Content varies: diachronic or synchronic study of the French language or one of its aspects; sociolinguistics; language teaching methodology; etc.

**Prerequisite(s):** 15 credits of French at the 300 level or permission of instructor.  
**Notes:** May be repeated for a maximum of 6 credits when topic is different.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**FREN 467 - Special Topics related to French and Francophone Literature and Culture**

Credits: 3  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
Analyzes selected texts, authors, movements, and issues within comparative historical and cultural contexts as related to France and to various francophone regions of the world or with an interdisciplinary approach.

**Prerequisite(s):** 15 credits of French at the 300 level or permission of instructor.  
**Notes:** May be repeated for a maximum of 6 credits when topic is different.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**FREN 470 - French and Francophone Cinema**

Credits: 3  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
Analyzes topics such as the early days of French cinema, la nouvelle vague, women film directors, Quebecois, African and Caribbean films, selected by type, period or director.

**Prerequisite(s):** 15 credits of French at the 300 level or permission of instructor.  
**Notes:** May be repeated once with permission of department or film studies advisor.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
FREN 475 - Grammatical Analysis

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Study of characteristic features of contemporary French. Examines spoken and written French, including syntactic analysis, distributional analysis, and generative-transformational grammar. Emphasis on problem areas for American learner.

Prerequisite(s): 15 credits of French at the 300 level or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

FREN 490 - Independent Study

Credits: 1-3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Research and analysis of selected problem in literature or linguistics in consultation with department member.

Prerequisite(s): French majors with 90 credits, and permission of chair.
Notes: Only 6 credits of independent study may be applied to fulfilling requirements in concentration.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

FREN 491 - Independent Study

Credits: 1-3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Research and analysis of selected problem in literature or linguistics in consultation with department member.

Prerequisite(s): French majors with 90 credits, and permission of chair.
Notes: Only 6 credits of independent study may be applied to fulfilling requirements in concentration.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-5
Hours of Lab or Studio per week: 0

FREN 497 - Senior Honors Tutorial
Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Students who meet these requirements admitted to candidacy after submitting letter of application to departmental Honors Committee in second half of junior year. Also requires faculty recommendation and interview by Honors Committee. First semester involves weekly meetings with faculty member to discuss readings from comprehensive list prepared by French faculty. Second semester requires independent research and completion of honors essay under supervision of French faculty member.

Prerequisite(s): French majors with 90 credits, cumulative GPA of 3.00, and 3.00 in major field.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

FREN 498 - Senior Honors Tutorial

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Students who meet these requirements admitted to candidacy after submitting letter of application to departmental Honors Committee in second half of junior year. Also requires faculty recommendation and interview by Honors Committee. First semester involves weekly meetings with faculty member to discuss readings from comprehensive list prepared by French faculty. Second semester requires independent research and completion of honors essay under supervision of French faculty member.

Prerequisite(s): French majors with 90 credits, cumulative GPA of 3.00, and 3.00 in major field.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

FREN 500 - Study Abroad in France or Francophone Region

Credits: 1-6
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
2 to 4-week programs in France or the Francophone world with language, culture and literature courses, local visits and excursions. Advanced critical research and writing required.

Notes: May be repeated for a maximum of 6 credits.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

FREN 515 - Topics in Medieval French Literature and Culture

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Analyzes a selection of important literary texts (chanson, novel, poetry, short story) and authors in their historical and cultural contexts: geste, feudalism, socio-political and religious (in)stability. Advanced critical research and writing required.

**Notes:** Course work in French. May be repeated for a maximum of 6 credits when topic is different.

**Schedule Type:** LEC
- **Hours of Lecture or Seminar per week:** 3
- **Hours of Lab or Studio per week:** 0

### FREN 516 - Topics in Renaissance French Literature and Culture

Credits: 3
Repeatable within Term for Credit
Offered by Modern and Classical Languages.
Analyzes a selection of important literary texts (novel, short story, poetry, and theater) and authors in their historical and cultural contexts: humanism, reformation, and codification of language and birth of nation-state. Advanced critical research and writing required.

**Notes:** May be repeated for a maximum of 6 credits when topic is different.

**Schedule Type:** LEC
- **Hours of Lecture or Seminar per week:** 3
- **Hours of Lab or Studio per week:** 0

### FREN 517 - Topics in Seventeenth-Century French Literature and Culture

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Analyzes a selection of important literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts: enlightenment, social, political and philosophical trends and issues, pre-romanticism. Advanced critical research and writing required.

**Notes:** Content varies. May be repeated once for credit. Course work in French.

**Schedule Type:** LEC
- **Hours of Lecture or Seminar per week:** 3
- **Hours of Lab or Studio per week:** 0

### FREN 518 - Topics in Eighteenth-Century French Literature and Culture

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Analyzes a selection of important literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts: enlightenment, social, political and philosophical trends and issues, pre-romanticism. Advanced critical
research and writing required.

Notes: Content varies. Course work in French. May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

FREN 519 - Topics in Nineteenth-Century French Literature and Culture

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Analyzes a selection of important literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts: pre-Romanticism; Romanticism; Realism; Symbolism; Naturalism. Advanced critical research and writing required.

Notes: Content varies. Course work in French. May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

FREN 520 - Topics in Twentieth and Twenty-First-Century French Literature and Culture

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Analyzes a selection of important literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts: surrealists, existentialists, new novelists, feminists, etc. Advanced critical research and writing required.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

FREN 550 - Special Topics

Credits: 3
Repeatable within Term for Credit
Offered by Modern and Classical Languages.
Specialized topics relating to French culture and literature.

Notes: Content varies. May be repeated once for credit. Course work in French.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

FREN 551 - Topics in Francophone Sub-Saharan Literature and Culture

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Analyze a selection of important literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts: Négritude, (post)colonialism, new African voices within and beyond the continent. Advanced critical research and writing required.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

FREN 553 - Topics in North African Francophone Literature and Culture

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Analyze a selection of literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts with a focus on the construction of identity: Maghreb in pre and (post)colonial era, recent ideological trends in writing. Advanced critical research and writing required.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

FREN 554 - Topics in Francophone Caribbean Literature and Culture

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Analyze a selection of important literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts: the construction of identity through and beyond Négritude, Antillanité, Créolité, and migration. Advanced critical research and writing required.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
FREN 555 - Special Topics related to Francophone Literature and Culture

Credits: 3  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
Analyzes a selection of important literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts: gender studies, migration and identity-building, ethno-social tensions, political strife, religious conflicts throughout the francophone world. Advanced critical research and writing required.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

FREN 557 - Topics in Quebec and French-Canadian Literature and Culture

Credits: 3  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
Analyzes representative literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts. Emphasizes contemporary works. Advanced critical research and writing required.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

FREN 561 - Linguistic Structure of Modern French

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Analyzes phonology, morphology, and syntax of modern standard French, through a close study of selected texts (newspaper articles, short stories, novel excerpts, informal correspondence). Advanced critical research and writing required.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

FREN 562 - Stylistics
Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Describes and analyzes the variability of forms and styles and the more complex aspects of the French language. Develops writing skills through readings, discussions, and compositions. Advanced critical research and writing.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

FREN 563 - History of the French Language

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Analyzes a selection of literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts with a focus on the construction of identity: Maghreb in pre and (post)colonial era, recent ideological trends in writing. Advanced critical research and writing required.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

FREN 564 - Advanced Translation

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Analyzes theories and methods of translation, with a focus on translation practice (French to English and English to French) of a varied selection of texts (periodicals, short stories, novel excerpts, newspaper articles, etc.) Advanced critical research and writing required.

Notes: Translations from French to English and English to French.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

FREN 565 - Special Topics Related to the French Language

Credits: 3
Repeatable within Term for Credit
Offered by Modern and Classical Languages.
Content varies: diachronic or synchronic study of the French language or one of its aspects; sociolinguistics; language teaching methodology; etc. Advanced critical research and writing required.

Notes: May be repeated for a maximum of 6 credits when topic is different.
FREN 567 - Special Topics related to French and Francophone Literature and Culture

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Explores issues related to the francophone world. Emphasis on comparative issues, not geographical areas.

Prerequisite(s): 15 credits of French at the 300 level or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

FREN 570 - French and Francophone Cinema

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Topics such as early days of French cinema, a nouvelle vague, women film directors, Quebecois, African and Caribbean films, selected by type, period or director. Advanced critical research and writing required. Viewing of films outside of class time.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

FREN 575 - Grammatical Analysis

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Analyzes selected texts, authors, movements, and issues within comparative historical and cultural contexts as related to France and to various francophone regions of the world or with an interdisciplinary approach. Advanced critical research and writing required.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
FREN 798 - Directed Reading and Thesis Research

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Reading and research for thesis under direction of a faculty member.

Notes: Open to degree students who desire to work on independent study with a faculty mentor or who have completed at least 24 credits and have been approved by the French Graduate Faculty to conduct research for a M.A. thesis. See Modern Classical Languages Graduate Student Handbook for complete explanation of the thesis option.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

FREN 799 - Thesis

Credits: 1-6
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Research on approved thesis topic under direction of thesis committee.

Prerequisite(s): FREN 798 and approval of director.
Notes: Students must register for a minimum of 3 credits in the first semester of 799 and maintain continuous enrollment in 799 while writing and submitting the thesis.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: S/NC

Geography and Geoinformation Science (GGS)

Offered by the College of Science

Graduate standing is prerequisite to all 600-level courses.

GGS 101 - Major World Regions

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Patterns, problems, and prospects of the world's principal human-geographic regions. Emphasizes areal differentiation and role of geographic differences in interpreting current world scene.

Fulfills Mason Core requirement in global understanding.
Notes: Fulfills the college-level requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 102 - Physical Geography

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science

Interrelated processes affecting global distribution and character of climate, soils, vegetation, hydrology, and landforms. Includes elements of mapping.
Designated a Green Leaf Course.

Fulfills Mason Core requirement in natural science (nonlab).

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 103 - Human Geography

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science

Overview of major ideas and approaches to studying spatial aspects of human social and behavioral systems. Surveys distribution and movement of human populations, characteristics and distribution of cultural mosaics, patterns of economic interdependence, and study of forces of cooperation and conflict among people from global perspective.
Designated a Green Leaf Course.

Fulfills Mason Core requirement in social and behavioral science.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 110 - Introduction to Geoinformation Technologies

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
This course introduces students to basic geoinformation technology concepts and applications. Students learn about and apply spatial data collection analytic tools and methods, including geographic information systems, and web-based map developments. Lectures examine social trends, ethical issues including privacy state of the art technological research and developments of geoinformation technologies in industry, government, education, and everyday life.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**GGS 121 - Dynamic Atmosphere and Hydrosphere**

Credits: 4  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science

Systematic study of weather, climate, energy, and hydrologic systems viewed from a geospatial and global perspective. Studies the spatial distribution and relationships of the Earth's climate and hydrologic systems to other Earth systems, as well as the processes driving and changing them, including energy, climate, weather, and water resources. Designated a Green Leaf Course.

Fulfills Mason Core requirement in natural science (lab).

**Schedule Type:** LAB, LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 3

---

**GGS 122 - Dynamic Geosphere and Ecosphere**

Credits: 4  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science

Systematic study of biogeography and soils, viewed from a geographic, or spatial, perspective. We will study the spatial distribution and relationships of Earth's biomes and soils systems to other Earth systems, and the processes driving them, including energy, climate, nutrients, chemistry, and moisture. Designated a Green Leaf Course.

**Schedule Type:** LAB, LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 3

---

**GGS 300 - Quantitative Methods for Geographical Analysis**
Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Comprehensive introduction to quantitative methods in spatial analysis, with emphasis on solving geographical research problems. Topics include nature of spatial data; collection of spatial data; preparation of spatial data for mapping, geographic information systems, and statistical analysis; descriptive spatial statistics; areal sampling theory and methods; probability theory and distributions; hypothesis testing; correlation and regression; and areal and point pattern spatial statistics.

Prerequisite(s): 30 credits, including GGS 102 and 103, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GGS 301 - Political Geography

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Distribution and effects of power on landscape, particularly on national and global scales.

Prerequisite(s): 30 credits  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GGS 302 - Global Environmental Hazards

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Introduces applications of observational and modeling techniques to natural hazards and the threat they pose to the world, as well as a general introduction to global climate change and its effect on regional and local scales. Examples include topics of interest to different countries and regions of the world, such as earthquakes, sand and dust storms, slope failures, volcanoes, land slides, droughts and desertification, floods, hurricanes and typhoons, severe weather, wild fires (U.S., Indonesia, Africa, S. America), sea-level rise, and tsunamis. Covers Earth system science topics related to the above hazards and their coupling with anthropogenic hazards as well as how societies respond to natural disasters and mitigation. Designated a Green Leaf Course.

Prerequisite(s): 30 hours and undergraduate status  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GGS 303 - Geography of Resource Conservation
Provides analysis of world resources distribution, conservation, and preservation; and problems resulting from their natural occurrence and utilization. Uses knowledge from physical and social sciences to develop complex and sophisticated understanding of issues surrounding natural resource exploitation and management, conservation, and preservation. Designated a Green Leaf Course.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** 30 credits, and completion or concurrent enrollment in all other required Mason Core courses

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

### GGS 304 - Population Geography

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science

Spatial distribution of population, its causes and effects, and changing patterns resulting from population mobility. Emphasizes spatial characteristics of variables such as age, sex, race, education, and income. Designated a Green Leaf Course.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** 30 credits and completion of or concurrent enrollment in all Mason Core requirements

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

### GGS 305 - Economic Geography

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science

Analyzes pattern of distribution of world economic activity, spatial economics behind this pattern, and influence of distribution on other spatial systems.

**Prerequisite(s):** 30 credits

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0
GGS 306 - Urban Geography

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Structure and internal differentiation of cities. Variety of perspectives on nature of cities, and opportunities for intensive use of space. Urban problems and alternatives in their spatial context.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GGS 307 - Sustainable Development

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Explores the concepts, applications, and tools for analysis and decision making in support of environmentally sustainable development. Case studies and problem-solving exercises will be used to stimulate learning and provide practical experience in addressing sustainable development issues.  
Designated a Green Leaf Course.

Prerequisite(s): 60 hours; GGS 122 and GGS 302, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GGS 308 - Field Mapping Techniques

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Basic techniques for collecting and recording spatial field data, including topographic maps, compass, transit, alidade, and geographic positioning systems. Includes field work.

Prerequisite(s): MATH 105, GGS 102 or GEOL 101, and 30 credits.  
Schedule Type: LAB  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 6

GGS 309 - Meteorology and Climate

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science
Elements of meteorology; analysis of world distribution of meteorological controls as bases of regional climatic variations.

Prerequisite(s): GGS 102, 121, or equivalent; permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**GGS 310 - Introduction to Digital Cartography**

Credits: 4
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Origins, principles, and methods of thematic map design and production. Principles of graphic design, data compilation, analysis, and display.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

**GGS 311 - Introduction to Geographic Information Systems**

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Fundamental concepts and theories for appropriate use of geographic information systems (GIS). Discusses basic GIS functionality and applications in various fields.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**GGS 312 - Physical Climatology**

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science

Quantitative description of nature and theory of the climate system, dynamics of atmosphere-ocean-land surface, internal interactions and response to external forcing, description of the climate record and simple climate models. Designated a Green Leaf Course.

Equivalent to CLIM 312.

Prerequisite(s): 30 hours; and GGS 121, MATH 113, PHYS 243-244, or permission of instructor
Schedule Type: LEC
**GGS 314 - Severe and Extreme Weather**

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science

Behavior of weather events ranging from small scale (e.g., thunderstorms and tornadoes) to mesoscale (e.g., fronts and hurricanes). Introduces the dynamical and physical processes, atmospheric boundary layer processes, and coupling between different spatial scales that create and shape severe and localized weather events.  
Designated a Green Leaf Course.

Equivalent to CLIM 314.

**Prerequisite(s):** MATH 113 or equivalent; CLIM/PHYS 111/112 or EOS 121 or GGS 121.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

---

**GGS 315 - Geography of the United States**

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Diversity of US physical and cultural landscapes.

**Prerequisite(s):** 6 credits of geography or American studies, or permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**GGS 316 - Geography of Latin America**

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Regional survey of physical resources, populations, cultural characteristics, and economic activities in Latin America.

**Prerequisite(s):** 6 credits of geography or Latin American studies, or permission of instructor.  
**Notes:** Fulfills the college-level requirement in non-Western culture.  
**Schedule Type:** LEC
GGS 319 - Air Pollution

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science

Description of major types of air pollution and introduction to how their characteristics are influenced by interaction with the atmosphere. Topics include sources and distribution of pollution from local to global scales, effects of radiation and wind on pollution, modeling of plume dispersion and pollution effects on climate.
Designated a Green Leaf Course.

Prerequisite(s): CLIM 111 or GGS 121.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

GGS 320 - Geography of Europe

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Environmental, economic, social, and political factors influencing regional structure of Europe.

Prerequisite(s): 6 credits of geography or European studies, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 321 - Biogeography

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
A survey of the relationship between distribution of plants and animals on the earth surface and the physical geography and environmental characteristics.

Equivalent to BIOL 374.

Prerequisite(s): GGS 122 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
GGS 322 - Issues in Global Change

Credits: 3
Repeatable within Degree for Credit
Offered by Geography and Geoinformation Science

Provides the basis for evaluating existing and emerging issues in the environmental sciences at the regional and global scale, using interdisciplinary scientific principles. Combines activities designed to provide an understanding of the following: first principles underlying regional/global issues in the environmental sciences, with attention to links among the disciplines of atmospheric sciences, biology, ecology, hydrology, oceanography, geology, human health, toxicology, and mathematical modeling; concepts of systems control, feedbacks, modeling, and hierarchical scales (spatial and temporal); role of retrospective analyses in developing a scientifically sound basis for evaluation and analysis; and studies of specific issues of interest on a regional to global scale
Designated a Green Leaf Course.

Prerequisite(s): GGS 121, GGS 122, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 325 - Geography of North Africa and the Middle East

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science

Environmental, economic, and social factors of differentiation of regional structure and distribution of resources in North African and Middle Eastern countries.

Prerequisite(s): 6 credits of geography or courses related to Middle East; or permission of instructor.
Notes: Fulfills the college-level requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 330 - Geography of the Soviet Succession States

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science

Analyzes geographic factors involved in history, economic development, and geopolitical situation of the former Soviet Union.

Prerequisite(s): 6 credits of geography or Russian studies, or permission of instructor.
Notes: Fulfills the college-level requirement in non-Western culture.

Schedule Type: LEC
GGS 333 - Issues in Regional Geography

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Geographical study of particular region or relevant regional issue.

Prerequisite(s): 30 credits.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

GGS 340 - Health Geography

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Spatial approaches to the study of health and disease. Topics include disease ecology and diffusion, and geographic perspectives on improving health care delivery.

Prerequisite(s): Course in statistics.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

GGS 354 - Data Analysis and Global Change Detection Techniques

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Introduces basic time series methods, especially those used in detecting trends and randomness in time series data. Various data related to global changes on different temporal and spatial scales will be identified, and the relevant analysis methods will be used to those data so that students can detect or confirm changing trends or lack of them in data. Other topics such as data formats, data visualization, and data mining may also be included based on the background of the student body.

Prerequisite(s): IT 103 STAT 250 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 357 - Structures in Urban Governance and Planning
GGS 380 - Geography of Virginia

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Reviews spatial, policy, and administration principles that guide planning activity in United States. Outlines differences between theory and practice; and provides tools, methods, and perspectives commonly incorporated into practice of urban and regional policy analysis. Provides orientation to public-sector economy in general; and urban administration, planning, and policy in particular.

Prerequisite(s): 30 credits.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GGS 384 - Special Topics in Geospatial Intelligence

Credits: 3  
Repeatable within Term for Credit  
Offered by Geography and Geoinformation Science  
Selected topics concerning human activity on earth derived from the exploitation and analysis of imagery and geospatial information that describes, assesses, and visually depicts physical features and geographically referenced activities on the Earth.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GGS 398 - Selected Topics in Global Change

Credits: 3  
Repeatable within Term for Credit  
Offered by Geography and Geoinformation Science  
Covers selected topics in global change not covered in fixed-content global change courses.

Prerequisite(s): 30 credits or permission of instructor.  
Notes: Content varies and is determined by instructor. May be repeated.
GGS 399 - Select Topics in GGS

Credits: 3
Repeatable within Term for Credit
Offered by Geography and Geoinformation Science
Content varies; determined by instructor.

Prerequisite(s): 30 credits.
Notes: May be repeated for maximum of 12 credits.
Fulfills the college-level requirement in non-Western culture.

GGS 410 - Introduction to Hyperspectral Imaging

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Provides an introduction to quantitative measurements by remote-sensing methods covering an introduction to quantitative spectroscopy, spectral and thermal signatures, atmospheric physics, and the electromagnetic spectrum. Emphasis will be on the scientific principles involved and the transition of the technology to real-world applications. The requisite materials to begin to understand hyperspectral imaging (HSI) technology and its many civil and military applications are presented. The course covers the needed mathematics used in the analysis of n-dimensional data. Topics such as hyperspectral concepts, data collection systems, data processing techniques, case studies, and U.S. national policy issues will be covered. The data processing techniques will include N-dimensional space, scatterplots, spectral angle mapping, spectral mixture analysis, spectral matching, and other techniques. Applications and case studies will include environmental, medical, agricultural, military, and others. Ground, airborne, and spaceborne hyperspectral systems will be covered.

Prerequisite(s): PHYS 243-244, 245-246, MATH 113-114, GGS 353 GGS 416, or permission of instructor.

GGS 411 - Advanced Digital Cartography

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Design and production of full-color digital maps and information graphics, map cognition and use, and principles of desktop mapping.
Prerequisite(s): GGS 311.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 412 - Air Photography Interpretation

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Methods and techniques of interpreting and using information contained in aerial photography, including applications to various aspects of physical and cultural landscape.

Prerequisite(s): 60 credits and GGS 102 or 103, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 415 - Seminar in Geography

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Students produce, present original research papers.

Fulfills writing intensive requirement in the major.

Prerequisite(s): GGS 300 and 310.
Notes: Capstone seminar for geography majors integrating previous course work into disciplinary framework.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

GGS 416 - Satellite Image Analysis

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Examines methods and techniques of interpreting and using information obtained by non-photographic remote sensing systems, with particular emphasis on space-borne platforms. Includes analysis of imagery for both physical and cultural environments.

Prerequisite(s): 60 credits and GGS 412, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 455 - Environmental Impact Assessment

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science

Evaluates current methods and practices for conducting and planning environmental assessments to include techniques and requirements for assessing impacts on air, water, natural resources, transportation, water facilities, and industrial and community development.
Designated a Green Leaf Course.
Prerequisite(s): GGS 122, GGS 302, or EVPP 377 or 6 hours of courses in ecology and environmental sciences or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 456 - Introduction to Atmospheric Radiation

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science

The content of this course is designed to help students learn about the fundamental aspects of atmospheric radiation. The goal is to understand their essential roles in advanced remote sensing, atmospheric sciences and global and environmental change. It will provide a foundation for and will be beneficial to students in taking advanced courses in those areas.
Prerequisite(s): GGS 353/GGS 309 and a course in physics, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

GGS 463 - Applied Geographic Information Systems

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science

Selected applications in geographic information systems (GIS). Topics include automated data capturing and processing, spatial data models and structure including object-oriented approach, advanced spatial analytical techniques including raster modeling and network analysis, programming, and algorithm development in GIS. Major purpose of course is to extend fundamental theories and concepts in GIS so students are able to conduct research with and on GIS.
Prerequisite(s): Grade of C or better in GGS 300 and GGS 311.
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**GGS 470 - Special Topics in Geographic Techniques**

Credits: 3  
Repeatable within Term for Credit  
Offered by Geography and Geoinformation Science  
Content varies in the subject of Geographic Techniques.

**Prerequisite(s):** GGS 110.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**GGS 480 - GGS Internship**

Credits: 1-3  
Repeatable within Degree for Credit  
Offered by Geography and Geoinformation Science  
Approved study programs with specific employers.

Equivalent to GEOG 480

**Prerequisite(s):** Open only to authorized GGS majors with 90 credits and GPA of 2.50 or higher in GGS courses. Permission of instructor required.  
**Notes:** Credit determined by department, may be repeated to a maximum of 6 credits. Contact department one semester before enrollment.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0

---

**GGS 490 - Practicum in Geographical Applications**

Credits: 1-3  
Repeatable within Degree for Credit  
Offered by Geography and Geoinformation Science  
Application of geographical research tools and techniques in conjunction with faculty instruction and research. Individualized sections taught by arrangement with full-time faculty.

**Prerequisite(s):** Open only to authorized geography majors with 90 credits. Permission of department and instructor required.  
**Notes:** May be repeated to a total of 6 credits.
**GGS 495 - GGS Senior Research Project**

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Applications of research tools and techniques on specific GGS topics, in conjunction with faculty instruction and research. Individualized sections taught by arrangement with full-time faculty.  

Prerequisite(s): 90 credit hours authorized major with permission of department and instructor.

**GGS 499 - GGS Independent Study**

Credits: 1-3  
Repeatable within Degree for Credit  
Offered by Geography and Geoinformation Science  
Individual study of selected area of geography.  

Prerequisite(s): Open only to geography majors with 90 credits and GPA of 2.50 or higher. Permission of department and instructor required.  
Notes: Requires directed research paper. May be repeated to a maximum of 6 credits with permission of the department.

**GGS 501 - Geography and Geoinformation Science Distance Education Orientation**

Credits: 1  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Describes study structure and basic expectations (in terms of time commitment, expectations, technical issues and communication) for distance education courses in the Geography and Geoinformation Science department.  

Notes: The course is self-paced, enabling students to proceed at their own speed.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0  
Grading: Satisfactory/No Credit  
When Offered: Fall, Summer, Spring
**GGS 505 - Transportation Geography**

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Structure, principles, location, and development of world transportation. Critical role of transportation in moving people, goods, and ideas at international, national, regional, and urban levels.

Prerequisite(s): 6 credits of geography.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GGS 507 - Sustainable Development**

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science.  
Sustainability lies at the intersection of the environment, society and economics. This course explores the concepts, applications, and tools for analysis and decision making in support of environmentally sustainable, socially responsible and economically prosperous development. Case studies and problem-solving exercises will stimulate learning and provide practical experience in addressing sustainable development issues.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
When Offered: Spring

**GGS 520 - Geography for Teachers**

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Emphasizes problems and techniques in teaching geography; and current developments in research, methodology, and philosophy in the discipline.

Prerequisite(s): Graduate standing, or permission of department.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GGS 524 - Introduction to Environmental and Resource Economics**

Credits: 3  
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Introduces theory of external costs and benefits, public goods, natural resource management, and benefit and cost analysis for noneconomists. Lecture-discussion format with student presentations and participation. Analytical problem set, short writing assignments, and exams.

Equivalent to EVPP 524.

**Prerequisite(s):** Basic algebra skills.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring

---

**GGS 525 - Economics of Human/Environment Interactions**

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science

Advanced topics in environmental, natural resource, and ecological economics for noneconomist. Emphasizes sustainability, intergenerational equity, and economic-ecological feedbacks.
Designated a Green Leaf Course.

Equivalent to ECON 895/EVPP 525.

**Prerequisite(s):** EVPP 524/GGS 524 or equivalent.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring

---

**GGS 531 - Land-Use Modeling Techniques and Applications**

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science

Survey of literature on spatially explicit empirical models of land-use change. Hands-on experience developing and running simple models. Techniques covered include statistical models, mathematical programming models, cellular automata, agent-based models, and integrated models.

Equivalent to EVPP 531.

**Prerequisite(s):** GGS 550, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0
GGS 533 - Issues in Regional Geography

Credits: 1-6
Repeatable within Term for Credit
Offered by Geography and Geoinformation Science
Geographical study of particular region or relevant regional issue.

Notes: Content varies. May be repeated to a total of 12 credits with permission of the department.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

GGS 540 - Health Geography

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Spatial approaches to study of health and disease. Topics include disease ecology and diffusion, and geographic perspectives on improving health care delivery.

Equivalent to GEOG 540

Prerequisite(s): Course in statistics.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 550 - Geospatial Science Fundamentals

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Introduces geospatial sciences, emphasizing concepts and theories of cartography, remote sensing, air photo interpretation, Global Positioning Systems, spatial data structures, and geographic information systems. Lectures accompanied by hands-on exercises.

Notes: Only available for students without previous course work in cartography.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 551 - Thematic Cartography
GGS 553 - Geographic Information System

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Sources of digital geospatial data; and methods of input, storage, display, and processing of spatial data for geographic analysis using GIS. Lectures, hands-on exercises familiarize students with current technology.

Prerequisite(s): GGS 550 or course in cartography.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 554 - History of Cartography

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
History of cartographic portrayal of Earth from ancient times through 19th century, emphasizing interrelation of human culture, technological development, and geographical knowledge as reflected in maps.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 560 - Quantitative Methods

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Survey of quantitative methods commonly used in geographic research. Emphasizes spatial analysis techniques.

Prerequisite(s): Previous course work in statistics, GGS 310 or 550.
Schedule Type: LEC
GGS 562 - Photogrammetry

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Treatment of photogrammetric problems, including least squares adjustments, image coordination refinements, collinearity equation, resection, relative orientation, and analytic aerotriangulation.

Prerequisite(s): GGS 412, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 563 - Advanced Geographic Information Systems

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Discusses advanced GIS concepts including spatial data structure, spatial analysis, programming data fusion, Internet components, and spatial database management. Hands-on activities demonstrate concepts and specific applications in both cultural and physical geography.

Prerequisite(s): GGS 553 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 579 - Remote Sensing

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Examines use of various types and combinations of electromagnetic energy to obtain spatial information. Concentrates on nonphotographic and spaceborne remote sensing platforms and sensors. Examines essential operational parameters for existing and future systems and strategies for visual extraction of features.

Prerequisite(s): GGS 412 or GGS 550, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 581 - World Food and Population
Topics include maldistribution of population, regional disparities in growth rates and income distribution, food production, and world hunger. Discusses population policies, with emphasis on Third World countries.

**Prerequisite(s):** Graduate standing.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

### GGS 590 - Selected Topics in Geography

Credits: 1-3  
Repeatable within Term for Credit  
Offered by Geography and Geoinformation Science  
Analyzes topics of immediate interest.

**Notes:** Content varies. May be repeated to a maximum of 12 credits.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 1-6

---

### GGS 605 - Socioeconomic Applications of GIS

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Provides those working with spatially referenced data the technical skills to use GIS to conduct spatial analyses on socioeconomic phenomena related to labor, retail, and real estate markets. Introduces and emphasizes the development of technical and methodological skills to understand the potential and the pitfalls of using GIS for spatial analyses of socioeconomic phenomena.

Equivalent to GEOG 605

**Prerequisite(s):** GGS 553  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

### GGS 631 - Spatial Agent-Based Models of Human-Environment Interactions

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science
Discusses key challenges in spatial modeling of human-environment interactions. Reviews agent-based modeling applications in urban and rural interactions, agriculture, forestry, and other areas. Hands-on development of simple ABM models and investigation of linkages between GIS and ABM.

**Prerequisite(s):** GGS 531 or CSS 600, or permission of instructor.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**GGS 644 - Fundamentals and Interpretation of Imaging Radar**

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Provides understanding of components, functionality, and use of radar remote sensing for acquiring spatial information.  
Concentrates on operational systems. Includes hands-on assignments.

**Prerequisite(s):** GGS 579, or other basic course in remote sensing.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**GGS 650 - Introduction to GIS Algorithms and Programming**

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Introduction to programming methods and their application to Geographic Information Systems, including the fundamentals of object-oriented programming and GIS-specific data structures and algorithms. Employs an object-oriented language such as Visual Basic.Net, and existing freeware and commercial GIS libraries. Topics covered include variables, arrays, control structures, objects and classes, raster and vector data structures, spatial algorithms, and spatial indexing methods.

**Prerequisite(s):** GGS 553 or equivalent introductory GIS course, or permission of instructor.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**GGS 653 - Geographic Information Analysis**

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Explores existing and potential capabilities of geographic information systems in conducting spatial analysis and modeling.

**Prerequisite(s):** GGS 553 and 560.
**Schedule Type:** LEC
GGS 655 - Map Design

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Advanced examination of principles of map design, including discussions of map design research.

Prerequisite(s): GGS 310 or 550.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 656 - The Hydrosphere

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Covers components and transfer processes in hydrosphere, which consists of aqueous envelope of Earth including oceans, lakes, rivers, snow, ice, glaciers, soil moisture, ground water, and atmospheric water vapor.

Equivalent to EVPP 652.

Prerequisite(s): Two semesters of calculus, partial differential equation recommended; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 657 - The Lithosphere

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Global-scale overview of lithosphere; the solid nonliving Earth, its materials, cycles, plate tectonic and geomorphic processes; and history, including interactions with and history of hydrosphere, atmosphere and biosphere, and methods of analysis.

Equivalent to GEOL 601.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
GGS 658 - Terrain Mapping

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Covers fundamental methods of digitally representing terrain data, major technologies, and programs for generating terrain data; methods for quantifying terrain error and assessing terrain data quality; and a variety of applications.

Prerequisite(s): GGS 553 or equivalent, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GGS 660 - Automated Cartography

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Survey of algorithms and techniques to generalize information on maps and in geographic information systems. Covers simplified representation of geographic objects, surfaces, and thematic information. Includes GIS programming component.

Prerequisite(s): GGS 650 or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GGS 661 - Map Projections and Coordinate Systems

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Covers development of various map projections and coordinate systems, property analysis, distortions, and applications.

Prerequisite(s): GGS 310 or 550.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GGS 664 - Spatial Data Structures

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Studies spatial data structures and their application in digital cartography, geographic information systems, and image-processing systems. Examines raster and vector data structures, and attribution schemes and topological models. Includes data transformation, information loss, data quality, and the role of metadata.
Prerequisite(s): B or better in GGS 650.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 670 - Introduction to Atmosphere and Weather

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Applies climatic concepts to natural and human-modified environments, and analyzes climatic change.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 671 - Algorithms and Modeling in GIS

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Examines several fundamental GIS algorithms based upon computational geometry and computer graphics. Also discusses issues in modeling features of different dimensions and surfaces in GIS. Significant programming expected.

Prerequisite(s): Prior course or experience in GIS, and knowledge of computer programming language.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 674 - Environmental Impact Analysis

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Scientific and administrative processes involved in environmental impact analysis and environmental impact statements.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 675 - Location Science
This course presents the theory and practice of Location Science - the study of the optimal or near optimal spatial location or allocation of facilities, routes, personnel, or other assets. A variety of algorithms and heuristics for location problems is presented. Lectures and both in-class and take-home exercises reinforce students' mastery of the techniques and understanding of advanced theoretical issues.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

GGS 680 - Earth Image Processing

Focuses on how geoinformation technologies, including GIS, RS, and GPS, and spatial analytical techniques can be integrated to address various situations in environmental risk assessment, monitoring, and planning.

Prerequisite(s): GGS 416 or GGS 579 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 681 - Social Media Analysis

The course covers theory, principles, and analytical techniques in geospatial analysis of social media, including data collection, location-based and cyberspace social network analysis, content analysis, and geovisualization of such data. Examples of applications in various domains are used to demonstrate and explore the use of social media analysis.

Prerequisite(s): GGS 550 or GGS 553 or permission of the instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 684 - Selected Topics in Geospatial Intelligence

Covers topics relevant to geospatial intelligence, especially addressing emerging trends, focused intelligence applications, and relevant technological advances, not covered by existing courses. Sample topics addressed in this course include geosensor...
networks, landmine detection using remote sensing techniques, the use of unmanned aerial vehicles in geospatial intelligence, and the use of virtual reality techniques for geospatial information modeling and analyst training.

Prerequisite(s): Admission to the Geospatial Intelligence Certificate program or permission from the program's academic director.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

GGS 685 - Capstone Course in Geoinformatics

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
This course is intended to provide a capstone experience for graduate students by synthesizing knowledge and experience that they acquired in earlier coursework to address a complex geospatial intelligence problem. The course requires analytical, collaborative, and communication skills.

Prerequisite(s): 12 credits in the geospatial intelligence certificate program or permission of program coordinator.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

GGS 689 - Seminar in Geographic Thought and Methodology

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Includes historical development of geographic thought and current philosophy of geography; rationale for various subfields; and geographic research techniques and methods of analysis.

Prerequisite(s): GGS 560.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 692 - Web-based Geographic Information Systems

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Management of geospatial data by means of a database system. Communication of geospatial data over the Internet using browser-based interfaces.

Prerequisite(s): GGS 550 or equivalent, or permission of instructor.
GGS 695 - Geography and Geoinformation Science Graduate Internship

Credits: 1-6
Repeatable within Degree for Credit
Offered by Geography and Geoinformation Science
Approved study programs with specific employers. Students and employer supervisors must demonstrate relevancy of study program to degree requirements.

Prerequisite(s): Permission of department.

Schedule Type: IND, INT

GGS 698 - Directed Readings and Research

Credits: 1-3
Repeatable within Term for Credit
Offered by Geography and Geoinformation Science
Reading and research on specific topic under direction of faculty member.

Prerequisite(s): Permission of instructor and department.
Notes: Written report required; oral exam and report may be required. May be repeated to a maximum of 12 credits.

Schedule Type: LEC

GGS 700 - Comprehensive Exam

Credits: 1
Repeatable within Degree for Credit
Offered by Geography and Geoinformation Science
Preparation and completion for the comprehensive exam within the GGS department. Instructor should be the chair of the examination committee. The exam committee will specify exam content.

Schedule Type: IND

---

George Mason University

2016-2017 Official University Catalog

2879
GGS 704 - Spatial Demography

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Intermediate-level, population geography course discussing demographic concepts and spatial dimensions of population. Features various indices, measures, and models commonly used in human geography.

Prerequisite(s): Prior courses in quantitative methods and GIS recommended.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 721 - Biogeography

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Provides broad understanding of how physical geography and environment influence spatial and temporal distribution of plants and animals on Earth's surface.

Prerequisite(s): Courses in ecology, chemistry, and geology.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

GGS 740 - Hyperspectral Imaging Systems

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Provides requisite materials to understand hyperspectral imaging technology and its many civilian and military applications. Emphasizes scientific principles involved and technology application to real-world imaging systems. Topics include hyperspectral concepts and system tradeoffs; data collection systems; calibration techniques; data processing techniques and software; classification methods; and case studies. Data processing techniques include N-dimensional space, scatterplots, spectral angle mapping, spectral mixture analysis, spectral matching, and mixture tuned matched filtering. Discusses ground, airborne, and spaceborne hyperspectral remote sensing systems.

Prerequisite(s): CSI 660 or equivalent, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
GGS 754 - Earth Science Data and Advanced Data Analysis

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Covers accessing and applying Earth observations and remote-sensing data for Earth system science research and applications. Major topics are data formats, analysis and visualization tools, advanced data analysis methods, and data applications. Also covers combining innovative information technology techniques and Earth science data to set up online data centers for accessing data through the web.

Prerequisite(s): GGS 579 or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

GGS 756 - Physical Principles of Remote Sensing

Credits: 3  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Emphasizes fundamental physical and mathematical principles of remote sensing. Also provides overview of the current Earth Observation System as well as the National Polar-Orbiting Operational Environmental Satellite Systems (NPOESS), and NPOESS Preparatory Project missions.

Prerequisite(s): GGS 753 or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

GGS 759 - Topics in Earth Systems Science

Credits: 1-6  
Not Repeatable for Credit  
Offered by Geography and Geoinformation Science  
Covers selected topics in Earth systems and global changes not covered in fixed-content Earth systems and global changes courses.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GGS 760 - Advanced Topics in Remote Sensing
GGS 772 - Cloud Geographic Information Systems

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Examines different aspects of science and technology in the context of distributed GIS. Includes general concepts, architecture, component design and development, and system integration as well as other advanced topics, including interoperability and agent-based GIS.

Prerequisite(s): Introductory course in GIS and some programming experience, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 773 - Interoperability of Geographic Information Systems

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Advanced course addressing theories, standards, and implementations of web-based interoperable geographic information systems for online data and information services. Reviews international standards, including OGC, and associated tools for interoperability.

Prerequisite(s): GGS 553 and 754, or a course in GIS.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 777 - Remote Sensing Natural Hazards

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Provides an overview of major natural hazards, their governing dynamics and remote-sensing techniques used to study, forecast, and mitigate hazards.
Prerequisite(s): GGS 579 or GGS 680; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

GGS 787 - Scientific Data Mining for Geoinformatics

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Covers specialized data mining algorithms, geoscience data models, and data information systems. Emphasis on domain-specific data mining algorithms suitable for spatial data and spatio-temporal data with geoscience and geoinformatics applications. Introduces real geoscience data mining applications in detailed applications.

Prerequisite(s): Competency in programming at the level of CSI 601-607 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

GGS 791 - Advanced Spatial Statistics

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Advanced course focusing on analyzing georeferenced or spatial data represented as points or polygons. Addresses higher moments, point pattern analyses, and interpolations of points to surfaces. Includes spatial regression.

Prerequisite(s): GGS 560 or STAT 535/554, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 792 - Seminar in Earth Systems Science

Credits: 2
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Capstone experience. Seminars presented by faculty and students.

Equivalent to EVPP 792.

Prerequisite(s): 15 Graduate Credits including CSI 655, GGS 656, and GGS 657, or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
GGS 795 - Seminar in Regional Analysis

Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Analyzes and synthesizes physical and cultural elements of geography in selected region. Should be taken near end of master's degree program. Provides opportunity to apply selective knowledge gained in previous systematic courses to specific region.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 798 - Research Project in Earth Systems Science

Credits: 1-6
Repeatable within Degree for Credit
Offered by Geography and Geoinformation Science
Reading project chosen and completed under guidance of graduate faculty member resulting in acceptable technical report.

Prerequisite(s): Admission to Earth Systems Science MS program, 12 graduate credits, and permission of instructor.
Notes: For students enrolled in Earth Systems Science master's program.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GGS 799 - Thesis

Credits: 1-6
Repeatable within Degree for Credit
Offered by Geography and Geoinformation Science
Degree candidacy and departmental approval of thesis proposal.

Prerequisite(s): Degree candidacy and departmental approval of thesis proposal.
Notes: May be repeated to a maximum of 6 credits earned.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

GGS 840 - Hyperspectral Imaging Applications
Credits: 3
Not Repeatable for Credit
Offered by Geography and Geoinformation Science
Introduces advanced hyperspectral imaging and multisensor concepts with emphasis on real-world civilian and military applications. Topics include advanced hyperspectral concepts, multisystem tradeoffs, data collection and processing systems, imaging radar systems, laser systems, calibration techniques, data fusion, quantitative remote sensing techniques, data compression techniques, case studies, and U.S. national policy. Applications and case studies include environmental, homeland security, medical, military, disaster mitigation, agricultural, and transportation.

Prerequisite(s): CSI 660 or equivalent, or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

GGS 900 - Geography and Geoinformation Science Colloquium

Credits: 1
Repeatable within Degree for Credit
Offered by Geography and Geoinformation Science
Presentations in specific research areas of Geography and Geoinformation sciences by faculty and staff, Mason faculty in related programs, and professional visitors.

Equivalent to EVPP 791.

Prerequisite(s): Graduate standing.

Notes: May be repeated for credit, but maximum 3 credits may be applied to Earth systems and geoinformation sciences PhD.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

GGS 998 - Dissertation Proposal

Credits: 1-12
Repeatable within Degree for Credit
Offered by Geography and Geoinformation Science
Covers development of research proposal that forms basis for doctoral dissertation, under guidance of dissertation director and doctoral committee.

Prerequisite(s): Doctoral student, permission of instructor.

Notes: May be repeated, but no more than 12 credits of GGS 998 may satisfy doctoral degree requirements.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0

Grading: Satisfactory/No credit only
GGS 999 - Dissertation

Credits: 1-12
Repeatable within Degree for Credit
Offered by Geography and Geoinformation Science
Doctoral dissertation research under direction of dissertation advisor.

Prerequisite(s): Permission of instructor.
Notes: May be repeated, but no more than total 24 credits in GGS 998 and 999 may be applied to doctoral degree.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

Geology (GEOL)

Offered by the College of Science

GEOL 101 - Introductory Geology I

Credits: 4
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

Covers Earth, processes that operate within Earth and on surface, and human interaction with Earth. Topics include minerals, earthquakes and seismology, isostasy, igneous processes and rocks, paleomagnetism and plate tectonics, weathering, mass movements, rivers and streams, groundwater, glaciers, and marine processes.
Designated a Green Leaf Course.

Fulfills Mason Core requirement in natural science (lab).

Notes: May include field trips.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

GEOL 102 - Introductory Geology II

Credits: 4
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Earth processes in historical context. Topics include sedimentary rocks and principles, deformation and metamorphism, mountain building and plate tectonics, geologic time, fossils, and historical development of continents.
Designated a Green Leaf Course.

Fulfills Mason Core requirement in natural science (lab).

**Prerequisite(s):** GEOL 101

**Notes:** May include field trips.

**Schedule Type:** LAB, LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 3

---

**GEOL 134 - Evolution and Extinction**

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

Evolution and Extinction is a science class for non-science majors that explores how diversity of animals and plants has changed through geologic time, when mass extinctions occurred, when major diversifications of life occurred, and how the position of continents on the surface of the earth influenced the evolution, extinction, and distribution of life, landforms and the atmosphere. Designated a Green Leaf Course.

Fulfills Mason Core requirement in natural science (nonlab).

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall

---

**GEOL 206 - Topics in Geology I**

Credits: 1-3
Repeatable within Term for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Discusses particular topic in geology.

**Notes:** May include field trips.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 1-3

**Hours of Lab or Studio per week:** 0
GEOL 302 - Mineralogy

Credits: 4
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Crystallographic, optical, chemical, and physical properties of minerals.

Prerequisite(s): GEOL 101 and 102 with grade of C or better, and CHEM 211.
Notes: May include field trips.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

GEOL 303 - Field Mapping Techniques

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

Basic techniques for collecting, recording, and plotting spatial field data including use of topographic maps, compasses, transit, alidade, and global positioning systems (GPS).
Designated a Green Leaf Course.

Prerequisite(s): 30 credits including MATH 105 or equivalent, and GGS 102 or GEOL 101.
Notes: Includes field work.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 6

GEOL 304 - Sedimentary Geology

Credits: 4
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Introduces sedimentation, sedimentary petrology, facies analysis, and stratigraphy.

Prerequisite(s): GEOL 101 and 102, and grade of C or better in GEOL 302.
Notes: May include field trips.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
GEOL 305 - Environmental Geology

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

Investigates geological principles directly relating to environmental hazards. Geological causes and effects of natural disasters such as earthquakes, tsunamis, volcanoes, floods and landslides; climate variability and change; prediction of, and planning for geological hazards and disasters and understanding their major societal impacts; and medical geology. Designated a Green Leaf Course.

Fulfills the writing intensive requirement for the Environmental Geoscience concentration within the Earth Science,BS only.

Prerequisite(s): GEOL 101, and either GEOL 102, GEOL 309/BIOL 309, or GGS 309
Notes: May include field trips.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GEOL 306 - Soil Science

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

Composition, classification, physical properties, and origin of soils. Designated a Green Leaf Course.

Prerequisite(s): GEOL 101, and CHEM 103 or 211.
Notes: May include field trips.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GEOL 308 - Igneous and Metamorphic Petrology

Credits: 4
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

Genesis, classification, and recognition of igneous and metamorphic rocks.

Prerequisite(s): GEOL 101 and 102, grade of C or better in GEOL 302, and MATH 105 or equivalent.
Notes: May include field trips.

Schedule Type: LAB,
LEC

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

GEOL 309 - Introduction to Oceanography

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Introduces physical, chemical, biological, and geological aspects of oceanic environment.

Equivalent to BIOL 309, EVPP 309.

Prerequisite(s): Two of the following lab sciences courses are required for a total of 8 credits: [GEOL 101 or 102], [EVPP 110 or 111 or 210], CHEM 211, [BIOL 103 or 213], [PHYS 160 and 161 or 243 and 244].
Notes: May include field trip.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GEOL 312 - Invertebrate Paleontology

Credits: 4
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Classification, evolutionary trends, and distribution of common invertebrate fossils.

Equivalent to BIOL 336.

Prerequisite(s): GEOL 101, 102; or BIOL 103, 104; or BIOL 213, 303, 304.
Notes: May include field trips.

Schedule Type: LAB,
LEC

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

GEOL 313 - Hydrogeology

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

Geological and hydrologic factors controlling occurrence, distribution, movement, quality, and development of groundwater.
Designated a Green Leaf Course.

**Prerequisite(s):** GEOL 101 or GGS 102, MATH 113, and CHEM 211.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**GEOL 315 - Topics in Geology II**

Credits: 1-3
Repeatable within Term for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Discusses particular topic in geology.

**Prerequisite(s):** GEOL 101 or GEOL 102 or permission of instructor.
**Notes:** May include field trips.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 1-3
**Hours of Lab or Studio per week:** 0

**GEOL 316 - Computers in Geology**

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Uses of mainframe and microcomputers, with emphasis on geologic applications.

**Prerequisite(s):** GEOL 101, 102, and 302, and one semester of mathematics; or permission of instructor.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**GEOL 317 - Geomorphology**

Credits: 4
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Analyzes processes that occur at Earth's surface and resulting landforms. Labs stress recognition and evaluation of landforms using maps and aerial photographs, and methods of data collection used in study of surficial geology.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** GEOL 101 and 102, with grade of C or better; or 6 credits in GGS, including GGS 102; GGS 412 strongly recommended.
**Notes:** May include field trips.
GEOL 320 - Geology of Earth Resources

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

A survey of earth resources, including metallic and non-metallic ore deposits, mineral resources, precious gems, sand and gravel, water, and air.
Designated a Green Leaf Course.

Prerequisite(s): GEOL 101, GEOL 102, GEOL 302. GEOL 305 strongly suggested.

GEOL 321 - Geology of Energy Resources

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

A survey of energy resources, including fossil fuels, renewable, nuclear and unconventional sources. Emphasis on origin, use and implications of development.
Designated a Green Leaf Course.

Prerequisite(s): GEOL 101 or GEOL 102, and completion of all Mason Core Science requirements.

GEOL 332 - Paleoclimatology

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

Explores the natural evolution of Earth's climate with the goal of providing a baseline for understanding present climate
variability and future trends through increased knowledge of the physical, chemical, and biological processes that influence climate over the long-term.
Designated a Green Leaf Course.

Prerequisite(s): GEOL 102 or BIOL 103 or EVPP 110.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

GEOL 334 - Vertebrate Paleontology

Credits: 4
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Vertebrate Paleontology explores the evolution of vertebrates from the early Paleozoic to Recent. The course will cover the systematics, anatomy, paleogeography, and ecology of extinct vertebrates. Discussions will include fishes, early tetrapods & amniotes, dinosaurs, birds and mammals. Lab portion includes paleontology techniques, analysis, and study of fossil specimens and casts. A weekend field trip is included.
Equivalent to BIOL 334

Prerequisite(s): Any two courses from the following list: GEOL 101, GEOL 102, BIOL 103, BIOL 104, BIOL 213, BIOL 303 or the permission of the instructor.
Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

GEOL 363 - Coastal Morphology and Processes

Credits: 4
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

Studies global coastal geomorphology and processes with emphasis on U.S. Atlantic and Gulf coasts. Topics include plate tectonics, sea level changes, sediment supply, waves, tides, storm impacts, and human activities. Lecture and extended weekend field trips to mid-Atlantic coast.
Designated a Green Leaf Course.

Prerequisite(s): GEOL 309 or BIOL 309 or GEOL 317 with a grade C or better; or 9 credits in geography, including GGS 309.
Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
GEOL 364 - Marine Geology

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
This course will present a global overview of the geologic origin and composition of the ocean seafloor, and an introduction to the basic principles of the geologic processes occurring in the marine environment. Primary topics include geologic, tectonic and sedimentary characteristics of the deep ocean basins and continental margins; transport and deposition of marine sediments; micropaleontology and paleoceanography; geochemistry and hydrothermal systems; and marine mineral resources.

Prerequisite(s): GEOL 101, 102, 302, and CHEM 211
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GEOL 401 - Structural Geology

Credits: 4
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Igneous, sedimentary, and metamorphic rocks in folded, faulted, and metamorphosed terrains.

Prerequisite(s): Grade of C or better in GEOL 302 and 317; successful completion of one or both of GEOL 304 or 308; and MATH 110, 111, or 113. PHYS 160 or 243 highly recommended.
Notes: May include field trips.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

GEOL 402 - Geological Development of North America

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Geological history of North America in terms of plate tectonics. Geological development and history of North America's major regions.

Prerequisite(s): GEOL 101, 102, 302, 304, 308, and 401.
Notes: May include field trips.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GEOL 403 - Geochemistry
Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Includes stable isotope, crystal, water, and organic geochemistry; geochronology; and geochemistry of rocks.

Prerequisite(s): GEOL 101 and 102 and CHEM 211.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GEOL 404 - Geological Field Techniques

Credits: 1-6
Repeatable within Degree for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Mapping techniques involved in collecting geological field data.

Prerequisite(s): GEOL 101, 102, 302, 304, 308, and 401.
Notes: Includes field work.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 6-12

GEOL 405 - Advanced Seminar in Earth Resources

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

Analyzes current issues involving renewable and non-renewable earth resources with consideration of the economic, political, social and aesthetic significance of these resources and their utilization. Taught seminar style examining case-studies, with emphasis on discussion, reading, writing and student oral presentations. Designated a Green Leaf Course.

Prerequisite(s): GEOL 101 and 102 and GEOL 302, 304 and 308 OR GEOL 305, 320 and 321 and completion of Mason Core requirements.
Notes: May include field trips.

Schedule Type: LEC,
SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GEOL 406 - Seminar in Earth and Environmental Science
Students read, discuss research literature; produce, present original papers.

**Prerequisite(s):** 90 credits.
**Notes:** Capstone seminar for Earth and environmental science majors.

**Schedule Type:** SEM
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**GEOL 408 - Practicum for Geology Laboratories**

Credits: 1
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Studies techniques to make geology lab effective component in geological education. Discusses developing testing materials, supplemented by experience operating geology course lab section.

**Prerequisite(s):** Geology major with 80 credits, and permission of department chair.
**Schedule Type:** INT, LAB
**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 3

**GEOL 409 - Practicum for Geology Laboratories**

Credits: 1
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Studies techniques to make geology lab effective component in geological education. Discusses developing testing materials, supplemented by experience operating geology course lab section.

**Prerequisite(s):** Geology major with 80 credits, and permission of department chair.
**Schedule Type:** INT, LAB
**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 3

**GEOL 410 - Research Proposal Preparation**

Credits: 1
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Prepares students for research in GEOL 411. Includes literature research, initial data collection, and preparing research proposal.
Prerequisite(s): Geology or Earth Science major with 90 credits, cumulative GPA of 2.80 or higher, and permission of the Geology undergraduate coordinator.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

GEOL 411 - Geological Research

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Geological research: data collection and reduction, interpretation, preparation of written report, and oral presentation of results.

Prerequisite(s): GEOL 410.
Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

GEOL 412 - Physical Oceanography

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Course describes the global patterns of temperature, salinity, currents and waves in the world's oceans, and how these patterns influence marine biota, climate, and human activity. Course introduces key concepts which explain physical features of the ocean ranging from microscopic turbulence to global circulation.

Equivalent to CLIM 412

Prerequisite(s): MATH 113 or MATH 115, and PHYS 160 or PHYS 243, or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GEOL 417 - Geophysics

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Basic principles of geophysics including gravity, magnetism, and seismic reflection and refraction.

Prerequisite(s): GEOL 101, MATH 113, and one year of physics; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
GEOL 420 - Earth Science and Policy

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

Discusses Earth science issues that have policy implications. Course uses a broad definition of Earth science, from atmosphere to geosphere. Taught seminar-style, with emphasis on discussion, reading, writing, critical analysis, and student oral presentations. Designated a Green Leaf Course.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): Completion of or concurrent enrollment in all other required Mason Core courses; completion of at least 18 credit hours in major or minor (geology, Earth science, ocean and estuarine science, or global and environmental change), and one of the following social science-based courses: EVPP 361; ECON 103; ANTH 114; GGS 103; GLOA 101; GOVT 132 or 133; HIST 125 or 130; SOCI 101, 102, or 120.

Notes: Course may include field trips.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GEOL 458 - Chemical Oceanography

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

The world's oceans, including a variety of closed basins and estuaries, comprise a complex and dynamic system of chemical processes that interact with biological, geological, physical, and atmospheric processes to play a significant role in defining the earth's fragile environment. This course will present an overview of the origin, occurrence, and distribution of the chemical components in sea water and an introduction to the basic principals of the chemical processes taking place in the marine environment. Designated a Green Leaf Course.

Equivalent to CHEM 458

Prerequisite(s): CHEM 211 and CHEM 212, and CHEM 321 or GEOL 302.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GEOL 480 - Internship

Credits: 1-3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences

George Mason University 2016-2017 Official University Catalog 2898
Approved study programs with specific employers.

**Prerequisite(s):** Open only to majors with 90 credits.
**Notes:** Contact department one semester before enrollment.

**Schedule Type:** INT
**Hours of Lecture or Seminar per week:** 1-2
**Hours of Lab or Studio per week:** 0

---

**GEOL 500 - Selected Topics in Modern Geology**

Credits: 1-3
Repeatable within Degree for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Topic designated in class schedule.

**Prerequisite(s):** Baccalaureate degree in geology, or permission of instructor.
**Notes:** Lecture, lab, field trip.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 1-3
**Hours of Lab or Studio per week:** 0

---

**GEOL 501 - Selected Topics in Modern Geology**

Credits: 1-3
Repeatable within Degree for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Topic designated in class schedule. Lecture, lab, field trip.

**Prerequisite(s):** Baccalaureate degree in geology, or permission of instructor.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 1-3
**Hours of Lab or Studio per week:** 0

---

**GEOL 503 - Special Topics in Earth Science**

Credits: 1-6
Repeatable within Degree for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
In-service course to strengthen and update knowledge of Earth science.

**Prerequisite(s):** Employment or anticipated employment as an Earth Science teacher.
**Notes:** May include field trips.

**Schedule Type:** LEC
GEOL 506 - Soil Science

Credits: 3  
Not Repeatable for Credit  
Offered by Atmospheric, Oceanic and Earth Sciences  
Explores the composition, classification, physical properties, and origin of soils.

Equivalent to EVPP 503.

Prerequisite(s): Previous lab-science courses in each of the following: geology and chemistry (8 credit hours); or permission of instructor.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

GEOL 513 - Hydrogeology

Credits: 3  
Not Repeatable for Credit  
Offered by Atmospheric, Oceanic and Earth Sciences  
Geological and hydrologic factors controlling occurrence, distribution, movement, quality, and development of groundwater.

Prerequisite(s): Previous lab-science courses in each of the following: geology calculus, and chemistry (12 credit hours); or permission of instructor.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
When Offered: Spring

GEOL 521 - Geology of Energy Resources

Credits: 3  
Not Repeatable for Credit  
Offered by Atmospheric, Oceanic and Earth Sciences  
Survey of global non-renewable and renewable energy resources. Topics include petroleum, natural gas, coal, nuclear, geothermal, solar, wind, and hydro power, and biofuels. Course discusses global production, usage, impacts and future prospects of these resources, and data capture, analysis and modeling of finite resources.

Prerequisite(s): GEOL 101 or GEOL 102, and completion of all Mason Core Natural Science requirements or permission of instructor.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall
GEOL 532 - Paleoclimatology

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Explores the natural evolution of Earth's climate with the goal of providing a baseline for understanding present climate variability and future trends through increase knowledge of the physical, chemical, and biological processes that influence climate over the long-term.

Prerequisite(s): Previous lab-science courses in geology and/or atmospheric science and/or oceanography (12 credit hours); or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

GEOL 534 - Vertebrate Paleontology

Credits: 4
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Explores the evolution of vertebrates from the early Paleozoic to Recent. Covers systematics, anatomy, paleogeography, and ecology of extinct vertebrates. Discussions include fishes, early tetrapods and amniotes, dinosaurs, birds, and mammals. Lab portion includes paleontology techniques, analysis, and study of fossil specimens and casts.

Prerequisite(s): Undergraduate degree in biology or geology or permission of instructor.
Notes: A weekend field trip is included. Students who have taken GEOL 334 as an undergraduate may not take 534 as a graduate student.
Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Spring

GEOL 536 - Paleontology Seminar

Credits: 1-2
Repeatable within Degree for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Paleontology Seminar presents topical research in paleontology and paleobiology in a structured discussion among graduate students and paleontology faculty. A theme for the seminar is chosen each semester the course is offered, tailored to the interests of the students.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
GEOL 553 - Field Mapping Techniques

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Explores basic techniques for collecting, recording, and plotting spatial field data, including topographic maps, compass, transit, alidade, and global positioning systems. Field work and field based research project.

Equivalent to EVPP 503.

Prerequisite(s): Previous courses in geometry or trigonometry or equivalent; and environmental science geography, or equivalent.

Schedule Type: LAB
Hours of Lab or Studio per week: 6
When Offered: Fall

GEOL 563 - Coastal Morphology and Processes

Credits: 4
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Investigates global coastal geomorphology and processes, with emphasis on U.S. Atlantic and Gulf coasts. Topics include plate tectonics; sea-level changes; sediment supply; impacts of waves, tides, storms; and human activities. Lecture and extended weekend field trips to U.S. mid-Atlantic coast.

Equivalent to EVPP 563.

Prerequisite(s): Previous courses in geology, oceanography, marine science, earth science, or physical geography; or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Spring

GEOL 565 - Paleoceanography

Credits: 3
Not Repeatable for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Investigates ocean evolution through geologic time. Earth's sediment archive provides proxy data on paleo-ocean chemistry, biology, geology, and physical properties. Class examines proxy reconstructions of oceanic conditions such as circulation, salinity, stratification, anoxia, and biogeochemistry. Discusses the history of ocean basins, with case studies from Precambrian to Holocene.
Prerequisite(s): Previous course in oceanography or marine science and 16 credits of geology or earth science courses, or permission of instructor.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 3

When Offered: Spring

GEOL 601 - The Lithosphere

Credits: 3
Not Repeatable for Credit

Offered by Atmospheric, Oceanic and Earth Sciences

Global-scale overview of lithosphere, solid non-living Earth, materials, cycles, plate tectonic and geomorphic processes; and history, including interactions with and history of hydrosphere, atmosphere and biosphere, and methods of analysis.

Prerequisite(s): Graduate standing.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 3

Hours of Lab or Studio per week: 0

GEOL 700 - Comprehensive Exam

Credits: 1
Repeatable within Degree for Credit

Offered by Atmospheric, Oceanic and Earth Sciences

Preparation for and completion of written comprehensive exam within AOES department. The comprehensive exam is given as part of the degree requirements in lieu of writing a master's thesis. Instructor should be the chair of the examination committee. The exam committee will specify exam content.

Prerequisite(s): At least 15 graduate credits, approved project proposal, and permission of major advisor or chair of the examination committee.

Notes: No more than 1 credit of GEOL 700 may be applied toward the master's degree.

Schedule Type: IND

Hours of Lecture or Seminar per week: 1

Hours of Lab or Studio per week: 0

Grading: Satisfactory/No credit only

When Offered: Fall, Summer, Spring

GEOL 792 - Seminar in Earth Systems Science, Geology, & Earth Science

Credits: 1
Repeatable within Degree for Credit

Offered by Atmospheric, Oceanic and Earth Sciences

Capstone experience that includes discussion of scientific articles and attending seminars. Seminars presented by outside experts, faculty, and students.
Prerequisite(s): 15 Graduate Credits Including GEOL 601 or equivalent, or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 2
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

GEOL 798 - Master's Research Project in Earth Systems Science

Credits: 1-6
Repeatable within Degree for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Experimental, observational, literature-based, or theoretical research project chosen and completed under guidance of faculty member. Proposal required before enrollment. Comprehensive technical report acceptable to student's committee required for completion.

Prerequisite(s): 15 graduate credits, approved project or thesis proposal, and permission of instructor.
Notes: No more than 6 credits of GEOL 798 may be applied to master's degree.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

GEOL 799 - Master's Thesis in Earth Systems Science

Credits: 1-6
Repeatable within Degree for Credit
Offered by Atmospheric, Oceanic and Earth Sciences
Experimental, observational, or theoretical research under major advisor's supervision that culminates in production of thesis. Thesis work should be potentially publishable.

Prerequisite(s): Approved thesis proposal by thesis committee, and permission of major advisor or instructor.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Summer, Spring

German (GERM)

Offered by the College of Humanities and Social Sciences
Placement: See Academic Testing in the Admissions section.

See also FRLN course listing.
GERM 101 - Elementary German I

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Designed for students with no knowledge of German. Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Notes: Students may not receive credit for GERM 101 and GERM 105 or 110.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GERM 102 - Elementary German II

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Continuation of GERM 101.

Prerequisite(s): GERM 101, or permission of department.
Notes: Students may not receive credit for GERM 102 and GERM 105 or 110.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GERM 110 - Elementary German

Credits: 6
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Notes: Lab work required. Students may not receive credit for GERM 110 and GERM 101, 102, or 105.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 1

GERM 201 - Intermediate German I
Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.
Further development of skills in listening, speaking, reading, and writing.

Prerequisite(s): GERM 102 and 105, appropriate placement score, or permission of department.  
Notes: GERM 201 and 202 must be taken in sequence. Students may not receive credit for GERM 201 and GERM 210.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GERM 202 - Intermediate German II**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.
Applies skills to reading, composition, and discussion.

Prerequisite(s): GERM 201, appropriate placement score, or permission of department.  
Notes: Students may not receive credit for GERM 202 and GERM 210.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GERM 210 - Intermediate German**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of German speaking regions.

Prerequisite(s): GERM 110 or appropriate placement score.  
Notes: Students may not receive credit for GERM 210 and GERM 201 or 202.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GERM 250 - Gateway to Advanced German**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.
Integration of advanced intermediate-level German reading, writing, listening, and speaking skills, and the development of
critical thinking about authentic texts from around the globe.

Prerequisite(s): GERM 210, appropriate placement score, or permission of department.
Notes: Taught in German

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GERM 301 - Culture and Civilization

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Covers development of German civilization from 18th century to present. Includes German cultural contributions to world civilization.

Prerequisite(s): 60 credits, or permission of instructor.
Notes: Taught in English.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GERM 310 - Conversation and Composition

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Develops fluency in speaking and proficiency in writing German through discussion, reports, and compositions based on texts dealing with contemporary events and issues.

Prerequisite(s): GERM 250, appropriate placement score, or permission of instructor.
Notes: Taught in German. Not for native speakers of German.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GERM 316 - German for the Business World

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Introduces terminology and structural features of business German. Emphasizes acquiring vocabulary and developing facility in reading German business articles and correspondence.
**GERM 318 - Translation of Texts**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Introduces principles and techniques of translation. Translation of texts from the natural and social sciences, current events, and contemporary culture.

**Prerequisite(s):** GERM 250 or equivalent; appropriate placement score; or permission of instructor.  
**Notes:** Taught in German. Translations mainly from German into English.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**GERM 325 - Major Writers**

Credits: 3  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
Works of major German, Austrian, and Swiss writers in translation.

Fulfills Mason Core requirement in literature.

**Prerequisite(s):** ENGL 101/ENGH 101 or equivalent, or permission of instructor.  
**Notes:** Taught in English. Writers studied vary. May be repeated for a maximum of 6 credits when topic is different with permission of department.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**GERM 340 - Survey of German Literature**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Overview of history of German literature to 1880.

**Prerequisite(s):** GERM 250, appropriate placement score or permission of instructor.
Notes: Taught in German.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**GERM 355 - Readings in Poetry (Topic Varies)**

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Intensive reading of German poetry in its historical context. Studies genre characteristics and development. Types of poetry studied vary.

Prerequisite(s): GERM 250, appropriate placement score or permission of instructor.
Notes: Taught in German. May be repeated for credit when subject is different, with permission of department.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**GERM 365 - Readings in Narrative Prose**

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Intensive reading of German narrative prose, such as autobiographical fiction, fairy tales, and film. Studies genre characteristics and development. Topics to be studied vary.

Prerequisite(s): GERM 250, appropriate placement score or permission of instructor.
Notes: Taught in German. May be repeated for credit when subject is different, with permission of department.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**GERM 370 - German Through the Arts**

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Focuses on advanced-level language development through the investigation of German arts (film, music, theater, paintings, etc.) in their historical and cultural contexts. Oral and written competence achieved by means of integrated vocabulary and grammar study in content-based instruction.

Prerequisite(s): GERM 250, appropriate placement score, or permission of instructor.
Notes: May be repeated for a maximum of 6 credits when topic is different.
GERM 375 - Readings in Drama

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Intensive reading of German dramas in their historical context. Study of genre characteristics and development, including performance aspects. Genre varies; may be historical drama, radio play, or epic theater.

Prerequisite(s): GERM 250, appropriate placement score, or permission of instructor.
Notes: Taught in German. May be repeated for credit with permission of department when subtitle differs.

GERM 415 - Advanced Grammar and Style

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Studies syntax, idiomatic features, and levels of style. Extensive practice in different types of written expression.

Prerequisite(s): 15 credits of German or permission of instructor.
Notes: Taught in German.

GERM 418 - Advanced Composition

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Develops proficiency in writing German through intensive practice in preparing guided and original compositions.

Prerequisite(s): 15 credits of German, or permission of instructor.
Notes: Taught in German.
GERM 442 - The Age of Goethe

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Major works of Enlightenment, Sturm und Drang, Classicism, and early Romanticism. Emphasizes drama and poetry by Goethe and Schiller, with additional works by Lessing, Kleist, and other important writers of the era.

Prerequisite(s): 15 credits of German, or permission of instructor.
Notes: Taught in German.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GERM 444 - The Literature of Romanticism

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
German Romantic poetry and prose. Background and some theory included.

Prerequisite(s): 15 credits of German, or permission of instructor.
Notes: Taught in German.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GERM 450 - Modern Literature: 1880-1925

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Literature of Naturalism, Impressionism, and Expressionism in Germany, Austria, and Switzerland.

Prerequisite(s): 15 credits of German, or permission of instructor.
Notes: Taught in German.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
GERM 451 - Modern Literature: 1925 to the Present

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Literary trends since 1925 in Germany, Austria, and Switzerland.

Prerequisite(s): 15 credits of German, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GERM 480 - Special Topics

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Special topics on language, literature, or culture by theme, approach, or era.

Prerequisite(s): 15 credits of German, or permission of instructor.  
Notes: Taught in German. May be repeated for credit with permission of department.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

Global Affairs (GLOA)

Offered by the College of Humanities and Social Sciences

GLOA 101 - Introduction to Global Affairs

Credits: 3  
Not Repeatable for Credit  
Offered by Global Affairs  
Surveys wide range of global topics: previous periods of globalization, international organizations and law, transnational corporations and global economy, immigration and refugees, world environmental concerns, world culture, war and peace, paradoxical presence of nationalism and fundamentalism in global world, and antiglobalization movement.

Fulfills Mason Core requirement in global understanding.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
GLOA 305 - Global Affairs College-to-Career

Credits: 1
Not Repeatable for Credit
Offered by Global Affairs
Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in Global Affairs. Explores how skills typically learned in humanities majors can be leveraged for a successful transition to post-graduation employment.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

GLOA 400 - Global Affairs Capstone

Credits: 3
Not Repeatable for Credit
Offered by Global Affairs.
Students draw from interdisciplinary core and concentration coursework in order to synthesize, compare and consolidate the various approaches and theories explored throughout the major through a focus on a pressing global issue. Additionally, course is designed to further develop research, writing, presentation, and organizational skills.

Prerequisite(s): Completion of GLOA 101 or SOCI 120 and 18 credits in major
Schedule Type: LEC, SEM
Hours of Lecture or Seminar per week: 3
Grading: Regular

GLOA 450 - Topics in Global Affairs

Credits: 1-3
Repeatable within Degree for Credit
Offered by Global Affairs
Selected topics in global affairs. Content varies.

Prerequisite(s): GLOA 101 or SOCI 120.
Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GLOA 480 - Study Abroad

Credits: 1-6
Repeatable within Term for Credit
Offered by Global Affairs
Study abroad under supervision of Mason faculty. Course topics, content, and locations vary.

Notes: May be repeated for a maximum of 12 credits with permission of department.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

GLOA 490 - Independent Study in Global Affairs

Credits: 1-6
Repeatable within Term for Credit
Offered by Global Affairs
Reading or research on specific topic related to globalization, under direction of faculty member.

Prerequisite(s): Global affairs majors with 90 credits, GLOA 101, and permission of instructor.
Notes: At least one written paper required. Course may involve combination of reading assignments, tutorials, presentations, or off-campus activities. May be repeated for a maximum of 6 credits.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

GLOA 491 - Honors Seminar in Global Affairs

Credits: 3
Not Repeatable for Credit
Offered by Global Affairs
Emphasizes an interdisciplinary approach to the study of global affairs. Covers a variety of topics, including consideration of economic, political, and cultural forces at work in the complex interactions among global processes.

Prerequisite(s): Admission to Global Affairs honors in the major.
Schedule Type: LEC,
SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

GLOA 492 - Honors Research Project in Global Affairs

Credits: 3
Not Repeatable for Credit
Offered by Global Affairs
Honors-level research on specialized topic in Global Affairs culminating in substantial paper and oral presentation.

Prerequisite(s): Completion of GLOA 491 with minimum grade of B.
**GLOA 495 - Global Experiential Learning**

Credits: 1-18
Repeatable within Term for Credit
Offered by Global Affairs
On-the-job training in transnational or international fields through approved internship programs.

Notes: Enrollment and credits controlled by Global Affairs Program. Contact Global Affairs Program one semester before planned enrollment. May be repeated for a maximum of 18 credits.

**GLOA 498 - Global Politics Fellow**

Credits: 0
Repeatable within Degree for Credit
Offered by Global Affairs
The Global Politics Fellows program is a 15 credit academic program for selected students majoring in Global Affairs or Government and International Politics and Public Administration. This course indicates participation in the program.

Prerequisite(s): Acceptance into Global Policy Fellows Program.

**GLOA 599 - Issues in Global Affairs**

Credits: 3
Repeatable within Term for Credit
Offered by Global Affairs
Studies current issues and debates in global affairs.

Notes: Can be repeated for a maximum of 12 credits when topic is different.
GLOA 600 - Global Competencies

Credits: 3  
Not Repeatable for Credit  
Offered by Global Affairs  
Explores the nature of globalization. Students will understand the characteristics of the current global system; be familiar with key global issues and debates; have an advanced understanding of and appreciation for organizations, languages, cultures in many global contexts; and be better habituated to thinking across disciplinary lines.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GLOA 605 - Interdisciplinary Research Methods

Credits: 3  
Not Repeatable for Credit  
Offered by Global Affairs  
Designed to provide students with an overview of basic techniques in quantitative and qualitative methods with special attention to epistemological and ethical concerns in global studies research. Course includes a discussion of the theoretical assumptions that shape research questions and design, practical exercises in research techniques, and analysis of methodology in practice.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3

GLOA 610 - Economic Globalization and Development

Credits: 3  
Not Repeatable for Credit  
Offered by Global Affairs  
Focuses on the intersection of countries and firms in the arenas of international trade, investment and finance, as the lenses into understanding better today's "global" economy: countries of differing levels of economic development and economic system structure, factors of monetary union and currency disequilibria, trade liberalization or protectionism, market entry, cross-border variables, risk and relations.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GLOA 620 - Human Systems

Credits: 3  
Not Repeatable for Credit  
Offered by Global Affairs  
Examines the human dimensions relative to international educational systems and their relationship to basic education and higher education policy, research policy, science and technology, culture, language, social justice, equity, conflict and peace, human
resources and national development.

**GLOA 690 - Independent Study**

Credits: 3  
Not Repeatable for Credit  
Offered by Global Affairs  
Reading or research on specific topic related to globalization, under directions of faculty member.

**Prerequisite(s):** Global Affairs major with 12 MA credits and permission of instructor.  
**Notes:** At least one written paper required. Course may involve combination of reading assignments, tutorials, presentations, or off-campus activities.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**GLOA 710 - Seminar Abroad**

Credits: 3  
Repeatable within Degree for Credit  
Offered by Global Affairs  
Intensive program in a foreign setting focusing on a deep overview of the research specialization of the supervising faculty member. Required pre-departure component to set the intellectual, logistical and culture terms of the abroad period. Locations vary from year to year.

**Notes:** May be repeated for a maximum of 6 credits with permission of program.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**GLOA 720 - Capstone Research Seminar**

Credits: 3  
Repeatable within Degree for Credit  
Offered by Global Affairs  
Provides students with the opportunity to engage in significant original research an analysis of a topic in global affairs. Topics vary from year to year.

**Notes:** May be repeated for a maximum of 6 credits.
Global and Community Health (GCH)

Offered by the College of Health and Human Services

GCH 205 - Global Health

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
This course examines the biological and social aspects of major international health issues, especially in the areas of infectious disease, nutrition, and environmental health. Other topics include population groups with special risks, policies and programs designed to reduce health inequalities, and basic methods used to study global health.

Fulfills Mason Core requirement in global understanding.

GCH 300 - Introduction to Public Health

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Explores the principles and foundations of public health and its practice in the United States. Emphasizes the public health system's contributions to improving individual, community, and population health.

GCH 310 - Health Behavior Theories

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Examines theory for understanding health and health behaviors and their role in the development, implementation, and evaluation of public health programs.
GCH 320 - Community Health and Literature

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
This on-line course explores key historical worldwide public health events and humankind's responses to them, through in-depth study of selected literary works. The course includes investigation of scientific, social, cultural, geographical, and political factors that affect health and policy development on local, community and global levels.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

GCH 325 - Stress and Well-Being

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Explores the influences of stress on population-based health issues. The causes and pathways of the stress experience are explored from an ecological public health perspective. Theoretical aspects of stress and coping are considered, along with methods for relieving and preventing the stress response in both individuals and communities.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Summer

GCH 332 - Health and Disease

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Introduces epidemiology, health promotion, and disease prevention, and effect on health status of culturally diverse and vulnerable individuals, families, small groups, and communities. Focuses on health problems and potential interventions throughout life span, and incorporates principles of teaching and learning as they apply to health professionals.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GCH 335 - Applied Health Statistics
Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Emphasizes the statistical concepts and procedures used in applied public health practice and research. Students will learn to use SPSS to analyze, interpret, and present statistical findings.

Prerequisite(s): Any Mason Core quantitative reasoning course.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

GCH 350 - Health Promotion and Education

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Introduces the principles of health promotion and education, including history; philosophical and theoretical foundations; professional preparation, ethics, and responsibilities; and work settings. Assessment of health information/sources and the development of effective health promotion and education strategies for diverse populations are emphasized.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GCH 360 - Health and Environment

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Examines principles and methods, risk factors, prevention and control, and policies related to the aspects of human health determined by biological, physical, and chemical factors in the environment at the local, regional, and global levels.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GCH 370 - Sexuality and Human Behavior

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Introduction to human sexual behavior with an emphasis on the interaction between psychological, social, and biological factors. Topics include sexual differentiation and development, sexually transmitted infections and HIV, sexual orientation, patterns of sexual behavior, and the sexual health of individuals, communities, and global populations.
GCH 376 - Health Ethics, Leadership, and Advocacy

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Examines legal and ethical issues in public health practice and the skills necessary for effective leadership. Includes personal and organizational ethics, management and leadership styles, and public health advocacy.

Prerequisite(s): GCH 350.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

GCH 380 - Public Health Research Methods

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Emphasizes the formation of public health research questions and selection of appropriate study designs to address them.

Equivalent to GCH 460 (2013-2014 Catalog).

Prerequisite(s): GCH 205.
Corequisite(s): GCH 335.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GCH 405 - Global Health Interventions: History and Systems

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Examines the history, development, and implementation of international health policies and programs, with an emphasis on maternal and child health, undernutrition, and infectious diseases.

Prerequisite(s): GCH 205.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
GCH 406 - Global Health Interventions: Emerging Issues

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health

Examines strategies for addressing emerging global health issues, with an emphasis on noncommunicable diseases, aging, mental health, and injuries.

Prerequisite(s): GCH 205.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

GCH 411 - Health Program Planning and Evaluation

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health

Addresses planning, implementation and evaluation of highly effective health programs. Emphasis is placed on using evidence-based approaches to program design and evaluation and working productively with communities.

Prerequisite(s): C or higher in GCH 310 and GCH 380.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

GCH 412 - Fundamentals of Epidemiology

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health

Explores health research methods for measuring population health, designing and implementing observational and experimental studies, reading health science publications, and applying research findings to global and community health.

Prerequisite(s): One of the following: GCH 335, STAT 250, BIOL 214, OM 210, PSYC 300, or SOCI 313.
Notes: Open only to students in the Community Health major (HH-BS-COMH) or Public Health minor (PUBH).
GCH 430 - Community Health Systems and Agencies

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Introduces students to local, state, and national community health systems and agencies. Topics include the historical impact of community health systems and agencies, the influence of health advocacy groups; the relationship between human rights and health; and the need for collaboration between groups advocating for optimum human health.

Corequisite(s): GCH 411.

GCH 445 - Social Determinants of Health

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Examine the social determinants of health and the application of this framework to social work and public health policy and practice interventions. Explore the many social justice factors that affect health and consider which community systems and social change approaches may decrease or eliminate health inequities.

Equivalent to SOCW 445  
Prerequisite(s): 45 credits or permission of the instructor.

GCH 450 - Culture, Sexuality and the Global AIDS Epidemic

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Examines how the cultural values and mores regarding sexuality shape HIV/AIDS social policy and how these values and mores facilitate and hinder prevention and care efforts. Also examines several sexuality-related topics that interface with culture (e.g., gender, the sex industry, homosexuality) and the effectiveness of prevention and care initiatives around such issues as condom use, blood donation restrictions, immigration laws, sex education, and HIV testing.
**GCH 462 - Health Promotion across the Lifespan**

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Addresses health maintenance issues in humans from birth to death, emphasizing prevention. Compares and contrasts prevention of acute and chronic illnesses. Analyzes health communication approaches for effective translation of evidence-based.

**Prerequisite(s):**  
GCH 332  
GCH 350

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**GCH 465 - Community Health Capstone**

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Assists students in synthesizing their roles as community health professionals in a global society. Provides students with opportunities to examine issues in community health. Course content builds on knowledge and skills acquired through coursework and field experience. Student writings and presentations receive written self-evaluation as well as formal review by peers and multiple faculty members. (Writing intensive course).

Fulfills Mason Core requirement in synthesis.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** ENGH 302 or HNRS 353 with C or better, GCH 380, and senior standing. Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**GCH 480 - Health Maintenance and Health Aspects of Aging**

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Studies physiological and psychological factors that influence health and have implications for preventive measures in disease
and health disorders. Examines nutrition, nature of health problems, and methods of assessing physical and psychological needs.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GCH 494 - Special Topics in Global and Community Health

Credits: 3  
Repeatable within Term for Credit  
Offered by Global and Community Health  
Selected topics analyzing specialized areas in global and community health.

Notes: Content varies. Lecture, seminar, laboratory, workshops.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GCH 496 - Violence in Today's Society

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Examines magnitude of problem of violence globally and more specifically within the United States. Discussion and reflective activities engage students in the learning process.

Equivalent to NURS 496

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GCH 497 - Pre-Internship Seminar

Credits: 1  
Not Repeatable for Credit  
Offered by Global and Community Health  
Prepares students for future professional roles including the GCH 498 internship. The coursework will include resume and cover letter writing, interviewing skills, networking, communications, professionalism, job search strategies, and relationship dynamics in the workplace. Students will select and prepare for a possible GCH internship.

Prerequisite(s): GCH 300 and completion of 60 credit hours, or instructor's permission.  
Notes: This course must be completed with a grade of B or better in order to be considered for enrollment in GCH 498 Community Health Internship.

Schedule Type: LEC
GCH 498 - Global and Community Health Internship

Credits: 3 or 6  
Repeatable within Degree for Credit  
Offered by Global and Community Health  
Provides advanced students with the opportunity to apply community health knowledge while working under the supervision of a community preceptor in a local health organization. Students submit an application to the GCH internship coordinator the semester prior to enrollment for review. Students who have demonstrated academic excellence will receive priority internship placement.

Prerequisite(s): GCH 497 with a grade of B or better.  
Notes: A criminal background check and proof of vaccination status may be required of students prior to beginning an internship. This course provides experiential learning in a community health organization under the direction of a faculty advisor and a preceptor in the community health organization. Students are expected to understand the roles and functions of the community health organization and complete a project approved by the faculty advisor and the preceptor.

Schedule Type: INT  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 3-18  
Grading: Satisfactory/No Credit  
When Offered: Spring, Summer

GCH 499 - Independent Study in Global and Community Health

Credits: 1-6  
Repeatable within Term for Credit  
Offered by Global and Community Health  
Provides individual study of a particular problem area in global and community health research, theory development, or education under the direction of faculty.

Prerequisite(s): Permission of instructor  
Notes: May be repeated for maximum 6 credits.

Schedule Type: IND  
Hours of Lecture or Seminar per week: 1-6  
Hours of Lab or Studio per week: 0

GCH 515 - Lesbian, Gay, Bisexual, Transgender, and Queer Health

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Examines health status and health disparities among lesbian, gay, bisexual, transgender, and queer (LGBTQ) communities across the lifespan. Measurement and methodological considerations in LGBTQ health research, as well as health-related interventions...
targeting LGBTQ populations will be emphasized.

Notes: Offered every other year. Upper level undergraduates interested in taking this course are encouraged to contact the instructor.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GCH 543 - Global Health

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Examines the major infectious, nutritional, noncommunicable, neuropsychiatric, and other causes of morbidity, mortality, and disability in each world region. Explores sociocultural, economic, political, biological, and environmental factors that contribute to global and community health.

Notes: Lecture, discussion.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

GCH 560 - Environmental Health

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Examines principles and methods, risk factors, prevention and control, and policies related to the aspects of human health determined by biological, physical, and chemical factors in the environment at the local, regional, and global levels. Designated a Green Leaf Course.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

GCH 565 - Public Health Toxicology

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Focuses on the general mechanisms of toxicity and direct and indirect effects of major environmental and occupational agents.
Considers the genetic, physiologic, and psychosocial factors that affect susceptibility to adverse health outcomes associated with environmental or occupational hazard exposure.

**GCH 571 - HIV/AIDS: Concepts, Principles, and Interventions**

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Overview of HIV disease, including retrospective and current concepts and analyses, global and societal effect, and cutting-edge research. Examines development of therapeutic tools and skills to educate, reduce risks, control infection, and affect care and healing of client, family, and community, and issues of increasing dilemma for health care professionals.

Equivalent to NURS 571.

**GCH 594 - Special Topics in Global and Community Health**

Credits: 3  
Repeatable within Degree for Credit  
Offered by Global and Community Health  
Selected topics analyzing specialized areas in health care.

Equivalent to (2015-2016 Catalog) HAP 594/NURS 594

**Notes:** Content varies. Lecture, seminar, laboratory, and workshops.

**GCH 600 - Health Promotion Methods**

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Fundamental principles and practices of public health promotion and education, including historical origins; professional responsibilities; ethics; health behavior and learning theories; models for planning, implementing and evaluating programs; health literacy; public health advocacy; and the development, selection and implementation of effective instructional materials,
methods, and interventions.

**GCH 601 - Introduction to Biostatistics**

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Applies selected biostatistics techniques to public health and health system management issues. Includes univariate and bivariate statistics, and regression analysis.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**GCH 602 - Global Health Issues Related to Violence**

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Explores worldwide view of violence and its impact on health. Examines biological, psychological, and social determinants of violence. The epidemiology of violence is examined with special attention to collective violence, youth violence, abuse and neglect of children and the elderly, intimate partners, sexual violence, self-directed violence, and transgenerational violence. Preventive approaches attempted to help reduce the prevalence of violence will be addressed.

**Prerequisite(s):** Admission to a graduate program or permission of instructor.  
**Notes:** GCH 602 will be offered in the spring of odd years.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

**GCH 610 - Health Behavior Theory**

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Introduces students to the fundamentals of social and behavioral sciences, emphasizing current health behavior theories and models. Students develop an understanding of the theoretical and scientific basis of health promotion/health education interventions and develop community need and asset assessment skills.
GCH 611 - Health Program Planning and Evaluation

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Addresses the process of program planning, development, and fundamental evaluation principles, emphasizing health promotion programs. The focus is on development of clear and concise objectives leading to the design of effective primary, secondary, and tertiary prevention strategies.

Prerequisite(s): B- or higher in GCH 600 and GCH 610. Prerequisite(s) enforced by registration system.

GCH 612 - Interventions in Public Health

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Application of intervention mapping to the design of theory-based interventions for target populations; collaboration with communities to design and implement interventions; selection of evidence-based interventions (EBIs); adaptation of EBIs for new populations; dissemination of EBIs; and cultural and ethical issues related to intervention development, implementation, evaluation, and sustainability.

Notes: There are no prerequisites for the course. Students may find completion of GCH 600 or GCH 610 to be beneficial preparation for the course.

GCH 618 - Environmental and Occupational Risk Assessment

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Focuses on how environmental and occupational health risks are identified and quantitatively characterized. Introduces risk communication strategies for technical and non-technical audiences. Introduces students to the development of testable models of chemical exposure.
Corequisite(s): GCH 560.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

GCH 622 - Mental Health: A Global Perspective

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
An introduction to mental health and mental disorders; a critical view of national and international classification of disorders; an introduction to public health perspectives on mental health and mental disorders; and a review of cultural factors related to public health dilemmas and services, locally, regionally and in the global community, from a bio-psycho-social perspective.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

GCH 626 - Migrant Health

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health.
Examines principles and methods for addressing the health concerns of migrant and mobile populations, including immigrants, refugees, asylum seekers, internal migrants, and internally displaced persons.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Spring

GCH 628 - Refugee Health

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Intensive course aimed at addressing the specific health care problems and needs of refugees and internally displaced persons worldwide, the provision of basic health requirements for that population, and the coordination of care among the agencies concerned with them.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring
GCH 640 - Global Infectious Diseases

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Examines principles and methods for the prevention and control of infectious and parasitic diseases of global importance, including malaria, HIV/AIDS, tuberculosis, influenza, helminthic infections, emerging infections, and others.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

GCH 645 - U.S. and Global Public Health Systems

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Examines the organization, financing, and delivery of health services for individuals and populations in the United States and across the globe. Compares international health systems and policies.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

GCH 650 - Global Non-Communicable Diseases

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Examines principles and methods for the prevention and control of NCDs of global importance, including cardiovascular diseases, cancer, COPD, diabetes, dementias, and others.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

GCH 651 - Behavioral Research Methods

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Explores quantitative and qualitative research methods, principles and techniques necessary for implementation of health science research.

**Corequisite(s):** GCH 601 or graduate course in applied statistics

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Summer

### GCH 690 - Independent Study

Credits: 1-3  
Repeatable within Degree for Credit  
Offered by Global and Community Health  
In-depth studies of selected area of health science theory, research, or practice under direction of faculty.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

### GCH 691 - Project Management in Public Health

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Course examines project management roles and environments, the project lifecycle and various techniques of work planning, and control and evaluation to achieve project objectives. Emphasizes leadership, communication, grant writing and ethics.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

### GCH 712 - Introduction to Epidemiology

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Explores epidemiological methods for measuring population health, designing and implementing observational and experimental studies, critically reading the public health literature, and applying research findings to global and community health.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall
GCH 722 - Infectious Disease Epidemiology

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Focuses on the epidemiology of infectious and parasitic diseases. Emphasizes study design and data analysis to support the prevention and control of communicable diseases.

Prerequisite(s): B- or higher in GCH 712.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

GCH 726 - Advanced Methods in Epidemiology

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Develops epidemiological skills through the study and exploration of special topics in epidemiology. Focuses on epidemiological methods and analysis, critical review of the literature, and scientific writing.

Prerequisite(s): B- or higher in GCH 601 and GCH 712.
Prerequisite(s) enforced by registration system.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer

GCH 732 - Chronic Disease Epidemiology

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Focuses on the epidemiology of chronic diseases, including cancers, cardiovascular and lung diseases, and mental health disorders. Emphasizes study design, critical reading, and public health approaches to disease control, such as surveillance and screening.

Prerequisite(s): B- or higher in GCH 712.
Prerequisite(s) enforced by registration system.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
GCH 742 - Behavioral Epidemiology

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Focuses on applying epidemiological principles to the study of behavior and human health, emphasizing the role of behavior in public health, determinants of behavior, and research methods for studying health and disease in relation to behavior.

Prerequisite(s): B- or higher in GCH 712.  
Prerequisite(s) enforced by registration system.

Notes: Offered every other year.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

GCH 752 - Nutritional Epidemiology

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Focuses on the examination of the methodologies of dietary assessment and their application to design, conduct, analysis, and interpretation of epidemiologic studies related to nutrition. Introduces the practical application of nutritional epidemiology to health programs and policy.

Prerequisite(s): B- or higher in GCH 712.  
Prerequisite(s) enforced by registration system.

Notes: Offered every other year.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

GCH 762 - Environmental Epidemiology

Credits: 3  
Not Repeatable for Credit  
Offered by Global and Community Health  
Focuses on applying epidemiological principles to the study of the environment exposures and human health, emphasizing research methods and data analysis, critical review of research, communication of research results, and applications to public
GCH 772 - Social Epidemiology

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Focuses on applying epidemiological principles to the study of social factors and human health. Prepares students to measure population-level social determinants of health and quantitatively evaluate their relationship with health and disease. Requires students to translate information and analyses into summaries suitable for technical and non-technical audiences.

Equivalent to GCH 605 (2013-2014 Catalog)

Prerequisite(s): B- or higher in GCH 712.
Prerequisite(s) enforced by registration system.

Notes: Offered every other year.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

GCH 780 - Practicum Seminar

Credits: 0
Not Repeatable for Credit
Offered by Global and Community Health
Provides students with guidance and preparation for engaging in the public health practicum.

Notes: This course should be taken one semester prior to enrollment in the practicum course.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Spring

GCH 782 - International Research Ethics and Methods
GCH 790 - Practicum in Public Health

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
The practicum provides students with an in-depth supervised experience in an approved public health organization. The practicum will require students to complete a project related to an actual public health issue that is a focus within the organization.

Prerequisite(s): Students must be enrolled in the MPH program in good standing. Must have completed GCH 780 and 21 credit hours in the MPH program.
Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Spring, Summer

GCH 792 - Culminating Experience

Credits: 0
Not Repeatable for Credit
Offered by Global and Community Health
Provides a structured experience for students to synthesize and integrate knowledge acquired in coursework and to apply theory and principles in a situation that approximates professional practice. Serves as a means by which faculty judge whether a student has mastered public health competencies.

Prerequisite(s): Must be enrolled in the MPH program in good standing and have completed at least 21 credit hours in the MPH program.
Notes: This course should be taken during the final semester of the program. It is highly recommended that students complete all other MPH Core Courses and at least two Concentration Courses prior to enrollment in this course.
Schedule Type: IND,
GCH 794 - Global Health Research Capstone

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Provides a supervised, collaborative research experience on a global health topic that allows students to synthesize, integrate, and apply the knowledge and skills acquired in coursework.

Prerequisite(s): GCH 651
Prerequisite(s) enforced by registration system.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Spring

GCH 795 - Advanced Special Topics in Global and Community Health

Credits: 1-3
Repeatable within Degree for Credit
Offered by Global and Community Health
Advanced special topics course to address in-depth study of contemporary areas of global and community health insufficiently covered in other courses.

Prerequisite(s): Must be enrolled in a graduate program and have permission of the instructor.
Notes: Fulfills elective requirement for MS in global health degree and global health certificate program. Topics vary. May take up to 6 credits within their degree program.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

GCH 804 - Advanced Quantitative Data Analysis for Health Care Research I

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Examines factorial ANOVA, factorial ANCOVA, repeated measures ANOVA, ANOVA and ANCOVA via regression approach, and multiway frequency analysis. Students apply mathematical calculations and interpret SPSS outputs using health care research data.
Equivalent to NURS 804

GCH 805 - Advanced Quantitative Data Analysis for Health Care Research II

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Examines multivariate analysis of variance (MANOVA), multivariate analysis of covariance (MANCOVA), multiple regression (ordinary least squares), and logistic regression. Students apply mathematical calculations and use linear combinations of multivariate tests in health care research data.

Equivalent to NURS 805

GCH 806 - Advanced Multivariate Statistics and Data Analysis for Health Care Research

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Examines canonical correlation, discriminant analysis, factor analysis and causal analysis (path models and structural equation modeling). Students analyze and interpret data using these statistical techniques.

Equivalent to NURS 806

GCH 807 - Measurement Theories and Applications in Health Care Research

Credits: 3
Not Repeatable for Credit
Offered by Global and Community Health
Theories, principles, and techniques presented as foundation for the development and evaluation of instruments for use in health
care research. Includes review of statistical techniques required for understanding measurement theory, reliability, validity, item analysis, and instrument construction. Students required to design, construct, administer, analyze, and evaluate an original instrument or evaluate an existing instrument in health care research.

Equivalent to NURS 807

**Prerequisite(s):** GCH/NURS 805 or permission of instructor.
**Notes:** Completion of GCH/NURS 805 or GCH/NURS 806 is highly recommended.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

### Government and International Politics (GOVT)

Offered by the Schar School of Policy and Government (formerly SPGIA)

---

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**GOVT 103 - Introduction to American Government**

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
American government examined in light of basic concepts and institutions of democracy. Includes citizenship project, a first-hand observation or participation in and analysis of some public activity.

Fulfills Mason Core requirement in social and behavioral science.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
GOVT 132 - Introduction to International Politics

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Nature of international politics, approaches to study of international politics, state and nonstate actors in international system, patterns of action and interaction between nation-states, international institutions, and major global issues.

Fulfills Mason Core requirement in global understanding.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 133 - Introduction to Comparative Politics

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Discusses methods and subject matter of comparative political analysis. Includes political systems, politics, participation in politics, government structures, policy-making process, and evaluation of political performance.

Fulfills Mason Core requirement in global understanding.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 300 - Research Methods and Analysis

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Emphasizes asking clear, researchable questions and using appropriate evidence to answer them. Introduces broad range of evidence including quantitative and qualitative information. Studies design and analysis of surveys, government archives, case studies, and interpretations of events in journals. Examines ethical implications of information technologies.

Fulfills Mason Core requirement in information technology (all).

Notes: Required for all majors in government and international politics, and public administration. Strongly recommended before or during first semester of enrolling in 300-level courses.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
GOVT 301 - Public Law and the Judicial Process

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
American judicial organization and operation, role of the Supreme Court in policy formation, and selected constitutional principles.

Prerequisite(s): GOVT 103.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 302 - American Political Development

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines American political development, both in itself and compared to other nations. Addresses the extent to which the United States has or has not been exceptional in its development as a nation state.

Prerequisite(s): GOVT 103.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 304 - American State and Local Government

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)

Prerequisite(s): GOVT 103.
Notes: Students may not receive credit for GOVT 204 and 304.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 305 - Contemporary American Federalism

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Legal, administrative, fiscal, and political dimensions of evolving American federalism.
GOVT 307 - Legislative Behavior

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Organization, processes, functions, and roles of legislature and U.S. Congress members. Topics include state legislatures and cross-national comparisons as time and resources permit.

GOVT 308 - The American Presidency

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Survey of modern presidency, including constitutional origins of office, growth and influence of White House staff, Cabinet, presidential appointees and control of executive branch, relations with Congress, and domestic and national security policy making.

GOVT 309 - Government and Politics of Metropolitan Areas

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Government, politics, and problems of metropolitan centers and surrounding areas.
GOVT 311 - Public Opinion and Electoral Behavior

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Studies actions of voters, candidates, and political parties in relation to the expression of relevant public opinion in a democratic system.  

Prerequisite(s): GOVT 103 and 300.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GOVT 312 - Political Parties and Campaigns

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Characteristics and functions of political parties, influence of parties and other political forces on electoral decisions, and emphasis on parties' inability or ability to hold government accountable to citizens.  

Prerequisite(s): GOVT 103.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GOVT 313 - Political Psychology

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines political topics through a psychological lens. Review of theoretical approaches, methods and themes. Political psychology has been used to explore the motivation of presidents, why some groups will seek to kill off other groups through acts of genocide, how the authoritarian state can emerge, and what goes through your mind as you go to cast your ballot on Election Day.  

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

GOVT 318 - Interest Groups, Lobbying, and the Political Process

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)
Role, internal operations, strategies, and activities of interest groups. Evaluates ability of these groups to enable citizens to influence or control government and enhance democratic process. Considers conditions under which social movements become, or fail to become, effective interest groups.

Prerequisite(s): GOVT 103.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 319 - Issues in Government and Politics

Credits: 1-3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Studies special issues relevant to government and politics. Topics announced in advance. Examples include politics and the arts, ethnic conflict and the political system, gender politics, and changing dynamics in political institutions.

Prerequisite(s): GOVT 103.
Notes: May be repeated for a maximum of 9 credits when topic is different with permission of department.

Schedule Type: LEC,
SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 322 - International Relations Theory

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Advanced inquiry into international relations. Studies theories, concepts of international relations, and major forces and issues in international politics.

Prerequisite(s): GOVT 132 or 133.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 323 - Classical Western Political Theory

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Lectures, discussions of developments in Western tradition of political thought from time of Greek city-state to late medieval Christendom. Topics include nature and purpose of politics, relationship between individual and state, political significance of religion and tradition, and concept of natural law.
Prerequisite(s): GOVT 101, or 3 credits of philosophy.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 324 - Modern Western Political Theory

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Lectures, discussions of developments in Western tradition of political thought from Renaissance to mid-19th century. Topics include rise of individualism in political theory, early developments in social contact theory, theories of radical popular sovereignty, and early criticisms of liberal theory.

Prerequisite(s): GOVT 101, or 3 credits of philosophy.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 327 - Contemporary Western Political Theory

Credits: 3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Lectures, discussions of developments in Western tradition of political thought from mid-19th century to today. Different sections focus on various political theories that have been influential during this period, such as liberal, libertarian, conservative, communitarian, Marxist, feminist, and postmodern thought.
Equivalent to PHIL 327

Prerequisite(s): GOVT 101, or 3 credits of philosophy.
Notes: May be repeated for a maximum of 12 credits when topic is different.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 328 - Non-Western Political Theory

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Theory and history of political community, governance, and development as understood by various non-Western societies, including China, Japan, India, Africa, and Islamic World; relations to Western tradition; methodology of studying other cultures; postcolonial theories; and cultural politics on contemporary globalization.
Prerequisite(s): GOVT 101 or 133.
Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 329 - Issues in Political Theories and Values

Credits: 1-3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Studies special issues relevant to theoretical and value aspects of government and politics. Topics announced in advance.
Examples include ethics and politics, ethics and environmental policy, changing perspectives on civil rights and liberties, religion and politics, and changing views of public space.

Prerequisite(s): GOVT 103.
Notes: May be repeated for a maximum of 9 credits when topic is different with permission of department.

Schedule Type: LEC,
SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 331 - Government and Politics of Latin America

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Contemporary political systems of Latin America, with emphasis on institutions, political processes, and political behavior. Presents case studies of several key Latin American politics; discusses problems of political development.

Prerequisite(s): GOVT 132, 133.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 332 - Government and Politics of the Middle East and North Africa

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Societies of Middle East and North Africa and their response to impact of internal sociocultural-political determinants and external forces. Focuses on contemporary politics, ideologies, popular manifestations, institutions, and operations.

Prerequisite(s): GOVT 132, 133.
GOVT 333 - Government and Politics of Asia

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Government structures and political processes of Asian countries. Examines patterns of conflict and cooperation, and issues of economic development and political reform in rapidly changing world.

Prerequisite(s): GOVT 132, 133.
Notes: Fulfills the college requirement in non-Western culture.

GOVT 334 - Government and Politics of Europe

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines governance and political systems in Europe at the national and supranational levels, with emphasis on actors, institutions, processes, and behavior. Explores key policies in a variety of fields, such as social policy, migration, and economic and monetary union.

Prerequisite(s): GOVT 132, 133.

GOVT 336 - Political Development and Change

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Process of political development and change in context of modernization and industrialization. Examines patterns of political development, with emphasis on developing world.

Prerequisite(s): GOVT 132, 133.
**GOVT 337 - Ethnic Politics in Western Europe and North America**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Studies resurgence of ethnic nationalism in industrial democracies of Western Europe and North America, and the comparative analysis of policy issues related to ethnonationalism. Case studies drawn from the industrial democracies.

Prerequisite(s): GOVT 132, 133.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GOVT 338 - Government and Politics of Russia**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines continuity and change in Russia's Soviet era and post-Soviet era politics and international relations.

Prerequisite(s): GOVT 132, 133.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GOVT 339 - Issues in the Politics of Advanced Industrial Societies**

Credits: 1-3  
Repeatable within Term for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Studies selected current political issues in industrial democracies of Western Europe and North America. Specific topics chosen each semester to reflect contemporary political concerns in these countries, but political process in advanced industrial countries is organizing principle throughout the course.

Prerequisite(s): GOVT 103 or 133, or permission of instructor.  
Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: LEC, SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GOVT 340 - Central Asian Politics**
Comparative examination of political change in Central Asia with attention to national identity formation, political economy, political conflict, political Islam, and democratization.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 341 - Chinese Foreign Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Discusses theories and practices of Chinese foreign policy decision making, which are then used to understand China's relations with United States, Japan, Russia, Europe, and its Asian neighbors, and China's policy in issues such as human rights, environmental protection, and nuclear nonproliferation.

Prerequisite(s): GOVT 132, 133.
Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 342 - Diplomacy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)

Prerequisite(s): GOVT 132, 133.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 343 - International Political Economy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Introduces international political economy. Examines interplay of economics and politics, and applies these to different issues.
Focuses on issues of contemporary significance, with attention to historical issues and basic political and economic concepts.

**Prerequisite(s):** GOVT 132, 133; or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**GOVT 344 - American Foreign Policy**

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Central issues surrounding the conduct of America's foreign relations, with special emphasis on structural and constitutional questions, national policy objectives abroad, and conduct of foreign policy in a democracy.

**Prerequisite(s):** GOVT 132, 133.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**GOVT 345 - Islam and Politics**

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Covers politics of religion in Muslim societies; history, ideology, and practices of key individuals, movements, and institutions; case studies of political Islam in the Middle East, Asia, Africa, and the West; plurality and diversity of political expression in Muslim world; nature of democracy in Islam; and Islamic state.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**GOVT 346 - American Security Policy**

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Approaches U.S. National security policy from perspective of organization and implementation of specific policies. Applies theoretical concerns to historic cases to illuminate problems that continue to challenge country.

**Prerequisite(s):** GOVT 132, 133

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0
GOVT 347 - International Security

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores enduring security problems and new developments. Examines effects of international system on defense policies of states, particularly tensions of world caught between emerging interdependence and national demands. Encourages development of critical-thinking and group and oral presentation skills.

Prerequisite(s): GOVT 132.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 351 - Administration in the Political System

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Administrative structures and processes in political setting of public management. Presents organization and administrative theory, critiques, and current practices; and examines impact of changes in social, political, and economic environment on concepts, models.

Prerequisite(s): GOVT 103.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 353 - Social Entrepreneurship

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Introduces students to the different steps that social entrepreneurs work through to drive social change: identifying problem to address, developing a strategy to address the social need, fundraising, growing the organization, tracking results, and maximizing impact.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 354 - Third-Party Government and the Nonprofit Sector
Introduces students to the concept of third-party government and the new realities of governments employing networks of public and private actors to orchestrate the production of public goods and services. Also explores the role of nonprofit organizations as the most prominent "third parties" that governments heavily depend on in social welfare provision.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GOVT 355 - Public Personnel Administration**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Analyzes techniques and tools in human resource management including merit system, classification, compensation, evaluation, recruitment, and labor relations. Emphasizes current legal and policy issues in personnel administration, such as diversity and privatization.

Prerequisite(s): GOVT 351.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GOVT 356 - Public Budgeting and Finance**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Covers tools and techniques in budgeting and financial management in U.S. governments, including management of public financial institutions, budgetary process and reform, and relationship of public budgeting to national economic policy.

Prerequisite(s): GOVT 351.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GOVT 357 - Urban Governance and Planning**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Framework, subject matter, uses, methods, administration, and future of public planning. Emphasizes setting goals, defining
objectives, and choosing between program alternatives. Discusses political and bureaucratic constraints, and problems of implementation. Planning illustrations may be drawn from various levels of government.

**Prerequisite(s):** GOVT 351.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**GOVT 358 - Nonprofit Financial Planning**

Credits: 4  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)
Provides understanding of social mission and entrepreneurial cross pressures underlying financial planning and accounting in nonprofit sector. Topics include revenue sources and projections, entrepreneurial techniques, and cost analysis for nonprofit and nongovernmental entities. Lectures, student case studies.

**Prerequisite(s):** 60 credits or permission of instructor
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 1

**GOVT 359 - Computers in Public Management**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)
Applies computer-based techniques to management information in public sector. Focuses on the logic and implementation of computer applications, internet technology, web development, security, and mobile apps.

**Prerequisite(s):** GOVT 300.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**GOVT 361 - Introduction to Environmental Policy**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)

Environmental politics and policy making since the 1970s. Primarily U.S. focus, with some discussion of global issues. Examines policy strategies and outcomes, ethical and economic debates, political controversies, lawmaking and enforcement, and role of key players.  
Designated a Green Leaf Course.
GOVT 362 - Intermediate Environmental Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines environmental issues building on learning objectives from GOVT 361. Focuses on environmental and policy issues in the US and internationally, exploring the politics of nature and the interaction of environmental science and politics and resulting controversy. Risk and uncertainty loom large in most environmental issues. Covers "natural" disasters as well as direct "man-made" problems.

Prerequisite(s): EVPP 361 or GOVT 361 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

GOVT 364 - Public Policy Making

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Processes, agencies, and politics involved in the proposal making, implementation, evaluation, and revision of U.S. public policy.

Prerequisite(s): GOVT 103.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 365 - State and Regional Public Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines public policy decisions that affect local and state jurisdictions in context of federal system of government. Examines context, substance, and impact of such policies as housing, transportation, land use, crime prevention, service delivery, and health care.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
GOVT 366 - Public Policy Analysis

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Methods of public policy analysis, evaluation, and research. Studies design and development of alternative courses of
government action and evaluation of results, and problems in applying systematic analysis to political issues.

Prerequisite(s): GOVT 300.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 367 - Money, Markets and Economic Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Applies basic economic concepts and principles to issues facing the U.S. and global economies. Topics include productivity and
economic growth, taxes, health care, globalization, income distribution and financial crises, with an emphasis on market
structure, social institutions and the not-always rational behavior of investors and consumers.

Fulfills Mason Core requirement in social and behavioral science.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 368 - Tools for Economic Policy Analysis

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
This course outlines the economic framework for studying public policy, taking a more quantitative approach than GOVT 367.
Topics include consumer and producer behavior under different market structures, how and why markets can fail to produce
socially desirable outcomes, income distribution, and macroeconomic growth. Emphasizes using economic models to evaluate
both market outcomes and policy interventions.

Prerequisite(s): GOVT 367
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring
GOVT 398 - Study Abroad

Credits: 3  
Repeatable within Term for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Study abroad. Course topics, content, and locations vary.

Notes: GOVT 398 may only be applied to a major or minor with prior written approval from the department. A maximum of 6 credits may be applied to the BA in government and international politics, the BS in public administration, or any minor offered by the School of Policy, Government, and International Affairs.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GOVT 399 - Research Practicum

Credits: 1-3  
Repeatable within Degree for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Applies research methods in context of assisting with faculty research. Individualized sections taught by arrangement with full-time faculty. Methods adopted vary, but generally include library research, data collection, data analysis, and report construction.

Prerequisite(s): GOVT 300, and permission of instructor  
Notes: May be repeated for a maximum of 6 credits.

Schedule Type: IND  
Hours of Lecture or Seminar per week: 1-3  
Hours of Lab or Studio per week: 0

GOVT 407 - Law and Society

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Explores relationship between law and society, including concept of law; origin, development, and role of law in society; and relationship between law and social change. Assesses different approaches and methodologies.

Prerequisite(s): CRIM 100 or GOVT 301.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GOVT 409 - Virginia Government and Politics
Examines history of politics in Virginia and current political issues. Particular attention to changing dynamics of political parties, key legislative issues, and policies of recent administrations.

**Prerequisite(s):** GOVT 103.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**GOVT 412 - Politics and the Mass Media**

Credits: 3

Not Repeatable for Credit

Offered by Schar School of Policy and Government (formerly SPGIA)

Responsibilities and freedoms of mass media in democracy. Explores Influence of media on citizens' opinions, elections, and decisions of public officials.

Equivalent to COMM 412

**Prerequisite(s):** GOVT 103.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

Credits: 3

Not Repeatable for Credit

Offered by Schar School of Policy and Government (formerly SPGIA)

Examines political, economic, and social impact of public policies and implications for race, gender, and age.

**Prerequisite(s):** GOVT 103.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**GOVT 420 - American Political Thought**

Credits: 3

Not Repeatable for Credit

Offered by Schar School of Policy and Government (formerly SPGIA)

Major political values and theories in America from formation of American republic to present. Covers changes in American political values in crisis periods and contemporary American political theory including pluralism, elite theories of democracy, and empirical political theory.
Prerequisite(s): GOVT 103
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 421 - Contemporary Political Ideologies

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Studies political ideologies that shape values, beliefs, and actions of contemporary regimes and political movements. Topics include liberalism, conservatism, socialism, communism, and fascism in theory and contemporary practice; and totalitarianism and nationalism in postindustrial and developing societies.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 422 - Constitutional Interpretation

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines Supreme Court's interpretation of constitutional powers of Congress, presidency, and judiciary. Includes examination of major decisions concerning state regulation, taxation, and interstate relations.

Prerequisite(s): GOVT 103.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 423 - Constitutional Law: Civil Rights and Liberties

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Studies First Amendment freedoms of speech, press, assembly, association, and religion; right to privacy; and Fourteenth Amendment equal protection.

Prerequisite(s): GOVT 103.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 427 - Feminist Political Thought
GOVT 428 - Advanced Democratic Theory

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores various theoretical approaches to nature and justification of democracy. Topics may include liberal, communitarian, pluralist, and deliberative theories and their critics; constitutionalism; role of markets; and transnational democracy.

Equivalent to PHIL 428

Prerequisite(s): GOVT 101 or one course in philosophy
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 430 - Comparative Political Leadership

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Comparative political leadership, relationships between political cultures and types of leadership, patterns of leadership recruitment, and linkages between political elites and citizenry.

Prerequisite(s): GOVT 132, 133.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 432 - Political Change and Social Development in Sub-Saharan Africa

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines relationship of culture, history, ethnicity, and religion, and contemporary political and socioeconomic developments in Africa. Special attention to implications of ethnic conflict for nation-building in the post-Cold War period, and strategies for resolving conflicts.
Prerequisite(s): GOVT 132, 133.
Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 433 - Political Economy of East Asia

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Discusses different theoretical perspectives of East Asian political economy; transformation of East Asia; and issues such as money, finance, trade, investment, environment, and energy. Focuses on issues of contemporary significance, but attention also given to history.

Prerequisite(s): GOVT 133 and 60 credits, or permission of instructor.
Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 434 - Democracy in Global Perspective

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Comparative study of structures and performance of democracies around the world since 1975. Examines growing influence of global forces such as economy, media, and culture in process of democratization. Examines select current elections.

Prerequisite(s): GOVT 133.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 443 - Law and Ethics of War

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores sources of morality in armed conflict, and implications of such ideas for international relations. Examines content and philosophy of modern law of war.

Prerequisite(s): GOVT 132.
Schedule Type: LEC
GOVT 444 - Issues in International Studies

Credits: 1-3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Major issues in international systems, including international political economy and security.

Prerequisite(s): GOVT 132, 133.
Notes: May be repeated for a maximum of 9 credits when topic is different with permission of department.

Schedule Type: LEC,
SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 445 - Human Rights

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores philosophical, legal, and political issues at heart of modern international human rights movement. Examines historical background legal architecture of modern human rights movement.

Prerequisite(s): GOVT 132.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 446 - International Law and Organization

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Nature, sources, and subject of law of nations; law and individual; territorial questions; nature, sources, and functions of international organizations; international transactions and organizations; war and present; and future status of international law.

Prerequisite(s): GOVT 132, 133.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 447 - Revolution and International Politics
Historical overview of modern revolutions as well as different theories about causes and consequences of revolutions. Special attention to Marxist-Leninist, Arab nationalist, and Islamic revolutions.

**Prerequisite(s):** GOVT 133.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**GOVT 448 - Ethics and International Politics**

Ethics and international politics ask students to wrestle with dilemmas raised by a desire to behave morally in an international system in which consensus about ethical matters is absent. Distributive justice and use of force are two overarching themes. Students also develop, apply, and justify their own perspectives on ethical problem using philosophical theory, history, and social science research.

**Prerequisite(s):** 60 credits, and GOVT 132 or PHIL 151.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**GOVT 452 - Administrative Law and Procedures**

Law of public office. Studies procedures followed by and the legal limits on administrative agencies and their officers and employees.

**Prerequisite(s):** GOVT 351.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**GOVT 460 - Surveillance and Privacy in Contemporary Society**

Philosophical perspectives, historical context, technological developments, and institutional changes that surround controversies about privacy and surveillance in contemporary society. Explores public and private institutions doing surveillance, how they calculate and manage risk, and legal constraints on surveillance activities.
Prerequisite(s): CRIM 100.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 464 - Issues in Public Policy and Administration

Credits: 1-3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Analyzes selected policy issues in administering public policies. Topics announced in advance. Examples include environmental policy, government regulation, federal mandates, state policy, and regional policy.

Prerequisite(s): GOVT 103 plus 60 credits.
Notes: May be repeated for a maximum of 9 credits when topic is different with permission of department.

Schedule Type: LEC, SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 467 - Current Issues in Economic Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Applies basic concepts of economics, political science and ethics to some of the most pressing issues facing the U.S. and global economies. Topics include productivity and economic growth, taxes, soaring costs for health care and higher education, globalization, income inequality, financial crises, the size of government and the proper role of regulation.

Prerequisite(s): Open to PPE concentrators or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 469 - Philosophy, Politics, and Economics

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Covers issues in the philosophy, economics, and political science of institutions, information, and collective action. Through case studies of existing legal and political institutions, applies the insights to problems in politics, policy making, social theory, and social, moral, and political philosophy. (Specific content varies).

Equivalent to PHIL 460, ECON 460.
Prerequisite(s): PHIL 358, ECON 412, and GOVT 467, or permission of instructor.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 470 - Faith and Reason in the Making of the Modern Mind

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Investigates the interlocking claims of religious faith and human reason in Western culture, from Biblical times to the present. First covers tightly focused reading assignments in theology and philosophy, and second covers particular case studies, from Galileo to the Intelligent Design debate.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 471 - Millennialism and Philosophies of History in Western Culture

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Is there purpose in human history? Are we really going anywhere as humanity moves through time? This seminar studies major patterns by which thinkers in the West have discerned meaning in humanity's temporal existence. Extends from the Jewish roots of historical understanding, through Christian millennialism, to contemporary naturalism.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 472 - Christianity, Secularism, and Democracy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines the evolving relationship between religion and the American political order, from the Reformation to George W. Bush.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 480 - Internship
Credits: 3  
Repeatable within Term for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Approved internships with specific employer. Programs relate in some capacity to government, politics, public policy, or the law. Students develop individual contracts defining learning and competencies they plan to gain from the experience. For 3 credits, a minimum of 135 hours is required.

**Prerequisite(s):** GOVT 101, 103, 132, 133  
**Notes:** Contact the department one semester before enrolling. A maximum of 6 credits of GOVT 480 may be applied to a degree in government and international politics or in public administration. 3 of those credits may be applied to requirements for the major (to the advanced government field requirement for the BA in government and international politics) with prior approval of the internship coordinator. A maximum of 3 additional credits may be used for general elective credit toward the 120 credits required for the bachelor's degree.

Schedule Type: INT  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Satisfactory/No Credit.

**GOVT 490 - Synthesis Seminar**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Readings, individual or group projects, and discussion of papers reflecting on connections between liberal arts and sciences and political world.

Fulfills Mason Core requirement in synthesis.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** GOVT 300 and 18 credits in major.  
**Notes:** Students may not receive credit for 490 more than once. Course topic varies by semester.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GOVT 491 - Honors Seminar**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Readings, individual or group projects, and discussions of seminar papers.

Fulfills Mason Core requirement in synthesis.

Fulfills writing intensive requirement in the major.
Prerequisite(s): GOVT 300 and 18 credits in major.
Notes: Subject varies.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 496 - Directed Readings and Research

Credits: 1-3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Reading and research on specific topic under direction of faculty member.

Prerequisite(s): Major in government and international politics with 90 credits and permission of instructor and department.
Notes: Written report required; oral report of research may be required. May be repeated for a maximum of 6 credits.

Schedule Type: IND, LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

GOVT 500 - The Scientific Method and Research Design

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Grounds students in the principles of the scientific method as the framework for investigating all research questions in political science, whether qualitative or quantitative in character (or both). Focus is on sound and rigorous research design.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 510 - American Government and Politics

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines institutions and processes of American government, including separate institutions of power in national government, theory and practice of federal system, role of interest groups and political parties, and effects of media and public opinion on electoral behavior and policy making. Seminar examining normative and empirical research.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
GOVT 511 - Problem Solving and Data Analysis I

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Introduces fundamental statistical and quantitative techniques for analyzing social science data rigorously and soundly. Focuses on problem definition, research design, and problem solving under conditions of uncertainty in political science.

Equivalent to PUAD 511.

Prerequisite(s): GOVT 500 and passing grade on screening exam.  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GOVT 520 - Political Theory

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Analyzes selected major works of ancient, modern, or contemporary political theory that illuminate basic problems and questions for people engaged in political or civic life. Examines justice, liberty, equality, autonomy, rights, obligation, participation, and nature of politics.

Prerequisite(s): Admission to the MA in political science or permission of department.  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GOVT 530 - Comparative Politics

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines fundamental issues in comparative politics and provides broad coverage of the central themes under study. Designed to help students think theoretically and critically about the study of comparative politics, its scientific objectives, and its epistemological assumptions. Within this context, students will look at concepts and approaches, as well as important theories and debates that characterize the subfield. Helps prepare students for qualifying exams in comparative politics.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GOVT 540 - International Relations
Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Focuses on changing structure of international politics, post-Cold War security issues, effect of globalized economy and
information technology revolution, enhanced role of global corporations and nongovernmental organizations, and rise of
nonsecurity issues in emerging international agenda.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 541 - Introduction to Critical Analysis and Strategic Response to Terrorism

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Introduces terrorism as a complex threat to human security. Focuses on tools for analyzing terrorism and the underlying sources
and conditions that contribute to it. Considers similarities and differences between terrorism and other threats to human security.
Explores the lessons learned in the history of responding to terrorism. Focuses not only on different tactics of response, but also
includes how different types of societies (dictatorship, democracies, etc.) have responded to terrorism and what the results of
those responses have been. Includes case studies of responses to terrorism.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 550 - Seminar in Theories of Public Administration

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Reviews the theoretical traditions in American public administration, from the earliest days of the founding to the present.
Concludes with consideration of contemporary theoretical debates over the proper role of public administrators and controversies
about conflicting demands made on the public service and the public sector.

Prerequisite(s): GOVT 510.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 603 - Seminar in the Courts and Constitutional Law

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Analyzes role, influence, and effects of U.S. courts in creating constitutional legal norms and interpreting them. Special attention
to First and Fourteenth Amendments and Commerce Clause. Lecture and discussion; students expected to read and analyze
GOVT 604 - Seminar on Congress and Legislative Behavior

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines theories and empirical research on the U.S. Congress and legislative behavior, including elections, representation, structures, and processes. Also examines Congress' impact on the design and implementation of public policy, interactions with other branches of government, and comparisons with parliamentary systems.

Prerequisite(s): GOVT 510.

GOVT 605 - Seminar on the Presidency

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines the American presidency from a number of substantive and methodological perspectives. Readings and discussions in the course appraise the presidency within the system and focus on the role the presidency plays in formulating and implementing public policy.

Prerequisite(s): GOVT 510.

GOVT 631 - Seminar in Comparative Politics and Institutions

Credits: 3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines theories and practices of governance and development in comparative national settings. Course explores key subsets of the comparative politics literature in depth, including institutional change, regime types and transitions, democracy and authoritarianism, states and state-society relations, revolution, social movements, political cultures, and methods. Course is explicitly conceptual and cross-regional.

Notes: May be repeated for a maximum of 9 credits when topic is different.
GOVT 632 - Politics and Societies of the Middle East

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Studies the Middle East in comparative perspective, using social scientific categories of analysis. Topics include: regime types, their basis and causes; influential political trends such as Arab nationalism, Ba'athism, and political Islam; the role of kinship, religion, and tribe in opposition and regime politics; the regional oil economy and economic crisis; democratic liberalization; and the growth of civil society.

Schedule Type: LEC

GOVT 640 - Strategic Responses to Terrorism: Coordinated Decision Making

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Revisits, expands, and examines the critical themes developed in the terrorism certificate program. Provides students with the opportunity to apply the theoretical concepts developed in practice. Integrates the ideas, theories, and practices considered in this track within the larger field of terrorism analysis and strategic responses to this threat.

Corequisite(s): GOVT 541

Notes: This is the capstone course for the terrorism certificate program and must be completed in the final semester of the certificate program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 641 - Global Governance

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Applies systems approach to understanding global politics. Emphasizes properties and functions of global systems such as population, food, disease, energy, and trade, and how world's political systems interact with them. Discusses how governance at municipal, national, and international levels affected by global systems. Examines role of nongovernmental organizations in global affairs.

Prerequisite(s): GOVT 540.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
GOVT 706 - Federalism and Intergovernmental Relations

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines broad trends in governance, including theory and practice of federal, state, and local governments. May include privatization, devolution, mandating, regulatory reform, and comprehensive federalism reform.

Prerequisite(s): GOVT 510.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 712 - Problem Solving and Data Analysis II

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Advanced techniques and skills for solving policy-related problems or analyzing political data. Focuses on data gathering and analysis, use of statistical software, and multivariate analysis.

Prerequisite(s): GOVT 511.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 713 - The Constitution, Criminal Procedure, and Security

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explains legal doctrines that form basis of U.S. constitutional procedural rights, how these doctrines develop, and why courts rule as they do. Evaluates strengths, weaknesses of these rights.

Prerequisite(s): CRIM 720/GOVT 728, or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 717 - Qualitative Methods

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Focuses on scientific design of qualitative research questions and use of specific qualitative methods in scientific analysis. Covers when and how to use qualitative research methods to answer empirical questions in political science; primary data collection methods (interviews, observations, document review); the appropriateness of different research approaches; procedural and ethical concerns that may arise in use of qualitative methods.

Prerequisite(s): GOVT 511 or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 719 - Issues in American Politics

Credits: 3
Repeatable within Degree for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines significant issue in American politics and political behavior. Analyzes topic of contemporary and emerging concern.

Prerequisite(s): GOVT 510.
Notes: May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 725 - Democratic Theory

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines democracy in terms of versions of liberalism, theories of social capital and civic participation, and discourses about civil, political, and human rights. How is democracy conceptualized normatively and empirically? What underlying economic, social, and cultural conditions promote democracy? What role do institutions play in creating and sustaining a stable democratic society? Takes a broadly comparative perspective, focusing on variety of established and emerging democracies around the world. Elective for students specializing in American government or international politics and comparative governments.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 726 - Theories of Justice

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Overview of ancient and modern theories of justice with application to contemporary issues involving justice system and other social and political institutions.
GOVT 727 - Restorative Justice

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Origins of restorative justice, its principles, implications for different justice organizations and processes, and application to problems such as family violence, human rights, and reconciliation following mass victimizations.

Prerequisite(s): CRIM 700, GOVT 726, or permission of instructor.

GOVT 728 - Behavior of Law

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines development of law, and law's effect on human behavior. Reviews theories of law's meaning and aims. Examines construction of law, and investigates consequences of law and legal decisions.

Equivalent to CRIM 720

GOVT 731 - Advanced Seminar in Comparative Politics

Credits: 3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Assumes basic proficiency in comparative analysis. Regionally based examination of key debates in the comparative politics field. Key theoretical and methodological debates are addressed through in depth examination of regional political processes. Regions include Latin America, Asia, Middle East, European Union, Africa, and Russia.

Prerequisite(s): GOVT 530.
Notes: May be repeated for a maximum of 6 credits when topic is different with permission of department.
GOVT 732 - Comparative Justice

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Survey of justice systems and their environments in different lands and cultures. Identifies commonalities and differences among justice systems, evaluates them, and considers policy implications.

Prerequisite(s): CRIM 700/ GOVT 726, or permission of instructor.  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GOVT 733 - Islam and Politics

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Provides an overview and understanding of the multifaceted nature of political Islam in the contemporary world. Covers brief history of Islam, formation of modern states in the post-colonial Muslim world, nature of contemporary Islamic radicalism and militancy and the future of Islamism.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GOVT 734 - Democratization

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines concepts and concrete cases of democratization and cases where democratization is absent or incomplete. Investigates methods for measuring democracy and authoritarianism; the role state and society play in political change; the effects religion, the military, ethnic division, and technology have on government reform; and the extent to which international actors can encourage democratization.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GOVT 735 - Comparative Public Management

Credits: 3  
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines the comparative decision environments for public managers and policy elites in the OECD countries generally, focusing on four models: 1) Franco-Japanese model, 2) German concentration model, 3) "Anglo-Saxon" (United States) model, 4) Chinese model.

Notes: May apply to elective credit in the fields of comparative politics and public administration.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 739 - Issues in Comparative and International Politics

Credits: 3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores issues of contemporary and emerging concern in comparative and international politics.

Prerequisite(s): GOVT 540.
Notes: May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC,
SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 741 - Advanced Seminar in International Politics

Credits: 3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines theoretical and methodological issues central to study of international relations by focusing on specific topic: American foreign policy, diplomacy, international law and organization, international relations theory, international ethics, human rights and humanitarian intervention, the environment, and others.

Prerequisite(s): GOVT 540.
Notes: May be repeated for a maximum of 9 credits when topic is different with permission of department.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 742 - International Negotiation

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines frameworks and perspectives that have guided scholarly work on negotiation. Students will analyze complex cases of negotiations in the areas of security, trade, and the environment, and practice negotiating key security and environmental issues on the agendas of nations and international organizations.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GOVT 743 - International Political Economy**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines interplay of international politics and economics. Discusses theoretical perspectives and analytical tools in academic field of international political economy, and applies theories and tools to trade, investment, exchange rates, development, regionalization, and globalization. Explores how international economic and political forces increasingly shape domestic interests, and how domestic politics affect international political economy. Lecture, discussion.

Prerequisite(s): GOVT 343 or equivalent.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GOVT 744 - Foundations of Security Studies**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Introduces students to a selection of the original sources of the most important ideas that form the basis of security studies as a subfield of political science.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**GOVT 745 - International Security**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines interplay of international politics and international security. Discusses theoretical perspectives and analytical tools in academic field of international security, and applies theories and tools to nuclear, biological, and chemical weapons, strategy and defense, and arms control. How domestic issues affect defense policies, terrorism, changing nature of international conflict, and human security will be examined.

Prerequisite(s): GOVT 540.  
Schedule Type: LEC
GOVT 746 - Media and International Affairs

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines government/media interaction and media coverage of war and foreign policy since Vietnam and considers a range of critical policy questions.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 753 - Third-Party Governance

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines design and management of government programs that rely on other levels of government and the private sector for delivery, with focus on such governmental tools as contracts, grants, loans, regulation, and tax credits.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 755 - Seminar in Politics and Bureaucracy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores research and theory on political causes and effects of actions of government bureaucratic agencies. Readings examine origins of agencies, influences on decisions and programs, sources of internal and external accountability, pathologies of bureaucracies, and contributions bureaucracies make on effective and just governance.

Prerequisite(s): GOVT 510.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 758 - Homeland/Transportation Security Administration
Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines the terrorist attacks of 9/11, vulnerabilities of the aviation security at that time, failure of elected officials and administrators to act more decisively to improve security before 9/11, and the policy and administrative responses to the 9/11 attacks, including the creation of the Transportation Security Administration and the Department of Homeland Security. Includes the development of radical Islam and the rise of Osama bin Laden and Al Qaeda.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 759 - Issues in Public Administration and Management

Credits: 1-3
Repeatable within Degree for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Current issues in administration and management of public organizations in contemporary American government. Includes practical applications of theories and analysis to managerial problems. Emphasizes competence in improving management in selected government settings.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 794 - Internship

Credits: 1-6
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Work-study program with specific employers.

Prerequisite(s): Admission to graduate program and 12 credits.
Notes: Contact internship coordinator one semester before enrollment. Credit determined by department. May be repeated for a maximum of 6 credits.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

GOVT 796 - Directed Readings and Research

Credits: 1-6
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)

Prerequisite(s): 15 credits of GOVT courses at 500 level and above, and permission of instructor.

Notes: Written paper required.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

GOVT 798 - Political Science Research Project

Credits: 3
Not Repeatable for Credit

Prerequisite(s): 24 credits.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Grading: Graduate Special

GOVT 799 - Political Science Thesis

Credits: 1-6
Repeatable within Term for Credit

Prerequisite(s): 24 credits, and approval of thesis proposal.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0

Grading: Satisfactory/No credit only

GOVT 800 - PhD Research Seminar

Credits: 3
Not Repeatable for Credit

Offered by Schar School of Policy and Government (formerly SPGIA)

Provides an opportunity for PhD students in political science to present and refine independent research, and to further improve understanding of social scientific method as they prepare for conference presentations, qualifying exams, and subsequent dissertations.
Notes: Open to PhD students in political science only.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring.

GOVT 810 - American Political Development

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Advanced graduate-level seminar on historical roots of American politics. Examines political culture and historical development of U.S. institutions, and how laws and programs have been affected by historical and cultural development.

Prerequisite(s): GOVT 510.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 811 - Advanced Seminar in American Institutions

Credits: 3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Advanced graduate-level seminar on specific topics of contemporary research and theory in American governmental institutions. Topics vary to include presidential politics, Congress, and politics of the judiciary. Readings include classic and contemporary literature. Seminar format with discussion, student presentations.

Prerequisite(s): GOVT 510.
Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 815 - Advanced Seminar in Political Behavior

Credits: 3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Advanced graduate-level seminar on specific topics of contemporary research and theory in American political behavior. Topic varies to include political parties, electoral politics, public opinion and voting behavior, interest groups, and lobbying. Readings include classic and contemporary literature. Seminar format with discussion, student presentations.

Prerequisite(s): GOVT 510.
GOVT 820 - Advanced Topics in Political Thought

Credits: 3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Advanced graduate-level seminar on topics of contemporary research and theory in political thought. Topics vary to include political ideologies, feminist theory, and political theory. Seminar format with discussion, student presentations.

Prerequisite(s): GOVT 520.
Notes: May be repeated for a maximum of 9 credits when topic is different.

GOVT 831 - Research Seminar in Regional Political Culture and Development

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Advanced graduate-level seminar on theories of political culture and economic development applied to Middle East, Latin America, Asia, and Africa. Debates economic growth and development from broad and rigorous analytical base.

Prerequisite(s): GOVT 540.

GOVT 841 - Ethics and Human Rights in International Affairs

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Seminar on ethical behavior in an international system in which consensus about ethical matters is absent. Overarching themes are distributive justice, human rights, and use of force. Students develop, apply, and justify their own perspective on an ethical problem using ethical theory and social science research.

Prerequisite(s): GOVT 540.
GOVT 843 - Diplomacy

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Advanced graduate seminar on theory and practice of diplomacy; alliance construction and destruction; coercive and cooperative diplomacy; diplomacy of certain great powers such as America, Russia, China, France, and Japan, and small and revolutionary powers. Also examines diplomacy and the media, and day-to-day diplomacy.

Prerequisite(s): GOVT 540.  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GOVT 850 - Advanced Seminar in Public Administration Research and Theory

Credits: 3  
Repeatable within Degree for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Focuses on a topic of central concern in contemporary public administration research and theory. Content of the seminar varies but includes such topics as organizing for homeland security, managerial and political effects of e-government, or the application of principal-agency models in public management.

Prerequisite(s): GOVT 510, 650.  
Notes: May be repeated for a maximum of 9 credits when topic is different.  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GOVT 851 - Doctoral Seminar in Theories of Organization and Bureaucracy

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines key issues in organization theory and behavior. Issues include organization design; interorganizational coordination, intelligence and decision making systems; leadership and motivation theories; and theories or organizations as agents of political and social change. Uses case studies.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GOVT 852 - Seminar in Political Leadership
GOVT 853 - Advanced Seminar in Global Innovations in Public Finance

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores how financial decisions by government jurisdictions are affected by global competition and global markets. The impact of cross-national movements of capital and information on tax, tariff, and interest rate policies will be examined, as will the numerous organizations, such as the World Bank, that have been created to reduce the impact on developing nations. Government and supernational efforts to deal with the unintended consequences and global capital flows will also be examined.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GOVT 998 - Doctoral Dissertation Proposal

Credits: 3-6
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Work on research proposal that forms basis for doctoral dissertation.

Prerequisite(s): Advancement to candidacy.
Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

GOVT 999 - Doctoral Dissertation Research

Credits: 1-12
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Research on approved dissertation topic under direction of dissertation committee.

Prerequisite(s): Approval of dissertation proposal.
Notes: May be repeated for up to 9 credits in a semester, but no more than 15 total.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

Graduate School of Business (GBUS)

Offered by the School of Business

GBUS 510 - Engineering Marketing and Financial Analysis

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Provides overview of key ideas & methods used in financial accounting and marketing in the context of applications in engineering. Designed to enable engineering professionals to appreciate business perspectives by developing familiarity with concepts and analytical approaches from accounting (financial statements, difference between cash and accrual approaches, and cost accounting) and marketing (market research, pricing, and branding).

Prerequisite(s): Admission to any George Mason graduate engineering program or senior plus standing in a George Mason undergraduate engineering program.
Schedule Type: LEC

GBUS 540 - Analysis of Financial Decisions

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Provides a survey of financial decision-making. Assists students with developing a framework within which they can understand the linkages between financial decisions and organizational performance. Examines methods for using information based on financial statements in making decisions and assessing performance, evaluating investment opportunities, and choosing among alternative sources of funds. Focuses on public firms in the corporate sector as well as applications for privately-held companies and organizations in the government and non-for-profit sectors.

Prerequisite(s): Graduate admission or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GBUS 550 - Strategic Thinking
Focuses on strategy formulation and implementation. Introduces the critical business skills of planning and managing strategic activities and focuses on role of strategic managers in generating competitive advantages. This course aspires to impart the participants with the skills necessary and appropriate for strategy analysis, formulation, implementation and control.

Prerequisite(s): Graduate admission or permission of program director.
Schedule Type: LEC

GBUS 551 - Leadership

Distinguishes between leadership and management, and focuses on the critical roles and functions of leadership, including communication ability, use of power and influence, providing direction, aligning an organization's systems, motivating a workforce, and creating a culture for effectiveness. Focuses on strategies for developing oneself as an effective leader. Integrates theory, research, and applications.

Prerequisite(s): Graduate admission or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

GBUS 696 - Directed Studies in Graduate School of Business

Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum.

Prerequisite(s): Permission of the program director.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

GBUS 697 - Special Topics in Graduate School of Business

Sections established as necessary to focus on various topical issues that emerge in practice of business.
Equivalent to GSOM 697 (2014-2015 Catalog).

**Prerequisite(s):** Permission of the program director.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**GBUS 720 - Marketing Analytics**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Marketing analytics is a systemic approach to harnessing data/information to drive effective marketing decision making. The objective of this course is to equip you with the tools required to address fundamental marketing decision problems using a data-driven approach. It will train students to view the marketing processes and relationships systemically and analytically.

Equivalent to MBA 720.

**Prerequisite(s):** Grade of B or higher in (STAT 515 or STAT 554) AND GBUS 738 or equivalent.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**GBUS 721 - Marketing Research**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Develops skills to plan and implement effective marketing research studies. Topics include research design, data collection, statistical analysis, and use of database systems. Offers perspective on how managers can use market data to develop successful product or service strategies.

Equivalent to MBA 721.

**Prerequisite(s):** Grade of B or better in (STAT 515 or STAT 554).
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**GBUS 738 - Data Mining for Business Analytics**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business.
Examine how data warehouses and data mining are used to help businesses successfully gather, structure, analyze, understand
and act on relevant data, both operational and contextual.

Equivalent to MBA 738

**Prerequisite(s):** Grade of B or better in (STAT 515 or STAT 554).
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**When Offered:** Fall, Spring

**GBUS 739 - Advanced Data Mining for Business Analytics**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business

This course covers business analytics using advanced data mining methods for the purposes of developing predictive models and forecasting. The course will develop the concept of feature selection to identify what dimensions to best use for constructing decision making models.

Equivalent to MBA 739.

**Prerequisite(s):** Grade of B or better in (STAT 515 or STAT 554) AND a B or better in GBUS 738 or equivalent.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

**GBUS 744 - Fraud Examination**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business

Introduces strategies and techniques for fraud prevention and detection. Focuses on financial fraud such as bribery, contract rigging and kickbacks, embezzlement, fraudulent financial reporting, payroll fraud, and misappropriation of inventory and other assets.

Equivalent to MBA 744.

**Prerequisite(s):** Grade of B or better in (STAT 515 or STAT 554).
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

**GBUS 746 - Real Estate Analysis and Valuation**

Credits: 3  
Not Repeatable for Credit
Offered by School of Business
Overview of real estate assets, markets, and decisions. Emphasizes development of analytical techniques and information required for implementation. Includes legal, economic, and public policy perspectives.

Equivalent to MBA 746; GSOM 746 (2014-2015 Catalog).

**Prerequisite(s):** Graduate admission or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**GBUS 747 - Real Estate Finance**

Credits: 3
Not Repeatable for Credit
Offered by School of Business

Examines financing of residential and income-producing real estate from perspectives of both suppliers and users of funds. Focuses on financing alternatives, primary and secondary markets, and decision implications of available arrangements.

**Prerequisite(s):** Graduate admission or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**GBUS 748 - Real Estate Investment**

Credits: 3
Not Repeatable for Credit
Offered by School of Business

Develops frameworks for analyzing decisions about investing in real estate assets. Focuses on acquisition and analysis of information required to evaluate potential performance of assets. Applications of theories and techniques through case studies.

Equivalent to MBA 748; GSOM 748 (2014-2015 Catalog).

**Prerequisite(s):** Graduate admission or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**Greek (GREE)**

Offered by the College of Humanities and Social Sciences
GREE 150 - Classical Greek I

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Addresses linguistic, semantic, and cultural aspects. Covers basic structure and vocabulary, its place among other world languages and its unique role in development of modern thought.

Notes: Lectures, discussions supplemented by web-posted material.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

GREE 160 - Classical Greek II

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Expands proficiency, refines grasp of morphology and syntax, and fosters greater command of vocabulary. Introduces selected original passages from Greek classical authors.

Prerequisite(s): GREE 150 or permission of instructor.  
Notes: Lectures, discussions supplemented by web-posted material.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

Health Administration and Policy (HAP)

Offered by the College of Health and Human Services

HAP 201 - Health Professions Careers

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Acquaints students early in their college education with a variety of health professions careers. Provides overview of the health care system, and identifies the current supply and demand for health care professionals. Presents information about educational and licensing requirements as well as expected salaries. Defines professionalism and outlines the principal rights and responsibilities of being a health care professional.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
HAP 202 - Medical Terminology
Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Prepares students with a basic understanding of medical terminology needed to work in a wide variety of healthcare environments.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 290 - Lifestyle Management
Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
In this introductory course on practical application of Bayesian causal modeling techniques and Statistical Process Control tools, students make resolutions and analyze their progress toward goal achievement. Each student maintains a diary and analyses it using Bayesian causal modeling techniques to understand the constraints and causes leading to their success and failures. Students analyze their pattern of success using Statistical Process Control tools and engage cyclical assessment of their self improvements.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 301 - Health Care Delivery in the United States
Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Introduces history and current structure and function of U.S. health care delivery. Explores components and subsystems of health care, and sociopolitical (public and private) context that shapes system and affects access to health care and delivery of health services.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 308 - Public Health Informatics
Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Provides students with a basic understanding of public health Informatics and its applications. Students will understand the basic technological tools and building blocks needed to utilize these tools in to improve their personal and professional productivity.

HAP 318 - Introduction to IT Methods for Healthcare

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Reviews computer hardware and software with applications in healthcare. Covers basic features of operating systems (Windows and Linux), reviews use of basic office applications and introduces their advanced features. Introduces advanced tools to access and analyze healthcare data. Introduces basic programming concepts.

Prerequisite(s): IT 103 or IT 104 or equivalent.
Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 2
When Offered: Fall, Spring

HAP 360 - Introduction to Health Information Systems

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
An introduction to basic information management in health care service organizations. Provides an overview of health information systems for selected administrative functions and clinical care services, including electronic data interchange for billing and claims management, institutional approaches to ensuring data security and privacy, and information management and decision support for managers and clinicians.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 361 - Health Databases

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Introduces students to the design and use of various health and healthcare databases, and provides hands-on experience with database design and use. Reviews database management systems. Examines the application of databases for both clinical and managerial purposes.

Prerequisite(s): HAP 360
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
HAP 392 - Human Resources Management in Healthcare

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Exposes students to the major issues, laws, administrative processes, procedures, and psychological factors to be considered when developing a human resources management system in healthcare organizations.

Prerequisite(s): HAP 301.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 395 - Health Care Finance

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Introduces finance in health care organizations. Reviews issues in reimbursement structures, regulatory mechanisms, cost control, and related factors affecting financial management of health service organizations including financial decision support skills.

Prerequisite(s): HAP 301
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 396 - Strategic Health Management and Planning

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Introduces past and present interventions that affect supply and demand for health care at community, state, regional, and national levels. Presents health planning and regulatory entities, and discusses strategic and program planning in context of current economic and market conditions.

Prerequisite(s): HAP 301
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 403 - Assisted Living/Senior Housing Management and Philosophy

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Overview of growth of assisted living industry, its role in health care continuum, current or proposed regulatory environments, and differences between assisted living and other forms of senior health care and senior living services. Specific instruction provided in philosophy and day-to-day management of assisted-living communities, including resident care, operations, finance and budgeting, human resources and staffing, and successful marketing and community relations. Also examines industry future, including cutting-edge programs and technologies, and approaches to creating next generation of assisted-living services.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**HAP 404 - Senior Housing Sales and Marketing**

Credits: 3

Not Repeatable for Credit

Offered by Health Administration and Policy

Introduction and analysis of sales and marketing practices within senior housing environments, including but not limited to Active Adult (55+), assisted living, Alzheimer's assisted living, and Continuing Care Retirement Communities (CCRC's).

**Prerequisite(s):** HAP 301

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**When Offered:** Fall

---

**HAP 410 - Introduction to Health/Medical Practice Management**

Credits: 3

Not Repeatable for Credit

Offered by Health Administration and Policy

An introductory course in the leadership and management of ambulatory health service practices and small provider organizations. Content covers a variety of health/medical practice management functions, including administrative systems, operations and strategies for effective management of quality, efficiency and business performance (contracts and marketing), and human resources. Trends in practice integration and affiliations with multiprovider groups and larger enterprises will be covered.

**Prerequisite(s):** HAP 301

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**HAP 416 - Leadership and Management of Health Systems I**

Credits: 3

Not Repeatable for Credit

Offered by Health Administration and Policy
Introduces theoretical concepts and their application to the leadership and management of effective health care organizations. Explores the structure and function of health-related organizations and selected administrative and operational issues in program development and service design, emphasizing strategies for effective performance management, decision making, and communication.

**Prerequisite(s):** HAP 301. Completion of HAP 300-level course requirements.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**HAP 417 - Leadership and Management of Health Systems II**

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Explores challenges to providing effective leadership and management of health care organizations and systems of care related to operational issues such as personnel management and labor relations, information management, conflict and goal alignment, financial management, accountability, and quality and safety improvement. Focuses on identification of management skills, technology, and strategy that influence optimal performance and communication between clinicians, administrative staff, and managers.

**Prerequisite(s):** Completion of HAP 416.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**HAP 420 - Management of Project Resources**

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
An introductory course in the management of project resources, including, but not limited to, assessing return on investment for projects and costing out resources needed in project subtasks. Includes hands-on application of project management tools as they are applied in the health-related organization and the health service industry. Also includes a variety of variables that may affect cost control and cost variation, including the impact of finishing projects in shorter time frames than originally planned and activity-based costing.

**Prerequisite(s):** HAP 360 and HAP 378  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**HAP 425 - Health Economics and Policy**

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy
An introduction to the role of economics in health care policy. Concepts used by economists to analyze health outcomes, health behaviors, health care markets, health insurance markets, and the role of government. Concepts are linked to current health policy debates, Relevance and limits of the health economics approach to analyzing health issues are discussed.

**Prerequisite(s):** ECON 103

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**HAP 430 - Process Improvement in Healthcare Organizations**

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Introduction to the process of quality management in health care organizations. Principles of quality management and guidelines for implementing total quality in health care are discussed, and differentiation between quality assurance and quality management presented.

**Prerequisite(s):** HAP 301.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**HAP 436 - Electronic Health Data in Process Improvement**

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  

**Schedule Type:** LAB, LEC

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 2

**When Offered:** Fall, Spring

---

**HAP 440 - Mobile Health**

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Introduces emerging technologies used in Mobile Health (mHealth). Students will examine the impact and potential of mobile devices on health. Students will conceptualize and design health apps that incorporate evidence-based guidelines and capitalize on the mobility, portability, and input and output capabilities of smartphones and tablets.
HAP 442 - Introduction to Health Care Politics and Policy

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Reviews health care system issues and trends, and economic concepts, ways to understand the critical role of public health policy and the policy-making process in the United States. Identifies the major political institutions and policy processes that shape health policy. Examines the past and present health policy and its impact on changes in the ability of patients to access health services, the practice of health sciences professionals, and the quality and process of care. Explores the role of politics at both the federal and state government in health policy-making and critical aspects of the U.S. health system are compared to those of other countries.

Prerequisite(s): HAP 301

HAP 445 - Introduction to Health Services Research

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
An introductory course for undergraduate students in understanding the basic methods of interdisciplinary health services research and program evaluation in health systems and policy. Emphasis is placed on understanding, assessing and using relevant findings from health services research. The course covers a variety of topics related to policy, management, and program evaluation in health delivery systems.

HAP 459 - Health Data Standards and Interoperability

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Introduction to prevailing and emerging data standards applicable in health information technology. Students will learn about standard-making organizations, such as HL7 and Healthcare Information Technology Standards Panel (HITSP), and their standardization processes. The structure of and relationship between standard terminologies applicable in healthcare, such as International Classification of Diseases (ICD-10-CM), Logical Observation Identifiers Names and Codes (LOINC) and Systematized Nomenclature of Medicine--Clinical Terms (SNOMED-CT), will be explained.
**HAP 460 - Information Technology Project Management**

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Identifies methods and skills for managing health care information technology (IT) projects. Students learn tools such as critical path analysis, resource management, crashing projects, vendor selection, quality assessment, and risk analysis.

**Prerequisite(s):** HAP 360  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HAP 461 - Internet and Web Technology Applications for Healthcare**

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Introduces students to the major applications of Internet and Web technology in healthcare. Two major applications are studied: online promotion/marketing for consumer-oriented health web sites, and online Personal Health Records (PHR). Students will learn about Search Engine marketing and the practical skill of creating an online health marketing/promotion campaign. They also will learn to create and manage PHR. The technological challenges such as reliability, privacy, security and organizational barriers to adoption are discussed.

**Prerequisite(s):** HAP 360  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HAP 462 - Privacy and Security in Health Informatics**

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Health information security and privacy issues in the current healthcare system. Evaluates methods to achieve privacy and security. Discusses the important role of sound security policies and procedures; looks into technical solutions and non-technical solutions for achieving privacy and security.

**Prerequisite(s):** HAP 360  
**Schedule Type:** LEC
HAP 463 - Aging and Health Care Policy

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Introduces issues and controversies surrounding need to sustain viability of Medicare, Medicaid and Social Security. Provides insights on the interaction of health policy, health economics, and aging of the population to help students understand and participate in ongoing debates about key U.S. entitlement programs. Provides skills in policy process and analysis as applied to aging and health policy.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HAP 464 - Electronic Health Record Configuration and Data Analysis

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Covers basic features and functionalities of an electronic health record (EHR). Introduces methods to access and analyze patient data from an EHR. Provides students with hands-on experience on EHR systems.

Schedule Type: LAB, LEC  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 2  
When Offered: Fall, Spring

HAP 465 - Integration of Professional Skills and Issues

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Assists students in synthesizing the varied dimensions of their roles as health professionals in a global society. Provides opportunities to examine issues in health care through reflection on the natural and behavioral sciences, humanities and other prerequisite coursework. Selected topics examined through writing, presentation, reading and discussion. (Writing intensive course).

Fulfills Mason Core requirement in synthesis.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Senior standing.  
Schedule Type: LEC
HAP 467 - Advanced Information Technology Project Management

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Teaches project management methods and techniques with focus on health IT projects. Covers knowledge, skills, and abilities associated with certification (Certified Associate in Project Management).

Prerequisite(s): HAP 460 or HAP 417 or equivalent.
Notes: Certification is not provided in this course.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

HAP 468 - Health System Reform Policy Debates

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Introduction to competing views about US health system reform. Financing, insurance, delivery system and federalism issues will be covered, using theme of personal vs. collective responsibility. Topics include: determinants of health; private insurance markets, regulation, and public insurance; sources of and alternative solutions to inequitable access, poor quality and excess cost growth. Emphasizes evidence, beliefs, and self-interest behind competing visions.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 480 - Research Internship in Health and Human Services

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
The student works as a member of a team engaged in health and human services research and attends a bi-weekly research seminar. Under direction of the course seminar leader and the faculty research mentor, the student will acquire selected research skills and develop introductory research writing and presentation skills.

Equivalent to HHS 480, SOCW 480.

Prerequisite(s): Open only to CHHS majors or students who have completed CHHS minor or certificate courses.
Schedule Type: INT
HAP 489 - Pre-Internship Seminar

Credits: 1
Not Repeatable for Credit
Offered by Health Administration and Policy
Provides students with guidance and preparation for engaging in the internship.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

HAP 494 - Special Topics in Health Administration and Policy

Credits: 3
Repeatable within Term for Credit
Offered by Health Administration and Policy
Selected topics analyzing specialized areas in health administration and policy.

Notes: Content varies. Lecture, seminar, laboratory, and workshops.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 498 - Health Administration Internship

Credits: 6
Not Repeatable for Credit
Offered by Health Administration and Policy
Provides variety of applied management experiences in a health systems or related organization (field agency), under the direction of a HAP faculty member and a preceptor in the field. Students integrate and apply critical-thinking, project-planning, and management and communication skills in the internship experience and toward completion of an approved internship project.

Prerequisite(s): Open to HAP majors only.
Notes: Taken in last semester of studies. Capstone course involves a two-hour weekly seminar and a 12-hour internship in a health-related organization. Not repeatable for credit.

Schedule Type: INT
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 12
HAP 499 - Independent Study in Health Administration and Policy

Credits: 1-6
Repeatable within Term for Credit
Offered by Health Administration and Policy
Provides individual study of a particular problem area in health administration and policy research, theory development, or education under the direction of faculty.

Prerequisite(s): Permission of instructor and department.
Notes: May be repeated for maximum 6 credits.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

HAP 511 - Ethics in Public Health

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Explores selected ethical issues in public health practice, research, and policy; specific ethical theories identified as the proper basis of public health; relevant ethical concepts and principles and how they inform existing public health policies, practices, and research; and how ethical reasoning can operate in public health practice, research, and policies.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 594 - Special Topics in Health Care

Credits: 3
Repeatable within Degree for Credit
Offered by Health Administration and Policy
Selected topics analyzing specialized areas in health care.

Equivalent to (2015-2016 Catalog) GCH 594/NURS 594

Notes: Content varies. Lecture, seminar, laboratory, and workshops.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 601 - E-Commerce and On-line Marketing for Health Services
Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Explores development of online health services; organization of online businesses; online marketing, financial, and clinical transactions; and venture capital and the IPO process. Explores creating and maintaining web pages and databases. Reviews literature on effect of computer services on patient care and health care organizations. Also reviews examples of both successful and bankrupt technology firms in health care. Student groups draft business plan and develop early version of service proposal.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 602 - Statistics in Health Services Management

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
An introductory course in basic statistics applied to applications in health systems management. Students use spreadsheet applications to perform a variety of statistical analyses (parametric and nonparametric statistics, including regression) to support program evaluation and managerial decision making in health systems.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 605 - Introduction to Health Policy

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
An introductory survey to the process and politics of health policy as it relates to the delivery and financing of health care in the United States. Examines the major public and private sector institutions responsible for health policy development, the interaction of these institutions and their competing interests to create and implement health policies, and public programs providing health coverage and services. Classroom and field experience involved.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 609 - Comparative International Health Systems

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Uses Roemer's Model of Health Systems to examine resource allocation, management, and health outcomes in the United States and around the globe. The structure and functioning of national health systems based on geographic location and governance in developing and developed countries (democracies, monarchies, and communist nations). Resource allocation across the
continuum of nations and relationship to national health needs, health status, and longevity are examined.

**Notes:** An online course in comparative international health care systems.

**HAP 610 - Health/Medical Practice Management**

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Regulatory pressures, technology, managed care contracting, revenue cycle management, and legal issues are making medical practice management more complex. Physicians groups struggling with these demands are finding a need for sophisticated management. Prepares the student to manage the modern practice by providing a foundation in the leadership and management of ambulatory health services and small provider organizations.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HAP 612 - Maintaining Business Continuity in Health Care**

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Considers potential types of catastrophes, their likely impact, and how organizations could continue their mission in the aftermath. Explores interdependences among various components of the health care delivery system, regional health services, disaster planning, business record protection, patient information and information systems protection, manpower planning, professional credentialing, access to supplies and drugs, and financial implications and resources.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HAP 615 - Revenue Management for Clinical Practices**

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Assists healthcare leaders and managers to become more effective decision makers, problem solvers, and communicators in revenue and financial management of clinical practices.

**Prerequisite(s):** HAP 610.  
**Schedule Type:** LEC
HAP 618 - Computational Tools in Health Informatics

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Introduces computational tools used in health informatics. Reviews hardware and software needs and uses. Topics covered include operating systems, virtualization and high performance computing, basic programming in a scripting language, basic data analysis and data integration skills, and use of specialized software. All topics are covered in context of specific solutions used in health information systems.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1
When Offered: Fall

HAP 621 - Organization Behavior and Healthcare Leadership

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
This is an introductory course in the application of organizational behavior and theories of leadership to the management of interdisciplinary teams and decision making in healthcare organizations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 622 - Healthcare Information Systems Analysis and Design

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Introduces system analysis, modeling, design, and management of large-scale healthcare information systems. Describes both traditional and data-driven analysis and design methods. Different aspects of systems analysis and design are illustrated using examples from healthcare industry case studies applied to a group project.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring
HAP 632 - Grants Funding and Development

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Provides knowledge of private and public funders, funding mechanisms, tools and resources. Includes content on private and government funding streams relevant to public health, hospitals and other non-profit health related entities, interpretation of funder motivations and engagement strategies; essential skills for developing externally funded projects; grant proposal writing and grant requirements; assessment skills/strategies and award management/stewardship.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 645 - Introduction to Health Services Research

Credits: 3
Repeatable within Degree for Credit
Offered by Health Administration and Policy
An introductory course in the basic methods of interdisciplinary health services research and program evaluation in health systems and policy. The course covers topics related to policy, management, and program effect and evaluation within health delivery systems, including research design, existing data systems, measurement of quality and basic cost benefit, and effectiveness analysis.

Prerequisite(s): HAP 678 (if required in program of study).
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 647 - Regulatory Requirements for Health Care Systems

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Helps health care professionals understand link between infrastructures of organization and regulatory and accreditation processes for health care organizations. Covers major accrediting agencies and their roles, accreditation principles, and survey process. Focuses on hospitals with reference to ambulatory care, managed care organizations, rehabilitation centers, laboratories, and home health and long-term care facilities. Emphasizes requirements of Joint Commission on Accreditation of Health Care Organization and regulations mandated by Health Care Finance Administration.

Equivalent to HAP 447.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
HAP 650 - Senior Housing Management and Operations

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Issues, trends, and practices related to administration of assisted-living and senior housing communities. Emphasizes budgeting; staffing; hospitality services; resident care and risk management indicators; and evaluation of demographic, cultural, and regulatory environments affecting industry.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 651 - Senior Housing Sales and Marketing

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Introduction and analysis of sales and marketing practices within senior housing environments, including but not limited to Active Adult (55+), assisted living, Alzheimer's assisted living, and Continuing Care Retirement Communities (CCRC's). Topics include a review of the role of marketing in health care, the senior housing consumer and product, the development of marketing plans, and administrative management of the promotion, lead management, and sales process.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 652 - Essentials of Health Insurance and Managed Care

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Survey course in US health insurance and managed care. Provides an overview of the different types of health insurers and managed care organizations, with content on sales and marketing, provider network management and reimbursement, medical and quality management, claims processing, member services, IT and operational finance. Policy, laws and regulations affecting the industry will also be addressed.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 661 - Policy Development and Analysis for Community Health Programs

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Prepares students to critically analyze issues and develop skills pertinent to effective policy development for community and family public health programs. Explores what constitutes a vulnerable population and examines current government programs and policies supporting these programs for such populations. Recent case examples ground students in current issues faced by community groups and other health interests.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**HAP 662 - Health Policy for Elders and People with Disabilities**

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
An introduction to health policy, health economics, and the aging of the American population. Focuses on the effect of chronic illness and disability on health care costs and provides students with skills in policy process and analysis as applied to acute care, long-term care, and health promotion for elders and people with disabilities.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**HAP 678 - Introduction to the U.S. Health System**

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Explores the U.S. Health System focusing on historical development, current configuration and possible future direction. Includes study of health system development, key influencers, accessibility, financing, changing components and effects system has on patients, providers, financiers, employers, government, insurers and society. Role of population health management and public health is explored, including impact of social, cultural, economic, and environmental factors on health care systems and practices.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**HAP 680 - Applied Public Health Leadership and Management**

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Survey course in leadership, management, and planning applied to public health systems. Students apply theoretical knowledge from a variety of disciplines relevant to development and implementation of public health policy, regulatory directives, public health program planning and management (including human resources and financial management), and the design and evaluation of public health services/functions. Content includes strategies for ensuring access to essential public health services and use of evaluation and monitoring systems to ensure the safety, efficiency, and effectiveness of local public health programs/systems.
Course emphasizes leadership, communication, systems thinking, data-driven decision making, and ethical practice in public health systems.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 686 - Quality Improvement in Health Services

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Examines how improved work processes lead to quality improvement. Explores contribution of operations research and quality management to improve delivery and production of health services and business processes from the perspective of health care managers.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 690 - Independent Study

Credits: 1-3
Repeatable within Degree for Credit
Offered by Health Administration and Policy
In-depth studies of selected area of health science theory, research, or practice under direction of faculty.

Notes: May be repeated for a maximum of 3 credits.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

HAP 700 - Introduction to Health Informatics

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Introduces the study of data and information flow in healthcare delivery. Covers the history and evolution of methods in information management and the role and contributions of an inter-disciplinary health informatics workforce.

