Administration

- Janette Kenner Muir, Academic Director and Associate Provost for Academic Initiatives and Services
- Marcy R. L. Glover, Curriculum Coordinator
- Krystal Dains, Coordinator, Volgenau School of Engineering concentrations
- Jane Walker, Coordinator, School of Conflict Analysis and Resolution concentration
- Hermione Pickett, Adult Learning Advisor

The Bachelor of Applied Science (BAS) is an undergraduate liberal arts degree program for adult learners. It is designed primarily to deepen student knowledge in an academic area and foster critical thinking, analytic reasoning, and an ability to synthesize information.

The BAS articulates well with specialized Applied Associate Science (AAS) degree programs, providing a streamlined path to completion of traditional academic requirements leading to the baccalaureate degree. It meets students' professional and personal goals while developing a depth of knowledge and proficiency of skill that translates well to the workplace. However, it is not organized in the same way as a traditional baccalaureate degree. Students planning graduate study should consult with an academic advisor prior to undertaking this degree program.

Admissions & Policies

Admissions

As a prerequisite to enrollment in the BAS, students must be at least 7 years out of high school and have received an Associate of Applied Science (AAS) degree from an accredited two-year institution in an approved area of specialization. The AAS degree will normally fulfill some, but not all, Mason Core requirements. Students who do not meet the 7 year rule may be eligible for an Admissions waiver if additional criteria are met. Details are available at the program’s website. (http://bas.gmu.edu)

Policies

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies.

Program Requirements

BAS students must fulfill all requirements for bachelor’s degrees including Mason Core requirements, to include 45 credits of upper-level coursework. All Mason Core requirements must be met with either George Mason courses or transferrable equivalents.

The minimum credit requirement for a bachelor’s degree is 120 credits; however, while there is some variation between concentration areas, fulfilling all Mason Core requirements and an academic concentration or specialization is likely to require most BAS students to complete at least 63-66 credits at George Mason, which may lead to over 120 credits of coursework in order to receive the degree.

Admitted BAS students will be academically advised by the appropriate BAS Program concentration Advisor to plan their course of study including completion of the Mason Core, the BAS concentration or specialization, and any remaining requirements. See t (http://bas.gmu.edu)he website (http://bas.gmu.edu) for more information.

The degree plan outlined is based on a student who transfers in a minimum of 30 credits from a completed AAS degree. Some of these credits may count only towards the elective requirement within the BAS degree.

Requirements

Degree Requirements

Total credits: 120-126

Concentrations are intended to provide focus for the BAS curriculum in an area relevant to the student’s AAS degree while allowing for the breadth of study associated with a liberal arts baccalaureate degree. Please note that determination of current transfer work for these concentrations may impact course requirements.

In addition to satisfying all Mason Core requirements, students must satisfy the requirements for one of the seven concentrations. Students who do not wish to pursue a concentration may seek permission to plan a course of study in a specialization outside the concentration areas in collaboration with the program advisor.

Concentration in Applied Conflict Analysis and Resolution (ACAR)

This concentration is in collaboration with the School for Conflict Analysis and Resolution.

CONF 490  RS: Integration (Mason Core)  3

Electives
In consultation with their advisor, students are required to take 18 credits of concentration coursework; at least 9 credits must be from the CONF department. The concentration list can be found in the catalog or on our website.

Total Credits 42

Electives (variable)
All BAS students are required to complete a minimum of 120 credit hours of coursework. Students will work with their advisor to determine how to fulfill their outstanding credit hours to ensure they have met all major and university requirements. The number of elective credits that a BAS student may have available will vary by concentration and the amount of applicable transfer coursework the student has been awarded.

Concentration in Conservation Studies (CNST)
This concentration is in collaboration with New Century College and the Smithsonian-Mason School of Conservation. This degree is ideal for students who have earned an AAS in Veterinary Technology. One semester of study at the Smithsonian-Mason School of Conservation is required for completion of degree requirements.

BAS 300  Building Professional Competencies  3
BAS 490  Introduction to Research Methods  3
BAS 491  Applied Sciences Capstone (Mason Core)  3
Select one of the Smithsonian Semesters listed below:  16

Smithsonian Semester: Conservation, Biodiversity and Society:
CONS 320  Conservation in Practice  3
CONS 401  Conservation Theory  3
CONS 402  Applied Conservation  3
CONS 410  Human Dimensions in Conservation (Mason Core)  3
CONS 490  RS: Integrated Conservation Strategies (Mason Core)  3

Smithsonian Semester: Wildlife Ecology and Conservation:
CONS 400  Conservation Seminar  3
CONS 404  Biodiversity Monitoring  3
CONS 405  Landscape and Macrosystems Ecology  3
CONS 496  Research in Conservation  3

Smithsonian Semester: Endangered Species and Conservation
CONS 400  Conservation Seminar  3
CONS 406  Small Population Management  3
CONS 491  RS: Conservation Management Planning (Mason Core)  3
CONS 496  Research in Conservation  3

