomics, and cognitive engineering.

**Prerequisite(s):** 6 graduate credits in human factors and applied cognition or permission of instructor.

**Notes:** May be repeated for a maximum of 9 credits when topic is different.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 739 - Seminar in Industrial/Organizational Psychology**

Credits: 3 (RD)  
Rotating topics such as leadership theories and management development, and performance appraisal.

**Prerequisite(s):** PSYC 333 and 636, or permission of instructor.

**Notes:** Topics announced in advance. May be repeated for a maximum of 12 credits when topic is different.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 741 - Psychology of Work Motivation**

Credits: 3 (NR)  
Examines psychological literature of need, cognitive, and reinforcement theories of motivation; organizational attachment (commitment, absenteeism, and turnover); job design and quality of work issues. Emphasizes methodological and psychometric issues in interpreting and evaluating work-motivation research.

**Prerequisite(s):** PSYC 333 or permission of instructor

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
PSYC 750 - School Psychology Practicum I

Credits: 1 (NR)
Practical experience in school psychology.

Prerequisite(s): Admission to school psychology concentration and PSYC 709.

Notes: Open only to school psychology MA students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

PSYC 751 - School Psychology Assessment Practicum II

Credits: 2 (RD)
Practical experience in school psychology.

Prerequisite(s): PSYC 750.

Notes: Open only to School Psychology MA students. Apply in writing for permission of department 60 days prior to beginning of semester. May be repeated for a maximum of 4 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques

Credits: 3 (NR)
Reviews psychological applications of regression techniques in variety of contexts including experimental, field, and survey settings.

Prerequisite(s): PSYC 611 and 612.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 756 - Quantitative Methods IV: Multivariate Techniques in Psychology

Credits: 3 (NR)
Surveys multivariate statistical techniques as applied to psychological research. Emphasizes analysis of complex designs and interpretation of multivariate data analyses resulting from computer processing.
**PSYC 757 - Advanced Topics in Statistical Analysis**

Credits: 3 (RD)
Focuses on noncognitive individual differences that predict performance. Published work discussed in seminar format with emphasis on conceptual development, methodological adequacy, and new directions.

Prerequisite(s): PSYC 754.

Notes: May be repeated for credit when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 758 - Dispositional Predictors of Performance**

Credits: 3 (NR)
Focuses on individual differences other than cognitive ability that predict performance. Papers discussed in seminar format with eye toward conceptual development and empirical review.

Prerequisite(s): PSYC 636.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 759 - Applied Decision Making**

Credits: 3 (NR)
Covers "basic applied" decision-making research. First half of course reviews basic psychological research on judgment and decision making; second half applies research to various practical problems. Overarching goal is to understand how basic decision-making literature can better inform applied research and practice.

Prerequisite(s): PSYC 611/612

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 768 - Advanced Topics in Cognitive Science**
Credits: 3 (RT)
Emphasizes current research in cognitive science. Topics may include computational cognitive models, nature of expertise, diagrammatic reasoning, display-based problem solving, visual attention, decision making, goal-based versus event-based cognition, and situated action.

Prerequisite(s): PSYC 530 or 701.

Notes: May be repeated for a maximum of 12 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 780 - Applied Developmental Psychology

Credits: 3 (NR)
Examines how developmental theory, knowledge base, and methodology can be used to promote health and welfare of individuals across lifespan. Topics include contemporary social issues and child development, research in applied settings, developmental assessment and intervention, and program evaluation.

Prerequisite(s): PSYC 704 or 3 credits of other graduate developmental psychology courses and permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 786 - Assessment and Treatment in Gerontology

Credits: 3 (NR)
Functional assessment of older adults including conceptual and methodological problems involved. Examines intervention strategies with older adults, including interviewing, group work with older persons, milieu therapy, reality therapy, and design of supportive environments.

Prerequisite(s): Course in the psychology of aging, PSYC 320 and 423, or equivalent courses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 790 - School Psychology Internship

Credits: 3-6 (RD)
Supervised field experience of one school year. Advanced school psychology student functions as full-time staff member in school system. Student completes paper on practical research project involving alternative school psychology role in school system.

Prerequisite(s): Completion of required courses in school psychology and permission of program coordinator.

Notes: Enrollment is for total 9 credits (thesis option) or 12 credits (nonthesis option) in increments of 3 credits according to placement. Students enrolled in PSYC 799 are not required to complete the practical research project.
PSYC 792 - Practicum in Developmental Psychology, Biopsychology, and School Psychology

Credits: 1-6 (RD)
Supervised experience in developmental psychology, biopsychology, or school psychology.

Prerequisite(s): Admission to concentrations in developmental psychology, biopsychology, or school psychology; 3 credits of graduate developmental psychology, biopsychology, or advanced standing in school psychology.

Notes: Interested students must apply to area coordinator 60 days before registration. May be repeated for a maximum of 6 credits.

PSYC 794 - Developmental Assessment

Credits: 1-6 (RT)
Introduces considerations and methods needed for evaluating young children (ages two - six). Focus on the skills necessary for formulating, conducting, and reporting comprehensive developmental evaluations. Emphasizes evaluation of preschool children and includes information relating to infants, as well as older children functioning at lower developmental levels.

Prerequisite(s): Admission to applied developmental psychology program.

PSYC 798 - Thesis Proposal

Credits: 1-6 (RD)
Work on a proposal for master's thesis.

Prerequisite(s): Permission of program coordinator.

Notes: May not be repeated for credit.
PSYC 799 - Master's Thesis

Credits: 1-6 (RD)
Research on approved master's thesis topic under direction of thesis committee with approval of chair.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: S/NC

PSYC 810 - Psychological Assessment I

Credits: 4 (NR)
First of required two-course sequence that provides comprehensive coverage of principles, strategies, and techniques of psychological assessment. Emphasizes empirically supported methods.

Notes: Open only to clinical psychology PhD students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 811 - Psychological Assessment II

Credits: 4 (NR)
Second of required two-course sequence that provides comprehensive coverage of principles, strategies, and techniques of psychological assessment. Emphasizes empirically supported methods.

Notes: Open only to clinical psychology PhD students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 816 - Neuropsychological Assessment

Credits: 3 (NR)
Nature of brain behavior relationships in adults and children. Concentrates on major assessment techniques including Luria Nebraska, Halstead-Reitan, and Michigan Neuropsychological batteries.

Prerequisite(s): PSYC 702, 810, and 811; or 709 and 710

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
**PSYC 822 - Scientific Foundations of Clinical Psychology I**

Credits: 3 (NR)
First of required two-course sequence that provides comprehensive coverage of major psychological problems, including review of empirically supported interventions.

Notes: Open only to clinical psychology PhD students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 823 - Scientific Foundations of Clinical Psychology II**

Credits: 3 (NR)
Second of required two-course sequence that provides comprehensive coverage of major psychological problems, including review of empirically supported interventions.

Notes: Open only to clinical psychology PhD students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 830 - History, Systems, and Theories of Personality and Psychotherapy**

Credits: 3 (NR)
Review of history, systems, and theories of clinical psychology emphasizing traditional theories of personality and psychotherapy.

Prerequisite(s): Admission to doctoral concentration in clinical psychology.

Notes: Open only to clinical PhD students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 831 - Social-Cognitive Interventions in Clinical Psychology**

Credits: 3 (NR)
Survey of procedures for altering emotional distress and behavioral dysfunction within the conceptual framework of social cognitive theory and cognitive behavioral therapy.

Notes: Open only to clinical psychology PhD students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PSYC 832 - Group, Marital, and Family Psychotherapy

Credits: 3 (NR)
Introduces major models of group, marital, and family functioning as well as current approaches to group, marital, and family psychotherapy.

Prerequisite(s): PSYC 822, 823, and 830.

Notes: Open only to clinical psychology PhD students.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PSYC 833 - Social And Cognitive Foundations Of Clinical Psychology

Credits: 3 (NR)
Review of theory and research in social psychology (particularly social cognition) relevant to understanding psychological adjustment, adjustment problems, and clinical interventions.

Notes: Open only to clinical psychology PhD students.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PSYC 840 - Community Psychology I

Credits: 3 (NR)
First of required two-course sequence. Comprehensive coverage of history, concepts, and practice of community-clinical psychology, including community mental health theory, consultation, prevention, program planning and evaluation, and human services management.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Graduate Special

PSYC 841 - Community Psychology II

Credits: 3 (NR)
Second of required two-course sequence. Comprehensive coverage of history, concepts, and practice of community-clinical psychology, including community mental health theory, consultation, prevention, program planning and evaluation, and human services management. Includes implementation of consultation project.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
PSYC 850 - Teaching Practicum in Psychology

Credits: 1 (NR)
Workshop in effective teaching of selected undergraduate psychology courses. Required of and designed to guide graduate teaching assistants assigned to teach undergraduate course (not a lab) for first time. Topics include course planning, syllabus development, lecture resources, effective lecturing skills, use of audio visuals, leading of classroom discussion, construction and grading of exams, student writing, instructional technology, and handling of student questions and problems. Individual critiques of teaching.

Corequisite(s): Teaching assignment in an undergraduate psychology course.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Graduate Special

PSYC 860 - Introductory Helping Skills and Motivational Interviewing

Credits: 3 (NR)
Teaches fundamental interviewing skills and the theory, research, and practice of motivational interviewing.

Prerequisite(s): Permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 861 - Cognitive Behavioral Therapy for Youth

Credits: 3 (RD)
Teaches the selection, evaluation, and application of empirically supported interventions for children and adolescents with a focus on cognitive-behavioral interventions. Instruction in evidence based assessments, cognitive-behavioral case conceptualization, outcome evaluation, and consultation. Supervision of cognitive-behavioral therapy with youth.

Prerequisite(s): Permission of instructor.

Notes: May be repeated for a maximum of 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit.

PSYC 862 - Cognitive Behavioral Therapy for Adults

Credits: 3 (RD)
Teaches the principles of cognitive-behavioral theory, conceptualization and psychotherapy techniques for psychological problems with adults. Supervision of cognitive-behavioral therapy with adults.
Notes: May be repeated for a maximum of 6 credits.

**PSYC 881 - Practicum in Clinical Psychology**

Credits: 1-3 (RT)
Supervised clinical work in a professional psychological services setting. Usually includes practice in psychological assessment and clinical interventions, but can also include supervision, consultation, and program evaluation.

Prerequisite(s): Admission to doctoral concentration in clinical psychology and permission of director.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Graduate Special

**PSYC 883 - Ethical and Professional Issues in Clinical Practice**

Credits: 3 (NR)
Examines ethical principles and professional guidelines to help develop ethical decision-making and behavior to meet the appropriate standards of care in providing clinical services.

Notes: Open only to clinical psychology PhD students.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

**PSYC 885 - Clinical Externship**

Credits: 0 (RD)
Individual placements in psychological assessment or psychotherapy service settings.

Notes: Open only to clinical psychology PhD students in the third year or more of training.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Graduate Special

**PSYC 888 - Clinical Supervision: Theory, Research, and Practice**
Credits: 3 (NR)
Introduces students to theory, research, and practice of clinical supervision, with an emphasis on supervision of psychotherapy. Focuses on selecting effective supervision strategies, establishing and maintaining a positive supervisory relationship, and applying supervisory practices in accordance with current research and standards. Includes didactic and applied components.

Prerequisite(s): 6 credits of PSYC 881.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 890 - Seminar in Professional Psychology

Credits: 1-3 (RT)
Each section limited to students in one concentration of MA or PhD program. See area coordinator for requirements for section in each track.

Prerequisite(s): Graduate student in psychology.

Notes: May be repeated for a maximum of 3 credits.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: S/NC

PSYC 892 - Special Topics in Psychology

Credits: 1-6 (RT)
Selected topics reflecting specialized areas in psychology.

Notes: Open only to PhD students. Content varies. May be repeated for a maximum of 17 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 897 - Directed Reading and Research

Credits: 1-3 (RT)
Independent reading on topic agreed on by student and faculty member.

Notes: PhD students in the clinical psychology concentration may not take this course for elective credit. May be repeated for credit. May not be repeated for credit towards a degree by students who also register for PSYC 799.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PSYC 998 - Doctoral Dissertation Proposal

Credits: 1-6 (RD)
Work on research proposal that forms basis for doctoral dissertation.

Notes: May be repeated. No more than 24 credits of PSYC 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: S/NC

PSYC 999 - Doctoral Dissertation

Credits: 1-9 (RD)
Research on approved dissertation topic under direction of dissertation committee.

Prerequisite(s): PSYC 998

Notes: May be repeated. Students must complete a minimum of 3 credits of 999. No more than 12 credits of PSYC 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: S/NC

Public Administration (PUAD)

Offered by the College of Humanities and Social Sciences

PUAD 502 - Administration in Public and Nonprofit Organizations

Credits: 3 (NR)
Graduate introduction to field of public administration. Focuses on structure, functions, and processes of executive branch agencies of national, state, and local governments. Emphasizes nonprofit organizations as co-actors with government in policy-making/policy implementation nexus.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 504 - Managing in the International Arena: Theory and Practice

Credits: 3 (NR)
Theoretical and empirical examination of international system that both affects and is affected by decisions, behaviors, and subsystems of state and nonstate (organizational) actors.
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUAD 505 - Introduction to Management of Nonprofits**

Credits: 3 (NR)
Examines nonprofit organizations and their role in contemporary society. Explores unique aspects of nonprofits including voluntary governance, tax-exempt status, nonprofit corporation law, accounting practices, fund raising, finance, and management of volunteers. Emphasizes board/executive relationship, and value of establishing and maintaining nonprofit organization's reputation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUAD 509 - Justice Organizations and Processes**

Credits: 3 (NR)
Examines structures, practices, and performance of organizations involved in administration of justice (law enforcement, courts and legal agencies, corrections, regulatory and related agencies, private organizations) Explores applicability of various theoretical perspectives on organizational processes, and considers extent to which processes operate as a system. Focuses on comparing formal goals and system expectations to actual practice.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUAD 511 - Problem Solving and Data Analysis I**

Credits: 3 (NR)
Techniques, skills for public managers to solve policy-related problems or analyze policy-related data. Focuses on problem definition, research design, and problem solving under conditions of uncertainty in public sector.

Equivalent to GOVT 511; PUAD 611 (2011-2012 Catalog)

Prerequisite(s): Passing grade on screening exam.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUAD 520 - Organization Theory and Management Behavior**

Credits: 3 (NR)
Considers behavior in context of public organization, and consequent changes required in management. Focuses on such issues as perception, attitude formation, motivation, leadership, systems theory, communication and information flow, conflict theory, and decision theory.
Equivalent to PUAD 620 (2011-2012 Catalog)

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PUAD 540 - Public Policy Process

Credits: 3 (NR)  
Processes of making public policy, including detection of public issues, consideration of alternatives, and adoption and implementation of solutions. Highlights major actors in policy process, and environment within which they work.

Equivalent to PUAD 640 (2011-2012 Catalog)

**Prerequisite(s):** PUAD 502.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PUAD 612 - Problem Solving and Data Analysis II

Credits: 3 (NR)  
Techniques and skills for public managers to solve policy-related problems or analyze policy-related data. Focuses on data gathering and analysis, use of computers, systems theory and analysis, and operations research.

**Prerequisite(s):** PUAD 511.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PUAD 613 - Economic Analysis in Public Administration

Credits: 3 (NR)  
Covers major economic issues about role of markets and government in global world. Applies fundamental economic concepts such as cost benefit analysis to public sector.

**Prerequisite(s):** PUAD 511.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PUAD 615 - Administrative Law
Credits: 3 (NR)
Covers law as guiding and controlling force in public-sector operations. Includes application of legal processes to administrative practices and situations, and administrative determination of private rights and obligations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 621 - Principles and Practices in Government Organization and Management

Credits: 3 (NR)
Major management theories applicable to American federal system. Emphasizes organization, structure, and operations. Explores relationship of theories to management practices in contemporary American administration.

Prerequisite(s): PUAD 520.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 622 - Program Planning and Implementation

Credits: 3 (NR)
Practical exploration of implementing public law in American federal system. Studies construction of organizational apparatus, development of operational plans, and systems of control and evaluation necessary to implement government programs. Emphasizes coordinating tasks and resources required for effective program implementation.

Prerequisite(s): PUAD 520.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 623 - Managing Government Contracting

Credits: 3 (NR)
Explores unique management and administrative challenges of providing public goods and services through contracts. Examines debates over privatization, and explores tools managers need to address unique accountability challenges associated with this governance tool.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 624 - Public and Private Partnerships

Credits: 3 (NR)
Emphasizes entrepreneurial efforts where governments, nonprofit organizations and private companies establish goals and
combine resources and talents. Issues of efficiency, accountability, and democratic responsiveness will be examined. Various tools for promoting and implementing such partnerships will be explored.

**PUAD 625 - Higher Education Law**

Credits: 3 (NR)
Analyzes legal issues confronting higher education: governance, faculty matters, and student issues. Examples include due process, freedom of speech, and privacy. Reviews key constituents in higher education-students, faculty, administrators, board of trustees, and parents -and how their roles are changing.

**PUAD 626 - Consulting Management**

Credits: 3 (NR)
Explores the consulting industry, changes in the industry and future expectations of consulting as a career. Examines different sectors of consulting such as HR, IT, Operations, Marketing, Succession Planning, Organizational Consulting, Knowledge management, Non-profit and health care and government consulting.

**PUAD 630 - Emergency Planning and Preparedness**

Credits: 3 (NR)
Provides an understanding of the issues associated in developing plans and policies to prepare for disasters, both natural and man made. Overview of nature of challenges posed by different kinds of disasters; discussion of regulatory requirements, sample plans, equipment requirements, collateral and mutual aid support agreements, and methods for testing and updating plans.

**PUAD 631 - Disaster Response Operations and Recovery**

Credits: 3 (NR)
Explores the principles and practices that promote effective disaster response operations and management. Examines nature of disasters, models for response operations in the United States and roles and responsibilities of various emergency management-related organizations.
PUAD 632 - Terrorism: Theory and Practice

Credits: 3 (NR)
Introduces students to the subject of terrorism including the history and evolution of terrorism, case studies of key terrorist groups, the current nature of the terrorist threat, and counterterrorism strategies.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 633 - Hazard Mitigation Policy

Credits: 3 (NR)
Examines the complex interplay and policy approaches to hazard prevention and protection of known hazards in terms of land use, zoning, infrastructure, and building code management. Focuses on understanding the relative roles of proactive policy design and implementation at the federal, state, and local levels of government.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 634 - Management of International Security

Credits: 3 (NR)
Examines theory and practice of managing international security. Emphasizes interplay of organizational structure and bureaucratic dynamics in international context. Presents theory and practice of crisis management, and coordination and comparison of security methods and techniques.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 635 - Emergency Preparedness: Interagency Communication and Coordination

Credits: 3 (NR)
Considers complex relationships within governments and across sectors and levels of government for effective emergency management in planning, response, recovery, and mitigation phases. Explores intergovernmental management and network management theories and research to understand the nature of interorganizational problems and potential models for collaboration.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUAD 636 - The NGO: Policy and Management

Credits: 3 (NR)
Explores unique aspects of nonprofit organizations operating in international environments, particularly in relief and development work. Examines relationship between NGO and U.S. and foreign governments. Covers international philanthropy; cross-cultural understanding; and key managerial concerns such as communications, planning, human resource management, control, group process, and project evaluation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 637 - Managing Homeland Security

Credits: 3 (NR)
Focuses on the Department of Homeland Security and will cover the statutory law that provides the foundation for the department, the resources appropriated to the department, the determination of strategy and priorities, the development of operational capacity, and other challenges associated with top-level (secretarial) management of the department and its principal bureaus.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 642 - Environmental Policy

Credits: 3 (NR)

In-depth examination of environmental policy making. Examines U.S. efforts from 1970 to present to mitigate pollution of nation's air, land, and water; and addresses issues of global concern including biodiversity loss, ozone depletion, and climate change.
Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 644 - Public Policy Models

Credits: 3 (NR)
Approaches to modeling policy problems. Includes analysis and comparison of dominant paradigms in policy sciences. Reviews assumptions and implications of different models and their utility for analysis, implementation, and evaluation.

Prerequisite(s): PUAD 540.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUAD 645 - Policy Analysis

Credits: 3 (NR)
Introduces concepts and techniques for formal policy analysis, development of skills in applying policy analysis techniques through case studies, and exploring legitimacy and utility of policy analysis.

Equivalent to PUAD 741 (2011-2012 Catalog)

Prerequisite(s): PUAD 502, PUAD 511, PUAD 540.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 646 - Program Evaluation

Credits: 3 (NR)
Practical exploration of assessment techniques used in studying results of public programs and policies, including evaluation of implementation strategies and impacts.

Equivalent to PUAD 742 (2011-2012 Catalog)

Prerequisite(s): PUAD 502, PUAD 511.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 649 - Advocacy and Lobbying

Credits: 3 (NR)
Explores how nonprofit organizations advocate and lobby for social change. Considers the different steps in the advocacy process and the broad range of strategies used by non profits seeking to influence public policy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 651 - Virginia Politics, Policy, and Administration

Credits: 3 (NR)
Cultural, demographic, constitutional, and socioeconomic environment of public administration in Virginia. Covers governmental agencies, legislative functions, executive leadership, staff agencies, state-local relationships, intrastate regionalism, administrative customs peculiar to Virginia.

Prerequisite(s): PUAD 502.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUAD 652 - Nonprofit Leadership and Change

Credits: 3 (NR)
Examines the principles of leadership and the process of change within the context of the nonprofit sector and its role in the community. Looks at current changes and challenges within the nonprofit sector and their effect on the sector and society as a whole.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 654 - The Community, Marketing, and Public Relations

Credits: 3 (NR)
Focuses on marketing concepts and communications issues of nonprofit organization as they apply to identifying market, ability to formulate public image and reputation, and capability to raise money and retain membership or volunteers.

Prerequisite(s): PUAD 502 or 505.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 655 - Philanthropy and Fund Raising

Credits: 3 (NR)
Examines history of philanthropy and relationship to nonprofit, government, and commercial sectors in United States. Studies principles of financial development including governance, development of organizational capacity, and identification of funding sources and donor motivations. Provides understanding of fund raising techniques that generate financial support for nonprofits, and context in which these methods may be used.

Prerequisite(s): PUAD 502 or 505

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 657 - Association Management

Credits: 3 (NR)
Practical application of management theory in context of professional and trade associations. Covers legal structures, tax-exempt status, and general organizational structure. Topics include volunteer management, budgeting and accounting practices in associations, fund raising, media relations, media and event planning, and human resource management.

Prerequisite(s): PUAD 502 or 505
PUAD 658 - Social Entrepreneurship and Nonprofit Enterprise

Credits: 3 (NR)
Explores innovative approaches for addressing social problems. Organized around the steps in the entrepreneurial process: identifying social needs, formulating program strategies, mobilizing resources, managing growth tracking results, and maximizing impact.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 659 - Nonprofit Law, Governance, and Ethics

Credits: 3 (NR)
Overview of nonprofit governance as well as basic contract, labor, and tax law issues within nonprofit corporation law. Covers relationship between board and executive, and ethics topics typical to nonprofit organizations such as self-dealing, fiduciary responsibility, and human resource issues.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 660 - Public and Nonprofit Accounting and Finance

Credits: 3 (NR)
Studies fundamental normative debates in public and nonprofit financial management arena with focus on resulting implementation principles and techniques in governmental accounting, financial reporting, budget and revenue decisions, debt management, cash and investment management, pensions and employee benefits, and risk management.

Prerequisites: Course open only to admitted MPA or association/nonprofit management certificate students

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 661 - Public Budgeting Systems

Credits: 3 (NR)
Survey focusing on policy and theoretical framework of revenue and expenditure choices at all levels of government. Topics include development, theories, structure of budgeting; political, economic, and managerial aspects of public budgeting; public policy implications; and budgetary reform movements and successes and failures.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUAD 662 - National Budgeting

Credits: 3 (NR)
Examines formulation of overall national fiscal policy and budgetary priorities through presidential and congressional budget processes, including decisions over spending and revenues.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 663 - State and Local Budgeting

Credits: 3 (NR)
Introduces state and local government budgeting including principal actors and institutions inside and outside state and local governments that play role in budget development, appropriation, implementation, and auditing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 664 - Nonprofit Financial Management

Credits: 3 (NR)
Covers nonprofit financial management with attention to conflicts between social mission and financial entrepreneurship. Topics include mission, budgeting, fund raising, commercial programs, investments, accounting and information systems, financial reporting, auditing, and internal control.

Prerequisite(s): Admission to MPA, certificate in association management, or certificate in nonprofit management.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 670 - Human Resources Management in the Public Sector

Credits: 3 (NR)
Overview of range and complexity of functions, responsibilities, and expectations of human resource staff and line managers in public sector. Focuses on human resources management in context of political, legal, and managerial systems. Human resource functions, such as hiring, performance, and development, are also presented.

Prerequisite(s): PUAD 502.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
**PUAD 671 - Public Employee Labor Relations**

Credits: 3 (NR)
Public employee labor relations, including unionization, representational elections, bilateral policy negotiations, administration of agreements, management rights, union and membership security, strike issue and grievance procedures, impact on public administration, and assessment of future developments.

*Hours of Lecture or Seminar per week: 3*
*Hours of Lab or Studio per week: 0*

**PUAD 672 - Human Resources Reforms for Public Administration**

Credits: 3 (NR)
Explores recent reforms in human resources management in federal, state, and local governments. Covers pay for performance systems, flexible assignment patterns, incentives for productivity, work-life balance, job design, and changes resulting from higher levels of contracting for government programs.

*Hours of Lecture or Seminar per week: 3*
*Hours of Lab or Studio per week: 0*

**PUAD 679 - Leadership Skills for the 21st Century**

Credits: 3 (NR)
The class is premised on the belief that an individual’s leadership capabilities can be enhanced by better understanding and practicing day-to-day leadership skills which can be used in the workplace. The academic literature on leadership will also be discussed.

*Hours of Lecture or Seminar per week: 3*
*Hours of Lab or Studio per week: 0*

**PUAD 680 - Managing Information Resources**

Credits: 3 (NR)
Examines how managerial and analytical functions in public organizations can be performed via end-user computer applications. Provides in-depth coverage of selected database and decision support packages, and gives attention to logic and integration of application software.

*Prerequisite(s):* Admission to MPA program, or permission of instructor.

*Hours of Lecture or Seminar per week: 3*
*Hours of Lab or Studio per week: 0*

**PUAD 691 - Justice Program Planning and Implementation**
Credits: 3 (NR)
Covers development and construction of organizational systems to implement government policies and programs. Emphasizes dealing with real-world challenges, constraints, and opportunities to create feasible plans, performance-monitoring systems, and secure multiple agency coordination. Applications of planning and implementation principles to actual projects in justice agencies.

Prerequisite(s): PUAD 502 and 509.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 700 - Ethics and Public Administration

Credits: 3 (NR)
Topics of ethical dimensions including constitutionalism, democratic values and traditions, standards of conduct and ethics, and conflicting values of public officials and social equity of public programs.

Prerequisite(s): PUAD 502, PUAD 511, PUAD 520, and PUAD 540. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 701 - Cross-Cultural and Ethical Dimensions of International Management

Credits: 3 (NR)
To be taken in final two semesters of MPA program. Examines normative issues in management of programs in international context. Emphasizes interplay of cultural, sociopolitical, legal, and ethical factors, and management and policy problems arising from conflicting goals, values, and inequities among nations and regions.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 703 - Third-Party Governance

Credits: 3 (NR)
Examines design and management of government programs relying on other levels of government and private sector for delivery, with focus on such governmental tools as contracts, grants, loans, regulation, and tax credits.

Prerequisite(s): PUAD 502, PUAD 511, PUAD 520, and PUAD 540. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 720 - Performance Measurement
Methods used by managers to systematically assess performance. Includes practical tools such as focus groups, survey research, cost/benefit analysis, benchmarking, and comparison methods for revealing outcomes and impacts. Prepares managers to use information more effectively in developing programs and services and formulating policy, and covers reporting techniques to communicate performance results.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 727 - Seminar in Risk Assessment and Decision Making**

Credits: 3 (NR)  
Examines decision making under risk and uncertainty. Readings introduce major intellectual perspectives on topic and are drawn from variety of disciplines, including biology, economics, law, and psychology. Emphasizes making actual decisions under uncertainty.

**Prerequisite(s):** 12 graduate credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 729 - Issues in Public Management**

Credits: 3 (RT)  
Current issues in management of public organizations in contemporary American government. Includes practical applications of theories and analysis to managerial problems. Emphasizes competence in improving management in selected government settings.

**Prerequisite(s):** PUAD 502, and 9 graduate credits.

**Notes:** May be repeated for credit when topic is different.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0

**PUAD 730 - Professional Development Workshop**

Credits: 1-3 (RT)  
Explores external and internal factors reshaping public and nonprofit organizations. Investigates processes and techniques that managers and staff can use to respond to rapid environmental change. Emphasizes case studies and application of techniques and processes.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0
PUAD 731 - Homeland/Transportation Security Administration

Credits: 3 (NR)
Examines the terrorist attacks of 9/11, the vulnerabilities of the aviation security system at that time, reasons why elected leaders and officials did not act more decisively to improve security before 9/11, and the policy and administration responses to the 9/11 attacks, including the creation of the Transportation Security Administration and the Department of Homeland Security. Includes the development of radical Islam and the rise of Osama bin Laden and Al Qaeda.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 738 - Issues in International Security

Credits: 3 (RT)
Examines issues of topical interest in general area of international security. Possible topics include nuclear strategy, disarmament, American defense policy, and international terrorism.

Prerequisite(s): PUAD 504 and 9 graduate credits.

Notes: May be repeated for credit when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 739 - Issues in International Management

Credits: 3 (RT)
Examines significant current issues in public international management. Emphasizes practical applications of theories and analysis of problems in public international management arena, and competence in improving management practices in international management settings.

Prerequisite(s): PUAD 502, and 9 graduate credits.

Notes: May be repeated for credit when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 749 - Issues in Public Policy

Credits: 3 (RT)
Examines significant issues in public policy in contemporary American government. Emphasizes practical applications of theories and analysis to policy problems, and competence in improving policy analysis in selected government settings.

Prerequisite(s): PUAD 502, and 9 graduate credits.
PUAD 750 - Federalism and Intergovernmental Relations

Credits: 3 (NR)
Examines broad trends in governance, including theory and practice of federalism, with particular focus on intergovernmental relations and changing roles of federal, state, and local governments. May include privatization, devolution, mandating, regulatory reform, and comprehensive federalism reform.

Prerequisite(s): PUAD 502 and 9 graduate credits.

PUAD 758 - Environmental Politics

Credits: 3 (NR)
Evolution and current state of environmental policy making. Includes history, strengths, and weaknesses of key U.S. environmental laws and central international environmental agreements. Introduces analytical approaches, including cost-benefit and risk analysis. Discusses economic incentives and normative considerations.

PUAD 759 - Issues in Local Government Administration

Credits: 3 (RT)
Management and policy formulation in American local governments. Addresses environments, institutions, and actors involved. Examines contemporary problems such as education, criminal justice, transportation, land use, economic development, and environmental impact.

Prerequisite(s): PUAD 502 and 9 graduate credits.

Notes: May be repeated with different topic.

PUAD 769 - Issues in Public Financial Management

Credits: 3 (RT)
Current issues in budgeting and financial management in contemporary American government. Emphasizes practical applications of administration and management issues and policy choices at all levels of government.
Prerequisite(s): PUAD 502, and 9 graduate credits.

Notes: May be repeated for credit when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 781 - Information Management: Technology and Policy

Credits: 3 (NR)
Examines challenges that organizations encounter as they move to a more technologically sophisticated information and communication environment. Studies organizational policy issues evolving from new technologies, including privacy, security, authentication, content control, intellectual property, and taxation, focusing on effectiveness of previous policy solutions and analyzing proposed solutions.

Prerequisite(s): PUAD 680, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 790 - Justice Organization and Administration

Credits: 3 (NR)
Examines organization and administration of justice and security organizations. Covers organization theory and behavior as applied to justice and security organizations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 791 - Justice Program Evaluation

Credits: 3 (NR)
Practical exploration of assessment techniques used to study need for and consequences of justice programs and policies. Covers needs assessments, process, and impact evaluations. Includes design and measurement issues for assessing performance of justice programs, and interpreting and presenting results. Emphasizes designing program evaluation for justice agency.

Prerequisite(s): PUAD 511 and 612.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 792 - Advanced Seminar in Applied Public Administration Research
An applied research experience. Students will apply skills in problem definition, issue framing, collection of data and information, interviewing, selection and analysis of alternatives, presentation of findings and recommendations, design of implementation tools and administrative procedures and organizations, report writing and oral presentation to policymakers.

Prerequisite(s): 30 PUAD credits and permission of instructor.

PUAD 793 - Conduct of Justice Organizations at the Street Level

Credits: 3 (NR)
Explores how justice organizations behave at lowest levels, where service is delivered and discretion is greatest. Includes suspects, victims, witnesses, police officers, prison guards, parole officers, attorneys, and others who interact with the justice system.

Prerequisite(s): CRIM 740/GOVT 790, or permission of instructor.

PUAD 794 - Internship

Credits: 3 (RT)
Open only to MPA students. Contact internship coordinator one semester before enrollment. Credit determined by the department.

Prerequisite(s): 12 PUAD credits or permission of instructor.

Grading: Satisfactory/NoCredit.

PUAD 795 - Leadership in Justice and Security Organizations

Credits: 3 (NR)
Examines leadership theories, and explores fundamental questions about leadership in justice and security organizations today.

Prerequisite(s): CRIM 740/PUAD 790, or permission of instructor.

PUAD 796 - Directed Readings and Research
Reading and research on specific topic under direction of faculty member. Written report is required; oral exam covering research and report may be required.

Prerequisite(s): 18 PUAD credits and permission of instructor.

Notes: May be repeated once.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 797 - Changing Justice and Security Organizations

Credits: 3 (NR)
Examines challenges of changing justice organizations, how changes have been successfully and unsuccessfully implemented in the past, and what change strategies appear to be most effective.

Prerequisite(s): CRIM 740/PUAD 790 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 821 - Doctoral Seminar in Theories of Organization and Bureaucracy

Credits: 3 (NR)
Examines key issues in organization theory and behavior. Issues include organization design; interorganizational coordination, intelligence and decision-making systems; leadership and motivation theories; and theories or organizations as agents of political and social change. Uses case studies.

Prerequisite(s): PUAD 520 or equivalent, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 840 - Research Seminar in Policy Governance I

Credits: 2-4 (NR)
Surveys major institutions that formulate and implement public policy in United States. Examines translation of public preferences into public policy, and decisions about which societal and economic functions are most appropriately carried out by governments, and which are best accomplished by private institutions and individuals.

Equivalent to PUBP 840

Prerequisite(s): Admission to doctoral program or permission of instructor.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1
PUAD 841 - Research Seminar in Policy Governance II

Credits: 2-4 (NR)
Second of two-semester sequence (PUAD 840, 841) in governance and public management policy concentration. Focuses on division of responsibilities among several levels of government, and between public and private sectors. Explores impact of these divisions on development of public policy in several policy areas, such as urban governance, environmental policy, and health care.

Equivalent to PUBP 841

Prerequisite(s): Admission to doctoral program.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

Public Policy (PUBP)

Offered by the School of Public Policy

PUBP 501 - Policy and Organizational Analysis

Credits: 4 (NR)
Prepares students to engage in systematic analysis, both qualitative and quantitative, and constitutes the basis for advanced analytical techniques. Emphasis on research design, information acquisition, application of data analysis techniques, and presentation, including writing for professional and lay audiences.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 502 - Governance and Policy Processes

Credits: 1-4 (NR)
Assesses governance processes in public and private organizational settings on the basis of economic and political standards such as efficiency, accountability, and responsiveness to societal needs in a rapidly changing global environment. Using cases, simulations, and fieldwork, students learn to evaluate the quality of institutional governance in specific venues and appraise implications for public policy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 503 - Culture, Organization, and Technology
Credits: 1-4 (NR)
Focuses on the influence of culture in societal, political, economic, and technological processes, nationally and internationally. Culture is seen as dynamic and interactional. Using case studies, students learn pertinent approaches to the study of culture, from the analysis of organization and social networks to that of belief systems and identities. Students also develop practical skills in observation, participation, and intervention.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 511 - Quantitative Methods in Public Policy**

Credits: 3 (NR)
Introduces students to the range of quantitative methods used for public policy analysis. Provides a broad foundation to prepare students for doing statistical analysis on the master's level.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 533 - Topics in Public Policy Processes**

Credits: 1-3 (RT)
Focuses on selected topics in public policy processes and procedures on an introductory level.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 550 - Topics in Public Policy**

Credits: 1-3 (RT)
Focuses on selected topics in public policy not covered in fixed-content public policy courses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 555 - Economics Math Workshop**

Credits: 0 (RD)
Short course covering math and calculus skills required for master's level managerial economics course PUBP720.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Not Gradable
PUBP 556 - Writing Workshop

Credits: 0 (RT)
A limited enrollment, noncredit, one-day workshop designed for master-level public policy students who want to improve their writing skills. Aimed at good writers who want to move to the next level of effectiveness. Taught by professional writers.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Not Gradable

PUBP 570 - Policy Writing Fundamentals

Credits: 3 (NR)
Designed for entering students whose writing skills and style must satisfy the demands of a rigorous graduate program; aims to give students the ability and confidence to write clearly and concisely for a variety of policy audiences; reviews basic rules and develops essential techniques for effective writing in graduate school and beyond.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 601 - Theory and Practice of Regional Economic Development

Credits: 3 (NR)
Helps students develop real-world skills to be a successful economic developer, consultant, policymaker, or change agent in this rapidly changing environment. Designed to provide a framework for understanding regional and national economic growth and prosperity, and provide tools to conduct concrete analyses to help decision makers, clients, and constituents make better-informed decisions.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 602 - Regional Economic Development: Strategies and Applications

Credits: 3 (NR)
Introduces range of methods for tracking the performance of metropolitan economies, identifying opportunities for economic development, and assessing effectiveness of public and private investments designed to achieve region's economic growth. Also examines strategies and case results of economic development plans and projects.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 605 - State and Local Government Policy and Economic Development
Credits: 3 (NR)
Examines state and local government policies and processes to promote local economic development, including institutional arrangements, financing and tax incentives, nonfinancial strategies and approaches, land use, environmental and other relevant regulations, and relationships across government and nongovernmental organizations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 610 - Organizations, Management, and Work: Theory and Practice

Credits: 2 (NR)
This introduction to organizations, management, and work examines ideas and practices from two perspectives: conventional ones that go back to the industrial age and scientific management; and contemporary ones that have to do with organizing knowledge-work. Covers contributions of a range of writers and deals with foundations of OD from the standpoint of both theory and practice.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PUBP 611 - Critical Infrastructure Protection in Theory, Policy and Practice

Credits: 2 (NR)
Introduces critical infrastructure protection as a policy field, examines its institutional framework, and considers its foundations in political and economic theory.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PUBP 650 - Peace Operations I

Credits: 3 (NR)
First course of two-semester sequence on international peace operations. Focuses on emerging theory of peace operations, including peacemaking activities of United Nations and other diplomatic initiatives; peace-building activities of international organizations and nongovernmental organizations; and peace support provided by international militaries.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 651 - Peace Operations II

Credits: 3 (NR)
Second course of two-semester sequence on international peace operations. Focuses on application of emerging theory of peace
operations, including peace-making activities of United Nations and other diplomatic initiatives; peace-building activities of international organizations and nongovernmental organizations; and peace support provided by international militaries. Several guest lectures from past and present peace operations provide practical information for future staff of peace operations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 652 - Experiential Applications

Credits: 4 (NR)
This course concentrates on the institutional mindsets, characteristics, and behaviors of the actors involved in peace operations. Readings, role-plays, and research underpin the class. Special attention is also paid to developing students’ graduate-level research and writing skills.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 653 - The Interagency Process

Credits: 3 (NR)
Examines the U.S. Interagency process as it relates to peace operations. Various departments and agencies maintaining equities in overseas missions will be identified and explored. Case studies highlight instances of success or failure in application of a "whole-of-government" approach to intervention. Examines significant problems hampering Interagency cooperation today and recent policy directives, frameworks, and initiatives developed to address this situation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 654 - Analysis for Peace Operations

Credits: 3 (NR)
Examines theories of human behavior and social systems as they relate to conflict at the interpersonal, community, and international level. The class provides a foundation of academic thinking about the role of conflict in violent and peaceful social change. At the end of the course, students should be able to think systematically and critically about conflict, and engage in practical application of conflict analysis techniques to peace operations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 655 - State- and Institution-Building
Ending protracted civil conflicts often necessitates building stronger state institutions as well as addressing broader social, economic, and political issues affecting particular places and peoples. This course examines the literatures on state formation and state building from a historic, regional, and functional perspective paying special attention to polities exiting civil conflicts.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**PUBP 680 - Topics: Advanced Skills for Policy Professionals**

Credits: 1-3 (RT)  
Practical seminar focusing on development of advanced qualitative and quantitative skills for the professional policy world.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**PUBP 700 - Theory and Practice in Public Policy**

Credits: 1-4 (NR)  
Theories of public policy emphasizing historical intellectual development, and role theory and ethics may play in public policy making. Assumptions made by policy professionals examined against broad range of philosophical, social, political, and economic imperatives affecting public policy environment.

**Hours of Lecture or Seminar per week:** 1-4  
**Hours of Lab or Studio per week:** 0

---

**PUBP 702 - Comparing Political Institutions**

Credits: 3 (NR)  
Examines political institutions and processes from comparative and international perspectives, and role of political environment in economic trade and investment policy decisions. Examines how generalizability, objective knowledge and understanding, and nature of evidence impact public policy.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PUBP 704 - Statistical Methods in Policy Analysis**

Credits: 3 (NR)  
Graduate-level introduction to statistical methods and techniques used in policy sciences. Topics include descriptive statistics, sampling and probability theory, graphical data display, estimation and significance testing, contingency tables, bivariate regression and correlation, and multiple regression, with introduction to computer based statistical analysis.
PUBP 705 - Advanced Statistical Methods in Policy Analysis

Credits: 3 (NR)
Covers classical regression methods and their application to public policy analysis. Includes simple and multiple regression, analysis of variance, time series, and simultaneous equation structural models. Problems associated with applications include specification error, multicollinearity, qualitative variables, heteroskedasticity, serial correlation, and structural identification. Course develops analysis skills by discussing sample empirical studies and models using advance statistical computer software.

Prerequisite(s): PUBP 704 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Credits: 3 (NR)
Studies analytical concepts and techniques used in public-sector overall budgetary and specific project decision making. Includes conceptual concerns and quantitative techniques used in benefit-cost analysis, capital budgeting, financial analysis, and various specialty applications, such as economic and fiscal impact analysis. These are all interrelated by the desire to measure the benefits versus the costs of various alternative public decisions. Attention is given to measuring results over time and the use of present value techniques. Assesses strengths and weaknesses of analytical techniques. Emphasizes the process of defining the appropriate stakeholders affected by decisions, the sources and quality of data, and the rigor of conducting studies.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 709 - Professional Writing for Policy

Credits: 3 (NR)
Professional Writing teaches effective writing for the professions. The course includes the fundamentals of writing -- grammar, word usage and paragraphing – and instruction in selected genres, including news stories, editorials, and research writing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 710 - Topics in Public Policy

George Mason University 2014-2015 Official University Catalog
Focuses on selected topics in public policy not covered by fixed-content public policy courses.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 712 - Policy Systems Analysis and Management Science**

Credits: 3 (NR)  
Introduces analytical models and analysis to support decisions. Primary emphasis on understanding techniques of operation research and management science, cost benefits, and cost effectiveness for public decision making. Using mathematical details of algorithms to solve models not emphasized except as it contributes to understanding reliability and validity of methodologies. Through case studies and computer solutions, offers appreciation of when, where, and how to use models. Students demonstrate their understanding of techniques by applying them to term research project on government program.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 713 - Policy and Program Evaluation**

Credits: 3 (NR)  
Examines how programs of public agencies are proposed, established, operated, and evaluated. Covers role of research in program evaluation process, including alternative methodologies for policy assessment. Considers demand estimation, supply and pricing of publicly produced goods and services, and role of subsidies in nonmarket environments.

**Prerequisite(s):** PUBP 704 or equivalent.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 714 - Topics in Transportation Policy, Operations, and Logistics**

Credits: 1-3 (RT)  
Issues in transportation policy, operations and logistics in United States and abroad. Includes practical applications of theories and analysis to policy problems, and emphasizes competence in improving policy in selected domains. May be taken up to three times and simultaneously for sections addressing different subject matter.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 715 - Introduction to Transportation Systems**

Credits: 3 (NR)  
Transportation is a service that contributes substantially to well-being of advanced economies. Resource requirements and
byproducts of transportation also pose sobering environmental challenges for society. Course examines history and development of transportation systems; contribution to and impact on society; institutions and practices that govern planning, design, construction, operation, maintenance, and retirement from service; and policy and managerial challenges, and tools and techniques for addressing them.

**PUBP 716 - Transportation Operations and Logistics**

Credits: 3 (NR)
Provides survey of issues, methods, problems, and strategies. Topics include origins of logistics, industry structure, pricing, underwriting, rate making, compliance, inventory effects, just-in-time inventory management (JIT), materials requirements planning (MRP), customer service and order processing operations, sales functions and operations, dispatch and fleet manager functions and operations, rate-setting among three parties, typical electronic and paper document flow, routing and scheduling, route selection, satellite load tracking through dispatch-customer web inquiry, role of ITS in route selection, toll system use, congestion, training activities, and logistics markets.

**PUBP 717 - Analysis for Transportation Managers**

Credits: 4 (NR)
Introduces basic methods of transportation analysis and evaluation relating them to policy framework. Covers descriptive statistics, hypothesis testing, contingency tables (Chi-Square analysis), regression, optimization, demand elasticities, and gravity model. Also covers sources of transportation data and research design. Teaches mathematical base and logic of each technique, but primary emphasis is applying methods to relevant policy and management problems. Students required to complete series of assignments along with research proposal focused on applying one or more methods to problem of their own interest.

**PUBP 718 - Transportation Planning and Policy**

Credits: 3 (NR)
Introduces highway, rail, air, and water transport planning in United States. Teaches legislative, organizational, fiscal, legal and political environment within which planning for transportation facilities and services takes place. Introduce technical and analytical methods for transportation planning. Focus is largely on public sector, but also considers commercial transport planning and role of private sector in helping to design, manage, and finance transport systems.

**PUBP 719 - Transportation Law**
Examines legal environment of transportation. Topics include basic legal concepts and institutions, history and evolution of price and service regulation, environmental law and regulation, labor relations, and property.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 720 - Managerial Economics and Policy Analysis**

Credits: 3 (NR)
Introduces microeconomics theory and its application in analyzing public policy issues. Provides capability to understand economic literature and theories.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 721 - Transportation Economics**

Credits: 3 (NR)
Provides basis for understanding economics of transport system, and how transportation relates to urban and regional development. Treats transport generically, but includes case studies of specific modes.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 722 - Practicum in Transportation Policy, Operations, and Logistics**

Credits: 3 (NR)
In-depth field study of ongoing transportation policy, operations, or logistics situations; and design and delivery of actions to manage or resolve problems and opportunities. Range of application areas depends on interests of student body and opportunities faculty identify for "clients" or real-world projects. Illustrative domain areas include surface transportation (highways and transit), airports, and aviation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 723 - Metropolitan Transportation Policy**

Credits: 3 (NR)
Recent changes in federal legislation have led to renewed importance for transportation policy and planning. Considerations of clean air, economic development, congestion management, and changing urban form have greatly increased importance of well-planned transportation facilities and policies. Course introduces basic methods of transportation policy analysis and evaluation. Topics include data collection, simplified demand estimation techniques, transportation choice modeling, transportation supply analysis, and ex-ante and ex-post evaluation methods.
PUBP 726 - Telecommunications Policy

Credits: 3 (NR)
Examines salient issues associated with telecommunications and electronic commerce in context of public policy questions facing decision makers in government, education, and business. Examples include privacy, electronic signatures, digital divide, bandwidth auctions, IP telephony, CRM, Bluetooth, and Internet taxation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 730 - US National Policy Systems and Theory

Credits: 3 (NR)
Provides inquiry into policy-making environment, organized around U.S. federal system. Examines nation's policy systems and key components: actors, institutions of governance, outside groups, and other influential interests. Special emphasis on dynamic character of policy making. In addition, different policy theories discussed in context of current political realities.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 731 - Macroeconomic Policy Assessment

Credits: 3 (NR)
Covers monetary theory, theories of consumption and saving, budget deficits, economic growth, international finance, and monetary and fiscal policy. Investigates national income and product accounts, savings, employment, and investment, and alternatives to Keynesian principles. Evaluates theories of inflation, investment, capital accumulation, and nonproportional growth.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 733 - Urban Politics and Policy

Credits: 3 (NR)
This course explores the factors that guide and affect urban politics and policy including, but not limited to, housing, public education, criminal justice, employment, and economic development. It is designed to provide students with an introduction to the major theories and some of the significant research in urban politics and policy. The primary focus will be on large American cities.
PUBP 734 - Administrative Law and Public Policy

Credits: 3 (NR)
Covers administrative discretion, rule-making and agency proceedings, public participation, political accountability, regulatory processes, oversight, formal adjudication and informal action, lobbying agency administrators, and political and legal nature of the administrative process.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 735 - Lobbying and Interest Representation

Credits: 3 (NR)
To work effectively within a democratic political environment, policy analyst must understand contemporary methods used to influence policy. Course focuses on roles and techniques of organized influence, and its impact on policy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 736 - International Migration and Public Policy

Credits: 3 (NR)
Examines demographic, economic, political, and social forces driving international migration on a global basis in the twenty-first century. Considers policy responses within sending and receiving countries and at the global level, including the role of international cooperation and institution-building.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 737 - Cases and Concepts in E-Government

Credits: 3 (NR)
Electronic government has become a significant public policy issue worldwide. It offers the prospect of dramatic improvements in delivering government services, but also portends major debate about government intrusion. Course covers emerging public policy issues associated with electronic government: job displacement in public sector, privacy, procurement and supply chain management, voter profiling, scope of government services, challenges to "digital democracy," Internet-based voting, land management, the "digital divide," and others.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUBP 739 - Media and Public Policy

Credits: 3 (NR)
Explores complex relationship between media and public policy. Examines how these forces collide in our modern media, how coverage decisions regarding public policy are made in newsrooms, how advocates use and rely on the media to advance message, and how different media reflect different strengths and vulnerabilities.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 740 - U.S. Foreign Policy: Formulation and Practice

Credits: 3 (NR)
Focuses on policy formulation and policy implementation. The principal arenas of foreign policy are explored, including the White House, the State Department, the defense and intelligence communities, and the Congressional committees. These arenas are both affected by and influential upon the exogenous systems, such as the media, public opinion, interest groups, foreign governments, and international organizations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 741 - U.S. Financial Policy Processes and Procedures

Credits: 3 (NR)
Examines design and operation of expenditure and revenue systems at federal, state, and local levels of U.S. government. Stresses mobilizing and allocating resources through planning, adoption, and execution of budget. Includes theory and policy objectives of tax and spending regimes and review of financial controls, performance measurement, cash and debt management, and accounting and financial reporting systems.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 742 - Transportation Safety and Security

Credits: 3 (NR)
Examines transportation safety and security from multimodal perspective for both passenger and freight. Topics include historical context and policy framework, regulation, institutional issues, new security arrangements for preventing organized terrorist attacks, infrastructure design, vehicle design, operating protocols, and information systems.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUBP 743 - National Security Management and Policy

Credits: 3 (NR)
Examines hierarchies in national security from the president to military establishment, including National Security Council, secretary of defense, joint chiefs of staff, commanders-in-chief of unified and specified commands, and intelligence agencies. Covers policies involving national defense, peace-keeping operations, embargoes and other sanctions, defense conversion, and military acquisition policy. Also covers significant legislation affecting national security, such as National Security Act of 1947 and Goldwater-Nichols Act of 1986.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 744 - Federal Institutions and Management

Credits: 3 (NR)
Covers management and policy in federal government, examining policy problems within context of national system of governance, including political environment, evolution and constitutional framework of American government, U.S. Congress, executive branch from White House to agencies, and role of interest groups and political parties. Special attention to implementing legislation, regulatory process, and intergovernmental relations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 745 - Transportation and the Environment

Credits: 3 (NR)
Multidisciplinary examination of implications of transportation and ways public policy has attempted to handle them, and how policy may move in the future. Explores all modes of transportation and most environmental ramifications.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 747 - Air Transportation Policy, Operations and Logistics

Credits: 3 (NR)
Reviews evolution of various forms of air transport such as airlines, general aviation, and military aviation; and includes basics of airline economics, especially as they intersect with airline operations and the management of hub and spoke networks; air traffic control technologies and operations and their intersection with airline economics; safety and security technologies and regulations; future of various elements of air transportation; and effects of deregulation on air travel.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 748 - Public Transportation Policy, Operations and Logistics
Credits: 3 (NR)
Provides general system description for components comprising typical publicly funded transit property. Topics include organizational structure, historical context, budget development including operating and capital budgets, personnel and labor relations, regulatory framework, operations management (bus and commuter rail), reporting structure, customer service, and contracted operations. Also discusses current topics of interest, such as security of transit systems and transit's role in air quality.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 750 - History of Military Operations Other than War

Credits: 3 (NR)
Focuses on history of military activity in support of noncombat missions. Uses historical examples of early days of United States and colonial histories of Western and Eastern powers. Also touches on use of military force in support of multinational peace operations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 751 - International Police Operations

Credits: 3 (NR)
Analyzes role of international police monitors and domestic police forces in international peace operations. Focuses on how using international police monitors and developing indigenous law-enforcement capabilities can improve prospects for success of international peace operations. Examines origins, mandates, planning, and deployment of international civilian police forces; problems of coordinating international police operations with international military forces and local security forces; international role in developing democratically oriented police forces; relationship of police to the entire judicial system; and the need to continue assistance to all parts of the judicial system beyond initial intervention.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 752 - Infrastructure Finance

Credits: 3 (NR)
Covers planning, budgeting, and financing of infrastructure, including air, water and surface transportation, public utilities, and other major public works. Focuses on private capital markets for projects funding as well as domestic and international loan and grant programs.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 753 - Ethics in Public Policy
Credits: 3 (NR)
Inquiry into ethical and moral issues in public policy. Explores issues that are controversial and often confusing to public policy makers such as health care, secrecy in government, surrogate motherhood, and disability. Perspectives are national as well as global, and deal with impact of culture and politics on ethical dilemmas confronting society. Also looks at processes by which specific ethical systems are incorporated into governing bodies. Larger issues, such as war and peace, just and unjust wars, capital punishment, medical and legal ethics, and communitarian vs. individual liberties are also included, with emphasis on how they affect public policy.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PUBP 754 - Geographic Information Systems and Spatial Analysis for Public Policy**

Credits: 3 (NR)
Introduces GIS including analytical tools to manipulate and study spatial data. Run mainly as a laboratory, with extensive hands-on experience. Focuses on public policy applications.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PUBP 755 - National Security Decision-Making Policy**

Credits: 3 (NR)
Applies behavioral, economic, strategic, and other decision theories to U.S. government and other actors in historical national security crisis cases and current policy issues. Explores tension in decisions between rational goal seeking by actors vs. organizational process, and aims to develop usable decision tools.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PUBP 756 - Global Medical Systems Policy Analysis**

Credits: 3 (NR)
Equips students with knowledge and skills to critically analyze structures, functions, governing policies, and performance of healthcare systems; to identify problems and solutions; and to devise alternative courses of action and reform policies that would contribute to achieving goals. Prepares students in policy analysis rooted in systems analysis, while linking issues, objectives, and solutions with the larger context in which a system is embedded.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**PUBP 757 - Public Policy in Global Health and Medical Practice**
Credits: 3 (NR)
Introduces international medical policy. Covers globalization of health and medical policies directed at removing disparities, financing, ethical considerations of biomedical research, and use of emerging technologies.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 758 - Global Threats and Medical Policies**

Credits: 3 (NR)
Explores medical and health governance, biosecurity and biosafety, health and natural and human-made disasters, humanitarian and emergency assistance, vaccine development, behavior and health, critical infrastructures, bioethics and resource allocations in global context.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 759 - National Security Law and Public Policy**

Credits: 3 (NR)
Introduces legal and policy issues concerning current U.S. national security. Its emphasis is on developments since 9/11. It focuses on the legal rules governing the formulation and execution of U.S. national security policy. It examines U.S. and international law as well as general domestic and foreign policy considerations. In particular, the course considers the principal cases, legislation and treaties impacting U.S. national security. Special emphasis is on the interplay of national security concerns and civil liberties in this age of global and transnational terrorism.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 760 - Science and Technology Policy in the 21st Century**

Credits: 3 (NR)
Investigates roles dynamic scientific research and technological innovation play in contemporary society. Focuses on design and analysis of alternative public policies intended to influence rate and direction of technological change in societies, and use of scientific and technical knowledge in public policy making. Uses historical and international comparative approaches to assess politics and pragmatics of science and technology policy. Includes material from policy evaluation and analysis, organization theory, economics of innovation, and sociology of science and technology. Applications focus on areas of concern to "new economy" such as biotechnology, networked telecommunications and computing, and globalization of technology-based production.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 761 - Social Entrepreneurship and Public Policy**
This course is about people who start new ventures with the explicit objective of creating social as well as private value. As societies and the challenges they face become ever more complex, existing institutions and incentive structures may or may not be adequate to address new generations of problems. Social entrepreneurs innovate new organizational forms with the objective of finding solutions in the public interest. Students in this course will be challenged to integrate elements of business strategy and policy analysis toward the objective of crafting a practical plan for the launch of a novel and needed social venture.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PUBP 762 - Social Institutions and Public Policy

Credits: 3 (NR)  
Limited government involvement in social policies changed drastically during the 1960s, with an explosion of social programs designed to ameliorate poverty, reduce crime, and eliminate racial segregation. These new social policies affect many institutions, including family, schools and colleges, criminal justice system, and government agencies. Many of these policies have been controversial, with debates over efficacy and whether they have cured or exacerbated social problems. Course examines evolution and status of selected American social policies, including civil rights policies, education reform, family policy, crime prevention, and other topics chosen by students. Readings and discussions on policy issues linked to readings and discussions on social theories and value systems that underpin social policies.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PUBP 763 - Illicit Trade

Credits: 3 (NR)  
Examines the role that illicit trade assumes in international trade and commerce. Studies diverse international forms of illicit trade, the role that it assumes in perpetuating conflicts and the most pervasive forms of this illicit trade. Examines the actors who perpetrate this trade and the policies which are needed to stem its growth.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

### PUBP 764 - Transnational Crime and Corruption

Credits: 3 (NR)  
Provides an overview of transnational crime and corruption and its effects on the political, economic, and social development of countries globally. Focuses on the growing problem of transnational crime in conflict regions. The course addresses the links among crime groups, corruption and terrorism. It analyzes diverse range of activities of transnational crime groups in both the legitimate and illegitimate economy.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall
PUBP 765 - Human Smuggling and Trafficking

Credits: 3 (NR)
Examines the rapidly growing phenomenon of human smuggling and trafficking. Addresses the reasons for the growth of these phenomena and their far-reaching and diverse social, political and economic consequences globally. Transnational crime dimensions of the problem are a central component of the class. The phenomenon is examined in conflict regions, developing, diverse developed as well as transitional societies.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 766 - Modern Counterinsurgency: Theory and Practice

Credits: 3 (NR)
This course is intended to give students a broad understanding of the nature of counterinsurgency, the policy implications of the U.S. becoming involved in an insurgency, and the multifaceted, interagency approach that is required to successfully combat an insurgency. The course includes case studies, a review of contemporary U.S. counterinsurgency practices, and insights on what the future might hold in this important type of conflict.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 767 - Global Comparative Medical Practices, Ethics and Law

Credits: 3 (NR)
Examines major ethical issues raised in medical practice around the world. Studies issues comparatively and applies various ethical frameworks to study them. Considers various legal and policy solutions derived to deal with them. Principles of biomedical ethics as well as consideration of several major schools of thought in political philosophy, including utilitarianism, libertarianism and communitarianism will be considered.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 768 - Education and Public Policy

Credits: 3 (NR)
Explores current issues and policy initiatives in education policy at federal, state, and local levels, with emphasis on education reform. Issues and topics vary. Typical policy issues include raising academic standards, high-stakes testing, alternative governance including school choice and voucher policies, teacher quality and certification, role of school resources in academic outputs, and equity topics.
PUBP 769 - Political Violence and Terrorism

Credits: 3 (NR)
Examines the persistent threat of terrorism and political violence to international stability generally, and U.S. national security interests in particular. Provides students with a long-term analytical and substantive foundation to deepen their knowledge and effectiveness as policy-makers in national security, diplomacy, homeland security, law enforcement, humanitarian law, peace operations, postconflict reconstruction, development assistance, public diplomacy and other related areas.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 770 - Global Health and Medical Policy Analysis

Credits: 3 (NR)
Prepares students in global health and medical policy analysis with a focus on processes, roles, expenditures, alternatives and tradeoffs in different country settings.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 771 - Grand Strategy

Credits: 3 (NR)
Uses the traditional tools of history and theory to analyze grand strategy. The goal is to gain an in-depth understanding of effective and ineffective grand strategies so as to inform U.S. policy, or that of other countries. Analyzing the strategic implications of policy-making, it takes a long view of effective statecraft, using current means to achieve large ends.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

PUBP 775 - Economics of Electronic Commerce

Credits: 3 (NR)
Focuses on gaining competitive advantage through electronic commerce implementation; identification and growing of new market opportunities and electronic enabling of existing business relationships; and business-to-consumer relationships and economics of strategic procurement, ERP hosting, customer relationship management, catalog hosting, portal operations, and supplier management.
PUBP 777 - Critical Infrastructure Protection: Policy and Practice

Credits: 3 (NR)
Introduces critical infrastructure protection and resilience as a policy field, examines its governance framework, and considers its foundations in institutional theory and risk analysis.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 780 - Evolution of the Washington Metropolitan Economy

Credits: 3 (NR)
Includes historical context, role of federal spending, tourism, technology sector, international business, regional organizations, local government policies, and forecasts. Evaluates development patterns in Washington, D.C., Northern Virginia, and suburban Maryland.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 781 - Entrepreneurship and Economic Development

Credits: 3 (NR)
A knowledge spillover theory of entrepreneurship is employed to link between theories of entrepreneurship and theories of innovation and regional development. Other interconnections are explored at the regional level as firms forge networks, clusters, and specialized markets. The public policy issues of these constructs, including competition policy, industrial policy, and cluster policy, are examined within a regional and global context.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 782 - International Financial Policy

Credits: 3 (NR)
Addresses theory of international finance, application to financial policy such as exchange rate regimes, and institutions of international finance. Covers operations of International Monetary Fund and World Bank, development of European Monetary Union, and debate over "international financial architecture."

