Notes: Students will have 135 contact hours for the semester; however, 125 will be in the field and 10 in the classroom.
HDFS 499 - Advanced Internship & Analysis in Human Development and Family Science

Credits: 3
Not Repeatable
Accompanies the second semester of the required internship experience. Supports students in the development and implementation of a program for staff and/or clients at internship site. Examine internship-related experiences within the context of developmental and family theories and empirical research. Contemplate and prepare for the transition to professional.

Prerequisite(s): HDFS 498.

Notes: Students will have 135 contact hours for the semester; however, 125 will be in the field and 10 in the classroom.

Information Security and Assurance (ISA)

Offered by the Volgenau School of Engineering

ISA 562 - Information Security Theory and Practice

Credits: 3
Not Repeatable
A technical introduction to the theory and practice of information security, which serves as the first security course for the MS-ISA degree, is required as a prerequisite for all subsequent ISA courses (at the 600 and 700 levels) and subsumes most topics covered by the CISSP examination. Also serves as an entry-level course available to non-ISA students, including MS-CS, MS-IS, and MS-SWE students.

Prerequisite(s): INFS 501, 515, 519, and SWE 510, or permission of instructor.

ISA 564 - Security Laboratory

Credits: 3
Not Repeatable
Provides hands-on experience in configuring and experimenting with commodity-networked systems and security software in a live laboratory environment, with the purpose of understanding real-world security threats. Takes both offensive and defensive approaches and exposes students to a variety of real-world attacks, including viruses, worms, rootkits, and botnets. Possible
mitigation and defending mechanisms, such as firewalls and intrusion detection software, also covered.

**Prerequisite(s):** ISA 562 and CS 531 or equivalent.

**ISA 650 - Security Policy**

Credits: 3  
Not Repeatable  
Focuses on security policy and its management for information systems having national and international connectivity. Issues include legal, international, cultural, and local factors. Students are expected to participate regularly in presenting material, in discussion of recent security issues, and by writing short papers on major current issues.

**Prerequisite(s):** ISA 562. Prerequisite enforced by registration system.

**ISA 652 - Security Audit and Compliance Testing**

Credits: 3  
Not Repeatable  
Presents the fundamental concepts of the IT-security audit and control process that is being conducted in a plethora of environments, including government, the financial industry, and the healthcare industry. The goal of this course is to enable the students to structure and perform audits based on the specifications of Sarbanes-Oxley, HIPAA, and FISMA audit programs. Covers all the CISA certification requirements in depth. Students completing the course are encouraged to attempt the certification exam on their own.

**Prerequisite(s):** ISA 562. Prerequisite enforced by registration system.

**ISA 656 - Network Security**

Credits: 3  
Not Repeatable  
An in-depth introduction to the theory and practice of network security. It assumes basic knowledge of cryptography and its applications in modern network protocols. Studies firewalls architectures and virtual private networks and provides deep coverage of widely used network security protocols such as SSL, TLS, SSH, Kerberos, IPSec, IKE, and LDAP. It covers countermeasures to distributed denial of service attacks, security of routing protocols and the Domain Name System, e-mail security and spam countermeasures, wireless security, multicast security, and trust negotiation.

**Prerequisite(s):** ISA 562 and INFS 612 or CS 555. Prerequisite enforced by registration system.
ISA 673 - Operating Systems Security

Credits: 3
Not Repeatable
Covers fundamentals and advanced topics in operating system (OS) security, including OS-level security mechanisms and policies in investigating and defending against real-world attacks on computer systems, such as self-propagating worms and large-scale botnets. Basic OS security techniques, such as logging, system call auditing, and memory protection, will be discussed. Recent advanced techniques, such as honeypots and honeyfarms, system randomization, vulnerability fingerprinting, and virtualization, will also be introduced.

Prerequisite(s): ISA 562.

ISA 674 - Intrusion Detection

Credits: 3
Not Repeatable
Studies methodologies, techniques, and tools for monitoring events in computer system or network, with the objective of preventing and detecting unwanted process activity and recovering from malicious behavior. Topics include types of threats, host-based and network-based information sources, vulnerability analysis, denial of service, deploying and managing intrusion detection systems, passive versus active responses, and designing recovery solutions.

Prerequisite(s): ISA 564 and ISA 656. Prerequisite enforced by registration system.

ISA 681 - Secure Software Design

Credits: 3
Not Repeatable
Theory and practice of software security, focusing in particular on some common software security risks, including buffer overflows, race conditions and random number generation, and the identification of potential threats and vulnerabilities early in the design cycle. Emphasis is on methodologies and tools for identifying and eliminating security vulnerabilities, techniques to prove the absence of vulnerabilities, and ways to avoid security holes in new software and on essential guidelines for building secure software. Explores how to design software with security in mind from the ground up and integrate analysis and risk management throughout the software life cycle.

Equivalent to SWE 781 (2012-2013 Catalog), SWE 681.

Prerequisite(s): SWE 619.
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ISA 697 - Topics in Information Security

Credits: 1-6
Repeateable within Term
Special topics in information security and assurance not occurring in regular ISA sequence.

Prerequisite(s): Permission of instructor.

Notes: May be repeated for credit when distinct offerings of course differ in subject.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ISA 763 - Security Protocol Analysis

Credits: 3
Not Repeatable
Teaches how to design, understand, verify, and test communication protocols so they meet their objectives of recognizing the basic components of a communication protocol; specifying security properties accurately; modeling actors and mal-actors against which a protocol ought to be secure; discussing verification and testing methods and their limitations by ensuring that the specified protocol satisfies stated security objectives in the presence of specified mal-actions; designing a medium-size protocol that satisfies a specification of requirement; using existing tools to specify and verify security protocols; and testing protocols for satisfying their security objectives.

Prerequisite(s): ISA 656. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ISA 764 - Security Experimentation

Credits: 3
Not Repeatable
Teaches how to conduct security experimentations and empirically demonstrate, validate, and evaluate security vulnerabilities, exploits, and defense mechanisms. By the end of the course, students will gain a deeper understanding and first-hand experience on capturing packets of interests from both wired and wireless networks, and replying interested network flows and how shellcode various buffer overflows attacks, worms, spyware, rootkits, botnets, anonymous communication and traceback mechanisms work.

Prerequisite(s): ISA 564 and ISA 656. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
**ISA 785 - Research in Digital Forensics**

Credits: 3  
Not Repeatable  
Focuses on research-related aspects of digital forensics including open problems in digital forensics, countermeasures against digital forensics, and fundamental and practical limitations of current digital forensics techniques. Also covers currently established techniques and tools for digital forensics as well as common legal and ethical issues.

**Prerequisite(s):** ISA 562 and INFS 612 or CS 555. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**ISA 796 - Directed Readings in Information Security**

Credits: 3  
Repeatable within Degree

Research and analysis of contemporary problem in information security.

**Prerequisite(s):** Graduate standing in information security and assurance, with at least 12 prior credits in MS.

**Notes:** Prior approval required by faculty sponsor who supervises student's work. To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Written report also required. Maximum of 6 credits may be earned.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

---

**ISA 797 - Advanced Topics in Information Security**

Credits: 3  
Repeatable within Term  
Special advanced topics not occurring in regular ISA sequence.

**Prerequisite(s):** Permission of instructor.

**Notes:** May be repeated for credit when distinct offerings of course differ in subject.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
ISA 798 - Research Project

Credits: 3
Repeatable within Degree

Research project chosen under guidance of full-time graduate faculty member, resulting in written technical report.

Prerequisite(s): 18 credits applicable toward MS.

Notes: Prior approval required by faculty sponsor who supervises student's work. To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

ISA 799 - Thesis

Credits: 1-6
Repeatable within Degree

Original or expository work chosen and completed under supervision of graduate faculty member, which results in technical report accepted by three-member faculty committee. Report must be defended in oral presentation.

Prerequisite(s): 18 credits applicable toward MS or permission of instructor.

Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

ISA 862 - Models for Computer Security

Credits: 3
Repeatable within Degree

This class will be focused on current research in Security with emphasis in Network and Software Security.

Prerequisite(s): ISA 562. Prerequisite enforced by registration system.

Notes: May be repeated with change in topic.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
ISA 863 - Advanced Topics in Computer Security

Credits: 3  
Repeatable within Degree  
Current topics of advanced research. Content varies depending on faculty interests, research developments, and student demand. Requires substantial student participation. May include formal models for computer security, multilevel data models, multilevel database management system architectures, secure concurrency control protocols, distributed secure system architectures, integrity models and mechanisms, security policy, and requirements analysis.

Prerequisite(s): ISA 562. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

Information Systems (INFS)

Offered by the Volgenau School of Engineering.

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

INFS 501 - Discrete and Logical Structures for Information Systems

Credits: 3  
Not Repeatable  
Study of discrete and logical structures for information systems analysis and design including basic set theory and proof techniques, propositional and predicate logic, trees and graphs, finite state machines, formal languages and their relation to automata, computability and computational complexity, formal semantics-operational, axiomatic and denotational approaches.

Prerequisite(s): 6 credits of undergraduate mathematics.

Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

INFS 515 - Computer Organization Course and Operating Systems

Credits: 3  
Not Repeatable  
Computer hardware architecture concepts including number systems, machine representation of numbers, instruction set formats, addressing techniques, memory organization, internal processor structure and operation. Symbolic assembly language fundamental operating systems concepts: process synchronization and scheduling, interprocess communication, memory management, virtual memory, deadlocks, file I/O and disk management, and LINUX operating system case studies.

Prerequisite(s): Undergraduate courses or equivalent knowledge in structured programming in a high-level language.
INFS 519 - Program Design and Data Structures

Credits: 3
Not Repeatable
Study of the fundamentals of data structures and algorithms applied in programming solutions to application problems. The course stresses programming in a modern high-level language. Laboratory required.

Prerequisite(s): Undergraduate courses or equivalent knowledge in structured programming in a high-level language.

Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science.

INFS 612 - Principles and Practices of Communication Networks

Credits: 3
Not Repeatable
Introduces principles of computer networks and applications to Internet. Discusses details of layering, protocols, performance, resource allocation, management, security and other contemporary issues related to networks. Examples of course material are protocols such as HTTP(S), DNS, TCP/IP, RSVP, SNMP, algorithms such as Dijkstra's link state routing; and security measures such as firewalls and encryption, the principles behind them and analysis of performance.

Prerequisite(s): INFS 501, 515, 519, and SWE 510, or equivalent

Notes: No substitutions can be made for this class.

INFS 614 - Database Management

Credits: 3
Not Repeatable
Introduces database systems, emphasizing study of database models and languages and practice of database design and programming. Topics include Entity-Relationship model, relational model and its formal query languages, SQL, theory of relational database design, and object-oriented and logic-based databases.

Prerequisite(s): INFS 501, 515, 519, and SWE 510, or equivalent.
INFS 622 - Information Systems Analysis and Design

Credits: 3  
Not Repeatable  
Integration of computing technologies, systems analysis, system design practices, and management criteria in the design of large-scale information management and decision-support systems. Includes cases, computing lab.

Prerequisite(s): INFS 501, 515, and 519, or equivalent

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

INFS 623 - Web Search Engines and Recommender Systems

Credits: 3  
Not Repeatable  
Study of Web search engines and recommender systems. Topics to include classical information retrieval methods, Boolean retrieval systems, ranked retrieval, performance metrics, Web crawling, link analysis, overall search engine architecture, fundamentals and classification of recommender systems, learning user interests and object properties, and case studies.

Prerequisite(s): INFS 501, 515, 519, and SWE 510.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

INFS 640 - Introduction to Electronic Commerce

Credits: 3  
Not Repeatable  
Studies electronic commerce from both managerial and technical perspectives. Topics include e-commerce models and concepts; Internet and web protocols and infrastructure; e-commerce marketing and branding; security protocols and standards; e-commerce payment systems; and case studies of business-to-consumer, business-to-business, consumer-to-consumer, and e-government.

Prerequisite(s): INFS 501, 515, and 519; and SWE 510 or equivalent.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

INFS 697 - Topics in Information Systems

Notes: Requires computing lab. No substitutions can be made for this class.
Credits: 1-6  
Repeatable within Degree  
Presents special topics in information systems not occurring in regular INFS sequence.

Prerequisite(s): Permission of instructor.

Notes: May be repeated for credit when distinct offerings of course differ in subject.

Hours of Lecture or Seminar per week: 1-6  
Hours of Lab or Studio per week: 0

INFS 740 - Database Programming for the World Wide Web

Credits: 3  
Not Repeatable  
Information systems accessible through web and Internet are becoming prevalent. Course focuses on technologies and industry standards for accessing and manipulating persistent data that are suitable for web applications.

Prerequisite(s): INFS 614.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

INFS 760 - Advanced Database Management

Credits: 3  
Not Repeatable  
Study of advanced database models and languages, database design theory, transaction processing, recovery, concurrency, distributed database, and security and integrity. Discusses recent developments and research directions.

Prerequisite(s): INFS 614.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

INFS 770 - Knowledge Management for E-Business

Credits: 3  
Not Repeatable  
Addresses knowledge management (KM) from managerial, technical viewpoints in context of large organizations doing business over web and Internet. Topics include KM life cycle for knowledge creation, aggregation, dissemination, and sharing; ontology modeling, design, and engineering; role of standards such as XML, RDF, web services, and semantic web for e-business; business rules and reasoning engines; and digital rights management for e-business.

Prerequisite(s): INFS 622 or permission of instructor.
INFS 772 - Intelligent Agents and the Semantic Web

Credits: 3  
Not Repeatable  
Course covers the role of intelligent agents in cooperating to access, harvest, sift and winnow information and knowledge from the semantic web. Topics include agent architectures, practical reasoning and deductive agents, beliefs-desires-intentions (BDI) framework for agent reasoning, commitments and actions; Semantic Web ontology languages, description logics, reasoning and rule languages; and agent communication languages, protocols and standards.

Prerequisite(s): INFS 614

INFS 774 - Enterprise Architecture

Credits: 3  
Not Repeatable  
This course presents the basic concepts and methodologies for the discipline known as Enterprise IT Architecting within a framework, structure, and methodology. Enterprise IT Architecting is a necessary step for designing and developing a system of information systems. It includes the definition of the business, work, functional, information and technical perspectives. As such, it is the enabling approach for the system development process that builds complex information systems.

Prerequisite(s): INFS 622 or permission of instructor.

INFS 796 - Directed Readings in Information Systems

Credits: 3  
Repeatable within Term  
Research and analysis of contemporary problem in information system development.

Prerequisite(s): Graduate standing in information systems, with at least 12 prior credits in MS.

Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Prior approval required by faculty sponsor who supervises student's work. Written report required. Maximum 6 credits may be earned.
INFS 797 - Advanced Topics in Information Systems

Credits: 1-6
Repeatable within Degree
Special advanced topics not occurring in regular INFS sequence.

Prerequisite(s): Permission of instructor.

Notes: May be repeated for credit when distinct offerings of course differ in subject.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INFS 798 - Research Project

Credits: 3
Not Repeatable
Research project chosen under guidance of full-time graduate faculty member, resulting in written technical report.

Prerequisite(s): 18 credits applicable toward MS.

Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Prior approval required by faculty sponsor who supervises student's work.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

INFS 799 - Thesis

Credits: 1-6
Repeatable within Degree
Original or compilary work evaluated by a committee of three faculty members.

Prerequisite(s): 18 credits applicable toward MS.

Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

Information Technology (IT)

Offered by the Volgenau School of Engineering.
Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

**IT 102 - Discrete Structures**

Credits: 3  
Limited to 2 Attempts  
Introduces ideas of high-level pseudocode and discrete structures. This course focuses on problem-solving, supporting both abstraction and modeling providing the foundation needed for programming.

**Prerequisite(s):** A minimum score of 13 on the Algebra I section of the Mathematics Placement Test or C or better in MATH 105 or MATH 108. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**When Offered:** Fall, Summer, Spring

**IT 103 - Introduction to Computing**

Credits: 3  
Not Repeatable  
This course is an approved equivalent for transfer students only and is not offered at Mason.

Fulfills Mason Core requirement in information technology (all) for transfer students only.

**IT 104 - Introduction to Computing**

Credits: 3  
Limited to 2 Attempts  
This course, using both lecture and laboratory practice, introduces students to basic computer concepts in hardware, software, networking, computer security, programming, database, e-commerce, decision support systems, and other emerging technologies such as blogs, wiki, RSS, podcasting, and Google applications. Additional lectures examine social, legal, ethical issues including privacy, intellectual property, health concerns, green computing, and accessibility. Students learn techniques to search, evaluate, validate, and cite information found online. Widely used applications including word processing, spreadsheets, databases, presentation, and web development software are studied.

Fulfills Mason Core requirement in information technology (all).

Equivalent to IT 103.

**Hours of Lecture or Seminar per week:** 1.5  
**Hours of Lab or Studio per week:** 1.5  
**When Offered:** Fall, Summer, Spring

**IT 105 - IT Architecture Fundamentals**
Introduces students to fundamental hardware and software concepts of information technology (IT) to understand the basics of modern computing environments. Students acquire a comprehensive understanding of a computer system's essential components, component interdependence, and binary functions, factoring in performance, data communication models, telecommunication basics, and information security. Recent trends and advancements in mobile computing, telecommunications, and IT infrastructures are discussed.

**IT 106 - Introduction to IT Problem Solving Using Computer Programming**

Credits: 3  
Limited to 2 Attempts  
Introduces techniques for developing solutions to business problems using procedural programming as an IT resource/tool. Students apply problem solving concepts by analyzing problems and constructing, testing, and implementing algorithms using pseudocode, desk checking, and procedural programming. Topics include: program flow, control structures, programming fundamentals, and integrating program modules into a cohesive solution.

**Prerequisite(s):** IT 103 or IT 104. Prerequisite enforced by registration system.

**Corequisite(s):** IT 102 or MATH 112 or MATH 125.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1  
**When Offered:** Fall, Spring

**IT 191 - Review of Computing Fundamentals**

Credits: 1  
Limited to 2 Attempts  
Provides a self-paced, comprehensive review of computing fundamentals. Topics include: hardware, software, networking, computer security, programming, database, e-commerce, decision support systems, and other emerging technologies. Open only to students with transfer credit comparable to IT 103 or IT 104 who have not attempted IT 191 or IT 104.

**Prerequisite(s):** Permission of department.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No credit only  
**When Offered:** Fall, Summer, Spring

**IT 193 - Review of Multimedia and Web Design**
Provides a self-paced, comprehensive review of concepts and techniques for designing and developing attractive and accessible websites with multimedia components. Introduces and discusses technological, aesthetic, and human factors. Open only to students with transfer credit comparable to IT 213 who have not attempted IT 193 or IT 213.

Prerequisite(s): Permission of department.

IT 194 - Review of Database Fundamentals

Provides a self-paced, comprehensive review of database fundamentals. Topics include: database classifications, data models with extensive coverage of the relational model, entity-relationship and extended entity relationship models, normalization, advanced data modeling, and Structured Query Language (SQL) programming. Open only to students with transfer credit comparable to IT 214 who have not attempted IT 194 or IT 214.

Prerequisite(s): Permission of department.

IT 196 - Review of IT Problem Solving Using Computer Programming

Provides a self-paced, comprehensive review of techniques for developing solutions to business problems through an iterative design and implementation approach. Open only to students with transfer credit comparable to IT 106 who have not attempted IT 106 or IT 196. (MATH 112 prior completion or co-registration is strongly recommended).

Prerequisite(s): Permission of department.

IT 198 - Independ Study Informatn Tech
IT 206 - Object Oriented Techniques for IT Problem Solving

Credits: 3
Limited to 2 Attempts
Introduces techniques for developing solutions to business problems using object-oriented programming as an IT resource/tool. Students apply problem solving concepts by analyzing problems and constructing, testing, and implementing object-oriented solutions using object-oriented analysis and design, data modeling, and object-oriented programming fundamentals. Topics include: Unified Modeling Language (UML), classes, inheritance, polymorphism, and exception handling.

Prerequisite(s): (IT 106 or IT 196 or CS 112) and (IT 102 or MATH 112 or MATH 125). Prerequisite enforced by registration system.

Notes: Students cannot receive credit for both IT 108 and IT 206.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

IT 207 - Applied IT Programming

Credits: 3
Limited to 2 Attempts
Building on fundamentals of problem solving, logic and algorithm development, and procedural programming, this course further develops these skills while covering server side scripting languages and relational database connectivity. Students will use open source software tools to develop database-enabled web applications.

Prerequisite(s): (IT 106 or IT 196 or CS 112) and (IT 102 or MATH 112 or MATH 125) and (IT 214 or IT 194). Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IT 213 - Multimedia and Web Design

Credits: 3
Limited to 2 Attempts
Through lecture, class demonstration, class discussion, and hands-on lab experience, introduces multimedia and web computer graphics. Focuses on development of web-enabled multimedia applications from practical business perspective. Introduces and discusses technological, aesthetic, and human factors.
**Prerequisite(s):** IT 103 or IT 104. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 1

---

**IT 214 - Database Fundamentals**

Credits: 3  
Limited to 2 Attempts  
Covers fundamentals of relational database management systems and their use in business environments. Topics include: database classifications, data models with extensive coverage of the relational model, entity-relationship and extended entity-relationship models, normalization, advanced data modeling, and Structured Query Language (SQL) programming. Students design and implement a real-world relational database and create complex SQL queries to retrieve data from the database.

**Prerequisite(s):** IT 103 or IT 104. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**IT 216 - Systems Analysis and Design**

Credits: 3  
Limited to 2 Attempts  
Students survey and apply techniques in analyzing and modeling information systems. Requirements are derived in various domains and abstracted at conceptual, logical, and physical levels. Process, data, and state modeling are applied through a project that follows a systems development lifecycle. Object modeling is explored and contrasted with data and process modeling. Individual and group modeling assignments are required.

**Prerequisite(s):** (IT 106 or IT 196) and (IT 214 or IT 194) and (IT 102 or IT 206) Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**IT 223 - Information Security Fundamentals**

Credits: 3  
Limited to 2 Attempts  
Introduces concept of information security. Discusses need for organizational policy to define required services such as confidentiality, authentication, integrity, nonrepudiation, access control, and availability, and mechanisms to implement those services. Covers different types of security including physical security, computer security, and network security; common threats to and attacks against information systems, including accidental damage, identity theft, malicious software, and "spam"; and defensive measures.

**Prerequisite(s):** (IT 101 or IT 105) and (IT 103 or IT 104). Prerequisite enforced by registration system.

**Notes:** Students cannot receive credit for both IT 221 and IT 223.
IT 293 - Applied IT: Junior Transition

Credits: 1
Limited to 2 Attempts
Focuses on transition issues for sophomores and transfer students in Applied Information Technology programs. Assists sophomore and transfer students with choice of concentration, course selection, and career readiness.

Prerequisite(s): Sophomore standing

IT 300 - Modern Telecommunications

Credits: 3
Limited to 2 Attempts
Comprehensive overview of the fundamental principles of telecommunications, including current status and future directions of the public switched telephone network, cellular networks, satellite networks, and computer networks.

Prerequisite(s): (IT 101 or IT 105) and (MATH 108 or MATH 113) and (IT 102 or MATH 112 or MATH 125). Prerequisite enforced by registration system.

IT 304 - IT in the Global Economy

Credits: 3
Limited to 2 Attempts
Explores how IT changed nature of society and contributed to evolution of global economy. Examines changing nature of work, education, and communication, and ethical issues such as intellectual property rights, computer-related crime, privacy concerns, and public policy issues.

Fulfills Mason Core requirement in information technology (ethics only).

Prerequisite(s): IT 103 or IT 104. Prerequisite enforced by registration system.
**IT 306 - Program Design and Data Structures**

Credits: 3  
Limited to 2 Attempts  
Fundamentals of data structures and analysis of algorithms. Large programs written in a modern, high-level programming language. Stresses abstraction, modular design, code reuse, and correctness.

**Prerequisite(s):** (IT 206 or CS 211) and (IT 102 or MATH 112 or MATH 125). Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**IT 308 - Event-Driven Programming**

Credits: 3  
Limited to 2 Attempts  
Building on the programming concepts covered in IT 206, this course focuses on graphical user interfaces. Students will design, develop, and document event-driven programs using an object-oriented language.

**Prerequisite(s):** IT 206 or CS 211. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**IT 314 - Database Programming**

Credits: 3  
Limited to 2 Attempts  
The course introduces students to the Oracle Developer application development utilities and tools and describes how to create and manipulate databases in Oracle database management system. The course provides an extensive overview of SQL and introduction to PL/SQL. Topics include data definition and manipulation languages, stored procedures, triggers, indexing techniques, and elementary query optimization.

**Prerequisite(s):** (IT 106 or IT 196 or CS 112) and (IT 214 or IT 194). Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**IT 315 - Mobile Development**

Credits: 3  
Limited to 2 Attempts  
Studies business-oriented applications for popular mobile platforms including Blackberry, Android and Apple. Provides overview of mobile platforms and devices including evaluation, uses, design and development of applications.
Prerequisite(s): (IT 206 or CS 211) and (IT 213 or IT 193) Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring.

IT 322 - Health Data Challenges

Credits: 3
Limited to 2 Attempts
Covers methodology and tools used to work with health data structures supporting organizations' needs for reliable data that are captured, stored, processed, integrated, and prepared for further querying, decision making, data mining and knowledge discovery for a variety of clinical and organizational purposes. Data security and privacy, data standards, data interoperability, health information exchange, and big data analytics are discussed.

Equivalent to BENG 322.

Prerequisite(s): (IT 214 or IT 194) and (STAT 250 or STAT 344). Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

IT 324 - Health Information Technology Fundamentals

Credits: 3
Limited to 2 Attempts
Explores challenges in the development and implementation of information systems and informatics tools in healthcare environment. Discusses the importance and benefits of electronic health records (EHRs). Students learn about EHRs' creation, management, and evolution, and their use for clinical decision support. In addition health information security, privacy, federal laws, regulations and standards, and their impact on healthcare delivery are discussed.

Prerequisite(s): IT 214 or IT 194. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

IT 328 - Health Information Emerging Technologies

Credits: 3
Limited to 2 Attempts
Provides an introduction to networking in the healthcare environment and covers a wide range of topics on emerging health information technologies. Discusses internet protocols, safety procedures, and data privacy considerations in healthcare environments, and processes required to design, secure, and troubleshoot a network to support healthcare organizations. Mobile computing, patient portals, personal health records, telehealth, health information exchange are discussed.
Prerequisite(s): IT 341. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**IT 331 - Web I: Web Development**

Credits: 3
Limited to 2 Attempts
Introduces the principles and techniques necessary for successful client-side web development. Topics such as HTML5, Cascading Style Sheets, JavaScript, DOM, XML, AJAX, and jQuery are presented. Students will learn to develop attractive and interactive web pages and applications and use client-side web-scripting languages to solve problems both with a text editor and more powerful WYSIWYG HTML editors.

Prerequisite(s): (IT 106 or IT 196 or CS 112) and (IT 213 or IT 193). Prerequisite enforced by registration system.

**IT 332 - Web Server Administration**

Credits: 3
Limited to 2 Attempts
Covers the installation, configuration, and administration of Web servers, FTP servers, and DNS servers. Additional topics include security setups, administration, and associated performance issues.

Prerequisite(s): IT 213 or IT 193. Prerequisite enforced by registration system.

**IT 335 - Web Development using Content Management Systems**

Credits: 3
Limited to 2 Attempts
Through lectures and hands-on lab experience, presents web development techniques using content management systems (e.g. Joomla, Dot net nuke). Introduces characteristics of various types of websites (corporate portals, intranets and extranets; online magazines, newspapers, and publications; e-commerce and online reservations, government applications, small business websites). Presents methods, languages, tools related to web content management systems from an applied perspective.

Prerequisite(s): IT 213 or IT 193. Prerequisite enforced by registration system.

**IT 335 - Web Development using Content Management Systems**

Credits: 3
Limited to 2 Attempts
When Offered: Fall, Spring
IT 341 - Data Communications and Network Principles

Credits: 3
Limited to 2 Attempts
Focuses on primary aspects of data communications and networking. Open Systems Interconnection (OSI) and Internet models; Layer 1 interfaces and cabling configurations; IP network addressing, network design, router and port configurations; security protocols; static routing, RIPv2, and OSPF configurations; TCP, UDP, data reliability, and error correction methods; Telnet, FTP, TFTP, HTTP, SMTP, POP, and DNS protocols.

Prerequisite(s): ((IT 101 and IT 212) or IT 105) and (IT 106 or IT 196 or CS 112) and (MATH 108 or MATH 113). Prerequisite enforced by registration system.

Notes: This course is 50 percent lab work of configuration of routers and network design, implementation, and testing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IT 342 - Operating Systems Fundamentals

Credits: 3
Limited to 2 Attempts
Practices and procedures for installing and configuring modern operating systems, including user accounts, file, print, and terminal servers, mobile computing, and disaster recovery. Through practical lab sessions, students receive real-world experiences with multiple operating systems.

Prerequisite(s): ((IT 101 and IT 212) or IT 105) and (IT 106 or IT 196 or CS 112). Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IT 343 - IT Project Management

Credits: 3
Limited to 2 Attempts
Provides essential strategies and procedures for planning, organizing, staffing, monitoring, and controlling design, development, and production of system to meet stated IT-related need in effective and efficient manner. Fulfills writing-intensive requirement for BS in information technology.

Fulfills writing intensive requirement in the major.

Prerequisite(s): IT 293 and junior standing in BS in applied information technology program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
IT 344 - Information Storage and Management Technologies

Credits: 3
Limited to 2 Attempts
Provides an introduction to principles of information storage and management including the emerging field of virtualization technologies. Covers Direct Attached Storage (DAS), networked storage models such as Network Attached Storage (NAS), Storage Area Network (SAN), and Content Addressed Storage (CAS); and applications in business continuity, replication, disaster recovery, and cloud computing. Includes exposure to real-world storage networking technologies.

Prerequisite(s): IT 341. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

IT 353 - Information Defense Technologies

Credits: 3
Limited to 2 Attempts
This course will examine and assess the role of information technology as a tool of warfare and civil defense. Topics will be discussed from both defensive and offensive perspectives and will include asset tracking, asymmetric warfare, network centric warfare, physical attacks, cyberterrorism, espionage, psyops, reconnaissance and surveillance, space assets, and applications of GPS and cryptographic technology. Students will research and write about the social, ethical, and political effects of such technology.

Prerequisite(s): (IT 101 or IT 105) and IT 223. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IT 357 - Computer Crime, Forensics, and Auditing

Credits: 3
Limited to 2 Attempts
Covers computer crime, relevant laws, agencies, and standards. Presents auditing, logging, forensics, and related software. Explores legal principles such as chain of evidence, electronic document discovery, eavesdropping, and entrapment. Students get hands-on experience with forensics tools.

Equivalent to CRIM 304

Prerequisite(s): (IT 103 or IT 104) and IT 223. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

IT 366 - Network Security I
Examines information security services and mechanisms in network context. Topics include symmetric and asymmetric cryptography; message authentication codes, hash functions and digital signatures; digital certificates and public key infrastructure; access control including hardware and biometrics; intrusion detection; and securing network-enabled applications including e-mail and web browsing.

**Prerequisite(s):** (IT 206 or CS 211) and IT 223. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**IT 369 - Data and Application Security**

Credits: 3  
Limited to 2 Attempts  
Introduces concept of data and application security. Discuss challenges of database, and application and industrial control system security.

**Prerequisite(s):** IT 207 and IT 223. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**IT 390 - Rapid Development of Scalable Applications**

Credits: 3  
Limited to 2 Attempts  
Presents software engineering, programming techniques, platforms and tools necessary for rapid development of scalable applications including: cloud platforms; scalable data storage solutions; web applications development environments. The course will provide a general overview of such techniques but will concentrate on selected ones in each term. The students will work in small teams and must develop scalable prototypes during the course.

**Prerequisite(s):** (IT 106 or IT 196 or CS 112) and (IT 213 or IT 193) and (IT 214 or IT 194). Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**IT 410 - Web Programming**

Credits: 3  
Limited to 2 Attempts  
This course covers layers of the n-tier architecture. Students will build web applications using available frameworks at each tier, such as Java Server Faces and Servlets for the UI tier, Web Services for the business tier and Java Database Connectivity for the
persistence tier.

**Prerequisite(s):** (IT 206 or CS 211) and (IT 214 or IT 194). Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### IT 413 - Digital Media Editing

Credits: 3  
Limited to 2 Attempts  
Examines three areas of digital media editing—tools for editing, content and logic decision process, and information technology used by major corporations for development and distribution—through video examples from entertainment industry and corporate productions as well as hands-on editing experience.

**Prerequisite(s):** IT 213 or IT 193. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### IT 414 - Database Administration

Credits: 3  
Limited to 2 Attempts  
Explores advanced concepts of database administration using enterprise-level database management system. Topics include: backup, recovery, corruption, automatic management, resource management, job scheduling, space management, memory management, storage management, diagnosis and corresponding tools.

**Prerequisite(s):** IT 314. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### IT 415 - Information Visualization

Credits: 3  
Limited to 2 Attempts  
Provides an overview of information visualization applications in intelligence analysis, decision support systems, and network monitoring. Covers human factors, human interface with information, and current and future trends in information visualization. Students also learn to develop a rudimentary visualization application.

**Prerequisite(s):** IT 213 or IT 193. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
IT 429 - Security Accreditation of Information Systems

Credits: 3
Limited to 2 Attempts
This course explains basic principles of performing FISMA certification and accreditation (C&A) of an IT System: covering methodology for completing C&A, explaining the role of the Certifier and the Information System Security Officer (ISSO), and giving students real world experience on the performing the process: valuable experience since IT Systems in the Federal Government need C&A every three years.

Prerequisite(s): (IT 105 or IT 212) and IT 223. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer

IT 431 - Web II: Advanced Web Development

Credits: 3
Limited to 2 Attempts
Focuses on database-driven Web application development and Web presentation using server-side coding and advanced techniques. Additional topics include AJAX, Web server configuration and Web services.

Prerequisite(s): IT 331. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IT 436 - Agile Web Development with Open Source Frameworks

Credits: 3
Limited to 2 Attempts
Introduces the principles and techniques for TDD (test-driven development) and deployment using open source frameworks (e.g., Ruby on Rails). Topics such as agile development methodology, version control, and Lean Startup are also presented. Students will work in small teams and propose, develop, and deploy interactive web applications and use an open source application framework to solve real-world problems.

Prerequisite(s): (IT 106 or IT 193 or CS 112) and (IT 213 or IT 193) and (IT 214 or IT 194). Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

IT 441 - Network Servers and Infrastructures
Credits: 3  
Limited to 2 Attempts  
Covers IP networking concepts and practices for IPv6 addressing, DHCP and DNS in IPv6 networks, secure communication over VPNs, VoIP architecture, Virtual Computing, Cloud Computing, MPLS, traffic monitoring and network connectivity between operating systems. Students learn the latest technologies of IP networks and understand application-level services used in the Internet. Lab sessions focus on installation of applications on virtual servers.

**Prerequisite(s):** IT 341 and (IT 102 or MATH 112 or MATH 125). Prerequisite enforced by registration system.

**Notes:** Term project.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

## IT 445 - Advanced Networking Principles

Credits: 3  
Limited to 2 Attempts  
This course focuses on Layer 2 and 3 of the OSI model and WAN technologies. Frame Relay and ISDN, complex router configurations of Variable Length Subnet Masking (VLSM), Classless Inter-Domain Routing (CIDR), Network Address Translation (NAT), Dynamic Host Configuration Protocol (DHCP), and study of Network Management Systems available for Data Communications Networks. Layer 2 involves Ethernet-switching components, including detailed hands-on configuration covering all aspects of switches using the command-line interface method.

**Prerequisite(s):** IT 341. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

## IT 455 - Wireless Communications and Networking

Credits: 3  
Limited to 2 Attempts  
Covers fundamental principles underlying wireless data communications. Topics include wireless transmission basics, radio propagation issues, antennas, digital modulation, spread spectrum techniques and their applications, and popular standards: WiFi, WiMAX and Bluetooth. Also presents practical knowledge to enable the design, testing, deployment, debugging and commissioning of WiFi, WiMAX networks and point-to-point microwave systems. Discussions on cellular network technologies are also included.

**Prerequisite(s):** (IT 101 or IT 105) and (IT 102 or MATH 112 or MATH 125) and IT 341. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

## IT 462 - Information Security Principles
Studies security policies, models, and mechanisms for secrecy, integrity, availability, and usage controls. Topics include models and mechanisms for mandatory, discretionary, and role-based access controls; authentication technologies; control and prevention of viruses and other rogue programs; common system vulnerabilities and countermeasures; privacy and security policies and risk analysis; intellectual property protection; and legal and social issues.

**Prerequisite(s):** (IT 105 or IT 212) and IT 223. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**IT 465 - Peer-to-Peer Systems and Overlay Networks**

Credits: 3  
Limited to 2 Attempts  
Peer-to-Peer (P2P) systems and overlay networks have become popular over the years because they are a cost-effective and scalable content sharing solution. Fundamentals of P2P systems and overlay networks are introduced to validate it as a better option than the traditional client server architecture. Students learn the classifications of P2P systems and architectures; overlay network categories, and their benefits and disadvantages.

**Prerequisite(s):** IT 341 and (IT 106 or IT 196). Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
When Offered: Fall, Spring

**IT 466 - Network Security II**

Credits: 3  
Limited to 2 Attempts  
Detailed study of certain symmetric and asymmetric cryptographic schemes; analysis of network data (including "packet sniffing"); security at different network layers (including IPSec, SSL/TLS and Kerberos); and secure e-commerce. Teaches principles of designing and testing secure networks, including use of network partitioning, firewalls, intrusion detection systems, and vulnerability assessment tools.

Equivalent to INFS 466

**Prerequisite(s):** IT 223 and IT 341 and (IT 206 or CS 211) and (IT 102 or MATH 112 or MATH 125). Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**IT 467 - Network Defense**
Practices and procedures for defending business-class, heterogeneous networks against threats (including system failure, environmental events, human error) and attacks (including intrusion, malicious software, denial of service). Through practical lab sessions, students receive real-world experience designing networks, installing and configuring system components, detecting and recovering from problems and attacks, and gathering data to support prosecution of offenders and refinement of countermeasures.

**Prerequisite(s):** IT 366. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer

---

**IT 484 - Voice Communications Technologies**

Credits: 3  
Limited to 2 Attempts  
Examines current and emerging technologies for transmission of voice signals over telecommunications systems. Highlights significant differences between the requirements for voice and other forms of data. Topics provide a balance between traditional voice technologies and those that use data networks. Real-world implementations are analyzed to determine reliability, quality, and cost effectiveness. Includes lab experiments with analog and digital technologies.

**Prerequisite(s):** IT 300 and IT 341. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**IT 488 - Fundamentals of Satellite Communications**

Credits: 3  
Limited to 2 Attempts  
Provides a comprehensive overview of the principles of satellite communications systems. Major topics include satellite orbits and constellations, the space segment, antennas, modulation, coding, satellite access methods and link analysis. Also covers satellite applications, with emphasis on recent developments in the satellite communications field. Hands-on design experience is gained through the use of readily available vendor software systems.

**Prerequisite(s):** IT 300 and IT 341 and (MATH 108 or MATH 113). Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**IT 490 - Application Maintenance and Spiral Development**

Credits: 3  
Limited to 2 Attempts  
Presents software engineering, programming techniques, platforms and tools necessary for application maintenance, optimization
and spiral development. Models discussed may include: incremental development, waterfall, evolutionary; on various platforms: mobile, cloud, web-based. Provides a general overview of such techniques but concentrates on selected topics. Students will work in small teams to maintain and further develop previously deployed applications.

**Prerequisite(s):** IT 390. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

**IT 492 - Senior Design Project I**

Credits: 3
Limited to 2 Attempts
Students use information technology as a tool to redesign business processes so the enterprise can achieve its objectives. Student teams analyze the business processes of real organizations, quantify the negative impact caused by current process challenges, then develop and present a compelling Business Case for Change. Students develop skills critical for preparing and delivering effective verbal briefings and presentations.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** (IT 206 or IT 207) and IT 343 and MSOM 301. Prerequisite enforced by registration system.

**Notes:** Restricted to AIT/INFT majors.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**IT 493 - Senior Design Project II**

Credits: 4
Limited to 2 Attempts
Students, in teams, complete projects demonstrating preparedness as an IT professional. This work includes ethical challenges, status reports and engineering notebooks evaluated during class. Teams members develop detailed designs, build solutions up to Beta, present final written reports and final verbal presentations before review panels of business leaders. Students must register for the section that continues their IT 492 section.

**Prerequisite(s):** IT 492. Prerequisite enforced by registration system.

**Notes:** Restricted to AIT/INFT majors.

**Hours of Lecture or Seminar per week:** 4
**Hours of Lab or Studio per week:** 0

**IT 495 - Turning Ideas into Successful Companies**
This is a practical course in entrepreneurship. Each class session will focus on specific topics associated with building a business: team creation, business planning, market research, product development, financial planning, funding, people and organizations, competitive strategies, operations, growth and exit strategies, and more. Students will have reading assignments and will participate in competitive team assignments.

**Prerequisite(s):** Senior standing.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### IT 496 - Decision Making in IT Ventures

Credits: 3  
Limited to 2 Attempts  
Introduces students to the decision making processes involved in leading IT companies. Topics include: the role of major IT applications in strategic, tactical, and operational decisions; assessment and justification of IT ideas and investments; methodologies to predict decision outcomes; how to measure IT investments performance; strategies to inspire, influence and organize the workforce to accomplish key business goals.

**Prerequisite(s):** MSOM 301. Prerequisite enforced by registration system.

**Notes:** Students develop skills through assessment and role-playing activities, discussions, cases, and hands-on applications.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### IT 498 - Independent Study in Information Technology

Credits: 1-3  
Repeatable within Term  
Directed self-study of special topics of current interest in IT.

**Notes:** Topics must be arranged with instructor and approved by department chair before registering. Maximum 3 credits.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0

### IT 499 - Special Topics in Information Technology

Credits: 3  
Repeatable within Term  
Topics of special interest to undergraduates.

**Prerequisite(s):** Permission of department; specific prerequisites vary with nature of topic.
Notes: May be repeated for maximum 6 credits if topics are substantially different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**IT 796 - Directed Reading and Research**

Credits: 1-6  
Not Repeatable  
Reading and research on specific topic in information technology under direction of faculty member.

Prerequisite(s): Permission of Chair.

Notes: May be repeated as needed.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 0

**IT 797 - Directed Reading and Research**

Credits: 1-3  
Not Repeatable  
Reading and research on specific topic in information technology under direction of faculty member.

Notes: May be repeated as needed.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

**IT 896 - Directed Readings and Research in IT**

Credits: 1-6  
Repeatable within degree  
Students pursue research on a specific topic under direction of faculty

Prerequisite(s): Open to students pursuing the PhD in IT program who have completed qualifying exams, or permission of program director.

When Offered: Fall, Summer, Spring

**IT 990 - Dissertation Topic Presentation**
Students put together a professional presentation of a research proposal and present it for critique to fellow students and interested faculty. May be repeated with change of research topic, but credit toward doctoral degree is given once.

Equivalent to CS 990, STAT 990

**Prerequisite(s):** Completion of all course requirements for PhD, or permission of instructor.

**Notes:** May be repeated with change in topic, but degree credit is given only once.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

### IT 991 - Engineer Project Presentation

Credits: 1  
Repeatable within Degree

Opportunity for engineer degree students to present project proposal for critique to interested faculty and students. Covers presentation of project topic for engineer degree in information technology, and is required of all engineer degree students. Students complete project proposal.

**Prerequisite(s):** Completion of all course requirements for engineer degree in information technology, or permission of instructor.

**Notes:** May be repeated with change in topic, but degree credit is only given once.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

### IT 996 - Engineer Project Proposal

Credits: 1-6  
Repeatable within Degree

Work on project proposal that forms basis for dissertation for engineer degree.

**Prerequisite(s):** Completion of all course requirements for the Engineer degree in Information Technology and permission of Project Director. Students must submit a Project Proegree Report form to the Graduate Student Service Office.

**Notes:** May be repeated. No more than 12 credits of IT 996 and 997 may be applied to engineer degree requirements.

**Hours of Lecture or Seminar per week:** 1-4  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit
IT 997 - Engineer Project Dissertation

Credits: 1-6
Repeatable within Degree
Formal record of commitment to engineer project dissertation under direction of advisory committee in information technology.

Prerequisite(s): Admission to candidacy.

Notes: May be repeated as needed.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

IT 998 - Doctoral Dissertation Proposal

Credits: 1-12
Repeatable within Degree
Work on research proposal that forms basis for doctoral dissertation.

Notes: May be repeated. No more than 24 credits of IT 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

IT 999 - Doctoral Dissertation

Credits: 1-12
Repeatable within Degree
Formal record of commitment to doctoral dissertation research under direction of faculty member in information technology.

Prerequisite(s): Admission to candidacy.

Notes: May be repeated as needed.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

Initiatives in Educational Transformation-Teaching (IETT)

Offered by the College of Education and Human Development

IETT 500 - Introduction to IETT
Introduces students to the ideas and the experiential pedagogy of the IET program in an intensive summer session designed to develop relationships among participating educators and faculty by building a vibrant learning community through shared and emerging knowledge and experience.

**IETT 750 - Studies in Language and Culture I**

Credits: 3  
Not Repeatable  
Explores the interdependence and mutual construction of languages and cultures, as well as how both provide interpretive frames and thus mediate lived experiences. Investigates culture and language as primary shapers of relationships and identities. Engages teachers in constructing culturally responsive curriculum and pedagogy.

**IETT 751 - Studies in Language and Culture II**

Credits: 3  
Not Repeatable  
Deepens understandings of how language and culture shape interpretations that affect people's lives. Investigates student achievement in relationship to classroom experiences and the language and cultural knowledge students bring to school. Examines vernacular discourses, including those in cyberspace and popular culture, while considering pedagogical implications. Probes social justice issues in and out of educational institutions.

**IETT 752 - Research in Practice: The Team Project**

Credits: 6  
Not Repeatable  
Builds further understanding of teacher research with an emphasis on collaborative research process to develop skills, construct knowledge, and transform practice. Teams engage in collaborative inquiry as they form and frame salient questions, take actions to improve teaching and learning, gather, analyze and interpret multiple forms of data, and share their experience in communities of practice.

**Prerequisite(s):** MNPE 704

**Hours of Lecture or Seminar per week:** 6  
**Hours of Lab or Studio per week:** 0
IETT 753 - Teaching and Learning

Credits: 3
Not Repeatable
Provides a structured opportunity for offering evidence of individual growth and transformation of professional practice. Through a process of deep reflection, examines fundamental philosophical and pedagogical assumptions, explores individual educational experiences, and critically examines professional practices related to meeting K-12 students' needs, continuous improvement, and program experiences.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IETT 754 - Introduction to Teaching Historic Places with Diverse Populations

Credits: 1
Not Repeatable
Explores and interprets national, regional, and local historic sites in the Washington DC area, students will practice historical thinking and teaching through an analysis of historic sites as primary sources.

Corequisite(s): MNPE 700; MNPE 703

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Spring.

IETT 755 - Advanced Teaching Historic Places with Diverse Populations

Credits: 2
Not Repeatable
Building on the exploration and interpreting skills learned in IETT 754, students will practice historical thinking and teaching for diverse P-12 classroom populations to convey critical thinking skills and civic engagement.

Prerequisite(s): IETT 754.

Corequisite(s): IETT 750.

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0.5
When Offered: Fall

Instructional Technology (EDIT)

Offered by the College of Education and Human Development
EDIT 201 - Strategies for Online Learning Success

Credits: 1
Not Repeatable
Helps students assess their readiness for online learning using effective strategies for online interaction and activities designed to promote successful online experiences.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

EDIT 401 - Introduction to Learning Technologies

Credits: 3
Not Repeatable
Provides an overview of the field of learning technologies, including its history, theoretical foundations, design processes, and technologies. Illustrates how learning technologies can be applied in a variety of teaching and training contexts including e-learning, educational software, instructional design, corporate training, and curriculum development.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

EDIT 413 - Technology, Society, and the Culture of Learning

Credits: 3
Not Repeatable
Explores the relationship between technological change and education reform initiatives. Emphasis will be placed on the ways in which technological and social changes influence and shape the goals and outcomes of the K-12 educational process.

Prerequisite(s): EDUC 300.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 426 - Web Accessibility and Design

Credits: 3
Not Repeatable
Provides instruction for accessible web design using HTML and existing authoring tools. Section 508 web accessibility standards and assistive technologies to access the computer will be explored.

Notes: Class may be delivered via distance education.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
EDIT 504 - Introduction to Educational Technology

Credits: 3  
Not Repeatable  
Examines uses of and issues in educational technology. Explores curriculum integration of technology, and focuses on learning and using commercially available applications software.

Notes: Field experience in public schools will be required during course.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDIT 526 - Web Accessibility and Design

Credits: 3  
Not Repeatable  
Develops understanding of principles of universal web design. Students apply this understanding by designing and developing accessible web site using web authoring tools.

Equivalent to EDSE 526 (2012-2013 Catalog).

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDIT 530 - Scripting and Programming

Credits: 2  
Repeatable within Term  
Enables development of computer-based educational materials using widely known educational scripting language. Students explore basic authoring capabilities, and learn to apply those capabilities by designing and producing materials using commands, procedures, and functions of scripting language.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0

EDIT 561 - Teaching with Telecommunications

Credits: 1  
Not Repeatable  
Develops expertise with various aspects of telecommunications tools, and models ways these tools can be used for personal learning and integration into teaching/learning process. Addresses e-mail, Internet, web, and online databases.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0
EDIT 562 - Teaching with Databases

Credits: 1
Not Repeatable
Develops expertise with various aspects of databases, and models ways databases can be integrated into teaching and learning process. Focuses on strategies for searching, sorting, creating, and communicating with information, much of which is structured by variety of online and offline databases.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

EDIT 563 - Teaching with Graphics

Credits: 1
Not Repeatable
Explores various graphic programs available for constructing visual images. Addresses draw and paint programs, scanning and editing images, and using visual communication to support K-12 learning.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

EDIT 564 - Teaching with Web 2.0

Credits: 2
Not Repeatable
Develops expertise with social, cognitive, and learning implications of film, video, and television. Engages students in process of planning, storyboarding, and filming with video.

Prerequisite(s): EDIT 561.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

EDIT 565 - Teaching with Educational Software

Credits: 1
Repeatable within Degree
Explores variety of educational software, including simulations, problem-solving software, computational tools (calculators, probeware, LOGO, and spreadsheets), and drill-and-practice/integrated learning systems. Emphasizes ways these programs support K-12 teaching and learning process.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
EDIT 566 - Teaching with Multimedia/Hypermedia

Credits: 2
Repeatable within Degree
Covers variety of hypertext/hypermedia and multimedia tools. Emphasizes students' ability to use tools and then teach others. Covers the ways integration of tools in K-12 curriculum support learning, and difference between hypermedia and multimedia.

Prerequisite(s): EDIT 563.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

EDIT 567 - Teaching with Desktop Publishing

Credits: 2
Repeatable within Degree
Explores variety of publishing tools, including word processors, desktop publishers, and idea processors. Emphasizes using tools to communicate. Covers design and layout principles, appropriate use of images to facilitate communication, and ways K-12 teachers can design opportunities for students to learn concepts.

Prerequisite(s): EDIT 563.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

EDIT 568 - Teaching with the Web

Credits: 2
Not Repeatable
Examines the various aspects of web-based learning and the ways these tools can be integrated into the teaching/learning process. The course is taught online.

Prerequisite(s): EDIT 561

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 0

EDIT 571 - Visual Design and Applications

Credits: 1-3
Repeatable within Term
Provides basic knowledge of the range of capabilities of available graphic and visual design applications. Students learn to cultivate effective visual design practices for creating instructional products.
EDIT 572 - Digital Audio/Video Design and Applications

Credits: 1-3
Repeatable within Term
Provides basic knowledge of the range of capabilities of available audio and video design applications. Students learn to cultivate effective audio and video design practices for creating instructional products.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

EDIT 573 - Project Management

Credits: 1-3
Repeatable within Term
Explores project management principles and applications used to manage, plan, and track large-scale, complex instructional design projects.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

EDIT 574 - Social Media and Digital Collaboration Applications

Credits: 1-3
Repeatable within Degree
Provides basic knowledge of the range of capabilities of available social networking, teleconferencing, and collaboration applications. Students learn to integrate the latest information and communication technologies into the creation of instructional products.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

EDIT 575 - e-Learning Design Applications

Credits: 1-3
Repeatable within Term
Provides basic knowledge of available applications for creating, delivering, managing and tracking e-learning experiences. Students learn to create instructional products using the latest e-learning design applications.

Notes: Content customized to particular software tool presented.
EDIT 576 - Mobile Learning and Applications

Credits: 1-3
Repeatable within Term
Explores current best practices and techniques required to deliver effective learning content through mobile devices. Students learn pedagogical approaches to mobile learning as well as investigate various mobile platforms and applications.

EDIT 590 - Educational Research in Technology

Credits: 3
Not Repeatable
Focuses on developing skills, insights, and understanding basics to performing research with emphasis on interpretation, application, critique, and use of findings in educational settings. Students develop expertise in action research methodology, design, and implementation.

EDIT 593 - Instructional Hardware Systems

Credits: 3
Not Repeatable
Teaches basic technical features of computer-based hardware systems used in educational settings, including stand-alone computers, peripheral devices, and networking systems.

EDIT 597 - Special Topics in Education

Credits: 1-6
Repeatable within Term
Provides advanced study on selected topic or emerging issue in American or international education.

Notes: May be repeated for credit with GSE permission.
EDIT 601 - Instructional Design and Technology (IDT) Portfolio

Credits: 1
Not Repeatable
Enables students to create and publish digital portfolio that demonstrates effective and meaningful integration and syntheses of instructional design and technology concepts, principles, and competencies learned across program courses at mid-degree program point.

Notes: To be taken at mid-degree program point with minimum 12 and maximum 15 credits.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

EDIT 611 - Innovations in e-Learning

Credits: 3
Not Repeatable
Explores leading-edge learning technologies and their integration into the e-learning design process. Hands-on activities focus on technology planning, selection, implementation, and evaluation utilizing instructional design best practices.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 641 - Understanding Virtual Schools

Credits: 1
Not Repeatable
Develops knowledge about online learning for K-12 students. Examines history and trends of online learning, and characteristics of K-12 virtual learners.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

EDIT 642 - The Online Academy

Credits: 1
Not Repeatable
Develops knowledge about Mason's virtual high school. Focuses on design model with attention to representative problems, performances of understanding, communities of practice, and mentors.

Prerequisite(s): EDIT 641

Corequisite(s): EDIT 641
EDIT 643 - Online Mentoring I: Building Virtual Relationships

Credits: 1
Not Repeatable
Assists in developing online mentoring skills related to integral role that building relationships plays in success of online learning.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

EDIT 644 - Online Mentoring II: Promoting Self-Regulation

Credits: 1
Not Repeatable
Assists in developing online mentoring skills related to integral role that self-regulation plays in success of online learning.

Prerequisite(s): EDIT 643

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

EDIT 645 - Online Mentoring III: Conceptual Learning

Credits: 1
Not Repeatable
Assists in developing online mentoring skills related to role of support of conceptual and content understanding in success of online learning.

Prerequisite(s): EDIT 644

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

EDIT 646 - Online Mentoring IV: Moderating

Credits: 2
Not Repeatable
Assists in developing expertise with moderating student learning asynchronous and synchronous in online environments including discussion boards, chat rooms, and general communication patterns.

Prerequisite(s): EDIT 645 or permission of instructor
EDIT 701 - Advanced Instructional Design and Technology (IDT) Portfolio

Credits: 1
Not Repeatable
Enables students to create and publish a digital portfolio that demonstrates effective and meaningful integration and syntheses of instructional design and technology concepts, principles, and competencies learned across program courses at end-degree program point.

Prerequisite(s): EDIT 601. Prerequisite enforced by registration system.

EDIT 704 - Instructional Technology Foundations and Theories of Learning

Credits: 3
Repeatable within Degree
Reviews practical and pedagogical issues related to design and development of technological instruction. Emphasizes investigating instructional design as a field and community of practice, and reviewing core learning theory constructs applicable to design of instructional technology.

EDIT 705 - Instructional Design

Credits: 3
Not Repeatable
Helps students analyze, apply, and evaluate principles of instructional design to develop education and training materials spanning a wide range of knowledge domains and instructional technologies. Focuses on variety of instructional design models, with emphasis on recent contributions from cognitive science and related fields.

Equivalent to EDCI 705

Prerequisite(s): Teaching or Training Experience or equivalent.

EDIT 706 - Business of Learning Design and Technologies
EDIT 711 - Teaching with Technology I: Telecommunications and Databases

Credits: 3
Repeatable within Degree
Explores and develops expertise with various aspects of telecommunications and databases, and models how tools can be used for personal learning and integration into teaching and learning process. Addresses e-mail, Internet, and web, and online and multimedia databases. Also focuses on strategies for searching, sorting, creating, and communicating with information, many of which are structured by online and offline databases.

Corequisite(s): EDCI 710.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 713 - Teaching with Technology II: Graphics, TV and Video, and Simulations

Credits: 3
Repeatable within Degree
Explores and develops expertise with various graphic programs for constructing visual images, interpreting and creating video, and structuring and using simulations for learning. Addresses draw and paint programs, scanning and editing images, and using visual communication to support K-12 learning. Explores social, cognitive, and learning implications of film, video, and television, and engages students in planning, storyboarding, and filming with video. Also focuses on various categories of simulation, relationship between simulations and ways of knowing, and strategies for using simulations to promote K-12 learning.

Corequisite(s): EDCI 712.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 715 - Teaching with Technology III: Publishing and Computational Tools

Credits: 3
Repeatable within Degree
Explores and develops expertise with variety of publishing tools, including word processors, desktop publishers, and idea
processors. Emphasizes using tools to communicate. Covers design and layout principles, appropriate use of images to facilitate communication, and ways K-12 teachers can design opportunities for students to learn these concepts. Also helps students explore and develop expertise with tools commonly used as part of "computational science" and mathematical modeling. Tools include programming languages such as LOGO, calculators, spreadsheets, probeware, and graphing calculators.

Corequisite(s): EDCI 714.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 717 - Teaching with Technology IV: Hypermedia and Emerging Technologies

Credits: 3
Repeatable within Degree
Develops expertise with hypertext/hypermedia and multimedia tools. Emphasizes ability to use tools and then teach others. Focuses on understanding difference between hypermedia and multimedia. Also examines educational technologies expected to become important applications soon, including virtual reality and distributed learning.

Corequisite(s): EDCI 716.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 719 - Tools 5: Web 2.0 and Digital Video Editing

Credits: 3
Not Repeatable
Explores emerging Web2 tools (blogs, wikis, and podcasts) and digital video with attention to conceptual understanding and potential applications in K-12 settings. Culminates in the design and development of products and lesson plans for K-12 settings.

Prerequisite(s): EDIT 717.

Corequisite(s): EDCI 716.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 720 - Leadership Issues in Educational Technology

Credits: 3
Not Repeatable
Examines how educational technology can provide infrastructure for creating, managing, and evaluating innovative types of teaching and learning environments. Explores new assumptions about learning, instructional technology, and organizational development as foundation for planning how schools can use technology to evolve beyond conventional approaches.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
EDIT 721 - Web-Based Learning

Credits: 3
Not Repeatable
Examines web-based learning and how these tools can be integrated into the teaching/learning process in K-12 settings.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 725 - Technology and Diversity

Credits: 3
Not Repeatable
Focuses on technology to support learning needs of all students, including English-as-a-second-language, bilingual, and special-needs students. Emphasizes helping teachers use technology to support learning when faced with such diverse learners in one classroom.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 730 - Advanced Instructional Design

Credits: 3
Not Repeatable
Provides students with the knowledge and skills for designing highly contextualized and engaging problem-solving learning environment using a grounded, theory-based design approach. Emphasizes the design of technology supported learning environments using a variety of pedagogical models.

Prerequisite(s): EDCI/EDIT 705

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 732 - Analysis and Design of Technology-Based Learning Environments

Credits: 3
Not Repeatable
Enables design, implementation, and evaluation of technology-based education and training materials using advanced computer-based authoring tools.

Prerequisite(s): EDIT 730 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
EDIT 742 - Interactive Technologies: Gaming and Robotics

Credits: 3
Not Repeatable
Project-based, hands-on course focusing on technology, science, and engineering. LEGOS, controlled by small microcomputers, used to show principles behind many technological innovations. Other technological advances explored.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 745 - Technology Leadership Issues

Credits: 3
Not Repeatable
Explores relationship of leadership, innovations, change, and technology advocacy. Emphasizes implementation of ideas and strategies to influence decisions of policy makers. Explores sources of grant funding, and interaction with professional organizations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 746 - Educational Technology and Assessment

Credits: 3
Not Repeatable
Covers fundamentals of educational assessment and measurement, and relates them to current attempts to use technology for educational assessment. Explores use of computer technology to support traditional testing and innovative ways to assess complex learning.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 747 - Technology and Teacher Development

Credits: 3
Not Repeatable
Investigates latest research and issues related to teacher education to include staff development in K-12 in-service as well as university courses. Students paired with preservice teachers who act as online mentors to develop leadership and mentoring skills.

Prerequisite(s): EDIT 590 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
EDIT 748 - TIP 2 Technology Innovations Project

Credits: 3
Not Repeatable
Continuation of design and development of EDIT 741 technology-enriched learning module. Students conduct action research, and implement advanced action research project.

Prerequisite(s): EDIT 741 and 590.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 750 - Learning Technologies and Strategies for Innovation

Credits: 3
Not Repeatable
Explores formal and non-formal learning technologies, models, theories, and strategies that support enterprise learning and performance. Assesses the potential of learning technologies to innovate the practice of the organization.

Notes: To be taken in final year of course work.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 751 - Overview of Learning Analytics and Big Data

Credits: 3
Not Repeatable
Explores the tools, technologies and methods for capitalizing on data stored in enterprise-wide information systems to support executive-level learning and performance support decision-making. Focuses on demonstrating the bottom line business value of learning through evidence-based talent needs.

Prerequisite(s): Admission to Executive Chief Learning Officer (ECLO)Certificate Program, or permission of advisor

Hours of Lecture or Seminar per week: 3

When Offered: Fall

EDIT 752 - Design and Implementation of Technology-based Learning Environments

Credits: 3
Repeatable within Degree
Students design and produce multimedia/hypermedia applications based on current theory and research in instructional design and cognitive science. Examines user needs, information models, structure, and media selection and uses to inform design and
production of final project.

Prerequisite(s): EDIT 732 or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 760 - Online Teachers and Learners

Credits: 1
Not Repeatable
Examines the attributes of teachers and K-12 learners with emphasis on attitudes, behaviors, and adaptations required by online teachers and learners.

Corequisite(s): EDIT 761.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall

EDIT 761 - Models of Online Learning

Credits: 2
Not Repeatable
Provides opportunities for learners to identify, explore, and evaluate a range of educational models for K-12 online learning. These include blended learning (web-enhanced, web-supported), the flipped classroom, mentor-mentee dyad, group collaborative, synchronous, asynchronous, parent directed e-learning, mobile learning, and web-delivered programmed instruction.

Prerequisite(s): Admissions to Integration of Online Learning in Schools program (IOLS).

Corequisite(s): EDIT 760.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall

EDIT 762 - Quality K-12 Online Learning

Credits: 1
Not Repeatable
Examines and evaluates quality indicators for the design of online learning pointing to the six major areas for consideration: instructor-learner, learner-learner, learner-content, learner-interface, learner-instructional strategies, and social presence.

Prerequisite(s): EDIT 760, EDIT 761.

Corequisite(s): EDIT 763.
EDIT 763 - Tools for K-12 Online Learning

Credits: 2
Not Repeatable
Examines tools that structure and support online learning with particular emphasis on the unique affordances of each tool including tools for producing, delivering, and supporting online learning.

Prerequisite(s): EDIT760, EDIT 761.

Corequisite(s): EDIT 762.

EDIT 764 - The ART of Online Communication

Credits: 3
Not Repeatable
Examines strategies to assess, respond to, and target online communication and develops expertise in questioning and listening, supporting self-regulation, and clarifying conceptual understanding using a series of case studies and role playing activities.

Prerequisite(s): EDIT 763; may also be taken as corequisite.

Corequisite(s): EDIT 763.

EDIT 765 - Facilitating K-12 Online Learning

Credits: 2
Not Repeatable
Develops expertise in facilitating and moderating online learning to include synchronous and asynchronous environments, community building strategies, questioning strategies, prompting reflection, and facilitating conceptual understanding.

Prerequisite(s): EDIT 764.

Corequisite(s): EDIT 766.

Hours of Lecture or Seminar per week: 2
EDIT 766 - Understanding Online Presence

Credits: 2  
Not Repeatable  
Examines impacts of distance on teachers and learners and develops strategies to establish teacher presence, to establish and express self, to promote learner-learner connections, and to compensate for the separation of teacher-learner and learner-learner.

Prerequisite(s): EDIT 764.

Corequisite(s): EDIT 765.

EDIT 767 - Designing K-12 Online Learning

Credits: 3  
Not Repeatable  
Develops frameworks for designing and structuring online learning opportunities and emphasizes course content and learning outcomes, selection of appropriate online models, and organization of online lessons and courses, online learning tools, and assessment and evaluation strategies.

Prerequisite(s): EDIT 766.

EDIT 768 - K-12 Online Design I

Credits: 1  
Not Repeatable  
Develops frameworks for designing and structuring online learning opportunities and emphasizes course content and learning outcomes, selection of appropriate online models, and organization of online lessons and courses online learning tools, and assessment and evaluation strategies.

Prerequisite(s): EDIT 764.

Corequisite(s): EDIT 791.
EDIT 769 - K-12 Online Design II

Credits: 1
Not Repeatable
Focuses on the creation of online courses appropriate for K-12 learners and culminates in comprehensive design documents that detail goals, assessments, learning tools, and detailed scripts or documents ready for the production phase.

Prerequisite(s): EDIT 767.
Corequisite(s): EDIT 792.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Summer

EDIT 771 - Overview of Digital Media

Credits: 1-3
Not Repeatable
Provides overview of media and technology tools used in teaching, learning and training. Focuses on developing skills necessary to implement digital media approaches using a systematic design process.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

EDIT 772 - Virtual Worlds, Augmented Reality, and Gaming Applications

Credits: 1-3
Repeatable within Term
Provides basic knowledge of available applications and platforms for creating contextually-based learning environments such as immersive virtual worlds, simulated worlds, alternate reality games, and massive multiplayer online role playing games for e-learning.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

EDIT 773 - Human Computer Interface Design for Teaching and Learning

Credits: 3
Repeatable within Degree
Provides overview of human-computer interface issues related to instructional design of technology-centered learning environments. Examines continuum of human-computer feedback.
EDIT 780 - Principles of School-Based Design

Credits: 3
Not Repeatable
Develops and applies a comprehensive set of digital design strategies appropriate for creating engaging learning opportunities for students in PreK-12 environments. Emphasizes school-based design principles, design processes, and design patterns at the intersection of technology, teaching, and learning.

Corequisite(s): EDIT 781

Hours of Lecture or Seminar per week: 3

When Offered: Fall

EDIT 781 - Designing for Information Using

Credits: 3
Not Repeatable
Explores ways in which PreK-12 teachers can design digital environments that connect learners' ability to search, sort, create, communicate, and synthesize information and information resources with learning activities. Emphasizes teachers' ability to design for digital citizenship and information use.

Corequisite(s): EDIT 780

Hours of Lecture or Seminar per week: 3

When Offered: Fall

EDIT 782 - Designing for Literacy

Credits: 3
Not Repeatable
Explores 21st century definitions of literacy related to multiple symbolic environments (e.g. visual, numeric, alphabetic). Examines the practice of design that integrates technology to promote literacy competence across media and across PreK-12 abilities and interests.

Prerequisite(s): EDIT 780 and EDIT 781

Corequisite(s): EDIT 783

Hours of Lecture or Seminar per week: 3

When Offered: Spring
EDIT 783 - Designing for Problem Solving

Credits: 3
Not Repeatable
Examines problem solving as an educational goal, as a cognitive process, and as a series of strategies and habits of mind. Emphasizes and provides practice in the design of digital problem solving environments where technology affords opportunities at the intersection of content learning and problems solving.

Prerequisite(s): EDIT 780 and EDIT 781

Corequisite(s): EDIT 782

Hours of Lecture or Seminar per week: 3

When Offered: Spring

EDIT 784 - Designing for Community Participation

Credits: 3
Not Repeatable
Explores the impact of social media, globalization, collaboration, and diversity as they influence, enable, and challenge learners' ability to participate in a variety of community settings. Emphasizes the practice of design strategies to prepare PreK-12 learners to use technology for learning and participating in varies and diverse communities.

Prerequisite(s): EDIT 782 and EDIT 783

Corequisite(s): EDIT 785

Hours of Lecture or Seminar per week: 3

When Offered: Summer

EDIT 785 - Designing School-Based Digital Learning

Credits: 3
Not Repeatable
Develops frameworks for designing and structuring school-based digital learning. Emphasizes the interaction of design, technology, and content learning to influence teachers' practice in service of PreK-12 learners' abilities to problem solve, use information, participate productively in communities, become knowledgeable, and effectively communicate.

Prerequisite(s): EDIT 782 and EDIT 783

Corequisite(s): EDIT 784

Hours of Lecture or Seminar per week: 3

When Offered: Summer
EDIT 786 - Design and Teacher Leadership

Credits: 3  
Not Repeatable  
Investigates how a design lens intersects with and informs PreK-12 teacher leadership and school-based learning initiatives. Examines a variety of PreK-12 teacher leadership roles and design-based leadership as an integral part of classroom, grade-level, school, and community practice.

Prerequisite(s): DDLS certificate or completion of MEd in Curriculum and Instruction Concentration: Integration of Technology in Schools in Equivalent.

Corequisite(s): EDIT 791

Hours of Lecture or Seminar per week: 3

When Offered: Fall

EDIT 787 - Coaching Advocacy Digital Learning

Credits: 3  
Not Repeatable  
Investigates how fluency as coaches and mentors enables PreK-12 teacher leaders to support colleagues in the design of classroom and school-based digital learning. Explores advocacy as a strategy to engage colleagues and communities in the design of school-based initiatives related to teaching, learning, technology

Prerequisite(s): EDIT 786 and EDIT 791

Corequisite(s): EDIT 792.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

When Offered: Spring

EDIT 790 - Practicum in Instructional Technology

Credits: 1-6  
Repeatable within Degree  
Provides supervised practice in applying knowledge and skills of student's chosen track through placement in appropriate work setting.

Hours of Lecture or Seminar per week: 1-6

Grading: Graduate Special
EDIT 791 - Project Development Practicum I

Credits: 1-6
Repeatable within degree
Engages students in the application of design and production process for the solution of learning challenges with particular emphasis on the design an development phase of the design process.

Prerequisite(s): Permission of Instructor.

Corequisite(s): EDIT 768 or EDIT 786

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0
When Offered: Summer

EDIT 792 - Project Development Practicum II

Credits: 1-6
Repeatable within degree
Facilitates the application of design and production processes to the solution of learning challenges with particular emphasis on the implementation and evaluation phase of the design process.

Prerequisite(s): Permission of Instructor.

Corequisite(s): EDIT 769 or EDIT 787

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0
When Offered: Summer

EDIT 797 - Advanced Topics in Education

Credits: 1-6
Repeatable within Degree
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education.

Notes: May be repeated for credit with CEHD approval.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

EDIT 801 - Nature and Process of Design

Credits: 3
Not Repeatable
Examines multi- and cross-disciplinary perspectives on the nature and process of designing and developing learning technologies.

Prerequisite(s): EDCI 716, EDIT 752, or EDSE 649

Corequisite(s): EDIT 802 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 802 - Cognition and Technology: A Multidisciplinary Approach

Credits: 3
Not Repeatable
Examines learning interactions between cognition and technology using multiple disciplinary perspectives including, cognitive science, psychology, neuroscience, education, design theory, instructional design, technology design, anthropology, sociology, information science, philosophy, semiotics, and linguistics.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 803 - Design-Based Research

Credits: 3
Not Repeatable
Provides an introduction to systematic cycles of design-based research in education. Applicable to all content domains to explore cycles of research within design, development and implementation of educational and training interventions.

Prerequisite(s): EDIT 801

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

EDIT 891 - Design Research Practicum

Credits: 1-9
Repeatable within Degree
Applies multiple design research cycles to an identified research problem to systematically test and improve technology-based product interventions or other curriculum/training strategies or materials in order to systematically develop knowledge related to teaching, learning and/or training in context.

Prerequisite(s): EDRS 811, EDRS 812, and EDIT 803 or equivalent

Hours of Lecture or Seminar per week: 1-9
Hours of Lab or Studio per week: 1-12
Grading: Graduate Special
When Offered: Fall, Spring, Summer
EDIT 895 - Emerging Trends in Learning Technologies

Credits: 3
Not Repeatable
Covers selected emerging trends in learning technologies. Examines ways learning technologies provide infrastructure for creating, managing, and evaluating innovative types of teaching-learning environments.

Prerequisite(s): Admission to PhD program, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Interdisciplinary Studies (MAIS)

Offered by the College of Humanities and Social Sciences

MAIS 796 - MAIS ProSeminar

Credits: 1
Not Repeatable
Introduces students to the structure of the MAIS program; students create a portfolio of their work which continues during their studies; the portfolio prepares students for the capstone project or thesis.

Prerequisite(s): Acceptance into the MAIS Program

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

MAIS 797 - Interdisciplinary Studies Proposal

Credits: 1
Not Repeatable
Focused on formulating and writing a MAIS project or thesis proposal.

Prerequisite(s): Admission to MAIS and completion of 21 credits of graduate course work, including any required research methodology course; MAIS 796. ZAL students must have completed 30 credits or have obtained ZAL Director's permission before enrolling in MAIS 797.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit.
MAIS 798 - Interdisciplinary Studies Project

Credits: 1-5
Repeatable within Degree
Research project related to student's concentration taken under supervision of faculty advisor and project evaluation committee.

Prerequisite(s): MAIS 797 and prior approval of a project proposal by the committee chair, two committee members, and MAIS director. ZAL student project proposals must have been approved in writing by their institutional supervisor and the ZAL Director.

Notes: Individualized section form required.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: S/NC

MAIS 799 - Interdisciplinary Studies Thesis

Credits: 1-5
Repeatable within Degree
Original research endeavor related to student's MAIS program concentration. Research must result in document meeting MAIS and university standards.

Prerequisite(s): MAIS 797 and prior approval of a thesis proposal by the committee chair, two committee members, and MAIS director.

Notes: Individualized section form required.

Hours of Lecture or Seminar per week: 1-5
Hours of Lab or Studio per week: 0
Grading: S/NC

International Commerce and Policy (ITRN)

Offered by the School of Policy, Government, and International Affairs.

ITRN 500 - Global Political Economy

Credits: 1-4
Not Repeatable
Foundation course in the ICP program. Explores issues and ideas affecting global security, stability, growth and development from country, regional and thematic perspectives. Introduces students to key concepts, policies, and practices that underpin international commerce, international relations more broadly, and non-governmental transnational activities.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
ITRN 501 - Methods of Analysis for International Commerce and Policy

Credits: 3
Not Repeatable
Provides the skills necessary to conduct qualitative and quantitative research and analysis of issues related to international commerce and policy. Students obtain practical information on sources of data, their origins, strengths, and weaknesses. Helps develop tools for statistical analysis of data, and includes use of computers for analyzing and displaying information. It covers major data sources as well and literature and indices related to international policy, including trade data, economics and financial indicators, and development indicators.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 503 - Macroeconomic Policy in the Global Economy

Credits: 1-4
Not Repeatable
Provides an analytical introduction and overview of basic concepts in macroeconomic theory with an emphasis on applications to problems in the United States and the contemporary global economy. Covers topics such as inflation, growth and business cycles, fiscal and monetary policies, balance of payments and exchange rates.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

ITRN 504 - Microeconomics and Trade Policy

Credits: 1-4
Not Repeatable
Provides a foundation in microeconomics, including supply and demand analysis, elasticities, the theory of the firm, allocative efficiency and market failure. Covers applications of this microeconomic foundation to international trade theory, trade policy analysis, preferential trade agreements, and international production. Emphasis is on graphical and algebraic analysis.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

ITRN 602 - Global Financial Crises and Institutions

Credits: 3
Not Repeatable
Examines the modern financial sector: how it operates, its regulation, and its role in risk transmission and crisis formation. Reviews global financial markets and instruments. Considers the role of multilateral and regional financial institutions in management of crises, macroeconomic adjustment, development policy and capital flows with emphases on financial crises.
including the 2007-09 crisis.

**Prerequisite(s):** ITRN 503.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**ITRN 603 - Global Trade Relations**

Credits: 3  
Not Repeatable  
Examines U.S. trade policy in the context of global trade relations. Considers the global trading system from legal, institutional and political perspectives, giving particular attention to trade agencies in the United States and abroad, international agreements, and the World Trade Organization. Trade policy formation is analyzed within the context of competing interest groups and corporate strategies.

**Prerequisite(s):** ITRN 504.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**ITRN 604 - International Trade and Technology**

Credits: 3  
Not Repeatable  
Examines science and technology policies and international trade, with emphasis on relationships and interactions. Assesses roles of science and technology as economic drivers, and explores strategies employed by companies and governments to link research and development to economic growth and competitiveness. Examines research and development systems and technology-related trade policies of United States, Japan, Europe, major developing countries, and selected newly industrialized economies, emphasizing policies affecting trade and technology. Explores specific cases involving interactions among science, technology, and international trade.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**ITRN 612 - International Business Operations and the Multinational Corporation**

Credits: 3  
Not Repeatable  
Examines international business environment and challenges facing companies in conducting operations in increasingly interconnected global marketplace. Focuses on issues of management and organization, and resolution of conflicts that may arise between business organizations and home and host governments. Also focuses on role of multinational corporations in international environment, and impact on global trade, economic development, and political system. Also studies trade and international investment theories and world financial environment. Explores broad issues such as sovereignty of decision making and global impact of business activities.
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 701 - Special Topics in International Commerce and Policy

Credits: 1-3
Repeatable within Term
Offers specialized courses on various aspects of international commerce and policy.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

ITRN 702 - Special Topics in International Commerce and Policy: Study Abroad

Credits: 3-6
Repeatable within Term
Provides opportunity for study abroad under supervision of Mason faculty.

Notes: Course topics, content, and locations vary.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 710 - International Business Transactions: Finance and Investment

Credits: 3
Not Repeatable
Focuses on techniques for financing trade and payment methods, including letters of credit, counter trade, and other approaches. Covers issues of direct concern in financing international business operations, such as preparing financing proposals, risk insurance, international taxation, pricing policies, and currency conversion and foreign exchange risk management. Introduces foreign direct investment, alliances and acquisitions, joint ventures, and other methods for investing overseas.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 711 - United States Law and Global Trade

Credits: 3
Not Repeatable
Surveys types of regulations imposed by United States, foreign governments, and international institutions on transnational business activities. Reviews principal regulatory bodies in United States and overseas, and powers and authorities. Covers tariffs and customs regulations; product safety and environmental restrictions; intellectual property, copyright, trademark, and patent regulations; and licensing rules. Also covers special restrictions that may be imposed because of political considerations such as
embargoes, munitions controls, and antibribery and antiboycott regulations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 712 - World Trade Organization and Global Trade

Credits: 3
Not Repeatable
Focuses on legal aspects of international trade regulation by studying international legal and political regime established under WTO, and assessing impact of domestic economic legislation on U.S. trade regulations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 715 - Global Environment and the World Economy

Credits: 3
Not Repeatable
Examines growing relationship between environmental interdependence and developing world economy. Assesses increased globalization of environmental and health issues with a focus on the impact on those issues on international transactions involving trade and development. Attempts to develop an understanding of relationship of scientific knowledge to global environment in context of existing political and economic institutions. Emphasizes formulating and assessing policies and structures for corporations, nations, regions, and international organizations. Tensions among free trade, international competitiveness, and regulatory responses are central. Gives attention to practices of nations and international organizations, emerging forms of regional and international cooperation, and growing use of multilateral agreements.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 716 - European Union in the International System

Credits: 3
Not Repeatable
Examines current developments in European market integration from global perspective. Emphasizes impact of single market, and proposed economic and monetary union of United States and other major trading partners. Examines European economic relations with Eastern Europe, former Soviet Union, and Lome Pact countries.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 717 - International Science and Technology
Credits: 3
Not Repeatable
Examines U.S. science and technology policies (S&T) and structures, as well as those in other leading countries. Assesses functional links between S&T and international transactions focusing on trade, national security, finance, and development assistance. Considers emergence of multilateralism and international institutional arrangements as alternatives to traditional bilateral patterns of cooperation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 718 - Global Economic and Human Development

Credits: 3
Not Repeatable
Interdisciplinary examination of economic and human development in world economy. Introduces alternative concepts and theories of economic and human development, and analytical frameworks for assessing important issues that arise in development process. Topics include colonialism, economic growth, population, health, education, industrialization, and rural development.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 720 - Regional and Supranational Organizations

Credits: 3
Not Repeatable
Assesses role of international organizations in international system today, and focuses on wide range of international and regional economic and political institutions. Emphasizes changing nature of these organizations in relation to nation states, and relationship of international organizations to U.S. national security and economic interests.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 731 - Business-to-Business Marketing in International Commerce

Credits: 3
Not Repeatable
Provides understanding of concepts of international marketing process and international environment within which companies operate.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 734 - Pricing in International Commerce
Credits: 3
Not Repeatable
Deals with theory and techniques of pricing that enable organizations to effectively pursue marketing and business strategies.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 736 - Sources of Growth in East Asia

Credits: 3
Not Repeatable
Examines extraordinary economic success of East Asian NIEs and some of their problems. Focuses on understanding proximate sources of growth, role of technological development, and salient political issues.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 738 - Fundamentals of International Marketing

Credits: 3
Not Repeatable
Offers working knowledge of principles and practices that enable managers to effectively market organizations, products, services, and brands. Emphasizes international dimensions of marketing where appropriate.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 740 - ABCs of Exporting and Importing

Credits: 3
Not Repeatable
Acquaints students with legal, regulatory, and practical issues in importation and exportation of merchandise. Topics include theoretical framework for government oversight of international movement of goods; legal issues between parties and governments; and practical guidance concerning structuring of import and export transactions to avoid legal and tariff liability.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 742 - Technology Policy and International Strategies

Credits: 3
Not Repeatable
Introduces opportunities and problems created for organizations and society by Internet, and policies affecting trajectory of Internet developments. Also covers technological factors in planning horizon; domestic policy and international treaty factors
affecting Internet trajectory; and new horizons for Internet applications.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**ITRN 744 - The Politics of International Competitiveness**

Credits: 3  
Not Repeatable  
Provides inquiry into governance problems of public managers and political leaders as they cope with global competitiveness in post-industrial era. Focuses on integrating public and private sectors worldwide, with special emphasis on U.S. role and how it influences such areas as technology transfer, national security, electronic commerce, trade policies, money flows, and human resources.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**ITRN 750 - Trade and Politics in Eastern Europe and the Former Soviet Union**

Credits: 3  
Not Repeatable  
Examines background and recent developments in political, business, and cultural environment confronting American firms seeking to do business in Eastern Europe and former Soviet Union. Emphasizes international trade patterns and relations between these states and United States. Examines modes of doing business in these countries, and unique problems American firms confront. Focuses on privatization, joint ventures, and counter trade.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**ITRN 752 - Global Business and Policy**

Credits: 3  
Not Repeatable  
Focuses on the multinational firm (MNE) and examines the international activities of large companies as well as small and medium sized enterprises. Assesses how firms strategize across national borders and address the challenges posed by different governance structures, political economies, institutions and cultures. Theoretical concepts are applied to 'real' business situations and case studies.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**ITRN 754 - International Commercialization of Space**
Credits: 3  
Not Repeatable  
Identifies and analyzes problems and transactions concerning privatization and commercialization of transnational space activities, including launch and satellite operations. Emphasizes interplay of new technologies with existing legal, political, and business structures in formulating viable commercial satellite and launch operations. Focuses on planning and implementing private space actions in conjunction with various public and private international organizations. Sessions focus on interdisciplinary aspects of space commercialization involving technology, finance, tax, insurance, joint venture and business matters, and international legal and national regulatory issues. Guest lecturers include leading business executives engaged in space and satellite operations.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**ITRN 756 - National Security and the Global Economy**

Credits: 3  
Not Repeatable  
Examines impact of globalization and changes in international economic and political systems on concepts of national security. Emphasizes nexus of economic and security concerns in post-Cold War era, with particular attention to emerging issues including trade and economic security, proliferation of advanced military technology and control of weapons of mass destruction, international drug trafficking, and defense conversion. Focuses on implications of changing security requirements on U.S. defense and economic policy and activities.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**ITRN 757 - Business and Politics in Emerging Markets**

Credits: 3  
Not Repeatable  
Examines developing countries that are major destination points for international financial flows and foreign direct investment. Emerging markets have become a major influence in the world economy both because of the potential for growth and the downside risks from economic crises. The course uses the new institutional economics to analyze the interplay of political, economic, and business conditions. Institutional economics is a combination of economics, economic history, and political science. Topics covered include the politics of economic reform, drivers of globalization and investment, the informal sector, and relationships of risk and reward.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**ITRN 758 - Global Market Planning Practicum**

Credits: 3  
Not Repeatable  
Provides opportunity to develop international market plan for specific industry or service sector. Students consult with industry experts and use key trade databases to develop strategic plan that recommends market entry strategies. Completed market plan submitted to industry experts for use and dissemination.
ITRN 759 - Country Risk Analysis

Credits: 3
Not Repeatable
Presents a wide variety of country risk analysis methods used by corporations, financial institutions, governments, international organizations, specialized consulting groups, and publications. These methods are used to design policies, programs, and projects in the international arena. The course explores natural, commercial, economics, political and financial risk. It also provides a conceptual foundation for understanding the sources of risk, the impacts of risk on public and private sector activities, and the ways that risk can be successfully mitigated or managed.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 760 - International Environmental Politics

Credits: 3
Not Repeatable

Examines growing concerns related to global environmental issues and problems they pose to domestic, foreign, and international political institutions. Covers major environmental issues including global warming, ozone depletion, cross-border flow of pollution, and threats to biodiversity. Assesses strengths and weaknesses of traditional political institutions in dealing with these issues and providing for sustainable economic development while limiting environmental damage.
Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 761 - European Political and Economic Union

Credits: 3
Not Repeatable

Examines movement for European integration since World War II, focusing on political and institutional development of European Community/Union. Topics include theories of European integration, Treaties of Rome, Single European Act, Maastricht Treaty, European Union (EU) policies and programs, and EU’s external relations. Analyzes changing nature of U.S.-EU relations and prospects for EU enlargement into Central and Eastern Europe.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 764 - Trade, Investment, and Politics in East Asia
Credits: 3
Not Repeatable
Examines issues related to international transactions involving Korea, China, Taiwan, and Hong Kong, with some attention to Japan. Focuses on trade and financial relations between these East Asian nations and United States. Assesses impact of culture and domestic political and economic institutions within these states, and roles in regional institutions and in international system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 765 - Trade, Investment, and Politics in Sub-Saharan Africa

Credits: 3
Not Repeatable
Examines role and potential of sub-Saharan Africa in international trading system. Emphasizes political, historical, cultural, and development factors. Focuses on perspectives of U.S. firms and on international institutions trading or investing in region.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 766 - Trade, Investment, and Politics in the Middle East and North Africa

Credits: 3
Not Repeatable
Examines major economic, political, and cultural issues that influence trade and investment relations with Middle East and North Africa. Focuses on roles of international and regional institutions in economic development, and develops understanding of challenges facing region and their implications for formulating trade and investment strategies by U.S. firms.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 767 - Political Economy and Integration in Latin America

Credits: 3
Not Repeatable
Examines contemporary political, economic, and cultural dynamics of Latin American and Caribbean regions. Emphasizes issues and trends that affect U.S.-Latin American political, business, and trade relations, particularly recent political and economic reforms. Examines roles of domestic interest groups and decision-making systems in individual countries, and evolution of regional integration arrangements and integration with international system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 768 - Global Intellectual Property Rights and International Trade
Examines national and regional systems, international contractual relations (licensing), and the evolving global system for protecting intellectual property. Addresses current international treaty system and the ongoing multilateral efforts to strengthen worldwide intellectual property protection. Examines intellectual property regimes worldwide, including regional and bilateral challenges and opportunities, and relevant U.S. law and policy responses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**ITRN 769 - International Entrepreneurship**

Credits: 3
Not Repeatable
Introduces practical planning approach for small and medium-size entrepreneurial firms seeking to enter international marketplace. Focuses on key business and financial documents related to doing business overseas; and assesses role of language, technology, and information systems in formulating successful business strategy. Role playing and simulated negotiations provide opportunities for students to sharpen business skills.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**ITRN 770 - International Contract Negotiation**

Credits: 3
Not Repeatable
Reviews growing role of arbitration in international transactions. Examines international, national, and government arbitration bodies, with particular emphasis on how differing cultural characteristics affect negotiating behavior and effectiveness of arbitration.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**ITRN 771 - Trade, Investment, and Politics in South and Southeast Asia**

Credits: 3
Not Repeatable
Focuses on trade and finance issues in the most dynamic countries of South and Southeast Asia. Assesses cultural and political factors, regional trade patterns, and institutions, focusing on implications for regional development and business opportunities for U.S. firms.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**ITRN 772 - International Telecommunications**
Credits: 3
Not Repeatable
Focuses on developments in international telecommunications and satellite regulation. Examines regulatory environment, and business and financial aspects of global telecommunications industry.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 773 - International Strategic Management

Credits: 3
Not Repeatable
Presents comprehensive approach to international strategy formulation, implementation, and evaluation processes affecting policy and program development within multinational firms and government agencies. Integrates marketing, finance, accounting, and management. Covers techniques for forecasting international business, political, economic, technological, legal, and sociocultural forces.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 780 - Internship

Credits: 1-3
Not Repeatable
Provides practical work experience in state, federal, or international agencies or private sector. Requires written project integrating work experience and academic program.

Prerequisite(s): Permission of Department and Advisor. Majors only.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

ITRN 790 - Independent Study

Credits: 1-3
Repeatable within Term
Provides opportunity to pursue intensive research in area of interest not covered by other courses.

Prerequisite(s): Permission of Department and Advisor. Majors only.

Notes: Note: Not all courses earn 3 graduate credits. Some courses may vary in length and thus, in credits earned. Some course requirements subject to change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
ITRN 791 - Advanced Trade Policy

Credits: 3
Not Repeatable
Covers international trade theory, trade policy analysis, regional economic integration, and institutional arrangements governing world trade. Examines dispute settlement regimes, and relationship between trade and environment. Includes WTO and constituent agreements in the areas of goods, services, intellectual property, and trade-related investment measures.

Prerequisite(s): Permission of instructor required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 795 - Final Project

Credits: 1-3
Repeatable within Degree
Includes writing 40-page capstone paper that draws together key themes of program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

Italian (ITAL)

Offered by the College of Humanities and Social Sciences

ITAL 101 - Elementary Italian I

Credits: 3
Not Repeatable
Designed for students with no prior knowledge of Italian. Includes elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Notes: Students may not receive credit for ITAL 101 and ITAL 110.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITAL 102 - Elementary Italian II

Credits: 3
Not Repeatable
Continuation of ITAL 101.

**Prerequisite(s):** ITAL 101 or permission of instructor.

**Notes:** Students may not receive credit for ITAL 102 and ITAL 110.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**ITAL 110 - Elementary Italian**

Credits: 6  
Not Repeatable  
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

**Notes:** Students may not receive credit for ITAL 110 and ITAL 101 or 102.

**Hours of Lecture or Seminar per week:** 6  
**Hours of Lab or Studio per week:** 0

**ITAL 201 - Intermediate Italian I**

Credits: 3  
Not Repeatable  
Further development of skills in listening, speaking, and writing.

**Prerequisite(s):** ITAL 102 or permission of department.

**Notes:** ITAL 201 and 202 must be taken in sequence. Students may not receive credit for ITAL 201 and ITAL 210.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**ITAL 202 - Intermediate Italian II**

Credits: 3  
Not Repeatable  
Application of language skills to reading, composition, and discussion.

**Prerequisite(s):** ITAL 201 or permission of department.

**Notes:** Students may not receive credit for ITAL 202 and ITAL 210.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1
ITAL 210 - Intermediate Italian

Credits: 3  
Not Repeatable  
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Italian-speaking regions.

Prerequisite(s): ITAL 110 or appropriate placement score.

Notes: Students may not receive credit for ITAL 210 and ITAL 201 or 202.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITAL 250 - Gateway to Advanced Italian

Credits: 3  
Not Repeatable  
Development of advanced intermediate-level proficiency with a primary focus on seven major communicative functions: describing, comparing, recommending and expressing opinions, recounting the past, expressing likes and dislikes, hypothesizing, and talking about the future. Examination of authentic materials from various Italian-speaking regions.

Prerequisite(s): ITAL 210; appropriate placement score; or permission of department.

Notes: Taught in Italian.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITAL 320 - Topics in Italian Film and Literature

Credits: 3  
Not Repeatable  
Explores Italian history through the lens of literary and cinematic movements from 1911 onwards. Compares the representations of historical movements in different artistic languages, from poetry and prose to the moving image. Topics include neorealism, Fascism, the Resistance, the Mafia and others.

Fulfills Mason Core requirement in literature.

Prerequisite(s): ENGH 101, or equivalent.

Notes: Taught in English.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITAL 325 - Major Italian Writers
ITAL 330 - Advanced Italian: Language and Culture I

Credits: 3
Repeatable within Degree
Develops linguistic and critical proficiency in Italian language and culture for students who have completed intermediate studies in Italian. Analyzes authentic texts that reveal the diversity of Italian experience in regional, national and international contexts. Fosters advanced reading, writing, speaking, and listening skills that will enable students to understand and to critique Italian with greater ease and sophistication.

Prerequisite(s): ITAL 250; appropriate placement score; or permission of instructor.

Notes: Taught in Italian. May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITAL 331 - Advanced Italian Language and Culture II

Credits: 3
Repeatable within Degree
An advanced course that emphasizes linguistic fluency and cultural awareness in contemporary Italian realities. Highlights changes in the domestic, regional, and national spheres.

Prerequisite(s): ITAL 330; placement score or permission of the instructor.

Notes: Taught in Italian. May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITAL 340 - Italian through Arts

Credits: 3
Repeatable within Degree
Develops linguistic proficiency and historical and cultural awareness through the study of a thematic selection of films. Fosters advanced reading, writing, speaking, and listening skills, incorporating advanced-level grammar and vocabulary in a content-based approach.

**Prerequisite(s):** ITAL 250, appropriate placement score, or permission of instructor.

**Notes:** Taught in Italian. May be repeated for a maximum of 6 credits when topic is different.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**ITAL 420 - Global and Local Italy**

Credits: 3  
Not Repeatable  
Examines Italian culture in its urban, regional, national, and diasporic manifestations. Analyzes authentic texts, from literature to journalism, in the spirit of a cultural studies approach. Fosters advanced reading, writing, speaking, and listening skills that will enable students to understand and critique contemporary Italy with greater ease and sophistication.

**Prerequisite(s):** ITAL 330.

**Notes:** Taught in Italian.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**Japanese (JAPA)**

Offered by the College of Humanities and Social Sciences

**JAPA 101 - Introduction to the Japanese Language**

Credits: 3  
Not Repeatable  
Includes basic grammar, oral expression, listening comprehension, and reading and writing.

**Notes:** Students may not receive credit for JAPA 101 and JAPA 110.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**JAPA 102 - Introduction to the Japanese Language**

Credits: 3  
Not Repeatable
Includes basic grammar, oral expression, listening comprehension, and reading and writing.

Notes: Students may not receive credit for JAPA 102 and JAPA 110.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

JAPA 110 - Elementary Japanese

Credits: 6  
Not Repeatable  
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, reading, and writing.

Notes: Students may not receive credit for JAPA 110 and JAPA 101, 102.

Hours of Lecture or Seminar per week: 6  
Hours of Lab or Studio per week: 0

JAPA 201 - Intermediate Japanese I

Credits: 3  
Not Repeatable  
Further development of skills acquired in JAPA 101 and 102, including grammar, oral expression, listening comprehension, reading and writing. Use of written language (katakana, hiragana, and kanji) emphasized.

Prerequisite(s): JAPA 102 or equivalent.

Notes: Students may not receive credit for JAPA 201 and JAPA 210.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

JAPA 202 - Intermediate Japanese II

Credits: 3  
Not Repeatable  
Continuation of JAPA 201.

Prerequisite(s): JAPA 201 or equivalent.

Notes: Students may not receive credit for JAPA 202 and JAPA 210.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
JAPA 210 - Intermediate Japanese

Credits: 3  
Not Repeatable  
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Also introduces students to Japanese culture and society.

Prerequisite(s): JAPA 110, appropriate placement score, or permission of instructor.

Notes: Students may not receive credit for JAPA 210 and JAPA 201, 202.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

JAPA 250 - Gateway to Advanced Japanese

Credits: 3  
Not Repeatable  
Development of advanced intermediate-level Japanese language skills in the interpersonal, interpretive, and presentational modes of communication. Incorporates strong component of critical and comparative analysis of Japanese cultural products, practices, and perspectives of the past and the present.

Prerequisite(s): JAPA 210, appropriate placement score, or permission of department.

Notes: Taught in Japanese.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

JAPA 310 - Japanese Culture in a Global World

Credits: 3  
Not Repeatable  
Study of globalizing Japanese cultural phenomena from the 19th through the 21st century. Explores how movements of ideas, technologies and products across borders influence both local and global ideas and practice.

Fulfills Mason Core requirement in global understanding.

Prerequisite(s): ENGL 101/ENGH 101 or equivalent; or permission of instructor.

Notes: Taught in English. Fulfills the college requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

JAPA 320 - Japanese Cinema
Credits: 3
Repeatable within Term
Comprehensive analysis of Japanese cinema based on cross-cultural perspectives and cultural criticism. Major developments and trends as viewed in selected Japanese films with emphasis on post war and contemporary eras. Knowledge of Japanese history, communication, and cultural studies or film and media studies helpful.

Notes: Taught in English. May be repeated for a maximum of 6 credits when topic is different with approval of department.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

JAPA 330 - Advanced Reading and Speaking I

Credits: 3
Not Repeatable
Designed for students to develop conversational proficiency and reading skills. Students work toward a mastery of linguistic and sociolinguistic rules by incorporating reading and speaking abilities through class discussions, reports, and presentations.

Prerequisite(s): JAPA 250, appropriate placement score, or permission of instructor.

Notes: Taught in Japanese.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

JAPA 331 - Advanced Reading and Speaking II

Credits: 3
Not Repeatable
Designed for students to develop conversational proficiency and reading skills. Students continue to develop mastery of linguistic and sociolinguistic rules by incorporating reading and speaking abilities through class discussions, reports and presentations.

Prerequisite(s): JAPA 330, appropriate placement score, or permission of instructor.

Notes: Taught in Japanese.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

JAPA 340 - Topics in Japanese Literature

Credits: 3
Repeatable within Degree
Study of selected topics in Japanese literature in English translation. Content varies.

Fulfills Mason Core requirement in literature.
Prerequisite(s): ENGH 101 or equivalent, or permissions of instructor.

Notes: May be repeated for a maximum of 6 credits when topic is different with permission of department. Fulfills the college requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

JAPA 350 - Readings in Japanese Culture

Credits: 3
Not Repeatable
An integrated content-based Japanese course designed to advance students' oral and writing skills, as well as their critical understanding of Japanese culture and mythology. Introduces a variety of genres, such as rakugo (traditional comical storytelling), shinwa (myths), and mukashi-banashi (folk legends).

Prerequisite(s): JAPA 250, appropriate placement score, or permission of department.

Notes: Taught in Japanese.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

JAPA 440 - Integrated Study of Japanese Language and Society I

Credits: 3
Not Repeatable
Integrated approach to study of Japanese language and society through grammar review, vocabulary and kanji development, intensive practice in spoken and written Japanese, and sociological and cultural readings and analysis. Includes class discussion, oral and written reports, and out-of-class direct interactions with native speakers.

Prerequisite(s): JAPA 331, appropriate placement score, or permission of instructor.

Notes: Taught in Japanese.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

JAPA 441 - Integrated Study of Japanese Language and Society II

Credits: 3
Not Repeatable
Integrated approach to study of Japanese language and society through grammar review, vocabulary and kanji development, intensive practice in spoken and written Japanese, and sociological and cultural readings and analysis. Includes class discussion, oral and written reports, and out-of-class direct interactions with native speakers. More emphasis on actual use of Japanese language.
Prerequisite(s): JAPA 440, appropriate placement score, or permission of instructor.

Notes: Taught in Japanese.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

Kinesiology (KINE)

Offered by the College of Education and Human Development

KINE 100 - Introduction to Kinesiology

Credits: 3  
Not Repeatable  
Provides an overview of the field of kinesiology in the form of an introductory course. Students gain exposure to: history of the field, policies and procedures for the concentration, career options, and the model of evidence-based knowledge.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

KINE 200 - Principles of Health Related Fitness

Credits: 2  
Not Repeatable  
Provides students with basic knowledge and skills associated with exercise training methods, lifting techniques, and health-related fitness testing procedures. Selection of developmentally appropriate exercises emphasized. Participation in fitness tests required.

Prerequisite(s): BIOL 124, BIOL 125, ATEP 300. Prerequisite enforced by registration system.

Corequisite(s): KINE 310.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

KINE 249 - An Analysis of Boxing

Credits: 3  
Not Repeatable  
Provides study of the sport of boxing from cultural, historical, physical, and scientific perspectives. Well-known writings from literature on boxing as well as boxing training methods, and program design will be addressed. Physical participation will include basic boxing skills, conditioning, and fitness testing of participants.
Prerequisite(s): ENGH 100 or ENGH 101.

Notes: All students must purchase hand wraps, heavy bag gloves, mouthpieces, and jump ropes. Boxing and/or wrestling shoes are strongly recommended.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer

KINE 250 - Endurance Sport Program Design

Credits: 3
Not Repeatable
Provides students with knowledge necessary to train another individual safely and effectively for endurance sports. Emphasis will be placed on running; however, cycling and swimming will be covered. Topics covered include: functional, physiology, psychological aspects of endurance competitions, basic nutritional requirements, injury reduction, training techniques, safety, race management, and history of endurance sports.

Prerequisite(s): BIOL 124, BIOL 125, ATEP 300, KINE 200.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer, Spring

KINE 310 - Exercise Physiology I

Credits: 3
Not Repeatable
Introduces students to the physiologic, neuroendocrine, and biochemical changes of the human body that are associated with exercise and work.

Prerequisite(s): BIOL 124, BIOL 125, ATEP 300. Prerequisite enforced by registration system.

Corequisite(s): KINE 200.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

KINE 320 - Principles of Human Nutrition

Credits: 3
Not Repeatable
Assesses dietary habits and patterns in relation to nutrient requirements across the age spectrum and for a variety of populations. Emphasizes weight control, diet in relation to physical activity, and current nutritional controversies.
KINE 330 - Seminar in Kinesiology

Credits: 3
Not Repeatable
Prepares students for the fieldwork experience in KINE 341: Kinesiology Internship I. Topics covered include: professionalism, review of evidence-based position papers, and discussion of contemporary issues in kinesiology.

Equivalent to HEAL 430 (2014-2015 Catalog)

Prerequisite(s): Junior standing (60 credit hours)
KINE 100, KINE 200, ATEP 300, KINE 310, KINE 370. Prerequisite enforced by registration system.

KINE 341 - Kinesiology Internship I

Credits: 3
Not Repeatable
Provides a paid or voluntary supervised professional experience in an approved exercise science professional setting under the supervision of a practicum University Supervisor and Agency Supervisor.

Prerequisite(s): KINE 200, KINE 310, KINE 330, KINE 350, KINE 370.
Junior status (60 credits).
Current CPR, AED, and First Aid. Prerequisite enforced by registration system.

KINE 350 - Exercise Prescription and Programming

Credits: 3
Not Repeatable
Provides students with an opportunity to develop an understanding of the assessment and evaluation process used in cardio-respiratory training and anaerobic conditioning for healthy, athletic, and symptomatic populations.

Prerequisite(s): KINE 200
ATEP 300
KINE 310
KINE 370 Prerequisite enforced by registration system.
KINE 360 - Strength Training: Concepts and Applications

Credits: 3
Not Repeatable
Provides students with an opportunity to develop an in-depth understanding of the principles of strength training and conditioning, including: anatomical and physiological considerations, lifting techniques, equipment selection, program development/evaluation, and weightlifting safety; thus enabling them to teach and train client.

Equivalent to PHED 364

Prerequisite(s): BIOL 124 and BIOL 125; ATEP 300 and KINE 310. Prerequisite enforced by registration system.

KINE 370 - Measurement and Evaluation of Physical Fitness

Credits: 3
Not Repeatable
This course provides students with an opportunity to develop a understanding of the assessment and evaluation process in the determination of physical fitness.

Equivalent to PHED 365

Prerequisite(s): BIOL 124 and BIOL 125; ATEP 300 and KINE 310. Prerequisite enforced by registration system.

Notes: This is designated a writing intensive course.

KINE 380 - Exercise Prescription and Programming for Special Populations

Credits: 3
Not Repeatable
Provides the study of the pathophysiology of common diseases and conditions with concentration in the design and implementation of exercise programs.

Prerequisite(s): KINE 200, KINE 310, KINE 330, KINE 350, KINE 370; or permission of instructor. Prerequisite enforced by registration system.
KINE 400 - Biomechanics

Credits: 3
Not Repeatable
Focuses on kinetic and kinematic concepts and how they apply to the quantitative assessment of human movement. Analyzes human movement and the functional dynamics of tissue such as muscle or bone.

Prerequisite(s): BIOL 124, BIOL 125, ATEP 300, KINE 360. Prerequisite enforced by registration system.

KINE 410 - Exercise Physiology II

Credits: 3
Not Repeatable
Provides study in the advanced theory of exercise physiology. Knowledge related to the physiologic, neuroendocrine, and biochemical changes of the human body associated with both a single bout of exercise and chronic exercise training will be addressed.

Prerequisite(s): BIOL 124, BIOL 125, KINE 310. Prerequisite enforced by registration system.

KINE 420 - Sport and Exercise Nutrition

Credits: 3
Not Repeatable
Explores the fundamental biochemical and physiological rationale for optimal nutrient intake for health, physical fitness, and athletic performance. Specific attention is focused upon the relationship nutrition has with exercise, physical fitness, health, and athletic performance.

Prerequisite(s): KINE 310, KINE 320. Prerequisite enforced by registration system. Prerequisite enforced by registration system.
KINE 441 - Kinesiology Internship II

Credits: 3
Not Repeatable
Provides a supervised professional experience in two separate approved kinesiology professional settings under the supervision of both a University Supervisor and an Agency Supervisor with emphasis placed upon exercise programming and implementation for both clinical (site 1) and performance (site 2) populations.

Prerequisite(s): 90 credits (Senior status)
KINE 330, KINE 341, KINE 350, KINE 360, KINE 370, KINE 380
Current CPR, AED, and First Aid Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

KINE 490 - Kinesiology Internship III

Credits: 12
Not Repeatable
Provides a directed, field-based experience, in which students observe and participate in conditions, practices, and settings where sought career roles are conducted. The kinesiology fieldwork coordinator must approve placement for the practicum. Both a University supervisor and an approved agency supervisor with recognized professional certifications coordinate and oversee the student's internship experience.

Prerequisite(s): 90 credits, KINE 330, KINE 341, KINE 400, KINE 410, KINE 420, KINE 441, Current CPR, AED, and First Aid Certification. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 12
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

KINE 499 - Independent Study in Kinesiology

Credits: 1-3
Repeatable within Degree
Study of a topic regarding theory, research, or practice in kinesiology under the direction of a faculty member. May be repeated, but no more than 3 total credits hours may be earned.

Prerequisite(s): Completion of 90 credit hours and Permission of Instructor.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

Korean (KORE)
Offered by the College of Humanities and Social Sciences

**KORE 110 - Elementary Korean**

Credits: 6
Not Repeatable
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

**Hours of Lecture or Seminar per week:** 6  
**Hours of Lab or Studio per week:** 0

**KORE 201 - Intermediate Korean I**

Credits: 3
Not Repeatable
Continuation of basic Korean listening, speaking, reading, and writing skills. Online and lab work required.

**Prerequisite(s):** KORE 102, appropriate placement score, or permission of department

**Notes:** Students may not receive credit for KORE 201 and KORE 210.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**KORE 202 - Intermediate Korean II**

Credits: 3
Not Repeatable
Continuation of KORE 201. Online and lab work required.

**Prerequisite(s):** KORE 201, appropriate placement score, or permission of department

**Notes:** Students may not receive credit for KORE 202 and KORE 210.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**KORE 210 - Intermediate Korean**

Credits: 3
Not Repeatable
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Korean-speaking regions.
Prerequisite(s): KORE 110 or appropriate placement score.

Notes: Students may not receive credit for KORE 210 and KORE 201 or 202.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

KORE 250 - Gateway to Advanced Korean

Credits: 3
Not Repeatable
Develops advanced-intermediate level reading, writing, listening, and speaking skills through a comparative analysis of Korean cultural products and practices and a critical analysis of the influence of globalization and East Asian regional dynamics.

Prerequisite(s): KORE 210; appropriate placement score; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

KORE 305 - Business Korean

Credits: 3
Not Repeatable
Develops intermediate- to high- level Korean reading, writing, listening and speaking skills while increasing culture awareness in Korean business settings through authentic materials and hands-on projects with people in the Korean business community.

Prerequisite(s): KORE 250; appropriate placement score; or permission of instructor.

Notes: Taught in Korean.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

KORE 310 - Classical Korean Literature

Credits: 3
Not Repeatable
Develops students' advanced-intermediate Korean language skills and cultural awareness through an extensive overview of classical Korean literature.

Prerequisite(s): KORE 250; appropriate placement score; or permission of department.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
KORE 311 - Modern Korean Literature in Translation

Credits: 3  
Not Repeatable  
Explores twentieth and twenty-first century Korean literary works through the critical and comparative analysis of Korean cultural products, practices and perspectives of the past and the present.

Prerequisite(s): ENGH 101; appropriate placement score; or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

KORE 330 - Advanced Korean Language and Culture

Credits: 3  
Not Repeatable  
Develops advanced level Korean language skills and cultural awareness in interpersonal, interpretive and presentational modes of communication.

Prerequisite(s): KORE 250; Appropriate Placement Score; or Permission of Instructor.

Notes: Taught in Korean.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

Latin (LATN)

Offered by the College of Humanities and Social Sciences.

Placement: See Academic Testing in the Admissions section.

LATN 101 - Elementary Latin

Credits: 3  
Not Repeatable  
Introduction including basic grammar, vocabulary, and development of reading skills, and introduction to Roman civilization.

Notes: Must be taken in sequence.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

LATN 102 - Elementary Latin
LATN 201 - Intermediate Latin I

Credits: 3
Not Repeatable
Introduction including basic grammar, vocabulary, and development of reading skills, and introduction to Roman civilization.

Notes: Must be taken in sequence.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LATN 202 - Intermediate Latin II

Credits: 3
Not Repeatable
Study of advanced grammatical constructions, vocabulary, and patterns of usage. Reading of selections from Roman authors of late Republic and early Empire, and study of cultural and political backgrounds.

Prerequisite(s): LATN 201 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LATN 351 - Roman Prose Literature

Credits: 3
Repeatable within Degree
Introduces major work of prose, themes, and literary qualities. Emphasizes interpretation and stylistic analysis. Concentrates on one complete work; topics, authors vary.

Prerequisite(s): LATN 202 or equivalent.

Notes: Readings in Latin. May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
LATN 352 - Roman Poetry

Credits: 3
Repeatable within Degree
Introduces major work of poetry and themes, meters, and poetic techniques. Emphasizes interpretation, metrical and stylistic analysis, and poet's role in society. Topics and authors vary.

Prerequisite(s): LATN 202 or equivalent.

Notes: Readings in Latin. May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LATN 451 - Studies in Roman Literature

Credits: 3
Repeatable within Degree
Focuses on a single Latin author or literary genre. Approaches subject from variety of interpretive perspectives, and uses secondary literature as well as primary texts. Topics and authors vary.

Prerequisite(s): LATN 351/352 or equivalent, or permission of instructor.

Notes: Readings in Latin. May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LATN 452 - Studies in Roman Literature

Credits: 3
Repeatable within Degree
Focuses on a single Latin author or literary genre. Approaches subject from variety of interpretive perspectives, and uses secondary literature as well as primary texts. Topics and authors vary.

Prerequisite(s): LATN 351/352 or equivalent, or permission of instructor.

Notes: Readings in Latin. May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Latin American Studies (LAS)

Offered by the College of Humanities and Social Sciences
LAS 100 - Introduction to Latin American Studies

Credits: 1  
Not Repeatable  
Weekly series of presentations by various Latin American Studies faculty. Short reading assignments and journal entries required.

Notes: Required for all Latin American studies majors.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0  
Grading: Satisfactory/No credit

LAS 300 - Latin American Studies: Interdisciplinary Perspectives

Credits: 3  
Not Repeatable  
Interdisciplinary introduction to Latin American Studies. Examines the region's history, culture, and societies, as well as the different approaches, methodologies, and concepts related to the study of Latin America. Focuses on the experiences that shaped Latin America as a region, how the region impacts and is impacted by globalization, and on Latino/as in the United States.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

LAS 490 - Internship

Credits: 1-6  
Repeatable within Degree  
Approved work-study programs in cooperation with specific organizations including area museums, NGOs, and local, state and federal agencies.

Prerequisite(s): Latin American studies majors with permission of director.

Notes: Credit determined by program. May be repeated for a maximum of 9 credits.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

LAS 491 - Directed Reading for Honors in Latin American Studies

Credits: 3  
Not Repeatable  
Directed readings on specialized topic in Latin American Studies to prepare students for LAS 492, the honors research seminar in the major.
**Prerequisite(s):** admission to Latin American studies honors program.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**LAS 498 - Study Abroad**

Credits: 1-6  
Repeatable within Degree  
Study abroad.

**Notes:** May be repeated for a maximum of 6 credits with permission of department.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0

---

**LAS 499 - Research Seminar in Latin American Studies**

Credits: 3  
Not Repeatable  
Research on specialized topic in Latin American Studies culminating in substantial paper and oral presentation. Students expected to integrate knowledge and skills acquired in Mason Core courses.

Fulfills Mason Core requirement in synthesis.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** 90 credits.

**Notes:** Must receive passing grade to graduate with a BA in Latin American studies.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**Linguistics (LING)**

Offered by the College of Humanities and Social Sciences

---

**LING 306 - General Linguistics**

Credits: 3  
Not Repeatable  
Fulfills Mason Core requirement in social and behavioral science.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**LING 307 - English Grammar**

Credits: 3  
Not Repeatable  
Overview of grammatical structure of English including word classes, phrases, and complex sentences. Analyzes English grammar using modern syntactic theory. Students engage in language description through problem solving.

Equivalent to ENGH 307.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**LING 450 - Introduction to Sociolinguistics**

Credits: 3  
Not Repeatable  
Overview of the study of language variation and change. Topics to be covered include the interaction between language and social factors (age, sex, social class), dialects of English, speech communities, language contact, and language and gender.

**Prerequisite(s):** LING 306.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**LING 480 - First Language Acquisition**

Credits: 3  
Not Repeatable  
Examines first language acquisition from a linguistic perspective. Covers the development of a first phonology, syntax, and semantics. Methodology in studying child language is discussed.

**Prerequisite(s):** LING 306.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**LING 485 - Semantics and Pragmatics**
Developments in theoretical linguistics that explore how language form is related to meaning and context. Topics include reference, lexical semantics, logic, quantification, truth conditions and sentential meaning, presuppositions, and speech acts.

Prerequisite(s): LING 306.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**LING 486 - Syntax I**

Credits: 3
Not Repeatable
Nature and form of syntactic theory, and examination and analysis of the properties of several major natural language syntactic structures.

Prerequisite(s): LING 306.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**LING 490 - Generative Phonology**

Credits: 3
Not Repeatable
Sound systems of English and other languages from perspectives of phonological theory. Topics include articulatory phonetics, distinctive features, nature of phonological representations, rhythm and stress, and phonological universals and constraints.

Prerequisite(s): LING 306.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**LING 499 - Independent Study**

Credits: 1-3
Repeatable within Degree
Intensive study of particular theoretical problem in linguistics conducted by student in close consultation with instructor. Student produces substantial piece of written work on research findings.

Prerequisite(s): LING 326 and 3 other LING credits, and permission of instructor.

Notes: May be repeated for a maximum of 6 credits with permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
LING 507 - Field Work in Applied Linguistics

Credits: 3  
Repeatable within Degree  
Field work providing working experience in language-teaching program or educational research organization.

Prerequisite(s): LING 326, 520, 521, or 582.

Notes: Contact the department one semester prior to enrollment. May be repeated for a maximum of 6 credits.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

LING 520 - Introduction to Linguistics

Credits: 3  
Not Repeatable  
Introduces terminology and methodology of modern linguistic science, and detailed structural analysis of English phonology, morphology, and syntax.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

LING 521 - Applied Linguistics: Teaching English as a Second Language

Credits: 3  
Not Repeatable  
Theories and basic principles of teaching a second language, especially as they relate to English language. Introduces students to methods of teaching English to speakers of other languages.

Prerequisite(s): LING 306, 520, 690, or 786.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

LING 522 - Modern English Grammar

Credits: 3  
Not Repeatable  
Overview of structure of modern English beginning with word classes and ending with analyses of complex sentences. Most topics introduced as problems of language description; in solving them, principles of syntactic argumentation are demonstrated. Students learn to tap intuitions about English to analyze grammatical structure.

Prerequisite(s): One course in linguistics, or permission of instructor.
LING 523 - English Phonetics

Credits: 3
Not Repeatable
In-depth description and analysis of sound system processes of modern English. Topics include segmental phonetics, syllable structure, connected speech, and prosodic phenomena. Also addresses implications for language instruction.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 525 - Practicum in ESL

Credits: 3
Not Repeatable
Involves preparation and presentation of lessons to adult English as second language (ESL) learners under guidance of mentor teacher and practicum professor. Field experience consists of observation and teaching in assigned ESL classroom.

Prerequisite(s): LING 521

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

LING 580 - First Language Acquisition

Credits: 3
Not Repeatable
Examines first language acquisition from a linguistic perspective. Covers the development of a first phonology, syntax, and semantics. Methodology in studying child language is discussed.

Prerequisite(s): LING 520 or one of the following: LING 690, 786, 785, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

LING 581 - Psycholinguistics

Credits: 3
Not Repeatable
Study of mental and psychological aspects of human language, including aphasia, association, autism, language acquisition, verbal concept formation, and perception.

**Prerequisite(s):** LING 520, 690, or 786; or permission of instructor.

**LING 582 - Second Language Acquisition**

Credits: 3
Not Repeatable
Examines second language (L2) acquisition from linguistic perspective. Compares first and second language acquisition. Explores factors contributing to L2 variation, including linguistic universals, transfer, age, input, and affective considerations.

**Prerequisite(s):** LING 306, 520, 690, or 786; or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**LING 650 - Introduction to Sociolinguistics**

Credits: 3
Not Repeatable
An overview of the study of language variation and change. Topics to be covered include the interaction between language and social factors (age, sex, social class), dialects of English, speech communities, language contact, and language and gender.

**Prerequisite(s):** LING 520, 523, or 690.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**LING 686 - Special Topics in Linguistics**

Credits: 3
Not Repeatable
Detailed advanced study of selected area of linguistics.

**Prerequisite(s):** Varies with topic.

**Notes:** Content varies. May be repeated once for credit with permission of department.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
LING 690 - Generative Phonology

Credits: 3  
Not Repeatable  
Sound systems of English and other languages from the perspective of phonological theory. Topics include articulatory phonetics, distinctive features, nature of phonological representations and processes, rule ordering, abstractness, role of external evidence, and nonlinear phonology.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

LING 691 - Theories of Language

Credits: 3  
Not Repeatable  
Seminar in linguistic metatheory. Examines wide range of theories about language and linguistic theory, including those of Saussure, Bloomfield, Chomsky, and others. Readings from original sources.

Prerequisite(s): LING 520, 690, or 786; or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

LING 692 - Phonology II

Credits: 3  
Not Repeatable  
Recent trends in phonological theory. Topics include stress assignment, tone spreading, and vowel harmony, from within nonlinear framework. Discusses segmental structure and underspecification.

Prerequisite(s): LING 690.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

LING 770 - Research Methods

Credits: 3  
Not Repeatable  
Conceptualizing and conducting second language research, including process of developing research questions, gathering data, obtaining permission from institutional review board, choosing data collection measures, and coding linguistic and nonlinguistic data.

Prerequisite(s): LING 582 and one of LING 690, 785, or 786; or permission of instructor.
LING 782 - Second Language Acquisition II

Credits: 3
Not Repeatable
Advanced course in second-language acquisition theory. Detailed analysis of internal and external constraints. Variation addressed from linguistic, psychological, and environmental perspectives.

Prerequisite(s): LING 582 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 785 - Semantics and Pragmatics

Credits: 3
Not Repeatable
Developments in theoretical linguistics that explore how language form relates to meaning and context. Topics include reference, lexical semantics, logic, quantification, truth conditions and sentential meaning, presuppositions, and speech acts.

Prerequisite(s): LING 520, 690, or 786; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 786 - Syntax I

Credits: 3
Not Repeatable
Nature and form of syntactic theory. Examines and analyzes properties of several major natural language syntactic structures.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 787 - Syntax II

Credits: 3
Not Repeatable
Theoretical treatment of syntactic phenomena that have emerged as standard problems for syntactic analysis. Problems include binding, extraction, and quantification. Extensive reading in primary theoretical literature.

Prerequisite(s): LING 786.
LING 788 - Semantics and Pragmatics II

Credits: 3
Not Repeatable
Advanced course in semantic and pragmatic theory. Study of meaning under truth-conditional, model-theoretic framework explored and related to syntax and pragmatics.

Prerequisite(s): LING 785 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 798 - Directed Reading and Research

Credits: 1-3
Repeatable within Degree
Reading, research, and writing on specific project under direction of departmental member.

Prerequisite(s): 18 credits of linguistics courses.

Notes: Open only to students who have completed at least 18 credits of LING courses. Prior approval by faculty member required. Written report required. May be repeated for a maximum of 6 credits with permission of director.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
Grading: Graduate Special

LING 799 - Thesis

Credits: 1-6
Repeatable within Degree
Students who take LING 798 to develop thesis topic and then elect thesis option receive 3 credits after completing thesis. Students who do not take LING 798, or who take it to work on project unrelated to thesis, receive up to 6 credits after completing thesis.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

LING 882 - Seminar in Language Acquisition
LING 886 - Advanced Syntax Seminar

Credits: 3
Repeatable within Term
Advanced course in current syntactic theory.

Prerequisite(s): LING 786, LING 787, or permission of instructor.

Notes: Topics vary. May be repeated for a maximum of 9 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 890 - Advanced Phonology Seminar

Credits: 3
Repeatable within Term
Advanced topics seminar in current phonological theory.

Prerequisite(s): LING 692 or permission of instructor.

Notes: Topics vary. May be repeated for a maximum of 9 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 897 - Independent study

Credits: 3
Repeatable within Degree
Independent reading on a topic agreed on by student and faculty member.

Prerequisite(s): PhD rank or permission of instructor.

Notes: May be repeated
LING 898 - Advanced Qualifying Seminar

Credits: 3
Repeatable within Term
Work on PhD qualifying paper.

Prerequisite(s): Completion of 33 credits of core courses in linguistics.

Notes: May be repeated for a maximum of 6 credits.

LING 998 - Doctoral Dissertation Proposal

Credits: 1-6
Repeatable within Degree
Work on research proposal that forms basis for the doctoral dissertation.

Prerequisite(s): Advancement to candidacy.

LING 999 - Doctoral Dissertation

Credits: 1-12
Repeatable within Degree
Doctoral dissertation research and writing under direction of student's dissertation committee.

Prerequisite(s): Completion of LING 998.

Management (MGMT)

Offered by the School of Business.
If a student takes noncore, upper-level business courses before admission to the School of Business, those courses will not count on an undergraduate degree application for any major in the school, except as general elective credit. A grade of C or higher must be presented on the graduation application for each upper-level course in the major. Course prerequisites are strictly enforced. Degree status is defined as formal admission to BS degree status in the School of Business.

**MGMT 301 - People and Organizations**

Credits: 3  
Limited to 3 Attempts  

Explores how individuals behave in the workplace, and how group and organizational structures affect behavior. Builds managerial skills required for working with and through others to reach organizational goals. Topics include individual differences, groups and teams, managing conflict, organizational ethics, culture, diversity, influence, leadership, and motivational theories and techniques. The course format provides opportunities to discuss and apply concepts. School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MGMT 301. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

Equivalent to MGMT 313.

**Prerequisite(s):** Sophomore standing.

**Notes:** Students cannot receive credit for both MGMT 301 and MGMT 313.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

**MGMT 303 - Principles of Management**

Credits: 3  
Limited to 3 Attempts  

Examines managerial work under range of business models and rapidly changing business conditions. Managerial functions and activities including planning, organizing, balancing conflicting demands, leading and controlling are examined in depth and in context of current organizational examples. Discuss variety of pressures contemporary managers face; clients and competitors, leaders above and colleagues that report to you, organizational demands and personal goals.

**Prerequisite(s):** Grade of C or higher in each of the following courses:

BUS 103 and BUS 200 are strongly recommended.

The following courses are required:  
ACCT 203 or ACCT 204  
BUS 100  
BUS 210  
MATH 108 or MATH 113 or MATH 114 or HNRT 225.  
Degree status. Prerequisite enforced by registration system.
Notes: Students cannot receive credit for both MGMT 301 and MGMT 303.

School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MGMT 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the “Termination from the Major” section under Academic Policies.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Summer, Spring

**MGMT 312 - Principles and Practices of Management**

Credits: 3  
Not Repeatable  
Builds on fundamental theories and concepts learned in MGMT 301 by examining the nature of managerial work under a range of business models and under rapidly changing business conditions. Managerial functions and activities such as planning, strategizing, organizing, controlling, and directing are examined in depth and in the context of current organizational examples and scenarios.

**Prerequisite(s):** C or higher in MGMT 301 and degree status. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

**MGMT 313 - Organizational Behavior**

Credits: 3  
Not Repeatable  
Course expands management knowledge through defined focus on organizational behavior (OB). OB is field of study aimed at predicting, explaining, understanding and changing human behavior as it's reflected in organizations. Science of OB is interdisciplinary in nature and draws from psychology, sociology, social psychology, and group dynamics. Course explores dynamics between individual and organization through this behavioral science lens.

Fulfills writing intensive requirement in the major.

Equivalent to MGMT 301.

**Prerequisite(s):** Grade of C or higher in MGMT 303. Degree status. Prerequisite enforced by registration system.

**Notes:** Students cannot receive credit for both MGMT 301 and MGMT 313.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Summer, Spring
MGMT 321 - Introduction to Human Resource Management

Credits: 3  
Not Repeatable  
The field of human resource management examines what can or should be done to make workers more productive and satisfied. The course builds on MGMT 301 by introducing key concepts and techniques that managers need to attract, retain, develop, compensate, and motivate quality talent. Also emphasizes legal and ethical considerations in human resource management.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

MGMT 412 - Diversity in Organizations

Credits: 3  
Not Repeatable  
Builds on MGMT 303 by emphasizing intrapersonal, interpersonal, organizational, and societal phenomena relevant to issues of diversity. Examines phenomena and processes in general and with regard to specific dimensions such as gender, race, and ability. Designed to increase students' knowledge of diversity in organizations, understanding of others' perspectives, and ability to work well with people who differ from themselves.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

MGMT 413 - Organizational Development and Management Consulting

Credits: 3  
Not Repeatable  
Introduces theory and practice of organization development. Assumes some basic knowledge of organizational behavior, and addresses how to use knowledge about organizations to change them. Focuses on ways of understanding organizations with attention to theoretical underpinnings of field and diagnostic models, and processes for entering organizations. Later sessions focus on contracting, data collection, organizational diagnosis, data feedback, and change technologies.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

MGMT 421 - Advanced Human Resource Management
Credits: 3
Not Repeatable
Builds on MGMT 321 by using a case-based approach to deepen understanding of HRM practices. Students conduct projects requiring application of strategic HR processes. Includes discussion of advanced topics not thoroughly covered in MGMT 321. Relevant for management majors, particularly those seeking a human resource management career. Helps prepare for SHRM Professional in Human Resources certification exam.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303 and MGMT 321, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MGMT 431 - The Legal Environment for Employee and Labor Relations

Credits: 3
Not Repeatable
Examines the legal aspects of employee and labor relations from a managerial perspective. Topics include the employment at will doctrine; wrongful discharge; federal and state employment discrimination legislation; and regulation of employee welfare. Includes lectures, cases, readings.

Prerequisite(s): Grade of C or higher in BULE 302 or BULE 303, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MGMT 441 - International Strategy

Credits: 3
Not Repeatable
Course focuses on seven inter-related pillars underpinning international strategy and these areas are: global environment and marketplace, global competitiveness and manufacturing including role of USA, global macroeconomics and financial infrastructure, global management approaches and management of transnational firms, new forces that shape global strategy , and globalizations lessons learned and its limitations.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303. Degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MGMT 451 - New Venture Creation

Credits: 3
Not Repeatable
Explains process of conceptualizing and creating new venture. Using central concepts of innovation, strategic opportunities, and globalization, students learn to evaluate new venture opportunities and consider external environment's impact. Students gain greater understanding of entrepreneurial concepts by developing business plans that address critical issues, including management composition and structure, effective business and functional strategies, operational logistics, legal issues, financial projections, and financing options.

**Prerequisite(s):** Grade of C or higher in MGMT 301 or MGMT 303, degree status. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### MGMT 452 - Experiential Entrepreneurship

Credits: 3  
Not Repeatable  
Provides students opportunity to experience entrepreneurship at advanced level through hands on development of a new firm, product or service. Students identify an innovative opportunity to work on or will work with local startup or organization developing innovative new product or service. Focuses on opportunity recognition and execution and introduces students to day to day experience of innovators and entrepreneurs.

**Prerequisite(s):** Grade of B- or higher in MGMT 451 or permission of instructor. Degree status Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MGMT 461 - Cross Cultural and Global Management

Credits: 3  
Not Repeatable  
Explores theory and practice of managing culturally diverse organizations in domestic and international contexts. Topics include management customs and practices in different world regions, cross-cultural communication and learning, and the developing culturally and internationally sophisticated employees and managers.

**Prerequisite(s):** Grade of C or higher in MGMT 301 or MGMT 303, degree status. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### MGMT 462 - Honors Seminar in Management

Credits: 3  
Not Repeatable  
Topic and format vary. In-depth study of topic of interest to managers and organizations.
Prerequisite(s): Invitation by professor.

Notes: Enrollment limited and competitive.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**MGMT 463 - Negotiations in Organizations**

Credits: 3
Not Repeatable
Focuses on theory, processes, and practice of negotiation within and across organizations, including attention to ethical issues. Explores systematic ways to increase quality of negotiated agreements, including methods of preparation and use of rational assumption, bidding and decision criteria. Format includes negotiation exercises, lecture, and discussion.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**MGMT 464 - Teamwork and Interpersonal Skills**

Credits: 3
Not Repeatable
Focuses on intensive development of high professional-level skill set for collaboration and leadership in contemporary environments. Builds on content introduced in MGMT 301, 312. Attention to developing personal leadership capabilities, collaborating in traditional and virtual environments, improving group processes, project management, tolerating ambiguity, improving communication, creative problem solving, time management, coaching, and empowering employees.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**MGMT 471 - Competitive Strategy**

Credits: 3
Not Repeatable
Explores industry structures and competitive behavior of firms. Attention to how firm uses tangible, intangible, and human resources to develop sustainable competitive advantage, and how competitors interact in marketplace. Introduces tools and concepts to analyze industry dynamics and competitive interactions of firms in these industries.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303, degree status. Prerequisite enforced by registration system.
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**MGMT 491 - Current Topics in Management**

Credits: 3  
Repeatable within Degree  
Advanced study of management concepts and selected topics. Incorporates intensive analysis of management problems of long-term strategic significance or current urgency for organizational planning and operations. Includes significant contemporary research findings.

Prerequisite(s): Grade of C or higher in MGMT 312 or MGMT 313, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

**MGMT 499 - Independent Study**

Credits: 1-3  
Repeatable within Term  
Research and analysis of selected problems or topics in management must be arranged with instructor and approved in writing by associate dean for undergraduate programs.

Prerequisite(s): Management majors with at least 9 upper-level management credit hours.

Notes: Written report required.

Hours of Lecture or Seminar per week: 1-3  
Hours of Lab or Studio per week: 0

**Management Information Systems (MIS)**

Offered by the School of Business.

If a student takes noncore, upper-level business courses before admission to the School of Business, those courses will not count on an undergraduate degree application for any major in the school, except as general elective credit. A grade of C or higher must be presented on the graduation application for each upper-level course in the major. Course prerequisites are strictly enforced. Degree status is defined as formal admission to BS degree status in School of Business.