Corequisite(s): HAP 678 or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
HAP 701 - Health Data: Vocabulary and Standards

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Explores the challenges of representing health care data using standardized vocabulary in health information systems. Topics include data standards and semantics, policy, and theory and practice of standardization.  

Corequisite(s): HAP 678, or permission of instructor.  

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HAP 702 - Managerial Accounting in Health Care

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Practical examination of controllership function in health care organizations and systems (profit and nonprofit), with emphasis on policy formulation and evaluation of performance, including cost methods and systems; measurement criteria; and managerial planning, methods, and techniques.  

Prerequisite(s): Graduate-level statistics course.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HAP 703 - Financial Management in Health Systems

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Examines tools and methods of financial management in health care organizations and systems, with emphasis on allocation and use of funds. Analyzes costs and constraints of alternative source of funds, and applies financial decision instruments and effect on operational management and market value of entity.  

Prerequisite(s): Graduate-level statistics course.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HAP 704 - Contemporary Issues in Health Systems Management
Analyzes management theory and practice from recently evolving works that identify, analyze, and resolve strategic organizational problems and issues in health care systems. Applies leadership strategy to effectively manage variety of critical issues, including organizational development, change management, human relations and diversity, quality management for organizational and clinical effectiveness, technology, competing priorities, conflicting constituencies, delivery system redesign, and health services research.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 705 - Strategic Management and Marketing in Health Care

Explores role of strategic management and marketing in healthcare organizations and process used to formulate, implement, and evaluate cross-functional decisions to achieve their objectives. Reviews formulation of strategic plans to address strengths, weakness, opportunities and threats facing organizations from both external and internal environments. Considers type of environmental forecasts and competitor intelligence healthcare organizations need to make timely and adaptive strategic and marketing decisions. Addresses conditions necessary for successful strategic execution.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 706 - Integrated Health Systems Management

Explores emerging structures for financing and delivery of comprehensive health services in integrated health systems. Covers successful development and management of alliances, provider hospital organizations, and managed care systems with emphasis on strategies for vertical integration, community partnering, contract negotiation, governance, and management of antitrust situations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 707 - Human Resource Management in Healthcare

Explores human resource management in healthcare organizations, including recruitment, selection, training, compensation, benefits, and professional development. Focuses on the role of human resource management in achieving organizational goals, fostering a positive work environment, and addressing challenges in the healthcare industry.
Addresses how people are managed within healthcare organizations to achieve performance consistent with the organization's strategic objectives.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 709 - Health Care Databases

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Introduces design and use of health and medical databases, providing hands-on experience. Explores uses of medical record systems. Includes review and analysis of databases and database management systems. Examines application of databases to clinical and managerial transaction.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 712 - Topics in Public Policy

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Presents selected topics current in public policy related to health care and health care administration.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 713 - Project Management in Health Information Technology

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Applies body of knowledge in project management to the implementation of information technology and systems in healthcare organizations. Examines how tasks such as needs assessment, project planning, project cost analysis, risk management, and management of personnel are readily included in the use of health information systems.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 714 - Ethical Issues in Health Administration and Policy
Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Seeks to explore selected ethical issues in health administration and policy and decision options by understanding ethical theories, concepts, and principles and their role and selective application in the development, organization, and administration of health policy, as well as the organization and delivery of health services. Students will learn specific ethical concepts, theories, and principles, how these inform existing health policies and practices, and how ethical reasoning can operate in the policy process and administrative decisions in the health delivery systems.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 715 - Health Economics

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Emphasizes understanding of economic efficiency in the U.S. health system. Microeconomic methods examine markets and resources in health care. Health care examined as commodity. Explores demand for health and medical care services, provider behavior, and function and behavior of insurance markets. Topics include government role, financing arrangements, insurance reform, rationing, price regulation, and provider competition.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 719 - Advanced Statistics in Health Services Research I

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Covers principles and methods of statistical data analysis and inference. Emphasizes the use and application of various data analysis techniques and their assumptions. Computer outputs will be used to demonstrate the application of statistical techniques in analyzing health related data sets.

Prerequisite(s): HAP 602 or GCH 601 or an equivalent statistics course.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

HAP 720 - Health Data Integration

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Students learn to manipulate large databases, create link table queries, write SQL application programs, understand sources of data conflicts, and identify methods of integrating ODBC databases with legacy data. Covers data warehousing, methods of analyzing large databases, including Bayesian belief networks and machine learning in health care context. Features semester long data integration group project.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 727 - Program Evaluations in Health Care

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Methods of evaluating health and social programs, including anthropological case studies, decision analytic and quasi-experimental approaches. Emphasis is placed on using methods of continuous quality improvement and benchmarking exchanges in evaluating multisite programs. Assess cost effectiveness of programs (including assessment of patient census, employee activities and program outcomes). Evaluation of health care interventions, rate setting, and managed care are discussed.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 730 - Health Care Decision Analysis

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Students analyze practice patterns and find optimal methods of improving them. Uses decision analysis and failure mode analysis in health care settings. Students integrate scientific evidence, patients' preferences, and experts' opinions to identify optimal alternatives.

Prerequisite(s): Graduate-level statistics course.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 735 - Fundamentals of Patient Safety and Risk Management

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Students build and interpret causal model of risks and test the accuracy of them against extant incidence reports using risk analysis models, risk analysis life cycle, as well as methods of evaluating the validity and reliability of risk analysis. Bayesian probability models, probabilistic risk analysis, root-cause analysis, and failure model analysis are covered. Includes applications to terrorism, unauthorized disclosures, and patient safety.
Prerequisite(s): HAP 730 or equivalent approved by instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 740 - Management of Health Information Systems

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Introduces health and medical information systems with emphasis on systems analysis and design to support managerial and clinical communications and decision making. Explores trends and innovations in information technology and systems, focusing on managerial oversight of health and medical information systems. Explores contemporary management strategies for information systems personnel.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 742 - Health Policy Development and Analysis

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Examines the process and factors that influence formulation, implementation and modification of health policy in the United States, including competing interests and the relationship between public decisions and the market place. Emphasis is on the application of commonly-used frameworks for policy analysis, including contributions from health economics, health services research, and other policy-related disciplines, to contemporary policy issues in health care delivery, organization, and financing.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Fall, Spring

HAP 745 - Health Care Security Policy

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Focuses on health security and privacy policy and compliance issues. Students will develop policies for the type of threats faced by facilities. The legal and business policies for facility, personnel, travel, information, and patient security will be discussed.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
HAP 746 - Health Policy Leadership

Credits: 3  
Repeatable within Degree for Credit  
Offered by Health Administration and Policy  
Examines leadership strategies to influence health policy-making from a community stewardship and interest group advocacy perspective. Students will develop an understanding of how health and socio-economic issues affect the development, implementation and change of health policy, appreciate the complexity of engaging the public policy process and selectively employ strategies to influence politics and the policy-making process.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HAP 750 - Legal Issues in Health Administration

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  
Prepares health professionals to understand legal principles, statutes, regulations, and case law related to managing health care organizations and health professionals' practice. May compare legal health care issues from domestic and international perspectives.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HAP 752 - Advanced Health Information Systems

Credits: 3  
Not Repeatable for Credit  
Offered by Health Administration and Policy  

Prerequisite(s): HAP 700 and HAP 709, or permission by the instructor or Program Coordinator.

Schedule Type: LAB, LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HAP 760 - Philosophy of Science in Health Services Research
HAP 762 - Cost-Effectiveness for Health Care Management and Policy Decisions

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
A survey course in health services research methods for the application of economic evaluation techniques used in health care policy analysis and clinical or administrative applications for health care service planning and evaluation. Introduces methods applied to health care technology assessment, medical decision making, health resource allocation, and policy-making.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 764 - Health Policy and Government Payment Systems for Health Care Services

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Examines the rationale for government intervention in provider payment and explores the current policy issues and politics of major government provider payment systems, including Medicare and Medicaid, and examines options for managing these programs more effectively. The course will "follow the money" as it flows through government and provider payment systems, model potential changes in such systems, and identify policies for improving the operation of these programs and payment systems.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 765 - Methods for Health Policy Analysis

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Explores conceptual, analytic, and technical methods/approaches used in health policy analysis and planning. Students will learn to select from among alternative methods for applied concept modeling, graphical data presentation, needs assessment, goal
clarification, group decision methods, and a variety of quantitative applications and frameworks for evaluating policy impact.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**HAP 766 - Policy Implementation and Health System Management Dilemmas**

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Analyze selected public policies and regulations and the impact of implementation and compliance/noncompliance on health care systems and organizations. Examines management responsibilities, challenges, and dilemmas (fiduciary and ethical) of implementing selected policies and regulations (promulgated or proposed).

Prerequisite(s): HAP 703 or equivalent, or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**HAP 770 - Medical Decision Making and Decision Support Systems**

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Introduces the complex subject of medical decision making. Examines systematic approaches to decision making. Explores principles governing the design, application, and maintenance of clinical decision support systems. Laboratory time provides learning experience in various applied situations.

Prerequisite(s): HAP 701 or permission of instructor.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

**HAP 775 - Implementing Health Reform in Health Service Organizations**

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Prepares health professionals to understand, lead, and manage health service organizations undergoing payment reform, evolving quality and outcomes reporting requirements, process redesign challenges, culture change, and a changing regulatory environment.

Prerequisite(s): HAP 678.
Schedule Type: LEC
HAP 780 - Data Mining in Health Care

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
An introductory course to data mining and knowledge discovery in health care. Methods for mining health care databases and synthesizing task-oriented knowledge from computer data and prior knowledge are emphasized. Topics include fundamental concepts of datamining, data preprocessing, classification and prediction (decision trees, attributional rules, Bayesian networks), constructive induction, cluster and association analysis, knowledge representation and visualization, and an overview of practical tools for discovering knowledge from medical data. These topics are illustrated by examples of practical applications in health care.

Prerequisite(s): Graduate-level statistics course.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 789 - Pre-Capstone Professional Development Seminar

Credits: 1
Not Repeatable for Credit
Offered by Health Administration and Policy
Provides students with guidance and preparation for engaging in the capstone practicum.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

HAP 790 - Capstone Practicum in Health Systems Management

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Field practicum in health systems management where students function as an integral member of an organizational entity to complete a non-thesis project while continuing to build skills in leadership, critical thinking and systematic problem analysis.

Prerequisite(s): All coursework in the major. Practicum hours required in addition to class meetings. Permission of instructor required.
Schedule Type: INT
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 2
HAP 791 - Practicum in Public Health

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
The practicum provides students with an in-depth supervised experience in an approved public health organization. The practicum will require students to complete a project related to an actual public health issue that is a focus within the organization.

Prerequisite(s): Students must complete all of the core MPH coursework (epidemiology, biostatistics, health education, environmental health, and public health administration) and pass the MPH comprehensive exam with a 70% or better.
Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HAP 793 - Final Project in Applied Health Policy

Credits: 3
Not Repeatable for Credit
Offered by Health Administration and Policy
Provides students experience in executing an approved written research project related to a public health policy issue. Students will demonstrate skills learned in the MSHMP program. Projects require students to understand different positions related to a particular policy issue, to assess existing evidence and research related to the policy issue, and to formulate additional research questions.

Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

HAP 799 - Master's Thesis

Credits: 1-6
Repeatable within Degree for Credit
Offered by Health Administration and Policy
Provides students with skills to develop their research proposal, conduct their research, and complete their thesis in a relevant field of study.

Prerequisite(s): Admission to one of the master's programs in the department and permission of instructor.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit only

HAP 819 - Advanced Statistics in Health Services Research II
Covers principles and methods of advanced statistical data analysis and inference with applications in health services research. Emphasizes the use and application of various data analysis techniques, including multivariate statistics, regression and longitudinal data analysis. Use of statistical software STATA demonstrates the application of statistical techniques in analyzing health related data sets.

**Prerequisite(s):** HAP 719.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Spring

---

**HAP 822 - Research Designs and Analysis in Pharmaceutical and Health-Related Clinical Trials**

Credits: 3

Not Repeatable for Credit

Offered by Health Administration and Policy

A survey course that introduces students to the design and management of clinical trials research and pharmaceutical research and development, including drug development and FDA drug approval. This course also covers a variety of biostatistical methods as they apply to biomedical and biotechnology industry research with human subjects.

**Prerequisite(s):** HAP 710 or equivalent graduate statistics course.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**HAP 823 - Comparative Effectiveness Analysis using Observational Data**

Credits: 3

Not Repeatable for Credit

Offered by Health Administration and Policy

Applies linear and logistic regression to analysis of comparative cost and effectiveness using massive data in electronic health records. Emphasizes (1) ridge regression and (2) propensity scores. Covers the following topics: (1) counterfactual framework and assumptions, (2) data balancing, (3) matching or weighting, and (4) sensitivity analysis.

**Prerequisite(s):** HAP 719.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Spring

---

**HAP 835 - Causal Inference in Health Services Research**
Discusses the nature of causation and alternative means of inferring causal relationships. Included are experimentation, matching, instrumental variables, conditioning, and mechanism in network models. Covers a broad range of methodological considerations that emerge in identifying causal effects. The focus is less on analysis of data and more on considerations of causal inference in non-randomized study design.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

**HAP 866 - Politics of Influencing Health Care Policy**

Focuses on process of formulating health care policy and analyzing implications for nursing, administration in nursing, and education and nursing service. Examines current and impending health issues, legislative process, and program implementation evaluation.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 1

**HAP 868 - Advanced Research Seminar in Health Policy Analysis**

Seminar on advanced research methods that analyzes theoretical and analytic foundations to critique health services research and health policy analysis. Students synthesize, integrate, and apply theoretical knowledge and advanced skills relevant to health services research, policy analysis, and program evolution.

**Prerequisite(s):** HAP 703 or equivalent or permission of instructor.  
**Notes:** Limited to doctoral students having completed core courses in statistics and research design, or permission of instructor.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HAP 925 - Advanced Methods in Qualitative Research for Health Care**

Offered by Health Administration and Policy
Builds upon the foundation of qualitative research in health care. Designed to develop skills in data generation techniques; data analysis using NVivo and text analysis software, including narrative and intentions analysis; application of standards for qualitative research; and utilization of various styles for qualitative reports and research proposals. The course also reviews mixed methods designs for research studies.

**Prerequisite(s):** NURS 920 or HAP 835

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 2

**When Offered:** Spring

---

**HAP 998 - Doctoral Dissertation Proposal**

Credits: 1-3

Repeatable within Degree for Credit

Offered by Health Administration and Policy

An independent study for HAP doctoral students resulting in the development of a doctoral dissertation proposal. Includes development of the research problem, study methods, data analysis and literature review.

**Prerequisite(s):** Advancement to candidacy.

**Notes:** The course must be supervised by a HAP faculty member qualified to serve as a dissertation chair.

**Schedule Type:** IND

**Grading:** Satisfactory/No Credit

---

**HAP 999 - Doctoral Dissertation**

Credits: 1-9

Repeatable within Degree for Credit

Offered by Health Administration and Policy

Under faculty direction, develop dissertation proposal and complete the dissertation.

**Prerequisite(s):** All courses in the PhD program.

**Schedule Type:** IND

**Hours of Lecture or Seminar per week:** 1-9

**Hours of Lab or Studio per week:** 0

**Grading:** Satisfactory/No Credit

---

**Health and Human Services (HHS)**

Offered by the College of Health and Human Services

---

**HHS 432 - Healthy Aging**
HHS 480 - Research Internship in Health and Human Services

Credits: 3
Not Repeatable for Credit
Offered by College of Health and Human Services
The student works as a member of a team engaged in health and human services research and attends a bi-weekly research seminar. Under direction of the course seminar leader and the faculty research mentor, the student will acquire selected research skills and develop introductory research writing and presentation skills.

Equivalent to SOCW 480, HAP 480.

Prerequisite(s): Open only to CHHS majors or students who have completed CHHS minor or certificate courses.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Spring

HHS 491 - Foundations of Clinical Research

Credits: 1
Not Repeatable for Credit
Offered by College of Health and Human Services
Provides students with fundamental concepts and basic analytic methods pertaining to the design, analysis, and interpretation of clinical research. Outlines the research process by introducing the components of research - from beginning a literature search, to designing an experiment, to selecting appropriate outcome measures, and collecting data.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall

HHS 492 - RS: Internship in Clinical Research

Credits: 3
Not Repeatable for Credit
Offered by College of Health and Human Services

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Fall
Provides students with experiential learning in a research laboratory that focuses on clinical health research. Students are matched with a clinical research supervisor that provides both research and professional development mentorship. Through this opportunity, students enhance their research, critical thinking, problem-solving and presentation skills.

Designated as a research and scholarship intensive course.

Prerequisite(s): Course is open to honors college students only. In addition, an application must be submitted in the semester prior to enrollment in the course. During the semester prior to entry, students may be asked to acquire certain competencies/certifications in order to fully participate at their research site (e.g., human subjects research protections training, lab safety certification, HIPAA training).

Schedule Type: IND
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 3
When Offered: Spring

**HHS 597 - Approaches to Quantitative Data Analysis in Health Care Research**

Credits: 3
Not Repeatable for Credit
Offered by College of Health and Human Services
Examine univariate and bivariate statistical procedures appropriate for analyzing quantitative health care research data. Includes selecting, applying, and interpreting data analysis procedures.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**HHS 646 - Social Gerontology**

Credits: 3
Not Repeatable for Credit
Offered by College of Health and Human Services
Examines physical, psychological, sociological, cultural, spiritual, and economic aspects of aging and explores the challenges of service delivery to older persons. Considers the impact of aging populations on the social structure, economy, demography, and social policy of society and identifies social and cultural forces that influence older persons and their families, with special regard to caregiving, institutionalization, and social roles in retirement.

Schedule Type: LEC
When Offered: Fall

**HHS 648 - Aging and Health**

Credits: 3
Not Repeatable for Credit
Offered by College of Health and Human Services
Provides an overview of normal aging and explores factors that affect health and well being in older adults; demonstrates strategies for maintaining health and managing chronic illness in older adults; examines common misconceptions about aging and
healthcare issues; and explores the process of normal aging and the presentation of common health conditions in older adults.

Equivalent to NURS 648

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

HHS 702 - Health Promotion and Disease Prevention

Credits: 3  
Not Repeatable for Credit  
Offered by College of Health and Human Services  
Prepares students to address health needs of individuals or groups through health promotion and disease prevention. Emphasis is placed on research evidence and motivational interviewing to improve healthy lifestyle, prevent disease and manage chronic conditions.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

HHS 810 - Systematic Reviews of Health Care Research

Credits: 3  
Not Repeatable for Credit  
Offered by College of Health and Human Services  
Applies systematic methods for evaluating current research in order to develop empirically-based decisions about the next major research questions that need to be addressed in the students' selected area of inquiry.

Prerequisite(s): Master's degree in nursing, social work or health-related discipline.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

HHS 818 - Advanced Ethics of Healthcare Research

Credits: 3  
Not Repeatable for Credit  
Offered by College of Health and Human Services  
Analyze ethical issues associated with research in multiple settings including academic, business, practice, policy-making, and international, and apply ethical principles to the student's selected area of inquiry.

Equivalent to NURS 957.
Prerequisite(s): Master's degree in nursing, social work, or health-related discipline and Collaborative Institutional Training Initiative certification for Biomedical Research Investigators and Key Personnel.

Schedule Type: SEM

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

HHS 825 - Conducting and Publishing Research

Credits: 3
Not Repeatable for Credit
Offered by College of Health and Human Services
Apply scientific and ethical principles of inquiry by participating in a guided research practicum and seminars. Apply principles of writing for scientific publication.

Equivalent to NURS 875 (2013-2014 Catalog).

Prerequisite(s): Master's degree in nursing, social work, or health-related discipline.

Schedule Type: INT

Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 5
When Offered: Spring

Health Education (HEAL)

Offered by the College of Education and Human Development

HEAL 110 - Personal Health

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Focuses on individual health improvement by studying mental/emotional well-being, fitness, nutrition, drug abuse prevention, consumerism, safety and other topics.

Notes: One section of HEAL 110 will be dedicated as Distance Education while remaining sections will be traditional classroom, 100% face-to-face.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

HEAL 200 - School and Community Safety
HEAL 220 - Dimensions of Mental Health

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Focuses on integrating behavioral and sociocultural factors in studying mental health.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HEAL 230 - Introduction to Health Behavior

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Introduces health behavior in context of health psychology. Explores various theoretical models to understand health, illness and sick-role behaviors. Studies health and disease from a biopsychosocial perspective. Examines means of preventing and treating health problems.

Fulfills Mason Core requirement in social and behavioral science.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HEAL 310 - Drugs and Health

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Analyzes drug use, with emphasis on positive aspects, and presents alternatives to drug misuse and abuse.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
HEAL 312 - Health and Wellness Choices

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Actively involves students in becoming managers of their personal health and well-being throughout life span. Consistent with Healthy People 2000 goals for nation. Emphasizes lifestyle activity and fitness, behavioral change, and maintenance.

Notes: May be taken by nonmajors.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HEAL 325 - Health Aspects of Human Sexuality

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Covers biological, behavioral, and sociocultural factors in human sexual behavior.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HEAL 327 - Women's Health

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Examines health issues unique to women, including health care, food and exercise, reproductive and gynecological issues, chronic diseases, and issues of violence.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HEAL 331 - Men's Health

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Examines socio-cultural influences on men's development and expression of health beliefs and practices. Explores health issues specific to men. Analyzes research literature on interventions to improve men's health.

Schedule Type: LEC
HEAL 350 - Interventions for Populations and Communities at Risk

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Identifies culturally, physically, emotionally, mentally, and demographically diverse populations and communities at risk. Covers implications for developing innovative programs and role of HFRR interventions.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HEAL 351 - Relationship Health

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

HEAL 372 - Health Communication

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Applies research-based models and theories of health assessment and promotion at individual, organizational, agency, and community levels. Uses communication approaches and skills in context of behavior change strategies, including policy and program development.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HEAL 402 - Introduction to Driver Education Instruction
Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Introduces vehicle operator's tasks in highway transportation system. Provides essential knowledge and skills to instruct driver education.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

### HEAL 403 - Driver Education Practice and Administration

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Applies driver education to simulated and actual driving environments. Provides essential knowledge and skills to administrate driver education.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

### HEAL 405 - Teaching Methods in Health Education (K-12)

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Covers content, methodology, and resource materials in teaching health education for physical education teaching majors.

**Prerequisite(s):** BSED status or permission of instructor
**Notes:** Field experience required.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

### HEAL 480 - Special Topics

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Recreation, Health, and Tourism
Presents selected health issues or problems. Focuses on applying information to education programs.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 1-3
**Hours of Lab or Studio per week:** 0
HEAL 499 - Independent Study in Health Education

Credits: 1-3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Studies problem area in health education research, theory, or practice under faculty direction.

Prerequisite(s): 90 credits or permission of instructor
Notes: May be repeated, but no more than 3 credits may be earned.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

HEAL 516 - Program Development and Resources in Health Education

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Open to licensed and provisionally licensed health and physical education teachers in the commonwealth of Virginia and students in ASTL physical education program. Focuses on program development, health content, methodology, and resources for teaching preK-12 health education.

Notes: Distance learning course.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Hebrew (HEBR)

Offered by the College of Humanities and Social Sciences

HEBR 101 - Elementary Hebrew I

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Designed for students with no knowledge of Hebrew. Introduction including grammar, vocabulary, oral skills, listening comprehension, and reading.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
HEBR 102 - Elementary Hebrew II

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Continuation of HEBR 101.

Prerequisite(s): HEBR 101 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HEBR 150 - Introduction to Biblical Hebrew

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Introduces basic vocabulary, grammar, and development of reading skills with introduction to religion and culture of ancient Israel that produced the Hebrew Bible/Old Testament.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HEBR 160 - Readings in Biblical Hebrew

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Continuation of HEBR 150 to increase students' proficiency in vocabulary and understanding of morphology and syntax. Selected passages from Hebrew Bible read; students introduced to text formation and analysis.

Prerequisite(s): HEBR 150 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HEBR 201 - Intermediate Hebrew I

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Further development of skills acquired in HEBR 101 and 102, including grammar, oral expression, listening comprehension, reading, and writing.
Prerequisite(s): HEBR 102 or equivalent.
Notes: Lab work required.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

HEBR 202 - Intermediate Hebrew II

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Continuation of HEBR 201.

Prerequisite(s): HEBR 201 or equivalent.
Notes: Lab work required.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

Higher Education (HE)

Offered by the College of Humanities and Social Sciences.

HE 601 - The Community College

Credits: 3
Not Repeatable for Credit
Offered by Higher Education
Studies institutional character of the community college, including history, purpose, clientele, organization, finance, and social function. Studies issues currently faced by community colleges.

Equivalent to CTCH 601 (2015-2016 Catalog)

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HE 602 - College Teaching

Credits: 3
Not Repeatable for Credit
Offered by Higher Education
Describes issues that affect teaching and learning and provides basic tools to use in college classroom. Teaches how to plan course, develop syllabus, promote learning among diverse students, and implement classroom assessment techniques.

Equivalent to CTCH 602 (2015-2016 Catalog).

**HE 603 - Higher Education in the Digital Age**

Credits: 3  
Not Repeatable for Credit  
Offered by Higher Education  
Studies how digital tools and resources shape and are shaped by higher education both inside and outside of the classroom. Includes the complex ways in which colleges integrate changing teaching and learning, information, and communication technologies. Combining reading, writing, viewing and hands-on learning, students examine issues through the content and lens appropriate for their discipline and goals.

Equivalent to CTCH 603 (2015-2016 Catalog)

**Prerequisite(s):** Basic familiarity with computer operations

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**When Offered:** Spring

**HE 605 - Learning Assessment**

Credits: 3  
Not Repeatable for Credit  
Offered by Higher Education  
Focuses on classroom and program-level learning assessment, and describes the political and historical context for assessment. Offers hands-on practice of assessment for instructors and student affairs professionals.

Equivalent to CTCH 605 (2015-2016 Catalog)

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HE 606 - Diversity in Higher Education**

Credits: 3  
Not Repeatable for Credit  
Offered by Higher Education  
Explores instructional interactions and communication strategies for diverse learner populations. Includes discussion of
HE 610 - Research Designs in Higher Education

Credits: 3
Not Repeatable for Credit
Offered by Higher Education

Provides an introduction to higher education research methodologies, analysis, and decision-making through introduction of basics of research design including problem identification, literature review, method selection, data collection and analysis, application, writing, and ethics.

Prerequisite(s): Doctoral standing or permission of instructor.

Schedule Type: LEC

HE 621 - Higher Education in the United States

Credits: 3
Not Repeatable for Credit
Offered by Higher Education

History of higher education from colonial period to the present. Examines philosophic, political, social, and economic forces that have influenced development. Reviews today's issues and challenges.

Equivalent to CTCH 621 (2015-2016 Catalog).

Schedule Type: SEM

HE 624 - Finance and Fiscal Management in Higher Education

Credits: 3
Not Repeatable for Credit
Offered by Higher Education

Overview of higher education finance and fiscal management.

Equivalent to CTCH 624 (2015-2016 Catalog)
HE 641 - Introduction to Helping Skills

Credits: 3
Not Repeatable for Credit
Offered by Higher Education
Focuses on helping skills that assist others in reflecting on concerns, considers possible causes of problems, and contemplates options and strategies for problem solving. Introduces students to and practices basic helping skills. Explores ethical issues surrounding helping skills and determining when to refer students to professional counselors.

Equivalent to CTCH 641 (2015-2016 Catalog)

HE 643 - Multicultural Helping Skills

Credits: 3
Not Repeatable for Credit
Offered by Higher Education
Sensitizes students to and promotes an understanding of multiple cultures and encourages students to examine their own attitudes toward various groups, explore their own identities, and to acquire expertise in the use of helping skills with various populations. Emphasizes the learning of approaches and the application of techniques that facilitate effective multicultural communication in higher education.

Equivalent to CTCH 643 (2015-2016 Catalog)

Prerequisite(s): CTCH 641 or HE 641

HE 644 - Student Services in Higher Education

Credits: 3
Not Repeatable for Credit
Offered by Higher Education
Focuses on development and organization of student personnel programs and services in institutions of higher learning. Covers philosophy, methods, and techniques.

Equivalent to CTCH 644 (2015-2016 Catalog)
HE 645 - The Contemporary College Student

Credits: 3
Not Repeatable for Credit
Offered by Higher Education
Analyzes changing demographics, barriers, and developmental issues facing college students. Studies impact of college environment on student development, and interaction between students of varying subcultures and the environment. Examines technology issues and their impact.

Equivalent to CTCH 645 (2015-2016 Catalog)

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HE 646 - Student Development Theory

Credits: 3
Not Repeatable for Credit
Offered by Higher Education.
Addresses developmental issues facing students, including adult students; factors that affect development; and the need to work with individuals, groups, and organizations within the campus community to establish conducive learning environments. Application of psychosocial, cognitive development, identity, and person-environment interaction theories are considered in depth.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HE 685 - Practicum

Credits: 3
Repeatable within Degree for Credit
Offered by Higher Education
Supervised on-the-job experience in approved college or university setting or public agency involved in higher education. Develops skills applicable to college-based teaching or higher education administration or policy. Approval of practicum coordinator needed one semester before registration.

Equivalent to CTCH 685 (2015-2016 Catalog)

Prerequisite(s): Admission to certificate or MA in Student Development and Higher Education program; approval of advisor and practicum coordinator; 12 credits of core requirements; and 3 additional credits.
Notes: Minimum 150 hours of work and participation in internship seminar. May be repeated for a maximum of 6 credits.
HE 701 - Higher Education Law

Credits: 3
Not Repeatable for Credit
Offered by Higher Education
Introduces students to laws and legal issues that impact higher education and establishes a general familiarity with higher education law. Uses a case study approach to teach students to recognize when a legal issue presents itself in situations involving students, faculty, or administration.

Equivalent to CTCH 701 (2015-2016 Catalog)

HE 702 - Theories in Higher Education

Credits: 3
Not Repeatable for Credit
Offered by Higher Education.
Uses the philosophical and sociological grounding of higher education research to provide guidance on decision-making in ambiguous and complex higher education organizations.

HE 703 - Digital Technologies and Learning

Credits: 3
Not Repeatable for Credit
Offered by Higher Education.
Researches changing digital landscape in higher education. Combines reading, writing, viewing, and assessing hands-on learning in the digital context with speculation about future digital capabilities.

HE 704 - The Scholarship of Teaching and Learning
Overview of scholarship on teaching and learning in higher education. Focuses on ways students learn, how learning can be improved, and different methods of conducting research into teaching and learning.

Equivalent to CTCH 604 (2015-2016 Catalog)

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**HE 705 - Access and Social Justice**

Credits: 3  
Not Repeatable for Credit  
Offered by Higher Education  
Examines the inequitable structural systems that produce unequal access to higher education. Explores the meaning of social justice in higher education, and emphasizes policy, administrative processes, and educational practices.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Grading:** Regular

---

**HE 710 - Leadership in Higher Education**

Credits: 3  
Not Repeatable for Credit  
Offered by Higher Education  
Focusing on the leadership of higher education and the role leaders play in institutional transformation, this course explores the complex social and political environments and the current and future trends of higher education. This focus occurs through the foundational grounding of leadership theory and research. Students will be challenged to employ multiple perspectives of leadership in higher education.

Equivalent to CTCH 702, CTCH 810 (2015-2016 Catalog)

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**HE 711 - Policy Analysis in Higher Education**

Credits: 3  
Not Repeatable for Credit  
Offered by Higher Education.  
Intended as a toolkit for the understanding and creation of evidence-based analysis of public policy issues at all levels of governance, this course examines examples of policy research and analysis prompted from discussion around higher education
HE 712 - Advanced Institutional and Program Assessment in Higher Education

Credits: 3
Not Repeatable for Credit
Offered by Higher Education
Examines educational assessment and evaluation practices and methods. Students critique and design an evaluation study and an evaluation report. Reviews ethical issues and impact of assessment and evaluation for students, employees, and programs.
Equivalent to CTCH 826 (2015-2016 Catalog)

HE 713 - The Internationalization of Higher Education

Credits: 3
Not Repeatable for Credit
Offered by Higher Education.
Explores the internationalization of higher education through various lenses including administration, student services, curriculum integration, study abroad, and branch campus development.

HE 722 - Organization and Administration in Higher Education

Credits: 3
Not Repeatable for Credit
Offered by Higher Education
Provides concepts of organization and administration in contemporary institutions from macro to micro perspectives. Studies theory and practices of the organization as it relates to governance, structure, and management of the institution.
Equivalent to CTCH 622 (2015-2016 Catalog)
HE 785 - Research Apprentice

Credits: 3  
Not Repeatable for Credit  
Offered by Higher Education.  
Participation in research or assessment study under the supervision of a faculty member. Written report required.

Prerequisite(s): HE 610  
Schedule Type: IND

HE 792 - Special Topics in Higher Education

Credits: 1-3  
Repeatable within Degree for Credit  
Offered by Higher Education  
Covers current topics in higher education.

Equivalent to CTCH 792 (2015-2016 Catalog)

Prerequisite(s): Admission to doctoral program or permission of instructor.  
Notes: May be repeated when topic is different.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 1-6  
Hours of Lab or Studio per week: 0

HE 798 - Higher Education Project

Credits: 1-3  
Repeatable within Degree for Credit  
Offered by Higher Education.  
Under the supervision of a faculty advisor and project evaluation committee, students create a project from existing literature.  
Project must be a deliverable with a practical application related to student development and higher education.

Equivalent to MAIS 798

Prerequisite(s): HE 610  
Schedule Type: IND  
Grading: S/NC

HE 799 - Higher Education Thesis

Credits: 1-3  
Repeatable within Degree for Credit  
Offered by Higher Education.  
Original research related to student development or higher education.
Equivalent to MAIS 799.

**Prerequisite(s):** HE 610 and HE 785.

**Schedule Type:** IND

**Grading:** Satisfactory/No Credit

---

**HE 805 - Research Methodologies in Higher Education**

Credits: 3  
Not Repeatable for Credit  
Offered by Higher Education.

Provides a review of sophisticated research methodologies commonly used in higher education including collection and analysis procedures, ethics, and decision-making. Alignment of research questions, method selection, data collection and analysis procedures, implications, and writing are examined.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Grading:** Regular

---

**HE 806 - Qualitative Methods in Higher Education Research**

Credits: 3  
Not Repeatable for Credit  
Offered by Higher Education.

Examines the philosophical and epistemological foundations that guide qualitative inquiry. Trustworthy data collection methods and means of analysis are stressed and practiced.

**Prerequisite(s):** HE 805

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Grading:** Regular

---

**HE 807 - Quantitative Methods in Higher Education Research**

Credits: 3  
Not Repeatable for Credit  
Offered by Higher Education.

Develops ability to conduct applications of quantitative methods in higher education research. Reinforces skills acquired in previous research courses. Learning occurs through reading assignments, hands-on experience in using a computer program for data analysis, and application activities. Students will identify and report on quantitative methods used in published research, analyze data, and provide written results.

**Prerequisite(s):** HE 805.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3
HE 821 - History of Higher Education in the United States

Credits: 3
Not Repeatable for Credit
Offered by Higher Education
Key issues and moments in the history of higher education are examined as a way to understand current structures, cultures, policies, and purposes. Historical perspective will also be used to consider the near future of higher education. Students will examine current trends and possible futures for a specific topic by doing historical research on the issue.

Equivalent to CTCH 821 (2015-2016 Catalog)

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HE 885 - Doctoral Internship in College Teaching and Administration

Credits: 3
Repeatable within Term for Credit
Offered by Higher Education
Supervised internship at a community college, four-year college or university, or nonteaching higher-education setting such as a government agency or administrative office. Develops skills applicable to college teaching or higher education administration or policy. Students must complete a minimum of 180 hours of work and participate in internship seminar.

Equivalent to CTCH 885 (2015-2016 Catalog)

Prerequisite(s): Admission to doctoral program, approval of advisor and internship coordinator, 18 credits of graduate course work.
Notes: Students must contact the program at least one semester before enrolling. May be repeated for a maximum of 6 credits.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: S/NC

HE 897 - Directed Reading in Higher Education

Credits: 1-6
Repeatable within Degree for Credit
Offered by Higher Education
Independent reading on topic agreed on by student and instructor.

Equivalent to CTCH 897 (2015-2016 Catalog)

Prerequisite(s): Admission to doctoral program and permission.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-18
Hours of Lab or Studio per week: 0

HE 998 - Doctoral Dissertation Proposal

Credits: 1-3
Repeatable within Degree for Credit
Offered by Higher Education
Contact program for permission to register. Work on research proposal that forms basis for doctoral dissertation.

Equivalent to CTCH 998 (2015-2016 Catalog)

Prerequisite(s): Completion of all course work and qualifying exams.
Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: S/NC

HE 999 - Doctoral Dissertation

Credits: 1-12
Repeatable within Degree for Credit
Offered by Higher Education
Doctoral dissertation research and writing under direction of dissertation committee.

Equivalent to CTCH 999 (2015-2016 Catalog)

Prerequisite(s): HE 998 and appointed dissertation committee.
Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: S/NC

History (HIST)

Offered by the College of Humanities and Social Sciences

HIST 100 - History of Western Civilization

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
History of Western civilization from ancient Mediterranean origins through medieval and modern development of Europe to contemporary world.
Fulfills Mason Core requirement in western civilization/world history.

Notes: Students who take HIST 100 may not receive credit for HIST 101 or HIST 102.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 101 - Foundations of Western Civilization

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Evolution of Western culture from ancient Mediterranean world to formation of modern Europe in 17th century.

Notes: Students may not receive credit for HIST 101 if they have taken HIST 100.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 102 - Development of Western Civilization

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
History of Western institutions and ideas from 17th century to the present.

Notes: Students may not receive credit for HIST 102 if they have taken HIST 100.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 121 - Formation of the American Republic

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Social, political, economic, and intellectual growth of American institutions from colonization through Reconstruction.

Fulfills Mason Core requirement in social and behavioral science.

Notes: Students may not receive credit for HIST 121 if they have taken HIST 120.

Schedule Type: LEC
HIST 122 - Development of Modern America

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
History of the United States since 1877.

Fulfills Mason Core requirement in social and behavioral science.

Notes: Students may not receive credit for HIST 122 if they have taken HIST 120.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HIST 125 - Introduction to World History

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Analytical approach to world history overview that surveys major features of principal existing civilizations of world, as originally formed and as altered by key global processes including forces of modernity.

Fulfills Mason Core requirement in western civilization/world history.

Schedule Type: LEC, RCT  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HIST 202 - Freshman/Sophomore Seminar in Global History

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Focuses on skills, methods of learning, and subject matter to introduce discipline of history.

Prerequisite(s): Freshman or sophomore standing.  
Notes: Topics vary.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
HIST 251 - Survey of East Asian History

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Surveys history of China and Japan from prehistoric times to ca. 1600.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 252 - Survey of East Asian History

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Surveys history of China and Japan from early modern times (ca. 1600) to present.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 261 - Survey of African History

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Focuses on the sub-Saharan region and examines evolving systems of kinship power, spirituality, and slavery. Explores the interactions between Africans and global influences from the religions of the book and colonialism to the politics of development and continuities and changes in production. HIST 261 surveys African history from the earliest times to 1800. HIST 262 surveys African history from 1800 to the present.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
HIST 262 - Survey of African History

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Focuses on the sub-Saharan region and examines evolving systems of kinship power, spirituality, and slavery. Explores the interactions between Africans and global influences from the religions of the book and colonialism to the politics of development and continuities and changes in production. HIST 261 surveys African history from the earliest times to 1800. HIST 262 surveys African history from 1800 to the present.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HIST 271 - Survey of Latin American History

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Surveys colonial era to 1825. Emphasizes interactions of United States, Latin America.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HIST 272 - Survey of Latin American History

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Surveys development of independent Latin America since 1825. Emphasizes interactions of United States, Latin America.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
HIST 281 - Survey of Middle Eastern Civilization

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Survey of Middle Eastern history from rise of Islam to present, emphasizing processes that led to emergence of economic, cultural, social, and political institutions that characterize region today. Surveys period from rise of Islam in 570 to medieval period (ca. 1258)

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HIST 282 - Survey of Middle Eastern Civilization

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Survey of Middle Eastern history from rise of Islam to present, emphasizing processes that led to emergence of economic, cultural, social, and political institutions that characterize region today. Surveys medieval period to present.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HIST 300 - Introduction to Historical Method

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Introduces research skills and methods, as well as historical interpretation, culminating in written and oral presentations.

Fulfills Mason Core requirement in synthesis.

Fulfills writing intensive requirement in the major.

Prerequisite(s): History majors with 30 credits or permission of instructor.

Notes: Topics vary according to instructor. History majors strongly urged to take HIST 300 as soon as possible after reaching 30 credits. Grade of C or better is required to graduate with BA in history. Students may repeat HIST 300 only with permission from
the Department of History and Art History and repetitions are limited.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 301 - Classical Greece

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Political, social, economic, and cultural history of classical Greece from development of the city-state through 5th century.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 302 - Classical Rome

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Political, social, economic, and cultural history of classical Rome from founding of the city through fall of Roman republic.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 304 - Western Europe in the Middle Ages

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Survey of development of European society from collapse of Roman rule in 5th century to advent of Black Death in 14th century. Emphasizes political, social, cultural, and intellectual growth of society that developed from Roman, Catholic, and Germanic roots.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 305 - The Renaissance
Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Survey considering Renaissance as phenomenon rather than chronological period. Emphasizes growth of humanism in Italy in 14th and 15th centuries, development of new political concepts, and laicization of society. Includes transmission of these developments to transalpine Europe in late 15th and 16th centuries.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 306 - The Reformation

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Late medieval ecclesiastical conditions and reform movements, late scholasticism, Protestant Reformation, Catholic Reformation, dynastic rivalries, and religious wars. Concludes with Peace of Westphalia.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 307 - Old Regime and Revolutionary Europe

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Political, social, economic, and cultural history of Europe from 1648 to 1815. Crisis of authority, consolidation of the state, absolutism, colonial expansion, the Scientific Revolution and the Enlightenment, and the French Revolution and Napoleon.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 308 - Nineteenth-Century Europe

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
History of Europe from Congress of Vienna to outbreak of World War I.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
HIST 309 - Europe in Crisis: 1914-1948

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Two world wars, the Great Depression, and political and cultural revolutions transformed Europe as never before. Explores causes and consequences of these tumultuous events, and concludes with consideration of reconstruction that caps period.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 312 - Nationalism in Eastern Europe

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Examines history of modern Eastern Europe from mid-19th century through collapse of communist regimes in 1989, and includes focus on Yugoslav wars of 1990s. Nationalism provides organizing theme; topic approached through literature, political, social, cultural, and new media sources. Class sessions emphasize discussion of central issues and sources.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 314 - History of Germany

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Political, diplomatic, economic, social, and cultural development of Germany from dissolution of Holy Roman Empire to present.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 322 - Modern Britain

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
History of Britain from mid-18th century to present. Focuses on social, political, and economic transformations of industrialization; culture of 19th-century industrial society; problems of late 19th-century economic competition and imperialism; creation of welfare state; and experience of post-World War II political, social, and economic realignments.

Schedule Type: LEC
**HIST 326 - Stalinism**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Examines Josef Stalin and Stalinism as a political, economic, social, and cultural system, with a focus on the period from Lenin's death in 1924 through Stalin's death in 1953. Explores the history of rapid industrialization, collectivization of agriculture, famine, terror, war, Cold War, and human suffering in the Soviet Union and Eastern Europe.

Notes: Fulfills the college requirement in non-Western culture.

**HIST 327 - The Soviet Union and Russia Since World War II**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Analyzes the Soviet Union, the Cold War "enemy" of the United States, from victory in World War II under Joseph Stalin through collapse in 1991. Studies the fifteen independent countries that emerged from the Soviet collapse, including Russia, the Baltic States, Ukraine, Belarus, Moldova, Central Asia, and the Caucasus, which continue to influence world politics and culture today.

Notes: Fulfills the college requirement in non-Western culture.

**HIST 328 - Rise of Russia**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Political, social, and cultural development of Russia from early times to the end of the 19th century.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.
HIST 329 - Modern Russia and the Soviet Union

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Russia and the Soviet Union from the early 20th century to the present. Focuses on the Russian Revolution and the political, social, cultural, and economic developments of the Soviet and post-Soviet eras.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 331 - Postwar United States, 1945-1973

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Examines political, cultural, and economics history in the three decades after 1945. Themes include the emergence of the civil rights movement and feminism; the domestic and international events of the Cold War, especially the Vietnam War; and the rise and fall of the presidency's prestige in the years of the Great Society and Watergate.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 332 - United States since 1973

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Examines political, cultural, and economics history since the end of the Vietnam War. Themes include the shifting political economy of the country during the resurgence of conservatism, the political debates over culture and identity, and the waning of the Cold War and its replacement with other international concerns.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
HIST 333 - The Automobile in the United States

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Examines the biography of one of the most important characters in twentieth-century U.S. history: the automobile. Embraces the histories of business, policy, labor, the environment, technology, and culture, and seeks a holistic understanding of the role of the car in American life.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HIST 335 - The African American Experience in the United States: African Background to 1885

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
History of African American experience in United States including African origins; trans-Atlantic slave trade; development of slavery in colonial, revolutionary, and antebellum periods; abolitionist movements; and African American participation in Civil War and during Reconstruction.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HIST 336 - The African American Experience in the United States: Reconstruction to the Present

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
History of African American life in post-slavery America, and rise and consequences of racial segregation in 19th and 20th centuries. Examines African American response to continued racial inequality and repression. Covers great migration, urbanization, black nationalism, and civil rights era, as well as contemporary debates about race.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HIST 337 - Race and Gender in American Sports

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History
Examines how ideas about race and gender have affected sports in America from late 19th century to the 1980s. Will also consider how athletes and sporting activities have shaped American racial and gender paradigms.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### HIST 338 - History of College Athletics

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Examines America's unique blend of higher education and sports from 1870s to modern collaborations between college athletic programs and America's media outlets.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### HIST 339 - History of Baseball

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Examines development of baseball in U.S. context of labor, intellectual, economic and political events including racial segregation.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### HIST 340 - Basketball and the American Experience

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Explores history of basketball in the United States since the late 1800s. Examines how basketball reflects and informs attitudes toward race, ethnicity, gender, and national identity. Possible topics include YMCA movement, Jews in basketball, racial segregation, growth of college basketball, international politics, evolution of black aesthetic, ABA-NBA merger, women's basketball, Magic Johnson-Larry Bird rivalry, Michael Jordan, and basketball's professionalization, commercialization, and globalization.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
HIST 341 - History of Sport in the United States

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Examines the roots of American sport in colonial play and recreation, the emergence of organized and national sports, issues of gender and race in the sporting world, and the intersection of U.S. sport with events such as the Civil Rights Movement and the Cold War.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 342 - History of the Olympics and the United States

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Traces history of American participation in the Olympics from 1896 to the present. Topics may include American leadership in the Olympic Movement, the historical legacy of American Olympic host cities, American Imperialism, Nazism, issues of race, gender and ethnicity in the Olympics, the Cold War and Olympic boycotts, and commercialization of sport.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 350 - U.S. Women's History

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
History of women and their changing status and gender roles in American society from colonial period through "second wave" of feminism in 1970s. Explores images and lives of women of different class, ethnic, and regional origins. Also focuses on women's political, economic, and legal conditions, and changes in them.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 351 - History of the Old South

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
History of South to outbreak of Civil War, with particular emphasis on rise of sectionalism. Focuses on development of distinct Southern culture through emergence of economic, political, social, agricultural, and intellectual institutions.
**HIST 352 - The South since 1865**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
History of South during Reconstruction, Redeemer era, and New South, with particular emphasis on race relations. Covers political, economic, cultural, and intellectual development from aftermath of war.

**HIST 353 - History of Traditional China**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
China from earliest times to period of modern Western intrusion. Development of traditional Chinese culture, society, and government.

Notes: Fulfills the college requirement in non-Western culture.

**HIST 354 - Modern China**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
China from 1644 to the People's Republic of China. Emphasizes coming of West and various stages of Chinese reaction.

Notes: Fulfills the college requirement in non-Western culture.

**HIST 356 - Modern Japan**
HIST 357 - Postwar Japan

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Japan from Meiji Restoration to World War II. Emphasizes Japan's modernization in face of challenge.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 358 - Post-1949 China

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
History of Japan from World War II to present. Examines Japanese experience of several key moments: Japan's defeat in Pacific War, reconstruction during U.S. occupation, rise to economic prominence during 1960s and 1970s, and cultural and international identity crisis during 1980s and 1990s.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
HIST 359 - Modern Iraq

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Examines the politics of Iraq under the British mandate, as an independent state under the monarchy, and as a republic after the revolution of 1958, emphasizing the social composition of Iraq's people and its ruling elites.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 360 - History of South Africa

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Explores the historical processes that led to the rise of African kingdoms, colonialism, industrialization, resistance movements, and legalized segregation.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

HIST 364 - Revolution and Radical Politics in Latin America

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
During 20th century, Latin America has witnessed both peaceful political movements and violent revolutions aimed at achieving social justice. Considers several of these movements in comparative perspective: Mexican Revolution, Arbenz government in Guatemala, Allende regime in Chile, Cuban and Nicaraguan revolutions, and Brazilian Worker's Party.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 365 - Conquest and Colonization in Latin America
Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Examines forms of conquest and colonization practiced by Aztec, Inca, Spanish, and Portuguese in what is now Latin America. Includes role of ideology and religion in imperial rule, use of warfare to create empires and colonies, and implementation of political and economic systems to rule subject people.  
Fulfills Mason Core requirement in global understanding.  

Notes: Fulfills the college requirement in non-Western culture.  

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  

HIST 366 - Comparative Slavery  

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Examines systems of slavery from ancient world to modern world, with special emphasis on Atlantic slave trade and slave societies in Latin America and Anglo America. Considers impact of slaves and slavery on cultural, economic, and political systems in Africa and Americas from 16th to 19th centuries.  
Notes: Fulfills the college requirement in non-Western culture.  

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  

HIST 367 - History, Fiction, and Film in Latin America  

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Explores modern Latin American history through different types of texts: scholarly histories, historical novels, fictional films, documentary films, and oral history. Explores ways these texts produce knowledge about the past. What motivates different approaches? What counts as evidence? How do we know what really happened? How do we decide what mattered and what did not? Also introduces several important episodes in 20th century Latin American history.  
Notes: Fulfills the college requirement in non-Western culture.  

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  

HIST 370 - War and American Society
Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Examines war and American society from the colonial period to the post-Cold War era, including how military institutions, war, and the preparation for war have affected American society, and how Americans have thought about military service, experience war, and made peace through their history. Special emphasis on civil-military relations and the role of war and militarism in American culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 373 - The Civil War and Reconstruction

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Analyzes the history of the American Civil War from its origins in the late 18th century to the withdrawal of federal troops from the south in 1877. Examines the political, social, and economic issues that led to war; the home fronts, war leadership, diplomacy, combat motivation, and grand strategy; problems associated with reconstituting the nation's political institutions; and the integration of millions of newly freed slaves.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 377 - The Vietnam War

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Covers the causes, major events, and legacies of America's Vietnam War, including an introduction to Vietnamese history and culture, American decisions for war, strategy and major military engagements, diplomacy and peace talks, and the aftermath of the conflict in Vietnam and United States.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 378 - History of Aviation

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Examines history of aviation from origins to the present in the context of culture, economics, politics, society, technology and war. Addresses such topics as the emergence of aerospace engineering as a profession, the evolution of aerospace technology and growth of the industry, military aviation, the Space Race, and aviation art, literature, music and film.
HIST 380 - Uncovering the U.S. Past Through Film

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Examines Hollywood films as historical sources that reveal the social, political, cultural and economic landscapes of their historical moment. Explores the ways films participate in pressing national debates over gender, race and ethnicity, and national security.

HIST 385 - Humanities College to Career

Credits: 1
Not Repeatable for Credit
Offered by History and Art History
Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in the humanities. Explores how skills typically learned in humanities majors can be leveraged for a successful transition to post-graduation employment.

Equivalent to ENGH 303, PHIL 393, FRLN 309.

HIST 386 - Topics in History

Credits: 1-6
Repeatable within Term for Credit
Offered by History and Art History
Study of historical topics of special interest.

Notes: Topics announced in advance. May be repeated for credit when topic is different.
HIST 387 - Topics in Global History

Credits: 3-6
Repeatable within Term for Credit
Offered by History and Art History
Study of historical topics or periods of special interest in global, Latin American, African, Asian, or Middle Eastern history.

Fulfills Mason Core requirement in global understanding.

Notes: Topics announced in advance. May be repeated for credit when topic is different. Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0

HIST 388 - Topics in European History

Credits: 3
Repeatable within Term for Credit
Offered by History and Art History
Study of historical topics or periods of special interest.

Notes: Topics announced in advance. May be repeated for credit when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 389 - Topics in U.S. History

Credits: 3
Repeatable within Term for Credit
Offered by History and Art History
Study of historical topics or periods of special interest.

Notes: Topics announced in advance. May be repeated for credit when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 390 - The Digital Past

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Teaches the fundamentals of information technology within the context of a history course. Students learn fundamentals and skills as well as how our society became so enamored of and dependent on these knowledge and information tools. Understanding a new technology requires understanding how new technologies transform the societies that embrace them. Emphasizes the use of free and open-source software whenever possible.

Fulfills Mason Core requirement in information technology (all).

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HIST 391 - History of Virginia to 1800**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Discovery and settlement of Virginia. Colonial period with emphasis on development of representative government and race relations, Golden Age of Virginia dynasty, and coming of Civil War.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HIST 392 - History of Virginia Since 1800**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Decision to secede, Civil War and Reconstruction, Readjustors and Populism, disfranchisement and Constitution of 1902, and rise of Senator Harry F. Byrd. Recent developments.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HIST 393 - Topics in Film and History**

Credits: 3  
Repeatable within Term for Credit  
Offered by History and Art History  
Study of historical periods or topics from perspective of feature films and documentaries.

**Notes:** Topics available in advance from the department. May be repeated for a maximum of 6 credits when topic is different. A maximum of 6 credits may be applied to the BA in history.

**Schedule Type:** LEC
HIST 395 - Topics in Digital History

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Introduces students to issues and methods in digital history through study of a particular topic

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3

HIST 398 - Historical Study Abroad

Credits: 1-6
Repeatable within Degree for Credit
Offered by History and Art History
Intended for participation in formally organized course offered by Center for Global Education during intersession or spring break.

Notes: May be repeated for a maximum of 6 credits with permission of department.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

HIST 399 - Internship

Credits: 1-9
Repeatable within Degree for Credit
Offered by History and Art History
Approved work-study programs in cooperation with specific organizations including area museums; archives; historic sites; and local, state, and federal agencies.

Prerequisite(s): History majors with permission of undergraduate director.
Notes: Credit determined by department. May be repeated for a maximum of 9 credits.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

HIST 401 - Colonial America
Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Intensive study of colonial American history from European origins through Revolutionary War.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HIST 403 - Revolutionary Era in American History, 1763-1812**

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Study of formative years of new republic from Treaty of Paris of 1783 to election of 1820.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HIST 404 - Jacksonian America, 1812-1854**

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Study of age of Andrew Jackson. Emphasizes democratic institutions that emerged as dominant influences in American society.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HIST 426 - The Russian Revolution**

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Era of revolutionary activity from 19th century to end of 1920s, with emphasis on Russian Revolutions of 1917. Explores why revolutionary situation developed; political, social, and cultural issues at stake; why it took various forms; and revolution's contribution to nature of Soviet state and post-Soviet problems.

**Prerequisite(s):** 45 credits or permission of instructor.  
**Notes:** Fulfills the college requirement in non-Western culture.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
HIST 436 - European Society and Culture: 19th and 20th Centuries

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Examines major cultural trends in Europe since French Revolution. Major themes include romanticism; socialism; Marxism; and social effect of modernization, science, and societies.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 460 - Modern Iran

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Modern Iran, from 1800 to present, in context of several broad themes: institutional structure of state; role of great powers in Iran and Iranian response to economic, military, technological, and ideological challenge posed by West; interaction of religion and other ideologies and politics; economic development and impact on politics and society; and ways historians have sought to understand and interpret modern Iranian history.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 461 - Arab-Israeli Conflict

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Overview of history of Arab-Israeli conflict. Examines conflict from various perspectives: over land and between competing nationalisms and identities; in terms of national interests of various states, including Israelis and Palestinians as well as other Arab governments and great powers; and in terms of peace making and conflict resolution. Some knowledge of history of Middle East since World War I strongly advised.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
HIST 462 - Women in Islamic Society

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Surveys history of women in Islamic society from rise of Islam to present day. Examines historical processes that affected role and status of women in society, and specific topics around which issues of gender status and identity coalesced, especially in modern period.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 465 - The Middle East in the 20th Century

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Political, social, and cultural history of Middle East since World War I. Emergence of Israel, Arab nationalism, and political and economic influence of Middle East in world affairs.

Prerequisite(s): 6 credits of history or permission of instructor.
Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 480 - Alexander the Great

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Rise of Persia, Persian wars with Greece, subjugation of Greece by Philip II of Macedonia, and Alexander the Great and his conquest of Persian empire.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 490 - Honors Directed Readings, Honors Directed Research
Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Students must have completed at least one course in the field, or with the professor, chosen for these honors courses.

Prerequisite(s): Admission to history honors program and permission of instructor
Notes: The 3 reading credits should be taken before 3 research credits, though they may be taken concurrently. Either may be taken concurrently with HIST 499. Linked, individualized courses, usually given by same instructor. Involves directed readings.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 491 - Honors Directed Readings, Honors Directed Research

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Students must have completed at least one course in the field, or with the professor, chosen for these honors courses.

Prerequisite(s): Admission to history honors program and permission of instructor
Notes: The 3 reading credits should be taken before 3 research credits, though they may be taken concurrently. Either may be taken concurrently with HIST 499. Linked, individualized courses, usually given by same instructor. Culminates in research paper related to subject of readings.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 498 - Directed Readings/Research in History

Credits: 1-3
Repeatable within Term for Credit
Offered by History and Art History
Readings, research conducted on individual basis in consultation with instructor.

Prerequisite(s): History majors with 90 credits and permission of instructor.
Notes: May be repeated for a maximum of 6 credits. Only 3 credits may be applied to credits for degree.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

HIST 499 - RS: Senior Seminar in History

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Research on specialized historical topic culminating in seminar paper and oral presentation. Synthesis course; students expected to integrate knowledge and skills acquired in Mason Core courses.

Fulfills Mason Core requirement in synthesis.

Fulfills writing intensive requirement in the major.

Designated as a research and scholarship intensive course.

**Prerequisite(s):** History majors with 90 credits, C or higher in HIST 300, ENGH 302/ENGL 302 or HNRS 110 or HNRS 210, and completion or concurrent enrollment in all Mason Core courses.
Prerequisite(s) enforced by registration system.

**Notes:** Subject determined by instructor. Student may present no more than 3 credits for graduation credit. Must receive passing grade to graduate with BA in history.

**Schedule Type:** SEM
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

---

**HIST 510 - Approaches to Modern World History**

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Introduces historical study of world beyond Europe and United States. Students read major theoretical works and case studies of particular regions. Examines imperialism, national identity, and various forms of popular resistance; familiarizes students with range of scholarly approaches, including world systems theory and subaltern studies.

**Prerequisite(s):** Admission to graduate program in history.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**HIST 525 - Problems in Latin American History**

Credits: 3
Repeatable within Term for Credit
Offered by History and Art History
Analysis of selected problems. Emphasizes reading and discussion of historical interpretations, and development of bibliography.

**Notes:** May be repeated for credit when topic is different.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**HIST 535 - Problems in Comparative World History**

Credits: 3  
Repeatable within Term for Credit  
Offered by History and Art History  
Investigates selected problems in global and comparative history, covering multiple countries or world regions.

Notes: May be repeated for credit when topic is different.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**HIST 555 - Problems in Asian History**

Credits: 3  
Repeatable within Term for Credit  
Offered by History and Art History  
Discussion of readings and historical interpretations and compilation of a comprehensive bibliography on given theme.

Notes: Topics announced by instructor. May be repeated for credit when topic is different.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**HIST 565 - Problems in African History**

Credits: 3  
Repeatable within Term for Credit  
Offered by History and Art History  
Analysis of selected problems in African history. Emphasis on reading and discussion of historical interpretations and development of bibliography.

Notes: May be repeated for credit when topic is different.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**HIST 575 - Approaches to Middle East and Islamic History**

Credits: 3  
Not Repeatable for Credit
Offered by History and Art History
Introduces students to the central issues and debates surrounding the study of the Middle East, Islam, and Muslim societies. Covers key methodological issues including the role of area studies vis-à-vis disciplinary approaches and debates on the politics of knowledge production and historiography.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**HIST 585 - Problems in Middle Eastern History**

Credits: 3
Repeatable within Term for Credit
Offered by History and Art History
Analyzes selected problem. Emphasizes reading and discussion of historical interpretations, and development of bibliography.

Notes: May be repeated for credit when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**HIST 598 - Historical Study Abroad**

Credits: 1-3
Repeatable within Term for Credit
Offered by History and Art History
Intended for participation in formally organized course offered by the Center for Global Education.

Notes: May be repeated for a maximum of 6 credits.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0

**HIST 601 - Themes in U.S. History I**

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Survey of U.S. History prior to 1877. Designed for individuals entering the graduate program who need to strengthen preparation in area, or who seek to enhance knowledge of latest interpretations in field. Stresses factual knowledge and its interpretation.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
HIST 602 - Themes in U.S. History II

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Continuation of HIST 601.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 605 - Themes in European History I

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Survey of European history from 1500 to 1815. Designed for individuals entering graduate program who need to strengthen preparation in this area, or who seek to enhance knowledge of latest interpretations in field. Stresses factual knowledge and its interpretation.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 606 - Themes in European History II

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Survey of European history from 1815 to present. Designed for individuals entering graduate program who need to strengthen preparation in this area, or who seek to enhance knowledge of latest interpretations in field. Stresses factual knowledge and its interpretation.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 610 - The Study and Writing of History

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Methodology of the historian including techniques of research, use of documentation and other sources, development of bibliography, and synthesis of material.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**HIST 613 - The Colonial Origins of American Society**

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Study of evolution of elements in colonial society that affect contemporary American institutions and patterns of behavior.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**HIST 615 - Problems in American History**

Credits: 1-6
Repeatable within Term for Credit
Offered by History and Art History
Readings and discussion of bibliographies, interpretations, and research trends in topics selected by instructor.

Prerequisite(s): Graduate standing.
Notes: May be repeated for credit when topic is different.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

**HIST 616 - U.S. Westward Movement**

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Investigates continuity and change in American West. Topics include economic development, ethnicity, rural and urban life, and role of federal government.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
HIST 617 - Topics in the American Civil War Era

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Joint project of instructor and students into various aspects of common topic in Civil War era, with emphasis on historiography and historical method.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 618 - The Age of Jackson, 1815-1854

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Survey of social, cultural, intellectual, economic, and political changes in United States during period of rapid growth and expansion. Topics include second-party system; growth of sectionalism, nationalism, and expansionism; industrialization and spread of market economy; rise of romantic reform and evangelical religion; and growth of abolitionist and proslavery movements.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 620 - Development of the Early Republic, 1783-1815

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Investigates breakdown of Confederation, Constitutional Convention, and role of revolutionary ideology of republicanism. Discusses leadership and policies of republic in hostile international context. Students read extensively in monographic literature and prepare research paper.

Prerequisite(s): Graduate standing
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 622 - U.S. South Since 1865
HIST 623 - Recent U.S. History, 1945 to Present

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Selected political, social, economic, diplomatic, and cultural forces that shaped the post-World War II American experience.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 626 - Approaches to American Culture

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Focuses on various approaches historians have taken to history of American culture: questions they asked, assumptions they made, disciplinary tools they used, and types of materials they analyzed. Concentrates on patterns of culture, and what they say about American past and present.

Prerequisite(s): Graduate standing.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 629 - The Gilded Age and Progressive Era

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Examines history of United States from 1877 to 1918, with attention to history of reform movements and politics, and social history of the period. Familiarizes with major issues and historical literature of the period.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
HIST 630 - U.S. Women's History

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Wide-ranging survey of burgeoning field of women's history, emphasizing critical evaluation of sources and interpretation. Readings represent variety of approaches, which may include material culture studies, medical history, history of sexuality, political history, and social and cultural history.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 631 - Era of the American Revolution

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Examines history and historiography of revolutionary era, with special emphasis on social and ideological interpretations of period. Includes events leading to War for Independence, war itself, and social and political effects of war on American society.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 633 - Reconstruction

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Examines panoply of political, social, economic, and constitutional concerns from 1863 to 1880, as North and South struggled over outcome of Civil War. Addresses political institutions and power in postwar North and South, and place of former slaves in society, politics, and economy.

Prerequisite(s): Graduate standing.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 634 - Interwar America: 1918-1939
HIST 635 - Problems in European History

Credits: 3
Repeatable within Term for Credit
Offered by History and Art History
Investigates selected problems. Readings, discussions, development of bibliographies. Primary sources used where possible.

Prerequisite(s): Graduate standing.
Notes: May be repeated for credit when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

HIST 636 - Political Culture in Twentieth-Century Germany and Austria: Continuities and Discontinuities

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Recent interpretations of key political events of 20th century. Asks if there were fundamental continuities in structure of German and Austrian society that can be observed throughout the period under review.

Prerequisite(s): Baccalaureate degree in history or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 637 - Great Britain: Empire to Commonwealth, 1870-1970

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Examines rise of "new imperialism" in Great Britain from 1870 to end of empire, and gradual formation of Commonwealth of Nations.
HIST 639 - Society and Politics in Western Europe, 1750-1914

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Focuses on changes in social conditions and ramifications in political life. Attention to urbanization of workers, changes in peasantry, growth of middle classes, decline of nobility, and major political developments and expansion of liberal reforms.

Prerequisite(s): Graduate standing.

HIST 640 - Metropolitan Cities of Europe in the Nineteenth and Twentieth Centuries

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Studies individual cities, and investigates particular cities in depth. Considers economic, social, cultural, and political features of urban life.

Prerequisite(s): Graduate standing.

HIST 642 - Humanism and the Renaissance

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
The Renaissance as a unique period in European cultural history from ca. 1350 to 1520. Concentrates on Italian situation as standard, with consideration given to manifestations of Renaissance in northern Europe, especially Germany, until Reformation. Focuses on recent studies of political, social, intellectual, and religious changes. Students write class reports and a larger bibliographic paper.

Prerequisite(s): Graduate standing.
HIST 643 - Religion and Society in the Reformation Era

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
The Reformation, ca. 1500 to 1650, was a time of major religious, intellectual, social, and political upheaval in European history. Investigates reasons for changes, and effects on European society. First half focuses on Germany, but major events throughout Europe are studied.

Prerequisite(s): Graduate standing.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HIST 644 - Society and Culture in Early Modern Europe

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Overview of most recent historical work on social and cultural history of premodern West, ca. 1400 to 1800. Uses theoretical approaches and empirical methodologies of other disciplines, especially social anthropology, sociology, and literary theory, to shed new light on popular culture, class, manners, taste, rituals, religion, language, gender, and the state. Formulates new topics of research and poses new questions, and suggests new approach to more traditional topics such as politics, religion, and ideas.

Prerequisite(s): Graduate standing.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HIST 645 - The Russian Revolution and the Origins of the Soviet State

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Period between 1890 and 1924 with concentration on sources of Bolshevism, problems of old regime as they led to revolutions of 1905 and 1917, and establishment of new regime and its survival in environment of foreign and civil war.

Prerequisite(s): Graduate standing.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HIST 661 - Religion in North America to 1870

Credits: 3  
Not Repeatable for Credit
Offered by History and Art History
Dimensions of religion and religious experience in early America, from the beginnings of European settlement into the mid-to-late nineteenth century.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 662 - U.S. Religion since 1870

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Dimensions of religion and religious experience in the United States, from the mid-to-late nineteenth century through recent decades.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 663 - Topics in U.S. Religious History

Credits: 3
Repeatable within Degree for Credit
Offered by History and Art History
Readings and discussion of bibliographies, interpretations, and research trends in U.S. religious history. Topics selected by the instructor.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 675 - Problems in Military History

Credits: 3
Repeatable within Degree for Credit
Offered by History and Art History
Readings and discussion of bibliographies, interpretations, and research trends in military history topics selected by the instructor.

Prerequisite(s): Graduate standing or permission of instructor.
Notes: May be repeated once when topic is different.

Schedule Type: SEM
HIST 677 - The Vietnam War

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Considers the causes, major events, and historiographic debates of America's Vietnam War including the war's antecedents in Vietnamese history, American decisions for war, strategy and major military engagements, the American antiwar movement, and diplomacy and peace talks.

Prerequisite(s): Graduate standing or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 679 - War and Remembrance

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Considers various approaches to the study of public or collective memory as it pertains to war, in particular how people around the world have constructed memories of war and how those memories have been expressed in literature, popular culture, memorials, and commemorative activities.

Prerequisite(s): Graduate standing or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 680 - Introduction to Digital Humanities

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Introduces students to key concepts, tools, and practices of digital humanities.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3

HIST 688 - Topics in History and New Media
Credits: 3
Repeatable within Term for Credit
Offered by History and Art History
Covers specific topics in history and new media selected by the instructor, with an emphasis on combining theoretical analysis and readings with hands-on projects and problem-solving.

Notes: May be repeated for a maximum of 12 credits when topic is different.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 689 - Teaching and Learning History in the Digital Age

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Examines what happens when instructors integrate new media technology into history classroom. Includes consideration of learning theory, new media theory, and an in-depth examination of state-of-the-art in practice. In the final third of semester, students produce practicum that is either working history teaching web site or concept paper for site, depending on student's degree of technical sophistication. No prior facility with information technology required. Course appropriate for graduate students working as teachers or planning career in teaching.

Prerequisite(s): Graduate standing.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 690 - The Administration of Archives and Manuscripts

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Introduces principles and practices of managing records and administering archival and manuscript collections, public and private. Designed for graduate students with special interest in historical sources as well as for those specializing in applied history.

Prerequisite(s): 6 credits of U.S. history, or permission of department. Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 691 - Museum Studies

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
General introduction to museums of history and museum studies in the United States, intended for interested citizen as well as for assistance to students in course and career choices. Explores development, present state, and future possibilities of U.S. Museums, with some reference to international developments.

**Prerequisite(s):** 6 credits of U.S. history or permission of department. Graduate standing.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**HIST 692 - Historical Editing**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Introduces fundamentals of historical editing of documents, including microform, word processing, and computer techniques. Designed for those seeking introduction to various areas of applied history, and those intending to edit historical documents for publication.

**Prerequisite(s):** Graduate standing.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**HIST 693 - Historic Preservation**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
General introduction to historic preservation in the United States, intended for interested citizen and to assist students in course and career choices. Explores development, present state, and future possibilities of historic preservation in the United States, with some reference to international aspects of preservation.

**Prerequisite(s):** Graduate standing and 6 credits of U.S. history or permission of department.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**HIST 694 - Digital Public History**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Introduces students to the theories and methods central to doing digital public history, and develops the skills necessary for students to plan and execute their own projects. Topics include digital strategy development, developing effective digital exhibits, describing and publishing digital collections, mobile computing and curating the landscape, creating participatory history projects, and effective methods for evaluating digital public history work.
**HIST 695 - History Symposium**

Credits: 1-3  
Not Repeatable for Credit  
Offered by History and Art History  
Subject of academic and community interest pursued through discussions and lectures by distinguished guest instructors.

**Prerequisite(s):** Graduate standing.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HIST 696 - Clio Wired: An Introduction to History and New Media**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Students with limited computer competency should consult department before enrolling. Introduces changes that new media and technologies are bringing to how we research, write, present, and teach about the past. Students explore theoretical and historical issues as well as learn hands-on skills in digital history.

**Prerequisite(s):** Graduate standing.  
**Notes:** Students with limited computer competency should consult with department before enrolling.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HIST 697 - Creating History in New Media**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Seminar; students create original historical projects in digital media.

**Prerequisite(s):** HIST 696 or permission of instructor. Graduate standing.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HIST 698 - Programming in History and New Media**
Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Provides students with advanced conceptual and technical skills to enhance historical practice and research in the digital arena. Focuses on in-depth analysis of theoretical frameworks and on developing proficiency in a variety of programming languages and tools for humanistic and historical research.

Prerequisite(s): HIST 696, 697, or literacy in new media.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 711 - Research Seminar in U.S. History

Credits: 3
Repeatable within Term for Credit
Offered by History and Art History
Research in specialized topics using primary sources.

Prerequisite(s): Admission to MA in history, PhD in cultural studies, or a degree in the Higher Education Program and HIST 610 or permission of department.
Notes: May be repeated for a maximum of 6 credits.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 731 - Research Seminar in European History

Credits: 3
Repeatable within Term for Credit
Offered by History and Art History
Research in specialized topics using primary sources.

Prerequisite(s): Admission to MA in history, PhD in cultural studies, or a degree in the Higher Education Program and HIST 610 or permission of department.
Notes: May be repeated for a maximum of 6 credits.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 751 - Research Seminar in Comparative World History

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Research seminar requiring comparative research and analysis. Organized around significant topic or theme in field of world history.

**Prerequisite(s):** HIST 610 or permission of department.

**Notes:** Topics vary from year to year. Maximum 6 credits may be earned.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HIST 790 - Comprehensive Readings in U.S. History**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Integrates past work in major field and fills gaps before comprehensive exam. After a review of graduate experience, student and instructor design reading list to round out preparation for exam.

**Notes:** To be taken in final semester of program.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HIST 791 - Comprehensive Readings in Comparative World History**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Integrates past work in major field and fills gaps before comprehensive exam. After a review of graduate course work, student and instructor design reading list to round out preparation for exam.

**Notes:** To be taken in final semester of program.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HIST 792 - Comprehensive Readings in European History Since 1500**

Credits: 3  
Not Repeatable for Credit  
Offered by History and Art History  
Integrates past work in major field and fills gaps before comprehensive exam. After review of graduate experience, student and instructor design reading list to round out preparation for exam.

**Notes:** To be taken in final semester of program.
HIST 794 - Internship in Applied History

Credits: 3-6
Repeatable within Degree for Credit
Offered by History and Art History
All internship placements must be approved by the department to ensure suitability to student's program. Introduces applied history through work and study at historical museum, site, library archive, editing project, or other approved agency.

Prerequisite(s): Admission to graduate program in history and 3 hours of applied history.
Notes: May be repeated for a maximum of 6 credits.

HIST 795 - Practicum in Digital History

Credits: 3
Repeatable within Degree for Credit
Offered by History and Art History
Exposes students to various projects in digital history through work and study at the Center for History and New Media. All placements must be approved by CHNM to ensure the suitability of students and projects.

HIST 796 - Directed Readings

Credits: 1-6
Repeatable within Degree for Credit
Offered by History and Art History
Independent reading on topic agreed to by student and faculty member.

Notes: May be repeated for a maximum of 6 credits.
HIST 798 - Directed Research and Writing in History

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Intended for students in department's predoctoral track who are not writing master's thesis. Goal is to produce substantial and original contribution to historical knowledge on model of article in scholarly journal.

Prerequisite(s): Admission to MA program, HIST 610, and research seminar.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

HIST 799 - Thesis

Credits: 1-6
Repeatable within Degree for Credit
Offered by History and Art History
Master's thesis research and writing under direction of faculty committee.

Notes: May not be taken prior to successful completion of comprehensive exam.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: S/NC

HIST 801 - New Developments in History

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Survey of current developments in historical analysis and methodology.

Prerequisite(s): Admission to doctoral program.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 803 - Doctoral Readings for Major Field

Credits: 3
Repeatable within Term for Credit
Offered by History and Art History
Independent readings for PhD students on topic agreed on by student and instructor, taken in preparation for completing major field exam. Should be broadly comprehensive of field, and cover major historical themes and historiographical debates.

Prerequisite(s): Admission to doctoral program.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 804 - Doctoral Readings for Minor Field

Credits: 3
Repeatable within Term for Credit
Offered by History and Art History
Independent readings for PhD students on topic agreed on by student and instructor, taken in preparation for completing minor field statement. Designed to help student master literature of subfield that is subject of field statement.

Prerequisite(s): Doctoral standing.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HIST 810 - History Doctoral Colloquium

Credits: 1
Not Repeatable for Credit
Offered by History and Art History
Introduces array of scholars and scholarship through discussions of innovative historical events, important theories, and significant methodological breakthroughs in history.

Prerequisite(s): Doctoral standing.
Notes: May be taken for credit 6 times.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: S/NC

HIST 811 - Doctoral Research Seminar

Credits: 3
Not Repeatable for Credit
Offered by History and Art History
Students pursue research projects in their areas of specialization.

Prerequisite(s): Doctoral standing.
Schedule Type: SEM
HIST 998 - Doctoral Dissertation Proposal

Credits: 1-6  
Repeatable within Degree for Credit  
Offered by History and Art History  
Work on research proposal that forms basis for doctoral dissertation.

Prerequisite(s): Advancement to candidacy  
Notes: May be taken for maximum 6 credits.

Schedule Type: IND  
Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 0  
Grading: S/NC

HIST 999 - Doctoral Dissertation Research

Credits: 1-12  
Repeatable within Degree for Credit  
Offered by History and Art History  
Doctoral dissertation research and writing under direction of student's dissertation committee.

Prerequisite(s): Completion of HIST 998.  
Schedule Type: IND  
Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 0  
Grading: S/NC

Honors Program in General Education (HNRS)

Offered by the College of Humanities and Social Sciences

Only students enrolled in the Honors Program are eligible to take HNRS courses. HNRS 110 must be taken in the first semester.

HNRS 108 - Introduction to Research Methods I

Credits: 3  
Not Repeatable for Credit  
Offered by University Honors.  
Introduces students to a wide range of disciplinary research practices. Students learn how to identify a topic and pose a focused research question, use information technology to find relevant sources, and develop a research proposal.
Notes: Students must complete HNRS 109, which has a prerequisite of HNRS 108, to fulfill the equivalent of HNRS 110.

**HNRS 109 - Introduction to Research Methods II**

Credits: 3
Not Repeatable for Credit
Offered by University Honors.
Students continue to learn a wide range of disciplinary research practices. Students learn how to pose a research question, analyze pertinent evidence, and write and speak clearly by participating in a scholarly conversation.

Prerequisite(s): Grade of "C" or better in HNRS 108.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3

**HNRS 110 - Research Methods**

Credits: 4
Not Repeatable for Credit
Offered by University Honors
Introduces students to a wide range of disciplinary research practices. Students learn how to pose and pursue a focused research question, use information technology to find relevant sources, analyze pertinent evidence, and write and speak clearly by participating in scholarly conversation.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

**HNRS 122 - Reading the Arts**

Credits: 3
Not Repeatable for Credit
Offered by University Honors
Explores the language of the art medium and the relationship of parts to whole in art works, connections among different art forms, and links between art and its historical context. In exploring multiple art forms, including literature, students will also learn how various artistic devices contribute to meaning. Students will critically explore detail and nuance in the social, historical and personal context of the work(s). Students will also participate in or attend a visual or performance based art work(s) or event(s).

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
HNRS 130 - Conceptions of Self

Credits: 3
Not Repeatable for Credit
Offered by University Honors
Drawing from appropriate works in social sciences, arts, and humanities, examines different conceptions and definitions of the self from diverse cultures and historical contexts.

Prerequisite(s): Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HNRS 131 - Contemporary Society in Multiple Perspectives

Credits: 3
Not Repeatable for Credit
Offered by University Honors
Explores methods and perspectives in social sciences and humanities to evaluate contributions of different disciplines to social and cultural issues, their constructions, their global ramifications. Investigates our individual, collective, and institutional responsibilities as citizens of a diverse and interconnected world.

Prerequisite(s): Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HNRS 211 - Mentorship in Undergraduate Research

Credits: 0-2
Repeatable within Degree for Credit
Offered by University Honors
Students learn to use their own research experience as a tool to guide beginning scholars by mentoring students in Honors 110: Research Methods, through workshops and oral presentations.

Prerequisite(s): Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 0-2
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

HNRS 230 - Cross-Cultural Perspectives
HNRS 240 - Reading the Past

Credits: 3
Not Repeatable for Credit
Offered by University Honors
Considers constructions of historical narratives and their context in major world historical events by examining significant current topics such as revolution, race, empire, and religion over time. Considers how public narratives about history are constructed. Students will communicate their understanding of multiple historical narratives through written, oral and digital means.

Prerequisite(s): Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

HNRS 300 - Advanced Study Abroad

Credits: 0-6
Repeatable within Degree for Credit
Offered by University Honors.
Offers students in the Honors College the opportunity to take advanced study abroad courses that focus on in-depth research or engaged learning.

Prerequisite(s): Grade of "C" or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302
Schedule Type: IND
Grading: Regular
When Offered: Fall, Spring, Summer

HNRS 302 - Research Methods II

Credits: 3
Not Repeatable for Credit
Offered by University Honors
Introduces students transferring into the Honors College to a wide range of disciplinary research practices. Students learn how to choose and focus a research question, find and analyze sources, organize evidence in an essay shaped by an original thesis, write clearly, and address an audience of scholars.

Equivalent to HNRS 210.

**Prerequisite(s):** Admission to Honors College.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**HNRS 310 - Honors College Connects I**

Credits: 0  
Repeatable within Degree for Credit  
Offered by University Honors  
The first of a two-semester course in which students work in groups on long-term service projects coming from community nonprofit organizations.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit

**HNRS 311 - Honors College Connects II**

Credits: 0  
Repeatable within Degree for Credit  
Offered by University Honors  
A continuation of HNRS 310, culminating in student presentations of their results to the community nonprofit organizations and constituents of the Honors College.

**Prerequisite(s):** Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.  
**Schedule Type:** IND  
**Grading:** Satisfactory/No Credit

**HNRS 312 - RS: Research in the Public Sphere**

Credits: 0-3  
Repeatable within Degree for Credit  
Offered by University Honors  
Building on projects begun in HNRS 310, students use research/scholarship skills to address community problems presented by nonprofit organizations. Designated as a research and scholarship intensive course.  

Designated as a research and scholarship intensive course.

**Prerequisite(s):** Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.
Corequisite(s): HNRS 311 or permission of the instructor.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HNRS 330 - Research, Technology, and Online Community

Credits: 0-3  
Repeatable within Degree for Credit  
Offered by University Honors.

Student applicants selected to participate in the RTOC project will plan and create new media artifacts or learning objects in structured collaboration with university stakeholders and mentors. Through this process, they will deepen their understanding of the research process, learn to appreciate the institutional and social dimensions of undertaking and teaching research, and learn to communicate more effectively about research.

Prerequisite(s): Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.

Schedule Type: IND  
Hours of Lecture or Seminar per week: 3  
Grading: Satisfactory/No Credit

HNRS 353 - Technology in the Contemporary World

Credits: 3  
Not Repeatable for Credit  
Offered by University Honors

Critically analyzes emergence and impact of specific technologies on contemporary cultures and the core concepts surrounding these technologies, including legal, social, ethical issues and the technology's relationship to core information security issues. Students develop a significant research project employing multiple disciplinary perspectives. This project will be communicated ethically and with cultural awareness through written, oral and digital means, showing a critical understanding of technologies and their impact.

Prerequisite(s): Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

HNRS 410 - Thesis Proposal

Credits: 0-3  
Repeatable within Degree for Credit  
Offered by University Honors

Provides guidance in research methods to students writing an honors thesis proposal as well as workshop to critique research in progress and to understand the research process in multiple disciplines.
Prerequisite(s): Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

HNRS 411 - RS: Honors College Thesis

Credits: 0-3
Repeatable within Degree for Credit
Offered by University Honors
Directed research on topic agreed on by student, advisor, and the Honors College. Designated as a research and scholarship intensive course.

Designated as a research and scholarship intensive course.

Prerequisite(s): Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

HNRS 430 - Multidisciplinary Challenges in Professional Environments

Credits: 0-3
Repeatable within Degree for Credit
Offered by University Honors.
Students work to solve a problem or challenge currently faced by an Honors College community partner which is identified in consultation with the Fairfax County Economic Development Authority. Provides students with opportunities to synthesize knowledge and practices developed in prior courses and co-curricular experiences; develops the skills and strategies necessary for working effectively in multidisciplinary teams.

Prerequisite(s): Grade of "C" or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 0-3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit.

HNRS 490 - Undergraduate Apprenticeship

Credits: 1-3
Not Repeatable for Credit
Offered by University Honors
Independent work with a faculty mentor on an inquiry-based project involving research, creative activities, or teaching and mentoring.

Notes: This course is open only to undergraduates who have been accepted to the Undergraduate Apprenticeship Program.
Honors Program Sciences (HNRT)

Offered by the College of Science

HNRT 125 - A Liberal Arts Approach to Calculus

Credits: 3
Not Repeatable for Credit
Offered by University Honors
Assumes understanding of basic algebra and functions. Explores various mathematical models and develops concepts and applications of limits and derivatives

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

HNRT 225 - Applied Calculus

Credits: 3
Not Repeatable for Credit
Offered by University Honors
Theory and applications of calculus for nonSTEM students. Assumes a previous introductory course in calculus. Topics include exponential models in the life sciences and business, theory of integration and may include improper integrals, infinite series, differential equations, or probability.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

HNRT 226 - Topics in Quantitative Analysis

Credits: 3
Not Repeatable for Credit
Offered by University Honors
Studies selected topics of special interest to honors students with suitable preparation.

Notes: For students who have taken calculus in high school. HNRT 226 is an alternative to HNRT 125
HNRT 227 - Scientific Thought and Processes I

Credits: 4
Not Repeatable for Credit
Offered by University Honors
Explores and integrates principles of classical and modern science through study of such topics as cosmology, evolution, ecology, mechanics, relativity, quantum physics, and the environment.

Notes: Includes a weekly lab session.

HNRT 228 - Scientific Thought and Processes II

Credits: 4
Not Repeatable for Credit
Offered by University Honors
Explores and integrates principles of classical and modern science through study of such topics as cosmology, evolution, ecology, mechanics, relativity, quantum physics, and the environment.
Designated a Green Leaf Course.

Prerequisite(s): HNRT 227
Notes: Includes a weekly lab session.

Human Development and Family Science (HDFS)

Offered by the College of Education and Human Development

HDFS 200 - Individual and Family Development
Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines how individuals and families function and develop over the lifespan. Uses a multidisciplinary approach to integrate theories of family science and human development emphasizing the role of contextual factors in contemporary families' lives. Explores the impact of gender, socioeconomics, race/ethnicity, culture, and immigrant status on human development and family relationships. Introduces a basic model of scientific inquiry and theorizing.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

HDFS 250 - Family Financial Literacy and Resource Management

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Introduces personal and family financial planning and resource management throughout the lifespan. Integrates theories of family finance and resource management using a multidisciplinary approach. Emphasizes role of contextual factors in contemporary families' financial lives. Explores impact of gender, socioeconomic, race, ethnicity, and culture on family finance and resource management.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Fall, Summer, Spring

HDFS 300 - Individual and Family Services Delivery

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Overview of human services delivery with a focus on families. Explores the historical and social contexts as well as the theoretical orientations of systems that shape delivery of services to families. Examines: 1) economic and cultural barriers that prevent families from gaining access to services; 2) social policy surrounding services for families; 3) ethical and legal issues in family services.

Prerequisite(s): HDFS 200.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

HDFS 301 - The Hospitalized Child and Family

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines the philosophy, purposes, and concepts of Child Life Specialists. Explores developmental and psychological needs of hospitalized children, their families, and those who provide services to children. Examines the impact of illness and illness-related stressors on the dynamics of the family and strategies for coping.

Prerequisite(s): HDFS 200 or permission from instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Fall, Summer, Spring

HDFS 400 - Advanced Family Processes

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines family system dynamics and processes, with an emphasis on cultural and contextual factors that influence family functioning and well-being over the lifespan. Examines both healthy and dysfunctional family processes (including abuse, neglect, and family violence). Explores evidence-based practices and interventions that promote family health, resilience, and well-being.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): HDFS 200 or permission from instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

HDFS 401 - Family Law and Public Policy

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines contemporary family life and the impact of government laws, policies, and programs on families over time and across contexts and cultures. Explores the intended and unintended consequences of policies for diverse families across a variety of policy matters, from anti-poverty and social welfare policies to health and environmental policies.

Fulfills writing intensive requirement in the major.

Prerequisite(s): HDFS 200 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

HDFS 498 - Internship and Analysis in Human Development and Family Science
HDFS 498 - Internship & Analysis in Human Development and Family Science

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
First course in a two-course series that supports students in their internship and in transitioning from student to professional. Enables students to discuss work-related experiences within the context of developmental and family theories and research. Fosters and promotes professional development through class and small group discussions, activities, lectures, guest speakers, and practical assignments.

Prerequisite(s): HDFS 300.
Notes: Students will have 135 contact hours for the semester; however, 125 will be in the field and 10 in the classroom.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

HDFS 499 - Advanced Internship & Analysis in Human Development and Family Science

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Accompanies the second semester of the required internship experience. Supports students in the development and implementation of a program for staff and/or clients at internship site. Examine internship-related experiences within the context of developmental and family theories and empirical research. Contemplate and prepare for the transition to professional.

Prerequisite(s): HDFS 498.
Notes: Students will have 135 contact hours for the semester; however, 125 will be in the field and 10 in the classroom.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

Information Security and Assurance (ISA)

Offered by the Volgenau School of Engineering

ISA 562 - Information Security Theory and Practice

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
A technical introduction to the theory and practice of information security, which serves as the first security course for the MS-ISA degree, is required as a prerequisite for all subsequent ISA courses (at the 600 and 700 levels) and subsumes most topics covered by the CISSP examination. Also serves as an entry-level course available to non-ISA students, including MS-CS, MS-IS, and MS-SWE students.
Prerequisite(s): INFS 501, 515, 519, and SWE 510, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ISA 564 - Security Laboratory

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Provides hands-on experience in configuring and experimenting with commodity-networked systems and security software in a live laboratory environment, with the purpose of understanding real-world security threats. Takes both offensive and defensive approaches and exposes students to a variety of real-world attacks, including viruses, worms, rootkits, and botnets. Possible mitigation and defending mechanisms, such as firewalls and intrusion detection software, also covered.

Prerequisite(s): ISA 562 and CS 531 or equivalent.
Schedule Type: LAB
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ISA 650 - Security Policy

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Focuses on security policy and its management for information systems having national and international connectivity. Issues include legal, international, cultural, and local factors. Students are expected to participate regularly in presenting material, in discussion of recent security issues, and by writing short papers on major current issues.

Prerequisite(s): B- or higher in ISA 562.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ISA 652 - Security Audit and Compliance Testing

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Presents the fundamental concepts of the IT-security audit and control process that is being conducted in a plethora of environments, including government, the financial industry, and the healthcare industry. The goal of this course is to enable the students to structure and perform audits based on the specifications of Sarbanes-Oxley, HIPAA, and FISMA audit programs. Covers all the CISA certification requirements in depth. Students completing the course are encouraged to attempt the certification exam on their own.
Prerequisite(s): B- or higher in ISA 562.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ISA 656 - Network Security

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
An in-depth introduction to the theory and practice of network security. It assumes basic knowledge of cryptography and its applications in modern network protocols. Studies firewalls architectures and virtual private networks and provides deep coverage of widely used network security protocols such as SSL, TLS, SSH, Kerberos, IPSec, IKE, and LDAP. It covers countermeasures to distributed denial of service attacks, security of routing protocols and the Domain Name System, e-mail security and spam countermeasures, wireless security, multicast security, and trust negotiation.

Prerequisite(s): B- or higher in ISA 562 and INFS 612 or CS 555.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ISA 673 - Operating Systems Security

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Covers fundamentals and advanced topics in operating system (OS) security, including OS-level security mechanisms and policies in investigating and defending against real-world attacks on computer systems, such as self-propagating worms and large-scale botnets. Basic OS security techniques, such as logging, system call auditing, and memory protection, will be discussed. Recent advanced techniques, such as honeypots and honeyfarms, system randomization, vulnerability fingerprinting, and virtualization, will also be introduced.

Prerequisite(s): ISA 562.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ISA 674 - Intrusion Detection

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Studies methodologies, techniques, and tools for monitoring events in computer system or network, with the objective of
preventing and detecting unwanted process activity and recovering from malicious behavior. Topics include types of threats, host-based and network-based information sources, vulnerability analysis, denial of service, deploying and managing intrusion detection systems, passive versus active responses, and designing recovery solutions.

Prerequisite(s): B- or higher in ISA 564 and ISA 656. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ISA 681 - Secure Software Design

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Theory and practice of software security, focusing in particular on some common software security risks, including buffer overflows, race conditions and random number generation, and the identification of potential threats and vulnerabilities early in the design cycle. Emphasis is on methodologies and tools for identifying and eliminating security vulnerabilities, techniques to prove the absence of vulnerabilities, and ways to avoid security holes in new software and on essential guidelines for building secure software. Explores how to design software with security in mind from the ground up and integrate analysis and risk management throughout the software life cycle.

Equivalent to SWE 781 (2012-2013 Catalog), SWE 681.

Prerequisite(s): SWE 619.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ISA 697 - Topics in Information Security

Credits: 1-6
Repeatable within Term for Credit
Offered by Computer Science
Special topics in information security and assurance not occurring in regular ISA sequence.

Prerequisite(s): Permission of instructor.
Notes: May be repeated for credit when distinct offerings of course differ in subject.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ISA 763 - Security Protocol Analysis
Credits: 3  
Not Repeatable for Credit  
Offered by Computer Science  
Teaches how to design, understand, verify, and test communication protocols so they meet their objectives of recognizing the basic components of a communication protocol; specifying security properties accurately; modeling actors and mal-actors against which a protocol ought to be secure; discussing verification and testing methods and their limitations by ensuring that the specified protocol satisfies stated security objectives in the presence of specified mal-actions; designing a medium-size protocol that satisfies a specification of requirement; using existing tools to specify and verify security protocols; and testing protocols for satisfying their security objectives.

**Prerequisite(s):** B- or higher in ISA 656.  
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**ISA 764 - Security Experimentation**

Credits: 3  
Not Repeatable for Credit  
Offered by Computer Science  
Teaches how to conduct security experimentations and empirically demonstrate, validate, and evaluate security vulnerabilities, exploits, and defense mechanisms. By the end of the course, students will gain a deeper understanding and first-hand experience on capturing packets of interests from both wired and wireless networks, and replying interested network flows and how shellcode various buffer overflows attacks, worms, spyware, rootkits, botnets, anonymous communication and traceback mechanisms work.

**Prerequisite(s):** B- or higher in ISA 564 and ISA 656.  
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**ISA 785 - Research in Digital Forensics**

Credits: 3  
Not Repeatable for Credit  
Offered by Computer Science  
Focuses on research-related aspects of digital forensics including open problems in digital forensics, countermeasures against digital forensics, and fundamental and practical limitations of current digital forensics techniques. Also covers currently established techniques and tools for digital forensics as well as common legal and ethical issues.

**Prerequisite(s):** B- or higher in ISA 562 and INFS 612 or CS 555.  
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC
ISA 796 - Directed Readings in Information Security

Credits: 3
Repeatable within Degree for Credit
Offered by Computer Science

Research and analysis of contemporary problem in information security.

Prerequisite(s): Graduate standing in information security and assurance, with at least 12 prior credits in MS.
Notes: Prior approval required by faculty sponsor who supervises student's work. To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Written report also required. Maximum of 6 credits may be earned.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

ISA 797 - Advanced Topics in Information Security

Credits: 3
Repeatable within Term for Credit
Offered by Computer Science
Special advanced topics not occurring in regular ISA sequence.

Prerequisite(s): Permission of instructor.
Notes: May be repeated for credit when distinct offerings of course differ in subject.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ISA 798 - Research Project

Credits: 3
Repeatable within Degree for Credit
Offered by Computer Science

Research project chosen under guidance of full-time graduate faculty member, resulting in written technical report.
Prerequisite(s): 18 credits applicable toward MS.
Notes: Prior approval required by faculty sponsor who supervises student's work. To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

ISA 799 - Thesis

Credits: 1-6
Repeatable within Degree for Credit
Offered by Computer Science
Original or expository work chosen and completed under supervision of graduate faculty member, which results in technical report accepted by three-member faculty committee. Report must be defended in oral presentation.

Prerequisite(s): 18 credits applicable toward MS or permission of instructor.
Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

ISA 862 - Models for Computer Security

Credits: 3
Repeatable within Degree for Credit
Offered by Computer Science
This class will be focused on current research in Security with emphasis in Network and Software Security.

Prerequisite(s): B- or higher in ISA 562.
Prerequisite(s) enforced by registration system.

Notes: May be repeated with change in topic.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

ISA 863 - Advanced Topics in Computer Security

Credits: 3
Repeatable within Degree for Credit
Offered by Computer Science
Current topics of advanced research. Content varies depending on faculty interests, research developments, and student demand. Requires substantial student participation. May include formal models for computer security, multilevel data models, multilevel database management system architectures, secure concurrency control protocols, distributed secure system architectures, integrity models and mechanisms, security policy, and requirements analysis.

Prerequisite(s): B- or higher in ISA 562.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Information Systems (INFS)

Offered by the Volgenau School of Engineering

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

INFS 501 - Discrete and Logical Structures for Information Systems

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Study of discrete and logical structures for information systems analysis and design including basic set theory and proof techniques, propositional and predicate logic, trees and graphs, finite state machines, formal languages and their relation to automata, computability and computational complexity, formal semantics-operational, axiomatic and denotational approaches.

Prerequisite(s): 6 credits of undergraduate mathematics.
Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INFS 515 - Computer Organization Course and Operating Systems

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Computer hardware architecture concepts including number systems, machine representation of numbers, instruction set formats, addressing techniques, memory organization, internal processor structure and operation. Symbolic assembly language fundamental operating systems concepts; process synchronization and scheduling, interprocess communication, memory management, virtual memory, deadlocks, file I/O and disk management, and LINUX operating system case studies.

Prerequisite(s): Undergraduate courses or equivalent knowledge in structured programming in a high-level language.
Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INFS 519 - Program Design and Data Structures

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Study of the fundamentals of data structures and algorithms applied in programming solutions to application problems. The course stresses programming in a modern high-level language. Laboratory required.

Prerequisite(s): Undergraduate courses or equivalent knowledge in structured programming in a high-level language.
Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INFS 612 - Principles and Practices of Communication Networks

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Introduces principles of computer networks and applications to Internet. Discusses details of layering, protocols, performance, resource allocation, management, security and other contemporary issues related to networks. Examples of course material are protocols such as HTTP(S), DNS, TCP/IP, RSVP, SNMP, algorithms such as Dijkstra's link state routing; and security measures such as firewalls and encryption, the principles behind them and analysis of performance.

Prerequisite(s): INFS 501, 515, 519, and SWE 510, or equivalent
Notes: No substitutions can be made for this class.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INFS 614 - Database Management

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Introduces database systems, emphasizing study of database models and languages and practice of database design and programming. Topics include Entity-Relationship model, relational model and its formal query languages, SQL, theory of relational database design, and object-oriented and logic-based databases.
Prerequisite(s): INFS 501, 515, 519, and SWE 510, or equivalent.
Notes: Requires computing lab. No substitutions can be made for this class.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INFS 622 - Information Systems Analysis and Design

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Integration of computing technologies, systems analysis, system design practices, and management criteria in the design of large-scale information management and decision-support systems. Includes cases, computing lab.

Prerequisite(s): INFS 501, 515, and 519, or equivalent
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INFS 623 - Web Search Engines and Recommender Systems

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Study of Web search engines and recommender systems. Topics to include classical information retrieval methods, Boolean retrieval systems, ranked retrieval, performance metrics, Web crawling, link analysis, overall search engine architecture, fundamentals and classification of recommender systems, learning user interests and object properties, and case studies.

Prerequisite(s): INFS 501, 515, 519, and SWE 510.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INFS 640 - Introduction to Electronic Commerce

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Studies electronic commerce from both managerial and technical perspectives. Topics include e-commerce models and concepts; Internet and web protocols and infrastructure; e-commerce marketing and branding; security protocols and standards; e-commerce payment systems; and case studies of business-to-consumer, business-to-business, consumer-to-consumer, and e-government.

Prerequisite(s): INFS 501, 515, and 519; and SWE 510 or equivalent.
Schedule Type: LEC
INFS 697 - Topics in Information Systems

Credits: 1-6
Repeatable within Degree for Credit
Offered by Computer Science
Presents special topics in information systems not occurring in regular INFS sequence.

Prerequisite(s): Permission of instructor.
Notes: May be repeated for credit when distinct offerings of course differ in subject.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

INFS 740 - Database Programming for the World Wide Web

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Information systems accessible through web and Internet are becoming prevalent. Course focuses on technologies and industry standards for accessing and manipulating persistent data that are suitable for web applications.

Prerequisite(s): INFS 614.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INFS 760 - Advanced Database Management

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Study of advanced database models and languages, database design theory, transaction processing, recovery, concurrency, distributed database, and security and integrity. Discusses recent developments and research directions.

Prerequisite(s): INFS 614.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INFS 770 - Knowledge Management for E-Business
INFS 772 - Intelligent Agents and the Semantic Web

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Course covers the role of intelligent agents in cooperating to access, harvest, sift and winnow information and knowledge from the semantic web. Topics include agent architectures, practical reasoning and deductive agents, beliefs-desires-intentions (BDI) framework for agent reasoning, commitments and actions; Semantic Web ontology languages, description logics, reasoning and rule languages; and agent communication languages, protocols and standards.

Prerequisite(s): INFS 614
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INFS 774 - Enterprise Architecture

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
This course presents the basic concepts and methodologies for the discipline known as Enterprise IT Architecting within a framework, structure, and methodology. Enterprise IT Architecting is a necessary step for designing and developing a system of information systems. It includes the definition of the business, work, functional, information and technical perspectives. As such, it is the enabling approach for the system development process that builds complex information systems.

Prerequisite(s): INFS 622 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INFS 796 - Directed Readings in Information Systems

Credits: 3
Repeatable within Term for Credit
Offered by Computer Science
Research and analysis of contemporary problem in information system development.

**Prerequisite(s):** Graduate standing in information systems, with at least 12 prior credits in MS.
**Notes:** To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Prior approval required by faculty sponsor who supervises student's work. Written report required. Maximum 6 credits may be earned.

**Schedule Type:** IND
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

### INFS 797 - Advanced Topics in Information Systems

Credits: 1-6
Repeatable within Degree for Credit
Offered by Computer Science
Special advanced topics not occurring in regular INFS sequence.

**Prerequisite(s):** Permission of instructor.
**Notes:** May be repeated for credit when distinct offerings of course differ in subject.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

### INFS 798 - Research Project

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Research project chosen under guidance of full-time graduate faculty member, resulting in written technical report.

**Prerequisite(s):** 18 credits applicable toward MS.
**Notes:** To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Prior approval required by faculty sponsor who supervises student's work.

**Schedule Type:** IND
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**Grading:** Graduate Special

### INFS 799 - Thesis

Credits: 1-6
Repeatable within Degree for Credit
Offered by Computer Science
Original or compilary work evaluated by a committee of three faculty members.

**Prerequisite(s):** 18 credits applicable toward MS.
**Notes:** To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair.

**Schedule Type:** IND
**Hours of Lecture or Seminar per week:** 1-3
**Hours of Lab or Studio per week:** 0
**Grading:** Satisfactory/No Credit

**Information Technology (IT)**

Offered by the Volgenau School of Engineering

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

**IT 102 - Discrete Structures**

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Introduces ideas of high-level pseudocode and discrete structures. This course focuses on problem-solving, supporting both abstraction and modeling providing the foundation needed for programming.

Prerequisite(s) enforced by registration system.

**Corequisite(s):** Grade of C or better in MATH 108 or MATH 113.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**When Offered:** Fall, Summer, Spring

**IT 103 - Introduction to Computing**

Credits: 3
Not Repeatable for Credit
Offered by Information Sciences and Technology
This course is an approved equivalent for transfer students only and is not offered at Mason.

Fulfills Mason Core requirement in information technology (all) for transfer students only.

**Schedule Type:** LAB, LEC
IT 104 - Introduction to Computing

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
This course, using both lecture and laboratory practice, introduces students to basic computer concepts in hardware, software, networking, computer security, programming, database, e-commerce, decision support systems, and current developments in 3-D printing, virtualization, and Siri-like systems. Additional lectures examine social, legal, ethical issues including privacy, intellectual property, health concerns, green computing, and accessibility. Students learn techniques to search, evaluate, validate, and cite information found online. Hands-on lab includes spreadsheets, databases, presentation, HTML 5, CSS, cybersecurity, blogs, wiki, and mobile app development.

Fulfills Mason Core requirement in information technology (all).

Equivalent to IT 103.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 1.5
When Offered: Fall, Summer, Spring

IT 105 - IT Architecture Fundamentals

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Introduces students to fundamental hardware and software concepts of information technology (IT) to understand the basics of modern computing environments. Students acquire a comprehensive understanding of a computer system's essential components, component interdependence, and binary functions, factoring in performance, data communication models, telecommunication basics, and information security. Recent trends and advancements in mobile computing, telecommunications, and IT infrastructures are discussed.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

IT 106 - Introduction to IT Problem Solving Using Computer Programming

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Introduces techniques for developing solutions to business problems using procedural programming as an IT resource/tool. Students apply problem solving concepts by analyzing problems and constructing, testing, and implementing algorithms using pseudocode, desk checking, and procedural programming. Topics include: program flow, control structures, programming fundamentals, and integrating program modules into a cohesive solution.

Prerequisite(s): C or higher in IT 103 or IT 104.
Prerequisite(s) enforced by registration system.
Corequisite(s): IT 102 or MATH 112 or MATH 125.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

**IT 191 - Review of Computing Fundamentals**

Credits: 1
Limited to 2 Attempts
Offered by Information Sciences and Technology
Provides a self-paced, comprehensive review of computing fundamentals. Topics include: hardware, software, networking, computer security, programming, database, e-commerce, decision support systems, and other emerging technologies. Open only to students with transfer credit comparable to IT 103 or IT 104 who have not attempted IT 191 or IT 104.

Prerequisite(s): Permission of department.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

**IT 193 - Review of Multimedia and Web Design**

Credits: 1
Not Repeatable for Credit
Offered by Information Sciences and Technology
Provides a self-paced, comprehensive review of concepts and techniques for designing and developing attractive and accessible websites with multimedia components. Introduces and discusses technological, aesthetic, and human factors. Open only to students with transfer credit comparable to IT 213 who have not attempted IT 193 or IT 213.

Prerequisite(s): Permission of department.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

**IT 194 - Review of Database Fundamentals**

Credits: 1
Not Repeatable for Credit
Offered by Information Sciences and Technology
Provides a self-paced, comprehensive review of database fundamentals. Topics include: database classifications, data models with extensive coverage of the relational model, entity-relationship and extended entity relationship models, normalization, advanced data modeling, and Structured Query Language (SQL) programming. Open only to students with transfer credit
comparable to IT 214 who have not attempted IT 194 or IT 214.

**Prerequisite(s):** Permission of department.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 1

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Summer, Spring

### IT 196 - Review of IT Problem Solving Using Computer Programming

Credits: 1

Not Repeatable for Credit

Offered by Information Sciences and Technology

Provides a self-paced, comprehensive review of techniques for developing solutions to business problems through an iterative design and implementation approach. Open only to students with transfer credit comparable to IT 106 who have not attempted IT 106 or IT 196. (MATH 112 prior completion or co-registration is strongly recommended.)

**Prerequisite(s):** Permission of department.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 1

**Hours of Lab or Studio per week:** 0

**When Offered:** Summer

### IT 198 - Independent Study in Information Technology

Credits: 1-3

Repeatable within Degree for Credit

Offered by Information Sciences and Technology

**Prerequisite(s):** Permission of instructor. Individualized section form required.

**Schedule Type:** IND

**Hours of Lecture or Seminar per week:** 1-3

**Hours of Lab or Studio per week:** 0

### IT 206 - Object Oriented Techniques for IT Problem Solving

Credits: 3

Limited to 2 Attempts

Offered by Information Sciences and Technology

Introduces techniques for developing solutions to business problems using object-oriented programming as an IT resource/tool. Students apply problem solving concepts by analyzing problems and constructing, testing, and implementing object-oriented solutions using object-oriented analysis and design, data modeling, and object-oriented programming fundamentals. Topics include: Unified Modeling Language (UML), classes, inheritance, polymorphism, and exception handling.

**Prerequisite(s):** Grade of C or better in (IT 106 or IT 196) and (IT 102 or MATH 112 or MATH 125).

**Prerequisite(s) enforced by registration system.**

**Notes:** Students cannot receive credit for both IT 108 and IT 206.
IT 207 - Applied IT Programming

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Building on fundamentals of problem solving, logic and algorithm development, and procedural programming, this course further develops these skills while covering server side scripting languages and relational database connectivity. Students will use open source software tools to develop database-enabled web applications.

Prerequisite(s): C or higher in (IT 106 or IT 196 or CS 112) and (IT 102 or MATH 112 or MATH 125) and (IT 214 or IT 194).
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IT 213 - Multimedia and Web Design

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Through lecture, class demonstration, class discussion, and hands-on lab experience, introduces multimedia and web computer graphics. Focuses on development of web-enabled multimedia applications from practical business perspective. Introduces and discusses technological, aesthetic, and human factors.

Prerequisite(s): C or higher in IT 103 or IT 104.
Prerequisite(s) enforced by registration system.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

IT 214 - Database Fundamentals

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Covers fundamentals of relational database management systems and their use in business environments. Topics include: database classifications, data models with extensive coverage of the relational model, entity-relationship and extended entity-relationship models, normalization, advanced data modeling, and Structured Query Language (SQL) programming. Students
design and implement a real-world relational database and create complex SQL queries to retrieve data from the database.

**Prerequisite(s):** Grade of C or better in IT 103 or IT 104 or CS 112.
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**IT 216 - Systems Analysis and Design**

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Students survey and apply techniques in analyzing and modeling information systems. Requirements are derived in various domains and abstracted at conceptual, logical, and physical levels. Process, data, and state modeling are applied through a project that follows a systems development lifecycle. Object modeling is explored and contrasted with data and process modeling. Individual and group modeling assignments are required.

**Prerequisite(s):** C or higher in (IT 106 or IT 196) and (IT 214 or IT 194) and (IT 102 or IT 206)
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring

---

**IT 223 - Information Security Fundamentals**

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Introduces concept of information security. Discusses need for organizational policy to define required services such as confidentiality, authentication, integrity, nonrepudiation, access control, and availability, and mechanisms to implement those services. Covers different types of security including physical security, computer security, and network security; common threats to and attacks against information systems, including accidental damage, identity theft, malicious software, and "spam"; and defensive measures.

**Prerequisite(s):** C or higher in (IT 101 or IT 105) and (IT 103 or IT 104).
Prerequisite(s) enforced by registration system.

**Notes:** Students cannot receive credit for both IT 221 and IT 223.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0
IT 293 - Applied IT: Junior Transition

Credits: 1  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
Focuses on transition issues for sophomores and transfer students in Applied Information Technology programs. Assists sophomore and transfer students with choice of concentration, course selection, and career readiness.

Prerequisite(s): Sophomore standing  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring, Summer

IT 300 - Modern Telecommunications

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
Comprehensive overview of the fundamental principles of telecommunications, including current status and future directions of the public switched telephone network, cellular networks, satellite networks, and computer networks.

Prerequisite(s): Grade of C or better in ((IT 101 and IT 212) or IT 105) and (MATH 108 or MATH 113) and (IT 102 or MATH 112 or MATH 125).  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

IT 304 - IT in the Global Economy

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
Explores how IT changed nature of society and contributed to evolution of global economy. Examines changing nature of work, education, and communication, and ethical issues such as intellectual property rights, computer-related crime, privacy concerns, and public policy issues.

Fulfills Mason Core requirement in information technology (ethics only).

Prerequisite(s): C or higher in IT 103 or IT 104.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
IT 306 - Program Design and Data Structures

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Fundamentals of data structures and analysis of algorithms. Large programs written in a modern, high-level programming language. Stresses abstraction, modular design, code reuse, and correctness.

Prerequisite(s): Grade of C or better in IT 102 or MATH 112 or MATH 125, and grade of B or better in IT 206.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

IT 308 - Event-Driven Programming

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Building on the programming concepts covered in IT 206, this course focuses on graphical user interfaces. Students will design, develop, and document event-driven programs using an object-oriented language.

Prerequisite(s): Grade of B or better in IT 206.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IT 314 - Database Programming

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
The course introduces students to the Oracle Developer application development utilities and tools and describes how to create and manipulate databases in Oracle database management system. The course provides an extensive overview of SQL and introduction to PL/SQL. Topics include data definition and manipulation languages, stored procedures, triggers, indexing techniques, and elementary query optimization.

Prerequisite(s): Grade of C or better in (IT 106 or IT 196 or CS 112), and grade of B or better in (IT 214 or IT 194).
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
IT 315 - Mobile Development

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Studies business-oriented applications for popular mobile platforms including Blackberry, Android and Apple. Provides overview of mobile platforms and devices including evaluation, uses, design and development of applications.

Prerequisite(s): Grade of C or better in (IT 206 or CS 211), and a grade of B or better in (IT 213 or IT 193).
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring.

IT 322 - Health Data Challenges

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Covers methodology and tools used to work with health data structures supporting organizations' needs for reliable data that are captured, stored, processed, integrated, and prepared for further querying, decision making, data mining and knowledge discovery for a variety of clinical and organizational purposes. Data security and privacy, data standards, data interoperability, health information exchange, and big data analytics are discussed.

Equivalent to BENG 322.

Prerequisite(s): Grade of C or better in (STAT 250 or STAT 344), and grade of B or better in (IT 214 or IT 194).
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

IT 324 - Health Information Technology Fundamentals

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Explores challenges in the development and implementation of information systems and informatics tools in healthcare environment. Discusses the importance and benefits of electronic health records (EHRs). Students learn about EHRs’ creation, management, and evolution, and their use for clinical decision support. In addition health information security, privacy, federal laws, regulations and standards, and their impact on healthcare delivery are discussed.

Prerequisite(s): Grade of B or better in IT 214 or IT 194.
Prerequisite(s) enforced by registration system.
IT 328 - Health Information Emerging Technologies

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
Provides an introduction to networking in the healthcare environment and covers a wide range of topics on emerging health information technologies. Discusses internet protocols, safety procedures, and data privacy considerations in healthcare environments, and processes required to design, secure, and troubleshoot a network to support healthcare organizations. Mobile computing, patient portals, personal health records, telehealth, health information exchange are discussed.

Prerequisite(s): C or higher in IT 341.  
Prerequisite(s) enforced by registration system.

IT 331 - Web I: Web Development

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
Introduces the principles and techniques necessary for successful client-side web development. Topics such as HTML5, Cascading Style Sheets, JavaScript, DOM, XML, AJAX, and jQuery are presented. Students will learn to develop attractive and interactive web pages and applications and use client-side web-scripting languages to solve problems both with a text editor and more powerful WYSIWYG HTML editors.

Prerequisite(s): Grade of C or better in IT 106 or IT 196, and grade of B or better in IT 213 or IT 193.  
Prerequisite(s) enforced by registration system.

IT 332 - Web Server Administration

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
Covers the installation, configuration, and administration of Web servers, FTP servers, and DNS servers. Additional topics include security setups, administration, and associated performance issues.
Prerequisite(s): Grade of B or better in IT 213 or IT 193.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

IT 335 - Web Development using Content Management Systems

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
Through lectures and hands-on lab experience, presents web development techniques using content management systems (e.g. Joomla, Dot net nuke). Introduces characteristics of various types of websites (corporate portals, intranets and extranets; online magazines, newspapers, and publications; e-commerce and online reservations, government applications, small business websites). Presents methods, languages, tools related to web content management systems from an applied perspective.

Prerequisite(s): Grade of B or better in IT 213 or IT 193.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

IT 341 - Data Communications and Network Principles

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
Focuses on primary aspects of data communications and networking. Open Systems Interconnection (OSI) and Internet models; Layer 1 interfaces and cabling configurations; IP network addressing, network design, router and port configurations; security protocols; static routing, RIPv2, and OSPF configurations; TCP, UDP, data reliability, and error correction methods; Telnet, FTP, TFTP, HTTP, SMTP, POP, and DNS protocols.

Prerequisite(s): Grade of C or better in ((IT 101 and IT 212) or IT 105) and (IT 106 or IT 196 or CS 112) and (MATH 108 or MATH 113).  
Prerequisite(s) enforced by registration system.

Corequisite(s): IT 300.

Notes: This course is 50 percent lab work of configuration of routers and network design, implementation, and testing.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
IT 342 - Operating Systems Fundamentals

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Practices and procedures for installing and configuring modern operating systems, including user accounts, file, print, and terminal servers, mobile computing, and disaster recovery. Through practical lab sessions, students receive real-world experiences with multiple operating systems.

Prerequisite(s): Grade of C or better in (IT 101 and IT 212) or IT 105, and (IT 106 or IT 196).
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IT 343 - IT Project Management

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Provides essential strategies and procedures for planning, organizing, staffing, monitoring, and controlling design, development, and production of system to meet stated IT-related need in effective and efficient manner. Fulfills writing-intensive requirement for BS in information technology.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Grade of C or better in IT 293 and Junior Standing.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IT 344 - Information Storage and Management Technologies

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Provides an introduction to principles of information storage and management including the emerging field of virtualization technologies. Covers Direct Attached Storage (DAS), networked storage models such as Network Attached Storage (NAS), Storage Area Network (SAN), and Content Addressed Storage (CAS); and applications in business continuity, replication, disaster recovery, and cloud computing. Includes exposure to real-world storage networking technologies.

Prerequisite(s): Grade of C or better in IT 341, and grade of B or better in (IT 214 or IT 194).
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
**IT 352 - Security Administration of Linux Systems**

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
Provides theoretical foundation and practical experience installing, configuring, and maintaining Linux systems with an emphasis on best practices for security. Students develop a heterogeneous suite of clients and servers with firewalls and other networking components.

Prerequisite(s): Grade of B or better in IT 223, and grade of C or better in ((IT 101 and IT 212) or IT 105) and (IT 106 or IT 196) and IT 342.  
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**IT 353 - Information Defense Technologies**

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
This course will examine and assess the role of information technology as a tool of warfare and civil defense. Topics will be discussed from both defensive and offensive perspectives and will include asset tracking, asymmetric warfare, network centric warfare, physical attacks, cyberterrorism, espionage, psyops, reconnaissance and surveillance, space assets, and applications of GPS and cryptographic technology. Students will research and write about the social, ethical, and political effects of such technology.

Prerequisite(s): (IT 101 or IT 105), and grade of "B" or better in IT 223  
Prerequisite(s) enforced by registration system.

Notes: For INFT and AIT majors, minors and certificates, and BAS cybersecurity concentration only.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**IT 357 - Computer Crime, Forensics, and Auditing**

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
Covers computer crime, relevant laws, agencies, and standards. Presents auditing, logging, forensics, and related software.
Explores legal principles such as chain of evidence, electronic document discovery, eavesdropping, and entrapment. Students get hands-on experience with forensics tools.

Equivalent to CRIM 304

Prerequisite(s): (IT 103 or IT 104), and grade of "B" or better in IT 223. Prerequisite(s) enforced by registration system.

Notes: For INFT and AIT majors, minors and certificates, and BAS cybersecurity concentration only.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**IT 366 - Network Security I**

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology

Examines information security services and mechanisms in network context. Topics include symmetric and asymmetric cryptography; message authentication codes, hash functions and digital signatures; digital certificates and public key infrastructure; access control including hardware and biometrics; intrusion detection; and securing network-enabled applications including e-mail and web browsing.

Prerequisite(s): Grade of C or better in IT 206, and grade of B of better in IT 223. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**IT 369 - Data and Application Security**

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology

Introduces concept of data and application security. Discuss challenges of database, and application and industrial control system security.

Prerequisite(s): Grade of C or better in IT 207, and grade of B or better in IT 223. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
IT 390 - Rapid Development of Scalable Applications

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Presents software engineering, programming techniques, platforms and tools necessary for rapid development of scalable applications including: cloud platforms; scalable data storage solutions; web applications development environments. The course will provide a general overview of such techniques but will concentrate on selected ones in each term. The students will work in small teams and must develop scalable prototypes during the course.

Prerequisite(s): Grade of C or better in (IT 213 or IT 193) and (IT 214 or IT 194), and a grade of B or better in (IT 106 or IT 196).
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

IT 410 - Web Programming

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
This course covers layers of the n-tier architecture. Students will build web applications using available frameworks at each tier, such as Java Server Faces and Servlets for the UI tier, Web Services for the business tier and Java Database Connectivity for the persistence tier.

Prerequisite(s): Grade of B or better in IT 206.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

IT 413 - Digital Media Editing

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Examines three areas of digital media editing- tools for editing, content and logic decision process, and information technology used by major corporations for development and distribution- through video examples from entertainment industry and corporate productions as well as hands-on editing experience.

Prerequisite(s): C or higher in IT 213 or IT 193.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
**IT 414 - Database Administration**

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
Explores advanced concepts of database administration using enterprise-level database management system. Topics include: backup, recovery, corruption, automatic management, resource management, job scheduling, space management, memory management, storage management, diagnosis and corresponding tools.

Prerequisite(s): Grade of C or better in IT 314 and grade of B or better in (IT 214 or IT 194). Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**IT 415 - Information Visualization**

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
Provides an overview of information visualization applications in intelligence analysis, decision support systems, and network monitoring. Covers human factors, human interface with information, and current and future trends in information visualization. Students also learn to develop a rudimentary visualization application.

Prerequisite(s): Grade of B or better in (IT 213 or IT 193). Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**IT 429 - Security Accreditation of Information Systems**

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
This course explains basic principles of performing FISMA certification and accreditation (C&A) of an IT System. The course covers methodology for completing C&A, explains the role of the Certifier and the Information System Security Officer (ISSO), and gives students real world experience with IT Systems in the Federal Government.

Prerequisite(s): Grade of C or better in (IT 105 or IT 212), and grade of B or better in IT 223. Prerequisite(s) enforced by registration system.
IT 431 - Web II: Advanced Web Development

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Focuses on database-driven web application development and web presentation using server-side coding and advanced techniques. Additional topics include AJAX, web server configuration and web services.

Prerequisite(s): Grade of C or better in IT 331, and grade of B or better in (IT 213 or IT 193).
Prerequisite(s) enforced by registration system.

IT 436 - Agile Web Development with Open Source Frameworks

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Introduces the principles and techniques for TDD (test-driven development) and deployment using open source frameworks (e.g., Ruby on Rails). Topics such as agile development methodology, version control, and Lean Startup are also presented. Students will work in small teams and propose, develop, and deploy interactive web applications and use an open source application framework to solve real-world problems.

Prerequisite(s): Grade of C or better in (IT 106 or IT 196), and (IT 214 or IT 194), and grade of B or better in (IT 213 or IT 193).
Prerequisite(s) enforced by registration system.

IT 441 - Network Servers and Infrastructures

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Covers IP networking concepts and practices for IPv6 addressing, DHCP and DNS in IPv6 networks, secure communication over VPNs, VoIP architecture, Virtual Computing, Cloud Computing, MPLS, traffic monitoring and network connectivity between operating systems. Students learn the latest technologies of IP networks and understand application-level services used in the
Internet. Lab sessions focus on installation of applications on virtual servers.

**Prerequisite(s):** Grade of C or better in (IT 102 or MATH 112 or MATH 125), and grade of B or better in IT 341. Prerequisite(s) enforced by registration system.

**Notes:** Term project.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**IT 445 - Advanced Networking Principles**

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology

This course focuses on Layer 2 and 3 of the OSI model and WAN technologies. Frame Relay and ISDN, complex router configurations of Variable Length Subnet Masking (VLSM), Classless Inter-Domain Routing (CIDR), Network Address Translation (NAT), Dynamic Host Configuration Protocol (DHCP), and study of Network Management Systems available for Data Communications Networks. Layer 2 involves Ethernet-switching components, including detailed hands-on configuration covering all aspects of switches using the command-line interface method.

**Prerequisite(s):** Grade of B or better in IT 341. Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**IT 455 - Wireless Communications and Networking**

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology

Covers fundamental principles underlying wireless data communications. Topics include wireless transmission basics, radio propagation issues, antennas, digital modulation, spread spectrum techniques and their applications, and popular standards: WiFi, WiMAX and Bluetooth. Also presents practical knowledge to enable the design, testing, deployment, debugging and commissioning of WiFi, WiMAX networks and point-to-point microwave systems. Discussions on cellular network technologies are also included.

**Prerequisite(s):** Grade of C or better in (IT 101 or IT 105) and (IT 102 or MATH 112 or MATH 125), and grade of B or better in IT 341. Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0
IT 462 - Information Security Principles

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
Studies security policies, models, and mechanisms for secrecy, integrity, availability, and usage controls. Topics include models and mechanisms for mandatory, discretionary, and role-based access controls; authentication technologies; control and prevention of viruses and other rogue programs; common system vulnerabilities and countermeasures; privacy and security policies and risk analysis; intellectual property protection; and legal and social issues.

Prerequisite(s): (IT 105 or IT 212), and grade of "B" or better in IT 223.  
Prerequisite(s) enforced by registration system.

Notes: For INFT and AIT majors, minors and certificates, and BAS cybersecurity concentration only.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

IT 465 - Peer-to-Peer Systems and Overlay Networks

Credits: 3  
Limited to 2 Attempts  
Offered by Information Sciences and Technology  
Peer-to-Peer (P2P) systems and overlay networks have become popular over the years because they are a cost-effective and scalable content sharing solution. Fundamentals of P2P systems and overlay networks are introduced to validate it as a better option than the traditional client server architecture. Students learn the classifications of P2P systems and architectures; overlay network categories, and their benefits and disadvantages.

Prerequisite(s): Grade of C or better (IT 106 or IT 196), and grade of B or better in IT 341.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

IT 466 - Network Security II

Credits: 3  
Limited to 2 Attemps  
Offered by Information Sciences and Technology  
Detailed study of certain symmetric and asymmetric cryptographic schemes; analysis of network data (including "packet sniffing"); security at different network layers (including IPSec, SSL/TLS and Kerberos); and secure e-commerce. Teaches principles of designing and testing secure networks, including use of network partitioning, firewalls, intrusion detection systems, and vulnerability assessment tools.

Equivalent to INFS 466
Prerequisite(s): Grade of B or better in IT 223; and grade of C or better in IT 341 and (IT 206 or CS 211) and (IT 102 or MATH 112 or MATH 125).
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IT 467 - Network Defense

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Practices and procedures for defending business-class, heterogeneous networks against threats (including system failure, environmental events, human error) and attacks (including intrusion, malicious software, denial of service). Through practical lab sessions, students receive real-world experience designing networks, installing and configuring system components, detecting and recovering from problems and attacks, and gathering data to support prosecution of offenders and refinement of countermeasures.

Prerequisite(s): Grade of C or better in IT 366, and grade of B or better in IT 223.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer

IT 484 - Voice Communications Technologies

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Examines current and emerging technologies for transmission of voice signals over telecommunications systems. Highlights significant differences between the requirements for voice and other forms of data. Topics provide a balance between traditional voice technologies and those that use data networks. Real-world implementations are analyzed to determine reliability, quality, and cost effectiveness. Includes lab experiments with analog and digital technologies.

Prerequisite(s): Grade of C or better in IT 300, and grade of B or better in IT 341.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IT 488 - Fundamentals of Satellite Communications
IT 490 - Application Maintenance and Spiral Development

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Presents software engineering, programming techniques, platforms and tools necessary for application maintenance, optimization and spiral development. Models discussed may include: incremental development, waterfall, evolutionary; on various platforms: mobile, cloud, web-based. Provides a general overview of such techniques but concentrates on selected topics. Students will work in small teams to maintain and further develop previously deployed applications.

Prerequisite(s): Grade of C or better in IT 390, and grade of B or better in (IT 106 or IT 196).
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

IT 492 - Senior Design Project I

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Students use information technology as a tool to redesign business processes so the enterprise can achieve its objectives. Student teams analyze the business processes of real organizations, quantify the negative impact caused by current process challenges, then develop and present a compelling Business Case for Change. Students develop skills critical for preparing and delivering effective verbal briefings and presentations.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): Grade of C or better in IT 206, IT 207, IT 213, IT 214, IT 223, IT 341, IT 343 and MBUS 300, and senior standing.
Prerequisite(s) enforced by registration system.
Notes: Restricted to AIT/INFT majors.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IT 493 - Senior Design Project II

Credits: 4
Limited to 2 Attempts
Offered by Information Sciences and Technology
Students, in teams, complete projects demonstrating preparedness as an IT professional. This work includes ethical challenges, status reports and engineering notebooks evaluated during class. Teams members develop detailed designs, build solutions up to Beta, present final written reports and final verbal presentations before review panels of business leaders. Students must register for the section that continues their IT 492 section.

Prerequisite(s): C or higher in IT 492.
Prerequisite(s) enforced by registration system.

Notes: Restricted to AIT/INFT majors.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

IT 495 - Turning Ideas into Successful Companies

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
This is a practical course in entrepreneurship. Each class session will focus on specific topics associated with building a business: team creation, business planning, market research, product development, financial planning, funding, people and organizations, competitive strategies, operations, growth and exit strategies, and more. Students will have reading assignments and will participate in competitive team assignments.

Prerequisite(s): Grade of B or better in (IT 106 or IT 196), and senior standing.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IT 496 - Decision Making in IT Ventures

Credits: 3
Limited to 2 Attempts
Offered by Information Sciences and Technology
Introduces students to the decision making processes involved in leading IT companies. Topics include: the role of major IT applications in strategic, tactical, and operational decisions; assessment and justification of IT ideas and investments; methodologies to predict decision outcomes; how to measure IT investments performance; strategies to inspire, influence and organize the workforce to accomplish key business goals.

Prerequisite(s): Grade of C or better in MBUS 301, and grade of B or better in (IT 106 or IT 196). Prerequisite(s) enforced by registration system.

Notes: Students develop skills through assessment and role-playing activities, discussions, cases, and hands-on applications.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring, Summer

**IT 498 - Independent Study in Information Technology**

Credits: 1-3
Repeatable within Term for Credit
Offered by Information Sciences and Technology
Directed self-study of special topics of current interest in IT.

Notes: Topics must be arranged with instructor and approved by department chair before registering. Maximum 3 credits.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

**IT 499 - Special Topics in Information Technology**

Credits: 3
Repeatable within Term for Credit
Offered by Information Sciences and Technology
Topics of special interest to undergraduates.

Prerequisite(s): Permission of department; specific prerequisites vary with nature of topic.
Notes: May be repeated for maximum 6 credits if topics are substantially different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**IT 796 - Directed Reading and Research**

Credits: 1-6
Not Repeatable for Credit
Offered by Information Sciences and Technology
Reading and research on specific topic in information technology under direction of faculty member.

**Prerequisite(s):** Permission of Chair.
**Notes:** May be repeated as needed.

**Schedule Type:** IND
**Hours of Lecture or Seminar per week:** 1-12
**Hours of Lab or Studio per week:** 0

**IT 797 - Directed Reading and Research**

Credits: 1-3
Not Repeatable for Credit
Offered by Information Sciences and Technology
Reading and research on specific topic in information technology under direction of faculty member.

**Notes:** May be repeated as needed.

**Schedule Type:** IND
**Hours of Lecture or Seminar per week:** 1-3
**Hours of Lab or Studio per week:** 0

**IT 896 - Directed Readings and Research in IT**

Credits: 1-6
Repeatable within Degree for Credit
Offered by Information Sciences and Technology
Students pursue research on a specific topic under direction of faculty

**Prerequisite(s):** Open to students pursuing the PhD in IT program who have completed qualifying exams, or permission of program director.
**Schedule Type:** IND
**When Offered:** Fall, Summer, Spring

**IT 990 - Dissertation Topic Presentation**

Credits: 1
Not Repeatable for Credit
Offered by Information Sciences and Technology
Students put together a professional presentation of a research proposal and present it for critique to fellow students and interested faculty. May be repeated with change of research topic, but credit toward doctoral degree is given once.

Equivalent to CS 990, STAT 990

**Prerequisite(s):** Completion of all course requirements for PhD, or permission of instructor.
Notes: May be repeated with change in topic, but degree credit is given only once.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Graduate Special

IT 991 - Engineer Project Presentation

Credits: 1
Repeatable within Degree for Credit
Offered by Information Sciences and Technology
Opportunity for engineer degree students to present project proposal for critique to interested faculty and students. Covers presentation of project topic for engineer degree in information technology, and is required of all engineer degree students. Students complete project proposal.

Prerequisite(s): Completion of all course requirements for engineer degree in information technology, or permission of instructor.
Notes: May be repeated with change in topic, but degree credit is only given once.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

IT 996 - Engineer Project Proposal

Credits: 1-6
Repeatable within Degree for Credit
Offered by Information Sciences and Technology
Work on project proposal that forms basis for dissertation for engineer degree.

Prerequisite(s): Completion of all course requirements for the Engineer degree in Information Technology and permission of Project Director. Students must submit a Project Progress Report form to the Graduate Student Service Office.
Notes: May be repeated. No more than 12 credits of IT 996 and 997 may be applied to engineer degree requirements.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

IT 997 - Engineer Project Dissertation

Credits: 1-6
Repeatable within Degree for Credit
Offered by Information Sciences and Technology
Formal record of commitment to engineer project dissertation under direction of advisory committee in information technology.
Prerequisite(s): Admission to candidacy.
Notes: May be repeated as needed.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

IT 998 - Doctoral Dissertation Proposal

Credits: 1-12
Repeatable within Degree for Credit
Offered by Information Sciences and Technology
Work on research proposal that forms basis for doctoral dissertation.

Notes: May be repeated. No more than 24 credits of IT 998 and 999 may be applied to doctoral degree requirements.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

IT 999 - Doctoral Dissertation

Credits: 1-12
Repeatable within Degree for Credit
Offered by Information Sciences and Technology
Formal record of commitment to doctoral dissertation research under direction of faculty member in information technology.

Prerequisite(s): Admission to candidacy.
Notes: May be repeated as needed.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

Initiatives in Educational Transformation-Teaching (IETT)

Offered by the College of Education and Human Development

IETT 500 - Introduction to IETT
Introduces students to the ideas and the experiential pedagogy of the IET program in an intensive summer session designed to develop relationships among participating educators and faculty by building a vibrant learning community through shared and emerging knowledge and experience.

**IETT 750 - Studies in Language and Culture I**

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Explores the interdependence and mutual construction of languages and cultures, as well as how both provide interpretive frames and thus mediate lived experiences. Investigates culture and language as primary shapers of relationships and identities. Engages teachers in constructing culturally responsive curriculum and pedagogy.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**IETT 751 - Studies in Language and Culture II**

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Deepens understandings of how language and culture shape interpretations that affect people's lives. Investigates student achievement in relationship to classroom experiences and the language and cultural knowledge students bring to school. Examines vernacular discourses, including those in cyberspace and popular culture, while considering pedagogical implications. Probes social justice issues in and out of educational institutions.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**IETT 752 - Research in Practice: The Team Project**

Credits: 6  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Builds further understanding of teacher research with an emphasis on collaborative research process to develop skills, construct knowledge, and transform practice. Teams engage in collaborative inquiry as they form and frame salient questions, take actions to improve teaching and learning, gather, analyze and interpret multiple forms of data, and share their experience in communities.
IETT 753 - Teaching and Learning

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides a structured opportunity for offering evidence of individual growth and transformation of professional practice. Through a process of deep reflection, examines fundamental philosophical and pedagogical assumptions, explores individual educational experiences, and critically examines professional practices related to meeting K-12 students' needs, continuous improvement, and program experiences.

IETT 754 - Introduction to Teaching Historic Places with Diverse Populations

Credits: 1
Not Repeatable for Credit
Offered by Graduate School of Education
Explores and interprets national, regional, and local historic sites in the Washington DC area, students will practice historical thinking and teaching through an analysis of historic sites as primary sources.

Corequisite(s): MNPE 700; MNPE 703

IETT 755 - Advanced Teaching Historic Places with Diverse Populations

Credits: 2
Not Repeatable for Credit
Offered by Graduate School of Education
Building on the exploration and interpreting skills learned in IETT 754, students will practice historical thinking and teaching for diverse P-12 classroom populations to convey critical thinking skills and civic engagement.

Prerequisite(s): IETT 754.
Corequisite(s): IETT 750.
Schedule Type: LAB, LEC, SEM
Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0.5
When Offered: Fall

**Instructional Technology (EDIT)**

Offered by the College of Education and Human Development

**EDIT 201 - Strategies for Online Learning Success**

Credits: 1
Not Repeatable for Credit
Offered by Graduate School of Education
Helps students assess their readiness for online learning using effective strategies for online interaction and activities designed to promote successful online experiences.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

**EDIT 401 - Introduction to Learning Technologies**

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides an overview of the field of learning technologies, including its history, theoretical foundations, design processes, and technologies. Illustrates how learning technologies can be applied in a variety of teaching and training contexts including e-learning, educational software, instructional design, corporate training, and curriculum development.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

**EDIT 413 - Technology, Society, and the Culture of Learning**

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Explores the relationship between technological change and education reform initiatives. Emphasis will be placed on the ways in which technological and social changes influence and shape the goals and outcomes of the K-12 educational process.
EDIT 426 - Web Accessibility and Design

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides instruction for accessible web design using HTML and existing authoring tools. Section 508 web accessibility standards and assistive technologies to access the computer will be explored.

Notes: Class may be delivered via distance education.

EDIT 504 - Introduction to Educational Technology

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines uses of and issues in educational technology. Explores curriculum integration of technology, and focuses on learning and using commercially available applications software.

Notes: Field experience in public schools will be required during course.

EDIT 526 - Web Accessibility and Design

Credits: 1-3
Not Repeatable for Credit
Offered by Graduate School of Education
Develops understanding of principles of universal web design. Students apply this understanding by designing and developing accessible web site using web authoring tools.

Equivalent to EDSE 526 (2012-2013 Catalog).

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
EDIT 530 - Scripting and Programming

Credits: 2
Repeatable within Term for Credit
Offered by Graduate School of Education
Enables development of computer-based educational materials using widely known educational scripting language. Students explore basic authoring capabilities, and learn to apply those capabilities by designing and producing materials using commands, procedures, and functions of scripting language.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

EDIT 561 - Teaching with Telecommunications

Credits: 1
Not Repeatable for Credit
Offered by Graduate School of Education
Develops expertise with various aspects of telecommunications tools, and models ways these tools can be used for personal learning and integration into teaching/learning process. Addresses e-mail, Internet, web, and online databases.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

EDIT 562 - Teaching with Databases

Credits: 1
Not Repeatable for Credit
Offered by Graduate School of Education
Develops expertise with various aspects of databases, and models ways databases can be integrated into teaching and learning process. Focuses on strategies for searching, sorting, creating, and communicating with information, much of which is structured by variety of online and offline databases.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

EDIT 563 - Teaching with Graphics

Credits: 1
Not Repeatable for Credit
Offered by Graduate School of Education
Explores various graphic programs available for constructing visual images. Addresses draw and paint programs, scanning and
editing images, and using visual communication to support K-12 learning.

**EDIT 564 - Teaching with Web 2.0**

Credits: 2  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Develops expertise with social, cognitive, and learning implications of film, video, and television. Engages students in process of planning, storyboarding, and filming with video.

Prerequisite(s): EDIT 561.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0

**EDIT 565 - Teaching with Educational Software**

Credits: 1  
Repeatable within Degree for Credit  
Offered by Graduate School of Education  
Explores variety of educational software, including simulations, problem-solving software, computational tools (calculators, probeware, LOGO, and spreadsheets), and drill-and-practice/integrated learning systems. Emphasizes ways these programs support K-12 teaching and learning process.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

**EDIT 566 - Teaching with Multimedia/Hypermedia**

Credits: 2  
Repeatable within Degree for Credit  
Offered by Graduate School of Education  
Covers variety of hypertext/hypermedia and multimedia tools. Emphasizes students' ability to use tools and then teach others. Covers the ways integration of tools in K-12 curriculum support learning, and difference between hypermedia and multimedia.

Prerequisite(s): EDIT 563.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0
EDIT 567 - Teaching with Desktop Publishing

Credits: 2
Repeatable within Degree for Credit
Offered by Graduate School of Education
Explores variety of publishing tools, including word processors, desktop publishers, and idea processors. Emphasizes using tools to communicate. Covers design and layout principles, appropriate use of images to facilitate communication, and ways K-12 teachers can design opportunities for students to learn concepts.

Prerequisite(s): EDIT 563.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

EDIT 568 - Teaching with the Web

Credits: 2
Not Repeatable for Credit
Offered by Graduate School of Education
Examines the various aspects of web-based learning and the ways these tools can be integrated into the teaching/learning process. The course is taught online.

Prerequisite(s): EDIT 561
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 0

EDIT 571 - Visual Design and Applications

Credits: 1-3
Repeatable within Term for Credit
Offered by Graduate School of Education
Provides basic knowledge of the range of capabilities of available graphic and visual design applications. Students learn to cultivate effective visual design practices for creating instructional products.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

EDIT 572 - Digital Audio/Video Design and Applications

Credits: 1-3
Repeatable within Term for Credit
Offered by Graduate School of Education
Provides basic knowledge of the range of capabilities of available audio and video design applications. Students learn to cultivate effective audio and video design practices for creating instructional products.
EDIT 573 - Project Management

Credits: 1-3
Repeatable within Term for Credit
Offered by Graduate School of Education
Explores project management principles and applications used to manage, plan, and track large-scale, complex instructional design projects.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

EDIT 574 - Social Media and Digital Collaboration Applications

Credits: 1-3
Repeatable within Degree for Credit
Offered by Graduate School of Education
Provides basic knowledge of the range of capabilities of available social networking, teleconferencing, and collaboration applications. Students learn to integrate the latest information and communication technologies into the creation of instructional products.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

EDIT 575 - e-Learning Design Applications

Credits: 1-3
Repeatable within Term for Credit
Offered by Graduate School of Education
Provides basic knowledge of available applications for creating, delivering, managing and tracking e-learning experiences. Students learn to create instructional products using the latest e-learning design applications.

Notes: Content customized to particular software tool presented.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

EDIT 576 - Mobile Learning and Applications
Credits: 1-3  
Repeatable within Term for Credit  
Offered by Graduate School of Education  
Explores current best practices and techniques required to deliver effective learning content through mobile devices. Students learn pedagogical approaches to mobile learning as well as investigate various mobile platforms and applications.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 1-3  
Hours of Lab or Studio per week: 0

EDIT 590 - Educational Research in Technology

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Focuses on developing skills, insights, and understanding basics to performing research with emphasis on interpretation, application, critique, and use of findings in educational settings. Students develop expertise in action research methodology, design, and implementation.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDIT 593 - Instructional Hardware Systems

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Teaches basic technical features of computer-based hardware systems used in educational settings, including stand-alone computers, peripheral devices, and networking systems.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDIT 597 - Special Topics in Education

Credits: 1-6  
Repeatable within Term for Credit  
Offered by Graduate School of Education  
Provides advanced study on selected topic or emerging issue in American or international education.

Notes: May be repeated for credit with GSE permission.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 1-6  
Hours of Lab or Studio per week: 0
EDIT 601 - Instructional Design and Technology (IDT) Portfolio

Credits: 1
Not Repeatable for Credit
Offered by Graduate School of Education
Enables students to create and publish digital portfolio that demonstrates effective and meaningful integration and syntheses of instructional design and technology concepts, principles, and competencies learned across program courses at mid-degree program point.

Notes: To be taken at mid-degree program point with minimum 12 and maximum 15 credits.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

EDIT 611 - Innovations in e-Learning

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Explores leading-edge learning technologies and their integration into the e-learning design process. Hands-on activities focus on technology planning, selection, implementation, and evaluation utilizing instructional design best practices.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 641 - Understanding Virtual Schools

Credits: 1
Not Repeatable for Credit
Offered by Graduate School of Education
Develops knowledge about online learning for K-12 students. Examines history and trends of online learning, and characteristics of K-12 virtual learners.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

EDIT 642 - The Online Academy

Credits: 1
Not Repeatable for Credit
Offered by Graduate School of Education
Develops knowledge about Mason's virtual high school. Focuses on design model with attention to representative problems, performances of understanding, communities of practice, and mentors.

**Prerequisite(s):** EDIT 641  
**Corequisite(s):** EDIT 641

**EDIT 643 - Online Mentoring I: Building Virtual Relationships**

Credits: 1  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Assists in developing online mentoring skills related to integral role that building relationships plays in success of online learning.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**EDIT 644 - Online Mentoring II: Promoting Self-Regulation**

Credits: 1  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Assists in developing online mentoring skills related to integral role that self-regulation plays in success of online learning.

**Prerequisite(s):** EDIT 643  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**EDIT 645 - Online Mentoring III: Conceptual Learning**

Credits: 1  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Assists in developing online mentoring skills related to role of support of conceptual and content understanding in success of online learning.

**Prerequisite(s):** EDIT 644  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0
EDIT 646 - Online Mentoring IV: Moderating

Credits: 2
Not Repeatable for Credit
Offered by Graduate School of Education
Assists in developing expertise with moderating student learning asynchronous and synchronous in online environments including discussion boards, chat rooms, and general communication patterns.

Prerequisite(s): EDIT 645 or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

EDIT 701 - Advanced Instructional Design and Technology (IDT) Portfolio

Credits: 1
Not Repeatable for Credit
Offered by Graduate School of Education
Enables students to create and publish a digital portfolio that demonstrates effective and meaningful integration and syntheses of instructional design and technology concepts, principles, and competencies learned across program courses at end-degree program point.

Prerequisite(s): B or higher in EDIT 601.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

EDIT 704 - Instructional Technology Foundations and Theories of Learning

Credits: 3
Repeatable within Degree for Credit
Offered by Graduate School of Education
Reviews practical and pedagogical issues related to design and development of technological instruction. Emphasizes investigating instructional design as a field and community of practice, and reviewing core learning theory constructs applicable to design of instructional technology.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 705 - Instructional Design
EDIT 706 - Business of Learning Design and Technologies

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Explores the business issues underlying the selection, implementation and evaluation of technology-based learning interventions. Focuses on developing the skills necessary to improve performance and achieve measurable, positive change that supports an organization's strategic goals.

**Prerequisite(s):** EDIT 705 or instructor permission.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

EDIT 720 - Leadership Issues in Educational Technology

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines how educational technology can provide infrastructure for creating, managing, and evaluating innovative types of teaching and learning environments. Explores new assumptions about learning, instructional technology, and organizational development as foundation for planning how schools can use technology to evolve beyond conventional approaches.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

EDIT 725 - Technology and Diversity

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Focuses on technology to support learning needs of all students, including English-as-a-second-language, bilingual, and special-needs students. Emphasizes helping teachers use technology to support learning when faced with such diverse learners in one classroom.

**EDIT 730 - Advanced Instructional Design**

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Provides students with the knowledge and skills for designing highly contextualized and engaging problem-solving learning environment using a grounded, theory-based design approach. Emphasizes the design of technology supported learning environments using a variety of pedagogical models.

Prerequisite(s): EDCI/EDIT 705  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**EDIT 732 - Analysis and Design of Technology-Based Learning Environments**

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Enables design, implementation, and evaluation of technology-based education and training materials using advanced computer-based authoring tools.

Prerequisite(s): EDIT 730 or permission of instructor  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**EDIT 742 - Interactive Technologies: Gaming and Robotics**

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Project-based, hands-on course focusing on technology, science, and engineering. LEGOS, controlled by small microcomputers, used to show principles behind many technological innovations. Other technological advances explored.

Schedule Type: LAB  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
EDIT 745 - Technology Leadership Issues

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Explores relationship of leadership, innovations, change, and technology advocacy. Emphases implementation of ideas and strategies to influence decisions of policy makers. Explores sources of grant funding, and interaction with professional organizations.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 746 - Educational Technology and Assessment

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Covers fundamentals of educational assessment and measurement, and relates them to current attempts to use technology for educational assessment. Explores use of computer technology to support traditional testing and innovative ways to assess complex learning.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 747 - Technology and Teacher Development

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Investigates latest research and issues related to teacher education to include staff development in K-12 in-service as well as university courses. Students paired with preservice teachers who act as online mentors to develop leadership and mentoring skills.

Prerequisite(s): EDIT 590 or equivalent.
Schedule Type: LAB
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 748 - TIP 2 Technology Innovations Project

Credits: 3
Not Repeatable for Credit
Continuation of design and development of EDIT 741 technology-enriched learning module. Students conduct action research, and implement advanced action research project.

**Prerequisite(s):** EDIT 741 and 590.

**Schedule Type:** LAB
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**EDIT 750 - Learning Technologies and Strategies for Innovation**

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Explores formal and non-formal learning technologies, models, theories, and strategies that support enterprise learning and performance. Assesses the potential of learning technologies to innovate the practice of the organization.

**Notes:** To be taken in final year of course work.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**EDIT 751 - Overview of Learning Analytics and Big Data**

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Explores the tools, technologies and methods for capitalizing on data stored in enterprise-wide information systems to support executive-level learning and performance support decision-making. Focuses on demonstrating the bottom line business value of learning through evidence-based talent needs.

**Prerequisite(s):** Admission to Executive Chief Learning Officer (ECLO)Certificate Program, or permission of advisor

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**When Offered:** Fall

**EDIT 752 - Design and Implementation of Technology-based Learning Environments**

Credits: 3
Repeatable within Degree for Credit
Offered by Graduate School of Education
Students design and produce multimedia/hypermedia applications based on current theory and research in instructional design and cognitive science. Examines user needs, information models, structure, and media selection and uses to inform design and production of final project.

**Prerequisite(s):** B or higher in EDIT 732 or permission of instructor.
EDIT 760 - Online Teachers and Learners

Credits: 1
Not Repeatable for Credit
Offered by Graduate School of Education
Examines the attributes of teachers and K-12 learners with emphasis on attitudes, behaviors, and adaptations required by online teachers and learners.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

EDIT 761 - Models of Online Learning

Credits: 2
Not Repeatable for Credit
Offered by Graduate School of Education
Provides opportunities for learners to identify, explore, and evaluate a range of educational models for K-12 online learning. These include blended learning (web-enhanced, web-supported), the flipped classroom, mentor-mentee dyad, group collaborative, synchronous, asynchronous, parent directed e-learning, mobile learning, and web-delivered programmed instruction.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall

EDIT 762 - Quality K-12 Online Learning

Credits: 1
Not Repeatable for Credit
Offered by Graduate School of Education
Examines and evaluates quality indicators for the design of online learning pointing to the six major areas for consideration: instructor-learner, learner-learner, learner-content, learner-interface, learner-instructional strategies, and social presence.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Summer
EDIT 763 - Tools for K-12 Online Learning

Credits: 2
Not Repeatable for Credit
Offered by Graduate School of Education
Examines tools that structure and support online learning with particular emphasis on the unique affordances of each tool including tools for producing, delivering, and supporting online learning.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

EDIT 764 - The ART of Online Communication

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines strategies to assess, respond to, and target online communication and develops expertise in questioning and listening, supporting self-regulation, and clarifying conceptual understanding using a series of case studies and role playing activities.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer, Spring

EDIT 765 - Facilitating K-12 Online Learning

Credits: 2
Not Repeatable for Credit
Offered by Graduate School of Education
Develops expertise in facilitating and moderating online learning to include synchronous and asynchronous environments, community building strategies, questioning strategies, prompting reflection, and facilitating conceptual understanding.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall

EDIT 766 - Understanding Online Presence

Credits: 2
Not Repeatable for Credit
Offered by Graduate School of Education
Examines impacts of distance on teachers and learners and develops strategies to establish teacher presence, to establish and express self, to promote learner-learner connections, and to compensate for the separation of teacher-learner and learner-learner.
EDIT 767 - Designing K-12 Online Learning

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Develops frameworks for designing and structuring online learning opportunities and emphasizes course content and learning outcomes, selection of appropriate online models, and organization of online lessons and courses, online learning tools, and assessment and evaluation strategies.

Prerequisite(s): Admission to MED in Curriculum and Instruction Concentration in Blended and Online Learning in Schools.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

EDIT 768 - K-12 Online Design I

Credits: 1
Not Repeatable for Credit
Offered by Graduate School of Education
Develops frameworks for designing and structuring online learning opportunities and emphasizes course content and learning outcomes, selection of appropriate online models, and organization of online lessons and courses online learning tools, and assessment and evaluation strategies.

Prerequisite(s): Admission to MED in Curriculum and Instruction Concentration in Blended and Online Learning in Schools

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Summer

EDIT 769 - K-12 Online Design II

Credits: 1
Not Repeatable for Credit
Offered by Graduate School of Education
Focuses on the creation of online courses appropriate for K-12 learners and culminates in comprehensive design documents that detail goals, assessments, learning tools, and detailed scripts or documents ready for the production phase.

Prerequisite(s): Admission to MED in Curriculum and Instruction Concentration in Blended and Online Learning in Schools

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
EDIT 771 - Overview of Digital Media

Credits: 1-3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides overview of media and technology tools used in teaching, learning and training. Focuses on developing skills necessary to implement digital media approaches using a systematic design process.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

EDIT 772 - Virtual Worlds, Augmented Reality, and Gaming Applications

Credits: 1-3
Repeatable within Term for Credit
Offered by Graduate School of Education
Provides basic knowledge of available applications and platforms for creating contextually-based learning environments such as immersive virtual worlds, simulated worlds, alternate reality games, and massive multiplayer online role playing games for e-learning.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

EDIT 773 - Human Computer Interface Design for Teaching and Learning

Credits: 3
Repeatable within Degree for Credit
Offered by Graduate School of Education
Provides overview of human-computer interface issues related to instructional design of technology-centered learning environments. Examines continuum of human-computer feedback.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDIT 780 - Principles of School-Based Design

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Develops and applies a comprehensive set of digital design strategies appropriate for creating engaging learning opportunities for students in PreK-12 environments. Emphasizes school-based design principles, design processes, and design patterns at the intersection of technology, teaching, and learning.

Corequisite(s): EDIT 781

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Fall

EDIT 781 - Designing for Information Using

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Explores ways in which PreK-12 teachers can design digital environments that connect learners' ability to search, sort, create, communicate, and synthesize information and information resources with learning activities. Emphasizes teachers' ability to design for digital citizenship and information use.

Corequisite(s): EDIT 780

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Fall

EDIT 782 - Designing for Literacy

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Explores 21st century definitions of literacy related to multiple symbolic environments (e.g. visual, numeric, alphabetic). Examines the practice of design that integrates technology to promote literacy competence across media and across PreK-12 abilities and interests.

Prerequisite(s): EDIT 780 and EDIT 781
Corequisite(s): EDIT 783

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Spring

EDIT 783 - Designing for Problem Solving

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines problem solving as an educational goal, as a cognitive process, and as a series of strategies and habits of mind. Emphasizes and provides practice in the design of digital problem solving environments where technology affords opportunities at the intersection of content learning and problems solving.

**Prerequisite(s):** EDIT 780 and EDIT 781
**Corequisite(s):** EDIT 782

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**When Offered:** Spring

---

**EDIT 784 - Designing for Community Participation**

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Explores the impact of social media, globalization, collaboration, and diversity as they influence, enable, and challenge learners' ability to participate in a variety of community settings. Emphasizes the practice of design strategies to prepare PreK-12 learners to use technology for learning and participating in varies and diverse communities.

**Prerequisite(s):** EDIT 782 and EDIT 783
**Corequisite(s):** EDIT 785

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**When Offered:** Summer

---

**EDIT 785 - Designing School-Based Digital Learning**

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Develops frameworks for designing and structuring school-based digital learning. Emphasizes the interaction of design, technology, and content learning to influence teachers' practice in service of PreK-12 learners' abilities to problem solve, use information, participate productively in communities, become knowledgeable, and effectively communicate.

**Prerequisite(s):** EDIT 782 and EDIT 783
**Corequisite(s):** EDIT 784

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**When Offered:** Summer

---

**EDIT 786 - Design and Teacher Leadership**

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Investigates how a design lens intersects with and informs PreK-12 teacher leadership and school-based learning initiatives. Examines a variety of PreK-12 teacher leadership roles and design-based leadership as an integral part of classroom, grade-level, school, and community practice.

Prerequisite(s): DDLS certificate or completion of MEd in Curriculum and Instruction Concentration: Integration of Technology in Schools in Equivalent.
Corequisite(s): EDIT 791

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Fall

EDIT 787 - Coaching Advocacy Digital Learning

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Investigates how fluency as coaches and mentors enables PreK-12 teacher leaders to support colleagues in the design of classroom and school-based digital learning. Explores advocacy as a strategy to engage colleagues and communities in the design of school-based initiatives related to teaching, learning, technology

Prerequisite(s): EDIT 786 and EDIT 791
Corequisite(s): EDIT 792.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

EDIT 790 - Practicum in Instructional Technology

Credits: 1-6
Repeatable within Degree for Credit
Offered by Graduate School of Education
Provides supervised practice in applying knowledge and skills of student's chosen track through placement in appropriate work setting.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special

EDIT 791 - Project Development Practicum I

Credits: 1-6
Repeatable within Degree for Credit
Offered by Graduate School of Education
Engages students in the application of design and production process for the solution of learning challenges with particular emphasis on the design an development phase of the design process.

Prerequisite(s): EDIT 768
Schedule Type: LEC
Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0
When Offered: Summer

EDIT 792 - Project Development Practicum II

Credits: 1-6
Repeatable within Degree for Credit
Offered by Graduate School of Education
Facilitates the application of design and production processes to the solution of learning challenges with particular emphasis on the implementation and evaluation phase of the design process.

Prerequisite(s): EDIT 769
Schedule Type: LEC
Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0
When Offered: Summer

EDIT 797 - Advanced Topics in Education

Credits: 1-6
Repeatable within Degree for Credit
Offered by Graduate School of Education
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education.

Notes: May be repeated for credit with CEHD approval.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

EDIT 801 - Nature and Process of Design

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines multi- and cross-disciplinary perspectives on the nature and process of designing and developing learning technologies.

Prerequisite(s): Admissions to PhD in Education Program or Permission of Instructor.
Corequisite(s): EDIT 802 or permission of instructor
EDIT 802 - Cognition and Technology: A Multidisciplinary Approach

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines learning interactions between cognition and technology using multiple disciplinary perspectives including, cognitive science, psychology, neuroscience, education, design theory, instructional design, technology design, anthropology, sociology, information science, philosophy, semiotics, and linguistics.

Prerequisite(s): Admission to PhD in Education Program or Permission of Instructor.

EDIT 803 - Design-Based Research

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides an introduction to systematic cycles of design-based research in education. Applicable to all content domains to explore cycles of research within design, development and implementation of educational and training interventions.

Prerequisite(s): EDIT 801

EDIT 891 - Design Research Practicum

Credits: 1-9
Repeatable within Degree for Credit
Offered by Graduate School of Education
Applies multiple design research cycles to an identified research problem to systematically test and improve technology-based product interventions or other curriculum/training strategies or materials in order to systematically develop knowledge related to teaching, learning and/or training in context.

Prerequisite(s): EDRS 811, EDRS 812, and EDIT 803 or equivalent
EDIT 895 - Emerging Trends in Learning Technologies

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Covers selected emerging trends in learning technologies. Examines ways learning technologies provide infrastructure for creating, managing, and evaluating innovative types of teaching-learning environments.

Prerequisite(s): Admission to PhD program, or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Interdisciplinary Studies (MAIS)

Offered by the College of Humanities and Social Sciences

MAIS 796 - MAIS ProSeminar

Credits: 1
Not Repeatable for Credit
Offered by Interdisciplinary Studies
Introduces students to the structure of the MAIS program; students create a portfolio of their work which continues during their studies; the portfolio prepares students for the capstone project or thesis.

Prerequisite(s): Acceptance into the MAIS Program
Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

MAIS 797 - Interdisciplinary Studies Proposal

Credits: 1
Not Repeatable for Credit
Offered by Interdisciplinary Studies
Focused on formulating and writing a MAIS project or thesis proposal.

Prerequisite(s): Admission to MAIS and completion of 21 credits of graduate course work, including any required research methodology course; MAIS 796. ZAL students must have completed 30 credits or have obtained ZAL Director's permission before enrolling in MAIS 797.
Schedule Type: LEC
MAIS 798 - Interdisciplinary Studies Project

Credits: 1-5
Repeatable within Degree for Credit
Offered by Interdisciplinary Studies
Research project related to student's concentration taken under supervision of faculty advisor and project evaluation committee.
Equivalent to HE 798

Prerequisite(s): MAIS 797 and prior approval of a project proposal by the committee chair, two committee members, and MAIS director. ZAL student project proposals must have been approved in writing by their institutional supervisor and the ZAL Director.
Notes: Individualized section form required.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: S/NC

MAIS 799 - Interdisciplinary Studies Thesis

Credits: 1-5
Repeatable within Degree for Credit
Offered by Interdisciplinary Studies
Original research endeavor related to student's MAIS program concentration. Research must result in document meeting MAIS and university standards.
Equivalent to HE 799

Prerequisite(s): MAIS 797 and prior approval of a thesis proposal by the committee chair, two committee members, and MAIS director.
Notes: Individualized section form required.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-5
Hours of Lab or Studio per week: 0
Grading: S/NC

Integrative Studies (INTS)

Offered by the College of Humanities and Social Sciences.
INTS 101 - Narratives of Identity
Credits: 6
Not Repeatable for Credit
Offered by School of Integrative Studies
Explores the concept of identity through the study of literature and oral communication. Introduces aesthetic, cultural, and historical aspects of these forms of communication as well as their psychological, political, and practical significance, with special emphasis on the role of communication in a free society.
Equivalent to NCLC 101 (2015-2016 Catalog)

Schedule Type: SEM
Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

INTS 102 - Global Networks and Communities
Credits: 6
Not Repeatable for Credit
Offered by School of Integrative Studies
Prepares students for participation in a global society by investigating global and local issues in a historical context. Considers critical topics of western civilization, globalization, (neo)colonialism, imperialism, and hegemony. Students gain an in-depth perspective of the intricate relationships between people and cultures at various moments in our history.
Designated a Green Leaf Course.
Equivalent to NCLC 102 (2015-2016 Catalog)

Schedule Type: SEM
Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

INTS 103 - Human Creativity: Science and Art
Credits: 6
Not Repeatable for Credit
Offered by School of Integrative Studies
Investigates the vital role played by human creativity in fine arts and natural sciences. Fosters an understanding of the aesthetic and intellectual components of the arts while exploring the scientific method, the relation of theory and experiment, and the development and elaboration of major ideas in science.
Designated a Green Leaf Course.
Equivalent to NCLC 103 (2015-2016 Catalog)

Schedule Type: SEM
INTS 165 - Independent Study

Credits: 1-12
Repeatable within Term for Credit
Offered by School of Integrative Studies
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor). Students are encouraged to work as a team on a particular topic.

Equivalent to NCLC 165 (2015-2016 Catalog)

Prerequisite(s): Permission of the instructor and executive director.
Notes: Maximum 12 credits can be used to fulfill graduation requirements.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 1-12

INTS 194 - Service-Learning Experience

Credits: 1-15
Repeatable within Term for Credit
Offered by School of Integrative Studies
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams.

Equivalent to NCLC 194 (2015-2016 Catalog)

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

INTS 195 - Field-Based Work

Credits: 1-6
Repeatable within Term for Credit
Offered by School of Integrative Studies
Directed field studies in topic not otherwise available to students.

Equivalent to NCLC 195 (2015-2016 Catalog)

Notes: Topics vary, but entire course or significant component is located off campus. In addition to fieldwork, course may also
include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information.

**Schedule Type:** INT  
**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0

**INTS 200 - Visual Thinking and the Creativity**

Credits: 3-15  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Investigates modes of visual and textual creativity through art, literature, and variety of visual and textual forms. Through interdisciplinary approach to picturing text, provides opportunity to experiment with creative composition that includes visual elements, and with art forms that include textual elements. Explores blocks to creativity, and provides understanding of how to evaluate and write about visual texts as well as how to produce documents that integrate words and images.