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUBP 783 - Global Governance

Credits: 3 (NR)
Surveys important issues in global governance given changes in contemporary world. Explores dynamics and complexity of formal and informal actors, institutional arrangements, organizations, and roles in process of governance in international sphere. Considers states, governmental and nongovernmental organizations, international regimes, social movements, regional associations, and multinational corporations as actors bearing on transnational authority. Examines various vehicles for international coordination and conflict in terms of relevance and opportunities for global governance.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 784 - Entrepreneurship, Economics, and Public Policy

Credits: 3 (NR)
To demonstrate that global capitalism is a process driven by entrepreneurship, students study the Austrian school of economics, which views capitalism as a process of creative destruction, as well as other economists who emphasize entrepreneurship and change. The course reviews the history of capitalism, focusing on the so-called industrial revolutions in Britain, Germany, Japan, and the United States, and on particular historical and current entrepreneurs.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 791 - Advanced Field Research for Policy: Theory and Method

Credits: 4 (NR)
Teaches how to analyze the framing of policy questions and examine culture and organization at group, organizational, interorganizational, and societal levels. Covers case study research, open-ended interviewing, participant-observation, social network analysis, and historical and archival research.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 792 - Advanced Economic Analysis for Policy Research

Credits: 4 (NR)
Builds analytical skills in economic analysis for policy research for students with competence in elementary calculus. Reviews mathematical techniques and covers consumer theory, demand estimation and forecasting, production theory, cost-benefit analysis, technological change and productivity analysis, growth theory, market structure and competition, game theory, capital budgeting, and public sector's role in the economy.

Prerequisite(s): PUBP 720 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
**PUBP 793 - Large-Scale Database Construction and Management for Policy Research**

Credits: 4 (NR)
Explores data resources for macro-comparative policy research, and how to use these to inform decision making and evaluate policy performance. Emphasizes how social science data is generated, coded, and managed; and methods for successful presentation of evidence in support of policy recommendations.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PUBP 794 - Internship**

Credits: 1-6 (RT)
Open only to students in SPP degree program requiring internship. Contact appropriate program director one semester before enrollment. Work-study programs with specific employers.

**Prerequisite(s):** 12 PUBP credits, or permission of instructor.

**Notes:** Credit determined by appropriate degree program.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit

---

**PUBP 795 - Final Project**

Credits: 1-3 (NR)
Project developed drawing on key themes of the program, in consultation with the program director.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

---

**PUBP 796 - Directed Readings and Research**

Credits: 1-3 (RT)
Independent reading and research at master's or doctoral level on specific topic related to public policy as agreed to by student and faculty member.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PUBP 799 - Master's Thesis**
Individualized section form required. Original research endeavor related to student's program concentration. Research must result in document meeting public policy and university standards.

Prerequisite(s): Degree candidacy in public policy master's program; completion of required credits of graduate course work; and approval of thesis proposal by faculty advisor, two committee members, and program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: S/NC

PUBP 800 - Culture and Public Policy

Credits: 1-4 (NR)
Comparative analysis of the role of culture in shaping policy environments and outcomes. Introduces analytical methods for studying culture, including measurement of social and cultural change, surveys, and field studies. Presents major findings and research issues regarding the role of culture in democracy, ethnic and gender relations, economic growth and other policy issues. Focuses on differences among national and regional cultures, and their policy implications.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 801 - Research Design for Public Policy

Credits: 1-4 (NR)
Provides an introduction to the theory and practice of research in public policy. Gives students an understanding of issues in the philosophy of science and different approaches to social science research. Provides broad overviews of quantitative and qualitative methodologies, with a major emphasis on research design, including conceptualization, the role of theory, hypothesis generation, inference and bias.

Prerequisite(s): PUB 720 and PUB 730, or their equivalents strongly recommended.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 802 - The Logic of Policy Inquiry

Credits: 1-4 (NR)
Defines policy research problems, questions, and hypotheses. Explores modes of policy research, analysis, and rhetoric, including interdisciplinary research strategies. Uses information sources to emphasize written communication of policy research results. Also discusses professional practice issues.

Prerequisite(s): Enrollment in doctoral program in public policy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUBP 804 - Multivariate Statistical Analysis in Public Policy

Credits: 4 (NR)
Explores multivariate techniques of contingency table analysis, reliability and validity assessment, factor analysis and scaling, multivariate regression and path analysis, analysis of variance and covariance, and other selected multivariate techniques. Emphasizes applying these techniques to real policy data using sophisticated statistical packages.

Prerequisite(s): PUBP 704 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 805 - Foundations of Social Science for Public Policy

Credits: 4 (NR)
Grounds doctoral students in core concepts of political science and economics through critical analysis of classic sources, old and new. Topics may include theory of the state, state-market relations, democratic governance, markets and economic institutions, and other relevant frameworks for public policy research.

Prerequisite(s): PUBP 730 or equivalent.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

PUBP 806 - Advanced Management Science for Public Organizations

Credits: 3 (NR)
Primary emphasis is to understand techniques of operations research and management science, cost benefits, and cost effectiveness for public policy decision making. Some familiarity with elementary calculus and linear algebra helps with understanding mathematical basis of algorithms used to solve models, and reliability and validity of these techniques. Case studies and computer solutions help students understand when and how to use OR models.

Prerequisite(s): PUBP 712 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 810 - Regional Development and Transportation Policy

Credits: 4 (NR)
Introduces and critiques theory and methods used in regional and transportation policy analysis. Explores central place, growth pole, and economic base theories as well as other theoretical constructs used in regional policy analysis. Introduces and examines methodological tools such as regional econometric modeling, multiobjective programming, shift-share analysis, economic base analysis, location quotient analysis, and input-output analysis. Examines selected regional and transportation public issues using
theoretical and methodological constructs introduced in first part of course.

**Hours of Lecture or Seminar per week:** 2-3  
**Hours of Lab or Studio per week:** 0-1

**PUBP 811 - Applied Methods in Regional Development and Transportation Policy**

Credits: 4 (NR)  
Students develop research papers that investigate aspect of regional and transportation policy, with goal of producing publishable papers. Students develop focus of paper based on work done in first semester, and are expected to prepare two-page proposal followed by detailed proposal and finally, completed paper. Each is critiqued in the seminar, which is organized to conform to process of review and critique. Instructor works with students individually as well as in seminar sessions.

**Hours of Lecture or Seminar per week:** 2-3  
**Hours of Lab or Studio per week:** 0-1

**PUBP 817 - Policy Research Topics: Transportation Policy**

Credits: 3 (NR)  
Research workshop examining development of policy research and relevant methodologies linked directly to faculty and student interests. Students identify cutting-edge policy concerns and execute research program. The 4-credit version of course requires discussion section and research laboratory.

**Hours of Lecture or Seminar per week:** 2-3  
**Hours of Lab or Studio per week:** 0-1

**PUBP 820 - Technology, Science, and Innovation: Institutions and Governance**

Credits: 4 (NR)  
First of two-semester core seminar sequence required for public policy PhD students in science and technology policy concentration. Explores how political and economic institutions and cultural values shape pace, direction, costs, and benefits of technological innovation and scientific research. Special emphasis on interaction between national institutions, and values and processes of globalization.

**Hours of Lecture or Seminar per week:** 2-3  
**Hours of Lab or Studio per week:** 0-1

**PUBP 821 - Analytic Methods for Technology, Science, and Innovation Policy**

Credits: 4 (NR)  
Second of two-semester core seminar sequence required for public policy PhD students in science and technology policy concentration. Covers major methodological approaches to study of technology, science, innovation, and public policy. Focuses on analytical inputs to policy making, and assesses practical consequences in such areas as security, energy, environment, and health.
PUBP 830 - Comparative Socioeconomic Policy

Credits: 1-4 (NR)
Throughout the past century, numerous socioeconomic theories have competed for primacy. This course compares, contrasts, and analyzes some of the leading socioeconomic theories and policies and places them in a global context. The role of these theories in shaping current public policy is explored.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 833 - Topics in Public Policy

Credits: 1-4 (RT)
Focuses on selected topics in public policy not covered in fixed-content public policy courses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 834 - Entrepreneurship, Growth, and Public Policy

Credits: 1-4 (NR)
Focuses on a closer consonance among entrepreneurship, geography, and economic growth. Studies the creation and incubation of new knowledge and features three theoretical fields: the new growth theory; the new economic geography; and the new economics of innovation. Develops a knowledge spillover theory of entrepreneurship. Examines public policy issues arising from these constructs, including competition, within a regional and global context.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 835 - Entrepreneurship, Creativity, and Innovation

Credits: 1-4 (NR)
Provides multidisciplinary foundation for the study of entrepreneurship, creativity, and innovation, and their effects on regional and national economic growth. Draws from seminal thinkers and emphasizes creativity and innovation. Examines how organizational change, institutional structure, and geographic clustering drive the development of regional and national economies. Explores these issues through the lens of the three Ts of economic growth: technology, talent, and tolerance.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUBP 840 - U.S. Policy-Making Institutions

Credits: 4 (NR)
First of two-semester sequence in governance and public management policy concentration. Examines major institutions that formulate and implement policy at national level. Emphasizes presidency, Congress, and executive branch bureaucracies. Also considers agenda-building institutions such as media, interest groups, political parties, and elections.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 841 - U.S. Policy-Making Processes

Credits: 4 (NR)
Second of two-semester sequence in governance and public management policy concentration. Analyzes major U.S. Public policy processes. Attention to major instruments for implementing policy, including regulation, grants, tax policy, and market-based mechanisms; and how different methodologies are appropriate for understanding aspects of policy inquiry. Covers ethical and accountability aspects of policy, including federalism, intergovernmental relations, and state and local governance.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 850 - Seminar in Public Policy

Credits: 1 (RT)
Weekly colloquium series, required of public policy PhD students. Features variety of speakers from universities, government, and nonprofit sectors. Topics include policy formulation and analysis, and theoretical and methodological foundation.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

PUBP 860 - Social Theory, Culture, and Public Policy

Credits: 4 (NR)
Covers major social and cultural theories that underlie public policies. Selections from classical and contemporary social theorists relevant to studying social change, social capital, and social organization. Focuses on interplay among culture, social institutions, social processes, and policy.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 861 - Culture and Social Policy Analysis
Credits: 4 (NR)
Applies social and cultural theories to policy topics, including methodological approaches and empirical studies. Emphasizes linkage between theory and empirical research, and methods appropriate for social policy study. Policy topics may include poverty and inequality, family, education, crime and corruption, immigration, and health.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 862 - Institutional Analysis and Policy

Credits: 4 (NR)
Policy analysts are increasingly cognizant of the influence of societal institutions in shaping public policy, not only in terms of policy design, but also as a determinant of implementation. This course reviews the growing literature regarding institutional analysis; furthermore, it considers the ways in which institutions help shape the policies that emerge within a given society and the context by which they are evaluated.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 870 - Organizational and Policy Aspects of Informatics

Credits: 1-4 (NR)
Examines effects of informatics on national and international policy; setting international policy on informatics; ethical and social change in governments and organizations; shaping national policy in informatics; industry growth; and research methods from various scientific disciplines.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 871 - Organizational and Information Technology Challenges of the Knowledge Society

Credits: 4 (NR)
Explores links of policy, managing organizations, and information technologies in postmodern era. Includes issues related to contradictions among conventional models of organizational and process design, policy and regulatory structures, ideologies, and information technologies. Provides framework for becoming more sophisticated analyst of policy, organizations, and information technology.

Prerequisite(s): PUBP 870.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 872 - Managing Knowledge-Based, Information-Intensive Organizations
Deals with challenges of planning, creating, integrating, and managing contemporary information-technology enabled public and private sector organizations, and managing relationships between public and private enterprises enabled by information technology initiatives.

**PUBP 880 - Global and International Public Policy I**

Credits: 4 (NR)
Explores multiple dimensions of globalization and internationalization relative to public policy processes and consequences. Offers substantive insight into contemporary public policy dynamics from global and comparative perspectives. Accordingly, it examines a broad range of international cultural, political, technological, and economic policy issues, and their interactions and implications at all levels of analysis. Engages relevant theoretical and methodological approaches and debates to provide tools for analyzing various world problems and policies.

**PUBP 881 - International Trade Policy**

Credits: 4 (NR)
Addresses international trade theory, trade policy analysis, regional economic integration, and institutional arrangements governing world trade. Covers World Trade Organization (including constituent agreements in goods, services, intellectual property and trade-related investment measures), regional trade agreements such as NAFTA, dispute settlement regimes, and relations between trade and the environment.

**PUBP 997 - Field Statement**

Credits: 1 (NR)
Requires work on field statement in preparation for field exam.

**Prerequisite(s):** Permission of field committee chair.

**Notes:** Must register in semester during which field exam will be taken. May not be repeated. Does not apply to credit degree requirements.
**PUBP 998 - Research/Proposal for Dissertation**

Credits: 1-9 (RD)
Requires work on research proposal that forms basis for doctoral dissertation.

Prerequisite(s): Permission of instructor. Contact program coordinator for approval and CRN to register via PatriotWeb.

Notes: May be repeated, but no more than 24 credits of PUBP 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

**PUBP 999 - Dissertation**

Credits: 1-9 (RD)
Requires research on approved dissertation topic under director on dissertation committee.

Prerequisite(s): Permission of instructor.

Notes: May be repeated, but no more than 24 credits of PUBP 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

**Real Estate (REAL)**

Offered by the School of Management

**REAL 500 - Real Estate Development Fundamentals**

Credits: 3 (NR)
A comprehensive study of the main elements of the real estate development process. Examines the intricacies between residential, commercial and mixed-use development, and approaches to optimizing each. The value of market research and analysis, determining value propositions of prospective deals, zoning considerations, design and construction issues, and asset management will also be examined.

Prerequisite(s): Graduate standing

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**REAL 502 - Real Estate Client Leadership and Project Management**
A study of the challenges faced by developers, both in terms of client (owner) challenges as well as project challenges. Examines assessment approaches and frameworks to assess clients, including analyzing the maturity of a representative client and identify key approaches to optimizing the relationship of that client. Examines specific project challenges-project assessment frameworks, and improvement approaches.

**Prerequisite(s):** Graduate standing, REAL 500 (or CEIE 580), or permission of the program director.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**REAL 610 - Management of Real Estate Design and Development**

Credits: 3 (NR)  
Course develops a framework for understanding and managing processes associated with design and construction of real estate assets. Course focuses on the specific phases comprising a real estate development project and integration of these elements to achieve success. Topics include developing and coordinating service providers relationships, managing stages involved in the development cycle, understanding and controlling risks, and resolving disputes.

**Prerequisite(s):** Admission to the MSREAL Program or permission of the program director.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**REAL 615 - Real Estate Market Analysis and Research**

Credits: 3 (NR)  
The course will provide an introduction to the methods used in analyzing real estate markets from the perspective of decision-makers who are considering potential development, investment, or financing decisions. The courses will focus on sources and analysis of data for examining project feasibility and scope, timing and phasing of development, and communicating with prospective financial partners.

**Prerequisite(s):** Admission to the MSREAL Program or permission of the program director.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**REAL 630 - Innovative Land Use, Approvals and Real Estate Development**

Credits: 3 (NR)  
Examines the challenges in designing innovative uses for land and balancing those prospective uses with local urban policies and the land development/zoning process. Introduces the entitlements process, the legal considerations of planning and zoning in America, and the language of zoning. Explores the impacts of the different forms of government on the entitlement process.

**Prerequisite(s):** Admission to the MSRED program or permission of the program director.
REAL 690 - Topics in Real Estate Development

Credits: 1-6 (RD)
Explores contemporary issues and challenges in the management and development of real estate. Topics not covered in the regular real estate development offerings. Course content may vary each semester. Course may be repeated with change in topic.

Prerequisite(s): Admission to the MSRED Program or permission of the program director.

REAL 750 - MSRED Capstone

Credits: 3 (NR)
The Capstone Project will be the culmination of the master's program, offered at the end of the program. The course will combine the theoretical teachings from the program with real world, practical situations. Students will apply concepts learned to current development and construction projects in the Washington, D.C. metropolitan area. One of the sample cases involves the potential future uses of a plot of land in the metro area, a mixed-use high-density area that is slated to undergo significant transformation. The case will request project teams to explore the various options, employing a decision-tree approach to fully analyze the options, and examining the SWOT, local urban management policies, future valuation streams, and environmental impacts of each. A site visit will be required, as well as visits to various developers engaged in similar projects.

Prerequisite(s): Admission to the MSRED Program or permission of the program director.

REAL 796 - Directed Reading

Credits: 1-6 (RD)

Admission to the MSRED program or permission of the program director.

Prerequisite(s): Admission to the MSRED program or permission of the program director.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Reading Education (EDRD)

Offered by the College of Education and Human Development

EDRD 300 - Literacy and Curriculum Integration

Credits: 3 (NR)
Introduces K-12 content area reading, writing, and language arts. Emphasizes integration of reading and other language arts across curriculum.

Notes: Intended as an introduction to educational issues and is not applicable in Mason's graduate-level teacher education programs. School-based field experience required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDRD 301 - Facilitating Literacy in School or Community Settings

Credits: 3 (NR)
Provides knowledge, teaching strategies, and support for students working with developing readers and writers. Emphasizes implementation strategies that foster literacy development; incorporation of trade books and technology resources into individual and small group work; and reflection.

Notes: Requires 45 hours of school-based field experience during course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDRD 419 - Literacy in the Content Areas

Credits: 3 (NR)
Assists students in understanding the language and literacy process as it applies to teaching in middle and high schools. Focuses on instructional strategies to support literacy development, including adaptations for culturally diverse and exceptional learners.

Prerequisite(s): EDCI 473 and EDCI 483.

Corequisite(s): EDCI 490.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDRD 501 - Literacy and Curriculum Integration, PK-12
EDRD 525 - Emergent Literacy for English Language Learners, PK-12

Credits: 3 (NR)
Provides an introduction to emergent reading/writing processes in first and second languages. Focuses on developing reading skills in five areas: phonemic awareness, phonics, fluency, vocabulary, and text comprehension.

Prerequisite(s): EDCI 510, EDCI 516, or Permission of Instructor

EDRD 558 - Literacy in the Content Areas, PK-12

Credits: 3 (NR)
Focuses on research-based introduction to PK-12 content area reading, writing, and language arts that meet state and national guidelines. Enables teachers to understand literacy needs of their students in content areas, and provide appropriate instruction.

EDRD 597 - Special Topics in Education

Credits: 1-6 (RD)
Provides advanced study on selected topic or emerging issue in American or international education.

Notes: May be repeated for credit with GSE permission.

EDRD 610 - Content Literacy for English Language Learners, PK-12

Credits: 3 (NR)
Focus on research-based instruction for teaching reading and writing in the content areas. Emphasizes similarities and differences between reading and writing in two or more languages, vocabulary development, reading fluency, and strategies for text comprehension.
Prerequisite(s): EDRD 525 or Permission of Instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**EDRD 614 - Teaching Reading in the Secondary School**

Credits: 3 (NR)
Emphasizes reading and writing in content areas; reading and writing causes, classroom diagnosis, and remediation of reading problems; study skills; and rates of reading.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**EDRD 615 - Reading/Writing for Multilingual Students**

Credits: 3 (NR)
Develops instructional competencies in reading and writing approaches for students from culturally and linguistically diverse backgrounds. Examines teaching reading and writing across curriculum, biliteracy acquisition, historical and current approaches for second language learners, preliteracy skills for younger and older English language learners, and special issues in developmental and diagnostic reading for language minority students.

Prerequisite(s): EDCI 516 and 519, or permission of instructor or advisor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

**EDRD 619 - Literacy in Content Areas**

Credits: 3 (NR)
Offers understanding of language and literacy process as it applies to teaching in secondary schools. Emphasizes reading and writing in content areas, and instructional strategies to support students' literacy development. Focuses on ways reading, writing, speaking, and listening are developed and used in learning discipline-specific curriculum, including adaptations for culturally diverse and exceptional learners.

Prerequisite(s): Methods I (EDCI 567, 569, 572, or 573) and Methods II (EDCI 667, 669, 672, or 673).

Corequisite(s): EDCI 790 Internship.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**EDRD 620 - Reading/Writing in Foreign/World Languages**
Introduces reading and writing processes in foreign and second languages, research on reading comprehension, and effective teaching and assessment approaches for students in PK-12 schools. Topics include reading goals and standards for foreign language learning, sociocultural perspectives, multimedia computer-assistance, research on related strategies and skills, and performance-based assessments.

**Prerequisite(s):** EDCI 516 and 519, or permission of instructor or advisor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDRD 630 - Literacy Foundations and Instruction for Diverse Populations: Birth through Middle Childhood**

Credits: 3 (NR)  
Study of literacy theory, research, and practice as it relates to younger learners. Includes teaching of reading to English Language Learners and language acquisition for diverse populations (Special Education students who access the general curriculum). Addresses sociocultural, cognitive, linguistic, psychological, and developmental influences on children's literacy. Includes reading, writing, and oral communication.

**Prerequisite(s):** Admission to the literacy emphasis, or permission of program coordinator.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**EDRD 631 - Literacy Foundations and Instruction for Diverse Populations: Adolescence Through Adulthood**

Credits: 3 (NR)  
Study of literacy theory, research, and practice as it relates to adolescents and adults. Addresses sociocultural, cognitive, linguistic, psychological, and developmental influences on literacy. Includes reading, writing, and oral communication.

**Prerequisite(s):** EDRD 630 and admission to the literacy emphasis, or permission of program coordinator.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**EDRD 632 - Literacy Assessments and Interventions for Groups**

Credits: 3 (NR)  
Provides literacy assessments and interventions for groups of learners. Includes exploration of assessment tools for classrooms and large populations. Class members conduct related practice in their own classrooms or specified field settings.

**Prerequisite(s):** EDRD 630 and 631; admission to literacy emphasis, or permission of the program coordinator.
EDRD 633 - Literacy Assessments and Interventions for Individuals

Credits: 3 (NR)
Provides literacy assessments and interventions for individuals. Includes diagnosis and remediation for learners who find reading and writing difficult. Requires assigned practicum experience.

Prerequisite(s): EDRD 630, 631, and 632; admission to literacy emphasis; or permission of program coordinator.

EDRD 634 - School-Based Leadership in Literacy

Credits: 3 (NR)
Prepares reading specialist as a school leader. Expands knowledge of literacy gained in prerequisite courses, and applies it to professional development work with teachers at their own site.

Prerequisite(s): EDRD 630, 631, 632, and 633; admission to literacy emphasis or permission of program coordinator.

EDRD 635 - School-Based Inquiry in Literacy

Credits: 3 (NR)
Capstone course in literacy emphasis focusing on research-based inquiry related to literacy in school settings. Includes review of literature and teacher inquiry project.

Prerequisite(s): EDRD 630, 631, 632, 633, and 634; admission to literacy emphasis; or permission of program coordinator.

EDRD 637 - Supervised Literacy Practicum

Credits: 2-3 (NR)
Supervised literacy practicum that requires students to conduct assessments of and provide instruction to struggling readers.

Prerequisite(s): EDRD 630, 631, 632
Corequisite(s): EDRD 633.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

EDRD 658 - Advanced Reading Methods and Language Acquisition, Elementary

Credits: 3 (RD)
Provides research-based introduction to literacy for children in grades K-6. Emphasizes oral language, reading process, literacy development, integration of reading across the curriculum, culture connections, and families and literacy.

Prerequisite(s): EDRD 558

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDRD 797 - Advanced Topics in Education

Credits: 1-6 (RD)
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education.

Notes: May be repeated for credit with CEHD approval.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

EDRD 829 - Advanced Foundations of Literacy Education

Credits: 3 (NR)
Explores advanced foundational theory, research, and methodology across the broad field of literacy both nationally and internationally. Includes analysis of historical and current trends, research, practice, and policy in literacy. Individual projects will connect literacy to students' areas of interest. Appropriate for PhD in Education students in any specialization.

Prerequisite(s): EDUC 800, EDRS 810, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

EDRD 830 - Theory, Research, and Practice in Literacy: Birth through Middle Childhood
Explores emergent through intermediate literacy. Topics include literacy acquisition and development in academically and linguistically diverse young children; historical and current trends in theories of literacy development; cognitive, linguistic, sociocultural, and instructional influences on literacy development; and assessment. Implications for teacher education and policy are explored. Individual research projects will connect literacy to students' areas of interest.

**Prerequisite(s):** EDUC 800 and EDRS 810.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**EDRD 831 - Theory, Research, and Practice in Literacy: Early Adolescence through Young Adulthood**

Explores youth culture and socio-historical constructions of adolescence; literacy in the lives of culturally and linguistically diverse learners; multimodal literacy; international literacy contexts; adolescent literacy policy and leadership; content area and disciplinary literacy; literacy needs of special learners; and adult literacy. Individual projects will connect adolescent literacy to students' areas of interests.

**Prerequisite(s):** EDUC 800 and EDRS 810.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**EDRD 832 - Research Methodologies and Trends in Literacy**

Develops knowledge and skills in the application of research methodologies in literacy to current national and international trends.

**Prerequisite(s):** EDUC 800, EDRS 810, or permission of instructor

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**Religious Studies (RELI)**

Offered by the College of Humanities and Social Sciences

**RELI 100 - The Human Religious Experience**
Credits: 3 (NR)
Examines main forms of religious expression as embodied in several important religious traditions in contemporary world. Investigates religious experience; myth and ritual; teachings and scripture; ethical, social, and artistic aspects of religion; and nature and function of religion in human society.

Fulfills Mason Core requirement in global understanding.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**RELI 110 - Introduction to Jewish Ethics**

Credits: 3 (NR)
Brief overview of Judaism and its classical texts. Examines a number of current ethical issues including artificial insemination, stem cell research, transplantation, abortion, homosexuality, capital punishment, from a Jewish perspective.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**RELI 211 - Religions of the West**

Credits: 3 (NR)
Focuses on Judaism, Christianity, and Islam from historical, comparative, and cross-cultural perspectives. May also include modern developments of those faiths such as Mormonism and Baha’ism, as well as Zoroastrianism and religions of ancient Near Eastern cultures.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**RELI 212 - Religions of Asia**

Credits: 3 (NR)
Surveys religions of India, Hinduism, Jainism, Sikhism, Buddhism, and the religions of the Far East, China, and Japan, including Daoism, Confucianism, Shinto, from origins to present.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
**RELI 235 - Religion and Literature**

Credits: 3 (NR)
Explores the relationship between religion and literature in different times and cultures, the influence of religion on literary works, and how literature expresses major religious themes such as death and immortality, divine will and justice, suffering and human destiny, and religion and state.

Fulfills Mason Core requirement in literature.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RELI 240 - Death and the Afterlife in World Religions**

Credits: 3 (NR)
Explores how selected world religions address the universal experience of death and express their beliefs in an afterlife. Focuses on the scriptures, beliefs, rituals and customs of selected world religions as they reflect each tradition's response to the most basic question about human destiny - how human beings face death and attempt to transcend it.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RELI 272 - Islam**

Credits: 3 (NR)
Introduces basic religious beliefs and practices of Islam, with view to diverse manifestations of Islamic culture in different ethnic and social contexts. Provides overview of essential rituals of Islamic life, mystical practices of Sufis, certain popular forms of religious practice, sources and application of Islamic law, and distinctive Islamic artistic and literary forms.

**Notes:** Fulfills the college requirement in non-Western culture.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RELI 313 - Hinduism**

Credits: 3 (NR)
Introduces Hindu religion and thought, beliefs, rituals, ethics and religious practices. Emphasis on classical Hinduism, but also covers Hinduism and modernity, modern Hindu movements, and Hinduism as a global religion.

Fulfills Mason Core requirement in global understanding.

**Notes:** Fulfills the college requirement in non-Western culture.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
**RELI 314 - Chinese Philosophies and Religious Traditions**

Credits: 3 (NR)
Surveys major religious traditions and philosophical themes of China including Confucianism, Taoism, and Chinese Buddhism and Neo-Confucianism. Examines foundation of Chinese world view and spirituality by investigating diverse religious traditions that have created tensions and harmony among them.

**Prerequisite(s):** RELI 212, or permission of instructor.

**Notes:** Fulfills the college requirement in non-Western culture.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RELI 315 - Buddhism**

Credits: 3 (NR)
Surveys Buddhist religious traditions. Includes historical development of Buddhism in India, China, and Japan, examining both Theravada and Mahayana traditions; philosophical and religious significance of Buddhism; and social and political implications of Buddhist traditions in South Asian and East Asian countries.

Fulfills Mason Core requirement in global understanding.

**Notes:** Fulfills the college requirement in non-Western culture.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RELI 316 - Christian Thought and Practice**

Credits: 3 (NR)
Surveys origins and development of Christian beliefs, rituals, ethics, and religious practices. Emphasizes various expressions of these in different time periods, societies, and cultures.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RELI 317 - Daoism**

Credits: 3 (NR)
Explores philosophical ideas, spiritual orientation, religious practice, and social and political values in Daoist tradition reading classic Daoist texts including Dao De Jing, Chuang-tzu, and other sources. Discusses Daoism in light of comparative and cross-cultural studies for global understanding of issues on concepts of nature, human nature, and good and evil.
RELI 330 - Religion, Fantasy and Imagination

Credits: 3 (NR)
Explores the worlds of religion, fantasy and imagination, presented in selected writings of 20th century fantasy authors, including Lewis, Tolkien, Pullman, Rowling. Covers ideas of quest for enlightenment, redemption or salvation, conflict between good and evil, worlds of the supernatural, parallel dimensions and their inhabitants.

RELI 331 - Religion in America

Credits: 3 (NR)
Religious heritage in American culture, growth of denominations and sects, and interrelationship of religion and sociopolitical life.

Equivalent to RELI 231 (2010-2011 Catalog)

RELI 332 - Mormonism

Credits: 3 (NR)
Examines the origins and development of Mormonism, as embodied in the Church of Jesus Christ of Latter-day Saints and other related churches. Introduces students to a critical analysis of Latter-day Saint scriptures, rituals, and history.

RELI 337 - Mysticism: East and West

Credits: 3 (NR)
Comparative treatment of major expressions of mysticism in East and West through exploration of various ways of understanding mystical experience. Readings and discussion emphasize one or more of the Eastern (Hinduism, Buddhism, Taoism, Zen) and Western (Judaism, Christianity, Islam) traditions.

Notes: Fulfills the college requirement in non-Western culture.
RELI 341 - Global Perspectives on Spirituality and Healing

Credits: 3 (NR)
Cross-cultural investigation of human understandings of relationship between spirituality and health. Beliefs about spiritual causes of sickness and health and spiritual techniques of healing in variety of world cultures placed in context of religious beliefs of those cultures.

Fulfills Mason Core requirement in global understanding.

Prerequisite(s): 30 credits, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 350 - Religion and History of Ancient Israel

Credits: 3 (NR)
Examines religion and history of ancient Israel from origins around 1250 BCE to Babylonian Exile in 587 BCE. Topics include debate on historical value of biblical narratives, extra-biblical texts mentioning Israel, move from polytheism to monotheism, archaeology and artifacts, and development of Israel's unique religious and historical self-understanding.

Prerequisite(s): RELI 211, or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 352 - Judaism from Exile to Talmud

Credits: 3 (NR)
Examines Jewish religion, history, and literature from the Babylonian Exile to third century C.E. Special attention to development of Hebrew Bible, Apocalyptic and Apocryphal literature, belief in resurrection and final judgment, Dead Sea Scrolls, Jewish sects, and emergence of Christianity and Rabbinic Judaism.

Prerequisite(s): RELI 211, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 353 - Jewish Political Tradition

Credits: 3 (NR)
Explores Jewish thinkers' attitudes towards politics and state. Topics include traditional sources, theological and political crisis of modern times, liberal Jewish thought, Zionist ideology, Israel as a separate state, relationship between religion and politics in modern Israel.
**REL 354 - Topics in Modern Jewish Thought**

Credits: 3 (NR)
Surveys modern Jewish thought, engaging some of the most important themes of this period including Jewish responses to rationalism, romanticism, idealism, existentialism, and legalism. Studies work from Baruch Spinoza to Emanuel Levinas.

Equivalent to PHIL 354

**Prerequisite(s):** 3 credits in religious studies or philosophy or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**REL 355 - Sufism**

Credits: 3 (NR)
Examines the tradition of Islamic mysticism, Sufism, through an exploration of the literature produced by Sufis themselves. Provides general introduction to Sufism and its spiritual perspective and investigates various genres of Sufi literature, including hagiography, symbolic scriptural exegesis, spiritual autobiography, didactic allegory and love poetry.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

**REL 356 - Jesus and the Gospels**

Credits: 3 (NR)
Examines Gospel accounts of Jesus in context of first-century Christianity. Applies variety of historical and literary methods to gain understanding of Jesus and history and theology of early church.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**REL 357 - Gender and the Body in Judaism**

Credits: 3 (NR)
Explores distinctively Jewish approaches to questions of gender, sexuality, and the body as described in the legal, religious, ethical, and literary material in the Jewish tradition. Topics include the "body of God," circumcision, laws of purity, rites of passage, the synagogue, feminist theology, and masculine and feminine stereotypes.
RELI 359 - Muslims in the United States
Credits: 3 (NR)
Introduces Islam in the United States past and present. Includes arrival of African Muslims slaves, the emergence of Muslim groups in the early 20th century, and the larger-scale Muslim immigration from the 1960s to the present. Topics include religious practice, media representations, political participation, institution, and cultural production.

RELI 360 - Religion and Politics
Credits: 3 (NR)
Explores the roles of religion in contemporary political life in the United States and abroad. Emphasizes religion in current political debates. Includes history, political theory, sociology, and theology to present a comprehensive understanding of the topic.

RELI 361 - Evangelical America
Credits: 3 (NR)
Introduces the intellectual and social sources of evangelical Protestant traditions in the United States. Examines varieties of evangelical beliefs and practices. Surveying a range of themes, including science, sexuality, politics, and environmentalism, students examine how evangelicals have defined themselves in opposition to secular society but also have engaged the secular in an effort to convert souls, manage personal behavior, and transform American society in their image of Christian community.

RELI 362 - Religion and Film
Credits: 3 (NR)
Surveys representations of religious beliefs, practices, persons, and institutions in popular film. Focuses on the media consumption of box office movies in the United States. Examines how religion is imaged in film and how that religious imagination relates to social constructions of national, ethnic, racial, gender, and sexual identities.
RELI 363 - Catholicism

Credits: 3 (NR)
Focuses on the beliefs of the over one billion Roman Catholics in today's world. Probes the history, doctrine, symbols, rituals, practices, and material culture of the world's largest church. Considers Catholicism's dialog with secularism and discusses controversies and challenges facing the church today.

Prerequisite(s): 3 credits in religious studies or philosophy or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 364 - Religion and Law in the United States

Credits: 3 (NR)
Explores issues relating to law and religion. Focuses on the legal doctrines that have arisen in cases under the Establishment and Free Exercise Clauses of the First Amendment. Topics include religion and public schools, government aid to religious institutions, including school vouchers, government endorsement of religious symbols, freedom of religious expression, and freedom of religious practice.

Prerequisite(s): 3 credits of religious studies or philosophy or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 365 - Muhammad: Life and Legacy

Credits: 3 (NR)
Examines life and character of the founder of Islam, as remembered and understood by Muslims, as well as explores influence of his paradigmatic life and teachings on Islamic religious discourse and culture. Addresses Western critical studies of the accounts of Muhammad's life and contemporary controversies regarding Muhammad.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 370 - Judaism

Credits: 3 (NR)
Studies Judaism from origins to present. Includes origins of Judaism B.C.E.; Rabbinic Judaism; Jews in the Middle Ages; Hasidic and Mystical Judaism; Enlightenment; persecution and Holocaust; contemporary American Judaism; and Jewish, Christian, and Muslim relations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
RELI 371 - Classic Jewish Texts

Credits: 3 (NR)
Jewish life and practice have always been centered on ongoing interpretation of classic texts, such as Tanakh ("Old Testament"), Talmud (Oral Law), Midrash (readings of the Bible) and the Kabbalah (mystical teachings) Course provides survey and introduction to major texts of Judaism.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 372 - American Judaism

Credits: 3 (NR)
Surveys Jewish religious life focusing on various types of American Judaism such as orthodox, conservative, reform, reconstructionist, as they have developed historically and continue to evolve. Emphasizes issues and challenges facing contemporary Judaism.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 374 - Islamic Thought

Credits: 3 (NR)
Examines Islamic views on fundamental issues in religious thought, such as nature of God, nature of man, and relationship between God and man as reflected in both divine revelation and human religious vocation. Investigates intellectual approaches to these problems within Islamic tradition, including those of the theological, philosophical, and mystical thinkers.

Fulfills Mason Core requirement in global understanding.

Prerequisite(s): RELI 211, 3 credits in religious studies, or permission of instructor.

Notes: Fulfills the college requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 375 - Qur'an and Hadith

Credits: 3 (NR)
Explores two primary sources of Islamic belief and practice: Qur'an and Hadith. Discusses thematic structure and literary quality, and examines theological and moral issues. Also introduces various methods of interpretation and critical analysis applied to texts in both Islamic and Western scholarship. Lecture and discussion.

Prerequisite(s): 3 credits in philosophy and religious studies, or permission of instructor.

Notes: Fulfills the college requirement in non-Western culture.
RELI 376 - Special Topics in Religious Thought

Credits: 3 (RT)
Selected topics from a philosophical perspective.

Prerequisite(s): 3 credits in philosophy or religious studies, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 377 - Special Topics in Religious Thought

Credits: 3 (NR)
Selected topics from a philosophical perspective.

Prerequisite(s): 3 credits in philosophy or religious studies, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 379 - Islamic Law, Society, and Ethics

Credits: 3 (NR)
Introduces foundational sources and principles of Islamic Law or shariah. Examines the historical development and application of Islamic law, its role in Muslim societies, and its relationship to Islamic social ideals and ethical discourse.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 381 - Beginnings of Christianity

Credits: 3 (NR)
Examines early Christian church from time of Jesus to 700 C.E. Covers internal development of Christianity as it formed official doctrines and institutions, and external relations of Christians with followers of other religions in Roman Empire. Special attention to reasons for success of Christianity in Roman world.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
REL 386 - Islam in the Modern Age

Credits: 3 (NR)
Covers the study of the Islamic tradition and its peoples during the last two centuries—the period of Islamic reform in the wake of Western hegemony—and the efforts of the community to readjust itself in light of Westernization and modernization, as well as the broader challenges of the secular, liberal, and technical age.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

REL 387 - Islam, Democracy, and Human Rights

Credits: 3 (NR)
Evaluates the political and religious goals of Muslim societies and governments, and whether these goals are conducive to the development of democratic institutions to promote democratic cultures and explicit support for human rights, as well as to these societies' full integration in an international order founded upon secularism and modernism.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

REL 401 - Death and the Afterlife in World Religions

Credits: 3 (NR)
Examination of the rituals, practices, and beliefs regarding death and the afterlife in world religions past and present. Emphasis placed on crosscultural and comparative aspects.

Prerequisite(s): 60 credits including 6 credits in religious studies or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

REL 403 - Scripture and Authority in World Religions

Credits: 3 (NR)
Examines origins, development, and role of Scripture (religious texts) in world religions, concentrating on issues of divine inspiration, authority, authenticity, and canon.

Prerequisite(s): 60 credits including 6 credits in religious studies, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

REL 405 - Religion, Values, and Globalization
Credits: 3 (NR)
Explores diverse value systems, ethical norms, and teaching found in different religious traditions and cultures. Examines assumption that globalization is attempt to universalize Western culture.

**Prerequisite(s):** 60 credits including 6 credits of religious studies, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**RELI 407 - Women in the World's Religions**

Credits: 3 (NR)
Seminar course offering theoretical and comparative study of role of women in six of the major religious traditions of the world—Judaism, Christianity, Islam, Hinduism, Buddhism, and Chinese religions.

**Prerequisite(s):** 60 credits; 6 credits of philosophy or religious studies.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**RELI 420 - Seminar**

Credits: 3 (RT)
Senior seminar on a specific topic of relevance to religious studies. Content varies.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** Major in religious studies with 60 credits including 9 credits or permission of instructor.

**Notes:** May be repeated three times when topic varies. Students with other majors may be take the course if the topic is sufficiently close to their field of study.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**RELI 425 - Directed Readings in Religious Studies**

Credits: 1-3 (RD)
Individual readings and research in religious studies on a topic selected in consultation with instructor.

**Prerequisite(s):** Major in religious studies with 60 credits including 9 credits in religious studies.

**Notes:** May be repeated for a total of 6 credits.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
REL 426 - Religious Studies Internship

Credits: 3 (NR)
Course rubric to be used for acquiring academic credit in Religious Studies for religious studies related internships.

Prerequisite(s): The completion of 60 undergraduate credits and 12 credits toward the Religious Studies major or minor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

REL 490 - Comparative Study of Religions

Credits: 3 (NR)
Cross-cultural examination of comparative aspects of religious phenomena. Examines significance of religious phenomena from diverse religious and cultural perspectives, and investigates patterns of religious phenomena that have appeared in world cultures and civilizations.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): 9 credits in religious studies including RELI 211 and RELI 212, or permission of instructor.

Notes: Fulfills the college requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

REL 591 - Special Topics in Religious Studies

Credits: 3 (RT)
Topics in religious studies selected by importance in the field and pertinent to the role of religion in society and culture. Emphasis on historical, interdisciplinary, and cross-cultural issues.

Notes: May be repeated for a maximum of 12 credits when topic is different with permission of department.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

REL 630 - Approaches to the Study of Religion

Credits: 3 (NR)
Examines study of religion as academic discipline. Evaluates various intellectual approaches and methods used in study of religious phenomena.
Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**RELI 631 - Sacred as Secular in Modern Spirituality**

Credits: 3 (NR)
Investigates nature of sacred and categories of sacred and secular in human experience. Both duality and interconnectedness of sacred and secular explored to facilitate fresh understanding of essential unity of human religiosity and spirituality.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**RELI 632 - World Religions in Conflict and Dialogue**

Credits: 3 (NR)
Explores reasons for instances of global religious conflicts and examines ways of engaging in interreligious dialogue. Investigates religious pluralism as an effective means for dialogue.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**RELI 633 - Ethical Perspectives of World Religions**

Credits: 3 (RD)
Examines how perceptions of ultimate reality shape ethical values and behaviors of various religious traditions. Addresses problems in interpretation of authoritative foundational teachings in contemporary contexts. Special attention to non-Western religions.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**RELI 635 - World Religions in Transition and Transformation**

Credits: 3 (RD)
Explores transitions and transformations in selected world religions as they respond to and influence forces of cultural change, social values, and the crises of history. Fresh or modified constructions of the sacred and their relationship to world and humans
will be examined.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**RELI 636 - Religion and the Natural Environment**

Credits: 3 (NR)
Explores contemporary religious thought on the morality and ethics of environmental responsibility. Begins with an exploration of this issue in Western Christian thought and examines religious approaches to the environment in the traditional and contemporary thought of other major world religions, including Judaism, Islam, Hinduism, Buddhism, and the Chinese traditions.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**RELI 640 - Religion and Law**

Credits: 3 (NR)
Focuses on United States Supreme Court decisions on religion clauses over the last 50 years. Provides a close reading of court's opinions and considers material from religious legal traditions. Covers contemporary political debates on issues like prayer in public schools, displays of religious symbols, ceremonial references to God, and public aid to religious schools.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**RELI 642 - Sacred Language, Scripture, and Culture**

Credits: 3 (RD)
Explores how sacred languages and scriptures develop in major global religious traditions: study of grammar, syntax, and morphology of sacred languages; issues of inspiration, authority and canon. Also examines cultural dimensions of sacred language.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Notes:** May be repeated once when languages are different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**RELI 644 - Islamic Texts and Contexts**

Credits: 3 (NR)
Introduces foundational Islamic texts; scholarly traditions of commentary, criticism and analysis on these texts; and application and significance of these texts in contemporary Islamic discourses.
Rehabilitation Science (RHBS)

Offered by the College of Health and Human Services

RHBS 270 - Applied Human Anatomy and Physiology I

Credits: 4 (NR)
Develops a comprehensive understanding of the interrelationships of anatomy and physiology as observed in the human organism, and introduces application of knowledge to health, disease and dysfunction. Emphasis on musculoskeletal, nervous, cardiovascular, respiratory and integumentary systems.

Equivalent to HHS 270 (2012-2013 Catalog)

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Fall, Summer, Spring

RHBS 271 - Applied Human Anatomy and Physiology II

Credits: 4 (NR)
Develops a comprehensive understanding of the interrelationships of anatomy and physiology as observed in the human organism, and introduces application of knowledge to health, disease and dysfunction. Emphasis on digestive, endocrine, lymphatic, genitourinary, and reproductive systems.

Equivalent to HHS 271 (2012-2013 Catalog)

Prerequisite(s): RHBS 270.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Fall, Summer, Spring

RHBS 340 - Health, Disease and Dysfunction

Credits: 3 (NR)
Focuses on basic epidemiology, health promotion and disease prevention, as well as impairments in normal function of the individual resulting in disease and dysfunction. Exploration of the individual and societal impact of health and disease. Introduces current rehabilitation and intervention strategies as well as classification of disease and disability.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall.

RHBS 350 - Clinical Physiology and Human Performance

Credits: 3 (NR)
Investigates the study of human physiology and how it relates to physical activity, health, and functional ability. Specifically, examines the metabolic, locomotive, endocrine, cardiovascular, and pulmonary responses to physical activity and their contributions and limitations to human performance.

Prerequisite(s): College-level chemistry or permission of instructor or department chair.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer, Spring

RHBS 390 - Clinical Assessment of Functional Capacity

Credits: 3 (NR)
Examines the scientific basis and theory for exercise assessments in healthy persons and those with chronic disease and disability. Covers cardiorespiratory fitness measurements, cardiac function, body composition, muscular strength and endurance.

Prerequisite(s): Undergraduate course in anatomy and physiology or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 410 - Physical Activity and Public Health

Credits: 3 (NR)
Investigates the basic principles and concepts of epidemiology and the influence of exercise and physical activity on the most common risk factors for prevalent chronic diseases in the United States of America.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer

RHBS 415 - Clinical Movement Science I

Credits: 3 (NR)
Describes how the human nervous and musculoskeletal systems work together to move the human body, with special emphasis on movement disorders and disabilities. Topics include movement and motion principles, muscle force production, physiology, and adaptation, along with the measurement of muscle activity, body movements, and body forces.
Prerequisite(s): College-level physics or permission of instructor or department chair.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer

RHBS 416 - Clinical Movement Science II

Credits: 3 (NR)
Describes how the human nervous and musculoskeletal systems work together to move the human body, with a special emphasis on movement disorders and disabilities. Topics include movement control, adaptation, and learning; experimental and clinical assessment of body movements and forces, treatment of abnormal movement, and rehabilitation technologies.

Prerequisite(s): RHBS 415 or permission of instructor or department chair.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 418 - Exercise Endocrinology

Credits: 3 (NR)
Explores the role of the endocrine system in the coordination and regulation of the body's internal environment under acute and chronic exercise conditions.

Prerequisite(s): RHBS 270 and RHBS 271 or similar course in human anatomy and physiology.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 420 - Adult Health and Function

Credits: 3 (NR)
Approaches the study of function and normal development, how it is attained and how it is optimized with a multi-systems viewpoint. Focuses on the components of functional movement. Addresses strategies for assessing, promoting and maintaining functional independence. Highlights current treatment approaches of disease and dysfunction.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 489 - Introduction to Clinical Research
Provides students with a basic understanding of what clinical research is and the scientific principles on which it is based. Starts with a historical perspective on clinical research and then goes on to explore the following topics: purpose of clinical research, ethical and regulatory implications of clinical research, and the roles and responsibilities of all parties involved in clinical research.

**Prerequisite(s):** Course is open to honors college students only or by permission of instructor.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

### RHBS 490 - Clinical Research Internship

Credits: 3 (NR)  
Practical experience in a clinical research setting under the direction of a mentor. Each student is required to work with an experienced clinical investigator who agrees to provide the trainee mentorship. Clinical research embraces a spectrum of scientific disciplines that use a variety of study methods. Therefore, the multidisciplinary approach to clinical research is emphasized during didactic interactions.

Designated as a research and scholarship intensive course.

Equivalent to HHS 490 (2011-2012 Catalog)

**Prerequisite(s):** Course is open to honors college students only. In addition, an application must be submitted in the semester prior to enrollment in the course. During the semester prior to entry, students may be asked to acquire certain competencies/certifications in order to fully participate at their research site (for example, human subjects research protections training, lab safety certification, HIPAA training).