**MIS 102 - Spreadsheet Applications for Business**

Credits: 1  
Not Repeatable
Hands-on course using popular spreadsheet package. Business examples used to teach fundamentals of spreadsheets and their use in business applications.

**Hours of Lecture or Seminar per week:** 2-3  
**Hours of Lab or Studio per week:** 1  
**Grading:** S/NC  
**When Offered:** Fall, Spring, Summer

**MIS 301 - Introduction to Business Information Systems**

Credits: 3  
Limited to 3 Attempts

Introduces fundamentals of hardware, software, and networking. Emphasizes role of technology in improving contemporary business processes and competitive advantage. Includes basic relational concepts, hands-on experience in building business database applications and decision support using spreadsheet software. School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MIS 301. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

Equivalent to MIS 303.

**Prerequisite(s):** Sophomore standing.

**Notes:** Projects required.  
Students cannot receive credit for both MIS 301 and MIS 303.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

**MIS 302 - Introduction to Programming for Business Applications**

Credits: 3  
Not Repeatable  
Covers design and implementation of program data structures and algorithms to solve business problems using structured programming techniques. Students become familiar with program development life cycle using standard programming language such as Visual BASIC.NET supported by a modern Integrated Development Environment (IDE). Students complete assignments involving development of real-life business application.

**Prerequisite(s):** Degree status.

**Notes:** IT 108 highly recommended but not required.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring
MIS 303 - Introduction to Business Information Systems

Credits: 3  
Limited to 3 Attempts  
Introduces fundamentals of hardware, software, and networking. Emphasizes role of technology in improving contemporary business processes and competitive advantage. Includes basic relational concepts, hands-on experience in building business database applications and decision support using spreadsheet software.

Fulfills Mason Core requirement in information technology (all).

Equivalent to MIS 301.

Prerequisite(s): Degree status.

Notes: Students cannot receive credit for both MIS 301 and MIS 303.

School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MIS 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MIS 310 - Database Management Systems

Credits: 3  
Not Repeatable  
Introduces principles of designing and manipulating relational databases with a focus on business applications. Theoretical database concepts and hands-on experience with a relational package. Term project requiring implementation of a substantial business database application.

Prerequisite(s): Grade of C or higher in MIS 301 or MIS 303. Degree status. Prerequisite enforced by registration system. Prerequisite enforced by registration system.

Notes: School of Business students may not receive credit for both MIS 310 and IT 214. Requires hands-on implementation using software package.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring, Summer

MIS 320 - Networks and Security

Credits: 3  
Not Repeatable  
Introduces students to fundamentals of networking technologies and their role in businesses. Emphasis is on understanding the
business implications of different networking technologies and solutions. Students learn to identify and understand the business requirements, and bring together the different technological components to design the required communication solutions. Also focuses on the types of security threats to the business network infrastructure, and approach to tackling such threats through business practices combined with appropriate technological solutions.

**Prerequisite(s):** Grade of C or higher in MIS 301 or MIS 303, degree status. Prerequisite enforced by registration system.

**Notes:** The course also includes lab work and exercises.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**MIS 330 - Systems Analysis and Design**

Credits: 3  
Not Repeatable  
Understanding systems analysis and design methods is a necessary skill for contemporary business analysts, managers, software engineers and system users. Provides students with the foundations for effectively using modern systems analysis and design tools and methodologies for developing modern software and applications. Topics include systems planning and feasibility analysis, requirements analysis, economics, systems design and project management.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** C or higher in MIS 310, degree status. Programming course recommended. Prerequisite enforced by registration system.

**Notes:** Requires team project.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

---

**MIS 411 - Management and Control of Information Systems**

Credits: 3  
Not Repeatable  
Managerial perspective on issues arising in managing information systems through their life-cycle. The topics include using different methodologies for estimating software development costs, maintenance costs, systems project management, and pricing information products and services. The course also covers methodologies for monitoring performance of information systems, and ways for assessing the strategic and business value of use of information technology.

**Prerequisite(s):** Grade of C or higher in MIS 301 or MIS 303, degree status. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring
MIS 412 - E-Business Systems Development

Credits: 3
Not Repeatable
Introduces students to the development of web-based information systems for E-business. Students learn to develop web-based database applications for eCommerce using ASP.NET. Also covers Web 2.0 technologies and contemporary business trends and issues related to web application development. Emphasizes technologies, methods, and application development tools.

Prerequisite(s): Grade of C or higher in MIS 301 or MIS 303, degree status. Prerequisite enforced by registration system.

Notes: Requires team project and computer lab.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MIS 430 - Data Warehousing

Credits: 3
Not Repeatable
Deals with the challenges faced by businesses in managing large amounts of data and making meaningful use of this data for informed decision making. Introduces students to data warehousing fundamentals, practices, and technologies; and their application to solving business problems. Specific emphasis is on designing of data warehouse to meet the business requirements and hands-on learning of the design principles through implementation on commercially used data warehouse technologies. Also introduces students to OLAP solutions and data mining approaches to supporting business decision making.

Prerequisite(s): C or higher in MIS 310, degree status. Prerequisite enforced by registration system.

Notes: Term project required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MIS 435 - Knowledge Management

Credits: 3
Not Repeatable
Focuses on new trends on how knowledge management works for organizations, best strategy for such transition, and what are knowledge management elements.

Prerequisite(s): C or higher in MIS 310, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
MIS 440 - E-Commerce Business Models and Applications

Credits: 3  
Not Repeatable  
Introduces students to business models used in E-commerce and E-business. Covers B2B, B2C, and C2C business models and also introduces current business trends of the Web 2.0 era and the core concepts of the information economy, networked business models, and the social web. The class will discuss Blogging, Wikis, Social Networks, Information Goods, and E-Tailing. Students complete a group project in which they create a business plan for a viable Internet-based business.

Prerequisite(s): C or higher in MIS 310, degree status. Prerequisite enforced by registration system.

Notes: Requires a term project.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

MIS 462 - Honors Seminar in Management Information Systems

Credits: 3  
Not Repeatable  
Topic and format vary. In-depth study of a topic in the area of information technology management. Enrollment limited and competitive.

Prerequisite(s): Senior standing, ISOM (or DMIS) major, senior standing; permission of department.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

MIS 491 - Seminar in Management Information Systems

Credits: 3  
Repeatable within Term  
Analyzes selected topics that highlight latest developments in information resource management field, including contemporary research findings and case studies of information systems in business and other organizations.

Prerequisite(s): Grade of C or higher in MIS 301 or MIS 303, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

MIS 499 - Independent Study in Management Information Systems
Credits: 1-3  
Repeatable within Term  
Research and analysis of selected problems or topics in information resource management.

**Prerequisite(s):** Grade of C or higher in MIS 301 or MIS 303, degree status. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**Management of Secure Information Systems (MSEC)**

**MSEC 510 - Foundations of Cyber Security**

Credits: 2  
Not Repeatable  
Provides an overview of the introductory topics in cyber security, which will be the basis for the other security-related in the MSIS. Topics include basic concepts on CIA (confidentiality, integrity, and availability), risk management, disaster recovery, access control, basic cryptography and software application vulnerabilities.

**Prerequisite(s):** Admission to the Executive MS in Management of Secure Information Systems.

**Notes:** 4 class sessions will be 3.5 hours long.  
1 class session will be 2 hours and 20 minutes long.  
(5 classes; 16 hours and 20 minutes total)

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

**MSEC 511 - Security Practices in the Enterprise**

Credits: 2  
Not Repeatable  
Provides the practices and methods currently used by information security professionals to manage and operate the secure IT infrastructures in the enterprise industry and in the US Federal Sector. It covers tools and knowledge required to design, execute, and/or evaluate the INFOSEC standards and procedures required of government and industry. The topic includes security operation center (SOC), network security, malware countermeasures, operational systems security, risk analysis and incident response practices.

**Prerequisite(s):** MSEC 510.

**Notes:** 4 class sessions will be 3.5 hours long.  
1 class session will be 2 hours and 20 minutes long.  
(5 classes; 16 hours and 20 minutes total)
MSEC 520 - Networking Principles

Credits: 1
Not Repeatable
Introduction to the principles guiding the design and operation of modern communication networks; using the structure provided by layered service models, this course explores systematically the architecture and protocols of large, decentralized networks. Topics include medium access control in local area networks, switching, routing, and addressing, reliable and secure transport, flow and congestion control. Throughout, examples are drawn from the suite of Internet protocols.

Prerequisite(s): Admission to the Executive MS in Management of Secure Information Systems.

MSEC 620 - Networking Security

Credits: 2
Not Repeatable
Provides a comprehensive introduction to network security concepts and problems and the mechanisms and tools to secure networks. Focuses on the Internet; discusses the threats to and from the Internet and examines existing Internet security techniques and protocols and their limitations. Topics include secret key and public key cryptography, Hash algorithms, authentication, IPSEC/VPN, IPSEC key exchange, SSL/TLS, firewall, anonymous communication, and VoIP security.

Prerequisite(s): MSEC 510 and 520.

MSEC 630 - Secure Information System Governance, Regulation, and Compliance

Credits: 2
Not Repeatable
Provides insight into secure information system governance, regulations, and compliance including noteworthy legislation, regulations, and compliance issues as well as commonalities and significant differences between departments and agencies within the Federal Executive Branch (FEB). The course is presented as formal lectures complemented by group discussion. Each topic is addressed as part of the larger Secure Information System structure.

Prerequisite(s): MSEC 510

Notes: 4 class sessions will be 3.5 hours long.
1 class session will be 2 hours and 20 minutes.
MSEC 640 - Privacy and Ethics in an Interconnected World

Credits: 2
Not Repeatable
Course considers key ethical issues for professionals in network security in an emerging age of internet access, virtual environments, and wireless capabilities. Intellectual property, privacy, computer abuse, free speech, and commerce are examined.

Prerequisite(s): Admission to the Executive MS in Management of Secure Information Systems program.

Notes: 4 class sessions will be 3.5 hours long.
1 class session will be 2 hours and 20 minutes long.
(5 class sessions; 16 hours 20 minutes total)

MSEC 641 - Enterprise Security Threats

Credits: 1
Not Repeatable
Provides a broad exposition of emerging cyber-security threats for large-scale enterprises: Denial of Service (DoS), insider attacks, remote exploitation. It covers defenses that may mitigate or curtail some aspects of these emerging security threats.

Prerequisite(s): MSEC 511.

MSEC 642 - Enterprise Security Technologies

Credits: 2
Not Repeatable
Provides an overview of enterprise security tools used in advanced security IT departments of enterprises today. In addition to understanding the tools, their capabilities, and their gaps, students participate in hands-on laboratory exercises with enterprise security tools.

Prerequisite(s): MSEC 511.

Notes: 4 class sessions will be 3.5 hours long.
1 class session will be 2 hours and 20 minutes long.
(5 class sessions; 16 hours 20 minutes total)

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0

### MSEC 650 - Seminar: Enterprise Security Case Studies

Credits: 1  
Not Repeatable  
Provides an exposition of large enterprise security systems including operational requirements, threat model, security analysis, economic analysis, and defense posture options that expose the operational and economic trade-offs when architecting Enterprise security.

**Prerequisite(s):** MSEC 641.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### MSEC 696 - Directed Studies Management of Secure Information Systems

Credits: 1-3  
Repeatable within Degree  
Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum.

**Prerequisite(s):** Admission to the MSIS program or permission of the program director.

**Hours of Lecture or Seminar per week:** 1-3

### MSEC 697 - Special Topics in Management of Secure Information Systems

Credits: 1-3  
Repeatable within Term  
Sections established as necessary to focus on various topical issues that emerge in practice of management of secure information systems.

**Prerequisite(s):** Admission to the MSIS program or permission of the program director.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special.

### MSEC 710 - Global Residency
Credits: 1-4
Repeatable within Degree
Students spend a week in an international residency. Emphasis is on how other nations deal with management of secure information systems, the management of those systems, and related public policy issues. Corporate site visits are combined with presentations by professors from universities outside the United States and relevant practitioners. Students are required to write a paper summarizing their observations and attend pre-residency preparatory sessions.

Equivalent to TECM 757

Prerequisite(s): Admission to Executive MS in Management of Secure Information Systems.

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

MSEC 720 - Capstone Project in Management of Secure Information Systems

Credits: 1-3
Repeatable within Degree
Teams undertake a strategic evaluation and plan for the management of secure information systems. They develop plans that include technical, organizational, and policy aspects. A report is produced and presented to the entire cohort for discussion.

Equivalent to TECM 737

Prerequisite(s): Admission to Executive MS in Management of Secure Information Systems.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Spring, Summer

Marketing (MKTG)

Offered by the School of Business.

If a student takes noncore, upper-level business courses before admission to the School of Business, those courses will not count on an undergraduate degree application for any major in the school, except as general elective credit. A grade of C or higher must be presented on the graduation application for each upper-level course in the major. Course prerequisites are strictly enforced. Degree status is defined as formal admission to BS degree status in School of Business.

MKTG 301 - Principles of Marketing

Credits: 3
Limited to 3 Attempts

Examines marketing principles and practices for analyzing, creating, delivering, capturing, and communicating value to customers. Focuses on managing customer relationships using market-driven strategies, particularly segmentation, targeting, and
positioning. The role of customer satisfaction in achieving organizational objectives and ethical decision making in a global economy are also emphasized.

School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MKTG 301. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

Equivalent to MKTG 303.

**Prerequisite(s):** Sophomore standing. Prerequisite enforced by registration system.

**Notes:** Students cannot receive credit for both MKTG 301 and MKTG 303.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

---

**MKTG 303 - Principles of Marketing**

Credits: 3  
Limited to 3 Attempts  
Examines marketing principles and practices for analyzing, creating, delivering, capturing, and communicating value to customers. Focuses on managing customer relationships using market-driven strategies, particularly segmentation, targeting, and positioning. The role of customer satisfaction in achieving organizational objectives and ethical decision making in a global economy are also emphasized.

Equivalent to MKTG 301.

**Prerequisite(s):** BUS 103 and BUS 200 are strongly recommended.

The following courses are required:
- ACCT 203 or ACCT 204
- BUS 100
- BUS 210
- MATH 108 or MATH 113 or MATH 114 or HNRT 225.

Degree status. Prerequisite enforced by registration system.

**Notes:** Students cannot receive credit for both MKTG 301 and MKTG 303.

School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MKTG 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MKTG 311 - Sales Management**
Credits: 3
Not Repeatable
Familiarizes students with marketing-sales interfaces including sales force role and capabilities, personal selling strategies, organizational relationships, and responsibilities of sales managers including training, motivating, and evaluating sales force.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MKTG 312 - Consumer Behavior

Credits: 3
Not Repeatable
Marketing strategy implications of internal and external influences on consumer decision making, purchase, and consumption behaviors. Emphasizes demographics, lifestyle, situation, perception, learning, and attitude formation and change, focusing on customer segmentation, satisfaction and loyalty.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MKTG 313 - Integrated Marketing Communications

Credits: 3
Not Repeatable
Examines development of integrated communications programs, including advertising, sales promotion, public relations, direct marketing, and other communication tools. Focuses on setting communications objectives and budgets, media planning, creative strategy, execution, and evaluation. Provides skills for analyzing the strengths, weaknesses and synergies of marketing communication tools.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303, degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MKTG 315 - Internet Marketing

Credits: 3
Not Repeatable
Explores impact of Internet technology on marketing strategy and practice. Topics include online advertising campaigns (focusing on search marketing), web site usability and content, and the use of social and interactive media to build customer relationships and foster brand loyalty.
**Prerequisite(s):** Grade of C or higher in MKTG 301 or MKTG 303, degree status. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**MKTG 332 - Retailing and E-Commerce Management**

Credits: 3  
Not Repeatable  
Examination of retailing as a specialized economic and social institution within the distribution process and as it relates to overall marketing activities. The planning and implementing of store and nonstore (catalog, Internet) retail marketing strategies are addressed. Critical decision alternatives, variables, forces, and processes are considered from a managerial perspective.

**Prerequisite(s):** Grade of C or higher in MKTG 301 or MKTG 303, degree status. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**MKTG 333 - Business to Business Marketing**

Credits: 3  
Not Repeatable  
Examines unique challenges and opportunities of marketing systems among suppliers, manufacturers, resellers, and government. Focuses on developing a capability to identify and nurture long-term B2B relationships. Provides tools and techniques commonly leveraged by B2B marketers to develop these relationships with their clients.

**Prerequisite(s):** Grade of C or higher in MKTG 301 or MKTG 303. Degree status. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring, Summer

**MKTG 351 - Marketing Research Techniques and Applications**

Credits: 3  
Not Repeatable  
Presents the concepts and techniques underlying the marketing research process and their role in managerial decision making. Focuses on skills required to conduct a marketing research project: qualitative and quantitative research designs, survey methodology, instrument creation, sampling procedures, data collection, data analysis, and reporting of findings.

**Prerequisite(s):** Grade of C or higher in BUS 310 and MKTG 301 or MKTG 303. Degree status. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3
MKTG 407 - International Marketing

Credits: 3
Not Repeatable
Multidisciplinary approach to international marketing from viewpoint of business management. Examines major marketing issues affecting companies operating in a global environment. Students achieve understanding of economic, political, and cultural differences among nations as they affect marketing opportunities and operations, and develop skills to identify and evaluate international marketing opportunities.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303. Degree status. Prerequisite enforced by registration system.

MKTG 451 - Competitive Intelligence and Information Security

Credits: 3
Not Repeatable
Develops understanding of benefits to commerce and society because of Internet-based commerce, escalating threats against Internet-based marketing initiatives, and protection of knowledge-based assets of firms.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303. Degree status. Prerequisite enforced by registration system.

MKTG 455 - Ethnic and Multicultural Marketing

Credits: 3
Not Repeatable
Ethnic and Multicultural Marketing examines the critical marketing issues and opportunities that have arisen with the changing U.S. demographics. The focus is domestic markets. The growth in minority populations indicates a need for specialized approaches for the entire marketing mix. Segmentation can be powerful when considering non-mainstream markets if the marketer understands and capitalizes on the different approaches cultural and ethnic groups use as consumers.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303. Degree status. Prerequisite enforced by registration system.
**MKTG 462 - Honors Seminar in Marketing**

Credits: 3  
Not Repeatable  
Topic and format vary. In-depth study of topic of interest to managers and organizations.

Prerequisite(s): Degree status in MKTG major; senior standing; permission of department.

Notes: Enrollment limited and competitive.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MKTG 471 - Marketing Management**

Credits: 3  
Not Repeatable  
Emphasizes managerial aspects of marketing, including developing marketing strategies and plans, and integrating specific elements of marketing process. Emphasizes case analysis.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Senior standing; C or higher in MKTG 312 and 351; degree status. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

---

**MKTG 481 - RS: Marketing in the Nonprofit Sector**

Credits: 3  
Not Repeatable  
Examines the unique challenges of applying marketing principles and practices to not-for-profit groups such as human service and philanthropic organizations, museums, health and wellness advocates, educational institutions, industry associations and government. Emphasis on case studies, team work, and projects.

Designated as a research and scholarship intensive course.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303. Degree status. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**MKTG 491 - Special Topics in Marketing**
MKTG 399 - Contemporary Topics in Marketing

Credits: 3
Repeatable within Term
In-depth treatment in seminar format of contemporary topics in marketing. Culminates in preparation of substantial paper and oral presentation.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303. 9 credits of marketing. Degree status. Prerequisite enforced by registration system. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

MKTG 499 - Independent Study

Credits: 1-3
Repeatable within Term
Primary research proposal in marketing area. Requires prior approval from instructor and associate dean for undergraduate programs.

Prerequisite(s): 90 credits (senior class standing) and a minimum of 24 credits of business courses, including principles of marketing, finance, and management.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

Credits: 3
List of eligible courses fulfilling this requirement.
Mason Core UWCU - Written Communication

Credits: 6
List of eligible courses fulfilling this requirement.

Master of Business Administration (MBA)

Offered by the School of Business.

MBA 603 - Managerial Economics and Decisions of the Firm

Credits: 0-3
Repeatable within Degree
Provides fundamental understanding of applying microeconomics concepts to managerial decision making. Explores principles of microeconomic theory, including market supply and demand, production and cost functions, industry structure, and product and resource pricing.

Prerequisite(s): Admission to the MBA or MSA program or permission of the program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall, Spring

MBA 612 - Managing Costs and Evaluating Performance

Credits: 1.5-3
Not Repeatable
Examines impact of cost and cost allocation on performance and evaluation.

Prerequisite(s): Admission to the MBA or MSA program or permission of the program director.

Hours of Lecture or Seminar per week: 1.5-3
Hours of Lab or Studio per week: 0
When Offered: Spring, Summer

MBA 613 - Financial Reporting and Decision Making

Credits: 0-3
Repeatable within Degree
Foundation course focusing on economics and analysis of business transactions and related financial reporting issues. Topics include introduction to accounting framework used in financial reporting; and analysis of financial statements, economic events and their impact on financial reports, and impact of accounting methods on financial reports.
MBA 623 - Marketing Management

Credits: 0-3
Repeatable within Degree
Develops market-based knowledge and skills for effective marketing decision making, strategy design, implementation, and evaluation in wide variety of institutional and competitive situations. Addresses the importance of companies being market-driven and customer-focused.
Emphasis on case studies, team work, and projects.

Prerequisite(s): Admission to MBA program.

MBA 633 - Statistics for Business Decision Making

Credits: 0-3
Repeatable within Degree
Uses statistical methods as analytical tools for understanding and solving business problems and supporting business decision making. Includes descriptive statistics, sampling, inferencing and regression. Extensive use of applied business scenarios to illustrate concepts and computer software for data analysis.

Prerequisite(s): Admission to the MBA or MSA program or permission of the program director.

MBA 638 - Operations Management

Credits: 0-3
Repeatable within Degree
Focuses on design, planning, and control activities to produce and deliver goods and services in modern organizations. Introduces wide range of operations management decisions, such as operations strategy, process analysis and design, capacity planning, supply chain management, total quality management, and project management. Uses quantitative modeling, case studies, and computer software to analyze and solve operations management problems.
MBA 643 - Managerial Finance

Credits: 0-3
Repeatable within Degree
Introduces theory and practice of finance within corporations. Topics include intertemporal choice, valuation, capital budgeting and structure, working capital management, and risk and return analysis.

Prerequisite(s): Admission to the MBA or MSA program or permission of the program director.

MBA 653 - Organizational Behavior

Credits: 0-3
Repeatable within Degree
Emphasizes development of conceptual tools for understanding and analyzing individual and group behavior in organizations and organizational processes. Considerable focus on developing relevant skills for working in groups and teams. Lectures, discussions, case analyses, and class exercises.

Prerequisite(s): Admission to MBA or MSA program.

MBA 662 - Management of Information Technology

Credits: 1.5-3
Not Repeatable
The strategic, economic and managerial aspects of managing an organization's IT assets are covered. The business value of IT is understood and assessed in context of its impact on the organization's structure and strategy. The course includes discussion on major issues pertaining management of IT infrastructure.

Prerequisite(s): Admission to the MBA or MSA program or permission of the program director.
MBA 673 - Legal Environment for Management

Credits: 1.5
Not Repeatable
Examines the managerial impact of the law upon decision-making processes in business organizations. Lectures as well as discussions of judicial opinions and readings.

Prerequisite(s): Admission to MBA program or MSA program or permission of the program director.

MBA 674 - Ethical and Social Environment of Business in the 21st Century

Credits: 1.5
Not Repeatable
Strengthens the student's ability to identify, critically analyze, appropriately respond to, and provide leadership regarding the issues of ethical and socially responsible behavior which they may confront as employees and eventually as managers of people, objects, and organizations.

Prerequisite(s): Admission to the MBA or MSA program or permission of the program director.

MBA 678 - Strategic Management

Credits: 0-3
Repeatable within Degree
Capstone course focusing on strategy development at business unit and corporate level. Cases, readings, and project format familiarize students with strategic management function and help them develop analytical, organizational, and managerial skills to analyze complex business situations. Provides opportunities to integrate knowledge gained in prior course work.

Prerequisite(s): Admission to MBA program.

Hours of Lecture or Seminar per week: 1.5-3
Hours of Lab or Studio per week: 0
When Offered: Spring, Summer

MBA 673 - Legal Environment for Management

Credits: 1.5
Not Repeatable
Examines the managerial impact of the law upon decision-making processes in business organizations. Lectures as well as discussions of judicial opinions and readings.

Prerequisite(s): Admission to MBA program or MSA program or permission of the program director.

MBA 674 - Ethical and Social Environment of Business in the 21st Century

Credits: 1.5
Not Repeatable
Strengthens the student's ability to identify, critically analyze, appropriately respond to, and provide leadership regarding the issues of ethical and socially responsible behavior which they may confront as employees and eventually as managers of people, objects, and organizations.

Prerequisite(s): Admission to the MBA or MSA program or permission of the program director.

MBA 678 - Strategic Management

Credits: 0-3
Repeatable within Degree
Capstone course focusing on strategy development at business unit and corporate level. Cases, readings, and project format familiarize students with strategic management function and help them develop analytical, organizational, and managerial skills to analyze complex business situations. Provides opportunities to integrate knowledge gained in prior course work.

Prerequisite(s): Admission to MBA program.

Hours of Lecture or Seminar per week: 1.5-3
Hours of Lab or Studio per week: 0
When Offered: Spring, Summer
MBA 701 - Business Analysis and Valuation

Credits: 0-3
Repeatable within Degree
Develops framework for business analysis and valuation using financial statement data. Analyzes management decisions such as equity valuation, creditworthiness, merger valuation, corporate financial structure, and management communication strategy.

Equivalent to ACCT 701.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 702 - Corporate Financial Policy

Credits: 0-3
Repeatable within Degree
Applies theories and methods of corporate financial management to series of complex cases. Topics include capital projects as real options, cost of capital and capital structure, firm valuation, project finance, and merger and acquisition analysis.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall

MBA 703 - Financial Markets

Credits: 0-3
Repeatable within Degree
Explores relationship among financial markets including global equity markets, U.S. Treasury securities, and exchange-traded and over-the-counter financial derivative instruments such as futures, options, swaps, and asset-backed securities.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Summer

MBA 704 - Risk Management and Financial Innovation
MBA 705 - Venture Capital and Private Finance

Credits: 0-3
Repeatable within Degree
Considers market microstructure of venture capital and private finance: costs and benefits from employing private financing, interaction between the financiers and entrepreneurs, financial analysis of potential ventures, and investor exit strategies.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 706 - Investment Analysis

Credits: 0-3
Repeatable within Degree
Focuses on analyzing equity securities and debt instruments given implications of efficient market hypothesis and modern capital market theory.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 708 - Taxes and Business

Credits: 0-3
Repeatable within Degree
Provides framework for making managerial decisions in global tax environment. Examines business decisions such as location of facilities, employee compensation, mergers and acquisitions, capital and asset structure, and business form.
Equivalent to ACCT 708.

**Prerequisite(s):** Completion of MBA core requirements, or permission of instructor.

**MBA 711 - Entrepreneurship**

Credits: 0-3  
Repeatable within Degree  
Considers fundamental aspects of entrepreneurship and process of new venture creation. Draws on broad range of business disciplines including management, marketing, finance, and accounting to develop evaluation and execution skills.

**Prerequisite(s):** Completion of MBA core requirements, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special.  
**When Offered:** Fall

**MBA 712 - Project Management**

Credits: 0-3  
Repeatable within Degree  
Focuses on designing, planning, monitoring, and controlling projects. Involves practical examination of how projects should be managed from start to finish, including specific emphasis on how to avoid common pitfalls. Includes hands-on experience with a common project management software package.

**Prerequisite(s):** Completion of MBA core requirements, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special.  
**When Offered:** Fall

**MBA 713 - Managing Human Capital**

Credits: 0-3  
Repeatable within Degree  
Effective management of human capital drives values for the firm and, in today's business environment, is a source of competitive advantage. Course prepares managers and entrepreneurs to leverage human capital by aligning practices with strategic objectives. Course provides systems perspective noting interrelationships between practices designed to attract, retain, & motivate human capital. Opportunities provided for personal skill-building on topics; interviewing, providing performance feedback, rewards, career development and termination.
Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 714 - Managing Growth of Small Businesses

Credits: 0-3
Repeatable within Degree
Focuses on unique challenges faced by small and entrepreneurial firms that seek long-term growth. Builds on concepts and knowledge of creating start-up company, and introduces processes and strategies required to become significant player in industry segment. Designed for students interested in understanding opportunities and problems in their own businesses, employment in small or entrepreneurial businesses, or exploring corporate entrepreneurship within large firms.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 715 - Advanced Project and Program Management

Credits: 0-3
Repeatable within Degree
Examines advanced topics in project and program management with specific attention to issues and skills that managers needs to effectively manage multiple projects and programs. Topics include project selection, multiple project resource allocation, and organization of project office.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 716 - International Business Strategy

Credits: 0-3
Repeatable within Degree
Focuses on the globalization of business activities, the strategic challenges faced by companies in global competition, and how companies strategically respond to these new competitive challenges.

Prerequisite(s): Completion of MBA core requirements
MBA 717 - International Finance

Credits: 0-3
Repeatable within Degree
Advanced analysis of managing firm's international financial operations. Topics include currency risk, political risk, returns and funding of international projects, international markets and accounting, and cost of capital. Lecture, discussion, readings, and cases.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

MBA 718 - International Marketing

Credits: 0-3
Repeatable within Degree
Addresses marketing process for products and services within major international markets. Topics include marketing mix strategies using standardization, localization, or globalization approaches. Emphasizes the introduction of service innovations and new products in the global market.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

MBA 719 - Entrepreneurship Laboratory

Credits: 1.5
Repeatable within Term
Permits MBA students to work with entrepreneurial community to gain first-hand knowledge of process of soliciting second-stage funding for new businesses, evaluating applications for second-stage funding, consulting for entities seeking funding, and negotiations for obtaining second-stage funding.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

Notes: May be repeated three times in same semester.
MBA 721 - Marketing Decision Systems

Credits: 0-3
Repeatable within Degree
Develops skills to plan and implement effective marketing research studies. Topics include research design, data collection, statistical analysis, and use of database systems. Offers perspective on how managers can use market data to develop successful product or service strategies.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall

MBA 722 - Consumer Behavior

Credits: 0-3
Repeatable within Degree
An integrated analysis of internal and external influences on consumer decision making, purchase, and consumption behaviors with attention to marketing strategy implications. Emphasizes demographics, lifestyle, situation, perception, learning, and attitude formation and change, focusing on customer segmentation, satisfaction, loyalty, and product-person relationships.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 723 - Supply Chain Management

Credits: 0-3
Repeatable within Degree
Examines logistics of supply chain systems, including inventory management, distribution channels, and information systems. Emphasizes strategic alliances and international issues.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring
MBA 724 - Marketing Communications

Credits: 0-3
Repeatable within Degree
Examines all forms of communication and sources of brand or company contacts as potential message channels in building relationship with customers. Focuses on integrated planning process for all communication elements, including consumer and trade advertising, public relations, direct and database marketing, promotions, and sales presentations to achieve synergy in communicating with various constituencies.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall

MBA 725 - Leadership

Credits: 0-3
Repeatable within Degree
Overview of major conceptualizations of leadership and motivation in organizations. Integrates theory, research, and applications. Students apply principles of leadership and motivation to their own work situations and case evaluation.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 726 - Negotiations

Credits: 0-3
Repeatable within Degree
Focuses on theory, processes, and practice of negotiation within and across organizations, including attention to ethical issues. Explores systematic ways to increase quality of negotiated agreements, including methods of preparation, effective communication, and various strategies to increase power. Format includes negotiation exercises, lecture, and discussion.

Prerequisite(s): Completion of MBA core.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall
MBA 730 - Management of Technology and Innovation Processes

Credits: 0-3
Repeatable within Degree
Students will develop a strong conceptual foundation for managing technological innovation. It introduces frameworks for analyzing how firms can create, commercialize and capture value from products and services. Topics covered comprise the formulation of innovation strategies, the process of developing new products and services, and how to create and manage an innovative organization to drive revenue growth.

Prerequisite(s): Admission to the MBA program or permission of the program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall, Spring

MBA 731 - Business Application and Life Cycle Management

Credits: 0-3
Repeatable within Degree
Studies methods and tools for analyzing and designing business information systems with emphasis on business processes. Topics include data modeling, process modeling, interaction analysis, and user interface.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall

MBA 732 - Knowledge Management

Credits: 0-3
Repeatable within Degree
Examines firms that use knowledge management principles and approaches: intellectual capital, human capital, customer capital, tacit and explicit knowledge, new role of chief knowledge officer, leveraging of knowledge management.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Summer

MBA 733 - Business Data Communications
Credits: 3
Not Repeatable
Introduces data communications and telecommunications technologies and application in business, including LANs, WANs, PBXs, voice services, network operating systems, corporate internetworking, and Internet. Analyzes data communications industry, and business applications in manufacturing and service sectors, along with regulatory issues and impact of globalization.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MBA 734 - Electronic Commerce and E-Business

Credits: 0-3
Repeatable within Degree

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 735 - Systems Thinking for Business Performance

Credits: 0-3
Repeatable within Degree
The business world is increasingly interconnected. "Systems Thinking" is a way to understand the structure of a system and its relationship to behavior, and provides a foundation for making more effective management decisions in an interconnected world. The course introduces fundamentals of systems thinking, and involves hands-on use of "systems thinking" tools and techniques to improve performance in a variety of situations spanning different industries.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Summer

MBA 737 - Information Technology Governance and Policy

Credits: 0-3
Repeatable within Degree
Considers specific objectives of IT governance and policy, frameworks that help chart roadmap for this function, and tools and
techniques used in specific areas of IT governance.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Graduate Special.

MBA 738 - Business Intelligence and Data Mining

Credits: 0-3  
Repeatable within Degree  
Examines how data warehouses and data mining are used to help businesses successfully gather, structure, analyze, understand and act on relevant data, both operational and contextual.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Graduate Special.  
When Offered: Fall

MBA 741 - Information Technology Auditing

Credits: 0-3  
Repeatable within Degree  
Introduces methodologies to assess security and control issues concerning accounting and other information systems. Key feature of course is applying computer-assisted audit tools and techniques to test effectiveness of application.

Equivalent to ACCT 741

Prerequisite(s): Admission to MSA or MBA program, or permission of program director.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Graduate Special.  
When Offered: Fall

MBA 742 - Corporate Governance and Ethics

Credits: 0-3  
Repeatable within Degree  
Focuses on developing understanding of corporate governance issues and ethical decision-making. Topics include examination of internal and external and international governance issues, and ethical analysis in current business environment.

Equivalent to ACCT 742
**Prerequisite(s):** Admission to MSA or MBA program, or permission of program director.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special.  
**When Offered:** Spring

---

**MBA 743 - Corporate Financial Reporting**

Credits: 0-3  
Repeatable within Degree  
Addresses contemporary issues in corporate financial reporting. Focuses on role of financial reporting in providing decision-useful information to participants of capital market, and theoretical and empirical assessments of performance.

Equivalent to ACCT 743

**Prerequisite(s):** Admission to MSA or MBA program, or permission of program director.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special.  
**When Offered:** Summer

---

**MBA 744 - Fraud Examination**

Credits: 0-3  
Repeatable within Degree  
Introduces strategies and techniques for fraud prevention and detection. Focuses on financial fraud such as bribery, contract rigging and kickbacks, embezzlement, fraudulent financial reporting, payroll fraud, and misappropriation of inventory and other assets.

Equivalent to ACCT 636, ACCT 744 (2013-2014 Catalog).

**Prerequisite(s):** Admission to MSA or MBA program, or permission of program director.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special.  
**When Offered:** Fall

---

**MBA 745 - International Financial Reporting**

Credits: 0-3  
Repeatable within Degree  
Examines accounting from an international perspective, including the study of various functional areas of accounting across countries and the reporting requirements encountered by companies engaged in international trade and making foreign direct investments.
Equivalent to ACCT 745

Prerequisite(s): Completion of MBA or MSA core requirements, or permission of program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.

MBA 746 - Real Estate Analysis and Valuation

Credits: 0-3
Repeatable within Degree
Overview of real estate assets, markets, and decisions. Emphasizes development of analytical techniques and information required for implementation. Includes legal, economic, and public policy perspectives.

Equivalent to GBUS 746; GSOM 746.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.

MBA 747 - Real Estate Finance

Credits: 0-3
Repeatable within Degree
Examines financing of residential and income-producing real estate from perspectives of both suppliers and users of funds. Focuses on financing alternatives, primary and secondary markets, and decision implications of available arrangements.

Equivalent to GBUS 747; GSOM 747.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.

MBA 748 - Real Estate Investment

Credits: 0-3
Repeatable within Degree
Develops frameworks for analyzing decisions about investing in real estate assets. Focuses on acquisition and analysis of information required to evaluate potential performance of assets. Applications of theories and techniques through case studies.

Equivalent to GBUS 748; GSOM 748.
Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

**MBA 752 - Turning Ideas into Successful Companies**

Credits: 0-3
Repeatable within Degree
An advanced course in entrepreneurship focused on discovery and development of an achievable business concept. The centerpiece of the course is development of the formal business plan and associated presentation materials. Students are assigned to teams and must hypothesize a new business, research and test their hypothesis, and develop a comprehensive written business plan. The plan must be for an actual business that the students intend to start upon the successful completion of the course. Technology-based projects are encouraged, but not required. Because the course is cross-listed with IT&E and the School of Business, most teams will include both engineering and business students. Weekly presentations of the team's progress are required.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

**MBA 795 - Global Business Perspectives**

Credits: 0-3
Repeatable within Degree
Applies MBA core courses to global business enterprise through site visits to facilities located outside the United States.

Prerequisite(s): Admission to the MBA program or permission of the program director.

**MBA 796 - Directed Studies in Business Administration**

Credits: 1-3
Repeatable within Degree
Approval by faculty member and MBA program director required prior to registration. Studies specialized topics in business administration not otherwise available in curriculum.

Prerequisite(s): Admission to the MBA or MSA program or permission of the program director.
Notes: May be repeated for up to 3 credits.

Hours of Lecture or Seminar per week: 1-9
Hours of Lab or Studio per week: 0

MBA 797 - Special Topics in Business

Credits: 1-3
Repeatable within Term
Sections established as necessary to focus on various topical issues that emerge in practice of business administration.

Prerequisite(s): Admission to the MBA program or permission of the program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall, Spring, Summer

Master of New Professional Studies (MNPS)

Offered by the School of Public Policy

MNPS 700 - The New Professionalism: Theory and Practice

Credits: 3
Not Repeatable
Experientially explores contemporary and relevant ethical theories and their diverse applications to professional studies field. Examines ethical relationship between professionals and clients, ethical accountability and responsibility, ethos of institutions, and the professional's role in sustaining ethical standards. Explores philosophical and pedagogical assumptions to understand professional management issues, and social and individual purposes of being professional.

Notes: Customized for each track; for detailed course content, contact appropriate program directors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MNPS 702 - The New Professional as Reflective Practitioner

Credits: 3
Not Repeatable
Identifies central problems in epistemology. Examines how an epistemology appropriate to professional practice may be constructed, what is meant by "ways of knowing" and the "reflective practitioner," and implications for professional learning. Studies core issues of generalizability; objective knowledge and understanding; and how evidence, truth, and meaning affect nature of organizational reality and professional's practice. Special attention to developing skills for "double-loop learning," and
reflection in professional lives through journals, narrative, autobiography, and imaginative literature.

Notes: Customized for each track; for detailed course content, contact appropriate program directors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**MNPS 703 - Technology and Learning in the New Professions**

Credits: 3  
Not Repeatable  
Examines enormous potential for enhancing the way organizations can learn, notably through developing Internet literacy and skills in using differing Internet navigation tools. Focuses on applying technology to real-world problems in different professional work-sites and offers in-depth training in use and development of groupware applications.

Notes: Customized for each track; for detailed course content, contact appropriate program directors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**MNPS 704 - Research Methodologies in the New Professionalism**

Credits: 3  
Not Repeatable  
Concentrates on understanding and using research methodologies from such varied sources as Friere, McKeon, and Janowitz, with a practical team activity in which students study organization or aspects of it, using ethnography, field study, or any appropriately defensible research methodology.

Corequisite(s): EDUC 597

Notes: Customized for each track; for detailed course content, contact appropriate program directors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**MNPS 720 - Learning Community**

Credits: 3  
Not Repeatable  
Workshops, seminars, and reading groups involving at least 60 hours of contact time and culminating in two-day retreat during which candidates for MS in New Professional Studies (organizational learning) make presentations to class and faculty on research practica. Theme of module is communication, collaboration, and interaction in organizations. After initial one-and-a-half day workshop, MNPS candidates meet with all faculty once a month to give talks and presentations on application of ideas in their organizations, discuss issues in organizational learning, and provide feedback about using collaborative computing technology in learning process.

Equivalent to ODKM 740
Notes: Only for MNPS in organizational learning degree candidates.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

Master of New Professional Studies-Teaching (MNPE)

Offered by the College of Education and Human Development

MNPE 700 - The New Professionalism: Theory and Practice

Credits: 3
Not Repeatable

Explores the philosophical and pedagogical assumptions of teachers as individuals and professionals. Critiques educational issues such as accountability, institutional structures, and professional roles engage teachers to be more just and responsive in their relationships with students, families, and colleagues. Provides a deeper understanding of a teacher's participatory and ethical role in a democracy, which includes questioning the status quo.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MNPE 702 - The New Professional as a Reflective Practitioner

Credits: 3
Not Repeatable

Explores the central questions of epistemology to encourage depth of understanding of the assumptions and issues of education. Uses reflection to consider how personal and professional identities are influenced by intentions and commitments to learning and teaching. Provides an understanding of the processes of critical inquiry, dialogue, reflection, and action.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MNPE 703 - Technology and Learning in the New Professions

Credits: 3
Not Repeatable
Supports effective technology integration for teaching and learning by constructive knowledge not just of content, technology and pedagogy, but also of their mutually reinforcing relationships. Develops repertoire of technology-mediated learning approaches with appropriate context specific strategies and representations to support learning. Includes concurrent critique of technology and includes equal access to information, critical web literacy, and privacy issues.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**MNPE 704 - Research Methodologies in the New Professionalism**

Credits: 3
Not Repeatable

Introduces teacher research in a school setting. Supports intentional, systematic, public, ethical, and contextual inquiry into practice; participants form and frame salient questions, take actions to transform curriculum, gather, analyze and interpret multiple forms of data, and share experience in communities of practice.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**Mathematical Sciences (MATH)**

Offered by the College of Science.

Knowledge of high school algebra is a prerequisite for all mathematics courses. In exceptional cases, the prerequisite for a course above the calculus sequence may be waived at the discretion of instructor. Additionally, see Information on Undergraduate Mathematics Courses.

*Prior knowledge of linear algebra and single and multivariable calculus assumed in all math graduate courses. A double number separated by a comma (MATH 555, 556) indicates both graduate courses normally constitute a sequence, and the first semester is prerequisite to the second. The prerequisite may be waived by permission of department chair. See also STAT and OR courses.*

**MATH 104 - Trigonometry and Transcendental Functions**

Credits: 2
Not Repeatable

Exponential and logarithmic functions, trigonometric functions, and analytic trigonometry. This course does not satisfy the university's quantitative reasoning requirement. May not be taken for credit after receiving a C or better in MATH 105 or in any MATH course numbered 113 or higher. May not take MATH 105 for credit after receiving a C or better in MATH 104.

Prerequisite(s): Specified score on math placement test. Prerequisite enforced by registration system.

Notes: May not be used as credit toward BA or BS in mathematical sciences.
MATH 105 - Precalculus Mathematics

Credits: 4
Not Repeatable
Reviews mathematics skills essential to studying calculus. Topics include equations, inequalities, absolute values, graphs, functions, exponential and logarithmic functions, and trigonometry.

Prerequisite(s): Appropriate score on the math placement test or successful completion of the algebra tutorial program offered through the Math Literacy Center. Prerequisite enforced by registration system.

Notes: Call Mathematical Sciences Department at 703-993-1460 for details. May not be used as credit toward BA or BS in mathematical sciences. This course does not satisfy the university's quantitative reasoning requirement for the BA degree. May not be taken for credit after receiving grade of C or better in any MATH course numbered 113 or higher.

MATH 106 - Quantitative Reasoning

Credits: 3
Not Repeatable
Quantitative skills for real world. Topics include critical thinking, modeling by functions, graphs, growth, scaling, probability, and statistics.

Fulfills Mason Core requirement in quantitative reasoning.

MATH 108 - Introductory Calculus with Business Applications

Credits: 3
Not Repeatable
Functions, limits, derivative, and integral. Applications of differentiation and integration.

Fulfills Mason Core requirement in quantitative reasoning.

Prerequisite(s): A passing score on the Mathematics Placement Test or C or better in MATH 105 or MATH 112. Prerequisite enforced by registration system.

Notes: Call Mathematical Sciences Department at 703-993-1460 for details. Students who have received credit for MATH 113 or 114 may not receive credit for this course.
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 110 - Introductory Probability

Credits: 3
Not Repeatable
Elementary set theory, probability, and statistics.

Fulfills Mason Core requirement in quantitative reasoning.

Prerequisite(s): Specified score on Math Placement Test, or successful completion of self-paced Basic Math Program offered by Math Literacy Center. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 111 - Linear Mathematical Modeling

Credits: 3
Not Repeatable
Matrix algebra, systems of linear equations, Markov chains, difference equations, and data fitting.

Fulfills Mason Core requirement in quantitative reasoning.

Prerequisite(s): Specified score on Math Placement Test, or successful completion of self-paced Basic Math Program offered by Math Literacy Center. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 112 - Discrete Mathematics for IT

Credits: 3
Not Repeatable
Introduces ideas of discrete mathematics including mathematical induction, sets, logic, graphs, trees, basic counting arguments, and discrete probability. Students who have received credit for MATH 125 may not receive credit for this course.

Prerequisite(s): Score of 13 or better on the MPA2, or Grade of 'C' or better in MATH 105, or Grade of 'C' or better in MATH 108, or Grade of 'C' or better in MATH 113. Prerequisite enforced by registration system.

Notes: Intended for IT students; does not count toward a major or minor in mathematics.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MATH 113 - Analytic Geometry and Calculus I

Credits: 4
Not Repeatable
Functions, limits, the derivative, maximum and minimum problems, the integral, and transcendental functions.

Fulfills Mason Core requirement in quantitative reasoning.

Prerequisite(s): C or better in MATH 104 or MATH 105 or specified score on math placement test. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 1

MATH 114 - Analytic Geometry and Calculus II

Credits: 4
Not Repeatable
Methods of integration, conic sections, parametric equations, infinite series, and power series.

Prerequisite(s): C or better in MATH 113 or in both MATH 123 and 124. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 1

MATH 115 - Analytic Geometry and Calculus I (Honors)

Credits: 4
Not Repeatable
More challenging version of MATH 113. Functions, limits, the derivative, maximum and minimum problems, the integral, and transcendental functions.

Fulfills Mason Core requirement in quantitative reasoning.

Prerequisite(s): Permission of department. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 1

MATH 116 - Analytic Geometry and Calculus II (Honors)

Credits: 4
Not Repeatable
More challenging version of MATH 114. Methods of integration, conic sections, parametric equations, infinite series, and power series.
**Prerequisite(s):** Successful completion of MATH 115, or grade of A in MATH 113 and recommendation of MATH 113 instructor. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 4  
**Hours of Lab or Studio per week:** 1

**MATH 123 - Calculus with Algebra/Trigonometry, Part A**

Credits: 3  
Not Repeatable  
Math 123, with 124 is a two semester sequence for students with limited math background who desire careers in the sciences. In two semesters, students progress from algebra through the basic calculus covered in Math 113. Math 123 integrates the beginnings of calculus through the derivative with relevant precalculus algebra and trigonometry.

**Prerequisite(s):** C or better in MATH 104 or 105 or specified score on the math placement test. Prerequisite enforced by registration system.

**Notes:** Students who successfully complete Math 123-124 are considered the same as having successfully completed MATH 113 and can sign up for Math 114, Calculus II.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**MATH 124 - Calculus with Algebra/Trigonometry, Part B**

Credits: 3  
Not Repeatable  
Math 123, with 124 is a two semester sequence for students with limited math background who desire careers in the sciences. In two semesters, students progress from algebra through the basic calculus covered in Math 113. Math 124 will review basic differentiation and applications and then proceed to cover integration including transcendental functions.

**Prerequisite(s):** Grade of C or better in MATH 123. Prerequisite enforced by registration system.

**Notes:** Students who successfully complete Math 123-124 are considered the same as having successfully completed MATH 113 and can sign up for Math 114, Calculus II.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**MATH 125 - Discrete Mathematics I**

Credits: 3  
Not Repeatable  
Introduces ideas of discrete mathematics and combinatorial proof techniques including mathematical induction, sets, graphs, trees, recursion, and enumeration.
Fulfills Mason Core requirement in quantitative reasoning.

**Prerequisite(s):** Score of 13 or better on the Math Placement Test, or Grade of 'C' or better in MATH 105, or Grade of 'C' or better in MATH 108, or Grade of 'C' or better in MATH 113. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MATH 203 - Linear Algebra

Credits: 3  
Not Repeatable  
Systems of linear equations, linear independence, linear transformations, inverse of a matrix, determinants, vector spaces, eigenvalues, eigenvectors, and orthogonalization.

**Prerequisite(s):** C or better in MATH 114 or MATH 116. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MATH 213 - Analytic Geometry and Calculus III

Credits: 3  
Not Repeatable  
Partial differentiation, multiple integrals, line and surface integrals, and three-dimensional analytic geometry.

**Prerequisite(s):** C or better in MATH 114 or MATH 116. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MATH 214 - Elementary Differential Equations

Credits: 3  
Not Repeatable  
First-order ODEs, higher-order ODEs, Laplace transforms, linear systems, nonlinear systems, numerical approximations, and modeling.

**Prerequisite(s):** Grade of C or better in MATH 213 or 215. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MATH 215 - Analytic Geometry and Calculus III (Honors)
Vectors and vector-valued functions, partial differentiation, multiple integrals, line integrals, surface integrals, and transformation of coordinates.

**Prerequisite(s):** Grade of ’C’ or better in MATH 114 or MATH 116. Prerequisite enforced by registration system.

**MATH 216 - Theory of Differential Equations**

Credits: 3  
Not Repeatable  
First- and second-order equations, existence uniqueness of solutions, systems of differential equations, and phase plane analysis.

**Prerequisite(s):** Grade of C or better in MATH 203 and 213 or 215. Prerequisite enforced by registration system.

**MATH 271 - Mathematics for the Elementary School Teachers I**

Credits: 3  
Not Repeatable  
Concepts and theories underlying elementary school mathematics including problem solving, patterns, sequences, set theory, numeration, number sense, operations and properties of integers, whole, rational, irrational and real numbers, number theory, ratio, proportion, percent and mathematical systems.

**Prerequisite(s):** Grade of C or better in 3 credits of college math.

**Notes:** Does not count toward major in mathematics.

**MATH 272 - Mathematics for the Elementary School Teachers II**

Credits: 3  
Not Repeatable  
Continuation of MATH 271. Concepts and theories underlying elementary school mathematics including functions, algebra, geometry, statistics, and probability.

**Prerequisite(s):** Grade of C or better in MATH 271 or permission of instructor. Prerequisite enforced by registration system.

**Notes:** Intended for school educators; does not count toward major in mathematics.
MATH 290 - Introduction to Advanced Mathematics

Credits: 3  
Not Repeatable  
Introduction to proofs and the language of mathematics. Topics include induction, equivalence relations, cardinality and basic properties of the real numbers. Designated as a writing intensive course for mathematics majors.

Fulfills writing intensive requirement in the major.

Prerequisite(s): C or better in MATH 114 or MATH 116. Prerequisite enforced by registration system.

Notes: Primarily intended for mathematics majors.

MATH 301 - Number Theory

Credits: 3  
Not Repeatable  
Prime numbers, factorization, congruences, and Diophantine equations.

Prerequisite(s): 6 math credits.

MATH 302 - Foundations of Geometry

Credits: 3  
Not Repeatable  
Fundamental concepts of incidence. Axioms of Euclidean geometry and the resulting theory, and axioms and development of non-Euclidean and projective geometry.

Prerequisite(s): 6 math credits.

MATH 307 - Mathematical Modeling
Focuses on the development and analysis of mathematical models that make qualitative and quantitative predictions. Students will address particular situations while learning general modeling strategies.

**Prerequisite(s):** Grade of 'C' or better in MATH 203, and Grade of 'C' or better in either MATH 214 or MATH 216. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring.

### MATH 312 - Geometry

Credits: 3  
Not Repeatable

Two and three dimensional analytic geometry, complex geometry, projective geometry, conics and quadric surfaces, spherical geometry, quaternions, Euclidean and non-Euclidean geometry. This course meets the requirement for secondary school teacher certification.

**Prerequisite(s):** Grade of 'C' or higher in MATH 114 or MATH 116. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### MATH 313 - Introduction to Applied Analysis

Credits: 3  
Not Repeatable

Vector differential calculus, vector integral calculus, and complex analysis.

**Prerequisite(s):** Grade of C or better in MATH 213 or 215. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MATH 314 - Introduction to Applied Mathematics

Credits: 3  
Not Repeatable

**Prerequisite(s):** Grade of C or better in MATH 214 or 216. Prerequisite enforced by registration system.
MATH 315 - Advanced Calculus I

Credits: 3  
Not Repeatable  
Number system, functions, sequences, limits, continuity, differentiation, integration, transcendental functions, and infinite series.

Prerequisite(s): Grade of ‘C’ or better in MATH 213 or MATH 215, and grade of ‘C’ or better in MATH 290. Prerequisite enforced by registration system.

MATH 316 - Advanced Calculus II

Credits: 3  
Not Repeatable  
Sequences of functions, Taylor series, vectors, functions of several variables, implicit functions, multiple integrals, and surface integrals.

Prerequisite(s): Grade of C or better in MATH 315. Prerequisite enforced by registration system.

MATH 321 - Abstract Algebra

Credits: 3  
Not Repeatable  
Theory of groups, rings, fields.

Prerequisite(s): Grade of ‘C’ or better in MATH 213 or MATH 215, and grade of ‘C’ or better in MATH 290. Prerequisite enforced by registration system.

MATH 322 - Advanced Linear Algebra

Credits: 3  
Not Repeatable  
Abstract vector spaces, linear independence, bases, linear transformations, matrix algebra, inner product, and special topics.
**Prerequisite(s):** Grade of ‘C’ or better in MATH 203, and grade of ‘C’ or better in MATH 290. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MATH 325 - Discrete Mathematics II**

Credits: 3  
Not Repeatable  
Advanced counting, binomial identities, generating functions, advanced recurrence, inclusion-exclusion, and network flows.

**Prerequisite(s):** Grade of C or better in MATH 125. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MATH 351 - Probability**

Credits: 3  
Not Repeatable  
Random variables, probability functions, special distributions, and limit theorems.

**Prerequisite(s):** Grade of C or better in MATH 213 or 215. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MATH 352 - Statistics**

Credits: 3  
Not Repeatable  
Estimation, decision theory, testing hypothesis, correlation, linear models, and design.

**Prerequisite(s):** Grade of C or better in MATH 351. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MATH 400 - History of Math**

Credits: 3  
Not Repeatable
Explores internal controversies and dynamics of mathematics in larger intellectual and social settings. Topics vary but might include differential equations devised for mechanics and astronomy by Euler, Lagrange, and Laplace; foundation of mathematical analysis from Cauchy to Weierstrass; algebras of Galois and Boole; or creation of non-Euclidean geometry and Cantor's transfinite sets.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** Completion or concurrent enrollment in all other required Mason Core courses, and completion of MATH 290. Prerequisite enforced by registration system.

**Notes:** Credits may not be used toward "upper division" math hours required of math majors.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MATH 405 - Honors Thesis in Mathematics I**

Credits: 3  
Not Repeatable  
A project, which is intended to result in a thesis, is to be chosen and completed under the guidance of a full-time faculty member. An oral presentation is required for MATH 405.

**Prerequisite(s):** MATH 315, 3 additional credits of MATH above the 300 level (excluding MATH 400), and admission to the Mathematics Honors Program.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MATH 406 - Honors Thesis in Mathematics II**

Credits: 3  
Not Repeatable  
A project, which is intended to result in a thesis, is to be chosen and completed under the guidance of a full-time faculty member. Oral and written presentations are required in MATH 406.

**Prerequisite(s):** MATH 405 Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MATH 411 - Functions of a Complex Variable**

Credits: 3  
Not Repeatable  
Analytic functions, contour integration, residues, and applications to such topics as integral transforms, generalized functions, and boundary value problems.
Prerequisite(s): Grade of C or better in MATH 214 or 216. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 413 - Modern Applied Mathematics I

Credits: 3
Not Repeatable

Prerequisite(s): Grade of C or better in MATH 203 and 214 or 216. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 414 - Modern Applied Mathematics II

Credits: 3
Not Repeatable
Continuation of MATH 413, which involves synthesis of pure mathematics and computational mathematics. Fourier analysis and its role in applied mathematics developed (differential equations and approximations). Discrete aspects emphasized in computational models.

Prerequisite(s): Grade of C or better in MATH 413. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 431 - Topology

Credits: 3
Not Repeatable
Metric spaces, topological spaces, compactness, and connectedness.

Prerequisite(s): C or better in MATH 315. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 441 - Deterministic Operations Research
Credits: 3
Not Repeatable

**Prerequisite(s):** Grade of C or better in MATH 203. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**MATH 442 - Stochastic Operations Research**

Credits: 3
Not Repeatable

Equivalent to OR 442

**Prerequisite(s):** Grade of C or better in MATH 351. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**MATH 446 - Numerical Analysis I**

Credits: 3
Not Repeatable
Significant figures, round-off errors, iterative methods of solution of nonlinear equations of a single variable, solutions of linear systems, iterative techniques in matrix algebra, interpolation and polynomial approximation.

**Prerequisite(s):** Grade of C or better in MATH 203 and CS 112. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**MATH 447 - Numerical Analysis II**

Credits: 3
Not Repeatable

**Prerequisite(s):** Grade of C or better in Math 214 or 216 and 446. Prerequisite enforced by registration system.
MATH 453 - Advanced Mathematical Statistics

Credits: 3
Not Repeatable
Maximum likelihood tests, sufficiency, most powerful tests, distributions of quadratic forms, topics from nonparametric statistics, Bayesian statistics and linear models.

Prerequisite(s): Grade of 'C' or better in MATH 352. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall.

MATH 478 - Introduction to Partial Differential Equations with Numerical Methods

Credits: 3
Not Repeatable
Introduces basic facts about partial differential equations, including elliptic equations, parabolic equations and hyperbolic equations. Methods of solution, characteristics, initial/boundary-value problems, and numerical approximation techniques.

Prerequisite(s): C or better in MATH 203 and 214 or 216. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 491 - Reading and Problems

Credits: 1-3
Repeatable within Term
For mathematical sciences majors only. Independent study in math.

Notes: Must be arranged with instructor before registering.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

MATH 493 - Topics in Applicable Mathematics

Credits: 3
Repeatable within Term
Topics that have been successfully used in applications of mathematics.
Prerequisite(s): 6 credits of math at or above 310 level.

Notes: Subject determined by instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 494 - Topics in Pure Mathematics

Credits: 3
Repeatable within Term
Topics of pure math not covered in other courses. Topics might include Galois theory, cardinal and ordinal arithmetic, measure theory, mathematical logic, and differential geometry.

Prerequisite(s): 6 credits of math at or above 310 level.

Notes: Subject determined by instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 495 - Undergraduate Seminar

Credits: 1
Repeatable within Degree
Prerequisite(s): Permission of instructor.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

MATH 551 - Regression and Time Series

Credits: 3
Not Repeatable
Mathematics of regression, exponential smoothing, time series, and forecasting. Material included in this course constitutes Society of Actuaries Validation by Educational Experience (VEE) for applied statistics and corresponds to part of Casualty Actuary Society Exam 3.

Prerequisite(s): MATH 352, STAT 652, SOA Exam P, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MATH 554 - Financial Mathematics

Credits: 3  
Not Repeatable  
Simple and compound interest, annuities, present and future value, yield rates, capital budgeting, amortization schedules, mortgages, bonds. Material corresponds to the Society of Actuaries Exam: Financial Mathematics (FM). Not appropriate for graduate science and engineering majors not considering actuarial or financial career. Cannot be counted toward MS or PhD degree in mathematics.

Prerequisite(s): MATH 113

Corequisite(s): MATH 114

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MATH 555 - Actuarial Modeling I

Credits: 3  
Not Repeatable  
Two-semester sequence covering portions of the material corresponding to the Society of Actuaries Exam M, Casualty Actuary Society Exam 3, and Joint Board Exam EA1. The remaining material for these exams is covered in MATH 551 and 653. Topics include survival distribution and life tables, life insurance, life annuities, net premiums, net premium reserves, multiple life and multiple decrement models, pensions, insurance models including expense, and nonforfeiture benefits and cash values.

Prerequisite(s): MATH 554 and either MATH 351 or STAT 344.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MATH 556 - Actuarial Modeling II

Credits: 3  
Not Repeatable  
Two-semester sequence covering portions of the material corresponding to the Society of Actuaries Exam M, Casualty Actuary Society Exam 3, and Joint Board Exam EA1. The remaining material for these exams is covered in MATH 551 and 653. Topics include survival distribution and life tables, life insurance, life annuities, net premiums, net premium reserves, multiple life and multiple decrement models, pensions, insurance models including expense, and nonforfeiture benefits and cash values.

Prerequisite(s): MATH 554 and either MATH 351 or STAT 344.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MATH 557 - Financial Derivatives

Prerequisite(s): MATH 554 and either MATH 351 or STAT 344, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**MATH 600 - Special Topics in Mathematics**

Credits: 1-6
Repeatable within Term
Mathematical workshops, special courses, or other projects.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

**MATH 601 - Analysis I for Teachers**

Credits: 3
Not Repeatable
Develops continuous ideas of calculus with particular emphasis on concepts as opposed to computational aspects of calculus. Specific topics include decimal representation of real numbers, sequences, series, and limits; differentiation to find speed, slopes of curves, and tangents; integration to find volumes and distances and area under curves. Optimization problems including maximization of area and volume, and modeling of these concepts. Graphing techniques supported by theory of calculus and graphing utilities such as TI-83 calculator or computer software such as Maple.

Prerequisite(s): Open to in-service teachers of mathematics at middle or secondary level. Others may enroll with permission of instructor.

Notes: Background in mathematics desirable but not necessary. Some topics from college algebra will be reviewed in class, but thorough understanding of high school algebra and trigonometry expected.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

**MATH 602 - Analysis II for Teachers**

Credits: 3
Not Repeatable
Develops continuous ideas of calculus with particular emphasis on concepts as opposed to computational aspects of calculus. Specific topics include decimal representation of real numbers, sequences, series, and limits; differentiation to find speed, slopes of curves, and tangents; integration to find volumes and distances and area under curves. Optimization problems including
maximization of area and volume, and modeling of these concepts. Graphing techniques supported by theory of calculus and graphing utilities such as TI-83 calculator or computer software such as Maple.

**Prerequisite(s):** Open to in-service teachers of mathematics at middle or secondary level. Others may enroll with permission of instructor.

**Notes:** Background in mathematics desirable but not necessary. Some topics from college algebra will be reviewed in class, but thorough understanding of high school algebra and trigonometry expected.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 1

---

**MATH 604 - Geometry for Teachers**

Credits: 3  
Not Repeatable  
Covers standard topics from Euclidean geometry, and includes discussion of non-Euclidean geometries. Emphasizes informal and explorative approach to geometry, and makes use of geometry sketchpad. Other topics include geometric constructions, and role of proof in geometry.

**Prerequisite(s):** Open to in-service teachers of mathematics at middle or secondary level. Others may enroll with permission of instructor.

**Notes:** Background in mathematics desirable but not necessary.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 1

---

**MATH 605 - Discrete/Finite Mathematics for Teachers**

Credits: 3  
Not Repeatable  
Thorough understanding of high school algebra assumed. Discusses finite mathematics in juxtaposition to continuous ideas of calculus. Topics may consist of elementary counting and combinatorics including recursion and difference equations and their analogy to calculus; thorough discussion of probability and central measures of statistics; and graph theory and its connection to geometry.

**Prerequisite(s):** Open to in-service teachers of mathematics at middle or secondary level. Others may enroll with permission of instructor.

**Notes:** Background in mathematics desirable but not necessary.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 1

---

**MATH 607 - Algebraic Structure for Teachers**
Credits: 3  
Not Repeatable  
Expands on customary operations on integers and rationals to discuss systems that mimic these operations. Emphasizes multiplicative and additive inverses and their corresponding identities as they occur in other systems. Topics might include permutation groups, rigid transformations, groups of symmetry of the plane and connection to geometry, and matrices treated as linear transformations and connections to solutions of systems of equations.  

**Prerequisite(s):** Open to in-service teachers of mathematics at middle school level. Others may enroll with permission of instructor.  

**Notes:** Background in mathematics desirable but not necessary. Thorough understanding of high school algebra assumed.  

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 1

**MATH 608 - Problem Solving in Mathematics**

Credits: 3  
Not Repeatable  
Introduces variety of challenging mathematical problems appropriate for middle school student to analyze, and solving problems using mathematics learned in previous courses. Also asks students to search for such problems and orally present solutions.  

**Prerequisite(s):** Open to in-service teachers of mathematics at middle school level. Others may enroll with permission of instructor.  

**Notes:** Background in mathematics or science desirable but not necessary. Assumes exposure to most of topics covered in MATH 601, 604, 605, and 607.  

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 1

**MATH 610 - Number Systems and Number Theory for K-8 Teachers**

Credits: 3  
Not Repeatable  
This course covers the topics: ways of representing numbers, relationships between numbers, number systems, the meanings of operations and how they relate to one another, and computation within the number system as a foundation for algebra. It also includes episodes in history and development of the number system, and will examine the developmental sequence and learning trajectory as children learn this material.  

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MATH 611 - Geometry and Measurement for K-8 Teachers**

Credits: 3  
Not Repeatable
The course explores the foundations of informal measurement and geometry in one, two, and three dimensions. The van Hiele model for geometric learning is used as a framework for how children build their understanding of length, area, volume, angles, and geometric relationships. Visualization, spatial reasoning, and geometric modeling are stressed. As appropriate, transformational geometry, congruence, similarity, and geometric constructions will be discussed.

**MATH 612 - Probability and Statistics for K-8 Teachers**

Credits: 3  
Not Repeatable  
An introduction to probability, descriptive statistics, and data analysis. Topics studied will include the exploration of randomness, data representation, modeling. Descriptive statistics will include measures of central tendency, dispersion, distributions, and regression. The analysis of experiments requiring hypothesizing, experimental design and data gathering will also be discussed.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MATH 613 - Algebra and Functions for K-8 Teachers**

Credits: 3  
Not Repeatable  
The course will examine representing and analyzing mathematical situations and structures using generalization and algebraic symbols and reasoning. Attention will be given to the transition from arithmetic to algebra, working with quantitative change, and the description of and prediction of change.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MATH 614 - Rational Numbers and Proportional Reasoning for K-8 Teachers**

Credits: 3  
Not Repeatable  
This course will cover the basic number strands in fractions and rational numbers, decimals and percents, and ratios and proportions in the school curriculum. Instruction will cover interpretations, computations, and estimation with a coordinated program of activities that develop both rational number concepts and skills and proportional reasoning.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MATH 619 - Topics in Mathematical Logic**
Repeatable within Term
Special topics in foundations of mathematics not included in regular mathematics curriculum. May be repeated for credit.

**Prerequisite(s):** Permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MATH 621 - Algebra I**

Credits: 3  
Not Repeatable

Groups, linear algebra, and matrix groups.

**Prerequisite(s):** Familiarity with basic properties of groups and rings, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MATH 624 - Euclidean Geometry**

Credits: 3  
Not Repeatable

Euclidean space, geometry of k-dimensional planes, the affine structure of Euclidean space, rigid motions and similarities, parallelotopes and volumes, convex polytopes, quadric surfaces, and additional topics by instructor's choice.

**Prerequisite(s):** MATH 315 and MATH 322, or equivalent.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MATH 625 - Numerical Linear Algebra**

Credits: 3  
Not Repeatable

Theory and development of numerical algorithms for solving variety of matrix problems: linear systems, least squares problems, eigenvalue problems, and singular value decomposition. Direct and iterative method, analysis of sensitivity to rounding errors, and applications.

Equivalent to CSI 740

**Prerequisite(s):** Computer literacy, including some programming experience.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
MATH 629 - Topics in Algebra

Credits: 3
Repeatable within Term
Special topics in pure and applied algebra not covered in regular algebra. May be repeated for credit.

Prerequisite(s): Permission of instructor.

Notes: Topic may not be repeated.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 631 - Topology I: Topology of Metric Spaces

Credits: 3
Not Repeatable
Covers definition and basic examples of metric spaces, open and closed sets, subspaces and finite products, sequences and convergence, compactness and separability, continuous functions, uniform continuity, metric space $C(X)$ and uniform convergence, and homotopy.

Prerequisite(s): MATH 315 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 639 - Topics in Geometry and Topology

Credits: 3
Repeatable within Degree
Special topics in geometry and topology not covered in regular geometry and topology sequence. May be repeated for credit.

Prerequisite(s): Permission of instructor.

Notes: Topic may not be repeated.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MATH 641 - Combinatorics and Graph Theory

Credits: 3
Not Repeatable
Covers enumerative combinatorics, including partially ordered sets; Moebius inversion and generating functions; and major topics in graph theory such as graph coloring, Ramsey theory, and matching.

**Prerequisite(s):** MATH 321 or equivalent.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MATH 644 - Convex and Discrete Geometry**

Credits: 3  
Not Repeatable  
Basic properties of Euclidean space, convex sets and convex cones, convex hulls, extremal structure of convex sets, support and separation properties, polyhedra and polytopes, special classes of convex sets, Helly-type theorems, selected problems of discrete geometry.

**Prerequisite(s):** MATH 315 and MATH 322, or equivalent.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MATH 649 - Topics in Combinatorics**

Credits: 3  
Repeatable within Term  
Special topics in combinatorics not covered in regular combinatorics sequence. May be repeated for credit.

**Prerequisite(s):** Permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**MATH 653 - Construction and Evaluation of Actuarial Models I**

Credits: 3  
Not Repeatable  
Economics of insurance, individual risk models for short term, collective risk models for single period, collective risk models over an extended period, and applications of risk theory. Material included in this course corresponds to portions of the Society of Actuaries Exam M and Casualty Actuary Society Exam 3. The remaining material for these exams is covered in MATH 551, 555, and 556.

**Prerequisite(s):** MATH 351 or STAT 644 are required. MATH 555 is recommended but not required.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
MATH 654 - Construction and Evaluation of Actuarial Models II

Credits: 3
Not Repeatable
Nature and properties of survival and loss models, methods of estimates from complete and incomplete data, tabular and parametric models, and practical issues in survival model estimation. Material included in this course corresponds to most of the Society of Actuaries Exam C and Casualty Actuary Society Exam 4.

Prerequisite(s): MATH 556 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 655 - Pension Valuation

Credits: 3
Not Repeatable
Basic mathematics used in pension actuarial work without regard to pension law. Material included in this course corresponds to all of the Joint Board Exam EA-2A and portions of the Society of Actuaries Exam 8. This course cannot be counted toward the MS or PhD degree in mathematics.

Prerequisite(s): MATH 556, SOA Exam EA-1, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 661 - Complex Analysis I

Credits: 3
Not Repeatable
Topology of complex numbers, holomorphic functions, series, complex integration. Meromorphic, multivalued, and elliptic functions.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 671 - Fourier Analysis

Credits: 3
Not Repeatable
Study of fundamental ideas in Fourier analysis. Topics include orthonormal systems, Fourier series, continuous and discrete Fourier transform theory, generalized functions, and introduction to spectral analysis. Uses applications to physical sciences, linear systems theory, and signal processing to integrate topics.
MATH 673 - Dynamical Systems

Credits: 3
Not Repeatable
Contemporary topics in nonlinear dynamical systems illustrated in mathematical models from physics, ecology, and population dynamics. Traditional qualitative analysis of difference and differential equations provides background for understanding chaotic behavior when it occurs in these models. Topics include stability theory, fractals, Lyapunov exponents, and chaotic attractors.

Prerequisite(s): Elementary courses in linear algebra and differential equations.

MATH 674 - Stochastic Differential Equations

Credits: 3
Not Repeatable
Introduces stochastic calculus and differential equations. Includes Wiener process, Ito and Stratonovich integrals, Ito formula, martingales, diffusions, and applications, including financial applications. Simulations and numerical approximations of solutions.

Prerequisite(s): MATH 214 and 351

MATH 675 - Linear Analysis

Credits: 3
Not Repeatable
Metric spaces, normed linear spaces, completeness, compactness, continuous (bounded) linear transformations, Banach spaces, Hilbert spaces, and orthogonal series.

Prerequisite(s): MATH 315 and MATH 322, or equivalent.

MATH 677 - Ordinary Differential Equations
Qualitative and quantitative theory of ordinary differential equations. Phase portrait analysis of linear and nonlinear systems, including classification of stable and unstable equilibrium states and periodic orbits. Poincare-Bendixson theorem, Lyapunov stability and Lyapunov functions, and bifurcation theory. Optional topics include averaging and perturbation methods, numerical solution techniques, and chaos.

**Prerequisite(s):** MATH 214 or equivalent.

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**MATH 678 - Partial Differential Equations**

Credits: 3
Not Repeatable
Physical examples, characteristics, boundary value problems, integral transforms, and other topics, such as variational, perturbation, and asymptotic methods.

**Prerequisite(s):** Elementary differential equations course.

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**MATH 679 - Topics in Analysis and Potential Theory**

Credits: 3
Repeatable within Term
Special topics not covered in regular analysis or potential theory sequence. May be repeated for credit.

**Notes:** Topic may not be repeated.

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**MATH 680 - Industrial Mathematics**

Credits: 3
Not Repeatable
Takes examples from industry and goes through complete solution process: formulation of mathematical model of problem; solution, possibly by numerical approximation; and interpretation and presentation of results. Emphasizes working in groups, relating mathematics to concrete situations, and communication and presentation skills.

**Prerequisite(s):** Permission of instructor.

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0
MATH 683 - Modern Optimization Theory

Credits: 3
Not Repeatable
Introduces basic mathematical ideas and methods for solving linear and nonlinear programming problems, with emphasis on mathematical aspects of optimization theory. Reviews classical topics of linear programming, and covers recent developments in linear programming, including interior point method. Considers basic results in nonlinear programming, including very recent developments in this field.

Prerequisite(s): Permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 685 - Numerical Methods

Credits: 3
Not Repeatable
Computational techniques for solving problems arising in science and engineering. Includes theoretical development as well as implementation, efficiency, and accuracy issues in using algorithms and interpreting results. Specific topics include linear and nonlinear systems of equations, polynomial interpolation, numerical integration, and introduction to numerical solution of differential equations.

Equivalent to CSI 700

Prerequisite(s): Computer literacy, including some programming experience.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 686 - Numerical Solutions of Differential Equations

Credits: 3
Not Repeatable
Finite difference methods for initial value problems, two-point boundary value problems, Poisson equation, heat equation, and first-order partial differential equations.

Prerequisite(s): MATH 214 and MATH 446 or 685.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 687 - Variational Methods
Weak formulation of partial differential equations, energy principles, Galerkin approximations, and finite element methods. Includes review and development of necessary analysis.

**Prerequisite(s):** MATH 446 or 685, and elementary differential equations course.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MATH 689 - Topics in Applied and Computational Mathematics

Credits: 3  
Repeatable within Term  
Special topics in applied and computational mathematics not covered in the regular applied and computational mathematics sequence. May be repeated for credit.

**Prerequisite(s):** Permission of instructor.

**Notes:** Topic may not be repeated.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MATH 697 - Independent Reading and Research

Credits: 1-6  
Repeatable within Term  
In areas of importance, but with insufficient demand to justify a regular course, students may undertake a course of study under the supervision of a consenting faculty member. Written statement of the content of the course and a tentative reading list is normally submitted as part of the request for approval. Literature review, project report, or other written product is normally required. May be repeated for credit.

**Prerequisite(s):** Graduate standing and permission of instructor.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0

### MATH 721 - Algebra II

Credits: 3  
Not Repeatable  
Rings, fields, and Galois theory.

**Prerequisite(s):** MATH 621.
MATH 722 - Algebraic Topology

Credits: 3
Not Repeatable
Covers simplices and simplicial complexes, cycles and boundaries, simplicial homology, homological algebra, homotopy and the fundamental group, cohomology.

Prerequisite(s): MATH 621 and 631, or equivalent.

MATH 723 - Combinatorial Structures

Credits: 3
Not Repeatable
Studies structural properties of objects encountered in pure and applied combinatorics. Topics include partially ordered sets, codes, designs, matroids, buildings, symmetrical structures, permutation groups, and face lattices of polytopes.

Prerequisite(s): MATH 321 or equivalent.

MATH 724 - Commutative Algebra

Credits: 3
Not Repeatable
Study of commutative rings and their ideals, and of modules over commutative rings and their homological properties. More specific topics include Noetherian rings, primary decomposition, completions, graded rings and dimension theory with applications to algebraic geometry.

Prerequisite(s): MATH 621.

MATH 732 - Topology II: Set-Theoretic Topology

Credits: 3
Not Repeatable
Topics include review of basic set theory (including cardinal numbers, products of sets, the Axiom of Choice), definition of topological spaces, bases for topological spaces, forming new topological spaces by taking subspaces, quotients, and products, separation properties (Hausdorff, regular, Tychonoff, and normal spaces) compactness, the Lindelof property, separability, connectedness, continuity and homeomorphism, manifolds.

**Prerequisite(s):** MATH 631 or equivalent.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MATH 740 - Differential Topology

Credits: 3  
Not Repeatable  
Differential forms, manifolds, smooth maps, vector fields, the Euler characteristic, integration on manifolds, and de Rham cohomology.

**Prerequisite(s):** MATH 621 and Math 631, or equivalent.

**Notes:** MATH 740 will be an elective course acceptable (but not required) for the PhD Degree in the Mathematical Sciences offered by the Department of Mathematical Sciences.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### MATH 762 - Complex Analysis II

Credits: 3  
Not Repeatable  
Harmonic functions, generalizations of the maximum principle, entire and meromorphic functions, analytic continuation, and the Riemann mapping theorem.

**Prerequisite(s):** MATH 661.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MATH 763 - Functions of Several Complex Variables

Credits: 3  
Not Repeatable  
Covers the important results for analytic functions in several variables, including analyticity in several variables and the differences between the theory of one and the theory of several complex variables.

**Prerequisite(s):** MATH 661 and 762, or equivalent preparation in one complex variable.
MATH 772 - Wavelet Theory

Credits: 3
Not Repeatable
Study of the theory and computational aspects of wavelets and the wavelet transform. Emphasizes computational aspects of wavelets, defining the Fast Wavelet Transform in one and two dimensions. Developing the appropriate numerical algorithms. Includes developing the theory of wavelet bases on the real line, discussing multiresolution analysis, splines, time-frequency localization, and wavelet packets.

Equivalent to CSI 746

Prerequisite(s): MATH 315 or equivalent.

MATH 776 - Measure and Integration

Credits: 3
Not Repeatable
Lebesgue measure and integration. Theory of Lp spaces with p between one and infinity on the real line. Theory of linear operators on Banach spaces, including the Hahn-Banach theorem, open mapping theorem, closed graph theorem and the uniform boundedness principle.

Prerequisite(s): MATH 675.

MATH 781 - Advanced Methods in Applied Mathematics

Credits: 3
Not Repeatable
Bifurcation theory and perturbation methods for solutions in ordinary and partial differential equations. This course will develop and apply these mathematical tools in current scientific fields, such as biology, materials science, or financial mathematics.

Prerequisite(s): MATH 677 or permission of instructor.

MATH 784 - Nonlinear Functional Analysis
Techniques in nonlinear functional analysis with applications. Contraction mapping principle, Frechet and higher derivatives, the implicit function theorem, Lyapunov-Schmidt method, and bifurcation theory. Finite and infinite dimensional degree theory with applications in partial differential equations.

Prerequisite(s): MATH 675 or permission of instructor.

Notes: Different backgrounds may be appropriate, but generally, a student is expected to be an upper level graduate student who has already taken Linear Analysis. Since the applications given in the course are for differential equations, some familiarity with differential equations is extremely useful.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 790 - Classical Potential Theory

Credits: 3
Not Repeatable
Potential theory of Laplace's equation in Euclidean space. Harmonic functions, superharmonic functions, potentials, polar sets and capacity, the Dirichlet problem, the Martin boundary, boundary behavior of superharmonic functions using real variable techniques, and minimal fine limit techniques.

Prerequisite(s): Math 675 and 776

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 795 - Graduate Seminar

Credits: 1
Repeatable within Degree
Mandatory for all PhD students. Weekly seminar graded on presentations and attendance. Faculty presentations on potential thesis topics and presentations by students.

Prerequisite(s): Enrolled in the PhD program in Mathematics.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

MATH 799 - MS Thesis

Credits: 1-6
Repeatable within Degree
Original or compilatory work evaluated by committee of three faculty members.

Hours of Lecture or Seminar per week: 1-6
MATH 800 - Studies for the Doctor of Philosophy in Education

Credits: 1-6
Not Repeatable
Program of studies designed by student's discipline director and approved by student's doctoral committee, which brings the student to participate in current research of discipline director and results in paper reporting the original contributions of student. Enrollment may be repeated.

Prerequisite(s): Admission to PhD in education program to study in mathematical sciences.

MATH 998 - PhD Thesis Proposal

Credits: 1-9
Repeatable within Degree
Work on research proposal that forms basis for doctoral dissertation. May be repeated for credit. No more than 24 credit hours of 998 and 999 may be applied to doctoral degree requirements.

Prerequisite(s): Successful completion of qualifying exam.

MATH 999 - PhD Thesis Research

Credits: 1-12
Repeatable within Degree
Formal record of commitment to doctoral dissertation research under the direction of a faculty member. May be repeated for credit. No more than 24 credit hours of 998 and 999 may be applied to doctoral degree requirements.

Prerequisite(s): Advancement to doctoral candidacy.

Mechanical Engineering (ME)
Offered by the Volgenau School of Engineering.

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

**ME 151 - Practicum in Engineering**

Credits: 2  
Limited to 2 Attempts  
This course provides students with experiences in algorithmic thinking, visualization and communications. An essential component of this course is preparation of students for the National Academy of Engineering Grand Challenge Scholars Program.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 2  
**When Offered:** Spring

**ME 211 - Statics**

Credits: 3  
Limited to 2 Attempts  
An initial course in applied vector mechanics with emphasis on static equilibrium. Topics include forces, moments, couples, equivalent force-couple systems, centroids, distributed forces, and Coulomb friction. The application of the free body diagram in the analysis of static equilibrium of frames, machines and trusses is stressed.

**Prerequisite(s):** C or better in PHYS 160 and PHYS 161. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**ME 212 - Solid Mechanics**

Credits: 3  
Limited to 2 Attempts  
A first course in mechanics of deformable bodies with emphasis on the engineering approach to the responses of these bodies to various types of loadings. Topics include stress-strain relationships, stress-strain analysis, stress and strain transformation (Mohr's circle), load-deflection, bending, torsion, buckling, and thermal effects.

Equivalent to CEIE 310.

**Prerequisite(s):** C or better in ME 211. Prerequisite enforced by registration system.

**Corequisite(s):** MATH 214.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring
**ME 221 - Thermodynamics**

Credits: 3  
Limited to 2 Attempts  
A basic thermodynamics course in which the first and second laws of thermodynamics are studied primarily from the classical macroscopic viewpoint and applied to both closed and open systems. Working substances include perfect gases, real gases and vapors in addition to solids and liquids.

Equivalent to ENGR 307 (2013-2014 Catalog).

Corequisite(s): MATH 214.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

**ME 231 - Dynamics**

Credits: 3  
Limited to 2 Attempts  
A course in classical vector dynamics. Topics include vector algebra and calculus, kinematics and kinetics of particles and rigid bodies, as well as energy and momentum methods. Extensive problem solving involving particle and rigid body motion is required.

Prerequisite(s): C or better in ME 211. Prerequisite enforced by registration system.

Corequisite(s): MATH 214.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

**ME 311 - Mechanical Experimentation I**

Credits: 1  
Limited to 2 Attempts  
Experimental measurements in solid mechanics and materials science. Involves technical report writing.

Prerequisite(s): C or better in ME 212. Prerequisite enforced by registration system.

Corequisite(s): ME 313.

Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 3  
When Offered: Fall, Spring
ME 313 - Material Science

Credits: 3
Limited to 2 Attempts
An introductory course in physical and mechanical properties of engineering design materials, ceramics and plastics, their structures, use in engineering applications and failure phenomena.

Prerequisite(s): C or better in CHEM 251. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2
When Offered: Fall, Spring

ME 321 - Mechanical Experimentation II

Credits: 1
Limited to 2 Attempts
Experimental measurements in fluid mechanics and heat transfer. Involves technical report writing.

Prerequisite(s): C or better in ME 322. Prerequisite enforced by registration system.

Corequisite(s): ME 323.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

ME 322 - Fluid Mechanics

Credits: 3
Limited to 2 Attempts
An introductory course in fluid dynamics stressing both the integral and differential forms of the conservation laws of fluid flow. Engineering applications are made to hydrostatics and to ideal and real fluid flows.

Prerequisite(s): C or better in ME 221. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

ME 323 - Heat Transfer

Credits: 3
Limited to 2 Attempts
Study of thermal radiation, steady and transient conduction, laminar and turbulent convection, internal and external flow, boundary layers and empirical correlations. Applications address fins, nuclear reactor cooling, heat exchangers and interactive
ME 341 - Design of Mechanical Elements

Credits: 3  
Limited to 2 Attempts  
Fundamentals of mechanical design. Introduction to the fundamentals of static and fatigue failure theories, design of basic machine elements such as fasteners, bearings, gearing and shafts. Builds on the fundamentals of design introduced in earlier courses by introducing the concepts of customer requirements, specification development, reverse engineering, functional decomposition, and design for manufacturing.

Prerequisite(s): C or better in ME 212. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

ME 342 - Design of Thermal Systems

Credits: 3  
Limited to 2 Attempts  
A study of equipment which operates on principles of thermodynamics and fluid mechanics is used to reinforce analyses and design of gas and vapor power cycles, refrigeration and air conditioning, propulsion systems, combustion, energy conversion and compressible flow.

Prerequisite(s): C or better in ME 221. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

ME 351 - Analytical Methods in Engineering

Credits: 3  
Limited to 2 Attempts  
Survey of advanced mathematics topics needed in the study of engineering. Topics include vector differential and integral calculus, matrix analysis, partial differential equations, complex variables, numerical methods, data analysis using statistics and probability theory.

Prerequisite(s): C or better in MATH 214. Prerequisite enforced by registration system.
ME 352 - Entrepreneurship in Engineering

Credits: 3
Limited to 2 Attempts
Introduces students to the concept of entrepreneurship and how to translate technical skill sets to commercial success. Topics include creating a business plan, pitching ideas, risk mitigation, and selecting investment alternatives. Emerging technology related to Mechanical Engineering will be analyzed in this context.

Prerequisite(s): Completion of at least 15 credits hours in major courses.

ME 368 - Manufacturing

Credits: 3
Limited to 2 Attempts
Surveys selected manufacturing processes including rapid prototyping, metal cutting and machining, casting and molding, and thermoforming. Considers selection and use of engineering materials, including composites. Explores the use of Computer Numerical Control (CNC) machine tools for automated component design. Uses a computer-aided design (CAD) and computer-aided manufacturing (CAM) system to design and analyze a mechanical system.

Prerequisite(s): ME 341. Prerequisite enforced by registration system.

ME 431 - Systems Dynamics

Credits: 3
Limited to 2 Attempts
A first course which deals with the mathematical modeling of dynamic systems and response analysis of these systems. Topics include state variable and transfer functions, mathematical analysis of systems response, and the use of computational tools for modeling, design, and simulation.

Equivalent to ME 380 (2013-2014 Catalog)

Prerequisite(s): ME 231, PHYS 260/261. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
ME 432 - Control Engineering

Credits: 4  
Limited to 2 Attempts  
Introduces fundamentals of feedback and modern control theory. Topics include analysis of mechanical and thermal systems by root locus and frequency response techniques. Use of sensors and transducers in control systems, data acquisition and analysis.

Prerequisite(s): ME 431. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

ME 443 - Mechanical Design I

Credits: 3  
Limited to 2 Attempts  
The first course in a two-semester capstone design sequence. Topics include the engineering design process, project management, codes and standards, engineering ethics, and computer-aided design. Students form design teams, select a capstone design project and progress through the proposal and preliminary design stages of the project. The capstone design project continues in ME 444.

Equivalent to ME 360 (2013-2014 Catalog)

Prerequisite(s): ME 323. Prerequisite enforced by registration system.

Corequisite(s): ME 441 or ME 442.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

ME 444 - Mechanical Design II

Credits: 3  
Limited to 2 Attempts  
The second of the two-semester capstone design course sequence. Students continue with concept selection, detail design, prototyping and evaluation of their major design projects. Formal presentations and reports are prepared to review and document the designs.

Prerequisite(s): ME 443. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring
ME 453 - Senior Seminar

Credits: 2
Limited to 2 Attempts
A course which highlights, through speakers, discussions and workshops, the professional responsibility of a being mechanical engineer. Additional topics that will be covered include ethical issues, current events and trends in the profession. Engineering case studies will be explored.

Corequisite(s): ME 443.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall

ME 498 - Independent Study in Mechanical Engineering

Credits: 1-3
Repeatable within Term
Directed self-study of topics of special interest.

Prerequisite(s): Permission of instructor.

Notes: May be repeated for maximum 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

ME 499 - Special Topics in Mechanical Engineering

Credits: 0-4
Repeatable within Term
Topics of special interest to undergraduates.

Notes: May be repeated for maximum 9 credits if topics substantially differ.

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

Medical Laboratory Science (MLAB)
MLAB 200 - Introduction to Medical Laboratory Science

Credits: 1
Not Repeatable
Introduction to the profession of Medical Laboratory Science.

Equivalent to MTCH 200 (2013-2014 Catalog)

Prerequisite(s): Prerequisite completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall

MLAB 300 - Science Writing

Credits: 2
Not Repeatable
Intensive practice in biological science writing. Science Writing will fulfill the university's writing intensive requirement as well as prepare Medical Laboratory Science students for the types of writing that they will encounter in the industry including, but not limited to: writing, resumes, grants, cover letters, etc.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MLAB 401 - Orientation to the Problems and Practices of the Clinical Laboratory

Credits: 1-2
Repeatable within Degree
Orientation to clinical lab; specimen collection and record keeping; management principles and problems; educational theories as they apply to the teaching of clinical laboratory procedures; and quality control principles.

Equivalent to MTCH 401 (2013-2014 Catalog)

Prerequisite(s): Prerequisite completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Notes: Not offered on campus.

Hours of Lecture or Seminar per week: 1-2
Hours of Lab or Studio per week: 0
When Offered: Fall
MLAB 402 - Clinical Hematology and Coagulation

Credits: 1-8
Repeatable within Degree
Morphology of blood cells in health and disease; theories of hematopoiesis and coagulation; techniques for measurement of hematologic parameters; and hematologic pathologies and their lab evaluation.

Equivalent to MTCH 402 (2013-2014 Catalog)

Prerequisite(s): Prerequisite completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Notes: Not offered on campus.

Hours of Lecture or Seminar per week: 1-8
Hours of Lab or Studio per week: 0
When Offered: Fall

MLAB 403 - Clinical Microscopy

Credits: 1-3
Repeatable within Degree
Methods for the routine examination of urine, feces, and certain other body fluids, especially the microscopic identification of normal and pathologic components. Includes a study of the kidney and theories of microscopy.

Equivalent to MTCH 403 (2013-2014 Catalog)

Prerequisite(s): Prerequisite completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Notes: Not offered on campus.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
When Offered: Fall

MLAB 404 - Serology and Immunohematology

Credits: 1-7
Repeatable within Degree
Clinical lab procedures involving antigen-antibody reactions, and theoretical bases of such procedures. Includes both diagnostic and blood bank techniques.

Equivalent to MTCH 404 (2013-2014 Catalog)
MLAB 405 - Clinical Microbiology

Credits: 1-8
Repeatable within Degree
Biology and pathology of bacteria, rickettsia, fungi, parasites, and viruses of clinical importance and their culture and identification.

Equivalent to MTCH 405 (2013-2014 Catalog)

Prerequisite(s): Prerequisite completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Notes: Not offered on campus.

MLAB 406 - Clinical Chemistry

Credits: 1-10
Repeatable within Degree
Chemical reactions and procedures used in clinical determinations on blood, urine, and cerebral spinal fluid. Includes manual, automated methods of chemical analyses.

Equivalent to MTCH 406 (2013-2014 Catalog)

Prerequisite(s): Prerequisite completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Notes: Not offered on campus.
Middle East and Islamic Studies (MEIS)

MEIS 500 - Critical Issues and Debates in Middle East and Islamic Studies
Credits: 3
Not Repeatable
Introduces the interdisciplinary study of the Middle East and the Islamic world through an examination of recent seminal works and debates in the field representing the disciplinary perspectives of history, religious studies, political science, and sociology.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MEIS 794 - Graduate Internship in Middle East and Islamic Studies
Credits: 3
Not Repeatable
Internship credit for completion of Middle East and/or Islamic studies related work at an approved government, nonprofit, or private institution.

Prerequisite(s): MEIS 500; HIST 575; RELI 644

Hours of Lecture or Seminar per week: 3

MEIS 796 - Directed Readings in Middle East and Islamic Studies
Credits: 3
Repeatable within degree
Directed readings in the field of Middle East and Islamic Studies.

Prerequisite(s): MEIS 500, RELI 644, HIST 575

Notes: May be repeated for a maximum of 6 credits.

Hours of Lecture or Seminar per week: 3

MEIS 798 - Research Project in Middle East and Islamic Studies
Credits: 3
Not Repeatable
Research project related to Middle East and Islamic studies taken under supervision of faculty adviser.
Prerequisite(s): Completion of 21 credit hours towards MA in Middle East and Islamic Studies degree; satisfactory completion of a research methods course approved as a core course for the MA MEIS.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

MEIS 799 - Thesis Research and Writing in Middle East and Islamic Studies

Credits: 1-6
Repeatable within Degree
Original research and thesis writing for students in the Middle East and Islamic Studies MA program.

Prerequisite(s): Completion of MEIS 500, HIST 535, GOVT 731, GOVT 733, RELI 644; and 27 credit hours toward MA in MEIS degree; permission of MEIS director.

Grading: Satisfactory/No Credit

Military Science (MLSC)

Offered by the University

MLSC 100 - Introduction to Army/ROTC

Credits: 1
Not Repeatable
Introduces leadership values and ethics; responsibilities of officership; the organization, customs, and traditions of the U.S. Army; time management; and physical well-being. Includes a laboratory in applied leadership, common military tasks, and physical fitness.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 2

MLSC 102 - Leadership Skills II

Credits: 1
Not Repeatable
Introduces leadership principles, dimensions, styles, and assessment, among other varied topics. Includes a laboratory in applied leadership, common military tasks, and physical fitness.

Equivalent to MLSC 101 (2012-2013 Catalog)

Hours of Lecture or Seminar per week: 0
MLSC 200 - Self/Team Development

Credits: 1
Not Repeatable
Covers leadership skills, such as values and ethics. Also teaches how to influence, how to communicate, how and when to make decisions, how to engage in creative problem solving, and how to plan and organize. Includes a laboratory in applied leadership, common military tasks, and physical fitness.

Prerequisite(s): MLSC 100 and 101, or approval of professor of military science

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 2

MLSC 202 - Leadership Skills IV

Credits: 1
Not Repeatable
Builds on the leadership skills developed in Leadership Skills III with additional emphasis on communication, team building, and team leadership. Includes a laboratory in applied leadership, common military tasks, and physical fitness.

Equivalent to MLSC 201 (2012-2013 Catalog)

Prerequisite(s): MLSC 100 level completion/dual enrollment or military waiver granted by Professor of Military Science (Dept Head).

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
When Offered: Spring

MLSC 300 - Applied Leadership I

Credits: 0-1
Not Repeatable
Applied leadership with an introduction to the principles of physical fitness and healthy lifestyle; counseling as means of subordinate development; problem solving; operational analysis, development, and execution; and methods for preparing and presenting instruction. Students are given an introduction to the Leader Development Program that is used to evaluate their leadership performance and provide students with developmental feedback. Some weekend training required. Includes a laboratory in applied leadership, common military tasks, and physical fitness.

Prerequisite(s): MLSC 100, 101, 200, and 201; and credit or veteran status with approval from military science professor

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 2
MLSC 302 - Applied Leadership II

Credits: 1  
Not Repeatable  
Applied leadership covering the models of communications (verbal and nonverbal), technology to communicate, how to prepare and conduct formal briefings, an introduction to the Army branches, diversity and equal opportunity training, ethical decision making, & group cohesion and dysfunction. Some weekend training required. Includes a laboratory in applied leadership, common military tasks, and physical fitness.  
Equivalent to MLSC 301 (2012-2013 Catalog)

Prerequisite(s): MLSC 100 & 200 level completion or military credit exemption granted by Professor of Military Science (Dept Head).

Notes: Enrollment in MLSC 300 level course is restricted to students who are contracted or are pre-approved by department/Army ROTC as pending contracting.

Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 1
When Offered: Spring

MLSC 400 - Leadership and Management

Credits: 3  
Not Repeatable  
Considered the "transition to lieutenant" phase in which managerial theories are applied to personnel, training, and logistics management situations. Students have command and staff responsibilities for the Mason cadet corps and receive hands-on experience operating as a management team. There are several briefing and writing requirements as well. Includes a laboratory in applied science, common military tasks, and physical fitness.

Prerequisite(s): MLSC 300 and 301

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 2

MLSC 402 - Leadership and Ethics

Credits: 3  
Not Repeatable  
Continuing the "transition to lieutenant" phase of ROTC, examines ethics of military environment to include customs, ethical codes & decision making, constraints, and appeals to moral principles. American judicial system is also examined, with emphasis on the Uniform Code of Military Justice. Command and staff responsibilities are assigned to students for hands-on experience operating as a management team for Mason cadet corps. Includes a laboratory in applied leadership, common military tasks, and physical fitness.
Equivalent to MLSC 401 (2012-2013 Catalog)

Prerequisite(s): MLSC 300 & 302

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

Music (MUSI)

Offered by the College of Visual and Performing Arts

Students may attempt a music course that is required for the major no more than three times.

All private music instruction is by arrangement. Students must consult the director of applied music studies in the School of Music for teacher assignment and registration numbers. Applied music fee applies. Majors and minors who register for applied music must also register for an ensemble.

For music major, music minor, or jazz studies minor: half-hour lesson per week, 1 credit, $193; hour lesson per week, 2 or 3 credits, $390. For non-major or minor: half hour lesson per week, 1 credit, $390; hour lesson per week, 2 credits, $780.

MUSI 100 - Fundamentals of Music

Credits: 3
Not Repeatable
Study of musical notation, interval and triad construction, reading of treble and bass clefs, scale construction, rhythm, elementary sight singing and ear training, and application at keyboard.

Fulfills Mason Core requirement in arts.

Notes: Cannot be applied toward degree in music.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 101 - Introduction to Classical Music

Credits: 3
Not Repeatable
Introduces art-music tradition of West. Techniques for expanding listening skills developed through study of musical elements, styles, and selected masterworks of musical literature.

Fulfills Mason Core requirement in arts.

Notes: Music majors may take only as free elective.

Credits: 3
Not Repeatable
Investigates popular music styles and development in the United States with particular emphasis on the past 50 years. Lectures, recordings, and video enhance critical listening skills and examine stylistic and social contexts of popular music.

Fulfills Mason Core requirement in arts.

Notes: Music majors may take only as free elective.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 103 - Musics of the World

Credits: 3
Not Repeatable
Study and comparison of musical structure and expression in several world cultures, with special attention to social context and function. Studies selected Asian, Middle Eastern, African, and American (Latin, Native, African) cultures.

Fulfills Mason Core requirement in global understanding.

Notes: For non-music majors only. Fulfills the college-level requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 104 - Introduction to Twentieth-Century Music

Credits: 3
Not Repeatable
Survey of various styles found in 20th-century music. Tonal, atonal, serial, and experimental music.

Notes: Music majors may take only as free elective.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MUSI 105 - Music in the United States

Credits: 3  
Not Repeatable  
Study of music in the United States from colonial times to present. Through interaction with musical examples, traces significant African and European influences on emerging style and artistic activity in the United States.

Notes: Music majors may take only as free elective.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MUSI 106 - Fundamentals of Rock, Blues, and Jazz

Credits: 3  
Not Repeatable  
Fundamentals of Blues, Rock, and Jazz is designed for students without formal training in music theory. The course focuses on Afro-centric concepts in twentieth-century American musical culture including improvisation, emphasis on rhythm and groove, and use of multiple and integrated tonalities, such as major and minor in the blues.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

MUSI 107 - Jazz and Blues in America

Credits: 3  
Limited to 3 Attempts  
Historical, analytical, and aural survey of jazz from inception to present day. Looks at trends resulting from synthesis of jazz with other musical idioms.

Fulfills Mason Core requirement in arts.

Notes: Music majors may take as free elective or part of jazz studies concentration.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

MUSI 113 - Aural Skills I

Credits: 1  
Limited to 3 Attempts  
Students taught to sing a line of music without accompaniment of instrument. Matching tones, major and minor scales, key signatures, intervals, rhythm, treble and bass clefs, and rhythmic and melodic dictation.
Prerequisite(s): Restricted to MUSI majors, MUSI minors, and Jazz Studies minors, or to those with permission of music associate chair.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 114 - Aural Skills II

Credits: 1-2
Limited to 3 Attempts
Continuation of MUSI 113. Alto and tenor clefs, modulation, various modes, and melodic and harmonic dictation.

Prerequisite(s): MUSI 113, or permission of instructor

Hours of Lecture or Seminar per week: 1-2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 115 - Theory I

Credits: 3
Limited to 3 Attempts
Music notation, scales, key signatures, intervals, chords, cadences, and figured bass.

Prerequisite(s): Student must be able to read music, be able to pass a fundamentals of music test (administered during first week of classes), and have some proficiency on a musical instrument or in voice. Restricted to MUSI majors; MUSI minors and Jazz Studies minors need permission of music associate chair; non-MUSI majors need permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MUSI 116 - Theory II

Credits: 3
Limited to 3 Attempts
First- and second-inversion chords, modulation, nonharmonic tones, figured bass, seventh chords. Analysis of Bach chorales; composition of four-part chorales in 18th-century style.

Prerequisite(s): MUSI 115, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring
MUSI 121 - NonMaj PMI:First Instrum

Credits: 1-2
Repeatable within Degree
Prerequisite(s): For non-music majors only. Two-credit level restricted to students with substantial prior private study.

Hours of Lecture or Seminar per week: 1-2
Hours of Lab or Studio per week: 0

MUSI 122 - NonMaj PMI:Secnd Instrum

Credits: 1-2
Repeatable within Degree
Hours of Lecture or Seminar per week: 1-2
Hours of Lab or Studio per week: 0

MUSI 171 - Keyboard Skills I

Credits: 1
Limited to 3 Attempts
Study of piano keyboard as it relates to various clefs in music. Emphasis on solution of basic stylistic and technical problems.

Prerequisite(s): Restricted to MUSI majors, MUSI minors, and jazz studies minors, or to those with permission of music associate chair.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 3
When Offered: Fall

MUSI 172 - Keyboard Skills II

Credits: 1
Limited to 3 Attempts
Study of piano keyboard as it relates to intermediate song and combined in various music forms.

Prerequisite(s): MUSI 171. Restricted to MUSI majors, MUSI minors, and jazz studies minors, or to those with permission of music associate chair.

Notes: Nonmusic majors must have permission of instructor.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 3
When Offered: Spring
MUSI 213 - Aural Skills III

Credits: 2
Limited to 3 Attempts
Continuation of Music 114. Emphasizes modulation, chromatic and nontonal melodies, various modes, melodic and harmonic dictation, c clefs, and improvisation.

Prerequisite(s): Music 114, or permission of instructor.

Corequisite(s): Music 114, or permission of instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

MUSI 214 - Aural Skills IV

Credits: 2
Limited to 3 Attempts
Continuation on MUSI 213 with emphasis on chromatic and non-tonal harmonies.

Prerequisite(s): MUSI 213, or permission of instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

MUSI 215 - Theory III

Credits: 3
Limited to 3 Attempts
Study of four-part chromatic harmony and analysis of 19th-century compositions.

Prerequisite(s): MUSI 116 or permission of instructor. Restricted to music majors; music minors and jazz studies minors need permission of music associate chair; non-music majors need permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MUSI 216 - Theory IV

Credits: 3
Limited to 3 Attempts
Study of melodic, harmonic, rhythmic, and formal processes in post-tonal music.

Prerequisite(s): MUSI 215, or permission of instructor.
MUSI 221 - Applied Music I

Credits: 1
Repeatable within Degree
Applied music studies 1.

Prerequisite(s): Audition or portfolio.

Notes: May be repeated for up to 8 credits.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0.5

MUSI 222 - Applied Music in Keyboard

Credits: 1
Repeatable within Degree
Applied music studies in Keyboard.

Prerequisite(s): Audition.

Notes: May be repeated for up to 8 credits.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0.5

MUSI 223 - Applied Music in Voice

Credits: 1
Repeatable within Degree
Applied music studies in Voice.

Prerequisite(s): Audition.

Corequisite(s): MUSI 381, 384, or 385.

Notes: May be repeated for up to 8 credits.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0.5
MUSI 224 - Applied Music in Woodwind

Credits: 1
Repeatable within Degree
Applied music studies in Woodwind.

Prerequisite(s): Audition.

Notes: May be repeated for up to 8 credits.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 0.5

MUSI 225 - Applied Music in Brass

Credits: 1
Repeatable within Degree
Applied music studies in Brass.

Prerequisite(s): Audition.

Notes: May be repeated for up to 8 credits.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 0.5

MUSI 226 - Applied Music in String

Credits: 1
Repeatable within Degree
Applied music studies in String.

Prerequisite(s): Audition.

Notes: May be repeated for up to 8 credits.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0.5

MUSI 227 - Applied Music in Percussion

Credits: 1
Repeatable within Degree
Applied music studies in Percussion.

Prerequisite(s): Audition.
**Notes:** May be repeated for up to 8 credits.

**Hours of Lecture or Seminar per week:** 1-6
**Hours of Lab or Studio per week:** 0.5

**MUSI 228 - Applied Music in Composition**

Credits: 1  
Repeatable within Degree  
Applied music studies in Composition.

**Prerequisite(s):** Portfolio of recent compositions.

**Notes:** May be repeated for up to 8 credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0.5

**MUSI 229 - Non-Major Applied Music I**

Credits: 1  
Repeatable within Degree  
Applied music studies I.

**Prerequisite(s):** Audition or portfolio.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 1

**MUSI 241 - Applied Music II**

Credits: 2  
Repeatable within Degree  
Applied music studies 2.

**Prerequisite(s):** Audition or portfolio.

**Notes:** May be repeated for up to 16 credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1

**MUSI 242 - Applied Music in Keyboard**
MUSI 242 - Applied Music in Keyboard
Credits: 2
Repeatable within Degree
Applied music studies in Keyboard.

Prerequisite(s): Audition.

Notes: May be repeated for up to 16 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 243 - Applied Music in Voice
Credits: 2
Repeatable within Degree
Applied music studies in Voice.

Prerequisite(s): Audition.

Corequisite(s): MUSI 381, 384, or 385.

Notes: May be repeated for up to 16 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 244 - Applied Music in Woodwind
Credits: 2
Repeatable within Degree
Applied music studies in Woodwind.

Prerequisite(s): Audition.

Notes: May be repeated for up to 16 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 245 - Applied Music in Brass
Credits: 2
Repeatable within Degree
Applied music studies in Brass.

Prerequisite(s): Audition.
Notes: May be repeated for up to 16 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

**MUSI 246 - Applied Music in String**

Credits: 2
Repeatable within Degree
Applied music studies in String.

Prerequisite(s): Audition.

Notes: May be repeated for up to 16 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

**MUSI 247 - Applied Music in Percussion**

Credits: 2
Repeatable within Degree
Applied music studies in Percussion.

Prerequisite(s): Audition.

Notes: May be repeated for up to 16 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

**MUSI 248 - Applied Music in Composition**

Credits: 2
Repeatable within Degree
Applied music studies in Composition.

Prerequisite(s): Portfolio of recent compositions.

Notes: May be repeated for up to 16 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

**MUSI 249 - Non-Major Applied Music II**
Credits: 2
Repeatable within Degree
Applied music studies II.

Prerequisite(s): Audition or portfolio.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 2

MUSI 251 - The Art of Teaching Music

Credits: 3
Limited to 3 Attempts
Introduces and explores various music teaching professions. Examines philosophical, pedagogical, and practical issues in context of diverse teaching situations and venues that range from private studio and public school to community music schools and commercial establishments.

Fulfills Mason Core requirement in oral communication for the Music BM only.

Prerequisite(s): Admission to music major or minor program, or jazz studies minor program.

Notes: Requires observing professionals in the field.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MUSI 252 - Popular Music Arranging

Credits: 3
Limited to 3 Attempts
This course explores popular music styles and genres. Using this information to analyze popular music and arrange the music for various ensembles.

Prerequisite(s): MUSI 215.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 254 - Music and Technology

Credits: 3
Limited to 3 Attempts
Study of technology related to music, including audio synthesis and computer-based hardware and software.

Equivalent to MUSI 315.
Prerequisite(s): MUSI 100 or MUSI 115.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 259 - Music in Computer Technology

Credits: 3
Limited to 3 Attempts
Overview of ways computer is used in music. Topics include principles of musical instrument digital interface (MIDI); various kinds of synthesis; acoustics and sound processing; and musical composition using the computer. Explores music resources of internet and surveys current multimedia applications in music history, theory, ear training, improvisation, and notation.

Fulfills Mason Core requirement in information technology (all).

Equivalent to MUSI 415.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1
When Offered: Fall, Summer, Spring

MUSI 273 - Keyboard Skills III

Credits: 1
Limited to 3 Attempts
Continuation of MUSI 172. Study of techniques of harmonization at the piano keyboard.

Prerequisite(s): MUSI 172. Restricted to MUSI majors, MUSI minors, and Jazz Studies minors, or permission of music associate chair.

Notes: Nonmusic majors must have permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Fall

MUSI 280 - Athletic and Ceremonial Ensemble

Credits: 0-1
Repeatable within Term
Students gain an understanding of American popular and other musics developing personal expression via performance and creative design. Students also learn and develop leadership and management skills. An understanding of the vital role of community outreach and service is gained through first-hand experience.

Fulfills Mason Core requirement in arts.
MUSI 300 - Recital Attendance

Credits: 0
Repeatable within Degree
Students attend 10 student recitals to be selected from departmental and music education recitals, and junior, senior, and graduate recitals.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: S/NC
When Offered: Fall, Spring

MUSI 301 - Music in Motion Pictures

Credits: 3
Not Repeatable
Intensive study and analysis of using music tracks in motion pictures to introduce the picture, set a scene, create moods, or for musical numbers. From the silent film scores of the 1920s to the present (including electronic music).

Fulfills Mason Core requirement in arts.

Prerequisite(s): 30 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 302 - American Musical Theater

Credits: 3
Not Repeatable
Intensive study of the musical elements in the American musical theater from its European and later African roots to its evolution between the wars into a native form, and its continual assimilation of external influences such as new forms of jazz and rock to the eclectic form of the present day.

Fulfills Mason Core requirement in arts.

Prerequisite(s): 30 credit hours or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MUSI 303 - Topics in Ethnomusicology

Credits: 3
Repeatable within Degree
Advanced study of theory and method in ethnomusicology with specific thematic or geographic focus. Course emphasizes critical thinking, listening, and research in the study of music from around the world.

Prerequisite(s): MUSI 103, or MUSI 431, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 304 - Topics in Musicology

Credits: 3
Repeatable within Degree
Designed for students with no music theory background, the course explores the intersection of music and culture in relation to specific topics. Issues addressed may include race, class, gender, economic context, aesthetics, etc.

Prerequisite(s): 30 hours completed.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 311 - Jazz Studies

Credits: 3
Limited to 3 Attempts
Musicianship course integrating jazz improvisation, theory, composition, and arranging. Focuses on concepts unique to our time in style, form, and harmony.

Prerequisite(s): MUSI 379 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 315 - Music Technology

Credits: 3
Limited to 3 Attempts
Study of technology related to music, including audio synthesis and computer-based hardware and software.

Equivalent to MUSI 254.
Prerequisite(s): MUSI 100 or 115

Notes: There is a course fee beyond tuition charges.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 316 - Topics in Music Technology

Credits: 3
Repeatable within Degree
Selected topics in music technology with an emphasis on musical creativity. Includes consideration of recent developments in areas such as electronic composition, the science of music, recording industry and practices, and music industry.

Equivalent to MUSI 359.

Prerequisite(s): MUSI 315.

Notes: Can be repeated for up to 9 credits. There is a course fee beyond tuition charges.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 319 - Class Composition and Arranging

Credits: 3
Limited to 3 Attempts
Students write original compositions for specified instruments, voices, or combinations. They then apply compositional principles to the creative arrangement of existing music of various styles.

Prerequisite(s): MUSI 114 or 216, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MUSI 321 - Non-Major PMI

Credits: 1-2
Not Repeatable
Prerequisite(s): 4 credits in Non-Major Private Music Instruction or audition for the PMI coordinator.

Hours of Lecture or Seminar per week: 1-2
Hours of Lab or Studio per week: 0
MUSI 323 - Music Education Recital

Credits: 0
Not Repeatable
Recital on major instrument given by student during junior or senior year.

Prerequisite(s): Minimum 8 credits in private music instruction in major instrument

Corequisite(s): Concurrent enrollment in appropriate 2-credit private music instruction course.

Notes: Recital must be at least 25 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: S/NC

MUSI 324 - Junior Recital

Credits: 1
Not Repeatable
Public recital by student during junior year.

Corequisite(s): Concurrent enrollment in appropriate 3-credit private music instruction course.

Notes: Junior recital must be at least 25 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 325 - Performance Seminar and Vocal Literature for Singers and Accompanists I

Credits: 2
Repeatable within Degree
Students assigned vocal literature in Italian, English, German, and French from Baroque to 21st century, and perform in a weekly master class format. Designed for vocal performance and piano and accompanying majors; develops and improves artistic and performance skills, repertoire preparation and execution, diction, interpretation, style, and overall stage presence.

Prerequisite(s): Admission to the Music major program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 326 - Performance Seminar and Vocal Literature for Singers and Accompanists II
Credits: 2
Repeatable within Degree
Students assigned vocal literature in Italian, English, German, and French from Baroque to 21st century, and perform in a weekly master class format. Designed for vocal performance and piano and accompanying majors; develops and improves artistic and performance skills, repertoire preparation and execution, diction, interpretation, style, and overall stage presence.

Prerequisite(s): Admission to the Music major program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 331 - Music History in Society I

Credits: 3
Limited to 3 Attempts
Historical survey of Western music from Greek times through the late Baroque era, with emphasis on specific musical genres and composers who developed them. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments.

Prerequisite(s): MUSI 215 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

MUSI 332 - Music History in Society II

Credits: 3
Limited to 3 Attempts
Historical survey of Western music from the early Classical era through mid-19th century, with emphasis on specific musical genres and composers who developed them. Musical developments related to other aspects of society. Lectures, recordings, video. Learning process enhanced by reading, listening, writing, and analytical assignments.

Fulfills writing intensive requirement in the major.

Prerequisite(s): MUSI 216 and 331, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MUSI 338 - Music History in Society A

Credits: 3
Limited to 3 Attempts
Historical survey of Western music from the late Renaissance through the Romantic era, with emphasis on specific musical genres and composers who developed them. Musical developments are related to other aspects of society. Instruction conducted
by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments.

Prerequisite(s): MUSI 215, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 341 - Diction for Singers I: Italian Diction and English Diction

Credits: 2
Limited to 3 Attempts
Increases proficiency in singing in Italian and English by teaching International Phonetic Alphabet (IPA), and strengthens performance of Italian and English art songs and operatic repertoire. Focuses on intensified, systematic study of phonetics as it applies to singing in Italian and English.

Prerequisite(s): Admission to the Music major program or permission of instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

MUSI 342 - Diction for Singers II: German Diction and French Diction

Credits: 2
Limited to 3 Attempts
Increases proficiency in singing in German and French by teaching International Phonetic Alphabet (IPA), and strengthens performance of German and French art songs and operatic repertoire. Focuses on intensified, systematic study of phonetics as it applies to singing in German and French.

Prerequisite(s): Restricted to MUSI majors and minors. Non majors need permission of instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

MUSI 351 - Keyboard Pedagogy

Credits: 3
Limited to 3 Attempts
Investigates methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations.

Prerequisite(s): MUSI 114, 216 and 273; and 8 credits in piano, organ, or harpsichord; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer
MUSI 352 - Vocal Pedagogy and Lab

Credits: 3
Limited to 3 Attempts
Instruction in teaching of voice through systematic study of vocal physiology and its implications for pedagogical methods. Includes theoretical and systematic study of processes, procedures, and practices to develop art of singing. Offers technical, physiological, theoretical, and practical principals of the singing art, with emphasis on the importance of vocal health.

Prerequisite(s): 8 credits Applied Music in Voice, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 353 - Instrumental Pedagogy and Literature

Credits: 3
Limited to 3 Attempts
Instruction in teaching instrumental music techniques for all levels through study of pedagogical methods, standard literature, and musical instruments produced by present-day manufacturers.

Prerequisite(s): Junior standing in instrumental private music instruction, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 354 - Electronic Composition

Credits: 3
Limited to 3 Attempts
This course explores the techniques used in recording music with current software and hardware to edit, modify, and market music.

Prerequisite(s): MUSI 255.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 355 - Recording Techniques

Credits: 3
Limited to 3 Attempts
Explores the techniques used in recording music with current software and hardware to edit, modify, and market music.
Prerequisite(s): MUSI 255.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 359 - Topics in Music Technology

Credits: 3
Limited to 3 Attempts
Selected topics in music technology with an emphasis on musical creativity. Includes consideration of recent developments in areas such as electronic composition, the science of music, recording industry and practices, and music industry.

Equivalent to MUSI 316

Prerequisite(s): MUSI 354, MUSI 355.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 361 - Class Strings: Violin, Viola, Cello, and Bass

Credits: 1
Limited to 3 Attempts
Study of playing and teaching string instruments with emphasis on violin and cello through beginning method book. Study of fingerings and bowing techniques to teach and play viola and bass at beginning levels. Survey of string playing techniques to conduct rehearsals at intermediate-, advanced-, and artist-level ensembles.

Prerequisite(s): Admission to music major program, or permission of instructor.

Notes: Three hours per week studying violin, viola, cello, and bass; one hour per week in laboratory ensemble.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 363 - Class Woodwinds

Credits: 1
Repeatable within Degree
Study of Techniques of playing and teaching Woodwind instruments, including flute, clarinet, saxophone, oboe, and bassoon. Survey of instructional materials, and mouthpiece and instrument selection.

Prerequisite(s): Admission to music major program, or permission of instructor.

Hours of Lecture or Seminar per week: 3
MUSI 364 - Class Woodwinds: Oboe and Bassoon

Credits: 1
Repeatable within Degree
Study of techniques of playing and teaching oboe and bassoon. Survey of instructional materials, instrument selection, and reed adjustment.

Prerequisite(s): Admission to music major program, or permission of instructor.

Notes: Three hours per week studying oboe and bassoon; one hour per week in laboratory ensemble.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 365 - Class Brass: Trumpet and French Horn

Credits: 1
Limited to 3 Attempts
Study of techniques of playing and teaching trumpet and French horn. Survey of instructional materials, and mouthpiece and instrument selection.

Prerequisite(s): Admission to music major program, or permission of instructor.

Notes: Three hours per week studying trumpet and French horn; one hour per week in laboratory ensemble.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 366 - Class Percussion

Credits: 1
Limited to 3 Attempts
Study of techniques of playing and teaching percussion instruments. Survey of instructional materials and instrument selection.

Prerequisite(s): Admission to music major program, or permission of instructor.

Notes: Three hours per week studying percussion instruments; one hour per week in laboratory ensemble.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 367 - Class Guitar
MUSI 367 - Class Guitar

Credits: 1
Limited to 3 Attempts
Study of techniques of playing and teaching guitar. Survey of instructional materials and instrument selection.

Prerequisite(s): Admission to music major program, or permission of instructor.

Notes: Three hours per week studying guitar; one hour per week in laboratory ensemble.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 368 - Class Voice

Credits: 1
Limited to 3 Attempts
Study of the human voice in artistic singing. Emphasizes practical application of basic principles.

Prerequisite(s): Admission to music major program, or permission of instructor.

Notes: Three hours per week studying voice; one hour per week in laboratory ensemble.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 369 - Class Brass: Trombone, Euphonium, and Tuba

Credits: 1
Limited to 3 Attempts
Study of techniques of playing and teaching trombone, euphonium, and tuba. Survey of instructional materials and mouthpiece and instrument selection.

Prerequisite(s): Admission to music major program, or permission of instructor.

Notes: Three hours per week studying trombone, euphonium, or tuba; one hour per week in laboratory ensemble.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 4

MUSI 371 - Techniques of Accompanying I

Credits: 1
Limited to 3 Attempts
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations, and performances by professionals; and participate in master classes.

Prerequisite(s): Restricted to piano majors and minors, or to those with permission of instructor.
Notes: May be taken two times for credit.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring, Summer

### MUSI 372 - Techniques of Accompanying II

Credits: 1  
Limited to 3 Attempts  
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations, and performances by professionals; and participate in master classes.

**Prerequisite(s):** MUSI 371. Audition on a keyboard instrument for admission to a music degree program, 4 credits in undergraduate Private Music Instruction on a keyboard instrument, or permission of instructor.

Notes: May be taken two times for credit.

### MUSI 373 - Advanced Accompanying and Musicianship Skills

Credits: 3  
Limited to 3 Attempts  
Advanced study and techniques for accompanying choirs, vocal soloists, and instrumentalists. Additional instruction in keyboard reduction of orchestral scores for concertos, continuo/figured bass reading, lead-sheet reading, transposition, improvisation, transcription, and "playing by ear."

**Prerequisite(s):** MUSI 372 or permission of instructor.

**Corequisite(s):** MUSI 372 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MUSI 379 - Introduction to Jazz Improvisation

Credits: 1  
Limited to 3 Attempts  
Study of improvisation techniques and styles, with emphasis on common practice period of jazz. Application on the student's major instrument or voice to develop creativity and personal expression.

**Prerequisite(s):** MUSI 116 or permission of instructor; corequisite for Jazz Studies minors: MUSI 485 (Jazz Chamber Ensembles).
MUSI 380 - Wind Symphony

Credits: 1
Repeatable within Term
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Highly selective group of instrumentalists perform works from wind symphony repertoire.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Audition.

Notes: Public concerts required.

MUSI 381 - University Chorale

Credits: 1
Repeatable within Term
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from choral repertoire.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Audition.

Notes: Public concerts required.

MUSI 382 - Piano Ensemble

Credits: 1
Repeatable within Term
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Study and performance of original four-hand works for one and two pianos.

Fulfills Mason Core requirement in arts.

Prerequisite(s): 4 hours of PMI (Piano) and audition. Written Permission of Instructor required.
MUSI 383 - Symphonic Band

Credits: 1
Repeatable within Term
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from band repertoire.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Audition.

Notes: Public performances required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

MUSI 384 - Symphonic Chorus

Credits: 1
Repeatable within Term
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of major works from the choral repertoire.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Audition.

Notes: Public concerts are given.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

MUSI 385 - Chamber Singers

Credits: 1
Repeatable within Term
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Students explore their levels of artistic development through discovery, interpretation, and
performance of choral music for vocal chamber music ensembles from multiple historical periods. Students bring to Mason and surrounding community musical compositions not readily accessible in regular concert repertoire.

Fulfills Mason Core requirement in arts.

**Prerequisite(s):** Audition.

**Hours of Lecture or Seminar per week:** 1-12  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring

---

### MUSI 387 - Symphony Orchestra

Credits: 1  
Repeatable within Term  
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from symphony orchestra repertoire.

Fulfills Mason Core requirement in arts.

**Prerequisite(s):** Audition.

**Notes:** Public concerts required.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring

---

### MUSI 388 - Fundamental Techniques of Stagecraft for Opera and Music Theater

Credits: 2  
Limited to 3 Attempts  
Study of basic to intermediate stage movement techniques necessary to the performance of opera and music theater roles. Emphasis on acting, improvisation, theater production, musical theater, and operatic role study.

**Prerequisite(s):** Admission to music program, or permission of instructor.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 1

---

### MUSI 389 - Jazz Ensemble

Credits: 1  
Repeatable within Term  
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Provides practical experience in various aspects of jazz performance: section work within a large aggregation, combo work, and improvisation.
Fulfills Mason Core requirement in arts.

**Prerequisite(s):** Audition.

**Notes:** Public concerts required.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring

### MUSI 391 - Conducting I

Credits: 2  
Limited to 3 Attempts  
Study of basic techniques of conducting a musical ensemble.

**Prerequisite(s):** MUSI 114, 216, and 273; or permission of instructor.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall

### MUSI 393 - Music Administration and Management

Credits: 2  
Limited to 3 Attempts  
Prepares students to address aspects of administration and management of music programs in public and private schools. Investigates principles and concepts of management styles and planning. Covers curriculum, budget, student recruitment and retention, external relations of the music unit, and legal issues for music educators.

**Prerequisite(s):** MUSI 116, or permission of instructor.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

### MUSI 394 - Ethnomusicology Internship

Credits: 1-4  
Repeatable within Degree  
Option A) Professional internship with an organization dedicated to activities related to the field of ethnomusicology; Option B) Teaching internship in an undergraduate ethnomusicology course at Mason, supervised by the minor coordinator.

**Prerequisite(s):** MUSI 103, or MUSI 431; Permission of the Ethnomusicology Minor Coordinator.

**Notes:** All internships must be approved and all arrangements made prior to the beginning of the semester in which the internship
MUSI 395 - Teaching Internship

Credits: 1-4
Repeatable within Term
Internship with a professional individual or organization in teaching. Introduction to teaching or augmentation of teaching skills. Students develop individual contracts defining the learning and competencies to be gained from the experience.

Prerequisite(s): MUSI 251.

Notes: Maximum of 9 internship credits (MUSI 395, 495, 496) can be applied toward a degree.

MUSI 396 - Conducting II

Credits: 2
Limited to 3 Attempts
Advanced conducting course emphasizing techniques for instrumental and choral conducting. Refining gestures, full score analysis and interpretation, rehearsal techniques, and changing meters.

Prerequisite(s): MUSI 391, or permission of instructor.

MUSI 401 - Impact of the Arts on Civilization

Credits: 3
Not Repeatable
Analyzes how genres of art impact us intellectually, emotionally, and subliminally. Broadens aesthetic and historical perspective, exposes students to major strands of contemporary thought, and develops discursive abilities through role-playing in round table discussions.

Prerequisite(s): 30 credits, or permission of instructor.
**MUSI 415 - Music in Computer Technology**

Credits: 3  
Not Repeatable  
Overview of ways computer is used in music. Topics include principles of musical instrument digital interface (MIDI); various kinds of synthesis; acoustics and sound processing; and musical composition using the computer. Explores music resources of Internet and surveys current multimedia applications in music history, theory, ear training, improvisation, and notation.

**Prerequisite(s):** MUSI 319, or permission of instructor.

- Hours of Lecture or Seminar per week: 2  
- Hours of Lab or Studio per week: 1  
- When Offered: Spring

**MUSI 419 - Orchestration**

Credits: 3  
Limited to 3 Attempts  
Principles of combining and balancing instruments in orchestral and chamber contexts. Attention to orchestral terminology and general notation as well as timbre, range, clefs, transposition, special effects, and scoring procedures.

**Prerequisite(s):** MUSI 114, 216, and 319; or permission of instructor.

- Hours of Lecture or Seminar per week: 3  
- Hours of Lab or Studio per week: 0  
- When Offered: Spring

**MUSI 421 - Applied Music III**

Credits: 1  
Repeatable within Degree  
Applied music studies 3.

**Prerequisite(s):** Audition or portfolio of recent compositions.

**Notes:** May be repeated for up to 8 credits.

- Hours of Lecture or Seminar per week: 3  
- Hours of Lab or Studio per week: 0.5

**MUSI 424 - Senior Recital**

Credits: 1  
Not Repeatable  
Public recital by student during senior year.
Corequisite(s): Concurrent enrollment in appropriate 3-credit private music instruction course.

Notes: Senior recital must be at least 50 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 431 - Music History in Society III

Credits: 3
Limited to 3 Attempts
Studies contributions to the world of music in selected cultures such as India, Indonesia, China, Japan, Africa, Middle East, and Americas. Emphasizes comparative musical characteristics as well as sociological function. Lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments.

Fulfills Mason Core requirement in global understanding.

Prerequisite(s): MUSI 216, 331, and 332; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

MUSI 432 - Music History in Society IV

Credits: 3
Limited to 3 Attempts
Historical survey of Western music from late 19th century to present, with emphasis on specific musical genres and composers who developed them. Relates musical developments to other aspects of society, and considers interaction between world music. Lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments.

Prerequisite(s): MUSI 216, 331, 332, and 431; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MUSI 438 - Music History in Society B

Credits: 3
Limited to 3 Attempts

Historical survey of Western vernacular and classical music from 1877 to 1945, with emphasis on musical genres, composers, and performers. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video.
Fulfills writing intensive requirement in the BA in music with a concentration in Music Technology.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** MUSI 338 or permission of instructor.

| Hours of Lecture or Seminar per week: | 3 |
| Hours of Lab or Studio per week: | 0 |
| When Offered: | Fall, Summer, Spring |

**MUSI 439 - Music History in Society C**

Credits: 3  
Limited to 3 Attempts  
Historical survey of Western vernacular and classical music from 1945 to present, with emphasis on specific musical genres, composers, and performers. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments.

**Prerequisite(s):** MUSI 438, or permission of instructor.

| Hours of Lecture or Seminar per week: | 3 |
| Hours of Lab or Studio per week: | 0 |
| When Offered: | Fall, Summer, Spring |

**MUSI 441 - Private Music Instruction IV**

Credits: 2-3  
Repeatable within Degree  
Applied music studies 4.

**Prerequisite(s):** Audition or portfolio of recent compositions.

| Hours of Lecture or Seminar per week: | 3 |
| Hours of Lab or Studio per week: | 1 |

**MUSI 442 - Applied Music in Keyboard**

Credits: 2-3  
Repeatable within Degree  
Applied music studies in Keyboard.

**Prerequisite(s):** Audition.

| Hours of Lecture or Seminar per week: | 3 |
| Hours of Lab or Studio per week: | 1 |
| When Offered: | Fall, Spring |
MUSI 443 - Applied Music in Voice

Credits: 2-3
Repeatable within Degree
Applied music studies in Voice.

Prerequisite(s): Audition.

Corequisite(s): MUSI 381, 384, or 385.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

MUSI 444 - Applied Music in Woodwind

Credits: 2-3
Repeatable within Degree
Applied music studies in Woodwind.

Prerequisite(s): Audition.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

MUSI 445 - Applied Music in Brass

Credits: 2-3
Repeatable within Degree
Applied music studies in Brass.

Prerequisite(s): Audition.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

MUSI 446 - Applied Music in String

Credits: 2-3
Repeatable within Degree
Applied music studies in String.
Prerequisite(s): Audition.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

MUSI 447 - Applied Music in Percussion

Credits: 2-3
Repeatable within Degree
Applied music studies in Percussion.

Prerequisite(s): Audition.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

MUSI 448 - Applied Music in Composition

Credits: 2-3
Repeatable within Degree
Applied music studies in Composition.

Prerequisite(s): Portfolio of recent compositions.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

MUSI 450 - Jazz Improvisation I

Credits: 2
Limited to 3 Attempts
Emphasizes improvisational materials and language developed in common practice period of jazz.

Prerequisite(s): MUSI 379 or permission of instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

MUSI 451 - Keyboard Pedagogy II
Intensive study of methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations.

**Prerequisite(s):** MUSI 351 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MUSI 452 - Jazz Improvisation II**

Credits: 2  
Limited to 3 Attempts  
Emphasis on advanced improvisational techniques and contemporary tunes.

**Prerequisite(s):** MUSI 399 or permission of instructor.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 1

---

**MUSI 454 - Jazz Arranging**

Credits: 3  
Limited to 3 Attempts  
Transcription, analysis, and scoring for small and large jazz ensembles.

**Prerequisite(s):** MUSI 311 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MUSI 455 - Music as a Healing Art**

Credits: 3  
Not Repeatable  
Study of the relationship between musical vibrations and the natural rhythms of the body. Topics include history of music and healing, theory of sound, cymatics, toning, and performance practice as well as a survey of vibrational healing modalities and related therapies. Considers listening examples as they apply to healing with music. Students sing and play instruments in directed improvisatory performance.

**Prerequisite(s):** Basic proficiency with instrument or voice or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring
MUSI 461 - The Teaching of General Music in the Elementary and Middle School

Credits: 3  
Limited to 3 Attempts  
Studies theory, methods, practice, and materials to teach general music in elementary and middle school. Students spend three hours per week in class and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in the public schools.