Equivalent to NCLC 200 (2015-2016 Catalog)

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1

**INTS 201 - The World Since 1945**

Credits: 6  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Examines the history of the past 50 years to illuminate the contemporary world as well as build connections between the global and local. Using historical works, fiction, autobiographies, films, and daily newspapers, students explore such major events as the Cold War, the struggle against apartheid in South Africa, the Vietnam War, the Chinese Cultural Revolution, and the continuing conflict in the Middle East. As a learning community, requires active student participation in group projects and discussions.

Equivalent to NCLC 201 (2015-2016 Catalog)

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3-15  
**Hours of Lab or Studio per week:** 0

**INTS 202 - Public Speaking and Critical Thinking Skills**

Credits: 4  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Combines process of learning to speak in front of audiences with analysis of arguments and persuasive appeals. Students learn how to create and present effective speeches, adapt messages to specific audiences, and evaluate and critique messages produced for others. One credit of experiential learning enables students to examine public speeches, news stories, political campaigns, and
advertising, among others, to make meaningful connections between public speaking theory and practice.

Equivalent to NCLC 202 (2015-2016 Catalog)

**INTS 203 - Inquiry for Action: Facilitating Change**

Credits: 6  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Examines the relationships between academic research, individual acts and society's social and political structures. Students design a community-based research project, explore a rich array of qualitative and quantitative approaches, apply information and communication technologies to all aspects of the research process, and learn from individuals and organizations outside the classroom.

Equivalent to NCLC 203 (2015-2016 Catalog)

**INTS 204 - Leadership Theory and Practice**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Examines historical and contemporary leadership theories and invites students to be reflective of their own leadership experiences through the lenses of those theories. Students develop critical lenses through which to evaluate their own self-awareness, effectiveness in groups, and ability to navigate structures and systems.

Equivalent to NCLC 204 (2015-2016 Catalog)

**INTS 210 - Sustainable World**

Credits: 4  
Not Repeatable for Credit  
Offered by School of Integrative Studies
Covers basic issues in the natural and social sciences that underlie current environmental problems. Considers ethical matters such as equity as they pertain to global resource consumption, pollution, and climate change. Designated a Green Leaf Course.

Equivalent to NCLC 210 (2015-2016 Catalog)

Schedule Type: LEC
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

INTS 211 - Introduction to Conservation Studies

Credits: 3-6
Not Repeatable for Credit
Offered by School of Integrative Studies

Provides foundation for the integrative study of environmental conservation. Formal and informal writing assignments and oral presentations designed to strengthen critical thinking and communication skills important to students who pursue conservation-related professions. Instructors encourage students to use course assignments and off-campus work to identify suitable educational and career paths within the conservation world. Designated a Green Leaf Course.

Equivalent to NCLC 211 (2015-2016 Catalog)

Schedule Type: LEC
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 2

INTS 231 - Introduction to Community Studies

Credits: 4
Not Repeatable for Credit
Offered by School of Integrative Studies

Examines relationship between sustainable communities and democratic citizenship in a diverse society. The objectives are to improve one's understanding of and thinking critically about communities and democratic principles, theories and practice. Students identify and work through problems that communities address by working in a community service-learning setting.

Equivalent to NCLC 231 (2015-2016 Catalog)

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

INTS 244 - Beats, Rhyme, and Culture
Credits: 4  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Examines the history of hip-hop and the effect it has had on our society. The primary focus is to consider hip-hop as a medium of communication that impacts, represents, and misrepresents the life experiences of youth in the United States. Students are exposed to historical, socioeconomic, and musical/aesthetic contexts of this genre through in-class activities and by attending related cultural events.

Equivalent to NCLC 244 (2015-2016 Catalog)

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1

INTS 245 - Visual Culture and Society

Credits: 4  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Explores the role of visual culture in contemporary society including an examination of photography, the visual and performing arts, film and video, and electronic media. Readings focus on the historical foundations of visuality as well as theories of visual culture and aesthetics. Students investigate the ways that forms of visual culture function in society and how these are linked to race, class, and gender as well as politics and economics. Students will gain hands-on experience working with contemporary visual media tools such as computer graphics and digital video editing.

Equivalent to NCLC 245 (2015-2016 Catalog)

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1

INTS 249 - Digital Literacy

Credits: 4  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Investigates information literacy, the mobile web, and interactive and immersive media, including gaming, social networking, blogging and micro-blogging, intellectual, political and civic collaborations, digital aesthetics and emerging digital cultures and art forms. Explores major theories of digital literacy and culture and introduce diverse social, artistic, theoretical and cultural practices that characterize today's digital domains and virtual environments.

Equivalent to NCLC 249 (2015-2016 Catalog)

Notes: One experiential credit is required in this class.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3-15  
Hours of Lab or Studio per week: 1
INTS 275 - Special Topics

Credits: 1-18
Repeatable within Term for Credit
Offered by School of Integrative Studies
Studies topics of special interest to undergraduates.

Equivalent to NCLC 275 (2015-2016 Catalog)

Notes: May be repeated for a maximum of 18 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

INTS 290 - Internship

Credits: 1-6
Repeatable within Term for Credit
Offered by School of Integrative Studies
Internship credit may be applied to 12 credits required in experiential learning.

Equivalent to NCLC 290 (2015-2016 Catalog)

Prerequisite(s): Sophomore standing and permission of instructor.
Notes: Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or executive director. Structured and supervised professional experience, within an approved agency, for which the student earns academic credit. The primary purpose of an internship is to connect the student's academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 1-6
Grading: Undergraduate Special

INTS 294 - Service-Learning Experience

Credits: 1-15
Repeatable within Term for Credit
Offered by School of Integrative Studies
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams.

Equivalent to NCLC 294 (2015-2016 Catalog)
**INTS 295 - Field-Based Work**

Credits: 1-18  
Repeatable within Term for Credit  
Offered by School of Integrative Studies  
Directed field studies in topic not otherwise available to students.

Equivalent to NCLC 295 (2015-2016 Catalog)

**Notes:** Topics vary, but entire course or significant component is located off campus. In addition to fieldwork, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information.

**Schedule Type:** INT  
**Hours of Lecture or Seminar per week:** 1-15  
**Hours of Lab or Studio per week:** 0

---

**INTS 298 - Field-Based Work**

Credits: 1-15  
Repeatable within Term for Credit  
Offered by School of Integrative Studies  
Experiential-based individualized studies, mentored by instructor.

Equivalent to NCLC 298 (2015-2016 Catalog)

**Notes:** Topics decided by student and instructor, and approved by executive director. Requirements must be detailed in individualized course contract signed by student, instructor, and executive director. May include reading assignments, papers, journals, and portfolios.

**Schedule Type:** INT  
**Hours of Lecture or Seminar per week:** 1-15  
**Hours of Lab or Studio per week:** 0

---

**INTS 300 - Law and Justice**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Combines various teaching methods including lectures, the Socratic method, case studies, discussion of readings and films, debates, and active inquiry-based learning to investigate the major institutions in the American legal system.
INTS 301 - Science in the News

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Examination and discussion of the current trends in science as reported in the popular media. Students learn how to evaluate the science that is reported so they may become informed consumers; discuss how scientific advancement might shape society by looking at how science and society have changed together over time; and use examples from the past to discuss future trends.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 301 (2015-2016 Catalog)

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INTS 302 - Argument and Advocacy

Credits: 6
Not Repeatable for Credit
Offered by School of Integrative Studies
Develops theoretical background and skills necessary for effective civic engagement and deliberative discourse. Teaches fundamentals of argument construction, function, and analysis. Covers role of argument and advocacy in a democratic society.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 302 (2015-2016 Catalog)

Schedule Type: SEM
Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

INTS 303 - Introduction to International Studies

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Explores a multi-disciplinary approach to addressing world issues. Combines lectures, field trips, discussion of readings, films,
case studies, projects, and active inquiry-based learning to examine the natural environment, infectious disease and globalization, media and technologies, and war and violent conflict, with an attempt to deepen community members' understanding of an increasingly interdependent world.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 303 (2015-2016 Catalog)

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**INTS 304 - Social Movements and Community Activism**

Credits: 4
Not Repeatable for Credit
Offered by School of Integrative Studies
Examines how citizens, individually and collectively, accomplish social change in society through case study analysis. Considers advantages and limits of social change strategies from communication and social movement theory perspectives. Surveys topics including how leaders maintain momentum in face of opposition; how movements and organizations use slogans, symbols and music to inspire followers; and how participants construct persuasive media campaigns and political arguments to facilitate policy change.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 304 (2015-2016 Catalog)

Notes: One credit of experiential learning enables students to explore their role as social advocates and effective citizens in context of community.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

**INTS 305 - Conflict Resolution and Transformation**

Credits: 6
Not Repeatable for Credit
Offered by School of Integrative Studies
Examines the nature and dynamics of conflict and ways to resolve and transform conflict. Experiential learning is used as the vehicle through which students explore their assumptions about communication and develop their skills for resolving interpersonal conflicts.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 305 (2015-2016 Catalog)

Schedule Type: LEC
INTS 308 - American Landscapes in Fiction, Film, and History

Credits: 6
Not Repeatable for Credit
Offered by School of Integrative Studies
Waterways and roadways have always had practical, spiritual significance for Americans. Course looks at American literary works and films in historical context to better understand the roles roads, rivers play in shaping physical, cultural landscape of United States. Students explore course themes outside classroom on weekend field trips, and conduct self-directed road trip as a main learning events.

Fulfills Mason Core requirement in synthesis.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 308 (2015-2016 Catalog)

Notes: Satisfies requirements for ENGH 302.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 2

INTS 310 - Violence and Gender

Credits: 3-6
Not Repeatable for Credit
Offered by School of Integrative Studies
Using nonfiction, research documentaries, oral histories, case studies, literature, feature films, music, dance, and visual arts, examines the dynamics of violence through different cultural lenses. Students work in university and community settings to integrate their academic experiences with practice.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 310 (2015-2016 Catalog)

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0

INTS 311 - The Mysteries of Migration: Consequences for Conservation

Credits: 6
Not Repeatable for Credit
Offered by School of Integrative Studies
Investigates the biology of migration and its implications for science policy. Students consider the phenomenon of migration in the context of natural history, conservation, and cultural issues. The course includes several weekend trips for field study. Designated a Green Leaf Course.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 311 (2015-2016 Catalog)

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3-15  
**Hours of Lab or Studio per week:** 0

---

**INTS 312 - Images and Experiences of Childhood: Social Construct, Literature, and Film**

Credits: 3-6  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Immerses students in the images of childhood through the media of literature, video, and poetry, with a strong emphasis on historical perspectives of childhood. The class is interactive, requires some work in groups, and requires classroom participation.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 312 (2015-2016 Catalog)

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3-6  
**Hours of Lab or Studio per week:** 0

---

**INTS 314 - Conflict, Trauma and Healing**

Credits: 6  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Develops in students an appreciation of human resilience and helps them acquire better coping mechanisms. Imparts knowledge of the nature and dynamics of trauma and healing. Investigates the difficulties people face in responding to settings of conflict such as war, school shootings, abuse, domestic violence, including natural disaster. Examines case studies from a variety of personal, national, and international settings.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 314 (2015-2016 Catalog)

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 6  
**Hours of Lab or Studio per week:** 0
INTS 315 - Spirituality and Conflict Transformation

Credits: 6  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Examines dimensions of spirituality, including peacemaking efforts in large-scale conflicts, conflicts within faith communities, and interpersonal disputes. Experiential learning explores spiritually informed resolution.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 315 (2015-2016 Catalog)

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 6  
**Hours of Lab or Studio per week:** 0

---

INTS 316 - Introduction to Childhood Studies

Credits: 4  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Focuses on the study of childhood from birth to adolescence from the perspective of several disciplines. Covers childhood theory, research, and policy and their applications to decisions regarding children and youth.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 316 (2015-2016 Catalog)

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

INTS 317 - Issues in Family Relationships

Credits: 4  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Dynamics of family systems and issues that shape relationships among family members. How families evolve as members grow, leave, and create related family systems; family roles and forms; and communication patterns, decision-making, conflict, stress, and power. Content draws from family communication, family relations, psychology, and counseling. Lecture, discussion, observation, analysis, research, and role-playing.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 317 (2015-2016 Catalog)

**Prerequisite(s):** 55 credits.

**Notes:** One credit counts for experiential learning; students complete 45 credits of course-related work outside classroom.
INTS 318 - Exploring Virginia's Watersheds

Credits: 4
Not Repeatable for Credit
Offered by School of Integrative Studies

Comprehensive overview of history, geography, economics, and management of water resources in Virginia; and how rapidly growing population has measurably degraded resource. Includes one weekend field trip. Designated a Green Leaf Course.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 318 (2015-2016 Catalog)

Prerequisite(s): None

INTS 319 - Contemporary Youth Studies

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies

Examines the history of positive youth development, how scholars study youth, and the theories they use to guide their research. Evaluates the policies and programs aimed at empowering youth.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 319 (2015-2016 Catalog)

INTS 320 - Construction of Differences: Race, Class, and Gender

Credits: 6
Not Repeatable for Credit
Offered by School of Integrative Studies

Investigates race, sex, sexual orientation, and social class in contemporary American society. Examines commonalities in the construction of these categories and experiences of those who occupy them.
INTS 321 - Parent-Child Relations

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Introduces students to concepts and challenges in parenting, along with family diversity and risk factors. Considers interactions between parents and children from birth to adolescence as well as cross-cultural, historical, and societal influences. Explores efforts that have been successful in changing detrimental parenting actions.

Equivalent to NCLC 321 (2015-2016 Catalog)

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

INTS 322 - Teacher: A Historical Perspective

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Examines the rich heritage of the teaching profession in Western society. Traces the history of educational philosophy and teaching, beginning with the ancient Greeks and culminating in the 21st century United States. Using the exploration of the various philosophies of education as a foundation, examines contemporary images of teachers in literature and film.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 322 (2015-2016 Catalog)

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INTS 331 - The Nonprofit Sector

Credits: 4
Not Repeatable for Credit
Offered by School of Integrative Studies
Readings, classroom discussions and activities, and practical experience reveal historical, legal, and socioeconomic forces that define and influence the American nonprofit sector. Explores structures, issues that affect nonprofit management, governing, and financial systems.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 331 (2015-2016 Catalog)

**INTS 333 - The Nature of Mathematics**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Include theoretical framework, historical context, connections with some other disciplines, and current issues. Selected mathematics topics such as advanced algebra and geometry and introductions to set theory, probability, calculus, and number theory.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 333 (2015-2016 Catalog)

**Prerequisite(s):** Performance on Math Placement Exam equivalent to requirements for entrance to MATH 110 or MATH 111, successful completion of algebra program in mathematics learning center, or any mathematics course that fulfills the Mason Core requirement in quantitative reasoning; OR permission of instructor.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**INTS 334 - Environmental Justice**

Credits: 4  
Not Repeatable for Credit  
Offered by School of Integrative Studies

Examines historical and contemporary sociopolitical and socioeconomic conditions that have given rise to the environmental justice movement. Analyzes how individuals contribute to environmental justice or injustice through everyday decisions. Considers how environmental justice movement responds to these issues. Designated a Green Leaf Course.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 334 (2015-2016 Catalog)

**Schedule Type:** SEM
INTS 335 - Ethics, Communication, and Freedom

Credits: 3-6
Not Repeatable for Credit
Offered by School of Integrative Studies
Students examine ethical principles, discuss some underlying bases for these principles, and work to understand how such principles are experienced and can be applied in a free society. Focus is on examining potential conflicts between ethics and the freedoms believed essential to a healthy democratic society. Cases drawn from sports, medicine, media, politics, and business.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 335 (2015-2016 Catalog)

Prerequisite(s): Sophomore standing and 3 credits each of communication and philosophy; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0

INTS 336 - Poverty, Wealth and Inequality in the US

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Explores the social, cultural, political, and spiritual implications of poverty, wealth, and inequality in the United States. Examines the ways in which class identity informs one's views of the world and its politics; how socioeconomic status affects one's access to education and other social goods; and how dominant discourses and stereotypes related to poverty influence mass perception regarding a range of social issues, from educational policy to welfare.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 336 (2015-2016 Catalog)

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INTS 337 - Social Justice Consciousness and Personal Transformation

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Explores the many spaces at which the quest to strengthen social justice consciousness interacts with processes and commitments for personal transformation. Analyzes through the lens of the activist and in the spirit of bringing mindfulness to activism, how we come to see and experience the world. Examines how socialization informs consciousness.
INTS 338 - Animal Rights and Humane Education

Credits: 3  
Not Repeatable for Credit  
Offered by School of Integrative Studies

Explores a combination of critical theories, experiential learning, and dialogical practices to examine the ways in which non-human animals are exploited for human profit. Examines the ramifications of this exploitation ecologically, as a question of sustainability, and spiritually, as a question of the impact of animal abuse on the human spirit. Discusses the use of animals in entertainment, factory farming, animal testing, and sport or trophy hunting; and how individuals and organizations are fighting these practices.  
Designated a Green Leaf Course.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 338 (2015-2016 Catalog)

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

INTS 345 - Introduction to Multimedia

Credits: 5  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Technological, aesthetic, and educational issues of using interactive multimedia. Topics include theoretical underpinnings of some technological issues involved in multimedia computing as well as techniques for authoring interactive multimedia projects using a variety of digital media tools.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 345 (2015-2016 Catalog)

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 5  
Hours of Lab or Studio per week: 0
INTS 346 - Art as Social Action

Credits: 4  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
This learning community explores historical records to understand different ways art has been produced, distributed, and consumed. Examines ways artists have affected change in their worlds. Through interdisciplinary studies, teaches major social movements and artists and theories used in socially engaged art. Students engage in experiential learning outside classroom as course requirement.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 346 (2015-2016 Catalog)

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1

INTS 347 - Gender Representation in Popular Culture

Credits: 3-6  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Explores the way in which masculinity and femininity have been represented across the decades in television, movies, music videos, pop art, and print media. Provides a review of the scholarship on the historical and contemporary roles of women and men in society, and examines the contradictions and expectations associated with gender roles. Incorporates active group learning through creative, insight-oriented exercises, critical thinking and discussions, and group presentations and media research activities.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 347 (2015-2016 Catalog)

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3-6  
Hours of Lab or Studio per week: 0

INTS 348 - Digital Futures

Credits: 3-6  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Investigates important contemporary issues such as surveillance-privacy, censorship, piracy, gender and ethnicity, digital labor and play, mobile media and globalization, and the commercialization and political potential of the digital public spheres. Introduces students to the latest technological, philosophical and creative thinking on the future of human society in a digital age.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 348 (2015-2016 Catalog)
Prerequisite(s): NCLC 249 or INTS 249
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

INTS 355 - Consciousness, Meaning and Life Purpose

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Examines scientific evidence about states of consciousness, providing opportunities for experiences and reflections about the personal impact of states of consciousness on how we find meaningful direction for using our talents. Includes the theory and practice of mindfulness and mediation; finding meaning in dreams; the stress-reduction and creativity-enhancement effects of visualization; and traditions of vision-questing about personal meaning and life purpose.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 355 (2015-2016 Catalog)

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

INTS 360 - The Built Environment

Credits: 6
Not Repeatable for Credit
Offered by School of Integrative Studies
Examines, records, and interprets objects, structures, and landscapes that compose our built environment. Draws on the fields of historical archaeology, architectural history, and urban geography, and employs photography, cartography, and evocative writing to represent the material world we inhabit. Builds on study of one neighborhood in Arlington, Virginia, and expands to entire metropolitan area.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 360 (2015-2016 Catalog)

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

INTS 361 - Neighborhood, Community, and Identity

Credits: 3-6
Not Repeatable for Credit
Offered by School of Integrative Studies
Examines processes of neighborhood formation and transformation in the context of urbanism, suburbanism, immigration, and transmigration.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 361 (2015-2016 Catalog)

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

INTS 362 - Social Justice and Human Rights

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Considers the philosophical foundations of social justice and human rights. Explores the interpretive difficulties related to identifying what constitutes human rights abuses, and evaluates regional perspectives on human rights. Analyzes institutions that strive to promote and enforce social justice and human rights standards including the United Nations system, regional human rights bodies, and domestic courts.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 362 (2015-2016 Catalog)

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INTS 365 - Independent Study

Credits: 1-12
Repeatable within Term for Credit
Offered by School of Integrative Studies
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor) Students are encouraged to work as a team on a particular topic.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 365 (2015-2016 Catalog).

Prerequisite(s): Permission of instructor and executive director.
Notes: Maximum 12 credits can be used to fulfill graduation requirements.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 1-12
INTS 370 - Sustainable Food Systems

Credits: 6
Not Repeatable for Credit
Offered by School of Integrative Studies.
Examines the evolution of US food systems with particular emphasis on the national capital region. Students place conventional agriculture and food systems in historical context and research alternative systems that emphasize sustainability. Beyond farm to table, this course asks students to contemplate how capitalism, industrialization, and environmental ethics shape our land, culture, and society.

Schedule Type: SEM

INTS 371 - Food Systems and Policy

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Examines the roles of individuals, corporations, and government in creating food policy. Students investigate US agriculture, food production and the environment, food and beverage processing, food safety and labeling, food sales and marketing, dietary guidance, and federal food assistance programs.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INTS 375 - Special Topics

Credits: 1-18
Repeatable within Term for Credit
Offered by School of Integrative Studies
Studies topics of special interest to undergraduates.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 375 (2015-2016 Catalog)

Notes: May be repeated for a maximum of 18 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

INTS 378 - Medicine, Justice, and Public Policy
Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Explores formation of public policy relating to several key issues in medicine. Students examine basic theories of justice and public policy formation and apply these to contemporary issues in the field of medicine. The goal is to examine how current policy on these issues was established and to give examples of major stakeholders in the debate. This course involves some traditional lecture and discussion classes and also features participative learning through group work and web-based discussions.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 378 (2015-2016 Catalog)

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**INTS 381 - When Cultural Worlds Collide**

Credits: 6
Not Repeatable for Credit
Offered by School of Integrative Studies
Explores what happens when "civilization" encounters "the jungle" by reading, writing, discussing, and viewing written and filmed works dealing with contacts between cultures with colliding world views. Literature (from Conrad's *The Heart of Darkness* to Shakespeare's *The Tempest* to Burrough's *Tarzan*), news articles, radio broadcasts, web home pages, art exhibits, and many film and video presentations provide the basis for in-class and out-of-class activities.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 381 (2015-2016 Catalog)

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3-15
**Hours of Lab or Studio per week:** 0

---

**INTS 390 - Internship**

Credits: 1-6
Repeatable within Term for Credit
Offered by School of Integrative Studies
Internship credit may be applied to 12 credits required in experiential learning.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 390 (2015-2016 Catalog)

**Prerequisite(s):** Sophomore standing and permission of instructor.
**Notes:** Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or executive director. Structured and supervised professional experience, within an approved agency, for which the student earns academic credit. The primary purpose of an internship is to connect the student's academic course work to experiences and
challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options.

**Schedule Type: INT**
**Hours of Lecture or Seminar per week:** 1-12
**Hours of Lab or Studio per week:** 1-6
**Grading:** Undergraduate Special

**INTS 391 - Introduction to Integrative Studies**

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Describes key components of the Integrative Studies Program in The School of Integrative Studies. Students prepare for active participation as a community of learners to develop skills in reflective learning and self-assessment, and identify areas of intellectual and professional interests, values and skills so that students may take greater advantage of opportunities in SIS. As a learning community, this course fosters group collaboration, intensive writing, and reflective learning.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 391 (2015-2016 Catalog)

**Notes:** Students may not enroll in this course after completing 12 or more learning community credits or simultaneously with or after completing INTS 491.

**Schedule Type: LEC**
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**INTS 394 - Service-Learning Experience**

Credits: 1-15
Repeatable within Term for Credit
Offered by School of Integrative Studies
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 394 (2015-2016 Catalog)

**Schedule Type: INT**
**Hours of Lecture or Seminar per week:** 1-15
**Hours of Lab or Studio per week:** 0
INTS 395 - Field-Based Work

Credits: 1-18
Repeatable within Term for Credit
Offered by School of Integrative Studies
Directed field studies in topic not otherwise available to students.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 395 (2015-2016 Catalog)

Notes: Topics vary, but entire course or significant component is located off campus. In addition to field work, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information.

Schedule Type: LEC, SEM
Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

INTS 396 - Teaching Assistant Experience

Credits: 1-6
Repeatable within Degree for Credit
Offered by School of Integrative Studies
Teaching assistantship and peer-mentoring duties carried out through existing university programs, such as Technology Assistants, Writing Tutors, and Residence Advisors. Also includes teaching assistantship arrangements for specific courses detailed in individualized course contract signed by instructor and student. In addition to peer mentoring/advising, course work may include logistical support, reading assignments, papers, presentations, and portfolios.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 396 (2015-2016 Catalog)

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

INTS 397 - Add-On Experiential Learning

Credits: 1-3
Repeatable within Term for Credit
Offered by School of Integrative Studies
For students who wish to add one or more experiential learning credit to existing experiential learning course or learning community.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 397 (2015-2016 Catalog)
Prerequisite(s): Must be enrolled in a learning community or experiential learning class to add this additional credit.

Notes: May also be used by students who wish to add an experiential learning component to course that provides no experiential learning credit (with permission of instructor). Unless experiential learning add-on requirements are spelled out in course syllabus, requirements for add-on experiential learning credit must be detailed in individualized course contract signed by instructor and student.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

INTS 398 - Field-Based Work

Credits: 1-15
Repeatable within Term for Credit
Offered by School of Integrative Studies
Experiential-based individualized studies, mentored by instructor.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 398 (2015-2016 Catalog)

Notes: Topics decided by student and instructor and approved by executive director. Requirements must be detailed in individualized course contract signed by student, instructor, and executive director. May include reading assignments, papers, journals, and portfolios.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

INTS 399 - Study Abroad

Credits: 1-6
Repeatable within Term for Credit
Offered by School of Integrative Studies
Intended for participation in formally organized course offered by Center for Global Education.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 399 (2015-2016 Catalog)

Notes: May be repeated for a maximum of 16 credits.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer
INITS 400 - Temptress: Constructs of Sex and Power

Credits: 3  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Examines the portrayal of powerful and/or sexual women throughout history, identifying famous historical "temptresses" and investigating the facts known about them. Explores representations and perceptions of contemporary female sexuality, considering possible future concepts and images of female power and sexuality.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 400 (2015-2016 Catalog)

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

INITS 401 - Conservation Biology

Credits: 6  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Provides students with a working knowledge of conservation biology. Integrates the study of social, economic, and political factors with biodiversity, population modeling, habitat degradation, and management issues. Students confront the leading edge of this exciting field by developing real species conservation plans. The experiential learning component of the course will include trips to the Smithsonian Institution's Conservation and Research Center in Front Royal, Virginia, to study with nationally known experts.

Designated a Green Leaf Course.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 401 (2015-2016 Catalog)

Prerequisite(s): Junior standing or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3-15  
Hours of Lab or Studio per week: 0

INITS 402 - Plants and People - Sustenance, Ceremony, and Sustainability

Credits: 6  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Examines the direct relationships between people and plants by integrating perspectives from both ethnobotany and economic botany. Provides students with an appreciation of the fundamental role of plants and plant-derived products in all aspects of
human life in both industrialized and non-industrialized societies. Explores how plants and their uses have shaped both past and present cultures around the world.
Designated a Green Leaf Course.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 402 (2015-2016 Catalog)

**INTS 403 - Conservation Behavior**

Credits: 6
Not Repeatable for Credit
Offered by School of Integrative Studies
Introduces students to conservation behavior, a field that seeks to apply theories of animal behavior towards solving biological conservation and wildlife management problems. Consists of interactive lectures, readings (including a text and primary literature) and discussion, and hands-on, inquiry-based experiential learning while working in groups at the National Zoo to design and conduct independent behavioral-based research on endangered species.

Equivalent to NCLC 403 (2015-2016 Catalog)

**INTS 404 - Ethics and Leadership**

Credits: 4
Not Repeatable for Credit
Offered by School of Integrative Studies
Uses an interdisciplinary approach to deepen and broaden student's learning about theories, models, and constructs related to the study and practice of ethics and leadership. Teaches students to develop ethical decision making strategies, communicate effectively in diverse group settings, value civic engagement and actively apply ethical leadership skills. Includes experiential learning activities and discussions that connect formal knowledge with real world experiences and includes one credit of experiential learning.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 404 (2015-2016 Catalog)

**INTS 405 - Women and Leadership**
INTS 405 - Leadership in Women's Studies

Credits: 4
Not Repeatable for Credit
Offered by School of Integrative Studies
Examines leadership within the context of the theoretical principles of women's studies through discussion of course texts, interactive exercises, field trips, documentary films, guest speakers, and reflection. Investigates the role that gender plays in the various forms of leadership and leadership styles. Explores the historical record of women in leadership roles, identifying the barriers as well as the opportunities.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 405 (2015-2016 Catalog)

Schedule Type: SEM
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

INTS 410 - Contemporary Health Issues

Credits: 3-18
Not Repeatable for Credit
Offered by School of Integrative Studies
Looks at a variety of health and health care issues. Examines several of the major health concerns of women and, to a lesser degree, men. Also explores the biology and medical implications of these diseases and how our society deals with potential life-altering information. Examines who is making the decisions on the allocation of research funds and prevention of diseases.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 410 (2015-2016 Catalog)

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3-15
Hours of Lab or Studio per week: 0

INTS 416 - Refugee and Internal Displacement

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Provides students with a deeper understanding of refugee and internal displacement. Explores causes of displacement and its impact on people and societies. Studies the role played by governments, non-governmental organizations (NGOs) and the international community in addressing problems faced by refugees in internally displaced persons in terms of relief assistance and humanitarian services.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 416 (2015-2016 Catalog)

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INTS 420 - Work Effectiveness Skills

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Develops a variety of work-readiness skills needed to become successful in both local and global marketplaces. Topics and skills covered include communication, problem solving in the business setting, workplace ethics, listening skills, how to influence others, building team project rapport, and meeting effectiveness skills.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 420 (2015-2016 Catalog)

Schedule Type: LEC

INTS 422 - An Experiential Approach to American Foreign Policy

Credits: 3-6
Not Repeatable for Credit
Offered by School of Integrative Studies
Takes an experiential approach to the study of American foreign policy. Through case studies, discussions, group projects, and directed research, students learn how foreign policy is made and executed and how they as citizens, activists, or officials can influence national decisions.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 422 (2015-2016 Catalog)

Schedule Type: LEC

INTS 431 - Principles of Fund Raising

Credits: 4
Not Repeatable for Credit
Offered by School of Integrative Studies
Examines history of philanthropy and public policy, and the economic and legal frameworks that shape it. Combining theory and practice, students study human behavior, communications, and management systems that are hallmarks of successful fund raising, and begin to develop skills to generate donations, foundation grants, and other unearned revenue for a nonprofit organization.
INTS 435 - Leadership in a Changing Environment

Credits: 4
Not Repeatable for Credit
Offered by School of Integrative Studies
Examines diverse definitions and processes of change across multiple complex contexts. Focuses on identifying innovative, collaborative solutions to seemingly intractable social problems. Explores topics such as social change and globalization, creative conflict resolution, the nature of power, oppression and influence, and systemic leadership.

Fulfills writing intensive requirement in the major.
Equivalent to NCLC 435 (2015-2016 Catalog)
Prerequisite(s): 60 credits.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

INTS 436 - Social Justice Education

Credits: 4
Not Repeatable for Credit
Offered by School of Integrative Studies
Examines educational policy, practice, and materials using a variety of lenses informed by social justice theory and praxis. Investigates ways in which racism, sexism, economic injustice, heterosexism, ageism, and other forms of discrimination influence schools and educational access and opportunity for youth. Considers and practices what individuals and communities can do to ensure that all students have equitable educational opportunities.

Fulfills writing intensive requirement in the major.
Equivalent to NCLC 436 (2015-2016 Catalog)
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
INTS 440 - Death, Dying, and Decision Making

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Interdisciplinary examination of clinical care of dying persons along with psychosocial issues related to processes of death and dying. Special emphasis on application of ethical principles in resolving complex problems for individuals with life-threatening illnesses and their families as care givers or decision makers. Students consider the changing norms and mores surrounding end-of-life decisions and explore the care available to terminally ill patients.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 440 (2015-2016 Catalog)

Prerequisite(s): 60 credits, or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

INTS 445 - Multimedia Design

Credits: 5
Not Repeatable for Credit
Offered by School of Integrative Studies
Technological, aesthetic, and educational issues of using interactive multimedia. Topics include theory and practice, integration of digital media, interface and navigation studies, and technical constraints on design.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 445 (2015-2016 Catalog)

Prerequisite(s): NCLC 345 or INTS 345, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 1

INTS 446 - Art, Beauty, and Culture

Credits: 3-6
Not Repeatable for Credit
Offered by School of Integrative Studies
Designed to help students understand the culture- and time-bound nature of beauty as it relates to art. Exploration of how the codes of acceptability in art forms have changed over time, with discussion about the subversive nature of art and the role that beauty plays in art that is created to engage the viewer in some type of action. Exercises include research projects, site visits, and gallery attendance.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 446 (2015-2016 Catalog)
INTEGRAL 455 - Consciousness and Transformation in Action

Credits: 3
Not Repeatable for Credit
Offered by School of Integrative Studies
Covers how principles and practices of consciousness and transformation relate to the major and career pathway it represents. Includes the theory and practices for deepening the student's own experience with the mindfulness and contemplative approaches to inquire. Capstone course for the minor in consciousness and transformation.
Fulfills writing intensive requirement in the major.
Equivalent to NCLC 455 (2015-2016 Catalog)
Prerequisite(s): NCLC 355 and 356 or INTS 335 and 356

INTEGRAL 465 - Independent Study

Credits: 1-12
Repeatable within Term for Credit
Offered by School of Integrative Studies
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor). Students are encouraged to work as a team on a particular topic.
Fulfills writing intensive requirement in the major.
Equivalent to NCLC 465 (2015-2016 Catalog)
Prerequisite(s): Permission of instructor and executive director
Notes: Maximum 12 credits can be used to fulfill graduation requirements.

INTEGRAL 470 - Professional Pathways in Sustainable Food Systems
INTS 475 - Special Topics

Credits: 1-18
Repeatable within Term for Credit
Offered by School of Integrative Studies
Studies topics of special interest to undergraduates.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 475 (2015-2016 Catalog)

Notes: May be repeated for a maximum of 18 credits when topic is different.

INTS 490 - Internship

Credits: 1-6
Repeatable within Term for Credit
Offered by School of Integrative Studies
Internship credit may be applied to 12 credits required in experiential learning.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 490 (2015-2016 Catalog)

Prerequisite(s): Sophomore standing and permission of instructor.
Notes: Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or executive director. Structured and supervised professional experience, within an approved agency, for which the student earns academic credit. The primary purpose of an internship is to connect the student's academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-2
**INTS 491 - The Senior Capstone Experience**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Should be taken semester before graduation; 85 credits required. Graduation requirement for integrative studies students. Students complete final SIS portfolio and senior exposition. Provides information on issues of professional development (interviewing skills, resume development, career strategies, and alumni opportunities).

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 491 (2015-2016 Catalog)

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**INTS 492 - Graduation Portfolio**

Credits: 0  
Repeatable within Degree for Credit  
Offered by School of Integrative Studies  
Fulfills writing intensive requirement in the major.

Equivalent to NCLC 492 (2015-2016 Catalog)

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit

**INTS 493 - Graduation Portfolio**

Credits: 0  
Repeatable within Degree for Credit  
Offered by School of Integrative Studies  
Fulfills writing intensive requirement in the major.

Equivalent to NCLC 493 (2015-2016 Catalog)

**Notes:** INTS 493 is for students who will not be enrolled in any other course work for the semester.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 0
INTS 494 - Service-Learning Experience

Credits: 1-15
Repeatable within Term for Credit
Offered by School of Integrative Studies
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 494 (2015-2016 Catalog)

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

INTS 495 - Field-Based Work

Credits: 1-18
Repeatable within Term for Credit
Offered by School of Integrative Studies
Directed field studies in topic not otherwise available to students.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 495 (2015-2016 Catalog)

Notes: Topics vary, but entire course or significant component is located off campus. In addition to field work, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-15
Hours of Lab or Studio per week: 0

INTS 496 - Teaching Assistant Experience

Credits: 1-6
Repeatable within Degree for Credit
Offered by School of Integrative Studies
Teaching assistantship and peer-mentoring duties carried out through existing university programs, such as technology assistants, writing tutors, and residence advisors. Also includes teaching assistantship arrangements for specific courses detailed in
individualized course contract signed by instructor and student. In addition to peer mentoring/advising, course work may include logistical support, reading assignments, papers, presentations, and portfolios.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 496 (2015-2016 Catalog)

**Schedule Type:** INT  
**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0

### INTS 497 - Add-On Experiential Learning

Credits: 1-3  
Repeatable within Term for Credit  
Offered by School of Integrative Studies  
For students who wish to add one or more experiential learning credit to existing experiential learning course or learning community.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 497 (2015-2016 Catalog)

**Prerequisite(s):** Must be enrolled in a learning community or experiential learning class to add this additional credit.  
**Notes:** May also be used by students who wish to add an experiential learning component to course that provides no experiential learning credit (with permission of instructor). Unless experiential learning add-on requirements are spelled out in course syllabus, requirements for add-on experiential learning credit must be detailed in individualized course contract signed by instructor and student.

**Schedule Type:** INT  
**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0

### INTS 498 - Field-Based Work

Credits: 1-15  
Repeatable within Term for Credit  
Offered by School of Integrative Studies  
Experiential-based individualized studies, mentored by instructor.

Fulfills writing intensive requirement in the major.

Equivalent to NCLC 498 (2015-2016 Catalog)

**Notes:** Topics decided by student and instructor and approved by executive director. Requirements must be detailed in individualized course contract signed by student, instructor, and executive director. May include reading assignments, papers, journals, and portfolios.

**Schedule Type:** INT
**INTS 500 - Animal Rights: Issues and Movements**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Explores forms of animal exploitation and abuse, and examines the relationship between humans and non-human animals, drawing from a variety of disciplines and fields such as feminist studies, animal studies, sociology, ethics, critical studies, and environmental studies. Assessment of the methods and strategies used by organizations and movements in order to redress animal exploitation.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**INTS 504 - Leadership Theory, Praxis, and Development**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Explores contemporary leadership theories, models, and concepts using a theory-to-practice-to theory framework. Covers leadership theory, supporting research, and practical application. Focuses on active learning through classroom presentations, course texts, a reflection on theory and practice, and team work.

Equivalent to NCLC 504 (2015-2016 Catalog)

**Prerequisite(s):** Permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

**INTS 540 - Contemporary Issues in Social Justice & Human Rights**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Integrative Studies  
Students will examine, study the socio-historical significance of, and consider solutions for some of the most pressing social justice and human rights issues in the world today. The issues examined will cut across identity, region, and scope, and may include concerns as varied as human trafficking, hegemony, animal abuse, child labor, and sexism.

Equivalent to NCLC 540 (2015-2016 Catalog)
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3

**INTS 595 - Experiential Learning**

Credits: 1-3
Repeatable within Term for Credit
Offered by School of Integrative Studies
Equivalent to NCLC 595 (2015-2016 Catalog)

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

**International Commerce and Policy (ITRN)**

Offered by the Schar School of Policy and Government (formerly SPGIA)

**ITRN 500 - Global Political Economy**

Credits: 1-4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Foundation course in the ICP program. Explores issues and ideas affecting global security, stability, growth and development from country, regional and thematic perspectives. Introduces students to key concepts, policies, and practices that underpin international commerce, international relations more broadly, and non-governmental transnational activities.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**ITRN 501 - Methods of Analysis for International Commerce and Policy**

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Provides the skills necessary to conduct qualitative and quantitative research and analysis of issues related to international commerce and policy. Students obtain practical information on sources of data, their origins, strengths, and weaknesses. Helps develop tools for statistical analysis of data, and includes use of computers for analyzing and displaying information. It covers major data sources as well and literature and indices related to international policy, including trade data, economics and financial indicators, and development indicators.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
ITRN 503 - Macroeconomic Policy in the Global Economy

Credits: 1-4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Provides an analytical introduction and overview of basic concepts in macroeconomic theory with an emphasis on applications to problems in the United States and the contemporary global economy. Covers topics such as inflation, growth and business cycles, fiscal and monetary policies, balance of payments and exchange rates.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

ITRN 504 - Microeconomics and Trade Policy

Credits: 1-4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Provides a foundation in microeconomics, including supply and demand analysis, elasticities, the theory of the firm, allocative efficiency and market failure. Covers applications of this microeconomic foundation to international trade theory, trade policy analysis, preferential trade agreements, and international production. Emphasis is on graphical and algebraic analysis.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

ITRN 602 - Global Financial Crises and Institutions

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines the modern financial sector: how it operates, its regulation, and its role in risk transmission and crisis formation. Reviews global financial markets and instruments. Considers the role of multilateral and regional financial institutions in management of crises, macroeconomic adjustment, development policy and capital flows with emphases on financial crises including the 2007-09 crisis.

Prerequisite(s): ITRN 503.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer
ITRN 603 - Global Trade Relations

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines U.S. trade policy in the context of global trade relations. Considers the global trading system from legal, institutional and political perspectives, giving particular attention to trade agencies in the United States and abroad, international agreements, and the World Trade Organization. Trade policy formation is analyzed within the context of competing interest groups and corporate strategies.

Prerequisite(s): ITRN 504.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

ITRN 604 - International Trade and Technology

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines science and technology policies and international trade, with emphasis on relationships and interactions. Assesses roles of science and technology as economic drivers, and explores strategies employed by companies and governments to link research and development to economic growth and competitiveness. Examines research and development systems and technology-related trade policies of United States, Japan, Europe, major developing countries, and selected newly industrialized economies, emphasizing policies affecting trade and technology. Explores specific cases involving interactions among science, technology, and international trade.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 612 - International Business Operations and the Multinational Corporation

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines international business environment and challenges facing companies in conducting operations in increasingly interconnected global marketplace. Focuses on issues of management and organization, and resolution of conflicts that may arise between business organizations and home and host governments. Also focuses on role of multinational corporations in international environment, and impact on global trade, economic development, and political system. Also studies trade and international investment theories and world financial environment. Explores broad issues such as sovereignty of decision making and global impact of business activities.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
**ITRN 701 - Special Topics in International Commerce and Policy**

Credits: 1-3  
Repeatable within Term for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Offers specialized courses on various aspects of international commerce and policy.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0

**ITRN 702 - Special Topics in International Commerce and Policy: Study Abroad**

Credits: 3-6  
Repeatable within Term for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Provides opportunity for study abroad under supervision of Mason faculty.

**Notes:** Course topics, content, and locations vary.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**ITRN 710 - International Business Transactions: Finance and Investment**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Focuses on techniques for financing trade and payment methods, including letters of credit, counter trade, and other approaches. Covers issues of direct concern in financing international business operations, such as preparing financing proposals, risk insurance, international taxation, pricing policies, and currency conversion and foreign exchange risk management. Introduces foreign direct investment, alliances and acquisitions, joint ventures, and other methods for investing overseas.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**ITRN 711 - United States Law and Global Trade**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Surveys types of regulations imposed by United States, foreign governments, and international institutions on transnational business activities. Reviews principal regulatory bodies in United States and overseas, and powers and authorities. Covers tariffs and customs regulations; product safety and environmental restrictions; intellectual property, copyright, trademark, and patent
regulations; and licensing rules. Also covers special restrictions that may be imposed because of political considerations such as embargoes, munitions controls, and antibribery and antiboycott regulations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 712 - World Trade Organization and Global Trade

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Focuses on legal aspects of international trade regulation by studying international legal and political regime established under WTO, and assessing impact of domestic economic legislation on U.S. trade regulations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 715 - Global Environment and the World Economy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines growing relationship between environmental interdependence and developing world economy. Assesses increased globalization of environmental and health issues with a focus on the impact on those issues on international transactions involving trade and development. Attempts to develop an understanding of relationship of scientific knowledge to global environment in context of existing political and economic institutions. Emphasizes formulating and assessing policies and structures for corporations, nations, regions, and international organizations. Tensions among free trade, international competitiveness, and regulatory responses are central. Gives attention to practices of nations and international organizations, emerging forms of regional and international cooperation, and growing use of multilateral agreements.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 716 - European Union in the International System

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines current developments in European market integration from global perspective. Emphasizes impact of single market, and proposed economic and monetary union of United States and other major trading partners. Examines European economic relations with Eastern Europe, former Soviet Union, and Lome Pact countries.

Schedule Type: LEC
ITRN 717 - International Science and Technology

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines U.S. science and technology policies (S&T) and structures, as well as those in other leading countries. Assesses functional links between S&T and international transactions focusing on trade, national security, finance, and development assistance. Considers emergence of multilateralism and international institutional arrangements as alternatives to traditional bilateral patterns of cooperation.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITRN 718 - Global Economic and Human Development

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Interdisciplinary examination of economic and human development in world economy. Introduces alternative concepts and theories of economic and human development, and analytical frameworks for assessing important issues that arise in development process. Topics include colonialism, economic growth, population, health, education, industrialization, and rural development.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITRN 720 - Regional and Supranational Organizations

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Assesses role of international organizations in international system today, and focuses on wide range of international and regional economic and political institutions. Emphasizes changing nature of these organizations in relation to nation states, and relationship of international organizations to U.S. national security and economic interests.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITRN 731 - Business-to-Business Marketing in International Commerce
IITRN 736 - Sources of Growth in East Asia

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines extraordinary economic success of East Asian NIEs and some of their problems. Focuses on understanding proximate sources of growth, role of technological development, and salient political issues.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IITRN 738 - Fundamentals of International Marketing

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Offers working knowledge of principles and practices that enable managers to effectively market organizations, products, services, and brands. Emphasizes international dimensions of marketing where appropriate.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

IITRN 740 - ABCs of Exporting and Importing

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Acquaints students with legal, regulatory, and practical issues in importation and exportation of merchandise. Topics include theoretical framework for government oversight of international movement of goods; legal issues between parties and governments; and practical guidance concerning structuring of import and export transactions to avoid legal and tariff liability.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
ITRN 742 - Technology Policy and International Strategies

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Introduces opportunities and problems created for organizations and society by Internet, and policies affecting trajectory of
Internet developments. Also covers technological factors in planning horizon; domestic policy and international treaty factors
affecting Internet trajectory; and new horizons for Internet applications.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 744 - The Politics of International Competitiveness

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Provides inquiry into governance problems of public managers and political leaders as they cope with global competitiveness in
post-industrial era. Focuses on integrating public and private sectors worldwide, with special emphasis on U.S. role and how it
influences such areas as technology transfer, national security, electronic commerce, trade policies, money flows, and human
resources.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 750 - Trade and Politics in Eastern Europe and the Former Soviet Union

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines background and recent developments in political, business, and cultural environment confronting American firms
seeking to do business in Eastern Europe and former Soviet Union. Emphasizes international trade patterns and relations between
these states and United States. Examines modes of doing business in these countries, and unique problems American firms
confront. Focuses on privatization, joint ventures, and counter trade.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 752 - Global Business and Policy
Focuses on the multinational firm (MNE) and examines the international activities of large companies as well as small and medium sized enterprises. Assesses how firms strategize across national borders and address the challenges posed by different governance structures, political economies, institutions and cultures. Theoretical concepts are applied to ‘real’ business situations and case studies.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

ITRN 754 - International Commercialization of Space

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Identifies and analyzes problems and transactions concerning privatization and commercialization of transnational space activities, including launch and satellite operations. Emphasizes interplay of new technologies with existing legal, political, and business structures in formulating viable commercial satellite and launch operations. Focuses on planning and implementing private space actions in conjunction with various public and private international organizations. Sessions focus on interdisciplinary aspects of space commercialization involving technology, finance, tax, insurance, joint venture and business matters, and international legal and national regulatory issues. Guest lecturers include leading business executives engaged in space and satellite operations.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITRN 756 - National Security and the Global Economy

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines impact of globalization and changes in international economic and political systems on concepts of national security. Emphasizes nexus of economic and security concerns in post-Cold War era, with particular attention to emerging issues including trade and economic security, proliferation of advanced military technology and control of weapons of mass destruction, international drug trafficking, and defense conversion. Focuses on implications of changing security requirements on U.S. defense and economic policy and activities.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITRN 757 - Business and Politics in Emerging Markets
Examines developing countries that are major destination points for international financial flows and foreign direct investment. Emerging markets have become a major influence in the world economy both because of the potential for growth and the downside risks from economic crises. The course uses the new institutional economics to analyze the interplay of political, economic, and business conditions. Institutional economics is a combination of economics, economic history, and political science. Topics covered include the politics of economic reform, drivers of globalization and investment, the informal sector, and relationships of risk and reward.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**ITRN 758 - Global Market Planning Practicum**

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Provides opportunity to develop international market plan for specific industry or service sector. Students consult with industry experts and use key trade databases to develop strategic plan that recommends market entry strategies. Completed market plan submitted to industry experts for use and dissemination.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**ITRN 759 - Country Risk Analysis**

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Presents a wide variety of country risk analysis methods used by corporations, financial institutions, governments, international organizations, specialized consulting groups, and publications. These methods are used to design policies, programs, and projects in the international arena. The course explores natural, commercial, economics, political and financial risk. It also provides a conceptual foundation for understanding the sources of risk, the impacts of risk on public and private sector activities, and the ways that risk can be successfully mitigated or managed.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**ITRN 760 - International Environmental Politics**

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines growing concerns related to global environmental issues and problems they pose to domestic, foreign, and international political institutions. Covers major environmental issues including global warming, ozone depletion, cross-border flow of pollution, and threats to biodiversity. Assesses strengths and weaknesses of traditional political institutions in dealing with these issues and providing for sustainable economic development while limiting environmental damage. Designated a Green Leaf Course.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITRN 761 - European Political and Economic Union

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines movement for European integration since World War II, focusing on political and institutional development of European Community/Union. Topics include theories of European integration, Treaties of Rome, Single European Act, Maastricht Treaty, European Union (EU) policies and programs, and EU's external relations. Analyzes changing nature of U.S.-EU relations and prospects for EU enlargement into Central and Eastern Europe.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITRN 764 - Trade, Investment, and Politics in East Asia

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines issues related to international transactions involving Korea, China, Taiwan, and Hong Kong, with some attention to Japan. Focuses on trade and financial relations between these East Asian nations and United States. Assesses impact of culture and domestic political and economic institutions within these states, and roles in regional institutions and in international system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITRN 765 - Trade, Investment, and Politics in Sub-Saharan Africa

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines role and potential of sub-Saharan Africa in international trading system. Emphasizes political, historical, cultural, and development factors. Focuses on perspectives of U.S. firms and on international institutions trading or investing in region.

Schedule Type: LEC
ITRN 766 - Trade, Investment, and Politics in the Middle East and North Africa

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines major economic, political, and cultural issues that influence trade and investment relations with Middle East and North Africa. Focuses on roles of international and regional institutions in economic development, and develops understanding of challenges facing region and their implications for formulating trade and investment strategies by U.S. firms.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 767 - Political Economy and Integration in Latin America

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines contemporary political, economic, and cultural dynamics of Latin American and Caribbean regions. Emphasizes issues and trends that affect U.S.-Latin American political, business, and trade relations, particularly recent political and economic reforms. Examines roles of domestic interest groups and decision-making systems in individual countries, and evolution of regional integration arrangements and integration with international system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 768 - Global Intellectual Property Rights and International Trade

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines national and regional systems, international contractual relations (licensing), and the evolving global system for protecting intellectual property. Addresses current international treaty system and the ongoing multilateral efforts to strengthen worldwide intellectual property protection. Examines intellectual property regimes worldwide, including regional and bilateral challenges and opportunities, and relevant U.S. law and policy responses.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ITRN 769 - International Entrepreneurship
Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Introduces practical planning approach for small and medium-size entrepreneurial firms seeking to enter international marketplace. Focuses on key business and financial documents related to doing business overseas; and assesses role of language, technology, and information systems in formulating successful business strategy. Role playing and simulated negotiations provide opportunities for students to sharpen business skills.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITRN 770 - International Contract Negotiation

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Reviews growing role of arbitration in international transactions. Examines international, national, and government arbitration bodies, with particular emphasis on how differing cultural characteristics affect negotiating behavior and effectiveness of arbitration.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITRN 771 - Trade, Investment, and Politics in South and Southeast Asia

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Focuses on trade and finance issues in the most dynamic countries of South and Southeast Asia. Assesses cultural and political factors, regional trade patterns, and institutions, focusing on implications for regional development and business opportunities for U.S. firms.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**Italian (ITAL)**

Offered by the College of Humanities and Social Sciences

**ITAL 101 - Elementary Italian I**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Designed for students with no prior knowledge of Italian. Includes elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

**Notes:** Students may not receive credit for ITAL 101 and ITAL 110.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**ITAL 102 - Elementary Italian II**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Continuation of ITAL 101.

**Prerequisite(s):** ITAL 101 or permission of instructor.  
**Notes:** Students may not receive credit for ITAL 102 and ITAL 110.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
ITAL 110 - Elementary Italian

Credits: 6  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Notes: Students may not receive credit for ITAL 110 and ITAL 101 or 102.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 6  
Hours of Lab or Studio per week: 0

ITAL 201 - Intermediate Italian I

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Further development of skills in listening, speaking, and writing.

Prerequisite(s): ITAL 102 or permission of department.  
Notes: ITAL 201 and 202 must be taken in sequence. Students may not receive credit for ITAL 201 and ITAL 210.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITAL 202 - Intermediate Italian II

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Application of language skills to reading, composition, and discussion.

Prerequisite(s): ITAL 201 or permission of department.  
Notes: Students may not receive credit for ITAL 202 and ITAL 210.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1

ITAL 210 - Intermediate Italian

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Italian-speaking regions.

**Prerequisite(s):** ITAL 110 or appropriate placement score.
**Notes:** Students may not receive credit for ITAL 210 and ITAL 201 or 202.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**ITAL 250 - Gateway to Advanced Italian**

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Development of advanced intermediate-level proficiency with a primary focus on seven major communicative functions: describing, comparing, recommending and expressing opinions, recounting the past, expressing likes and dislikes, hypothesizing, and talking about the future. Examination of authentic materials from various Italian-speaking regions.

**Prerequisite(s):** ENGH 101, or equivalent.
**Notes:** Taught in English.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**ITAL 325 - Major Italian Writers**
ITAL 330 - Advanced Italian: Language and Culture I

Credits: 3  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
Develops linguistic and critical proficiency in Italian language and culture for students who have completed intermediate studies in Italian. Analyzes authentic texts that reveal the diversity of Italian experience in regional, national and international contexts. Fosters advanced reading, writing, speaking, and listening skills that will enable students to understand and to critique Italian with greater ease and sophistication.

Prerequisite(s): ITAL 250; appropriate placement score; or permission of instructor.  
Notes: Taught in Italian. May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITAL 331 - Advanced Italian Language and Culture II

Credits: 3  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
An advanced course that emphasizes linguistic fluency and cultural awareness in contemporary Italian realities. Highlights changes in the domestic, regional, and national spheres.

Prerequisite(s): ITAL 330; placement score or permission of the instructor.  
Notes: Taught in Italian. May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ITAL 340 - Italian through Arts
ITAL 420 - Global and Local Italy

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Examines Italian culture in its urban, regional, national, and diasporic manifestations. Analyzes authentic texts, from literature to journalism, in the spirit of a cultural studies approach. Fosters advanced reading, writing, speaking, and listening skills that will enable students to understand and critique contemporary Italy with greater ease and sophistication.

Prerequisite(s): ITAL 330.
Notes: Taught in Italian.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Japanese (JAPA)

Offered by the College of Humanities and Social Sciences

JAPA 101 - Introduction to the Japanese Language

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Includes basic grammar, oral expression, listening comprehension, and reading and writing.

Notes: Students may not receive credit for JAPA 101 and JAPA 110.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
JAPA 102 - Introduction to the Japanese Language

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Includes basic grammar, oral expression, listening comprehension, and reading and writing.

Notes: Students may not receive credit for JAPA 102 and JAPA 110.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

JAPA 110 - Elementary Japanese

Credits: 6
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, reading, and writing.

Notes: Students may not receive credit for JAPA 110 and JAPA 101, 102.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

JAPA 201 - Intermediate Japanese I

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Further development of skills acquired in JAPA 101 and 102, including grammar, oral expression, listening comprehension, reading and writing. Use of written language (katakana, hiragana, and kanji) emphasized.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

JAPA 202 - Intermediate Japanese II

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Continuation of JAPA 201.

**Prerequisite(s):** JAPA 201 or equivalent.

**Notes:** Students may not receive credit for JAPA 202 and JAPA 210.

**JAPA 202 - Intermediate Japanese**

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Also introduces students to Japanese culture and society.

**Prerequisite(s):** JAPA 110, appropriate placement score, or permission of instructor.

**Notes:** Students may not receive credit for JAPA 210 and JAPA 201, 202.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**JAPA 210 - Intermediate Japanese**

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Also introduces students to Japanese culture and society.

**Prerequisite(s):** JAPA 110, appropriate placement score, or permission of instructor.

**Notes:** Students may not receive credit for JAPA 210 and JAPA 201, 202.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**JAPA 250 - Gateway to Advanced Japanese**

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Development of advanced intermediate-level Japanese language skills in the interpersonal, interpretive, and presentational modes of communication. Incorporates strong component of critical and comparative analysis of Japanese cultural products, practices, and perspectives of the past and the present.

**Prerequisite(s):** JAPA 210, appropriate placement score, or permission of department.

**Notes:** Taught in Japanese.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**JAPA 310 - Japanese Culture in a Global World**

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Study of globalizing Japanese cultural phenomena from the 19th through the 21st century. Explores how movements of ideas, technologies and products across borders influence both local and global ideas and practice.
Fulfills Mason Core requirement in global understanding.

Prerequisite(s): ENGL 101/ENGH 101 or equivalent; or permission of instructor.
Notes: Taught in English. Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

JAPA 320 - Japanese Cinema

Credits: 3
Repeatable within Term for Credit
Offered by Modern and Classical Languages.
Comprehensive analysis of Japanese cinema based on cross-cultural perspectives and cultural criticism. Major developments and trends as viewed in selected Japanese films with emphasis on post war and contemporary eras. Knowledge of Japanese history, communication, and cultural studies or film and media studies helpful.

Notes: Taught in English. May be repeated for a maximum of 6 credits when topic is different with approval of department.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

JAPA 330 - Advanced Reading and Speaking I

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Designed for students to develop conversational proficiency and reading skills. Students work toward a mastery of linguistic and sociolinguistic rules by incorporating reading and speaking abilities through class discussions, reports, and presentations.

Prerequisite(s): JAPA 250, appropriate placement score, or permission of instructor.
Notes: Taught in Japanese.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

JAPA 331 - Advanced Reading and Speaking II

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Designed for students to develop conversational proficiency and reading skills. Students continue to develop mastery of linguistic and sociolinguistic rules by incorporating reading and speaking abilities through class discussions, reports and presentations.
Prerequisite(s): JAPA 330, appropriate placement score, or permission of instructor.
Notes: Taught in Japanese.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

JAPA 340 - Topics in Japanese Literature

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Study of selected topics in Japanese literature in English translation. Content varies.

Fulfills Mason Core requirement in literature.

Prerequisite(s): ENGH 101 or equivalent, or permissions of instructor.
Notes: May be repeated for a maximum of 6 credits when topic is different with permission of department. Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

JAPA 350 - Readings in Japanese Culture

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
An integrated content-based Japanese course designed to advance students' oral and writing skills, as well as their critical understanding of Japanese culture and mythology. Introduces a variety of genres, such as rakugo (traditional comical storytelling), shinwa (myths), and mukashi-banashi (folk legends).

Prerequisite(s): JAPA 250, appropriate placement score, or permission of department.
Notes: Taught in Japanese.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

JAPA 360 - Topics in Japanese Popular Culture

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
In-depth look at anime and manga in order to arrive at a deeper understanding and appreciation of the cultures and histories that
generated these art forms, as well as how they continue to shape international entertainment media and fan subcultures.

**Notes:** Taught in English.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Grading:** Regular

**JAPA 370 - Video Games and Japan**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Examines video games as digital works of art, literature, and social engagement within the context of contemporary transnational mediascape. Includes study of the history and development of Japanese video games, as well as the markets and cultures surrounding them.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Grading:** Regular

**JAPA 440 - Integrated Study of Japanese Language and Society I**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Integrated approach to study of Japanese language and society through grammar review, vocabulary and kanji development, intensive practice in spoken and written Japanese, and sociological and cultural readings and analysis. Includes class discussion, oral and written reports, and out-of-class direct interactions with native speakers.

**Prerequisite(s):** JAPA 331, appropriate placement score, or permission of instructor.  
**Notes:** Taught in Japanese.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**JAPA 441 - Integrated Study of Japanese Language and Society II**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Integrated approach to study of Japanese language and society through grammar review, vocabulary and kanji development, intensive practice in spoken and written Japanese, and sociological and cultural readings and analysis. Includes class discussion, oral and written reports, and out-of-class direct interactions with native speakers. More emphasis on actual use of Japanese language.
**Prerequisite(s):** JAPA 440, appropriate placement score, or permission of instructor.

**Notes:** Taught in Japanese.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**Kinesiology (KINE)**

Offered by the College of Education and Human Development

---

**KINE 100 - Introduction to Kinesiology**

Credits: 3

Not Repeatable for Credit

Offered by School of Recreation, Health, and Tourism

Provides overview of the field of kinesiology in the form of an introductory course. Exposes students to the history of the field, and its emphasis on evidence based knowledge. Explains policies and procedures for the major. Explorers career options.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Summer, Spring

---

**KINE 200 - Introduction to Personal Training**

Credits: 3

Not Repeatable for Credit

Offered by School of Recreation, Health, and Tourism

Provides students with basic knowledge and skills associated with exercise training methods, lifting techniques, and health-related fitness testing procedures. Selection of developmentally appropriate exercises emphasized. Participation in fitness tests required.

**Prerequisite(s):** Grade of "C" or higher in BIOL 124, BIOL 125, ATEP 300, KINE 310. Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring

---

**KINE 249 - An Analysis of Boxing**

Credits: 3

Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides study of the sport of boxing from cultural, historical, physical, and scientific perspectives. Well-known writings from literature on boxing as well as boxing training methods, and program design will be addressed. Physical participation will include basic boxing skills, conditioning, and fitness testing of participants.

**Prerequisite(s):** ENGH 100 or ENGH 101.  
**Notes:** All students must purchase hand wraps, heavy bag gloves, mouthpieces, and jump ropes. Boxing and/or wrestling shoes are strongly recommended.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer

**KINE 250 - Endurance Sport Program Design**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Provides students with knowledge necessary to train another individual safely and effectively for endurance sports. Emphasis will be placed on running; however, cycling and swimming will be covered. Topics covered include: functional, physiology, psychological aspects of endurance competitions, basic nutritional requirements, injury reduction, training techniques, safety, race management, and history of endurance sports.

**Prerequisite(s):** BIOL 124, BIOL 125, ATEP 300, KINE 200.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Summer, Spring

**KINE 310 - Exercise Physiology I**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Introduces students to the physiologic, neuroendocrine, and biochemical changes of the human body that are associated with exercise and work.

**Prerequisite(s):** Grade of "C" or higher in BIOL 124, BIOL 125.  
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

**KINE 320 - Principles of Human Nutrition**
Assesses dietary habits and patterns in relation to nutrient requirements across the age spectrum and for a variety of populations. Emphasizes weight control, diet in relation to physical activity, and current nutritional controversies.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring, Summer

---

**KINE 330 - Seminar in Kinesiology**

Credits: 3

Not Repeatable for Credit

Offered by School of Recreation, Health, and Tourism

Prepares students for the fieldwork experience in KINE 341: Kinesiology Internship I. Topics covered include: professionalism, review of evidence-based position papers, and discussion of contemporary issues in kinesiology.

Equivalent to HEAL 430 (2014-2015 Catalog)

**Prerequisite(s):** Junior standing (60 credit hours)

C or higher in KINE 100, KINE 200, ATEP 300, KINE 310, KINE 370.

Prerequisite(s) enforced by registration system.

**Schedule Type:** SEM

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring

---

**KINE 341 - Kinesiology Internship I**

Credits: 3

Not Repeatable for Credit

Offered by School of Recreation, Health, and Tourism

Provides a paid or voluntary supervised professional experience in an approved exercise science professional setting under the supervision of a practicum University Supervisor and Agency Supervisor.

**Prerequisite(s):** C or higher in KINE 200, KINE 310, KINE 330, KINE 350, KINE 370.

Junior status (60 credits).

Current CPR, AED, and First Aid.

Prerequisite(s) enforced by registration system.

**Schedule Type:** INT

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring, Summer
KINE 350 - Exercise Prescription and Programming

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides students with an opportunity to develop an understanding of the assessment and evaluation process used in cardio-respiratory training and anaerobic conditioning for healthy, athletic, and symptomatic populations.

Prerequisite(s): C or higher in
KINE 200
ATEP 300
KINE 310
KINE 370
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

KINE 360 - Strength Training: Concepts and Applications

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides students with an opportunity to develop an in-depth understanding of the principles of strength training and conditioning, including: anatomical and physiological considerations, lifting techniques, equipment selection, program development/evaluation, and weightlifting safety; thus enabling them to teach and train client.

Equivalent to PHED 364

Prerequisite(s): C or higher in BIOL 124 and BIOL 125; ATEP 300 and KINE 310.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

KINE 370 - Measurement and Evaluation of Physical Fitness

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
This course provides students with an opportunity to develop a understanding of the assessment and evaluation process in the determination of physical fitness.

Equivalent to PHED 365
Prerequisite(s): C or higher in BIOL 124 and BIOL 125; ATEP 300 and KINE 310. Prerequisite(s) enforced by registration system.

Notes: This is designated a writing intensive course.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**KINE 380 - Exercise Prescription and Programming for Special Populations**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Provides the study of the pathophysiology of common diseases and conditions with concentration in the design and implementation of exercise programs.

Prerequisite(s): C or higher in KINE 200, KINE 310, KINE 330, KINE 350, KINE 370; or permission of instructor. Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

**KINE 400 - Biomechanics**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Focuses on kinetic and kinematic concepts and how they apply to the quantitative assessment of human movement. Analyzes human movement and the functional dynamics of tissue such as muscle or bone.

Prerequisite(s): C or higher in BIOL 124, BIOL 125, ATEP 300, KINE 360. Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**KINE 410 - Exercise Physiology II**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Provides study in the advanced theory of exercise physiology. Knowledge related to the physiologic, neuroendocrine, and
biochemical changes of the human body associated with both a single bout of exercise and chronic exercise training will be addressed.

**Prerequisite(s):** C or higher in BIOL 124, BIOL 125, KINE 310.
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Summer

---

**KINE 420 - Sport and Exercise Nutrition**

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Explores the fundamental biochemical and physiological rationale for optimal nutrient intake for health, physical fitness, and athletic performance. Specific attention is focused upon the relationship nutrition has with exercise, physical fitness, health, and athletic performance.

**Prerequisite(s):** C or higher in KINE 310, KINE 320.
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall

---

**KINE 441 - Kinesiology Internship II**

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides a supervised professional experience in two separate approved kinesiology professional settings under the supervision of both a University Supervisor and an Agency Supervisor with emphasis placed upon exercise programming and implementation for both clinical (site 1) and performance (site 2) populations.

**Prerequisite(s):** 90 credits (Senior status), C or higher in KINE 330, KINE 341, KINE 350, KINE 360, KINE 370, KINE 380
Current CPR, AED, and First Aid
Prerequisite(s) enforced by registration system.

**Schedule Type:** INT
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Summer, Spring
KINE 450 - Research Methods

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Covers the development of empirical research designs for both practical and theoretical problems in allied health fields such as kinesiology, therapeutic recreation, and athletic training. Includes literature review of hypothesized relationships, and formulation of research proposals.

Prerequisite(s): 60 credits and grade of C of better in one of the following: STAT 250, OM 210, SOC 313, OM 250, or IT 250. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

KINE 490 - Kinesiology Internship III

Credits: 12
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides a directed, field-based experience, in which students observe and participate in conditions, practices, and settings where sought career roles are conducted. The kinesiology fieldwork coordinator must approve placement for the practicum. Both a University supervisor and an approved agency supervisor with recognized professional certifications coordinate and oversee the student's internship experience.

Prerequisite(s): 90 credits, C or higher in KINE 330, KINE 341, KINE 400, KINE 410, KINE 420, KINE 441, Current CPR, AED, and First Aid Certification.
Prerequisite(s) enforced by registration system.

Schedule Type: INT
Hours of Lecture or Seminar per week: 12
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

KINE 499 - Independent Study in Kinesiology

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Recreation, Health, and Tourism
Study of a topic regarding theory, research, or practice in kinesiology under the direction of a faculty member. May be repeated, but no more than 3 total credits hours may be earned.

Prerequisite(s): Completion of 90 credit hours and Permission of Instructor.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

Korean (KORE)

Offered by the College of Humanities and Social Sciences

KORE 110 - Elementary Korean

Credits: 6  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 6  
Hours of Lab or Studio per week: 0

KORE 201 - Intermediate Korean I

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Continuation of basic Korean listening, speaking, reading, and writing skills. Online and lab work required.

Prerequisite(s): KORE 102, appropriate placement score, or permission of department  
Notes: Students may not receive credit for KORE 201 and KORE 210.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

KORE 202 - Intermediate Korean II

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Continuation of KORE 201. Online and lab work required.

Prerequisite(s): KORE 201, appropriate placement score, or permission of department  
Notes: Students may not receive credit for KORE 202 and KORE 210.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
KORE 210 - Intermediate Korean

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Korean-speaking regions.

Prerequisite(s): KORE 110 or appropriate placement score.
Notes: Students may not receive credit for KORE 210 and KORE 201 or 202.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

KORE 250 - Gateway to Advanced Korean

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Develops advanced-intermediate level reading, writing, listening, and speaking skills through a comparative analysis of Korean cultural products and practices and a critical analysis of the influence of globalization and East Asian regional dynamics.

Prerequisite(s): KORE 210; appropriate placement score; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

KORE 305 - Business Korean

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Develops intermediate- to high- level Korean reading, writing, listening and speaking skills while increasing culture awareness in Korean business settings through authentic materials and hands-on projects with people in the Korean business community.

Prerequisite(s): KORE 250; appropriate placement score; or permission of instructor.
Notes: Taught in Korean.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

KORE 310 - Classical Korean Literature
Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Develops students' advanced-intermediate Korean language skills and cultural awareness through an extensive overview of classical Korean literature.

Prerequisite(s): KORE 250; appropriate placement score; or permission of department.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

KORE 311 - Modern Korean Literature in Translation

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Explores twentieth and twenty-first century Korean literary works through the critical and comparative analysis of Korean cultural products, practices and perspectives of the past and the present.

Fulfills Mason Core requirement in literature.

Prerequisite(s): ENGH 101; appropriate placement score; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

KORE 330 - Advanced Korean Language and Culture

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Develops advanced level Korean language skills and cultural awareness in interpersonal, interpretive and presentational modes of communication.

Prerequisite(s): KORE 250; Appropriate Placement Score; or Permission of Instructor.
Notes: Taught in Korean.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Latin (LATN)

Offered by the College of Humanities and Social Sciences.

Placement: See Academic Testing in the Admissions section.
LATN 101 - Elementary Latin

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Introduction including basic grammar, vocabulary, and development of reading skills, and introduction to Roman civilization.

Notes: Must be taken in sequence.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LATN 102 - Elementary Latin

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Introduction including basic grammar, vocabulary, and development of reading skills, and introduction to Roman civilization.

Notes: Must be taken in sequence.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LATN 201 - Intermediate Latin I

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Intensive review of elementary grammar. Introduces more advanced grammatical constructions and patterns of usage, continued development of reading proficiency, and vocabulary and readings in Latin literature.

Prerequisite(s): LATN 102 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LATN 202 - Intermediate Latin II

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Study of advanced grammatical constructions, vocabulary, and patterns of usage. Reading of selections from Roman authors of late Republic and early Empire, and study of cultural and political backgrounds.
Prerequisite(s): LATN 201 or equivalent.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  

LATN 351 - Roman Prose Literature  
Credits: 3  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
Introduces major work of prose, themes, and literary qualities. Emphasizes interpretation and stylistic analysis. Concentrates on one complete work; topics, authors vary.  
Prerequisite(s): LATN 202 or equivalent.  
Notes: Readings in Latin. May be repeated for a maximum of 6 credits when topic is different.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  

LATN 352 - Roman Poetry  
Credits: 3  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
Introduces major work of poetry and themes, meters, and poetic techniques. Emphasizes interpretation, metrical and stylistic analysis, and poet's role in society. Topics and authors vary.  
Prerequisite(s): LATN 202 or equivalent.  
Notes: Readings in Latin. May be repeated for a maximum of 6 credits when topic is different.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  

LATN 451 - Studies in Roman Literature  
Credits: 3  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
Focuses on a single Latin author or literary genre. Approaches subject from variety of interpretive perspectives, and uses secondary literature as well as primary texts. Topics and authors vary.  
Prerequisite(s): LATN 351/352 or equivalent, or permission of instructor.  
Notes: Readings in Latin. May be repeated for a maximum of 6 credits when topic is different.
LATN 452 - Studies in Roman Literature

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Focuses on a single Latin author or literary genre. Approaches subject from variety of interpretive perspectives, and uses secondary literature as well as primary texts. Topics and authors vary.

Prerequisite(s): LATN 351/352 or equivalent, or permission of instructor.
Notes: Readings in Latin. May be repeated for a maximum of 6 credits when topic is different.

Latin American Studies (LAS)

Offered by the College of Humanities and Social Sciences

LAS 300 - Latin American Studies: Interdisciplinary Perspectives

Credits: 3
Not Repeatable for Credit
Offered by Latin American Studies
Interdisciplinary introduction to Latin American Studies. Examines the region's history, culture, and societies, as well as the different approaches, methodologies, and concepts related to the study of Latin America. Focuses on the experiences that shaped Latin America as a region, how the region impacts and is impacted by globalization, and on Latino/as in the United States.

LAS 490 - Internship

Credits: 1-6
Repeatable within Degree for Credit
Offered by Latin American Studies
Approved work-study programs in cooperation with specific organizations including area museums, NGOs, and local, state and federal agencies.

Prerequisite(s): Latin American studies majors with permission of director.
Notes: Credit determined by program. May be repeated for a maximum of 9 credits.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

LAS 491 - Directed Reading for Honors in Latin American Studies

Credits: 3
Not Repeatable for Credit
Offered by Latin American Studies
Directed readings on specialized topic in Latin American Studies.

Prerequisite(s): admission to Latin American studies honors program.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LAS 498 - Study Abroad

Credits: 1-6
Repeatable within Degree for Credit
Offered by Latin American Studies
Study abroad.

Notes: May be repeated for a maximum of 6 credits with permission of department.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

LAS 499 - Research Seminar in Latin American Studies

Credits: 3
Not Repeatable for Credit
Offered by Latin American Studies
Research on specialized topic in Latin American Studies culminating in substantial paper and oral presentation. Students expected to integrate knowledge and skills acquired in Mason Core courses.

Fulfills Mason Core requirement in synthesis.

Fulfills writing intensive requirement in the major.

Prerequisite(s): 90 credits.

Notes: Must receive passing grade to graduate with a BA in Latin American studies.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Linguistics (LING)

Offered by the College of Humanities and Social Sciences

LING 306 - General Linguistics

Credits: 3
Not Repeatable for Credit
Offered by English

Fulfills Mason Core requirement in social and behavioral science.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 307 - English Grammar

Credits: 3
Not Repeatable for Credit
Offered by English
Overview of grammatical structure of English including word classes, phrases, and complex sentences. Analyzes English grammar using modern syntactic theory. Students engage in language description through problem solving.

Equivalent to ENGH 307.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 450 - Introduction to Sociolinguistics

Credits: 3
Not Repeatable for Credit
Offered by English
Overview of the study of language variation and change. Topics to be covered include the interaction between language and social factors (age, sex, social class), dialects of English, speech communities, language contact, and language and gender.
LING 480 - First Language Acquisition

Credits: 3
Not Repeatable for Credit
Offered by English
Examines first language acquisition from a linguistic perspective. Covers the development of a first phonology, syntax, and semantics. Methodology in studying child language is discussed.

Prerequisite(s): LING 306.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

LING 485 - Semantics and Pragmatics

Credits: 3
Not Repeatable for Credit
Offered by English
Developments in theoretical linguistics that explore how language form is related to meaning and context. Topics include reference, lexical semantics, logic, quantification, truth conditions and sentential meaning, presuppositions, and speech acts.

Prerequisite(s): LING 306.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 486 - Syntax I

Credits: 3
Not Repeatable for Credit
Offered by English
Nature and form of syntactic theory, and examination and analysis of the properties of several major natural language syntactic structures.

Prerequisite(s): LING 306.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
LING 490 - Generative Phonology

Credits: 3
Not Repeatable for Credit
Offered by English
Sound systems of English and other languages from perspectives of phonological theory. Topics include articulatory phonetics, distinctive features, nature of phonological representations, rhythm and stress, and phonological universals and constraints.

Prerequisite(s): LING 306.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 499 - Independent Study

Credits: 1-3
Repeatable within Degree for Credit
Offered by English
Intensive study of particular theoretical problem in linguistics conducted by student in close consultation with instructor. Student produces substantial piece of written work on research findings.

Prerequisite(s): LING 326 and 3 other LING credits, and permission of instructor.
Notes: May be repeated for a maximum of 6 credits with permission of instructor.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 507 - Field Work in Applied Linguistics

Credits: 3
Repeatable within Degree for Credit
Offered by English
Field work providing working experience in language-teaching program or educational research organization.

Prerequisite(s): LING 326, 520, 521, or 582.
Notes: Contact the department one semester prior to enrollment. May be repeated for a maximum of 6 credits.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 520 - Introduction to Linguistics

Credits: 3
Not Repeatable for Credit
Offered by English
Introduces terminology and methodology of modern linguistic science, and detailed structural analysis of English phonology, morphology, and syntax.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 521 - Applied Linguistics: Teaching English as a Second Language

Credits: 3
Not Repeatable for Credit
Offered by English
Theories and basic principles of teaching a second language, especially as they relate to English language. Introduces students to methods of teaching English to speakers of other languages.

Prerequisite(s): LING 306, 520, 690, or 786.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 522 - Modern English Grammar

Credits: 3
Not Repeatable for Credit
Offered by English
Overview of structure of modern English beginning with word classes and ending with analyses of complex sentences. Most topics introduced as problems of language description; in solving them, principles of syntactic argumentation are demonstrated. Students learn to tap intuitions about English to analyze grammatical structure.

Prerequisite(s): One course in linguistics, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 523 - English Phonetics

Credits: 3
Not Repeatable for Credit
Offered by English
In-depth description and analysis of sound system processes of modern English. Topics include segmental phonetics, syllable structure, connected speech, and prosodic phenomena. Also addresses implications for language instruction.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
LING 525 - Practicum in ESL

Credits: 3
Not Repeatable for Credit
Offered by English
Involves preparation and presentation of lessons to adult English as second language (ESL) learners under guidance of mentor teacher and practicum professor. Field experience consists of observation and teaching in assigned ESL classroom.

Prerequisite(s): LING 521
Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

LING 580 - First Language Acquisition

Credits: 3
Not Repeatable for Credit
Offered by English
Examines first language acquisition from a linguistic perspective. Covers the development of a first phonology, syntax, and semantics. Methodology in studying child language is discussed.

Prerequisite(s): LING 520 or one of the following: LING 690, 786, 785, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

LING 581 - Psycholinguistics

Credits: 3
Not Repeatable for Credit
Offered by English
Study of mental and psychological aspects of human language, including aphasia, association, autism, language acquisition, verbal concept formation, and perception.

Prerequisite(s): LING 520, 690, or 786; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 582 - Second Language Acquisition
LING 650 - Introduction to Sociolinguistics

Credits: 3
Not Repeatable for Credit
Offered by English
An overview of the study of language variation and change. Topics to be covered include the interaction between language and social factors (age, sex, social class), dialects of English, speech communities, language contact, and language and gender.

Prerequisite(s): LING 520, 523, or 690.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 686 - Special Topics in Linguistics

Credits: 3
Not Repeatable for Credit
Offered by English
Detailed advanced study of selected area of linguistics.

Prerequisite(s): Varies with topic.
Notes: Content varies. May be repeated once for credit with permission of department.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 690 - Generative Phonology

Credits: 3
Not Repeatable for Credit
Offered by English
Sound systems of English and other languages from the perspective of phonological theory. Topics include articulatory phonetics, distinctive features, nature of phonological representations and processes, rule ordering, abstractness, role of external evidence, and nonlinear phonology.
LING 691 - Theories of Language

Credits: 3
Not Repeatable for Credit
Offered by English
Seminar in linguistic metatheory. Examines wide range of theories about language and linguistic theory, including those of Saussure, Bloomfield, Chomsky, and others. Readings from original sources.

Prerequisite(s): LING 520, 690, or 786; or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 692 - Phonology II

Credits: 3
Not Repeatable for Credit
Offered by English
Recent trends in phonological theory. Topics include stress assignment, tone spreading, and vowel harmony, from within nonlinear framework. Discusses segmental structure and underspecification.

Prerequisite(s): LING 690.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 770 - Research Methods

Credits: 3
Not Repeatable for Credit
Offered by English
Conceptualizing and conducting second language research, including process of developing research questions, gathering data, obtaining permission from institutional review board, choosing data collection measures, and coding linguistic and nonlinguistic data.

Prerequisite(s): LING 582 and one of LING 690, 785, or 786; or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 782 - Second Language Acquisition II
Advanced course in second-language acquisition theory. Detailed analysis of internal and external constraints. Variation addressed from linguistic, psychological, and environmental perspectives.

Prerequisite(s): LING 582 or permission of instructor.
Schedule Type: LEC
Hours of Lecture per week: 3
Hours of Lab or Studio per week: 0

LING 785 - Semantics and Pragmatics

Developments in theoretical linguistics that explore how language form relates to meaning and context. Topics include reference, lexical semantics, logic, quantification, truth conditions and sentential meaning, presuppositions, and speech acts.

Prerequisite(s): LING 520, 690, or 786; or permission of instructor.
Schedule Type: LEC
Hours of Lecture per week: 3
Hours of Lab or Studio per week: 0

LING 786 - Syntax I

Nature and form of syntactic theory. Examines and analyzes properties of several major natural language syntactic structures.

Schedule Type: LEC
Hours of Lecture per week: 3
Hours of Lab or Studio per week: 0

LING 787 - Syntax II

Theoretical treatment of syntactic phenomena that have emerged as standard problems for syntactic analysis. Problems include binding, extraction, and quantification. Extensive reading in primary theoretical literature.

Prerequisite(s): LING 786.
Schedule Type: LEC
Hours of Lecture per week: 3
Hours of Lab or Studio per week: 0
LING 788 - Semantics and Pragmatics II

Credits: 3
Not Repeatable for Credit
Offered by English
Advanced course in semantic and pragmatic theory. Study of meaning under truth-conditional, model-theoretic framework explored and related to syntax and pragmatics.

Prerequisite(s): LING 785 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 798 - Directed Reading and Research

Credits: 1-3
Repeatable within Degree for Credit
Offered by English
Reading, research, and writing on specific project under direction of departmental member.

Prerequisite(s): 18 credits of linguistics courses.
Notes: Open only to students who have completed at least 18 credits of LING courses. Prior approval by faculty member required. Written report required. May be repeated for a maximum of 6 credits with permission of director.

Schedule Type: IND
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
Grading: Graduate Special

LING 799 - Thesis

Credits: 1-6
Repeatable within Degree for Credit
Offered by English
Students who take LING 798 to develop thesis topic and then elect thesis option receive 3 credits after completing thesis. Students who do not take LING 798, or who take it to work on project unrelated to thesis, receive up to 6 credits after completing thesis.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

LING 882 - Seminar in Language Acquisition
LING 886 - Advanced Syntax Seminar

Credits: 3
Repeatable within Term for Credit
Offered by English
Advanced course in current syntactic theory.

Prerequisite(s): LING 786, LING 787, or permission of instructor.
Notes: Topics vary. May be repeated for a maximum of 9 credits.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 890 - Advanced Phonology Seminar

Credits: 3
Repeatable within Term for Credit
Offered by English
Advanced topics seminar in current phonological theory.

Prerequisite(s): LING 692 or permission of instructor.
Notes: Topics vary. May be repeated for a maximum of 9 credits.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

LING 897 - Independent study

Credits: 3
Repeatable within Degree for Credit
Offered by English
Independent reading on a topic agreed on by student and faculty member.
**Prerequisite(s):** PhD rank or permission of instructor.

**Notes:** May be repeated

**Schedule Type:** IND
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**LING 898 - Advanced Qualifying Seminar**

Credits: 3  
Repeatable within Term for Credit  
Offered by English  
Work on PhD qualifying paper.

**Prerequisite(s):** Completion of 33 credits of core courses in linguistics.

**Notes:** May be repeated for a maximum of 6 credits.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**LING 998 - Doctoral Dissertation Proposal**

Credits: 1-6  
Repeatable within Degree for Credit  
Offered by English  
Work on research proposal that forms basis for the doctoral dissertation.

**Prerequisite(s):** Advancement to candidacy.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 0  
**Grading:** S/NC

**LING 999 - Doctoral Dissertation**

Credits: 1-12  
Repeatable within Degree for Credit  
Offered by English  
Doctoral dissertation research and writing under direction of student's dissertation committee.

**Prerequisite(s):** Completion of LING 998.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 0  
**Grading:** S/NC
Management (MGMT)

Offered by the School of Business.

If a student takes noncore, upper-level business courses before admission to the School of Business, those courses will not count on an undergraduate degree application for any major in the school, except as general elective credit. A grade of C or higher must be presented on the graduation application for each upper-level course in the major. Course prerequisites are strictly enforced. Degree status is defined as formal admission to BS degree status in the School of Business.

MGMT 301 - People and Organizations

Credits: 3
Limited to 3 Attempts
Offered by School of Business

Explores how individuals behave in the workplace, and how group and organizational structures affect behavior. Builds managerial skills required for working with and through others to reach organizational goals. Topics include individual differences, groups and teams, managing conflict, organizational ethics, culture, diversity, influence, leadership, and motivational theories and techniques. The course format provides opportunities to discuss and apply concepts.

School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MGMT 301. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

Equivalent to MGMT 313.

Prerequisite(s): Sophomore standing.
Notes: Students cannot receive credit for both MGMT 301 and MGMT 313. This course will not meet School of Business requirements for students with a catalog year Fall 2015 or forward.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

MGMT 303 - Principles of Management

Credits: 3
Limited to 3 Attempts
Offered by School of Business

Examines managerial work under range of business models and rapidly changing business conditions. Managerial functions and activities including planning, organizing, balancing conflicting demands, leading and controlling are examined in depth and in context of current organizational examples. Discuss variety of pressures contemporary managers face; clients and competitors, leaders above and colleagues that report to you, organizational demands and personal goals.

Prerequisite(s): Grade of C or higher in each of the following courses:
BUS 103 and BUS 200 are strongly recommended.

The following courses are required:
ACCT 203 or ACCT 204
BUS 100 or SOM 100
MATH 108 or MATH 113 or MATH 114 or HNRT 225.
Degree status.
Prerequisite(s) enforced by registration system.

Notes: Students cannot receive credit for both MGMT 301 and MGMT 303.

School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MGMT 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

This course will not meet School of Business requirements for students with a catalog year before Fall 2015.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MGMT 312 - Principles and Practices of Management

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Builds on fundamental theories and concepts learned in MGMT 301 by examining the nature of managerial work under a range of business models and under rapidly changing business conditions. Managerial functions and activities such as planning, strategizing, organizing, controlling, and directing are examined in depth and in the context of current organizational examples and scenarios.

Prerequisite(s): C or higher in MGMT 301 and degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MGMT 313 - Organizational Behavior

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Course expands management knowledge through defined focus on organizational behavior (OB). OB is field of study aimed at predicting, explaining, understanding and changing human behavior as it's reflected in organizations. Science of OB is interdisciplinary in nature and draws from psychology, sociology, social psychology, and group dynamics. Course explores
dynamics between individual and organization through this behavioral science lens.

Fulfills writing intensive requirement in the major.

Equivalent to MGMT 301.

**Prerequisite(s):** Grade of C or higher in MGMT 303. Degree status. Prerequisite(s) enforced by registration system.

**Notes:** Students cannot receive credit for both MGMT 301 and MGMT 313.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Summer, Spring

---

**MGMT 321 - Introduction to Human Resource Management**

Credits: 3

Not Repeatable for Credit

Offered by School of Business

The field of human resource management examines what can or should be done to make workers more productive and satisfied. The course builds on MGMT 301 by introducing key concepts and techniques that managers need to attract, retain, develop, compensate, and motivate quality talent. Also emphasizes legal and ethical considerations in human resource management.

**Prerequisite(s):** Grade of C or higher in MGMT 301 or MGMT 303, degree status. Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring

---

**MGMT 412 - Diversity in Organizations**

Credits: 3

Not Repeatable for Credit

Offered by School of Business

Builds on MGMT 303 by emphasizing intrapersonal, interpersonal, organizational, and societal phenomena relevant to issues of diversity. Examines phenomena and processes in general and with regard to specific dimensions such as gender, race, and ability. Designed to increase students' knowledge of diversity in organizations, understanding of others' perspectives, and ability to work well with people who differ from themselves.

**Prerequisite(s):** Grade of C or higher in MGMT 301 or MGMT 303, degree status. Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3
MGMT 413 - Organizational Development and Management Consulting

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Introduces theory and practice of organization development. Assumes some basic knowledge of organizational behavior, and addresses how to use knowledge about organizations to change them. Focuses on ways of understanding organizations with attention to theoretical underpinnings of field and diagnostic models, and processes for entering organizations. Later sessions focus on contracting, data collection, organizational diagnosis, data feedback, and change technologies.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303, degree status. 
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

MGMT 421 - Advanced Human Resource Management

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Builds on MGMT 321 by using a case-based approach to deepen understanding of HRM practices. Students conduct projects requiring application of strategic HR processes. Includes discussion of advanced topics not thoroughly covered in MGMT 321. Relevant for management majors, particularly those seeking a human resource management career. Helps prepare for SHRM Professional in Human Resources certification exam.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303 and MGMT 321, degree status. 
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

MGMT 431 - The Legal Environment for Employee and Labor Relations

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Examines the legal aspects of employee and labor relations from a managerial perspective. Topics include the employment at will doctrine; wrongful discharge; federal and state employment discrimination legislation; and regulation of employee welfare. Includes lectures, cases, readings.
Prerequisite(s): Grade of C or higher in BULE 302 or BULE 303, degree status. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MGMT 441 - International Strategy

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Course focuses on seven inter-related pillars underpinning international strategy and these areas are: global environment and marketplace, global competitiveness and manufacturing including role of USA, global macroeconomics and financial infrastructure, global management approaches and management of transnational firms, new forces that shape global strategy, and globalizations lessons learned and its limitations.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303. Degree status. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MGMT 451 - Introduction to Entrepreneurship

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Provides students an introduction to key concepts, methods, and frameworks of innovation and entrepreneurship. The experiential component of the course will be supplemented by readings, written work and presentations, and classroom discussion. The course will explore and explain the importance of entrepreneurship, entrepreneurs, and their firms in addition to allowing students to experiment with various entrepreneurial concepts and activities.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303, degree status. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MGMT 452 - Experiential Entrepreneurship
Not Repeatable for Credit
Offered by School of Business
Provides students opportunity to experience entrepreneurship at advanced level through hands on development of a new firm, product or service. Students identify an innovative opportunity to work on or will work with local startup or organization developing innovative new product or service. Focuses on opportunity recognition and execution and introduces students to day to day experience of innovators and entrepreneurs.

Prerequisite(s): Grade of C or higher in MGMT 451, MBUS 304 or IT 495.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MGMT 453 - Starting a Business

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Examines the paths to small business ownership, including starting an enterprise or purchasing an existing business. Focus will be on franchising and licensing, as well as family-run enterprises. Students will gain a broad understanding of location choice, facilities and layout, in addition to the legal issues associated with small business creation. Harvesting and exiting options will also be explored.

Prerequisite(s): MGMT 301, MGMT 303, MBUS 304 or IT 495.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MGMT 461 - Cross Cultural and Global Management

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Explores theory and practice of managing culturally diverse organizations in domestic and international contexts. Topics include management customs and practices in different world regions, cross-cultural communication and learning, and the developing culturally and internationally sophisticated employees and managers.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303, degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
MGMT 462 - Honors Seminar in Management (Topic Varies)

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Topic and format vary. In-depth study of topic of interest to managers and organizations.

Prerequisite(s): Invitation by professor.
Notes: Enrollment limited and competitive.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MGMT 463 - Negotiations in Organizations

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Focuses on theory, processes, and practice of negotiation within and across organizations, including attention to ethical issues.
Explores systematic ways to increase quality of negotiated agreements, including methods of preparation and use of rational assumption, bidding and decision criteria. Format includes negotiation exercises, lecture, and discussion.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303, degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MGMT 464 - Teamwork and Interpersonal Skills

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Focuses on intensive development of high professional-level skill set for collaboration and leadership in contemporary environments. Builds on content introduced in MGMT 301, 312. Attention to developing personal leadership capabilities, collaborating in traditional and virtual environments, improving group processes, project management, tolerating ambiguity, improving communication, creative problem solving, time management, coaching, and empowering employees.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303, degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
MGMT 471 - Competitive Strategy

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Explores industry structures and competitive behavior of firms. Attention to how firm uses tangible, intangible, and human resources to develop sustainable competitive advantage, and how competitors interact in marketplace. Introduces tools and concepts to analyze industry dynamics and competitive interactions of firms in these industries.

Prerequisite(s): Grade of C or higher in MGMT 301 or MGMT 303, degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MGMT 491 - Current Topics in Management

Credits: 3
Repeatable within Degree for Credit
Offered by School of Business
Advanced study of management concepts and selected topics. Incorporates intensive analysis of management problems of long-term strategic significance or current urgency for organizational planning and operations. Includes significant contemporary research findings.

Prerequisite(s): Grade of C or higher in MGMT 312 or MGMT 313, degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MGMT 499 - Independent Study

Credits: 1-3
Repeatable within Term for Credit
Offered by School of Business
Research and analysis of selected problems or topics in management must be arranged with instructor and approved in writing by associate dean for undergraduate programs.

Prerequisite(s): Management majors with at least 9 upper-level management credit hours.
Notes: Written report required.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Management Information Systems (MIS)

Offered by the School of Business.

If a student takes noncore, upper-level business courses before admission to the School of Business, those courses will not count on an undergraduate degree application for any major in the school, except as general elective credit. A grade of C or higher must be presented on the graduation application for each upper-level course in the major. Course prerequisites are strictly enforced. Degree status is defined as formal admission to BS degree status in School of Business.

MIS 102 - Spreadsheet Applications for Business

Credits: 1
Not Repeatable for Credit
Offered by School of Business
Hands-on course using popular spreadsheet package. Business examples used to teach fundamentals of spreadsheets and their use in business applications.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 1
Grading: S/NC
When Offered: Fall, Spring, Summer

MIS 301 - Introduction to Business Information Systems

Credits: 3
Limited to 3 Attempts
Offered by School of Business

Introduces fundamentals of hardware, software, and networking. Emphasizes role of technology in improving contemporary business processes and competitive advantage. Includes basic relational concepts, hands-on experience in building business database applications and decision support using spreadsheet software.

School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MIS 301. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies

Equivalent to MIS 303.

Prerequisite(s): Sophomore standing.
Notes: Projects required.
Students cannot receive credit for both MIS 301 and MIS 303.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer
MIS 302 - Introduction to Programming for Business Applications

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Covers design and implementation of program data structures and algorithms to solve business problems using structured programming techniques. Students become familiar with program development life cycle using standard programming language such as Visual BASIC.NET supported by a modern Integrated Development Environment (IDE). Students complete assignments involving development of real-life business application.

Prerequisite(s): Degree status.  
Notes: IT 108 highly recommended but not required.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

MIS 303 - Introduction to Business Information Systems

Credits: 3  
Limited to 3 Attempts  
Offered by School of Business  
Introduces fundamentals of hardware, software, and networking. Emphasizes role of technology in improving contemporary business processes and competitive advantage. Includes basic relational concepts, hands-on experience in building business database applications and decision support using spreadsheet software.

Fulfills Mason Core requirement in information technology (all).

Equivalent to MIS 301.

Prerequisite(s): Degree status.  
Notes: Students cannot receive credit for both MIS 301 and MIS 303.

School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MIS 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MIS 310 - Database Management Systems

Credits: 3  
Not Repeatable for Credit
Offered by School of Business
Introduces principles of designing and manipulating relational databases with a focus on business applications. Theoretical database concepts and hands-on experience with a relational package. Term project requiring implementation of a substantial business database application.

Prerequisite(s): Grade of C or higher in MIS 301 or MIS 303. Degree status. Prerequisite(s) enforced by registration system.

Notes: School of Business students may not receive credit for both MIS 310 and IT 214. Requires hands-on implementation using software package.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

MIS 320 - Networks and Security

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Introduces students to fundamentals of networking technologies and their role in businesses. Emphasis is on understanding the business implications of different networking technologies and solutions. Students learn to identify and understand the business requirements, and bring together the different technological components to design the required communication solutions. Also focuses on the types of security threats to the business network infrastructure, and approach to tackling such threats through business practices combined with appropriate technological solutions.

Prerequisite(s): Grade of C or higher in MIS 301 or MIS 303, degree status. Prerequisite(s) enforced by registration system.

Notes: The course also includes lab work and exercises.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MIS 330 - Systems Analysis and Design

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Understanding systems analysis and design methods is a necessary skill for contemporary business analysts, managers, software engineers and system users. Provides students with the foundations for effectively using modern systems analysis and design tools and methodologies for developing modern software and applications. Topics include systems planning and feasibility analysis, requirements analysis, economics, systems design and project management.

Fulfills writing intensive requirement in the major.
Prerequisite(s): C or higher in MIS 310, degree status. Programming course recommended. Prerequisite(s) enforced by registration system.

Notes: Requires team project.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

MIS 411 - Management and Control of Information Systems

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Managerial perspective on issues arising in managing information systems through their life-cycle. The topics include using different methodologies for estimating software development costs, maintenance costs, systems project management, and pricing information products and services. The course also covers methodologies for monitoring performance of information systems, and ways for assessing the strategic and business value of use of information technology.

Prerequisite(s): Grade of C or higher in MIS 301 or MIS 303, degree status. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MIS 412 - E-Business Systems Development

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Introduces students to the development of web-based information systems for E-business. Students learn to develop web-based database applications for eCommerce using ASP.NET. Also covers Web 2.0 technologies and contemporary business trends and issues related to web application development. Emphasizes technologies, methods, and application development tools.

Prerequisite(s): Grade of C or higher in MIS 301 or MIS 303, degree status. Prerequisite(s) enforced by registration system.

Notes: Requires team project and computer lab.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
MIS 430 - Data Warehousing

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Deals with the challenges faced by businesses in managing large amounts of data and making meaningful use of this data for informed decision making. Introduces students to data warehousing fundamentals, practices, and technologies; and their application to solving business problems. Specific emphasis is on designing of data warehouse to meet the business requirements and hands-on learning of the design principles through implementation on commercially used data warehouse technologies. Also introduces students to OLAP solutions and data mining approaches to supporting business decision making.

Prerequisite(s): C or higher in MIS 310, degree status.
Prerequisite(s) enforced by registration system.

Notes: Term project required.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MIS 431 - Data Mining for Business Applications

Credits: 3
Not Repeatable for Credit
Offered by School of Business
This course covers data mining methods and tools for business analytics to improve managerial decision making. The objective is to understand data mining methods and their suitability for decision making in a variety of business domains. The students will learn how to apply appropriate analytical tools to gain useful insights from real-life datasets.

Prerequisite(s): MIS 301 or MIS 303; AND BUS 310 or OM 210 or OM 211.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MIS 435 - Knowledge Management

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Focuses on new trends on how knowledge management works for organizations, best strategy for such transition, and what are knowledge management elements.

Prerequisite(s): C or higher in MIS 310, degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
MIS 440 - E-Commerce Business Models and Applications

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Introduces students to business models used in E-commerce and E-business. Covers B2B, B2C, and C2C business models and also introduces current business trends of the Web 2.0 era and the core concepts of the information economy, networked business models, and the social web. The class will discuss Blogging, Wikis, Social Networks, Information Goods, and E-Tailing. Students complete a group project in which they create a business plan for a viable Internet-based business.  

Prerequisite(s): C or higher in MIS 310, degree status.  
Prerequisite(s) enforced by registration system.  

Notes: Requires a term project.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

MIS 462 - Honors Seminar in Management Information Systems (Topic Varies)

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Topic and format vary. In-depth study of a topic in the area of information technology management. Enrollment limited and competitive.  

Prerequisite(s): Senior standing, ISOM (or DMIS) major, senior standing; permission of department.  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

MIS 491 - Seminar in Management Information Systems

Credits: 3  
Repeatable within Term for Credit  
Offered by School of Business  
Analyzes selected topics that highlight latest developments in information resource management field, including contemporary research findings and case studies of information systems in business and other organizations.  

Prerequisite(s): Grade of C or higher in MIS 301 or MIS 303, degree status.  
Prerequisite(s) enforced by registration system.
MIS 499 - Independent Study in Management Information Systems

Credits: 1-3
Repeatable within Term for Credit
Offered by School of Business
Research and analysis of selected problems or topics in information resource management.

Prerequisite(s): Grade of C or higher in MIS 301 or MIS 303, degree status.
Prerequisite(s) enforced by registration system.

Management of Secure Information Systems (MSEC)

Offered by Volgenau School of Engineering

MSEC 510 - Foundations of Cyber Security

Credits: 2
Not Repeatable for Credit
Offered by School of Business
Provides an overview of the introductory topics in cyber security, which will be the basis for the other security-related in the MSIS. Topics include basic concepts on CIA (confidentiality, integrity, and availability), risk management, disaster recovery, access control, basic cryptography and software application vulnerabilities.

Prerequisite(s): Admission to the Executive MS in Management of Secure Information Systems.
Notes: 4 class sessions will be 3.5 hours long.
1 class session will be 2 hours and 20 minutes long.
(5 classes; 16 hours and 20 minutes total)

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

MSEC 511 - Security Practices in the Enterprise
MSEC 510 - Information Security

Credits: 2
Not Repeatable for Credit
Offered by School of Business
Provides the practices and methods currently used by information security professionals to manage and operate the secure IT infrastructures in the enterprise industry and in the US Federal Sector. It covers tools and knowledge required to design, execute, and/or evaluate the INFOSEC standards and procedures required of government and industry. The topic includes security operation center (SOC), network security, malware countermeasures, operational systems security, risk analysis and incident response practices.

Prerequisite(s): MSEC 510.
Notes: 4 class sessions will be 3.5 hours long.
1 class session will be 2 hours and 20 minutes long.
(5 classes; 16 hours and 20 minutes total)

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

MSEC 520 - Networking Principles

Credits: 2
Not Repeatable for Credit
Offered by School of Business
Introduction to the principles guiding the design and operation of modern communication networks; using the structure provided by layered service models, this course explores systematically the architecture and protocols of large, decentralized networks. Topics include medium access control in local area networks, switching, routing, and addressing, reliable and secure transport, flow and congestion control. Throughout, examples are drawn from the suite of Internet protocols.

Prerequisite(s): Admission to the Executive MS in Management of Secure Information Systems.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall

MSEC 620 - Networking Security

Credits: 2
Not Repeatable for Credit
Offered by School of Business
Provides a comprehensive introduction to network security concepts and problems and the mechanisms and tools to secure networks. Focuses on the Internet; discusses the threats to and from the Internet and examines existing Internet security techniques and protocols and their limitations. Topics include secret key and public key cryptography, Hash algorithms, authentication, IPSEC/VPN, IPSEC key exchange, SSL/TLS, firewall, anonymous communication, and VoIP security.

Prerequisite(s): MSEC 510 and 520.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
MSEC 630 - Secure Information System Governance, Regulation, and Compliance

Credits: 2
Not Repeatable for Credit
Offered by School of Business
Provides insight into secure information system governance, regulations, and compliance including noteworthy legislation, regulations, and compliance issues as well as commonalities and significant differences between departments and agencies within the Federal Executive Branch (FEB). The course is presented as formal lectures complemented by group discussion. Each topic is addressed as part of the larger Secure Information System structure.

Prerequisite(s): MSEC 510
Notes: 4 class sessions will be 3.5 hours long.
1 class session will be 2 hours and 20 minutes.
(5 total class sessions; 16 hours and 20 minutes total).

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

MSEC 641 - Enterprise Security Threats

Credits: 1
Not Repeatable for Credit
Offered by School of Business
Provides a broad exposition of emerging cyber-security threats for large-scale enterprises: Denial of Service (DoS), insider attacks, remote exploitation. It covers defenses that may mitigate or curtail some aspects of these emerging security threats.

Prerequisite(s): MSEC 511.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

MSEC 642 - Enterprise Security Technologies

Credits: 2
Not Repeatable for Credit
Offered by School of Business
Provides an overview of enterprise security tools used in advanced security IT departments of enterprises today. In addition to understanding the tools, their capabilities, and their gaps, students participate in hands-on laboratory exercises with enterprise security tools.

Prerequisite(s): MSEC 511.
Notes: 4 class sessions will be 3.5 hours long.
1 class session will be 2 hours and 20 minutes long.
(5 class sessions; 16 hours 20 minutes total)

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

MSEC 650 - Seminar: Enterprise Security Case Studies

Credits: 1
Not Repeatable for Credit
Offered by School of Business
Provides an exposition of large enterprise security systems including operational requirements, threat model, security analysis, economic analysis, and defense posture options that expose the operational and economic trade-offs when architecting Enterprise security.

Prerequisite(s): MSEC 641.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MSEC 696 - Directed Studies Management of Secure Information Systems

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Business
Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum.

Prerequisite(s): Admission to the MSIS program or permission of the program director.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3

MSEC 697 - Special Topics in Management of Secure Information Systems

Credits: 1-3
Repeatable within Term for Credit
Offered by School of Business
Sections established as necessary to focus on various topical issues that emerge in practice of management of secure information systems.

Prerequisite(s): Admission to the MSIS program or permission of the program director.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
MSEC 710 - Global Residency

Credits: 1-4
Repeatable within Degree for Credit
Offered by School of Business

Students spend a week in an international residency. Emphasis is on how other nations deal with management of secure information system, the management of those systems, and related public policy issues. Corporate site visits are combined with presentations by professors from universities outside the United States and relevant practitioners. Students are required to write a paper summarizing their observations and attend pre-residency preparatory sessions.

Equivalent to TECM 757

Prerequisite(s): Admission to Executive MS in Management of Secure Information Systems.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

MSEC 720 - Capstone Project in Management of Secure Information Systems

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Business

Teams undertake a strategic evaluation and plan for the management of secure information systems. They develop plans that include technical, organizational, and policy aspects. A report is produced and presented to the entire cohort for discussion.

Equivalent to TECM 737

Prerequisite(s): Admission to Executive MS in Management of Secure Information Systems.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Spring, Summer

Marketing (MKTG)

Offered by the School of Business.

If a student takes noncore, upper-level business courses before admission to the School of Business, those courses will not count on an undergraduate degree application for any major in the school, except as general elective credit. A grade of C or higher must be presented on the graduation application for each upper-level course in the major. Course prerequisites are strictly enforced. Degree status is defined as formal admission to BS degree status in School of Business.
MKTG 301 - Principles of Marketing

Credits: 3
Limited to 3 Attempts
Offered by School of Business

Examines marketing principles and practices for analyzing, creating, delivering, capturing, and communicating value to customers. Focuses on managing customer relationships using market-driven strategies, particularly segmentation, targeting, and positioning. The role of customer satisfaction in achieving organizational objectives and ethical decision making in a global economy are also emphasized. School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MKTG 301. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

Equivalent to MKTG 303.

Prerequisite(s): Sophomore standing.
Prerequisite(s) enforced by registration system.

Notes: Students cannot receive credit for both MKTG 301 and MKTG 303.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

MKTG 303 - Principles of Marketing

Credits: 3
Limited to 3 Attempts
Offered by School of Business

Examines marketing principles and practices for analyzing, creating, delivering, capturing, and communicating value to customers. Focuses on managing customer relationships using market-driven strategies, particularly segmentation, targeting, and positioning. The role of customer satisfaction in achieving organizational objectives and ethical decision making in a global economy are also emphasized.

Equivalent to MKTG 301.

Prerequisite(s): C or higher in the following courses: BUS 103 and BUS 200 are strongly recommended.

The following courses are required with a grade of C or higher:
ACCT 203 or ACCT 204
BUS 100 or SOM 100
MATH 108 or MATH 113 or MATH 114 or HNRT 225.

Degree status.
Prerequisite(s) enforced by registration system.

Notes: Students cannot receive credit for both MKTG 301 and MKTG 303.
School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MKTG 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the “Termination from the Major” section under Academic Policies.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**MKTG 311 - Sales Management**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Familiarizes students with marketing-sales interfaces including sales force role and capabilities, personal selling strategies, organizational relationships, and responsibilities of sales managers including training, motivating, and evaluating sales force.

**Prerequisite(s):** Grade of C or higher in MKTG 301 or MKTG 303, degree status.  
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**MKTG 312 - Consumer Behavior**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Marketing strategy implications of internal and external influences on consumer decision making, purchase, and consumption behaviors. Emphasizes demographics, lifestyle, situation, perception, learning, and attitude formation and change, focusing on customer segmentation, satisfaction and loyalty.

**Prerequisite(s):** Grade of C or higher in MKTG 301 or MKTG 303, degree status.  
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**MKTG 313 - Integrated Marketing Communications**

Credits: 3  
Not Repeatable for Credit
Offered by School of Business
Examines development of integrated communications programs, including advertising, sales promotion, public relations, direct marketing, and other communication tools. Focuses on setting communications objectives and budgets, media planning, creative strategy, execution, and evaluation. Provides skills for analyzing the strengths, weaknesses and synergies of marketing communication tools.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303, degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MKTG 315 - Internet Marketing

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Explores impact of Internet technology on marketing strategy and practice. Topics include online advertising campaigns (focusing on search marketing), web site usability and content, and the use of social and interactive media to build customer relationships and foster brand loyalty.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303, degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MKTG 332 - Retailing and E-Commerce Management

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Examination of retailing as a specialized economic and social institution within the distribution process and as it relates to overall marketing activities. The planning and implementing of store and nonstore (catalog, Internet) retail marketing strategies are addressed. Critical decision alternatives, variables, forces, and processes are considered from a managerial perspective.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303, degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
**MKTG 333 - Business to Business Marketing**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Examines unique challenges and opportunities of marketing systems among suppliers, manufacturers, resellers, and government. Focuses on developing a capability to identify and nurture long-term B2B relationships. Provides tools and techniques commonly leveraged by B2B marketers to develop these relationships with their clients.

**Prerequisite(s):** Grade of C or higher in MKTG 301 or MKTG 303. Degree status.  
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring, Summer

---

**MKTG 351 - Marketing Research Techniques and Applications**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Presents the concepts and techniques underlying the marketing research process and their role in managerial decision making. Focuses on skills required to conduct a marketing research project: qualitative and quantitative research designs, survey methodology, instrument creation, sampling procedures, data collection, data analysis, and reporting of findings.

**Prerequisite(s):** Grade of C or higher in OM 210 or OM 211 or BUS 310, and MKTG 301 or MKTG 303. Degree status.  
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**MKTG 352 - Marketing Analytics for New Product Development**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
In today's technology-enabled world, organizations collect lot of information as a part of their business operations and pool it with data acquired from outside sources. Marketing analytics is a systematic approach to harnessing this data/information to drive effective marketing decision making. Students will learn to analyze historical data, market research data, and competitive information for making strategic marketing decisions.

**Prerequisite(s):** MKTG 301 or MKTG 303, or MBUS 303; AND BUS 310 or STAT 350.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring
MKTG 353 - New Product Development

Credits: 3
Not Repeatable for Credit
Offered by School of Business
This course focuses on all aspects of the new product and new service development process, from insight and inspiration through design and product launch. The course also explores current topics and best practices in innovation management, such as open innovation, managing creativity in organizations, and product design, and rapid prototyping.

Prerequisite(s): MKTG 301 or MKTG 303, or MBUS 303.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MKTG 407 - International Marketing

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Multidisciplinary approach to international marketing from viewpoint of business management. Examines major marketing issues affecting companies operating in a global environment. Students achieve understanding of economic, political, and cultural differences among nations as they affect marketing opportunities and operations, and develop skills to identify and evaluate international marketing opportunities.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303. Degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MKTG 455 - Ethnic and Multicultural Marketing

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Ethnic and Multicultural Marketing examines the critical marketing issues and opportunities that have arisen with the changing U.S. demographics. The focus is domestic markets. The growth in minority populations indicates a need for specialized approaches for the entire marketing mix. Segmentation can be powerful when considering non-mainstream markets if the marketer understands and capitalizes on the different approaches cultural and ethnic groups use as consumers.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303. Degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
MKTG 462 - Honors Seminar in Marketing (Topic Varies)

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Topic and format vary. In-depth study of topic of interest to managers and organizations.

Prerequisite(s): Degree status in MKTG major; senior standing; permission of department.
Notes: Enrollment limited and competitive.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MKTG 471 - Marketing Management

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Emphasizes managerial aspects of marketing, including developing marketing strategies and plans, and integrating specific elements of marketing process. Emphasizes case analysis.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Senior standing; C or higher in MKTG 312 and 351; degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

MKTG 481 - RS: Marketing in the Nonprofit Sector

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Examines the unique challenges of applying marketing principles and practices to not-for-profit groups such as human service and philanthropic organizations, museums, health and wellness advocates, educational institutions, industry associations and government. Emphasis on case studies, team work, and projects.

Designated as a research and scholarship intensive course.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303. Degree status.
MKTG 491 - Seminar in Marketing

Credits: 3
Repeatable within Term for Credit
Offered by School of Business
In-depth treatment in seminar format of contemporary topics in marketing. Culminates in preparation of substantial paper and oral presentation.

Prerequisite(s): Grade of C or higher in MKTG 301 or MKTG 303. 9 credits of marketing. Degree status.
Prerequisite(s) enforced by registration system.

MKTG 499 - Independent Study

Credits: 1-3
Repeatable within Term for Credit
Offered by School of Business
Primary research proposal in marketing area. Requires prior approval from instructor and associate dean for undergraduate programs.

Prerequisite(s): 90 credits (senior class standing) and a minimum of 24 credits of business courses, including principles of marketing, finance, and management.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

List of eligible courses fulfilling this requirement.
Mason Core USYN - Synthesis/Capstone

Credits: minimum 3
List of eligible courses fulfilling this requirement.

Mason Core UWC - Western Civilization/World History

Credits: 3
May be repeatable for credit.
List of eligible courses fulfilling this requirement.

Schedule Type: LEC

Mason Core UWCU - Written Communication

Credits: 6
List of eligible courses fulfilling this requirement.

Master of Business Administration (MBA)

Offered by the School of Business.

MBA 603 - Managerial Economics and Decisions of the Firm

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Provides fundamental understanding of applying microeconomics concepts to managerial decision making. Explores principles of microeconomic theory, including market supply and demand, production and cost functions, industry structure, and product and resource pricing.

Prerequisite(s): Admission to the MBA or MSA program or permission of the program director.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall, Spring

MBA 612 - Managing Costs and Evaluating Performance
Credits: 1.5-3
Not Repeatable for Credit
Offered by School of Business
Examines impact of cost and cost allocation on performance and evaluation.

Prerequisite(s): Admission to the MBA or MSA program or permission of the program director.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1.5-3
Hours of Lab or Studio per week: 0
When Offered: Spring, Summer

MBA 613 - Financial Reporting and Decision Making

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Foundation course focusing on economics and analysis of business transactions and related financial reporting issues. Topics include introduction to accounting framework used in financial reporting; and analysis of financial statements, economic events and their impact on financial reports, and impact of accounting methods on financial reports.

Prerequisite(s): Admission to MBA program.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall, Spring

MBA 623 - Marketing Management

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Develops market-based knowledge and skills for effective marketing decision making, strategy design, implementation, and evaluation in wide variety of institutional and competitive situations. Addresses the importance of companies being market-driven and customer-focused. Emphasis on case studies, team work, and projects.

Prerequisite(s): Admission to MBA program.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall, Spring

MBA 633 - Statistics for Business Decision Making
MBA 638 - Operations Management

Credits: 0-3
Repeateble within Degree for Credit
Offered by School of Business
Focuses on design, planning, and control activities to produce and deliver goods and services in modern organizations. Introduces wide range of operations management decisions, such as operations strategy, process analysis and design, capacity planning, supply chain management, total quality management, and project management. Uses quantitative modeling, case studies, and computer software to analyze and solve operations management problems.

Prerequisite(s): Admission to MBA or MSA program.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall, Spring

MBA 643 - Managerial Finance

Credits: 0-3
Repeateble within Degree for Credit
Offered by School of Business
Introduces theory and practice of finance within corporations. Topics include intertemporal choice, valuation, capital budgeting and structure, working capital management, and risk and return analysis.

Prerequisite(s): Admission to the MBA or MSA program or permission of the program director.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall, Spring

MBA 653 - Organizational Behavior
MBA 662 - Management of Information Technology

Credits: 1.5-3
Not Repeatable for Credit
Offered by School of Business

The strategic, economic and managerial aspects of managing an organization's IT assets are covered. The business value of IT is understood and assessed in context of its impact on the organization's structure and strategy. The course includes discussion on major issues pertaining management of IT infrastructure.

Prerequisite(s): Admission to the MBA or MSA program of permission of the program director.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1.5-3
Hours of Lab or Studio per week: 0
When Offered: Spring, Summer

MBA 678 - Strategic Management

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business

Capstone course focusing on strategy development at business unit and corporate level. Cases, readings, and project format familiarize students with strategic management function and help them develop analytical, organizational, and managerial skills to analyze complex business situations. Provides opportunities to integrate knowledge gained in prior course work.

Prerequisite(s): Admission to MBA program.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall, Spring

MBA 701 - Business Valuation
Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Develops framework for business analysis and valuation using financial statement data. Analyzes management decisions such as equity valuation, creditworthiness, merger valuation, corporate financial structure, and management communication strategy.

Equivalent to ACCT 701.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 702 - Corporate Financial Policy

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Applies theories and methods of corporate financial management to series of complex cases. Topics include capital projects as real options, cost of capital and capital structure, firm valuation, project finance, and merger and acquisition analysis.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall

MBA 703 - Financial Markets

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Explores relationship among financial markets including global equity markets, U.S. Treasury securities, and exchange-traded and over-the-counter financial derivative instruments such as futures, options, swaps, and asset-backed securities.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Summer

MBA 705 - Venture Capital and Private Finance
MBA 706 - Investment Analysis

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Focuses on analyzing equity securities and debt instruments given implications of efficient market hypothesis and modern capital market theory.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 707 - Futures, Options and Other Derivatives

Credits: 3
Not Repeatable for Credit
Offered by School of Business.
This course focuses on the mechanics of derivatives markets, with a strong emphasis on identifying and managing risks in financial products. Topics include: rationale behind the major pricing models and their application to derivatives securities, arbitrage and pricing, hedging, common trading strategies with options, and the fundamental concepts of risk measures and risk management.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Fall, Spring

MBA 708 - Taxes and Business Strategy

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Provides framework for making managerial decisions in global tax environment. Examines business decisions such as location of facilities, employee compensation, mergers and acquisitions, capital and asset structure, and business form.

Equivalent to ACCT 708.

**Prerequisite(s):** Completion of MBA core requirements, or permission of instructor.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special.

---

**MBA 709 - Risk and Portfolio Management**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business.

This course is focused on asset allocation and portfolio construction, with a strong emphasis on measuring performance and managing risk. Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Summer

MBA 718 - International Marketing
MBA 720 - Marketing Analytics

Credits: 3
Not Repeatable for Credit
Offered by School of Business.
Marketing analytics is a systematic approach to harnessing data/information to drive effective marketing decision making. The objective of this course is to equip you with tools required to address fundamental marketing decision problems using a data-driven approach. It will train students to view the marketing processes and relationships systematically and analytically.

Equivalent to GBUS 720.

Prerequisite(s): MBA 738 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MBA 721 - Marketing Research

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business.
Develops skills to plan and implement effective marketing research studies. Topics include research design, data collection, statistical analysis, and use of database systems. Offers perspective on how managers can use market data to develop successful product or service strategies.

Equivalent to GBUS 721.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall
MBA 722 - Consumer Behavior

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
An integrated analysis of internal and external influences on consumer decision making, purchase, and consumption behaviors with attention to marketing strategy implications. Emphasizes demographics, lifestyle, situation, perception, learning, and attitude formation and change, focusing on customer segmentation, satisfaction, loyalty, and product-person relationships.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 723 - Supply Chain Management

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Examines logistics of supply chain systems, including inventory management, distribution channels, and information systems. Emphasizes strategic alliances and international issues.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 724 - Marketing Communications

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Examines all forms of communication and sources of brand or company contacts as potential message channels in building relationship with customers. Focuses on integrated planning process for all communication elements, including consumer and trade advertising, public relations, direct and database marketing, promotions, and sales presentations to achieve synergy in communicating with various constituencies.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall
MBA 725 - Leadership

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Overview of major conceptualizations of leadership and motivation in organizations. Integrates theory, research, and applications. Students apply principles of leadership and motivation to their own work situations and case evaluation.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 726 - Negotiations

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Focuses on theory, processes, and practice of negotiation within and across organizations, including attention to ethical issues. Explores systematic ways to increase quality of negotiated agreements, including methods of preparation, effective communication, and various strategies to increase power. Format includes negotiation exercises, lecture, and discussion.

Prerequisite(s): Completion of MBA core.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall

MBA 727 - Management Consulting

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Management Consulting is a practice-based course designed to provide a fundamental background in consulting, both from the perspective of the outside management consultant, and the inside (in-house) corporate consultant. Students will examine best practices in consulting to address complex organizational challenges and opportunities within a medium-to-large sized corporate setting.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall
MBA 730 - Management of Technology and Innovation Processes

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Students will develop a strong conceptual foundation for managing technological innovation. It introduces frameworks for analyzing how firms can create, commercialize and capture value from products and services. Topics covered comprise the formulation of innovation strategies, the process of developing new products and services, and how to create and manage an innovative organization to drive revenue growth.

Prerequisite(s): Admission to the MBA program or permission of the program director.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall, Spring

MBA 731 - Business Application and Life Cycle Management

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Studies methods and tools for analyzing and designing business information systems with emphasis on business processes. Topics include data modeling, process modeling, interaction analysis, and user interface.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall

MBA 732 - Knowledge Management

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Examines firms that use knowledge management principles and approaches: intellectual capital, human capital, customer capital, tacit and explicit knowledge, new role of chief knowledge officer, leveraging of knowledge management.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Summer
MBA 734 - Electronic Commerce and E-Business

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 737 - Information Technology Governance and Policy

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Considers specific objectives of IT governance and policy, frameworks that help chart roadmap for this function, and tools and techniques used in specific areas of IT governance.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.

MBA 738 - Data Mining for Business Analytics

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Examines data driven decision making. Covers both predictive and descriptive analytics techniques commonly used in businesses.

Prerequisite(s): Completion of MBA core requirements, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall

MBA 739 - Advanced Data Mining for Business Analytics
MBA 742 - Corporate Governance and Ethics

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Focuses on developing understanding of corporate governance issues and ethical decision-making. Topics include examination of internal and external and international governance issues, and ethical analysis in current business environment.

Equivalent to ACCT 742

Prerequisite(s): Admission to MSA or MBA program, or permission of program director.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 744 - Fraud Examination

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Introduces strategies and techniques for fraud prevention and detection. Focuses on financial fraud such as bribery, contract rigging and kickbacks, embezzlement, fraudulent financial reporting, payroll fraud, and misappropriation of inventory and other assets.

Equivalent to ACCT 636, GBUS 744.

Prerequisite(s): Admission to MSA or MBA program, or permission of program director.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall
MBA 745 - International Financial Reporting

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Examines accounting from an international perspective, including the study of various functional areas of accounting across countries and the reporting requirements encountered by companies engaged in international trade and making foreign direct investments.

Equivalent to ACCT 745

Prerequisite(s): Completion of MBA or MSA core requirements, or permission of program director.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.

MBA 746 - Real Estate Analysis and Valuation

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Overview of real estate assets, markets, and decisions. Emphasizes development of analytical techniques and information required for implementation. Includes legal, economic, and public policy perspectives.

Equivalent to GBUS 746; GSOM 746.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.

MBA 747 - Real Estate Finance

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Examines financing of residential and income-producing real estate from perspectives of both suppliers and users of funds. Focuses on financing alternatives, primary and secondary markets, and decision implications of available arrangements.

Equivalent to GBUS 747; GSOM 747.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
MBA 748 - Real Estate Investment

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Develops frameworks for analyzing decisions about investing in real estate assets. Focuses on acquisition and analysis of information required to evaluate potential performance of assets. Applications of theories and techniques through case studies.

Equivalent to GBUS 748; GSOM 748.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.

MBA 752 - Turning Ideas into Successful Companies

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
An advanced course in entrepreneurship focused on discovery and development of an achievable business concept. The centerpiece of the course is development of the formal business plan and associated presentation materials. Students are assigned to teams and must hypothesize a new business, research and test their hypothesis, and develop a comprehensive written business plan. The plan must be for an actual business that the students intend to start upon the successful completion of the course. Technology-based projects are encouraged, but not required. Because the course is cross-listed with IT&E and the School of Business, most teams will include both engineering and business students. Weekly presentations of the team's progress are required.

Prerequisite(s): Completion of MBA or MSA core requirements or permission of the program director.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Spring

MBA 795 - Global Business Perspectives

Credits: 0-3
Repeatable within Degree for Credit
Offered by School of Business
Applies MBA core courses to global business enterprise through site visits to facilities located outside the United States.

Prerequisite(s): Admission to the MBA program or permission of the program director.
MBA 796 - Directed Studies in Business Administration

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Business
Approval by faculty member and MBA program director required prior to registration. Studies specialized topics in business administration not otherwise available in curriculum.

Prerequisite(s): Admission to the MBA or MSA program or permission of the program director.
Notes: May be repeated for up to 3 credits.

MBA 797 - Special Topics in Business

Credits: 1-3
Repeatable within Term for Credit
Offered by School of Business
Sections established as necessary to focus on various topical issues that emerge in practice of business administration.

Prerequisite(s): Admission to the MBA program or permission of the program director.

Master of New Professional Studies (MNPS)

Offered by the Schar School of Policy and Government (formerly SPGIA)

MNPS 700 - The New Professionalism: Theory and Practice

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Experientially explores contemporary and relevant ethical theories and their diverse applications to professional studies field.
Examines ethical relationship between professionals and clients, ethical accountability and responsibility, ethos of institutions, and the professional's role in sustaining ethical standards. Explores philosophical and pedagogical assumptions to understand professional management issues, and social and individual purposes of being professional.

**Notes:** Customized for each track; for detailed course content, contact appropriate program directors.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MNPS 702 - The New Professional as Reflective Practitioner

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Identifies central problems in epistemology. Examines how an epistemology appropriate to professional practice may be constructed, what is meant by "ways of knowing" and the "reflective practitioner," and implications for professional learning. Studies core issues of generalizability; objective knowledge and understanding; and how evidence, truth, and meaning affect nature of organizational reality and professional's practice. Special attention to developing skills for "double-loop learning," and reflection in professional lives through journals, narrative, autobiography, and imaginative literature.

**Notes:** Customized for each track; for detailed course content, contact appropriate program directors.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MNPS 703 - Technology and Learning in the New Professions

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines enormous potential for enhancing the way organizations can learn, notably through developing Internet literacy and skills in using differing Internet navigation tools. Focuses on applying technology to real-world problems in different professional work-sites and offers in-depth training in use and development of groupware applications.

**Notes:** Customized for each track; for detailed course content, contact appropriate program directors.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MNPS 704 - Research Methodologies in the New Professionalism

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)
Concentrates on understanding and using research methodologies from such varied sources as Friere, McKeon, and Janowitz, with a practical team activity in which students study organization or aspects of it, using ethnography, field study, or any appropriately defensible research methodology.

Corequisite(s): EDUC 597

Notes: Customized for each track; for detailed course content, contact appropriate program directors.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MNPS 720 - Learning Community

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Workshops, seminars, and reading groups involving at least 60 hours of contact time and culminating in two-day retreat during which candidates for MS in New Professional Studies (organizational learning) make presentations to class and faculty on research practica. Theme of module is communication, collaboration, and interaction in organizations. After initial one-and-a-half day workshop, MNPS candidates meet with all faculty once a month to give talks and presentations on application of ideas in their organizations, discuss issues in organizational learning, and provide feedback about using collaborative computing technology in learning process.

Equivalent to ODKM 740

Notes: Only for MNPS in organizational learning degree candidates.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

Master of New Professional Studies-Teaching (MNPE)

Offered by the College of Education and Human Development

MNPE 700 - The New Professionalism: Theory and Practice

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education

Explores the philosophical and pedagogical assumptions of teachers as individuals and professionals. Critiques educational issues such as accountability, institutional structures, and professional roles engage teachers to be more just and responsive in their relationships with students, families, and colleagues. Provides a deeper understanding of a teacher's participatory and ethical role in a democracy, which includes questioning the status quo.
MNPE 702 - The New Professional as a Reflective Practitioner

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education

Explores the central questions of epistemology to encourage depth of understanding of the assumptions and issues of education. Uses reflection to consider how personal and professional identities are influenced by intentions and commitments to learning and teaching. Provides an understanding of the processes of critical inquiry, dialogue, reflection, and action.

MNPE 703 - Technology and Learning in the New Professions

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education

Supports effective technology integration for teaching and learning by constructive knowledge not just of content, technology and pedagogy, but also of their mutually reinforcing relationships. Develops repertoire of technology-mediated learning approaches with appropriate context specific strategies and representations to support learning. Includes concurrent critique of technology and includes equal access to information, critical web literacy, and privacy issues.

MNPE 704 - Research Methodologies in the New Professionalism

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education

Introduces teacher research in a school setting. Supports intentional, systematic, public, ethical, and contextual inquiry into
practice; participants form and frame salient questions, take actions to transform curriculum, gather, analyze and interpret multiple forms of data, and share experience in communities of practice.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Mathematical Sciences (MATH)

Offered by the College of Science.

Knowledge of high school algebra is a prerequisite for all mathematics courses. In exceptional cases, the prerequisite for a course above the calculus sequence may be waived at the discretion of instructor. Additionally, see Information on Undergraduate Mathematics Courses.

Prior knowledge of linear algebra and single and multivariable calculus assumed in all math graduate courses. A double number separated by a comma (MATH 555, 556) indicates both graduate courses normally constitute a sequence, and the first semester is prerequisite to the second. The prerequisite may be waived by permission of department chair. See also STAT and OR courses.

MATH 104 - Trigonometry and Transcendental Functions

Credits: 2
Not Repeatable for Credit
Offered by Mathematical Sciences
Exponential and logarithmic functions, trigonometric functions, and analytic trigonometry. This course does not satisfy the university's quantitative reasoning requirement. May not be taken for credit after receiving a C or better in MATH 105 or in any MATH course numbered 113 or higher. May not take MATH 105 for credit after receiving a C or better in MATH 104.

Prerequisite(s): Specified score on math placement test.
Prerequisite(s) enforced by registration system.

Notes: May not be used as credit toward BA or BS in mathematical sciences.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

MATH 105 - Precalculus Mathematics

Credits: 4
Not Repeatable for Credit
Offered by Mathematical Sciences
Reviews mathematics skills essential to studying calculus. Topics include equations, inequalities, absolute values, graphs, functions, exponential and logarithmic functions, and trigonometry.

Prerequisite(s): Appropriate score on the math placement test or successful completion of the algebra tutorial program offered through the Math Literacy Center.
Notes: Call Mathematical Sciences Department at 703-993-1460 for details. May not be used as credit toward BA or BS in mathematical sciences. This course does not satisfy the university's quantitative reasoning requirement for the BA degree. May not be taken for credit after receiving grade of C or better in any MATH course numbered 113 or higher.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

MATH 106 - Quantitative Reasoning

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Quantitative skills for real world. Topics include critical thinking, modeling by functions, graphs, growth, scaling, probability, and statistics.

Fulfills Mason Core requirement in quantitative reasoning.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 108 - Introductory Calculus with Business Applications

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Functions, limits, derivative, and integral. Applications of differentiation and integration.

Fulfills Mason Core requirement in quantitative reasoning.

Prerequisite(s): A passing score on the Mathematics Placement Test or C or better in MATH 105 or MATH 112. Prerequisite(s) enforced by registration system.

Notes: Call Mathematical Sciences Department at 703-993-1460 for details. Students who have received credit for MATH 113 or 114 may not receive credit for this course.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 110 - Introductory Probability

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Elementary set theory, probability, and statistics.
Fulfills Mason Core requirement in quantitative reasoning.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MATH 111 - Linear Mathematical Modeling**

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
Matrix algebra, systems of linear equations, Markov chains, difference equations, and data fitting.
Fulfills Mason Core requirement in quantitative reasoning.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MATH 112 - Discrete Mathematics for IT**

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
Introduces ideas of discrete mathematics including mathematical induction, sets, logic, graphs, trees, basic counting arguments, and discrete probability. Students who have received credit for MATH 125 may not receive credit for this course.

**Prerequisite(s):** Score of 13 or better on the MPA2, or Grade of C or better in MATH 105, or Grade of C or better in MATH 108, or Grade of C or better in MATH 113.
Prerequisite(s) enforced by registration system.

**Notes:** Intended for IT students; does not count toward a major or minor in mathematics.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MATH 113 - Analytic Geometry and Calculus I**

Credits: 4  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
Functions, limits, the derivative, maximum and minimum problems, the integral, and transcendental functions.
Fulfills Mason Core requirement in quantitative reasoning.

**Prerequisite(s):** C or better in MATH 104 or MATH 105 or specified score on math placement test. Prerequisite(s) enforced by registration system.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 1

**MATH 114 - Analytic Geometry and Calculus II**

Credits: 4
Not Repeatable for Credit
Offered by Mathematical Sciences
Methods of integration, conic sections, parametric equations, infinite series, and power series.

**Prerequisite(s):** C or better in MATH 113 or in both MATH 123 and 124. Prerequisite(s) enforced by registration system.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 1

**MATH 115 - Analytic Geometry and Calculus I (Honors)**

Credits: 4
Not Repeatable for Credit
Offered by Mathematical Sciences
More challenging version of MATH 113. Functions, limits, the derivative, maximum and minimum problems, the integral, and transcendental functions.

Fulfills Mason Core requirement in quantitative reasoning.

**Prerequisite(s):** Permission of department. Prerequisite(s) enforced by registration system.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 1

**MATH 116 - Analytic Geometry and Calculus II (Honors)**

Credits: 4
Not Repeatable for Credit
Offered by Mathematical Sciences
More challenging version of MATH 114. Methods of integration, conic sections, parametric equations, infinite series, and power series.

Prerequisite(s): Successful completion of MATH 115 with a grade of C or higher, or grade of A in MATH 113 and recommendation of MATH 113 instructor.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 1

MATH 123 - Calculus with Algebra/Trigonometry, Part A

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Math 123, with 124, is a two semester sequence for students with limited math background who desire careers in the sciences. In two semesters, students progress from algebra through the basic calculus covered in Math 113. Math 123 integrates the beginnings of calculus through the derivative with relevant precalculus algebra and trigonometry.

Fulfills Mason Core requirement in quantitative reasoning (students must also take MATH 124 to receive Mason Core credit).

Prerequisite(s): C or better in MATH 104 or 105 or specified score on the math placement test.
Prerequisite(s) enforced by registration system.

Notes: Students who successfully complete Math 123-124 are considered the same as having successfully completed MATH 113 and can sign up for Math 114, Calculus II.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall.

MATH 124 - Calculus with Algebra/Trigonometry, Part B

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Math 123, with 124, is a two semester sequence for students with limited math background who desire careers in the sciences. In two semesters, students progress from algebra through the basic calculus covered in Math 113. Math 124 will review basic differentiation and applications and then proceed to cover integration including transcendental functions.

Fulfills Mason Core requirement in quantitative reasoning (students must also take MATH 123 to receive Mason Core credit).

Prerequisite(s): Grade of C or better in MATH 123.
Prerequisite(s) enforced by registration system.
Notes: Students who successfully complete Math 123-124 are considered the same as having successfully completed MATH 113 and can sign up for Math 114, Calculus II.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**MATH 125 - Discrete Mathematics I**

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Introduces ideas of discrete mathematics and combinatorial proof techniques including mathematical induction, sets, graphs, trees, recursion, and enumeration.

Fulfills Mason Core requirement in quantitative reasoning.

Prerequisite(s): Score of 13 or better on the Math Placement Test, or Grade of C or better in MATH 105, or Grade of C or better in MATH 108, or Grade of C or better in MATH 113.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**MATH 203 - Linear Algebra**

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Systems of linear equations, linear independence, linear transformations, inverse of a matrix, determinants, vector spaces, eigenvalues, eigenvectors, and orthogonalization.

Prerequisite(s): C or better in MATH 114 or MATH 116.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**MATH 213 - Analytic Geometry and Calculus III**

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Partial differentiation, multiple integrals, line and surface integrals, and three-dimensional analytic geometry.
Prerequisite(s): C or better in MATH 114 or MATH 116.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 214 - Elementary Differential Equations

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
First-order ODEs, higher-order ODEs, Laplace transforms, linear systems, nonlinear systems, numerical approximations, and modeling.

Prerequisite(s): Grade of C or better in MATH 213 or 215.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 215 - Analytic Geometry and Calculus III (Honors)

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Vectors and vectorvalued functions, partial differentiation, multiple integrals, line integrals, surface integrals, and transformation of coordinates.

Prerequisite(s): Grade of C or better in MATH 114 or MATH 116.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 216 - Theory of Differential Equations

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
First- and second-order equations, existence uniqueness of solutions, systems of differential equations, and phase plane analysis.
Prerequisite(s): Grade of C or better in MATH 203 and 213 or 215. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 271 - Mathematics for the Elementary School Teachers I

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Concepts and theories underlying elementary school mathematics including problem solving, patterns, sequences, set theory, numeration, number sense, operations and properties of integers, whole, rational, irrational and real numbers, number theory, ratio, proportion, percent and mathematical systems.

Prerequisite(s): Grade of C or better in 3 credits of college math.
Notes: Does not count toward major in mathematics.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 272 - Mathematics for the Elementary School Teachers II

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Continuation of MATH 271. Concepts and theories underlying elementary school mathematics including functions, algebra, geometry, statistics, and probability.

Prerequisite(s): Grade of C or better in MATH 271 or permission of instructor. Prerequisite(s) enforced by registration system.
Notes: Intended for school educators; does not count toward major in mathematics.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 290 - Introduction to Advanced Mathematics

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Introduction to proofs and the language of mathematics. Topics include induction, equivalence relations, cardinality and basic
properties of the real numbers. Designated as a writing intensive course for mathematics majors.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** C or better in MATH 114 or MATH 116.
Prerequisite(s) enforced by registration system.

**Notes:** Primarily intended for mathematics majors.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**MATH 301 - Number Theory**

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Prime numbers, factorization, congruences, and Diophantine equations.

**Prerequisite(s):** 6 math credits.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**MATH 302 - Foundations of Geometry**

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Fundamental concepts of incidence. Axioms of Euclidean geometry and the resulting theory, and axioms and development of non-Euclidean and projective geometry.

**Prerequisite(s):** 6 math credits.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**MATH 307 - Mathematical Modeling**

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Focuses on the development and analysis of mathematical models that make qualitative and quantitative predictions. Students will address particular situations while learning general modeling strategies.

**Prerequisite(s):** Grade of C or better in MATH 203, and Grade of C or better in either MATH 214 or MATH 216.
Prerequisite(s) enforced by registration system.

**Schedule Type: LEC**  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring.

**MATH 312 - Geometry**

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
Two and three dimensional analytic geometry, complex geometry, projective geometry, conics and quadric surfaces, spherical geometry, quaternions, Euclidean and non-Euclidean geometry. This course meets the requirement for secondary school teacher certification.

**Prerequisite(s):** Grade of C or higher in MATH 114 or MATH 116.  
Prerequisite(s) enforced by registration system.

**Schedule Type: LEC**  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**MATH 313 - Introduction to Applied Analysis**

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
Vector differential calculus, vector integral calculus, and complex analysis.

**Prerequisite(s):** Grade of C or better in MATH 213 or 215.  
Prerequisite(s) enforced by registration system.

**Schedule Type: LEC**  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**MATH 314 - Introduction to Applied Mathematics**

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  

**Prerequisite(s):** Grade of C or better in MATH 214 or 216.
MATH 315 - Advanced Calculus I

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Number system, functions, sequences, limits, continuity, differentiation, integration, transcendental functions, and infinite series.

Prerequisite(s): Grade of C or better in MATH 213 or MATH 215, and grade of C or better in MATH 290.
Prerequisite(s) enforced by registration system.

MATH 316 - Advanced Calculus II

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Sequences of functions, Taylor series, vectors, functions of several variables, implicit functions, multiple integrals, and surface integrals.

Prerequisite(s): Grade of C or better in MATH 315.
Prerequisite(s) enforced by registration system.

MATH 321 - Abstract Algebra

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Theory of groups, rings, fields.

Prerequisite(s): Grade of C or better in MATH 213 or MATH 215, and grade of C or better in MATH 290.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
MATH 322 - Advanced Linear Algebra

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
Abstract vector spaces, linear independence, bases, linear transformations, matrix algebra, inner product, and special topics.

Prerequisite(s): Grade of C or better in MATH 203, and grade of C or better in MATH 290.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MATH 325 - Discrete Mathematics II

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
Advanced counting, binomial identities, generating functions, advanced recurrence, inclusion-exclusion, and network flows.

Prerequisite(s): Grade of C or better in MATH 125.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MATH 351 - Probability

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
Random variables, probability functions, special distributions, and limit theorems.

Prerequisite(s): Grade of C or better in MATH 213 or 215.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
MATH 352 - Statistics

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Estimation, decision theory, testing hypothesis, correlation, linear models, and design.

Prerequisite(s): Grade of C or better in MATH 351.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 400 - History of Math (Topic Varies)

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Explores internal controversies and dynamics of mathematics in larger intellectual and social settings. Topics vary but might include differential equations devised for mechanics and astronomy by Euler, Lagrange, and Laplace; foundation of mathematical analysis from Cauchy to Weierstrass; algebras of Galois and Boole; or creation of non-Euclidean geometry and Cantor's transfinite sets.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): Completion or concurrent enrollment in all other required Mason Core courses, and completion of MATH 290 with a C or higher.
Prerequisite(s) enforced by registration system.

Notes: Credits may not be used toward "upper division" math hours required of math majors.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 405 - Honors Thesis in Mathematics I

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
A project, which is intended to result in a thesis, is to be chosen and completed under the guidance of a full-time faculty member. An oral presentation is required for MATH 405.

Prerequisite(s): MATH 315, 3 additional credits of MATH above the 300 level (excluding MATH 400), and admission to the Mathematics Honors Program.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MATH 406 - RS: Honors Thesis in Mathematics II

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
A project, which is intended to result in a thesis, is to be chosen and completed under the guidance of a full-time faculty member. Oral and written presentations are required in MATH 406.

Designated as a research and scholarship intensive course.

Prerequisite(s): Grade of C or higher in MATH 405.
Prerequisite(s) enforced by registration system.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 411 - Functions of a Complex Variable

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Analytic functions, contour integration, residues, and applications to such topics as integral transforms, generalized functions, and boundary value problems.

Prerequisite(s): Grade of C or better in MATH 214 or 216.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 413 - Modern Applied Mathematics I

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences

Prerequisite(s): Grade of C or better in MATH 203 and 214 or 216.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MATH 414 - Modern Applied Mathematics II

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Continuation of MATH 413, which involves synthesis of pure mathematics and computational mathematics. Fourier analysis and its role in applied mathematics developed (differential equations and approximations). Discrete aspects emphasized in computational models.

Prerequisite(s): Grade of C or better in MATH 413.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 431 - Topology

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Metric spaces, topological spaces, compactness, and connectedness.

Prerequisite(s): C or better in MATH 315.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 441 - Deterministic Operations Research

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences

Prerequisite(s): Grade of C or better in MATH 203
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MATH 442 - Stochastic Operations Research

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences

Equivalent to OR 442

Prerequisite(s): Grade of C or better in MATH 351.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 446 - Numerical Analysis I

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Significant figures, round-off errors, iterative methods of solution of nonlinear equations of a single variable, solutions of linear systems, iterative techniques in matrix algebra, interpolation and polynomial approximation.

Prerequisite(s): Grade of C or better in MATH 203 and CS 112.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 447 - Numerical Analysis II

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences

Prerequisite(s): Grade of C or better in Math 214 or 216 and 446.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MATH 453 - Advanced Mathematical Statistics

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Maximum likelihood tests, sufficiency, most powerful tests, distributions of quadratic forms, topics from nonparametric statistics, Bayesian statistics and linear models.

Prerequisite(s): Grade of C or better in MATH 352.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall.

MATH 478 - Introduction to Partial Differential Equations with Numerical Methods

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Introduces basic facts about partial differential equations, including elliptic equations, parabolic equations and hyperbolic equations. Methods of solution, characteristics, initial/boundary-value problems, and numerical approximation techniques.

Prerequisite(s): C or better in MATH 203 and 214 or 216.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 491 - Reading and Problems

Credits: 1-3
Repeatable within Term for Credit
Offered by Mathematical Sciences
For mathematical sciences majors only. Independent study in math.

Notes: Must be arranged with instructor before registering.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
MATH 493 - Topics in Applicable Mathematics

Credits: 3
Repeatable within Term for Credit
Offered by Mathematical Sciences
Topics that have been successfully used in applications of mathematics.

Prerequisite(s): 6 credits of math at or above 310 level.
Notes: Subject determined by instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 494 - Topics in Pure Mathematics

Credits: 3
Repeatable within Term for Credit
Offered by Mathematical Sciences
Topics of pure math not covered in other courses. Topics might include Galois theory, cardinal and ordinal arithmetic, measure theory, mathematical logic, and differential geometry.

Prerequisite(s): 6 credits of math at or above 310 level.
Notes: Subject determined by instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 495 - Undergraduate Seminar

Credits: 1
Repeatable within Degree for Credit
Offered by Mathematical Sciences
Prerequisite(s): Permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

MATH 551 - Regression and Time Series

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Mathematics of regression, exponential smoothing, time series, and forecasting. Material included in this course constitutes Society of Actuaries Validation by Educational Experience (VEE) for applied statistics and corresponds to part of Casualty
Actuary Society Exam 3.

**Prerequisite(s):** MATH 352, STAT 652, SOA Exam P, or permission of instructor.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**MATH 554 - Financial Mathematics**

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Simple and compound interest, annuities, present and future value, yield rates, capital budgeting, amortization schedules, mortgages, bonds. Material corresponds to the Society of Actuaries Exam: Financial Mathematics (FM). Not appropriate for graduate science and engineering majors not considering actuarial or financial career. Cannot be counted toward MS or PhD degree in mathematics.

**Prerequisite(s):** MATH 113
**Corequisite(s):** MATH 114

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**MATH 555 - Actuarial Modeling I**

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Two-semester sequence covering portions of the material corresponding to the Society of Actuaries Exam M, Casualty Actuary Society Exam 3, and Joint Board Exam EA1. The remaining material for these exams is covered in MATH 551 and 653. Topics include survival distribution and life tables, life insurance, life annuities, net premiums, net premium reserves, multiple life and multiple decrement models, pensions, insurance models including expense, and nonforfeiture benefits and cash values.

**Prerequisite(s):** MATH 554 and either MATH 351 or STAT 344.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**MATH 556 - Actuarial Modeling II**

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Two-semester sequence covering portions of the material corresponding to the Society of Actuaries Exam M, Casualty Actuary Society Exam 3, and Joint Board Exam EA1. The remaining material for these exams is covered in MATH 551 and 653. Topics
include survival distribution and life tables, life insurance, life annuities, net premiums, net premium reserves, multiple life and multiple decrement models, pensions, insurance models including expense, and nonforfeiture benefits and cash values.

**Prerequisite(s):** MATH 554 and either MATH 351 or STAT 344.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**MATH 557 - Financial Derivatives**

Credits: 3

Not Repeatable for Credit

Offered by Mathematical Sciences

**Prerequisite(s):** MATH 554 and either MATH 351 or STAT 344, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Spring

---

**MATH 600 - Special Topics in Mathematics**

Credits: 1-6

Repeatable within Term for Credit

Offered by Mathematical Sciences

Mathematical workshops, special courses, or other projects.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 1-6

**Hours of Lab or Studio per week:** 0

---

**MATH 601 - Analysis I for Teachers**

Credits: 3

Not Repeatable for Credit

Offered by Mathematical Sciences

Develops continuous ideas of calculus with particular emphasis on concepts as opposed to computational aspects of calculus. Specific topics include decimal representation of real numbers, sequences, series, and limits; differentiation to find speed, slopes of curves, and tangents; integration to find volumes and distances and area under curves. Optimization problems including maximization of area and volume, and modeling of these concepts. Graphing techniques supported by theory of calculus and graphing utilities such as TI-83 calculator or computer software such as Maple.

**Prerequisite(s):** Open to in-service teachers of mathematics at middle or secondary level. Others may enroll with permission of instructor.
MATH 602 - Analysis II for Teachers

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Develops continuous ideas of calculus with particular emphasis on concepts as opposed to computational aspects of calculus. Specific topics include decimal representation of real numbers, sequences, series, and limits; differentiation to find speed, slopes of curves, and tangents; integration to find volumes and distances and area under curves. Optimization problems including maximization of area and volume, and modeling of these concepts. Graphing techniques supported by theory of calculus and graphing utilities such as TI-83 calculator or computer software such as Maple.

Prerequisite(s): Open to in-service teachers of mathematics at middle or secondary level. Others may enroll with permission of instructor.
Notes: Background in mathematics desirable but not necessary. Some topics from college algebra will be reviewed in class, but thorough understanding of high school algebra and trigonometry expected.

MATH 604 - Geometry for Teachers

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Covers standard topics from Euclidean geometry, and includes discussion of non-Euclidean geometries. Emphasizes informal and explorative approach to geometry, and makes use of geometry sketchpad. Other topics include geometric constructions, and role of proof in geometry.

Prerequisite(s): Open to in-service teachers of mathematics at middle or secondary level. Others may enroll with permission of instructor.
Notes: Background in mathematics desirable but not necessary.

MATH 605 - Discrete/Finite Mathematics for Teachers
MATH 607 - Algebraic Structure for Teachers

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Expands on customary operations on integers and rationals to discuss systems that mimic these operations. Emphasizes multiplicative and additive inverses and their corresponding identities as they occur in other systems. Topics might include permutation groups, rigid transformations, groups of symmetry of the plane and connection to geometry, and matrices treated as linear transformations and connections to solutions of systems of equations.

Prerequisite(s): Open to in-service teachers of mathematics at middle school level. Others may enroll with permission of instructor.
Notes: Background in mathematics desirable but not necessary. Thorough understanding of high school algebra assumed.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

MATH 608 - Problem Solving in Mathematics

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Introduces variety of challenging mathematical problems appropriate for middle school student to analyze, and solving problems using mathematics learned in previous courses. Also asks students to search for such problems and orally present solutions.

Prerequisite(s): Open to in-service teachers of mathematics at middle school level. Others may enroll with permission of instructor.
Notes: Background in mathematics or science desirable but not necessary. Assumes exposure to most of topics covered in MATH 601, 604, 605, and 607.

Schedule Type: LEC
MATH 610 - Number Systems and Number Theory for K-8 Teachers

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
This course covers the topics: ways of representing numbers, relationships between numbers, number systems, the meanings of operations and how they relate to one another, and computation within the number system as a foundation for algebra. It also includes episodes in history and development of the number system, and will examine the developmental sequence and learning trajectory as children learn this material.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 611 - Geometry and Measurement for K-8 Teachers

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
The course explores the foundations of informal measurement and geometry in one, two, and three dimensions. The van Hiele model for geometric learning is used as a framework for how children build their understanding of length, area, volume, angles, and geometric relationships. Visualization, spatial reasoning, and geometric modeling are stressed. As appropriate, transformational geometry, congruence, similarity, and geometric constructions will be discussed.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 612 - Probability and Statistics for K-8 Teachers

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
An introduction to probability, descriptive statistics, and data analysis. Topics studied will include the exploration of randomness, data representation, modeling. Descriptive statistics will include measures of central tendency, dispersion, distributions, and regression. The analysis of experiments requiring hypothesizing, experimental design and data gathering will also be discussed.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 613 - Algebra and Functions for K-8 Teachers
The course will examine representing and analyzing mathematical situations and structures using generalization and algebraic symbols and reasoning. Attention will be given to the transition from arithmetic to algebra, working with quantitative change, and the description of and prediction of change.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MATH 614 - Rational Numbers and Proportional Reasoning for K-8 Teachers**

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
This course will cover the basic number strands in fractions and rational numbers, decimals and percents, and ratios and proportions in the school curriculum. Instruction will cover interpretations, computations, and estimation with a coordinated program of activities that develop both rational number concepts and skills and proportional reasoning.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MATH 619 - Topics in Mathematical Logic**

Credits: 3  
Repeatable within Term for Credit  
Offered by Mathematical Sciences  
Special topics in foundations of mathematics not included in regular mathematics curriculum. May be repeated for credit.

**Prerequisite(s):** Permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MATH 621 - Algebra I**

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
Groups, linear algebra, and matrix groups.

**Prerequisite(s):** Familiarity with basic properties of groups and rings, or permission of instructor.  
**Schedule Type:** LEC
MATH 624 - Euclidean Geometry

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Euclidean space, geometry of k-dimensional planes, the affine structure of Euclidean space, rigid motions and similarities, parallelotopes and volumes, convex polytopes, quadric surfaces, and additional topics by instructor's choice.

Prerequisite(s): MATH 315 and MATH 322, or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 625 - Numerical Linear Algebra

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Theory and development of numerical algorithms for solving variety of matrix problems: linear systems, least squares problems, eigenvalue problems, and singular value decomposition. Direct and iterative method, analysis of sensitivity to rounding errors, and applications.

Equivalent to CSI 740

Prerequisite(s): Computer literacy, including some programming experience.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 629 - Topics in Algebra

Credits: 3
Repeatable within Term for Credit
Offered by Mathematical Sciences
Special topics in pure and applied algebra not covered in regular algebra. May be repeated for credit.

Prerequisite(s): Permission of instructor.
Notes: Topic may not be repeated.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MATH 631 - Topology I: Topology of Metric Spaces

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Covers definition and basic examples of metric spaces, open and closed sets, subspaces and finite products, sequences and convergence, compactness and separability, continuous functions, uniform continuity, metric space C(X) and uniform convergence, and homotopy.

Prerequisite(s): MATH 315 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 639 - Topics in Geometry and Topology

Credits: 3
Repeatable within Degree for Credit
Offered by Mathematical Sciences
Special topics in geometry and topology not covered in regular geometry and topology sequence. May be repeated for credit.

Prerequisite(s): Permission of instructor.
Notes: Topic may not be repeated.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MATH 641 - Combinatorics and Graph Theory

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Covers enumerative combinatorics, including partially ordered sets; Moebius inversion and generating functions; and major topics in graph theory such as graph coloring, Ramsey theory, and matching.

Prerequisite(s): MATH 321 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 644 - Convex and Discrete Geometry

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Basic properties of Euclidean space, convex sets and convex cones, convex hulls, extremal structure of convex sets, support and separation properties, polyhedra and polytopes, special classes of convex sets, Helly-type theorems, selected problems of discrete geometry.

**Prerequisite(s):** MATH 315 and MATH 322, or equivalent.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**MATH 649 - Topics in Combinatorics**

Credits: 3
Repeatable within Term for Credit
Offered by Mathematical Sciences
Special topics in combinatorics not covered in regular combinatorics sequence. May be repeated for credit.

**Prerequisite(s):** Permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Summer, Spring

---

**MATH 653 - Construction and Evaluation of Actuarial Models I**

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Economics of insurance, individual risk models for short term, collective risk models for single period, collective risk models over an extended period, and applications of risk theory. Material included in this course corresponds to portions of the Society of Actuaries Exam M and Casualty Actuary Society Exam 3. The remaining material for these exams is covered in MATH 551, 555, and 556.

**Prerequisite(s):** MATH 351 or STAT 644 are required. MATH 555 is recommended but not required.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**MATH 654 - Construction and Evaluation of Actuarial Models II**

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Nature and properties of survival and loss models, methods of estimates from complete and incomplete data, tabular and parametric models, and practical issues in survival model estimation. Material included in this course corresponds to most of the Society of Actuaries Exam C and Casualty Actuary Society Exam 4.
Prerequisite(s): MATH 556 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 655 - Pension Valuation

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Basic mathematics used in pension actuarial work without regard to pension law. Material included in this course corresponds to all of the Joint Board Exam EA-2A and portions of the Society of Actuaries Exam 8. This course cannot be counted toward the MS or PhD degree in mathematics.

Prerequisite(s): MATH 556, SOA Exam EA-1, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 661 - Complex Analysis I

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Topology of complex numbers, holomorphic functions, series, complex integration. Meromorphic, multivalued, and elliptic functions.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 671 - Fourier Analysis

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Study of fundamental ideas in Fourier analysis. Topics include orthonormal systems, Fourier series, continuous and discrete Fourier transform theory, generalized functions, and introduction to spectral analysis. Uses applications to physical sciences, linear systems theory, and signal processing to integrate topics.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 673 - Dynamical Systems
Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Contemporary topics in nonlinear dynamical systems illustrated in mathematical models from physics, ecology, and population
dynamics. Traditional qualitative analysis of difference and differential equations provides background for understanding chaotic
behavior when it occurs in these models. Topics include stability theory, fractals, Lyapunov exponents, and chaotic attractors.

Prerequisite(s): Elementary courses in linear algebra and differential equations.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 674 - Stochastic Differential Equations

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Introduces stochastic calculus and differential equations. Includes Wiener process, Ito and Stratonovich integrals, Ito formula,
martingales, diffusions, and applications, including financial applications. Simulations and numerical approximations of
solutions.

Prerequisite(s): MATH 214 and 351
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 675 - Linear Analysis

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Metric spaces, normed linear spaces, completeness, compactness, continuous (bounded) linear transformations, Banach spaces,
Hilbert spaces, and orthogonal series.

Prerequisite(s): MATH 315 and MATH 322, or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 677 - Ordinary Differential Equations

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Qualitative and quantitative theory of ordinary differential equations. Phase portrait analysis of linear and nonlinear systems,
including classification of stable and unstable equilibrium states and periodic orbits. Poincare-Bendixson theorem, Lyapunov
stability and Lyapunov functions, and bifurcation theory. Optional topics include averaging and perturbation methods, numerical
solution techniques, and chaos.

**Prerequisite(s):** MATH 214 or equivalent.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**MATH 678 - Partial Differential Equations**

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
Physical examples, characteristics, boundary value problems, integral transforms, and other topics, such as variational, 
perturbation, and asymptotic methods.

**Prerequisite(s):** Elementary differential equations course.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**MATH 679 - Topics in Analysis and Potential Theory**

Credits: 3  
Repeatable within Term for Credit  
Offered by Mathematical Sciences  
Special topics not covered in regular analysis or potential theory sequence. May be repeated for credit.

**Notes:** Topic may not be repeated.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**MATH 680 - Industrial Mathematics**

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
Takes examples from industry and goes through complete solution process: formulation of mathematical model of problem; 
solution, possibly by numerical approximation; and interpretation and presentation of results. Emphasizes working in groups, 
relating mathematics to concrete situations, and communication and presentation skills.

**Prerequisite(s):** Permission of instructor.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
MATH 683 - Modern Optimization Theory

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
Introduces basic mathematical ideas and methods for solving linear and nonlinear programming problems, with emphasis on mathematical aspects of optimization theory. Reviews classical topics of linear programming, and covers recent developments in linear programming, including interior point method. Considers basic results in nonlinear programming, including very recent developments in this field.

Prerequisite(s): Permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MATH 685 - Numerical Methods

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
Computational techniques for solving problems arising in science and engineering. Includes theoretical development as well as implementation, efficiency, and accuracy issues in using algorithms and interpreting results. Specific topics include linear and nonlinear systems of equations, polynomial interpolation, numerical integration, and introduction to numerical solution of differential equations.

Equivalent to CSI 700

Prerequisite(s): Computer literacy, including some programming experience.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MATH 686 - Numerical Solutions of Differential Equations

Credits: 3  
Not Repeatable for Credit  
Offered by Mathematical Sciences  
Finite difference methods for initial value problems, two-point boundary value problems, Poisson equation, heat equation, and first-order partial differential equations.

Prerequisite(s): MATH 214 and MATH 446 or 685.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
MATH 687 - Variational Methods

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Weak formulation of partial differential equations, energy principles, Galerkin approximations, and finite element methods. Includes review and development of necessary analysis.

Prerequisite(s): MATH 446 or 685, and elementary differential equations course.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 689 - Topics in Applied and Computational Mathematics

Credits: 3
Repeatable within Term for Credit
Offered by Mathematical Sciences
Special topics in applied and computational mathematics not covered in the regular applied and computational mathematics sequence. May be repeated for credit.

Prerequisite(s): Permission of instructor.
Notes: Topic may not be repeated.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 697 - Independent Reading and Research

Credits: 1-6
Repeatable within Term for Credit
Offered by Mathematical Sciences
In areas of importance, but with insufficient demand to justify a regular course, students may undertake a course of study under the supervision of a consenting faculty member. Written statement of the content of the course and a tentative reading list is normally submitted as part of the request for approval. Literature review, project report, or other written product is normally required. May be repeated for credit.

Prerequisite(s): Graduate standing and permission of instructor.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

MATH 721 - Algebra II
MATH 722 - Algebraic Topology

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Covers simplices and simplicial complexes, cycles and boundaries, simplicial homology, homological algebra, homotopy and the fundamental group, cohomology.

Prerequisite(s): MATH 621 and 631, or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 723 - Combinatorial Structures

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Studies structural properties of objects encountered in pure and applied combinatorics. Topics include partially ordered sets, codes, designs, matroids, buildings, symmetrical structures, permutation groups, and face lattices of polytopes.

Prerequisite(s): MATH 321 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 724 - Commutative Algebra

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Study of commutative rings and their ideals, and of modules over commutative rings and their homological properties. More specific topics include Noetherian rings, primary decomposition, completions, graded rings and dimension theory with applications to algebraic geometry.

Prerequisite(s): MATH 621.
Schedule Type: LEC
MATH 732 - Topology II: Set-Theoretic Topology

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Topics include review of basic set theory (including cardinal numbers products of sets, the Axiom of Choice), definition of topological spaces, bases for topological spaces, forming new topological spaces by taking subspace, quotients, and products, separation properties (Hausdorff, regular, Tychonoff, and normal spaces) compactness, the Lindelof property, separability, connectedness, continuity and homeomorphism, manifolds.

Prerequisite(s): MATH 631 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 740 - Differential Topology

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Differential forms, manifolds, smooth maps, vector fields, the Euler characteristic, integration on manifolds, and de Rham cohomology.