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Spring

### RHBS 491 - Directed Research

Credits: 1-3 (RD)  
Engages students in a directed research project under the guidance of a faculty member.

**Prerequisite(s):** Permission of the instructor.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 1-3  
**Grading:** Satisfactory/No Credit  
**When Offered:** Fall, Summer, Spring

### RHBS 606 - Clinical Exercise Physiology
Credits: 3 (NR)
Examines acute and chronic alterations and adaptations associated with exercise and training. Covers role of exercise therapy in preventing and rehabilitating from disease across lifespan. Particular emphasis on role of exercise therapy in cardiorespiratory, musculoskeletal, and metabolic diseases.

Equivalent to RHBS 506 (2013-1014 Catalog).

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

### RHBS 610 - Scientific Basis for Pain and Fatigue

Credits: 3 (NR)
Reviews the scientific literature describing the theories of the initiation and perpetuation of pain, fatigue and suffering. Describes the methodologies used to evaluate these symptoms. Students will apply the theories of pain, fatigue and suffering to further their understanding of specific clinical problems.

Equivalent to RHBS 510 (2013-2014 Catalog).

**Prerequisite(s):** Undergraduate level physiology course.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

### RHBS 620 - Psychosocial Aspects of Rehabilitation

Credits: 3 (NR)
Explores social and psychological impacts of disability. Processes by which people with disabilities adapt to limitations will be examined, as will the influence society has in promoting independence/dependence among people with disabilities.

Equivalent to GCH 620 (2010-2011 Catalog)

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall

### RHBS 650 - Foundations of Rehabilitation Science

Credits: 3 (NR)
Examines the field of rehabilitation science with emphasis on the core theories and models of this emerging discipline. Surveys various topics within rehabilitation science including the history and development of the field, assistive technologies, pathology and impairment research, functional limitations research, disability research, translational research, and ethical considerations in clinical and research settings.

Equivalent to RHBS 550 (2013-1014 Catalog).
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

RHBS 651 - Research Design and Methods I

Credits: 3 (NR)
Explores quantitative and qualitative research methods, principles and techniques necessary for implementation of health science research.

Corequisite(s): GCH 601 or graduate course in applied statistics.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

RHBS 652 - Research Design and Methods II

Credits: 3 (NR)
Explores advanced experimental and quasi-experimental research methods frequently utilized in rehabilitation research. Develop theoretical and practical knowledge necessary to conduct independent research.

Prerequisite(s): RHBS 651 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 670 - Movement Analysis of Function

Credits: 3 (NR)
Applies biomechanical principles of movement to analyze functional activities, including walking, sit-stand, lifting, reaching-carrying activities, and stairs negotiation. Focuses on joints and total body kinematics and kinetics, and the contribution of muscular activity to performance. Applies methods of analyzing human motion to estimate changes in forces and moments (torques) during functional performance. Addresses how age and injuries affect functional performance.

Equivalent to RHBS 570 (2013-1014 Catalog).

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 680 - Behavior Change in Chronic Illness
Credits: 3 (NR)
Explores behavior change as related to chronic illness, especially diabetes/obesity, cardiovascular and cerebrovascular disease, and arthritis. Topics include behavior change theories; research approaches to studying behavior change; influence of personal factors, patient-provider communication/relationships, and social support on behavior change; and adherence to prescribed regimens.

Equivalent to RHBS 580 (2013-1014 Catalog).

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer

RHBS 702 - Biobehavioral Aspects of Health

Credits: 3 (NR)
Examines the biological, psychological, and social factors that interact with and affect efforts people make in promoting good health and preventing illness and the recovery, rehabilitation, and psychosocial adjustment of patients with serious health problems.

Equivalent to GCH 702 (2010-2011 Catalog)

Prerequisite(s): GCH 601 or equivalent, or a graduate-level research methods course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

RHBS 710 - Applied Physiology I

Credits: 3 (NR)
Examines the primary bio-regulatory and communication systems. A detailed study of physiology for graduate students interested in health and human movement, chronic illness, and disability. Covers energy metabolism, endocrine, immune, neurological, and muscular systems.

Equivalent to GCH 710 (2010-2011 Catalog)

Prerequisite(s): One-year introductory biology sequence with labs or two-semester course sequence in anatomy and physiology.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

RHBS 711 - Applied Physiology II

Credits: 3 (NR)
Explores general systemic function. A detailed study of physiology for graduate students interested in health and human
movement, chronic illness, and disability. Covers cardiovascular, pulmonary, gastrointestinal, renal, and reproductive systems.

Equivalent to GCH 711 (2010-2011 Catalog)

**Prerequisite(s):** RHBS 710.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

**RHBS 720 - Principles of Clinical Trials**

Credits: 3 (NR)  
Provides a practical overview of the fundamental principles of clinical trial design and management, ethical and regulatory factors in the conduct of clinical trials, and their role in clinical practice, public health and decision making. Topics include clinical trial design, biostatistics, ethics and regulatory affairs, study management and oversight, and current concepts.

**Prerequisite(s):** Graduate level statistics and methods course(s) or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**RHBS 740 - Applied Physiology: Cardiorespiratory**

Credits: 3 (NR)  
Rigorous, evidence-based study of biological factors and medial conditions that limit oxidative metabolic function. Emphasis on examining current hypotheses of physical activity limitations in chronic illness and disability.

Equivalent to GCH 740 (2010-2011 Catalog)

**Prerequisite(s):** RHBS 506 or EFHP 610 or RHBS 710 or other graduate physiology course, plus one of the following: two-semester course sequence in anatomy and physiology (100 level or above) or one course in animal or comparative physiology (300 level or above) or one course in human physiology (300 level or above).

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**RHBS 745 - Metabolic Basis of Disability**

Credits: 3 (NR)  
Examines anatomy and physiology of organs and systems involved in regulating metabolism; assesses relationships among hormonal and central nervous system regulation in the production and regulation of energy.

Equivalent to GCH 745 (2010-2011 Catalog)
Prerequisite(s): RHBS 710

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

RHBS 746 - Clinical Neuromechanics

Credits: 3 (NR)
Describes how the human nervous and musculoskeletal systems work together to move the human body, with a special emphasis on movement disorders and disabilities. Topics include movement and motion principles, muscle force production, physiology, and adaptation, along with the measurement of muscle activity, body movements, and body forces.

Equivalent to GCH 746 (2010-2011 Catalog)

Prerequisite(s): RHBS 710

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 750 - Physiology of Clinical Exercise Interventions

Credits: 3 (NR)
Critiques current knowledge of exercise prescription in both healthy and clinical populations. Examines physiological effects of exercise interventions, with emphasis on chronic disease and disability.

Prerequisite(s): RHBS 606 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

RHBS 754 - Movement Disorders: Etiology, Assessment, and Analyses

Credits: 3 (NR)
Applies concepts of neuromechanics to the assessment and analysis of normal and pathological movement using both existing clinical assessments and laboratory-based measures of body kinematics, kinetics, muscle activity, and perception/cognition interactions with movement. Discusses benefits and limitations of assessment and analysis techniques as well as current research with regard to advancing these techniques.

Prerequisite(s): RHBS 746 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall
RHBS 760 - Rehabilitation Science Colloquium

Credits: 1 (RD)
Public forum for the presentation and discussion of contemporary issues in the field of rehabilitation science.

Equivalent to GCH 760 (2010-2011 Catalog)

Prerequisite(s): Enrollment in PhD program in Rehabilitation Science or permission of the graduate director.

Notes: May be repeated for credit; however a maximum of three credits may be applied to the rehabilitation science Ph.D.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Spring

RHBS 761 - Aging and Health Behavior

Credits: 3 (NR)
Examines age-related changes in health and health behavior along with the impact of structural factors, societal, and personal attitudes toward aging. The successful aging paradigm will frame discussion of strategies for facilitating optimal health behaviors.

Equivalent to GCH 761 (2010-2011 Catalog)

Prerequisite(s): A graduate level course in psychology or research methods.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 808 - Outcomes Measurement

Credits: 3 (NR)
Examines the principles of measurement applied to both assessment and outcome measures commonly used in rehabilitation. The student will become familiar with the state of outcomes research in the field of rehabilitation science.

Equivalent to GCH 808 (2010-2011 Catalog)

Prerequisite(s): RHBS 550 and RHBS 551.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring
RHBS 816 - Comparative Effectiveness Research

Credits: 3 (NR)
Examines the theory and methods of comparative effectiveness studies and their relationship to developing Rehabilitation Science and other disciplines to effect better clinical practice by identifying benefits/harms of prevention and treatment and explores the implications of evidence for comparative effectiveness in developing health care policy.

Prerequisite(s): Graduate level statistics and methods course(s) or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring.

RHBS 850 - Teaching Practicum

Credits: 3 (RD)
Prepares students for teaching role as an academic through direct teaching experiences in undergraduate courses in Rehabilitation Science under the supervision of a graduate faculty member, including syllabus development, lecture preparation, presentation skills, grading, and course evaluation.

Prerequisite(s): Permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Spring

RHBS 894 - Special Topics in Rehabilitation Science

Credits: 3 (RT)
In-depth study of contemporary topics in Rehabilitation Science. Course topics vary each semester.

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or Permission of instructor.

Notes: Students may take up to 9 credits of RHBS 894 with permission of program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

RHBS 940 - Independent Study

Credits: 1-6 (RD)
In-depth study of selected area of rehabilitation science under the direction of faculty.

Equivalent to GCH 940 (2010-2011 Catalog)
Prerequisite(s): Enrollment in PhD program and permission of instructor.

Notes: May be repeated as needed, up to a maximum of 24 credits.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-12
Grading: Satisfactory/No Credit
When Offered: Fall, Spring, Summer

RHBS 960 - Directed Research

Credits: 1-6 (RD)
Research on a pertinent topic in rehabilitation science. Must be arranged with instructor before registering.

Prerequisite(s): Permission of instructor.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring.

RHBS 999 - Dissertation Research

Credits: 1-9 (RD)
Dissertation research on a specific topic under the direction of a faculty member.

Equivalent to GCH 999 (2010-2011 Catalog)

Prerequisite(s): Enrollment in PhD program in rehabilitation science and permission of graduate director.

Notes: May be repeated, up to a maximum of 24 credits.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-9
Grading: Satisfactory/No Credit
When Offered: Fall, Spring, Summer

Russian (RUSS)

Offered by the College of Humanities and Social Sciences.

Placement: See Academic Testing in the Admissions section.

RUSS 101 - Elementary Russian I
Credits: 3 (NR)
For students with no knowledge of Russian. Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Notes: Students may not receive credit for RUSS 101 and RUSS 109 or 110.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 102 - Elementary Russian II

Credits: 3 (NR)
Continuation of RUSS 101.

Prerequisite(s): RUSS 101 or permission of department.

Notes: Students may not receive credit for RUSS 102 and RUSS 109 or 110.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 109 - Intensive Elementary Russian

Credits: 6 (NR)
Recommended for students who desire intensive introduction.

Notes: Students may not receive credit for RUSS 109 and RUSS 101, 102, or 110.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 2

RUSS 110 - Elementary Russian

Credits: 6 (NR)
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Notes: Students may not receive credit for RUSS 110 and RUSS 101, 102, or 109.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

RUSS 199 - Russian Language and Culture for Students and Professionals
Credits: 3 (NR)
Designed for English-speaking specialists in humanities, sciences, and business studies in Russia. Covers range of topics, including elementary Russian phonetics and grammar, basic conversation, and Russian etiquette. Course theme is language needs of foreigners who happen to be traveling and conducting business activities in Russia. Acquaints students and professionals with cultural framework that forms indispensable backdrop to daily activities in Russia. Students become increasingly confident and effective in their ability to engage Russians from all walks of life in daily informal and professional conversation in the Russian language.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RUSS 201 - Intermediate Russian I**

Credits: 3 (NR)
Further development of skills in listening, speaking, reading, and writing.

**Prerequisite(s):** RUSS 102, 109, appropriate placement score, or permission of department.

**Notes:** RUSS 201 and 202 must be taken in sequence. Students may not receive credit for RUSS 201 and RUSS 209 or 210.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RUSS 202 - Intermediate Russian II**

Credits: 3 (NR)
Application of language skills to reading, composition, and discussion.

**Prerequisite(s):** RUSS 201, appropriate placement score, or permission of department.

**Notes:** Students may not receive credit for RUSS 202 and RUSS 209 or 210.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RUSS 209 - Intensive Intermediate Russian**

Credits: 6 (NR)
Equivalent to RUSS 201 and 202 taught in a single semester.

**Prerequisite(s):** RUSS 102, 109, appropriate placement score, or permission of department.

**Notes:** Students may not receive credit for RUSS 209 and RUSS 201, 202, or 210.

**Hours of Lecture or Seminar per week:** 6  
**Hours of Lab or Studio per week:** 0
RUSS 210 - Intermediate Russian

Credits: 3 (NR)
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Russian-speaking regions. Lab work required.

Prerequisite(s): RUSS 110 or appropriate placement score.

Notes: Students may not receive credit for RUSS 210 and RUSS 201, 202, or 209.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

RUSS 250 - Gateway to Advanced Russian

Credits: 3 (NR)
Integration of advanced intermediate-level Russian grammar, reading, writing, listening and speaking skills with the development of research skills and critical thinking about authentic texts from contemporary media.

Prerequisite(s): RUSS 210, appropriate placement score, or permission of department.

Notes: Taught in Russian.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 302 - Russian Conversation and Composition

Credits: 3 (NR)
Develops in students ability to express themselves orally on topics of current interest and everyday situations. Provides practice in more difficult forms of written expression.

Fulfills writing intensive requirement in the major.

Prerequisite(s): RUSS 250, appropriate placement score, or permission of instructor

Notes: Taught in Russian.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 303 - Russian Advanced Conversation
Credits: 3 (NR)
Development of oral proficiency. Includes current colloquial expressions.

Prerequisite(s): RUSS 250, appropriate placement score, or permission of instructor.

Notes: Taught in Russian.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 310 - Readings in Russian Literature

Credits: 3 (NR)
Readings of Russian literary works in original language with lectures, discussions, and exam in Russian.

Prerequisite(s): RUSS 250, appropriate placement score or permission of instructor.

Notes: Taught in Russian.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 311 - Contemporary Russian Short Fiction

Credits: 3 (NR)
Reading and discussion of recent short stories by best-known Russian writers of today.

Prerequisite(s): RUSS 250, appropriate placement score or permission of instructor.

Notes: Taught in Russian. Readings in original language.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 325 - Major Russian Writers

Credits: 3 (RT)
Study of works of major Russian writers in translation. Writers to be studied vary.

Fulfills Mason Core requirement in literature.

Prerequisite(s): ENGL 101/ENGH 101 or equivalent, or permission of instructor.

Notes: Taught in English. May be repeated once for credit when course content is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
RUSS 326 - A Survey of Russian Literature

Credits: 3 (NR)
Surveys Russian literature from its beginning to 1880.

Fulfills Mason Core requirement in literature.

Prerequisite(s): 60 credits, or permission of instructor.

Notes: Taught in English.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 327 - A Survey of Russian Literature

Credits: 3 (NR)
Surveys Russian literature of late 19th and 20th centuries.

Fulfills Mason Core requirement in literature.

Prerequisite(s): 60 credits, or permission of instructor.

Notes: Taught in English.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 353 - Russian Civilization

Credits: 3 (NR)
Civilization and culture of Russia and former Soviet Union. Includes films, slides, and music in addition to readings and lectures.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): 60 credits, and completion or concurrent enrollment in all other required Mason Core courses.

Notes: Taught in English. Fulfills the college requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 354 - Contemporary Post-Soviet Life
Social life, art, economics, education, view of life, and personal aspirations of Russian citizen today.

Fulfills Mason Core requirement in global understanding.

**Prerequisite(s):** 60 credits, or permission of instructor.

**Notes:** Taught in English. Fulfills the college requirement in non-Western culture.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**RUSS 380 - Advanced Russian I**

Credits: 3 (NR)  
Comprehensive study of the more difficult characteristics of contemporary standard Russian in areas of grammar, style, and vocabulary usage. Emphasizes developing fluency in oral and written expression.

**Prerequisite(s):** RUSS 202, 209, or equivalent; appropriate placement score; or permission of instructor

**Notes:** Taught in Russian.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**RUSS 381 - Advanced Russian II**

Credits: 3 (NR)  
Comprehensive study of the more difficult characteristics of contemporary standard Russian in areas of grammar, style, and vocabulary usage. Emphasizes developing fluency in oral and written expression.

**Prerequisite(s):** RUSS 202, 250, or equivalent; appropriate placement score; or permission of instructor.

**Notes:** Taught in Russian.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**RUSS 401 - Readings in the Social Sciences**

Credits: 3 (NR)  
Reading, translation, and discussion of Russian materials in fields of history, politics, geography, and sociology.

**Prerequisite(s):** 15 credits of Russian or equivalent.

**Notes:** Taught in Russian.
RUSS 407 - Russian Drama and Theater

Credits: 3 (NR)
Development of Russian theater including directing techniques in Moscow Art Theater. Reading and discussion of major Russian plays of 19th and 20th centuries.

Prerequisite(s): 60 credits, or permission of instructor.

Notes: Course work in English; knowledge of Russian not required.

RUSS 410 - Russian Poetry

Credits: 3 (NR)
Historical development of Russian poetry and representative works of major poets.

Prerequisite(s): 15 credits of Russian or equivalent.

Notes: Reading in Russian; course work in English and Russian.

RUSS 470 - Topics in (Post) Soviet Film

Credits: 3 (RD)
Russian, Soviet, and post-Soviet films selected by type, period, or director with emphasis varying from year to year. Required viewings, student discussion, and written critiques.

Prerequisite(s): 60 credits, or permission of instructor.

Notes: Taught in English. May be repeated once with permission of department or film studies adviser.

RUSS 480 - Fourth-Year Russian
Credits: 3 (NR)
Advanced work in major grammatical and lexical topics of Russian. Application of theoretical principles in guided written and oral exercises.

Prerequisite(s): RUSS 380, 381, or equivalent; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 481 - Fourth-Year Russian

Credits: 3 (NR)
Advanced work in major grammatical and lexical topics of Russian. Application of theoretical principles in guided written and oral exercises.

Prerequisite(s): RUSS 380, 381, or equivalent; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 490 - Independent Study

Credits: 1-3 (NR)
Research and analysis of selected problem in language, literature, or culture in consultation with member of Russian studies faculty.

Prerequisite(s): Russian studies major with 90 credits and permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 491 - Independent Study

Credits: 1-3 (NR)
Research and analysis of selected problem in language, literature, or culture in consultation with member of Russian studies faculty.

Prerequisite(s): Russian studies major with 90 credits and permission of instructor.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

RUSS 499 - Seminar on Russian Literary and Critical Bibliography
Credits: 3 (NR)
Comprehensive bibliographic survey of major primary and secondary works of Russian literature and criticism.

Prerequisite(s): Russian studies major with 90 credits and permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

School of Management (SOM)

Offered by the School of Management

SOM 100 - Business in American Society

Credits: 3 (NR)
Provides students with a foundation for understanding the role of business in society by exploring the nature and history of business enterprise, the social context of business, and the interaction of individuals with business by selecting current events in business and analyzing the content as well as the impact of the reported activities.

Fulfills Mason Core requirement in social and behavioral science.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SOM 301 - Business Models: A Communication Approach

Credits: 3 (NR)

Introduces fundamentals of business models, and writing as learning tool. Interrelationships among accounting, finance, information systems, marketing, and operations are subject of several "learning by writing" deliverables.

School of Management students will not be permitted to make more than three attempts to achieve a C or higher in SOM 301. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Management. For more information about this, see the "Termination from the Major" section under Academic Policies.

Fulfills writing intensive requirement in the major.

Corequisite(s): OM 210 and ACCT 203

Notes: Fulfills writing intensive requirement for SOM majors. Taught in lecture/recitation format; requires attendance at weekly lecture and weekly recitation.

Hours of Lecture or Seminar per week: 3
**SOM 492 - Undergraduate Internship**

Credits: 3 (NR)
Opportunity to gain practical, professional experience in conjunction with academic development. Internship is an important part of academic and career preparation. May be used as elective credit, but may not be repeated.

Prerequisite(s): Degree status.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOM 498 - Capstone Course: Advanced Business Models**

Credits: 3 (NR)
Advanced integrated exploration of business models and industry dynamics that uses case analyses to assess competition, organizational strategy, and firm performance. Students examine strategic change in organizations from multiple perspectives, integrating knowledge from core course work into several papers and major presentation. Students receive coaching from area business leaders as they complete their presentations.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): ACCT 301, BULE 302, OM 301, FNAN 301, MGMT 301, MIS 301, and MKTG 301; senior standing; degree status. Prerequisite enforced by registration system.

Notes: Fulfills synthesis requirement for SOM majors.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring, Summer

**Social Work (SOCW)**

Offered by the College of Health and Human Services

**SOCW 110 - Global Perspectives on Human Rights**

Credits: 3 (NR)
Explores awareness about human rights issues around the world. Students will become familiar with current debates about human rights, especially whether rights should be culturally determined. The role of the United Nations, governmental and nongovernmental organizations, including social service organizations will be presented. Emerging issues including the rights of children, the rights to food, shelter, and health care; and racial and economic equality will be emphasized.
Notes: Open to social work and nonsocial work majors; does not count toward the social work degree requirements.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 200 - Introduction to Social Work**

Credits: 3 (NR)
Introduces historical roots of social work profession and social welfare. Person-in-environment perspective discussed as framework for social work knowledge, values, and skills. Initial course in social work curriculum introduces social work profession, professional values, ethics, fields of practice, and settings in which social workers are employed. Highlights profession's commitment to diverse and at-risk populations and social and economic justice. Presentations by social work professionals in different fields of practice supplement classroom lecture, discussion, and small-group exercises.

Notes: Open to all majors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 301 - Laboratory in Interpersonal Communication**

Credits: 4 (NR)
Emphasizes experiential learning of biological, psychological, social, and cultural influences on behavior of those who need and those who give help. Students examine their own behavioral and learning patterns, values, ethics, and attitudes to increase ability to understand and help clients.

Prerequisite(s): SOCW 200, SOCI 101, PSYC 100, and at least sophomore standing.

Corequisite(s): SOCW 357.

Notes: Service learning of at least 60 hours required.
Open to majors only.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

**SOCW 323 - Human Behavior and the Life Course**

Credits: 3 (NR)
Social systems approach unifying and integrating concepts and knowledge from biology, anthropology, sociology, and psychology about human behavior. Applications to professional practice, from social work literature to field experience.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): SOCI 101, BIOL 103, and PSYC 100, or permission of the instructor.

Notes: Open to all majors.

**SOCW 340 - Human Behavior within Macro Systems**

Credits: 3 (NR)
Examines social systems theories as they pertain to study of macro systems. Focus of study involves families, social group, formal organization, and community. Students apply theoretical concepts to contemporary social problems.

Equivalent to SOCW 324 (2010-2011 Catalog)

Prerequisite(s): SOCI 101, BIOL 103, and PSYC 100, or permission of the instructor.

Notes: Students may not take SOCW 340 if they have already received credit for SOCW 324.

**SOCW 351 - Social Policy and Social Justice**

Credits: 3 (NR)
Introduces students to the knowledge and skills needed to frame and analyze social problems and social policies in the context of social justice. Examines the historical development, central concepts, and institutional nature of the contemporary welfare state and major social policies that have emerged in response to changing social, political, economic, and cultural influences.

Prerequisite(s): SOCW 200 and SOCI 101, or permission of the instructor.

Notes: Open to all majors.

**SOCW 357 - Methods of Social Work Intervention I**

Credits: 3 (NR)
Social work practice from systems perspective. Particular emphasis on problem-solving activities with microsystems. Analyzes common core of knowledge, values, and skills essential to social work practice to gain insight into social work functions and role of social worker as change agent.

Prerequisite(s): SOCW 200, SOCI 101, PSYC 100, or permission of the instructor.

Corequisite(s): SOCW 301.
Notes: Open only to Social Work majors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 358 - Methods of Social Work Intervention II**

Credits: 3 (NR)
Continues generic problem-solving model, focusing on group and macro intervention systems, settings, and skills. Emphasizes working with both treatment and task groups. Group processes, such as goal formulation, contract setting, composition, and termination necessary for effective worker intervention, are part of knowledge base.

Prerequisite(s): SOCW 301 and 357 with a minimum grade of C. Prerequisite enforced by registration system.

Corequisite(s): SOCW 362.

Notes: Open to majors only.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 359 - Junior Seminar**

Credits: 1 (NR)
Provides opportunity to integrate theory, research, and practice in area of group work. Time is allotted to process successes and obstacles, and to share issues, knowledge, and skills learned in service-learning site.

Prerequisite(s): SOCW 301

Corequisite(s): Must be taken simultaneously with SOCW 358.

Notes: Forty hours of service learning are required. Open to SOCW majors only.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

**SOCW 362 - Group and Family Interventions**

Credits: 3 (NR)
Provides students the opportunity to integrate theory, research, and practice in the area of group work and family interventions. Classroom simulation of group skills and how to work with families will occur. Collaboration with community agencies working with groups and families is required.

Equivalent to SOCW 359 (2010-2011 Catalog)

Prerequisite(s): SOCW 301 and SOCW 357 with a minimum grade of C. Prerequisite enforced by registration system.
Corequisite(s): SOCW 358.

Notes: Open to SOCW majors only. Students may not take SOCW 362 if they have already received credit for SOCW 359.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**SOCW 370 - Social Policy Analysis and Advocacy**

Credits: 3 (NR)
Introduces students to the knowledge and skills needed to influence social policy outcomes and advocate for social change. Explores the role of social workers in legislative policy analysis and advocacy. Students gain skills in policy practice, legislative research, developing and presenting recommendations, and testifying.

Equivalent to SOCW 352 (2010-2011 Catalog)

Prerequisite(s): SOCW 200 and GOVT 103 or 132, or permission of instructor.

Notes: Students may not take SOCW 370 if they have already received credit for SOCW 352.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**SOCW 400 - Legal and Ethical Issues in Human Services**

Credits: 3 (NR)
Overview of ethical and legal issues related to human services professions. Topics include responsibility, competence, duty to warn, confidentiality, professional relationships, and research. Emphasizes models of ethical decision making and critical thinking.

Prerequisite(s): 45 credits or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 410 - Alcohol and Substance Abuse: Policies and Programs**

Credits: 3 (NR)
Primary issues related to alcoholism and drug abuse including key concepts, theories, policies, and research regarding use and abuse of alcohol and other drugs. Emphasizes impact of policies and programs on well-being of ethnic minority and disadvantaged service populations.

Prerequisite(s): 45 credits or permission of instructor.
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 415 - Child and Family Welfare

Credits: 3 (NR)
Emphasizes viewing human development and child and family welfare services critically, holistically, and contextually. Integrates ecological systems, human rights, and empowerment perspectives for understanding delivery systems and persons in relation to their environment across levels from individual to global. Provides overview of existing child welfare system with focus on current issues, challenges, and at-risk populations.

Prerequisite(s): 45 credits or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 417 - Integrative Methods in Social Action and Social Change

Credits: 3 (NR)
Uses generalist social work practice concepts with large systems and provides students with a hands-on opportunity to apply concepts and principles of intervention with large systems. Students will work with organizations and communities on a local, national, or global level to promote social action and social change. The course will also focus on evaluating interventions addressing the social justice needs of diverse, at-risk, and oppressed populations.

Designated as a research and scholarship intensive course.

Prerequisite(s): SOCW 452, SOCW 453 and SOCW 471.

Notes: Open only to Social Work majors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 423 - Social Work with Children and Adolescents

Credits: 3 (NR)
Major needs of children and adolescents, and implications for social work practice. Problems of family and peer group relationships, occupational choice, sexual and scholastic adjustment, and special problems of racial and cultural alienation, alcohol and drug abuse, and delinquency. Reviews various theoretical orientations and evidence from research. Analyzes both individual and group approaches to counseling and treatment.

Prerequisite(s): 45 credits or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SOCW 425 - Planning and Organizing for Community Change

Credits: 3 (NR)
Designed for senior social work students with interest in pursuing community organization as professional career specialty. Provides basic understanding of community organization and planning, with special emphasis on conducting needs assessment in community. Students examine environmental context in which administrative and community practice occurs. Explores role of social workers as planners and agents of social change.

Prerequisite(s): 45 credits or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 435 - Introduction to Gerontology

Credits: 3 (NR)
Surveys issues related to working with older adults, their families, and care providers. Studies biological, psychological, and sociocultural aspects of aging, and unique problems with service delivery to older persons. Examines forces that impinge on an older person, and explores critical issues related to extended life span, family changes, institutionalization, and role of older persons in society.

Prerequisite(s): 45 credits, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SOCW 445 - Social Determinants of Health

Credits: 3 (NR)
Examine the social determinants of health and the application of this framework to social work and public health policy and practice interventions. Explore the many social justice factors that affect health and consider which community systems and social change approaches may decrease or eliminate health inequities.

Equivalent to GCH 445

Prerequisite(s): 45 credits or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

SOCW 452 - Senior Seminar I

Credits: 2 (NR)
Provides integrative team experience to support field experience and provide opportunities to demonstrate required competencies
through special assignments.

**Prerequisite(s):** SOCW 200, 301, 357, 358, 362, 323, 340, 351, and 370 with a C or better and recommendation of faculty. Open only to SOCW majors.

**Corequisite(s):** SOCW 453.

**Hours of Lecture or Seminar per week:** 2
**Hours of Lab or Studio per week:** 0

**SOCW 453 - Senior Practicum I**

Credits: 3 (NR)
Supervised learning experience (practicum) under guidance of qualified faculty liaisons and professional staff designated and approved by director of field education. Designed to facilitate practice with individuals, families, groups, and communities. Students spend two full days weekly in practicum sites.

**Prerequisite(s):** SOCW 200, 301, 357, 358, 362, 323, 340, 351, and 370 with a C or better and recommendation of faculty. Open only to SOCW majors.

**Corequisite(s):** SOCW 452.

**Notes:** Requires concurrent seminar (SOCW 452) participation and faculty-agency visits.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**Grading:** Satisfactory/No credit only

**SOCW 454 - Senior Seminar II**

Credits: 2 (NR)
Continuation of integrative team experience designed to support practicum experience and provide opportunities to demonstrate required competencies through special assignments.

**Prerequisite(s):** SOCW 452, 453, 471 with a grade of C or better.

**Corequisite(s):** SOCW 456

**Hours of Lecture or Seminar per week:** 2
**Hours of Lab or Studio per week:** 0

**SOCW 456 - Senior Practicum II**

Credits: 3 (NR)
Continuation of supervised learning experience (practicum) begun in SOCW 453. Students spend two full days weekly in practicum sites supervised by faculty liaisons and qualified professional staff designated and approved by director of field education.
Corequisite(s): SOCW 454

Notes: Requires concurrent seminar participation (SOCW 454) and faculty-agency visits. Open to SOCW majors only.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

SOCW 471 - Research in Social Work

Credits: 3 (NR)
Principles and theory underlying scientific inquiry. Emphasizes use of research in social work practice, steps in conducting research, and research efforts in developing and evaluating social work knowledge and skills.

Fulfills writing intensive requirement in the major.

Prerequisite(s): SOCW 358; SOCW 362; ENGH 302; senior standing or permission of the instructor.

Corequisite(s): SOCI 313, PSYC 300, or STAT 250.

Notes: Must be completed with minimum grade of C.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 475 - Selected Topics in Social Work Policy

Credits: 3 (RT)
In-depth study of special areas of social work of interest to students, faculty, and social work community.

Prerequisite(s): 45 credits, or permission of instructor.

Notes: May be repeated for maximum 9 credits if topics vary.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 480 - Research Internship in Health and Human Services

Credits: 3 (NR)
The student works as a member of a team engaged in health and human services research and attends a bi-weekly research seminar. Under direction of the course seminar leader and the faculty research mentor, the student will acquire selected research skills and develop introductory research writing and presentation skills.

Equivalent to HHS 480, HAP 480
Prerequisite(s): Open only to CHHS majors or students who have completed CHHS minor or certificate courses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**SOCW 483 - Selected Approaches to Social Work Intervention**

Credits: 3 (RT)
Opportunity to examine personal use of different approaches to social work intervention currently employed in practice settings. Students use technical skills with clients that these approaches require.

Prerequisite(s): 45 credits, or permission of instructor.

Notes: May be repeated for maximum 9 credits if topics vary.

**SOCW 499 - Independent Study in Social Work**

Credits: 1-3 (RD)
Investigates research problem in field of social work.

Prerequisite(s): 60 credits and research proposal approved by instructor before enrollment.

**SOCW 598 - Special Topics in Social Work**

Credits: 1-6 (RD)
Critical examination of special topics related to social work, social justice, and human rights.

Prerequisite(s): Upper-level undergraduate or graduate standing.

**SOCW 623 - Human Behavior and Social Systems I**

Credits: 3 (NR)
Ecological approach to behavior of individuals, families, groups, organizations, and communities. Integrates and applies theories from psychology, sociology, biology, and anthropology to study of infants, children, and adolescents. Emphasizes human
diversity.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 624 - Human Behavior and Social Systems II**

Credits: 3 (NR)
Continues study of human behavior and diversity by exploring application of development theory and ecological principles to those in young adulthood, middle adulthood, and older adulthood.

Prerequisite(s): SOCW 623.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 630 - Forensic Social Work Practice**

Credits: 3 (NR)
Explores the social work role in legal processes relating to such issues as family violence, child custody, behavioral health, disabilities, aging, and juvenile/criminal justice. Apply skills in forensic interviewing, risk assessment, expert testimony, mitigation, mediation, treatment, victim advocacy, and multidisciplinary collaboration.

Prerequisite(s): SOCW 624, 652, 658, and 673.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 640 - Advanced Clinical Practice**

Credits: 3 (NR)
Prepares students at the advanced level to apply diagnostic, assessment, prevention, treatment, and intervention skills with individuals, families, and groups in clinical mental health and health settings. Trains students in differential diagnosis and assessment using the Revised Diagnostic and Statistical Manual (DSM IV-TR). Currently accepted treatment interventions within the context of contemporary social work theory are also presented.

Prerequisite(s): SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673 and 680

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 645 - Community-Centered Clinical Practice**
Students use an ecosystems framework for assessment, risk-reduction, prevention, and intervention with communities in a local, national, or international context. Possible areas of exploration include violence prevention and intervention, suicide prevention and intervention, emergency response efforts, and behavioral health or wellness interventions at the community level.

**Prerequisite(s):** SOCW 624, 652, 658, and 673.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCW 651 - Social Policies, Programs, and Services**

Credits: 3 (NR)  
History of American social welfare policy and social work profession. Explores political, economic, social, cultural, and ideological influences on policy making with emphasis on consequences for populations at risk. Introduces historical policy analysis.

**Prerequisite(s):** Graduate standing

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCW 652 - Influencing Social Policy**

Credits: 3 (NR)  
Introduces students to the knowledge, skills, and values needed to influence policy outcomes. Explores the role of social workers in electoral politics and policy advocacy. Students gain skills in legislative research, coalition building, testifying, constituent organizing, and lobbying, while developing strategies for promoting social justice through policy change.

**Prerequisite(s):** SOCW 651.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCW 653 - Immigration Policy**

Credits: 3 (NR)  
Prepares students for advocacy on behalf of immigrants from a human rights and social justice perspective. Explores policies, economic forces and historical precedence abetting global migration. Abets development of an in-depth knowledge of national and local policies as they pertain to immigrants, and how issues relate to social work advocacy.

**Prerequisite(s):** Completion of all first-year graduate coursework or advanced standing.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer
SOCW 654 - Social Policy for Children and Youth

Credits: 3 (NR)
Examines social policies, programs, and services on behalf of children and youth with implications for social work; including child welfare, child and adolescent health and mental health, juvenile justice, and school social work. Explores how societal norms regarding family and definitions of children's well-being influenced these policies over time.

Prerequisite(s): Completion of MSW foundation coursework.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

SOCW 655 - Aging Programs and Policies

Credits: 3 (NR)
Analyzes the evidence-based benefits and challenges of social welfare and health care policy at the local, state, and federal levels on programs and services for older persons and their families. Fosters an understanding of the context of administrative structures, and legislative context of social policy and aging with attention to diversity and ethics.

Prerequisite(s): SOCW 652 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

SOCW 657 - Direct Social Work Practice I

Credits: 3 (NR)
Introduces role of social workers as change agents and the core knowledge, values, and skills that guide social work practice with individuals, families, small groups, organizations, and communities.

Prerequisite(s): Graduate standing and open only to students enrolled in MSW degree program.

Corequisite(s): SOCW 672.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 658 - Direct Social Work Practice II

Credits: 3 (NR)
Continuation of social work theory and practice with individuals, families, groups, organizations, and communities. Emphasizes intervention, evaluation, follow-up, and termination, with attention to incorporating social work knowledge, values, and skills.
Prerequisite(s): SOCW 657; Open to students enrolled in MSW degree program

Corequisite(s): SOCW 673

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 663 - Global Human Rights Policy

Credits: 3 (NR)
Examines meaning and benefits of transforming social work policy practice to a global perspective and focus on a human rights-based rather than a needs-based approach. Demonstrates how human rights can serve as conceptual framework for policy practice to effect social change promoting human development and social and economic justice across levels, from the micro through macro and local through global.

Prerequisite(s): Completion of MSW Foundation curriculum or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SOCW 664 - Art Therapy and Social Work

Credits: 3 (NR)
Explores the principles and techniques of art therapy for social work practice, examining assessment, intervention and evaluation strategies that supplement traditional social work treatment. Course covers theory, research, and interventions applied to individuals, families, groups, and communities.

Prerequisite(s): Completion of MSW Foundation curriculum or permission of instructor.

Notes: Previous training in the visual arts and/or artistic ability is not required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SOCW 665 - Integrated Behavioral Health Policy

Credits: 3 (NR)
Examines policy concerns and strategies for implementing integrated behavioral health care models. Identifies practice models that integrate substance abuse and mental health with primary health care. Provides an overview of the U.S. health care system, including legislation, financing, and health care disparities. Students will develop an understanding of access to health care as a social justice concern.

Hours of Lecture or Seminar per week: 3
SOCW 670 - Communication and Technology for Social Work Practice

Credits: 3 (NR)
Studies various forms of written communication pertinent to social work practice. Examines impact of audience, status, culture, and purpose on effective professional writing.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 671 - Research Methods for Social Workers

Credits: 3 (NR)
Examines role of scientific inquiry in social work. Emphasizes construction and use of measurement instruments, data collection, analysis, and interpretation, and application of computer technologies relevant to social work practice.

Prerequisite(s): Graduate Standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 672 - Foundation Field Practicum and Seminar I

Credits: 3 (NR)
Provides supervised social work learning experience in human service agencies. Students complete 16 hours per week in field practicum, and attend bimonthly seminar in which they share learning and integrate theory with practice.

Corequisite(s): SOCW 657.

Notes: Open only to MSW degree students.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Spring

SOCW 673 - Foundation Field Practicum and Seminar II

Credits: 3 (NR)
Continues the supervised social work learning experience begun in SOCW 672. Students spend 16 hours per week in field
practicum, and attend bimonthly seminar in which they share learning, process experiences, and integrate theory with practice.

**Prerequisite(s):** SOCW 672.

**Corequisite(s):** SOCW 658.

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0
**Grading:** Graduate Special
**When Offered:** Fall, Spring

### SOCW 674 - Psychopathology

Credits: 3 (NR)
Overview of adult and child psychopathology presented within the contexts of the lives of people experiencing mental disorders and the social contexts that can have a bearing on symptom maintenance. Learn to formulate competency-based assessments and DSM IV-TR-based differential diagnoses.

**Prerequisite(s):** All foundation year coursework (SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, and 673).

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

### SOCW 675 - Selected Topics in Clinical Practice

Credits: 3 (RT)
In-depth study of special topics related to clinical social work practice at the individual, family, small group, or community level.

**Prerequisite(s):** 30 credits or permission of instructor.

**Notes:** May be repeated for a maximum of 12 credits if the topics vary.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

### SOCW 676 - Selected Topics in Social Work and Social Change

Credits: 3 (RT)
Critical examination of special topics related to understanding and improving community and societal conditions through policy practice, program development, and social action.

**Prerequisite(s):** 30 graduate credits or permission of instructor.

**Notes:** May be repeated for a maximum of 12 credits if the topics vary.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**SOCW 677 - Family Therapy**

Credits: 3 (NR)
Examines research and theory relevant for assessment and intervention with families. Students will learn to conduct a family assessment, taking cultural diversity, non-traditional family structures including single-parent and GLBTQ families, and socioeconomic factors into account. Students will develop skills in implementing an intervention based on the family’s strengths and challenges.

**Prerequisite(s):** Completion of MSW foundation coursework.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

---

**SOCW 678 - Trauma and Recovery**

Credits: 3 (NR)
Explores complex traumatic stress disorders, the process of recovery, and the etiology of healing in contemporary North American Culture. Diagnostic criteria, assessment strategies and evidence-based treatment options for complex traumatic stress disorders across diverse populations including sexual trauma, war, early childhood trauma and natural disasters will be addressed.

**Prerequisite(s):** Completion of MSW foundation coursework.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

---

**SOCW 679 - Military Social Work**

Credits: 3 (NR)
Examines research and theory relevant for social work practice with service members, veterans, and their families. The course addresses the military as a workplace culture, evidence-based approaches for post-traumatic stress and co-morbid conditions, clinical practice with military families, preventive care and the service delivery system in military and civilian settings.

**Prerequisite(s):** Completion of MSW foundation coursework.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

---

**SOCW 680 - Clinical Field Practicum**

Credits: 6 (NR)
Supervised social work learning experience four days per week. Students placed in public, nonprofit or for-profit mental health
and health venues reflecting specific interests in advanced clinical practice with individuals, families and groups, community-centered clinical practice, or forensic social work.

Prerequisite(s): SOCW 673, 630, 640, 645, and 688

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

**SOCW 681 - Clinical Field Seminar**

Credits: 3 (NR)
Assists students in critically analyzing their field experiences in the application of mental health assessment and interventions, working with individuals, families, groups, and communities. Students are expected to apply social work knowledge, values, and skills from their advanced clinical course work.

Corequisite(s): SOCW 680.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 682 - Substance Abuse Interventions**

Credits: 3 (NR)
Develops knowledge and skills for direct practice in the field of addictions. The course covers the knowledge base regarding evidence-based interventions at all stages in the process of intervention with individuals, families, and groups that promote recovery from addiction to drug and alcohol abuse.

Prerequisite(s): Completion of MSW foundation coursework.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

**SOCW 684 - Social Work and the Law**

Credits: 3 (NR)
Students engage in close analysis of judicial opinions to explore the role of the courts in creating public policy. Areas of inquiry include the role of social workers in the legal system, the nature of legal proceedings, and how the law shapes policy in relation to issues affecting children, youth, families, older adults, women, minorities, people in poverty, and other vulnerable populations.

Prerequisite(s): SOCW 624, 652, 658, and 673.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SOCW 685 - Organizational Leadership for Social Workers

Credits: 3 (NR)
Examines functions and structure of human service organizations in context of service delivery. Development of theoretical knowledge, professional ethics, and skills in administration, leadership, management, organization, and supervision.

Prerequisite(s): SOCW 624, 652, 658, and 673.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 687 - Empowering Communities for Change

Credits: 3 (NR)
Explores social work interventions at community level, including organization, planning, and development. Strategies for mobilizing community members, using community organizations, formulating coalitions, engaging in participatory planning, and social and economic development.

Prerequisite(s): SOCW 624, 652, 658, and 673.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 688 - Advanced Research in Social Work

Credits: 3 (NR)
Explores social work intervention research, needs assessment, formative and summative program evaluation, and cost analyses. Discusses applications of systematic inquiry at the practice, organizational, and policy levels. Addresses ethical, pragmatic, and political considerations; qualitative approaches; quality performance; evidence from empirical research; and evaluation design.

Prerequisite(s): SOCW 624, 652, 658, 671, and 673.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SOCW 689 - Clinical Practice with Older Adults

Credits: 3 (NR)
Examines age-associated changes and challenges faced by older adults. Focus is strengthening assessment and intervention skills with older adults, their family members and caregivers within the community and long-term care facilities, determining the best standardized instruments to use, and developing effective questions for assessment. Attention is given to the resilience of elders, ethical issues and diversity.

Prerequisite(s): SOCW 674 or permission of the instructor.

Hours of Lecture or Seminar per week: 3
SOCW 690 - Social Change Field Practicum

Credits: 6 (NR)
Supervised social work learning experience four days per week. Students placed in public, nonprofit, or for-profit venues reflecting specific interests in agency supervision, organizational management, community change, electoral policies, or social policy.

Prerequisite(s): SOCW 673, 684, 685, 687, and 688.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

SOCW 691 - Social Change Field Seminar

Credits: 3 (NR)
Processing of field practicum experiences; analysis of successes and challenges; application of social work knowledge, values, and skills from across the curriculum. Culminates in professional presentations by students.

Corequisite(s): SOCW 690.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 692 - Clinical Practicum I

Credits: 3 (NR)
Students participate in a supervised clinical social work field practicum for 20 hours per week. The clinical field seminar accompanies the clinical concentration year practicum. The seminar is designed to assist the student in critically analyzing their field experiences in the application of mental health assessment, risk reduction and interventions working with individuals, families, groups, and communities.

Prerequisite(s): SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SOCW 693 - Clinical Practicum II
Students participate in a supervised clinical social work field practicum for 20 hours per week. The clinical field seminar accompanies the clinical concentration year practicum. The seminar is designed to assist the student in critically analyzing their field experiences in the application of mental health assessment, risk reduction and interventions working with individuals, families, groups, and communities.

Prerequisite(s): SOCW 623, 624, 630, 651, 652, 657, 658, 670, 671, 672, 673, 674, 688, and 692

Notes: This is a continuation of SOCW 692 taken in the Fall semester.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SOCW 694 - Social Change Practicum I

Students participate in a supervised clinical social work field practicum for 20 hours per week. The clinical field seminar accompanies the concentration year practicum. The seminar is designed to assist students in processing their field experiences and analyzing their successes and challenges. Students are expected to apply social work knowledge, values, and skills from across the curriculum.

Prerequisite(s): SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SOCW 695 - Social Change Practicum II

Students continue to work in a supervised social work field practicum for 20 hours per week. At the end of this semester students will have completed 300 hours of field work to meet the total number of 600 hours required for the concentration year practicum. The field seminar accompanies the concentration year practicum. The seminar is designed to assist students in processing their field experiences and analyzing their successes and challenges. Students are expected to apply social work knowledge, values, and skills from across the curriculum.

Prerequisite(s): SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673, 684, 685, 688, and 694

Notes: Continuation of SOCW 693 from the Fall semester.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SOCW 697 - Thesis Project Seminar
Credits: 3 (NR)
Provides structured opportunity for students to work with each other and faculty in developing their final MSW thesis projects. Integrates and applies learning from all previous course work, emphasizing knowledge, skills, and values related to research, clinical practice, policy, community practice, and organizational leadership. Social work ethics, empowerment of populations at risk, and systems transformation will be explored. In addition to group meetings, students will meet individually with their faculty mentors.

Prerequisite(s): Social Change: SOCW 684, 685 and 688.
Clinical Practice: SOCW 630 and 688.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 699 - Independent Study in Social Work

Credits: 1-3 (RT)
Investigates research problem in field of social work.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

Sociology (SOCI)

Offered by the College of Humanities and Social Sciences

SOCI 101 - Introductory Sociology

Credits: 3 (NR)
Introduction to basic sociological concepts. Examines aspects of human behavior in cultural framework, including individual and group interaction, social mobility and stratification, status and class, race and gender relations, urbanism, crime and criminology, and social change and reform.

Fulfills Mason Core requirement in social and behavioral science.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 120 - Globalization and Society

Credits: 3 (NR)
Examines and analyzes important global issues and processes. Considers historical development of globalization and implications
for different societies and cultures. Investigates perceptions of global processes by different cultures and nations, and efforts of international institutions to address social, political, economic, and cultural changes in global society.

Fulfills Mason Core requirement in global understanding.

Notes: Students may not receive credit for both SOCI 120 and GLOA 101.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 300 - Social Control and Freedom**

Credits: 3 (NR)
Explores ways in which individuals are both architects and prisoners of society. Offers a foundational course for examining the “invisible” social forces that shape our lives and the individual and collective capacity to make choices, including social and cultural change. Includes topics such as youth and culture, deviance and crime, social inequalities, and global change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 301 - Criminology**

Credits: 3 (NR)
Focuses on causes and meaning of crime, with emphasis on adults. Patterns of criminal behavior, including property crimes, violent crimes, organized crime, white-collar crime, and victimless crime. Critical assessment of criminal justice system as a response to crime.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 302 - Sociology of Delinquency**

Credits: 3 (NR)
Examines social factors involved in development of delinquency, including family, political economy, schooling, community environment and culture. Examines various theories of delinquency; rates of delinquency in relation to age, race, gender and social class; and legal system that addresses causes, consequences, and policies of punishment and rehabilitation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 303 - Sociological Research Methodology**

Credits: 4 (NR)
Introduces empirical design in sociological research: historical development, research design, sampling, methods of gathering
data, sociometric scales, analysis and interpretation of results, and research reporting.

Prerequisite(s): SOCI 101 or 102, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

SOCI 304 - The Future of Work

Credits: 3 (NR)
Introduces the basic concepts of economic sociology. Explores how the world of work has changed due to globalization, deindustrialization, new technologies, and economic crisis. Focuses on providing students with a better understanding of how markets and corporations work, and about new economic approaches to create new, potentially less alienating work environments.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 307 - Social Movements and Political Protest

Credits: 3 (NR)
Explores processes for organizing resistance to current social and power arrangements, from terrorism to nonviolent civil resistance to create alternative institutions, policies, or leadership that promote human rights and social justice. Uses historical and contemporary case studies of local and global change to explore, how, why, and to what effect individuals have organized to protest the status quo and create social change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 308 - Race and Ethnicity in a Changing World

Credits: 3 (NR)
Explores how race and ethnicity have been shaped by policies and practices in Western and non-Western societies. Explores the evolution of racial and ethnic attitudes from a global and historical perspective. Examines how changing demographic racial patterns may affect definitions of race and ethnicity and the ways in which people individually and collectively act to create new futures.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 309 - Marriage, Families, and Intimate Life

Credits: 3 (NR)
Uses a sociological framework to analyze and understand the diverse forms of contemporary families--traditional marriages,
cohabitation, domestic partnerships, single-parents families, stepfamilies, and gay and lesbian families. Explored are topics such as changes in sexual mores, reflected in new dating practices; shifting parenting roles; effects of social class, race and ethnicity; and the outcomes of divorce for couples and children.

**SOCI 310 - Sociology of Deviance**

Credits: 3 (NR)
Analyzes macro- and microlevel deviance-producing processes, meaning and control of deviance, and major theoretical approaches to deviance.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 311 - Classical Sociological Theory**

Credits: 3 (NR)
Explores sociological tradition through readings and discussions of ideas drawn from writings of selected sociological thinkers such as Comte, Marx, Weber, Durkheim, and others.

**Prerequisite(s):** 6 credits of upper level (300 or 400 level) sociology courses, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 312 - Qualitative Research Methods**

Credits: 3 (NR)
Introduces ethnography, field work methods, interviewing, life histories, and other qualitative methods to generate data about cultures in which various groups and classes are immersed. Students learn by applying qualitative methods to term projects, developed under guidance of instructor.

**Prerequisite(s):** 9 credits of sociology including SOCI 101 or 102, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 313 - Statistics for the Behavioral Sciences**

Credits: 4 (NR)
Fundamentals of applied statistics as used in behavioral science to include descriptive statistics, inferential statistics, correlation regression, analysis of variance, factor analysis, nonparametric statistics, and practical experience with calculators in applying
statistical analysis to actual problems of the behavioral sciences.

**Prerequisite(s):** SOCI 101, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 2  

**SOCI 314 - The Practice and Politics of Culture**

Credits: 3 (NR)  
Examines how culture, encompassing high art or participatory culture, expressive agency or traditional constraint, is produced and reproduced in everyday social practices and across a wide range of social institutions. Explores the role of culture in public life and political discourse.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  

**SOCI 315 - Contemporary Gender Relations**

Credits: 3 (NR)  
Examines the meaning and significance of gender relations in the US and other societies around the globe. Examines the concepts and processes of privilege, power, and difference to understand how they shape the meaning and construction of feminine and masculine roles and identities and why gender difference (which conceptually does not imply inequality) translates into gender inequality.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  

**SOCI 320 - Social Structure and Globalization**

Credits: 3 (NR)  
While focusing on nature and process of change in human society, considers social impact of political, economic, and environmental change and how lives are shaped by complexities of global social forces. Examines specific global issues such as conflict and security; economic disparity; ecological deterioration; populations and migration; legitimization of commerce; diffusion of innovations; and impact of class, status, and power in modern societies. Designated a Green Leaf Course.

Fulfills Mason Core requirement in global understanding.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  

**SOCI 326 - Armed Conflict and Conflict Resolution**
Credits: 3 (NR)
Examines political, economic, and sociocultural reasons why countries engage in armed conflict. Conflicts within and between states are explored with special focus on consequences for global, regional and local instability, loss of life and limb, and fragmentation of social, political, and economic fabric of societies. Examines various approaches to conflict resolution.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 332 - The Urban World**

Credits: 3 (NR)
Examines cities and the people who live in them in the United States and around the world. Includes topics such as: social and economic development, inequality, political protests, urban democracy, and the environment.

Fulfills Mason Core requirement in global understanding.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 340 - Power, Politics, and Society**

Credits: 3 (NR)
Analyzes how power is defined, attained and sustained in society. Students analyze political power as related to social realities such as democratic elections, class conflict, elite networks, powersharing, protest, and revolution.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 352 - Social Problems**

Credits: 3 (NR)
Using a sociological perspective, analyzes the problems of contemporary societies, including inequality, poverty, health, environment, oligarchy, media, militarism, and corruption.

Fulfills Mason Core requirement in social and behavioral science.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 355 - Social Inequality**

Credits: 3 (NR)
Studies class structures and implications for individuals and groups in modern society. Explores issues of race and ethnicity, language and immigration status, sex and gender, social class, age, and sexual orientation. Examines critically the theory and
research that explore the construction, experience, and meaning of such differences.

Fulfills Mason Core requirement in social and behavioral science.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCI 360 - Youth Culture and Society**

Credits: 3 (NR)  
Introduces sociology of youth and youth culture. Investigates social, economic, and political realities of youth as a group and different groups of youth, including youth cultural production, formation of youth culture, and youth identities in variety of social settings.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCI 373 - The Community**

Credits: 3 (NR)  
Examines small to moderate-size communities ranging through village, rural community, small town, and city subcommunity. Latter category includes city localities, ethnic villages, and suburban communities.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCI 377 - Art and Society**

Credits: 3 (NR)  
Introduces the many ways in which art reflects social tendencies, comments on social problems, and contributes to discussions about a wide range of social issues. Students attend theatrical performances and visit exhibition spaces on campus, and learn to analyze what they experience through both aesthetic and sociological approaches. Explores contemporary issues such as debates about artistic freedom and public morality, commercialization of art, and relationship between cultural and social hierarchies.