Prerequisite(s): MUSI 114, 216, 273; and acceptance into music education concentration.

Corequisite(s): MUSI 391

Notes: For music majors only.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1  
When Offered: Fall

MUSI 463 - The Teaching of Vocal Music in the Secondary School

Credits: 3  
Limited to 3 Attempts  
Survey of repertoire and methods for teaching high school choral groups, small ensembles, and voice classes. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

Prerequisite(s): MUSI 114, 216, 273, and 391; and acceptance into music education concentration.

Corequisite(s): MUSI 396.

Notes: For music majors only.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1  
When Offered: Spring

MUSI 464 - Instrumental Music Methods I

Credits: 3  
Limited to 3 Attempts  
Prepares students to successfully plan, organize, and administer marching band and jazz ensemble programs in secondary public school music curriculum. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

Prerequisite(s): MUSI 114, 216, and 273; and acceptance into music education concentration.

Corequisite(s): MUSI 391
Notes: For music majors only.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall

MUSI 465 - Selected Topics in Music Education

Credits: 1-3
Repeatable within Degree
Topics of practical interest to prospective and practicing music educators covering pedagogy, performance, and logistics of teaching music in schools, private studios, and communities.

Notes: May be repeated for credit.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

MUSI 466 - Instrumental Music Methods II

Credits: 3
Limited to 3 Attempts
Prepares students to teach instrumental music in elementary, middle, and secondary schools. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

Prerequisite(s): MUSI 114, 216, 273, and 391; and acceptance to music education concentration.

Corequisite(s): MUSI 396.

Notes: For music majors only.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Spring

MUSI 467 - Instrumental Music Methods I: Orchestra

Credits: 3
Limited to 3 Attempts
Prepares students to successfully plan, organize, and administer string classes from the beginning levels through performing ensembles (grades 4-12), and explore teaching materials appropriate for individual and class instruction. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

Prerequisite(s): MUSI 114, 216, 273, and 361; and acceptance into music education concentration.
Corequisite(s): MUSI 391

Notes: For music majors only.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 477 - Music and Consciousness

Credits: 3
Not Repeatable
A study of the ways music has affected the mind and brain from throughout history to the present. By using principles of entrainment and resonance, the course demonstrates experientially the various methods by which music is used to alter consciousness.

Prerequisite(s): Basic proficiency with an instrument or voice or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 485 - Chamber Ensembles

Credits: 1
Repeatable within Term
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from chamber music repertoire.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Audition.

Notes: Public performances required.

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

MUSI 490 - RS: Musical Communication in Context

Credits: 3
Limited to 3 Attempts
Explains nature of musical communication in a variety of contexts, and combines knowledge gained in Mason Core courses with knowledge and skills specific to the major to serve as a capstone course synthesizing both areas. How does music itself communicate, and how do musicians communicate about it with each other and with the world around them? Students address these through essays in the style of a journal or portfolio, substantial paper, and oral presentation of paper before faculty and
student panel.

Fulfills Mason Core requirement in synthesis.

Designated as a research and scholarship intensive course.

Prerequisite(s): Must be in senior year of the B.A. program in Music and have completed all other Mason Core requirements.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 491 - Musical Communication in Performance

Credits: 1
Limited to 3 Attempts
Helps student conceive of musical performance as communication in a variety of contexts, and combines knowledge in Mason Core courses with knowledge and skills specific to the major to serve as a capstone course synthesizing both areas. Students consider various aspects of musical communication to prepare senior recital. Students explore social, historical, analytical, and aesthetic aspects of the music they are to perform by composing essays in the style of a journal or portfolio. Students prepare a substantial paper on recital repertoire and present that paper before a faculty and student panel.

Prerequisite(s): Completion of all other required Mason Core courses for BM performance concentration.

Corequisite(s): Concurrent enrollment in appropriate 3-credit private music instruction course and Music 424.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

MUSI 492 - Selected Topics in Music

Credits: 1-3
Repeatable within Term
Topics of practical interest to students in composition, music history and literature, world music, jazz studies, and performance practices.

Prerequisite(s): 45 credits, or permission of instructor.

Notes: May be repeated for credit.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

MUSI 493 - Topics in Music Theory

Credits: 3
Limited to 3 Attempts
Intensive exploration of selected topics in music theory and analysis.
Prerequisite(s): MUSI 216 or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

**MUSI 495 - Internship in Music Education: Student Teaching**

Credits: 6-12
Not Repeatable
Full semester of intensive student teaching experience in approved Virginia schools.

Prerequisite(s): Completion of all other courses required for BM with concentration in music education.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

**MUSI 496 - Internship**

Credits: 2-6
Not Repeatable
Contact the department one semester before enrollment. Internships are approved work-study programs with specific employers or agencies.

Prerequisite(s): Open to music majors with 90 credits.

Notes: Credit is determined by the department. Maximum 9 internship credits (MUSI 395, 495, 496) can be applied toward degree.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**MUSI 497 - Independent Study**

Credits: 1-3
Not Repeatable
Individual research and study of selected subject in close consultation with instructor. Student may choose from the musicological, ethnomusicological, theoretical, compositional, or educational areas, and produce at least one major written work based on research.

Prerequisite(s): Music majors with 90 credits, and permission of instructor and department chair.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MUSI 498 - Independent Study

Credits: 1-3
Not Repeatable
Individual research and study of selected subject in close consultation with instructor. Student may choose from the
musicological, ethnomusicological, theoretical, compositional, or educational areas, and produce at least one major written work
based on research.

Prerequisite(s): Music majors with 90 credits, and permission of instructor and department chair.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 501 - Graduate Theory Review

Credits: 3
Not Repeatable
Vocabulary and conceptual review of diatonic and chromatic harmony, part writing, form, harmonization, 20th-century
techniques.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: Does not count toward required credits of a graduate music degree.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 502 - Graduate Aural Skills Review

Credits: 3
Not Repeatable
Music reading and aural skills including intervals, dictation (melodic and harmonic), scales, chords, rhythms, and meter.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: Does not count toward required credits of a graduate music degree.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 515 - Music in Computer Technology

Credits: 3
Not Repeatable
Overview computer use in music. Topics include principles of musical instrument digital interface (MIDI); synthesis; acoustics
and sound processing; and musical composition using the computer. Explores music resources of Internet, and surveys
multimedia applications in music history, theory, ear training, improvisation, and notation.

**Prerequisite(s):** Baccalaureate degree in music, or permission of instructor.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 1  
**When Offered:** Spring

**MUSI 516 - Keyboard Skills**

Credits: 3  
Not Repeatable  
Enhance keyboard skills for the non-keyboard major, including technique, harmonization, transposition, reading, and accompanying.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 4

**MUSI 517 - Score Reading Skills**

Credits: 3  
Not Repeatable  
Enhance score study and score reading skills for the conductor.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 4

**MUSI 525 - Performance Seminar and Vocal Literature for Singers and Accompanists I**

Credits: 2  
Not Repeatable  
Students assigned art songs or operatic arias in Italian, German, French, and English, from Baroque to 21st century, and perform in weekly master class format. Develops and improves musical and artistic preparation and performance, increases repertoire, and establishes dependable methods for creating consistently high standards of artistic performance.

**Prerequisite(s):** Audition.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1

**MUSI 526 - Performance Seminar and Vocal Literature for Singers and Accompanists II**
Students assigned art songs or operatic arias in Italian, German, French, and English, from Baroque to 21st century, and perform in weekly master class format. Develops and improves musical and artistic preparation and performance, increases repertoire, and establishes dependable methods for creating consistently high standards of artistic performance.

Prerequisite(s): Audition.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 532 - Music History Review I

Credits: 3
Not Repeatable
Enhance understanding of music history and the context of musical style, chronologically through the mid-18th century.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: Does not fulfill courses requirements for graduate degrees in music.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 533 - Music History Review II

Credits: 3
Not Repeatable
Enhance understanding of music history and the context of musical style, from the mid-18th century to today.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: Does not fulfill course requirements for graduate music degrees.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 541 - Diction for Singers I: Italian Diction and English Diction

Credits: 2
Not Repeatable
Increases proficiency in singing in Italian and English by teaching International Phonetic Alphabet (IPA), and strengthens performance of Italian and English art song and operatic repertoire. Intensified, systematic study of phonetics as it applies to Italian and English.

Prerequisite(s): Graduate status in applied voice or permission of instructor.
MUSI 542 - Diction for Singers II: German Diction and French Diction

Credits: 2
Not Repeatable
Increases proficiency in singing in German and French by teaching International Phonetic Alphabet (IPA), and strengthens performance of German and French art songs and operatic repertoire. Intensified, systematic study of phonetics as it applies to singing in German and French.

Prerequisite(s): Graduate status in applied voice or permission of instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

MUSI 551 - Keyboard Pedagogy I

Credits: 3
Not Repeatable
Intensive study of methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations.

Prerequisite(s): Graduate status in applied piano, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 552 - Vocal Pedagogy and Lab

Credits: 3
Not Repeatable
Instruction in teaching voice through systematic study of vocal physiology and its implications for pedagogical methods. Includes theoretical and systematic study of processes, procedures, and practices to develop art of singing. Offers technical, physiological, theoretical, and practical principals of the singing art, with emphasis on vocal health.

Prerequisite(s): Graduate status in applied voice or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 553 - Instrumental Pedagogy and Literature
Instruction in teaching of instrumental music techniques for all levels through the study of pedagogical methods, standard literature, and musical instruments produced by present-day manufacturers.

**Prerequisite(s):** Baccalaureate degree in music, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

---

**MUSI 555 - Music as a Healing Art**

Credits: 3  
Not Repeatable  
Study of the relationship between musical vibrations and the natural rhythms of the body. Topics include history of music and healing, theory of sound, cymatics, toning, and performance practice as well as a survey of vibrational healing modalities and related therapies. Considers listening examples as they apply to healing with music. Students sing and play instruments in directed improvisatory performance.

**Prerequisite(s):** Basic proficiency with instrument or voice, and bachelor's degree in music.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MUSI 557 - Kodály I**

Credits: 3  
Not Repeatable  
In depth study of Kodály, concentrating in four areas: Methodology, Materials, Solfege, and Conducting

**MUSI 558 - Kodály II**

Credits: 3  
Not Repeatable  
Continues to build on and expand Kodaly knowledge and skills in the four areas: Methodology, Materials, Solfege, and Conducting

**Prerequisite(s):** MUSI 557 or permission of instructor

---

**MUSI 559 - Kodály III**

Credits: 3  
Not Repeatable
Completion of Kodaly training, finishing Kodaly Methodology, Materials, Solfege, and Conducting

**Prerequisite(s):** MUSI 558

**MUSI 561 - Music Curriculum and Instructional Procedures**

Credits: 3  
Not Repeatable  
This graduate course is designed to prepare students for a job in the elementary or middle school general music classroom. Classes will equip students with the competencies necessary to plan, create, implement, and evaluate a general music curriculum. Current trends, materials, methods, and approaches in music education will be reviewed.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**MUSI 563 - Orff Schulwerk I**

Credits: 3  
Not Repeatable  
Intensive introduction to Orff teaching philosophy with practical and theoretical instruction and immersion in the method itself. Students learn concepts of rhythm, harmony, solfege, modes, improvisation, and pedagogy. Students learn basic performance technique on soprano recorder, and learn to apply movement and dance in their teaching.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MUSI 564 - Orff Schulwerk II**

Credits: 3  
Not Repeatable  
Continues intensive study of Orff teaching philosophy with practical and theoretical instruction and immersion. Teaches further concepts of rhythm and meter including asymmetrical patterns. Reviews pentatonic modes and their transpositions, studies pentachordal and hexachordal scales, and begins intensive work with diatonic modes. Students work with a variety of percussion instruments including body percussion, unpitched instruments, and barred instruments. They sing and play soprano, alto, tenor, and bass recorders. Movement studies continue with intensive study of vocabulary of dance and mime.

**Prerequisite(s):** MUSI 563, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MUSI 565 - Orff Schulwerk III**
Credits: 3  
Not Repeatable  
Continues intensive study of Orff teaching philosophy to complete certification process in Orff Schulwerk. Students continue intensive work in rhythm, melody, harmony, timbre, form, and pedagogy. Tenor, bass, and soprano recorders introduced. Movement and rhythmic studies concentrate on mixed meters and non-Western source materials and styles.

Prerequisite(s): MUSI 563 and 564, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MUSI 566 - Instrumental Methods for Band

Credits: 3  
Not Repeatable  
This course prepares students to teach instrumental music in elementary and secondary schools. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1  
When Offered: Spring

MUSI 567 - Instrumental Methods, Strings

Credits: 3  
Not Repeatable  
Prepares students to successfully plan, organize, and administer string classes from the beginning levels through performing ensembles (grades 4 – 12), and to explore teaching materials appropriate for individual and class instruction. Three hours per week spent in class, one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1  
When Offered: Fall

MUSI 568 - Vocal and Choral Methods

Credits: 3  
Not Repeatable  
A Survey course that introduces repertoire and methods for teaching middle and high school choral groups, small ensemble and voice classes. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in the public schools.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1  
When Offered: Spring
MUSI 571 - Techniques of Accompanying I

Credits: 1
Not Repeatable
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations and performances by professionals; and participate in master classes.

Prerequisite(s): Admission to graduate-level private music instruction in keyboard instrument, or permission of instructor.

Notes: Each course may be taken two times for credit.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring, Summer

MUSI 572 - Techniques of Accompanying II

Credits: 1
Not Repeatable
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations and performances by professionals; and participate in master classes.

Prerequisite(s): Admission to graduate-level private music instruction in keyboard instrument, or permission of instructor.

Notes: Each course may be taken two times for credit.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring, Summer

MUSI 573 - Accompanying and Musicianship III

Credits: 3
Not Repeatable
For piano majors or students with significant keyboard skills.

Prerequisite(s): MUSI 572. Study of complex accompanying skills including open score reading and orchestral reduction.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 592 - Topics in Music
Credits: 1-6
Repeatable within Term
Intensive study of selected topics in performance, composition, or conducting. Individual research, group discussions, and participation in related activities.

Prerequisite(s): Baccalaureate degree in music.

Notes: May be repeated for up to 12 credits as topics change.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

MUSI 593 - Foundations of Music Education

Credits: 3
Not Repeatable
This course prepares students to address aspects of administration management of music programs in public and private schools. Various principles and concepts of management styles and planning are investigated. Topics addressed include: curriculum, budget, student recruitment and retention, music facilities, external relations of the music unit and legal issues for music educators.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MUSI 595 - Internship in Music Education

Credits: 6-9
Not Repeatable
This course prepares students to successfully plan and implement pedagogical strategies for the effective teaching of instrumental music. Students will also gain experience administering a music program in the elementary and secondary school music curriculum. Students will participate in class teaching modules and field experiences in the public schools.

Prerequisite(s): 1.Completion of all courses required for the Graduate Certificate in Music Education Licensure for PK-12. 2.Successful completion of the Music Education "Instrumental Proficiency Exam" requirements listed in the Music Education Handbook. 3.Successful completion of the Praxis I Examination (or equivalency), and VCLA (or Praxis I equivalency).

MUSI 610 - Topics in Music Theory

Credits: 3
Repeatable within Degree
Uses music analytical theories to examine repertoire from a given time period or style.

Prerequisite(s): MUSI 501, 502, and 516, or appropriate score on the graduate placement examination.

Notes: May be repeated for up to 9 credits as topics change.
MUSI 611 - Analytical Techniques

Credits: 3
Not Repeatable
Detailed formal and stylistic examination of music selected from the major style periods. Development of graduate-level analytical skills.

Prerequisite(s): MUSI 501, 502, and 516, or appropriate score on the graduate placement examination.

MUSI 613 - Graduate Orchestration

Credits: 3
Not Repeatable
Intensive study of instrumentation through analysis and arrangement. Includes contemporary techniques and scoring for large forces.

Prerequisite(s): MUSI 501, 502, and 516, or appropriate score on the graduate placement examination.

MUSI 614 - Music Theory Pedagogy

Credits: 3
Not Repeatable
Study of materials and procedures in the teaching of undergraduate-level music theory subjects.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

MUSI 615 - Advanced Jazz Improvisation

Credits: 3
Not Repeatable
Advanced techniques and applications of jazz improvisation.
Prerequisite(s): Graduate placement exam or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 621 - Graduate Applied Music

Credits: 1
Repeatable within Degree
Graduate Applied music studies

Prerequisite(s): Audition or portfolio.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

MUSI 622 - Applied Music in Keyboard

Credits: 1
Repeatable within Degree
Applied music studies in Keyboard

Prerequisite(s): Audition.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

MUSI 623 - Applied Music in Voice

Credits: 1
Repeatable within Degree
Applied music studies in Voice

Prerequisite(s): Audition.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5
MUSI 624 - Applied Music in Woodwind

Credits: 1
Repeatable within Degree
Applied music studies in Woodwind.

Prerequisite(s): Audition.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

MUSI 625 - Applied Music in Brass

Credits: 1
Repeatable within Degree
Applied Music studies in Brass.

Prerequisite(s): Audition.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

MUSI 626 - Applied Music in String

Credits: 1
Repeatable within Degree
Applied Music studies in String.

Prerequisite(s): Audition.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

MUSI 627 - Applied Music in Percussion

Credits: 1
Repeatable within Degree
Applied Music studies in Percussion.

Prerequisite(s): Audition.
MUSI 628 - Applied Music in Composition

Credits: 1
Repeatable within Degree
Applied Music studies in Composition.

Prerequisite(s): Portfolio of recent compositions.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

MUSI 629 - Applied Music in Conducting

Credits: 1
Repeatable within Degree
Applied Music studies in Conducting.

Prerequisite(s): Audition.

Notes: May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

MUSI 630 - Topics in Music History and Literature

Credits: 3
Repeatable within Degree
Examination of a musical style, genre, composer, compositional school, or historical development. Primary and secondary source materials studied in historical and analytical contexts.

Prerequisite(s): MUSI 532 and 533, or appropriate score on the graduate placement exam.

Notes: Repeatable for up to 9 credits as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MUSI 640 - Topics in World Musics

Credits: 3  
Repeatable within Degree  
Study of musics from selected cultures. Students will study structural, social, and cognitive foundations of the music.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: Repeatable for up to 9 credits as topics change.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MUSI 650 - Topics in Jazz Studies

Credits: 3  
Repeatable within Degree  
Study of selected topics in performance, composition, arranging and analysis. May be repeated for up to 9 credits as topics change.

Prerequisite(s): Graduate placement exam or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MUSI 651 - Keyboard Pedagogy II

Credits: 3  
Not Repeatable  
Develop effective teaching strategies, business practices, and investigatory/diagnostic approaches in repertoire exploration to prepare/improve teaching abilities in independent studio. Examine professional role of independent piano teacher, investigate scope and sequence of repertoire development, explore creative activities and computer use in the studio, develop understanding of technical skill development, examine intermediate/advanced keyboard repertoire, explore various teaching strategies/philosophies.

Prerequisite(s): Keyboard Pedagogy I.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

MUSI 652 - Vocal Pedagogy II

Credits: 3  
Not Repeatable  
A continuation of vocal pedagogy I, which focused on teaching voice through the rudimentary and systematic study of vocal
physiology and pedagogical methods, and included the process, procedures, development and practice of the art of singing. Pedagogy II provides students the opportunity to apply this information to real life situations through use of four specific scenarios and practical teaching experience.

**Prerequisite(s):** Vocal Pedagogy I.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

**MUSI 653 - Instrumental Pedagogy II**

Credits: 3  
Not Repeatable  
Prepares students for teaching string techniques of their major instrument for all levels through study of pedagogical methods and standard literature. Develop sound business practices/policies to ensure success in setting up a private studio; become familiar with local/national professional organizations serving the string teaching community; explore teaching abilities through a case study project involving one or more students.

**Prerequisite(s):** Instrumental Pedagogy I.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

**MUSI 654 - Graduate Conducting**

Credits: 3  
Repeatable within Degree  
Classroom study of conducting, including refining gestures, rehearsal leadership, and the communication of musical style.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.

**Notes:** May be repeated for up to 9 credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MUSI 660 - Topics in Music Education**

Credits: 1-6  
Repeatable within Term  
Examination of specific areas of concern to music educators. Individual research, group discussions, and participation in related activities.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.
Notes: Repeatable for up to 9 credits as topics change.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

MUSI 661 - Psychology of Music Teaching and Learning

Credits: 3
Not Repeatable
Study of the learner's musical behaviors (affective, cognitive, and psychomotor) in an effort to devise an empirically based teaching method founded on learning principles.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 662 - Introduction to Research in Music

Credits: 3
Not Repeatable
Development of skills, attitudes, and understanding to conduct and report research in music, including philosophical bases, scope and organization, stylistic practices in writing research reports, study of materials and resources in music and music education, and proper use of library and other research services.

Prerequisite(s): Baccalaureate degree in music, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MUSI 663 - Aesthetics of Music Education

Credits: 3
Not Repeatable
Study of philosophical foundations of contemporary music education, and critical examination of music programs and activities in aesthetic education and efforts by music education establishment to enhance them.

Prerequisite(s): Baccalaureate degree in music, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 664 - Advanced Pedagogy
Advanced instruction in pedagogy including study of methods, theories, techniques, and materials for teaching children and adult students.

**Prerequisite(s):** MUSI 551, or MUSI 552, or MUSI 553, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

### MUSI 681 - Graduate Choral Ensembles

Credits: 1  
Repeatable within Degree  
Performance of works from the choral repertoire.

**Prerequisite(s):** Audition.

**Notes:** Public concerts are given. May be repeated for up to 6 credits total.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 3

---

### MUSI 682 - Wind Symphony

Credits: 1  
Repeatable within Degree  
Highly selective group of instrumentalists performing works from the wind repertoire.

**Prerequisite(s):** Audition.

**Notes:** Public concerts are given. May be repeated for up to 6 credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 3

---

### MUSI 683 - Symphonic Band

Credits: 1  
Repeatable within Degree  
Performance of works from band repertoire.

**Prerequisite(s):** Audition.

**Notes:** Public concerts are given. May be repeated for up to 6 credits.
MUSI 685 - Graduate Chamber Ensemble

Credits: 1
Repeatable within Degree
Performance of works from chamber music repertoire.

Prerequisite(s): Audition.

Notes: Public concerts are given. May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 687 - Symphony Orchestra

Credits: 1
Repeatable within Degree
Performance of works from orchestral repertoire.

Prerequisite(s): Audition.

Notes: Public concerts are given. May be repeated for up to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 688 - Opera and Musical Theater Ensemble

Credits: 3
Repeatable within Degree
Solo-vocal, performance-oriented ensemble class that presents operatic works or excerpts from them, from Baroque to 21st century, as well as works or excerpts from American musical theater.

Prerequisite(s): Audition.

Notes: May be repeated for up to 12 credits.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 4

MUSI 689 - Jazz Ensemble
Credits: 1
Repeatable within Degree
Provides practical experience in aspects of jazz performance. Participation in section rehearsals and small and large jazz groups. Jazz improvisation expected.

Prerequisite(s): Audition.

Notes: Public concerts given. May be repeated for up to 6 credits total.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 690 - Graduate Lecture Recital

Credits: 1-3
Repeatable within Degree
Combination of musical performance and scholarly presentation on a well-defined topic.

Prerequisite(s): Baccalaureate degree in music, audition.

Corequisite(s): MUSI 621 (3-credit level).

Notes: Public presentation required. May be repeated for a maximum of 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 695 - Teaching Internship

Credits: 2
Repeatable within Degree
Teaching beginner, intermediate, and early advanced students in private or group lessons under faculty supervision.

Prerequisite(s): MUSI 660.

Notes: May be repeated for up to 4 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 699 - Independent Study

Credits: 1-3
Repeatable within Term
Individual research and study a concentration available in the master of music.

Prerequisite(s): Baccalaureate degree in music and permission of graduate coordinator.
Notes: May be taken for maximum 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 710 - Advanced Topics in Music Theory

Credits: 3
Repeatable within Degree
Advanced study of specific styles and repertoire from the perspective of various analytical approaches.

Prerequisite(s): MUSI 501, 502, and 516, or appropriate score on the graduate placement exam.

Notes: May be repeated for up to 9 credits total as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 712 - Composition for Conductors and Performers

Credits: 3
Not Repeatable
Advanced study of new music for various media.

Prerequisite(s): Undergraduate degree in music, graduate placement exam.

Notes: This course is not for students in the composition concentration.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 720 - Advanced Topics in Applied Music

Credits: 3
Repeatable within Degree
Advanced study of concepts in applied music.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: May be repeated for up to 6 credits total as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MUSI 721 - Applied Music

Credits: 2-3
Repeatable within Degree
Applied Music studies.

Prerequisite(s): Audition or portfolio.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 722 - Applied Music in Keyboard

Credits: 2-3
Repeatable within Degree
Applied music studies in Keyboard.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 723 - Applied Music in Voice

Credits: 2-3
Repeatable within Degree
Applied music in Voice.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 724 - Applied Music in Woodwind

Credits: 2-3
Repeatable within Degree
Applied music studies in Woodwind.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 725 - Applied Music in Brass
Credits: 2-3
Repeatable within Degree
Applied music studies in Brass.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 726 - Applied Music in String
Credits: 2-3
Repeatable within Degree
Applied music studies in String.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 727 - Applied Music in Percussion
Credits: 2-3
Repeatable within Degree
Applied music studies in Percussion.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
MUSI 728 - Applied Music in Composition

Credits: 2-3
Repeatable within Degree
Applied music studies in Composition.

Prerequisite(s): Portfolio of recent compositions.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 729 - Applied Music in Conducting

Credits: 2-3
Repeatable within Degree
Applied music studies in Conducting.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 1

MUSI 730 - Advanced Topics in Music History

Credits: 3
Repeatable within Term
Advanced study of specific genres, composers, or repertoire from a historically analytical perspective.

Prerequisite(s): MUSI 532 and 533, or appropriate score on the graduate placement exam.

Notes: May be repeated for up to 9 credits total as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 760 - Advanced Topics in Music Education

Credits: 3
Repeatable within Degree
Advanced study of selected issues in music education.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.
Notes: May be repeated for up to 9 credits total as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 770 - Advanced Topics in Pedagogy

Credits: 3
Repeatable within Degree
Advanced study of a specific topic in the pedagogy of music.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: May be repeated for up to 6 credits total as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 790 - Graduate Recital

Credits: 1
Repeatable within Degree
Public performance. Repertoire and performance standards as approved by faculty.

Prerequisite(s): At least three credits of graduate PMI in the appropriate instrument or voice.

Corequisite(s): MUSI 700-level PMI (3-credits).

Notes: May be repeated for up to 4 credits total.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

MUSI 796 - Directed Reading/Research

Credits: 1-3
Repeatable within Degree
Individualized study on a topic approved by faculty.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.

Notes: May be repeated for up to 6 total credits.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Graduate Special
MUSI 799 - Thesis

Credits: 1-6
Repeatable within Degree
Supervised research on approved thesis topic.

Prerequisite(s): At least 12 graduate credits including MUSI 511, and approval of thesis topic.

Notes: Students in the music education concentration must also have taken MUSI 562, and have successfully passed comprehensive exit exam.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: S/NC

MUSI 800 - Studies for the Doctor of Philosophy in Education

Credits: 1-6
Repeatable within Degree
Program of studies designed by the student's discipline director and approved by student's doctoral committee that brings student to participate in research, performance, or creative activity of discipline director and results in a paper reporting original contributions.

Prerequisite(s): Admission to PhD in education program to study music.

Notes: Enrollment may be repeated.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

MUSI 810 - Doctoral Seminar in Analysis

Credits: 3
Repeatable within Degree
Seminar study of a specific genre or repertoire from various analytical perspectives.

Prerequisite(s): Graduate placement examination.

Notes: May be repeated for up to 9 credits as topics change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 821 - Doctoral Private Music Instruction
Credits: 2-3  
Repeatable within Degree  
Private instruction in performance, conducting, or composition.

**Prerequisite(s):** Audition portfolio

**Notes:** May be repeated for up to 18 credits.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 1

### MUSI 822 - Doctoral Applied Music in Keyboard

Credits: 2-3  
Repeatable within Degree  
Doctoral applied music studies in Keyboard.

**Prerequisite(s):** Audition.

**Notes:** May be repeated for up to 18 credits.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 1

### MUSI 823 - Doctoral Applied Music in Voice

Credits: 2-3  
Repeatable within Degree  
Doctoral applied music studies in Voice.

**Prerequisite(s):** Audition.

**Notes:** May be repeated for up to 18 credits.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 1

### MUSI 824 - Doctoral Applied Music in Woodwind

Credits: 2-3  
Repeatable within Degree  
Doctoral applied music studies in Woodwind.

**Prerequisite(s):** Audition.

**Notes:** May be repeated for up to 18 credits.
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 1

MUSI 825 - Doctoral Applied Music in Brass

Credits: 2-3
Repeatable within Degree
Doctoral applied music studies in Brass.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 1

MUSI 826 - Doctoral Applied Music in String

Credits: 2-3
Repeatable within Degree
Doctoral applied music studies in String.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 1

MUSI 827 - Doctoral Applied Music in Percussion

Credits: 2-3
Repeatable within Degree
Doctoral applied music studies in Percussion.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 1

MUSI 828 - Doctoral Applied Music in Composition
MUSI 829 - Doctoral Applied Music in Composition

Credits: 2-3  
Repeatable within Degree  
Doctoral applied music studies in Composition.

Prerequisite(s): Portfolio of recent compositions.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 1

MUSI 829 - Doctoral Applied Music in Conducting

Credits: 2-3  
Repeatable within Degree  
Doctoral applied music studies in Conducting.

Prerequisite(s): Audition.

Notes: May be repeated for up to 18 credits.

Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 1

MUSI 830 - Doctoral Seminar in Music History

Credits: 3  
Repeatable within Degree  
Seminar study of a specific genre, composer, or repertoire from a historically analytical perspective.

Prerequisite(s): Graduate placement exam.

Notes: May be repeated for up to 9 credits as topics change.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MUSI 860 - Doctoral Seminar in Music Education

Credits: 3  
Repeatable within Degree  
Seminar study of a specific issue in music education.

Prerequisite(s): Graduate placement exam.

Notes: May be repeated for up to 12 credits as topics change.
MUSI 880 - Doctoral Major Ensemble

Credits: 1
Repeatable within Degree
Selective ensemble experience for doctoral students in music.

Prerequisite(s): Audition.

Notes: Public concerts are given. May be repeated for up to 6 credits.

MUSI 890 - Doctoral Recital

Credits: 1
Repeatable within Degree
Public performance. Repertoire and performance standards as approved by faculty.

Prerequisite(s): At least 3 credits in MUSI 821 in the appropriate instrument or voice.

Corequisite(s): MUSI 821 (3-credit level).

Notes: May be repeated for up to 4 credits.

MUSI 998 - Dissertation Proposal

Credits: 1-3
Repeatable within Degree
Preparation of a proposal for a dissertation study in music under the supervision of music faculty members.

Prerequisite(s): Admission to doctoral program in music, permission of faculty.

Notes: May be repeated for up to 6 credits.
MUSI 999 - Dissertation

Credits: 1-12
Repeatable within Degree
Preparation of a dissertation in music under the supervision of music faculty members.

Prerequisite(s): Candidacy in a doctoral program in music.

Notes: May be repeated for credit.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

Native American and Indigenous Studies (NAIS)

Offered by the College of Humanities and Social Sciences

NAIS 201 - Introduction to Native American and Indigenous Studies

Credits: 3
Not Repeatable
Introduction to the history, social organization, political experience, and artistic expression of indigenous peoples of the western hemisphere, focusing primarily on American Indians, using methods and materials from a number of disciplines.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NAIS 499 - Independent Study

Credits: 3
Not Repeatable
Intensive study of a particular area, topic, or critical or theoretical problem related to Native American and Indigenous Studies to be conducted in close consultation with an instructor. At least one substantial, researched piece of written work required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Nanotechnology (NANO)

Offered by the College of Science

NANO 500 - Introduction to Nanomaterials and Interactions
Introduction to nanotechnology. Discussion of the Feynman challenge and its relation to modern science. Applications to nanostructures of charges, currents, diamagnetics, paramagnetics, and ferromagnetics.

Prerequisite(s): BS in any physical science, mathematics, or engineering; or permission of certificate director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NANO 510 - Strategies for Nanocharacterization

Credits: 3
Not Repeatable
Introduces various nanocharacterization techniques, with a discussion of which techniques are most useful in various applications. Includes gates and bridges, chemical thermodynamics, kinetics, and solid-state reactions.

Prerequisite(s): NANO 500 or permission of certificate director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NANO 520 - Survey of Nanostructures

Credits: 3
Not Repeatable
Discusses nanomechanical oscillators and nanoresonators, nanofibers, and conducting polymer nanowires. Nanomechanical beams for reacting ion etching. Electron-beam lithography and photolithography.

Prerequisite(s): NANO 500 and 510 or permission of certificate director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NANO 530 - Nanofabrication

Credits: 3
Not Repeatable
Covers pulsed laser deposition, molecular beam epitaxy, controlled vapor deposition, reactive sputtering, and doping and implant isolation.

Prerequisite(s): NANO 500 and 510, or permission of certificate director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
NANO 540 - Nanotechnology in Commerce and Government

Credits: 3
Not Repeatable
Discusses competitive position of United States and other countries in nanoscience and nanotechnology. Covers business strategies, environmental, and public health aspects of nanotechnology applications. Also introduces students to issues involving legal, economic, social, and political controls over nanotechnology and nanoscience research.

Prerequisite(s): NANO 500, and admission into graduate certificate program in nanotechnology and nanoscience.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NANO 610 - Nanoelectronics

Credits: 3
Not Repeatable
Introduces basic elements of nanoelectronic structures, including quantum layers, quantum wires, and quantum dots. Covers subband structure, transport in quantum layers, behavior in the presence of magnetic fields, Coulomb blockades, CMOS nanodevices and nanoelectronics, and SOI multigate device physics and modeling.

Prerequisite(s): NANO 500, 510, and 520, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NANO 620 - Computational Modeling in Nanoscience

Credits: 3
Not Repeatable
Introduction to simulation methods used in nanoscience. Covers computational approaches to modeling molecular and condensed matter at the nanoscale level, including interatomic and molecular potentials, molecular mechanics, molecular dynamics, monte carlo averaging, ensemble distributions, numerical sampling, thermodynamic functions, dynamic structure, and introduction to cellular automata.

Prerequisite(s): NANO 500, 510, and 520, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Neurosciences (NEUR)

Offered by the University
NEUR 327 - Cellular, Neurophysiological, and Pharmacological Neuroscience

Credits: 3  
Not Repeatable  
Basic concepts of cellular and molecular level neuroscience, including neuronal functions, cellular anatomy and membrane functions, electrical properties of neurons, and cellular basis of plasticity.

Prerequisite(s): CHEM 211, PSYC 375 or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

NEUR 335 - Molecular, Developmental, and Systems Neuroscience

Credits: 3  
Not Repeatable  
In-depth survey of genetic and embryological development of the brain and introduction to systems neuroscience, including sections on patterning gene expression, generation and migration of neurons, axonal and dendritic outgrowth, and basic neuroanatomy.

Prerequisite(s): PSYC 376.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 3  
When Offered: Fall

NEUR 380 - Biological Bases of Alzheimer’s Disease

Credits: 3  
Not Repeatable  
A survey of the causes, symptoms, drug treatments, risk factors and preventative measures associated with Alzheimer’s disease.

Prerequisite(s): PSYC 375, 376.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

NEUR 405 - RS: Laboratory Methods in Behavioral Neuroscience

Credits: 3  
Not Repeatable  
Introduction to experimental methods used in behavioral neuroscience research. Laboratory work includes surgical, histological and behavioral techniques. Proper use and handling of animals, ethical issues, evaluation of neuroscience literature, experimental design and data analysis are addressed. This requires working with laboratory rodents.
Designated as a research and scholarship intensive course.

Prerequisite(s): PSYC 300, BIOL 312 or equivalent. PSYC 372 or PSYC 376 or permission of instructor.

NEUR 410 - Current Topics in Neuroscience

Credits: 3
Not Repeatable
Overview of current topics in neuroscience, focusing on research at Mason.

Fulfills writing intensive requirement in the major.

Prerequisite(s): PSYC 375, 376, ENGH 302. NEUR 327 recommended.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NEUR 411 - Seminar in Neuroscience

Credits: 3
Repeatable within Degree
Advanced seminar on a selected topic in neuroscience. Includes in depth reading and discussion of current research in human and nonhuman animals, with an emphasis on critical evaluation.

Fulfills writing intensive requirement in the major.

Prerequisite(s): PSYC 375, 376, ENGH 302. NEUR 327 and NEUR 335 recommended.

Notes: Course may be repeated if selected topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NEUR 440 - Independent Study in Neuroscience

Credits: 1-3
Repeatable within Degree
Independent research based a laboratory or field investigation under the guidance of a faculty member, assisting with research on faculty projects, or reviewing the literature on a specific research topic.

Prerequisite(s): NEUR 327, 30 hours of course work with a grade point average of 3.0. or permission of instructor.
Notes: A maximum of 6 hours of independent study may be applied towards the major.

Hours of Lecture or Seminar per week: 1-3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

NEUR 450 - Honors Thesis Proposal

Credits: 2-3  
Not Repeatable  
Work on proposal for thesis based on laboratory or field investigation under the guidance of a faculty member.

Prerequisite(s): NEUR 327; 335; 410 or 411, may be taken as co-requisites.  
PSYC 300 or equivalent statistics course.  
Permission of NAC undergraduate committee and thesis director.

Notes: A total of 6 hours must be taken in NEUR 450 and 451. A minimum of 2 hours and a maximum of 3 hours may be taken in NEUR 450.

Hours of Lecture or Seminar per week: 1-3  
Hours of Lab or Studio per week: 0  
Grading: Satisfactory/No Credit  
When Offered: Fall, Summer, Spring

NEUR 451 - Honors Thesis

Credits: 3-4  
Not Repeatable  
Thesis based a laboratory or field investigation under the guidance of a faculty member.

Prerequisite(s): NEUR 450.

Notes: A total of 6 hours must be taken in NEUR 450 and 451. A minimum of 3 hours and a maximum of 4 hours may be taken in NEUR 451.

Hours of Lecture or Seminar per week: 3-4  
Hours of Lab or Studio per week: 0  
Grading: Satisfactory/No Credit  
When Offered: Fall, Summer, Spring

NEUR 461 - Special Topics in Neuroscience

Credits: 1-3  
Repeatable within Term  
Selected topics reflecting in specialized areas of neuroscience.

Prerequisite(s): PSYC 372, 375, or equivalent or permission of instructor.
Notes: May be repeated three times for credit when topic is different.

**NEUR 600 - Chemistry and the Brain**

Credits: 3  
Not Repeatable  
Fundamentals of general chemistry, atoms, molecules, and reactions, with emphasis on water solutions. Organic compounds and functional groups, biosynthesis and properties, and examples from nervous system. Also includes biopolymers and their roles in cellular and neuronal organization, ionic channels, neurotransmitter receptors, and psychoactive substances.

Equivalent to PSYC 556  

**Prerequisite(s):** Admission to neuroscience PhD program or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NEUR 601 - Developmental Neuroscience**

Credits: 3  
Not Repeatable  
Introduction to developmental neurobiology with overview of embryological development of the nervous system. Topics include neural induction, patterning/cell fate specification, and neural circuit assembly together with modern molecular methods for exploring neural development.

Equivalent to PSYC 527  

**Prerequisite(s):** PSYC 372, or BIOL 213 and 303, or the equivalent.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0

**NEUR 602 - Cellular Neuroscience**

Credits: 3  
Not Repeatable  
Detailed overview of the functioning and interactions of the cellular elements of the central nervous system. Topics include structure and function relationships, the chemical, physical, and electrical basis of neural signaling, local versus long-distance signaling, generation of action potentials, and essentials of synaptic communication.

**Prerequisite(s):** Admission to the PhD program in Neuroscience or permission of instructor.
NEUR 603 - Mammalian Neuroanatomy

Credits: 3
Not Repeatable
Functional anatomy of the brains of mammals, with emphasis on regional and systems neuroanatomy of humans. Anatomy is correlated with material from clinical neurology where possible. Laboratory component includes brain dissections and clinical correlations.

Equivalent to PSYC 531

Prerequisite(s): PSYC 372, or BIOL 213 and 303, or the equivalent.

NEUR 604 - Ethics in Scientific Research

Credits: 1-3
Not Repeatable
Reflects on purpose of scientific research and reviews foundational principles for evaluating ethical issues. Offers skills for survival in scientific research through training in moral reasoning and teaching of responsible conduct. Discusses ethical issues in research, and teaches how to apply critical thinking skills to design, execution, and analysis of experiments. Issues include using animals and humans in research, ethical standards in computer community, and research fraud. Currently accepted guidelines for behavior in data ownership, manuscript preparation, and conduct of persons in authority may be presented and discussed in terms of relevant ethical issues.

Equivalent to PHIL 691

Prerequisite(s): Graduate standing.

NEUR 611 - Philosophical Foundation of Neuroscience

Credits: 3
Not Repeatable
This course presents the joint histories of the nature of thought, the philosophy of science, the construct of self, and the nature of mind.

Prerequisite(s): Any course in neuroscience or permission of the instructor.
NEUR 621 - Synaptic Plasticity

Credits: 3
Not Repeatable
Course on activity-dependent modification of functional connectivity in the central nervous system as it relates to development, cognition, and disease.

Prerequisite(s): NEUR 602

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 634 - Neural Modeling

Credits: 3
Not Repeatable
Introduces the objectives, philosophy, and methodology of neuronal modeling. Instructs students in the use of some of the more popular neural modeling software packages. Students learn the syntax of several software packages, how to create neurons from subcellular components, and how to create networks by connecting neuron models.

Prerequisite(s): NEUR 602 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 689 - Topics in Neuroscience

Credits: 3
Repeatable within Term
Selected topics in neuroscience reflecting specialized areas or new subfields not covered in fixed-content neuroscience courses.

Notes: Course may be repeated for credit as needed.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 701 - Neurophysiology Laboratory

Credits: 3
Not Repeatable
Hands-on training in current techniques of modern neurophysiology. Acquaints students with the theoretical basis of each technique and trains the student in the laboratory skills necessary to perform each technique. Includes intracellular and extracellular recording techniques.
Prerequisite(s): NEUR 602 and admission to neuroscience PhD program or permission of instructor.

Notes: Meets once weekly for six hours.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 6  

**NEUR 702 - Research Methods**

Credits: 3  
Not Repeatable  
Trains students in research methodologies for life sciences. Covers the four aspects of biological research projects: experimental design, data collection, data analysis and research ethics.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

**NEUR 703 - Laboratory Rotation and Readings**

Credits: 3  
Not Repeatable  
Intensive introduction to a research laboratory in neuroscience. The student will read background material pertinent to the problem under study, learn and practice research methods of the laboratory, and formulate a short final project, which may be a proposal or an actual project, demonstrating some mastery of the techniques and approaches employed.

Prerequisite(s): Admission to the PhD program in Neuroscience.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 3

**NEUR 709 - Neuroscience Seminars**

Credits: 1  
Not Repeatable  
Special seminar series for first year neuroscience PhD students. Detailed overview of neuroscience research at Mason. Each week, a different neuroscience laboratory and principal investigator lectures to students. The lecture includes the neuroscience basics necessary to appreciate the laboratory research theme and mission, and a more practical description of the active research program, possibly including a visit to the laboratory.

Prerequisite(s): Admission to neuroscience PhD program.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0
**NEUR 710 - Special Topics in Neuroscience**

Credits: 1  
Not Repeatable  
Examines topics in neurosciences, including neurogenetics, neural imaging, and the competing computational and biological approaches to understanding the mind.

**Prerequisite(s):** Admission to neuroscience PhD program.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

---

**NEUR 734 - Computational Neurobiology**

Credits: 3  
Not Repeatable  
Intense review of neurobiology for graduate students interested in studying how nerve cells integrate and transmit signals, and how behavior emerges from integrated actions of populations or circuits of nerve cells. Covers electrical and biochemical properties of single neurons, and electrical and chemical communication between neurons. Emphasizes mathematical descriptions and computational techniques to study and understand neurons and networks of neurons.

**Prerequisite(s):** NEUR 602 and MATH 214, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NEUR 735 - Computational Neuroscience Systems**

Credits: 3  
Not Repeatable  
Intensive introduction to systems neuroscience from quantitative perspective. Covers computational techniques used to study function of networks of neurons. Uses spike train statistics, neural encoding, and information theory to investigate behaviors that emerge from integrated actions of networks of neurons.

**Prerequisite(s):** NEUR 734, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NEUR 741 - Introduction to Neuroimaging**

Credits: 3  
Not Repeatable  
Introduction to physics and techniques of magnetic resonance imaging (MRI) and their applications to clinical and basic
neuroscience. Students learn about the protocols used in the acquisition of images in both structural and functional contexts, and experimental paradigms applied to the exploration of cognition, learning, and development. Students gain experience with creating an experimental design for a study and understanding practical logistics involved in imaging, such as MRI safety and subject screening.

Prerequisite(s): NEUR 602 or 603, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 742 - Cognitive Neuroscience

Credits: 3
Not Repeatable
Introduces cognitive neuroscience topics, including aspects of cognitive science covering an array of perceptual, sensory, cognitive, and affective processes. Incorporates studies of brain lesions, brain imaging, and animal and computational models.

Prerequisite(s): NEUR 602 or 603, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 751 - Applied Dynamics in Neuroscience

Credits: 3
Not Repeatable
Covers recent developments in the application of applied dynamics to neuroscience. Emphasizes dynamical system approach to the understanding of neural processes. Topics include neural synchrony and control; formation of waves; oscillations; patterns within neural ensembles; network topology and dynamics of neurons; and decoding and encoding of neural signals.

Prerequisite(s): NEUR 603 or NEUR 734, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 752 - Modern Instrumentation in Neuroscience

Credits: 3
Not Repeatable
Builds on knowledge of how and what things are measured and controlled in modern bioinstrumentation. Topics include fundamental instrumentation; principles of sensing; basic electronics; computer interfaces and data acquisition; signals in biological systems; biopotential and ionic concentration measurements; and optical techniques.

Prerequisite(s): NEUR 602 or 734, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
NEUR 851 - Advanced Computation and Brain Dynamics

Credits: 3
Not Repeatable
In-depth study of open issues and the state-of-the-art in advanced brain dynamics. Using mathematical and physical models, the course covers the neurodynamical aspects of neural nets, receptive fields, ion-channels, intercortical interactions, phase-locking, synchronicity, and the possible nontrivial role of quantum effects.

Prerequisite(s): NEUR 603 or NEUR 734, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 996 - Doctoral Reading and Research

Credits: 1-6
Repeatable within Degree
Reading and research on specific topic in neuroscience under direction of faculty member.

Prerequisite(s): Admission to NEUR PhD, and permission of instructor.

Notes: May be repeated as needed.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

NEUR 998 - Dissertation Proposal

Credits: 1-6
Repeatable within Degree
Covers development of a research proposal under guidance of dissertation director and doctoral committee. Proposal forms the basis for the doctoral dissertation.

Prerequisite(s): Admission to the Neuroscience Ph.D. program.

Notes: Course may be repeated as needed; however, no more than a total of 24 credits in NEUR 998 and 999 may be applied toward satisfying doctoral degree requirements. Out of the 24, no more than 12 credits of NEUR 998 may be applied.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

NEUR 999 - Doctoral Dissertation
Credits: 1-12
Repeatable within Degree
Doctoral research performed under the direction of the dissertation director.

Prerequisite(s): Admission to candidacy in neuroscience doctoral program.

Notes: May be repeated as needed; however, no more than a total of 24 credits in NEUR 998 and 999 may be applied toward satisfying doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: S/IP

New Century College (NCLC)

Offered by the College of Humanities and Social Sciences

NCLC 101 - Narratives of Identity

Credits: 6
Not Repeatable
Explores the concept of identity through the study of literature and oral communication. Introduces aesthetic, cultural, and historical aspects of these forms of communication as well as their psychological, political, and practical significance, with special emphasis on the role of communication in a free society.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

NCLC 102 - Global Networks and Communities

Credits: 6
Not Repeatable

Prepares students for participation in a global society by investigating global and local issues in a historical context. Considers critical topics of western civilization, globalization, (neo)colonialism, imperialism, and hegemony. Students gain an in-depth perspective of the intricate relationships between people and cultures at various moments in our history.
Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

NCLC 103 - Human Creativity: Science and Art
Investigates the vital role played by human creativity in fine arts and natural sciences. Fosters an understanding of the aesthetic and intellectual components of the arts while exploring the scientific method, the relation of theory and experiment, and the development and elaboration of major ideas in science. Designated a Green Leaf Course.

**NCLC 165 - Independent Study**

Credits: 1-12  
Repeatable within Term  
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor). Students are encouraged to work as a team on a particular topic.  

Prerequisite(s): Permission of instructor and dean.

Notes: Maximum 12 credits can be used to fulfill graduation requirements.

**NCLC 194 - Service-Learning Experience**

Credits: 1-15  
Repeatable within Term  
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams.

**NCLC 195 - Field-Based Work**

Credits: 1-6  
Repeatable within Term  
Directed field studies in topic not otherwise available to students.

Notes: Topics vary, but entire course or significant component is located off campus. In addition to fieldwork, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of
required field trips and should consult Center for Field Studies for more information.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0

---

**NCLC 200 - Visual Thinking and the Creativity**

Credits: 3-15  
Not Repeatable  
Investigates modes of visual and textual creativity through art, literature, and variety of visual and textual forms. Through interdisciplinary approach to picturing text, provides opportunity to experiment with creative composition that includes visual elements, and with art forms that include textual elements. Explores blocks to creativity, and provides understanding of how to evaluate and write about visual texts as well as how to produce documents that integrate words and images.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1

---

**NCLC 201 - The World Since 1945**

Credits: 6  
Not Repeatable  
Examines the history of the past 50 years to illuminate the contemporary world as well as build connections between the global and local. Using historical works, fiction, autobiographies, films, and daily newspapers, students explore such major events as the Cold War, the struggle against apartheid in South Africa, the Vietnam War, the Chinese Cultural Revolution, and the continuing conflict in the Middle East. As a learning community, requires active student participation in group projects and discussions.

**Hours of Lecture or Seminar per week:** 3-15  
**Hours of Lab or Studio per week:** 0

---

**NCLC 202 - Public Speaking and Critical Thinking Skills**

Credits: 4  
Not Repeatable  
Combines process of learning to speak in front of audiences with analysis of arguments and persuasive appeals. Students learn how to create and present effective speeches, adapt messages to specific audiences, and evaluate and critique messages produced for others. One credit of experiential learning enables students to examine public speeches, news stories, political campaigns, and advertising, among others, to make meaningful connections between public speaking theory and practice.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1

---

**NCLC 203 - Inquiry for Action: Facilitating Change**
Examine the relationships between academic research, individual acts and society’s social and political structures. Students design a community-based research project, explore a rich array of qualitative and quantitative approaches, apply information and communication technologies to all aspects of the research process, and learn from individuals and organizations outside the classroom.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

**NCLC 204 - Leadership Theory and Practice**

Credits: 3
Not Repeatable
Examine historical and contemporary leadership theories and invites students to be reflective of their own leadership experiences through the lenses of those theories. Students develop critical lenses through which to evaluate their own self-awareness, effectiveness in groups, and ability to navigate structures and systems.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

**NCLC 210 - Sustainable World**

Credits: 4
Not Repeatable
Covers basic issues in the natural and social sciences that underlie current environmental problems. Considers ethical matters such as equity as they pertain to global resource consumption, pollution, and climate change. Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

**NCLC 211 - Introduction to Conservation Studies**

Credits: 3-6
Not Repeatable
Provides foundation for the integrative study of environmental conservation. Formal and informal writing assignments and oral presentations designed to strengthen critical thinking and communication skills important to students who pursue conservation-related professions. Instructors encourage students to use course assignments and off-campus work to identify suitable educational and career paths within the conservation world. Designated a Green Leaf Course.
NCLC 215 - Introduction to Science and Society

Credits: 2
Not Repeatable
Provides students in the interdisciplinary minor in science and society with general background information and common frame of reference for developing an individualized core of course work. Students design a plan for their course work in the minor, envision the specific topic they will address, and begin preliminary preparation for NCLC 415.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NCLC 220 - Energy and Environment

Credits: 3-6
Not Repeatable
Investigates current sources of energy, various modes of their utilization, and environmental effects. Offers an overview of the mechanical, physical, and chemical methodologies of energy use and delves into the biological, environmental, and ecological aspects of pollution-generating mechanisms.
Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0

NCLC 231 - Introduction to Community Studies

Credits: 4
Not Repeatable
Examines relationship between sustainable communities and democratic citizenship in a diverse society. The objectives are to improve one's understanding of and thinking critically about communities and democratic principles, theories and practice. Students identify and work through problems that communities address by working in a community service-learning setting.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 244 - Beats, Rhyme, and Culture

Credits: 4
Not Repeatable
Examines the history of hip-hop and the effect it has had on our society. The primary focus is to consider hip-hop as a medium of communication that impacts, represents, and misrepresents the life experiences of youth in the United States. Students are
exposed to historical, socioeconomic, and musical/aesthetic contexts of this genre through in-class activities and by attending related cultural events.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1

**NCLC 245 - Visual Culture and Society**

Credits: 4  
Not Repeatable  
Explores the role of visual culture in contemporary society including an examination of photography, the visual and performing arts, film and video, and electronic media. Readings focus on the historical foundations of visuality as well as theories of visual culture and aesthetics. Students investigate the ways that forms of visual culture function in society and how these are linked to race, class, and gender as well as politics and economics. Students will gain hands-on experience working with contemporary visual media tools such as computer graphics and digital video editing.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1

**NCLC 249 - Digital Literacy**

Credits: 4  
Not Repeatable  
Investigates information literacy, the mobile web, and interactive and immersive media, including gaming, social networking, blogging and micro-blogging, intellectual, political and civic collaborations, digital aesthetics and emerging digital cultures and art forms. Explores major theories of digital literacy and culture and introduce diverse social, artistic, theoretical and cultural practices that characterize today's digital domains and virtual environments.

**Notes:** One experiential credit is required in this class.

**Hours of Lecture or Seminar per week:** 3-15  
**Hours of Lab or Studio per week:** 1

**NCLC 275 - Special Topics**

Credits: 1-18  
Repeatable within Term  
Studies topics of special interest to undergraduates.

**Notes:** May be repeated for a maximum of 18 credits when topic is different.

**Hours of Lecture or Seminar per week:** 3-15  
**Hours of Lab or Studio per week:** 0
NCLC 290 - Internship

Credits: 1-6
Repeatable within Term
Internship credit may be applied to 12 credits required in experiential learning.

Prerequisite(s): Sophomore standing and permission of instructor.

Notes: Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or associate dean. Structured and supervised professional experience, within an approved agency, for which the student earns academic credit. The primary purpose of an internship is to connect the student's academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 1-6
Grading: Undergraduate Special

NCLC 294 - Service-Learning Experience

Credits: 1-15
Repeatable within Term
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams.

Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

NCLC 295 - Field-Based Work

Credits: 1-18
Repeatable within Term
Directed field studies in topic not otherwise available to students.

Notes: Topics vary, but entire course or significant component is located off campus. In addition to fieldwork, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult Center for Field Studies for more information.

Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

NCLC 298 - Field-Based Work
Credits: 1-15
Repeatable within Term
Experiential-based individualized studies, mentored by instructor.

Notes: Topics decided by student and instructor, and approved by associate dean. Requirements must be detailed in individualized course contract signed by student, instructor, and associate dean. May include reading assignments, papers, journals, and portfolios.

Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

NCLC 300 - Law and Justice

Credits: 3
Not Repeatable
Combines various teaching methods including lectures, the Socratic method, case studies, discussion of readings and films, debates, and active inquiry-based learning to investigate the major institutions in the American legal system.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 301 - Science in the News

Credits: 3
Not Repeatable
Examination and discussion of the current trends in science as reported in the popular media. Students learn how to evaluate the science that is reported so they may become informed consumers; discuss how scientific advancement might shape society by looking at how science and society have changed together over time; and use examples from the past to discuss future trends.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 302 - Argument and Advocacy

Credits: 6
Not Repeatable
Develops theoretical background and skills necessary for effective civic engagement and deliberative discourse. Teaches fundamentals of argument construction, function, and analysis. Covers role of argument and advocacy in a democratic society.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0
NCLC 303 - Introduction to International Studies

Credits: 3  
Not Repeatable  
Explores a multi-disciplinary approach to addressing world issues. Combines lectures, field trips, discussion of readings, films, case studies, projects, and active inquiry-based learning to examine the natural environment, infectious disease and globalization, media and technologies, and war and violent conflict, with an attempt to deepen community members' understanding of an increasingly interdependent world.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

NCLC 304 - Social Movements and Community Activism

Credits: 4  
Not Repeatable  
Examines how citizens, individually and collectively, accomplish social change in society through case study analysis. Considers advantages and limits of social change strategies from communication and social movement theory perspectives. Surveys topics including how leaders maintain momentum in face of opposition; how movements and organizations use slogans, symbols and music to inspire followers; and how participants construct persuasive media campaigns and political arguments to facilitate policy change.

Fulfills writing intensive requirement in the major.

Notes: One credit of experiential learning enables students to explore their role as social advocates and effective citizens in context of community.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1

NCLC 305 - Conflict Resolution and Transformation

Credits: 6  
Not Repeatable  
Examines the nature and dynamics of conflict and ways to resolve and transform conflict. Experiential learning is used as the vehicle through which students explore their assumptions about communication and develop their skills for resolving interpersonal conflicts.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 6  
Hours of Lab or Studio per week: 0
NCLC 308 - American Landscapes in Fiction, Film, and History

Credits: 6
Not Repeatable
Waterways and roadways have always had practical, spiritual significance for Americans. Course looks at American literary works and films in historical context to better understand the roles roads, rivers play in shaping physical, cultural landscape of United States. Students explore course themes outside classroom on weekend field trips, and conduct self-directed road trip as a main learning events.

Fulfills Mason Core requirement in synthesis.

Fulfills writing intensive requirement in the major.

Notes: Satisfies requirements for ENGH 302.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 2

NCLC 310 - Violence and Gender

Credits: 3-6
Not Repeatable
Using nonfiction, research documentaries, oral histories, case studies, literature, feature films, music, dance, and visual arts, examines the dynamics of violence through different cultural lenses. Students work in university and community settings to integrate their academic experiences with practice.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0

NCLC 311 - The Mysteries of Migration: Consequences for Conservation

Credits: 6
Not Repeatable

Investigates the biology of migration and its implications for science policy. Students consider the phenomenon of migration in the context of natural history, conservation, and cultural issues. The course includes several weekend trips for field study. Designated a Green Leaf Course.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 312 - Images and Experiences of Childhood: Social Construct, Literature, and Film
NCLC 314 - Conflict, Trauma and Healing

Credits: 6
Not Repeatable
Develops in students an appreciation of human resilience and helps them acquire better coping mechanisms. Imparts knowledge of the nature and dynamics of trauma and healing. Investigates the difficulties people face in responding to settings of conflict such as war, school shootings, abuse, domestic violence, including natural disaster. Examines case studies from a variety of personal, national, and international settings.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

NCLC 315 - Spirituality and Conflict Transformation

Credits: 6
Not Repeatable
Examines dimensions of spirituality, including peacemaking efforts in large-scale conflicts, conflicts within faith communities, and interpersonal disputes. Experiential learning explores spiritually informed resolution.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

NCLC 316 - Introduction to Childhood Studies

Credits: 4
Not Repeatable
Focuses on the study of childhood from birth to adolescence from the perspective of several disciplines. Covers childhood theory, research, and policy and their applications to decisions regarding children and youth.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
NCLC 317 - Issues in Family Relationships

Credits: 4
Not Repeatable
Dynamics of family systems and issues that shape relationships among family members. How families evolve as members grow, leave, and create related family systems; family roles and forms; and communication patterns, decision-making, conflict, stress, and power. Content draws from family communication, family relations, psychology, and counseling. Lecture, discussion, observation, analysis, research, and role-playing.

Fulfills writing intensive requirement in the major.

Prerequisite(s): 55 credits.

Notes: One credit counts for experiential learning; students complete 45 credits of course-related work outside classroom.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 318 - Exploring Virginia's Watersheds

Credits: 4
Not Repeatable

Comprehensive overview of history, geography, economics, and management of water resources in Virginia; and how rapidly growing population has measurably degraded resource. Includes one weekend field trip.
Designated a Green Leaf Course.

Fulfills writing intensive requirement in the major.

Prerequisite(s): HIST 120, 121, 122, or equivalent; and EVPP 110 or GGS 102 or GEOL 109 or NCLC 120.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

NCLC 319 - Contemporary Youth Studies

Credits: 3
Not Repeatable
Examines the history of positive youth development, how scholars study youth, and the theories they use to guide their research. Evaluates the policies and programs aimed at empowering youth.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
NCLC 320 - Construction of Differences: Race, Class, and Gender

Credits: 6
Not Repeatable
Investigates race, sex, sexual orientation, and social class in contemporary American society. Examines commonalities in the construction of these categories and experiences of those who occupy them.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 321 - Parent-Child Relations

Credits: 3
Not Repeatable
Introduces students to concepts and challenges in parenting, along with family diversity and risk factors. Considers interactions between parents and children from birth to adolescence as well as cross-cultural, historical, and societal influences. Explores efforts that have been successful in changing detrimental parenting actions.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

NCLC 322 - Teacher: A Historical Perspective

Credits: 3
Not Repeatable
Examines the rich heritage of the teaching profession in Western society. Traces the history of educational philosophy and teaching, beginning with the ancient Greeks and culminating in the 21st century United States. Using the exploration of the various philosophies of education as a foundation, examines contemporary images of teachers in literature and film.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 331 - The Nonprofit Sector

Credits: 4
Not Repeatable
Readings, classroom discussions and activities, and practical experience reveal historical, legal, and socioeconomic forces that define and influence the American nonprofit sector. Explores structures, issues that affect nonprofit management, governing, and financial systems.
NCLC 333 - The Nature of Mathematics

Credits: 3
Not Repeatable
Include theoretical framework, historical context, connections with some other disciplines, and current issues. Selected mathematics topics such as advanced algebra and geometry and introductions to set theory, probability, calculus, and number theory.

Fulfills writing intensive requirement in the major.

Prerequisites: Performance on Math Placement Exam equivalent to requirements for entrance to MATH 110 or MATH 111, successful completion of algebra program in mathematics learning center, or any mathematics course that fulfills the Mason Core requirement in quantitative reasoning; OR permission of instructor.

NCLC 334 - Environmental Justice

Credits: 4
Not Repeatable
Examines historical and contemporary sociopolitical and socioeconomic conditions that have given rise to the environmental justice movement. Analyzes how individuals contribute to environmental justice or injustice through everyday decisions. Considers how environmental justice movement responds to these issues. Designated a Green Leaf Course.

Fulfills writing intensive requirement in the major.

NCLC 335 - Ethics, Communication, and Freedom

Credits: 3-6
Not Repeatable
Students examine ethical principles, discuss some underlying bases for these principles, and work to understand how such principles are experienced and can be applied in a free society. Focus is on examining potential conflicts between ethics and the freedoms believed essential to a healthy democratic society. Cases drawn from sports, medicine, media, politics, and business.
Fulfills writing intensive requirement in the major.

**Prerequisite(s):** Sophomore standing and 3 credits each of communication and philosophy; or permission of instructor.

**Hours of Lecture or Seminar per week:** 3-6  
**Hours of Lab or Studio per week:** 0

---

**NCLC 336 - Poverty, Wealth and Inequality in the US**

Credits: 3  
Not Repeatable  
Explores the social, cultural, political, and spiritual implications of poverty, wealth, and inequality in the United States. Examines the ways in which class identity informs one's views of the world and its politics; how socioeconomic status affects one's access to education and other social goods; and how dominant discourses and stereotypes related to poverty influence mass perception regarding a range of social issues, from educational policy to welfare.

Fulfills writing intensive requirement in the major.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NCLC 337 - Social Justice Consciousness and Personal Transformation**

Credits: 3  
Not Repeatable  
Explores the many spaces at which the quest to strengthen social justice consciousness interacts with processes and commitments for personal transformation. Analyzes through the lens of the activist and in the spirit of bringing mindfulness to activism, how we come to see and experience the world. Examines how socialization informs consciousness.

Fulfills writing intensive requirement in the major.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NCLC 338 - Animal Rights and Humane Education**

Credits: 3  
Not Repeatable

Explores a combination of critical theories, experiential learning, and dialogical practices to examine the ways in which non-human animals are exploited for human profit. Examines the ramifications of this exploitation ecologically, as a question of sustainability, and spiritually, as a question of the impact of animal abuse on the human spirit. Discusses the use of animals in entertainment, factory farming, animal testing, and sport or trophy hunting; and how individuals and organizations are fighting these practices.  
Designated a Green Leaf Course.
NCLC 345 - Introduction to Multimedia

Credits: 5
Not Repeatable
Technological, aesthetic, and educational issues of using interactive multimedia. Topics include theoretical underpinnings of some technological issues involved in multimedia computing as well as techniques for authoring interactive multimedia projects using a variety of digital media tools.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 346 - Art as Social Action

Credits: 4
Not Repeatable
This learning community explores historical records to understand different ways art has been produced, distributed, and consumed. Examines ways artists have affected change in their worlds. Through interdisciplinary studies, teaches major social movements and artists and theories used in socially engaged art. Students engage in experiential learning outside classroom as course requirement.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 347 - Gender Representation in Popular Culture

Credits: 3-6
Not Repeatable
Explores the way in which masculinity and femininity have been represented across the decades in television, movies, music videos, pop art, and print media. Provides a review of the scholarship on the historical and contemporary roles of women and men in society, and examines the contradictions and expectations associated with gender roles. Incorporates active group learning through creative, insight-oriented exercises, critical thinking and discussions, and group presentations and media research activities.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0
NCLC 348 - Digital Futures

Credits: 3-6
Not Repeatable
Investigates important contemporary issues such as surveillance-privacy, censorship, piracy, gender and ethnicity, digital labor and play, mobile media and globalization, and the commercialization and political potential of the digital public spheres. Introduces students to the latest technological, philosophical and creative thinking on the future of human society in a digital age.

Fulfills writing intensive requirement in the major.

Prerequisite(s): NCLC 249.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

NCLC 355 - Consciousness, Meaning and Life Purpose

Credits: 3
Not Repeatable
Examines scientific evidence about states of consciousness, providing opportunities for experiences and reflections about the personal impact of states of consciousness on how we find meaningful direction for using our talents. Includes the theory and practice of mindfulness and mediation; finding meaning in dreams; the stress-reduction and creativity-enhancement effects of visualization; and traditions of vision-questing about personal meaning and life purpose.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

NCLC 360 - The Built Environment

Credits: 6
Not Repeatable
Examines, records, and interprets objects, structures, and landscapes that compose our built environment. Draws on the fields of historical archaeology, architectural history, and urban geography, and employs photography, cartography, and evocative writing to represent the material world we inhabit. Builds on study of one neighborhood in Arlington, Virginia, and expands to entire metropolitan area.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0
NCLC 361 - Neighborhood, Community, and Identity

Credits: 3-6
Not Repeatable
Examines processes of neighborhood formation and transformation in the context of urbanism, suburbanism, immigration, and transmigration.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 362 - Social Justice and Human Rights

Credits: 3
Not Repeatable
Considers the philosophical foundations of social justice and human rights. explores the interpretive difficulties related to identifying what constitutes human rights abuses, and evaluates regional perspectives on human rights. Analyzes institutions that strive to promote and enforce social justice and human rights standards including the United Nations system. regional human rights bodies. and domestic courts.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 365 - Independent Study

Credits: 1-12
Repeatable within Term
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/labatory study (determined in consultation with instructor) Students are encouraged to work as a team on a particular topic.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Permission of instructor and dean.

Notes: Maximum 12 credits can be used to fulfill graduation requirements.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 1-12

NCLC 375 - Special Topics
Credits: 1-18
Repeatable within Term
Studies topics of special interest to undergraduates.

Fulfills writing intensive requirement in the major.

Notes: May be repeated for a maximum of 18 credits when topic is different.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 378 - Medicine, Justice, and Public Policy

Credits: 3
Not Repeatable
Explores formation of public policy relating to several key issues in medicine. Students examine basic theories of justice and public policy formation and apply these to contemporary issues in the field of medicine. The goal is to examine how current policy on these issues was established and to give examples of major stakeholders in the debate. This course involves some traditional lecture and discussion classes and also features participative learning through group work and web-based discussions.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 381 - When Cultural Worlds Collide

Credits: 6
Not Repeatable
Explores what happens when "civilization" encounters "the jungle" by reading, writing, discussing, and viewing written and filmed works dealing with contacts between cultures with colliding world views. Literature (from Conrad's *The Heart of Darkness* to Shakespeare's *The Tempest* to Burrough's *Tarzan*), news articles, radio broadcasts, web home pages, art exhibits, and many film and video presentations provide the basis for in-class and out-of-class activities.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 390 - Internship

Credits: 1-6
Repeatable within Term
Internship credit may be applied to 12 credits required in experiential learning.

Fulfills writing intensive requirement in the major.
Prerequisite(s): Sophomore standing and permission of instructor.

Notes: Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or associate dean. Structured and supervised professional experience, within an approved agency, for which the student earns academic credit. The primary purpose of an internship is to connect the student's academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 1-6
Grading: Undergraduate Special

NCLC 391 - Introduction to Integrative Studies

Credits: 3
Not Repeatable
Describes key components of the Integrative Studies Program in New Century College. Students prepare for active participation as a community of learners to develop skills in reflective learning and self-assessment, and identify areas of intellectual and professional interests, values and skills so that students may take greater advantage of opportunities in NCC. As a learning community, this course fosters group collaboration, intensive writing, and reflective learning.

Fulfills writing intensive requirement in the major.

Notes: Students may not enroll in this course after completing 12 or more learning community credits or simultaneously with or after completing NCLC 491.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 394 - Service-Learning Experience

Credits: 1-15
Repeatable within Term
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

NCLC 395 - Field-Based Work

Credits: 1-18
Repeatable within Term
Directed field studies in topic not otherwise available to students.

Fulfills writing intensive requirement in the major.

Notes: Topics vary, but entire course or significant component is located off campus. In addition to field work, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult Center for Field Studies for more information.

Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

NCLC 396 - Teaching Assistant Experience

Credits: 1-6
Repeatable within Degree
Teaching assistantship and peer-mentoring duties carried out through existing university programs, such as Technology Assistants, Writing Tutors, and Residence Advisors. Also includes teaching assistantship arrangements for specific courses detailed in individualized course contract signed by instructor and student. In addition to peer mentoring/advising, course work may include logistical support, reading assignments, papers, presentations, and portfolios.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

NCLC 397 - Add-On Experiential Learning

Credits: 1-3
Repeatable within Term
For students who wish to add one or more experiential learning credit to existing experiential learning course or learning community.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Must be enrolled in a learning community or experiential learning class to add this additional credit.

Notes: May also be used by students who wish to add an experiential learning component to course that provides no experiential learning credit (with permission of instructor). Unless experiential learning add-on requirements are spelled out in course syllabus, requirements for add-on experiential learning credit must be detailed in individualized course contract signed by instructor and student.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

NCLC 398 - Field-Based Work
Credits: 1-15
Repeatable within Term
Experiential-based individualized studies, mentored by instructor.

Fulfills writing intensive requirement in the major.

Notes: Topics decided by student and instructor and approved by associate dean. Requirements must be detailed in individualized course contract signed by student, instructor, and associate dean. May include reading assignments, papers, journals, and portfolios.

Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

NCLC 399 - Study Abroad

Credits: 1-6
Repeatable within Term
Intended for participation in formally organized course offered by Center for Global Education.

Fulfills writing intensive requirement in the major.

Notes: May be repeated for a maximum of 16 credits.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

NCLC 400 - Temptress: Constructs of Sex and Power

Credits: 3
Not Repeatable
Examines the portrayal of powerful and/or sexual women throughout history, identifying famous historical "temptresses" and investigating the facts known about them. Explores representations and perceptions of contemporary female sexuality, considering possible future concepts and images of female power and sexuality.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 401 - Conservation Biology

Credits: 6
Not Repeatable

Provides students with a working knowledge of conservation biology. Integrates the study of social, economic, and political
factors with biodiversity, population modeling, habitat degradation, and management issues. Students confront the leading edge of this exciting field by developing real species conservation plans. The experiential learning component of the course will include trips to the Smithsonian Institution's Conservation and Research Center in Front Royal, Virginia, to study with nationally known experts.

Designated a Green Leaf Course.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Junior standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 402 - Plants and People - Sustenance, Ceremony, and Sustainability

Credits: 6
Not Repeatable

Examines the direct relationships between people and plants by integrating perspectives from both ethnobotany and economic botany. Provides students with an appreciation of the fundamental role of plants and plant-derived products in all aspects of human life in both industrialized and non-industrialized societies. Explores how plants and their uses have shaped both past and present cultures around the world.

Designated a Green Leaf Course.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

NCLC 403 - Conservation Behavior

Credits: 6
Not Repeatable

Introduces students to conservation behavior, a field that seeks to apply theories of animal behavior towards solving biological conservation and wildlife management problems. Consists of interactive lectures, readings (including a text and primary literature) and discussion, and hands-on, inquiry-based experiential learning while working in groups at the National Zoo to design and conduct independent behavioral-based research on endangered species.

Hours of Lecture or Seminar per week: 6

NCLC 404 - Ethics and Leadership

Credits: 4
Not Repeatable

Uses an interdisciplinary approach to deepen and broaden student's learning about theories, models, and constructs related to the study and practice of ethics and leadership. Teaches students to develop ethical decision making strategies, communicate
effectively in diverse group settings, value civic engagement and actively apply ethical leadership skills. Includes experiential learning activities and discussions that connect formal knowledge with real world experiences and includes one credit of experiential learning.

Fulfills writing intensive requirement in the major.

**Hours of Lecture or Seminar per week:** 4  
**Hours of Lab or Studio per week:** 0

**NCLC 405 - Women and Leadership**

Credits: 4  
Not Repeatable  
Examines leadership within the context of the theoretical principles of women's studies through discussion of course texts, interactive exercises, field trips, documentary films, guest speakers, and reflection. Investigates the role that gender plays in the various forms of leadership and leadership styles. Explores the historical record of women in leadership roles, identifying the barriers as well as the opportunities.

Fulfills writing intensive requirement in the major.

**Hours of Lecture or Seminar per week:** 4  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

**NCLC 410 - Contemporary Health Issues**

Credits: 3-18  
Not Repeatable  
Looks at a variety of health and health care issues. Examines several of the major health concerns of women and, to a lesser degree, men. Also explores the biology and medical implications of these diseases and how our society deals with potential life-altering information. Examines who is making the decisions on the allocation of research funds and prevention of diseases.

Fulfills writing intensive requirement in the major.

**Hours of Lecture or Seminar per week:** 3-15  
**Hours of Lab or Studio per week:** 0

**NCLC 415 - Perspectives on Science and Society**

Credits: 1  
Not Repeatable  
Capstone course for the interdisciplinary minor in science and society. Helps students integrate material from their individualized core of courses and make explicit connections among the various disciplines. Provides opportunity for students to share their experiences, expanding their breadth of knowledge in this important and timely area of study.

Fulfills writing intensive requirement in the major.
Prerequisite(s): NCLC 215 and completion of 17 credits toward the minor in science and society.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

NCLC 416 - Refugee and Internal Displacement

Credits: 3
Not Repeatable
Provides students with a deeper understanding of refugee and internal displacement. Explores causes of displacement and its impact on people and societies. Studies the role played by governments, non-governmental organizations (NGOs) and the international community in addressing problems faced by refugees in internally displaced persons in terms of relief assistance and humanitarian services.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 420 - Work Effectiveness Skills

Credits: 3
Not Repeatable
Develops a variety of work-readiness skills needed to become successful in both local and global marketplaces. Topics and skills covered include communication, problem solving in the business setting, workplace ethics, listening skills, how to influence others, building team project rapport, and meeting effectiveness skills.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 422 - An Experiential Approach to American Foreign Policy

Credits: 3-6
Not Repeatable
Takes an experiential approach to the study of American foreign policy. Through case studies, discussions, group projects, and directed research, students learn how foreign policy is made and executed and how they as citizens, activists, or officials can influence national decisions.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0
NCLC 431 - Principles of Fund Raising

Credits: 4
Not Repeatable
Examines history of philanthropy and public policy, and the economic and legal frameworks that shape it. Combining theory and practice, students study human behavior, communications, and management systems that are hallmarks of successful fund raising, and begin to develop skills to generate donations, foundation grants, and other unearned revenue for a nonprofit organization.

Fulfills writing intensive requirement in the major.

Prerequisite(s): NCLC 331.

Notes: Includes 1 experiential learning credit.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 435 - Leadership in a Changing Environment

Credits: 4
Not Repeatable
Examines diverse definitions and processes of change across multiple complex contexts. Focuses on identifying innovative, collaborative solutions to seemingly intractable social problems. Explores topics such as social change and globalization, creative conflict resolution, the nature of power, oppression and influence, and systemic leadership.

Fulfills writing intensive requirement in the major.

Prerequisite(s): 60 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 436 - Social Justice Education

Credits: 4
Not Repeatable
Examines educational policy, practice, and materials using a variety of lenses informed by social justice theory and praxis. Investigates ways in which racism, sexism, economic injustice, heterosexism, ageism, and other forms of discrimination influence schools and educational access and opportunity for youth. Considers and practices what individuals and communities can do to ensure that all students have equitable educational opportunities.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
NCLC 440 - Death, Dying, and Decision Making

Credits: 3
Not Repeatable
Interdisciplinary examination of clinical care of dying persons along with psychosocial issues related to processes of death and dying. Special emphasis on application of ethical principles in resolving complex problems for individuals with life-threatening illnesses and their families as care givers or decision makers. Students consider the changing norms and mores surrounding end-of-life decisions and explore the care available to terminally ill patients.

Fulfills writing intensive requirement in the major.

Prerequisite(s): 60 credits, or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 445 - Multimedia Design

Credits: 5
Not Repeatable
Technological, aesthetic, and educational issues of using interactive multimedia. Topics include theory and practice, integration of digital media, interface and navigation studies, and technical constraints on design.

Fulfills writing intensive requirement in the major.

Prerequisite(s): NCLC 345, or permission of instructor.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 1

NCLC 446 - Art, Beauty, and Culture

Credits: 3-6
Not Repeatable
Designed to help students understand the culture- and time-bound nature of beauty as it relates to art. Exploration of how the codes of acceptability in art forms have changed over time, with discussion about the subversive nature of art and the role that beauty plays in art that is created to engage the viewer in some type of action. Exercises include research projects, site visits, and gallery attendance.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0

NCLC 455 - Consciousness and Transformation in Action
Credits: 3
Not Repeatable
Covers how principles and practices of consciousness and transformation relate to the major and career pathway it represents. Includes the theory and practices for deepening the student's own experience with the mindfulness and contemplative approaches to inquire. Capstone course for the minor in consciousness and transformation.

Fulfills writing intensive requirement in the major.

Prerequisite(s): NCLC 355 and 356

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

NCLC 465 - Independent Study

Credits: 1-12
Repeatable within Term
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor) Students are encouraged to work as a team on a particular topic.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Permission of instructor and dean.

Notes: Maximum 12 credits can be used to fulfill graduation requirements.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 1-12

NCLC 475 - Special Topics

Credits: 1-18
Repeatable within Term
Studies topics of special interest to undergraduates.

Fulfills writing intensive requirement in the major.

Notes: May be repeated for a maximum of 18 credits when topic is different.

Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

NCLC 490 - Internship
Credits: 1-6
Repeatable within Term
Internship credit may be applied to 12 credits required in experiential learning.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Sophomore standing and permission of instructor.

Notes: Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or associate dean. Structured and supervised professional experience, within an approved agency, for which the student earns academic credit. The primary purpose of an internship is to connect the student's academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options.

Hours of Lecture or Seminar per week: 1-2
Hours of Lab or Studio per week: 1-6
Grading: Undergraduate Special

NCLC 491 - The Senior Capstone Experience

Credits: 3
Not Repeatable
Should be taken semester before graduation; 85 credits required. Graduation requirement for integrative studies students. Students complete final NCC portfolio and senior exposition. Provides information on issues of professional development (interviewing skills, resume development, career strategies, and alumni opportunities).

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 492 - Graduation Portfolio

Credits: 0
Repeatable within Degree
Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

NCLC 493 - Graduation Portfolio

Credits: 0
Repeatable within Degree
Fulfills writing intensive requirement in the major.
Notes: NCLC 493 is for students who will not be enrolled in any other course work for the semester.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

**NCLC 494 - Service-Learning Experience**

Credits: 1-15
Repeatable within Term
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams.

Fulfills writing intensive requirement in the major.

Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

**NCLC 495 - Field-Based Work**

Credits: 1-18
Repeatable within Term
Directed field studies in topic not otherwise available to students.

Fulfills writing intensive requirement in the major.

Notes: Topics vary, but entire course or significant component is located off campus. In addition to field work, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult Center for Field Studies for more information.

Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

**NCLC 496 - Teaching Assistant Experience**

Credits: 1-6
Repeatable within Degree
Teaching assistantship and peer-mentoring duties carried out through existing university programs, such as technology assistants, writing tutors, and residence advisors. Also includes teaching assistantship arrangements for specific courses detailed in individualized course contract signed by instructor and student. In addition to peer mentoring/advising, course work may include logistical support, reading assignments, papers, presentations, and portfolios.

Fulfills writing intensive requirement in the major.
NCLC 497 - Add-On Experiential Learning

Credits: 1-3
Repeatable within Term
For students who wish to add one or more experiential learning credit to existing experiential learning course or learning community.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Must be enrolled in a learning community or experiential learning class to add this additional credit.

Notes: May also be used by students who wish to add an experiential learning component to course that provides no experiential learning credit (with permission of instructor). Unless experiential learning add-on requirements are spelled out in course syllabus, requirements for add-on experiential learning credit must be detailed in individualized course contract signed by instructor and student.

NCLC 498 - Field-Based Work

Credits: 1-15
Repeatable within Term
Experiential-based individualized studies, mentored by instructor.

Fulfills writing intensive requirement in the major.

Notes: Topics decided by student and instructor and approved by associate dean. Requirements must be detailed in individualized course contract signed by student, instructor, and associate dean. May include reading assignments, papers, journals, and portfolios.

NCLC 504 - Leadership Theory, Praxis, and Development

Credits: 3
Not Repeatable
Explores contemporary leadership theories, models, and concepts using a theory-to-practice-to theory framework. Covers leadership theory, supporting research, and practical application. Focuses on active learning through classroom presentations, course texts, a reflection on theory and practice, and team work.

Prerequisite(s): Permission of instructor.
NCLC 510 - Institutional Records Keeping

Credits: 3
Not Repeatable

Offers students the theory and mechanics of animal records-keeping and identifies the important role accurate records play in successful captive management. Instruction is in the new ISIS Zoological Information Management System (ZIMS) Application, with hands-on training to learn about the capacity of ZIMS for use as a complete information management system.

Prerequisite(s): Admission to MAIS ZAL concentration or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 511 - Career Development

Credits: 3
Not Repeatable

Focuses on traditional and industry-specific nonprofit management topics ranging from marketing to education. It is one of a series of three management courses for MAIS ZAL students.

Prerequisite(s): PUAD 505 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 512 - Organizational Development

Credits: 3
Not Repeatable

Covers traditional zoo and aquarium organization topics, strategic planning, human resources, leadership styles, crisis management, and personal ethics. It is one of a series of three management courses for MAIS ZAL students.

Prerequisite(s): NCLC 511

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 513 - Population Management I: Data Acquisition and Processing
NCLC 513 - Population Management I: Data Collection and Computerized Management

Credits: 3
Not Repeatable
Teaches students to collect, process, and enter data into the studbook computer software program PopLink. Introduces basic principles of captive population management and how to use the studbook data to describe the history of the population as well as the natural history of the species in zoo and aquarium collections.

Prerequisite(s): Admission to MAIS ZAL program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 514 - Population Management II: Data Analysis and Breeding Recommendations

Credits: 3
Not Repeatable
Educates students to be competent population managers with the ability to manage the genetic health of captive populations in zoos and aquariums.

Prerequisite(s): NCLC 513 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

NCLC 515 - Information Technology for Zoos and Aquariums

Credits: 3
Not Repeatable
Examines opportunities and best practices for leading and managing zoos and aquariums in the information age. Includes connecting zoo strategy and technology strategy; developing IT governance; and utilizing technology to further animal care, enhance operations, connect to patrons and increase revenues. Specific applications include zoological information systems, back office enterprise systems, GIS, eCommerce, and social media.

Prerequisite(s): Graduate or graduate non-degree standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NCLC 520 - Conservation Education

Credits: 3
Not Repeatable
Provides students with a comprehensive view of best practice and an understanding of pedagogical reform necessary to provide excellence in modern zoo and aquarium education. Focuses on public education and K-12 program development.

Prerequisite(s): Admission to MAIS ZAL program or permission of instructor.
NCLC 522 - Developing an Institutional In Situ Conservation Strategy

Credits: 3
Not Repeatable
Edcutes students about the process and disciplines necessary to facilitate the professional development of an institutional in situ conservation strategy. Teaches students key components of a successful institutional conservation strategy. Presents model for strategy development that can be used as a guide to develop institutionally specific strategies.

Prerequisite(s): Admission to MAIS ZAL program or permission of instructor.

NCLC 523 - Managing Animal Enrichment and Training Programs

Credits: 3
Not Repeatable

Provides students with skills to develop and/or enhance their zoo or aquarium's enrichment and training programs. Specifically, the goal of the course is to provide the leadership skills and structural framework needed to create and maintain successful enrichment and training programs.

Prerequisite(s): Admission to MAIS ZAL program or permission of instructor.

NCLC 540 - Contemporary Issues in Social Justice & Human Rights

Credits: 3
Not Repeatable

Students will examine, study the socio-historical significance of, and consider solutions for some of the most pressing social justice and human rights issues in the world today. The issues examined will cut across identity, region, and scope, and may include concerns as varied as human trafficking, hegemony, animal abuse, child labor, and sexism.

NCLC 565 - Independent Study in Zoo and Aquarium Leadership
Credits: 1-3
Repeatable within Degree
Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study. Requires course contract sign by instructor and NCC dean.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

NCLC 595 - Experiential Learning

Credits: 1-3
Repeatable within Term

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

NCLC 625 - Online Library Research for the Zoo and Aquarium Professional

Credits: 3
Not Repeatable
Examines methods and resources used to conduct effective research online. Topics include searching library research databases, locating full text articles and books, citation management, and the ethical use of information. Students develop their understanding of the expectations of the scientific method and ethical conduct among zoo and aquarium professionals through the discussion of relevant case studies.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Nursing (NURS)

Offered by the College of Health and Human Services

NURS 305 - Application of Basic Nursing Techniques

Credits: 1
Not Repeatable
To be taken fall semester of accelerated second degree program. Introduces basic nursing technologies, and provides opportunities to apply these skills in simulated technology lab.

Prerequisite(s): Acceptance into accelerated second degree pathway.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 2
**NURS 309 - Introduction to Basic Nursing Care**

Credits: 3  
Not Repeatable  
Enrollment restricted to second-degree students only. Introduces basic fundamentals of nursing care across the life span. Emphasis on nursing process, critical thinking, and foundational technologies and skills required to practice in the health care setting.

**Prerequisite(s):** Acceptance into accelerated nursing pathway.  
**Corequisite(s):** NURS 310  
**Notes:** Enrollment restricted to second-degree students only.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 310 - Application of Basic Nursing Care**

Credits: 3  
Not Repeatable  
Application of basic nursing care in acute care settings utilizing the nursing process.

**Prerequisite(s):** Acceptance into accelerated second degree program.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 9

**NURS 312 - Basic Nursing Care of Adults**

Credits: 4  
Not Repeatable  
Provides the student the opportunity to practice health assessment and fundamental nursing skills with adult medical/surgical clients, including those who are culturally diverse, vulnerable, and experiencing physiological, psychological, and social health problems.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 12  
**When Offered:** Fall

**NURS 319 - Pathophysiological Basis for Nursing Care of Individuals and Small Groups**

Credits: 4  
Not Repeatable
Focuses on pathophysiological, psychological, sociocultural, and risk-reduction factors related to nursing care for clients with psychiatric conditions, as well as for child-bearing women, infants, children, and adolescents with acute health care needs.

**Prerequisite(s):** Acceptance into accelerated nursing pathway.

**Hours of Lecture or Seminar per week:** 4  
**Hours of Lab or Studio per week:** 0

### NURS 330 - Nursing Fundamentals

Credits: 3  
Not Repeatable  
Introduces nursing process and communication skills as the foundation for beginning health assessment and fundamental nursing care for culturally diverse individuals throughout the life span.

**Prerequisite(s):** Acceptance into traditional nursing pathway.

**Corequisite(s):** NURS 331.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

### NURS 334 - Nursing as a Health Profession and Discipline

Credits: 3  
Not Repeatable  
Introduces nursing as a dynamic and caring health profession, the impact of epidemiology, health promotion, and disease prevention on health status of culturally diverse and vulnerable individuals, families, small groups, and communities throughout life span. Incorporates nursing and critical thinking processes as they apply to the art and science of nursing. Historical perspectives on ethical, legal, political, and social issues are included.

**Prerequisite(s):** Acceptance into RN or accelerated nursing pathway.

**Corequisite(s):** NURS 309 and 310 for second-degree students only.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### NURS 336 - Concepts in Professional Nursing as a Discipline

Credits: 3  
Not Repeatable  
Provides an analysis of the profession and explores nursing philosophies and theories. Explores legal, ethical, political, and technological issues in health care at various nursing levels. Addresses critical thinking and its application to the collaborative nursing process. Utilizes the American Psychological Association formatting style for professional writing within the nursing
profession.

Notes: Must be admitted to the RN-to-BSN program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NURS 337 - Application of Nursing Fundamental Technologies

Credits: 1
Not Repeatable
Opportunity to practice health assessment and fundamental nursing technologies while using communication skills with culturally diverse and vulnerable populations in a variety of settings.

Prerequisite(s): Junior standing.

Corequisite(s): NURS 330 and 331

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 2

NURS 343 - Pharmacology

Credits: 3
Not Repeatable
Covers principles of pharmacokinetics, pharmadynamics of selected drug classifications, and nursing responsibilities related to drug administration to individuals throughout life span.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 344 - Intermediate Nursing Technologies

Credits: 1
Not Repeatable
Laboratory course to assist students in acquiring therapeutic nursing interventions. Technologies presented are asepsis and wound care, administration of medications including dosage calculations, and management of intravenous therapy.

Prerequisite(s): NURS 330, 331, 332, 337, 347, 357, 425.

Corequisite(s): NURS 341.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 2
When Offered: Spring
NURS 347 - Adult Pathophysiology and Nursing Care

Credits: 2
Not Repeatable
Introduces changing health needs of culturally diverse and vulnerable populations. Focuses on nursing care; and pathophysiological, psychological, sociocultural, and risk reduction implications of frequently experienced health problems in the adult population.

Prerequisite(s): Acceptance into junior standing.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 348 - Maternal-Newborn Physiology, Pathophysiology, and Nursing Care

Credits: 2
Not Repeatable
Introduces normal and abnormal processes with maternal-infant clients including cultural diversity and vulnerable populations. Focuses on normal physiological, pathophysiological, psychological, sociocultural, risk reduction, and nursing care of these clients.

Prerequisite(s): Acceptance into junior standing.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 349 - Pediatric Pathophysiology and Nursing Care

Credits: 2
Not Repeatable
Focuses on changing health needs of culturally diverse and vulnerable populations. Includes nursing care, pathophysiological, psychological, sociocultural, and risk-reduction implications of frequently experienced health problems in pediatric population.

Prerequisite(s): Acceptance into junior standing.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 350 - Application of Nursing Care for Individuals and Small Groups

Credits: 5
Not Repeatable
Includes five weeks of clinical experience in each specialty area, with focus on obstetric and family nursing, pediatric, and psychiatric mental health nursing. Students may also follow selected clients in clinics or home situations. Clinical consists of two
full days per week in acute-care agencies.

**Prerequisite(s):** NURS 334, 305, 309, 310, 319, and 425

**Corequisite(s):** NURS 351, 419, and 353.

**Notes:** Open to accelerated second degree students

**Hours of Lecture or Seminar per week:** 1-6
**Hours of Lab or Studio per week:** 15

---

**NURS 351 - Application of Intermediate Nursing Technologies**

Credits: 1
Not Repeatable
Introduces intermediate nursing technologies and provides opportunities to apply these skills in simulated technology lab.

**Prerequisite(s):** NURS 309, 310, 319, 334, 425

**Hours of Lecture or Seminar per week:** 1-3
**Hours of Lab or Studio per week:** 2

---

**NURS 358 - Health Promotion and Disease Prevention in Maternal/Infant Nursing**

Credits: 2
Not Repeatable
Provides the student an opportunity to perform nursing care to the maternal/infant client, including those who are culturally diverse and vulnerable, and experiencing physiological, psychological, and social health problems in a variety of settings.

**Prerequisite(s):** NURS 348

**Corequisite(s):** NURS 348

**Notes:** Enrollment is controlled.

**Hours of Lecture or Seminar per week:** 1-6
**Hours of Lab or Studio per week:** 6

---

**NURS 359 - Health Promotion and Disease Prevention in Pediatric Nursing**

Credits: 2
Not Repeatable
Provides the student an opportunity to perform nursing care to the pediatric client, including those who are culturally diverse and vulnerable, and experiencing physiological, psychological, and social health problems in a variety of settings.

**Prerequisite(s):** NURS 349
Corequisite(s): NURS 349

Notes: Enrollment is controlled.

Hours of Lecture or Seminar per week: 1-9
Hours of Lab or Studio per week: 6

**NURS 388 - Problem-Based Clinical Inquiry**

Credits: 3
Not Repeatable
Focuses on analyzing clinical problems and attempts to resolve issues using critical thinking. Students examine the data in the cases, draw inferences, make deductions, identify assumptions, generate interpretations, evaluate weakness and strengths of arguments, and document their findings.

Prerequisite(s): Completion of NURS 425, 330, 331, 332, 337, and one junior-level clinical course (NURS 357, 358, or 359)

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

**NURS 410 - Nursing Care of Clients with Pathological Conditions**

Credits: 3
Not Repeatable
Encompasses complex health problems of culturally diverse and vulnerable populations throughout the life span. Focuses on nursing care needs and pathophysiological, psychological, and sociocultural implications of complicated health problems.

Prerequisite(s): Completion of all junior year nursing courses

Corequisite(s): Completion of computer NCLEX review required to fulfill course requirements

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**NURS 419 - Pathophysiological Basis for Nursing Care of Individuals and Small Groups II**

Credits: 3
Not Repeatable
Enrollment restricted to second degree students only. Focuses on pathophysiological, psychological, sociocultural, and risk reduction factors related to nursing care of child-bearing women, infants, children, and adolescents experiencing acute health care problems.

Prerequisite(s): NURS 305, 309, 310, 319, 334, 425.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
NURS 425 - Comprehensive Health Assessment

Credits: 3
Not Repeatable
Open only to RNs and LPNs. Introduces systematic health assessment across the life span, and expands that knowledge base to include knowledge and skills necessary to perform comprehensive health assessments with culturally diverse and vulnerable populations.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 2
When Offered: Fall, Spring

NURS 427 - Advanced Technologies for the Accelerated Pathway

Credits: 1
Not Repeatable
Advanced technology course developing knowledge base related to acquisition of advanced skills in nursing practice. Refinement of assessment skills associated with selected advanced technologies integrated into this laboratory course.

Prerequisite(s): NURS 305, 309, 319, 334, 350, 351, 419, 425, 436, 440, 453.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 2

NURS 428 - Community Health Clinical for the Accelerated Pathway

Credits: 2
Not Repeatable
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis on health promotion and disease prevention for well populations, and community-based care for individuals and families with acute and chronic illness.

Prerequisite(s): NURS 436 and 440.

Hours of Lecture or Seminar per week: 1-9
Hours of Lab or Studio per week: 6

NURS 429 - Preceptorship for the Accelerated Pathway

Credits: 3
Not Repeatable
Opportunity to deliver collaborative nursing care to culturally diverse and vulnerable populations.

Prerequisite(s): NURS 309, 310, 320, 343, 419, and 436.
Notes: Concentrated clinical experiences available in selected institutional settings.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 9

NURS 434 - Vulnerable Populations

Credits: 3
Not Repeatable
Focuses on the care of vulnerable and aging populations. Students will examine health disparities, health literacy, and multicultural issues that impact the delivery of health care. Students will analyze health care policies and health care delivery models that offer potential interventions for the identified needs of these populations.

Prerequisite(s): Completion of the Mason Core requirements.

Corequisite(s): Completion of NURS 334 as pre or co-requisite.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

NURS 436 - Leadership and Management of Health Care

Credits: 3
Repeatable within Degree
Introductory course in the leadership and management of health-related organizations. Reviews administrative issues in health-related services with particular emphasis on developing organizational strategies for effective interfacing of medical, nursing, allied health, and administrative staff.

Prerequisite(s): Completion of all junior year nursing courses

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

NURS 440 - Community Health and Epidemiology

Credits: 3
Repeatable within Degree
Addresses population-focused health care. Emphasis is on primary, secondary, and tertiary prevention of health problems. Concepts of community, public health, and health policy affecting culturally diverse and vulnerable populations are examined.

Prerequisite(s): Senior standing.

Hours of Lecture or Seminar per week: 3
NURS 451 - Advanced Clinical Preceptorship

Credits: 5  
Not Repeatable  
Opportunity to provide complex, collaborative nursing care to culturally diverse and vulnerable populations.

Notes: Concentrated clinicals available in selected institutional settings.

Hours of Lecture or Seminar per week: 1-6  
Hours of Lab or Studio per week: 15  
When Offered: Fall, Spring

NURS 453 - Research in Nursing

Credits: 3  
Repeatable within Degree  
Introductory research course designed to present basic concepts and methods of research. The research process is examined as a foundation for scholarship. Emphasis on critique and use of current nursing and research in clinical practice.

Prerequisite(s): STAT 250 or equivalent; acceptance into one of BSN nursing pathway.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

NURS 455 - Advanced Technologies in Nursing

Credits: 1  
Not Repeatable  
Opportunity to acquire advanced skills in nursing practice. Refinement of assessment skills associated with selected advanced technologies integrated into this laboratory course.

Corequisite(s): NURS 451.

Hours of Lecture or Seminar per week: 1-3  
Hours of Lab or Studio per week: 4

NURS 457 - Introduction to Nursing Informatics

Credits: 3  
Not Repeatable  
This introductory course focuses on the use of computer technology in nursing and healthcare. The student evaluates software
applications and assesses the merit of health-related information on the Internet. Students will engage in projects aimed at solving patient care problems in a variety of technologically-enhanced health care settings.

Corequisite(s): Senior year

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

NURS 465 - Examination and Integration of Professional and Health Care Issues

Credits: 3
Not Repeatable
Provides students with opportunities to examine issues in health care through reflection on the natural and behavioral sciences, humanities and other prerequisite coursework. Selected topics are examined through reading, writing and discussion. Formal and informal writing on issues is expected. Students receive written self-evaluation as well as formal review by peers and faculty members involved in teaching the course.

Fulfills Mason Core requirement in synthesis.

Fulfills writing intensive requirement in the major.

Equivalent to HAP 465 (2011-2012 Catalog).

Prerequisite(s): Required Mason Core courses (including ENGL 302/ENGH 302).

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

NURS 466 - Community Health Nursing

Credits: 2
Not Repeatable
This course addresses population-focused health care. Concepts of public health, epidemiology, environmental health, extended roles in nursing and health policy affecting culturally diverse and vulnerable populations are examined.

Prerequisite(s): Completion of all junior year nursing courses

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 467 - Clinical in Community Health Nursing

Credits: 2
Not Repeatable
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community.
Emphasis is on health promotion and disease prevention for well populations and community-based care for individuals and families with acute chronic diseases.

**Prerequisite(s):** NURS 410, 436, 466

**Corequisite(s):** NURS 442, 466

**Hours of Lecture or Seminar per week:** 1-3
**Hours of Lab or Studio per week:** 6

---

**NURS 468 - Psychiatric and Mental Health Nursing**

Credits: 2
Not Repeatable
Focuses on the nursing care, pathophysiological and psychological, social-cultural, and risk reduction implications of health problems in the area of mental health and psychiatric nursing.

**Prerequisite(s):** Completion of all junior year nursing courses

**Notes:** Open to traditional and LPN students only.

**Hours of Lecture or Seminar per week:** 2
**Hours of Lab or Studio per week:** 0

---

**NURS 469 - Clinical in Psychiatric and Mental Health Nursing**

Credits: 2
Not Repeatable
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis is on health promotion and disease prevention for well populations and community-based care for individuals and families with acute chronic diseases.

**Prerequisite(s):** NURS 410, 436

**Corequisite(s):** NURS 442, 468

**Notes:** Open to traditional and LPN students only.

**Hours of Lecture or Seminar per week:** 1-12
**Hours of Lab or Studio per week:** 6

---

**NURS 488 - Inquiry-Based Clinical Seminar**

Credits: 2
Not Repeatable
Students focus on a selected client they have provided care for during their NURS 451 clinical preceptorship. Students examine the data in the case, draw inferences, make deductions, identify assumptions, and generate interpretations regarding the client's
problems. The class will participate as a group in the inquiry process to identify strengths and weaknesses of the arguments presented.

Prerequisite(s): Completion of junior-level nursing courses, NURS 410 and NURS 436

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 491 - Critical Thinking and Analysis of Test Taking Strategies

Credits: 3
Not Repeatable
Increases test-taking abilities and improves critical-thinking skills related to nursing situations. Also guides the student to analyze and organize content to assist in decision making about nursing interventions. With faculty supervision, students work independently based on their learning needs.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 492 - Death, Dying, and Decision Making

Credits: 3
Not Repeatable
Interdisciplinary examination and analysis of clinical care of dying and psychosocial issues related to death and dying. Special emphasis on applying ethical principles in resolution of complex problems for individuals with life-threatening illnesses and their families as caregivers or decision makers. Decision-maker models provide basis for clinical case discussions. Questions of futility examined with associated care issues. Current professional and lay literature discussed in context of socially changing norms and mores. Explores hospice and alternative palliative care models, and reviews policies, laws, and regulations that affect caregivers and health service providers. Includes advance directives, do-not-resuscitate orders, and assisted suicide. Presents bereavement as part of death, dying, and grieving process.

Notes: Lecture-discussion.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 495 - Directed Reading in Nursing

Credits: 1-2
Repeatable within Term
Examines literature on specialized topic in nursing practice, education, or scholarship. Readings conducted in consultation with faculty.

Prerequisite(s): Senior status or permission of school.

Notes: May be repeated for a maximum of 4 credits.
**NURS 496 - Violence in Today's Society**

Credits: 3  
Not Repeatable  
Examines magnitude of problem of violence globally and more specifically within the United States. Discussion and reflective activities engage students in the learning process.

Equivalent to GCH 496

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 499 - Independent Study in Nursing**

Credits: 1-3  
Repeatable within Term  
Provides individual study of a particular problem area in nursing research, theory development, or education under the direction of faculty. Clinical practice may be arranged.

Prerequisite(s): Permission of instructor and Assistant Dean for the Undergraduate Program.

Notes: May be repeated for maximum 6 credits.

**Hours of Lecture or Seminar per week:** 1-4  
**Hours of Lab or Studio per week:** 0

**NURS 508 - Psychopharmacology**

Credits: 3  
Not Repeatable  
Surveys therapeutic effects and side effect profiles of psychopharmacological drugs including psychotropic and recreational drugs. Emphasizes understanding mechanisms of actions, drug interactions, and subject variables influencing drug effects.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 513 - Advanced Pharmacology in Nursing**

Credits: 3  
Not Repeatable  
Does not meet requirements for nurse practitioner majors, but may be taken as an elective. Provides knowledge of physiologic
responses and pharmacokinetic principles of pharmacologic agents that will undergird the student's learning of advanced pharmacologic concepts. Topics include advanced pharmacokinetic principles, pharmacotherapeutics of single and multiple drug regimens, client education needs, special population needs, and legal requirements for prescriptive authority.

**NURS 514 - Advanced Health Assessment Methods**

Credits: 1
Not Repeatable
Expands on undergraduate skills in systematic health assessment across the life span. Teaches application of advanced health assessment skills in specialty advanced nursing practice setting. Integration of skills and techniques in collecting health assessment data towards appropriate decision making, clinical assessments, and therapeutic interventions in select population emphasized.

Prerequisite(s): Undergraduate-level health assessment course for degree credit or approved CEU course.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 1

**NURS 530 - Nurses as Writers**

Credits: 3
Not Repeatable
Focuses on theories and practices related to writing in nursing. Researching, composing, revising, and editing practiced in a variety of writing styles.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**NURS 550 - Pathophysiologic Bases for Major Health Deviations of Individuals**

Credits: 3
Not Repeatable
Examines health deviations occurring in people in the United States that require long-term or terminal health care interventions. Deviations are presented within a developmental framework as they influence physiologic integrity at the cellular level. Focus is on man as a whole, open system. Complex health programs from the perspective of maintaining homeodynamics are examined.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**NURS 556 - Principles of Assessment and Evaluation in Nursing Education**
Credits: 3  
Not Repeatable  
Presents techniques of assessment, measurement, and evaluation of nursing knowledge and skills in classroom and clinical settings. Provides opportunities for the informal assessment of learning; formal construction, analysis, and evaluation of tests; and evaluation of standardized tests. Examines the current research and the legal and ethical principles related to assessment and evaluation in nursing education.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**NURS 570 - Cultural Dimension of Aging**

Credits: 3  
Not Repeatable  
Examines the impact of cultural definitions of aging, research methodologies, and findings of crosscultural studies. Implications for health care and nursing are explored.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**NURS 571 - HIV/AIDS: Concepts, Principles, and Interventions**

Credits: 3  
Not Repeatable  
Provides overview of all aspects of HIV disease to include retrospective and current concepts and analyses of the epidemic, global, and societal impact, and cutting-edge research. Examines development of therapeutic tools and skills to educate, reduce risks, control infection, and affect care and healing of client, family, and community; and issues of increasing dilemma for health care professionals.

Equivalent to GCH 571

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**NURS 580 - Operating Room - RN First Assistant**

Credits: 3  
Not Repeatable  
Prepares the experienced operating room nurse to become a registered nurse first assistant. Modeled after the official AORN RNFA core curriculum. Student receives hands-on practice in knot tying and suturing, as well as experience with microscope and endoscopy labs.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
NURS 587 - Parish Nursing II

Credits: 3
Not Repeatable
Students must be registered nurses. Focuses on skill development in spiritual assessment, ethical decision making, and effective use of prayer. Emphasizes health promotion, working with volunteers, and utilizing community resources. Self-care and professional identity for the parish nurse are addressed. Students continue the processes of case consultation and spiritual formation.

Prerequisite(s): NURS 586.

Notes: Students must be registered nurses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 594 - Special Topics in Nursing

Credits: 1-3
Not Repeatable
Presents selected topics analyzing specialized areas in nursing.

Equivalent to GCH 594/HAP 594

Notes: Content varies. Lecture, seminar, laboratory, workshop.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 605 - Clinical Nurse Educator Academy

Credits: 3
Not Repeatable
Integrates knowledge and skills from clinical practice with new knowledge and skills needed as a clinical nurse educator. Narratives are used to teach essential skills for clinical nurse educators, such as assessment of learning needs, writing of objectives, teaching strategies, clinical simulation, and performance evaluation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 611 - Anthropology of Health

Credits: 3
Not Repeatable
Explores cross-cultural issues of health and illness from medical anthropology theory. Discusses cultural dimensions of developmental cycle and health care systems.
NURS 613 - Advanced Health Assessment

Credits: 2
Not Repeatable
The course expands on undergraduate skills in systematic health assessment across the life span. The student will learn advanced health assessment skills in specialty advanced nursing practice. Integration of skills and techniques in collecting health assessment data towards appropriate decision-making, clinical assessments and therapeutic interventions in select populations is emphasized in this lab and didactic course.

Prerequisite(s): Undergraduate-level Health Assessment course for degree credit.

NURS 618 - Pathophysiology: Health and Illness

Credits: 3
Not Repeatable
Focuses on the biological and pathophysiological foundations of health problems. Biological changes in selected health problems and health risks, will be used as a framework for critically appraising assessment data and to advance nursing strategies.

NURS 620 - Advanced Psychiatric/Mental Health Nursing

Credits: 3
Not Repeatable
Build on basic psychiatric and mental health nursing knowledge and skills in assessment, diagnosis, therapeutic intervention, and management. Focuses on enhancing fundamental roles of psychiatric or mental health advanced practice nurse, including practice, teaching, consultation, supervision, and research in relation to clients and their families.

NURS 623 - Clinical Concepts in Community-Oriented Primary Care

Credits: 3
Not Repeatable
Theoretical and clinical application of community-oriented primary care concepts with focus on health promotion and disease
prevention. Examines scope of practice of advanced practice nurse practitioner. Students work with interdisciplinary groups to improve health indicators for populations.

Prerequisite(s): NURS 665.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 3

NURS 630 - Acute Care Nursing for Advanced Practice

Credits: 3
Not Repeatable
Focuses on acute-care nursing for advanced practice with individuals and their families diagnosed with potentially life-threatening alterations in health. Emphasizes risk factors, physical symptoms, evidence-based interventions, functional capacity, and patient and family dynamics; and psychosocial, economic, and cultural factors and their impact on care.

Prerequisite(s): Admission to the graduate program or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 632 - Pathogenesis of Mental Disorders

Credits: 3
Not Repeatable
Explores biological correlates of mental illness, including neuronal function, structure and connectivity, and peripheral alterations in biological functioning that contribute to mental disorders across the lifespan. Reviews genetic heritability and specific theories of etiology and diagnostic classifications. Develops interview and differential diagnostic skills.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor.

Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NURS 633 - Individual Psychotherapy

Credits: 3
Not Repeatable
Explores major approaches to individual psychotherapy such as psychodynamic, humanistic, interpersonal, behavioral, cognitive, dialectical behavioral, brief, crisis, and multicultural therapies as they relate to advanced nursing practice in mental health. Applications of individual psychotherapies across the lifespan and among diverse populations are critically examined.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 632.
Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NURS 634 - Group, Family and Couple Psychotherapy

Credits: 1
Not Repeatable
Explore the major psychotherapeutic approaches for groups, families, and couples. Emphasis is placed on the application of theories and models of group, family, and couple psychotherapy across the lifespan and among diverse populations.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 632.

Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Spring

NURS 643 - Community-Oriented Primary Care

Credits: 3
Not Repeatable
Theoretical and clinical application of community-oriented primary care concepts with a focus on health promotion and disease prevention.

Prerequisite(s): Admission to MSN or DNP Program or permission of instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 3
When Offered: Fall, Summer, Spring.

NURS 648 - Aging and Health

Credits: 3
Not Repeatable
Provides an overview of normal aging and explores factors that affect health and well being in older adults; demonstrates strategies for maintaining health and managing chronic illness in older adults; examines common misconceptions about aging and healthcare issues; and explores the process of normal aging and the presentation of common health conditions in older adults.

Equivalent to HHS 648
NURS 650 - Healthcare and Law

Credits: 3
Not Repeatable
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 654 - Nursing Administration Financial Management

Credits: 3
Not Repeatable
Investigates managerial technologies related to financial planning and control functions of mid-level nurse administrators. Content develops knowledge and skills necessary for effective participation in financial management as related to business plan development, program budget planning, and control.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NURS 660 - Seminar in the Ethics of Health Care

Credits: 3
Not Repeatable
Examines moral dilemmas in the health care profession, with special emphasis on patients' rights, professionals' obligations to other professionals, and issues of social justice in health care. Methods of moral deliberation based on ethical knowledge and justification are applied to ethical dilemmas in health care.

Equivalent to PHIL 510

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 665 - Theoretical and Ethical Foundations Related to Nursing

Credits: 3
Not Repeatable
Selected nursing and related discipline theories which impact nursing practice are analyzed and evaluated with special attention given to ethical aspects of practice and ethical decision-making frameworks. Moral dilemmas in the health care profession, with emphasis on patients' rights, professionals' obligations to other professionals, issues of social justice in health care, and methods of moral deliberation are examined.
NURS 680 - Theoretical Foundations Related to Nursing

Credits: 2
Not Repeatable
Examination and evaluation of assumptions, concepts, and propositions inherent in selected nursing and related discipline theories.

NURS 685 - Advanced Nursing Research Methods

Credits: 3
Not Repeatable
Examines principles and methods of research in problem identification, theoretical framework, design, data collection, and analysis. Students develop a nursing research proposal.

Prerequisite(s): Admission to graduate nursing program and a bivariate statistics course and NURS 680.

Corequisite(s):

NURS 686 - Projects in Nursing Research

Credits: 2
Not Repeatable
Applies knowledge gained in NURS 790 to implement research proposal designed in NURS 790.

Prerequisite(s): NURS 685.

NURS 688 - Organization of Nursing and Health Care Delivery Systems

Credits: 3
Not Repeatable
Provides foundational overview of U.S. nursing and health care delivery systems. Surveys key concepts, frameworks, processes,
and structures related to health care delivery organizations.

**Prerequisite(s):**

**Notes:** Lecture, discussion.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NURS 690 - Independent Study in Nursing**

Credits: 1-3  
Repeatable within Degree  
Studies in-depth a selected area of nursing theory, research, or practice under direction of faculty.

**Prerequisite(s):** Admission to graduate nursing program, and permission of associate dean for academic programs.

**Notes:** May be repeated; maximum 6 total credits.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

---

**NURS 704 - Nursing Administrative Leadership Academy**

Credits: 3  
Not Repeatable  
Uses a leadership competency framework to integrate knowledge, skills, values, and best practices of innovative nursing leadership. Lectures, interactive collaborative discussion, written projects, and leadership self-assessment identify and teach the proficiencies specific to the administrative executive role.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NURS 713 - Decision Making and Pharmacologic Management in Practice**

Credits: 2  
Not Repeatable  
Analyzes clinical cases using student participation in decision-making formulation. Correlates pathophysiology with symptom manifestations across the lifespan, from prenatal to old age, including death. Evaluates family, medical and social history, physical findings, laboratory data and radiographic studies as they contribute to the decision making process. Examine the theoretical basis for selecting pharmacological and non-pharmacological therapies is explored.

**Prerequisite(s):** Admission to MSN or DNP Program Nurse Practitioner Concentration.

**Corequisite(s):** NURS 769; NURS 761.
NURS 714 - Health Assessment in Clinical Practice

Credits: 2  
Not Repeatable  
Application of advanced health assessment skills that includes all body systems and clinical decision making with clients across the lifespan. Students will formulate differential diagnoses and explore advanced communication techniques related to motivating and changing health behaviors. Students will apply advanced skills and techniques in a supervised lab setting.

Prerequisite(s): Admission to MSN or DNP Program or permission of instructor.

NURS 715 - Nursing Informatics Inquiry

Credits: 3  
Not Repeatable  
This course introduces theoretical and practice components of nursing and healthcare informatics for the graduate level nurse. Computer systems will be analyzed. The systems life cycle will be explored. Health care data standards, classification schemes, and the electronic health record (EHR) will be introduced. Students will evaluate informatics as it applies to patient safety, outcomes measurement, complex decision-making, consumer use, and legal and ethical issues.

NURS 719 - Advanced Health Assessment

Credits: 2  
Not Repeatable  
Application of advanced health assessment skills and clinical decision making with adults of all ages in primary care settings. Students formulate differential diagnosis related to body systems and presenting signs and symptoms. Students explore communication techniques related to motivating and changing health behaviors. The performance of skills and techniques needed to collect data for comprehensive health assessment is emphasized in this supervised practicum by nurse practitioner preceptors.

Notes: Course meets at George Washington University. Students receive a George Mason bill, but tuition is calculated at the George Washington University rate. Contact department for specific meeting dates and information.
NURS 720 - Practicum in Family Primary Care Nursing I

Credits: 4  
Not Repeatable  
Performance of beginning-level nurse practitioner clinical decision-making skills in assessment and management of families and individuals across the life span, with emphasis on health maintenance and health promotion. Seminar, lab, and clinical practicum.

Prerequisite(s): NURS 719, 723, 745, 747, 756.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 6  
Grading: Graduate Special

NURS 721 - Practicum in Assessment and Management of the Developing Family

Credits: 8  
Not Repeatable  
Theoretical and clinical application of health assessment, health maintenance and promotion, anticipatory guidance, diagnosis, and management of common primary health care concerns through clinical decision-making skills focused on childrearing and childbearing families. Seminar, lab, clinical practicum.

Prerequisite(s): NURS 720.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 15  
Grading: Graduate Special

NURS 722 - Practicum in Family Primary Care Nursing II

Credits: 8  
Not Repeatable  
Students perform advanced clinical decision making in the role of family nurse practitioner. Family primary care problems throughout the life span are assessed and managed, particularly families with elderly and medically underserved members. Seminar, lab, and clinical practicum.

Prerequisite(s): NURS 720 and 721.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 5  
Grading: Graduate Special

NURS 723 - Clinical Decision Making

Credits: 2  
Not Repeatable  
Course is offered through George Washington University and is charged at GWU tuition rates. Analyzes clinical cases using
student participation in decision-making formulation. Correlates pathophysiology with symptom manifestations. Evaluates family, medical, and social history; physical findings; laboratory data; and radiographic studies as they contribute to the decision-making process. The theoretical basis for selecting pharmacological and nonpharmacological therapies is explored. Therapies are justified by examining the evidence to support them.

Corequisite(s): NURS 756 and 747.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 724 - Health Assessment Practicum

Credits: 1
Not Repeatable
Demonstrates the ability to perform advanced health assessment skills that includes all systems across the lifespan. The student will perform advanced techniques and clinical decision making that is necessary for a comprehensive health assessment in this clinical practicum.

Prerequisite(s): Admission to MSN or DNP Program or permission of instructor.

Corequisite(s): NURS 714.

Notes: Five clinical hours are required per week for each credit. Required course in Nurse Practitioner concentration.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 5
When Offered: Fall, Summer, Spring.

NURS 725 - Hermeneutic Research Methodologies in Health Care

Credits: 3
Not Repeatable
Uses seminar/discussion for in-depth exploration of interpretive phenomenology, philosophical background for hermeneutics, and hermeneutics as method in context of conducting research in health care. Uses readings from philosophers such as Heidegger, Merleau-Ponty, and Gadamer to situate hermeneutical methodologies in philosophy of science.

Prerequisite(s): Graduate-level qualitative research course

Corequisite(s): Graduate-level qualitative research course

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 726 - Perspectives in Nursing Education

Credits: 3
Not Repeatable
Uses seminar approach to provide an overview of nursing education. Provides the foundation for teaching and learning in nursing with emphasis on relevant research.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 727 - Application of Nursing Education Principles to Curriculum and Program Development**

Credits: 3  
Not Repeatable  
Uses seminar and discussion forums to analyze and apply theoretical principles and teaching and learning strategies in planning, developing, and evaluating nursing programs. Examines the overall creative, planned, and collaborative process of program development and evaluation.

**Prerequisite(s):** NURS 726.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 728 - Practicum and Seminar in Nursing Education I**

Credits: 3  
Not Repeatable  
Uses seminar/discussion approach and practicum experience to analyze the role and functions of the nurse educator in the academic classroom. Emphasis is on the application of teaching/learning strategies, legal and ethical issues in nursing education, and role development as a nurse educator.

**Prerequisite(s):** NURS 514, 550, 726, and 727; NURS 556 or EDRS 531.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 6

**NURS 729 - Practicum and Seminar in Nursing Education II**

Credits: 3  
Not Repeatable  
Uses seminar/discussion approach and practicum experience to analyze the role and functions of the nurse educator in the clinical setting. Application of research-based teaching and evaluation strategies in the clinical setting are emphasized.

**Prerequisite(s):** NURS 514, 550, 726, and 727; NURS 556 or EDRS 531.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 6
NURS 730 - Leadership Strategies for the Clinical Nurse Leader

Credits: 2
Not Repeatable
Explores aspects of horizontal and vertical leadership central to clinical nurse leader (CNL) role. Emphasizes quality management and improvement, communication processes, evidenced-based practice initiatives in microsystem, and strategies for efficient use of resources while maintaining safe and effective patient care.

Prerequisite(s): NURS 597 and 685
Corequisite(s): NURS 597 and 685

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 733 - Introduction to Forensic Science

Credits: 3
Not Repeatable
Examines the introductory concepts of forensic science including the various professional roles of forensic scientists and practitioners. This course provides a broad overview of the forensic science profession. Different types of violence, as well as prevention and reduction strategies, are discussed. The forensic professional's role in policy and legal processes are explored. Forensic research is introduced. Professional certification options are explored.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 734 - Role of the Sexual Assault Nurse Examiner and Interpersonal Violence

Credits: 3
Not Repeatable
Focuses on the incidence and consequences of interpersonal violence across the lifespan. Identifies the role of sexual assault nurse examiner (SANE) as a member of the Sexual Assault Response Team (SART). Examines forensic techniques used to collect evidence. The role of the SANE in the judicial process is explored.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 735 - Crime Lab and Crime Scene Investigation

Credits: 3
Not Repeatable
Examines the components of the crime lab and the crime scene analysis process. Explores the role of the forensic scientist in crime scene investigation. This course covers the initial crime scene response and initial assessment measures needed to properly collect and handle evidence. Documentation and preservation efforts are reviewed for various types of evidence collected.
NURS 736 - Psychological and Legal Aspects of Forensic Science

Credits: 3  
Not Repeatable  
Evaluates the psychological and legal aspects of forensic science. Reviews victimology and the role of the forensic professional when dealing with victimized individuals. This course reviews various types of violence and identifies the assessment criteria needed to pursue prosecution. Examines the legal process and the role of the forensic professional in providing testimony in a court of law.

NURS 737 - Investigation of Injury and Death

Credits: 3  
Not Repeatable  
Explores the role of the forensic scientist in death investigation. Examines death, manners of death, and causes of death, along with the death certification process. The role of the medical office professional and autopsy procedures will be reviewed. DNA evidence and the CODIS system will be analyzed.

NURS 738 - Family Primary Care I

Credits: 2  
Not Repeatable  
Theoretical application of health assessment, health management/promotion, anticipatory guidance, diagnosis and management of common primary care health care concerns through clinical decision making skills for families with a focus on adults. Lecture, student presentations and seminar.

Prerequisite(s): Students must be admitted to the Family Nurse Practitioner Program.

Corequisite(s): NURS 742.

Notes: Required course in Family Nurse Practitioner concentration.

NURS 739 - Family Primary Care II

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Summer
Theoretical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns through clinical decision making skills focused on childbearing and childbearing families. Seminar, student presentations and lectures.

**Prerequisite(s):** Students must be admitted to the Family Nurse Practitioner Program; NURS 738.

**Corequisite(s):** NURS 744

**Notes:** Required course in Family Nurse Practitioner concentration.

**Hours of Lecture or Seminar per week:** 4
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall

---

**NURS 740 - Clinical Nurse Specialist Internship**

Credits: 3
Repeatable within Term
A continuation of clinical application of theory from NURS 775 to a selected clinical specialty with attention to the health illness continuum of individuals, families, and community.

**Notes:** This course may be taken twice.

**Hours of Lecture or Seminar per week:** 0
**Hours of Lab or Studio per week:** 9

---

**NURS 741 - Family Primary Care III**

Credits: 3
Not Repeatable
Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the nurse practitioner student to assume increased responsibility in the delivery of primary care to families and individuals across the life span. Special emphasis is given to the primary care needs of families with elderly and medically underserved members. Seminar, student presentations and lectures.

**Prerequisite(s):** Students must be admitted to the Family Nurse Practitioner Program; NURS 739.

**Corequisite(s):** NURS 749

**Notes:** Required course in Family Nurse Practitioner concentration.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Summer
NURS 742 - Family Primary Care Practicum I

Credits: 3  
Not Repeatable  
Demonstrates the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for families with a focus on the adult. Clinical practicum, lab and seminar.  

Prerequisite(s): Students must be admitted to the Family Nurse Practitioner Program.  
Corequisite(s): NURS 738.  
Notes: Five clinical hours are required per week for each credit. Required course in Family Nurse Practitioner concentration.  
Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 1-12  
When Offered: Summer

NURS 743 - Clinical Psychopharmacology

Credits: 3  
Not Repeatable  
Introduce psychotropic medications, including neurochemical basis, mode of action and clinical application. Discuss principles of pharmacological medication selection and use based on clinical indicators.  

Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Admission to the Doctor of Nursing Practice program or with permission of instructor.  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

NURS 744 - Family Primary Care Practicum II

Credits: 3  
Not Repeatable  
Clinical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns through clinical decision making skills focused on childrearing and childbearing families. Clinical practicum, seminar, lab.  

Prerequisite(s): Students must be admitted to the Family Nurse Practitioner Program; NURS 738.  
Corequisite(s): NURS 739  
Notes: Five clinical hours are required per week for each credit. Required course in Family Nurse Practitioner concentration.  
Hours of Lecture or Seminar per week: 0
**NURS 745 - Pharmacology**

Credits: 3  
Not Repeatable  
Describes the pharmacologic principles and pharmacodynamic actions of major classes of drugs. Distinguishes between the major drug classes by the pharmacologic properties of the drugs on the cellular, organ, and whole organism level. Study of indications and contraindications of appropriate therapeutic entities for health deviations is based on a thorough knowledge of drugs including their mechanism of action, possible toxic effects, and their fate in the human body. Evaluation and recognition of drug interactions for the possible impact on each drug's therapeutic behavior, as well as on the body as a whole is emphasized. Chooses and interprets appropriate monitoring mechanisms for drug efficacy and toxicity.

**Notes:** Course is offered through George Washington University and charged at GWU tuition rates.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NURS 746 - Practicum in Adult Primary Care Nursing I**

Credits: 6  
Not Repeatable  
Demonstration of the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for adults.

**Prerequisite(s):** NURS 719, 723, 745, 747, 756

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 12  
**Grading:** Graduate Special

---

**NURS 747 - Pharmacology in Disease and Pathophysiology**

Credits: 1  
Not Repeatable  
Analyze drugs and their interaction with physiologic processes on the cellular level. Discuss the therapeutic actions of drugs in relationship to pathophysiologic states. Recognize those physiologic and pathophysiologic states that have direct consequences on the actions of drugs.

**Corequisite(s):** NURS 723 and 756.

**Notes:** Course is offered through George Washington University and charged at the George Washington University rate.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0
NURS 748 - Practicum in Adult Primary Care Nursing II

Credits: 8  
Not Repeatable  
Enables nurse practitioner student to assume increased responsibility in the delivery of primary care to adults. Special emphasis on primary care needs of elderly and medically underserved groups.  

Prerequisite(s): NURS 746.  

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 16  
Grading: Graduate Special

NURS 749 - Family Primary Care Practicum III

Credits: 5  
Not Repeatable  
This practicum enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to families. Family primary care problems across the life span are assessed and managed, particularly families with elderly and medically underserved members. Practicum, clinical lab and seminar.  

Prerequisite(s): Students must be admitted to the Family Nurse Practitioner Program; NURS 739.  

Corequisite(s): NURS 741  

Notes: Five clinical hours are required per week for each credit.  
Required course in Family Nurse Practitioner concentration.  

Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 5  
When Offered: Spring

NURS 754 - Advanced Adult Primary Care

Credits: 4  
Not Repeatable  
Enables the post-master's nurse practitioner student to develop and assume increased responsibility in delivery of primary care to adults. Clinical preceptorship and instructional and informative didactic material in primary care enable students to demonstrate advanced skills in the assessment, clinical diagnostic, and clinical management of common acute and chronic primary care problems. Special emphasis to the development of community-based health promotion and disease prevention strategies with adults and medically underserved populations.  

Prerequisite(s): NURS 719, 723, 745, 747, 756  

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 9
NURS 756 - Advanced Pathology and Pathophysiology

Credits: 4
Not Repeatable
Analyze health deviations in the physiologic and pathophysiologic aspects of systems functioning across the life span. Students assimilate the process of systematic assessment and management of health deviations foundational for making clinical decisions. Collaborate in interprofessional student groups to develop strategies for health promotion and disease prevention in vulnerable populations.

Corequisite(s): NURS 723 and 747.

Notes: Course is offered through George Washington University and charged at the George Washington University rate.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

NURS 757 - Nursing Research and Biostatistics I

Credits: 3
Not Repeatable
Provides a broad framework for understanding and applying commonly used research designs and data analysis techniques in nursing and health care research. Exposed to an overview of qualitative and quantitative research methods integrated with appropriate data analyses techniques. Univariate and bivariate statistical techniques will be used to address research questions or hypothese as appropriate.

Prerequisite(s): Admission to the graduate nursing program; Undergraduate Statistics Course

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 758 - Nursing Research and Biostatistics II

Credits: 3
Not Repeatable
Empirically address practice related problems using complex bivariate and multivariate statistical analysis. Using an established data set as a basis for simulation of the research process, student will identify clinical problems in research traditions to provide evidence for nursing practice. Emphasis is on evaluating the quality of research for its strength as evidence for nursing practice.

Prerequisite(s): NURS 757

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 761 - Pharmacotherapeutics
NURS 761 - Pharmacology

Credits: 3
Not Repeatable
Describes the pharmacologic principles and pharmacodynamic actions for all broad categories of agents. Distinguishes between the major drug classes by the pharmacologic properties of drugs on the cellular, organ and whole organism level. Study of indications and contraindications of appropriate therapeutic entities for health deviations based on a thorough knowledge of drugs and their fate in the human body.

Prerequisite(s): Admission to MSN or DNP Program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring.

NURS 762 - Managed Care Concepts for Primary Care Practice

Credits: 1-4
Repeatable within Degree
Presents managed-care concepts specific to primary care practice through self-paced learning modules, seminars, and selected nondirect care internship experiences in managed care settings.

Prerequisite(s): Admission to the nurse practitioner program.

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 3-12

NURS 763 - Administrative Theory in Nursing

Credits: 3
Not Repeatable
Uses administrative theory and management principles and processes as related to roles and functions of the nurse in management in health-related agencies.

Prerequisite(s): Admission to graduate nursing program or master's degree. NURS 680 and Management/Organizational Theory

Corequisite(s): NURS 680 and Management/Organizational Theory

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NURS 765 - Practicum in Nursing Administration I

Credits: 3
Not Repeatable
Applies administrative theory and management principles and processes in a selected health-related agency. Roles and functions of the nurse in management are explored.
Prerequisite(s): Admission to graduate nursing program; NURS 680, 763

Corequisite(s): NURS 763

Notes: Lab arranged.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 8
When Offered: Fall

NURS 766 - Administrative Strategies in Nursing

Credits: 3
Not Repeatable
Explores roles and functions of the nurse in management as the nurse manager develops patterns of nursing care, articulating nursing education, and nursing service.

Prerequisite(s): NURS 763 and 765.

Corequisite(s): NURS 768.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NURS 768 - Practicum in Nursing Administration II

Credits: 3
Not Repeatable
Implements and integrates roles and functions of the nurse in management. Emphasizes using appropriate management principles and processes in a selected health-related agency.

Prerequisite(s): NURS 763, 765, 766

Corequisite(s): NURS 766

Notes: Lab arranged.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 8
When Offered: Spring

NURS 769 - Physiology and Pathophysiology in Advanced Practice

Credits: 3
Not Repeatable
Analyze health deviations in the physiologic and pathophysiologic aspects of systems functioning across the life span. Students
assimilate the process of systematic assessment and management of health deviations foundational for making clinical decisions.

**Prerequisite(s):** Admission to MSN or DNP or permission of instructor.

**Corequisite(s):** NURS 713

**NURS 770 - Adult Primary Care I**

Credits: 3  
Not Repeatable  
Theoretical application of health assessment, health management/promotion, anticipatory guidance, diagnosis and management of common primary care health care concerns through clinical decision making skills focusing on adults. Lecture, student presentations and seminar.

**Prerequisite(s):** Students must be admitted to the Adult Nurse Practitioner Program.

**Corequisite(s):** NURS 772.

**Notes:** Required course in Adult Nurse Practitioner concentration.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**NURS 771 - Adult Primary Care II**

Credits: 4  
Not Repeatable  
Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the nurse practitioner student to assume increased responsibility in the delivery of primary care to adults. Special emphasis is given to the primary care needs of elderly and medically underserved groups. Lectures, student presentations and seminars.

**Prerequisite(s):** Adult Primary Care I.

**Corequisite(s):** Adult Primary Care Practicum II.

**Notes:** Students must be admitted to the Adult Nurse Practitioner Program. Required course in Adult Nurse Practitioner concentration.

**Hours of Lecture or Seminar per week:** 4  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall
NURS 772 - Adult Primary Care Practicum I

Credits: 3
Not Repeatable
Demonstrates ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for adults. Clinical practicum, lab and seminar.

Prerequisite(s): Students must be accepted to the Adult Nurse Practitioner program.

Corequisite(s): NURS 770.

Notes: Five clinical hours are required per week for each credit.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-12
When Offered: Fall

NURS 773 - Clinical Applications of Theory in Advanced Clinical Nursing

Credits: 3
Not Repeatable
Foundational theory relevant to the emerging roles in advanced clinical nursing, focusing on therapeutic nursing interventions in a variety of clinical specialties, with attention to health-illness continuum of individuals, families, and communities.