Prerequisite(s): MATH 621 and Math 631, or equivalent.
Notes: MATH 740 will be an elective course acceptable (but not required) for the PhD Degree in the Mathematical Sciences offered by the Department of Mathematical Sciences.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MATH 762 - Complex Analysis II

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Harmonic functions, generalizations of the maximum principle, entire and meromorphic functions, analytic continuation, and the Riemann mapping theorem.

Prerequisite(s): MATH 661.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MATH 763 - Functions of Several Complex Variables

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Covers the important results for analytic functions in several variables, including analyticity in several variables and the differences between the theory of one and the theory of several complex variables.

Prerequisite(s): MATH 661 and 762, or equivalent preparation in one complex variable.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 772 - Wavelet Theory

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Study of the theory and computational aspects of wavelets and the wavelet transform. Emphasizes computational aspects of wavelets, defining the Fast Wavelet Transform in one and two dimensions. Developing the appropriate numerical algorithms. Includes developing the theory of wavelet bases on the real line, discussing multiresolution analysis, splines, time-frequency localization, and wavelet packets.

Equivalent to CSI 746

Prerequisite(s): MATH 315 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 776 - Measure and Integration

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Lebesgue measure and integration. Theory of Lp spaces with p between one and infinity on the real line. Theory of linear operators on Banach spaces, including the Hahn-Banach theorem, open mapping theorem, closed graph theorem and the uniform boundedness principle.

Prerequisite(s): MATH 675.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MATH 781 - Advanced Methods in Applied Mathematics

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Bifurcation theory and perturbation methods for solutions in ordinary and partial differential equations. This course will develop and apply these mathematical tools in current scientific fields, such as biology, materials science, or financial mathematics.

Prerequisite(s): MATH 677 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 784 - Nonlinear Functional Analysis

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Techniques in nonlinear functional analysis with applications. Contraction mapping principle, Frechet and higher derivatives, the implicit function theorem, Lyapunov-Schmidt method, and bifurcation theory. Finite and infinite dimensional degree theory with applications in partial differential equations.

Prerequisite(s): MATH 675 or permission of instructor.
Notes: Different backgrounds may be appropriate, but generally, a student is expected to be an upper level graduate student who has already taken Linear Analysis. Since the applications given in the course are for differential equations, some familiarity with differential equations is extremely useful.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 790 - Classical Potential Theory

Credits: 3
Not Repeatable for Credit
Offered by Mathematical Sciences
Potential theory of Laplace's equation in Euclidean space. Harmonic functions, superharmonic functions, potentials, polar sets and capacity, the Dirichlet problem, the Martin boundary, boundary behavior of superharmonic functions using real variable techniques, and minimal fine limit techniques.

Prerequisite(s): Math 675 and 776
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MATH 795 - Graduate Seminar
Credits: 1
Repeatable within Degree for Credit
Offered by Mathematical Sciences
Mandatory for all PhD students. Weekly seminar graded on presentations and attendance. Faculty presentations on potential thesis topics and presentations by students.

**Prerequisite(s):** Enrolled in the PhD program in Mathematics.

**Schedule Type:** SEM

**Hours of Lecture or Seminar per week:** 1

**Hours of Lab or Studio per week:** 0

---

### MATH 799 - MS Thesis

Credits: 1-6
Repeatable within Degree for Credit
Offered by Mathematical Sciences
Original or compilatory work evaluated by committee of three faculty members.

**Schedule Type:** IND

**Hours of Lecture or Seminar per week:** 1-6

**Hours of Lab or Studio per week:** 0

**Grading:** S/NC

---

### MATH 800 - Studies for the Doctor of Philosophy in Education

Credits: 1-6
Not Repeatable for Credit
Offered by Mathematical Sciences
Program of studies designed by student's discipline director and approved by student's doctoral committee, which brings the student to participate in current research of discipline director and results in paper reporting the original contributions of student. Enrollment may be repeated.

**Prerequisite(s):** Admission to PhD in education program to study in mathematical sciences.

**Schedule Type:** IND

**Hours of Lecture or Seminar per week:** 1-6

**Hours of Lab or Studio per week:** 0

**Grading:** Graduate Special

---

### MATH 998 - PhD Thesis Proposal

Credits: 1-9
Repeatable within Degree for Credit
Offered by Mathematical Sciences
Work on research proposal that forms basis for doctoral dissertation. May be repeated for credit. No more than 24 credit hours of 998 and 999 may be applied to doctoral degree requirements.

**Prerequisite(s):** Successful completion of qualifying exam.
MATH 999 - PhD Thesis Research

Credits: 1-12
Repeatable within Degree for Credit
Offered by Mathematical Sciences
Formal record of commitment to doctoral dissertation research under the direction of a faculty member. May be repeated for credit. No more than 24 credit hours of 998 and 999 may be applied to doctoral degree requirements.

Prerequisite(s): Advancement to doctoral candidacy.

Mechanical Engineering (ME)

Offered by the Volgenau School of Engineering

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

ME 151 - Practicum in Engineering

Credits: 2
Limited to 2 Attempts
Offered by Mechanical Engineering
This course provides students with experiences in algorithmic thinking, visualization and communications. An essential component of this course is preparation of students for the National Academy of Engineering Grand Challenge Scholars Program.

ME 211 - Statics

Credits: 3
Limited to 2 Attempts
Offered by Mechanical Engineering
An initial course in applied vector mechanics with emphasis on static equilibrium. Topics include forces, moments, couples,
equivalent force-couple systems, centroids, distributed forces, and Coulomb friction. The application of the free body diagram in the analysis of static equilibrium of frames, machines and trusses is stressed.

**Prerequisite(s):** C or better in PHYS 160 and PHYS 161. Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

**ME 212 - Solid Mechanics**

Credits: 3
Limited to 2 Attempts
Offered by Mechanical Engineering

A first course in mechanics of deformable bodies with emphasis on the engineering approach to the responses of these bodies to various types of loadings. Topics include stress-strain relationships, stress-strain analysis, stress and strain transformation (Mohr's circle), load-deflection, bending, torsion, buckling, and thermal effects.

Equivalent to CEIE 310.

**Prerequisite(s):** C or better in ME 211. Prerequisite(s) enforced by registration system.

**Corequisite(s):** MATH 214.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

**ME 221 - Thermodynamics**

Credits: 3
Limited to 2 Attempts
Offered by Mechanical Engineering

A basic thermodynamics course in which the first and second laws of thermodynamics are studied primarily from the classical macroscopic viewpoint and applied to both closed and open systems. Working substances include perfect gases, real gases and vapors in addition to solids and liquids.

Equivalent to ENGR 307 (2013-2014 Catalog).

**Prerequisite(s):** Grade of C or better in MATH 113 and sophomore standing. Prerequisite(s) enforced by registration system.

**Corequisite(s):** MATH 214.

**Schedule Type:** LEC
ME 231 - Dynamics

Credits: 3
Limited to 2 Attempts
Offered by Mechanical Engineering
A course in classical vector dynamics. Topics include vector algebra and calculus, kinematics and kinetics of particles and rigid bodies, as well as energy and momentum methods. Extensive problem solving involving particle and rigid body motion is required.

Prerequisite(s): C or better in ME 211.
Prerequisite(s) enforced by registration system.

Corequisite(s): MATH 214.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

ME 311 - Mechanical Experimentation I

Credits: 1
Limited to 2 Attempts
Offered by Mechanical Engineering
Experimental measurements in solid mechanics and materials science. Involves technical report writing.

Prerequisite(s): C or better in ME 212.
Prerequisite(s) enforced by registration system.

Corequisite(s): ME 313.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

ME 313 - Material Science

Credits: 3
Limited to 2 Attempts
Offered by Mechanical Engineering
An introductory course in physical and mechanical properties of engineering design materials, ceramics and plastics, their structures, use in engineering applications and failure phenomena.
Prerequisite(s): C or better in CHEM 251. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2
When Offered: Fall, Spring

ME 321 - Mechanical Experimentation II

Credits: 1
Limited to 2 Attempts
Offered by Mechanical Engineering
Experimental measurements in fluid mechanics and heat transfer. Involves technical report writing.

Prerequisite(s): C or better in ME 322. Prerequisite(s) enforced by registration system.

Corequisite(s): ME 323.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

ME 322 - Fluid Mechanics

Credits: 3
Limited to 2 Attempts
Offered by Mechanical Engineering
An introductory course in fluid dynamics stressing both the integral and differential forms of the conservation laws of fluid flow. Engineering applications are made to hydrostatics and to ideal and real fluid flows.

Prerequisite(s): C or better in ME 221. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

ME 323 - Heat Transfer

Credits: 3
Limited to 2 Attempts
Offered by Mechanical Engineering
Study of thermal radiation, steady and transient conduction, laminar and turbulent convection, internal and external flow, boundary layers and empirical correlations. Applications address fins, nuclear reactor cooling, heat exchangers and interactive computing.

Prerequisite(s): C or better in ME 322.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

ME 341 - Design of Mechanical Elements

Credits: 3
Limited to 2 Attempts
Offered by Mechanical Engineering
Fundamentals of mechanical design. Introduction to the fundamentals of static and fatigue failure theories, design of basic machine elements such as fasteners, bearings, gearing and shafts. Builds on the fundamentals of design introduced in earlier courses by introducing the concepts of customer requirements, specification development, reverse engineering, functional decomposition, and design for manufacturing.

Prerequisite(s): C or better in ME 212.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

ME 342 - Design of Thermal Systems

Credits: 3
Limited to 2 Attempts
Offered by Mechanical Engineering
A study of equipment which operates on principles of thermodynamics and fluid mechanics is used to reinforce analyses and design of gas and vapor power cycles, refrigeration and air conditioning, propulsion systems, combustion, energy conversion and compressible flow.

Prerequisite(s): C or better in ME 221.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
ME 351 - Analytical Methods in Engineering

Credits: 3  
Limited to 2 Attempts  
Offered by Mechanical Engineering  
Survey of advanced mathematics topics needed in the study of engineering. Topics include vector differential and integral calculus, matrix analysis, partial differential equations, complex variables, numerical methods, data analysis using statistics and probability theory.

Prerequisite(s): C or better in MATH 214.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

ME 352 - Entrepreneurship in Engineering

Credits: 3  
Limited to 2 Attempts  
Offered by Mechanical Engineering  
Introduces students to the concept of entrepreneurship and how to translate technical skill sets to commercial success. Topics include creating a business plan, pitching ideas, risk mitigation, and selecting investment alternatives. Emerging technology related to Mechanical Engineering will be analyzed in this context.

Prerequisite(s): Completion of at least 15 credits hours in major courses.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

ME 368 - Manufacturing

Credits: 3  
Limited to 2 Attempts  
Offered by Mechanical Engineering  
Surveys selected manufacturing processes including rapid prototyping, metal cutting and machining, casting and molding, and thermoforming. Considers selection and use of engineering materials, including composites. Explores the use of Computer Numerical Control (CNC) machine tools for automated component design. Uses a computer-aided design (CAD) and computer-aided manufacturing (CAM) system to design and analyze a mechanical system.

Prerequisite(s): C or higher in ME 341.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring
ME 431 - Systems Dynamics

Credits: 3  
Limited to 2 Attempts  
Offered by Mechanical Engineering  
A first course which deals with the mathematical modeling of dynamic systems and response analysis of these systems. Topics include state variable and transfer functions, mathematical analysis of systems response, and the use of computational tools for modeling, design, and simulation.

Equivalent to ME 380 (2013-2014 Catalog)

Prerequisite(s): C or higher in ME 231, PHYS 260/261.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

ME 432 - Control Engineering

Credits: 4  
Limited to 2 Attempts  
Offered by Mechanical Engineering  
Introduces fundamentals of feedback and modern control theory. Topics include analysis of mechanical and thermal systems by root locus and frequency response techniques. Use of sensors and transducers in control systems, data acquisition and analysis.

Prerequisite(s): Grade of C or better in ME 351.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

ME 443 - Mechanical Design I

Credits: 3  
Limited to 2 Attempts  
Offered by Mechanical Engineering  
The first course in a two-semester capstone design sequence. Topics include the engineering design process, project management, codes and standards, engineering ethics, and computer-aided design. Students form design teams, select a capstone design project and progress through the proposal and preliminary design stages of the project. The capstone design project continues in ME 444.

Equivalent to ME 360 (2013-2014 Catalog).

Prerequisite(s): Grade of C or better in ME 323.
Prerequisite(s) enforced by registration system.

**ME 444 - Mechanical Design II**

Credits: 3  
Limited to 2 Attempts  
Offered by Mechanical Engineering  
The second of the two-semester capstone design course sequence. Students continue with concept selection, detail design, prototyping and evaluation of their major design projects. Formal presentations and reports are prepared to review and document the designs.

Prerequisite(s): C or better in ME 443.  
Prerequisite(s) enforced by registration system.

**ME 453 - Developing the Societal Engineer**

Credits: 2  
Limited to 2 Attempts  
Offered by Mechanical Engineering  
A course which highlights, through speakers, discussions and workshops, the professional responsibility of a being mechanical engineer. Additional topics that will be covered include ethical issues, current events and trends in the profession. Engineering case studies will be explored.

Corequisite(s): ME 443.

**ME 498 - Independent Study in Mechanical Engineering**

Credits: 0-3  
Repeatable within Term for Credit  
Offered by Mechanical Engineering  
Directed self-study of topics of special interest.
Prerequisite(s): Permission of instructor.
Notes: May be repeated for maximum 6 credits

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

**ME 499 - Special Topics in Mechanical Engineering**

Credits: 0-4
Repeatable within Term for Credit
Offered by Mechanical Engineering
Topics of special interest to undergraduates.

Notes: May be repeated for maximum 9 credits if topics substantially differ.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**Medical Laboratory Science (MLAB)**

Offered by the College of Science

**MLAB 200 - Introduction to Medical Laboratory Science**

Credits: 1
Not Repeatable for Credit
Offered by Biology
Introduction to the profession of Medical Laboratory Science.

Equivalent to MTCH 200 (2013-2014 Catalog)

Prerequisite(s): Prerequisite completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall

**MLAB 300 - Science Writing**
Credits: 2
Not Repeatable for Credit
Offered by Biology
Intensive practice in biological science writing. Science Writing will fulfill the university's writing intensive requirement as well as prepare Medical Laboratory Science students for the types of writing that they will encounter in the industry including, but not limited to: writing, resumes, grants, cover letters, etc.

Fulfills writing intensive requirement in the major.

**Schedule Type:** RCT
**Hours of Lecture or Seminar per week:** 2
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

---

**MLAB 401 - Orientation to the Problems and Practices of the Clinical Laboratory**

Credits: 1-2
Repeatable within Term for Credit
Offered by Biology
Orientation to clinical lab; specimen collection and record keeping; management principles and problems; educational theories as they apply to the teaching of clinical laboratory procedures; and quality control principles.

Equivalent to MTCH 401 (2013-2014 Catalog)

**Prerequisite(s):** Prerequisite completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

**Notes:** Not offered on campus.

**Schedule Type:** INT
**Hours of Lecture or Seminar per week:** 1-2
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall

---

**MLAB 402 - Clinical Hematology and Coagulation**

Credits: 1-8
Repeatable within Term for Credit
Offered by Biology
Morphology of blood cells in health and disease; theories of hematopoiesis and coagulation; techniques for measurement of hematologic parameters; and hematologic pathologies and their lab evaluation.

Equivalent to MTCH 402 (2013-2014 Catalog)

**Prerequisite(s):** Prerequisite completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

**Notes:** Not offered on campus.
MLAB 403 - Clinical Microscopy

Credits: 1-3  
Repeatable within Term for Credit  
Offered by Biology  
Methods for the routine examination of urine, feces, and certain other body fluids, especially the microscopic identification of normal and pathologic components. Includes a study of the kidney and theories of microscopy.

Equivalent to MTCH 403 (2013-2014 Catalog)

Prerequisite(s): Prerequisite completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Notes: Not offered on campus.

MLAB 404 - Serology and Immunohematology

Credits: 1-7  
Repeatable within Term for Credit  
Offered by Biology  
Clinical lab procedures involving antigen-antibody reactions, and theoretical bases of such procedures. Includes both diagnostic and blood bank techniques.

Equivalent to MTCH 404 (2013-2014 Catalog)

Prerequisite(s): Prerequisite completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Notes: Not offered on campus.

MLAB 405 - Clinical Microbiology
MLAB 406 - Clinical Chemistry

Credits: 1-10
Repeatable within Term for Credit
Offered by Biology
Chemical reactions and procedures used in clinical determinations on blood, urine, and cerebral spinal fluid. Includes manual, automated methods of chemical analyses.

Equivalent to MTCH 406 (2013-2014 Catalog)

Prerequisite(s): Prerequisite completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.
Notes: Not offered on campus.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
When Offered: Summer

MEIS 500 - Critical Issues and Debates in Middle East and Islamic Studies

Credits: 3
Not Repeatable for Credit
Offered by Middle East and Islamic Studies
Introduces the interdisciplinary study of the Middle East and the Islamic world through an examination of recent seminal works and debates in the field representing the disciplinary perspectives of history, religious studies, political science, and sociology.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MEIS 794 - Graduate Internship in Middle East and Islamic Studies

Credits: 3
Not Repeatable for Credit
Offered by Middle East and Islamic Studies
Internship credit for completion of Middle East and/or Islamic studies related work at an approved government, nonprofit, or private institution.

Prerequisite(s): MEIS 500; HIST 575; RELI 644
Schedule Type: INT
Hours of Lecture or Seminar per week: 3

MEIS 796 - Directed Readings in Middle East and Islamic Studies

Credits: 3
Repeatable within Degree for Credit
Offered by Middle East and Islamic Studies
Directed readings in the field of Middle East and Islamic Studies.

Prerequisite(s): MEIS 500, RELI 644, HIST 575
Notes: May be repeated for a maximum of 6 credits.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3

MEIS 798 - Research Project in Middle East and Islamic Studies

Credits: 3
Not Repeatable for Credit
Offered by Middle East and Islamic Studies
Research project related to Middle East and Islamic studies taken under supervision of faculty adviser.

Prerequisite(s): Completion of 21 credit hours towards MA in Middle East and Islamic Studies degree; satisfactory completion of a research methods course approved as a core course for the MA MEIS.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
MEIS 799 - Thesis Research and Writing in Middle East and Islamic Studies

Credits: 1-6
Repeatable within Degree for Credit
Offered by Middle East and Islamic Studies
Original research and thesis writing for students in the Middle East and Islamic Studies MA program.

Prerequisite(s): Completion of MEIS 500, HIST 535, GOVT 731, GOVT 733, RELI 644; and 27 credit hours toward MA in MEIS degree; permission of MEIS director.
Schedule Type: IND
Grading: Satisfactory/No Credit

Military Science (MLSC)

Offered by the Provost's Office

MLSC 100 - Introduction to Army/ROTC

Credits: 1
Not Repeatable for Credit
Offered by the Provost's Office.
Introduces leadership values and ethics; responsibilities of officership; the organization, customs, and traditions of the U.S. Army; time management; and physical well-being. Includes a laboratory in applied leadership, common military tasks, and physical fitness.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 2

MLSC 102 - Leadership Skills II

Credits: 1
Not Repeatable for Credit
Offered by the Provost's Office.
Introduces leadership principles, dimensions, styles, and assessment, among other varied topics. Includes a laboratory in applied leadership, common military tasks, and physical fitness.

Equivalent to MLSC 101 (2012-2013 Catalog)

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
When Offered: Spring
**MLSC 200 - Self/Team Development**

Credits: 1  
Not Repeatable for Credit  
Offered by the Provost's Office.  
Covers leadership skills, such as values and ethics. Also teaches how to influence, how to communicate, how and when to make decisions, how to engage in creative problem solving, and how to plan and organize. Includes a laboratory in applied leadership, common military tasks, and physical fitness.

Prerequisite(s): MLSC 100 and 101, or approval of professor of military science  
Schedule Type: LAB, LEC  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 2

**MLSC 202 - Leadership Skills IV**

Credits: 1  
Not Repeatable for Credit  
Offered by the Provost's Office.  
Builds on the leadership skills developed in Leadership Skills III with additional emphasis on communication, team building, and team leadership. Includes a laboratory in applied leadership, common military tasks, and physical fitness.

Equivalent to MLSC 201 (2012-2013 Catalog)

Prerequisite(s): MLSC 100 level completion/dual enrollment or military waiver granted by Professor of Military Science (Dept Head).  
Schedule Type: LAB, LEC  
Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 1  
When Offered: Spring

**MLSC 300 - Applied Leadership I**

Credits: 1  
Not Repeatable for Credit  
Offered by the Provost's Office.  
Applied leadership with an introduction to the principles of physical fitness and healthy lifestyle; counseling as means of subordinate development; problem solving; operational analysis, development, and execution; and methods for preparing and presenting instruction. Students are given an introduction to the Leader Development Program that is used to evaluate their leadership performance and provide students with developmental feedback. Some weekend training required. Includes a laboratory in applied leadership, common military tasks, and physical fitness.

Prerequisite(s): MLSC 100, 101, 200, and 201; and credit or veteran status with approval from military science professor  
Schedule Type: LAB, LEC
MLSC 302 - Applied Leadership II

Credits: 1
Not Repeatable for Credit
Offered by the Provost's Office.

Applied leadership covering the models of communications (verbal and nonverbal), technology to communicate, how to prepare and conduct formal briefings, an introduction to the Army branches, diversity and equal opportunity training, ethical decision making, & group cohesion and dysfunction. Some weekend training required. Includes a laboratory in applied leadership, common military tasks, and physical fitness.

Equivalent to MLSC 301 (2012-2013 Catalog)

Prerequisite(s): MLSC 100 & 200 level completion or military credit exemption granted by Professor of Military Science (Dept Head).

Notes: Enrollment in MLSC 300 level course is restricted to students who are contracted or are pre-approved by department/Army ROTC as pending contracting.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
When Offered: Spring

MLSC 400 - Leadership and Management

Credits: 3
Not Repeatable for Credit
Offered by the Provost's Office.

Considered the "transition to lieutenant" phase in which managerial theories are applied to personnel, training, and logistics management situations. Students have command and staff responsibilities for the Mason cadet corps and receive hands-on experience operating as a management team. There are several briefing and writing requirements as well. Includes a laboratory in applied science, common military tasks, and physical fitness.

Prerequisite(s): MLSC 300 and 301
Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2
MLSC 402 - Leadership and Ethics

Credits: 3  
Not Repeatable for Credit  
Offered by the Provost's Office.
Continuing the "transition to lieutenant" phase of ROTC, examines ethics of military environment to include customs, ethical codes & decision making, constraints, and appeals to moral principles. American judicial system is also examined, with emphasis on the Uniform Code of Military Justice. Command and staff responsibilities are assigned to students for hands-on experience operating as a management team for Mason cadet corps. Includes a laboratory in applied leadership, common military tasks, and physical fitness.

Equivalent to MLSC 401 (2012-2013 Catalog)

Prerequisite(s): MLSC 300 & 302  
Schedule Type: LAB, LEC

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

Music (MUSI)

Offered by the College of Visual and Performing Arts

Students may attempt a music course that is required for the major no more than three times.

All private music instruction is by arrangement. Students must consult the director of applied music studies in the School of Music for teacher assignment and registration numbers. Applied music fee applies. Majors and minors who register for applied music must also register for an ensemble.

For music major, music minor, or jazz studies minor: half-hour lesson per week, 1 credit, $193; hour lesson per week, 2 or 3 credits, $390. For non-major or minor: half hour lesson per week, 1 credit, $390; hour lesson per week, 2 credits, $780.

MUSI 100 - Fundamentals of Music

Credits: 3  
Not Repeatable for Credit  
Offered by School of Music

Study of musical notation, interval and triad construction, reading of treble and bass clefs, scale construction, rhythm, elementary sight singing and ear training, and application at keyboard.

Fulfills Mason Core requirement in arts.

Notes: Cannot be applied toward degree in music.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring
MUSI 101 - Introduction to Classical Music

Credits: 3
Not Repeatable for Credit
Offered by School of Music

Introduces art-music tradition of West. Techniques for expanding listening skills developed through study of musical elements, styles, and selected masterworks of musical literature.

Fulfills Mason Core requirement in arts.

Notes: Music majors may take only as free elective.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 102 - Popular Music in America

Credits: 3
Not Repeatable for Credit
Offered by School of Music

Investigates popular music styles and development in the United States with particular emphasis on the past 50 years. Lectures, recordings, and video enhance critical listening skills and examine stylistic and social contexts of popular music.

Fulfills Mason Core requirement in arts.

Notes: Music majors may take only as free elective.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 103 - Musics of the World

Credits: 3
Not Repeatable for Credit
Offered by School of Music

Study and comparison of musical structure and expression in several world cultures, with special attention to social context and function. Studies selected Asian, Middle Eastern, African, and American (Latin, Native, African) cultures.

Fulfills Mason Core requirement in global understanding.

Notes: For non-music majors only. Fulfills the college-level requirement in non-Western culture.

Schedule Type: LEC
MUSI 104 - Introduction to Twentieth-Century Music

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Survey of various styles found in 20th-century music. Tonal, atonal, serial, and experimental music.

Notes: Music majors may take only as free elective.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 105 - Music in the United States

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Study of music in the United States from colonial times to present. Through interaction with musical examples, traces significant African and European influences on emerging style and artistic activity in the United States.

Notes: Music majors may take only as free elective.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 106 - Fundamentals of Rock, Blues, and Jazz

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Fundamentals of Blues, Rock, and Jazz is designed for students without formal training in music theory. The course focuses on Afro-centric concepts in twentieth-century American musical culture including improvisation, emphasis on rhythm and groove, and use of multiple and integrated tonalities, such as major and minor in the blues.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
MUSI 107 - Jazz and Blues in America

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Historical, analytical, and aural survey of jazz from inception to present day. Looks at trends resulting from synthesis of jazz with other musical idioms.

Fulfills Mason Core requirement in arts.

Notes: Music majors may take as free elective or part of jazz studies concentration.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 113 - Aural Skills I

Credits: 1
Limited to 3 Attempts
Offered by School of Music
Students taught to sing a line of music without accompaniment of instrument. Matching tones, major and minor scales, key signatures, intervals, rhythm, treble and bass clefs, and rhythmic and melodic dictation.

Prerequisite(s): Restricted to MUSI majors, MUSI minors, and Jazz Studies minors, or to those with permission of music associate chair.

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 114 - Aural Skills II

Credits: 1-2
Limited to 3 Attempts
Offered by School of Music
Continuation of MUSI 113. Alto and tenor clefs, modulation, various modes, and melodic and harmonic dictation.

Prerequisite(s): MUSI 113, or permission of instructor

Schedule Type: STU
Hours of Lecture or Seminar per week: 1-2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 115 - Theory I
Credits: 3
Limited to 3 Attempts
Offered by School of Music
Music notation, scales, key signatures, intervals, chords, cadences, and figured bass.

Prerequisite(s): Student must be able to read music, be able to pass a fundamentals of music test (administered during first week of classes), and have some proficiency on a musical instrument or in voice. Restricted to MUSI majors; MUSI minors and Jazz Studies minors need permission of music associate chair; non-MUSI majors need permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MUSI 116 - Theory II

Credits: 3
Limited to 3 Attempts
Offered by School of Music
First- and second-inversion chords, modulation, nonharmonic tones, figured bass, seventh chords. Analysis of Bach chorales; composition of four-part chorales in 18th-century style.

Prerequisite(s): MUSI 115, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

MUSI 121 - NonMaj PMI:First Instrum

Credits: 1-2
Repeatable within Degree for Credit
Offered by School of Music
Prerequisite(s): For non-music majors only. Two-credit level restricted to students with substantial prior private study.
Schedule Type: PMI
Hours of Lecture or Seminar per week: 1-2
Hours of Lab or Studio per week: 0

MUSI 122 - NonMaj PMI:Secnd Instrum

Credits: 1-2
Repeatable within Degree for Credit
Offered by School of Music
Schedule Type: PMI
Hours of Lecture or Seminar per week: 1-2
Hours of Lab or Studio per week: 0
MUSI 171 - Keyboard Skills I

Credits: 1
Limited to 3 Attempts
Offered by School of Music
Study of piano keyboard as it relates to various clefs in music. Emphasis on solution of basic stylistic and technical problems.

Prerequisite(s): Restricted to MUSI majors, MUSI minors, and jazz studies minors, or to those with permission of music associate chair.

Schedule Type: STU
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 3
When Offered: Fall

MUSI 172 - Keyboard Skills II

Credits: 1
Limited to 3 Attempts
Offered by School of Music
Study of piano keyboard as it relates to intermediate song and combined in various music forms.

Prerequisite(s): MUSI 171. Restricted to MUSI majors, MUSI minors, and jazz studies minors, or to those with permission of music associate chair.

Notes: Nonmusic majors must have permission of instructor.

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 3
When Offered: Spring

MUSI 200 - Music Theater Practicum

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Practicum records successful participation on a minimum 30 hour assignment on a Music-Theater production. It is an opportunity for students to apply classroom learning in a hands-on situation.

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 1
Grading: Satisfactory/No Credit
When Offered: Fall, Spring

MUSI 213 - Aural Skills III
MUSI 214 - Aural Skills IV

Credits: 2
Limited to 3 Attempts
Offered by School of Music
Continuation on MUSI 213 with emphasis on chromatic and non-tonal harmonies.

Prerequisite(s): MUSI 213, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

MUSI 215 - Theory III

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Study of four-part chromatic harmony and analysis of 19th-century compositions.

Prerequisite(s): MUSI 116 or permission of instructor. Restricted to music majors; music minors and jazz studies minors need permission of music associate chair; non-music majors need permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MUSI 216 - Theory IV

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Study of melodic, harmonic, rhythmic, and formal processes in post-tonal music.

Prerequisite(s): MUSI 215, or permission of instructor.
MUSI 221 - Applied Music I

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies 1.

Prerequisite(s): Audition or portfolio.
Notes: May be repeated for up to 8 credits.

MUSI 222 - Applied Music in Keyboard

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Keyboard.

Prerequisite(s): Audition.
Notes: May be repeated for up to 8 credits.

MUSI 223 - Applied Music in Voice

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Voice.

Prerequisite(s): Audition.
Corequisite(s): MUSI 381, 384, or 385.

Notes: May be repeated for up to 8 credits.
MUSI 224 - Applied Music in Woodwind

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Woodwind.

Prerequisite(s): Audition.
Notes: May be repeated for up to 8 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0.5

MUSI 225 - Applied Music in Brass

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Brass.

Prerequisite(s): Audition.
Notes: May be repeated for up to 8 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0.5

MUSI 226 - Applied Music in String

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in String.

Prerequisite(s): Audition.
Notes: May be repeated for up to 8 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0.5
MUSI 227 - Applied Music in Percussion

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Percussion.

Prerequisite(s): Audition.
Notes: May be repeated for up to 8 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0.5

MUSI 228 - Applied Music in Composition

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Composition.

Prerequisite(s): Portfolio of recent compositions.
Notes: May be repeated for up to 8 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

MUSI 229 - Non-Major Applied Music I

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies I.

Prerequisite(s): Audition or portfolio.
Schedule Type: LAB
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1

MUSI 241 - Applied Music II

Credits: 2
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies 2.
Prerequisite(s): Audition or portfolio.
Notes: May be repeated for up to 16 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 242 - Applied Music in Keyboard

Credits: 2
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Keyboard.

Prerequisite(s): Audition.
Notes: May be repeated for up to 16 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 243 - Applied Music in Voice

Credits: 2
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Voice.

Prerequisite(s): Audition.
Corequisite(s): MUSI 381, 384, or 385.

Notes: May be repeated for up to 16 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 244 - Applied Music in Woodwind

Credits: 2
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Woodwind.

Prerequisite(s): Audition.
Notes: May be repeated for up to 16 credits.
MUSI 245 - Applied Music in Brass

Credits: 2
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Brass.

Prerequisite(s): Audition.
Notes: May be repeated for up to 16 credits.

MUSI 246 - Applied Music in String

Credits: 2
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in String.

Prerequisite(s): Audition.
Notes: May be repeated for up to 16 credits.

MUSI 247 - Applied Music in Percussion

Credits: 2
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Percussion.

Prerequisite(s): Audition.
Notes: May be repeated for up to 16 credits.
MUSI 248 - Applied Music in Composition

Credits: 2
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Composition.

Prerequisite(s): Portfolio of recent compositions.
Notes: May be repeated for up to 16 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 249 - Non-Major Applied Music II

Credits: 2
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies II.

Prerequisite(s): Audition or portfolio.
Schedule Type: LAB
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 2

MUSI 251 - Musical/Oral Communication

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Introduces theories, processes, and practices to achieve effective oral communication; connects those principles with expressive musical performance. Explores parallels between grammar, logic, and rhetoric and musical structure, design, and performance. Critically analyzes time, tonality, and texture, applies these concepts in pedagogical contexts related to effective performance, practice habits, communication styles, and identifying/preventing performance-related repetitive overuse injuries.

Fulfills Mason Core requirement in oral communication for the Music BA and BM only.

Prerequisite(s): Admission to the music major or minor program or permission of instructor.
Notes: Requires observing professionals in the field.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall
MUSI 252 - Popular Music Arranging

Credits: 3
Limited to 3 Attempts
Offered by School of Music
This course explores popular music styles and genres. Using this information to analyze popular music and arrange the music for various ensembles.

Prerequisite(s): MUSI 215.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 254 - Music and Technology

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Study of technology related to music, including audio synthesis and computer-based hardware and software.

Equivalent to MUSI 315.

Prerequisite(s): MUSI 100 or MUSI 115.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 259 - Music in Computer Technology

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Overview of ways computer is used in music. Topics include principles of musical instrument digital interface (MIDI); various kinds of synthesis; acoustics and sound processing; and musical composition using the computer. Explores music resources of internet and surveys current multimedia applications in music history, theory, ear training, improvisation, and notation.

Fulfills Mason Core requirement in information technology (all).

Equivalent to MUSI 415.

Schedule Type: LAB, LEC

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1
When Offered: Fall, Summer, Spring
MUSI 273 - Keyboard Skills III

Credits: 1
Limited to 3 Attempts
Offered by School of Music
Continuation of MUSI 172. Study of techniques of harmonization at the piano keyboard.

Prerequisite(s): MUSI 172. Restricted to MUSI majors, MUSI minors, and Jazz Studies minors, or permission of music associate chair.
Notes: Nonmusic majors must have permission of instructor.

Schedule Type: STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Fall

MUSI 280 - Athletic and Ceremonial Ensemble

Credits: 0-1
Repeatable within Term for Credit
Offered by School of Music
Students gain an understanding of American popular and other musics developing personal expression via performance and creative design. Students also learn and develop leadership and management skills. An understanding of the vital role of community outreach and service is gained through first-hand experience.

Fulfills Mason Core requirement in arts.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 300 - Recital Attendance

Credits: 0
Repeatable within Degree for Credit
Offered by School of Music
Students attend 10 student recitals to be selected from departmental and music education recitals, and junior, senior, and graduate recitals.

Schedule Type: STU
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: S/NC
When Offered: Fall, Spring

MUSI 301 - Music in Motion Pictures
Offered by School of Music

Intensive study and analysis of using music tracks in motion pictures to introduce the picture, set a scene, create moods, or for musical numbers. From the silent film scores of the 1920s to the present (including electronic music).

Fulfills Mason Core requirement in arts.

Prerequisite(s): 30 credits.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 302 - American Musical Theater

Credits: 3
Not Repeatable for Credit

Intensive study of the musical elements in the American musical theater from its European and later African roots to its evolution between the wars into a native form, and its continual assimilation of external influences such as new forms of jazz and rock to the eclectic form of the present day.

Fulfills Mason Core requirement in arts.

Prerequisite(s): 30 credit hours or permission of the instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 303 - Topics in Ethnomusicology

Credits: 3
Repeatable within Degree for Credit

Advanced study of theory and method in ethnomusicology with specific thematic or geographic focus. Course emphasizes critical thinking, listening, and research in the study of music from around the world.

Prerequisite(s): MUSI 103, or MUSI 431, or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 304 - Topics in Musicology

Credits: 3
Repeatable within Degree for Credit
Offered by School of Music
Designed for students with no music theory background, the course explores the intersection of music and culture in relation to specific topics. Issues addressed may include race, class, gender, economic context, aesthetics, etc.

Prerequisite(s): 30 hours completed.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**MUSI 311 - Jazz Studies**

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Musicianship course integrating jazz improvisation, theory, composition, and arranging. Focuses on concepts unique to our time in style, form, and harmony.

Prerequisite(s): MUSI 379 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**MUSI 315 - Music Technology**

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Study of technology related to music, including audio synthesis and computer-based hardware and software.

Equivalent to MUSI 254.

Prerequisite(s): MUSI 100 or 115
Notes: There is a course fee beyond tuition charges.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**MUSI 316 - Topics in Music Technology**

Credits: 3
Repeatable within Degree for Credit
Offered by School of Music
Selected topics in music technology with an emphasis on musical creativity. Includes consideration of recent developments in areas such as electronic composition, the science of music, recording industry and practices, and music industry.
Equivalent to MUSI 359.

**Prerequisite(s):** MUSI 315.

**Notes:** Can be repeated for up to 9 credits. There is a course fee beyond tuition charges.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**MUSI 319 - Class Composition and Arranging**

Credits: 3
Limited to 3 Attempts
Offered by School of Music

Students write original compositions for specified instruments, voices, or combinations. They then apply compositional principles to the creative arrangement of existing music of various styles.

**Prerequisite(s):** MUSI 114 or 216, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall

---

**MUSI 321 - Non-Major PMI**

Credits: 1-2
Not Repeatable for Credit
Offered by School of Music

**Prerequisite(s):** 4 credits in Non-Major Private Music Instruction or audition for the PMI coordinator.

**Schedule Type:** PMI

**Hours of Lecture or Seminar per week:** 1-2

**Hours of Lab or Studio per week:** 0

---

**MUSI 323 - Music Education Recital**

Credits: 0
Not Repeatable for Credit
Offered by School of Music

Recital on major instrument given by student during junior or senior year.

**Prerequisite(s):** Minimum 8 credits in private music instruction in major instrument

**Corequisite(s):** Concurrent enrollment in appropriate 2-credit private music instruction course.

**Notes:** Recital must be at least 25 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates.

**Schedule Type:** PMI
MUSI 324 - Junior Recital

Credits: 1
Not Repeatable for Credit
Offered by School of Music
Public recital by student during junior year.

Corequisite(s): Concurrent enrollment in appropriate 3-credit private music instruction course.

Notes: Junior recital must be at least 25 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 325 - Performance Seminar and Vocal Literature for Singers and Accompanists I

Credits: 2
Repeatable within Degree for Credit
Offered by School of Music
Students assigned vocal literature in Italian, English, German, and French from Baroque to 21st century, and perform in a weekly master class format. Designed for vocal performance and piano and accompanying majors; develops and improves artistic and performance skills, repertoire preparation and execution, diction, interpretation, style, and overall stage presence.

Prerequisite(s): Admission to the Music major program or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 326 - Performance Seminar and Vocal Literature for Singers and Accompanists II - German and French

Credits: 2
Repeatable within Degree for Credit
Offered by School of Music
Students assigned vocal literature in Italian, English, German, and French from Baroque to 21st century, and perform in a weekly master class format. Designed for vocal performance and piano and accompanying majors; develops and improves artistic and performance skills, repertoire preparation and execution, diction, interpretation, style, and overall stage presence.

Prerequisite(s): Admission to the Music major program or permission of instructor.
Schedule Type: LEC
MUSI 331 - Music History in Society I

Credits: 3  
Limited to 3 Attempts  
Offered by School of Music  
Historical survey of Western music from Greek times through the late Baroque era, with emphasis on specific musical genres and composers who developed them. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments.

Prerequisite(s): MUSI 215 or permission of instructor  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

MUSI 332 - Music History in Society II

Credits: 3  
Limited to 3 Attempts  
Offered by School of Music  
Historical survey of Western music from the early Classical era through mid-19th century, with emphasis on specific musical genres and composers who developed them. Musical developments related to other aspects of society. Lectures, recordings, video. Learning process enhanced by reading, listening, writing, and analytical assignments.

Fulfills writing intensive requirement in the major.

Prerequisite(s): MUSI 216 and 331, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

MUSI 338 - Music History in Society A

Credits: 3  
Limited to 3 Attempts  
Offered by School of Music  
Historical survey of Western music from the late Renaissance through the Romantic era, with emphasis on specific musical genres and composers who developed them. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments.

Prerequisite(s): MUSI 215, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3
MUSI 341 - Diction for Singers I: Italian Diction and English Diction

Credits: 2
Limited to 3 Attempts
Offered by School of Music
Increases proficiency in singing in Italian and English by teaching International Phonetic Alphabet (IPA), and strengthens performance of Italian and English art songs and operatic repertoire. Focuses on intensified, systematic study of phonetics as it applies to singing in Italian and English.

Prerequisite(s): Admission to the Music major program or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

MUSI 342 - Diction for Singers II: German Diction and French Diction

Credits: 2
Limited to 3 Attempts
Offered by School of Music
Increases proficiency in singing in German and French by teaching International Phonetic Alphabet (IPA), and strengthens performance of German and French art songs and operatic repertoire. Focuses on intensified, systematic study of phonetics as it applies to singing in German and French.

Prerequisite(s): Restricted to MUSI majors and minors. Non majors need permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

MUSI 351 - Keyboard Pedagogy

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Investigates methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations.

Prerequisite(s): MUSI 114, 216 and 273; and 8 credits in piano, organ, or harpsichord; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer
MUSI 352 - Vocal Pedagogy and Lab

Credits: 3  
Limited to 3 Attempts  
Offered by School of Music  
Instruction in teaching of voice through systematic study of vocal physiology and its implications for pedagogical methods. Includes theoretical and systematic study of processes, procedures, and practices to develop art of singing. Offers technical, physiological, theoretical, and practical principals of the singing art, with emphasis on the importance of vocal health.

Prerequisite(s): 8 credits Applied Music in Voice, or permission of instructor.  
Schedule Type: LAB, LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1

MUSI 353 - Instrumental Pedagogy and Literature

Credits: 3  
Limited to 3 Attempts  
Offered by School of Music  
Instruction in teaching instrumental music techniques for all levels through study of pedagogical methods, standard literature, and musical instruments produced by present-day manufacturers.

Prerequisite(s): Junior standing in instrumental private music instruction, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MUSI 354 - Electronic Composition

Credits: 3  
Limited to 3 Attempts  
Offered by School of Music  
This course explores the techniques used in recording music with current software and hardware to edit, modify, and market music.

Prerequisite(s): MUSI 255.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

MUSI 355 - Recording Techniques

Credits: 3  
Limited to 3 Attempts
Offered by School of Music
Explores the techniques used in recording music with current software and hardware to edit, modify, and market music.

**Prerequisite(s):** MUSI 255.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Summer, Spring

---

**MUSI 358 - Music Programming**

Credits: 3
Not Repeatable for Credit
Offered by School of Music
The purpose of the class is to learn basic programming skills and concepts and to apply them directly to musical concepts and ideas.

**Prerequisite(s):** MUSI 254.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

---

**MUSI 359 - Topics in Music Technology**

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Selected topics in music technology with an emphasis on musical creativity. Includes consideration of recent developments in areas such as electronic composition, the science of music, recording industry and practices, and music industry.

Equivalent to MUSI 316

**Prerequisite(s):** MUSI 354, MUSI 355.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Summer, Spring

---

**MUSI 361 - Class Strings: Violin, Viola, Cello, and Bass**

Credits: 1
Limited to 3 Attempts
Offered by School of Music
Study of playing and teaching string instruments with emphasis on violin and cello through beginning method book. Study of fingerings and bowing techniques to teach and play viola and bass at beginning levels. Survey of string playing techniques to conduct rehearsals at intermediate-, advanced-, and artist-level ensembles.
Prerequisite(s): Admission to music major program, or permission of instructor.
Notes: Three hours per week studying violin, viola, cello, and bass; one hour per week in laboratory ensemble.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 363 - Class Woodwinds

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Study of techniques of playing and teaching Woodwind instruments, including flute, clarinet, saxophone, oboe, and bassoon. Survey of instructional materials, and mouthpiece and instrument selection.

Prerequisite(s): Admission to music major program, or permission of instructor.
Schedule Type: LAB, STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4
When Offered: Fall, Spring

MUSI 364 - Class Woodwinds: Oboe and Bassoon

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Study of techniques of playing and teaching oboe and bassoon. Survey of instructional materials, instrument selection, and reed adjustment.

Prerequisite(s): Admission to music major program, or permission of instructor.
Notes: Three hours per week studying oboe and bassoon; one hour per week in laboratory ensemble.

Schedule Type: LAB, STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 365 - Class Brass: Trumpet and French Horn

Credits: 1
Limited to 3 Attempts
Offered by School of Music
Study of techniques of playing and teaching trumpet and French horn. Survey of instructional materials, and mouthpiece and instrument selection.
Prerequisite(s): Admission to music major program, or permission of instructor.
Notes: Three hours per week studying trumpet and French horn; one hour per week in laboratory ensemble.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 366 - Class Percussion

Credits: 1
Limited to 3 Attempts
Offered by School of Music
Study of techniques of playing and teaching percussion instruments. Survey of instructional materials and instrument selection.

Prerequisite(s): Admission to music major program, or permission of instructor.
Notes: Three hours per week studying percussion instruments; one hour per week in laboratory ensemble.

Schedule Type: LAB,
STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 367 - Class Guitar

Credits: 1
Limited to 3 Attempts
Offered by School of Music
Study of techniques of playing and teaching guitar. Survey of instructional materials and instrument selection.

Prerequisite(s): Admission to music major program, or permission of instructor.
Notes: Three hours per week studying guitar; one hour per week in laboratory ensemble.

Schedule Type: LAB,
STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 368 - Class Voice

Credits: 1
Limited to 3 Attempts
Offered by School of Music
Study of the human voice in artistic singing. Emphasizes practical application of basic principles.

Prerequisite(s): Admission to music major program, or permission of instructor.
Notes: Three hours per week studying voice; one hour per week in laboratory ensemble.

Schedule Type: LAB, STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

MUSI 369 - Class Brass: Trombone, Euphonium, and Tuba

Credits: 1
Limited to 3 Attempts
Offered by School of Music
Study of techniques of playing and teaching trombone, euphonium, and tuba. Survey of instructional materials and mouthpiece and instrument selection.

Prerequisite(s): Admission to music major program, or permission of instructor.
Notes: Three hours per week studying trombone, euphonium, or tuba; one hour per week in laboratory ensemble.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 4

MUSI 371 - Techniques of Accompanying I

Credits: 1
Limited to 3 Attempts
Offered by School of Music
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations, and performances by professionals; and participate in master classes.

Prerequisite(s): Restricted to piano majors and minors, or to those with permission of instructor.
Notes: May be taken two times for credit.

Schedule Type: STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring, Summer

MUSI 372 - Techniques of Accompanying II

Credits: 1
Limited to 3 Attempts
Offered by School of Music
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations, and performances by professionals; and participate in master classes.
**Prerequisite(s):** MUSI 371. Audition on a keyboard instrument for admission to a music degree program, 4 credits in undergraduate Private Music Instruction on a keyboard instrument, or permission of instructor.

**Notes:** May be taken two times for credit.

**Schedule Type:** STU  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring, Summer

---

**MUSI 373 - Advanced Accompanying and Musicianship Skills**

Credits: 3  
Limited to 3 Attempts  
Offered by School of Music  
Advanced study and techniques for accompanying choirs, vocal soloists, and instrumentalists. Additional instruction in keyboard reduction of orchestral scores for concertos, continuo/figured bass reading, lead-sheet reading, transposition, improvisation, transcription, and "playing by ear."

**Prerequisite(s):** MUSI 372 or permission of instructor.  
**Corequisite(s):** MUSI 372 or permission of instructor.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**MUSI 379 - Jazz Improvisation**

Credits: 1  
Limited to 3 Attempts  
Offered by School of Music  
Study of improvisation techniques and styles, with emphasis on common practice period of jazz. Application on the student's major instrument or voice to develop creativity and personal expression.

**Prerequisite(s):** MUSI 116 or permission of instructor; corequisite for Jazz Studies minors: MUSI 485 (Jazz Chamber Ensembles).  
**Schedule Type:** STU  
**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 2

---

**MUSI 380 - Wind Symphony**

Credits: 1  
Repeatable within Term for Credit  
Offered by School of Music  
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Highly selective group of instrumentalists perform works from wind symphony repertoire.
Fulfills Mason Core requirement in arts.

**Prerequisite(s):** Audition.
**Notes:** Public concerts required.

**Schedule Type:** STU
**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 3
**When Offered:** Fall, Spring

### MUSI 381 - University Chorale

Credits: 1
Repeatable within Term for Credit
Offered by School of Music
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from choral repertoire.

Fulfills Mason Core requirement in arts.

**Prerequisite(s):** Audition.
**Notes:** Public concerts required.

**Schedule Type:** STU
**Hours of Lecture or Seminar per week:** 1-6
**Hours of Lab or Studio per week:** 3
**When Offered:** Fall, Spring

### MUSI 382 - Piano Ensemble

Credits: 1
Repeatable within Term for Credit
Offered by School of Music
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Study and performance of original four-hand works for one and two pianos.

Fulfills Mason Core requirement in arts.

**Prerequisite(s):** 4 hours of PMI (Piano) and audition. Written Permission of Instructor required.
**Notes:** Public performances required.

**Schedule Type:** STU
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 3
**When Offered:** Fall, Spring

### MUSI 383 - Symphonic Band
Credits: 1
Repeatable within Term for Credit
Offered by School of Music
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from band repertoire.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Audition.
Notes: Public concerts required.

Schedule Type: STU
Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

MUSI 384 - Symphonic Chorus

Credits: 1
Repeatable within Term for Credit
Offered by School of Music
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of major works from the choral repertoire.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Audition.
Notes: Public concerts are given.

Schedule Type: STU
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

MUSI 385 - Chamber Singers

Credits: 1
Repeatable within Term for Credit
Offered by School of Music
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Students explore their levels of artistic development through discovery, interpretation, and performance of choral music for vocal chamber music ensembles from multiple historical periods. Students bring to Mason and surrounding community musical compositions not readily accessible in regular concert repertoire.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Audition.
Schedule Type: STU
Hours of Lecture or Seminar per week: 1-12
MUSI 387 - Symphony Orchestra

Credits: 1
Repeatable within Term for Credit
Offered by School of Music
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from symphony orchestra repertoire.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Audition.
Notes: Public concerts required.

Schedule Type: STU
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

MUSI 388 - Fundamental Techniques of Stagecraft for Opera and Music Theater

Credits: 2
Limited to 3 Attempts
Offered by School of Music
Study of basic to intermediate stage movement techniques necessary to the performance of opera and music theater roles. Emphasis on acting, improvisation, theater production, musical theater, and operatic role study.

Prerequisite(s): Admission to music program, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1

MUSI 389 - Jazz Ensemble

Credits: 1
Repeatable within Term for Credit
Offered by School of Music
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Provides practical experience in various aspects of jazz performance: section work within a large aggregation, combo work, and improvisation.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Audition.
Notes: Public concerts required.
MUSI 391 - Conducting I

Credits: 2
Limited to 3 Attempts
Offered by School of Music
Study of basic techniques of conducting a musical ensemble.

Prerequisite(s): MUSI 114, 216, and 273; or permission of instructor.

Schedule Type: STU
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 3
When Offered: Fall

MUSI 393 - Music Administration and Management

Credits: 2
Limited to 3 Attempts
Offered by School of Music
Prepares students to address aspects of administration and management of music programs in public and private schools. Investigates principles and concepts of management styles and planning. Covers curriculum, budget, student recruitment and retention, external relations of the music unit, and legal issues for music educators.

Prerequisite(s): MUSI 116, or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

MUSI 394 - Ethnomusicology Internship

Credits: 1-4
Repeatable within Degree for Credit
Offered by School of Music
Option A) Professional internship with an organization dedicated to activities related to the field of ethnomusicology; Option 8) Teaching internship in an undergraduate ethnomusicology course at Mason, supervised by the minor coordinator.

Prerequisite(s): MUSI 103, or MUSI 431; Permission of the Ethnomusicology Minor Coordinator.
Notes: All internships must be approved and all arrangements made prior to the beginning of the semester in which the internship is to take place.

Schedule Type: INT
MUSI 395 - Teaching Internship

Credits: 1-4
Repeatable within Term for Credit
Offered by School of Music
Internship with a professional individual or organization in teaching. Introduction to teaching or augmentation of teaching skills. Students develop individual contracts defining the learning and competencies to be gained from the experience.

Prerequisite(s): MUSI 251.
Notes: Maximum of 9 internship credits (MUSI 395, 495, 496) can be applied toward a degree.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 396 - Conducting II

Credits: 2
Limited to 3 Attempts
Offered by School of Music
Advanced conducting course emphasizing techniques for instrumental and choral conducting. Refining gestures, full score analysis and interpretation, rehearsal techniques, and changing meters.

Prerequisite(s): MUSI 391, or permission of instructor.
Schedule Type: STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 401 - Impact of the Arts on Civilization

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Analyzes how genres of art impact us intellectually, emotionally, and subliminally. Broadens aesthetic and historical perspective, exposes students to major strands of contemporary thought, and develops discursive abilities through role-playing in round table discussions.

Prerequisite(s): 30 credits, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MUSI 415 - Music in Computer Technology

Credits: 3  
Not Repeatable for Credit  
Offered by School of Music  
Overview of ways computer is used in music. Topics include principles of musical instrument digital interface (MIDI); various kinds of synthesis; acoustics and sound processing; and musical composition using the computer. Explores music resources of Internet and surveys current multimedia applications in music history, theory, ear training, improvisation, and notation.

Prerequisite(s): MUSI 319, or permission of instructor.  
Schedule Type: LAB,  
LEC  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 1  
When Offered: Spring

MUSI 419 - Orchestration

Credits: 3  
Limited to 3 Attempts  
Offered by School of Music  
Principles of combining and balancing instruments in orchestral and chamber contexts. Attention to orchestral terminology and general notation as well as timbre, range, clefs, transposition, special effects, and scoring procedures.

Prerequisite(s): MUSI 114, 216, and 319; or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

MUSI 421 - Applied Music III

Credits: 1  
Repeatable within Degree for Credit  
Offered by School of Music  
Applied music studies 3.

Prerequisite(s): Audition or portfolio of recent compositions.  
Notes: May be repeated for up to 8 credits.

Schedule Type: PMI  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0.5
MUSI 424 - Senior Recital

Credits: 1
Not Repeatable for Credit
Offered by School of Music
Public recital by student during senior year.

Corequisite(s): Concurrent enrollment in appropriate 3-credit private music instruction course.

Notes: Senior recital must be at least 50 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 431 - Music History in Society III

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Studies contributions to the world of music in selected cultures such as India, Indonesia, China, Japan, Africa, Middle East, and Americas. Emphasizes comparative musical characteristics as well as sociological function. Lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments.

Fulfills Mason Core requirement in global understanding.

Prerequisite(s): MUSI 216, 331, and 332; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

MUSI 432 - Music History in Society IV

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Historical survey of Western music from late 19th century to present, with emphasis on specific musical genres and composers who developed them. Relates musical developments to other aspects of society, and considers interaction between world music. Lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments.

Prerequisite(s): MUSI 216, 331, 332, and 431; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall
MUSI 438 - Music History in Society B

Credits: 3
Limited to 3 Attempts
Offered by School of Music

Historical survey of Western vernacular and classical music from 1877 to 1945, with emphasis on musical genres, composers, and performers. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video.
Fulfills writing intensive requirement in the BA in music with a concentration in Music Technology.

Prerequisite(s): MUSI 338 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 439 - Music History in Society C

Credits: 3
Limited to 3 Attempts
Offered by School of Music

Historical survey of Western vernacular and classical music from 1945 to present, with emphasis on specific musical genres, composers, and performers. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments.

Prerequisite(s): MUSI 438, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 441 - Private Music Instruction III

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies 4.

Prerequisite(s): Audition or portfolio of recent compositions.
Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
MUSI 442 - Applied Music in Keyboard

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Keyboard.

Prerequisite(s): Audition.
Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

MUSI 443 - Applied Music in Voice

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Voice.

Prerequisite(s): Audition.
Corequisite(s): MUSI 381, 384, or 385.
Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

MUSI 444 - Applied Music in Woodwind

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Woodwind.

Prerequisite(s): Audition.
Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall, Spring

MUSI 445 - Applied Music in Brass

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Brass.

**Prerequisite(s):** Audition.
**Schedule Type:** PMI
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 1
**When Offered:** Fall, Spring

### MUSI 446 - Applied Music in String

Credits: 2-3
Repeateable within Degree for Credit
Offered by School of Music
Applied music studies in String.

**Prerequisite(s):** Audition.
**Schedule Type:** PMI
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 1
**When Offered:** Fall, Spring

### MUSI 447 - Applied Music in Percussion

Credits: 2-3
Repeateable within Degree for Credit
Offered by School of Music
Applied music studies in Percussion.

**Prerequisite(s):** Audition.
**Schedule Type:** PMI
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 1
**When Offered:** Fall, Spring

### MUSI 448 - Applied Music in Composition

Credits: 2-3
Repeateable within Degree for Credit
Offered by School of Music
Applied music studies in Composition.

**Prerequisite(s):** Portfolio of recent compositions.
**Schedule Type:** PMI
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 1
**When Offered:** Fall, Spring
MUSI 450 - Jazz Improvisation I

Credits: 2  
Limited to 3 Attempts  
Offered by School of Music  
Emphasizes improvisational materials and language developed in common practice period of jazz.

Prerequisite(s): MUSI 379 or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 1

MUSI 451 - Keyboard Pedagogy II

Credits: 3  
Limited to 3 Attempts  
Offered by School of Music  
Intensive study of methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations.

Prerequisite(s): MUSI 351 or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MUSI 452 - Jazz Improvisation II

Credits: 2  
Limited to 3 Attempts  
Offered by School of Music  
Emphasis on advanced improvisational techniques and contemporary tunes.

Prerequisite(s): MUSI 399 or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 1

MUSI 454 - Jazz Arranging

Credits: 3  
Limited to 3 Attempts  
Offered by School of Music  
Transcription, analysis, and scoring for small and large jazz ensembles.
Prerequisite(s): MUSI 311 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**MUSI 455 - Music as a Healing Art**

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Study of the relationship between musical vibrations and the natural rhythms of the body. Topics include history of music and healing, theory of sound, cymatics, toning, and performance practice as well as a survey of vibrational healing modalities and related therapies. Considers listening examples as they apply to healing with music. Students sing and play instruments in directed improvisatory performance.

Prerequisite(s): Basic proficiency with instrument or voice or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**MUSI 461 - The Teaching of General Music in the Elementary and Middle School**

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Studies theory, methods, practice, and materials to teach general music in elementary and middle school. Students spend three hours per week in class and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in the public schools.

Prerequisite(s): MUSI 114, 216, 273; and acceptance into music education concentration.
Corequisite(s): MUSI 391

Notes: For music majors only.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Fall

**MUSI 463 - The Teaching of Vocal Music in the Secondary School**

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Survey of repertoire and methods for teaching high school choral groups, small ensembles, and voice classes. Students spend
three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

**Prerequisite(s):** MUSI 114, 216, 273, and 391; and acceptance into music education concentration.

**Corequisite(s):** MUSI 396.

**Notes:** For music majors only.

**Schedule Type:** LAB, LEC

- **Hours of Lecture or Seminar per week:** 3
- **Hours of Lab or Studio per week:** 1
- **When Offered:** Spring

### MUSI 464 - Instrumental Music Methods I

**Credits:** 3
**Limited to 3 Attempts**
**Offered by School of Music**

Prepares students to successfully plan, organize, and administer marching band and jazz ensemble programs in secondary public school music curriculum. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

**Prerequisite(s):** MUSI 114, 216, and 273; and acceptance into music education concentration.

**Corequisite(s):** MUSI 391

**Notes:** For music majors only.

**Schedule Type:** LAB, LEC

- **Hours of Lecture or Seminar per week:** 3
- **Hours of Lab or Studio per week:** 1
- **When Offered:** Fall

### MUSI 465 - Selected Topics in Music Education

**Credits:** 1-3
**Repeatable within Degree for Credit**
**Offered by School of Music**

Topics of practical interest to prospective and practicing music educators covering pedagogy, performance, and logistics of teaching music in schools, private studios, and communities.

**Notes:** May be repeated for credit.

**Schedule Type:** STU

- **Hours of Lecture or Seminar per week:** 1-3
- **Hours of Lab or Studio per week:** 0
**MUSI 466 - Instrumental Music Methods II**

Credits: 3  
Limited to 3 Attempts  
Offered by School of Music  
Prepares students to teach instrumental music in elementary, middle, and secondary schools. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

**Prerequisite(s):** MUSI 114, 216, 273, and 391; and acceptance to music education concentration.  
**Corequisite(s):** MUSI 396.

**Notes:** For music majors only.

**Schedule Type:** LAB, LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1  
**When Offered:** Spring

---

**MUSI 467 - Instrumental Music Methods I: Orchestra**

Credits: 3  
Limited to 3 Attempts  
Offered by School of Music  
Prepares students to successfully plan, organize, and administer string classes from the beginning levels through performing ensembles (grades 4-12), and explore teaching materials appropriate for individual and class instruction. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

**Prerequisite(s):** MUSI 114, 216, 273, and 361; and acceptance into music education concentration.  
**Corequisite(s):** MUSI 391

**Notes:** For music majors only.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1

---

**MUSI 477 - Music and Consciousness**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Music  
A study of the ways music has affected the mind and brain from throughout history to the present. By using principles of entrainment and resonance, the course demonstrates experientially the various methods by which music is used to alter consciousness.

**Prerequisite(s):** Basic proficiency with an instrument or voice or permission of instructor.
MUSI 485 - Chamber Ensembles

Credits: 1
Repeatable within Term for Credit
Offered by School of Music
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from chamber music repertoire.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Audition.
Notes: Public performances required.

MUSI 490 - RS: Musical Communication in Context

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Explains nature of musical communication in a variety of contexts, and combines knowledge gained in Mason Core courses with knowledge and skills specific to the major to serve as a capstone course synthesizing both areas. How does music itself communicate, and how do musicians communicate about it with each other and with the world around them? Students address these through essays in the style of a journal or portfolio, substantial paper, and oral presentation of paper before faculty and student panel.

Fulfills Mason Core requirement in synthesis.

Designated as a research and scholarship intensive course.

Prerequisite(s): Must be in senior year of the B.A. program in Music and have completed all other Mason Core requirements.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 491 - Musical Communication in Performance
Credits: 1
Limited to 3 Attempts
Offered by School of Music
Helps student conceive of musical performance as communication in a variety of contexts, and combines knowledge in Mason Core courses with knowledge and skills specific to the major to serve as a capstone course synthesizing both areas. Students consider various aspects of musical communication to prepare senior recital. Students explore social, historical, analytical, and aesthetic aspects of the music they are to perform by composing essays in the style of a journal or portfolio. Students prepare a substantial paper on recital repertoire and present that paper before a faculty and student panel.

Prerequisite(s): Completion of all other required Mason Core courses for BM performance concentration.
Corequisite(s): Concurrent enrollment in appropriate 3-credit private music instruction course and Music 424.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

MUSI 492 - Selected Topics in Music

Credits: 1-3
Repeatable within Term for Credit
Offered by School of Music
Topics of practical interest to students in composition, music history and literature, world music, jazz studies, and performance practices.

Prerequisite(s): 45 credits, or permission of instructor.
Notes: May be repeated for credit.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

MUSI 493 - Topics in Music Theory

Credits: 3
Limited to 3 Attempts
Offered by School of Music
Intensive exploration of selected topics in music theory and analysis.

Prerequisite(s): MUSI 216 or permission of the instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 495 - Internship in Music Education
Credits: 6-12
Not Repeatable for Credit
Offered by School of Music
Full semester of intensive student teaching experience in approved Virginia schools.

Prerequisite(s): Completion of all other courses required for BM with concentration in music education.
Schedule Type: INT
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

MUSI 496 - Internship

Credits: 2-6
Not Repeatable for Credit
Offered by School of Music
Contact the department one semester before enrollment. Internships are approved work-study programs with specific employers or agencies.

Prerequisite(s): Open to music majors with 90 credits.
Notes: Credit is determined by the department. Maximum 9 internship credits (MUSI 395, 495, 496) can be applied toward degree.

Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 497 - Independent Study

Credits: 1-3
Not Repeatable for Credit
Offered by School of Music
Individual research and study of selected subject in close consultation with instructor. Student may choose from the musicological, ethnomusicological, theoretical, compositional, or educational areas, and produce at least one major written work based on research.

Prerequisite(s): Music majors with 90 credits, and permission of instructor and department chair.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 498 - Independent Study

Credits: 1-3
Not Repeatable for Credit
Offered by School of Music
Individual research and study of selected subject in close consultation with instructor. Student may choose from the musicological, ethnomusicological, theoretical, compositional, or educational areas, and produce at least one major written work
based on research.

**Prerequisite(s):** Music majors with 90 credits, and permission of instructor and department chair.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MUSI 501 - Graduate Theory Review

Credits: 3  
Not Repeatable for Credit  
Offered by School of Music  
Vocabulary and conceptual review of diatonic and chromatic harmony, part writing, form, harmonization, 20th-century techniques.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.  
**Notes:** Does not count toward required credits of a graduate music degree.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MUSI 502 - Graduate Aural Skills Review

Credits: 3  
Not Repeatable for Credit  
Offered by School of Music  
Music reading and aural skills including intervals, dictation (melodic and harmonic), scales, chords, rhythms, and meter.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.  
**Notes:** Does not count toward required credits of a graduate music degree.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### MUSI 515 - Music in Computer Technology

Credits: 3  
Not Repeatable for Credit  
Offered by School of Music  
Overview computer use in music. Topics include principles of musical instrument digital interface (MIDI); synthesis; acoustics and sound processing; and musical composition using the computer. Explores music resources of Internet, and surveys multimedia applications in music history, theory, ear training, improvisation, and notation.

**Prerequisite(s):** Baccalaureate degree in music, or permission of instructor.  
**Schedule Type:** LAB,
LEC

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1
When Offered: Spring

**MUSI 516 - Keyboard Skills**

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Enhance keyboard skills for the non-keyboard major, including technique, harmonization, transposition, reading, and accompanying.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.

Schedule Type: STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

**MUSI 517 - Score Reading Skills**

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Enhance score study and score reading skills for the conductor.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.

Schedule Type: STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 4

**MUSI 525 - Performance Seminar and Vocal Literature for Singers and Accompanists I**

Credits: 2
Not Repeatable for Credit
Offered by School of Music
Students assigned art songs or operatic arias in Italian, German, French, and English, from Baroque to 21st century, and perform in weekly master class format. Develops and improves musical and artistic preparation and performance, increases repertoire, and establishes dependable methods for creating consistently high standards of artistic performance.

**Prerequisite(s):** Audition.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

**MUSI 526 - Performance Seminar and Vocal Literature for Singers and Accompanists II**
Students assigned art songs or operatic arias in Italian, German, French, and English, from Baroque to 21st century, and perform in weekly master class format. Develops and improves musical and artistic preparation and performance, increases repertoire, and establishes dependable methods for creating consistently high standards of artistic performance.

**Prerequisite(s):** Audition.

**Schedule Type:** SEM

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 1

---

**MUSI 532 - Music History Review I**

Credits: 3

Not Repeatable for Credit

Offered by School of Music

Enhance understanding of music history and the context of musical style, chronologically through the mid-18th century.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.

**Notes:** Does not fulfill courses requirements for graduate degrees in music.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**MUSI 533 - Music History Review II**

Credits: 3

Not Repeatable for Credit

Offered by School of Music

Enhance understanding of music history and the context of musical style, from the mid-18th century to today.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.

**Notes:** Does not fulfill course requirements for graduate music degrees.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**MUSI 541 - Diction for Singers I: Italian Diction and English Diction**

Credits: 2

Not Repeatable for Credit

Offered by School of Music

Increases proficiency in singing in Italian and English by teaching International Phonetic Alphabet (IPA), and strengthens performance of Italian and English art song and operatic repertoire. Intensified, systematic study of phonetics as it applies to
Italian and English.

**Prerequisite(s):** Graduate status in applied voice or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 1

---

**MUSI 542 - Diction for Singers II: German Diction and French Diction**

Credits: 2

Not Repeatable for Credit

Offered by School of Music

Increases proficiency in singing in German and French by teaching International Phonetic Alphabet (IPA), and strengthens performance of German and French art songs and operatic repertoire. Intensified, systematic study of phonetics as it applies to singing in German and French.

**Prerequisite(s):** Graduate status in applied voice or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 1

---

**MUSI 551 - Keyboard Pedagogy**

Credits: 3

Not Repeatable for Credit

Offered by School of Music

Intensive study of methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations.

**Prerequisite(s):** Graduate status in applied piano, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**MUSI 552 - Vocal Pedagogy and Lab**

Credits: 3

Not Repeatable for Credit

Offered by School of Music

Instruction in teaching voice through systematic study of vocal physiology and its implications for pedagogical methods. Includes theoretical and systematic study of processes, procedures, and practices to develop art of singing. Offers technical, physiological, theoretical, and practical principals of the singing art, with emphasis on vocal health.

**Prerequisite(s):** Graduate status in applied voice or permission of instructor.

**Schedule Type:** LAB, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 553 - Instrumental Pedagogy and Literature

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Instruction in teaching of instrumental music techniques for all levels through the study of pedagogical methods, standard literature, and musical instruments produced by present-day manufacturers.

Prerequisite(s): Baccalaureate degree in music, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

MUSI 555 - Music as a Healing Art

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Study of the relationship between musical vibrations and the natural rhythms of the body. Topics include history of music and healing, theory of sound, cymatics, toning, and performance practice as well as a survey of vibrational healing modalities and related therapies. Considers listening examples as they apply to healing with music. Students sing and play instruments in directed improvisatory performance.

Prerequisite(s): Basic proficiency with instrument or voice, and bachelor's degree in music.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 557 - Kodály I

Credits: 3
Not Repeatable for Credit
Offered by School of Music
In depth study of Kodály, concentrating in four areas: Methodology, Materials, Solfege, and Conducting

Schedule Type: LEC

MUSI 558 - Kodály II
Credits: 3
Not Repeatable for Credit
Offered by School of Music
Continues to build on and expand Kodaly knowledge and skills in the four areas: Methodology, Materials, Solfege, and Conducting

Prerequisite(s): MUSI 557 or permission of instructor
Schedule Type: LEC

MUSI 559 - Kodály III

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Completion of Kodaly training, finishing Kodaly Methodology, Materials, Solfege, and Conducting

Prerequisite(s): MUSI 558
Schedule Type: LEC

MUSI 561 - Music Curriculum and Instructional Procedures

Credits: 3
Not Repeatable for Credit
Offered by School of Music
This graduate course is designed to prepare students for a job in the elementary or middle school general music classroom. Classes will equip students with the competencies necessary to plan, create, implement, and evaluate a general music curriculum. Current trends, materials, methods, and approaches in music education will be reviewed.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MUSI 563 - Orff Schulwerk I

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Intensive introduction to Orff teaching philosophy with practical and theoretical instruction and immersion in the method itself. Students learn concepts of rhythm, harmony, solfege, modes, improvisation, and pedagogy. Students learn basic performance technique on soprano recorder, and learn to apply movement and dance in their teaching.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
MUSI 564 - Orff Schulwerk II

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Continues intensive study of Orff teaching philosophy with practical and theoretical instruction and immersion. Teaches further concepts of rhythm and meter including asymmetrical patterns. Reviews pentatonic modes and their transpositions, studies pentachordal and hexachordal scales, and begins intensive work with diatonic modes. Students work with a variety of percussion instruments including body percussion, unpitched instruments, and barred instruments. They sing and play soprano, alto, tenor, and bass recorders. Movement studies continue with intensive study of vocabulary of dance and mime.

Prerequisite(s): MUSI 563, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 565 - Orff Schulwerk III

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Continues intensive study of Orff teaching philosophy to complete certification process in Orff Schulwerk. Students continue intensive work in rhythm, melody, harmony, timbre, form, and pedagogy. Tenor, bass, and soprano recorders introduced. Movement and rhythmic studies concentrate on mixed meters and non-Western source materials and styles.

Prerequisite(s): MUSI 563 and 564, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 566 - Instrumental Methods for Band

Credits: 3
Not Repeatable for Credit
Offered by School of Music
This course prepares students to teach instrumental music in elementary and secondary schools. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1
When Offered: Spring

MUSI 567 - Instrumental Methods, Strings
Prepares students to successfully plan, organize, and administer string classes from the beginning levels through performing ensembles (grades 4 – 12), and to explore teaching materials appropriate for individual and class instruction. Three hours per week spent in class, one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1  
**When Offered:** Fall

---

**MUSI 568 - Vocal and Choral Methods**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Music  
A Survey course that introduces repertoire and methods for teaching middle and high school choral groups, small ensemble and voice classes. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in the public schools.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 1  
**When Offered:** Spring

---

**MUSI 571 - Techniques of Accompanying I**

Credits: 1  
Not Repeatable for Credit  
Offered by School of Music  
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations and performances by professionals; and participate in master classes.

**Prerequisite(s):** Admission to graduate-level private music instruction in keyboard instrument, or permission of instructor.  
**Notes:** Each course may be taken two times for credit.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 3  
**When Offered:** Fall, Spring, Summer

---

**MUSI 572 - Techniques of Accompanying II**

Credits: 1  
Not Repeatable for Credit
Offered by School of Music
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations and performances by professionals; and participate in master classes.

Prerequisite(s): Admission to graduate-level private music instruction in keyboard instrument, or permission of instructor.
Notes: Each course may be taken two times for credit.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring, Summer

MUSI 573 - Accompanying and Musicianship III
Credits: 3
Not Repeatable for Credit
Offered by School of Music
For piano majors or students with significant keyboard skills.
Prerequisite(s): MUSI 572. Study of complex accompanying skills including open score reading and orchestral reduction.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 577 - Music and Consciousness
Credits: 3
Not Repeatable for Credit
Offered by School of Music
A Study of the ways music has affected the mind and brain from throughout history to the present day. By using the principles of entrainment and resonance, it will be demonstrated experientially the various methods by which music is used to alter consciousness.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

MUSI 592 - Topics in Music
Credits: 1-6
Repeatable within Term for Credit
Offered by School of Music
Intensive study of selected topics in performance, composition, or conducting. Individual research, group discussions, and participation in related activities.
Prerequisite(s): Baccalaureate degree in music.
Notes: May be repeated for up to 12 credits as topics change.

Schedule Type: STU
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

MUSI 593 - Foundations of Music Education

Credits: 3
Not Repeatable for Credit
Offered by School of Music
This course prepares students to address aspects of administration management of music programs in public and private schools. Various principles and concepts of management styles and planning are investigated. Topics addressed include: curriculum, budget, student recruitment and retention, music facilities, external relations of the music unit and legal issues for music educators.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

MUSI 595 - Internship in Music Education

Credits: 6-9
Not Repeatable for Credit
Offered by School of Music
This course prepares students to successfully plan and implement pedagogical strategies for the effective teaching of instrumental music. Students will also gain experience administering a music program in the elementary and secondary school music curriculum. Students will participate in class teaching modules and field experiences in the public schools.

Prerequisite(s): 1. Completion of all courses required for the Graduate Certificate in Music Education Licensure for PK-12.
2. Successful completion of the Music Education "Instrumental Proficiency Exam" requirements listed in the Music Education Handbook.
3. Successful completion of the Praxis I Examination (or equivalency), and VCLA (or Praxis I equivalency).
Schedule Type: INT

MUSI 610 - Topics in Music Theory

Credits: 3
Repeatable within Degree for Credit
Offered by School of Music
Uses music analytical theories to examine repertoire from a given time period or style.

Prerequisite(s): MUSI 501, 502, and 516, or appropriate score on the graduate placement examination.
Notes: May be repeated for up to 9 credits as topics change.

Schedule Type: LEC
MUSI 611 - Analytical Techniques

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Detailed formal and stylistic examination of music selected from the major style periods. Development of graduate-level analytical skills.

Prerequisite(s): MUSI 501, 502, and 516, or appropriate score on the graduate placement examination.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 613 - Graduate Orchestration

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Intensive study of instrumentation through analysis and arrangement. Includes contemporary techniques and scoring for large forces.

Prerequisite(s): MUSI 501, 502, and 516, or appropriate score on the graduate placement examination.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 614 - Music Theory Pedagogy

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Study of materials and procedures in the teaching of undergraduate-level music theory subjects.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 615 - Advanced Jazz Improvisation
Credits: 3
Not Repeatable for Credit
Offered by School of Music
Advanced techniques and applications of jazz improvisation.

Prerequisite(s): Graduate placement exam or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

MUSI 621 - Graduate Applied Music

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Graduate Applied music studies

Prerequisite(s): Audition or portfolio.
Notes: May be repeated for up to 6 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

MUSI 622 - Applied Music in Keyboard

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Keyboard.

Prerequisite(s): Audition.
Notes: May be repeated for up to 6 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0.5

MUSI 623 - Applied Music in Voice

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Voice.

Prerequisite(s): Audition.
Notes: May be repeated for up to 6 credits.

Schedule Type: PMI  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0.5

MUSI 624 - Applied Music in Woodwind

Credits: 1  
Repeatable within Degree for Credit  
Offered by School of Music  
Applied music studies in Woodwind.

Prerequisite(s): Audition.
Notes: May be repeated for up to 6 credits.

Schedule Type: PMI  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0.5

MUSI 625 - Applied Music in Brass

Credits: 1  
Repeatable within Degree for Credit  
Offered by School of Music  
Applied Music studies in Brass.

Prerequisite(s): Audition.
Notes: May be repeated for up to 6 credits.

Schedule Type: PMI  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0.5

MUSI 626 - Applied Music in String

Credits: 1  
Repeatable within Degree for Credit  
Offered by School of Music  
Applied Music studies in String.

Prerequisite(s): Audition.
Notes: May be repeated for up to 6 credits.

Schedule Type: PMI  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0.5
MUSI 627 - Applied Music in Percussion

Credits: 1  
Repeatable within Degree for Credit  
Offered by School of Music  
Applied Music studies in Percussion.

Prerequisite(s): Audition.  
Notes: May be repeated for up to 6 credits.

Schedule Type: PMI  
Hours of Lecture or Seminar per week: 1-6  
Hours of Lab or Studio per week: 0.5

MUSI 628 - Applied Music in Composition

Credits: 1  
Repeatable within Degree for Credit  
Offered by School of Music  
Applied Music studies in Composition.

Prerequisite(s): Portfolio of recent compositions.  
Notes: May be repeated for up to 6 credits.

Schedule Type: PMI  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0.5

MUSI 629 - Applied Music in Conducting

Credits: 1  
Repeatable within Degree for Credit  
Offered by School of Music  
Applied Music studies in Conducting.

Prerequisite(s): Audition.  
Notes: May be repeated for up to 6 credits.

Schedule Type: PMI  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0.5

MUSI 630 - Topics in Music History and Literature

**MUSI 640 - Topics in World Musics**

Credits: 3  
Repeatable within Degree for Credit  
Offered by School of Music  
Study of musics from selected cultures. Students will study structural, social, and cognitive foundations of the music.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.  
Notes: Repeatable for up to 9 credits as topics change.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**MUSI 650 - Topics in Jazz Studies**

Credits: 3  
Repeatable within Degree for Credit  
Offered by School of Music  
Study of selected topics in performance, composition, arranging and analysis. May be repeated for up to 9 credits as topics change.

Prerequisite(s): Graduate placement exam or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**MUSI 651 - Keyboard Pedagogy II**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Music  
Develop effective teaching strategies, business practices, and investigative/diagnostic approaches in repertoire exploration to prepare/improve teaching abilities in independent studio. Examine professional role of independent piano teacher, investigate
scope and sequence of repertoire development, explore creative activities and computer use in the studio, develop understanding of technical skill development, examine intermediate/advanced keyboard repertoire, explore various teaching strategies/philosophies.

**Prerequisite(s):** Keyboard Pedagogy I.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring

---

**MUSI 652 - Vocal Pedagogy II**

Credits: 3
Not Repeatable for Credit
Offered by School of Music
A continuation of vocal pedagogy I, which focused on teaching voice through the rudimentary and systematic study of vocal physiology and pedagogical methods, and included the process, procedures, development and practice of the art of singing. Pedagogy II provides students the opportunity to apply this information to real life situations through use of four specific scenarios and practical teaching experience.

**Prerequisite(s):** Vocal Pedagogy I.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring

---

**MUSI 653 - Instrumental Pedagogy II**

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Prepares students for teaching string techniques of their major instrument for all levels through study of pedagogical methods and standard literature. Develop sound business practices/policies to ensure success in setting up a private studio; become familiar with local/national professional organizations serving the string teaching community; explore teaching abilities through a case study project involving one or more students.

**Prerequisite(s):** Instrumental Pedagogy I.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring

---

**MUSI 654 - Graduate Conducting**

Credits: 3
Repeatable within Degree for Credit
Offered by School of Music
Classroom study of conducting, including refining gestures, rehearsal leadership, and the communication of musical style.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.
**Notes:** May be repeated for up to 9 credits.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**MUSI 660 - Topics in Music Education**

Credits: 1-6
Repeatable within Term for Credit
Offered by School of Music
Examination of specific areas of concern to music educators. Individual research, group discussions, and participation in related activities.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.
**Notes:** Repeatable for up to 9 credits as topics change.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 1-6
**Hours of Lab or Studio per week:** 0

---

**MUSI 661 - Psychology of Music Teaching and Learning**

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Study of the learner's musical behaviors (affective, cognitive, and psychomotor) in an effort to devise an empirically based teaching method founded on learning principles.

**Prerequisite(s):** Baccalaureate degree in music, graduate placement exam.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**MUSI 662 - Introduction to Research in Music**

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Development of skills, attitudes, and understanding to conduct and report research in music, including philosophical bases, scope and organization, stylistic practices in writing research reports, study of materials and resources in music and music education, and proper use of library and other research services.

**Prerequisite(s):** Baccalaureate degree in music, or permission of instructor.
MUSI 663 - Aesthetics of Music Education

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Study of philosophical foundations of contemporary music education, and critical examination of music programs and activities in aesthetic education and efforts by music education establishment to enhance them.

Prerequisite(s): Baccalaureate degree in music, or permission of instructor.

MUSI 664 - Advanced Pedagogy

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Advanced instruction in pedagogy including study of methods, theories, techniques, and materials for teaching children and adult students.

Prerequisite(s): MUSI 551, or MUSI 552, or MUSI 553, or permission of instructor.

MUSI 681 - Graduate Choral Ensembles

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Performance of works from the choral repertoire.

Prerequisite(s): Audition.
Notes: Public concerts are given. May be repeated for up to 6 credits total.
MUSI 682 - Wind Symphony

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Highly selective group of instrumentalists performing works from the wind repertoire.

Prerequisite(s): Audition.
Notes: Public concerts are given. May be repeated for up to 6 credits.

Schedule Type: STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 683 - Symphonic Band

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Performance of works from band repertoire.

Prerequisite(s): Audition.
Notes: Public concerts are given. May be repeated for up to 6 credits.

Schedule Type: STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 685 - Graduate Chamber Ensemble

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Performance of works from chamber music repertoire.

Prerequisite(s): Audition.
Notes: Public concerts are given. May be repeated for up to 6 credits.

Schedule Type: STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 687 - Symphony Orchestra

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Performance of works from orchestral repertoire.

Prerequisite(s): Audition.
Notes: Public concerts are given. May be repeated for up to 6 credits.

Schedule Type: STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 688 - Opera and Musical Theater Ensemble

Credits: 3
Repeatable within Degree for Credit
Offered by School of Music
Solo-vocal, performance-oriented ensemble class that presents operatic works or excerpts from them, from Baroque to 21st century, as well as works or excerpts from American musical theater.

Prerequisite(s): Audition.
Notes: May be repeated for up to 12 credits.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 4

MUSI 689 - Jazz Ensemble

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Provides practical experience in aspects of jazz performance. Participation in section rehearsals and small and large jazz groups. Jazz improvisation expected.

Prerequisite(s): Audition.
Notes: Public concerts given. May be repeated for up to 6 credits total.

Schedule Type: STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

MUSI 690 - Graduate Lecture Recital

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Music
Combination of musical performance and scholarly presentation on a well-defined topic.
Prerequisite(s): Baccalaureate degree in music, audition.
Corequisite(s): MUSI 621 (3-credit level).

Notes: Public presentation required. May be repeated for a maximum of 6 credits.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 695 - Teaching Internship

Credits: 2
Repeatable within Degree for Credit
Offered by School of Music
Teaching beginner, intermediate, and early advanced students in private or group lessons under faculty supervision.

Prerequisite(s): MUSI 660.
Notes: May be repeated for up to 4 credits.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 699 - Independent Study

Credits: 1-3
Repeatable within Term for Credit
Offered by School of Music
Individual research and study a concentration available in the master of music.

Prerequisite(s): Baccalaureate degree in music and permission of graduate coordinator.
Notes: May be taken for maximum 6 credits.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 710 - Advanced Topics in Music Theory

Credits: 3
Repeatable within Degree for Credit
Offered by School of Music
Advanced study of specific styles and repertoire from the perspective of various analytical approaches.

Prerequisite(s): MUSI 501, 502, and 516, or appropriate score on the graduate placement exam.
Notes: May be repeated for up to 9 credits total as topics change.
MUSI 712 - Composition for Conductors and Performers

Credits: 3
Not Repeatable for Credit
Offered by School of Music
Advanced study of new music for various media.

Prerequisite(s): Undergraduate degree in music, graduate placement exam.
Notes: This course is not for students in the composition concentration.

MUSI 720 - Advanced Topics in Applied Music

Credits: 3
Repeatable within Degree for Credit
Offered by School of Music
Advanced study of concepts in applied music.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.
Notes: May be repeated for up to 6 credits total as topics change.

MUSI 721 - Applied Music

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Applied Music studies.

Prerequisite(s): Audition or portfolio.
Notes: May be repeated for up to 18 credits.
MUSI 722 - Applied Music in Keyboard

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Keyboard.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 723 - Applied Music in Voice

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Applied music in Voice.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 724 - Applied Music in Woodwind

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Woodwind.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 725 - Applied Music in Brass

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Brass.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 726 - Applied Music in String

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in String.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 727 - Applied Music in Percussion

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Percussion.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

MUSI 728 - Applied Music in Composition

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Composition.

Prerequisite(s): Portfolio of recent compositions.
Notes: May be repeated for up to 18 credits.
MUSI 729 - Applied Music in Conducting

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Applied music studies in Conducting.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

MUSI 730 - Advanced Topics in Music History

Credits: 3
Repeatable within Term for Credit
Offered by School of Music
Advanced study of specific genres, composers, or repertoire from a historically analytical perspective.

Prerequisite(s): MUSI 532 and 533, or appropriate score on the graduate placement exam.
Notes: May be repeated for up to 9 credits total as topics change.

MUSI 760 - Advanced Topics in Music Education

Credits: 3
Repeatable within Degree for Credit
Offered by School of Music
Advanced study of selected issues in music education.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.
Notes: May be repeated for up to 9 credits total as topics change.
MUSI 770 - Advanced Topics in Pedagogy

Credits: 3  
Repeatable within Degree for Credit  
Offered by School of Music  
Advanced study of a specific topic in the pedagogy of music.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.  
Notes: May be repeated for up to 6 credits total as topics change.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

MUSI 777 - Music and Consciousness 2

Credits: 3  
Not Repeatable for Credit  
Offered by School of Music  
The scientific mechanisms behind vibrational healing are uncovered showing how energy medicine affects Well-Being in a positive way.

Prerequisite(s): MUSI 577 or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

MUSI 790 - Graduate Recital

Credits: 1  
Repeatable within Degree for Credit  
Offered by School of Music  
Public performance. Repertoire and performance standards as approved by faculty.

Prerequisite(s): At least three credits of graduate PMI in the appropriate instrument or voice.  
Corequisite(s): MUSI 700-level PMI (3-credits).

Notes: May be repeated for up to 4 credits total.

Schedule Type: PMI  
Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0
MUSI 796 - Directed Reading/Research

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Music
Individualized study on a topic approved by faculty.

Prerequisite(s): Baccalaureate degree in music, graduate placement exam.
Notes: May be repeated for up to 6 total credits.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Graduate Special

MUSI 799 - Thesis

Credits: 1-6
Repeatable within Degree for Credit
Offered by School of Music
Supervised research on approved thesis topic.

Prerequisite(s): At least 12 graduate credits including MUSI 511, and approval of thesis topic.
Notes: Students in the music education concentration must also have taken MUSI 562, and have successfully passed comprehensive exit exam.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: S/NC

MUSI 800 - Studies for the Doctor of Philosophy in Education

Credits: 1-6
Repeatable within Degree for Credit
Offered by School of Music
Program of studies designed by the student's discipline director and approved by student's doctoral committee that brings student to participate in research, performance, or creative activity of discipline director and results in a paper reporting original contributions.

Prerequisite(s): Admission to PhD in education program to study music.
Notes: Enrollment may be repeated.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
MUSI 810 - Doctoral Seminar in Analysis

Credits: 3
Repeatable within Degree for Credit
Offered by School of Music
Seminar study of a specific genre or repertoire from various analytical perspectives.

Prerequisite(s): Graduate placement examination.
Notes: May be repeated for up to 9 credits as topics change.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 821 - Doctoral Private Music Instruction

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Private instruction in performance, conducting, or composition.

Prerequisite(s): Audition portfolio
Notes: May be repeated for up to 18 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 1

MUSI 822 - Doctoral Applied Music in Keyboard

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Doctoral applied music studies in Keyboard.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 1

MUSI 823 - Doctoral Applied Music in Voice

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Doctoral applied music studies in Voice.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 1

MUSI 824 - Doctoral Applied Music in Woodwind

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Doctoral applied music studies in Woodwind.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 1

MUSI 825 - Doctoral Applied Music in Brass

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Doctoral applied music studies in Brass.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 1

MUSI 826 - Doctoral Applied Music in String

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Doctoral applied music studies in String.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.
MUSI 827 - Doctoral Applied Music in Percussion

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Doctoral applied music studies in Percussion.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.

MUSI 828 - Doctoral Applied Music in Composition

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Doctoral applied music studies in Composition.

Prerequisite(s): Portfolio of recent compositions.
Notes: May be repeated for up to 18 credits.

MUSI 829 - Doctoral Applied Music in Conducting

Credits: 2-3
Repeatable within Degree for Credit
Offered by School of Music
Doctoral applied music studies in Conducting.

Prerequisite(s): Audition.
Notes: May be repeated for up to 18 credits.
MUSI 830 - Doctoral Seminar in Music History

Credits: 3
Repeatable within Degree for Credit
Offered by School of Music
Seminar study of a specific genre, composer, or repertoire from a historically analytical perspective.

Prerequisite(s): Graduate placement exam.
Notes: May be repeated for up to 9 credits as topics change.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 860 - Doctoral Seminar in Music Education

Credits: 3
Repeatable within Degree for Credit
Offered by School of Music
Seminar study of a specific issue in music education.

Prerequisite(s): Graduate placement exam.
Notes: May be repeated for up to 12 credits as topics change.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

MUSI 880 - Doctoral Major Ensemble

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Selective ensemble experience for doctoral students in music.

Prerequisite(s): Audition.
Notes: Public concerts are given. May be repeated for up to 6 credits.

Schedule Type: STU
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3

MUSI 890 - Doctoral Recital
MUSI 821 - Public Performance (Repeatable for up to 4 credits)

Credits: 1
Repeatable within Degree for Credit
Offered by School of Music
Public performance. Repertoire and performance standards as approved by faculty.

Prerequisite(s): At least 3 credits in MUSI 821 in the appropriate instrument or voice.
Corequisite(s): MUSI 821 (3-credit level).

Notes: May be repeated for up to 4 credits.

Schedule Type: PMI
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

MUSI 998 - Dissertation Proposal

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Music
Preparation of a proposal for a dissertation study in music under the supervision of music faculty members.

Prerequisite(s): Admission to doctoral program in music, permission of faculty.
Notes: May be repeated for up to 6 credits.

Schedule Type: IND, PMI
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

MUSI 999 - Dissertation

Credits: 1-12
Repeatable within Degree for Credit
Offered by School of Music
Preparation of a dissertation in music under the supervision of music faculty members.

Prerequisite(s): Candidacy in a doctoral program in music.
Notes: May be repeated for credit.

Schedule Type: IND, PMI
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

Native American and Indigenous Studies (NAIS)
NAIS 201 - Introduction to Native American and Indigenous Studies

Credits: 3
Not Repeatable for Credit
Offered by English
Introduction to the history, social organization, political experience, and artistic expression of indigenous peoples of the western hemisphere, focusing primarily on American Indians, using methods and materials from a number of disciplines.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NAIS 499 - Independent Study

Credits: 3
Not Repeatable for Credit
Offered by English
Intensive study of a particular area, topic, or critical or theoretical problem related to Native American and Indigenous Studies to be conducted in close consultation with an instructor. At least one substantial, researched piece of written work required.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Nanotechnology (NANO)

Offered by the College of Science

NANO 500 - Introduction to Nanomaterials and Interactions

Credits: 3
Not Repeatable for Credit
Offered by Computational and Data Sciences
Introduction to nanotechnology. Discussion of the Feynman challenge and its relation to modern science. Applications to nanostructures of charges, currents, diamagnetics, paramagnetics, and ferromagnetics.

Prerequisite(s): BS in any physical science, mathematics, or engineering; or permission of certificate director.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
NANO 510 - Strategies for Nanocharacterization

Credits: 3  
Not Repeatable for Credit  
Offered by Computational and Data Sciences  
Introduces various nanocharacterization techniques, with a discussion of which techniques are most useful in various applications. Includes gates and bridges, chemical thermodynamics, kinetics, and solid-state reactions.

Prerequisite(s): NANO 500 or permission of certificate director.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

NANO 520 - Survey of Nanostructures

Credits: 3  
Not Repeatable for Credit  
Offered by Computational and Data Sciences  
Discusses nanomechanical oscillators and nanoresonators, nanofibers, and conducting polymer nanowires. Nanomechanical beams for reacting ion etching. Electron-beam lithography and photolithography.

Prerequisite(s): NANO 500 and 510 or permission of certificate director.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

NANO 530 - Nanofabrication

Credits: 3  
Not Repeatable for Credit  
Offered by Computational and Data Sciences  
Covers pulsed laser deposition, molecular beam epitaxy, controlled vapor deposition, reactive sputtering, and doping and implant isolation.

Prerequisite(s): NANO 500 and 510, or permission of certificate director.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

NANO 540 - Nanotechnology in Commerce and Government

Credits: 3  
Not Repeatable for Credit  
Offered by Computational and Data Sciences  
Discusses competitive position of United States and other countries in nanoscience and nanotechnology. Covers business strategies, environmental, and public health aspects of nanotechnology applications. Also introduces students to issues involving
legal, economic, social, and political controls over nanotechnology and nanoscience research.

**Prerequisite(s):** NANO 500, and admission into graduate certificate program in nanotechnology and nanoscience.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**NANO 610 - Nanoelectronics**

Credits: 3

Not Repeatable for Credit

Offered by Computational and Data Sciences

Introduces basic elements of nanoelectronic structures, including quantum layers, quantum wires, and quantum dots. Covers subband structure, transport in quantum layers, behavior in the presence of magnetic fields, Coulomb blockades, CMOS nanodevices and nanoelectronics, and SOI multigate device physics and modeling.

**Prerequisite(s):** NANO 500, 510, and 520, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**NANO 620 - Computational Modeling in Nanoscience**

Credits: 3

Not Repeatable for Credit

Offered by Computational and Data Sciences

Introduction to simulation methods used in nanoscience. Covers computational approaches to modeling molecular and condensed matter at the nanoscale level, including interatomic and molecular potentials, molecular mechanics, molecular dynamics, monte carlo averaging, ensemble distributions, numerical sampling, thermodynamic functions, dynamic structure, and introduction to cellular automata.

**Prerequisite(s):** NANO 500, 510, and 520, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**Neurosciences (NEUR)**

Offered by the Provost's Office

---

**NEUR 327 - Cellular, Neurophysiological, and Pharmacological Neuroscience**
NEUR 335 - Molecular, Developmental, and Systems Neuroscience

Credits: 3
Not Repeatable for Credit
Offered by Neuroscience Program
In-depth survey of genetic and embryological development of the brain and introduction to systems neuroscience, including sections on patterning gene expression, generation and migration of neurons, axonal and dendritic outgrowth, and basic neuroanatomy.

Prerequisite(s): PSYC 373, PSYC 376
Corequisite(s): PSYC 373

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 3
When Offered: Fall

NEUR 380 - Biological Bases of Alzheimer's Disease

Credits: 3
Not Repeatable for Credit
Offered by Neuroscience Program
A survey of the causes, symptoms, drug treatments, risk factors and preventative measures associated with Alzheimer's disease.

Prerequisite(s): PSYC 375, 376.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NEUR 405 - RS: Laboratory Methods in Behavioral Neuroscience

Credits: 3
Not Repeatable for Credit
Offered by Neuroscience Program
Introduction to experimental methods used in behavioral neuroscience research. Laboratory work includes surgical, histological and behavioral techniques. Proper use and handling of animals, ethical issues, evaluation of neuroscience literature, experimental design and data analysis are addressed. This requires working with laboratory rodents.

Designated as a research and scholarship intensive course.

**Prerequisite(s):** PSYC 300, BIOL 312 or equivalent. PSYC 372 or PSYC 376 or permission of instructor.

**Schedule Type:** LAB

---

**NEUR 410 - Current Topics in Neuroscience**

Credits: 3
Not Repeatable for Credit
Offered by Neuroscience Program
Overview of current topics in neuroscience, focusing on research at Mason.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** PSYC 375, 376, ENGH 302. NEUR 327 recommended.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall

---

**NEUR 411 - Seminar in Neuroscience**

Credits: 3
Repeatable within Degree for Credit
Offered by Neuroscience Program
Advanced seminar on a selected topic in neuroscience. Includes in depth reading and discussion of current research in human and nonhuman animals, with an emphasis on critical evaluation.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** PSYC 375, 376, ENGH 302. NEUR 327 and NEUR 335 recommended.

**Notes:** Course may be repeated if selected topic is different.

**Schedule Type:** SEM

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Spring

---

**NEUR 440 - Independent Study in Neuroscience**
Credits: 1-3
Repeatable within Degree for Credit
Offered by Neuroscience Program
Independent research based a laboratory or field investigation under the guidance of a faculty member, assisting with research on faculty projects, or reviewing the literature on a specific research topic.

Prerequisite(s): NEUR 327, 30 hours of course work with a grade point average of 3.0, or permission of instructor.
Notes: A maximum of 6 hours of independent study may be applied towards the major.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

NEUR 450 - Honors Thesis Proposal

Credits: 2-3
Not Repeatable for Credit
Offered by Neuroscience Program
Work on proposal for thesis based a laboratory or field investigation under the guidance of a faculty member.

Prerequisite(s): NEUR 327; 335;410 or 411, may be taken as co-requisites.
PSYC 300 or equivalent statistics course.
Permission of NAC undergraduate committee and thesis director.
Notes: A total of 6 hours must be taken in NEUR 450 and 451. A minimum of 2 hours and a maximum of 3 hours may be taken in NEUR 450.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

NEUR 451 - Honors Thesis

Credits: 3-4
Not Repeatable for Credit
Offered by Neuroscience Program
Thesis based a laboratory or field investigation under the guidance of a faculty member.

Prerequisite(s): NEUR 450.
Notes: A total of 6 hours must be taken in NEUR 450 and 451. A minimum of 3 hours and a maximum of 4 hours may be taken in NEUR 451.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3-4
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring
**NEUR 461 - Special Topics in Neuroscience**

Credits: 1-3  
Repeatable within Term for Credit  
Offered by Neuroscience Program  
Selected topics reflecting in specialized areas of neuroscience.

**Prerequisite(s):** PSYC 372, 375, or equivalent or permission of instructor.  
**Notes:** May be repeated three times for credit when topic is different.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0

**NEUR 592 - Special Topics in Neuroscience**

Credits: 3  
Repeatable within Degree for Credit  
Offered by Neuroscience Program  
Special topics in neuroscience reflecting specialized areas or new subfields that not covered in fixed-content neuroscience courses. Course may be repeated for credit as needed.

**Prerequisite(s):** Neur 327, Neur 335 or permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**When Offered:** Fall, Spring

**NEUR 600 - Chemistry and the Brain**

Credits: 3  
Not Repeatable for Credit  
Offered by Neuroscience Program  
Fundamentals of general chemistry, atoms, molecules, and reactions, with emphasis on water solutions. Organic compounds and functional groups, biosynthesis and properties, and examples from nervous system. Also includes biopolymers and their roles in cellular and neuronal organization, ionic channels, neurotransmitter receptors, and psychoactive substances.

Equivalent to PSYC 556

**Prerequisite(s):** Admission to neuroscience PhD program or permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NEUR 601 - Developmental Neuroscience**
Introduction to developmental neurobiology with overview of embryological development of the nervous system. Topics include neural induction, patterning/cell fate specification, and neural circuit assembly together with modern molecular methods for exploring neural development.

Equivalent to PSYC 527

**Prerequisite(s):** PSYC 372, or BIOL 213 and 303, or the equivalent.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 0

---

**NEUR 602 - Cellular Neuroscience**

Credits: 3

Not Repeatable for Credit

Offered by Neuroscience Program

Detailed overview of the functioning and interactions of the cellular elements of the central nervous system. Topics include structure and function relationships, the chemical, physical, and electrical basis of neural signaling, local versus long-distance signaling, generation of action potentials, and essentials of synaptic communication.

**Prerequisite(s):** Admission to the PhD program in Neuroscience or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**NEUR 603 - Mammalian Neuroanatomy**

Credits: 3

Not Repeatable for Credit

Offered by Neuroscience Program

Focus on mammalian brain organization and function, emphasizing human neurobiology. Modern experimental and clinical tools explain: gross and microscopic brain organization; functional brain circuits for sensory and motor processing; higher brain organization and function; and development of selected brain areas. The knowledge gained is then used to explain the clinical symptoms occurring after specific brain insults.

**Prerequisite(s):** One course in neuroscience (or equivalent biology course), or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

---

**NEUR 604 - Ethics in Scientific Research**

Credits: 1-3

Not Repeatable for Credit

Offered by Neuroscience Program
Reflects on purpose of scientific research and reviews foundational principles for evaluating ethical issues. Offers skills for survival in scientific research through training in moral reasoning and teaching of responsible conduct. Discusses ethical issues in research, and teaches how to apply critical thinking skills to design, execution, and analysis of experiments. Issues include using animals and humans in research, ethical standards in computer community, and research fraud. Currently accepted guidelines for behavior in data ownership, manuscript preparation, and conduct of persons in authority may be presented and discussed in terms of relevant ethical issues.

Equivalent to PHIL 691

**Prerequisite(s):** Graduate standing.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 1-3

**NEUR 611 - Philosophical Foundation of Neuroscience**

Credits: 3

Not Repeatable for Credit

Offered by Neuroscience Program

This course presents the joint histories of the nature of thought, the philosophy of science, the construct of self, and the nature of mind.

**Prerequisite(s):** Any course in neuroscience or permission of the instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**NEUR 612 - Neuroethics**

Credits: 3

Not Repeatable for Credit

Offered by Neuroscience Program

Neuroethics explores the implications of developments in basic and clinical neuroscience on social and ethical issues. This course will survey emerging questions raised by recent neuroscientific discoveries on genetic and environmental factors that influence human behavior, decision-making, personality traits, and mental states. Grades will be based on article presentation, class participation, and final written report.

**Schedule Type:** LEC

**When Offered:** Fall

**NEUR 621 - Synaptic Plasticity**

Credits: 3

Not Repeatable for Credit

Offered by Neuroscience Program

Course on activity-dependent modification of functional connectivity in
the central nervous system as it relates to development, cognition, and disease.

**Prerequisite(s):** NEUR 602  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### NEUR 634 - Neural Modeling

Credits: 3  
Not Repeatable for Credit  
Offered by Neuroscience Program  
Introduces the objectives, philosophy, and methodology of neuronal modeling. Instructs students in the use of some of the more popular neural modeling software packages. Students learn the syntax of several software packages, how to create neurons from subcellular components, and how to create networks by connecting neuron models.

**Prerequisite(s):** NEUR 602 or permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### NEUR 651 - Molecular Neuropharmacology

Credits: 3  
Not Repeatable for Credit  
Offered by Neuroscience Program  
Presents key concepts in cellular and molecular neuropharmacology. Provides an in-depth survey of receptor driven cell function, which includes recent topics in cell structure, membrane function, electrical properties of neurons and intracellular signaling. Enables an introduction to research tools and reagents in study of neuronal systems via a reading and an analysis of the primary literature.

**Prerequisite(s):** NEUR 602 or permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**When Offered:** Spring

### NEUR 689 - Topics in Neuroscience

Credits: 3  
Repeatable within Term for Credit  
Offered by Neuroscience Program  
Selected topics in neuroscience reflecting specialized areas or new subfields not covered in fixed-content neuroscience courses.

**Notes:** Course may be repeated for credit as needed.  
**Schedule Type:** LEC
NEUR 701 - Neurophysiology Laboratory

Credits: 3
Not Repeatable for Credit
Offered by Neuroscience Program
Hands-on training in current techniques of modern neurophysiology. Acquaints students with the theoretical basis of each technique and trains the student in the laboratory skills necessary to perform each technique. Includes intracellular and extracellular recording techniques.

Prerequisite(s): NEUR 602 and admission to neuroscience PhD program or permission of instructor.
Notes: Meets once weekly for six hours.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 6

NEUR 702 - Research Methods

Credits: 3
Not Repeatable for Credit
Offered by Neuroscience Program
Trains students in research methodologies for life sciences. Covers the four aspects of biological research projects: experimental design, data collection, data analysis and research ethics.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NEUR 703 - Laboratory Rotation and Readings

Credits: 3
Not Repeatable for Credit
Offered by Neuroscience Program
Intensive introduction to a research laboratory in neuroscience. The student will read background material pertinent to the problem under study, learn and practice research methods of the laboratory, and formulate a short final project, which may be a proposal or an actual project, demonstrating some mastery of the techniques and approaches employed.

Prerequisite(s): Admission to the PhD program in Neuroscience.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
NEUR 709 - Neuroscience Seminars

Credits: 1
Not Repeatable for Credit
Offered by Neuroscience Program
Special seminar series for first year neuroscience PhD students. Detailed overview of neuroscience research at Mason. Each week, a different neuroscience laboratory and principal investigator lectures to students. The lecture includes the neuroscience basics necessary to appreciate the laboratory research theme and mission, and a more practical description of the active research program, possibly including a visit to the laboratory.

Prerequisite(s): Admission to neuroscience PhD program.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

NEUR 710 - Special Topics in Neuroscience

Credits: 1
Not Repeatable for Credit
Offered by Neuroscience Program
Examines topics in neurosciences, including neurogenetics, neural imaging, and the competing computational and biological approaches to understanding the mind.

Prerequisite(s): Admission to neuroscience PhD program.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

NEUR 734 - Computational Neurobiology

Credits: 3
Not Repeatable for Credit
Offered by Neuroscience Program
Intense review of neurobiology for graduate students interested in studying how nerve cells integrate and transmit signals, and how behavior emerges from integrated actions of populations or circuits of nerve cells. Covers electrical and biochemical properties of single neurons, and electrical and chemical communication between neurons. Emphasizes mathematical descriptions and computational techniques to study and understand neurons and networks of neurons.

Prerequisite(s): NEUR 602 and MATH 214, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 735 - Computational Neuroscience Systems
NEUR 734 - Introduction to Systems Neuroscience

Credits: 3
Not Repeatable for Credit
Offered by Neuroscience Program
Intensive introduction to systems neuroscience from quantitative perspective. Covers computational techniques used to study function of networks of neurons. Uses spike train statistics, neural encoding, and information theory to investigate behaviors that emerge from integrated actions of networks of neurons.

Prerequisite(s): NEUR 734, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 741 - Introduction to Neuroimaging

Credits: 3
Not Repeatable for Credit
Offered by Neuroscience Program
Introduction to physics and techniques of magnetic resonance imaging (MRI) and their applications to clinical and basic neuroscience. Students learn about the protocols used in the acquisition of images in both structural and functional contexts, and experimental paradigms applied to the exploration of cognition, learning, and development. Students gain experience with creating an experimental design for a study and understanding practical logistics involved in imaging, such as MRI safety and subject screening.

Prerequisite(s): NEUR 602 or 603, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 742 - Cognitive Neuroscience

Credits: 3
Not Repeatable for Credit
Offered by Neuroscience Program
Introduces cognitive neuroscience topics, including aspects of cognitive science covering an array of perceptual, sensory, cognitive, and affective processes. Incorporates studies of brain lesions, brain imaging, and animal and computational models.

Prerequisite(s): NEUR 602 or 603, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NEUR 751 - Applied Dynamics in Neuroscience

Credits: 3
Not Repeatable for Credit
Offered by Neuroscience Program
Covers recent developments in the application of applied dynamics to neuroscience. Emphasizes dynamical system approach to
the understanding of neural processes. Topics include neural synchrony and control; formation of waves; oscillations; patterns within neural ensembles; network topology and dynamics of neurons; and decoding and encoding of neural signals.

**Prerequisite(s):** NEUR 603 or NEUR 734, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**NEUR 752 - Modern Instrumentation in Neuroscience**

Credits: 3

Not Repeatable for Credit

Offered by Neuroscience Program

Builds on knowledge of how and what things are measured and controlled in modern bioinstrumentation. Topics include fundamental instrumentation; principles of sensing; basic electronics; computer interfaces and data acquisition; signals in biological systems; biopotential and ionic concentration measurements; and optical techniques.

**Prerequisite(s):** NEUR 602 or 734, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**NEUR 851 - Advanced Computation and Brain Dynamics**

Credits: 3

Not Repeatable for Credit

Offered by Neuroscience Program

In-depth study of open issues and the state-of-the-art in advanced brain dynamics. Using mathematical and physical models, the course covers the neurodynamical aspects of neural nets, receptive fields, ion-channels, intercortical interactions, phase-locking, synchronicity, and the possible nontrivial role of quantum effects.

**Prerequisite(s):** NEUR 603 or NEUR 734, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**NEUR 996 - Doctoral Reading and Research**

Credits: 3 or 6

Repeatable within Degree for Credit

Offered by Neuroscience Program

Reading and research on specific topic in neuroscience under direction of faculty member.

**Prerequisite(s):** Admission to NEUR PhD, and permission of instructor.

**Notes:** May be repeated as needed.

**Schedule Type:** IND
NEUR 998 - Dissertation Proposal

Credits: 1-6
Repeatable within Degree for Credit
Offered by Neuroscience Program
Covers development of a research proposal under guidance of dissertation director and doctoral committee. Proposal forms the basis for the doctoral dissertation.

Prerequisite(s): Admission to the Neuroscience Ph.D. program.
Notes: Course may be repeated as needed; however, no more than a total of 24 credits in NEUR 998 and 999 may be applied toward satisfying doctoral degree requirements. Out of the 24, no more than 12 credits of NEUR 998 may be applied.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

NEUR 999 - Doctoral Dissertation

Credits: 1-12
Repeatable within Degree for Credit
Offered by Neuroscience Program
Doctoral research performed under the direction of the dissertation director.

Prerequisite(s): Admission to candidacy in neuroscience doctoral program.
Notes: May be repeated as needed; however, no more than a total of 24 credits in NEUR 998 and 999 may be applied toward satisfying doctoral degree requirements.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: S/IP

Nursing (NURS)

Offered by the College of Health and Human Services

NURS 305 - Application of Basic Nursing Techniques

Credits: 1
Not Repeatable for Credit
Offered by School of Nursing
To be taken fall semester of accelerated second degree program. Introduces basic nursing technologies, and provides opportunities to apply these skills in simulated technology lab.

**Prerequisite(s):** Acceptance into accelerated second degree pathway.

**Schedule Type:** LAB, LEC

**Hours of Lecture or Seminar per week:** 1-3

**Hours of Lab or Studio per week:** 2

**NURS 309 - Introduction to Basic Nursing Care**

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Enrollment restricted to second-degree students only. Introduces basic fundamentals of nursing care across the life span. Emphasis on nursing process, critical thinking, and foundational technologies and skills required to practice in the health care setting.

**Prerequisite(s):** Acceptance into accelerated nursing pathway.

**Corequisite(s):** NURS 310

**Notes:** Enrollment restricted to second-degree students only.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**NURS 310 - Application of Basic Nursing Care**

Credits: 4
Not Repeatable for Credit
Offered by School of Nursing
Application of basic nursing care in acute care settings utilizing the nursing process.

**Prerequisite(s):** Acceptance into accelerated second degree program.

**Schedule Type:** LAB, RCT

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 9

**Grading:** Satisfactory/No Credit

**NURS 312 - Basic Nursing Care of Adults**

Credits: 4
Not Repeatable for Credit
Offered by School of Nursing
Provides the student the opportunity to practice health assessment and fundamental nursing skills with adult medical/surgical
clients, including those who are culturally diverse, vulnerable, and experiencing physiological, psychological, and social health problems.

**NURS 319 - Pathophysiological Basis for Nursing Care of Individuals and Small Groups**

Credits: 4  
Not Repeatable for Credit  
Offered by School of Nursing  
Focuses on pathophysiological, psychological, sociocultural, and risk-reduction factors related to nursing care for clients with psychiatric conditions, as well as for child-bearing women, infants, children, and adolescents with acute health care needs.

**Prerequisite(s):** Acceptance into accelerated nursing pathway.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 4  
**Hours of Lab or Seminar per week:** 0

**NURS 330 - Nursing Fundamentals**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  
Introduces nursing process and communication skills as the foundation for beginning health assessment and fundamental nursing care for culturally diverse individuals throughout the life span.

**Prerequisite(s):** Acceptance into traditional nursing pathway.  
**Corequisite(s):** NURS 331.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**NURS 334 - Nursing as a Health Profession and Discipline**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  
Introduces nursing as a dynamic and caring health profession, the impact of epidemiology, health promotion, and disease prevention on health status of culturally diverse and vulnerable individuals, families, small groups, and communities throughout life span. Incorporates nursing and critical thinking processes as they apply to the art and science of nursing. Historical perspectives on ethical, legal, political, and social issues are included.
Prerequisite(s): Acceptance into RN or accelerated nursing pathway.
Corequisite(s): NURS 309 and 310 for second-degree students only.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

NURS 336 - Concepts in Professional Nursing as a Discipline

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Provides an analysis of the profession and explores nursing philosophies and theories. Explores legal, ethical, political, and technological issues in health care at various nursing levels. Addresses critical thinking and its application to the collaborative nursing process. Utilizes the American Psychological Association formatting style for professional writing within the nursing profession.

Notes: Must be admitted to the RN-to-BSN program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NURS 337 - Application of Nursing Fundamental Technologies

Credits: 1
Not Repeatable for Credit
Offered by School of Nursing
Opportunity to practice health assessment and fundamental nursing technologies while using communication skills with culturally diverse and vulnerable populations in a variety of settings.

Prerequisite(s): Junior standing.
Corequisite(s): NURS 330 and 331

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 2

NURS 343 - Pharmacology

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Covers principles of pharmacokinetics, pharmodynamics of selected drug classifications, and nursing responsibilities related to drug administration to individuals throughout life span.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### NURS 344 - Intermediate Nursing Technologies

Credits: 1  
Not Repeatable for Credit  
Offered by School of Nursing  
Laboratory course to assist students in acquiring therapeutic nursing interventions. Technologies presented are asepsis and wound care, administration of medications including dosage calculations, and management of intravenous therapy.

**Prerequisite(s):** NURS 330, 331, 332, 337, 347, 357, 425.  
**Corequisite(s):** NURS 341.

**Schedule Type:** LAB, LEC  
**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 2  
**When Offered:** Spring

### NURS 347 - Adult Pathophysiology and Nursing Care

Credits: 2  
Not Repeatable for Credit  
Offered by School of Nursing  
Introduces changing health needs of culturally diverse and vulnerable populations. Focuses on nursing care; and pathophysiological, psychological, sociocultural, and risk reduction implications of frequently experienced health problems in the adult population.

**Prerequisite(s):** Acceptance into junior standing.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0

### NURS 348 - Maternal-Newborn Physiology, Pathophysiology, and Nursing Care

Credits: 2  
Not Repeatable for Credit  
Offered by School of Nursing  
Introduces normal and abnormal processes with maternal-infant clients including cultural diversity and vulnerable populations. Focuses on normal physiological, pathophysiological, psychological, sociocultural, risk reduction, and nursing care of these clients.
Prerequisite(s): Acceptance into junior standing.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 349 - Pediatric Pathophysiology and Nursing Care

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing
Focuses on changing health needs of culturally diverse and vulnerable populations. Includes nursing care, pathophysiological, psychological, sociocultural, and risk-reduction implications of frequently experienced health problems in pediatric population.

Prerequisite(s): Acceptance into junior standing.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 350 - Application of Nursing Care for Individuals and Small Groups

Credits: 4
Not Repeatable for Credit
Offered by School of Nursing
Includes five weeks of clinical experience in each specialty area, with focus on obstetric and family nursing, pediatric, and psychiatric mental health nursing. Students may also follow selected clients in clinics or home situations. Clinical consists of two full days per week in acute-care agencies.

Prerequisite(s): NURS 334, 305, 309, 310, 319, and 425
Corequisite(s): NURS 351, 419, and 353.

Notes: Open to accelerated second degree students

Schedule Type: LAB

Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 15

NURS 351 - Application of Intermediate Nursing Technologies

Credits: 1
Not Repeatable for Credit
Offered by School of Nursing
Introduces intermediate nursing technologies and provides opportunities to apply these skills in simulated technology lab.

Prerequisite(s): NURS 309, 310, 319, 334, 425
Schedule Type: LAB,
LEC
NURS 358 - Health Promotion and Disease Prevention in Maternal/Infant Nursing

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing
Provides the student an opportunity to perform nursing care to the maternal/infant client, including those who are culturally diverse and vulnerable, and experiencing physiological, psychological, and social health problems in a variety of settings.

Prerequisite(s): NURS 348
Corequisite(s): NURS 348

Notes: Enrollment is controlled.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 6

NURS 359 - Health Promotion and Disease Prevention in Pediatric Nursing

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing
Provides the student an opportunity to perform nursing care to the pediatric client, including those who are culturally diverse and vulnerable, and experiencing physiological, psychological, and social health problems in a variety of settings.

Prerequisite(s): NURS 349
Corequisite(s): NURS 349

Notes: Enrollment is controlled.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 1-9
Hours of Lab or Studio per week: 6

NURS 388 - Problem-Based Clinical Inquiry

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Focuses on analyzing clinical problems and attempts to resolve issues using critical thinking. Students examine the data in the cases, draw inferences, make deductions, identify assumptions, generate interpretations, evaluate weakness and strengths of arguments, and document their findings.

Prerequisite(s): Completion of NURS 425, 330, 331, 332, 337, and one junior-level clinical course (NURS 357, 358, or 359)
NURS 410 - Nursing Care of Clients with Pathological Conditions

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Encompasses complex health problems of culturally diverse and vulnerable populations throughout the life span. Focuses on nursing care needs and pathophysiological, psychological, and sociocultural implications of complicated health problems.

Prerequisite(s): Completion of all junior year nursing courses
Corequisite(s): Completion of computer NCLEX review required to fulfill course requirements

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 419 - Pathophysiological Basis for Nursing Care of Individuals and Small Groups II

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Enrollment restricted to second degree students only. Focuses on pathophysiological, psychological, sociocultural, and risk reduction factors related to nursing care of child-bearing women, infants, children, and adolescents experiencing acute health care problems.

Prerequisite(s): NURS 305, 309, 310, 319, 334, 425.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 425 - Comprehensive Health Assessment

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Open only to RNs and LPNs. Introduces systematic health assessment across the life span, and expands that knowledge base to include knowledge and skills necessary to perform comprehensive health assessments with culturally diverse and vulnerable populations.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 2
NURS 427 - Advanced Technologies for the Accelerated Pathway

Credits: 1
Not Repeatable for Credit
Offered by School of Nursing
Advanced technology course developing knowledge base related to acquisition of advanced skills in nursing practice. Refinement of assessment skills associated with selected advanced technologies integrated into this laboratory course.

Prerequisite(s): NURS 305, 309, 319, 334, 350, 351, 419, 425, 426, 436, 440, 453.
Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 2

NURS 428 - Community Health Clinical for the Accelerated Pathway

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis on health promotion and disease prevention for well populations, and community-based care for individuals and families with acute and chronic illness.

Prerequisite(s): NURS 436 and 440.
Schedule Type: LAB
Hours of Lecture or Seminar per week: 1-9
Hours of Lab or Studio per week: 6

NURS 429 - Preceptorship for the Accelerated Pathway

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Opportunity to deliver collaborative nursing care to culturally diverse and vulnerable populations.

Prerequisite(s): NURS 309, 310, 320, 343, 419, and 436.
Notes: Concentrated clinical experiences available in selected institutional settings.
Schedule Type: LAB
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 9
NURS 434 - Vulnerable Populations

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Focuses on the care of vulnerable and aging populations. Students will examine health disparities, health literacy, and multicultural issues that impact the delivery of health care. Students will analyze health care policies and health care delivery models that offer potential interventions for the identified needs of these populations.

Prerequisite(s): Completion of the Mason Core requirements.
Corequisite(s): Completion of NURS 334 as pre or co-requisite.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

NURS 436 - Leadership and Management of Health Care

Credits: 3
Repeatable within Degree for Credit
Offered by School of Nursing
Introductory course in the leadership and management of health-related organizations. Reviews administrative issues in health-related services with particular emphasis on developing organizational strategies for effective interfacing of medical, nursing, allied health, and administrative staff.

Prerequisite(s): Completion of all junior year nursing courses
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

NURS 440 - Community Health and Epidemiology

Credits: 3
Repeatable within Degree for Credit
Offered by School of Nursing
Addresses population-focused health care. Emphasis is on primary, secondary, and tertiary prevention of health problems. Concepts of community, public health, and health policy affecting culturally diverse and vulnerable populations are examined.

Prerequisite(s): Senior standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

NURS 451 - Advanced Clinical Preceptorship
Opportunity to provide complex, collaborative nursing care to culturally diverse and vulnerable populations.

Notes: Concentrated clinicals available in selected institutional settings.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 15
When Offered: Fall, Spring

**NURS 453 - Research in Nursing**

Credits: 3
Repeatable within Degree for Credit
Offered by School of Nursing
Introductory research course designed to present basic concepts and methods of research. The research process is examined as a foundation for scholarship. Emphasis on critique and use of current nursing and research in clinical practice.

Prerequisite(s): STAT 250 or equivalent; acceptance into one of BSN nursing pathway.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**NURS 455 - Advanced Technologies in Nursing**

Credits: 1
Not Repeatable for Credit
Offered by School of Nursing
Opportunity to acquire advanced skills in nursing practice. Refinement of assessment skills associated with selected advanced technologies integrated into this laboratory course.

Corequisite(s): NURS 451.
Schedule Type: LAB
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 4

**NURS 457 - Introduction to Nursing Informatics**

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
This introductory course focuses on the use of computer technology in nursing and healthcare. The student evaluates software applications and assesses the merit of health-related information on the Internet. Students will engage in projects aimed at solving patient care problems in a variety of technologically-enhanced health care settings.
Corequisite(s): Senior year

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

**NURS 465 - Examination and Integration of Professional and Health Care Issues**

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Provides students with opportunities to examine issues in health care through reflection on the natural and behavioral sciences, humanities and other prerequisite coursework. Selected topics are examined through reading, writing and discussion. Formal and informal writing on issues is expected. Students receive written self-evaluation as well as formal review by peers and faculty members involved in teaching the course.

Fulfills Mason Core requirement in synthesis.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Required Mason Core courses (including ENGL 302/ENGH 302).

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

**NURS 466 - Community Health Nursing**

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing
This course addresses population-focused health care. Concepts of public health, epidemiology, environmental health, extended roles in nursing and health policy affecting culturally diverse and vulnerable populations are examined.

Prerequisite(s): Completion of all junior year nursing courses

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

**NURS 467 - Clinical in Community Health Nursing**

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community.
Emphasis is on health promotion and disease prevention for well populations and community-based care for individuals and families with acute chronic diseases.

**Prerequisite(s):** NURS 410, 436, 466  
**Corequisite(s):** NURS 442, 466

**Schedule Type:** LAB  
**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 6

---

**NURS 468 - Psychiatric and Mental Health Nursing**

Credits: 2  
Not Repeatable for Credit  
Offered by School of Nursing

Focuses on the nursing care, pathophysiological and psychological, social-cultural, and risk reduction implications of health problems in the area of mental health and psychiatric nursing.

**Prerequisite(s):** Completion of all junior year nursing courses  
**Notes:** Open to traditional and LPN students only.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0

---

**NURS 469 - Clinical in Psychiatric and Mental Health Nursing**

Credits: 2  
Not Repeatable for Credit  
Offered by School of Nursing

Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis is on health promotion and disease prevention for well populations and community-based care for individuals and families with acute chronic diseases.

**Prerequisite(s):** NURS 410, 436  
**Corequisite(s):** NURS 442, 468

**Notes:** Open to traditional and LPN students only.

**Schedule Type:** LAB  
**Hours of Lecture or Seminar per week:** 1-12  
**Hours of Lab or Studio per week:** 6

---

**NURS 488 - Inquiry-Based Clinical Seminar**

Credits: 2  
Not Repeatable for Credit
Offered by School of Nursing

Students focus on a selected client they have provided care for during their NURS 451 clinical preceptorship. Students examine the data in the case, draw inferences, make deductions, identify assumptions, and generate interpretations regarding the client's problems. The class will participate as a group in the inquiry process to identify strengths and weaknesses of the arguments presented.

Prerequisite(s): Completion of junior-level nursing courses, NURS 410 and NURS 436

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 491 - Critical Thinking and Analysis of Test Taking Strategies

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing

Increases test-taking abilities and improves critical-thinking skills related to nursing situations. Also guides the student to analyze and organize content to assist in decision making about nursing interventions. With faculty supervision, students work independently based on their learning needs.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 492 - Death, Dying, and Decision Making

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing

Interdisciplinary examination and analysis of clinical care of dying and psychosocial issues related to death and dying. Special emphasis on applying ethical principles in resolution of complex problems for individuals with life-threatening illnesses and their families as caregivers or decision makers. Decision-maker models provide basis for clinical case discussions. Questions of futility examined with associated care issues. Current professional and lay literature discussed in context of socially changing norms and mores. Explores hospice and alternative palliative care models, and reviews policies, laws, and regulations that affect caregivers and health service providers. Includes advance directives, do-not-resuscitate orders, and assisted suicide. Presents bereavement as part of death, dying, and grieving process.

Notes: Lecture-discussion.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 496 - Violence in Today's Society

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing

Examines magnitude of problem of violence globally and more specifically within the United States. Discussion and reflective activities engage students in the learning process.

Equivalent to GCH 496

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NURS 499 - Independent Study in Nursing**

Credits: 1-3  
Repeatable within Term for Credit  
Offered by School of Nursing  
Provides individual study of a particular problem area in nursing research, theory development, or education under the direction of faculty. Clinical practice may be arranged.

**Prerequisite(s):** Permission of instructor and Assistant Dean for the Undergraduate Program.  
**Notes:** May be repeated for maximum 6 credits.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 1-4  
**Hours of Lab or Studio per week:** 0

---

**NURS 513 - Advanced Pharmacology in Nursing**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  
Does not meet requirements for nurse practitioner majors, but may be taken as an elective. Provides knowledge of physiologic responses and pharmacokinetic principles of pharmacologic agents that will undergird the student's learning of advanced pharmacologic concepts. Topics include advanced pharmacokinetic principles, pharmacotherapeutics of single and multiple drug regimens, client education needs, special population needs, and legal requirements for prescriptive authority.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NURS 514 - Advanced Health Assessment Methods**

Credits: 1  
Not Repeatable for Credit  
Offered by School of Nursing  
Expands on undergraduate skills in systematic health assessment across the life span. Teaches application of advanced health assessment skills in specialty advanced nursing practice setting. Integration of skills and techniques in collecting health assessment data towards appropriate decision making, clinical assessments, and therapeutic interventions in select population
Prerequisite(s): Undergraduate-level health assessment course for degree credit or approved CEU course.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 1

**NURS 550 - Pathophysiologic Bases for Major Health Deviations of Individuals**

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Examines health deviations occurring in people in the United States that require long-term or terminal health care interventions. Deviations are presented within a developmental framework as they influence physiologic integrity at the cellular level. Focus is on man as a whole, open system. Complex health programs from the perspective of maintaining homeodynamics are examined.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**NURS 571 - HIV/AIDS: Concepts, Principles, and Interventions**

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Provides overview of all aspects of HIV disease to include retrospective and current concepts and analyses of the epidemic, global, and societal impact, and cutting-edge research. Examines development of therapeutic tools and skills to educate, reduce risks, control infection, and affect care and healing of client, family, and community; and issues of increasing dilemma for health care professionals.

Equivalent to GCH 571

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**NURS 605 - Clinical Nurse Educator Academy**

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Integrates knowledge and skills from clinical practice with new knowledge and skills needed as a clinical nurse educator. Narratives are used to teach essential skills for clinical nurse educators, such as assessment of learning needs, writing of objectives, teaching strategies, clinical simulation, and performance evaluation.

Schedule Type: LEC
NURS 613 - Advanced Health Assessment

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing
The course expands on undergraduate skills in systematic health assessment across the life span. The student will learn advanced health assessment skills in specialty advanced nursing practice. Integration of skills and techniques in collecting health assessment data towards appropriate decision-making, clinical assessments and therapeutic interventions in select populations is emphasized in this lab and didactic course.

Prerequisite(s): Undergraduate-level Health Assessment course for degree credit.
Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 618 - Pathophysiology: Health and Illness

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Focuses on the biological and pathophysiological foundations of health problems. Biological changes in selected health problems and health risks, will be used as a framework for critically appraising assessment data and to advance nursing strategies.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 623 - Clinical Concepts in Community-Oriented Primary Care

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Theoretical and clinical application of community-oriented primary care concepts with focus on health promotion and disease prevention. Examines scope of practice of advanced practice nurse practitioner. Students work with interdisciplinary groups to improve health indicators for populations.

Prerequisite(s): NURS 665.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 3
NURS 632 - Pathogenesis of Mental Disorders

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Explores biological correlates of mental illness, including neuronal function, structure and connectivity, and peripheral alterations in biological functioning that contribute to mental disorders across the lifespan. Reviews genetic heritability and specific theories of etiology and diagnostic classifications. Develops interview and differential diagnostic skills.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor.
Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NURS 633 - Individual Psychotherapy

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Explores major approaches to individual psychotherapy such as psychodynamic, humanistic, interpersonal, behavioral, cognitive, dialectical behavioral, brief, crisis, and multicultural therapies as they relate to advanced nursing practice in mental health. Applications of individual psychotherapies across the lifespan and among diverse populations are critically examined.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 632.
Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NURS 634 - Group, Family and Couple Psychotherapy

Credits: 1
Not Repeatable for Credit
Offered by School of Nursing
Explore the major psychotherapeutic approaches for groups, families, and couples. Emphasis is placed on the application of theories and models of group, family, and couple psychotherapy across the lifespan and among diverse populations.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 632.
Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations.

Schedule Type: LEC
NURS 643 - Community-Oriented Primary Care

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  
Theoretical and clinical application of community-oriented primary care concepts with a focus on health promotion and disease prevention.

Prerequisite(s): Admission to MSN or DNP Program or permission of instructor.  
Schedule Type: LAB, LEC  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 3  
When Offered: Fall, Spring, Summer

NURS 648 - Aging and Health

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  
Provides an overview of normal aging and explores factors that affect health and well being in older adults; demonstrates strategies for maintaining health and managing chronic illness in older adults; examines common misconceptions about aging and healthcare issues; and explores the process of normal aging and the presentation of common health conditions in older adults.

Equivalent to HHS 648

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

NURS 654 - Nursing Administration Financial Management

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  
Investigates managerial technologies related to financial planning and control functions of mid-level nurse administrators. Content develops knowledge and skills necessary for effective participation in financial management as related to business plan development, program budget planning, and control.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring
NURS 660 - Seminar in the Ethics of Health Care

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Examines moral dilemmas in the health care profession, with special emphasis on patients' rights, professionals' obligations to other professionals, and issues of social justice in health care. Methods of moral deliberation based on ethical knowledge and justification are applied to ethical dilemmas in health care.

Equivalent to PHIL 510

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 665 - Theoretical and Ethical Foundations Related to Nursing

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Selected nursing and related discipline theories which impact nursing practice are analyzed and evaluated with special attention given to ethical aspects of practice and ethical decision-making frameworks. Moral dilemmas in the health care profession, with emphasis on patients' rights, professionals' obligations to other professionals, issues of social justice in health care, and methods of moral deliberation are examined.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 680 - Theoretical Foundations Related to Nursing

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing
Examination and evaluation of assumptions, concepts, and propositions inherent in selected nursing and related discipline theories.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 685 - Advanced Nursing Research Methods
Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Examines principles and methods of research in problem identification, theoretical framework, design, data collection, and analysis. Students develop a nursing research proposal.

Prerequisite(s): Admission to graduate nursing program and a bivariate statistics course and NURS 680.
Corequisite(s):

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 686 - Projects in Nursing Research

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing
Applies knowledge gained in NURS 790 to implement research proposal designed in NURS 790.

Prerequisite(s): NURS 685.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

NURS 688 - Organization of Nursing and Health Care Delivery Systems

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Provides foundational overview of U.S. nursing and health care delivery systems. Surveys key concepts, frameworks, processes, and structures related to health care delivery organizations.

Prerequisite(s):
Notes: Lecture, discussion.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 690 - Independent Study in Nursing

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Nursing
Studies in-depth a selected area of nursing theory, research, or practice under direction of faculty.
NURS 704 - Nursing Administrative Leadership Academy

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Uses a leadership competency framework to integrate knowledge, skills, values, and best practices of innovative nursing leadership. Lectures, interactive collaborative discussion, written projects, and leadership self-assessment identify and teach the proficiencies specific to the administrative executive role.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 713 - Decision Making and Pharmacologic Management in Practice

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Analyzes clinical cases using student participation in decision-making formulation. Correlates pathophysiology with symptom manifestations across the lifespan, from prenatal to old age, including death. Evaluates family, medical and social history, physical findings, laboratory data and radiographic studies as they contribute to the decision making process. Examine the theoretical basis for selecting pharmacological and non-pharmacological therapies is explored.

Prerequisite(s): Admission to MSN or DNP Program Nurse Practitioner Concentration.
Corequisite(s): NURS 769; NURS 761.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

NURS 714 - Health Assessment in Clinical Practice

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing
Application of advanced health assessment skills that includes all body systems and clinical decision making with clients across the lifespan. Students will formulate differential diagnoses and explore advanced communication techniques related to motivating and changing health behaviors. Students will apply advanced skills and techniques in a supervised lab setting.
Prerequisite(s): Admission to MSN or DNP Program or permission of instructor.
Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

NURS 715 - Nursing Informatics Inquiry

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
This course introduces theoretical and practice components of nursing and healthcare informatics for the graduate level nurse. Computer systems will be analyzed. The systems life cycle will be explored. Health care data standards, classification schemes, and the electronic health record (EHR) will be introduced. Students will evaluate informatics as it applies to patient safety, outcomes measurement, complex decision-making, consumer use, and legal and ethical issues.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 716 - Principles of Assessment and Evaluation in Nursing Education

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Presents techniques of assessment, measurement, and evaluation of nursing knowledge and skills in classroom and clinical settings. Provides opportunities for the informal assessment of learning; formal construction, analysis, and evaluation of tests; and the evaluation of standardized tests. Examines the current research and the legal and ethical principles related to assessment and evaluation in nursing education.

Equivalent to NURS 556 (2015-2016 Catalog)

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 720 - Practicum in Family Primary Care Nursing I

Credits: 4
Not Repeatable for Credit
Offered by School of Nursing
Performance of beginning-level nurse practitioner clinical decision-making skills in assessment and management of families and individuals across the life span, with emphasis on health maintenance and health promotion. Seminar, lab, and clinical practicum.

Prerequisite(s): NURS 719, 723, 745, 747, 756.
NURS 721 - Practicum in Assessment and Management of the Developing Family

Credits: 8
Not Repeatable for Credit
Offered by School of Nursing
Theoretical and clinical application of health assessment, health maintenance and promotion, anticipatory guidance, diagnosis, and management of common primary health care concerns through clinical decision-making skills focused on childrearing and childbearing families. Seminar, lab, clinical practicum.

Prerequisite(s): NURS 720.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 15
Grading: Graduate Special

NURS 722 - Practicum in Family Primary Care Nursing II

Credits: 8
Not Repeatable for Credit
Offered by School of Nursing
Students perform advanced clinical decision making in the role of family nurse practitioner. Family primary care problems throughout the life span are assessed and managed, particularly families with elderly and medically underserved members. Seminar, lab, and clinical practicum.

Prerequisite(s): NURS 720 and 721.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 5
Grading: Graduate Special

NURS 724 - Health Assessment Practicum

Credits: 1
Not Repeatable for Credit
Offered by School of Nursing
 Demonstrates the ability to perform advanced health assessment skills that includes all systems across the lifespan. The student will perform advanced techniques and clinical decision making that is necessary for a comprehensive health assessment in this clinical practicum.

Prerequisite(s): Admission to MSN or DNP Program or permission of instructor.
Corequisite(s): NURS 714.
Notes: Five clinical hours are required per week for each credit. Required course in Nurse Practitioner concentration.

Schedule Type: INT
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 5
When Offered: Fall, Spring, Summer

NURS 725 - Hermeneutic Research Methodologies in Health Care

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Uses seminar/discussion for in-depth exploration of interpretive phenomenology, philosophical background for hermeneutics, and hermeneutics as method in context of conducting research in health care. Uses readings from philosophers such as Heidegger, Merleau-Ponty, and Gadamer to situate hermeneutical methodologies in philosophy of science.

Prerequisite(s): Graduate-level qualitative research course
Corequisite(s): Graduate-level qualitative research course

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 726 - Perspectives in Nursing Education

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Uses seminar approach to provide an overview of nursing education. Provides the foundation for teaching and learning in nursing with emphasis on relevant research.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 727 - Application of Nursing Education Principles to Curriculum and Program Development

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Uses seminar and discussion forums to analyze and apply theoretical principles and teaching and learning strategies in planning, developing, and evaluating nursing programs. Examines the overall creative, planned, and collaborative process of program development and evaluation.

Prerequisite(s): NURS 726.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 728 - Practicum and Seminar in Nursing Education I

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Uses seminar/discussion approach and practicum experience to analyze the role and functions of the nurse educator in the academic classroom. Emphasis is on the application of teaching/learning strategies, legal and ethical issues in nursing education, and role development as a nurse educator.

Prerequisite(s): NURS 514, 550, 726, and 727; NURS 556 or EDRS 531.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 6

NURS 729 - Practicum and Seminar in Nursing Education II

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Uses seminar/discussion approach and practicum experience to analyze the role and functions of the nurse educator in the clinical setting. Application of research-based teaching and evaluation strategies in the clinical setting are emphasized.

Prerequisite(s): NURS 514, 550, 726, and 727; NURS 556 or EDRS 531.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 6

NURS 730 - Leadership Strategies for the Clinical Nurse Leader

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing
Explores aspects of horizontal and vertical leadership central to clinical nurse leader (CNL) role. Emphasizes quality management and improvement, communication processes, evidenced-based practice initiatives in microsystem, and strategies for efficient use of resources while maintaining safe and effective patient care.

Prerequisite(s): NURS 597 and 685
Corequisite(s): NURS 597 and 685

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
**NURS 733 - Introduction to Forensic Science**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  

Examines the introductory concepts of forensic science including the various professional roles of forensic scientists and practitioners. This course provides a broad overview of the forensic science profession. Different types of violence, as well as prevention and reduction strategies, are discussed. The forensic professional's role in policy and legal processes are explored. Forensic research is introduced. Professional certification options are explored.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 734 - Role of the Sexual Assault Nurse Examiner and Interpersonal Violence**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  

Focuses on the incidence and consequences of interpersonal violence across the lifespan. Identifies the role of sexual assault nurse examiner (SANE) as a member of the Sexual Assault Response Team (SART). Examines forensic techniques used to collect evidence. The role of the SANE in the judicial process is explored.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 735 - Crime Lab and Crime Scene Investigation**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  

Examines the components of the crime lab and the crime scene analysis process. Explores the role of the forensic scientist in crime scene investigation. This course covers the initial crime scene response and initial assessment measures needed to properly collect and handle evidence. Documentation and preservation efforts are reviewed for various types of evidence collected.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**NURS 736 - Psychological and Legal Aspects of Forensic Science**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  

Evaluates the psychological and legal aspects of forensic science. Reviews victimology and the role of the forensic professional
when dealing with victimized individuals. This course reviews various types of violence and identifies the assessment criteria needed to pursue prosecution. Examines the legal process and the role of the forensic professional in providing testimony in a court of law.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

NURS 737 - Investigation of Injury and Death

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing

Explores the role of the forensic scientist in death investigation. Examines death, manners of death, and causes of death, along with the death certification process. The role of the medical office professional and autopsy procedures will be reviewed. DNA evidence and the CODIS system will be analyzed.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

NURS 738 - Family Primary Care I

Credits: 2  
Not Repeatable for Credit  
Offered by School of Nursing

Theoretical application of health assessment, health management/promotion, anticipatory guidance, diagnosis and management of common primary care health care concerns through clinical decision making skills for families with a focus on adults. Lecture, student presentations and seminar.

Prerequisite(s): Students must be admitted to the Family Nurse Practitioner Program.  
Corequisite(s): NURS 742.

Notes: Required course in Family Nurse Practitioner concentration.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0  
When Offered: Summer

NURS 739 - Family Primary Care II

Credits: 4  
Not Repeatable for Credit  
Offered by School of Nursing

Theoretical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns through clinical decision making skills focused on childbearing and childbearing families.
Seminar, student presentations and lectures.

**Prerequisite(s):** Students must be admitted to the Family Nurse Practitioner Program; NURS 738.

**Corequisite(s):** NURS 744

**Notes:** Required course in Family Nurse Practitioner concentration.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 4

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall

---

**NURS 740 - Clinical Nurse Specialist Internship**

Credits: 3

Repeatable within Term for Credit

Offered by School of Nursing

A continuation of clinical application of theory from NURS 775 to a selected clinical specialty with attention to the health illness continuum of individuals, families, and community.

**Notes:** This course may be taken twice.

**Schedule Type:** INT

**Hours of Lecture or Seminar per week:** 0

**Hours of Lab or Studio per week:** 9

---

**NURS 741 - Family Primary Care III**

Credits: 3

Not Repeatable for Credit

Offered by School of Nursing

Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the nurse practitioner student to assume increased responsibility in the delivery of primary care to families and individuals across the life span. Special emphasis is given to the primary care needs of families with elderly and medically underserved members. Seminar, student presentations and lectures.

**Prerequisite(s):** Students must be admitted to the Family Nurse Practitioner Program; NURS 739.

**Corequisite(s):** NURS 749

**Notes:** Required course in Family Nurse Practitioner concentration.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Summer

---

**NURS 742 - Family Primary Care Practicum I**
NURS 737 - Clinical Role Transition in Nursing II

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing
Demonstrates the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for families with a focus on the adult. Clinical practicum, lab and seminar.

Prerequisite(s): Students must be admitted to the Family Nurse Practitioner Program.
Corequisite(s): NURS 738.

Notes: Five clinical hours are required per week for each credit. Required course in Family Nurse Practitioner concentration.

Schedule Type: INT, LAB, SEM
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-12
When Offered: Summer

NURS 743 - Clinical Psychopharmacology

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Introduce psychotropic medications, including neurochemical basis, mode of action and clinical application. Discuss principles of pharmacological medication selection and use based on clinical indicators.

Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Admission to the Doctor of Nursing Practice program or with permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NURS 744 - Family Primary Care Practicum II

Credits: 4
Not Repeatable for Credit
Offered by School of Nursing
Clinical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns through clinical decision making skills focused on childrearing and childbearing families. Clinical practicum, seminar, lab.

Prerequisite(s): Students must be admitted to the Family Nurse Practitioner Program; NURS 738.
Corequisite(s): NURS 739

Notes: Five clinical hours are required per week for each credit. Required course in Family Nurse Practitioner concentration.

Schedule Type: INT
NURS 746 - Practicum in Adult Primary Care Nursing I

Credits: 6
Not Repeatable for Credit
Offered by School of Nursing
Demonstration of the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for adults.

Prerequisite(s): NURS 719, 723, 745, 747, 756
Schedule Type: LAB
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 12
Grading: Graduate Special

NURS 748 - Practicum in Adult Primary Care Nursing II

Credits: 8
Not Repeatable for Credit
Offered by School of Nursing
Enables nurse practitioner student to assume increased responsibility in the delivery of primary care to adults. Special emphasis on primary care needs of elderly and medically underserved groups.

Prerequisite(s): NURS 746.
Schedule Type: LAB
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 16
Grading: Graduate Special

NURS 749 - Family Primary Care Practicum III

Credits: 4
Not Repeatable for Credit
Offered by School of Nursing
This practicum enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to families. Family primary care problems across the life span are assessed and managed, particularly families with elderly and medically underserved members. Practicum, clinical lab and seminar.

Prerequisite(s): Students must be admitted to the Family Nurse Practitioner Program; NURS 739.
Corequisite(s): NURS 741

Notes: Five clinical hours are required per week for each credit.
Required course in Family Nurse Practitioner concentration.
NURS 757 - Nursing Research and Biostatistics I

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Provides a broad framework for understanding and applying commonly used research designs and data analysis techniques in nursing and health care research. Exposed to an overview of qualitative and quantitative research methods integrated with appropriate data analyses techniques. Univariate and bivariate statistical techniques will be used to address research questions or hypotheses as appropriate.

Prerequisite(s): Admission to the graduate nursing program; Undergraduate Statistics Course

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 758 - Nursing Research and Biostatistics II

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Empirically address practice related problems using complex bivariate and multivariate statistical analysis. Using an established data set as a basis for simulation of the research process, student will identify clinical problems in research traditions to provide evidence for nursing practice. Emphasis is on evaluating the quality of research for its strength as evidence for nursing practice.

Prerequisite(s): NURS 757

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 761 - Pharmacotherapeutics

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Describes the pharmacologic principles and pharmacodynamic actions for all broad categories of agents. Distinguishes between the major drug classes by the pharmacologic properties of drugs on the cellular, organ and whole organism level. Study of indications and contraindications of appropriate therapeutic entities for health deviations based on a thorough knowledge of drugs and their fate in the human body.

Prerequisite(s): Admission to MSN or DNP Program or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
NURS 763 - Administrative Theory in Nursing

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  
Uses administrative theory and management principles and processes as related to roles and functions of the nurse in management in health-related agencies.

Prerequisite(s): Admission to graduate nursing program or master's degree. NURS 680 and Management/Organizational Theory  
Corequisite(s): NURS 680 and Management/Organizational Theory  

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

NURS 765 - Practicum in Nursing Administration I

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  
Applies administrative theory and management principles and processes in a selected health-related agency. Roles and functions of the nurse in management are explored.

Prerequisite(s): Admission to graduate nursing program; NURS 680, 763  
Corequisite(s): NURS 763  
Notes: Lab arranged.

Schedule Type: LAB  
Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 8  
When Offered: Fall

NURS 766 - Administrative Strategies in Nursing

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  
Explores roles and functions of the nurse in management as the nurse manager develops patterns of nursing care, articulating nursing education, and nursing service.

Prerequisite(s): NURS 763 and 765.  
Corequisite(s): NURS 768.
NURS 768 - Practicum in Nursing Administration II

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  
Implements and integrates roles and functions of the nurse in management. Emphasizes using appropriate management principles and processes in a selected health-related agency.

Prerequisite(s): NURS 763, 765, 766  
Corequisite(s): NURS 766

Notes: Lab arranged.

NURS 769 - Physiology and Pathophysiology in Advanced Practice

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  
Analyze health deviations in the physiologic and pathophysiologic aspects of systems functioning across the life span. Students assimilate the process of systematic assessment and management of health deviations foundational for making clinical decisions.

Prerequisite(s): Admission to MSN or DNP or permission of instructor.  
Corequisite(s): NURS 713

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring, Summer

NURS 770 - Adult Primary Care I

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  
Theoretical application of health assessment, health management/promotion, anticipatory guidance, diagnosis and management of common primary care health care concerns through clinical decision making skills focusing on adults. Lecture, student
presentations and seminar.

Prerequisite(s): Students must be admitted to the Adult Nurse Practitioner Program.
Corequisite(s): NURS 772.

Notes: Required course in Adult Nurse Practitioner concentration.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**NURS 771 - Adult Primary Care II**

Credits: 4
Not Repeatable for Credit
Offered by School of Nursing
Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the nurse practitioner student to assume increased responsibility in the delivery of primary care to adults. Special emphasis is given to the primary care needs of elderly and medically underserved groups. Lectures, student presentations and seminars.

Prerequisite(s): Adult Primary Care I.
Corequisite(s): Adult Primary Care Practicum II.

Notes: Students must be admitted to the Adult Nurse Practitioner Program. Required course in Adult Nurse Practitioner concentration.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0
When Offered: Fall

**NURS 772 - Adult Primary Care Practicum I**

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Demonstrates ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for adults. Clinical practicum, lab and seminar.

Prerequisite(s): Students must be accepted to the Adult Nurse Practitioner program.
Corequisite(s): NURS 770.

Notes: Five clinical hours are required per week for each credit.

Schedule Type: INT, LAB
Hours of Lecture or Seminar per week: 0
NURS 773 - Clinical Applications of Theory in Advanced Clinical Nursing

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Foundational theory relevant to the emerging roles in advanced clinical nursing, focusing on therapeutic nursing interventions in a variety of clinical specialties, with attention to health-illness continuum of individuals, families, and communities.

Prerequisite(s): Admission to graduate nursing program. NURS 550, 680.
Corequisite(s): NURS 550, 680.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 774 - Adult Primary Care Practicum II

Credits: 4
Not Repeatable for Credit
Offered by School of Nursing
Enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to adults. Special emphasis is given to the primary care needs of elderly and medically underserved groups. Practicum, clinical lab and seminar.

Prerequisite(s): Students must be admitted to the Adult Nurse Practitioner Program; NURS 770.
Corequisite(s): NURS 771.

Notes: Five clinical hours are required per week for each credit. Required course in Adult Nurse Practitioner concentration.

Schedule Type: INT, LAB
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 4
When Offered: Spring

NURS 775 - Advanced Specialty Practice I

Credits: 3
Repeatable within Term for Credit
Offered by School of Nursing
Focuses on clinical application of theory from NURS 773 to a selected clinical specialty with attention to the health illness continuum of individuals, families, and communities.

Prerequisite(s): NURS 665.
Corequisite(s): NURS 768.
NURS 776 - Development of Advanced Practice Nursing Role

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Expansion of selected content included in NURS 773 for the delivery of advanced nursing care in a variety of settings. Emphasizes development and evaluation of the advanced practice nursing role in complex health care systems.

Prerequisite(s): NURS 773.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 778 - Advanced Specialty Practice II

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Applies concepts of the advanced practice nursing role from NURS 776 to a selected clinical specialty.

Prerequisite(s): NURS 665.
Corequisite(s): NURS 773.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 7

NURS 780 - Practicum in Gerontological Nursing I

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Demonstrates the ability to function at a beginning level in the role of the gerontological nurse practitioner. Performance of advanced skill in geriatric assessment with a special emphasis on the delivery of health promotion and disease prevention services (practicum of at least 100 clinical hours and case analysis conferences).

Prerequisite(s): NURS 719, 723, 745, 747, 756.
Corequisite(s): NURS 746.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 0
NURS 781 - Practicum in Gerontological Nursing II

Credits: 3
Repeatable within Degree for Credit
Offered by School of Nursing
Demonstrates the ability to function at an advanced level in the role of the gerontological nurse practitioner in varied settings, including primary care, long-term care, and sub-acute care (practicum of at least 100 clinical hours and case analysis conferences).

Prerequisite(s): NURS 773 and 775.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
Grading: Graduate Special

NURS 782 - Psychiatric Nurse Practitioner Practicum I

Credits: 4
Not Repeatable for Credit
Offered by School of Nursing

Prerequisite(s): Admission to the Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate. NURS 632, NURS 633, NURS 634, and NURS 743
Corequisite(s): NURS 783
Notes: Five clinical hours per week are required for each credit.
Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Admission to the Doctor of Nursing Practice program or with permission of instructor.

Schedule Type: INT
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 20
When Offered: Fall

NURS 783 - Psychiatric Nurse Practitioner Seminar I

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing
Analyzes the professional role of family psychiatric mental health nurse practitioners. Students share assessment, diagnostic, intervention, evaluation, teaching-coaching, cultural competence, and therapeutic relationship development techniques through case studies from their practica. Management of client cases are evaluated and discussed. Students analyze the impact of advocacy actions, including duty to report, on the therapeutic relationship.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate. NURS 632, NURS 633, NURS 634, and NURS 743
Corequisite(s): NURS 782

Notes: Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Admission to the Doctor of Nursing Practice program or with permission of instructor.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall

NURS 784 - Psychiatric Nurse Practitioner Practicum II

Credits: 5
Not Repeatable for Credit
Offered by School of Nursing
Builds on Family Psychiatric Nurse Practitioner Practicum I, improving diagnostic and clinical reasoning ability and competence in assessment, diagnosis, and management of psychiatric disorders. Enables the student to assume increased responsibility in the delivery of comprehensive mental health care. Participates in professional and community organizations to promote the health of patients while enhancing the role of practitioner.

Prerequisite(s): Admission to the Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate. NURS 782
Corequisite(s): NURS 785

Notes: Five clinical hours per week are required for each credit.

Required course in Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Admission to the Doctor of Nursing Practice program or with permission of instructor.

Schedule Type: INT
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 5
When Offered: Spring

NURS 785 - Psychiatric Nurse Practitioner Seminar II

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing
Discusses role transition and development of advanced practice psychiatric mental health nurses. Regulatory and economic policies affecting advanced psychiatric mental health nursing practice in the evolving health care system are discussed. Students
demonstrate competence in comprehensive management of acute and chronic psychiatric disorders through case presentations from their practica. Performs a comprehensive assessment of the mental health needs of a community.

**Prerequisite(s):** Admission to the Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate. NURS 783

**Corequisite(s):** NURS 784

**Notes:** Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Admission to the Doctor of Nursing Practice program or with permission of instructor.

**Schedule Type:** SEM
**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring

**NURS 786 - Adult Gerontology Primary Care Practicum I**

**Credits:** 2
**Not Repeatable for Credit**
**Offered by School of Nursing**
Application of health assessment, health maintenance/promotion, anticipatory guidance, genetics/genomics, diagnosis and management of common primary health care concerns, including women's health issues. Focus is on care of adolescents and adults across the life. Clinical Practicum, lab and seminar.

**Corequisite(s):** NURS 787.

**Notes:** Five clinical hours are required per week for each credit.

**Schedule Type:** INT
**Hours of Lecture or Seminar per week:** 0
**Hours of Lab or Studio per week:** 15
**When Offered:** Summer

**NURS 787 - Adult Gerontology Primary Care I**

**Credits:** 2
**Not Repeatable for Credit**
**Offered by School of Nursing**
Theoretical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns, including women's health, through clinical decision making skills in adolescents, adults and older adults.

**Corequisite(s):** NURS 786.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 2
**Hours of Lab or Studio per week:** 0
**When Offered:** Summer
NURS 788 - Adult Gerontology Primary Care Practicum II

Credits: 4  
Not Repeatable for Credit  
Offered by School of Nursing  
Demonstration of the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for adolescents, adults and older adults. Clinical practicum, lab and seminar.

Corequisite(s): NURS 789.

Notes: Five clinical hours are required per week for each credit.

Schedule Type: INT  
Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 15  
When Offered: Fall

NURS 789 - Adult Gerontology Primary Care II

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  
This course consists of the application of health assessment, health management/promotion, genetics and genomics, anticipatory guidance, diagnosis and management of common primary care health care concerns of the adolescent, adult and older adult through clinical decision making skills. Lecture, student presentations and seminar.

Corequisite(s): NURS 788.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

NURS 790 - Adult Gerontology Primary Care Practicum III

Credits: 4  
Not Repeatable for Credit  
Offered by School of Nursing  
This practicum enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to adults of all ages, adolescents through older adults. Special emphasis is given to the primary care needs of elderly and medically underserved groups. Practicum, clinical lab and seminar.

Prerequisite(s): NURS 787, NURS 789.  
Corequisite(s): NURS 791.

Notes: Five clinical hours are required per week for each credit.
NURS 791 - Adult Gerontology Primary Care III

Credits: 4
Not Repeatable for Credit
Offered by School of Nursing
Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the adult gerontology nurse practitioner student to assume increased responsibility in the delivery of primary care. Focus will be on the primary care needs of older adult and medically underserved.
Lectures, student presentations and seminars
Prerequisite(s): NURS 789.
Corequisite(s): NURS 790.

NURS 804 - Advanced Quantitative Data Analysis for Health Care Research I

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Examines factorial ANOVA, factorial ANCOVA, repeated measures ANOVA, ANOVA and ANCOVA via regression approach, and multiway frequency analysis. Students apply mathematical calculations and interpret SPSS outputs using health care research data.
Equivalent to GCH 804
Prerequisite(s): A graduate-level statistics course.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0
When Offered: Spring

NURS 805 - Advanced Quantitative Data Analysis for Health Care Research II

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Examines multivariate analysis of variance (MANOVA), multivariate analysis of covariance (MANCOVA), multiple regression (ordinary least squares), and logistic regression. Students apply mathematical calculations and use linear combinations of
multivariate tests in health care research data.

Equivalent to GCH 805

**Prerequisite(s):** GCH/NURS 804 or an equivalent statistics course.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**NURS 806 - Advanced Multivariate Statistics and Data Analysis for Health Care Research**

Credits: 3

Not Repeatable for Credit

Offered by School of Nursing

Examines canonical correlation, discriminant analysis, factor analysis, and causal analysis (path models and structural equation modeling). Students analyze and interpret data using these statistical techniques.

Equivalent to GCH 806

**Prerequisite(s):** GCH/NURS 805 or an equivalent multivariate statistics course.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**NURS 808 - Translating Nursing and Health Care Research into Evidence-Based Policy**

Credits: 3

Not Repeatable for Credit

Offered by School of Nursing

This course prepares students to assess the policy dimensions of nursing issues in clinical practice, education, and research environments and translate nursing research into policy.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**NURS 810 - Evaluation Research in Nursing Education**

Credits: 3

Not Repeatable for Credit

Offered by School of Nursing

Uses seminar/discussion to analyze and apply theoretical models for implementing evaluation research in nursing education.

Examines quantitative approaches for evaluating process and outcomes of domestic or international nursing education programs, including role of accreditation guidelines.

**Prerequisite(s):** NURS 920 and 930

**Corequisite(s):** NURS 920 and 930
**NURS 811 - Nurse as Educator and Scholar**

Credits: 2  
Not Repeatable for Credit  
Offered by School of Nursing  
Uses seminar/discussion to explore role of nurse educator in meeting research and scholarship expectations of college, university, or service setting. Addresses approaches to scholarship in relation to types of evidence appropriate for various scholarly expectations in academic setting.  

**Prerequisite(s):** NURS 920 and 930.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**NURS 814 - Theory in Health Science**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Nursing  
Analyze existing substantive theories in nursing and other biological, social, and behavioral sciences. Enables the doctoral student to critique, use, test, integrate, translate, and develop theory to guide practice, scientific inquiry, and teaching in a focused area of research interest.  

Equivalent to NURS 955.

**Prerequisite(s):** Master's degree in nursing, social work, or health-related discipline.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

---

**NURS 820 - Human Genetics Concepts for Health Care**

Credits: 4  
Not Repeatable for Credit  
Offered by School of Nursing  
The study of human genetics, principles of heredity, and disease risks.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 4  
**Hours of Lab or Studio per week:** 0
NURS 860 - Measurement Theories in Healthcare Research

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing

Synthesize measurement theories and principles as a foundation for the development and evaluation of instruments for use in healthcare research. The course includes review of statistical techniques required for understanding measurement theory, reliability, validity, responsiveness, item analysis, and instrument construction. Students design, construct, administer, analyze, and evaluate an original instrument and evaluate an existing instrument in healthcare research.

Equivalent to NURS 807.

Prerequisite(s): NURS 804 GCH/NURS 805 or Permission of Instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NURS 870 - Nursing and Health Care Administration I

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing

Examines the theoretical basis of scholarship and practice in leadership and management of health systems and nursing organizations. Includes discovery of concepts and forces influencing the organization and performance of health care systems.

Prerequisite(s): Admission to the PhD or DNP program.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 871 - Nursing and Health Care Administration II

Credits: 2
Not Repeatable for Credit
Offered by School of Nursing

Analyzes and applies selected concepts related to nursing and health system leaders and managers as well as factors influencing the performance of health systems and organizations.

Prerequisite(s): NURS 870.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
NURS 874 - Internship in Health Care Administration/Policy/Education

Credits: 4
Not Repeatable for Credit
Offered by School of Nursing
Internship experience of at least 126 hours with leader in field of nursing, health care administration, policy, or education. Participatory activities require integration and application of principles, frameworks, and science related to executive preceptor role.

Prerequisite(s): Completion of all other course work except NURS 998; written advanced application and permission of instructor by due dates (April/November 1) in advance of semester.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 9

NURS 883 - Evidence-Based Practice in Nursing and Healthcare

Credits: 4
Not Repeatable for Credit
Offered by School of Nursing
Building on knowledge of research methodologies and personal expertise, student will identify practice and system problems, analyze the variations of processes and outcomes, evaluate research studies and systematic reviews, and develop a proposal to address issues related to the design of new model of care, translation of evidence into practice, or evaluation of current programs in the context of evidence-based practice. Emphasis is placed on the development of strategies to ensure quality improvement.

Prerequisite(s): NURS 757 and NURS 758
Schedule Type: LEC
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

NURS 920 - Qualitative Research in Nursing and Health Care

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Examination and application of principles in qualitative research in nursing and health care. Qualitative research will be analyzed within the scholarship of discovery, integration, and application.

Prerequisite(s): NURS 955
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

NURS 921 - Clinical Practicum I
Credits: 1-10
Repeatable within Degree for Credit
Offered by School of Nursing
Students, in consultation with their academic advisor, complete supervised practicum hours to meet both the post-baccalaureate and post-masters DNP practicum requirement. A practicum course that prepares students to perform clinical decision making in their role as advance practice nurses in individualized specialty areas. They will work with advanced practice nurse preceptors to develop clinical expertise, and to develop an understanding of leadership roles in the clinical setting that can enhance the system of health care delivery. One credit hour of seminar with the remaining hours in clinical practice.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-10
Hours of Lab or Studio per week: 0

**NURS 922 - Clinical Practicum II**

Credits: 1-10
Repeatable within Degree for Credit
Offered by School of Nursing
Students, in consultation with their academic advisor, complete supervised practicum hours to meet both the post-baccalaureate and post-masters DNP practicum requirement. A practicum course that continues to prepare students to practice in an expanded, advanced clinical practice role. Students will learn to become change agents in the clinical setting with a focus on health care delivery systems. The student will apply advanced health assessment skills and clinical decision making in an area of specialty practice, correlating pathophysiology with symptom manifestations. One credit hour of seminar with the remaining hours in clinical practice.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-10
Hours of Lab or Studio per week: 0

**NURS 930 - Quantitative Methods in Nursing and Health Care**

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing
Examination and application of principles in quantitative research in nursing and health care. Computer analysis of quantitative data will be required.