Fulfills Mason Core requirement in synthesis.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCI 382 - Education in Contemporary Society**

Credits: 3 (NR)  
Examines classrooms and schools as social institutions that function as socializing agents for both stability and societal change. Emphasizes the influence of inequality on educational processes and outcomes and critically examines the social organization of
the U.S. public school system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  

**SOCI 385 - Sociology of Religion**

Credits: 3 (NR)  
Studies places of religious consciousness in human action and institutional and organizational networks created to sustain religious beliefs. Emphasizes comparative and historical analysis of role religion has played in human society. Examines theories of nature of religious experience, religious symbolism, and basis of religious community. Explores changing demographics in relation to older traditional religious faiths and newer nontraditional faiths.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  

**SOCI 390 - Sociology of Health, Illness, and Disability**

Credits: 3 (NR)  
Examines social context of health, illness, and disability; relationships of health care professionals and patients; and structure and delivery of health care in different medical systems.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  

**SOCI 395 - Special Topics in Sociology**

Credits: 3 (RT)  
Introduces the research interests of the faculty, offering new courses that reflect current issues not yet incorporated into the curriculum. Offers, in addition, advanced study into topics covered in the standing curriculum. Topics change by semester.

**Prerequisite(s):** 90 credits, and 12 credits of sociology.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  

**SOCI 399 - Independent Study**

Credits: 1-3 (RD)  
Individual study of sociological topic of interest to student.

**Prerequisite(s):** Open to sociology majors only. 6 credits of sociology including SOCI 101, and approval of written proposal.

**Notes:** May be repeated for credit up to 3 credits.
**SOCI 405 - Analysis of Social Data**

Credits: 4 (NR)
Overview of management and analysis of empirical social science data, including file construction, scaling and measurement, data transformation, and treatment of missing data. Emphasizes manipulation, management, and analysis of data sets using computers.

Prerequisite(s): 60 credits, SOCI 313 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 3

**SOCI 410 - Social Surveys and Attitude and Opinion Measurements**

Credits: 3 (NR)
Surveys research methods and techniques to collect, measure, and analyze social data, attitudes, and opinions with special emphasis on using computer software, the Internet, and other information technologies for social research. Highlights ethical issues for social research, computing, and information technology.

Fulfills Mason Core requirement in information technology (all except ethics).

Prerequisite(s): SOCI 303 and 313 or equivalents, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 412 - Contemporary Sociological Theory**

Credits: 3 (NR)
Presents for analysis and discussion the significant theorists and themes in contemporary sociological theory. Designed to enhance student’s skills in reading and analyzing primary texts and to encourage reflection on contemporary social reality. Fulfills writing intensive requirement.

Fulfills writing intensive requirement in the major.

Prerequisite(s): SOCI 311 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 416 - Internship in Sociology**
Credits: 1-6 (RT)
Intended to promote learning in application of sociological knowledge, and build skills in different work settings. Students work in approved setting as applied sociologists.

Prerequisite(s): 21 credits of sociology, including Research Methods, or permission of instructor.

Notes: Minimum 45 hours of work for each credit required. May be repeated for a maximum of 6 credits.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

SOCI 421 - Field Work in Social Change

Credits: 3 (NR)
In-depth investigation of planned social change through field work internship with change organization of student's choice. Groups may be involved in influencing peace, environment, civil rights, consumer protection, poverty, or other public issues. Topics include ideologies, targets, organizational structures, opposition, and strategies of change.

Prerequisite(s): 6 credits of sociology or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 441 - The Sociology of Aging

Credits: 3 (NR)
Aging from a sociological perspective. Topics include demographic trends and aging population in America, social construction of life stages and creation of "old age," cultural labeling, and human resistance.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 471 - Prevention and Deterrence of Crime

Credits: 3 (NR)

Equivalent to CRIM 471

Prerequisite(s): 60 credits, in-service status, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SOCI 480 - Honors Seminar in Sociology I

Credits: 3 (NR)
Develop research proposals and an appropriate bibliography for honors thesis under the guidance of a sociology faculty member.

Prerequisite(s): Admission to honors in the sociology major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Special undergraduate.

SOCI 481 - Honors Seminar in Sociology II

Credits: 3 (NR)
Pursue independent research and write honors thesis under the guidance of a faculty mentor. Present work in a colloquium at the end of the semester.

Prerequisite(s): Successful completion of SOCI 480.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 482 - Honors Internship in Sociology

Credits: 3 (NR)
Provides hands-on experience in sociology and opportunity to do research in approved work settings. In addition to 120 hours of field work (for 3 credits), students meet at discretion of instructor to plan their research and share ongoing field work experiences.

Prerequisite(s): Admission to Sociology Honors Program and permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 483 - The Sociology of Higher Education

Credits: 3 (NR)
Exposes students to sociological theory and research on evolution of higher learning in United States. Explores social forces that have shaped the distinctively American approach toward higher education and have led to transformation of higher education in contemporary society. Particular attention to relation between universities and elites within surrounding society, linkage between education and industry, norms and values that are presupposed by educational institutions, and bearing of sports on values and traditions of higher education.

Fulfills Mason Core requirement in synthesis.
SOCI 492 - Sociology of Organizations

Credits: 3 (NR)
Theories, analysis of types of organizations from informal voluntary associations to large complex ones. Explores nonprofit organizations and alternatives to bureaucracies, such as feminist collectives, cooperatives, self-help groups, and social movement organizations. Students do field work in organizations applying theories and concepts to observations.

SOCI 499 - Independent Research in Sociology

Credits: 1-4 (RD)
Investigation of sociological problem according to individual interest, with emphasis on research.

Prerequisite(s): 18 credits of sociology including SOCI 311, 313, and 412; 3.00 GPA in sociology; and research proposal approved by instructor and department chair before enrollment.

SOCI 503 - Sociology of Law

Credits: 3 (NR)
Classical and contemporary sociological theories applied to law and legal institutions. Social relations between law and community, special group interests, social change, and social deviance. Case studies. Consideration of legal profession.

Prerequisite(s): Undergraduate senior status in sociology, graduate standing, or permission of instructor.

SOCI 516 - Internship in Sociology

Credits: 1-6 (RD)
Learning experience in the application of sociological knowledge and skills in different work settings. Students work in approved setting as applied sociologists.

Prerequisite(s): 21 credits of sociology including research methods, or permission of instructor.

Notes: Minimum 45 hours of work for every 1 credit. May be repeated for a maximum of 6 credits.
SOCI 590 - Gender, Race, and the Natural World

Credits: 3 (NR)
Advanced study of links among gender, race, and nature using social-psychological framework, original sources, and seminar discussion format. Analyzes ideologies that underpin interlocking narratives of gender, race, and nature; and examines role of science in production of those ideologies.

Prerequisite(s): Undergraduate seniors, graduate standing, or permission of instructor.

SOCI 599 - Issues in Sociology

Credits: 1-3 (NR)
Contemporary topics in sociology including sociological theory, crime and delinquency, advanced research methods, social and cultural change, urban sociology, medical sociology, sociology of aging, and rural sociology.

Equivalent to NURS 611

Prerequisite(s): Undergraduate senior status in sociology, or graduate status.

Notes: May be taken only once for credit.

SOCI 605 - Gender and Social Structure

Credits: 3 (NR)
Reviews theories explaining the development and maintenance of gender. Using historical and comparative data, examines perceived, prescribed, and actual sex differentiation in social, political, and economic roles. Begins with gender as a social structure and then examines contemporary research as support or refutation for variety of theoretical paradigms. Includes discussion of gender in intimate relationship and the public sector.

SOCI 607 - Criminology
Crime and crime causation. Topics include social basis of law, administration of justice, and control and prevention of crime.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### SOCI 608 - Juvenile Delinquency

Credits: 3 (NR)  
Sociology of adolescent behavior. Sociological factors that determine which behaviors and social categories of adolescents are likely to be labeled and treated as delinquent.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### SOCI 609 - Sociology of Punishment and Corrections

Credits: 3 (NR)  
Explores development of modern penal system as interpreted by various perspectives, including Durkheim, Marx, Weber, Foucault, Elias, and Garland. Explores recent trends and problems, including social control and violence in prisons, race and gender disparities in punishment, alternative rehabilitation, and prevention strategies.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### SOCI 614 - Sociology of Culture

Credits: 3 (NR)  
Analyzes 20th-century debates in American culture and cultural politics, with emphasis on art and popular culture, news media, and competing notions of "the public." In-depth readings in cultural sociology cover variety of theoretical and methodological approaches.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### SOCI 619 - Conflict and Conflict Management: Perspectives from Sociology
Credits: 3 (NR)
Deals with sociology of conflict. Presents major sociological theories of conflict such as those of Marx, Weber, Simmel, Dahrendorf, Coser, and Collins. Stresses role that sociological conflict theory plays in undergirding conflict management practices.

Prerequisite(s): Graduate standing in sociology or conflict analysis and resolution, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 620 - Methods and Logic of Social Inquiry**

Credits: 3 (NR)
Emphasizes gathering, interpreting, and evaluating scientific evidence. Covers logic of scientific inquiry, including the application of various research designs and data collection methods. Develops critical-thinking skills by using set of rules and logical criteria for evaluation of social science research. Focuses both on how results are obtained and disseminated via research reports.

Prerequisite(s): Undergraduate statistics and research methodology, or permission of instructor.

Notes: Restricted to SOCI majors only.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 623 - Racial and Ethnic Relations: American and Selected Global Perspectives**

Credits: 3 (NR)
Covers demographic purview of U.S. and other global racial and ethnic groups and racial and ethnic groups as human-social-minority and dominant groups. Explores factors contributing to dominant and minority status and means of altering dominant groups assessment of minority group status.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**SOCI 631 - Survey Research**

Credits: 3 (NR)
Introduces theory, method, and practice of survey research design and analysis. Students complete survey research project.

Prerequisite(s): SOCI 530 and 531, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
**SOCI 632 - Evaluation Research for Social Programs**

Credits: 3 (NR)
Studies methodological issues related to evaluation of social programs. Explores conceptual and research design issues in relation to social programs, particularly delivery of social services. Includes examination of methods used to assess need for programs, impact of delivery systems, and efficiency and effectiveness of social programs.

Prerequisite(s): SOCI 530 and 531, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCI 633 - Special Topics in Sociology**

Credits: 3 (RT)
Specialized inquiry of topics of contemporary sociological research and scholarship. Content varies.

Notes: May be repeated for credit when topic varies for a maximum of 12 credits.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCI 634 - Qualitative Research Methods**

Credits: 3 (NR)
Examines basic research methods involving observational techniques and procedures used in description and analysis of patterns, configurations, ethos, eidos, structures, functions, and styles typical of whole societies and cultures. Emphasizes case studies, unobtrusive methods, participant observation, longterm residence, choices of observer status role, recording data, uses of technical equipment, key informants, interviewing techniques, and ethical considerations in employing such methods and procedures.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCI 635 - Environment and Society**

Credits: 3 (NR)
Overview of human ecology and environmental sociology, emphasizing selected topics. Focuses on theory, since theory makes it possible to generalize from understandings derived in an analysis of a particular problem and apply them to other problems.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
SOCI 636 - Statistical Reasoning

Credits: 3 (NR)
Intermediate treatment of quantitative analytic techniques used in sociology. Topics include sampling, inference, hypothesis testing, analysis of variance, and bivariate and multiple correlation and regression. Introduces logic of multivariate analysis. Focus on how results are obtained and disseminated via research reports.

Prerequisite(s): Undergraduate statistics and research methodology, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 640 - Social Theory and Social Policy

Credits: 3 (NR)
Major theories of social organization and social change as means of understanding social policy development. Concentration is on social policies in American society.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 641 - Micro Sociology: Inequality and Everyday Life

Credits: 3 (NR)
Analyze the relationship between everyday life and social inequalities, with a particular focus on examining theoretically and empirically the relationship between governing structures of society and the structure of situational and interactional terrains as it plays out in the lives of everyday people.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 651 - Health Care Systems

Credits: 3 (NR)
Changing health care systems are rapidly affecting patient providers and health and quality of life of society. Offers analysis and theories of change in health care systems and impacts on society and various stakeholders. Examines for-profit and nonprofit organizations and their impacts, and offers comparative cross-cultural analysis of health care systems.

Prerequisite(s): Graduate standing, or permission of instructor.
SOCI 655 - Ethnography

Credits: 3 (NR)
Introduces ethnography in sociology to graduate students. Teaches techniques for collecting, analyzing and writing-up ethnographic materials. Considers some of the central methodological issues relevant to doing ethnography. Explores some of the critical ethical and political questions that arise within ethnographic research practice.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SOCI 660 - Historical and Comparative Sociology

Credits: 3 (NR)
Seminar in theory and methods of historical and comparative sociology, primarily for students with background in sociological theory and methods. Examines basic approaches and research data of history and sociology, surveys development of field, and analyzes exemplary studies.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 686 - Sociology of Aging

Credits: 3 (NR)
Analyzes sociological issues in aging, including class and cultural factors, problems of work, retirement, attachment and loss, and ageism. Examines different theories of aging.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 696 - Independent Study

Credits: 1-3 (RD)
Theoretical and research literature chosen by student and instructor.

Prerequisite(s): Graduate standing, or permission of instructor.
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

SOCI 697 - Independent Study

Credits: 1-3 (RD)
Theoretical and research literature chosen by student and instructor.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 0
Grading: Graduate Special

SOCI 711 - Classical Sociological Theory

Credits: 3 (NR)
In-depth examination of major issues in classical (pre-1930) sociological theory. Analyzes Durkheim, Marx, Weber, Mead, and others, and emphasizes social and intellectual context of their theories.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 712 - Contemporary Sociological Theory

Credits: 3 (NR)
Examines schools in contemporary sociological theory such as structural-functionalism, conflict, exchange, symbolic interactionism, ethnomethodology, humanist sociology, and critical theory. Analyzes contemporary theorists in relation to schools.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 730 - Analytic Techniques of Social Research

Credits: 3 (NR)
Introduces multiple regression and causal analysis to sociological researchers, with a focus on obtaining and disseminating results. Moves from linear regression to the general linear model with several variables, its extensions, assumptions, and regression diagnostics. Examines the use of dummy variable and the analysis of interaction effects. Considers systems of equations and nonlinear outcomes.

Prerequisite(s): Undergraduate statistics and research methodology, or permission of instructor.
SOCI 799 - Thesis

Credits: 1-6 (RD)
Master’s thesis research under direction of thesis committee.

SOCI 801 - Proseminar in Public and Applied Sociology

Credits: 3 (NR)
The first of a two-semester core sequence devoted to the philosophical, historical, theoretical, and methodological dimensions of public and applied sociology within the United States. Traces the evolution of the field during the 20th century, from its inception in the Chicago school and the studies of W.E.B. DuBois to more recent formulations, as these bear on the interplay between social scientific knowledge and public decisions and debates.

SOCI 803 - Institutions and Inequality

Credits: 3 (NR)
Analyzes the interrelations between social inequalities and institutional structures, including markets, the press, prisons, mental institutions, cultural organizations, and corporations.

SOCI 804 - Sociology of Globalization

Credits: 3 (NR)
Addresses the social, political, cultural, and economic process of globalization. Explores the limits on globalization during the precapitalist era, the relation between empire and the internal structure of imperialist societies, theoretical debates over the contemporary world system, the relation between cities and globalization, and the link between globalization and social inequality within both developed and developing societies.
**SOCI 833 - Special Topics in Sociology**

Credits: 3 (RD)
Specialized inquiry of topics of contemporary sociological research and scholarship. Content varies.

**Prerequisite(s):** Have completed either 6 credits of coursework at the 600 level or permission of instructor.

**Notes:** May be repeated when topic is different for a maximum of 9 credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**SOCI 840 - Work Organizations and Social Inequality**

Credits: 3 (NR)
Examines the social, organizational, and cultural processes that account for the differential distribution of job rewards along class, gender, and racial and ethnic lines. Topics include the historical evolution of the management worker relationship, job segregation by race and gender, the effect of new technologies on social inequality, the relation between gender and professional careers, the efficacy of governmental efforts to ensure equal opportunity, and the effect of organizational change on racial and gender inequalities at work.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCI 844 - Youth, Schooling, and Popular Culture**

Credits: 3 (NR)
Uses sociological perspectives to understand the various ways in which popular youth culture, schooling processes, and consumer culture intersect in contemporary American cultural life. Examines the social, economic, and political realities of youth as a group and the formation of distinct youth cultures within and outside formal school settings, including schooling and commodity culture, how markets promote and hinder particular educational ideologies, and how corner markets operate as spaces of cultural learning.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCI 845 - Society and Education**

Credits: 3 (NR)
Exposes students to the major theories, debates, and findings within the sociology of education, emphasizing the reciprocal influences of schooling and social inequalities within contemporary societies. Emphasis on the historical evolution of public schooling in the United States, the complex relation between schooling and economic institutions, class differences in educational opportunity, and the politics of educational reform.
SOCI 850 - Sociology of Development

Credits: 3 (NR)
Analyzes socioeconomic and political change, focusing on the poor countries of Asia, Africa, and Latin America. Offers a basic descriptive understanding of processes of change in these countries and an introduction to major theoretical perspectives on development and globalization, from classical theories of comparative advantage to theories of imperialism, modernization, dependency, and globalization.

SOCI 851 - Globalization and Social Movements

Credits: 3 (NR)
Analyzes current issues in the study of social movements, with an emphasis on the ways in which globalization shapes and in turn is shaped by social movements. Emphasis is placed on the relations among the strategies, identities, and organizations bound up with transnational social movements and the relation between the dynamics of global political and economic developments and protest movements in core and peripheral societies.

SOCI 853 - Cities in a Global Society

Credits: 3 (NR)
Examines the scholarly literature on cities and globalization with a focus on the impact of globalization on urban environments and the effects of urbanization on the processes of globalization. Emphasis on the ways in which globalization restructures urban life in the core and periphery of the world economy with attention paid to the effects of spatial dispersion on the character of economic institutions within the advanced societies, the shifting nature of crime and security, immigration, and the cities of the Global South.

SOCI 857 - Sociology of Human Rights

Credits: 3 (NR)
Examines the connections among inequality, conflict, social justice, and human rights in an age of globalization. Drawing from case studies from around the world, course examines institutional and structural violence and inequality as they relate to state, corporate, and military power; international law and order; welfare and social policy; global justice; regionalism, multilateralism, and transnationalism; environmental protection; gender inequality; ethnic conflict; resource wars; and national security policy.
before and after September 11, 2001.

**SOCI 860 - Historical and Comparative Sociology**

Credits: 3 (NR)
Seminar in theory and methods of historical and comparative sociology, primarily for students with background in sociological theory and methods. Examines basic approaches and research data of history and sociology, surveys development of field, and analyzes exemplary studies.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 870 - Directed Readings Sociology**

Credits: 3 (RD)
Intensive reading course to develop comprehensive understanding of specific field in sociology as agreed on with advisor.

**Prerequisite(s):** 6 credits of 600-level SOCI courses.

**Notes:** Content varies. May be repeated.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 880 - Independent Study in Sociology**

Credits: 3 (RD)
Reading and research on selected topic, resulting in a written project as agreed on with supervising faculty.

**Prerequisite(s):** 6 credits of 600-level SOCI courses

**Notes:** Content varies. May be repeated.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
SOCI 998 - Doctoral Dissertation Proposal

Credits: 1-9 (RD)
Work on research proposal for doctoral dissertation.

Prerequisite(s): Completion of all but final year of coursework and permission of graduate director.

Corequisite(s): Advanced grad students may enroll in 998 during final year of coursework and before completion of comprehensive exams.

Notes: May be repeated. A maximum of 9 credits of 998 may be applied to the degree. Students may enroll in 998 in their final year of coursework while preparing for comprehensive exams.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: S/NC

SOCI 999 - Doctoral Dissertation

Credits: 1-12 (RD)
Doctoral dissertation research and writing on approved dissertation topic under direction of committee.

Prerequisite(s): Successful completion of SOCI 998.

Notes: Maximum of 12 credits may be applied toward degree.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: S/NC

Sociology and Anthropology (SOAN)

Offered by the College of Humanities and Social Sciences

SOAN 500 - Communicating across the Disciplines

Credits: 3 (NR)
Provides an introduction to the range of disciplinary perspectives and their combinations necessary for analyzing and acting on critical research policy needs in the global arena. Using case examples from recent and contemporary events, students will analyze data, assess alternative policy and program approaches, and evaluate the relative contributions of different disciplines and fields, including the way those disciplines and fields vary across different national traditions and between the national and international levels.

Prerequisite(s): Admission to MAIS concentration in global interaction.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SOAN 510 - Culture and Globalization

Credits: 3 (NR)
Provides continuing exposure to the range of disciplinary perspectives necessary for understanding crucial issues in the global arena. Through case examples, focuses on the intersections of culture and globalization. Analyzes existing data and assesses alternative policy and program approaches, and illuminates interactions between globalization and culture.

Prerequisite(s): SOAN 500

SOAN 670 - Special Topics in Sociology and Anthropology

Credits: 4-8 (NR)
Provides cross-disciplinary, pedagogical format in Department of Sociology and Anthropology. Covers variety of pedagogical formats, such as combining ethnographic field techniques taught in anthropology with sociological-based urban issues, or providing archaeological laboratory analyses with grounding in statistical techniques proposed by department faculty.

Prerequisite(s): Graduate standing, or permission of instructor.

Software Engineering (SWE)

Offered by the Volgenau School of Engineering.

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

SWE 205 - Software Usability Analysis and Design

Credits: 3 (NR)
Principles of user interface design. Concepts for objectively and quantitatively assessing the usability of software user interfaces. Outcomes include knowledge of quantitative engineering principles for designing usable software interfaces and an understanding that usability is more important than efficiency for almost all modern software projects, and often the primary factor that leads to product success. Major topics include cognitive models for human perceptions and needs, which are used as a basis for analytical and critical thinking about user interfaces; specific engineering principles for designing usable menus, forms, command languages, web sites, graphical user interfaces and web-based user interfaces. Assessments will include written analytical evaluations of existing user interfaces, exams, and HTML-based design projects.

Prerequisite(s): ENGL 101/ENGH 101
SWE 301 - Internship Preparation

Credits: 0 (NR)
Preparation for Internship Educational Experience. Intended for, but not limited to, students planning internships in the Applied Computer Science Software Engineering Program. Internship employment opportunities. Basic interview skills. Techniques for applying academic knowledge to practical software development. Techniques for extracting knowledge from practical experience. Peer presentation from students who have completed internships.

Prerequisite(s): Limited to ACS or CS majors with junior standing or permission of instructor.

SWE 321 - Software Requirements and Design Modeling

Credits: 3 (NR)
An introduction to concepts, methods, and tools for the creation of large-scale software systems. Methods, tools, notations, and validation techniques to analyze, specify, prototype, and maintain software requirements. Introduction to object-oriented requirements modeling, including use of case modeling, static modeling, and dynamic modeling using the Unified Modeling Language (UML) notation. Concepts and methods for the design of large-scale software systems. Fundamental design concepts and design notations are introduced. A study of object-oriented analysis and design modeling using the UML notation. Students participate in a group project on software requirements, specification, and object-oriented software design.

Equivalent to CS 321 (2011-2012 Catalog); SWE 421 (2010-2011 Catalog)

Prerequisite(s): Grade of C or better in CS 211. Students who have received credit for SWE 421 or CS 421 may not take SWE 321. Prerequisite enforced by registration system.

SWE 332 - Object-Oriented Software Design and Implementation

Credits: 3 (NR)
In-depth study of software design and implementation using a modern, object-oriented language with support for graphical user interfaces and complex data structures. Topics covered are specifications, design patterns, and abstraction techniques, including typing, access control, inheritance, and polymorphism. Students will learn the proper engineering use of techniques such as information hiding, classes, objects, inheritance, exception handling, event-based systems, and concurrency.

Equivalent to CS 332

Prerequisite(s): Grade of C or better in CS 211 Prerequisite enforced by registration system.
SWE 401 - Internship Reflection

Credits: 1 (NR)
Reflection on Internship Educational Experience. Intended for, but not limited to, students completing internships in the Applied Computer Science Software Engineering Program. Analysis of techniques for applying academic knowledge to practical software development. Analysis of techniques for extracting knowledge from practical experience. Student presentations summarizing internships relating them to academic program goals.

Prerequisite(s): SWE 301 and completion of internship

SWE 432 - Design and Implementation of Software for the Web

Credits: 3 (NR)
Teaches how to develop software for web applications. Covers client-server computing, theories of usable graphical user interfaces, and models for web-based information retrieval and processing. Goals are to understand how to design usable software interfaces and implement them on web, learn how to build software that accepts information from users across web and returns data to user, and understand how to interact with database engines to store and retrieve information. Specific topics are HTML, CGI programming, Java, Java applets, Javascripts, and Java servlets.

Prerequisite(s): Grade of C or better in MATH 125 and CS 211. Prerequisite enforced by registration system.

SWE 437 - Software Testing and Maintenance

Credits: 3 (NR)
Concepts and techniques for testing and modifying software in evolving environments. Topics include software testing at the unit, module, subsystem, and system levels; developer testing; automatic and manual techniques for generating test data; testing concurrent and distributed software; designing and implementing software to increase maintainability and reuse; evaluating software for change; and validating software changes.

Prerequisite(s): Grade of C or better in CS 211 and MATH 125

SWE 443 - Software Architectures
Credits: 3 (NR)
Teaches how to design, understand, and evaluate software systems at an architectural level of abstraction. By end of course, students will be able to recognize major architectural styles in existing software systems, describe a system's architecture accurately, generate architectural alternatives to address a problem and choose from among them, design a medium-size software system that satisfies a specification of requirements, use existing tools to expedite software design, and evaluate the suitability of a given architecture in meeting a set of system requirements.

Prerequisite(s): Grade of C or better in CS 321 or CS 421 or SWE 321 or SWE 421. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 510 - Object-Oriented Programming in Java

Credits: 3 (NR)
Introduces students to programming in the Java language. Topics include problem-solving methods and algorithm development, program structures, abstract data types, simple data and file structures and program development in a modular, object-oriented manner. Introductory use of OO language features, including data hiding, inheritance, polymorphism, and exception handling. Goals include design and development of Java classes and class type hierarchies. An introduction to Java servlets and applets is included. Emphasis on program development is reinforced through several programming projects.

Prerequisite(s): Undergraduate courses or equivalent knowledge in programming in a high-level language.

Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 521 - Software Engineering Essentials

Credits: 3 (NR)
Provides an overview of essential topics in software engineering, including problem solving with computers, requirements, software design, software development, testing, verification, validation, usability, and management. The course will also discuss concepts related to building software, including data structures, object-oriented programming, event handling in GUIs, and web application technologies. The course will discuss how these concepts are handled in various languages, but without requiring the students to program. Credit cannot be applied to any degree in the computer science department.

Equivalent to AIT 521

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SWE 619 - Object-Oriented Software Specification and Construction
Credits: 3 (NR)
In-depth study of software construction using modern, object-oriented language with support for graphical user interfaces and complex data structures. Specifications, design patterns, and abstraction techniques, including procedural, data, iteration, type, and polymorphic. Information hiding, classes, objects, and inheritance. Exception handling, event-based systems, and concurrency.

Prerequisite(s): SWE foundation courses or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 620 - Software Requirements Analysis and Specification

Credits: 3 (NR)
In-depth study of object-oriented requirements modeling, including use case modeling, static modeling and dynamic modeling with Unified Modeling Language (UML) notation. Students participate in group project on software requirements and specification using modern method.

Prerequisite(s): SWE foundation courses or equivalent

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 621 - Software Modeling and Architectural Design

Credits: 3 (NR)
Concepts and methods for the architectural design of large-scale software systems are presented. Fundamental design concepts and design notations are introduced. Concepts of requirements analysis and specification are taught. Several design methods are presented and compared. In-depth study of object-oriented analysis and design modeling using the Unified Modeling Language (UML) notation. Students participate in a group project on software requirements, analysis, and design modeling.

Prerequisite(s): SWE 619 or permission of instructor. MSCS students may substitute CS 540 and CS 571 for SWE 619.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 622 - Distributed Software Engineering

Credits: 3 (NR)
Hands-on introduction to techniques and programming interfaces for distributed software engineering. Networking protocols at several layers. Construction of distributed and concurrent software using network protocol services. Applications of Internet and web-based software.

Prerequisite(s): SWE foundation courses or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SWE 625 - Software Project Management

Credits: 3 (NR)
Lifecycle and process models; process metrics; planning for a software project; mechanisms for monitoring and controlling schedule, budget, quality, and productivity; and leadership, motivation, and team building.

Prerequisite(s): SWE foundation courses or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 626 - Software Project Laboratory

Credits: 3 (NR)
Covers requirements analysis, design, implementation, and management of software development project. Students work in teams to develop or modify software product, applying sound principles of software engineering. Uses both industrial and academic standards to assess quality of work products.

Prerequisite(s): SWE 619, 620, and 621; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 6

SWE 631 - Software Design Patterns

Credits: 3 (NR)

Prerequisite(s): SWE 621.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 632 - User Interface Design and Development

Credits: 3 (NR)
Principles of user interface design, development, and programming. Includes user psychology and cognitive science, menu system design, command language design, icon and window design, graphical user interfaces, web-based user interfaces.

Prerequisite(s): SWE 619, or CS 540 and 571, or permission of instructor.
SWE 637 - Software Testing

Credits: 3 (NR)
Students learn to test software effectively. Programmers learn practical ways to design high quality tests during all phases of software development. Students learn the theory behind criteria-based test design and to apply that theory in practice. Topics include test design, test automation, test coverage criteria, and how to test software in cutting-edge software development environments.

Prerequisite(s): SWE 619, or permission of instructor.

SWE 642 - Software Engineering for the World Wide Web

Credits: 3 (NR)
Detailed study of engineering methods and technologies for building highly interactive web sites for e-commerce and other web-based applications. Presents engineering principles for building web sites that exhibit high reliability, usability, security, availability, scalability, and maintainability. Teaches methods such as clientserver programming, component-based software development, middleware, and reusable components.

Prerequisite(s): SWE 619, or CS 540 and 571, or permission of instructor.

SWE 645 - Component-Based Software Development

Credits: 3 (NR)
Introduces concepts and foundations of software component and component-based software. Detailed study of engineering principles of modeling, designing, implementing, testing, and deploying component-based software. Also explores state-of-the-art component technologies.

Prerequisite(s): SWE 619, or CS 540 and CS 571, or permission of instructor.

SWE 681 - Secure Software Design and Programming
Credits: 3 (NR)
Theory and practice of software security, focusing in particular on some common software security risks, including buffer overflows, race conditions and random number generation, and on identification of potential threats and vulnerabilities early in design cycle. Emphasizes methodologies and tools for identifying and eliminating security vulnerabilities, techniques to prove absence of vulnerabilities, ways to avoid security holes in new software, and essential guidelines for building secure software: how to design software with security in mind from the ground up and integrate analysis and risk management throughout the software life cycle.

Equivalent to SWE 781 (2012-2013 Catalog), ISA 681.

Prerequisite(s): SWE 619.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 699 - Special Topics in Software Engineering

Credits: 3 (RT)
Special topics not occurring in regular SWE sequence.

Prerequisite(s): Permission of instructor.

Notes: May be repeated for credit when semester topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 720 - Advanced Software Requirements

Credits: 3 (NR)
State-of-the-art and state-of-the-practice in software requirements engineering. In-depth coverage of selected methods, tools, notations, or validation techniques for the analysis and specification of software requirements. Includes project investigating or applying approaches to requirements engineering.

Prerequisite(s): SWE 620 and 621.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 721 - Reusable Software Architectures

Credits: 3 (NR)
Investigates software concepts that promote reuse of software architectures. Studies influence of object technology on software design and reuse. Investigates domain modeling methods, which model the application domain as a software product family from which target systems can be configured. Covers reusable software patterns including architecture patterns and design patterns, software components, and object-oriented frameworks.
Prerequisite(s): SWE 621

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SWE 722 - Service Oriented Architecture**

Credits: 3 (NR)
This course covers the state-of-the-art approaches to building dependable Service-Oriented Architecture (SOA) software systems. A variety of relevant topics are covered, including SOA design principles, implementation platforms and standards, quality of service contracts, runtime management of service providers, and coordination and composition of services. The course includes a final project to exercise the concepts covered in class.

Prerequisite(s): SWE 622 or instructor’s permission.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall.

**SWE 727 - Quality of Service for Software Architectures**

Credits: 3 (NR)
Builds on acquired skills for modeling architectures, and focuses on the relationship between architectural patterns and qualities of service (QoS). By the end of the course, students will be able to elicit the QoS preferences of stakeholder; recognize major architectural styles and the QoS tradeoffs that each presents; design for and reconcile competing QoS requirements; and evaluate a given architecture with respect to a set of QoS requirements.

Prerequisite(s): SWE 621 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SWE 760 - Software Analysis and Design of Real-Time Systems**

Credits: 3 (NR)
Background for students who want to conduct research in software engineering of real-time systems. Provides understanding of key real-time software system analysis, design concepts and methods, and how they are used in developing large-scale, real-time software systems. Also explores potential impact of emerging technologies. Includes term project in design and analysis of complex, real-time software system.

Equivalent to SWE 860 (2012-2013 Catalog).

Prerequisite(s): SWE 621.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
SWE 763 - Software Engineering Experimentation

Credits: 3 (NR)
Detailed study of scientific process, particularly using experimental method. Examines how empirical studies are carried out in software engineering. Reviews distinction between analytical techniques and empirical techniques. Other topics include experimentation required in software engineering, problems that can be solved using experimentation, methods used to control variables and eliminate bias in experimentation, and analysis and presentation of empirical data for decision making.

Prerequisite(s): SWE 621, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 795 - Advanced Topics in Software Engineering

Credits: 3 (RD)
Advanced topics not occurring in existing courses. Topics normally assume knowledge in one or more existing MS SWE courses.

Prerequisite(s): 12 credits applicable toward MS program.

Notes: Repeatable within degree for credit when subject differs.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 796 - Directed Readings in Software Engineering

Credits: 3 (NR)
Analysis and investigation of contemporary problem in software engineering. Requires prior approval by faculty member who supervises student's work. Written report also required.

Prerequisite(s): Permission of Department Chair.

Notes: Maximum 6 credits may be earned. To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 798 - Research Project

Credits: 3 (RD)
Master's degree candidates undertake a project using knowledge gained in MS program. Topics chosen in consultation with a faculty sponsor. Research project is chosen under guidance of full-time graduate faculty member, resulting in written technical
SWE 799 - Thesis

Credits: 1-6 (NR)

Research project completed under supervision of faculty member, which results in technical report accepted by three-member faculty committee. Report must be defended in oral presentation.

Prerequisite(s): Permission of Advisor and Department Chair.

Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Grading: Satisfactory/No Credit

SWE 821 - Software Engineering Seminar

Credits: 3 (RD)

Study of application of software engineering principles, design methods, and support tools through real-life problems extracted from faculty and industry projects.

Prerequisite(s): SWE 621

Notes: May be repeated with change in topic.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SWE 823 - Software for Critical Systems

Credits: 3 (NR)

Study of software for systems in which failure can be catastrophic. Presents techniques to construct and analyze software for
critical applications and examination of inherent limitations of such techniques, and interaction between techniques used during development and behavior of software during operation. Topics include tolerance of software faults, design redundancy, data redundancy, software safety, formal methods, statistical testing, design for analyzability, and design for testability.

**Prerequisite(s):** SWE 620 and STAT 554.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**SWE 824 - Program Analysis for Software Testing**

Credits: 3 (NR)  
Different methods for analyzing software, primarily for purpose of testing. Analysis techniques, specific algorithms, tools, and applications. Goals are to explore current research issues, learn how to build software analysis tools, and understand how these techniques can be applied to software development activities. Focuses on applications for testing software, including automatic test data generation, object oriented testing, and testing client-server applications. Also considers analysis techniques for other software-related activities such as maintenance, reuse, object-oriented development metrics and optimization.

**Prerequisite(s):** A compiler class (e.g., CS 540) or testing class (e.g., SWE 637) or permission of the instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**SWE 825 - Special Topics in Web-Based Software**

Credits: 3 (RD)  
Advanced topics in specifying, designing, modeling, developing, deploying, testing and maintaining software written as web applications and web services. May be repeated with change in topic.

**Prerequisite(s):** SWE 642 Software Engineering for the World Wide Web.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**Spanish (SPAN)**

Offered by the College of Humanities and Social Sciences

See also FRLN course listings.

---

**SPAN 101 - Elementary Spanish I**
Credits: 3 (NR)
For students with no knowledge of Spanish. Introduction to Spanish, including elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Lab work required.

Notes: Students may not receive credit for SPAN 101 and SPAN 109 or SPAN 110.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 102 - Elementary Spanish II

Credits: 3 (NR)
Continuation of SPAN 101.

Prerequisite(s): SPAN 101, appropriate placement score, or permission of department.

Notes: Students may not receive credit for SPAN 102 and SPAN 109 or SPAN 110.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 109 - Intensive Elementary Spanish

Credits: 6 (NR)
Recommended for students who desire an intensive introduction to Spanish.

Prerequisite(s): Equivalent to SPAN 101 and 102 taught in a single semester.

Notes: Students may not receive credit for SPAN 109 and SPAN 101 and 102 combined, or SPAN 110.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

SPAN 110 - Elementary Spanish

Credits: 6 (NR)
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Notes: Students may not receive credit for SPAN 110 and SPAN 101 and 102 combined, or SPAN 109 or SPAN 115.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 1

SPAN 115 - Review of Elementary Spanish
Credits: 3 (NR)
Reviews elements for students who have studied Spanish previously.

Prerequisite(s): Appropriate placement score or permission of the department.

Notes: Students may not receive credit for SPAN 115 and SPAN 101 and 102 combined, or SPAN 109 or SPAN 110.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 201 - Intermediate Spanish I

Credits: 3 (NR)
Further development of skills in listening, speaking, reading, and writing. SPAN 201 and 202 must be taken in sequence. Lab work required.

Prerequisite(s): SPAN 102, 109, 110, appropriate placement score, or permission of department.

Notes: Students may not receive credit for SPAN 201 and SPAN 209 or SPAN 210.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 202 - Intermediate Spanish II

Credits: 3 (NR)
Application of skills to reading, composition, and discussion. Lab work required.

Prerequisite(s): SPAN 201, appropriate placement score, or permission of department.

Notes: Students may not receive credit for SPAN 202 and SPAN 209 or SPAN 210.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 209 - Intensive Intermediate Spanish

Credits: 6 (NR)
Equivalent to SPAN 201 and 202 taught in a single semester.

Prerequisite(s): SPAN 102, 105, 109, appropriate placement score, or permission of department.

Notes: Students may not receive credit for SPAN 209 and SPAN 201 and 202 combined, or SPAN 210.
SPAN 210 - Intermediate Spanish

Credits: 3 (NR)

Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Spanish-speaking regions.

Prerequisite(s): SPAN 102, 110, 115 appropriate placement score, or permission of department.

Notes: Students may not receive credit for SPAN 210 and SPAN 201, SPAN 202, or SPAN 209.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 250 - Gateway to Advanced Spanish

Credits: 3 (NR)

Integration of advanced intermediate-level Spanish reading, writing, listening, and speaking skills, as well as the development of critical thinking about authentic texts from around the globe.

Prerequisite(s): SPAN 210, appropriate placement score, or permission of department.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 301 - Grammar and Syntax

Credits: 3 (NR)

In-depth review of Spanish grammar and syntax. Extensive practice in controlled and free writing with emphasis on fundamental difficulties and points of interference that exist between English and Spanish.

Prerequisite(s): SPAN 202, 209, appropriate placement score, or permission of instructor.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SPAN 305 - Spanish in Context I

Credits: 3 (NR)
Integrated content-based approach to the study of Spanish, designed to promote oral and written abilities, as well as critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Includes vocabulary-building activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films.

Prerequisite(s): SPAN 250 or equivalent, or permission of instructor.

Notes: Taught in Spanish. Students cannot receive credit for SPAN 305 if they receive credit for SPAN 309 or 315.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 306 - Spanish in Context II

Credits: 3 (NR)
Continuation of SPAN 305.

Prerequisite(s): SPAN 305 or equivalent, or permission of instructor.

Notes: Taught in Spanish. Students cannot receive credit for SPAN 306 if they received credit for SPAN 309 or 315.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 309 - Intensive Spanish in Context

Credits: 6 (NR)
Intensive content-based approach to the study of Spanish, designed to promote oral and written abilities, as well as critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Includes vocabulary-building activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films.

Prerequisite(s): SPAN 250 or equivalent, or permission of instructor.

Notes: Taught in Spanish. Students cannot receive credit for both SPAN 309 and SPAN 305, 306, or 315.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

SPAN 315 - Spanish for Heritage Speakers

Credits: 3 (NR)
Designed for students who have some communicative ability in Spanish, normally acquired in the home, who want to improve
their reading and writing abilities while developing a critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Course components include orthography and vocabulary activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films.

Prerequisite(s): Appropriate placement score or permission of instructor.

Notes: Students cannot receive credit for both SPAN 315 and SPAN 305, 306, or 309.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 321 - Introduction to Spanish Culture

Credits: 3 (NR)
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation of modern Spain.

Equivalent to SPAN 461

Prerequisite(s): ENGH 101 or equivalent, or permission of instructor.

Notes: Taught in English. Students may not receive credit for both SPAN 321 and 461.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 322 - Introduction to Latin American Culture

Credits: 3 (NR)
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation of modern Latin America.

Fulfills Mason Core requirement in global understanding.

Equivalent to SPAN 466

Prerequisite(s): ENGL 101/ENGH 101 or equivalent, or permission of instructor.

Notes: Taught in English. Students may not receive credit for both SPAN 322 and 466.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 323 - Field Study in Hispanic Culture

Credits: 1-3 (NR)
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation
of modern Spain.

Prerequisite(s): 60 credits or permission of instructor.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

SPAN 324 - Study Abroad in Spanish

Credits: 3 (NR)
Study at an academic institution in a Spanish-speaking country including classroom studies with professors from the host country and field experiences.

Prerequisite(s): SPAN 250 (or equivalent) or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 325 - Major Hispanic Writers

Credits: 3 (RT)
Study of the works of major Hispanic writers in translation. Writers studied vary.

Fulfills Mason Core requirement in literature.

Prerequisite(s): ENGH 101 or equivalent.

Notes: Taught in English. May be repeated once for credit when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 326 - Treasures of Spanish American Literature

Credits: 3 (RD)
Introduction to the major themes, trends, and cultural context of Latin American literature. Writers studied vary.

Prerequisite(s): Advanced oral and written proficiency in Spanish, to be determined by the instructor.

Notes: Taught in Spanish. May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 329 - Special Topics in Spanish and Latin American Literature
Credits: 3 (RT)
Study of selected topics in Spanish or Latin American literature. Writers and topics vary.

Prerequisite(s): ENGL 101/ENGH 101, or permission of instructor.

Notes: Taught in English. Designed for students who are not pursuing a concentration in Spanish. May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 335 - Topics for Proficiency: The Americas

Credits: 3 (RD)
Integrated content-based approach to conversational Spanish. Designed to promote increased confidence and fluency in both formal and informal Spanish registers, as well as critical understanding of Latin American and/or Latino histories and cultures. Current events, films, literary texts, and popular culture reflecting issues of Latin Americans and/or Latinos serve as catalysts for class discussions, oral presentations, and debates.

Prerequisite(s): SPAN 250 (or equivalent) or permission of instructor.

Notes: Taught in Spanish. May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 336 - Topics for Proficiency: Spain

Credits: 3 (RD)
Integrated content-based approach to conversational Spanish. Designed to promote increased confidence and fluency in both formal and informal Spanish registers, as well as critical understanding of Spanish history and culture. Current events, films, literary texts and popular culture reflecting Spanish issues serve as catalysts for class discussions, oral presentations and debates.

Prerequisite(s): SPAN 250 (or equivalent) or permission of instructor.

Notes: Taught in Spanish. May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 351 - Oral Spanish

Credits: 3 (NR)
Development of oral expression on topics of current interest and everyday situations, including written assignments.

Prerequisite(s): SPAN 250 or equivalent; appropriate placement score; or permission of instructor.
Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SPAN 370 - Spanish Writing and Stylistics**

Credits: 3 (NR)
Improves writing skills by covering formal and stylistic concepts of the Spanish language. Includes practice and exposure to different textual genres in an interdisciplinary fashion. Includes common doubts concerning spelling, expression, and style; business Spanish; journalistic Spanish; academic Spanish; and creative writing.

Fulfills writing intensive requirement in the major.

Equivalent to SPAN 452

Prerequisite(s): SPAN 306 or 309, or 315, or permission of instructor.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SPAN 375 - Introduction to Spanish-Language Cinema**

Credits: 3 (NR)
Introduces the study of film as an art form and the academic discipline of film studies as they relate to the Spanish-speaking world. Focuses on students' acquisition of knowledge on the material and principles of film form and their practice in film analysis of discrete Spanish language films and film genres of significance within the 20th and 21st centuries.

Prerequisite(s): SPAN 305 and SPAN 306 or SPAN 309 or SPAN 315.

Corequisite(s): SPAN 370, SPAN 385, SPAN 388, SPAN 390.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SPAN 385 - Introduction to Spanish Linguistics**

Credits: 3 (NR)
Introduces the study of Spanish linguistics, including phonetics, phonology, morphology, syntax, pragmatics, historical linguistics, and sociolinguistics. Combines discussion of theoretical issues with linguistic analysis of Spanish.

Prerequisite(s): SPAN 370 or permission of instructor.
Corequisite(s): SPAN 370 or permission of instructor.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SPAN 388 - Introduction to Latina/o Studies**

Credits: 3 (NR)
Interdisciplinary approach to the study of U.S. Latina/o cultural production, designed to promote critical thinking in understanding Latina/o histories, literatures, and cultures.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): SPAN 335 or 336, or SPAN 370, or permission of instructor.

Corequisite(s): SPAN 370 or permission of instructor.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SPAN 390 - Introduction to Hispanic Literary Analysis**

Credits: 3 (NR)
Required course that prepares students for the study of Hispanic literatures. Introduces basic terminology of literary analysis and provides practice in the examination of texts in the major genres: poetry, narrative, and drama.

Prerequisite(s): SPAN 370 or permission of instructor.

Corequisite(s): SPAN 370 or permission of instructor.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SPAN 400 - Spanish for the Professions**

Credits: 3 (RD)
Advanced study of the language needed for use in a specific profession, such as translation, business, social service, or health professions.

Prerequisite(s): SPAN 385 or permission of instructor.
Notes: Taught in Spanish. May be repeated for a maximum of 6 credits when profession differs.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 425 - Independent Study

Credits: 1-3 (RT)
Research and analysis of a selected problem in literature or linguistics in consultation with a department member.

Prerequisite(s): Spanish major with 90 credits, and permission of instructor.

Notes: Maximum of 6 credits of independent study may be applied to fulfillment of requirements for the major.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

SPAN 426 - Independent Study

Credits: 1-3 (RT)
Research and analysis of a selected problem in literature or linguistics in consultation with a department member.

Prerequisite(s): Spanish major with 90 credits, and permission of instructor.

Notes: Maximum of 6 credits of independent study may be applied to fulfillment of requirements for the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 430 - Spanish in the United States

Credits: 3 (NR)
Covers both formal and sociolinguistic aspects of Spanish in the U.S. by discussing demographic aspects and a historical overview of the varieties of Spanish spoken in the United States. Gives a foundation in issues such as linguistic variation, language choice, the relationship among race, ethnicity, and language; official language policies; individual and societal bilingualism; and language diversity in education.

Prerequisite(s): SPAN 385, or advanced ability in Spanish or permission of instructor.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 452 - Advanced Written Spanish
Development of skills required in writing Spanish. Guided and original compositions. Grammatical structures reviewed and supplemented with individual corrections.

Equivalent to SPAN 370

**Prerequisite(s):** 9 credits of SPAN at 300 level or above, or permission of instructor.

**Notes:** Taught in Spanish.

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

## SPAN 455 - Spanish-English Translation

Credits: 3 (NR)

Introduction to the history, theory, analysis, and practice of Spanish-English and English-Spanish translation. Includes literal versus free translation; denotation and connotation; regional and social variation; intercultural pragmatic differences; interlanguage influence and calques; and genre and audience. Hands-on experience with literary works, newspaper articles, and advertisements, as well as legal, medical, and technical documents.

**Prerequisite(s):** SPAN 370 and ENGL 302/ENGH 302; or permission of instructor.

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

## SPAN 461 - Spanish Civilization and Culture

Credits: 3 (NR)

Survey of Spanish culture and civilization from the pre-Roman era to the 20th century.

Equivalent to SPAN 321

**Prerequisite(s):** SPAN 370 or permission of instructor.

**Notes:** Taught in Spanish. Students may not receive credit for both SPAN 321 and 461.

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

## SPAN 466 - Latin American Civilization and Culture

Credits: 3 (NR)

Introduction to the study of Latin American civilization and culture from the pre-Columbian era to the 20th century.
Fulfills Mason Core requirement in global understanding.

Equivalent to SPAN 322

Prerequisite(s): SPAN 370 or permission of instructor.

Notes: Taught in Spanish. Students may not receive credit for both SPAN 322 and 466.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SPAN 472 - Spanish Phonetics and Phonology**

Credits: 3 (NR)
Introduction to the analysis of the Spanish sound system, both phonetics and phonology. Topics include the articulatory system, sound production, the classification of vowels and consonants, phonetic transcription, the mental representation of sounds, variation and accent, and processes of sound change, among others.

Prerequisite(s): SPAN 385 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SPAN 474 - Spanish Syntax and Semantics**

Credits: 3 (NR)
Investigates the knowledge Spanish speakers possess that enables them to understand and create expressions they have not heard before. Studies the system unconsciously used by Spanish speakers and writers to connect situations in the real world to the words and sentences that express each situation. Provides opportunities to analyze samples of language in actual use.

Prerequisite(s): SPAN 385 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SPAN 476 - Teaching Spanish in the United States**

Credits: 3 (NR)
Introduction to second language acquisition theory and research, and the application to teaching Spanish as a second language and a heritage language. Includes a discussion of sociocultural and political issues surrounding the teaching of Spanish in the United States. Covers learning objectives, critical pedagogy, course design, grammar instruction, task-based language teaching, computer-assisted language learning, materials evaluation, and assessment.

Prerequisite(s): SPAN 385 or permission of instructor.
SPAN 480 - Special Topics in Spanish

Credits: 3 (RT)
Study of a selected theme in Hispanic literature, culture, or linguistics.

Prerequisite(s): SPAN 385, 388 or 390, depending on topic, or permission of instructor.

Notes: Taught in Spanish. May be repeated for credit when topic is different.

SPAN 481 - Special Topics in Spanish

Credits: 3 (RT)
Study of a selected theme in Hispanic literature, culture, or linguistics.

Prerequisite(s): SPAN 385, 388 or 390, depending on topic, or permission of instructor.

Notes: Taught in Spanish. May be repeated for credit when topic is different.

SPAN 482 - Mass Media and Popular Culture in the Spanish-Speaking World

Credits: 3 (RD)
Critical examination of the significance of mass media and/or popular culture for the development of Spanish-speaking nations. Forms studied may include but are not limited to: Newspapers, popular novels, lithography, photography, radio, film, television, public art, sport, performance, digital media. Students will use readings in critical theory to explore ways in which forms of mass and popular culture connect to social imaginaries. Enhancement of advanced analytical skills in Spanish through different modules of lecture, reading, discussion, and writing.

Prerequisite(s): SPAN 305/306 or 309 or 315, SPAN 370, SPAN 385, SPAN 390.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 483 - The Literature of Spain I
SPAN 484 - The Literature of Spain II

Credits: 3 (NR)
Examines the main periods, trends, genres, and most representative works of Spanish peninsular literature from the 18th century to the contemporary period.

Prerequisite(s): SPAN 390, 483, or permission of instructor.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 486 - Topics in Latin American Literature I: Pre-colonial to Mid-19th Century

Credits: 3 (NR)
An interdisciplinary examination and discussion of major topics in literary texts and cultural practices of Latin America from pre-colonial times to the mid-19th century.

Prerequisite(s): SPAN 390 or permission of instructor.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 487 - Topics in Latin American Literature II: Late 19th Century to the Present

Credits: 3 (NR)
Interdisciplinary examination and discussion of major topics in literary texts and cultural practices of Latin America from the late 19th century to the present.

Prerequisite(s): SPAN 390 or permission of instructor.

Notes: Taught in Spanish.
SPAN 488 - The Literature of Spanish America

Credits: 3 (NR)
Survey of the literature of Spanish America. Study of texts that are representative of the colonial, romantic, modernista, avant garde, and contemporary periods.

Prerequisite(s): SPAN 390 or permission of instructor.

Notes: Taught in Spanish.

SPAN 490 - Internship in Spanish

Credits: 1-6 (NR)
Qualified students work with area schools, social service programs, government agencies, interest groups, museums, or corporations. Specific arrangements must be made with, and approved by, a member of the Spanish faculty during the semester prior to enrollment.

Prerequisite(s): 9 credits in Spanish at the 300 level, or permission of instructor.

SPAN 497 - Senior Honors Tutorial

Credits: 3 (NR)
First semester involves weekly meetings with a faculty member to discuss readings from a comprehensive list prepared by the Spanish faculty. In the second semester, independent research and completion of an honors essay under the supervision of a member of the Spanish faculty are required.

Prerequisite(s): Spanish major with 90 credits, cumulative GPA of 3.00, and GPA of 3.00 in major field.

SPAN 498 - Senior Honors Tutorial
Students meeting these requirements are admitted to candidacy on submission of a letter of application to the department Honors Committee in the second half of the junior year. A faculty recommendation and an interview by the Honors Committee are also required. First semester involves weekly meetings with a faculty member to discuss readings from a comprehensive list prepared by the Spanish faculty. In the second semester, independent research and completion of an honors essay under the supervision of a member of the Spanish faculty are required.

**Prerequisite(s):** Spanish major with 90 credits, cumulative GPA of 3.00, and GPA of 3.00 in major field.

**SPAN 500 - History of the Spanish Language**

Credits: 3 (NR)
Study of the evolution of the Spanish language from its origins in Vulgar Latin to its present varieties. Includes consideration of social and political as well as linguistic factors in language change.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 501 - Applied Spanish Grammar**

Credits: 3 (NR)
Analysis of Spanish grammar as a basis for teaching language skills. Terminology and methodology for the teaching of syntax are stressed.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 502 - Hispanic Sociolinguistics**

Credits: 3 (NR)
Introduction to sociolinguistics with emphasis on bilingualism and language contact in the Spanish-speaking world including the United States.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 505 - Applied Spanish Stylistics**

Credits: 3 (NR)
Advanced study of the written language for students who want to develop their academic writing skills. Covers the most frequent challenges of writing through intensive practice in genres such as argumentation, narration, and description. Teaches students to
identify and analyze best practices in academic writing.

**SPAN 510 - Introduction to the Graduate Study of Literature in Spanish**

Credits: 3 (NR)
Study of the nature of literary work and analysis of critical approaches to literature with an emphasis on texts written in Spanish. Course is a requirement for master's students of Spanish in their first year of study.

**Prerequisite(s):** Graduate standing in master's program in foreign languages, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 520 - Studies in Medieval Spanish Literature**

Credits: 3 (RD)
Study of a major work or a literary genre of this period.

**Notes:** May be repeated for a maximum of 9 credits when topic is different.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 525 - Studies in Renaissance Literature**

Credits: 3 (RD)
Study of a literary movement or selected authors of the Spanish Renaissance.

**Notes:** May be repeated for a maximum of 9 credits when topic is different.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 530 - Studies in the Literature of the Golden Age**

Credits: 3 (RD)
Study of a literary genre or a major author of Spanish literature of the Golden Age.

**Notes:** May be repeated for a maximum of 9 credits when topic is different.
SPAN 540 - Studies in 20th-Century Literature

Credits: 3 (RD)
Study of a writer, genre, theme, or movement of this period.

Notes: May be repeated for a maximum of 9 credits when topic is different.

SPAN 545 - Studies in Hispanic Literature

Credits: 3 (RD)
Study of major writers in a particular generation or movement.