Prerequisite(s): Admission to graduate nursing program. NURS 550, 680.

Corequisite(s): NURS 550, 680.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 774 - Adult Primary Care Practicum II

Credits: 4
Not Repeatable
Enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to adults. Special emphasis is given to the primary care needs of elderly and medically underserved groups. Practicum, clinical lab and seminar.

Prerequisite(s): Students must be admitted to the Adult Nurse Practitioner Program; NURS 770.

Corequisite(s): NURS 771.

Notes: Five clinical hours are required per week for each credit. Required course in Adult Nurse Practitioner concentration.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 4
When Offered: Spring
NURS 775 - Advanced Specialty Practice I

Credits: 3
Repeatable within Term
Focuses on clinical application of theory from NURS 773 to a selected clinical specialty with attention to the health illness continuum of individuals, families, and communities.

Prerequisite(s): NURS 665.

Corequisite(s): NURS 768.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 7

NURS 776 - Development of Advanced Practice Nursing Role

Credits: 3
Not Repeatable
Expansion of selected content included in NURS 773 for the delivery of advanced nursing care in a variety of settings. Emphasizes development and evaluation of the advanced practice nursing role in complex health care systems.

Prerequisite(s): NURS 773.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 778 - Advanced Specialty Practice II

Credits: 3
Not Repeatable
Applies concepts of the advanced practice nursing role from NURS 776 to a selected clinical specialty.

Prerequisite(s): NURS 665.

Corequisite(s): NURS 773.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 7

NURS 780 - Practicum in Gerontological Nursing I

Credits: 3
Not Repeatable
Demonstrates the ability to function at a beginning level in the role of the gerontological nurse practitioner. Performance of advanced skill in geriatric assessment with a special emphasis on the delivery of health promotion and disease prevention services (practicum of at least 100 clinical hours and case analysis conferences).
Prerequisite(s): NURS 719, 723, 745, 747, 756.

Corequisite(s): NURS 746.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
Grading: Graduate Special

NURS 781 - Practicum in Gerontological Nursing II

Credits: 3
Repeatable within Degree
Demonstrates the ability to function at an advanced level in the role of the gerontological nurse practitioner in varied settings, including primary care, long-term care, and sub-acute care (practicum of at least 100 clinical hours and case analysis conferences).

Prerequisite(s): NURS 773 and 775.

NURS 782 - Family Psychiatric Nurse Practitioner Practicum I

Credits: 4
Not Repeatable

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 632, NURS 633, NURS 634, and NURS 743.

Corequisite(s): NURS 783.

Notes: Five clinical hours per week are required for each credit.

Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Admission to the Doctor of Nursing Practice program or with permission of instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 20
When Offered: Fall
NURS 783 - Family Psychiatric Nurse Practitioner Seminar I

Credits: 1  
Not Repeatable  
Analyzes the professional role of family psychiatric mental health nurse practitioners. Students share assessment, diagnostic, intervention, evaluation, teaching-coaching, cultural competence, and therapeutic relationship development techniques through case studies from their practica. Management of client cases are evaluated and discussed. Students analyze the impact of advocacy actions, including duty to report, on the therapeutic relationship.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 632, NURS 633, NURS 634, and NURS 743.

Corequisite(s): NURS 782.

Notes: Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Admission to the Doctor of Nursing Practice program or with permission of instructor.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0  
When Offered: Fall.

NURS 784 - Family Psychiatric Nurse Practitioner Practicum II

Credits: 5  
Not Repeatable  
Builds on Family Psychiatric Nurse Practitioner Practicum I, improving diagnostic and clinical reasoning ability and competence in assessment, diagnosis, and management of psychiatric disorders. Enables the student to assume increased responsibility in the delivery of comprehensive mental health care. Participates in professional and community organizations to promote the health of patients while enhancing the role of practitioner.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 782.

Corequisite(s): NURS 785.

Notes: Five clinical hours per week are required for each credit.

Required course in Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Admission to the Doctor of Nursing Practice program or with permission of instructor.

Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 5  
When Offered: Spring

NURS 785 - Family Psychiatric Nurse Practitioner Seminar II

Credits: 1  
Not Repeatable  
Discusses role transition and development of advanced practice psychiatric mental health nurses. Regulatory and economic policies affecting advanced psychiatric mental health nursing practice in the evolving health care system are discussed. Students
demonstrate competence in comprehensive management of acute and chronic psychiatric disorders through case presentations from their practica. Performs a comprehensive assessment of the mental health needs of a community.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 783.

Corequisite(s): NURS 784

Notes: Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Admission to the Doctor of Nursing Practice program or with permission of instructor.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Spring.

NURS 786 - Adult Gerontology Primary Care Practicum I

Credits: 3
Not Repeatable
Application of health assessment, health maintenance/promotion, anticipatory guidance, genetics/genomics, diagnosis and management of common primary health care concerns, including women's health issues. Focus is on care of adolescents and adults across the life. Clinical Practicum, lab and seminar.

Corequisite(s): NURS 787.

Notes: Five clinical hours are required per week for each credit.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 15
When Offered: Summer

NURS 787 - Adult Gerontology Primary Care I

Credits: 2
Not Repeatable
Theoretical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns, including women's health, through clinical decision making skills in adolescents, adults and older adults.

Corequisite(s): NURS 786.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Summer

NURS 788 - Adult Gerontology Primary Care Practicum II
NURS 789 - Adult Gerontology Primary Care II

Credits: 3
Not Repeatable
This course consists of the application of health assessment, health management/promotion, genetics and genomics, anticipatory guidance, diagnosis and management of common primary care health care concerns of the adolescent, adult and older adult through clinical decision making skills. Lecture, student presentations and seminar.

Corequisite(s): NURS 788.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NURS 790 - Adult Gerontology Primary Care Practicum III

Credits: 4
Not Repeatable
This practicum enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to adults of all ages, adolescents through older adults. Special emphasis is given to the primary care needs of elderly and medically underserved groups. Practicum, clinical lab and seminar.

Prerequisite(s): NURS 787, NURS 789.

Corequisite(s): NURS 791.

Notes: Five clinical hours are required per week for each credit.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 20
When Offered: Spring

NURS 791 - Adult Gerontology Primary Care III
Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the adult gerontology nurse practitioner student to assume increased responsibility in the delivery of primary care. Focus will be on the primary care needs of older adult and medically underserved.

Lectures, student presentations and seminars

**Prerequisite(s):** NURS 789.

**Corequisite(s):** NURS 790.

**Hours of Lecture or Seminar per week:** 4
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring

---

**NURS 804 - Advanced Quantitative Data Analysis for Health Care Research I**

Credits: 3
Not Repeatable
Examines factorial ANOVA, factorial ANCOVA, repeated measures ANOVA, ANOVA and ANCOVA via regression approach, and multiway frequency analysis. Students apply mathematical calculations and interpret SPSS outputs using health care research data.

Equivalent to GCH 804

**Prerequisite(s):** A graduate-level statistics course.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**NURS 805 - Advanced Quantitative Data Analysis for Health Care Research II**

Credits: 3
Not Repeatable
Examines multivariate analysis of variance (MANOVA), multivariate analysis of covariance (MANCOVA), multiple regression (ordinary least squares), and logistic regression. Students apply mathematical calculations and use linear combinations of multivariate tests in health care research data.

Equivalent to GCH 805

**Prerequisite(s):** GCH/NURS 804 or an equivalent statistics course.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**NURS 806 - Advanced Multivariate Statistics and Data Analysis for Health Care Research**
Credits: 3
Not Repeatable
Examines canonical correlation, discriminant analysis, factor analysis, and causal analysis (path models and structural equation modeling). Students analyze and interpret data using these statistical techniques.

Equivalent to GCH 806

**Prerequisite(s):** GCH/NURS 805 or an equivalent multivariate statistics course.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**NURS 808 - Translating Nursing and Health Care Research into Evidence-Based Policy**

Credits: 3
Not Repeatable
This course prepares students to assess the policy dimensions of nursing issues in clinical practice, education, and research environments and translate nursing research into policy.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**NURS 810 - Evaluation Research in Nursing Education**

Credits: 3
Not Repeatable
Uses seminar/discussion to analyze and apply theoretical models for implementing evaluation research in nursing education. Examines quantitative approaches for evaluating process and outcomes of domestic or international nursing education programs, including role of accreditation guidelines.

**Prerequisite(s):** NURS 920 and 930

**Corequisite(s):** NURS 920 and 930

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**NURS 811 - Nurse as Educator and Scholar**

Credits: 2
Not Repeatable
Uses seminar/discussion to explore role of nurse educator in meeting research and scholarship expectations of college, university, or service setting. Addresses approaches to scholarship in relation to types of evidence appropriate for various scholarly expectations in academic setting.

**Prerequisite(s):** NURS 920 and 930.
NURS 814 - Theory in Health Science

Credits: 3  
Not Repeatable  
Analyze existing substantive theories in nursing and other biological, social, and behavioral sciences. Enables the doctoral student to critique, use, test, integrate, translate, and develop theory to guide practice, scientific inquiry, and teaching in a focused area of research interest.

Equivalent to NURS 955.

Prerequisite(s): Master's degree in nursing, social work, or health-related discipline.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

NURS 820 - Human Genetics Concepts for Health Care

Credits: 4  
Not Repeatable  
The study of human genetics, principles of heredity, and disease risks.

Hours of Lecture or Seminar per week: 4  
Hours of Lab or Studio per week: 0

NURS 860 - Measurement Theories in Healthcare Research

Credits: 3  
Not Repeatable  
Synthesize measurement theories and principles as a foundation for the development and evaluation of instruments for use in healthcare research. The course includes review of statistical techniques required for understanding measurement theory, reliability, validity, responsiveness, item analysis, and instrument construction. Students design, construct, administer, analyze, and evaluate an original instrument and evaluate an existing instrument in healthcare research.

Equivalent to NURS 807.

Prerequisite(s): NURS 804 GCH/NURS 805 or Permission of Instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring
NURS 870 - Nursing and Health Care Administration I

Credits: 3
Not Repeatable
Examines the theoretical basis of scholarship and practice in leadership and management of health systems and nursing organizations. Includes discovery of concepts and forces influencing the organization and performance of health care systems.

Prerequisite(s): Admission to the PhD or DNP program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 871 - Nursing and Health Care Administration II

Credits: 2
Not Repeatable
Analyzes and applies selected concepts related to nursing and health system leaders and managers as well as factors influencing the performance of health systems and organizations.

Prerequisite(s): NURS 870.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 874 - Internship in Health Care Administration/Policy/Education

Credits: 4
Not Repeatable
Internship experience of at least 126 hours with leader in field of nursing, health care administration, policy, or education. Participatory activities require integration and application of principles, frameworks, and science related to executive preceptor role.

Prerequisite(s): Completion of all other course work except NURS 998; written advanced application and permission of instructor by due dates (April/November 1) in advance of semester.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 9

NURS 883 - Evidence-Based Practice in Nursing and Healthcare

Credits: 4
Not Repeatable
Building on knowledge of research methodologies and personal expertise, student will identify practice and system problems, analyze the variations of processes and outcomes, evaluate research studies and systematic reviews, and develop a proposal to address issues related to the design of new model of care, translation of evidence into practice, or evaluation of current programs in the context of evidence-based practice. Emphasis is placed on the development of strategies to ensure quality improvement.
Prerequisite(s): NURS 757 and NURS 758

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

NURS 920 - Qualitative Research in Nursing and Health Care

Credits: 3
Not Repeatable
Examination and application of principles in qualitative research in nursing and health care. Qualitative research will be analyzed within the scholarship of discovery, integration, and application.

Prerequisite(s): NURS 955

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 921 - Clinical Practicum I

Credits: 1-10
Not Repeatable
Students, in consultation with their academic advisor, complete supervised practicum hours to meet both the post-baccalaureate and post-masters DNP practicum requirement. A practicum course that prepares students to perform clinical decision making in their role as advance practice nurses in individualized specialty areas. They will work with advanced practice nurse preceptors to develop clinical expertise, and to develop an understanding of leadership roles in the clinical setting that can enhance the system of health care delivery. One credit hour of seminar with the remaining hours in clinical practice.

Hours of Lecture or Seminar per week: 1-10
Hours of Lab or Studio per week: 0

NURS 922 - Clinical Practicum II

Credits: 1-10
Repeatable within Degree
Students, in consultation with their academic advisor, complete supervised practicum hours to meet both the post-baccalaureate and post-masters DNP practicum requirement. A practicum course that continues to prepare students to practice in an expanded, advanced clinical practice role. Students will learn to become change agents in the clinical setting with a focus on health care delivery systems. The student will apply advanced health assessment skills and clinical decision making in an area of specialty practice, correlating pathophysiology with symptom manifestations. One credit hour of seminar with the remaining hours in clinical practice.

Hours of Lecture or Seminar per week: 1-10
Hours of Lab or Studio per week: 0
NURS 925 - Methodological Issues in Nursing and Health Care Qualitative Research

Credits: 3
Not Repeatable
Explores, analyzes, and synthesizes conceptual, methodological, and ethical issues in qualitative research within the scholarship of discovery, integration, application, and teaching. Seminar.

Prerequisite(s): NURS 920/HSCI 920 or equivalent course, and permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 930 - Quantitative Methods in Nursing and Health Care

Credits: 3
Not Repeatable
Examination and application of principles in quantitative research in nursing and health care. Computer analysis of quantitative data will be required.

Prerequisite(s): NURS 955, 804, and 805.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 940 - Independent Study for the Doctoral Student

Credits: 1-6
Not Repeatable
Studies in depth a selected area of nursing theory, research, or practice under direction of faculty.

Prerequisite(s): Admission to a doctoral nursing program.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

NURS 950 - Special Topics in Nursing

Credits: 3
Not Repeatable
Presents selected topics analyzing specialized areas in nursing. Content varies. Lecture, seminar, laboratory, workshop.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
NURS 980 - Practice Inquiry I

Credits: 4  
Repeatable within Degree  
Synthesize the literature related to the problem. Analyze the environmental factors impacting the problem. Identify the standard of care related to the clinical problem. Assess the quality of evidence that supports the standard of care. Develop a proposal that will impact the delivery of care in the identified area of practice inquiry. Develop the appropriate outcome measures to address the specific practice inquiry area.

Prerequisite(s): Completion of DNP core courses.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1

NURS 981 - Practice Inquiry II

Credits: 4  
Repeatable within Degree  
Implement the proposal developed in Practice Inquiry I. Maintain an ongoing process analysis of the project. Collect data. Analyze the findings from the practice inquiry. Disseminate the findings from the practice inquiry in a scholarly manner.

Prerequisite(s): NURS 980.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 2

NURS 998 - Doctoral Dissertation Proposal

Credits: 1-9  
Repeatable within Degree  
A seminar for doctoral students to accompany the development of a doctoral dissertation proposal. Development of the research problem with analysis and critique of methodology discussed.

Prerequisite(s): Completion of all other course work except NURS 999; and completion of doctoral comprehensive examination.

Notes: Students must enroll in the course for 3-credits the first time they take the course.

Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 0  
Grading: Satisfactory/No Credit  
When Offered: Fall, Spring

NURS 999 - Doctoral Dissertation

Credits: 1-9  
Repeatable within Term
Provides continued faculty assistance on an individual basis toward completion of approved dissertation.

**Prerequisite(s):** NURS 998.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit

---

# Nutrition (NUTR)

Offered by the College of Health and Human Services

---

## NUTR 295 - Introduction to Nutrition

Credits: 3  
Not Repeatable  
Introduces students to nutrition as a scientific discipline, providing a working knowledge of basic nutrition including the sources and functions of the nutrients, the components of a healthy diet, and the relationship between diet and overall health. Students will learn about the processes of digestion, absorption, and metabolism of nutrients, and several 'hot topics' in the field of nutrition.

Fulfills Mason Core requirement in natural science (nonlab).

**Hours of Lecture or Seminar per week:** 3  
**When Offered:** Fall, Spring, Summer

---

## NUTR 314 - Food in Italy

Credits: 3  
Not Repeatable  
Exposes student to Italian foodways, culture, and sustainability. Travel and field trips will supplement classroom learning and form the basis of a research project focusing on food's place in Italian society.

**Hours of Lecture or Seminar per week:** 3  
**When Offered:** Summer

---

## NUTR 383 - Taste and Place

Credits: 3  
Not Repeatable  
Examines how dietary patterns have developed and evolved in specific geographic locations. Students will analyze the role of geography, history, politics, culture and taste as essential elements in distinctive local, regional, and national foodways.
NUTR 408 - Introduction to Food Security

Credits: 3  
Not Repeatable  
Examines the human health aspects of food security at the local, regional, and global levels.  
Prerequisite(s): NUTR 295.

NUTR 420 - Strategies for Nutrition Education

Credits: 3  
Not Repeatable  
Examines methods and techniques for educating individuals about nutrition. Addresses nutrition education issues from variety of populations with respect to culture, age, religion, and specific disease states.  
Prerequisite(s): NUTR 295 or permission of instructor.

NUTR 421 - Community Nutrition

Credits: 3  
Not Repeatable  
Focuses on nutrition and health problems of specific community settings, and examines practices of nutrition services in various communities.  
Prerequisite(s): NUTR 295 or permission of instructor.

NUTR 422 - Nutrition throughout the Life Cycle
Credits: 3
Not Repeatable
Focuses on nutrient needs and food habits throughout life cycle. Emphasizes nutrient needs prior, during, and after pregnancy, and nutritional requirements of infants, children, adolescents, adults, and elderly.

Prerequisite(s): NUTR 295 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer

NUTR 423 - Nutrition and Chronic Illnesses

Credits: 3
Not Repeatable
Examines nutrient needs related to specific chronic illnesses, including cardiovascular disease, cancer, obesity, and diabetes. Focuses on principles of nutritional therapy and prevention.

Prerequisite(s): NUTR 295 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NUTR 430 - Introduction to Wine and Beer

Credits: 3
Not Repeatable
Takes a multidisciplinary approach to understanding alcohol across time and space. Students will learn about alcohol production as well as the social and cultural dimensions of alcohol in a variety of cultures. Topics that might be covered in class include prohibition and neoprohibition, the health effects of alcohol, craft versus industrial production, among others. Students must be 21 to enroll.

Notes: Fees apply.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

NUTR 466 - Nutrition and Weight Management: Obesity, Anorexia, and Bulimia

Credits: 3
Not Repeatable
Focuses on the physiological, emotional, genetic, and societal and cultural factors that influence the relationship between eating and weight regulation.

Prerequisite(s): NUTR 295, GCH 332, or approval of instructor.
NUTR 494 - Special Topics in Nutrition and Food Studies

Credits: 3  
Repeatable within Degree  
In-depth study of contemporary areas of nutrition and food studies. Topics vary each semester. Students may take to apply up to 6 credits of NUTR 494 to their degree program.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

NUTR 499 - Independent Study in Nutrition and Food Studies

Credits: 1-6  
Repeatable within Degree  
Readings or research on a pertinent topic in nutrition and food studies. Must be arranged with instructor before registering.

Prerequisite(s): Permission of instructor.

Hours of Lecture or Seminar per week: 1-6  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

NUTR 502 - U.S. Role in Global Health, Nutrition, and Population

Credits: 3  
Not Repeatable  
The course will cover U.S. history in responding to health, nutrition, and population challenges worldwide; examine current programs in each area, including those of the U.S. government and nongovernmental organizations, foundations, and the private sector; and examine future directions for responding to health, nutrition, and population trends.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

NUTR 515 - Fundamentals of Cooking

Credits: 3  
Not Repeatable
Introduces students to the fundamental concepts of food and its preparation. The biological components, the chemical transformation, and sensorial properties of food are explored throughout the course.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**NUTR 522 - Nutrition Across the Lifespan**

Credits: 3  
Not Repeatable  
Explores the nutrient needs and food habits across the lifespan. Focuses on nutrition policies, programs, and interventions across the lifespan.

**Prerequisite(s):** NUTR 295.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**NUTR 530 - Introduction to Wine and Beer**

Credits: 3  
Not Repeatable  
Takes a multidisciplinary approach to understanding alcohol across time and space. Students will learn about alcohol production as well as the social and cultural dimensions of alcohol in a variety of cultures. Topics that might be covered in class include prohibition and neoprohibition, the health effects of alcohol, craft versus industrial production, among others. Students must be 21 to enroll.

Equivalent to NUTR 520 (2013-2014 Catalog).

**Notes:** Fees apply.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**NUTR 566 - Nutrition and Weight Management**

Credits: 3  
Not Repeatable  
Focuses on the physiological, emotional, genetic, and societal/cultural factors that influence the relationship between eating and weight regulation.

**Prerequisite(s):** GCH 295 or other introductory nutrition course.

**Hours of Lecture or Seminar per week:** 3
NUTR 583 - Food and Culture

Credits: 3
Not Repeatable
Examines food and eating behaviors, diet, and nutrition from cross-cultural perspective. Focuses on how and why people choose what to eat, range and significance of cross-cultural variability in diet, how diets have changed, and health and social implications of those changes.

Equivalent to GCH 583 (2011-2012 Catalog).

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NUTR 594 - Special Topics in Nutrition and Food Studies

Credits: 3
Repeatable within Degree
In-depth study of contemporary areas of nutrition and food studies. Topics vary each semester. Students may take up to 6 credits of NUTR 594 within their degree program.

Prerequisite(s): Graduate level course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring.

NUTR 608 - Perspectives on Food Security

Credits: 3
Not Repeatable
Overview of the major concepts and perspectives of food security. Explores and applies the definitions, means of measurement, and policy implications of food security from a multidisciplinary approach.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall.

NUTR 610 - Food Safety and Defense
Credits: 3  
Not Repeatable  
Focuses on the possible sources of unintentional and intentional contaminations in the food supply, and on the roles and guiding policies of the various levels of government and the food industry, as well as individual responsibility, in managing risk to ensure a safe food supply.

Prerequisite(s): NUTR 608.

Notes: Fees may apply.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring.

**NUTR 611 - Food and Nutrition Security Policy**

Credits: 3  
Not Repeatable  
In-depth analysis of food security and nutrition policies and programs aimed at reducing hunger and malnutrition among individuals and populations.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring.

**NUTR 620 - Nutrition Education**

Credits: 3  
Not Repeatable  
An overview of current nutrition education research, theories, programs, and policies. Explores how nutrition education can influence dietary behavior and food choice.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

**NUTR 626 - Food Systems**

Credits: 3  
Not Repeatable  
Survey of issues surrounding food production from a processing perspective. Students will gain an understanding various forms of food processing and the issues that surround industrial food systems.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring
NUTR 630 - Global Nutrition

Credits: 3
Not Repeatable
Directed at students from a variety of disciplines, this course examines what malnutrition is and how it occurs by looking at several situations from around the world. It looks at the impact of nutrition on a society and community and examines the benefits of a well-nourished population.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

NUTR 642 - Macronutrients

Credits: 3
Not Repeatable
Expands understanding of the biological roles of the macronutrients through application of advanced nutritional concepts relating to digestion, absorption and metabolism of carbohydrates, proteins, and lipids. Practical implications in the diet are emphasized, and particular attention is placed on the etiology and prevention of macronutrient-related diseases, including atherosclerosis, diabetes, and metabolic syndrome.

Prerequisite(s): NUTR 295 and undergraduate biochemistry course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NUTR 644 - Micronutrients

Credits: 3
Not Repeatable
Expands understanding of the biological roles of the micronutrients through application of advanced nutritional concepts relating to digestion, absorption, transport, and metabolism of vitamins and minerals. Practical implications in the diet are emphasized, with particular attention on the etiology and prevention of micronutrient-related diseases, including nutritional anemia and osteoporosis.

Prerequisite(s): NUTR 295 and Undergraduate biochemistry equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NUTR 651 - Nutrition Assessment, Monitoring and Surveillance
NUTR 652 - American Agriculture in the 20th Century

Credits: 3
Not Repeatable
Survey of issues surrounding food from an agricultural perspective. Students gain an understanding of how agricultural production shifted from a Jeffersonian ideal to an industrial and political practicality. Topics that may be covered: the agrarian ideal of the yeoman farmer, the ascendency of markets and agricultural commodification, the politicization of agriculture and the farm bill, and sustainable agricultural systems. Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NUTR 670 - Nutrition Research Methods

Credits: 3
Not Repeatable
Introduction to the fundamentals of research design and data collection methods. Students will learn about quantitative, qualitative, mixed method, participatory approaches, and ethical issues in nutrition-related research and evaluation.

Prerequisite(s): GCH 601 or GCH 712, NUTR 651 OR Equivalent courses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NUTR 675 - Nutrition Program Development, Interventions and Assessments
Credits: 3
Not Repeatable
Provides students with the knowledge and skills for planning, developing and evaluation of community nutrition programs and interventions.

Prerequisite(s): NUTR 620, NUTR 670, GCH 601 and NUTR 651 OR Equivalent course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NUTR 690 - Independent Study in Nutrition and Food Studies

Credits: 1-6
Repeatable within Degree
Readings or research on a pertinent topic in nutrition and food studies. Must be arranged with instructor before registering.

Prerequisite(s): Permission of instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

NUTR 788 - Pre-Practicum Seminar

Credits: 1
Not Repeatable
Provides guidance and preparation for engaging in the capstone practicum.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall

NUTR 790 - Nutrition Practicum

Credits: 2
Not Repeatable
An in-depth supervised experience in an approved nutrition-related organization. Includes a project related to a nutrition issue within the organization.

Prerequisite(s): NUTR 788.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring
NUTR 799 - Thesis Research

Credits: 1-6
Repeatable within Degree
Thesis research and writing.

Prerequisite(s): Core courses in MS program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Spring

Operations Management (OM)

Offered by the School of Business.

If a student takes noncore, upper-level business courses before admission to the School of Business, those courses will not count on an undergraduate degree application for any major in the school, except as general elective credit. A grade of C or higher must be presented on the graduation application for each upper-level course in the major. Course prerequisites are strictly enforced. Degree status is defined as formal admission to BS degree status in the School of Business.

OM 210 - Statistical Analysis for Management

Credits: 4
Not Repeatable

Introduces application of statistical methods to support quantitative decision analysis for resolving business problems. Topics include descriptive statistics, probability distributions, statistical inference and regression. May be taught in lecture/recitation format.
Students may not receive credit for both OM 210 and OM 211.

Equivalent to OM 211

Prerequisite(s): C or higher in MATH 108 or MATH 113 or HNRT 225. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

OM 211 - Honors Statistical Analysis for Management
Credits: 4  
Not Repeatable  
Introduces the application of statistical methods to support quantitative decision analysis for resolving business problems. Topical coverage includes descriptive statistics, probability, random variables, probability distributions, sampling and sampling distributions, estimation, hypothesis testing, and linear regression (both simple and multiple). Requires extensive use of case studies to integrate, synthesize and extend the concepts presented in order to foster a "learning by doing" approach that develops and promotes critical thinking abilities. Active class discussions via individual and/or group presentations of case assignments is an important learning activity. Extensive use of computer software for statistical modeling, problem solving, and analysis of case studies is a significant component of this course.

Equivalent to OM 210

**Prerequisite(s):** Cumulative GPA of 3.5 or higher; C or higher in MATH 108 or MATH 113 or HNRT 225. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 4  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**OM 301 - Operations Management**

Credits: 3  
Limited to 3 Attempts

Examines an organization's operations, including design, management and improvement processes, projects and supply chains, in both product and service environments. Uses analytical models to support key planning and control activities. School of Business students will not be permitted to make more than three attempts to achieve a C or higher in OM 301. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

Equivalent to OM 303.

**Prerequisite(s):** Grade of C or higher in OM 210 or OM 211. Sophomore standing. Prerequisite enforced by registration system.

**Notes:** Students cannot receive credit for both OM 301 and OM 303.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

---

**OM 303 - Operations Management**

Credits: 3  
Limited to 3 Attempts

Examines an organization's operations, including design, management and improvement processes, projects and supply chains, in both product and service environments. Uses analytical models to support key planning and control activities.
Equivalent to OM 301.

**Prerequisite(s):** Grade of C or higher in each of the following courses:

BUS 103 and BUS 200 are strongly recommended.

The following courses are required:
ACCT 203 or ACCT 204
BUS 100
BUS 210
MATH 108 or MATH 113 or MATH 114 or HNRT 225.
Degree status. Prerequisite enforced by registration system.

**Notes:** Students cannot receive credit for both OM 301 and OM 303.

School of Business students will not be permitted to make more than three attempts to achieve a C or higher in OM 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Last Term Offered:** Fall, Summer, Spring

### OM 320 - Supply Chain Management in a Global Economy

Credits: 3  
Not Repeatable  
Design, development, and management of supply chain systems, including production and inventory management, distribution channels, and information systems that support them. Emphasizes impact of e-business on companies and industries, including Internet's impact on the way goods and services flow through value chain from providers to customers.

**Prerequisite(s):** Grade of C or higher in OM 301 or OM 303. Degree status. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### OM 352 - Methods and Models of Management Science

Credits: 3  
Not Repeatable  
Introduces operation research and management sciences (OR/MS) techniques for supporting business management decisions. Specific mathematical programming and probabilistic topics include linear programming, integer programming, goal programming, network flow models, decision analysis, game theory, queuing models, and Monte Carlo simulation.

**Prerequisite(s):** Grade of C or higher in OM 301 or OM 303. Degree status. Prerequisite enforced by registration system.

**Prerequisite enforced by registration system.**
OM 435 - Business Process Analysis and Simulation

Credits: 3
Not Repeatable
Introduces concepts and tools used in designing, modeling, analyzing, and improving business processes. Various business process analysis and simulation methods, such as process mapping/flowcharting, process flow and capacity analysis, service process design, theory of constraints, process modeling and simulation, and business process reengineering are discussed. Introduces methods and analytical tools such as queue theory and computer simulation used to design, model, analyze, and improve business processes. Discusses methods such as process mapping/diagramming, service process design, process modeling, and business process reengineering.

Prerequisite(s): Grade of C or higher in OM 301 or OM 303. Degree status. Prerequisite enforced by registration system.

OM 452 - Business Forecasting

Credits: 3
Not Repeatable
Introduces techniques for producing predictions of future business operations as aids to making planning decisions. Specific topics include judgmental forecasting, forecast accuracy, correlation analysis, smoothing methods, regression models, decomposition, and autoregressive and ARIMA models. Methods demonstrated and used through computer software.

Prerequisite(s): Grade of C or higher in OM 301 or OM 303. Degree status. Prerequisite enforced by registration system.

OM 456 - Quality Management

Credits: 3
Not Repeatable
Provides an understanding of the multifaceted nature of quality management by emphasizing topics such as quality philosophies, total quality management, design quality, process quality, and managing quality in information systems development. Discusses ISO 9000 and Capability Maturity Model. Uses software, case studies.

Prerequisite(s): Grade of C or higher in OM 301 or OM 303. Degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
OM 462 - Honors Seminar in Operations Management

Credits: 3
Not Repeatable
Topic and format vary. In-depth study of a topic in the area of operations management. Enrollment limited and competitive.

Prerequisite(s): Degree status in ISOM major; senior standing; permission of department.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OM 491 - Seminar in Operations Management

Credits: 3
Not Repeatable
Analyzes selected topics that highlight latest developments in the operations management field, including contemporary research findings and case studies of operations management in business and other organizations.

Prerequisite(s): Grade of C or higher in OM 301 or OM 303. Degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

OM 493 - Management of Technology Projects

Credits: 3
Not Repeatable
Focuses on managerial problems associated with meeting technical, cost, and time constraints of technology projects. Discusses project management areas including organization, teams, scheduling, cost control, earned value analysis, risk management, and quality. Includes software cost estimation models and the management of IT projects. Software and case studies.

Prerequisite(s): Grade of C or higher in OM 301 or OM 303. Degree status. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

OM 499 - Independent Study in Operations Management
Operations Research (OR)

Offered by the Volgenau School of Engineering.

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

OR 335 - Discrete Systems Modeling and Simulation

Credits: 3
Limited to 2 Attempts
Introduction to basic concepts of modeling complex discrete systems by computer simulation. Topics include Monte-Carlo methods, discrete event modeling, specialized simulation software, and statistics of input and output analysis.

Equivalent to SYST 335

Prerequisite(s): CS 112 or equivalent, and STAT 344, or STAT 346, or MATH 351. Prerequisite enforced by registration system.

Corequisite(s): CS 211.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

OR 441 - Deterministic Operations Research

Credits: 3
Limited to 2 Attempts
Survey of deterministic methods for solving real-world decision problems. Covers linear programming model and simplex method of solution, duality, and sensitivity analysis; transportation and assignment problems; shortest path and maximal flow problems; and introduction to integer and nonlinear programming. Emphasizes modeling and problem solving.

Equivalent to MATH 441

Prerequisite(s): MATH 203, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
OR 442 - Stochastic Operations Research

Credits: 3  
Limited to 2 Attempts  
Survey of probabilistic methods for solving decision problems under uncertainty, probability review, decision theory, queuing theory, inventory models, reliability, Markov chain models, and simulation are covered. Emphasis on modeling and problem solving.

Equivalent to MATH 442

Prerequisite(s): STAT 344 or STAT 346 or MATH 351, or equivalent. Prerequisite enforced by registration system.

OR 481 - Numerical Methods in Engineering

Credits: 3  
Limited to 2 Attempts  
Modern numerical methods and software. Emphasis on problem solving through software and assessing the quality of solutions obtained. Topics include computer arithmetic, linear equations and least squares data fitting, interpolation, nonlinear optimization, and differential equations. Involves extensive computer use.

Equivalent to MATH 446

Prerequisite(s): Grade of C or better in MATH 203 and CS 112.

OR 498 - Independent Study in Operations Research

Credits: 1-3  
Limited to 2 Attempts  
Directed self-study of special topics of current interest in operations research.

Prerequisite(s): 60 credits; must be arranged with instructor and approved by department chair before registering.

Notes: May be repeated for maximum 6 credits if topics substantially different.

Hours of Lecture or Seminar per week: 3
OR 531 - Analytics and Decision Analysis

Credits: 3
Not Repeatable
Course focus is predominantly on prescriptive analytics with some parts focused on predictive analytics. Topics include operations research techniques and their application to decision making such as mathematical optimization, networks modeling, stochastic modeling, and multi-objective modeling. Other topics such as PERT, CPM, computer simulation, decision analysis using decision trees and quantitative value functions, and heuristic methods are covered, as well as use of contemporary computer software for problem solving. In particular, the course will extensively use MS Excel for solving the decision making problems. Case-study approach to problem solving is used.

Prerequisite(s): Graduate Standing.

Notes: Cannot be used for credit for the PhD IT program.

OR 540 - Management Science

Credits: 3
Not Repeatable
Operations research techniques and their application to managerial decision making. Mathematical programming, Markov processes, queuing theory, inventory models, PERT, CPM, and computer simulation are covered, as well as use of contemporary computer software for problem solving. Case-study approach to problem solving is used.

Equivalent to SYST 540

Prerequisite(s): MATH 108, and STAT 250 or OM 200; or equivalent.

Notes: Students who have taken OR 541 or OR 542 and OR MS majors do not receive credit.

OR 541 - Operations Research: Deterministic Models

Credits: 3
Not Repeatable
Survey of deterministic methods of solving real world decision problems. Covers linear programming model and simplex method of solution, duality, and sensitivity analysis, transportation and assignment problems; shortest path, minimal spanning tree, and maximal flow problems; and an introduction to integer and nonlinear programming. Emphasis on modeling and problem solving.
**Prerequisite(s):** MATH 203 or equivalent.

**Notes:** Students who have taken OR 441/MATH 441 will not receive credit.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**OR 542 - Operations Research: Stochastic Models**

Credits: 3  
Not Repeatable  

**Prerequisite(s):** STAT 344 or MATH 351, or equivalent.

**Notes:** Students who have taken OR 442/MATH 442 do not receive credit.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**OR 568 - Applied Predictive Analytics**

Credits: 3  
Not Repeatable  
Introduces predictive analytics with applications in engineering, business, and econometrics. Topics include time series and cross-sectional data processing, correlation, linear and multiple regressions, time series decomposition, predictive modeling and case study. Provides a foundation of basic theory and methodology with applied examples to analyze large engineering and econometric data for predictive decision making. Hand-on experiments with R will be emphasized.

Equivalent to SYST 568.

**Prerequisite(s):** STAT 515 or Graduate Standing at the MSOR or MSSE programs.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**OR 574 - Quality Control and Process Management**

Credits: 3  
Not Repeatable

An overview of quality control techniques widely used in a number of manufacturing industries. The course teaches students
about combining engineering process quality management and traditional statistical quality control procedures that are applicable in industry and are based on contemporary technologies such as lean Six Sigma, total quality management and predictive maintenance for achieving superior quality, reliability and maintainability.

Equivalent to SYST 574

**Prerequisite(s):** Graduate standing or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**OR 576 - Manufacturing Systems Analysis**

Credits: 3  
Not Repeatable  
An overview of modeling and analysis of general manufacturing systems techniques widely used in a number of manufacturing industries, such as semiconductor manufacturing. The course teaches students about best scheduling and inventory control practices, enterprise resource management principles, and details of engineering economy that are applicable in the industry.

Equivalent to SYST 576

**Prerequisite(s):** Graduate standing or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**OR 588 - Financial Systems Engineering I: Introduction to Options, Futures, and Derivatives**

Credits: 3  
Not Repeatable  
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito's formula, and Black-Scholes model.

Equivalent to SYST 588.

**Prerequisite(s):** Eng. or Math Graduate standing, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**OR 604 - Practical Optimization**
Credits: 3
Not Repeatable
Survey of optimization methods for students whose main focus is on application of optimization. Covers modeling, search
methods, convexity, linear programming, sensitivity, networks, multiobjective optimization, heuristic methods, integer
programming, nonlinear programming and dynamic programming; use of modeling languages and optimization tools, including
NEOS.

Prerequisite(s): OR 531 and CS 508

Notes: Course cannot be counted toward MSOR degree. Students who have taken OR 541 or 644 cannot receive credit.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 635 - Discrete System Simulation

Credits: 3
Not Repeatable
Computer simulation as a scientific methodology in operations analysis, with emphasis on model development, implementation,
and analysis of results. Discrete-event models, specialized software, input modeling, and output statistics are covered. Extensive
computational work is required.

Prerequisite(s): OR 542, or STAT 354 or 344, or equivalent; and knowledge of scientific programming language.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 640 - Global Optimization and Computational Intelligence

Credits: 3
Not Repeatable
Introduction to global optimization of nonconvex mathematical programs and numerical methods for the solution of such
problems. Topics covered include high-level survey of traditional mathematical programming algorithms; critical comparison of
metaheuristics and artificial intelligence (AI) algorithms to traditional mathematical programming algorithms; probabilistic
search, multistart methods, statistical tests of performance and confidence, simulated annealing, genetic algorithms, neural
networks, Tabu search, homotopies and tunneling; the traveling salesman problem, the Steiner problem, Stackelberg-Cournot-
Nash mathematical games and other classical nonconvex optimization problems.

Prerequisite(s): MATH 203 or equivalent, and knowledge of a scientific programming language.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 641 - Linear Programming

Credits: 3
Not Repeatable
In-depth look at the theory and methodology of linear programming: Computational enhancements of the revised simplex method; sparse-matrix techniques, bounded variables and the dual simplex method. Alternative interior point methods described and computational complexity of various algorithms analyzed.

**Prerequisite(s):** OR 541, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**OR 642 - Integer Programming**

Credits: 3  
Not Repeatable  
Cutting plane and enumeration algorithms for solution of integer linear programs; bounding strategies and reformulation techniques; heuristic approaches to the solution of complex problems; knapsack problems, matching problems, set covering and partitioning problems; applications to problems in OR/MS, such as capital budgeting, facility location, political redistricting, engineering design, and scheduling.

**Prerequisite(s):** OR 541, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**OR 643 - Network Modeling**

Credits: 3  
Not Repeatable  
Introduction to network problems in operations research, computer science, electrical engineering, and systems engineering. Solution techniques for various classes of such problems are developed. Topics include minimal-cost network flow, maximal flow, shortest path, and generalized networks; plus stochastic networks, network reliability, and combinatorially based network problems. Complexity of each problem class analyzed.

**Prerequisite(s):** OR 541, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**OR 644 - Nonlinear Programming**

Credits: 3  
Not Repeatable  
Nonlinear optimization theory and techniques applicable to problems in engineering, economics, operations research, and management science. Covers convex sets and functions, optimality criteria and duality; algorithms for unconstrained minimization, including descent methods, conjugate directions, Newton-type and quasi-Newton methods; and algorithms for constrained optimization, including active set methods and penalty and barrier methods.
Prerequisite(s): MATH 213 or equivalent, and OR 541; or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

OR 645 - Stochastic Processes

Credits: 3  
Not Repeatable  
Selected applied probability models including Poisson processes, discrete- and continuous-time Markov chains, renewal and regenerative processes, semi-Markov processes, queuing and inventory systems, reliability theory, and stochastic networks. Emphasis on applications in practice as well as analytical models.

Prerequisite(s): OR 542 or STAT 544, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

OR 647 - Queuing Theory

Credits: 3  
Not Repeatable  
Unified approach to queuing, organized by type of model. Single- and multiple-channel exponential queues; Erlangian models, bulk and priority queues, networks of queues; general arrival and/or service times; and statistical inference and simulation of queues are covered. Extensive use of computational software.

Prerequisite(s): OR 542, STAT 544, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

OR 649 - Topics in Operations Research

Credits: 3-6  
Repeatable within Term  
Advanced topic chosen according to interests of students and instructor from dynamic programming, inventory theory, queuing theory, Markov and semi-Markov decision processes, reliability theory, decision theory, network flows, large-scale linear programming, nonlinear programming, and combinatorics.

Prerequisite(s): Permission of instructor.
OR 651 - Military Operations Research I: Cost Analysis

Credits: 3
Not Repeatable
While drawing on other disciplines (managerial accounting, econometrics, systems analysis), cost analysis uses operations research to assist decision makers in choosing preferred future courses of action by evaluating selected alternatives on the basis of their costs, benefits, and risks. Cost analysis is distinctly different from cost estimating in that projecting future courses of action almost always requires mathematical modeling. Topics include analysis overview, economic analysis, estimating relationships (factors, simple and complex models), acquiring and verifying cost data, cost progress curves, life-cycle costing, scheduling estimating, effectiveness and risk estimation, relationship of effectiveness models and measures to cost analysis.

Corequisite(s): OR 541 or 542.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

OR 652 - Military Operations Research Modeling II: Effectiveness Analysis

Credits: 3
Not Repeatable
Examines issues and modeling underlying military decisions at the Military Service, Joint Staff, and Department of Defense level. Analytical methods with applications to theater campaign analysis, equipment and weapon system modernization, force structure development, strategic mobility and deployment, small-scale contingency operations, logistics, and requirements determination are considered. Optimization, simulation, and statistical techniques are stressed. Realistic problems presented and solved as case studies. Display of results and presentation techniques for military decision makers emphasized.

Corequisite(s): OR 541 or 542.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

OR 660 - Air Transportation Systems Modeling

Credits: 3
Not Repeatable
Introduces range of current issues in air transportation, including public policy toward the industry, industry economics, system capacity, current system modeling capability, human factors considerations, safety analysis and surveillance systems, and new technological developments. Students expected to develop broad understanding of contemporary and future issues. Knowledge evaluated through class discussions, a take-home midterm exam and a term project to be completed by the end of the semester.
Equivalent to SYST 660

**Prerequisite(s):** SYST 460/560, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**OR 670 - Metaheuristics for Optimization**

Credits: 3  
Not Repeatable

Course on the theory and practice of metaheuristics, i.e. solution search techniques for solving combinatorial optimization problems. It will introduce the theory, applications (scheduling in manufacturing, transportation, and in other engineering and service industries), and computational aspects of directly searching for solutions to solve computationally complex optimization problems without a well-defined analytical model.

Equivalent to SYST 670.

**Prerequisite(s):** OR 441/541 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**OR 671 - Judgment and Choice Processing and Decision Making**

Credits: 3  
Not Repeatable

How do people make judgments and decisions? Course presents an initial review of scientific literature directed toward answering this question, and emphasizes its importance when performing decision analysis and designing systems to support judgment and decision processes.

Equivalent to SYST 671

**Prerequisite(s):** STAT 344, STAT 354, or STAT 542, or permission of instructor

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring.

---

**OR 674 - Dynamic Programming**

Credits: 3  
Not Repeatable

Course on the theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties. Stresses intuition, the mathematical foundations being for the most part elementary. Introduces the theory,
applications (finance, engineering, and biology), and computational aspects of dynamic programming for deterministic and stochastic problems.

Equivalent to SYST 674

**Prerequisite(s):** OR 442 or OR 542 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**OR 675 - Reliability Analysis**

Credits: 3  
Not Repeatable

Introduction to component and system reliability, their relationship, and problems of inference. Topics include component lifetime distributions and hazard functions, parameter estimation and hypothesis testing, life testing, accelerated life testing, system structural functions, and system maintainability.

Equivalent to SYST 675

**Prerequisite(s):** STAT 544, STAT 554, OR 542, or permission of instructor

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**OR 677 - Statistical Process Control**

Credits: 3  
Not Repeatable

Introduces concepts of quality control and reliability. Acceptance sampling, control charts, and economic design of quality control systems are discussed, as are system reliability, fault-tree analysis, life testing, repairable systems, and the role of reliability, quality control and maintainability in life-cycle costing. Role of MIL and ANSI standards in reliability and quality programs also considered.

Equivalent to STAT 677/SYST 677

**Prerequisite(s):** STAT 544 or 554, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**OR 681 - Decision and Risk Analysis**

Credits: 3  
Not Repeatable

Application of analytic reasoning and skills to practical problems in decision-making. Topics include problem structure, analysis and solution implementation, emphasizing contemporary approaches to decision analytic techniques.
OR 682 - Computational Methods in Engineering and Statistics

Credits: 3
Not Repeatable
Numerical methods have been developed to solve mathematical problems that lack explicit closed-form solutions or have solutions that are not amenable to computer calculations. Examples include solving differential equations or computation probabilities. Discusses numerical methods for such problems as regression, analysis of variance, nonlinear equations, differential and difference equations and nonlinear optimization. Applications in statistics and engineering are emphasized. Involves extensive computer use.

Equivalent to CSI 700

Prerequisite(s): MATH 203 and 213 or equivalent, and modern numerical methods and software.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 683 - Principles of Command, Control, Communications, Computing, and Intelligence (C4I)

Credits: 3
Not Repeatable
Fundamental principles of C4I are developed from descriptive, theoretical, and quantitative perspectives. Principles and techniques applicable to wide range of civilian and military situations. Topics include C2 process; modeling and simulation for combat operations; detection, sensing, and tracking; data fusion and situation assessment; optimal decision making; methodologies and tools of C4I architectures; tools for modeling and evaluations of C4 systems such as queuing theory.

Equivalent to SYST 680/ECE 670

Prerequisite(s): ECE 528, OR 542, or SYST 611; or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

OR 688 - Financial Systems Engineering II: Derivative Products and Risk Management
Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions, as well as facilitating the risk management of those decisions. This course will focus on risk management for both market risk and credit risk. It will cover a broad range of derivatives products and hedging strategies with emphasis on how risks are managed in financial institutions.

Equivalent to SYST 688.

**Prerequisite(s):** OR/SYST 588 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**OR 690 - Optimization of Supply Chains**

Credits: 3  
Not Repeatable  
Focuses on both supply chain optimization from an enterprise-wide perspective, and supply chain optimization from a business-to-business e-commerce concern. Concerned with optimizing the value of goods and services and assuring a reasonable return on such sales. Describes both heuristic and exact algorithms for scheduling, production, inventory management, logistics, and distribution. New software that enables such optimization is presented, as are manufacturing and service examples from the public and private sectors. New techniques to handle risk, quality of data, and robustness of solutions are presented. Students perform case studies using state-of-the-art software.

**Prerequisite(s):** Graduate standing, mathematics through linear algebra, and STAT 344.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**OR 699 - Masters Project**

Credits: 3  
Not Repeatable  
Capstone project course for MS/OR program. Key activity is completion of a major applied team project resulting in an acceptable technical report and oral briefing. Student should plan to take this course in the last semester of studies.

Equivalent to OR 680 (2011-2012 Catalog)

**Prerequisite(s):** 21 graduate credits in OR or SYST.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring.

---

**OR 719 - Graphical Models for Inference and Decision Making**
Credits: 3
Not Repeatable
Theory and methods for inference and decision making in environments characterized by uncertain information. Covers graphical probability and decision models. Studies approaches to representing knowledge about uncertain phenomena, and planning and acting under uncertainty. Topics include knowledge engineering, exact and approximate inference in graphical models, learning in graphical models, temporal reasoning, planning, and decision-making. Practical model-building experience provided. Students apply what they learn to a project of their own choosing.

Equivalent to CSI 775; STAT 719 (2014-2015 Catalog).

Prerequisite(s): STAT 652 or SYST/STAT 664, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 735 - Advanced Stochastic Simulation

Credits: 3
Not Repeatable
Special topics and recent developments in Monte Carlo simulation methodology for discrete-event stochastic systems. Contents vary; possible topics include statistical analysis of simulation output data, random number and random variate generation, variance reduction techniques, sensitivity analysis and optimization of simulation models, distributed and parallel simulation, object-oriented simulation, and specialized applications.

Equivalent to SYST 735

Prerequisite(s): OR 635 or permission of instructor.

Notes: May be repeated for credit when topics are distinctly different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 741 - Advanced Linear Programming

Credits: 3
Not Repeatable
Recent developments in linear programming. Highlights advances in interior point methods and also addresses developments in the simplex method. Projective methods, affine methods, and path-following methods are examined, including Karmarkar's original work. Discusses relationships between these methods, and relationships to methods in nonlinear programming. Also discussed are advances in data structures and other implementation issues. Students test software and solve large-scale linear programs.

Prerequisite(s): OR 541 and 641.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
OR 750 - Advanced Topics in Operations Research

Credits: 3
Repeatable within Term
Special topics, applications, or recent developments in operations research. Contents vary and may include topics in optimization, stochastic methods, or decision support that are not covered in the standard OR curriculum.

Prerequisite(s): OR 541 or 542, and 600-level course that varies with content of course.

Notes: May be repeated for credit when topics are distinctly different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 751 - Advanced Topics in Operations Research for Planning and Scheduling

Credits: 3
Not Repeatable
Introduces combinatorial optimization problems in scheduling and logistics. Solution techniques for various classes of such problems are developed. Topics include deterministic and stochastic scheduling algorithms with applications in manufacturing and service sectors.

Prerequisite(s): OR 541.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 763 - Research Methods in Systems Engineering and Information Technology

Credits: 3
Not Repeatable
Examines alternative paradigms of scientific research and their applicability to research in information technology. Topics include fundamental elements of scientific investigation, basic principles of experimental design and statistical induction, philosophy of science and its relation to the information technology sciences, and case studies of information technology research.

Equivalent to SYST 763.

Prerequisite(s): STAT 544, OR 542, or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

OR 774 - Advanced Dynamic Programming
Credits: 3
Not Repeatable
Covers advanced topics on the theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties. Stresses the mathematical foundations and introduces the theory, computational aspect, and applications of dynamic programming for deterministic and stochastic problems.

Prerequisite(s): OR674/SYST674 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**OR 780 - Queuing Modeling of Computer-Communication Networks**

Credits: 3
Not Repeatable
Studies analytical modeling of computer and communication networks and performance evaluations. Topics include Markovian systems, open networks, closed networks, approximations, decomposition, simulation, sensitivity analysis, and optimal operation of systems. Presents local area networks, manufacturing systems, and other applications.

Prerequisite(s): OR 645 or 647, or ECE 542; or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**OR 782 - Advanced Topics in Combinatorial Optimizations**

Credits: 3
Repeatable within Degree
Studies problems using most recent developments. Topics include cutting plane procedures based on polyhedral combinatorics; column-generation procedures for large, complex problems; heuristic approaches such as genetic algorithms, simulated annealing, and tabu search; study of special structures; reformulation techniques; and bounding approaches. Topics stress most recent developments in field.

Prerequisite(s): OR 641 and 642.

Notes: May be repeated for credit when topics are distinctly different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**OR 783 - Advanced Topics in Network Optimization**

Credits: 3
Repeatable within Degree
Recent developments in solving optimization problems on networks. Prepares doctoral students to perform advanced research on network-related problems. Topics include linear, discrete, nonlinear, and stochastic problems. Several aspects of problems also studied, including computational complexity, exact algorithms, heuristics, solvable special cases, and computer implementation issues.

**Prerequisite(s):** OR 643.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**OR 784 - Advanced Topics in Nonlinear Programming**

Credits: 3  
Not Repeatable  
Studies theory and algorithms for solving nonlinear optimization problems. Contents vary; possible topics include large-scale and parallel-unconstrained optimization, theoretical issues in constrained optimization, duality theory, Lagrangian and sequential quadratic programming methods.

**Prerequisite(s):** OR 644.

**Notes:** May be repeated for credit when topics are distinctly different.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**OR 842 - Models of Probabilistic Reasoning**

Credits: 3  
Not Repeatable  
Survey of alternative views about how incomplete, inconclusive, and possibly unreliable evidence might be evaluated and combined. Discusses Bayesian, Baconian, Shafer-Dempster, and Fuzzy systems for probabilistic reasoning.

Equivalent to SYST 842.

**Prerequisite(s):** STAT 544, OR 542, OR 681, or permission of instructor

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**OR 888 - Distributed Estimation and Multisensor Tracking and Fusion**

Credits: 3  
Not Repeatable  
Centralized and distributed estimation theory, hierarchical estimation, tracking and data association, multisensor multitarget tracking and fusion, distributed tracking in distributed sensor networks, track-to-track association and fusion, and Bayesian networks for fusion.
Equivalent to SYST 888/ECE 753

Prerequisite(s): ECE 734 or SYST 611.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 944 - The Process of Discovery and Its Enhancement in Engineering Applications

Credits: 3
Not Repeatable
Studies ingredients of imaginative reasoning as it concerns efficient discovery of new ideas and valid evidential test of them. Topics include different interpretations of Peirce's theory of abductive reasoning and other forms of reasoning, Hintikka's analysis of process of inquiry, and current attempts to design systems that provide assistance in discovery-related or investigative activities.

Equivalent to SYST 944

Prerequisite(s): OR 842 or SYST 842 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 981 - Optimization in Medicine

Credits: 3
Not Repeatable
Course focuses on the application of optimization to medicine, as well as on modeling used and solution approaches to the optimization problems generated. Particular attention is paid to algorithms and methodology not discussed in other optimization courses. Topics covered include nonlinear integer programs, large-scale nonlinear and integer programs, problems governed by differential equations, and more.

Prerequisite(s): OR 641, OR 642, OR 643, or OR 644.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Organization Development and Knowledge Management (ODKM)

Offered by the School of Policy, Government, and International Affairs.

ODKM 700 - Organizations, Management and Work: Theory and Practice
This introduction to organizations, management, and work examines ideas and practices from two perspectives: conventional ones that go back to the industrial age and scientific management; and contemporary ones that have to do with organizing knowledge-work. Covers contributions of a range of writers and deals with foundations of OD from the standpoint of both theory and practice.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**ODKM 705 - Group Dynamics and Team Learning**

Credits: 3
Not Repeatable
Engaging in unstructured and semi-structured learning environment, students will learn how to facilitate team learning for organizational effectiveness. By exploring various aspects of group dynamics such as power, perception, motivation, leadership, and decision making, students will develop various competencies to manage teams and enhance their emotional and appreciative intelligence.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**ODKM 710 - Social and Organizational Inquiry**

Credits: 4
Not Repeatable
Introduces participants to the ethics, conduct and evaluation of research into human, social and organizational realities. Explores relationships between what and how we measure and what we find. Students develop the capacity to reflect on themselves as research instruments, on their own impact on the systems under study, and on the impact of the research assumptions, framing and approach both on the results obtained and on the future development of those systems.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**ODKM 715 - Creating Learning Organizations**

Credits: 3
Not Repeatable
Focuses on the epistemological and ontological implications of organizational life in the twenty-first century. Reevaluates traditional management approaches in light of global economies, instantaneous communication, changing technologies, and diverse workgroups in knowledge economies. Special attention to developing skills for "double- and triple-loop learning," and reflection in professional lives through learning conversations, journals, narrative, autobiography, and imaginative literature.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
ODKM 720 - Collaborative Technologies for Knowledge Sharing

Credits: 3
Not Repeatable
Examines the potential of collaborative technologies for creating effective knowledge sharing in organizations. Through the use of tools such as SharePoint, students will gain a comprehensive understanding of the state of the art of virtual work and collaboration technology and other subjects related to successful design of a collaborative knowledge work environment.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ODKM 725 - Strategic Knowledge Management

Credits: 3
Not Repeatable
An in-depth look at knowledge management, both theory and practices, which distinguishes between technology-oriented KM practices and people-oriented ones, with an emphasis on leveraging and sharing knowledge to get work done well and develop more effective organizations. Examines effective ways of organizing knowledge-work, including social networks, communities of practice, and the use of collaborative technologies.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ODKM 730 - Special Topics

Credits: 1-3
Not Repeatable
Selected special topics in organization development and knowledge management not covered by existing ODKM courses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ODKM 731 - Consulting Skills for Organizational Change

Credits: 3
Not Repeatable
Explores various theories and practices of change management, collaborative consulting, action research, and organization development. Using class projects and case studies, students bring together their understanding of organization development, their values, and their personal style to perform more effectively in various consulting roles. Students also learn various aspects of process consulting and client relationship management.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
ODKM 735 - Organizational Development Practices

Credits: 3
Not Repeatable

Students develop applied knowledge of various organizational development practices such as action research and appreciative inquiry. Includes simulations to understand the complexities of real-world change management. Group projects with selected organizations will help students develop their diagnostic and analytical skills to become better facilitators of organizational learning.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ODKM 740 - Learning Community

Credits: 1-3
Repeatable within Degree

Using workshops, seminars, simulations, and structured experiences, students will learn how to build a learning Community of Practice (CoP) as practitioners of organization development. They will also reflect upon the community building experience using research findings and design practice sessions to apply the lessons learned to the work environment.

Equivalent to MNPS 720

Prerequisite(s): Candidates for the M.S. in ODKM degree only.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

Parks, Recreation, and Leisure Studies (PRLS)

Offered by the College of Education and Human Development

PRLS 110 - Exploring Outdoor Adventure

Credits: 2
Not Repeatable

Provides students an introduction to outdoor adventure activities and the leadership theory involved to plan activities. Aims to bridges the gap between theory and practice as it pertains to outdoor adventure activities. Focuses on developing skills in a variety of outdoor recreation activities that might include, but not limited to orienteering, Geocaching, canoeing, rock climbing, and challenge course team building.

Notes: Students with injuries or pre-existing conditions that might affect performance must inform the instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 5
When Offered: Fall, Summer, Spring
PRLS 115 - Introduction to Fly Fishing

Credits: 1  
Not Repeatable  
A practical course designed for students with little or no knowledge of fly fishing. The course will involve activities to teach students the basics of fly fishing to include terms and equipment, casting, knot tying, aquatic entomology, fly selection, reading water, wading techniques and safety, and fly fishing tactics. In addition to the one-hour classes required during the week, a full day on a stream will be included.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

PRLS 116 - Introduction to Indoor Rock Climbing

Credits: 1  
Not Repeatable  
Introduces equipment, techniques, safety, and planning related to basic rock climbing.

Notes: Fee required.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

PRLS 117 - Rock Climbing

Credits: 2  
Not Repeatable  
For individuals who have never done any formal rock climbing. Involves activities to teach students basic climbing terms, techniques, equipment, and safety practices for top rope belay climbing and rappelling. Builds communication skills and trust.

Notes: Fee required.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0

PRLS 118 - Intermediate Rock Climbing

Credits: 2  
Not Repeatable  
For individuals who have some prior skills in rock climbing looking to further increase their skill level. Involves teaching students climbing terms, advanced knots, equipment, safety practices for redirect belay and top rope belay, as well as setting up techniques using rope and webbing. Special emphasis on anchor building will also be included. Ability to climb and rappel at least at the beginner's level will be required. This is not a certification course.
Prerequisite(s): PRLS 117

Notes: Fee required.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 119 - Trap and Skeet Shooting

Credits: 2
Not Repeatable
Designed to educate the student on gun and range safety. Includes hands-on learning of the games trap and skeet, where competitors fire at clay targets (approximately 4 ¼ inches in diameter and 1 ½ inches in height) launched from a trap at varying angles.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 120 - Introduction to Backpacking

Credits: 2
Not Repeatable
This practical and experiential course is designed for students with little or no knowledge of backpacking. Involves discussions, demonstrations, and activities to teach students the basics of backpacking. Topics covered include equipment selection and use, map and compass skills, backcountry cooking, staying healthy in the outdoors, safety and emergency procedures, backcountry ethics (Leave No Trace), and natural history. Application of these skills will be realized over a four-day backpacking trip. Not only will students have the opportunity to practice these skills, but they will also develop their leadership abilities by working in a collaborative team environment.

Notes: Fee required.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 121 - Intermediate Trap and Skeet Shooting

Credits: 2
Not Repeatable
Designed to increase the skill competencies in trap shooting. Includes hands-on learning of the different trap games (16-yard, handicap, doubles, and Olympic trap shoot on a wobble trap) where competitors fire at clay targets (approximately 4 ¼ inches in diameter and 1 ½ inches in height) launched from a trap at varying angles. Gun and range safety will also be emphasized.

Prerequisite(s): PRLS 119 or permission of instructor

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
PRLS 122 - Introduction to Horsemanship

Credits: 1  
Not Repeatable  
Introduces the basics of horseback riding and horsemanship. Emphasis will be on learning how to care for a horse, tack a horse, and basic riding skills. Students will learn how to walk, trot, and jump small obstacles.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

PRLS 123 - Intermediate Indoor Rock Climbing

Credits: 1  
Not Repeatable  
Introduces the practices designed to move into the intermediate indoor climbing realm with a focus on efficient and creative body positions, including specific, more advanced techniques and strength training.

Prerequisite(s): PRLS 116 or permission of instructor

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

PRLS 124 - Pistol Marksmanship

Credits: 1  
Not Repeatable  
Introduces students to marksmanship skills in Olympic sport and target shooting. Increases students' knowledge of shooting safety, position shooting, equipment care and maintenance, and shooting sports competition methods and techniques.

Prerequisite(s): Must be 18 years of age or older by the first day of class.

Notes: Previous firearms experience is not required. Each student responsible for $120.00 range fee.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

PRLS 125 - Tracking, Trailing and Orienteering

Credits: 2  
Not Repeatable  
Develops outdoor navigational and tracking skills and assumes no prior experience in tracking, trailing, or orienteering. Use of modern topographical maps and navigational compasses in a variety of settings.
PRLS 170 - Introduction to White-water Kayaking

Credits: 2
Not Repeatable
Designed to provide students an overview and entry-level skills and knowledge necessary to navigate rapids up to Class II difficulty and plan and execute trips on moving water. Includes instruction in, but not limited to, paddle strokes and maneuvers, boat handling, basic terminology, equipment, proper clothing, kayak design, trip planning, river safety, self and group rescue techniques, water reading, river etiquette, and environmental ethics. A high priority is placed on emphasizing safety aspects.

Notes: Fee required.

PRLS 173 - Basic Coastal Kayaking

Credits: 2
Not Repeatable
This course is designed to provide students with the core skills and knowledge necessary to safely paddle sea/coastal kayaks and execute trips on rivers and coastal environments. Includes instruction in, but not limited to, boat handling, terminology, kayak design, trip planning, marine hazards and safety, rules of the nautical road, weather and tides, and environmental ethics. There will be several trips within 50 miles of Mason.

Notes: Fee required.

PRLS 174 - Open Water Coastal Kayaking

Credits: 2
Not Repeatable
This course is designed to provide experienced coastal kayaking students with an introduction to advanced strokes and maneuvers, open water rescues, on-water navigation, and safety concerns related to open water.

Prerequisite(s): PRLS 173 or permission of instructor

Notes: Fee required.
PRLS 175 - Introduction to Rowing

Credits: 1  
Not Repeatable  
This course is designed to provide students with the skills and knowledge necessary to row successfully in an eight-oared rowing shell. Includes instruction in, but not limited to, proper handling of rowing equipment, basic terminology, the proper execution of the rowing stroke, water safety, and team building.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

PRLS 180 - White-water Canoeing

Credits: 2  
Not Repeatable  
A practical course designed for students with little or no knowledge or skills in moving water and white-water canoeing. Involve activities to teach basic terms, rules, techniques for river safety, paddle strokes, boat control and maneuvering, reading river currents and conditions, self rescue techniques, ethics and river etiquette, and running rivers up to Class II+ in difficulty. There will be one classroom and four all-day paddling sessions on regional rivers.

Prerequisite(s): Ability to swim fully clothed for five minutes and put on a PFD in water

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0

PRLS 181 - White-water Canoeing II

Credits: 2  
Not Repeatable  
A practical methods course to advance and refine the student's white-water canoeing skills with regard to paddle strokes, turns, maneuvers, boat control, and safety rescue skills.

Prerequisite(s): PRLS 180 or permission of instructor

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0

PRLS 183 - Geocaching

Credits: 1  
Repeatable within Degree  
Introduces geocaching using a map, compass, and GPS to navigate to a location. Involves discussion, practical application, and research.

Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor.
PRLS 187 - Rock Climbing II

Credits: 2
Not Repeatable
Provides advanced instruction into techniques and knowledge including climbing movements, knots and basic rope systems, rappelling, bouldering, introduction to sport climbing, and climbing history. Involves outdoor rock climbing sessions at local site.

Prerequisite(s): PRLS 116 or 117 or Permission of Instructor and a Vertical Rock Top-Rope Belay Certification (obtained during first class session).

Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 2
When Offered: Fall, Spring

PRLS 190 - Downhill Skiing

Credits: 1
Not Repeatable
Basic skills and techniques of downhill skiing are taught and refined. Includes becoming familiar with use of ski equipment, terminology, and safety rules. Includes lecture and field experience to improve downhill skiing skills.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PRLS 191 - Snowboarding

Credits: 1
Not Repeatable
Basic skills and techniques of snowboarding are taught and refined. Includes becoming familiar with use of equipment, terminology, and safety rules. Includes lecture and field experience to improve snowboarding skills. This course also consists of demonstrations, discussions, and videos.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PRLS 192 - Intermediate Horsemanship

Credits: 1
Not Repeatable
Introduces intermediate skills of horseback riding and horsemanship. Emphasizes technical riding and advancing basic horseback riding skills (e.g. figure S's, serpentines, and change of direction). Focuses on how equitation affects the horse and horse behavior affects riding and safety.

Prerequisite(s): PRLS 122 or permission of instructor.

Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

PRLS 195 - Introduction to Hot Air Ballooning

Credits: 2
Not Repeatable
Includes history, FAA regulations, equipment, weather, instruments, flight planning, balloon operations, and medical factors. Laboratory includes skill development as a crewmember and pilot, using an AX-8 hot air balloon. FAA student pilot certificates will be offered to all students. Although this is an introductory course, those completing it with a grade of B or better will be eligible to sit for the FAA written examination for lighter-than-air, free balloon, a requirement for the private pilot certificate.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 200 - Wilderness First Responder

Credits: 2
Repeatable within Degree
Examines the role of outdoor professionals in wilderness medicine and the response, care and rescue of outdoor participants in non-urban outdoor environments. Uses the Patient Assessment System (PAS) to assess backcountry patients in an intensive experiential course which addresses the issues of medico legal concerns, blood borne pathogens and infectious diseases.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 2
When Offered: Fall, Spring, Summer

PRLS 210 - Introduction to Recreation and Leisure

Credits: 3
Not Repeatable
Traces the development of current concepts of recreation and leisure and their implications and consequences. Covers influences of philosophy, religion, science, economics, sociology, and politics on discretionary time and its uses.

Notes: Open to nonmajors.
PRLS 214 - Field Study in Natural History

Credits: 3
Repeatable within Degree
Provides an introduction to natural history and its application in natural area interpretation through field study investigation of the environment. Covers fundamentals of bird, plant, animal, and rock identification, as well as sky and landscape interpretation.

PRLS 220 - Experiential Education Theory and Application

Credits: 3
Not Repeatable
Provides a broad theoretical, as well as practical, background in teaching and learning experientially. Concepts presented, experienced, and discussed include the basic premises of experiential learning according to a wide variety of educators and philosophers. The content and experience applies to recreation, education, development, and therapeutic settings.

PRLS 221 - Challenge Course Facilitation

Credits: 3
Repeatable within Degree
Provides the fundamental principles and techniques of challenge course facilitation. Classroom learning is combined with an experiential setting through leading youth groups in the field. Students are provided with an introduction to safety, skills, and facilitation techniques for low and high elements of outdoor challenge courses.

Prerequisite(s): CPR Certification and PRLS 220, or permission of instructor

PRLS 241 - Practicum

Credits: 3
Not Repeatable
Paid or voluntary work experience in a park and recreation agency. Minimum period of 10 to 12 weeks of part-time employment or experience. Capstone course for minors, allowing for integration and application of course work, theories, and research to a
work setting. Work sites chosen among four approved sites. Includes meetings and assignments prior to and during the practicum.

Prerequisite(s): 60 hours and PRLS 210.

Notes: Open to departmental majors and minors only. Serves as a capstone for minors who have completed PRLS 310, 316, and 327.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
Grading: Satisfactory/No Credit

PRLS 250 - Wilderness Travel and Sustainability

Credits: 2
Not Repeatable

This experiential course is designed for students with prior backpacking experience. Involves discussions, demonstrations, and activities that teach students wilderness skills, safety and judgment, leadership and teamwork, and environmental ethics. Topics covered include basic wilderness first-aid, hazard evaluation, emergency procedures, expedition behavior, self awareness, judgment and decision making, campsite selection, shelter and stove use, fire building, sanitation and hygiene, cooking, nutrition and rationing, equipment care and selection, staying warm and dry, route finding and navigation, Leave No Trace backpacking, weather, natural history, and wilderness ethics. Application of these skills will occur during the 14-day offtrail backpacking trip in a remote wilderness area. Not only will students practice these wilderness skills, but they will also develop leadership abilities by working in a collaborative team environment.
Designated a Green Leaf Course.

Prerequisite(s): PRLS 120

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 253 - Florida Everglades Canoe Expedition

Credits: 3
Not Repeatable

Focuses on developing the knowledge and skills necessary to plan, manage, and participate in extended wilderness excursions by canoe in remote locations, while exploring a region's natural history. Students will be engaged in classroom preparation; training in canoeing and wilderness travel/living skills; group leadership; and environmental education in the Everglades National Park ecosystem. The class will travel and camp for 6 days/night in the Everglades back country by canoe as a self-contained group. Students will perform a service project in the park. For students planning careers in outdoor recreation, interpretation, and natural resources management and planning; and students with a general interest in the course topics.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1
PRLS 290 - Aquatic Operation and Management

Credits: 3  
Not Repeatable  
Covers industry standards for water quality and aquatic facility management. Includes recognizing, measuring, and preventing biological and physical hazards. Meets requirements for certification as a Certified Pool/Spa Operator through the National Swimming Pool Foundation as well as certification in CPR through the American Red Cross.

Hours of Lecture or Seminar per week: 3  
When Offered: Spring

PRLS 300 - People with Nature

Credits: 3  
Not Repeatable  
Traces philosophical evolution of perceptions of and attitudes toward nature. Examines role of philosophers, scientists, nature-writers, and artists in the shaping of environmental thought. Includes extensive reading of Emerson, Thoreau, Muir, Leopold, Carson, Wilson, and others.  
Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PRLS 302 - Park Management and Operations

Credits: 3  
Not Repeatable  
Focuses on management and operations of park resources, including the management of visitors and recreation development. Emphasizes understanding of contemporary threats to park integrity and preservation of resources. Also covers maintenance management systems.

Prerequisite(s): PRLS 300

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PRLS 310 - Program Planning and Evaluation

Credits: 3  
Not Repeatable  
Introduces fundamental principles and techniques of the planning process for sport, recreation and tourism programs, including assessment of needs and goals, objectives, and mission statement; generating solutions; planning programs for implementation and evaluation.

Prerequisite(s): minimum grade of D in PHED 200, PRLS 210, SPMT 201, SRST 200, or TOUR 200. Prerequisite enforced by
registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PRLS 316 - Leadership and Outdoor Education**

Credits: 3  
Not Repeatable  
Focuses on promotion of lifelong health and fitness via noncompetitive and informal outdoor activities. Introduces safety, skills, and leadership techniques. Covers sustainable use, conservation, and stewardship of natural resources.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PRLS 317 - Social Psychology of Play and Recreation**

Credits: 3  
Not Repeatable  
Applies social psychological theories and research to the study of leisure, play, and recreation behavior, including correlates, antecedents, and consequences of and constraints to these concepts.

**Prerequisite(s):** Tour 200, PRLS 210, SPMT 201, or PHED 200.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PRLS 323 - Program Leadership and Evaluation**

Credits: 3  
Not Repeatable  
Covers leadership and evaluation of health, fitness, and recreation programs. Uses computer technology to study evaluative aspects of program planning and administration.

**Prerequisite(s):** PRLS 310.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**PRLS 327 - Foundations of Therapeutic Recreation**

Credits: 3  
Not Repeatable
An introduction to the processes and techniques of therapeutic recreation to meet the unique needs of people with disabilities. This course examines the history, concepts, theories, and foundations of therapeutic recreation.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PRLS 360 - Bill of Rights Issues in Parks, Schools, and Public Places**

Credits: 3  
Not Repeatable  
Examines issues, particularly those involving First Amendment free speech and freedom of religion issues such as political protests, religious displays, and use permits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PRLS 362 - Cultural and Environmental Interpretation**

Credits: 3  
Not Repeatable  
Focuses on communication processes and practices used to explain and interpret special characteristics of cultural and environmental resource sites for visitors. Conceptual principles for planning interpretive programs and multi-media delivery techniques are discussed. Methods for programming interpretive services, addressing multi-audience accessibility, and administration and evaluation of interpretive services used at recreation and tourism sites are also examined.

Equivalent to TOUR 362.  
**Prerequisite(s):** PRLS 300, or PRLS 328, or TOUR 352 or permission of instructor.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 1-12  
**When Offered:** Spring

**PRLS 402 - Human Behavior in Natural Environments**

Credits: 3  
Not Repeatable

Applies social and behavioral theories to management for recreational users of land and water resources. Examines deterioration and pollution of land and water, noise, crowding, and conflicts among users. Discusses strategies for mitigation of deleterious impacts and depreciative behaviors, and attitudes toward resource conservation, preservation, and use. Designated a Green Leaf Course.

**Prerequisite(s):** PRLS 210 and 300, or permission of instructor, and 60 credits
PRLS 405 - Planning and Operation of Recreation Facilities

Credits: 3
Not Repeatable
Covers quantity, location, and design standards for facilities. Includes safety, functionality, durability, and maintenance demand criteria in planning and design; programmatic and operational objectives to be met, including user comfort and convenience, crowd management, and traffic flow, and space relationships. Includes field study of local facilities.

Prerequisite(s): 60 credits

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 410 - Administration of SRT Organizations I

Credits: 3
Not Repeatable
Focuses on operation and management of sport, recreation and tourism organizations. Covers management and leadership theories and techniques, problem-solving and decision making, organizational communications, design of organizational structures and budgeting.

Prerequisite(s): 60 hours or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 411 - Administration of SRT Organizations II

Credits: 3
Not Repeatable
Focuses on program and organizational marketing principles and strategies; service quality assessment and organizational evaluation techniques; and organizational financing for the experience industry.

Prerequisite(s): PRLS 410 and 60 hours.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 416 - Trends and Programming Assessment in Therapeutic Recreation
Explores the role of leisure in human development with a specific focus on needs, demands, and services for people with disabilities and illness. Presents concepts associated with leisure, aging, physical challenge, targeting leisure services, research, and public policy.

**Prerequisite(s):** PRLS 327

**Notes:** Field experience required.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PRLS 417 - Processes, Techniques and Supervision in Therapeutic Recreation**

Credits: 3

Not Repeatable

Exploration of processes and techniques used in Therapeutic Recreation, with a focus on the nature and diversity of recreation and leisure activities, modalities and interventions, facilitation techniques and approaches, leadership roles and tasks, communication skills, clinical supervision, health and safety considerations, and the impact of the impairment and/or treatment on the individual.

**Prerequisite(s):** PRLS 327 and PRLS 416

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**PRLS 418 - Assessment in Therapeutic Recreation**

Credits: 3

Not Repeatable

Presents methods of assessment, development of treatment program plans, and evaluation of all components. Extends program design by developing competencies in the planning approaches, individual and group assessment techniques, program evaluation, and documentation strategies for people with disabilities and illness.

**Prerequisite(s):** PRLS 327 and 416

**Notes:** Field experience required.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PRLS 435 - Recreation Special Uses and Appeals**

Credits: 3

Not Repeatable
Management of extensive and varied commercial and noncommercial demands on federal lands. Policies and procedures used by federal land managers. Implementation, effects, and problems of permit systems; appeal provisions.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PRLS 442 - Foundations of Public Domain Management**

Credits: 1  
Not Repeatable  

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**PRLS 443 - Special Uses Management on Federal Lands**

Credits: 4  
Not Repeatable  
Special use authority and authorizations. Policies, regulations, and directives in processing applications. Coordination and administration of special uses and integration with land and resource management plans. Includes agriculture, industry, community, aviation, water, treasure trove, and cultural uses.

**Hours of Lecture or Seminar per week:** 4  
**Hours of Lab or Studio per week:** 0

**PRLS 444 - Linear Uses and FERC Licenses on Federal Lands**

Credits: 3  
Not Repeatable  
Legislation, regulation policies, and directives governing linear uses. FERC licensing of hydroelectric power generation and distribution. Right-of-way for oil, gas, and electric transmission, railroads, communication, trams, conveyors, roads, and trails. FERC consultation, exemption, and licensing.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PRLS 445 - Valuation and Landownership Adjustment**

Credits: 5  
Not Repeatable  
Landownership authority, coordination, and adjustment processes; land valuation and rules, and processes of appraisal, title
exchange, purchase, donation, transfer, sale, and condemnation of properties.

**Hours of Lecture or Seminar per week:** 5  
**Hours of Lab or Studio per week:** 0

**PRLS 446 - Right-of-Way Acquisition**

Credits: 3  
Not Repeatable  
Authorities and procedures right-of-way acquisition from public agencies and private landowners. Planning, coordination, and project scheduling requirements. Steps in the acquisition process. Cooperative development and use of roads.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PRLS 447 - Land Status, Boundaries, Claims, and Withdrawals**

Credits: 3  
Not Repeatable  
Land survey and status records system, programs for maintaining and managing boundaries, handling claims and encroachments, the land status record system, and Bureau of Land Management master title plot system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PRLS 448 - American Indian Rights and Claims**

Credits: 3  
Not Repeatable  
American Indian sovereignty, Alaska Native corporations, colonization; treaties, rights, and claims; cultural resources an Indian laws and consultation with tribal governments.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PRLS 450 - Research Methods**

Credits: 3  
Not Repeatable  
Covers the development of empirical research designs for both practical and theoretical problems in health, fitness, and recreation resources management. Includes literature review of hypothesized relationships, and formulation of research proposals.

Fulfills writing intensive requirement in the major.
Prerequisite(s): 60 credits and one of the following: STAT 250, DESC 210 OM 210, SOC 313, OM 250, or IT 250. Prerequisite enforced by registration system.

Notes: Only STAT 250 meets the Mason Core quantitative reasoning requirement.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 460 - Sport and Recreation Law

Credits: 3
Not Repeatable
Emphasizes safety, liability, and risk. Covers current law and liability issues for administrators of RHT facilities and programs.

Prerequisite(s): 60 credits

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 480 - Special Topics in Parks, Recreation, and Leisure Studies

Credits: 1-3
Not Repeatable
Selected topics reflecting interest in specialized areas of parks and outdoor recreation or therapeutic recreation.

Prerequisite(s): 60 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 490 - Internship

Credits: 12-15
Not Repeatable
Paid or voluntary work experience in a park and recreation agency for a minimum period of 10-12 weeks of full-time employment, and 480 hours for therapeutic recreation students. Applies course work, theories, and research to work settings. Work sites are chosen by students after approval of faculty supervisors. Includes meetings and assignments before and during internship.

Prerequisite(s): 90 credits; HEAL 205 and 323; PHED 200; and PRLS 210, 310, 316, and 410

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 12
Grading: Satisfactory/No credit only
PRLS 499 - Independent Study

Credits: 1-3
Not Repeatable
Individual study of topic area in leisure research, theory, or practice under direction of faculty.

Prerequisite(s): 90 credits

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

PRLS 501 - Introduction to Natural Resources Law

Credits: 3
Not Repeatable

Selected legal issues involving conflicting use and preservation demands on our nation's limited natural resource base, particularly those involving public lands, open space, and recreation resources. Uses case studies of recent court decisions. Designated a Green Leaf Course.

Prerequisite(s): PRLS 460 and 90 credits, graduate status, or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 503 - Administration and Disability Rights in Therapeutic Recreation

Credits: 3
Not Repeatable
Overview of major law and policy issues related to therapeutic recreation services for people with disabilities. Primary focus is on the Americans with Disabilities Act and related federal legislation.

Prerequisite(s): PRLS 460 and 90 credits, or graduate status; or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 526 - Environmental Education and Resource Interpretation

Credits: 3
Not Repeatable
Provides methods for communicating and disseminating information pertaining to the use of natural recreation resources. Covers design and implementation of educational materials and programs to enhance understanding and appreciation of cultural, historical, and natural resources.

Prerequisite(s): PRLS 402 or permission of instructor, and 90 credits
PRLS 531 - Natural Resources Recreation Planning

Credits: 3
Not Repeatable

Origins and evolution of recreation use philosophy, policies, and service of public estate management. Examines planning for a spectrum of opportunities, from wilderness to developed sites, with attention to financial consideration and sustainable use of cultural and visual resources. Designated a Green Leaf Course.

PRLS 533 - Visitor Services

Credits: 3
Not Repeatable

Examines motivation of resource-based recreation participants. Covers visitors' expectations and perceptions, with emphasis on implication for service quality, staff training, and other management responsibilities. Discusses use and user conflicts and placement, information and interpretive service, and human and other interpretive service resources.

PRLS 535 - Evaluating Recreation Outcomes

Credits: 3
Not Repeatable

Covers application of quantitative and qualitative research methods to the evaluation of programs provided to visitors and users of public lands for outdoor recreation. Focuses on needs assessment and application of meaningful measures for formative and summative evaluations.

PRLS 598 - Special Topics

Credits: 1-6
Repeatable within Degree
Projects related to parks, recreation, and leisure studies.
Prerequisite(s): 90 credits

Notes: May be repeated for a total of 6 credits.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

PRLS 599 - Independent Study

Credits: 1-3
Repeatable within Degree
Study of a problem area in parks, recreation, and leisure studies research; theory or practice under the direction of faculty member.

Prerequisite(s): 90 credits

Notes: May be repeated. No more than 3 credits may be earned.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

PRLS 601 - History of Leisure and Sport in American Society

Credits: 3
Not Repeatable
Examines leisure and sport in American society from the early colonial period to the present day. Investigates the pattern of leisure and sport as America moved from a largely agrarian to a highly industrialized nation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 610 - Recreation Administration and Planning

Credits: 3
Not Repeatable
Examines recreational administration concepts regarding organizational structure and operations, personnel management, financing, policy development, and public relations procedures.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 611 - Social Psychology of Leisure
Credits: 3
Not Repeatable
Addresses historical, theoretical, and empirical foundations of social psychological constructs relative to social behavior in park, recreation, sport, and tourism settings. Focuses on attitudinal, social, and motivational theories as applied to leisure-related contexts.

Prerequisite(s): Graduate student status

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 612 - Philosophy of Leisure and Sport

Credits: 3
Not Repeatable
Investigates the phenomenon of leisure and sport from a philosophical perspective. Utilizes the philosophical approach to better explain the role that leisure and sport play in American society.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 614 - Legal Issues in Recreation Administration

Credits: 3
Not Repeatable
Surveys current legal issues relevant to Recreation Administration, including, but not limited to, tort law, civil rights law, employment law, constitutional law, and copyright law. This course uses case studies of recent court decisions.

Prerequisite(s): Graduate status or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 647 - Land Status, Boundaries, Claims, and Withdrawals

Credits: 3
Not Repeatable
Land survey and status records system, programs for maintaining and managing boundaries, handling claims and encroachments, the land status record system, and Bureau of Land Management master title plot system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 648 - American Indian Rights and Claims
Credits: 3
Not Repeatable
American Indian sovereignty, Alaska Native corporations, colonization; treaties, rights, and claims; cultural resources an Indian
laws and consultation with tribal governments.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 670 - Environmental Law

Credits: 3
Not Repeatable
Focuses on interpretation of environmental laws and regulatory issues. Emphasizes critical evaluation of alternatives to
unresolved issues in environmental policies involving endangered species, hazardous waste, and toxic substances.

Prerequisite(s): Graduate status and courses in ecology and environmental biology, or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Persian (PERS)

PERS 110 - Elementary Persian

Credits: 6
Not Repeatable
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

PERS 210 - Intermediate Persian

Credits: 3
Not Repeatable
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing
skills. Introduces students to the cultures and histories of Persian-speaking regions.

Prerequisite(s): PERS 110, appropriate placement score, or permission of department.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Philosophy (PHIL)

Offered by the College of Humanities and Social Sciences

**PHIL 100 - Introduction to Philosophy**

Credits: 3  
Not Repeatable  
Introduction to the nature of philosophical reasoning and some of the main problems of philosophy.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHIL 101 - Introduction to Philosophy for Prospective Majors**

Credits: 3  
Not Repeatable  
In this course, students can learn what distinguishes philosophy from other intellectual fields, major contributions in the history of philosophy, and basic philosophical issues, as well as how to develop the skills needed to address those issues oneself. The course is geared to the needs and the interests of students who may want to consider declaring philosophy as their major.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHIL 112 - Ethics and the Cybersociety**

Credits: 1  
Not Repeatable  
Examines ethical issues associated with new developments in information technology, including privacy rights, intellectual property rights, and the effect of information technology on society.

Fulfills Mason Core requirement in information technology (ethics only).

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**PHIL 151 - Introduction to Ethics**

Credits: 3  
Not Repeatable  
Considers some perennial issues in ethical theory.
PHIL 156 - What Is Art?

Credits: 3
Not Repeatable
Introduction to philosophical reflection on the arts by looking at the critical issues in the history of aesthetics. Applies considerations to specific works and exploring these works in terms of their historical contexts and influences. Concentrates on one form of art or one period and always emphasizes questions of critical evaluation and art historical analysis.

Fulfills Mason Core requirement in arts.

PHIL 173 - Logic and Critical Thinking

Credits: 3
Not Repeatable
Basic concepts and techniques of deduction, emphasizing the modern treatment of such topics as quantification and rules of inference, with study of the classical treatment. Basic principles of induction, informal fallacies, and uses of logic in everyday life.

PHIL 243 - Global Environmental Ethics

Credits: 3
Not Repeatable
Examines the global dimensions of environmental problems. Although environmental problems are global in reach, because different societies make different philosophical and ethical assumptions, they are understood in different ways. Examines several environmental problems, including climate change, population growth, and resource depletion, from a variety of scientific, policy, and cross-cultural perspectives.

Fulfills Mason Core requirement in global understanding.

PHIL 251 - Happiness and the Good Life
Addresses the question "How do I live a happy life?" by drawing on 2,500 years of philosophy as well as the much more recent science of happiness. Encourages students to develop and live their own answer in light of some of the best available science and philosophy.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PHIL 253 - Philosophy and Literature

Credits: 3  
Not Repeatable  
Examines differences and relations between literary and philosophical texts. Examines texts from a given period in the history of literature and philosophy. Topics include the presence of common issues in literary and philosophical writings, the influence of philosophical ideas on the production of literary texts and literary theory, and the development in literary texts of issues that are possible objects of philosophical inquiry.

Fulfills Mason Core requirement in literature.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PHIL 301 - History of Western Philosophy: Ancient

Credits: 3  
Not Repeatable  
Classical Greek philosophy, including pre-Socratics, Socrates, Plato, and Aristotle.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PHIL 303 - History of Western Philosophy: Modern

Credits: 3  
Not Repeatable  
Figures and problems of modern philosophy. Study of philosophers such as Descartes, Locke, Berkeley, Hume, Kant, and Hegel.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PHIL 305 - Business Ethics
PHIL 306 - Philosophy Internship

Credits: 3
Not Repeatable
Gives students the opportunity to apply philosophical skills in real-world settings. Internships arranged and supervised by faculty in the Department of Philosophy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 309 - Bioethics

Credits: 3
Not Repeatable
Examines some major moral issues involved in practice and research in medicine and health care. Topics to be chosen from medical experimentation, definition of death, physician-assisted dying, genetics and human reproduction, distribution of scarce resources, fertility, and organ transplants.

Fulfills Mason Core requirement in synthesis.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 311 - Philosophy of Law

Credits: 3
Not Repeatable
Investigation of theories of natural law, legal positivism, and legal realism as they pertain to some of the central philosophical questions about law.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 313 - Philosophy of Religion
Credits: 3
Not Repeatable
Study of classical appeals to philosophy in support of belief in god's existence (Philo, Augustine, Anselm, Aquinas, Descartes); the fideism of Hume and the metaphysical agnosticism of Kant; the concept of religious experience in the philosophies of Hegel, Schleiermacher, and Kierkegaard; and the problem of religious language in contemporary empirical philosophy.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 323 - Classical Western Political Theory

Credits: 3
Not Repeatable
Exploration through lecture and discussion of developments in the Western tradition of political thought from the time of the Greek city-state to late medieval Christendom, focusing on such topics as the nature and purpose of politics, the relationship between the individual and the state, the political significance of religion and tradition, and the concept of natural law.

Prerequisite(s): GOVT 101, or 3 credits of philosophy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 324 - Modern Western Political Theory

Credits: 3
Not Repeatable
Exploration through lecture and discussion of developments in the Western tradition of political thought from the Renaissance to the middle of the 19th century, focusing on such topics as the rise of individualism in political theory, early developments in social contact theory, theories of radical popular sovereignty, and early criticisms of liberal theory.

Equivalent to GOVT 324

Prerequisite(s): GOVT 101, or 3 credits of philosophy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 325 - Karl Marx’s Social and Political Thought

Credits: 3
Not Repeatable
Study and evaluation of Marx's social and political ideas based on writings selected from several phases of his career. Examination of relation of Marx's thought to post-Marxian socialist theory and practice.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.
PHIL 327 - Contemporary Western Political Theory

Credits: 3
Repeatable within Term
Exploration through lecture and discussion of recent developments in the Western tradition of political thought from the middle of the 19th century to today. Different sections focus on one or another of the various political theories that have been influential during this period such as liberal, libertarian, conservative, communitarian, Marxist, feminist, and postmodern thought.

Equivalent to GOVT 327

Prerequisite(s): GOVT 101, or 3 credits of philosophy.

Notes: May be repeated for a maximum of 12 credits when topic is different.

PHIL 332 - Twentieth-Century Analytic Philosophy

Credits: 3
Not Repeatable
Examination of the attempts of 20th-century philosophers to solve philosophical problems by an analysis of language. Figures and movements covered include Russell, Moore, Wittgenstein, logical positivism, and ordinary language philosophy.

Prerequisite(s): 3 credits of logic and PHIL 303, or permission of instructor.

PHIL 333 - American Philosophy: Pragmatism

Credits: 3
Not Repeatable
Examines the philosophical movement of American Pragmatism, with emphasis on its origin in the late nineteenth century. Figures covered include Peirce, James, Dewey, and Mead.

Prerequisite(s): 3 credits of philosophy, or permission of the instructor.
PHIL 335 - Nineteenth-Century Philosophy

Credits: 3
Not Repeatable
Development of German Romanticism and Idealism during a brilliant period in the history of the West rivaled only by ancient Greece. Kant, Fichte, Hegel, Kierkegaard, Schopenhauer, and Nietzsche mount a revolt against the rationalism and scientism of the modern world.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 336 - Twentieth-Century Continental Thought: Existentialism

Credits: 3
Not Repeatable
Examination of existential philosophy from its 19th-century origins to its 20th-century expressions. Philosophers studied include Kierkegaard, Nietzsche, Sartre, De Beauvoir, and Buber.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 337 - Twentieth-Century Continental Thought: Phenomenology

Credits: 3
Not Repeatable
Examines phenomenological way of doing philosophy, its findings in regard to the "life-world," questions of "first philosophy," and the subject matter of the social sciences, as well as critical difficulties in its development. Texts by Husserl, Heidegger, Merleau-Ponty, Sartre, Schutz, and Derrida.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 338 - Philosophy, Sex, and Gender

Credits: 3
Not Repeatable
An exploration of how concepts of sex and gender both structure key philosophical ideas and put such ideas into question. The course examines the ways patriarchal structures situate woman as the 'other' as well as alternative feminist approaches to sexuality, subjectivity, the body, and language. An overriding theme is the relationship between questions of sexual difference and other key issues in contemporary philosophy.
**PHIL 340 - Hermeneutic Philosophy**

Credits: 3  
Not Repeatable  
Study of the development of hermeneutic philosophy in works by Heidegger, Gadamer, and Ricoeur, as an effort toward coming to terms with the historicity of human experience. Implications for interpretive understanding of artworks, institutions, events, texts, and the human condition.

**Prerequisite(s):** 3 credits of philosophy, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**PHIL 343 - Topics in Environmental Philosophy**

Credits: 3  
Not Repeatable  
An in-depth examination of selected environmental issues from a philosophical perspective. Such issues might include the value of nature, the moral status of animals, duties to protect wilderness areas, economics and environmental protection, environmental justice, and environmental aesthetics.  
Designated a Green Leaf Course.

Fulfills Mason Core requirement in synthesis.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHIL 344 - Ethical Issues in Global Health**

Credits: 3  
Not Repeatable  
This course will consider ethical questions that arise in global health policy, practice and research.

**Prerequisite(s):** Sophomore standing or higher.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
PHIL 354 - Topics in Modern Jewish Thought

Credits: 3
Not Repeatable
Surveys modern Jewish thought, engaging some of the most important themes of this period including Jewish responses to rationalism, romanticism, idealism, existentialism, and legalism. Studies work from Baruch Spinoza to Emanuel Levinas.

Equivalent to RELI 354 (2014-2015 Catalog)

Prerequisite(s): 3 credits in religious studies or philosophy or permission of instructor.

Notes: Students may not receive credit for both PHIL 354 and RELI 354

Hours of Lecture or Seminar per week: 2.5
Hours of Lab or Studio per week: 0

PHIL 355 - Theories of Ethics

Credits: 3
Repeatable within Degree
A critical examination of a variety of different types of classical, modern, and contemporary ethical theories, including consequentialist theories, deontological theories, and virtue theories.

Prerequisite(s): Three credits in philosophy or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 356 - Philosophy of Art

Credits: 3
Not Repeatable
Basic problems that arise from an inquiry into meaning and value of art and our response to art.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 357 - Philosophy of the Social Sciences

Credits: 3
Not Repeatable
Philosophical issues relating to competing methodologies for the social sciences. Analysis and critique of mainstream positivism
and behaviorism; paradigm theory and scientific revolutions; interpretive understanding and hermeneutical science; phenomenology and the social construction of reality; ethnomethodology and situational meaning; analytic philosophy and action theory; the "idea" of a social science; sociology of knowledge and theory of ideology; and Western Marxism and critical theory.

Equivalent to SOCI 599

**Prerequisite(s):** 3 credits of philosophy, or permission of instructor.

**PHIL 358 - Ethics and Economics**

Credits: 3  
Not Repeatable  
Examines issues at the intersection of ethics and economics. Looks at the different ways in which ethics and economics impact each other.

**Prerequisite(s):** 3 credits in philosophy or permission of the instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHIL 371 - Philosophy of Natural Sciences**

Credits: 3  
Not Repeatable  
One semester of logic recommended. Study of aims and methodology of science. Among the questions of concern are: What constitutes a good scientific explanation? What grounds are used for comparing rival theories? Is there a special method of scientific discovery?

**Prerequisite(s):** 3 credits of philosophy, or permission of instructor

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHIL 373 - Theory of Knowledge**

Credits: 3  
Not Repeatable  
Discussion of basic problems concerning the nature of knowledge, with study of the relation of knowledge to perception, belief, and language.

**Prerequisite(s):** 3 credits of philosophy, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
PHIL 374 - Philosophy of Mind

Credits: 3  
Not Repeatable  
Investigation of such theories as dualism, behaviorism, and materialism as they pertain to some of the central philosophical questions about mind.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 376 - Symbolic Logic

Credits: 3  
Not Repeatable  
Study of predicate calculi by means of a step-by-step construction of artificial languages. Topics include procedures for constructing a calculus, proof techniques, significant properties of predicate calculi, and procedures for recognizing phrases.

Prerequisite(s): PHIL 173 or MATH 110, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 377 - Darwin: Biology and Beyond

Credits: 3  
Not Repeatable  
Introduction to and philosophical examination of the theory of evolution in its historical perspective. Examines Darwin's theory of evolution as a scientific theory, connect it to its context in the history of science, and survey its wider cultural impact. In particular, examine implications of the theory of evolution for religion and morality.

Fulfills Mason Core requirement in synthesis.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 378 - Reason, Science and Faith in the Modern Age

Credits: 3  
Not Repeatable  
Historical examination of the rise of sciences in the modern age (1500-present) and the impact this has had on religion, drawing from such thinkers as Luther, Bacon, Galileo, Newton, Pascal, Hume, Darwin, Kierkegaard, and James.
PHIL 379 - Perspectives on Time

Credits: 3
Not Repeatable
Examines the variety of ways time is conceptualized in different disciplines. Influential conceptions of time from the history of philosophy are studied in order to provide a comparative framework within which to consider specialist conceptions of time drawn from the sciences and humanities, including relativistic time, geological deep time, life cycles, and time in historical narrative.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring.

PHIL 391 - Special Topics in Philosophy

Credits: 1-3
Repeatable within Term
Examines topics of current interest such as death and dying, rights of children, and philosophical controversies in modern physics.

Notes: May be repeated for a maximum of 12 credits when topic is different.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

PHIL 393 - Humanities College to Career

Credits: 1
Not Repeatable
Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in the humanities. Explores how skills typically learned in humanities majors can be leveraged for a successful transition to post-graduation employment.

Equivalent to ENGH 303, HIST 385, FRLN 309.
PHIL 398 - Study Abroad

Credits: 3
Repeatable within Degree
Study abroad under supervision of Mason faculty. Course topics, content and locations vary.

Notes: A maximum of 6 credits may be applied to the BA in philosophy.

PHIL 411 - Theories of Decision

Credits: 3
Not Repeatable
Examines from a philosophical perspective descriptive and normative theories of individual decision, with particular focus on the strengths and weaknesses of theories of rational choice, and attempts to incorporate insights from psychology into theories of decision. Explores theoretical developments and a variety of applications.

Prerequisite(s): Two previous courses in either Philosophy, Psychology, or Economics.

PHIL 421 - Seminar

Credits: 3
Repeatable within Degree
Explores topics in current philosophical research in a seminar format. Topics vary.

Fulfills writing intensive requirement in the major.

Prerequisite(s): 9 credits in philosophy. Students with fewer credits in philosophy may be admitted, at the discretion of the professor, if the topic is sufficiently close to their field of study.

Notes: May be repeated for a maximum of 18 credits when topic is different.

PHIL 422 - Honors Seminar
Credits: 3
Repeatable within Term
Seminar for students enrolled in the honors program in philosophy.

Fulfills writing intensive requirement in the major.

Prerequisite(s): 9 credits in philosophy and acceptance to the honors program in philosophy.

Notes: May be repeated for a maximum of 18 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 425 - Independent Study

Credits: 1-3
Repeatable within Term
Independent study under supervision of faculty member. Students and faculty agree on program of study to include at least a reading list and final written project. Students must arrange for independent study in the semester before they wish to enroll. Requires approval of department.

Prerequisite(s): 60 credits, including 15 credits in philosophy and permission of department.

Notes: May be repeated for credit.

Hours of Lecture or Seminar per week: 1-2
Hours of Lab or Studio per week: 0

PHIL 460 - Senior Seminar in Philosophy, Politics, and Economics

Credits: 3
Not Repeatable
Covers issues in the philosophy, economics, and political science of institutions, information, and collective action. Through case studies of existing legal and political institutions, applies the insights to problems in politics, policy making, social-choice theory, and social, moral, and political philosophy. (Specific content varies).

Equivalent to ECON 460, GOVT 469

Prerequisite(s): PHIL 358 and ECON 412 or permission of instructor.

Notes: Serves as the capstone course for the PPE program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 600 - Proseminar in Philosophy
Credits: 1
Not Repeatable
Introduces MA students to the areas and methods of philosophical scholarship.

Prerequisite(s): Graduate standing and enrollment in the Philosophy MA program.

Notes: Graduate students outside of the philosophy program may take this course with permission of the department.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

PHIL 603 - Aristotle: Selected Works

Credits: 3
Repeatable within Degree
Close study of Aristotle's work and its place and future in history of philosophy. Topics vary by semester and include Aristotle's metaphysics, natural sciences, ethics, political thought, logic, epistemology, and psychology.

Prerequisite(s): Graduate standing.

Notes: May be repeated for a maximum of 6 credits when topic is significantly different with permission of department.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 608 - Hegel's Phenomenology of the Spirit

Credits: 3
Not Repeatable
A study of the philosophy of Hegel through a reading of the text that presents an introduction to his system. Special attention is paid to Hegel's background in the work of Kant and the German Idealists.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 615 - Postmodernist Thought

Credits: 3
Not Repeatable
In recent decades, the term "postmodern," first used by art critics in the late 19th century, has been taken up by prominent contributors to the arts, social thinkers, and philosophers, to describe developments as well as the current period. Examines three thematic concerns found in work that is identified with postmodern issues: what modernity defines itself in contrast to or against, the status of "man," and status of "subjectivity."
Prerequisite(s): Graduate standing or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHIL 616 - Phenomenology**

Credits: 3
Not Repeatable
This major approach in philosophy is studied in regard to its basic features, the tasks to which it has been set by major contributors, certain findings of phenomenology in practice, as well as crucial problems that develop as phenomenology proceeds and how they are addressed by phenomenologists.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHIL 617 - Movements and Issues in the History of Political Philosophy**

Credits: 3
Repeatable within Degree
Explores themes, movements, and periods in the history of political theory.

Prerequisite(s): Graduate standing.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHIL 621 - Philosophy of Science**

Credits: 3
Not Repeatable
Explores whether and how scientific advances can be achieved. Special attention is paid to relativism and rationalism debates and to the role of technology in science.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHIL 640 - History of Ethical Theory**
PHIL 641 - Western Moral Theory

Credits: 3  
Not Repeatable  
Examines history of Western ethical theory from ancient Greece to the present day, including virtue theory, consequentialism, deontological theory and contemporary feminism.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 642 - Biomedical Ethics

Credits: 3  
Not Repeatable  
Explores the application of ethical theories and principles to issues in contemporary health care. Cases central to the development of the field will be examined.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 643 - Environmental Ethics

Credits: 3  
Not Repeatable  
An examination of human interactions with the natural environment from an ethical perspective. Emphasis will be placed on the strengths and weaknesses of various ethical theories and the different conceptions of the proper relationship between humans and their environment.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 644 - Business and Organizational Ethics

Credits: 3  
Not Repeatable  
Examines organizational culture as necessary for ethical development and of the application of ethics in business and organizational settings.

Prerequisite(s): Graduate standing or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
PHIL 645 - Research Ethics

Credits: 3  
Not Repeatable
Ethical theories, concepts, and principles, and how these shape research guidelines. Students learn to identify ethical issues in research, to reflect on them critically, and to respond effectively. Designed for students in the humanities, social sciences, life sciences, and health sciences.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 658 - Feminist Theory

Credits: 3  
Not Repeatable
Analysis of the critique of patriarchy offered by contemporary continental feminist philosophers. Examines contemporary moral, political, and epistemological issues in feminist theory.

Prerequisite(s): Admission to graduate program or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 681 - Ancient Philosophical Figures

Credits: 3  
Repeatable within Term
Examines major philosophical authors if crucial philosophical texts and their influence on philosophical thought. Topics may cover Plato, Aristotle, or the pre-Socratic philosophers.

Prerequisite(s): Graduate standing.

Notes: May be repeated for a maximum 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 682 - Early Modern Philosophical Figures

Credits: 3  
Repeatable within Term
Examines major philosophical authors of the early modern period and their influence on philosophical thought.

Notes: May be repeated for a maximum of 6 credits when topic is different.
PHIL 683 - Contemporary Philosophical Figures

Credits: 3
Repeatable within Term
Examines major recent philosophical authors and their influence on philosophical thought.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 691 - Special Topics in Ancient Philosophy

Credits: 3
Repeatable within Term
Examines topics of current interest in ancient philosophy.

Prerequisite(s): Graduate standing, or permission of instructor.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 692 - Special Topics in Early Modern Philosophy

Credits: 3
Repeatable within Term
Topics vary.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 693 - Directed Readings in Philosophy

Credits: 3
Repeatable within Term
Directed readings and research on specific topic in philosophy chosen by student and instructor.
**Prerequisite(s):** Graduate standing or permission of instructor.

**Notes:** May be repeated for a maximum of 6 credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHIL 694 - Special Topics in Contemporary Philosophy**

Credits: 3  
Repeatable within Term  
Topics vary.

**Notes:** May be repeated for a maximum of 6 credits when topic is different.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHIL 720 - Nietzsche and his Readers**

Credits: 3  
Not Repeatable  
Reading of major texts of Nietzsche and some of his most influential interpreters and critics.

**Prerequisite(s):** Graduate standing.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHIL 721 - Advanced Seminar in Philosophy**

Credits: 3  
Repeatable within Term  
Close study of selected topics in current philosophical discourse.

**Prerequisite(s):** Graduate standing.

**Notes:** May be repeated for credit when topic is different.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHIL 733 - Current Issues in Cognitive Science**
Credits: 3
Repeatable within Degree
Examines current areas of investigation in cognitive science and philosophy of mind such as nature of consciousness, and representational and connectionist theories of mind.

**Prerequisite(s):** Admission to master's program in philosophy or permission of instructor.

**Notes:** May be repeated for a maximum of 6 credits when topic is different.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**PHIL 799 - Thesis**

Credits: 1-6
Repeatable within Degree
Develop research and write an original thesis under the direction of their thesis director.

**Prerequisite(s):** Completion of 24 credits, approval of the thesis proposal, and permission of instructor (thesis director).

**Hours of Lecture or Seminar per week:** 1-6
**Hours of Lab or Studio per week:** 0
**Grading:** Satisfactory/No Credit

---

**Physical Education (PHED)**

Offered by the College of Education and Human Development

**PHED 102 - Introduction to Soccer**

Credits: 1
Not Repeatable
This course is designed to introduce individuals to the basic elements of soccer. This includes dribbling, kicking, passing, trapping, tactics, and strategy.

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0

**PHED 103 - Fencing I**

Credits: 1
Not Repeatable
Gives the beginning student basic knowledge of the sport of fencing and teaches the fundamental movements required in the sport. Students should expect to learn some officiating and etiquette of the sport and acquire the ability to fence at the novice level. The instructor will use any combination of the following: instructional videos, written handouts, guest fencers for
demonstrations, drills, and group and individual instruction.

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0

**PHED 105 - Aerobics and Basic Conditioning**

Credits: 1
Not Repeatable

Introduce students to fitness and healthy lifestyles. The course is designed to provide students with four lectures and multiple cardiovascular workouts. The lectures include cardiovascular endurance, cardiovascular diseases, body composition, nutrition, and weight management. The class also teaches students how to use cardiovascular equipment and how to design an aerobic fitness program. The course is geared for beginners, yet all students will be helped on an individual basis (therefore advanced individuals can also participate).

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0

**PHED 107 - Social Dance**

Credits: 1
Not Repeatable

Provides a knowledge base of dance fundamentals and skill development in various ballroom dances and includes basic rhythms, dance positions, floor alignments, techniques of leading and following, and maintenance of dance frame in partner dancing.

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0

**PHED 108 - Weight Training and Body Conditioning**

Credits: 1
Not Repeatable

Introduces students to fitness and healthy lifestyles. The course is designed to provide students with an overview of the various types of weight training but primarily emphasizes circuit weight training method. There will usually be a brief lecture each week with a longer one two or three times during the semester. The lectures include the five health-related components of physical fitness, nutrition, and weight management. The class also teaches students how to use resistance and cardiovascular equipment, and how to design fitness programs. The course is designed for beginners, yet all students will be helped on an individual basis (therefore advanced individuals can also participate).

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0
PHED 110 - Beginning Swimming

Credits: 1  
Not Repeatable  
Develops a knowledge base and basic swimming skills for the weak swimmer and nonswimmer, and make them water safe. These skills include, but are not limited to, locomotion and propulsive movements in a prone and supine position, breath control, rhythmic breathing, beginning diving techniques, personal safety, and rescue skills to maintain a water-safe environment.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

PHED 113 - Latin Dance

Credits: 1  
Not Repeatable  
Provides knowledge base of dance fundamentals and skill development in various Latin dances and will include basic rhythms, dance positions, floor alignments, techniques of leading and following, and maintenance of dance frame in partner dancing. Introduces dances which may include but not restricted to Merengue, Mambo, Samba, Salsa, and Bachata.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

PHED 118 - Advanced Life Guarding

Credits: 1  
Not Repeatable  
Introduces and develops skills and knowledge necessary to become an American Red Cross-certified lifeguard. Focus is on training participants in aquatic facility and patron safety, in-water rescue skills, and physical conditioning. It teaches the lifeguard candidates to prevent, recognize, and respond to aquatic-related emergencies.

Prerequisite(s): PHED 150 or permission of instructor

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

PHED 120 - Introduction to Basketball

Credits: 1  
Not Repeatable  
Introduces individuals to the basic elements of basketball. This includes dribbling, passing, shooting, tactics, and strategy.

Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 1-12
PHED 127 - Social Dance II

Credits: 1  
Not Repeatable  
Provides an introduction to the tango and additional patterns for the fox trot, waltz, cha-cha, rumba, and Eastern swing.

Prerequisite(s): PHED 107 or permission of instructor

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

PHED 128 - Fencing II

Credits: 2  
Not Repeatable  
Reviews the advanced footwork and handwork techniques learned in Fencing I and expands on the third component of the sport, strategic tactics. Students are introduced to the rules and protocol of competitive fencing and use electric scoring equipment and electric fencing gear.

Prerequisite(s): PHED 103 or permission of instructor

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0

PHED 129 - Introduction to Yoga

Credits: 1  
Not Repeatable  
Introduces students to the practice of Hatha yoga. Class emphasis will be on learning yoga asanas (postures) and pranayama (breathing exercises) to enhance physical fitness and mental concentration.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

PHED 130 - Intermediate Yoga

Credits: 1  
Not Repeatable  
Class emphasis will be on mastering yoga asanas (postures) and pranayama (breathing techniques) to enhance physical fitness and mental concentration. Students will learn 10 new yoga poses and practice the complete Sun Salutation.

Prerequisite(s): PHED 129 or permission of instructor

Notes: Expands on the yoga practices taught in PHED 129.
PHED 131 - Introduction to Pilates

Credits: 1
Not Repeatable
Provides the history and basic foundations of Pilates including an introduction to beginning Pilates exercises and their proper execution; exploration of modifications for certain exercises and the various props which may be used in the group class setting.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PHED 134 - Self-Defense for Men and Women

Credits: 1
Not Repeatable
A practical self-defense course designed for students with little or no background in martial arts or self-defense. Defensive and offensive techniques are taught to prepare students for any potentially dangerous event they may encounter. The course will also improve student's physical and mental fitness.

Notes: Fee required.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 135 - Self-Defense for Men and Women II

Credits: 1
Not Repeatable
A continuing practical self-defense course designed for students with a basic self-defense skill level or minimal martial arts experience. More advanced defensive and offensive techniques will be taught building on the student's previous training. Continued improvement in the student's physical and mental fitness will also be emphasized.

Prerequisite(s): PHED 134 or minimal martial arts experience.

Notes: Fee required.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 136 - Tae Kwon Do
A beginner-level course designed to develop basic skills of Tae Kwon Do, a Korean martial art that predominantly emphasizes kicking.

Notes: Fee required.

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0

### PHED 137 - Intermediate Tae Kwon Do

Credits: 1
Not Repeatable
An intermediate-level course that continues to develop basic skills of Tae Kwon Do. Course instruction continues to focus on the student's mental development, as well as physical training.

**Prerequisite(s):** PHED 136 or permission of instructor

Notes: Fee required.

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0

### PHED 138 - Brazilian Jiu-Jitsu

Credits: 1
Not Repeatable
A practical self-defense course instructing students in Brazilian Jiu-Jitsu techniques designed for students who have no prior experience in martial arts or Brazilian Jiu-Jitsu. Brazilian Jiu-Jitsu's primary goal is to give advantage to those who use correct form, posture, and technique over strength.

Notes: Fee required.

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0

### PHED 139 - Brazilian Jiu-Jitsu II for Men and Women

Credits: 2
Not Repeatable
A beginner-to-intermediate-level course teaching techniques in Brazilian Jiu-Jitsu. Students will learn specific defensive techniques to be used against an attacker along with escapes and submissions from a variety of different attacks. Students will participate in basic sparring with particular attention to safety. Students will also undergo an intensive training and conditioning routine.

**Prerequisite(s):** PHED 138 or permission of instructor
**PHED 140 - Golf**

Credits: 1  
Not Repeatable  
A practical course designed for students with little or no golf knowledge. The course involves activities to teach students basic golf terms, rules, and techniques for the full swing, putting, chipping, and pitching, as well as playing on a golf course.

**Notes:** Fee required.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0

**PHED 144 - Intermediate Golf**

Credits: 2  
Not Repeatable  
A practical course designed for students with basic golf knowledge and skills. The course will include course strategies, course management, the proper use of the rules, club selection, speed of play, skill building, and different golf formats.

**Prerequisite(s):** PHED 140 or permission of instructor

**Notes:** Fee required.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0

**PHED 145 - Beginning Judo for Men and Women**

Credits: 1  
Not Repeatable  
This is an introduction to Judo in which students will learn basic body mechanics of throwing, sweeping, grappling, and submission. Students will learn the fundamentals in these areas both for self-defense and sport. The history of judo, rules of the sport, and proper safety and falling techniques will be presented.

**Notes:** Fee required.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0
PHED 146 - Introduction to Badminton

Credits: 1
Not Repeatable
A practical course designed as an introduction to badminton. Students learn badminton terms; scoring rules; and techniques for forehand, and backhand, and the serve. Students are also introduced to basic strategy for singles and doubles play.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 147 - Advanced Tae Kwon Do

Credits: 1
Not Repeatable
Advanced-level course that continues to enhance and refine skills of Tae Kwon Do. Students develop more extensive jump and spin kicks, as well as combinations of the same. Provides brown to black belt levels of promotion and continues to focus on each student's mental development and physical training.

Prerequisite(s): PHED 137 or permission of instructor

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PHED 149 - Tai Chi

Credits: 1
Not Repeatable
A beginner-level course designed to increase awareness of the mind and body. Students will be introduced to basic principles of Chi (energy) and Yin Yang (polarity) and how these apply to their bodies through practicing the Tai Chi Chih movements.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 150 - Intermediate Swimming

Credits: 1
Not Repeatable
A course designed to build on basic-level swimming skills by providing practice for confidence, refinement of coordination, and improvement of other aquatic skills. Presents more advanced swimming strokes and focuses on physical conditioning and aquatic safety.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
PHED 151 - Introduction to Tennis

Credits: 1
Not Repeatable
A practical course designed as an introduction to tennis. Involves activities to teach students tennis terms, rules, scoring, techniques for the forehand and backhand ground strokes, volley, overhead, and serve, as well as basic strategy for singles and doubles.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 153 - Tennis II

Credits: 1
Not Repeatable
Prepares experienced tennis player in advanced skills: point play, control of pace, direction, and depth of forehand and backhand, ground strokes, and topspin and underspin. Instructs tactical use of volley, styles of play, and strategies for singles and doubles. Introduces principles to refereeing. Applies skills-training to competitive and recreational play.

Prerequisite(s): PHED 151 or demonstrated ability.

Notes: Students with injuries or pre-existing conditions that might affect performance must inform the instructor. Students must provide their own tennis racquet, balls and shoes.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

PHED 155 - Introduction to Springboard Diving

Credits: 2
Not Repeatable
A beginner-level course designed to increase awareness of the sport of diving, safety issues pertaining to competitive and recreational diving, competition formats, and history and evolution of the sport and scoring systems. Students will be introduced to fundamental skill progressions leading to basic dives.

Prerequisite(s): PHED 150 or permission of instructor

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PHED 156 - Intermediate Springboard Diving

Credits: 2
Not Repeatable
Students build on the fundamental skill progressions and perform more advanced skills and dives than in the introductory course
(PRLS 155). Designed to increase awareness of the sport of diving, safety issues pertaining to competitive and recreational diving, competition formats, history and evolution of the sport, and scoring systems.

**Prerequisite(s):** PHED 155 or permission of instructor

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0

### PHED 157 - Aikido for Men and Women

Credits: 1  
Not Repeatable  
Designed for students who have no prior experience in martial arts. Can benefit those with a solid martial arts background. Mind-body techniques useful to all athletes and students are taught in a classical martial art self-defense context. Involves mind-body coordination exercises, and solo and partner practice. Gives all students a chance to execute throws, locks, and pins, both as the thrower and the one who takes falls.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

### PHED 158 - Underwater Hockey

Credits: 1  
Not Repeatable  
Designed to provide basic instruction in the fundamentals of underwater hockey. Students learn free diving and snorkeling activities in preparation for underwater hockey. They will learn about and experience physiological reactions to aquatic submersion. Significant attention throughout this course will be given to safety issues related to underwater training, emphasizing current and lifelong skills.

**Prerequisite(s):** PHED 150 or permission of instructor

**Notes:** Fee required.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

### PHED 159 - Advanced Swimming

Credits: 1  
Not Repeatable  
A course designed to build on intermediate-level swimming skills by providing practice to refine and perfect swimming strokes, so that students swim with more ease, efficiency, power, and smoothness over greater distances. Focuses on developing a higher level of fitness and maintaining better physical conditioning. Introduces other aquatic activities to enrich the class and broaden the horizons of the participant.

**Prerequisite(s):** PHED 150 or permission of instructor
Notes: Fee required.

**PHED 160 - Intermediate Tai Chi**

Credits: 1  
Not Repeatable  
A second-level course for students to learn Tai Chi Weapon (Tai Chi Straight Sword), as well as practice the basic principles of Tai Chi. Students will increase awareness of the mind and body.

**Prerequisite(s):** PHED 149 or permission of instructor

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**PHED 162 - Introduction to Bowling**

Credits: 1  
Not Repeatable  
Students will learn the sport of 10-pin bowling. Topics covered are bowling etiquette, history of bowling, playing rules for league members, scoring, different approaches to the game, and the appropriate equipment for these approaches. Inexperienced and experienced bowlers are welcome to participate.

**Notes:** Fee required.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**PHED 163 - Karate**

Credits: 1  
Not Repeatable  
American Kenpo Karate is the combination of art and science. Emphasizes techniques, forms (kata), and sets (drills). All the techniques are related by motion and principles. Each technique builds on the previous one, creating a web of knowledge.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**PHED 164 - Intermediate Karate**

Credits: 1  
Not Repeatable
Second-level course in American Kenpo Karate. Students review information and refine skills developed in the introductory class, as well as learn new forms and techniques to increase skill performance at the next level.

**Prerequisite(s):** PHED 163 or permission of instructor

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**PHED 165 - Introduction to Racquetball**

Credits: 1  
Not Repeatable  
A practical course designed as an introduction to racquetball. Involves activities to teach students basic racquetball terms, rules, scoring, safety, and techniques for the forehand, backhand, overhead, and serve, as well as singles and doubles.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**PHED 166 - Intermediate Racquetball**

Credits: 1  
Not Repeatable  
A practical course designed for the novice racquetball player. Course involves activities to teach students intermediate skills, including ceiling shots, kill shots, passing shots, back wall strokes, advanced serves, court positions, and tactics and strategies for singles and doubles.

**Prerequisite(s):** PHED 165 or permission of instructor

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**PHED 167 - Advanced Concepts and Strategies in Bowling**

Credits: 1  
Not Repeatable  
Students will learn advanced concepts and strategies in the sport of Ten Pin Bowling. Topics covered are equipment, mental preparation, spare conversions, practice regimens, and strategies for different lane conditions. This course is intended for experienced bowlers.

**Prerequisite(s):** PHED 162 or permission of instructor

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**PHED 169 - Intermediate Judo for Men/Women**
This is a second level course with the emphasis placed on executing proper skills and movements and not the contact itself. The nature of this course incorporates both offensive and defensive movements, and these actions are accepted as part of the class. Excessive force, violence, or aggression will not be tolerated.

Prerequisite(s): PHED 145 or permission of instructor.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0

**PHED 174 - Introduction to Volleyball**

Credits: 1  
Not Repeatable  
Introduces students to fundamental knowledge and basic skills of volleyball.

Hours of Lecture or Seminar per week: 1  
When Offered: Fall.

**PHED 175 - Fitness Walking**

Credits: 1  
Not Repeatable  
Introduces students to cardiovascular exercise as it relates to a healthy lifestyle and improved quality of life. Designing, implementing, and evaluating a walking plan based on current fitness levels will be covered.

Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor. Students are expected to use a heart rate monitor and applications that track students distance, speed, and route like "Mapmywalk" and directly email information to the instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

**PHED 176 - Introduction to Cricket**

Credits: 1  
Not Repeatable  
This course is designed to introduce individuals to the basic of Cricket. This includes bowling, batting, fielding, umpiring, and strategy.

Hours of Lecture or Seminar per week: 1  
When Offered: Fall, Spring.
**PHED 177 - Introduction to Badminton**

Credits: 1  
Not Repeatable  
Introduces the fundamental skills, rules, and strategies of badminton. Covers basic techniques and etiquette of both singles and double play. Allows students to enjoy badminton as a lifetime activity.

**Notes:** Students with injuries or pre-existing conditions that affect performance must inform the instructor.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 1  
**When Offered:** Fall, Spring

**PHED 178 - Intermediate Pilates**

Credits: 1  
Not Repeatable  
Provides students with advanced knowledge and skills in Pilates techniques and exercises.

**Prerequisite(s):** PHED 130 or permission of instructor.

**Hours of Lecture or Seminar per week:** 1  
**When Offered:** Fall.

**PHED 179 - Introduction to Krav Maga**

Credits: 1  
Not Repeatable  
Introduces students to the principles and practice of Krav Maga, an Israeli system of self-protection. Involves knowledge of threat response, skill training in self-protection, and mental preparation for defensive tactics. Prepares students in appropriate protective action in situations of threat or attack.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall.

**PHED 181 - Introduction to Meditation**

Credits: 1  
Not Repeatable  
Introduces students to philosophical foundations of meditation. Guides in the practice of meditation and its application to daily mental focus and concentration.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall.
PHED 182 - Soccer II

Credits: 1
Not Repeatable
Prepares the experienced soccer player in the aspects of the competitive game. Applies skills-training to competitive and recreational play. Covers strategies of offense and defense and variation of different systems of play.

Prerequisite(s): PHED 102 or Permission of Instructor.

Hours of Lecture or Seminar per week: 0.5
Hours of Lab or Studio per week: 0.5
When Offered: Fall, Summer, Spring

PHED 183 - Intermediate Krav Maga

Credits: 1
Not Repeatable
Continued training in Krav Maga skills for the experienced student. Explores multiple opponents, defending third parties, decision making skills, using & defending against weapons, and fight strategy.

Prerequisite(s): PHED 179 or Permission of Instructor.

Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

PHED 193 - Competitive Latin and Ballroom Dance

Credits: 1
Not Repeatable
Increase knowledge base of dance fundamentals and skill development in the competitive style of Latin and Ballroom dances. Students are exposed to alignments, techniques of leading and following, and maintenance of dance frame in partner dancing in competitive dances.

Prerequisite(s): PHED 113, PHED 107 or permission of instructor.

Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring
PHED 199 - Introduction to Health and Physical Education

Credits: 1  
Not Repeatable  
Uses best practices to introduce to potential teacher candidates current health and physical education teaching issues. Introduces terminology specific to teaching, and concepts such as standards of learning, planning, assessment, curriculum developments, and risk management.

Hours of Lecture or Seminar per week: 2.5

When Offered: Fall, Spring

PHED 200 - Professional Dimensions of Health, Recreation, and Physical Education

Credits: 3  
Not Repeatable  
Traces historical foundations of health, recreation, physical education, and sport.

Notes: Open to nonmajors.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHED 201 - Developmental Motor Patterns

Credits: 3  
Not Repeatable  
Analyzes motor-skill development and prescription of activities from immature to mature stages.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHED 202 - Teaching Skillful Movement

Credits: 3  
Not Repeatable  
Covers planning and presenting lessons on numerous motor skills using varied teaching strategies in a peer teaching setting.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHED 218 - Technology in Health and Physical Education
Credits: 2  
Not Repeatable  
Develops technology skills to support health and physical education instruction in school settings.

Hours of Lecture or Seminar per week: 2  

When Offered: Fall, Spring  

PHED 230 - Asian Martial Arts: Origin and Development

Credits: 3  
Not Repeatable  
Introduction to martial arts of East, South, and Southeast Asia. Lectures address martial arts from a historical, philosophical, biographical, warfare, and sport perspective.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  

PHED 250 - Water Safety Instruction

Credits: 2  
Not Repeatable  
Introduces planning, organizing, and executing American Red Cross swimming and water safety courses. Focus is on educational methods, approaches, and skill development applicable to swimming and water safety instruction.

Prerequisite(s): PHED 150 and instructor evaluation  

Notes: Fee required.  

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0  

PHED 255 - Basic Scuba Diving

Credits: 2  
Not Repeatable  
Provides training toward certification as an open water SCUBA diver. The course emphasizes the learning of snorkeling (free diving introduction) and SCUBA skills. Safe diving skills, the physics of diving, equipment care and maintenance, diving fitness, underwater navigation, record keeping, and other basic SCUBA knowledge will be covered in the course. On successful completion of the course, students will be qualified for open water certification by Scuba Schools International (SSI).

Notes: Fee required.  

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0
PHED 273 - Net and Target Games

Credits: 2
Not Repeatable
Skill and content knowledge in net and target games. Includes skill progression, strategies, officiating, and authentic assessment in games such as volleyball, golf, tennis, and badminton.

Notes: Open only to PHED majors.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 2

PHED 274 - Dance and Educational Gymnastics

Credits: 2
Not Repeatable
Skill and content knowledge in dance, rhythms, and educational gymnastics.

Notes: Open to BPRE and BSED PHED majors only.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 2

PHED 275 - Field and Invasion Games

Credits: 2
Not Repeatable
Skill and content knowledge in field and invasion games. Includes skill progression, strategies, officiating, and authentic assessment in activities such as softball, basketball, soccer, field events, and Ultimate Disc.

Notes: Open to BPRE and BSED PHED majors only.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 2

PHED 306 - Psychomotor Learning

Credits: 3
Not Repeatable
Analyzes psychological aspects, learning theory, and practice conditions for learning motor skills.

Notes: Open only to PHED and HFRR majors.
PHED 308 - Adapted Physical Education

Credits: 3
Not Repeatable
Introduces disabilities in public schools. Covers national standards, federal legislation, IEPs, and developmental inclusion models.

Prerequisite(s): BSED status or permission of instructor.

PHED 320 - Student Assessment in Health and Physical Education

Credits: 2
Not Repeatable
Examines assessment purposes and introduces different assessment procedures that measure student achievement in the different domains of behaviors in health and physical education.

Hours of Lecture or Seminar per week: 2

When Offered: Fall, Spring

PHED 340 - Social and Cultural Issues in Physical Education

Credits: 3
Not Repeatable
Studies contemporary and historical perspectives on socio-cultural and philosophical issues influencing American public schooling and physical education teacher preparation, including race, culture, ethnicity, nationality, globalization, socioeconomic status, gender, sexuality, ability, obesity, and urbanization.

Fulfills writing intensive requirement in the major.

PHED 364 - Strength Training: Concepts and Applications

Credits: 3
Not Repeatable
Provides students with an opportunity to develop an in-depth understanding of the principles of strength training and conditioning, including anatomical and physiological considerations, lifting techniques, equipment selection, program development and evaluation, and weightlifting safety.

Equivalent to KINE 360

Prerequisite(s): BIOL 124 and BIOL 125

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PHED 365 - Measurement and Evaluation of Physical Fitness**

Credits: 3  
Not Repeatable  
Covers selection, administration, evaluation, and construction of measurements and evaluation instruments and techniques in physical education. Also covers statistical analysis of data and survey of selected instruments.

Equivalent to KINE 370.

Prerequisite(s): BIOL 124 and 125.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PHED 403 - Elementary School Instruction in Physical Education**

Credits: 3  
Not Repeatable  
Covers content, knowledge, and teaching methods for K-6 physical education. Requires field experience.

Prerequisite(s): PHED 201, 202, 273, 274, 275. Must be taken within one year of student teaching. Open to students with BSED status only.

Corequisite(s): PHED 306.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PHED 404 - Middle and High School Instruction in Physical Education**

Credits: 3  
Not Repeatable  
Examines school curriculum, assessment, content, and teaching practices for middle and high school physical education programs. Requires field experience.

Prerequisite(s): PHED 201, PHED 202, PHED 273, PHED 274, PHED 275, PHED 306, PHED 403, KINE 200 and 75 credit
PHED 410 - Social/Psychological Aspects of Health and Fitness

Credits: 3
Repeatable within Degree
Covers research, trends, and techniques of health and fitness from a behavioral perspective.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 415 - Student Teaching in Physical Education

Credits: 9-12
Not Repeatable
Provides supervised clinical experience for a full semester in approved schools. Requires experiences in elementary and secondary school settings. Requires completion of all courses in approved program, and acceptance into student teaching

Fulfills Mason Core requirement in synthesis. (only for Physical Education BS majors).

Prerequisite(s): Completion of all courses in approved program, and acceptance into student teaching

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 12
When Offered: Fall, Spring

PHED 442 - Practicum in Physical Education

Credits: 1-3
Not Repeatable
Provides supervised professional practice in a selected area of interest.

Prerequisite(s): 84 hours or 54 hours and Permission of Instructor.

Notes: May be repeated for up to 3 credits. Each credit requires a minimum of 60 hours of participation in the specialty over a period of six weeks. Areas selected with faculty advisor approval.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 1-3

PHED 480 - Special Topics
PHED 499 - Independent Study in Physical Education and Fitness

Credits: 1-3
Not Repeatable
Study of a problem area in physical education research, theory, or practice under direction of faculty member.

Prerequisite(s): Completion of 90 hours and Permission of Chair.

Notes: May be repeated, but no more than 3 total credits may be earned.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

PHED 670 - Analysis of Teaching in Physical Education

Credits: 3
Not Repeatable
Presents variety of research techniques for studying teacher and learner behaviors in physical education, engaging the teacher as researcher and grant writer. Goal is to prepare teachers to be leaders in their field.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 672 - Curriculum and Assessment in Physical Education

Credits: 3
Not Repeatable
Provides knowledge of curriculum models and assessment strategies in standards-based physical education program. Studies curriculum models such as sport education and adventure education. Examines traditional and alternative assessment.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 673 - Motor Development for Special Populations
PHED 680 - Mentoring and Supervising in Physical Education

Credits: 3
Not Repeatable
Prepares mentors and supervisors of preservice and in-service teachers in physical education. Topics include professional dispositions, assessment and evaluation, adult learners, counseling and communication, providing feedback, and reflection and inquiry into the profession.

Prerequisite(s): PHED 670

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Physical Sciences (PSCI)

Offered by the College of Science

PSCI 701 - Frontiers of Physical Sciences

Credits: 3
Not Repeatable
Each semester, the course will cover between four and six topics considered to be at the frontiers of the physical sciences-the key questions that are of interest to researchers today. The topics will be chosen from interdisciplinary areas, such as nanoscience, astroparticle physics, nonlinear dynamics, and neurosciences. Approximately two to three weeks will be spent on each topic, and the specific topics may vary each semester. The course includes guest lectures given by faculty who are doing research in each area. Assignments include readings from the current literature as well as projects and class presentations.

Prerequisite(s): Admission to physical sciences doctoral program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSCI 702 - Research Methods

Credits: 3
Not Repeatable
This course trains students in research methodologies, techniques, and data analysis methods in the physical sciences. Covers approaches for outlining and synthesizing a problem, techniques for measurement and analysis, and methods used for data analysis and interpretation.

Prerequisite(s): Admission to physical sciences doctoral program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSCI 703 - Frontiers of Physical Sciences

Credits: 1
Repeatable within Degree
Combines invited seminars from faculty (internal and external) with graduate student seminars. Presentation at a seminar is a requirement for advancement to candidacy in the physical sciences doctoral program.

Prerequisite(s): Admission to physical sciences doctoral program.

Notes: May be repeated three times.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PSCI 998 - Dissertation Proposal

Credits: 1-6
Repeatable within Degree
Covers development of a research proposal under the guidance of a dissertation director and the doctoral committee. The proposal forms the basis for the doctoral dissertation.