Prerequisite(s): NURS 955, 804, and 805.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**NURS 940 - Independent Study for the Doctoral Student**

Credits: 1-6
Not Repeatable for Credit
Offered by School of Nursing
Studies in depth a selected area of nursing theory, research, or practice under direction of faculty.

**Prerequisite(s):** Admission to a doctoral nursing program.

**Schedule Type:** IND

**Hours of Lecture or Seminar per week:** 1-6

**Hours of Lab or Studio per week:** 0

---

**NURS 950 - Special Topics in Nursing**

Credits: 3
Not Repeatable for Credit
Offered by School of Nursing

Presents selected topics analyzing specialized areas in nursing. Content varies. Lecture, seminar, laboratory, workshop.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**NURS 980 - Practice Inquiry I**

Credits: 4
Repeatable within Degree for Credit
Offered by School of Nursing

Synthesize the literature related to the problem. Analyze the environmental factors impacting the problem. Identify the standard of care related to the clinical problem. Assess the quality of evidence that supports the standard of care. Develop a proposal that will impact the delivery of care in the identified area of practice inquiry. Develop the appropriate outcome measures to address the specific practice inquiry area.

**Prerequisite(s):** Completion of DNP core courses.

**Schedule Type:** SEM

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 1

---

**NURS 981 - Practice Inquiry II**

Credits: 4
Repeatable within Degree for Credit
Offered by School of Nursing

Implement the proposal developed in Practice Inquiry I. Maintain an ongoing process analysis of the project. Collect data. Analyze the findings from the practice inquiry. Disseminate the findings from the practice inquiry in a scholarly manner.

**Prerequisite(s):** NURS 980.

**Schedule Type:** SEM

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 2
NURS 998 - Doctoral Dissertation Proposal

Credits: 1-9  
Repeatable within Degree for Credit  
Offered by School of Nursing  
A seminar for doctoral students to accompany the development of a doctoral dissertation proposal. Development of the research problem with analysis and critique of methodology discussed.  

Prerequisite(s): Completion of all other course work except NURS 999; and completion of doctoral comprehensive examination.  
Notes: Students must enroll in the course for 3-credits the first time they take the course.  
Schedule Type: IND  
Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 0  
Grading: Satisfactory/No Credit  
When Offered: Fall, Spring  

NURS 999 - Doctoral Dissertation

Credits: 1-9  
Repeatable within Term for Credit  
Offered by School of Nursing  
Provides continued faculty assistance on an individual basis toward completion of approved dissertation.  

Prerequisite(s): NURS 998.  
Schedule Type: IND  
Hours of Lecture or Seminar per week: 0  
Hours of Lab or Studio per week: 0  
Grading: Satisfactory/No Credit  

Nutrition (NUTR)

Offered by the College of Health and Human Services

NUTR 295 - Introduction to Nutrition

Credits: 3  
Not Repeatable for Credit  
Offered by Nutrition and Food Studies  
Introduces students to nutrition as a scientific discipline, providing a working knowledge of basic nutrition including the sources and functions of the nutrients, the components of a healthy diet, and the relationship between diet and overall health. Students will learn about the processes of digestion, absorption, and metabolism of nutrients, and several 'hot topics' in the field of nutrition.  
Fulfills Mason Core requirement in natural science (nonlab).  
Schedule Type: LEC
**NUTR 314 - Food in Italy**

Credits: 3  
Not Repeatable for Credit  
Offered by Nutrition and Food Studies  
Exposes student to Italian foodways, culture, and sustainability. Travel and field trips will supplement classroom learning and form the basis of a research project focusing on food's place in Italian society.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Summer

---

**NUTR 383 - Taste and Place**

Credits: 3  
Not Repeatable for Credit  
Offered by Nutrition and Food Studies  
Examines how dietary patterns have developed and evolved in specific geographic locations. Students will analyze the role of geography, history, politics, culture and taste as essential elements in distinctive local, regional, and national foodways.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**NUTR 408 - Introduction to Food Security**

Credits: 3  
Not Repeatable for Credit  
Offered by Nutrition and Food Studies  
Examines the human health aspects of food security at the local, regional, and global levels.

**Prerequisite(s):** NUTR 295.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Summer, Spring

---

**NUTR 420 - Strategies for Nutrition Education**
Credits: 3  
Not Repeatable for Credit  
Offered by Nutrition and Food Studies  
Examines methods and techniques for educating individuals about nutrition. Addresses nutrition education issues from variety of populations with respect to culture, age, religion, and specific disease states.

Prerequisite(s): NUTR 295 or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

NUTR 421 - Community Nutrition

Credits: 3  
Not Repeatable for Credit  
Offered by Nutrition and Food Studies  
Focuses on nutrition and health problems of specific community settings, and examines practices of nutrition services in various communities.

Prerequisite(s): NUTR 295 or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

NUTR 422 - Nutrition throughout the Life Cycle

Credits: 3  
Not Repeatable for Credit  
Offered by Nutrition and Food Studies  
Focuses on nutrient needs and food habits throughout life cycle. Emphasizes nutrient needs prior, during, and after pregnancy, and nutritional requirements of infants, children, adolescents, adults, and elderly.

Prerequisite(s): NUTR 295 or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Summer

NUTR 423 - Nutrition and Chronic Illnesses

Credits: 3  
Not Repeatable for Credit  
Offered by Nutrition and Food Studies  
Examines nutrient needs related to specific chronic illnesses, including cardiovascular disease, cancer, obesity, and diabetes. Focuses on principles of nutritional therapy and prevention.
Prerequisite(s): NUTR 295 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NUTR 430 - Introduction to Wine and Beer

Credits: 3
Not Repeatable for Credit
Offered by Nutrition and Food Studies
Takes a multidisciplinary approach to understanding alcohol across time and space. Students will learn about alcohol production as well as the social and cultural dimensions of alcohol in a variety of cultures. Topics that might be covered in class include prohibition and neoprohibition, the health effects of alcohol, craft versus industrial production, among others. Students must be 21 to enroll.

Notes: Fees apply.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

NUTR 466 - Nutrition and Weight Management: Obesity, Anorexia, and Bulimia

Credits: 3
Not Repeatable for Credit
Offered by Nutrition and Food Studies
Focuses on the physiological, emotional, genetic, and societal and cultural factors that influence the relationship between eating and weight regulation.

Prerequisite(s): NUTR 295, GCH 332, or approval of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer

NUTR 494 - Special Topics in Nutrition and Food Studies

Credits: 3
Repeatable within Degree for Credit
Offered by Nutrition and Food Studies
In-depth study of contemporary areas of nutrition and food studies. Topics vary each semester. Students may take to apply up to 6 credits of NUTR 494 to their degree program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

NUTR 499 - Independent Study in Nutrition and Food Studies

Credits: 1-6
Repeatable within Degree for Credit
Offered by Nutrition and Food Studies
Readings or research on a pertinent topic in nutrition and food studies. Must be arranged with instructor before registering.

Prerequisite(s): Permission of instructor.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

NUTR 502 - U.S. Role in Global Health, Nutrition, and Population

Credits: 3
Not Repeatable for Credit
Offered by Nutrition and Food Studies
The course will cover U.S. history in responding to health, nutrition, and population challenges worldwide; examine current programs in each area, including those of the U.S. government and nongovernmental organizations, foundations, and the private sector; and examine future directions for responding to health, nutrition, and population trends.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NUTR 515 - Fundamentals of Cooking

Credits: 3
Not Repeatable for Credit
Offered by Nutrition and Food Studies
Introduces students to the fundamental concepts of food and its preparation. The biological components, the chemical transformation, and sensorial properties of food are explored throughout the course.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NUTR 522 - Nutrition Across the Lifespan
Explores the nutrient needs and food habits across the lifespan. Focuses on nutrition policies, programs, and interventions across the lifespan.

Prerequisite(s): NUTR 295.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**NUTR 530 - Introduction to Wine and Beer**

Credits: 3
Not Repeatable for Credit
Offered by Nutrition and Food Studies
Takes a multidisciplinary approach to understanding alcohol across time and space. Students will learn about alcohol production as well as the social and cultural dimensions of alcohol in a variety of cultures. Topics that might be covered in class include prohibition and neoprohibition, the health effects of alcohol, craft versus industrial production, among others. Students must be 21 to enroll.

Equivalent to NUTR 520 (2013-2014 Catalog).

Notes: Fees apply.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

**NUTR 566 - Nutrition and Weight Management**

Credits: 3
Not Repeatable for Credit
Offered by Nutrition and Food Studies
Focuses on the physiological, emotional, genetic, and societal/cultural factors that influence the relationship between eating and weight regulation.

Prerequisite(s): GCH 295 or other introductory nutrition course.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**NUTR 570 - Food Science for Nutritionists**
NUTR 583 - Food and Culture

Credits: 3
Not Repeatable for Credit
Offered by Nutrition and Food Studies
Examines food and eating behaviors, diet, and nutrition from cross-cultural perspective. Focuses on how and why people choose what to eat, range and significance of cross-cultural variability in diet, how diets have changed, and health and social implications of those changes.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NUTR 594 - Special Topics in Nutrition and Food Studies

Credits: 3
Repeatable within Degree for Credit
Offered by Nutrition and Food Studies
In-depth study of contemporary areas of nutrition and food studies. Topics vary each semester. Students may take up to 6 credits of NUTR 594 within their degree program.

Prerequisite(s): Graduate level course.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

NUTR 608 - Perspectives on Food Security

Credits: 3
Not Repeatable for Credit
Offered by Nutrition and Food Studies
Overview of the major concepts and perspectives of food security. Explores and applies the definitions, means of measurement,
and policy implications of food security from a multidisciplinary approach.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall

**NUTR 610 - Food Safety and Defense**

Credits: 3  
Not Repeatable for Credit
Offered by Nutrition and Food Studies
Focuses on the possible sources of unintentional and intentional contaminations in the food supply, and on the roles and guiding policies of the various levels of government and the food industry, as well as individual responsibility, in managing risk to ensure a safe food supply.

**Prerequisite(s):** NUTR 608.
**Notes:** Fees may apply.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring

**NUTR 611 - Food and Nutrition Security Policy**

Credits: 3  
Not Repeatable for Credit
Offered by Nutrition and Food Studies
In-depth analysis of food security and nutrition policies and programs aimed at reducing hunger and malnutrition among individuals and populations.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring

**NUTR 620 - Nutrition Education**

Credits: 3  
Not Repeatable for Credit
Offered by Nutrition and Food Studies
An overview of current nutrition education research, theories, programs, and policies. Explores how nutrition education can influence dietary behavior and food choice.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
NUTR 626 - Food Systems

Credits: 3
Not Repeatable for Credit
Offered by Nutrition and Food Studies
Survey of issues surrounding food production from a processing perspective. Students will gain an understanding various forms of food processing and the issues that surround industrial food systems.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NUTR 630 - Global Nutrition

Credits: 3
Not Repeatable for Credit
Offered by Nutrition and Food Studies
Directed at students from a variety of disciplines, this course examines what malnutrition is and how it occurs by looking at several situations from around the world. It looks at the impact of nutrition on a society and community and examines the benefits of a well-nourished population.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

NUTR 642 - Macronutrients

Credits: 3
Not Repeatable for Credit
Offered by Nutrition and Food Studies
Expands understanding of the biological roles of the macronutrients through application of advanced nutritional concepts relating to digestion, absorption and metabolism of carbohydrates, proteins, and lipids. Practical implications in the diet are emphasized, and particular attention is placed on the etiology and prevention of macronutrient-related diseases, including atherosclerosis, diabetes, and metabolic syndrome.

Prerequisite(s): NUTR 295 and undergraduate biochemistry course.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring
**NUTR 644 - Micronutrients**

Credits: 3  
Not Repeatable for Credit  
Offered by Nutrition and Food Studies  
Expands understanding of the biological roles of the micronutrients through application of advanced nutritional concepts relating to digestion, absorption, transport, and metabolism of vitamins and minerals. Practical implications in the diet are emphasized, with particular attention on the etiology and prevention of micronutrient-related diseases, including nutritional anemia and osteoporosis.  

**Prerequisite(s):** NUTR 295 and Undergraduate biochemistry equivalent.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**NUTR 651 - Nutrition Assessment, Monitoring and Surveillance**

Credits: 3  
Not Repeatable for Credit  
Offered by Nutrition and Food Studies  
Introduces students to methods and tools used in assessing nutritional status and, the practice and application of these to monitoring among individuals and population groups. Methods of interpretation of nutrition-related information will be examined.  

Equivalent to NUTR 751 (2012-2013 Catalog)  

**Prerequisite(s):** NUTR 630 or an introductory nutrition course.  
**Notes:** Will include off campus practice  
**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**NUTR 652 - American Agriculture in the 20th Century**

Credits: 3  
Not Repeatable for Credit  
Offered by Nutrition and Food Studies  
Survey of issues surrounding food from an agricultural perspective. Students gain an understanding of how agricultural production shifted from a Jeffersonian ideal to an industrial and political practicality. Topics that may be covered: the agrarian ideal of the yeoman farmer, the ascendancy of markets and agricultural commodification, the politicization of agriculture and the farm bill, and sustainable agricultural systems. Designated a Green Leaf Course.

**Schedule Type:** LEC
NUTR 670 - Nutrition Research Methods

Credits: 3
Not Repeatable for Credit
Offered by Nutrition and Food Studies
Introduction to the fundamentals of research design and data collection methods. Students will learn about quantitative, qualitative, mixed method, participatory approaches, and ethical issues in nutrition-related research and evaluation.

Prerequisite(s): GCH 601 or GCH 712, NUTR 651 OR Equivalent courses.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

NUTR 675 - Nutrition Program Development, Interventions and Assessments

Credits: 3
Not Repeatable for Credit
Offered by Nutrition and Food Studies
Provides students with the knowledge and skills for planning, developing and evaluation of community nutrition programs and interventions.

Prerequisite(s): NUTR 620, NUTR 670, GCH 601 and NUTR 651 OR Equivalent course.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

NUTR 690 - Independent Study in Nutrition and Food Studies

Credits: 1-6
Repeatable within Degree for Credit
Offered by Nutrition and Food Studies
Readings or research on a pertinent topic in nutrition and food studies. Must be arranged with instructor before registering.

Prerequisite(s): Permission of instructor.
Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring
NUTR 788 - Pre-Practicum Seminar

Credits: 1
Not Repeatable for Credit
Offered by Nutrition and Food Studies
Provides guidance and preparation for engaging in the capstone practicum.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall

NUTR 790 - Nutrition Practicum

Credits: 2
Not Repeatable for Credit
Offered by Nutrition and Food Studies
An in-depth supervised experience in an approved nutrition-related organization. Includes a project related to a nutrition issue within the organization.

Prerequisite(s): NUTR 788.
Schedule Type: INT
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

NUTR 799 - Thesis Research

Credits: 1-6
Repeatable within Degree for Credit
Offered by Nutrition and Food Studies
Thesis research and writing.

Prerequisite(s): Core courses in MS program.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Spring

Operations Management (OM)

Offered by the School of Business.

If a student takes noncore, upper-level business courses before admission to the School of Business, those courses will not count on an undergraduate degree application for any major in the school, except as general elective credit. A grade of C or higher must
be presented on the graduation application for each upper-level course in the major. Course prerequisites are strictly enforced. Degree status is defined as formal admission to BS degree status in the School of Business.

OM 210 - Statistical Analysis for Management

Credits: 4
Not Repeatable for Credit
Offered by School of Business

Introduces application of statistical methods to support quantitative decision analysis for resolving business problems. Topics include descriptive statistics, probability distributions, statistical inference and regression. May be taught in lecture/recitation format. Students may not receive credit for both OM 210 and OM 211.

Equivalent to OM 211

Prerequisite(s): C or higher in MATH 108 or MATH 113 or HNRT 225. Prerequisite(s) enforced by registration system.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

OM 211 - Honors Statistical Analysis for Management

Credits: 4
Not Repeatable for Credit
Offered by School of Business

Introduces the application of statistical methods to support quantitative decision analysis for resolving business problems. Topical coverage includes descriptive statistics, probability, random variables, probability distributions, sampling and sampling distributions, estimation, hypothesis testing, and linear regression (both simple and multiple). Requires extensive use of case studies to integrate, synthesize and extend the concepts presented in order to foster a "learning by doing" approach that develops and promotes critical thinking abilities. Active class discussions via individual and/or group presentations of case assignments is an important learning activity. Extensive use of computer software for statistical modeling, problem solving, and analysis of case studies is a significant component of this course.

Equivalent to OM 210

Prerequisite(s): Cumulative GPA of 3.5 or higher; C or higher in MATH 108 or MATH 113 or HNRT 225. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
OM 301 - Operations Management

Credits: 3
Limited to 3 Attempts
Offered by School of Business

Examines an organization's operations, including design, management and improvement processes, projects and supply chains, in both product and service environments. Uses analytical models to support key planning and control activities.

School of Business students will not be permitted to make more than three attempts to achieve a C or higher in OM 301. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

Equivalent to OM 303.

Prerequisite(s): Grade of C or higher in OM 210. Sophomore standing.
Prerequisite(s) enforced by registration system.

Notes: Students cannot receive credit for both OM 301 and OM 303.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

OM 303 - Operations Management

Credits: 3
Limited to 3 Attempts
Offered by School of Business

Examines an organization's operations, including design, management and improvement processes, projects and supply chains, in both product and service environments. Uses analytical models to support key planning and control activities.

Equivalent to OM 301.

Prerequisite(s): Grade of C or higher in each of the following courses:

BUS 103 and BUS 200 are strongly recommended.

The following courses are required:
ACCT 203 or ACCT 204
BUS 100 or SOM 100
BUS 210
MATH 108 or MATH 113 or MATH 114 or HNRT 225.
Degree status.
Prerequisite(s) enforced by registration system.

Notes: Students cannot receive credit for both OM 301 and OM 303.
School of Business students will not be permitted to make more than three attempts to achieve a C or higher in OM 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**OM 320 - Supply Chain Management in a Global Economy**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Design, development, and management of supply chain systems, including production and inventory management, distribution channels, and information systems that support them. Emphasizes impact of e-business on companies and industries, including Internet's impact on the way goods and services flow through value chain from providers to customers.

**Prerequisite(s):** Grade of C or higher in OM 301 or OM 303. Degree status.  
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**OM 352 - Management Science**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Introduces operation research and management sciences (OR/MS) techniques for supporting business management decisions. Specific mathematical programming and probabilistic topics include linear programming, integer programming, goal programming, network flow models, decision analysis, game theory, queuing models, and Monte Carlo simulation.

**Prerequisite(s):** Grade of C or higher in OM 301 or OM 303. Degree status.  
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**OM 435 - Business Process Analysis and Simulation**
OM 452 - Business Forecasting

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Introduces techniques for producing predictions of future business operations as aids to making planning decisions. Specific topics include judgmental forecasting, forecast accuracy, correlation analysis, smoothing methods, regression models, decomposition, and autoregressive and ARIMA models. Methods demonstrated and used through computer software.

Prerequisite(s): Grade of C or higher in OM 301 or OM 303. Degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

OM 456 - Quality Management

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Provides an understanding of the multifaceted nature of quality management by emphasizing topics such as quality philosophies, total quality management, design quality, process quality, and managing quality in information systems development. Discusses ISO 9000 and Capability Maturity Model. Uses software, case studies.

Prerequisite(s): Grade of C or higher in OM 301 or OM 303. Degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
OM 462 - Honors Seminar in Operations Management (Topic Varies)

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Topic and format vary. In-depth study of a topic in the area of operations management. Enrollment limited and competitive.

Prerequisite(s): Degree status in ISOM major; senior standing; permission of department.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OM 491 - Seminar in Operations Management

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Analyzes selected topics that highlight latest developments in the operations management field, including contemporary research findings and case studies of operations management in business and other organizations.

Prerequisite(s): Grade of C or higher in OM 301 or OM 303. Degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

OM 493 - Management of Technology Projects

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Focuses on managerial problems associated with meeting technical, cost, and time constraints of technology projects. Discusses project management areas including organization, teams, scheduling, cost control, earned value analysis, risk management, and quality. Includes software cost estimation models and the management of IT projects. Software and case studies.

Prerequisite(s): Grade of C or higher in OM 301 or OM 303. Degree status.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
OM 499 - Independent Study in Operations Management

Credits: 1-3
Repeatable within Term for Credit
Offered by School of Business
By special arrangement with instructor, and approval from associate dean for undergraduate programs. Investigates business problem according to student interest, using state-of-the-art decision science methodology.

Prerequisite(s): Grade of C or higher in OM 301 or OM 303. Degree status. Individualized section form required. Prerequisite(s) enforced by registration system.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

Operations Research (OR)

Offered by the Volgenau School of Engineering

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

OR 335 - Discrete Systems Modeling and Simulation

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Introduction to basic concepts of modeling complex discrete systems by computer simulation. Topics include Monte-Carlo methods, discrete event modeling, specialized simulation software, and statistics of input and output analysis.

Equivalent to SYST 335

Prerequisite(s): C or higher in CS 112 or equivalent, and STAT 344, or STAT 346, or MATH 351. Prerequisite(s) enforced by registration system.

Corequisite(s): CS 211.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

OR 438 - Analytics for Financial Engineering and Econometrics
This course introduces the basic analytics for financial engineering and econometrics. Topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory and risk analysis. It will provide a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hands-on experiments with R will be emphasized throughout the course.

Equivalent to SYST 438.

**OR 441 - Deterministic Operations Research**

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Survey of deterministic methods for solving real-world decision problems. Covers linear programming model and simplex method of solution, duality, and sensitivity analysis; transportation and assignment problems; shortest path and maximal flow problems; and introduction to integer and nonlinear programming. Emphasizes modeling and problem solving.

Equivalent to MATH 441

**Prerequisite(s):** C or higher in MATH 203, or permission of instructor.
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring

**OR 442 - Stochastic Operations Research**

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Survey of probabilistic methods for solving decision problems under uncertainty, probability review, decision theory, queuing theory, inventory models, reliability, Markov chain models, and simulation are covered. Emphasis on modeling and problem solving.

Equivalent to MATH 442

**Prerequisites:** C or higher in STAT 344 or STAT 346 or MATH 351, or equivalent.
Prerequisite(s) enforced by registration system.
OR 481 - Numerical Methods in Engineering

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Modern numerical methods and software. Emphasis on problem solving through software and assessing the quality of solutions obtained. Topics include computer arithmetic, linear equations and least squares data fitting, interpolation, nonlinear optimization, and differential equations. Involves extensive computer use.

Equivalent to MATH 446

Prerequisite(s): Grade of C or better in MATH 203 and CS 112.

OR 498 - Independent Study in Operations Research

Credits: 1-3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Directed self-study of special topics of current interest in operations research.

Prerequisite(s): 60 credits; must be arranged with instructor and approved by department chair before registering.
Notes: May be repeated for maximum 6 credits if topics substantially different.

OR 531 - Analytics and Decision Analysis

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Course focus is predominantly on prescriptive analytics with some parts focused on predictive analytics. Topics include operations research techniques and their application to decision making such as mathematical optimization, networks modeling, stochastic modeling, and multi-objective modeling. Other topics such as PERT, CPM, computer simulation, decision analysis using decision trees and quantitative value functions, and heuristic methods are covered, as well as use of contemporary computer software for problem solving. In particular, the course will extensively use MS Excel for solving the decision making problems.
Case-study approach to problem solving is used.

Prerequisite(s): Graduate Standing.
Notes: Cannot be used for credit for the PhD IT program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

OR 538 - Analytics for Financial Engineering and Econometrics

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research.
This course introduces the basic analytics for financial engineering and econometrics, topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory and risk analysis. It will provide a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hand-on experiments with $R$ will be emphasized throughout the course.

Equivalent to SYST 538

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Fall

OR 540 - Management Science

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Operations research techniques and their application to managerial decision making. Mathematical programming, Markov processes, queuing theory, inventory models, PERT, CPM, and computer simulation are covered, as well as use of contemporary computer software for problem solving. Case-study approach to problem solving is used.

Equivalent to SYST 540

Prerequisite(s): MATH 108, and STAT 250 or OM 200; or equivalent.
Notes: Students who have taken OR 541 or OR 542 and OR MS majors do not receive credit.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
OR 541 - Operations Research: Deterministic Models

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Survey of deterministic methods of solving real world decision problems. Covers linear programming model and simplex method of solution, duality, and sensitivity analysis, transportation and assignment problems; shortest path, minimal spanning tree, and maximal flow problems; and an introduction to integer and nonlinear programming. Emphasis on modeling and problem solving.

Prerequisite(s): MATH 203 or equivalent.
Notes: Students who have taken OR 441/MATH 441 will not receive credit.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 542 - Operations Research: Stochastic Models

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research

Prerequisite(s): STAT 344 or MATH 351, or equivalent.
Notes: Students who have taken OR 442/MATH 442 do not receive credit.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 568 - Applied Predictive Analytics

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Introduces predictive analytics with applications in engineering, business, and econometrics. Topics include time series and cross-sectional data processing, correlation, linear and multiple regressions, time series decomposition, predictive modeling and case study. Provides a foundation of basic theory and methodology with applied examples to analyze large engineering and econometric data for predictive decision making. Hand-on experiments with R will be emphasized.

Equivalent to SYST 568.

Prerequisite(s): STAT 515 or Graduate Standing at the MSOR or MSSE programs.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

OR 574 - Quality Control and Process Management

Credits: 3  
Not Repeatable for Credit  
Offered by Systems Engineering and Operations Research  

An overview of quality control techniques widely used in a number of manufacturing industries. The course teaches students about combining engineering process quality management and traditional statistical quality control procedures that are applicable in industry and are based on contemporary technologies such as lean Six Sigma, total quality management and predictive maintenance for achieving superior quality, reliability and maintainability.

Equivalent to SYST 574

Prerequisite(s): Graduate standing or permission of instructor.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

OR 576 - Manufacturing Systems Analysis

Credits: 3  
Not Repeatable for Credit  
Offered by Systems Engineering and Operations Research  

An overview of modeling and analysis of general manufacturing systems techniques widely used in a number of manufacturing industries, such as semiconductor manufacturing. The course teaches students about best scheduling and inventory control practices, enterprise resource management principles, and details of engineering economy that are applicable in the industry.

Equivalent to SYST 576

Prerequisite(s): Graduate standing or permission of instructor.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

OR 588 - Financial Systems Engineering I: Introduction to Options, Futures, and Derivatives

Credits: 3  
Not Repeatable for Credit  
Offered by Systems Engineering and Operations Research  

This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito's formula, and Black-Scholes model.
Equivalent to SYST 588.

**Prerequisite(s):** Eng. or Math Graduate standing, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**When Offered:** Fall, Spring

---

**OR 603 - Sports Analytics**

Credits: 3

Not Repeatable for Credit

Offered by Systems Engineering and Operations Research

Cover topics in the applied analysis of sports, with a focus on supporting team decision-makers. Students will learn to apply modern, practical analytic techniques to sports data in search of actionable insight and a competitive edge. The four major team sports of North America (football, baseball, basketball, and hockey) will be the primary subjects of study, but the course's learning objectives will universally apply to a variety of sports. Students will become familiar with the full analytic life-cycle: asking productive and relevant research questions, finding the right data, applying the appropriate tools, discovering insight, and clearly communicating results.

**Prerequisite(s):** OR 531 or OR 541, and STAT 518 or OR 568.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

---

**OR 604 - Practical Optimization**

Credits: 3

Not Repeatable for Credit

Offered by Systems Engineering and Operations Research

Survey of optimization methods for students whose main focus is on application of optimization. Covers modeling, search methods, convexity, linear programming, sensitivity, networks, multiobjective optimization, heuristic methods, integer programming, nonlinear programming and dynamic programming; use of modeling languages and optimization tools, including NEOS.

**Prerequisite(s):** OR 531 and CS 508

**Notes:** Course cannot be counted toward MSOR degree. Students who have taken OR 541 or 644 cannot receive credit.

---

**OR 635 - Discrete System Simulation**

Credits: 3

Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Computer simulation as a scientific methodology in operations analysis, with emphasis on model development, implementation, and analysis of results. Discrete-event models, specialized software, input modeling, and output statistics are covered. Extensive computational work is required.

Prerequisite(s): OR 542, or STAT 354 or 344, or equivalent; and knowledge of scientific programming language.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 640 - Global Optimization and Computational Intelligence

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Introduction to global optimization of nonconvex mathematical programs and numerical methods for the solution of such problems. Topics covered include high-level survey of traditional mathematical programming algorithms; critical comparison of metaheuristics and artificial intelligence (AI) algorithms to traditional mathematical programming algorithms; probabilistic search, multistart methods, statistical tests of performance and confidence, simulated annealing, genetic algorithms, neural networks, Tabu search, homotopies and tunneling; the traveling salesman problem, the Steiner problem, Stackelberg-Cournot-Nash mathematical games and other classical nonconvex optimization problems.

Prerequisite(s): MATH 203 or equivalent, and knowledge of a scientific programming language.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 641 - Linear Programming

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
In-depth look at the theory and methodology of linear programming: Computational enhancements of the revised simplex method; sparse-matrix techniques, bounded variables and the dual simplex method. Alternative interior point methods described and computational complexity of various algorithms analyzed.

Prerequisite(s): OR 541, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

OR 642 - Integer Programming

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Cutting plane and enumeration algorithms for solution of integer linear programs; bounding strategies and reformulation techniques; heuristic approaches to the solution of complex problems; knapsack problems, matching problems, set covering and partitioning problems; applications to problems in OR/MS, such as capital budgeting, facility location, political redistricting, engineering design, and scheduling.

Prerequisite(s): OR 541, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**OR 643 - Network Modeling**

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Introduction to network problems in operations research, computer science, electrical engineering, and systems engineering. Solution techniques for various classes of such problems are developed. Topics include minimal-cost network flow, maximal flow, shortest path, and generalized networks; plus stochastic networks, network reliability, and combinatorially based network problems. Complexity of each problem class analyzed.

Prerequisite(s): OR 541, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**OR 644 - Nonlinear Programming**

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Nonlinear optimization theory and techniques applicable to problems in engineering, economics, operations research, and management science. Covers convex sets and functions, optimality criteria and duality; algorithms for unconstrained minimization, including descent methods, conjugate directions, Newton-type and quasi-Newton methods; and algorithms for constrained optimization, including active set methods and penalty and barrier methods.

Prerequisite(s): MATH 213 or equivalent, and OR 541; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**OR 645 - Stochastic Processes**

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Selected applied probability models including Poisson processes, discrete- and continuous-time Markov chains, renewal and regenerative processes, semi-Markov processes, queuing and inventory systems, reliability theory, and stochastic networks. Emphasis on applications in practice as well as analytical models.

**Prerequisite(s):** OR 542 or STAT 544, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall

---

### OR 647 - Queuing Theory

Credits: 3
Not Repeatable for Credit

Offered by Systems Engineering and Operations Research

Unified approach to queuing, organized by type of model. Single- and multiple-channel exponential queues; Erlangian models, bulk and priority queues, networks of queues; general arrival and/or service times; and statistical inference and simulation of queues are covered. Extensive use of computational software.

**Prerequisite(s):** OR 542, STAT 544, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Spring

---

### OR 649 - Topics in Operations Research

Credits: 3-6
Repeatable within Term for Credit

Offered by Systems Engineering and Operations Research

Advanced topic chosen according to interests of students and instructor from dynamic programming, inventory theory, queuing theory, Markov and semi-Markov decision processes, reliability theory, decision theory, network flows, large-scale linear programming, nonlinear programming, and combinatorics.

**Prerequisite(s):** Permission of instructor.

**Notes:** May be repeated for maximum 6 credits if topics are substantially different.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

### OR 651 - Military Operations Research I: Cost Analysis

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research

While drawing on other disciplines (managerial accounting, econometrics, systems analysis), cost analysis uses operations research to assist decision makers in choosing preferred future courses of action by evaluating selected alternatives on the basis of their costs, benefits, and risks. Cost analysis is distinctly different from cost estimating in that projecting future courses of action almost always requires mathematical modeling. Topics include analysis overview, economic analysis, estimating relationships (factors, simple and complex models), acquiring and verifying cost data, cost progress curves, life-cycle costing, scheduling estimating, effectiveness and risk estimation, relationship of effectiveness models and measures to cost analysis.

Corequisite(s): OR 541 or 542.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

OR 652 - Military Operations Research Modeling II: Effectiveness Analysis

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Examine issues and modeling underlying military decisions at the Military Service, Joint Staff, and Department of Defense level. Analytical methods with applications to theater campaign analysis, equipment and weapon system modernization, force structure development, strategic mobility and deployment, small-scale contingency operations, logistics, and requirements determination are considered. Optimization, simulation, and statistical techniques are stressed. Realistic problems presented and solved as case studies. Display of results and presentation techniques for military decision makers emphasized.

Corequisite(s): OR 541 or 542.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

OR 660 - Air Transportation Systems Modeling

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Introduces range of current issues in air transportation, including public policy toward the industry, industry economics, system capacity, current system modeling capability, human factors considerations, safety analysis and surveillance systems, and new technological developments. Students expected to develop broad understanding of contemporary and future issues. Knowledge evaluated through class discussions, a take-home midterm exam and a term project to be completed by the end of the semester.

Equivalent to SYST 660

Prerequisite(s): SYST 460/560, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
OR 670 - Metaheuristics for Optimization

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Course on the theory and practice of metaheuristics, i.e. solution search techniques for solving combinatorial optimization problems. It will introduce the theory, applications (scheduling in manufacturing, transportation, and in other engineering and service industries), and computational aspects of directly searching for solutions to solve computationally complex optimization problems without a well-defined analytical model.

Equivalent to SYST 670.

Prerequisite(s): OR 441/541 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

OR 671 - Judgment and Choice Processing and Decision Making

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
How do people make judgments and decisions? Course presents an initial review of scientific literature directed toward answering this question, and emphasizes its importance when performing decision analysis and designing systems to support judgment and decision processes.

Equivalent to SYST 671

Prerequisite(s): STAT 344, STAT 354, or STAT 542, or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

OR 674 - Dynamic Programming

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Course on the theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties. Stresses intuition, the mathematical foundations being for the most part elementary. Introduces the theory, applications (finance, engineering, and biology), and computational aspects of dynamic programming for deterministic and stochastic problems.
OR 675 - Reliability Analysis

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Introduction to component and system reliability, their relationship, and problems of inference. Topics include component lifetime distributions and hazard functions, parameter estimation and hypothesis testing, life testing, accelerated life testing, system structural functions, and system maintainability.

Equivalent to SYST 675

Prerequisite(s): OR 442 or OR 542 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 677 - Statistical Process Control

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Introduces concepts of quality control and reliability. Acceptance sampling, control charts, and economic design of quality control systems are discussed, as are system reliability, fault-tree analysis, life testing, repairable systems, and the role of reliability, quality control and maintainability in life-cycle costing. Role of MIL and ANSI standards in reliability and quality programs also considered.

Equivalent to STAT 677/SYST 677

Prerequisite(s): STAT 544 or 554, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 681 - Decision and Risk Analysis

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Application of analytic reasoning and skills to practical problems in decision-making. Topics include problem structure, analysis
and solution implementation, emphasizing contemporary approaches to decision analytic techniques.

Equivalent to SYST 573

**Prerequisite(s):** OR 542 or MBA 638.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall

---

**OR 682 - Computational Methods in Engineering and Statistics**

Credits: 3

Not Repeatable for Credit

Offered by Systems Engineering and Operations Research

Numerical methods have been developed to solve mathematical problems that lack explicit closed-form solutions or have solutions that are not amenable to computer calculations. Examples include solving differential equations or computation probabilities. Discusses numerical methods for such problems as regression, analysis of variance, nonlinear equations, differential and difference equations and nonlinear optimization. Applications in statistics and engineering are emphasized. Involves extensive computer use.

Equivalent to CSI 700

**Prerequisite(s):** MATH 203 and 213 or equivalent, and modern numerical methods and software.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**OR 683 - Principles of Command, Control, Communications, Computing, and Intelligence (C4I)**

Credits: 3

Not Repeatable for Credit

Offered by Systems Engineering and Operations Research

Fundamental principles of C4I are developed from descriptive, theoretical, and quantitative perspectives. Principles and techniques applicable to wide range of civilian and military situations. Topics include C2 process; modeling and simulation for combat operations; detection, sensing, and tracking; data fusion and situation assessment; optimal decision making; methodologies and tools of C4I architectures; tools for modeling and evaluations of C4 systems such as queuing theory.

Equivalent to SYST 680/ECE 670

**Prerequisite(s):** ECE 528, OR 542, or SYST 611; or equivalent.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall
OR 688 - Financial Systems Engineering II: Derivative Products and Risk Management

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions, as well as facilitating the risk management of those decisions. This course will focus on risk management for both market risk and credit risk. It will cover a broad range of derivatives products and hedging strategies with emphasis on how risks are managed in financial institutions.

Equivalent to SYST 688.

Prerequisite(s): OR/SYST 588 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

OR 690 - Optimization of Supply Chains

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Focuses on both supply chain optimization from an enterprise-wide perspective, and supply chain optimization from a business-to-business e-commerce concern. Concerned with optimizing the value of goods and services and assuring a reasonable return on such sales. Describes both heuristic and exact algorithms for scheduling, production, inventory management, logistics, and distribution. New software that enables such optimization is presented, as are manufacturing and service examples from the public and private sectors. New techniques to handle risk, quality of data, and robustness of solutions are presented. Students perform case studies using state-of-the-art software.

Prerequisite(s): Graduate standing, mathematics through linear algebra, and STAT 344.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 699 - Masters Project

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Capstone project course for MS/OR program. Key activity is completion of a major applied team project resulting in an acceptable technical report and oral briefing. Student should plan to take this course in the last semester of studies.

Prerequisite(s): 21 graduate credits in OR or SYST.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
OR 719 - Graphical Models for Inference and Decision Making

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Theory and methods for inference and decision making in environments characterized by uncertain information. Covers graphical probability and decision models. Studies approaches to representing knowledge about uncertain phenomena, and planning and acting under uncertainty. Topics include knowledge engineering, exact and approximate inference in graphical models, learning in graphical models, temporal reasoning, planning, and decision-making. Practical model-building experience provided. Students apply what they learn to a project of their own choosing.

Equivalent to CSI 775; STAT 719 (2014-2015 Catalog).

Prerequisite(s): STAT 652 or SYST/STAT 664, or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 735 - Advanced Stochastic Simulation

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Special topics and recent developments in Monte Carlo simulation methodology for discrete-event stochastic systems. Contents vary; possible topics include statistical analysis of simulation output data, random number and random variate generation, variance reduction techniques, sensitivity analysis and optimization of simulation models, distributed and parallel simulation, object-oriented simulation, and specialized applications.

Equivalent to SYST 735

Prerequisite(s): OR 635 or permission of instructor.
Notes: May be repeated for credit when topics are distinctly different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 741 - Advanced Linear Programming

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Recent developments in linear programming. Highlights advances in interior point methods and also addresses developments in the simplex method. Projective methods, affine methods, and path-following methods are examined, including Karmarkar's original work. Discusses relationships between these methods, and relationships to methods in nonlinear programming. Also discussed are advances in data structures and other implementation issues. Students test software and solve large-scale linear programs.
OR 750 - Advanced Topics in Operations Research

Credits: 3
Repeatable within Term for Credit
Offered by Systems Engineering and Operations Research
Special topics, applications, or recent developments in operations research. Contents vary and may include topics in optimization, stochastic methods, or decision support that are not covered in the standard OR curriculum.

Prerequisite(s): OR 541 or 542, and 600-level course that varies with content of course.
Notes: May be repeated for credit when topics are distinctly different.

OR 751 - Advanced Topics in Operations Research for Planning and Scheduling

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Introduces combinatorial optimization problems in scheduling and logistics. Solution techniques for various classes of such problems are developed. Topics include deterministic and stochastic scheduling algorithms with applications in manufacturing and service sectors.

Prerequisite(s): OR 541.

OR 763 - Research Methods in Systems Engineering and Information Technology

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Examines alternative paradigms of scientific research and their applicability to research in information technology. Topics include fundamental elements of scientific investigation, basic principles of experimental design and statistical induction, philosophy of science and its relation to the information technology sciences, and case studies of information technology research.

Equivalent to SYST 763.
Prerequisite(s): STAT 544, OR 542, or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

OR 774 - Advanced Dynamic Programming

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Covers advanced topics on the theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties. Stresses the mathematical foundations and introduces the theory, computational aspect, and applications of dynamic programming for deterministic and stochastic problems.

Prerequisite(s): OR674/SYST674 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 780 - Queuing Modeling of Computer-Communication Networks

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Studies analytical modeling of computer and communication networks and performance evaluations. Topics include Markovian systems, open networks, closed networks, approximations, decomposition, simulation, sensitivity analysis, and optimal operation of systems. Presents local area networks, manufacturing systems, and other applications.

Prerequisite(s): OR 645 or 647, or ECE 542; or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 782 - Advanced Topics in Combinatorial Optimizations

Credits: 3
Repeatable within Degree for Credit
Offered by Systems Engineering and Operations Research
Studies problems using most recent developments. Topics include cutting plane procedures based on polyhedral combinatorics; column-generation procedures for large, complex problems; heuristic approaches such as genetic algorithms, simulated annealing, and tabu search; study of special structures; reformulation techniques; and bounding approaches. Topics stress most recent developments in field.
OR 783 - Advanced Topics in Network Optimization

Credits: 3
Repeatable within Degree for Credit
Offered by Systems Engineering and Operations Research
Recent developments in solving optimization problems on networks. Prepares doctoral students to perform advanced research on network-related problems. Topics include linear, discrete, nonlinear, and stochastic problems. Several aspects of problems also studied, including computational complexity, exact algorithms, heuristics, solvable special cases, and computer implementation issues.

Prerequisite(s): OR 643.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 784 - Advanced Topics in Nonlinear Programming

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Studies theory and algorithms for solving nonlinear optimization problems. Contents vary; possible topics include large-scale and parallel-unconstrained optimization, theoretical issues in constrained optimization, duality theory, Lagrangian and sequential quadratic programming methods.

Prerequisite(s): OR 644.
Notes: May be repeated for credit when topics are distinctly different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 842 - Models of Probabilistic Reasoning

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Survey of alternative views about how incomplete, inconclusive, and possibly unreliable evidence might be evaluated and combined. Discusses Bayesian, Baconian, Shafer-Dempster, and Fuzzy systems for probabilistic reasoning.

Equivalent to SYST 842.
Prerequisite(s): STAT 544, OR 542, OR 681, or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

OR 888 - Distributed Estimation and Multisensor Tracking and Fusion

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Centralized and distributed estimation theory, hierarchical estimation, tracking and data association, multisensor multitarget tracking and fusion, distributed tracking in distributed sensor networks, track-to-track association and fusion, and Bayesian networks for fusion.
Equivalent to SYST 888/ECE 753

Prerequisite(s): ECE 734 or SYST 611.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 944 - The Process of Discovery and Its Enhancement in Engineering Applications

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Studies ingredients of imaginative reasoning as it concerns efficient discovery of new ideas and valid evidential test of them. Topics include different interpretations of Peirce's theory of abductive reasoning and other forms of reasoning, Hintikka's analysis of process of inquiry, and current attempts to design systems that provide assistance in discovery-related or investigative activities.
Equivalent to SYST 944

Prerequisite(s): OR 842 or SYST 842 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

OR 981 - Optimization in Medicine

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Course focuses on the application of optimization to medicine, as well as on modeling used and solution approaches to the optimization problems generated. Particular attention is paid to algorithms and methodology not discussed in other optimization

George Mason University 2016-2017 Official University Catalog 3533
Organization Development and Knowledge Management (ODKM)

Offered by the Schar School of Policy and Government (formerly SPGIA)

ODKM 700 - Organizations, Management and Work: Theory and Practice

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
This introduction to organizations, management, and work examines ideas and practices from two perspectives: conventional ones that go back to the industrial age and scientific management; and contemporary ones that have to do with organizing knowledge-work. Covers contributions of a range of writers and deals with foundations of OD from the standpoint of both theory and practice.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ODKM 705 - Group Dynamics and Team Learning

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Engaging in unstructured and semi-structured learning environment, students will learn how to facilitate team learning for organizational effectiveness. By exploring various aspects of group dynamics such as power, perception, motivation, leadership, and decision making, students will develop various competencies to manage teams and enhance their emotional and appreciative intelligence.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ODKM 710 - Social and Organizational Inquiry

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Introduces participants to the ethics, conduct and evaluation of research into human, social and organizational realities. Explores relationships between what and how we measure and what we find. Students develop the capacity to reflect on themselves as research instruments, on their own impact on the systems under study, and on the impact of the research assumptions, framing and approach both on the results obtained and on the future development of those systems.

**Schedule Type: LEC**
**Hours of Lecture or Seminar per week: 3**
**Hours of Lab or Studio per week: 0**

**ODKM 715 - Creating Learning Organizations**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Focuses on the epistemological and ontological implications of organizational life in the twenty-first century. Reevaluates traditional management approaches in light of global economies, instantaneous communication, changing technologies, and diverse workgroups in knowledge economies. Special attention to developing skills for "double- and triple-loop learning," and reflection in professional lives through learning conversations, journals, narrative, autobiography, and imaginative literature.

**Schedule Type: LEC**
**Hours of Lecture or Seminar per week: 3**
**Hours of Lab or Studio per week: 0**

**ODKM 720 - Socio-technical Systems and Collaborative Work**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines the potential of collaborative technologies for creating effective knowledge sharing in organizations. Through the use of tools such as SharePoint, students will gain a comprehensive understanding of the state of the art of virtual work and collaboration technology and other subjects related to successful design of a collaborative knowledge work environment.

**Schedule Type: LEC**
**Hours of Lecture or Seminar per week: 3**
**Hours of Lab or Studio per week: 0**

**ODKM 725 - Knowledge Management and Strategy**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
An in-depth look at knowledge management, both theory and practices, which distinguishes between technology-oriented KM practices and people-oriented ones, with an emphasis on leveraging and sharing knowledge to get work done well and develop more effective organizations. Examines effective ways of organizing knowledge-work, including social networks, communities of practice, and the use of collaborative technologies.

**Schedule Type: LEC**
ODKM 730 - Special Topics

Credits: 1-3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Selected special topics in organization development and knowledge management not covered by existing ODKM courses.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ODKM 731 - Consulting Skills for Organizational Change

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Explores various theories and practices of change management, collaborative consulting, action research, and organization development. Using class projects and case studies, students bring together their understanding of organization development, their values, and their personal style to perform more effectively in various consulting roles. Students also learn various aspects of process consulting and client relationship management.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

ODKM 732 - Leadership and Social Justice

Credits: 4  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
This course challenges participants not just to theorize leadership and social justice but to inhabit them. Reflective understanding and practice span: inner journeys, interpersonal relationships, organizations, and large scale systems. With globalization, ethical leadership requires understanding diverse perspectives and complex systems. Outward leadership relies on inner leadership. Participants cultivate personal leadership philosophy and practice through engaging real-life challenges.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 4  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

ODKM 735 - Organizational Development Practices
Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Students develop applied knowledge of various organizational development practices such as action research and appreciative inquiry. Includes simulations to understand the complexities of real-world change management. Group projects with selected organizations will help students develop their diagnostic and analytical skills to become better facilitators of organizational learning.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

ODKM 740 - Learning Community

Credits: 1-3
Repeatable within Degree for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Using workshops, seminars, simulations, and structured experiences, students will learn how to build a learning Community of Practice (CoP) as practitioners of organization development. They will also reflect upon the community building experience using research findings and design practice sessions to apply the lessons learned to the work environment.

Equivalent to MNPS 720

Prerequisite(s): Candidates for the M.S. in ODKM degree only.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

Parks, Recreation, and Leisure Studies (PRLS)

Offered by the College of Education and Human Development

PRLS 115 - Introduction to Fly Fishing

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
A practical course designed for students with little or no knowledge of fly fishing. The course will involve activities to teach students the basics of fly fishing to include terms and equipment, casting, knot tying, aquatic entomology, fly selection, reading water, wading techniques and safety, and fly fishing tactics. In addition to the one-hour classes required during the week, a full day on a stream will be included.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
PRLS 118 - Intermediate Rock Climbing

Credits: 2  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
For individuals who have some prior skills in rock climbing looking to further increase their skill level. Involves teaching students climbing terms, advanced knots, equipment, safety practices for redirect belay and top rope belay, as well as setting up techniques using rope and webbing. Special emphasis on anchor building will also be included. Ability to climb and rappel at least at the beginner's level will be required. This is not a certification course.

Prerequisite(s): PRLS 117  
Notes: Fee required.

Schedule Type: LAB  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0

PRLS 123 - Intermediate Indoor Rock Climbing

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Introduces the practices designed to move into the intermediate indoor climbing realm with a focus on efficient and creative body positions, including specific, more advanced techniques and strength training.

Prerequisite(s): PRLS 116 or permission of instructor  
Schedule Type: LAB  
Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

PRLS 125 - Tracking, Trailing and Orienteering

Credits: 2  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Develops outdoor navigational and tracking skills and assumes no prior experience in tracking, trailing, or orienteering. Use of modern topographical maps and navigational compasses in a variety of settings.

Schedule Type: LAB  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

PRLS 174 - Open Water Coastal Kayaking
This course is designed to provide experienced coastal kayaking students with an introduction to advanced strokes and maneuvers, open water rescues, on-water navigation, and safety concerns related to open water.

**Prerequisite(s):** PRLS 173 or permission of instructor

**Notes:** Fee required.

**Schedule Type:** LAB

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 0

---

**PRLS 175 - Introduction to Rowing**

Credits: 1

Not Repeatable for Credit

Offered by School of Recreation, Health, and Tourism

This course is designed to provide students with the skills and knowledge necessary to row successfully in an eight-oared rowing shell. Includes instruction in, but not limited to, proper handling of rowing equipment, basic terminology, the proper execution of the rowing stroke, water safety, and team building.

**Schedule Type:** LAB

**Hours of Lecture or Seminar per week:** 1

**Hours of Lab or Studio per week:** 0

---

**PRLS 180 - White-water Canoeing**

Credits: 2

Not Repeatable for Credit

Offered by School of Recreation, Health, and Tourism

A practical course designed for students with little or no knowledge or skills in moving water and white-water canoeing. Involve activities to teach basic terms, rules, techniques for river safety, paddle strokes, boat control and maneuvering, reading river currents and conditions, self rescue techniques, ethics and river etiquette, and running rivers up to Class II+ in difficulty. There will be one classroom and four all-day paddling sessions on regional rivers.

**Prerequisite(s):** Ability to swim fully clothed for five minutes and put on a PFD in water

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 0

---

**PRLS 181 - White-water Canoeing II**

Credits: 2

Not Repeatable for Credit

Offered by School of Recreation, Health, and Tourism

A practical methods course to advance and refine the student's white-water canoeing skills with regard to paddle strokes, turns,
maneuvers, boat control, and safety rescue skills.

**Prerequisite(s):** PRLS 180 or permission of instructor

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 0

---

**PRLS 195 - Introduction to Hot Air Ballooning**

Credits: 2  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Includes history, FAA regulations, equipment, weather, instruments, flight planning, balloon operations, and medical factors. Laboratory includes skill development as a crewmember and pilot, using an AX-8 hot air balloon. FAA student pilot certificates will be offered to all students. Although this is an introductory course, those completing it with a grade of B or better will be eligible to sit for the FAA written examination for lighter-than-air, free balloon, a requirement for the private pilot certificate.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 0

---

**PRLS 200 - Wilderness First Responder**

Credits: 2  
Repeatable within Degree for Credit  
Offered by School of Recreation, Health, and Tourism  
Examines the role of outdoor professionals in wilderness medicine and the response, care and rescue of outdoor participants in non-urban outdoor environments. Uses the Patient Assessment System (PAS) to assess backcountry patients in an intensive experiential course which addresses the issues of medico legal concerns, blood borne pathogens and infectious diseases.

**Schedule Type:** LAB, LEC

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 2

**When Offered:** Fall, Spring, Summer

---

**PRLS 210 - Introduction to Recreation and Leisure**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Traces the development of current concepts of recreation and leisure and their implications and consequences. Covers influences of philosophy, religion, science, economics, sociology, and politics on discretionary time and its uses.

**Notes:** Open to nonmajors.

**Schedule Type:** LEC
PRLS 214 - Field Study in Natural History

Credits: 3
Repeatable within Degree for Credit
Offered by School of Recreation, Health, and Tourism
Provides an introduction to natural history and its application in natural area interpretation through field study investigation of the environment. Covers fundamentals of bird, plant, animal, and rock identification, as well as sky and landscape interpretation.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 220 - Experiential Education Theory and Application

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides a broad theoretical, as well as practical, background in teaching and learning experientially. Concepts presented, experienced, and discussed include the basic premises of experiential learning according to a wide variety of educators and philosophers. The content and experience applies to recreation, education, development, and therapeutic settings.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 221 - Challenge Course Facilitation

Credits: 3
Repeatable within Degree for Credit
Offered by School of Recreation, Health, and Tourism
Provides the fundamental principles and techniques of challenge course facilitation. Classroom learning is combined with an experiential setting through leading youth groups in the field. Students are provided with an introduction to safety, skills, and facilitation techniques for low and high elements of outdoor challenge courses.

Prerequisite(s): CPR Certification and PRLS 220, or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PRLS 241 - Practicum
Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Paid or voluntary work experience in a park and recreation agency. Minimum period of 10 to 12 weeks of part-time employment or experience. Capstone course for minors, allowing for integration and application of course work, theories, and research to a work setting. Work sites chosen among four approved sites. Includes meetings and assignments prior to and during the practicum.

Prerequisite(s): 60 hours and PRLS 210.
Notes: Open to departmental majors and minors only. Serves as a capstone for minors who have completed PRLS 310, 316, and 327.

Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

PRLS 250 - Wilderness Travel and Sustainability

Credits: 2
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

This experiential course is designed for students with prior backpacking experience. Involves discussions, demonstrations, and activities that teach students wilderness skills, safety and judgment, leadership and teamwork, and environmental ethics. Topics covered include basic wilderness first-aid, hazard evaluation, emergency procedures, expedition behavior, self awareness, judgment and decision making, campsite selection, shelter and stove use, fire building, sanitation and hygiene, cooking, nutrition and rationing, equipment care and selection, staying warm and dry, route finding and navigation, Leave No Trace backpacking, weather, natural history, and wilderness ethics. Application of these skills will occur during the 14-day offtrail backpacking trip in a remote wilderness area. Not only will students practice these wilderness skills, but they will also develop leadership abilities by working in a collaborative team environment.
Designated a Green Leaf Course.

Prerequisite(s): PRLS 120
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PRLS 253 - Florida Everglades Canoe Expedition

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Focuses on developing the knowledge and skills necessary to plan, manage, and participate in extended wilderness excursions by canoe in remote locations, while exploring a region's natural history. Students will be engaged in classroom preparation; training in canoeing and wilderness travel/living skills; group leadership; and environmental education in the Everglades National Park ecosystem. The class will travel and camp for 6 days/night in the Everglades back country by canoe as a self-contained group. Students will perform a service project in the park. For students planning careers in outdoor recreation, interpretation, and natural...
resources management and planning; and students with a general interest in the course topics.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 1

---

**PRLS 290 - Aquatic Operation and Management**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Covers industry standards for water quality and aquatic facility management. Includes recognizing, measuring, and preventing biological and physical hazards. Meets requirements for certification as a Certified Pool/Spa Operator through the National Swimming Pool Foundation as well as certification in CPR through the American Red Cross.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**When Offered:** Spring

---

**PRLS 300 - People with Nature**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Traces philosophical evolution of perceptions of and attitudes toward nature. Examines role of philosophers, scientists, nature-writers, and artists in the shaping of environmental thought. Includes extensive reading of Emerson, Thoreau, Muir, Leopold, Carson, Wilson, and others.  
Designated a Green Leaf Course.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PRLS 302 - Park Management and Operations**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Focuses on management and operations of park resources, including the management of visitors and recreation development. Emphasizes understanding of contemporary threats to park integrity and preservation of resources. Also covers maintenance management systems.

**Prerequisite(s):** PRLS 300  
**Schedule Type:** LEC
PRLS 310 - Program Planning and Evaluation

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Introduces fundamental principles and techniques of the planning process for sport, recreation and tourism programs, including assessment of needs and goals, objectives, and mission statement; generating solutions; planning programs for implementation and evaluation.

Prerequisite(s): D or higher in PHED 200, PRLS 210, SPMT 201, SRST 200, or TOUR 200.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PRLS 316 - Leadership and Outdoor Education

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Focuses on promotion of lifelong health and fitness via noncompetitive and informal outdoor activities. Introduces safety, skills, and leadership techniques. Covers sustainable use, conservation, and stewardship of natural resources.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PRLS 317 - Social Psychology of Play and Recreation

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Applies social psychological theories and research to the study of leisure, play, and recreation behavior, including correlates, antecedents, and consequences of and constraints to these concepts.

Prerequisite(s): Tour 200, PRLS 210, SPMT 201, or PHED 200.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PRLS 323 - Program Leadership and Evaluation
PRLS 310 - Leadership and Evaluation of Health, Fitness, and Recreation Programs

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Covers leadership and evaluation of health, fitness, and recreation programs. Uses computer technology to study evaluative aspects of program planning and administration.

Prerequisite(s): PRLS 310.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PRLS 327 - Foundations of Therapeutic Recreation

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
An introduction to the processes and techniques of therapeutic recreation to meet the unique needs of people with disabilities. This course examines the history, concepts, theories, and foundations of therapeutic recreation.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 360 - Bill of Rights Issues in Parks, Schools, and Public Places

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Examines issues, particularly those involving First Amendment free speech and freedom of religion issues such as political protests, religious displays, and use permits.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 362 - Cultural and Environmental Interpretation

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Focuses on communication processes and practices used to explain and interpret special characteristics of cultural and environmental resource sites for visitors. Conceptual principles for planning interpretive programs and multi-media delivery techniques are discussed. Methods for programming interpretive services, addressing multi-audience accessibility, and administration and evaluation of interpretive services used at recreation and tourism sites are also examined.

Equivalent to TOUR 362.
Prerequisite(s): PRLS 300, or PRLS 328, or TOUR 352 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-12
When Offered: Spring

PRLS 402 - Human Behavior in Natural Environments

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

Applies social and behavioral theories to management for recreational users of land and water resources. Examines deterioration and pollution of land and water, noise, crowding, and conflicts among users. Discusses strategies for mitigation of deleterious impacts and depreciative behaviors, and attitudes toward resource conservation, preservation, and use. Designated a Green Leaf Course.

Prerequisite(s): PRLS 210 and 300, or permission of instructor, and 60 credits
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 405 - Planning and Operation of Recreation Facilities

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

Covers quantity, location, and design standards for facilities. Includes safety, functionality, durability, and maintenance demand criteria in planning and design; programmatic and operational objectives to be met, including user comfort and convenience, crowd management, and traffic flow, and space relationships. Includes field study of local facilities.

Prerequisite(s): 60 credits
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 410 - Administration of SRT Organizations I

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

Focuses on operation and management of sport, recreation and tourism organizations. Covers management and leadership theories and techniques, problem-solving and decision making, organizational communications, design of organizational structures and budgeting.
Prerequisite(s): 60 hours or permission of instructor.

**PRLS 411 - Administration of SRT Organizations II**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Focuses on program and organizational marketing principles and strategies; service quality assessment and organizational evaluation techniques; and organizational financing for the experience industry.

Prerequisite(s): PRLS 410 and 60 hours.

**PRLS 416 - Trends and Programming Assessment in Therapeutic Recreation**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Explores the role of leisure in human development with a specific focus on needs, demands, and services for people with disabilities and illness. Presents concepts associated with leisure, aging, physical challenge, targeting leisure services, research, and public policy.

Prerequisite(s): PRLS 327  
Notes: Field experience required.

**PRLS 417 - Processes, Techniques and Supervision in Therapeutic Recreation**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Exploration of processes and techniques used in Therapeutic Recreation, with a focus on the nature and diversity of recreation and leisure activities, modalities and interventions, facilitation techniques and approaches, leadership roles and tasks, communication skills, clinical supervision, health and safety considerations, and the impact of the impairment and/or treatment on the individual.

Prerequisite(s): PRLS 327 and PRLS 416
PRLS 418 - Assessment in Therapeutic Recreation

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

Presents methods of assessment, development of treatment program plans, and evaluation of all components. Extends program design by developing competencies in the planning approaches, individual and group assessment techniques, program evaluation, and documentation strategies for people with disabilities and illness.

Prerequisite(s): PRLS 327 and 416
Notes: Field experience required.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 435 - Recreation Special Uses and Appeals

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

Management of extensive and varied commercial and noncommercial demands on federal lands. Policies and procedures used by federal land managers. Implementation, effects, and problems of permit systems; appeal provisions.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 442 - Foundations of Public Domain Management

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PRLS 443 - Special Uses Management on Federal Lands
Credits: 4
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Special use authority and authorizations. Policies, regulations, and directives in processing applications. Coordination and administration of special uses and integration with land and resource management plans. Includes agriculture, industry, community, aviation, water, treasure trove, and cultural uses.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

PRLS 444 - Linear Uses and FERC Licenses on Federal Lands

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Legislation, regulation policies, and directives governing linear uses. FERC licensing of hydroelectric power generation and distribution. Right-of-way for oil, gas, and electric transmission, railroads, communication, trams, conveyors, roads, and trails. FERC consultation, exemption, and licensing.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 445 - Valuation and Landownership Adjustment

Credits: 5
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Landownership authority, coordination, and adjustment processes; land valuation and rules, and processes of appraisal, title exchange, purchase, donation, transfer, sale, and condemnation of properties.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 5
Hours of Lab or Studio per week: 0

PRLS 446 - Right-of-Way Acquisition

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Authorities and procedures right-of-way acquisition from public agencies and private landowners. Planning, coordination, and project scheduling requirements. Steps in the acquisition process. Cooperative development and use of roads.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PRLS 447 - Land Status, Boundaries, Claims, and Withdrawals

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Land survey and status records system, programs for maintaining and managing boundaries, handling claims and encroachments, the land status record system, and Bureau of Land Management master title plot system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 448 - American Indian Rights and Claims

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
American Indian sovereignty, Alaska Native corporations, colonization; treaties, rights, and claims; cultural resources an Indian laws and consultation with tribal governments.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 450 - Research Methods

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Covers the development of empirical research designs for both practical and theoretical problems in health, fitness, and recreation resources management. Includes literature review of hypothesized relationships, and formulation of research proposals.

Fulfills writing intensive requirement in the major.

Prerequisite(s): 60 credits and D or higher in one of the following: STAT 250, DESC 210 OM 210, SOC 313, OM 250, or IT 250.
Prerequisite(s) enforced by registration system.

Notes: Only STAT 250 meets the Mason Core quantitative reasoning requirement.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PRLS 460 - Sport and Recreation Law

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Emphasizes safety, liability, and risk. Covers current law and liability issues for administrators of RHT facilities and programs.

Prerequisite(s): 60 credits
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 480 - Special Topics in Parks, Recreation, and Leisure Studies

Credits: 1-3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Selected topics reflecting interest in specialized areas of parks and outdoor recreation or therapeutic recreation.

Prerequisite(s): 60 credits.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 490 - Recreation Management Internship

Credits: 12
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Paid or voluntary work experience in a park and recreation agency for a minimum period of 10-12 weeks of full-time employment, and 480 hours for therapeutic recreation students. Applies course work, theories, and research to work settings.
Work sites are chosen by students after approval of faculty supervisors. Includes meetings and assignments before and during internship.

Prerequisite(s): 90 credits, grade of C or better in PRLS 210, 241, 310, 316, 323, 410, ATEP 120, and SRST 200. Open to students in Recreation Management program only. Mandatory Internship Meeting attendance required.
Prerequisite(s) enforced by registration system.

Schedule Type: INT
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 30-40
Grading: Satisfactory/No credit only
When Offered: Fall, Spring, Summer

PRLS 499 - Independent Study
Credits: 1-3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Individual study of topic area in leisure research, theory, or practice under direction of faculty.

Prerequisite(s): 90 credits
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

PRLS 501 - Introduction to Natural Resources Law

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

Selected legal issues involving conflicting use and preservation demands on our nation's limited natural resource base, particularly those involving public lands, open space, and recreation resources. Uses case studies of recent court decisions. Designated a Green Leaf Course.

Prerequisite(s): PRLS 460 and 90 credits, graduate status, or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 503 - Administration and Disability Rights in Therapeutic Recreation

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Overview of major law and policy issues related to therapeutic recreation services for people with disabilities. Primary focus is on the Americans with Disabilities Act and related federal legislation.

Prerequisite(s): PRLS 460 and 90 credits, or graduate status; or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 526 - Environmental Education and Resource Interpretation

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides methods for communicating and disseminating information pertaining to the use of natural recreation resources. Covers design and implementation of educational materials and programs to enhance understanding and appreciation of cultural, historical, and natural resources.
Prerequisite(s): PRLS 402 or permission of instructor, and 90 credits
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 531 - Natural Resources Recreation Planning

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

Origins and evolution of recreation use philosophy, policies, and service of public estate management. Examines planning for a spectrum of opportunities, from wilderness to developed sites, with attention to financial consideration and sustainable use of cultural and visual resources.
Designated a Green Leaf Course.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 533 - Visitor Services

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Examines motivation of resource-based recreation participants. Covers visitors' expectations and perceptions, with emphasis on implication for service quality, staff training, and other management responsibilities. Discusses use and user conflicts and placement, information and interpretive service, and human and other interpretive service resources.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 535 - Evaluating Recreation Outcomes

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Covers application of quantitative and qualitative research methods to the evaluation of programs provided to visitors and users of public lands for outdoor recreation. Focuses on needs assessment and application of meaningful measures for formative and summative evaluations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PRLS 598 - Special Topics

Credits: 1-6  
Repeatable within Degree for Credit  
Offered by School of Recreation, Health, and Tourism  
Projects related to parks, recreation, and leisure studies.

Prerequisite(s): 90 credits  
Notes: May be repeated for a total of 6 credits.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 1-6  
Hours of Lab or Studio per week: 0

PRLS 599 - Independent Study

Credits: 1-3  
Repeatable within Degree for Credit  
Offered by School of Recreation, Health, and Tourism  
Study of a problem area in parks, recreation, and leisure studies research; theory or practice under the direction of faculty member.

Prerequisite(s): 90 credits  
Notes: May be repeated. No more than 3 credits may be earned.

Schedule Type: IND  
Hours of Lecture or Seminar per week: 1-3  
Hours of Lab or Studio per week: 0

PRLS 601 - History of Leisure and Sport in American Society

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Examines leisure and sport in American society from the early colonial period to the present day. Investigates the pattern of leisure and sport as America moved from a largely agrarian to a highly industrialized nation.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PRLS 610 - Recreation Administration and Planning
Examines recreational administration concepts regarding organizational structure and operations, personnel management, financing, policy development, and public relations procedures.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PRLS 611 - Social Psychology of Leisure

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Addresses historical, theoretical, and empirical foundations of social psychological constructs relative to social behavior in park, recreation, sport, and tourism settings. Focuses on attitudinal, social, and motivational theories as applied to leisure-related contexts.

Prerequisite(s): Graduate student status  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PRLS 612 - Philosophy of Leisure and Sport

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Investigates the phenomenon of leisure and sport from a philosophical perspective. Utilizes the philosophical approach to better explain the role that leisure and sport play in American society.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PRLS 614 - Legal Issues in Recreation Administration

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Surveys current legal issues relevant to Recreation Administration, including, but not limited to, tort law, civil rights law, employment law, constitutional law, and copyright law. This course uses case studies of recent court decisions.

Prerequisite(s): Graduate status or permission of instructor  
Schedule Type: LEC
PRLS 647 - Land Status, Boundaries, Claims, and Withdrawals

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Land survey and status records system, programs for maintaining and managing boundaries, handling claims and encroachments, the land status record system, and Bureau of Land Management master title plot system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 648 - American Indian Rights and Claims

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
American Indian sovereignty, Alaska Native corporations, colonization; treaties, rights, and claims; cultural resources an Indian laws and consultation with tribal governments.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PRLS 670 - Environmental Law

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Focuses on interpretation of environmental laws and regulatory issues. Emphasizes critical evaluation of alternatives to unresolved issues in environmental policies involving endangered species, hazardous waste, and toxic substances.

Prerequisite(s): Graduate status and courses in ecology and environmental biology, or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Persian (PERS)

Offered by the College of Humanities and Social Sciences
PERS 110 - Elementary Persian

Credits: 6
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

PERS 210 - Intermediate Persian

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Persian-speaking regions.

Prerequisite(s): PERS 110, appropriate placement score, or permission of department.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PERS 250 - Gateway to Advanced Persian

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Integration of advanced intermediate-level Persian reading, writing, listening, and speaking skills and the development of critical thinking and understanding authentic texts from the Persian world.

Prerequisite(s): PERS 210 or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3

PERS 330 - Advanced Persian I

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages
Development of cultural and linguistic competency in written and spoken Persian at the low advanced level, with attention to reading, writing, listening and speaking, grammar and vocabulary pertaining to Persian social, political and cultural issues.

Prerequisite(s): PERS 250 or equivalent.
Schedule Type: LEC
PERS 331 - Advanced Persian II

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages  
Development of cultural and linguistic competency in written and spoken Persian at the advanced level, with attention to reading, writing, listening and speaking, grammar and vocabulary pertaining to Persian social, political, and cultural issues.  

Prerequisite(s): PERS 330, equivalent, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

Philosophy (PHIL)

Offered by the College of Humanities and Social Sciences

PHIL 100 - Introduction to Philosophy

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy  
Introduction to the nature of philosophical reasoning and some of the main problems of philosophy.  

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 101 - Introduction to Philosophy for Prospective Majors

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy  
In this course, students can learn what distinguishes philosophy from other intellectual fields, major contributions in the history of philosophy, and basic philosophical issues, as well as how to develop the skills needed to address those issues oneself. The course is geared to the needs and the interests of students who may want to consider declaring philosophy as their major.  

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
PHIL 112 - Ethics and the Cybersociety

Credits: 1  
Not Repeatable for Credit  
Offered by Philosophy  
Examines ethical issues associated with new developments in information technology, including privacy rights, intellectual property rights, and the effect of information technology on society.

Fulfills Mason Core requirement in information technology (ethics only).

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

PHIL 151 - Introduction to Ethics

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy  
Considers some perennial issues in ethical theory.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 156 - What Is Art?

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy  
Introduction to philosophical reflection on the arts by looking at the critical issues in the history of aesthetics. Applies considerations to specific works and exploring these works in terms of their historical contexts and influences. Concentrates on one form of art or one period and always emphasizes questions of critical evaluation and art historical analysis.

Fulfills Mason Core requirement in arts.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 173 - Logic and Critical Thinking

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy  
Basic concepts and techniques of deduction, emphasizing the modern treatment of such topics as quantification and rules of
inference, with study of the classical treatment. Basic principles of induction, informal fallacies, and uses of logic in everyday life.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHIL 243 - Global Environmental Ethics**

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy

Examines the global dimensions of environmental problems. Although environmental problems are global in reach, because different societies make different philosophical and ethical assumptions, they are understood in different ways. Examines several environmental problems, including climate change, population growth, and resource depletion, from a variety of scientific, policy, and cross-cultural perspectives. 
Designated a Green Leaf Course.

Fulfills Mason Core requirement in global understanding.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHIL 251 - Happiness and the Good Life**

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy

Addresses the question "How do I live a happy life?" by drawing on 2,500 years of philosophy as well as the much more recent science of happiness. Encourages students to develop and live their own answer in light of some of the best available science and philosophy.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHIL 253 - Philosophy and Literature**

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy

Examines differences and relations between literary and philosophical texts. Examines texts from a given period in the history of literature and philosophy. Topics include the presence of common issues in literary and philosophical writings, the influence of philosophical ideas on the production of literary texts and literary theory, and the development in literary texts of issues that are
possible objects of philosophical inquiry.

Fulfills Mason Core requirement in literature.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 301 - History of Western Philosophy: Ancient

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Classical Greek philosophy, including pre-Socratics, Socrates, Plato, and Aristotle.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 303 - History of Western Philosophy: Modern

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Figures and problems of modern philosophy. Study of philosophers such as Descartes, Locke, Berkeley, Hume, Kant, and Hegel.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 305 - Business Ethics

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Examines some moral problems that arise with regard to the responsibilities of various segments of the business community, including employers, management, stockholders; to one another; to the consumer; and to society at large.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 306 - Philosophy Internship
Gives students the opportunity to apply philosophical skills in real-world settings. Internships arranged and supervised by faculty in the Department of Philosophy.

**Schedule Type:** INT

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**PHIL 309 - Bioethics**

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy  
Examines some major moral issues involved in practice and research in medicine and health care. Topics to be chosen from medical experimentation, definition of death, physician-assisted dying, genetics and human reproduction, distribution of scarce resources, fertility, and organ transplants.

Fulfills Mason Core requirement in synthesis.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**PHIL 311 - Philosophy of Law**

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy  
Investigation of theories of natural law, legal positivism, and legal realism as they pertain to some of the central philosophical questions about law.

**Prerequisite(s):** 3 credits of philosophy, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**PHIL 313 - Philosophy of Religion**

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy  
Study of classical appeals to philosophy in support of belief in god's existence (Philo, Augustine, Anselm, Aquinas, Descartes); the fideism of Hume and the metaphysical agnosticism of Kant; the concept of religious experience in the philosophies of Hegel, Schleiermacher, and Kierkegaard; and the problem of religious language in contemporary empirical philosophy.
PHIL 323 - Classical Western Political Theory

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Exploration through lecture and discussion of developments in the Western tradition of political thought from the time of the Greek city-state to late medieval Christendom, focusing on such topics as the nature and purpose of politics, the relationship between the individual and the state, the political significance of religion and tradition, and the concept of natural law.

Prerequisite(s): GOVT 101, or 3 credits of philosophy.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 324 - Modern Western Political Theory

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Exploration through lecture and discussion of developments in the Western tradition of political thought from the Renaissance to the middle of the 19th century, focusing on such topics as the rise of individualism in political theory, early developments in social contact theory, theories of radical popular sovereignty, and early criticisms of liberal theory.

Equivalent to GOVT 324

Prerequisite(s): GOVT 101, or 3 credits of philosophy.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 325 - Karl Marx's Social and Political Thought

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Study and evaluation of Marx's social and political ideas based on writings selected from several phases of his career. Examination of relation of Marx's thought to post-Marxian socialist theory and practice.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PHIL 327 - Contemporary Western Political Theory

Credits: 3
Repeatable within Term for Credit
Offered by Philosophy
Exploration through lecture and discussion of recent developments in the Western tradition of political thought from the middle of the 19th century to today. Different sections focus on one or another of the various political theories that have been influential during this period such as liberal, libertarian, conservative, communitarian, Marxist, feminist, and postmodern thought.

Equivalent to GOVT 327

Prerequisite(s): GOVT 101, or 3 credits of philosophy.
Notes: May be repeated for a maximum of 12 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 332 - Twentieth-Century Analytic Philosophy

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Examination of the attempts of 20th-century philosophers to solve philosophical problems by an analysis of language. Figures and movements covered include Russell, Moore, Wittgenstein, logical positivism, and ordinary language philosophy.

Prerequisite(s): 3 credits of logic and PHIL 303, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 333 - American Philosophy: Pragmatism

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Examines the philosophical movement of American Pragmatism, with emphasis on its origin in the late nineteenth century. Figures covered include Peirce, James, Dewey, and Mead.

Prerequisite(s): 3 credits of philosophy, or permission of the instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PHIL 335 - Nineteenth-Century Philosophy

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy  
Development of German Romanticism and Idealism during a brilliant period in the history of the West rivaled only by ancient Greece. Kant, Fichte, Hegel, Kierkegaard, Schopenhauer, and Nietzsche mount a revolt against the rationalism and scientism of the modern world.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 336 - Twentieth-Century Continental Thought: Existentialism

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy  
Examination of existential philosophy from its 19th-century origins to its 20th-century expressions. Philosophers studied include Kierkegaard, Nietzsche, Sartre, De Beauvoir, and Buber.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 337 - Twentieth-Century Continental Thought: Phenomenology

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy  
Examines phenomenological way of doing philosophy, its findings in regard to the "life-world," questions of "first philosophy," and the subject matter of the social sciences, as well as critical difficulties in its development. Texts by Husserl, Heidegger, Merleau-Ponty, Sartre, Schutz, and Derrida.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 338 - Philosophy, Sex, and Gender

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy
An exploration of how concepts of sex and gender both structure key philosophical ideas and put such ideas into question. The course examines the ways patriarchal structures situate woman as the 'other' as well as alternative feminist approaches to sexuality, subjectivity, the body, and language. An overriding theme is the relationship between questions of sexual difference and other key issues in contemporary philosophy.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**PHIL 340 - Hermeneutic Philosophy**

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Study of the development of hermeneutic philosophy in works by Heidegger, Gadamer, and Ricoeur, as an effort toward coming to terms with the historicity of human experience. Implications for interpretive understanding of artworks, institutions, events, texts, and the human condition.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHIL 343 - Topics in Environmental Philosophy**

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
An in-depth examination of selected environmental issues from a philosophical perspective. Such issues might include the value of nature, the moral status of animals, duties to protect wilderness areas, economics and environmental protection, environmental justice, and environmental aesthetics. Designated a Green Leaf Course.

Fulfills Mason Core requirement in synthesis.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHIL 344 - Ethical Issues in Global Health**

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
This course will consider ethical questions that arise in global health policy, practice and research.

Prerequisite(s): Sophomore standing or higher.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 355 - Theories of Ethics

Credits: 3
Repeateable within Degree for Credit
Offered by Philosophy
A critical examination of a variety of different types of classical, modern, and contemporary ethical theories, including consequentialist theories, deontological theories, and virtue theories.

Prerequisite(s): Three credits in philosophy or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 356 - Philosophy of Art

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Basic problems that arise from an inquiry into meaning and value of art and our response to art.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 357 - Philosophy of the Social Sciences

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Philosophical issues relating to competing methodologies for the social sciences. Analysis and critique of mainstream positivism and behaviorism; paradigm theory and scientific revolutions; interpretive understanding and hermeneutical science; phenomenology and the social construction of reality; ethnomethodology and situational meaning; analytic philosophy and action theory; the "idea" of a social science; sociology of knowledge and theory of ideology; and Western Marxism and critical theory.

Equivalent to SOCI 599

Prerequisite(s): 3 credits of philosophy, or permission of instructor.
Schedule Type: LEC
PHIL 358 - Ethics and Economics

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Examines issues at the intersection of ethics and economics. Looks at the different ways in which ethics and economics impact each other.

Prerequisite(s): 3 credits in philosophy or permission of the instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 371 - Philosophy of Natural Sciences

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
One semester of logic recommended. Study of aims and methodology of science. Among the questions of concern are: What constitutes a good scientific explanation? What grounds are used for comparing rival theories? Is there a special method of scientific discovery?

Prerequisite(s): 3 credits of philosophy, or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 373 - Theory of Knowledge

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Discussion of basic problems concerning the nature of knowledge, with study of the relation of knowledge to perception, belief, and language.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 374 - Philosophy of Mind
PHIL 375 - Theory of Mind

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Investigation of such theories as dualism, behaviorism, and materialism as they pertain to some of the central philosophical questions about mind.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 376 - Symbolic Logic

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Study of predicate calculi by means of a step-by-step construction of artificial languages. Topics include procedures for constructing a calculus, proof techniques, significant properties of predicate calculi, and procedures for recognizing phrases.

Prerequisite(s): PHIL 173 or MATH 110, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 377 - Darwin: Biology and Beyond

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Introduction to and philosophical examination of the theory of evolution in its historical perspective. Examines Darwin's theory of evolution as a scientific theory, connect it to its context in the history of science, and survey its wider cultural impact. In particular, examine implications of the theory of evolution for religion and morality.

Fulfills Mason Core requirement in synthesis.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 378 - Reason, Science and Faith in the Modern Age

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Historical examination of the rise of sciences in the modern age (1500-present) and the impact this has had on religion, drawing from such thinkers as Luther, Bacon, Galileo, Newton, Pascal, Hume, Darwin, Kierkegaard, and James.
PHIL 379 - Perspectives on Time

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Examines the variety of ways time is conceptualized in different disciplines. Influential conceptions of time from the history of philosophy are studied in order to provide a comparative framework within which to consider specialist conceptions of time drawn from the sciences and humanities, including relativistic time, geological deep time, life cycles, and time in historical narrative.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): 3 credits of philosophy, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring.

PHIL 391 - Special Topics in Philosophy

Credits: 1-3
Repeatable within Term for Credit
Offered by Philosophy
Examines topics of current interest such as death and dying, rights of children, and philosophical controversies in modern physics.

Notes: May be repeated for a maximum of 12 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

PHIL 393 - Humanities College to Career

Credits: 1
Not Repeatable for Credit
Offered by Philosophy
Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in the humanities. Explores how skills typically learned in humanities majors can be leveraged for a successful transition to post-graduation
employment.

Equivalent to ENGH 303, HIST 385, FRLN 309.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

---

**PHIL 398 - Study Abroad**

Credits: 3  
Repeatable within Degree for Credit  
Offered by Philosophy  
Study abroad under supervision of Mason faculty. Course topics, content and locations vary.

**Notes:** A maximum of 6 credits may be applied to the BA in philosophy.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PHIL 411 - Theories of Decision**

Credits: 3  
Not Repeatable for Credit  
Offered by Philosophy  
Examines from a philosophical perspective descriptive and normative theories of individual decision, with particular focus on the strengths and weaknesses of theories of rational choice, and attempts to incorporate insights from psychology into theories of decision. Explores theoretical developments and a variety of applications.

**Prerequisite(s):** Two previous courses in either Philosophy, Psychology, or Economics.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PHIL 421 - Seminar**

Credits: 3  
Repeatable within Degree for Credit  
Offered by Philosophy  
Explores topics in current philosophical research in a seminar format. Topics vary.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** 9 credits in philosophy. Students with fewer credits in philosophy may be admitted, at the discretion of the professor, if the topic is sufficiently close to their field of study.

**Notes:** May be repeated for a maximum of 18 credits when topic is different.
PHIL 422 - Honors Seminar

Credits: 3
Repeatable within Term for Credit
Offered by Philosophy
Seminar for students enrolled in the honors program in philosophy.

Fulfills writing intensive requirement in the major.

Prerequisite(s): 9 credits in philosophy and acceptance to the honors program in philosophy.
Notes: May be repeated for a maximum of 18 credits when topic is different.

PHIL 425 - Independent Study

Credits: 1-3
Repeatable within Term for Credit
Offered by Philosophy
Independent study under supervision of faculty member. Students and faculty agree on program of study to include at least a reading list and final written project. Students must arrange for independent study in the semester before they wish to enroll. Requires approval of department.

Prerequisite(s): 60 credits, including 15 credits in philosophy and permission of department.
Notes: May be repeated for credit.

PHIL 460 - Senior Seminar in Philosophy, Politics, and Economics

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Covers issues in the philosophy, economics, and political science of institutions, information, and collective action. Through case studies of existing legal and political institutions, applies the insights to problems in politics, policy making, social-choice theory, and social, moral, and political philosophy. (Specific content varies).

Equivalent to ECON 460, GOVT 469
Prerequisite(s): PHIL 358 and ECON 412 or permission of instructor.
Notes: Serves as the capstone course for the PPE program.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 600 - Proseminar in Philosophy

Credits: 1
Not Repeatable for Credit
Offered by Philosophy
Introduces MA students to the areas and methods of philosophical scholarship.

Prerequisite(s): Graduate standing and enrollment in the Philosophy MA program.
Notes: Graduate students outside of the philosophy program may take this course with permission of the department.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

PHIL 603 - Aristotle: Selected Works

Credits: 3
Repeatable within Degree for Credit
Offered by Philosophy
Close study of Aristotle's work and its place and future in history of philosophy. Topics vary by semester and include Aristotle's metaphysics, natural sciences, ethics, political thought, logic, epistemology, and psychology.

Prerequisite(s): Graduate standing.
Notes: May be repeated for a maximum of 6 credits when topic is significantly different with permission of department.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 608 - Hegel's Phenomenology of the Spirit

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
A study of the philosophy of Hegel through a reading of the text that presents an introduction to his system. Special attention is paid to Hegel's background in the work of Kant and the German Idealists.

Prerequisite(s): Graduate standing.
PHIL 615 - Postmodernist Thought

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
In recent decades, the term "postmodern," first used by art critics in the late 19th century, has been taken up by prominent contributors to the arts, social thinkers, and philosophers, to describe developments as well as the current period. Examines three thematic concerns found in work that is identified with postmodern issues: what modernity defines itself in contrast to or against, the status of "man," and status of "subjectivity."

Prerequisite(s): Graduate standing or permission of instructor.

PHIL 616 - Phenomenology

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
This major approach in philosophy is studied in regard to its basic features, the tasks to which it has been set by major contributors, certain findings of phenomenology in practice, as well as crucial problems that develop as phenomenology proceeds and how they are addressed by phenomenologists.

Prerequisite(s): Graduate standing.

PHIL 617 - Movements and Issues in the History of Political Philosophy

Credits: 3
Repeatable within Degree for Credit
Offered by Philosophy
Explores themes, movements, and periods in the history of political theory.

Prerequisite(s): Graduate standing.
Notes: May be repeated for a maximum of 6 credits when topic is different.
PHIL 640 - History of Ethical Theory

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Examines history of Western ethical theory from ancient Greece to the present day, including virtue theory, consequentialism, deontological theory and contemporary feminism.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 642 - Biomedical Ethics

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Explores the application of ethical theories and principles to issues in contemporary health care. Cases central to the development of the field will be examined.

Prerequisite(s): Graduate standing, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 643 - Environmental Ethics

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
An examination of human interactions with the natural environment from an ethical perspective. Emphasis will be placed on the strengths and weaknesses of various ethical theories and the different conceptions of the proper relationship between humans and their environment.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 644 - Business and Organizational Ethics

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Examines organizational culture as necessary for ethical development and of the application of ethics in business and organizational settings.

Prerequisite(s): Graduate standing or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 645 - Research Ethics

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Ethical theories, concepts, and principles, and how these shape research guidelines. Students learn to identify ethical issues in research, to reflect on them critically, and to respond effectively. Designed for students in the humanities, social sciences, life sciences, and health sciences.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 658 - Feminist Theory

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Analysis of the critique of patriarchy offered by contemporary continental feminist philosophers. Examines contemporary moral, political, and epistemological issues in feminist theory.

Prerequisite(s): Admission to graduate program or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 681 - Ancient Philosophical Figures

Credits: 3
Repeatable within Degree for Credit
Offered by Philosophy
Examines major philosophical authors of crucial philosophical texts and their influence on philosophical thought. Topics may cover Plato, Aristotle, or the pre-Socratic philosophers.

Prerequisite(s): Graduate standing.
Notes: May be repeated for a maximum of 9 credits when topic is different.
Schedule Type: SEM
PHIL 682 - Early Modern Philosophical Figures

Credits: 3  
Repeatable within Degree for Credit  
Offered by Philosophy  
Examines major philosophical authors of the early modern period and their influence on philosophical thought.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 683 - Contemporary Philosophical Figures

Credits: 3  
Repeatable within Term for Credit  
Offered by Philosophy  
Examines major recent philosophical authors and their influence on philosophical thought.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 693 - Directed Readings in Philosophy

Credits: 3  
Repeatable within Term for Credit  
Offered by Philosophy  
Directed readings and research on specific topic in philosophy chosen by student and instructor.

Prerequisite(s): Graduate standing or permission of instructor.  
Notes: May be repeated for a maximum of 12 credits.

Schedule Type: IND  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHIL 694 - Special Topics in Contemporary Philosophy
PHIL 719 - Topics in Philosophy

Credits: 3
Repeatable within Term for Credit
Offered by Philosophy
Topics vary.

Notes: May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 720 - Nietzsche and his Readers

Credits: 3
Not Repeatable for Credit
Offered by Philosophy
Reading of major texts of Nietzsche and some of his most influential interpreters and critics.

Prerequisite(s): Graduate standing.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 721 - Advanced Seminar in Philosophy

Credits: 3
Repeatable within Term for Credit
Offered by Philosophy
Close study of selected topics in current philosophical discourse.

Prerequisite(s): Graduate standing.
Notes: May be repeated for credit when topic is different.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHIL 733 - Current Issues in Cognitive Science

Credits: 3
Repeatable within Degree for Credit
Offered by Philosophy
Examines current areas of investigation in cognitive science and philosophy of mind such as nature of consciousness, and representational and connectionist theories of mind.

Prerequisite(s): Admission to master's program in philosophy or permission of instructor.
Notes: May be repeated for a maximum of 6 credits when topic is different.
PHIL 799 - Thesis

Credits: 1-6
Repeatable within Degree for Credit
Offered by Philosophy
Develop research and write an original thesis under the direction of their thesis director.

Prerequisite(s): Completion of 24 credits, approval of the thesis proposal, and permission of instructor (thesis director).

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

Physical Education (PHED)

Offered by the College of Education and Human Development

PHED 118 - Advanced LifeGuarding

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Introduces and develops skills and knowledge necessary to become an American Red Cross-certified lifeguard. Focus is on training participants in aquatic facility and patron safety, in-water rescue skills, and physical conditioning. It teaches the lifeguard candidates to prevent, recognize, and respond to aquatic-related emergencies.

Prerequisite(s): PHED 150 or permission of instructor
Schedule Type: LAB
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 128 - Fencing II

Credits: 2
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Reviews the advanced footwork and handwork techniques learned in Fencing I and expands on the third component of the sport, strategic tactics. Students are introduced to the rules and protocol of competitive fencing and use electric scoring equipment and electric fencing gear.
Prerequisite(s): PHED 103 or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

**PHED 146 - Introduction to Badminton**

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
A practical course designed as an introduction to badminton. Students learn badminton terms; scoring rules; and techniques for forehand, and backhand, and the serve. Students are also introduced to basic strategy for singles and doubles play.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

**PHED 155 - Introduction to Springboard Diving**

Credits: 2
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
A beginner-level course designed to increase awareness of the sport of diving, safety issues pertaining to competitive and recreational diving, competition formats, and history and evolution of the sport and scoring systems. Students will be introduced to fundamental skill progressions leading to basic dives.

Prerequisite(s): PHED 150 or permission of instructor
Schedule Type: LAB
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

**PHED 156 - Intermediate Springboard Diving**

Credits: 2
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Students build on the fundamental skill progressions and perform more advanced skills and dives than in the introductory course (PRLS 155). Designed to increase awareness of the sport of diving, safety issues pertaining to competitive and recreational diving, competition formats, history and evolution of the sport, and scoring systems.

Prerequisite(s): PHED 155 or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
PHED 157 - Aikido for Men and Women

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Designed for students who have no prior experience in martial arts. Can benefit those with a solid martial arts background. Mind-body techniques useful to all athletes and students are taught in a classical martial art self-defense context. Involves mind-body coordination exercises, and solo and partner practice. Gives all students a chance to execute throws, locks, and pins, both as the thrower and the one who takes falls.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 158 - Underwater Hockey

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Designed to provide basic instruction in the fundamentals of underwater hockey. Students learn free diving and snorkeling activities in preparation for underwater hockey. They will learn about and experience physiological reactions to aquatic submersion. Significant attention throughout this course will be given to safety issues related to underwater training, emphasizing current and lifelong skills.

Prerequisite(s): PHED 150 or permission of instructor
Notes: Fee required.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 167 - Advanced Concepts and Strategies in Bowling

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Students will learn advanced concepts and strategies in the sport of Ten Pin Bowling. Topics covered are equipment, mental preparation, spare conversions, practice regimens, and strategies for different lane conditions. This course is intended for experienced bowlers.

Prerequisite(s): PHED 162 or permission of instructor
Schedule Type: LAB
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PHED 176 - Introduction to Cricket
This course is designed to introduce individuals to the basic of Cricket. This includes bowling, batting, fielding, umpiring, and strategy.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 1  
**When Offered:** Fall, Spring

**PHED 184 - Historical Swordsmanship**

Credits: 1  
Repeatable within Degree for Credit  
Offered by School of Recreation, Health, and Tourism  
Introduces Historical European Martial Arts of Swordsmanship. Offers fundamentals in footwork and body mechanics needed in the sport including sparing with protective gear and using 15th century Longsword and 17th century rapier are included.

**Notes:** Open to all majors.

**Schedule Type:** LAB  
**Hours of Lab or Studio per week:** 2.5  
**When Offered:** Fall, Spring

**PHED 199 - Introduction to Health and Physical Education**

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Uses best practices to introduce to potential teacher candidates current health and physical education teaching issues. Introduces terminology specific to teaching, and concepts such as standards of learning, planning, assessment, curriculum developments, and risk management.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 2.5  
**When Offered:** Fall, Spring

**PHED 200 - Professional Dimensions of Health, Recreation, and Physical Education**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Traces historical foundations of health, recreation, physical education, and sport.

**Notes:** Open to nonmajors.

**Schedule Type:** LEC
PHED 201 - Developmental Motor Patterns

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Analyzes motor-skill development and prescription of activities from immature to mature stages.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 202 - Teaching Skillful Movement

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Covers planning and presenting lessons on numerous motor skills using varied teaching strategies in a peer teaching setting.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 218 - Technology in Health and Physical Education

Credits: 2
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Develops technology skills to support health and physical education instruction in school settings.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
When Offered: Fall, Spring

PHED 230 - Asian Martial Arts: Origin and Development

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Introduction to martial arts of East, South, and Southeast Asia. Lectures address martial arts from a historical, philosophical, biographical, warfare, and sport perspective.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHED 250 - Water Safety Instruction**

Credits: 2  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Introduces planning, organizing, and executing American Red Cross swimming and water safety courses. Focus is on educational methods, approaches, and skill development applicable to swimming and water safety instruction.

**Prerequisite(s):** PHED 150 and instructor evaluation

**Notes:** Fee required.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

**PHED 273 - Net and Target Games**

Credits: 2  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Skill and content knowledge in net and target games. Includes skill progression, strategies, officiating, and authentic assessment in games such as volleyball, golf, tennis, and badminton.

**Notes:** Open only to PHED majors.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 2

**PHED 274 - Dance and Educational Gymnastics**

Credits: 2  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Skill and content knowledge in dance, rhythms, and educational gymnastics.

**Notes:** Open to BPRE and BSED PHED majors only.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 2
PHED 275 - Field and Invasion Games

Credits: 2
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Skill and content knowledge in field and invasion games. Includes skill progression, strategies, officiating, and authentic assessment in activities such as softball, basketball, soccer, field events, and Ultimate Disc.

Notes: Open to BPRE and BSED PHED majors only.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 2

PHED 276 - Health-Related Fitness Education

Credits: 2
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Prepares future physical educators to develop, implement, and assess fitness concepts, and strategies to K12 students. Requires fitness tests participation.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Grading: Regular
When Offered: Fall

PHED 306 - Psychomotor Learning

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Analyzes psychological aspects, learning theory, and practice conditions for learning motor skills.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 308 - Adapted Physical Education

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Introduces disabilities in public schools. Covers national standards, federal legislation, IEPs, and developmental inclusion
PHED 320 - Student Assessment in Health and Physical Education

Credits: 2
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Examines assessment purposes and introduces different assessment procedures that measure student achievement in the different domains of behaviors in health and physical education.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PHED 340 - Social and Cultural Issues in Physical Education

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Studies contemporary and historical perspectives on socio-cultural and philosophical issues influencing American public schooling and physical education teacher preparation, including race, culture, ethnicity, nationality, globalization, socioeconomic status, gender, sexuality, ability, obesity, and urbanization.

Fulfills writing intensive requirement in the major.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PHED 364 - Strength Training: Concepts and Applications

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides students with an opportunity to develop an in-depth understanding of the principles of strength training and conditioning, including anatomical and physiological considerations, lifting techniques, equipment selection, program development and evaluation, and weightlifting safety.

Equivalent to KINE 360

Prerequisite(s): BIOL 124 and BIOL 125
PHED 365 - Measurement and Evaluation of Physical Fitness

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Covers selection, administration, evaluation, and construction of measurements and evaluation instruments and techniques in physical education. Also covers statistical analysis of data and survey of selected instruments.

Equivalent to KINE 370.

Prerequisite(s): BIOL 124 and 125.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 403 - Elementary School Instruction in Physical Education

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Covers content, knowledge, and teaching methods for K-6 physical education. Requires field experience.

Prerequisite(s): PHED 201, 202, 273, 274, 275. Must be taken within one year of student teaching. Open to students with BSED status only.
Corequisite(s): PHED 306.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 404 - Middle and High School Instruction in Physical Education

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Examines school curriculum, assessment, content, and teaching practices for middle and high school physical education programs. Requires field experience.

Prerequisite(s): D or higher in PHED 201, PHED 202, PHED 273, PHED 274, PHED 275, PHED 306, PHED 403, KINE 200 and 75 credit hours.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
PHED 410 - Social/Psychological Aspects of Health and Fitness

Credits: 3
Repeatable within Degree for Credit
Offered by School of Recreation, Health, and Tourism
Covers research, trends, and techniques of health and fitness from a behavioral perspective.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 415 - Student Teaching in Physical Education

Credits: 12
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides supervised clinical experience for a full semester in approved schools. Requires experiences in elementary and secondary school settings. includes participation in pre-service workshop and related activities, and weekly seminars.

Fulfills Mason Core requirement in synthesis. (only for Physical Education BS majors).

Prerequisite(s): Completion of all courses in approved program, and acceptance into student teaching
Schedule Type: INT
Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 12
When Offered: Fall, Spring

PHED 480 - Special Topics

Credits: 1-3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
See course description in the Schedule of Classes. Selected topics reflect interest in specialized areas of exercise science or health promotion.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 499 - Independent Study in Physical Education and Fitness
PHED 670 - Analysis of Teaching in Physical Education

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Presents variety of research techniques for studying teacher and learner behaviors in physical education, engaging the teacher as researcher and grant writer. Goal is to prepare teachers to be leaders in their field.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 672 - Curriculum and Assessment in Physical Education

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides knowledge of curriculum models and assessment strategies in standards-based physical education program. Studies curriculum models such as sport education and adventure education. Examines traditional and alternative assessment.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHED 673 - Motor Development for Special Populations

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides knowledge that focuses on individuals with orthopedic, sensory, and learning disabilities in physical education setting. Areas of focus include development of motor patterns and skills assessment, and planning and instruction for students with disabilities.

Schedule Type: LEC
PHED 680 - Mentoring and Supervising in Physical Education

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Prepares mentors and supervisors of preservice and in-service teachers in physical education. Topics include professional dispositions, assessment and evaluation, adult learners, counseling and communication, providing feedback, and reflection and inquiry into the profession.

Prerequisite(s): PHED 670
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Physical Sciences (PSCI)

Offered by the College of Science

PSCI 701 - Frontiers of Physical Sciences

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Each semester, the course will cover between four and six topics considered to be at the frontiers of the physical sciences—the key questions that are of interest to researchers today. The topics will be chosen from interdisciplinary areas, such as nanoscience, astroparticle physics, nonlinear dynamics, and neuroscience. Approximately two to three weeks will be spent on each topic, and the specific topics may vary each semester. The course includes guest lectures given by faculty who are doing research in each area. Assignments include readings from the current literature as well as projects and class presentations.

Prerequisite(s): Admission to physical sciences doctoral program.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSCI 702 - Research Methods

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
This course trains students in research methodologies, techniques, and data analysis methods in the physical sciences. Covers approaches for outlining and synthesizing a problem, techniques for measurement and analysis, and methods used for data analysis and interpretation.
Prerequisite(s): Admission to physical sciences doctoral program.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSCI 703 - Frontiers of Physical Sciences

Credits: 1
Repeatable within Degree for Credit
Offered by Physics and Astronomy
Combines invited seminars from faculty (internal and external) with graduate student seminars. Presentation at a seminar is a requirement for advancement to candidacy in the physical sciences doctoral program.

Prerequisite(s): Admission to physical sciences doctoral program.
Notes: May be repeated three times.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

PSCI 998 - Dissertation Proposal

Credits: 1-6
Repeatable within Degree for Credit
Offered by Physics and Astronomy
Covers development of a research proposal under the guidance of a dissertation director and the doctoral committee. The proposal forms the basis for the doctoral dissertation.

Prerequisite(s): Admission to the PhD in Physical Sciences.
Notes: May be repeated as needed; however, no more than a total of 24 credits in PSCI 998 and 999 may be applied toward satisfying doctoral degree requirements. Out of 24, no more than 12 credits of PSCI 998 may be applied.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

PSCI 999 - Doctoral Dissertation

Credits: 1-12
Repeatable within Degree for Credit
Offered by Physics and Astronomy
Doctoral research performed under direction of dissertation director.

Prerequisite(s): Admission to the PhD in Physical Sciences.
Notes: May be repeated as needed, but no more than a total of 24 credits in PSCI 998 and 999 may be applied toward satisfying
Physics (PHYS)

Offered by the College of Science

PHYS 101 - Light and Sound in Our World

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Nature of light, color, sound, electromagnetic spectrum, optical instruments, mechanisms of vision and hearing, color addition and subtraction, synthesis of musical sounds, interference of waves, polarization, Doppler effect, lasers, holography.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 102 - Sports Physics

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Introduction to laws of physics in context of sports. Physics topics to be studied include two-dimensional motion, forces, conservation of energy, and momentum in the application to sports. Sports include football, basketball, baseball, swimming, and tennis.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 103 - Physics and Everyday Phenomena I

Credits: 4
Not Repeatable for Credit
Offered by Physics and Astronomy
The course uses basic physics concepts from the areas of mechanics and thermodynamics to explain a wide range of everyday phenomena, such as how we walk and drive, how a ship floats, how clothing keeps us warm, and why it rains when we have a low pressure system.
Fulfills Mason Core requirement in natural science (lab).

Notes: For nonscience majors.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

PHYS 104 - Physics and Everyday Phenomena II

Credits: 4
Not Repeatable for Credit
Offered by Physics and Astronomy
The course uses basic physics concepts from the areas of light, sound, electricity, magnetism, and modern physics to explain a wide range of everyday phenomena. Topics include how we speak, hear, and see, what to do if the circuit breaker keeps tripping, how your computer stores and displays data, how rainbows and northern lights form, and the basic nature of matter.

Fulfills Mason Core requirement in natural science (lab).

Prerequisite(s): PHYS 103 or permission of instructor.
Notes: For nonscience majors.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

PHYS 106 - The Quantum World: A Continuous Revolution in What We Know and How We Live

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
This course presents quantum physics that revolutionized the 20th Century and continues to evolve. In addition to presenting basic concepts, the course will discuss various applications involving quantum phenomena including quantum computers and quantum teleportation. The course will be a historical journey through the quantum science that many of its founders, such as Einstein, could not accept, and a peek into a possible future.

Fulfills Mason Core requirement in natural science (nonlab).

Notes: For non-science majors.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall
PHYS 111 - Introduction to the Fundamentals of Atmospheric Science

Credits: 3  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
An overview of the Earth's atmosphere, its history, and the physical and chemical processes that determine its characteristics. The focus is on key concepts from thermodynamics, radiation, chemistry, and dynamics that are essential for understanding the state, variability, and long term evolution of the atmosphere, especially in the context of comparisons with other planetary atmospheres.

Fulfills Mason Core requirement in natural science (lab).

Equivalent to CLIM 111

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHYS 112 - Introduction to the Fundamentals of Atmospheric Science Lab

Credits: 1  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Laboratory course associated with PHYS 111. Study of the Earth's atmosphere based on concepts taken from thermodynamics, radiation transport, chemistry, and dynamics. Designated a Green Leaf Course.

Fulfills Mason Core requirement in natural science (lab).

Equivalent to CLIM 112

Corequisite(s): PHYS 111

Schedule Type: LAB  
Hours of Lecture or Seminar per week: 1-6  
Hours of Lab or Studio per week: 1

PHYS 121 - Uses of Physics

Credits: 1  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Describes the uses of physics to a number of disciplines and professions, including medicine, information technology, energy, and environmental technology.

Notes: Introductory course intended for both majors and nonmajors.

Schedule Type: LEC
**PHYS 122 - Inside Relativity**

Credits: 1  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Introductory course describing Einstein's theories of special and general relativity.

Notes: Intended for majors and nonmajors.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

---

**PHYS 123 - Inside the Quantum World**

Credits: 1  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Introductory course describing quantum theory.

Notes: Intended for majors and nonmajors.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

---

**PHYS 124 - Experimental Explorations in Physics**

Credits: 2  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Introductory nonmathematical course intended primarily for physics majors. Experimental studies of phenomena in mechanics, electricity and magnetism, and optics. Stresses development of familiarity with methods and techniques of measurement and with data evaluation.

**Schedule Type:** LAB  
**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0

---

**PHYS 160 - University Physics I**
First semester of three-semester, calculus-based introductory physics sequence, designed primarily for science and engineering majors. Mechanics.

Fulfills Mason Core requirement in natural science (lab).

Corequisite(s) enforced by registration system.

Corequisite(s): MATH 114

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 161 - University Physics I Laboratory**

Credits: 1
Not Repeatable for Credit
Offered by Physics and Astronomy
Experiments in mechanics, including techniques for recording, graphically and statistically analyzing, and reporting data.

Fulfills Mason Core requirement in natural science (lab).

Corequisite(s) enforced by registration system.

Corequisite(s): PHYS 160 and MATH 114

Schedule Type: LAB
Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 3

**PHYS 225 - Problems in Physics I**

Credits: 1-3
Repeatable within Degree for Credit
Offered by Physics and Astronomy
Individual study of physics problems of current interest.

Prerequisite(s): 24 credits and 2.50 GPA in physics and mathematics.
Notes: May be taken three times for credit.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 0
**PHYS 243 - College Physics**

Credits: 3  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
PHYS 243 is prerequisite to PHYS 245. Two-semester basic physics course with emphasis on topics of classical and modern physics of particular importance to science majors. Principles of mechanics, heat, electricity, magnetism, optics, and atomic and nuclear physics are discussed.

Fulfills Mason Core requirement in natural science (lab).

**Schedule Type:** LEC,  
**RCT**  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHYS 244 - College Physics Lab**

Credits: 1  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Laboratory portion of two-semester basic physics course.

Fulfills Mason Core requirement in natural science (lab).

**Corequisite(s)** enforced by registration system.

**Corequisite(s):** PHYS 243

**Schedule Type:** LAB  
**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 3

**PHYS 245 - College Physics**

Credits: 3  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Two-semester basic physics course with emphasis on topics of classical and modern physics of particular importance to science majors. Principles of mechanics, heat, electricity, magnetism, optics, and atomic and nuclear physics are discussed.

Fulfills Mason Core requirement in natural science (lab).

**Prerequisite(s):** C or higher in PHYS 243.  
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC,  
**RCT**
PHYS 246 - College Physics Lab

Credits: 1
Not Repeatable for Credit
Offered by Physics and Astronomy
Laboratory portion of two-semester basic physics course.

Fulfills Mason Core requirement in natural science (lab).

Corequisite(s) enforced by registration system.

Corequisite(s): PHYS 245

Schedule Type: LAB
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 3

PHYS 251 - Introduction to Computer Techniques in Physics

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Introduction to using computers in physics based on examples from mechanics and astronomy.

Fulfills Mason Core requirement in information technology (all except ethics).

Prerequisite(s): C or higher in PHYS 160.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 260 - University Physics II

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Waves, electricity, and magnetism.

Fulfills Mason Core requirement in natural science (lab).

Prerequisite(s): PHYS 160 with a grade of C or better.
Prerequisite(s) enforced by registration system.
Corequisite(s): MATH 213.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 261 - University Physics II Laboratory

Credits: 1
Not Repeatable for Credit
Offered by Physics and Astronomy
Experiments in mechanics, electricity, and magnetism, including techniques for recording, graphically and statistically analyzing, and reporting data.

Fulfills Mason Core requirement in natural science (lab).

Prerequisite(s): Minimum grade of C in PHYS 161.
Prerequisite(s) enforced by registration system.

Corequisite(s): MATH 213 and PHYS 260.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 3

PHYS 262 - University Physics III

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Thermodynamics, optics, and modern physics.

Fulfills Mason Core requirement in natural science (lab).

Prerequisite(s): PHYS 260 with a grade of C or better.
Prerequisite(s) enforced by registration system.

Corequisite(s): MATH 214.

Schedule Type: LEC, RCT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 263 - University Physics III Laboratory
PHYS 264 - Experiments in Optics and Modern Physics

Credits: 1
Not Repeatable for Credit
Offered by Physics and Astronomy
Experiments in optics and modern physics, including techniques for recording, graphically and statistically analyzing, and reporting data.

Fulfills Mason Core requirement in natural science (lab).

Prerequisite(s): C or higher in PHYS 261.
Prerequisite(s) enforced by registration system.

Corequisite(s): PHYS 262.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 3

PHYS 265 - Advanced University Physics II Laboratory

Credits: 2
Not Repeatable for Credit
Offered by Physics and Astronomy
Credit may be received for PHYS 261 or 265. Experiments in mechanics, electricity, and magnetism with emphasis on data analysis using spreadsheets and Matlab.

Corequisite(s): MATH 213 and PHYS 260.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3

PHYS 266 - Introduction to Thermodynamics

Credits: 1
Not Repeatable for Credit
Offered by Physics and Astronomy
Students may not receive credit for both PHYS 262 and 266. Laws of thermodynamics, kinetic theory of gases, heat engines, and entropy.

Prerequisite(s): C or higher in PHYS 260. Students must register for lecture and recitation.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC,
RCT
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
PHYS 301 - Analytical Methods of Physics

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Analytical methods in the Physical Sciences. Provides a comprehensive introduction to the areas of mathematical physics.

Prerequisite(s): C or higher in MATH 214.
Prerequisite(s) enforced by registration system.

Notes: This course does not satisfy the PHYS elective requirement.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PHYS 303 - Classical Mechanics

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Motion of a particle in one, two, and three dimensions; systems of particles; noninertial coordinate systems; and equations of Lagrange and Hamilton.

Prerequisite(s): C or higher in PHYS 262 and MATH 214 or permission of instructor.
Prerequisite(s) enforced by registration system.

Corequisite(s): PHYS 301 or MATH 313 or MATH 413

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PHYS 305 - Electromagnetic Theory

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Interaction of static charges, interaction of stationary currents, electromagnetic induction, and Maxwell's equations.

Prerequisite(s): C or higher in PHYS 262 and MATH 214 or permission of instructor.
Prerequisite(s) enforced by registration system.

Corequisite(s): PHYS 301 or MATH 313 or MATH 413

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
**PHYS 306 - Wave Motion and Electromagnetic Radiation**

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Vibrating string, plane waves, interference, diffraction, polarization, electromagnetic waves, dispersion, and relativity.

**Prerequisite(s):** C or higher in PHYS 305 or permission of instructor.
Prerequisite(s) enforced by registration system.

**Corequisite(s):** MATH 214.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring

**PHYS 307 - Thermal Physics**

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Classical concepts of energy and temperature, basic definitions, first and second laws of thermodynamics, properties of pure substances, and equations of state. Introduction to classical and quantum statistics and their application to physical systems.

**Prerequisite(s):** C or higher in PHYS 262.
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**PHYS 308 - Modern Physics with Applications**

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Study of modern physics with emphasis on applications. Topics include introductory quantum physics; modern optics; lasers; binding and energy bands in solids; electrical, thermal, and magnetic properties of solids; semiconductors; radioactivity; nuclear reactions; radiation detectors; and applications of nuclear physics to other sciences.

**Prerequisite(s):** C or higher in PHYS 262.
Prerequisite(s) enforced by registration system.
Corequisite(s): MATH 214

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 310 - Physics of Semiconductor Materials and Processing

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Survey of the electronic and structural properties of semiconductors and the physics of semiconductor processing. Topics to be discussed include crystal growth, crystal defects, thin films, thermal properties, lithography, and characterization.

Prerequisite(s): C or higher in PHYS 160, 260, and 262; or permission of instructor.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 326 - Problems in Physics II

Credits: 1-3
Repeatable within Degree for Credit
Offered by Physics and Astronomy
Individual study of physics problems of current interest.

Notes: May be taken three times for credit.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

PHYS 331 - Fundamentals of Renewable Energy

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy

Introduces the physical principles for a range of renewable energies, including solar, wind, hydropower and geothermal. Demonstrates how the application of methods and principles of physics allow us to understand the basic operation, advantages, limitations and relative merits of various renewable energy sources. Designed for students majoring in the sciences or engineering but useful for students interested in science policy, business, global change and sustainable development. Designated a Green Leaf Course.
Prerequisite(s): C or higher in PHYS 262 or 266 or permission of instructor. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 332 - Solar Cells**

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Covers the physics of solar cells, basics of semiconductors, *pn* junctions, basic structure of solar cells, the latest advances in solar cell materials, and concepts for improving the efficiency of solar cells. Solar cell design based on silicon, copper indium gallium selenide, gallium arsenide, organic solar cells, dye-sensitized solar cells, quantum dots, and nanowires will also be reviewed.

Prerequisite(s): C or higher in PHYS 262 and PHYS 263 or PHYS 245 and PHYS 246. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**PHYS 346 - Quarks to Strings**

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
An non-technical introduction to the Standard Model of Elementary Particles and String Theory, in the context of the philosophy of science. Conceptual mastery will be demonstrated through writing assignments rather than calculations.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): C or higher in PHYS 262. Prerequisite(s) enforced by registration system.

Notes: This course does not satisfy the PHYS elective requirement.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**PHYS 370 - Molecular Biophysics**
Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Offers a broad introduction into molecular biophysics. Demonstrates that the application of methods of physics provides a unique opportunity to tackle complex biological programs. Mainly designed for students majoring in physics or chemistry but also useful for biology majors interested in bioinformatics and computational biology.

Equivalent to BINF 470

Prerequisite(s): C or higher in PHYS 307, or CHEM 331 and CHEM 332, or permission of instructor. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 385 - Materials Science with Applications to Renewable Energy**

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy

Introduction to basic concepts and methods of materials science. Review of metallic alloys and compounds, ceramic materials, ionic solids, semiconductors, polymers, and nano-structured materials. Mechanical, thermal, electric, magnetic and optical properties of materials. Theoretical background and experimental methods of materials characterization. Various materials applications with emphasis on renewable energy. Designated a Green Leaf Course.

Equivalent to CDS 385 (2012-2013 Catalog).

Prerequisite(s): C or higher in PHYS 262 or 266 or 245 and C or higher in MATH 113 Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PHYS 390 - Topics in Physics**

Credits: 1-4
Repeatable within Term for Credit
Offered by Physics and Astronomy
Selected topics in physics not covered in fixed-content courses.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0
PHYS 402 - Introduction to Quantum Mechanics and Atomic Physics

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Experimental basis of quantum mechanics; the wave function; systems in one, two, and three dimensions.

Equivalent to PHYS 502

Prerequisite(s): PHYS 303, 305, and 308, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PHYS 405 - Honors Thesis in Physics

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Project chosen and completed under the guidance of a faculty member, which results in a thesis.

Prerequisite(s): 21 credits of physics courses including PHYS 262, 305, and 308; and admission to Physics Department Honors Program.
Notes: PHYS 405 is a prerequisite for PHYS 406. An oral progress report is required for PHYS 405. Oral and written presentations are required for PHYS 406. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 406 - Honors Thesis in Physics

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Project chosen and completed under the guidance of a faculty member, which results in a thesis.

Prerequisite(s): PHYS 405.
Notes: PHYS 405 is a prerequisite for PHYS 406. An oral progress report is required for PHYS 405. Oral and written presentations are required for PHYS 406. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 407 - Senior Laboratory in Modern Physics
Advanced experiments in modern physics: electronics, optics, condensed matter, and nuclear physics. Techniques for recording, graphically and statistically analyzing, and reporting data. Typical experiments include the Frank-Hertz experiment, Hall Effect, electron spin resonance, nuclear magnetic resonance and optical pumping.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** C or higher in PHYS 263, 305, 308.
Prerequisite(s) enforced by registration system.

**Corequisite(s):** PHYS 402.

**Notes:** This course meets the writing-intensive requirement.

**Schedule Type:** LAB
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 9

---

**PHYS 408 - Senior Research**

Credits: 2-3
Repeatable within Degree for Credit
Offered by Physics and Astronomy
Work under guidance of faculty member on research project in experimental or theoretical physics.

**Prerequisite(s):** 21 credits of physics courses.
**Notes:** May be taken twice with permission of the Physics Department. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409.

**Schedule Type:** IND
**Hours of Lecture or Seminar per week:** 2-3
**Hours of Lab or Studio per week:** 0

---

**PHYS 409 - Physics Internship**

Credits: 3
Repeatable within Degree for Credit
Offered by Physics and Astronomy
On-the-job experience for physics majors in industry or government laboratories including summer programs.

**Prerequisite(s):** At least 12 credits at the 300-level or above of physics, astronomy, computational and data science, chemistry, engineering, or mathematics courses, including PHYS 303 and 305, and permission of the undergraduate coordinator.
**Notes:** May be taken twice with permission of the School of Physics, Astronomy, & Computational Sciences. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409.

**Schedule Type:** INT
**Hours of Lecture or Seminar per week:** 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PHYS 410 - Computational Physics I

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Study and development leading to computer simulations of various physical systems. Requires the study and development of computational techniques and numerical algorithms to obtain both numerical results and visualization of these results. Application to individual physical processes taking place in a variety of physical streams.

Equivalent to PHYS 510

Prerequisite(s): C or higher in PHYS 303 and PHYS 305.
Prerequisite(s) enforced by registration system.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 412 - Solid State Physics and Applications

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Crystal structures, binding, lattice vibrations, the free electron model, metals, semiconductors and semiconductor devices, superconductivity, and magnetism.

Equivalent to PHYS 512/CSI 687

Prerequisite(s): C or higher in PHYS 402 or B- or higher in 502.
Prerequisite(s) enforced by registration system.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 416 - Special Topics in Modern Physics

Credits: 1
Not Repeatable for Credit
Offered by Physics and Astronomy
Topics of current interest in modern physics with emphasis on the breadth of physical understanding needed to approach many of today's problems. The course will also review all of undergraduate physics through assigned problems from the GRE test.
Prerequisite(s): 21 credits of physics courses.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PHYS 417 - Geophysics

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Seismological and gravitational theory and application to an understanding of the Earth's interior. Geology requirement may be waived for physics and engineering students with sufficient background.

Equivalent to GEOL 417

Prerequisite(s): GEOL 101, 102, 201, 301; MATH 113, 114; and PHYS 160.
Corequisite(s): MATH 213 and PHYS 260, 261.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 428 - Relativity

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Special relativity; four-dimensional space-time; general relativity; non-Euclidean geometries, geodesics, and field equations; tests of general theory of relativity; black holes; cosmology; models of the universe; remnant blackbody radiation; big bang cosmology; thermodynamics; and the universe.

Equivalent to ASTR 428 (2012-2013 Catalog)

Prerequisite(s): C or higher in PHYS 303, PHYS 305.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 440 - Nuclear and Particle Physics

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Accelerators, detectors and related electronics; nuclear and elementary particle structure; symmetries and conservation laws; the electromagnetic, weak, and hadronic interactions; nuclear models; the quark model; and nuclear science and technology.

Equivalent to PHYS 540

**Prerequisite(s):** C or higher in PHYS 402 or B- or higher in 502. Prerequisite(s) enforced by registration system.

**Schedule Type:** LAB, LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**PHYS 475 - Atmospheric Physics**

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Introduction to basic physical and chemical processes that operate in the Earth's atmosphere. Emphasis on those concepts that provide a global description of the current atmospheric state and those processes that relate to global change and atmospheric evolution. Topics include equilibrium structure, radiative transfer models, thermodynamics of various atmospheric layers, and the various processes defining these layers.

**Prerequisite(s):** PHYS 260 and 262.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**PHYS 502 - Introduction to Quantum Mechanics and Atomic Physics**

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Experimental basis of quantum mechanics, the wave function, and systems in one, two, and three dimensions.

Equivalent to PHYS 402

**Prerequisite(s):** C or higher in PHYS 308, or permission of instructor. Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**PHYS 510 - Computational Physics I**
Study and development leading to computer simulations of various physical systems. Requires the study and development of computational techniques and numerical algorithms to obtain both numerical results and visualization of these results. Application to individual physical processes taking place in a variety of physical systems.

Equivalent to PHYS 410

Prerequisite(s): C or higher in PHYS 303 and PHYS 305.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 512 - Solid State Physics and Applications

Crystal structures, binding, lattice vibrations, the free electron model, metals, semiconductors and semiconductor devices, superconductivity, and magnetism.

Equivalent to PHYS 412/CSI 687

Prerequisite(s): C or higher in PHYS 402 or B- or higher in PHYS 502.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 513 - Applied Electromagnetic Theory

Classical electromagnetic theory with applications. Topics include electrostatics, magnetic fields and materials, electromagnetic wave propagation, waveguides, transmission lines, radiation, and antennas.

Prerequisite(s): C or higher in PHYS 305, 306; and MATH 313, 314 or equivalent.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
**PHYS 533 - Modern Instrumentation**

Credits: 3  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Topics include sensors for radiation, particles, electric and magnetic fields, pressure, and motion; electronic instruments, computer data collection, instrumentation noise and noise reduction methods; and specialized instrumentation systems for various areas of applied physics.

Equivalent to CHEM 620

**Prerequisite(s):** B- or higher in PHYS 513 and an electronics course.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PHYS 540 - Nuclear and Particle Physics**

Credits: 3  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Accelerators, detectors and related electronics; nuclear and elementary particle structure; symmetries and conservation laws; the electromagnetic, weak, and hadronic interactions; nuclear models; the quark model; and nuclear science and technology.

Equivalent to PHYS 440

**Prerequisite(s):** C or higher in PHYS 402 or B- or higher in PHYS 502.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PHYS 575 - Atmospheric Physics I**

Credits: 3  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Introduction to basic physical and chemical processes that operate in the Earth's atmosphere. Emphasis on those concepts that provide a global description of the current atmospheric state and those processes that relate to global change and atmospheric evolution. Topics include equilibrium structure, radiative transfer models, thermodynamics of various atmospheric layers, and the various processes defining these layers.

**Prerequisite(s):** C or higher in PHYS 305, 262, and 260 or equivalent.

**Prerequisite(s) enforced by registration system.**
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHYS 580 - Selected Interdisciplinary Topics  

Credits: 3  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Selected interdisciplinary topics with a strong physics content not covered in fixed-content courses.

Notes: PHYS 580 cannot be used to satisfy degree requirements for PHYS (PhD), PHAE (MA) in the standard, applied physics, and engineering physics emphases.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHYS 581 - Topics in Renewable Energy  

Credits: 3  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
The course covers the physical principles for a range of renewable energies, including solar, wind, hydropower and geothermal using mathematical and other types of analysis. The course demonstrates how the application of methods and principles of physics allow us to understand the basic operation, advantages, limitations and relative merits of various renewable energy sources.

Prerequisite(s): C or higher in PHYS 262, PHYS 266, or permission of the instructor.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

PHYS 590 - Selected Topics in Physics  

Credits: 1-6  
Repeatable within Term for Credit  
Offered by Physics and Astronomy  
Selected topics from recent theoretical or experimental developments and applications. Satisfies needs of professional community to keep abreast of current developments.

Prerequisite(s): Graduate standing, or permission of instructor.  
Schedule Type: LEC
PHYS 600 - Special Topics in Physics

Credits: 1-6
Repeatable within Term for Credit
Offered by Physics and Astronomy
In-service course to strengthen and update teachers' knowledge of physics and astronomy.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

PHYS 611 - Electro-optics

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Optical modulators, display devices, types and operation of lasers, mode locking, Q-switching, photodetectors, optical fibers.

Prerequisite(s): B- or higher in PHYS 502 or 684, and 513 or 685.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 612 - Physics of Modern Imaging

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Study of imaging methods using acoustic and electromagnetic waves to probe extended objects, and mathematical transformations to produce images from scattered waves. Topics include classical imaging, physical optics, Fourier transform, holography, tomography, seismic mapping, underwater acoustic imaging and mapping, side-looking radar, antenna arrays, applicable computer methods.

Prerequisite(s): B- or higher in PHYS 513 or 685.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PHYS 613 - Computational Physics II

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Study of diverse physical systems with emphasis on modeling and simulation. Study and development of numerical algorithms and techniques to obtain both numerical results and visualization of these results. Projects undertaken will draw from such areas as many-body orbital dynamics, molecular interactions, quantum systems, radiative transfer in high-temperature plasmas, stellar interiors, hydrodynamics, and cosmology.

Equivalent to CSI 780

Prerequisite(s): C or higher PHYS 303, 305, and B- or higher in PHYS 510; PHYS 502 or equivalent recommended. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 614 - Thermodynamics and Kinetics of Materials

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Advanced thermodynamics and physical kinetics with applications to materials science. The course covers an axiomatic formulation of thermodynamics, theory of phase transformations, kinetic theory of reactions and diffusion processes in solids, and interface phenomena. Possible applications considered in the course include processing and fabrication of semiconductor materials, metal oxidation and corrosion, diffusion-controlled phase growth in solid solutions, shape memory alloys, and small-size effects in physical properties of materials.

Prerequisite(s): C or higher in MATH 113, 114, 213, 307; PHYS 262 or 266, or permission of instructor. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 615 - Fundamentals of Materials Science

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Covers fundamentals of materials science with emphasis on physical topics including crystal structure and symmetry, dislocation theory, theory of interfaces, multicomponent phase diagrams, theory of phase transformations, nano-materials, metallic glasses. Includes a term project, assignments from current literature and application of computation in materials science.

Equivalent to CSI 685

Prerequisite(s): CDS 385/PHYS 385 or undergraduate degree in physics, chemistry, materials, electrical or mechanical
PHYS 620 - Continuum Mechanics

Credits: 3  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Study of continuum mechanics; topics include physical concepts, mathematical formulation and solution, elastic materials, ideal fluids, viscous fluids, waves in continuous media, turbulence, thermal convection, stability considerations, high-temperature gas flows, radiative processes for momentum and energy transport, shocks, and computational fluid dynamics.

Prerequisite(s): B- or higher in PHYS 510 and 303 or permission of instructor.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PHYS 628 - Relativity

Credits: 3  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Special relativity; four-dimensional space-time; general relativity; non-Euclidean geometries, geodesics, and field equations; tests of general theory of relativity; black holes; cosmology; models of the universe; remnant blackbody radiation; big bang cosmology; thermodynamics; and the universe.

Prerequisite(s): PHYS 303, 305, or equivalent.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

PHYS 630 - Introduction to Biophysics

Credits: 3  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Introduces biophysics, focusing on physical and chemical concepts and their relation to rapidly expanding interdisciplinary interfaces among biology, chemistry, and physics. Reveals multiscale nature of biophysics, and includes exploration of macroscopic and microscopic applications.

Equivalent to BINF 740
**Prerequisite(s):** Undergraduate degree in physics or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**PHYS 660 - Space Weather**

Credits: 3

Not Repeatable for Credit

Offered by Physics and Astronomy

Overview of space weather including sun, heliosphere, magnetosphere, and ionosphere.

Equivalent to ASTR 660

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**PHYS 665 - Planetary Atmospheres and Ionospheres**

Credits: 3

Not Repeatable for Credit

Offered by Physics and Astronomy

An interdisciplinary introduction to the fundamental physics and chemistry of the atmosphere-ionosphere system. The focus is on the governing equations of atmospheric and ionospheric dynamics with a systems (science) approach to the atmosphere-ionosphere coupling processes. Topics include observational and modeling techniques in the Earth's upper atmosphere as well as recent progress in planetary atmosphere-ionospheres and planetary missions.

**Prerequisite(s):** PHYS 262, MATH 214.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring

---

**PHYS 684 - Quantum Mechanics I**

Credits: 3

Not Repeatable for Credit

Offered by Physics and Astronomy

Fundamental concepts of quantum mechanics, including Dirac notation, quantum dynamics, theory of angular momentum, and symmetries.

**Prerequisite(s):** C or higher in PHYS 402 or 502, and C or higher in MATH 313 or 314, or equivalent.

Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC
PHYS 685 - Classical Electrodynamics I

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Deals with static and dynamic properties of electromagnetic fields as described by Maxwell's equations. Covers electrostatics, magnetostatics, boundary value problems, multipoles, time dependent fields, propagating wave solutions, and resonant structures.

Prerequisite(s): C or higher in PHYS 305, 308; MATH 313 and 314, or equivalent.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 701 - Theoretical Physics

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Study of the physical basis for selection of particular mathematical tools in physics; topics include curvilinear coordinates, tensors, matrices, differential equations, special functions, complex variables, and group theory.

Prerequisite(s): Undergraduate degree in physics or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 703 - Seminar in Physics

Credits: 1
Repeatable within Degree for Credit
Offered by Physics and Astronomy
A general seminar course that combines invited seminars from faculty (both internal and external) with graduate student seminars.

Prerequisite(s): Permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only.
When Offered: Fall, Spring
PHYS 705 - Classical Mechanics

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Study of classical mechanics; topics include variational principles, constrained motion, Lagrangian and Hamiltonian mechanics, canonical transformations, and applications (central forces, rigid-body motion, oscillations).

Prerequisite(s): Undergraduate degree in physics or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 711 - Statistical Mechanics

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Topics include thermodynamics, kinetic theory, ensemble theory, quantum statistics, and applications.

Prerequisite(s): Undergraduate degree in physics or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 736 - Computational Quantum Mechanics

Credits: 3
Not Repeatable for Credit
Offered by Physics and Astronomy
Study of the fundamental concepts of quantum mechanics from a computational point of view, review of systems with spherically symmetric potentials, many-electron-atom solutions to Schrodinger's equation, electron spin in many-electron systems, atomic structure calculations, algebra of many-electron calculations, Hartree-Fock self-consistent field method, molecular structure calculations, scattering theory computations, and solid-state computations.

Prerequisite(s): B- or higher in PHYS 502, 510, or permission of instructor.
Prerequisite(s) enforced by registration system.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 760 - Space Plasma Physics
Covers plasma processes involved in today's space physics research, including different regimes of plasma; basic concepts in kinetic, fluid, and MHD plasmas; and existent waves in these media. Also covers basics of shocks, discontinuities, transport and acceleration of particles such as cosmic rays, reconnection, and MHD instabilities.

Equivalent to ASTR 760

**Prerequisite(s):** B- or higher in PHYS 513 or 685, or permission of instructor. Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHYS 780 - Advanced Selected Topics in Physics**

Credits: 3  
Repeatable within Term for Credit  
Offered by Physics and Astronomy  
Selected topics in physics not covered in fixed-content physics courses.

**Prerequisite(s):** Permission of instructor.  
**Notes:** May be repeated for credit as needed.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PHYS 784 - Quantum Mechanics II**

Credits: 3  
Not Repeatable for Credit  
Offered by Physics and Astronomy  
Advanced topics in quantum mechanics. Covers density and tensor operators, approximation methods, scattering theory, and identical particles.

**Prerequisite(s):** B- or higher in PHYS 684, or permission of instructor. Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**PHYS 785 - Classical Electrodynamics II**
Advanced topics in electrodynamics. Covers radiation, scattering and diffraction, special relativity, relativistic particle dynamics, Lorentz transformation, 4-vectors, transformation of fields, charges and currents, Thomas precession, retarded potentials, and radiation from moving charges.

Prerequisite(s): B- or higher in PHYS 685, or permission of instructor. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PHYS 796 - Directed Reading and Research

Credits: 1-12
Repeatable within Term for Credit
Offered by Physics and Astronomy
Reading and research on a specific topic in physics or related field under the direction of a faculty member.

Prerequisite(s): Admission to master's program, and permission of instructor.
Notes: May be repeated as needed.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-12
Hours of Lab or Studio per week: 0
Grading: Graduate Special

PHYS 798 - Research Project

Credits: 3
Repeatable within Degree for Credit
Offered by Physics and Astronomy
Project chosen and completed under the guidance of a graduate faculty member, which results in an acceptable technical report.

Prerequisite(s): 9 graduate credits, and permission of instructor.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

PHYS 799 - Master's Thesis

Credits: 1-6
Repeatable within Degree for Credit
Offered by Physics and Astronomy
Project chosen and completed under the guidance of a graduate faculty member, which results in an acceptable technical report and oral defense.

Prerequisite(s): 9 graduate credits, and permission of instructor.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

**PHYS 998 - Doctoral Dissertation Proposal**

Credits: 1-12
Repeatable within Degree for Credit
Offered by Physics and Astronomy
Covers development of a research proposal under the guidance of a dissertation director and the doctoral committee. The proposal forms the basis for the doctoral dissertation.

Prerequisite(s): Admission to physics doctoral program and permission of advisor.
Notes: May be repeated as needed; however, no more than 24 credits in ASTR/PHYS 998 and ASTR/PHYS 999 may be applied toward satisfying doctoral degree requirements in the physics PhD program. Out of the 24, no more than 12 credits of ASTR/PHYS 998 may be applied.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

**PHYS 999 - Doctoral Dissertation**

Credits: 1-12
Repeatable within Degree for Credit
Offered by Physics and Astronomy
Doctoral research performed under direction of dissertation director.

Prerequisite(s): Admission to doctoral candidacy in physics doctoral program and permission of advisor.
Notes: May be repeated as needed; however, no more than 24 credits in ASTR/PHYS 998 and ASTR/PHYS 999 may be applied toward satisfying doctoral degree requirements in the physics PhD program.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: S/IP

**Portuguese (PORT)**

Offered by the College of Humanities and Social Sciences
PORT 110 - Elementary Portuguese

Credits: 6
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

PORT 210 - Intermediate Portuguese

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Portuguese-speaking regions.

Prerequisite(s): PORT 110, appropriate placement score, or permission of department.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Professional Development in Education (EDPD)

Offered by the College of Education and Human Development

EDPD 402 - Professional Development in Elementary Literacy, and Secondary Education

Credits: 1-6
Repeatable within Term for Credit
Offered by Graduate School of Education
Provides opportunity for focused study on selected topics or emerging issues in elementary, literacy and secondary education.
Course may not be applied to a degree program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Undergraduate Special
When Offered: Fall, Summer, Spring

EDPD 406 - Professional Development in Special Education and Disability Research
EDPD 501 - Professional Development in Advanced Teacher Research and Practice

Credits: 1-6
Repeatable within Term for Credit
Offered by Graduate School of Education
Provides opportunity for focused study on selected topics or emerging issues in advanced teacher research and practices.

Notes: Course may not be applied to a degree program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Summer, Spring

EDPD 502 - Professional Development in Elementary, Literacy, and Secondary Education

Credits: 1-6
Repeatable within Term for Credit
Offered by Graduate School of Education
Provides opportunity for focused study on selected topics or emerging issues in elementary, literacy and secondary education.

Notes: Course may not be applied to a degree program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Summer, Spring

EDPD 503 - Professional Development in Individual and Organizational Transformation

Credits: 1-6
Repeatable within Term for Credit
Offered by Graduate School of Education
Provides opportunity for focused study on selected topics or emerging issues in individual and organizational transformation.

Notes: Course may not be applied to a degree program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Summer, Spring

EDPD 504 - Professional Development in Learning Technologies

Credits: 1-6
Repeatable within Term for Credit
Offered by Graduate School of Education
Provides opportunity for focused study on selected topics or emerging issues in learning technologies.

Notes: Course may not be applied to a degree program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Summer, Spring

EDPD 505 - Professional Development in Educational Psychology, Research Methods and Education Policy

Credits: 1-6
Repeatable within Term for Credit
Offered by Graduate School of Education
Provides opportunity for focused study on selected topics or emerging issues in educational psychology, research methods and education policy.

Notes: Course may not be applied to a degree program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Summer, Spring

EDPD 506 - Professional Development in Special Education and Disability Research

Credits: 1-6
Repeatable within Term for Credit
Offered by Graduate School of Education
Provides opportunity for focused study on selected topics or emerging issues in special education and disability research.

Notes: Course may not be applied to a degree program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Summer, Spring

EDPD 507 - Professional Development in Health and Human Performance

Credits: 1-6
Repeatable within Term for Credit
Offered by Graduate School of Education
Provides opportunity for focused study on selected topics or emerging issues in health and human performance.

Notes: Course may not be applied to a degree program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Summer, Spring

EDPD 508 - Professional Development in Sport, Recreation and Tourism

Credits: 1-6
Repeatable within Term for Credit
Offered by Graduate School of Education
Provides opportunity for focused study on selected topics or emerging issues in sport, recreation and tourism.

Notes: Course may not be applied to a degree program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Summer, Spring

Provost (PROV)

Offered by the Provost's Office

PROV 044 - Business Math Preparation
PROV 045 - STEM Mathematics Preparation

Credits: 2
Repeatable within Degree for Credit
Offered by the Provost's Office.
Prepares students for MATH 113 Calculus with Analytic Geometry I, which is required by the Science and Engineering and Computing Pathways. The course will provide an early exposure to college level mathematics, will prepare students to engage with the language - vocabulary and written/oral comprehension - of mathematics, and will facilitate the transition to a conventional mathematics classroom environment.

Equivalent to MATH 008.

Prerequisite(s): AE Level 3 Core
AE Level 3 OCS
or admission to an INTO Mason Pathway program.
Notes: The successful completion of this course will either:
- Serve as a prerequisite for Math 105 Pre-Calculus in lieu of the Math Placement Test or
- Prepares the student to achieve the necessary score on the Math Placement Test for entry into MATH 113.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
Grading: Undergraduate Special.
When Offered: Fall, Summer, Spring

PROV 095 - Quantitative Preparation for the Graduate Record Examination
Credits: 0
Repeatable within Degree for Credit
Offered by the Provost's Office.
Prepares students in the International Graduate Pathways requiring the general Graduate Record Examination test (GRE) for progression to take the computer adaptive version of the exam with primary emphasis on the quantitative section. This course emphasizes test language and the quantitative portion of the exam along with testing strategies; identifying common test-taking errors; and managing test anxiety.

Equivalent to PROV 096, PROV 097, EAP 097.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

PROV 096 - Verbal and Quantitative Preparation for the Graduate Record Examination

Credits: 0
Repeatable within Degree for Credit
Offered by the Provost's Office.
Prepares students in International Graduate Pathways requiring the general Graduate Record Examination test for progression to take the exam for students whose pathways require a primary focus on verbal and quantitative sections. This course emphasizes test language and vocabulary, in addition to: testing strategies; practicing logical, rhetorical, and mathematical problem-solving; identifying common test-taking errors; and managing test anxiety.

Equivalent to PROV 095, PROV 097, EAP 097.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

PROV 097 - Verbal, Quantitative, and Academic Writing Preparation for the Graduate Record Examination

Credits: 0
Repeatable within Degree for Credit
Offered by the Provost's Office.
Prepares students in International Graduate Pathways requiring the general Graduate Record Examination test (GRE) for progression to take the exam for students whose pathways equal emphasis on all three areas of the exam. This course emphasizes test language and vocabulary, in addition to: testing strategies; academic writing preparation; practicing mathematical problem-solving; identifying common test-taking errors; and managing test anxiety.

Equivalent to PROV 095, PROV 096, EAP 097.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
**PROV 105 - American Cultures**

Credits: 3  
Not Repeatable for Credit  
Offered by the Provost's Office.  
This course provides an introduction to US cultures with a focus on diversity within American society. The course uses the concept of culture as a basis for discussing differences in Americans' experience of family life, work, education, the arts, national and ethnic identities, gender, religion and more. Through ethnographic readings, literature, film and field projects, students develop a better understanding of similarities and differences across the American experience.  

Fulfills Mason Core requirement in global understanding (INTO Mason Undergraduate Pathway students only).  

**Prerequisite(s):** Admission to the INTO Mason Undergraduate Pathway program.  
**Schedule Type:** LEC, RCT  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Undergraduate Special.  
**When Offered:** Spring

**PROV 106 - Introduction to Research Methods for International Students**

Credits: 3  
Not Repeatable for Credit  
Offered by the Provost's Office.  
Academic research is the fundamental element of university-level education. Despite the variations in research disciplines, they all share basic concepts of academic inquiry. This course is designed to teach the methods, norms and procedures of undergraduate research in the humanities and social sciences. It should equip international students with the essential skills needed to successfully produce a quality academic paper.  

Equivalent to UNIV 106 (2011-2012 Catalog)  

**Prerequisite(s):** Admission to the INTO Mason Undergraduate Pathway program.  
**Schedule Type:** LEC, RCT  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Undergraduate Special.  
**When Offered:** Spring, Summer

**PROV 110 - Special Topics**

Credits: 1-3  
Repeatable within Term for Credit
Offered by the Provost's Office.
Exploration of leadership in a specific career field(s); changing nature of that industry; understanding of organizational structures in the field(s); and introduction to career and internship opportunities for students who aspire to a career in that field.

Schedule Type: LEC, SEM
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Special Undergraduate.
When Offered: Summer

PROV 206 - International Peer Learning Partnership

Credits: 0-1
Repeatable within Degree for Credit
Offered by the Provost's Office.
This course is an experiential credit course for undergrad students partnering with Undergraduate International Pathway Program students to develop academic skills.

Prerequisite(s): Completion of at least 15 credits at Mason with a GPA of 3.0 or higher and a program participation offer from INTO Mason.
Corequisite(s): Enrollment as an Honor student in good standing.

Schedule Type: IND
Hours of Lecture or Seminar per week: 2-5
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Spring, Summer

PROV 207 - International Peer Educational Leadership

Credits: 0-3
Repeatable within Degree for Credit
Offered by the Provost's Office.
This course is an experiential leadership course for students partnering with Undergraduate International Pathway Program students as peer educational mentors.

Prerequisite(s): Sophomore status or higher.
Corequisite(s): Student in good standing.

Schedule Type: IND, INT
Hours of Lecture or Seminar per week: 3-5
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Spring, Summer

PROV 210 - Comprehensive Topics in Leadership
Credits: 1-3
Repeatable within Degree for Credit
Offered by the Provost's Office.
Comprehensive exploration of leadership in a specific career field(s); changing nature of that industry; understanding of organizational structures in the field(s); and introduction to career and internship opportunities for students who aspire to a career in that field.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Summer, Spring

PROV 301 - Great Ideas in Science

Credits: 3
Not Repeatable for Credit
Offered by the Provost's Office.
Nontechnical introduction to ideas that have shaped the growth of science, from the building of Stonehenge to modern theories of the Big Bang. The idea behind each major advance is treated in its historical context, with special attention to its importance in mankind's understanding of the nature of the universe. Intended for nonscience majors; uses little mathematics.

Fulfills Mason Core requirement in natural science (nonlab).

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PROV 342 - The George Mason Debates in Current Affairs

Credits: 3
Repeatable within Degree for Credit
Offered by the Provost's Office.
In-depth investigation of one or more contemporary public policy issues. Examines the selected topics as discussed by scholars, public interest groups and think tanks, government officials, and the news media. Texts and guest lecturers presenting a wide range of perspectives are an important feature.

Fulfills Mason Core requirement in synthesis.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PROV 501 - Introduction to Graduate Study for International Students I
Credits: 2 or 3
Not Repeatable for Credit
Offered by the Provost's Office.
Designed particularly for the Graduate International Pathways program, this course is the first of a two-part transitional course series designed for international students who are studying abroad, emphasizing development, readiness, and success for Graduate/Professional school enrollment. This first course covers western educational systems, university policies and procedures, writing skills and research resources, and graduate school study skills and methods.

Notes: This course is for graduate degree seeking students whose highest degree is from a non-US institution. This course may not count towards academic degree requirements at the graduate level. Enrolled students are required to take PROV 502 the following consecutive semester.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2 or 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall, Spring, Summer

PROV 502 - Introduction to Graduate Study for International Students II

Credits: 2 or 3
Not Repeatable for Credit
Offered by the Provost's Office.
Designed particularly for the Graduate International Pathways program, this second of a two-part transitional course series is designed for international students who are studying abroad, emphasizing development, readiness, and success for Graduate school enrollment. This course covers cultural adjustment to life and education in the U.S., program development, university resources, career planning as well as professional and personal presentation.

Prerequisite(s): Completion of PROV 501 with a grade of B or better, in the immediate past semester.
Notes: This course is for graduate degree seeking students whose highest degree is from a non-US institution. This course may not count towards academic degree requirements at the graduate level, depending on the pathway program.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall, Spring, Summer

PROV 504 - Accelerated Introduction to Graduate Study for International Students

Credits: 3
Not Repeatable for Credit
Offered by the Provost's Office.
This class is specifically designed for students in the Graduate International Pathways program at INTO Mason. It emphasizes enculturation to Western academic norms, preparation for graduate study in the United States and – especially – George Mason University, along with skills necessary to complete graduate study successfully. Many of these expectations are not made explicit in academic culture, and the course focuses on making the policies, procedures, research skills, and systems clearer.

Schedule Type: SEM
PROV 601 - Thriving in Your Graduate Program

Credits: 1
Not Repeatable for Credit
Offered by the Provost's Office.
Gaining greater insight into student learning theories, the nature of research and scholarship, higher education trends, and the various career paths available to individuals with graduate degrees is important for students in the early stages of their academic programs. This seminar is designed for early career MFA and doctoral students to facilitate their success as graduate students at Mason.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3 hours biweekly
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Spring

PROV 701 - Preparing for Academic Careers

Credits: 1
Not Repeatable for Credit
Offered by the Provost's Office.
This seminar will be devoted to helping doctoral students explore and prepare for future academic careers and to strengthening their instructional effectiveness. The seminar will provide a clearer understanding of the roles and responsibilities of being a faculty member. Participants will learn how to construct a meaningful statement of teaching philosophy and plan for a course through syllabus design.

Equivalent to UNIV 701 (2011-2012 Catalog)

Notes: This course does not apply to required credits for doctoral degrees.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall

Psychology (PSYC)

Offered by the College of Humanities and Social Sciences

PSYC 100 - Basic Concepts in Psychology
Introduces psychology as a scientific discipline. Examines concepts and methods in learning, motivation, development, personality, and measurement.

Fulfills Mason Core requirement in social and behavioral science.

**PSYC 211 - Developmental Psychology**

- Credits: 3
- Not Repeatable for Credit
- Offered by Psychology
- Review of major developmental theories including perspectives of childhood, adolescence, adulthood, and old age.

Fulfills Mason Core requirement in social and behavioral science.

**Prerequisite(s):** PSYC 100 or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**PSYC 231 - Social Psychology**

- Credits: 3
- Not Repeatable for Credit
- Offered by Psychology
- Study of human behavior development in a social matrix, including such topics as socialization, cultural behavior, group norms, and attitude formation.

Fulfills Mason Core requirement in social and behavioral science.

**Prerequisite(s):** PSYC 100 or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**PSYC 260 - Basic Research Methods in Psychology**

- Credits: 1-3
- Repeatable within Term for Credit
- Offered by Psychology
Introduction to research methods in psychology in the context of assisting faculty with research; individualized sections by arrangement with faculty. Methods taught vary but generally include basic data collection and recordkeeping methods in research.

**Prerequisite(s):** 6 credits of psychology or permission of instructor and department.
**Notes:** Course culminates in a paper describing techniques learned. No more than 6 credits in PSYC 260, 350, and 460 can be used toward a psychology major.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 1-3
**Hours of Lab or Studio per week:** 0

### PSYC 300 - Statistics in Psychology

**Credits:** 4  
**Not Repeatable for Credit**  
**Offered by Psychology**  
Descriptive and inferential statistics in design, analysis, and interpretation of psychological research with practical application using computers in laboratory.

Fulfills Mason Core requirement in information technology (all except ethics). PSYC 300, 301 and 372 must be taken in sequence.

**Prerequisite(s):** 6 credits of psychology and 3 credits of mathematics course work; or permission of instructor.
**Notes:** Students are strongly encouraged to take PSYC 301 concurrently.

**Schedule Type:** LAB, LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 2

### PSYC 301 - Research Methods in Psychology

**Credits:** 3
**Not Repeatable for Credit**
**Offered by Psychology**
General research design in psychology, with an emphasis on experimental design and control. Topics include use of human participants in research, reliability and validity, observational methods, and survey and longitudinal designs.

Fulfills Mason Core requirement in information technology (all except ethics). PSYC 300, 301 and 372 must be taken in sequence.

Fulfills writing intensive requirement in the major.

**Prerequisite(s):** PSYC 100 and either PSYC 300, STAT 250, or STAT 350 or equivalent.
**Notes:** Students are strongly encouraged to take PSYC 300 concurrently. Laboratory work will include designing and running research studies and writing manuscripts using appropriate style and format. PSYC 301 is a writing-intensive course.

**Schedule Type:** LAB,
PSYC 304 - Principles of Learning

Credits: 4
Not Repeatable for Credit
Offered by Psychology
Principles of animal learning, including such topics as classical and operant conditioning, discrimination learning, and animal cognition.

Fulfills writing intensive requirement in the major.

Prerequisite(s): PSYC 300, or permission of instructor.
Notes: Laboratory projects require working with computer simulations. PSYC 304 is a writing-intensive course.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 309 - Sensation, Perception, and Information Processing

Credits: 4
Not Repeatable for Credit
Offered by Psychology
Principles of perception, including topics such as psychophysics, perceptual organization, perceptual learning, and perceptual constancies.

Fulfills writing intensive requirement in the major.

Prerequisite(s): PSYC 300 and PSYC 301.
Notes: Laboratory projects demonstrate and investigate perceptual phenomena. PSYC 309 is a writing-intensive course.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 312 - Educational Psychology

Credits: 3
Not Repeatable for Credit
Offered by Psychology.
Enables students to apply psychological principles to the learning process in the classroom context. Examines the theoretical and applied aspects of learning, motivation, human development, personality, assessment, and evaluation in educational settings.
Corresponding implications for effective teaching will be discussed.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Grading:** Regular

---

**PSYC 313 - Child Development**

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
Study of human psychological development from conception to adolescence including such topics as genetic factors, emotional and intellectual growth, and environmental influences.

**Prerequisite(s):** PSYC 100 or equivalent.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 314 - Adolescent Development**

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
Study of the biological and cultural changes accompanying adolescence, including the effect of these changes on emotional, intellectual, and social development.

**Prerequisite(s):** PSYC 100 or equivalent

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PSYC 317 - Cognitive Psychology**

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
An in-depth overview of important topics in cognitive psychology, including memory, attention, pattern recognition, problem solving, reasoning, and psycholinguistics.

**Prerequisite(s):** 6 credits of psychology or permission of instructor.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
PSYC 320 - Psychological Tests and Measurements

Credits: 4
Not Repeatable for Credit
Offered by Psychology
Examination and application of principles underlying the theory, interpretation, and administration of psychological tests, including a study of tests of intelligence, achievement, and ability.

Prerequisite(s): PSYC 300, or permission of instructor.
Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 321 - Counseling Psychology

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Review of the theories and methods in psychological counseling.

Prerequisite(s): PSYC 325 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 322 - Behavior Modification

Credits: 3-5
Not Repeatable for Credit
Offered by Psychology
Examination of experimental principles of human and animal learning within theoretical framework of applied behavior analysis, including design, implementation, and evaluation of operant intervention programs across a wide variety of human situations.

Prerequisite(s): PSYC 324 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 324 - Personality Theory

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Introduction to classical and contemporary theories of personality, and comparative evaluation of major theories in terms of relevant studies.
**Prerequisite(s):** PSYC 100 or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**PSYC 325 - Abnormal Psychology**

Credits: 3

Not Repeatable for Credit

Offered by Psychology

Study of development of abnormal behavior patterns, including such topics as methods of diagnosis and prevention of serious mental disorders such as psychosomatic disorders, psychoses, character disorders, and mental retardation.

**Prerequisite(s):** PSYC 100, and one of PSYC 211, 231, or 324; or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**PSYC 326 - Therapeutic Communication Skills**

Credits: 3

Not Repeatable for Credit

Offered by Psychology

Introduction to understanding and use of basic therapeutic communication skills used in clinical and counseling psychology.

**Prerequisite(s):** C- or higher in PSYC 325 or permission of instructor.

Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**PSYC 327 - Psychology in the Community**

Credits: 3

Repeatable within Degree for Credit

Offered by Psychology

Individual placements in applied psychology settings.

**Prerequisite(s):** Psychology major with minimum 6 psychology credits, and permission of associate chair for undergraduate studies.

**Notes:** May be repeated for a maximum of 6 credits. A maximum of 6 credits of PSYC 327, 328, 421, and 422 can be applied to the psychology major.

**Schedule Type:** INT
**PSYC 328 - Psychology in the Community Laboratory**

Credits: 1  
Repeatable within Degree for Credit  
Offered by Psychology  
Consists of a one-hour service learning component linked to selected psychology courses.

**Prerequisite(s):** Psychology major with minimum 6 psychology credits and permission of course instructor and associate chair for undergraduate studies.  
**Corequisite(s):** Enrollment in psychology course for which this is service learning component.

**Notes:** May be repeated for a maximum of 6 credits. A maximum of 6 credits of PSYC 327, 328, 421, and 422 can be applied to the psychology major.

**Schedule Type:** INT  
**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0

**PSYC 333 - Industrial and Organizational Psychology**

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
Examination of application of psychological principles and methods to problems commonly encountered in business and industry.

**Prerequisite(s):** PSYC 100 and 300; or permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PSYC 335 - Psychology of Creativity and Innovation**

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
Creativity and innovation take place in many domains such as business, science, and the arts. Learn the distinction between creativity and innovation. Apply findings from the scientific literature about the antecedents of creativity and innovation including emotions, cognition, individual differences, and social contexts. Experiment with ways to enhance your creativity and skills for innovation.

**Prerequisite(s):** PSYC 100 or permission of instructor.  
**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3
**PSYC 340 - Human Factors Psychology**

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
Reviews history and current practice of optimal product and system design as a function of psychology. Includes a brief history of human factors psychology, a review of human memory and attentional systems as they relate to product and system design, and an introduction to current methods used to analyze and redesign products and systems for optimal human interaction.

**Prerequisite(s):** PSYC 100 or permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PSYC 350 - Directed Reading and Research in Psychology**

Credits: 1-3  
Repeatable within Term for Credit  
Offered by Psychology  
Library research in psychology, culminating in a substantial formal paper; individualized sections by arrangement with faculty.

**Prerequisite(s):** PSYC 100 and 300, and permission of instructor and department.  
**Notes:** No more than 6 credits in PSYC 260, 350, and 460 can be used toward psychology major.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0

**PSYC 362 - Psychology of Gender**

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
Behavior and attitudes of women; influence of chromosomes and hormones on behavior, influence of culture on sex role differentiation, and theories of sex role development.

**Prerequisite(s):** PSYC 100 and BIOL 103, 104; or permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PSYC 372 - Physiological Psychology**
Survey of neuroscience, including basic neuroanatomy, neural and synaptic transmission, neural mechanisms underlying normal and abnormal behavior, and biological mechanisms of drug action.

Fulfills Mason Core requirement in information technology (all except ethics). PSYC 300, 301 and 372 must be taken in sequence.

Prerequisite(s): PSYC 100, and BIOL 103 and 104; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 373 - Physiological Psychology Laboratory

Credits: 1
Not Repeatable for Credit
Offered by Psychology
Functional anatomy and physiology of the brain, including dissection of brain and eye, and a demonstration and practice in research methods for studying physiological mechanisms underlying behavior.

Prerequisite(s): PSYC 372 or 375 or permission of instructor
Corequisite(s): PSYC 372 or 375 or permission of instructor
Schedule Type: LAB
Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 2

PSYC 375 - Brain and Sensory Processes

Credits: 3
Not Repeatable for Credit
Offered by Psychology
First half of comprehensive survey of neuroscience, including basic neuroanatomy, neural and synaptic transmission, neural mechanisms underlying normal and abnormal behavior, and biological mechanisms of drug action.

Prerequisite(s): PSYC 100 with a grade of C- or better, and BIOL 103, 104 or BIOL 213; or permission of instructor.
Notes: Students may earn credit for 372 and either 375 or 376, but they may not earn credit for all three.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 376 - Brain and Behavior
Second half of a comprehensive survey of neuroscience, including neural mechanisms underlying normal and abnormal behavior.

**Prerequisite(s):** C or higher in PSYC 375 or permission of instructor.

**Notes:** Students may earn credit for 372 and either 375 or 376, but they may not earn credit for all three.

---

**PSYC 379 - Applied Cross-Cultural Psychology**

Credits: 3
Not Repeatable for Credit
Offered by Psychology
A review of important landmarks in cross-cultural research, showing how this research impacts psychology as a discipline. Emphasizes an empirical approach to cross-cultural study and includes topics such as theoretical and empirical developments in cross-cultural psychology, development of coherent schemas to guide cross-cultural research and interventions, comparison of psychology's goals and assumptions in Western and other cultures, and integration of course materials into educational and career goals of students.

Fulfills Mason Core requirement in global understanding.

**Prerequisite(s):** PSYC 100, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**PSYC 380 - Introduction to Forensic Psychology**

Credits: 3
Not Repeatable for Credit
Offered by Psychology.
Explores the differing, yet varied facets of the field of forensic psychology including landmark legal cases relevant to psychology, potential careers in forensic psychology, police psychology, expert testimony, forensic psychological assessment, psychopathy, homeland security, ethics, correctional psychology, and issues in working in the juvenile justice system.

**Schedule Type:** LEC

**Grading:** Regular

---

**PSYC 381 - Mental Illness and Criminal Justice**

Credits: 3
Not Repeatable for Credit
Offered by Psychology.
Examines the frequent intersection of individuals diagnosed with severe mental illness and the criminal justice system. Includes case studies that demonstrate possible judicial, therapeutic, correctional, and post-adjudication outcomes.

Prerequisite(s): PSYC 325
Schedule Type: LEC
Grading: Regular

PSYC 382 - Psychology of Crime Victims

Credits: 3
Not Repeatable for Credit
Offered by Psychology.
Explores short-term and long-term psychological effects of crime on victims through interviews with survivors of childhood abduction, elder abuse, intimate partner violence, and child abuse, among others. Evaluates roles and responsibilities of mental professionals and law enforcement when interacting with crime victims.

Schedule Type: LEC
Grading: Regular

PSYC 399 - Psychology: College to Career

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Emphasizes development and readiness for a profession in the social sciences through self-assessment and professional skill acquisition.

Prerequisite(s): At least 30 hours of completed college coursework and a declared major in the social sciences or permission of the instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PSYC 405 - Mystery, Madness, and Murder

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Multidisciplinary approach to taboo topics that fascinate and frighten us. Instructors from disciplines across the arts and sciences bring expertise and diverse perspectives to provocative issues such as cannibalism and serial murder. Students learn to think critically and objectively while examining use in myth, literature, and popular culture.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): PSYC 100 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
PSYC 406 - Psychology of Communication

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
An examination of the behavior of communicating across species and sensory modalities, with an emphasis on the evolutionary basis for the various communication strategies used by animals and humans.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): PSYC 100 or permission of instructor.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PSYC 408 - Psychological Fitness

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology.  
Evaluates and applies scientific research on psychological exercises to increase one's cognitive, behavioral, emotional, and physical health.

Prerequisite(s): PSYC 100.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Regular

PSYC 414 - Behavior Disorders of Childhood

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
Review of the theories, methods, and research dealing with emotional and behavioral disorders of children.

Prerequisite(s): PSYC 313 and 325, or permission of instructor.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PSYC 415 - Psychological Factors in Aging
PSYC 417 - Science of Well Being

Credits: 3
Not Repeatable for Credit
Offered by Psychology
This course will examine and interpret the latest research in social, personality, and clinical psychology on well-being, character strengths, and personal growth. Emphasis will be placed on the ways in which scientists generate hypotheses regarding the nature of positive psychological traits and processes and the methods by which these ideas are tested.

Prerequisite(s): PSYC 100 or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PSYC 418 - Death, Dying, and Grieving

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Advanced survey of processes of grieving and their relationship to death and dying. Topics include ways of dying, effects of death on loved ones, and care for the terminally ill.

Prerequisite(s): PSYC 100 or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 419 - Synthesis in Psychology

Credits: 3
Repeatable within Degree for Credit
Offered by Psychology
Understand and relate broad psychological issues to society as a whole. Possible topics include mental health in society, the psychology of food and eating behavior, and animals and society. See schedule of classes for current topic(s).
Prerequisite(s): PSYC 100 or permission of instructor.
Notes: May be repeated for a maximum of 15 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 423 - Group Psychotherapy Techniques

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Review of theory and methods of group therapy with emphasis on humanistic and interpersonal approaches, including applications to family therapy, alcoholism, and drug abuse.

Prerequisite(s): PSYC 324 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 427 - Community Engagement for Social Change

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Explores social problems and interpersonal, intrapersonal, and social aspects of addressing them. Addresses both theoretical aspects of social problems through readings and class discussion and application through community service.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): PSYC 100 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 435 - Personnel Training and Development: A Psychological Perspective

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Overview and critique of training methods used in industry from viewpoint of psychological theory, including simulations, on-the-job training, supervisory/leadership skills training, computer-assisted instruction, and programmed texts. Principles of needs analysis, program development, and program evaluation are discussed within framework of industrial psychology.

Prerequisite(s): PSYC 333, PSYC 320, or permission of instructor.
Corequisite(s): PSYC 320 or permission of instructor.
PSYC 440 - Forensic Psychology: Science and Pseudoscience

Credits: 3
Not Repeatable for Credit
Offered by Psychology.
Provides a critical, evidenced-based, examination of common psychological practices and constructs in the field of forensic psychology including psychological assessments, expert testimony, risk assessment, hypnosis, criminal profiling, polygraph examination, and methods of interrogation.

PSYC 441 - Criminal Behavior: Psychological and Neurological Aspects

Credits: 3
Not Repeatable for Credit
Offered by Psychology.
Considers the psychological factors and structural and functional neurological differences that influence criminal behaviors including murder, sexual assault, fraud, intimate partner violence, and arson. The predictive and explanatory abilities of neuroimaging with respect to the criminal acts in question, as well as the role of neuroimaging in the judicial system, will also be explored.

PSYC 460 - Independent Study in Psychology

Credits: 1-4
Repeatable within Term for Credit
Offered by Psychology
Advanced research methods in psychology in context of individual student projects or assisting with research on faculty projects; individual sections by arrangement with faculty.

Prerequisite(s): 18 credits of psychology including PSYC 301, with grade of C or better; 2.50 GPA in psychology; and written proposal approved before registration by instructor and department.
Notes: No more than 6 credits in PSYC 260, 350, and 460 can be used toward psychology major.
PSYC 461 - Special Topics

Credits: 1-3
Repeatable within Term for Credit
Offered by Psychology
Selected topics reflecting interest in specialized areas.

Prerequisite(s): See course description in Schedule of Classes.
Notes: Topic announced in advance. May be repeated for credits when topic is different.

Schedule Type: LAB,
LEC,
SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 462 - Selected Topics in Forensic Psychology

Credits: 3
Repeatable within Term for Credit
Offered by Psychology

Selected topics reflecting interest in forensic psychology.

Notes: May be repeated for credit when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 465 - Pioneering Ideas in Psychology

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Historical background and major theoretical systems in modern psychology. Approaches include behaviorism, cognitive/information processing approaches, and psychodynamic theories.

Prerequisite(s): 18 credits in psychology including PSYC 317, or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PSYC 466 - Psychology of Intimate Relationships

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Advanced survey of theories and research related to intimate relationships, including romantic relations and those among family members and friends in diverse cultural and relationship contexts.