SPAN 551 - Special Topics in Spanish

Credits: 3 (RT)
Special studies in Spanish or Latin American language, literature, or culture. Specific topics are announced in advance.

Notes: May be repeated for credit with permission of department.

SPAN 560 - Studies in Spanish American Poetry

Credits: 3 (RD)
Study of major poets of a given period. Literary and social atmosphere of the period are emphasized.

Notes: May be repeated for a maximum of 9 credits when topic is different.

SPAN 565 - Studies in Spanish American Drama
Credits: 3 (RD)
Study of playwrights who have made a major contribution to the development of the genre.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 576 - Advanced Translation

Credits: 3 (NR)
Advanced work in translation of selected texts from diverse fields. Comparative terminology, sight translation, and précis writing. Emphasis on the function and technique of documentation in translation. Translation from Spanish to English and from English to Spanish.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 580 - Contemporary Hispanic Institutions

Credits: 3 (RD)
Study of 20th-century cultural, social, and political institutions in Spain and Spanish America with emphasis on language and terminology used to describe their functions, regulations, and conditions.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 635 - Seminar in Don Quixote

Credits: 3 (NR)
Study of Don Quixote and major critical approaches to the work.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 650 - Seminar in Twentieth-Century Drama

Credits: 3 (RD)
Study of major dramatists in the generation of 1898 and contemporary theater.

Notes: May be repeated for a maximum of 9 credits when topic is different.
**SPAN 655 - Seminar in Twentieth-Century Prose**

Credits: 3 (RD)
Study of major writer, theme, or movement in novel or essay.

Notes: May be repeated for a maximum of 9 credits when topic is different.

**SPAN 670 - Seminar in Spanish American Prose**

Credits: 3 (RD)
Study of a selected theme, movement, or author in the novel, short story, or essay.

Notes: May be repeated for a maximum of 9 credits when topic is different.

**SPAN 675 - Seminar in Literature and Art**

Credits: 3 (RD)
Comparative analysis of a literary theme or style in relation to other media (painting, architecture, film) for an integral understanding of the arts.

Notes: May be repeated for a maximum of 9 credits when topic is different.

**SPAN 680 - Seminar in Literature and Society**

Credits: 3 (RD)
Study of a literary topic, a genre, or selected authors in relation to a given economic, social, or political system in Spain or Latin America.

Notes: May be repeated for a maximum of 9 credits when topic is different.
SPAN 685 - Seminar in Literature and Ideas

Credits: 3 (RD)
Study of major ideological-philosophical themes and their artistic expression in literature.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 798 - Directed Reading and Research

Credits: 3 (NR)
Open only to degree students who have completed at least 18 credits. Reading and research on a specific project under the direction of a department member. Oral or written report required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

SPAN 799 - Thesis

Credits: 1-6 (RD)
Master's thesis research and writing under direction of faculty committee. Students must register for 3 credits in the first semester of SPAN 799 and maintain continuous enrollment until completion of thesis. Credits are awarded upon completion.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: S/NC

SPAN 800 - Studies for the Doctor of Philosophy in Education

Credits: 3-6 (RD)
Studies designed by student's discipline director and approved by student's doctoral committee that prepare student for research and writing in area of interest in discipline.

Prerequisite(s): Admission to PhD in education program to study in Spanish.

Notes: Enrollment may be repeated.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special
Special Education (EDSE)

Offered by the College of Education and Human Development

EDSE 401 - Introduction to Special Education

Credits: 3 (NR)
Provides a survey of current knowledge on individuals with disabilities within the context of human growth and development across the life span. Content includes historical factors, legislation, etiology, characteristics, needs, educational strategies, assessment, and support services of and for individuals with disabilities ranging from mild and moderate to severe levels of varying disabilities. Includes the impact of disabilities on academic, social, and emotional performances. Field experience required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 402 - Classroom Management and Applied Behavior Analysis

Credits: 3 (NR)
Focuses on identifying, recording, evaluating, and changing social and academic behaviors of special and diverse populations. Explores theories of classroom management and various approaches to management, including use of technological advances. Emphasizes developing classroom and individual behavior management plans.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 403 - Language Development and Reading

Credits: 3 (NR)
Identifies literacy skills for typical students, and describes reading, language, and writing instruction for students with mild disabilities who access the general curriculum. Topics include emergent literacy skills, phonemic awareness, vocabulary development, and comprehension.

Prerequisite(s): EDSE 401 and EDSE 440.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 405 - Introduction to Early Childhood Special Education

Credits: 3 (NR)
Surveys current knowledge about young children with disabilities within the context of human growth and development and learning expectations in the preschool years. Includes factors and legislation affecting service delivery. Field experience required.
EDSE 411 - Characteristics of Students with Visual Impairments

Credits: 1 (NR)
Provides an overview of the characteristics of and services to persons with visual impairments, including the impact of visual impairment on infants' and children's growth and development, child and adolescent emotional and social development, and family interaction patterns. Considers the educational, conceptual, psychosocial, and physical implications of a visual impairment.

Notes: Course delivered online.

EDSE 412 - Braille Code

Credits: 3 (NR)
Provides understanding of the literary code of Braille and its implications for educational/literacy programs for students with a visual disability. Practice experiences will enable students to better understand the Braille code and how to teach it to students with a visual disability.

Prerequisite(s): EDSE 411.

Corequisite(s): EDSE 411.

Notes: Delivered online.

EDSE 414 - Orientation and Mobility

Credits: 2 (NR)
Provides the foundation for understanding the components and essence of orientation and mobility (O&M). Establishes how the need for independent travel in the blind population created the field of O&M. Explores the philosophy and history of orientation and mobility, including cane instruction, dog guides, and methods of travel. Addresses techniques in developing orientation skills and basic mobility instruction. Motor and concept skill development are emphasized.

Prerequisite(s): EDSE 411.

Corequisite(s): EDSE 411.

Notes: Delivered online.
**EDSE 415 - Early Intervention for Infants and Toddlers with Disabilities: Collaborative and Consultative Approaches**

Credits: 3 (NR)
Explores current public policy initiatives for coordinating services for infants and toddlers. Covers models of services delivery and approaches to family-centered service.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**EDSE 418 - Curriculum and Assessment of Students with Visual Impairments**

Credits: 3 (NR)
Provides students with knowledge and understanding of the educational assessment of students with visual impairments and additional disabilities including deaf-blindness. Students practice assessing and planning educational programs for students with visual impairments. Addresses assessment of technology for students with visual impairments. Examines determination of learning needs and appropriate learning media, relationship of assessment, IEP development, and placement. Delivered online.

**Prerequisite(s):** EDSE 411.

**Notes:** Delivered online.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**EDSE 422 - Augmentative Communication**

Credits: 2 (NR)
Focuses on alternative language, literacy, and communication techniques for children with severe language and speech impairments.

**Hours of Lecture or Seminar per week:** 2
**Hours of Lab or Studio per week:** 0

**EDSE 428 - Elementary Reading, Curriculum, and Strategies for Students Who Access the General Education Curriculum**
EDSE 429 - Secondary Curriculum and Strategies for Mild Disabilities

Credits: 3 (NR)
Applies research on teacher effectiveness, teacher accountability, instructional approaches, and technological advances at the secondary level for individuals with emotional disturbance, learning disabilities, and mental retardation. Includes curriculum and instructional strategies in reading, language arts, math, science, social studies, and social skills; cognitive strategies in self-regulation, study skills, attention, memory, and motivation; peer-mediated instruction including cooperative learning and peer tutoring; and self-advocacy and strategies for facilitating transition to community, workplace, and post-secondary environments.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 431 - Transition and Community-Based Instruction

Credits: 3 (NR)
Addresses issues in transition for youth with severe disabilities. Covers self-determination, development and implementation of a transition plan, post-secondary opportunities including education and community-based instruction, and vocational environments.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 432 - Positive Behavior Supports

Credits: 3 (NR)
Focuses on employing concepts and skills to design, implement, and evaluate behavior support programs derived from functional assessment; using effective teaching strategies; addressing relevant replacement skills; facilitating generalization and maintenance of skills and incorporating individually designed crisis intervention procedures.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 434 - Communication and Severe Disabilities

Credits: 3 (NR)
Introduces professionals to augmentative and alternative communication (AAC) for individuals with severe speech and language impairments. Addresses knowledge and skills needed to assess the potential AAC user, make team decisions, develop and
implement instruction, and evaluate the effects of instruction aimed at motivating, building, and expanding communication, choice-making, and social interaction.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 440 - Characteristics of Students with Disabilities Who Access the General Curriculum**

Credits: 3 (NR)  
Examines the characteristics of students with mild disabilities. Emphasis on etiology, contributing factors, conditions that affect learning, the challenges of identifying students with disabilities, and the need for academic, social, and emotional accommodations and support.

**Notes:** School-based field experience required.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**EDSE 442 - Characteristics of Students with Mental Retardation**

Credits: 3 (NR)  
Covers theories and specific conditions in mental retardation, and provides advanced study of persons with mental retardation, ranging in age from preschool to adult. Topics include historical development of the field of mental retardation; theoretical models of mental retardation; etiological factors; characteristics; models of assessment and intervention, including technological advances; and issues and trends, including legislation and litigation. Includes the study of the impact of mental retardation on academic and social and emotional performances. Field experience required.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 447 - Medical and Developmental Risk Factors for Children with Disabilities**

Credits: 3 (NR)  
Examines nature and causes of disabling or special health conditions. Examines screening and evaluation techniques, characteristics, and educational implications.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 456 - Language Development and Communication for Diverse Infants and Toddlers**
Credits: 3 (NR)
Provides understanding of early language development in terms of each of the five major components of language. Speech, language, and communication are discussed, particularly in terms of their interrelatedness with cognitive and sociocultural development. Explores importance of adult-child interaction, and impact of bilingualism, cultural diversity, cognitive ability, and language disorder.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 457 - Foundations of Language and Literacy for Diverse Learners

Credits: 3 (NR)
Addresses first and second language acquisition and its application in the various contexts in which children develop. Explores the impact of disability and second language acquisition, and the inter-relationship of speaking, listening, and writing. Includes review of characteristics and etiology of children with language disabilities. Also addresses the diversity of communication styles in families, communities, and cultures. Field experience required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 458 - Medical Aspects of Physical and Sensory Disabilities in Young Children

Credits: 3 (NR)
Focuses on physical, sensory, medical, and health aspects of child development, including etiology and symptomatology of developmental disabilities affecting physical development. Emphasizes positioning, handling, adaptive strategies, and understanding of assistive technology devices. Focuses on the understanding of roles of related disciplines in collaborative planning and service delivery. Field experience required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 459 - Curriculum and Methods: Early Childhood Special Education

Credits: 3 (NR)
Emphasizes planning, organizing, implementing, and evaluating programs for young children with special needs.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 460 - Introduction to Applied Behavior Analysis

Credits: 3 (NR)
Students will master basic principles, procedures, and ethical concepts pertaining to applying behavior analysis in schools or in other educational or therapeutic settings developed to satisfy part of the educational requirements needed for sitting for the Board
Certified Assistant Behavior Analyst examination.

**EDSE 461 - Analysis and Intervention in Applied Behavior Analysis**

Credits: 3 (NR)
Teaches students basic data collection, presentation, and analysis as it pertains to applied behavior analysis; as well as procedures for determining intervention efficacy and selecting, developing, or modifying interventions based on data, in educational and other settings to satisfy part of the educational requirement to sit for the Board Certified Assistant Behavior Analyst (BCABA) examination.

**Prerequisite(s):** EDSE 460, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring

**EDSE 462 - Applying Behavior Analysis in School and Community Settings**

Credits: 3 (NR)
Teaches a variety of procedural topics in applied behavior analysis pertaining to developing effective instruction and interventions for a variety of content areas, skills, and adaptive and problem behaviors. Additionally, provides instruction on gaining collaboration of those around the student in assuring the student's success, and ethical concerns in meaningfully applying behavior analysis. Course is developed to satisfy part of the educational requirement to sit for the Board Certified Assistant Behavior Analyst (BCABA) examination.

**Corequisite(s):** EDSE 460 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall

**EDSE 464 - Ethical and Professional Conduct in Applied Behavior Analysis**

Credits: 3 (NR)
Provides a basis in Virginia Behavior Analyst Licensure law, the Behavior Analyst Certification Board's Guidelines for Responsible Conduct and Disciplinary Standards, Virginia Assistant Behavior Analyst Licensure Regulations, and professional conduct consistent with the practice of applied behavior analysis. Incorporates overseeing instructional or program implementation, working with behavior change systems, managing interventions, and behavior change considerations.

**Prerequisite(s):** EDSE 460.

**Corequisite(s):** EDSE 460.
EDSE 490 - Internship in Applied Behavior Analysis

Credits: 3-9 (RD)
Provides hands-on experience implementing, evaluating, and participating in development and revision of behavior analytically based instruction and related procedures with children who are diagnosed with intellectual disabilities or behavioral difficulties, under supervision of a Board Certified Behavior Analyst. Individual and group, and on-site and off-site supervision modalities are used. Additional professional development instruction is provided. Satisfies part of the experiential requirements needed for sitting for the Board Certified Assistant Behavior Analyst examination.

Prerequisite(s): Admission to or prior completion of the undergraduate Applied Behavior Analysis minor, completion of an undergraduate course of study that has been approved by the Behavior Analyst Certification Board, or consent of the instructor.

Corequisite(s): EDSE 460, EDSE 461, EDSE 462, or permission of instructor.

EDSE 495 - Standard Applied Behavior Analysis Practicum

Credits: 6 (RD)
Meets intensive undergraduate supervision requirements by the BACB to develop, design, implement, and evaluate behavior analytic techniques that produce meaningful change.

Prerequisite(s): EDSE 460 (may be taken concurrently); admission to or prior completion of the Applied Behavior Analysis minor or permission of instructor; submission of practicum application to the Special Education program.

Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification Board (www.BACB.com).

EDSE 499 - Intensive Applied Behavior Analysis Practicum

Credits: 3 (RD)
Meets standard supervision requirements by the BACB to develop, design, implement, and evaluate behavior analytic techniques that produce meaningful change.

Prerequisite(s): EDSE 460 (may be taken concurrently); admission to or prior completion of the Applied Behavior Analysis
minor or permission of instructor; submission of practicum application to the Special Education program.

Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification Board (WWW.BACB.com)

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

EDSE 501 - Introduction to Special Education

Credits: 3 (NR)
Survey of current knowledge on individuals with disabilities within the context of human growth and development across the life span. Includes historical factors, legislation, etiology, characteristics, needs, educational strategies, assessment, and support services for individuals with disabilities ranging from mild and moderate to severe. Includes the impact of disabilities on academic, social, and emotional performances. Field experience required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 502 - Classroom Management and Applied Behavior Analysis

Credits: 3 (NR)
Explores how to identify, record, evaluate, and change social and academic behaviors of special and diverse populations. Explores theories of classroom management and various approaches to management including use of technological advances. Emphasizes developing classroom and individual behavior-management plans.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 503 - Language Development and Reading

Credits: 3 (NR)
In-depth coverage of reading instruction for students with special needs. Topics include language development and emergent literacy skills; reading subskills including auditory discrimination and phonemic awareness, decoding and word reading; reading comprehension; and use of technological advances in the teaching of reading.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 504 - Elementary Curriculum and Content for Special Educators
Reviews elementary curriculum content and instructional approaches for the instruction of individuals with disabilities in language arts/reading, mathematics, science, and social studies. Addresses core knowledge for Elementary Praxis II.

**EDSE 505 - Introduction to Early Childhood Special Education**

Credits: 3 (NR)
Surveys current knowledge about young children with disabilities within the context of human growth and development and learning expectations in the preschool years. Includes historical factors and legislation affecting service delivery.

Notes: Field experience required

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**EDSE 511 - Characteristics of Students with Visual Impairments**

Credits: 1 (NR)
Provides an overview of the characteristics of and services to persons with visual impairments, including the impact of visual impairment on infants' and children's growth and development, child and adolescent emotional and social development, and family interaction patterns. Considers the educational, conceptual, psychosocial, and physical implications of a visual impairment.

Notes: Course delivered online.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

**EDSE 512 - Braille Code**

Credits: 3 (NR)
Provides understanding of the literary code of Braille and its implications for educational/literacy programs for students with a visual disability. Practice experiences enable students to better understand the Braille code and how to teach it to students with a visual disability.

Prerequisite(s): EDSE 511 (may be taken concurrently).

Notes: Delivered online.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
EDSE 513 - Medical and Educational Implications of Visual Impairments

Credits: 3 (NR)
Provides an introduction to anatomy and physiology of the visual system and the educational implications of visual pathology. Topics include anatomy of the human eye, normal visual development, pathology of the eye, examination procedures for the identification of visual pathology, and the effects of pathology on visual learning and development.

Prerequisite(s): EDSE 511 (may be taken concurrently).

Notes: Delivered online.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 514 - Orientation and Mobility for Students with Visual Impairments

Credits: 2 (NR)
Provides the foundation for understanding the components and essence of orientation and mobility (O&M). Establishes how the need for independent travel in the blind population created the field of O&M. Explores the philosophy and history of orientation and mobility, including cane instruction, dog guides, and methods of travel. Addresses techniques in developing orientation skills and basic mobility instruction. Motor and concept skill development are emphasized.

Prerequisite(s): EDSE 511 (may be taken concurrently).

Notes: Delivered online.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

EDSE 517 - Computer Applications for Special Populations

Credits: 3 (NR)
Lecture and laboratory course for teachers of special populations in applications of computer technology for instructional programs and computer skills. Students learn to use computer technology designed for special populations.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 518 - Curriculum and Assessment of Students with Visual Impairments

Credits: 3 (NR)
Provides students with knowledge and understanding of the educational assessment of students with visual impairments and additional disabilities including deaf-blindness. Students practice assessing and planning educational programs for students with visual impairments. Addresses assessment of technology for students with visual impairments. Examines determination of
learning needs and appropriate learning media, relationship of assessment, IEP development, and placement.

**Prerequisite(s):** EDSE 511 (may be taken concurrently).

**Notes:** Delivered online.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### EDSE 527 - Adapted Sports, Recreation, and Leisure

Credits: 1 (NR)  
Introduces tools for adapting sports, recreation, and leisure activities to promote the benefits of active participation, relaxation, health, and well-being for individuals with differing abilities. Students participate in simulations, research, and design.  
Knowledge and awareness components may be delivered via distance education.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

### EDSE 530 - Policy Perspectives Affecting Diverse Young Learners and Their Families

Credits: 3 (NR)  
Provides understanding of historical and current trends and issues involving legislation and policy in early childhood education, bilingual education, early childhood special education, and multicultural education. Focuses on historical role of social advocacy, development of advocacy skills, and collaboration and consultation with other professionals and staff in the field of early childhood education.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### EDSE 531 - Transition and Community-Based Instruction

Credits: 3 (NR)  
Addresses issues in transition for youth with severe disabilities. Covers self-determination, development, and implementation of a transition plan, post-secondary opportunities including education and community-based instruction, and vocational environments.

**Notes:** Course is equivalent to EDSE 544 for students in the severe disabilities program.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### EDSE 532 - Positive Behavior Supports
Credits: 3 (NR)
Designed for professionals working with individuals with severe disabilities. Focuses on concepts and skills needed to design, implement, and evaluate behavior support programs derived from functional assessment. Covers effective teaching strategies; addresses relevant replacement skills; facilitates generalization and maintenance of skills; and incorporates individually designed crisis intervention procedures.

Notes: Course is equivalent to EDSE 620 for students in the severe disabilities program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 533 - Curriculum and Assessment in Severe Disabilities

Credits: 3 (NR)
Addresses best practices in curriculum and assessment for individuals with severe disabilities. Covers the design of assessment and evaluation techniques and procedures for the severe-needs population, including adaptations and accommodations. Covers IEP formulation and implementation with linkage to assessment. Course is equivalent to EDSE 649 for students in the severe disabilities program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 534 - Communication and Severe Disabilities

Credits: 3 (NR)
Introduces professionals to augmentative and alternative communication (AAC) for individuals with severe speech and language impairments. Addresses the knowledge and skills needed to assess the potential AAC user, make team decisions, develop and implement instruction, and evaluate the effects of instruction, aimed at motivating, building, and expanding communication, choice-making, and social interaction.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 540 - Characteristics of Students with Disabilities who Access the General Curriculum

Credits: 3 (NR)
Examines the characteristics of students with mild disabilities. Emphasis on etiology, contributing factors, conditions that affect learning, the challenges of identifying students with disabilities, and the need for academic, social, and emotional accommodations and support.

Notes: School-based field experience required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
EDSE 542 - Characteristics of Students with Mental Retardation

Credits: 3 (NR)
Covers theories and specific conditions in mental retardation, and provides advanced study of persons with mental retardation, ranging from preschool to adult. Topics include historical development of the field of mental retardation; theoretical models; etiological factors; characteristics; models of assessment and intervention, including technological advances; and issues and trends, including legislation and litigation. Includes the study of impact of mental retardation on academic and social and emotional performances. Requires field experience.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 544 - Adapted Instructional Methods and Transition for Secondary Learners

Credits: 3 (NR)
Provides strategies for teaching functional academics and social/life skills, facilitating the transition to postsecondary environments. Focuses on all aspects of transition and alternative assessments for secondary learners with disabilities.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 547 - Medical and Developmental Risk Factors for Children with Disabilities

Credits: 3 (NR)
Examines nature and causes of disabling or special health conditions. Covers screening and evaluation techniques, characteristics, and educational implications.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 553 - Teaching Mathematics to Students with Special Needs

Credits: 3 (NR)
Covers techniques for assessing and remediating difficulties in mathematics.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 555 - Language Development and Emerging Literacy

Credits: 3 (NR)
EDSE 556 - Developing Language, Literacy, and Communication in Young Children

Credits: 3 (NR)

Examines strategies to develop language, literacy, and communication in young children with varying abilities. Explores the importance of adult-child interaction and the effect of bilingualism, cultural diversity, cognitive ability, and language disorders.

Equivalent to ECED 522

Notes: Field Experience required

EDSE 557 - Foundations of Language and Literacy for Diverse Learners

Credits: 3 (NR)

Examines complexity of language acquisition and literacy development. Focuses on typical and atypical language development, connections between language and literacy, and diversity of communication styles in families, and cultures. Emphasizes first and second language acquisition.

Notes: Field Experience required

EDSE 558 - Medical Aspects of Physical and Sensory Disabilities in Young Children

Credits: 3 (NR)

Equivalent to ECED 506.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
EDSE 560 - Secondary Mathematics for Special Education Teachers

Credits: 3 (NR)  
Provides the necessary depth and breadth of mathematics content knowledge required for prospective secondary special education mathematics teachers. Specific content includes: Algebra and Number Theory; Geometry, Measurement and Trigonometry; Functions and Calculus; Probability, Data Analysis and Statistics; Matrix Algebra and Discrete Mathematics. Students design mathematics instruction for students with mild disabilities utilizing current evidence-based practices.

Hours of Lecture or Seminar per week: 2.5  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring, Summer

EDSE 561 - Secondary Science for Special Education Teachers

Credits: 3 (NR)  
Provides the necessary depth and breadth of science content knowledge required for prospective secondary special education science teachers. Prepares students for the Praxis Content Knowledge tests in five fields: Biology, Chemistry, Earth and Space Science, General Science and Physics. Design science content area instruction for students with mild disabilities utilizing current evidence-based practices.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 1  
When Offered: Fall, Spring, Summer

EDSE 590 - Special Education Research

Credits: 3 (NR)  
Describes fundamental concepts and practices in educational research in special education. Covers specific applications of educational research methods to problems in special education. Emphasizes review and critique of special education research, and applied classroom research for teachers.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 597 - Special Topics in Education

Credits: 1-6 (RD)  
Provides advanced study on selected topic or emerging issue in Special Education.

Prerequisite(s): Admission to program in Graduate School of Education.  
Corequisite(s): May be repeated for credit with GSE permission.  
Notes: May be repeated for credit with GSE permission.
EDSE 612 - Special Needs Students in International Schools

Credits: 3 (NR)
Focuses on students with special learning needs at international schools in the regular classroom environment. Enhances understanding of current issues within the field of special education in the international schools in an increasingly global community.

Prerequisite(s): Admission to FAST TRAIN program and EDSE 501

EDSE 613 - Teaching Methods for Students with Visual Impairments

Credits: 3 (NR)
Emphasizes methods of teaching compensatory skills, the core curriculum, and technology for use by students who are blind and visually impaired. Addresses curriculum development, adaptations, and teaching methodology for individuals with visual impairments. Provides information on adaptations within various educational programs and adaptation of general education classroom materials and procedures for use with blind and low vision children and youth.

Prerequisite(s): EDSE 511 (may be taken concurrently).

Notes: Delivered online.

EDSE 615 - Early Intervention for Infants and Toddlers with Disabilities: Collaborative and Consultative Approaches

Credits: 3 (NR)
Covers methods of service delivery for infants and toddlers with disabilities and their families. Explores key aspects of consultation, interdisciplinary collaboration, service coordination, and family-centered services. Focuses on culturally responsive practices.

Prerequisite(s): Admission to the Early Childhood Special Education program or permission of the instructor
EDSE 616 - Braille Reading and Writing

Credits: 3 (NR)
Provides basic instruction on transcription of advanced Braille codes, including music, foreign language, chemistry, computer Braille, and Nemeth code (Braille math code). Introduces techniques for teaching skills in each code. Explores technology tools used to create Braille and tactile materials in addition to other assistive technologies used for instruction in math and science.

Prerequisite(s): EDSE 512; EDSE 511 (may be taken concurrently).

Notes: Delivered online.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy

Credits: 3 (NR)
Focuses on basic principles and procedures of applied behavior analysis; identification of factors that contribute to behavioral problems and improved performance; and procedures that can be used to minimize behavioral problems, improve performance, teach new behaviors, and increase probability of behaviors occurring under appropriate circumstances.

Prerequisite(s): Admission to applied behavior analysis graduate certificate program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 620 - Managing Severely Challenging Behaviors and Applied Behavior Analysis

Credits: 3 (NR)
Focuses on applying behavior analysis principles and social learning theory to increase learning by students with special needs. Emphasizes single subject research designs.

Prerequisite(s): Graduate standing and permission of advisor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 621 - Applied Behavior Analysis: Empirical Bases

Credits: 3 (NR)
Focuses on basic content of applied behavior analysis. Teaches how to implement behavioral procedures and develop behavioral programs for clients with fundamental behavioral needs.

Prerequisite(s): EDSE 619

Corequisite(s): EDSE 619
EDSE 623 - Applied Behavior Analysis: Assessments and Interventions

Credits: 3 (NR)
Further expands on basic content of applied behavior analysis and teaches how to implement behavioral procedures and develop behavioral programs for clients with fundamental behavioral needs.

Prerequisite(s): EDSE 619.

EDSE 624 - Applied Behavior Analysis: Applications

Credits: 3 (NR)
Expands capability to deal with more complex behavioral situations, enabling ability to relate to more sophisticated professional issues and environments.

Prerequisite(s): EDSE 621 and 623

EDSE 625 - Applied Behavior Analysis: Verbal Behavior

Credits: 3 (NR)
Further expands capability to deal with more complex behavioral situations, and enables students to relate to more sophisticated professional issues and environments.

Prerequisite(s): EDSE 623.

EDSE 626 - The Inclusive Classroom

Credits: 3 (NR)
Introduces participants to instructional procedures for facilitating inclusive instruction for students with disabilities in general education settings. Topics include research-based strategies for adapting curriculum materials, designing instructional procedures, and evaluating students with disabilities.
EDSE 627 - Assessment

Credits: 3 (NR)

Offers knowledge and experiential learning activities related to assessment of students with mild disabilities. Includes statistical and psychometric concepts in assessment. Addresses norm-referenced, criterion-referenced, curriculum-based, and informal assessment for instructional and placement decisions.

EDSE 628 - Elementary Reading, Curriculum, and Strategies for Students who Access the General Education Curriculum

Credits: 3 (NR)

Applies research on instructional approaches, in elementary curriculum for individuals with disabilities accessing general education curriculums. Includes curriculum/instructional strategies in reading, language arts, mathematics, science, social studies, cognitive strategies, study skills, attention/memory, and peer-mediated instruction.

EDSE 629 - Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum

Credits: 3 (NR)

Applies research on teacher effectiveness, accountability, and instructional approaches at the secondary level for individuals with mild disabilities. Includes instructional methods necessary for teaching reading, writing, math, and other content areas across the curriculum.

EDSE 633 - Policy Perspectives Affecting Diverse Young Learners

Credits: 3 (NR)

Provides understanding of historical and current trends and issues involving legislation and policy in early childhood education, bilingual education, early childhood special education, and multicultural education. Focuses on historical role of social advocacy, development of advocacy skills, and collaboration and consultation with other professionals and staff. Addresses continuum of
services and the context of service delivery. Requires field experience.

Prerequisite(s): Admission to the Graduate School of Education.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 634 - Characteristics of Students with Autism

Credits: 3 (NR)
Describes varying characteristics of students labeled with a type of autism who receive special education services. Examines definitions, eligibility criteria, incidence rates, and etiology. Perspectives from students, families, educational, community, and career personnel are described.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 635 - Interventions for Students with Autism

Credits: 3 (NR)
Research-based interventions that promote progress in the areas of communication, social, academic, behavior, and sensory motor skills for students with autism are described. Methods for monitoring the impact of interventions are identified and a variety of service delivery models are described.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 648 - Introduction to Psycho-Educational Assessment

Credits: 3 (NR)
Introduces basic statistical procedures and test characteristics. Appropriate terminology and practices related to formal and informal assessment applied throughout the course. Students practice administering, scoring, and interpreting tests, including the impact of multicultural diversity on assessment.

Prerequisite(s): EDSE 540.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 655 - Curriculum Methods: Elementary ED/LD

Credits: 3 (NR)
Applies research on teaching effectiveness, teaching accountability, and instructional approaches with specific attention to reading, language arts, social skills, and cooperative learning. May require field experience in public schools.
EDSE 656 - Assessment of Diverse Young Learners

Credits: 3 (NR)

Examines types of assessment, including family-centered assessment, used for planning and implementing effective programs for children from diverse cultures and with varied learning needs. Addresses selection, administration, and interpretation of formal and informal assessments.

Equivalent to ECED 521.

Prerequisite(s): Admission to the Early Childhood Special Education program or permission of the instructor

Notes: Field Experience required

EDSE 659 - Curriculum and Methods: Early Childhood Special Education

Credits: 3 (NR)

Prerequisite(s): Admission to the Early Childhood Special Education program or permission of instructor.

Notes: Field Experience required

EDSE 661 - Curriculum and Methods: Severe Disabilities

Credits: 3 (NR)

Focuses on current best practices in curriculum, and methods for students with severe disabilities, including specific strategies for teaching students with severe disabilities, general strategies for working with heterogeneous groups of students in inclusive settings, and methods for adapting the general education curriculum to include students with severe disabilities.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
EDSE 662 - Consultation and Collaboration

Credits: 3 (NR)
Provides professionals in special education, regular education, and related fields with knowledge and communications skills necessary for collaborative consultation and technical assistance to other educators and service providers.

Prerequisite(s): Teaching licensure, or enrollment in graduate degree program in education.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 664 - Ethical and Professional Conduct for Behavior Analysis

Credits: 3 (NR)
Provides a basis in Virginia Behavior Analyst Licensure law, the Behavior Analyst Certification Board's Guidelines for Responsible Conduct and Disciplinary Standards, and professional conduct consistent with the practice of applied behavior analysis.

Prerequisite(s): EDSE 619 (May be taken concurrently) or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

EDSE 665 - Families of Children with Special Needs

Credits: 3 (NR)
Focuses on strategies for developing culturally appropriate family-professional partnerships to benefit children with special needs. Explores theories and research that support a family-centered approach. Includes family and professional rights and responsibilities in the special education process.

Equivalent to ECED 524

Prerequisite(s): Admission to the Early Childhood Special Education program or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 667 - Cognitive Development of Diverse Young Children

Credits: 3 (NR)
Explores conflicting views about how young children think and learn. Addresses cognitive theoretical approaches of leading researchers, and emphasizes their relevance to educational practice. Addresses characteristics of children with cognitive disabilities, children from multilingual and multicultural backgrounds, and those living in poverty, along with the educational
implications of those characteristics. Requires field experience.

Prerequisite(s): Admission to the Graduate School of Education.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 669 - Interdisciplinary Approach for Children with Sensory and Motor Disabilities

Credits: 3 (NR)
Emphasizes positioning, handling, and adaptive strategies. Focuses on understanding the roles of related disciplines in collaborative planning and service delivery.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 701 - Legal Issues and Special Populations

Credits: 3 (NR)
Offers a study of the impact of legislation and litigation on the education of special populations emphasizing IDEA and Section 504. Topics of study include emerging trends in special education based on interpretation of landmark court cases related to disability, legal updates on policies and procedures for exceptional learners, and discussion of the guiding principles of special education law when addressing the needs of special populations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 702 - Managing Resources for Special Education Programs

Credits: 3 (NR)
Examines development and delivery of specialized programs for exceptional learners. Topics include implementation of Individualized Education Plans via Universal Design, financial and human resource allocation and management, effective supervision and evaluation, and student outcome documentation.

Prerequisite(s): None

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 703 - Creating a Collaborative Culture

Credits: 3 (NR)
Provides leaders in school settings with an opportunity to gain the skills needed to facilitate collaborative environments supportive of all learners. Topics of study include the impact of diversity on educational settings, developing a vision effective
communication teaming and coteaching techniques, family professional partnerships, implementing schoolwide change initiatives, alternative dispute resolution, and maintaining a positive school climate.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

### EDSE 743 - Leadership in Special Education Administration

**Credits:** 3 (NR)
Examines leadership issues and applies them to the administration of special education programs. Explores current challenges in the delivery of services for exceptional children through case studies and projects.

**Prerequisite(s):** None

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

### EDSE 744 - Current Issues in Special Education

**Credits:** 3 (NR)
Helps students develop an understanding of the role of convergent research evidence in addressing current issues in special education practice and policy. Familiarizes students with current issues in special education and the group experimental, single subject, and qualitative research designs used to address these current issues. Students evaluate research studies in terms of their methodological strengths and weaknesses and their part in providing convergent bodies of evidence that can be used for defining practice and policy.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

### EDSE 745 - Writing Grants

**Credits:** 3 (NR)
Identification of funding sources, description of grant components, and development of grant budgets. Independent writing of an entire small grant and a significant portion of a large grant. Participation in grant peer-review process.

**Prerequisite(s):** EDRS 810; or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

### EDSE 782 - Comprehensive Topics in Special Education: Trends and Issues
Credits: 3 (NR)
Focuses on current trends and issues in special education and disabilities. Students under the direction of instructor complete individually designed projects addressing major trends and issues in their emphasis area of special education.

**Prerequisite(s):** Majority of course work.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 790 - Internship in Special Education**

Credits: 1-6 (RT)
Supervised internships that apply university course work to instruction of children and their families in school and community settings.

**Prerequisite(s):** Passing scores on Praxis I prior to final internship, and permission of advisor.

**Notes:** Students enroll in two separate internships appropriate to the area of study for a total of 6 credits. Applications for field internships are due on February 15 for fall; September 15 for spring; and March 1 for summer.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit

**EDSE 791 - Midpoint Portfolio**

Credits: 1 (NR)
Opportunity for students to develop their portfolio. Serves as the vehicle to assess whether they are meeting the standards of their professional organization, the Council for Exceptional Children.

**Notes:** Must be taken after completion of fourth EDSE prefix course or concurrently with fourth or fifth EDSE prefix course in program.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit (S, NC, IP)

**EDSE 792 - Final Portfolio**

Credits: 1 (RD)
Opportunity for students to develop their portfolio. Serves as the vehicle to assess whether they are meeting the standards of their professional organization, the Council for Exceptional Children.

**Corequisite(s):** Must be taken concurrently with last EDSE 790 internship or the last EDSE course in the program.

**Hours of Lecture or Seminar per week:** 1
EDSE 793 - Internship in Early Childhood Special Education

Credits: 1-6 (RT)
Supervised internships that apply university coursework to instruction of children and their families in school and community settings. Students enroll in both infant/toddler (3 credits) and pre-school (3 credits) internships.

Prerequisite(s): Admission to the Early Childhood Special Education Certificate or permission of instructor; passing Praxis I and VCLA scores.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 1-12
Grading: Satisfactory/No Credit
When Offered: Fall, Spring

EDSE 794 - Special Topics

Credits: 1-6 (RD)
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

EDSE 797 - Advanced Topics in Education

Credits: 1-6 (RD)
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education.

Notes: May be repeated for credit with CEHD approval.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special

EDSE 841 - Intervention Research in Special Education

Credits: 3 (NR)
Provides advanced graduate students with opportunities for in-depth study, analysis, and discussion of original intervention research in special education. Emphasizes analyzing research methodology, coding original intervention research, analyzing results, synthesizing findings, formulating future research questions relevant to individuals with disabilities, and gaining an
understanding of the submission process for conferences and publications.

**Prerequisite(s):** Admission to PhD in education program, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**EDSE 842 - Application of Research Methodology in Special Education**

Credits: 3 (NR)
Provides knowledge and skills in the application of research methodology in special education. Topics include methods for conducting survey research, experimental and quasi-experimental research, research involving correlation and regression, and qualitative research. Emphasizes application to specific issues in special education research.

**Prerequisite(s):** Admission to PhD in education program, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**EDSE 843 - Leadership in Special Education Administration**

Credits: 3 (NR)
Examines leadership issues and applies them to the administration of special education programs. Explores current challenges in the delivery of services for exceptional children through case studies and projects.

**Prerequisite(s):** Admission to PhD in education program, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**EDSE 844 - Current Issues in Special Education**

Credits: 3 (NR)
Develops understanding of the role of convergent research evidence in addressing current issues in special education practice and policy. Describes current issues in special education and the group experimental, single subject, and qualitative research designs used to address these current issues. Students evaluate research studies in terms of methodological strengths and weaknesses, and their part in providing convergent bodies of evidence that can be used for defining practice and policy.

**Prerequisite(s):** Admission to PhD in education program, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**EDSE 845 - Personnel Preparation Programs in Special Education**
Credits: 3 (NR)
Provides an in-depth study, analysis, and discussion of personnel preparation programs in special education including: scope and sequence of teacher preparation programs as they align with state and national teacher licensure standards, bodies of accreditation, syllabi development, delivery models, and frameworks for curriculum design; teacher evaluation; and how policies, research, and issues of accountability can transform teacher preparation programs.

**Prerequisite(s):** Admission to PhD program or approval by permission.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**EDSE 846 - Assessment, Evaluation, and Instrumentation in Special Education Research**

Credits: 3 (NR)
Provides in-depth study, analysis and discussion of the past, present and future directions of assessment, evaluation, and instrumentation research in special education. Emphasizes reliability and validity of the research instruments, evaluating research methodology, analyzing results, synthesizing findings with respect to present assessment and evaluation policies; formulating future research questions relevant to assessment and evaluation of individuals with disabilities.

**Prerequisite(s):** Admission to PhD program or approval by permission.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**EDSE 847 - Problem Solving in Contemporary Initiatives in Special Education**

Credits: 3 (NR)
Addresses contemporary initiatives in special education: those introductory and leading actions intended to implement positive change, that can be promoted by federal agencies, professional or advocacy organizations. Focuses on understanding of contemporary special education initiatives through evaluation and analysis. Background, relevant legislative history, existing empirical evidence, and designing future research addressing contemporary initiatives will be studied and discussed.

**Prerequisite(s):** Admission to PhD program or approval by permission.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**Sport Management (SPMT)**

Offered by the College of Education and Human Development

---

**SPMT 100 - Current Events in Sport Business**
Engages students in a discussion about recent developments in the sport industry, using the Sport Business Journal to stimulate the discussion as well as provide the student with current information about this rapidly changing industry. There will be two field trips conducted as part of this class.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

SPMT 201 - Introduction to Sport Management

Credits: 3 (NR)
Introduces sport management profession. Primary focus is on sport industry, including professional sport entertainment, amateur sport entertainment, for-profit sport participation, nonprofit sport participation, sporting goods, and sport services.

Notes: Open to non majors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 202 - Mental Skills for Sport Performance

Credits: 2 (NR)
Introduces mental skills training for sport performance used within the field of sport and exercise psychology. Demonstrates mental practice techniques to be practiced and assessed.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall.

SPMT 210 - Foundations of Sport Coaching

Credits: 3 (NR)
Introduction to the scientific bases for coaching sports and the process of coaching athletes. It includes the development of an individual coaching philosophy and the application of scientific training in the psychological, physiological, pedagogical and managerial bases of sport coaching.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

SPMT 241 - Practicum

Credits: 3 (NR)
Paid or voluntary experience in sport industry setting. Work sites chosen by students after receiving approval of faculty
supervisors.

Prerequisite(s): SPMT 201. Majors in BS HFRR SPMT only. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

SPMT 302 - Philosophical and Ethical Dimensions of Sport

Credits: 3 (NR)
Investigates moral issues in sport and judgments about right and wrong behavior among athletes, coaches, spectators, and others.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 304 - Sport, Culture, and Society

Credits: 3 (NR)
Analyzes sport from educational, political, economic, and cultural perspectives.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 318 - Gender and Racial Issues in Sport

Credits: 3 (NR)
Investigates dominant gender and racial ideologies, and their influence on sport.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 320 - Psychology of Sport

Credits: 3 (NR)
Psychological theories of personality, motivation, and anxiety explored in sport environment. Examines social-psychological research on audience effects, team cohesion, leadership, and fan behavior.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 321 - America Through Baseball
Credits: 3 (NR)
This course is designed for the student to gain an understanding of the past and present role of baseball in American culture. The course focuses on the development of professional baseball over the past 160 years and the ways in which the history of America as a nation and culture can be "read" through baseball.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SPMT 322 - Football and American Culture**

Credits: 3 (NR)
Designed for the student to gain an understanding of the past and present role of football in American culture. Focuses on the development of college, professional and high school football over the past 120 years and contemporary issues in football culture are analyzed such as debates over racial symbols and mascots, the question of professionalizing division one college football, and tailgating and televisive football cultures.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SPMT 323 - America and the Modern Olympics**

Credits: 3 (NR)
This course is designed to provide students an understanding of the role played by the United States in the modern Olympic movement. The primary focus is on the United States relationship with the modern Olympics from the earliest days of the games up through the Cold War period and beyond.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

**SPMT 341 - Field Experience in Sport Coaching**

Credits: 3 (NR)
Application of the scientific bases for coaching sports and the process of coaching athletes. Includes paid or voluntary experience in a sport-specific setting. The practicum location is to be chosen by students after receiving approval of the faculty supervisor. A minimum of 120 clock hours is required within the timeframe of the course.

Prerequisite(s): SPMT 210 or Permission of the Instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

**SPMT 405 - Sport Venues and Events**
Principles and techniques of event planning and operations in sport facilities and venues. Emphasizes principles and concepts of organization and administration including communication, personnel management, management of physical resources, and risk management. Examines a variety of sport events and venues such as indoor stadiums, athletic field complexes, and managing recreation and intramural activities.

Prerequisite(s): SPMT 201 and completion of 60 hours.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 412 - Sport Marketing and Sales

Investigates principles and processes in sport marketing and finance. Focuses on research and development, sport promotion, sport sponsorship, advertising, merchandising, and distribution of sporting goods.

Prerequisite(s): 60 hours, including SPMT 201, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SPMT 420 - Economics and Finance in the Sport Industry

Examines the principles of economics, budgeting, and finance as it applies to the sport industry.

Prerequisite(s): Completion of 60 hours, including SPMT 201, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 430 - Sport Communication

Provides a senior-level exploration of the role of sport communication in contemporary cultures. Readings and discussions address questions about how communication about/in sports highlights the importance of sports, the cultural identities of those who engage in sport communication, and the pervasiveness of sport communication practices in industry.

Prerequisite(s): SPMT 201 and general COMM course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SPMT 440 - Global Perspectives in Sport

Credits: 3 (NR)
An interdisciplinary examination of sport as a global phenomenon. Historical, cultural, economic, and governance perspectives are considered.

Prerequisite(s): SPMT 201 and completion of 60 hours. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 455 - Governance and Policy in Sport Organizations

Credits: 3 (NR)
Examines sport organizations focused on both professional and amateur governance structures and processes. The study of policy in educational, nonprofit, and professional sport venues is also addressed.

Prerequisite(s): 60 hours, including SPMT 201, or permission of instructor Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 462 - Sport Business Law

Credits: 3 (NR)
Students in this course will receive instruction in the major areas of the law that impacts the sport industry. Students will also see how knowledge of sport law can make them better sport managers. There will be an introduction to the legal system in the United States and then we will see how the law has shaped the management of sport organizations and the playing and staging of the games.

Prerequisite(s): 60 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SPMT 470 - Strategic Management and Leadership in Sport Organizations

Credits: 3 (NR)
Provides a foundation in organizational studies. It addresses the theoretical underpinnings and applications of leadership, It examines strategic planning processes and management within sport organizations.

Prerequisite(s): SPMT 201, 60 hours.

Hours of Lecture or Seminar per week: 3
**SPMT 475 - Sport Management Professional Development Seminar**

Credits: 3 (NR)

This is a seminar format in which students synthesize and apply theories, concepts, and practices in the leadership and management of sport organizations.

**Prerequisite(s):** SPMT 241 and completion of 75 hours. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**SPMT 480 - Special Topics in Sport Management**

Credits: 3 (RD)

See course description in the Schedule of Classes. Selected topics reflecting interest in specialized areas of sport management. Announced in advance.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**SPMT 490 - Internship**

Credits: 9-12 (NR)

Paid or voluntary work experience in sport industry settings. Requires minimum period of 10 to 12 weeks of full-time employment. Applies course work, theories, and research to work settings. Work sites chosen by students after approval of faculty supervisors. Includes meetings and assignments before and during the internship.

**Prerequisite(s):** SPMT 475 and completion of 90 hours.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 12
**Grading:** Satisfactory/No credit only

**SPMT 499 - Independent Study**

Credits: 1-3 (NR)

Faculty-directed independent study of approved topics in sport management.

**Hours of Lecture or Seminar per week:** 1-3
**Hours of Lab or Studio per week:** 0
SPMT 551 - Sport in the Global Marketplace

Credits: 3 (NR)
Explores sport business internationally including the production and consumption of professional and Olympic-linked sports and the impact of globalization on sport.

Prerequisite(s): Graduate status or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 555 - The Australian Model of Sport

Credits: 3 (NR)
Examines the Australian model of sport which has been adopted in many countries. Analyzes government sport policy and the organization and administration of Australian professional sports.

Prerequisite(s): SPMT 551 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 556 - The Global Soccer Industry

Credits: 3 (NR)
Explores the international soccer industry focusing on major professional leagues, international federations, international movement of players, the production of soccer equipment, legal and social issues.

Prerequisite(s): SPMT 551 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 611 - Sport Marketing and Sales

Credits: 3 (NR)
Investigates principles and processes in sport marketing. Focuses on research and development, sport promotion, sport sponsorship, advertising, merchandising, and distribution of sporting goods.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 612 - Economics and Financial Management in the Sport Industry
Examines principles of economics, budgeting, and finance as they apply to the sport industry.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPMT 613 - Strategic Leadership in Sport Organizations**

Credits: 3 (NR)  
Examines the theoretical underpinnings and effective strategic processes of leadership in sport organizations. Leader behaviors, characteristics, situational influences, and the cognitive dimensions of leadership will be explored within the organizational context.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPMT 614 - Legal Issues in Sport**

Credits: 3 (NR)  
Examines legal issues as they apply to the sports industry. Course content includes, but is not limited to: tort law, risk management procedures, product liability, constitutional/contract/administrative/statutory law, crowd control/security, personal/professional values, and situational analysis.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPMT 616 - Sport Operations, Venues, and Event Management**

Credits: 3 (NR)  
Examines administrative functions and operations, strategic planning, governance structures, policy development, and effective practices in the strategic management of sport programs, including managerial principles for venues and events.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPMT 631 - Theoretical Models of Sport Coaching**

Credits: 3 (NR)  
Examines the scientific bases for coaching athletes. Emphasizes philosophical underpinnings and theoretical foundations in the psychological, physiological, pedagogical, and managerial bases of sport coaching.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
SPMT 651 - Sport and International Development

Credits: 3 (NR)
Explores the roles of sport in international development with focus on Africa, Asia, and Latin America. Non-governmental organizations (NGOs), international federations, professional leagues and grassroots initiatives will be examined.

Prerequisite(s): SPMT 551 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 652 - Governance and Policy in International Sport

Credits: 3 (NR)
Explores sport governance and policy in the international context with focus on international federations, professional leagues and comparative analyses of governmental sporting policies.

Prerequisite(s): SPMT 551 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Sports and Recreation Studies (SRST)

SRST 200 - History of Sport and Leisure in America

Credits: 3 (NR)
Traces the history of sport and leisure in America.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SRST 450 - Research Methods

Credits: 3 (NR)
Covers the development of empirical research designs for both practical and theoretical problems in health, fitness, and recreation resources management. Includes literature review of hypothesized relationships, and formulation of research proposals.

Fulfills writing intensive requirement in the major.

Prerequisite(s): STAT 250 and 60 credits.
SRST 598 - Special Topics

Credits: 1-6 (RD)
Focuses on projects related to sport and/or recreation studies.

Prerequisite(s): Graduate standing or permission of instructor.

SRST 599 - Independent Study in Sport and Recreation Studies

Credits: 1-3 (RD)
Studies problem area in sport and recreation studies research, theory, or practice under direction of faculty member.

Prerequisite(s): Graduate standing and completion of 18 credit hours of graduate coursework in SRST.

Notes: Students engage in one-on-one or seminar independent study with an SRST faculty member. The faculty member may be the student's thesis or project supervisor. While SRST 599 is repeatable, 3 credit hours must be designated for Preparation of Thesis or Project Proposal.

SRST 606 - Foundations of Sport and Recreation Studies

Credits: 3 (NR)
Examines the historical development of the Sport and Recreation Studies fields. Explores the interconnection between these phenomena in the context of the social, cultural and economic forces shaping American and global societies.

Prerequisite(s): Graduate standing or permission of the instructor.

SRST 623 - Research Design and Statistical Reasoning
Credits: 3 (NR)
Introduces basic principles of scientific and scholarly inquiry in Sport and Recreation Studies. Explores the logic and practice of methods and techniques employed in research related to sport and recreation.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SRST 798 - Master's Project

Credits: 1-3 (RD)
Offers capstone experience to enable students to demonstrate their integrative knowledge and skills accrued through study in their concentration area within Sport and Recreation Studies.

Prerequisite(s): SRST 623, SRST/EFHP 599: Preparation of Thesis or Project Proposal; or permission of instructor.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Summer, Spring

SRST 799 - Master's Thesis

Credits: 1-6 (RD)
Explores sport and recreation problem using appropriate research methodology and under supervision of graduate faculty member.

Prerequisite(s): SRST 623, SRST/EFHP 599: Preparation of Thesis or Proposal; or permission of instructor.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Summer, Spring

Statistics (STAT)

Offered by the Volgenau School of Engineering.

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course. This policy does not apply to STAT 250, which follows the normal university policy for repeating undergraduate courses.

STAT 250 - Introductory Statistics I
Credits: 3 (NR)
Elementary introduction to statistics. Topics include descriptive statistics, probability, and estimation and hypothesis testing for means and proportions. Statistical software used for assignments.

Fulfills Mason Core requirement in quantitative reasoning.

Prerequisite(s): High school algebra.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

STAT 344 - Probability and Statistics for Engineers and Scientists I

Credits: 3 (NR)
Introduction to probability and statistics with applications to computer science, engineering, operations research, and information technology. Basic concepts of probability, random variables and expectation, Poisson process, bivariate distributions, sums of independent random variables, central limit theorem, sampling distributions, maximum likelihood and unbiased estimators, confidence interval construction, and hypothesis testing.

Prerequisite(s): MATH 114 or MATH 116. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

STAT 346 - Probability for Engineers

Credits: 3 (NR)
Introduction to probability with applications to electrical and computer engineering, operations research, information technology, and economics. Basic concepts of probability, conditional probability, random variables and moments, specific probability distributions, multivariate distributions, moment-generating functions, limit theorems, and sampling distributions.

Prerequisite(s): MATH 213 or MATH 215. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 350 - Introductory Statistics II

Credits: 3 (NR)
Emphasis on applications. Topics include analysis of variance, multiple regression, and nonparametric inference. A statistical computer package is used for data analysis.

Prerequisite(s): STAT 250. Prerequisite enforced by registration system.
STAT 354 - Probability and Statistics for Engineers and Scientists II

Credits: 3 (NR)
Continuation of STAT 344. Multivariate probability distributions, variable transformations, regression, analysis of variance, contingency tables, and nonparametric methods. Applications to quality control, acceptance sampling, and reliability.

Prerequisite(s): STAT 346 and a course in Statistics, or STAT 344. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 362 - Introduction to Computer Statistical Packages

Credits: 3 (NR)
Use of computer packages in statistical analysis of data. Topics include data entry, checking, and manipulation, and use of computer statistical packages for regression and analysis of variance.

Prerequisite(s): STAT 250 or equivalent

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 435 - Analysis of Experimental Data Using SPSS

Credits: 3 (NR)
Statistical methods for analysis of experimental data, including ANOVA and regression. Parametric and nonparametric inference methods appropriate for a variety of experimental designs are presented along with data analysis using SPSS. Intended primarily for researchers in the natural, social, and life sciences.

Prerequisite(s): STAT 250, STAT 344, or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 455 - Experimental Design
Credits: 3 (NR)
Principles of analysis of variance and experimental design. Topics include computation and interpretation of analysis of variance; multiple comparisons; orthogonal contrasts; and design of experiments, including factorial, hierarchical, and split plot designs. Optional topics may include analysis of covariance; partial hierarchical designs; incomplete block designs; principles of blocking and confounding in $2^k$ experiments; or estimation of variance components. Computer statistical packages are used to perform computations.

Prerequisite(s): STAT 350 or STAT 354 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring

**STAT 456 - Applied Regression Analysis**

Credits: 3 (NR)
Introduces statistical modeling with a focus on regression. Topics include: Correlation, simple and multiple regression models, model fitting, variable selection, diagnostic tools, model validation, inference for regression parameters, and matrix forms for multiple regression. Data analysis is emphasized. Computer statistical packages are used to perform computations.

Prerequisite(s): STAT 350 or 354, or equivalent. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**STAT 457 - Applied Nonparametric Statistics**

Credits: 3 (NR)
Introduction to nonparametric methods with applications to the decision and information sciences and operations analysis. Topics covered are testing and estimation for one- and two-sample problems, independent and paired samples, location and dispersion problems, one- and two-way layouts, tests for independence, regression, and discussion of efficiency.

Prerequisite(s): STAT 350 or 354, or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Offered on an irregular basis at the department's discretion.

**STAT 463 - Introduction to Exploratory Data Analysis**

Credits: 3 (NR)
Features statistical graphics, maps and simple models used to bring out patterns in data. Introduces statistical software and addresses data access and import. Presents exploratory strategies motivating data transformations. Stresses the cognitive foundations of good graphics. Graphics include dot plots, box plots, Q-Q plots, parallel coordinate plots, scatterplot matrices and linked views. Exploration includes use of dynamic graphics.
Prerequisite(s): STAT 350 or 354, or equivalent.

**STAT 474 - Introduction to Survey Sampling**

Credits: 3 (NR)
Introduction to design and analysis of sample surveys. Sample designs include simple random sampling; systematic sampling; and stratified, cluster, and multistage sampling. Analytical methods include sample size determination, ratio and regression estimation, imputation for missing data, and nonsampling error adjustment. Practical problems encountered in conducting a survey are discussed. Methods applied to case studies of actual surveys. Class project may be required.