Prerequisite(s): Admission to the PhD in Physical Sciences.

Notes: May be repeated as needed; however, no more than a total of 24 credits in PSCI 998 and 999 may be applied toward satisfying doctoral degree requirements. Out of 24, no more than 12 credits of PSCI 998 may be applied.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

PSCI 999 - Doctoral Dissertation

Credits: 1-12
Repeatable within Degree
Doctoral research performed under direction of dissertation director.

Prerequisite(s): Admission to the PhD in Physical Sciences.
Notes: May be repeated as needed, but no more than a total of 24 credits in PSCI 998 and 999 may be applied toward satisfying doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

Physics (PHYS)

Offered by the College of Science

PHYS 101 - Light and Sound in Our World

Credits: 3
Not Repeatable
Nature of light, color, sound, electromagnetic spectrum, optical instruments, mechanisms of vision and hearing, color addition and subtraction, synthesis of musical sounds, interference of waves, polarization, Doppler effect, lasers, holography.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 102 - Sports Physics

Credits: 3
Not Repeatable
Introduction to laws of physics in context of sports. Physics topics to be studied include two-dimensional motion, forces, conservation of energy, and momentum in the application to sports. Sports include football, basketball, baseball, swimming, and tennis.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 103 - Physics and Everyday Phenomena I

Credits: 4
Not Repeatable
The course uses basic physics concepts from the areas of mechanics and thermodynamics to explain a wide range of everyday phenomena, such as how we walk and drive, how a ship floats, how clothing keeps us warm, and why it rains when we have a low pressure system.

Fulfills Mason Core requirement in natural science (lab).

Notes: For nonscience majors.
PHYS 104 - Physics and Everyday Phenomena II

Credits: 4
Not Repeatable
The course uses basic physics concepts from the areas of light, sound, electricity, magnetism, and modern physics to explain a wide range of everyday phenomena. Topics include how we speak, hear, and see, what to do if the circuit breaker keeps tripping, how your computer stores and displays data, how rainbows and northern lights form, and the basic nature of matter.

Fulfills Mason Core requirement in natural science (lab).

Prerequisite(s): PHYS 103 or permission of instructor.

Notes: For nonscience majors.

PHYS 106 - The Quantum World: A Continuous Revolution in What We Know and How We Live

Credits: 3
Not Repeatable
This course presents quantum physics that revolutionized the 20th Century and continues to evolve. In addition to presenting basic concepts, the course will discuss various applications involving quantum phenomena including quantum computers and quantum teleportation. The course will be a historical journey through the quantum science that many of its founders, such as Einstein, could not accept, and a peek into a possible future.

Fulfills Mason Core requirement in natural science (nonlab).

Notes: For non-science majors.

PHYS 111 - Introduction to the Fundamentals of Atmospheric Science

Credits: 3
Not Repeatable
An overview of the Earth's atmosphere, its history, and the physical and chemical processes that determine its characteristics. The focus is on key concepts from thermodynamics, radiation, chemistry, and dynamics that are essential for understanding the state, variability, and long term evolution of the atmosphere, especially in the context of comparisons with other planetary atmospheres.

Fulfills Mason Core requirement in natural science (lab).
Equivalent to CLIM 111

**PHYS 112 - Introduction to the Fundamentals of Atmospheric Science Lab**

Credits: 1  
Not Repeatable

Laboratory course associated with PHYS 111. Study of the Earth's atmosphere based on concepts taken from thermodynamics, radiation transport, chemistry, and dynamics.  
Designated a Green Leaf Course.

Fulfills Mason Core requirement in natural science (lab).

Equivalent to CLIM 112  
Corequisite(s): PHYS 111

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 1

**PHYS 121 - Uses of Physics**

Credits: 1  
Not Repeatable

Describes the uses of physics to a number of disciplines and professions, including medicine, information technology, energy, and environmental technology.

**Notes:** Introductory course intended for both majors and nonmajors.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**PHYS 122 - Inside Relativity**

Credits: 1  
Not Repeatable

Introductory course describing Einstein's theories of special and general relativity.

**Notes:** Intended for majors and nonmajors.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0
PHYS 123 - Inside the Quantum World

Credits: 1
Not Repeatable
Introductory course describing quantum theory.

Notes: Intended for majors and nonmajors.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHYS 124 - Experimental Explorations in Physics

Credits: 2
Not Repeatable
Introductory nonmathematical course intended primarily for physics majors. Experimental studies of phenomena in mechanics, electricity and magnetism, and optics. Stresses development of familiarity with methods and techniques of measurement and with data evaluation.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PHYS 160 - University Physics I

Credits: 3
Not Repeatable
First semester of three-semester, calculus-based introductory physics sequence, designed primarily for science and engineering majors. Mechanics.

Fulfills Mason Core requirement in natural science (lab).

Corequisite enforced by registration system.

Corequisite(s): MATH 114.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 161 - University Physics I Laboratory

Credits: 1
Not Repeatable
Experiments in mechanics, including techniques for recording, graphically and statistically analyzing, and reporting data.
Fulfills Mason Core requirement in natural science (lab).

Corequisite enforced by registration system.

**Corequisite(s):** PHYS 160 and MATH 114.

**Hours of Lecture or Seminar per week:** 1-12  
**Hours of Lab or Studio per week:** 3

---

**PHYS 225 - Problems in Physics I**

Credits: 1-3  
Repeatable within Degree  
Individual study of physics problems of current interest.

**Prerequisite(s):** 24 credits and 2.50 GPA in physics and mathematics.

**Notes:** May be taken three times for credit.

**Hours of Lecture or Seminar per week:** 1-12  
**Hours of Lab or Studio per week:** 0

---

**PHYS 243 - College Physics**

Credits: 3  
Not Repeatable  
PHYS 243 is prerequisite to PHYS 245. Two-semester basic physics course with emphasis on topics of classical and modern physics of particular importance to science majors. Principles of mechanics, heat, electricity, magnetism, optics, and atomic and nuclear physics are discussed.

Fulfills Mason Core requirement in natural science (lab).

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PHYS 244 - College Physics Lab**

Credits: 1  
Not Repeatable  
Laboratory portion of two-semester basic physics course.

Fulfills Mason Core requirement in natural science (lab).

Corequisite enforced by registration system.

**Corequisite(s):** PHYS 243.
**PHYS 245 - College Physics**

Credits: 3  
Not Repeatable  
Two-semester basic physics course with emphasis on topics of classical and modern physics of particular importance to science majors. Principles of mechanics, heat, electricity, magnetism, optics, and atomic and nuclear physics are discussed.

Fulfills Mason Core requirement in natural science (lab).

**Prerequisite(s):** PHYS 243 Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHYS 246 - College Physics Lab**

Credits: 1  
Not Repeatable  
Laboratory portion of two-semester basic physics course.

Fulfills Mason Core requirement in natural science (lab).

Corequisite enforced by registration system.

**Corequisite(s):** PHYS 245.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 3

**PHYS 251 - Introduction to Computer Techniques in Physics**

Credits: 3  
Not Repeatable  
Introduction to using computers in physics based on examples from mechanics and astronomy.

Fulfills Mason Core requirement in information technology (all except ethics).

**Prerequisite(s):** PHYS 160. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
**PHYS 260 - University Physics II**

Credits: 3  
Not Repeatable  
Waves, electricity, and magnetism.

Fulfills Mason Core requirement in natural science (lab).

**Prerequisite(s):** PHYS 160 with a grade of C or better. Prerequisite enforced by registration system.

**Corequisite(s):** MATH 213.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PHYS 261 - University Physics II Laboratory**

Credits: 1  
Not Repeatable  
Experiments in mechanics, electricity, and magnetism, including techniques for recording, graphically and statistically analyzing, and reporting data.

Fulfills Mason Core requirement in natural science (lab).

**Prerequisite(s):** PHYS 161. Prerequisite enforced by registration system.

**Corequisite(s):** MATH 213 and PHYS 260.

**Hours of Lecture or Seminar per week:** 1-12  
**Hours of Lab or Studio per week:** 3

---

**PHYS 262 - University Physics III**

Credits: 3  
Not Repeatable  
Thermodynamics, optics, and modern physics.

Fulfills Mason Core requirement in natural science (lab).

**Prerequisite(s):** PHYS 260 with a grade of C or better. Prerequisite enforced by registration system.

**Corequisite(s):** MATH 214.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PHYS 263 - University Physics III Laboratory**
Experiments in optics and modern physics, including techniques for recording, graphically and statistically analyzing, and reporting data.

Fulfills Mason Core requirement in natural science (lab).

**Prerequisite(s):** PHYS 261. Prerequisite enforced by registration system.

**Corequisite(s):** PHYS 262.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 3

---

**PHYS 265 - Advanced University Physics II Laboratory**

Credits: 2  
Not Repeatable  
Experiments in mechanics, electricity, and magnetism with emphasis on data analysis using spreadsheets and Matlab.

**Corequisite(s):** MATH 213 and PHYS 260.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 3

---

**PHYS 266 - Introduction to Thermodynamics**

Credits: 1  
Not Repeatable  
Laws of thermodynamics, kinetic theory of gases, heat engines, and entropy.

**Prerequisite(s):** PHYS 260. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

---

**PHYS 301 - Analytical Methods of Physics**

Credits: 3  
Not Repeatable  
Analytical methods in the Physical Sciences. Provides a comprehensive introduction to the areas of mathematical physics.

**Prerequisite(s):** MATH 214. Prerequisite enforced by registration system.

**Notes:** This course does not satisfy the PHYS elective requirement.
**PHYS 303 - Classical Mechanics**

Credits: 3  
Not Repeatable  
Motion of a particle in one, two, and three dimensions; systems of particles; noninertial coordinate systems; and equations of Lagrange and Hamilton.

Prerequisite(s): PHYS 262 and MATH 214 or permission of instructor. Prerequisite enforced by registration system.

Corequisite(s): PHYS 301 or MATH 313 or MATH 413.

**PHYS 305 - Electromagnetic Theory**

Credits: 3  
Not Repeatable  
Interaction of static charges, interaction of stationary currents, electromagnetic induction, and Maxwell's equations.

Prerequisite(s): PHYS 262 and MATH 214 or permission of instructor. Prerequisite enforced by registration system.

Corequisite(s): PHYS 301 or MATH 313 or MATH 413.

**PHYS 306 - Wave Motion and Electromagnetic Radiation**

Credits: 3  
Not Repeatable  
Vibrating string, plane waves, interference, diffraction, polarization, electromagnetic waves, dispersion, and relativity.

Prerequisite(s): PHYS 305 or permission of instructor. Prerequisite enforced by registration system.

Corequisite(s): MATH 214.
PHYS 307 - Thermal Physics

Credits: 3
Not Repeatable
Classical concepts of energy and temperature, basic definitions, first and second laws of thermodynamics, properties of pure substances, and equations of state. Introduction to classical and quantum statistics and their application to physical systems.

Prerequisite(s): PHYS 262. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 308 - Modern Physics with Applications

Credits: 3
Not Repeatable
Study of modern physics with emphasis on applications. Topics include introductory quantum physics; modern optics; lasers; binding and energy bands in solids; electrical, thermal, and magnetic properties of solids; semiconductors; radioactivity; nuclear reactions; radiation detectors; and applications of nuclear physics to other sciences.

Prerequisite(s): PHYS 262 Prerequisite enforced by registration system.

Corequisite(s): MATH 214

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 310 - Physics of Semiconductor Materials and Processing

Credits: 3
Not Repeatable
Survey of the electronic and structural properties of semiconductors and the physics of semiconductor processing. Topics to be discussed include crystal growth, crystal defects, thin films, thermal properties, lithography, and characterization.

Prerequisite(s): PHYS 160, 260, and 262; or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 326 - Problems in Physics II

Credits: 1-3
Repeatable within Degree
Individual study of physics problems of current interest.
Notes: May be taken three times for credit.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

**PHYS 331 - Fundamentals of Renewable Energy**

Credits: 3
Not Repeatable

Introduces the physical principles for a range of renewable energies, including solar, wind, hydropower and geothermal. Demonstrates how the application of methods and principles of physics allow us to understand the basic operation, advantages, limitations and relative merits of various renewable energy sources. Designed for students majoring in the sciences or engineering but useful for students interested in science policy, business, global change and sustainable development. Designated a Green Leaf Course.

Prerequisite(s): PHYS 262 or 266 or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 332 - Solar Cells**

Credits: 3
Not Repeatable

Covers the physics of solar cells, basics of semiconductors, \( pn \) junctions, basic structure of solar cells, the latest advances in solar cell materials, and concepts for improving the efficiency of solar cells. Solar cell design based on silicon, copper indium gallium selenide, gallium arsenide, organic solar cells, dye-sensitized solar cells, quantum dots, and nanowires will also be reviewed.

Prerequisite(s): PHYS 262 and PHYS 263 or PHYS 245 and PHYS 246. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**PHYS 346 - Quarks to Strings**

Credits: 3
Not Repeatable

An non-technical introduction to the Standard Model of Elementary Particles and String Theory, in the context of the philosophy of science. Conceptual mastery will be demonstrated through writing assignments rather than calculations.

Fulfills Mason Core requirement in synthesis.
Prerequisite(s): PHYS 262 Prerequisite enforced by registration system.

Notes: This course does not satisfy the PHYS elective requirement.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**PHYS 370 - Molecular Biophysics**

Credits: 3
Not Repeatable
Offers a broad introduction into molecular biophysics. Demonstrates that the application of methods of physics provides a unique opportunity to tackle complex biological programs. Mainly designed for students majoring in physics or chemistry but also useful for biology majors interested in bioinformatics and computational biology.

Equivalent to BINF 470

Prerequisite(s): PHYS 307, or CHEM 331 and CHEM 332, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 385 - Materials Science with Applications to Renewable Energy**

Credits: 3
Not Repeatable

Introduction to basic concepts and methods of materials science. Review of metallic alloys and compounds, ceramic materials, ionic solids, semiconductors, polymers, and nano-structured materials. Mechanical, thermal, electric, magnetic and optical properties of materials. Theoretical background and experimental methods of materials characterization. Various materials applications with emphasis on renewable energy. Designated a Green Leaf Course.

Equivalent to CDS 385 (2012-2013 Catalog).

Prerequisite(s): PHYS 262 or 266 or 245 and a C or better in MATH 113 Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 390 - Topics in Physics**

Credits: 1-4
Repeatable within Term
Selected topics in physics not covered in fixed-content courses.

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0

**PHYS 402 - Introduction to Quantum Mechanics and Atomic Physics**

Credits: 3  
Not Repeatable  
Experimental basis of quantum mechanics; the wave function; systems in one, two, and three dimensions.

Equivalent to PHYS 502  

Prerequisite(s): PHYS 303, 305, and 308, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

**PHYS 405 - Honors Thesis in Physics**

Credits: 3  
Not Repeatable  
Project chosen and completed under the guidance of a faculty member, which results in a thesis.

Prerequisite(s): 21 credits of physics courses including PHYS 262, 305, and 308; and admission to Physics Department Honors Program.

Notes: PHYS 405 is a prerequisite for PHYS 406. An oral progress report is required for PHYS 405. Oral and written presentations are required for PHYS 406. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PHYS 406 - Honors Thesis in Physics**

Credits: 3  
Not Repeatable  
Project chosen and completed under the guidance of a faculty member, which results in a thesis.

Prerequisite(s): PHYS 405.

Notes: PHYS 405 is a prerequisite for PHYS 406. An oral progress report is required for PHYS 405. Oral and written presentations are required for PHYS 406. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
PHYS 407 - Senior Laboratory in Modern Physics

Credits: 3  
Not Repeatable  
Advanced experiments in modern physics: electronics, optics, condensed matter, and nuclear physics. Techniques for recording, graphically and statistically analyzing, and reporting data. Typical experiments include the Frank-Hertz experiment, Hall Effect, electron spin resonance, nuclear magnetic resonance and optical pumping.

Fulfills writing intensive requirement in the major.

Prerequisite(s): PHYS 263, 305, 308. Prerequisite enforced by registration system.

Corequisite(s): PHYS 402.

Notes: This course meets the writing-intensive requirement.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 9

---

PHYS 408 - Senior Research

Credits: 2-3  
Repeatable within Degree  
Work under guidance of faculty member on research project in experimental or theoretical physics.

Prerequisite(s): 21 credits of physics courses.

Notes: May be taken twice with permission of the Physics Department. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409.

Hours of Lecture or Seminar per week: 2-3  
Hours of Lab or Studio per week: 0

---

PHYS 409 - Physics Internship

Credits: 3  
Repeatable within Degree  
On-the-job experience for physics majors in industry or government laboratories including summer programs.

Prerequisite(s): At least 12 credits at the 300-level or above of physics, astronomy, computational and data science, chemistry, engineering, or mathematics courses, including PHYS 303 and 305, and permission of the undergraduate coordinator.

Notes: May be taken twice with permission of the School of Physics, Astronomy, & Computational Sciences. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409.

Hours of Lecture or Seminar per week: 3
PHYS 410 - Computational Physics I

Credits: 3  
Not Repeatable  
Study and development leading to computer simulations of various physical systems. Requires the study and development of computational techniques and numerical algorithms to obtain both numerical results and visualization of these results. Application to individual physical processes taking place in a variety of physical streams.

Equivalent to PHYS 510

Prerequisite(s): PHYS 303 and 305 Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHYS 412 - Solid State Physics and Applications

Credits: 3  
Not Repeatable  
Crystal structures, binding, lattice vibrations, the free electron model, metals, semiconductors and semiconductor devices, superconductivity, and magnetism.

Equivalent to PHYS 512/CSI 687

Prerequisite(s): PHYS 402 or 502. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHYS 416 - Special Topics in Modern Physics

Credits: 1  
Not Repeatable  
Topics of current interest in modern physics with emphasis on the breadth of physical understanding needed to approach many of today's problems. The course will also review all of undergraduate physics through assigned problems from the GRE test.

Prerequisite(s): 21 credits of physics courses.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0

PHYS 417 - Geophysics
Seismological and gravitational theory and application to an understanding of the Earth's interior. Geology requirement may be waived for physics and engineering students with sufficient background.

Equivalent to GEOL 417

**Prerequisite(s):** GEOL 101, 102, 201, 301; MATH 113, 114; and PHYS 160.

**Corequisite(s):** MATH 213 and PHYS 260, 261.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PHYS 428 - Relativity

Credits: 3  
Not Repeatable  
Special relativity; four-dimensional space-time; general relativity; non-Euclidean geometries, geodesics, and field equations; tests of general theory of relativity; black holes; cosmology; models of the universe; remnant blackbody radiation; big bang cosmology; thermodynamics; and the universe.

Equivalent to ASTR 428 (2012-2013 Catalog)

**Prerequisite(s):** PHYS 303, 305. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PHYS 440 - Nuclear and Particle Physics

Credits: 3  
Not Repeatable

Accelerators, detectors and related electronics; nuclear and elementary particle structure; symmetries and conservation laws; the electromagnetic, weak, and hadronic interactions; nuclear models; the quark model; and nuclear science and technology.

Equivalent to PHYS 540

**Prerequisite(s):** PHYS 402 or 502. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PHYS 475 - Atmospheric Physics
Introduction to basic physical and chemical processes that operate in the Earth's atmosphere. Emphasis on those concepts that provide a global description of the current atmospheric state and those processes that relate to global change and atmospheric evolution. Topics include equilibrium structure, radiative transfer models, thermodynamics of various atmospheric layers, and the various processes defining these layers.

Equivalent to PHYS 575/CSI 655

Prerequisite(s): PHYS 260 and 262.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 502 - Introduction to Quantum Mechanics and Atomic Physics**

Credits: 3
Not Repeatable
Experimental basis of quantum mechanics, the wave function, and systems in one, two, and three dimensions.

Equivalent to PHYS 402

Prerequisite(s): PHYS 308, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 510 - Computational Physics I**

Credits: 3
Not Repeatable
Study and development leading to computer simulations of various physical systems. Requires the study and development of computational techniques and numerical algorithms to obtain both numerical results and visualization of these results. Application to individual physical processes taking place in a variety of physical systems.

Equivalent to PHYS 410

Prerequisite(s): PHYS 303 and 305 Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 512 - Solid State Physics and Applications**

Credits: 3
Not Repeatable
Crystal structures, binding, lattice vibrations, the free electron model, metals, semiconductors and semiconductor devices,
superconductivity, and magnetism.

Equivalent to PHYS 412/CSI 687

Prerequisite(s): PHYS 402 or 502. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 513 - Applied Electromagnetic Theory**

Credits: 3
Not Repeatable
Classical electromagnetic theory with applications. Topics include electrostatics, magnetic fields and materials, electromagnetic wave propagation, waveguides, transmission lines, radiation, and antennas.

Prerequisite(s): PHYS 305, 306; and MATH 313, 314 or equivalent. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 533 - Modern Instrumentation**

Credits: 3
Not Repeatable
Topics include sensors for radiation, particles, electric and magnetic fields, pressure, and motion; electronic instruments, computer data collection, instrumentation noise and noise reduction methods; and specialized instrumentation systems for various areas of applied physics.

Equivalent to CHEM 620

Prerequisite(s): PHYS 513 and an electronics course. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 540 - Nuclear and Particle Physics**

Credits: 3
Not Repeatable
Accelerators, detectors and related electronics; nuclear and elementary particle structure; symmetries and conservation laws; the electromagnetic, weak, and hadronic interactions; nuclear models; the quark model; and nuclear science and technology.

Equivalent to PHYS 440

Prerequisite(s): PHYS 402 or 502. Prerequisite enforced by registration system.
**PHYS 575 - Atmospheric Physics I**

Credits: 3  
Not Repeatable  
Introduction to basic physical and chemical processes that operate in the Earth's atmosphere. Emphasis on those concepts that provide a global description of the current atmospheric state and those processes that relate to global change and atmospheric evolution. Topics include equilibrium structure, radiative transfer models, thermodynamics of various atmospheric layers, and the various processes defining these layers.

**Prerequisite(s):** PHYS 305, 262, and 260 or equivalent. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHYS 580 - Selected Interdisciplinary Topics**

Credits: 3  
Not Repeatable  
Selected interdisciplinary topics with a strong physics content not covered in fixed-content courses.

**Notes:** PHYS 580 cannot be used to satisfy degree requirements for PHYS (PhD), PHAE (MA) in the standard, applied physics, and engineering physics emphases.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHYS 581 - Topics in Renewable Energy**

Credits: 3  
Not Repeatable  
The course covers the physical principles for a range of renewable energies, including solar, wind, hydropower and geothermal using mathematical and other types of analysis. The course demonstrates how the application of methods and principles of physics allow us to understand the basic operation, advantages, limitations and relative merits of various renewable energy sources.

**Prerequisite(s):** PHYS 262, PHYS 266, or permission of the instructor. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring
PHYS 590 - Selected Topics in Physics

Credits: 1-6
Repeatable within Term
Selected topics from recent theoretical or experimental developments and applications. Satisfies needs of professional community to keep abreast of current developments.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 0-6
Hours of Lab or Studio per week: 0

PHYS 600 - Special Topics in Physics

Credits: 1-6
Repeatable within Term
In-service course to strengthen and update teachers' knowledge of physics and astronomy.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

PHYS 611 - Electro-optics

Credits: 3
Not Repeatable
Optical modulators, display devices, types and operation of lasers, mode locking, Q-switching, photodetectors, optical fibers.

Prerequisite(s): PHYS 502 or 684, and 513 or 685. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 612 - Physics of Modern Imaging

Credits: 3
Not Repeatable
Study of imaging methods using acoustic and electromagnetic waves to probe extended objects, and mathematical transformations to produce images from scattered waves. Topics include classical imaging, physical optics, Fourier transform, holography, tomography, seismic mapping, underwater acoustic imaging and mapping, side-looking radar, antenna arrays, applicable computer methods.

Prerequisite(s): PHYS 513 or 685. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PHYS 613 - Computational Physics II

Credits: 3
Not Repeatable
Study of diverse physical systems with emphasis on modeling and simulation. Study and development of numerical algorithms and techniques to obtain both numerical results and visualization of these results. Projects undertaken will draw from such areas as many-body orbital dynamics, molecular interactions, quantum systems, radiative transfer in high-temperature plasmas, stellar interiors, hydrodynamics, and cosmology.

Equivalent to CSI 780

Prerequisite(s): PHYS 303, 305, and 510; PHYS 502 or equivalent recommended. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 614 - Thermodynamics and Kinetics of Materials

Credits: 3
Not Repeatable
Advanced thermodynamics and physical kinetics with applications to materials science. The course covers an axiomatic formulation of thermodynamics, theory of phase transformations, kinetic theory of reactions and diffusion processes in solids, and interface phenomena. Possible applications considered in the course include processing and fabrication of semiconductor materials, metal oxidation and corrosion, diffusion-controlled phase growth in solid solutions, shape memory alloys, and small-size effects in physical properties of materials.

Prerequisite(s): MATH 113, 114, 213, 307; PHYS 262 or 266, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 615 - Fundamentals of Materials Science

Credits: 3
Not Repeatable
Covers fundamentals of materials science with emphasis on physical topics including crystal structure and symmetry, dislocation theory, theory of interfaces, multicomponent phase diagrams, theory of phase transformations, nano-materials, metallic glasses. Includes a term project, assignments from current literature and application of computation in materials science.

Equivalent to CSI 685

Prerequisite(s): CDS 385/PHYS 385 or undergraduate degree in physics, chemistry, materials, electrical or mechanical engineering or related disciplines; or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PHYS 620 - Continuum Mechanics

Credits: 3
Not Repeatable
Study of continuum mechanics; topics include physical concepts, mathematical formulation and solution, elastic materials, ideal fluids, viscous fluids, waves in continuous media, turbulence, thermal convection, stability considerations, high-temperature gas flows, radiative processes for momentum and energy transport, shocks, and computational fluid dynamics.

Prerequisite(s): PHYS 510 and 303 or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 628 - Relativity

Credits: 3
Not Repeatable
Special relativity; four-dimensional space-time; general relativity; non-Euclidean geometries, geodesics, and field equations; tests of general theory of relativity; black holes; cosmology; models of the universe; remnant blackbody radiation; big bang cosmology; thermodynamics; and the universe.

Prerequisite(s): PHYS 303, 305, or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PHYS 630 - Introduction to Biophysics

Credits: 3
Not Repeatable
Introduces biophysics, focusing on physical and chemical concepts and their relation to rapidly expanding interdisciplinary interfaces among biology, chemistry, and physics. Reveals multiscale nature of biophysics, and includes exploration of macroscopic and microscopic applications.

Equivalent to BINF 740

Prerequisite(s): Undergraduate degree in physics or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 660 - Space Weather

Credits: 3
Not Repeatable
Overview of space weather including sun, heliosphere, magnetosphere, and ionosphere.

Equivalent to ASTR 660

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 684 - Quantum Mechanics I**

Credits: 3
Not Repeatable
Fundamental concepts of quantum mechanics, including Dirac notation, quantum dynamics, theory of angular momentum, and symmetries.

Prerequisite(s): PHYS 402 or 502, MATH 313 or 314, or equivalent. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**PHYS 685 - Classical Electrodynamics I**

Credits: 3
Not Repeatable
Deals with static and dynamic properties of electromagnetic fields as described by Maxwell's equations. Covers electrostatics, magnetostatics, boundary value problems, multipoles, time dependent fields, propagating wave solutions, and resonant structures.

Prerequisite(s): PHYS 305, 308; MATH 313 and 314, or equivalent. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 701 - Theoretical Physics**

Credits: 3
Not Repeatable
Study of the physical basis for selection of particular mathematical tools in physics; topics include curvilinear coordinates, tensors, matrices, differential equations, special functions, complex variables, and group theory.

Prerequisite(s): Undergraduate degree in physics or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PHYS 703 - Seminar in Physics

Credits: 1
Repeatable within Degree
A general seminar course that combines invited seminars from faculty (both internal and external) with graduate student seminars.

Prerequisite(s): Permission of instructor.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only.
When Offered: Fall, Spring

PHYS 705 - Classical Mechanics

Credits: 3
Not Repeatable
Study of classical mechanics; topics include variational principles, constrained motion, Lagrangian and Hamiltonian mechanics, canonical transformations, and applications (central forces, rigid-body motion, oscillations).

Prerequisite(s): Undergraduate degree in physics or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 711 - Statistical Mechanics

Credits: 3
Not Repeatable
Topics include thermodynamics, kinetic theory, ensemble theory, quantum statistics, and applications.

Prerequisite(s): Undergraduate degree in physics or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 736 - Computational Quantum Mechanics

Credits: 3
Not Repeatable
Study of the fundamental concepts of quantum mechanics from a computational point of view, review of systems with spherically symmetric potentials, many-electron-atom solutions to Schrodinger's equation, electron spin in many-electron systems, atomic structure calculations, algebra of many-electron calculations, Hartree-Fock self-consistent field method, molecular structure calculations, scattering theory computations, and solid-state computations.
Prerequisite(s): PHYS 502, 510, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 760 - Space Plasma Physics**

Credits: 3
Not Repeatable
Covers plasma processes involved in today's space physics research, including different regimes of plasma; basic concepts in kinetic, fluid, and MHD plasmas; and existent waves in these media. Also covers basics of shocks, discontinuities, transport and acceleration of particles such as cosmic rays, reconnection, and MHD instabilities.

Equivalent to ASTR 760

Prerequisite(s): PHYS 513 or 685, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 780 - Advanced Selected Topics in Physics**

Credits: 3
Repeatable within Term
Selected topics in physics not covered in fixed-content physics courses.

Prerequisite(s): Permission of instructor.

Notes: May be repeated for credit as needed.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 784 - Quantum Mechanics II**

Credits: 3
Not Repeatable
Advanced topics in quantum mechanics. Covers density and tensor operators, approximation methods, scattering theory, and identical particles.

Prerequisite(s): PHYS 684, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
PHYS 785 - Classical Electrodynamics II

Credits: 3
Not Repeatable
Advanced topics in electrodynamics. Covers radiation, scattering and diffraction, special relativity, relativistic particle dynamics, Lorentz transformation, 4-vectors, transformation of fields, charges and currents, Thomas precession, retarded potentials, and radiation from moving charges.

Prerequisite(s): PHYS 685, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 796 - Directed Reading and Research

Credits: 1-12
Repeatable within Term
Reading and research on a specific topic in physics or related field under the direction of a faculty member.

Prerequisite(s): Admission to master's program, and permission of instructor.

Notes: May be repeated as needed.

Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 0
Grading: Graduate Special

PHYS 798 - Research Project

Credits: 3
Repeatable within Degree
Project chosen and completed under the guidance of a graduate faculty member, which results in an acceptable technical report.

Prerequisite(s): 9 graduate credits, and permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

PHYS 799 - Master's Thesis

Credits: 1-6
Repeatable within Degree
Project chosen and completed under the guidance of a graduate faculty member, which results in an acceptable technical report and oral defense.
Prerequisite(s): 9 graduate credits, and permission of instructor.

**Hours of Lecture or Seminar per week:** 1-6
**Hours of Lab or Studio per week:** 0
**Grading:** Satisfactory/No Credit

### PHYS 998 - Doctoral Dissertation Proposal

Credits: 1-12
Repeatable within Degree
Covers development of a research proposal under the guidance of a dissertation director and the doctoral committee. The proposal forms the basis for the doctoral dissertation.

Prerequisite(s): Admission to physics doctoral program and permission of advisor.

Notes: May be repeated as needed; however, no more than 24 credits in ASTR/PHYS 998 and ASTR/PHYS 999 may be applied toward satisfying doctoral degree requirements in the physics PhD program. Out of the 24, no more than 12 credits of ASTR/PHYS 998 may be applied.

**Hours of Lecture or Seminar per week:** 0
**Hours of Lab or Studio per week:** 0
**Grading:** Satisfactory/No credit only

### PHYS 999 - Doctoral Dissertation

Credits: 1-12
Repeatable within Degree
Doctoral research performed under direction of dissertation director.

Prerequisite(s): Admission to doctoral candidacy in physics doctoral program and permission of advisor.

Notes: May be repeated as needed; however, no more than 24 credits in ASTR/PHYS 998 and ASTR/PHYS 999 may be applied toward satisfying doctoral degree requirements in the physics PhD program.

**Hours of Lecture or Seminar per week:** 0
**Hours of Lab or Studio per week:** 0
**Grading:** S/IP

### Portuguese (PORT)

### PORT 110 - Elementary Portuguese
PORT 210 - Intermediate Portuguese

Credits: 3
Not Repeatable
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Portuguese-speaking regions.

Prerequisite(s): PORT 110, appropriate placement score, or permission of department.

Professional Development in Education (EDPD)

EDPD 402 - Professional Development in Elementary Literacy, and Secondary Education

Credits: 1-6
Repeatable within Term
Provides opportunity for focused study on selected topics or emerging issues in elementary, literacy and secondary education. Course may not be applied to a degree program.

Grading: Undergraduate Special
When Offered: Fall, Summer, Spring

EDPD 406 - Professional Development in Social Education and Disability Research

Credits: 1-6
Repeatable within Term
Provides opportunity for focused study on selected topics or emerging issues in special education and disability research. Course may not be applied to a degree program.
**Grading:** Undergraduate Special  
**When Offered:** Fall, Summer, Spring

---

**EDPD 501 - Professional Development in Advanced Teacher Research and Practice**

Credits: 1-6  
Repeatable within Term  
Provides opportunity for focused study on selected topics or emerging issues in advanced teacher research and practices.

**Notes:** Course may not be applied to a degree program.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special  
**When Offered:** Fall, Summer, Spring

---

**EDPD 502 - Professional Development in Elementary, Literacy, and Secondary Education**

Credits: 1-6  
Repeatable within Term  
Provides opportunity for focused study on selected topics or emerging issues in elementary, literacy and secondary education.

**Notes:** Course may not be applied to a degree program.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special  
**When Offered:** Fall, Summer, Spring

---

**EDPD 503 - Professional Development in Individual and Organizational Transformation**

Credits: 1-6  
Repeatable within Term  
Provides opportunity for focused study on selected topics or emerging issues in individual and organizational transformation.

**Notes:** Course may not be applied to a degree program.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special  
**When Offered:** Fall, Summer, Spring

---

**EDPD 504 - Professional Development in Learning Technologies**
EDPD 505 - Professional Development in Educational Psychology, Research Methods and Education Policy

Credits: 1-6
Repeatable within Term
Provides opportunity for focused study on selected topics or emerging issues in educational psychology, research methods and education policy.

Notes: Course may not be applied to a degree program.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Summer, Spring

EDPD 506 - Professional Development in Special Education and Disability Research

Credits: 1-6
Repeatable within Term
Provides opportunity for focused study on selected topics or emerging issues in special education and disability research.

Notes: Course may not be applied to a degree program.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Summer, Spring

EDPD 507 - Professional Development in Health and Human Performance

Credits: 1-6
Repeatable within Term
Provides opportunity for focused study on selected topics or emerging issues in health and human performance.

Notes: Course may not be applied to a degree program.
EDPD 508 - Professional Development in Sport, Recreation and Tourism

Credits: 1-6
Repeatable within Term
Provides opportunity for focused study on selected topics or emerging issues in sport, recreation and tourism.

Notes: Course may not be applied to a degree program.

Provost (PROV)

PROV 105 - American Cultures

Credits: 3
Not Repeatable
This course provides an introduction to US cultures with a focus on diversity within American society. The course uses the concept of culture as a basis for discussing differences in Americans' experience of family life, work, education, the arts, national and ethnic identities, gender, religion and more. Through ethnographic readings, literature, film and field projects, students develop a better understanding of similarities and differences across the American experience.

Fulfills Mason Core requirement in global understanding (ACCESS students only).

Equivalent to UNIV 105 (2011-2012 Catalog)

Prerequisite(s): Admission to the ACCESS program.

PROV 106 - Introduction to Research Methods for International Students
Academic research is the fundamental element of university-level education. Despite the variations in research disciplines, they all share basic concepts of academic inquiry. This course is designed to teach the methods, norms, and procedures of undergraduate research in the humanities and social sciences. It should equip international students with the essential skills needed to successfully produce a quality academic paper.

Equivalent to UNIV 106 (2011-2012 Catalog)

Prerequisite(s): Admission to the ACCESS program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Undergraduate Special.
When Offered: Spring

PROV 110 - Special Topics

Credits: 1-3
Repeatable within Term
Exploration of leadership in a specific career field(s); changing nature of that industry; understanding of organizational structures in the field(s); and introduction to career and internship opportunities for students who aspire to a career in that field.

Equivalent to UNIV 110 (2011-2012 Catalog)

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Special Undergraduate.
When Offered: Summer

PROV 206 - Research Methods (CISA/Honors Peer Learning Partnership)

Credits: 0-1
Repeatable within Degree
This course is an experiential credit course for Honors students partnering with ACCESS international students to develop academic research skills.

Equivalent to UNIV 206 (2011-2012 Catalog)

Prerequisite(s): Completion of HNRS 110 with a grade of B+ or better and official offer from Center for International Student Access.

Corequisite(s): Enrollment as an Honor student in good standing

Hours of Lecture or Seminar per week: 2-5
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Spring
PROV 207 - Peer Educational Mentor Leadership

Credits: 0-3
Repeatable within Degree
This course is an experiential leadership course for students partnering with ACCESS international students as peer educational mentors.

Prerequisite(s): Sophomore status or higher.

Corequisite(s): Student in good standing.

Hours of Lecture or Seminar per week: 3-5
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Spring

PROV 210 - Comprehensive Topics in Leadership

Credits: 1-3
Repeatable within Degree
Comprehensive exploration of leadership in a specific career field(s); changing nature of that industry; understanding of organizational structures in the field(s); and introduction to career and internship opportunities for students who aspire to a career in that field.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Summer, Spring

PROV 301 - Great Ideas in Science

Credits: 3
Not Repeatable
Nontechnical introduction to ideas that have shaped the growth of science, from the building of Stonehenge to modern theories of the Big Bang. The idea behind each major advance is treated in its historical context, with special attention to its importance in mankind's understanding of the nature of the universe. Intended for nonscience majors; uses little mathematics.

Fulfills Mason Core requirement in natural science (nonlab).

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PROV 342 - The George Mason Debates in Current Affairs
In-depth investigation of one or more contemporary public policy issues. Examines the selected topics as discussed by scholars, public interest groups and think tanks, government officials, and the news media. Texts and guest lecturers presenting a wide range of perspectives are an important feature.

Fulfills Mason Core requirement in synthesis.

Equivalent to UNIV 342 (2011-2012 Catalog)

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

### PROV 501 - Introduction to Graduate Study for International Students I

Credits: 2-3  
Not Repeatable  
Designed especially for the Graduate BRIDGE program, this course is the first of a two-part transitional course series designed for international students who are studying abroad, emphasizing development, readiness, and success for Graduate/Professional school enrollment. This first course covers western educational systems, university policies and procedures, writing skills and research resources, and graduate school study skills and methods.

Equivalent to UNIV 501 (2011-2012 Catalog)

**Notes:** This course is for graduate degree seeking students whose highest degree is from a non-US institution. This course may not count towards academic degree requirements at the graduate level. Enrolled students are required to take UNIV 502 the following consecutive semester.

**Hours of Lecture or Seminar per week:** 2 or 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special.

**When Offered:** Fall, Summer, Spring

---

### PROV 502 - Introduction to Graduate Study for International Students II

Credits: 2-3  
Not Repeatable  
Designed especially for the Graduate BRIDGE program, this second of a two-part transitional course series is designed for international students who are studying abroad, emphasizing development, readiness, and success for Graduate school enrollment. This course covers postmodernism, cultural identity and assimilation/acculturation theory, advanced program development, university resources, research reading and methods, career planning as well as professional and personal presentation.

Equivalent to UNIV 502 (2011-2012 Catalog)

**Prerequisite(s):** Completion of UNIV 501 with a grade of B or better, in the immediate past semester.

**Notes:** This course is for graduate degree seeking students whose highest degree is from a non-US institution. This course may not count towards academic degree requirements at the graduate level.
**PROV 504 - Accelerated Introduction to Graduate Study for International Students**

Credits: 3  
Not Repeatable  
Emphasizes enculturation to Western academic norms, preparation for graduate study in the United States and – especially – George Mason University, and skills necessary to complete graduate study successfully. Many of these expectations are not made explicit in academic culture, and the course focuses on making the policies, procedures, research skills, and systems clear.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**PROV 601 - Thriving in Your Graduate Program**

Credits: 1  
Not Repeatable  
Gaining greater insight into student learning theories, the nature of research and scholarship, higher education trends, and the various career paths available to individuals with graduate degrees is important for students in the early stages of their academic programs. This seminar is designed for early career MFA and doctoral students to facilitate their success as graduate students at Mason.

**Hours of Lecture or Seminar per week:** 3 hours biweekly  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No credit only  
**When Offered:** Spring

**PROV 701 - Preparing for Academic Careers**

Credits: 1  
Not Repeatable  
This seminar will be devoted to helping doctoral students explore and prepare for future academic careers and to strengthening their instructional effectiveness. The seminar will provide a clearer understanding of the roles and responsibilities of being a faculty member. Participants will learn how to construct a meaningful statement of teaching philosophy and plan for a course through syllabus design.

Equivalent to UNIV 701 (2011-2012 Catalog)

**Notes:** This course does not apply to required credits for doctoral degrees.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
Grading: Satisfactory/No Credit
When Offered: Fall

Psychology (PSYC)

Offered by the College of Humanities and Social Sciences

PSYC 100 - Basic Concepts in Psychology

Credits: 3
Not Repeatable
Introduces psychology as scientific discipline. Examines concepts and methods in learning, motivation, development, personality, and measurement.

Fulfills Mason Core requirement in social and behavioral science.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 110 - Seminar in General Psychology

Credits: 1
Not Repeatable
Explores applications, implications, methods, and findings of psychology.

Corequisite(s): PSYC 100.

Notes: Students must be enrolled concurrently in PSYC 100. In-class work includes discussion that enriches the PSYC 100 lecture material, exploration of controversial issues in psychology, use of technology to broaden knowledge of psychology, and in-depth discussions of topics on which instructor has special expertise. Short papers are required.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PSYC 211 - Developmental Psychology

Credits: 3
Not Repeatable
Review of major developmental theories including perspectives of childhood, adolescence, adulthood, and old age.

Fulfills Mason Core requirement in social and behavioral science.

Prerequisite(s): PSYC 100 or permission of instructor.
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 231 - Social Psychology**

Credits: 3  
Not Repeatable  
Study of human behavior development in a social matrix, including such topics as socialization, cultural behavior, group norms, and attitude formation.

Fulfills Mason Core requirement in social and behavioral science.

**Prerequisite(s):** PSYC 100 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PSYC 260 - Basic Research Methods in Psychology**

Credits: 1-3  
Repeatable within Term  
Introduction to research methods in psychology in the context of assisting faculty with research; individualized sections by arrangement with faculty. Methods taught vary but generally include basic data collection and recordkeeping methods in research.

**Prerequisite(s):** 6 credits of psychology or permission of instructor and department.

**Notes:** Course culminates in a paper describing techniques learned. No more than 6 credits in PSYC 260, 350, and 460 can be used toward a psychology major.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0

**PSYC 300 - Statistics in Psychology**

Credits: 4  
Not Repeatable  
Descriptive and inferential statistics in design, analysis, and interpretation of psychological research with practical application using computers in laboratory.

Fulfills Mason Core requirement in information technology (all except ethics). PSYC 300, 301 and 372 must be taken in sequence.

**Prerequisite(s):** 6 credits of psychology and 3 credits of mathematics course work; or permission of instructor.

**Notes:** Students are strongly encouraged to take PSYC 301 concurrently.
PSYC 301 - Research Methods in Psychology

Credits: 3
Not Repeatable
General research design in psychology, with an emphasis on experimental design and control. Topics include use of human participants in research, reliability and validity, observational methods, and survey and longitudinal designs.

Fulfills Mason Core requirement in information technology (all except ethics). PSYC 300, 301 and 372 must be taken in sequence.

Fulfills writing intensive requirement in the major.

Prerequisite(s): PSYC 100 and either PSYC 300, STAT 250, or STAT 350 or equivalent.

Notes: Students are strongly encouraged to take PSYC 300 concurrently. Laboratory work will include designing and running research studies and writing manuscripts using appropriate style and format. PSYC 301 is a writing-intensive course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 304 - Principles of Learning

Credits: 4
Not Repeatable
Principles of animal learning, including such topics as classical and operant conditioning, discrimination learning, and animal cognition.

Fulfills writing intensive requirement in the major.

Prerequisite(s): PSYC 300, or permission of instructor.

Notes: Laboratory projects require working with computer simulations. PSYC 304 is a writing-intensive course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 309 - Sensation, Perception, and Information Processing

Credits: 4
Not Repeatable
Principles of perception, including topics such as psychophysics, perceptual organization, perceptual learning, and perceptual constancies.

Fulfills writing intensive requirement in the major.
**Prerequisite(s):** PSYC 300 and PSYC 301.

**Notes:** Laboratory projects demonstrate and investigate perceptual phenomena. PSYC 309 is a writing-intensive course.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 2

---

**PSYC 313 - Child Development**

Credits: 3  
Not Repeatable  
Study of human psychological development from conception to adolescence including such topics as genetic factors, emotional and intellectual growth, and environmental influences.

**Prerequisite(s):** PSYC 100 or equivalent.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 314 - Adolescent Development**

Credits: 3  
Not Repeatable  
Study of the biological and cultural changes accompanying adolescence, including the effect of these changes on emotional, intellectual, and social development.

**Prerequisite(s):** PSYC 100 or equivalent

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 317 - Cognitive Psychology**

Credits: 3  
Not Repeatable  
An in-depth overview of important topics in cognitive psychology, including memory, attention, pattern recognition, problem solving, reasoning, and psycholinguistics.

**Prerequisite(s):** 6 credits of psychology or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 320 - Psychological Tests and Measurements**
Credits: 4  
Not Repeatable  
Examination and application of principles underlying the theory, interpretation, and administration of psychological tests, including a study of tests of intelligence, achievement, and ability.

Prerequisite(s): PSYC 300, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 2

**PSYC 321 - Counseling Psychology**

Credits: 3  
Not Repeatable  
Review of the theories and methods in psychological counseling.

Prerequisite(s): PSYC 325 or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PSYC 322 - Behavior Modification**

Credits: 3-5  
Not Repeatable  
Examination of experimental principles of human and animal learning within theoretical framework of applied behavior analysis, including design, implementation, and evaluation of operant intervention programs across a wide variety of human situations.

Prerequisite(s): PSYC 324 or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PSYC 323 - Clinical and Social Psychology Research Techniques**

Credits: 4  
Not Repeatable  
Review and application of research techniques including interviewing, survey analysis, and process analysis. PSYC 323 is a writing-intensive course.

Prerequisite(s): PSYC 300, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 2
PSYC 324 - Personality Theory

Credits: 3
Not Repeatable
Introduction to classical and contemporary theories of personality, and comparative evaluation of major theories in terms of relevant studies.

Prerequisite(s): PSYC 100 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 325 - Abnormal Psychology

Credits: 3
Not Repeatable
Study of development of abnormal behavior patterns, including such topics as methods of diagnosis and prevention of serious mental disorders such as psychosomatic disorders, psychoses, character disorders, and mental retardation.

Prerequisite(s): PSYC 100, and one of PSYC 211, 231, or 324; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 326 - Therapeutic Communication Skills

Credits: 3
Not Repeatable
Introduction to understanding and use of basic therapeutic communication skills used in clinical and counseling psychology.

Prerequisite(s): PSYC 325 or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 327 - Psychology in the Community

Credits: 3
Repeatable within Degree
Individual placements in applied psychology settings.

Prerequisite(s): Psychology major with minimum 6 psychology credits, and permission of associate chair for undergraduate studies.

Notes: May be repeated for a maximum of 6 credits. A maximum of 6 credits of PSYC 327, 328, 421, and 422 can be applied to the psychology major.
PSYC 328 - Psychology in the Community Laboratory

Credits: 1
Repeatable within Degree
Consists of a one-hour service learning component linked to selected psychology courses.

Prerequisite(s): Psychology major with minimum 6 psychology credits and permission of course instructor and associate chair for undergraduate studies.

Corequisite(s): Enrollment in psychology course for which this is service learning component.

Notes: May be repeated for a maximum of 6 credits. A maximum of 6 credits of PSYC 327, 328, 421, and 422 can be applied to the psychology major.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

PSYC 330 - Psychology of Adjustment

Credits: 3
Not Repeatable
Explores the nature of adaptive and maladaptive patterns of human adjustment. Factors in personality development, unique motivational patterns of individuals, and the influence of families, communities, and culture on adjustment. Resources for personal growth, growth within intimate relationships and family systems, and application of contemporary psychological principles to promote intellectual, emotional, and social competence across the lifespan are discussed.

Prerequisite(s): PSYC 100 or permission of instructor.

Notes: PSYC 330 cannot be taken for credit by psychology majors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 333 - Industrial and Organizational Psychology

Credits: 3
Not Repeatable
Examination of application of psychological principles and methods to problems commonly encountered in business and industry.

Prerequisite(s): PSYC 100 and 300; or permission of instructor.
PSYC 335 - Psychology of Creativity and Innovation

Credits: 3
Not Repeatable
Creativity and innovation take place in many domains such as business, science, and the arts. Learn the distinction between creativity and innovation. Apply findings from the scientific literature about the antecedents of creativity and innovation including emotions, cognition, individual differences, and social contexts. Experiment with ways to enhance your creativity and skills for innovation.

Prerequisite(s): PSYC 100 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PSYC 340 - Human Factors Psychology

Credits: 3
Not Repeatable
Reviews history and current practice of optimal product and system design as a function of psychology. Includes a brief history of human factors psychology, a review of human memory and attentional systems as they relate to product and system design, and an introduction to current methods used to analyze and redesign products and systems for optimal human interaction.

Prerequisite(s): PSYC 100 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 350 - Directed Reading and Research in Psychology

Credits: 1-3
Repeatable within Term
Library research in psychology, culminating in a substantial formal paper; individualized sections by arrangement with faculty.

Prerequisite(s): PSYC 100 and 300, and permission of instructor and department.

Notes: No more than 6 credits in PSYC 260, 350, and 460 can be used toward psychology major.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

PSYC 362 - Psychology of Gender
Behavior and attitudes of women; influence of chromosomes and hormones on behavior, influence of culture on sex role differentiation, and theories of sex role development.

Prerequisite(s): PSYC 100 and BIOL 103, 104; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 372 - Physiological Psychology**

Credits: 3
Not Repeatable
Survey of neuroscience, including basic neuroanatomy, neural and synaptic transmission, neural mechanisms underlying normal and abnormal behavior, and biological mechanisms of drug action.

Fulfills Mason Core requirement in information technology (all except ethics). PSYC 300, 301 and 372 must be taken in sequence.

Prerequisite(s): PSYC 100, and BIOL 103 and 104; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 373 - Physiological Psychology Laboratory**

Credits: 1
Not Repeatable
Functional anatomy and physiology of the brain, including dissection of brain and eye, and a demonstration and practice in research methods for studying physiological mechanisms underlying behavior.

Prerequisite(s): PSYC 372 or 375 or permission of instructor
Corequisite(s): PSYC 372 or 375 or permission of instructor

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 2

**PSYC 375 - Brain and Sensory Processes**

Credits: 3
Not Repeatable
First half of comprehensive survey of neuroscience, including basic neuroanatomy, neural and synaptic transmission, neural mechanisms underlying normal and abnormal behavior, and biological mechanisms of drug action.

Prerequisite(s): PSYC 100 with a grade of C- or better, and BIOL 103, 104 or BIOL 213; or permission of instructor.
Notes: Students may earn credit for 372 and either 375 or 376, but they may not earn credit for all three.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 376 - Brain and Behavior

Credits: 3
Not Repeatable
Second half of a comprehensive survey of neuroscience, including neural mechanisms underlying normal and abnormal behavior.

Prerequisite(s): PSYC 375 or permission of instructor. Prerequisite enforced by registration system.

Notes: Students may earn credit for 372 and either 375 or 376, but they may not earn credit for all three.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 379 - Applied Cross-Cultural Psychology

Credits: 3
Not Repeatable
A review of important landmarks in cross-cultural research, showing how this research impacts psychology as a discipline. Emphasizes an empirical approach to cross-cultural study and includes topics such as theoretical and empirical developments in cross-cultural psychology, development of coherent schemas to guide cross-cultural research and interventions, comparison of psychology's goals and assumptions in Western and other cultures, and integration of course materials into educational and career goals of students.

Fulfills Mason Core requirement in global understanding.

Prerequisite(s): PSYC 100, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 399 - Professional Issues in the Social Sciences: From College to Career

Credits: 2
Not Repeatable
Emphasizes development and readiness for a profession in the social sciences through self-assessment and professional skill acquisition.

Prerequisite(s): At least 30 hours of completed college coursework and a declared major in the social sciences or permission of the instructor.
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PSYC 405 - Mystery, Madness, and Murder

Credits: 3
Not Repeatable
Multidisciplinary approach to taboo topics that fascinate and frighten us. Instructors from disciplines across the arts and sciences bring expertise and diverse perspectives to provocative issues such as cannibalism and serial murder. Students learn to think critically and objectively while examining use in myth, literature, and popular culture.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): PSYC 100 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PSYC 406 - Psychology of Communication

Credits: 3
Not Repeatable
An examination of the behavior of communicating across species and sensory modalities, with an emphasis on the evolutionary basis for the various communication strategies used by animals and humans.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): PSYC 100 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 414 - Behavior Disorders of Childhood

Credits: 3
Not Repeatable
Review of the theories, methods, and research dealing with emotional and behavioral disorders of children.

Prerequisite(s): PSYC 313 and 325, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 415 - Psychological Factors in Aging
Examination of the sensory, perceptual, intellectual, personality, health, and familial changes that occur as people age and adjust into their later years. Common and more serious adjustment difficulties and developments are discussed with attention to impacts on the individual and the family.

**Prerequisite(s):** PSYC 100 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**PSYC 417 - Science of Well Being**

Credits: 3
Not Repeatable
This course will examine and interpret the latest research in social, personality, and clinical psychology on well-being, character strengths, and personal growth. Emphasis will be placed on the ways in which scientists generate hypotheses regarding the nature of positive psychological traits and processes and the methods by which these ideas are tested.

**Prerequisite(s):** PSYC 100 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

**PSYC 418 - Death, Dying, and Grieving**

Credits: 3
Not Repeatable
Advanced survey of processes of grieving and their relationship to death and dying. Topics include ways of dying, effects of death on loved ones, and care for the terminally ill.

**Prerequisite(s):** PSYC 100 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**PSYC 419 - Synthesis in Psychology**

Credits: 3
Repeatable within Degree
Understand and relate broad psychological issues to society as a whole. Possible topics include mental health in society, the psychology of food and eating behavior, and animals and society. See schedule of classes for current topic(s).

**Prerequisite(s):** PSYC 100 or permission of instructor.

**Notes:** May be repeated for a maximum of 15 credits when topic is different.
PSYC 423 - Group Psychotherapy Techniques

Credits: 3  
Not Repeatable  
Review of theory and methods of group therapy with emphasis on humanistic and interpersonal approaches, including applications to family therapy, alcoholism, and drug abuse.

Prerequisite(s): PSYC 324 or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PSYC 427 - Community Engagement for Social Change

Credits: 3  
Not Repeatable  
Explores social problems and interpersonal, intrapersonal, and social aspects of addressing them. Addresses both theoretical aspects of social problems through readings and class discussion and application through community service.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): PSYC 100 or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PSYC 435 - Personnel Training and Development: A Psychological Perspective

Credits: 3  
Not Repeatable  
Overview and critique of training methods used in industry from viewpoint of psychological theory, including simulations, on-the-job training, supervisory/leadership skills training, computer-assisted instruction, and programmed texts. Principles of needs analysis, program development, and program evaluation are discussed within framework of industrial psychology.

Prerequisite(s): PSYC 333, PSYC 320, or permission of instructor.

Corequisite(s): PSYC 320 or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
PSYC 460 - Independent Study in Psychology

Credits: 1-4
Repeatable within Term
Advanced research methods in psychology in context of individual student projects or assisting with research on faculty projects; individual sections by arrangement with faculty.

Prerequisite(s): 18 credits of psychology including PSYC 301, with grade of C or better; 2.50 GPA in psychology; and written proposal approved before registration by instructor and department.

Notes: No more than 6 credits in PSYC 260, 350, and 460 can be used toward psychology major.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

PSYC 461 - Special Topics

Credits: 1-3
Repeatable within Term
Selected topics reflecting interest in specialized areas.

Prerequisite(s): See course description in Schedule of Classes.

Notes: Topic announced in advance. May be repeated for credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 465 - History and Systems in Psychology

Credits: 3
Not Repeatable
Historical background and major theoretical systems in modern psychology. Approaches include behaviorism, cognitive/information processing approaches, and psychodynamic theories.

Prerequisite(s): 18 credits in psychology including PSYC 317, or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 466 - Psychology of Intimate Relationships

Credits: 3
Not Repeatable
Advanced survey of theories and research related to intimate relationships, including romantic relations and those among family members and friends in diverse cultural and relationship contexts.
Prerequisite(s): PSYC 100 and 231; PSYC 324 recommended; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 467 - The Psychology of Working in Groups and Teams

Credits: 3
Not Repeatable
Teaches knowledge and the skills to meet communication, interpersonal, and task-related challenges that arise when functioning in work teams. Through readings, classroom activities, and applied problem-solving exercises, students acquire or refine team-related competencies. Students study theory of group and team processes while gaining insight from feedback on their behavior in exercises to become more effective team members.

Prerequisite(s): 60 credits including PSYC 100, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 472 - Current Topics in Brain and Behavior

Credits: 3
Repeatable within Term
Rotating topics. Physiological mechanisms underlying behavior. Selected topics include neuronal bases of learning and memory, Alzheimer's disease, and biological bases of addiction.

Prerequisite(s): PSYC 372 or 375 and 376; or permission of instructor.

Notes: May be repeated for a maximum of 6 credits with approval of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 490 - Psychology Honors I

Credits: 3
Not Repeatable
Review of topics and issues in psychology, including historical overview, theory and supporting data, and influences on behavior.

Prerequisite(s): Admission to Psychology Department honors status.

Notes: Topics vary. May not be repeated.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0
PSYC 491 - Psychology Honors II

Credits: 3
Not Repeatable
Introduces advanced statistics, research methodologies, statistics packages, computing and information technology, and library technology appropriate for psychological research and pedagogy.

Prerequisite(s): PSYC 300, 301, and 490.

Notes: Students required to complete proposal in preparation for admission to Psychology Honors III. May not be repeated.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 492 - Psychology Honors III

Credits: 3
Not Repeatable
Completion of final honors project or thesis. Students must complete project or thesis, and present oral defense to committee and poster to class. Students also expected to prepare proposal to present project or thesis at regional or national conference, or prepare manuscript for publication in appropriate journal.

Prerequisite(s): PSYC 491, and approval of proposal for final honors project or thesis.

Notes: May not be repeated.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 499 - Senior Thesis

Credits: 3
Not Repeatable
Directed research on topic agreed on by student and advisor.

Prerequisite(s): Psychology major with 90 credits, experimental psychology lab course, 3.00 GPA in psychology, PSYC 460, permission of instructor, and prior approval of thesis proposal.

Notes: Students should take PSYC 460 with same advisor to develop thesis proposal before registering for PSYC 499. Students must complete thesis and defend it orally before advisor and two faculty members. With permission of department, students may take a second semester for maximum 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PSYC 506 - Theories of Personality

Credits: 3
Not Repeatable
Comparative review of prevalent theories of personality with special emphasis on fundamental models, and similarities and differences.

Prerequisite(s): PSYC 324 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 518 - Death, Dying, and Grieving

Credits: 3
Not Repeatable
Advanced survey of processes of grieving and their relationship to death and dying. Topics include ways of dying, effects of death on loved ones, and care for the terminally ill.

Prerequisite(s): PSYC 100

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 527 - Introduction to Neurobiology

Credits: 2
Not Repeatable
Introduction to neurobiology with overview of embryological development of nervous system in evolutionary context. Introduces regional and systems neuroanatomy by studying mammalian visual system with comparative perspective.

Prerequisite(s): PSYC 372 or PSYC 375 and 376, or BIOL 213 and 303.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PSYC 530 - Cognitive Engineering: Cognitive Science Applied to Human Factors

Credits: 3
Not Repeatable
Application of cognitive theory to understand and predict interactions among human cognition, artifact, and task. Discusses recent research and case studies that emphasize empirical research, analytical modeling techniques, systems design, and development of tools and methods.

Prerequisite(s): Experimental lab course, or permission of instructor.
PSYC 531 - Mammalian Neurobiology

Credits: 3
Not Repeatable
Functional anatomy of brains of mammals, with emphasis on regional and systems neuroanatomy of humans. Anatomy correlated with material from clinical neurology where possible. Laboratory component includes brain dissections and clinical correlations.

Prerequisite(s): PSYC 527.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 3

PSYC 541 - Survey Research

Credits: 3
Not Repeatable
Introduces theory, method, and practice of survey research; students complete survey research project.

Prerequisite(s): PSYC 300, SOCI 221, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 552 - Histology/Histochemistry of the Brain

Credits: 5
Not Repeatable
Explores conceptual basics and provides hands-on experience in techniques for studying brain tissue, including stereotaxic surgery, perfusion, sectioning, Nissl and myelin stains, enzyme histochemistry, immunohistochemistry, in situ hybridization, and quantitative receptor autoradiography.

Prerequisite(s): PSYC 372 or equivalent.

Hours of Lecture or Seminar per week: 5

PSYC 555 - Neuroimaging

Credits: 3
Not Repeatable
Covers functional magnetic resonance imaging (fMRI) methods, experimental design and analysis issues in fMRI, structural MRI techniques and how they can contribute to cognitive neuroscience, and event-related potential methods.
**Prerequisite(s):** Graduate enrollment in either Cognitive & Behavioral Neuroscience or Human Factors & Applied Cognition programs, or instructor approval.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall.

---

**PSYC 556 - Chemistry and the Brain**

Credits: 3  
Not Repeatable  
Fundamentals of general chemistry, atoms, molecules, and reactions, with emphasis on water solutions. Organic compounds and functional groups, biosynthesis and properties, and examples from nervous system. Also includes biopolymers and their roles in cellular and neuronal organization, ionic channels, neurotransmitter receptors, and psychoactive substances.

**Prerequisite(s):** PSYC 372 or 375 and 376; or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 557 - Psychometric Methods**

Credits: 3  
Not Repeatable  
Examines concepts of psychological measurement with emphasis on predictor test and criterion development. Discusses reliability, validity, and specialized techniques to develop tests of ability, interest, and personality.

**Prerequisite(s):** PSYC 611 and 612, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 558 - Neuronal Bases of Learning and Memory**

Credits: 3  
Not Repeatable  
Examines neuronal mechanisms involved in learning and memory, in animals ranging from invertebrates to humans.

**Prerequisite(s):** PSYC 372 or 375 and 376; or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 559 - Behavioral Chemistry**
Credits: 3
Not Repeatable
Neurochemistry and neuroendocrinology, including neurotransmitter synthesis, genetic aspects of neural functioning, mechanisms of action of neurotransmitters and second messenger systems, regulation of neuroendocrine systems, neuroendocrine effects on behavior, and neuroimmunology.

Prerequisite(s): PSYC 372 or 375 and 376; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 561 - Behavioral Biology of Substance Abuse

Credits: 3
Not Repeatable
Overview of biological effects of substance abuse, and biological mechanisms underlying addiction. Topics include alcohol, cocaine, marijuana, and other drugs; genetics of addiction; and neural systems underlying addiction and withdrawal.

Prerequisite(s): PSYC 372 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 562 - Research Methods in Human Experimental Psychology

Credits: 3
Not Repeatable
Hands-on approach to selected current and/or classical human experimental psychology research methods. Course topics include experimental design, including psychophysical and physiological experimentation. In addition, mathematical, cognitive modeling and simulation, as well as advanced statistical techniques will be covered.

Prerequisite(s): Graduate enrollment in either Cognitive and Behavioral Neuroscience or Human Factors and Applied Cognition programs.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 563 - Laboratory Methods in Behavioral Neuroscience

Credits: 3
Not Repeatable
Laboratory work, to be completed in groups, will include surgical, histological and behavioral techniques. Proper use and handling of animals, ethical issues, evaluation of neuroscience literature, experimental design and data analysis are addressed in lecture. This course requires working with laboratory rodents.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 3
PSYC 566 - Cognitive and Perceptual Development

Credits: 3
Not Repeatable
Survey of theory and the research on development of perception, memory, concepts, problem solving, intelligence, and academic skills in children.

Prerequisite(s): 6 credits of child psychology and course in experimental psychology or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 592 - Special Topics

Credits: 1-6
Repeatable within Term
Special topics reflecting interests in specialized areas.

Notes: Topic announced in advance. May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 597 - Directed Reading and Research

Credits: 1-6
Repeatable within Term
Independent reading or research on topic agreed on by student and faculty member.

Prerequisite(s): Permission of instructor.

Notes: Directed reading or research for MA students in psychology. May be repeated within the same term or a different term for a maximum of 6 credits.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

PSYC 611 - Advanced Statistics

Credits: 4
Not Repeatable
Test must be passed to take course. Open only to degree students. Integrates basic psychological statistics with overview of
research methodology including experimental, quasi-experimental, field approaches, and measurement issues from advanced perspective. Lab work includes using computer packages for data handling and analyses.

**Prerequisite(s):** Screening test given on first evening of class

**Notes:** Students must enroll in 611 and 612 in sequential semesters.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 2  
**Grading:** Graduate Special

---

**PSYC 612 - Advanced Statistics**

Credits: 4  
Not Repeatable

Open only to degree students. Integrates basic psychological statistics with overview of research methodology including experimental, quasi-experimental, field approaches, and measurement issues from advanced perspective. Lab work includes use of computer packages for data handling and analyses.

**Prerequisite(s):** Grade of A or B in PSYC 611.

**Notes:** Students must enroll in 611 and 612 in sequential semesters.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 2

---

**PSYC 614 - The Psychology of Aging**

Credits: 3  
Not Repeatable

Review of the experimental literature in psychology of aging, including intellectual functioning, personality and adjustment, minor and major adjustment problems, and role changes in later life.

**Prerequisite(s):** PSYC 100 and undergraduate or graduate course in aging.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 615 - Language Development**

Credits: 3  
Not Repeatable

Seminar covering theory and research on acquisition of language, including biological and environmental influences and constraints; research methods; role of parents; individual and cultural differences; links between language and other domains of development including cognitive, behavioral, social, and emotional; language and the brain; animal language; bilingualism; and atypical language development.
PSYC 617 - Child Psychopathology

Credits: 3
Not Repeatable
Intensive survey of major types of psychopathological disturbances of infancy and childhood.

Prerequisite(s): PSYC 313 or 211, and 325.

PSYC 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy

Credits: 3
Not Repeatable
Focuses on basic principles and procedures of applied behavior analysis; identification of factors that contribute to behavioral problems and improved performance; and procedures that can be used to minimize behavioral problems, improve performance, teach new behaviors, and increase probability of behaviors occurring under appropriate circumstances.

PSYC 621 - Applied Behavior Analysis: Empirical Bases

Credits: 3
Not Repeatable
Focuses on basic content of applied behavior analysis, and teaches how to implement behavioral procedures and develop behavioral programs for clients with fundamental behavioral needs.

PSYC 623 - Applied Behavior Analysis: Assessments and Interventions

Credits: 3
Not Repeatable
Further expands on basic content of applied behavior analysis, and teaches how to implement behavioral procedures and develop behavioral programs for clients with fundamental behavioral needs.
Prerequisite(s): PSYC 619 and 621, or EDSE 619 and 621.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 624 - Applied Behavior Analysis: Applications

Credits: 3
Not Repeatable
Expands capability to deal with more complex behavioral situations, enabling ability to relate to more sophisticated professional issues and environments.

Prerequisite(s): PSYC 619 and 621, or EDSE 619 and 621.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 630 - Developmental Disabilities

Credits: 3
Not Repeatable
Lectures, seminars discuss state-of-the-art and evidence-based information about developmental disabilities across life span with emphasis on mental retardation. Includes epidemiology, etiology, diagnoses, risk factors, treatment, supports, and prevention of developmental disabilities. Pertinent philosophical, ethical, and legal issues concerning this special-needs population will be discussed.

Prerequisite(s): 3 credits of graduate developmental psychology courses, or permission of instructor

Notes: In addition to course work and assigned reading, students sign up for a 20-hour per semester practicum.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

PSYC 631 - Industrial and Personnel Testing and Evaluation

Credits: 3
Not Repeatable
Study of administration, scoring, and interpretation of standard tests used by industry for selection and assessment of personnel.

Prerequisite(s): PSYC 300 and 320.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 633 - Evaluative Research in Psychology
PSYC 636 - Survey of Industrial Psychology

Credits: 3
Not Repeatable
Intensive survey of historical and current issues in major areas of applied (nonclinical) psychology.

Prerequisite(s): PSYC 300 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 638 - Training: Psychological Contributions to Theory, Design, and Evaluation

Credits: 3
Not Repeatable
Focuses on applying learning principles derived from psychological research in development of training models and techniques of skill acquisition. Discusses research designs and empirical results appropriate to training evaluation.

Prerequisite(s): PSYC 636, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 639 - Survey of Organizational Processes

Credits: 3
Not Repeatable
Trains at conceptual/theoretical and empirical levels in organizational processes. Includes individual, interpersonal, intra-group, and intergroup phenomena as they exist in context of organizational settings.

Prerequisite(s): PSYC 333 or 632.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PSYC 640 - Techniques in Industrial/Organizational Psychology

Credits: 3  
Not Repeatable  
Skills-oriented course enabling students to construct instruments and perform functions critical to both researchers and practitioners in industrial/organizational psychology. Focuses on conducting job analysis interviews, developing and scoring task inventories, using critical incident and KSAO methods, and constructing performance appraisal and selection instruments.

Prerequisite(s): PSYC 300, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

---

PSYC 644 - Methods for Social Research

Credits: 3  
Not Repeatable  
Examines issues in basic and applied social science methodology including internal validity, causal generalization, and construct validity.

Prerequisite(s): Permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

---

PSYC 645 - Research Methods in Human Factors and Applied Cognition

Credits: 3  
Not Repeatable  
Hands-on approach to selected current or classical human factors/applied cognition research methods; exact methods announced in advance. Potential methods include cognitive task analysis, usability evaluation methods, critical incident analysis, reliability analysis, workload measures, verbal protocol analysis, and engineering models of human performance.

Prerequisite(s): PSYC 530 and 611.

Notes: May be repeated for credit.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

---

PSYC 646 - Issues and Methods in Longitudinal Developmental Research

Credits: 3  
Not Repeatable  
Examines techniques for measuring developmental change across lifespan.
**Prerequisite(s):** PSYC 611 and 612, and 6 credits of graduate developmental psychology.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 648 - Developmental Psychopathology**

Credits: 3  
Not Repeatable  
In-depth look at emerging discipline of developmental psychopathology. Discusses specific disorders and contexts to illustrate how knowledge of normal development, deviant development, and maladaptive behavior illuminates principles underlying adaptive functioning.

**Prerequisite(s):** 6 credits of graduate developmental psychology.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 652 - Quantitative Methods II: Analysis of Variance**

Credits: 3  
Not Repeatable  
Basic concepts in experimental design, fundamental assumptions in analysis of variance, and analysis of variance and covariance designs. Reviews multiple comparison tests.

**Prerequisite(s):** PSYC 300 and either 304, 305, or 309.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 654 - Naturalistic Methods in Psychology**

Credits: 3  
Not Repeatable  
Theory and techniques involved in studying people in their natural environment. Primary emphasis on quasiexperimental designs and methods of systematic observation.

**Prerequisite(s):** PSYC 300 and either 304, 305, or 309.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 667 - Behavior in Small Groups and Teams**
Credits: 3  
Not Repeatable  
Theories, methods, and topics relevant to individual behavior in small group setting. Includes effects of individual on group, 
effects of group on individual, and interaction effects among individuals.

Prerequisite(s): PSYC 231.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PSYC 668 - Personality: Theoretical and Empirical Approaches**

Credits: 3  
Not Repeatable  
Presents comprehensive overview of current theoretical and empirical approaches to personality. Emphasizes areas of special 
relevance to clinical, developmental, and industrial/organizational psychology.

Prerequisite(s): PSYC 324, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PSYC 669 - Social and Emotional Development**

Credits: 3  
Not Repeatable  
Surveys theory and research relevant to development of social relationships, emotional expressiveness and regulation, aggressive 
and altruistic behaviors, sex roles, and morality. Emphasizes influences on such development, including parents, other adults, 
peers, siblings, and broader culture.

Prerequisite(s): 6 credits of developmental psychology, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PSYC 671 - Role and Function of the School Psychologist**

Credits: 3  
Not Repeatable  
Considers roles, functions of school psychologist in educational environment, including certification and ethical standards, issues, 
and trends.

Notes: Open only to school psychology MA students, or by permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
PSYC 673 - Prevention, Intervention, and Consultation in Schools

Credits: 4
Not Repeatable
Examines theory and practice of behavior modification and consultation in school environment.

Notes: Open to practicing school psychologists and students in school psychology, or by permission of instructor.

Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

PSYC 685 - Cognitive Neuroscience

Credits: 3
Not Repeatable
Provides an overview of the neural basis of human mental functions. Uses neuroimaging (PET, fMRI, ERPs, TMS, etc.), computational, and information-processing methods to examine functions such as attention, memory, language, emotion, and decision making.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 701 - Cognitive Bases of Behavior

Credits: 3
Not Repeatable
Surveys concepts in learning, cognitive, and affective processes, including theories and supporting data and their influences on behavior.

Prerequisite(s): Admission to graduate program in psychology.

Notes: Open only to degree students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 702 - Biological Bases of Human Behavior

Credits: 3
Not Repeatable
Surveys biological bases of behavior, including such topics as neural conduction, role of specific neurotransmitters, cortical functioning, and brain disorders.

Notes: Open only to degree students.
PSYC 703 - Social Bases of Behavior

Credits: 3
Not Repeatable
Surveys social influences on behavior, including group processes, person perception, and attitude formation.

Prerequisite(s): Admission to graduate program in psychology.

Notes: Open only to degree students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 704 - Life-Span Development

Credits: 3
Not Repeatable
Surveys theories and research regarding lifespan development and personality formation.

Prerequisite(s): Admission to graduate program in psychology.

Notes: Open only to degree students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 705 - Historical and Philosophical Issues in Psychology

Credits: 3
Not Repeatable
Important historical and systematic approaches to psychology and their relationship to the philosophy of science, structure of theory, and philosophical issues in psychology.

Prerequisite(s): Admission to graduate program in psychology.

Notes: Open only to degree students.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 709 - The Measurement of Intelligence
Administration, scoring, and interpretation of major infant, child, and adult intelligence tests, with emphasis on individual tests. Development of IQ tests, theories of intelligence, and current trends and developments in intellectual assessment.

**Prerequisite(s):** PSYC 617 or 822 and PSYC 320 or equivalent; permission of department. Coreq: PSYC 611.

**Corequisite(s):** PSYC 611.

**Notes:** Open only to school psychology MA student.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 2

---

**PSYC 710 - Psychological Assessment**

Credits: 4  
Not Repeatable  
Study of major instruments used in clinical assessment and nature, problems, and predictive value; administration and scoring of major techniques for evaluation of personality; and principles of interpretation of these procedures.

**Prerequisite(s):** PSYC 617, 709, 822, or 810; and permission of director of School Psychology Program.

**Notes:** Open only to school psychology MA students.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 2

---

**PSYC 722 - Advanced Child Assessment**

Credits: 4  
Not Repeatable  
Problems involved in diagnostic assessment of children with various handicapping conditions such as learning disabilities, retardation, and emotional disturbances.

**Prerequisite(s):** PSYC 709 and 710 or PSYC 810 and 811, five intellectual assessments at psychological clinic, and permission of department

**Notes:** Open only to school psychology MA or PhD students.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 2

---

**PSYC 730 - Practicum in Applied Psychology**

Credits: 1-6  
Repeatable within Degree
Practical experience in organizational setting as assigned.

**Prerequisite(s):** Admission to graduate program in psychology and permission of department.

**Notes:** PhD students may repeat course for a maximum of 15 credits; MA students for a maximum 6 credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

### PSYC 733 - Issues in Personnel Psychology

**Credits:** 3  
**Not Repeatable**  
Examines psychological literature on job analysis, job evaluation and compensation, performance appraisal, training, and EEOL selection issues. Methodological and psychometric issues in interpretation and evaluation of personnel psychology research receive particular attention.

**Prerequisite(s):** PSYC 636 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PSYC 734 - Seminar in Human Factors and Applied Cognition

**Credits:** 3  
**Repeatable within Term**  
Emphasizes current research and application of human factors, ergonomics, applied cognition, and applied perception.

**Prerequisite(s):** 6 graduate credits in human factors and applied cognition, or permission of instructor.

**Notes:** May be repeated for a maximum of 9 credits when topic is different.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PSYC 737 - Psychology of Human-Technology Interaction

**Credits:** 3  
**Repeatable within Term**  
Emphasizes current research and development in human-computer interaction, cognitive systems engineering, cognitive ergonomics, and cognitive engineering.

**Prerequisite(s):** 6 graduate credits in human factors and applied cognition or permission of instructor.

**Notes:** May be repeated for a maximum of 9 credits when topic is different.
PSYC 739 - Seminar in Industrial/Organizational Psychology

Credits: 3
Repeatable within Degree
Rotating topics such as leadership theories and management development, and performance appraisal.

Prerequisite(s): PSYC 333 and 636, or permission of instructor.

Notes: Topics announced in advance. May be repeated for a maximum of 12 credits when topic is different.

PSYC 741 - Psychology of Work Motivation

Credits: 3
Not Repeatable
Examines psychological literature of need, cognitive, and reinforcement theories of motivation; organizational attachment (commitment, absenteeism, and turnover); job design and quality of work issues. Emphasizes methodological and psychometric issues in interpreting and evaluating work-motivation research.

Prerequisite(s): PSYC 333 or permission of instructor

PSYC 750 - School Psychology Practicum I

Credits: 1
Not Repeatable
Practical experience in school psychology.

Prerequisite(s): Admission to school psychology concentration and PSYC 709.

Notes: Open only to school psychology MA students.

PSYC 751 - School Psychology Assessment Practicum II
Credits: 2
Repeatable within Degree
Practical experience in school psychology.

Prerequisite(s): PSYC 750.

Notes: Open only to School Psychology MA students. Apply in writing for permission of department 60 days prior to beginning of semester. May be repeated for a maximum of 4 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques

Credits: 3
Not Repeatable
Reviews psychological applications of regression techniques in variety of contexts including experimental, field, and survey settings.

Prerequisite(s): PSYC 611 and 612.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 756 - Quantitative Methods IV: Multivariate Techniques in Psychology

Credits: 3
Not Repeatable
Surveys multivariate statistical techniques as applied to psychological research. Emphasizes analysis of complex designs and interpretation of multivariate data analyses resulting from computer processing.

Prerequisite(s): PSYC 611 and 612, or equivalent; PSYC 755 recommended.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 757 - Advanced Topics in Statistical Analysis

Credits: 3
Repeatable within Degree
Focuses on noncognitive individual differences that predict performance. Published work discussed in seminar format with emphasis on conceptual development, methodological adequacy, and new directions.

Prerequisite(s): PSYC 754.

Notes: May be repeated for credit when topic is different.
PSYC 759 - Applied Decision Making

Credits: 3
Not Repeatable
Covers "basic applied" decision-making research. First half of course reviews basic psychological research on judgment and decision making; second half applies research to various practical problems. Overarching goal is to understand how basic decision-making literature can better inform applied research and practice.

Prerequisite(s): PSYC 611/612

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 768 - Advanced Topics in Cognitive Science

Credits: 3
Repeatable within Term
Emphasizes current research in cognitive science. Topics may include computational cognitive models, nature of expertise, diagrammatic reasoning, display-based problem solving, visual attention, decision making, goal-based versus event-based cognition, and situated action.

Prerequisite(s): PSYC 530 or 701.

Notes: May be repeated for a maximum of 12 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 780 - Applied Developmental Psychology

Credits: 3
Not Repeatable
Examines how developmental theory, knowledge base, and methodology can be used to promote health and welfare of individuals across lifespan. Topics include contemporary social issues and child development, research in applied settings, developmental assessment and intervention, and program evaluation.

Prerequisite(s): PSYC 704 or 3 credits of other graduate developmental psychology courses and permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PSYC 786 - Assessment and Treatment in Gerontology

Credits: 3  
Not Repeatable  
Functional assessment of older adults including conceptual and methodological problems involved. Examines intervention strategies with older adults, including interviewing, group work with older persons, milieu therapy, reality therapy, and design of supportive environments.

Prerequisite(s): Course in the psychology of aging, PSYC 320 and 423, or equivalent courses.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PSYC 790 - School Psychology Internship

Credits: 3-6  
Repeatable within Degree  
Supervised field experience of one school year. Advanced school psychology student functions as full-time staff member in school system. Student completes paper on practical research project involving alternative school psychology role in school system.

Prerequisite(s): Completion of required courses in school psychology and permission of program coordinator.

Notes: Enrollment is for total 9 credits (thesis option) or 12 credits (nonthesis option) in increments of 3 credits according to placement. Students enrolled in PSYC 799 are not required to complete the practical research project.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Graduate Special

PSYC 792 - Psychology Practicum

Credits: 1-6  
Repeatable within Degree  
Supervised experience working in applied, school, or agency settings.

Prerequisite(s): Admission to psychology graduate program.

Notes: For School Psychology, interested students must apply to area coordinator 60 days before registration. May be repeated for a maximum of 6 credits.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0  
Grading: S/NC

PSYC 794 - Developmental Assessment
Introduces considerations and methods needed for evaluating young children (ages two - six). Focus on the skills necessary for formulating, conducting, and reporting comprehensive developmental evaluations. Emphasizes evaluation of preschool children and includes information relating to infants, as well as older children functioning at lower developmental levels.

**Prerequisite(s):** Admission to applied developmental psychology program.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0

### PSYC 798 - Thesis Proposal

Credits: 1-6  
Repeatable within Degree  
Work on a proposal for master's thesis.

**Prerequisite(s):** Permission of program coordinator.

**Notes:** May not be repeated for credit.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** S/NC

### PSYC 799 - Master's Thesis

Credits: 1-6  
Repeatable within Degree  
Research on approved master's thesis topic under direction of thesis committee with approval of chair.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** S/NC

### PSYC 810 - Psychological Assessment I

Credits: 4  
Not Repeatable  
First of required two-course sequence that provides comprehensive coverage of principles, strategies, and techniques of psychological assessment. Emphasizes empirically supported methods.

**Notes:** Open to clinical psychology PhD students, or other students with permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 2
PSYC 811 - Psychological Assessment II

Credits: 4
Not Repeatable
Second of required two-course sequence that provides comprehensive coverage of principles, strategies, and techniques of psychological assessment. Emphasizes empirically supported methods.

Notes: Open to clinical psychology PhD students, or other students with permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 816 - Neuropsychological Assessment

Credits: 3
Not Repeatable
Nature of brain behavior relationships in adults and children. Concentrates on major assessment techniques including Luria Nebraska, Halstead-Reitan, and Michigan Neuropsychological batteries.

Prerequisite(s): PSYC 702, 810, and 811; or 709 and 710

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 822 - Scientific Foundations of Clinical Psychology I

Credits: 3
Not Repeatable
First of required two-course sequence that provides comprehensive coverage of major psychological problems, including review of empirically supported interventions.

Notes: Open to clinical psychology PhD students, or other students with permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 823 - Scientific Foundations of Clinical Psychology II

Credits: 3
Not Repeatable
Second of required two-course sequence that provides comprehensive coverage of major psychological problems, including review of empirically supported interventions.

Notes: Open only to clinical psychology PhD students.
PSYC 830 - History, Systems, and Theories of Personality and Psychotherapy

Credits: 3
Not Repeatable
Review of history, systems, and theories of clinical psychology emphasizing traditional theories of personality and psychotherapy.

Prerequisite(s): Admission to doctoral concentration in clinical psychology.

Notes: Open to clinical psychology PhD students, or other students with permission of instructor.

PSYC 831 - Social-Cognitive Interventions in Clinical Psychology

Credits: 3
Not Repeatable
Survey of procedures for altering emotional distress and behavioral dysfunction within the conceptual framework of social cognitive theory and cognitive behavioral therapy.

Notes: Open only to clinical psychology PhD students.

PSYC 832 - Group, Marital, and Family Psychotherapy

Credits: 3
Not Repeatable
Introduces major models of group, marital, and family functioning as well as current approaches to group, marital, and family psychotherapy.

Prerequisite(s): PSYC 822, 823, and 830.

Notes: Open only to clinical psychology PhD students.

PSYC 833 - Social And Cognitive Foundations Of Clinical Psychology
Review of theory and research in social psychology (particularly social cognition) relevant to understanding psychological adjustment, adjustment problems, and clinical interventions.

Notes: Open to clinical psychology PhD students, or other students with permission of instructor.

PSYC 840 - Community Psychology I

Credits: 3
Not Repeatable
First of required two-course sequence. Comprehensive coverage of history, concepts, and practice of community-clinical psychology, including community mental health theory, consultation, prevention, program planning and evaluation, and human services management.

PSYC 841 - Community Psychology II

Credits: 3
Not Repeatable
Second of required two-course sequence. Comprehensive coverage of history, concepts, and practice of community-clinical psychology, including community mental health theory, consultation, prevention, program planning and evaluation, and human services management. Includes implementation of consultation project.

PSYC 850 - Teaching Practicum in Psychology

Credits: 1
Not Repeatable
Workshop in effective teaching of selected undergraduate psychology courses. Required of and designed to guide graduate teaching assistants assigned to teach undergraduate course (not a lab) for first time. Topics include course planning, syllabus development, lecture resources, effective lecturing skills, use of audio visuals, leading of classroom discussion, construction and grading of exams, student writing, instructional technology, and handling of student questions and problems. Individual critiques of teaching.

Corequisite(s): Teaching assignment in an undergraduate psychology course.
PSYC 860 - Introductory Helping Skills and Motivational Interviewing

Credits: 3
Not Repeatable
Teaches fundamental interviewing skills and the theory, research, and practice of motivational interviewing.

Prerequisite(s): Permission of instructor.

PSYC 861 - Cognitive Behavioral Therapy for Youth

Credits: 3
Repeatable within Degree
Teaches the selection, evaluation, and application of empirically supported interventions for children and adolescents with a focus on cognitive-behavioral interventions. Instruction in evidence based assessments, cognitive-behavioral case conceptualization, outcome evaluation, and consultation. Supervision of cognitive-behavioral therapy with youth.

Prerequisite(s): Permission of instructor.

Notes: May be repeated for a maximum of 6 credits.

PSYC 862 - Cognitive Behavioral Therapy for Adults

Credits: 3
Repeatable within Degree
Teaches the principles of cognitive-behavioral theory, conceptualization and psychotherapy techniques for psychological problems with adults. Supervision of cognitive-behavioral therapy with adults.

Notes: May be repeated for a maximum of 6 credits.
Supervised clinical work in a professional psychological services setting. Usually includes practice in psychological assessment and clinical interventions, but can also include supervision, consultation, and program evaluation.

**Prerequisite(s):** Admission to doctoral concentration in clinical psychology and permission of director.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

### PSYC 883 - Ethical and Professional Issues in Clinical Practice

Credits: 3  
Not Repeatable  
Examines ethical principles and professional guidelines to help develop ethical decision-making and behavior to meet the appropriate standards of care in providing clinical services.

**Notes:** Open to clinical psychology PhD students, or other students with permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### PSYC 885 - Clinical Externship

Credits: 0  
Repeatable within Degree  
Individual placements in psychological assessment or psychotherapy service settings.

**Notes:** Open only to clinical psychology PhD students in the third year or more of training.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

### PSYC 888 - Clinical Supervision: Theory, Research, and Practice

Credits: 3  
Not Repeatable  
Introduces students to theory, research, and practice of clinical supervision, with an emphasis on supervision of psychotherapy. Focuses on selecting effective supervision strategies, establishing and maintaining a positive supervisory relationship, and applying supervisory practices in accordance with current research and standards. Includes didactic and applied components.

**Prerequisite(s):** 6 credits of PSYC 881.
**PSYC 890 - Seminar in Professional Psychology**

Credits: 1-3  
Repeatable within Term  
Each section limited to students in one concentration of MA or PhD program. See area coordinator for requirements for section in each track.

**Prerequisite(s):** Graduate student in psychology.

**Notes:** May be repeated for a maximum of 3 credits.

**PSYC 892 - Special Topics in Psychology**

Credits: 1-6  
Repeatable within Term  
Selected topics reflecting specialized areas in psychology.

**Notes:** Open only to PhD students. Content varies. May be repeated for a maximum of 17 credits when topic is different.

**PSYC 897 - Directed Reading and Research**

Credits: 1-3  
Repeatable within Term  
Independent reading on topic agreed on by student and faculty member.

**Notes:** PhD students in the clinical psychology concentration may not take this course for elective credit. May be repeated for credit. May not be repeated for credit towards a degree by students who also register for PSYC 799.

**PSYC 998 - Doctoral Dissertation Proposal**
Credits: 1-6
Repeatable within Degree
Work on research proposal that forms basis for doctoral dissertation.

Notes: May be repeated. No more than 24 credits of PSYC 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: S/NC

PSYC 999 - Doctoral Dissertation

Credits: 1-9
Repeatable within Degree
Research on approved dissertation topic under direction of dissertation committee.

Prerequisite(s): PSYC 998

Notes: May be repeated. Students must complete a minimum of 3 credits of 999. No more than 12 credits of PSYC 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: S/NC

Public Administration (PUAD)

Offered by the School of Policy, Government, and International Affairs.

PUAD 502 - Administration in Public and Nonprofit Organizations

Credits: 3
Not Repeatable
Graduate introduction to field of public administration. Focuses on structure, functions, and processes of executive branch agencies of national, state, and local governments. Emphasizes nonprofit organizations as co-actors with government in policy-making/policy implementation nexus.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 504 - Managing in the International Arena: Theory and Practice

Credits: 3
Not Repeatable
Theoretical and empirical examination of international system that both affects and is affected by decisions, behaviors, and
subsystems of state and nonstate (organizational) actors.

**PUAD 505 - Introduction to Management of Nonprofits**

Credits: 3  
Not Repeatable  
Examines nonprofit organizations and their role in contemporary society. Explores unique aspects of nonprofits including voluntary governance, tax-exempt status, nonprofit corporation law, accounting practices, fund raising, finance, and management of volunteers. Emphasizes board/executive relationship, and value of establishing and maintaining nonprofit organization's reputation.

**PUAD 509 - Justice Organizations and Processes**

Credits: 3  
Not Repeatable  
Examines structures, practices, and performance of organizations involved in administration of justice (law enforcement, courts and legal agencies, corrections, regulatory and related agencies, private organizations) Explores applicability of various theoretical perspectives on organizational processes, and considers extent to which processes operate as a system. Focuses on comparing formal goals and system expectations to actual practice.

**PUAD 511 - Problem Solving and Data Analysis I**

Credits: 3  
Not Repeatable  
Techniques, skills for public managers to solve policy-related problems or analyze policy-related data. Focuses on problem definition, research design, and problem solving under conditions of uncertainty in public sector.

Equivalent to GOVT 511; PUAD 611 (2011-2012 Catalog)

**Prerequisite(s):** Passing grade on screening exam.

**PUAD 520 - Organization Theory and Management Behavior**
Credits: 3  
Not Repeatable  
Considers behavior in context of public organization, and consequent changes required in management. Focuses on such issues as perception, attitude formation, motivation, leadership, systems theory, communication and information flow, conflict theory, and decision theory.

Equivalent to PUAD 620 (2011-2012 Catalog)

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PUAD 540 - Public Policy Process**

Credits: 3  
Not Repeatable  
Processes of making public policy, including detection of public issues, consideration of alternatives, and adoption and implementation of solutions. Highlights major actors in policy process, and environment within which they work.

Equivalent to PUAD 640 (2011-2012 Catalog)

**Prerequisite(s):** PUAD 502.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PUAD 612 - Problem Solving and Data Analysis II**

Credits: 3  
Not Repeatable  
Techniques and skills for public managers to solve policy-related problems or analyze policy-related data. Focuses on data gathering and analysis, use of computers, systems theory and analysis, and operations research.

**Prerequisite(s):** PUAD 511.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PUAD 613 - Economic Analysis in Public Administration**

Credits: 3  
Not Repeatable  
Covers major economic issues about role of markets and government in global world. Applies fundamental economic concepts such as cost benefit analysis to public sector.

**Prerequisite(s):** PUAD 511.
PUAD 615 - Administrative Law

Credits: 3  
Not Repeatable  
Covers law as guiding and controlling force in public-sector operations. Includes application of legal processes to administrative practices and situations, and administrative determination of private rights and obligations.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUAD 621 - Principles and Practices in Government Organization and Management

Credits: 3  
Not Repeatable  
Major management theories applicable to American federal system. Emphasizes organization, structure, and operations. Explores relationship of theories to management practices in contemporary American administration.

Prerequisite(s): PUAD 520.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUAD 622 - Program Planning and Implementation

Credits: 3  
Not Repeatable  
Practical exploration of implementing public law in American federal system. Studies construction of organizational apparatus, development of operational plans, and systems of control and evaluation necessary to implement government programs. Emphasizes coordinating tasks and resources required for effective program implementation.

Prerequisite(s): PUAD 520.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUAD 623 - Managing Government Contracting

Credits: 3  
Not Repeatable  
Explores unique management and administrative challenges of providing public goods and services through contracts. Examines debates over privatization, and explores tools managers need to address unique accountability challenges associated with this
governance tool.

**PUAD 624 - Public and Private Partnerships**

Credits: 3  
Not Repeatable  
Emphasizes entrepreneurial efforts where governments, nonprofit organizations and private companies establish goals and combine resources and talents. Issues of efficiency, accountability, and democratic responsiveness will be examined. Various tools for promoting and implementing such partnerships will be explored.

**PUAD 625 - Higher Education Law**

Credits: 3  
Not Repeatable  
Analyzes legal issues confronting higher education: governance, faculty matters, and student issues. Examples include due process, freedom of speech, and privacy. Reviews key constituents in higher education—students, faculty, administrators, board of trustees, and parents—and how their roles are changing.

**PUAD 626 - Consulting Management**

Credits: 3  
Not Repeatable  
Explores the consulting industry, changes in the industry and future expectations of consulting as a career. Examines different sectors of consulting such as HR, IT, Operations, Marketing, Succession Planning, Organizational Consulting, Knowledge management, Non-profit and health care and government consulting.

**PUAD 630 - Emergency Planning and Preparedness**

Credits: 3  
Not Repeatable  
Provides an understanding of the issues associated in developing plans and policies to prepare for disasters, both natural and man made. Overview of nature of challenges posed by different kinds of disasters; discussion of regulatory requirements, sample
plans, equipment requirements, collateral and mutual aid support agreements, and methods for testing and updating plans.

**PUAD 631 - Disaster Response Operations and Recovery**

Credits: 3  
Not Repeatable  
Explores the principles and practices that promote effective disaster response operations and management. Examines nature of disasters, models for response operations in the United States and roles and responsibilities of various emergency management-related organizations.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 632 - Terrorism: Theory and Practice**

Credits: 3  
Not Repeatable  
Introduces students to the subject of terrorism including the history and evolution of terrorism, case studies of key terrorist groups, the current nature of the terrorist threat, and counterterrorism strategies.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 633 - Hazard Mitigation Policy**

Credits: 3  
Not Repeatable  
Examines the complex interplay and policy approaches to hazard prevention and protection of known hazards in terms of land use, zoning, infrastructure, and building code management. Focuses on understanding the relative roles of proactive policy design and implementation at the federal, state, and local levels of government.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 634 - Management of International Security**

Credits: 3  
Not Repeatable  
Examines theory and practice of managing international security. Emphasizes interplay of organizational structure and bureaucratic dynamics in international context. Presents theory and practice of crisis management, and coordination and comparison of security methods and techniques.
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 635 - Emergency Preparedness: Interagency Communication and Coordination

Credits: 3
Not Repeatable
Considers complex relationships within governments and across sectors and levels of government for effective emergency management in planning, response, recovery, and mitigation phases. Explores intergovernmental management and network management theories and research to understand the nature of interorganizational problems and potential models for collaboration.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 636 - The NGO: Policy and Management

Credits: 3
Not Repeatable
Explores unique aspects of nonprofit organizations operating in international environments, particularly in relief and development work. Examines relationship between NGO and U.S. and foreign governments. Covers international philanthropy; cross-cultural understanding; and key managerial concerns such as communications, planning, human resource management, control, group process, and project evaluation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 637 - Managing Homeland Security

Credits: 3
Not Repeatable
Focuses on the Department of Homeland Security and will cover the statutory law that provides the foundation for the department, the resources appropriated to the department, the determination of strategy and priorities, the development of operational capacity, and other challenges associated with top-level (secretarial) management of the department and its principal bureaus.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 642 - Environmental Policy

Credits: 3
Not Repeatable
In-depth examination of environmental policy making. Examines U.S. efforts from 1970 to present to mitigate pollution of nation's air, land, and water; and addresses issues of global concern including biodiversity loss, ozone depletion, and climate change.
Designated a Green Leaf Course.

**PUAD 644 - Public Policy Models**

Credits: 3  
Not Repeatable  
Approaches to modeling policy problems. Includes analysis and comparison of dominant paradigms in policy sciences. Reviews assumptions and implications of different models and their utility for analysis, implementation, and evaluation.

**Prerequisite(s):** PUAD 540.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 645 - Policy Analysis**

Credits: 3  
Not Repeatable  
Introduces concepts and techniques for formal policy analysis, development of skills in applying policy analysis techniques through case studies, and exploring legitimacy and utility of policy analysis.

Equivalent to PUAD 741 (2011-2012 Catalog)

**Prerequisite(s):** PUAD 502, PUAD 511, PUAD 540.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 646 - Program Evaluation**

Credits: 3  
Not Repeatable  
Practical exploration of assessment techniques used in studying results of public programs and policies, including evaluation of implementation strategies and impacts.

Equivalent to PUAD 742 (2011-2012 Catalog)

**Prerequisite(s):** PUAD 502, PUAD 511.
PUAD 649 - Advocacy and Lobbying

Credits: 3
Not Repeatable
Explores how nonprofit organizations advocate and lobby for social change. Considers the different steps in the advocacy process and the broad range of strategies used by non profits seeking to influence public policy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 651 - Virginia Politics, Policy, and Administration

Credits: 3
Not Repeatable
Cultural, demographic, constitutional, and socioeconomic environment of public administration in Virginia. Covers governmental agencies, legislative functions, executive leadership, staff agencies, state-local relationships, intrastate regionalism, administrative customs peculiar to Virginia.

Prerequisite(s): PUAD 502.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 652 - Nonprofit Leadership and Change

Credits: 3
Not Repeatable
Examines the principles of leadership and the process of change within the context of the nonprofit sector and its role in the community. Looks at current changes and challenges within the nonprofit sector and their effect on the sector and society as a whole.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 654 - The Community, Marketing, and Public Relations

Credits: 3
Not Repeatable
Focuses on marketing concepts and communications issues of nonprofit organization as they apply to identifying market, ability to formulate public image and reputation, and capability to raise money and retain membership or volunteers.
Prerequisite(s): PUAD 502 or 505.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUAD 655 - Philanthropy and Fund Raising**

Credits: 3
Not Repeatable
Examines history of philanthropy and relationship to nonprofit, government, and commercial sectors in United States. Studies principles of financial development including governance, development of organizational capacity, and identification of funding sources and donor motivations. Provides understanding of fund raising techniques that generate financial support for nonprofits, and context in which these methods may be used.

Prerequisite(s): PUAD 502 or 505

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUAD 657 - Association Management**

Credits: 3
Not Repeatable
Practical application of management theory in context of professional and trade associations. Covers legal structures, tax-exempt status, and general organizational structure. Topics include volunteer management, budgeting and accounting practices in associations, fund raising, media relations, media and event planning, and human resource management.

Prerequisite(s): PUAD 502 or 505

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUAD 658 - Social Entrepreneurship and Nonprofit Enterprise**

Credits: 3
Not Repeatable
Explores innovative approaches for addressing social problems. Organized around the steps in the entrepreneurial process: identifying social needs, formulating program strategies, mobilizing resources, managing growth tracking results, and maximizing impact.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUAD 659 - Nonprofit Law, Governance, and Ethics**
Overview of nonprofit governance as well as basic contract, labor, and tax law issues within nonprofit corporation law. Covers relationship between board and executive, and ethics topics typical to nonprofit organizations such as self-dealing, fiduciary responsibility, and human resource issues.

**PUAD 660 - Public and Nonprofit Accounting and Finance**

Credits: 3  
Not Repeatable  
Studies fundamental normative debates in public and nonprofit financial management arena with focus on resulting implementation principles and techniques in governmental accounting, financial reporting, budget and revenue decisions, debt management, cash and investment management, pensions and employee benefits, and risk management.

**Prerequisite(s):** Course open only to admitted MPA or association/nonprofit management certificate students

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 661 - Public Budgeting Systems**

Credits: 3  
Not Repeatable  
Survey focusing on policy and theoretical framework of revenue and expenditure choices at all levels of government. Topics include development, theories, structure of budgeting; political, economic, and managerial aspects of public budgeting; public policy implications; and budgetary reform movements and successes and failures.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 662 - National Budgeting**

Credits: 3  
Not Repeatable  
Examines formulation of overall national fiscal policy and budgetary priorities through presidential and congressional budget processes, including decisions over spending and revenues.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 663 - State and Local Budgeting**
Introduces state and local government budgeting including principal actors and institutions inside and outside state and local governments that play role in budget development, appropriation, implementation, and auditing.

**PUAD 664 - Nonprofit Financial Management**

Credits: 3  
Not Repeatable  
Covers nonprofit financial management with attention to conflicts between social mission and financial entrepreneurship. Topics include mission, budgeting, fund raising, commercial programs, investments, accounting and information systems, financial reporting, auditing, and internal control.

**Prerequisite(s):** Admission to MPA, certificate in association management, or certificate in nonprofit management.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 670 - Human Resources Management in the Public Sector**

Credits: 3  
Not Repeatable  
Overview of range and complexity of functions, responsibilities, and expectations of human resource staff and line managers in public sector. Focuses on human resources management in context of political, legal, and managerial systems. Human resource functions, such as hiring, performance, and development, are also presented.

**Prerequisite(s):** PUAD 502.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 671 - Public Employee Labor Relations**

Credits: 3  
Not Repeatable  
Public employee labor relations, including unionization, representational elections, bilateral policy negotiations, administration of agreements, management rights, union and membership security, strike issue and grievance procedures, impact on public administration, and assessment of future developments.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
PUAD 672 - Human Resources Reforms for Public Administration

Credits: 3  
Not Repeatable  
Explores recent reforms in human resources management in federal, state, and local governments. Covers pay for performance systems, flexible assignment patterns, incentives for productivity, work-life balance, job design, and changes resulting from higher levels of contracting for government programs.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUAD 679 - Leadership Skills for the 21st Century

Credits: 3  
Not Repeatable  
The class is premised on the belief that an individual's leadership capabilities can be enhanced by better understanding and practicing day-to-day leadership skills which can be used in the workplace. The academic literature on leadership will also be discussed.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUAD 680 - Managing Information Resources

Credits: 3  
Not Repeatable  
Examines how managerial and analytical functions in public organizations can be performed via end-user computer applications. Provides in-depth coverage of selected database and decision support packages, and gives attention to logic and integration of application software.

Prerequisite(s): Admission to MPA program, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUAD 691 - Justice Program Planning and Implementation

Credits: 3  
Not Repeatable  
Covers development and construction of organizational systems to implement government policies and programs. Emphasizes dealing with real-world challenges, constraints, and opportunities to create feasible plans, performance-monitoring systems, and secure multiple agency coordination. Applications of planning and implementation principles to actual projects in justice agencies.

Prerequisite(s): PUAD 502 and 509.
PUAD 700 - Ethics and Public Administration

Credits: 3  
Not Repeatable  
Topics of ethical dimensions including constitutionalism, democratic values and traditions, standards of conduct and ethics, and conflicting values of public officials and social equity of public programs.

Prerequisite(s): PUAD 502, PUAD 511, PUAD 520, and PUAD 540. Prerequisite enforced by registration system.

PUAD 701 - Cross-Cultural and Ethical Dimensions of International Management

Credits: 3  
Not Repeatable  
To be taken in final two semesters of MPA program. Examines normative issues in management of programs in international context. Emphasizes interplay of cultural, sociopolitical, legal, and ethical factors, and management and policy problems arising from conflicting goals, values, and inequities among nations and regions.

PUAD 703 - Third-Party Governance

Credits: 3  
Not Repeatable  
Examines design and management of government programs relying on other levels of government and private sector for delivery, with focus on such governmental tools as contracts, grants, loans, regulation, and tax credits.

Prerequisite(s): PUAD 502, PUAD 511, PUAD 520, and PUAD 540. Prerequisite enforced by registration system.

PUAD 720 - Performance Measurement

Credits: 3  
Not Repeatable  
Methods used by managers to systematically assess performance. Includes practical tools such as focus groups, survey research, cost/benefit analysis, benchmarking, and comparison methods for revealing outcomes and impacts. Prepares managers to use
information more effectively in developing programs and services and formulating policy, and covers reporting techniques to communicate performance results.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 727 - Seminar in Risk Assessment and Decision Making**

Credits: 3  
Not Repeatable  
Examines decision making under risk and uncertainty. Readings introduce major intellectual perspectives on topic and are drawn from variety of disciplines, including biology, economics, law, and psychology. Emphasizes making actual decisions under uncertainty.

**Prerequisite(s):** 12 graduate credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 729 - Issues in Public Management**

Credits: 3  
Repeatable within Term  
Current issues in management of public organizations in contemporary American government. Includes practical applications of theories and analysis to managerial problems. Emphasizes competence in improving management in selected government settings.

**Prerequisite(s):** PUAD 502, and 9 graduate credits.

**Notes:** May be repeated for credit when topic is different.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0

**PUAD 730 - Professional Development Workshop**

Credits: 1-3  
Repeatable within Term  
Explores external and internal factors reshaping public and nonprofit organizations. Investigates processes and techniques that managers and staff can use to respond to rapid environmental change. Emphasizes case studies and application of techniques and processes.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0
PUAD 731 - Homeland/Transportation Security Administration

Credits: 3
Not Repeatable
Examines the terrorist attacks of 9/11, the vulnerabilities of the aviation security system at that time, reasons why elected leaders and officials did not act more decisively to improve security before 9/11, and the policy and administration responses to the 9/11 attacks, including the creation of the Transportation Security Administration and the Department of Homeland Security. Includes the development of radical Islam and the rise of Osama bin Laden and Al Qaeda.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 738 - Issues in International Security

Credits: 3
Repeatable within Term
Examines issues of topical interest in general area of international security. Possible topics include nuclear strategy, disarmament, American defense policy, and international terrorism.

Prerequisite(s): PUAD 504 and 9 graduate credits.

Notes: May be repeated for credit when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 739 - Issues in International Management

Credits: 3
Repeatable within Term
Examines significant current issues in public international management. Emphasizes practical applications of theories and analysis of problems in public international management arena, and competence in improving management practices in international management settings.

Prerequisite(s): PUAD 502, and 9 graduate credits.

Notes: May be repeated for credit when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 749 - Issues in Public Policy

Credits: 3
Repeatable within Term
Examines significant issues in public policy in contemporary American government. Emphasizes practical applications of
theories and analysis to policy problems, and competence in improving policy analysis in selected government settings.

**Prerequisite(s):** PUAD 502, and 9 graduate credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PUAD 750 - Federalism and Intergovernmental Relations**

Credits: 3  
Not Repeatable  
Examines broad trends in governance, including theory and practice of federalism, with particular focus on intergovernmental relations and changing roles of federal, state, and local governments. May include privatization, devolution, mandating, regulatory reform, and comprehensive federalism reform.

**Prerequisite(s):** PUAD 502 and 9 graduate credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PUAD 758 - Environmental Politics**

Credits: 3  
Not Repeatable  
Evolution and current state of environmental policy making. Includes history, strengths, and weaknesses of key U.S. environmental laws and central international environmental agreements. Introduces analytical approaches, including cost-benefit and risk analysis. Discusses economic incentives and normative considerations.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PUAD 759 - Issues in Local Government Administration**

Credits: 3  
Repeatable within Term  
Management and policy formulation in American local governments. Addresses environments, institutions, and actors involved. Examines contemporary problems such as education, criminal justice, transportation, land use, economic development, and environmental impact.

**Prerequisite(s):** PUAD 502 and 9 graduate credits.

**Notes:** May be repeated with different topic.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
PUAD 769 - Issues in Public Financial Management

Credits: 3
Repeatable within Term
Current issues in budgeting and financial management in contemporary American government. Emphasizes practical applications of administration and management issues and policy choices at all levels of government.

Prerequisite(s): PUAD 502, and 9 graduate credits.

Notes: May be repeated for credit when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 781 - Information Management: Technology and Policy

Credits: 3
Not Repeatable
Examines challenges that organizations encounter as they move to a more technologically sophisticated information and communication environment. Studies organizational policy issues evolving from new technologies, including privacy, security, authentication, content control, intellectual property, and taxation, focusing on effectiveness of previous policy solutions and analyzing proposed solutions.

Prerequisite(s): PUAD 680, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 790 - Justice Organization and Administration

Credits: 3
Not Repeatable
Examines organization and administration of justice and security organizations. Covers organization theory and behavior as applied to justice and security organizations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 791 - Justice Program Evaluation

Credits: 3
Not Repeatable
Practical exploration of assessment techniques used to study need for and consequences of justice programs and policies. Covers needs assessments, process, and impact evaluations. Includes design and measurement issues for assessing performance of justice programs, and interpreting and presenting results. Emphasizes designing program evaluation for justice agency.
Prerequisite(s): PUAD 511 and 612.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 792 - Advanced Seminar in Applied Public Administration Research

Credits: 3
Not Repeatable
An applied research experience. Students will apply skills in problem definition, issue framing, collection of data and information, interviewing, selection and analysis of alternatives, presentation of findings and recommendations, design of implementation tools and administrative procedures and organizations, report writing and oral presentation to policymakers.

Prerequisite(s): 30 PUAD credits and permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 793 - Conduct of Justice Organizations at the Street Level

Credits: 3
Not Repeatable
Explores how justice organizations behave at lowest levels, where service is delivered and discretion is greatest. Includes suspects, victims, witnesses, police officers, prison guards, parole officers, attorneys, and others who interact with the justice system.

Prerequisite(s): CRIM 740/GOVT 790, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 794 - Internship

Credits: 3
Repeatable within Term
Open only to MPA students. Contact internship coordinator one semester before enrollment. Credit determined by the department.

Prerequisite(s): 12 PUAD credits or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/NoCredit.

PUAD 795 - Leadership in Justice and Security Organizations
Examines leadership theories, and explores fundamental questions about leadership in justice and security organizations today.

**Prerequisite(s):** CRIM 740/PUAD 790, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 796 - Directed Readings and Research**

Credits: 1-3  
Repeatable within Term  
Reading and research on specific topic under direction of faculty member. Written report is required; oral exam covering research and report may be required.

**Prerequisite(s):** 18 PUAD credits and permission of instructor.

**Notes:** May be repeated once.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 797 - Changing Justice and Security Organizations**

Credits: 3  
Not Repeatable  
Examines challenges of changing justice organizations, how changes have been successfully and unsuccessfully implemented in the past, and what change strategies appear to be most effective.

**Prerequisite(s):** CRIM 740/PUAD 790 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 821 - Doctoral Seminar in Theories of Organization and Bureaucracy**

Credits: 3  
Not Repeatable  
Examines key issues in organization theory and behavior. Issues include organization design; interorganizational coordination, intelligence and decision-making systems; leadership and motivation theories; and theories or organizations as agents of political and social change. Uses case studies.

**Prerequisite(s):** PUAD 520 or equivalent, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
PUAD 840 - Research Seminar in Policy Governance I

Credits: 2-4
Not Repeatable
Surveys major institutions that formulate and implement public policy in United States. Examines translation of public preferences into public policy, and decisions about which societal and economic functions are most appropriately carried out by governments, and which are best accomplished by private institutions and individuals.

Equivalent to PUBP 840

Prerequisite(s): Admission to doctoral program or permission of instructor.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUAD 841 - Research Seminar in Policy Governance II

Credits: 2-4
Not Repeatable
Second of two-semester sequence (PUAD 840, 841) in governance and public management policy concentration. Focuses on division of responsibilities among several levels of government, and between public and private sectors. Explores impact of these divisions on development of public policy in several policy areas, such as urban governance, environmental policy, and health care.

Equivalent to PUBP 841

Prerequisite(s): Admission to doctoral program.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

Public Policy (PUBP)

Offered by the School of Policy, Government, and International Affairs.

PUBP 500 - Theory and Practice in Public Policy

Credits: 3
Not Repeatable
Theories of public policy emphasizing historical intellectual development, and role theory and ethics may play in public policy making. Assumptions made by policy professionals examined against broad range of philosophical, social, political, and economic imperatives affecting public policy environment.

Hours of Lecture or Seminar per week: 3
PUBP 501 - Policy and Organizational Analysis

Credits: 4
Not Repeatable
Prepares students to engage in systematic analysis, both qualitative and quantitative, and constitutes the basis for advanced analytical techniques. Emphasis on research design, information acquisition, application of data analysis techniques, and presentation, including writing for professional and lay audiences.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 502 - Governance and Policy Processes

Credits: 1-4
Not Repeatable
Assesses governance processes in public and private organizational settings on the basis of economic and political standards such as efficiency, accountability, and responsiveness to societal needs in a rapidly changing global environment. Using cases, simulations, and fieldwork, students learn to evaluate the quality of institutional governance in specific venues and appraise implications for public policy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 503 - Culture, Organization, and Technology

Credits: 1-4
Not Repeatable
Focuses on the influence of culture in societal, political, economic, and technological processes, nationally and internationally. Culture is seen as dynamic and interactional. Using case studies, students learn pertinent approaches to the study of culture, from the analysis of organization and social networks to that of belief systems and identities. Students also develop practical skills in observation, participation, and intervention.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 511 - Statistical Methods in Policy Analysis

Credits: 3
Not Repeatable
Introduces students to the range of quantitative methods used for public policy analysis. Provides a broad foundation to prepare students for doing statistical analysis on the master's level.
PUBP 533 - Topics in Public Policy Processes

Credits: 1-3
Repeatable within Term
Focuses on selected topics in public policy processes and procedures on an introductory level.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 550 - Topics in Public Policy

Credits: 1-3
Repeatable within Term
Focuses on selected topics in public policy not covered in fixed-content public policy courses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 555 - Economics Math Workshop

Credits: 0
Repeatable within Degree
Short course covering math and calculus skills required for master's level managerial economics course PUBP720.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Not Gradable

PUBP 556 - Writing Workshop

Credits: 0
Repeatable within Term
A limited enrollment, noncredit, one-day workshop designed for master-level public policy students who want to improve their writing skills. Aimed at good writers who want to move to the next level of effectiveness. Taught by professional writers.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Not Gradable
PUBP 570 - Policy Writing Fundamentals

Credits: 3
Not Repeatable
Designed for entering students whose writing skills and style must satisfy the demands of a rigorous graduate program; aims to give students the ability and confidence to write clearly and concisely for a variety of policy audiences; reviews basic rules and develops essential techniques for effective writing in graduate school and beyond.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 601 - Theory and Practice of Regional Economic Development

Credits: 3
Not Repeatable
Helps students develop real-world skills to be a successful economic developer, consultant, policymaker, or change agent in this rapidly changing environment. Designed to provide a framework for understanding regional and national economic growth and prosperity, and provide tools to conduct concrete analyses to help decision makers, clients, and constituents make better-informed decisions.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 602 - Regional Economic Development: Strategies and Applications

Credits: 3
Not Repeatable
Introduces range of methods for tracking the performance of metropolitan economies, identifying opportunities for economic development, and assessing effectiveness of public and private investments designed to achieve region's economic growth. Also examines strategies and case results of economic development plans and projects.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 605 - State and Local Government Policy and Economic Development

Credits: 3
Not Repeatable
Examines state and local government policies and processes to promote local economic development, including institutional arrangements, financing and tax incentives, nonfinancial strategies and approaches, land use, environmental and other relevant regulations, and relationships across government and nongovernmental organizations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUBP 610 - Organizations, Management, and Work: Theory and Practice

Credits: 2
Not Repeatable
This introduction to organizations, management, and work examines ideas and practices from two perspectives: conventional ones that go back to the industrial age and scientific management; and contemporary ones that have to do with organizing knowledge-work. Covers contributions of a range of writers and deals with foundations of OD from the standpoint of both theory and practice.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PUBP 611 - Critical Infrastructure Protection in Theory, Policy and Practice

Credits: 2
Not Repeatable
Introduces critical infrastructure protection as a policy field, examines its institutional framework, and considers its foundations in political and economic theory.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PUBP 650 - Peace Operations I

Credits: 3
Not Repeatable
First course of two-semester sequence on international peace operations. Focuses on emerging theory of peace operations, including peacemaking activities of United Nations and other diplomatic initiatives; peace-building activities of international organizations and nongovernmental organizations; and peace support provided by international militaries.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 651 - Peace Operations II

Credits: 3
Not Repeatable
Second course of two-semester sequence on international peace operations. Focuses on application of emerging theory of peace operations, including peace-making activities of United Nations and other diplomatic initiatives; peace-building activities of international organizations and nongovernmental organizations; and peace support provided by international militaries. Several guest lectures from past and present peace operations provide practical information for future staff of peace operations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUBP 652 - Experiential Applications

Credits: 4
Not Repeatable
This course concentrates on the institutional mindsets, characteristics, and behaviors of the actors involved in peace operations. Readings, role-plays, and research underpin the class. Special attention is also paid to developing students' graduate-level research and writing skills.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 653 - The Interagency Process

Credits: 3
Not Repeatable
Examines the U.S. Interagency process as it relates to peace operations. Various departments and agencies maintaining equities in overseas missions will be identified and explored. Case studies highlight instances of success or failure in application of a "whole-of-government" approach to intervention. Examines significant problems hampering Interagency cooperation today and recent policy directives, frameworks, and initiatives developed to address this situation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 654 - Analysis for Peace Operations

Credits: 3
Not Repeatable
Examines theories of human behavior and social systems as they relate to conflict at the interpersonal, community, and international level. The class provides a foundation of academic thinking about the role of conflict in violent and peaceful social change. At the end of the course, students should be able to think systematically and critically about conflict, and engage in practical application of conflict analysis techniques to peace operations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 655 - State- and Institution-Building

Credits: 4
Not Repeatable
Ending prolonged civil conflicts often necessitates building stronger state institutions as well as addressing broader social, economic, and political issues affecting particular places and peoples. This course examines the literatures on state formation and
state building from a historic, regional, and functional perspective paying special attention to polities exiting civil conflicts.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**PUBP 680 - Topics: Advanced Skills for Policy Professionals**

Credits: 1-3  
Repeatable within Term  
Practical seminar focusing on development of advanced qualitative and quantitative skills for the professional policy world.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**PUBP 700 - Theory and Practice in Public Policy**

Credits: 1-4  
Not Repeatable  
Theories of public policy emphasizing historical intellectual development, and role theory and ethics may play in public policy making. Assumptions made by policy professionals examined against broad range of philosophical, social, political, and economic imperatives affecting public policy environment.

**Hours of Lecture or Seminar per week:** 1-4  
**Hours of Lab or Studio per week:** 0

**PUBP 702 - Comparing Political Institutions**

Credits: 3  
Not Repeatable  
Examines political institutions and processes from comparative and international perspectives, and role of political environment in economic trade and investment policy decisions. Examines how generalizability, objective knowledge and understanding, and nature of evidence impact public policy.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 704 - Statistical Methods in Policy Analysis**

Credits: 3  
Not Repeatable  
Graduate-level introduction to statistical methods and techniques used in policy sciences. Topics include descriptive statistics, sampling and probability theory, graphical data display, estimation and significance testing, contingency tables, bivariate
regression and correlation, and multiple regression, with introduction to computer based statistical analysis.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 705 - Advanced Statistical Methods in Policy Analysis**

Credits: 3
Not Repeatable
Covers classical regression methods and their application to public policy analysis. Includes simple and multiple regression, analysis of variance, time series, and simultaneous equation structural models. Problems associated with applications include specification error, multicollinearity, qualitative variables, heteroskedasticity, serial correlation, and structural identification. Course develops analysis skills by discussing sample empirical studies and models using advance statistical computer software.

Prerequisite(s): PUBP 704 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Credits: 3
Not Repeatable
Studies analytical concepts and techniques used in public-sector overall budgetary and specific project decision making. Includes conceptual concerns and quantitative techniques used in benefit-cost analysis, capital budgeting, financial analysis, and various specialty applications, such as economic and fiscal impact analysis. These are all interrelated by the desire to measure the benefits versus the costs of various alternative public decisions. Attention is given to measuring results over time and the use of present value techniques. Assesses strengths and weaknesses of analytical techniques. Emphasizes the process of defining the appropriate stakeholders affected by decisions, the sources and quality of data, and the rigor of conducting studies.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 709 - Professional Writing for Policy**

Credits: 3
Not Repeatable
Professional Writing teaches effective writing for the professions. The course includes the fundamentals of writing -- grammar, word usage and paragraphing -- and instruction in selected genres, including news stories, editorials, and research writing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUBP 710 - Topics in Public Policy

Credits: 1-3
Repeatable within Term
Focuses on selected topics in public policy not covered by fixed-content public policy courses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 712 - Policy Systems Analysis and Management Science

Credits: 3
Not Repeatable
Introduces analytical models and analysis to support decisions. Primary emphasis on understanding techniques of operation research and management science, cost benefits, and cost effectiveness for public decision making. Using mathematical details of algorithms to solve models not emphasized except as it contributes to understanding reliability and validity of methodologies. Through case studies and computer solutions, offers appreciation of when, where, and how to use models. Students demonstrate their understanding of techniques by applying them to term research project on government program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 713 - Policy and Program Evaluation

Credits: 3
Not Repeatable
Examines how programs of public agencies are proposed, established, operated, and evaluated. Covers role of research in program evaluation process, including alternative methodologies for policy assessment. Considers demand estimation, supply and pricing of publicly produced goods and services, and role of subsidies in nonmarket environments.

Prerequisite(s): PUBP 704 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 714 - Topics in Transportation Policy, Operations, and Logistics

Credits: 1-3
Repeatable within Term
Issues in transportation policy, operations and logistics in United States and abroad. Includes practical applications of theories and analysis to policy problems, and emphasizes competence in improving policy in selected domains. May be taken up to three times and simultaneously for sections addressing different subject matter.
PUBP 715 - Introduction to Transportation Systems

Credits: 3
Not Repeatable
Transportation is a service that contributes substantially to well-being of advanced economies. Resource requirements and byproducts of transportation also pose sobering environmental challenges for society. Course examines history and development of transportation systems; contribution to and impact on society; institutions and practices that govern planning, design, construction, operation, maintenance, and retirement from service; and policy and managerial challenges, and tools and techniques for addressing them.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 716 - Transportation Operations and Logistics

Credits: 3
Not Repeatable
Provides survey of issues, methods, problems, and strategies. Topics include origins of logistics, industry structure, pricing, underwriting, rate making, compliance, inventory effects, just-in-time inventory management (JIT), materials requirements planning (MRP), customer service and order processing operations, sales functions and operations, dispatch and fleet manager functions and operations, rate-setting among three parties, typical electronic and paper document flow, routing and scheduling, route selection, satellite load tracking through dispatch-customer web inquiry, role of ITS in route selection, toll system use, congestion, training activities, and logistics markets.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 717 - Analysis for Transportation Managers

Credits: 4
Not Repeatable
Introduces basic methods of transportation analysis and evaluation relating them to policy framework. Covers descriptive statistics, hypothesis testing, contingency tables (Chi-Square analysis), regression, optimization, demand elasticities, and gravity model. Also covers sources of transportation data and research design. Teaches mathematical base and logic of each technique, but primary emphasis is applying methods to relevant policy and management problems. Students required to complete series of assignments along with research proposal focused on applying one or more methods to problem of their own interest.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 718 - Transportation Planning and Policy
Credits: 3  
Not Repeatable  
Introduces highway, rail, air, and water transport planning in United States. Teaches legislative, organizational, fiscal, legal and political environment within which planning for transportation facilities and services takes place. Introduce technical and analytical methods for transportation planning. Focus is largely on public sector, but also considers commercial transport planning and role of private sector in helping to design, manage, and finance transport systems.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 719 - Transportation Law**

Credits: 3  
Not Repeatable  
Examines legal environment of transportation. Topics include basic legal concepts and institutions, history and evolution of price and service regulation, environmental law and regulation, labor relations, and property.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 720 - Managerial Economics and Policy Analysis**

Credits: 3  
Not Repeatable  
Introduces microeconomics theory and its application in analyzing public policy issues. Provides capability to understand economic literature and theories.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 721 - Transportation Economics**

Credits: 3  
Not Repeatable  
Provides basis for understanding economics of transport system, and how transportation relates to urban and regional development. Treats transport generically, but includes case studies of specific modes.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 722 - Practicum in Transportation Policy, Operations, and Logistics**

Credits: 3  
Not Repeatable
In-depth field study of ongoing transportation policy, operations, or logistics situations; and design and delivery of actions to manage or resolve problems and opportunities. Range of application areas depends on interests of student body and opportunities faculty identify for "clients" or real-world projects. Illustrative domain areas include surface transportation (highways and transit), airports, and aviation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 723 - Metropolitan Transportation Policy

Credits: 3
Not Repeatable
Recent changes in federal legislation have led to renewed importance for transportation policy and planning. Considerations of clean air, economic development, congestion management, and changing urban form have greatly increased importance of well-planned transportation facilities and policies. Course introduces basic methods of transportation policy analysis and evaluation. Topics include data collection, simplified demand estimation techniques, transportation choice modeling, transportation supply analysis, and ex-ante and ex-post evaluation methods.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 726 - Telecommunications Policy

Credits: 3
Not Repeatable
Examines salient issues associated with telecommunications and electronic commerce in context of public policy questions facing decision makers in government, education, and business. Examples include privacy, electronic signatures, digital divide, bandwidth auctions, IP telephony, CRM, Bluetooth, and Internet taxation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 730 - US Institutions and the Policy Process

Credits: 3
Not Repeatable
Explores the United States constitutional system of government, including the principal governmental and non-governmental institutions shaping American public policy. Investigates the national policy making process and the interplay between politics and policy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 731 - Macroeconomic Policy Assessment
Credits: 3
Not Repeatable
Covers monetary theory, theories of consumption and saving, budget deficits, economic growth, international finance, and monetary and fiscal policy. Investigates national income and product accounts, savings, employment, and investment, and alternatives to Keynesian principles. Evaluates theories of inflation, investment, capital accumulation, and nonproportional growth.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 732 - Labor Markets and Policies**

Credits: 3
Not Repeatable
Analysis of labor market issues and policies, including those affecting employment, wages, working conditions, and unemployment -- issues central to current policy debates on job creation, inequality, discrimination, immigration, education, and social programs.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**PUBP 733 - Urban Politics and Policy**

Credits: 3
Not Repeatable
This course explores the factors that guide and affect urban politics and policy including, but not limited to, housing, public education, criminal justice, employment, and economic development. It is designed to provide students with an introduction to the major theories and some of the significant research in urban politics and policy. The primary focus will be on large American cities.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 734 - Administrative Law and Public Policy**

Credits: 3
Not Repeatable
Covers administrative discretion, rule-making and agency proceedings, public participation, political accountability, regulatory processes, oversight, formal adjudication and informal action, lobbying agency administrators, and political and legal nature of the administrative process.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUBP 735 - Lobbying and Interest Representation

Credits: 3
Not Repeatable
To work effectively within a democratic political environment, policy analyst must understand contemporary methods used to influence policy. Course focuses on roles and techniques of organized influence, and its impact on policy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 736 - International Migration and Public Policy

Credits: 3
Not Repeatable
Examines demographic, economic, political, and social forces driving international migration on a global basis in the twenty-first century. Considers policy responses within sending and receiving countries and at the global level, including the role of international cooperation and institution-building.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 737 - Cases and Concepts in E-Government

Credits: 3
Not Repeatable
Electronic government has become a significant public policy issue worldwide. It offers the prospect of dramatic improvements in delivering government services, but also portends major debate about government intrusion. Course covers emerging public policy issues associated with electronic government: job displacement in public sector, privacy, procurement and supply chain management, voter profiling, scope of government services, challenges to "digital democracy," Internet-based voting, land management, the "digital divide," and others.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 738 - Ethics and the Use of Force

Credits: 3
Not Repeatable
Explores the relationship between weapons and warfare and the ethical issues raised by the use of force, both in past conflicts and in a current and future context. Examines the relationship between emerging technology enabled weapons and the just war tradition. Studies relevant theories of war and selected international laws and conventions governing war and weapons.

PUBP 739 - Media and Public Policy
Explodes complex relationship between media and public policy. Examines how these forces collide in our modern media, how coverage decisions regarding public policy are made in newsrooms, how advocates use and rely on the media to advance message, and how different media reflect different strengths and vulnerabilities.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PUBP 740 - U.S. Foreign Policy: Formulation and Practice

Credits: 3  
Not Repeatable  
Focuses on policy formulation and policy implementation. The principal arenas of foreign policy are explored, including the White House, the State Department, the defense and intelligence communities, and the Congressional committees. These arenas are both affected by and influential upon the exogenous systems, such as the media, public opinion, interest groups, foreign governments, and international organizations.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

### PUBP 741 - U.S. Financial Policy Processes and Procedures

Credits: 3  
Not Repeatable  
Examines design and operation of expenditure and revenue systems at federal, state, and local levels of U.S. government. Stresses mobilizing and allocating resources through planning, adoption, and execution of budget. Includes theory and policy objectives of tax and spending regimes and review of financial controls, performance measurement, cash and debt management, and accounting and financial reporting systems.

**Prerequisite(s):** PUBP 720

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PUBP 742 - Transportation Safety and Security

Credits: 3  
Not Repeatable  
Examines transportation safety and security from multimodal perspective for both passenger and freight. Topics include historical context and policy framework, regulation, institutional issues, new security arrangements for preventing organized terrorist attacks, infrastructure design, vehicle design, operating protocols, and information systems.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
PUBP 743 - National Security Management and Policy

Credits: 3
Not Repeatable
Examines hierarchies in national security from the president to military establishment, including National Security Council, secretary of defense, joint chiefs of staff, commanders-in-chief of unified and specified commands, and intelligence agencies. Covers policies involving national defense, peace-keeping operations, embargoes and other sanctions, defense conversion, and military acquisition policy. Also covers significant legislation affecting national security, such as National Security Act of 1947 and Goldwater-Nichols Act of 1986.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 744 - Federal Institutions and Management

Credits: 3
Not Repeatable
Covers management and policy in federal government, examining policy problems within context of national system of governance, including political environment, evolution and constitutional framework of American government, U.S. Congress, executive branch from White House to agencies, and role of interest groups and political parties. Special attention to implementing legislation, regulatory process, and intergovernmental relations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 745 - Transportation and the Environment

Credits: 3
Not Repeatable
Multidisciplinary examination of implications of transportation and ways public policy has attempted to handle them, and how policy may move in the future. Explores all modes of transportation and most environmental ramifications.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 747 - Air Transportation Policy, Operations and Logistics

Credits: 3
Not Repeatable
Reviews evolution of various forms of air transport such as airlines, general aviation, and military aviation; and includes basics of airline economics, especially as they intersect with airline operations and the management of hub and spoke networks; air traffic control technologies and operations and their intersection with airline economics; safety and security technologies and regulations; future of various elements of air transportation; and effects of deregulation on air travel.
PUBP 748 - Public Transportation Policy, Operations and Logistics

Credits: 3
Not Repeatable
Provides general system description for components comprising typical publicly funded transit property. Topics include organizational structure, historical context, budget development including operating and capital budgets, personnel and labor relations, regulatory framework, operations management (bus and commuter rail), reporting structure, customer service, and contracted operations. Also discusses current topics of interest, such as security of transit systems and transit's role in air quality.

PUBP 750 - History of Military Operations Other than War

Credits: 3
Not Repeatable
Focuses on history of military activity in support of noncombat missions. Uses historical examples of early days of United States and colonial histories of Western and Eastern powers. Also touches on use of military force in support of multinational peace operations.

PUBP 751 - International Police Operations

Credits: 3
Not Repeatable
Analyzes role of international police monitors and domestic police forces in international peace operations. Focuses on how using international police monitors and developing indigenous law-enforcement capabilities can improve prospects for success of international peace operations. Examines origins, mandates, planning, and deployment of international civilian police forces; problems of coordinating international police operations with international military forces and local security forces; international role in developing democratically oriented police forces; relationship of police to the entire judicial system; and the need to continue assistance to all parts of the judicial system beyond initial intervention.