Prerequisite(s): PSYC 100 and 231; PSYC 324 recommended; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 467 - The Psychology of Working in Groups and Teams

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Teaches knowledge and the skills to meet communication, interpersonal, and task-related challenges that arise when functioning in work teams. Through readings, classroom activities, and applied problem-solving exercises, students acquire or refine team-related competencies. Students study theory of group and team processes while gaining insight from feedback on their behavior in exercises to become more effective team members.

Prerequisite(s): 60 credits including PSYC 100, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 472 - Current Topics in Brain and Behavior

Credits: 3
Repeatable within Term for Credit
Offered by Psychology
Rotating topics. Physiological mechanisms underlying behavior. Selected topics include neuronal bases of learning and memory, Alzheimer's disease, and biological bases of addiction.

Prerequisite(s): PSYC 372 or 375 and 376; or permission of instructor.
Notes: May be repeated for a maximum of 6 credits with approval of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 490 - Psychology Honors I
Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
Review of topics and issues in psychology, including historical overview, theory and supporting data, and influences on behavior.

Prerequisite(s): Admission to Psychology Department honors status.  
Notes: Topics vary. May not be repeated.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3-6  
Hours of Lab or Studio per week: 0

**PSYC 491 - Psychology Honors II**

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
Introduces advanced statistics, research methodologies, statistics packages, computing and information technology, and library technology appropriate for psychological research and pedagogy.

Prerequisite(s): PSYC 300, 301, and 490.  
Notes: Students required to complete proposal in preparation for admission to Psychology Honors III. May not be repeated.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PSYC 492 - RS: Psychology Honors III**

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
Completion of final honors project or thesis. Students must complete project or thesis, and present oral defense to committee and poster to class. Students also expected to prepare proposal to present project or thesis at regional or national conference, or prepare manuscript for publication in appropriate journal.

Designated as a research and scholarship intensive course.

Prerequisite(s): PSYC 491, and approval of proposal for final honors project or thesis.  
Notes: May not be repeated.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PSYC 499 - Senior Thesis**
Directed research on topic agreed on by student and advisor.

Prerequisite(s): Psychology major with 90 credits, experimental psychology lab course, 3.00 GPA in psychology, PSYC 460, permission of instructor, and prior approval of thesis proposal.

Notes: Students should take PSYC 460 with same advisor to develop thesis proposal before registering for PSYC 499. Students must complete thesis and defend it orally before advisor and two faculty members. With permission of department, students may take a second semester for maximum 6 credits.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 518 - Death, Dying, and Grieving

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Advanced survey of processes of grieving and their relationship to death and dying. Topics include ways of dying, effects of death on loved ones, and care for the terminally ill.

Prerequisite(s): PSYC 100
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 527 - Introduction to Neurobiology

Credits: 2
Not Repeatable for Credit
Offered by Psychology
Introduction to neurobiology with overview of embryological development of nervous system in evolutionary context. Introduces regional and systems neuroanatomy by studying mammalian visual system with comparative perspective.

Prerequisite(s): PSYC 372 or PSYC 375 and 376, or BIOL 213 and 303.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

PSYC 530 - Cognitive Engineering: Cognitive Science Applied to Human Factors

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Application of cognitive theory to understand and predict interactions among human cognition, artifact, and task. Discusses
recent research and case studies that emphasize empirical research, analytical modeling techniques, systems design, and development of tools and methods.

**Prerequisite(s):** Experimental lab course, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**PSYC 531 - Mammalian Neurobiology**

Credits: 3
Not Repeatable for Credit
Offered by Psychology

Functional anatomy of brains of mammals, with emphasis on regional and systems neuroanatomy of humans. Anatomy correlated with material from clinical neurology where possible. Laboratory component includes brain dissections and clinical correlations.

**Prerequisite(s):** PSYC 527.

**Schedule Type:** LAB, LEC

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 3

**PSYC 552 - Histology/Histochemistry of the Brain**

Credits: 5
Not Repeatable for Credit
Offered by Psychology

Explores conceptual basics and provides hands-on experience in techniques for studying brain tissue, including stereotaxic surgery, perfusion, sectioning, Nissl and myelin stains, enzyme histochemistry, immunohistochemistry, in situ hybridization, and quantitative receptor autoradiography.

**Prerequisite(s):** PSYC 372 or equivalent.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 5

**PSYC 555 - Neuroimaging**

Credits: 3
Not Repeatable for Credit
Offered by Psychology

Covers functional magnetic resonance imaging (fMRI) methods, experimental design and analysis issues in fMRI, structural MRI techniques and how they can contribute to cognitive neuroscience, and event-related potential methods.

**Prerequisite(s):** Graduate enrollment in either Cognitive & Behavioral Neuroscience or Human Factors & Applied Cognition programs, or instructor approval.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3
PSYC 557 - Psychometric Methods

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Examines concepts of psychological measurement with emphasis on predictor test and criterion development. Discusses reliability, validity, and specialized techniques to develop tests of ability, interest, and personality.

Prerequisite(s): PSYC 611 and 612, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 558 - Neuronal Bases of Learning and Memory

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Examines neuronal mechanisms involved in learning and memory, in animals ranging from invertebrates to humans.

Prerequisite(s): PSYC 372 or 375 and 376; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 559 - Behavioral Chemistry

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Neurochemistry and neuroendocrinology, including neurotransmitter synthesis, genetic aspects of neural functioning, mechanisms of action of neurotransmitters and second messenger systems, regulation of neuroendocrine systems, neuroendocrine effects on behavior, and neuroimmunology.

Prerequisite(s): PSYC 372 or 375 and 376; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 561 - Behavioral Biology of Substance Abuse
Overview of biological effects of substance abuse, and biological mechanisms underlying addiction. Topics include alcohol, cocaine, marijuana, and other drugs; genetics of addiction; and neural systems underlying addiction and withdrawal.

**Prerequisite(s):** PSYC 372 or equivalent.

**Schedule Type:** LEC

**PSYC 562 - Research Methods in Human Experimental Psychology**

Hands-on approach to selected current and/or classical human experimental psychology research methods. Course topics include experimental design, including psychophysical and physiological experimentation. In addition, mathematical, cognitive modeling and simulation, as well as advanced statistical techniques will be covered.

**Prerequisite(s):** Graduate enrollment in either Cognitive and Behavioral Neuroscience or Human Factors and Applied Cognition programs.

**Schedule Type:** LEC

**PSYC 563 - Laboratory Methods in Behavioral Neuroscience**

Laboratory work, to be completed in groups, will include surgical, histological and behavioral techniques. Proper use and handling of animals, ethical issues, evaluation of neuroscience literature, experimental design and data analysis are addressed in lecture. This course requires working with laboratory rodents.

**Schedule Type:** LAB, LEC

**PSYC 566 - Cognitive and Perceptual Development**

Survey of theory and the research on development of perception, memory, concepts, problem solving, intelligence, and academic skills in children.

**Prerequisite(s):** 6 credits of child psychology and course in experimental psychology or permission of instructor.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PSYC 592 - Special Topics

Credits: 1-6  
Repeatable within Term for Credit  
Offered by Psychology  
Special topics reflecting interests in specialized areas.

**Notes:** Topic announced in advance. May be repeated for a maximum of 9 credits when topic is different.

**Schedule Type:** LAB,  
LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### PSYC 597 - Directed Reading and Research

Credits: 1-6  
Repeatable within Term for Credit  
Offered by Psychology  
Independent reading or research on topic agreed on by student and faculty member.

**Prerequisite(s):** Permission of instructor.

**Notes:** Directed reading or research for MA students in psychology. May be repeated within the same term or a different term for a maximum of 6 credits.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 1-6  
**Hours of Lab or Studio per week:** 0

### PSYC 611 - Advanced Statistics

Credits: 4  
Not Repeatable for Credit  
Offered by Psychology  
Test must be passed to take course. Open only to degree students. Integrates basic psychological statistics with overview of research methodology including experimental, quasi-experimental, field approaches, and measurement issues from advanced perspective. Lab work includes using computer packages for data handling and analyses.

**Prerequisite(s):** Screening test given on first evening of class
Notes: Students must enroll in 611 and 612 in sequential semesters.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2
Grading: Graduate Special

**PSYC 612 - Advanced Statistics**

Credits: 4
Not Repeatable for Credit
Offered by Psychology
Open only to degree students. Integrates basic psychological statistics with overview of research methodology including experimental, quasi-experimental, field approaches, and measurement issues from advanced perspective. Lab work includes use of computer packages for data handling and analyses.

Prerequisite(s): Grade of B or better in PSYC 611.
Prerequisite enforced by registration system.

Notes: Students must enroll in 611 and 612 in sequential semesters.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

**PSYC 614 - The Psychology of Aging**

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Review of the experimental literature in psychology of aging, including intellectual functioning, personality and adjustment, minor and major adjustment problems, and role changes in later life.

Prerequisite(s): PSYC 100 and undergraduate or graduate course in aging.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PSYC 615 - Language Development**

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Seminar covering theory and research on acquisition of language, including biological and environmental influences and constraints; research methods; role of parents; individual and cultural differences; links between language and other domains of development including cognitive, behavioral, social, and emotional; language and the brain; animal language; bilingualism; and
atypical language development.

Prerequisite(s): 3 credits of graduate development psychology, or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 617 - Child Psychopathology

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Intensive survey of major types of psychopathological disturbances of infancy and childhood.

Prerequisite(s): PSYC 313 or 211, and 325.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Focuses on basic principles and procedures of applied behavior analysis; identification of factors that contribute to behavioral problems and improved performance; and procedures that can be used to minimize behavioral problems, improve performance, teach new behaviors, and increase probability of behaviors occurring under appropriate circumstances.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 630 - Developmental Disabilities

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Lectures, seminars discuss state-of-the-art and evidence-based information about developmental disabilities across life span with emphasis on mental retardation. Includes epidemiology, etiology, diagnoses, risk factors, treatment, supports, and prevention of developmental disabilities. Pertinent philosophical, ethical, and legal issues concerning this special-needs population will be discussed.

Prerequisite(s): 3 credits of graduate developmental psychology courses, or permission of instructor
Notes: In addition to course work and assigned reading, students sign up for a 20-hour per semester practicum.

Schedule Type: LEC
PSYC 631 - Industrial and Personnel Testing and Evaluation

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Study of administration, scoring, and interpretation of standard tests used by industry for selection and assessment of personnel.

Prerequisite(s): PSYC 300 and 320.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 633 - Evaluative Research in Psychology

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Examines research techniques specifically designed to evaluate human effectiveness of organizations and mental health programs.

Prerequisite(s): PSYC 300 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 636 - Survey of Industrial Psychology

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Intensive survey of historical and current issues in major areas of applied (nonclinical) psychology.

Prerequisite(s): PSYC 300 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 638 - Training: Psychological Contributions to Theory, Design, and Evaluation

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Focuses on applying learning principles derived from psychological research in development of training models and techniques of skill acquisition. Discusses research designs and empirical results appropriate to training evaluation.

Prerequisite(s): PSYC 636, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 639 - Survey of Organizational Processes

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Trains at conceptual/theoretical and empirical levels in organizational processes. Includes individual, interpersonal, intra-group, and intergroup phenomena as they exist in context of organizational settings.

Prerequisite(s): PSYC 333 or 632.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 640 - Techniques in Industrial/Organizational Psychology

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Skills-oriented course enabling students to construct instruments and perform functions critical to both researchers and practitioners in industrial/organizational psychology. Focuses on conducting job analysis interviews, developing and scoring task inventories, using critical incident and KSAO methods, and constructing performance appraisal and selection instruments.

Prerequisite(s): PSYC 300, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 644 - Methods for Social Research

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Examines issues in basic and applied social science methodology including internal validity, causal generalization, and construct validity.

Prerequisite(s): Permission of instructor.
Schedule Type: SEM
PSYC 645 - Research Methods in Human Factors and Applied Cognition

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Hands-on approach to selected current or classical human factors/applied cognition research methods; exact methods announced in advance. Potential methods include cognitive task analysis, usability evaluation methods, critical incident analysis, reliability analysis, workload measures, verbal protocol analysis, and engineering models of human performance.

Prerequisite(s): PSYC 530 and 611.
Notes: May be repeated for credit.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 646 - Issues and Methods in Longitudinal Developmental Research

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Examines techniques for measuring developmental change across lifespan.

Prerequisite(s): PSYC 611 and 612, and 6 credits of graduate developmental psychology.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 648 - Developmental Psychopathology

Credits: 3
Not Repeatable for Credit
Offered by Psychology
In-depth look at emerging discipline of developmental psychopathology. Discusses specific disorders and contexts to illustrate how knowledge of normal development, deviant development, and maladaptive behavior illuminates principles underlying adaptive functioning.

Prerequisite(s): 6 credits of graduate developmental psychology.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PSYC 652 - Quantitative Methods II: Analysis of Variance

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Basic concepts in experimental design, fundamental assumptions in analysis of variance, and analysis of variance and covariance designs. Reviews multiple comparison tests.

Prerequisite(s): PSYC 300 and either 304, 305, or 309.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 654 - Naturalistic Methods in Psychology

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Theory and techniques involved in studying people in their natural environment. Primary emphasis on quasiexperimental designs and methods of systematic observation.

Prerequisite(s): PSYC 300 and either 304, 305, or 309.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 667 - Behavior in Small Groups and Teams

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Theories, methods, and topics relevant to individual behavior in small group setting. Includes effects of individual on group, effects of group on individual, and interaction effects among individuals.

Prerequisite(s): PSYC 231.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 668 - Personality: Theoretical and Empirical Approaches

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Presents comprehensive overview of current theoretical and empirical approaches to personality. Emphasizes areas of special relevance to clinical, developmental, and industrial/organizational psychology.
PSYC 669 - Social and Emotional Development

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Surveys theory and research relevant to development of social relationships, emotional expressiveness and regulation, aggressive and altruistic behaviors, sex roles, and morality. Emphasizes influences on such development, including parents, other adults, peers, siblings, and broader culture.

Prerequisite(s): 6 credits of developmental psychology, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 671 - Role and Function of the School Psychologist

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Considers roles, functions of school psychologist in educational environment, including certification and ethical standards, issues, and trends.

Notes: Open only to school psychology MA students, or by permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 673 - Prevention, Intervention, and Consultation in Schools

Credits: 4
Not Repeatable for Credit
Offered by Psychology
Examines theory and practice of behavior modification and consultation in school environment.

Notes: Open to practicing school psychologists and students in school psychology, or by permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0
PSYC 685 - Cognitive Neuroscience

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
Provides an overview of the neural basis of human mental functions. Uses neuroimaging (PET, fMRI, ERPs, TMS, etc.), computational, and information-processing methods to examine functions such as attention, memory, language, emotion, and decision making.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PSYC 701 - Cognitive Bases of Behavior

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
Surveys concepts in learning, cognitive, and affective processes, including theories and supporting data and their influences on behavior.

Prerequisite(s): Admission to graduate program in psychology.  
Notes: Open only to degree students.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PSYC 702 - Biological Bases of Human Behavior

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
Surveys biological bases of behavior, including such topics as neural conduction, role of specific neurotransmitters, cortical functioning, and brain disorders.

Notes: Open only to degree students.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PSYC 703 - Social Bases of Behavior
PSYC 704 - Life-Span Development

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Surveys theories and research regarding lifespan development and personality formation.

Prerequisite(s): Admission to graduate program in psychology.
Notes: Open only to degree students.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 709 - The Measurement of Intelligence

Credits: 4
Not Repeatable for Credit
Offered by Psychology
Administration, scoring, and interpretation of major infant, child, and adult intelligence tests, with emphasis on individual tests. Development of IQ tests, theories of intelligence, and current trends and developments in intellectual assessment.

Prerequisite(s): PSYC 617 or 822 and PSYC 320 or equivalent; permission of department. Coreq: PSYC 611.
Corequisite(s): PSYC 611.

Notes: Open only to school psychology MA student.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 2

PSYC 710 - Psychological Assessment
Study of major instruments used in clinical assessment and nature, problems, and predictive value; administration and scoring of major techniques for evaluation of personality; and principles of interpretation of these procedures.

**Prerequisite(s):** PSYC 617, 709, 822, or 810: and permission of director of School Psychology Program.

**Notes:** Open only to school psychology MA students.

**Schedule Type:** LAB, LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 2

PSYC 722 - Advanced Child Assessment

**Credits:** 4

**Not Repeatable for Credit**

**Offered by Psychology**

Problems involved in diagnostic assessment of children with various handicapping conditions such as learning disabilities, retardation, and emotional disturbances.

**Prerequisite(s):** PSYC 709 and 710 or PSYC 810 and 811, five intellectual assessments at psychological clinic, and permission of department

**Notes:** Open only to school psychology MA or PhD students.

**Schedule Type:** LAB, LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 2

PSYC 730 - Practicum in Applied Psychology

**Credits:** 1-6

**Repeatable within Degree for Credit**

**Offered by Psychology**

Practical experience in organizational setting as assigned.

**Prerequisite(s):** Admission to graduate program in psychology and permission of department.

**Notes:** PhD students may repeat course for a maximum of 15 credits; MA students for a maximum 6 credits.

**Schedule Type:** INT

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**Grading:** Graduate Special

PSYC 733 - Issues in Personnel Psychology
PSYC 734 - Seminar in Human Factors and Applied Cognition

Credits: 3
Repeatable within Term for Credit
Offered by Psychology
Emphasizes current research and application of human factors, ergonomics, applied cognition, and applied perception.

Prerequisite(s): 6 graduate credits in human factors and applied cognition, or permission of instructor.
Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 737 - Psychology of Human-Technology Interaction

Credits: 3
Repeatable within Term for Credit
Offered by Psychology
Emphasizes current research and development in human-computer interaction, cognitive systems engineering, cognitive ergonomics, and cognitive engineering.

Prerequisite(s): 6 graduate credits in human factors and applied cognition or permission of instructor.
Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 739 - Seminar in Industrial/Organizational Psychology

Credits: 3
Repeatable within Degree for Credit
Offered by Psychology
Rotating topics such as leadership theories and management development, and performance appraisal.
Prerequisite(s): PSYC 333 and 636, or permission of instructor.
Notes: Topics announced in advance. May be repeated for a maximum of 12 credits when topic is different.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 741 - Psychology of Work Motivation

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Examines psychological literature of need, cognitive, and reinforcement theories of motivation; organizational attachment (commitment, absenteeism, and turnover); job design and quality of work issues. Emphasizes methodological and psychometric issues in interpreting and evaluating work-motivation research.

Prerequisite(s): PSYC 333 or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 750 - School Psychology Practicum I

Credits: 1
Not Repeatable for Credit
Offered by Psychology
Practical experience in school psychology.

Prerequisite(s): Admission to school psychology concentration and PSYC 709.
Notes: Open only to school psychology MA students.

Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

PSYC 751 - School Psychology Assessment Practicum II

Credits: 2
Repeatable within Degree for Credit
Offered by Psychology
Practical experience in school psychology.

Prerequisite(s): PSYC 750.
Notes: Open only to School Psychology MA students. Apply in writing for permission of department 60 days prior to beginning of semester. May be repeated for a maximum of 4 credits.
PSYC 754 - Quantitative Methods III: Psychological Applications of Regression Techniques

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Reviews psychological applications of regression techniques in variety of contexts including experimental, field, and survey settings.

Prerequisite(s): PSYC 611 and 612.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 756 - Quantitative Methods IV: Multivariate Techniques in Psychology

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Surveys multivariate statistical techniques as applied to psychological research. Emphasizes analysis of complex designs and interpretation of multivariate data analyses resulting from computer processing.

Prerequisite(s): PSYC 611 and 612, or equivalent; PSYC 755 recommended.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 757 - Advanced Topics in Statistical Analysis

Credits: 3
Repeatable within Degree for Credit
Offered by Psychology
Focuses on noncognitive individual differences that predict performance. Published work discussed in seminar format with emphasis on conceptual development, methodological adequacy, and new directions.

Prerequisite(s): PSYC 754.

Notes: May be repeated for credit when topic is different.
PSYC 768 - Advanced Topics in Cognitive Science

Credits: 3
Repeatable within Term for Credit
Offered by Psychology
Emphasizes current research in cognitive science. Topics may include computational cognitive models, nature of expertise, diagrammatic reasoning, display-based problem solving, visual attention, decision making, goal-based versus event-based cognition, and situated action.

Prerequisite(s): PSYC 530 or 701.
Notes: May be repeated for a maximum of 12 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 780 - Applied Developmental Psychology

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Examines how developmental theory, knowledge base, and methodology can be used to promote health and welfare of individuals across lifespan. Topics include contemporary social issues and child development, research in applied settings, developmental assessment and intervention, and program evaluation.

Prerequisite(s): PSYC 704 or 3 credits of other graduate developmental psychology courses and permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 790 - School Psychology Internship

Credits: 3-6
Repeatable within Degree for Credit
Offered by Psychology
Supervised field experience of one school year. Advanced school psychology student functions as full-time staff member in school system. Student completes paper on practical research project involving alternative school psychology role in school system.

Prerequisite(s): Completion of required courses in school psychology and permission of program coordinator.
Notes: Enrollment is for total 9 credits (thesis option) or 12 credits (nonthesis option) in increments of 3 credits according to placement. Students enrolled in PSYC 799 are not required to complete the practical research project.

Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special
PSYC 792 - Psychology Practicum

Credits: 1-6
Repeatable within Degree for Credit
Offered by Psychology
Supervised experience working in applied, school, or agency settings.

Prerequisite(s): Admission to psychology graduate program.
Notes: For School Psychology, interested students must apply to area coordinator 60 days before registration. May be repeated for a maximum of 6 credits.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: S/NC

PSYC 794 - Developmental Assessment

Credits: 1-6
Repeatable within Term for Credit
Offered by Psychology
Introduces considerations and methods needed for evaluating young children (ages two - six). Focus on the skills necessary for formulating, conducting, and reporting comprehensive developmental evaluations. Emphasizes evaluation of preschool children and includes information relating to infants, as well as older children functioning at lower developmental levels.

Prerequisite(s): Admission to applied developmental psychology program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

PSYC 798 - Thesis Proposal

Credits: 1-6
Repeatable within Degree for Credit
Offered by Psychology
Work on a proposal for master's thesis.

Prerequisite(s): Permission of program coordinator.
Notes: May not be repeated for credit.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: S/NC
**PSYC 799 - Master's Thesis**

Credits: 1-6  
Repeatable within Degree for Credit  
Offered by Psychology  
Research on approved master's thesis topic under direction of thesis committee with approval of chair.

Schedule Type: IND  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: S/NC

**PSYC 810 - Psychological Assessment I**

Credits: 4  
Not Repeatable for Credit  
Offered by Psychology  
First of required two-course sequence that provides comprehensive coverage of principles, strategies, and techniques of psychological assessment. Emphasizes empirically supported methods.

Notes: Open to clinical psychology PhD students, or other students with permission of instructor.

Schedule Type: LAB, LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 2

**PSYC 811 - Psychological Assessment II**

Credits: 4  
Not Repeatable for Credit  
Offered by Psychology  
Second of required two-course sequence that provides comprehensive coverage of principles, strategies, and techniques of psychological assessment. Emphasizes empirically supported methods.

Notes: Open to clinical psychology PhD students, or other students with permission of instructor.

Schedule Type: LAB, LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 2

**PSYC 822 - Scientific Foundations of Clinical Psychology I**

Credits: 3  
Not Repeatable for Credit
Offered by Psychology
First of required two-course sequence that provides comprehensive coverage of major psychological problems, including review of empirically supported interventions.

Notes: Open to clinical psychology PhD students, or other students with permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 823 - Scientific Foundations of Clinical Psychology II

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Second of required two-course sequence that provides comprehensive coverage of major psychological problems, including review of empirically supported interventions.

Notes: Open only to clinical psychology PhD students.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 830 - History, Systems, and Theories of Personality and Psychotherapy

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Review of history, systems, and theories of clinical psychology emphasizing traditional theories of personality and psychotherapy.

Prerequisite(s): Admission to doctoral concentration in clinical psychology.
Notes: Open to clinical psychology PhD students, or other students with permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 833 - Social And Cognitive Foundations Of Clinical Psychology

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Review of theory and research in social psychology (particularly social cognition) relevant to understanding psychological adjustment, adjustment problems, and clinical interventions.
Notes: Open to clinical psychology PhD students, or other students with permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 850 - Teaching Practicum in Psychology

Credits: 1
Not Repeatable for Credit
Offered by Psychology
Workshop in effective teaching of selected undergraduate psychology courses. Required of and designed to guide graduate teaching assistants assigned to teach undergraduate course (not a lab) for first time. Topics include course planning, syllabus development, lecture resources, effective lecturing skills, use of audio visuals, leading of classroom discussion, construction and grading of exams, student writing, instructional technology, and handling of student questions and problems. Individual critiques of teaching.

Corequisite(s): Teaching assignment in an undergraduate psychology course.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Graduate Special

PSYC 860 - Introductory Helping Skills and Motivational Interviewing

Credits: 3
Not Repeatable for Credit
Offered by Psychology
Teaches fundamental interviewing skills and the theory, research, and practice of motivational interviewing.

Prerequisite(s): Permission of instructor.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 861 - Cognitive Behavioral Therapy for Youth

Credits: 3
Repeatable within Degree for Credit
Offered by Psychology
Teaches the selection, evaluation, and application of empirically supported interventions for children and adolescents with a focus on cognitive-behavioral interventions. Instruction in evidence based assessments, cognitive-behavioral case conceptualization, outcome evaluation, and consultation. Supervision of cognitive-behavioral therapy with youth.

Prerequisite(s): Permission of instructor.
Notes: May be repeated for a maximum of 6 credits.
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Satisfactory/No Credit.

**PSYC 862 - Cognitive Behavioral Therapy for Adults**

Credits: 3  
Repeatable within Degree for Credit  
Offered by Psychology  
Teaches the principles of cognitive-behavioral theory, conceptualization and psychotherapy techniques for psychological problems with adults. Supervision of cognitive-behavioral therapy with adults.

Notes: May be repeated for a maximum of 6 credits.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Satisfactory/No credit only

**PSYC 881 - Practicum in Clinical Psychology**

Credits: 1-3  
Repeatable within Term for Credit  
Offered by Psychology  
Supervised clinical work in a professional psychological services setting. Usually includes practice in psychological assessment and clinical interventions, but can also include supervision, consultation, and program evaluation.

Prerequisite(s): Admission to doctoral concentration in clinical psychology and permission of director.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Graduate Special

**PSYC 883 - Ethical and Professional Issues in Clinical Practice**

Credits: 3  
Not Repeatable for Credit  
Offered by Psychology  
Examines ethical principles and professional guidelines to help develop ethical decision-making and behavior to meet the appropriate standards of care in providing clinical services.

Notes: Open to clinical psychology PhD students, or other students with permission of instructor.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3
PSYC 885 - Clinical Externship

Credits: 0
Repeatable within Degree for Credit
Offered by Psychology
Individual placements in psychological assessment or psychotherapy service settings.

Notes: Open only to clinical psychology PhD students in the third year or more of training.

Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

PSYC 890 - Seminar in Professional Psychology

Credits: 1-3
Repeatable within Term for Credit
Offered by Psychology
Each section limited to students in one concentration of MA or PhD program. See area coordinator for requirements for section in each track.

Prerequisite(s): Graduate student in psychology.
Notes: May be repeated for a maximum of 3 credits.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: S/NC

PSYC 892 - Special Topics in Psychology

Credits: 1-6
Repeatable within Term for Credit
Offered by Psychology
Selected topics reflecting specialized areas in psychology.

Notes: Open only to PhD students. Content varies. May be repeated for a maximum of 17 credits when topic is different.

Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PSYC 897 - Directed Reading and Research

Credits: 1-3
Repeatable within Term for Credit
Offered by Psychology
Independent reading on topic agreed on by student and faculty member.

Notes: PhD students in the clinical psychology concentration may not take this course for elective credit. May be repeated for credit. May not be repeated for credit towards a degree by students who also register for PSYC 799.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PSYC 998 - Doctoral Dissertation Proposal

Credits: 1-6
Repeatable within Degree for Credit
Offered by Psychology
Work on research proposal that forms basis for doctoral dissertation.

Notes: May be repeated. No more than 24 credits of PSYC 998 and 999 may be applied to doctoral degree requirements.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: S/NC

PSYC 999 - Doctoral Dissertation

Credits: 1-9
Repeatable within Degree for Credit
Offered by Psychology
Research on approved dissertation topic under direction of dissertation committee.

Prerequisite(s): PSYC 998
Notes: May be repeated. Students must complete a minimum of 3 credits of 999. No more than 12 credits of PSYC 998 and 999 may be applied to doctoral degree requirements.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: S/NC

Public Administration (PUAD)
PUAD 502 - Administration in Public and Nonprofit Organizations

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Graduate introduction to field of public administration. Focuses on structure, functions, and processes of executive branch agencies of national, state, and local governments. Emphasizes nonprofit organizations as co-actors with government in policy-making/policy implementation nexus.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 504 - Managing in the International Arena: Theory and Practice

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Theoretical and empirical examination of international system that both affects and is affected by decisions, behaviors, and subsystems of state and nonstate (organizational) actors.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 505 - Introduction to Management of Nonprofits

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines nonprofit organizations and their role in contemporary society. Explores unique aspects of nonprofits including voluntary governance, tax-exempt status, nonprofit corporation law, accounting practices, fund raising, finance, and management of volunteers. Emphasizes board/executive relationship, and value of establishing and maintaining nonprofit organization's reputation.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 509 - Justice Organizations and Processes
Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines structures, practices, and performance of organizations involved in administration of justice (law enforcement, courts and legal agencies, corrections, regulatory and related agencies, private organizations) Explores applicability of various theoretical perspectives on organizational processes, and considers extent to which processes operate as a system. Focuses on comparing formal goals and system expectations to actual practice.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 511 - Problem Solving and Data Analysis I

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Techniques, skills for public managers to solve policy-related problems or analyze policy-related data. Focuses on problem definition, research design, and problem solving under conditions of uncertainty in public sector.

Equivalent to GOVT 511.

Prerequisite(s): Passing grade on screening exam.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 520 - Organization Theory and Management Behavior

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Considers behavior in context of public organization, and consequent changes required in management. Focuses on such issues as perception, attitude formation, motivation, leadership, systems theory, communication and information flow, conflict theory, and decision theory.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 540 - Public Policy Process

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Processes of making public policy, including detection of public issues, consideration of alternatives, and adoption and implementation of solutions. Highlights major actors in policy process, and environment within which they work.
PUAD 612 - Problem Solving and Data Analysis II

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Techniques and skills for public managers to solve policy-related problems or analyze policy-related data. Focuses on data gathering and analysis, use of computers, systems theory and analysis, and operations research.

Prerequisite(s): PUAD 511.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 613 - Economic Analysis in Public Administration

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Covers major economic issues about role of markets and government in global world. Applies fundamental economic concepts such as cost benefit analysis to public sector.

Prerequisite(s): PUAD 511.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 615 - Administrative Law

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Covers law as guiding and controlling force in public-sector operations. Includes application of legal processes to administrative practices and situations, and administrative determination of private rights and obligations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 621 - Principles and Practices in Government Organization and Management
Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Major management theories applicable to American federal system. Emphasizes organization, structure, and operations. Explores relationship of theories to management practices in contemporary American administration.

Prerequisite(s): PUAD 520.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 622 - Program Planning and Implementation

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Practical exploration of implementing public law in American federal system. Studies construction of organizational apparatus, development of operational plans, and systems of control and evaluation necessary to implement government programs. Emphasizes coordinating tasks and resources required for effective program implementation.

Prerequisite(s): PUAD 520.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 623 - Managing Government Contracting

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores unique management and administrative challenges of providing public goods and services through contracts. Examines debates over privatization, and explores tools managers need to address unique accountability challenges associated with this governance tool.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 624 - Public and Private Partnerships

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Emphasizes entrepreneurial efforts where governments, nonprofit organizations and private companies establish goals and combine resources and talents. Issues of efficiency, accountability, and democratic responsiveness will be examined. Various tools for promoting and implementing such partnerships will be explored.
PUAD 625 - Higher Education Law

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Analyzes legal issues confronting higher education: governance, faculty matters, and student issues. Examples include due process, freedom of speech, and privacy. Reviews key constituents in higher education-students, faculty, administrators, board of trustees, and parents -and how their roles are changing.

PUAD 626 - Consulting Management

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Explores the consulting industry, changes in the industry and future expectations of consulting as a career. Examines different sectors of consulting such as HR, IT, Operations, Marketing, Succession Planning, Organizational Consulting, Knowledge management, Non-profit and health care and government consulting.

PUAD 630 - Emergency Planning and Preparedness

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Provides an understanding of the issues associated in developing plans and policies to prepare for disasters, both natural and man made. Overview of nature of challenges posed by different kinds of disasters; discussion of regulatory requirements, sample plans, equipment requirements, collateral and mutual aid support agreements, and methods for testing and updating plans.

PUAD 631 - Disaster Response Operations and Recovery
PUAD 632 - Terrorism: Theory and Practice

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Introduces students to the subject of terrorism including the history and evolution of terrorism, case studies of key terrorist groups, the current nature of the terrorist threat, and counterterrorism strategies.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 633 - Hazard Mitigation Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines the complex interplay and policy approaches to hazard prevention and protection of known hazards in terms of land use, zoning, infrastructure, and building code management. Focuses on understanding the relative roles of proactive policy design and implementation at the federal, state, and local levels of government.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 634 - Management of International Security

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines theory and practice of managing international security. Emphasizes interplay of organizational structure and bureaucratic dynamics in international context. Presents theory and practice of crisis management, and coordination and comparison of security methods and techniques.

Schedule Type: LEC
PUAD 635 - Emergency Preparedness: Interagency Communication and Coordination

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Considers complex relationships within governments and across sectors and levels of government for effective emergency management in planning, response, recovery, and mitigation phases. Explores intergovernmental management and network management theories and research to understand the nature of interorganizational problems and potential models for collaboration.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 636 - The NGO: Policy and Management

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores unique aspects of nonprofit organizations operating in international environments, particularly in relief and development work. Examines relationship between NGO and U.S. and foreign governments. Covers international philanthropy; cross-cultural understanding; and key managerial concerns such as communications, planning, human resource management, control, group process, and project evaluation.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 637 - Managing Homeland Security

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Focuses on the Department of Homeland Security and will cover the statutory law that provides the foundation for the department, the resources appropriated to the department, the determination of strategy and priorities, the development of operational capacity, and other challenges associated with top-level (secretarial) management of the department and its principal bureaus.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUAD 642 - Environmental Policy

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)

In-depth examination of environmental policy making. Examines U.S. efforts from 1970 to present to mitigate pollution of nation's air, land, and water; and addresses issues of global concern including biodiversity loss, ozone depletion, and climate change.  
Designated a Green Leaf Course.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUAD 644 - Public Policy Models

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)

Approaches to modeling policy problems. Includes analysis and comparison of dominant paradigms in policy sciences. Reviews assumptions and implications of different models and their utility for analysis, implementation, and evaluation.

Prerequisite(s): PUAD 540.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUAD 645 - Policy Analysis

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)

Introduces concepts and techniques for formal policy analysis, development of skills in applying policy analysis techniques through case studies, and exploring legitimacy and utility of policy analysis.

Prerequisite(s): PUAD 502, PUAD 511, PUAD 540.  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUAD 646 - Program Evaluation

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)
Practical exploration of assessment techniques used in studying results of public programs and policies, including evaluation of implementation strategies and impacts.

Prerequisite(s): PUAD 502, PUAD 511.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 649 - Advocacy and Lobbying

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores how nonprofit organizations advocate and lobby for social change. Considers the different steps in the advocacy process and the broad range of strategies used by non profits seeking to influence public policy.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 651 - Virginia Politics, Policy, and Administration

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Cultural, demographic, constitutional, and socioeconomic environment of public administration in Virginia. Covers governmental agencies, legislative functions, executive leadership, staff agencies, state-local relationships, intrastate regionalism, administrative customs peculiar to Virginia.

Prerequisite(s): PUAD 502.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 652 - Nonprofit Leadership and Change

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines the principles of leadership and the process of change within the context of the nonprofit sector and its role in the community. Looks at current changes and challenges within the nonprofit sector and their effect on the sector and society as a whole.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUAD 654 - The Community, Marketing, and Public Relations

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Focuses on marketing concepts and communications issues of nonprofit organization as they apply to identifying market, ability to formulate public image and reputation, and capability to raise money and retain membership or volunteers.

Prerequisite(s): PUAD 502 or 505.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 655 - Philanthropy and Fund Raising

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines history of philanthropy and relationship to nonprofit, government, and commercial sectors in United States. Studies principles of financial development including governance, development of organizational capacity, and identification of funding sources and donor motivations. Provides understanding of fund raising techniques that generate financial support for nonprofits, and context in which these methods may be used.

Prerequisite(s): PUAD 502 or 505
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 657 - Association Management

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Practical application of management theory in context of professional and trade associations. Covers legal structures, tax-exempt status, and general organizational structure. Topics include volunteer management, budgeting and accounting practices in associations, fund raising, media relations, media and event planning, and human resource management.

Prerequisite(s): PUAD 502 or 505
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 658 - Social Entrepreneurship and Nonprofit Enterprise
PUAD 659 - Nonprofit Law, Governance, and Ethics

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Overview of nonprofit governance as well as basic contract, labor, and tax law issues within nonprofit corporation law. Covers relationship between board and executive, and ethics topics typical to nonprofit organizations such as self-dealing, fiduciary responsibility, and human resource issues.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 660 - Public and Nonprofit Accounting and Finance

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Studies fundamental normative debates in public and nonprofit financial management arena with focus on resulting implementation principles and techniques in governmental accounting, financial reporting, budget and revenue decisions, debt management, cash and investment management, pensions and employee benefits, and risk management.

Prerequisite(s): Course open only to admitted MPA or association/nonprofit management certificate students
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 661 - Public Budgeting Systems

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Survey focusing on policy and theoretical framework of revenue and expenditure choices at all levels of government. Topics include development, theories, structure of budgeting; political, economic, and managerial aspects of public budgeting; public policy implications; and budgetary reform movements and successes and failures.
PUAD 662 - National Budgeting

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines formulation of overall national fiscal policy and budgetary priorities through presidential and congressional budget processes, including decisions over spending and revenues.

PUAD 663 - State and Local Budgeting

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Introduces state and local government budgeting including principal actors and institutions inside and outside state and local governments that play role in budget development, appropriation, implementation, and auditing.

PUAD 664 - Nonprofit Financial Management

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Covers nonprofit financial management with attention to conflicts between social mission and financial entrepreneurship. Topics include mission, budgeting, fund raising, commercial programs, investments, accounting and information systems, financial reporting, auditing, and internal control.

Prerequisite(s): Admission to MPA, certificate in association management, or certificate in nonprofit management.

PUAD 670 - Human Resources Management in the Public Sector
Overview of range and complexity of functions, responsibilities, and expectations of human resource staff and line managers in public sector. Focuses on human resources management in context of political, legal, and managerial systems. Human resource functions, such as hiring, performance, and development, are also presented.

**Prerequisite(s):** PUAD 502.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**PUAD 671 - Public Employee Labor Relations**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Public employee labor relations, including unionization, representational elections, bilateral policy negotiations, administration of agreements, management rights, union and membership security, strike issue and grievance procedures, impact on public administration, and assessment of future developments.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**PUAD 672 - Human Resources Reforms for Public Administration**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Explores recent reforms in human resources management in federal, state, and local governments. Covers pay for performance systems, flexible assignment patterns, incentives for productivity, work-life balance, job design, and changes resulting from higher levels of contracting for government programs.

**Schedule Type:** SEM

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**PUAD 679 - Leadership Skills for the 21st Century**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
The class is premised on the belief that an individual's leadership capabilities can be enhanced by better understanding and practicing day-today leadership skills which can be used in the workplace. The academic literature on leadership will also be discussed.
PUAD 680 - Managing Information Resources

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines how managerial and analytical functions in public organizations can be performed via end-user computer applications. Provides in-depth coverage of selected database and decision support packages, and gives attention to logic and integration of application software.

Prerequisite(s): Admission to MPA program, or permission of instructor.

PUAD 691 - Justice Program Planning and Implementation

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Covers development and construction of organizational systems to implement government policies and programs. Emphasizes dealing with real-world challenges, constraints, and opportunities to create feasible plans, performance-monitoring systems, and secure multiple agency coordination. Applications of planning and implementation principles to actual projects in justice agencies.

Prerequisite(s): PUAD 502 and 509.

PUAD 700 - Ethics and Public Administration

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Topics of ethical dimensions including constitutionalism, democratic values and traditions, standards of conduct and ethics, and conflicting values of public officials and social equity of public programs.

Prerequisite(s): 18 earned credits including B or higher in PUAD 502, PUAD 511, PUAD 520, and PUAD 540. Prerequisite(s) enforced by registration system.
PUAD 701 - Cross-Cultural and Ethical Dimensions of International Management

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
To be taken in final two semesters of MPA program. Examines normative issues in management of programs in international context. Emphasizes interplay of cultural, sociopolitical, legal, and ethical factors, and management and policy problems arising from conflicting goals, values, and inequities among nations and regions.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUAD 703 - Third-Party Governance

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines design and management of government programs relying on other levels of government and private sector for delivery, with focus on such governmental tools as contracts, grants, loans, regulation, and tax credits.

Prerequisite(s): B or higher in PUAD 502, PUAD 511, PUAD 520, and PUAD 540.  
Prerequisite(s) enforced by registration system.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUAD 720 - Performance Measurement

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Methods used by managers to systematically assess performance. Includes practical tools such as focus groups, survey research, cost/benefit analysis, benchmarking, and comparison methods for revealing outcomes and impacts. Prepares managers to use information more effectively in developing programs and services and formulating policy, and covers reporting techniques to communicate performance results.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUAD 727 - Seminar in Risk Assessment and Decision Making
Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines decision making under risk and uncertainty. Readings introduce major intellectual perspectives on topic and are drawn from variety of disciplines, including biology, economics, law, and psychology. Emphasizes making actual decisions under uncertainty.

Prerequisite(s): 12 graduate credits.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 729 - Issues in Public Management

Credits: 3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Current issues in management of public organizations in contemporary American government. Includes practical applications of theories and analysis to managerial problems. Emphasizes competence in improving management in selected government settings.

Prerequisite(s): PUAD 502, and 9 graduate credits.
Notes: May be repeated for credit when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

PUAD 730 - Professional Development Workshop

Credits: 1-3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores external and internal factors reshaping public and nonprofit organizations. Investigates processes and techniques that managers and staff can use to respond to rapid environmental change. Emphasizes case studies and application of techniques and processes.

Schedule Type: LAB,
SEM
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

PUAD 731 - Homeland/Transportation Security Administration

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines the terrorist attacks of 9/11, the vulnerabilities of the aviation security system at that time, reasons why elected leaders and officials did not act more decisively to improve security before 9/11, and the policy and administration responses to the 9/11 attacks, including the creation of the Transportation Security Administration and the Department of Homeland Security. Includes the development of radical Islam and the rise of Osama bin Laden and Al Qaeda.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**PUAD 738 - Issues in International Security**

Credits: 3  
Repeatable within Term for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines issues of topical interest in general area of international security. Possible topics include nuclear strategy, disarmament, American defense policy, and international terrorism.

**Prerequisite(s):** PUAD 504 and 9 graduate credits.  
**Notes:** May be repeated for credit when topic is different.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PUAD 739 - Issues in International Management**

Credits: 3  
Repeatable within Term for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines significant current issues in public international management. Emphasizes practical applications of theories and analysis of problems in public international management arena, and competence in improving management practices in international management settings.

**Prerequisite(s):** PUAD 502, and 9 graduate credits.  
**Notes:** May be repeated for credit when topic is different.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**PUAD 749 - Issues in Public Policy**

Credits: 3  
Repeatable within Term for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines significant issues in public policy in contemporary American government. Emphasizes practical applications of theories and analysis to policy problems, and competence in improving policy analysis in selected government settings.
**PUAD 750 - Federalism and Intergovernmental Relations**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines broad trends in governance, including theory and practice of federalism, with particular focus on intergovernmental relations and changing roles of federal, state, and local governments. May include privatization, devolution, mandating, regulatory reform, and comprehensive federalism reform.

**Prerequisite(s):** PUAD 502 and 9 graduate credits.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 758 - Environmental Politics**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Evolution and current state of environmental policy making. Includes history, strengths, and weaknesses of key U.S. environmental laws and central international environmental agreements. Introduces analytical approaches, including cost-benefit and risk analysis. Discusses economic incentives and normative considerations.

**Schedule Type:** LEC, SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUAD 759 - Issues in Local Government Administration**

Credits: 3  
Repeatable within Term for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Management and policy formulation in American local governments. Addresses environments, institutions, and actors involved. Examines contemporary problems such as education, criminal justice, transportation, land use, economic development, and environmental impact.

**Prerequisite(s):** PUAD 502 and 9 graduate credits.  
**Notes:** May be repeated with different topic.

**Schedule Type:** LEC
PUAD 769 - Issues in Public Financial Management

Credits: 3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Current issues in budgeting and financial management in contemporary American government. Emphasizes practical applications of administration and management issues and policy choices at all levels of government.

Prerequisite(s): PUAD 502, and 9 graduate credits.
Notes: May be repeated for credit when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 781 - Information Management: Technology and Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines challenges that organizations encounter as they move to a more technologically sophisticated information and communication environment. Studies organizational policy issues evolving from new technologies, including privacy, security, authentication, content control, intellectual property, and taxation, focusing on effectiveness of previous policy solutions and analyzing proposed solutions.

Prerequisite(s): PUAD 680, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 790 - Justice Organization and Administration

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines organization and administration of justice and security organizations. Covers organization theory and behavior as applied to justice and security organizations.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUAD 791 - Justice Program Evaluation

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Practical exploration of assessment techniques used to study need for and consequences of justice programs and policies. Covers needs assessments, process, and impact evaluations. Includes design and measurement issues for assessing performance of justice programs, and interpreting and presenting results. Emphasizes designing program evaluation for justice agency.

Prerequisite(s): PUAD 511 and 612.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 792 - Advanced Seminar in Applied Public Administration Research

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
An applied research experience. Students will apply skills in problem definition, issue framing, collection of data and information, interviewing, selection and analysis of alternatives, presentation of findings and recommendations, design of implementation tools and administrative procedures and organizations, report writing and oral presentation to policymakers.

Prerequisite(s): 30 PUAD credits and permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 793 - Conduct of Justice Organizations at the Street Level

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores how justice organizations behave at lowest levels, where service is delivered and discretion is greatest. Includes suspects, victims, witnesses, police officers, prison guards, parole officers, attorneys, and others who interact with the justice system.

Prerequisite(s): CRIM 740/GOVT 790, or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 794 - Internship

Credits: 3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Open only to MPA students. Contact internship coordinator one semester before enrollment. Credit determined by the department.

Prerequisite(s): 12 PUAD credits or permission of instructor.
Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/NoCredit.

PUAD 795 - Leadership in Justice and Security Organizations

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines leadership theories, and explores fundamental questions about leadership in justice and security organizations today.

Prerequisite(s): CRIM 740/PUAD 790, or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 796 - Directed Readings and Research

Credits: 1-3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Reading and research on specific topic under direction of faculty member. Written report is required; oral exam covering research and report may be required.

Prerequisite(s): 18 PUAD credits and permission of instructor.
Notes: May be repeated once.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUAD 797 - Changing Justice and Security Organizations

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines challenges of changing justice organizations, how changes have been successfully and unsuccessfully implemented in the past, and what change strategies appear to be most effective.

Prerequisite(s): CRIM 740/PUAD 790 or permission of instructor.
Schedule Type: SEM
PUAD 821 - Doctoral Seminar in Theories of Organization and Bureaucracy

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines key issues in organization theory and behavior. Issues include organization design; interorganizational coordination,  
intelligence and decision-making systems; leadership and motivation theories; and theories or organizations as agents of political  
and social change. Uses case studies.  

Prerequisite(s): PUAD 520 or equivalent, or permission of instructor.  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUAD 840 - Research Seminar in Policy Governance I

Credits: 2-4  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Surveys major institutions that formulate and implement public policy in United States. Examines translation of public  
preferences into public policy, and decisions about which societal and economic functions are most appropriately carried out by  
governments, and which are best accomplished by private institutions and individuals.  

Equivalent to PUBP 840  

Prerequisite(s): Admission to doctoral program or permission of instructor.  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 2-3  
Hours of Lab or Studio per week: 0-1

PUAD 841 - Research Seminar in Policy Governance II

Credits: 2-4  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Second of two-semester sequence (PUAD 840, 841) in governance and public management policy concentration. Focuses on  
division of responsibilities among several levels of government, and between public and private sectors. Explores impact of these  
divisions on development of public policy in several policy areas, such as urban governance, environmental policy, and health  
care.  

Equivalent to PUBP 841  

Prerequisite(s): Admission to doctoral program.  
Schedule Type: SEM
Public Policy (PUBP)

Offered by the Schar School of Policy and Government (formerly SPGIA)

PUBP 500 - Theory and Practice in Public Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Theories of public policy emphasizing historical intellectual development, and role theory and ethics may play in public policy making. Assumptions made by policy professionals examined against broad range of philosophical, social, political, and economic imperatives affecting public policy environment.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PUBP 501 - Policy and Organizational Analysis

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Prepares students to engage in systematic analysis, both qualitative and quantitative, and constitutes the basis for advanced analytical techniques. Emphasis on research design, information acquisition, application of data analysis techniques, and presentation, including writing for professional and lay audiences.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 502 - Governance and Policy Processes

Credits: 1-4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Assesses governance processes in public and private organizational settings on the basis of economic and political standards such as efficiency, accountability, and responsiveness to societal needs in a rapidly changing global environment. Using cases, simulations, and fieldwork, students learn to evaluate the quality of institutional governance in specific venues and appraise implications for public policy.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 503 - Culture, Organization, and Technology

Credits: 1-4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Focuses on the influence of culture in societal, political, economic, and technological processes, nationally and internationally. Culture is seen as dynamic and interactional. Using case studies, students learn pertinent approaches to the study of culture, from the analysis of organization and social networks to that of belief systems and identities. Students also develop practical skills in observation, participation, and intervention.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 505 - Politics and Practice of International Security Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Drawing on current and historical cases, this course develops knowledge, strategies, and skills required to transform policy ideas and proposals into implemented policy on issues of international security.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer

PUBP 511 - Statistical Methods in Policy Analysis

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Introduces students to the range of quantitative methods used for public policy analysis. Provides a broad foundation to prepare students for doing statistical analysis on the master's level.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 533 - Topics in Public Policy Processes
Credits: 1-3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Focuses on selected topics in public policy processes and procedures on an introductory level.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 550 - Topics in Public Policy

Credits: 1-3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Focuses on selected topics in public policy not covered in fixed-content public policy courses.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 555 - Economics Math Workshop

Credits: 0
Repeatable within Degree for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Short course covering math and calculus skills required for master's level managerial economics course PUBP720.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Not Gradable

PUBP 556 - Writing Workshop

Credits: 0
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
A limited enrollment, noncredit, one-day workshop designed for master-level public policy students who want to improve their writing skills. Aimed at good writers who want to move to the next level of effectiveness. Taught by professional writers.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Not Gradable
PUBP 570 - Policy Writing Fundamentals

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Designed for entering students whose writing skills and style must satisfy the demands of a rigorous graduate program; aims to give students the ability and confidence to write clearly and concisely for a variety of policy audiences; reviews basic rules and develops essential techniques for effective writing in graduate school and beyond.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUBP 601 - Theory and Practice of Regional Economic Development

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Helps students develop real-world skills to be a successful economic developer, consultant, policymaker, or change agent in this rapidly changing environment. Designed to provide a framework for understanding regional and national economic growth and prosperity, and provide tools to conduct concrete analyses to help decision makers, clients, and constituents make better-informed decisions.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUBP 602 - Regional Economic Development: Strategies and Applications

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Introduces range of methods for tracking the performance of metropolitan economies, identifying opportunities for economic development, and assessing effectiveness of public and private investments designed to achieve region's economic growth. Also examines strategies and case results of economic development plans and projects.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUBP 605 - State and Local Government Policy and Economic Development

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines state and local government policies and processes to promote local economic development, including institutional
arrangements, financing and tax incentives, nonfinancial strategies and approaches, land use, environmental and other relevant regulations, and relationships across government and nongovernmental organizations.

**PUBP 610 - Organizations, Management, and Work: Theory and Practice**

Credits: 2  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
This introduction to organizations, management, and work examines ideas and practices from two perspectives: conventional ones that go back to the industrial age and scientific management; and contemporary ones that have to do with organizing knowledge-work. Covers contributions of a range of writers and deals with foundations of OD from the standpoint of both theory and practice.

**PUBP 611 - Critical Infrastructure Protection in Theory, Policy and Practice**

Credits: 2  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Introduces critical infrastructure protection as a policy field, examines its institutional framework, and considers its foundations in political and economic theory.

**PUBP 650 - International Conflict and Crisis Response**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
First course of two-semester sequence on international peace operations. Focuses on emerging theory of peace operations, including peacemaking activities of United Nations and other diplomatic initiatives; peace-building activities of international organizations and nongovernmental organizations; and peace support provided by international militaries.
PUBP 651 - Peace and Stabilization Operations

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Second course of two-semester sequence on international peace operations. Focuses on application of emerging theory of peace operations, including peace-making activities of United Nations and other diplomatic initiatives; peace-building activities of international organizations and nongovernmental organizations; and peace support provided by international militaries. Several guest lectures from past and present peace operations provide practical information for future staff of peace operations.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUBP 652 - Strategies for Peace and Stabilization Operations

Credits: 4  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
This course concentrates on the institutional mindsets, characteristics, and behaviors of the actors involved in peace operations. Readings, role-plays, and research underpin the class. Special attention is also paid to developing students' graduate-level research and writing skills.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

PUBP 653 - Interagency Operations in Conflict and Post-Conflict Settings

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines the U.S. Interagency process as it relates to peace operations. Various departments and agencies maintaining equities in overseas missions will be identified and explored. Case studies highlight instances of success or failure in application of a "whole-of-government" approach to intervention. Examines significant problems hampering Interagency cooperation today and recent policy directives, frameworks, and initiatives developed to address this situation.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

PUBP 654 - Analysis for Peace Operations
Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines theories of human behavior and social systems as they relate to conflict at the interpersonal, community, and international level. The class provides a foundation of academic thinking about the role of conflict in violent and peaceful social change. At the end of the course, students should be able to think systematically and critically about conflict, and engage in practical application of conflict analysis techniques to peace operations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 655 - State- and Institution-Building

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Ending prolonged civil conflicts often necessitates building stronger state institutions as well as addressing broader social, economic, and political issues affecting particular places and peoples. This course examines the literatures on state formation and state building from a historic, regional, and functional perspective paying special attention to polities exiting civil conflicts.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

PUBP 680 - Topics: Advanced Skills for Policy Professionals

Credits: 1-3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Practical seminar focusing on development of advanced qualitative and quantitative skills for the professional policy world.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

PUBP 700 - Theory and Practice in Public Policy

Credits: 1-4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Theories of public policy emphasizing historical intellectual development, and role theory and ethics may play in public policy making. Assumptions made by policy professionals examined against broad range of philosophical, social, political, and economic imperatives affecting public policy environment.
PUBP 702 - Comparing Political Institutions

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines political institutions and processes from comparative and international perspectives, and role of political environment in economic trade and investment policy decisions. Examines how generalizability, objective knowledge and understanding, and nature of evidence impact public policy.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 704 - Statistical Methods in Policy Analysis

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Graduate-level introduction to statistical methods and techniques used in policy sciences. Topics include descriptive statistics, sampling and probability theory, graphical data display, estimation and significance testing, contingency tables, bivariate regression and correlation, and multiple regression, with introduction to computer based statistical analysis.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 705 - Advanced Statistical Methods in Policy Analysis

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Covers classical regression methods and their application to public policy analysis. Includes simple and multiple regression, analysis of variance, time series, and simultaneous equation structural models. Problems associated with applications include specification error, multicollinearity, qualitative variables, heteroskedasticity, serial correlation, and structural identification. Course develops analysis skills by discussing sample empirical studies and models using advance statistical computer software.

Prerequisite(s): PUBP 704 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Studies analytical concepts and techniques used in public-sector overall budgetary and specific project decision making. Includes conceptual concerns and quantitative techniques used in benefit-cost analysis, capital budgeting, financial analysis, and various specialty applications, such as economic and fiscal impact analysis. These are all interrelated by the desire to measure the benefits versus the costs of various alternative public decisions. Attention is given to measuring results over time and the use of present value techniques. Assesses strengths and weaknesses of analytical techniques. Emphasizes the process of defining the appropriate stakeholders affected by decisions, the sources and quality of data, and the rigor of conducting studies.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 709 - Professional Writing for Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Professional Writing teaches effective writing for the professions. The course includes the fundamentals of writing -- grammar, word usage and paragraphing – and instruction in selected genres, including news stories, editorials, and research writing.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 710 - Topics in Public Policy

Credits: 1-3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Focuses on selected topics in public policy not covered by fixed-content public policy courses.

Schedule Type: LEC, SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 712 - Policy Systems Analysis and Management Science
Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Introduces analytical models and analysis to support decisions. Primary emphasis on understanding techniques of operation research and management science, cost benefits, and cost effectiveness for public decision making. Using mathematical details of algorithms to solve models not emphasized except as it contributes to understanding reliability and validity of methodologies. Through case studies and computer solutions, offers appreciation of when, where, and how to use models. Students demonstrate their understanding of techniques by applying them to term research project on government program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 713 - Policy and Program Evaluation

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines how programs of public agencies are proposed, established, operated, and evaluated. Covers role of research in program evaluation process, including alternative methodologies for policy assessment. Considers demand estimation, supply and pricing of publicly produced goods and services, and role of subsidies in nonmarket environments.

Prerequisite(s): PUBP 704 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 714 - Topics in Transportation Policy, Operations, and Logistics

Credits: 1-3
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Issues in transportation policy, operations and logistics in United States and abroad. Includes practical applications of theories and analysis to policy problems, and emphasizes competence in improving policy in selected domains. May be taken up to three times and simultaneously for sections addressing different subject matter.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 715 - Introduction to Transportation Systems

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Transportation is a service that contributes substantially to well-being of advanced economies. Resource requirements and byproducts of transportation also pose sobering environmental challenges for society. Course examines history and development
of transportation systems; contribution to and impact on society; institutions and practices that govern planning, design, construction, operation, maintenance, and retirement from service; and policy and managerial challenges, and tools and techniques for addressing them.

**PUBP 716 - Transportation Operations and Logistics**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Provides survey of issues, methods, problems, and strategies. Topics include origins of logistics, industry structure, pricing, underwriting, rate making, compliance, inventory effects, just-in-time inventory management (JIT), materials requirements planning (MRP), customer service and order processing operations, sales functions and operations, dispatch and fleet manager functions and operations, rate-setting among three parties, typical electronic and paper document flow, routing and scheduling, route selection, satellite load tracking through dispatch-customer web inquiry, role of ITS in route selection, toll system use, congestion, training activities, and logistics markets.

**PUBP 717 - Analysis for Transportation Managers**

Credits: 4  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Introduces basic methods of transportation analysis and evaluation relating them to policy framework. Covers descriptive statistics, hypothesis testing, contingency tables (Chi-Square analysis), regression, optimization, demand elasticities, and gravity model. Also covers sources of transportation data and research design. Teaches mathematical base and logic of each technique, but primary emphasis is applying methods to relevant policy and management problems. Students required to complete series of assignments along with research proposal focused on applying one or more methods to problem of their own interest.

**PUBP 718 - Transportation Planning and Policy**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Introduces highway, rail, air, and water transport planning in United States. Teaches legislative, organizational, fiscal, legal and political environment within which planning for transportation facilities and services takes place. Introduce technical and analytical methods for transportation planning. Focus is largely on public sector, but also considers commercial transport
planning and role of private sector in helping to design, manage, and finance transport systems.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUBP 719 - Transportation Law

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines legal environment of transportation. Topics include basic legal concepts and institutions, history and evolution of price and service regulation, environmental law and regulation, labor relations, and property.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUBP 720 - Managerial Economics and Policy Analysis

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Introduces microeconomics theory and its application in analyzing public policy issues. Provides capability to understand economic literature and theories.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUBP 721 - Transportation Economics

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Provides basis for understanding economics of transport system, and how transportation relates to urban and regional development. Treats transport generically, but includes case studies of specific modes.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUBP 722 - Practicum in Transportation Policy, Operations, and Logistics
Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
In-depth field study of ongoing transportation policy, operations, or logistics situations; and design and delivery of actions to
manage or resolve problems and opportunities. Range of application areas depends on interests of student body and opportunities
faculty identify for "clients" or real-world projects. Illustrative domain areas include surface transportation (highways and
transit), airports, and aviation.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 723 - Metropolitan Transportation Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Recent changes in federal legislation have led to renewed importance for transportation policy and planning. Considerations of
clean air, economic development, congestion management, and changing urban form have greatly increased importance of well-
planned transportation facilities and policies. Course introduces basic methods of transportation policy analysis and evaluation.
Topics include data collection, simplified demand estimation techniques, transportation choice modeling, transportation supply
analysis, and ex-ante and ex-post evaluation methods.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 726 - Telecommunications Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines salient issues associated with telecommunications and electronic commerce in context of public policy questions
facing decision makers in government, education, and business. Examples include privacy, electronic signatures, digital divide,
bandwidth auctions, IP telephony, CRM, Bluetooth, and Internet taxation.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 730 - US Institutions and the Policy Process

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores the United States constitutional system of government, including the principal governmental and non-governmental
institutions shaping American public policy. Investigates the national policy making process and the interplay between politics
and policy.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 731 - Macroeconomic Policy Assessment**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Covers monetary theory, theories of consumption and saving, budget deficits, economic growth, international finance, and monetary and fiscal policy. Investigates national income and product accounts, savings, employment, and investment, and alternatives to Keynesian principles. Evaluates theories of inflation, investment, capital accumulation, and nonproportional growth.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 732 - Labor Markets and Policies**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Analysis of labor market issues and policies, including those affecting employment, wages, working conditions, and unemployment -- issues central to current policy debates on job creation, inequality, discrimination, immigration, education, and social programs.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**PUBP 733 - Urban Politics and Policy**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
This course explores the factors that guide and affect urban politics and policy including, but not limited to, housing, public education, criminal justice, employment, and economic development. It is designed to provide students with an introduction to the major theories and some of the significant research in urban politics and policy. The primary focus will be on large American cities.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
PUBP 734 - Administrative Law and Public Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Covers administrative discretion, rule-making and agency proceedings, public participation, political accountability, regulatory processes, oversight, formal adjudication and informal action, lobbying agency administrators, and political and legal nature of the administrative process.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 735 - Lobbying and Interest Representation

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
To work effectively within a democratic political environment, policy analyst must understand contemporary methods used to influence policy. Course focuses on roles and techniques of organized influence, and its impact on policy.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 736 - International Migration and Public Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines demographic, economic, political, and social forces driving international migration on a global basis in the twenty-first century. Considers policy responses within sending and receiving countries and at the global level, including the role of international cooperation and institution-building.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 737 - Cases and Concepts in E-Government

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Electronic government has become a significant public policy issue worldwide. It offers the prospect of dramatic improvements in delivering government services, but also portends major debate about government intrusion. Course covers emerging public policy issues associated with electronic government: job displacement in public sector, privacy, procurement and supply chain management, voter profiling, scope of government services, challenges to "digital democracy," Internet-based voting, land management, the "digital divide," and others.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 738 - Ethics and the Use of Force

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores the relationship between weapons and warfare and the ethical issues raised by the use of force, both in past conflicts and in a current and future context. Examines the relationship between emerging technology enabled weapons and the just war tradition. Studies relevant theories of war and selected international laws and conventions governing war and weapons.

Schedule Type: LEC

PUBP 739 - Media and Public Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores complex relationship between media and public policy. Examines how these forces collide in our modern media, how coverage decisions regarding public policy are made in newsrooms, how advocates use and rely on the media to advance message, and how different media reflect different strengths and vulnerabilities.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 740 - U.S. Foreign Policy: Formulation and Practice

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Focuses on policy formulation and policy implementation. The principal arenas of foreign policy are explored, including the White House, the State Department, the defense and intelligence communities, and the Congressional committees. These arenas are both affected by and influential upon the exogenous systems, such as the media, public opinion, interest groups, foreign governments, and international organizations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
PUBP 741 - U.S. Financial Policy Processes and Procedures

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines design and operation of expenditure and revenue systems at federal, state, and local levels of U.S. government. Stresses mobilizing and allocating resources through planning, adoption, and execution of budget. Includes theory and policy objectives of tax and spending regimes and review of financial controls, performance measurement, cash and debt management, and accounting and financial reporting systems.

Prerequisite(s): PUBP 720
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 742 - Transportation Safety and Security

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines transportation safety and security from multimodal perspective for both passenger and freight. Topics include historical context and policy framework, regulation, institutional issues, new security arrangements for preventing organized terrorist attacks, infrastructure design, vehicle design, operating protocols, and information systems.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 743 - National Security Management and Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines hierarchies in national security from the president to military establishment, including National Security Council, secretary of defense, joint chiefs of staff, commanders-in-chief of unified and specified commands, and intelligence agencies. Covers policies involving national defense, peace-keeping operations, embargoes and other sanctions, defense conversion, and military acquisition policy. Also covers significant legislation affecting national security, such as National Security Act of 1947 and Goldwater-Nichols Act of 1986.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
PUBP 744 - Federal Institutions and Management

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Covers management and policy in federal government, examining policy problems within context of national system of governance, including political environment, evolution and constitutional framework of American government, U.S. Congress, executive branch from White House to agencies, and role of interest groups and political parties. Special attention to implementing legislation, regulatory process, and intergovernmental relations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 745 - Transportation and the Environment

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Multidisciplinary examination of implications of transportation and ways public policy has attempted to handle them, and how policy may move in the future. Explores all modes of transportation and most environmental ramifications.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 747 - Air Transportation Policy, Operations and Logistics

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Reviews evolution of various forms of air transport such as airlines, general aviation, and military aviation; and includes basics of airline economics, especially as they intersect with airline operations and the management of hub and spoke networks; air traffic control technologies and operations and their intersection with airline economics; safety and security technologies and regulations; future of various elements of air transportation; and effects of deregulation on air travel.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 748 - Public Transportation Policy, Operations and Logistics

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Provides general system description for components comprising typical publicly funded transit property. Topics include
organizational structure, historical context, budget development including operating and capital budgets, personnel and labor relations, regulatory framework, operations management (bus and commuter rail), reporting structure, customer service, and contracted operations. Also discusses current topics of interest, such as security of transit systems and transit's role in air quality.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 750 - History of Military Operations Other than War

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Focuses on history of military activity in support of noncombat missions. Uses historical examples of early days of United States and colonial histories of Western and Eastern powers. Also touches on use of military force in support of multinational peace operations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 751 - International Police Operations

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Analyzes role of international police monitors and domestic police forces in international peace operations. Focuses on how using international police monitors and developing indigenous law-enforcement capabilities can improve prospects for success of international peace operations. Examines origins, mandates, planning, and deployment of international civilian police forces; problems of coordinating international police operations with international military forces and local security forces; international role in developing democratically oriented police forces; relationship of police to the entire judicial system; and the need to continue assistance to all parts of the judicial system beyond initial intervention.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 752 - Infrastructure Finance

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Covers planning, budgeting, and financing of infrastructure, including air, water and surface transportation, public utilities, and other major public works. Focuses on private capital markets for projects funding as well as domestic and international loan and grant programs.

Schedule Type: LEC
PUBP 753 - Ethics in Public Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Inquiry into ethical and moral issues in public policy. Explores issues that are controversial and often confusing to public policy makers such as health care, secrecy in government, surrogate motherhood, and disability. Perspectives are national as well as global, and deal with impact of culture and politics on ethical dilemmas confronting society. Also looks at processes by which specific ethical systems are incorporated into governing bodies. Larger issues, such as war and peace, just and unjust wars, capital punishment, medical and legal ethics, and communitarian vs. individual liberties are also included, with emphasis on how they affect public policy.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 754 - Geographic Information Systems and Spatial Analysis for Public Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Introduces GIS including analytical tools to manipulate and study spatial data. Run mainly as a laboratory, with extensive hands-on experience. Focuses on public policy applications.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 755 - National Security Decision-Making Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Applies behavioral, economic, strategic, and other decision theories to U.S. government and other actors in historical national security crisis cases and current policy issues. Explores tension in decisions between rational goal seeking by actors vs. organizational process, and aims to develop usable decision tools.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 756 - Global Medical Systems Policy Analysis
Equips students with knowledge and skills to critically analyze structures, functions, governing policies, and performance of healthcare systems; to identify problems and solutions; and to devise alternative courses of action and reform policies that would contribute to achieving goals. Prepares students in policy analysis rooted in systems analysis, while linking issues, objectives, and solutions with the larger context in which a system is embedded.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 757 - Public Policy in Global Health and Medical Practice

Introduces international medical policy. Covers globalization of health and medical policies directed at removing disparities, financing, ethical considerations of biomedical research, and use of emerging technologies.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 758 - Global Threats and Medical Policies

Explores medical and health governance, biosecurity and biosafety, health and natural and human-made disasters, humanitarian and emergency assistance, vaccine development, behavior and health, critical infrastructures, bioethics and resource allocations in global context.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 759 - National Security Law and Public Policy

Introduces legal and policy issues concerning current U.S. national security. Its emphasis is on developments since 9/11. It focuses on the legal rules governing the formulation and execution of U.S. national security policy. It examines U.S. and international law as well as general domestic and foreign policy considerations. In particular, the course considers the principal cases, legislation and treaties impacting U.S. national security. Special emphasis is on the interplay of national security concerns
and civil liberties in this age of global and transnational terrorism.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 760 - Science and Technology Policy in the 21st Century**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)

Investigates roles dynamic scientific research and technological innovation play in contemporary society. Focuses on design and analysis of alternative public policies intended to influence rate and direction of technological change in societies, and use of scientific and technical knowledge in public policy making. Uses historical and international comparative approaches to assess politics and pragmatics of science and technology policy. Includes material from policy evaluation and analysis, organization theory, economics of innovation, and sociology of science and technology. Applications focus on areas of concern to "new economy" such as biotechnology, networked telecommunications and computing, and globalization of technology-based production.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 761 - Social Entrepreneurship and Public Policy**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)

This course is about people who start new ventures with the explicit objective of creating social as well as private value. As societies and the challenges they face become ever more complex, existing institutions and incentive structures may or may not be adequate to address new generations of problems. Social entrepreneurs innovate new organizational forms with the objective of finding solutions in the public interest. Students in this course will be challenged to integrate elements of business strategy and policy analysis towing the objective of crafting a practical plan for the launch of a novel and needed social venture.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 762 - Social Institutions and Public Policy**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)

Limited government involvement in social policies changed drastically during the 1960s, with an explosion of social programs designed to ameliorate poverty, reduce crime, and eliminate racial segregation. These new social policies affect many institutions, including family, schools and colleges, criminal justice system, and government agencies. Many of these policies have been controversial, with debates over efficacy and whether they have cured or exacerbated social problems. Course examines
evolution and status of selected American social policies, including civil rights policies, education reform, family policy, crime prevention, and other topics chosen by students. Readings and discussions on policy issues linked to readings and discussions on social theories and value systems that underpin social policies.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**PUBP 763 - Illicit Trade**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines the role that illicit trade assumes in international trade and commerce. Studies diverse international forms of illicit trade, the role that it assumes in perpetuating conflicts and the most pervasive forms of this illicit trade. Examines the actors who perpetrate this trade and the policies which are needed to stem its growth.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**PUBP 764 - Transnational Crime and Corruption**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Provides an overview of transnational crime and corruption and its effects on the political, economic, and social development of countries globally. Focuses on the growing problem of transnational crime in conflict regions. The course addresses the links among crime groups, corruption and terrorism. It analyzes diverse range of activities of transnational crime groups in both the legitimate and illegitimate economy.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

**PUBP 765 - Human Smuggling and Trafficking**

Credits: 3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines the rapidly growing phenomenon of human smuggling and trafficking. Addresses the reasons for the growth of these phenomena and their far-reaching and diverse social, political and economic consequences globally. Transnational crime dimensions of the problem are a central component of the class. The phenomenon is examined in conflict regions, developing, diverse developed as well as transitional societies.
PUBP 766 - Modern Counterinsurgency: Theory and Practice

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
This course is intended to give students a broad understanding of the nature of counterinsurgency, the policy implications of the U.S. becoming involved in an insurgency, and the multifaceted, interagency approach that is required to successfully combat an insurgency. The course includes case studies, a review of contemporary U.S. counterinsurgency practices, and insights on what the future might hold in this important type of conflict.

PUBP 767 - Global Comparative Medical Practices, Ethics and Law

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines major ethical issues raised in medical practice around the world. Studies issues comparatively and applies various ethical frameworks to study them. Considers various legal and policy solutions derived to deal with them. Principles of biomedical ethics as well as consideration of several major schools of thought in political philosophy, including utilitarianism, libertarianism and communitarianism will be considered.

PUBP 768 - Education and Public Policy (Topic Varies)

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores current issues and policy initiatives in education policy at federal, state, and local levels, with emphasis on education reform. Issues and topics vary. Typical policy issues include raising academic standards, high-stakes testing, alternative governance including school choice and voucher policies, teacher quality and certification, role of school resources in academic outputs, and equity topics.
PUBP 769 - Political Violence and Terrorism

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines the persistent threat of terrorism and political violence to international stability generally, and U.S. national security interests in particular. Provides students with a long-term analytical and substantive foundation to deepen their knowledge and effectiveness as policy-makers in national security, diplomacy, homeland security, law enforcement, humanitarian law, peace operations, postconflict reconstruction, development assistance, public diplomacy and other related areas.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

PUBP 770 - Global Health and Medical Policy Analysis

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Prepares students in global health and medical policy analysis with a focus on processes, roles, expenditures, alternatives and tradeoffs in different country settings.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 771 - Grand Strategy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Uses the traditional tools of history and theory to analyze grand strategy. The goal is to gain an in-depth understanding of effective and ineffective grand strategies so as to inform U.S. policy, or that of other countries. Analyzing the strategic implications of policy-making, it takes a long view of effective statecraft, using current means to achieve large ends.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

PUBP 775 - Economics of Electronic Commerce
PUBP 777 - Critical Infrastructure Protection: Policy and Practice

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Introduces critical infrastructure protection and resilience as a policy field, examines its governance framework, and considers its foundations in institutional theory and risk analysis.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 780 - Evolution of the Washington Metropolitan Economy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Includes historical context, role of federal spending, tourism, technology sector, international business, regional organizations, local government policies, and forecasts. Evaluates development patterns in Washington, D.C., Northern Virginia, and suburban Maryland.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 781 - Entrepreneurship and Economic Development

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
A knowledge spillover theory of entrepreneurship is employed to link between theories of entrepreneurship and theories of innovation and regional development. Other interconnections are explored at the regional level as firms forge networks, clusters, and specialized markets. The public policy issues of these constructs, including competition policy, industrial policy, and cluster policy, are examined within a regional and global context.
PUBP 782 - International Financial Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Addresses theory of international finance, application to financial policy such as exchange rate regimes, and institutions of international finance. Covers operations of International Monetary Fund and World Bank, development of European Monetary Union, and debate over "international financial architecture."

PUBP 783 - Global Governance

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Surveys important issues in global governance given changes in contemporary world. Explores dynamics and complexity of formal and informal actors, institutional arrangements, organizations, and roles in process of governance in international sphere. Considers states, governmental and nongovernmental organizations, international regimes, social movements, regional associations, and multinational corporations as actors bearing on transnational authority. Examines various vehicles for international coordination and conflict in terms of relevance and opportunities for global governance.

PUBP 784 - Entrepreneurship, Economics, and Public Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
To demonstrate that global capitalism is a process driven by entrepreneurship, students study the Austrian school of economics, which views capitalism as a process of creative destruction, as well as other economists who emphasize entrepreneurship and change. The course reviews the history of capitalism, focusing on the so-called industrial revolutions in Britain, Germany, Japan, and the United States, and on particular historical and current entrepreneurs.
PUBP 791 - Advanced Field Research for Policy: Theory and Method

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Teaches how to analyze the framing of policy questions and examine culture and organization at group, organizational, interorganizational, and societal levels. Covers case study research, open-ended interviewing, participant-observation, social network analysis, and historical and archival research.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 792 - Advanced Economic Analysis for Policy Research

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Builds analytical skills in economic analysis for policy research for students with competence in elementary calculus. Reviews mathematical techniques and covers consumer theory, demand estimation and forecasting, production theory, cost-benefit analysis, technological change and productivity analysis, growth theory, market structure and competition, game theory, capital budgeting, and public sector's role in the economy.

Prerequisite(s): PUBP 720 or equivalent.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 793 - Large-Scale Database Construction and Management for Policy Research

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores data resources for macro-comparative policy research, and how to use these to inform decision making and evaluate policy performance. Emphasizes how social science data is generated, coded, and managed; and methods for successful presentation of evidence in support of policy recommendations.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 794 - Internship

Credits: 1-6
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Open only to students in SPP degree program requiring internship. Contact appropriate program director one semester before enrollment. Work-study programs with specific employers.

**Prerequisite(s):** 12 PUBP credits, or permission of instructor.

**Notes:** Credit determined by appropriate degree program.

**Schedule Type:** INT

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No Credit

---

**PUBP 795 - Final Project**

Credits: 1-3  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Project developed drawing on key themes of the program, in consultation with the program director.

**Schedule Type:** IND

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

---

**PUBP 796 - Directed Readings and Research**

Credits: 1-3  
Repeatable within Term for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Independent reading and research at master's or doctoral level on specific topic related to public policy as agreed to by student and faculty member.

**Schedule Type:** IND

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**PUBP 799 - Master's Thesis**

Credits: 1-6  
Repeatable within Degree for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Individualized section form required. Original research endeavor related to student's program concentration. Research must result in document meeting public policy and university standards.

**Prerequisite(s):** Degree candidacy in public policy master's program; completion of required credits of graduate course work; and approval of thesis proposal by faculty advisor, two committee members, and program director.

**Schedule Type:** IND

**Hours of Lecture or Seminar per week:** 3
**PUBP 800 - Culture and Public Policy**

Credits: 1-4  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Comparative analysis of the role of culture in shaping policy environments and outcomes. Introduces analytical methods for studying culture, including measurement of social and cultural change, surveys, and field studies. Presents major findings and research issues regarding the role of culture in democracy, ethnic and gender relations, economic growth and other policy issues. Focuses on differences among national and regional cultures, and their policy implications.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 2-3  
**Hours of Lab or Studio per week:** 0-1

**PUBP 801 - Research Design for Public Policy**

Credits: 1-4  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Provides an introduction to the theory and practice of research in public policy. Gives students an understanding of issues in the philosophy of science and different approaches to social science research. Provides broad overviews of quantitative and qualitative methodologies, with a major emphasis on research design, including conceptualization, the role of theory, hypothesis generation, inference and bias.

**Prerequisite(s):** PUBP 720 and PUBP 730, or their equivalents strongly recommended.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 2-3  
**Hours of Lab or Studio per week:** 0-1

**PUBP 802 - The Logic of Policy Inquiry**

Credits: 1-4  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Defines policy research problems, questions, and hypotheses. Explores modes of policy research, analysis, and rhetoric, including interdisciplinary research strategies. Uses information sources to emphasize written communication of policy research results. Also discusses professional practice issues.

**Prerequisite(s):** Enrollment in doctoral program in public policy.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
PUBP 804 - Multivariate Statistical Analysis in Public Policy

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores multivariate techniques of contingency table analysis, reliability and validity assessment, factor analysis and scaling, multivariate regression and path analysis, analysis of variance and covariance, and other selected multivariate techniques. Emphasizes applying these techniques to real policy data using sophisticated statistical packages.

Prerequisite(s): PUBP 704 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 805 - Foundations of Social Science for Public Policy

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Grounds doctoral students in core concepts of political science and economics through critical analysis of classic sources, old and new. Topics may include theory of the state, state-market relations, democratic governance, markets and economic institutions, and other relevant frameworks for public policy research.

Prerequisite(s): PUBP 730 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 4
Hours of Lab or Studio per week: 0

PUBP 806 - Advanced Management Science for Public Organizations

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Primary emphasis is to understand techniques of operations research and management science, cost benefits, and cost effectiveness for public policy decision making. Some familiarity with elementary calculus and linear algebra helps with understanding mathematical basis of algorithms used to solve models, and reliability and validity of these techniques. Case studies and computer solutions help students understand when and how to use OR models.

Prerequisite(s): PUBP 712 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 810 - Regional Development and Transportation Policy
PUBP 811 - Applied Methods in Regional Development and Transportation Policy

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Students develop research papers that investigate aspect of regional and transportation policy, with goal of producing publishable papers. Students are expected to prepare two-page proposal followed by detailed proposal and finally, completed paper. Each is critiqued in the seminar, which is organized to conform to process of review and critique. Instructor works with students individually as well as in seminar sessions.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 817 - Policy Research Topics: Transportation Policy

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Research workshop examining development of policy research and relevant methodologies linked directly to faculty and student interests. Students identify cutting-edge policy concerns and execute research program. The 4-credit version of course requires discussion section and research laboratory.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 820 - Technology, Science, and Innovation: Institutions and Governance

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores how political and economic institutions and cultural values shape pace, direction, costs, and benefits of technological innovation and scientific research. Special emphasis on interaction between national institutions, and values and processes of
globalization.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 821 - Analytic Methods for Technology, Science, and Innovation Policy

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Covers major methodological approaches to study of technology, science, innovation, and public policy. Focuses on analytical inputs to policy making, and assesses practical consequences in such areas as security, energy, environment, and health.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 830 - Comparative Socioeconomic Policy

Credits: 1-4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Throughout the past century, numerous socioeconomic theories have competed for primacy. This course compares, contrasts, and analyzes some of the leading socioeconomic theories and policies and places them in a global context. The role of these theories in shaping current public policy is explored.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 833 - Topics in Public Policy

Credits: 1-4
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Focuses on selected topics in public policy not covered in fixed-content public policy courses.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 834 - Entrepreneurship, Growth, and Public Policy
Credits: 1-4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Focuses on a closer consonance among entrepreneurship, geography, and economic growth. Studies the creation and incubation of new knowledge and features three theoretical fields: the new growth theory; the new economic geography; and the new economics of innovation. Develops a knowledge spillover theory of entrepreneurship. Examines public policy issues arising from these constructs, including competition, within a regional and global context.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 835 - Entrepreneurship, Creativity, and Innovation

Credits: 1-4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Provides multidisciplinary foundation for the study of entrepreneurship, creativity, and innovation, and their effects on regional and national economic growth. Draws from seminal thinkers and emphasizes creativity and innovation. Examines how organizational change, institutional structure, and geographic clustering drive the development of regional and national economies. Explores these issues through the lens of the three Ts of economic growth: technology, talent, and tolerance.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 840 - U.S. Policy-Making Institutions

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines major institutions that formulate and implement policy at national level. Emphasizes presidency, Congress, and executive branch bureaucracies. Also considers agenda-building institutions such as media, interest groups, political parties, and elections.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 841 - U.S. Policy-Making Processes

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Analyzes major U.S. public policy processes. Attention to major instruments for implementing policy, including regulation, grants, tax policy, and market-based mechanisms; and how different methodologies are appropriate for understanding aspects of policy inquiry. Covers ethical and accountability aspects of policy, including federalism, intergovernmental relations, and state
PUBP 850 - Seminar in Public Policy

Credits: 1
Repeatable within Term for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Weekly colloquium series, required of public policy PhD students. Features variety of speakers from universities, government, and nonprofit sectors. Topics include policy formulation and analysis, and theoretical and methodological foundation.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1
Grading: Satisfactory/No Credit

PUBP 860 - Social Theory, Culture, and Public Policy

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Covers major social and cultural theories that underlie public policies. Selections from classical and contemporary social theorists relevant to studying social change, social capital, and social organization. Focuses on interplay among culture, social institutions, social processes, and policy.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1

PUBP 861 - Culture and Social Policy Analysis

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Applies social and cultural theories to policy topics, including methodological approaches and empirical studies. Emphasizes linkage between theory and empirical research, and methods appropriate for social policy study. Policy topics may include poverty and inequality, family, education, crime and corruption, immigration, and health.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0-1
PUBP 862 - Institutional Analysis and Policy

Credits: 4  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Policy analysts are increasingly cognizant of the influence of societal institutions in shaping public policy, not only in terms of policy design, but also as a determinant of implementation. This course reviews the growing literature regarding institutional analysis; furthermore, it considers the ways in which institutions help shape the policies that emerge within a given society and the context by which they are evaluated.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUBP 870 - Organizational and Policy Aspects of Informatics

Credits: 1-4  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Examines effects of informatics on national and international policy; setting international policy on informatics; ethical and social change in governments and organizations; shaping national policy in informatics; industry growth; and research methods from various scientific disciplines.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUBP 871 - Organizational and Information Technology Challenges of the Knowledge Society

Credits: 4  
Not Repeatable for Credit  
Offered by Schar School of Policy and Government (formerly SPGIA)  
Explores links of policy, managing organizations, and information technologies in postmodern era. Includes issues related to contradictions among conventional models of organizational and process design, policy and regulatory structures, ideologies, and information technologies. Provides framework for becoming a sophisticated analyst of policy, organizations, and information technology.

Prerequisite(s): PUBP 870.  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

PUBP 872 - Managing Knowledge-Based, Information-Intensive Organizations
Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Deals with challenges of planning, creating, integrating, and managing contemporary information-technology enabled public and private sector organizations, and managing relationships between public and private enterprises enabled by information technology initiatives.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 880 - Global and International Public Policy I

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Explores multiple dimensions of globalization and internationalization relative to public policy processes and consequences. Offers substantive insight into contemporary public policy dynamics from global and comparative perspectives. Accordingly, it examines a broad range of international cultural, political, technological, and economic policy issues, and their interactions and implications at all levels of analysis. Engages relevant theoretical and methodological approaches and debates to provide tools for analyzing various world problems and policies.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 881 - International Trade Policy

Credits: 4
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Addresses international trade theory, trade policy analysis, regional economic integration, and institutional arrangements governing world trade. Covers World Trade Organization (including constituent agreements in goods, services, intellectual property and trade-related investment measures), regional trade agreements such as NAFTA, dispute settlement regimes, and relations between trade and the environment.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

PUBP 997 - Field Statement

Credits: 1
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Requires work on field statement in preparation for field exam.
Prerequisite(s): Permission of field committee chair.
Notes: Must register in semester during which field exam will be taken. May not be repeated. Does not apply to credit degree requirements.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

PUBP 998 - Research/Proposal for Dissertation

Credits: 1-9
Repeatable within Degree for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Requires work on research proposal that forms basis for doctoral dissertation.

Prerequisite(s): Permission of instructor. Contact program coordinator for approval and CRN to register via PatriotWeb.
Notes: May be repeated, but no more than 24 credits of PUBP 998 and 999 may be applied to doctoral degree requirements.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

PUBP 999 - Dissertation

Credits: 1-9
Repeatable within Degree for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Requires research on approved dissertation topic under director on dissertation committee.

Prerequisite(s): Permission of instructor.
Notes: May be repeated, but no more than 24 credits of PUBP 998 and 999 may be applied to doctoral degree requirements.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

Real Estate (REAL)

Offered by the School of Business.

REAL 500 - Real Estate Development Fundamentals
Credits: 3
Not Repeatable for Credit
Offered by School of Business
A comprehensive study of the main elements of the real estate development process. Examines the intricacies between residential, commercial and mixed-use development, and approaches to optimizing each. The value of market research and analysis, determining value propositions of prospective deals, zoning considerations, design and construction issues, and asset management will also be examined.

Prerequisite(s): Graduate standing

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

REAL 502 - Real Estate Client Leadership and Project Management

Credits: 3
Not Repeatable for Credit
Offered by School of Business
A study of the challenges faced by developers, both in terms of client (owner) challenges as well as project challenges. Examines assessment approaches and frameworks to assess clients, including analyzing the maturity of a representative client and identify key approaches to optimizing the relationship of that client. Examines specific project challenges-project assessment frameworks, and improvement approaches.

Prerequisite(s): Graduate standing, REAL 500 (or CEIE 580), or permission of the program director.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

REAL 610 - Management of Real Estate Design and Development

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Course develops a framework for understanding and managing processes associated with design and construction of real estate assets. Course focuses on the specific phases comprising a real estate development project and integration of these elements to achieve success. Topics include developing and coordinating service providers relationships, managing stages involved in the development cycle, understanding and controlling risks, and resolving disputes.

Prerequisite(s): Admission to the MSREAL Program or permission of the program director.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

REAL 615 - Real Estate Market Analysis and Research
The course will provide an introduction to the methods used in analyzing real estate markets from the perspective of decision-makers who are considering potential development, investment, or financing decisions. The courses will focus on sources and analysis of data for examining project feasibility and scope, timing and phasing of development, and communicating with prospective financial partners.

**Prerequisite(s):** Admission to the MSREAL Program or permission of the program director.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**REAL 620 - Real Estate Entrepreneurship**

Credits: 3

Not Repeatable for Credit

Offered by School of Business.

This course explores real estate development from an applied, entrepreneurial perspective. Emphasis is placed on understanding the unique challenges, risks, and opportunities faced by entrepreneurial developers as opposed to those operating in a larger, institutional context. Students explore strategies to evaluate opportunities, successfully structure deals, harness entrepreneurial competitive advantages such as flexibility and innovation, and ultimately create wealth through development.

**Prerequisite(s):** Admission to MS-BU-REAL program

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**When Offered:** Fall

---

**REAL 630 - Innovative Land Use, Approvals and Real Estate Development**

Credits: 3

Not Repeatable for Credit

Offered by School of Business.

Examines the challenges in designing innovative uses for land and balancing those prospective uses with local urban policies and the land development/zoning process. Introduces the entitlements process, the legal considerations of planning and zoning in America, and the language of zoning. Explores the impacts of the different forms of government on the entitlement process.

**Prerequisite(s):** Admission to the MSRED program or permission of the program director.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**REAL 690 - Topics in Real Estate Development**

Credits: 1-6

Repeatable within Degree for Credit

Offered by School of Business
Explores contemporary issues and challenges in the management and development of real estate. Topics not covered in the regular real estate development offerings. Course content may vary each semester. Course may be repeated with change in topic.

**Prerequisite(s):** Admission to the MSRED Program or permission of the program director.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 1-6

**Hours of Lab or Studio per week:** 0

**REAL 750 - MSRED Capstone**

Credits: 3
Not Repeatable for Credit
Offered by School of Business
The Capstone Project will be the culmination of the master's program, offered at the end of the program. The course will combine the theoretical teachings from the program with real world, practical situations. Students will apply concepts learned to current development and construction projects in the Washington, D.C. metropolitan area. One of the sample cases involves the potential future uses of a plot of land in the metro area, a mixed-use high-density area that is slated to undergo significant transformation. The case will request project teams to explore the various options, employing a decision-tree approach to fully analyze the options, and examining the SWOT, local urban management policies, future valuation streams, and environmental impacts of each. A site visit will be required, as well as visits to various developers engaged in similar projects.

**Prerequisite(s):** Admission to the MSRED Program or permission of the program director.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**REAL 796 - Directed Reading**

Credits: 1-6
Repeatable within Degree for Credit
Offered by School of Business

Admission to the MSRED program or permission of the program director.

**Prerequisite(s):** Admission to the MSRED program or permission of the program director.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 1-6

**Hours of Lab or Studio per week:** 0

**Reading Education (EDRD)**

Offered by the College of Education and Human Development
EDRD 300 - Literacy and Curriculum Integration

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Introduces K-12 content area reading, writing, and language arts. Emphasizes integration of reading and other language arts across curriculum.

Notes: Intended as an introduction to educational issues and is not applicable in Mason's graduate-level teacher education programs. School-based field experience required.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDRD 301 - Facilitating Literacy in School or Community Settings

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Provides knowledge, teaching strategies, and support for students working with developing readers and writers. Emphasizes implementation strategies that foster literacy development; incorporation of trade books and technology resources into individual and small group work; and reflection.

Notes: Requires 45 hours of school-based field experience during course.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDRD 419 - Literacy in the Content Areas

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Assists students in understanding the language and literacy process as it applies to teaching in middle and high schools. Focuses on instructional strategies to support literacy development, including adaptations for culturally diverse and exceptional learners.

Prerequisite(s): EDCI 473 and EDCI 483.  
Corequisite(s): EDCI 490.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
EDRD 501 - Literacy and Curriculum Integration, PK-12

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Introduces PK-12 content area reading, writing, and language arts. Emphasizes integration of reading and other language arts across curriculum; instructional planning; needs of diverse learners. Field experience in public schools required.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDRD 515 - Language and Literacy in Global Contexts

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Focuses on the relationship of language to reading and the connection between language structure and how we learn to read. Theories of language acquisition, the complexity of language development, and that of the reading process are examined. Key factions that influence and enhance language learning and development are explored. Introduces literacy instruction and literacy assessment for all learning and learners, and sociocultural perspectives on literacy are explored. Requires 20 hours of PK-12 classroom fieldwork.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Grading: Graduate Special
When Offered: Fall, Summer, Spring

EDRD 525 - Emergent Literacy for English Language Learners, PK-12

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides an introduction to emergent reading/writing processes in first and second languages. Focuses on developing reading skills in five areas: phonemic awareness, phonics, fluency, vocabulary, and text comprehension.

Equivalent to EDRD 515.
Prerequisite(s): EDCI 510, EDCI 516, or Permission of Instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDRD 558 - Literacy in the Content Areas, PK-12
EDRD 597 - Special Topics in Education

Credits: 1-6
Repeatable within Degree for Credit
Offered by Graduate School of Education
Provides advanced study on selected topic or emerging issue in American or international education.

Notes: May be repeated for credit with GSE permission.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

EDRD 610 - Content Literacy for English Language Learners, PK-12

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Focus on research-based instruction for teaching reading and writing in the content areas. Emphasizes similarities and differences between reading and writing in two or more languages, vocabulary development, reading fluency, and strategies for text comprehension. Requires 20 hours of PK-12 classroom fieldwork.

Prerequisite(s): EDRD 515 and EDCI 519
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDRD 614 - Teaching Reading in the Secondary School

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Emphasizes reading and writing in content areas; reading and writing causes, classroom diagnosis, and remediation of reading problems; study skills; and rates of reading.

Schedule Type: LEC
EDRD 615 - Reading/Writing for Multilingual Students

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Develops instructional competencies in reading and writing approaches for students from culturally and linguistically diverse backgrounds. Examines teaching reading and writing across curriculum, biliteracy acquisition, historical and current approaches for second language learners, preliteracy skills for younger and older English language learners, and special issues in developmental and diagnostic reading for language minority students.

Prerequisite(s): EDCI 516 and 519, or permission of instructor or advisor.
Schedule Type: LEC

EDRD 619 - Literacy in Content Areas

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Offers understanding of language and literacy process as it applies to teaching in secondary schools. Emphasizes reading and writing in content areas, and instructional strategies to support students' literacy development. Focuses on ways reading, writing, speaking, and listening are developed and used in learning discipline-specific curriculum, including adaptations for culturally diverse and exceptional learners.

Prerequisite(s): EDCI 567, 569, 572, or 573
Corequisite(s): EDCI 667, 669, 672, or 673
Schedule Type: LEC

EDRD 620 - Reading/Writing in Foreign/World Languages

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Introduces reading and writing processes in foreign and second languages, research on reading comprehension, and effective teaching and assessment approaches for students in PK-12 schools. Topics include reading goals and standards for foreign language learning, sociocultural perspectives, multimedia computer-assistance, research on related strategies and skills, and performance-based assessments.

Prerequisite(s): EDCI 516 and 519, or permission of instructor or advisor.
EDRD 630 - Literacy Foundations and Instruction for Diverse Populations: Birth through Middle Childhood

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Study of literacy theory, research, and practice as it relates to younger learners. Includes teaching of reading to English Language Learners and language acquisition for diverse populations (Special Education students who access the general curriculum). Addresses sociocultural, cognitive, linguistic, psychological, and developmental influences on children's literacy. Includes reading, writing, and oral communication.

Prerequisite(s): Admission to the literacy emphasis, or permission of program coordinator.

EDRD 631 - Literacy Foundations and Instruction for Diverse Populations: Adolescence Through Adulthood

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Study of literacy theory, research, and practice as it relates to adolescents and adults. Addresses sociocultural, cognitive, linguistic, psychological, and developmental influences on literacy. Includes reading, writing, and oral communication.

Prerequisite(s): EDRD 630 and admission to the literacy emphasis, or permission of program coordinator.

EDRD 632 - Literacy Assessments and Interventions for Groups

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides literacy assessments and interventions for groups of learners. Includes exploration of assessment tools for classrooms and large populations. Class members conduct related practice in their own classrooms or specified field settings.

Prerequisite(s): EDRD 630 and 631; admission to literacy emphasis, or permission of the program coordinator.
EDRD 633 - Literacy Assessments and Interventions for Individuals

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Provides literacy assessments and interventions for individuals. Includes diagnosis and remediation for learners who find reading and writing difficult. Requires assigned practicum experience.

Prerequisite(s): EDRD 630, 631, and 632; admission to literacy emphasis; or permission of program coordinator.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDRD 634 - School-Based Leadership in Literacy

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Prepares reading specialist as a school leader. Expands knowledge of literacy gained in prerequisite courses, and applies it to professional development work with teachers at their own site.

Prerequisite(s): EDRD 630, 631, 632, and 633; admission to literacy emphasis or permission of program coordinator.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDRD 635 - School-Based Inquiry in Literacy

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Capstone course in literacy emphasis focusing on research-based inquiry related to literacy in school settings. Includes review of literature and teacher inquiry project.

Prerequisite(s): EDRD 630, 631, 632, 633, and 634; admission to literacy emphasis; or permission of program coordinator.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDRD 637 - Supervised Literacy Practicum
EDRD 638 - Supervised Literacy Practicum

Credits: 2-3
Not Repeatable for Credit
Offered by Graduate School of Education
Supervised literacy practicum that requires students to conduct assessments of and provide instruction to struggling readers.

Prerequisite(s): EDRD 630, 631, 632
Corequisite(s): EDRD 633.

Schedule Type: INT
Hours of Lecture or Seminar per week: 2-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

EDRD 797 - Advanced Topics in Education

Credits: 1-6
Repeatable within Degree for Credit
Offered by Graduate School of Education
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education.

Notes: May be repeated for credit with CEHD approval.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

EDRD 829 - Advanced Foundations of Literacy Education

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Explores advanced foundational theory, research, and methodology across the broad field of literacy both nationally and internationally. Includes analysis of historical and current trends, research, practice, and policy in literacy. Individual projects will connect literacy to students' areas of interest. Appropriate for PhD in Education students in any specialization.

Prerequisite(s): EDUC 800, EDRS 810, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

EDRD 830 - Theory, Research, and Practice in Literacy: Birth through Middle Childhood

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Explores emergent through intermediate literacy. Topics include literacy acquisition and development in academically and linguistically diverse young children; historical and current trends in theories of literacy development; cognitive, linguistic, sociocultural, and instructional influences on literacy development; and assessment. Implications for teacher education and policy are explored. Individual research projects will connect literacy to students' areas of interest.

**Prerequisite(s):** EDUC 800 and EDRS 810.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring, Summer

**EDRD 831 - Theory, Research, and Practice in Literacy: Early Adolescence through Young Adulthood**

Credits: 3

Not Repeatable for Credit

Offered by Graduate School of Education

Explores youth culture and socio-historical constructions of adolescence; literacy in the lives of culturally and linguistically diverse learners; multimodal literacy; international literacy contexts; adolescent literacy policy and leadership; content area and disciplinary literacy; literacy needs of special learners; and adult literacy. Individual projects will connect adolescent literacy to students' areas of interests.

**Prerequisite(s):** EDUC 800 and EDRS 810.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring, Summer

**EDRD 832 - Research Methodologies and Trends in Literacy**

Credits: 3

Not Repeatable for Credit

Offered by Graduate School of Education

Develops knowledge and skills in the application of research methodologies in literacy to current national and international trends.

**Prerequisite(s):** EDUC 800, EDRS 810, or permission of instructor

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring, Summer

**Recreation (RECR)**

Offered by College of Education and Human Development.
RECR 100 - Brazilian Jiu-Jitsu: Intro

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Instructs students in self defense Brazilian Jiu-Jitsu techniques. Appropriate for students who have no prior experience in martial arts or Brazilian Jiu-Jitsu.

Equivalent to PHED 138 (2015-2016 Catalog)

Schedule Type: STU  
Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0  
Grading: Regular  
When Offered: Fall, Spring

RECR 101 - Brazilian Jiu-Jitsu: Intermediate

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Teaches students beginner-to-intermediate-level techniques in Brazilian Jiu-Jitsu. Focuses on specific defensive techniques to be used against an attacker along with escapes and submissions from a variety of different attacks. Requires participation in basic sparring with particular attention to safety and intensive training and conditioning routine.

Prerequisite(s): RECR 100 or Permission of Instructor  
Schedule Type: STU  
Hours of Lecture or Seminar per week: 1  
Grading: Regular  
When Offered: Fall, Spring

RECR 102 - Judo: Introduction

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Introduces basic body mechanics of throwing, sweeping, grappling, and submission skills used in Judo and for self-defense.  
Presents the history of Judo, rules of the sport and proper safety and falling techniques.

Equivalent to PHED 145 (2015-2016 Catalog)

Schedule Type: STU  
Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0  
Grading: Regular  
When Offered: Fall, Spring
RECR 103 - Judo: Intermediate

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Emphasizes the execution of proper skills and movements rather than the contact itself. Incorporates both offensive and defensive movements.

Schedule Type: STU  
Hours of Lecture or Seminar per week: 1  
Grading: Regular  
When Offered: Fall, Spring

RECR 104 - Karate: Introduction

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Emphasizes techniques, forms (kata), and sets (drills) from the American Kenpo Karate, which combines art and science. Relates techniques with motion and principles and builds on the previous skills to create a web of knowledge.

Equivalent to PHED 163 (2015-2016 Catalog)

Schedule Type: STU  
Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0  
Grading: Regular  
When Offered: Fall, Spring

RECR 105 - Karate: Intermediate

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Reviews information and refines skills developed in the introductory class. Introduces new forms and techniques to increase skill performance at the next level.

Equivalent to PHED 164 (2015-2016 Catalog)

Prerequisite(s): RECR 104 or permission of instructor  
Schedule Type: STU  
Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0  
Grading: Regular  
When Offered: Fall, Spring

RECR 106 - Krav Maga: Introduction
RECR 107 - Krav Maga: Intermediate

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Continues training in Krav Maga skills for experienced students. Explores multiple opponents, defending third parties, decision making skills, using & defending against weapons, and fight strategy.

Equivalent to PHED 183 (2015-2016 Catalog)

Prerequisites(s): RECR 106 or Permission of Instructor.
Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor.

Schedule Type: STU
Hours of Lecture or Seminar per week: 2.5
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 108 - Self Defense: Introduction

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Teaches beginner level of self-defense such as defensive techniques to be used against an attacker along with escapes and submissions from a variety of different attacks. Requires participation in basic sparring with particular attention to safety.

Equivalent to PHED 134 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring
RECR 109 - Self Defense: Intermediate

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.
Teaches more advanced defensive and offensive techniques, building on the student's previous training. Emphasizes continuous improvement in physical and mental fitness.

Equivalent to PHED 135 (2015-2016 Catalog)

Prerequisite(s): RECR 108 or Permission of Instructor
Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 110 - Tae Kwon Do: Introduction

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.
Develop basic skills of Tae Kwon Do, a Korean martial art that predominantly emphasizes kicking.

Equivalent to PHED 136 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 111 - Tae Kwon Do: Intermediate

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.
Develops intermediate-level skills of Tae Kwon Do, building on basic skills learned in the introduction course. Continues to focus on the student's mental development, as well as physical training.

Equivalent to PHED 137 (2015-2016 Catalog)

Prerequisite(s): RECR 110 or Permission of Instructor
Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 112 - Tae Kwon Do: Advanced

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Continues to enhance skills of Tae kwon do, focusing on the student's mental development as well as physical training.

Prerequisite(s): RECR 111 or Permission of Instructor
Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 113 - Fencing

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Gives the beginning student basic knowledge of the sport of fencing and teaches the fundamental movements so students can fence at a novice level. Teaches basic officiating and etiquette of the sport.

Equivalent to PHED 103 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 118 - Aerobics/ Basic Conditioning

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Introduces aerobic fitness. Provides students with lectures and multiple cardiovascular workouts. Covers cardiovascular endurance, cardiovascular diseases, body composition, nutrition, and weight management. Teaches the use of cardiovascular equipment and designing an aerobic fitness program.

Equivalent to PHED 105 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
RECR 119 - Fitness Walking

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Introduces students to cardiovascular exercise as it relates to a healthy lifestyle and improved quality of life. Covers design, implementation, and evaluation of a personal walking plan based on current fitness levels.

Equivalent to PHED 175 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 120 - Weight Training/ Body Conditioning

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Introduce students to fitness and healthy lifestyles. Provides students with an overview of the various types of weight training, with an emphasis on circuit weight training method.

Equivalent to PHED 108 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 121 - Backpacking: Introduction

Credits: 2
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Introduces practical and experiential activities for students with starting knowledge of backpacking. Involves discussions, demonstrations, and activities that teach the basics of backpacking. Covers equipment selection, map and compass skills, backcountry cooking, staying healthy in the outdoors, safety and emergency procedures, backcountry ethics (Leave No Trace), and natural history.

Equivalent to PRLS 120 (2015-2016 Catalog)
**RECR 122 - Exploring Outdoor Adventure**

Credits: 2  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Provides students an introduction to leadership theory and practice in planning outdoor adventure activities. Focuses on building skills necessary to engage in a wide range of individual outdoor adventure activities such as orienteering, geocaching, canoeing, rock climbing, and challenge course team building.

Equivalent to PRLS 110

**RECR 123 - Geocaching**

Credits: 1  
Repeatable within Degree for Credit  
Offered by School of Recreation, Health, and Tourism.  
Introduces geocaching using a map, compass, and GPS to navigate to a location. Involves discussion, practical application, and research.

Equivalent to PRLS 183 (2015-2016 Catalog)

**RECR 124 - Horsemanship: Introduction**

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Introduces the basics of horseback riding and horsemanship. Emphasizes how to care for a horse, tack a horse, and basic riding skills such as walking, trotting, and jumping small obstacles.
Equivalent to PRLS 122 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 125 - Horsemanship: Intermediate

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Builds the intermediate skills of horseback riding and horsemanship. Emphasizes technical riding and advancing basic horseback riding skills (e.g. figure S’s, serpentes, and change of direction). Focuses on how equitation affects the horse and horse behavior affects riding and safety.

Equivalent to PRLS 192 (2015-2016 Catalog)

Prerequisite(s): RECR 124
Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

RECR 126 - White-water Kayaking: Introduction

Credits: 2
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Introduces entry-level skills and knowledge necessary to navigate rapids up to Class II difficulty and plan and execute trips on moving water. Covers content such as paddle strokes and maneuvers, boat handling, basic terminology, equipment, proper clothing, kayak design, trip planning, river safety, self and group rescue techniques, water reading, river etiquette, and environmental ethics.

Equivalent to PRLS 170 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 127 - Coastal Kayaking: Intro

Credits: 2
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Provides instruction on core skills and knowledge necessary to safely paddle sea/coastal kayaks and plan trips on non-whitewater rivers and coastal environments. Includes instruction, but not limited to, boat handling, terminology, kayak design, trip planning, marine hazards and safety, rules of the Nautical Road, weather and tides and environmental ethics.

Equivalent to PRLS 173 (2015-2016 Catalog)

**Schedule Type:** STU  
**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**Grading:** Regular  
**When Offered:** Fall, Spring

---

**RECR 129 - Mountain Biking**

Credits: 2  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.
Provides students with the fundamentals of mountain biking through skills aimed to master techniques in descending and ascending hills, negotiating obstacles, and stopping. Skills in maintaining a bike and appreciation of terrain, navigation, and safety will also be covered.

Equivalent to PRLS 184 (2015-2016 Catalog)

**Schedule Type:** STU  
**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0  
**Grading:** Regular  
**When Offered:** Fall, Spring

---

**RECR 131 - Downhill Skiing**

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.
Teaches and refines basic skills and techniques of downhill skiing including becoming familiar with use of ski equipment, terminology, and safety rules. Includes lecture and field experience to improve downhill skiing skills.

Equivalent to PRLS 190 (2015-2016 Catalog)

**Schedule Type:** STU  
**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**Grading:** Regular  
**When Offered:** Spring

---

**RECR 132 - Snowboarding**
Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Teaches and refines basic skills and techniques of snowboarding; includes becoming familiar with use of equipment, terminology, and safety rules. Includes lecture and field experience to improve snowboarding skills.

Equivalent to PRLS 191 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Spring

RECR 133 - Indoor Rock Climbing: Intro

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Introduces equipment, techniques, safety, and planning related to basic rock climbing.

Equivalent to PRLS 116 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 134 - Rock Climbing: Introduction

Credits: 2
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Teaches basic climbing terms, techniques, equipment, and safety practices for top rope belay climbing and rappelling. Builds on communication skills and trust.

Equivalent to PRLS 117 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 135 - Rock Climbing: Intermediate
Credits: 2  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Provides advanced instruction into techniques and knowledge including climbing movements, knots and basic rope systems, rappelling, bouldering, introduction to sport climbing, and climbing history. Involves outdoor rock climbing sessions at local site.

Equivalent to PRLS 187 (2015-2016 Catalog)

Prerequisite(s): RECR 133 or RECR 134 or Permission of Instructor  
Schedule Type: STU  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0  
Grading: Regular  
When Offered: Fall, Spring

**RECR 136 - Pistol Marksmanship**

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Introduces students to marksmanship skills in Olympic sport and target shooting. Increases students' knowledge of shooting safety, position shooting, equipment care and maintenance, and shooting sports competition methods and techniques.

Equivalent to PRLS 124 (2015-2016 Catalog)

Schedule Type: STU  
Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0  
Grading: Regular  
When Offered: Fall, Spring

**RECR 137 - Trap and Skeet Shooting: Intro**

Credits: 2  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Designed to educate the student on gun and range safety. Includes hands-on learning of the games trap and skeet, where competitors fire at clay targets (approximately 4 ¼ inches in diameter and 1 ½ inches in height) launched from a trap at varying angles.

Equivalent to PRLS 119 (2015-2016 Catalog)

Schedule Type: STU  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0  
Grading: Regular  
When Offered: Fall, Spring
RECR 138 - Trap and Skeet Shooting: Intermediate

Credits: 2
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Increases the skill competencies in trap shooting. Includes hands-on learning of the different trap games (16-yard, handicap, doubles, and Olympic trap shoot on a wobble trap) where competitors fire at clay targets (approximately 4 ¼ inches in diameter and 1 ½ inches in height) launched from a trap at varying angles. Emphasizes gun and range safety.

Equivalent to PRLS 121 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 141 - Basketball: Introduction

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Introduces the basic elements of basketball, including dribbling, passing, shooting, tactics, and strategy.

Equivalent to PHED 120 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 143 - Soccer: Introduction

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Introduces the basic elements of soccer including dribbling, kicking, passing, trapping, tactics, and strategy.

Equivalent to PHED 102 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring
**RECR 144 - Soccer: Intermediate**

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Prepares the experienced soccer player in the aspects of the competitive game. Applies skills-training to competitive and recreational play. Covers strategies of offense and defense and variation of different systems of play.

Equivalent to PHED 182 (2015-2016 Catalog)

**Prerequisite(s):** RECR 143 or Permission of Instructor.  
**Schedule Type:** STU  
**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**Grading:** Regular  
**When Offered:** Fall, Spring

**RECR 145 - Volleyball: Introduction**

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Introduces students to fundamental knowledge and basic skills of volleyball.

Equivalent to PHED 174 (2015-2016 Catalog)

**Schedule Type:** STU  
**Hours of Lecture or Seminar per week:** 1  
**Grading:** Regular  
**When Offered:** Fall, Spring

**RECR 151 - Badminton: Introduction**

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Introduces the fundamental skills, rules, and strategies of badminton. Covers basic techniques and etiquette of both singles and double play.

Equivalent to PHED 177 (2015-2016 Catalog)

**Schedule Type:** STU  
**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**Grading:** Regular  
**When Offered:** Fall, Spring
RECR 153 - Racquetball: Introduction

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Introduces basic racquetball terms, rules, scoring, safety, and techniques for the forehand, backhand, overhead, and serve, as well as singles and doubles strategies.

Equivalent to PHED 165 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 154 - Racquetball: Intermediate

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Teaches intermediate skills, including ceiling shots, kill shots, passing shots, back wall strokes, advanced serves, court positions, and tactics and strategies for singles and doubles.

Equivalent to PHED 166 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 155 - Tennis: Introduction

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Teaches tennis terms, rules, scoring, techniques for the forehand and backhand ground strokes, volley, overhead, and serve, as well as basic strategy for singles and doubles.

Equivalent to PHED 151 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring
RECR 156 - Tennis: Intermediate

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Prepares experienced tennis player in advanced skills: point play, control of pace, direction, and depth of forehand and backhand, ground strokes, and topspin and underspin. Instructs tactical use of volley, styles of play, and strategies for singles and doubles. Introduces principles to refereeing. Applies skills-training to competitive and recreational play.

Equivalent to PHED 153 (2015-2016 Catalog)

Prerequisite(s): RECR 155 or Permission of Instructor  
Schedule Type: STU  
Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0  
Grading: Regular  
When Offered: Fall, Spring

RECR 161 - Scuba Diving: Basic

Credits: 2  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Provides training toward certification as an open water SCUBA diver. Emphasizes snorkeling (free diving introduction) and SCUBA skills. Covers safe diving skills, the physics of diving, equipment care and maintenance, diving fitness, underwater navigation, record keeping, and other basic SCUBA knowledge. With successful completion of the course, qualifies students for open water certification by Scuba Schools International (SSI).

Equivalent to PHED 255 (2015-2016 Catalog)

Schedule Type: STU  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0  
Grading: Regular  
When Offered: Fall, Spring

RECR 162 - Swimming: Beginning

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Develops a knowledge base and basic swimming skills for the weak swimmer and non-swimmer, and makes them water safe. Includes, but are not limited to, locomotion and propulsive movements in a prone and supine position, breath control, rhythmic breathing, beginning diving techniques, personal safety, and rescue skills to maintain a water-safe environment.

Equivalent to PHED 110 (2015-2016 Catalog)

Schedule Type: STU  
Hours of Lecture or Seminar per week: 1
RECR 163 - Swimming: Intermediate

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Builds on basic-level swimming skills by providing practice for confidence, refinement of coordination, and improvement of other aquatic skills. Presents more advanced swimming strokes and focuses on physical conditioning and aquatic safety.

Equivalent to PHED 150 (2015-2016 Catalog)

Prerequisite(s): RECR 162 or Permission of Instructor
Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 164 - Swimming: Advanced

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Builds on intermediate-level swimming skills by providing practice to refine and perfect swimming strokes, so that students swim with more ease, efficiency, power, and smoothness over greater distances. Focuses on developing a higher level of fitness and maintaining better physical conditioning. Introduces other aquatic activities to enrich the class and broaden the horizons of the participant.

Equivalent to PHED 159 (2015-2016 Catalog)

Prerequisite(s): RECR 163 or Permission of Instructor
Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 167 - Bowling: Introduction

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Teaches the sport of 10-pin bowling. Covers topics such as bowling etiquette, history of bowling, playing rules for league members, scoring, different approaches to the game, and the appropriate equipment for these approaches. Appropriate for
inexperienced and experienced bowlers.

Equivalent to PHED 162 (2015-2016 Catalog)

**RECR 169 - Golf: Introduction**

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Teaches basic golf terms, rules, and techniques for the full swing, putting, chipping, and pitching, as well as playing on a golf course.

Equivalent to PHED 140 (2015-2016 Catalog)

**RECR 170 - Golf: Intermediate**

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Designed for students with basic golf knowledge and skills. Includes course strategies, course management, the proper use of the rules, club selection, speed of play, skill building, and different golf formats.

Prerequisite(s): RECR 169 or Permission of Instructor

**RECR 171 - Latin Dance**

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides knowledge base of dance fundamentals and skill development in various Latin dances and will include basic rhythms, dance positions, floor alignments, techniques of leading and following, and maintenance of dance frame in partner dancing.
Introduces dances which may include but not restricted to Merengue, Mambo, Samba, Salsa, and Bachata.

Equivalent to PHED 113 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 172 - Social Dance

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides a knowledge base of dance fundamentals and skill development in various ballroom dances and includes basic rhythms, dance positions, floor alignments, techniques of leading and following, and maintenance of dance frame in partner dancing.

Equivalent to PHED 107 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 173 - Social Dance II

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides an introduction to the tango and additional patterns for popular social dance that may include the fox trot, waltz, cha-cha, rumba, and Eastern swing.

Equivalent to PHED 127 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 174 - Competitive Latin and Ballroom Dance

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Increase knowledge base of dance fundamentals and skill development in the competitive style of Latin and Ballroom dances. Focuses on alignments, techniques of leading and following, and maintenance of dance frame in partner dancing in competitive dances.

Equivalent to PHED 193 (2015-2016 Catalog)

Prerequisite(s): RECR 171 or RECR 172 or RECR 173 or Permission of Instructor
Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 181 - Meditation: Introduction

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Introduces students to philosophical foundations of meditation. Guides in the practice of meditation and its application to daily mental focus and concentration.

Equivalent to PHED 181 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 182 - Pilates: Introduction

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides the history and basic foundations of Pilates including an introduction to beginning Pilates exercises and their proper execution; exploration of modifications for certain exercises and the various props which may be used in the group class setting.

Equivalent to PHED 131 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 183 - Pilates: Intermediate
RECR 184 - Tai Chi: Introduction

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Increase awareness of the mind and body. Introduces basic principles of Chi (energy) and Yin Yang (polarity) and how they apply to the body through practicing the Tai Chi movements.

Equivalent to PHED 149 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 185 - Tai Chi: Intermediate

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Teaches Tai Chi Weapon (Tai Chi Straight Sword), as well as basic principles of Tai Chi. Increases awareness of the mind and body.
Indicate number

Equivalent to PHED 160 (2015-2016 Catalog)

Prerequisite(s): RECR 184 or Permission of Instructor
Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring
RECR 186 - Yoga: Introduction

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Introduces students to the practice of Hatha yoga. Emphasizes yoga asanas (postures) and pranayama (breathing exercises) to enhance physical fitness and mental concentration.

Equivalent to PHED 129 (2015-2016 Catalog)

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

RECR 187 - Yoga: Intermediate

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Emphasizes mastery of yoga asanas (postures) and pranayama (breathing techniques) to enhance physical fitness and mental concentration. Focuses on 10 new yoga poses and practice of the complete Sun Salutation.

Equivalent to PHED 130 (2015-2016 Catalog)

Prerequisite(s): RECR 186 or Permission of Instructor
Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Regular
When Offered: Fall, Spring

Religious Studies (RELI)

Offered by the College of Humanities and Social Sciences

RELI 100 - The Human Religious Experience

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Examines main forms of religious expression as embodied in several important religious traditions in contemporary world. Investigates religious experience; myth and ritual; teachings and scripture; ethical, social, and artistic aspects of religion; and nature and function of religion in human society.

Fulfills Mason Core requirement in global understanding.
**RELI 110 - Introduction to Jewish Ethics**

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Brief overview of Judaism and its classical texts. Examines a number of current ethical issues including artificial insemination, stem cell research, transplantation, abortion, homosexuality, capital punishment, from a Jewish perspective.

**RELI 211 - Religions of the West**

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Focuses on Judaism, Christianity, and Islam from historical, comparative, and cross-cultural perspectives. May also include modern developments of those faiths such as Mormonism and Baha'ism, as well as Zoroastrianism and religions of ancient Near Eastern cultures.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.

**RELI 212 - Religions of Asia**

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Surveys religions of India, Hinduism, Jainism, Sikhism, Buddhism, and the religions of the Far East, China, and Japan, including Daoism, Confucianism, Shinto, from origins to present.

Fulfills Mason Core requirement in global understanding.

Notes: Fulfills the college requirement in non-Western culture.
RELI 235 - Religion and Literature

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Explores the relationship between religion and literature in different times and cultures, the influence of religion on literary works, and how literature expresses major religious themes such as death and immortality, divine will and justice, suffering and human destiny, and religion and state.

Fulfills Mason Core requirement in literature.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 240 - Death and the Afterlife in World Religions

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Explores how selected world religions address the universal experience of death and express their beliefs in an afterlife. Focuses on the scriptures, beliefs, rituals and customs of selected world religions as they reflect each tradition's response to the most basic question about human destiny - how human beings face death and attempt to transcend it.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 272 - Islam

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Introduces basic religious beliefs and practices of Islam, with view to diverse manifestations of Islamic culture in different ethnic and social contexts. Provides overview of essential rituals of Islamic life, mystical practices of Sufis, certain popular forms of religious practice, sources and application of Islamic law, and distinctive Islamic artistic and literary forms.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
RELI 313 - Hinduism

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Introduces Hindu religion and thought, beliefs, rituals, ethics and religious practices. Emphasis on classical Hinduism, but also covers Hinduism and modernity, modern Hindu movements, and Hinduism as a global religion.  

Fulfills Mason Core requirement in global understanding.  

Notes: Fulfills the college requirement in non-Western culture.  

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 314 - Chinese Philosophies and Religious Traditions

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Surveys major religious traditions and philosophical themes of China including Confucianism, Taoism, and Chinese Buddhism and Neo-Confucianism. Examines foundation of Chinese world view and spirituality by investigating diverse religious traditions that have created tensions and harmony among them.  

Prerequisite(s): RELI 212, or permission of instructor.  
Notes: Fulfills the college requirement in non-Western culture.  

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 315 - Buddhism

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Surveys Buddhist religious traditions. Includes historical development of Buddhism in India, China, and Japan, examining both Theravada and Mahayana traditions; philosophical and religious significance of Buddhism; and social and political implications of Buddhist traditions in South Asian and East Asian countries.  

Fulfills Mason Core requirement in global understanding.  

Notes: Fulfills the college requirement in non-Western culture.  

Schedule Type: LEC
RELI 316 - Modern Christian Thought

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Examines influential Christian thinkers and Christian intellectual trends of the modern period, from the Enlightenment through the present.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 317 - Daoism

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Explores philosophical ideas, spiritual orientation, religious practice, and social and political values in Daoist tradition reading classic Daoist texts including Dao De Jing, Chuang-tzu, and other sources. Discusses Daoism in light of comparative and cross-cultural studies for global understanding of issues on concepts of nature, human nature, and good and evil.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 320 - Religion and Revolution in Latin America

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Explores the intersection between Christian and revolutionary thought, such as Marxism and existentialism, in Latin America after the 1960s that formed liberation theology. Emphasis on historical, philosophical and interdisciplinary issues.

Fulfills Mason Core requirement in Global Understanding.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 322 - Religions of Africa
Explore traditional religious practices and world views in Africa south of the Sahara, the spread of African religions to the Caribbean and the Americas, the forms that religions imported or imposed from the north have taken in Africa south of the Sahara, and the interaction among the religious cultures of Africa, European Christianity and Islam.

Fulfills Mason Core requirement in Global Understanding

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RELI 330 - Religion, Fantasy and Imagination**

Explore the worlds of religion, fantasy and imagination, presented in selected writings of 20th century fantasy authors, including Lewis, Tolkien, Pullman, Rowling. Covers ideas of quest for enlightenment, redemption or salvation, conflict between good and evil, worlds of the supernatural, parallel dimensions and their inhabitants.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RELI 331 - Religion in America**

Religious heritage in American culture, growth of denominations and sects, and interrelationship of religion and sociopolitical life.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RELI 332 - Mormonism**

Examines the origins and development of Mormonism, as embodied in the Church of Jesus Christ of Latter-day Saints and other related churches. Introduces students to a critical analysis of Latter-day Saint scriptures, rituals, and history.

**Schedule Type:** LEC
RELI 337 - Mysticism: East and West

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Comparative treatment of major expressions of mysticism in East and West through exploration of various ways of understanding mystical experience. Readings and discussion emphasize one or more of the Eastern (Hinduism, Buddhism, Taoism, Zen) and Western (Judaism, Christianity, Islam) traditions.  

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 341 - Global Perspectives on Spirituality and Healing

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Cross-cultural investigation of human understandings of relationship between spirituality and health. Beliefs about spiritual causes of sickness and health and spiritual techniques of healing in variety of world cultures placed in context of religious beliefs of those cultures.  

Fulfills Mason Core requirement in global understanding.

Prerequisite(s): 30 credits, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

RELI 350 - Religion and History of Ancient Israel

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Examines religion and history of ancient Israel from origins around 1250 BCE to Babylonian Exile in 587 BCE. Topics include debate on historical value of biblical narratives, extra-biblical texts mentioning Israel, move from polytheism to monotheism, archaeology and artifacts, and development of Israel's unique religious and historical self-understanding.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
RELI 352 - Judaism from Exile to Talmud

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Examines Jewish religion, history, and literature from the Babylonian Exile to third century C.E. Special attention to development of Hebrew Bible, Apocalyptic and Apocryphal literature, belief in resurrection and final judgment, Dead Sea Scrolls, Jewish sects, and emergence of Christianity and Rabbinic Judaism.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 353 - Jewish Political Tradition

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Explores Jewish thinkers' attitudes towards politics and state. Topics include traditional sources, theological and political crisis of modern times, liberal Jewish thought, Zionist ideology, Israel as a separate state, relationship between religion and politics in modern Israel.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 355 - Sufism

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Examines the tradition of Islamic mysticism, Sufism, through an exploration of the literature produced by Sufis themselves. Provide general introduction to Sufism and its spiritual perspective and investigates various genres of Sufi literature, including hagiography, symbolic scriptural exegesis, spiritual autobiography, didactic allegory and love poetry.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

RELI 356 - Jesus and the Gospels

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Examines Gospel accounts of Jesus in context of first-century Christianity. Applies variety of historical and literary methods to gain understanding of Jesus and history and theology of early church.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RELI 357 - Gender and the Body in Judaism**

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Explores distinctively Jewish approaches to questions of gender, sexuality, and the body as described in the legal, religious, ethical, and literary material in the Jewish tradition. Topics include the "body of God," circumcision, laws of purity, rites of passage, the synagogue, feminist theology, and masculine and feminine stereotypes.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RELI 360 - Religion and Politics**

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Explores the roles of religion in contemporary political life in the United States and abroad. Emphasizes religion in current political debates. Includes history, political theory, sociology, and theology to present a comprehensive understanding of the topic.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RELI 361 - Evangelical America**

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Introduces the intellectual and social sources of evangelical Protestant traditions in the United States. Examines varieties of evangelical beliefs and practices. Surveying a range of themes, including science, sexuality, politics, and environmentalism, students examine how evangelicals have defined themselves in opposition to secular society but also have engaged the secular in an effort to convert souls, manage personal behavior, and transform American society in their image of Christian community.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
REL 362 - Religion and Film

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Surveys representations of religious beliefs, practices, persons, and institutions in popular film. Focuses on the media consumption of box office movies in the United States. Examines how religion is imaged in film and how that religious imagination relates to social constructions of national, ethnic, racial, gender, and sexual identities.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

REL 363 - Catholicism

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Focuses on the beliefs of the over one billion Roman Catholics in today's world. Probes the history, doctrine, symbols, rituals, practices, and material culture of the world's largest church. Considers Catholicism's dialog with secularism and discusses controversies and challenges facing the church today.

Prerequisite(s): 3 credits in religious studies or philosophy or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

REL 364 - Religion and Law in the United States

Credits: 3  
Not Repeatable for Credit  
Offered by Religious Studies  
Explores issues relating to law and religion. Focuses on the legal doctrines that have arisen in cases under the Establishment and Free Exercise Clauses of the First Amendment. Topics include religion and public schools, government aid to religious institutions, including school vouchers, government endorsement of religious symbols, freedom of religious expression, and freedom of religious practice.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

REL 365 - Muhammad: Life and Legacy
EXAMINES life and character of the founder of Islam, as remembered and understood by Muslims, as well as explores influence of
his paradigmatic life and teachings on Islamic religious discourse and culture. Addresses Western critical studies of the accounts
of Muhammad's life and contemporary controversies regarding Muhammad.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 370 - Judaism

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Studies Judaism from origins to present. Includes origins of Judaism B.C.E.; Rabbinic Judaism; Jews in the Middle Ages; Hasidic
and Mystical Judaism; Enlightenment; persecution and Holocaust; contemporary American Judaism; and Jewish, Christian, and
Muslim relations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 372 - American Judaism

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Surveys Jewish religious life focusing on various types of American Judaism such as orthodox, conservative, reform,
reconstructionist, as they have developed historically and continue to evolve. Emphasizes issues and challenges facing
contemporary Judaism.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 374 - Islamic Thought

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Examines Islamic views on fundamental issues in religious thought, such as nature of God, nature of man, and relationship
between God and man as reflected in both divine revelation and human religious vocation. Investigates intellectual approaches to
these problems within Islamic tradition, including those of theological, philosophical, and mystical thinkers.
RELI 375 - Qur'an and Hadith

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Explores two primary sources of Islamic belief and practice: Qur'an and Hadith. Discusses thematic structure and literary quality, and examines theological and moral issues. Also introduces various methods of interpretation and critical analysis applied to texts in both Islamic and Western scholarship. Lecture and discussion.

Prerequisite(s): 3 credits in philosophy and religious studies, or permission of instructor.
Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 376 - Special Topics in Religious Thought

Credits: 3
Repeatable within Term for Credit
Offered by Religious Studies
Selected topics from a philosophical perspective.

Prerequisite(s): 3 credits in philosophy or religious studies, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 377 - Special Topics in Religious Thought

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Selected topics from a philosophical perspective.

Prerequisite(s): 3 credits in philosophy or religious studies, or permission of instructor.
Schedule Type: LEC
RELI 379 - Islamic Law, Society, and Ethics

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Introduces foundational sources and principles of Islamic Law or shariah. Examines the historical development and application of Islamic law, its role in Muslim societies, and its relationship to Islamic social ideals and ethical discourse.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 381 - Beginnings of Christianity

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Examines early Christian church from time of Jesus to 700 C.E. Covers internal development of Christianity as it formed official doctrines and institutions, and external relations of Christians with followers of other religions in Roman Empire. Special attention to reasons for success of Christianity in Roman world.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 386 - Islam in the Modern Age

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Covers the study of the Islamic tradition and its peoples during the last two centuries—the period of Islamic reform in the wake of Western hegemony—and the efforts of the community to readjust itself in light of Westernization and modernization, as well as the broader challenges of the secular, liberal, and technical age.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 387 - Islam, Democracy, and Human Rights
Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Evaluates the political and religious goals of Muslim societies and governments, and whether these goals are conducive to the development of democratic institutions to promote democratic cultures and explicit support for human rights, as well as to these societies' full integration in an international order founded upon secularism and modernism.

Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 401 - Death and the Afterlife in World Religions
Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Examination of the rituals, practices, and beliefs regarding death and the afterlife in world religions past and present. Emphasis placed on crosscultural and comparative aspects.

Prerequisite(s): 60 credits including 6 credits in religious studies or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 403 - Scripture and Authority in World Religions
Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Examines origins, development, and role of Scripture (religious texts) in world religions, concentrating on issues of divine inspiration, authority, authenticity, and canon.

Prerequisite(s): 60 credits including 6 credits in religious studies, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 405 - Religion, Values, and Globalization
Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Explores diverse value systems, ethical norms, and teaching found in different religious traditions and cultures. Examines assumption that globalization is attempt to universalize Western culture.
Prerequisite(s): 60 credits including 6 credits of religious studies, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 407 - Women in the World's Religions

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Seminar course offering theoretical and comparative study of role of women in six of the major religious traditions of the world—Judaism, Christianity, Islam, Hinduism, Buddhism, and Chinese religions.

Prerequisite(s): 60 credits; 6 credits of philosophy or religious studies.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 420 - Seminar

Credits: 3
Repeatable within Term for Credit
Offered by Religious Studies
Senior seminar on a specific topic of relevance to religious studies. Content varies.

Fulfills writing intensive requirement in the major.

Prerequisite(s): Major in religious studies with 60 credits including 9 credits or permission of instructor.
Notes: May be repeated three times when topic varies. Students with other majors may be take the course if the topic is sufficiently close to their field of study.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 425 - Directed Readings in Religious Studies

Credits: 1-3
Repeatable within Degree for Credit
Offered by Religious Studies
Individual readings and research in religious studies on a topic selected in consultation with instructor.

Prerequisite(s): Major in religious studies with 60 credits including 9 credits in religious studies.
Notes: May be repeated for a total of 6 credits.

Schedule Type: IND
RELI 426 - Religious Studies Internship

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Course rubric to be used for acquiring academic credit in Religious Studies for religious studies related internships.

Prerequisite(s): The completion of 60 undergraduate credits and 12 credits toward the Religious Studies major or minor.
Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

RELI 490 - Comparative Study of Religions

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Cross-cultural examination of comparative aspects of religious phenomena. Examines significance of religious phenomena from diverse religious and cultural perspectives, and investigates patterns of religious phenomena that have appeared in world cultures and civilizations.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): 9 credits in religious studies including RELI 211 and RELI 212, or permission of instructor.
Notes: Fulfills the college requirement in non-Western culture.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 591 - Special Topics in Religious Studies

Credits: 3
Repeatable within Term for Credit
Offered by Religious Studies
Topics in religious studies selected by importance in the field and pertinent to the role of religion in society and culture. Emphasis on historical, interdisciplinary, and cross-cultural issues.

Notes: May be repeated for a maximum of 12 credits when topic is different with permission of department.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
RELI 630 - Approaches to the Study of Religion

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Examines study of religion as academic discipline. Evaluates various intellectual approaches and methods used in study of religious phenomena.

Prerequisite(s): Graduate standing, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 631 - Sacred as Secular in Modern Spirituality

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Investigates nature of sacred and categories of sacred and secular in human experience. Both duality and interconnectedness of sacred and secular explored to facilitate fresh understanding of essential unity of human religiosity and spirituality.

Prerequisite(s): Graduate standing, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 632 - World Religions in Conflict and Dialogue

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Explores reasons for instances of global religious conflicts and examines ways of engaging in interreligious dialogue. Investigates religious pluralism as an effective means for dialogue.

Prerequisite(s): Graduate standing, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 633 - Ethical Perspectives of World Religions

Credits: 3
Repeatable within Degree for Credit
Offered by Religious Studies
Examines how perceptions of ultimate reality shape ethical values and behaviors of various religious traditions. Addresses problems in interpretation of authoritative foundational teachings in contemporary contexts. Special attention to non-Western religions.

**Prerequisite(s):** Graduate standing, or permission of instructor.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**RELI 635 - World Religions in Transition and Transformation**

Credits: 3
Repeatable within Degree for Credit
Offered by Religious Studies
Explores transitions and transformations in selected world religions as they respond to and influence forces of cultural change, social values, and the crises of history. Fresh or modified constructions of the sacred and their relationship to world and humans will be examined.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**RELI 636 - Religion and the Natural Environment**

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Explores contemporary religious thought on the morality and ethics of environmental responsibility. Begins with an exploration of this issue in Western Christian thought and examines religious approaches to the environment in the traditional and contemporary thought of other major world religions, including Judaism, Islam, Hinduism, Buddhism, and the Chinese traditions.

**Schedule Type:** SEM
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**RELI 640 - Religion and Law**

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Focuses on United States Supreme Court decisions on religion clauses over the last 50 years. Provides a close reading of court's opinions and considers material from religious legal traditions. Covers contemporary political debates on issues like prayer in public schools, displays of religious symbols, ceremonial references to God, and public aid to religious schools.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
RELI 642 - Sacred Language, Scripture, and Culture

Credits: 3
Repeatable within Degree for Credit
Offered by Religious Studies
Explores how sacred languages and scriptures develop in major global religious traditions: study of grammar, syntax, and morphology of sacred languages; issues of inspiration, authority and canon. Also examines cultural dimensions of sacred language.

Prerequisite(s): Graduate standing, or permission of instructor.
Notes: May be repeated once when languages are different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 644 - Islamic Texts and Contexts

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Introduces foundational Islamic texts; scholarly traditions of commentary, criticism and analysis on these texts; and application and significance of these texts in contemporary Islamic discourses.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 645 - Muslim Comparative Theologies: Sunni-Shi’i Religious Thought

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Compares and analyzes Sunni and Shi’ite theologies, with particular attention to the historical development of Muslim creed in the context of social and political conditions, and the essential differences between the Sunni and Shi’ite schools of thought.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 646 - Islam and Human Rights

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Comparing the conception of human rights in international human rights documents and accords with conceptions of human rights in classical Islamic theological, legal, and ethical texts. Examines various relevant issues, including but not limited to religious and gender discrimination, slavery, freedom of religion and belief and apostasy, and questions of punishment.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RELI 660 - Islamic Biomedical Ethics

Credits: 3
Not Repeatable for Credit
Offered by Religious Studies
Examination of the foundations of religious ethics and ethical principles developed by Muslims to solve bioethical problems. Relates ethical principles to the moral experience of contemporary Muslims, and explores the role of human experience and intuitive reasoning in deriving ethical decisions.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Rehabilitation Science (RHBS)

Offered by the College of Health and Human Services

RHBS 201 - Introduction to Rehabilitation Science

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Introduces the field of rehabilitation science. Surveys various topics within rehabilitation science including development of the field, models of disablement-enablement, facilitators and barriers to enablement across the lifespan.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

RHBS 270 - Applied Human Anatomy and Physiology I

Credits: 4
Not Repeatable for Credit
Offered by Rehabilitation Science
Develops a comprehensive understanding of the interrelationships of anatomy and physiology as observed in the human
RHBS 271 - Applied Human Anatomy and Physiology II

Credits: 4
Not Repeatable for Credit
Offered by Rehabilitation Science
Develops a comprehensive understanding of the interrelationships of anatomy and physiology as observed in the human organism, and introduces application of knowledge to health, disease and dysfunction. Emphasis on digestive, endocrine, lymphatic, genitourinary, and reproductive systems.

Equivalent to HHS 271 (2012-2013 Catalog)

Prerequisite(s): RHBS 270.
Schedule Type: LAB,
LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3
When Offered: Fall, Summer, Spring

RHBS 340 - Health, Disease and Dysfunction

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Focuses on basic epidemiology, health promotion and disease prevention, as well as impairments in normal function of the individual resulting in disease and dysfunction. Exploration of the individual and societal impact of health and disease. Introduces current rehabilitation and intervention strategies as well as classification of disease and disability.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall.

RHBS 345 - Applied Biomechanics in Rehabilitation

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science.
Introduces basic concepts and principles of biomechanics in the study and analysis of functional human movement. Discusses the biomechanical principles as applied in both healthy and clinical populations. Develops an understanding of the scientific and clinical applications of biomechanics to rehabilitation interventions.

Prerequisite(s): College level physics or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Grading: Regular
When Offered: Fall

RHBS 350 - Clinical Physiology and Human Performance

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Investigates the study of human physiology and how it relates to physical activity, health, and functional ability. Specifically, examines the metabolic, locomotive, endocrine, cardiovascular, and pulmonary responses to physical activity and their contributions and limitations to human performance.

Prerequisite(s): College-level chemistry or permission of instructor or department chair.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer, Spring

RHBS 375 - Gait and Functional Movement Analysis

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Analyzes human gait and common structural impairments associated with functional performance. Provides the fundamental terminology, techniques, and data interpretation methods used in gait analysis and assessing human physical function.

Prerequisite(s): RHBS 270 and RHBS 271 or similar courses in human anatomy and physiology.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer

RHBS 380 - Neural Basis of Movement

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Introduces major topics in sensory and motor neurophysiology as they relate to motor control and motor learning. Includes organization of sensory and motor systems, neural mechanisms of learning and memory, and current neurophysiological testing
techniques. Special emphasis is placed on the implications for motor impairment and recovery following nervous system disease or injury.

**Prerequisite(s):** RHBS 270 and RHBS 271 or equivalent anatomy and physiology course.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer

---

**RHBS 390 - Clinical Assessment of Functional Capacity**

Credits: 3  
Not Repeatable for Credit  
Offered by Rehabilitation Science  
Examines the scientific basis and theory for exercise assessments in healthy persons and those with chronic disease and disability. Covers cardiorespiratory fitness measurements, cardiac function, body composition, muscular strength and endurance.

**Prerequisite(s):** Undergraduate course in anatomy and physiology or permission of instructor.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**RHBS 410 - Physical Activity and Public Health**

Credits: 3  
Not Repeatable for Credit  
Offered by Rehabilitation Science  
Investigates the basic principles and concepts of epidemiology and the influence of exercise and physical activity on the most common risk factors for prevalent chronic diseases in the United States of America.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer

---

**RHBS 415 - Clinical Movement Science I**

Credits: 3  
Not Repeatable for Credit  
Offered by Rehabilitation Science  
Describes how the human nervous and musculoskeletal systems work together to move the human body, with special emphasis on movement disorders and disabilities. Topics include movement and motion principles, muscle force production, physiology, and adaptation, along with the measurement of muscle activity, body movements, and body forces.

**Prerequisite(s):** College-level physics or permission of instructor or department chair.

**Schedule Type:** LEC
RHBS 416 - Clinical Movement Science II

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Describes how the human nervous and musculoskeletal systems work together to move the human body, with a special emphasis on movement disorders and disabilities. Topics include movement control, adaptation, and learning; experimental and clinical assessment of body movements and forces, treatment of abnormal movement, and rehabilitation technologies.

Prerequisite(s): RHBS 415 or permission of instructor or department chair.
Schedule Type: LEC

RHBS 418 - Exercise Endocrinology

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Explores the role of the endocrine system in the coordination and regulation of the body's internal environment under acute and chronic exercise conditions.

Prerequisite(s): RHBS 270 and RHBS 271 or similar course in human anatomy and physiology.
Schedule Type: LEC

RHBS 420 - Adult Health and Function

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Approaches the study of function and normal development, how it is attained and how it is optimized with a multi-systems viewpoint. Focuses on the components of functional movement. Addresses strategies for assessing, promoting and maintaining functional independence. Highlights current treatment approaches of disease and dysfunction.

Schedule Type: LEC
RHBS 450 - Psychosocial Adaptation in Rehabilitation

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Examines the psychosocial impacts of rehabilitation and disability. Provides a disability perspective from the individual and society and explores the interaction between them.

Prerequisite(s): Completed RHBS 201 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer, Spring

RHBS 455 - Research in Rehabilitation Science

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Describes central principles of scientific method and ethical and regulatory responsibilities of rehabilitation science researchers. Explores application of scientific method in basic, interventional, clinical and translational research. Develops ability to read literature critically and make appropriate scientific inferences. Introduces basics of grant writing.

Prerequisite(s): STAT 250 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer

RHBS 489 - Introduction to Clinical Research

Credits: 1
Not Repeatable for Credit
Offered by Rehabilitation Science
Provides students with a basic understanding of what clinical research is and the scientific principles on which it is based. Starts with a historical perspective on clinical research and then goes on to explore the following topics: purpose of clinical research, ethical and regulatory implications of clinical research, and the roles and responsibilities of all parties involved in clinical research.

Prerequisite(s): Course is open to honors college students only or by permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Spring
RHBS 490 - RS: Clinical Research Internship

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Practical experience in a clinical research setting under the direction of a mentor. Each student is required to work with an experienced clinical investigator who agrees to provide the trainee mentorship. Clinical research embraces a spectrum of scientific disciplines that use a variety of study methods. Therefore, the multidisciplinary approach to clinical research is emphasized during didactic interactions.

Designated as a research and scholarship intensive course.

Prerequisite(s): Course is open to honors college students only. In addition, an application must be submitted in the semester prior to enrollment in the course. During the semester prior to entry, students may be asked to acquire certain competencies/certifications in order to fully participate at their research site (for example, human subjects research protections training, lab safety certification, HIPAA training).
Schedule Type: INT, LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 3
When Offered: Spring

RHBS 491 - Directed Research

Credits: 1-3
Repeatable within Degree for Credit
Offered by Rehabilitation Science
Engages students in a directed research project under the guidance of a faculty member.

Prerequisite(s): Permission of the instructor.
Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-3
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

RHBS 499 - Senior Capstone in Rehabilitation Science

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Combines the student's academic training and professional experiences in order either to develop a community-based activity, intervention, program, or product designed to impact the overall health or performance of the target group or population or to complete an independent research project.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring
RHBS 606 - Clinical Exercise Physiology

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Examines acute and chronic alterations and adaptations associated with exercise and training. Covers role of exercise therapy in preventing and rehabilitating from disease across lifespan. Particular emphasis on role of exercise therapy in cardiorespiratory, musculoskeletal, and metabolic diseases.

Equivalent to RHBS 506 (2013-1014 Catalog).

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or permission of instructor
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

RHBS 610 - Scientific Basis for Pain and Fatigue

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Reviews the scientific literature describing the theories of the initiation and perpetuation of pain, fatigue and suffering. Describes the methodologies used to evaluate these symptoms. Students will apply the theories of pain, fatigue and suffering to further their understanding of specific clinical problems.

Equivalent to RHBS 510 (2013-2014 Catalog).

Prerequisite(s): Undergraduate level physiology course or enrollment in a graduate-level Rehabilitation Science program or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

RHBS 620 - Psychosocial Aspects of Rehabilitation

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Explores social and psychological impacts of disability. Processes by which people with disabilities adapt to limitations will be examined, as will the influence society has in promoting independence/dependence among people with disabilities.

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
RHBS 650 - Foundations of Rehabilitation Science

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Examines the field of rehabilitation science with emphasis on the core theories and models of this emerging discipline. Surveys various topics within rehabilitation science including the history and development of the field, assistive technologies, pathology and impairment research, functional limitations research, disability research, translational research, and ethical considerations in clinical and research settings.

Equivalent to RHBS 550 (2013-1014 Catalog).

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

RHBS 651 - Research Design and Methods I

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Explores quantitative and qualitative research methods, principles and techniques necessary for implementation of health science research.

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or permission of instructor.
Corequisite(s): GCH 601 or graduate course in applied statistics.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

RHBS 652 - Research Design and Methods II

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Explores advanced experimental and quasi-experimental research methods frequently utilized in rehabilitation research. Develop theoretical and practical knowledge necessary to conduct independent research.

Prerequisite(s): RHBS 651 or permission of instructor.
Schedule Type: SEM
RHBS 670 - Movement Analysis of Function

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Applies biomechanical principles of movement to analyze functional activities, including walking, sit-stand, lifting, reaching-carrying activities, and stairs negotiation. Focuses on joints and total body kinematics and kinetics, and the contribution of muscular activity to performance. Applies methods of analyzing human motion to estimate changes in forces and moments (torques) during functional performance. Addresses how age and injuries affect functional performance.

Equivalent to RHBS 570 (2013-1014 Catalog).

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or permission of instructor
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 680 - Behavior Change in Chronic Illness

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Explores behavior change as related to chronic illness, especially diabetes/obesity, cardiovascular and cerebrovascular disease, and arthritis. Topics include behavior change theories; research approaches to studying behavior change; influence of personal factors, patient-provider communication/relationships, and social support on behavior change; and adherence to prescribed regimens.

Equivalent to RHBS 580 (2013-1014 Catalog).

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or permission of instructor
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer

RHBS 702 - Biobehavioral Aspects of Health

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Examines the biological, psychological, and social factors that interact with and affect efforts people make in promoting good health and preventing illness and the recovery, rehabilitation, and psychosocial adjustment of patients with serious health
problems.

**Prerequisite(s):** GCH 601 or equivalent, or a graduate-level research methods course.
**Schedule Type:** SEM
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall

**RHBS 710 - Applied Physiology I**

Credits: 3  
Not Repeatable for Credit  
Offered by Rehabilitation Science  
Examines the primary bio-regulatory and communication systems. A detailed study of physiology for graduate students interested in health and human movement, chronic illness, and disability. Covers energy metabolism, endocrine, immune, neurological, and muscular systems.

**Prerequisite(s):** Enrollment in a graduate-level Rehabilitation Science program or permission of instructor
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall

**RHBS 711 - Applied Physiology II**

Credits: 3  
Not Repeatable for Credit  
Offered by Rehabilitation Science  
Explores general systemic function. A detailed study of physiology for graduate students interested in health and human movement, chronic illness, and disability. Covers cardiovascular, pulmonary, gastrointestinal, renal, and reproductive systems.

**Prerequisite(s):** RHBS 710.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring

**RHBS 720 - Principles of Clinical Trials**

Credits: 3  
Not Repeatable for Credit  
Offered by Rehabilitation Science  
Provides a practical overview of the fundamental principles of clinical trial design and management, ethical and regulatory factors in the conduct of clinical trials, and their role in clinical practice, public health and decision making. Topics include clinical trial design, biostatistics, ethics and regulatory affairs, study management and oversight, and current concepts.
Prerequisite(s): Graduate level statistics/methods course(s) and Enrollment in a graduate level Rehabilitation Science program or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**RHBS 740 - Applied Physiology: Cardiorespiratory**

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Rigorous, evidence-based study of biological factors and medical conditions that limit oxidative metabolic function. Emphasis on examining current hypotheses of physical activity limitations in chronic illness and disability.

Prerequisite(s): RHBS 506 or EFHP 610 or RHBS 710 or other graduate physiology course, plus one of the following: two-semester course sequence in anatomy and physiology (100 level or above) or one course in animal or comparative physiology (300 level or above) or one course in human physiology (300 level or above).
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**RHBS 745 - Metabolic Basis of Disability**

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Examines anatomy and physiology of organs and systems involved in regulating metabolism; assesses relationships among hormonal and central nervous system regulation in the production and regulation of energy.

Prerequisite(s): RHBS 710 and Enrollment in a graduate-level Rehabilitation Science program or permission of instructor
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**RHBS 746 - Movement Control and Learning**

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Describes how the human nervous and musculoskeletal systems work together to move the human body, with a special emphasis on movement disorders and disabilities. Topics include movement and motion principles, muscle force production, physiology, and adaptation, along with the measurement of muscle activity, body movements, and body forces.

Prerequisite(s): RHBS 710
RHBS 750 - Physiology of Clinical Exercise Interventions

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Critiques current knowledge of exercise prescription in both healthy and clinical populations. Examines physiological effects of exercise interventions, with emphasis on chronic disease and disability.

Prerequisite(s): RHBS 606 and Enrollment in a graduate-level Rehabilitation Science program or permission of instructor

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 754 - Movement Disorders: Etiology, Assessment, and Analyses

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Applies concepts of neuromechanics to the assessment and analysis of normal and pathological movement using both existing clinical assessments and laboratory-based measures of body kinematics, kinetics, muscle activity, and perception/cognition interactions with movement. Discusses benefits and limitations of assessment and analysis techniques as well as current research with regard to advancing these techniques.

Prerequisite(s): RHBS 746 and Enrollment in a graduate-level Rehabilitation Science program or permission of instructor

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

RHBS 760 - Rehabilitation Science Colloquium

Credits: 1
Repeatable within Degree for Credit
Offered by Rehabilitation Science
Public forum for the presentation and discussion of contemporary issues in the field of rehabilitation science.

Prerequisite(s): Enrollment in PhD program in Rehabilitation Science or permission of the graduate director.
Notes: May be repeated for credit; however a maximum of three credits may be applied to the rehabilitation science Ph.D.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
RHBS 761 - Aging and Health Behavior

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Examines age-related changes in health and health behavior along with the impact of structural factors, societal, and personal attitudes toward aging. The successful aging paradigm will frame discussion of strategies for facilitating optimal health behaviors.

Prerequisite(s): RHBS 620 and enrollment in a graduate-level Rehabilitation Science program or permission of instructor
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 808 - Outcomes Measurement

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Examines the principles of measurement applied to both assessment and outcome measures commonly used in rehabilitation. The student will become familiar with the state of outcomes research in the field of rehabilitation science.

Prerequisite(s): RHBS 550 and RHBS 551.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

RHBS 816 - Rehabilitation Efficacy and Effectiveness Research

Credits: 3
Not Repeatable for Credit
Offered by Rehabilitation Science
Examines the theory and methods of comparative effectiveness studies and their relationship to developing Rehabilitation Science and other disciplines to effect better clinical practice by identifying benefits/harms of prevention and treatment and explores the implications of evidence for comparative effectiveness in developing health care policy.

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or permission of instructor
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring
RHBS 850 - Teaching Practicum

Credits: 3
Repeatable within Degree for Credit
Offered by Rehabilitation Science
Prepares students for teaching role as an academic through direct teaching experiences in undergraduate courses in Rehabilitation Science under the supervision of a graduate faculty member, including syllabus development, lecture preparation, presentation skills, grading, and course evaluation.

Prerequisite(s): Permission of instructor.
Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Spring

RHBS 894 - Special Topics in Rehabilitation Science

Credits: 3
Repeatable within Term for Credit
Offered by Rehabilitation Science
In-depth study of contemporary topics in Rehabilitation Science. Course topics vary each semester.

Prerequisite(s): Enrollment in a graduate-level Rehabilitation Science program or Permission of instructor.
Notes: Students may take up to 9 credits of RHBS 894 with permission of program director.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

RHBS 940 - Independent Study

Credits: 1-6
Repeatable within Degree for Credit
Offered by Rehabilitation Science
In-depth study of selected area of rehabilitation science under the direction of faculty.

Prerequisite(s): Enrollment in PhD program and permission of instructor.
Notes: May be repeated as needed, up to a maximum of 24 credits.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-12
Grading: Satisfactory/No Credit
When Offered: Fall, Spring, Summer
RHBS 960 - Directed Research

Credits: 1-6
Repeatable within Term for Credit
Offered by Rehabilitation Science
Research on a pertinent topic in rehabilitation science. Must be arranged with instructor before registering.

Prerequisite(s): Permission of instructor.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Spring, Summer

RHBS 998 - Doctoral Dissertation Proposal

Credits: 1-9
Repeatable within Term for Credit
Offered by Rehabilitation Science
Work on research proposal that forms basis for doctoral dissertation.

Prerequisite(s): Advancement to PhD candidacy.
Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Summer, Spring

RHBS 999 - Dissertation Research

Credits: 1-9
Repeatable within Degree for Credit
Offered by Rehabilitation Science
Dissertation research on a specific topic under the direction of a faculty member.

Prerequisite(s): Enrollment in PhD program in rehabilitation science and permission of graduate director.
Notes: May be repeated, up to a maximum of 24 credits.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1-9
Grading: Satisfactory/No Credit
When Offered: Fall, Spring, Summer

Russian (RUSS)
Offered by the College of Humanities and Social Sciences.

Placement: See Academic Testing in the Admissions section.

**RUSS 101 - Elementary Russian I**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages  
For students with no knowledge of Russian. Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

**Notes:** Students may not receive credit for RUSS 101 and RUSS 110.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RUSS 102 - Elementary Russian II**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Continuation of RUSS 101.

**Prerequisite(s):** RUSS 101 or permission of department.  
**Notes:** Students may not receive credit for RUSS 102 and RUSS 110.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**RUSS 110 - Elementary Russian**

Credits: 6  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

**Notes:** Students may not receive credit for RUSS 110 and RUSS 101, 102.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 6  
**Hours of Lab or Studio per week:** 0
RUSS 199 - Russian Language and Culture for Students and Professionals

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Designed for English-speaking specialists in humanities, sciences, and business studies in Russia. Covers range of topics, including elementary Russian phonetics and grammar, basic conversation, and Russian etiquette. Course theme is language needs of foreigners who happen to be traveling and conducting business activities in Russia. Acquaints students and professionals with cultural framework that forms indispensable backdrop to daily activities in Russia. Students become increasingly confident and effective in their ability to engage Russians from all walks of life in daily informal and professional conversation in the Russian language.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 201 - Intermediate Russian I

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Further development of skills in listening, speaking, reading, and writing.

Prerequisite(s): RUSS 102, appropriate placement score, or permission of department.
Notes: RUSS 201 and 202 must be taken in sequence. Students may not receive credit for RUSS 201 and RUSS 210.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 202 - Intermediate Russian II

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Application of language skills to reading, composition, and discussion.

Prerequisite(s): RUSS 201, appropriate placement score, or permission of department.
Notes: Students may not receive credit for RUSS 202 and RUSS 210.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 210 - Intermediate Russian
RUSS 210 - Gateway to Advanced Russian

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Integration of advanced intermediate-level Russian grammar, reading, writing, listening and speaking skills with the development of research skills and critical thinking about authentic texts from contemporary media.

Prerequisite(s): RUSS 210, appropriate placement score, or permission of department.
Notes: Taught in Russian.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 250 - Gateway to Advanced Russian

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Russian-speaking regions. Lab work required.

Prerequisite(s): RUSS 110 or appropriate placement score.
Notes: Students may not receive credit for RUSS 210 and RUSS 101, 102.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

RUSS 302 - Russian Conversation and Composition

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Develops in students ability to express themselves orally on topics of current interest and everyday situations. Provides practice in more difficult forms of written expression.

Fulfills writing intensive requirement in the major.

Prerequisite(s): RUSS 250, appropriate placement score, or permission of instructor
Notes: Taught in Russian.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 303 - Russian Advanced Conversation
RUSS 309 - Development of Oral Proficiency

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Development of oral proficiency. Includes current colloquial expressions.

Prerequisite(s): RUSS 250, appropriate placement score, or permission of instructor.
Notes: Taught in Russian.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 310 - Readings in Russian Literature

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Readings of Russian literary works in original language with lectures, discussions, and exam in Russian.

Prerequisite(s): RUSS 250, appropriate placement score or permission of instructor.
Notes: Taught in Russian.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 311 - Contemporary Russian Short Fiction

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Reading and discussion of recent short stories by best-known Russian writers of today.

Prerequisite(s): RUSS 250, appropriate placement score or permission of instructor.
Notes: Taught in Russian. Readings in original language.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 325 - Major Russian Writers

Credits: 3
Repeatable within Term for Credit
Offered by Modern and Classical Languages.
Study of works of major Russian writers in translation. Writers to be studied vary.
Fulfills Mason Core requirement in literature.

Fulfills writing intensive requirement in the major.

Prerequisite(s): ENGL 101/ENGH 101 or equivalent, or permission of instructor.
Notes: Taught in English. May be repeated once for credit when course content is different.

RUSS 326 - A Survey of Russian Literature

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Surveys Russian literature from its beginning to 1880.

Fulfills Mason Core requirement in literature.

Prerequisite(s): 60 credits, or permission of instructor.
Notes: Taught in English.

RUSS 327 - A Survey of Russian Literature

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Surveys Russian literature of late 19th and 20th centuries.

Fulfills Mason Core requirement in literature.

Prerequisite(s): 60 credits, or permission of instructor.
Notes: Taught in English.

RUSS 353 - Russian Civilization

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Civilization and culture of Russia and former Soviet Union. Includes films, slides, and music in addition to readings and lectures.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** 60 credits, and completion or concurrent enrollment in all other required Mason Core courses.
**Notes:** Taught in English. Fulfills the college requirement in non-Western culture.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**RUSS 354 - Contemporary Post-Soviet Life**

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Social life, art, economics, education, view of life, and personal aspirations of Russian citizen today.

Fulfills Mason Core requirement in global understanding.

**Prerequisite(s):** 60 credits, or permission of instructor.
**Notes:** Taught in English. Fulfills the college requirement in non-Western culture.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**RUSS 380 - Advanced Russian I**

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Comprehensive study of the more difficult characteristics of contemporary standard Russian in areas of grammar, style, and vocabulary usage. Emphasizes developing fluency in oral and written expression.

**Prerequisite(s):** RUSS 202, 209, or equivalent; appropriate placement score; or permission of instructor
**Notes:** Taught in Russian.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

**RUSS 381 - Advanced Russian II**

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Comprehensive study of the more difficult characteristics of contemporary standard Russian in areas of grammar, style, and vocabulary usage. Emphasizes developing fluency in oral and written expression.

Prerequisite(s): RUSS 202, 250, or equivalent; appropriate placement score; or permission of instructor.
Notes: Taught in Russian.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 401 - Readings in the Social Sciences

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Reading, translation, and discussion of Russian materials in fields of history, politics, geography, and sociology.

Prerequisite(s): 15 credits of Russian or equivalent.
Notes: Taught in Russian.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 407 - Russian Drama and Theater

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Development of Russian theater including directing techniques in Moscow Art Theater. Reading and discussion of major Russian plays of 19th and 20th centuries.

Prerequisite(s): 60 credits, or permission of instructor.
Notes: Course work in English; knowledge of Russian not required.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 410 - Russian Poetry

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Historical development of Russian poetry and representative works of major poets.
Prerequisite(s): 15 credits of Russian or equivalent.
Notes: Reading in Russian; course work in English and Russian.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 470 - Topics in (Post) Soviet Film

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Russian, Soviet, and post-Soviet films selected by type, period, or director with emphasis varying from year to year. Required viewings, student discussion, and written critiques.

Prerequisite(s): 60 credits, or permission of instructor.
Notes: Taught in English. May be repeated once with permission of department or film studies adviser.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 480 - Fourth-Year Russian

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Advanced work in major grammatical and lexical topics of Russian. Application of theoretical principles in guided written and oral exercises.

Prerequisite(s): RUSS 380, 381, or equivalent; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 481 - Fourth-Year Russian

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Advanced work in major grammatical and lexical topics of Russian. Application of theoretical principles in guided written and oral exercises.

Prerequisite(s): RUSS 380, 381, or equivalent; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
RUSS 490 - Independent Study

Credits: 1-3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Research and analysis of selected problem in language, literature, or culture in consultation with member of Russian studies faculty.

Prerequisite(s): Russian studies major with 90 credits and permission of instructor.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

RUSS 491 - Independent Study

Credits: 1-3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Research and analysis of selected problem in language, literature, or culture in consultation with member of Russian studies faculty.

Prerequisite(s): Russian studies major with 90 credits and permission of instructor.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

RUSS 499 - Seminar on Russian Literary and Critical Bibliography

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Comprehensive bibliographic survey of major primary and secondary works of Russian literature and criticism.

Prerequisite(s): Russian studies major with 90 credits and permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

School of Management (SOM)

Offered by the School of Business.

SOM 301 - Business Models: A Communication Approach
Introduces fundamentals of business models, and writing as learning tool. Interrelationships among accounting, finance, information systems, marketing, and operations are subject of several "learning by writing" deliverables.

School of Business students will not be permitted to make more than three attempts to achieve a C or higher in SOM 301. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies.

Fulfills writing intensive requirement in the major.

Notes: Fulfills writing intensive requirement for the School of Business students. Taught in lecture/recitation format; requires attendance at weekly lecture and weekly recitation.

Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

Social Work (SOCW)

Offered by the College of Health and Human Services

SOCW 110 - Global Perspectives on Human Rights

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Explores awareness about human rights issues around the world. Students will become familiar with current debates about human rights, especially whether rights should be culturally determined. The role of the United Nations, governmental and nongovernmental organizations, including social service organizations will be presented. Emerging issues including the rights of children; the rights to food, shelter, and health care; and racial and economic equality will be emphasized.

Notes: Open to social work and nonsocial work majors; does not count toward the social work degree requirements.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 200 - Introduction to Social Work
Introduces historical roots of social work profession and social welfare. Person-in-environment perspective discussed as framework for social work knowledge, values, and skills. Initial course in social work curriculum introduces social work profession, professional values, ethics, fields of practice, and settings in which social workers are employed. Highlights profession's commitment to diverse and at-risk populations and social and economic justice. Presentations by social work professionals in different fields of practice supplement classroom lecture, discussion, and small-group exercises.

Notes: Open to all majors.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 311 - Building Professional Social Work Skills**

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Apply basic social work concepts and the planned change process to beginning-level professional generalist practice. Develop a professional sense of self, and how to work in a social work setting. Practice course material in an agency setting through a 40 hour service learning experience.