Prerequisite(s): STAT 346 and a course in Statistics, or STAT 344.

Notes: Recommended for students of decision, information, social sciences, and mathematics.

**STAT 498 - Independent Study in Statistics**

Credits: 1-3 (NR)
Directed self-study of special topics of current interest in statistics.

Prerequisite(s): 60 undergraduate credits; must be arranged with instructor and approved by the department chair before registering.

Notes: May be repeated for maximum 6 credits if topics are substantially different.

**STAT 499 - Special Topics in Statistics**

Credits: 3 (NR)
Topics of special interest to undergraduates.

Prerequisite(s): 60 undergraduate credits and permission of instructor; specific prerequisites vary with nature of topic.

Notes: May be repeated for maximum 6 credits if topics substantially differ.
**STAT 501 - SAS Language and Basic Procedures**

Credits: 1 (NR)
Introduction to the SAS Data Step and Base SAS Procedures. Preparation for graduate students in use of SAS for other graduate courses offered by department. Topics include observation and variable structures, data interfaces, formats, functions, and procedures for summarizing and displaying data.

**Prerequisite(s):** Course in statistics and experience with Microsoft OS.

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0
**Grading:** Satisfactory/No Credit
**When Offered:** Spring

---

**STAT 502 - Introduction to SAS Statistical Graphics**

Credits: 1 (NR)
Introduces generating presentation-quality statistical graphics using SAS. Continued preparation beyond STAT 501 for graduate students in the use of SAS for other graduate courses offered by department. Topics include: an overview of ODS Graphics and SAS/GRAPH, graph output options, and in-depth coverage of the ODS Graphics procedures. Traditional SAS/GRAPH procedures are briefly discussed.

**Prerequisite(s):** Course in statistics and working knowledge of SAS.

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0
**Grading:** Satisfactory/No Credit
**When Offered:** Spring

---

**STAT 503 - SAS Macro Language**

Credits: 1 (NR)
Introduction to SAS Macro Language. Continued preparation beyond STAT 501 for graduate students in use of SAS for other graduate courses offered by department. Topics include macro language processing, macro variables, defining and calling macro variables, macro quoting, macro facility error messages, and examples of efficient code using macros.

**Prerequisite(s):** Course in statistics and working knowledge of SAS.

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0
**Grading:** Satisfactory/No Credit
**When Offered:** Spring

---

**STAT 504 - Introduction to SAS/IML**
Credits: 1 (NR)
Introduction to SAS/IML, the matrix language within the SAS environment. Topics include defining matrices, performing standard matrix operations, operating on rows and columns of a data table, and writing efficient SAS/IML programs.

Prerequisite(s): Working knowledge of SAS and matrix algebra.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Offered on an irregular basis at the department's discretion

STAT 505 - Introduction to R

Credits: 1 (NR)
Introduction to R syntax, graphical interface, and basic operations. Preparation for graduate students in use of R for other graduate courses offered by department. Topics include import and export of data; manipulation of R object structures; function creation; package installation; and procedures for simulation, modeling, summarizing data, and producing graphics.

Prerequisite(s): Course in statistics.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Offered on an irregular basis at the department's discretion

STAT 506 - Introduction to SPSS

Credits: 1 (NR)
Introduction to SPSS, a widely-used statistical software package in social sciences. Provides an overview of SPSS procedures for manipulating data; summarizing and displaying data; and analyzing data from a variety of experimental designs.

Prerequisite(s): Course in statistics and experience with Microsoft OS.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Offered on an irregular basis at the department's discretion

STAT 515 - Applied Statistics and Visualization for Analytics

Credits: 3 (NR)
Introduces multivariate regression and random forests for modeling data. Addresses data access, variable selection and model diagnostics. Introduces foundations for visual thinking. Reviews common statistical graphics such as dot plots, box plots, q-q plots. Addresses more advanced methods such as scatterplot matrices enhanced by smoothed or density contours, and search tools for finding graphics with suggestive patterns.

Prerequisite(s): STAT 250 or equivalent.
Notes: Course will introduce R software for analysis. A final project will involve visualization of a real data set.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 535 - Analysis of Experimental Data Using SPSS

Credits: 3 (NR)
Statistical methods for analysis of experimental data, including ANOVA and regression. Parametric and nonparametric inference methods appropriate for a variety of experimental designs are presented along with data analysis using SPSS. Intended primarily for researchers in the natural, social, and life sciences.

Prerequisite(s): STAT 250, STAT 344, or equivalent.

Notes: Can be used to satisfy requirements for certificate in federal statistics, but not MS in statistical science. Certificate program students granted credit for only one of STAT 535 or 554.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 544 - Applied Probability

Credits: 3 (NR)
The axioms of probability, conditional probability, random variables and expectation, multivariate and conditional distributions, conditional expectation, order statistics, transformations, moment generating functions, special distributions, limit theorems.

Prerequisite(s): MATH 213 and STAT 346, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 554 - Applied Statistics

Credits: 3 (NR)
Application of basic statistical techniques. Focus is on the problem (data analysis) rather than on the theory. Topics include one- and two-sample tests and confidence intervals for means and medians, descriptive statistics, goodness-of-fit tests, one- and two-way ANOVA, simultaneous inference, testing variances, regression analysis, and categorical data analysis. Normal theory is introduced first with discussion of what happens when assumptions break down. Alternative robust and nonparametric techniques are presented.

Prerequisite(s): STAT 346 or permission of instructor.

Notes: Certificate program students granted credit for only one of STAT 535 or 554.
STAT 560 - Biostatistical Methods

Credits: 3 (NR)
Focuses on biostatistical aspects of design and analysis of biomedical studies, including epidemiologic observational studies and randomized clinical trials. Topics include randomization principle, confounding, ethics in human experimentation, methods of randomization, stratification, primary outcome analyses, covariate-adjusted analyses, epidemiologic measures, and sample size and power computation.

Equivalent to STAT 660 (2011-2012 Catalog)

Prerequisite(s): STAT 554 or STAT 535; and a working knowledge of a statistical software package, such as SAS or SPSS.

STAT 574 - Survey Sampling I

Credits: 3 (NR)
Design and implementation of sample surveys. Covers components of a survey; probability sampling designs to include simple random, systematic, Bernoulli, proportional to size, stratified, cluster and two-stage sampling; and ratio and regression estimators. Discusses practical problems in conducting a survey. Methods applied to case studies of actual surveys. Class project required.

Prerequisite(s): STAT 346 and a course in Statistics, or STAT 344

STAT 634 - Case Studies in Data Analysis

Credits: 3 (NR)
Examination of a wide variety of case studies illustrating data-driven model building and statistical analysis. With each case study, various methods of data management, data presentation, statistical analysis, and report writing are compared.

Prerequisite(s): STAT 554 and working knowledge of SAS, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall
STAT 645 - Stochastic Processes

Credits: 3 (NR)
Selected applied probability models, including Poisson processes, discrete- and continuous-time Markov chains, renewal and regenerative processes, semi-Markov processes, queuing and inventory systems, reliability theory, and stochastic networks. Emphasis on applications in practice, as well as analytical models.

Equivalent to OR 645

Prerequisite(s): OR 542 or STAT 544, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 652 - Statistical Inference

Credits: 3 (NR)
Fundamental principles of estimation and hypothesis testing. Topics include limiting distributions and stochastic convergence, sufficient statistics, exponential families, statistical decision theory and optimality for point estimation, Bayesian methods, maximum likelihood, asymptotic results, interval estimation, optimal tests of statistical hypotheses, and likelihood ratio tests.

Equivalent to CSI 672.

Prerequisite(s): STAT 544 with a grade of B- or better, and STAT 554 with grade of B- or better. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

STAT 655 - Analysis of Variance

Credits: 3 (NR)
Single and multifactor analysis of variance, planning sample sizes, introduction to the design of experiments, random block and Latin square designs, and analysis of covariance.

Prerequisite(s): STAT 544, STAT 554, and working knowledge of SAS. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring

STAT 656 - Regression Analysis

George Mason University 2014-2015 Official University Catalog 3381
Simple and multiple linear regression, polynomial regression, general linear models, subset selection, step-wise regression, and model selection. Also covered are multicollinearity, diagnostics, and model building as well as the theory and practice of regression analysis.

Equivalent to CSI 676

Prerequisite(s): STAT 544, STAT 554, matrix algebra, and working knowledge of SAS. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 657 - Nonparametric Statistics

Credits: 3 (NR)
Distribution-free procedures for making inferences about one or more samples. Tests for lack of independence, association or trend, and monotone alternatives are included. Measures of association in bivariate samples and multiple classifications are discussed. Both theory and applications are covered. Students are introduced to appropriate statistical software.

Prerequisite(s): STAT 544 and 554. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Fall

STAT 658 - Time Series Analysis and Forecasting

Credits: 3 (NR)
Modeling stationary and nonstationary processes, autoregressive, moving average and mixed model processes, autocovariance functions, autocorrelation functions, partial autocorrelation functions, spectral density functions, identification of models, estimation of model parameters, and forecasting techniques.

Equivalent to CSI 678.

Prerequisite(s): STAT 544 or equivalent. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Fall

STAT 662 - Multivariate Statistical Methods

Credits: 3 (NR)
Standard techniques of applied multivariate analysis. Topics include review of matrices, T square tests, principle components, multiple regression and general linear models, analysis of variance and covariance, multivariate ANOVA, canonical correlation,
discriminant analysis, classification, factor analysis, clustering, and multidimensional scaling. Computer implementation via a statistical package is an integral part of the course.

**Prerequisite(s):** STAT 544, STAT 554, matrix algebra, and working knowledge of SAS. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Alternate Spring

**STAT 663 - Statistical Graphics and Data Exploration I**

Credits: 3 (NR)  
Introduces statistical graphics that show distribution features and functional relationships in the presence of noise. Introduces cognitive research guidance for graphics design and reasoning. Stresses quantitative comparisons from multiple perspectives. Features new micromaps designs for spatial and temporal comparisons. Introduces R, the grammar of graphics, and dynamic graphics software.

Equivalent to CSI 773

**Prerequisite(s):** STAT 554 and a programming course. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**STAT 664 - Bayesian Inference and Decision Theory**

Credits: 3 (NR)  
Introduces decision theory and relationship to Bayesian statistical inference. Teaches commonalities, differences between Bayesian and frequentist approaches to statistical inference, how to approach a statistics problem from the Bayesian perspective and how to combine data with informed expert judgment in a sound way to derive useful and policy-relevant conclusions. Teaches necessary theory to develop firm understanding of when and how to apply Bayesian and frequentist methods, and practical procedures for inference, hypothesis testing, and developing statistical models for phenomena. Teaches fundamentals of Bayesian theory of inference, including probability as a representation for degrees of belief, likelihood principle, use of Bayes Rule to revise beliefs based on evidence, conjugate prior distributions for common statistical models, and methods for approximating the posterior distribution. Introduces graphical models for constructing complex probability and decision models from modular components.

Equivalent to SYST 664/CSI 674

**Prerequisite(s):** STAT 544 or 554, or equivalent.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Alternate Spring
STAT 665 - Categorical Data Analysis

Credits: 3 (NR)
Analyses cross-classified categorical data in two and higher dimensions. Topics include association tests and measures of association in two- and three-dimensional contingency tables, logistic regression, and log linear models. SAS is used extensively for data analysis.

Prerequisite(s): STAT 656 and working knowledge of SAS. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring

STAT 668 - Survival Analysis

Credits: 3 (NR)
Survival Analysis is a class of statistical methods for studying the occurrence and timing of events. In medical research, the events may be deaths, and the objective is to determine factors affecting survival times of patients following treatment, usually in the setting of clinical trials. Methods can also be applied to the social and natural sciences and engineering where they are known by other names (reliability, event history analysis). Concepts of censored data, time-dependent variables, and survivor and hazard functions are central. Nonparametric methods for comparing two or more groups of survival data are studied. The Cox regression model (proportional hazards model), Weibull model, and the accelerated failure time model are studied in detail. Concepts are applied to analysis of real data from major medical studies using SAS software.

Prerequisite(s): STAT 544, STAT 554, and working knowledge of SAS. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Fall

STAT 674 - Survey Sampling II

Credits: 3 (NR)
Continuation of STAT 574. Regression estimators for complex sampling designs, domain estimation, two-phase sampling, weighting adjustments for nonresponse, imputation, nonresponse models, measurement error models, introduction to variance estimation. Applications to case studies of actual surveys.

Prerequisite(s): STAT 574. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Offered on an irregular basis at the department’s discretion.

STAT 689 - Topics in Statistics
Credits: 1-3 (RD)
Special topics of interest to graduate students in statistics.

Equivalent to STAT 789 (2011-2012 Catalog)

Prerequisite(s): Permission of instructor; specific prerequisites vary with the nature of the topic.

Notes: May be repeated for maximum of 6 credits if topics substantially differ.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

STAT 719 - Graphical Models for Inference and Decision Making

Credits: 3 (NR)
Theory and methods for inference and decision making in environments characterized by uncertain information. Covers graphical probability and decision models. Studies approaches to representing knowledge about uncertain phenomena, and planning and acting under uncertainty. Topics include knowledge engineering, exact and approximate inference in graphical models, learning in graphical models, temporal reasoning, planning, and decision-making. Practical model-building experience provided. Students apply what they learn to a project of their own choosing.

Equivalent to OR 719/CSI 775

Prerequisite(s): STAT 652 or SYST/STAT 664, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring

STAT 751 - Computational Statistics

Credits: 3 (NR)
Covers basic computationally intensive statistical methods and related methods, which would not be feasible without modern computational resources. Covers nonparametric density estimation including kernel methods, orthogonal series methods and multivariate methods, recursive methods, cross validation, nonparametric regression, penalized smoothing splines, the jackknife and bootstrapping, computational aspects of exploratory methods including the grand tour, projection pursuit, alternating conditional expectations, and inverse regression methods.

Equivalent to CSI 771

Prerequisite(s): STAT 544, STAT 554, and STAT 652. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Fall

STAT 756 - Alternative Regression Methods
Credits: 3 (NR)  
Presents several modern regression methodologies that are useful in data analysis when some of the assumptions of linear regression theory fail to hold. Topics include non-linear regression, quantile regression, robust regression, and computational methods for fitting these models.

**Prerequisite(s):** STAT 656, and working knowledge of SAS. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Alternate Spring

### STAT 758 - Advanced Time Series Analysis

Credits: 3 (NR)  
Mathematical modeling and methods for model identification and forecasting of nonstationary and seasonal time series data (ARIMA models), multivariate time series, and state-space models.

**Prerequisite(s):** STAT 658. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Offered on an irregular basis at the department’s discretion.

### STAT 760 - Advanced Biostatistical Methods

Credits: 3 (NR)  
Advanced statistical methods in the drug development process. Provides the theoretical statistical basis for the design and analysis of pharmaceutical clinical trials. Topics include the theory of randomization, randomization-based inference, restricted, response-adaptive, and covariate-adaptive randomization, the modern theory of group sequential monitoring, statistical aspects of determination of dose-response relationships.

**Prerequisite(s):** STAT 652, STAT 656, and working knowledge of statistical programming language. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Alternate Spring

### STAT 763 - Statistical Graphics and Data Exploration II

Credits: 3 (NR)  
Addresses data set size and human comprehension challenges. Introduces case and variable reduction methods, and overview production. Incorporates cognitive science guidance. Utilizes data mining models and visual analytic algorithms to find patterns and prioritize graphics. Addresses applications from both information and scientific visualization. Tracks advances in web graphics including citizen science projects harnessing the visual power of thousands of people.

**Prerequisite(s):** STAT 663 or permission of instructor. Prerequisite enforced by registration system.
STAT 765 - Advanced Topics in Categorical Data Analysis

Credits: 3 (NR)
Covers advanced techniques for categorical data analysis and the theoretical basis for the analysis of categorical data. Topics include: models for multinomial responses, matched pairs, repeated measures, and ordinal data; random effects models; asymptotic theory for parametric models; theory for maximum likelihood and alternative estimation methods; and exact inference. Statistical software packages are used extensively for data analysis.

Prerequisite(s): STAT 652 and STAT 665. Prerequisite enforced by registration system.

STAT 771 - Spatial Data Analysis

Credits: 3 (NR)
Presents analysis techniques for spatially-indexed or spatially-correlated data that arise in many areas of science, including medicine, transportation, and atmospheric sciences. Focus is on data analysis rather than theory, though theory will necessarily be covered. Topics include analysis of point patterns, trend and surface estimation, and spatial regression.

Prerequisite(s): STAT 652, STAT 656, and working knowledge of R and SAS. Prerequisite enforced by registration system.

STAT 772 - Statistical Learning

Credits: 3 (NR)
The course focuses on statistical learning theory by introducing the statistical and optimization background essential for developing new efficient statistical learning algorithms. Also discusses applications of statistical learning algorithms to the solution of important problems in many areas of science.

Equivalent to CSI 772

Prerequisite(s): STAT 652 or CSI 672, or permission of instructor. Prerequisite enforced by registration system.
STAT 773 - Statistical Methods for Longitudinal Data Analysis

Credits: 3 (NR)
Prepresents modern statistical approaches to the analysis of longitudinal data, i.e., data collected repeatedly on experimental units over time (or other conditions). Topics include linear mixed effects models, generalized linear models for correlated data (including generalized estimating equations), and computational issues and methods for fitting models.

Prerequisite(s): STAT 652, STAT 656, and working knowledge of SAS. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring

STAT 778 - Algorithms and Simulation for Statistics in C

Credits: 3 (NR)
Introduces high level simulations and algorithms for complex statistical problems using C. Topics include: pointers, arrays, random number generation, iterative numerical algorithms, sorting, matrix operation, numerical integration and Bayesian computation, advanced data structure for complex problems, and parallel processing. Complex programming problems related to statistical modeling and inference are studied.

Prerequisite(s): STAT 652 or CSI 672, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

STAT 796 - Independent Studies/Directed Readings

Credits: 1-3 (NR)
Reading and research on a specific topic in statistics under guidance of graduate faculty member.

Prerequisite(s): Permission of instructor and department’s graduate coordinator.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

STAT 798 - Master's Research Project

Credits: 3 (NR)
Project chosen and completed under guidance of graduate faculty member that results in acceptable technical report.

Prerequisite(s): 9 graduate credits, and permission of instructor.
STAT 799 - Master's Thesis

Credits: 1-6 (RD)
Project chosen and completed under guidance of graduate faculty member that results in acceptable technical report and oral defense.

Prerequisite(s): 9 graduate credits, and permission of instructor.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

STAT 871 - Statistical Data Mining

Credits: 3 (NR)
Covers basic concepts, computational complexity, data preparation and compression, databases and SQL, rule-based machine learning and probability, density estimation, exploratory data analysis, cluster analysis and pattern recognition, artificial neural networks, classification and regression trees, correlation and nonparametric regression, time series, and visual data mining.

Prerequisite(s): STAT 554 or 663, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Offered on an irregular basis at the department's discretion

STAT 876 - Measure and Linear Spaces

Credits: 3 (NR)
Measure theory and integration; convergence theorems; theory of linear spaces and functional analysis; and probability theory. The theory of linear spaces includes normed linear spaces, inner product spaces, Banach and Hilbert spaces, Sobolev spaces, and reproducing kernels. Topics include wavelets, applications to stochastic processes, and nonparametric functional inference.

Equivalent to CSI 876

Prerequisite(s): STAT 544 and MATH 315.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Offered on an irregular basis at the department's discretion

STAT 877 - Geometric Methods in Statistics
Develops foundations of geometric methods for statistics. Topics include n-dimension Euclidian geometry; projective geometry; differential geometry, including curves, surfaces, and n-dimensional differentiable manifolds; and computational geometry, including computation of convex hulls, tessellations of two-, three-, and n-dimensional spaces, and finite element grid generation. Examples include applications to scientific visualization.

Equivalent to CSI 877

Prerequisite(s): STAT 751 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Offered on an irregular basis at the department's discretion

STAT 889 - Advanced Topics in Statistics

Credits: 3 (RD)
Advanced topics not occurring in regular sequence.

Prerequisite(s): Doctoral standing and permission of instructor.

Notes: May be repeated for a maximum of 12 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

STAT 896 - Advanced Directed Reading

Credits: 3 (NR)
Individualized study with a graduate faculty member in the Department of Statistics. Syllabus and grading criteria must be preapproved by the PhD in Statistical Science Program Director.

Prerequisite(s): Admission to PhD in Statistical Science Program. Permission of PhD in Statistical Science Program Director and permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

STAT 971 - Probability Theory

Credits: 3 (NR)
A rigorous measure-theoretic treatment of probability. Includes expectation, distributions, laws of large numbers and central limit theorems for independent random variables, characteristic function methods, conditional expectations, martingales, strong and weak convergence, and Markov chains.

Equivalent to CSI 971.
**Prerequisite(s):** STAT 544 and MATH 315. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**STAT 972 - Mathematical Statistics I**

Credits: 3 (NR)  
Focuses on theory of estimation. Includes method of moments, least squares, maximum likelihood, and maximum entropy methods. Details methods of minimum variance unbiased estimation. Topics include sufficiency and completeness of statistics, Fisher information, Cramer-Rao bounds, Bhattacharyya bounds, asymptotic consistency and distributions, statistical decision theory, minimax and Bayesian decision rules, and applications to engineering and scientific problems.

Equivalent to CSI 972.

**Prerequisite(s):** STAT 652/CSI 672 or equivalent. Prerequisite enforced by registration system.

**Corequisite(s):** STAT 876/CSI 876 or STAT 971/CSI 971.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**STAT 973 - Mathematical Statistics II**

Credits: 3 (NR)  
Continuation of STAT 972/CSI 972. Concentrates on theory of hypothesis testing. Topics include characterizing decision process, simple versus simple hypothesis tests, Neyman-Pearson Lemma, uniformly most powerful tests, unbiasedness and invariance of tests, and randomized and sequential tests. Applications of testing principles made to situations in normal distribution family and other families of distributions.

Equivalent to CSI 973

**Prerequisite(s):** STAT 972/CSI 972. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**STAT 990 - Dissertation Topic Presentation**

Credits: 1 (NR)  
Students put together a professional presentation of a research proposal and present it for critique to fellow students and interested faculty.

Equivalent to IT 990, CS 990.
Prerequisite(s): Completion of all course requirements for PhD, or permission of instructor.

Notes: May be repeated with change of research topic, but credit towards doctoral degree is given once.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 998 - Doctoral Dissertation Proposal

Credits: 1-12 (RD)
Work on research proposal that forms basis for doctoral dissertation.

Notes: May be repeated. No more than 24 credits of STAT 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

STAT 999 - Doctoral Dissertation

Credits: 1-12 (RD)
Formal record of commitment to doctoral dissertation research under direction of faculty member in statistics.

Prerequisite(s): Admission to candidacy.

Notes: May be repeated as needed; no more than 24 credits of STAT 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

Systems Engineering (SYST)

Offered by the Volgenau School of Engineering.

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

SYST 101 - Understanding Systems Engineering

Credits: 3 (NR)
Introduces systems engineering and curriculum for BS in field. Introduces large and small systems, and explains them through
some hands-on experiences. Key concepts include understanding requirements for system and translation of system-level requirements to component-level requirements. Several different kinds of example systems presented and discussed: objectives, major components, how system works, and major design issues. Each student gives similar presentation on system of choice. Students working in groups design, develop, and test system, and give oral presentation. Students responsible for writing several short papers on curriculum and presentations they have heard.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

**SYST 198 - Independent Study in Systems Engineering**

Credits: 1-3 (RT)  
Must be arranged with instructor and approved by department chair before registering. Directed self-study of special topics of current interest in systems engineering.

**Notes:** May be repeated for maximum 6 credits if topics are substantially different.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

**SYST 202 - Engineering Systems in a Complex World**

Credits: 3 (NR)  
This course introduces students to the study of engineering systems as a means of understanding larger historical trends in a global society. Students will use case studies and historical analyses to think strategically and globally about the management and execution of complex systems in the context of culture, environment, politics and economics, and learn how to employ such analyses as decision-making tools for leadership. Students will be required to critically analyze articles and books, and work in groups to investigate and present topics of current national and international relevance.

Equivalent to SYST 100 (2013-2014 Catalog); HIST 202.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

**SYST 210 - Systems Design**

Credits: 3 (NR)  
Systems engineering design and integration process, development of functional, physical, and operational architectures. Emphasizes requirements engineering, functional modeling for design, and formulation and analysis of physical design alternatives. Introduces methods, software tools for systems engineering design.

**Prerequisite(s):** SYST 101 or sophomore standing.

**Hours of Lecture or Seminar per week:** 3
SYST 220 - Dynamical Systems I

Credits: 3 (NR)
Introduces modeling of dynamical systems. Formulation of mathematical models from system descriptions, including computer, biological, economic, transportation, and mechanical systems. Analytical and numerical methods for solving models and studying their behavior. Discrete-time and continuous time systems. Linear and nonlinear systems. Introduction to computer modeling using MATLAB.

Prerequisite(s): MATH 114 and PHYS 160. Prerequisite enforced by registration system.

Corequisite(s): MATH 203, and SYST 221.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 221 - Systems Modeling Laboratory

Credits: 1 (NR)
Companion laboratory to SYST 220. Emphasizes system design and analysis using computer modeling environment MATLAB. Simulation and numerical solutions of continuous dynamic systems. Use of built-in functions and construction of macros. Graphical presentation of results.

Prerequisite(s): CS 112.

Corequisite(s): SYST 220.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Spring

SYST 320 - Dynamical Systems II

Credits: 3 (NR)
Continuation of SYST 220 with emphasis in continuous-time systems. Translational, rotational, and electrical systems. Block diagrams and state variable models. Systems analysis in time domain and frequency domain. Analysis of control systems.

Prerequisite(s): SYST 220, MATH 203, MATH 214, PHYS 260. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall
**SYST 330 - Systems Methods**

Credits: 3 (NR)
Analysis methods of system engineering design and management. Decision analysis, economic models and evaluation, optimization in design and operations, probability and statistical methods, queuing theory and analysis, management control techniques, reliability and maintainability analysis, and economic and life-cycle cost analysis. Laboratory exercise with different software programs included.

**Prerequisite(s):** MATH 114 Prerequisite enforced by registration system.

**Corequisite(s):** STAT 344 and SYST 221.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring

**SYST 335 - Discrete Systems Modeling and Simulation**

Credits: 3 (NR)
Introduces basic concepts of modeling complex discrete systems by computer simulation. Topics include Monte-Carlo methods, discrete-event modeling, specialized simulation software, and statistics of input and output analysis.

Equivalent to OR 335

**Prerequisite(s):** CS 112 or equivalent, and STAT 344, or STAT 346, or MATH 351. Prerequisite enforced by registration system.

**Corequisite(s):** CS 211.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring

**SYST 371 - Systems Engineering Management**

Credits: 3 (NR)
Study of basics of systems engineering management. Includes engineering economics, planning, organizing, staffing, monitoring, and controlling process of designing, developing, and producing system to meet stated need in effective and efficient manner. Discusses management tools, processes, and procedures, including various engineering documentation templates, managerial processes, and dealing with personnel issues.

Prerequisite enforced by registration system.

**Corequisite(s):** SYST 210 and SYST 330.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring
SYST 420 - Network Analysis

Credits: 3 (NR)
Network nomenclature. Elementary graph theory. Linear and nonlinear network models: multicommodity flow, mathematical games and equilibria on networks, network design and control; dynamic network models; applications to transportation, telecommunications, data communications, and water resource systems.

Prerequisite(s): OR 441 and MATH 213. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 421 - Classical Systems and Control Theory

Credits: 3 (NR)

Equivalent to ECE 421

Prerequisite(s): Grade of C or better in ECE 220.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

SYST 438 - Analytics for Financial Engineering and Econometrics

Credits: 3 (NR)
Introduces the basic analytics for financial engineering and econometrics; topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, stochastic dynamic models and financial time series analysis. Provides a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data.

Corequisite(s): STAT 354.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring, Fall

SYST 460 - Introduction to Air Traffic Control
Credits: 3 (NR)
Introduction to Air Traffic Control (ATC) for those who plan professions in the air transportation industry. Surveys the entire field, presenting the history of ATC and how it came to be as it is, the technology on which the system is based, the procedures used by controllers to meet the safety and efficiency goals of the system, the organizational structure of the FAA, challenges facing the system, and means under investigation to meet these challenges. Some fieldwork will be required to acquire and analyze airport operational data. A brief introduction to airport design will be discussed.

Prerequisite(s): Junior standing or graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 461 - Air Transportation System Engineering

Credits: 3 (NR)
Focuses on the theory and practice of system engineering in a national air transportation system. Stresses the application of mathematical techniques to analyze and design complex network transportation systems, airports, airspace, airline schedules, and traffic flow.

Prerequisite(s): SYST 460 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 462 - Flight Training Lab I

Credits: 3 (NR)
This course fulfills the requirements of 14 CFR, Section 141, Appendix B for obtaining a private pilot certificate with airplane category, single engine land class rating. Flight Training 1 will include the flight training up to and including maneuvering and navigating the aircraft.

Corequisite(s): SYST 460.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

SYST 463 - Flight Training Lab II

Credits: 3 (NR)
This course fulfills the requirements of 14 CFR, Section 141, Appendix B for obtaining a private pilot certificate with airplane category, Airplane - Single Engine Land class rating. Flight Training II will include the flight training up to and including the dual and solo flight instruction in cross-country navigation by pilotage, dead reckoning, and use of VOR, NDB, and HSI. Flight test preparation for private pilot certification.
Prerequisite(s): SYST 462.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 465 - Pricing in Optimization and Game Theory

Credits: 3 (NR)
Allocation of limited resources among competing activities to maximize the outcome or minimization of expenses required to produce a given assortment of goods and services are two typical problems faced by any economic institution. Mathematical modeling of such problems and finding efficient mathematical tools for solving them are two main goals of modern optimization theory. Pricing limited resources, goods, and services is the key instrument for theoretical analysis of complex economical systems. Pricing theory can also give rise to numerical methods for finding optimal solutions and economic equilibrium. Fundamental tools in pricing theory are the classical Lagrangian and Lagrange multipliers for constrained optimization. Covers the basic ideas and methods of linear programming and matrix games. Particular emphasis to pricing for both theoretical analysis and numerical methods.

Equivalent to ECON 496/MATH 493

Prerequisite(s): MATH 203 or 216, and OR 441, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 469 - Human Computer Interaction

Credits: 3 (NR)
Covers principles of human-computer interaction, including information processing design, cognitive models, ergonomics, and design metaphors. Students learn to evaluate interface design in terms of effectiveness, efficiency, and cost.

Prerequisite(s): STAT 250 and IT 108 or IT 206. Prerequisite enforced by registration system.

Notes: Students who receive credit for SYST 470 may not receive credit for this course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 470 - Human Factors Engineering

Credits: 3 (NR)
Human information processing, inferential analysis, biases and heuristics in human information processing, support systems to aid in human information processing, human-system interaction, and software systems engineering considerations.

Prerequisite(s): SYST 210 and STAT 344. Prerequisite enforced by registration system.
SYST 473 - Decision and Risk Analysis

Credits: 3 (NR)
Studies analytic techniques for rational decision making that address uncertainty, conflicting objectives, and risk attitudes. Covers modeling uncertainty; rational decision making principles; representing decision problems with value trees, decision trees, and influence diagrams; solving value hierarchies, decision trees and influence diagrams; defining and calculating the value of information; incorporating risk attitudes into the analysis; and conducting sensitivity analyses.

Prerequisite(s): STAT 344 or STAT 346 or MATH 351 or grade of C or better in STAT 250 Prerequisite enforced by registration system.

SYST 480 - Economic Systems Design I: Principles and Experiments

Credits: 3 (NR)
Introduces design principles used in developing systems used to allocate resources. Students required to participate in experiment demonstrations of different allocation mechanisms. Students are also exposed to experimental methods in economics and market design.

Equivalent to ECON 440

Prerequisite(s): OR 441
Corequisite(s): SYST 465.

SYST 488 - Financial Systems Engineering

Credits: 3 (NR)
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito's formula, and Black-Scholes model.

Prerequisite(s): OR 441.

Hours of Lecture or Seminar per week: 3

SYST 489 - Senior Seminar

Credits: 3 (NR)
Introduces several important topics in systems engineering, providing additional experience in writing and giving presentations, and obtaining feedback on curriculum for BS in systems engineering. Several lectures devoted to ethics; writing and making presentations also covered. Students attend technical lectures and write paper. Students also required to write long paper on new technology. Instructor and guest lecturers present material not part of required course load to expand horizons. Examples are "knowledge-based" design, enterprise-wide reengineering, electronic commerce, and optimization by "natural analogy" (simulated annealing, neural networks, genetic algorithms). In addition, students work in teams to critique and redesign curriculum. Each group delivers written product, and provides at least one briefing to class. Best critique and redesign presented to faculty.

Fulfills writing intensive requirement in the major.

Corequisite(s): SYST 490

SYST 490 - Senior Design Project I

Credits: 3 (NR)
First part of capstone course in systems engineering program. Students apply knowledge they have gained to group project. During first semester, students perform concept definition and requirements analysis. Plan for carrying out project is developed, culminating in proposal presented to faculty at end of semester.

Prerequisite(s): Grade of C or better in SYST 335, grade of C or better in SYST 371, and 90 satisfactory credits toward BS in systems engineering. Prerequisite enforced by registration system.

Corequisite(s): SYST 320, SYST 470, SYST 473, and OR 441.

SYST 491 - Industrial Project

Credits: 1-3 (NR)
Semester-long work experience in systems engineering in industrial or governmental organization. Work supervised jointly by systems engineer from sponsoring organization and department faculty member. Project and arrangements for supervision must be approved by student's faculty advisor. Periodic reports, written final report, and presentation are required.

Prerequisite(s): 75 credits toward BS in Systems Engineering; SYST 330; GPA of at least 3.00; must be arranged with instructor
and approved by department faculty chair before registering.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 3-9

**SYST 495 - Senior Design Project II**

Credits: 3 (NR)  
Second part of capstone course. Design project plans formulated in SYST 490 are reviewed and modified. Additional instruction on documentation and project management is given. Design project completed; formal report prepared, presented, and evaluated. Students are strongly recommended to take STAT 354 before enrolling in STST 490/495.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** Grade of C or better in SYST 490.

**Corequisite(s):** SYST 330, STAT 354.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 2  
**When Offered:** Spring

**SYST 498 - Independent Study in Systems Engineering**

Credits: 1-3 (NR)  
Directed self-study of special topics of current interest in systems engineering.

**Prerequisite(s):** 60 credits toward BS in systems engineering, and GPA of at least 3.00; must be arranged with instructor and approved by department chair before registering.

**Hours of Lecture or Seminar per week:** 1-4  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

**SYST 499 - Special Topics in Systems Engineering**

Credits: 3 (NR)  
Topics of special interest to undergraduates.

**Prerequisite(s):** 60 credits toward BS in systems engineering; specific prerequisites vary with nature of topic.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SYST 500 - Quantitative Foundations for Systems Engineering**
Credits: 3 (NR)
Provides quantitative foundations necessary for core courses in systems engineering and operations research master's program, and certificate program in C4I. Topics include vectors and matrices, infinite series, partial differentiation, multiple integrals, differential and difference equations; linear systems; Laplace and Z-transforms, and probability theory. Students receive graduate credit for this course, which, when used on plan of study, extends minimum credit requirements for degree.

Equivalent to CSI 600

Prerequisite(s): MATH 203, 213.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**SYST 505 - Systems Engineering Principles**

Credits: 3 (NR)
This serves as a foundation for the other courses in the MS/SE curriculum. During this course, the different components of the systems life cycle will be explored. Basic principles including requirements, design frameworks, functional systems, models, qualification strategy, maintenance and disposal will be covered. Students will gain practical knowledge concerning this subject by modeling functional, state and object primitives.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**SYST 508 - Complex Systems Engineering Management**

Credits: 3 (NR)
Introduces the organizational, economic, technological and societal factors (POETS) that apply to the development of large-scale, complex mega-systems, and shows that "one size does not fit all" when it comes to the project management of mega-systems.

Prerequisite(s): Graduate standing.

Notes: Course cannot be applied for credit towards the MS in Systems Engineering degree.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**SYST 510 - Systems Definition and Cost Modeling**

Credits: 3 (NR)
Comprehensive examination of methods and processes for the identification and representation of system requirements. Investigation of the systems acquisition life cycle with emphasis on requirements definition, including functional problem analysis. Examination of the systems engineering definition phase including requirements, problem analysis, definition, and functional economics. Specification of functional and nonfunctional requirements, and associated requirements proto-typing.
Functional economic analysis, including the use of prevailing cost estimation models and planning and control of common operating environments. Lecture and group project including creation of requirements and use of cost estimation model.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 512 - Systems Engineering for Design and Development

Credits: 3 (NR)

Prerequisite(s): SYST 510 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 513 - Total Systems Engineering, Reengineering and Enterprise Integration

Credits: 3 (NR)
Principles of strategic quality, including TQM. Quality standards including ISO9000 and 14000. Organizational leadership, cultures, and process maturity, reengineering. Quality, organization learning, and reengineering approaches to enable information integration and management and environment and framework integration in the systems engineering of knowledge intensive systems. Emphasis is placed on the role of integrated product and process design teams, standard and commercial off-the-shelf products in enterprise integration. Architecture-driven system characteristics are studied, as is transition management of legacy systems.

Prerequisite(s): SYST 510 or 520.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 520 - System Engineering Design

Credits: 3 (NR)
System design and integration methods are studied and practiced, including structured analysis and object-oriented based techniques. Life cycle of systems is addressed, including definition and analysis of life cycle requirements. Software tools are introduced and used for the systems engineering cycle. Identification of preliminary architectures. Students are expected to develop a system design for a system of their choice using both the structured analysis and object-oriented techniques presented
in class and they will make presentations on these designs.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 521 - Network Analysis

Credits: 3 (NR)
Network nomenclature. Elementary graph theory. Linear and nonlinear network models: multi-commodity flow, mathematical
games and equilibria on networks, network design and control. Dynamic network models. Applications to transportation,
telecommunications, data communications, and water resource systems.

Equivalent to OR 643

Prerequisite(s): MATH 213 and 203 or equivalent; OR 441 or 541.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 530 - Systems Engineering Management I

Credits: 3 (NR)
Provides techniques for evaluating cost and operational effectiveness of system designs and systems management strategies.
Discusses performance measurement, work breakdown structures, cost estimating, quality management, configuration
management, standards, and case studies of systems from different application areas.

Prerequisite(s): SYST 510.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 538 - Analytics for Financial Engineering and Econometrics

Credits: 3 (NR)
Introduces the basic analytics for financial engineering and econometrics, topics include financial transactions and econometric
data management, correlation, linear and multiple regressions for financial and economic predictions, stochastic dynamic models
and financial time series analysis. It will provide a foundation of basic theory and methodology as well as applied examples with
techniques to analyzing large financial and econometric data.

Equivalent to OR 538.

Prerequisite(s): STAT 515 or STAT 544.
Notes: Course cannot be applied for credit towards the MS in Operations Research degree.

**SYST 540 - Analysis for Systems Management**

Credits: 3 (NR)
Operations research techniques and their application to managerial decision making. Mathematical programming, Markov processes, queuing theory, inventory models, PERT, CPM, and computer simulation are covered, as well as use of contemporary computer software for problem solving. Case-study approach to problem solving is used.

Equivalent to OR 540

Prerequisite(s): MATH 108 and STAT 250 or DESC 210; or equivalent.

Notes: Students who have taken OR 541 or OR 542 and OR MS majors do not receive credit.

**SYST 542 - Decision Support Systems Engineering**

Credits: 3 (NR)
Studies design of computerized systems to support individual or organizational decisions. Teaches systems engineering approach to decision support system (DSS) development. DSS is end product of development process, and process is key to successfully integrating DSS into organization. Any DSS is built on a theory (usually implicit) of what makes for successful decision support in given context. Empirical evaluation of specific DSS and the underlying theory should be carried on throughout development process. Course examines prevailing theories of decision support, considers issues in obtaining empirical validation for theory, and discusses empirical support that exists for theories considered. Students design decision support system for semester project.

Equivalent to EEP 602

Prerequisite(s): SYST 301 or graduate standing.

**SYST 560 - Introduction to Air Traffic Control**

Credits: 3 (NR)
Introduction for those who plan professions in aviation industry. Surveys entire field, presenting history of ATC and how it came to be, technology on which system is based, procedures used by controllers to meet safety and efficiency goals, organizational
structure of the FAA, challenges facing system, and means under investigation to meet these challenges. Involves some field work for data collection and analysis. Class project requiring system simulation required.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 563 - Research Methods in Systems Engineering and Information Technology

Credits: 3 (NR)
Provides foundation for one of the most important activities in systems engineering: information gathering to support drawing conclusions and making decisions about design options and process improvements. Develops understanding of scientific process, use of empirical evidence to support and refute scientific hypotheses, and use of scientific information in decision-making. Covers different sources of scientific evidence: designed experiments, quasi-experiments, field studies, surveys, and case studies. Discusses process of formulating testable hypotheses, and methods of measurement including approaches to measuring soft, hard-to-quantify factors. Presentation of results is discussed. Students do project involving empirical research.

Prerequisite(s): STAT 344 and 354, or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 573 - Decision and Risk Analysis

Credits: 3 (NR)
Study of analytic techniques for rational decision making that address uncertainty, conflicting objectives, and risk attitudes. Covers modeling uncertainty; rational decision-making principles; representing decision problems with value trees, decision trees, and influence diagrams; solving value hierarchies, decision trees, and influence diagrams; defining and calculating the value of information; incorporating risk attitudes into the analysis; and conducting sensitivity analysis.

Prerequisite(s): STAT 346 or equivalent.

Notes: Offered concurrently with SYST 473. Students may not receive credit for both SYST 473 and 573.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 574 - Quality Control and Process Management

Credits: 3 (NR)
Provides fundamentals of quality control and process management methodologies that are applicable in manufacturing industries. Introduces the basic concepts of engineering process and product quality management techniques. Provides exposition of fundamentals of lean Six Sigma and total quality management and maintainability.
Equivalent to OR 574

**Prerequisite(s):** Graduate standing or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SYST 576 - Manufacturing Systems Analysis**

Credits: 3 (NR)  
Provides fundamentals of modeling and analysis of general manufacturing systems that are also applicable to semiconductor manufacturing. Introduces the basic concepts of scheduling, inventory control, and enterprise resource management.

Equivalent to OR 576

**Prerequisite(s):** Graduate standing or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SYST 580 - Introduction to C4I Systems**

Credits: 3 (NR)  
This course provides a high-level introduction to fundamental principles of Command, Control, Communication, Computing, and Intelligence (C4I). The principles and techniques are applicable to a wide range of civilian and military situations. The sensing, fusion, and situation assessment processes for decision making as well as the concepts of modeling, simulation, and C4 architectures are discussed. Several cases studies of C4I systems are also included.

**Prerequisite(s):** Graduate standing.

**Notes:** Students who take SYST 680 may not take SYST 580.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**SYST 584 - Heterogeneous Data Fusion**

Credits: 3 (NR)  
Introduces the theory, design and implementation of multi-source information fusion systems in various domains. The course covers distinct technologies for combining data from multiple, heterogeneous sources and performing inferences in support to applications such as cyber security, Semantic Web, decision support systems, situational awareness, intrusion detection, crisis management, and others. The technical content is largely multi-disciplinary, encompassing disciplines such as knowledge engineering, ontologies, statistical learning, artificial intelligence, and data mining.
Prerequisite(s): STAT 515 or STAT 544.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 588 - Financial Systems Engineering I: Introduction to Options, Futures, and Derivatives

Credits: 3 (NR)
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito's formula, and Black-Scholes model.

Equivalent to OR 588.

Prerequisite(s): Eng. or Math Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring.

SYST 611 - System Methodology and Modeling

Credits: 3 (NR)
Provides broad yet rigorous foundations and applications of dynamic modeling. Emphasizes methodologies used across various disciplines. Topics include modeling and analysis of time-driven and event-driven, linear and nonlinear systems. The applications are presented with real-world example systems. Methodologies address dynamic systems using the concepts of composition, abstraction, execution, and performance. The issues of stochastic modeling and decision analysis are also covered.

Prerequisite(s): SYST 500 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 618 - Model-based Systems Engineering

Credits: 3 (NR)
Model-based Systems Engineering (MBSE) provides a formalized application of modeling to support the engineering of systems. The purpose of the course to study and practice the leading methodologies for MBSE and illustrate the MBSE approaches in systems engineering and management. The advanced object-oriented systems engineering methodology and model transformation techniques are addressed. Software tools are introduced and used for supporting systems engineering design. Students are expected to develop a system design of their choice using MBSE approaches presented in class and they will make presentations on these designs.
Prerequisite(s): SYST 520.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 619 - Introduction to Architecture Based Systems Engineering

Credits: 3 (NR)

Equivalent to ECE 672

Prerequisite(s): SYST 510 or 520, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 620 - Discrete Event Systems

Credits: 3 (NR)
Introduces modeling and analysis of discrete event dynamical systems. Course covers elements of discrete mathematics and then focuses on Petri Net models and their basic properties. Relation to other discrete event models of dynamical systems.

Equivalent to ECE 673

Prerequisite(s): SYST 611 or ECE 521, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 621 - Systems Architecture Design and Evaluation

Credits: 3 (NR)
Intensive study of relationships between different types of architecture representations and methodologies used to obtain them. Approaches based on systems engineering constructs, such as structured analysis and software engineering constructs, including object orientation, are used to develop architecture representations or views and to derive an executable model of the information architecture. Executable model is then used for behavior analysis and performance evaluation. Roles of systems architect and systems engineer are discussed. Examples from current practice including the C4ISR architectures are used.

Equivalent to ECE 674

Prerequisite(s): SYST 520 and SYST 620.
**SYST 622 - System Integration and Service Oriented Architectures**

Credits: 3 (NR)

Equivalent to ECE 675.

**Prerequisite(s):** SYST 621 or ECE 674.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SYST 630 - Systems Engineering Management II**

Credits: 3 (NR)
Study of more advanced topics in systems engineering management. Students expected to read selections from current literature as well as make presentations and produce papers on engineering management topics. Work in groups to create SEMP, RMP and PAP. Focuses strongly on the practical impacts of various system engineering management techniques and practices on projects, organizations, and personnel

**Prerequisite(s):** SYST 471 or SYST 530.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**SYST 631 - Systems Engineering of Information Architectures**

Credits: 3 (NR)
An intensive study of the relationships between different types of architecture representations and the methodologies used to obtain them. Approaches based on systems and software engineering constructs, such as object orientation and structured analysis are used to develop architecture representations or views. The roles of the systems architect and the systems engineer are discussed. The function of executable model of the information architecture in deriving requirements is presented. Examples from current practice including C4ISR architectures are included.

Equivalent to ECE 678

**Prerequisite(s):** SYST 520 and SYST 619/ECE 672.

**Notes:** This course does not meet the requirements for the MS/SE degree.
**SYST 632 - System Integration and Architecture Evaluation**

Credits: 3 (NR)

Equivalent to ECE 679

**Prerequisite(s):** SYST 631/ECE 678.

**Notes:** This course does not meet the requirements for the MS SE degree.

**SYST 659 - Topics in Systems Engineering**

Credits: 3 (RT)
Topics not covered in department's regular systems engineering offerings. Course content may vary each semester depending on instructor and the perception of students' needs.

**Prerequisite(s):** Permission of instructor.

**Notes:** Course may be repeated once for credit.

**SYST 660 - Air Transportation Systems Modeling**

Credits: 3 (NR)
Introduces wide range of current issues in air transportation. Issues include public policy toward industry, industry economics, system capacity, current system modeling capability, human factors considerations, safety analysis and surveillance systems, and new technological developments. Develops broad understanding of contemporary and future issues. Knowledge evaluated through class discussions, take-home midterm exam, and term project to be completed by end of semester.

Equivalent to OR 660

**Prerequisite(s):** SYST 460/560 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
SYST 664 - Bayesian Inference and Decision Theory

Credits: 3 (NR)
Introduces decision theory and relationship to Bayesian statistical inference. Teaches commonalities, differences between Bayesian and frequentist approaches to statistical inference, how to approach statistics problem from Bayesian perspective, and how to combine data with informed expert judgment in a sound way to derive useful and policy relevant conclusions. Teaches necessary theory to develop firm understanding of when and how to apply Bayesian and frequentist methods; and practical procedures for inference, hypothesis testing, and developing statistical models for phenomena. Teaches fundamentals of Bayesian theory of inference, including probability as a representation for degrees of belief, likelihood principle, use of Bayes Rule to revise beliefs based on evidence, conjugate prior distributions for common statistical models, and methods for approximating the posterior distribution. Introduces graphical models for constructing complex probability and decision models from modular components.

Equivalent to STAT 664 and CSI 674

Prerequisite(s): STAT 544 or 554, or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 670 - Metaheuristics for Optimization

Credits: 3 (NR)
Course on the theory and practice of metaheuristics, i.e. solution search techniques for solving combinatorial optimization problems. It will introduce the theory, applications (scheduling in manufacturing, transportation, and in other engineering and service industries), and computational aspects of directly searching for solutions to solve computationally complex optimization problems without a well-defined analytical model.

Equivalent to OR 670.

Prerequisite(s): OR 441/541 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 671 - Judgment and Choice Processing and Decision Making

Credits: 3 (NR)
How do people make judgments and decisions? Course presents initial review of scientific literature directed toward answering this question, and emphasizes importance when performing decision analysis and designing systems to support judgment and decision processes.
Equivalent to OR 671

Prerequisite(s): STAT 344/354.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring.

SYST 674 - Dynamic Programming

Credits: 3 (NR)
Theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties is covered. Stresses intuition, the mathematical foundations being for the most part elementary. It will introduce the theory, applications (finance, engineering, and biology), and computational aspects of dynamic programming for deterministic and stochastic problems.

Equivalent to OR 674

Prerequisite(s): OR 442 or OR 542 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 675 - Reliability Analysis

Credits: 3 (NR)
Introduction to component and system reliability, their relationship, and problems of inference. Topics include component lifetime distributions and hazard functions, parameter estimation and hypothesis testing, life testing, accelerated life testing, system structural functions, and system maintainability.

Prerequisite(s): OR 675/STAT 654

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 677 - Statistical Process Control

Credits: 3 (NR)
Introduces concepts of quality control and reliability. Acceptance sampling, control charts, and economic design of quality control systems are discussed, as are system reliability, fault-free analysis, life testing, repairable systems, and role of reliability, quality control, and maintainability in life-cycle costing. Role of MIL and ANSI standards in reliability and quality programs considered.

Equivalent to OR 677/STAT 677

Prerequisite(s): STAT 554 or permission of instructor.
SYST 680 - Principles of Command, Control, Communications, Computing, and Intelligence (C4I)

Credits: 3 (NR)
Broad introduction to fundamental principles of command, control, communications, computers, and intelligence (C4I). Principles and techniques applicable to wide range of civilian and military situations. Discusses modeling and simulation of combat operations. Studies in detail sensing, fusion, and situation assessment processes. Derives optimal decision-making rules; discusses concepts of C4 architectures; and develops tools to evaluate and design C4 systems such as queuing theory.

Equivalent to ECE 670/OR 683

Prerequisite(s): ECE 528, SYST 611, or OR 542; or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 683 - Modeling, Simulation, and Gaming

Credits: 3 (NR)
Develops methods for designing combat models and games. Existing combat models critical to the C4I process. Exercises and games demonstrate value of properly developed C4I modules in a combat simulation.

Prerequisite(s): MATH 213, SYST 500 or equivalent, and graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 684 - Sensor Data Fusion

Credits: 3 (NR)
Examines design issues in multisensor fusion systems. Studies use of probability, evidence, and possibility theories for object identification. Studies Bayesian networks, blackboard architectures, and spatial and temporal reasoning for situation assessment.

Prerequisite(s): SYST 680 or ECE 670.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 688 - Financial Systems Engineering II: Derivative Products and Risk Management
Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions, as well as facilitating the risk management of those decisions. This course will focus on risk management for both market risk and credit risk. It will cover a broad range of derivatives products and hedging strategies with emphasis on how risks are managed in financial institutions.

**Prerequisite(s):** OR/SYST 588 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring.

### SYST 698 - Independent Study and Research

Credits: 3 (RD)  
Study of a selected area in systems engineering or C3I under the supervision of a faculty member. Written report required.

**Prerequisite(s):** Graduate standing, completion of at least two core courses, permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

### SYST 699 - Masters Project

Credits: 3 (NR)  
Capstone project course for MS/SE program. Key activity is completion of a major applied team project resulting in an acceptable technical report and oral briefing. Student should plan to take this course in the last semester of studies.

Equivalent to SYST 798 (2011-2012 Catalog)

**Prerequisite(s):** 21 graduate credits in OR or SYST.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring.

### SYST 735 - Advanced Stochastic Simulation

Credits: 3 (NR)  
Special topics and recent developments in Monte Carlo simulation methodology for discrete-event stochastic systems. Contents vary; possible topics include statistical analysis of simulation output data, random number and random ariate generation, variance reduction techniques, sensitivity analysis and optimization of simulation models, distributed and parallel simulation, object-oriented simulation, and specialized applications.

Equivalent to OR 735
Prerequisite(s): OR 635 or permission of instructor.

Notes: May be repeated for credit when topics are distinctly different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SYST 740 - Advances in Multi-Modeling**

Credits: 3 (NR)
Focuses on the inter-operation of multiple models expressed in different modeling languages but which draw from the same data set: i.e., multi-modeling. Socio-technical systems often require a variety of modeling tools to define their operation accurately. An ontology based approach is used to analyze the validity of a proposed modeling architecture and workflow to address a specific issue

Equivalent to ECE 760.

Prerequisite(s): SYST 620 or ECE 673 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring.

**SYST 750 - Advanced Topics in Systems Engineering**

Credits: 3 (RD)
Advanced topics not covered in department's regular systems engineering offerings. Course content may vary each semester depending on instructor and the perception of students' needs. May be repeated for credit when topics are distinctly different.

Prerequisite(s): 600-level course that varies with content of course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**SYST 760 - Special Topics in Command, Control, Communications, Computing, and Intelligence Systems Engineering**

Credits: 3 (NR)
Special topics in the C4I area, with different content in different terms. Representative areas include quantitative evaluation of C4 systems, applications of artificial intelligence in C4 systems, and military communications systems.

Prerequisite(s): SYST 680.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SYST 763 - Research Methods in Systems Engineering and Information Technology

Credits: 3 (NR)
Examines alternative paradigms of scientific research and their applicability to research in information technology. Topics include fundamental elements of scientific investigation, basic principles of experimental design and statistical induction, philosophy of science and its relation to the information technology sciences, and case studies of information technology research.

Equivalent to IT 763/OR 763

Prerequisite(s): STAT 554.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 781 - Data Mining and Knowledge Discovery

Credits: 3 (NR)
Statistical and computational methods and systems for deriving user-oriented knowledge from large databases and other information sources, and applying knowledge to support decision making. Information sources can be in numerical, textual, visual, or multimedia forms. Covers theoretical and practical aspects of current methods and selected systems for data mining, knowledge discovery, and knowledge management, including those for text mining, multimedia mining, and web mining.

Equivalent to STAT 781

Prerequisite(s): One of the following courses: CS 687, CS 650, INFS 614, STAT 663, STAT 664, or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 799 - Master's Thesis

Credits: 1-6 (RD)
Research project chosen and completed under the guidance of a graduate faculty member, which results in a technical report acceptable to a three-member faculty committee, and an oral defense.