PUBP 752 - Infrastructure Finance

Credits: 3
Not Repeatable
Covers planning, budgeting, and financing of infrastructure, including air, water and surface transportation, public utilities, and other major public works. Focuses on private capital markets for projects funding as well as domestic and international loan and grant programs.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 753 - Ethics in Public Policy**

Credits: 3  
Not Repeatable  
Inquiry into ethical and moral issues in public policy. Explores issues that are controversial and often confusing to public policy makers such as health care, secrecy in government, surrogate motherhood, and disability. Perspectives are national as well as global, and deal with impact of culture and politics on ethical dilemmas confronting society. Also looks at processes by which specific ethical systems are incorporated into governing bodies. Larger issues, such as war and peace, just and unjust wars, capital punishment, medical and legal ethics, and communitarian vs. individual liberties are also included, with emphasis on how they affect public policy.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 754 - Geographic Information Systems and Spatial Analysis for Public Policy**

Credits: 3  
Not Repeatable  
Introduces GIS including analytical tools to manipulate and study spatial data. Run mainly as a laboratory, with extensive hands-on experience. Focuses on public policy applications.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 755 - National Security Decision-Making Policy**

Credits: 3  
Not Repeatable  
Applies behavioral, economic, strategic, and other decision theories to U.S. government and other actors in historical national security crisis cases and current policy issues. Explores tension in decisions between rational goal seeking by actors vs. organizational process, and aims to develop usable decision tools.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 756 - Global Medical Systems Policy Analysis**
Not Repeatable

Equips students with knowledge and skills to critically analyze structures, functions, governing policies, and performance of healthcare systems; to identify problems and solutions; and to devise alternative courses of action and reform policies that would contribute to achieving goals. Prepares students in policy analysis rooted in systems analysis, while linking issues, objectives, and solutions with the larger context in which a system is embedded.

**PUBP 757 - Public Policy in Global Health and Medical Practice**

Credits: 3
Not Repeatable
Introduces international medical policy. Covers globalization of health and medical policies directed at removing disparities, financing, ethical considerations of biomedical research, and use of emerging technologies.

**PUBP 758 - Global Threats and Medical Policies**

Credits: 3
Not Repeatable
Explores medical and health governance, biosecurity and biosafety, health and natural and human-made disasters, humanitarian and emergency assistance, vaccine development, behavior and health, critical infrastructures, bioethics and resource allocations in global context.

**PUBP 759 - National Security Law and Public Policy**

Credits: 3
Not Repeatable
Introduces legal and policy issues concerning current U.S. national security. Its emphasis is on developments since 9/11. It focuses on the legal rules governing the formulation and execution of U.S. national security policy. It examines U.S. and international law as well as general domestic and foreign policy considerations. In particular, the course considers the principal cases, legislation and treaties impacting U.S. national security. Special emphasis is on the interplay of national security concerns and civil liberties in this age of global and transnational terrorism.
PUBP 760 - Science and Technology Policy in the 21st Century

Credits: 3
Not Repeatable
Investigates roles dynamic scientific research and technological innovation play in contemporary society. Focuses on design and analysis of alternative public policies intended to influence rate and direction of technological change in societies, and use of scientific and technical knowledge in public policy making. Uses historical and international comparative approaches to assess politics and pragmatics of science and technology policy. Includes material from policy evaluation and analysis, organization theory, economics of innovation, and sociology of science and technology. Applications focus on areas of concern to "new economy" such as biotechnology, networked telecommunications and computing, and globalization of technology-based production.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 761 - Social Entrepreneurship and Public Policy

Credits: 3
Not Repeatable
This course is about people who start new ventures with the explicit objective of creating social as well as private value. As societies and the challenges they face become ever more complex, existing institutions and incentive structures may or may not be adequate to address new generations of problems. Social entrepreneurs innovate new organizational forms with the objective of finding solutions in the public interest. Students in this course will be challenged to integrate elements of business strategy and policy analysis towing the objective of crafting a practical plan for the launch of a novel and needed social venture.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 762 - Social Institutions and Public Policy

Credits: 3
Not Repeatable
Limited government involvement in social policies changed drastically during the 1960s, with an explosion of social programs designed to ameliorate poverty, reduce crime, and eliminate racial segregation. These new social policies affect many institutions, including family, schools and colleges, criminal justice system, and government agencies. Many of these policies have been controversial, with debates over efficacy and whether they have cured or exacerbated social problems. Course examines evolution and status of selected American social policies, including civil rights policies, education reform, family policy, crime prevention, and other topics chosen by students. Readings and discussions on policy issues linked to readings and discussions on social theories and value systems that underpin social policies.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 763 - Illicit Trade
Examines the role that illicit trade assumes in international trade and commerce. Studies diverse international forms of illicit trade, the role that it assumes in perpetuating conflicts and the most pervasive forms of this illicit trade. Examines the actors who perpetrate this trade and the policies which are needed to stem its growth.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**PUBP 764 - Transnational Crime and Corruption**

Credits: 3
Not Repeatable
Provides an overview of transnational crime and corruption and its effects on the political, economic, and social development of countries globally. Focuses on the growing problem of transnational crime in conflict regions. The course addresses the links among crime groups, corruption and terrorism. It analyzes diverse range of activities of transnational crime groups in both the legitimate and illegitimate economy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**PUBP 765 - Human Smuggling and Trafficking**

Credits: 3
Not Repeatable
Examines the rapidly growing phenomenon of human smuggling and trafficking. Addresses the reasons for the growth of these phenomena and their far-reaching and diverse social, political and economic consequences globally. Transnational crime dimensions of the problem are a central component of the class. The phenomenon is examined in conflict regions, developing, diverse developed as well as transitional societies.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**PUBP 766 - Modern Counterinsurgency: Theory and Practice**

Credits: 3
Not Repeatable
This course is intended to give students a broad understanding of the nature of counterinsurgency, the policy implications of the U.S. becoming involved in an insurgency, and the multifaceted, interagency approach that is required to successfully combat an insurgency. The course includes case studies, a review of contemporary U.S. counterinsurgency practices, and insights on what the future might hold in this important type of conflict.

Hours of Lecture or Seminar per week: 3
PUBP 767 - Global Comparative Medical Practices, Ethics and Law

Credits: 3
Not Repeatable
Examines major ethical issues raised in medical practice around the world. Studies issues comparatively and applies various ethical frameworks to study them. Considers various legal and policy solutions derived to deal with them. Principles of biomedical ethics as well as consideration of several major schools of thought in political philosophy, including utilitarianism, libertarianism and communitarianism will be considered.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 768 - Education and Public Policy

Credits: 3
Not Repeatable
Explores current issues and policy initiatives in education policy at federal, state, and local levels, with emphasis on education reform. Issues and topics vary. Typical policy issues include raising academic standards, high-stakes testing, alternative governance including school choice and voucher policies, teacher quality and certification, role of school resources in academic outputs, and equity topics.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 769 - Political Violence and Terrorism

Credits: 3
Not Repeatable
Examines the persistent threat of terrorism and political violence to international stability generally, and U.S. national security interests in particular. Provides students with a long-term analytical and substantive foundation to deepen their knowledge and effectiveness as policy-makers in national security, diplomacy, homeland security, law enforcement, humanitarian law, peace operations, postconflict reconstruction, development assistance, public diplomacy and other related areas.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 770 - Global Health and Medical Policy Analysis
Credits: 3  
Not Repeatable  
Prepares students in global health and medical policy analysis with a focus on processes, roles, expenditures, alternatives and tradeoffs in different country settings.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PUBP 771 - Grand Strategy**

Credits: 3  
Not Repeatable  
Uses the traditional tools of history and theory to analyze grand strategy. The goal is to gain an in-depth understanding of effective and ineffective grand strategies so as to inform U.S. policy, or that of other countries. Analyzing the strategic implications of policy-making, it takes a long view of effective statecraft, using current means to achieve large ends.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

**PUBP 775 - Economics of Electronic Commerce**

Credits: 3  
Not Repeatable  
Focuses on gaining competitive advantage through electronic commerce implementation; identification and growing of new market opportunities and electronic enabling of existing business relationships; and business-to-consumer relationships and economics of strategic procurement, ERP hosting, customer relationship management, catalog hosting, portal operations, and supplier management.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PUBP 777 - Critical Infrastructure Protection: Policy and Practice**

Credits: 3  
Not Repeatable  
Introduces critical infrastructure protection and resilience as a policy field, examines its governance framework, and considers its foundations in institutional theory and risk analysis.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PUBP 780 - Evolution of the Washington Metropolitan Economy**
Credits: 3  
Not Repeatable  
Includes historical context, role of federal spending, tourism, technology sector, international business, regional organizations, local government policies, and forecasts. Evaluates development patterns in Washington, D.C., Northern Virginia, and suburban Maryland.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PUBP 781 - Entrepreneurship and Economic Development**

Credits: 3  
Not Repeatable  
A knowledge spillover theory of entrepreneurship is employed to link between theories of entrepreneurship and theories of innovation and regional development. Other interconnections are explored at the regional level as firms forge networks, clusters, and specialized markets. The public policy issues of these constructs, including competition policy, industrial policy, and cluster policy, are examined within a regional and global context.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PUBP 782 - International Financial Policy**

Credits: 3  
Not Repeatable  
Addresses theory of international finance, application to financial policy such as exchange rate regimes, and institutions of international finance. Covers operations of International Monetary Fund and World Bank, development of European Monetary Union, and debate over "international financial architecture."

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PUBP 783 - Global Governance**

Credits: 3  
Not Repeatable  
Surveys important issues in global governance given changes in contemporary world. Explores dynamics and complexity of formal and informal actors, institutional arrangements, organizations, and roles in process of governance in international sphere. Considers states, governmental and nongovernmental organizations, international regimes, social movements, regional associations, and multinational corporations as actors bearing on transnational authority. Examines various vehicles for international coordination and conflict in terms of relevance and opportunities for global governance.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
PUBP 784 - Entrepreneurship, Economics, and Public Policy

Credits: 3
Not Repeatable
To demonstrate that global capitalism is a process driven by entrepreneurship, students study the Austrian school of economics, which views capitalism as a process of creative destruction, as well as other economists who emphasize entrepreneurship and change. The course reviews the history of capitalism, focusing on the so-called industrial revolutions in Britain, Germany, Japan, and the United States, and on particular historical and current entrepreneurs.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 791 - Advanced Field Research for Policy: Theory and Method

Credits: 4
Not Repeatable
Teaches how to analyze the framing of policy questions and examine culture and organization at group, organizational, interorganizational, and societal levels. Covers case study research, open-ended interviewing, participant-observation, social network analysis, and historical and archival research.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 792 - Advanced Economic Analysis for Policy Research

Credits: 4
Not Repeatable
Builds analytical skills in economic analysis for policy research for students with competence in elementary calculus. Reviews mathematical techniques and covers consumer theory, demand estimation and forecasting, production theory, cost-benefit analysis, technological change and productivity analysis, growth theory, market structure and competition, game theory, capital budgeting, and public sector’s role in the economy.

Prerequisite(s): PUBP 720 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 793 - Large-Scale Database Construction and Management for Policy Research

Credits: 4
Not Repeatable
Explores data resources for macro-comparative policy research, and how to use these to inform decision making and evaluate policy performance. Emphasizes how social science data is generated, coded, and managed; and methods for successful presentation of evidence in support of policy recommendations.
**PUBP 794 - Internship**

Credits: 1-6  
Repeatable within Term  
Open only to students in SPP degree program requiring internship. Contact appropriate program director one semester before enrollment. Work-study programs with specific employers.

**Prerequisite(s):** 12 PUBP credits, or permission of instructor.

**Notes:** Credit determined by appropriate degree program.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit

**PUBP 795 - Final Project**

Credits: 1-3  
Not Repeatable  
Project developed drawing on key themes of the program, in consultation with the program director.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

**PUBP 796 - Directed Readings and Research**

Credits: 1-3  
Repeatable within Term  
Independent reading and research at master's or doctoral level on specific topic related to public policy as agreed to by student and faculty member.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 799 - Master's Thesis**

Credits: 1-6  
Repeatable within Degree  
Individualized section form required. Original research endeavor related to student's program concentration. Research must result in document meeting public policy and university standards.
Prerequisite(s): Degree candidacy in public policy master's program; completion of required credits of graduate course work; and approval of thesis proposal by faculty advisor, two committee members, and program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: S/NC

PUBP 800 - Culture and Public Policy

Credits: 1-4
Not Repeatable
Comparative analysis of the role of culture in shaping policy environments and outcomes. Introduces analytical methods for studying culture, including measurement of social and cultural change, surveys, and field studies. Presents major findings and research issues regarding the role of culture in democracy, ethnic and gender relations, economic growth and other policy issues. Focuses on differences among national and regional cultures, and their policy implications.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 801 - Research Design for Public Policy

Credits: 1-4
Not Repeatable
Provides an introduction to the theory and practice of research in public policy. Gives students an understanding of issues in the philosophy of science and different approaches to social science research. Provides broad overviews of quantitative and qualitative methodologies, with a major emphasis on research design, including conceptualization, the role of theory, hypothesis generation, inference and bias.

Prerequisite(s): PUBP 720 and PUBP 730, or their equivalents strongly recommended.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 802 - The Logic of Policy Inquiry

Credits: 1-4
Not Repeatable
Defines policy research problems, questions, and hypotheses. Explores modes of policy research, analysis, and rhetoric, including interdisciplinary research strategies. Uses information sources to emphasize written communication of policy research results. Also discusses professional practice issues.

Prerequisite(s): Enrollment in doctoral program in public policy.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUBP 804 - Multivariate Statistical Analysis in Public Policy

Credits: 4  
Not Repeatable  
Explores multivariate techniques of contingency table analysis, reliability and validity assessment, factor analysis and scaling, multivariate regression and path analysis, analysis of variance and covariance, and other selected multivariate techniques. Emphasizes applying these techniques to real policy data using sophisticated statistical packages.

Prerequisite(s): PUBP 704 or equivalent.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUBP 805 - Foundations of Social Science for Public Policy

Credits: 4  
Not Repeatable  
Grounds doctoral students in core concepts of political science and economics through critical analysis of classic sources, old and new. Topics may include theory of the state, state-market relations, democratic governance, markets and economic institutions, and other relevant frameworks for public policy research.

Prerequisite(s): PUBP 730 or equivalent.

Hours of Lecture or Seminar per week: 4  
Hours of Lab or Studio per week: 0

PUBP 806 - Advanced Management Science for Public Organizations

Credits: 3  
Not Repeatable  
Primary emphasis is to understand techniques of operations research and management science, cost benefits, and cost effectiveness for public policy decision making. Some familiarity with elementary calculus and linear algebra helps with understanding mathematical basis of algorithms used to solve models, and reliability and validity of these techniques. Case studies and computer solutions help students understand when and how to use OR models.

Prerequisite(s): PUBP 712 or equivalent.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUBP 810 - Regional Development and Transportation Policy

Credits: 4  
Not Repeatable
Introduces and critiques theory and methods used in regional and transportation policy analysis. Explores central place, growth pole, and economic base theories as well as other theoretical constructs used in regional policy analysis. Introduces and examines methodological tools such as regional econometric modeling, multiobjective programming, shift-share analysis, economic base analysis, location quotient analysis, and input-output analysis. Examines selected regional and transportation public issues using theoretical and methodological constructs.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 811 - Applied Methods in Regional Development and Transportation Policy

Credits: 4
Not Repeatable
Students develop research papers that investigate aspect of regional and transportation policy, with goal of producing publishable papers. Students are expected to prepare two-page proposal followed by detailed proposal and finally, completed paper. Each is critiqued in the seminar, which is organized to conform to process of review and critique. Instructor works with students individually as well as in seminar sessions.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 817 - Policy Research Topics: Transportation Policy

Credits: 3
Not Repeatable
Research workshop examining development of policy research and relevant methodologies linked directly to faculty and student interests. Students identify cutting-edge policy concerns and execute research program. The 4-credit version of course requires discussion section and research laboratory.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 820 - Technology, Science, and Innovation: Institutions and Governance

Credits: 4
Not Repeatable
Explores how political and economic institutions and cultural values shape pace, direction, costs, and benefits of technological innovation and scientific research. Special emphasis on interaction between national institutions, and values and processes of globalization.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 821 - Analytic Methods for Technology, Science, and Innovation Policy
Credits: 4
Not Repeatable
Covers major methodological approaches to study of technology, science, innovation, and public policy. Focuses on analytical
inputs to policy making, and assesses practical consequences in such areas as security, energy, environment, and health.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

**PUBP 830 - Comparative Socioeconomic Policy**

Credits: 1-4
Not Repeatable
Throughout the past century, numerous socioeconomic theories have competed for primacy. This course compares, contrasts, and
analyzes some of the leading socioeconomic theories and policies and places them in a global context. The role of these theories
in shaping current public policy is explored.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 833 - Topics in Public Policy**

Credits: 1-4
Repeatable within Term
Focuses on selected topics in public policy not covered in fixed-content public policy courses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 834 - Entrepreneurship, Growth, and Public Policy**

Credits: 1-4
Not Repeatable
Focuses on a closer consonance among entrepreneurship, geography, and economic growth. Studies the creation and incubation
of new knowledge and features three theoretical fields: the new growth theory; the new economic geography; and the new
economics of innovation. Develops a knowledge spillover theory of entrepreneurship. Examines public policy issues arising from
these constructs, including competition, within a regional and global context.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 835 - Entrepreneurship, Creativity, and Innovation**

Credits: 1-4
Not Repeatable
Provides multidisciplinary foundation for the study of entrepreneurship, creativity, and innovation, and their effects on regional and national economic growth. Draws from seminal thinkers and emphasizes creativity and innovation. Examines how organizational change, institutional structure, and geographic clustering drive the development of regional and national economies. Explores these issues through the lens of the three Ts of economic growth: technology, talent, and tolerance.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 840 - U.S. Policy-Making Institutions**

Credits: 4  
Not Repeatable  
Examines major institutions that formulate and implement policy at national level. Emphasizes presidency, Congress, and executive branch bureaucracies. Also considers agenda-building institutions such as media, interest groups, political parties, and elections.

**Hours of Lecture or Seminar per week:** 2-3  
**Hours of Lab or Studio per week:** 0-1

**PUBP 841 - U.S. Policy-Making Processes**

Credits: 4  
Not Repeatable  
Analyzes major U.S. public policy processes. Attention to major instruments for implementing policy, including regulation, grants, tax policy, and market-based mechanisms; and how different methodologies are appropriate for understanding aspects of policy inquiry. Covers ethical and accountability aspects of policy, including federalism, intergovernmental relations, and state and local governance.

**Hours of Lecture or Seminar per week:** 2-3  
**Hours of Lab or Studio per week:** 0-1

**PUBP 850 - Seminar in Public Policy**

Credits: 1  
Repeatable within Term  
Weekly colloquium series, required of public policy PhD students. Features variety of speakers from universities, government, and nonprofit sectors. Topics include policy formulation and analysis, and theoretical and methodological foundation.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit

**PUBP 860 - Social Theory, Culture, and Public Policy**
Covers major social and cultural theories that underlie public policies. Selections from classical and contemporary social theorists relevant to studying social change, social capital, and social organization. Focuses on interplay among culture, social institutions, social processes, and policy.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

**PUBP 861 - Culture and Social Policy Analysis**

Credits: 4
Not Repeatable
Applies social and cultural theories to policy topics, including methodological approaches and empirical studies. Emphasizes linkage between theory and empirical research, and methods appropriate for social policy study. Policy topics may include poverty and inequality, family, education, crime and corruption, immigration, and health.

Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

**PUBP 862 - Institutional Analysis and Policy**

Credits: 4
Not Repeatable
Policy analysts are increasingly cognizant of the influence of societal institutions in shaping public policy, not only in terms of policy design, but also as a determinant of implementation. This course reviews the growing literature regarding institutional analysis; furthermore, it considers the ways in which institutions help shape the policies that emerge within a given society and the context by which they are evaluated.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUBP 870 - Organizational and Policy Aspects of Informatics**

Credits: 1-4
Not Repeatable
Examines effects of informatics on national and international policy; setting international policy on informatics; ethical and social change in governments and organizations; shaping national policy in informatics; industry growth; and research methods from various scientific disciplines.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUBP 871 - Organizational and Information Technology Challenges of the Knowledge Society

Credits: 4
Not Repeatable
Explores links of policy, managing organizations, and information technologies in postmodern era. Includes issues related to contradictions among conventional models of organizational and process design, policy and regulatory structures, ideologies, and information technologies. Provides framework for becoming a sophisticated analyst of policy, organizations, and information technology.

Prerequisite(s): PUBP 870.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 872 - Managing Knowledge-Based, Information-Intensive Organizations

Credits: 4
Not Repeatable
Deals with challenges of planning, creating, integrating, and managing contemporary information-technology enabled public and private sector organizations, and managing relationships between public and private enterprises enabled by information technology initiatives.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 880 - Global and International Public Policy I

Credits: 4
Not Repeatable
Explores multiple dimensions of globalization and internationalization relative to public policy processes and consequences. Offers substantive insight into contemporary public policy dynamics from global and comparative perspectives. Accordingly, it examines a broad range of international cultural, political, technological, and economic policy issues, and their interactions and implications at all levels of analysis. Engages relevant theoretical and methodological approaches and debates to provide tools for analyzing various world problems and policies.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 881 - International Trade Policy

Credits: 4
Not Repeatable
Addresses international trade theory, trade policy analysis, regional economic integration, and institutional arrangements governing world trade. Covers World Trade Organization (including constituent agreements in goods, services, intellectual property and trade-related investment measures), regional trade agreements such as NAFTA, dispute settlement regimes, and
relations between trade and the environment.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 997 - Field Statement

Credits: 1
Not Repeatable
Requires work on field statement in preparation for field exam.

Prerequisite(s): Permission of field committee chair.

Notes: Must register in semester during which field exam will be taken. May not be repeated. Does not apply to credit degree requirements.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

PUBP 998 - Research/Proposal for Dissertation

Credits: 1-9
Repeatable within Degree
Requires work on research proposal that forms basis for doctoral dissertation.

Prerequisite(s): Permission of instructor. Contact program coordinator for approval and CRN to register via PatriotWeb.

Notes: May be repeated, but no more than 24 credits of PUBP 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

PUBP 999 - Dissertation

Credits: 1-9
Repeatable within Degree
Requires research on approved dissertation topic under director on dissertation committee.

Prerequisite(s): Permission of instructor.

Notes: May be repeated, but no more than 24 credits of PUBP 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
Real Estate (REAL)

Offered by the School of Business.

REAL 500 - Real Estate Development Fundamentals

Credits: 3
Not Repeatable
A comprehensive study of the main elements of the real estate development process. Examines the intricacies between residential, commercial and mixed-use development, and approaches to optimizing each. The value of market research and analysis, determining value propositions of prospective deals, zoning considerations, design and construction issues, and asset management will also be examined.

Prerequisite(s): Graduate standing

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

REAL 502 - Real Estate Client Leadership and Project Management

Credits: 3
Not Repeatable
A study of the challenges faced by developers, both in terms of client (owner) challenges as well as project challenges. Examines assessment approaches and frameworks to assess clients, including analyzing the maturity of a representative client and identify key approaches to optimizing the relationship of that client. Examines specific project challenges-project assessment frameworks, and improvement approaches.

Prerequisite(s): Graduate standing, REAL 500 (or CEIE 580), or permission of the program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

REAL 610 - Management of Real Estate Design and Development

Credits: 3
Not Repeatable
Course develops a framework for understanding and managing processes associated with design and construction of real estate assets. Course focuses on the specific phases comprising a real estate development project and integration of these elements to achieve success. Topics include developing and coordinating service providers relationships, managing stages involved in the development cycle, understanding and controlling risks, and resolving disputes.

Prerequisite(s): Admission to the MSREAL Program or permission of the program director.
REAL 615 - Real Estate Market Analysis and Research

Credits: 3
Not Repeatable
The course will provide an introduction to the methods used in analyzing real estate markets from the perspective of decision-makers who are considering potential development, investment, or financing decisions. The courses will focus on sources and analysis of data for examining project feasibility and scope, timing and phasing of development, and communicating with prospective financial partners.

Prerequisite(s): Admission to the MSREAL Program or permission of the program director.

REAL 630 - Innovative Land Use, Approvals and Real Estate Development

Credits: 3
Not Repeatable
Examines the challenges in designing innovative uses for land and balancing those prospective uses with local urban policies and the land development/zoning process. Introduces the entitlement process, the legal considerations of planning and zoning in America, and the language of zoning. Explores the impacts of the different forms of government on the entitlement process.

Prerequisite(s): Admission to the MSRED program or permission of the program director.

REAL 690 - Topics in Real Estate Development

Credits: 1-6
Repeatable within Degree
Explores contemporary issues and challenges in the management and development of real estate. Topics not covered in the regular real estate development offerings. Course content may vary each semester. Course may be repeated with change in topic.

Prerequisite(s): Admission to the MSRED Program or permission of the program director.

REAL 750 - MSRED Capstone
Credits: 3
Not Repeatable
The Capstone Project will be the culmination of the master's program, offered at the end of the program. The course will combine the theoretical teachings from the program with real world, practical situations. Students will apply concepts learned to current development and construction projects in the Washington, D.C. metropolitan area. One of the sample cases involves the potential future uses of a plot of land in the metro area, a mixed-use high-density area that is slated to undergo significant transformation. The case will request project teams to explore the various options, employing a decision-tree approach to fully analyze the options, and examining the SWOT, local urban management policies, future valuation streams, and environmental impacts of each. A site visit will be required, as well as visits to various developers engaged in similar projects.

Prerequisite(s): Admission to the MSRED Program or permission of the program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

REAL 796 - Directed Reading

Credits: 1-6
Repeatable within Degree

Admission to the MSRED program or permission of the program director.

Prerequisite(s): Admission to the MSRED program or permission of the program director.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

Reading Education (EDRD)

Offered by the College of Education and Human Development

EDRD 300 - Literacy and Curriculum Integration

Credits: 3
Not Repeatable
Introduces K-12 content area reading, writing, and language arts. Emphasizes integration of reading and other language arts across curriculum.

Notes: Intended as an introduction to educational issues and is not applicable in Mason's graduate-level teacher education programs. School-based field experience required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
EDRD 301 - Facilitating Literacy in School or Community Settings

Credits: 3  
Not Repeatable  
Provides knowledge, teaching strategies, and support for students working with developing readers and writers. Emphasizes implementation strategies that foster literacy development; incorporation of trade books and technology resources into individual and small group work; and reflection.

Notes: Requires 45 hours of school-based field experience during course.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDRD 419 - Literacy in the Content Areas

Credits: 3  
Not Repeatable  
Assists students in understanding the language and literacy process as it applies to teaching in middle and high schools. Focuses on instructional strategies to support literacy development, including adaptations for culturally diverse and exceptional learners.

Prerequisite(s): EDCI 473 and EDCI 483.

Corequisite(s): EDCI 490.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDRD 501 - Literacy and Curriculum Integration, PK-12

Credits: 3  
Not Repeatable  
Introduces PK-12 content area reading, writing, and language arts. Emphasizes integration of reading and other language arts across curriculum; instructional planning; needs of diverse learners. Field experience in public schools required.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDRD 515 - Language and Literacy in Global Contexts

Credits: 3  
Not Repeatable  
Focuses on the relationship of language to reading and the connection between language structure and how we learn to read. Theories of language acquisition, the complexity of language development, and that of the reading process are examined. Key factions that influence and enhance language learning and development are explored. Introduces literacy instruction and literacy
assessment for all learning and learners, and sociocultural perspectives on literacy are explored. Requires 20 hours of PK-12 classroom fieldwork.

**Hours of Lecture or Seminar per week**: 3

**Grading**: Graduate Special

**When Offered**: Fall, Summer, Spring

---

**EDRD 525 - Emergent Literacy for English Language Learners, PK-12**

Credits: 3  
Not Repeatable  
Provides an introduction to emergent reading/writing processes in first and second languages. Focuses on developing reading skills in five areas: phonemic awareness, phonics, fluency, vocabulary, and text comprehension.

Equivalent to EDRD 515.

**Prerequisite(s)**: EDCI 510, EDCI 516, or Permission of Instructor.

**Hours of Lecture or Seminar per week**: 3

---

**EDRD 558 - Literacy in the Content Areas, PK-12**

Credits: 3  
Not Repeatable  
Focuses on research-based introduction to PK-12 content area reading, writing, and language arts that meet state and national guidelines. Enables teachers to understand literacy needs of their students in content areas, and provide appropriate instruction.

**Hours of Lecture or Seminar per week**: 3

---

**EDRD 597 - Special Topics in Education**

Credits: 1-6  
Repeatable within Degree  
Provides advanced study on selected topic or emerging issue in American or international education.

**Notes**: May be repeated for credit with GSE permission.

**Hours of Lecture or Seminar per week**: 1-6

---

**EDRD 610 - Content Literacy for English Language Learners, PK-12**
EDRD 614 - Teaching Reading in the Secondary School

Credits: 3
Not Repeatable
Emphasizes reading and writing in content areas; reading and writing causes, classroom diagnosis, and remediation of reading problems; study skills; and rates of reading.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDRD 615 - Reading/Writing for Multilingual Students

Credits: 3
Not Repeatable
Develops instructional competencies in reading and writing approaches for students from culturally and linguistically diverse backgrounds. Examines teaching reading and writing across curriculum, biliteracy acquisition, historical and current approaches for second language learners, preliteracy skills for younger and older English language learners, and special issues in developmental and diagnostic reading for language minority students.

Prerequisite(s): EDCI 516 and 519, or permission of instructor or advisor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

EDRD 619 - Literacy in Content Areas

Credits: 3
Not Repeatable
Offers understanding of language and literacy process as it applies to teaching in secondary schools. Emphasizes reading and writing in content areas, and instructional strategies to support students’ literacy development. Focuses on ways reading, writing, speaking, and listening are developed and used in learning discipline-specific curriculum, including adaptations for culturally diverse and exceptional learners.

Prerequisite(s): Methods I (EDCI 567, 569, 572, or 573) and Methods II (EDCI 667, 669, 672, or 673).
Corequisite(s): EDCI 790 Internship.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDRD 620 - Reading/Writing in Foreign/World Languages

Credits: 3  
Not Repeatable

Introduces reading and writing processes in foreign and second languages, research on reading comprehension, and effective teaching and assessment approaches for students in PK-12 schools. Topics include reading goals and standards for foreign language learning, sociocultural perspectives, multimedia computer-assistance, research on related strategies and skills, and performance-based assessments.

Prerequisite(s): EDCI 516 and 519, or permission of instructor or advisor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDRD 630 - Literacy Foundations and Instruction for Diverse Populations: Birth through Middle Childhood

Credits: 3  
Not Repeatable

Study of literacy theory, research, and practice as it relates to younger learners. Includes teaching of reading to English Language Learners and language acquisition for diverse populations (Special Education students who access the general curriculum). Addresses sociocultural, cognitive, linguistic, psychological, and developmental influences on children's literacy. Includes reading, writing, and oral communication.

Prerequisite(s): Admission to the literacy emphasis, or permission of program coordinator.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

EDRD 631 - Literacy Foundations and Instruction for Diverse Populations: Adolescence Through Adulthood

Credits: 3  
Not Repeatable

Study of literacy theory, research, and practice as it relates to adolescents and adults. Addresses sociocultural, cognitive, linguistic, psychological, and developmental influences on literacy. Includes reading, writing, and oral communication.

Prerequisite(s): EDRD 630 and admission to the literacy emphasis, or permission of program coordinator.

Hours of Lecture or Seminar per week: 3
EDRD 632 - Literacy Assessments and Interventions for Groups

Credits: 3
Not Repeatable
Provides literacy assessments and interventions for groups of learners. Includes exploration of assessment tools for classrooms and large populations. Class members conduct related practice in their own classrooms or specified field settings.

Prerequisite(s): EDRD 630 and 631; admission to literacy emphasis, or permission of the program coordinator.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDRD 633 - Literacy Assessments and Interventions for Individuals

Credits: 3
Not Repeatable
Provides literacy assessments and interventions for individuals. Includes diagnosis and remediation for learners who find reading and writing difficult. Requires assigned practicum experience.

Prerequisite(s): EDRD 630, 631, and 632; admission to literacy emphasis; or permission of program coordinator.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDRD 634 - School-Based Leadership in Literacy

Credits: 3
Not Repeatable
Prepares reading specialist as a school leader. Expands knowledge of literacy gained in prerequisite courses, and applies it to professional development work with teachers at their own site.

Prerequisite(s): EDRD 630, 631, 632, and 633; admission to literacy emphasis or permission of program coordinator.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDRD 635 - School-Based Inquiry in Literacy

Credits: 3
Not Repeatable
Capstone course in literacy emphasis focusing on research-based inquiry related to literacy in school settings. Includes review of
literature and teacher inquiry project.

**Prerequisite(s):** EDRD 630, 631, 632, 633, and 634; admission to literacy emphasis; or permission of program coordinator.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDRD 637 - Supervised Literacy Practicum**

Credits: 2-3  
Not Repeatable  
Supervised literacy practicum that requires students to conduct assessments of and provide instruction to struggling readers.

**Prerequisite(s):** EDRD 630, 631, 632  
**Corequisite(s):** EDRD 633.

**Hours of Lecture or Seminar per week:** 2-3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

**EDRD 797 - Advanced Topics in Education**

Credits: 1-6  
Repeatable within Degree  
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education.

**Notes:** May be repeated for credit with CEHD approval.

**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0

**EDRD 829 - Advanced Foundations of Literacy Education**

Credits: 3  
Not Repeatable  
Explores advanced foundational theory, research, and methodology across the broad field of literacy both nationally and internationally. Includes analysis of historical and current trends, research, practice, and policy in literacy. Individual projects will connect literacy to students' areas of interest. Appropriate for PhD in Education students in any specialization.

**Prerequisite(s):** EDUC 800, EDRS 810, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring
EDRD 830 - Theory, Research, and Practice in Literacy: Birth through Middle Childhood

Credits: 3
Not Repeatable
Explores emergent through intermediate literacy. Topics include literacy acquisition and development in academically and linguistically diverse young children; historical and current trends in theories of literacy development; cognitive, linguistic, sociocultural, and instructional influences on literacy development; and assessment. Implications for teacher education and policy are explored. Individual research projects will connect literacy to students' areas of interest.

Prerequisite(s): EDUC 800 and EDRS 810.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

EDRD 831 - Theory, Research, and Practice in Literacy: Early Adolescence through Young Adulthood

Credits: 3
Not Repeatable
Explores youth culture and socio-historical constructions of adolescence; literacy in the lives of culturally and linguistically diverse learners; multimodal literacy; international literacy contexts; adolescent literacy policy and leadership; content area and disciplinary literacy; literacy needs of special learners; and adult literacy. Individual projects will connect adolescent literacy to students' areas of interests.

Prerequisite(s): EDUC 800 and EDRS 810.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

EDRD 832 - Research Methodologies and Trends in Literacy

Credits: 3
Not Repeatable
Develops knowledge and skills in the application of research methodologies in literacy to current national and international trends.

Prerequisite(s): EDUC 800, EDRS 810, or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

Religious Studies (RELI)
Offered by the College of Humanities and Social Sciences

**RELI 100 - The Human Religious Experience**

Credits: 3  
Not Repeatable  
Examines main forms of religious expression as embodied in several important religious traditions in contemporary world. Investigates religious experience; myth and ritual; teachings and scripture; ethical, social, and artistic aspects of religion; and nature and function of religion in human society.

Fulfills Mason Core requirement in global understanding.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**RELI 110 - Introduction to Jewish Ethics**

Credits: 3  
Not Repeatable  
Brief overview of Judaism and its classical texts. Examines a number of current ethical issues including artificial insemination, stem cell research, transplantation, abortion, homosexuality, capital punishment, from a Jewish perspective.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**RELI 211 - Religions of the West**

Credits: 3  
Not Repeatable  
Focuses on Judaism, Christianity, and Islam from historical, comparative, and cross-cultural perspectives. May also include modern developments of those faiths such as Mormonism and Baha’ism, as well as Zoroastrianism and religions of ancient Near Eastern cultures.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**RELI 212 - Religions of Asia**

Credits: 3  
Not Repeatable
Surveys religions of India, Hinduism, Jainism, Sikhism, Buddhism, and the religions of the Far East, China, and Japan, including Daoism, Confucianism, Shinto, from origins to present.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 235 - Religion and Literature

Credits: 3  
Not Repeatable  
Explores the relationship between religion and literature in different times and cultures, the influence of religion on literary works, and how literature expresses major religious themes such as death and immortality, divine will and justice, suffering and human destiny, and religion and state.

Fulfills Mason Core requirement in literature.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 240 - Death and the Afterlife in World Religions

Credits: 3  
Not Repeatable  
Explores how selected world religions address the universal experience of death and express their beliefs in an afterlife. Focuses on the scriptures, beliefs, rituals and customs of selected world religions as they reflect each tradition's response to the most basic question about human destiny - how human beings face death and attempt to transcend it.

Notes: Fulfills the college requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 272 - Islam

Credits: 3  
Not Repeatable  
Introduces basic religious beliefs and practices of Islam, with view to diverse manifestations of Islamic culture in different ethnic and social contexts. Provides overview of essential rituals of Islamic life, mystical practices of Sufis, certain popular forms of religious practice, sources and application of Islamic law, and distinctive Islamic artistic and literary forms.

Notes: Fulfills the college requirement in non-Western culture.
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  

**RELI 313 - Hinduism**

**Credits:** 3  
**Not Repeatable**  
Introduces Hindu religion and thought, beliefs, rituals, ethics and religious practices. Emphasis on classical Hinduism, but also covers Hinduism and modernity, modern Hindu movements, and Hinduism as a global religion.

Fulfills Mason Core requirement in global understanding.

**Notes:** Fulfills the college requirement in non-Western culture.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  

**RELI 314 - Chinese Philosophies and Religious Traditions**

**Credits:** 3  
**Not Repeatable**  
Surveys major religious traditions and philosophical themes of China including Confucianism, Taoism, and Chinese Buddhism and Neo-Confucianism. Examines foundation of Chinese world view and spirituality by investigating diverse religious traditions that have created tensions and harmony among them.

**Prerequisite(s):** RELI 212, or permission of instructor.

**Notes:** Fulfills the college requirement in non-Western culture.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  

**RELI 315 - Buddhism**

**Credits:** 3  
**Not Repeatable**  
Surveys Buddhist religious traditions. Includes historical development of Buddhism in India, China, and Japan, examining both Theravada and Mahayana traditions; philosophical and religious significance of Buddhism; and social and political implications of Buddhist traditions in South Asian and East Asian countries.

Fulfills Mason Core requirement in global understanding.

**Notes:** Fulfills the college requirement in non-Western culture.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
RELI 316 - Modern Christian Thought

Credits: 3
Not Repeatable
Examines influential Christian thinkers and Christian intellectual trends of the modern period, from the Enlightenment through the present.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 317 - Daoism

Credits: 3
Not Repeatable
Explores philosophical ideas, spiritual orientation, religious practice, and social and political values in Daoist tradition reading classic Daoist texts including Dao De Jing, Chuang-tzu, and other sources. Discusses Daoism in light of comparative and cross-cultural studies for global understanding of issues on concepts of nature, human nature, and good and evil.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 320 - Religion and Revolution in Latin America

Credits: 3
Not Repeatable
Explores the intersection between Christian and revolutionary thought, such as Marxism and existentialism, in Latin America after the 1960s that formed liberation theology. Emphasis on historical, philosophical and interdisciplinary issues.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 322 - Religions of Africa

Credits: 3
Not Repeatable
Explores traditional religious practices and world views in Africa south of the Sahara, the spread of African religions to the Caribbean and the Americas, the forms that religions imported or imposed from the north have taken in Africa south of the Sahara, and the interaction among the religious cultures of Africa, European Christianity and Islam.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
RELI 330 - Religion, Fantasy and Imagination

Credits: 3  
Not Repeatable  
Explores the worlds of religion, fantasy and imagination, presented in selected writings of 20th century fantasy authors, including Lewis, Tolkien, Pullman, Rowling. Covers ideas of quest for enlightenment, redemption or salvation, conflict between good and evil, worlds of the supernatural, parallel dimensions and their inhabitants.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 331 - Religion in America

Credits: 3  
Not Repeatable  
Religious heritage in American culture, growth of denominations and sects, and interrelationship of religion and sociopolitical life.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 332 - Mormonism

Credits: 3  
Not Repeatable  
Examines the origins and development of Mormonism, as embodied in the Church of Jesus Christ of Latter-day Saints and other related churches. Introduces students to a critical analysis of Latter-day Saint scriptures, rituals, and history.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 337 - Mysticism: East and West

Credits: 3  
Not Repeatable  
Comparative treatment of major expressions of mysticism in East and West through exploration of various ways of understanding mystical experience. Readings and discussion emphasize one or more of the Eastern (Hinduism, Buddhism, Taoism, Zen) and Western (Judaism, Christianity, Islam) traditions.

Notes: Fulfills the college requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
RELI 341 - Global Perspectives on Spirituality and Healing

Credits: 3  
Not Repeatable  
Cross-cultural investigation of human understandings of relationship between spirituality and health. Beliefs about spiritual causes of sickness and health and spiritual techniques of healing in variety of world cultures placed in context of religious beliefs of those cultures.  
Fulfills Mason Core requirement in global understanding.

Prerequisite(s): 30 credits, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 350 - Religion and History of Ancient Israel

Credits: 3  
Not Repeatable  
Examines religion and history of ancient Israel from origins around 1250 BCE to Babylonian Exile in 587 BCE. Topics include debate on historical value of biblical narratives, extra-biblical texts mentioning Israel, move from polytheism to monotheism, archaeology and artifacts, and development of Israel's unique religious and historical self-understanding.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 352 - Judaism from Exile to Talmud

Credits: 3  
Not Repeatable  
Examines Jewish religion, history, and literature from the Babylonian Exile to third century C.E. Special attention to development of Hebrew Bible, Apocalyptic and Apocryphal literature, belief in resurrection and final judgment, Dead Sea Scrolls, Jewish sects, and emergence of Christianity and Rabbinic Judaism.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 353 - Jewish Political Tradition

Credits: 3  
Not Repeatable  
Explores Jewish thinkers' attitudes towards politics and state. Topics include traditional sources, theological and political crisis of modern times, liberal Jewish thought, Zionist ideology, Israel as a separate state, relationship between religion and politics in modern Israel.
REL 355 - Sufism

Credits: 3  
Not Repeatable  
Surveys representations of religious beliefs, practices, persons, and institutions in popular film. Focuses on the media consumption of box office movies in the United States. Examines how religion is imaged in film and how that religious imagination relates to social constructions of national, ethnic, racial, gender, and sexual identities.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 363 - Catholicism

Credits: 3  
Not Repeatable  
Focuses on the beliefs of the over one billion Roman Catholics in today's world. Probes the history, doctrine, symbols, rituals, practices, and material culture of the world's largest church. Considers Catholicism's dialog with secularism and discusses controversies and challenges facing the church today.

Prerequisite(s): 3 credits in religious studies or philosophy or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 364 - Religion and Law in the United States

Credits: 3  
Not Repeatable  
Explores issues relating to law and religion. Focuses on the legal doctrines that have arisen in cases under the Establishment and
Free Exercise Clauses of the First Amendment. Topics include religion and public schools, government aid to religious institutions, including school vouchers, government endorsement of religious symbols, freedom of religious expression, and freedom of religious practice.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**RELI 365 - Muhammad: Life and Legacy**

Credits: 3  
Not Repeatable

Examines life and character of the founder of Islam, as remembered and understood by Muslims, as well as explores influence of his paradigmatic life and teachings on Islamic religious discourse and culture. Addresses Western critical studies of the accounts of Muhammad's life and contemporary controversies regarding Muhammad.

Notes: Fulfills the college requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**RELI 370 - Judaism**

Credits: 3  
Not Repeatable

Studies Judaism from origins to present. Includes origins of Judaism B.C.E.; Rabbinic Judaism; Jews in the Middle Ages; Hasidic and Mystical Judaism; Enlightenment; persecution and Holocaust; contemporary American Judaism; and Jewish, Christian, and Muslim relations.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**RELI 372 - American Judaism**

Credits: 3  
Not Repeatable

Surveys Jewish religious life focusing on various types of American Judaism such as orthodox, conservative, reform, reconstructionist, as they have developed historically and continue to evolve. Emphasizes issues and challenges facing contemporary Judaism.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**RELI 374 - Islamic Thought**
EXAMINES Islamic views on fundamental issues in religious thought, such as nature of God, nature of man, and relationship between God and man as reflected in both divine revelation and human religious vocation. Investigates intellectual approaches to these problems within Islamic tradition, including those of theological, philosophical, and mystical thinkers.

Fulfills Mason Core requirement in global understanding.

**Prerequisite(s):** RELI 211, 3 credits in religious studies, or permission of instructor.

**Notes:** Fulfills the college requirement in non-Western culture.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**RELI 375 - Qur'an and Hadith**

Credits: 3  
Not Repeatable

Explores two primary sources of Islamic belief and practice: Qur'an and Hadith. Discusses thematic structure and literary quality, and examines theological and moral issues. Also introduces various methods of interpretation and critical analysis applied to texts in both Islamic and Western scholarship. Lecture and discussion.

**Prerequisite(s):** 3 credits in philosophy and religious studies, or permission of instructor.

**Notes:** Fulfills the college requirement in non-Western culture.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**RELI 376 - Special Topics in Religious Thought**

Credits: 3  
Repeatable within Term

Selected topics from a philosophical perspective.

**Prerequisite(s):** 3 credits in philosophy or religious studies, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**RELI 377 - Special Topics in Religious Thought**

Credits: 3  
Not Repeatable

Selected topics from a philosophical perspective.
Prerequisite(s): 3 credits in philosophy or religious studies, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 379 - Islamic Law, Society, and Ethics

Credits: 3
Not Repeatable
Introduces foundational sources and principles of Islamic Law or shariah. Examines the historical development and application of Islamic law, its role in Muslim societies, and its relationship to Islamic social ideals and ethical discourse.

Notes: Fulfills the college requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 381 - Beginnings of Christianity

Credits: 3
Not Repeatable
Examines early Christian church from time of Jesus to 700 C.E. Covers internal development of Christianity as it formed official doctrines and institutions, and external relations of Christians with followers of other religions in Roman Empire. Special attention to reasons for success of Christianity in Roman world.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 386 - Islam in the Modern Age

Credits: 3
Not Repeatable
Covers the study of the Islamic tradition and its peoples during the last two centuries—the period of Islamic reform in the wake of Western hegemony—and the efforts of the community to readjust itself in light of Westernization and modernization, as well as the broader challenges of the secular, liberal, and technical age.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 387 - Islam, Democracy, and Human Rights

Credits: 3
Not Repeatable
Evaluates the political and religious goals of Muslim societies and governments, and whether these goals are conducive to the
development of democratic institutions to promote democratic cultures and explicit support for human rights, as well as to these societies' full integration in an international order founded upon secularism and modernism.

Notes: Fulfills the college requirement in non-Western culture.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 401 - Death and the Afterlife in World Religions

Credits: 3
Not Repeatable
Examination of the rituals, practices, and beliefs regarding death and the afterlife in world religions past and present. Emphasis placed on crosscultural and comparative aspects.

Prerequisite(s): 60 credits including 6 credits in religious studies or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 403 - Scripture and Authority in World Religions

Credits: 3
Not Repeatable
Examines origins, development, and role of Scripture (religious texts) in world religions, concentrating on issues of divine inspiration, authority, authenticity, and canon.

Prerequisite(s): 60 credits including 6 credits in religious studies, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 405 - Religion, Values, and Globalization

Credits: 3
Not Repeatable
Explores diverse value systems, ethical norms, and teaching found in different religious traditions and cultures. Examines assumption that globalization is attempt to universalize Western culture.

Prerequisite(s): 60 credits including 6 credits of religious studies, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 407 - Women in the World's Religions
Seminar course offering theoretical and comparative study of role of women in six of the major religious traditions of the world—Judaism, Christianity, Islam, Hinduism, Buddhism, and Chinese religions.

**Prerequisite(s):** 60 credits; 6 credits of philosophy or religious studies.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**RELI 420 - Seminar**

Credits: 3
Repeatable within Term
Senior seminar on a specific topic of relevance to religious studies. Content varies.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** Major in religious studies with 60 credits including 9 credits or permission of instructor.

**Notes:** May be repeated three times when topic varies. Students with other majors may be take the course if the topic is sufficiently close to their field of study.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**RELI 425 - Directed Readings in Religious Studies**

Credits: 1-3
Repeatable within Degree
Individual readings and research in religious studies on a topic selected in consultation with instructor.

**Prerequisite(s):** Major in religious studies with 60 credits including 9 credits in religious studies.

**Notes:** May be repeated for a total of 6 credits.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**RELI 426 - Religious Studies Internship**

Credits: 3
Not Repeatable
Course rubric to be used for acquiring academic credit in Religious Studies for religious studies related internships.

**Prerequisite(s):** The completion of 60 undergraduate credits and 12 credits toward the Religious Studies major or minor.
RELI 490 - Comparative Study of Religions

Credits: 3
Not Repeatable
Cross-cultural examination of comparative aspects of religious phenomena. Examines significance of religious phenomena from diverse religious and cultural perspectives, and investigates patterns of religious phenomena that have appeared in world cultures and civilizations.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): 9 credits in religious studies including RELI 211 and RELI 212, or permission of instructor.

Notes: Fulfills the college requirement in non-Western culture.

RELI 591 - Special Topics in Religious Studies

Credits: 3
Repeatable within Term
Topics in religious studies selected by importance in the field and pertinent to the role of religion in society and culture. Emphasis on historical, interdisciplinary, and cross-cultural issues.

Notes: May be repeated for a maximum of 12 credits when topic is different with permission of department.

RELI 630 - Approaches to the Study of Religion

Credits: 3
Not Repeatable
Examines study of religion as academic discipline. Evaluates various intellectual approaches and methods used in study of religious phenomena.

Prerequisite(s): Graduate standing, or permission of instructor.
RELI 631 - Sacred as Secular in Modern Spirituality

Credits: 3
Not Repeatable
Investigates nature of sacred and categories of sacred and secular in human experience. Both duality and interconnectedness of sacred and secular explored to facilitate fresh understanding of essential unity of human religiosity and spirituality.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 632 - World Religions in Conflict and Dialogue

Credits: 3
Not Repeatable
Explores reasons for instances of global religious conflicts and examines ways of engaging in interreligious dialogue. Investigates religious pluralism as an effective means for dialogue.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 633 - Ethical Perspectives of World Religions

Credits: 3
Repeatable within Degree
Examines how perceptions of ultimate reality shape ethical values and behaviors of various religious traditions. Addresses problems in interpretation of authoritative foundational teachings in contemporary contexts. Special attention to non-Western religions.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 635 - World Religions in Transition and Transformation

Credits: 3
Repeatable within Degree
Explores transitions and transformations in selected world religions as they respond to and influence forces of cultural change, social values, and the crises of history. Fresh or modified constructions of the sacred and their relationship to world and humans will be examined.
RELI 636 - Religion and the Natural Environment

Credits: 3
Not Repeatable
Explores contemporary religious thought on the morality and ethics of environmental responsibility. Begins with an exploration of this issue in Western Christian thought and examines religious approaches to the environment in the traditional and contemporary thought of other major world religions, including Judaism, Islam, Hinduism, Buddhism, and the Chinese traditions.

RELI 640 - Religion and Law

Credits: 3
Not Repeatable
Focuses on United States Supreme Court decisions on religion clauses over the last 50 years. Provides a close reading of court's opinions and considers material from religious legal traditions. Covers contemporary political debates on issues like prayer in public schools, displays of religious symbols, ceremonial references to God, and public aid to religious schools.

RELI 642 - Sacred Language, Scripture, and Culture

Credits: 3
Repeatable within Degree
Explores how sacred languages and scriptures develop in major global religious traditions: study of grammar, syntax, and morphology of sacred languages; issues of inspiration, authority and canon. Also examines cultural dimensions of sacred language.

Prerequisite(s): Graduate standing, or permission of instructor.

Notes: May be repeated once when languages are different.

RELI 644 - Islamic Texts and Contexts

Credits: 3
Not Repeatable
Introduces foundational Islamic texts; scholarly traditions of commentary, criticism and analysis on these texts; and application and significance of these texts in contemporary Islamic discourses.

**RELI 645 - Muslim Comparative Theologies: Sunni-Shi’i Religious Thought**

Credits: 3
Not Repeatable
Compares and analyzes Sunni and Shi’ite theologies, with particular attention to the historical development of Muslim creed in the context of social and political conditions, and the essential differences between the Sunni and Shi’ite schools of thought.

**RELI 646 - Islam and Human Rights**

Credits: 3
Not Repeatable
Compares the conception of human rights in international human rights documents and accords with conceptions of human rights in classical Islamic theological, legal, and ethical texts. Examines various relevant issues, including but not limited to religious and gender discrimination, slavery, freedom of religion and belief and apostasy, and questions of punishment.

**RELI 660 - Islamic Biomedical Ethics**

Credits: 3
Not Repeatable
Examination of the foundations of religious ethics and ethical principles developed by Muslims to solve bioethical problems. Relates ethical principles to the moral experience of contemporary Muslims, and explores the role of human experience and intuitive reasoning in deriving ethical decisions.

**Rehabilitation Science (RHBS)**

Offered by the College of Health and Human Services

**RHBS 201 - Introduction to Rehabilitation Science**
Introduces the field of rehabilitation science. Surveys various topics within rehabilitation science including development of the field, models of disablement-enablement, facilitators and barriers to enablement across the lifespan.

**RHBS 270 - Applied Human Anatomy and Physiology I**

Credits: 4  
Not Repeatable  
Develops a comprehensive understanding of the interrelationships of anatomy and physiology as observed in the human organism, and introduces application of knowledge to health, disease and dysfunction. Emphasis on musculoskeletal, nervous, cardiovascular, respiratory and integumentary systems.

Equivalent to HHS 270 (2012-2013 Catalog)

**RHBS 271 - Applied Human Anatomy and Physiology II**

Credits: 4  
Not Repeatable  
Develops a comprehensive understanding of the interrelationships of anatomy and physiology as observed in the human organism, and introduces application of knowledge to health, disease and dysfunction. Emphasis on digestive, endocrine, lymphatic, genitourinary, and reproductive systems.

Equivalent to HHS 271 (2012-2013 Catalog)

**Prerequisite(s):** RHBS 270.

**RHBS 340 - Health, Disease and Dysfunction**

Credits: 3  
Not Repeatable  
Focuses on basic epidemiology, health promotion and disease prevention, as well as impairments in normal function of the individual resulting in disease and dysfunction. Exploration of the individual and societal impact of health and disease. Introduces current rehabilitation and intervention strategies as well as classification of disease and disability.
RHBS 350 - Clinical Physiology and Human Performance

Credits: 3
Not Repeatable
Investigates the study of human physiology and how it relates to physical activity, health, and functional ability. Specifically, examines the metabolic, locomotive, endocrine, cardiovascular, and pulmonary responses to physical activity and their contributions and limitations to human performance.

Prerequisite(s): College-level chemistry or permission of instructor or department chair.

RHBS 375 - Gait and Functional Movement Analysis

Credits: 3
Not Repeatable
Analyzes human gait and common structural impairments associated with functional performance. Provides the fundamental terminology, techniques, and data interpretation methods used in gait analysis and assessing human physical function.

Prerequisite(s): RHBS 270 and RHBS 271 or similar courses in human anatomy and physiology.

RHBS 390 - Clinical Assessment of Functional Capacity

Credits: 3
Not Repeatable
Examines the scientific basis and theory for exercise assessments in healthy persons and those with chronic disease and disability. Covers cardiorespiratory fitness measurements, cardiac function, body composition, muscular strength and endurance.

Prerequisite(s): Undergraduate course in anatomy and physiology or permission of instructor.

RHBS 410 - Physical Activity and Public Health
Investigates the basic principles and concepts of epidemiology and the influence of exercise and physical activity on the most common risk factors for prevalent chronic diseases in the United States of America.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer

**RHBS 415 - Clinical Movement Science I**

Credits: 3  
Not Repeatable  
Describes how the human nervous and musculoskeletal systems work together to move the human body, with special emphasis on movement disorders and disabilities. Topics include movement and motion principles, muscle force production, physiology, and adaptation, along with the measurement of muscle activity, body movements, and body forces.

**Prerequisite(s):** College-level physics or permission of instructor or department chair.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer

**RHBS 416 - Clinical Movement Science II**

Credits: 3  
Not Repeatable  
Describes how the human nervous and musculoskeletal systems work together to move the human body, with a special emphasis on movement disorders and disabilities. Topics include movement control, adaptation, and learning; experimental and clinical assessment of body movements and forces, treatment of abnormal movement, and rehabilitation technologies.

**Prerequisite(s):** RHBS 415 or permission of instructor or department chair.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

**RHBS 418 - Exercise Endocrinology**

Credits: 3  
Not Repeatable  
Explores the role of the endocrine system in the coordination and regulation of the body's internal environment under acute and chronic exercise conditions.

**Prerequisite(s):** RHBS 270 and RHBS 271 or similar course in human anatomy and physiology.

**Hours of Lecture or Seminar per week:** 3
RHBS 420 - Adult Health and Function

Credits: 3
Not Repeatable
Approaches the study of function and normal development, how it is attained and how it is optimized with a multi-systems viewpoint. Focuses on the components of functional movement. Addresses strategies for assessing, promoting and maintaining functional independence. Highlights current treatment approaches of disease and dysfunction.

RHBS 450 - Psychosocial Adaptation in Rehabilitation

Credits: 3
Not Repeatable
Examines the psychosocial impacts of rehabilitation and disability. Provides a disability perspective from the individual and society and explores the interaction between them.

Prerequisite(s): Completed RHBS 201 or permission of instructor.

RHBS 489 - Introduction to Clinical Research

Credits: 1
Not Repeatable
Provides students with a basic understanding of what clinical research is and the scientific principles on which it is based. Starts with a historical perspective on clinical research and then goes on to explore the following topics: purpose of clinical research, ethical and regulatory implications of clinical research, and the roles and responsibilities of all parties involved in clinical research.

Prerequisite(s): Course is open to honors college students only or by permission of instructor.

RHBS 490 - RS: Clinical Research Internship
RHBS 491 - Directed Research

Credits: 1-3
Repeatable within Degree
Engages students in a directed research project under the guidance of a faculty member.

Prerequisite(s): Permission of the instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-3
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

RHBS 499 - Senior Capstone in Rehabilitation Science

Credits: 3
Not Repeatable
Combines the student's academic training and professional experiences in order either to develop a community-based activity, intervention, program, or product designed to impact the overall health or performance of the target group or population or to complete an independent research project.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

RHBS 606 - Clinical Exercise Physiology
Credits: 3
Not Repeatable
Examines acute and chronic alterations and adaptations associated with exercise and training. Covers role of exercise therapy in preventing and rehabilitating from disease across lifespan. Particular emphasis on role of exercise therapy in cardiorespiratory, musculoskeletal, and metabolic diseases.

Equivalent to RHBS 506 (2013-1014 Catalog).

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

RHBS 610 - Scientific Basis for Pain and Fatigue

Credits: 3
Not Repeatable
Reviews the scientific literature describing the theories of the initiation and perpetuation of pain, fatigue and suffering. Describes the methodologies used to evaluate these symptoms. Students will apply the theories of pain, fatigue and suffering to further their understanding of specific clinical problems.

Equivalent to RHBS 510 (2013-2014 Catalog).

Prerequisite(s): Undergraduate level physiology course or enrollment in a graduate-level Rehabilitation Science program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

RHBS 620 - Psychosocial Aspects of Rehabilitation

Credits: 3
Not Repeatable
Explores social and psychological impacts of disability. Processes by which people with disabilities adapt to limitations will be examined, as will the influence society has in promoting independence/dependence among people with disabilities.

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

RHBS 650 - Foundations of Rehabilitation Science
Examines the field of rehabilitation science with emphasis on the core theories and models of this emerging discipline. Surveys various topics within rehabilitation science including the history and development of the field, assistive technologies, pathology and impairment research, functional limitations research, disability research, translational research, and ethical considerations in clinical and research settings.

Equivalent to RHBS 550 (2013-1014 Catalog).

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

RHBS 651 - Research Design and Methods I

Credits: 3
Not Repeatable
Explores quantitative and qualitative research methods, principles and techniques necessary for implementation of health science research.

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or permission of instructor.

Corequisite(s): GCH 601 or graduate course in applied statistics.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

RHBS 652 - Research Design and Methods II

Credits: 3
Not Repeatable
Explores advanced experimental and quasi-experimental research methods frequently utilized in rehabilitation research. Develop theoretical and practical knowledge necessary to conduct independent research.

Prerequisite(s): RHBS 651 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 670 - Movement Analysis of Function

Credits: 3
Not Repeatable
Applies biomechanical principles of movement to analyze functional activities, including walking, sit-stand, lifting, reaching-carrying activities, and stairs negotiation. Focuses on joints and total body kinematics and kinetics, and the contribution of muscular activity to performance. Applies methods of analyzing human motion to estimate changes in forces and moments (torques) during functional performance. Addresses how age and injuries affect functional performance.

Equivalent to RHBS 570 (2013-1014 Catalog).

**Prerequisite(s):** Enrollment in a graduate-level Rehabilitation Science program or permission of instructor

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

**RHBS 680 - Behavior Change in Chronic Illness**

Credits: 3  
Not Repeatable  
Explores behavior change as related to chronic illness, especially diabetes/obesity, cardiovascular and cerebrovascular disease, and arthritis. Topics include behavior change theories; research approaches to studying behavior change; influence of personal factors, patient-provider communication/relationships, and social support on behavior change; and adherence to prescribed regimens.

Equivalent to RHBS 580 (2013-1014 Catalog).

**Prerequisite(s):** Enrollment in a graduate-level Rehabilitation Science program or permission of instructor

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Summer

**RHBS 702 - Biobehavioral Aspects of Health**

Credits: 3  
Not Repeatable  
Examines the biological, psychological, and social factors that interact with and affect efforts people make in promoting good health and preventing illness and the recovery, rehabilitation, and psychosocial adjustment of patients with serious health problems.

**Prerequisite(s):** GCH 601 or equivalent, or a graduate-level research methods course.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**RHBS 710 - Applied Physiology I**
Examines the primary bio-regulatory and communication systems. A detailed study of physiology for graduate students interested in health and human movement, chronic illness, and disability. Covers energy metabolism, endocrine, immune, neurological, and muscular systems.

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

RHBS 711 - Applied Physiology II

Credits: 3
Not Repeatable
Explores general systemic function. A detailed study of physiology for graduate students interested in health and human movement, chronic illness, and disability. Covers cardiovascular, pulmonary, gastrointestinal, renal, and reproductive systems.

Prerequisite(s): RHBS 710.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 720 - Principles of Clinical Trials

Credits: 3
Not Repeatable
Provides a practical overview of the fundamental principles of clinical trial design and management, ethical and regulatory factors in the conduct of clinical trials, and their role in clinical practice, public health and decision making. Topics include clinical trial design, biostatistics, ethics and regulatory affairs, study management and oversight, and current concepts.

Prerequisite(s): Graduate level statistics/methods course(s) and Enrollment in a graduate level Rehabilitation Science program or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall.

RHBS 740 - Applied Physiology: Cardiorespiratory

Credits: 3
Not Repeatable
Rigorous, evidence-based study of biological factors and medial conditions that limit oxidative metabolic function. Emphasis on examining current hypotheses of physical activity limitations in chronic illness and disability.
Prerequisite(s): RHBS 506 or EFHP 610 or RHBS 710 or other graduate physiology course, plus one of the following: two-semester course sequence in anatomy and physiology (100 level or above) or one course in animal or comparative physiology (300 level or above) or one course in human physiology (300 level or above).

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**RHBS 745 - Metabolic Basis of Disability**

Credits: 3
Not Repeatable
Examines anatomy and physiology of organs and systems involved in regulating metabolism; assesses relationships among hormonal and central nervous system regulation in the production and regulation of energy.

Prerequisite(s): RHBS 710 and Enrollment in a graduate-level Rehabilitation Science program or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**RHBS 746 - Clinical Neuromechanics**

Credits: 3
Not Repeatable
Describes how the human nervous and musculoskeletal systems work together to move the human body, with a special emphasis on movement disorders and disabilities. Topics include movement and motion principles, muscle force production, physiology, and adaptation, along with the measurement of muscle activity, body movements, and body forces.

Prerequisite(s): RHBS 710

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**RHBS 750 - Physiology of Clinical Exercise Interventions**

Credits: 3
Not Repeatable
Critiques current knowledge of exercise prescription in both healthy and clinical populations. Examines physiological effects of exercise interventions, with emphasis on chronic disease and disability.

Prerequisite(s): RHBS 606 and Enrollment in a graduate-level Rehabilitation Science program or permission of instructor

Hours of Lecture or Seminar per week: 3
**RHBS 754 - Movement Disorders: Etiology, Assessment, and Analyses**

Credits: 3  
Not Repeatable  
Applies concepts of neuromechanics to the assessment and analysis of normal and pathological movement using both existing clinical assessments and laboratory-based measures of body kinematics, kinetics, muscle activity, and perception/cognition interactions with movement. Discusses benefits and limitations of assessment and analysis techniques as well as current research with regard to advancing these techniques.

**Prerequisite(s):** RHBS 746 and Enrollment in a graduate-level Rehabilitation Science program or permission of instructor

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**RHBS 760 - Rehabilitation Science Colloquium**

Credits: 1  
Repeatable within Degree  
Public forum for the presentation and discussion of contemporary issues in the field of rehabilitation science.

**Prerequisite(s):** Enrollment in PhD program in Rehabilitation Science or permission of the graduate director.

**Notes:** May be repeated for credit; however a maximum of three credits may be applied to the rehabilitation science Ph.D.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit  
**When Offered:** Fall, Spring

**RHBS 761 - Aging and Health Behavior**

Credits: 3  
Not Repeatable  
Examines age-related changes in health and health behavior along with the impact of structural factors, societal, and personal attitudes toward aging. The successful aging paradigm will frame discussion of strategies for facilitating optimal health behaviors.

**Prerequisite(s):** RHBS 620 and enrollment in a graduate-level Rehabilitation Science program or permission of instructor

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring
RHBS 808 - Outcomes Measurement

Credits: 3
Not Repeatable
Examines the principles of measurement applied to both assessment and outcome measures commonly used in rehabilitation. The student will become familiar with the state of outcomes research in the field of rehabilitation science.

Prerequisite(s): RHBS 550 and RHBS 551.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 816 - Comparative Effectiveness Research

Credits: 3
Not Repeatable
Examines the theory and methods of comparative effectiveness studies and their relationship to developing Rehabilitation Science and other disciplines to effect better clinical practice by identifying benefits/harms of prevention and treatment and explores the implications of evidence for comparative effectiveness in developing health care policy.

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring.

RHBS 850 - Teaching Practicum

Credits: 3
Repeatable within Degree
Prepares students for teaching role as an academic through direct teaching experiences in undergraduate courses in Rehabilitation Science under the supervision of a graduate faculty member, including syllabus development, lecture preparation, presentation skills, grading, and course evaluation.

Prerequisite(s): Permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Spring

RHBS 894 - Special Topics in Rehabilitation Science
RHBS 894 - Contemporary Topics in Rehabilitation Science
Credits: 3
Repeatable within Term
In-depth study of contemporary topics in Rehabilitation Science. Course topics vary each semester.

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or Permission of instructor.

Notes: Students may take up to 9 credits of RHBS 894 with permission of program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

RHBS 940 - Independent Study
Credits: 1-6
Repeatable within Degree
In-depth study of selected area of rehabilitation science under the direction of faculty.

Prerequisite(s): Enrollment in PhD program and permission of instructor.

Notes: May be repeated as needed, up to a maximum of 24 credits.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-12
Grading: Satisfactory/No Credit
When Offered: Fall, Spring, Summer

RHBS 960 - Directed Research
Credits: 1-6
Repeatable within Term
Research on a pertinent topic in rehabilitation science. Must be arranged with instructor before registering.

Prerequisite(s): Permission of instructor.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

RHBS 998 - Doctoral Dissertation Proposal
Credits: 1-9
Repeatable within Term
Work on research proposal that forms basis for doctoral dissertation.

Prerequisite(s): Advancement to PhD candidacy.
RHBS 999 - Dissertation Research

Credits: 1-9
Repeatable within Degree
Dissertation research on a specific topic under the direction of a faculty member.

Prerequisite(s): Enrollment in PhD program in rehabilitation science and permission of graduate director.

Notes: May be repeated, up to a maximum of 24 credits.

Russian (RUSS)

Offered by the College of Humanities and Social Sciences.

Placement: See Academic Testing in the Admissions section.

RUSS 101 - Elementary Russian I

Credits: 3
Not Repeatable
For students with no knowledge of Russian. Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Notes: Students may not receive credit for RUSS 101 and RUSS 110.

RUSS 102 - Elementary Russian II

Credits: 3
Not Repeatable
Continuation of RUSS 101.
**RUSS 110 - Elementary Russian**

Credits: 6  
Not Repeatable  
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

**Notes:** Students may not receive credit for RUSS 110 and RUSS 101, 102.

**Hours of Lecture or Seminar per week:** 6  
**Hours of Lab or Studio per week:** 0

**RUSS 199 - Russian Language and Culture for Students and Professionals**

Credits: 3  
Not Repeatable  
Designed for English-speaking specialists in humanities, sciences, and business studies in Russia. Covers range of topics, including elementary Russian phonetics and grammar, basic conversation, and Russian etiquette. Course theme is language needs of foreigners who happen to be traveling and conducting business activities in Russia. Acquaints students and professionals with cultural framework that forms indispensable backdrop to daily activities in Russia. Students become increasingly confident and effective in their ability to engage Russians from all walks of life in daily informal and professional conversation in the Russian language.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RUSS 201 - Intermediate Russian I**

Credits: 3  
Not Repeatable  
Further development of skills in listening, speaking, reading, and writing.

**Prerequisite(s):** RUSS 102, appropriate placement score, or permission of department.

**Notes:** RUSS 201 and 202 must be taken in sequence. Students may not receive credit for RUSS 201 and RUSS 210.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
RUSS 202 - Intermediate Russian II

Credits: 3
Not Repeatable
Application of language skills to reading, composition, and discussion.

Prerequisite(s): RUSS 201, appropriate placement score, or permission of department.

Notes: Students may not receive credit for RUSS 202 and RUSS 210.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 210 - Intermediate Russian

Credits: 3
Not Repeatable
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Russian-speaking regions. Lab work required.

Prerequisite(s): RUSS 110 or appropriate placement score.

Notes: Students may not receive credit for RUSS 210 and RUSS 101, 102.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

RUSS 250 - Gateway to Advanced Russian

Credits: 3
Not Repeatable
Integration of advanced intermediate-level Russian grammar, reading, writing, listening and speaking skills with the development of research skills and critical thinking about authentic texts from contemporary media.

Prerequisite(s): RUSS 210, appropriate placement score, or permission of department.

Notes: Taught in Russian.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 302 - Russian Conversation and Composition

Credits: 3
Not Repeatable
Develops in students ability to express themselves orally on topics of current interest and everyday situations. Provides practice
in more difficult forms of written expression.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** RUSS 250, appropriate placement score, or permission of instructor

**Notes:** Taught in Russian.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**RUSS 303 - Russian Advanced Conversation**

Credits: 3  
Not Repeatable

Development of oral proficiency. Includes current colloquial expressions.

**Prerequisite(s):** RUSS 250, appropriate placement score, or permission of instructor.

**Notes:** Taught in Russian.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**RUSS 310 - Readings in Russian Literature**

Credits: 3  
Not Repeatable

Readings of Russian literary works in original language with lectures, discussions, and exam in Russian.

**Prerequisite(s):** RUSS 250, appropriate placement score or permission of instructor.

**Notes:** Taught in Russian.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**RUSS 311 - Contemporary Russian Short Fiction**

Credits: 3  
Not Repeatable

Reading and discussion of recent short stories by best-known Russian writers of today.

**Prerequisite(s):** RUSS 250, appropriate placement score or permission of instructor.

**Notes:** Taught in Russian. Readings in original language.
RUSS 325 - Major Russian Writers

Credits: 3
Repeatable within Term
Study of works of major Russian writers in translation. Writers to be studied vary.

Fulfills Mason Core requirement in literature.

Fulfills writing intensive requirement in the major.

Prerequisite(s): ENGL 101/ENGH 101 or equivalent, or permission of instructor.

Notes: Taught in English. May be repeated once for credit when course content is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 326 - A Survey of Russian Literature

Credits: 3
Not Repeatable
Surveys Russian literature from its beginning to 1880.

Fulfills Mason Core requirement in literature.

Prerequisite(s): 60 credits, or permission of instructor.

Notes: Taught in English.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 327 - A Survey of Russian Literature

Credits: 3
Not Repeatable
Surveys Russian literature of late 19th and 20th centuries.

Fulfills Mason Core requirement in literature.

Prerequisite(s): 60 credits, or permission of instructor.

Notes: Taught in English.
RUSS 353 - Russian Civilization

Credits: 3
Not Repeatable
Civilization and culture of Russia and former Soviet Union. Includes films, slides, and music in addition to readings and lectures.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): 60 credits, and completion or concurrent enrollment in all other required Mason Core courses.

Notes: Taught in English. Fulfills the college requirement in non-Western culture.

RUSS 354 - Contemporary Post-Soviet Life

Credits: 3
Not Repeatable
Social life, art, economics, education, view of life, and personal aspirations of Russian citizen today.

Fulfills Mason Core requirement in global understanding.

Prerequisite(s): 60 credits, or permission of instructor.

Notes: Taught in English. Fulfills the college requirement in non-Western culture.

RUSS 380 - Advanced Russian I

Credits: 3
Not Repeatable
Comprehensive study of the more difficult characteristics of contemporary standard Russian in areas of grammar, style, and vocabulary usage. Emphasizes developing fluency in oral and written expression.

Prerequisite(s): RUSS 202, 209, or equivalent; appropriate placement score; or permission of instructor

Notes: Taught in Russian.
RUSS 381 - Advanced Russian II

Credits: 3
Not Repeatable
Comprehensive study of the more difficult characteristics of contemporary standard Russian in areas of grammar, style, and vocabulary usage. Emphasizes developing fluency in oral and written expression.

Prerequisite(s): RUSS 202, 250, or equivalent; appropriate placement score; or permission of instructor.

Notes: Taught in Russian.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 401 - Readings in the Social Sciences

Credits: 3
Not Repeatable
Reading, translation, and discussion of Russian materials in fields of history, politics, geography, and sociology.

Prerequisite(s): 15 credits of Russian or equivalent.

Notes: Taught in Russian.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 407 - Russian Drama and Theater

Credits: 3
Not Repeatable
Development of Russian theater including directing techniques in Moscow Art Theater. Reading and discussion of major Russian plays of 19th and 20th centuries.

Prerequisite(s): 60 credits, or permission of instructor.

Notes: Course work in English; knowledge of Russian not required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 410 - Russian Poetry
Credits: 3
Not Repeatable
Historical development of Russian poetry and representative works of major poets.

Prerequisite(s): 15 credits of Russian or equivalent.

Notes: Reading in Russian; course work in English and Russian.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 470 - Topics in (Post) Soviet Film

Credits: 3
Repeatable within Degree
Russian, Soviet, and post-Soviet films selected by type, period, or director with emphasis varying from year to year. Required viewings, student discussion, and written critiques.

Prerequisite(s): 60 credits, or permission of instructor.

Notes: Taught in English. May be repeated once with permission of department or film studies adviser.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 480 - Fourth-Year Russian

Credits: 3
Not Repeatable
Advanced work in major grammatical and lexical topics of Russian. Application of theoretical principles in guided written and oral exercises.

Prerequisite(s): RUSS 380, 381, or equivalent; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 481 - Fourth-Year Russian

Credits: 3
Not Repeatable
Advanced work in major grammatical and lexical topics of Russian. Application of theoretical principles in guided written and oral exercises.

Prerequisite(s): RUSS 380, 381, or equivalent; or permission of instructor.
RUSS 490 - Independent Study

Credits: 1-3
Not Repeatable
Research and analysis of selected problem in language, literature, or culture in consultation with member of Russian studies faculty.

Prerequisite(s): Russian studies major with 90 credits and permission of instructor.

RUSS 491 - Independent Study

Credits: 1-3
Not Repeatable
Research and analysis of selected problem in language, literature, or culture in consultation with member of Russian studies faculty.

Prerequisite(s): Russian studies major with 90 credits and permission of instructor.

RUSS 499 - Seminar on Russian Literary and Critical Bibliography

Credits: 3
Not Repeatable
Comprehensive bibliographic survey of major primary and secondary works of Russian literature and criticism.

Prerequisite(s): Russian studies major with 90 credits and permission of instructor.

School of Business (BUS)

BUS 100 - Business and Society
Credits: 3  
Not Repeatable  
Provides students with a foundation for understanding the role of business in society by exploring the nature and history of business enterprise, the social context of business, and the interaction of individuals with business by selecting current events in business and analyzing the content as well as the impact of the reported activities.

Fulfills Mason Core requirement in social and behavioral science.

Equivalent to SOM 100 (2014-2015 Catalog).

**BUS 103 - Develop Professional Skills I: Foundational Elements**

Credits: 3  
Not Repeatable  
Students will investigate and develop their professional skill set. Topics include introduction to the business school and business world, what it means to be professional, how to consume the business press, and how to research business issues. Develop professional writing and presentation skills, explore career options and the job search process, and develop personal educational and professional development plans.

Prerequisite(s): Degree status.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**BUS 200 - Global Environment of Business**

Credits: 3  
Not Repeatable  
As world becomes increasingly connected, business serves as core institution that mediates relations between individuals across national boundaries. Provides overview of global environment of business through study of political economy, international institutions and international trade theories, and global conflicts and cooperation around issues (natural resources, labor, human rights, distribution of income, and the environment). Addresses implications of topics for business.

Fulfills Mason Core requirement in global understanding.

Prerequisite(s): Degree status.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

**BUS 210 - Business Analytics I**
Course introduces business analytics and why businesses use analytics to create and sustain competitive advantage. Topics include data types, summarization and graphical display of data, application of basic probability rules, and probability distributions. Introduces fundamentals of spreadsheets and their use in business applications. Learn how to apply appropriate analytical tools to gain useful insights from real-life datasets.

**Prerequisite(s):** Degree status.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**BUS 303 - Develop Professional Skills II: Advanced Elements**

Credits: 3  
Limited to 3 Attempts  
In this course, students will continue to develop their professional skill set. Topics covered include understanding the modern work environment, business ethics and professional responsibilities, and professional judgment. Students will also continue to hone their professional writing and presentation skills, prepare for the job search process, and develop personal job search and professional development plans.

**Prerequisite(s):** Grade of C or higher in BUS 103. Degree status. Prerequisite enforced by registration system.

**Notes:** School of Business students will not be permitted to make more than three attempts to achieve a C or higher in BUS 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**BUS 310 - Business Analytics II**

Credits: 3  
Not Repeatable  
Introduces modeling relationships contained in data and linear models to make predictions in business. Topics include estimation, hypotheses testing, statistical inference, analysis of variance and linear regression techniques. Fundamentals of linear programming to solve optimization problems in business. Apply analytical tools to gain insights from real-life datasets. Hands-on experience and application of the methods to data sets using spreadsheet software.

**Prerequisite(s):** Grade of C or higher in BUS 210. Degree status. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring
BUS 492 - Undergraduate Internship

Credits: 3  
Not Repeatable  
Opportunity to gain practical, professional experience in conjunction with academic development. Internship is an important part of academic and career preparation. May be used as elective credit, but may not be repeated.

Prerequisite(s): Grade of C or higher in the 301 or 303 in the major. ISOM majors must complete MIS 301 or MIS 303 and OM 301 or OM 303. Degree status.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

BUS 498 - Capstone Course: Advanced Business Models

Credits: 3  
Not Repeatable  
Advanced integrated exploration of business models and industry dynamics that uses case analyses to assess competition, organizational strategy, and firm performance. Students examine strategic change in organizations from multiple perspectives, integrating knowledge from core course work into several papers and major presentation. Students receive coaching from area business leaders as they complete their presentations.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): One course from each of the following groups:
ACCT 301, ACCT 303 or ACCT 330  
BULE 302 or BULE 303  
BUS 303 or SOM 301  
BUS 310 or OM 210  
FNAN 301 or FNAN 303  
MGMT 301 or MGMT 303  
MIS 301 or MIS 303  
MKTG 301 or MKTG 303  
OM 301 or OM 303

Senior standing; Degree status. Prerequisite enforced by registration system.

Notes: Fulfills synthesis requirement for School of Business majors.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring, Summer

School of Management (SOM)

Offered by the School of Business.
SOM 301 - Business Models: A Communication Approach

Credits: 3
Limited to 3 Attempts

Introduces fundamentals of business models, and writing as learning tool. Interrelationships among accounting, finance, information systems, marketing, and operations are subject of several "learning by writing" deliverables.

School of Business students will not be permitted to make more than three attempts to achieve a C or higher in SOM 301. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

Fulfills writing intensive requirement in the major.

Notes: Fulfills writing intensive requirement for the School of Business students. Taught in lecture/recitation format; requires attendance at weekly lecture and weekly recitation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

Social Work (SOCW)

Offered by the College of Health and Human Services

SOCW 110 - Global Perspectives on Human Rights

Credits: 3
Not Repeatable
Explores awareness about human rights issues around the world. Students will become familiar with current debates about human rights, especially whether rights should be culturally determined. The role of the United Nations, governmental and nongovernmental organizations, including social service organizations will be presented. Emerging issues including the rights of children; the rights to food, shelter, and health care; and racial and economic equality will be emphasized.

Notes: Open to social work and nonsocial work majors; does not count toward the social work degree requirements.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 200 - Introduction to Social Work
Introduces historical roots of social work profession and social welfare. Person-in-environment perspective discussed as framework for social work knowledge, values, and skills. Initial course in social work curriculum introduces social work profession, professional values, ethics, fields of practice, and settings in which social workers are employed. Highlights profession's commitment to diverse and at-risk populations and social and economic justice. Presentations by social work professionals in different fields of practice supplement classroom lecture, discussion, and small-group exercises.

Notes: Open to all majors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 311 - Building Professional Social Work Skills**

Credits: 3
Not Repeatable
Apply basic social work concepts and the planned change process to beginning-level professional generalist practice. Develop a professional sense of self, and how to work in a social work setting. Practice course material in an agency setting through a 40 hour service learning experience.

Prerequisite(s): SOCW 200.

Notes: Open to Social Work majors only.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**SOCW 312 - Knowledge Building for Helping Professionals**

Credits: 3
Not Repeatable
Integrates critical thinking skills with an understanding of how knowledge is created and associated with the scientific paradigms that are used to study and understand individuals in the context of the environment. Examines ways of knowing used in the social sciences and social work by being actively engaged in exercises and activities.

Prerequisite(s): SOCW 200.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**SOCW 357 - Methods of Social Work Intervention I**

Credits: 3
Not Repeatable
Social work practice from systems perspective. Particular emphasis on problem-solving activities with microsystems. Analyzes common core of knowledge, values, and skills essential to social work practice to gain insight into social work functions and role of social worker as change agent.

**Prerequisite(s):** SOCW 200, SOCI 101, PSYC 100, or permission of the instructor.

**Corequisite(s):** SOCW 301.

**Notes:** Open only to Social Work majors.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCW 358 - Methods of Social Work Intervention II**

Credits: 3  
Not Repeatable  
Continues generic problem-solving model, focusing on group and macro intervention systems, settings, and skills. Emphasizes working with both treatment and task groups. Group processes, such as goal formulation, contract setting, composition, and termination necessary for effective worker intervention, are part of knowledge base.

**Prerequisite(s):** SOCW 301 and 357 with a minimum grade of C. Prerequisite enforced by registration system.

**Corequisite(s):** SOCW 362.

**Notes:** Open to majors only.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCW 359 - Junior Seminar**

Credits: 1  
Not Repeatable  
Provides opportunity to integrate theory, research, and practice in area of group work. Time is allotted to process successes and obstacles, and to share issues, knowledge, and skills learned in service-learning site.

**Prerequisite(s):** SOCW 301

**Corequisite(s):** Must be taken simultaneously with SOCW 358.

**Notes:** Forty hours of service learning are required. Open to SOCW majors only.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

---

**SOCW 361 - Methods of Social Work Intervention I: Laboratory**
Develop proficiency in social work and communication skills. Increase competency in practice knowledge and behaviors through experiential learning in the classroom laboratory. Apply knowledge of biological, psychological, social, spiritual, and cultural influences to those who need and those who give help. Examine personal behavioral and learning patterns, values, ethics, and attitudes to increase ability to understand and help clients.

**Prerequisite(s):** SOCW 200.

**Corequisite(s):** SOCW 357.

**Notes:** Open to Social Work majors only.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 2  
**When Offered:** Fall

---

**SOCW 362 - Methods of Social Work Intervention II: Laboratory**

Credits: 2  
Not Repeatable  
Provides students the opportunity to integrate theory, research, and practice in the area of group work and family interventions. Classroom simulation of group skills and how to work with families will occur.

**Prerequisite(s):** SOCW 200; SOCW 357; SOCW 361. Prerequisite enforced by registration system.

**Corequisite(s):** SOCW 358.

**Notes:** Open to SOCW majors only.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 2  
**When Offered:** Spring

---

**SOCW 375 - Human Behavior and the Family Life Course**

Credits: 3  
Not Repeatable  
This course utilizes an integrative ecological approach to understanding individual human behavior in the context of the family and the transitions over the life course. The family life course perspective recognizes the interdependent nature of life course experiences and highlights the impact of life events, transitions and change, timing, and historical and social context.

**Prerequisite(s):** SOCW 200; BIOL 103; PSYC 100; SOCI 101.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring
SOCW 380 - Changing Social Policies and Systems

Credits: 3
Not Repeatable
Equips students with basic macro social work practice skills necessary to create change that will result in a more socially and economically just society. Examines the historical development, central concepts, and institutional nature of current social policies and systems and how to create change at various levels. Applies practice skills to developing strategies for change.

Prerequisite(s): SOCW 200.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SOCW 390 - Analytic Methods for Social Work Research

Credits: 3
Not Repeatable
Provides a basic introduction to quantitative and qualitative analytic methods for the social worker. The course will emphasize a conceptual understanding of analyses so that students will be able to engage in social debates with the ability to both support their assertions with rigorously generated analyses, as well as question the generalizability and utility of others' analyses.

Prerequisite(s): SOCW 200.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SOCW 400 - Legal and Ethical Issues in Human Services

Credits: 3
Not Repeatable
Overview of ethical and legal issues related to human services professions. Topics include responsibility, competence, duty to warn, confidentiality, professional relationships, and research. Emphasizes models of ethical decision making and critical thinking.

Prerequisite(s): 45 credits or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 410 - Alcohol and Substance Abuse: Policies and Programs

Credits: 3
Not Repeatable
Primary issues related to alcoholism and drug abuse including key concepts, theories, policies, and research regarding use and
abuse of alcohol and other drugs. Emphasizes impact of policies and programs on well-being of ethnic minority and disadvantaged service populations.

Prerequisite(s): 45 credits or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 415 - Child and Family Welfare

Credits: 3
Not Repeatable
Emphasizes viewing human development and child and family welfare services critically, holistically, and contextually. Integrates ecological systems, human rights, and empowerment perspectives for understanding delivery systems and persons in relation to their environment across levels from individual to global. Provides overview of existing child welfare system with focus on current issues, challenges, and at-risk populations.

Prerequisite(s): 45 credits or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 435 - Introduction to Gerontology

Credits: 3
Not Repeatable
Surveys issues related to working with older adults, their families, and care providers. Studies biological, psychological, and sociocultural aspects of aging, and unique problems with service delivery to older persons. Examines forces that impinge on an older person, and explores critical issues related to extended life span, family changes, institutionalization, and role of older persons in society.

Prerequisite(s): 45 credits, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SOCW 445 - Social Determinants of Health

Credits: 3
Not Repeatable
Examine the social determinants of health and the application of this framework to social work and public health policy and practice interventions. Explore the many social justice factors that affect health and consider which community systems and social change approaches may decrease or eliminate health inequities.

Equivalent to GCH 445
Prerequisite(s): 45 credits or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

SOCW 452 - Senior Seminar I

Credits: 2
Not Repeatable
Provides integrative team experience to support field experience and provide opportunities to demonstrate required competencies through special assignments.

Prerequisite(s): SOCW 200, 301, 357, 358, 362, 323, 340, 351, and 370 with a C or better and recommendation of faculty. Open only to SOCW majors.

Corequisite(s): SOCW 453.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

SOCW 453 - Senior Practicum I

Credits: 3
Not Repeatable
Supervised learning experience (practicum) under guidance of qualified faculty liaisons and professional staff designated and approved by director of field education. Designed to facilitate practice with individuals, families, groups, and communities. Students spend two full days weekly in practicum sites.

Prerequisite(s): SOCW 200, 301, 357, 358, 362, 323, 340, 351, and 370 with a C or better and recommendation of faculty. Open only to SOCW majors.

Corequisite(s): SOCW 452.

Notes: Requires concurrent seminar (SOCW 452) participation and faculty-agency visits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

SOCW 454 - Senior Seminar II

Credits: 2
Not Repeatable
Continuation of integrative team experience designed to support practicum experience and provide opportunities to demonstrate required competencies through special assignments.
**Prerequisite(s):** SOCW 452, 453, 471 with a grade of C or better.

**Corequisite(s):** SOCW 456

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0

---

**SOCW 456 - Senior Practicum II**

Credits: 3  
Not Repeatable  
Continuation of supervised learning experience (practicum) begun in SOCW 453. Students spend two full days weekly in practicum sites supervised by faculty liaisons and qualified professional staff designated and approved by director of field education.

**Corequisite(s):** SOCW 454

**Notes:** Requires concurrent seminar participation (SOCW 454) and faculty-agency visits. Open to SOCW majors only.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit

---

**SOCW 471 - Research in Social Work**

Credits: 3  
Not Repeatable  
Principles and theory underlying scientific inquiry. Emphasizes use of research in social work practice, steps in conducting research, and research efforts in developing and evaluating social work knowledge and skills.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** SOCW 200; SOCW 312; ENGH 302;

**Corequisite(s):** SOCW 452; SOCW 453; Choose one of the following: SOCW 390, STAT 250, SOCI 313, or PSYC 300.

**Notes:** Must be completed with minimum grade of C.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**SOCW 472 - RS: Integrative Methods in Social Action and Social Change**

Credits: 3  
Not Repeatable  
Uses generalist social work practice concepts with large systems and provides students with a hands-on opportunity to apply
concepts and principles of intervention with large systems. Students will work with organizations and communities on a local, national, or global level to promote social action and social change. The course will also focus on evaluating interventions addressing the social justice needs of diverse, at-risk, and oppressed populations.

Designated as a research and scholarship intensive course.

Prerequisite(s): SOCW 452, SOCW 453 and SOCW 471.

Notes: Open only to Social Work majors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**SOCW 475 - Selected Topics in Social Work Policy**

Credits: 3
Repeatable within Term
In-depth study of special areas of social work of interest to students, faculty, and social work community.

Prerequisite(s): 45 credits, or permission of instructor.

Notes: May be repeated for maximum 9 credits if topics vary.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 480 - Research Internship in Health and Human Services**

Credits: 3
Not Repeatable
The student works as a member of a team engaged in health and human services research and attends a bi-weekly research seminar. Under direction of the course seminar leader and the faculty research mentor, the student will acquire selected research skills and develop introductory research writing and presentation skills.

Equivalent to HHS 480, HAP 480

Prerequisite(s): Open only to CHHS majors or students who have completed CHHS minor or certificate courses.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**SOCW 483 - Selected Approaches to Social Work Intervention**
Credits: 3
Repeatable within Term
Opportunity to examine personal use of different approaches to social work intervention currently employed in practice settings. Students use technical skills with clients that these approaches require.

Prerequisite(s): 45 credits, or permission of instructor.

Notes: May be repeated for maximum 9 credits if topics vary.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 499 - Independent Study in Social Work**

Credits: 1-3
Repeatable within Degree
Investigates research problem in field of social work.

Prerequisite(s): 60 credits and research proposal approved by instructor before enrollment.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 598 - Special Topics in Social Work**

Credits: 1-6
Repeatable within Degree
Critical examination of special topics related to social work, social justice, and human rights.

Prerequisite(s): Upper-level undergraduate or graduate standing.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

**SOCW 623 - Human Behavior and Social Systems I**

Credits: 3
Not Repeatable
Ecological approach to behavior of individuals, families, groups, organizations, and communities. Integrates and applies theories from psychology, sociology, biology, and anthropology to study of infants, children, and adolescents. Emphasizes human diversity.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SOCW 624 - Human Behavior and Social Systems II

Credits: 3
Not Repeatable
Continues study of human behavior and diversity by exploring application of development theory and ecological principles to those in young adulthood, middle adulthood, and older adulthood.

Prerequisite(s): SOCW 623.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 630 - Forensic Social Work Practice

Credits: 3
Not Repeatable
Explores the social work role in legal processes relating to such issues as family violence, child custody, behavioral health, disabilities, aging, and juvenile/criminal justice. Apply skills in forensic interviewing, risk assessment, expert testimony, mitigation, mediation, treatment, victim advocacy, and multidisciplinary collaboration.

Prerequisite(s): SOCW 624, 652, 658, and 673.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 640 - Advanced Clinical Practice

Credits: 3
Not Repeatable
Prepares students at the advanced level to apply diagnostic, assessment, prevention, treatment, and intervention skills with individuals, families, and groups in clinical mental health and health settings. Trains students in differential diagnosis and assessment using the Revised Diagnostic and Statistical Manual (DSM IV-TR). Currently accepted treatment interventions within the context of contemporary social work theory are also presented.

Prerequisite(s): SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673 and 680

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 645 - Community-Centered Clinical Practice

Credits: 3
Not Repeatable
Students use an ecosystems framework for assessment, risk-reduction, prevention, and intervention with communities in a local,
national, or international context. Possible areas of exploration include violence prevention and intervention, suicide prevention and intervention, emergency response efforts, and behavioral health or wellness interventions at the community level.

Prerequisite(s): SOCW 624, 652, 658, and 673.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 651 - Social Policies, Programs, and Services

Credits: 3
Not Repeatable
History of American social welfare policy and social work profession. Explores political, economic, social, cultural, and ideological influences on policy making with emphasis on consequences for populations at risk. Introduces historical policy analysis.

Prerequisite(s): Graduate standing

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 652 - Influencing Social Policy

Credits: 3
Not Repeatable
Introduces students to the knowledge, skills, and values needed to influence policy outcomes. Explores the role of social workers in electoral politics and policy advocacy. Students gain skills in legislative research, coalition building, testifying, constituent organizing, and lobbying, while developing strategies for promoting social justice through policy change.

Prerequisite(s): SOCW 651.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 653 - Immigration Policy

Credits: 3
Not Repeatable
Prepares students for advocacy on behalf of immigrants from a human rights and social justice perspective. Explores policies, economic forces and historical precedence abetting global migration. Abets development of an in-depth knowledge of national and local policies as they pertain to immigrants, and how issues relate to social work advocacy.

Prerequisite(s): Completion of all first-year graduate coursework or advanced standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer
SOCW 654 - Social Policy for Children and Youth

Credits: 3
Not Repeatable
Examines social policies, programs, and services on behalf of children and youth with implications for social work; including child welfare, child and adolescent health and mental health, juvenile justice, and school social work. Explores how societal norms regarding family and definitions of children's well-being influenced these policies over time.

Prerequisite(s): Completion of MSW foundation coursework.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

SOCW 655 - Aging Programs and Policies

Credits: 3
Not Repeatable
Analyzes the evidence-based benefits and challenges of social welfare and health care policy at the local, state, and federal levels on programs and services for older persons and their families. Fosters an understanding of the context of administrative structures, and legislative context of social policy and aging with attention to diversity and ethics.

Prerequisite(s): SOCW 652 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

SOCW 657 - Direct Social Work Practice I

Credits: 3
Not Repeatable
Introduces role of social workers as change agents and the core knowledge, values, and skills that guide social work practice with individuals, families, small groups, organizations, and communities.

Prerequisite(s): Graduate standing and open only to students enrolled in MSW degree program.

Corequisite(s): SOCW 672.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 658 - Direct Social Work Practice II
Continuation of social work theory and practice with individuals, families, groups, organizations, and communities. Emphasizes intervention, evaluation, follow-up, and termination, with attention to incorporating social work knowledge, values, and skills.

**Prerequisite(s):** SOCW 657; Open to students enrolled in MSW degree program

**Corequisite(s):** SOCW 673

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**SOCW 663 - Global Human Rights Policy**

Credits: 3  
Not Repeatable  
Examines meaning and benefits of transforming social work policy practice to a global perspective and focus on a human rights-based rather than a needs-based approach. Demonstrates how human rights can serve as conceptual framework for policy practice to effect social change promoting human development and social and economic justice across levels, from the micro through macro and local through global.

**Prerequisite(s):** Completion of MSW Foundation curriculum or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**SOCW 664 - Art Therapy and Social Work**

Credits: 3  
Not Repeatable  
Explores the principles and techniques of art therapy for social work practice, examining assessment, intervention and evaluation strategies that supplement traditional social work treatment. Course covers theory, research, and interventions applied to individuals, families, groups, and communities.

**Prerequisite(s):** Completion of MSW Foundation curriculum or permission of instructor.

**Notes:** Previous training in the visual arts and/or artistic ability is not required.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**SOCW 665 - Integrated Behavioral Health Policy**

Credits: 3  
Not Repeatable
Examines policy concerns and strategies for implementing integrated behavioral health care models. Identifies practice models that integrate substance abuse and mental health with primary health care. Provides an overview of the U.S. health care system, including legislation, financing, and health care disparities. Students will develop an understanding of access to health care as a social justice concern.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**SOCW 670 - Communication and Technology for Social Work Practice**

Credits: 3  
Not Repeatable  
Studies various forms of written communication pertinent to social work practice. Examines impact of audience, status, culture, and purpose on effective professional writing.

**Prerequisite(s):** Graduate standing.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCW 671 - Research Methods for Social Workers**

Credits: 3  
Not Repeatable  
Examines role of scientific inquiry in social work. Emphasizes construction and use of measurement instruments, data collection, analysis, and interpretation, and application of computer technologies relevant to social work practice.

**Prerequisite(s):** Graduate Standing.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCW 672 - Foundation Field Practicum and Seminar I**

Credits: 3  
Not Repeatable  
Provides supervised social work learning experience in human service agencies. Students complete 16 hours per week in field practicum, and attend bimonthly seminar in which they share learning and integrate theory with practice.

**Corequisite(s):** SOCW 657.

**Notes:** Open only to MSW degree students.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0
SOCW 673 - Foundation Field Practicum and Seminar II

Credits: 3
Not Repeatable
Continues the supervised social work learning experience begun in SOCW 672. Students spend 16 hours per week in field practicum, and attend bimonthly seminar in which they share learning, process experiences, and integrate theory with practice.

Prerequisite(s): SOCW 672.
Corequisite(s): SOCW 658.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Spring

SOCW 674 - Psychopathology

Credits: 3
Not Repeatable
Overview of adult and child psychopathology presented within the contexts of the lives of people experiencing mental disorders and the social contexts that can have a bearing on symptom maintenance. Learn to formulate competency-based assessments and DSM IV-TR-based differential diagnoses.

Prerequisite(s): All foundation year coursework (SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, and 673).

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 675 - Selected Topics in Clinical Practice

Credits: 3
Repeatable within Term
In-depth study of special topics related to clinical social work practice at the individual, family, small group, or community level.

Prerequisite(s): 30 credits or permission of instructor.

Notes: May be repeated for a maximum of 12 credits if the topics vary.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SOCW 676 - Selected Topics in Social Work and Social Change

Credits: 3  
Repeatable within Term  
Critical examination of special topics related to understanding and improving community and societal conditions through policy practice, program development, and social action.

Prerequisite(s): 30 graduate credits or permission of instructor.

Notes: May be repeated for a maximum of 12 credits if the topics vary.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SOCW 677 - Family Therapy

Credits: 3  
Not Repeatable  
Examines research and theory relevant for assessment and intervention with families. Students will learn to conduct a family assessment, taking cultural diversity, non-traditional family structures including single-parent and GLBTQ families, and socioeconomic factors into account. Students will develop skills in implementing an intervention based on the family's strengths and challenges.

Prerequisite(s): Completion of MSW foundation coursework.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring, Summer

SOCW 678 - Trauma and Recovery

Credits: 3  
Not Repeatable  
Explores complex traumatic stress disorders, the process of recovery, and the etiology of healing in contemporary North American Culture. Diagnostic criteria, assessment strategies and evidence-based treatment options for complex traumatic stress disorders across diverse populations including sexual trauma, war, early childhood trauma and natural disasters will be addressed.

Prerequisite(s): Completion of MSW foundation coursework.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring, Summer

SOCW 679 - Military Social Work
Credits: 3  
Not Repeatable  
Examines research and theory relevant for social work practice with service members, veterans, and their families. The course addresses the military as a workplace culture, evidence-based approaches for post-traumatic stress and co-morbid conditions, clinical practice with military families, preventive care and the service delivery system in military and civilian settings.  

Prerequisite(s): Completion of MSW foundation coursework.  

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring, Summer  

SOCW 680 - Clinical Field Practicum  

Credits: 6  
Not Repeatable  
Supervised social work learning experience four days per week. Students placed in public, nonprofit or for-profit mental health and health venues reflecting specific interests in advanced clinical practice with individuals, families and groups, community-centered clinical practice, or forensic social work.  

Prerequisite(s): SOCW 673, 630, 640, 645, and 688  

Hours of Lecture or Seminar per week: 1-3  
Hours of Lab or Studio per week: 0  

SOCW 681 - Clinical Field Seminar  

Credits: 3  
Not Repeatable  
Assists students in critically analyzing their field experiences in the application of mental health assessment and interventions, working with individuals, families, groups, and communities. Students are expected to apply social work knowledge, values, and skills from their advanced clinical course work.  

Corequisite(s): SOCW 680.  

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  

SOCW 682 - Substance Abuse Interventions  

Credits: 3  
Not Repeatable  
Develops knowledge and skills for direct practice in the field of addictions. The course covers the knowledge base regarding evidence-based interventions at all stages in the process of intervention with individuals, families, and groups that promote recovery from addiction to drug and alcohol abuse.  

Prerequisite(s): Completion of MSW foundation coursework.
SOCW 684 - Social Work and the Law

Credits: 3
Not Repeatable
Students engage in close analysis of judicial opinions to explore the role of the courts in creating public policy. Areas of inquiry include the role of social workers in the legal system, the nature of legal proceedings, and how the law shapes policy in relation to issues affecting children, youth, families, older adults, women, minorities, people in poverty, and other vulnerable populations.

Prerequisite(s): SOCW 624, 652, 658, and 673.

SOCW 685 - Organizational Leadership for Social Workers

Credits: 3
Not Repeatable
Examines functions and structure of human service organizations in context of service delivery. Development of theoretical knowledge, professional ethics, and skills in administration, leadership, management, organization, and supervision.

Prerequisite(s): SOCW 624, 652, 658, and 673.

SOCW 687 - Empowering Communities for Change

Credits: 3
Not Repeatable
Explores social work interventions at community level, including organization, planning, and development. Strategies for mobilizing community members, using community organizations, formulating coalitions, engaging in participatory planning, and social and economic development.

Prerequisite(s): SOCW 624, 652, 658, and 673.

SOCW 688 - Advanced Research in Social Work
Explores social work intervention research, needs assessment, formative and summative program evaluation, and cost analyses. Discusses applications of systematic inquiry at the practice, organizational, and policy levels. Addresses ethical, pragmatic, and political considerations; qualitative approaches; quality performance; evidence from empirical research; and evaluation design.

**Prerequisite(s):** SOCW 624, 652, 658, 671, and 673.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1

### SOCW 689 - Clinical Practice with Older Adults

Credits: 3  
Not Repeatable  
Examines age-associated changes and challenges faced by older adults. Focus is strengthening assessment and intervention skills with older adults, their family members and caregivers within the community and long-term care facilities, determining the best standardized instruments to use, and developing effective questions for assessment. Attention is given to the resilience of elders, ethical issues and diversity.

**Prerequisite(s):** SOCW 674 or permission of the instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

### SOCW 690 - Social Change Field Practicum

Credits: 6  
Not Repeatable  
Supervised social work learning experience four days per week. Students placed in public, nonprofit, or for-profit venues reflecting specific interests in agency supervision, organizational management, community change, electoral policies, or social policy.

**Prerequisite(s):** SOCW 673, 684, 685, 687, and 688.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

### SOCW 691 - Social Change Field Seminar

Credits: 3  
Not Repeatable  
Processing of field practicum experiences; analysis of successes and challenges; application of social work knowledge, values, and skills from across the curriculum. Culminates in professional presentations by students.
Corequisite(s): SOCW 690.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 692 - Clinical Practicum I

Credits: 3
Not Repeatable
Students participate in a supervised clinical social work field practicum for 20 hours per week. The clinical field seminar accompanies the clinical concentration year practicum. The seminar is designed to assist the student in critically analyzing their field experiences in the application of mental health assessment, risk reduction and interventions working with individuals, families, groups, and communities.

Prerequisite(s): SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SOCW 693 - Clinical Practicum II

Credits: 3
Not Repeatable
Students participate in a supervised clinical social work field practicum for 20 hours per week. The clinical field seminar accompanies the clinical concentration year practicum. The seminar is designed to assist the student in critically analyzing their field experiences in the application of mental health assessment, risk reduction and interventions working with individuals, families, groups, and communities.

Prerequisite(s): SOCW 623, 624, 630, 651, 652, 657, 658, 670, 671, 672, 673, 674, 688, and 692

Notes: This is a continuation of SOCW 692 taken in the Fall semester.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SOCW 694 - Social Change Practicum I

Credits: 3
Not Repeatable
Students participate in a supervised clinical social work field practicum for 20 hours per week. The clinical field seminar accompanies the concentration year practicum. The seminar is designed to assist students in processing their field experiences and analyzing their successes and challenges. Students are expected to apply social work knowledge, values, and skills from across the curriculum.

Prerequisite(s): SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673
SOCW 695 - Social Change Practicum II

Credits: 3
Not Repeatable
Students continue to work in a supervised social work field practicum for 20 hours per week. At the end of this semester students will have completed 300 hours of field work to meet the total number of 600 hours required for the concentration year practicum. The field seminar accompanies the concentration year practicum. The seminar is designed to assist students in processing their field experiences and analyzing their successes and challenges. Students are expected to apply social work knowledge, values, and skills from across the curriculum.

Prerequisite(s): SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673, 684, 685, 688, and 694

Notes: Continuation of SOCW 693 from the Fall semester.

SOCW 697 - Thesis Project Seminar

Credits: 3
Not Repeatable
Provides structured opportunity for students to work with each other and faculty in developing their final MSW thesis projects. Integrates and applies learning from all previous course work, emphasizing knowledge, skills, and values related to research, clinical practice, policy, community practice, and organizational leadership. Social work ethics, empowerment of populations at risk, and systems transformation will be explored. In addition to group meetings, students will meet individually with their faculty mentors.

SOCW 699 - Independent Study in Social Work

Credits: 1-3
Repeatable within Term
Investigates research problem in field of social work.
Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

Sociology (SOCI)

Offered by the College of Humanities and Social Sciences

SOCI 101 - Introductory Sociology

Credits: 3
Not Repeatable
Introduction to basic sociological concepts. Examines aspects of human behavior in cultural framework, including individual and group interaction, social mobility and stratification, status and class, race and gender relations, urbanism, crime and criminology, and social change and reform.

Fulfills Mason Core requirement in social and behavioral science.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 120 - Globalization and Society

Credits: 3
Not Repeatable
Examines and analyzes important global issues and processes. Considers historical development of globalization and implications for different societies and cultures. Investigates perceptions of global processes by different cultures and nations, and efforts of international institutions to address social, political, economic, and cultural changes in global society.

Fulfills Mason Core requirement in global understanding.

Notes: Students may not receive credit for both SOCI 120 and GLOA 101.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 300 - Social Control and Freedom

Credits: 3
Not Repeatable
Explores ways in which individuals are both architects and prisoners of society. Offers a foundational course for examining the "invisible" social forces that shape our lives and the individual and collective capacity to make choices, including social and cultural change. Includes topics such as youth and culture, deviance and crime, social inequalities, and global change.
SOCI 301 - Criminology

Credits: 3
Not Repeatable
Focuses on causes and meaning of crime, with emphasis on adults. Patterns of criminal behavior, including property crimes, violent crimes, organized crime, white-collar crime, and victimless crime. Critical assessment of criminal justice system as a response to crime.

SOCI 302 - Sociology of Delinquency

Credits: 3
Not Repeatable
Examines social factors involved in development of delinquency, including family, political economy, schooling, community environment and culture. Examines various theories of delinquency; rates of delinquency in relation to age, race, gender and social class; and legal system that addresses causes, consequences, and policies of punishment and rehabilitation.

SOCI 303 - Methods and Logic of Inquiry

Credits: 4
Not Repeatable
Actively engages students in original inquiry meaningful to themselves and their communities. Demonstrates the reciprocal relationship between theory and empirical research. Explores the complementarity of interpretive and explanatory logics, employing basic sociological methods. Guides students to formulate research problems; design research; gather and analyze evidence; and organize, frame, and revise arguments, culminating in a public presentation of their projects to the sociology faculty.

Prerequisite(s): SOCI 101 or 102, or permission of instructor.

SOCI 304 - The Future of Work

Credits: 3
Not Repeatable
Introduces the basic concepts of economic sociology. Explores how the world of work has changed due to globalization, deindustrialization, new technologies, and economic crisis. Focuses on providing students with a better understanding of how markets and corporations work, and about new economic approaches to create new, potentially less alienating work environments.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 307 - Social Movements and Political Protest

Credits: 3
Not Repeatable
Explores processes for organizing resistance to current social and power arrangements, from terrorism to nonviolent civil resistance to create alternative institutions, policies, or leadership that promote human rights and social justice. Uses historical and contemporary case studies of local and global change to explore, how, why, and to what effect individuals have organized to protest the status quo and create social change.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 308 - Race and Ethnicity in a Changing World

Credits: 3
Not Repeatable
Explores how race and ethnicity have been shaped by policies and practices in Western and non-Western societies. Explores the evolution of racial and ethnic attitudes from a global and historical perspective. Examines how changing demographic racial patterns may affect definitions of race and ethnicity and the ways in which people individually and collectively act to create new futures.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 309 - Marriage, Families, and Intimate Life

Credits: 3
Not Repeatable
Uses a sociological framework to analyze and understand the diverse forms of contemporary families—traditional marriages, cohabitation, domestic partnerships, single-parents families, stepfamilies, and gay and lesbian families. Explored are topics such as changes in sexual mores, reflected in new dating practices; shifting parenting roles; effects of social class, race and ethnicity; and the outcomes of divorce for couples and children.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 310 - Sociology of Deviance
Analyzes macro- and microlevel deviance-producing processes, meaning and control of deviance, and major theoretical approaches to deviance.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 311 - Classical Sociological Theory**

Credits: 3  
Not Repeatable  
Explores sociological tradition through readings and discussions of ideas drawn from writings of selected sociological thinkers such as Comte, Marx, Weber, Durkheim, and others.

**Prerequisite(s):** 6 credits of upper level (300 or 400 level) sociology courses, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 312 - Qualitative Research Methods**

Credits: 3  
Not Repeatable  
Introduces ethnography, field work methods, interviewing, life histories, and other qualitative methods to generate data about cultures in which various groups and classes are immersed. Students learn by applying qualitative methods to term projects, developed under guidance of instructor.

**Prerequisite(s):** 9 credits of sociology including SOCI 101 or 102, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 313 - Statistics for the Behavioral Sciences**

Credits: 4  
Not Repeatable  
Fundamentals of applied statistics as used in behavioral science to include descriptive statistics, inferential statistics, correlation regression, analysis of variance, factor analysis, nonparametric statistics, and practical experience with calculators in applying statistical analysis to actual problems of the behavioral sciences.

**Prerequisite(s):** SOCI 101, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 2
SOCI 314 - Sociology of Culture

Credits: 3
Not Repeatable
Examines how culture, encompassing high art or participatory culture, expressive agency or traditional constraint, is produced and reproduced in everyday social practices and across a wide range of social institutions. Explores the role of culture in public life and political discourse.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 315 - Contemporary Gender Relations

Credits: 3
Not Repeatable
Examines the meaning and significance of gender relations in the US and other societies around the globe. Examines the concepts and processes of privilege, power, and difference to understand how they shape the meaning and construction of feminine and masculine roles and identities and why gender difference (which conceptually does not imply inequality) translates into gender inequality.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 320 - Social Structure and Globalization

Credits: 3
Not Repeatable

While focusing on nature and process of change in human society, considers social impact of political, economic, and environmental change and how lives are shaped by complexities of global social forces. Examines specific global issues such as conflict and security; economic disparity; ecological deterioration; populations and migration; legitimization of commerce; diffusion of innovations; and impact of class, status, and power in modern societies.
Designated a Green Leaf Course.

Fulfills Mason Core requirement in global understanding.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 326 - Conflict, Violence, and Peace

Credits: 3
Not Repeatable
Explores the sociology of conflict, violence, and peace to examine these crucial issues from a scholarly viewpoint. Focuses on the causes and consequences of violence. Examines a wide variety of remedies from conventional deterrence and arms control strategies to alternative perspectives from nonviolent civil resistance to peacebuilding, international law, and restorative
justice, as well as conflict transformation and resolution strategies.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 330 - US Immigrants and Immigration**

Credits: 3  
Not Repeatable
Explores theoretical, empirical, and policy-related issues pertaining to immigration. Examines case studies of immigrant communities and their adaptation patterns, paying particular attention to immigrants from Latin America, Asia, the Caribbean, and the Middle East.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**SOCI 332 - The Urban World**

Credits: 3  
Not Repeatable
Examines cities and the people who live in them in the United States and around the world. Includes topics such as: social and economic development, inequality, political protests, urban democracy, and the environment.

Fulfills Mason Core requirement in global understanding.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 340 - Power, Politics, and Society**

Credits: 3  
Not Repeatable
Analyzes how power is defined, attained and sustained in society. Students analyze political power as related to social realities such as democratic elections, class conflict, elite networks, powersharing, protest, and revolution.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 341 - Sociology of Aging**

Credits: 3  
Not Repeatable
Examines aging from a sociological perspective. Topics include demographic trends and aging population in America, social
construction of life stages and creation of "old age," cultural labeling, and human resistance.

Equivalent to SOCI 441 (2014-2015 Catalog)

Hours of Lecture or Seminar per week: 3

**SOCI 352 - Social Problems and Solutions**

Credits: 3  
Not Repeatable  
Examines contemporary social problems and their solutions using sociological perspectives. Topics may include housing and homelessness, student debt, mass incarceration, hunger and food insecurity, environment and sustainability, human rights, wealth and global poverty, war and peace.  

Fulfills Mason Core requirement in social and behavioral science.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCI 355 - Social Inequality**

Credits: 3  
Not Repeatable  
Studies class structures and implications for individuals and groups in modern society. Explores issues of race and ethnicity, language and immigration status, sex and gender, social class, age, and sexual orientation. Examines critically the theory and research that explore the construction, experience, and meaning of such differences.  

Fulfills Mason Core requirement in social and behavioral science.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCI 360 - Youth Culture and Society**

Credits: 3  
Not Repeatable  
Introduces sociology of youth and youth culture. Investigates social, economic, and political realities of youth as a group and different groups of youth, including youth cultural production, formation of youth culture, and youth identities in variety of social settings.  

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCI 373 - The Community**
Examines small to moderate-size communities ranging through village, rural community, small town, and city subcommunity. Latter category includes city localities, ethnic villages, and suburban communities.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 377 - Art and Society**

Credits: 3  
Not Repeatable  
Introduces the many ways in which art reflects social tendencies, comments on social problems, and contributes to discussions about a wide range of social issues. Students attend theatrical performances and visit exhibition spaces on campus, and learn to analyze what they experience through both aesthetic and sociological approaches. Explores contemporary issues such as debates about artistic freedom and public morality, commercialization of art, and relationship between cultural and social hierarchies.

Fulfills Mason Core requirement in synthesis.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 382 - Education in Contemporary Society**

Credits: 3  
Not Repeatable  
Examines classrooms and schools as social institutions that function as socializing agents for both stability and societal change. Emphasizes the influence of inequality on educational processes and outcomes and critically examines the social organization of the U.S. public school system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 385 - Sociology of Religion**

Credits: 3  
Not Repeatable  
Studies places of religious consciousness in human action and institutional and organizational networks created to sustain religious beliefs. Emphasizes comparative and historical analysis of role religion has played in human society. Examines theories of nature of religious experience, religious symbolism, and basis of religious community. Explores changing demographics in relation to older traditional religious faiths and newer nontraditional faiths.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
**SOCI 388 - Violence and Religion**

Credits: 3  
Not Repeatable  
Explores the relationship between religion and violence, especially warfare, cross-culturally and historically from a sociological, transdisciplinary, and global politics perspective. Examines the interface between politics and morality and the interface between national and transnational governance institutions (nations states, the UN, etc.) and cultural and religious institutions, NGOs, and social movements.

Hours of Lecture or Seminar per week: 3

**SOCI 390 - Sociology of Health, Illness, and Disability**

Credits: 3  
Not Repeatable  
Examines social context of health, illness, and disability; relationships of health care professionals and patients; and structure and delivery of health care in different medical systems.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCI 395 - Special Topics in Sociology**

Credits: 3  
Repeatable within Term  
Introduces the research interests of the faculty, offering new courses that reflect current issues not yet incorporated into the curriculum. Offers, in addition, advanced study into topics covered in the standing curriculum. Topics change by semester.

Prerequisite(s): 90 credits, and 12 credits of sociology.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCI 399 - Independent Study**

Credits: 1-3  
Repeatable within Degree  
Individual study of sociological topic of interest to student.

Prerequisite(s): Open to sociology majors only. 6 credits of sociology including SOCI 101, and approval of written proposal.

Notes: May be repeated for credit up to 3 credits.

Hours of Lecture or Seminar per week: 1-3  
Hours of Lab or Studio per week: 0
**SOCI 405 - Analysis of Social Data**

Credits: 4  
Not Repeatable  
Overview of management and analysis of empirical social science data, including file construction, scaling and measurement, data transformation, and treatment of missing data. Emphasizes manipulation, management, and analysis of data sets using computers.

**Prerequisite(s):** 60 credits, SOCI 313 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 3

**SOCI 410 - Social Surveys and Attitude and Opinion Measurements**

Credits: 3  
Not Repeatable  
Surveys research methods and techniques to collect, measure, and analyze social data, attitudes, and opinions with special emphasis on using computer software, the Internet, and other information technologies for social research. Highlights ethical issues for social research, computing, and information technology.

Fulfills Mason Core requirement in information technology (all except ethics).

**Prerequisite(s):** SOCI 303 and 313 or equivalents, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 412 - Contemporary Sociological Theory**

Credits: 3  
Not Repeatable  
Presents for analysis and discussion the significant theorists and themes in contemporary sociological theory. Designed to enhance student's skills in reading and analyzing primary texts and to encourage reflection on contemporary social reality. Fulfills writing intensive requirement.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** SOCI 311 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 416 - Internship in Sociology**
Credits: 1-6
Repeatable within Term
Intended to promote learning in application of sociological knowledge, and build skills in different work settings. Students work in approved setting as applied sociologists.

**Prerequisite(s):** 21 credits of sociology, including Research Methods, or permission of instructor.

**Notes:** Minimum 45 hours of work for each credit required. May be repeated for a maximum of 6 credits.

**Hours of Lecture or Seminar per week:** 1-6
**Hours of Lab or Studio per week:** 0

### SOCI 471 - Prevention and Deterrence of Crime

Credits: 3
Not Repeatable

Equivalent to CRIM 471

**Prerequisite(s):** 60 credits, in-service status, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

### SOCI 480 - Honors Seminar in Sociology I

Credits: 3
Not Repeatable
Develop research proposals and an appropriate bibliography for honors thesis under the guidance of a sociology faculty member.

**Prerequisite(s):** Admission to honors in the sociology major.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**Grading:** Special undergraduate.

### SOCI 481 - Honors Seminar in Sociology II

Credits: 3
Not Repeatable
Pursue independent research and write honors thesis under the guidance of a faculty mentor. Present work in a colloquium at the end of the semester.

**Prerequisite(s):** Successful completion of SOCI 480.
SOCI 483 - The Sociology of Higher Education

Credits: 3  
Not Repeatable  
Exposes students to sociological theory and research on evolution of higher learning in United States. Explores social forces that have shaped the distinctively American approach toward higher education and have led to transformation of higher education in contemporary society. Particular attention to relation between universities and elites within surrounding society, linkage between education and industry, norms and values that are presupposed by educational institutions, and bearing of sports on values and traditions of higher education.

Fulfills Mason Core requirement in synthesis.

SOCI 485 - Sociological Analysis and Practice

Credits: 3  
Not Repeatable  
Provides an in-depth examination of historical and contemporary issues facing sociological scholars. Focuses on the philosophies, practices, and procedures used by individuals and organizations to answer sociological questions. Engages a variety of materials, experiences and resources to answer a specific research question.

Prerequisite(s): SOCI 303

SOCI 492 - Sociology of Organizations

Credits: 3  
Not Repeatable  
Theories, analysis of types of organizations from informal voluntary associations to large complex ones. Explores nonprofit organizations and alternatives to bureaucracies, such as feminist collectives, cooperatives, self-help groups, and social movement organizations. Students do field work in organizations applying theories and concepts to observations.

SOCI 499 - Independent Research in Sociology
SOCI 419 - Research Seminar

Credits: 1-4
Repeatable within Degree
Investigation of sociological problem according to individual interest, with emphasis on research.

Prerequisite(s): 18 credits of sociology including SOCI 311, 313, and 412; 3.00 GPA in sociology; and research proposal approved by instructor and department chair before enrollment.

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0

SOCI 516 - Internship in Sociology

Credits: 1-6
Repeatable within Degree
Learning experience in the application of sociological knowledge and skills in different work settings. Students work in approved setting as applied sociologists.

Prerequisite(s): 21 credits of sociology including research methods, or permission of instructor.

Notes: Minimum 45 hours of work for every 1 credit. May be repeated for a maximum of 6 credits.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

SOCI 599 - Issues in Sociology

Credits: 1-3
Not Repeatable
Contemporary topics in sociology including sociological theory, crime and delinquency, advanced research methods, social and cultural change, urban sociology, medical sociology, sociology of aging, and rural sociology.

Equivalent to NURS 611

Prerequisite(s): Undergraduate senior status in sociology, or graduate status.

Notes: May be taken only once for credit.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 601 - Proseminar in Public and Applied Sociology

Credits: 3
Not Repeatable
Core course devoted to the philosophical, historical, theoretical, and methodological dimensions of public and applied sociology within the United States. Traces the evolution of the field during the 20th century, from its inception in the Chicago school and the studies of W.E.B. DuBois to more recent formulations, as these bear on the interplay between social scientific knowledge and
public decisions and debates.

Hours of Lecture or Seminar per week: 3

When Offered: Fall

**SOCI 602 - Writing for the Social Sciences**

Credits: 3

Not Repeatable

Develops strategies for successful social scientific writing, self-evaluation, and managing anxiety around the production of written work. Provides practice in different types of writing undertaken by social scientists including research reports, scholarly journal articles, and research proposals.

Hours of Lecture or Seminar per week: 3

Hours of Lab or Studio per week: 0

When Offered: Fall

**SOCI 605 - Gender and Social Structure**

Credits: 3

Not Repeatable

Reviews theories explaining the development and maintenance of gender. Using historical and comparative data, examines perceived, prescribed, and actual sex differentiation in social, political, and economic roles. Begins with gender as a social structure and then examines contemporary research as support or refutation for variety of theoretical paradigms. Includes discussion of gender in intimate relationship and the public sector.

Hours of Lecture or Seminar per week: 3

Hours of Lab or Studio per week: 0

**SOCI 607 - Criminology**

Credits: 3

Not Repeatable

Crime and crime causation. Topics include social basis of law, administration of justice, and control and prevention of crime.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3

Hours of Lab or Studio per week: 0

**SOCI 608 - Juvenile Delinquency**
Sociology of adolescent behavior. Sociological factors that determine which behaviors and social categories of adolescents are likely to be labeled and treated as delinquent.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 614 - Sociology of Culture**

Credits: 3
Not Repeatable
Analyzes 20th-century debates in American culture and cultural politics, with emphasis on art and popular culture, news media, and competing notions of "the public." In-depth readings in cultural sociology cover variety of theoretical and methodological approaches.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 619 - Conflict and Conflict Management: Perspectives from Sociology**

Credits: 3
Not Repeatable
Deals with sociology of conflict. Presents major sociological theories of conflict such as those of Marx, Weber, Simmel, Dahrendorf, Coser, and Collins. Stresses role that sociological conflict theory plays in undergirding conflict management practices.

Prerequisite(s): Graduate standing in sociology or conflict analysis and resolution, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 620 - Methods and Logic of Social Inquiry**

Credits: 3
Not Repeatable
Emphasizes gathering, interpreting, and evaluating scientific evidence. Covers logic of scientific inquiry, including the application of various research designs and data collection methods. Develops critical-thinking skills by using set of rules and logical criteria for evaluation of social science research. Focuses both on how results are obtained and disseminated via research reports.

Prerequisite(s): Undergraduate statistics and research methodology, or permission of instructor.
Notes: Restricted to SOCI majors only.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 623 - Racial and Ethnic Relations: American and Selected Global Perspectives**

Credits: 3  
Not Repeatable  
Covers demographic purview of U.S. and other global racial and ethnic groups and racial and ethnic groups as human-social-minority and dominant groups. Explores factors contributing to dominant and minority status and means of altering dominant groups assessment of minority group status.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**SOCI 624 - International Migration in the Age of Globalization**

Credits: 3  
Not Repeatable  
Focuses on theoretical, methodological, and policy-related issues on international migration from a sociological perspective. Explores case studies of immigrant communities and their adaptation patterns, paying particular attention to immigrants from Latin America, Asia, and the Caribbean.

Hours of Lecture or Seminar per week: 3

When Offered: Fall, Spring

**SOCI 631 - Survey Research**

Credits: 3  
Not Repeatable  
Introduces theory, method, and practice of survey research design and analysis. Students complete survey research project.

**Prerequisite(s):** SOCI 530 and 531, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCI 632 - Evaluation Research for Social Programs**

Credits: 3  
Not Repeatable
Studies methodological issues related to evaluation of social programs. Explores conceptual and research design issues in relation to social programs, particularly delivery of social services. Includes examination of methods used to assess need for programs, impact of delivery systems, and efficiency and effectiveness of social programs.

**Prerequisite(s):** SOCI 530 and 531, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### SOCI 633 - Special Topics in Sociology

Credits: 3  
Repeatable within Term  
Specialized inquiry of topics of contemporary sociological research and scholarship. Content varies.

**Notes:** May be repeated for credit when topic varies for a maximum of 12 credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### SOCI 634 - Qualitative Research Methods

Credits: 3  
Not Repeatable  
Examines basic research methods involving observational techniques and procedures used in description and analysis of patterns, configurations, ethos, eidos, structures, functions, and styles typical of whole societies and cultures. Emphasizes case studies, unobtrusive methods, participant observation, longterm residence, choices of observer status role, recording data, uses of technical equipment, key informants, interviewing techniques, and ethical considerations in employing such methods and procedures.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### SOCI 635 - Environment and Society

Credits: 3  
Not Repeatable  
Overview of human ecology and environmental sociology, emphasizing selected topics. Focuses on theory, since theory makes it possible to generalize from understandings derived in an analysis of a particular problem and apply them to other problems.

**Prerequisite(s):** Graduate standing.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
SOCI 636 - Statistical Reasoning

Credits: 3
Not Repeatable
Intermediate treatment of quantitative analytic techniques used in sociology. Topics include sampling, inference, hypothesis testing, analysis of variance, and bivariate and multiple correlation and regression. Introduces logic of multivariate analysis. Focus on how results are obtained and disseminated via research reports.

Prerequisite(s): Undergraduate statistics and research methodology, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 641 - Micro Sociology: Inequality and Everyday Life

Credits: 3
Not Repeatable
Analyze the relationship between everyday life and social inequalities, with a particular focus on examining theoretically and empirically the relationship between governing structures of society and the structure of situational and interactional terrains as it plays out in the lives of everyday people.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 651 - Health Care Systems

Credits: 3
Not Repeatable
Changing health care systems are rapidly affecting patient providers and health and quality of life of society. Offers analysis and theories of change in health care systems and impacts on society and various stakeholders. Examines for-profit and nonprofit organizations and their impacts, and offers comparative cross-cultural analysis of health care systems.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 655 - Ethnography

Credits: 3
Not Repeatable
Introduces ethnography in sociology to graduate students. Teaches techniques for collecting, analyzing and writing-up
ethnographic materials. Considers some of the central methodological issues relevant to doing ethnography. Explores some of the critical ethical and political questions that arise within ethnographic research practice.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**SOCI 660 - Historical and Comparative Sociology**

Credits: 3  
Not Repeatable  
Seminar in theory and methods of historical and comparative sociology, primarily for students with background in sociological theory and methods. Examines basic approaches and research data of history and sociology, surveys development of field, and analyzes exemplary studies.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 670 - New Media and Social Inequality**

Credits: 3  
Not Repeatable  
Examines the internet and other new technologies from a sociological perspective. Focuses on how technologies mitigate or exacerbate-transform or reproduce-existing and new forms of inequality.

**Prerequisite(s):** Graduate standing or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 686 - Sociology of Aging**

Credits: 3  
Not Repeatable  
Analyzes sociological issues in aging, including class and cultural factors, problems of work, retirement, attachment and loss, and ageism. Examines different theories of aging.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 696 - Independent Study**
SOCI 697 - Independent Study

Credits: 1-3
Repeatable within Degree
Theoretical and research literature chosen by student and instructor.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

SOCI 711 - Classical Sociological Theory

Credits: 3
Not Repeatable
In-depth examination of major issues in classical (pre-1930) sociological theory. Analyzes Durkheim, Marx, Weber, Mead, and others, and emphasizes social and intellectual context of their theories.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 712 - Contemporary Sociological Theory

Credits: 3
Not Repeatable
Examines schools in contemporary sociological theory such as structural-functionalism, conflict, exchange, symbolic interactionism, ethnomethodology, humanist sociology, and critical theory. Analyzes contemporary theorists in relation to schools.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 730 - Analytic Techniques of Social Research
Introduces multiple regression and causal analysis to sociological researchers, with a focus on obtaining and disseminating results. Moves from linear regression to the general linear model with several variables, its extensions, assumptions, and regression diagnostics. Examines the use of dummy variable and the analysis of interaction effects. Considers systems of equations and nonlinear outcomes.

**Prerequisite(s):** Undergraduate statistics and research methodology, or permission of instructor.

**SOCI 797 - Master's Capstone Paper**

Credits: 3  
Not Repeatable  
MA paper completion under the direction of one faculty member.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No credit only  
**When Offered:** Fall, Summer, Spring

**SOCI 799 - Thesis**

Credits: 1-6  
Repeatable within Degree  
Master's thesis research under direction of thesis committee.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** S/NC

**SOCI 803 - Institutions and Inequality**

Credits: 3  
Not Repeatable  
Analyzes the interrelations between social inequalities and institutional structures, including markets, the press, prisons, mental institutions, cultural organizations, and corporations.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 804 - Sociology of Globalization**
Addresses the social, political, cultural, and economic process of globalization. Explores the limits on globalization during the precapitalist era, the relation between empire and the internal structure of imperialist societies, theoretical debates over the contemporary world system, the relation between cities and globalization, and the link between globalization and social inequality within both developed and developing societies.

**SOCI 833 - Special Topics in Sociology**

Credits: 3  
Not Repeatable  
Addresses the social, political, cultural, and economic process of globalization. Explores the limits on globalization during the precapitalist era, the relation between empire and the internal structure of imperialist societies, theoretical debates over the contemporary world system, the relation between cities and globalization, and the link between globalization and social inequality within both developed and developing societies.

**Prerequisite(s):** Have completed either 6 credits of coursework at the 600 level or permission of instructor.

**Notes:** May be repeated when topic is different for a maximum of 9 credits.

**SOCI 840 - Work Organizations and Social Inequality**

Credits: 3  
Not Repeatable  
Examines the social, organizational, and cultural processes that account for the differential distribution of job rewards along class, gender, and racial and ethnic lines. Topics include the historical evolution of the management worker relationship, job segregation by race and gender, the effect of new technologies on social inequality, the relation between gender and professional careers, the efficacy of governmental efforts to ensure equal opportunity, and the effect of organizational change on racial and gender inequalities at work.

**SOCI 844 - Youth, Schooling, and Popular Culture**

Credits: 3  
Not Repeatable  
Uses sociological perspectives to understand the various ways in which popular youth culture, schooling processes, and consumer culture intersect in contemporary American cultural life. Examines the social, economic, and political realities of youth as a group and the formation of distinct youth cultures within and outside formal school settings, including schooling and commodity culture, how markets promote and hinder particular educational ideologies, and how corner markets operate as spaces of cultural learning.
SOCI 845 - Society and Education

Credits: 3
Not Repeatable
Exposes students to the major theories, debates, and findings within the sociology of education, emphasizing the reciprocal influences of schooling and social inequalities within contemporary societies. Emphasis on the historical evolution of public schooling in the United States, the complex relation between schooling and economic institutions, class differences in educational opportunity, and the politics of educational reform.