Prerequisite(s): SOCW 200.
Notes: Open to Social Work majors only.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**SOCW 312 - Knowledge Building for Helping Professionals**

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Integrates critical thinking skills with an understanding of how knowledge is created and associated with the scientific paradigms that are used to study and understand individuals in the context of the environment. Examines ways of knowing used in the social sciences and social work by being actively engaged in exercises and activities.

Prerequisite(s): SOCW 200.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
SOCW 357 - Methods of Social Work Intervention I

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Social work practice from systems perspective. Particular emphasis on problem-solving activities with microsystems. Analyzes common core of knowledge, values, and skills essential to social work practice to gain insight into social work functions and role of social worker as change agent.

Prerequisite(s): SOCW 200, SOCI 101, PSYC 100, or permission of the instructor.
Corequisite(s): SOCW 361

Notes: Open only to Social Work majors.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 358 - Methods of Social Work Intervention II

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Continues generic problem-solving model, focusing on group and macro intervention systems, settings, and skills. Emphasizes working with both treatment and task groups. Group processes, such as goal formulation, contract setting, composition, and termination necessary for effective worker intervention, are part of knowledge base.

Prerequisite(s): Grade of "C" or better in SOCW 200, SOCW 357, and SOCW 361.
Corequisite(s): SOCW 362.

Notes: Open to majors only.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 359 - Junior Seminar

Credits: 1
Not Repeatable for Credit
Offered by Social Work
Provides opportunity to integrate theory, research, and practice in area of group work. Time is allotted to process successes and obstacles, and to share issues, knowledge, and skills learned in service-learning site.

Prerequisite(s): SOCW 301
Corequisite(s): Must be taken simultaneously with SOCW 358.

Notes: Forty hours of service learning are required. Open to SOCW majors only.
SOCW 361 - Methods of Social Work Intervention I: Laboratory

Credits: 2
Not Repeatable for Credit
Offered by Social Work
Develop proficiency in social work and communication skills. Increase competency in practice knowledge and behaviors through experiential learning in the classroom laboratory. Apply knowledge of biological, psychological, social, spiritual, and cultural influences to those who need and those who give help. Examine personal behavioral and learning patterns, values, ethics, and attitudes to increase ability to understand and help clients.

Prerequisite(s): SOCW 200.
Corequisite(s): SOCW 357.

Notes: Open to Social Work majors only.

SOCW 362 - Methods of Social Work Intervention II: Laboratory

Credits: 2
Not Repeatable for Credit
Offered by Social Work
Provides students the opportunity to integrate theory, research, and practice in the area of group work and family interventions. Classroom simulation of group skills and how to work with families will occur.

Prerequisite(s): C or higher in SOCW 200; SOCW 357; SOCW 361.
Prerequisite(s) enforced by registration system.

Corequisite(s): SOCW 358.

Notes: Open to SOCW majors only.

SOCW 375 - Human Behavior and the Family Life Course
This course utilizes an integrative ecological approach to understanding individual human behavior in the context of the family and the transitions over the life course. The family life course perspective recognizes the interdependent nature of life course experiences and highlights the impact of life events, transitions and change, timing, and historical and social context.

Fulfills Mason Core requirement in synthesis.

**Prerequisite(s):** SOCW 200; BIOL 103; PSYC 100; SOCI 101.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Summer, Spring

**SOCW 380 - Changing Social Policies and Systems**

Credits: 3

Not Repeatable for Credit

Offered by Social Work

Equips students with basic macro social work practice skills necessary to create change that will result in a more socially and economically just society. Examines the historical development, central concepts, and institutional nature of current social policies and systems and how to create change at various levels. Applies practice skills to developing strategies for change.

**Prerequisite(s):** SOCW 200.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Spring

**SOCW 390 - Analytic Methods for Social Work Research**

Credits: 3

Not Repeatable for Credit

Offered by Social Work

Provides a basic introduction to quantitative and qualitative analytic methods for the social worker. The course will emphasize a conceptual understanding of analyses so that students will be able to engage in social debates with the ability to both support their assertions with rigorously generated analyses, as well as question the generalizability and utility of others' analyses.

**Prerequisite(s):** SOCW 200.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Spring

**SOCW 400 - Legal and Ethical Issues in Human Services**
SOCW 410 - Alcohol and Substance Abuse: Policies and Programs

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Primary issues related to alcoholism and drug abuse including key concepts, theories, policies, and research regarding use and abuse of alcohol and other drugs. Emphasizes impact of policies and programs on well-being of ethnic minority and disadvantaged service populations.

Prerequisite(s): 45 credits or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 415 - Child and Family Welfare

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Emphasizes viewing human development and child and family welfare services critically, holistically, and contextually. Integrates ecological systems, human rights, and empowerment perspectives for understanding delivery systems and persons in relation to their environment across levels from individual to global. Provides overview of existing child welfare system with focus on current issues, challenges, and at-risk populations.

Prerequisite(s): 45 credits or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 435 - Introduction to Gerontology

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Surveys issues related to working with older adults, their families, and care providers. Studies biological, psychological, and
sociocultural aspects of aging, and unique problems with service delivery to older persons. Examines forces that impinge on an older person, and explores critical issues related to extended life span, family changes, institutionalization, and role of older persons in society.

Prerequisite(s): 45 credits, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**SOCW 445 - Social Determinants of Health**

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Examine the social determinants of health and the application of this framework to social work and public health policy and practice interventions. Explore the many social justice factors that affect health and consider which community systems and social change approaches may decrease or eliminate health inequities.

Equivalent to GCH 445

Prerequisite(s): 45 credits or permission of the instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

**SOCW 452 - Senior Seminar I**

Credits: 2
Not Repeatable for Credit
Offered by Social Work
Provides integrative team experience to support field experience and provide opportunities to demonstrate required competencies through special assignments.

Prerequisite(s): Grade of "C" or better in SOCW 200, SOCW 357, SOCW 358, SOCW 361, SOCW 362, SOCW 375, and SOCW 380, and recommendation of faculty.
Corequisite(s): SOCW 453.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

**SOCW 453 - Senior Practicum I**

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Supervised learning experience (practicum) under guidance of qualified faculty liaisons and professional staff designated and approved by director of field education. Designed to facilitate practice with individuals, families, groups, and communities. Students spend two full days weekly in practicum sites.

**Prerequisite(s):** Grade of "C" or better in SOCW 200, SOCW 357, SOCW 358, SOCW 361, SOCW 362, SOCW 357, SOCW 380, and recommendation of faculty.

**Corequisite(s):** SOCW 452.

**Notes:** Requires concurrent seminar (SOCW 452) participation and faculty-agency visits.

**Schedule Type:** INT
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**Grading:** Satisfactory/No credit only

---

**SOCW 454 - Senior Seminar II**

Credits: 2
Not Repeatable for Credit
Offered by Social Work
Continuation of integrative team experience designed to support practicum experience and provide opportunities to demonstrate required competencies through special assignments.

**Prerequisite(s):** SOCW 452, 453, 471 with a grade of C or better.
**Corequisite(s):** SOCW 456

**Schedule Type:** SEM
**Hours of Lecture or Seminar per week:** 2
**Hours of Lab or Studio per week:** 0

---

**SOCW 456 - Senior Practicum II**

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Continuation of supervised learning experience (practicum) begun in SOCW 453. Students spend two full days weekly in practicum sites supervised by faculty liaisons and qualified professional staff designated and approved by director of field education.

**Corequisite(s):** SOCW 454

**Notes:** Requires concurrent seminar participation (SOCW 454) and faculty-agency visits. Open to SOCW majors only.

**Schedule Type:** INT
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**Grading:** Satisfactory/No Credit
SOCW 471 - Research in Social Work

Credits: 3
Not Repeatable for Credit
Offered by Social Work

Principles and theory underlying scientific inquiry. Emphasizes use of research in social work practice, steps in conducting research, and research efforts in developing and evaluating social work knowledge and skills.

Fulfills writing intensive requirement in the major.

Prerequisite(s): SOCW 200; SOCW 312; ENGH 302;
Corequisite(s): SOCW 452; SOCW 453; Choose one of the following: SOCW 390, STAT 250, SOCI 313, or PSYC 300.

Notes: Must be completed with minimum grade of C.

SOCW 472 - RS: Integrative Methods in Social Action and Social Change

Credits: 3
Not Repeatable for Credit
Offered by Social Work

Uses generalist social work practice concepts with large systems and provides students with a hands-on opportunity to apply concepts and principles of intervention with large systems. Students will work with organizations and communities on a local, national, or global level to promote social action and social change. The course will also focus on evaluating interventions addressing the social justice needs of diverse, at-risk, and oppressed populations.

Designated as a research and scholarship intensive course.

Prerequisite(s): SOCW 452, SOCW 453 and SOCW 471.
Notes: Open only to Social Work majors.

SOCW 475 - Selected Topics in Social Work Policy

Credits: 3
Repeatable within Term for Credit
Offered by Social Work
In-depth study of special areas of social work of interest to students, faculty, and social work community.

Prerequisite(s): 45 credits, or permission of instructor.
Notes: May be repeated for maximum 9 credits if topics vary.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 480 - Research Internship in Health and Human Services**

Credits: 3
Not Repeatable for Credit
Offered by Social Work
The student works as a member of a team engaged in health and human services research and attends a bi-weekly research seminar. Under direction of the course seminar leader and the faculty research mentor, the student will acquire selected research skills and develop introductory research writing and presentation skills.

Equivalent to HHS 480, HAP 480

Prerequisite(s): Open only to CHHS majors or students who have completed CHHS minor or certificate courses.

Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

**SOCW 483 - Selected Approaches to Social Work Intervention**

Credits: 3
Repeatable within Term for Credit
Offered by Social Work
Opportunity to examine personal use of different approaches to social work intervention currently employed in practice settings. Students use technical skills with clients that these approaches require.

Prerequisite(s): 45 credits, or permission of instructor.
Notes: May be repeated for maximum 9 credits if topics vary.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 499 - Independent Study in Social Work**

Credits: 1-3
Repeatable within Degree for Credit
Offered by Social Work
Investigates research problem in field of social work.
Prerequisite(s): 60 credits and research proposal approved by instructor before enrollment.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 623 - Human Behavior and Social Systems I**

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Ecological approach to behavior of individuals, families, groups, organizations, and communities. Integrates and applies theories from psychology, sociology, biology, and anthropology to study of infants, children, and adolescents. Emphasizes human diversity.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 624 - Human Behavior and Social Systems II**

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Continues study of human behavior and diversity by exploring application of development theory and ecological principles to those in young adulthood, middle adulthood, and older adulthood.

Prerequisite(s): SOCW 623.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCW 630 - Forensic Social Work Practice**

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Explores the social work role in legal processes relating to such issues as family violence, child custody, behavioral health, disabilities, aging, and juvenile/criminal justice. Apply skills in forensic interviewing, risk assessment, expert testimony, mitigation, mediation, treatment, victim advocacy, and multidisciplinary collaboration.

Prerequisite(s): SOCW 624, 652, 658, and 673.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
**SOCW 640 - Advanced Clinical Practice**

Credits: 3  
Not Repeatable for Credit  
Offered by Social Work  
Prepares students at the advanced level to apply diagnostic, assessment, prevention, treatment, and intervention skills with individuals, families, and groups in clinical mental health and health settings. Trains students in differential diagnosis and assessment using the Revised Diagnostic and Statistical Manual (DSM IV-TR). Currently accepted treatment interventions within the context of contemporary social work theory are also presented.

Prerequisite(s): SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673 and 680  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCW 645 - Community-Centered Clinical Practice**

Credits: 3  
Not Repeatable for Credit  
Offered by Social Work  
Students use an ecosystems framework for assessment, risk-reduction, prevention, and intervention with communities in a local, national, or international context. Possible areas of exploration include violence prevention and intervention, suicide prevention and intervention, emergency response efforts, and behavioral health or wellness interventions at the community level.

Prerequisite(s): SOCW 624, 652, 658, and 673.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCW 651 - Social Policies, Programs, and Services**

Credits: 3  
Not Repeatable for Credit  
Offered by Social Work  
History of American social welfare policy and social work profession. Explores political, economic, social, cultural, and ideological influences on policy making with emphasis on consequences for populations at risk. Introduces historical policy analysis.

Prerequisite(s): Graduate standing  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCW 652 - Influencing Social Policy**

Credits: 3  
Not Repeatable for Credit  
Offered by Social Work  
History of American social welfare policy and social work profession. Explores political, economic, social, cultural, and ideological influences on policy making with emphasis on consequences for populations at risk. Introduces historical policy analysis.
SOCW 652 - Policy Advocacy

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Introduces students to the knowledge, skills, and values needed to influence policy outcomes. Explores the role of social workers in electoral politics and policy advocacy. Students gain skills in legislative research, coalition building, testifying, constituent organizing, and lobbying, while developing strategies for promoting social justice through policy change.

Prerequisite(s): SOCW 651.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 653 - Immigration Policy

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Prepares students for advocacy on behalf of immigrants from a human rights and social justice perspective. Explores policies, economic forces and historical precedence abetting global migration. Abets development of an in-depth knowledge of national and local policies as they pertain to immigrants, and how issues relate to social work advocacy.

Prerequisite(s): Completion of all first-year graduate coursework or advanced standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

SOCW 654 - Social Policy for Children and Youth

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Examines social policies, programs, and services on behalf of children and youth with implications for social work; including child welfare, child and adolescent health and mental health, juvenile justice, and school social work. Explores how societal norms regarding family and definitions of children's well-being influenced these policies over time.

Prerequisite(s): Completion of MSW foundation coursework.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

SOCW 655 - Aging Programs and Policies

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Analyzes the evidence-based benefits and challenges of social welfare and health care policy at the local, state, and federal levels on programs and services for older persons and their families. Fosters an understanding of the context of administrative structures, and legislative context of social policy and aging with attention to diversity and ethics.

**Prerequisite(s):** SOCW 652 or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring, Summer

---

**SOCW 657 - Direct Social Work Practice I**

Credits: 3

Not Repeatable for Credit

Offered by Social Work

Introduces role of social workers as change agents and the core knowledge, values, and skills that guide social work practice with individuals, families, small groups, organizations, and communities.

**Prerequisite(s):** Graduate standing and open only to students enrolled in MSW degree program.

**Corequisite(s):** SOCW 672.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**SOCW 658 - Direct Social Work Practice II**

Credits: 3

Not Repeatable for Credit

Offered by Social Work

Continuation of social work theory and practice with individuals, families, groups, organizations, and communities. Emphasizes intervention, evaluation, follow-up, and termination, with attention to incorporating social work knowledge, values, and skills.

**Prerequisite(s):** SOCW 657; Open to students enrolled in MSW degree program

**Corequisite(s):** SOCW 673

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**SOCW 663 - Global Human Rights Policy**

Credits: 3

Not Repeatable for Credit

Offered by Social Work

Examines meaning and benefits of transforming social work policy practice to a global perspective and focus on a human rights-based rather than a needs-based approach. Demonstrates how human rights can serve as conceptual framework for policy practice
to effect social change promoting human development and social and economic justice across levels, from the micro through macro and local through global.

**Prerequisite(s):** Completion of MSW Foundation curriculum or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Spring

---

**SOCW 664 - Art Therapy and Social Work**

Credits: 3

Not Repeatable for Credit

Offered by Social Work

Explores the principles and techniques of art therapy for social work practice, examining assessment, intervention and evaluation strategies that supplement traditional social work treatment. Course covers theory, research, and interventions applied to individuals, families, groups, and communities.

**Prerequisite(s):** Completion of MSW Foundation curriculum or permission of instructor.

**Notes:** Previous training in the visual arts and/or artistic ability is not required.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Spring

---

**SOCW 665 - Integrated Behavioral Health Policy**

Credits: 3

Not Repeatable for Credit

Offered by Social Work

Examines policy concerns and strategies for implementing integrated behavioral health care models. Identifies practice models that integrate substance abuse and mental health with primary health care. Provides an overview of the U.S. health care system, including legislation, financing, and health care disparities. Students will develop an understanding of access to health care as a social justice concern.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Spring

---

**SOCW 670 - Communication and Technology for Social Work Practice**

Credits: 3

Not Repeatable for Credit

Offered by Social Work

Studies various forms of written communication pertinent to social work practice. Examines impact of audience, status, culture,
and purpose on effective professional writing.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 671 - Research Methods for Social Workers

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Examines role of scientific inquiry in social work. Emphasizes construction and use of measurement instruments, data collection, analysis, and interpretation, and application of computer technologies relevant to social work practice.

Prerequisite(s): Graduate Standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 672 - Foundation Field Practicum and Seminar I

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Provides supervised social work learning experience in human service agencies. Students complete 16 hours per week in field practicum, and attend bimonthly seminar in which they share learning and integrate theory with practice.

Corequisite(s): SOCW 657.

Notes: Open only to MSW degree students.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Spring

SOCW 673 - Foundation Field Practicum and Seminar II

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Continues the supervised social work learning experience begun in SOCW 672. Students spend 16 hours per week in field practicum, and attend bimonthly seminar in which they share learning, process experiences, and integrate theory with practice.

Prerequisite(s): SOCW 672.
Corequisite(s): SOCW 658.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Spring

SOCW 674 - Psychopathology

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Overview of adult and child psychopathology presented within the contexts of the lives of people experiencing mental disorders and the social contexts that can have a bearing on symptom maintenance. Learn to formulate competency-based assessments and DSM IV-TR-based differential diagnoses.

Prerequisite(s): All foundation year coursework (SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, and 673).
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 675 - Selected Topics in Clinical Practice

Credits: 3
Repeatable within Term for Credit
Offered by Social Work
In-depth study of special topics related to clinical social work practice at the individual, family, small group, or community level.

Prerequisite(s): 30 credits or permission of instructor.
Notes: May be repeated for a maximum of 12 credits if the topics vary.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 676 - Selected Topics in Social Work and Social Change

Credits: 3
Repeatable within Term for Credit
Offered by Social Work
Critical examination of special topics related to understanding and improving community and societal conditions through policy practice, program development, and social action.

Prerequisite(s): 30 graduate credits or permission of instructor.
Notes: May be repeated for a maximum of 12 credits if the topics vary.
SOCW 677 - Family Therapy

Credits: 3
Not Repeatable for Credit
Offered by Social Work

Examines research and theory relevant for assessment and intervention with families. Students will learn to conduct a family assessment, taking cultural diversity, non-traditional family structures including single-parent and GLBTQ families, and socioeconomic factors into account. Students will develop skills in implementing an intervention based on the family's strengths and challenges.

Prerequisite(s): Completion of MSW foundation coursework.

SOCW 678 - Trauma and Recovery

Credits: 3
Not Repeatable for Credit
Offered by Social Work

Explores complex traumatic stress disorders, the process of recovery, and the etiology of healing in contemporary North American Culture. Diagnostic criteria, assessment strategies and evidence-based treatment options for complex traumatic stress disorders across diverse populations including sexual trauma, war, early childhood trauma and natural disasters will be addressed.

Prerequisite(s): Completion of MSW foundation coursework.

SOCW 679 - Military Social Work

Credits: 3
Not Repeatable for Credit
Offered by Social Work

Examines research and theory relevant for social work practice with service members, veterans, and their families. The course addresses the military as a workplace culture, evidence-based approaches for post-traumatic stress and co-morbid conditions, clinical practice with military families, preventive care and the service delivery system in military and civilian settings.

Prerequisite(s): Completion of MSW foundation coursework.
SOCW 682 - Substance Abuse Interventions

Credits: 3  
Not Repeatable for Credit  
Offered by Social Work  
Develops knowledge and skills for direct practice in the field of addictions. The course covers the knowledge base regarding evidence-based interventions at all stages in the process of intervention with individuals, families, and groups that promote recovery from addiction to drug and alcohol abuse.

Prerequisite(s): Completion of MSW foundation coursework.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring, Summer

SOCW 684 - Social Work and the Law

Credits: 3  
Not Repeatable for Credit  
Offered by Social Work  
Students engage in close analysis of judicial opinions to explore the role of the courts in creating public policy. Areas of inquiry include the role of social workers in the legal system, the nature of legal proceedings, and how the law shapes policy in relation to issues affecting children, youth, families, older adults, women, minorities, people in poverty, and other vulnerable populations.

Prerequisite(s): SOCW 624, 652, 658, and 673.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SOCW 685 - Organizational Leadership for Social Workers

Credits: 3  
Not Repeatable for Credit  
Offered by Social Work  
Examines functions and structure of human service organizations in context of service delivery. Development of theoretical knowledge, professional ethics, and skills in administration, leadership, management, organization, and supervision.

Prerequisite(s): SOCW 624, 652, 658, and 673.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
**SOCW 687 - Empowering Communities for Change**

Credits: 3  
Not Repeatable for Credit  
Offered by Social Work  
Explores social work interventions at community level, including organization, planning, and development. Strategies for mobilizing community members, using community organizations, formulating coalitions, engaging in participatory planning, and social and economic development.

Prerequisite(s): SOCW 624, 652, 658, and 673.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCW 688 - Advanced Research in Social Work**

Credits: 3  
Not Repeatable for Credit  
Offered by Social Work  
Explores social work intervention research, needs assessment, formative and summative program evaluation, and cost analyses. Discusses applications of systematic inquiry at the practice, organizational, and policy levels. Addresses ethical, pragmatic, and political considerations; qualitative approaches; quality performance; evidence from empirical research; and evaluation design.

Prerequisite(s): SOCW 624, 652, 658, 671, and 673.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 1

**SOCW 689 - Clinical Practice with Older Adults**

Credits: 3  
Not Repeatable for Credit  
Offered by Social Work  
Examines age-associated changes and challenges faced by older adults. Focus is strengthening assessment and intervention skills with older adults, their family members and caregivers within the community and long-term care facilities, determining the best standardized instruments to use, and developing effective questions for assessment. Attention is given to the resilience of elders, ethical issues and diversity.

Prerequisite(s): SOCW 674 or permission of the instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring, Summer

**SOCW 692 - Clinical Practicum I**
Students participate in a supervised clinical social work field practicum for 20 hours per week. The clinical field seminar accompanies the clinical concentration year practicum. The seminar is designed to assist the student in critically analyzing their field experiences in the application of mental health assessment, risk reduction and interventions working with individuals, families, groups, and communities.

**Prerequisite(s):** SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673

**Schedule Type:** SEM

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall

---

**SOCW 693 - Clinical Practicum II**

Students participate in a supervised clinical social work field practicum for 20 hours per week. The clinical field seminar accompanies the clinical concentration year practicum. The seminar is designed to assist the student in critically analyzing their field experiences in the application of mental health assessment, risk reduction and interventions working with individuals, families, groups, and communities.

**Prerequisite(s):** SOCW 623, 624, 630, 651, 652, 657, 658, 670, 671, 672, 673, 674, 688, and 692

**Notes:** This is a continuation of SOCW 692 taken in the Fall semester.

**Schedule Type:** SEM

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Spring

---

**SOCW 694 - Social Change Practicum I**

Students participate in a supervised clinical social work field practicum for 20 hours per week. The clinical field seminar accompanies the concentration year practicum. The seminar is designed to assist students in processing their field experiences and analyzing their successes and challenges. Students are expected to apply social work knowledge, values, and skills from across the curriculum.

**Prerequisite(s):** SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673

**Schedule Type:** SEM

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall
SOCW 695 - Social Change Practicum II

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Students continue to work in a supervised social work field practicum for 20 hours per week. At the end of this semester students will have completed 300 hours of field work to meet the total number of 600 hours required for the concentration year practicum. The field seminar accompanies the concentration year practicum. The seminar is designed to assist students in processing their field experiences and analyzing their successes and challenges. Students are expected to apply social work knowledge, values, and skills from across the curriculum.

Prerequisite(s): SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673, 684, 685, 688, and 694
Notes: Continuation of SOCW 693 from the Fall semester.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SOCW 697 - Thesis Project Seminar

Credits: 3
Not Repeatable for Credit
Offered by Social Work
Provides structured opportunity for students to work with each other and faculty in developing their final MSW thesis projects. Integrates and applies learning from all previous course work, emphasizing knowledge, skills, and values related to research, clinical practice, policy, community practice, and organizational leadership. Social work ethics, empowerment of populations at risk, and systems transformation will be explored. In addition to group meetings, students will meet individually with their faculty mentors.

Prerequisite(s): Social Change: SOCW 684, 685 and 688.
Clinical Practice: SOCW 630 and 688.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCW 699 - Independent Study in Social Work

Credits: 1-3
Repeatable within Term for Credit
Offered by Social Work
Investigates research problem in field of social work.

Prerequisite(s): Graduate standing.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Sociology (SOCI)

Offered by the College of Humanities and Social Sciences

SOCI 101 - Introductory Sociology

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Introduction to basic sociological concepts. Examines aspects of human behavior in cultural framework, including individual and group interaction, social mobility and stratification, status and class, race and gender relations, urbanism, crime and criminology, and social change and reform.

Fulfills Mason Core requirement in social and behavioral science.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 120 - Globalization and Society

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Examines and analyzes important global issues and processes. Considers historical development of globalization and implications for different societies and cultures. Investigates perceptions of global processes by different cultures and nations, and efforts of international institutions to address social, political, economic, and cultural changes in global society.

Fulfills Mason Core requirement in global understanding.

Notes: Students may not receive credit for both SOCI 120 and GLOA 101.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 300 - Social Control and Freedom

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Explores ways in which individuals are both architects and prisoners of society. Offers a foundational course for examining the "invisible" social forces that shape our lives and the individual and collective capacity to make choices, including social and cultural change. Includes topics such as youth and culture, deviance and crime, social inequalities, and global change.
**SOCI 301 - Criminology**

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Focuses on causes and meaning of crime, with emphasis on adults. Patterns of criminal behavior, including property crimes, violent crimes, organized crime, white-collar crime, and victimless crime. Critical assessment of criminal justice system as a response to crime.

**SOCI 302 - Sociology of Delinquency**

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Examines social factors involved in development of delinquency, including family, political economy, schooling, community environment and culture. Examines various theories of delinquency; rates of delinquency in relation to age, race, gender and social class; and legal system that addresses causes, consequences, and policies of punishment and rehabilitation.

**SOCI 303 - Methods and Logic of Inquiry**

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Actively engages students in original inquiry meaningful to themselves and their communities. Demonstrates the reciprocal relationship between theory and empirical research. Explores the complementarity of interpretive and explanatory logics, employing basic sociological methods. Guides students to formulate research problems; design research; gather and analyze evidence; and organize, frame, and revise arguments, culminating in a public presentation of their projects to the sociology faculty.

Prerequisite(s): SOCI 101 or 102, or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SOCI 304 - The Future of Work
Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Introduces the basic concepts of economic sociology. Explores how the world of work has changed due to globalization, deindustrialization, new technologies, and economic crisis. Focuses on providing students with a better understanding of how markets and corporations work, and about new economic approaches to create new, potentially less alienating work environments.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 307 - Social Movements and Political Protest
Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Explores processes for organizing resistance to current social and power arrangements, from terrorism to nonviolent civil resistance to create alternative institutions, policies, or leadership that promote human rights and social justice. Uses historical and contemporary case studies of local and global change to explore, how, why, and to what effect individuals have organized to protest the status quo and create social change.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 308 - Race and Ethnicity in a Changing World
Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Explores how race and ethnicity have been shaped by policies and practices in Western and non-Western societies. Explores the evolution of racial and ethnic attitudes from a global and historical perspective. Examines how changing demographic racial patterns may affect definitions of race and ethnicity and the ways in which people individually and collectively act to create new futures.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 309 - Marriage, Families, and Intimate Life
Credits: 3
Not Repeatable for Credit
Uses a sociological framework to analyze and understand the diverse forms of contemporary families—traditional marriages, cohabitation, domestic partnerships, single-parents families, stepfamilies, and gay and lesbian families. Explored are topics such as changes in sexual mores, reflected in new dating practices; shifting parenting roles; effects of social class, race and ethnicity; and the outcomes of divorce for couples and children.

**SOCI 310 - Sociology of Deviance**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Analyzes macro- and microlevel deviance-producing processes, meaning and control of deviance, and major theoretical approaches to deviance.

**SOCI 311 - Classical Sociological Theory**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Explores sociological tradition through readings and discussions of ideas drawn from writings of selected sociological thinkers such as Comte, Marx, Weber, Durkheim, and others.

**SOCI 312 - Qualitative Research Methods**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Introduces ethnography, field work methods, interviewing, life histories, and other qualitative methods to generate data about cultures in which various groups and classes are immersed. Students learn by applying qualitative methods to term projects, developed under guidance of instructor.

Prerequisite(s): 9 credits of sociology including SOCI 101 or 102, or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 313 - Statistics for the Behavioral Sciences**

Credits: 4  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Fundamentals of applied statistics as used in behavioral science to include descriptive statistics, inferential statistics, correlation regression, analysis of variance, factor analysis, nonparametric statistics, and practical experience with calculators in applying statistical analysis to actual problems of the behavioral sciences.

Fulfills Mason Core requirement in quantitative reasoning.

Prerequisite(s): SOCI 101, or permission of instructor.  
Schedule Type: LAB, LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 2

**SOCI 314 - Sociology of Culture**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Examines how culture, encompassing high art or participatory culture, expressive agency or traditional constraint, is produced and reproduced in everyday social practices and across a wide range of social institutions. Explores the role of culture in public life and political discourse.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCI 315 - Contemporary Gender Relations**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Examines the meaning and significance of gender relations in the US and other societies around the globe. Examines the concepts and processes of privilege, power, and difference to understand how they shape the meaning and construction of feminine and masculine roles and identities and why gender difference (which conceptually does not imply inequality) translates into gender inequality.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
**SOCI 320 - Social Structure and Globalization**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology

While focusing on nature and process of change in human society, considers social impact of political, economic, and environmental change and how lives are shaped by complexities of global social forces. Examines specific global issues such as conflict and security; economic disparity; ecological deterioration; populations and migration; legitimization of commerce; diffusion of innovations; and impact of class, status, and power in modern societies.  
Designated a Green Leaf Course.  
Fulfills Mason Core requirement in global understanding.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCI 321 - Sociology of Post-Socialism**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology.  
Explores the end of socialism, and how the former Soviet Union and Eastern Europe, as well as the rest of the world, transformed since 1989. Examines art, music, criminality, oligarchs, workers, gender, commodification, nationalism, violence, the self, religion, public health, and the environment during socialism and afterwards.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Grading:** Regular

---

**SOCI 326 - Conflict, Violence, and Peace**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Explores the sociology of conflict, violence, and peace to examine these crucial issues from a scholarly viewpoint. Focuses on the causes and consequences of violence. Examines a wide variety of remedies from conventional deterrence and arms control strategies to alternative perspectives from nonviolent civil resistance to peacebuilding, international law, and restorative justice, as well as conflict transformation and resolution strategies.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCI 330 - US Immigrants and Immigration**
SOCI 332 - The Urban World

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Examines cities and the people who live in them in the United States and around the world. Includes topics such as: social and economic development, inequality, political protests, urban democracy, and the environment.

Fulfills Mason Core requirement in global understanding.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 340 - Power, Politics, and Society

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Analyzes how power is defined, attained and sustained in society. Students analyze political power as related to social realities such as democratic elections, class conflict, elite networks, powersharing, protest, and revolution.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 341 - Sociology of Aging

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Examines aging from a sociological perspective. Topics include demographic trends and aging population in America, social construction of life stages and creation of "old age," cultural labeling, and human resistance.

Equivalent to SOCI 441 (2014-2015 Catalog)
SOCI 352 - Social Problems and Solutions

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Examines contemporary social problems and their solutions using sociological perspectives. Topics may include housing and homelessness, student debt, mass incarceration, hunger and food insecurity, environment and sustainability, human rights, wealth and global poverty, war and peace.

Fulfills Mason Core requirement in social and behavioral science.

SOCI 355 - Social Inequality

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Studies class structures and implications for individuals and groups in modern society. Explores issues of race and ethnicity, language and immigration status, sex and gender, social class, age, and sexual orientation. Examines critically the theory and research that explore the construction, experience, and meaning of such differences.

Fulfills Mason Core requirement in social and behavioral science.

SOCI 360 - Youth Culture and Society

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Introduces sociology of youth and youth culture. Investigates social, economic, and political realities of youth as a group and different groups of youth, including youth cultural production, formation of youth culture, and youth identities in variety of social settings.
**SOCI 373 - The Community**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Examines small to moderate-size communities ranging through village, rural community, small town, and city subcommunity. Latter category includes city localities, ethnic villages, and suburban communities.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 377 - Art and Society**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Introduces the many ways in which art reflects social tendencies, comments on social problems, and contributes to discussions about a wide range of social issues. Students attend theatrical performances and visit exhibition spaces on campus, and learn to analyze what they experience through both aesthetic and sociological approaches. Explores contemporary issues such as debates about artistic freedom and public morality, commercialization of art, and relationship between cultural and social hierarchies.

Fulfills Mason Core requirement in synthesis.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 382 - Education in Contemporary Society**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Examines classrooms and schools as social institutions that function as socializing agents for both stability and societal change. Emphasizes the influence of inequality on educational processes and outcomes and critically examines the social organization of the U.S. public school system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 385 - Sociology of Religion**
Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Studies places of religious consciousness in human action and institutional and organizational networks created to sustain religious beliefs. Emphasizes comparative and historical analysis of role religion has played in human society. Examines theories of nature of religious experience, religious symbolism, and basis of religious community. Explores changing demographics in relation to older traditional religious faiths and newer nontraditional faiths.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 388 - Violence and Religion

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Explores the relationship between religion and violence, especially warfare, cross-culturally and historically from a sociological, transdisciplinary, and global politics perspective. Examines the interface between politics and morality and the interface between national and transnational governance institutions (nations states, the UN, etc.) and cultural and religious institutions, NGOs, and social movements.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3

SOCI 390 - Sociology of Health, Illness, and Disability

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Examines social context of health, illness, and disability; relationships of health care professionals and patients; and structure and delivery of health care in different medical systems.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 394 - Sociology of Human Rights

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology.
Provides an overview of sociological, theoretical, and methodological approaches to understanding human rights. Examining connections between inequality, conflict, social justice, governance, and human rights, the course focuses on the contexts of meaning within which human rights are invoked and practiced as well as the role that non-state actors play in shaping the development and institutionalization of human rights.
**SOCI 395 - Special Topics in Sociology**

Credits: 3  
Repeatable within Term for Credit  
Offered by Sociology and Anthropology  
Introduces the research interests of the faculty, offering new courses that reflect current issues not yet incorporated into the curriculum. Offers, in addition, advanced study into topics covered in the standing curriculum. Topics change by semester.

Prerequisite(s): 90 credits, and 12 credits of sociology.

**SOCI 399 - Independent Study**

Credits: 1-3  
Repeatable within Degree for Credit  
Offered by Sociology and Anthropology  
Individual study of sociological topic of interest to student.

Prerequisite(s): Open to sociology majors only. 6 credits of sociology including SOCI 101, and approval of written proposal.  
Notes: May be repeated for credit up to 3 credits.

**SOCI 405 - Analysis of Social Data**

Credits: 4  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Overview of management and analysis of empirical social science data, including file construction, scaling and measurement, data transformation, and treatment of missing data. Emphasizes manipulation, management, and analysis of data sets using computers.

Prerequisite(s): 60 credits, SOCI 313 or permission of instructor.

**Schedule Type:** SEM  
Hours of Lecture or Seminar per week: 3  
Grading: Regular

**Schedule Type:** LEC  
Hours of Lecture or Seminar per week: 3

**Schedule Type:** IND  
Hours of Lecture or Seminar per week: 1-3

**Schedule Type:** LAB, LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 3
SOCI 410 - Social Surveys and Attitude and Opinion Measurements

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Surveys research methods and techniques to collect, measure, and analyze social data, attitudes, and opinions with special emphasis on using computer software, the Internet, and other information technologies for social research. Highlights ethical issues for social research, computing, and information technology.

Fulfills Mason Core requirement in information technology (all except ethics).

Prerequisite(s): SOCI 303 and 313 or equivalents, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 412 - Contemporary Sociological Theory

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Presents for analysis and discussion the significant theorists and themes in contemporary sociological theory. Designed to enhance student's skills in reading and analyzing primary texts and to encourage reflection on contemporary social reality. Fulfills writing intensive requirement.

Fulfills writing intensive requirement in the major.

Prerequisite(s): SOCI 311 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 416 - Internship in Sociology

Credits: 1-6
Repeatable within Term for Credit
Offered by Sociology and Anthropology
Intended to promote learning in application of sociological knowledge, and build skills in different work settings. Students work in approved setting as applied sociologists.

Prerequisite(s): 21 credits of sociology, including Research Methods, or permission of instructor.
Notes: Minimum 45 hours of work for each credit required. May be repeated for a maximum of 6 credits.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
**SOCI 471 - Prevention and Deterrence of Crime**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  

Equivalent to CRIM 471

**Prerequisite(s):** 60 credits, in-service status, or permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCI 480 - Honors Seminar in Sociology I**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Develop research proposals and an appropriate bibliography for honors thesis under the guidance of a sociology faculty member.

**Prerequisite(s):** Admission to honors in the sociology major.  
**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Special undergraduate.

---

**SOCI 481 - RS: Honors Seminar in Sociology II**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Pursue independent research and write honors thesis under the guidance of a faculty mentor. Present work in a colloquium at the end of the semester.

Designated as a research and scholarship intensive course.

**Prerequisite(s):** Successful completion of SOCI 480.  
**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCI 483 - The Sociology of Higher Education**
Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Exposes students to sociological theory and research on evolution of higher learning in United States. Explores social forces that have shaped the distinctively American approach toward higher education and have led to transformation of higher education in contemporary society. Particular attention to relation between universities and elites within surrounding society, linkage between education and industry, norms and values that are presupposed by educational institutions, and bearing of sports on values and traditions of higher education.

Fulfills Mason Core requirement in synthesis.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 485 - RS: Sociological Analysis and Practice

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Provides an in-depth examination of historical and contemporary issues facing sociological scholars. Focuses on the philosophies, practices, and procedures used by individuals and organizations to answer sociological questions. Engages a variety of materials, experiences and resources to answer a specific research question.

Designated as a research and scholarship intensive course.

Prerequisite(s): SOCI 303
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3

SOCI 492 - Sociology of Organizations

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Theories, analysis of types of organizations from informal voluntary associations to large complex ones. Explores nonprofit organizations and alternatives to bureaucracies, such as feminist collectives, cooperatives, self-help groups, and social movement organizations. Students do field work in organizations applying theories and concepts to observations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 499 - Independent Research in Sociology

Credits: 1-4
Repeatable within Degree for Credit
Offered by Sociology and Anthropology
Investigation of sociological problem according to individual interest, with emphasis on research.

Prerequisite(s): 18 credits of sociology including SOCI 311, 313, and 412; 3.00 GPA in sociology; and research proposal approved by instructor and department chair before enrollment.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0

SOCI 516 - Internship in Sociology

Credits: 1-6
Repeatable within Degree for Credit
Offered by Sociology and Anthropology
Learning experience in the application of sociological knowledge and skills in different work settings. Students work in approved setting as applied sociologists.

Prerequisite(s): 21 credits of sociology including research methods, or permission of instructor.
Notes: Minimum 45 hours of work for every 1 credit. May be repeated for a maximum of 6 credits.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

SOCI 599 - Issues in Sociology

Credits: 1-3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Contemporary topics in sociology including sociological theory, crime and delinquency, advanced research methods, social and cultural change, urban sociology, medical sociology, sociology of aging, and rural sociology.

Equivalent to NURS 611

Prerequisite(s): Undergraduate senior status in sociology, or graduate status.
Notes: May be taken only once for credit.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 601 - Proseminar in Public and Applied Sociology

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Core course devoted to the philosophical, historical, theoretical, and methodological dimensions of public and applied sociology
within the United States. Traces the evolution of the field during the 20th century, from its inception in the Chicago school and the studies of W.E.B. DuBois to more recent formulations, as these bear on the interplay between social scientific knowledge and public decisions and debates.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**When Offered:** Fall

### SOCI 602 - Writing for the Social Sciences

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Develops strategies for successful social scientific writing, self-evaluation, and managing anxiety around the production of written work. Provides practice in different types of writing undertaken by social scientists including research reports, scholarly journal articles, and research proposals.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall

### SOCI 605 - Gender and Social Structure

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Reviews theories explaining the development and maintenance of gender. Using historical and comparative data, examines perceived, prescribed, and actual sex differentiation in social, political, and economic roles. Begins with gender as a social structure and then examines contemporary research as support or refutation for variety of theoretical paradigms. Includes discussion of gender in intimate relationship and the public sector.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

### SOCI 607 - Criminology

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Crime and crime causation. Topics include social basis of law, administration of justice, and control and prevention of crime.

**Prerequisite(s):** Graduate standing, or permission of instructor.  
**Schedule Type:** LEC
SOCI 608 - Juvenile Delinquency

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Sociology of adolescent behavior. Sociological factors that determine which behaviors and social categories of adolescents are likely to be labeled and treated as delinquent.

Prerequisite(s): Graduate standing, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 614 - Sociology of Culture

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Analyzes 20th-century debates in American culture and cultural politics, with emphasis on art and popular culture, news media, and competing notions of "the public." In-depth readings in cultural sociology cover variety of theoretical and methodological approaches.

Prerequisite(s): Graduate standing, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 619 - Conflict and Conflict Management: Perspectives from Sociology

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Deals with sociology of conflict. Presents major sociological theories of conflict such as those of Marx, Weber, Simmel, Dahrendorf, Coser, and Collins. Stresses role that sociological conflict theory plays in undergirding conflict management practices.

Prerequisite(s): Graduate standing in sociology or conflict analysis and resolution, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 620 - Methods and Logic of Social Inquiry
Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Emphasizes gathering, interpreting, and evaluating scientific evidence. Covers logic of scientific inquiry, including the application of various research designs and data collection methods. Develops critical-thinking skills by using set of rules and logical criteria for evaluation of social science research. Focuses both on how results are obtained and disseminated via research reports.

Prerequisite(s): Undergraduate statistics and research methodology, or permission of instructor.
Notes: Restricted to SOCI majors only.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 623 - Racial and Ethnic Relations: American and Selected Global Perspectives

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Covers demographic purview of U.S. and other global racial and ethnic groups and racial and ethnic groups as human-social-minority and dominant groups. Explores factors contributing to dominant and minority status and means of altering dominant groups assessment of minority group status.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SOCI 624 - International Migration in the Age of Globalization

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Focuses on theoretical, methodological, and policy-related issues on international migration from a sociological perspective. Explores case studies of immigrant communities and their adaptation patterns, paying particular attention to immigrants from Latin America, Asia, and the Caribbean.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
When Offered: Fall, Spring

SOCI 631 - Survey Research

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Introduces theory, method, and practice of survey research design and analysis. Students complete survey research project.

**Prerequisite(s):** SOCI 530 and 531, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**SOCI 632 - Evaluation Research for Social Programs**

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology

Studies methodological issues related to evaluation of social programs. Explores conceptual and research design issues in relation to social programs, particularly delivery of social services. Includes examination of methods used to assess need for programs, impact of delivery systems, and efficiency and effectiveness of social programs.

**Prerequisite(s):** SOCI 530 and 531, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**SOCI 633 - Special Topics in Sociology**

Credits: 3
Repeatable within Term for Credit
Offered by Sociology and Anthropology

Specialized inquiry of topics of contemporary sociological research and scholarship. Content varies.

**Notes:** May be repeated for credit when topic varies for a maximum of 12 credits.

**Schedule Type:** SEM

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**SOCI 634 - Qualitative Research Methods**

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology

Examines basic research methods involving observational techniques and procedures used in description and analysis of patterns, configurations, ethos, eidos, structures, functions, and styles typical of whole societies and cultures. Emphasizes case studies, unobtrusive methods, participant observation, longterm residence, choices of observer status role, recording data, uses of technical equipment, key informants, interviewing techniques, and ethical considerations in employing such methods and procedures.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Schedule Type:** LEC
SOCI 635 - Environment and Society

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Overview of human ecology and environmental sociology, emphasizing selected topics. Focuses on theory, since theory makes it possible to generalize from understandings derived in an analysis of a particular problem and apply them to other problems.  

Prerequisite(s): Graduate standing.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SOCI 636 - Statistical Reasoning

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Intermediate treatment of quantitative analytic techniques used in sociology. Topics include sampling, inference, hypothesis testing, analysis of variance, and bivariate and multiple correlation and regression. Introduces logic of multivariate analysis. Focus on how results are obtained and disseminated via research reports.  

Prerequisite(s): Undergraduate statistics and research methodology, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SOCI 641 - Micro Sociology: Inequality and Everyday Life

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Analyze the relationship between everyday life and social inequalities, with a particular focus on examining theoretically and empirically the relationship between governing structures of society and the structure of situational and interactional terrains as it plays out in the lives of everyday people.  

Prerequisite(s): Graduate standing.  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SOCI 651 - Health Care Systems
Changing health care systems are rapidly affecting patient providers and health and quality of life of society. Offers analysis and theories of change in health care systems and impacts on society and various stakeholders. Examines for-profit and nonprofit organizations and their impacts, and offers comparative cross-cultural analysis of health care systems.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**SOCI 655 - Ethnography**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Introduces ethnography in sociology to graduate students. Teaches techniques for collecting, analyzing and writing-up ethnographic materials. Considers some of the central methodological issues relevant to doing ethnography. Explores some of the critical ethical and political questions that arise within ethnographic research practice.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring

---

**SOCI 660 - Historical and Comparative Sociology**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Seminar in theory and methods of historical and comparative sociology, primarily for students with background in sociological theory and methods. Examines basic approaches and research data of history and sociology, surveys development of field, and analyzes exemplary studies.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**SOCI 670 - New Media and Social Inequality**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Examines the internet and other new technologies from a sociological perspective. Focuses on how technologies mitigate or exacerbate-transform or reproduce-existing and new forms of inequality.
**Prerequisite(s):** Graduate standing or permission of instructor.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCI 686 - Sociology of Aging**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Analyzes sociological issues in aging, including class and cultural factors, problems of work, retirement, attachment and loss, and ageism. Examines different theories of aging.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SOCI 696 - Independent Study**

Credits: 1-3  
Repeatable within Degree for Credit  
Offered by Sociology and Anthropology  
Theoretical and research literature chosen by student and instructor.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special

---

**SOCI 697 - Independent Study**

Credits: 1-3  
Repeatable within Degree for Credit  
Offered by Sociology and Anthropology  
Theoretical and research literature chosen by student and instructor.

**Prerequisite(s):** Graduate standing, or permission of instructor.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 1-12  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special
SOCI 711 - Classical Sociological Theory

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
In-depth examination of major issues in classical (pre-1930) sociological theory. Analyzes Durkheim, Marx, Weber, Mead, and others, and emphasizes social and intellectual context of their theories.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 712 - Contemporary Sociological Theory

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Examines schools in contemporary sociological theory such as structural-functionalism, conflict, exchange, symbolic interactionism, ethnomethodology, humanist sociology, and critical theory. Analyzes contemporary theorists in relation to schools.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 730 - Analytic Techniques of Social Research

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Introduces multiple regression and causal analysis to sociological researchers, with a focus on obtaining and disseminating results. Moves from linear regression to the general linear model with several variables, its extensions, assumptions, and regression diagnostics. Examines the use of dummy variable and the analysis of interaction effects. Considers systems of equations and nonlinear outcomes.

Prerequisite(s): Undergraduate statistics and research methodology, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOCI 797 - Master's Capstone Paper

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
MA paper completion under the direction of one faculty member.
**SOCI 799 - Thesis**

Credits: 1-6
Repeatable within Degree for Credit
Offered by Sociology and Anthropology
Master's thesis research under direction of thesis committee.

**SOCI 803 - Institutions and Inequality**

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Analyzes the interrelations between social inequalities and institutional structures, including markets, the press, prisons, mental institutions, cultural organizations, and corporations.

**SOCI 804 - Sociology of Globalization**

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Addresses the social, political, cultural, and economic process of globalization. Explores the limits on globalization during the precapitalist era, the relation between empire and the internal structure of imperialist societies, theoretical debates over the contemporary world system, the relation between cities and globalization, and the link between globalization and social inequality within both developed and developing societies.
**SOCI 833 - Special Topics in Sociology**

Credits: 3  
Repeatable within Degree for Credit  
Offered by Sociology and Anthropology  
Specialized inquiry of topics of contemporary sociological research and scholarship. Content varies.  

Prerequisite(s): Have completed either 6 credits of coursework at the 600 level or permission of instructor.  
Notes: May be repeated when topic is different for a maximum of 9 credits.

Schedule Type: LEC, SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

**SOCI 840 - Work Organizations and Social Inequality**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Examines the social, organizational, and cultural processes that account for the differential distribution of job rewards along class, gender, and racial and ethnic lines. Topics include the historical evolution of the management worker relationship, job segregation by race and gender, the effect of new technologies on social inequality, the relation between gender and professional careers, the efficacy of governmental efforts to ensure equal opportunity, and the effect of organizational change on racial and gender inequalities at work.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCI 844 - Youth, Schooling, and Popular Culture**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Uses sociological perspectives to understand the various ways in which popular youth culture, schooling processes, and consumer culture intersect in contemporary American cultural life. Examines the social, economic, and political realities of youth as a group and the formation of distinct youth cultures within and outside formal school settings, including schooling and commodity culture, how markets promote and hinder particular educational ideologies, and how corner markets operate as spaces of cultural learning.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCI 845 - Society and Education**
Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Exposes students to the major theories, debates, and findings within the sociology of education, emphasizing the reciprocal influences of schooling and social inequalities within contemporary societies. Emphasis on the historical evolution of public schooling in the United States, the complex relation between schooling and economic institutions, class differences in educational opportunity, and the politics of educational reform.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 850 - Sociology of Development**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Analyzes socioeconomic and political change, focusing on the poor countries of Asia, Africa, and Latin America. Offers a basic descriptive understanding of processes of change in these countries and an introduction to major theoretical perspectives on development and globalization, from classical theories of comparative advantage to theories of imperialism, modernization, dependency, and globalization.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 851 - Globalization and Social Movements**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Analyzes current issues in the study of social movements, with an emphasis on the ways in which globalization shapes and in turn is shaped by social movements. Emphasis is placed on the relations among the strategies, identities, and organizations bound up with transnational social movements and the relation between the dynamics of global political and economic developments and protest movements in core and peripheral societies.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SOCI 853 - Cities in a Global Society**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Examines the scholarly literature on cities and globalization with a focus on the impact of globalization on urban environments and the effects of urbanization on the processes of globalization. Emphasis on the ways in which globalization restructures urban
life in the core and periphery of the world economy with attention paid to the effects of spatial dispersion on the character of economic institutions within the advanced societies, the shifting nature of crime and security, immigration, and the cities of the Global South.

**SOCI 857 - Sociology of Human Rights**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Examines the connections among inequality, conflict, social justice, and human rights in an age of globalization. Drawing from case studies from around the world, course examines institutional and structural violence and inequality as they relate to state, corporate, and military power; international law and order; welfare and social policy; global justice; regionalism, multilateralism, and transnationalism; environmental protection; gender inequality; ethnic conflict; resource wars; and national security policy before and after September 11, 2001.

**SOCI 860 - Historical and Comparative Sociology**

Credits: 3  
Not Repeatable for Credit  
Offered by Sociology and Anthropology  
Seminar in theory and methods of historical and comparative sociology, primarily for students with background in sociological theory and methods. Examines basic approaches and research data of history and sociology, surveys development of field, and analyzes exemplary studies.  
Prerequisite(s): Graduate standing, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SOCI 870 - Directed Readings Sociology**

Credits: 3  
Repeatable within Degree for Credit  
Offered by Sociology and Anthropology  
Intensive reading course to develop comprehensive understanding of specific field in sociology as agreed on with advisor.
Prerequisite(s): 6 credits of 600-level SOCI courses.
Notes: Content varies. May be repeated.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 880 - Independent Study in Sociology**

Credits: 3
Repeatable within Degree for Credit
Offered by Sociology and Anthropology
Reading and research on selected topic, resulting in a written project as agreed on with supervising faculty.

Prerequisite(s): 6 credits of 600-level SOCI courses
Notes: Content varies. May be repeated.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SOCI 998 - Doctoral Dissertation Proposal**

Credits: 1-9
Repeatable within Degree for Credit
Offered by Sociology and Anthropology
Work on research proposal for doctoral dissertation.

Prerequisite(s): Completion of all but final year of coursework and permission of graduate director.
Corequisite(s): Advanced grad students may enroll in 998 during final year of coursework and before completion of comprehensive exams.

Notes: May be repeated. A maximum of 9 credits of 998 may be applied to the degree. Students may enroll in 998 in their final year of coursework while preparing for comprehensive exams.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: S/NC

**SOCI 999 - Doctoral Dissertation**

Credits: 1-12
Repeatable within Degree for Credit
Offered by Sociology and Anthropology
Doctoral dissertation research and writing on approved dissertation topic under direction of committee.

Prerequisite(s): Successful completion of SOCI 998.
Notes: Maximum of 12 credits may be applied toward degree.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: S/NC

Sociology and Anthropology (SOAN)

Offered by the College of Humanities and Social Sciences

SOAN 510 - Culture and Globalization

Credits: 3
Not Repeatable for Credit
Offered by Sociology and Anthropology
Provides continuing exposure to the range of disciplinary perspectives necessary for understanding crucial issues in the global arena. Through case examples, focuses on the intersections of culture and globalization. Analyzes existing data and assesses alternative policy and program approaches, and illuminates interactions between globalization and culture.

Prerequisite(s): SOAN 500
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SOAN 670 - Special Topics in Sociology and Anthropology

Credits: 4-8
Not Repeatable for Credit
Offered by Sociology and Anthropology
Provides cross-disciplinary, pedagogical format in Department of Sociology and Anthropology. Covers variety of pedagogical formats, such as combining ethnographic field techniques taught in anthropology with sociological-based urban issues, or providing archaeological laboratory analyses with grounding in statistical techniques proposed by department faculty.

Prerequisite(s): Graduate standing, or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 0-8
Hours of Lab or Studio per week: 0-8

Software Engineering (SWE)

Offered by the Volgenau School of Engineering
Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

SWE 205 - Software Usability Analysis and Design

Credits: 3  
Limited to 2 Attempts  
Offered by Computer Science  

Principles of user interface design. Concepts for objectively and quantitatively assessing the usability of software user interfaces. Outcomes include knowledge of quantitative engineering principles for designing usable software interfaces and an understanding that usability is more important than efficiency for almost all modern software projects, and often the primary factor that leads to product success. Major topics include cognitive models for human perceptions and needs, which are used as a basis for analytical and critical thinking about user interfaces; specific engineering principles for designing usable menus, forms, command languages, web sites, graphical user interfaces and web-based user interfaces. Assessments will include written analytical evaluations of existing user interfaces, exams, and HTML-based design projects.

Prerequisite(s): ENGL 101/ENGH 101  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SWE 301 - Internship Preparation

Credits: 0  
Limited to 2 Attempts  
Offered by Computer Science  

Preparation for Internship Educational Experience. Intended for, but not limited to, students planning internships in the Applied Computer Science Software Engineering Program. Internship employment opportunities. Basic interview skills. Techniques for applying academic knowledge to practical software development. Techniques for extracting knowledge from practical experience. Peer presentation from students who have completed internships.

Prerequisite(s): Limited to ACS or CS majors with junior standing or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Satisfactory/No credit only

SWE 321 - Software Engineering

Credits: 3  
Limited to 2 Attempts  
Offered by Computer Science  

An introduction to concepts, methods, and tools for the creation of large-scale software systems. Methods, tools, notations, and validation techniques to analyze, specify, prototype, and maintain software requirements. Introduction to object-oriented requirements modeling, including use of case modeling, static modeling, and dynamic modeling using the Unified Modeling Language (UML) notation. Concepts and methods for the design of large-scale software systems. Fundamental design concepts and design notations are introduced. A study of object-oriented analysis and design modeling using the UML notation. Students
participate in a group project on software requirements, specification, and object-oriented software design.

**Prerequisite(s):** Grade of C or better in CS 310 and ENGH 302. Students who have received credit for SWE 421 or CS 421 may not take SWE 321.
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SWE 332 - Object-Oriented Software Design and Implementation**

Credits: 3  
Limitied to 2 Attempts  
Offered by Computer Science  
In-depth study of software design and implementation using a modern, object-oriented language with support for graphical user interfaces and complex data structures. Topics covered are specifications, design patterns, and abstraction techniques, including typing, access control, inheritance, and polymorphism. Students will learn the proper engineering use of techniques such as information hiding, classes, objects, inheritance, exception handling, event-based systems, and concurrency.

Equivalent to CS 332.

**Prerequisite(s):** Grade of C or better in CS 310.  
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SWE 401 - Internship Reflection**

Credits: 1  
Limitied to 2 Attempts  
Offered by Computer Science  
Reflection on Internship Educational Experience. Intended for, but not limited to, students completing internships in the Applied Computer Science Software Engineering Program. Analysis of techniques for applying academic knowledge to practical software development. Analysis of techniques for extracting knowledge from practical experience. Student presentations summarizing internships relating them to academic program goals.

**Prerequisite(s):** SWE 301 and completion of internship  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No credit only

**SWE 432 - Design and Implementation of Software for the Web**
Credits: 3
Limited to 2 Attempts
Offered by Computer Science
Teaches how to develop software for web applications. Covers client-server computing, theories of usable graphical user interfaces, and models for web-based information retrieval and processing. Goals are to understand how to design usable software interfaces and implement them on web, learn how to build software that accepts information from users across web and returns data to user, and understand how to interact with database engines to store and retrieve information. Specific topics are HTML, CGI programming, Java, Java applets, Javascripts, and Java servlets.

Prerequisite(s): Grade of C or better in MATH 125 and CS 310.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 437 - Software Testing and Maintenance

Credits: 3
Limited to 2 Attempts
Offered by Computer Science
Concepts and techniques for testing and modifying software in evolving environments. Topics include software testing at the unit, module, subsystem, and system levels; developer testing; automatic and manual techniques for generating test data; testing concurrent and distributed software; designing and implementing software to increase maintainability and reuse; evaluating software for change; and validating software changes.

Prerequisite(s): Grade of C or better in MATH 125 and CS 310.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 443 - Software Architectures

Credits: 3
Limited to 2 Attempts
Offered by Computer Science
Teaches how to design, understand, and evaluate software systems at an architectural level of abstraction. By end of course, students will be able to recognize major architectural styles in existing software systems, describe a system's architecture accurately, generate architectural alternatives to address a problem and choose from among them, design a medium-size software system that satisfies a specification of requirements, use existing tools to expedite software design, and evaluate the suitability of a given architecture in meeting a set of system requirements.

Prerequisite(s): Grade of C or better in CS 321 or CS 421 or SWE 321 or SWE 421.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
SWE 510 - Object-Oriented Programming in Java

Credits: 3  
Not Repeatable for Credit  
Offered by Computer Science  
Introduces students to programming in the Java language. Topics include problem-solving methods and algorithm development, program structures, abstract data types, simple data and file structures and program development in a modular, object-oriented manner. Introductory use of OO language features, including data hiding, inheritance, polymorphism, and exception handling. Goals include design and development of Java classes and class type hierarchies. An introduction to Java servlets and applets is included. Emphasis on program development is reinforced through several programming projects.  

Prerequisite(s): Undergraduate courses or equivalent knowledge in programming in a high-level language.  
Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science.  

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SWE 619 - Object-Oriented Software Specification and Construction

Credits: 3  
Not Repeatable for Credit  
Offered by Computer Science  
In-depth study of software construction using modern, object-oriented language with support for graphical user interfaces and complex data structures. Specifications, design patterns, and abstraction techniques, including procedural, data, iteration, type, and polymorphic. Information hiding, classes, objects, and inheritance. Exception handling, event-based systems, and concurrency.  

Prerequisite(s): SWE foundation courses or equivalent.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SWE 620 - Software Requirements Analysis and Specification

Credits: 3  
Not Repeatable for Credit  
Offered by Computer Science  
In-depth study of object-oriented requirements modeling, including use case modeling, static modeling and dynamic modeling with Unified Modeling Language (UML) notation. Students participate in group project on software requirements and specification using modern method.  

Prerequisite(s): SWE foundation courses or equivalent  
Schedule Type: LEC
SWE 621 - Software Modeling and Architectural Design

Credits: 3  
Not Repeatable for Credit  
Offered by Computer Science  
Concepts and methods for the architectural design of large-scale software systems are presented. Fundamental design concepts and design notations are introduced. Concepts of requirements analysis and specification are taught. Several design methods are presented and compared. In-depth study of object-oriented analysis and design modeling using the Unified Modeling Language (UML) notation. Students participate in a group project on software requirements, analysis, and design modeling.

Prerequisite(s): SWE foundation courses or equivalent.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SWE 622 - Distributed Software Engineering

Credits: 3  
Not Repeatable for Credit  
Offered by Computer Science  
Hands-on introduction to techniques and programming interfaces for distributed software engineering. Networking protocols at several layers. Construction of distributed and concurrent software using network protocol services. Applications of Internet and web-based software.

Prerequisite(s): SWE foundation courses or equivalent.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SWE 625 - Software Project Management

Credits: 3  
Not Repeatable for Credit  
Offered by Computer Science  
Lifecycle and process models; process metrics; planning for a software project; mechanisms for monitoring and controlling schedule, budget, quality, and productivity; and leadership, motivation, and team building.

Prerequisite(s): SWE foundation courses or equivalent.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
SWE 626 - Software Project Laboratory

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Covers requirements analysis, design, implementation, and management of software development project. Students work in teams to develop or modify software product, applying sound principles of software engineering. Uses both industrial and academic standards to assess quality of work products.

Prerequisite(s): SWE 619, 620, and 621; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 6

SWE 631 - Software Design Patterns

Credits: 3
Not Repeatable for Credit
Offered by Computer Science

Prerequisite(s): SWE 621.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 632 - User Interface Design and Development

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Principles of user interface design, development, and programming. Includes user psychology and cognitive science, menu system design, command language design, icon and window design, graphical user interfaces, web-based user interfaces.

Prerequisite(s): SWE 619, or CS 540 and 571, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 637 - Software Testing

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Students learn to test software effectively. Programmers learn practical ways to design high quality tests during all phases of software development. Students learn the theory behind criteria-based test design and to apply that theory in practice. Topics include test design, test automation, test coverage criteria, and how to test software in cutting-edge software development environments.

**Prerequisite(s):** SWE 619, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**SWE 642 - Software Engineering for the World Wide Web**

Credits: 3
Not Repeatable for Credit
Offered by Computer Science

Detailed study of engineering methods and technologies for building highly interactive web sites for e-commerce and other web-based applications. Presents engineering principles for building web sites that exhibit high reliability, usability, security, availability, scalability, and maintainability. Teaches methods such as clientserver programming, component-based software development, middleware, and reusable components.

**Prerequisite(s):** SWE 619, or CS 540 and 571, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**SWE 645 - Component-Based Software Development**

Credits: 3
Not Repeatable for Credit
Offered by Computer Science

Introduces concepts and foundations of software component and component-based software. Detailed study of engineering principles of modeling, designing, implementing, testing, and deploying component-based software. Also explores state-of-the-art component technologies.

**Prerequisite(s):** SWE 619, or CS 540 and CS 571, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**SWE 681 - Secure Software Design and Programming**

Credits: 3
Not Repeatable for Credit
Offered by Computer Science

Theory and practice of software security, focusing in particular on some common software security risks, including buffer overflows, race conditions and random number generation, and on identification of potential threats and vulnerabilities early in design cycle. Emphasizes methodologies and tools for identifying and eliminating security vulnerabilities, techniques to prove
absence of vulnerabilities, ways to avoid security holes in new software, and essential guidelines for building secure software:
how to design software with security in mind from the ground up and integrate analysis and risk management throughout the
software life cycle.

Equivalent to SWE 781 (2012-2013 Catalog), ISA 681.

Prerequisite(s): SWE 619.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 699 - Special Topics in Software Engineering

Credits: 3
Repeatable within Term for Credit
Offered by Computer Science
Special topics not occurring in regular SWE sequence.

Prerequisite(s): Permission of instructor.
Notes: May be repeated for credit when semester topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 721 - Reusable Software Architectures

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Investigates software concepts that promote reuse of software architectures. Studies influence of object technology on software
design and reuse. Investigates domain modeling methods, which model the application domain as a software product family from
which target systems can be configured. Covers reusable software patterns including architecture patterns and design patterns,
software components, and object-oriented frameworks.

Prerequisite(s): SWE 621
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 722 - Service Oriented Architecture

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
This course covers the state-of-the-art approaches to building dependable Service-Oriented Architecture (SOA) software systems.
A variety of relevant topics are covered, including SOA design principles, implementation platforms and standards, quality of
service contracts, runtime management of service providers, and coordination and composition of services. The course includes a final project to exercise the concepts covered in class.

**Prerequisite(s):** SWE 622 or instructor's permission.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall.

---

**SWE 727 - Quality of Service for Software Architectures**

Credits: 3  
Not Repeatable for Credit  
Offered by Computer Science  
Builds on acquired skills for modeling architectures, and focuses on the relationship between architectural patterns and qualities of service (QoS). By the end of the course, students will be able to elicit the QoS preferences of stakeholder; recognize major architectural styles and the QoS tradeoffs that each presents; design for and reconcile competing QoS requirements; and evaluate a given architecture with respect to a set of QoS requirements.

**Prerequisite(s):** SWE 621 or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SWE 737 - Advanced Software Testing**

Credits: 3  
Not Repeatable for Credit  
Offered by Computer Science  
Cutting edge concepts and techniques in software testing. An in-depth study of existing approaches to testing software as well as development of new approaches. Applications of existing concepts and techniques to new technologies. Advanced MS students learn in-depth knowledge for how to apply testing in difficult and challenging real-world scenarios. PhD students learn current research trends, both theoretical and practical.

**Prerequisite(s):** SWE 637.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

---

**SWE 760 - Software Analysis and Design of Real-Time Systems**

Credits: 3  
Not Repeatable for Credit  
Offered by Computer Science  
Background for students who want to conduct research in software engineering of real-time systems. Provides understanding of key real-time software system analysis, design concepts and methods, and how they are used in developing large-scale, real-time...
software systems. Also explores potential impact of emerging technologies. Includes term project in design and analysis of complex, real-time software system.

Equivalent to SWE 860 (2012-2013 Catalog).

Prerequisite(s): SWE 621.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SWE 763 - Software Engineering Experimentation

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Detailed study of scientific process, particularly using experimental method. Examines how empirical studies are carried out in software engineering. Reviews distinction between analytical techniques and empirical techniques. Other topics include experimentation required in software engineering, problems that can be solved using experimentation, methods used to control variables and eliminate bias in experimentation, and analysis and presentation of empirical data for decision making.

Prerequisite(s): SWE 621, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 795 - Advanced Topics in Software Engineering

Credits: 3
Repeatable within Degree for Credit
Offered by Computer Science
Advanced topics not occurring in existing courses. Topics normally assume knowledge in one or more existing MS SWE courses.

Prerequisite(s): 12 credits applicable toward MS program.
Notes: Repeatable within degree for credit when subject differs.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 796 - Directed Readings in Software Engineering

Credits: 3
Not Repeatable for Credit
Offered by Computer Science
Analysis and investigation of contemporary problem in software engineering. Requires prior approval by faculty member who supervises student's work. Written report also required.
Prerequisite(s): Permission of Department Chair.
Notes: Maximum 6 credits may be earned. To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 798 - Research Project

Credits: 3
Repeatable within Degree for Credit
Offered by Computer Science
Master's degree candidates undertake a project using knowledge gained in MS program. Topics chosen in consultation with a faculty sponsor. Research project is chosen under guidance of full-time graduate faculty member, resulting in written technical report.

Prerequisite(s): 18 credits applicable toward MS.
Notes: Prior approval required by faculty sponsor who supervises student's work. To register, students must complete an independent study form available in department office. It must be initialed by the faculty sponsor and approved by the department chair.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SWE 799 - Thesis

Credits: 1-6
Not Repeatable for Credit
Offered by Computer Science

Research project completed under supervision of faculty member, which results in technical report accepted by three-member faculty committee. Report must be defended in oral presentation.

Prerequisite(s): Permission of Advisor and Department Chair.
Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
SWE 821 - Software Engineering Seminar

Credits: 3  
Repeatable within Degree for Credit  
Offered by Computer Science  
Study of application of software engineering principles, design methods, and support tools through real-life problems extracted from faculty and industry projects.

Prerequisite(s): SWE 621  
Notes: May be repeated with change in topic.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

SWE 825 - Special Topics in Web-Based Software

Credits: 3  
Repeatable within Degree for Credit  
Offered by Computer Science  
Advanced topics in specifying, designing, modeling, developing, deploying, testing and maintaining software written as web applications and web services. May be repeated with change in topic.

Prerequisite(s): SWE 642 Software Engineering for the World Wide Web.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

Spanish (SPAN)

Offered by the College of Humanities and Social Sciences

See also FRLN course listings.

SPAN 101 - Elementary Spanish I

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
For students with no knowledge of Spanish. Introduction to Spanish, including elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Lab work required.

Notes: Students may not receive credit for SPAN 101 and SPAN 110.

Schedule Type: LEC
SPAN 102 - Elementary Spanish II

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Continuation of SPAN 101.

Prerequisite(s): SPAN 101, appropriate placement score, or permission of department.
Notes: Students may not receive credit for SPAN 102 and SPAN 110.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 110 - Elementary Spanish

Credits: 6
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Notes: Students may not receive credit for SPAN 110 and SPAN 101 and 102 combined, or SPAN 115.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 1

SPAN 115 - Review of Elementary Spanish

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Reviews elements for students who have studied Spanish previously.

Prerequisite(s): Appropriate placement score or permission of the department.
Notes: Students may not receive credit for SPAN 115 and SPAN 101 and 102 combined or SPAN 110.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 201 - Intermediate Spanish I
SPAN 201 - Intermediate Spanish I

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Further development of skills in listening, speaking, reading, and writing. SPAN 201 and 202 must be taken in sequence. Lab work required.

Prerequisite(s): SPAN 102, SPAN 110, appropriate placement score, or permission of department.
Notes: Students may not receive credit for SPAN 201 and SPAN 210.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 202 - Intermediate Spanish II

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Application of skills to reading, composition, and discussion. Lab work required.

Prerequisite(s): SPAN 201, appropriate placement score, or permission of department.
Notes: Students may not receive credit for SPAN 202 and SPAN 210.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 210 - Intermediate Spanish

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Spanish-speaking regions.

Prerequisite(s): SPAN 102, 110, 115 appropriate placement score, or permission of department.
Notes: Students may not receive credit for SPAN 210 and SPAN 201, 202.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 1

SPAN 250 - Gateway to Advanced Spanish
SPAN 301 - Grammar and Syntax

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
In-depth review of Spanish grammar and syntax. Extensive practice in controlled and free writing with emphasis on fundamental difficulties and points of interference that exist between English and Spanish.

Prerequisite(s): SPAN 202, SPAN 250, appropriate placement score, or permission of department
Notes: Taught in Spanish.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 305 - Spanish in Context I

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Integrated content-based approach to the study of Spanish, designed to promote oral and written abilities, as well as critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Includes vocabulary-building activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films.

Prerequisite(s): SPAN 250 or equivalent, or permission of instructor.
Notes: Taught in Spanish. Students cannot receive credit for SPAN 305 if they receive credit for SPAN 309 or 315.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 306 - Spanish in Context II
Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Continuation of SPAN 305.

Prerequisite(s): SPAN 305 or equivalent, or permission of instructor.  
Notes: Taught in Spanish. Students cannot receive credit for SPAN 306 if they received credit for SPAN 309 or 315.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 309 - Intensive Spanish in Context

Credits: 6  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Intensive content-based approach to the study of Spanish, designed to promote oral and written abilities, as well as critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Includes vocabulary-building activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films.

Prerequisite(s): SPAN 250 or equivalent, or permission of instructor.  
Notes: Taught in Spanish. Students cannot receive credit for both SPAN 309 and SPAN 305, 306, or 315.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 6  
Hours of Lab or Studio per week: 0

SPAN 315 - Spanish for Heritage Speakers

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Designed for students who have some communicative ability in Spanish, normally acquired in the home, who want to improve their reading and writing abilities while developing a critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Course components include orthography and vocabulary activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films.

Prerequisite(s): Appropriate placement score or permission of instructor.  
Notes: Students cannot receive credit for both SPAN 315 and SPAN 305, 306, or 309.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 321 - Introduction to Spanish Culture
SPAN 321 - Introduction to Spanish Culture

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation of modern Spain.

Equivalent to SPAN 461

Prerequisite(s): ENGH 101 or equivalent, or permission of instructor.
Notes: Taught in English. Students may not receive credit for both SPAN 321 and 461.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 322 - Introduction to Latin American Culture

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation of modern Latin America.

Fulfills Mason Core requirement in global understanding.

Equivalent to SPAN 466

Prerequisite(s): ENGL 101/ENGH 101 or equivalent, or permission of instructor.
Notes: Taught in English. Students may not receive credit for both SPAN 322 and 466.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 323 - Field Study in Hispanic Culture

Credits: 1-3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation of modern Spain.

Prerequisite(s): 60 credits or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0
SPAN 324 - Study Abroad in Spanish

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Study at an academic institution in a Spanish-speaking country including classroom studies with professors from the host country and field experiences.

Prerequisite(s): SPAN 250 (or equivalent) or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 325 - Major Hispanic Writers

Credits: 3
Repeatable within Term for Credit
Offered by Modern and Classical Languages.
Study of the works of major Hispanic writers in translation. Writers studied vary.

Fulfills Mason Core requirement in literature.

Prerequisite(s): ENGH 101 or equivalent.
Notes: Taught in English. May be repeated once for credit when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 326 - Treasures of Spanish American Literature

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Introduction to the major themes, trends, and cultural context of Latin American literature. Writers studied vary.

Prerequisite(s): Advanced oral and written proficiency in Spanish, to be determined by the instructor.
Notes: Taught in Spanish. May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 329 - Special Topics in Spanish and Latin American Literature
Credits: 3
Repeatable within Term for Credit
Offered by Modern and Classical Languages.
Study of selected topics in Spanish or Latin American literature. Writers and topics vary.

Prerequisite(s): ENGL 101/ENGH 101, or permission of instructor.
Notes: Taught in English. Designed for students who are not pursuing a concentration in Spanish. May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 335 - Topics for Proficiency: The Americas

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Integrated content-based approach to conversational Spanish. Designed to promote increased confidence and fluency in both formal and informal Spanish registers, as well as critical understanding of Latin American and/or Latino histories and cultures. Current events, films, literary texts, and popular culture reflecting issues of Latin Americans and/or Latinos serve as catalysts for class discussions, oral presentations, and debates.

Prerequisite(s): SPAN 250 (or equivalent) or permission of instructor.
Notes: Taught in Spanish. May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 336 - Topics for Proficiency: Spain

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Integrated content-based approach to conversational Spanish. Designed to promote increased confidence and fluency in both formal and informal Spanish registers, as well as critical understanding of Spanish history and culture. Current events, films, literary texts and popular culture reflecting Spanish issues serve as catalysts for class discussions, oral presentations and debates.

Prerequisite(s): SPAN 250 (or equivalent) or permission of instructor.
Notes: Taught in Spanish. May be repeated for a maximum of 6 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 351 - Oral Spanish
SPAN 370 - Spanish Writing and Stylistics

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Improves writing skills by covering formal and stylistic concepts of the Spanish language. Includes practice and exposure to different textual genres in an interdisciplinary fashion. Includes common doubts concerning spelling, expression, and style; business Spanish; journalistic Spanish; academic Spanish; and creative writing.

Fulfills writing intensive requirement in the major.

Equivalent to SPAN 452

Prerequisite(s): SPAN 306 or 309, or 315, or permission of instructor.
Notes: Taught in Spanish.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 375 - Introduction to Spanish-Language Cinema

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Introduces the study of film as an art form and the academic discipline of film studies as they relate to the Spanish-speaking world. Focuses on students' acquisition of knowledge on the material and principles of film form and their practice in film analysis of discrete Spanish language films and film genres of significance within the 20th and 21st centuries.

Prerequisite(s): SPAN 305 and SPAN 306 or SPAN 309 or SPAN 315.
Corequisite(s): SPAN 370, SPAN 385, SPAN 388, SPAN 390.
Notes: Taught in Spanish.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SPAN 385 - Introduction to Spanish Linguistics

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Introduces the study of Spanish linguistics, including phonetics, phonology, morphology, syntax, pragmatics, historical linguistics, and sociolinguistics. Combines discussion of theoretical issues with linguistic analysis of Spanish.

Prerequisite(s): SPAN 370 or permission of instructor.  
Corequisite(s): SPAN 370 or permission of instructor.

Notes: Taught in Spanish.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 388 - Introduction to Latina/o Studies

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Interdisciplinary approach to the study of U.S. Latina/o cultural production, designed to promote critical thinking in understanding Latina/o histories, literatures, and cultures.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): SPAN 335 or 336, or SPAN 370, or permission of instructor.  
Corequisite(s): SPAN 370 or permission of instructor.

Notes: Taught in Spanish.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 390 - Introduction to Hispanic Literary Analysis

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Required course that prepares students for the study of Hispanic literatures. Introduces basic terminology of literary analysis and provides practice in the examination of texts in the major genres: poetry, narrative, and drama.

Prerequisite(s): SPAN 370 or permission of instructor.  
Corequisite(s): SPAN 370 or permission of instructor.
Notes: Taught in Spanish.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 400 - Spanish for the Professions

Credits: 3  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
Advanced study of the language needed for use in a specific profession, such as translation, business, social service, or health professions.

Prerequisite(s): SPAN 385 or permission of instructor.  
Notes: Taught in Spanish. May be repeated for a maximum of 6 credits when profession differs.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPAN 425 - Independent Study

Credits: 1-3  
Repeatable within Term for Credit  
Offered by Modern and Classical Languages.  
Research and analysis of a selected problem in literature or linguistics in consultation with a department member.

Prerequisite(s): Spanish major with 90 credits, and permission of instructor.  
Notes: Maximum of 6 credits of independent study may be applied to fulfillment of requirements for the major.

Schedule Type: IND  
Hours of Lecture or Seminar per week: 1-3  
Hours of Lab or Studio per week: 0

SPAN 426 - Independent Study

Credits: 1-3  
Repeatable within Term for Credit  
Offered by Modern and Classical Languages.  
Research and analysis of a selected problem in literature or linguistics in consultation with a department member.

Prerequisite(s): Spanish major with 90 credits, and permission of instructor.  
Notes: Maximum of 6 credits of independent study may be applied to fulfillment of requirements for the major.

Schedule Type: IND
**SPAN 430 - Spanish in the United States**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.

Covers both formal and sociolinguistic aspects of Spanish in the U.S. by discussing demographic aspects and a historical overview of the varieties of Spanish spoken in the United States. Gives a foundation in issues such as linguistic variation, language choice, the relationship among race, ethnicity, and language; official language policies; individual and societal bilingualism; and language diversity in education.

**Prerequisite(s):** SPAN 385, or advanced ability in Spanish or permission of instructor.  
**Notes:** Taught in Spanish.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SPAN 452 - Advanced Written Spanish**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.

Development of skills required in writing Spanish. Guided and original compositions. Grammatical structures reviewed and supplemented with individual corrections.

Equivalent to SPAN 370

**Prerequisite(s):** 9 credits of SPAN at 300 level or above, or permission of instructor.  
**Notes:** Taught in Spanish.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SPAN 455 - Spanish-English Translation**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.

Introduction to the history, theory, analysis, and practice of Spanish-English and English-Spanish translation. Includes literal versus free translation; denotation and connotation; regional and social variation; intercultural pragmatic differences;
interlanguage influence and calques; and genre and audience. Hands-on experience with literary works, newspaper articles, and advertisements, as well as legal, medical, and technical documents.

**Prerequisite(s):** SPAN 370 and ENGL 302/ENGH 302; or permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 461 - Spanish Civilization and Culture**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Survey of Spanish culture and civilization from the pre-Roman era to the 20th century.

Equivalent to SPAN 321

**Prerequisite(s):** SPAN 370 or permission of instructor.  
**Notes:** Taught in Spanish. Students may not receive credit for both SPAN 321 and 461.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 466 - Latin American Civilization and Culture**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Introduction to the study of Latin American civilization and culture from the pre-Columbian era to the 20th century.

Fulfills Mason Core requirement in global understanding.

Equivalent to SPAN 322

**Prerequisite(s):** SPAN 370 or permission of instructor.  
**Notes:** Taught in Spanish. Students may not receive credit for both SPAN 322 and 466.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**SPAN 472 - Spanish Phonetics and Phonology**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.
Introduction to the analysis of the Spanish sound system, both phonetics and phonology. Topics include the articulatory system, sound production, the classification of vowels and consonants, phonetic transcription, the mental representation of sounds, variation and accent, and processes of sound change, among others.

**Prerequisite(s):** SPAN 385 or permission of instructor.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**SPAN 474 - Spanish Syntax and Semantics**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Investigates the knowledge Spanish speakers possess that enables them to understand and create expressions they have not heard before. Studies the system unconsciously used by Spanish speakers and writers to connect situations in the real world to the words and sentences that express each situation. Provides opportunities to analyze samples of language in actual use.

**Prerequisite(s):** SPAN 385 or permission of instructor.
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SPAN 476 - Teaching Spanish in the United States**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Introduction to second language acquisition theory and research, and the application to teaching Spanish as a second language and a heritage language. Includes a discussion of sociocultural and political issues surrounding the teaching of Spanish in the United States. Covers learning objectives, critical pedagogy, course design, grammar instruction, task-based language teaching, computer-assisted language learning, materials evaluation, and assessment.

**Prerequisite(s):** SPAN 385 or permission of instructor.
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**SPAN 480 - Special Topics in Spanish**

Credits: 3  
Repeatable within Term for Credit  
Offered by Modern and Classical Languages.  
Study of a selected theme in Hispanic literature, culture, or linguistics.

**Prerequisite(s):** SPAN 385, 388 or 390, depending on topic, or permission of instructor.
**Notes:** Taught in Spanish. May be repeated for credit when topic is different.
SPAN 481 - Special Topics in Spanish

Credits: 3  
Repeatable within Term for Credit  
Offered by Modern and Classical Languages.  
Study of a selected theme in Hispanic literature, culture, or linguistics.

Prerequisite(s): SPAN 385, 388 or 390, depending on topic, or permission of instructor.  
Notes: Taught in Spanish. May be repeated for credit when topic is different.

SPAN 482 - Mass Media and Popular Culture in the Spanish-Speaking World

Credits: 3  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
Critical examination of the significance of mass media and/or popular culture for the development of Spanish-speaking nations in the 19th, 20th, and 21st centuries. Forms studied may include but are not limited to: Newspapers, popular novels, lithography, photography, radio, film, television, public art, sport, performance, digital media. Students will use readings in critical theory to explore ways in which forms of mass and popular culture connect to social imaginaries. Enhancement of advanced analytical skills in Spanish through different modules of lecture, reading, discussion, and writing.

Prerequisite(s): SPAN 305/306 or 309 or 315, SPAN 370, SPAN 385, SPAN 390.

SPAN 483 - Medieval and Early Modern Literature of Spain

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Examines the main periods, trends, genres, and most representative works of the Spanish peninsular literature from its beginnings to the end of the Golden Age.

Prerequisite(s): SPAN 390 or permission of instructor.  
Notes: Taught in Spanish.
SPAN 484 - Modern and Contemporary Literature of Spain

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Examines the main periods, trends, genres, and most representative works of Spanish peninsular literature from the 18th century to the contemporary period.

Prerequisite(s): SPAN 390 or permission of instructor.
Notes: Taught in Spanish.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 486 - Topics in Latin American Literature I: Pre-colonial to Mid-19th Century

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
An interdisciplinary examination and discussion of major topics in literary texts and cultural practices of Latin America from pre-colonial times to the mid-19th century.

Prerequisite(s): SPAN 390 or permission of instructor.
Notes: Taught in Spanish.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 487 - Topics in Latin American Literature II: Late 19th Century to the Present

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Interdisciplinary examination and discussion of major topics in literary texts and cultural practices of Latin America from the late 19th century to the present.

Prerequisite(s): SPAN 390 or permission of instructor.
Notes: Taught in Spanish.

Schedule Type: LEC
SPAN 488 - The Literature of Spanish America

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Survey of the literature of Spanish America. Study of texts that are representative of the colonial, romantic, modernista, avant garde, and contemporary periods.

Prerequisite(s): SPAN 390 or permission of instructor.
Notes: Taught in Spanish.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 490 - Internship in Spanish

Credits: 1-6
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Qualified students work with area schools, social service programs, government agencies, interest groups, museums, or corporations. Specific arrangements must be made with, and approved by, a member of the Spanish faculty during the semester prior to enrollment.

Prerequisite(s): 9 credits in Spanish at the 300 level, or permission of instructor.
Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 497 - Senior Honors Tutorial

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
First semester involves weekly meetings with a faculty member to discuss readings from a comprehensive list prepared by the Spanish faculty. In the second semester, independent research and completion of an honors essay under the supervision of a member of the Spanish faculty are required.

Prerequisite(s): Spanish major with 90 credits, cumulative GPA of 3.00, and GPA of 3.00 in major field.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SPAN 498 - Senior Honors Tutorial

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Students meeting these requirements are admitted to candidacy on submission of a letter of application to the department Honors Committee in the second half of the junior year. A faculty recommendation and an interview by the Honors Committee are also required. First semester involves weekly meetings with a faculty member to discuss readings from a comprehensive list prepared by the Spanish faculty. In the second semester, independent research and completion of an honors essay under the supervision of a member of the Spanish faculty are required.

Prerequisite(s): Spanish major with 90 credits, cumulative GPA of 3.00, and GPA of 3.00 in major field.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 500 - History of the Spanish Language

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Study of the evolution of the Spanish language from its origins in Vulgar Latin to its present varieties. Includes consideration of social and political as well as linguistic factors in language change.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 501 - Applied Spanish Grammar

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Analysis of Spanish grammar as a basis for teaching language skills. Terminology and methodology for the teaching of syntax are stressed.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 502 - Hispanic Sociolinguistics

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Introduction to sociolinguistics with emphasis on bilingualism and language contact in the Spanish-speaking world including the
SPAN 505 - Applied Spanish Stylistics

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Advanced study of the written language for students who want to develop their academic writing skills. Covers the most frequent challenges of writing through intensive practice in genres such as argumentation, narration, and description. Teaches students to identify and analyze best practices in academic writing.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 510 - Introduction to the Graduate Study of Literature in Spanish

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Study of the nature of literary work and analysis of critical approaches to literature with an emphasis on texts written in Spanish.
Course is a requirement for master's students of Spanish in their first year of study.

Prerequisite(s): Graduate standing in master's program in foreign languages, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 520 - Studies in Medieval Spanish Literature

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Study of a major work or a literary genre of this period.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SPAN 525 - Studies in Renaissance Literature

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Study of a literary movement or selected authors of the Spanish Renaissance.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 530 - Studies in the Literature of the Golden Age

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Study of a literary genre or a major author of Spanish literature of the Golden Age.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 540 - Studies in 20th-Century Literature

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Study of a writer, genre, theme, or movement of this period.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 545 - Studies in Hispanic Literature

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Study of major writers in a particular generation or movement.
SPAN 551 - Special Topics in Spanish

Credits: 3
Repeatable within Term for Credit
Offered by Modern and Classical Languages.
Special studies in Spanish or Latin American language, literature, or culture. Specific topics are announced in advance.

Notes: May be repeated for credit with permission of department.

SPAN 560 - Studies in Spanish American Poetry

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Study of major poets of a given period. Literary and social atmosphere of the period are emphasized.

Notes: May be repeated for a maximum of 9 credits when topic is different.

SPAN 565 - Studies in Spanish American Drama

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Study of playwrights who have made a major contribution to the development of the genre.

Notes: May be repeated for a maximum of 9 credits when topic is different.

SPAN 576 - Advanced Translation
Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Advanced work in translation of selected texts from diverse fields. Comparative terminology, sight translation, and précis writing. Emphasis on the function and technique of documentation in translation. Translation from Spanish to English and from English to Spanish.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 580 - Contemporary Hispanic Institutions

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Study of 20th-century cultural, social, and political institutions in Spain and Spanish America with emphasis on language and terminology used to describe their functions, regulations, and conditions.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 635 - Seminar in Don Quixote

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Study of Don Quixote and major critical approaches to the work.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 650 - Seminar in Twentieth-Century Drama

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Study of major dramatists in the generation of 1898 and contemporary theater.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: SEM
SPAN 655 - Seminar in Twentieth-Century Prose

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Study of major writer, theme, or movement in novel or essay.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 670 - Seminar in Spanish American Prose

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Study of a selected theme, movement, or author in the novel, short story, or essay.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 675 - Seminar in Literature and Art

Credits: 3
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Comparative analysis of a literary theme or style in relation to other media (painting, architecture, film) for an integral understanding of the arts.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPAN 680 - Seminar in Literature and Society
Credits: 3  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
Study of a literary topic, a genre, or selected authors in relation to a given economic, social, or political system in Spain or Latin America.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SPAN 685 - Seminar in Literature and Ideas**

Credits: 3  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
Study of major ideological-philosophical themes and their artistic expression in literature.

Notes: May be repeated for a maximum of 9 credits when topic is different.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**SPAN 798 - Directed Reading and Research**

Credits: 3  
Not Repeatable for Credit  
Offered by Modern and Classical Languages.  
Open only to degree students who have completed at least 18 credits. Reading and research on a specific project under the direction of a department member. Oral or written report required.

Schedule Type: IND  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Graduate Special

**SPAN 799 - Thesis**

Credits: 1-6  
Repeatable within Degree for Credit  
Offered by Modern and Classical Languages.  
Master's thesis research and writing under direction of faculty committee. Students must register for 3 credits in the first semester of SPAN 799 and maintain continuous enrollment until completion of thesis. Credits are awarded upon completion.

Schedule Type: IND
SPAN 800 - Studies for the Doctor of Philosophy in Education

Credits: 3-6
Repeatable within Degree for Credit
Offered by Modern and Classical Languages.
Studies designed by student's discipline director and approved by student's doctoral committee that prepare student for research and writing in area of interest in discipline.

Prerequisite(s): Admission to PhD in education program to study in Spanish.
Notes: Enrollment may be repeated.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0
Grading: Graduate Special

Special Education (EDSE)

Offered by the College of Education and Human Development

EDSE 115 - American Sign Language (ASL) I

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Introduces American Sign Language (ASL) and Deaf culture. Teaches basic person-to-person conversational signing. Emphasizes development of expressive and receptive skills. Increases knowledge of ASL vocabulary and the syntax, semantics, and pragmatics of the language. Explores issues of multiculturalism, linguistic code-switching, and language dominance, particularly in relationship to Deaf education.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

EDSE 116 - American Sign Language (ASL) II

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Focuses on intermediate level skills in American Sign Language (ASL) and Deaf culture. Increases competencies in person-to-
person conversational signing, including expressive and receptive skills, vocabulary, syntax, semantics, and pragmatics. Provides opportunities for in-depth exploration of issues of multiculturalism, Deaf history, Deaf culture, and the different modalities of communication used in Deaf education problems.

**Prerequisite(s):** Completion of ASL I or equivalent course with a minimum grade of C.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Summer, Spring

**EDSE 219 - American Sign Language (ASL) III**

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
ASL III focuses on strengthening expressive and receptive communication through the development of narrative and storytelling skills. The course explores the importance of these skills within the Deaf Community. Students also study how ASL, Deaf history, culture, education, and accessibility have influenced laws and policies in different areas of the community, the region, the nation, and the world.

**Prerequisite(s):** Completion of ASL II or equivalent course with a minimum grade of C.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Summer, Spring

**EDSE 401 - Introduction to Special Education**

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Provides a survey of current knowledge on individuals with disabilities within the context of human growth and development across the life span. Content includes historical factors, legislation, etiology, characteristics, needs, educational strategies, assessment, and support services of and for individuals with disabilities ranging from mild and moderate to severe levels of varying disabilities. Includes the impact of disabilities on academic, social, and emotional performances.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**EDSE 402 - Classroom Management and Applied Behavior Analysis**

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Focuses on identifying, recording, evaluating, and changing social and academic behaviors of special and diverse populations. Explores theories of classroom management and various approaches to management, including use of technological advances.
Emphasizes developing classroom and individual behavior management plans.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 403 - Language Development and Reading**

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Identifies literacy skills for typical students, and describes reading, language, and writing instruction for students with mild disabilities who access the general curriculum. Topics include emergent literacy skills, phonemic awareness, vocabulary development, and comprehension.

**Prerequisite(s):** EDSE 401 and EDSE 440.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 405 - Introduction to Early Childhood Special Education**

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Surveys current knowledge about young children with disabilities within the context of human growth and development and learning expectations in the preschool years. Includes factors and legislation affecting service delivery. Field experience required.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**EDSE 411 - Characteristics of Students with Visual Impairments**

Credits: 2  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Provides an overview of the characteristics of and services to persons with visual impairments, including the impact of visual impairment on infants’ and children's growth and development, child and adolescent emotional and social development, and family interaction patterns. Considers the educational, conceptual, psychosocial, and physical implications of a visual impairment.

**Notes:** Course delivered online.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0
EDSE 412 - Braille Code

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Provides understanding of the literary code of Braille and its implications for educational/literacy programs for students with a visual disability. Practice experiences will enable students to better understand the Braille code and how to teach it to students with a visual disability.

Prerequisite(s): EDSE 411.  
Corequisite(s): EDSE 411.

Notes: Delivered online.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 414 - Orientation and Mobility

Credits: 2  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Provides the foundation for understanding the components and essence of orientation and mobility (O&M). Establishes how the need for independent travel in the blind population created the field of O&M. Explores the philosophy and history of orientation and mobility, including cane instruction, dog guides, and methods of travel. Addresses techniques in developing orientation skills and basic mobility instruction. Motor and concept skill development are emphasized.

Prerequisite(s): EDSE 411.  
Corequisite(s): EDSE 411.

Notes: Delivered online.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0

EDSE 415 - Early Intervention for Infants and Toddlers with Disabilities: Collaborative and Consultative Approaches

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Explores current public policy initiatives for coordinating services for infants and toddlers. Covers models of services delivery and approaches to family-centered service.
EDSE 418 - Curriculum and Assessment of Students with Visual Impairments

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education

Provides students with knowledge and understanding of the educational assessment of students with visual impairments and additional disabilities including deaf-blindness. Students practice assessing and planning educational programs for students with visual impairments. Addresses assessment of technology for students with visual impairments. Examines determination of learning needs and appropriate learning media, relationship of assessment, IEP development, and placement. Delivered online.

Prerequisite(s): EDSE 411.
Notes: Delivered online.

EDSE 422 - Augmentative Communication

Credits: 2
Not Repeatable for Credit
Offered by Graduate School of Education
Focuses on alternative language, literacy, and communication techniques for children with severe language and speech impairments.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

EDSE 428 - Elementary Reading, Curriculum, and Strategies for Students Who Access the General Education Curriculum

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Applies research on instructional approaches in elementary curriculum for individuals with disabilities accessing general education curriculums. Includes curriculum and instructional strategies in reading, language arts, mathematics, science, social studies, and social skills; cognitive strategies in study skills, attention and memory, and peer-mediated instruction.

Schedule Type: LEC
EDSE 429 - Secondary Curriculum and Strategies for Mild Disabilities

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Applies research on teacher effectiveness, teacher accountability, instructional approaches, and technological advances at the secondary level for individuals with emotional disturbance, learning disabilities, and mental retardation. Includes curriculum and instructional strategies in reading, language arts, math, science, social studies, and social skills; cognitive strategies in self-regulation, study skills, attention, memory, and motivation; peer-mediated instruction including cooperative learning and peer tutoring; and self-advocacy and strategies for facilitating transition to community, workplace, and post-secondary environments.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 431 - Transition and Community-Based Instruction

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Addresses issues in transition for youth with severe disabilities. Covers self-determination, development and implementation of a transition plan, post-secondary opportunities including education and community-based instruction, and vocational environments.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 432 - Positive Behavior Supports

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Focuses on employing concepts and skills to design, implement, and evaluate behavior support programs derived from functional assessment; using effective teaching strategies; addressing relevant replacement skills; facilitating generalization and maintenance of skills and incorporating individually designed crisis intervention procedures.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 434 - Communication and Severe Disabilities
Introduces professionals to augmentative and alternative communication (AAC) for individuals with severe speech and language impairments. Addresses knowledge and skills needed to assess the potential AAC user, make team decisions, develop and implement instruction, and evaluate the effects of instruction aimed at motivating, building, and expanding communication, choice-making, and social interaction.

**EDSE 440 - Characteristics of Students with Disabilities Who Access the General Curriculum**

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Examines the characteristics of students with mild disabilities. Emphasis on etiology, contributing factors, conditions that affect learning, the challenges of identifying students with disabilities, and the need for academic, social, and emotional accommodations and support.

**Notes:** School-based field experience required.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring, Summer

**EDSE 442 - Characteristics of Students with Mental Retardation**

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Covers theories and specific conditions in mental retardation, and provides advanced study of persons with mental retardation, ranging in age from preschool to adult. Topics include historical development of the field of mental retardation; theoretical models of mental retardation; etiological factors; characteristics; models of assessment and intervention, including technological advances; and issues and trends, including legislation and litigation. Includes the study of the impact of mental retardation on academic and social and emotional performances. Field experience required.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0
EDSE 456 - Language Development and Communication for Diverse Infants and Toddlers

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines understanding of early language development in terms of each of the five major components of language. Speech, language, and communication are discussed, particularly in terms of their interrelatedness with cognitive and sociocultural development. Explores importance of adult-child interaction, and impact of bilingualism, cultural diversity, cognitive ability, and language disorder.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 457 - Foundations of Language and Literacy for Diverse Learners

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Addresses first and second language acquisition and its application in the various contexts in which children develop. Explores the impact of disability and second language acquisition, and the inter-relationship of speaking, listening, and writing. Includes review of characteristics and etiology of children with language disabilities. Also addresses the diversity of communication styles in families, communities, and cultures. Field experience required.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 458 - Medical Aspects of Physical and Sensory Disabilities in Young Children

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Focuses on physical, sensory, medical, and health aspects of child development, including etiology and symptomatology of developmental disabilities affecting physical development. Emphasizes positioning, handling, adaptive strategies, and understanding of assistive technology devices. Focuses on the understanding of roles of related disciplines in collaborative planning and service delivery. Field experience required.
EDSE 459 - Curriculum and Methods: Early Childhood Special Education

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Emphasizes planning, organizing, implementing, and evaluating programs for young children with special needs.

EDSE 460 - Introduction to Applied Behavior Analysis

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Students will master basic principles, procedures, and ethical concepts pertaining to applying behavior analysis in schools or in other educational or therapeutic settings developed to satisfy part of the educational requirements needed for sitting for the Board Certified Assistant Behavior Analyst examination.

EDSE 461 - Analysis and Intervention in Applied Behavior Analysis

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Teaches students basic data collection, presentation, and analysis as it pertains to applied behavior analysis; as well as procedures for determining intervention efficacy and selecting, developing, or modifying interventions based on data, in educational and other settings to satisfy part of the educational requirement to sit for the Board Certified Assistant Behavior Analyst (BCABA) examination.

Prerequisite(s): EDSE 460, or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring
EDSE 462 - Applying Behavior Analysis in School and Community Settings

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Teaches a variety of procedural topics in applied behavior analysis pertaining to developing effective instruction and interventions for a variety of content areas, skills, and adaptive and problem behaviors. Additionally, provides instruction on gaining collaboration of those around the student in assuring the student's success, and ethical concerns in meaningfully applying behavior analysis. Course is developed to satisfy part of the educational requirement to sit for the Board Certified Assistant Behavior Analyst (BCABA) examination.

Corequisite(s): EDSE 460 or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

EDSE 464 - Ethical and Professional Conduct in Applied Behavior Analysis

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides a basis in Virginia Behavior Analyst Licensure law, the Behavior Analyst Certification Board's Guidelines for Responsible Conduct and Disciplinary Standards, Virginia Assistant Behavior Analyst Licensure Regulations, and professional conduct consistent with the practice of applied behavior analysis. Incorporates overseeing instructional or program implementation, working with behavior change systems, managing interventions, and behavior change considerations.

Prerequisite(s): EDSE 460.
Corequisite(s): EDSE 460.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

EDSE 469 - Interdisciplinary Approach for Children with Sensory and Motor Disabilities

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Emphasizes positioning, handling, and adaptive strategies. Focuses on understanding the roles of related disciplines in collaborative planning and service delivery.

Equivalent to EDSE 669

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Fall, Summer, Spring
EDSE 490 - Internship in Applied Behavior Analysis

Credits: 3-9
Repeatable within Degree for Credit
Offered by Graduate School of Education
Provides hands-on experience implementing, evaluating, and participating in development and revision of behavior analytically based instruction and related procedures with children who are diagnosed with intellectual disabilities or behavioral difficulties, under supervision of a Board Certified Behavior Analyst. Individual and group, and on-site and off-site supervision modalities are used. Additional professional development instruction is provided. Satisfies part of the experiential requirements needed for sitting for the Board Certified Assistant Behavior Analyst examination.

Prerequisite(s): Admission to or prior completion of the undergraduate Applied Behavior Analysis minor, completion of an undergraduate course of study that has been approved by the Behavior Analyst Certification Board, or consent of the instructor.
Corequisite(s): EDSE 460, EDSE 461, EDSE 462, or permission of instructor.

Schedule Type: INT
Hours of Lecture or Seminar per week: 2-4
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit only
When Offered: Fall, Spring, Summer

EDSE 495 - Standard Applied Behavior Analysis Practicum

Credits: 3
Repeatable within Degree for Credit
Offered by Graduate School of Education
Meets intensive undergraduate supervision requirements by the BACB to develop, design, implement, and evaluate behavior analytic techniques that produce meaningful change.

Prerequisite(s): EDSE 460 (may be taken concurrently); admission to or prior completion of the Applied Behavior Analysis minor or permission of instructor; submission of practicum application to the Special Education program.
Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification Board (www.BACB.com).

Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

EDSE 499 - Intensive Applied Behavior Analysis Practicum

Credits: 6
Repeatable within Degree for Credit
Offered by Graduate School of Education
Meets standard supervision requirements by the BACB to develop, design, implement, and evaluate behavior analytic techniques that produce meaningful change.
Prerequisite(s): EDSE 460 (may be taken concurrently); admission to or prior completion of the Applied Behavior Analysis minor or permission of instructor; submission of practicum application to the Special Education program.

Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification Board (WWW.BACB.com)

Schedule Type: INT
Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

EDSE 501 - Introduction to Special Education

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Survey of current knowledge on individuals with disabilities within the context of human growth and development across the life span. Includes historical factors, legislation, etiology, characteristics, needs, educational strategies, assessment, and support services for individuals with disabilities ranging from mild and moderate to severe. Includes the impact of disabilities on academic, social, and emotional performances.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 502 - Classroom Management and Applied Behavior Analysis

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Explores how to identify, record, evaluate, and change social and academic behaviors of special and diverse populations. Explores theories of classroom management and various approaches to management including use of technological advances. Emphasizes developing classroom and individual behavior-management plans.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 503 - Language Development and Reading

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
In-depth coverage of reading instruction for students with special needs. Topics include language development and emergent literacy skills; reading subskills including auditory discrimination and phonemic awareness, decoding and word reading; reading comprehension; and use of technological advances in the teaching of reading.
EDSE 504 - Elementary Curriculum and Content for Special Educators

Credits: 2
Not Repeatable for Credit
Offered by Graduate School of Education
Reviews elementary curriculum content and instructional approaches for the instruction of individuals with disabilities in language arts/reading, mathematics, science, and social studies. Addresses core knowledge for Elementary Praxis II.

EDSE 505 - Introduction to Early Childhood Special Education

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Surveys current knowledge about young children with disabilities within the context of human growth and development and learning expectations in the preschool years. Includes historical factors and legislation affecting service delivery.

Notes: Field experience required

EDSE 511 - Characteristics of Students with Visual Impairments

Credits: 2
Not Repeatable for Credit
Offered by Graduate School of Education
Provides an overview of the characteristics of and services to persons with visual impairments, including the impact of visual impairment on infants' and children's growth and development, child and adolescent emotional and social development, and family interaction patterns. Considers the educational, conceptual, psychosocial, and physical implications of a visual impairment.

Notes: Course delivered online.
EDSE 512 - Braille Code

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides understanding of the literary code of Braille and its implications for educational/literacy programs for students with a visual disability. Practice experiences enable students to better understand the Braille code and how to teach it to students with a visual disability.

Prerequisite(s): EDSE 511 (may be taken concurrently).
Notes: Delivered online.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 513 - Medical and Educational Implications of Visual Impairments

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides an introduction to anatomy and physiology of the visual system and the educational implications of visual pathology. Topics include anatomy of the human eye, normal visual development, pathology of the eye, examination procedures for the identification of visual pathology, and the effects of pathology on visual learning and development.

Prerequisite(s): EDSE 511 (may be taken concurrently).
Notes: Delivered online.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 514 - Orientation and Mobility for Students with Visual Impairments

Credits: 2
Not Repeatable for Credit
Offered by Graduate School of Education
Provides the foundation for understanding the components and essence of orientation and mobility (O&M). Establishes how the need for independent travel in the blind population created the field of O&M. Explores the philosophy and history of orientation and mobility, including cane instruction, dog guides, and methods of travel. Addresses techniques in developing orientation skills and basic mobility instruction. Motor and concept skill development are emphasized.

Prerequisite(s): EDSE 511 (may be taken concurrently).
Notes: Delivered online.

Schedule Type: LEC
EDSE 515 - American Sign Language (ASL) I

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Introduces American Sign Language (ASL) and Deaf culture. Teaches basic person-to-person conversational signing. Emphasizes development of expressive and receptive skills. Increases knowledge of ASL vocabulary and the syntax, semantics, and pragmatics of the language. Explores issues of multiculturalism, linguistic code-switching, and language dominance, particularly in relationship to Deaf education.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Fall, Summer, Spring

EDSE 516 - American Sign Language (ASL) II

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Focuses on intermediate level skills in American Sign Language (ASL) and Deaf culture. Increases competencies in person-to-person conversational signing, including expressive and receptive skills, vocabulary, syntax, semantics, and pragmatics. Provides opportunities for in-depth exploration of issues of multiculturalism, Deaf history, Deaf culture, and the different modalities of communication used in Deaf education programs.

Prerequisite(s): Completion of ASL I or equivalent course with a minimum grade of C.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

EDSE 517 - Computer Applications for Special Populations

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Lecture and laboratory course for teachers of special populations in applications of computer technology for instructional programs and computer skills. Students learn to use computer technology designed for special populations.

Prerequisite(s): Graduate standing, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
EDSE 518 - Curriculum and Assessment of Students with Visual Impairments

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Provides students with knowledge and understanding of the educational assessment of students with visual impairments and additional disabilities including deaf-blindness. Students practice assessing and planning educational programs for students with visual impairments. Addresses assessment of technology for students with visual impairments. Examines determination of learning needs and appropriate learning media, relationship of assessment, IEP development, and placement.

Prerequisite(s): EDSE 511 (may be taken concurrently).  
Notes: Delivered online.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 519 - American Sign Language (ASL) III

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
ASL III focuses on strengthening expressive and receptive communication through the development of narrative and storytelling skills. The course explores the importance of these skills within the Deaf Community. Students also study how ASL, Deaf history, culture, education, and accessibility have influenced laws and policies in different areas of the community, the region, the nation, and the world.

Prerequisite(s): Completion of ASL II or equivalent course with a minimum grade of C.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

EDSE 527 - Adapted Sports, Recreation, and Leisure

Credits: 1  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Introduces tools for adapting sports, recreation, and leisure activities to promote the benefits of active participation, relaxation, health, and well-being for individuals with differing abilities. Students participate in simulations, research, and design. Knowledge and awareness components may be delivered via distance education.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 1  
Hours of Lab or Studio per week: 0

EDSE 530 - Policy Perspectives Affecting Diverse Young Learners and Their Families
EDSE 531 - Transition and Community-Based Instruction

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Addresses issues in transition for youth with severe disabilities. Covers self-determination, development, and implementation of a transition plan, post-secondary opportunities including education and community-based instruction, and vocational environments.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 532 - Positive Behavior Supports

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Designed for professionals working with individuals with severe disabilities. Focuses on concepts and skills needed to design, implement, and evaluate behavior support programs derived from functional assessment. Covers effective teaching strategies; addresses relevant replacement skills; facilitates generalization and maintenance of skills; and incorporates individually designed crisis intervention procedures.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 533 - Curriculum and Assessment in Severe Disabilities

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Addresses best practices in curriculum and assessment for individuals with severe disabilities. Covers the design of assessment and evaluation techniques and procedures for the severe-needs population, including adaptations and accommodations. Covers IEP formulation and implementation with linkage to assessment.
EDSE 534 - Communication and Severe Disabilities

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Introduces professionals to augmentative and alternative communication (AAC) for individuals with severe speech and language impairments. Addresses the knowledge and skills needed to assess the potential AAC user, make team decisions, develop and implement instruction, and evaluate the effects of instruction, aimed at motivating, building, and expanding communication, choice-making, and social interaction.

EDSE 540 - Characteristics of Students with Disabilities who Access the General Curriculum

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines the characteristics of students with mild disabilities. Emphasis on etiology, contributing factors, conditions that affect learning, the challenges of identifying students with disabilities, and the need for academic, social, and emotional accommodations and support.

Notes: School-based field experience required.

EDSE 544 - Adapted Instructional Methods and Transition for Secondary Learners

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides strategies for teaching functional academics and social/life skills, facilitating the transition to postsecondary environments. Focuses on all aspects of transition and alternative assessments for secondary learners with disabilities.
EDSE 547 - Medical and Developmental Risk Factors for Children with Disabilities

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Examines nature and causes of disabling or special health conditions. Covers screening and evaluation techniques, characteristics, and educational implications.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 553 - Teaching Mathematics to Students with Special Needs

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Covers techniques for assessing and remediating difficulties in mathematics.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 556 - Developing Language, Literacy, and Communication in Young Children

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education

Examines strategies to develop language, literacy, and communication in young children with varying abilities. Explores the importance of adult-child interaction and the effect of bilingualism, cultural diversity, cognitive ability, and language disorders.

Equivalent to ECED 522

Notes: Field Experience required

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 557 - Foundations of Language and Literacy for Diverse Learners

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education
Examines complexity of language acquisition and literacy development. Focuses on typical and atypical language development, connections between language and literacy, and diversity of communication styles in families, and cultures. Emphasizes first and second language acquisition.

Notes: Field Experience required

EDSE 558 - Medical Aspects of Physical and Sensory Disabilities in Young Children

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  

Equivalent to ECED 506.

EDSE 560 - Secondary Mathematics for Special Education Teachers

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Provides the necessary depth and breadth of mathematics content knowledge required for prospective secondary special education mathematics teachers. Specific content includes: Algebra and Number Theory; Geometry, Measurement and Trigonometry; Functions and Calculus; Probability, Data Analysis and Statistics; Matrix Algebra and Discrete Mathematics. Students design mathematics instruction for students with mild disabilities utilizing current evidence-based practices.

EDSE 561 - Secondary Science for Special Education Teachers

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education
Provides the necessary depth and breadth of science content knowledge required for prospective secondary special education science teachers. Prepares students for the Praxis Content Knowledge tests in five fields: Biology, Chemistry, Earth and Space Science, General Science and Physics. Design science content area instruction for students with mild disabilities utilizing current evidence-based practices.

**EDSE 590 - Special Education Research**

- Credits: 3
- Not Repeatable for Credit
- Offered by Graduate School of Education
- Describes fundamental concepts and practices in educational research in special education. Covers specific applications of educational research methods to problems in special education. Emphasizes review and critique of special education research, and applied classroom research for teachers.

**EDSE 597 - Special Topics in Education**

- Credits: 1-6
- Repeatable within Degree for Credit
- Offered by Graduate School of Education
- Provides advanced study on selected topic or emerging issue in Special Education.

**Prerequisite(s):** Admission to program in Graduate School of Education.

**Corequisite(s):** May be repeated for credit with GSE permission.

**Notes:** May be repeated for credit with GSE permission.

**EDSE 612 - Special Needs Students in International Schools**

- Credits: 3
- Not Repeatable for Credit
- Offered by Graduate School of Education
- Focuses on students with special learning needs at international schools in the regular classroom environment. Enhances understanding of current issues within the field of special education in the international schools in an increasingly global
EDSE 613 - Teaching Methods for Students with Visual Impairments

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Emphasizes methods of teaching compensatory skills, the core curriculum, and technology for use by students who are blind and visually impaired. Addresses curriculum development, adaptations, and teaching methodology for individuals with visual impairments. Provides information on adaptations within various educational programs and adaptation of general education classroom materials and procedures for use with blind and low vision children and youth.

Prerequisite(s): EDSE 511 (may be taken concurrently).  
Notes: Delivered online.

EDSE 615 - Early Intervention for Infants and Toddlers with Disabilities: Collaborative and Consultative Approaches

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Covers methods of service delivery for infants and toddlers with disabilities and their families. Explores key aspects of consultation, interdisciplinary collaboration, service coordination, and family-centered services. Focuses on culturally responsive practices.

Prerequisite(s): Admission to the Early Childhood Special Education program or permission of the instructor  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 616 - Braille Reading and Writing

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Provides basic instruction on transcription of advanced Braille codes, including music, foreign language, chemistry, computer Braille, and Nemeth code (Braille math code). Introduces techniques for teaching skills in each code. Explores technology tools used to create Braille and tactile materials in addition to other assistive technologies used for instruction in math and science.
Prerequisite(s): EDSE 512; EDSE 511 (may be taken concurrently).

Notes: Delivered online.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 619 - Applied Behavior Analysis: Principles, Procedures, and Philosophy

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Focuses on basic principles and procedures of applied behavior analysis; identification of factors that contribute to behavioral problems and improved performance; and procedures that can be used to minimize behavioral problems, improve performance, teach new behaviors, and increase probability of behaviors occurring under appropriate circumstances.

Prerequisite(s): Admission to applied behavior analysis graduate certificate program.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 620 - Supporting the Behavior and Sensory Needs of Students with Autism

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Focuses on the behavioral and sensory development of students with autism spectrum disorders. Emphasizes the role of functional behavior assessments and evidence-based instructional strategies to address challenging behaviors. Explores the development of behavior support programs which promote social, communicative, and academic behaviors. Focuses on the role of sensory processing issues in the behavior of individuals with Autism Spectrum Disorder.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring, Summer

EDSE 621 - Applied Behavior Analysis: Empirical Bases

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Focuses on basic content of applied behavior analysis. Teaches how to implement behavioral procedures and develop behavioral programs for clients with fundamental behavioral needs.

Prerequisite(s): B- or higher in EDSE 619 must be completed prior to or concurrently with EDSE 621.
Prerequisite(s) enforced by registration system.
Corequisite(s): EDSE 619

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 623 - Applied Behavior Analysis: Assessments and Interventions

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Further expands on basic content of applied behavior analysis and teaches how to implement behavioral procedures and develop behavioral programs for clients with fundamental behavioral needs.

Prerequisite(s): B- or higher in EDSE 619.
Prerequisite(s) enforced by registration system.

EDSE 624 - Applied Behavior Analysis: Applications

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Expands capability to deal with more complex behavioral situations, enabling ability to relate to more sophisticated professional issues and environments.

Prerequisite(s): B- or higher in EDSE 619.
Prerequisite(s) enforced by registration system.

EDSE 625 - Applied Behavior Analysis: Verbal Behavior

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Further expands capability to deal with more complex behavioral situations, and enables students to relate to more sophisticated professional issues and environments.

Prerequisite(s): B- or higher in EDSE 619.
Prerequisite(s) enforced by registration system.
EDSE 626 - The Inclusive Classroom

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Introduces participants to instructional procedures for facilitating inclusive instruction for students with disabilities in general education settings. Topics include research-based strategies for adapting curriculum materials, designing instructional procedures, and evaluating students with disabilities.

EDSE 627 - Assessment

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education

Offers knowledge and experiential learning activities related to assessment of students with mild disabilities. Includes statistical and psychometric concepts in assessment. Addresses norm-referenced, criterion-referenced, curriculum-based, and informal assessment for instructional and placement decisions.

EDSE 628 - Elementary Reading, Curriculum, and Strategies for Students who Access the General Education Curriculum

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Applies research on instructional approaches, in elementary curriculum for individuals with disabilities accessing general education curriculums. Includes curriculum/instructional strategies in reading, language arts, mathematics, science, social studies, cognitive strategies, study skills, attention/memory, and peer-mediated instruction.
EDSE 629 - Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Applies research on teacher effectiveness, accountability, and instructional approaches at the secondary level for individuals with mild disabilities. Includes instructional methods necessary for teaching reading, writing, math, and other content areas across the curriculum.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 633 - Policy Perspectives Affecting Diverse Young Learners

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Provides understanding of historical and current trends and issues involving legislation and policy in early childhood education, bilingual education, early childhood special education, and multicultural education. Focuses on historical role of social advocacy, development of advocacy skills, and collaboration and consultation with other professionals and staff. Addresses continuum of services and the context of service delivery. Requires field experience.

Prerequisite(s): Admission to the Graduate School of Education.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

EDSE 634 - Characteristics of Students with Autism

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Describes varying characteristics of students labeled with a type of autism who receive special education services. Examines definitions, eligibility criteria, incidence rates, and etiology. Perspectives from students, families, educational, community, and career personnel are described.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

EDSE 635 - Interventions for Students with Autism
The course focuses on the research-based interventions that promote progress in the areas of communication, social, academic, behavior, and sensory motor skills for students with autism. Methods for identifying the impact of interventions are identified and a variety of service delivery models are analyzed.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### EDSE 636 - Communication, Augmentative and Alternative Communication, and Literacy for Students with Autism Spectrum Disorder

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Focuses on the characteristics of communication and the design and implementation of Augmentative and Alternative Communication (AAC) systems for individuals with Autism Spectrum Disorder. Examines methods for assessment, identification of priorities and monitoring progress of communication and literacy instruction in order to improve behavior and social interactions.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring

### EDSE 656 - Assessment of Diverse Young Learners

Credits: 3  
Not Repeatable for Credit  
Offered by Graduate School of Education  
Examines types of assessment, including family-centered assessment, used for planning and implementing effective programs for children from diverse cultures and with varied learning needs. Addresses selection, administration, and interpretation of formal and informal assessments.

Equivalent to ECED 521.

**Prerequisite(s):** Admission to the Early Childhood Special Education program or permission of the instructor  
**Notes:** Field Experience required
EDSE 659 - Curriculum and Methods: Early Childhood Special Education

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education

Prerequisite(s): Admission to the Early Childhood Special Education program or permission of instructor.
Notes: Field Experience required
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 661 - Curriculum and Methods: Severe Disabilities

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Focuses on current best practices in curriculum, and methods for students with severe disabilities, including specific strategies for teaching students with severe disabilities, general strategies for working with heterogeneous groups of students in inclusive settings, and methods for adapting the general education curriculum to include students with severe disabilities.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 662 - Consultation and Collaboration

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides professionals in special education, regular education, and related fields with knowledge and communications skills necessary for collaborative consultation and technical assistance to other educators and service providers.

Prerequisite(s): Teaching licensure, or enrollment in graduate degree program in education.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 664 - Ethical and Professional Conduct for Behavior Analysis
EDSE 665 - Families of Children with Special Needs

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Focuses on strategies for developing culturally appropriate family-professional partnerships to benefit children with special needs. Explores theories and research that support a family-centered approach. Includes family and professional rights and responsibilities in the special education process.

Equivalent to ECED 524

Prerequisite(s): Admission to the Early Childhood Special Education program or permission of the instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 667 - Cognitive Development of Diverse Young Children

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Explores conflicting views about how young children think and learn. Addresses cognitive theoretical approaches of leading researchers, and emphasizes their relevance to educational practice. Addresses characteristics of children with cognitive disabilities, children from multilingual and multicultural backgrounds, and those living in poverty, along with the educational implications of those characteristics. Requires field experience.

Prerequisite(s): Admission to the Graduate School of Education.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 669 - Interdisciplinary Approach for Children with Sensory and Motor Disabilities
Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Emphasizes positioning, handling, and adaptive strategies. Focuses on understanding the roles of related disciplines in collaborative planning and service delivery.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**EDSE 701 - Legal Issues and Special Populations**

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Offers a study of the impact of legislation and litigation on the education of special populations emphasizing IDEA and Section 504. Topics of study include emerging trends in special education based on interpretation of landmark court cases related to disability, legal updates on policies and procedures for exceptional learners, and discussion of the guiding principles of special education law when addressing the needs of special populations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**EDSE 702 - Managing Resources for Special Education Programs**

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines development and delivery of specialized programs for exceptional learners. Topics include implementation of Individualized Education Plans via Universal Design, financial and human resource allocation and management, effective supervision and evaluation, and student outcome documentation.

Prerequisite(s): None
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**EDSE 703 - Creating a Collaborative Culture**

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides leaders in school settings with an opportunity to gain the skills needed to facilitate collaborative environments supportive of all learners. Topics of study include the impact of diversity on educational settings, developing a vision effective communication, teaming and coteaching techniques, family professional partnerships, implementing schoolwide change initiatives, alternative dispute resolution, and maintaining a positive school climate.
EDSE 743 - Leadership in Special Education Administration

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines leadership issues and applies them to the administration of special education programs. Explores current challenges in the delivery of services for exceptional children through case studies and projects.

Prerequisite(s): None

EDSE 744 - Current Issues in Special Education

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Helps students develop an understanding of the role of convergent research evidence in addressing current issues in special education practice and policy. Familiarizes students with current issues in special education and the group experimental, single subject, and qualitative research designs used to address these current issues. Students evaluate research studies in terms of their methodological strengths and weaknesses and their part in providing convergent bodies of evidence that can be used for defining practice and policy.

EDSE 745 - Writing Grants

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Identification of funding sources, description of grant components, and development of grant budgets. Independent writing of an entire small grant and a significant portion of a large grant. Participation in grant peer-review process.

Equivalent to EFHP 880.

Prerequisite(s): EDRS 810; or permission of instructor.
EDSE 782 - Comprehensive Topics in Special Education: Trends and Issues

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Focuses on current trends and issues in special education and disabilities. Students under the direction of instructor complete individually designed projects addressing major trends and issues in their emphasis area of special education.

Prerequisite(s): Majority of course work.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 783 - Internship: Special Education in General Curriculum

Credits: 3-6
Repeatable within Term for Credit
Offered by Graduate School of Education
Applies, in supervised internships, university course work in General Curriculum to instruction of children and their families in school settings.

Notes: Demonstration that RVE, VCLA, Praxis Entry, and other program-specific requirements have been met; application for internship on file by program deadline.

Schedule Type: INT
Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

EDSE 784 - Internship: Adapted Curriculum

Credits: 3-6
Repeatable within Term for Credit
Offered by Graduate School of Education
Applies, in supervised internships, university course work in Adapted Curriculum to instruction of children and their families in school settings.

Notes: Demonstration that VCLA, Praxis Entry, and other program-specific requirements have been met; application for internship on file by program deadline.

Schedule Type: INT
Hours of Lecture or Seminar per week: 3-6
Hours of Lab or Studio per week: 0
EDSE 785 - Internship: Visual Impairment

Credits: 2-6
Repeatable within Term for Credit
Offered by Graduate School of Education
Applies, in supervised internships, university course work in Visual Impairment to instruction of children and their families in school settings.

Prerequisite(s): EDSE 411 or 511; EDSE 412 or 512; EDSE 513.
Notes: Passing scores on Praxis Entry requirement; demonstration that reading content and other program specific requirements have been met; application for internship on file by program deadline.

Schedule Type: INT
Hours of Lecture or Seminar per week: 2-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

EDSE 790 - Internship in Special Education

Credits: 1-6
Repeatable within Term for Credit
Offered by Graduate School of Education
Supervised internships that apply university course work to instruction of children and their families in school and community settings.

Prerequisite(s): Passing scores on Praxis I prior to final internship, and permission of advisor.
Notes: Students enroll in two separate internships appropriate to the area of study for a total of 6 credits. Applications for field internships are due on February 15 for fall; September 15 for spring; and March 1 for summer.

Schedule Type: INT, SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

EDSE 793 - Internship in Early Childhood Special Education

Credits: 1-6
Repeatable within Term for Credit
Offered by Graduate School of Education
Supervised internships that apply university coursework to instruction of children and their families in school and community settings. Students enroll in both infant/toddler (3 credits) and pre-school (3 credits) internships.
Prerequisite(s): Admission to the Early Childhood Special Education Certificate or permission of instructor; passing Praxis I and VCLA scores.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 1-12
Grading: Satisfactory/No Credit
When Offered: Fall, Spring

EDSE 794 - Special Topics

Credits: 1-6
Repeatable within Degree for Credit
Offered by Graduate School of Education
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

EDSE 795 - Standard Applied Behavior Analysis Practicum

Credits: 3
Repeatable within Degree for Credit
Offered by Graduate School of Education
Meets standard practicum supervision requirements by the BACB to provide hands-on experience designing, implementing, and evaluating behavior analytic procedures under the supervision of a Board Certified Behavior Analyst.

Prerequisite(s): EDSE 619 or PSYC 619 or permission by the instructor.
Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification Board (www.BACB.com)

Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

EDSE 797 - Advanced Topics in Education

Credits: 1-6
Repeatable within Degree for Credit
Offered by Graduate School of Education
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education.

Notes: May be repeated for credit with CEHD approval.
EDSE 799 - Intensive Applied Behavior Analysis Practicum

Credits: 6
Repeatable within Degree for Credit
Offered by Graduate School of Education
Meets intensive practicum supervision requirements by the BACB to provide hands-on experience designing, implementing, and evaluating behavior analytic procedures under the supervision of a Board Certified Behavior Analyst.

Prerequisite(s): EDSE 619 or PSYC 619 or permission by the instructor.
Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification Board (www.BACB.com).

EDSE 825 - Foundations in Behavior Analytic Instructional Design and Teaching Methodology

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Focuses on behavior analytic instructional design and teaching methodology. Prepares students to design effective instructions and assess currently existing instructional programs and curricula.

Prerequisite(s): Admission to a doctoral level program within the Graduate School of Education
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Fall, Summer, Spring

EDSE 841 - Intervention Research in Special Education

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides advanced graduate students with opportunities for in-depth study, analysis, and discussion of original intervention research in special education. Emphasizes analyzing research methodology, coding original intervention research, analyzing results, synthesizing findings, formulating future research questions relevant to individuals with disabilities, and gaining an understanding of the submission process for conferences and publications.
EDSE 842 - Application of Research Methodology in Special Education

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides knowledge and skills in the application of research methodology in special education. Topics include methods for conducting survey research, experimental and quasi-experimental research, research involving correlation and regression, and qualitative research. Emphasizes application to specific issues in special education research.

Prerequisite(s): Admission to PhD in education program, or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 843 - Leadership in Special Education Administration

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Examines leadership issues and applies them to the administration of special education programs. Explores current challenges in the delivery of services for exceptional children through case studies and projects.

Prerequisite(s): Admission to PhD in education program, or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

EDSE 844 - Current Issues in Special Education

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Develops understanding of the role of convergent research evidence in addressing current issues in special education practice and policy. Describes current issues in special education and the group experimental, single subject, and qualitative research designs used to address these current issues. Students evaluate research studies in terms of methodological strengths and weaknesses, and their part in providing convergent bodies of evidence that can be used for defining practice and policy.

Prerequisite(s): Admission to PhD in education program, or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
EDSE 845 - Personnel Preparation Programs in Special Education

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides an in-depth study, analysis, and discussion of personnel preparation programs in special education including: scope and sequence of teacher preparation programs as they align with state and national teacher licensure standards, bodies of accreditation, syllabi development, delivery models, and frameworks for curriculum design; teacher evaluation; and how policies, research, and issues of accountability can transform teacher preparation programs.

Prerequisite(s): Admission to PhD program or approval by permission.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

EDSE 846 - Assessment, Evaluation, and Instrumentation in Special Education Research

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Provides in-depth study, analysis and discussion of the past, present and future directions of assessment, evaluation, and instrumentation research in special education. Emphasizes reliability and validity of the research instruments, evaluating research methodology, analyzing results, synthesizing findings with respect to present assessment and evaluation policies; formulating future research questions relevant to assessment and evaluation of individuals with disabilities.

Prerequisite(s): Admission to PhD program or approval by permission.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

EDSE 847 - Problem Solving in Contemporary Initiatives in Special Education

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education
Addresses contemporary initiatives in special education: those introductory and leading actions intended to implement positive change, that can be promoted by federal agencies, professional or advocacy organizations. Focuses on understanding of contemporary special education initiatives through evaluation and analysis. Background, relevant legislative history, existing empirical evidence, and designing future research addressing contemporary initiatives will be studied and discussed.

Prerequisite(s): Admission to PhD program or approval by permission.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring
EDSE 885 - Writing Grants

Credits: 3
Not Repeatable for Credit
Offered by Graduate School of Education.
Focuses on identification of funding sources, description of grant components, and development of grant budgets. Includes independent writing of an entire small grant, a significant portion of a large grant, and participation in grant peer-review process.

Equivalent to EDSE 745

Prerequisite(s): EDRS 811 or EDRS 812
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Fall

Sport Management (SPMT)

Offered by the College of Education and Human Development

SPMT 100 - Current Events in Sport Business

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Engages students in a discussion about recent developments in the sport industry, using the Sport Business Journal to stimulate the discussion as well as provide the student with current information about this rapidly changing industry. There will be two field trips conducted as part of this class.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

SPMT 110 - Basketball Officiating

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Teaches the fundamentals of officiating basketball including a thorough discussion of each of the rules as well as instruction of two person mechanics. Provides opportunity to become a certified Virginia High School League (VHSL) official.

Prerequisite(s): None.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1.5
When Offered: Fall, Spring, Summer
SPMT 111 - Football Officiating

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Teaches the fundamentals of officiating football including a thorough discussion of each of the rules as well as instruction of crew mechanics. Provides opportunity of becoming a certified Virginia High School League (VHSL) official.

Prerequisite(s): None.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 1.5  
Grading: Regular  
When Offered: Fall, Spring, Summer

SPMT 112 - Soccer officiating

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism.  
Teaches the fundamentals of officiating soccer including a thorough discussion of each of the rules as well as instruction of crew mechanics. Provides opportunity of becoming a certified Virginia High School League (VHSL) official.

Prerequisite(s): None.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 1.5  
Grading: Regular  
When Offered: Fall, Spring, Summer

SPMT 201 - Introduction to Sport Management

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Introduces sport management profession. Primary focus is on sport industry, including professional sport entertainment, amateur sport entertainment, for-profit sport participation, nonprofit sport participation, sporting goods, and sport services.

Notes: Open to non majors.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPMT 202 - Mental Skills for Sport Performance
SPMT 210 - Foundations of Sport Coaching

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Introduction to the scientific bases for coaching sports and the process of coaching athletes. It includes the development of an individual coaching philosophy and the application of scientific training in the psychological, physiological, pedagogical and managerial bases of sport coaching.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

SPMT 241 - Practicum

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Paid or voluntary experience in sport industry setting. Work sites chosen by students after receiving approval of faculty supervisors.

Prerequisite(s): D or higher in SPMT 201. Majors in BS HFRR SPMT only.
Prerequisite(s) enforced by registration system.

Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3

SPMT 302 - Philosophical and Ethical Dimensions of Sport

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Investigates moral issues in sport and judgments about right and wrong behavior among athletes, coaches, spectators, and others.
SPMT 304 - Sport, Culture, and Society

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Analyzes sport from educational, political, economic, and cultural perspectives.

SPMT 318 - Diversity and Inclusion Issues in Sport

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Focuses on sport participant and employee diversity and inclusive practices; and how differences based on religion disability, socioeconomic class, sex, gender, sexual orientation and racial hierarchies impacts historical and current sport experiences and outcomes.

SPMT 320 - Psychology of Sport

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Psychological theories of personality, motivation, and anxiety explored in sport environment. Examines social-psychological research on audience effects, team cohesion, leadership, and fan behavior.

SPMT 321 - America Through Baseball

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
This course is designed for the student to gain an understanding of the past and present role of baseball in American culture. The course focuses on the development of professional baseball over the past 160 years and the ways in which the history of America as a nation and culture can be "read" through baseball.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 322 - Football and American Culture

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Designed for the student to gain an understanding of the past and present role of football in American culture. Focuses on the development of college, professional and high school football over the past 120 years and contemporary issues in football culture are analyzed such as debates over facial symbols and mascots, the question of professionalizing division one college football, and tailgating and televiusal football cultures.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 323 - America and the Modern Olympics

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
This course is designed to provide students an understanding of the role played by the United States in the modern Olympic movement. The primary focus is on the United States relationship with the modern Olympics from the earliest days of the games up through the Cold War period and beyond.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

SPMT 341 - Field Experience in Sport Coaching

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Application of the scientific bases for coaching sports and the process of coaching athletes. Includes paid or voluntary experience in a sport-specific setting. The practicum location is to be chosen by students after receiving approval of the faculty supervisor. A minimum of 120 clock hours is required within the timeframe of the course.

Prerequisite(s): SPMT 210 or Permission of the Instructor.
Schedule Type: INT
SPMT 405 - Sport Venues and Events

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Principles and techniques of event planning and operations in sport facilities and venues. Emphasizes principles and concepts of organization and administration including communication, personnel management, management of physical resources, and risk management. Examines a variety of sport events and venues such as indoor stadiums, athletic field complexes, and managing recreation and intramural activities.

Prerequisite(s): SPMT 201 and completion of 60 hours.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 412 - Sport Marketing and Sales

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Investigates principles and processes in sport marketing and finance. Focuses on research and development, sport promotion, sport sponsorship, advertising, merchandising, and distribution of sporting goods.

Prerequisite(s): 60 hours, including SPMT 201, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SPMT 420 - Economics and Finance in the Sport Industry

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Examines the principles of economics, budgeting, and finance as it applies to the sport industry.

Prerequisite(s): Completion of 60 hours, including SPMT 201 with D or higher, or permission of instructor
Prerequisite(s) enforced by registration system.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SPMT 430 - Sport Communication

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Provides a senior-level exploration of the role of sport communication in contemporary cultures. Readings and discussions address questions about how communication about/in sports highlights the importance of sports, the cultural identities of those who engage in sport communication, and the pervasiveness of sport communication practices in industry.

Prerequisite(s): SPMT 201 and general COMM course.
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPMT 440 - Global Perspectives in Sport

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
An interdisciplinary examination of sport as a global phenomenon. Historical, cultural, economic, and governance perspectives are considered.

Prerequisite(s): D or higher in SPMT 201 and completion of 60 hours.  
Prerequisite(s) enforced by registration system.
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPMT 455 - Governance and Policy in Sport Organizations

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Examines sport organizations focused on both professional and amateur governance structures and processes. The study of policy in educational, nonprofit, and professional sport venues is also addressed.

Prerequisite(s): 60 hours, including SPMT 201 with D or higher, or permission of instructor.  
Prerequisite(s) enforced by registration system.
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
SPMT 462 - Sport Business Law

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Students in this course will receive instruction in the major areas of the law that impacts the sport industry. Students will also see how knowledge of sport law can make them better sport managers. There will be an introduction to the legal system in the United States and then we will see how the law has shaped the management of sport organizations and the playing and staging of the games.

Prerequisite(s): 60 credits.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

SPMT 470 - Strategic Management and Leadership in Sport Organizations

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Provides a foundation in organizational studies. It addresses the theoretical underpinnings and applications of leadership, It examines strategic planning processes and management within sport organizations.

Prerequisite(s): SPMT 201, 60 hours.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Summer, Spring

SPMT 475 - Sport Management Professional Development Seminar

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
This is a seminar format in which students synthesize and apply theories, concepts, and practices in the leadership and management of sport organizations.

Prerequisite(s): D or higher in SPMT 241 and completion of 75 hours.  
Prerequisite(s) enforced by registration system.  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

SPMT 480 - Special Topics in Sport Management
Credits: 3
Repeatable within Degree for Credit
Offered by School of Recreation, Health, and Tourism
See course description in the Schedule of Classes. Selected topics reflecting interest in specialized areas of sport management. Announced in advance.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 490 - Internship

Credits: 9-12
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Paid or voluntary work experience in sport industry settings. Requires minimum period of 10 to 12 weeks of full-time employment. Applies course work, theories, and research to work settings. Work sites chosen by students after approval of faculty supervisors. Includes meetings and assignments before and during the internship.

Prerequisite(s): SPMT 475 and completion of 90 hours.
Schedule Type: INT
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 12
Grading: Satisfactory/No credit only

SPMT 499 - Independent Study

Credits: 1-3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Faculty-directed independent study of approved topics in sport management.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

SPMT 551 - Sport in the Global Marketplace

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Explores sport business internationally including the production and consumption of professional and Olympic-linked sports and the impact of globalization on sport.

Prerequisite(s): Graduate status or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 555 - The Australian Model of Sport

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Examines the Australian model of sport which has been adopted in many countries. Analyzes government sport policy and the organization and administration of Australian professional sports.

Prerequisite(s): SPMT 551 or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 556 - The Global Soccer Industry

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Explores the international soccer industry focusing on major professional leagues, international federations, international movement of players, the production of soccer equipment, legal and social issues.

Prerequisite(s): SPMT 551 or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 611 - Sport Marketing and Sales

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Investigates principles and processes in sport marketing. Focuses on research and development, sport promotion, sport sponsorship, advertising, merchandising, and distribution of sporting goods.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 612 - Economics and Financial Management in the Sport Industry
SPMT 613 - Social Psychology of Sport: Leadership Implications

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Grounded in social psychological underpinnings, the course examines leadership in groups and organizations. It addresses the theoretical foundations and applications of leadership within sport organizations.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 614 - Legal Issues in Sport

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Examines legal issues as they apply to the sports industry. Course content includes, but is not limited to: tort law, risk management procedures, product liability, constitutional/contract/administrative/statutory law, crowd control/security, personal/professional values, and situational analysis.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 616 - Sport Operations, Venues, and Event Management

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Examines administrative functions and operations, strategic planning, governance structures, policy development, and effective practices in the strategic management of sport programs, including managerial principles for venues and events.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SPMT 618 - Psychology of Coaching

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Presents a psychological foundation for sport coaching. Basic tenets of the psychology of individual and group behavior will include motivation, stress, communication, group cohesion/dynamics, leadership, reinforcement, and feedback as they relate to the context of sport coaching.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
When Offered: Fall, Summer, Spring

SPMT 620 - Ethical Issues in Global Sport

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Investigates moral issues in sport, and judgments about right and wrong behavior among organizations, athletes, coaches, spectators, and others at the global level.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

SPMT 631 - Theoretical Models of Sport Coaching

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Examines the scientific bases for coaching athletes. Emphasizes philosophical underpinnings and theoretical foundations in the psychological, physiological, pedagogical, and managerial bases of sport coaching.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 651 - Sport and International Development

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Explores the roles of sport in international development with focus on Africa, Asia, and Latin America. Non-governmental organizations (NGOs), international federations, professional leagues and grassroots initiatives will be examined.
Prerequisite(s): SPMT 551 or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SPMT 652 - Governance and Policy in International Sport

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Explores sport governance and policy in the international context with focus on international federations, professional leagues and comparative analyses of governmental sporting policies.

Prerequisite(s): SPMT 551 or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Sports and Recreation Studies (SRST)

Offered by the College of Education and Human Development

SRST 200 - History of Sport and Leisure in America

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Traces the history of sport and leisure in America.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

SRST 450 - Research Methods

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Covers the development of empirical research designs for both practical and theoretical problems in health, fitness, and recreation resources management. Includes literature review of hypothesized relationships, and formulation of research proposals.

Fulfills writing intensive requirement in the major.
**SRST 598 - Special Topics**

Credits: 1-6  
Repeatable within Degree for Credit  
Offered by School of Recreation, Health, and Tourism  
Focuses on projects related to sport and/or recreation studies.

**Prerequisite(s):** Graduate standing or permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Summer, Spring.

---

**SRST 599 - Independent Study in Sport and Recreation Studies**

Credits: 1-3  
Repeatable within Degree for Credit  
Offered by School of Recreation, Health, and Tourism  
Studies problem area in sport and recreation studies research, theory, or practice under direction of faculty member.

**Prerequisite(s):** Graduate standing and completion of 18 credit hours of graduate coursework in SRST.  
**Notes:** Students engage in one-on-one or seminar independent study with an SRST faculty member. The faculty member may be the student's thesis or project supervisor. While SRST 599 is repeatable, 3 credit hours must be designated for Preparation of Thesis or Project Proposal.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**Grading:** Graduate Special.  
**When Offered:** Fall, Summer, Spring

---

**SRST 606 - Foundations of Sport and Recreation Studies**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Examines the historical development of the Sport and Recreation Studies fields. Explores the interconnection between these phenomena in the context of the social, cultural and economic forces shaping American and global societies.

**Prerequisite(s):** Graduate standing or permission of the instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3
SRST 623 - Research Design and Statistical Reasoning

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Introduces basic principles of scientific and scholarly inquiry in Sport and Recreation Studies. Explores the logic and practice of methods and techniques employed in research related to sport and recreation.

Prerequisite(s): Graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SRST 798 - Master's Project

Credits: 1-6
Repeatable within Degree for Credit
Offered by School of Recreation, Health, and Tourism
Offers capstone experience to enable students to demonstrate their integrative knowledge and skills accrued through study in their concentration area within Sport and Recreation Studies.

Prerequisite(s): SRST 623, SRST/EFHP 599: Preparation of Thesis or Project Proposal; or permission of instructor.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Summer, Spring

SRST 799 - Master's Thesis

Credits: 1-6
Repeatable within Degree for Credit
Offered by School of Recreation, Health, and Tourism
Explores sport and recreation problem using appropriate research methodology and under supervision of graduate faculty member.

Prerequisite(s): SRST 623, SRST/EFHP 599: Preparation of Thesis or Proposal; or permission of instructor.
Schedule Type: IND, LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Summer, Spring
Statistics (STAT)

Offered by the Volgenau School of Engineering

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course. This policy does not apply to STAT 250, which follows the normal university policy for repeating undergraduate courses.

STAT 250 - Introductory Statistics I

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Elementary introduction to statistics. Topics include descriptive statistics, probability, and estimation and hypothesis testing for means and proportions. Statistical software used for assignments.

Fulfills Mason Core requirement in quantitative reasoning.

Prerequisite(s): High school algebra.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

STAT 344 - Probability and Statistics for Engineers and Scientists I

Credits: 3
Limited to 2 Attempts
Offered by Statistics
Introduction to probability and statistics with applications to computer science, engineering, operations research, and information technology. Basic concepts of probability, random variables and expectation, Poisson process, bivariate distributions, sums of independent random variables, central limit theorem, sampling distributions, maximum likelihood and unbiased estimators, confidence interval construction, and hypothesis testing.

Prerequisite(s): C or higher in MATH 114 or MATH 116.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

STAT 346 - Probability for Engineers
Introduction to probability with applications to electrical and computer engineering, operations research, information technology, and economics. Basic concepts of probability, conditional probability, random variables and moments, specific probability distributions, multivariate distributions, moment-generating functions, limit theorems, and sampling distributions.

**Prerequisite(s):** C or higher in MATH 213 or MATH 215. 
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### STAT 350 - Introductory Statistics II

Credits: 3  
Limited to 2 Attempts  
Offered by Statistics  
Further examination of statistics and data analysis with an emphasis on applications. Inference for comparing multiple samples, experimental design, analysis of variance and post-hoc tests. Simple linear, multiple and logistic regression. Analysis of contingency tables and categorical data. A statistical computer package is used for data analysis.

**Prerequisite(s):** C or higher in STAT 250. 
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

### STAT 354 - Probability and Statistics for Engineers and Scientists II

Credits: 3  
Limited to 2 Attempts  
Offered by Statistics  
Continuation of STAT 344. Multivariate probability distributions, variable transformations, regression, analysis of variance, contingency tables, and nonparametric methods. Applications to quality control, acceptance sampling, and reliability.

**Prerequisite(s):** C or higher in STAT 346 and a course in Statistics, or STAT 344. 
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring
STAT 362 - Introduction to Computer Statistical Packages

Credits: 3
Limited to 2 Attempts
Offered by Statistics
Use of computer packages in statistical analysis of data. Topics include data entry, checking, and manipulation, and use of computer statistical packages for regression and analysis of variance.

Prerequisite(s): STAT 250 or BUS 310 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 435 - Analysis of Experimental Data

Credits: 3
Limited to 2 Attempts
Offered by Statistics
Second course in statistics intended to assist with analysis of data from educational research and the social, natural, and life sciences. Topics include sample surveys, contingency tables, linear and multiple regression, analysis of variance, nonparametric tests, and multivariate methods. Various statistical packages will be used.

Prerequisite(s): STAT 250, STAT 344, or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 455 - Experimental Design

Credits: 3
Limited to 2 Attempts
Offered by Statistics
Principles of analysis of variance and experimental design. Topics include computation and interpretation of analysis of variance; multiple comparisons; orthogonal contrasts; and design of experiments, including factorial, hierarchical, and split plot designs. Optional topics may include analysis of covariance; partial hierarchical designs; incomplete block designs; principles of blocking and confounding in 2**n experiments; or estimation of variance components. Computer statistical packages are used to perform computations.

Prerequisite(s): C or higher in STAT 350, STAT 354, STAT 435, or equivalent.  
Prerequisite(s) enforced by registration system.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring, Alternate Summer
STAT 456 - Applied Regression Analysis

Credits: 3  
Limited to 2 Attempts  
Offered by Statistics  
Introduces statistical modeling with a focus on regression. Topics include: Correlation, simple and multiple regression models, model fitting, variable selection, diagnostic tools, model validation, inference for regression parameters, and matrix forms for multiple regression. Data analysis is emphasized. Computer statistical packages are used to perform computations.

Prerequisite(s): Grade of C or better in STAT 350 or STAT 354 or STAT 435 or BUS 310. Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

STAT 463 - Introduction to Exploratory Data Analysis

Credits: 3  
Limited to 2 Attempts  
Offered by Statistics  
Features statistical graphics, maps and simple models used to bring out patterns in data. Introduces statistical software and addresses data access and import. Presents exploratory strategies motivating data transformations. Stresses the cognitive foundations of good graphics. Graphics include dot plots, box plots, Q-Q plots, parallel coordinate plots, scatterplot matrices and linked views. Exploration includes use of dynamic graphics.

Prerequisite(s): C or higher in STAT 350, STAT 354, STAT 435, or equivalent. Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Alternate Spring

STAT 465 - Nonparametric Statistics and Categorical Data Analysis

Credits: 3  
Limited to 2 Attempts  
Offered by Statistics  
Introduction to nonparametric methods and categorical data analysis. Topics include: tests for one-sample, two-related samples, and two independent samples; concepts of nonparametric ANOVA; tests for proportions; chi-squared tests, log-linear models, and contingency tables; goodness-of-fit tests; correlation and association analysis; nonparametric regression including logistic and Poisson regression; and bootstrapping, jackknifing, and cross-validation.

Prerequisite(s): C or higher in STAT 350, STAT 354, STAT 435, or equivalent. Prerequisite(s) enforced by registration system.

Notes: Offered concurrently with STAT 525. Students may not receive credit for both STAT 465 and STAT 525.
STAT 474 - Introduction to Survey Sampling

Credits: 3
Limited to 2 Attempts
Offered by Statistics

Introduction to design and analysis of sample surveys. Sample designs include simple random sampling; systematic sampling; and stratified, cluster, and multistage sampling. Analytical methods include sample size determination, ratio and regression estimation, imputation for missing data, and nonsampling error adjustment. Practical problems encountered in conducting a survey are discussed. Methods applied to case studies of actual surveys. Class project may be required.

Prerequisite(s): STAT 346 and a course in Statistics, or STAT 344.
Corequisite(s): STAT 362.

Notes: Recommended for students of decision, information, social sciences, and mathematics.

STAT 498 - Independent Study in Statistics

Credits: 1-3
Limited to 2 Attempts
Offered by Statistics

Directed self-study of special topics of current interest in statistics.

Prerequisite(s): 60 undergraduate credits; must be arranged with instructor and approved by the department chair before registering.
Notes: May be repeated for maximum 6 credits if topics are substantially different.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

STAT 499 - Special Topics in Statistics

Credits: 3
Limited to 2 Attempts
Offered by Statistics

Topics of special interest to undergraduates.
Prerequisite(s): 60 undergraduate credits and permission of instructor; specific prerequisites vary with nature of topic.
Notes: May be repeated for maximum 6 credits if topics substantially differ.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

STAT 501 - SAS Language and Basic Procedures

Credits: 1
Not Repeatable for Credit
Offered by Statistics
Introduction to the SAS Data Step and Base SAS Procedures. Preparation for graduate students in use of SAS for other graduate courses offered by department. Topics include observation and variable structures, data interfaces, formats, functions, and procedures for summarizing and displaying data.

Prerequisite(s): Course in statistics and experience with Microsoft OS.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Offered on an irregular basis

STAT 502 - Introduction to SAS Statistical Graphics

Credits: 1
Not Repeatable for Credit
Offered by Statistics
Introduces generating presentation-quality statistical graphics using SAS. Continued preparation beyond STAT 501 for graduate students in the use of SAS for other graduate courses offered by department. Topics include: an overview of ODS Graphics and SAS/GRAPH, graph output options, and in-depth coverage of the ODS Graphics procedures. Traditional SAS/GRAPH procedures are briefly discussed.

Prerequisite(s): Course in statistics and working knowledge of SAS.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Offered on an irregular basis

STAT 503 - SAS Macro Language

Credits: 1
Not Repeatable for Credit
Offered by Statistics
Introduction to SAS Macro Language. Continued preparation beyond STAT 501 for graduate students in use of SAS for other
graduate courses offered by department. Topics include macro language processing, macro variables, defining and calling macro variables, macro quoting, macro facility error messages, and examples of efficient code using macros.

**Prerequisite(s):** Course in statistics and working knowledge of SAS.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0
**Grading:** Satisfactory/No Credit
**When Offered:** Offered on an irregular basis

**STAT 504 - Introduction to SAS/IML**

Credits: 1
Not Repeatable for Credit
Offered by Statistics
Introduction to SAS/IML, the matrix language within the SAS environment. Topics include defining matrices, performing standard matrix operations, operating on rows and columns of a data table, and writing efficient SAS/IML programs.

**Prerequisite(s):** Working knowledge of SAS and matrix algebra.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0
**Grading:** Satisfactory/No Credit
**When Offered:** Offered on an irregular basis at the department's discretion

**STAT 505 - Introduction to R**

Credits: 1
Not Repeatable for Credit
Offered by Statistics
Introduction to R syntax, graphical interface, and basic operations. Preparation for graduate students in use of R for other graduate courses offered by department. Topics include import and export of data; manipulation of R object structures; function creation; package installation; and procedures for simulation, modeling, summarizing data, and producing graphics.

**Prerequisite(s):** Course in statistics.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0
**Grading:** Satisfactory/No Credit
**When Offered:** Offered on an irregular basis at the department's discretion

**STAT 506 - Introduction to SPSS**

Credits: 1
Not Repeatable for Credit
Offered by Statistics
Introduction to SPSS, a widely-used statistical software package in social sciences. Provides an overview of SPSS procedures for
manipulating data; summarizing and displaying data; and analyzing data from a variety of experimental designs.

Prerequisite(s): Course in statistics and experience with Microsoft OS.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Offered on an irregular basis at the department's discretion

STAT 515 - Applied Statistics and Visualization for Analytics

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Introduces multivariate regression and random forests for modeling data. Addresses data access, variable selection and model diagnostics. Introduces foundations for visual thinking. Reviews common statistical graphics such as dot plots, box plots, q-q plots. Addresses more advanced methods such as scatterplot matrices enhanced by smoothed or density contours, and search tools for finding graphics with suggestive patterns.

Prerequisite(s): STAT 250 or equivalent.
Notes: Course will introduce R software for analysis. A final project will involve visualization of a real data set.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 517 - Experimental Design

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Principles of analysis of variance and experimental design. Topics include computation and interpretation of analysis of variance; multiple comparisons; orthogonal contrasts; and design of experiments, including factorial, hierarchical, and split plot designs. Optional topics may include analysis of covariance; partial hierarchical designs; incomplete block designs; principles of blocking and confounding in $2^m$ experiments; or estimation of variance components. Computer statistical packages are used to perform computations.

Prerequisite(s): STAT 535, STAT 554, or equivalent.
Notes: Offered concurrently with STAT 455. Students may not receive credit for both STAT 455 and STAT 517.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring, Alternate Summer

STAT 525 - Nonparametric Statistics and Categorical Data Analysis
Introduction to nonparametric methods and categorical data analysis. Topics include tests for one-sample, two-related samples, and two independent samples; concepts of nonparametric ANOVA; tests for proportions; chi-squared tests, log-linear models, and contingency tables; goodness-of-fit tests; correlation and association analysis; nonparametric regression including logistic and Poisson regression; and bootstrapping, jackknifing, and cross-validation.

**Prerequisite(s):** STAT 535, STAT 554, or equivalent.
**Notes:** Offered concurrently with STAT 465. Students may not receive credit for both STAT 465 and STAT 525. Cannot be used to satisfy requirements for MS in Statistical Science.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Spring

**STAT 526 - Applied Regression Analysis**

Introduces statistical modeling with a focus on regression. Topics include: Correlation, simple and multiple regression models, model fitting, variable selection, diagnostic tools, model validation, inference for regression parameters, and matrix forms for multiple regression. Data analysis is emphasized. Computer statistical packages are used to perform computations.

**Prerequisite(s):** STAT 535, STAT 554, or equivalent.
**Notes:** Offered concurrently with STAT 456. Students may not receive credit for both STAT 456 and STAT 526. Cannot be used to satisfy requirements for MS in Statistical Science.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall

**STAT 530 - Foundations of Statistical Thinking**

Provides a foundation in the key concepts underlying data analysis, statistics, and probability. Topics include research-based methods for developing statistical thinking, use of technology for learning about statistics, and structured learning activities. Statistical concepts include: distributions, measures of center and spread, sampling, sampling distribution, bivariate analysis, correlation, randomness, and law of large numbers.

**Prerequisite(s):** STAT 535, STAT 554, or equivalent.
**Notes:** Cannot be used to satisfy requirements for MS in Statistical Science.

**Schedule Type:** LEC
STAT 535 - Analysis of Experimental Data

Credits: 3
Not Repeatable for Credit
Offered by Statistics

Statistical methods for analysis of experimental data from educational research and the social, natural, and life sciences. Topics include sample surveys, contingency tables, linear and multiple regression, analysis of variance, nonparametric tests, and multivariate methods. Various statistical packages will be used.

Prerequisite(s): STAT 250, STAT 344, or equivalent.

Notes: Offered concurrently with STAT 435. Students may not receive credit for both STAT 435 and STAT 535. Cannot be used to satisfy requirements for MS in Statistical Science.
Certificate program students granted credit for only one of STAT 535 or STAT 554.

Schedule Type: LEC

STAT 544 - Applied Probability

Credits: 3
Not Repeatable for Credit
Offered by Statistics

The axioms of probability, conditional probability, random variables and expectation, multivariate and conditional distributions, conditional expectation, order statistics, transformations, moment generating functions, special distributions, limit theorems.

Prerequisite(s): MATH 213 and STAT 346, or permission of instructor.

Schedule Type: LEC

STAT 554 - Applied Statistics I

Credits: 3
Not Repeatable for Credit
Offered by Statistics

Application of basic statistical techniques. Focus is on the problem (data analysis) rather than on the theory. Topics include descriptive statistics; exploratory data analysis; sampling distributions; one- and two-sample tests and confidence intervals for means, medians, proportions, and variances; and goodness-of-fit tests. Normal theory is introduced first with discussion of what happens when assumptions break down. Alternative robust and nonparametric techniques are presented.
Prerequisite(s): STAT 346 or permission of instructor.
Notes: Certificate program students granted credit for only one of STAT 535 or 554.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 560 - Biostatistical Methods

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Focuses on biostatistical aspects of design and analysis of biomedical studies, including epidemiologic observational studies and randomized clinical trials. Topics include randomization principle, confounding, ethics in human experimentation, methods of randomization, stratification, primary outcome analyses, covariate-adjusted analyses, epidemiologic measures, and sample size and power computation.

Prerequisite(s): STAT 346 and a course in Statistics, or STAT 344; and working knowledge of SAS.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

STAT 574 - Survey Sampling I

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Design and implementation of sample surveys. Covers components of a survey; probability sampling designs to include simple random, systematic, Bernoulli, proportional to size, stratified, cluster and two-stage sampling; and ratio and regression estimators. Discusses practical problems in conducting a survey. Methods applied to case studies of actual surveys. Class project may be required.

Prerequisite(s): STAT 346 and a course in Statistics, or STAT 344; and working knowledge of SAS.
Notes: Offered concurrently with STAT474. Students may not receive credit for both STAT 474 and STAT 574.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 634 - Case Studies in Data Analysis

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Examination of a wide variety of case studies illustrating data-driven model building and statistical analysis. With each case study, various methods of data management, data presentation, statistical analysis, and report writing are compared.

**Prerequisite(s):** B- or higher in STAT 554 and working knowledge of SAS, or permission of instructor. Prerequisite(s) enforced by registration system.

**Corequisite(s):** STAT 654.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

---

**STAT 652 - Statistical Inference**

Credits: 3  
Not Repeatable for Credit  
Offered by Statistics  
Fundamental principles of estimation and hypothesis testing. Topics include limiting distributions and stochastic convergence, sufficient statistics, exponential families, statistical decision theory and optimality for point estimation, Bayesian methods, maximum likelihood, asymptotic results, interval estimation, optimal tests of statistical hypotheses, and likelihood ratio tests.

Equivalent to CSI 672.

**Prerequisite(s):** STAT 544 or permission of instructor  
Prerequisite(s) enforced by registration system.

**Corequisite(s):** STAT 554

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**STAT 654 - Applied Statistics II**

Credits: 3  
Not Repeatable for Credit  
Offered by Statistics  
Overview of statistical principles of modeling. Topics include methods for analyzing data based on generalized linear models and diagnostic methods for assessing the assumptions of such models. Methods covered include multiple regression, analysis of variance, simultaneous inference, logistic response models, and hierarchical log linear models for contingency tables.

**Prerequisite(s):** B- or higher in STAT 554.  
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3
STAT 655 - Analysis of Variance

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Single and multifactor analysis of variance, planning sample sizes, introduction to the design of experiments, random block and Latin square designs, and analysis of covariance.

Prerequisite(s): B- or higher in STAT 554 and working knowledge of SAS.
Prerequisite(s) enforced by registration system.

Corequisite(s): STAT 544

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring

STAT 656 - Regression Analysis

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Simple and multiple linear regression, polynomial regression, general linear models, subset selection, step-wise regression, and model selection. Also covered are multicollinearity, diagnostics, and model building as well as the theory and practice of regression analysis.

Equivalent to CSI 676.

Prerequisite(s): B- or higher in STAT 554, matrix algebra, and working knowledge of SAS.
Prerequisite(s) enforced by registration system.

Corequisite(s): STAT 544.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 657 - Nonparametric Statistics

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Distribution-free procedures for making inferences about one or more samples. Tests for lack of independence, association or trend, and monotone alternatives are included. Measures of association in bivariate samples and multiple classifications are discussed. Both theory and applications are covered. Students are introduced to appropriate statistical software.

**Prerequisite(s):** B- or higher in STAT 544 and STAT 554.
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Alternate Fall

### STAT 658 - Time Series Analysis and Forecasting

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Modeling stationary and nonstationary processes, autoregressive, moving average and mixed model processes, autocovariance functions, autocorrelation functions, partial autocorrelation functions, spectral density functions, identification of models, estimation of model parameters, and forecasting techniques.

Equivalent to CSI 678.

**Prerequisite(s):** B- or better in STAT 544 and STAT 554, or permission of instructor.
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Alternate Fall

### STAT 662 - Multivariate Statistical Methods

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Standard techniques of applied multivariate analysis. Topics include review of matrices, T square tests, principle components, multiple regression and general linear models, analysis of variance and covariance, multivariate ANOVA, canonical correlation, discriminant analysis, classification, factor analysis, clustering, and multidimensional scaling. Computer implementation via a statistical package is an integral part of the course.

**Prerequisite(s):** B- or higher in STAT 554, matrix algebra, and working knowledge of SAS.
Prerequisite(s) enforced by registration system.

**Corequisite(s):** STAT 544.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
STAT 663 - Statistical Graphics and Data Exploration I

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Introduces statistical graphics that show distribution features and functional relationships in the presence of noise. Introduces cognitive research guidance for graphics design and reasoning. Stresses quantitative comparisons from multiple perspectives. Features new micromaps designs for spatial and temporal comparisons. Introduces R, the grammar of graphics, and dynamic graphics software.

Equivalent to CSI 773.

Prerequisite(s): A 300-level statistics course and a programming course, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 665 - Categorical Data Analysis

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Analyzes cross-classified categorical data in two and higher dimensions. Topics include association tests and measures of association in two- and three-dimensional contingency tables, logistic regression, and log linear models. SAS is used extensively for data analysis.

Prerequisite(s): B- or higher in STAT 654 and working knowledge of SAS.
Prerequisite(s) enforced by registration system.

Corequisite(s): STAT 544.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring

STAT 668 - Survival Analysis

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Survival Analysis is a class of statistical methods for studying the occurrence and timing of events. In medical research, the events may be deaths, and the objective is to determine factors affecting survival times of patients following treatment, usually in
the setting of clinical trials. Methods can also be applied to the social and natural sciences and engineering where they are known by other names (reliability, event history analysis). Concepts of censored data, time-dependent variables, and survivor and hazard functions are central. Nonparametric methods for comparing two or more groups of survival data are studied. The Cox regression model (proportional hazards model), Weibull model, and the accelerated failure time model are studied in detail. Concepts are applied to analysis of real data from major medical studies using SAS software.

Prerequisite(s): B- or higher in STAT 544, STAT 554, and working knowledge of R and SAS. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Fall

STAT 672 - Statistical Learning and Data Analytics

Credits: 3
Not Repeatable for Credit
Offered by Statistics
The course focuses on statistical learning theory by introducing the statistical and optimization background essential for understanding statistical learning algorithms. Also discusses applications of statistical learning algorithms to the solution of important problems in many areas of science.

Prerequisite(s): B- or higher in STAT 544 and STAT 554. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Summer, Alternate Spring

STAT 674 - Survey Sampling II

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Continuation of STAT 574. Regression estimators for complex sampling designs, domain estimation, two-phase sampling, weighting adjustments for nonresponse, imputation, nonresponse models, measurement error models, introduction to variance estimation. Applications to case studies of actual surveys.

Prerequisite(s): B- or higher in STAT 574. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Offered on an irregular basis at the department's discretion.
STAT 689 - Topics in Statistics

Credits: 1-3
Repeatable within Degree for Credit
Offered by Statistics
Special topics of interest to graduate students in statistics.

Prerequisite(s): Permission of instructor; specific prerequisites vary with the nature of the topic.
Notes: May be repeated for maximum of 6 credits if topics substantially differ.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

STAT 751 - Computational Statistics

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Covers basic computationally intensive statistical methods and related methods, which would not be feasible without modern computational resources. Covers nonparametric density estimation including kernel methods, orthogonal series methods and multivariate methods, recursive methods, cross validation, nonparametric regression, penalized smoothing splines, the jackknife and bootstrapping, computational aspects of exploratory methods including the grand tour, projection pursuit, alternating conditional expectations, and inverse regression methods.

Equivalent to CSI 771.