Prerequisite(s): 21 graduate credits and permission of instructor.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

SYST 842 - Models of Probabilistic Reasoning
Survey of alternative views about how incomplete, inconclusive, and possibly unreliable evidence might be evaluated and combined. Discusses Bayesian, Baconian, Shafer-Dempster, and Fuzzy systems for probabilistic reasoning.

Equivalent to IT 842/OR 842

**Prerequisite(s):** STAT 544 or OR 681, or permission of the instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SYST 850 - Topics in Systems Integration Engineering**

Credits: 3 (RD)  
Covers lifecycles; large systems comprising heterogeneous components; human, organizational, and technological basis for integration; societal and cultural basis; conceptual frameworks; structure, function, and purpose of industry; risk management; user requirements and functional specifications; bid and proposal process; systems integration and federal government; standards; integration of systems and federations of systems; integrated process and product development; architectures; systems management and cost estimation; reengineering; quality management; increasing returns to scale, network effects, and path dependency issues; and systems integration ecology and evolutionary systems integration

**Prerequisite(s):** SYST 510 or 520.

**Notes:** May be repeatable for a maximum of six credits within the degree if topics are substantially different.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SYST 888 - Distributed Estimation and Multisensor Tracking and Fusion**

Credits: 3 (NR)  
Centralized and distributed estimation theory, hierarchical estimation, tracking and data association, multisensor multitarget tracking and fusion, distributed tracking in distributed sensor networks, track-to-track association and fusion, and Bayesian networks for fusion.

Equivalent to ECE 753/OR 888

**Prerequisite(s):** ECE 734 or SYST 611.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SYST 944 - The Process of Discovery and Its Enhancement in Engineering Applications**

Credits: 3 (NR)  
Studies ingredients of imaginative reasoning as they concern efficient discovery of new ideas and valid evidential test of them. Topics include different interpretations of Peirce's theory of abductive reasoning and other forms of reasoning, Hintikka's
analysis of process of inquiry, and current attempts to design systems that provide assistance in discovery-related or investigative activities.

Equivalent to OR 944/ IT 944

Prerequisite(s): SYST 842 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Systems Engineering and Operations Research (SEOR)

Offered by the Volgenau School of Engineering

SEOR 750 - Advanced Topics in Systems Engineering and Operations Research

Credits: 3 (RD)
Advanced topics, applications, or recent developments in the interface of systems engineering and operations research. Course content may vary each semester depending on instructor and the perception of students' needs. May be repeated for credit when topics are distinctly different.

Prerequisite(s): 600-level course that varies with content of course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SEOR 796 - Directed Reading and Research

Credits: 1-3 (RD)
Reading and research on specific topic in systems engineering or operations research under direction of faculty member.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

SEOR 998 - Doctoral Dissertation Proposal

Credits: 1-12 (RD)
Work on research proposal that forms basis for doctoral dissertation.

Notes: May be repeated. No more than 24 credits of SEOR 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
SEOR 999 - Doctoral Dissertation

Credits: 1-12 (RD)
Formal record of commitment to doctoral dissertation research under direction of faculty member approved by SEOR Department.

Prerequisite(s): Admission to doctoral candidacy.

Notes: May be repeated as needed.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

Taxation (TAX)

Offered by the School of Management

TAX 700 - Federal Income Taxation

Credits: 3 (NR)
Federal income tax concepts and procedures related to individual taxpayers and business entities. Emphasis on research and planning based on the Internal Revenue Code, Treasury Regulations, and administrative and judicial sources of tax law.

Prerequisite(s): Admission to the MS Tax program or permission of the director

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TAX 701 - Accounting Methods and Periods

Credits: 1.5 (NR)
Tax accounting methods including the cash and accrual methods, inventory accounting, installment sales, accounting changes, and various book-tax difference. The accounting periods are also studied.

Prerequisite(s): Admission to the MS Tax program or permission of the director

Corequisite(s): TAX 700

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TAX 702 - Tax Practice and Procedures
Professional responsibilities and ethics, tax research, tax penalties, practice before the IRS, tax policy, and other issues.

**Prerequisite(s):** Admission to the MS Tax program or permission of the director.

**Corequisite(s):** TAX 700

**Hours of Lecture or Seminar per week:** 1.5  
**Hours of Lab or Studio per week:** 0

---

**TAX 703 - Corporate Taxation**

Credits: 3 (NR)

Concepts and principles that relate to federal income taxation of corporations and their shareholders. Emphasis on research of fact situations. Coverage includes the organization and capitalization of a corporation, nonliquidated and liquidated distributions, penalty taxes, collapsible corporations, and determinants of the income tax base of corporations.

**Prerequisite(s):** Admission to the MS Tax program or permission of the director

**Corequisite(s):** TAX 700

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**TAX 704 - Corporate Mergers and Acquisitions**

Credits: 1.5 (NR)

Introduces taxable and tax-deferred methods of combining, dividing, and recapitalizing existing corporations. Analyzes the effects on the corporation(s), its attributes, and its shareholders.

**Prerequisite(s):** Admission to the MS Tax program or permission of the director. TAX 700

**Hours of Lecture or Seminar per week:** 1.5  
**Hours of Lab or Studio per week:** 0

---

**TAX 705 - Affiliated Corporations**

Credits: 1.5 (NR)

Studies consolidated tax return regulations and filing requirements for affiliated corporations.

**Prerequisite(s):** Admission to the MS Tax program or permission of the director. TAX 703

**Hours of Lecture or Seminar per week:** 1.5  
**Hours of Lab or Studio per week:** 0
TAX 706 - Partnership Taxation

Credits: 3 (NR)
Major aspects of taxation affecting partners and partnerships. Emphasis on tax planning and detailed study of the Internal Revenue Code, Treasury Regulations, and case law governing these areas.

Prerequisite(s): Admission to the MS Tax program or permission of the director

Corequisite(s): TAX 700

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TAX 710 - Federal Estate and Gift Taxation

Credits: 3 (NR)
Concepts and principles that relate to federal estate and gift taxation and the federal income taxation of estates, trusts, and beneficiaries. Emphasis on estate tax planning and a detailed study of the Internal Revenue Code, Treasury Regulations, and case law governing these areas.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 700

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TAX 711 - International Taxation

Credits: 3 (NR)
Taxation of individuals and corporations with foreign-source income and tax liability to the United States.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 700

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TAX 712 - Seminar in Advanced Tax Policies

Credits: 3 (RD)
Selective analysis of current tax topics addressing important issues in contemporary tax practice. Discussion of two or three major topics. Consult the Schedule of Classes. Course may be repeated for credit with different topics.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 700

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
TAX 713 - State and Local Taxation

Credits: 3 (NR)
Detailed analysis of the principal forms of state and local taxation.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 700

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TAX 714 - Pensions and Deferred Compensation

Credits: 3 (NR)
Analysis of the structure, operation, and requirements for obtaining and maintaining IRS approval of tax-qualified pensions, profit sharing, and deferred compensation plans.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 700

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TAX 792 - Management of Professional Service Organizations

Credits: 3 (NR)
This course addresses the management of the modern professional services organizations with special emphasis on the strategic, marketing, human resources, risk management, and ethical and technological issues vital to management.

Prerequisite(s): Admission to the MS Tax program or permission of the director. Completion of 18 hours of MSA or MST required coursework.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-12

Technology Management (TECM)

Offered by the School of Management

TECM 601 - HiTech Business Models

Credits: 1 (NR)
Provides an introduction to high tech industries, emerging technologies and business models that are transforming technology-intensive industries such as music, financial services and healthcare. The course covers techniques for analyzing how organizations create, deliver and capture value. The students use case-based approach to analyze traditional and high-tech organizations to understand their business models, and identify causes for success and failures.
TECM 602 - Emerging Technologies and the New CIO

Credits: 1 (NR)
Provides an overview of CIOs and IT executive leadership, enabling legislation and policies on CIOs in the U.S. and abroad. The course examines the evolution of CIO core competencies, and approaches to cross agency CIO and IT coordination. Emerging ICT technologies, their corresponding potential, challenges and considerations for CIOs and IT executives in their adoption and introduction, are also discussed.

TECM 610 - Communications and Leadership

Credits: 2 (NR)
Distinguishes between leadership and management, and focuses on the critical roles and functions of leadership, including communication ability, use of power and influence, providing direction, aligning an organization's systems, motivating a workforce, and creating a culture for effectiveness. It also focuses on strategies for developing oneself as an effective leader.

Prerequisite(s): Admission to Technology Management Program.

TECM 611 - Leadership and Change Management

Credits: 2 (NR)
Examines the critical roles and functions of leadership with special attention to how leaders influence organizational performance and manage change. Topics include providing direction, creating a culture for effectiveness, the use of power and influence, leadership development, leading under changing conditions, and leading and managing change.

TECM 614 - Financial and Cost Accounting

Credits: 2 (NR)
Focuses on the economics and analysis of business transactions and financial reporting. Topics include an introduction to the financial reporting framework, review of how accountants measure and manage financial reporting, an introduction to cost
concepts and product costing, and an analysis of capital investments and management control. Emphasis is placed on providing an analytic framework for evaluating transactions and companies.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0  
When Offered: Fall

**TECM 615 - Decision Making Using Accounting and Financial Data**

Credits: 3 (NR)  
Provides managers with an overview of the purpose and importance of accounting within the organization and the financial valuation of information technology companies, projects, and product line. Students focus on the economics and analysis of business transactions and their related financial reporting issues from internal and external stakeholder perspectives. Students improve their skills in analyzing financial issues and presenting results in a case analysis framework.

Prerequisite(s): Admission to Technology Management Program.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**TECM 620 - Economics of Technology Management**

Credits: 2-3 (NR)  
Enables students to build and evaluate economic and business models that can be used to analyze real managerial questions that affect all types of institutions, especially firms in the information technology industry. Students develop a better understanding of the operation of markets in general and the use of various quantitative and qualitative methods when making decisions within the firm. The use of economic analysis allows students to identify and evaluate decision alternatives, the competitive environments of firms, and the factors that influence firm performance, especially in the information technology industry.

Prerequisite(s): Admission to Technology Management Program or permission of the program director.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0

**TECM 635 - Decision Models for Technology Management**

Credits: 2-3 (NR)  
Explores current metrics and metric development for quality, intangible assets, and project management as required within information technology companies. Applies statistical tools of best use with these metrics.

Prerequisite(s): Admission to Technology Management Program or permission of the program director.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0  
When Offered: Spring
TECM 640 - Management of Consulting and Technical Professionals

Credits: 1-3 (NR)
Students gain insight into conflict resolution, teamwork, communication, power and influence, career development, and ethics. Helps students understand themselves and those they manage, as they work to be as effective as possible in modern organizations.

Prerequisite(s): Admission to Technology Management Program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TECM 641 - Negotiation and Conflict Management for Technology Professionals

Credits: 2 (NR)
Students acquire insights and skills for negotiation and conflict resolution as they relate to a variety of organizational situations - including teamwork, communication and coordination, power and influence, legal disputes, career development, cross-cultural and international issues, as well as tackling ethical problems. The course is highly experiential, and is built on a foundation of hands-on exercises and extensive class discussion.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Summer

TECM 643 - Managerial Finance

Credits: 2 (NR)
Surveys the theory and practice of corporate financial management with specific application to the technology sector. Students develop an understanding of key elements required in the valuation of project alternatives; including their strategic importance. Students evaluate and use financial management models and gain an understanding of how finance can be employed as a source of potential competitive advantage.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

TECM 696 - Directed Studies in Technical Management

Credits: 1-3 (RD)
Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum.

Prerequisite(s): Admission to the TECM program or permission of the program director.

Hours of Lecture or Seminar per week: 1-9
Hours of Lab or Studio per week: 0
TECM 697 - Special Topics in Graduate School of Management

Credits: 1-3 (RT)
Sections established as necessary to focus on various topical issues that emerge in practice of business.

Prerequisite(s): Admission to the TECM program or permission of the program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.

TECM 700 - Business Engineering and Change Management

Credits: 2 (NR)
Visualizing, planning, and implementing transitions in an organization or business unit is fast becoming a key source of competitive advantage. Course provides theory and practice of change management and strategic planning including organizational development and organizational transformation.

Prerequisite(s): Admission to Technology Management Program.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

TECM 702 - Building High Performance Teams

Credits: 2 (NR)
Develops behavioral skills integral to effective teamwork and interpersonal relationships in work environments. Covers techniques for making group decisions and resolving internal team conflicts, as well as negotiating effectively with outside parties.

Prerequisite(s): Admission to Technology Management Program.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

TECM 703 - Technology Assessment, Evaluation, and Investment

Credits: 3 (NR)
Prepares students to be educated consumers of information technology to maximize strategic advantage of IT to an organization. Information technologies, architectures, and products are categorized and analyzed with a view to develop and maintain the most favorable IT asset portfolio to successfully carry out business goals and strategies. Techniques for making group technology assessments, outsourcing decisions, project bidding, and contract negotiations.

Prerequisite(s): Admission to Technology Management Program.
TECM 704 - Management of Technology Projects and Portfolios

Credits: 2 (NR)
Examines advanced topics in project and program management, with specific attention to the issues that managers face to effectively manage programs. This involves managing resources (both internal and external to the organization) and managing within an existing organizational structure. Specific program management topics include advanced topics for project management, program alignment with strategic objective, management of stakeholders, and development and organization of the program office. Strategic and operational tools and metrics also are discussed.

Prerequisite(s): Admission to Technology Management Program.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall

TECM 711 - Deriving Strategic Value from IT Investments

Credits: 2 (NR)
Reviews approaches for aligning IT strategy and investment with organizational strategy. The course covers methodologies for IT investment, planning and control including cost benefit, economic and risk analysis; benefits of alternative IT investments; methods of technology road mapping; and capital investment analysis. IT performance assessment methodologies and acquisition planning and design, are also reviewed.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall

TECM 720 - Competitive Strategy in Technology Industries

Credits: 2 (NR)
Provides students with an understanding of the impact of information technology on firms and industries and equips them to develop and execute appropriate strategies. Although the emphasis is on information technology firms and industries, a key goal of the course is to better prepare students to respond to a diverse array of information technology challenges. Course work covers the demand and the supply side of information technology, as well as the development of frameworks and analytical tools to help put events, behaviors, and processes into understandable contexts.

Prerequisite(s): Admission to Technology Management Program or permission of the program director. TECM 615 and 620.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Summer
TECM 735 - Technology Management Capstone Project

Credits: 1-4 (NR)
Teams undertake a strategic evaluation and plan for IT-driven business initiatives. Presentation includes analysis of competitive forces and the value chain; recommendations, including changes in goals and organizational design; plan of action integrating marketing, human resource development, organizational design, finance, and information technology; and implementation plan using theories of communication and change management, to include business case and business plan.

Prerequisite(s): Admission to Technology Management Program or permission of the program director.

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0
Grading: Special graduate.

TECM 737 - Capstone Project in Management of Secure Information Systems

Credits: 1-3 (RD)
Teams undertake a strategic evaluation and plan for the management of secure information systems. They develop plans that include technical, organizational, and policy aspects. A report is produced and presented to the entire cohort for discussion.

Equivalent to MSEC 720

Prerequisite(s): Admission to Executive MS in Management of Secure Information Systems.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Spring, Summer

TECM 740 - Management of Client Relationships

Credits: 1-3 (RD)
Proposal development, bidding, legal issues of contracts and agreements, formation of commercial partnerships, and new business development. Methods and practices for conducting client need assessment and managing deviations of scope. Application of principles of marketing information systems and technology to internal and external customers.

Prerequisite(s): Admission to Technology Management Program or permission of the program director. TECM 610 and 630.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TECM 741 - Marketing of Innovations and Technology Products / Services

Credits: 2 (NR)
Provides students the opportunity to conduct a detailed exploration of effective marketing strategies, including product and service development, branding, and customer relationships, in preparation for developing a marketing plan for a technology
related innovation. Specific course topics include: assessing the marketplace, understanding the customer, market segmentation, developing and positioning the offering, pricing, branding, distribution, and promotion.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

**TECM 745 - Leading and Managing IT Operations**

Credits: 2 (NR)  
Explores best practices in the IT industry. Students analyze practices in terms of gaining competitive advantage in an industry where the scarcity economic model for products no longer applies. Course work focuses on leading an organization with the IT function.

**Prerequisite(s):** Admission to Technology Management Program.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

**TECM 746 - Enterprise Architecture and IT Governance**

Credits: 2 (NR)  
Examines the operational, financial and strategic considerations of leading enterprise architecture and reviews the historical development of enterprise architecture. Major enterprise architecture frameworks including Zachman and TOGAF are examined. The relationship of enterprise architecture to IT governance, approaches to IT governance and the role of the CIO, and the relationship of IT governance to organizational performance, are also discussed.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

**TECM 747 - Information Assurance and Security Management**

Credits: 2 (NR)  
Addresses the increasingly critical areas of information security and information assurance. Specific focus is on best practices for assessment, planning and management of information security strategy, policy, organizations and controls to minimize the risks pertaining to unauthorized use, processing, storage, and communication of digital information. Pertinent legislation and policy requirements are also covered.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

**TECM 748 - Systemic Approach to IT Management**
The course introduces students to systems thinking, and then applies systems thinking to best practices in development and management of IT processes and connecting management of IT processes to organizational strategy. The course also reviews and considers IT processes from the strategy and service management frameworks including Balanced Scorecard and ITIL.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**TECM 750 - Global IT Management**

Credits: 1-4 (NR)  
Students spend a week in an international residency. Emphasizes dealing with technological changes across international markets and amid global developments, virtual organizations, and project management across cultures. Corporate site visits combined with presentations by professors from universities outside the United States and relevant practitioners.

**Prerequisite(s):** Admission to Technology Management Program or permission of the program director. TECM 600 and 620.

**Hours of Lecture or Seminar per week:** 1-4  
**Hours of Lab or Studio per week:** 0

---

**TECM 752 - Global Tech Management**

Credits: 2 (NR)  
Provides the opportunity for students to spend a week in a country or countries that are leading edge in technology and technology management. Students visit corporations and governments and interact with corporate and IT executives, and government leaders. Topics include CIO and eGovernment, commercialization of emerging technologies, national competitiveness, international development, global supply chains and virtual teams.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**TECM 757 - Global Residency**

Credits: 1-4 (RD)  
Students spend a week in an international residency. Emphasis is on how other nations deal with management of secure information system, the management of those systems, and related public policy issues. Corporate site visits are combined with presentations by professors from universities outside the United States and relevant practitioners. Students are required to write a paper summarizing their observations and attend pre-residency preparatory sessions.

**Equivalent to MSEC 710**

**Prerequisite(s):** Admission to Executive MS in Management of Secure Information Systems.

**Hours of Lecture or Seminar per week:** 1-4
Telecommunications (TCOM)

Offered by the Volgenau School of Engineering

TCOM 500 - Modern Telecommunications

Credits: 3 (NR)
Comprehensive overview of telecommunications, including current status and future directions. Topics include review of evolution of telecommunications; voice and data services; basics of signals and noise, digital transmission, network architecture and protocols; local area, metropolitan and wide area networks and narrow band ISDN; asynchronous transfer mode and broadband ISDN; and satellite systems, optical communications, cellular radio, personal communication systems, and multimedia services. Examples of real-life networks illustrate basic concepts and offer further insight.

Equivalent to ECE 540

Prerequisite(s): TCOM 575, or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 501 - Data Communications and Local Area Networks

Credits: 1.5 (NR)
Network concepts; Open Systems Interconnection (OSI) reference model and layering; data coding; analog/digital communications review; physical layer and data link control; switching and multiplexing; commercial digital link standards; Data Link Layer Control (DLC) functions. DLC protocols; flow control; error control; link management; common link protocols.
Local area networks (LANs); basics, definitions, media access control; LAN performance; LAN standards, rings and buses; bridging and frame relay.

Prerequisite(s): Graduate standing

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 502 - Wide Area Networks and Internet

Credits: 1.5 (NR)
OSI reference model review; packet network layer functions; connection-oriented and connectionless packet switching; X.25 and X.75 standards; SONET and Packet-over SONET; circuit-switched networks and control signaling; congestion control and traffic management; virtual private networks; introduction to network management; routing methods; Internet working; introduction to Internet protocol concepts; OSI transport layer clientserver model; domain name systems; and telnet.
Prerequisite(s): TCOM 501.

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 503 - Fiber Optic Communications

Credits: 1.5 (NR)
Introduction and overview of optical fiber communications systems. Course covers basic elements of fiber optic networks: semiconductor light sources (light emitting diodes and laser diodes), fiber optic waveguides, network system design issues, link budget analysis, and component requirements. Additional topics may include wave length division multiplexed and Time-Division Multiplexed networks and optical switching systems.

Prerequisite(s): TCOM 500

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 504 - Asynchronous Transfer Mode Networks

Credits: 1.5 (NR)
Asynchronous Transfer Mode (ATM) concept, protocols, services, and applications. The emphasis is on the standards and technology of ATM for local and wide area networks. Relation to broadband ISDN; ATM switching, multiplexing and transport; user-network and network-network interface aspects; ATM Adaptation layer; access switching; ATM wide area network switches; design and practice of networks based on ATM technology.

Prerequisite(s): TCOM 500, 501, 502, or equivalent.

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 505 - Networked Multicomputer Systems

Credits: 1.5 (NR)
Introduces systems engineering of a networked multicomputer system. Studies distributed multicomputer architectures, architecture of a network operating system, and key system components. The focus of this course is on the development of a thin client/server system, requirements analysis of a client/server web computing, system planning and implementation. Includes a study of example multicomputer systems and a discussion of future directions.

Prerequisite(s): TCOM 500, 501, or equivalent.

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 506 - Personal Communication Systems (PCS)
Introduces Personal Communication Systems (PCS). Topics include multiple technical layers of the PCS systems; data link level and network layer protocols, including implementation; mobile station operation and base station operation; and how voice and data services work. Also discusses vital issues of user authentication, privacy, and data or voice encryption.

Prerequisite(s): TCOM 500, 501, 551, and 552 or equivalent.

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 509 - Internet Protocols

Credits: 1.5 (NR)
The Internet Protocol (IP) Suite: principles, protocols, and architecture; Internet working; Internet addressing; IP; routing protocols (RIP, OSPF, BGP); Internet Control Message Protocol; Internet Group Management Protocol; User Datagram Protocol; Transmission Control Protocol; Client-Server Model; Domain Name System; Socket Interface; Internet applications (TELNET, FTP, SNMP, HTTP); Internet security; Internet multicasting; quality-of-service in the Internet (RSVP, DiffServ, MPLS); Mobile IP; Next Generation Internet (Ipv6)

Prerequisite(s): TCOM 501 and 502

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 510 - Client-Server Architectures and Applications

Credits: 1.5 (NR)
Fundamentals of application engineering for Client/Server (C/S) Internet environments. Review of C/S application architectures and system perspective on C/S middleware. Study of web-based middleware, distributed data managers and SQL middleware, distributed transaction processing middleware, and C/S object technology.

Prerequisite(s): TCOM 500 or ECE 540.

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 513 - Optical Communications Networks

Credits: 1.5 (NR)
Introduction and overview of current developments in Optical Communication Networks. Emphasizes underlying technologies that make all-optical networks possible. Specific topics include components needed for Wavelength Division Multiplexed Systems and Dense Wavelength Division Multiplexed Systems; tunable wavelength lasers, wavelength add/drop multiplexers, space division switching, and wavelength-routing networks; optical LAN, MAN, and WAN concepts; passive and active wavelength filters, switches and routers; free-space optical networks.

Prerequisite(s): TCOM 503
TCOM 514 - Basic Switching: Lecture and Laboratory Course

Credits: 3 (NR)
Basic switching techniques and protocols for low and high-speed digital packet networks (Ethernet, Frame Relay, ATM, X.25) are taught within a half semester lecture series, followed by hands-on laboratory for remainder of semester. Real-life scenarios taught in the laboratory element through exercises that involve configuring switches and routers.

Prerequisite(s): TCOM 501 and 502

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 515 - Internet Protocol Routing: Lecture and Laboratory Course

Credits: 3 (NR)
Internet Protocol (IP) routing overview; static routing; dynamic routing; default routing; access lists; route redistribution; RIP, OSPF, IGRP, EIGRP, IS-IS, and BGP protocols submitted for comment. Real-life scenarios taught in laboratory element through exercises that involve configuring routers as network elements.

Prerequisite(s): TCOM 501, 502, and 509

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 1.5

TCOM 516 - Global Positioning System (GPS)

Credits: 1.5 (NR)
Background in long-range navigation developments; early global systems; space-based systems; GPS and GLONASS systems; system architecture; spacecraft and Earth station characteristics; design concepts of the CA and P GPS signal modes; frequencies, modulation, and other design aspects; clock issues; range and accuracy calculations and limitations; advanced concepts.

Prerequisite(s): TCOM 500

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 518 - Third Generation Cellular Telephony

Credits: 1.5 (NR)
Introduction to post-second generation cellular systems; benefits and features of third generation (3G) systems; review of air interface standards currently approved for 3G; review of 3G technologies; analysis of competing multiple access methods;
transition plans and backward compatibility between 2G, 21/2G, and 3G systems; possible fallback plans.

Prerequisite(s): TCOM 506, 551, and 552.

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 519 - Voice over IP

Credits: 1.5 (NR)
Concept of transporting voice over Packet Switched Network; typical VoIP network scenarios (campus, multisite private network, calling nationwide and international; communications protocols for VoIP (RTP, RTCP, RFC 1889, H.323); conferencing and security issues; quality issues (delay, mean opinion scores); VoIP network design.

Prerequisite(s): TCOM 501, 502, and 509

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 520 - Economics of Telecommunications

Credits: 3 (NR)
Management of telecommunications networks; economic concepts in changing climate of telecommunications ownership, deregulation, and privatization; resource allocation fundamentals based on internal rate-of-return, net present value, opportunity costs; valuation of potential acquisitions in broad telecommunications market; financial modeling techniques.

Prerequisite(s): TCOM 500

Corequisite(s): TCOM 521.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 521 - Systems Engineering for Telecommunications Management

Credits: 3 (NR)
Advanced software principles, techniques, and processes for designing and implementing complex telecommunication systems. Planning and implementation of telecommunications systems from strategic planning through requirements, initial analysis, general feasibility study, structured analysis, detailed analysis, logical design, and implementation. Current system documentation through use of classical and structured tools and techniques for describing flows, data flows, data structures, file designs, input and output designs, and program specifications. Practical experience gained through project.

Prerequisite(s): TCOM 500

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
TCOM 526 - Advanced Global Positioning System (GPS)

Credits: 1.5 (NR)
Advanced concepts in global navigation satellite systems (GNSS) such as the American GPS (global positioning system), the European Galileo and the Russian GLONASS (GLObal Navigation Satellite System) System-level description, architecture and design of a wide area augmentation system (WAAS) comprising geostationary satellites overlaying GPS satellites and its vast network of monitoring and control ground stations. The equivalent EGNOS (European Geostationary Navigation Overlay Service), a precursor to Galileo and the Japanese MSAS (Multitransport Satellite-based Augmentation System) Updates on evolving GNSS technology and GNSS backup alternatives.

Prerequisite(s): TCOM 516

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 529 - Advanced Internet Protocols

Credits: 1.5 (NR)
Presents Link-State Routing Protocols (OSPF, IS-IS): functionality, features, design criteria; TCP Performance Tuning; Routing Architectures: routing vs. forwarding tables, shortest path routing algorithms, Internet architecture; Routing Between Peers: BGP/IGP interactions; Internet Security: IPSec, SSL protocols; Internet Multicasting: Layer 2 and 3 Multicast, functionality and features, IGMP and multicast routing protocols; Mobile IP: mobility, routing and addressing; Next Generation Internet (IPv6): functionality and features, pros and cons; Internet Applications: DNS, TELNET, FTP, SNMP, HTTP, etc.)

Prerequisite(s): TCOM 509 or a strong background in networking protocols.

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 539 - Advanced Voice over IP

Credits: 1.5 (NR)
Presents VoIP applications using Softswitches: Softswitch paradigm, advanced functionality and features. Different use of Softswitch architecture; VoIP QoS: QoS components, protocols, trade-offs. VoIP Security: Aspects of VoIP vulnerabilities, industry-standard remedies; VoIP network design considerations, traffic forecasting, product and vendor selection criteria; case studies: Enterprise and service provider implementations. Vonage example; Advanced topics (e.g., vendor interoperability issues, business case analysis, and future of VoIP).

Prerequisite(s): TCOM 519

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0
TCOM 540 - Telecommunications Network Optimization: Routing, Flow Management, and Capacity Modeling

Credits: 1.5 (NR)
Provides state-of-the-art knowledge and techniques to apply operations research knowledge to optimal dimensioning, design and use of telecommunication networks. Includes review of traffic models in telecommunication networks including models for particular streams and multiplexing, as well as multirate and multihour models. Theory, algorithms and computational aspects of linear, network, and integer programming; formulation of telecommunication problems as optimization models, and review of solution strategies. Topics include maximum flow, shortest paths, minimum cost flows; data structure for trees and graphs; applications, modeling, theory and algorithms for optimal location of service facilities (concentrators, multiplexers) in telecommunication networks.

Prerequisite(s): TCOM 500

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 541 - Network Design and Pricing

Credits: 1.5 (NR)
Capacity planning, capital budgeting and reliability modeling for determining optimal design. Economic models of pricing alternative telecommunications systems, project selection evaluation, and mechanisms for determining reliability of complex networks. Concentrates on modeling and evaluation. Software tools provided and tested throughout course.

Prerequisite(s): TCOM 540.

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 542 - Stochastic Models in Telecommunications

Credits: 1.5 (NR)

Prerequisite(s): TCOM 500.

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 545 - Reliability and Maintainability of Networks

Credits: 3 (NR)
Stochastic modeling of network reliability, simulation modeling, modeling replacement strategies. Introduces quality control, sampling for acceptance, economic design of quality control systems, and system reliability. Also covers faulty tree analysis, life testing, repairable systems and role of reliability, quality, and maintainability in life-cycle costing.
Prerequisite(s): TCOM 500.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 546 - Financial Models of Telecommunications Systems

Credits: 3 (NR)
Telecommunication properties and systems. Broadcast, cable, and common carrier capitalization. Pricing, acquisition criteria, and forecasting techniques. Economic analysis of regulations and policies affecting telecommunications. Compares policy objectives with actual effects of policies, emphasizing economic principles. Determining appropriate discount and hurdle rates, life-cycle costing, evaluating technology horizons, and depreciation concerns will be discussed. Studies the economic analysis of regulations and policies affecting the mass media. Compares policy objectives with actual effects of policies, emphasizing economic principles. Uses economic and sociological theories to analyze impact of information technologies on economic organizations, markets, competitive strategies, and communication policy design.

Prerequisite(s): TCOM 500 and 501.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 547 - Project Management in Telecommunications

Credits: 3 (NR)
Develops integrated approach to managing major telecommunications project; evaluates and uses tools and software for project management, with specific goals of containing costs and time overruns; introduces elements for resolving conflict resolution and applying motivation within project team, and gaining the ability to monitor and control projects in changing environment; develops understanding of unique attributes of major telecommunications systems such as interoperability requirements and international technical standards.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 548 - Security and Privacy Issues in Telecommunications

Credits: 1.5 (NR)
Introduces philosophy of secure data and voice communications. Topics include cryptography, cipher systems, practical security schemes, confidentiality, authentication, integrity, access control, nonrepudiation, and their integration across telecommunications network. Reviews threats and vulnerabilities in distributed systems.

Prerequisite(s): TCOM 500 and TCOM 501.

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0
**TCOM 551 - Digital Communication Systems**

Credits: 3 (NR)
Digital transmission of data, voice, and video. Covers signal digitization; modulation and demodulation; error correction coding; multiple access methods; multiplexing; synchronization; channel equalization; frequency spreading; encryption; transmission codes; digital transmission using bandwidth compression techniques; elements of information theory; and development of link budget evaluation such as system noise temperature, Nyquist filter concepts, antenna gain, and filter bandwidth.

**Prerequisite(s):** TCOM 500.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TCOM 552 - Introduction to Mobile Communications Systems**

Credits: 3 (NR)
Introduces mobile communication system design and analysis. Topics include mobile communication channel, access and mobility control, mobile network architectures, connection to fixed network, and signaling protocols for mobile communication systems. Offers examples of mobile communication systems including panEuropean GSM system, North American DAMPS system, and Personal Communication Systems.

**Prerequisite(s):** TCOM 500 and 551.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TCOM 555 - Network Management Foundations and Applications**

Credits: 3 (NR)
Defines and explains techniques that network managers utilize to maintain and improve performance of telecommunications network; network management system; five tasks traditionally involved with network management (fault management, configuration management, performance management, security management, and accounting management); theoretical background in transmission systems sufficient to understand network parameters such as capacity and response times; and specific network management products. Also explores how network performance data should be used for management and when considering upgrades in network architecture.

**Prerequisite(s):** TCOM 500, 501, and 502.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TCOM 556 - Cryptography and Network Security**
Credits: 1.5 (NR)
Broad overview of cryptographic algorithms and mechanisms, and application in today's communication networks. Discusses modern cryptographic techniques such as public key cryptography, digital signatures, secret sharing, key management, key escrow, public key certificates, and public key infrastructure. Covers cryptography on Internet including secure electronic mail, secure WWW, and electronic commerce. Compares, analyzes software implementations of cryptographic algorithms.

Prerequisite(s): TCOM 500 and 548.

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 562 - Network Security Fundamentals

Credits: 3 (NR)
Introduces full spectrum of network security. Topics include taxonomy such as language commonality in incident handling, national strategy to secure cyberspace, and cybersecurity organizations; organizational structure for network defense; best practices, security policy, and threats; actors and tools, countermeasures, vulnerability identification/correction, intrusion detection, and impact assessment; firewalls and intrusion detection systems; antivirus software; active defense; disaster recovery; and law enforcement and privacy issues. Reviews threats and vulnerabilities in network systems based on reports, case studies available in the literature, and actual experience.

Prerequisite(s): TCOM 500.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 575 - Quantitative Foundations for Telecommunications

Credits: 3 (NR)
Provides quantitative foundations in mathematical and electrical concepts to permit registration for courses in telecommunications MS degree and certificate programs. Topics include polynomials, exponentials, linear and quadratic equations, graphs and functions, trigonometric functions, radial measure and sine/cosine functions, exponentials and logarithms, basic probability and statistics, fundamentals of matrix algebra and vectors, basic Boolean logic; circuit elements (resistor, capacitor, inductor), basic electrical circuits, units, Ohm's law, Kirchhoff's law, decibel notation.

Prerequisite(s): Graduate standing

Notes: Course cannot be used for credit in any IT&E graduate degree program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 590 - Selected Topics in Telecommunications

Credits: 1.5-3.0 (RT)
Selected topics from recent developments and applications in various engineering disciplines within specialty modules 1, 2, and 3 of the TCOM program. The course is designed to help the professional engineering community keep abreast of current
developments.

**Prerequisite(s):** Permission of instructor; specific prerequisites vary with the subject of the topic.

**Notes:** The 1.5-credit course lasts for one-half semester (approximately seven weeks) while the 3-credit course lasts for the full semester.

**Hours of Lecture or Seminar per week:** 1.5-3  
**Hours of Lab or Studio per week:** 0

---

**TCOM 591 - Selected Topics in Telecommunications**

Credits: 1.5-3.0 (RD)  
Selected topics from recent developments and applications in various engineering disciplines in specialty modules 4 and 5 of TCOM program. Designed to help professional engineering community keep abreast of current developments.

**Prerequisite(s):** Permission of instructor; specific prerequisites vary with subject of topic.

**Notes:** The 1.5-credit course lasts for one-half semester (approximately seven weeks); the 3-credit course lasts for full semester.

**Hours of Lecture or Seminar per week:** 1.5-3  
**Hours of Lab or Studio per week:** 0

---

**TCOM 598 - Independent Study in Telecommunications**

Credits: 1.5-3.0 (RD)  
Directed self-study of special topics in telecommunications that relate to specialty modules 1, 2, and 3. Topics must be arranged with instructor and approved by program director before registering.

**Prerequisite(s):** Permission of Instructor and Program Director.

**Notes:** May be taken for either 1.5 credits or 3.0 credits in fall and spring semesters. No more than total 6 credits may be taken from combination of TCOM 598, 599, 696, and 697 courses for credit in TCOM program.

**Hours of Lecture or Seminar per week:** 1.5-3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

---

**TCOM 599 - Independent Study in Telecommunications**

Credits: 1.5-3.0 (RD)  
Directed self-study of special topics in telecommunications that relate to specialty modules 4 and 5. Topics must be arranged with instructor and approved by program director before registering.

**Prerequisite(s):** Permission of Instructor and Program Director.

**Notes:** May be taken for either 1.5 credits or 3 credits in fall and spring semesters. No more than total 6 credits may be taken
from combination of TCOM 598, 599, 696, and 697 for credit in TCOM program.

Hours of Lecture or Seminar per week: 1.5-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

TCOM 603 - Standards for Advanced Optical Networks

Credits: 3 (NR)
Introduces current and upcoming global optical networking standards. Introduces currently deployed optical networking standards, primarily SONET, and proceeds with evolution of next generation optical networks as envisioned by various standards body. Covers standard work on Automatic Switched Optical Networks being worked on at ITU and Generalized Multi-Protocol Label Switching being worked on at IETF. Also covers evolution of Ethernet from local area networking to wide area networking, specifically the G.Etna standard that is being developed by ITU, and T1.X1 committee and 802.xxx developed by IEEE.

Prerequisite(s): TCOM 503 and 513

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 606 - Advanced Mobile Communications Systems

Credits: 3 (NR)
Introduction to post-second generation cellular systems; benefits and features of third-generation (3G) systems and personal communications services (PCS); review of air interface standards and transmission technologies for mobile and quasi-stationary wireless systems, including cellular networks, satellite networks, indoor systems (Wi-Fi, Personal Local Area Networks, Orthogonal Frequency Multiplexing, Ultra Wide Band technologies); review of network control strategies; investigation of user authentication, privacy, and data and voice encryption aspects. Evolving technology, analysis of competing multiple access methods, transition plans, and backward compatibility between 2G, 21/2 G, 3G, and future systems, with possible fallback plans.

Prerequisite(s): TCOM 552

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 607 - Satellite Communications

Credits: 3 (NR)
Topics include introduction to satellite communications systems; historical aspects; orbital mechanics and launchers; satellite components such as payload, orbital manoeuvering systems, cooling systems, and antennas; look angle predictions; link budget; overall link design; multiple access such as TDMA, CDMA, ALOHA, TDMA, and MFTDMA; error control for digital satellite links; propagation effects on satellite links; elements of VSAT systems and nongeostationary satellite systems; and direct broadcast satellite services.

Prerequisite(s): TCOM 551.
TCOM 609 - Interior Gateway Protocol (IGP) Routing

Credits: 3 (NR)
Discusses development of Interior Gateway Protocols, including standards documents; interaction between various interior and exterior gateway protocols; design procedures and implementation aspects; field trial issues; and analysis of latest RFC information posted on IETF web site.

Prerequisite(s): TCOM 509 and 515, or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 610 - Border Gateway Protocol (BGP) Routing

Credits: 3 (NR)
Discusses development of Border Gateway Protocol and its application in today's Internet routing architecture. Covers evolution of Internet, BGP routing standard specifications (RFCs), interaction between various routing protocols, network BGP routing design principals and procedures for enterprise and ISP networks, BGP's real-world implementation and configuration syntax, network scalability and convergence issues, and the latest extension and proposals for new standards.

Prerequisite(s): TCOM 509 and 515, or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 611 - Multi-Protocol Label Switching (MPLS)

Credits: 3 (NR)
Develops full understanding of Multi-Protocol Label Switching (MPLS) theory, technology, and implementation aspects through detailed analysis of MPLS routing concepts and protocol stacks, and completion of major project to reinforce understanding of MPLS.

Prerequisite(s): TCOM 609 or 610

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 660 - Network Forensics

Credits: 3 (NR)
Deals with collection, preservation, and analysis of network-generated digital evidence so it can be successfully presented in
civil or criminal court of law. Examines relevant federal laws and private sector applications. Examines capture/intercept of
digital evidence, analysis of audit trails, recordation of running processes, and reporting of such information.

Equivalent to CFRS 660

Prerequisite(s): TCOM 509, and working knowledge of computer programming.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 661 - Digital Media Forensics

Credits: 3 (NR)
Deals with collection, preservation, and analysis of digital media so this evidence can be successfully presented in civil or
criminal court of law. Examines relevant federal laws and private sector applications. Examines seizure, preservation, and
analysis of digital media.

Equivalent to CFRS 661

Prerequisite(s): TCOM 548 and 556, or TCOM 562, and working knowledge of computer operating systems; or permission of
instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 662 - Advanced Secure Networking

Credits: 3 (NR)
Advanced technologies in network security that can be applied to enhance enterprise and ISP's network security. Covers network
perimeter defense concept and various components for complete layered defense system. Examines each component and its
technologies, including TCP/IP protocol vulnerabilities, router access control list (ACL), dynamic ACL, firewall, network
address translation (NAT), virtual private network (VPN), IPSec tunnels, intrusion detection system (IDS), routing protocol
security, denial-of-service (DOS) attack, DOS detection and mitigation techniques.

Prerequisite(s): TCOM 509 and 562, and a working knowledge of network routing protocols.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 663 - Operations of Intrusion Detection and Forensics

Credits: 3 (NR)
Introduces students to network and computer intrusion detection and its relation to forensics. It addresses intrusion detection
architecture, system types, packet analysis, and products. It also presents advanced intrusion detection topics such as intrusion
prevention and active response, decoy systems, alert correlation, data mining, and proactive forensics.

Equivalent to CFRS 663
Prerequisite(s): TCOM 509 and 529 and a working knowledge of computer programming.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 664 - Incident Response Forensics

Credits: 3 (NR)

This course addresses incident detection, response, and those aspects of computer forensics pertinent to the investigation of trade secret theft, economic espionage, copyright infringement, piracy, and fraud. Procedures for gathering, preserving, and analyzing forensic evidence are discussed in detail and are applied to both computer and network incident response forensics.

Equivalent to CFRS 664

Prerequisite(s): TCOM 509 and TCOM 529.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

TCOM 690 - Advanced Topics in Telecommunications

Credits: 3 (RT)
Advanced topics from recent developments and applications in various engineering disciplines in specialty modules 1, 2, and 3 of TCOM program. Advanced topics chosen so that they do not duplicate existing TCOM courses. Active participation of students encouraged in form of writing and presenting papers in various research areas of advanced topic. Enhances professional engineering community's understanding of breakthrough developments in specific areas.

Prerequisite(s): Permission of instructor; specific prerequisites vary.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 691 - Advanced Topics in Telecommunications

Credits: 3 (RD)
Advanced topics from recent developments and applications in various engineering disciplines in specialty modules 4 and 5 of TCOM program. Advanced topics are chosen in such a way that they do not duplicate existing TCOM courses. Active participation of students encouraged in form of writing and presenting papers in various research areas of advanced topic. Enhances professional engineering community's understanding of breakthrough developments in specific areas.

Prerequisite(s): Permission of instructor; specific prerequisites vary.
**TCOM 696 - Independent Reading and Research**

Credits: 1.5-3.0 (RD)
Study of selected area in specialty modules 1, 2, or 3 under supervision of faculty member. Written report required.

**Prerequisite(s):** Specified by instructor or advisor.

**Notes:** No more than total of 6 credits may be taken from combination of TCOM 598, 599, 696, and 697 for credit in TCOM program.

**Hours of Lecture or Seminar per week:** 1.5-3
**Hours of Lab or Studio per week:** 0
**Grading:** Graduate Special

**TCOM 698 - Telecommunications Projects Course**

Credits: 3 (NR)
To be taken toward end of degree program within any of modules 1, 2, or 3. Primary activity is completing major applied project, preferably with group of two to three people. Secondary goal is consolidating training before graduation so that, in some cases, it may act as capstone course. Students and outside telecommunication industry managers present ideas for projects and, through grouping of students, new skills and approaches may be learned. Some class time used for discussion of projects, either to monitor progress or explore alternative approaches. Readings, class-time discussion of current trends, difficulties, and new opportunities for industry most relevant to module. Concludes with presentations of projects to department faculty.

**Prerequisite(s):** Graduate standing with at least 18 credits or permission of department.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**TCOM 699 - Telecommunications Project Course**

Credits: 3 (NR)
Capstone of degree program under the specialty modules 4 or 5. To be taken toward end of degree program. Primary activity is completion of major applied project, preferably as two- to three-person group. Secondary goal is consolidation of training before graduation. Students, outside telecommunication industry managers present ideas for projects. From these ideas, group projects selected. Some classroom time used to discuss projects, to either monitor progress or explore alternative approaches. Readings, class-time discussion of current trends, difficulties, and new opportunities for the industry. Projects presented to department faculty at end of semester.

**Prerequisite(s):** Completion of at least 24 credits in the MS in Telecommunications program.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**TCOM 707 - Advanced Link Design**

Credits: 3 (NR)
Topics include advanced satellite link design such as VSAT optimization, intersatellite systems, and propagation mitigation trade-offs; radar link design such as primary and secondary radars, range ambiguities, false alarms, Doppler radar, FM radar, radar tracking, radar transmitters and receivers, and phased array radars; terrestrial wireless link design including line of sight, LMDS, and nonline of sight; optical link design including laser options, diffraction limits, lidar and communications links, tracking limitations, and GEO and LEO intersatellite link design; Wi-Fi link design; and directed energy systems.

Prerequisite(s): TCOM 551, TCOM 607, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**TCOM 750 - Coordinating Seminar**

Credits: 3 (NR)
Open only to students in MA or MS in telecommunications programs with at least 18 credits of course work prior to registration. Topics include specific telecommunications problems in management, law, engineering, education, and communications. Focuses on ways a problem in one area can create or solve a problem in other areas.

Prerequisite(s): Open only to students in the MA or MS in telecommunications programs with at least 18 credit hours of course work prior to registration.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**Telecommunications (TELE)**

Offered by the School of Public Policy

**TELE 694 - Telecommunications Internship**

Credits: 3-6 (RT)
Students work in approved professional-level telecommunications position, meeting regularly with agency and university internship supervisors. Paper and journal are required, as well as minimum 60 hours work for each credit of enrollment. Usually, students enroll in internships at end of program of study.

Prerequisite(s): Graduate standing, and permission of MA in telecommunications program director.

Hours of Lecture or Seminar per week: 1-2
Hours of Lab or Studio per week: 0
Grading: Graduate Special
**TELE 730 - Telecommunications Management**

Credits: 3 (NR)
Surveys strategic and organizational issues in field of telecommunications management. Focuses on strategic management; oriented toward executive management level of telecommunications firms.

**Prerequisite(s):** Graduate standing.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TELE 750 - Coordinating Seminar**

Credits: 3 (NR)
Topics include specific telecommunications problems in management, law, engineering, education, and communication. Focuses on ways a problem in one area can create or solve a problem in other areas.

**Prerequisite(s):** Open only to students in MA or MS in telecommunications programs with at least 18 credits of course work.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TELE 798 - Directed Readings and Research**

Credits: 1-3 (NR)
Specialized course designed for students who seek to explore telecommunications topic in greater depth than through current course work provided in curriculum. Written report required; oral or written exam may also be required.

**Prerequisite(s):** Graduate standing in telecommunications, 15 graduate credits completed, and permission of department.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TELE 799 - Thesis**

Credits: 1-6 (RD)
Individualized section form required. Original research related to student's concentration in telecommunications. Research must result in document meeting university standards.

**Prerequisite(s):** Degree candidacy in MA in telecommunications, completion of 24 credits of graduate course work, and approval of thesis proposal by faculty advisor and telecommunications director.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**Grading:** S/NC
Theater (THR)

Offered by the College of Visual and Performing Arts

THR 101 - Theatrical Medium

Credits: 3 (NR)
Theater from the inside workings of production to informed and lively engagement with the art. Enhances an understanding of the nature of theater in society.

Fulfills Mason Core requirement in arts.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

THR 150 - Greeks to Restoration

Credits: 3 (NR)
Examines the development of Western drama and the collective art of theater from its beginnings through Shakespeare. Considers readings in dramatic literature and history of theater in social and cultural contexts.

Fulfills Mason Core requirement in arts.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

THR 151 - Romanticism to Present

Credits: 3 (NR)
Considers readings in dramatic literature and history of western theater in social and cultural contexts from the romantic period to present day.

Fulfills Mason Core requirement in arts.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

THR 190 - Special Topics

Credits: 1-3 (RT)
Rotating topic. Introductory seminar in areas of special interest.
Notes: May be repeated for maximum 12 credits.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

THR 191 - Practical Theater Seminar

Credits: 0 (RT)
Each semester registered students will 1) attend a Theater at Mason production, guest lecture or workshop, and 2) participate in a production load-in and 3) participate in a production strike. To graduate as a Theater major students must complete 4 semesters of the course. Course is repeatable up to twice in one semester.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Spring

THR 196 - Performance and Design Practicum

Credits: 1 (NR)
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Player production. Assignments include performance, design, and stage management. Open to all Theater majors, theater minors, and non-majors.

Notes: Successful completion of this course is required to earn a Theater degree.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Summer, Spring

THR 197 - Management/Literary Practicum

Credits: 1 (NR)
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Positions include directing, dramaturgy, and leadership in technical productions. Open to all theater majors, theater minors, and non-majors.

Notes: Successful completion of this course is required to earn a Theater degree.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Summer, Spring

THR 198 - Theatrical Construction Practicum
Credits: 1 (NR)
Academic credit awarded for satisfactory completion of a minimum of 30 hours of participation on a Mason Players production. Areas include scenery construction, scene painting, costume construction, light hang, light focus and props. Theater majors, theater minors, and non-majors welcomed.

Notes: Successful completion of this course is required to earn a Theater degree. Recommended for freshman Theater majors, first year transfers, and new Theater majors. Contact School of Theater for CRN.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
Grading: Satisfactory/No credit only
When Offered: Fall, Spring

THR 199 - Production Run Crew Practicum

Credits: 1 (NR)
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Assignments include run crew, light board operator, sound board operator, wardrobe, and fly crew. Theater majors, theater minors, and non-majors welcomed.

Notes: Successful completion of this course is required to earn a Theater degree. Recommended for freshman Theater majors, first year transfers, and new Theater majors. Contact School of Theater for CRN.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
Grading: Satisfactory/No credit only
When Offered: Fall, Spring

THR 200 - Play Production Practicum

Credits: 1 (RT)
Academic credit is awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Students who have completed THR 196, THR 197, THR 198, and THR 199 may register for THR 200 to receive credit for their participation on additional productions.

Notes: May be repeated for 8 credits. Contact School of Theater for CRN.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 1
Grading: S/NC
When Offered: Fall, Spring

THR 201 - Stage Management

Credits: 3 (NR)
Introduction to the fundamentals of stage management and the stage manager's role for production. Learn and develop the
organizational skills of running and maintaining a production with emphasis on skillful methods in communication and problem solving. Analyzes text from a Stage Manager's perspective. Requirements include creating a stage manager prompt book containing important show documents.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**THR 202 - Literary Management**

Credits: 1 (NR)  
Principles of literary management and dramaturgy for regional/resident theater. Directed primarily toward developing new work.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**THR 203 - Production/Company Management**

Credits: 1 (NR)  
Techniques of production and company management applied to university and professional theater productions.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**THR 210 - Acting I**

Credits: 3 (NR)  
Students practice contemporary acting techniques individually and in a group. Promotes and develops performance and practical communication skills. Attend theatrical productions, and respond to those experiences.

Fulfills Mason Core requirement in arts.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**THR 230 - Fundamentals of Production**

Credits: 3 (NR)  
Students explore current production practices and their historical development in scenery, costumes, lighting, and sound through classroom and hands on experience. Concepts and skills acquired in this class may be applied in theater, film, dance, game design, art, corporate events, and architecture. Lab hours include work on live performances.

Fulfills Mason Core requirement in arts.
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

**THR 235 - Costume Crafts**

Credits: 3 (NR)  
This course serves as the foundation and prerequisite for costume courses in design and construction. Costume Crafts will introduce the principles of apparel design and construction for stage and screen costumes. Requirements for this course will include the complete construction of two items and the compilation of a sample notebook containing important construction techniques.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

**THR 300 - Voice and Speech**

Credits: 3 (NR)  
For performers, presenters, and anyone wishing to improve their speaking voice. Basic techniques in breathing, vocal production, and articulation.

Prerequisite(s): THR 210 or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall.

**THR 301 - Advanced Study in Voice**

Credits: 3 (RD)  
Addresses various topics in technique of vocal production for the actor with an emphasis on playing characters for stage, radio, voice-over, and screen.

Prerequisite(s): THR 300 or permission of instructor.

Notes: May be repeated for a total of 9 credits.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

**THR 303 - Movement for Actors**
Develops the physical aspect of the actor's instrument emphasizing free and responsive expression of impulse and intention, as well as character development and visual storytelling.

**THR 304 - Advanced Movement for Actors**

Credits: 3 (RD)
Advanced work in physical expression, for character development.

- **Hours of Lecture or Seminar per week:** 3
- **Hours of Lab or Studio per week:** 0
- **When Offered:** Fall, Summer, Spring

**THR 305 - Unarmed Stage Combat**

Credits: 3 (NR)
Studies safe, effective techniques for performing violence for stage and screen. Emphasizes acting the fight, safety, and storytelling.

- **Prerequisite(s):** THR 210 and 310, or permission of instructor.
- **Hours of Lecture or Seminar per week:** 3
- **Hours of Lab or Studio per week:** 0
- **When Offered:** Fall, Spring

**THR 310 - Acting II**

Credits: 3 (NR)
Deepens an understanding of performance analysis, and character relationships through scene work.

- **Prerequisite(s):** THR 210 or permission of instructor.
- **Hours of Lecture or Seminar per week:** 3
- **Hours of Lab or Studio per week:** 0
- **When Offered:** Fall, Summer, Spring

**THR 313 - Event Technology**

Credits: 3 (NR)
A theoretical and practical study of event technology. The course will include specifications, layout installation techniques and
operation of sound systems, lighting systems and video systems for event industry sectors.

Prerequisite(s): THR 230 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 314 - Lighting Stagecraft

Credits: 3 (NR)
Practical and theoretical instruction on becoming theatrical electrician. Includes ideas on workplace safety, basic electrical procedures, theatrical electrical production, integrating with other theater professionals, and professionalism.

Prerequisite(s): THR 230 or permission of instructor

Corequisite(s): Must be concurrently enrolled in THR 200

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 315 - Sound Engineering

Credits: 3 (NR)
Study theory and practice of audio engineering for theater and the entertainment industry.

Prerequisite(s): THR 230 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 316 - Scene Painting

Credits: 3 (RD)
Students experience the art and craft of scene painting with the goal of translating design elevations into paint on muslin. Students learn fundamental scene painting techniques and how to use them in combinations to create portraits, murals, landscapes, and textures.

Prerequisite(s): THR 230 or permission of instructor.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 2
When Offered: Fall
THR 320 - Performance Studio

Credits: 3 (NR)
Builds on existing skills in observation, sense memory, relaxation, and improvisation. Students learn variety of methods for scene preparation to apply to their own acting process.

Prerequisite(s): THR 210 and 310, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 321 - Acting Shakespeare

Credits: 3 (NR)
Develops understanding of challenges of performing Shakespeare by building on body of acting skills and knowledge. Focuses on how structure of language in plays reflects, reveals, and expresses character's emotional life. Students use detailed script analysis, expansion of vocal range, and use of actions and objectives to achieve experience of transforming Shakespeare's language into powerful theatrical expressions.

Prerequisite(s): THR 210 and 310, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 329 - Directing

Credits: 3 (NR)
Introduces process for directing through text analysis, rehearsal and staging techniques, and collaborative development of production idea. Students direct and apply concepts to develop a critical and productive perspective.