Electives
Select a minimum of 15 required elective credit hours from the following:  15
INTS 318  Exploring Virginia’s Watersheds  3
INTS 331  The Nonprofit Sector  3
INTS 334  Environmental Justice  3
INTS 336  Poverty, Wealth and Inequality in the US  3

INTS 338  Animal Rights and Humane Education  3
INTS 395  Field-Based Work  3
INTS 402  Plants and People - Sustenance, Ceremony, and Sustainability  3
INTS 435  Leadership in a Changing Environment

Total Credits 40

1 Please note: All BAS students are required to complete a minimum of 120 credit hours of coursework. Students will work with their advisor to determine how to fulfill their outstanding credit hours to ensure they have met all major and university requirements. The number of elective credits that a BAS student may have available will vary by concentration and the amount of applicable transfer coursework the student has been awarded.

Concentration in Cyber Security (CYBS)
This concentration is in collaboration with the Volgenau School of Engineering and is only available to students who graduate with an AAS degree in Cyber Security from the Virginia Community College System.

Core Requirements
BAS 300  Building Professional Competencies  3
BAS 490  Introduction to Research Methods  3
BAS 491  Applied Sciences Capstone (Mason Core)  3

Concentration Requirements
IT 104  Introduction to Computing (Mason Core)  3
IT 105  IT Architecture Fundamentals  3
IT 223  Information Security Fundamentals  3
IT 304  IT in the Global Economy (Mason Core)  3
IT 343  IT Project Management  3
IT 357  Computer Crime, Forensics, and Auditing  3
IT 429  Security Accreditation of Information Systems  3
IT 462  Information Security Principles  3

IT Cyber Security
Specific courses must be taken at the community college to fulfill this requirement (15 credits met via transfer). Students should consult with their advisor.

IT Elective Transfer Courses
Specific courses must be taken at the community college to fulfill this requirement (15 credits met via transfer). Students should consult with an advisor.

Electives
Select 15 credit hours of required elective IT, MBUS or MIS coursework from the following, in consultation with the advisor.  15

MBUS 301  Managing People and Organizations in a Global Economy  3
MBUS 302  Managing Information in a Global Economy  3
MBUS 303  Marketing in a Global Economy  3
MBUS 304  Entrepreneurship: Starting and Managing a New Enterprise  3
MBUS 305  Introduction to International Business (Mason Core)  3
MBUS 306  Managing Projects and Operations  3
All BAS students are required to complete a minimum of 120 credit hours of coursework. Students will work with their advisor to determine how to fulfill their outstanding credit hours to ensure they have met all major and university requirements. The number of elective credits that a BAS student may have available will vary by concentration and the amount of applicable transfer coursework the student has been awarded.

## Concentration in Defense Information Systems Technology (DIST)
This concentration is in collaboration with the Volgenau School of Engineering and is only available to students who graduate with an AAS degree in Applied Science. All courses in this concentration have sections offered via distance learning.

- IT 441: Network Servers and Infrastructures
- IT 462: Information Security Principles
- IT 466: Network Security II
- IT 499: Special Topics in Information Technology

### Electives
Select 12-15 hours of required 300/400 level elective coursework, in consultation with the advisor as need to complete the required 45 hours

## Electives
All BAS students are required to complete a minimum of 120 credit hours of coursework. Students will work with their advisor to determine how to fulfill their outstanding credit hours to ensure they have met all major and university requirements. The number of elective credits that a BAS student may have available will vary by concentration and the amount of applicable transfer coursework the student has been awarded.

## Concentration in Health, Wellness and Social Services (HWSS)
This concentration is in collaboration with the College of Health and Human Services.

To enroll in this concentration, students must have an AAS in one of the following areas:

- Health Information Management
- Hospitality Management, Nutrition Management specialization
- Nursing
- Physical Therapist Assistant
- Respiratory Therapy

### Core Requirements

Concentration Requirements

1. All courses for this concentration are available in an online format with most offered as asynchronous delivery.

2. The Information Sciences and Technology department offers 1-credit, self-paced, online review courses; ending with an in-class final exam. Students who register for a 1-credit course and successfully pass will receive credit (not a waiver) for the corresponding 3-credit course. Students who are not successful must take the respective course at Mason to meet their degree requirements.

Review courses are available as follows:

- for IT 213 Multimedia and Web Design: IT 193 Review of Multimedia and Web Design
- for IT 214 Database Fundamentals: IT 194 Review of Database Fundamentals

Electives (variable)

All BAS students are required to complete a minimum of 120 credit hours of coursework. Students will work with their advisor to determine how to fulfill their outstanding credit hours to ensure they have met all major and university requirements. The number of elective credits that a BAS student may have available will vary by concentration and the amount of applicable transfer coursework the student has been awarded.