Prerequisite(s): B- or higher in STAT 652 or permission of instructor.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Fall

STAT 756 - Alternative Regression Methods

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Presents several modern regression methodologies that are useful in data analysis when some of the assumptions of linear regression theory fail to hold. Topics include non-linear regression, quantile regression, robust regression, and computational methods for fitting these models.

Prerequisite(s): B- or higher in STAT 654, and working knowledge of SAS.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
STAT 758 - Advanced Time Series Analysis

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Mathematical modeling and methods for model identification and forecasting of nonstationary and seasonal time series data (ARIMA models), multivariate time series, and state-space models.

Prerequisite(s): B- or higher in STAT 658.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Offered on an irregular basis at the department's discretion.

STAT 760 - Advanced Biostatistical Methods

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Advanced statistical methods in the drug development process. Provides the theoretical statistical basis for the design and analysis of pharmaceutical clinical trials. Topics include the theory of randomization, randomization-based inference, restricted, response-adaptive, and covariate-adaptive randomization, the modern theory of group sequential monitoring, statistical aspects of determination of dose-response relationships.

Prerequisite(s): B- or higher in STAT 652, STAT 654, and working knowledge of statistical programming language.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Offered on an irregular basis

STAT 763 - Statistical Graphics and Data Exploration II

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Addresses data set size and human comprehension challenges. Introduces case and variable reduction methods, and overview production. Incorporates cognitive science guidance. Utilizes data mining models and visual analytic algorithms to find patterns and prioritize graphics. Addresses applications from both information and scientific visualization. Tracks advances in web graphics including citizen science projects harnessing the visual power of thousands of people.
Prerequisite(s): B- or higher in STAT 515 or STAT 663, or permission of instructor. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

STAT 765 - Advanced Topics in Categorical Data Analysis

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Covers advanced techniques for categorical data analysis and the theoretical basis for the analysis of categorical data. Topics include: models for multinomial responses, matched pairs, repeated measures, and ordinal data; random effects models; asymptotic theory for parametric models; theory for maximum likelihood and alternative estimation methods; and exact inference. Statistical software packages are used extensively for data analysis.

Prerequisite(s): B- or higher in STAT 652 and STAT 665. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Offered on an irregular basis at the department's discretion.

STAT 771 - Spatial Data Analysis

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Presents analysis techniques for spatially-indexed or spatially-correlated data that arise in many areas of science, including medicine, transportation, and atmospheric sciences. Focus is on data analysis rather than theory, though theory will necessarily be covered. Topics include analysis of point patterns, trend and surface estimation, and spatial regression.

Prerequisite(s): B- or higher in STAT 652, STAT 654, and working knowledge of R and SAS. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Fall

STAT 773 - Statistical Methods for Longitudinal Data Analysis

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Presents modern statistical approaches to the analysis of longitudinal data, i.e., data collected repeatedly on experimental units over time (or other conditions). Topics include linear mixed effects models, generalized linear models for correlated data (including generalized estimating equations), and computational issues and methods for fitting models.

Prerequisite(s): B- or higher in STAT 652, STAT 654, and working knowledge of SAS. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Alternate Spring

STAT 778 - Algorithms and Simulation for Statistics in C

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Introduces high level simulations and algorithms for complex statistical problems using C. Topics include: pointers, arrays, random number generation, iterative numerical algorithms, sorting, matrix operation, numerical integration and Bayesian computation, advanced data structure for complex problems, and parallel processing. Complex programming problems related to statistical modeling and inference are studied.

Prerequisite(s): B- or higher in STAT 652 or CSI 672, or permission of instructor. Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

STAT 796 - Independent Studies/Directed Readings

Credits: 1-3
Not Repeatable for Credit
Offered by Statistics
Reading and research on a specific topic in statistics under guidance of graduate faculty member.

Prerequisite(s): Permission of instructor and department's graduate coordinator.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

STAT 798 - Master's Research Project

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Project chosen and completed under guidance of graduate faculty member that results in acceptable technical report.

**Prerequisite(s):** 9 graduate credits, and permission of instructor.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**Grading:** Graduate Special

### STAT 799 - Master's Thesis

Credits: 1-6
Repeatable within Degree for Credit
Offered by Statistics
Project chosen and completed under guidance of graduate faculty member that results in acceptable technical report and oral defense.

**Prerequisite(s):** 9 graduate credits, and permission of instructor.
**Schedule Type:** IND
**Hours of Lecture or Seminar per week:** 1-6
**Hours of Lab or Studio per week:** 0
**Grading:** Satisfactory/No Credit

### STAT 871 - Statistical Data Mining

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Covers basic concepts, computational complexity, data preparation and compression, databases and SQL, rule-based machine learning and probability, density estimation, exploratory data analysis, cluster analysis and pattern recognition, artificial neural networks, classification and regression trees, correlation and nonparametric regression, time series, and visual data mining.

**Prerequisite(s):** STAT 554 or 663, or permission of instructor.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Offered on an irregular basis at the department's discretion

### STAT 876 - Measure and Linear Spaces

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Measure theory and integration; convergence theorems; theory of linear spaces and functional analysis; and probability theory. The theory of linear spaces includes normed linear spaces, inner product spaces, Banach and Hilbert spaces, Sobolev spaces, and reproducing kernels. Topics include wavelets, applications to stochastic processes, and nonparametric functional inference.
STAT 877 - Geometric Methods in Statistics

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Develops foundations of geometric methods for statistics. Topics include n-dimension Euclidian geometry; projective geometry; differential geometry, including curves, surfaces, and n-dimensional differentiable manifolds; and computational geometry, including computation of convex hulls, tessellations of two-, three-, and n-dimensional spaces, and finite element grid generation. Examples include applications to scientific visualization.

Equivalent to CSI 877

Prerequisite(s): STAT 751 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Offered on an irregular basis at the department's discretion

STAT 889 - Advanced Topics in Statistics

Credits: 3
Repeatable within Degree for Credit
Offered by Statistics
Advanced topics not occurring in regular sequence.

Prerequisite(s): Doctoral standing and permission of instructor.
Notes: May be repeated for a maximum of 12 credits.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

STAT 896 - Advanced Directed Reading

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Individualized study with a graduate faculty member in the Department of Statistics. Syllabus and grading criteria must be preapproved by the PhD in Statistical Science Program Director.
Prerequisite(s): Admission to PhD in Statistical Science Program. Permission of PhD in Statistical Science Program Director and permission of instructor.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

STAT 971 - Probability Theory

Credits: 3
Not Repeatable for Credit
Offered by Statistics
A rigorous measure-theoretic treatment of probability. Includes expectation, distributions, laws of large numbers and central limit theorems for independent random variables, characteristic function methods, conditional expectations, martingales, strong and weak convergence, and Markov chains.

Equivalent to CSI 971.

Prerequisite(s): B or higher in STAT 544 and MATH 315.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

STAT 972 - Mathematical Statistics I

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Focuses on theory of estimation. Includes method of moments, least squares, maximum likelihood, and maximum entropy methods. Details methods of minimum variance unbiased estimation. Topics include sufficiency and completeness of statistics, Fisher information, Cramer-Rao bounds, Bhattacharyya bounds, asymptotic consistency and distributions, statistical decision theory, minimax and Bayesian decision rules, and applications to engineering and scientific problems.

Equivalent to CSI 972.

Prerequisite(s): B- or higher in STAT 652/CSI 672 or equivalent.
Prerequisite(s) enforced by registration system.

Corequisite(s): STAT 876/CSI 876 or STAT 971/CSI 971.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall
STAT 973 - Mathematical Statistics II

Credits: 3
Not Repeatable for Credit
Offered by Statistics
Continuation of STAT 972/CSI 972. Concentrates on theory of hypothesis testing. Topics include characterizing decision process, simple versus simple hypothesis tests, Neyman-Pearson Lemma, uniformly most powerful tests, unbiasedness and invariance of tests, and randomized and sequential tests. Applications of testing principles made to situations in normal distribution family and other families of distributions.

Equivalent to CSI 973

Prerequisite(s): B- or higher in STAT 972 or CSI 972.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

STAT 990 - Dissertation Topic Presentation

Credits: 1
Not Repeatable for Credit
Offered by Statistics
Students put together a professional presentation of a research proposal and present it for critique to fellow students and interested faculty.

Equivalent to IT 990, CS 990.

Prerequisite(s): Completion of all course requirements for PhD, or permission of instructor.
Notes: May be repeated with change of research topic, but credit towards doctoral degree is given once.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

STAT 998 - Doctoral Dissertation Proposal

Credits: 1-12
Repeatable within Degree for Credit
Offered by Statistics
Work on research proposal that forms basis for doctoral dissertation.

Notes: May be repeated. No more than 24 credits of STAT 998 and 999 may be applied to doctoral degree requirements.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

STAT 999 - Doctoral Dissertation

Credits: 1-12
Repeatable within Degree for Credit
Offered by Statistics
Formal record of commitment to doctoral dissertation research under direction of faculty member in statistics.

Prerequisite(s): Admission to candidacy.
Notes: May be repeated as needed; no more than 24 credits of STAT 998 and 999 may be applied to doctoral degree requirements.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

Systems Engineering (SYST)

Offered by the Volgenau School of Engineering

Students may attempt an undergraduate course taught by the Volgenau School of Engineering twice. A third attempt requires approval of the department offering the course.

SYST 101 - Understanding Systems Engineering

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Introduces systems engineering and curriculum for BS in field. Introduces large and small systems, and explains them through some hands-on experiences. Key concepts include understanding requirements for system and translation of system-level requirements to component-level requirements. Several different kinds of example systems presented and discussed: objectives, major components, how system works, and major design issues. Each student gives similar presentation on system of choice. Students working in groups design, develop, and test system, and give oral presentation. Students responsible for writing several short papers on curriculum and presentations they have heard.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 198 - Independent Study in Systems Engineering
Credits: 1-3
Repeatable within Term for Credit
Offered by Systems Engineering and Operations Research
Must be arranged with instructor and approved by department chair before registering. Directed self-study of special topics of current interest in systems engineering.

Notes: May be repeated for maximum 6 credits if topics are substantially different.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

**SYST 202 - Engineering Systems in a Complex World**

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
This course introduces students to the study of engineering systems as a means of understanding larger historical trends in a global society. Students will use case studies and historical analyses to think strategically and globally about the management and execution of complex systems in the context of culture, environment, politics and economics, and learn how to employ such analyses as decision-making tools for leadership. Students will be required to critically analyze articles and books, and work in groups to investigate and present topics of current national and international relevance.

Fulfills Mason Core requirement in global understanding.

Equivalent to SYST 100 (2013-2014 Catalog); HIST 202.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**SYST 210 - Systems Design**

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Systems engineering design and integration process, development of functional, physical, and operational architectures. Emphasizes requirements engineering, functional modeling for design, and formulation and analysis of physical design alternatives. Introduces methods, software tools for systems engineering design.

Prerequisite(s): SYST 101 or sophomore standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall
SYST 220 - Dynamical Systems I

Credits: 3  
Limited to 2 Attempts  
Offered by Systems Engineering and Operations Research  
Introduces modeling of dynamical systems. Formulation of mathematical models from system descriptions, including computer, biological, economic, transportation, and mechanical systems. Analytical and numerical methods for solving models and studying their behavior. Discrete-time and continuous time systems. Linear and nonlinear systems. Introduction to computer modeling using MATLAB.

Prerequisite(s): C or higher in MATH 114 or MATH 116 and PHYS 160.  
Prerequisite(s) enforced by registration system.

Corequisite(s): MATH 203 and SYST 221.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

SYST 221 - Systems Modeling Laboratory

Credits: 1  
Limited to 2 Attempts  
Offered by Systems Engineering and Operations Research  
Companion laboratory to SYST 220. Emphasizes system design and analysis using computer modeling environment MATLAB. Simulation and numerical solutions of continuous dynamic systems. Use of built-in functions and construction of macros. Graphical presentation of results.

Prerequisite(s): CS 112.  
Corequisite(s): SYST 220.

Schedule Type: LAB  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 3  
When Offered: Spring

SYST 320 - Dynamical Systems II

Credits: 3  
Limited to 2 Attempts  
Offered by Systems Engineering and Operations Research  
Continuation of SYST 220 with emphasis in continuous-time systems. Translational, rotational, and electrical systems. Block diagrams and state variable models. Systems analysis in time domain and frequency domain. Analysis of control systems.

Prerequisite(s): C or higher in SYST 220, MATH 203, MATH 214, PHYS 260.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
SYST 330 - Systems Methods

Credits: 3  
Limited to 2 Attempts  
Offered by Systems Engineering and Operations Research  
The objective of this course is to provide students with a general introduction to a variety of quantititative techniques that are relevant to systems engineering. The focus is on the use of quantitative techniques to model and evaluate design options. The scope of this course include: Analysis methods of system engineering design and management, decision analysis, models for engineering economics and evaluations, probability and statistical methods for data analysis, management control techniques, reliability, and maintainability analysis, risk and uncertainty management, and life-cycle cost analysis.

Prerequisite(s): C or better in MATH 114 or MATH 116.  
Prerequisite(s) enforced by registration system.

Corequisite(s): STAT 344 and SYST 221.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

SYST 335 - Discrete Systems Modeling and Simulation

Credits: 3  
Limited to 2 Attempts  
Offered by Systems Engineering and Operations Research  
Introduces basic concepts of modeling complex discrete systems by computer simulation. Topics include Monte-Carlo methods, discrete-event modeling, specialized simulation software, and statistics of input and output analysis.

Equivalent to OR 335

Prerequisite(s): C or higher in CS 112 or equivalent, and one of the following: STAT 344, STAT 346, or MATH 351.  
Prerequisite(s) enforced by registration system.

Corequisite(s): CS 211.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

SYST 371 - Systems Engineering Management
Study of basics of systems engineering management. Includes engineering economics, planning, organizing, staffing, monitoring, and controlling process of designing, developing, and producing system to meet stated need in effective and efficient manner. Discusses management tools, processes, and procedures, including various engineering documentation templates, managerial processes, and dealing with personnel issues.

Prerequisite(s) enforced by registration system.

Corequisite(s): SYST 210 and SYST 330

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**SYST 395 - Applied Systems Engineering**

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
The course will enhance the student's system engineering experience by designing and building projects involving real world complex systems. The course will build physical models that follow the steps of system life cycle process: statement of need, design, requirements, architecture, implementation, testing, verification and validation. Projects are multidisciplinary in nature, requiring the student teams to learn about various real world systems such as internet communications, navigation, robotics, creating a GUI, and transmitting and receiving data from sensors.

Prerequisite(s): C or higher in SYST 210
Prerequisite(s) enforced by registration system.

Corequisite(s): SYST 220, SYST 221, SYST 335, SYST 371

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SYST 420 - Network Analysis**

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Network nomenclature. Elementary graph theory. Linear and nonlinear network models: multicommodity flow, mathematical games and equilibria on networks, network design and control; dynamic network models; applications to transportation, telecommunications, data communications, and water resource systems.

Prerequisite(s): C or higher in OR 441 and MATH 213 or MATH 215.
Prerequisite(s) enforced by registration system.
SYST 421 - Classical Systems and Control Theory

Credits: 3  
Limited to 2 Attempts  
Offered by Systems Engineering and Operations Research  

Equivalent to ECE 421

Prerequisite(s): Grade of C or better in ECE 220.

SYST 438 - Analytics for Financial Engineering and Econometrics

Credits: 3  
Limited to 2 Attempts  
Offered by Systems Engineering and Operations Research  
This course introduces the basic analytics for financial engineering and econometrics. Topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory, and risk analysis. It will provide a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hands-on experiments with R will be emphasized throughout the course.

Equivalent to OR 438.

Corequisite(s): STAT 354.

SYST 460 - Introduction to Air Traffic Control

Credits: 3  
Limited to 2 Attempts  
Offered by Systems Engineering and Operations Research
Introduction to Air Traffic Control (ATC) for those who plan professions in the air transportation industry. Surveys the entire field, presenting the history of ATC and how it came to be as it is, the technology on which the system is based, the procedures used by controllers to meet the safety and efficiency goals of the system, the organizational structure of the FAA, challenges facing the system, and means under investigation to meet these challenges. Some fieldwork will be required to acquire and analyze airport operational data. A brief introduction to airport design will be discussed.

Prerequisite(s): Junior standing or graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 461 - Air Transportation System Engineering

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Focuses on the theory and practice of system engineering in a national air transportation system. Stresses the application of mathematical techniques to analyze and design complex network transportation systems, airports, airspace, airline schedules, and traffic flow.

Prerequisite(s): SYST 460 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 462 - Flight Training Lab I

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
This course fulfills the requirements of 14 CFR, Section 141, Appendix B for obtaining a private pilot certificate with airplane category, single engine land class rating. Flight Training 1 will include the flight training up to and including maneuvering and navigating the aircraft.

Corequisite(s): SYST 460.
Schedule Type: LAB
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

SYST 463 - Flight Training Lab II

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
This course fulfills the requirements of 14 CFR, Section 141, Appendix B for obtaining a private pilot certificate with airplane category, Airplane - Single Engine Land class rating. Flight Training II will include the flight training up to and including the dual and solo flight instruction in cross-country navigation by pilotage, dead reckoning, and use of VOR, NDB, and HSI. Flight test preparation for private pilot certification.

**Prerequisite(s):** SYST 462.

**Schedule Type:** LAB

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring

---

**SYST 465 - Pricing in Optimization and Game Theory**

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Allocation of limited resources among competing activities to maximize the outcome or minimization of expenses required to produce a given assortment of goods and services are two typical problems faced by any economic institution. Mathematical modeling of such problems and finding efficient mathematical tools for solving them are two main goals of modern optimization theory. Pricing limited resources, goods, and services is the key instrument for theoretical analysis of complex economical systems. Pricing theory can also give rise to numerical methods for finding optimal solutions and economic equilibrium. Fundamental tools in pricing theory are the classical Lagrangian and Lagrange multipliers for constrained optimization. Covers the basic ideas and methods of linear programming and matrix games. Particular emphasis to pricing for both theoretical analysis and numerical methods.

Equivalent to ECON 496/MATH 493

**Prerequisite(s):** MATH 203 or 216, and OR 441, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Spring

---

**SYST 469 - Human Computer Interaction**

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Covers principles of human-computer interaction, including information processing design, cognitive models, ergonomics, and design metaphors. Students learn to evaluate interface design in terms of effectiveness, efficiency, and cost.

**Prerequisite(s):** Grade of C or better in STAT 250 and IT 106.
Prerequisite(s) enforced by registration system.

**Notes:** Students who receive credit for SYST 470 may not receive credit for this course.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

SYST 470 - Human Factors Engineering

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Human information processing, inferential analysis, biases and heuristics in human information processing, support systems to aid in human information processing, human-system interaction, and software systems engineering considerations.

Prerequisite(s): C or better in SYST 210 and STAT 344.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 473 - Decision and Risk Analysis

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Studies analytic techniques for rational decision making that address uncertainty, conflicting objectives, and risk attitudes. Covers modeling uncertainty; rational decision making principles; representing decision problems with value trees, decision trees, and influence diagrams; solving value hierarchies, decision trees and influence diagrams; defining and calculating the value of information; incorporating risk attitudes into the analysis; and conducting sensitivity analyses.

Prerequisite(s): C or higher in STAT 344 or STAT 346 or MATH 351 or in STAT 250.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 480 - Economic Systems Design I: Principles and Experiments

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Introduces design principles used in developing systems used to allocate resources. Students required to participate in experiment demonstrations of different allocation mechanisms. Students are also exposed to experimental methods in economics and market design.

Equivalent to ECON 440
Prerequisite(s): OR 441
Corequisite(s): SYST 465.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 488 - Financial Systems Engineering

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito's formula, and Black-Scholes model.

Prerequisite(s): OR 441.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 489 - Senior Seminar

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Introduces several important topics in systems engineering, providing additional experience in writing and giving presentations, and obtaining feedback on curriculum for BS in systems engineering. Several lectures devoted to ethics; writing and making presentations also covered. Students attend technical lectures and write paper. Students are required to write a long paper on new technology. Instructor and guest lecturers present material not part of required course load to expand horizons. Examples are "knowledge-based" design, enterprise-wide reengineering, electronic commerce, and optimization by "natural analogy" (simulated annealing, neural networks, genetic algorithms). In addition, students work in teams to critique and redesign curriculum. Each group delivers written product, and provides at least one briefing to class. Best critique and redesign presented to faculty.

Fulfills writing intensive requirement in the major.

Corequisite(s): SYST 490

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 490 - Senior Design Project I
First part of capstone course in systems engineering program. Students apply knowledge they have gained to group project. During first semester, students perform concept definition and requirements analysis. Plan for carrying out project is developed, culminating in proposal presented to faculty at end of semester.

Prerequisite(s): Grade of C or better in SYST 335, grade of C or better in SYST 371, grade of C or better in SYST 395, and 90 satisfactory credits toward BS in Systems Engineering.

Corequisite(s): SYST 320, SYST 470, SYST 473, and OR 441.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 1
When Offered: Fall

SYST 491 - Industrial Project

Credits: 1-3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Semester-long work experience in systems engineering in industrial or governmental organization. Work supervised jointly by systems engineer from sponsoring organization and department faculty member. Project and arrangements for supervision must be approved by student's faculty advisor. Periodic reports, presentations, and a written final report are required.

Prerequisite(s): 75 credits toward BS in Systems Engineering; SYST 330; GPA of at least 3.00; must be arranged with instructor and approved by department faculty chair before registering.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 3-9

SYST 495 - Senior Design Project II

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Second part of capstone course. Design project plans formulated in SYST 490 are reviewed and modified. Additional instruction on documentation and project management is given. Design project completed; formal report prepared, presented, and evaluated. Students are strongly recommended to take STAT 354 before enrolling in SYST 490/495.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): Grade of C or better in SYST 490.

Corequisite(s): SYST 330, STAT 354.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 2
When Offered: Spring
SYST 498 - Independent Study in Systems Engineering

Credits: 1-3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Directed self-study of special topics of current interest in systems engineering.

Prerequisite(s): 60 credits toward BS in systems engineering, and GPA of at least 3.00; must be arranged with instructor and approved by department chair before registering.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

SYST 499 - Special Topics in Systems Engineering

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Topics of special interest to undergraduates.

Prerequisite(s): 60 credits toward BS in systems engineering; specific prerequisites vary with nature of topic.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 500 - Quantitative Foundations for Systems Engineering

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Provides quantitative foundations necessary for core courses in systems engineering and operations research master's program, and certificate program in C4I. Topics include vectors and matrices, infinite series, partial differentiation, multiple integrals, differential and difference equations; linear systems; Laplace and Z-transforms, and probability theory. Students receive graduate credit for this course, which, when used on plan of study, extends minimum credit requirements for degree.

Equivalent to CSI 600

Prerequisite(s): MATH 203, 213.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall
SYST 505 - Systems Engineering Principles

Credits: 3  
Not Repeatable for Credit  
Offered by Systems Engineering and Operations Research  
This serves as a foundation for the other courses in the MS/SE curriculum. During this course, the different components of the systems life cycle will be explored. Basic principles including requirements, design frameworks, functional systems, models, qualification strategy, maintenance and disposal will be covered. Students will gain practical knowledge concerning this subject by modeling functional, state and object primitives.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

SYST 508 - Complex Systems Engineering Management

Credits: 3  
Not Repeatable for Credit  
Offered by Systems Engineering and Operations Research  
Introduces the organizational, economic, technological and societal factors (POETS) that apply to the development of large-scale, complex mega-systems, and shows that "one size does not fit all" when it comes to the project management of mega-systems.

Prerequisite(s): Graduate standing.  
Notes: Course cannot be applied for credit towards the MS in Systems Engineering degree.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring

SYST 510 - Systems Definition and Cost Modeling

Credits: 3  
Not Repeatable for Credit  
Offered by Systems Engineering and Operations Research  
Comprehensive examination of methods and processes for the identification and representation of system requirements. Investigation of the systems acquisition life cycle with emphasis on requirements definition, including functional problem analysis. Examination of the systems engineering definition phase including requirements, problem analysis, definition, and functional economics. Specification of functional and nonfunctional requirements, and associated requirements proto-typing. Functional economic analysis, including the use of prevailing cost estimation models and planning and control of common operating environments. Lecture and group project including creation of requirements and use of cost estimation model.

Prerequisite(s): Graduate standing.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring
SYST 512 - Systems Engineering for Design and Development

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research

Prerequisite(s): SYST 510 or equivalent.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 513 - Total Systems Engineering, Reengineering and Enterprise Integration

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Principles of strategic quality, including TQM. Quality standards including ISO9000 and 14000. Organizational leadership, cultures, and process maturity, reengineering. Quality, organization learning, and reengineering approaches to enable information integration and management and environment and framework integration in the systems engineering of knowledge intensive systems. Emphasis is placed on the role of integrated product and process design teams, standard and commercial off-the-shelf products in enterprise integration. Architecture-driven system characteristics are studied, as is transition management of legacy systems.

Prerequisite(s): SYST 510 or 520.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 520 - System Engineering Design

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
System engineering design methods are studied and practiced, including object-oriented and structured analysis based techniques. Design Description languages such as UML, SysML, IDEF0 and IDEF1x are introduced and used in carrying out complete system designs. Teams make presentations of their designs.

Equivalent to ECE 550.

Prerequisite(s): SYST 505 or Permission of Instructor.
SYST 521 - Network Analysis

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research

Equivalent to OR 643

Prerequisite(s): MATH 213 and 203 or equivalent; OR 441 or 541.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 530 - Systems Engineering Management I

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Provides techniques for evaluating cost and operational effectiveness of system designs and systems management strategies. Discusses performance measurement, work breakdown structures, cost estimating, quality management, configuration management, standards, and case studies of systems from different application areas.

Prerequisite(s): SYST 510.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 538 - Analytics for Financial Engineering and Econometrics

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
This course introduces the basic analytics for financial engineering and econometrics, topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory and risk analysis. It will provide a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hand-on experiments with R will be emphasized throughout the course.
Equivalent to OR 538

Prerequisite(s): Graduate standing.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 3

When Offered: Fall

SYST 540 - Analysis for Systems Management

Credits: 3

Not Repeatable for Credit

Offered by Systems Engineering and Operations Research

Operations research techniques and their application to managerial decision making. Mathematical programming, Markov processes, queueing theory, inventory models, PERT, CPM, and computer simulation are covered, as well as use of contemporary computer software for problem solving. Case-study approach to problem solving is used.

Equivalent to OR 540

Prerequisite(s): MATH 108 and STAT 250 or DESC 210; or equivalent.

Notes: Students who have taken OR 541 or OR 542 and OR MS majors do not receive credit.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 3

Hours of Lab or Studio per week: 0

When Offered: Fall, Spring

SYST 542 - Decision Support Systems Engineering

Credits: 3

Not Repeatable for Credit

Offered by Systems Engineering and Operations Research

Studies design of computerized systems to support individual or organizational decisions. Teaches systems engineering approach to decision support system (DSS) development. DSS is end product of development process, and process is key to successfully integrating DSS into organization. Any DSS is built on a theory (usually implicit) of what makes for successful decision support in given context. Empirical evaluation of specific DSS and the underlying theory should be carried on throughout development process. Course examines prevailing theories of decision support, considers issues in obtaining empirical validation for theory, and discusses empirical support that exists for theories considered. Students design decision support system for semester project.

Equivalent to EEP 602

Prerequisite(s): SYST 301 or graduate standing.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 3

Hours of Lab or Studio per week: 0

When Offered: Fall
**SYST 560 - Introduction to Air Traffic Control**

Credits: 3  
Not Repeatable for Credit  
Offered by Systems Engineering and Operations Research  
Introduction for those who plan professions in aviation industry. Surveys entire field, presenting history of ATC and how it came to be, technology on which system is based, procedures used by controllers to meet safety and efficiency goals, organizational structure of the FAA, challenges facing system, and means under investigation to meet these challenges. Involves some field work for data collection and analysis. Class project requiring system simulation required.

Prerequisite(s): Graduate standing.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

**SYST 563 - Research Methods in Systems Engineering and Information Technology**

Credits: 3  
Not Repeatable for Credit  
Offered by Systems Engineering and Operations Research  
Provides foundation for one of the most important activities in systems engineering: information gathering to support drawing conclusions and making decisions about design options and process improvements. Develops understanding of scientific process, use of empirical evidence to support and refute scientific hypotheses, and use of scientific information in decision-making. Covers different sources of scientific evidence: designed experiments, quasi-experiments, field studies, surveys, and case studies. Discusses process of formulating testable hypotheses, and methods of measurement including approaches to measuring soft, hard-to-quantify factors. Presentation of results is discussed. Students do project involving empirical research.

Prerequisite(s): STAT 344 and 354, or equivalent.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

**SYST 568 - Applied Predictive Analytics**

Credits: 3  
Not Repeatable for Credit  
Offered by Systems Engineering and Operations Research  
Introduces predictive analytics with applications in engineering, business, and econometrics. Topics include time series and cross-sectional data processing, correlation, linear and multiple regressions, time series decomposition, predictive modeling and case study. Provides a foundation of basic theory and methodology with applied examples to analyze large engineering and econometric data for predictive decision making. Hand-on experiments with R will be emphasized.

Equivalent to SYST 568; SYST 538 (2014-2015 Catalog).

Prerequisite(s): STAT 515 or Graduate Standing at the MSOR or MSSE programs.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3
SYST 573 - Decision and Risk Analysis

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Study of analytic techniques for rational decision making that address uncertainty, conflicting objectives, and risk attitudes. Covers modeling uncertainty; rational decision-making principles; representing decision problems with value trees, decision trees, and influence diagrams; solving value hierarchies, decision trees, and influence diagrams; defining and calculating the value of information; incorporating risk attitudes into the analysis; and conducting sensitivity analysis.

Prerequisite(s): STAT 346 or equivalent.
Notes: Offered concurrently with SYST 473. Students may not receive credit for both SYST 473 and 573.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 574 - Quality Control and Process Management

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Provides fundamentals of quality control and process management methodologies that are applicable in manufacturing industries. Introduces the basic concepts of engineering process and product quality management techniques. Provides exposition of fundamentals of lean Six Sigma and total quality management and maintainability.

Equivalent to OR 574

Prerequisite(s): Graduate standing or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 576 - Manufacturing Systems Analysis

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Provides fundamentals of modeling and analysis of general manufacturing systems that are also applicable to semiconductor manufacturing. Introduces the basic concepts of scheduling, inventory control, and enterprise resource management.
Equivalent to OR 576

Prerequisite(s): Graduate standing or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

**SYST 580 - Introduction to C4I Systems**

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
This course provides a high-level introduction to fundamental principles of Command, Control, Communication, Computing, and Intelligence (C4I). The principles and techniques are applicable to a wide range of civilian and military situations. The sensing, fusion, and situation assessment processes for decision making as well as the concepts of modeling, simulation, and C4 architectures are discussed. Several cases studies of C4I systems are also included.

Prerequisite(s): Graduate standing.
Notes: Students who take SYST 680 may not take SYST 580.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**SYST 584 - Heterogeneous Data Fusion**

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Introduces the theory, design and implementation of multi-source information fusion systems in various domains. The course covers distinct technologies for combining data from multiple, heterogeneous sources and performing inferences in support to applications such as cyber security, Semantic Web, decision support systems, situational awareness, intrusion detection, crisis management, and others. The technical content is largely multi-disciplinary, encompassing disciplines such as knowledge engineering, ontologies, statistical learning, artificial intelligence, and data mining.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

**SYST 588 - Financial Systems Engineering I: Introduction to Options, Futures, and Derivatives**

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Itô's formula, and Black-Scholes model.

Equivalent to OR 588.

**Prerequisite(s):** Eng. or Math Graduate standing, or permission of instructor.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring.

---

**SYST 611 - System Methodology and Modeling**

Credits: 3  
Not Repeatable for Credit  
Offered by Systems Engineering and Operations Research  
Provides broad yet rigorous foundations and applications of dynamic modeling. Emphasizes methodologies used across various disciplines. Topics include modeling and analysis of time-driven and event-driven, linear and nonlinear systems. The applications are presented with real-world example systems. Methodologies address dynamic systems using the concepts of composition, abstraction, execution, and performance. The issues of stochastic modeling and decision analysis are also covered.

**Prerequisite(s):** SYST 500 or equivalent.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

---

**SYST 618 - Model-based Systems Engineering**

Credits: 3  
Not Repeatable for Credit  
Offered by Systems Engineering and Operations Research  
Model-based Systems Engineering (MBSE) provides a formalized application of modeling to support the engineering of systems. The purpose of the course to study and practice the leading methodologies for MBSE and illustrate the MBSE approaches in systems engineering and management. The advanced object-oriented systems engineering methodology and model transformation techniques are addressed. Software tools are introduced and used for supporting systems engineering design. Students are expected to develop a system design of their choice using MBSE approaches presented in class and they will make presentations on these designs.

**Prerequisite(s):** SYST 520.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall
SYST 620 - Discrete Event Systems

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Introduces modeling and analysis of discrete event dynamical systems. Course covers elements of discrete mathematics and then focuses on Petri Net models and their basic properties. Relation to other discrete event models of dynamical systems.

Equivalent to ECE 673

Prerequisite(s): SYST 611 or ECE 521, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 621 - Systems Architecture Design

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Architecture design and representation and the methodologies used to obtain them. Approaches based on system engineering constructs such as object orientation and service oriented architectures are used to design architectures and then represent them in conformance with an architecture framework such as DoDAF. Executable models of the architecture are derived to be used for architecture evaluation. Examples from current practice are used.

Equivalent to ECE 674.

Prerequisite(s): SYST 520/ECE 550
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 622 - System Integration and Architecture Evaluation

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research

Equivalent to ECE 675.

Prerequisite(s): SYST 621 or ECE 674.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SYST 630 - Systems Engineering Management II

Credits: 3
Limited to 2 Attempts
Offered by Systems Engineering and Operations Research
Study of more advanced topics in systems engineering management. Students expected to read selections from current literature as well as make presentations and produce papers on engineering management topics. Work in groups to create SEMP, RMP and PAP. Focuses strongly on the practical impacts of various system engineering management techniques and practices on projects, organizations, and personnel

Prerequisite(s): SYST 471 or SYST 530.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 631 - Systems Engineering of Information Architectures

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
An intensive study of the relationships between different types of architecture representations and the methodologies used to obtain them. Approaches based on systems and software engineering constructs, such as object orientation and structured analysis are used to develop architecture representations or views. The roles of the systems architect and the systems engineer are discussed. The function of executable model of the information architecture in deriving requirements is presented. Examples from current practice including C4ISR architectures are included.

Equivalent to ECE 678

Prerequisite(s): SYST 520 and SYST 619/ECE 672.
Notes: This course does not meet the requirements for the MS/SE degree.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 632 - System Integration and Architecture Evaluation

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research

Equivalent to ECE 679

Prerequisite(s): SYST 631/ECE 678.
Notes: This course does not meet the requirements for the MS SE degree.
SYST 659 - Topics in Systems Engineering

Credits: 3
Repeatable within Term for Credit
Offered by Systems Engineering and Operations Research
Topics not covered in department's regular systems engineering offerings. Course content may vary each semester depending on instructor and the perception of students' needs.

Prerequisite(s): Permission of instructor.
Notes: Course may be repeated once for credit.

SYST 660 - Air Transportation Systems Modeling

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Introduces wide range of current issues in air transportation. Issues include public policy toward industry, industry economics, system capacity, current system modeling capability, human factors considerations, safety analysis and surveillance systems, and new technological developments. Develops broad understanding of contemporary and future issues. Knowledge evaluated through class discussions, take-home midterm exam, and term project to be completed by end of semester.

Equivalent to OR 660

Prerequisite(s): SYST 460/560 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

SYST 664 - Bayesian Inference and Decision Theory

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Introduces decision theory and relationship to Bayesian statistical inference. Teaches commonalities, differences between Bayesian and frequentist approaches to statistical inference, how to approach statistics problem from Bayesian perspective, and how to combine data with informed expert judgment in a sound way to derive useful and policy relevant conclusions. Teaches
necessary theory to develop firm understanding of when and how to apply Bayesian and frequentist methods; and practical procedures for inference, hypothesis testing, and developing statistical models for phenomena. Teaches fundamentals of Bayesian theory of inference, including probability as a representation for degrees of belief, likelihood principle, use of Bayes Rule to revise beliefs based on evidence, conjugate prior distributions for common statistical models, and methods for approximating the posterior distribution. Introduces graphical models for constructing complex probability and decision models from modular components.

Equivalent to CSI 674; STAT 664 (2014-2015 Catalog).

Prerequisite(s): STAT 544 or 554, or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**SYST 670 - Metaheuristics for Optimization**

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Course on the theory and practice of metaheuristics, i.e. solution search techniques for solving combinatorial optimization problems. It will introduce the theory, applications (scheduling in manufacturing, transportation, and in other engineering and service industries), and computational aspects of directly searching for solutions to solve computationally complex optimization problems without a well-defined analytical model.

Equivalent to OR 670.

Prerequisite(s): OR 441/541 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

**SYST 671 - Judgment and Choice Processing and Decision Making**

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
How do people make judgments and decisions? Course presents initial review of scientific literature directed toward answering this question, and emphasizes importance when performing decision analysis and designing systems to support judgment and decision processes.

Equivalent to OR 671

Prerequisite(s): STAT 344, STAT 354, OR 542 or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
SYST 674 - Dynamic Programming

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties is covered. Stresses intuition, the mathematical foundations being for the most part elementary. It will introduce the theory, applications (finance, engineering, and biology), and computational aspects of dynamic programming for deterministic and stochastic problems.

Equivalent to OR 674

Prerequisite(s): OR 442 or OR 542 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 675 - Reliability Analysis

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Introduction to component and system reliability, their relationship, and problems of inference. Topics include component lifetime distributions and hazard functions, parameter estimation and hypothesis testing, life testing, accelerated life testing, system structural functions, and system maintainability.

Prerequisite(s): STAT 544, STAT 554, OR 542 or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 677 - Statistical Process Control

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Introduces concepts of quality control and reliability. Acceptance sampling, control charts, and economic design of quality control systems are discussed, as are system reliability, fault-free analysis, life testing, repairable systems, and role of reliability, quality control, and maintainability in life-cycle costing. Role of MIL and ANSI standards in reliability and quality programs considered.

Equivalent to OR 677/STAT 677

Prerequisite(s): STAT 554 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SYST 680 - Principles of Command, Control, Communications, Computing, and Intelligence (C4I)

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Broad introduction to fundamental principles of command, control, communications, computers, and intelligence (C4I).
Principles and techniques applicable to wide range of civilian and military situations. Discusses modeling and simulation of combat operations. Studies in detail sensing, fusion, and situation assessment processes. Derives optimal decision-making rules; discusses concepts of C4 architectures; and develops tools to evaluate and design C4 systems such as queuing theory.

Equivalent to ECE 670/OR 683

Prerequisite(s): ECE 528, SYST 611, or OR 542; or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

SYST 683 - Modeling, Simulation, and Gaming

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Develops methods for designing combat models and games. Existing combat models critical to the C4I process. Exercises and games demonstrate value of properly developed C4I modules in a combat simulation.

Prerequisite(s): MATH 213, SYST 500 or equivalent, and graduate standing.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 684 - Sensor Data Fusion

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Examines design issues in multisensor fusion systems. Studies use of probability, evidence, and possibility theories for object identification. Studies Bayesian networks, blackboard architectures, and spatial and temporal reasoning for situation assessment.

Prerequisite(s): SYST 680 or ECE 670.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
SYST 688 - Financial Systems Engineering II: Derivative Products and Risk Management

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions, as well as facilitating the risk management of those decisions. This course will focus on risk management for both market risk and credit risk. It will cover a broad range of derivatives products and hedging strategies with emphasis on how risks are managed in financial institutions.

Prerequisite(s): OR/SYST 588 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring.

SYST 698 - Independent Study and Research

Credits: 3
Repeatable within Degree for Credit
Offered by Systems Engineering and Operations Research
Study of a selected area in systems engineering or C3I under the supervision of a faculty member. Written report required.

Prerequisite(s): Graduate standing, completion of at least two core courses, permission of instructor.
Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

SYST 699 - Masters Project

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Capstone project course for MS/SE program. Key activity is completion of a major applied team project resulting in an acceptable technical report and oral briefing. Student should plan to take this course in the last semester of studies.

Prerequisite(s): 21 graduate credits in OR or SYST.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SYST 735 - Advanced Stochastic Simulation
Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research

Special topics and recent developments in Monte Carlo simulation methodology for discrete-event stochastic systems. Contents vary; possible topics include statistical analysis of simulation output data, random number and random variable generation, variance reduction techniques, sensitivity analysis and optimization of simulation models, distributed and parallel simulation, object-oriented simulation, and specialized applications.

Equivalent to OR 735

Prerequisite(s): OR 635 or permission of instructor.
Notes: May be repeated for credit when topics are distinctly different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 740 - Advances in Multi-Modeling

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research

Focuses on the inter-operation of multiple models expressed in different modeling languages but which draw from the same data set: i.e., multi-modeling. Socio-technical systems often require a variety of modeling tools to define their operation accurately. An ontology based approach is used to analyze the validity of a proposed modeling architecture and workflow to address a specific issue.

Equivalent to ECE 760.

Prerequisite(s): SYST 620 or ECE 673 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring.

SYST 750 - Advanced Topics in Systems Engineering

Credits: 3
Repeatable within Degree for Credit
Offered by Systems Engineering and Operations Research

Advanced topics not covered in department's regular systems engineering offerings. Course content may vary each semester depending on instructor and the perception of students' needs. May be repeated for credit when topics are distinctly different.

Prerequisite(s): 600-level course that varies with content of course.
Schedule Type: IND, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
SYST 760 - Special Topics in Command, Control, Communications, Computing, and Intelligence Systems Engineering

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Special topics in the C4I area, with different content in different terms. Representative areas include quantitative evaluation of C4 systems, applications of artificial intelligence in C4 systems, and military communications systems.

Prerequisite(s): SYST 680.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 763 - Research Methods in Systems Engineering and Information Technology

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Examines alternative paradigms of scientific research and their applicability to research in information technology. Topics include fundamental elements of scientific investigation, basic principles of experimental design and statistical induction, philosophy of science and its relation to the information technology sciences, and case studies of information technology research.

Equivalent to OR 763

Prerequisite(s): STAT 544, OR 542, or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 781 - Data Mining and Knowledge Discovery

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Statistical and computational methods and systems for deriving user-oriented knowledge from large databases and other information sources, and applying knowledge to support decision making. Information sources can be in numerical, textual, visual, or multimedia forms. Covers theoretical and practical aspects of current methods and selected systems for data mining, knowledge discovery, and knowledge management, including those for text mining, multimedia mining, and web mining.

Equivalent to STAT 781

Prerequisite(s): One of the following courses: CS 687, CS 650, INFS 614, STAT 663, STAT 664, or permission of the instructor.
Schedule Type: LEC
SYST 799 - Master's Thesis

Credits: 1-6
Repeatable within Degree for Credit
Offered by Systems Engineering and Operations Research
Research project chosen and completed under the guidance of a graduate faculty member, which results in a technical report acceptable to a three-member faculty committee, and an oral defense.

Prerequisite(s): 21 graduate credits and permission of instructor.
Schedule Type: IND
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit

SYST 842 - Models of Probabilistic Reasoning

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Survey of alternative views about how incomplete, inconclusive, and possibly unreliable evidence might be evaluated and combined. Discusses Bayesian, Baconian, Shafer-Dempster, and Fuzzy systems for probabilistic reasoning.

Equivalent to OR 842

Prerequisite(s): STAT 544, OR 542, OR 681, or permission of instructor
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 850 - Topics in Systems Integration Engineering

Credits: 3
Repeatable within Degree for Credit
Offered by Systems Engineering and Operations Research
Covers lifecycles; large systems comprising heterogeneous components; human, organizational, and technological basis for integration; societal and cultural basis; conceptual frameworks; structure, function, and purpose of industry; risk management; user requirements and functional specifications; bid and proposal process; systems integration and federal government; standards; integration of systems and federations of systems; integrated process and product development; architectures; systems management and cost estimation; reengineering; quality management; increasing returns to scale, network effects, and path dependency issues; and systems integration ecology and evolutionary systems integration

Prerequisite(s): SYST 510 or 520.
Notes: May be repeatable for a maximum of six credits within the degree if topics are substantially different.
SYST 888 - Distributed Estimation and Multisensor Tracking and Fusion

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Centralized and distributed estimation theory, hierarchical estimation, tracking and data association, multisensor multitarget tracking and fusion, distributed tracking in distributed sensor networks, track-to-track association and fusion, and Bayesian networks for fusion.

Equivalent to ECE 753/OR 888

Prerequisite(s): ECE 734 or SYST 611.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

SYST 944 - The Process of Discovery and Its Enhancement in Engineering Applications

Credits: 3
Not Repeatable for Credit
Offered by Systems Engineering and Operations Research
Studies ingredients of imaginative reasoning as they concern efficient discovery of new ideas and valid evidential test of them. Topics include different interpretations of Peirce's theory of abductive reasoning and other forms of reasoning, Hintikka's analysis of process of inquiry, and current attempts to design systems that provide assistance in discovery-related or investigative activities.

Equivalent to OR 944.

Prerequisite(s): SYST 842 or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Systems Engineering and Operations Research (SEOR)

Offered by the Volgenau School of Engineering

SEOR 750 - Advanced Topics in Systems Engineering and Operations Research

Credits: 3
Repeatable within Degree for Credit
Offered by Systems Engineering and Operations Research
Advanced topics, applications, or recent developments in the interface of systems engineering and operations research. Course content may vary each semester depending on instructor and the perception of students' needs. May be repeated for credit when topics are distinctly different.

Prerequisite(s): 600-level course that varies with content of course.
Schedule Type: IND, LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

SEOR 796 - Directed Reading and Research

Credits: 1-3
Repeatable within Degree for Credit
Offered by Systems Engineering and Operations Research
Reading and research on specific topic in systems engineering or operations research under direction of faculty member.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

SEOR 998 - Doctoral Dissertation Proposal

Credits: 1-12
Repeatable within Degree for Credit
Offered by Systems Engineering and Operations Research
Work on research proposal that forms basis for doctoral dissertation.

Notes: May be repeated. No more than 24 credits of SEOR 998 and 999 may be applied to doctoral degree requirements.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only

SEOR 999 - Doctoral Dissertation

Credits: 1-12
Repeatable within Degree for Credit
Offered by Systems Engineering and Operations Research
Formal record of commitment to doctoral dissertation research under direction of faculty member approved by SEOR Department.

Prerequisite(s): Admission to doctoral candidacy.
Notes: May be repeated as needed.
Taxation (TAX)

Offered by the School of Business

TAX 700 - Federal Income Taxation

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Federal income tax concepts and procedures related to individual taxpayers and business entities. Emphasis on research and planning based on the Internal Revenue Code, Treasury Regulations, and administrative and judicial sources of tax law.

Prerequisite(s): Admission to the MS Tax program or permission of the director

TAX 701 - Accounting Methods and Periods

Credits: 1.5
Not Repeatable for Credit
Offered by School of Business
Tax accounting methods including the cash and accrual methods, inventory accounting, installment sales, accounting changes, and various book-tax difference. The accounting periods are also studied.

Prerequisite(s): Admission to the MS Tax program or permission of the director
Corequisite(s): TAX 700

TAX 702 - Tax Practice and Procedures

Credits: 1.5
Not Repeatable for Credit
Offered by School of Business
Professional responsibilities and ethics, tax research, tax penalties, practice before the IRS, tax policy, and other issues.
**TAX 703 - Corporate Taxation**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Concepts and principles that relate to federal income taxation of corporations and their shareholders. Emphasis on research of fact situations. Coverage includes the organization and capitalization of a corporation, nonliquidated and liquidated distributions, penalty taxes, collapsible corporations, and determinants of the income tax base of corporations.

Prerequisite(s): Admission to the MS Tax program or permission of the director  
Corequisite(s): TAX 700  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**TAX 704 - Mergers and Acquisitions**

Credits: 1.5  
Not Repeatable for Credit  
Offered by School of Business  
Introduces taxable and tax-deferred methods of combining, dividing, and recapitalizing existing corporations. Analyzes the effects on the corporation(s), its attributes, and its shareholders.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 700  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 1.5  
Hours of Lab or Studio per week: 0

**TAX 705 - Affiliated Corporations**

Credits: 1.5  
Not Repeatable for Credit  
Offered by School of Business  
Studies consolidated tax return regulations and filing requirements for affiliated corporations.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 703  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 1.5  
Hours of Lab or Studio per week: 0
TAX 706 - Partnership Taxation

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Major aspects of taxation affecting partners and partnerships. Emphasis on tax planning and detailed study of the Internal Revenue Code, Treasury Regulations, and case law governing these areas.

Prerequisite(s): Admission to the MS Tax program or permission of the director  
Corequisite(s): TAX 700

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

TAX 710 - Estate and Gift Taxation

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Concepts and principles that relate to federal estate and gift taxation and the federal income taxation of estates, trusts, and beneficiaries. Emphasis on estate tax planning and a detailed study of the Internal Revenue Code, Treasury Regulations, and case law governing these areas.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 700  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

TAX 711 - International Taxation

Credits: 3  
Not Repeatable for Credit  
Offered by School of Business  
Taxation of individuals and corporations with foreign-source income and tax liability to the United States.

Prerequisite(s): Admission to the MS Tax program or permission of the director. TAX 700  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

TAX 712 - Advanced Tax Topics
Selective analysis of current tax topics addressing important issues in contemporary tax practice. Discussion of two or three major topics. Consult the Schedule of Classes. Course may be repeated for credit with different topics.

**Prerequisite(s):** Admission to the MS Tax program or permission of the director. TAX 700

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**TAX 713 - State and Local Taxation**

Credits: 3

Not Repeatable for Credit

Offered by School of Business

Detailed analysis of the principal forms of state and local taxation.

**Prerequisite(s):** Admission to the MS Tax program or permission of the director. TAX 700

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**TAX 714 - Pensions and Deferred Compensation**

Credits: 3

Not Repeatable for Credit

Offered by School of Business

Analysis of the structure, operation, and requirements for obtaining and maintaining IRS approval of tax-qualified pensions, profit sharing, and deferred compensation plans.

**Prerequisite(s):** Admission to the MS Tax program or permission of the director. TAX 700

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**TAX 792 - Management of Professional Service Organizations**

Credits: 3

Not Repeatable for Credit

Offered by School of Business

This course addresses the management of the modern professional services organizations with special emphasis on the strategic, marketing, human resources, risk management, and ethical and technological issues vital to management.

**Prerequisite(s):** Admission to the MS Tax program or permission of the director. Completion of 18 hours of MSA or MST required coursework.

**Schedule Type:** LEC
Technology Management (TECM)

Offered by the School of Business.

TECM 601 - HiTech Business Models

Credits: 1
Not Repeatable for Credit
Offered by School of Business
Provides an introduction to high tech industries, emerging technologies and business models that are transforming technology-intensive industries such as music, financial services and healthcare. The course covers techniques for analyzing how organizations create, deliver and capture value. The students use case-based approach to analyze traditional and high-tech organizations to understand their business models, and identify causes for success and failures.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Spring

TECM 602 - Emerging Technologies and the New CIO

Credits: 1
Not Repeatable for Credit
Offered by School of Business
Provides an overview of CIOs and IT executive leadership, enabling legislation and policies on CIOs in the U.S. and abroad. The course examines the evolution of CIO core competencies, and approaches to cross agency CIO and IT coordination. Emerging ICT technologies, their corresponding potential, challenges and considerations for CIOs and IT executives in their adoption and introduction, are also discussed.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Spring

TECM 610 - Communications and Leadership

Credits: 2
Not Repeatable for Credit
Offered by School of Business
Distinguishes between leadership and management, and focuses on the critical roles and functions of leadership, including communication ability, use of power and influence, providing direction, aligning an organization's systems, motivating a workforce, and creating a culture for effectiveness. It also focuses on strategies for developing oneself as an effective leader.
Prerequisite(s): Admission to Technology Management Program.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 2

Hours of Lab or Studio per week: 0

TECM 611 - Leadership and Change Management

Credits: 2
Not Repeatable for Credit
Offered by School of Business

Examines the critical roles and functions of leadership with special attention to how leaders influence organizational performance and manage change. Topics include providing direction, creating a culture for effectiveness, the use of power and influence, leadership development, leading under changing conditions, and leading and managing change.

Equivalent to MSIS 611.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 2

Hours of Lab or Studio per week: 0

When Offered: Fall

TECM 614 - Financial and Cost Accounting

Credits: 2
Not Repeatable for Credit
Offered by School of Business

Focuses on the economics and analysis of business transactions and financial reporting. Topics include an introduction to the financial reporting framework, review of how accountants measure and manage financial reporting, an introduction to cost concepts and product costing, and an analysis of capital investments and management control. Emphasis is placed on providing an analytic framework for evaluating transactions and companies.

Equivalent to MSIS 614.

Schedule Type: LEC

Hours of Lecture or Seminar per week: 2

Hours of Lab or Studio per week: 0

When Offered: Fall

TECM 615 - Decision Making Using Accounting and Financial Data

Credits: 3
Not Repeatable for Credit
Offered by School of Business

Provides managers with an overview of the purpose and importance of accounting within the organization and the financial valuation of information technology companies, projects, and product line. Students focus on the economics and analysis of business transactions and their related financial reporting issues from internal and external stakeholder perspectives. Students
improve their skills in analyzing financial issues and presenting results in a case analysis framework.

**Prerequisite(s):** Admission to Technology Management Program.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**TECM 620 - Economics of Technology Management**

Credits: 2-3
Not Repeatable for Credit
Offered by School of Business

Enables students to build and evaluate economic and business models that can be used to analyze real managerial questions that affect all types of institutions, especially firms in the information technology industry. Students develop a better understanding of the operation of markets in general and the use of various quantitative and qualitative methods when making decisions within the firm. The use of economic analysis allows students to identify and evaluate decision alternatives, the competitive environments of firms, and the factors that influence firm performance, especially in the information technology industry.

**Prerequisite(s):** Admission to Technology Management Program or permission of the program director.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 0

---

**TECM 635 - Decision Models for Technology Management**

Credits: 2-3
Not Repeatable for Credit
Offered by School of Business

Explores current metrics and metric development for quality, intangible assets, and project management as required within information technology companies. Applies statistical tools of best use with these metrics.

**Prerequisite(s):** Admission to Technology Management Program or permission of the program director.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 2

**Hours of Lab or Studio per week:** 0

**When Offered:** Spring

---

**TECM 640 - Management of Consulting and Technical Professionals**

Credits: 1-3
Not Repeatable for Credit
Offered by School of Business

Students gain insight into conflict resolution, teamwork, communication, power and influence, career development, and ethics. Helps students understand themselves and those they manage, as they work to be as effective as possible in modern organizations.

**Prerequisite(s):** Admission to Technology Management Program.
**TECM 641 - Negotiation and Conflict Management**

Credits: 2  
Not Repeatable for Credit  
Offered by School of Business  

Students acquire insights and skills for negotiation and conflict resolution as they relate to a variety of organizational situations - including teamwork, communication and coordination, power and influence, legal disputes, career development, cross-cultural and international issues, as well as tackling ethical problems. The course is highly experiential, and is built on a foundation of hands-on exercises and extensive class discussion.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**TECM 643 - Managerial Finance**

Credits: 2  
Not Repeatable for Credit  
Offered by School of Business  

Surveys the theory and practice of corporate financial management with specific application to the technology sector. Students develop an understanding of key elements required in the valuation of project alternatives; including their strategic importance. Students evaluate and use financial management models and gain an understanding of how finance can be employed as a source of potential competitive advantage.

Equivalent to MSIS 643.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 2  
**Hours of Lab or Studio per week:** 0

**TECM 696 - Directed Studies in Technical Management**

Credits: 1-3  
Repeatable within Degree for Credit  
Offered by School of Business  

Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum.

**Prerequisite(s):** Admission to the TECM program or permission of the program director.  
**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 1-9  
**Hours of Lab or Studio per week:** 0
TECM 697 - Special Topics in Technology Management

Credits: 1-3
Repeatable within Term for Credit
Offered by School of Business
Sections established as necessary to focus on various topical issues that emerge in practice of business.

Prerequisite(s): Admission to the TECM program or permission of the program director.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

TECM 700 - Business Engineering and Change Management

Credits: 2
Not Repeatable for Credit
Offered by School of Business
Visualizing, planning, and implementing transitions in an organization or business unit is fast becoming a key source of competitive advantage. Course provides theory and practice of change management and strategic planning including organizational development and organizational transformation.

Prerequisite(s): Admission to Technology Management Program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0

TECM 702 - Building High Performance Teams

Credits: 2
Not Repeatable for Credit
Offered by School of Business
Develops behavioral skills integral to effective teamwork and interpersonal relationships in work environments. Covers techniques for making group decisions and resolving internal team conflicts, as well as negotiating effectively with outside parties.

Prerequisite(s): Admission to Technology Management Program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

TECM 703 - Technology Assessment, Evaluation, and Investment
Prepares students to be educated consumers of information technology to maximize strategic advantage of IT to an organization. Information technologies, architectures, and products are categorized and analyzed with a view to develop and maintain the most favorable IT asset portfolio to successfully carry out business goals and strategies. Techniques for making group technology assessments, outsourcing decisions, project bidding, and contract negotiations.

Prerequisite(s): Admission to Technology Management Program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TECM 704 - Management of Technology Projects and Portfolios

Examines advanced topics in project and program management, with specific attention to the issues that managers face to effectively manage programs. This involves managing resources (both internal and external to the organization) and managing within an existing organizational structure. Specific program management topics include advanced topics for project management, program alignment with strategic objective, management of stakeholders, and development and organization of the program office. Strategic and operational tools and metrics also are discussed.

Prerequisite(s): Admission to Technology Management Program.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall

TECM 711 - Deriving Strategic Value from IT Investments

Reviews approaches for aligning IT strategy and investment with organizational strategy. The course covers methodologies for IT investment, planning and control including cost benefit, economic and risk analysis; benefits of alternative IT investments; methods of technology road mapping; and capital investment analysis. IT performance assessment methodologies and acquisition planning and design, are also reviewed.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall

TECM 720 - Competitive Strategy in Technology Industries
Credits: 2
Not Repeatable for Credit
Offered by School of Business
Provides students with an understanding of the impact of information technology on firms and industries and equips them to
develop and execute appropriate strategies. Although the emphasis is on information technology firms and industries, a key goal
of the course is to better prepare students to respond to a diverse array of information technology challenges. Course work covers
the demand and the supply side of information technology, as well as the development of frameworks and analytical tools to help
put events, behaviors, and processes into understandable contexts.

Prerequisite(s): Admission to Technology Management Program or permission of the program director. TECM 615 and 620.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Summer

TECM 735 - Technology Management Capstone Project

Credits: 1-4
Repeatable within Degree for Credit
Offered by School of Business
Teams undertake a strategic evaluation and plan for IT-driven business initiatives. Presentation includes analysis of competitive
forces and the value chain; recommendations, including changes in goals and organizational design; plan of action integrating
marketing, human resource development, organizational design, finance, and information technology; and implementation plan
using theories of communication and change management, to include business case and business plan.

Prerequisite(s): Admission to Technology Management Program or permission of the program director.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0
Grading: Special graduate.

TECM 737 - Capstone Project in Management of Secure Information Systems

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Business
Teams undertake a strategic evaluation and plan for the management of secure information systems. They develop plans that
include technical, organizational, and policy aspects. A report is produced and presented to the entire cohort for discussion.

Equivalent to MSEC 720

Prerequisite(s): Admission to Executive MS in Management of Secure Information Systems.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special
When Offered: Fall, Spring, Summer
TECM 740 - Management of Client Relationships

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Business
Proposal development, bidding, legal issues of contracts and agreements, formation of commercial partnerships, and new business development. Methods and practices for conducting client need assessment and managing deviations of scope. Application of principles of marketing information systems and technology to internal and external customers.

Prerequisite(s): Admission to Technology Management Program or permission of the program director. TECM 610 and 630.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TECM 741 - Marketing of Innovations and Technology

Credits: 2
Not Repeatable for Credit
Offered by School of Business
Provides students the opportunity to conduct a detailed exploration of effective marketing strategies, including product and service development, branding, and customer relationships, in preparation for developing a marketing plan for a technology related innovation. Specific course topics include: assessing the marketplace, understanding the customer, market segmentation, developing and positioning the offering, pricing, branding, distribution, and promotion.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

TECM 745 - Leading and Managing IT Operations

Credits: 2
Not Repeatable for Credit
Offered by School of Business
Explores best practices in the IT industry. Students analyze practices in terms of gaining competitive advantage in an industry where the scarcity economic model for products no longer applies. Course work focuses on leading an organization with the IT function.

Prerequisite(s): Admission to Technology Management Program.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

TECM 746 - Enterprise Architecture and IT Governance
TECM 746 - Enterprise Architecture

Credits: 2  
Not Repeatable for Credit  
Offered by School of Business  
Examines the operational, financial and strategic considerations of leading enterprise architecture and reviews the historical development of enterprise architecture. Major enterprise architecture frameworks including Zachman and TOGAF are examined. The relationship of enterprise architecture to IT governance, approaches to IT governance and the role of the CIO, and the relationship of IT governance to organizational performance, are also discussed.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0  
When Offered: Spring

TECM 747 - Information Assurance and Security Management

Credits: 2  
Not Repeatable for Credit  
Offered by School of Business  
Addresses the increasingly critical areas of information security and information assurance. Specific focus is on best practices for assessment, planning and management of information security strategy, policy, organizations and controls to minimize the risks pertaining to unauthorized use, processing, storage, and communication of digital information. Pertinent legislation and policy requirements are also covered.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0  
When Offered: Spring

TECM 748 - Systemic Approach to IT Management

Credits: 2  
Not Repeatable for Credit  
Offered by School of Business  
The course introduces students to systems thinking, and then applies systems thinking to best practices in development and management of IT processes and connecting management of IT processes to organizational strategy. The course also reviews and considers IT processes from the strategy and service management frameworks including Balanced Scorecard and ITIL.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 2  
Hours of Lab or Studio per week: 0  
When Offered: Spring

TECM 750 - Global IT Management

Credits: 1-4  
Not Repeatable for Credit  
Offered by School of Business
Students spend a week in an international residency. Emphasizes dealing with technological changes across international markets and amid global developments, virtual organizations, and project management across cultures. Corporate site visits combined with presentations by professors from universities outside the United States and relevant practitioners.

Prerequisite(s): Admission to Technology Management Program or permission of the program director.
TECM 600 and 620.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0

TECM 752 - Global Tech Management

Credits: 3
Not Repeatable for Credit
Offered by School of Business
Provides the opportunity for students to spend a week in a country or countries that are leading edge in technology and technology management. Students visit corporations and governments and interact with corporate and IT executives, and government leaders. Topics include CIO and eGovernment, commercialization of emerging technologies, national competitiveness, international development, global supply chains and virtual teams.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

TECM 757 - Global Residency

Credits: 1-4
Repeatable within Degree for Credit
Offered by School of Business
Students spend a week in an international residency. Emphasis is on how other nations deal with management of secure information system, the management of those systems, and related public policy issues. Corporate site visits are combined with presentations by professors from universities outside the United States and relevant practitioners. Students are required to write a paper summarizing their observations and attend pre-residency preparatory sessions.

Equivalent to MSEC 710

Prerequisite(s): Admission to Executive MS in Management of Secure Information Systems.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-4
Hours of Lab or Studio per week: 0
When Offered: Spring, Summer

TECM 760 - CIO Consulting Project

Credits: 1-3
Not Repeatable for Credit
Offered by School of Business.
A guided independent study course which allow students completing their course work within the M.S. Technology Management (MSTM) program to demonstrate a select set of key competencies in the role of Chief Information Officer (CIO) while leveraging their program coursework and aligning with the identified federal CIO competencies.

Prerequisite(s): Admissions to Technology Management Program.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring

Telecommunications (TCOM)

Offered by the Volgenau School of Engineering

TCOM 500 - Modern Telecommunications

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Comprehensive overview of telecommunications, including current status and future directions. Topics include review of evolution of telecommunications; voice and data services; basics of signals and noise, digital transmission, network architecture and protocols; local area, metropolitan and wide area networks and narrow band ISDN; asynchronous transfer mode and broadband ISDN; and satellite systems, optical communications, cellular radio, personal communication systems, and multimedia services. Examples of real-life networks illustrate basic concepts and offer further insight.

Equivalent to ECE 540

Prerequisite(s): TCOM 575, or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 505 - Networked Multicomputer Systems

Credits: 1.5
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Introduces systems engineering of a networked multicomputer system. Studies distributed multicomputer architectures, architecture of a network operating system, and key system components. The focus of this course is on the development of a thin client/server system, requirements analysis of a client/server web computing, system planning and implementation. Includes a study of example multicomputer systems and a discussion of future directions.

Prerequisite(s): TCOM 500, TCOM 530, or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0
TCOM 506 - Personal Communication Systems (PCS)

Credits: 1.5
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Introduces Personal Communication Systems (PCS). Topics include multiple technical layers of the PCS systems; data link level and network layer protocols, including implementation; mobile station operation and base station operation; and how voice and data services work. Also discusses vital issues of user authentication, privacy, and data or voice encryption.

Prerequisite(s): TCOM 500, 501, 551, and 552 or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 510 - Client-Server Architectures and Applications

Credits: 1.5
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Fundamentals of application engineering for Client/Server (C/S) Internet environments. Review of C/S application architectures and system perspective on C/S middleware. Study of web-based middleware, distributed data managers and SQL middleware, distributed transaction processing middleware, and C/S object technology.

Prerequisite(s): TCOM 500 or ECE 540.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 0

TCOM 514 - Basic Switching: Lecture and Laboratory Course

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Basic switching techniques and protocols for low and high-speed digital packet networks (Ethernet, Frame Relay, ATM, X.25) are taught within a half semester lecture series, followed by hands-on laboratory for remainder of semester. Real-life scenarios taught in the laboratory element through exercises that involve configuring switches and routers.

Prerequisite(s): TCOM 530
Schedule Type: LAB, LEC
Hours of Lecture or Seminar per week: 1.5
Hours of Lab or Studio per week: 1.5

TCOM 515 - Internet Protocol Routing: Lecture and Laboratory Course
Internet Protocol (IP) routing overview; static routing; dynamic routing; default routing; access lists; route redistribution; RIP, OSPF, IGRP, EIGRP, IS-IS, and BGP protocols submitted for comment. Real-life scenarios taught in laboratory element through exercises that involve configuring routers as network elements.

**Prerequisite(s):** TCOM 535
**Schedule Type:** LAB, LEC
**Hours of Lecture or Seminar per week:** 1.5
**Hours of Lab or Studio per week:** 1.5

---

**TCOM 518 - Third Generation Cellular Telephony**

Credits: 1.5
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Introduction to post-second generation cellular systems; benefits and features of third generation (3G) systems; review of air interface standards currently approved for 3G; review of 3G technologies; analysis of competing multiple access methods; transition plans and backward compatibility between 2G, 21/2G, and 3G systems; possible fallback plans.

**Prerequisite(s):** TCOM 506, 551, and 552.
**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 1.5
**Hours of Lab or Studio per week:** 0

---

**TCOM 520 - Economics of Telecommunications**

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Management of telecommunications networks; economic concepts in changing climate of telecommunications ownership, deregulation, and privatization; resource allocation fundamentals based on internal rate-of-return, net present value, opportunity costs; valuation of potential acquisitions in broad telecommunications market; financial modeling techniques.

**Prerequisite(s):** TCOM 500
**Corequisite(s):** TCOM 521.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

---

**TCOM 521 - Systems Engineering for Telecommunications Management**

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Advanced software principles, techniques, and processes for designing and implementing complex telecommunication systems. Planning and implementation of telecommunications systems from strategic planning through requirements, initial analysis, general feasibility study, structured analysis, detailed analysis, logical design, and implementation. Current system documentation through use of classical and structured tools and techniques for describing flows, data flows, data structures, file designs, input and output designs, and program specifications. Practical experience gained through project.

**Prerequisite(s):** TCOM 500

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**TCOM 530 - Data Communications Fundamentals**

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Covers the foundations of modern data communications. The lower layers of the OSI reference model are discussed with an emphasis on the data link and the network layers. Concepts are illustrated by drawing examples from important data networks ranging from local area networks to the Internet.

**Prerequisite(s):** Graduate standing

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**When Offered:** Fall, Summer, Spring

---

**TCOM 535 - The TCP/IP Suite of Internet Protocols**

Credits: 3
Repeatable within Degree for Credit
Offered by Electrical and Computer Engineering

**Prerequisite(s):** TCOM 530.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring

---

**TCOM 542 - Stochastic Models in Telecommunications**

Credits: 1.5
Not Repeatable for Credit
Offered by Electrical and Computer Engineering

**Prerequisite(s):** TCOM 500.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 1.5

**Hours of Lab or Studio per week:** 0

---

**TCOM 545 - Reliability and Maintainability of Networks**

Credits: 3

Not Repeatable for Credit

Offered by Electrical and Computer Engineering

Stochastic modeling of network reliability, simulation modeling, modeling replacement strategies. Introduces quality control, sampling for acceptance, economic design of quality control systems, and system reliability. Also covers faulty tree analysis, life testing, repairable systems and role of reliability, quality, and maintainability in life-cycle costing.

**Prerequisite(s):** TCOM 500.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**TCOM 547 - Project Management in Telecommunications**

Credits: 3

Not Repeatable for Credit

Offered by Electrical and Computer Engineering

Develops integrated approach to managing major telecommunications project; evaluates and uses tools and software for project management, with specific goals of containing costs and time overruns; introduces elements for resolving conflict resolution and applying motivation within project team, and gaining the ability to monitor and control projects in changing environment; develops understanding of unique attributes of major telecommunications systems such as interoperability requirements and international technical standards.

**Prerequisite(s):** Graduate standing.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**TCOM 551 - Digital Communication Systems**

Credits: 3

Not Repeatable for Credit

Offered by Electrical and Computer Engineering

Digital transmission of data, voice, and video. Covers signal digitization; modulation and demodulation; error correction coding; multiple access methods; multiplexing; synchronization; channel equalization; frequency spreading; encryption; transmission codes; digital transmission using bandwidth compression techniques; elements of information theory; and development of link budget evaluation such as system noise temperature, Nyquist filter concepts, antenna gain, and filter bandwidth.
TCOM 552 - Introduction to Mobile Communications Systems

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Introduces mobile communication system design and analysis. Topics include mobile communication channel, access and mobility control, mobile network architectures, connection to fixed network, and signaling protocols for mobile communication systems. Offers examples of mobile communication systems including panEuropean GSM system, North American DAMPS system, and Personal Communication Systems.

Prerequisite(s): TCOM 500 and 551.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 555 - Network Management Foundations and Applications

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Defines and explains techniques that network managers utilize to maintain and improve performance of telecommunications network; network management system; five tasks traditionally involved with network management (fault management, configuration management, performance management, security management, and accounting management); theoretical background in transmission systems sufficient to understand network parameters such as capacity and response times; and specific network management products. Also explores how network performance data should be used for management and when considering upgrades in network architecture.

Prerequisite(s): TCOM 500 and TCOM 530
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 561 - Security, Privacy, and Applied Cryptography for Telecommunications

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Presents on introductions to Computer and Network Security and Privacy; Digital Threats; Authentication Techniques; Vulnerabilities; Integrity; Access Control; Threat Modeling and Risk Assessment; Security Policies and Countermeasures; Cryptography; Block Ciphers and DES; AES; Cipher Block Operation; Certificate and Credentials; Public Key Cryptography and RSA; Key Management; Digital Signature; Electronic Mail Security; IP Security.
**TCOM 562 - Network Security Fundamentals**

Credits: 3  
Not Repeatable for Credit  
Offered by Electrical and Computer Engineering  
Introduces full spectrum of network security. Topics include taxonomy such as language commonality in incident handling, national strategy to secure cyberspace, and cybersecurity organizations; organizational structure for network defense; best practices, security policy, and threats; actors and tools, countermeasures, vulnerability identification/correction, intrusion detection, and impact assessment; firewalls and intrusion detection systems; antivirus software; active defense; disaster recovery; and law enforcement and privacy issues. Reviews threats and vulnerabilities in network systems based on reports, case studies available in the literature, and actual experience.

**Prerequisite(s):** TCOM 500.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**TCOM 575 - Quantitative Foundations for Telecommunications**

Credits: 3  
Not Repeatable for Credit  
Offered by Electrical and Computer Engineering  
Provides quantitative foundations in mathematical and electrical concepts to permit registration for courses in telecommunications MS degree and certificate programs. Topics include polynomials, exponentials, linear and quadratic equations, graphs and functions, trigonometric functions, radial measure and sine/cosine functions, exponentials and logarithms, basic probability and statistics, fundamentals of matrix algebra and vectors, basic Boolean logic; circuit elements (resistor, capacitor, inductor), basic electrical circuits, units, Ohm's law, Kirchhoff's law, decibel notation.

**Prerequisite(s):** Graduate standing  
**Notes:** Course cannot be used for credit in any IT&E graduate degree program.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

---

**TCOM 590 - Selected Topics in Telecommunications**

Credits: 1.5-3  
Repeatable within Term for Credit
Offered by Electrical and Computer Engineering
Selected topics from recent developments and applications in various engineering disciplines within specialty modules 1, 2, and 3 of the TCOM program. The course is designed to help the professional engineering community keep abreast of current developments.

Prerequisite(s): Permission of instructor; specific prerequisites vary with the subject of the topic.
Notes: The 1.5-credit course lasts for one-half semester (approximately seven weeks) while the 3-credit course lasts for the full semester.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1.5-3
Hours of Lab or Studio per week: 0

TCOM 591 - Selected Topics in Telecommunications

Credits: 1.5-3
Repeatable within Degree for Credit
Offered by Electrical and Computer Engineering
Selected topics from recent developments and applications in various engineering disciplines in specialty modules 4 and 5 of TCOM program. Designed to help professional engineering community keep abreast of current developments.

Prerequisite(s): Permission of instructor; specific prerequisites vary with subject of topic.
Notes: The 1.5-credit course lasts for one-half semester (approximately seven weeks); the 3-credit course lasts for full semester.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1.5-3
Hours of Lab or Studio per week: 0

TCOM 598 - Independent Study in Telecommunications

Credits: 1.5-3
Repeatable within Degree for Credit
Offered by Electrical and Computer Engineering
Directed self-study of special topics in telecommunications that relate to specialty modules 1, 2, and 3. Topics must be arranged with instructor and approved by program director before registering.

Prerequisite(s): Permission of Instructor and Program Director.
Notes: May be taken for either 1.5 credits or 3.0 credits in fall and spring semesters. No more than total 6 credits may be taken from combination of TCOM 598, 599, 696, and 697 courses for credit in TCOM program.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1.5-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

TCOM 606 - Advanced Mobile Communications Systems
Credits: 3  
Not Repeatable for Credit  
Offered by Electrical and Computer Engineering  
Introduction to post-second generation cellular systems; benefits and features of third-generation (3G) systems and personal communications services (PCS); review of air interface standards and transmission technologies for mobile and quasi-stationary wireless systems, including cellular networks, satellite networks, indoor systems (Wi-Fi, Personal Local Area Networks, Orthogonal Frequency Multiplexing, Ultra Wide Band technologies); review of network control strategies; investigation of user authentication, privacy, and data and voice encryption aspects. Evolving technology, analysis of competing multiple access methods, transition plans, and backward compatibility between 2G, 1.5G, 3G, and future systems, with possible fallback plans.

Prerequisite(s): TCOM 552  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

TCOM 607 - Satellite Communications

Credits: 3  
Not Repeatable for Credit  
Offered by Electrical and Computer Engineering  
Topics include introduction to satellite communications systems; historical aspects; orbital mechanics and launchers; satellite components such as payload, orbital maneuvering systems, cooling systems, and antennas; look angle predictions; link budget; overall link design; multiple access such as TDMA, CDMA, ALOHA, TDMA, and MFTDMA; error control for digital satellite links; propagation effects on satellite links; elements of VSAT systems and nongeostationary satellite systems; and direct broadcast satellite services.

Prerequisite(s): TCOM 551.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

TCOM 608 - Optical Communications Systems

Credits: 3  
Not Repeatable for Credit  
Offered by Electrical and Computer Engineering  
Introduction and Overview of Optical Fiber Communications Systems and Optical Communication Networks. Specific topics include Optical Resonators; Photons and Matter, Lasers, Photons in Semiconductors; Semiconductor Photon Sources and Detectors; Light Emitting Diodes; Modulation of Optical Signals; Optoelectronic Networks; FDDI, Fiber channel, SONET, SDH, Ethernet on Optical Networks; Wavelength Division Multiplexing (WDM) networks; Basics of Fiber Optic System Design.

Prerequisite(s): TCOM 500.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall
TCOM 609 - Interior Gateway Protocol (IGP) Routing

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Discusses development of Interior Gateway Protocols, including standards documents; interaction between various interior and exterior gateway protocols; design procedures and implementation aspects; field trial issues; and analysis of latest RFC information posted on IETF web site.

Prerequisite(s): TCOM 515 and TCOM 535, or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 610 - Border Gateway Protocol (BGP) Routing

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Discusses development of Border Gateway Protocol and its application in today's Internet routing architecture. Covers evolution of Internet, BGP routing standard specifications (RFCs), interaction between various routing protocols, network BGP routing design principals and procedures for enterprise and ISP networks, BGP's real-world implementation and configuration syntax, network scalability and convergence issues, and the latest extension and proposals for new standards.

Prerequisite(s): TCOM 515 and TCOM 535, or equivalent.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 611 - Multi-Protocol Label Switching (MPLS)

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Develops full understanding of Multi-Protocol Label Switching (MPLS) theory, technology, and implementation aspects through detailed analysis of MPLS routing concepts and protocol stacks, and completion of major project to reinforce understanding of MPLS.

Prerequisite(s): TCOM 609 or 610
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 631 - Voice Over IP
Credits: 3  
Not Repeatable for Credit  
Offered by Electrical and Computer Engineering  

Presents the protocols used for transporting voice over Packet Switched Network. Topics include: Signaling basics; Topics; VoIP Network Scenarios and Connection Strategies; Communication Protocols: RTP, RTCP; VoIP Decomposition; Performance and quality metrics for VoIP; VoIP Signaling Protocols: H.323, SIP, SS7; Softswitches: architecture, functionality, application; VOIP-PSTN integration and migration; VOIP Quality and QoS; VoIP Security: Vulnerabilities, remedies; NextGen VoIP: VoIP Mobility, Equipment, Voice XML, IMS; Future of VoIP.

Prerequisite(s): TCOM 535  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
When Offered: Fall, Spring

TCOM 653 - Global Positioning System (GPS)

Credits: 3  
Not Repeatable for Credit  
Offered by Electrical and Computer Engineering  

Prerequisite(s): TCOM 500  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
When Offered: Fall

TCOM 660 - Network Forensics

Credits: 3  
Not Repeatable for Credit  
Offered by Electrical and Computer Engineering  

Deals with collection, preservation, and analysis of network-generated digital evidence so it can be successfully presented in civil or criminal court of law. Examines relevant federal laws and private sector applications. Examines capture/intercept of digital evidence, analysis of audit trails, recordation of running processes, and reporting of such information.

Equivalent to CFRS 660

Prerequisite(s): TCOM 535 and working knowledge of computer programming  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0
TCOM 661 - Digital Media Forensics

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Deals with collection, preservation, and analysis of digital media so this evidence can be successfully presented in civil or criminal court of law. Examines relevant federal laws and private sector applications. Examines seizure, preservation, and analysis of digital media.

Equivalent to CFRS 661

Prerequisite(s): TCOM 561 or TCOM 562, and working knowledge of computer operating systems; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 662 - Advanced Secure Networking

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Advanced technologies in network security that can be applied to enhance enterprise and ISP's network security. Covers network perimeter defense concept and various components for complete layered defense system. Examines each component and its technologies, including TCP/IP protocol vulnerabilities, router access control list (ACL), dynamic ACL, firewall, network address translation (NAT), virtual private network (VPN), IPSec tunnels, intrusion detection system (IDS), routing protocol security, denial-of-service (DOS) attack, DOS detection and mitigation techniques.

Prerequisite(s): TCOM 535 and 562, and a working knowledge of network routing protocols.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 663 - Operations of Intrusion Detection and Forensics

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Introduces students to network and computer intrusion detection and its relation to forensics. It addresses intrusion detection architecture, system types, packet analysis, and products. It also presents advanced intrusion detection topics such as intrusion prevention and active response, decoy systems, alert correlation, data mining, and proactive forensics.

Equivalent to CFRS 663

Prerequisite(s): TCOM 535 and a working knowledge of computer programming.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
TCOM 664 - Incident Response Forensics

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering

This course addresses incident detection, response, and those aspects of computer forensics pertinent to the investigation of trade secret theft, economic espionage, copyright infringement, piracy, and fraud. Procedures for gathering, preserving, and analyzing forensic evidence are discussed in detail and are applied to both computer and network incident response forensics.

Equivalent to CFRS 664

Prerequisite(s): TCOM 535
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

TCOM 690 - Advanced Topics in Telecommunications

Credits: 3
Repeatable within Term for Credit
Offered by Electrical and Computer Engineering

Advanced topics from recent developments and applications in various engineering disciplines in specialty modules 1, 2, and 3 of TCOM program. Advanced topics chosen so that they do not duplicate existing TCOM courses. Active participation of students encouraged in form of writing and presenting papers in various research areas of advanced topic. Enhances professional engineering community's understanding of breakthrough developments in specific areas.

Prerequisite(s): Permission of instructor; specific prerequisites vary.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 691 - Advanced Topics in Telecommunications

Credits: 3
Repeatable within Degree for Credit
Offered by Electrical and Computer Engineering

Advanced topics from recent developments and applications in various engineering disciplines in specialty modules 4 and 5 of TCOM program. Advanced topics are chosen in such a way that they do not duplicate existing TCOM courses. Active participation of students encouraged in form of writing and presenting papers in various research areas of advanced topic. Enhances professional engineering community's understanding of breakthrough developments in specific areas.

Prerequisite(s): Permission of instructor; specific prerequisites vary.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
TCOM 696 - Independent Reading and Research

Credits: 1.5-3
Repeatable within Degree for Credit
Offered by Electrical and Computer Engineering
Study of selected area in specialty modules 1, 2, or 3 under supervision of faculty member. Written report required.

Prerequisite(s): Specified by instructor or advisor.
Notes: No more than total of 6 credits may be taken from combination of TCOM 598, 599, 696, and 697 for credit in TCOM program.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1.5-3
Hours of Lab or Studio per week: 0
Grading: Graduate Special

TCOM 698 - Telecommunications Projects Course

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
To be taken toward end of degree program within any of modules 1, 2, or 3. Primary activity is completing major applied project, preferably with group of two to three people. Secondary goal is consolidating training before graduation so that, in some cases, it may act as capstone course. Students and outside telecommunication industry managers present ideas for projects and, through grouping of students, new skills and approaches may be learned. Some class time used for discussion of projects, either to monitor progress or explore alternative approaches. Readings, class-time discussion of current trends, difficulties, and new opportunities for industry most relevant to module. Concludes with presentations of projects to department faculty.

Prerequisite(s): Graduate standing with at least 18 credits or permission of department.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 699 - Telecommunications Project Course

Credits: 3
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Capstone of degree program under the specialty modules 4 or 5. To be taken toward end of degree program. Primary activity is completion of major applied project, preferably as two- to three-person group. Secondary goal is consolidation of training before graduation. Students, outside telecommunication industry managers present ideas for projects. From these ideas, group projects selected. Some classroom time used to discuss projects, to either monitor progress or explore alternative approaches. Readings, class-time discussion of current trends, difficulties, and new opportunities for the industry. Projects presented to department faculty at end of semester.

Prerequisite(s): Completion of at least 24 credits in the MS in Telecommunications program.
Schedule Type: LEC
TCOM 707 - Advanced Link Design

Credits: 3  
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Topics include advanced satellite link design such as VSAT optimization, intersatellite systems, and propagation mitigation trade-offs; radar link design such as primary and secondary radars, range ambiguities, false alarms, Doppler radar, FM radar, radar tracking, radar transmitters and receivers, and phased array radars; terrestrial wireless link design including line of sight, LMDS, and nonline of sight; optical link design including laser options, diffraction limits, lidar and communications links, tracking limitations, and GEO and LEO intersatellite link design; Wi-Fi link design; and directed energy systems.

Prerequisite(s): TCOM 551, TCOM 607, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TCOM 750 - Coordinating Seminar

Credits: 3  
Not Repeatable for Credit
Offered by Electrical and Computer Engineering
Open only to students in MA or MS in telecommunications programs with at least 18 credits of course work prior to registration.
Topics include specific telecommunications problems in management, law, engineering, education, and communications.
Focuses on ways a problem in one area can create or solve a problem in other areas.

Prerequisite(s): Open only to students in the MA or MS in telecommunications programs with at least 18 credit hours of course work prior to registration.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Theater (THR)

Offered by the College of Visual and Performing Arts

THR 101 - Theatrical Medium

Credits: 3  
Not Repeatable for Credit
Offered by School of Theater
Theater from the inside workings of production to informed and lively engagement with the art. Enhances an understanding of the nature of theater in society.
Fulfills Mason Core requirement in arts.

**Schedule Type:** LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring, Summer

**THR 150 - Greeks to Restoration**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
Examines the development of Western drama and the collective art of theater from its beginnings through Shakespeare. Considers readings in dramatic literature and history of theater in social and cultural contexts.

Fulfills Mason Core requirement in arts.

**Schedule Type:** LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**THR 151 - Romanticism to Present**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
Considers readings in dramatic literature and history of western theater in social and cultural contexts from the romantic period to present day.

Fulfills Mason Core requirement in arts.

**Schedule Type:** LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**THR 190 - Special Topics**

Credits: 1-3  
Repeatable within Term for Credit  
Offered by School of Theater  
Rotating topic. Introductory seminar in areas of special interest.

**Notes:** May be repeated for maximum 12 credits.

**Schedule Type:** LEC
THR 191 - Practical Theater Seminar

Credits: 0
Repeatable within Term for Credit
Offered by School of Theater
Each semester registered students will 1) attend a Theater at Mason production, guest lecture or workshop, and 2) participate in a production load-in and 3) participate in a production strike. To graduate as a Theater major students must complete 4 semesters of the course. Course is repeatable up to twice in one semester.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Spring

THR 196 - Performance and Design Practicum

Credits: 1
Not Repeatable for Credit
Offered by School of Theater
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Player production. Assignments include performance, design, and stage management. Open to all Theater majors, theater minors, and non-majors.

Notes: Successful completion of this course is required to earn a Theater degree.

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
When Offered: Fall, Spring, Summer

THR 197 - Management/Literary Practicum

Credits: 1
Not Repeatable for Credit
Offered by School of Theater
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Positions include directing, dramaturgy, and leadership in technical productions. Open to all theater majors, theater minors, and non-majors.

Notes: Successful completion of this course is required to earn a Theater degree.

Schedule Type: STU
Hours of Lecture or Seminar per week: 1
THR 198 - Theatrical Construction Practicum

Credits: 1
Not Repeatable for Credit
Offered by School of Theater
Academic credit awarded for satisfactory completion of a minimum of 30 hours of participation on a Mason Players production. Areas include scenery construction, scene painting, costume construction, light hang, light focus and props. Theater majors, theater minors, and non-majors welcomed.

Notes: Successful completion of this course is required to earn a Theater degree. Recommended for freshman Theater majors, first year transfers, and new Theater majors. Contact School of Theater for CRN.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
Grading: Satisfactory/No credit only
When Offered: Fall, Spring

THR 199 - Production Run Crew Practicum

Credits: 1
Not Repeatable for Credit
Offered by School of Theater
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Assignments include run crew, light board operator, sound board operator, wardrobe, and fly crew. Theater majors, theater minors, and non-majors welcomed.

Notes: Successful completion of this course is required to earn a Theater degree. Recommended for freshman Theater majors, first year transfers, and new Theater majors. Contact School of Theater for CRN.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 1
Grading: Satisfactory/No credit only
When Offered: Fall, Spring

THR 200 - Play Production Practicum

Credits: 1
Repeatable within Term for Credit
Offered by School of Theater
Academic credit is awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Students who have completed THR 196, THR 197, THR 198, and THR 199 may register for THR 200 to receive credit for their
participation on additional productions.

Notes: May be repeated for 8 credits.
Contact School of Theater for CRN.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 1
Grading: S/NC
When Offered: Fall, Spring

THR 201 - Stage Management

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Introduction to the fundamentals of stage management and the stage manager's role for production. Learn and develop the organizational skills of running and maintaining a production with emphasis on skillful methods in communication and problem solving. Analyzes text from a Stage Manager's perspective. Requirements include creating a stage manager prompt book containing important show documents.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 202 - Literary Management

Credits: 1
Not Repeatable for Credit
Offered by School of Theater
Principles of literary management and dramaturgy for regional/resident theater. Directed primarily toward developing new work.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

THR 203 - Production/Company Management

Credits: 1
Not Repeatable for Credit
Offered by School of Theater
Techniques of production and company management applied to university and professional theater productions.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
THR 210 - Acting I

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Students practice contemporary acting techniques individually and in a group. Promotes and develops performance and practical communication skills. Attend theatrical productions, and respond to those experiences.

Fulfills Mason Core requirement in arts.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

THR 230 - Fundamentals of Production

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Students explore current production practices and their historical development in scenery, costumes, lighting, and sound through classroom and hands on experience. Concepts and skills acquired in this class may be applied in theater, film, dance, game design, art, corporate events, and architecture. Lab hours include work on live performances.

Fulfills Mason Core requirement in arts.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

THR 235 - Costume Crafts

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
This course serves as the foundation and prerequisite for costume courses in design and construction. Costume Crafts will introduce the principles of apparel design and construction for stage and screen costumes. Requirements for this course will include the complete construction of two items and the compilation of a sample notebook containing important construction techniques.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
THR 300 - Voice and Speech

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
For performers, presenters, and anyone wishing to improve their speaking voice. Basic techniques in breathing, vocal production, and articulation.

Prerequisite(s): THR 210 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 301 - Advanced Study in Voice

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Addresses various topics in technique of vocal production for the actor with an emphasis on playing characters for stage, radio, voice-over, and screen.

Prerequisite(s): THR 300 or permission of instructor.
Notes: May be repeated for a total of 9 credits.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 303 - Movement for Actors

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Develops the physical aspect of the actor's instrument emphasizing free and responsive expression of impulse and intention, as well as character development and visual storytelling.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

THR 304 - Advanced Movement for Actors
Advanced work in physical expression, for character development.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

THR 305 - Unarmed Stage Combat

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Studies safe, effective techniques for performing violence for stage and screen. Emphasizes acting the fight, safety, and storytelling.

Prerequisite(s): THR 210 and 310, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 306 - Movement in Musical Theater

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Students will explore and perform Movement for Musical Theater to include both character development and choreography.

Schedule Type: LEC
When Offered: Fall

THR 310 - Acting II

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Deepens an understanding of performance analysis, and character relationships through scene work.

Prerequisite(s): THR 210 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer
THR 313 - Event Technology

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
A theoretical and practical study of event technology. The course will include specifications, layout installation techniques and operation of sound systems, lighting systems and video systems for event industry sectors.

Prerequisite(s): THR 230 or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

THR 314 - Lighting Stagecraft

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
Practical and theoretical instruction on becoming theatrical electrician. Includes ideas on workplace safety, basic electrical procedures, theatrical electrical production, integrating with other theater professionals, and professionalism.

Prerequisite(s): THR 230 or permission of instructor  
Corequisite(s): Must be concurrently enrolled in THR 200  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

THR 315 - Sound Engineering

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
Study theory and practice of audio engineering for theater and the entertainment industry.

Prerequisite(s): THR 230 or permission of instructor  
Schedule Type: STU  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall

THR 316 - Scene Painting
Students experience the art and craft of scene painting with the goal of translating design elevations into paint on muslin. Students learn fundamental scene painting techniques and how to use them in combinations to create portraits, murals, landscapes, and textures.

**Prerequisite(s):** THR 230 or permission of instructor.

**Schedule Type:** STU

**Hours of Lecture or Seminar per week:** 1

**Hours of Lab or Studio per week:** 2

**When Offered:** Fall

---

**THR 320 - Performance Studio**

Credits: 3

Not Repeatable for Credit

Offered by School of Theater

Builds on existing skills in observation, sense memory, relaxation, and improvisation. Students learn variety of methods for scene preparation to apply to their own acting process.

**Prerequisite(s):** THR 210 and 310, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

**When Offered:** Fall, Spring

---

**THR 321 - Acting Shakespeare**

Credits: 3

Not Repeatable for Credit

Offered by School of Theater

Develops understanding of challenges of performing Shakespeare by building on body of acting skills and knowledge. Focuses on how structure of language in plays reflects, reveals, and expresses character's emotional life. Students use detailed script analysis, expansion of vocal range, and use of actions and objectives to achieve experience of transforming Shakespeare's language into powerful theatrical expressions.

**Prerequisite(s):** THR 210 and 310, or permission of instructor.

**Schedule Type:** LEC

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**THR 329 - Directing**

Credits: 3

Not Repeatable for Credit

Offered by School of Theater
Introduces process for directing through text analysis, rehearsal and staging techniques, and collaborative development of production idea. Students direct and apply concepts to develop a critical and productive perspective.

**Prerequisite(s):** THR 150-151, 210, or 350; or permission of instructor.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**THR 330 - Seminar in Technical Theater**

Credits: 3  
Repeatable within Term for Credit  
Offered by School of Theater  
Offered periodically; addresses selected topic in design or technical theater on advanced level.

**Prerequisite(s):** THR 230 or permission of instructor. Rotating topic.  
**Notes:** May be repeated for total 24 credits.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**THR 331 - Drafting and Model Making**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
Studies conventions and techniques of drafting and model making as methods of communication in the theatrical production process.

**Prerequisite(s):** THR 230 or permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**THR 332 - History of Fashion and Dress**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
Explores evolution of silhouette, color, fabric, accessories, and make-up appropriate to development of clothing during specific historical eras. Offers broader understanding of sociological context influencing Western dress.

**Notes:** May be repeated for total 9 credits if specific course content differs.

**Schedule Type:** LEC
**THR 333 - Stage Design**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
Fundamentals of creating, developing, and communicating design idea through sketches, plans, rendering, or models. Analysis of text from designer's perspective.

Prerequisite(s): THR 230 or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**THR 334 - Lighting Design**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
Introduces the fundamentals of lighting design, including research, paperwork communication, and technology for lighting. Topics include the controllable qualities of light, basic terminology, equipment, personnel and procedures. Learn to see light and develop a shared vocabulary for describing light and the process. Analyzes texts from designer's perspective.

Prerequisite(s): THR 230.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

**THR 335 - Costume Design**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
Project-oriented class emphasizing the art and process of designing costumes for the stage and screen, including historical period, script analysis, design concepts, color theory, and costume rendering.

Prerequisite(s): THR 230 or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Spring
THR 336 - Technical Direction

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Analyze scenic units for construction including building techniques, material choices, hardware, stage rigging, and budget estimates.

Prerequisite(s): THR 230 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 337 - Sound Design

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Study theory and practice of sound design for theater and the entertainment industry.

Prerequisite(s): THR 230 or permission of instructor
Schedule Type: STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 339 - Principles of Design

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Introduction to the principles of theatrical design. Course explores various design responsibilities and methods to create visual images for the stage through script analysis, research, and production team collaboration.

Prerequisite(s): THR 230 or permission of instructor
Schedule Type: STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 340 - Advanced Studies in Directing

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Expands directing techniques through staging extended scenes or one-act plays. Emphasizes collaborative process and production
THR 342 - Makeup Design

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Project-oriented class emphasizing makeup for different performance spaces, character age analysis, facial anatomy, and specialized application for theater, opera, dance, film, and television.

Prerequisite(s): THR 230 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

 THR 343 - Costume Pattern Drafting

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Pattern development through draping and drafting. Laboratory study and practical experience in construction of stage costumes.

Prerequisite(s): THR 235 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 345 - Puppetry

Credits: 2-4
Not Repeatable for Credit
Offered by School of Theater
Exploring of puppetry, and experiments with building and performance styles, through Original work.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 4
When Offered: Fall
THR 350 - Script Analysis

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Critical analysis of dramatic literature as preparation for production and performance. Examination of plot, character, theme, audience impact, and cultural context, and the transformation of intellectual ideas into physical theatrical production elements.

Fulfills writing intensive requirement in the major.

Notes: Writing intensive course.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 351 - Dramatic Theory and Criticism

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Chronological study of development of dramatic theory and criticism from Plato and Aristotle through modern movements. Students read plays, theoretical works, and critical responses, and write original criticism of performances or texts.

Prerequisite(s): THR 150 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 352 - Dramatic Literature Seminar

Credits: 3
Repeatable within Term for Credit
Offered by School of Theater
Rotating topic. Intensive study of particular topic, period, or genre in dramatic literature.

Notes: May be repeated for a total of 9 credits if specific course content differs.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 355 - Moral Vision in American Theater

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Examines vision of American society created and presented in contemporary American theater. Subject defined as "moral" vision because focus is on how we perceive ourselves in relation to others and society's value standards. Perspectives include sociology, theory of culture, practical theater craft, and literary criticism. Features plays by range of American playwrights.

**THR 359 - World Stages**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
Introduces variety of theatrical traditions and performance theories from around the world, with special emphasis on those not covered in introductory Western drama survey courses, 150 and 151. Students read and discuss dramatic texts, performance theory, and video clips to understand variety of theatrical traditions in cultural and historical contexts. Requirements include two team presentations (taking turns as writer and presenter), one midterm paper, and one solo presentation with accompanying paper.  

Fulfills Mason Core requirement in global understanding.

**THR 365 - Characterization**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
Explores method and approach of understanding and creating characters for theater modeled on people from personal experience and observation, imagination, dreams, and other media. Transforms that information into detailed, specific, and vivid physical manifestations. Through presentations of characters drawn from personal experience, students shift understanding of characterization from "outward directed" physical adjustments to physical characteristics and personality character traits that are immediate, familiar, and completely realized from "inner driven" connections to their own lives.

**Prerequisite(s):** THR 210.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**THR 380 - Playwriting I**

Credits: 3  
Repeatable within Degree for Credit  
Offered by School of Theater
Exposure to principles of dramatic writing, including character, plot, dramatic structure, dialogue, exposition, setting, and creating theatrical images using examples from plays, screenplays, and students' own work.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
When Offered: Fall

THR 381 - Playwriting II

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Intensive continuation of work begun in THR 380.

Prerequisite(s): THR 380 or permission of instructor.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
When Offered: Spring

THR 382 - Screenplay Workshop

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Studies screenwriting as dramatic form of 20th, 21st centuries. Explores story, plot structure, three act-structures, mythic structures, fundamental story patterns, character, thinking, and writing visually.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 395 - Theater as the Life of the Mind

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Traces four subjects (battle of the sexes, good gifts, cyclical tragedy, and eschatology) from ancient theater to contemporary plays, television, and movies, using literary criticism, history, political theory, comparative religion, sociology, and anthropology.

Fulfills Mason Core requirement in arts.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
THR 401 - Professional Presentation

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Examines persuasive communication, with an emphasis on making presentations and addressing groups, both large and small. Hones the ability to project a personal passion while communicating information about any discipline to general audiences.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 405 - Advanced Stage Combat

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Armed Stage Combat techniques are explored, unarmed techniques solidified, and advanced choreography mastered in this study of safe and effective theatrical storytelling through violence for Stage and Screen appropriate towards national certification as Actor-Combatant.

Prerequisite(s): THR 305 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Summer

THR 410 - Acting for the Camera

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Designed for students with a strong interest in pursuing a professional career in acting and is focused primarily on the particular techniques for screen acting in film and television.

Prerequisite(s): Must have completed THR 310 with a grade of C or better.
Prerequisite(s) enforced by registration system.

Notes: This class is restricted to Theater majors and minor only.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring
THR 411 - Great Film Directors

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Examines examples of directing for dramatic storytelling on screen and its social and historical contexts. Focuses on specific developments in the art of movie making.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Sophomore standing (30 credit hours completed).
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring, Summer

THR 412 - Great Film Performances

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Examines the development and evolution of acting style and genres through exemplary performances on screen.

Fulfills Mason Core requirement in arts.

Prerequisite(s): Sophomore standing (30 credit hours completed).
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 415 - Advanced Sound Engineering

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Advanced study in theory and practice of audio engineering for theater and the entertainment industry.

Prerequisite(s): THR 315 and THR 230 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 420 - Advanced Performance Studio
THR 421 - One-Person Show

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Explores creative writing, staging, and performance while developing short, original work culminating in the successful writing, a one-person show.

Prerequisite(s): THR 210 and THR 310 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 423 - Audition Techniques: Stage and Camera

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Develops effective audition techniques for performers through preparation of material for stage and camera, and explores industry standards and casting protocols through practical application.

Prerequisite(s): C or higher in THR 310 or equivalent, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 424 - Contemporary Women Playwrights
Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Explores identity and culture, sexuality and gender, work, relationships, and power through the eyes of female dramatists and performance artists. Analyzes texts and issues through readings, video, and live performances.

Prerequisite(s): Junior standing, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 425 - Verse Speaking

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Explores verse literature and mechanics of verse structure through reading, discussing, and reciting major verse plays of Western drama from the Middle Ages through the 20th century. Focuses on various verse forms, paying particular attention to vocal clues within verse structure, the meaning of rhythm, and practicing vocal techniques used in speaking texts in class. Students also prepare weekly presentations of playwrights, and historical backgrounds of plays and their periods.

Prerequisite(s): THR 210 and 310, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 427 - Musical Theater Workshop

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Develops performance techniques necessary for performance in musical theater. Students will prepare and perform musical theater pieces. This course is repeatable to twelve (12) credits.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 428 - Musical Theater Ensemble

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Rehearses a musical or musical theater review in a workshop environment. The result of the work will be public performance(s).

Prerequisite(s): Audition.
THR 434 - Advanced Lighting Design

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
In-depth study of lighting design focused on the aesthetics of stage lighting and advanced conceptualization and communication of design ideas. Extensive work with script analysis, research, and graphic representation of theatrical lighting designs. Intensive practical experience in laboratory and production assignments.

Prerequisite(s): THR 230 and 334, or permission of instructor.

THR 440 - Advanced Studies in Directing/Dramaturgy

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Examines theory and practice of collaborative development of production ideas by director and dramaturg teams. Students draw from extensive study in field to support production ideas from classical and modern repertoire to be presented as written and oral projects before faculty panel.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): Junior or senior standing; completion of or concurrent enrollment in all Mason Core courses; THR 150 or THR 151, and THR 329; or permission of instructor.

THR 448 - Foundations of Theater Education

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Introduces and explores various theater teaching specialties. Examines philosophical, pedagogical, and practical issues in context of diverse teaching situations and venues that range from public school to undergraduate and graduate training to commercial establishments.

Prerequisite(s): Junior standing (60 credit hours completed) and Theater Teaching Concentration admission requirements or permission of the instructor.
THR 449 - Elementary Theater Education

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
An in-depth exploration of teaching methods and classroom management for PK-6 theater education.

Prerequisite(s): Junior standing (60 credit hours completed) Theater Teaching Concentration admission requirements or permission of the instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

THR 450 - Secondary Theater Education

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
This course explores teaching methods for theater that are appropriate for all students, including exceptional students, gifted and talented, and those with disabling conditions. It will cover requirements of the Virginia Theater Standards of learning, curriculum and instructional procedures for secondary grades 6-12 (both middle and secondary schools).

Prerequisite(s): Junior standing (60 credit hours completed) Theater Teaching Concentration admission requirements or permission of the instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 451 - Theater Pedagogy

Credits: 2
Repeatable within Degree for Credit
Offered by School of Theater
This advanced exploration of teaching methods for K-6 enrichment programming includes classroom hours devoted to pedagogy and field study for practical application, leadership and administration for independent arts programming.

Prerequisite(s): Sophomore standing and enrollment in Theater Education concentration; or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Spring
THR 455 - Theater Education Internship

Credits: 6-12
Repeatable within Degree for Credit
Offered by School of Theater
Full semester of supervised teaching experience in approved school programs PK-12. Credits based on number of teaching contact hours per week.

Prerequisite(s): Successful completion of Theater Teaching Concentration Coursework and students must pass the VCLA before student teaching (and the Praxis II (Theater: Content Knowledge) test during the internship semester).

Schedule Type: INT
Hours of Lecture or Seminar per week: 6-12
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 480 - Advanced Playwriting

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Advanced playwriting workshop in which students explore their own voice in theatrical writing.

Prerequisite(s): THR 381, or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring

THR 482 - Advanced Screenplay Workshop

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Screenwriting workshop emphasizing student development in screenplay form, structure, and storytelling with emphasis on craft, character, and story culminating in a screenplay.

Fulfills writing intensive requirement in the major.

Prerequisite(s): THR 382 or ENGL 332/ENGH 372 or other writing preparation course as approved by the instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 3
When Offered: Fall, Spring
THR 484 - Translation & Adaptation for Stage & Screen

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
This interdisciplinary course will introduce students to the arts of translation and adaptation for the stage and screen. Students will read examples of translations and adaptations, identify challenges in each, and discuss them with professionals who translate or adapt works for theater, film and/or opera. Students are also expected to apply their skills to one short and one long translation/adaptation project, and present their work to the class.

Prerequisite(s): Junior standing
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

THR 490 - Special Topics in Theater

Credits: 1-6
Repeatable within Term for Credit
Offered by School of Theater
Rotating topic. Advanced seminar in topics of special interest, including dramatic writing or other media, and feminism in contemporary theater.

Notes: May be repeated for a total of 24 credits, provided specific course content differs.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 491 - Seminar on the Profession

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Theater
Rotating topic. Advanced seminar in topics of special interest, including dramatic writing or other media, and feminism in contemporary theater.

Prerequisite(s): Student must have completed at least 60 credit hours.
Notes: Repeatable to 6 credits with permission of the Chair. Rotating Topics. Dependent on credits hours offered, class time will vary from 1 hour to 2 hours, 40 minutes.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
THR 492 - Studio Project

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Theater
Required for students assigned as director, designer, dramaturg, or stage manager for a Mason Players Studio production. Instruction and mentorship from appropriate Theater faculty to better develop the student's aesthetic. Required generation of portfolio material. This class is restricted to students participating in Studio productions within the academic year of the course offering.

Prerequisite(s): THR 329 or THR 333 or THR 334 or THR 335 or THR 337.
Notes: This course is repeatable to 9 credits.

Schedule Type: STU
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 493 - Collaborative Lab Experience

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Students will collaborate in a laboratory experience to create original material for the stage or screen. Course content will be project specific.

Prerequisite(s): Theatre major with junior standing (60 credit hours completed).
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit only
When Offered: Fall

THR 494 - Field Experience

Credits: 1-6
Repeatable within Term for Credit
Offered by School of Theater
Experience in a theatrical organization to provide opportunity to apply classroom training, knowledge, skills, and theory in a professional situation. Activity must be approved by department chair.

Prerequisite(s): Involves off-campus experience with a professional theater. Students must obtain permission of instructor prior to registering.
Notes: May be repeated for a total of 12 credits.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No credit only
THR 495 - Senior Capstone Project

Credits: 3  
Repeatable within Degree for Credit  
Offered by School of Theater  
Student must submit a written project proposal to area of concentration for consultation. If accepted, proposal will be presented to the full faculty for approval.

Prerequisite(s): Must have declared a concentration, have completed at least 60 credit hours, and must have completed 4 credits of Practicum.  
Notes: Production proposals will be subject to calendar availability. Course is repeatable to 6 credits with permission of Chair.

Schedule Type: STU  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

THR 496 - Text in Production

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
In-depth investigation of collaborative nature of theatrical arts. Examines discrete creative disciplines; acting, directing, dramaturgy, and design as discussed by distinguished professionals and scholars. In-depth exploration of one selected playscript for the entire semester. Students will work collaboratively in small groups to research, design, direct, and perform scenes from selected text.

Fulfills Mason Core requirement in synthesis.

Prerequisite(s): Completion or concurrent enrollment in all theater core courses and all other required Mason Core courses, and junior standing; or permission of instructor.  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

THR 497 - Independent Study

Credits: 1-6  
Repeatable within Term for Credit  
Offered by School of Theater  
Individual research and creative project in close consultation with instructor. Selection from projects in performance, directing, technical theater and design, playwriting, or theater history and criticism.

Prerequisite(s): Open only to theater majors with 90 credits and special permission of department chair  
Notes: May be repeated for a total of 24 credits, provided suffix citing specific course content is different

Schedule Type: IND
THR 525 - Advanced Musical Theater Workshop

Credits: 3  
Repeatable within Degree for Credit  
Offered by School of Theater  
Students hone performance techniques necessary for performance in musical theater and contemporary operetta. Students will practice and perform musical theater pieces.

Notes: Course is repeatable to 6 credits.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
When Offered: Fall, Spring

THR 530 - Topics in Theater Design

Credits: 3  
Repeatable within Degree for Credit  
Offered by School of Theater  
In-depth study of scenic, costume, lighting, or sound design. Extensive work with script analysis, historical and conceptual research, visual communication of design ideas, and technical paperwork. Focus on aesthetics, production requirements, and collaboration.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0  
Grading: Graduate Special  
When Offered: Fall

THR 539 - Aesthetics for the Theater

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
Students will develop skills in design while exploring significant developments within the area of concentration. Creative projects, including research and design, will be supervised on an individual basis.

Schedule Type: IND  
When Offered: Fall and Spring

THR 540 - Directing Techniques
As an examination of the directorial process for stage and screen, this course will explore directing theory, preparation, and practice.

Notes: This course is repeatable to six (6) credits.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 548 - Advanced Foundations of Theater Education

Explores various theater teaching specialties in venues that range from public school to undergraduate and graduate training to commercial establishments.

Prerequisite(s): Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 549 - Advanced Elementary Theater Ed

An in-depth exploration of teaching methods and classroom management for PK-6 theater education combined with advanced managerial skill training.

Prerequisite(s): Graduate standing, eligibility for post-baccalaureate in Theater Education Licensure, or permission of the instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

THR 550 - Advanced Secondary Education

Not Repeatable for Credit
Offered by School of Theater
This course explores teaching methods for theater that are appropriate for all students, including exceptional students, including gifted and talented and those with disabling conditions. It will cover requirements of the Virginia Theater Standards of Learning, curriculum and instructional procedures, as well as theater classroom management, for secondary grades 6-12 (both middle and secondary schools).

Prerequisite(s): Graduate standing, eligibility for post-baccalaureate certificate in Theater Education, or permission of the instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 551 - Advanced Theater Pedagogy

Credits: 2
Not Repeatable for Credit
Offered by School of Theater
Advanced concepts in teaching methods for PK-12. Further exploration of multiple intelligences, including classroom pedagogy and field study for practical application of curriculum and administrative skills.

Prerequisite(s): Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.
Notes: Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 555 - Theater Education Internship

Credits: 4-12
Repeatable within Degree for Credit
Offered by School of Theater
Full semester of supervised teaching experience in approved school programs PK-12. Credits based on number of teaching contact hours per week.

Prerequisite(s): Successful completion of Theater Teaching Concentration Coursework and students must pass the VCLA and Praxis I prior to the internship semester.

Schedule Type: INT
Hours of Lecture or Seminar per week: 4-12
Hours of Lab or Studio per week: 0
When Offered: Fall

THR 560 - Advanced Script Analysis
Critical analysis of dramatic literature as preparation for production and performance. Examination of plot, character, theme, audience impact, and cultural context, and the transformation of intellectual ideas into physical theatrical production elements.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**THR 571 - Advanced Playwriting Workshop**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
Advanced playwriting workshop in which students explore their own voice in theatrical writing.

**Prerequisite(s):** Undergraduate degree or equivalent, or permission of instructor.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**THR 590 - Special Topics for Graduate Study**

Credits: 1-6  
Repeatable within Term for Credit  
Offered by School of Theater  
Rotating topic. Advanced seminar in topics for stage and screen studies, including education, performance, design, research, writing, and styles in theater or other media.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring

**THR 591 - Graduate Seminar**

Credits: 1-3  
Not Repeatable for Credit  
Offered by School of Theater  
Addresses the realities living and working in the theater and the film industry.

**Notes:** Rotating Topics. Dependent on credits hours offered, class time will vary from 1 hour to 2 hours, 40 minutes.  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 1-3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 599 - Independent Study

Credits: 1-6
Repeatable within Term for Credit
Offered by School of Theater
Independent reading, performance, or research on a specific project under direction of selected faculty member. May include attendance in a parallel undergraduate course.

Prerequisite(s): Undergraduate degree or equivalent, or permission of instructor.
Notes: May be repeated for a total of 18 credits.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

THR 610 - Acting Mentorship

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
This class gives students the chance to work with a faculty mentor while they apply their acting skills to a full-length public performance. Students create a record of the creative process through mentored practical production assignments. Actors enrolled in this course must receive prior approval for their projects for the stage or screen and will be expected to submit a written reflection on the complete acting process.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 620 - Acting Techniques

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Students explore selected acting techniques for stage and screen. Topics vary from scene work to specialty areas—such as movement, voice and style—with an emphasis on developing bold physical, psychological and emotional expression.

Notes: Repeatable up to 12 credits.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
THR 630 - Design Mentorship

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Students work with a mentor while they apply design and technical skills to a full-length public performance. Students create a record of the creative process through mentored practical production assignments. Students must receive prior approval on projects for the stage or screen and will be expected to submit a written reflection on the process.

Notes: Students must attain a B or higher to receive credit.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Graduate Special.
When Offered: Fall, Summer, Spring

THR 640 - Directing Mentorship

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
This class gives students the chance to work with a faculty mentor while they apply their directing skills to a full-length public performance. Students create a record of the creative process through mentored practical production assignments. Directors enrolled in this course must receive prior approval for their projects for the stage or screen and will be expected to submit a written reflection on the full directorial process.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

THR 651 - Advanced Dramatic Theory and Criticism

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
A chronological study of development of dramatic theory and criticism from Plato and Aristotle through modern movements. Students read plays, theoretical works, and critical responses, and write original criticism of performances or texts. They also take turns leading critical texts, meet one-on-one with their instructor for individualized mentoring, and prepare at least one essay for publication.

Prerequisite(s): Graduate standing or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
THR 652 - Writing Seminar

Credits: 3
Not Repeatable for Credit
Offered by School of Theater
Students develop writing skills and explore significant developments and periods within the field.

Prerequisite(s): Admission to Graduate Program in CVPA.
Schedule Type: SEM
When Offered: Fall and Spring

THR 655 - Teaching Practicum

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Students develop and teach undergraduate curriculum related to their area of emphasis.

Prerequisite(s): Admission to Graduate Program in CVPA.
Notes: Students must attain a B or higher to receive credit.
Schedule Type: INT
Grading: Graduate Special.
When Offered: Fall, Summer, Spring

THR 691 - Professional Development

Credits: 1
Not Repeatable for Credit
Offered by School of Theater
Students develop materials and strategies toward the next stage of career in the field.

Schedule Type: IND
Grading: Satisfactory/No Credit
When Offered: Fall, Spring, Summer

THR 694 - Graduate Field Experience

Credits: 1-6
Repeatable within Degree for Credit
Offered by School of Theater
Experience in a professional theater or screen production. Activity is subject to prior faculty approval. Students will present a final portfolio of work.
THR 696 - Advanced Acting Practicum

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Academic credit awarded for satisfactory completion of a minimum of 60 hours approved production experience.

Schedule Type: LAB
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Spring, Summer

THR 697 - Advanced Playwriting and Dramaturgy Practicum

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Theater
Academic credit awarded for satisfactory completion of a minimum of 60 hours of approved production experience.

Schedule Type: LAB
Grading: Satisfactory/No Credit
When Offered: Fall, Spring, Summer

THR 698 - Advanced Directing Practicum

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Theater
Academic credit awarded for satisfactory completion of a minimum of 60 hours approved production experience.

Schedule Type: LAB
Grading: Satisfactory/No Credit
When Offered: Fall, Spring, Summer

THR 699 - Advanced Design Practicum

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Theater
Academic credit awarded for satisfactory completion of a minimum of 60 hours of approved production experience.

**Schedule Type**: LAB  
**Grading**: Satisfactory/No Credit  
**When Offered**: Fall, Spring, Summer

---

**THR 740 - Directors and Dramaturg in Collaboration**

Credits: 3  
Repeatable within Degree for Credit  
Offered by School of Theater  
Students work in director-dramaturg pairs to create a hypothetical theater company, craft its mission, plan its season and pitch their ideas for production. Additional assignments include a director's approach, dramaturg's protocol, annotated bibliography, research paper and lecture on a related topic.  

**Notes**: Students must attain a B or higher to receive credit.

**Schedule Type**: IND  
**Hours of Lecture or Seminar per week**: 3  
**Hours of Lab or Studio per week**: 0  
**Grading**: Graduate Special.  
**When Offered**: Fall, Summer, Spring

---

**THR 755 - Academic Track Practicum**

Credits: 3  
Repeatable within Degree for Credit  
Offered by School of Theater  
Students prepare a semester worth of course material for undergraduate class.  

**Prerequisite(s)**: Admission to Graduate Program in CVPA.  
**Notes**: Students must attain a B or higher to receive credit.

**Schedule Type**: LAB  
**Hours of Lecture or Seminar per week**: 0  
**Hours of Lab or Studio per week**: 3  
**Grading**: Graduate Special.  
**When Offered**: Fall, Summer, Spring

---

**THR 790 - Directed Research**

Credits: 3  
Not Repeatable for Credit  
Offered by School of Theater  
Students delve into a specialty topic of research in the area of emphasis within the Theater concentration.  

**Prerequisite(s)**: Research Methods Core Requirements.
Notes: Students must attain a grade of B or higher to receive credit.

Schedule Type: IND
Grading: Graduate Special
When Offered: Fall, Spring, Summer

THR 796 - Directed Reading

Credits: 1
Not Repeatable for Credit
Offered by School of Theater
In preparation for a thesis, students develop and complete a body of reading relating to their thesis.

Schedule Type: IND
Grading: Satisfactory/No Credit
When Offered: Fall, Spring, Summer

THR 797 - Project Preparation

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Students document their pre-production process in preparation for their culminating artistic project.

Corequisite(s): THR 796.

Notes: Students must attain a B or higher to receive credit.

Schedule Type: IND
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

THR 798 - Project Practicum

Credits: 3
Repeatable within Degree for Credit
Offered by School of Theater
Students document their production process during the culminating artistic project.

Corequisite(s): THR 797.

Notes: Students must attain a B or higher to receive credit.

Schedule Type: IND
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring
THR 799 - Thesis

Credits: 1-3
Repeatable within Degree for Credit
Offered by School of Theater
Students reflect upon their culminating artistic project and articulate original conclusions regarding practice in their area of emphasis.

Prerequisite(s): Research Methods Core Requirement.
Notes: Subject to Faculty majority. Students must attain a B or higher to receive credit.

Schedule Type: IND
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Summer, Spring

Tourism and Events Management (TOUR)

Offered by the College of Education and Human Development

TOUR 110 - Professionalism and Civility

Credits: 1
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Focuses on developing competencies in the areas of professionalism and civility in a variety of settings including professional image, conduct at work, telephone, written, oral, and electronic etiquette, table manners, and social networking with an emphasis on the cultural needs for honoring commitments and obligation.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

TOUR 190 - Wedding Planning

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Introduction to the planning and management of weddings. Explores social, political, economic, cultural, religious, and historical influences on wedding planning decision-making and business strategies. Reviews practices relevant to successful wedding planning, and consultancy for diverse clients and settings.

Schedule Type: LEC
TOUR 200 - Introduction to Tourism Management

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Introduces travel and tourism from local to international levels. Covers the scale, scope and organization of the industry. Emphasizes the development and management of natural, cultural, heritage and recreational resources of tourism. Identifies issues related to the economic, technological and political aspects of tourism.

Notes: Open to nonmajors.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 210 - Global Understanding through Travel and Tourism

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Examines tourism as a global industry and human activity that promotes and facilitates understanding of historical and cultural values, and of international institutions that characterize the broader global system.

Fulfills Mason Core requirement in global understanding.

Notes: Open to nonmajors.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 214 - Hospitality Tourism and Events Management Accounting

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Provides an overview of financial accounting for hospitality, tourism and event managers. Presents financial accounting from the perspective of recording financial transactions, developing financial statements and evaluating investment and operational decisions. Emphasizes efficient use of spreadsheets in managerial decision making.

Prerequisite(s): None.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
TOUR 220 - Introduction to Event Management

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Explores principles and practices of managing medium- and large scale events including festivals, conventions, concerts, shows, sporting events, and ceremonies. Emphasizes organization, site preparation, communications, personnel, and security as well as evaluation and innovation.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

TOUR 221 - Event Implementation and Evaluation

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Introduction to event implementation and evaluation through involvement in on-site event delivery and analysis. Studies participant motivation and economic, social, environmental, and cultural impacts in relation to an event's products and services.

Prerequisite(s): D or higher in TOUR 220.  
Prerequisite(s) enforced by registration system.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

TOUR 230 - Introduction to Hospitality Management

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
This course is an introduction to hospitality management, including an overview of management in the hospitality industry and professional opportunities. The concepts and practices of hospitality management are examined and discussed. The scope and forms of hospitality organizations are reviewed, as well as trends within these organizations.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

TOUR 241 - Hospitality, Tourism, and Events Management Practicum
Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Provides 120 hours of introductory supervised professional fieldwork experience in an approved tourism, events, or hospitality management setting for 10 to 14 weeks (10 weeks only for the Summer term) under the supervision of a practicum Faculty Supervisor and Agency Supervisor. Includes meetings and assignments before, during, and after the practicum. Start date is the first day of classes.

Prerequisite(s): D or higher in TOUR 200, TOUR 220, sophomore standing, and TOUR major status.
Prerequisite(s) enforced by registration system.

Notes: TEM majors only. Students must complete the mandatory pre-experience orientation session online before registering for this course. This requirement will be enforced by the registration system. Hourly requirement per week is 15-20 for Summer term.

Schedule Type: INT
Hours of Lecture or Seminar per week: 0
Hours of Lab or Studio per week: 10-12
Grading: Satisfactory/No Credit
When Offered: Fall, Spring, Summer

TOUR 301 - Hotel Management

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Explores interrelated systems in hotel management, including front desk, reservations, housekeeping, food/beverage, telecommunications, guest services and security. Reviews and segments hotel products and associated management challenges.

Prerequisite(s): D or higher in TOUR 230.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

TOUR 310 - Food and Beverage Management

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Explores the principles of foodservice management regarding production and selling of food and beverage products. Categorizes various types of food, wine, beer and spirits. Reviews foodservice buying, pricing, menu planning, production, storage, service, controls and quality assurance.

Prerequisite(s): D or higher in TOUR 230.
Prerequisite(s) enforced by registration system.
TOUR 311 - Women and Tourism

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Focuses on women as hosts and guests. Using social theory, explores issues regarding the history and evolution of tourism as a gendered system. Addresses family, solo and business travel, and employment, taking into consideration issues related to more and lesser developed countries as they relate to the roles of women in international tourism.

Fulfills Mason Core requirement in social and behavioral science.

Notes: Open to nonmajors.

TOUR 312 - Ecotourism

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

Analyzes tourism that is nature-based and entails a learning component while striving for environmental and sociocultural sustainability within the context of financial viability. Considers markets, role of protected areas, impacts, business aspects, external environments, organizations and policies, and research trends and needs. Designated a Green Leaf Course.

Prerequisite(s): D or higher in TOUR 200.
Prerequisite(s) enforced by registration system.

TOUR 313 - Event Technology

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Explores theoretical and practical considerations of event technology. Examines specifications, layout installation techniques and
operation of sound systems, lighting systems and video systems for event industry sectors.

Prerequisite(s): D or higher in TOUR 220.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall

TOUR 320 - Hospitality Management Information Systems

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Introduces management information systems (MIS) technology and its application to hospitality sectors from managerial and strategic perspectives. Surveys computer applications, products and trends in gathering, analyzing, storing and communicating information within hospitality sectors.

Prerequisite(s): D or higher in TOUR 230.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Spring

TOUR 330 - Resort Management

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Surveys effective practices in the management of resort recreation enterprises. Examines basic resort operations, including front desk, food and beverage, amenities, and housekeeping. Covers management of a variety of resort types, such as ski resorts, beach resorts, dude ranches, business retreats, adventure camps, health spas, and golf resorts.

Prerequisite(s): D or higher in TOUR 200 and TOUR 220.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 331 - Cruise Ship Management

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism.
Surveys effective practices in the management and operation of cruise ships. Includes on-site examination of basic cruise operations including sales and booking, food and beverages, hotel operations, security, recreation activities, shore excursions and personnel management. Examines historical foundations of the cruise industry, related leisure and management theory, and leisure trends specific to mass international maritime travel.

**Prerequisite(s):** Grade of "C" or better in TOUR 200, TOUR 220, TOUR 230, 60 credit hours, BS TEM major, 21 years of age by beginning of semester.
**Notes:** Includes on-campus classroom lectures and week-long on-board cruise ship instructional experience.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Grading:** Regular
**When Offered:** Spring

---

**TOUR 340 - Sustainable Tourism**

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

Studies the characteristics of environmentally, economically and socio-culturally sustainable tourism and assesses the possibilities and limitations for its implementation within a variety of destinations and product settings. Emphasizes conventional "mass" tourism and small-scale "alternative" tourism as they apply to hospitality, event, and tourism management.
Designated a Green Leaf Course.

**Prerequisite(s):** D or higher in TOUR 200 and TOUR 220.
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
**When Offered:** Fall, Spring, Summer

---

**TOUR 352 - Heritage and Cultural Tourism**

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

Analyzes historical and cultural attractions, including museums, canals, monuments, pilgrimage sites, military sites, and cultural and heritage landscapes. Covers presentation and interpretation, African-American and Native American heritage, management and operational considerations, and marketing.

**Prerequisite(s):** D or higher in TOUR 200 and TOUR 220.
Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC
TOUR 362 - Cultural and Environmental Interpretation

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Focuses on communication processes and practices used by professionals to explain and interpret special characteristics of cultural and environmental resource sites for visitors. Discusses conceptual principles for planning interpretive programs, as well as techniques for analyzing and disseminating information and entertainment through various media. Examines delivery of interpretive messages across a variety of audiences, strategies for programming interpretive services, and the administration and evaluation of interpretive services at tourism, event, and recreation sites. 

Equivalent to PRLS 362

Prerequisite(s): PRLS 300, or PRLS 328, or TOUR 352
Schedule Type: LEC

TOUR 412 - Hospitality, Tourism, and Events Management Marketing

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Applies marketing principles, theories and concepts in developing strategies for hospitality, tourism and event management businesses. Emphasizes market segmentation, marketing mix, sales planning and public relations.

Prerequisite(s): D or higher in TOUR 200, TOUR 220, PRLS 310, and PRLS 410. Prerequisite(s) enforced by registration system.

Schedule Type: LEC

TOUR 414 - Hospitality, Tourism, and Events Management Finance

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Develops skills and competencies for the management of financial resources in hospitality, tourism and events management enterprises. Covers economic principles, the time value of money, revenue streams, pricing and expenditure management. Applies fundamental principles to personal financial management.

Prerequisite(s): D or higher in TOUR 200, TOUR 220, PRLS 310, and PRLS 410.
TOUR 416 - Hospitality Sales

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Explores the principles of personal selling within hospitality sectors. Reviews the nature of buyers and sellers, situational selling, the sales process and relationship management.

Prerequisite(s): D or higher in TOUR 230, PRLS 410.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

TOUR 420 - Tourism Planning/Policy

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

Principles of planning and policy that apply to integrated and sustainable tourism development at the international, national, state, regional, local, and site scale. Considers government, industry, and community perspectives. Designated a Green Leaf Course.

Prerequisite(s): D or higher in PRLS 310 and TOUR 340.
Prerequisite(s) enforced by registration system.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 440 - Meetings and Conventions

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

Analyzes meetings, incentives, conventions, and exhibitions with respect to business environment and structure, industry
suppliers, site and facility selection, human resource management, legal and financial issues, marketing and promotion, and event organization.

**Prerequisite(s):** D or higher in TOUR 220 and PRLS 310. Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

TOUR 450 - Hospitality Human Resources Management

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Reviews concepts and methods related to the achievement of strategic business goals through employee recruitment, training and development.

**Prerequisite(s):** D or higher in PRLS 410. Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

TOUR 460 - Hospitality Facilities Operations

Credits: 3  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Explores the principles applied to facilities systems operations in hospitality sectors. Considers design, planning, layout and maintenance of hospitality properties and systems.

**Prerequisite(s):** D or higher in TOUR 340. Prerequisite(s) enforced by registration system.

**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Spring

TOUR 470 - Career Preparation

Credits: 1  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism
Focuses on current issues in tourism, events and hospitality management with an emphasis on career development strategies.

**Prerequisite(s):** TEM major, D or higher in TOUR 241, 60 credits. Prerequisite(s) enforced by registration system.

**Notes:** Meets for half the semester.

**Schedule Type:** SEM  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0  
**When Offered:** Fall, Spring  

---

**TOUR 480 - Special Topics**

Credits: 1-3  
Repeatable within Term for Credit  
Offered by School of Recreation, Health, and Tourism  
Selected topics reflect interest in specialized area of tourism and events management. Announced in advance.

**Prerequisite(s):** 60 credits  
**Schedule Type:** LEC  
**Hours of Lecture or Seminar per week:** 1-3  
**Hours of Lab or Studio per week:** 0

---

**TOUR 490 - Hospitality, Tourism, and Events Management Internship**

Credits: 12  
Not Repeatable for Credit  
Offered by School of Recreation, Health, and Tourism  
Provides 400 hours of advanced supervised professional experience in an approved tourism, events, or hospitality management setting for a minimum of 30 hours/week, and a maximum of 40 hours/week (40 hours/week only in Summer term). Provides a continuous and structured opportunity to apply principles and skills developed in the classroom to the solution of practical problems. (Department approval required).

**Prerequisite(s):** 90 credits, D or higher in TOUR 241, TOUR 340, TOUR 470 and PRLS 410. Open to TEM Majors only. Pre-Experience Orientation Session attendance required. Prerequisite(s) enforced by registration system.

**Notes:** Open only to TEM majors. Students must attend mandatory pre-experience orientation session before registering - this requirement will be enforced by the registration system - and must participate in the mandatory final presentations upon completion of internship. Can register for only one additional course for up to 3 credits.

**Schedule Type:** INT  
**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 30-40  
**Grading:** Satisfactory/No Credit  
**When Offered:** Fall, Spring, Summer
TOUR 499 - Independent Study

Credits: 1-3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Faculty directed independent study of approved topics in tourism and events management.

Prerequisite(s): TOUR 200 and 220, and 90 credits.
Notes: TEM majors only.

Schedule Type: IND
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

TOUR 540 - Sustainable Tourism Management

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism

Examines components and interrelationships within tourism systems and assesses the potential economic, sociocultural, and environmental impacts associated with this sector. Considers managerial strategies that minimize the negative impacts and maximize the positive impacts, thereby attaining sustainable tourism.
Designated a Green Leaf Course.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 710 - Advanced Administrative Practices in Tourism and Events

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Explores best practices in the administration of tourism and events businesses. Particular emphasis will be placed on contract management, and strategic planning for dynamic markets and changing technologies, with specific applications to geographically dispersed consumers and suppliers.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 712 - Marketing Tourism and Event Planning Services

Credits: 3
Not Repeatable for Credit
Focuses on the unique challenges and opportunities faced by tourism and event marketers in producing, delivering, pricing, and promoting tourism and event services.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

TOUR 720 - Major Events and Convention Management

Credits: 3
Not Repeatable for Credit
Offered by School of Recreation, Health, and Tourism
Prepares graduate students for managing large scale events such as major festivals, conventions, sporting contests, cultural exhibitions, and commercial exhibitions. Management of human financial, information, and technology resources will be emphasized.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

Turkish (TURK)

Offered by the College of Humanities and Social Sciences

TURK 110 - Elementary Turkish

Credits: 6
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 6
Hours of Lab or Studio per week: 0

TURK 210 - Intermediate Turkish

Credits: 3
Not Repeatable for Credit
Offered by Modern and Classical Languages.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Turkish-speaking regions.

Prerequisite(s): TURK 110, appropriate placement score, or permission of department.
University Transition and Interdisciplinary Studies (UNIV)

Offered by the Provost's Office

**UNIV 100 - Introduction to Mason**

Credits: 1  
Not Repeatable for Credit  
Offered by the Provost's Office.  
This course assists first-year students with their transition from high school to college life at Mason. It helps students to be successful through academic skill-building, educational planning, and career preparation. It provides information regarding campus resources and ways to engage in the Mason community. Although all sections have a core curriculum, certain sections also focus on a particular theme, student population, or course of study.

Equivalent to UNIV 108, UNIV 140, UNIV 150, UNIV 160.

**Prerequisite(s):** Freshman standing.  
**Notes:** Only one of UNIV 100, UNIV 108, UNIV 140, UNIV 150, or UNIV 160 can be taken for credit.

**Schedule Type: SEM**  
**Hours of Lecture or Seminar per week:** 1  
**Hours of Lab or Studio per week:** 0

**UNIV 101 - Extended Transition**

Credits: 0-1  
Not Repeatable for Credit  
Offered by the Provost's Office.  
This course serves as a continuation of University 100 into the second freshman semester. It extends the transition support of international students, and other students in special sections of University 100.

Equivalent to UNIV 141, UNIV 151.

**Notes:** This course is required in designated programs only.  
Only one of UNIV 101, UNIV 141, or UNIV 151 can be taken for credit.

**Schedule Type: SEM**  
**Hours of Lecture or Seminar per week:** 0-1  
**Hours of Lab or Studio per week:** 0

**UNIV 108 - Mason Transition**
Credits: 0-1
Repeatable within Degree for Credit
Offered by the Provost's Office.
Specialized transition to Mason courses with identified student populations.

Equivalent to UNIV 100, 140, 150, 160.

Notes: Only repeatable with department approval. Only one of UNIV 100, UNIV 108, UNIV 140, UNIV 150, or UNIV 160 may be taken for credit.

Schedule Type: SEM
When Offered: Fall, Spring, Summer

UNIV 110 - Academic Success

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
Focuses on academic transition and planning issues for students in their first or second year. Emphasis is placed on resources and techniques to assist students with improving their academic performance. Students work closely with the instructor to track their academic progress over the course of the semester.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0

UNIV 140 - INTO Mason Pathway Transition

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
Assists first-year international and multilingual standard and accelerated pathway students with their transition from high school to college life. It helps prepare students for successful progression to their chosen degree plan the promoting acculturation to academic norms and expectations at Mason, the development of self-efficacy, and engagement with the Mason community. It encourages to seek out and take full advantage of a wide range of campus resources.

Equivalent to UNIV 100, UNIV 108, UNIV 150, UNIV 160.

Notes: Only one of UNIV 100, UNIV 108, UNIV 140, UNIV 150, or UNIV 160 can be taken for credit.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
When Offered: Fall, Spring

UNIV 141 - INTO Mason Pathway Extended Transition
Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
Serves as a continuation of UNIV 140. It provides extended first-year transition support for standard pathway students in the second semester.

Equivalent to UNIV 101, UNIV 151.

Notes: This course is for students in the INTO Mason Pathway Program. Only one of UNIV 101, UNIV 141, or UNIV 151 can be taken for credit.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2
When Offered: Fall, Summer, Spring

UNIV 150 - First Year Living Learning Communities

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
This course is available for students who are members of a first year LLC. It is the learning component of the program for students who live together on a residence hall floor. The course follows the core University 100 curriculum, but is tailored to the particular theme or academic discipline of the LLC.

Equivalent to UNIV 100, UNIV 108, UNIV 140, UNIV 160.

Prerequisite(s): Freshmen standing.
Notes: Only one of UNIV 100, UNIV 108, UNIV 140, UNIV 150 or UNIV 160 can be taken for credit.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

UNIV 151 - First Year Living Learning Communities Extended Transition

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
This course serves as a continuation of University 150 into the second freshman semester. It extends the transition support of students in the First Learning Communities Program.

Equivalent to UNIV 101, UNIV 141.

Notes: Only one of UNIV 101, UNIV 141, or UNIV 151 can be taken for credit.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 0-1
UNIV 160 - University Scholars Transition Seminar

Credits: 1
Not Repeatable for Credit
Offered by the Provost's Office.
A first year transition seminar for students in the University Scholars Program.

Equivalent to UNIV 100, UNIV 108, UNIV 140, UNIV 150.

Prerequisite(s): Admittance to the University Scholars Program.
Notes: Only one of UNIV 100, UNIV 108, UNIV 140, UNIV 150 or UNIV 160 can be taken for credit.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

UNIV 170 - Special Topics

Credits: 0-1
Repeatable within Term for Credit
Offered by the Provost's Office.
Varied UNIV course topics are offered to first and second year undergraduate students.

Notes: Repeatable for a maximum of 3 credits if course content differs.

Schedule Type: SEM
When Offered: Fall, Spring, Summer

UNIV 190 - Introduction to Research Opportunities

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
Provides an opportunity to learn more about participating in research and creative projects at Mason and acquire skills needed to be successful in research.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
Grading: Satisfactory/No Credit
When Offered: Fall, Spring
UNIV 220 - Decide and Confirm Majors

Credits: 2
Not Repeatable for Credit
Offered by the Provost's Office.
This course focuses on helping students clarify or choose a major or career. Students explore and assess their interests, values and skills, as well as research various majors, careers, and the world of work as information for the decision-making process.

Prerequisite(s): Second-semester freshman standing.
Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 2
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

UNIV 250 - Second Year Living Learning Communities

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
Students in a Second Year Living Learning Community live together on a residence hall floor and attend this course together to fulfill the learning component of the LLC program.

Notes: For students who are members of a Second Year Living Learning Community.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0
When Offered: Fall

UNIV 300 - Transfer Transition

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
This course assists new transfer students with a successful transition to Mason. This course addresses academic success, time management, and course schedule planning, as well as graduate school/career readiness, degree requirements, and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community.

Equivalent to UNIV 302, UNIV 303, UNIV 304, UNIV 305, UNIV 308.

Notes: Only transfer students in their first or second semester at Mason are eligible to take this course.
Only repeatable with department approval.
Only one of UNIV 300, UNIV 302, UNIV 303, UNIV 304, UNIV 305, or UNIV 308 may be taken for credit.

Schedule Type: SEM
UNIV 302 - College of Science Transfer Transition

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
This course is intended for new transfer students in the College of Science to assist them with a successful transition to Mason. This course addresses academic success, time management, and course schedule planning, as well as graduate school/career readiness, degree requirements, and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community.

Equivalent to UNIV 300, UNIV 303, UNIV 304, UNIV 305, UNIV 308.

Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Only one of UNIV 300, UNIV 302, UNIV 303, UNIV 304, UNIV 305, or UNIV 308 may be taken for credit.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

UNIV 303 - Veteran Transition

Credits: 1
Not Repeatable for Credit
Offered by Provost
This course is for students with veteran status. Based on theory and research specific to the needs of veterans, this course builds a foundation for success in college and beyond, including career planning, translating military experience on a resume, practical interviewing techniques, and networking and engaging with other veterans in a military-friendly environment.

Equivalent to UNIV 300, UNIV 302, UNIV 304, UNIV 305, UNIV 308.

Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Only one of UNIV 300, UNIV 302, UNIV 303, UNIV 304, UNIV 305, or UNIV 308 may be taken for credit.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

UNIV 304 - Bachelor Individualized Studies Transfer Transition

Credits: 1
Not Repeatable for Credit
Offered by the Provost's Office.
This course serves new transfer students in the Bachelors of Individualized Studies (BIS) program, and assists them with a successful transition to Mason. Students develop relationships with peers, staff, and faculty. They are introduced to campus resources, with special emphasis on research and writing resources and tools, and work closely with BIS academic advisors and faculty.

Equivalent to UNIV 300, UNIV 302, UNIV 303, UNIV 305, UNIV 308.

**Notes:** Only transfer students in their first or second semester at Mason are eligible to take this course.
Only repeatable with department approval.
Only one of UNIV 300, UNIV 302, UNIV 303, UNIV 304, UNIV 305, or UNIV 308 may be taken for credit.

**Schedule Type:** SEM
**Hours of Lecture or Seminar per week:** 1
**Hours of Lab or Studio per week:** 0

---

**UNIV 305 - College of Humanities and Social Sciences Transfer Transition**

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
Assists new transfer students in the College of Humanities and Social Sciences with a successful transition to Mason. Addresses academic success, educational planning, and career preparation, in addition to degree requirements and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community.

Equivalent to UNIV 300, UNIV 302, UNIV 303, UNIV 304, UNIV 308.

**Notes:** Only transfer students in their first or second semester at Mason are eligible to take this course.
Only repeatable with department approval.
Only one of UNIV 300, UNIV 302, UNIV 303, UNIV 304, UNIV 305, or UNIV 308 may be taken for credit.

**Schedule Type:** SEM
**When Offered:** Fall, Summer, Spring

---

**UNIV 308 - Mason Transition**

Credits: 0-1
Repeatable within Degree for Credit
Offered by the Provost's Office.
Specialized transition to Mason courses with identified student populations.

Equivalent to UNIV 300, 302, 303, 304, 305.

**Notes:** Only repeatable with department approval. Only one of UNIV 300, UNIV 302, UNIV 303, UNIV 304, UNIV 305, or UNIV 308 may be taken for credit.

**Schedule Type:** SEM
**When Offered:** Fall, Spring, Summer
UNIV 310 - Academic Success

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
Focuses on academic strengthening and planning issues for students in their third year or later. Emphasis is placed on resources and techniques to assist students with improving their academic performance. Students work closely with the instructor to track their academic progress over the course of the semester.

Notes: Only students with junior standing or above are eligible for this course. Other students should take UNIV 110: Academic Success.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
When Offered: Fall, Summer, Spring

UNIV 320 - Internship and Career Readiness

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
This course helps students confirm major/career choices and actively pursue internships, research assistantships, and other career-related experiences. With a focus on career readiness, students prepare a resume and cover letter, practice interviewing techniques, and conduct career research.

Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

UNIV 330 - Peer Leadership: Peer Advisors

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
This course prepares upperclass students to serve as University 100 Peer Advisors, a role that helps first-year students transition successfully from high school to college. This course provides Peer Advisors with the necessary information, tools, and resources to co-teach University 100 effectively.

Notes: For students who have been selected as a Peer Advisor by the University Transitions Program. Only repeatable with department approval.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
UNIV 331 - Peer Leadership: Patriot Leaders

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
This course introduces students who will serve as Patriot Leaders to the principles of effective leadership. Students will apply knowledge gained through the course directly to their roles and responsibilities as Patriot Leaders through readings and discussions, experiential activities, and class assignments.

Notes: For students who have been selected as a Patriot Leader by the Office of Orientation and Family Programs and Services. Only repeatable with department approval.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0

UNIV 332 - Peer Leadership: Resident Advisors

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
This course provides ongoing support, education, and practical application techniques to assist Resident Advisors in becoming more accomplished leaders who support Mason's Residential Education priorities.

Notes: For students who have been selected as a Resident Advisor by the Office of Housing and Residence Life. Only repeatable with department approval.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

UNIV 333 - Peer Leadership: Peer Mentors

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
Prepares students to serve as Peer Mentors in a variety of Mason departments and programs. Students learn and put into practice leadership approaches and strategies. They become familiar with communication tools and campus resources that will enable them to mentor fellow students successfully.

Notes: For students who have been selected as a Peer Mentor in a Mason department or program. Only repeatable with department approval.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0
UNIV 350 - Third Year Living Learning Communities

Credits: 0-1
Not Repeatable for Credit
Offered by the Provost's Office.
Students in a Third Year Living Learning Community live together on a residence hall floor and attend this course together to fulfill the learning component of the LLC program.

Notes: For students who are a member of a Third Year Living Learning Community.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 0-1
Hours of Lab or Studio per week: 0
When Offered: Spring

UNIV 370 - Special Topics

Credits: 0-1
Repeatable within Term for Credit
Offered by the Provost's Office.
Notes: Repeatable for a maximum of 3 credits if course content differs.

Schedule Type: SEM
When Offered: Fall, Spring, Summer

UNIV 391 - Students as Scholars Scholarly Inquiry

Credits: 0-9
Repeatable within Degree for Credit
Offered by the Provost's Office.
Students contribute to scholarly, research, or creative projects by engaging in the recursive process of scholarly inquiry as preparation for participation in an individualized original project. Students will hold regular meetings with their project mentor, and make satisfactory contributions to the project.

Notes: Enrollment only with permission from OSCAR.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0-9
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring.

UNIV 420 - College to Career
Credits: 1
Not Repeatable for Credit
Offered by the Provost's Office.
This course supports second semester juniors and seniors with transitioning into the professional workplace. Students develop a tailored resume and cover letter, refine their interviewing skills, and discuss important workforce issues, such as compensation packages and workplace dynamics.

Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

UNIV 421 - College to Graduate School

Credits: 1
Not Repeatable for Credit
Offered by the Provost's Office.
This course supports second semester juniors and seniors. The academic emphasis is on transition readiness for graduate or professional school. Students learn about application and testing options and strategies, interviewing skills, budgeting, and career development.

Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

UNIV 422 - Developing Your Professional Edge

Credits: 1
Not Repeatable for Credit
Offered by the Provost's Office.
This course simulates a professional work environment and provides an opportunity to demonstrate desired workplace competencies. The academic emphasis includes: applying basic consultation skills to diagnose and propose innovative solutions to a problem, developing performance management documents; giving and receiving feedback, building workplace relationships, and creating a professional image.

Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring
UNIV 490 - Critical Decisions in Postgraduate Transitions

Credits: 0-1
Repeatable within Degree for Credit
Offered by the Provost's Office.
This course guides and supports students through the postgraduate fellowship application process and postgraduate decisions. Students create a resume, complete a fellowship application, prepare for a scholarship interview, and refine their educational and career goals.

Notes: Enrollment through the Office of Fellowships.
Only repeatable with approval from the Office of Fellowships.

Schedule Type: SEM
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0
When Offered: Fall, Summer, Spring

UNIV 491 - RS: Students as Scholars Individualized Scholarly Experience

Credits: 0-9
Repeatable within Degree for Credit
Offered by the Provost's Office.
Students actively participate in the process of scholarship and make a significant contribution to the creation of scholarly, research, or creative project. Students meet regularly with their project mentor, make satisfactory progress towards the completion of the project, and create a disciplinary product for evaluation.

Designated as a research and scholarship intensive course.

Notes: Enrollment only with permission from OSCAR.

Schedule Type: IND
Hours of Lecture or Seminar per week: 0-9
Hours of Lab or Studio per week: 0
When Offered: Fall, Spring

UNIV 495 - RS: Undergraduate Research Scholars Program Seminar

Credits: 0-3
Not Repeatable for Credit
Offered by the Provost's Office.
Students accepted into Undergraduate Research Scholars Program participate in a weekly seminar, hold regular meetings with their project mentor, and make satisfactory progress on their research or creative project. At the end of the semester, students either complete their project and present the results in a professional context, or apply for continuation through UNIV 496. See oscar.gmu.edu for more information and application.

Designated as a research and scholarship intensive course.

Notes: Enrollment only with acceptance into the URSP through OSCAR.
UNIV 496 - RS: Undergraduate Research Scholars Program Continuation

Credits: 0
Repeatable within Degree for Credit
Offered by the Provost's Office.
Students continuing their participation in the Undergraduate Research Scholars Program hold regular meetings with their project mentor and make satisfactory progress on their research or creative project. At the end of the semester, students either complete their project and present the results in a professional context, or apply for continuation. See oscar.gmu.edu for more information and application.

Designated as a research and scholarship intensive course.

Prerequisite(s): UNIV 495.
Notes: Enrollment only with acceptance into the URSP through OSCAR.

Urban and Suburban Studies (USST)

Offered by the Schar School of Policy and Government (formerly SPGIA)

USST 301 - Urban Growth in a Shrinking World

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)

Examines process of urbanization historically and comparatively. For major world regions, attention is given to the political economy of urbanization and its impact on social and economic relations. Examines growing globalization of the world economy, implications for urban life, and urban political economy of the future.
Designated a Green Leaf Course.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
USST 390 - Special Topics in Urban and Suburban Studies

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Subject varies according to specialization of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

USST 401 - Seminar: The Future of Metropolitan America

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Examines trends in the development of American metropolis, including impact of information economy and technological developments on metropolitan form and life, continuing outward growth and increasing decentralization of metropolitan areas, changing functional organization of urban space, and continued social segregation in metropolitan areas. Analyzes contemporary predictions about future of metropolitan life in America, and explores how alternative public policies can shape that future. Students work on research projects in metro area.

Prerequisite(s): 12 credits of USST-approved courses, including USST 301.
Schedule Type: SEM
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

USST 490 - Internship

Credits: 3
Not Repeatable for Credit
Offered by Schar School of Policy and Government (formerly SPGIA)
Approved work-study programs that focus on urban and suburban issues with an approved agency or firm. Placement depends on student qualifications and availability of positions. Students work with onsite supervisor and coordinator of urban and suburban studies.

Prerequisite(s): Open only to students with 12 credits of USST; see USST coordinator
Schedule Type: INT
Hours of Lecture or Seminar per week: 1
Hours of Lab or Studio per week: 0

Women and Gender Studies (WMST)

Offered by the College of Humanities and Social Sciences
WMST 100 - Representations of Women

Credits: 3
Not Repeatable for Credit
Offered by Women and Gender Studies
Explores ways women are portrayed in advertising, television, film, photographs, cartoons, performance arts, literature, religious texts, and news media from various worldwide sources. Through interdisciplinary study students will evaluate the powerful effects these representations have on the political, economic, and social lives of women throughout the world.

Fulfills Mason Core requirement in global understanding.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 200 - Introduction to Women and Gender Studies

Credits: 3
Not Repeatable for Credit
Offered by Women and Gender Studies
Interdisciplinary introduction to women's studies, encompassing key concepts in the field, history of women's movements and women's studies in America, cross-cultural constructions of gender, and a thematic emphasis on the diversity of women's experience across class, race, and cultural lines.

Fulfills Mason Core requirement in social and behavioral science.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 300 - Current Issues in Women and Gender Studies

Credits: 1-6
Repeatable within Term for Credit
Offered by Women and Gender Studies
Study of selected topics central to contemporary women and gender studies. Topics vary but include subjects such as women and violence, women and international development, women's myth and ritual, LGBTQ topics, the history and politics of sexuality, psychoanalysis, and religion.

Notes: May be repeated for credit when topic is different.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-6
Hours of Lab or Studio per week: 0

WMST 303 - Psychology of Women
WMST 306 - Topics in Communication and Gender

Credits: 3
Repeatable within Degree for Credit
Offered by Women and Gender Studies
Exploration of selected topics involving gender and communication. Topics may include women in media, women as rhetors, male/female communication, and communication and sex roles. Specific interests are examined in a seminar setting.

Prerequisite(s): 60 credits.
Notes: Course may be repeated with approval of department.

WMST 307 - Women and Work

Credits: 3
Not Repeatable for Credit
Offered by Women and Gender Studies
Historical and contemporary accounts of women's participation in paid and unpaid labor. Analyzes the nature of women's work through the divisions in the labor market due to gender, race, nationality, ethnicity, and class. Provides a detailed look at occupational sex segregation, sexual harassment, the glass ceiling, and the role of religion, culture, and education in determining women's opportunities and their value as workers and as family providers.

Prerequisite(s): 30 credits.

WMST 308 - Introduction to Lesbian, Gay, Bisexual, Transgender, Transsexual, and Queer Studies

Credits: 3
Not Repeatable for Credit
Offered by Women and Gender Studies
Explores major events in lesbian, gay, bisexual, transgender, transsexual, and queer culture and history in the United States and throughout the world to understand how identities, experiences, and movements have been socially constructed and have changed in different times and places, often as a result of race, class, and gender inequities.

**Schedule Type: LEC**
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

### WMST 309 - Black Social Movements: Gendering of Violence and Activism

Credits: 3  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Examines racialized gendered conceptions of popular culture, violence, and the legal system and their role in structuring systems of segregation, discrimination and exclusion. Looks at the gendered strategies and conflicts of organizations that arose to combat racial violence and overturn legal and social barriers to equal opportunity and citizenship rights.

**Schedule Type: LEC**
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

### WMST 312 - Gender, Trauma, and Recovery

Credits: 3  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Explores the experience of emotional trauma, the process of recovery and the etiology of healing in contemporary North American culture. Investigates memoir, poetry, film, and novel as case studies of trauma and examines the effect of gender on traumatic experiences. Applies psychological and feminist theoretical perspectives.

**Schedule Type: LEC**
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0

### WMST 313 - Women Who Kill

Credits: 3  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Questions the assumptions that women are nonviolent by nature and commit acts of violence only in response to abuse. Explores the complexity of human interactions through popular culture, literature and film and through theoretical works that attempt to explain female violence (compared to male violence) and as it is seen by others.

**Schedule Type: LEC**
**Hours of Lecture or Seminar per week:** 3
**Hours of Lab or Studio per week:** 0
WMST 314 - Stories of Gender and Human Rights

Credits: 3  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Examines global human rights issues through memoir, poetry and fiction. Explores the ways women use literary expression to voice their dissent and to struggle against human rights violations.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

WMST 315 - Women During the Enslavement Era

Credits: 3  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Examines the general experiences of enslaved women and nominally free women. Includes the lives of female reformers involved in the public arena as orators, writers, preachers, abolitionists and women's rights activists. Explores the effect of gender, class, and race on the development of ideologies concerning abolition, colonization, women's rights, and enslavement.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

WMST 316 - Gendered Pan-Africanism

Credits: 3  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Gendered Pan-Africanism. Explores the writings and activism of African Americans who traveled to Africa in search of a shared cultural past and present or an opportunity to build pan-African allegiances. Examines these encounters within the context of the Cold War, US civil rights and African anti-colonial movements, and racial and gender ideologies of the time.

Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

WMST 330 - Theoretical Perspectives in Women and Gender Studies

Credits: 3  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Examination of feminist and queer critiques and transformations of the theories, methods, and methodologies of the sciences and
humanities.

Prerequisite(s): WMST 200, or permission of instructor.
Notes: Typically offered ONLY in the spring semester.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 390 - Study Abroad

Credits: 1-3
Not Repeatable for Credit
Offered by Women and Gender Studies
Study abroad under supervision of George Mason University faculty. Course topics, content and locations vary.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

WMST 400 - Internship in Women and Gender Studies

Credits: 1-3
Repeatable within Degree for Credit
Offered by Women and Gender Studies
Community- or campus-based service or experiential learning related to women's or gender issues. Independent course in which students develop, in consultation with a faculty member, individual contracts defining the learning and competencies they plan to gain from the experience. Includes a paper and/or portfolio component.

Prerequisite(s): Completion of 60 credits, including WMST 200, or permission of instructor.
Notes: May be repeated for credit, up to 6 credits.

Schedule Type: INT
Hours of Lecture or Seminar per week: 1-3
Hours of Lab or Studio per week: 0

WMST 401 - Experiential Learning in Women and Gender Studies

Credits: 1-3
Repeatable within Degree for Credit
Offered by Women and Gender Studies
Community- or campus-based service or experiential learning as it relates to a specific WMST course, taken at the same time. Students develop, in consultation with faculty member, individual contracts defining learning and competencies they plan to gain from the experience.

Prerequisite(s): Concurrent enrollment in women and gender studies course and approval of advisor and instructor.
Notes: May be repeated for credit up to total 6 credits, but only 3 credits of WMST 400 or 401 may be applied toward the women
and gender studies interdisciplinary minor.

**WMST 402 - Queer Theory**

Credits: 3  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Challenges rigid categories and definitions in order to create a space for marginalized voices. Examines the inconsistencies and erasures that often characterize notions of sex, gender, sexuality, and sexual desire. Explores categories that intersect with sexualized identities such as race, ethnicity, class, nationality, location, and age.

**WMST 405 - Social Dynamics of Family Violence**

Credits: 3  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Through seminar readings, videos, assignments, and class discussions, course explores forms of family violence, including child abuse, elder abuse, and intimate partner, and same-gender couple violence. Includes discussions of intervention, prevention and solutions.

**WMST 406 - Gender and Violence in Social Institutions**

Credits: 3  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Examines gender-based violence in institutions such as the military, prisons, the Catholic Church, sports, and fraternities that share structural qualities including sex segregation, high rates of violence, and internal systems of justice. Concludes by examining strategies to reduce violence in each institution.
WMST 410 - Feminist Approaches to Social Research

Credits: 3
Not Repeatable for Credit
Offered by Women and Gender Studies
Introduction to feminist approaches to social research for advanced undergraduate students. Students learn the techniques for collecting, analyzing, and writing-up research data as they examine many of the central methodological issues and questions raised by feminist scholars undertaking social research. Because an understanding of how to conduct social research is best gained through experience in the social world, this course emphasizes a learning-by-doing approach.

Prerequisite(s): 60 credits, including 9 credits of WMST course work, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 411 - RS: Feminist Research Practice

Credits: 3
Not Repeatable for Credit
Offered by Women and Gender Studies
Undertake a semester-long research project investigating an issue of importance to feminist scholarship utilizing a variety of methods typically used by feminist scholars, including quantitative, qualitative, historical, or textual. Enhance understanding of techniques for collecting, analyzing, and writing up empirical material as well as critical engagement with ethical, interpretive, and representational considerations relating to feminist research.

Designated as a research and scholarship intensive course.

Prerequisite(s): WMST 410 or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 427 - Feminist Political Thought

Credits: 3
Not Repeatable for Credit
Offered by Women and Gender Studies
Explores feminist political thought in historical context. Topics include feminist political movements, feminist critiques of political philosophy, and feminist contributions to political theory.

Prerequisite(s): GOVT 101, WMST 200, 3 credits of philosophy, or permission of instructor.
Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0

WMST 450 - Current Topics in Women and Gender Studies
Studies selected topics central to contemporary women and gender studies. Includes topics such as women and violence, women and international development, women's myth and ritual, LGBTQ topics, the history and politics of sexuality, disability, transnational issues and religion.

**Prerequisite(s):** 60 credits or permission of instructor.

**Schedule Type:** SEM

**Hours of Lecture or Seminar per week:** 3

**Hours of Lab or Studio per week:** 0

---

**WMST 490 - Independent Study in Women and Gender Studies**

Credits: 1-3
Repeatable within Degree for Credit
Offered by Women and Gender Studies

Reading or research on a specific topic related to women and/or gender issues, under the direction of a faculty member. May involve a combination of reading assignments, tutorials, papers, presentations, or off-campus activities.

**Prerequisite(s):** 9 WMST credits including WMST 200, or permission of instructor.

**Notes:** May be repeated for credit up to a total of 6 credits.

**Schedule Type:** IND

**Hours of Lecture or Seminar per week:** 1-3

**Hours of Lab or Studio per week:** 0

---

**WMST 505 - Social Dynamics of Family Violence**

Credits: 3
Not Repeatable for Credit
Offered by Women and Gender Studies.

Through seminar readings, videos, assignments, and class discussions, course explores forms of family violence, including child abuse, elder abuse, and intimate partner, and same-gender couple violence. Includes discussions of intervention, prevention and solutions.

**Schedule Type:** SEM

---

**WMST 506 - Gender and Violence in Social Institutions**

Credits: 3
Not Repeatable for Credit
Offered by Women and Gender Studies.

Examines gender-based violence in institutions such as the military, prisons, the Catholic Church, sports, and fraternities that share structural qualities including sex segregation, high rates of violence, and internal systems of justice. Concludes by examining strategies to reduce violence in each institution.
WMST 550 - Current Topics in Women and Gender Studies

Credits: 1-3
Repeatable within Term for Credit
Offered by Women and Gender Studies
Studies selected topics central to contemporary women and gender studies. Includes topics such as women and violence, women and international development, women's myth and ritual, LGBTQ topics, the history and politics of sexuality, disability, transnational issues and religion.

WMST 600 - Special Topics

Credits: 3
Repeatable within Term for Credit
Offered by Women and Gender Studies
Study of selected topics central to contemporary women and gender studies. Topics vary but include representation and images, violence, public policy, international development, transmigration of labor, myth and ritual, history and politics of sexuality, psychoanalysis, and religion.

Notes: May be repeated for credit when topic is different.

WMST 610 - Feminist Approaches to Social Research

Credits: 3
Not Repeatable for Credit
Offered by Women and Gender Studies
Provides an introduction to feminist approaches to social research. Students collect, analyze, and write-up research data as they examine many of the central methodological issues and questions raised by feminist scholars. These include feminist critiques of positivism, feminist standpoint theory, social action research models, and feminist engagements with ethical concerns in doing research with human subjects. Emphasizes a learning-by-doing approach to prepare students to conduct research.

Prerequisite(s): Graduate standing and 3 credits of 600-level WMST course work, or permission of instructor.

Schedule Type: LEC
Hours of Lecture or Seminar per week: 3
Hours of Lab or Studio per week: 0
WMST 611 - Feminist Research Practice

Credits: 3  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Undertake a semester-long research project investigating an issue of importance to feminist scholarship utilizing a variety of methods typically used by feminist scholars, including quantitative, qualitative, historical, or textual. Enhance understanding of techniques for collecting, analyzing, and writing up empirical material as well as critical engagement with ethical, interpretive, and representational considerations relating to feminist research.

Prerequisite(s): WMST 610 or permission of instructor.  
Schedule Type: LEC  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

WMST 630 - Feminist Theories across the Disciplines

Credits: 3  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Multidisciplinary course examines the central issues of feminist theory and explores the various strategies of feminist theorists. Analyzes the ways in which feminist theories have challenged established disciplinary boundaries and contested the traditional assumptions of the humanities, the social sciences, and the sciences.

Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

WMST 640 - Women and Global Issues

Credits: 3  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Multidisciplinary course explores the complex issues women face in different regions of the world. Addresses women's diverse and shared global concerns and provides students with the tools to analyze and understand women in a global context.

Prerequisite(s): Graduate standing.  
Schedule Type: SEM  
Hours of Lecture or Seminar per week: 3  
Hours of Lab or Studio per week: 0

WMST 690 - Directed Readings and Research in Women and Gender Studies

Credits: 3  
Repeatable within Term for Credit  
Offered by Women and Gender Studies
Advanced individualized study of gender through readings, discussion, research, and/or projects under the direction and supervision of a member of the women's studies faculty.

**Prerequisite(s):** Admission to graduate program in woman's studies and permission of director.

**Notes:** May be repeated for a maximum of 9 credits.

**WMST 695 - Internship**

Credits: 3  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Community or campus-based service or experiential learning related to women's or gender issues. Students develop, in consultation with a faculty member, individual contracts defining the learning and competencies they plan to gain from the experience.

**Prerequisite(s):** Completion of 15 graduate credits in Interdisciplinary Studies, including 9 credits in Women and Gender Studies or permission of instructor.

**Schedule Type:** INT  
**Hours of Lecture or Seminar per week:** 3  
**Hours of Lab or Studio per week:** 0

**WMST 699 - Capstone Portfolio**

Credits: 0  
Not Repeatable for Credit  
Offered by Women and Gender Studies  
Prior to graduation and in consultation with their advisor, students will reflect on and synthesize their work in the women and gender studies certificate program by selecting three items taken from their work in the program and discussing these items in a 7-10 page essay. Work selected may include course papers, videos of their performances, exhibit photos, music recordings, and other items as agreed upon by student and advisor.

**Prerequisite(s):** Students must have completed their course work for women and gender studies certificate or be in the last semester of their course work.

**Schedule Type:** IND  
**Hours of Lecture or Seminar per week:** 0  
**Hours of Lab or Studio per week:** 0  
**Grading:** Satisfactory/No credit only