SOCI 850 - Sociology of Development

Credits: 3
Not Repeatable
Analyzes socioeconomic and political change, focusing on the poor countries of Asia, Africa, and Latin America. Offers a basic descriptive understanding of processes of change in these countries and an introduction to major theoretical perspectives on development and globalization, from classical theories of comparative advantage to theories of imperialism, modernization, dependency, and globalization.

SOCI 851 - Globalization and Social Movements

Credits: 3
Not Repeatable
Analyzes current issues in the study of social movements, with an emphasis on the ways in which globalization shapes and in turn is shaped by social movements. Emphasis is placed on the relations among the strategies, identities, and organizations bound up with transnational social movements and the relation between the dynamics of global political and economic developments and protest movements in core and peripheral societies.

SOCI 853 - Cities in a Global Society

Credits: 3
Not Repeatable
Examines the scholarly literature on cities and globalization with a focus on the impact of globalization on urban environments.
and the effects of urbanization on the processes of globalization. Emphasis on the ways in which globalization restructures urban life in the core and periphery of the world economy with attention paid to the effects of spatial dispersion on the character of economic institutions within the advanced societies, the shifting nature of crime and security, immigration, and the cities of the Global South.

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

### SOCI 857 - Sociology of Human Rights

**Credits:** 3  
**Not Repeatable**  
Examines the connections among inequality, conflict, social justice, and human rights in an age of globalization. Drawing from case studies from around the world, course examines institutional and structural violence and inequality as they relate to state, corporate, and military power; international law and order; welfare and social policy; global justice; regionalism, multilateralism, and transnationalism; environmental protection; gender inequality; ethnic conflict; resource wars; and national security policy before and after September 11, 2001.

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

### SOCI 860 - Historical and Comparative Sociology

**Credits:** 3  
**Not Repeatable**  
Seminar in theory and methods of historical and comparative sociology, primarily for students with background in sociological theory and methods. Examines basic approaches and research data of history and sociology, surveys development of field, and analyzes exemplary studies.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

### SOCI 870 - Directed Readings Sociology

**Credits:** 3  
**Repeatable within Degree**  
Intensive reading course to develop comprehensive understanding of specific field in sociology as agreed on with advisor.

**Prerequisite(s):** 6 credits of 600-level SOCI courses.

**Notes:** Content varies. May be repeated.
SOCI 880 - Independent Study in Sociology

Credits: 3
Repeatable within Degree
Reading and research on selected topic, resulting in a written project as agreed on with supervising faculty.

Prerequisite(s): 6 credits of 600-level SOCI courses

Notes: Content varies. May be repeated.

SOCI 998 - Doctoral Dissertation Proposal

Credits: 1-9
Repeatable within Degree
Work on research proposal for doctoral dissertation.

Prerequisite(s): Completion of all but final year of coursework and permission of graduate director.

Corequisite(s): Advanced grad students may enroll in 998 during final year of coursework and before completion of comprehensive exams.

Notes: May be repeated. A maximum of 9 credits of 998 may be applied to the degree. Students may enroll in 998 in their final year of coursework while preparing for comprehensive exams.

SOCI 999 - Doctoral Dissertation

Credits: 1-12
Repeatable within Degree
Doctoral dissertation research and writing on approved dissertation topic under direction of committee.

Prerequisite(s): Successful completion of SOCI 998.

Notes: Maximum of 12 credits may be applied toward degree.
Sociology and Anthropology (SOAN)

Offered by the College of Humanities and Social Sciences

SOAN 510 - Culture and Globalization

Credits: 3
Not Repeatable
Provides continuing exposure to the range of disciplinary perspectives necessary for understanding crucial issues in the global arena. Through case examples, focuses on the intersections of culture and globalization. Analyzes existing data and assesses alternative policy and program approaches, and illuminates interactions between globalization and culture.

Prerequisite(s): SOAN 500

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOAN 670 - Special Topics in Sociology and Anthropology

Credits: 4-8
Not Repeatable
Provides cross-disciplinary, pedagogical format in Department of Sociology and Anthropology. Covers variety of pedagogical formats, such as combining ethnographic field techniques taught in anthropology with sociological-based urban issues, or providing archaeological laboratory analyses with grounding in statistical techniques proposed by department faculty.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 0-8
Hours of Lab or Studio per week: 0-8

Software Engineering (SWE)

Offered by the Volgenau School of Engineering.

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

SWE 205 - Software Usability Analysis and Design
Principles of user interface design. Concepts for objectively and quantitatively assessing the usability of software user interfaces. Outcomes include knowledge of quantitative engineering principles for designing usable software interfaces and an understanding that usability is more important than efficiency for almost all modern software projects, and often the primary factor that leads to product success. Major topics include cognitive models for human perceptions and needs, which are used as a basis for analytical and critical thinking about user interfaces; specific engineering principles for designing usable menus, forms, command languages, web sites, graphical user interfaces and web-based user interfaces. Assessments will include written analytical evaluations of existing user interfaces, exams, and HTML-based design projects.

Prerequisite(s): ENGL 101/ENGH 101

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SWE 301 - Internship Preparation**

Credits: 0
Limited to 2 Attempts
Preparation for Internship Educational Experience. Intended for, but not limited to, students planning internships in the Applied Computer Science Software Engineering Program. Internship employment opportunities. Basic interview skills. Techniques for applying academic knowledge to practical software development. Techniques for extracting knowledge from practical experience. Peer presentation from students who have completed internships.

Prerequisite(s): Limited to ACS or CS majors with junior standing or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

**SWE 321 - Software Requirements and Design Modeling**

Credits: 3
Limited to 2 Attempts
An introduction to concepts, methods, and tools for the creation of large-scale software systems. Methods, tools, notations, and validation techniques to analyze, specify, prototype, and maintain software requirements. Introduction to object-oriented requirements modeling, including use of case modeling, static modeling, and dynamic modeling using the Unified Modeling Language (UML) notation. Concepts and methods for the design of large-scale software systems. Fundamental design concepts and design notations are introduced. A study of object-oriented analysis and design modeling using the UML notation. Students participate in a group project on software requirements, specification, and object-oriented software design.

Equivalent to CS 321 (2011-2012 Catalog).

Prerequisite(s): Grade of C or better in CS 211. Students who have received credit for SWE 421 or CS 421 may not take SWE 321. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SWE 332 - Object-Oriented Software Design and Implementation

Credits: 3
Limited to 2 Attempts
In-depth study of software design and implementation using a modern, object-oriented language with support for graphical user interfaces and complex data structures. Topics covered are specifications, design patterns, and abstraction techniques, including typing, access control, inheritance, and polymorphism. Students will learn the proper engineering use of techniques such as information hiding, classes, objects, inheritance, exception handling, event-based systems, and concurrency.

Equivalent to CS 332.

Prerequisite(s): Grade of C or better in CS 310. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 401 - Internship Reflection

Credits: 1
Limited to 2 Attempts
Reflection on Internship Educational Experience. Intended for, but not limited to, students completing internships in the Applied Computer Science Software Engineering Program. Analysis of techniques for applying academic knowledge to practical software development. Analysis of techniques for extracting knowledge from practical experience. Student presentations summarizing internships relating them to academic program goals.

Prerequisite(s): SWE 301 and completion of internship

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

SWE 432 - Design and Implementation of Software for the Web

Credits: 3
Limited to 2 Attempts
Teaches how to develop software for web applications. Covers client-server computing, theories of usable graphical user interfaces, and models for web-based information retrieval and processing. Goals are to understand how to design usable software interfaces and implement them on web, learn how to build software that accepts information from users across web and returns data to user, and understand how to interact with database engines to store and retrieve information. Specific topics are HTML, CGI programming, Java, Java applets, Javascripts, and Java servlets.

Prerequisite(s): Grade of C or better in MATH 125 and CS 310. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SWE 437 - Software Testing and Maintenance

Credits: 3  
Limited to 2 Attempts  
Concepts and techniques for testing and modifying software in evolving environments. Topics include software testing at the unit, module, subsystem, and system levels; developer testing; automatic and manual techniques for generating test data; testing concurrent and distributed software; designing and implementing software to increase maintainability and reuse; evaluating software for change; and validating software changes.

Prerequisite(s): Grade of C or better in MATH 125 and CS 310. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SWE 443 - Software Architectures

Credits: 3  
Limited to 2 Attempts  
Teaches how to design, understand, and evaluate software systems at an architectural level of abstraction. By end of course, students will be able to recognize major architectural styles in existing software systems, describe a system's architecture accurately, generate architectural alternatives to address a problem and choose from among them, design a medium-size software system that satisfies a specification of requirements, use existing tools to expedite software design, and evaluate the suitability of a given architecture in meeting a set of system requirements.

Prerequisite(s): Grade of C or better in CS 321 or CS 421 or SWE 321 or SWE 421. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SWE 510 - Object-Oriented Programming in Java

Credits: 3  
Not Repeatable  
Introduces students to programming in the Java language. Topics include problem-solving methods and algorithm development, program structures, abstract data types, simple data and file structures and program development in a modular, object-oriented manner. Introductory use of OO language features, including data hiding, inheritance, polymorphism, and exception handling. Goals include design and development of Java classes and class type hierarchies. An introduction to Java servlets and applets is included. Emphasis on program development is reinforced through several programming projects.

Prerequisite(s): Undergraduate courses or equivalent knowledge in programming in a high-level language.

Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
SWE 521 - Software Engineering Essentials

Credits: 3
Not Repeatable
Provides an overview of essential topics in software engineering, including problem solving with computers, requirements, software design, software development, testing, verification, validation, usability, and management. The course will also discuss concepts related to building software, including data structures, object-oriented programming, event handling in GUIs, and web application technologies. The course will discuss how these concepts are handled in various languages, but without requiring the students to program. Credit cannot be applied to any degree in the computer science department.

Equivalent to AIT 521

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SWE 619 - Object-Oriented Software Specification and Construction

Credits: 3
Not Repeatable
In-depth study of software construction using modern, object-oriented language with support for graphical user interfaces and complex data structures. Specifications, design patterns, and abstraction techniques, including procedural, data, iteration, type, and polymorphic. Information hiding, classes, objects, and inheritance. Exception handling, event-based systems, and concurrency.

Prerequisite(s): SWE foundation courses or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 620 - Software Requirements Analysis and Specification

Credits: 3
Not Repeatable
In-depth study of object-oriented requirements modeling, including use case modeling, static modeling and dynamic modeling with Unified Modeling Language (UML) notation. Students participate in group project on software requirements and specification using modern method.

Prerequisite(s): SWE foundation courses or equivalent

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 621 - Software Modeling and Architectural Design
Concepts and methods for the architectural design of large-scale software systems are presented. Fundamental design concepts and design notations are introduced. Concepts of requirements analysis and specification are taught. Several design methods are presented and compared. In-depth study of object-oriented analysis and design modeling using the Unified Modeling Language (UML) notation. Students participate in a group project on software requirements, analysis, and design modeling.

**Prerequisite(s):** SWE 619 or permission of instructor. MSCS students may substitute CS 540 and CS 571 for SWE 619.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SWE 622 - Distributed Software Engineering**

Credits: 3  
Not Repeatable  
Hands-on introduction to techniques and programming interfaces for distributed software engineering. Networking protocols at several layers. Construction of distributed and concurrent software using network protocol services. Applications of Internet and web-based software.

**Prerequisite(s):** SWE foundation courses or equivalent.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SWE 625 - Software Project Management**

Credits: 3  
Not Repeatable  
Lifecycle and process models; process metrics; planning for a software project; mechanisms for monitoring and controlling schedule, budget, quality, and productivity; and leadership, motivation, and team building.

**Prerequisite(s):** SWE foundation courses or equivalent.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SWE 626 - Software Project Laboratory**

Credits: 3  
Not Repeatable  
Covers requirements analysis, design, implementation, and management of software development project. Students work in teams to develop or modify software product, applying sound principles of software engineering. Uses both industrial and academic standards to assess quality of work products.

**Prerequisite(s):** SWE 619, 620, and 621; or permission of instructor.
SWE 631 - Software Design Patterns

Credits: 3
Not Repeatable

Prerequisite(s): SWE 621.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 632 - User Interface Design and Development

Credits: 3
Not Repeatable
Principles of user interface design, development, and programming. Includes user psychology and cognitive science, menu system design, command language design, icon and window design, graphical user interfaces, web-based user interfaces.

Prerequisite(s): SWE 619, or CS 540 and 571, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 637 - Software Testing

Credits: 3
Not Repeatable
Students learn to test software effectively. Programmers learn practical ways to design high quality tests during all phases of software development. Students learn the theory behind criteria-based test design and to apply that theory in practice. Topics include test design, test automation, test coverage criteria, and how to test software in cutting-edge software development environments.

Prerequisite(s): SWE 619, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 642 - Software Engineering for the World Wide Web
Detailed study of engineering methods and technologies for building highly interactive web sites for e-commerce and other web-based applications. Presents engineering principles for building web sites that exhibit high reliability, usability, security, availability, scalability, and maintainability. Teaches methods such as client-server programming, component-based software development, middleware, and reusable components.

**Prerequisite(s):** SWE 619, or CS 540 and 571, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SWE 645 - Component-Based Software Development**

Credits: 3  
Not Repeatable

Introduces concepts and foundations of software component and component-based software. Detailed study of engineering principles of modeling, designing, implementing, testing, and deploying component-based software. Also explores state-of-the-art component technologies.

**Prerequisite(s):** SWE 619, or CS 540 and CS 571, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SWE 681 - Secure Software Design and Programming**

Credits: 3  
Not Repeatable

Theory and practice of software security, focusing in particular on some common software security risks, including buffer overflows, race conditions and random number generation, and on identification of potential threats and vulnerabilities early in design cycle. Emphasizes methodologies and tools for identifying and eliminating security vulnerabilities, techniques to prove absence of vulnerabilities, ways to avoid security holes in new software, and essential guidelines for building secure software: how to design software with security in mind from the ground up and integrate analysis and risk management throughout the software life cycle.

Equivalent to SWE 781 (2012-2013 Catalog), ISA 681.

**Prerequisite(s):** SWE 619.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SWE 699 - Special Topics in Software Engineering**

Credits: 3  
Repeatable within Term
Special topics not occurring in regular SWE sequence.

Prerequisite(s): Permission of instructor.

Notes: May be repeated for credit when semester topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 721 - Reusable Software Architectures

Credits: 3
Not Repeatable
Investigates software concepts that promote reuse of software architectures. Studies influence of object technology on software design and reuse. Investigates domain modeling methods, which model the application domain as a software product family from which target systems can be configured. Covers reusable software patterns including architecture patterns and design patterns, software components, and object-oriented frameworks.

Prerequisite(s): SWE 621

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 722 - Service Oriented Architecture

Credits: 3
Not Repeatable
This course covers the state-of-the-art approaches to building dependable Service-Oriented Architecture (SOA) software systems. A variety of relevant topics are covered, including SOA design principles, implementation platforms and standards, quality of service contracts, runtime management of service providers, and coordination and composition of services. The course includes a final project to exercise the concepts covered in class.

Prerequisite(s): SWE 622 or instructor's permission.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall.

SWE 727 - Quality of Service for Software Architectures

Credits: 3
Not Repeatable
Builds on acquired skills for modeling architectures, and focuses on the relationship between architectural patterns and qualities of service (QoS). By the end of the course, students will be able to elicit the QoS preferences of stakeholder; recognize major architectural styles and the QoS tradeoffs that each presents; design for and reconcile competing QoS requirements; and evaluate a given architecture with respect to a set of QoS requirements.
**Prerequisite(s):** SWE 621 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### SWE 760 - Software Analysis and Design of Real-Time Systems

**Credits:** 3  
**Not Repeatable**  
Background for students who want to conduct research in software engineering of real-time systems. Provides understanding of key real-time software system analysis, design concepts and methods, and how they are used in developing large-scale, real-time software systems. Also explores potential impact of emerging technologies. Includes term project in design and analysis of complex, real-time software system.

Equivalent to SWE 860 (2012-2013 Catalog).

**Prerequisite(s):** SWE 621.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### SWE 763 - Software Engineering Experimentation

**Credits:** 3  
**Not Repeatable**  
Detailed study of scientific process, particularly using experimental method. Examines how empirical studies are carried out in software engineering. Reviews distinction between analytical techniques and empirical techniques. Other topics include experimentation required in software engineering, problems that can be solved using experimentation, methods used to control variables and eliminate bias in experimentation, and analysis and presentation of empirical data for decision making.

**Prerequisite(s):** SWE 621, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### SWE 795 - Advanced Topics in Software Engineering

**Credits:** 3  
**Repeatable within Degree**  
Advanced topics not occurring in existing courses. Topics normally assume knowledge in one or more existing MS SWE courses.

**Prerequisite(s):** 12 credits applicable toward MS program.

**Notes:** Repeatable within degree for credit when subject differs.
SWE 796 - Directed Readings in Software Engineering

Credits: 3
Not Repeatable
Analysis and investigation of contemporary problem in software engineering. Requires prior approval by faculty member who supervises student's work. Written report also required.

Prerequisite(s): Permission of Department Chair.

Notes: Maximum 6 credits may be earned. To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair.

SWE 798 - Research Project

Credits: 3
Repeatable within Degree
Master's degree candidates undertake a project using knowledge gained in MS program. Topics chosen in consultation with a faculty sponsor. Research project is chosen under guidance of full-time graduate faculty member, resulting in written technical report.

Prerequisite(s): 18 credits applicable toward MS.

Notes: Prior approval required by faculty sponsor who supervises student's work. To register, students must complete an independent study form available in department office. It must be initialed by the faculty sponsor and approved by the department chair.

SWE 799 - Thesis

Credits: 1-6
Not Repeatable

Research project completed under supervision of faculty member, which results in technical report accepted by three-member faculty committee. Report must be defended in oral presentation.

Prerequisite(s): Permission of Advisor and Department Chair.
Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Satisfactory/No Credit

**SWE 821 - Software Engineering Seminar**

Credits: 3  
Repeatable within Degree  
Study of application of software engineering principles, design methods, and support tools through real-life problems extracted from faculty and industry projects.

Prerequisite(s): SWE 621

Notes: May be repeated with change in topic.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

**SWE 823 - Software for Critical Systems**

Credits: 3  
Not Repeatable  
Study of software for systems in which failure can be catastrophic. Presents techniques to construct and analyze software for critical applications and examination of inherent limitations of such techniques, and interaction between techniques used during development and behavior of software during operation. Topics include tolerance of software faults, design redundancy, data redundancy, software safety, formal methods, statistical testing, design for analyzability, and design for testability.

Prerequisite(s): SWE 620 and STAT 554.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

**SWE 824 - Program Analysis for Software Testing**

Credits: 3  
Not Repeatable  
Different methods for analyzing software, primarily for purpose of testing. Analysis techniques, specific algorithms, tools, and applications. Goals are to explore current research issues, learn how to build software analysis tools, and understand how these techniques can be applied to software development activities. Focuses on applications for testing software, including automatic test data generation, object oriented testing, and testing client-server applications. Also considers analysis techniques for other software-related activities such as maintenance, reuse, object-oriented development metrics and optimization.
Prerequisite(s): A compiler class (e.g., CS 540) or testing class (e.g., SWE 637) or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SWE 825 - Special Topics in Web-Based Software

Credits: 3
Repeatable within Degree
Advanced topics in specifying, designing, modeling, developing, deploying, testing and maintaining software written as web applications and web services. May be repeated with change in topic.

Prerequisite(s): SWE 642 Software Engineering for the World Wide Web.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

Spanish (SPAN)

Offered by the College of Humanities and Social Sciences

See also FRLN course listings.

SPAN 101 - Elementary Spanish I

Credits: 3
Not Repeatable
For students with no knowledge of Spanish. Introduction to Spanish, including elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Lab work required.

Notes: Students may not receive credit for SPAN 101 and SPAN 110.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 102 - Elementary Spanish II

Credits: 3
Not Repeatable
Continuation of SPAN 101.

Prerequisite(s): SPAN 101, appropriate placement score, or permission of department.
Notes: Students may not receive credit for SPAN 102 and SPAN 110.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 110 - Elementary Spanish

Credits: 6
Not Repeatable
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Notes: Students may not receive credit for SPAN 110 and SPAN 101 and 102 combined, or SPAN 115.

Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 1

SPAN 115 - Review of Elementary Spanish

Credits: 3
Not Repeatable
Reviews elements for students who have studied Spanish previously.

Prerequisite(s): Appropriate placement score or permission of the department.

Notes: Students may not receive credit for SPAN 115 and SPAN 101 and 102 combined or SPAN 110.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 201 - Intermediate Spanish I

Credits: 3
Not Repeatable
Further development of skills in listening, speaking, reading, and writing. SPAN 201 and 202 must be taken in sequence. Lab work required.

Prerequisite(s): SPAN 102, SPAN 110, appropriate placement score, or permission of department.

Notes: Students may not receive credit for SPAN 201 and SPAN 210.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 202 - Intermediate Spanish II
Credits: 3
Not Repeatable
Application of skills to reading, composition, and discussion. Lab work required.

**Prerequisite(s):** SPAN 201, appropriate placement score, or permission of department.

**Notes:** Students may not receive credit for SPAN 202 and SPAN 210.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1

---

**SPAN 210 - Intermediate Spanish**

Credits: 3
Not Repeatable

Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Spanish-speaking regions.

**Prerequisite(s):** SPAN 102, 110, 115 appropriate placement score, or permission of department.

**Notes:** Students may not receive credit for SPAN 210 and SPAN 201, 202.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1

---

**SPAN 250 - Gateway to Advanced Spanish**

Credits: 3
Not Repeatable

Integration of advanced intermediate-level Spanish reading, writing, listening, and speaking skills, as well as the development of critical thinking about authentic texts from around the globe.

**Prerequisite(s):** SPAN 210, appropriate placement score, or permission of department.

**Notes:** Taught in Spanish.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SPAN 301 - Grammar and Syntax**

Credits: 3
Not Repeatable

In-depth review of Spanish grammar and syntax. Extensive practice in controlled and free writing with emphasis on fundamental
difficulties and points of interference that exist between English and Spanish.

Prerequisite(s): SPAN 202, SPAN 250, appropriate placement score, or permission of department

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SPAN 305 - Spanish in Context I**

Credits: 3
Not Repeatable
Integrated content-based approach to the study of Spanish, designed to promote oral and written abilities, as well as critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Includes vocabulary-building activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films.

Prerequisite(s): SPAN 250 or equivalent, or permission of instructor.

Notes: Taught in Spanish. Students cannot receive credit for SPAN 305 if they receive credit for SPAN 309 or 315.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SPAN 306 - Spanish in Context II**

Credits: 3
Not Repeatable
Continuation of SPAN 305.

Prerequisite(s): SPAN 305 or equivalent, or permission of instructor.

Notes: Taught in Spanish. Students cannot receive credit for SPAN 306 if they received credit for SPAN 309 or 315.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SPAN 309 - Intensive Spanish in Context**

Credits: 6
Not Repeatable
Intensive content-based approach to the study of Spanish, designed to promote oral and written abilities, as well as critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Includes vocabulary-building activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films.
Prerequisite(s): SPAN 250 or equivalent, or permission of instructor.

Notes: Taught in Spanish. Students cannot receive credit for both SPAN 309 and SPAN 305, 306, or 315.

Hours of Lecture or Seminar per week: 6  
Hours of Lab or Studio per week: 0

SPAN 315 - Spanish for Heritage Speakers

Credits: 3  
Not Repeatable  
Designed for students who have some communicative ability in Spanish, normally acquired in the home, who want to improve their reading and writing abilities while developing a critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Course components include orthography and vocabulary activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films.

Prerequisite(s): Appropriate placement score or permission of instructor.

Notes: Students cannot receive credit for both SPAN 315 and SPAN 305, 306, or 309.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 321 - Introduction to Spanish Culture

Credits: 3  
Not Repeatable  
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation of modern Spain.

Equivalent to SPAN 461

Prerequisite(s): ENGH 101 or equivalent, or permission of instructor.

Notes: Taught in English. Students may not receive credit for both SPAN 321 and 461.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 322 - Introduction to Latin American Culture

Credits: 3  
Not Repeatable  
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation of modern Latin America.

Fulfills Mason Core requirement in global understanding.
Equivalent to SPAN 466

**Prerequisite(s):** ENGL 101/ENGH 101 or equivalent, or permission of instructor.

**Notes:** Taught in English. Students may not receive credit for both SPAN 322 and 466.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SPAN 323 - Field Study in Hispanic Culture**

Credits: 1-3  
Not Repeatable  
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation of modern Spain.

**Prerequisite(s):** 60 credits or permission of instructor.

**Hours of Lecture or Seminar per week:** 6  
**Hours of Lab or Studio per week:** 0

---

**SPAN 324 - Study Abroad in Spanish**

Credits: 3  
Not Repeatable  
Study at an academic institution in a Spanish-speaking country including classroom studies with professors from the host country and field experiences.

**Prerequisite(s):** SPAN 250 (or equivalent) or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SPAN 325 - Major Hispanic Writers**

Credits: 3  
Repeatable within Term  
Study of the works of major Hispanic writers in translation. Writers studied vary.

Fulfills Mason Core requirement in literature.

**Prerequisite(s):** ENGH 101 or equivalent.

**Notes:** Taught in English. May be repeated once for credit when topic is different.
SPAN 326 - Treasures of Spanish American Literature

Credits: 3
Repeatable within Degree
Introduction to the major themes, trends, and cultural context of Latin American literature. Writers studied vary.

Prerequisite(s): Advanced oral and written proficiency in Spanish, to be determined by the instructor.

Notes: Taught in Spanish. May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 329 - Special Topics in Spanish and Latin American Literature

Credits: 3
Repeatable within Term
Study of selected topics in Spanish or Latin American literature. Writers and topics vary.

Prerequisite(s): ENGL 101/ENGH 101, or permission of instructor.

Notes: Taught in English. Designed for students who are not pursuing a concentration in Spanish. May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 335 - Topics for Proficiency: The Americas

Credits: 3
Repeatable within Degree
Integrated content-based approach to conversational Spanish. Designed to promote increased confidence and fluency in both formal and informal Spanish registers, as well as critical understanding of Latin American and/or Latino histories and cultures. Current events, films, literary texts, and popular culture reflecting issues of Latin Americans and/or Latinos serve as catalysts for class discussions, oral presentations, and debates.

Prerequisite(s): SPAN 250 (or equivalent) or permission of instructor.

Notes: Taught in Spanish. May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SPAN 336 - Topics for Proficiency: Spain

Credits: 3
Repeatable within Degree
Integrated content-based approach to conversational Spanish. Designed to promote increased confidence and fluency in both formal and informal Spanish registers, as well as critical understanding of Spanish history and culture. Current events, films, literary texts and popular culture reflecting Spanish issues serve as catalysts for class discussions, oral presentations and debates.

Prerequisite(s): SPAN 250 (or equivalent) or permission of instructor.

Notes: Taught in Spanish. May be repeated for a maximum of 6 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 351 - Oral Spanish

Credits: 3
Not Repeatable
Development of oral expression on topics of current interest and everyday situations, including written assignments.

Prerequisite(s): SPAN 250 or equivalent; appropriate placement score; or permission of instructor.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 370 - Spanish Writing and Stylistics

Credits: 3
Not Repeatable
Improves writing skills by covering formal and stylistic concepts of the Spanish language. Includes practice and exposure to different textual genres in an interdisciplinary fashion. Includes common doubts concerning spelling, expression, and style; business Spanish; journalistic Spanish; academic Spanish; and creative writing.

Fulfills writing intensive requirement in the major.

Equivalent to SPAN 452

Prerequisite(s): SPAN 306 or 309, or 315, or permission of instructor.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SPAN 375 - Introduction to Spanish-Language Cinema

Credits: 3  
Not Repeatable  
Introduces the study of film as an art form and the academic discipline of film studies as they relate to the Spanish-speaking world. Focuses on students' acquisition of knowledge on the material and principles of film form and their practice in film analysis of discrete Spanish language films and film genres of significance within the 20th and 21st centuries.

Prerequisite(s): SPAN 305 and SPAN 306 or SPAN 309 or SPAN 315.

Corequisite(s): SPAN 370, SPAN 385, SPAN 388, SPAN 390.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 385 - Introduction to Spanish Linguistics

Credits: 3  
Not Repeatable  
Introduces the study of Spanish linguistics, including phonetics, phonology, morphology, syntax, pragmatics, historical linguistics, and sociolinguistics. Combines discussion of theoretical issues with linguistic analysis of Spanish.

Prerequisite(s): SPAN 370 or permission of instructor.

Corequisite(s): SPAN 370 or permission of instructor.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 388 - Introduction to Latina/o Studies

Credits: 3  
Not Repeatable  
Interdisciplinary approach to the study of U.S. Latina/o cultural production, designed to promote critical thinking in understanding Latina/o histories, literatures, and cultures.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): SPAN 335 or 336, or SPAN 370, or permission of instructor.

Corequisite(s): SPAN 370 or permission of instructor.

Notes: Taught in Spanish.
SPAN 390 - Introduction to Hispanic Literary Analysis

Credits: 3
Not Repeatable
Required course that prepares students for the study of Hispanic literatures. Introduces basic terminology of literary analysis and provides practice in the examination of texts in the major genres: poetry, narrative, and drama.

Prerequisite(s): SPAN 370 or permission of instructor.

Corequisite(s): SPAN 370 or permission of instructor.

Notes: Taught in Spanish.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 400 - Spanish for the Professions

Credits: 3
Repeatable within Degree
Advanced study of the language needed for use in a specific profession, such as translation, business, social service, or health professions.

Prerequisite(s): SPAN 385 or permission of instructor.

Notes: Taught in Spanish. May be repeated for a maximum of 6 credits when profession differs.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 425 - Independent Study

Credits: 1-3
Repeatable within Term
Research and analysis of a selected problem in literature or linguistics in consultation with a department member.

Prerequisite(s): Spanish major with 90 credits, and permission of instructor.

Notes: Maximum of 6 credits of independent study may be applied to fulfillment of requirements for the major.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
**SPAN 426 - Independent Study**

Credits: 1-3  
Repeatable within Term  
Research and analysis of a selected problem in literature or linguistics in consultation with a department member.

**Prerequisite(s):** Spanish major with 90 credits, and permission of instructor.

**Notes:** Maximum of 6 credits of independent study may be applied to fulfillment of requirements for the major.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SPAN 430 - Spanish in the United States**

Credits: 3  
Not Repeatable  
Covers both formal and sociolinguistic aspects of Spanish in the U.S. by discussing demographic aspects and a historical overview of the varieties of Spanish spoken in the United States. Gives a foundation in issues such as linguistic variation, language choice, the relationship among race, ethnicity, and language; official language policies; individual and societal bilingualism; and language diversity in education.

**Prerequisite(s):** SPAN 385, or advanced ability in Spanish or permission of instructor.

**Notes:** Taught in Spanish.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SPAN 452 - Advanced Written Spanish**

Credits: 3  
Not Repeatable  
Development of skills required in writing Spanish. Guided and original compositions. Grammatical structures reviewed and supplemented with individual corrections.

Equivalent to SPAN 370

**Prerequisite(s):** 9 credits of SPAN at 300 level or above, or permission of instructor.

**Notes:** Taught in Spanish.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
SPAN 455 - Spanish-English Translation

Credits: 3  
Not Repeatable  
Introduction to the history, theory, analysis, and practice of Spanish-English and English-Spanish translation. Includes literal versus free translation; denotation and connotation; regional and social variation; intercultural pragmatic differences; interlanguage influence and calques; and genre and audience. Hands-on experience with literary works, newspaper articles, and advertisements, as well as legal, medical, and technical documents.

Prerequisite(s): SPAN 370 and ENGL 302/ENGH 302; or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 461 - Spanish Civilization and Culture

Credits: 3  
Not Repeatable  
Survey of Spanish culture and civilization from the pre-Roman era to the 20th century.

Equivalent to SPAN 321

Prerequisite(s): SPAN 370 or permission of instructor.

Notes: Taught in Spanish. Students may not receive credit for both SPAN 321 and 461.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 466 - Latin American Civilization and Culture

Credits: 3  
Not Repeatable  
Introduction to the study of Latin American civilization and culture from the pre-Columbian era to the 20th century.

Fulfills Mason Core requirement in global understanding.

Equivalent to SPAN 322

Prerequisite(s): SPAN 370 or permission of instructor.

Notes: Taught in Spanish. Students may not receive credit for both SPAN 322 and 466.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 472 - Spanish Phonetics and Phonology
Credits: 3
Not Repeatable
Introduction to the analysis of the Spanish sound system, both phonetics and phonology. Topics include the articulatory system, sound production, the classification of vowels and consonants, phonetic transcription, the mental representation of sounds, variation and accent, and processes of sound change, among others.

Prerequisite(s): SPAN 385 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 474 - Spanish Syntax and Semantics

Credits: 3
Not Repeatable
Investigates the knowledge Spanish speakers possess that enables them to understand and create expressions they have not heard before. Studies the system unconsciously used by Spanish speakers and writers to connect situations in the real world to the words and sentences that express each situation. Provides opportunities to analyze samples of language in actual use.

Prerequisite(s): SPAN 385 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 476 - Teaching Spanish in the United States

Credits: 3
Not Repeatable
Introduction to second language acquisition theory and research, and the application to teaching Spanish as a second language and a heritage language. Includes a discussion of sociocultural and political issues surrounding the teaching of Spanish in the United States. Covers learning objectives, critical pedagogy, course design, grammar instruction, task-based language teaching, computer-assisted language learning, materials evaluation, and assessment.

Prerequisite(s): SPAN 385 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 480 - Special Topics in Spanish

Credits: 3
Repeatable within Term
Study of a selected theme in Hispanic literature, culture, or linguistics.

Prerequisite(s): SPAN 385, 388 or 390, depending on topic, or permission of instructor.

Notes: Taught in Spanish. May be repeated for credit when topic is different.
SPAN 481 - Special Topics in Spanish

Credits: 3
Repeatable within Term
Study of a selected theme in Hispanic literature, culture, or linguistics.

Prerequisite(s): SPAN 385, 388 or 390, depending on topic, or permission of instructor.

Notes: Taught in Spanish. May be repeated for credit when topic is different.

SPAN 482 - Mass Media and Popular Culture in the Spanish-Speaking World

Credits: 3
Repeatable within Degree
Critical examination of the significance of mass media and/or popular culture for the development of Spanish-speaking nation-states in the 19th, 20th, and 21st centuries. Forms studied may include but are not limited to: Newspapers, popular novels, lithography, photography, radio, film, television, public art, sport, performance, digital media. Students will use readings in critical theory to explore ways in which forms of mass and popular culture connect to social imaginaries. Enhancement of advanced analytical skills in Spanish through different modules of lecture, reading, discussion, and writing.

Prerequisite(s): SPAN 305/306 or 309 or 315, SPAN 370, SPAN 385, SPAN 390.

SPAN 483 - Medieval and Early Modern Literature of Spain

Credits: 3
Not Repeatable
Examines the main periods, trends, genres, and most representative works of the Spanish peninsular literature from its beginnings to the end of the Golden Age.

Prerequisite(s): SPAN 390 or permission of instructor.

Notes: Taught in Spanish.
SPAN 484 - Modern and Contemporary Literature of Spain

Credits: 3  
Not Repeatable  
Examines the main periods, trends, genres, and most representative works of Spanish peninsular literature from the 18th century to the contemporary period. 

Prerequisite(s): SPAN 390 or permission of instructor. 

Notes: Taught in Spanish.  

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 486 - Topics in Latin American Literature I: Pre-colonial to Mid-19th Century

Credits: 3  
Not Repeatable  
An interdisciplinary examination and discussion of major topics in literary texts and cultural practices of Latin America from pre-colonial times to the mid-19th century. 

Prerequisite(s): SPAN 390 or permission of instructor. 

Notes: Taught in Spanish.  

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 487 - Topics in Latin American Literature II: Late 19th Century to the Present

Credits: 3  
Not Repeatable  
Interdisciplinary examination and discussion of major topics in literary texts and cultural practices of Latin America from the late 19th century to the present. 

Prerequisite(s): SPAN 390 or permission of instructor. 

Notes: Taught in Spanish.  

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 488 - The Literature of Spanish America

Credits: 3  
Not Repeatable
Survey of the literature of Spanish America. Study of texts that are representative of the colonial, romantic, modernista, avant garde, and contemporary periods.

**Prerequisite(s):** SPAN 390 or permission of instructor.

**Notes:** Taught in Spanish.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 490 - Internship in Spanish**

Credits: 1-6  
Not Repeatable  
Qualified students work with area schools, social service programs, government agencies, interest groups, museums, or corporations. Specific arrangements must be made with, and approved by, a member of the Spanish faculty during the semester prior to enrollment.

**Prerequisite(s):** 9 credits in Spanish at the 300 level, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 497 - Senior Honors Tutorial**

Credits: 3  
Not Repeatable  
First semester involves weekly meetings with a faculty member to discuss readings from a comprehensive list prepared by the Spanish faculty. In the second semester, independent research and completion of an honors essay under the supervision of a member of the Spanish faculty are required.

**Prerequisite(s):** Spanish major with 90 credits, cumulative GPA of 3.00, and GPA of 3.00 in major field.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 498 - Senior Honors Tutorial**

Credits: 3  
Not Repeatable  
Students meeting these requirements are admitted to candidacy on submission of a letter of application to the department Honors Committee in the second half of the junior year. A faculty recommendation and an interview by the Honors Committee are also required. First semester involves weekly meetings with a faculty member to discuss readings from a comprehensive list prepared by the Spanish faculty. In the second semester, independent research and completion of an honors essay under the supervision of a member of the Spanish faculty are required.

**Prerequisite(s):** Spanish major with 90 credits, cumulative GPA of 3.00, and GPA of 3.00 in major field.

**SPAN 500 - History of the Spanish Language**

Credits: 3  
Not Repeatable  
Study of the evolution of the Spanish language from its origins in Vulgar Latin to its present varieties. Includes consideration of social and political as well as linguistic factors in language change.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 501 - Applied Spanish Grammar**

Credits: 3  
Not Repeatable  
Analysis of Spanish grammar as a basis for teaching language skills. Terminology and methodology for the teaching of syntax are stressed.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 502 - Hispanic Sociolinguistics**

Credits: 3  
Not Repeatable  
Introduction to sociolinguistics with emphasis on bilingualism and language contact in the Spanish-speaking world including the United States.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 505 - Applied Spanish Stylistics**

Credits: 3  
Not Repeatable  
Advanced study of the written language for students who want to develop their academic writing skills. Covers the most frequent challenges of writing through intensive practice in genres such as argumentation, narration, and description. Teaches students to identify and analyze best practices in academic writing.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
SPAN 510 - Introduction to the Graduate Study of Literature in Spanish

Credits: 3
Not Repeatable
Study of the nature of literary work and analysis of critical approaches to literature with an emphasis on texts written in Spanish. Course is a requirement for master's students of Spanish in their first year of study.

Prerequisite(s): Graduate standing in master's program in foreign languages, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 520 - Studies in Medieval Spanish Literature

Credits: 3
Repeatable within Degree
Study of a major work or a literary genre of this period.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 525 - Studies in Renaissance Literature

Credits: 3
Repeatable within Degree
Study of a literary movement or selected authors of the Spanish Renaissance.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 530 - Studies in the Literature of the Golden Age

Credits: 3
Repeatable within Degree
Study of a literary genre or a major author of Spanish literature of the Golden Age.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SPAN 540 - Studies in 20th-Century Literature

Credits: 3
Repeatable within Degree
Study of a writer, genre, theme, or movement of this period.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 545 - Studies in Hispanic Literature

Credits: 3
Repeatable within Degree
Study of major writers in a particular generation or movement.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 551 - Special Topics in Spanish

Credits: 3
Repeatable within Term
Special studies in Spanish or Latin American language, literature, or culture. Specific topics are announced in advance.

Notes: May be repeated for credit with permission of department.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 560 - Studies in Spanish American Poetry

Credits: 3
Repeatable within Degree
Study of major poets of a given period. Literary and social atmosphere of the period are emphasized.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SPAN 565 - Studies in Spanish American Drama

Credits: 3
Repeatable within Degree
Study of playwrights who have made a major contribution to the development of the genre.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 576 - Advanced Translation

Credits: 3
Not Repeatable
Advanced work in translation of selected texts from diverse fields. Comparative terminology, sight translation, and précis writing. Emphasis on the function and technique of documentation in translation. Translation from Spanish to English and from English to Spanish.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 580 - Contemporary Hispanic Institutions

Credits: 3
Repeatable within Degree
Study of 20th-century cultural, social, and political institutions in Spain and Spanish America with emphasis on language and terminology used to describe their functions, regulations, and conditions.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 635 - Seminar in Don Quixote

Credits: 3
Not Repeatable
Study of Don Quixote and major critical approaches to the work.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 650 - Seminar in Twentieth-Century Drama
Credits: 3
Repeatable within Degree
Study of major dramatists in the generation of 1898 and contemporary theater.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 655 - Seminar in Twentieth-Century Prose

Credits: 3
Repeatable within Degree
Study of major writer, theme, or movement in novel or essay.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 670 - Seminar in Spanish American Prose

Credits: 3
Repeatable within Degree
Study of a selected theme, movement, or author in the novel, short story, or essay.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 675 - Seminar in Literature and Art

Credits: 3
Repeatable within Degree
Comparative analysis of a literary theme or style in relation to other media (painting, architecture, film) for an integral understanding of the arts.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 680 - Seminar in Literature and Society
Credits: 3
Repeatable within Degree
Study of a literary topic, a genre, or selected authors in relation to a given economic, social, or political system in Spain or Latin America.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 685 - Seminar in Literature and Ideas

Credits: 3
Repeatable within Degree
Study of major ideological-philosophical themes and their artistic expression in literature.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 798 - Directed Reading and Research

Credits: 3
Not Repeatable
Open only to degree students who have completed at least 18 credits. Reading and research on a specific project under the direction of a department member. Oral or written report required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

SPAN 799 - Thesis

Credits: 1-6
Repeatable within Degree
Master's thesis research and writing under direction of faculty committee. Students must register for 3 credits in the first semester of SPAN 799 and maintain continuous enrollment until completion of thesis. Credits are awarded upon completion.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: S/NC

SPAN 800 - Studies for the Doctor of Philosophy in Education
Credits: 3-6
Repeatable within Degree
Studies designed by student's discipline director and approved by student's doctoral committee that prepare student for research and writing in area of interest in discipline.

Prerequisite(s): Admission to PhD in education program to study in Spanish.

Notes: Enrollment may be repeated.

Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special

Special Education (EDSE)

Offered by the College of Education and Human Development

EDSE 115 - American Sign Language (ASL) I

Credits: 3
Not Repeatable
Introduces American Sign Language (ASL) and Deaf culture. Teaches basic person-to-person conversational signing. Emphasizes development of expressive and receptive skills. Increase knowledge of ASL vocabulary and the syntax, semantics, and pragmatics of the language. Explores issues of multiculturalism, linguistic code-switching, and language dominance, particularly in relationship to Deaf education.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

EDSE 401 - Introduction to Special Education

Credits: 3
Not Repeatable
Provides a survey of current knowledge on individuals with disabilities within the context of human growth and development across the life span. Content includes historical factors, legislation, etiology, characteristics, needs, educational strategies, assessment, and support services of and for individuals with disabilities ranging from mild and moderate to severe levels of varying disabilities. Includes the impact of disabilities on academic, social, and emotional performances.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 402 - Classroom Management and Applied Behavior Analysis
Focuses on identifying, recording, evaluating, and changing social and academic behaviors of special and diverse populations. Explores theories of classroom management and various approaches to management, including use of technological advances. Emphasizes developing classroom and individual behavior management plans.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 403 - Language Development and Reading**

Credits: 3  
Not Repeatable  
Identifies literacy skills for typical students, and describes reading, language, and writing instruction for students with mild disabilities who access the general curriculum. Topics include emergent literacy skills, phonemic awareness, vocabulary development, and comprehension.

**Prerequisite(s):** EDSE 401 and EDSE 440.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 405 - Introduction to Early Childhood Special Education**

Credits: 3  
Not Repeatable  
Surveys current knowledge about young children with disabilities within the context of human growth and development and learning expectations in the preschool years. Includes factors and legislation affecting service delivery. Field experience required.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 411 - Characteristics of Students with Visual Impairments**

Credits: 2  
Not Repeatable  
Provides an overview of the characteristics of and services to persons with visual impairments, including the impact of visual impairment on infants' and children's growth and development, child and adolescent emotional and social development, and family interaction patterns. Considers the educational, conceptual, psychosocial, and physical implications of a visual impairment.

**Notes:** Course delivered online.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0
EDSE 412 - Braille Code

Credits: 3
Not Repeatable
Provides understanding of the literary code of Braille and its implications for educational/literacy programs for students with a visual disability. Practice experiences will enable students to better understand the Braille code and how to teach it to students with a visual disability.

Prerequisite(s): EDSE 411.

Corequisite(s): EDSE 411.

Notes: Delivered online.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 414 - Orientation and Mobility

Credits: 2
Not Repeatable
Provides the foundation for understanding the components and essence of orientation and mobility (O&M). Establishes how the need for independent travel in the blind population created the field of O&M. Explores the philosophy and history of orientation and mobility, including cane instruction, dog guides, and methods of travel. Addresses techniques in developing orientation skills and basic mobility instruction. Motor and concept skill development are emphasized.

Prerequisite(s): EDSE 411.

Corequisite(s): EDSE 411.

Notes: Delivered online.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

EDSE 415 - Early Intervention for Infants and Toddlers with Disabilities: Collaborative and Consultative Approaches

Credits: 3
Not Repeatable
Explores current public policy initiatives for coordinating services for infants and toddlers. Covers models of services delivery and approaches to family-centered service.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
EDSE 418 - Curriculum and Assessment of Students with Visual Impairments

Credits: 3
Not Repeatable

Provides students with knowledge and understanding of the educational assessment of students with visual impairments and additional disabilities including deaf-blindness. Students practice assessing and planning educational programs for students with visual impairments. Addresses assessment of technology for students with visual impairments. Examines determination of learning needs and appropriate learning media, relationship of assessment, IEP development, and placement. Delivered online.

Prerequisite(s): EDSE 411.

Notes: Delivered online.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 422 - Augmentative Communication

Credits: 2
Not Repeatable

Focuses on alternative language, literacy, and communication techniques for children with severe language and speech impairments.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

EDSE 428 - Elementary Reading, Curriculum, and Strategies for Students Who Access the General Education Curriculum

Credits: 3
Not Repeatable

Applies research on instructional approaches in elementary curriculum for individuals with disabilities accessing general education curriculums. Includes curriculum and instructional strategies in reading, language arts, mathematics, science, social studies, and social skills; cognitive strategies in study skills, attention and memory, and peer-mediated instruction.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 429 - Secondary Curriculum and Strategies for Mild Disabilities

Credits: 3
Not Repeatable

Applies research on teacher effectiveness, teacher accountability, instructional approaches, and technological advances at the
secondary level for individuals with emotional disturbance, learning disabilities, and mental retardation. Includes curriculum and instructional strategies in reading, language arts, math, science, social studies, and social skills; cognitive strategies in self-regulation, study skills, attention, memory, and motivation; peer-mediated instruction including cooperative learning and peer tutoring; and self-advocacy and strategies for facilitating transition to community, workplace, and post-secondary environments.

**EDSE 431 - Transition and Community-Based Instruction**

Credits: 3  
Not Repeatable  
Addresses issues in transition for youth with severe disabilities. Covers self-determination, development and implementation of a transition plan, post-secondary opportunities including education and community-based instruction, and vocational environments.

**EDSE 432 - Positive Behavior Supports**

Credits: 3  
Not Repeatable  
Focuses on employing concepts and skills to design, implement, and evaluate behavior support programs derived from functional assessment; using effective teaching strategies; addressing relevant replacement skills; facilitating generalization and maintenance of skills and incorporating individually designed crisis intervention procedures.

**EDSE 434 - Communication and Severe Disabilities**

Credits: 3  
Not Repeatable  
Introduces professionals to augmentative and alternative communication (AAC) for individuals with severe speech and language impairments. Addresses knowledge and skills needed to assess the potential AAC user, make team decisions, develop and implement instruction, and evaluate the effects of instruction aimed at motivating, building, and expanding communication, choice-making, and social interaction.

**EDSE 440 - Characteristics of Students with Disabilities Who Access the General Curriculum**
Examines the characteristics of students with mild disabilities. Emphasis on etiology, contributing factors, conditions that affect learning, the challenges of identifying students with disabilities, and the need for academic, social, and emotional accommodations and support.

Notes: School-based field experience required.

EDSE 442 - Characteristics of Students with Mental Retardation

Credits: 3  
Not Repeatable  
Covers theories and specific conditions in mental retardation, and provides advanced study of persons with mental retardation, ranging in age from preschool to adult. Topics include historical development of the field of mental retardation; theoretical models of mental retardation; etiological factors; characteristics; models of assessment and intervention, including technological advances; and issues and trends, including legislation and litigation. Includes the study of the impact of mental retardation on academic and social and emotional performances. Field experience required.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 447 - Medical and Developmental Risk Factors for Children with Disabilities

Credits: 3  
Not Repeatable  
Examines nature and causes of disabling or special health conditions. Examines screening and evaluation techniques, characteristics, and educational implications.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 456 - Language Development and Communication for Diverse Infants and Toddlers

Credits: 3  
Not Repeatable  
Provides understanding of early language development in terms of each of the five major components of language. Speech, language, and communication are discussed, particularly in terms of their interrelatedness with cognitive and sociocultural development. Explores importance of adult-child interaction, and impact of bilingualism, cultural diversity, cognitive ability, and language disorder.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
EDSE 457 - Foundations of Language and Literacy for Diverse Learners

Credits: 3
Not Repeatable
Addresses first and second language acquisition and its application in the various contexts in which children develop. Explores the impact of disability and second language acquisition, and the inter-relationship of speaking, listening, and writing. Includes review of characteristics and etiology of children with language disabilities. Also addresses the diversity of communication styles in families, communities, and cultures. Field experience required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 458 - Medical Aspects of Physical and Sensory Disabilities in Young Children

Credits: 3
Not Repeatable
Focuses on physical, sensory, medical, and health aspects of child development, including etiology and symptomatology of developmental disabilities affecting physical development. Emphasizes positioning, handling, adaptive strategies, and understanding of assistive technology devices. Focuses on the understanding of roles of related disciplines in collaborative planning and service delivery. Field experience required.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 459 - Curriculum and Methods: Early Childhood Special Education

Credits: 3
Not Repeatable
Emphasizes planning, organizing, implementing, and evaluating programs for young children with special needs.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 460 - Introduction to Applied Behavior Analysis

Credits: 3
Not Repeatable
Students will master basic principles, procedures, and ethical concepts pertaining to applying behavior analysis in schools or in other educational or therapeutic settings developed to satisfy part of the educational requirements needed for sitting for the Board Certified Assistant Behavior Analyst examination.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall
EDSE 461 - Analysis and Intervention in Applied Behavior Analysis

Credits: 3
Not Repeatable
Teaches students basic data collection, presentation, and analysis as it pertains to applied behavior analysis; as well as procedures for determining intervention efficacy and selecting, developing, or modifying interventions based on data, in educational and other settings to satisfy part of the educational requirement to sit for the Board Certified Assistant Behavior Analyst (BCABA) examination.

Prerequisite(s): EDSE 460, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

EDSE 462 - Applying Behavior Analysis in School and Community Settings

Credits: 3
Not Repeatable
Teaches a variety of procedural topics in applied behavior analysis pertaining to developing effective instruction and interventions for a variety of content areas, skills, and adaptive and problem behaviors. Additionally, provides instruction on gaining collaboration of those around the student in assuring the student's success, and ethical concerns in meaningfully applying behavior analysis. Course is developed to satisfy part of the educational requirement to sit for the Board Certified Assistant Behavior Analyst (BCABA) examination.

Corequisite(s): EDSE 460 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

EDSE 464 - Ethical and Professional Conduct in Applied Behavior Analysis

Credits: 3
Not Repeatable
Provides a basis in Virginia Behavior Analyst Licensure law, the Behavior Analyst Certification Board's Guidelines for Responsible Conduct and Disciplinary Standards, Virginia Assistant Behavior Analyst Licensure Regulations, and professional conduct consistent with the practice of applied behavior analysis. Incorporates overseeing instructional or program implementation, working with behavior change systems, managing interventions, and behavior change considerations.

Prerequisite(s): EDSE 460.

Corequisite(s): EDSE 460.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring
EDSE 469 - Interdisciplinary Approach for Children with Sensory and Motor Disabilities

Credits: 3
Not Repeatable
Emphasizes positioning, handling, and adaptive strategies. Focuses on understanding the roles of related disciplines in collaborative planning and service delivery.

Equivalent to EDSE 669

Hours of Lecture or Seminar per week: 3

When Offered: Fall, Summer, Spring

EDSE 490 - Internship in Applied Behavior Analysis

Credits: 3-9
Repeatable within Degree
Provides hands-on experience implementing, evaluating, and participating in development and revision of behavior analytically based instruction and related procedures with children who are diagnosed with intellectual disabilities or behavioral difficulties, under supervision of a Board Certified Behavior Analyst. Individual and group, and on-site and off-site supervision modalities are used. Additional professional development instruction is provided. Satisfies part of the experiential requirements needed for sitting for the Board Certified Assistant Behavior Analyst examination.

Prerequisite(s): Admission to or prior completion of the undergraduate Applied Behavior Analysis minor, completion of an undergraduate course of study that has been approved by the Behavior Analyst Certification Board, or consent of the instructor.

Corequisite(s): EDSE 460, EDSE 461, EDSE 462, or permission of instructor.

Hours of Lecture or Seminar per week: 2-4
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit only
When Offered: Fall, Spring, Summer

EDSE 495 - Standard Applied Behavior Analysis Practicum

Credits: 3
Repeatable within Degree
Meets intensive undergraduate supervision requirements by the BACB to develop, design, implement, and evaluate behavior analytic techniques that produce meaningful change.

Prerequisite(s): EDSE 460 (may be taken concurrently); admission to or prior completion of the Applied Behavior Analysis minor or permission of instructor; submission of practicum application to the Special Education program.

Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification Board (www.BACB.com).

Hours of Lecture or Seminar per week: 3
EDSE 499 - Intensive Applied Behavior Analysis Practicum

Credits: 6
Repeatable within Degree
Meets standard supervision requirements by the BACB to develop, design, implement, and evaluate behavior analytic techniques that produce meaningful change.

Prerequisite(s): EDSE 460 (may be taken concurrently); admission to or prior completion of the Applied Behavior Analysis minor or permission of instructor; submission of practicum application to the Special Education program.

Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification Board (WWW.BACB.com)

EDSE 501 - Introduction to Special Education

Credits: 3
Not Repeatable
Survey of current knowledge on individuals with disabilities within the context of human growth and development across the life span. Includes historical factors, legislation, etiology, characteristics, needs, educational strategies, assessment, and support services for individuals with disabilities ranging from mild and moderate to severe. Includes the impact of disabilities on academic, social, and emotional performances.

EDSE 502 - Classroom Management and Applied Behavior Analysis

Credits: 3
Not Repeatable
Explores how to identify, record, evaluate, and change social and academic behaviors of special and diverse populations. Explores theories of classroom management and various approaches to management including use of technological advances. Emphasizes developing classroom and individual behavior-management plans.
EDSE 503 - Language Development and Reading

Credits: 3
Not Repeatable
In-depth coverage of reading instruction for students with special needs. Topics include language development and emergent literacy skills; reading subskills including auditory discrimination and phonemic awareness, decoding and word reading; reading comprehension; and use of technological advances in the teaching of reading.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 504 - Elementary Curriculum and Content for Special Educators

Credits: 2
Not Repeatable
Reviews elementary curriculum content and instructional approaches for the instruction of individuals with disabilities in language arts/reading, mathematics, science, and social studies. Addresses core knowledge for Elementary Praxis II.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

EDSE 505 - Introduction to Early Childhood Special Education

Credits: 3
Not Repeatable
Surveys current knowledge about young children with disabilities within the context of human growth and development and learning expectations in the preschool years. Includes historical factors and legislation affecting service delivery.

Notes: Field experience required

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 511 - Characteristics of Students with Visual Impairments

Credits: 2
Not Repeatable
Provides an overview of the characteristics of and services to persons with visual impairments, including the impact of visual impairment on infants' and children's growth and development, child and adolescent emotional and social development, and family interaction patterns. Considers the educational, conceptual, psychosocial, and physical implications of a visual impairment.

Notes: Course delivered online.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
EDSE 512 - Braille Code

Credits: 3
Not Repeatable
Provides understanding of the literary code of Braille and its implications for educational/literacy programs for students with a visual disability. Practice experiences enable students to better understand the Braille code and how to teach it to students with a visual disability.

Prerequisite(s): EDSE 511 (may be taken concurrently).

Notes: Delivered online.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 513 - Medical and Educational Implications of Visual Impairments

Credits: 3
Not Repeatable
Provides an introduction to anatomy and physiology of the visual system and the educational implications of visual pathology. Topics include anatomy of the human eye, normal visual development, pathology of the eye, examination procedures for the identification of visual pathology, and the effects of pathology on visual learning and development.

Prerequisite(s): EDSE 511 (may be taken concurrently).

Notes: Delivered online.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 514 - Orientation and Mobility for Students with Visual Impairments

Credits: 2
Not Repeatable
Provides the foundation for understanding the components and essence of orientation and mobility (O&M). Establishes how the need for independent travel in the blind population created the field of O&M. Explores the philosophy and history of orientation and mobility, including cane instruction, dog guides, and methods of travel. Addresses techniques in developing orientation skills and basic mobility instruction. Motor and concept skill development are emphasized.

Prerequisite(s): EDSE 511 (may be taken concurrently).

Notes: Delivered online.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
EDSE 515 - American Sign Language (ASL) I

Credits: 3  
Not Repeatable  
Introduces American Sign Language (ASL) and Deaf culture. Teaches basic person-to-person conversational signing. Emphasizes development of expressive and receptive skills. Increases knowledge of ASL vocabulary and the syntax, semantics and pragmatics of the language. Explores issues of multiculturalism, linguistic code-switching, and language dominance, particularly in relationship Deaf education.

Hours of Lecture or Seminar per week: 3  
When Offered: Fall, Summer, Spring

EDSE 517 - Computer Applications for Special Populations

Credits: 3  
Not Repeatable  
Lecture and laboratory course for teachers of special populations in applications of computer technology for instructional programs and computer skills. Students learn to use computer technology designed for special populations.

Prerequisite(s): Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 518 - Curriculum and Assessment of Students with Visual Impairments

Credits: 3  
Not Repeatable  
Provides students with knowledge and understanding of the educational assessment of students with visual impairments and additional disabilities including deaf-blindness. Students practice assessing and planning educational programs for students with visual impairments. Addresses assessment of technology for students with visual impairments. Examines determination of learning needs and appropriate learning media, relationship of assessment, IEP development, and placement.

Prerequisite(s): EDSE 511 (may be taken concurrently).

Notes: Delivered online.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 527 - Adapted Sports, Recreation, and Leisure

Credits: 1  
Not Repeatable  
Introduces tools for adapting sports, recreation, and leisure activities to promote the benefits of active participation, relaxation,
health, and well-being for individuals with differing abilities. Students participate in simulations, research, and design. Knowledge and awareness components may be delivered via distance education.

**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0

**EDSE 530 - Policy Perspectives Affecting Diverse Young Learners and Their Families**

Credits: 3  
Not Repeatable  
Provides understanding of historical and current trends and issues involving legislation and policy in early childhood education, bilingual education, early childhood special education, and multicultural education. Focuses on historical role of social advocacy, development of advocacy skills, and collaboration and consultation with other professionals and staff in the field of early childhood education.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 531 - Transition and Community-Based Instruction**

Credits: 3  
Not Repeatable  
Addresses issues in transition for youth with severe disabilities. Covers self-determination, development, and implementation of a transition plan, post-secondary opportunities including education and community-based instruction, and vocational environments.

**Notes:** Course is equivalent to EDSE 544 for students in the severe disabilities program.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 532 - Positive Behavior Supports**

Credits: 3  
Not Repeatable  
Designed for professionals working with individuals with severe disabilities. Focuses on concepts and skills needed to design, implement, and evaluate behavior support programs derived from functional assessment. Covers effective teaching strategies; addresses relevant replacement skills; facilitates generalization and maintenance of skills; and incorporates individually designed crisis intervention procedures.

**Notes:** Course is equivalent to EDSE 620 for students in the severe disabilities program.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 533 - Curriculum and Assessment in Severe Disabilities**
Credits: 3
Not Repeatable
Addresses best practices in curriculum and assessment for individuals with severe disabilities. Covers the design of assessment and evaluation techniques and procedures for the severe-needs population, including adaptations and accommodations. Covers IEP formulation and implementation with linkage to assessment. Course is equivalent to EDSE 649 for students in the severe disabilities program.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 534 - Communication and Severe Disabilities**

Credits: 3  
Not Repeatable
Introduces professionals to augmentative and alternative communication (AAC) for individuals with severe speech and language impairments. Addresses the knowledge and skills needed to assess the potential AAC user, make team decisions, develop and implement instruction, and evaluate the effects of instruction, aimed at motivating, building, and expanding communication, choice-making, and social interaction.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 540 - Characteristics of Students with Disabilities who Access the General Curriculum**

Credits: 3  
Not Repeatable
Examines the characteristics of students with mild disabilities. Emphasis on etiology, contributing factors, conditions that affect learning, the challenges of identifying students with disabilities, and the need for academic, social, and emotional accommodations and support.

**Notes:** School-based field experience required.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 542 - Characteristics of Students with Mental Retardation**

Credits: 3  
Not Repeatable
Covers theories and specific conditions in mental retardation, and provides advanced study of persons with mental retardation, ranging from preschool to adult. Topics include historical development of the field of mental retardation; theoretical models; etiological factors; characteristics; models of assessment and intervention, including technological advances; and issues and trends, including legislation and litigation. Includes the study of impact of mental retardation on academic and social and emotional performances. Requires field experience.
EDSE 544 - Adapted Instructional Methods and Transition for Secondary Learners

Credits: 3
Not Repeatable
Provides strategies for teaching functional academics and social/life skills, facilitating the transition to postsecondary environments. Focuses on all aspects of transition and alternative assessments for secondary learners with disabilities.

EDSE 547 - Medical and Developmental Risk Factors for Children with Disabilities

Credits: 3
Not Repeatable
Examines nature and causes of disabling or special health conditions. Covers screening and evaluation techniques, characteristics, and educational implications.

EDSE 553 - Teaching Mathematics to Students with Special Needs

Credits: 3
Not Repeatable
Covers techniques for assessing and remediating difficulties in mathematics.

EDSE 555 - Language Development and Emerging Literacy

Credits: 3
Not Repeatable
EDSE 556 - Developing Language, Literacy, and Communication in Young Children

Credits: 3  
Not Repeatable

Examines strategies to develop language, literacy, and communication in young children with varying abilities. Explores the importance of adult-child interaction and the effect of bilingualism, cultural diversity, cognitive ability, and language disorders.

Equivalent to ECED 522

Notes: Field Experience required

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 557 - Foundations of Language and Literacy for Diverse Learners

Credits: 3  
Not Repeatable

Examines complexity of language acquisition and literacy development. Focuses on typical and atypical language development, connections between language and literacy, and diversity of communication styles in families, and cultures. Emphasizes first and second language acquisition.

Notes: Field Experience required

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 558 - Medical Aspects of Physical and Sensory Disabilities in Young Children

Credits: 3  
Not Repeatable

Equivalent to ECED 506.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 560 - Secondary Mathematics for Special Education Teachers
Credits: 3  
Not Repeatable  
Provides the necessary depth and breadth of mathematics content knowledge required for prospective secondary special education mathematics teachers. Specific content includes: Algebra and Number Theory; Geometry, Measurement and Trigonometry; Functions and Calculus; Probability, Data Analysis and Statistics; Matrix Algebra and Discrete Mathematics. Students design mathematics instruction for students with mild disabilities utilizing current evidence-based practices.

**Hours of Lecture or Seminar per week:** 2.5  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

---

**EDSE 561 - Secondary Science for Special Education Teachers**

Credits: 3  
Not Repeatable  
Provides the necessary depth and breadth of science content knowledge required for prospective secondary special education science teachers. Prepares students for the Praxis Content Knowledge tests in five fields: Biology, Chemistry, Earth and Space Science, General Science and Physics. Design science content area instruction for students with mild disabilities utilizing current evidence-based practices.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 1  
**When Offered:** Fall, Spring, Summer

---

**EDSE 590 - Special Education Research**

Credits: 3  
Not Repeatable  
Describes fundamental concepts and practices in educational research in special education. Covers specific applications of educational research methods to problems in special education. Emphasizes review and critique of special education research, and applied classroom research for teachers.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**EDSE 597 - Special Topics in Education**

Credits: 1-6  
Repeatable within Degree  
Provides advanced study on selected topic or emerging issue in Special Education.

**Prerequisite(s):** Admission to program in Graduate School of Education.  
**Corequisite(s):** May be repeated for credit with GSE permission.  
**Notes:** May be repeated for credit with GSE permission.
Hours of Lecture or Seminar per week: 1-6  
Hours of Lab or Studio per week: 0

EDSE 612 - Special Needs Students in International Schools

Credits: 3  
Not Repeatable  
Focuses on students with special learning needs at international schools in the regular classroom environment. Enhances understanding of current issues within the field of special education in the international schools in an increasingly global community.

Prerequisite(s): Admission to FAST TRAIN program and EDSE 501

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 613 - Teaching Methods for Students with Visual Impairments

Credits: 3  
Not Repeatable  
Emphasizes methods of teaching compensatory skills, the core curriculum, and technology for use by students who are blind and visually impaired. Addresses curriculum development, adaptations, and teaching methodology for individuals with visual impairments. Provides information on adaptations within various educational programs and adaptation of general education classroom materials and procedures for use with blind and low vision children and youth.

Prerequisite(s): EDSE 511 (may be taken concurrently).

Notes: Delivered online.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 615 - Early Intervention for Infants and Toddlers with Disabilities: Collaborative and Consultative Approaches

Credits: 3  
Not Repeatable  
Covers methods of service delivery for infants and toddlers with disabilities and their families. Explores key aspects of consultation, interdisciplinary collaboration, service coordination, and family-centered services. Focuses on culturally responsive practices.

Prerequisite(s): Admission to the Early Childhood Special Education program or permission of the instructor

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
EDSE 616 - Braille Reading and Writing

Credits: 3  
Not Repeatable  
Provides basic instruction on transcription of advanced Braille codes, including music, foreign language, chemistry, computer Braille, and Nemeth code (Braille math code). Introduces techniques for teaching skills in each code. Explores technology tools used to create Braille and tactile materials in addition to other assistive technologies used for instruction in math and science.

Prerequisite(s): EDSE 512; EDSE 511 (may be taken concurrently).

Notes: Delivered online.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy

Credits: 3  
Not Repeatable  
Focuses on basic principles and procedures of applied behavior analysis; identification of factors that contribute to behavioral problems and improved performance; and procedures that can be used to minimize behavioral problems, improve performance, teach new behaviors, and increase probability of behaviors occurring under appropriate circumstances.

Prerequisite(s): Admission to applied behavior analysis graduate certificate program.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 620 - Supporting the Behavior Needs of Students with Autism

Credits: 3  
Not Repeatable  
Focuses on the principles of applied behavior analysis and social learning theory to increase learning by students with autism spectrum disorders. Explores how to identify, collect data, evaluate, and change social and academic behaviors of students with autism spectrum disorders. Emphasis is placed on single subject research designs.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Summer, Spring

EDSE 621 - Applied Behavior Analysis: Empirical Bases

Credits: 3  
Not Repeatable  
Focuses on basic content of applied behavior analysis. Teaches how to implement behavioral procedures and develop behavioral programs for clients with fundamental behavioral needs.
Prerequisite(s): EDSE 619 be completed prior to or concurrently with EDSE 621

Corequisite(s): EDSE 619

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 623 - Applied Behavior Analysis: Assessments and Interventions

Credits: 3
Not Repeatable
Further expands on basic content of applied behavior analysis and teaches how to implement behavioral procedures and develop behavioral programs for clients with fundamental behavioral needs.

Prerequisite(s): EDSE 619.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 624 - Applied Behavior Analysis: Applications

Credits: 3
Not Repeatable
Expands capability to deal with more complex behavioral situations, enabling ability to relate to more sophisticated professional issues and environments.

Prerequisite(s): EDSE 619

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 625 - Applied Behavior Analysis: Verbal Behavior

Credits: 3
Not Repeatable
Further expands capability to deal with more complex behavioral situations, and enables students to relate to more sophisticated professional issues and environments.

Prerequisite(s): EDSE 619

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 626 - The Inclusive Classroom
EDSE 627 - Assessment

Credits: 3  
Not Repeatable

Introduces participants to instructional procedures for facilitating inclusive instruction for students with disabilities in general education settings. Topics include research-based strategies for adapting curriculum materials, designing instructional procedures, and evaluating students with disabilities.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 628 - Elementary Reading, Curriculum, and Strategies for Students who Access the General Education Curriculum

Credits: 3  
Not Repeatable

Applies research on instructional approaches, in elementary curriculum for individuals with disabilities accessing general education curriculums. Includes curriculum/instructional strategies in reading, language arts, mathematics, science, social studies, cognitive strategies, study skills, attention/memory, and peer-mediated instruction.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 629 - Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum

Credits: 3  
Not Repeatable

Applies research on teacher effectiveness, accountability, and instructional approaches at the secondary level for individuals with mild disabilities. Includes instructional methods necessary for teaching reading, writing, math, and other content areas across the curriculum.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
EDSE 633 - Policy Perspectives Affecting Diverse Young Learners

Credits: 3  
Not Repeatable  
Provides understanding of historical and current trends and issues involving legislation and policy in early childhood education, bilingual education, early childhood special education, and multicultural education. Focuses on historical role of social advocacy, development of advocacy skills, and collaboration and consultation with other professionals and staff. Addresses continuum of services and the context of service delivery. Requires field experience.

Prerequisite(s): Admission to the Graduate School of Education.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 634 - Characteristics of Students with Autism

Credits: 3  
Not Repeatable  
Describes varying characteristics of students labeled with a type of autism who receive special education services. Examines definitions, eligibility criteria, incidence rates, and etiology. Perspectives from students, families, educational, community, and career personnel are described.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

EDSE 635 - Interventions for Students with Autism

Credits: 3  
Not Repeatable  
The course focuses on the research-based interventions that promote progress in the areas of communication, social, academic, behavior, and sensory motor skills for students with autism. Methods for identifying the impact of interventions are identified and a variety of service delivery models are analyzed.

Prerequisite(s): EDSE 634.

Corequisite(s): May be taken concurrently with EDSE 634.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

EDSE 648 - Introduction to Psycho-Educational Assessment
Credits: 3  
Not Repeatable  
Introduces basic statistical procedures and test characteristics. Appropriate terminology and practices related to formal and informal assessment applied throughout the course. Students practice administering, scoring, and interpreting tests, including the impact of multicultural diversity on assessment.

Prerequisite(s): EDSE 540.

EDSE 655 - Curriculum Methods: Elementary ED/LD

Credits: 3  
Not Repeatable  
Applies research on teaching effectiveness, teaching accountability, and instructional approaches with specific attention to reading, language arts, social skills, and cooperative learning. May require field experience in public schools.

EDSE 656 - Assessment of Diverse Young Learners

Credits: 3  
Not Repeatable  
Examines types of assessment, including family-centered assessment, used for planning and implementing effective programs for children from diverse cultures and with varied learning needs. Addresses selection, administration, and interpretation of formal and informal assessments.

Equivalent to ECED 521.

Prerequisite(s): Admission to the Early Childhood Special Education program or permission of the instructor

Notes: Field Experience required

EDSE 659 - Curriculum and Methods: Early Childhood Special Education

Credits: 3  
Not Repeatable  
Explores principles of learning, curriculum development, and relationship among assessment, instruction, and monitoring learning. Examines roles of play and active exploration in learning. Addresses guiding children's behavior and the role of families
in children's learning.

Prerequisite(s): Admission to the Early Childhood Special Education program or permission of instructor.

Notes: Field Experience required

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 661 - Curriculum and Methods: Severe Disabilities

Credits: 3
Not Repeatable
Focuses on current best practices in curriculum, and methods for students with severe disabilities, including specific strategies for teaching students with severe disabilities, general strategies for working with heterogeneous groups of students in inclusive settings, and methods for adapting the general education curriculum to include students with severe disabilities.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 662 - Consultation and Collaboration

Credits: 3
Not Repeatable
Provides professionals in special education, regular education, and related fields with knowledge and communications skills necessary for collaborative consultation and technical assistance to other educators and service providers.

Prerequisite(s): Teaching licensure, or enrollment in graduate degree program in education.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 664 - Ethical and Professional Conduct for Behavior Analysis

Credits: 3
Not Repeatable
Provides a basis in Virginia Behavior Analyst Licensure law, the Behavior Analyst Certification Board's Guidelines for Responsible Conduct and Disciplinary Standards, and professional conduct consistent with the practice of applied behavior analysis.

Prerequisite(s): EDSE 619

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring
EDSE 665 - Families of Children with Special Needs

Credits: 3
Not Repeatable
Focuses on strategies for developing culturally appropriate family-professional partnerships to benefit children with special needs. Explores theories and research that support a family-centered approach. Includes family and professional rights and responsibilities in the special education process.

Equivalent to ECED 524

Prerequisite(s): Admission to the Early Childhood Special Education program or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 667 - Cognitive Development of Diverse Young Children

Credits: 3
Not Repeatable
Explores conflicting views about how young children think and learn. Addresses cognitive theoretical approaches of leading researchers, and emphasizes their relevance to educational practice. Addresses characteristics of children with cognitive disabilities, children from multilingual and multicultural backgrounds, and those living in poverty, along with the educational implications of those characteristics. Requires field experience.

Prerequisite(s): Admission to the Graduate School of Education.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 669 - Interdisciplinary Approach for Children with Sensory and Motor Disabilities

Credits: 3
Not Repeatable
Emphasizes positioning, handling, and adaptive strategies. Focuses on understanding the roles of related disciplines in collaborative planning and service delivery.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 701 - Legal Issues and Special Populations

Credits: 3
Not Repeatable
Offers a study of the impact of legislation and litigation on the education of special populations emphasizing IDEA and Section 504. Topics of study include emerging trends in special education based on interpretation of landmark court cases related to disability, legal updates on policies and procedures for exceptional learners, and discussion of the guiding principles of special
education law when addressing the needs of special populations.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**EDSE 702 - Managing Resources for Special Education Programs**

Credits: 3  
Not Repeatable  
Examines development and delivery of specialized programs for exceptional learners. Topics include implementation of Individualized Education Plans via Universal Design, financial and human resource allocation and management, effective supervision and evaluation, and student outcome documentation.

**Prerequisite(s):** None

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**EDSE 703 - Creating a Collaborative Culture**

Credits: 3  
Not Repeatable  
Provides leaders in school settings with an opportunity to gain the skills needed to facilitate collaborative environments supportive of all learners. Topics of study include the impact of diversity on educational settings, developing a vision effective communication teaming and coteaching techniques, family professional partnerships, implementing schoolwide change initiatives, alternative dispute resolution, and maintaining a positive school climate.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**EDSE 743 - Leadership in Special Education Administration**

Credits: 3  
Not Repeatable  
Examines leadership issues and applies them to the administration of special education programs. Explores current challenges in the delivery of services for exceptional children through case studies and projects.

**Prerequisite(s):** None

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**EDSE 744 - Current Issues in Special Education**
EDSE 745 - Writing Grants

Credits: 3
Not Repeatable
Identification of funding sources, description of grant components, and development of grant budgets. Independent writing of an entire small grant and a significant portion of a large grant. Participation in grant peer-review process.

Prerequisite(s): EDRS 810; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

EDSE 782 - Comprehensive Topics in Special Education: Trends and Issues

Credits: 3
Not Repeatable
Focuses on current trends and issues in special education and disabilities. Students under the direction of instructor complete individually designed projects addressing major trends and issues in their emphasis area of special education.

Prerequisite(s): Majority of course work.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 790 - Internship in Special Education

Credits: 1-6
Repeatable within Term
Supervised internships that apply university course work to instruction of children and their families in school and community settings.

Prerequisite(s): Passing scores on Praxis I prior to final internship, and permission of advisor.

Notes: Students enroll in two separate internships appropriate to the area of study for a total of 6 credits. Applications for field internships are due on February 15 for fall; September 15 for spring; and March 1 for summer.
EDSE 791 - Midpoint Portfolio

Credits: 1
Not Repeatable
Opportunity for students to develop their portfolio. Serves as the vehicle to assess whether they are meeting the standards of their professional organization, the Council for Exceptional Children.

Notes: Must be taken after completion of fourth EDSE prefix course or concurrently with fourth or fifth EDSE prefix course in program.

EDSE 792 - Final Portfolio

Credits: 1
Repeatable within Degree
Opportunity for students to develop their portfolio. Serves as the vehicle to assess whether they are meeting the standards of their professional organization, the Council for Exceptional Children.

Corequisite(s): Must be taken concurrently with last EDSE 790 internship or the last EDSE course in the program.

EDSE 793 - Internship in Early Childhood Special Education

Credits: 1-6
Repeatable within Term
Supervised internships that apply university coursework to instruction of children and their families in school and community settings. Students enroll in both infant/toddler (3 credits) and pre-school (3 credits) internships.

Prerequisite(s): Admission to the Early Childhood Special Education Certificate or permission of instructor; passing Praxis I and VCLA scores.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 1-12
Grading: Satisfactory/No Credit
When Offered: Fall, Spring
EDSE 794 - Special Topics

Credits: 1-6
Repeatable within Degree
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

EDSE 797 - Advanced Topics in Education

Credits: 1-6
Repeatable within Degree
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education.

Notes: May be repeated for credit with CEHD approval.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special

EDSE 825 - Foundations in Behavior Analytic Instructional Design and Teaching Methodology

Credits: 3
Not Repeatable
Focuses on behavior analytic instructional design and teaching methodology. Prepares students to design effective instructions and assess currently existing instructional programs and curricula.

Prerequisite(s): Admission to a doctoral level program within the Graduate School of Education

Hours of Lecture or Seminar per week: 3

When Offered: Fall, Summer, Spring

EDSE 841 - Intervention Research in Special Education

Credits: 3
Not Repeatable
Provides advanced graduate students with opportunities for in-depth study, analysis, and discussion of original intervention research in special education. Emphasizes analyzing research methodology, coding original intervention research, analyzing results, synthesizing findings, formulating future research questions relevant to individuals with disabilities, and gaining an
understanding of the submission process for conferences and publications.

**Prerequisite(s):** Admission to PhD in education program, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### EDSE 842 - Application of Research Methodology in Special Education

Credits: 3  
Not Repeatable  
Provides knowledge and skills in the application of research methodology in special education. Topics include methods for conducting survey research, experimental and quasi-experimental research, research involving correlation and regression, and qualitative research. Emphasizes application to specific issues in special education research.

**Prerequisite(s):** Admission to PhD in education program, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### EDSE 843 - Leadership in Special Education Administration

Credits: 3  
Not Repeatable  
Examines leadership issues and applies them to the administration of special education programs. Explores current challenges in the delivery of services for exceptional children through case studies and projects.

**Prerequisite(s):** Admission to PhD in education program, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### EDSE 844 - Current Issues in Special Education

Credits: 3  
Not Repeatable  
Develops understanding of the role of convergent research evidence in addressing current issues in special education practice and policy. Describes current issues in special education and the group experimental, single subject, and qualitative research designs used to address these current issues. Students evaluate research studies in terms of methodological strengths and weaknesses, and their part in providing convergent bodies of evidence that can be used for defining practice and policy.

**Prerequisite(s):** Admission to PhD in education program, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
EDSE 845 - Personnel Preparation Programs in Special Education

Credits: 3
Not Repeatable
Provides an in-depth study, analysis, and discussion of personnel preparation programs in special education including: scope and sequence of teacher preparation programs as they align with state and national teacher licensure standards, bodies of accreditation, syllabi development, delivery models, and frameworks for curriculum design; teacher evaluation; and how policies, research, and issues of accountability can transform teacher preparation programs.

Prerequisite(s): Admission to PhD program or approval by permission.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

EDSE 846 - Assessment, Evaluation, and Instrumentation in Special Education Research

Credits: 3
Not Repeatable
Provides in-depth study, analysis and discussion of the past, present and future directions of assessment, evaluation, and instrumentation research in special education. Emphasizes reliability and validity of the research instruments, evaluating research methodology, analyzing results, synthesizing findings with respect to present assessment and evaluation policies; formulating future research questions relevant to assessment and evaluation of individuals with disabilities.

Prerequisite(s): Admission to PhD program or approval by permission.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

EDSE 847 - Problem Solving in Contemporary Initiatives in Special Education

Credits: 3
Not Repeatable
Addresses contemporary initiatives in special education: those introductory and leading actions intended to implement positive change, that can be promoted by federal agencies, professional or advocacy organizations. Focuses on understanding of contemporary special education initiatives through evaluation and analysis. Background, relevant legislative history, existing empirical evidence, and designing future research addressing contemporary initiatives will be studied and discussed.

Prerequisite(s): Admission to PhD program or approval by permission.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring
Offered by the College of Education and Human Development

**SPMT 100 - Current Events in Sport Business**

Credits: 1  
Not Repeatable  
Engages students in a discussion about recent developments in the sport industry, using the Sport Business Journal to stimulate the discussion as well as provide the student with current information about this rapidly changing industry. There will be two field trips conducted as part of this class.

*Hours of Lecture or Seminar per week:* 1  
*Hours of Lab or Studio per week:* 0

**SPMT 201 - Introduction to Sport Management**

Credits: 3  
Not Repeatable  
Introduces sport management profession. Primary focus is on sport industry, including professional sport entertainment, amateur sport entertainment, for-profit sport participation, nonprofit sport participation, sporting goods, and sport services.

*Notes:* Open to non majors.

*Hours of Lecture or Seminar per week:* 3  
*Hours of Lab or Studio per week:* 0

**SPMT 202 - Mental Skills for Sport Performance**

Credits: 2  
Not Repeatable  
Introduces mental skills training for sport performance used within the field of sport and exercise psychology. Demonstrates mental practice techniques to be practiced and assessed.

*Hours of Lecture or Seminar per week:* 2  
*Hours of Lab or Studio per week:* 0  
*When Offered:* Fall

**SPMT 210 - Foundations of Sport Coaching**

Credits: 3  
Not Repeatable  
Introduction to the scientific bases for coaching sports and the process of coaching athletes. It includes the development of an individual coaching philosophy and the application of scientific training in the psychological, physiological, pedagogical and managerial bases of sport coaching.
SPMT 241 - Practicum

Credits: 3
Not Repeatable
Paid or voluntary experience in sport industry setting. Work sites chosen by students after receiving approval of faculty supervisors.

Prerequisite(s): SPMT 201. Majors in BS HFRR SPMT only. Prerequisite enforced by registration system.

SPMT 302 - Philosophical and Ethical Dimensions of Sport

Credits: 3
Not Repeatable
Investigates moral issues in sport and judgments about right and wrong behavior among athletes, coaches, spectators, and others.

SPMT 304 - Sport, Culture, and Society

Credits: 3
Not Repeatable
Analyzes sport from educational, political, economic, and cultural perspectives.

SPMT 318 - Gender and Racial Issues in Sport

Credits: 3
Not Repeatable
Investigates dominant gender and racial ideologies, and their influence on sport.
SPMT 320 - Psychology of Sport

Credits: 3
Not Repeatable
Psychological theories of personality, motivation, and anxiety explored in sport environment. Examines social-psychological research on audience effects, team cohesion, leadership, and fan behavior.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 321 - America Through Baseball

Credits: 3
Not Repeatable
This course is designed for the student to gain an understanding of the past and present role of baseball in American culture. The course focuses on the development of professional baseball over the past 160 years and the ways in which the history of America as a nation and culture can be "read" through baseball.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 322 - Football and American Culture

Credits: 3
Not Repeatable
Designed for the student to gain an understanding of the past and present role of football in American culture. Focuses on the development of college, professional and high school football over the past 120 years and contemporary issues in football culture are analyzed such as debates over racial symbols and mascots, the question of professionalizing division one college football, and tailgating and televisual football cultures.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 323 - America and the Modern Olympics

Credits: 3
Not Repeatable
This course is designed to provide students an understanding of the role played by the United States in the modern Olympic movement. The primary focus is on the United States relationship with the modern Olympics from the earliest days of the games up through the Cold War period and beyond.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
SPMT 341 - Field Experience in Sport Coaching

Credits: 3
Not Repeatable
Application of the scientific bases for coaching sports and the process of coaching athletes. Includes paid or voluntary experience in a sport-specific setting. The practicum location is to be chosen by students after receiving approval of the faculty supervisor. A minimum of 120 clock hours is required within the timeframe of the course.

Prerequisite(s): SPMT 210 or Permission of the Instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

SPMT 405 - Sport Venues and Events

Credits: 3
Not Repeatable
Principles and techniques of event planning and operations in sport facilities and venues. Emphasizes principles and concepts of organization and administration including communication, personnel management, management of physical resources, and risk management. Examines a variety of sport events and venues such as indoor stadiums, athletic field complexes, and managing recreation and intramural activities.

Prerequisite(s): SPMT 201 and completion of 60 hours.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 412 - Sport Marketing and Sales

Credits: 3
Not Repeatable
Investigates principles and processes in sport marketing and finance. Focuses on research and development, sport promotion, sport sponsorship, advertising, merchandising, and distribution of sporting goods.

Prerequisite(s): 60 hours, including SPMT 201, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SPMT 420 - Economics and Finance in the Sport Industry

Credits: 3
Not Repeatable
Examines the principles of economics, budgeting, and finance as it applies to the sport industry.
Prerequisite(s): Completion of 60 hours, including SPMT 201, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 430 - Sport Communication

Credits: 3
Not Repeatable
Provides a senior-level exploration of the role of sport communication in contemporary cultures. Readings and discussions address questions about how communication about/in sports highlights the importance of sports, the cultural identities of those who engage in sport communication, and the pervasiveness of sport communication practices in industry.

Prerequisite(s): SPMT 201 and general COMM course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 440 - Global Perspectives in Sport

Credits: 3
Not Repeatable
An interdisciplinary examination of sport as a global phenomenon. Historical, cultural, economic, and governance perspectives are considered.

Prerequisite(s): SPMT 201 and completion of 60 hours. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 455 - Governance and Policy in Sport Organizations

Credits: 3
Not Repeatable
Examines sport organizations focused on both professional and amateur governance structures and processes. The study of policy in educational, nonprofit, and professional sport venues is also addressed.

Prerequisite(s): 60 hours, including SPMT 201, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 462 - Sport Business Law
Students in this course will receive instruction in the major areas of the law that impacts the sport industry. Students will also see how knowledge of sport law can make them better sport managers. There will be an introduction to the legal system in the United States and then we will see how the law has shaped the management of sport organizations and the playing and staging of the games.

Prerequisite(s): 60 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SPMT 470 - Strategic Management and Leadership in Sport Organizations

Credits: 3
Not Repeatable
Provides a foundation in organizational studies. It addresses the theoretical underpinnings and applications of leadership. It examines strategic planning processes and management within sport organizations.

Prerequisite(s): SPMT 201, 60 hours.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

SPMT 475 - Sport Management Professional Development Seminar

Credits: 3
Not Repeatable
This is a seminar format in which students synthesize and apply theories, concepts, and practices in the leadership and management of sport organizations.

Prerequisite(s): SPMT 241 and completion of 75 hours. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 480 - Special Topics in Sport Management

Credits: 3
Repeatable within Degree
See course description in the Schedule of Classes. Selected topics reflecting interest in specialized areas of sport management. Announced in advance.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SPMT 490 - Internship

Credits: 9-12
Not Repeatable
Paid or voluntary work experience in sport industry settings. Requires minimum period of 10 to 12 weeks of full-time employment. Applies course work, theories, and research to work settings. Work sites chosen by students after approval of faculty supervisors. Includes meetings and assignments before and during the internship.

Prerequisite(s): SPMT 475 and completion of 90 hours.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 12
Grading: Satisfactory/No credit only

SPMT 499 - Independent Study

Credits: 1-3
Not Repeatable
Faculty-directed independent study of approved topics in sport management.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

SPMT 551 - Sport in the Global Marketplace

Credits: 3
Not Repeatable
Explores sport business internationally including the production and consumption of professional and Olympic-linked sports and the impact of globalization on sport.

Prerequisite(s): Graduate status or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 555 - The Australian Model of Sport

Credits: 3
Not Repeatable
Examines the Australian model of sport which has been adopted in many countries. Analyzes government sport policy and the organization and administration of Australian professional sports.

Prerequisite(s): SPMT 551 or permission of instructor
SPMT 556 - The Global Soccer Industry

Credits: 3
Not Repeatable
Explores the international soccer industry focusing on major professional leagues, international federations, international movement of players, the production of soccer equipment, legal and social issues.

Prerequisite(s): SPMT 551 or permission of instructor

SPMT 611 - Sport Marketing and Sales

Credits: 3
Not Repeatable
Investigates principles and processes in sport marketing. Focuses on research and development, sport promotion, sport sponsorship, advertising, merchandising, and distribution of sporting goods.

SPMT 612 - Economics and Financial Management in the Sport Industry

Credits: 3
Not Repeatable
Examines principles of economics, budgeting, and finance as they apply to the sport industry.

SPMT 613 - Social Psychology of Sport: Leadership Implications

Credits: 3
Not Repeatable
Grounded in social psychological underpinnings, the course examines leadership in groups and organizations. It addresses the theoretical foundations and applications of leadership within sport organizations.
SPMT 614 - Legal Issues in Sport

Credits: 3
Not Repeatable
Examines legal issues as they apply to the sports industry. Course content includes, but is not limited to: tort law, risk management procedures, product liability, constitutional/contract/administrative/statutory law, crowd control/security, personal/professional values, and situational analysis.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 616 - Sport Operations, Venues, and Event Management

Credits: 3
Not Repeatable
Examines administrative functions and operations, strategic planning, governance structures, policy development, and effective practices in the strategic management of sport programs, including managerial principles for venues and events.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 618 - Psychology of Coaching

Credits: 3
Not Repeatable
Presents a psychological foundation for sport coaching. Basic tenets of the psychology of individual and group behavior will include motivation, stress, communication, group cohesion/dynamics, leadership, reinforcement, and feedback as they relate to the context of sport coaching.

Hours of Lecture or Seminar per week: 3

When Offered: Fall, Summer, Spring

SPMT 620 - Ethical Issues in Global Sport

Credits: 3
Not Repeatable
Investigates moral issues in sport, and judgments about right and wrong behavior among organizations, athletes, coaches, spectators, and others at the global level.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring
SPMT 631 - Theoretical Models of Sport Coaching

Credits: 3
Not Repeatable
Examines the scientific bases for coaching athletes. Emphasizes philosophical underpinnings and theoretical foundations in the psychological, physiological, pedagogical, and managerial bases of sport coaching.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 651 - Sport and International Development

Credits: 3
Not Repeatable
Explores the roles of sport in international development with focus on Africa, Asia, and Latin America. Non-governmental organizations (NGOs), international federations, professional leagues and grassroots initiatives will be examined.

Prerequisite(s): SPMT 551 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 652 - Governance and Policy in International Sport

Credits: 3
Not Repeatable
Explores sport governance and policy in the international context with focus on international federations, professional leagues and comparative analyses of governmental sporting policies.

Prerequisite(s): SPMT 551 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Sports and Recreation Studies (SRST)

SRST 200 - History of Sport and Leisure in America

Credits: 3
Not Repeatable
Traces the history of sport and leisure in America.

Hours of Lecture or Seminar per week: 3
**SRST 450 - Research Methods**

Credits: 3  
Not Repeatable  
Covers the development of empirical research designs for both practical and theoretical problems in health, fitness, and recreation resources management. Includes literature review of hypothesized relationships, and formulation of research proposals.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** 60 credits and one of the following: STAT 250, DESC 210, OM 210, SOC 313, OM 250, or IT 250

**SRST 598 - Special Topics**

Credits: 1-6  
Repeatable within Degree  
Focuses on projects related to sport and/or recreation studies.

**Prerequisite(s):** Graduate standing or permission of instructor.

**SRST 599 - Independent Study in Sport and Recreation Studies**

Credits: 1-3  
Repeatable within Degree  
Studies problem area in sport and recreation studies research, theory, or practice under direction of faculty member.

**Prerequisite(s):** Graduate standing and completion of 18 credit hours of graduate coursework in SRST.

**Notes:** Students engage in one-on-one or seminar independent study with an SRST faculty member. The faculty member may be the student's thesis or project supervisor. While SRST 599 is repeatable, 3 credit hours must be designated for Preparation of Thesis or Project Proposal.
SRST 606 - Foundations of Sport and Recreation Studies

Credits: 3  
Not Repeatable  
Examines the historical development of the Sport and Recreation Studies fields. Explores the interconnection between these phenomena in the context of the social, cultural and economic forces shaping American and global societies.

Prerequisite(s): Graduate standing or permission of the instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

SRST 623 - Research Design and Statistical Reasoning

Credits: 3  
Not Repeatable  
Introduces basic principles of scientific and scholarly inquiry in Sport and Recreation Studies. Explores the logic and practice of methods and techniques employed in research related to sport and recreation.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

SRST 798 - Master's Project

Credits: 1-6  
Repeatable within Degree  
Offers capstone experience to enable students to demonstrate their integrative knowledge and skills accrued through study in their concentration area within Sport and Recreation Studies.

Prerequisite(s): SRST 623, SRST/EFHP 599: Preparation of Thesis or Project Proposal; or permission of instructor.

Hours of Lecture or Seminar per week: 1-6  
Hours of Lab or Studio per week: 0  
Grading: Satisfactory/No credit only  
When Offered: Fall, Summer, Spring

SRST 799 - Master's Thesis

Credits: 1-6  
Repeatable within Degree  
Explores sport and recreation problem using appropriate research methodology and under supervision of graduate faculty member.
Prerequisite(s): SRST 623, SRST/EFHP 599: Preparation of Thesis or Proposal; or permission of instructor.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Summer, Spring

Statistics (STAT)

Offered by the Volgenau School of Engineering.

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course. This policy does not apply to STAT 250, which follows the normal university policy for repeating undergraduate courses.

STAT 250 - Introductory Statistics I

Credits: 3
Not Repeatable
Elementary introduction to statistics. Topics include descriptive statistics, probability, and estimation and hypothesis testing for means and proportions. Statistical software used for assignments.

Fulfills Mason Core requirement in quantitative reasoning.

Prerequisite(s): High school algebra.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

STAT 344 - Probability and Statistics for Engineers and Scientists I

Credits: 3
Limited to 2 Attempts
Introduction to probability and statistics with applications to computer science, engineering, operations research, and information technology. Basic concepts of probability, random variables and expectation, Poisson process, bivariate distributions, sums of independent random variables, central limit theorem, sampling distributions, maximum likelihood and unbiased estimators, confidence interval construction, and hypothesis testing.

Prerequisite(s): MATH 114 or MATH 116. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer
STAT 346 - Probability for Engineers

Credits: 3
Limited to 2 Attempts
Introduction to probability with applications to electrical and computer engineering, operations research, information technology, and economics. Basic concepts of probability, conditional probability, random variables and moments, specific probability distributions, multivariate distributions, moment-generating functions, limit theorems, and sampling distributions.

Prerequisite(s): MATH 213 or MATH 215. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 350 - Introductory Statistics II

Credits: 3
Limited to 2 Attempts
Further examination of statistics and data analysis with an emphasis on applications. Inference for comparing multiple samples, experimental design, analysis of variance and post-hoc tests. Simple linear, multiple and logistic regression. Analysis of contingency tables and categorical data. A statistical computer package is used for data analysis.

Prerequisite(s): STAT 250. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 354 - Probability and Statistics for Engineers and Scientists II

Credits: 3
Limited to 2 Attempts
Continuation of STAT 344. Multivariate probability distributions, variable transformations, regression, analysis of variance, contingency tables, and nonparametric methods. Applications to quality control, acceptance sampling, and reliability.

Prerequisite(s): STAT 346 and a course in Statistics, or STAT 344. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 362 - Introduction to Computer Statistical Packages

Credits: 3
Limited to 2 Attempts
Use of computer packages in statistical analysis of data. Topics include data entry, checking, and manipulation, and use of
computer statistical packages for regression and analysis of variance.

Prerequisite(s): STAT 250 or equivalent

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 435 - Analysis of Experimental Data

Credits: 3
Limited to 2 Attempts
Second course in statistics intended to assist with analysis of data from educational research and the social, natural, and life sciences. Topics include sample surveys, contingency tables, linear and multiple regression, analysis of variance, nonparametric tests, and multivariate methods. Various statistical packages will be used.

Prerequisite(s): STAT 250, STAT 344, or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 455 - Experimental Design

Credits: 3
Limited to 2 Attempts
Principles of analysis of variance and experimental design. Topics include computation and interpretation of analysis of variance; multiple comparisons; orthogonal contrasts; and design of experiments, including factorial, hierarchical, and split plot designs. Optional topics may include analysis of covariance; partial hierarchical designs; incomplete block designs; principles of blocking and confounding in 2**n experiments; or estimation of variance components. Computer statistical packages are used to perform computations.

Prerequisite(s): STAT 350, STAT 354, STAT 435, or equivalent. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring, Alternate Summer

STAT 456 - Applied Regression Analysis

Credits: 3
Limited to 2 Attempts
Introduces statistical modeling with a focus on regression. Topics include: Correlation, simple and multiple regression models, model fitting, variable selection, diagnostic tools, model validation, inference for regression parameters, and matrix forms for multiple regression. Data analysis is emphasized. Computer statistical packages are used to perform computations.

Prerequisite(s): STAT 350, STAT 354, STAT 435, or equivalent. Prerequisite enforced by registration system.
STAT 463 - Introduction to Exploratory Data Analysis

Credits: 3
Limited to 2 Attempts
Features statistical graphics, maps and simple models used to bring out patterns in data. Introduces statistical software and addresses data access and import. Presents exploratory strategies motivating data transformations. Stresses the cognitive foundations of good graphics. Graphics include dot plots, box plots, Q-Q plots, parallel coordinate plots, scatterplot matrices and linked views. Exploration includes use of dynamic graphics.

Prerequisite(s): STAT 350, STAT 354, STAT 435, or equivalent. Prerequisite enforced by registration system.

STAT 465 - Nonparametric Statistics and Categorical Data Analysis

Credits: 3
Limited to 2 Attempts
Introduction to nonparametric methods and categorical data analysis. Topics include: tests for one-sample, two-related samples, and two independent samples; concepts of nonparametric ANOVA; tests for proportions; chi-squared tests, log-linear models, and contingency tables; goodness-of-fit tests; correlation and association analysis; nonparametric regression including logistic and Poisson regression; and bootstrapping, jackknifing, and cross-validation.

Prerequisite(s): STAT 350, STAT 354, STAT 435, or equivalent. Prerequisite enforced by registration system.

Notes: Offered concurrently with STAT 525. Students may not receive credit for both STAT 465 and STAT 525.

STAT 474 - Introduction to Survey Sampling

Credits: 3
Limited to 2 Attempts
Introduction to design and analysis of sample surveys. Sample designs include simple random sampling; systematic sampling; and stratified, cluster, and multistage sampling. Analytical methods include sample size determination, ratio and regression estimation, imputation for missing data, and nonsampling error adjustment. Practical problems encountered in conducting a survey are discussed. Methods applied to case studies of actual surveys. Class project may be required.

Prerequisite(s): STAT 346 and a course in Statistics, or STAT 344.
Corequisite(s): STAT 362.

Notes: Recommended for students of decision, information, social sciences, and mathematics.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 498 - Independent Study in Statistics

Credits: 1-3
Limited to 2 Attempts
Directed self-study of special topics of current interest in statistics.

Prerequisite(s): 60 undergraduate credits; must be arranged with instructor and approved by the department chair before registering.

Notes: May be repeated for maximum 6 credits if topics are substantially different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

STAT 499 - Special Topics in Statistics

Credits: 3
Limited to 2 Attempts
Topics of special interest to undergraduates.

Prerequisite(s): 60 undergraduate credits and permission of instructor; specific prerequisites vary with nature of topic.

Notes: May be repeated for maximum 6 credits if topics substantially differ.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

STAT 501 - SAS Language and Basic Procedures

Credits: 1
Not Repeatable
Introduction to the SAS Data Step and Base SAS Procedures. Preparation for graduate students in use of SAS for other graduate courses offered by department. Topics include observation and variable structures, data interfaces, formats, functions, and procedures for summarizing and displaying data.

Prerequisite(s): Course in statistics and experience with Microsoft OS.

Hours of Lecture or Seminar per week: 1
STAT 502 - Introduction to SAS Statistical Graphics

Credits: 1
Not Repeatable
Introduces generating presentation-quality statistical graphics using SAS. Continued preparation beyond STAT 501 for graduate students in the use of SAS for other graduate courses offered by department. Topics include: an overview of ODS Graphics and SAS/GRAPH, graph output options, and in-depth coverage of the ODS Graphics procedures. Traditional SAS/GRAPH procedures are briefly discussed.

Prerequisite(s): Course in statistics and working knowledge of SAS.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Offered on an irregular basis

STAT 503 - SAS Macro Language

Credits: 1
Not Repeatable
Introduction to SAS Macro Language. Continued preparation beyond STAT 501 for graduate students in use of SAS for other graduate courses offered by department. Topics include macro language processing, macro variables, defining and calling macro variables, macro quoting, macro facility error messages, and examples of efficient code using macros.

Prerequisite(s): Course in statistics and working knowledge of SAS.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Offered on an irregular basis

STAT 504 - Introduction to SAS/IML

Credits: 1
Not Repeatable
Introduction to SAS/IML, the matrix language within the SAS environment. Topics include defining matrices, performing standard matrix operations, operating on rows and columns of a data table, and writing efficient SAS/IML programs.

Prerequisite(s): Working knowledge of SAS and matrix algebra.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

When Offered: Offered on an irregular basis at the department's discretion

STAT 505 - Introduction to R

Credits: 1
Not Repeatable
Introduction to R syntax, graphical interface, and basic operations. Preparation for graduate students in use of R for other graduate courses offered by department. Topics include import and export of data; manipulation of R object structures; function creation; package installation; and procedures for simulation, modeling, summarizing data, and producing graphics.

Prerequisite(s): Course in statistics.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Offered on an irregular basis at the department's discretion

STAT 506 - Introduction to SPSS

Credits: 1
Not Repeatable
Introduction to SPSS, a widely-used statistical software package in social sciences. Provides an overview of SPSS procedures for manipulating data; summarizing and displaying data; and analyzing data from a variety of experimental designs.

Prerequisite(s): Course in statistics and experience with Microsoft OS.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Offered on an irregular basis at the department's discretion

STAT 515 - Applied Statistics and Visualization for Analytics

Credits: 3
Not Repeatable
Introduces multivariate regression and random forests for modeling data. Addresses data access, variable selection and model diagnostics. Introduces foundations for visual thinking. Reviews common statistical graphics such as dot plots, box plots, q-q plots. Addresses more advanced methods such as scatterplot matrices enhanced by smoothed or density contours, and search tools for finding graphics with suggestive patterns.

Prerequisite(s): STAT 250 or equivalent.

Notes: Course will introduce R software for analysis. A final project will involve visualization of a real data set.

Hours of Lecture or Seminar per week: 3
STAT 517 - Experimental Design

Credits: 3
Not Repeatable
Principles of analysis of variance and experimental design. Topics include computation and interpretation of analysis of variance; multiple comparisons; orthogonal contrasts; and design of experiments, including factorial, hierarchical, and split plot designs. Optional topics may include analysis of covariance; partial hierarchical designs; incomplete block designs; principles of blocking and confounding in $2^n$ experiments; or estimation of variance components. Computer statistical packages are used to perform computations.

Prerequisite(s): STAT 535, STAT 554, or equivalent.

Notes: Offered concurrently with STAT 455. Students may not receive credit for both STAT 455 and STAT 517.

STAT 525 - Nonparametric Statistics and Categorical Data Analysis

Credits: 3
Not Repeatable
Introduction to nonparametric methods and categorical data analysis. Topics include tests for one-sample, two-related samples, and two independent samples; concepts of nonparametric ANOVA; tests for proportions; chi-squared tests, log-linear models, and contingency tables; goodness-of-fit tests; correlation and association analysis; nonparametric regression including logistic and Poisson regression; and bootstrapping, jackknifing, and cross-validation.

Prerequisite(s): STAT 535, STAT 554, or equivalent.

Notes: Offered concurrently with STAT 465. Students may not receive credit for both STAT 465 and STAT 525. Cannot be used to satisfy requirements for MS in Statistical Science.

STAT 526 - Applied Regression Analysis

Credits: 3
Not Repeatable
Introduces statistical modeling with a focus on regression. Topics include: Correlation, simple and multiple regression models, model fitting, variable selection, diagnostic tools, model validation, inference for regression parameters, and matrix forms for multiple regression. Data analysis is emphasized. Computer statistical packages are used to perform computations.
Prerequisite(s): STAT 535, STAT 554, or equivalent.

Notes: Offered concurrently with STAT 456. Students may not receive credit for both STAT 456 and STAT 526. Cannot be used to satisfy requirements for MS in Statistical Science.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 530 - Foundations of Statistical Thinking

Credits: 3
Not Repeatable
Provides a foundation in the key concepts underlying data analysis, statistics, and probability. Topics include research-based methods for developing statistical thinking, use of technology for learning about statistics, and structured learning activities. Statistical concepts include: distributions, measures of center and spread, sampling, sampling distribution, bivariate analysis, correlation, randomness, and law of large numbers.

Prerequisite(s): STAT 535, STAT 554, or equivalent.

Notes: Cannot be used to satisfy requirements for MS in Statistical Science.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring, Alternate Summer

STAT 535 - Analysis of Experimental Data

Credits: 3
Not Repeatable
Statistical methods for analysis of experimental data from educational research and the social, natural, and life sciences. Topics include sample surveys, contingency tables, linear and multiple regression, analysis of variance, nonparametric tests, and multivariate methods. Various statistical packages will be used.

Prerequisite(s): STAT 250, STAT 344, or equivalent.

Notes: Offered concurrently with STAT 435. Students may not receive credit for both STAT 435 and STAT 535. Cannot be used to satisfy requirements for MS in Statistical Science. Certificate program students granted credit for only one of STAT 535 or STAT 554.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 544 - Applied Probability
The axioms of probability, conditional probability, random variables and expectation, multivariate and conditional distributions, conditional expectation, order statistics, transformations, moment generating functions, special distributions, limit theorems.

Prerequisite(s): MATH 213 and STAT 346, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 554 - Applied Statistics I

Credits: 3
Not Repeatable
Application of basic statistical techniques. Focus is on the problem (data analysis) rather than on the theory. Topics include descriptive statistics; exploratory data analysis; sampling distributions; one- and two-sample tests and confidence intervals for means, medians, proportions, and variances; and goodness-of-fit tests. Normal theory is introduced first with discussion of what happens when assumptions break down. Alternative robust and nonparametric techniques are presented.

Prerequisite(s): STAT 346 or permission of instructor.

Notes: Certificate program students granted credit for only one of STAT 535 or 554.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 560 - Biostatistical Methods

Credits: 3
Not Repeatable
Focuses on biostatistical aspects of design and analysis of biomedical studies, including epidemiologic observational studies and randomized clinical trials. Topics include randomization principle, confounding, ethics in human experimentation, methods of randomization, stratification, primary outcome analyses, covariate-adjusted analyses, epidemiologic measures, and sample size and power computation.

Equivalent to STAT 660 (2011-2012 Catalog).

Prerequisite(s): STAT 346 and a course in Statistics, or STAT 344; and working knowledge of SAS.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

STAT 574 - Survey Sampling I
Design and implementation of sample surveys. Covers components of a survey; probability sampling designs to include simple random, systematic, Bernoulli, proportional to size, stratified, cluster and two-stage sampling; and ratio and regression estimators. Discusses practical problems in conducting a survey. Methods applied to case studies of actual surveys. Class project may be required.

**Prerequisite(s):** STAT 346 and a course in Statistics, or STAT 344; and working knowledge of SAS.

**Notes:** Offered concurrently with STAT474. Students may not receive credit for both STAT 474 and STAT 574.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**STAT 634 - Case Studies in Data Analysis**

Credits: 3  
Not Repeatable  
Examination of a wide variety of case studies illustrating data-driven model building and statistical analysis. With each case study, various methods of data management, data presentation, statistical analysis, and report writing are compared.

**Prerequisite(s):** STAT 554 and working knowledge of SAS, or permission of instructor. Prerequisite enforced by registration system.

**Corequisite(s):** STAT 654.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**STAT 652 - Statistical Inference**

Credits: 3  
Not Repeatable  
Fundamental principles of estimation and hypothesis testing. Topics include limiting distributions and stochastic convergence, sufficient statistics, exponential families, statistical decision theory and optimality for point estimation, Bayesian methods, maximum likelihood, asymptotic results, interval estimation, optimal tests of statistical hypotheses, and likelihood ratio tests. Equivalent to CSI 672.

**Prerequisite(s):** STAT 544 or permission of instructor Prerequisite enforced by registration system.

**Corequisite(s):** STAT 554

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring
STAT 654 - Applied Statistics II

Credits: 3
Not Repeatable
Overview of statistical principles of modeling. Topics include methods for analyzing data based on generalized linear models and diagnostic methods for assessing the assumptions of such models. Methods covered include multiple regression, analysis of variance, simultaneous inference, logistic response models, and hierarchical log linear models for contingency tables.

Prerequisite(s): STAT 554. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 655 - Analysis of Variance

Credits: 3
Not Repeatable
Single and multifactor analysis of variance, planning sample sizes, introduction to the design of experiments, random block and Latin square designs, and analysis of covariance.

Prerequisite(s): STAT 554 and working knowledge of SAS. Prerequisite enforced by registration system.

Corequisite(s): STAT 544

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring

STAT 656 - Regression Analysis

Credits: 3
Not Repeatable
Simple and multiple linear regression, polynomial regression, general linear models, subset selection, step-wise regression, and model selection. Also covered are multicollinearity, diagnostics, and model building as well as the theory and practice of regression analysis.

Equivalent to CSI 676.

Prerequisite(s): STAT 554, matrix algebra, and working knowledge of SAS. Prerequisite enforced by registration system.

Corequisite(s): STAT 544.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall
STAT 657 - Nonparametric Statistics

Credits: 3
Not Repeatable
Distribution-free procedures for making inferences about one or more samples. Tests for lack of independence, association or trend, and monotone alternatives are included. Measures of association in bivariate samples and multiple classifications are discussed. Both theory and applications are covered. Students are introduced to appropriate statistical software.

Prerequisite(s): STAT 544 and STAT 554. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Fall

STAT 658 - Time Series Analysis and Forecasting

Credits: 3
Not Repeatable
Modeling stationary and nonstationary processes, autoregressive, moving average and mixed model processes, autocovariance functions, autocorrelation functions, partial autocorrelation functions, spectral density functions, identification of models, estimation of model parameters, and forecasting techniques.

Equivalent to CSI 678.

Prerequisite(s): STAT 544 and STAT 554, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Fall

STAT 662 - Multivariate Statistical Methods

Credits: 3
Not Repeatable
Standard techniques of applied multivariate analysis. Topics include review of matrices, T square tests, principle components, multiple regression and general linear models, analysis of variance and covariance, multivariate ANOVA, canonical correlation, discriminant analysis, classification, factor analysis, clustering, and multidimensional scaling. Computer implementation via a statistical package is an integral part of the course.

Prerequisite(s): STAT 554, matrix algebra, and working knowledge of SAS. Prerequisite enforced by registration system.

Corequisite(s): STAT 544.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring
STAT 663 - Statistical Graphics and Data Exploration I

Credits: 3
Not Repeatable
Introduces statistical graphics that show distribution features and functional relationships in the presence of noise. Introduces cognitive research guidance for graphics design and reasoning. Stresses quantitative comparisons from multiple perspectives. Features new micromaps designs for spatial and temporal comparisons. Introduces R, the grammar of graphics, and dynamic graphics software.

Equivalent to CSI 773.

Prerequisite(s): A 300-level statistics course and a programming course, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 665 - Categorical Data Analysis

Credits: 3
Not Repeatable
Analyzes cross-classified categorical data in two and higher dimensions. Topics include association tests and measures of association in two- and three-dimensional contingency tables, logistic regression, and log linear models. SAS is used extensively for data analysis.

Prerequisite(s): STAT 654 and working knowledge of SAS. Prerequisite enforced by registration system.

Corequisite(s): STAT 544.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring

STAT 668 - Survival Analysis

Credits: 3
Not Repeatable
Survival Analysis is a class of statistical methods for studying the occurrence and timing of events. In medical research, the events may be deaths, and the objective is to determine factors affecting survival times of patients following treatment, usually in the setting of clinical trials. Methods can also be applied to the social and natural sciences and engineering where they are known by other names (reliability, event history analysis). Concepts of censored data, time-dependent variables, and survivor and hazard functions are central. Nonparametric methods for comparing two or more groups of survival data are studied. The Cox regression model (proportional hazards model), Weibull model, and the accelerated failure time model are studied in detail. Concepts are applied to analysis of real data from major medical studies using SAS software.

Prerequisite(s): STAT 544, STAT 554, and working knowledge of R and SAS. Prerequisite enforced by registration system.
STAT 672 - Statistical Learning and Data Analytics

Credits: 3
Not Repeatable
The course focuses on statistical learning theory by introducing the statistical and optimization background essential for understanding statistical learning algorithms. Also discusses applications of statistical learning algorithms to the solution of important problems in many areas of science.

Prerequisite(s): STAT 544 and STAT 554. Prerequisite enforced by registration system.

STAT 674 - Survey Sampling II

Credits: 3
Not Repeatable
Continuation of STAT 574. Regression estimators for complex sampling designs, domain estimation, two-phase sampling, weighting adjustments for nonresponse, imputation, nonresponse models, measurement error models, introduction to variance estimation. Applications to case studies of actual surveys.

Prerequisite(s): STAT 574. Prerequisite enforced by registration system.

STAT 689 - Topics in Statistics

Credits: 1-3
Repeatable within Degree
Special topics of interest to graduate students in statistics.

Equivalent to STAT 789 (2011-2012 Catalog)

Prerequisite(s): Permission of instructor; specific prerequisites vary with the nature of the topic.

Notes: May be repeated for maximum of 6 credits if topics substantially differ.
STAT 751 - Computational Statistics

Credits: 3
Not Repeatable
Covers basic computationally intensive statistical methods and related methods, which would not be feasible without modern computational resources. Covers nonparametric density estimation including kernel methods, orthogonal series methods and multivariate methods, recursive methods, cross validation, nonparametric regression, penalized smoothing splines, the jackknife and bootstrapping, computational aspects of exploratory methods including the grand tour, projection pursuit, alternating conditional expectations, and inverse regression methods.

Equivalent to CSI 771.

Prerequisite(s): STAT 652 or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Fall

STAT 756 - Alternative Regression Methods

Credits: 3
Not Repeatable
Presents several modern regression methodologies that are useful in data analysis when some of the assumptions of linear regression theory fail to hold. Topics include non-linear regression, quantile regression, robust regression, and computational methods for fitting these models.

Prerequisite(s): STAT 656, and working knowledge of SAS. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring

STAT 758 - Advanced Time Series Analysis

Credits: 3
Not Repeatable
Mathematical modeling and methods for model identification and forecasting of nonstationary and seasonal time series data (ARIMA models), multivariate time series, and state-space models.

Prerequisite(s): STAT 658. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Offered on an irregular basis at the department's discretion.
STAT 760 - Advanced Biostatistical Methods

Credits: 3
Not Repeatable
Advanced statistical methods in the drug development process. Provides the theoretical statistical basis for the design and analysis of pharmaceutical clinical trials. Topics include the theory of randomization, randomization-based inference, restricted, response-adaptive, and covariate-adaptive randomization, the modern theory of group sequential monitoring, statistical aspects of determination of dose-response relationships.

Prerequisite(s): STAT 652, STAT 656, and working knowledge of statistical programming language. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Offered on an irregular basis

STAT 763 - Statistical Graphics and Data Exploration II

Credits: 3
Not Repeatable
Addresses data set size and human comprehension challenges. Introduces case and variable reduction methods, and overview production. Incorporates cognitive science guidance. Utilizes data mining models and visual analytic algorithms to find patterns and prioritize graphics. Addresses applications from both information and scientific visualization. Tracks advances in web graphics including citizen science projects harnessing the visual power of thousands of people.

Prerequisite(s): STAT 515 or STAT 663, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

STAT 765 - Advanced Topics in Categorical Data Analysis

Credits: 3
Not Repeatable
Covers advanced techniques for categorical data analysis and the theoretical basis for the analysis of categorical data. Topics include: models for multinomial responses, matched pairs, repeated measures, and ordinal data; random effects models; asymptotic theory for parametric models; theory for maximum likelihood and alternative estimation methods; and exact inference. Statistical software packages are used extensively for data analysis.

Prerequisite(s): STAT 652 and STAT 665. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Offered on an irregular basis at the department's discretion.

STAT 771 - Spatial Data Analysis
Credits: 3
Not Repeatable
Presents analysis techniques for spatially-indexed or spatially-correlated data that arise in many areas of science, including medicine, transportation, and atmospheric sciences. Focus is on data analysis rather than theory, though theory will necessarily be covered. Topics include analysis of point patterns, trend and surface estimation, and spatial regression.

**Prerequisite(s):** STAT 652, STAT 656, and working knowledge of R and SAS. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Alternate Fall

---

**STAT 773 - Statistical Methods for Longitudinal Data Analysis**

Credits: 3  
Not Repeatable
Presents modern statistical approaches to the analysis of longitudinal data, i.e., data collected repeatedly on experimental units over time (or other conditions). Topics include linear mixed effects models, generalized linear models for correlated data (including generalized estimating equations), and computational issues and methods for fitting models.

**Prerequisite(s):** STAT 652, STAT 656, and working knowledge of SAS. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Alternate Spring

---

**STAT 778 - Algorithms and Simulation for Statistics in C**

Credits: 3  
Not Repeatable
Introduces high level simulations and algorithms for complex statistical problems using C. Topics include: pointers, arrays, random number generation, iterative numerical algorithms, sorting, matrix operation, numerical integration and Bayesian computation, advanced data structure for complex problems, and parallel processing. Complex programming problems related to statistical modeling and inference are studied.

**Prerequisite(s):** STAT 652 or CSI 672, or permission of instructor. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**STAT 796 - Independent Studies/Directed Readings**

Credits: 1-3  
Not Repeatable
Reading and research on a specific topic in statistics under guidance of graduate faculty member.
Prerequisite(s): Permission of instructor and department's graduate coordinator.

**STAT 798 - Master's Research Project**

Credits: 3  
Not Repeatable  
Project chosen and completed under guidance of graduate faculty member that results in acceptable technical report.

Prerequisite(s): 9 graduate credits, and permission of instructor.

**STAT 799 - Master's Thesis**

Credits: 1-6  
Repeatable within Degree  
Project chosen and completed under guidance of graduate faculty member that results in acceptable technical report and oral defense.

Prerequisite(s): 9 graduate credits, and permission of instructor.

**STAT 871 - Statistical Data Mining**

Credits: 3  
Not Repeatable  
Covers basic concepts, computational complexity, data preparation and compression, databases and SQL, rule-based machine learning and probability, density estimation, exploratory data analysis, cluster analysis and pattern recognition, artificial neural networks, classification and regression trees, correlation and nonparametric regression, time series, and visual data mining.

Prerequisite(s): STAT 554 or 663, or permission of instructor.

**STAT 876 - Measure and Linear Spaces**
Measure theory and integration; convergence theorems; theory of linear spaces and functional analysis; and probability theory. The theory of linear spaces includes normed linear spaces, inner product spaces, Banach and Hilbert spaces, Sobolev spaces, and reproducing kernels. Topics include wavelets, applications to stochastic processes, and nonparametric functional inference.

Equivalent to CSI 876

**Prerequisite(s):** STAT 544 and MATH 315.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Offered on an irregular basis at the department's discretion

---

**STAT 877 - Geometric Methods in Statistics**

Credits: 3  
Not Repeatable

Develops foundations of geometric methods for statistics. Topics include n-dimension Euclidian geometry; projective geometry; differential geometry, including curves, surfaces, and n-dimensional differentiable manifolds; and computational geometry, including computation of convex hulls, tessellations of two-, three-, and n-dimensional spaces, and finite element grid generation. Examples include applications to scientific visualization.

Equivalent to CSI 877

**Prerequisite(s):** STAT 751 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Offered on an irregular basis at the department's discretion

---

**STAT 889 - Advanced Topics in Statistics**

Credits: 3  
Repeatable within Degree

Advanced topics not occurring in regular sequence.

**Prerequisite(s):** Doctoral standing and permission of instructor.

**Notes:** May be repeated for a maximum of 12 credits.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**STAT 896 - Advanced Directed Reading**
Individualized study with a graduate faculty member in the Department of Statistics. Syllabus and grading criteria must be preapproved by the PhD in Statistical Science Program Director.

Prerequisite(s): Admission to PhD in Statistical Science Program. Permission of PhD in Statistical Science Program Director and permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

STAT 971 - Probability Theory

Credits: 3
Not Repeatable
A rigorous measure-theoretic treatment of probability. Includes expectation, distributions, laws of large numbers and central limit theorems for independent random variables, characteristic function methods, conditional expectations, martingales, strong and weak convergence, and Markov chains.

Equivalent to CSI 971.

Prerequisite(s): STAT 544 and MATH 315. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 972 - Mathematical Statistics I

Credits: 3
Not Repeatable
Focuses on theory of estimation. Includes method of moments, least squares, maximum likelihood, and maximum entropy methods. Details methods of minimum variance unbiased estimation. Topics include sufficiency and completeness of statistics, Fisher information, Cramer-Rao bounds, Bhattacharyya bounds, asymptotic consistency and distributions, statistical decision theory, minimax and Bayesian decision rules, and applications to engineering and scientific problems.

Equivalent to CSI 972.

Prerequisite(s): STAT 652/CSI 672 or equivalent. Prerequisite enforced by registration system.

Corequisite(s): STAT 876/CSI 876 or STAT 971/CSI 971.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 973 - Mathematical Statistics II
Credits: 3
Not Repeatable
Continuation of STAT 972/CSI 972. Concentrates on theory of hypothesis testing. Topics include characterizing decision process, simple versus simple hypothesis tests, Neyman-Pearson Lemma, uniformly most powerful tests, unbiasedness and invariance of tests, and randomized and sequential tests. Applications of testing principles made to situations in normal distribution family and other families of distributions.

Equivalent to CSI 973

Prerequisite(s): STAT 972/CSI 972. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

STAT 990 - Dissertation Topic Presentation

Credits: 1
Not Repeatable
Students put together a professional presentation of a research proposal and present it for critique to fellow students and interested faculty.

Equivalent to IT 990, CS 990.

Prerequisite(s): Completion of all course requirements for PhD, or permission of instructor.

Notes: May be repeated with change of research topic, but credit towards doctoral degree is given once.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 998 - Doctoral Dissertation Proposal

Credits: 1-12
Repeatable within Degree
Work on research proposal that forms basis for doctoral dissertation.

Notes: May be repeated. No more than 24 credits of STAT 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

STAT 999 - Doctoral Dissertation
Credits: 1-12
Repeatable within Degree
Formal record of commitment to doctoral dissertation research under direction of faculty member in statistics.

Prerequisite(s): Admission to candidacy.

Notes: May be repeated as needed; no more than 24 credits of STAT 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

**Systems Engineering (SYST)**

Offered by the Volgenau School of Engineering.

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

**SYST 101 - Understanding Systems Engineering**

Credits: 3
Limited to 2 Attempts
Introduces systems engineering and curriculum for BS in field. Introduces large and small systems, and explains them through some hands-on experiences. Key concepts include understanding requirements for system and translation of system-level requirements to component-level requirements. Several different kinds of example systems presented and discussed: objectives, major components, how system works, and major design issues. Each student gives similar presentation on system of choice. Students working in groups design, develop, and test system, and give oral presentation. Students responsible for writing several short papers on curriculum and presentations they have heard.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**SYST 198 - Independent Study in Systems Engineering**

Credits: 1-3
Repeatable within Term
Must be arranged with instructor and approved by department chair before registering. Directed self-study of special topics of current interest in systems engineering.

Notes: May be repeated for maximum 6 credits if topics are substantially different.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer
**SYST 202 - Engineering Systems in a Complex World**

Credits: 3  
Limited to 2 Attempts  
This course introduces students to the study of engineering systems as a means of understanding larger historical trends in a global society. Students will use case studies and historical analyses to think strategically and globally about the management and execution of complex systems in the context of culture, environment, politics and economics, and learn how to employ such analyses as decision-making tools for leadership. Students will be required to critically analyze articles and books, and work in groups to investigate and present topics of current national and international relevance.

Fulfills Mason Core requirement in global understanding.

Equivalent to SYST 100 (2013-2014 Catalog); HIST 202.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

**SYST 210 - Systems Design**

Credits: 3  
Limited to 2 Attempts  
Systems engineering design and integration process, development of functional, physical, and operational architectures. Emphasizes requirements engineering, functional modeling for design, and formulation and analysis of physical design alternatives. Introduces methods, software tools for systems engineering design.

**Prerequisite(s):** SYST 101 or sophomore standing.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**SYST 220 - Dynamical Systems I**

Credits: 3  
Limited to 2 Attempts  
Introduces modeling of dynamical systems. Formulation of mathematical models from system descriptions, including computer, biological, economic, transportation, and mechanical systems. Analytical and numerical methods for solving models and studying their behavior. Discrete-time and continuous time systems. Linear and nonlinear systems. Introduction to computer modeling using MATLAB.

**Prerequisite(s):** MATH 114 or MATH 116 and PHYS 160. Prerequisite enforced by registration system.

**Corequisite(s):** MATH 203 and SYST 221.

**Hours of Lecture or Seminar per week:** 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**SYST 221 - Systems Modeling Laboratory**

Credits: 1
Limited to 2 Attempts
Companion laboratory to SYST 220. Emphasizes system design and analysis using computer modeling environment MATLAB. Simulation and numerical solutions of continuous dynamic systems. Use of built-in functions and construction of macros. Graphical presentation of results.

Prerequisite(s): CS 112.

Corequisite(s): SYST 220.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Spring

**SYST 320 - Dynamical Systems II**

Credits: 3
Limited to 2 Attempts
Continuation of SYST 220 with emphasis in continuous-time systems. Translational, rotational, and electrical systems. Block diagrams and state variable models. Systems analysis in time domain and frequency domain. Analysis of control systems.

Prerequisite(s): SYST 220, MATH 203, MATH 214, PHYS 260. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**SYST 330 - Systems Methods**

Credits: 3
Limited to 2 Attempts
Analysis methods of system engineering design and management. Decision analysis, economic models and evaluation, optimization in design and operations, probability and statistical methods, queuing theory and analysis, management control techniques, reliability and maintainability analysis, and economic and life-cycle cost analysis. Laboratory exercise with different software programs included.

Prerequisite(s): MATH 114 or MATH 116. Prerequisite enforced by registration system.

Corequisite(s): STAT 344 and SYST 221.

Hours of Lecture or Seminar per week: 3
**SYST 335 - Discrete Systems Modeling and Simulation**

Credits: 3  
Limited to 2 Attempts  
Introduces basic concepts of modeling complex discrete systems by computer simulation. Topics include Monte-Carlo methods, discrete-event modeling, specialized simulation software, and statistics of input and output analysis.

Equivalent to OR 335

Prerequisite(s): CS 112 or equivalent, and STAT 344, or STAT 346, or MATH 351. Prerequisite enforced by registration system.

Corequisite(s): CS 211.

**SYST 371 - Systems Engineering Management**

Credits: 3  
Limited to 2 Attempts  
Study of basics of systems engineering management. Includes engineering economics, planning, organizing, staffing, monitoring, and controlling process of designing, developing, and producing system to meet stated need in effective and efficient manner. Discusses management tools, processes, and procedures, including various engineering documentation templates, managerial processes, and dealing with personnel issues.

Prerequisite enforced by registration system.

Corequisite(s): SYST 210 and SYST 330.

**SYST 395 - Applied Systems Engineering**

Credits: 3  
Limited to 2 Attempts  
The course will enhance the student's system engineering experience by designing and building projects involving real world complex systems. The course will build physical models that follow the steps of system life cycle process: statement of need, design, requirements, architecture, implementation, testing, verification and validation. Each project is multidisciplinary in nature, requiring the student teams to learn about various real world systems such as internet communications, GPS navigation, robotics, creating a GUI, and transmitting and receiving data from sensors.
Prerequisite(s): SYST 210. Prerequisite enforced by registration system.

Corequisite(s): SYST 220, SYST 221, SYST 335, SYST 371.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 420 - Network Analysis

Credits: 3
Limited to 2 Attempts
Network nomenclature. Elementary graph theory. Linear and nonlinear network models: multicommodity flow, mathematical games and equilibria on networks, network design and control; dynamic network models; applications to transportation, telecommunications, data communications, and water resource systems.

Prerequisite(s): OR 441 and MATH 213 or MATH 215. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 421 - Classical Systems and Control Theory

Credits: 3
Limited to 2 Attempts

Equivalent to ECE 421

Prerequisite(s): Grade of C or better in ECE 220.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

SYST 460 - Introduction to Air Traffic Control

Credits: 3
Limited to 2 Attempts
Introduction to Air Traffic Control (ATC) for those who plan professions in the air transportation industry. Surveys the entire field, presenting the history of ATC and how it came to be as it is, the technology on which the system is based, the procedures used by controllers to meet the safety and efficiency goals of the system, the organizational structure of the FAA, challenges facing the system, and means under investigation to meet these challenges. Some fieldwork will be required to acquire and analyze airport operational data. A brief introduction to airport design will be discussed.
SYST 461 - Air Transportation System Engineering

Credits: 3
Limited to 2 Attempts
Focuses on the theory and practice of system engineering in a national air transportation system. Stresses the application of mathematical techniques to analyze and design complex network transportation systems, airports, airspace, airline schedules, and traffic flow.

Prerequisite(s): SYST 460 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 462 - Flight Training Lab I

Credits: 3
Limited to 2 Attempts
This course fulfills the requirements of 14 CFR, Section 141, Appendix B for obtaining a private pilot certificate with airplane category, single engine land class rating. Flight Training I will include the flight training up to and including maneuvering and navigating the aircraft.

Corequisite(s): SYST 460.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

SYST 463 - Flight Training Lab II

Credits: 3
Limited to 2 Attempts
This course fulfills the requirements of 14 CFR, Section 141, Appendix B for obtaining a private pilot certificate with airplane category, Airplane - Single Engine Land class rating. Flight Training II will include the flight training up to and including the dual and solo flight instruction in cross-country navigation by pilotage, dead reckoning, and use of VOR, NDB, and HSI. Flight test preparation for private pilot certification.

Prerequisite(s): SYST 462.

Hours of Lecture or Seminar per week: 3
SYST 465 - Pricing in Optimization and Game Theory

Credits: 3  
Limited to 2 Attempts  
Allocation of limited resources among competing activities to maximize the outcome or minimization of expenses required to produce a given assortment of goods and services are two typical problems faced by any economic institution. Mathematical modeling of such problems and finding efficient mathematical tools for solving them are two main goals of modern optimization theory. Pricing limited resources, goods, and services is the key instrument for theoretical analysis of complex economical systems. Pricing theory can also give rise to numerical methods for finding optimal solutions and economic equilibrium. Fundamental tools in pricing theory are the classical Lagrangian and Lagrange multipliers for constrained optimization. Covers the basic ideas and methods of linear programming and matrix games. Particular emphasis to pricing for both theoretical analysis and numerical methods.

Equivalent to ECON 496/MATH 493

Prerequisite(s): MATH 203 or 216, and OR 441, or permission of instructor.

SYST 468 - Applied Predictive Analytics

Credits: 3  
Limited to 2 Attempts  
This course introduces the basic predictive analytics with applications in financial engineering, econometrics, business development, and risk analysis. Topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions stochastic dynamic models and time series analysis. Course will provide a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial, business, and econometric data for forecasting. Hands-on experiments with R will be emphasized throughout the course.

Prerequisite(s): Grade of C or better in SYST 330, Grade of C or better in STAT 344. Prerequisite enforced by registration system.

Corequisite(s): STAT 354.

SYST 469 - Human Computer Interaction

Credits: 3  
Limited to 2 Attempts
Covers principles of human-computer interaction, including information processing design, cognitive models, ergonomics, and design metaphors. Students learn to evaluate interface design in terms of effectiveness, efficiency, and cost.

**Prerequisite(s):** STAT 250 and IT 206. Prerequisite enforced by registration system.

**Notes:** Students who receive credit for SYST 470 may not receive credit for this course.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**SYST 470 - Human Factors Engineering**

Credits: 3  
Limited to 2 Attempts  
Human information processing, inferential analysis, biases and heuristics in human information processing, support systems to aid in human information processing, human-system interaction, and software systems engineering considerations.

**Prerequisite(s):** SYST 210 and STAT 344. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**SYST 473 - Decision and Risk Analysis**

Credits: 3  
Limited to 2 Attempts  
Studies analytic techniques for rational decision making that address uncertainty, conflicting objectives, and risk attitudes. Covers modeling uncertainty; rational decision making principles; representing decision problems with value trees, decision trees, and influence diagrams; solving value hierarchies, decision trees and influence diagrams; defining and calculating the value of information; incorporating risk attitudes into the analysis; and conducting sensitivity analyses.