Prerequisite(s): THR 150-151, 210, or 350; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 330 - Seminar in Technical Theater

Credits: 3 (RT)
Offered periodically; addresses selected topic in design or technical theater on advanced level.

Prerequisite(s): THR 230 or permission of instructor. Rotating topic.

Notes: May be repeated for total 24 credits.
**THR 331 - Drafting and Model Making**

Credits: 3 (NR)
Studies conventions and techniques of drafting and model making as methods of communication in the theatrical production process.

**Prerequisite(s):** THR 230 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**THR 332 - History of Fashion and Dress**

Credits: 3 (NR)
Explores evolution of silhouette, color, fabric, accessories, and make-up appropriate to development of clothing during specific historical eras. Offers broader understanding of sociological context influencing Western dress.

**Notes:** May be repeated for total 9 credits if specific course content differs.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall

**THR 333 - Stage Design**

Credits: 3 (NR)
Fundamentals of creating, developing, and communicating design idea through sketches, plans, rendering, or models. Analysis of text from designer's perspective.

**Prerequisite(s):** THR 230 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**THR 334 - Lighting Design**

Credits: 3 (NR)
Introduces the fundamentals of lighting design, including research, paperwork communication, and technology for lighting. Topics include the controllable qualities of light, basic terminology, equipment, personnel and procedures. Learn to see light and develop a shared vocabulary for describing light and the process. Analyzes texts from designer's perspective.
Prerequisite(s): THR 230.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 335 - Costume Design

Credits: 3 (NR)
Project-oriented class emphasizing the art and process of designing costumes for the stage and screen, including historical period, script analysis, design concepts, color theory, and costume rendering.

Prerequisite(s): THR 230 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

THR 336 - Technical Direction

Credits: 3 (NR)
Analyze scenic units for construction including building techniques, material choices, hardware, stage rigging, and budget estimates.

Prerequisite(s): THR 230 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 337 - Sound Design

Credits: 3 (NR)
Study theory and practice of sound design for theater and the entertainment industry.

Prerequisite(s): THR 230 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 339 - Principles of Design

Credits: 3 (NR)
Introduction to the principles of theatrical design. Course explores various design responsibilities and methods to create visual
images for the stage through script analysis, research, and production team collaboration.

**Prerequisite(s):** THR 230 or permission of instructor

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**THR 340 - Advanced Studies in Directing**

Credits: 3 (NR)  
Expands directing techniques through staging extended scenes or one-act plays. Emphasizes collaborative process and production organization.

**Prerequisite(s):** THR 240 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**THR 342 - Makeup Design**

Credits: 3 (NR)  
Project-oriented class emphasizing makeup for different performance spaces, character age analysis, facial anatomy, and specialized application for theater, opera, dance, film, and television.

**Prerequisite(s):** THR 230 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**THR 343 - Costume Pattern Drafting**

Credits: 3 (NR)  
Pattern development through draping and drafting. Laboratory study and practical experience in construction of stage costumes.

**Prerequisite(s):** THR 235 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**THR 345 - Puppetry**

Credits: 2-4 (NR)  
Exploring of puppetry, and experiments with building and performance styles, through Original work.
Thr 350 - Script Analysis

Credits: 3 (NR)
Critical analysis of dramatic literature as preparation for production and performance. Examination of plot, character, theme, audience impact, and cultural context, and the transformation of intellectual ideas into physical theatrical production elements.

Fulfills writing intensive requirement in the major.

Notes: Writing intensive course.

Thr 351 - Dramatic Theory and Criticism

Credits: 3 (NR)
Chronological study of development of dramatic theory and criticism from Plato and Aristotle through modern movements. Students read plays, theoretical works, and critical responses, and write original criticism of performances or texts.

Prerequisite(s): THR 150 or permission of instructor.

Thr 352 - Dramatic Literature Seminar

Credits: 3 (RT)
Rotating topic. Intensive study of particular topic, period, or genre in dramatic literature.

Notes: May be repeated for a total of 9 credits if specific course content differs.

Thr 355 - Moral Vision in American Theater

Credits: 3 (NR)
Examines vision of American society created and presented in contemporary American theater. Subject defined as "moral" vision because focus is on how we perceive ourselves in relation to others and society's value standards. Perspectives include sociology,
theory of culture, practical theater craft, and literary criticism. Features plays by range of American playwrights.

**Thr 359 - World Stages**

Credits: 3 (NR)
Introduces variety of theatrical traditions and performance theories from around the world, with special emphasis on those not covered in introductory Western drama survey courses, 150 and 151. Students read and discuss dramatic texts, performance theory, and video clips to understand variety of theatrical traditions in cultural and historical contexts. Requirements include two team presentations (taking turns as writer and presenter), one midterm paper, and one solo presentation with accompanying paper.

Fulfills Mason Core requirement in global understanding.

**Thr 365 - Characterization**

Credits: 3 (NR)
Explores method and approach of understanding and creating characters for theater modeled on people from personal experience and observation, imagination, dreams, and other media. Transforms that information into detailed, specific, and vivid physical manifestations. Through presentations of characters drawn from personal experience, students shift understanding of characterization from "outward directed" physical adjustments to physical characteristics and personality character traits that are immediate, familiar, and completely realized from "inner driven" connections to their own lives.

**Prerequisite(s):** THR 210.

**Thr 380 - Playwriting I**

Credits: 3 (RD)
Exposure to principles of dramatic writing, including character, plot, dramatic structure, dialogue, exposition, setting, and creating theatrical images using examples from plays, screenplays, and students' own work.

**Thr 381 - Playwriting II**
Credits: 3 (RD)
Intensive continuation of work begun in THR 380.

Prerequisite(s): THR 380 or permission of instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
When Offered: Spring

THR 382 - Screenplay Workshop

Credits: 3 (NR)
Studies screenwriting as dramatic form of 20th, 21st centuries. Explores story, plot structure, three act-structures, mythic structures, fundamental story patterns, character, thinking, and writing visually.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 395 - Theater as the Life of the Mind

Credits: 3 (NR)
Traces four subjects (battle of the sexes, good gifts, cyclical tragedy, and eschatology) from ancient theater to contemporary plays, television, and movies, using literary criticism, history, political theory, comparative religion, sociology, and anthropology.

Fulfills Mason Core requirement in arts.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 401 - Professional Presentation

Credits: 3 (NR)
Examines persuasive communication, with an emphasis on making presentations and addressing groups, both large and small. Hones the ability to project a personal passion while communicating information about any discipline to general audiences.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 405 - Advanced Stage Combat

Credits: 3 (RD)
Armed Stage Combat techniques are explored, unarmed techniques solidified, and advanced choreography mastered in this study of safe and effective theatrical storytelling through violence for Stage and Screen appropriate towards national certification as
Actor-Combatant.

Prerequisite(s): THR 305 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer.

THR 410 - Acting for the Camera

Credits: 3 (NR)
Designed for students with a strong interest in pursuing a professional career in acting and is focused primarily on the particular techniques for screen acting in film and television.

Prerequisite(s): Must have completed THR 310 with a grade of C or better. Prerequisite enforced by registration system.

Notes: This class is restricted to Theater majors and minor only.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

THR 411 - Great Film Directors

Credits: 3 (NR)
Examines examples of directing for dramatic storytelling on screen and its social and historical contexts. Focuses on specific developments in the art of movie making.

Fulfills Mason Core requirement in Arts.

Prerequisite(s): Sophomore standing (30 credit hours completed).

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

THR 412 - Great Film Performances

Credits: 3 (NR)
Examines the development and evolution of acting style and genres through exemplary performances on screen.

Fulfills Mason Core requirement in Arts.

Prerequisite(s): Sophomore standing (30 credit hours completed).

Hours of Lecture or Seminar per week: 3
THR 420 - Advanced Performance Studio

Credits: 3 (RD)
Advanced scene study for stage and film. Rotating topics address professional perspectives and acting styles. Repeatable to 9 credits.

Prerequisite(s): Must have completed THR 320 with a grade of C or better. Prerequisite enforced by registration system.

Notes: Course is repeatable to 9 credits.

THR 421 - One-Person Show

Credits: 3 (NR)
Explores creative writing, staging, and performance while developing short, original work culminating in the successful writing, a one-person show.

Prerequisite(s): THR 210 and THR 310 or permission of instructor.

THR 423 - Audition Techniques: Stage and Camera

Credits: 3 (NR)
Develops effective audition techniques for performers through preparation of material for stage and camera, and explores industry standards and casting protocols through practical application.

Prerequisite(s): THR 310 or equivalent, or permission of instructor. Prerequisite enforced by registration system.

THR 424 - Contemporary Women Playwrights
Credits: 3 (RD)
Explores identity and culture, sexuality and gender, work, relationships, and power through the eyes of female dramatists and performance artists. Analyzes texts and issues through readings, video, and live performances.

Prerequisite(s): Junior standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 425 - Verse Speaking

Credits: 3 (NR)
Explores verse literature and mechanics of verse structure through reading, discussing, and reciting major verse plays of Western drama from the Middle Ages through the 20th century. Focuses on various verse forms, paying particular attention to vocal clues within verse structure, the meaning of rhythm, and practicing vocal techniques used in speaking texts in class. Students also prepare weekly presentations of playwrights, and historical backgrounds of plays and their periods.

Prerequisite(s): THR 210 and 310, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 427 - Musical Theater Workshop

Credits: 3 (RD)
Develops performance techniques necessary for performance in musical theater. Students will prepare and perform musical theater pieces. This course is repeatable to twelve (12) credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 434 - Advanced Lighting Design

Credits: 3 (NR)
In-depth study of lighting design focused on the aesthetics of stage lighting and advanced conceptualization and communication of design ideas. Extensive work with script analysis, research, and graphic representation of theatrical lighting designs. Intensive practical experience in laboratory and production assignments.

Prerequisite(s): THR 230 and 334, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 440 - Advanced Studies in Directing/Dramaturgy
Credits: 3 (NR)
Examines theory and practice of collaborative development of production ideas by director and dramaturg teams. Students draw from extensive study in field to support production ideas from classical and modern repertoire to be presented as written and oral projects before faculty panel.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** Junior or senior standing; completion of or concurrent enrollment in all Mason Core courses; THR 150 or THR 151, and THR 329; or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**THR 448 - Foundations of Theater Education**

Credits: 3 (RD)
Introduces and explores various theater teaching specialties. Examines philosophical, pedagogical, and practical issues in context of diverse teaching situations and venues that range from public school to undergraduate and graduate training to commercial establishments.

**Prerequisite(s):** Junior standing (60 credit hours completed) and Theater Teaching Concentration admission requirements or permission of the instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall

---

**THR 449 - Elementary Theater Education**

Credits: 3 (RD)
An in-depth exploration of teaching methods and classroom management for PK-6 theater education.

**Prerequisite(s):** Junior standing (60 credit hours completed) Theater Teaching Concentration admission requirements or permission of the instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring

---

**THR 450 - Secondary Theater Education**

Credits: 3 (NR)
This course explores teaching methods for theater that are appropriate for all students, including exceptional students, gifted and talented, and those with disabling conditions. It will cover requirements of the Virginia Theater Standards of learning, curriculum and instructional procedures for secondary grades 6-12 (both middle and secondary schools).

**Prerequisite(s):** Junior standing (60 credit hours completed) Theater Teaching Concentration admission requirements or
permission of the instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**THR 451 - Theater Pedagogy**

Credits: 2 (RD)  
This advanced exploration of teaching methods for K-6 enrichment programming includes classroom hours devoted to pedagogy and field study for practical application, leadership and administration for independent arts programming.

**Prerequisite(s):** Sophomore standing and enrollment in Theater Education concentration; or permission of instructor.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**THR 455 - Theater Education Internship**

Credits: 4-12 (RD)  
Full semester of supervised teaching experience in approved school programs PK-12. Credits based on number of teaching contact hours per week.

**Prerequisite(s):** Successful completion of Theater Teaching Concentration Coursework and students must pass the VCLA before student teaching (and the Praxis II (Theater: Content Knowledge) test during the internship semester).

**Hours of Lecture or Seminar per week:** 4-12  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**THR 480 - Advanced Playwriting**

Credits: 3 (RD)  
Advanced playwriting workshop in which students explore their own voice in theatrical writing.

**Prerequisite(s):** THR 381, or permission of instructor.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring

---

**THR 482 - Advanced Screenplay Workshop**
Screenwriting workshop emphasizing student development in screenplay form, structure, and storytelling with emphasis on craft, character, and story culminating in a screenplay.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** THR 382 or ENGL 332/ENGH 372 or other writing preparation course as approved by the instructor.

**THR 484 - Translation & Adaptation for Stage & Screen**

Credits: 3 (NR)
This interdisciplinary course will introduce students to the arts of translation and adaptation for the stage and screen. Students will read examples of translations and adaptations, identify challenges in each, and discuss them with professionals who translate or adapt works for theater, film and/or opera. Students are also expected to apply their skills to one short and one long translation/adaptation project, and present their work to the class.

**Prerequisite(s):** Junior standing

**THR 490 - Special Topics in Theater**

Credits: 1-6 (RT)
Rotating topic. Advanced seminar in topics of special interest, including dramatic writing or other media, and feminism in contemporary theater.

**Notes:** May be repeated for a total of 24 credits, provided specific course content differs.

**THR 491 - Seminar on the Profession**

Credits: 1-3 (RD)
Rotating topic. Advanced seminar in topics of special interest, including dramatic writing or other media, and feminism in contemporary theater.

**Prerequisite(s):** Student must have completed at least 60 credit hours.

**Notes:** Repeatable to 6 credits with permission of the Chair. Rotating Topics. Dependent on credits hours offered, class time will vary from 1 hour to 2 hours, 40 minutes.
THR 492 - Studio Project

Credits: 1-3 (RD)
Required for students assigned as director, designer, dramaturg, or stage manager for a Mason Players Studio production. Instruction and mentorship from appropriate Theater faculty to better develop the student's aesthetic. Required generation of portfolio material. This class is restricted to students participating in Studio productions within the academic year of the course offering.

Prerequisite(s): THR 329 or THR 333 or THR 334 or THR 335 or THR 337.

Notes: This course is repeatable to 9 credits.

THR 493 - Collaborative Lab Experience

Credits: 3 (NR)
Students will collaborate in a laboratory experience to create original material for the stage or screen. Course content will be project specific.

Prerequisite(s): Theatre major with junior standing (60 credit hours completed).

THR 494 - Field Experience

Credits: 1-6 (RT)
Experience in a theatrical organization to provide opportunity to apply classroom training, knowledge, skills, and theory in a professional situation. Activity must be approved by department chair.

Prerequisite(s): Involves off-campus experience with a professional theater. Students must obtain permission of instructor prior to registering.

Notes: May be repeated for a total of 12 credits.
THR 495 - Senior Capstone Project

Credits: 3 (RD)
Student must submit a written project proposal to area of concentration for consultation. If accepted, proposal will be presented to the full faculty for approval.

Prerequisite(s): Must have declared a concentration, have completed at least 60 credit hours, and must have completed 4 credits of Practicum.

Notes: Production proposals will be subject to calendar availability. Course is repeatable to 6 credits with permission of Chair.

Thr of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 496 - Text in Production

Credits: 3 (NR)
In-depth investigation of collaborative nature of theatrical arts. Examines discrete creative disciplines; acting, directing, dramaturgy, and design as discussed by distinguished professionals and scholars. In-depth exploration of one selected playscript for the entire semester. Students will work collaboratively in small groups to research, design, direct, and perform scenes from selected text.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): Completion or concurrent enrollment in all theater core courses and all other required Mason Core courses, and junior standing; or permission of instructor.

Thr of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 497 - Independent Study

Credits: 1-6 (RT)
Individual research and creative project in close consultation with instructor. Selection from projects in performance, directing, technical theater and design, playwriting, or theater history and criticism.

Prerequisite(s): Open only to theater majors with 90 credits and special permission of department chair

Notes: May be repeated for a total of 24 credits, provided suffix citing specific course content is different

Thr of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
THR 525 - Advanced Musical Theater Workshop

Credits: 3 (RD)
Students hone performance techniques necessary for performance in musical theater and contemporary operetta. Students will practice and perform musical theater pieces.

Notes: Course is repeatable to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 530 - Topics in Theater Design

Credits: 3 (RD)
In-depth study of scenic, costume, lighting, or sound design. Extensive work with script analysis, historical and conceptual research, visual communication of design ideas, and technical paperwork. Focus on aesthetics, production requirements, and collaboration.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall

THR 540 - Directing Techniques

Credits: 3 (RD)
As an examination of the directorial process for stage and screen, this course will explore directing theory, preparation, and practice.

Notes: This course is repeatable to six (6) credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 548 - Advanced Foundations of Theater Education

Credits: 3 (RD)
Explores various theater teaching specialties in venues that range from public school to undergraduate and graduate training to commercial establishments.

Prerequisite(s): Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.

Hours of Lecture or Seminar per week: 3
THR 549 - Advanced Elementary Theater Ed

Credits: 3 (RD)
An in-depth exploration of teaching methods and classroom management for PK-6 theater education combined with advanced managerial skill training.

Prerequisite(s): Graduate standing, eligibility for post-baccalaureate in Theater Education Licensure, or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 550 - Advanced Secondary Education

Credits: 3 (NR)
This course explores teaching methods for theater that are appropriate for all students, including exceptional students, including gifted and talented and those with disabling conditions. It will cover requirements of the Virginia Theater Standards of Learning, curriculum and instructional procedures, as well as theater classroom management, for secondary grades 6-12 (both middle and secondary schools).

Prerequisite(s): Graduate standing, eligibility for post-baccalaureate certificate in Theater Education, or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 551 - Advanced Theater Pedagogy

Credits: 3 (NR)
Advanced concepts in teaching methods for K-6 enrichment programming based on further exploration of multiple intelligences, including classroom pedagogy and field study for practical application of curriculum and administrative skills.

Prerequisite(s): Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.

Notes: Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.
THR 555 - Theater Education Internship

Credits: 4-12 (RD)
Full semester of supervised teaching experience in approved school programs PK-12. Credits based on number of teaching contact hours per week.

Prerequisite(s): Successful completion of Theater Teaching Concentration Coursework and students must pass the VCLA and Praxis I prior to the internship semester.

Hours of Lecture or Seminar per week: 4-12
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 560 - Advanced Script Analysis

Credits: 3 (NR)
Critical analysis of dramatic literature as preparation for production and performance. Examination of plot, character, theme, audience impact, and cultural context, and the transformation of intellectual ideas into physical theatrical production elements.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 571 - Advanced Playwriting Workshop

Credits: 3 (NR)
Advanced playwriting workshop in which students explore their own voice in theatrical writing.

Prerequisite(s): Undergraduate degree or equivalent, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 590 - Special Topics for Graduate Study

Credits: 1-6 (NR)
Rotating topic. Advanced seminar in topics for stage and screen studies, including education, performance, design, research, writing, and styles in theater or other media.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 591 - Graduate Seminar
Credits: 1-3 (NR)
Addresses the realities living and working in the theater and the film industry.

Notes: Rotating Topics. Dependent on credits hours offered, class time will vary from 1 hour to 2 hours, 40 minutes.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 599 - Independent Study

Credits: 1-6 (RD)
Independent reading, performance, or research on a specific project under direction of selected faculty member. May include attendance in a parallel undergraduate course.

Prerequisite(s): Undergraduate degree or equivalent, or permission of instructor.

Notes: May be repeated for a total of 18 credits.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

THR 610 - Acting Mentorship

Credits: 3 (NR)
This class gives students the chance to work with a faculty mentor while they apply their acting skills to a full-length public performance. Students create a record of the creative process through mentored practical production assignments. Actors enrolled in this course must receive prior approval for their projects for the stage or screen and will be expected to submit a written reflection on the complete acting process.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 620 - Acting Techniques

Credits: 3 (RD)
Students explore selected acting techniques for stage and screen. Topics vary from scene work to specialty areas—such as movement, voice and style—with an emphasis on developing bold physical, psychological and emotional expression.

Notes: Repeatable up to 12 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
THR 640 - Directing Mentorship

Credits: 3 (NR)
This class gives students the chance to work with a faculty mentor while they apply their directing skills to a full-length public performance. Students create a record of the creative process through mentored practical production assignments. Directors enrolled in this course must receive prior approval for their projects for the stage or screen and will be expected to submit a written reflection on the full directorial process.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 651 - Advanced Dramatic Theory and Criticism

Credits: 3 (NR)
A chronological study of development of dramatic theory and criticism from Plato and Aristotle through modern movements. Students read plays, theoretical works, and critical responses, and write original criticism of performances or texts. They also take turns leading critical texts, meet one-on-one with their instructor for individualized mentoring, and prepare at least one essay for publication.

Prerequisite(s): Graduate standing or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

Tourism and Events Management (TOUR)

Offered by the College of Education and Human Development

TOUR 110 - Professionalism and Civility

Credits: 1 (NR)
Focuses on developing competencies in the areas of professionalism and civility in a variety of settings including professional image, conduct at work, telephone, written, oral, and electronic etiquette, table manners, and social networking with an emphasis on the cultural needs for honoring commitments and obligation.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

TOUR 190 - Wedding Planning

Credits: 3 (NR)
Introduction to the planning and management of weddings. Explores social, political, economic, cultural, religious, and historical influences on wedding planning decision-making and business strategies. Reviews practices relevant to successful wedding
planning, and consultancy for diverse clients and settings.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TOUR 200 - Introduction to Travel and Tourism**

Credits: 3 (NR)  
Introduction to travel and tourism from local to international levels. Overview of the scale, scope, and organization of the industry, with emphasis on the development of natural, cultural, heritage, and recreational resources of tourism. Identifies issues related to the economic, technological, legal, and political aspects of tourism.

**Notes:** Open to nonmajors.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TOUR 210 - Global Understanding through Travel and Tourism**

Credits: 3 (NR)  
Examines tourism as a global industry and human activity that promotes and facilitates understanding of historical and cultural values, and of international institutions that characterize the broader global system.

Fulfills Mason Core requirement in global understanding.

**Notes:** Open to nonmajors.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TOUR 220 - Introduction to Event Management**

Credits: 3 (NR)  
Explores principles and practices of managing medium- and large scale events including festivals, conventions, concerts, shows, sporting events, and ceremonies. Emphasizes organization, site preparation, communications, personnel, and security as well as evaluation and innovation.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TOUR 221 - Event Implementation and Evaluation**

Credits: 3 (NR)  
Introduction to event implementation and evaluation through involvement in on-site event delivery and analysis. Studies
participant motivation and economic, social, environmental, and cultural impacts in relation to an event's products and services.

Prerequisite(s): TOUR 220. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 230 - Introduction to Hospitality Management

Credits: 3 (NR)
This course is an introduction to hospitality management, including an overview of management in the hospitality industry and professional opportunities. The concepts and practices of hospitality management are examined and discussed. The scope and forms of hospitality organizations are reviewed, as well as trends within these organizations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 241 - Practicum

Credits: 3 (NR)
Provides 120 hours of introductory supervised professional fieldwork experience in an approved tourism, events, or hospitality management setting for 10 to 14 weeks (10 weeks maximum for the Summer term) under the supervision of a practicum Faculty Supervisor and Agency Supervisor. Includes meetings and assignments before, during, and after the practicum. Start date is the first day of classes.

Prerequisite(s): TOUR 200, TOUR 220, sophomore standing, and TOUR major status. Prerequisite enforced by registration system.

Notes: TEM majors only

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 10-12
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

TOUR 301 - Hotel Management

Credits: 3 (NR)
Explores interrelated systems in hotel management, including front desk, reservations, housekeeping, food/beverage, telecommunications, guest services and security. Reviews and segments hotel products and associated management challenges.

Prerequisite(s): TOUR 230. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall
TOUR 310 - Food and Beverage Management

Credits: 3 (NR)
Explores the principles of foodservice management regarding production and selling of food and beverage products. Categorizes various types of food, wine, beer and spirits. Reviews foodservice buying, pricing, menu planning, production, storage, service, controls and quality assurance.

Prerequisite(s): TOUR 230. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

TOUR 311 - Women and Tourism

Credits: 3 (NR)
Focuses on women as hosts and guests. Using social theory, explores issues regarding the history and evolution of tourism as a gendered system. Addresses family, solo and business travel, and employment, taking into consideration issues related to more and lesser developed countries as they relate to the roles of women in international tourism.

Fulfills Mason Core requirement in social and behavioral science.

Notes: Open to nonmajors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 312 - Ecotourism

Credits: 3 (NR)

Analyzes tourism that is nature-based and entails a learning component while striving for environmental and sociocultural sustainability within the context of financial viability. Considers markets, role of protected areas, impacts, business aspects, external environments, organizations and policies, and research trends and needs. Designated a Green Leaf Course.

Prerequisite(s): TOUR 200 Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 313 - Event Technology
Credits: 3 (NR)
Explores theoretical and practical considerations of event technology. Examines specifications, layout installation techniques and operation of sound systems, lighting systems and video systems for event industry sectors.

Prerequisite(s): TOUR 220. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

TOUR 320 - Hospitality Management Information Systems

Credits: 3 (NR)
Introduces management information systems (MIS) technology and its application to hospitality sectors from managerial and strategic perspectives. Surveys computer applications, products and trends in gathering, analyzing, storing and communicating information within hospitality sectors.

Prerequisite(s): TOUR 230. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

TOUR 330 - Resort Management

Credits: 3 (NR)
Surveys effective practices in the management of resort recreation enterprises. Examines basic resort operations, including front desk, food and beverage, amenities, and housekeeping. Covers management of a variety of resort types, such as ski resorts, beach resorts, dude ranches, business retreats, adventure camps, health spas, and golf resorts.

Prerequisite(s): TOUR 200 and TOUR 220 Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 340 - Sustainable Tourism

Credits: 3 (NR)

Considers the characteristics of environmentally, economically, and socioculturally sustainable tourism, and assesses the possibilities and limitations for its implementation in a variety of destination and product settings. Emphasizes conventional "mass" tourism as well as small-scale "alternative" tourism.

Designated a Green Leaf Course.

Prerequisite(s): TOUR 200 and TOUR 220 Prerequisite enforced by registration system.
TOUR 352 - Heritage and Cultural Tourism

Credits: 3 (NR)
Analyzes historical and cultural attractions, including museums, canals, monuments, pilgrimage sites, military sites, and cultural and heritage landscapes. Covers presentation and interpretation, African-American and Native American heritage, management and operational considerations, and marketing.

Prerequisite(s): TOUR 200 and TOUR 220 Prerequisite enforced by registration system.

TOUR 362 - Cultural and Environmental Interpretation

Credits: 3 (NR)
Focuses on communication processes and practices used by professionals to explain and interpret special characteristics of cultural and environmental resource sites for visitors. Discusses conceptual principles for planning interpretive programs, as well as techniques for analyzing and disseminating information and entertainment through various media. Examines delivery of interpretive messages across a variety of audiences, strategies for programming interpretive services, and the administration and evaluation of interpretive services at tourism, event, and recreation sites.

Equivalent to PRLS 362

Prerequisite(s): PRLS 300, or PRLS 328, or TOUR 352

TOUR 412 - Tourism and Events Marketing

Credits: 3 (NR)
Provides understanding and tools for marketing and management of financial resources in entrepreneurial tourism enterprises. Includes market planning, business planning, feasibility assessment, investment analysis, basic accounting, and operational control.

Prerequisite(s): TOUR 200, TOUR 220, PRLS 310, and PRLS 410 Prerequisite enforced by registration system.

TOUR 414 - Tourism and Events Finance
Develops skills and competencies for the management of financial resources in tourism and events management enterprises. Students learn about business planning, feasibility assessment, investment analysis, and basic accounting and operational control, with special emphasis on application to this unique industry.

**Prerequisite(s):** TOUR 200, TOUR 220, PRLS 310, and PRLS 410 Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### TOUR 416 - Hospitality Sales

Credits: 3 (NR)  
Explores the principles of personal selling within hospitality sectors. Reviews the nature of buyers and sellers, situational selling, the sales process and relationship management.

**Prerequisite(s):** TOUR 230, PRLS 410. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

### TOUR 418 - Hospitality Accounting

Credits: 3 (NR)  
Reviews concepts and methods related to the collection, processing, and interpretation of accounting data for managerial planning, control and evaluation as applied to hospitality enterprises.

**Prerequisite(s):** TOUR 230, PRLS 410. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

### TOUR 420 - Tourism Planning/Policy

Credits: 3 (NR)  
Principles of planning and policy that apply to integrated and sustainable tourism development at the international, national, state, regional, local, and site scale. Considers government, industry, and community perspectives. Designated a Green Leaf Course.

**Prerequisite(s):** PRLS 310 and TOUR 340 Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
TOUR 440 - Meetings and Conventions

Credits: 3 (NR)
Analyzes meetings, incentives, conventions, and exhibitions with respect to business environment and structure, industry suppliers, site and facility selection, human resource management, legal and financial issues, marketing and promotion, and event organization.

Prerequisite(s): TOUR 220 and PRLS 310. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 450 - Hospitality Human Resources Management

Credits: 3 (NR)
Reviews concepts and methods related to the achievement of strategic business goals through employee recruitment, training and development.

Prerequisite(s): PRLS 410. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

TOUR 460 - Hospitality Facilities Operations

Credits: 3 (NR)
Explores the principles applied to facilities systems operations in hospitality sectors. Considers design, planning, layout and maintenance of hospitality properties and systems.

Prerequisite(s): TOUR 340. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

TOUR 470 - Career Preparation

Credits: 1 (NR)
Focuses on current issues in tourism, events and hospitality management with an emphasis on career development strategies.

Prerequisite(s): TEM major, TOUR 241, 60 credits. Prerequisite enforced by registration system.

Notes: Meets for half the semester.
**TOUR 480 - Special Topics**

Credits: 1-3 (RT)
Selected topics reflect interest in specialized area of tourism and events management. Announced in advance.

**Prerequisite(s):** 60 credits

**TOUR 490 - Internship**

Credits: 12 (NR)
Provides 400 hours of advanced supervised professional experience in an approved tourism, events or hospitality management setting for 10 to 14 weeks (10 weeks maximum for the Summer term) under the supervision of a practicum University (Faculty) Supervisor and Agency Supervisor. Provides a continuous and structured opportunity to apply principles and skills developed in the classroom to the solution of practical problems. Requires a minimum of 30 hours/week and a maximum of 40 hours/week. Includes meetings and assignments before, during, and after the internship. May register for only one additional course for up to three (3) credits (departmental approval required).

**Prerequisite(s):** 90 credits, TOUR 241, TOUR 340, TOUR 470 and PRLS 410. Open to TEM Majors only. Prerequisite enforced by registration system.

**Notes:** Open only to majors.

**TOUR 499 - Independent Study**

Credits: 1-3 (NR)
Faculty directed independent study of approved topics in tourism and events management.

**Prerequisite(s):** TOUR 200 and 220, and 90 credits.

**Notes:** TEM majors only.
TOUR 540 - Sustainable Tourism Management

Credits: 3 (NR)

Examines components and interrelationships within tourism systems and assesses the potential economic, sociocultural, and environmental impacts associated with this sector. Considers managerial strategies that minimize the negative impacts and maximize the positive impacts, thereby attaining sustainable tourism.

Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 710 - Advanced Administrative Practices in Tourism and Events

Credits: 3 (NR)

Explores best practices in the administration of tourism and events businesses. Particular emphasis will be placed on contract management, and strategic planning for dynamic markets and changing technologies, with specific applications to geographically dispersed consumers and suppliers.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 712 - Marketing Tourism and Event Planning Services

Credits: 3 (NR)

Focuses on the unique challenges and opportunities faced by tourism and event marketers in producing, delivering, pricing, and promoting tourism and event services.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 720 - Major Events and Convention Management

Credits: 3 (NR)

Prepares graduate students for managing large scale events such as major festivals, conventions, sporting contests, cultural exhibitions, and commercial exhibitions. Management of human financial, information, and technology resources will be emphasized.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Turkish (TURK)
TURK 110 - Elementary Turkish

Credits: 6 (NR)
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

TURK 210 - Intermediate Turkish

Credits: 3 (NR)
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Turkish-speaking regions.

Prerequisite(s): TURK 110, appropriate placement score, or permission of department.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

University Transition and Interdisciplinary Studies (UNIV)

Offered by the University

UNIV 100 - Introduction to Mason

Credits: 1 (NR)
This course assists first-year students with their transition from high school to college life at Mason. It helps students to be successful through academic skill-building, educational planning, and career preparation. It provides information regarding campus resources and ways to engage in the Mason community. Although all sections have a core curriculum, certain sections also focus on a particular theme, student population, or course of study.

Prerequisite(s): Freshman standing.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

UNIV 101 - Extended Transition

Credits: 0-1 (NR)
This course serves as a continuation of University 100 into the second freshman semester. It extends the transition support of international students, and other students in special sections of University 100.
Notes: This course is required in designated programs only.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0

UNIV 110 - Academic Success

Credits: 0-1 (NR)
This course focuses on academic transition and planning issues for students in their second semester or later at Mason. Emphasis is placed on resources and techniques to assist students with assessing and improving their academic performance. Students work closely with the instructor to track their academic progress over the course of the semester.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0

UNIV 150 - First Year Living Learning Communities

Credits: 0-1 (NR)
This course is available for students who are members of a first year LLC. It is the learning component of the program for students who live together on a residence hall floor. The course follows the core University 100 curriculum, but is tailored to the particular theme or academic discipline of the LLC.

Notes: This course is for students who are members of the First Year Living Learning Communities Program.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0

UNIV 190 - Freshman Seminar

Credits: 3 (RT)
Broad interdisciplinary subjects taught by Robinson Professors; topics vary.

Prerequisite(s): Freshman standing, minimum 3.3 cumulative GPA or permission of instructor.

Notes: Courses may be repeated for up to 12 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

UNIV 220 - Decide and Confirm Majors

Credits: 2 (NR)
This course focuses on helping students clarify or choose a major or career. Students explore and assess their interests, values and
skills, as well as research various majors, careers, and the world of work as information for the decision-making process.

Prerequisite(s): Second-semester freshman standing.

Notes: Due to the emphasis on assessment exercises, students who miss more than the first class meeting of any UNIV 220 section will not be allowed to enroll.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

UNIV 250 - Global Studies Living Learning Communities: Personal and Cultural Dimensions of Leadership

Credits: 0-1 (NR)
This course helps students develop cross-cultural awareness by engaging in discussion and activities that explore world perspectives and nurture personal reflection. Students learn about international resources and opportunities on campus, and consider ways to contribute to Mason's diversity. This course also helps students refine their academic and career goals as they become global citizens.

Notes: This course is offered only in the fall and is the first course in a two-semester commitment to the Global Studies LLC program. This LLC program serves second-year students and beyond. This course is for students who are members of the Global Studies Living Learning Communities Program.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0
When Offered: Fall

UNIV 300 - Transfer Transition

Credits: 1 (NR)
This course assists new transfer students with a successful transition to Mason. This course addresses academic success, time management, and course schedule planning, as well as graduate school/career readiness, degree requirements, and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community.

Equivalent to UNIV 302, UNIV 303, UNIV 304.

Notes: Students may only receive credit for one of UNIV 300, 302, 303, or 304.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

UNIV 301 - Great Ideas in Science

Credits: 3 (NR)
Nontechnical introduction to ideas that have shaped the growth of science, from the building of Stonehenge to modern theories of
the Big Bang. The idea behind each major advance is treated in its historical context, with special attention to its importance in mankind's understanding of the nature of the universe. Intended for nonscience majors; uses little mathematics.

Fulfills Mason Core requirement in natural science (nonlab).

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**UNIV 302 - College of Science Transfer Transition**

Credits: 0-1 (NR)
This course is intended for new transfer students in the College of Science to assist them with a successful transition to Mason. This course addresses academic success, time management, and course schedule planning, as well as graduate school/career readiness, degree requirements, and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community.

Equivalent to UNIV 300, UNIV 303, UNIV 304.

**Notes:** Students may only receive credit for one of UNIV 300, 302, 303, or 304.

**Hours of Lecture or Seminar per week:** 0-1
**Hours of Lab or Studio per week:** 0

**UNIV 303 - Veteran Transition**

Credits: 1 (NR)
This course is for students with veteran status. Based on theory and research specific to the needs of veterans, this course builds a foundation for success in college and beyond, including career planning, translating military experience on a resume, practical interviewing techniques, and networking and engaging with other veterans in a military-friendly environment.

Equivalent to UNIV 300, UNIV 302, UNIV 304.

**Notes:** Students may only receive credit for one of UNIV 300, 302, 303, or 304.

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0

**UNIV 304 - Bachelor Individualized Studies Transfer Transition**

Credits: 1 (NR)
This course serves new transfer students in the Bachelors of Individualized Studies (BIS) program, and assists them with a successful transition to Mason. Students develop relationships with peers, staff, and faculty. They are introduced to campus resources, with special emphasis on research and writing resources and tools, and work closely with BIS academic advisors and faculty.

Equivalent to UNIV 300, UNIV 302, UNIV 303.
Notes: Students may only receive credit for one of UNIV 300, 302, 303, or 304.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

UNIV 320 - Internship and Career Readiness

Credits: 1 (NR)
This course helps students confirm major/career choices and actively pursue internships, research assistantships, and other career-related experiences. With a focus on career readiness, students prepare a resume and cover letter, practice interviewing techniques, and conduct career research.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

UNIV 330 - Peer Leadership: Peer Advisors

Credits: 0-1 (NR)
This course prepares upperclass students to serve as University 100 Peer Advisors, a role that helps first-year students transition successfully from high school to college. This course provides Peer Advisors with the necessary information, tools, and resources to co-teach University 100 effectively.

Notes: This course is for students who have been selected as a Peer Advisor by the University Transitions Program.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0

UNIV 331 - Peer Leadership: Patriot Leaders

Credits: 0-1 (NR)
This course introduces students who will serve as Patriot Leaders to the principles of effective leadership. Students will apply knowledge gained through the course directly to their roles and responsibilities as Patriot Leaders through readings and discussions, experiential activities, and class assignments.

Notes: This course is for students who have been selected as a Patriot Leader by the Office of Orientation and Family Services and Programs.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0

UNIV 332 - Peer Leadership: Resident Advisors

Credits: 0-1 (NR)
This course provides ongoing support, education, and practical application techniques to assist Resident Advisors in becoming
more accomplished leaders who support Mason's Residential Education priorities.

Notes: This course is for students who have been selected as a Resident Advisor by the Office of Housing and Residence Life.

UNIV 333 - Peer Leadership: Honors Peer Mentors

Credits: 0-1 (NR)
This course prepares students to serve as Peer Mentors in the Honors College Living Learning Community. Students learn and put into practice leadership approaches and strategies, and become familiar with communication tools and campus resources that will enable them to mentor LLC participants successfully.

Notes: This course is for students who have been selected as a Peer Mentor by the Honors College.

UNIV 350 - Global Studies Living Learning Communities: Leadership Perspectives on Global Justice

Credits: 0-1 (NR)
In this course students learn about social justice in a local and global context and apply their skills and knowledge to addressing real world problems. Students learn about campus resources and opportunities that foster leadership development and engaged contribution to address global issues such as poverty, health, food security, and human trafficking through partnership with on-campus and local communities.

Notes: This course is offered only in the spring and is the second course in a two-semester commitment to the Global Studies LLC program. This LLC program serves second year students and beyond. This course is for students who are members of the Global Studies Living Learning Communities Program.

UNIV 391 - Students as Scholars Scholarly Inquiry

Credits: 0-9 (RD)
Students contribute to scholarly, research, or creative projects by engaging in the recursive process of scholarly inquiry as preparation for participation in an individualized original project. Students will hold regular meetings with their project mentor, and make satisfactory contributions to the project.

Notes: Enrollment only with permission from OSCAR.
UNIV 420 - College to Career

Credits: 1 (NR)
This course supports second semester juniors and seniors with transitioning into the professional workplace. Students develop a tailored resume and cover letter, refine their interviewing skills, and discuss important workforce issues, such as compensation packages and workplace dynamics.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

UNIV 421 - College to Graduate School

Credits: 1 (NR)
This course supports second semester juniors and seniors. The academic emphasis is on transition readiness for graduate or professional school. Students learn about application and testing options and strategies, interviewing skills, budgeting, and career development.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

UNIV 442 - Krasnow Seminar

Credits: 3 (NR)
Interdisciplinary seminar offering a window on the latest advances and research related to cognitive science, an interdisciplinary field of inquiry that seeks to understand the nature, basis, and origins of human consciousness, thinking, and cognition.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): ENGH 302, COMM 100, 101, or 104, completion of or concurrent enrollment in all other required Mason Core courses, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

UNIV 490 - Critical Decisions in Postgraduate Transitions

Credits: 0-1 (NR)
This course guides and supports students through the postgraduate fellowship application process and postgraduate decisions. Students create a resume, complete a fellowship application, prepare for a scholarship interview, and refine their educational and career goals.
Notes: Enrollment through the Office of Fellowships.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0

**UNIV 491 - Students as Scholars Individualized Scholarly Experience**

Credits: 0-9 (RD)
Students actively participate in the process of scholarship and make a significant contribution to the creation of scholarly, research, or creative project. Students meet regularly with their project mentor, make satisfactory progress towards the completion of the project, and create a disciplinary product for evaluation.

Designated as a research and scholarship intensive course.

Notes: Enrollment only with permission from OSCAR.

Hours of Lecture or Seminar per week: 0-9
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**UNIV 495 - Undergraduate Research Scholars Program Seminar**

Credits: 3 (NR)
Students accepted into Undergraduate Research Scholars Program participate in a weekly seminar, hold regular meetings with their project mentor, and make satisfactory progress on their research or creative project. At the end of the semester, students either complete their project and present the results in a professional context, or apply for continuation through UNIV 496. See oscar.gmu.edu for more information and application.

Designated as a research and scholarship intensive course.

Notes: Enrollment only with acceptance into the URSP through OSCAR.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**UNIV 496 - Undergraduate Research Scholars Program Continuation**

Credits: 0 (RD)
Students continuing their participation in the Undergraduate Research Scholars Program hold regular meetings with their project mentor and make satisfactory progress on their research or creative project. At the end of the semester, students either complete their project and present the results in a professional context, or apply for continuation. See oscar.gmu.edu for more information and application.

Designated as a research and scholarship intensive course.

Prerequisite(s): UNIV 495.
Notes: Enrollment only with acceptance into the URSP through OSCAR.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 9
When Offered: Fall, Spring

Urban and Suburban Studies (USST)

Offered by the College of Humanities and Social Sciences

USST 301 - Urban Growth in a Shrinking World

Credits: 3 (NR)

Examines process of urbanization historically and comparatively. For major world regions, attention is given to the political economy of urbanization and its impact on social and economic relations. Examines growing globalization of the world economy, implications for urban life, and urban political economy of the future. Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

USST 390 - Special Topics in Urban and Suburban Studies

Credits: 3 (NR)
Subject varies according to specialization of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

USST 401 - Seminar: The Future of Metropolitan America

Credits: 3 (NR)
Examines trends in the development of American metropolis, including impact of information economy and technological developments on metropolitan form and life, continuing outward growth and increasing decentralization of metropolitan areas, changing functional organization of urban space, and continued social segregation in metropolitan areas. Analyzes contemporary predictions about future of metropolitan life in America, and explores how alternative public policies can shape that future. Students work on research projects in metro area.

Prerequisite(s): 12 credits of USST-approved courses, including USST 301.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
**USST 490 - Internship**

Credits: 3 (NR)
Approved work-study programs that focus on urban and suburban issues with an approved agency or firm. Placement depends on student qualifications and availability of positions. Students work with onsite supervisor and coordinator of urban and suburban studies.

Prerequisite(s): Open only to students with 12 credits of USST; see USST coordinator

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

**Women and Gender Studies (WMST)**

Offered by the College of Humanities and Social Sciences

**WMST 100 - Representations of Women**

Credits: 3 (NR)
Explores ways women are portrayed in advertising, television, film, photographs, cartoons, performance arts, literature, religious texts, and news media from various worldwide sources. Through interdisciplinary study students will evaluate the powerful effects these representations have on the political, economic, and social lives of women throughout the world.

Fulfills Mason Core requirement in global understanding.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**WMST 200 - Introduction to Women and Gender Studies**

Credits: 3 (NR)
Interdisciplinary introduction to women's studies, encompassing key concepts in the field, history of women's movements and women's studies in America, cross-cultural constructions of gender, and a thematic emphasis on the diversity of women's experience across class, race, and cultural lines.

Fulfills Mason Core requirement in social and behavioral science.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**WMST 300 - Current Issues in Women and Gender Studies**
Credits: 1-6 (RT)
Study of selected topics central to contemporary women and gender studies. Topics vary but include subjects such as women and violence, women and international development, women's myth and ritual, LGBTQ topics, the history and politics of sexuality, psychoanalysis, and religion.

Notes: May be repeated for credit when topic is different.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

WMST 301 - Sex and Gender in Contemporary Society

Credits: 3 (NR)
Changing conceptions of sex roles, both female and male, in contemporary society. Using historical and comparative data, course considers the differential socialization of males and females in relation to the changing social structure in which it takes place.

Prerequisite(s): 60 credits, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 302 - Cultural Constructions of Sexualities

Credits: 3 (NR)
Introductory survey of cultural, literary, and theoretical constructions of sexuality that seeks to complicate traditionally fixed categories of identity. Examination of various representatives of human sexuality, with particular attention to its intersections with gender, race, ethnicity, nationality, and class.

Equivalent to ENGH 418

Prerequisite(s): 6 credits of 200-level English courses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 303 - Psychology of Women

Credits: 3 (NR)
Behavior and attitudes of women, influence of sex chromosomes and sex hormones on behavior, influence of culture on sex role differentiation, and theories of sex role development.

Prerequisite(s): PSYC 100, and BIOL 103 and 104; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
WMST 304 - Women and Media

Credits: 3 (NR)
Introduction to the concepts of the power and influence of the mass media. Allows students to see themselves as products of media influence and gives them a sense of women's roles as media professionals, as well as consumers.

Prerequisite(s): COMM 302 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 305 - Women and Literature

Credits: 3 (RD)
An exploration of the experience of women as both authors of and subjects in imaginative literature.

Equivalent to ENGH 310

Prerequisite(s): 6 credits of 200-level English courses.

Notes: May be repeated once for credit when subtitle is different, with permission of department.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 306 - Topics in Communication and Gender

Credits: 3 (RD)
Exploration of selected topics involving gender and communication. Topics may include women in media, women as rhetors, male/female communication, and communication and sex roles. Specific interests are examined in a seminar setting.

Prerequisite(s): 60 credits.

Notes: Course may be repeated with approval of department.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 307 - Women and Work

Credits: 3 (NR)
Historical and contemporary accounts of women's participation in paid and unpaid labor. Analyzes the nature of women's work through the divisions in the labor market due to gender, race, nationality, ethnicity, and class. Provides a detailed look at occupational sex segregation, sexual harassment, the glass ceiling, and the role of religion, culture, and education in determining women's opportunities and their value as workers and as family providers.
Prerequisite(s): 30 credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**WMST 308 - Introduction to Lesbian, Gay, Bisexual, Transgender, Transsexual, and Queer Studies**

Credits: 3 (NR)  
Explores major events in lesbian, gay, bisexual, transgender, transsexual, and queer culture and history in the United States and throughout the world to understand how identities, experiences, and movements have been socially constructed and have changed in different times and places, often as a result of race, class, and gender inequities.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**WMST 309 - Black Social Movements: Gendering of Violence and Activism**

Credits: 3 (NR)  
Examines racialized gendered conceptions of popular culture, violence, and the legal system and their role in structuring systems of segregation, discrimination and exclusion. Looks at the gendered strategies and conflicts of organizations that arose to combat racial violence and overturn legal and social barriers to equal opportunity and citizenship rights.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**WMST 310 - Women, Sex, and Psyche**

Credits: 3 (NR)  
Explores the changing concepts of women's psychology, sexuality, and relationships in different social and cultural contexts. Demonstrates the ways women's "psychological self" has been the source of humor, malignment and curiosity throughout history. Discussion-based classroom explores the intersections of self, race, gender and relationship.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**WMST 311 - The Erotic and the Sacred**

Credits: 3 (NR)  
Explores the complex relationship between the body, sexuality and the spirit. Investigates sacred texts, novels, short stories, poetry and film that engage with a variety of cultural embodiments of sexualities and of the sacred, international in scope. Teaches students to formulate critical perspectives at the intersection of the erotic and sacred.
WMST 312 - Gender, Trauma, and Recovery

Credits: 3 (NR)
Explores the experience of emotional trauma, the process of recovery and the etiology of healing in contemporary North American culture. Investigates memoir, poetry, film, and novel as case studies of trauma and examines the effect of gender on traumatic experiences. Applies psychological and feminist theoretical perspectives.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 313 - Women Who Kill

Credits: 3 (NR)
Questions the assumptions that women are nonviolent by nature and commit acts of violence only in response to abuse. Explores the complexity of human interactions through popular culture, literature and film and through theoretical works that attempt to explain female violence (compared to male violence) and as it is seen by others.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 314 - Stories of Gender and Human Rights

Credits: 3 (NR)
Examines global human rights issues through memoir, poetry and fiction. Explores the ways women use literary expression to voice their dissent and to struggle against human rights violations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 315 - Women During the Enslavement Era

Credits: 3 (NR)
Examines the general experiences of enslaved women and nominally free women. Includes the lives of female reformers involved in the public arena as orators, writers, preachers, abolitionists and women's rights activists. Explores the effect of gender, class, and race on the development of ideologies concerning abolition, colonization, women's rights, and enslavement.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
WMST 316 - Gendered Pan-Africanism

Credits: 3 (NR)
Gendered Pan-Africanism. Explores the writings and activism of African Americans who traveled to Africa in search of a shared cultural past and present or an opportunity to build pan-African allegiances. Examines these encounters within the context of the Cold War, US civil rights and African anti-colonial movements, and racial and gender ideologies of the time.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 330 - Theoretical Perspectives in Women and Gender Studies

Credits: 3 (NR)
Examination of feminist and queer critiques and transformations of the theories, methods, and methodologies of the sciences and humanities.

Prerequisite(s): WMST 200, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 390 - Study Abroad

Credits: 1-3 (NR)
Study abroad under supervision of George Mason University faculty. Course topics, content and locations vary.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

WMST 400 - Internship in Women and Gender Studies

Credits: 1-3 (RD)
Community- or campus-based service or experiential learning related to women's or gender issues. Independent course in which students develop, in consultation with a faculty member, individual contracts defining the learning and competencies they plan to gain from the experience. Includes a paper and/or portfolio component.

Prerequisite(s): Completion of 60 credits, including WMST 200, or permission of instructor.

Notes: May be repeated for credit, up to 6 credits.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

WMST 401 - Experiential Learning in Women and Gender Studies
Credits: 1-3 (RD)
Community- or campus-based service or experiential learning as it relates to a specific WMST course, taken at the same time. Students develop, in consultation with faculty member, individual contracts defining learning and competencies they plan to gain from the experience.

Prerequisite(s): Concurrent enrollment in women and gender studies course and approval of advisor and instructor.

Notes: May be repeated for credit up to total 6 credits, but only 3 credits of WMST 400 or 401 may be applied toward the women and gender studies interdisciplinary minor.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

WMST 402 - Queer Theory

Credits: 3 (NR)
Challenges rigid categories and definitions in order to create a space for marginalized voices. Examines the inconsistencies and erasures that often characterize notions of sex, gender, sexuality, and sexual desire. Explores categories that intersect with sexualized identities such as race, ethnicity, class, nationality, location, and age.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 410 - Feminist Approaches to Social Research

Credits: 3 (NR)
Introduction to feminist approaches to social research for advanced undergraduate students. Students learn the techniques for collecting, analyzing, and writing-up research data as they examine many of the central methodological issues and questions raised by feminist scholars undertaking social research. Because an understanding of how to conduct social research is best gained through experience in the social world, this course emphasizes a learning-by-doing approach.

Prerequisite(s): 60 credits, including 9 credits of WMST course work, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 411 - Feminist Research Practice

Credits: 3 (NR)
Undertake a semester-long research project investigating an issue of importance to feminist scholarship utilizing a variety of methods typically used by feminist scholars, including quantitative, qualitative, historical, or textual. Enhance understanding of techniques for collecting, analyzing, and writing up empirical material as well as critical engagement with ethical, interpretive, and representational considerations relating to feminist research.

Prerequisite(s): WMST 410 or permission of instructor.
WMST 427 - Feminist Political Thought

Credits: 3 (NR)
Explores feminist political thought in historical context. Topics include feminist political movements, feminist critiques of political philosophy, and feminist contributions to political theory.

Prerequisite(s): GOVT 101, WMST 200, 3 credits of philosophy, or permission of instructor.

WMST 490 - Independent Study in Women and Gender Studies

Credits: 1-3 (RD)
Reading or research on a specific topic related to women and/or gender issues, under the direction of a faculty member. May involve a combination of reading assignments, tutorials, papers, presentations, or off-campus activities.

Prerequisite(s): 9 WMST credits including WMST 200, or permission of instructor.

Notes: May be repeated for credit up to a total of 6 credits.

WMST 600 - Special Topics

Credits: 3 (RT)
Study of selected topics central to contemporary women and gender studies. Topics vary but include representation and images, violence, public policy, international development, transmigration of labor, myth and ritual, history and politics of sexuality, psychoanalysis, and religion.

Notes: May be repeated for credit when topic is different.

WMST 610 - Feminist Approaches to Social Research

Credits: 3 (NR)
Provides an introduction to feminist approaches to social research. Students collect, analyze, and write-up research data as they examine many of the central methodological issues and questions raised by feminist scholars. These include feminist critiques of
WMST 611 - Feminist Research Practice

Credits: 3 (NR)
Undertake a semester-long research project investigating an issue of importance to feminist scholarship utilizing a variety of methods typically used by feminist scholars, including quantitative, qualitative, historical, or textual. Enhance understanding of techniques for collecting, analyzing, and writing up empirical material as well as critical engagement with ethical, interpretive, and representational considerations relating to feminist research.

Prerequisite(s): WMST 610 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 630 - Feminist Theories across the Disciplines

Credits: 3 (NR)
Multidisciplinary course examines the central issues of feminist theory and explores the various strategies of feminist theorists. Analyzes the ways in which feminist theories have challenged established disciplinary boundaries and contested the traditional assumptions of the humanities, the social sciences, and the sciences.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 640 - Women and Global Issues

Credits: 3 (NR)
Multidisciplinary course explores the complex issues women face in different regions of the world. Addresses women's diverse and shared global concerns and provides students with the tools to analyze and understand women in a global context.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 690 - Directed Readings and Research in Women and Gender Studies
Credits: 3 (RT)
Advanced individualized study of gender through readings, discussion, research, and/or projects under the direction and supervision of a member of the women's studies faculty.

Prerequisite(s): Admission to graduate program in woman's studies and permission of director.

Notes: May be repeated for a maximum of 9 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3-6

WMST 695 - Internship

Credits: 3 (NR)
Community or campus-based service or experiential learning related to women's or gender issues. Students develop, in consultation with a faculty member, individual contracts defining the learning and competencies they plan to gain from the experience.

Prerequisite(s): Completion of 15 graduate credits in Interdisciplinary Studies, including 9 credits in Women and Gender Studies or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 699 - Capstone Portfolio

Credits: 0 (NR)
Prior to graduation and in consultation with their advisor, students will reflect on and synthesize their work in the women and gender studies certificate program by selecting three items taken from their work in the program and discussing these items in a 7-10 page essay. Work selected may include course papers, videos of their performances, exhibit photos, music recordings, and other items as agreed upon by student and advisor.

Prerequisite(s): Students must have completed their course work for women and gender studies certificate or be in the last semester of their course work.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
