The graduate certificate is a program offered jointly by George Mason University and Georgetown University Medical Center (GUMC). This program is aimed at students who have all of their core coursework and extracurricular prerequisites for medical, dental or other health-related fields, but otherwise may have a comparatively limited science background (non-science majors with only the pre-health curricular core, for example), modest grades in the sciences as undergraduates, and/or may also need to improve their Medical College Admission Test, Dental Admission Test, or other pre-professional scores. This is a 9-month full-time program that begins each fall semester. Most classes are held at George Mason University's Science and Technology Campus in Manassas Virginia with cadaveric anatomy labs held at GUMC.

The graduate certificate may be pursued on a full-time basis. The program is premium-priced with no tuition distinction between the in-state or out-of-state residency status.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure information page.

Admissions & Policies

Admissions
University-wide admissions policies can be found in Graduate Admissions Policies.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Applicants are expected to have a bachelor's degree from a regionally accredited university, the desire to pursue a career in medicine, dentistry, or other health-related career, completion of all of the prerequisite courses for medical or dental school (one year each of biology, chemistry, organic chemistry, physics and math), and overall credentials suitable for acceptance to graduate programs in the College of Science at George Mason University and the Georgetown University Graduate School of Arts and Sciences.

Policies
For policies governing all graduate programs, see AP.6 Graduate Policies.