**Prerequisite(s):** STAT 344 or STAT 346 or MATH 351 or grade of C or better in STAT 250 Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SYST 480 - Economic Systems Design I: Principles and Experiments**

Credits: 3  
Limited to 2 Attempts  
Introduces design principles used in developing systems used to allocate resources. Students required to participate in experiment demonstrations of different allocation mechanisms. Students are also exposed to experimental methods in economics and market design.
Equivalent to ECON 440

Prerequisite(s): OR 441

Corequisite(s): SYST 465.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 488 - Financial Systems Engineering

Credits: 3
Limited to 2 Attempts
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito's formula, and Black-Scholes model.

Prerequisite(s): OR 441.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 489 - Senior Seminar

Credits: 3
Limited to 2 Attempts
Introduces several important topics in systems engineering, providing additional experience in writing and giving presentations, and obtaining feedback on curriculum for BS in systems engineering. Several lectures devoted to ethics; writing and making presentations also covered. Students attend technical lectures and write paper. Students also required to write long paper on new technology. Instructor and guest lecturers present material not part of required course load to expand horizons. Examples are "knowledge-based" design, enterprise-wide reengineering, electronic commerce, and optimization by "natural analogy" (simulated annealing, neural networks, genetic algorithms). In addition, students work in teams to critique and redesign curriculum. Each group delivers written product, and provides at least one briefing to class. Best critique and redesign presented to faculty.

Fulfills writing intensive requirement in the major.

Corequisite(s): SYST 490

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 490 - Senior Design Project I
First part of capstone course in systems engineering program. Students apply knowledge they have gained to group project. During first semester, students perform concept definition and requirements analysis. Plan for carrying out project is developed, culminating in proposal presented to faculty at end of semester.

**Prerequisite(s):** Grade of C or better in SYST 335, grade of C or better in SYST 371, grade of C or better in SYST 395, and 90 satisfactory credits toward BS in Systems Engineering.

**Corequisite(s):** SYST 320, SYST 470, SYST 473, and OR 441.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 1  
**When Offered:** Fall

### SYST 491 - Industrial Project

Credits: 1-3  
Limited to 2 Attempts  
Semester-long work experience in systems engineering in industrial or governmental organization. Work supervised jointly by systems engineer from sponsoring organization and department faculty member. Project and arrangements for supervision must be approved by student's faculty advisor. Periodic reports, written final report, and presentation are required.

**Prerequisite(s):** 75 credits toward BS in Systems Engineering; SYST 330; GPA of at least 3.00; must be arranged with instructor and approved by department faculty chair before registering.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 3-9

### SYST 495 - Senior Design Project II

Credits: 3  
Limited to 2 Attempts  
Second part of capstone course. Design project plans formulated in SYST 490 are reviewed and modified. Additional instruction on documentation and project management is given. Design project completed; formal report prepared, presented, and evaluated. Students are strongly recommended to take STAT 354 before enrolling in SYST 490/495.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** Grade of C or better in SYST 490.

**Corequisite(s):** SYST 330, STAT 354.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 2  
**When Offered:** Spring
SYST 498 - Independent Study in Systems Engineering

Credits: 1-3
Limited to 2 Attempts
Directed self-study of special topics of current interest in systems engineering.

Prerequisite(s): 60 credits toward BS in systems engineering, and GPA of at least 3.00; must be arranged with instructor and approved by department chair before registering.

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

SYST 499 - Special Topics in Systems Engineering

Credits: 3
Limited to 2 Attempts
Topics of special interest to undergraduates.

Prerequisite(s): 60 credits toward BS in systems engineering; specific prerequisites vary with nature of topic.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 500 - Quantitative Foundations for Systems Engineering

Credits: 3
Not Repeatable
Provides quantitative foundations necessary for core courses in systems engineering and operations research master's program, and certificate program in C4I. Topics include vectors and matrices, infinite series, partial differentiation, multiple integrals, differential and difference equations; linear systems; Laplace and Z-transforms, and probability theory. Students receive graduate credit for this course, which, when used on plan of study, extends minimum credit requirements for degree.

Equivalent to CSI 600

Prerequisite(s): MATH 203, 213.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 505 - Systems Engineering Principles

Credits: 3
Not Repeatable
This serves as a foundation for the other courses in the MS/SE curriculum. During this course, the different components of the
systems life cycle will be explored. Basic principles including requirements, design frameworks, functional systems, models, qualification strategy, maintenance and disposal will be covered. Students will gain practical knowledge concerning this subject by modeling functional, state and object primitives.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

**SYST 508 - Complex Systems Engineering Management**

Credits: 3  
Not Repeatable  
Introduces the organizational, economic, technological and societal factors (POETS) that apply to the development of large-scale, complex mega-systems, and shows that "one size does not fit all" when it comes to the project management of mega-systems.

Prerequisite(s): Graduate standing.

Notes: Course cannot be applied for credit towards the MS in Systems Engineering degree.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

**SYST 510 - Systems Definition and Cost Modeling**

Credits: 3  
Not Repeatable  
Comprehensive examination of methods and processes for the identification and representation of system requirements. Investigation of the systems acquisition life cycle with emphasis on requirements definition, including functional problem analysis. Examination of the systems engineering definition phase including requirements, problem analysis, definition, and functional economics. Specification of functional and nonfunctional requirements, and associated requirements proto-typing. Functional economic analysis, including the use of prevailing cost estimation models and planning and control of common operating environments. Lecture and group project including creation of requirements and use of cost estimation model.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

**SYST 512 - Systems Engineering for Design and Development**

Credits: 3  
Not Repeatable  
Intensive study of the design and development portion of the systems engineering life cycle for information technology and software intensive systems. Analysis and design processes for information system engineering. Entity-relationship models, object-oriented modeling and analysis, structured analysis and design. Life cycle models for the development of systems.
Technical direction and systems management of organizational processes. Systems engineering and information technology standards.

Prerequisite(s): SYST 510 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**SYST 513 - Total Systems Engineering, Reengineering and Enterprise Integration**

Credits: 3
Not Repeatable
Principles of strategic quality, including TQM. Quality standards including ISO9000 and 14000. Organizational leadership, cultures, and process maturity, reengineering. Quality, organization learning, and reengineering approaches to enable information integration and management and environment and framework integration in the systems engineering of knowledge intensive systems. Emphasis is placed on the role of integrated product and process design teams, standard and commercial off-the-shelf products in enterprise integration. Architecture-driven system characteristics are studied, as is transition management of legacy systems.

Prerequisite(s): SYST 510 or 520.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SYST 520 - System Engineering Design**

Credits: 3
Not Repeatable
System design and integration methods are studied and practiced, including structured analysis and object-oriented based techniques. Identification of preliminary architecture design. Software tools are used for the systems engineering design. Students are expected to develop a system design using both the structured analysis and object-oriented techniques and they will make presentations on these designs.

Equivalent to ECE 550.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**SYST 521 - Network Analysis**

Credits: 3
Not Repeatable

Equivalent to OR 643

Prerequisite(s): MATH 213 and 203 or equivalent; OR 441 or 541.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 530 - Systems Engineering Management I

Credits: 3
Not Repeatable
Provides techniques for evaluating cost and operational effectiveness of system designs and systems management strategies. Discusses performance measurement, work breakdown structures, cost estimating, quality management, configuration management, standards, and case studies of systems from different application areas.

Prerequisite(s): SYST 510.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 540 - Analysis for Systems Management

Credits: 3
Not Repeatable
Operations research techniques and their application to managerial decision making. Mathematical programming, Markov processes, queuing theory, inventory models, PERT, CPM, and computer simulation are covered, as well as use of contemporary computer software for problem solving. Case-study approach to problem solving is used.

Equivalent to OR 540

Prerequisite(s): MATH 108 and STAT 250 or DESC 210; or equivalent.

Notes: Students who have taken OR 541 or OR 542 and OR MS majors do not receive credit.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 542 - Decision Support Systems Engineering
Studies design of computerized systems to support individual or organizational decisions. Teaches systems engineering approach to decision support system (DSS) development. DSS is end product of development process, and process is key to successfully integrating DSS into organization. Any DSS is built on a theory (usually implicit) of what makes for successful decision support in given context. Empirical evaluation of specific DSS and the underlying theory should be carried on throughout development process. Course examines prevailing theories of decision support, considers issues in obtaining empirical validation for theory, and discusses empirical support that exists for theories considered. Students design decision support system for semester project.

Equivalent to EEP 602

**Prerequisite(s):** SYST 301 or graduate standing.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**SYST 560 - Introduction to Air Traffic Control**

Credits: 3  
Not Repeatable  
Introduction for those who plan professions in aviation industry. Surveys entire field, presenting history of ATC and how it came to be, technology on which system is based, procedures used by controllers to meet safety and efficiency goals, organizational structure of the FAA, challenges facing system, and means under investigation to meet these challenges. Involves some field work for data collection and analysis. Class project requiring system simulation required.

**Prerequisite(s):** Graduate standing.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**SYST 563 - Research Methods in Systems Engineering and Information Technology**

Credits: 3  
Not Repeatable  
Provides foundation for one of the most important activities in systems engineering: information gathering to support drawing conclusions and making decisions about design options and process improvements. Develops understanding of scientific process, use of empirical evidence to support and refute scientific hypotheses, and use of scientific information in decision-making. Covers different sources of scientific evidence: designed experiments, quasi-experiments, field studies, surveys, and case studies. Discusses process of formulating testable hypotheses, and methods of measurement including approaches to measuring soft, hard-to-quantify factors. Presentation of results is discussed. Students do project involving empirical research.

**Prerequisite(s):** STAT 344 and 354, or equivalent.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall
SYST 568 - Applied Predictive Analytics

Credits: 3
Not Repeatable
Introduces predictive analytics with applications in engineering, business, and econometrics. Topics include time series and cross-sectional data processing, correlation, linear and multiple regressions, time series decomposition, predictive modeling and case study. Provides a foundation of basic theory and methodology with applied examples to analyze large engineering and econometric data for predictive decision making. Hand-on experiments with R will be emphasized.

Equivalent to SYST 568; SYST 538 (2014-2015 Catalog).

Prerequisite(s): STAT 515 or Graduate Standing at the MSOR or MSSE programs.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 573 - Decision and Risk Analysis

Credits: 3
Not Repeatable
Study of analytic techniques for rational decision making that address uncertainty, conflicting objectives, and risk attitudes. Covers modeling uncertainty; rational decision-making principles; representing decision problems with value trees, decision trees, and influence diagrams; solving value hierarchies, decision trees, and influence diagrams; defining and calculating the value of information; incorporating risk attitudes into the analysis; and conducting sensitivity analysis.

Prerequisite(s): STAT 346 or equivalent.

Notes: Offered concurrently with SYST 473. Students may not receive credit for both SYST 473 and 573.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 574 - Quality Control and Process Management

Credits: 3
Not Repeatable
Provides fundamentals of quality control and process management methodologies that are applicable in manufacturing industries. Introduces the basic concepts of engineering process and product quality management techniques. Provides exposition of fundamentals of lean Six Sigma and total quality management and maintainability.

Equivalent to OR 574

Prerequisite(s): Graduate standing or permission of instructor.
SYST 576 - Manufacturing Systems Analysis

Credits: 3  
Not Repeatable  
Provides fundamentals of modeling and analysis of general manufacturing systems that are also applicable to semiconductor manufacturing. Introduces the basic concepts of scheduling, inventory control, and enterprise resource management.

Equivalent to OR 576

Prerequisite(s): Graduate standing or permission of instructor.

SYST 580 - Introduction to C4I Systems

Credits: 3  
Not Repeatable  
This course provides a high-level introduction to fundamental principles of Command, Control, Communication, Computing, and Intelligence (C4I). The principles and techniques are applicable to a wide range of civilian and military situations. The sensing, fusion, and situation assessment processes for decision making as well as the concepts of modeling, simulation, and C4 architectures are discussed. Several cases studies of C4I systems are also included.

Prerequisite(s): Graduate standing.

Notes: Students who take SYST 680 may not take SYST 580.

SYST 584 - Heterogeneous Data Fusion

Credits: 3  
Not Repeatable  
Introduces the theory, design and implementation of multi-source information fusion systems in various domains. The course covers distinct technologies for combining data from multiple, heterogeneous sources and performing inferences in support to applications such as cyber security, Semantic Web, decision support systems, situational awareness, intrusion detection, crisis management, and others. The technical content is largely multi-disciplinary, encompassing disciplines such as knowledge engineering, ontologies, statistical learning, artificial intelligence, and data mining.

Hours of Lecture or Seminar per week: 3
SYST 588 - Financial Systems Engineering I: Introduction to Options, Futures, and Derivatives

Credits: 3
Not Repeatable
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito's formula, and Black-Scholes model.

Equivalent to OR 588.

Prerequisite(s): Eng. or Math Graduate standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring.

SYST 611 - System Methodology and Modeling

Credits: 3
Not Repeatable
Provides broad yet rigorous foundations and applications of dynamic modeling. Emphasizes methodologies used across various disciplines. Topics include modeling and analysis of time-driven and event-driven, linear and nonlinear systems. The applications are presented with real-world example systems. Methodologies address dynamic systems using the concepts of composition, abstraction, execution, and performance. The issues of stochastic modeling and decision analysis are also covered.

Prerequisite(s): SYST 500 or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 618 - Model-based Systems Engineering

Credits: 3
Not Repeatable
Model-based Systems Engineering (MBSE) provides a formalized application of modeling to support the engineering of systems. The purpose of the course to study and practice the leading methodologies for MBSE and illustrate the MBSE approaches in systems engineering and management. The advanced object-oriented systems engineering methodology and model transformation techniques are addressed. Software tools are introduced and used for supporting systems engineering design. Students are expected to develop a system design of their choice using MBSE approaches presented in class and they will make presentations on these designs.
Prerequisite(s): SYST 520.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

SYST 620 - Discrete Event Systems

Credits: 3  
Not Repeatable  
Introduces modeling and analysis of discrete event dynamical systems. Course covers elements of discrete mathematics and then focuses on Petri Net models and their basic properties. Relation to other discrete event models of dynamical systems.

Equivalent to ECE 673

Prerequisite(s): SYST 611 or ECE 521, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SYST 621 - Systems Architecture Design and Evaluation

Credits: 3  
Not Repeatable  
Intensive study of relationships between different types of architecture representations and methodologies used to obtain them. Approaches based on systems engineering constructs, such as structured analysis and software engineering constructs, including object orientation, are used to develop architecture representations or views and to derive an executable model of the information architecture. Executable model is then used for behavior analysis and performance evaluation. Roles of systems architect and systems engineer are discussed. Examples from current practice including the C4ISR architectures are used.

Equivalent to ECE 674.

Prerequisite(s): SYST 520/ECE 550 and SYST 620/ECE 673.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SYST 622 - System Integration and Service Oriented Architectures

Credits: 3  
Not Repeatable  

Equivalent to ECE 675.
**Prerequisite(s):** SYST 621 or ECE 674.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SYST 630 - Systems Engineering Management II**

Credits: 3  
Limited to 2 Attempts  
Study of more advanced topics in systems engineering management. Students expected to read selections from current literature as well as make presentations and produce papers on engineering management topics. Work in groups to create SEMP, RMP and PAP. Focuses strongly on the practical impacts of various system engineering management techniques and practices on projects, organizations, and personnel

**Prerequisite(s):** SYST 471 or SYST 530.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**SYST 631 - Systems Engineering of Information Architectures**

Credits: 3  
Not Repeatable  
An intensive study of the relationships between different types of architecture representations and the methodologies used to obtain them. Approaches based on systems and software engineering constructs, such as object orientation and structured analysis are used to develop architecture representations or views. The roles of the systems architect and the systems engineer are discussed. The function of executable model of the information architecture in deriving requirements is presented. Examples from current practice including C4ISR architectures are included.

Equivalent to ECE 678

**Prerequisite(s):** SYST 520 and SYST 619/ECE 672.

**Notes:** This course does not meet the requirements for the MS/SE degree.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SYST 632 - System Integration and Architecture Evaluation**

Credits: 3  
Not Repeatable  
Equivalent to ECE 679

**Prerequisite(s):** SYST 631/ECE 678.

**Notes:** This course does not meet the requirements for the MS SE degree.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SYST 659 - Topics in Systems Engineering**

Credits: 3  
Repeatable within Term  
Topics not covered in department's regular systems engineering offerings. Course content may vary each semester depending on instructor and the perception of students' needs.

**Prerequisite(s):** Permission of instructor.

**Notes:** Course may be repeated once for credit.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
When Offered: Fall, Spring

---

**SYST 660 - Air Transportation Systems Modeling**

Credits: 3  
Not Repeatable  
Introduces wide range of current issues in air transportation. Issues include public policy toward industry, industry economics, system capacity, current system modeling capability, human factors considerations, safety analysis and surveillance systems, and new technological developments. Develops broad understanding of contemporary and future issues. Knowledge evaluated through class discussions, take-home midterm exam, and term project to be completed by end of semester.

Equivalent to OR 660

**Prerequisite(s):** SYST 460/560 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
When Offered: Spring

---

**SYST 664 - Bayesian Inference and Decision Theory**

Credits: 3  
Not Repeatable  
Introduces decision theory and relationship to Bayesian statistical inference. Teaches commonalities, differences between Bayesian and frequentist approaches to statistical inference, how to approach statistics problem from Bayesian perspective, and
how to combine data with informed expert judgment in a sound way to derive useful and policy relevant conclusions. Teaches necessary theory to develop firm understanding of when and how to apply Bayesian and frequentist methods; and practical procedures for inference, hypothesis testing, and developing statistical models for phenomena. Teaches fundamentals of Bayesian theory of inference, including probability as a representation for degrees of belief, likelihood principle, use of Bayes Rule to revise beliefs based on evidence, conjugate prior distributions for common statistical models, and methods for approximating the posterior distribution. Introduces graphical models for constructing complex probability and decision models from modular components.

Equivalent to CSI 674; STAT 664 (2014-2015 Catalog).

Prerequisite(s): STAT 544 or 554, or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 670 - Metaheuristics for Optimization

Credits: 3
Not Repeatable
Course on the theory and practice of metaheuristics, i.e. solution search techniques for solving combinatorial optimization problems. It will introduce the theory, applications (scheduling in manufacturing, transportation, and in other engineering and service industries), and computational aspects of directly searching for solutions to solve computationally complex optimization problems without a well-defined analytical model.

Equivalent to OR 670.

Prerequisite(s): OR 441/541 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 671 - Judgment and Choice Processing and Decision Making

Credits: 3
Not Repeatable
How do people make judgments and decisions? Course presents initial review of scientific literature directed toward answering this question, and emphasizes importance when performing decision analysis and designing systems to support judgment and decision processes.

Equivalent to OR 671

Prerequisite(s): STAT 344, STAT 354, OR 542 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring.
SYST 674 - Dynamic Programming

Credits: 3
Not Repeatable
Theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties is covered. Stresses intuition, the mathematical foundations being for the most part elementary. It will introduce the theory, applications (finance, engineering, and biology), and computational aspects of dynamic programming for deterministic and stochastic problems.

Equivalent to OR 674

Prerequisite(s): OR 442 or OR 542 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 675 - Reliability Analysis

Credits: 3
Not Repeatable
Introduction to component and system reliability, their relationship, and problems of inference. Topics include component lifetime distributions and hazard functions, parameter estimation and hypothesis testing, life testing, accelerated life testing, system structural functions, and system maintainability.

Prerequisite(s): STAT 544, STAT 554, OR 542 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 677 - Statistical Process Control

Credits: 3
Not Repeatable
Introduces concepts of quality control and reliability. Acceptance sampling, control charts, and economic design of quality control systems are discussed, as are system reliability, fault-free analysis, life testing, repairable systems, and role of reliability, quality control, and maintainability in life-cycle costing. Role of MIL and ANSI standards in reliability and quality programs considered.

Equivalent to OR 677/STAT 677

Prerequisite(s): STAT 554 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
**SYST 680 - Principles of Command, Control, Communications, Computing, and Intelligence (C4I)**

Credits: 3  
Not Repeatable  
Broad introduction to fundamental principles of command, control, communications, computers, and intelligence (C4I). Principles and techniques applicable to wide range of civilian and military situations. Discusses modeling and simulation of combat operations. Studies in detail sensing, fusion, and situation assessment processes. Derives optimal decision-making rules; discusses concepts of C4 architectures; and develops tools to evaluate and design C4 systems such as queuing theory.

Equivalent to ECE 670/OR 683

**Prerequisite(s):** ECE 528, SYST 611, or OR 542; or equivalent.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**SYST 683 - Modeling, Simulation, and Gaming**

Credits: 3  
Not Repeatable  
Develops methods for designing combat models and games. Existing combat models critical to the C4I process. Exercises and games demonstrate value of properly developed C4I modules in a combat simulation.

**Prerequisite(s):** MATH 213, SYST 500 or equivalent, and graduate standing.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SYST 684 - Sensor Data Fusion**

Credits: 3  
Not Repeatable  
Examines design issues in multisensor fusion systems. Studies use of probability, evidence, and possibility theories for object identification. Studies Bayesian networks, blackboard architectures, and spatial and temporal reasoning for situation assessment.

**Prerequisite(s):** SYST 680 or ECE 670.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SYST 688 - Financial Systems Engineering II: Derivative Products and Risk Management**

Credits: 3  
Not Repeatable
Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions, as well as facilitating the risk management of those decisions. This course will focus on risk management for both market risk and credit risk. It will cover a broad range of derivatives products and hedging strategies with emphasis on how risks are managed in financial institutions.

Prerequisite(s): OR/SYST 588 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring.

**SYST 698 - Independent Study and Research**

Credits: 3  
Repeatable within Degree  
Study of a selected area in systems engineering or C3I under the supervision of a faculty member. Written report required.

Prerequisite(s): Graduate standing, completion of at least two core courses, permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring, Summer

**SYST 699 - Masters Project**

Credits: 3  
Not Repeatable  
Capstone project course for MS/SE program. Key activity is completion of a major applied team project resulting in an acceptable technical report and oral briefing. Student should plan to take this course in the last semester of studies.

Equivalent to SYST 798 (2011-2012 Catalog)

Prerequisite(s): 21 graduate credits in OR or SYST.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring.

**SYST 735 - Advanced Stochastic Simulation**

Credits: 3  
Not Repeatable  
Special topics and recent developments in Monte Carlo simulation methodology for discrete-event stochastic systems. Contents vary; possible topics include statistical analysis of simulation output data, random number and random variate generation, variance reduction techniques, sensitivity analysis and optimization of simulation models, distributed and parallel simulation, object-oriented simulation, and specialized applications.
Equivalent to OR 735

**Prerequisite(s):** OR 635 or permission of instructor.

**Notes:** May be repeated for credit when topics are distinctly different.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**SYST 740 - Advances in Multi-Modeling**

Credits: 3
Not Repeatable
Focuses on the inter-operation of multiple models expressed in different modeling languages but which draw from the same data set: i.e., multi-modeling. Socio-technical systems often require a variety of modeling tools to define their operation accurately. An ontology based approach is used to analyze the validity of a proposed modeling architecture and workflow to address a specific issue.

Equivalent to ECE 760.

**Prerequisite(s):** SYST 620 or ECE 673 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring.

**SYST 750 - Advanced Topics in Systems Engineering**

Credits: 3
Repeatable within Degree
Advanced topics not covered in department's regular systems engineering offerings. Course content may vary each semester depending on instructor and the perception of students' needs. May be repeated for credit when topics are distinctly different.

**Prerequisite(s):** 600-level course that varies with content of course.

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

**SYST 760 - Special Topics in Command, Control, Communications, Computing, and Intelligence Systems Engineering**

Credits: 3
Not Repeatable
Special topics in the C4I area, with different content in different terms. Representative areas include quantitative evaluation of C4 systems, applications of artificial intelligence in C4 systems, and military communications systems.
Prerequisite(s): SYST 680.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SYST 763 - Research Methods in Systems Engineering and Information Technology**

Credits: 3
Not Repeatable
Examines alternative paradigms of scientific research and their applicability to research in information technology. Topics include fundamental elements of scientific investigation, basic principles of experimental design and statistical induction, philosophy of science and its relation to the information technology sciences, and case studies of information technology research.

Equivalent to OR 763

Prerequisite(s): STAT 544, OR 542, or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SYST 781 - Data Mining and Knowledge Discovery**

Credits: 3
Not Repeatable
Statistical and computational methods and systems for deriving user-oriented knowledge from large databases and other information sources, and applying knowledge to support decision making. Information sources can be in numerical, textual, visual, or multimedia forms. Covers theoretical and practical aspects of current methods and selected systems for data mining, knowledge discovery, and knowledge management, including those for text mining, multimedia mining, and web mining.

Equivalent to STAT 781

Prerequisite(s): One of the following courses: CS 687, CS 650, INFS 614, STAT 663, STAT 664, or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SYST 799 - Master's Thesis**

Credits: 1-6
Repeatable within Degree
Research project chosen and completed under the guidance of a graduate faculty member, which results in a technical report acceptable to a three-member faculty committee, and an oral defense.

Prerequisite(s): 21 graduate credits and permission of instructor.
SYST 842 - Models of Probabilistic Reasoning

Credits: 3
Not Repeatable
Survey of alternative views about how incomplete, inconclusive, and possibly unreliable evidence might be evaluated and combined. Discusses Bayesian, Baconian, Shafer-Dempster, and Fuzzy systems for probabilistic reasoning.

Equivalent to OR 842

Prerequisite(s): STAT 544, OR 542, OR 681, or permission of instructor

SYST 850 - Topics in Systems Integration Engineering

Credits: 3
Repeatable within Degree
Covers lifecycles; large systems comprising heterogeneous components; human, organizational, and technological basis for integration; societal and cultural basis; conceptual frameworks; structure, function, and purpose of industry; risk management; user requirements and functional specifications; bid and proposal process; systems integration and federal government; standards; integration of systems and federations of systems; integrated process and product development; architectures; systems management and cost estimation; reengineering; quality management; increasing returns to scale, network effects, and path dependency issues; and systems integration ecology and evolutionary systems integration

Prerequisite(s): SYST 510 or 520.

Notes: May be repeatable for a maximum of six credits within the degree if topics are substantially different.

SYST 888 - Distributed Estimation and Multisensor Tracking and Fusion

Credits: 3
Not Repeatable
Centralized and distributed estimation theory, hierarchical estimation, tracking and data association, multisensor multitarget tracking and fusion, distributed tracking in distributed sensor networks, track-to-track association and fusion, and Bayesian networks for fusion.

Equivalent to ECE 753/OR 888

Prerequisite(s): ECE 734 or SYST 611.
SYST 944 - The Process of Discovery and Its Enhancement in Engineering Applications

Credits: 3
Not Repeatable
Studies ingredients of imaginative reasoning as they concern efficient discovery of new ideas and valid evidential test of them. Topics include different interpretations of Peirce's theory of abductive reasoning and other forms of reasoning, Hintikka's analysis of process of inquiry, and current attempts to design systems that provide assistance in discovery-related or investigative activities.

Equivalent to OR 944.

Prerequisite(s): SYST 842 or permission of instructor.

Systems Engineering and Operations Research (SEOR)

Offered by the Volgenau School of Engineering

SEOR 750 - Advanced Topics in Systems Engineering and Operations Research

Credits: 3
Repeatable within Degree
Advanced topics, applications, or recent developments in the interface of systems engineering and operations research. Course content may vary each semester depending on instructor and the perception of students' needs. May be repeated for credit when topics are distinctly different.

Prerequisite(s): 600-level course that varies with content of course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SEOR 796 - Directed Reading and Research

Credits: 1-3
Repeatable within Degree
Reading and research on specific topic in systems engineering or operations research under direction of faculty member.
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

SEOR 998 - Doctoral Dissertation Proposal

Credits: 1-12
Repeatable within Degree
Work on research proposal that forms basis for doctoral dissertation.

Notes: May be repeated. No more than 24 credits of SEOR 998 and 999 may be applied to doctoral degree requirements.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

SEOR 999 - Doctoral Dissertation

Credits: 1-12
Repeatable within Degree
Formal record of commitment to doctoral dissertation research under direction of faculty member approved by SEOR Department.

Prerequisite(s): Admission to doctoral candidacy.

Notes: May be repeated as needed.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

Taxation (TAX)

Offered by the School of Business

TAX 700 - Federal Income Taxation

Credits: 3
Not Repeatable
Federal income tax concepts and procedures related to individual taxpayers and business entities. Emphasis on research and planning based on the Internal Revenue Code, Treasury Regulations, and administrative and judicial sources of tax law.

Prerequisite(s): Admission to the MS Tax program or permission of the director

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
**TAX 701 - Accounting Methods and Periods**

Credits: 1.5  
Not Repeatable  
Tax accounting methods including the cash and accrual methods, inventory accounting, installment sales, accounting changes, and various book-tax difference. The accounting periods are also studied.

Prerequisite(s): Admission to the MS Tax program or permission of the director

Corequisite(s): TAX 700

Hours of Lecture or Seminar per week: 1.5  
Hours of Lab or Studio per week: 0

---

**TAX 702 - Tax Practice and Procedures**

Credits: 1.5  
Not Repeatable  
Professional responsibilities and ethics, tax research, tax penalties, practice before the IRS, tax policy, and other issues.

Prerequisite(s): Admission to the MS Tax program or permission of the director.

Corequisite(s): TAX 700

Hours of Lecture or Seminar per week: 1.5  
Hours of Lab or Studio per week: 0

---

**TAX 703 - Corporate Taxation**

Credits: 3  
Not Repeatable  
Concepts and principles that relate to federal income taxation of corporations and their shareholders. Emphasis on research of fact situations. Coverage includes the organization and capitalization of a corporation, nonliquidated and liquidated distributions, penalty taxes, collapsible corporations, and determinants of the income tax base of corporations.

Prerequisite(s): Admission to the MS Tax program or permission of the director

Corequisite(s): TAX 700

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

---

**TAX 704 - Corporate Mergers and Acquisitions**
Introduces taxable and tax-deferred methods of combining, dividing, and recapitalizing existing corporations. Analyzes the effects on the corporation(s), its attributes, and its shareholders.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 700

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TAX 705 - Affiliated Corporations

Credits: 1.5
Not Repeatable
Studies consolidated tax return regulations and filing requirements for affiliated corporations.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 703

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TAX 706 - Partnership Taxation

Credits: 3
Not Repeatable
Major aspects of taxation affecting partners and partnerships. Emphasis on tax planning and detailed study of the Internal Revenue Code, Treasury Regulations, and case law governing these areas.

Prerequisite(s): Admission to the MS Tax program or permission of the director

Corequisite(s): TAX 700

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TAX 710 - Federal Estate and Gift Taxation

Credits: 3
Not Repeatable
Concepts and principles that relate to federal estate and gift taxation and the federal income taxation of estates, trusts, and beneficiaries. Emphasis on estate tax planning and a detailed study of the Internal Revenue Code, Treasury Regulations, and case law governing these areas.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 700

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
TAX 711 - International Taxation

Credits: 3
Not Repeatable
Taxation of individuals and corporations with foreign-source income and tax liability to the United States.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 700

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TAX 712 - Seminar in Advanced Tax Policies

Credits: 3
Repeatable within Degree
Selective analysis of current tax topics addressing important issues in contemporary tax practice. Discussion of two or three major topics. Consult the Schedule of Classes. Course may be repeated for credit with different topics.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 700

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TAX 713 - State and Local Taxation

Credits: 3
Not Repeatable
Detailed analysis of the principal forms of state and local taxation.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 700

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TAX 714 - Pensions and Deferred Compensation

Credits: 3
Not Repeatable
Analysis of the structure, operation, and requirements for obtaining and maintaining IRS approval of tax-qualified pensions, profit sharing, and deferred compensation plans.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 700
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TAX 792 - Management of Professional Service Organizations

Credits: 3
Not Repeatable
This course addresses the management of the modern professional services organizations with special emphasis on the strategic, marketing, human resources, risk management, and ethical and technological issues vital to management.

Prerequisite(s): Admission to the MS Tax program or permission of the director. Completion of 18 hours of MSA or MST required coursework.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-12

Technology Management (TECM)

Offered by the School of Business.

TECM 601 - HiTech Business Models

Credits: 1
Not Repeatable
Provides an introduction to high tech industries, emerging technologies and business models that are transforming technology-intensive industries such as music, financial services and healthcare. The course covers techniques for analyzing how organizations create, deliver and capture value. The students use case-based approach to analyze traditional and high-tech organizations to understand their business models, and identify causes for success and failures.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Spring

TECM 602 - Emerging Technologies and the New CIO

Credits: 1
Not Repeatable
Provides an overview of CIOs and IT executive leadership, enabling legislation and policies on CIOs in the U.S. and abroad. The course examines the evolution of CIO core competencies, and approaches to cross agency CIO and IT coordination. Emerging ICT technologies, their corresponding potential, challenges and considerations for CIOs and IT executives in their adoption and introduction, are also discussed.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Spring
TECM 610 - Communications and Leadership

Credits: 2
Not Repeatable
Distinguishes between leadership and management, and focuses on the critical roles and functions of leadership, including communication ability, use of power and influence, providing direction, aligning an organization's systems, motivating a workforce, and creating a culture for effectiveness. It also focuses on strategies for developing oneself as an effective leader.

Prerequisite(s): Admission to Technology Management Program.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

TECM 611 - Leadership and Change Management

Credits: 2
Not Repeatable
Examines the critical roles and functions of leadership with special attention to how leaders influence organizational performance and manage change. Topics include providing direction, creating a culture for effectiveness, the use of power and influence, leadership development, leading under changing conditions, and leading and managing change.

Equivalent to MSIS 611.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall

TECM 614 - Financial and Cost Accounting

Credits: 2
Not Repeatable
Focuses on the economics and analysis of business transactions and financial reporting. Topics include an introduction to the financial reporting framework, review of how accountants measure and manage financial reporting, an introduction to cost concepts and product costing, and an analysis of capital investments and management control. Emphasis is placed on providing an analytic framework for evaluating transactions and companies.

Equivalent to MSIS 614.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall

TECM 615 - Decision Making Using Accounting and Financial Data
Credits: 3
Not Repeatable
Provides managers with an overview of the purpose and importance of accounting within the organization and the financial valuation of information technology companies, projects, and product line. Students focus on the economics and analysis of business transactions and their related financial reporting issues from internal and external stakeholder perspectives. Students improve their skills in analyzing financial issues and presenting results in a case analysis framework.

Prerequisite(s): Admission to Technology Management Program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TECM 620 - Economics of Technology Management

Credits: 2-3
Not Repeatable
Enables students to build and evaluate economic and business models that can be used to analyze real managerial questions that affect all types of institutions, especially firms in the information technology industry. Students develop a better understanding of the operation of markets in general and the use of various quantitative and qualitative methods when making decisions within the firm. The use of economic analysis allows students to identify and evaluate decision alternatives, the competitive environments of firms, and the factors that influence firm performance, especially in the information technology industry.

Prerequisite(s): Admission to Technology Management Program or permission of the program director.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

TECM 635 - Decision Models for Technology Management

Credits: 2-3
Not Repeatable
Explores current metrics and metric development for quality, intangible assets, and project management as required within information technology companies. Applies statistical tools of best use with these metrics.

Prerequisite(s): Admission to Technology Management Program or permission of the program director.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

TECM 640 - Management of Consulting and Technical Professionals

Credits: 1-3
Not Repeatable
Students gain insight into conflict resolution, teamwork, communication, power and influence, career development, and ethics. Helps students understand themselves and those they manage, as they work to be as effective as possible in modern organizations.
Prerequisite(s): Admission to Technology Management Program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TECM 641 - Negotiation and Conflict Management for Technology Professionals

Credits: 2
Not Repeatable
Students acquire insights and skills for negotiation and conflict resolution as they relate to a variety of organizational situations - including teamwork, communication and coordination, power and influence, legal disputes, career development, cross-cultural and international issues, as well as tackling ethical problems. The course is highly experiential, and is built on a foundation of hands-on exercises and extensive class discussion.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Summer

TECM 643 - Managerial Finance

Credits: 2
Not Repeatable
Surveys the theory and practice of corporate financial management with specific application to the technology sector. Students develop an understanding of key elements required in the valuation of project alternatives; including their strategic importance. Students evaluate and use financial management models and gain an understanding of how finance can be employed as a source of potential competitive advantage.

Equivalent to MSIS 643.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

TECM 696 - Directed Studies in Technical Management

Credits: 1-3
Repeatable within Degree
Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum.

Prerequisite(s): Admission to the TECM program or permission of the program director.

Hours of Lecture or Seminar per week: 1-9
Hours of Lab or Studio per week: 0
TECM 697 - Special Topics in Technology Management

Credits: 1-3
Repeatable within Term
Sections established as necessary to focus on various topical issues that emerge in practice of business.

Prerequisite(s): Admission to the TECM program or permission of the program director.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

TECM 700 - Business Engineering and Change Management

Credits: 2
Not Repeatable
Visualizing, planning, and implementing transitions in an organization or business unit is fast becoming a key source of competitive advantage. Course provides theory and practice of change management and strategic planning including organizational development and organizational transformation.

Prerequisite(s): Admission to Technology Management Program.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

TECM 702 - Building High Performance Teams

Credits: 2
Not Repeatable
Develops behavioral skills integral to effective teamwork and interpersonal relationships in work environments. Covers techniques for making group decisions and resolving internal team conflicts, as well as negotiating effectively with outside parties.

Prerequisite(s): Admission to Technology Management Program.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

TECM 703 - Technology Assessment, Evaluation, and Investment

Credits: 3
Not Repeatable
Prepares students to be educated consumers of information technology to maximize strategic advantage of IT to an organization. Information technologies, architectures, and products are categorized and analyzed with a view to develop and maintain the most favorable IT asset portfolio to successfully carry out business goals and strategies. Techniques for making group technology
assessments, outsourcing decisions, project bidding, and contract negotiations.

Prerequisite(s): Admission to Technology Management Program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TECM 704 - Management of Technology Projects and Portfolios

Credits: 2
Not Repeatable
Examines advanced topics in project and program management, with specific attention to the issues that managers face to effectively manage programs. This involves managing resources (both internal and external to the organization) and managing within an existing organizational structure. Specific program management topics include advanced topics for project management, program alignment with strategic objective, management of stakeholders, and development and organization of the program office. Strategic and operational tools and metrics also are discussed.

Prerequisite(s): Admission to Technology Management Program.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall

TECM 711 - Deriving Strategic Value from IT Investments

Credits: 2
Not Repeatable
Reviews approaches for aligning IT strategy and investment with organizational strategy. The course covers methodologies for IT investment, planning and control including cost benefit, economic and risk analysis; benefits of alternative IT investments; methods of technology road mapping; and capital investment analysis. IT performance assessment methodologies and acquisition planning and design, are also reviewed.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall

TECM 720 - Competitive Strategy in Technology Industries

Credits: 2
Not Repeatable
Provides students with an understanding of the impact of information technology on firms and industries and equips them to develop and execute appropriate strategies. Although the emphasis is on information technology firms and industries, a key goal of the course is to better prepare students to respond to a diverse array of information technology challenges. Course work covers the demand and the supply side of information technology, as well as the development of frameworks and analytical tools to help put events, behaviors, and processes into understandable contexts.

Prerequisite(s): Admission to Technology Management Program or permission of the program director. TECM 615 and 620.
TECM 735 - Technology Management Capstone Project

Credits: 1-4
Not Repeatable
Teams undertake a strategic evaluation and plan for IT-driven business initiatives. Presentation includes analysis of competitive forces and the value chain; recommendations, including changes in goals and organizational design; plan of action integrating marketing, human resource development, organizational design, finance, and information technology; and implementation plan using theories of communication and change management, to include business case and business plan.

Prerequisite(s): Admission to Technology Management Program or permission of the program director.

Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0
Grading: Special graduate.

TECM 737 - Capstone Project in Management of Secure Information Systems

Credits: 1-3
Repeatable within Degree
Teams undertake a strategic evaluation and plan for the management of secure information systems. They develop plans that include technical, organizational, and policy aspects. A report is produced and presented to the entire cohort for discussion.

Equivalent to MSEC 720

Prerequisite(s): Admission to Executive MS in Management of Secure Information Systems.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Spring, Summer

TECM 740 - Management of Client Relationships

Credits: 1-3
Repeatable within Degree
Proposal development, bidding, legal issues of contracts and agreements, formation of commercial partnerships, and new business development. Methods and practices for conducting client need assessment and managing deviations of scope. Application of principles of marketing information systems and technology to internal and external customers.

Prerequisite(s): Admission to Technology Management Program or permission of the program director. TECM 610 and 630.
TECM 741 - Marketing of Innovations and Technology Products / Services

Credits: 2
Not Repeatable
Provides students the opportunity to conduct a detailed exploration of effective marketing strategies, including product and service development, branding, and customer relationships, in preparation for developing a marketing plan for a technology related innovation. Specific course topics include: assessing the marketplace, understanding the customer, market segmentation, developing and positioning the offering, pricing, branding, distribution, and promotion.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

TECM 745 - Leading and Managing IT Operations

Credits: 2
Not Repeatable
Explores best practices in the IT industry. Students analyze practices in terms of gaining competitive advantage in an industry where the scarcity economic model for products no longer applies. Course work focuses on leading an organization with the IT function.

Prerequisite(s): Admission to Technology Management Program.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

TECM 746 - Enterprise Architecture and IT Governance

Credits: 2
Not Repeatable
Examines the operational, financial and strategic considerations of leading enterprise architecture and reviews the historical development of enterprise architecture. Major enterprise architecture frameworks including Zachman and TOGAF are examined. The relationship of enterprise architecture to IT governance, approaches to IT governance and the role of the CIO, and the relationship of IT governance to organizational performance, are also discussed.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

TECM 747 - Information Assurance and Security Management
Credits: 2  
Not Repeatable  
Addresses the increasingly critical areas of information security and information assurance. Specific focus is on best practices for assessment, planning and management of information security strategy, policy, organizations and controls to minimize the risks pertaining to unauthorized use, processing, storage, and communication of digital information. Pertinent legislation and policy requirements are also covered.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

### TECM 748 - Systemic Approach to IT Management

Credits: 2  
Not Repeatable  
The course introduces students to systems thinking, and then applies systems thinking to best practices in development and management of IT processes and connecting management of IT processes to organizational strategy. The course also reviews and considers IT processes from the strategy and service management frameworks including Balanced Scorecard and ITIL.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

### TECM 750 - Global IT Management

Credits: 1-4  
Not Repeatable  
Students spend a week in an international residency. Emphasizes dealing with technological changes across international markets and amid global developments, virtual organizations, and project management across cultures. Corporate site visits combined with presentations by professors from universities outside the United States and relevant practitioners.

**Prerequisite(s):** Admission to Technology Management Program or permission of the program director.  
TECM 600 and 620.

**Hours of Lecture or Seminar per week:** 1-4  
**Hours of Lab or Studio per week:** 0

### TECM 752 - Global Tech Management

Credits: 3  
Not Repeatable  
Provides the opportunity for students to spend a week in a country or countries that are leading edge in technology and technology management. Students visit corporations and governments and interact with corporate and IT executives, and government leaders. Topics include CIO and eGovernment, commercialization of emerging technologies, national competitiveness, international development, global supply chains and virtual teams.

**Hours of Lecture or Seminar per week:** 2
**TECM 757 - Global Residency**

Credits: 1-4  
Repeatable within Degree  
Students spend a week in an international residency. Emphasis is on how other nations deal with management of secure information system, the management of those systems, and related public policy issues. Corporate site visits are combined with presentations by professors from universities outside the United States and relevant practitioners. Students are required to write a paper summarizing their observations and attend pre-residency preparatory sessions.

Equivalent to MSEC 710  
**Prerequisite(s):** Admission to Executive MS in Management of Secure Information Systems.

**Telecommunications (TCOM)**

Offered by the Volgenau School of Engineering

**TCOM 500 - Modern Telecommunications**

Credits: 3  
Not Repeatable  
Comprehensive overview of telecommunications, including current status and future directions. Topics include review of evolution of telecommunications; voice and data services; basics of signals and noise, digital transmission, network architecture and protocols; local area, metropolitan and wide area networks and narrow band ISDN; asynchronous transfer mode and broadband ISDN; and satellite systems, optical communications, cellular radio, personal communication systems, and multimedia services. Examples of real-life networks illustrate basic concepts and offer further insight.

Equivalent to ECE 540  
**Prerequisite(s):** TCOM 575, or equivalent.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TCOM 505 - Networked Multicomputer Systems**

Credits: 1.5  
Not Repeatable
Introduces systems engineering of a networked multicomputer system. Studies distributed multicomputer architectures, architecture of a network operating system, and key system components. The focus of this course is on the development of a thin client/server system, requirements analysis of a client/server web computing, system planning and implementation. Includes a study of example multicomputer systems and a discussion of future directions.

**Prerequisite(s):** TCOM 500, TCOM 530, or equivalent.

**Hours of Lecture or Seminar per week:** 1.5  
**Hours of Lab or Studio per week:** 0

---

**TCOM 506 - Personal Communication Systems (PCS)**

Credits: 1.5  
Not Repeatable  
Introduces Personal Communication Systems (PCS). Topics include multiple technical layers of the PCS systems; data link level and network layer protocols, including implementation; mobile station operation and base station operation; and how voice and data services work. Also discusses vital issues of user authentication, privacy, and data or voice encryption.

**Prerequisite(s):** TCOM 500, 501, 551, and 552 or equivalent.

**Hours of Lecture or Seminar per week:** 1.5  
**Hours of Lab or Studio per week:** 0

---

**TCOM 510 - Client-Server Architectures and Applications**

Credits: 1.5  
Not Repeatable  
Fundamentals of application engineering for Client/Server (C/S) Internet environments. Review of C/S application architectures and system perspective on C/S middleware. Study of web-based middleware, distributed data managers and SQL middleware, distributed transaction processing middleware, and C/S object technology.

**Prerequisite(s):** TCOM 500 or ECE 540.

**Hours of Lecture or Seminar per week:** 1.5  
**Hours of Lab or Studio per week:** 0

---

**TCOM 514 - Basic Switching: Lecture and Laboratory Course**

Credits: 3  
Not Repeatable  
Basic switching techniques and protocols for low and high-speed digital packet networks (Ethernet, Frame Relay, ATM, X.25) are taught within a half semester lecture series, followed by hands-on laboratory for remainder of semester. Real-life scenarios taught in the laboratory element through exercises that involve configuring switches and routers.

**Prerequisite(s):** TCOM 530
TCOM 515 - Internet Protocol Routing: Lecture and Laboratory Course

Credits: 3
Not Repeatable
Internet Protocol (IP) routing overview; static routing; dynamic routing; default routing; access lists; route redistribution; RIP, OSPF, IGRP, EIGRP, IS-IS, and BGP protocols submitted for comment. Real-life scenarios taught in laboratory element through exercises that involve configuring routers as network elements.

Prerequisite(s): TCOM 535

TCOM 518 - Third Generation Cellular Telephony

Credits: 1.5
Not Repeatable
Introduction to post-second generation cellular systems; benefits and features of third generation (3G) systems; review of air interface standards currently approved for 3G; review of 3G technologies; analysis of competing multiple access methods; transition plans and backward compatibility between 2G, 2 1/2G, and 3G systems; possible fallback plans.

Prerequisite(s): TCOM 506, 551, and 552.

TCOM 520 - Economics of Telecommunications

Credits: 3
Not Repeatable
Management of telecommunications networks; economic concepts in changing climate of telecommunications ownership, deregulation, and privatization; resource allocation fundamentals based on internal rate-of-return, net present value, opportunity costs; valuation of potential acquisitions in broad telecommunications market; financial modeling techniques.

Prerequisite(s): TCOM 500
Corequisite(s): TCOM 521.

TCOM 521 - Systems Engineering for Telecommunications Management
Credits: 3  
Not Repeatable  
Advanced software principles, techniques, and processes for designing and implementing complex telecommunication systems. Planning and implementation of telecommunications systems from strategic planning through requirements, initial analysis, general feasibility study, structured analysis, detailed analysis, logical design, and implementation. Current system documentation through use of classical and structured tools and techniques for describing flows, data flows, data structures, file designs, input and output designs, and program specifications. Practical experience gained through project.

Prerequisite(s): TCOM 500

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**TCOM 530 - Data Communications Fundamentals**

Credits: 3  
Not Repeatable  
Covers the foundations of modern data communications. The lower layers of the OSI reference model are discussed with an emphasis on the data link and the network layers. Concepts are illustrated by drawing examples from important data networks ranging from local area networks to the Internet.

Prerequisite(s): Graduate standing

Hours of Lecture or Seminar per week: 3

When Offered: Fall, Summer, Spring

**TCOM 535 - The TCP/IP Suite of Internet Protocols**

Credits: 3  
Repeatable within degree  

Prerequisite(s): TCOM 530.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

**TCOM 542 - Stochastic Models in Telecommunications**

Credits: 1.5  
Not Repeatable  
Review of teletraffic theory: Erlang's loss formula, equivalent random method, delay and delay-loss systems; complex simulation
modeling and statistical analysis of outputs. Parameter estimation, evaluation of quality.

Prerequisite(s): TCOM 500.

Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 545 - Reliability and Maintainability of Networks

Credits: 3
Not Repeatable
Stochastic modeling of network reliability, simulation modeling, modeling replacement strategies. Introduces quality control, sampling for acceptance, economic design of quality control systems, and system reliability. Also covers faulty tree analysis, life testing, repairable systems and role of reliability, quality, and maintainability in life-cycle costing.

Prerequisite(s): TCOM 500.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 547 - Project Management in Telecommunications

Credits: 3
Not Repeatable
Develops integrated approach to managing major telecommunications project; evaluates and uses tools and software for project management, with specific goals of containing costs and time overruns; introduces elements for resolving conflict resolution and applying motivation within project team, and gaining the ability to monitor and control projects in changing environment; develops understanding of unique attributes of major telecommunications systems such as interoperability requirements and international technical standards.

Prerequisite(s): Graduate standing.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 551 - Digital Communication Systems

Credits: 3
Not Repeatable
Digital transmission of data, voice, and video. Covers signal digitization; modulation and demodulation; error correction coding; multiple access methods; multiplexing; synchronization; channel equalization; frequency spreading; encryption; transmission codes; digital transmission using bandwidth compression techniques; elements of information theory; and development of link budget evaluation such as system noise temperature, Nyquist filter concepts, antenna gain, and filter bandwidth.

Prerequisite(s): TCOM 500.
TCOM 552 - Introduction to Mobile Communications Systems

Credits: 3  
Not Repeatable  
Introduces mobile communication system design and analysis. Topics include mobile communication channel, access and mobility control, mobile network architectures, connection to fixed network, and signaling protocols for mobile communication systems. Offers examples of mobile communication systems including panEuropean GSM system, North American DAMPS system, and Personal Communication Systems.

Prerequisite(s): TCOM 500 and 551.

TCOM 555 - Network Management Foundations and Applications

Credits: 3  
Not Repeatable  
Defines and explains techniques that network managers utilize to maintain and improve performance of telecommunications network; network management system; five tasks traditionally involved with network management (fault management, configuration management, performance management, security management, and accounting management); theoretical background in transmission systems sufficient to understand network parameters such as capacity and response times; and specific network management products. Also explores how network performance data should be used for management and when considering upgrades in network architecture.

Prerequisite(s): TCOM 500 and TCOM 530

TCOM 561 - Security, Privacy, and Applied Cryptography for Telecommunications

Credits: 3  
Not Repeatable  
Presents on introductions to Computer and Network Security and Privacy; Digital Threats; Authentication Techniques; Vulnerabilities; Integrity; Access Control; Threat Modeling and Risk Assessment; Security Policies and Countermeasures; Cryptography; Block Ciphers and DES; AES; Cipher Block Operation; Certificate and Credentials; Public Key Cryptography and RSA; Key Management; Digital Signature; Electronic Mail Security; IP Security.

Prerequisite(s): TCOM 500 and TCOM 530.

Hours of Lecture or Seminar per week: 3
**TCOM 562 - Network Security Fundamentals**

Credits: 3  
Not Repeatable  
Introduces full spectrum of network security. Topics include taxonomy such as language commonality in incident handling, national strategy to secure cyberspace, and cybersecurity organizations; organizational structure for network defense; best practices, security policy, and threats; actors and tools, countermeasures, vulnerability identification/correction, intrusion detection, and impact assessment; firewalls and intrusion detection systems; antivirus software; active defense; disaster recovery; and law enforcement and privacy issues. Reviews threats and vulnerabilities in network systems based on reports, case studies available in the literature, and actual experience.

**Prerequisite(s):** TCOM 500.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TCOM 575 - Quantitative Foundations for Telecommunications**

Credits: 3  
Not Repeatable  
Provides quantitative foundations in mathematical and electrical concepts to permit registration for courses in telecommunications MS degree and certificate programs. Topics include polynomials, exponentials, linear and quadratic equations, graphs and functions, trigonometric functions, radial measure and sine/cosine functions, exponentials and logarithms, basic probability and statistics, fundamentals of matrix algebra and vectors, basic Boolean logic; circuit elements (resistor, capacitor, inductor), basic electrical circuits, units, Ohm's law, Kirchhoff's law, decibel notation.

**Prerequisite(s):** Graduate standing

**Notes:** Course cannot be used for credit in any IT&E graduate degree program.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TCOM 590 - Selected Topics in Telecommunications**

Credits: 1.5-3  
Repeatable within Term  
Selected topics from recent developments and applications in various engineering disciplines within specialty modules 1, 2, and 3 of the TCOM program. The course is designed to help the professional engineering community keep abreast of current developments.

**Prerequisite(s):** Permission of instructor; specific prerequisites vary with the subject of the topic.

**Notes:** The 1.5-credit course lasts for one-half semester (approximately seven weeks) while the 3-credit course lasts for the full...
semester.

Hours of Lecture or Seminar per week: 1.5-3
Hours of Lab or Studio per week: 0

**TCOM 591 - Selected Topics in Telecommunications**

Credits: 1.5-3
Repeatable within Degree
Selected topics from recent developments and applications in various engineering disciplines in specialty modules 4 and 5 of TCOM program. Designed to help professional engineering community keep abreast of current developments.

Prerequisite(s): Permission of instructor; specific prerequisites vary with subject of topic.

Notes: The 1.5-credit course lasts for one-half semester (approximately seven weeks); the 3-credit course lasts for full semester.

**TCOM 598 - Independent Study in Telecommunications**

Credits: 1.5-3
Repeatable within Degree
Directed self-study of special topics in telecommunications that relate to specialty modules 1, 2, and 3. Topics must be arranged with instructor and approved by program director before registering.

Prerequisite(s): Permission of Instructor and Program Director.

Notes: May be taken for either 1.5 credits or 3.0 credits in fall and spring semesters. No more than total 6 credits may be taken from combination of TCOM 598, 599, 696, and 697 courses for credit in TCOM program.

Hours of Lecture or Seminar per week: 1.5-3
Hours of Lab or Studio per week: 0

Grading: Graduate Special

**TCOM 606 - Advanced Mobile Communications Systems**

Credits: 3
Not Repeatable
Introduction to post-second generation cellular systems; benefits and features of third-generation (3G) systems and personal communications services (PCS); review of air interface standards and transmission technologies for mobile and quasi-stationary wireless systems, including cellular networks, satellite networks, indoor systems (Wi-Fi, Personal Local Area Networks, Orthogonal Frequency Multiplexing, Ultra Wide Band technologies); review of network control strategies; investigation of user authentication, privacy, and data and voice encryption aspects. Evolving technology, analysis of competing multiple access methods, transition plans, and backward compatibility between 2G, 21/2 G, 3G, and future systems, with possible fallback plans.

Prerequisite(s): TCOM 552
TCOM 607 - Satellite Communications

Credits: 3
Not Repeatable
Topics include introduction to satellite communications systems; historical aspects; orbital mechanics and launchers; satellite components such as payload, orbital maneuvering systems, cooling systems, and antennas; look angle predictions; link budget; overall link design; multiple access such as TDMA, CDMA, ALOHA, TDMA, and MFTDMA; error control for digital satellite links; propagation effects on satellite links; elements of VSAT systems and nongeostationary satellite systems; and direct broadcast satellite services.

Prerequisite(s): TCOM 551.

TCOM 608 - Optical Communications Systems

Credits: 3
Not Repeatable
Introduction and Overview of Optical Fiber Communications Systems and Optical Communication Networks. Specific topics include Optical Resonators; Photons and Matter, Lasers, Photons in Semiconductors; Semiconductor Photon Sources and Detectors; Light Emitting Diodes; Modulation of Optical Signals; Optoelectronic Networks; FDDI, Fiber channel, SONET, SDH, Ethernet on Optical Networks; Wavelength Division Multiplexing (WDM) networks; Basics of Fiber Optic System Design.

Prerequisite(s): TCOM 500.

TCOM 609 - Interior Gateway Protocol (IGP) Routing

Credits: 3
Not Repeatable
Discusses development of Interior Gateway Protocols, including standards documents; interaction between various interior and exterior gateway protocols; design procedures and implementation aspects; field trial issues; and analysis of latest RFC information posted on IETF web site.

Prerequisite(s): TCOM 515 and TCOM 535, or equivalent.
TCOM 610 - Border Gateway Protocol (BGP) Routing

Credits: 3
Not Repeatable
Discusses development of Border Gateway Protocol and its application in today's Internet routing architecture. Covers evolution of Internet, BGP routing standard specifications (RFCs), interaction between various routing protocols, network BGP routing design principals and procedures for enterprise and ISP networks, BGP's real-world implementation and configuration syntax, network scalability and convergence issues, and the latest extension and proposals for new standards.

Prerequisite(s): TCOM 515 and TCOM 535, or equivalent.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 611 - Multi-Protocol Label Switching (MPLS)

Credits: 3
Not Repeatable
Develops full understanding of Multi-Protocol Label Switching (MPLS) theory, technology, and implementation aspects through detailed analysis of MPLS routing concepts and protocol stacks, and completion of major project to reinforce understanding of MPLS.

Prerequisite(s): TCOM 609 or 610

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 631 - Voice Over IP

Credits: 3
Not Repeatable
Presents the protocols used for transporting voice over Packet Switched Network. Topics include: Signaling basics; Topics; VoIP Network Scenarios and Connection Strategies; Communication Protocols: RTP, RTCP; VoIP Decomposition; Performance and quality metrics for VoIP; VoIP Signaling Protocols: H.323, SIP, SS7; Softswitches: architecture, functionality, application; VOIP-PSTN integration and migration; VOIP Quality and QoS; VoIP Security: Vulnerabilities, remedies; NextGen VoIP: VoIP Mobility, Equipment, Voice XML, IMS; Future of VoIP.

Prerequisite(s): TCOM 535

Hours of Lecture or Seminar per week: 3

When Offered: Fall, Spring

TCOM 653 - Global Positioning System (GPS)
Credits: 3  
Not Repeatable  

Prerequisite(s): TCOM 500  

Hours of Lecture or Seminar per week: 3  

When Offered: Fall  

TCOM 660 - Network Forensics  

Credits: 3  
Not Repeatable  
Deals with collection, preservation, and analysis of network- generated digital evidence so it can be successfully presented in civil or criminal court of law. Examines relevant federal laws and private sector applications. Examines capture/intercept of digital evidence, analysis of audit trails, recordation of running processes, and reporting of such information.  

Equivalent to CFRS 660  

Prerequisite(s): TCOM 535 and working knowledge of computer programming  

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  

TCOM 661 - Digital Media Forensics  

Credits: 3  
Not Repeatable  
Deals with collection, preservation, and analysis of digital media so this evidence can be successfully presented in civil or criminal court of law. Examines relevant federal laws and private sector applications. Examines seizure, preservation, and analysis of digital media.  

Equivalent to CFRS 661  

Prerequisite(s): TCOM 561 or TCOM 562, and working knowledge of computer operating systems; or permission of instructor.  

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  

TCOM 662 - Advanced Secure Networking
Advanced technologies in network security that can be applied to enhance enterprise and ISP’s network security. Covers network perimeter defense concept and various components for complete layered defense system. Examines each component and its technologies, including TCP/IP protocol vulnerabilities, router access control list (ACL), dynamic ACL, firewall, network address translation (NAT), virtual private network (VPN), IPSec tunnels, intrusion detection system (IDS), routing protocol security, denial-of-service (DOS) attack, DOS detection and mitigation techniques.

Prerequisite(s): TCOM 535 and 562, and a working knowledge of network routing protocols.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 663 - Operations of Intrusion Detection and Forensics

Credits: 3
Not Repeatable
Introduces students to network and computer intrusion detection and its relation to forensics. It addresses intrusion detection architecture, system types, packet analysis, and products. It also presents advanced intrusion detection topics such as intrusion prevention and active response, decoy systems, alert correlation, data mining, and proactive forensics.

Equivalent to CFRS 663

Prerequisite(s): TCOM 535 and a working knowledge of computer programming.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 664 - Incident Response Forensics

Credits: 3
Not Repeatable

This course addresses incident detection, response, and those aspects of computer forensics pertinent to the investigation of trade secret theft, economic espionage, copyright infringement, piracy, and fraud. Procedures for gathering, preserving, and analyzing forensic evidence are discussed in detail and are applied to both computer and network incident response forensics.

Equivalent to CFRS 664

Prerequisite(s): TCOM 535

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring
TCOM 690 - Advanced Topics in Telecommunications

Credits: 3
Repeatable within Term
Advanced topics from recent developments and applications in various engineering disciplines in specialty modules 1, 2, and 3 of TCOM program. Advanced topics chosen so that they do not duplicate existing TCOM courses. Active participation of students encouraged in form of writing and presenting papers in various research areas of advanced topic. Enhances professional engineering community's understanding of breakthrough developments in specific areas.

Prerequisite(s): Permission of instructor; specific prerequisites vary.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 691 - Advanced Topics in Telecommunications

Credits: 3
Repeatable within Degree
Advanced topics from recent developments and applications in various engineering disciplines in specialty modules 4 and 5 of TCOM program. Advanced topics are chosen in such a way that they do not duplicate existing TCOM courses. Active participation of students encouraged in form of writing and presenting papers in various research areas of advanced topic. Enhances professional engineering community's understanding of breakthrough developments in specific areas.

Prerequisite(s): Permission of instructor; specific prerequisites vary.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 696 - Independent Reading and Research

Credits: 1.5-3
Repeatable within Degree
Study of selected area in specialty modules 1, 2, or 3 under supervision of faculty member. Written report required.

Prerequisite(s): Specified by instructor or advisor.

Notes: No more than total of 6 credits may be taken from combination of TCOM 598, 599, 696, and 697 for credit in TCOM program.

Hours of Lecture or Seminar per week: 1.5-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

TCOM 698 - Telecommunications Projects Course
Credits: 3
Not Repeatable
To be taken toward end of degree program within any of modules 1, 2, or 3. Primary activity is completing major applied project, preferably with group of two to three people. Secondary goal is consolidating training before graduation so that, in some cases, it may act as capstone course. Students and outside telecommunication industry managers present ideas for projects and, through grouping of students, new skills and approaches may be learned. Some class time used for discussion of projects, either to monitor progress or explore alternative approaches. Readings, class-time discussion of current trends, difficulties, and new opportunities for industry most relevant to module. Concludes with presentations of projects to department faculty.

Prerequisite(s): Graduate standing with at least 18 credits or permission of department.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 699 - Telecommunications Project Course

Credits: 3
Not Repeatable
Capstone of degree program under the specialty modules 4 or 5. To be taken toward end of degree program. Primary activity is completion of major applied project, preferably as two- to three-person group. Secondary goal is consolidation of training before graduation. Students, outside telecommunication industry managers present ideas for projects. From these ideas, group projects selected. Some classroom time used to discuss projects, to either monitor progress or explore alternative approaches. Readings, classtime discussion of current trends, difficulties, and new opportunities for the industry. Projects presented to department faculty at end of semester.

Prerequisite(s): Completion of at least 24 credits in the MS in Telecommunications program.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 707 - Advanced Link Design

Credits: 3
Not Repeatable
Topics include advanced satellite link design such as VSAT optimization, intersatellite systems, and propagation mitigation trade-offs; radar link design such as primary and secondary radars, range ambiguities, false alarms, Doppler radar, FM radar, radar tracking, radar transmitters and receivers, and phased array radars; terrestrial wireless link design including line of sight, LMDS, and nonline of sight; optical link design including laser options, diffraction limits, lidar and communications links, tracking limitations, and GEO and LEO intersatellite link design; Wi-Fi link design; and directed energy systems.

Prerequisite(s): TCOM 551, TCOM 607, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 750 - Coordinating Seminar
Credits: 3
Not Repeatable
Open only to students in MA or MS in telecommunications programs with at least 18 credits of course work prior to registration. Topics include specific telecommunications problems in management, law, engineering, education, and communications. Focuses on ways a problem in one area can create or solve a problem in other areas.

Prerequisite(s): Open only to students in the MA or MS in telecommunications programs with at least 18 credit hours of course work prior to registration.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Theater (THR)

Offered by the College of Visual and Performing Arts

THR 101 - Theatrical Medium

Credits: 3
Not Repeatable
Theater from the inside workings of production to informed and lively engagement with the art. Enhances an understanding of the nature of theater in society.

Fulfills Mason Core requirement in arts.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

THR 150 - Greeks to Restoration

Credits: 3
Not Repeatable
Examines the development of Western drama and the collective art of theater from its beginnings through Shakespeare. Considers readings in dramatic literature and history of theater in social and cultural contexts.

Fulfills Mason Core requirement in arts.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 151 - Romanticism to Present

Credits: 3
Not Repeatable
Considers readings in dramatic literature and history of western theater in social and cultural contexts from the romantic period to present day.

Fulfills Mason Core requirement in arts.

**THR 190 - Special Topics**

Credits: 1-3  
Repeatable within Term  
Rotating topic. Introductory seminar in areas of special interest.

**Notes:** May be repeated for maximum 12 credits.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0

**THR 191 - Practical Theater Seminar**

Credits: 0  
Repeatable within Term  
Each semester registered students will 1) attend a Theater at Mason production, guest lecture or workshop, and 2) participate in a production load-in and 3) participate in a production strike. To graduate as a Theater major students must complete 4 semesters of the course. Course is repeatable up to twice in one semester.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit  
**When Offered:** Fall, Spring

**THR 196 - Performance and Design Practicum**

Credits: 1  
Not Repeatable  
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Player production. Assignments include performance, design, and stage management. Open to all Theater majors, theater minors, and non-majors.

**Notes:** Successful completion of this course is required to earn a Theater degree.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No credit only  
**When Offered:** Fall, Summer, Spring
THR 197 - Management/Literary Practicum

Credits: 1
Not Repeatable
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Positions include directing, dramaturgy, and leadership in technical productions. Open to all theater majors, theater minors, and non-majors.

Notes: Successful completion of this course is required to earn a Theater degree.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Summer, Spring

THR 198 - Theatrical Construction Practicum

Credits: 1
Not Repeatable
Academic credit awarded for satisfactory completion of a minimum of 30 hours of participation on a Mason Players production. Areas include scenery construction, scene painting, costume construction, light hang, light focus and props. Theater majors, theater minors, and non-majors welcomed.

Notes: Successful completion of this course is required to earn a Theater degree. Recommended for freshman Theater majors, first year transfers, and new Theater majors. Contact School of Theater for CRN.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
Grading: Satisfactory/No credit only
When Offered: Fall, Spring

THR 199 - Production Run Crew Practicum

Credits: 1
Not Repeatable
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Assignments include run crew, light board operator, sound board operator, wardrobe, and fly crew. Theater majors, theater minors, and non-majors welcomed.

Notes: Successful completion of this course is required to earn a Theater degree. Recommended for freshman Theater majors, first year transfers, and new Theater majors. Contact School of Theater for CRN.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
Grading: Satisfactory/No credit only
When Offered: Fall, Spring
THR 200 - Play Production Practicum

Credits: 1
Repeatable within Term
Academic credit is awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Students who have completed THR 196, THR 197, THR 198, and THR 199 may register for THR 200 to receive credit for their participation on additional productions.

Notes: May be repeated for 8 credits.
Contact School of Theater for CRN.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 1
Grading: S/NC
When Offered: Fall, Spring

THR 201 - Stage Management

Credits: 3
Not Repeatable
Introduction to the fundamentals of stage management and the stage manager's role for production. Learn and develop the organizational skills of running and maintaining a production with emphasis on skillful methods in communication and problem solving. Analyzes text from a Stage Manager's perspective. Requirements include creating a stage manager prompt book containing important show documents.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 202 - Literary Management

Credits: 1
Not Repeatable
Principles of literary management and dramaturgy for regional/resident theater. Directed primarily toward developing new work.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

THR 203 - Production/Company Management

Credits: 1
Not Repeatable
Techniques of production and company management applied to university and professional theater productions.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
THR 210 - Acting I

Credits: 3
Not Repeatable
Students practice contemporary acting techniques individually and in a group. Promotes and develops performance and practical communication skills. Attend theatrical productions, and respond to those experiences.

Fulfills Mason Core requirement in arts.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

THR 230 - Fundamentals of Production

Credits: 3
Not Repeatable
Students explore current production practices and their historical development in scenery, costumes, lighting, and sound through classroom and hands on experience. Concepts and skills acquired in this class may be applied in theater, film, dance, game design, art, corporate events, and architecture. Lab hours include work on live performances.

Fulfills Mason Core requirement in arts.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

THR 235 - Costume Crafts

Credits: 3
Not Repeatable
This course serves as the foundation and prerequisite for costume courses in design and construction. Costume Crafts will introduce the principles of apparel design and construction for stage and screen costumes. Requirements for this course will include the complete construction of two items and the compilation of a sample notebook containing important construction techniques.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

THR 300 - Voice and Speech

Credits: 3
Not Repeatable
For performers, presenters, and anyone wishing to improve their speaking voice. Basic techniques in breathing, vocal production, and articulation.

Prerequisite(s): THR 210 or permission of instructor.

Therapeutic Voice Training

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall.

THR 301 - Advanced Study in Voice

Credits: 3
Repeatable within Degree
Addresses various topics in technique of vocal production for the actor with an emphasis on playing characters for stage, radio, voice-over, and screen.

Prerequisite(s): THR 300 or permission of instructor.

Notes: May be repeated for a total of 9 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 303 - Movement for Actors

Credits: 3
Not Repeatable
Develops the physical aspect of the actor's instrument emphasizing free and responsive expression of impulse and intention, as well as character development and visual storytelling.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

THR 304 - Advanced Movement for Actors

Credits: 3
Repeatable within Degree
Advanced work in physical expression, for character development.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring
THR 305 - Unarmed Stage Combat

Credits: 3  
Not Repeatable  
Studies safe, effective techniques for performing violence for stage and screen. Emphasizes acting the fight, safety, and storytelling.

Prerequisite(s): THR 210 and 310, or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

THR 306 - Movement in Musical Theater

Credits: 3  
Repeatable within degree  
Students will explore and perform Movement for Musical Theater to include both character development and choreography.

When Offered: Fall

THR 310 - Acting II

Credits: 3  
Not Repeatable  
Deepens an understanding of performance analysis, and character relationships through scene work.

Prerequisite(s): THR 210 or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

THR 313 - Event Technology

Credits: 3  
Not Repeatable  
A theoretical and practical study of event technology. The course will include specifications, layout installation techniques and operation of sound systems, lighting systems and video systems for event industry sectors.

Prerequisite(s): THR 230 or permission of instructor.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall.
THR 314 - Lighting Stagecraft

Credits: 3  
Not Repeatable  
Practical and theoretical instruction on becoming theatrical electrician. Includes ideas on workplace safety, basic electrical procedures, theatrical electrical production, integrating with other theater professionals, and professionalism.

Prerequisite(s): THR 230 or permission of instructor

Corequisite(s): Must be concurrently enrolled in THR 200

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

THR 315 - Sound Engineering

Credits: 3  
Not Repeatable  
Study theory and practice of audio engineering for theater and the entertainment industry.

Prerequisite(s): THR 230 or permission of instructor

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

THR 316 - Scene Painting

Credits: 3  
Repeatable within Degree  
Students experience the art and craft of scene painting with the goal of translating design elevations into paint on muslin. Students learn fundamental scene painting techniques and how to use them in combinations to create portraits, murals, landscapes, and textures.

Prerequisite(s): THR 230 or permission of instructor.

Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 2  
When Offered: Fall

THR 320 - Performance Studio

Credits: 3  
Not Repeatable
Builds on existing skills in observation, sense memory, relaxation, and improvisation. Students learn variety of methods for scene preparation to apply to their own acting process.

**Prerequisite(s):** THR 210 and 310, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**THR 321 - Acting Shakespeare**

Credits: 3  
Not Repeatable  
Develops understanding of challenges of performing Shakespeare by building on body of acting skills and knowledge. Focuses on how structure of language in plays reflects, reveals, and expresses character's emotional life. Students use detailed script analysis, expansion of vocal range, and use of actions and objectives to achieve experience of transforming Shakespeare's language into powerful theatrical expressions.

**Prerequisite(s):** THR 210 and 310, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**THR 329 - Directing**

Credits: 3  
Not Repeatable  
Introduces process for directing through text analysis, rehearsal and staging techniques, and collaborative development of production idea. Students direct and apply concepts to develop a critical and productive perspective.

**Prerequisite(s):** THR 150-151, 210, or 350; or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**THR 330 - Seminar in Technical Theater**

Credits: 3  
Repeatable within Term  
Offered periodically; addresses selected topic in design or technical theater on advanced level.

**Prerequisite(s):** THR 230 or permission of instructor. Rotating topic.

**Notes:** May be repeated for total 24 credits.
THR 331 - Drafting and Model Making

Credits: 3
Not Repeatable
Studies conventions and techniques of drafting and model making as methods of communication in the theatrical production process.

Prerequisite(s): THR 230 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 332 - History of Fashion and Dress

Credits: 3
Not Repeatable
Explores evolution of silhouette, color, fabric, accessories, and make-up appropriate to development of clothing during specific historical eras. Offers broader understanding of sociological context influencing Western dress.

Notes: May be repeated for total 9 credits if specific course content differs.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 333 - Stage Design

Credits: 3
Not Repeatable
Fundamentals of creating, developing, and communicating design idea through sketches, plans, rendering, or models. Analysis of text from designer's perspective.

Prerequisite(s): THR 230 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 334 - Lighting Design

Credits: 3
Not Repeatable
Introduces the fundamentals of lighting design, including research, paperwork communication, and technology for lighting. Topics include the controllable qualities of light, basic terminology, equipment, personnel and procedures. Learn to see light and develop a shared vocabulary for describing light and the process. Analyzes texts from designer's perspective.

Prerequisite(s): THR 230.

**THR 335 - Costume Design**

Credits: 3  
Not Repeatable  
Project-oriented class emphasizing the art and process of designing costumes for the stage and screen, including historical period, script analysis, design concepts, color theory, and costume rendering.

Prerequisite(s): THR 230 or permission of instructor.

**THR 336 - Technical Direction**

Credits: 3  
Not Repeatable  
Analyze scenic units for construction including building techniques, material choices, hardware, stage rigging, and budget estimates.

Prerequisite(s): THR 230 or permission of instructor.

**THR 337 - Sound Design**

Credits: 3  
Not Repeatable  
Study theory and practice of sound design for theater and the entertainment industry.

Prerequisite(s): THR 230 or permission of instructor
THR 339 - Principles of Design

Credits: 3
Not Repeatable
Introduction to the principles of theatrical design. Course explores various design responsibilities and methods to create visual images for the stage through script analysis, research, and production team collaboration.

Prerequisite(s): THR 230 or permission of instructor

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 340 - Advanced Studies in Directing

Credits: 3
Not Repeatable
Expands directing techniques through staging extended scenes or one-act plays. Emphasizes collaborative process and production organization.

Prerequisite(s): THR 240 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

THR 342 - Makeup Design

Credits: 3
Not Repeatable
Project-oriented class emphasizing makeup for different performance spaces, character age analysis, facial anatomy, and specialized application for theater, opera, dance, film, and television.

Prerequisite(s): THR 230 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 343 - Costume Pattern Drafting

Credits: 3
Not Repeatable
Pattern development through draping and drafting. Laboratory study and practical experience in construction of stage costumes.

Prerequisite(s): THR 235 or permission of instructor.
THR 345 - Puppetry

Credits: 2-4
Not Repeatable
Exploring of puppetry, and experiments with building and performance styles, through Original work.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 4
When Offered: Fall

THR 350 - Script Analysis

Credits: 3
Not Repeatable
Critical analysis of dramatic literature as preparation for production and performance. Examination of plot, character, theme, audience impact, and cultural context, and the transformation of intellectual ideas into physical theatrical production elements.

Fulfills writing intensive requirement in the major.

Notes: Writing intensive course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 351 - Dramatic Theory and Criticism

Credits: 3
Not Repeatable
Chronological study of development of dramatic theory and criticism from Plato and Aristotle through modern movements. Students read plays, theoretical works, and critical responses, and write original criticism of performances or texts.

Prerequisite(s): THR 150 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 352 - Dramatic Literature Seminar

Credits: 3
Repeatable within Term
Rotating topic. Intensive study of particular topic, period, or genre in dramatic literature.

Notes: May be repeated for a total of 9 credits if specific course content differs.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**THR 355 - Moral Vision in American Theater**

Credits: 3
Not Repeatable
Examines vision of American society created and presented in contemporary American theater. Subject defined as "moral" vision because focus is on how we perceive ourselves in relation to others and society's value standards. Perspectives include sociology, theory of culture, practical theater craft, and literary criticism. Features plays by range of American playwrights.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**THR 359 - World Stages**

Credits: 3
Not Repeatable
Introduces variety of theatrical traditions and performance theories from around the world, with special emphasis on those not covered in introductory Western drama survey courses, 150 and 151. Students read and discuss dramatic texts, performance theory, and video clips to understand variety of theatrical traditions in cultural and historical contexts. Requirements include two team presentations (taking turns as writer and presenter), one midterm paper, and one solo presentation with accompanying paper.

Fulfills Mason Core requirement in global understanding.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**THR 365 - Characterization**

Credits: 3
Not Repeatable
Explores method and approach of understanding and creating characters for theater modeled on people from personal experience and observation, imagination, dreams, and other media. Transforms that information into detailed, specific, and vivid physical manifestations. Through presentations of characters drawn from personal experience, students shift understanding of characterization from "outward directed" physical adjustments to physical characteristics and personality character traits that are immediate, familiar, and completely realized from "inner driven" connections to their own lives.

Prerequisite(s): THR 210.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
THR 380 - Playwriting I

Credits: 3
Repeatable within Degree
Exposure to principles of dramatic writing, including character, plot, dramatic structure, dialogue, exposition, setting, and creating theatrical images using examples from plays, screenplays, and students' own work.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
When Offered: Fall

THR 381 - Playwriting II

Credits: 3
Repeatable within Degree
Intensive continuation of work begun in THR 380.

Prerequisite(s): THR 380 or permission of instructor.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
When Offered: Spring

THR 382 - Screenplay Workshop

Credits: 3
Not Repeatable
Studies screenwriting as dramatic form of 20th, 21st centuries. Explores story, plot structure, three act-structures, mythic structures, fundamental story patterns, character, thinking, and writing visually.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 395 - Theater as the Life of the Mind

Credits: 3
Not Repeatable
Traces four subjects (battle of the sexes, good gifts, cyclical tragedy, and eschatology) from ancient theater to contemporary plays, television, and movies, using literary criticism, history, political theory, comparative religion, sociology, and anthropology.

Fulfills Mason Core requirement in arts.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
THR 401 - Professional Presentation

Credits: 3
Not Repeatable
Examines persuasive communication, with an emphasis on making presentations and addressing groups, both large and small. Hones the ability to project a personal passion while communicating information about any discipline to general audiences.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 405 - Advanced Stage Combat

Credits: 3
Repeatable within Degree
Armed Stage Combat techniques are explored, unarmed techniques solidified, and advanced choreography mastered in this study of safe and effective theatrical storytelling through violence for Stage and Screen appropriate towards national certification as Actor-Combatant.

Prerequisite(s): THR 305 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer.

THR 410 - Acting for the Camera

Credits: 3
Not Repeatable
Designed for students with a strong interest in pursuing a professional career in acting and is focused primarily on the particular techniques for screen acting in film and television.

Prerequisite(s): Must have completed THR 310 with a grade of C or better. Prerequisite enforced by registration system.

Notes: This class is restricted to Theater majors and minor only.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

THR 411 - Great Film Directors

Credits: 3
Not Repeatable
Examines examples of directing for dramatic storytelling on screen and its social and historical contexts. Focuses on specific developments in the art of movie making.

Fulfills Mason Core requirement in arts.

**Prerequisite(s):** Sophomore standing (30 credit hours completed).

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**THR 412 - Great Film Performances**

Credits: 3  
Not Repeatable  
Examines the development and evolution of acting style and genres through exemplary performances on screen.

Fulfills Mason Core requirement in arts.

**Prerequisite(s):** Sophomore standing (30 credit hours completed).

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**THR 415 - Advanced Sound Engineering**

Credits: 3  
Not Repeatable  
Advanced study in theory and practice of audio engineering for theater and the entertainment industry.

**Prerequisite(s):** THR 315 and THR 230 or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**THR 420 - Advanced Performance Studio**

Credits: 3  
Repeatable within Degree  
Advanced scene study for stage and film. Rotating topics address professional perspectives and acting styles. Repeatable to 9 credits.

**Prerequisite(s):** Must have completed THR 320 with a grade of C or better. Prerequisite enforced by registration system.

**Notes:** Course is repeatable to 9 credits.
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 421 - One-Person Show

Credits: 3
Not Repeatable
Explores creative writing, staging, and performance while developing short, original work culminating in the successful writing, a one-person show.

Prerequisite(s): THR 210 and THR 310 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 423 - Audition Techniques: Stage and Camera

Credits: 3
Not Repeatable
Develops effective audition techniques for performers through preparation of material for stage and camera, and explores industry standards and casting protocols through practical application.

Prerequisite(s): THR 310 or equivalent, or permission of instructor. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 424 - Contemporary Women Playwrights

Credits: 3
Repeatable within Degree
Explores identity and culture, sexuality and gender, work, relationships, and power through the eyes of female dramatists and performance artists. Analyzes texts and issues through readings, video, and live performances.

Prerequisite(s): Junior standing, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 425 - Verse Speaking
Credits: 3
Not Repeatable
Explores verse literature and mechanics of verse structure through reading, discussing, and reciting major verse plays of Western
drama from the Middle Ages through the 20th century. Focuses on various verse forms, paying particular attention to vocal clues
within verse structure, the meaning of rhythm, and practicing vocal techniques used in speaking texts in class. Students also
prepare weekly presentations of playwrights, and historical backgrounds of plays and their periods.

Prerequisite(s): THR 210 and 310, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 427 - Musical Theater Workshop

Credits: 3
Repeatable within Degree
Develops performance techniques necessary for performance in musical theater. Students will prepare and perform musical
theater pieces. This course is repeatable to twelve (12) credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 428 - Musical Theater Ensemble

Credits: 3
Repeatable within Degree
Rehearses a musical or musical theater review in a workshop environment. The result of the work will be public performance(s).

Prerequisite(s): Audition.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 434 - Advanced Lighting Design

Credits: 3
Not Repeatable
In-depth study of lighting design focused on the aesthetics of stage lighting and advanced conceptualization and communication
of design ideas. Extensive work with script analysis, research, and graphic representation of theatrical lighting designs. Intensive
practical experience in laboratory and production assignments.

Prerequisite(s): THR 230 and 334, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
THR 440 - Advanced Studies in Directing/Dramaturgy

Credits: 3
Not Repeatable
Examines theory and practice of collaborative development of production ideas by director and dramaturg teams. Students draw from extensive study in field to support production ideas from classical and modern repertoire to be presented as written and oral projects before faculty panel.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): Junior or senior standing; completion of or concurrent enrollment in all Mason Core courses; THR 150 or THR 151, and THR 329; or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 448 - Foundations of Theater Education

Credits: 3
Repeatable within Degree
Introduces and explores various theater teaching specialties. Examines philosophical, pedagogical, and practical issues in context of diverse teaching situations and venues that range from public school to undergraduate and graduate training to commercial establishments.

Prerequisite(s): Junior standing (60 credit hours completed) and Theater Teaching Concentration admission requirements or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 449 - Elementary Theater Education

Credits: 3
Repeatable within Degree
An in-depth exploration of teaching methods and classroom management for PK-6 theater education.

Prerequisite(s): Junior standing (60 credit hours completed) Theater Teaching Concentration admission requirements or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring
THR 450 - Secondary Theater Education

Credits: 3
Not Repeatable
This course explores teaching methods for theater that are appropriate for all students, including exceptional students, gifted and talented, and those with disabling conditions. It will cover requirements of the Virginia Theater Standards of learning, curriculum and instructional procedures for secondary grades 6-12 (both middle and secondary schools).

Prerequisite(s): Junior standing (60 credit hours completed) Theater Teaching Concentration admission requirements or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 451 - Theater Pedagogy

Credits: 2
Repeatable within Degree
This advanced exploration of teaching methods for K-6 enrichment programming includes classroom hours devoted to pedagogy and field study for practical application, leadership and administration for independent arts programming.

Prerequisite(s): Sophomore standing and enrollment in Theater Education concentration; or permission of instructor.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

THR 455 - Theater Education Internship

Credits: 6-12
Repeatable within Degree
Full semester of supervised teaching experience in approved school programs PK-12. Credits based on number of teaching contact hours per week.

Prerequisite(s): Successful completion of Theater Teaching Concentration Coursework and students must pass the VCLA before student teaching (and the Praxis II (Theater: Content Knowledge) test during the internship semester).

Hours of Lecture or Seminar per week: 6-12
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 480 - Advanced Playwriting

Credits: 3
Repeatable within Degree
Advanced playwriting workshop in which students explore their own voice in theatrical writing.

**Prerequisite(s):** THR 381, or permission of instructor.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring

**THR 482 - Advanced Screenplay Workshop**

Credits: 3  
Repeatable within Degree  
Screenwriting workshop emphasizing student development in screenplay form, structure, and storytelling with emphasis on craft, character, and story culminating in a screenplay.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** THR 382 or ENGL 332/ENGH 372 or other writing preparation course as approved by the instructor.

**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring

**THR 484 - Translation & Adaptation for Stage & Screen**

Credits: 3  
Not Repeatable  
This interdisciplinary course will introduce students to the arts of translation and adaptation for the stage and screen. Students will read examples of translations and adaptations, identify challenges in each, and discuss them with professionals who translate or adapt works for theater, film and/or opera. Students are also expected to apply their skills to one short and one long translation/adaptation project, and present their work to the class.

**Prerequisite(s):** Junior standing

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**THR 490 - Special Topics in Theater**

Credits: 1-6  
Repeatable within Term  
Rotating topic. Advanced seminar in topics of special interest, including dramatic writing or other media, and feminism in contemporary theater.

**Notes:** May be repeated for a total of 24 credits, provided specific course content differs.

**Hours of Lecture or Seminar per week:** 1-6
THR 491 - Seminar on the Profession

Credits: 1-3
Repeatable within Degree
Rotating topic. Advanced seminar in topics of special interest, including dramatic writing or other media, and feminism in contemporary theater.

Prerequisite(s): Student must have completed at least 60 credit hours.

Notes: Repeatable to 6 credits with permission of the Chair. Rotating Topics. Dependent on credits hours offered, class time will vary from 1 hour to 2 hours, 40 minutes.

THR 492 - Studio Project

Credits: 1-3
Repeatable within Degree
Required for students assigned as director, designer, dramaturg, or stage manager for a Mason Players Studio production. Instruction and mentorship from appropriate Theater faculty to better develop the student's aesthetic. Required generation of portfolio material. This class is restricted to students participating in Studio productions within the academic year of the course offering.

Prerequisite(s): THR 329 or THR 333 or THR 334 or THR 335 or THR 337.

Notes: This course is repeatable to 9 credits.

THR 493 - Collaborative Lab Experience

Credits: 3
Not Repeatable
Students will collaborate in a laboratory experience to create original material for the stage or screen. Course content will be project specific.

Prerequisite(s): Theatre major with junior standing (60 credit hours completed).
**THR 494 - Field Experience**

Credits: 1-6  
Repeatable within Term  
Experience in a theatrical organization to provide opportunity to apply classroom training, knowledge, skills, and theory in a professional situation. Activity must be approved by department chair.

**Prerequisite(s):** Involves off-campus experience with a professional theater. Students must obtain permission of instructor prior to registering.

**Notes:** May be repeated for a total of 12 credits.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No credit only

**THR 495 - Senior Capstone Project**

Credits: 3  
Repeatable within Degree  
Student must submit a written project proposal to area of concentration for consultation. If accepted, proposal will be presented to the full faculty for approval.

**Prerequisite(s):** Must have declared a concentration, have completed at least 60 credit hours, and must have completed 4 credits of Practicum.

**Notes:** Production proposals will be subject to calendar availability. Course is repeatable to 6 credits with permission of Chair.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**THR 496 - Text in Production**

Credits: 3  
Not Repeatable  
In-depth investigation of collaborative nature of theatrical arts. Examines discrete creative disciplines; acting, directing, dramaturgy, and design as discussed by distinguished professionals and scholars. In-depth exploration of one selected playscript for the entire semester. Students will work collaboratively in small groups to research, design, direct, and perform scenes from selected text.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** Completion or concurrent enrollment in all theater core courses and all other required Mason Core courses, and junior standing; or permission of instructor.
THR 497 - Independent Study

Credits: 1-6
Repeatable within Term
Individual research and creative project in close consultation with instructor. Selection from projects in performance, directing, technical theater and design, playwriting, or theater history and criticism.

Prerequisite(s): Open only to theater majors with 90 credits and special permission of department chair

Notes: May be repeated for a total of 24 credits, provided suffix citing specific course content is different

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

THR 525 - Advanced Musical Theater Workshop

Credits: 3
Repeatable within Degree
Students hone performance techniques necessary for performance in musical theater and contemporary operetta. Students will practice and perform musical theater pieces.

Notes: Course is repeatable to 6 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 530 - Topics in Theater Design

Credits: 3
Repeatable within Degree
In-depth study of scenic, costume, lighting, or sound design. Extensive work with script analysis, historical and conceptual research, visual communication of design ideas, and technical paperwork. Focus on aesthetics, production requirements, and collaboration.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall

THR 540 - Directing Techniques
Credits: 3  
Repeatable within Degree  
As an examination of the directorial process for stage and screen, this course will explore directing theory, preparation, and practice.  

Notes: This course is repeatable to six (6) credits.  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

THR 548 - Advanced Foundations of Theater Education

Credits: 3  
Repeatable within Degree  
Explores various theater teaching specialties in venues that range from public school to undergraduate and graduate training to commercial establishments.  

Prerequisite(s): Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

THR 549 - Advanced Elementary Theater Ed

Credits: 3  
Repeatable within Degree  
An in-depth exploration of teaching methods and classroom management for PK-6 theater education combined with advanced managerial skill training.  

Prerequisite(s): Graduate standing, eligibility for post-baccalaureate in Theater Education Licensure, or permission of the instructor.  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

THR 550 - Advanced Secondary Education

Credits: 3  
Not Repeatable  
This course explores teaching methods for theater that are appropriate for all students, including exceptional students, including gifted and talented and those with disabling conditions. It will cover requirements of the Virginia Theater Standards of Learning, curriculum and instructional procedures, as well as theater classroom management, for secondary grades 6-12 (both middle and secondary schools).
Prerequisite(s): Graduate standing, eligibility for post-baccalaureate certificate in Theater Education, or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 551 - Acting for Teachers

Credits: 3-12
Not Repeatable
Advanced concepts in teaching methods for K-6 enrichment programming based on further exploration of multiple intelligences, including classroom pedagogy and field study for practical application of curriculum and administrative skills.

Prerequisite(s): Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.

Notes: Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

THR 555 - Theater Education Internship

Credits: 4-12
Repeatable within Degree
Full semester of supervised teaching experience in approved school programs PK-12. Credits based on number of teaching contact hours per week.

Prerequisite(s): Successful completion of Theater Teaching Concentration Coursework and students must pass the VCLA and Praxis I prior to the internship semester.

Hours of Lecture or Seminar per week: 4-12
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 560 - Advanced Script Analysis

Credits: 3
Not Repeatable
Critical analysis of dramatic literature as preparation for production and performance. Examination of plot, character, theme, audience impact, and cultural context, and the transformation of intellectual ideas into physical theatrical production elements.

Hours of Lecture or Seminar per week: 3
**THR 571 - Advanced Playwriting Workshop**

Credits: 3  
Not Repeatable  
Advanced playwriting workshop in which students explore their own voice in theatrical writing.

Prerequisite(s): Undergraduate degree or equivalent, or permission of instructor.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**THR 590 - Special Topics for Graduate Study**

Credits: 1-6  
Not Repeatable  
Rotating topic. Advanced seminar in topics for stage and screen studies, including education, performance, design, research, writing, and styles in theater or other media.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**THR 591 - Graduate Seminar**

Credits: 1-3  
Not Repeatable  
Addresses the realities living and working in the theater and the film industry.

Notes: Rotating Topics. Dependent on credits hours offered, class time will vary from 1 hour to 2 hours, 40 minutes.

**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**THR 599 - Independent Study**

Credits: 1-6  
Repeatable within Degree  
Independent reading, performance, or research on a specific project under direction of selected faculty member. May include attendance in a parallel undergraduate course.
Prerequisite(s): Undergraduate degree or equivalent, or permission of instructor.

Notes: May be repeated for a total of 18 credits.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

THR 610 - Acting Mentorship

Credits: 3
Not Repeatable
This class gives students the chance to work with a faculty mentor while they apply their acting skills to a full-length public performance. Students create a record of the creative process through mentored practical production assignments. Actors enrolled in this course must receive prior approval for their projects for the stage or screen and will be expected to submit a written reflection on the complete acting process.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 620 - Acting Techniques

Credits: 3
Repeatable within Degree
Students explore selected acting techniques for stage and screen. Topics vary from scene work to specialty areas—such as movement, voice and style—with an emphasis on developing bold physical, psychological and emotional expression.

Notes: Repeatable up to 12 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 640 - Directing Mentorship

Credits: 3
Not Repeatable
This class gives students the chance to work with a faculty mentor while they apply their directing skills to a full-length public performance. Students create a record of the creative process through mentored practical production assignments. Directors enrolled in this course must receive prior approval for their projects for the stage or screen and will be expected to submit a written reflection on the full directorial process.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
THR 651 - Advanced Dramatic Theory and Criticism

Credits: 3
Not Repeatable
A chronological study of development of dramatic theory and criticism from Plato and Aristotle through modern movements. Students read plays, theoretical works, and critical responses, and write original criticism of performances or texts. They also take turns leading critical texts, meet one-on-one with their instructor for individualized mentoring, and prepare at least one essay for publication.

Prerequisite(s): Graduate standing or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

Tourism and Events Management (TOUR)

Offered by the College of Education and Human Development

TOUR 110 - Professionalism and Civility

Credits: 1
Not Repeatable
Focuses on developing competencies in the areas of professionalism and civility in a variety of settings including professional image, conduct at work, telephone, written, oral, and electronic etiquette, table manners, and social networking with an emphasis on the cultural needs for honoring commitments and obligation.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

TOUR 190 - Wedding Planning

Credits: 3
Not Repeatable
Introduction to the planning and management of weddings. Explores social, political, economic, cultural, religious, and historical influences on wedding planning decision-making and business strategies. Reviews practices relevant to successful wedding planning, and consultancy for diverse clients and settings.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 200 - Introduction to Travel and Tourism

Credits: 3
Not Repeatable
Introduction to travel and tourism from local to international levels. Overview of the scale, scope, and organization of the industry, with emphasis on the development of natural, cultural, heritage, and recreational resources of tourism. Identifies issues related to the economic, technological, legal, and political aspects of tourism.

Notes: Open to nonmajors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 210 - Global Understanding through Travel and Tourism

Credits: 3
Not Repeatable
Examines tourism as a global industry and human activity that promotes and facilitates understanding of historical and cultural values, and of international institutions that characterize the broader global system.

Fulfills Mason Core requirement in global understanding.

Notes: Open to nonmajors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 220 - Introduction to Event Management

Credits: 3
Not Repeatable
Explores principles and practices of managing medium- and large scale events including festivals, conventions, concerts, shows, sporting events, and ceremonies. Emphasizes organization, site preparation, communications, personnel, and security as well as evaluation and innovation.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 221 - Event Implementation and Evaluation

Credits: 3
Not Repeatable
Introduction to event implementation and evaluation through involvement in on-site event delivery and analysis. Studies participant motivation and economic, social, environmental, and cultural impacts in relation to an event's products and services.

Prerequisite(s): TOUR 220. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
TOUR 230 - Introduction to Hospitality Management

Credits: 3  
Not Repeatable  
This course is an introduction to hospitality management, including an overview of management in the hospitality industry and professional opportunities. The concepts and practices of hospitality management are examined and discussed. The scope and forms of hospitality organizations are reviewed, as well as trends within these organizations.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

TOUR 241 - Practicum

Credits: 3  
Not Repeatable  
Provides 120 hours of introductory supervised professional fieldwork experience in an approved tourism, events, or hospitality management setting for 10 to 14 weeks (10 weeks maximum for the Summer term) under the supervision of a practicum Faculty Supervisor and Agency Supervisor. Includes meetings and assignments before, during, and after the practicum. Start date is the first day of classes.

Prerequisite(s): TOUR 200, TOUR 220, sophomore standing, and TOUR major status. Prerequisite enforced by registration system.

Notes: TEM majors only

Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 10-12  
Grading: Satisfactory/No Credit  
When Offered: Fall, Summer, Spring

TOUR 301 - Hotel Management

Credits: 3  
Not Repeatable  
Explores interrelated systems in hotel management, including front desk, reservations, housekeeping, food/beverage, telecommunications, guest services and security. Reviews and segments hotel products and associated management challenges.

Prerequisite(s): TOUR 230. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

TOUR 310 - Food and Beverage Management
Credits: 3
Not Repeatable
Explores the principles of foodservice management regarding production and selling of food and beverage products. Categorizes various types of food, wine, beer and spirits. Reviews foodservice buying, pricing, menu planning, production, storage, service, controls and quality assurance.

Prerequisite(s): TOUR 230. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

TOUR 311 - Women and Tourism

Credits: 3
Not Repeatable
Focuses on women as hosts and guests. Using social theory, explores issues regarding the history and evolution of tourism as a gendered system. Addresses family, solo and business travel, and employment, taking into consideration issues related to more and lesser developed countries as they relate to the roles of women in international tourism.

Fulfills Mason Core requirement in social and behavioral science.

Notes: Open to nonmajors.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 312 - Ecotourism

Credits: 3
Not Repeatable

Analyzes tourism that is nature-based and entails a learning component while striving for environmental and sociocultural sustainability within the context of financial viability. Considers markets, role of protected areas, impacts, business aspects, external environments, organizations and policies, and research trends and needs.
Designated a Green Leaf Course.

Prerequisite(s): TOUR 200 Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 313 - Event Technology

Credits: 3
Not Repeatable
Explores theoretical and practical considerations of event technology. Examines specifications, layout installation techniques and operation of sound systems, lighting systems and video systems for event industry sectors.

**Prerequisite(s):** TOUR 220. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**TOUR 320 - Hospitality Management Information Systems**

Credits: 3  
Not Repeatable  
Introduces management information systems (MIS) technology and its application to hospitality sectors from managerial and strategic perspectives. Surveys computer applications, products and trends in gathering, analyzing, storing and communicating information within hospitality sectors.

**Prerequisite(s):** TOUR 230. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**TOUR 330 - Resort Management**

Credits: 3  
Not Repeatable  
Surveys effective practices in the management of resort recreation enterprises. Examines basic resort operations, including front desk, food and beverage, amenities, and housekeeping. Covers management of a variety of resort types, such as ski resorts, beach resorts, dude ranches, business retreats, adventure camps, health spas, and golf resorts.

**Prerequisite(s):** TOUR 200 and TOUR 220. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**TOUR 340 - Sustainable Tourism**

Credits: 3  
Not Repeatable

Considers the characteristics of environmentally, economically, and socioculturally sustainable tourism, and assesses the possibilities and limitations for its implementation in a variety of destination and product settings. Emphasizes conventional "mass" tourism as well as small-scale "alternative" tourism. Designated a Green Leaf Course.
**TOUR 352 - Heritage and Cultural Tourism**

Credits: 3  
Not Repeatable  
Analyzes historical and cultural attractions, including museums, canals, monuments, pilgrimage sites, military sites, and cultural and heritage landscapes. Covers presentation and interpretation, African-American and Native American heritage, management and operational considerations, and marketing.

**Prerequisite(s):** TOUR 200 and TOUR 220 Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TOUR 362 - Cultural and Environmental Interpretation**

Credits: 3  
Not Repeatable  
Focuses on communication processes and practices used by professionals to explain and interpret special characteristics of cultural and environmental resource sites for visitors. Discusses conceptual principles for planning interpretive programs, as well as techniques for analyzing and disseminating information and entertainment through various media. Examines delivery of interpretive messages across a variety of audiences, strategies for programming interpretive services, and the administration and evaluation of interpretive services at tourism, event, and recreation sites.

Equivalent to PRLS 362

**Prerequisite(s):** PRLS 300, or PRLS 328, or TOUR 352

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TOUR 412 - Tourism and Events Marketing**

Credits: 3  
Not Repeatable  
Provides understanding and tools for marketing and management of financial resources in entrepreneurial tourism enterprises. Includes market planning, business planning, feasibility assessment, investment analysis, basic accounting, and operational control.

**Prerequisite(s):** TOUR 200, TOUR 220, PRLS 310, and PRLS 410 Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
TOUR 414 - Tourism and Events Finance

Credits: 3
Not Repeatable
Develops skills and competencies for the management of financial resources in tourism and events management enterprises. Students learn about business planning, feasibility assessment, investment analysis, and basic accounting and operational control, with special emphasis on application to this unique industry.

Prerequisite(s): TOUR 200, TOUR 220, PRLS 310, and PRLS 410 Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 416 - Hospitality Sales

Credits: 3
Not Repeatable
Explores the principles of personal selling within hospitality sectors. Reviews the nature of buyers and sellers, situational selling, the sales process and relationship management.

Prerequisite(s): TOUR 230, PRLS 410. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

TOUR 418 - Hospitality Accounting

Credits: 3
Not Repeatable
Reviews concepts and methods related to the collection, processing, and interpretation of accounting data for managerial planning, control and evaluation as applied to hospitality enterprises.

Prerequisite(s): TOUR 230, PRLS 410. Prerequisite enforced by registration system.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

TOUR 420 - Tourism Planning/Policy

Credits: 3
Not Repeatable
Principles of planning and policy that apply to integrated and sustainable tourism development at the international, national, state, regional, local, and site scale. Considers government, industry, and community perspectives. Designated a Green Leaf Course.

**Prerequisite(s):** PRLS 310 and TOUR 340 Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### TOUR 440 - Meetings and Conventions

Credits: 3  
Not Repeatable  
Analyzes meetings, incentives, conventions, and exhibitions with respect to business environment and structure, industry suppliers, site and facility selection, human resource management, legal and financial issues, marketing and promotion, and event organization.

**Prerequisite(s):** TOUR 220 and PRLS 310. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### TOUR 450 - Hospitality Human Resources Management

Credits: 3  
Not Repeatable  
Reviews concepts and methods related to the achievement of strategic business goals through employee recruitment, training and development.

**Prerequisite(s):** PRLS 410. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

### TOUR 460 - Hospitality Facilities Operations

Credits: 3  
Not Repeatable  
Explores the principles applied to facilities systems operations in hospitality sectors. Considers design, planning, layout and maintenance of hospitality properties and systems.

**Prerequisite(s):** TOUR 340. Prerequisite enforced by registration system.

**Hours of Lecture or Seminar per week:** 3
TOUR 470 - Career Preparation

Credits: 1
Not Repeatable
Focuses on current issues in tourism, events and hospitality management with an emphasis on career development strategies.

Prerequisite(s): TEM major, TOUR 241, 60 credits. Prerequisite enforced by registration system.

Notes: Meets for half the semester.

TOUR 480 - Special Topics

Credits: 1-3
Repeatable within Term
Selected topics reflect interest in specialized area of tourism and events management. Announced in advance.

Prerequisite(s): 60 credits

TOUR 490 - Internship

Credits: 12
Not Repeatable
Provides 400 hours of advanced supervised professional experience in an approved tourism, events or hospitality management setting for 10 to 14 weeks (10 weeks maximum for the Summer term) under the supervision of a practicum University (Faculty) Supervisor and Agency Supervisor. Provides a continuous and structured opportunity to apply principles and skills developed in the classroom to the solution of practical problems. Requires a minimum of 30 hours/week and a maximum of 40 hours/week. Includes meetings and assignments before, during, and after the internship. May register for only one additional course for up to three (3) credits (departmental approval required).

Prerequisite(s): 90 credits, TOUR 241, TOUR 340, TOUR 470 and PRLS 410. Open to TEM Majors only. Prerequisite enforced by registration system.

Notes: Open only to majors.
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

TOUR 499 - Independent Study

Credits: 1-3
Not Repeatable
Faculty directed independent study of approved topics in tourism and events management.

Prerequisite(s): TOUR 200 and 220, and 90 credits.

Notes: TEM majors only.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

TOUR 540 - Sustainable Tourism Management

Credits: 3
Not Repeatable

Examines components and interrelationships within tourism systems and assesses the potential economic, sociocultural, and environmental impacts associated with this sector. Considers managerial strategies that minimize the negative impacts and maximize the positive impacts, thereby attaining sustainable tourism.
Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 710 - Advanced Administrative Practices in Tourism and Events

Credits: 3
Not Repeatable
Explores best practices in the administration of tourism and events businesses. Particular emphasis will be placed on contract management, and strategic planning for dynamic markets and changing technologies, with specific applications to geographically dispersed consumers and suppliers.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 712 - Marketing Tourism and Event Planning Services

Credits: 3
Not Repeatable
Focuses on the unique challenges and opportunities faced by tourism and event marketers in producing, delivering, pricing, and promoting tourism and event services.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### TOUR 720 - Major Events and Convention Management

Credits: 3  
Not Repeatable  
Prepares graduate students for managing large scale events such as major festivals, conventions, sporting contests, cultural exhibitions, and commercial exhibitions. Management of human financial, information, and technology resources will be emphasized.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### Turkish (TURK)

#### TURK 110 - Elementary Turkish

Credits: 6  
Not Repeatable  
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

**Hours of Lecture or Seminar per week:** 6  
**Hours of Lab or Studio per week:** 0

#### TURK 210 - Intermediate Turkish

Credits: 3  
Not Repeatable  
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Turkish-speaking regions.

**Prerequisite(s):** TURK 110, appropriate placement score, or permission of department.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### University Transition and Interdisciplinary Studies (UNIV)
UNIV 100 - Introduction to Mason

Credits: 1  
Not Repeatable  
This course assists first-year students with their transition from high school to college life at Mason. It helps students to be successful through academic skill-building, educational planning, and career preparation. It provides information regarding campus resources and ways to engage in the Mason community. Although all sections have a core curriculum, certain sections also focus on a particular theme, student population, or course of study.

Prerequisite(s): Freshman standing.

Notes: Only one of UNIV 100, 140, or 150 can be taken for credit.

Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0

UNIV 101 - Extended Transition

Credits: 0-1  
Not Repeatable  
This course serves as a continuation of University 100 into the second freshman semester. It extends the transition support of international students, and other students in special sections of University 100.

Notes: This course is required in designated programs only.

Hours of Lecture or Seminar per week: 0-1  
Hours of Lab or Studio per week: 0

UNIV 110 - Academic Success

Credits: 0-1  
Not Repeatable  
This course focuses on academic transition and planning issues for students in their second semester or later at Mason. Emphasis is placed on resources and techniques to assist students with assessing and improving their academic performance. Students work closely with the instructor to track their academic progress over the course of the semester.

Hours of Lecture or Seminar per week: 0-1  
Hours of Lab or Studio per week: 0

UNIV 140 - INTO Mason Pathway Transition
UNIV 100 - INTO Mason Pathway Transition

Credits: 0-1
Not Repeatable
Assists first-year international and multilingual standard and accelerated pathway students with their transition from high school to college life. It helps prepare students for successful progression to their chosen degree plan the promoting acculturation to academic norms and expectations at Mason, the development of self-efficacy, and engagement with the Mason community. It encourages to seek out and take full advantage of a wide range of campus resources.

Equivalent to UNIV 100, UNIV 150.

Notes: This course is for students in the INTO Mason Pathway Program.

Only one of UNIV 100, UNIV 140, or UNIV 150 may be taken for credit.

Hours of Lecture or Seminar per week: 2

When Offered: Fall, Summer, Spring

UNIV 141 - INTO Mason Pathway Extended Transition

Credits: 0 to 1
Not Repeatable
Serves as a continuation of UNIV 140. It provides extended first-year transition support for standard pathway students in the second semester.

Equivalent to UNIV 151

Notes: This course is for students in the INTO Mason Pathway Program.

Only one of UNIV 141, or UNIV 151 can be taken for credit.

Hours of Lecture or Seminar per week: 2

When Offered: Fall, Summer, Spring

UNIV 150 - First Year Living Learning Communities

Credits: 0-1
Not Repeatable
This course is available for students who are members of a first year LLC. It is the learning component of the program for students who live together on a residence hall floor. The course follows the core University 100 curriculum, but is tailored to the particular theme or academic discipline of the LLC.

Prerequisite(s): Freshmen standing.

Notes: Only one of UNIV 100, 140, or 150 can be taken for credit.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0
UNIV 151 - First Year Living Learning Communities Extended Transition

Credits: 0-1
Not Repeatable
This course serves as a continuation of University 150 into the second freshman semester. It extends the transition support of students in the First Learning Communities Program.

Notes: Only one of UNIV 141 or 151 can be taken for credit.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0
When Offered: Spring

UNIV 160 - University Scholars Transition Seminar

Credits: 1
Not Repeatable
A first year transition seminar for students in the University Scholars Program.

Prerequisite(s): Admittance to the University Scholars Program.

Notes: Students may only receive credit for one of UNIV 160 or UNIV 100.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall

UNIV 190 - Freshman Seminar

Credits: 3
Repeatable within Term
Broad interdisciplinary subjects taught by Robinson Professors; topics vary.

Prerequisite(s): Freshman standing, minimum 3.3 cumulative GPA or permission of instructor.

Notes: Courses may be repeated for up to 12 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

UNIV 220 - Decide and Confirm Majors

Credits: 2
Not Repeatable
This course focuses on helping students clarify or choose a major or career. Students explore and assess their interests, values and skills, as well as research various majors, careers, and the world of work as information for the decision-making process.

**Prerequisite(s):** Second-semester freshman standing.

**Notes:** Due to the emphasis on assessment exercises, students who miss more than the first class meeting of any UNIV 220 section will not be allowed to enroll.

**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0

**UNIV 250 - Global Studies Living Learning Communities: Personal and Cultural Dimensions of Leadership**

Credits: 0-1  
Not Repeatable  
This course helps students develop cross-cultural awareness by engaging in discussion and activities that explore world perspectives and nurture personal reflection. Students learn about international resources and opportunities on campus, and consider ways to contribute to Mason's diversity. This course also helps students refine their academic and career goals as they become global citizens.

**Notes:** This course is offered only in the fall and is the first course in a two-semester commitment to the Global Studies LLC program. This LLC program serves second-year students and beyond. This course is for students who are members of the Global Studies Living Learning Communities Program.

**Hours of Lecture or Seminar per week:** 0-1  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**UNIV 300 - Transfer Transition**

Credits: 1  
Not Repeatable  
This course assists new transfer students with a successful transition to Mason. This course addresses academic success, time management, and course schedule planning, as well as graduate school/career readiness, degree requirements, and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community.

**Notes:** Students may only receive credit for one of UNIV 300, 302, 303, 304, or 305.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**UNIV 302 - College of Science Transfer Transition**

Credits: 0-1  
Not Repeatable
This course is intended for new transfer students in the College of Science to assist them with a successful transition to Mason. This course addresses academic success, time management, and course schedule planning, as well as graduate school/career readiness, degree requirements, and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community.

**Notes:** Students may only receive credit for one of UNIV 300, 302, 303, 304, or 305.

**Hours of Lecture or Seminar per week:** 0-1  
**Hours of Lab or Studio per week:** 0

### UNIV 303 - Veteran Transition

Credits: 1  
Not Repeatable  
This course is for students with veteran status. Based on theory and research specific to the needs of veterans, this course builds a foundation for success in college and beyond, including career planning, translating military experience on a resume, practical interviewing techniques, and networking and engaging with other veterans in a military-friendly environment.

**Notes:** Students may only receive credit for one of UNIV 300, 302, 303, 304, or 305.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

### UNIV 304 - Bachelor Individualized Studies Transfer Transition

Credits: 1  
Not Repeatable  
This course serves new transfer students in the Bachelors of Individualized Studies (BIS) program, and assists them with a successful transition to Mason. Students develop relationships with peers, staff, and faculty. They are introduced to campus resources, with special emphasis on research and writing resources and tools, and work closely with BIS academic advisors and faculty.

**Notes:** Students may only receive credit for one of UNIV 300, 302, 303, 304, or 305.

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

### UNIV 305 - College of Humanities and Social Sciences Transfer Transition

Credits: 0-1  
Not Repeatable  
Assists new transfer students in the College of Humanities and Social Sciences with a successful transition to Mason. Addresses academic success, educational planning, and career preparation, in addition to degree requirements and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community.

**Notes:** CHSS majors only. Students may only receive credit for one of UNIV 300, 302, 303, 304, or 305.
When Offered: Fall, Summer, Spring

UNIV 320 - Internship and Career Readiness

Credits: 1
Not Repeatable
This course helps students confirm major/career choices and actively pursue internships, research assistantships, and other career-related experiences. With a focus on career readiness, students prepare a resume and cover letter, practice interviewing techniques, and conduct career research.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

UNIV 330 - Peer Leadership: Peer Advisors

Credits: 0-1
Not Repeatable
This course prepares upperclass students to serve as University 100 Peer Advisors, a role that helps first-year students transition successfully from high school to college. This course provides Peer Advisors with the necessary information, tools, and resources to co-teach University 100 effectively.

Notes: This course is for students who have been selected as a Peer Advisor by the University Transitions Program.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0

UNIV 331 - Peer Leadership: Patriot Leaders

Credits: 0-1
Not Repeatable
This course introduces students who will serve as Patriot Leaders to the principles of effective leadership. Students will apply knowledge gained through the course directly to their roles and responsibilities as Patriot Leaders through readings and discussions, experiential activities, and class assignments.

Notes: This course is for students who have been selected as a Patriot Leader by the Office of Orientation and Family Services and Programs.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0

UNIV 332 - Peer Leadership: Resident Advisors
This course provides ongoing support, education, and practical application techniques to assist Resident Advisors in becoming more accomplished leaders who support Mason's Residential Education priorities.

Notes: This course is for students who have been selected as a Resident Advisor by the Office of Housing and Residence Life.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0

UNIV 333 - Peer Leadership: Honors Peer Mentors

This course prepares students to serve as Peer Mentors in the Honors College Living Learning Community. Students learn and put into practice leadership approaches and strategies, and become familiar with communication tools and campus resources that will enable them to mentor LLC participants successfully.

Notes: This course is for students who have been selected as a Peer Mentor by the Honors College.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0

UNIV 350 - Global Studies Living Learning Communities: Leadership Perspectives on Global Justice

In this course students learn about social justice in a local and global context and apply their skills and knowledge to addressing real world problems. Students learn about campus resources and opportunities that foster leadership development and engaged contribution to address global issues such as poverty, health, food security, and human trafficking through partnership with on-campus and local communities.

Notes: This course is offered only in the spring and is the second course in a two-semester commitment to the Global Studies LLC program. This LLC program serves second year students and beyond. This course is for students who are members of the Global Studies Living Learning Communities Program.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0
When Offered: Spring

UNIV 391 - Students as Scholars Scholarly Inquiry

Students contribute to scholarly, research, or creative projects by engaging in the recursive process of scholarly inquiry as preparation for participation in an individualized original project. Students will hold regular meetings with their project mentor,
and make satisfactory contributions to the project.

Notes: Enrollment only with permission from OSCAR.

Hours of Lecture or Seminar per week: 0-9
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring.

UNIV 420 - College to Career

Credits: 1
Not Repeatable
This course supports second semester juniors and seniors with transitioning into the professional workplace. Students develop a tailored resume and cover letter, refine their interviewing skills, and discuss important workforce issues, such as compensation packages and workplace dynamics.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

UNIV 421 - College to Graduate School

Credits: 1
Not Repeatable
This course supports second semester juniors and seniors. The academic emphasis is on transition readiness for graduate or professional school. Students learn about application and testing options and strategies, interviewing skills, budgeting, and career development.

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

UNIV 422 - Developing Your Professional Edge

Credits: 1
Not Repeatable
This course simulates a professional work environment and provides an opportunity to demonstrate desired workplace competencies. The academic emphasis includes: applying basic consultation skills to diagnose and propose innovative solutions to a problem, developing performance management documents; giving and receiving feedback, building workplace relationships, and creating a professional image.

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

UNIV 490 - Critical Decisions in Postgraduate Transitions
This course guides and supports students through the postgraduate fellowship application process and postgraduate decisions. Students create a resume, complete a fellowship application, prepare for a scholarship interview, and refine their educational and career goals.

Notes: Enrollment through the Office of Fellowships.

Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0

UNIV 491 - RS: Students as Scholars Individualized Scholarly Experience

Credits: 0-9
Repeatable within Degree
Students actively participate in the process of scholarship and make a significant contribution to the creation of scholarly, research, or creative project. Students meet regularly with their project mentor, make satisfactory progress towards the completion of the project, and create a disciplinary product for evaluation.

Designated as a research and scholarship intensive course.

Notes: Enrollment only with permission from OSCAR.

Hours of Lecture or Seminar per week: 0-9
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

UNIV 495 - RS: Undergraduate Research Scholars Program Seminar

Credits: 0-3
Not Repeatable
Students accepted into Undergraduate Research Scholars Program participate in a weekly seminar, hold regular meetings with their project mentor, and make satisfactory progress on their research or creative project. At the end of the semester, students either complete their project and present the results in a professional context, or apply for continuation through UNIV 496. See oscar.gmu.edu for more information and application.

Designated as a research and scholarship intensive course.

Notes: Enrollment only with acceptance into the URSP through OSCAR.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

UNIV 496 - RS: Undergraduate Research Scholars Program Continuation
Credits: 0
Repeatable within Degree
Students continuing their participation in the Undergraduate Research Scholars Program hold regular meetings with their project mentor and make satisfactory progress on their research or creative project. At the end of the semester, students either complete their project and present the results in a professional context, or apply for continuation. See oscar.gmu.edu for more information and application.

Designated as a research and scholarship intensive course.

Prerequisite(s): UNIV 495.

Notes: Enrollment only with acceptance into the URSP through OSCAR.

Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 9
When Offered: Fall, Spring

Urban and Suburban Studies (USST)

Offered by the School of Policy, Government, and International Affairs.

USST 301 - Urban Growth in a Shrinking World

Credits: 3
Not Repeatable

Examines process of urbanization historically and comparatively. For major world regions, attention is given to the political economy of urbanization and its impact on social and economic relations. Examines growing globalization of the world economy, implications for urban life, and urban political economy of the future.
Designated a Green Leaf Course.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

USST 390 - Special Topics in Urban and Suburban Studies

Credits: 3
Not Repeatable
Subject varies according to specialization of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

USST 401 - Seminar: The Future of Metropolitan America
Examines trends in the development of American metropolis, including impact of information economy and technological developments on metropolitan form and life, continuing outward growth and increasing decentralization of metropolitan areas, changing functional organization of urban space, and continued social segregation in metropolitan areas. Analyzes contemporary predictions about future of metropolitan life in America, and explores how alternative public policies can shape that future. Students work on research projects in metro area.

**Prerequisite(s):** 12 credits of USST-approved courses, including USST 301.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**USST 490 - Internship**

Credits: 3  
Not Repeatable  
Approved work-study programs that focus on urban and suburban issues with an approved agency or firm. Placement depends on student qualifications and availability of positions. Students work with onsite supervisor and coordinator of urban and suburban studies.

**Prerequisite(s):** Open only to students with 12 credits of USST; see USST coordinator

**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**Women and Gender Studies (WMST)**

Offered by the College of Humanities and Social Sciences

**WMST 100 - Representations of Women**

Credits: 3  
Not Repeatable  
Explores ways women are portrayed in advertising, television, film, photographs, cartoons, performance arts, literature, religious texts, and news media from various worldwide sources. Through interdisciplinary study students will evaluate the powerful effects these representations have on the political, economic, and social lives of women throughout the world.

Fulfills Mason Core requirement in global understanding.

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**WMST 200 - Introduction to Women and Gender Studies**
Credits: 3
Not Repeatable
Interdisciplinary introduction to women's studies, encompassing key concepts in the field, history of women's movements and women's studies in America, cross-cultural constructions of gender, and a thematic emphasis on the diversity of women's experience across class, race, and cultural lines.

Fulfills Mason Core requirement in social and behavioral science.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 300 - Current Issues in Women and Gender Studies

Credits: 1-6
Repeatable within Term
Study of selected topics central to contemporary women and gender studies. Topics vary but include subjects such as women and violence, women and international development, women's myth and ritual, LGBTQ topics, the history and politics of sexuality, psychoanalysis, and religion.

Notes: May be repeated for credit when topic is different.

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

WMST 301 - Sex and Gender in Contemporary Society

Credits: 3
Not Repeatable
Changing conceptions of sex roles, both female and male, in contemporary society. Using historical and comparative data, course considers the differential socialization of males and females in relation to the changing social structure in which it takes place.

Prerequisite(s): 60 credits, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 302 - Cultural Constructions of Sexualities

Credits: 3
Not Repeatable
Introductory survey of cultural, literary, and theoretical constructions of sexuality that seeks to complicate traditionally fixed categories of identity. Examination of various representatives of human sexuality, with particular attention to its intersections with gender, race, ethnicity, nationality, and class.

Equivalent to ENGH 418

Prerequisite(s): 6 credits of 200-level English courses.
WMST 303 - Psychology of Women

Credits: 3
Not Repeatable
Behavior and attitudes of women, influence of sex chromosomes and sex hormones on behavior, influence of culture on sex role differentiation, and theories of sex role development.

Prerequisite(s): PSYC 100, and BIOL 103 and 104; or permission of instructor.

WMST 304 - Women and Media

Credits: 3
Not Repeatable
Introduction to the concepts of the power and influence of the mass media. Allows students to see themselves as products of media influence and gives them a sense of women's roles as media professionals, as well as consumers.

Prerequisite(s): COMM 302 or permission of instructor.

WMST 306 - Topics in Communication and Gender

Credits: 3
Repeatable within Degree
Exploration of selected topics involving gender and communication. Topics may include women in media, women as rhetors, male/female communication, and communication and sex roles. Specific interests are examined in a seminar setting.

Prerequisite(s): 60 credits.

Notes: Course may be repeated with approval of department.

WMST 307 - Women and Work
Credits: 3
Not Repeatable
Historical and contemporary accounts of women's participation in paid and unpaid labor. Analyzes the nature of women's work through the divisions in the labor market due to gender, race, nationality, ethnicity, and class. Provides a detailed look at occupational sex segregation, sexual harassment, the glass ceiling, and the role of religion, culture, and education in determining women's opportunities and their value as workers and as family providers.

Prerequisite(s): 30 credits.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 308 - Introduction to Lesbian, Gay, Bisexual, Transgender, Transsexual, and Queer Studies

Credits: 3
Not Repeatable
Explores major events in lesbian, gay, bisexual, transgender, transsexual, and queer culture and history in the United States and throughout the world to understand how identities, experiences, and movements have been socially constructed and have changed in different times and places, often as a result of race, class, and gender inequities.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 309 - Black Social Movements: Gendering of Violence and Activism

Credits: 3
Not Repeatable
Examines racialized gendered conceptions of popular culture, violence, and the legal system and their role in structuring systems of segregation, discrimination and exclusion. Looks at the gendered strategies and conflicts of organizations that arose to combat racial violence and overturn legal and social barriers to equal opportunity and citizenship rights.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 310 - Women, Sex, and Psyche

Credits: 3
Not Repeatable
Explores the changing concepts of women's psychology, sexuality, and relationships in different social and cultural contexts. Demonstrates the ways women's "psychological self" has been the source of humor, malignment and curiosity throughout history. Discussion-based classroom explores the intersections of self, race, gender and relationship.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall
WMST 311 - The Erotic and the Sacred

Credits: 3
Not Repeatable
Explores the complex relationship between the body, sexuality and the spirit. Investigates sacred texts, novels, short stories, poetry and film that engage with a variety of cultural embodiments of sexualities and of the sacred, international in scope. Teaches students to formulate critical perspectives at the intersection of the erotic and sacred.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 312 - Gender, Trauma, and Recovery

Credits: 3
Not Repeatable
Explores the experience of emotional trauma, the process of recovery and the etiology of healing in contemporary North American culture. Investigates memoir, poetry, film, and novel as case studies of trauma and examines the effect of gender on traumatic experiences. Applies psychological and feminist theoretical perspectives.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 313 - Women Who Kill

Credits: 3
Not Repeatable
Questions the assumptions that women are nonviolent by nature and commit acts of violence only in response to abuse. Explores the complexity of human interactions through popular culture, literature and film and through theoretical works that attempt to explain female violence (compared to male violence) and as it is seen by others.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 314 - Stories of Gender and Human Rights

Credits: 3
Not Repeatable
Examines global human rights issues through memoir, poetry and fiction. Explores the ways women use literary expression to voice their dissent and to struggle against human rights violations.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
WMST 315 - Women During the Enslavement Era

Credits: 3
Not Repeatable
Examines the general experiences of enslaved women and nominally free women. Includes the lives of female reformers involved in the public arena as orators, writers, preachers, abolitionists and women's rights activists. Explores the effect of gender, class, and race on the development of ideologies concerning abolition, colonization, women's rights, and enslavement.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 316 - Gendered Pan-Africanism

Credits: 3
Not Repeatable
Gendered Pan-Africanism. Explores the writings and activism of African Americans who traveled to Africa in search of a shared cultural past and present or an opportunity to build pan-African allegiances. Examines these encounters within the context of the Cold War, US civil rights and African anti-colonial movements, and racial and gender ideologies of the time.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 330 - Theoretical Perspectives in Women and Gender Studies

Credits: 3
Not Repeatable
Examination of feminist and queer critiques and transformations of the theories, methods, and methodologies of the sciences and humanities.

Prerequisite(s): WMST 200, or permission of instructor.

Notes: Typically offered ONLY in the spring semester.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 390 - Study Abroad

Credits: 1-3
Not Repeatable
Study abroad under supervision of George Mason University faculty. Course topics, content and locations vary.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
WMST 400 - Internship in Women and Gender Studies

Credits: 1-3
Repeatable within Degree
Community- or campus-based service or experiential learning related to women's or gender issues. Independent course in which students develop, in consultation with a faculty member, individual contracts defining the learning and competencies they plan to gain from the experience. Includes a paper and/or portfolio component.

Prerequisite(s): Completion of 60 credits, including WMST 200, or permission of instructor.

Notes: May be repeated for credit, up to 6 credits.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

WMST 401 - Experiential Learning in Women and Gender Studies

Credits: 1-3
Repeatable within Degree
Community- or campus-based service or experiential learning as it relates to a specific WMST course, taken at the same time. Students develop, in consultation with faculty member, individual contracts defining learning and competencies they plan to gain from the experience.

Prerequisite(s): Concurrent enrollment in women and gender studies course and approval of advisor and instructor.

Notes: May be repeated for credit up to total 6 credits, but only 3 credits of WMST 400 or 401 may be applied toward the women and gender studies interdisciplinary minor.

Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

WMST 402 - Queer Theory

Credits: 3
Not Repeatable
Challenges rigid categories and definitions in order to create a space for marginalized voices. Examines the inconsistencies and erasures that often characterize notions of sex, gender, sexuality, and sexual desire. Explores categories that intersect with sexualized identities such as race, ethnicity, class, nationality, location, and age.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 410 - Feminist Approaches to Social Research

Credits: 3
Not Repeatable
Introduction to feminist approaches to social research for advanced undergraduate students. Students learn the techniques for collecting, analyzing, and writing-up research data as they examine many of the central methodological issues and questions raised by feminist scholars undertaking social research. Because an understanding of how to conduct social research is best gained through experience in the social world, this course emphasizes a learning-by-doing approach.

Prerequisite(s): 60 credits, including 9 credits of WMST course work, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 411 - RS: Feminist Research Practice

Credits: 3
Not Repeatable
Undertake a semester-long research project investigating an issue of importance to feminist scholarship utilizing a variety of methods typically used by feminist scholars, including quantitative, qualitative, historical, or textual. Enhance understanding of techniques for collecting, analyzing, and writing up empirical material as well as critical engagement with ethical, interpretive, and representational considerations relating to feminist research.

Designated as a research and scholarship intensive course.

Prerequisite(s): WMST 410 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 427 - Feminist Political Thought

Credits: 3
Not Repeatable
Explores feminist political thought in historical context. Topics include feminist political movements, feminist critiques of political philosophy, and feminist contributions to political theory.

Prerequisite(s): GOVT 101, WMST 200, 3 credits of philosophy, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 450 - Current Topics in Women and Gender Studies

Credits: 1-3
Repeatable within degree
Studies selected topics central to contemporary women and gender studies. Includes topics such as women and violence, women and international development, women's myth and ritual, LGBTQ topics, the history and politics of sexuality, disability, transnational issues and religion.

Prerequisite(s): 60 credits or permission of instructor.
WMST 490 - Independent Study in Women and Gender Studies

Credits: 1-3
Repeatable within Degree
Reading or research on a specific topic related to women and/or gender issues, under the direction of a faculty member. May involve a combination of reading assignments, tutorials, papers, presentations, or off-campus activities.

Prerequisite(s): 9 WMST credits including WMST 200, or permission of instructor.

Notes: May be repeated for credit up to a total of 6 credits.

WMST 550 - Current Topics in Women and Gender Studies

Credits: 1-3
Repeatable within degree
Studies selected topics central to contemporary women and gender studies. Includes topics such as women and violence, women and international development, women's myth and ritual, LGBTQ topics, the history and politics of sexuality, disability, disability, transnational issues and religion.

WMST 600 - Special Topics

Credits: 3
Repeatable within Term
Study of selected topics central to contemporary women and gender studies. Topics vary but include representation and images, violence, public policy, international development, transmigration of labor, myth and ritual, history and politics of sexuality, psychoanalysis, and religion.

Notes: May be repeated for credit when topic is different.

WMST 610 - Feminist Approaches to Social Research
Provides an introduction to feminist approaches to social research. Students collect, analyze, and write-up research data as they examine many of the central methodological issues and questions raised by feminist scholars. These include feminist critiques of positivism, feminist standpoint theory, social action research models, and feminist engagements with ethical concerns in doing research with human subjects. Emphasizes a learning-by-doing approach to prepare students to conduct research.

Prerequisite(s): Graduate standing and 3 credits of 600-level WMST course work, or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 611 - Feminist Research Practice

Credits: 3
Not Repeatable
Undertake a semester-long research project investigating an issue of importance to feminist scholarship utilizing a variety of methods typically used by feminist scholars, including quantitative, qualitative, historical, or textual. Enhance understanding of techniques for collecting, analyzing, and writing up empirical material as well as critical engagement with ethical, interpretive, and representational considerations relating to feminist research.

Prerequisite(s): WMST 610 or permission of instructor.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 630 - Feminist Theories across the Disciplines

Credits: 3
Not Repeatable
Multidisciplinary course examines the central issues of feminist theory and explores the various strategies of feminist theorists. Analyzes the ways in which feminist theories have challenged established disciplinary boundaries and contested the traditional assumptions of the humanities, the social sciences, and the sciences.

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 640 - Women and Global Issues

Credits: 3
Not Repeatable
Multidisciplinary course explores the complex issues women face in different regions of the world. Addresses women's diverse and shared global concerns and provides students with the tools to analyze and understand women in a global context.

Prerequisite(s): Graduate standing.
WMST 690 - Directed Readings and Research in Women and Gender Studies

Credits: 3
Repeatable within Term
Advanced individualized study of gender through readings, discussion, research, and/or projects under the direction and supervision of a member of the women's studies faculty.

Prerequisite(s): Admission to graduate program in woman's studies and permission of director.

Notes: May be repeated for a maximum of 9 credits.

WMST 695 - Internship

Credits: 3
Not Repeatable
Community or campus-based service or experiential learning related to women's or gender issues. Students develop, in consultation with a faculty member, individual contracts defining the learning and competencies they plan to gain from the experience.

Prerequisite(s): Completion of 15 graduate credits in Interdisciplinary Studies, including 9 credits in Women and Gender Studies or permission of instructor.

WMST 699 - Capstone Portfolio

Credits: 0
Not Repeatable
Prior to graduation and in consultation with their advisor, students will reflect on and synthesize their work in the women and gender studies certificate program by selecting three items taken from their work in the program and discussing these items in a 7-10 page essay. Work selected may include course papers, videos of their performances, exhibit photos, music recordings, and other items as agreed upon by student and advisor.

Prerequisite(s): Students must have completed their course work for women and gender studies certificate or be in the last semester of their course work.

Grading: Satisfactory/No credit only
